RIGAUD, the most important town
and a summer resort in Vaudreuil co.,
Montreal district, 2 miles south
of the Quai de Rigaud, a port of call
on the Ottawa River. It is a station
on the C.P.R. (Montreal to Ottawa
short line), 16 miles northwest of
Vaudreuil, and 41 miles west of Mont-
real. It is 8 miles east of St. Eugene,
Ont., on the same line, and 75 miles
east of Ottawa. It is the seat of Bour-
get college (400 pupils) and St. Anne's
convent (150 pupils). The Sanctuary of
Notre Dame de Lourdes, in Rigaud Mt.,
is in the summer season a place of
frequent pilgrimage. The Rigaud River
Navigation Co. supplies semi-weekly
steamers to Montreal and weekly to
Ottawa. The town has 1 R. C.
church, 6 stores, 1 foundry, 1 branch
bank, saw, grist, carding and fulling
mills, and one of the largest powder
mills in the Dominion, besides ex-
press and telegraph offices. Pop. of
town, census 1911, 856; of parish, 1914
estimated 1,256

RIMOUSKI, an incorporated town and watering place, capital of Rimouski co. and district, on the south shore of the St. Lawrence, and on the L.C.R., 180 miles from Quebec. It contains besides the county buildings, a Roman Catholic cathedral, Bishop's Palace, 1 seminary, 3 convents (St. Rosary Sisters, Charity Sisters and Ursuline), 1 Brother's monastery, 2 banks (Nationale and Canadian Bank of Commerce), 1 normal school, saw and flour mills, wood pulp and sash and door factories, 1 hospital, 1 court house, 1 gaol, 2 telephone offices, customs and quarantine offices, 39 stores, 3 hotels, 5 boarding houses, 1 printing office and 2 telegraph offices. It is the first port of call inward for Royal Mail steamers, all mail matter being landed and forwarded to destination by rail. It is the last point of contact on the St. Lawrence of the L.C.R. with navigable waters. It is also the last port of call for European steamers to take on passengers and freight before proceeding on their voyage. Vessels of the largest tonnage load here with timber and freight for foreign ports. The sea-bathing facilities are unsurpassed, and consequently induce a large number of health-seekers to visit it during the hot season. It is also the location, office and residence of the American consul for the consular district having under its jurisdiction the consular agencies at Cabano, P.Q. and Edmunston, N.B. Pop., census 1911, 3,097.

ST. JEAN OR ST. JOHNS, is situated in the county of the same name, on the Richelieu River, 27 miles from Montreal. It is the chef lieu of Ibergville district. The fort which lies at the south end of the town, was built by the French in 1667 as a protection against the incursions of the Indians. It is a station of the G.T.R., Montreal to Rouses Point division, and of the C.P.R. (Montreal to Newport). It is also a station of the C.V.R. and the Q.M. & S.Ry. connecting with St. Hyacinthe and Sorel has a station at Ibergville Junction on the opposite side of the River. A ship canal, to avoid the rapids near St. Johns, connects with Chambly. It contains besides the county buildings, 3 churches (Roman Catholic, Anglican and Methodist), 4 branch banks, High School, College, Convent and Hospital, and many important manufacturing industries, among which may be mentioned the Singer Sewing Machine Co., the Belding Paul Corticelli Silk Works, Canada Grip Nut Co., Canadian Trenton Potteries Co., Ltd, Cluett Peabody & Co., Inc., Dominion Corrugated Steel Pipe Co., Insuladuct Products Co., Southam Canada Power Co., Standard Clay Products Co., and others.

Two weekly newspapers are published, "The News and Eastern Townships Advocate" in English, and "Le Canada Français" in French. A toll bridge over the Richelieu connects the town with Ibergville on the opposite shore. The town is governed by a Mayor and Corporation, has a good fire and po-

- lice force, is lighted with electricity and has a good system of water works. Pop. (census 1911) 5,903, 1914 (estimated) 7,500.

ST. LAMBERT, a suburban town on the south shore of the St. Lawrence directly opposite Montreal in the county of Chambly, district of Montreal, with a population about 4,500 and growing rapidly. It is an

important railway centre, with an electric railway to Montreal, operated by the Montreal & Southern Counties Railway Co., making 50 trips each way; fare single, 15c. return 25c; ten trips 75c, 55 trips \$2.75; and has an excellent train service by the Grand Trunk railway, with over twenty trains each way daily. Return 25c, single 15c, on suburban trains, return good for day of issue only, 25c; return good for 1 month 35c; single fare on regular train 25c; by commutation tickets, 10 trips for 75c., 55 trips for \$2.75 or 5c. a trip.

The Victoria Jubilee Bridge spans the St. Lawrence here, and all trains to and from the City stop at the railway station. Several lines of railway run here, viz: Grand Trunk for points South, East and West; I.C.R. for Halifax; Central Vermont for Farnham, New York and Boston, Delaware and Hudson for New York; south Shore Railway for Sorel and the Montreal Southern Counties Electric Railway. The distance to Longueuil, the county seat, is three miles; communication, by the electric railway. There are four churches (Roman Catholic, Presbyterian, Methodist and Episcopal), with resident cure and ministers. There is a large academy, conducted by the Protestant School Commissioners, with a staff of eleven teachers.

The Roman Catholic School Commissioners' school is now conducted by the sisters of the Holy names of Jesus and Mary and have a staff of five teachers for girls and two Brothers of the C.S. Viateur for the boys. They have built a convent that has cost \$80,000 to receive boy boarders. There is excellent boating on the river, and the St. Lambert Boat Club is recognized as one of the best clubs in the vicinity of Montreal. The residents are mostly employed in the City, and select it for a suburban home from its favorable situation and excellent means of communication at all seasons with the city. A wall along the river bank gives the Town a fine promenade of over 1,000 feet in length from which the view of Montreal, lighted at night by thousands of electric lights, is magnificent. During the winter months direct communication is had with Montreal by an ice road across the St. Lawrence on which considerable driving is done, and by the bridge. St. Lambert is being rapidly built up, and is destined to become a very
