ENGINE AND CARS JUMPED THE TRACK.

Ac ident on Q. C R. Resulted in Death of Engineer H. Parfrement, of Sherbrooke, and Injury of Fireman Hyatt—Inquest Begins.

The Coroner's investigation into Tuesday's fatal accident on the Quebec Central Railway near Tring Junction, is now progressing.

A verdict will probably be reached after the examining of further witnesses to-night.

The accident cost the life of locomotive driver H. Perferment. Fireman M. Hyatt is in the Protestant Hospital, suffering from injuries which, however, are not regarded as serious.

The Quebec Central authorities in a statement set forth the circumstances of the accident as follows:

"A special train of ten empty passenger coaches left Tring Junction for St. Samuel at about 10 o'clock. On the engine (No. 31), were Driver Perferment and Fireman Hyatt, of Sherbrooke. At a place about four miles south of Tring Junction the engine jumped the track and was followed by four of the coaches. The driver and fireman escaped from under the wreck of the engine but unfortunately Perferment was badly scalded. Fireman Hyatt received injuries which are not considered to be serious. The track at the point where the run off occurred was examined and found to be in perfect condition. Engine No. 31 has only been in service for a few months and is the newest and one of the best engines on the line. It has so far been impossible to locate any cause for the accident.

"Immediately after it happened, the train conductor, Mr. Fournier, went back to Tring Junction for assistance and within 45 minutes was back with medical attendance."

"Mr. Perferment leaves a widow and three children for whom the deepest sympathy is felt in their sad bereavement. The locomotive and three of the four passenger cars are reported to have been badly damaged and the loss to the Quebec Central Company in this respect will be considerable."

DIED ON WAY TO SHERBROOKE.

The two victims of the accident were brought to Sherbrooke by special train with doctors from Tring Junction in attendance on them. Shortly before they arrived at Sherbrooke Mr. Perferment succumbed to his injuries.

Mr. Hyatt was taken to the Protestant Hospital and is doing well.

The body of the dead engineer was taken to his home on Galt street. He is survived by his wife and several children.

The Coroner and jury visited the home of deceased last night, and after viewing the remains and taking some preliminary evidence the body was released for burial.

The funeral took place to St. Peter's church this afternoon at half-past two o'clock.

Engineer Perferment has been for some years in the employ of the company.

Fireman Hyatt's escape from the fate of the engineer, was very fortunate. His home is at Huntingville. He is a young man, unmarried. His father was killed some two years ago in building operations near Huntingville.

The wrecked engine and cars, it appears, was intended for a pilgrimage to Ste. Anne and was backing up to the point on the Tring-Megantic line from which the pilgrimage was to start. The cars being empty the engineer and fireman were the only persons endangered by the wreck.

ENGINEER CAUGHT IN WRECK.

Engineer H. Parfrement was conscious till near the end. He talked quite rationally with his fellow employees after the accident. After the engine went down it turned turtle and Parfrement was caught by one foot in the plates. The stop cocks were knocked off, with the result that steam and hot water poured down on the unfortunate engineer. As he was unable to clear his foot he had the presence of mind to undo the laces of his boot and thus free his foot. After doing so he cleared himself of the engine. It was not supposed at first that he was so seriously scalded owing to the fact that he was able to move around, and it is now supposed that he had not reached that stage of sensibility to feel the pain.

His body was in a terrible state. From the breast down to the feet the flesh and skin was hanging in strips. He was popular with his fellow employees who regret his unfortunate death.

THE INQUEST.

The inquest into the death of Engineer H. Parfrement was opened by Coroner Dr. L. C. Bachand, last night informally at the home of deceased on Galt street.

Several witnesses were examined. The inquest will be continued to-night at No. 1 Station.

The jury in the inquest are F. Payette (foreman), J. Bergeron, F. X. Boislard, Felix Lord, Joseph Jean, J. T. Martel.

In view of the reports that the tender of the engine in connection with the wreck had already run off several times, the witnesses were closely questioned on this point. It was stated that there had been one such mishap.

Coroner Bachand this morning took the disposition of Fireman Hyatt, at the Protestant Hospital.

CONDUCTOR FOURNIER'S ACCOUNT OF THE ACCIDENT.

Mr. Irenne Fournier, of Beauce Junction, conductor, in his evidence before the coroner, gives this account of the accident: "I have known the deceased for the past ten years. He was engineer on the train on which I was conductor. The accident occurred about four miles south of Tring Junction on the Megantic branch of the system. The train was going towards Megantic. Arthur Racine and Alphonse Faucher were acting as brakemen on the train. The train was composed of 11 empty passenger cars. The engine was going tender first when the accident took place. The accident took place about 11 o'clock. The tender went to one side of the tack and the engine to the other. The bank was about four feet high. The engine was a new one. I do not know of any other accident having happened to the engine. We were going at the rate of about 25 miles and hour, and I do not consider this excessive going tender first. The deceased was a sober man and a good engineer. The track, where the accident occurred appeared to be in good condition. I gave special attention to this in order to determine the cause of the derailment. The tender went off the track about three feet from a joint in the rails. I never heard that the tender of the engine was in a bad condition. On the contrary I believe it was in good order."

Dr. Lamy, of Sherbrooke, who made an external examination of the body at the request of the coroner, stated that the body was burned about two-thirds of its surface. The face, hands, breast and legs were very severely burned. In his opinion death must have been caused by the shock due to the burns received.

BRAKEMEN'S EVIDENCE.

Mr. Alphonse Faucher, who was a brakeman, stated that he had known the deceased for the past year, and was acting as one of the brakemen on the train. Witness was in the last car of the train when the engine went off the track. He was not aware that there was any defect in connection with the engine, and he did not know whether one of the trucks of the tender had been changed. After the accident witness made an examination but could not discover the cause of the accident.

Mr. Arthur Racine, who was also a brakeman on the train, stated that he had been acting in that capacity for the company for the past 28 days. He knew the deceased but slightly. Witness was in the second car of the train and knew but little of the accident.

SUPERINTENDENT STEELE TESTIFIES.

Mr. Andrew A. Steele, general superintendent of the Quebec Central Railway Company, stated that he had known the deceased since he entered the service of the company. The engine the deceased was on was one of the latest in the service of the company. It had been in use but eight months. In March last the front truck of the tender went off the rails, but no damage was done. The cause of the accident could not be determined. There was no visible defect in any part of the truck. After the accident witness had truck examined by engineers and they could find no defect. To make certain witness had the wheels of the truck removed and put in a lathe to verify them and they stood the test all right. Witness visited the place of the accident, and he could not explain the cause, and he was also unable to assure himself whether it was the engine or tender that first went off the track. He considered the engine to be one of the best in the possession of the company.

LOOKS EASY FOR WM. J. BRYAN.

Likely to be Chosen on First Ballot at Denver.

NO COALITION AGAINST HIM BY OPPOSITION CANDIDATES.

Denver, Col., July 2.—Claiming a victory on the first ballot, but overlooking no possible chance to make their triumphs certain, the followers of W. J. Bryan have been watching for any move on the part of his rivals that would compel him to go single-handed against the field, as Taft was obliged to show his strength in the early stages of the Chicago convention against the conbined forces of the "allies."

The arrival to-day, however, of the personal representatives of Judge Gray and Governor Johnson, the only candidates who are now expected to enter the race against Bryan, has failed to disclose any common ground between them. The Gray managers asserted that they had no intention of entering into a coalition with the followers of Johnson.

Horses continue to fall on the Wellington street sidewalk at Meadow street. Though this has been going on for two years or more, the city authorities refuse to take any notice. It is a case which might occupy the attention of the S.P.C.A.

MAN THREW HIMSELF IN FRONT OF ENGINE.

Cut to Pieces by Q. C. R. Train Yesterday.

APPEARS TO HAVE BECOME DAZED AND LOST HIS HEAD.

A man by the name of T. Pomerleau, of St. Henedine, was run over and cut to pieces yesterday, by the Q. C.R. train due here at 1 p.m.

This train was in charge of Conductor Jos. Guay and Engineer John Wark.

The trainmen came on to Sherbrooke with their train and returned last night for the inquest.

It appears that a freight train was standing on the siding. Pomerleau had apparently passed through under this train. The passenger was coming in at moderate speed on the other track. The man was seen by the engineer near the track but outside the danger point. He seems to have become dazed or frightened and practically threw himself in front of the engine.

The engine and several cars passed over him.

A verdict was rendered in accordance with the circumstances, no blame being attached to the trainmen.

Eighty Men Killed and Many Wounded in One Battle.

London, July 2.—The situation at Tabriz, Persia, continues to be very serious. Private despatches received here say that the people have erected barricades in the streets and the fighting is going on night and day. Tabriz and the entire province of Azerbaijan are strongholds of the revolutionists, and the arrival there Tuesday of troops to strengthen the forces of the Shah has increased the danger of the situation. The entry of troops to the city is opposed by the revolutionary forces.

No details are given of the recent fighting, but one of the despatches concludes with these words: "A good deal more bloodshed is expected before the trouble is settled."

THE BIRTHDAY OF THE DOMINION.

Eastern Townships People Enjoy General Holiday—Celebrations in Several Places—General Exodus of People From Sherbrooke.

Yesterday, the birthday of the Dominion, was spent happily though quietly by the people of the Eastern Townships.

In Sherbrooke, but for the flags lazily floating in the summer air, and a subdued air of festivity which prevailed, the streets wore their Sunday aspect. The exquisite weather was of course, a principal factor in the general enjoyment, and the crowds who left the city for neighboring resorts were quite unprecedented.

When a holiday comes to a city during the summer months the popular desire is to get out of town, to the parks, to the woods, or to the lakes. Hence, public Dominion Day celebrations for some years, have not been held in Sherbrooke.

A good many citizens, however, join in the demonstrations of nearby towns or villages.

Stanstead races, Coaticook festivities, Lake Scaswanipus, North Hatley and Garthby, and the Magog River all attracted numerous visitors, while at the St. Francis Golf Links, there were several luncheon parties, and a largely attended tea. Victoria Park was thronged from early in the forenoon till the last car left in the evening, and presented a charming and animated scene.

A BIG DAY AT COATICOOK.

Coaticook, Que., July 2.—(Special) —Crowds started pouring into town as early as Tuesday afternoon, in fact a large party arrived as early as 9 a.m. Tuesday morning from ten miles the other side of Canaan. It consisted of the Coaticook and Berlin Fire Companies; Mr. T. E. Garceau, wagon drawn by a sheep; Mayor T. T. Shurtleff in tandem driven by Pro-Mayor G.W. After dinner the racing programme was carried out and a baseball match between Coaticook vs. Waterville was played. The St. Cecile Boys' Band and the city Band dispensed music throughout the afternoon. The boys gave a very creditable musical drill drawing great applause. Major Hanson and the officers of the 7th Hussars inspected the Zouaves. The quick-hitch-up race was won by Mr. E. Smith and Mr. F. Sage, second.

The first prize of $5 for fancy rig races awarded to the Misses B. and J. Reed; 2nd prize to Miss N. Fox, and 3rd to Miss H. Ramsdell.

About twenty-five single, double and tandem turnouts were in the procession, which was headed by the Hatley Band.

In the afternoon games and footraces were pulled off. The tug-of-war, prize $10, was a long drawn out affair, but was finally won by the home team, they having to pull three other teams and a tie as well. The baseball game was the last event on the card and was also won by North Hatley from Capelton, the score being 22 to 4 in the former's favor.

YOUNGEST SON OF THE FAMILY.

(From Tit-Bits.)

Sir Henry Campbell-Bannerman was the youngest son of the family and the most distinguished. How often has this not proved to be the case! Coleridge and Washington Irving were the youngest of eleven children. Benjamin Franklin the last born of seventeen, Johann Christian, the eleventh and youngest of Johann Sebastian Bach's children, was also the greatest of them; Wagner, Mozart and Rubens were each the last of seven, as was also Daniel Webster; Rembrandt was the baby in a family of six, Schumann in one of five, George Eliot in one of four and Charles Lamb the youngest of three. The full list of famous youngest sons is a formidable one.

Your advertising must always give the right clue to your personal faith in your business—in your proposition. If that faith is small, is stinted—small and stinted advertising will correctly reflect it.

FAKES AND FAKES.

Montreal, June 18th, 1908.

To all Rupture Sufferers:

Fake Mining stocks need injure the pocket only, but fake cure for bodily ailment not only does, but frequently injures and entirely disables its dupes, —builds hopes which are seldom realized, and leaves the victims (of whom I am one), in a worse condition than before.

I was, during the space of eleven years, absolutely without any degree of safety; while I ran the gamut of the Rupture Fakes. My experience is that of thousands of others in Canada to-day, and it is with a view to prevent their being exploited that I have decided to do my part to aid other sufferers.

Firstly: I take exception to the words "Curative Truss," as used in some advertisements, such a truss has yet to be discovered.

I also take exception to the words "Endorsement by America's Leading Surgeons," as de Garmo (one of the most eminent of American surgeons along the line of rupture) is decidedly against expecting a cure from the wearing of a truss, although he admits the possibility in rare cases and under peculiar circumstances—certainly never with an Elastic Web Truss, which is not, nor never can be in any sense a curative truss. Every such truss compresses the entire abdomen, and necessarily forces the contents toward the weaker spot, and while affording a certain amount of relief, on the other hand, it defeats the chances of a cure.

I have always felt that in order to hold rupture successfully, a truss should be so constructed that the pressure exerted by it should be exercised on the protusion itself, leaving the rest of the body free from any pressure whatever. And experience has confirmed this opinion.

To those, who like myself, are obliged to have this appliance (and their name is legion), this will be easily understood.

The nearest approach to such a truss is that of Mr. B. Lindman, of McGill College avenue; and I hope to convince others of this fact on Saturday next, as I intend to interview the proprietor of one of the "Curative Trusses," who has advertised that he will be in Montreal on that day, and I heartily endorse what Mr. D. C. Mackay says in the papers of Saturday last.

With this truss, which is so near perfection, Mr. Lindman gave me no promise of a cure, although many cures have been made through its instrumentality. And I would ask any one to contrast their mode of dealing with those who are obliged to seek aid from them. The one abounds with promises and loud words. The other is quietly doing a good work and bringing a blessing to many a sufferer like myself.

I have no interest in the Lindman Truss except that I wear it, and would that there were no other so that my relief should be shared by every unfortunate in this great Dominion.

And I take this step because it is time someone moved in the matter.—

Yours truly,
ONE WHO KNOWS.

(Montreal Daily Witness.)

15 Years' Agony

Dared Not Eat Meat or Vegetables.

The life of a Dyspeptic is a life of torture. The craving for food— the burning pain after anything substantial is eaten—the monotonous diet of gruel etc. —make the sufferer often long to die.

Avondale, N. B. Oct. 15th. 07.

I have been a great sufferer from Indigestion and Constipation for about fifteen years. I was forced to deny myself all such hearty foods as beans, meat potatoes and other vegetables and could not drink tea or coffee. For the last two years I have lived on oatmeal porridge, stale bread, etc.

In June 1907 I saw the testimonial of Hon. John Costigan and I concluded to give "Fruit-a-tives" a trial. I had nearly four boxes of "Fruit-a-tives" and they have made me feel like a new man altogether. I can eat all kinds of hearty food without suffering and am not at all constipated. I recommended my brother Hugh Brown, to use "Fruit-a-tives" for chronic constipation and he has been greatly benefitted too.

(Sgd.) LEMEUL A. W. BROWN.

Letters of gratitude like this are received daily at the offices of "Fruit-a-tives" Limited. People are glad to testify to the great benefits they have received from taking these wonderful tablets, made of fruit juices and tonics. They will help you. Begin today to take them. At all dealers or sent on receipt of price—50c a box—6 for $2.50. "Fruit-a-tives" Limited, Ottawa.

TO-MORROW IS CIRCUS DAY.

Cole Bros. Circus will be here tomorrow.

The Cole Bros., it is said, were approached but refused to join the circus combine organized a few years ago.

In this connection, Mr. M. J. Cole says:

"The Cole Brothers have a reputation of over a quarter of a century's standing. Their name is a household one, and for honesty, fair dealing and squareness the show's name is too clean to be affiliated with any other. I would not be doing my friends and patrons the treatment due them if I entered into an agreement with the circus trust. As for abolishing the street parade, never as long as I am in the show business. There are the little children who look for the parade with equal delight as they do the coming of Santa Claus, and the poorer class of people, who never see the performance but to whom the parade is the event of the year, what would they do without the parade? Deprive them of it? Not as long as the Cole Brothers are in the show business. On the contrary, I will please them more by adding to our parade and giving them a grand, free exhibition on the show grounds when the parade returns."

THE CHAMBERS-FERLAND.

The Montreal Star speaks as follows of the latest Cobalt flotation:

The Chambers-Ferland property on the stock market is drawing the eyes of those interested in Cobalt, and who have a tendency towards speculation.

The original owners of this property and the Ontario Government were long in dispute over the title, but the trouble was finally compromised on the same lines as the O'Brien dispute, that is, by the Government retaining a lien upon the property to the extent of 25 per cent. royalty.

The area of the Chambers-Ferland is 120 acres almost completely surrounding the La Rose and the La Rose extension. The break in the ring is at the south-east corner.

Development is being carried on by two shafts, Nos. 1 and 2. No. 1 is on the southern limit of the ring between the La Rose and the Nipissing. This shaft, which is designed as the base for a cross-cut tunnel, prospecting a series of fissures, is already down forty feet, with some very good smaltite ore coming in, considered quite a find.

No. 2 shaft is down 60 feet, and in rich ore. This is on the Eastern limits of the property and in the zone of fissuring marked by the main O'Brien vein. The O'Brien workings, it may be here noted, are within forty feet of the Chambers-Ferland property.

The most interesting area of the Chambers-Ferland, however, is in its south western limits. Here the "ring" is four hundred feet wide. The interest in it lies as to how much of the immensely rich mineralized zone the Right of Way Company is developing will be found to extend into the Chambers-Ferland property here, or, to put it into the vernacular, how many of the Right of Way veins run into the Chambers-Ferland.

FOSTER.

The social in connection with the Creek Church held in the old Queen Hotel on Saturday evening last, was a decided success, the proceeds amounting to the nice little sum of $20. A MISSOURI FISH STORY.

(From the Kansas City Star.)

"It is a well known fact that when alarmed fish scuttle into dark places beneath the water. A friend of mine told me of an ingenious plan adopted by an old fisherman on the Blue River to take advantage of this fish custom," said A. S. Van Valkenburgh, United States district attorney. "The old fisherman procured a barrel, bored a number of holes in it and weighted the bottom with lead and iron. To the top were fastened two ropes attached to a windlass on a boat. Rowing out to the middle of the Blue the barrel was sunk, resting on the bottom of the river. Then the old fisherman sent his four sons, two in each direction to points fifty yards away, where they entered canoes and commenced to beat the water with flat paddles, raising a great hubbub. Gradually they worked down to the boat, where the old fisherman was ready to haul out the barrel. As they came close to him he quickly manned the windlass and the barrel came to the surface. By actual count there were 28 shad, forty carp, seventeen catfish and nine jack salmon in the barrel. The catch weighed 160 pounds.

GRANBY.

Mr. George Doe, a former resident of Granby, but latterly of South Roxton, who passed away on the 18th inst., at the advanced age of 95 years, was a man of many sterling qualities. He came to this country from England when 12 years of age. At that time only one house marked the place where now stands the large and prosperous village of Granby. At the age of 22 he married Miss M. Roach, an English lady, who died 14 years ago. His family consisted of eight children of whom four sons and two daughters were present during his last hours.

A representative gathering of friends of the pupils of Mrs. A. N. Keough were present at the piano recital given in the Town Hall on Friday evening. The young musicians acquitted themselves most creditably and responded to well-merited encores. Mr. Arthur King, elocutionist, gave a couple of selections and was also encored. During the evening, Mr. S. H. C. Miner in a few congratulatory remarks, presented the successful pupils with their certificates, results of the recent McGill Conservatorium examination.

THE LIGHT THAT FAILED.

The bachelor and the Benedict were wending homeward their weary way.

"Ah, you lucky married man!" sighed the bachelor. "Think of having a hearthstone, a real home, a waiting welcome! Look—there is a light in the window for you!"

Gee! So there is!" muttered the Benedict. "Well, there is only one way out of that—let's go back to the club."

June Drugs

This is a month when many drug store items are apt to be needed. You may get along without them but it doesn't pay to do it.

House cleaning will create a need for borax and ammonia.

Protection for furs and woollens will require camphor gum and moth balls.

Disinfectants will be needed to destroy the lurking germs of disease and decay.

We are always supplied and want to supply you. Can give you information as to their use —and the prices are always satisfactory.

THE AUTOPIANO.

An orchestral conductor recently said that he could hear more of the beauties of an orchestral score from the Autopiano that he could by playing the piano score himself.

This may seem a strange assertion, but it is easily explained; for with the Autopiano you have sixty-five fingers at your command (as against ten human fingers) making it possible to bring out the themes and contra melodies given to the many instruments of an Orchestra, while with your own few fingers the above possibilities are greatly limited.

We are receiving some specially nice styles of the New York Autopiano this week and invite your inspection.

Daily demonstration of these splendid instruments at our store.

Visitors always welcome.

He also promised that at the opening meeting for the autumn in September, he would give an address on the Pan-Anglican Congress, the subjects considered, the action taken, and the vast importance to the entire church of the deliberations of the great gathering. Resolutions of condolence were unanimously passed to Mrs. Norreys Worthington and the Misses Elkins in their recent bereavement, and the meeting closed with the benediction pronounced by the Rector.

A DEBASING "AMUSEMENT."

(From the Chicaga Post.)

Were a county fair or urban amusement park to announce a bullfight as a feature of its entertainment an indignant protest would go up from the public and the law very properly would put a stop to the brutal exhibition. If our Olympian games were to be replaced with gladiatorial contests in which a man in full armor battled with another man whose weapons were a net and trident the savagery of such an exhibition would be denounced the world over. And yet the coming of each summer brings a form of "amusement" which, though it owes its interest solely to the imminent possibility that the performer will be killed before the eyes of the thousands of spectators, arouses no general protest.

The feat of a man who rises half a mile into the air, dangling from a balloon, and then plunges earthward, clinging to a parachute requires a certain sort of courage, but little of the skill which is the redeeming feature of all dangerous sports. In fact, it is probable that were it not for the feeling that the performer might be killed—as too often he is—the ordinary balloon ascension, which is the feature of so many amusement resorts, especially in the small towns, would be of little or no interest to the general public. It is the sight of a man or woman in imminent danger of a horrible death that draws the crowd and makes the spectacle "pay."

The man who risks his life, as the Wright brothers have risked their lives in the perfecting of heavier-than-air flying machines accomplishes something for science and adds to the world's store of more or less practical knowledge, but the man who risks his life in a parachute leap does so merely to satisfy a brutalizing delight in seeing a human being in peril. Some day these debasing exhibitions will be prohibited and then we shall wonder why they were tolerated so long.

FOUR CHINAMEN BEFORE THE COURT.

Had Not Paid Their City Taxes.

COURT, HOWEVER, GIVES JUDGMENT AND CELESTIALS MUST PAY.

On Tuesday afternoon in the Circuit Court before Mr. Justice Hutchinson, Tom Wah, Sam Lee, Mark Hing and F. Pearson, four Chinamen, were condemned to pay $20 and costs each. The action was taken by the Corporation of the City of Sherbrooke under a by-law which calls for a license fee of $20 for each laundry.

GENERAL LAKE IS TO BE RETIRED.

Brigadier-General Cotton Likely to Succeed.

OTHER IMPORTANT CHANGES TO BE MADE IN THE HIGHER COMMANDS.

Ottawa, July 2.—Military orders will be published from Ottawa very shortly retiring Major-General Lake, Inspector-General of the Canadian Militia, from his present position and returning him to his old command in the Imperial army. This step severs the last link between the administrative body of the Canadian army and the War Office.

General Lake's retirement calls for a number of changes in the officers at present in charge of the higher commands. Brigadier-General Cotton, at present officer commanding in Western Ontario, is slated for the position of Inspector-General, while Brigadier-General Buchan, in charge of the Military Districts in the Province of Quebec, will go to Toronto in his place. Lieutenant-Colonel Roy, District Officer Commanding at Quebec, is to come to Montreal in General Buchan's place and will eventually be given command of the whole Province. Lieutenant-Colonel Pelletier, Chief of Staff of General Buchan, at Montreal, is spoken of as Colonel Roy's successor at Quebec.

The authorities in charge of Victoria Park would be conferring a special favor on the public who patronize the park, if they put a stop to the road in the park being made use of as a bicycle track, by young, irresponsible boys. The road was not built for such use, and those who go to the park with their families for a breathing spell should be protected. Yesterday, for some hours during the afternoon, some four or five young lads on bicycles rode up and down the roadway. There were several narrow escapes from accident, and one or two children got nasty falls in getting out of the way of the reckless riders.

A very delightful joint recital of the music pupils of Madame Alice Lemaire-Bernard and the elocution pupils of Madame J. Aime Darche took place on Tuesday afternoon at the residence of Madame Darche on King street. The drawing room was tastefully decorated with potted plants in bloom, and flowers and the following programme was carried out with much success: Marche, 4 hands (Arthur Foote), Miss Jeannette Ledoux, Madame Bernard; Harmonie-poesie (Sully-Prudhomme), Miss Marjory Robins; Danse (Gurlett), Miss Jeanne Delorme; Valse (S. Kiesling), Mr. Eugene Griffith; Rose (S. Kiesling), Miss Marguerite Gauthier; recitation, Miss Mary Smith; Marche des Soldats Chevalier Fantasque (R. Schumann), Mr. Romuald Gatien; Joyeux Paysan (R. Aime Darche, Miss Mallory; Valse Brilliante, 4 hands (Gottschalk), Madame Bernard, Miss Darche; Miss Naubert, a former pupil of Mde. Bernard, contributed a couple of charming songs and the whole entertainment reflected great credit on both teachers and pupils, the latter acquitting themselves admirably. Refreshments were served and Madame Bernard presented each of her pupils with a photograph of the great master Johann Sebastian Bach, while those of Madame Darche received a volume of poetry.

The brigade was called out at 8.37 last evening for a fire in a cottage used as a dwelling and store house in connection with the Precious Blood Convent, Dufferin Avenue. The bride was given away by her father and the ceremony was performed by the Rev. J. K. Fuller and Lyndon, the double ring service being used.

The maid of honor was Miss Bessie Hutchinson, sister of the bride and the best man, Mr. Chauncey Adams, of St. Johnsbury.

The bride wore a gown of white lace over taffeta, and carried white roses. Her veil was fastened with orange blossoms. The maid of honor was attired in white over pink silk, and carried pink roses. The bridal chorus from Lohengrin preceded the ceremony, which took place under an arch of foliage. Masses of daisies and ferns, roses and carnations were effectively arranged about the rooms.

After the ceremony, at which a number of friends and relatives were present, luncheon was served, the table decorations being extremely pretty.

Mr. and Mrs. Irvine left on the afternoon train for Montreal, Toronto, and other points, and will be at home in Sherbrooke after October 1st.

SPORTING NEWS.

WRESTLING MATCHES IN SHERBROOKE.

Yankee Rogers Threw Fritz Mohl Last Night.

TREMBLAY DEFEATED RICHARD IN MATCH AT MONUMENT NATIONAL.

Before a small crowd at the Stadium, last night, Yankee Rogers defeated Fritz Mohl and J. Viger won the middle weight championship of Canada.

The first bout was intensely interesting for the spectators. Dubois, while 25 lbs. lighter than Viger, possessed wonderful strength which coupled with his science made him a dangerous man, his ability to bridge when defeat seemed inevitable, frequently won for him the applause of the crowd. Viger won the first fall in 13 minutes with a double Nelson from the front. The second fall went to Dubois in 6½ minutes with a "head-scissors" and bar hold.

The third bout was fast and furious, both men struggling for victory. Yankee Rogers, who refereed this bout had difficulty in keeping them on the mat. In 9½ minutes Viger secured a "head scissors" and hammerlock and put his opponent down, thus winning the fall, match and middle weight championship of Canada.

ROGERS THREW MOHL.

The principal bout of the evening was between Yankee Rogers 210 lbs., and Fritz Mohl, 245 lbs, the winner to meet Gotch here during Exhibition week. Mr. Viger acted as referee to the satisfaction of all. When called to the mat the wrestlers lost no time, but went hard at one another, with the result that in 3 minutes Mohl was climbing back on the stage having been thrown off by Rogers. Quickly following this both men rolled off the stage, Mohl hurting his back. Rogers tried a double Nelson with the feet, but Mohl broke his hold and taking the aggressive, secured a bar hold and put Yankee to the mat for the first time in Sherbrooke in 18 minutes. By the look Rogers gave Mohl as they left the stage, it was evident he was determined to win the next two falls.

The second bout was very exciting, both men rolling off the mat frequently. Rogers secured a crutch hold and bar Nelson winning the second fall in 9 minutes. When Rogers got up Mohl remained on his back and on examination it was found he was unconscious. After restoratives were applied he rose to his feet, staggered over to Rogers and attempted to give an exhibition of boxing, landing Yankee a hard blow behind the ear with his fist. Mohl was then taken to his corner by his second.

Mohl returned looking quite fresh, but complaining of a soreness in his back, however, by the struggle he put up against Rogers it evidently did not bother him very much. Rogers won the final fall in 12 minutes with a double Nelson with the feet.

AT MONUMENT NATIONAL TUESDAY NIGHT.

The wrestling bout between Eugene Tremblay and Richard, at the Monument National on Tuesday, was witnessed by a large number of people. The contestants, although both very clever wrestlers were not matched, Tremblay being in a different class. Richard had a great way of getting himself out of dangerous holds and by this he was able to keep his shoulders from the mat. Tremblay won the match by winning two straight falls in 24 and 28 minutes respectively, both falls were the result of the toe hold.

LAWN TENNIS.

MATCH AT GRANBY.

Granby, July 2.—(Special)—The West Shefford Tennis Club played a game with the Granby Club at the courts on the G.A.A.A. grounds on Saturday afternoon, which resulted in an easy victory for the home club.

The ladies furnished excellent refreshments after the game, which was enjoyed by the players and their friends.

LACROSSE.

What promises to be one of the best games of the City League, is scheduled for Saturday, when the East Sherbrooke and Rand Lacrosse Clubs meet in their first clash of the season.

The Rand Executive have awakened to the fact that a considerable shake-up is needed in their ranks if they are to be in the running and their lineup Saturday will present a different appearance from the one that went down to defeat at the hands of the Crescents a couple of weeks ago.

Hammerick will be moved back to his old position on the defence and with the addition of three or four fast men they have secured, who will fill in on the home and in the field, they feel confident of giving the boys from the East a very busy afternoon. The East Sherbrook's who are a pretty husky bunch, are red-hot after the pennant and will stand a lot of trimming, but the Rand boys think they are just about good enough to turn the trick, so that a good close game may be expected.

FRONTIERS VS. BARTON LANDING.

Rock Island, July 2.—(Special)—The much anticipated baseball game between the Frontiers and Barton Landing, came off on Wednesday, morning at 10 a.m., on the new International Athletic Association Grounds at Derby Line. A big crowd witnessed one of the keenest fought, and closest games ever played here. While both teams played well it was easily seen that the Barton Landing team did not give their pitcher, Thomas, as good support as did the Frontiers their pitcher, Jenkins. On the Barton Landing team Kipps, Thomas and Shina certainly distinguished themselves, while on the home team, Frontiers, Jenkins, Laline, Cosby and Pike made their mark. The teams lined up as follows:

Frontiers.		Barton Landing
Heidel	catcher	Kipps

E. Laline	1st base	Jacquis

CANADIAN CANOE ASSOCIATION REGATTA AT ST. JOHNS.

The Eastern Division regatta of the Canadian Canoe Association will be held at St. Johns, Que., July 18th, under the auspices of the St. Johns Yacht Club.

This energetic club have held two very successful regattas for the association before and proved without doubt that their course on the Richelieu is one of the finest in Canada, and are in a position to accommodate the large crowd of spectators which this annual event brings out.

Reduced rates have been arranged for on all railroads, and in all probability a special train will be run from Montreal by the Grand Trunk Ry.

Letters to the Editor.

Sir,—

From an address by Mr. D. Arthur Hughs, Ph. D.D.V.M., delivered before the Illinois State Veterinary Medical Association at the annual meeting, December 4th, 1907, I quote the following.—"Those of us who read our daily papers and our live stock or agricultural journals, either casually or carefully will remember very well the bitter quarrel last summer between the meat packers of the country and the live stock commission men. The contest between the two lasted about eight weeks, growing hotter as the weeks rolled by, and having the economic effect on the country of scarcity of beef product and soaring prices."

Again.—"This time the packers had truth and justice on their side beyond any equivocation. They stated that their object was to stop condemnation losses from tuberculosis and make the careless farmers see the necessity of clearing up their premises.

"Even if tuberculosis milk cannot infect men except in rare cases, as the Koch school alleges, do we want to use it? I am one to help give a verdict on Koch that his case is not proven.

"The fact that an animal reveals no symptoms of tuberculosis in life and at death makes the danger from the flesh none the less when the lessions are extensive and generalized.

"Professor Hughes accepts Koch's theory when it suits him, and rejects it when it does not. He admits an animal reveals no symptoms of tuberculosis in life so it seems there is no way to locate the disease only by testing.

"Now, Mr. Editor, is the consumer willing to pay the extra cost of testing, the farmers cannot afford to do so in this climate, where our stock have to be housed for six months in the year. Stock brought as much twenty-five years ago as now, with the exception of milch cows and labour is worth double.

"If tuberculosis is so very infectious, how is it that those that care for cattle do not take the disease?

"A new bacillus has been discovered lately, mammites, which they claim is contagious.

"We might as well be eaten by worms as be devoured by the professions. The farmers have been anxious to get some light on this disease, but have received none, even when bered for. These experts referred to above inform us that ninety-five per cent. of post mortem condemnations are for tuberculosis, and there are no visible symptoms.

"Although neither the Packers, nor the Veterinaries have anything to say on the subject, some newspapers have served it up as desert to their readers very frequently in this style.

"Dr. so and so declares that one quarter of the dairy cows in the State of New York are badly affected with tuberculosis or milk killed two babies in Vancouver last year.

Government Stamp on Meat.—"Perhaps it has never occurred to you that you should insist on your butcher showing you that the meat he is selling you bears the Inspection Stamp of the Government officer. You will then be certain of the quality of the meat you are getting.

The politician wrecked the packing houses and canning factories, and it seems it was necessary to ruin the reputation of American cattle.

"Is this tuberculosis business a huge bluff or nearly so? Is the consumer going to accept it, and pay the cost of testing as the farmers cannot afford to do so?

"The spread eagle politicians are wrecking the best interests of the country in their mad gamble for political interest. We will deal with the politician next time.

T. C. BEATTIE."

Brompton, May 11, 1908.
