CONSERVATIVE MEETING AT WATERVILLE.

Waterville, August 28.—(Special)—A Conservative meeting was held in the Town Hall, Friday evening. The hall was packed to the doors, notwithstanding the fact that many from here were in Sherbrooke attending the Laurier meeting. Dr. King acted as Chairman, and opened the meeting with a speech. The speakers were Mr. J. R. Cromwell, Conservative candidate; Mr. A. W. Giard, M.L.A., who spoke in French and English; Mr. J. H. M. Parker; Dr. Mooney and R. H. Pope.

TWO JOINT MEETINGS.

Two joint meetings were held in Thetford County yesterday. In the morning the rival candidates and their supporters held forth at St. Elie. In the evening they met again at Grand Ligne. Mr. McCrea was accompanied by Messrs. D. McManamy, C. F. Olivier, J. Leonard and P. A. Jumeau. Mr. White was supported by Messrs. F. H. Hebert, F. Campbell and M. O'Bready. Both meetings were well attended.

Montreal, Aug. 28.—Mr. Paul E. Lamarche, whose name was prominently mentioned in connection with the Conservative nomination in St. James, but who retired in favor of Mr. Olivier Asselin, was yesterday offered the candidature of the Opposition in the county of Nicolet, by a delegation headed by Mr. Ball, the former member of the constituency.

WILL OPPOSE MR. G. PARENT.

Quebec, Aug. 28.—It was stated in Quebec Conservative circles that Mr. Rodolphe Forget, the Conservative member for Charlevoix in the last Parliament, and president of the Quebec Railway, Light, Heat & Power Company, would oppose Mr. George Parent, the Liberal candidate in Montmorency county, in the coming election.

VISITED VARIOUS COMMITTEE ROOMS.

PREMIER CLOSES QUEBEC TOUR.

Says That There is No Solid Opposition to Reciprocity.

SIR WILFRED LAURIER WAS IN GOOD FORM AFTER STRENUOUS CAMPAIGN.

Sir Wilfred Laurier brought his Quebec campaign to a close on Saturday with a meeting at Valleyfield. Ideal weather conditions prevailed throughout the afternoon, this having the effect of attracting some thousands of residents of Valleyfield, and other communities, to the meeting. Two or three hundred from Montreal attended the meeting.

Reciprocity, and its effects on the country in general, and on farming communities, such as Beauharnois and other neighboring ones in particular, formed the theme of the addresses delivered. The Premier was in good form, and expressed confidence as to the success of the Liberals at the coming election. There was in reality no great opposition, said he; there might be an appearance of strength in the opposing camp, but as a matter of fact there was no great party opposing the pact. True, there were several chiefs without party—chiefs who were divided one against the other, but united in the one object of seeking Laurier's overthrow.

In opening the Premier made an appeal. The Minister of Agriculture gave a statement of the profits made by Davies, Limited the Toronto Packing concern. This statement, which was filed as a court document some time ago, was authentic, and proved that from the year 1893 to 1906 the firm had been making profits varying between 27 per cent. and 120 per cent.

With reciprocity the prices would be kept at a normal scale. Thus, the consumer, and especially the workman, would be the principal ones to benefit.

Hon. Rodolphe Lemieux was the next speaker, and discussed reciprocity and the navy. Among the other speakers were Mr. Achille Bergevin and Dr. Ostiguy, mayor of Valleyfield.

LABOUR LEADERS NOT SATISFIED.

Claim Settlement of British Strike Not a Victory.

FIRST ROYAL COMMISSION TO INVESTIGATE LABOR CONDITIONS SITS TO-DAY.

London, Aug. 28.—The more ardent spirits among the trades unions are now beginning to complain that the settlement of the strike is not the victory for the unions which the manifesto issued from headquarters claimed it to be. The Labor Leader says: "The victory which fills the railway stalwarts with chagrin and dismay, and causes the capitalist press to resound the paeans of jubilation is the type of victory that could be well dispensed with."

The five royal commissioners who are to investigate the labor conditions of the country with regard to the disputes of the railway men and other workers, will begin regular and continuous sittings to-day.

FATAL ACCIDENT AT BARNSTON.

Mrs. Mackenzie Died From Injuries Received By Falling Down Stairs.

WAS VISITING AT MR. REMICK'S HOUSE AT TIME OF ACCIDENT.

Barnston, Aug. 28.—(Special)—Mrs. William Mackenzie of Bridgeport, Conn., fell down stairs on Saturday night and received such injuries that she died in a few hours.

The deceased, with her daughter, Mrs. Cleveland were visiting at the home of Mr. Remick and while about to go down stairs, slipped and fell to the bottom with the above result. The deceased was 76 years of age and had spent the summer months visiting members of her family and other relatives.

The funeral will be held from the home of her daughter, Mrs. Cleveland, tomorrow (Tuesday) afternoon at two o'clock and the interment will be at the Cassville Cemetery.

The deceased was well known and highly respected. Her sudden taking away was a great shock to the community.

FAIR OFFICIALS ARE KEPT BUSY.

Preparing for Exhibition Which Opens on September 2.

ENTRIES ARE IN ADVANCE OF LAST YEAR AT THIS TIME.

There is considerable activity in the exhibition office and also at the grounds in preparation for the opening of the Fair on September 2. Mr. H. E. Channell, the secretary, stated to the Record that a better and larger exhibition than ever before was now an assured fact. The entries were considerably in advance of that of last year.

The space in the main building has all been taken up, and exhibitors are now hard at work getting their goods placed.

There is considerable speculation as to which county of the Province will get the special prize offered by the association. This premium is given to the Society whose members carry off the largest number of prizes in the various departments. The county of Sherbrooke is barred from the competition.

The grounds are in first class condition and the buildings have all been painted and overhauled.

FOOT AND MOUTH DISEASE IN GERMANY.

ALMIGHTY THAT MEAT SUPPLY OF COUNTRY IS THREATENED.

Berlin, August 28.—The hoof and mouth disease is now making such ravages among German flocks that even the Agrarian organs admit that the meat supply of the country is seriously threatened. An official report of the Imperial Government, dated July 31, shows that 31,926 farms, located in 4,808 districts are affected. One reason of the spread of the disease has been a reduction of the number of cattle in the country.

According to the latest official reports, the number of all live stock, except swine, brought to market this year has been smaller than in 1910. It is claimed by the agrarian newspapers that the disease was brought into Germany in June, 1910, from Russia, and that, despite the rigorous precautionary measures of the authorities, it has spread to its present proportions in the brief space of one year.

ALL READY FOR WATERLOO FAIR.

Opens To-morrow And Will Continue Wednesday and Thursday.

LARGE LIST OF SPECIAL PRIZES HAS BEEN ARRANGED.

Waterloo, Aug. 28.—(Special)—The Sheffield Agricultural Society will hold their fall exhibition on the grounds of the Society during the next three days beginning tomorrow.

In addition to the regular prize list many special prizes have been placed for competition. The entries are fully up to the average. The sports to-morrow, as well as the green race, promises to be very interesting. The Eastern Townships Bank and the Montreal Bank are offering special prizes for dairy produce and stock respectively.

The Waterloo Brass Band has been engaged for the three days of the fair.

Mr. J. E. Barnaby, who has been employed as chemist in Griffith's drug store for a couple of years, has resigned and will start in business for himself in Montreal.

26 DEAD; 25 INJURED.

Inexcusable Panic at a Moving Picture Show.

SMALL BOY STARTED STAMPEDE BY CRY OF FIRE.

Cansonsburg, Pa., Aug. 28.—Twenty-six dead from suffocation, twenty-five seriously injured, thirty suffering from minor hurts. That is the toll exacted Saturday night during an inexcusable panic at a moving picture show in the Cansonsburg Opera House. The moving picture machine developed a slight defect. There occurred a noise like a "click." A small boy shouted "fire," at the same time starting for the narrow exit. Bolus Dubrowski, a foreign miner, a giant in proportions, jumped from his seat and ran wildly for the same exit. In a moment there was a fighting, struggling mass after him. At the head of a narrow stairway which led to the street, the foreigner tripped. As he rolled down the stairs he swept others from their feet, who were awaiting their turn to enter the theatre, and soon there was an indescribable pile of humanity at the foot of the steps, battling like mad.

It was all over within a short time. Volunteer firemen, several policemen and a few level-headed citizens untangled the human mass. The unhurt and those slightly injured were pulled from the top of the pile. As they gained the street they ran screaming like maniacs to all parts of the small town. Next came the more seriously hurt, and these were sent home or taken to nearby houses, while a few were rushed unconscious to hospitals. Then the rescuers came to the silent forms of those who had reached the fatal stairway first. One death among the victims, a double one, was that of a woman and child, who were carried to the sidewalk. All had been suffocated, and the faces showed terror.

Measurements taken by members of the jury showed the stairway leading to the second floor of the building, the main floor of the Opera House, to be only six and one-half feet wide, while the doorway at the bottom was not more than eight feet high.

It is customary to give two or three performances each evening, and Saturday the moving picture machine operator was about to complete the first when a film parted. Some of the audience had already commenced to leave the building and other persons were on the stairway coming up.

Dubrowski's wild flight through the theatre and his subsequent entering the building, was the beginning of the death-struggling jam at the foot of the stairs. The bodies clogged the doorway. Men walked over them and fought for positions of safety until, overwhelmed by the weight from the moving mass behind, they too, were crushed down to death.

When the doorway had been filled with other persons walked over the bodies of those who had gone down, and breaking the glass transom over the door, crawled through and dropped into the street.

During this time Manager Ferguson had endeavored to stop the panic. Accompanied by his wife, he started for the stairs when the first alarm was given, but seeing there was no escape there he made his way to the stage. Calling loudly to the frightened people to follow him, he led the way to the rear of the stage, and fully three hundred escaped in this way.

Many of the slightly injured ran about the streets until taken in charge by friends, whose automobiles were pressed into service to hurry others to their homes, where they later received medical attention. Among these there were broken arms and legs, but the greater number of injured were hurt while making their way through the transom and dropping from the fire escapes at the rear of the building. Their injuries were slight in the majority of instances. In many cases even the names of the wounded were not given the doctors who attended them.

Of the 26 dead, 13 were children, seven of them pupils in the public schools. Yesterday it was decided by the school authorities to postpone for a week the opening of the schools.

Arthur McPeak, whose name is among the dead, was passing the building when the bodies began to pile up at the door. The young man rushed to the rescue and was in the act of dragging a body from the pile when he struck McPeak on the back and the young man's neck was broken.

Sydney Rittiger was at the performance with his fiancée, Miss Lul Fisher. Before entering the building they had stopped at a jewellery store nearby, and Rittiger had bought the ring that was to have been used at their wedding. Both were killed.

It developed yesterday that there was no flash nor was there the slightest sign of fire.

ACCIDENT CAUSED BY BROKEN RAIL.

Death List Is Now Placed at 27 in Wreck at Manchester, N. Y.

TRAIN WAS NOT GOING BEYOND THE SPEED LIMIT OF 25 MILES AN HOUR.

New York, Aug. 28.—The Lehigh Valley railroad authorized the following official statement regarding the wreck at Manchester, N.Y.: "Later reports from stations passed by train No. 4 Friday, before it reached Manchester, corroborate the information received to the effect that the speed limit at this point was not exceeded. The limit is 20 miles an hour. At each station a record is taken of the time at which the trains pass, and from these records it is possible to know at what speed any train is running."

"The track where the accident occurred was examined by the company's men immediately afterward and it was found to be in good condition except for the broken rail. It seems now that the breaking of the rail was the cause, and the only cause of the accident."

TRAIN WAS IN GOOD HANDS.

Manchester, N.Y., Aug. 28.—N. Haines, assistant superintendent of the Lehigh Valley, Buffalo division, made a statement in which he said: "The best information I have shows that there were twenty-five killed and at least fifty injured. The wreck was unquestionably caused by a broken rail which we have found and taken possession of for examination. The train was composed of fourteen cars and two engines, George Bowman and Fred Callen, of Buffalo, with Henry Shulte, of Buffalo, foreman of engines. They are experienced men, and with Conductor James Hillick, of Buffalo, the train could not have been in better hands."

BEDFORD FAIR OPENS TO-MORROW.

Everything Points to a Successful Show This Year.

IMPROVEMENTS HAVE BEEN MADE ON THE GROUNDS AND BUILDING.

Bedford, Aug. 28.—(Special)—The annual fair under the auspices of the Missisquoi Agricultural Society opens here to-morrow and will continue until Thursday evening.

Mr. Jones, the secretary, is kept very busy filing the entries, which are fully up to that of last year.

Considerable improvements have been made to the grounds and buildings.

The committees in charge of the various departments have been at work and all will be in readiness when the fair opens to-morrow morning.

Should the weather hold good the directors feel assured that this exhibition will be better than ever.

The racing to-morrow will be the 3.00 pace and 2.56 trot for a purse of \$50. This race is expected to be

minent French speakers. As there is no hall in Megantic large enough to hold the expected gathering, in the case of the evening being fine it will be an open-air meeting.

DIPHTHERIA IN SCOTSTOWN.

Scotstown, Aug. 28.—(Special)—Two cases of diphtheria have developed during the week, one on Dell street and the other on Ditton street. The one on Dell street has proved fatal, as the child, who was about three and a half years old, died after being sick only two or three days. It is the child of Mrs. Hange, who came from Montreal last Saturday with her mother and two other younger children. The child had seemingly been well until last Wednesday, when medical aid was rendered, and last Thursday in the night the doctor was called, but the child was too far gone to be able to recover. The child passed away about 5 o'clock Friday morning. Much sympathy is felt for the sorrowing mother, and it is hoped that the disease will not spread to other families, some of whom have been exposed.

WOULD IMPROVE CEMETERY.

Scotstown, Aug. 28.—(Special)—A meeting was held last Wednesday evening in Strathcona Hall, composed of several persons who are interested in having the Scotstown Cemetery improved, at which meeting Mr. W. F. Bowman presided. All present were of the opinion that something should be done to improve the condition and appearance of the cemetery.

Finally a committee of five were chosen to look into the matter and report at a future meeting. The following are the names of the persons appointed: Messrs. A. L. Sherman, M. A. McKenzie, R. A. Scott, A. G. Sherman and Samuel Scott. Anyone wishing to contribute for the purpose of improving the Scotstown Cemetery may go to Mrs. A. L. Sherman, who holds a subscription list, with a number of names of those who have subscribed for this purpose. This is a matter in which all inhabitants of this town should be interested.

an exciting one. The list of special prizes is very large and should call out the best that is in the county.

THE DROUGHT IN INDIA.

The Indian climate is as stable as our own has recently become. Only on rare occasions does the weather afford a topic of conversation. But one of those rare occasions is now with us. The event dominating Indian rural life is the monsoon, which is expected in June and blows till September. Should the monsoon fail the crops perish and famine is upon the people. This summer the rains have proved deplorably feeble. There is still time for the crops to be saved, and as heavy clouds are generally reported, the situation is by no means hopeless. But there is grave cause for anxiety. A shortage of rain is reported from 147 stations, and already there is serious trouble over practically the whole of northwestern India. One bright feature believes the general blackness of the position. In the United Provinces and the Punjab irrigation works have partially made up for the failure of rain. It happens that the spring snowfall in the Himalayas was exceptionally heavy, so that there is plenty of water. It is certain that the anxiety which has been felt in the Punjab these last few days will develop into a demand for new and more comprehensive irrigation works.

Mrs. G. E. Rioux, Miss Cecile Rioux and Miss Fedora Hains have returned to town from Ste. Flavie where they have spent part of the summer.

The engagement is announced of Miss Myrtle Jackson, of "Hazel Flat Farm," Orford, to Mr. George Albert Plummer, of this city. The marriage will take place early in September.

Dr. E. J. Williams, Mrs. Williams and Miss McKay spent the week-end at Lake Memphremagog on their boat. Mrs. M. R. McLeod and Miss Jean McLeod were their guests on Saturday.

Rev. C. W. Mitchell, of London, Eng., who is spending his vacation at "Maple Braes," Lennoxville, with his family, conducted service and preached at St. Peter's Church yesterday, delivering a scholarly and eloquent discourse.

Supper at Baptist Church To-morrow night. Twenty five cents. Fine entertainment too. Come.

Mrs. Fred S. Ruz was hostess at a tea and pitcher shower Friday afternoon for Miss Majda LeBaron, at the residence of Mrs. Fred Hovey, Queen street. The guests included Mrs. C. H. Niles, Mrs. J. P. Watson, Mrs. Arthur Lockhart, Misses Florence Purdy, Florence Fuller, Doris Stevens, Maybird Odell, Helen Cull (Elmington, Alta.), Kate Lawrence, Winifred Muddell, Eva Dresser, Miss Majda LeBaron and her guest, Miss Shortell, Mrs. W. B. LeBaron, Mrs. Philip Hovey and Mrs. Margeson, Springfield, Mass., were also present. Tea was served on the wide verandah and the pretty gifts were accompanied by good wishes and received gracefully.

The ecclesiastical retreat closed Saturday morning with mass and a final sermon, after which the clergy renewed the vows of their ordination. Rev. Father Gena, Dominican, the special preacher, returned to Montreal yesterday. The following changes in the diocese have been announced: Rev. E. A. Martel, parish priest of St. Philomen, Stok, has resigned his work owing to ill health, and will be replaced by the Rev. J. E. Lemieux of St. Marie, Ely, whose place will be filled by the Rev. Jules Boucher, former vicar of St. Patrice, Magog. The Rev. Abbes Dolor Birou, Alfred Chasse and P. Pilette, of St. Charles Seminary, have also been assigned to parishes, which are not yet made public.

Yesterday in the Roman Calendar was the Festival of the Most Pure Heart of Mary, and was appropriately celebrated in the churches and chapels of the city. At St. Michael's Cathedral high mass was celebrated by the Rev. Father Turcotte, the day being also the anniversary of his ordination to the priesthood. The sermon was preached by Rev. Father Roy, who took occasion to dwell on the advantages of education, apropos of the opening of the schools of the city on Sept. 1st, and urged all the members of his congregation to send their children to school and to make any sacrifice to keep them there as long as possible. Knowledge is power, he said, and the spread of education means the forward progress of the nation, while the more a child's intelligence is developed, and the more he learns, the better fitted is he for his work in the world. The speaker also referred to the law, which forbids the employment of children under fourteen years of age. This is frequently broken by manufacturers and others, often with the consent of parents. The speaker denounced the infraction of the law in no uncertain terms, saying that young children should be in school and not at work till the proper time came for the latter. During the singing of a Te Deum, which followed mass, the

Reserved seats for the Exhibition will be put on sale to-morrow.

Miss Gertrude L. Turner has returned from a two weeks' vacation spent at Portland, Me.

Miss Tina Edwards has returned home from a visit to relatives and friends in Cookshire.

Coupons for free lot in River Mead Park to be given away by Mr. Alex. Ames may be secured at Record, St. Ry. Office, Lennoxville Post Office and Ames Cold Storage. Get them early. Sale on Wednesday, 30th.

The Sherbrooke Furn. Co. offers special values in iron beds, mattresses and cot beds. Prompt delivery.

Miss Jessie McNicol arrived Thursday, and is the guest of Dr. and Mrs. W. A. Farwell at "Breezy Point Cottage," Little Lake Magog. Miss McNicol has just returned from a long and enjoyable trip to California, the Pacific coast, Lethbridge, Alberta, Grand Forks, B.C., and other intermediate points, where she visited her brothers, Messrs. John and George McNicol, and other friends.

Chief Davidson has received several complaints during the past week that certain auto drivers in the city were breaking the speed laws. Other complaints were to the effect that the horns were not sounded at corners.

The Chief stated to the Record this morning that hereafter he would prosecute all those who were found breaking the speed laws, or failing to blow their horns at corners.

PILGRIMAGE TO ST. ANNE.

The second pilgrimage of the season to St. Anne de Beaupre takes place this evening by special trains on the Grand Trunk and the Quebec Central Railways.

The pilgrimage is in charge of Mr. Chalifoux, V.G., and an interesting feature will be the presence of Mr. Paul LaRoque, Bishop of the Diocese, who left this afternoon for the famous shrine, accompanied by the Rev. Henry Desève, of Bury, as master of ceremonies; Rev. J. H. Roy and Rev. Abbe Turcotte, of the Bishop's Palace, were also among the pilgrims.

BURNS CLUB.

An interesting meeting of the Sherbrooke Burns Club was held in the lodge rooms, Odell's Block, on Saturday evening. Mr. E. Temple presided and made a few opening remarks. A short programme was given and not the least interesting item on the programme was the unveiling of a portrait of Robbie Burns, which has been hung in the lodge room. Mr. John Macdonald performed the ceremony in a short but interesting address. Those who took part in the programme were:

Violin and piano selection, G. Dick and J. Taylor; Song, T. Irving; Gramophone selection, Mr. Fairweather; Song, C. Robertson; Whistling selection, G. Dick, Sr.; Bag pipe selection, Mr. Campbell; Trio, T. Irving, J. Taylor and C. Robertson; Gramophone selection, Mr. Fairweather; Song, G. Dick, Sr.; Song, G. Fairbairn; Violin selection, G. Dick; Song, Mr. McRobbie. The accompanist was Mr. G. Ogston.

FUNERAL OF MRS. PAUL CROTEAU.

The funeral took place Saturday at St. Michael's Cathedral, of Mrs. Paul Croteau, whose death occurred after a prolonged illness, at the St. Vincent de Paul Hospital on Wednesday.

A large number of friends and relatives attended the obsequies from the residence of Mr. Evariste Metivier, Brooks street. The body was received at the door of the church by Rev. J. H. Roy, and the solemn requiem mass was sung by Rev. Ulric Croteau, nephew of deceased, and fine music was furnished by a large choir.

Mr. Croteau presided at the organ. Mr. Alfred Lanctot was director and the bearers were Messrs. H. Langlois, Damase Bellevance, W. Croteau, W. Audet, J. A. Bouchard, E. Lanctot. The pall bearers were Messrs. A. Biladeau, Her. Duquette, Joseph Landry, Telephone Daigle, T. Robbe and J. Levesque. Mesdames Dion, Lacroix, Bellevance, Duquette, Roselle and Gaudin, members of the Congregation of St. Anne, walked beside the bier, holding the ribbons of the pall. The mourners were Messrs. Paul Croteau, husband of deceased; Edward Croteau, son; D. Valhier, son-in-law; Jos. Sevigny and L. Lestage, nephews, with other relatives and connections. The late Mrs. Croteau, whose estimable character had earned a large circle of friends, is greatly regretted, and much sympathy is felt for her family in their bereavement.

RIVER MEAD PARK.

Considerable interest has been caused in this city and vicinity by the novel real estate sale advertised by Mr. Alex. Ames, which will take place on Wednesday afternoon of this week. The proposition submitted by the owner of River Mead Park is a new one especially as far as Sherbrooke is concerned.

This block of land is situated in the village of Lennoxville and consists of one hundred and eight lots. These lots will be auctioned off on Wednesday afternoon. The conditions of the sale are as follows: The purchaser must pay a quarter down. If he builds on the lot he will not have to make another payment until 1915. It is a condition of the contract that the purchaser of the lot must build a house. He is given two years to do the building. If at that time he feels unable to build his money will be refunded with 3 per cent interest.

One lot will be given away free, without any conditions. Each person attending the sale will be given a coupon. These will be deposited in a box and on the afternoon of the sale the drawing will take place. These coupons may be obtained at the Record Office, Street Railway Office, Lennoxville Post Office, and at Ames' Cold Storage.

INTERESTING CURIOS.

Mr. W. Lucius Morkill, manager of the Peruvian Company of Lima, Peru, an old Sherbrooke boy, has loaned the Sherbrooke Art and Library Association a very complete and unique collection of Aztec and Tolttec curios, which are now on exhibition in the reading room. The collection, which has been artistically arranged in a glass case by Mr. H. D. Lawrence, K. C., comprises among other odd pieces: a dish from the state of Vera Cruz; fine specimens of pitchers from old mines, Nochehuan, State of Oaxaca. There are also spear heads, obsidian, a stone mask, petrified shells, stone plaques, representing the God of Water, a clay seal, Turoceno, and an onyx figure head, a dish, tripod from the ruins of Tutuque, Oaxaca and a decorated dish from the same place. There are also obsidian arrowheads, and obsidian figures from the Temple of the Sun and Moon, San Juan de Teotihuacan, a square stone axe, supposed to have been used in dressing hides, decorated jar from the pyramid of Cholula and many strings of stone beads of different sizes and lengths, some dull, others polished with infinite care.

The curios were acquired by Mr. Morkill during a prolonged stay in Mexico, when he was manager of the state railway and was promised to the Art Association over three years ago, but were not allowed by the authorities to leave the country. However, the change of Government and possibly some pressure exerted in influential quarters has resulted in their late arrival in Sherbrooke. They will be found most interesting even to those who have only a superficial knowledge of the ancient people of Mexico, conquered by the victorious Spaniards, and reduced to servitude by Cortez, but these attractions may lead to a desire to know more of the religion, the government, industries, and customs of a strange people.

BUTTER ADVANCES
AT COWANSVILLE.Ruling Price at Saturday's Sales
Was 26 Cts.CHEESE PRICES ALSO ADVANCED
TO 13-1-16c. PER LB.

Cowansville, Aug. 28.—(Special).—At the meeting of the Eastern Townships Dairywomen's Exchange held on Saturday afternoon last, Mr. H. S. Foster, the President of the Association, had control of the sales and in his usual genial manner disposed of the goods promptly.

The buyers represented were: Messrs. McCulloch & Co., Messrs. Hodgson Bros., Messrs. A. A. Ayer & Co., Messrs. Olivier, Dorion & Stroud, The Matthews Ltd., Mr. G. D. Warrington and Mr. J. A. Vallicourt.

For the first selection of butter 24c. was the first bid, advancing steadily to 26c., which was the ruling price. Cheese sold quickly at 13-1-16c.

There were 921 packages of butter and 48 boxes of cheese boarded by 19 factories. The bidding was keen and prompt, and resulted as follows:

The McCulloch Co. bought:

Acorn, 30 pkgs. butter at 26c.

Adamsville, 20 pkgs. butter at 26c.

Brome Valley, 40 packages butter at 26c.

Cowansville, 54 packages butter at 26c.

Mystic Gem, 50 pkgs. butter at 26c.

Silver Star, 40 pkgs. butter at 26c.

Mr. J. A. Vallicourt bought:

Bokus, 35 pkgs. butter at 26c.

Foster, 30 pkgs. butter at 26c.

Knowlton, 65 pkgs. butter at 26c.

Maple Leaf, 44 pkgs. butter at 26c.

Stanbridge East, 80 pkgs. butter at 26c.

Messrs. Hodgson Bros. bought:

Brome, 98 pkgs. butter at 26c.

Vale Perkins, 70 pkgs. butter at 26c.

Mr. G. D. Warrington bought:

Crown, 15 pkgs. butter at 26c.

Freighsburg, 115 pkgs. butter at 26c.

Magog, 35 pkgs. butter at 26c.

Silver Lake, 40 pkgs. butter at 26c.

26c. Cold Spring—28 boxes of cheese at 13-1-16c.
Rapid Brook, 21 boxes of cheese at 13-1-16c.
The day's high prices was claimed by the anti-reciprocity friends as a feather in their caps.

TWO MET DEATH
IN AUTO RACE.

Machine Overturned and Two Occupants Were Killed.

THIRTY PERSONS INJURED
WHEN CIRCUIT SEATS GAVE WAY.

Elgin, Ill., Aug. 28.—The 305-mile road race yesterday, won by Len Seigel in a National, with Harry Grant second and Hugh Hughes third, was not accomplished without its toll of death and injuries.

Dave Buck, the veteran Chicago automobile racer, was within eleven laps of the finish and going at the rate of 64 miles an hour on the back stretch when his right forward wheel threw a tire. The machine turned a complete somersault, and Jacobs, the mechanic, was killed, his neck being broken. Buck had his back broken and died at St. Joseph's Hospital.

Another accident, in which 30 persons were injured, mostly slightly, occurred shortly after 11 o'clock, while the first lap of the race was on, several sections of the insecurely built circuit seats giving way. A thousand or more persons were precipitated to the ground, and four, including a daughter of Senator Lorimer, had legs broken.

Seigel's time was 4:35.39, an average of four miles an hour faster than that made by Mulford last year.

FISH THAT GIVES ELECTRIC SHOCK.

A recent addition to the new United States National Museum in Washington has proved one of the most interesting specimens in the entire collection. It is the electric ray, known in the language of the scientists as the *narcine brasiliensis*, harmless as to name, but capable of repelling its enemies in a manner peculiarly its own, which gives it its common title of the "torpedo" fish.

The electric ray is of skate variety, with a broad, flat, nearly oval head and body, and a caudal appendage something like that possessed by the majority of well-known fishes. Its mouth is on the under side and it can feel the way to it when feeding.

But the real curiosity about the *narcine brasiliensis* is the fact that it carries its own storage battery with it on all its wanderings, and that it has the power of recharging the thousands of little cells when they become exhausted, using its power over and over again.

There are really two batteries. They are located where one would naturally expect to find the breathing apparatus of the fish, to the right and left of the heady black eyes and back. They are kidney-shaped, occupying perhaps one-third of the upper part of the body.

When at peace with itself and the rest of the world, the torpedo fish swims around at leisure, or rests in shallow water; burrowing in the sand at ease, but, if attacked, the battery is discharged and the enemy is glad to call it a drawn battle, if it can swim away. It gets its prey by using its batteries to supply the necessary current to kill, but it must first complete a connection with the object of its attack.

Men have speared these torpedoes in shallow waters and have caught them in nets, but on handling them have been very glad to call it off and avoid further shock. Fishermen have been repeatedly knocked down

HUMANE METHOD OF
KILLING ANIMALS.

BROME COUNTY S.P.C.A. RECOMMENDS A HUMANE KILLER.

The Brome County Society for the Prevention of Cruelty to Animals, although only recently established, is doing good work. The results of their efforts to alleviate the sufferings of dumb animals is also proving a great source of encouragement to similar societies in other counties.

Among other things, this society has been instrumental in introducing a new and humane method of killing animals. This instrument is known as Greener's Humane Cattle Killer. Everyone will agree that every care should be taken when killing animals to cause them as little suffering as possible. Although slaughtermen cannot be directly charged with unnecessary cruelty, there can be but little doubt that, from constant association with the death of animals, they have become indifferent to the sufferings of the poor dumb creatures, and it behooves all right-thinking people to demand that the torture oft-times inflicted by the antiquated methods of slaughtering is abolished, by the substitution, compulsory or otherwise, of a more certain and humane instrument than the pole-axe.

The instrument mostly used in this country is the common pole-axe. If used expeditiously (which unfortunately is too rare) but little can be said against this instrument, the chief objection being that it is dependent upon the physical fitness of the user.

Considerable skill and strength is required to perform the operation of pole-axing successfully, and the necessary good marksmanship, powerful blow and requisite experience is usually obtained by practicing upon the poor animals themselves. Many are the harrowing scenes witnessed by those who frequent our abattoirs. Even in the streets much suffering takes place in the case of injured horses, owing to the difficulty in getting a knacker quickly to the spot.

The Greener Humane Cattle Killer is a noiseless explosive apparatus, consisting of a short rifled barrel, chambered to receive a small cartridge, and terminated by a bell shaped chamber, which serves to deaden the sound, protect the operator from the flash of the explosion, and to direct the bullet through the brain into the spinal column, breaking up its grey matter and causing instant paralysis of the sensory nerves, thus avoiding the necessity of pithing, and allowing the operator to bleed the animal immediately.

NOTES FOR CHEESEMAKERS.

The following notes for cheesemakers are contained in bulletin No. 29, issued by the Department of Agriculture, Ottawa:

1. You cannot make strictly fine cheese from milk which is overripe or tainted.

2. A progressive cheesemaker will study the causes of tainted and over-ripe milk and assist the patrons to remove them.

3. Milk may become tainted from—(a) absorbing bad odors; (b) the dust and dirt that may get into the milk during and after milking; (c) rusty and unclean utensils; (d) the cows eating unsuitable feed; (e) the cows drinking impure water.

4. Milk is injured rather than improved by aeration.

5. Insist on the patrons cooling the milk as quickly as possible during or after milking.

6. The easiest and most effective method of cooling milk for cheesemaking is to place the milk can in a tank of cold water or water and ice and strain each cow's milk into it as soon as milked.

7. Put the covers on the cans as soon as possible after milking is finished. This will prevent tough or leathery cream and keep the dust and dirt from blowing into the milk.

8. In warm weather the evening's milk should be cooled to 60 or 65 degrees if delivered the following morning.

9. Milk to be kept longer than overnight should be cooled to 50 degrees or under.

10. It is not necessary to cool the morning's milk if delivered in a separate can.

11. Milk that makes gassy curds is usually dirty. Clean milk and clean utensils will never produce gassy curds.

12. Generally speaking a patron who delivers tainted or gassy milk to a cheese factory causes a more serious loss to his fellow patrons than one who skims or waters his milk. This fact should be impressed on the minds of the patrons.

13. Attend personally to the taking in of the milk as far as possible.

14. Keep your weighing stand and everything thereon, including your clothes and person, thoroughly clean. You have no right to require the patrons to furnish clean milk unless you set a good example.

15. Make fermentation tests of each patron's milk as frequently as possible. By this means you will often locate taints which are not discernible when the milk is being received.

16. The rennet should be used in sufficient quantity to coagulate the milk, fit for cutting, in not more than 30 minutes, at a temperature of 86 degrees Fahr.

17. The milk should have a degree of ripeness, or acidity, when the rennet is added, that the whey will be removed in two and a half to three hours from the time the rennet is added.

18.—When cutting the curd, always aim to make the cubes of uniform size, and follow any course that will secure such a result.

19.—A curd that is allowed to get too firm cannot be so well cut as one that is "just right."

20.—If the cubes of curd are uneven in size, there will be different kinds of curd in the vat when the whey is removed, because the smaller particles harden first and do not show acid as quickly as the larger and softer ones do.

ANNUAL RECORD ROAD RACE ON SATURDAY, SEPTEMBER 30TH.

Many Runners Throughout the Eastern Townships Have Already Started Training—All Competitors Must Be Registered in the A. A. U. of C—Course Will Be Same as Last Year.

Once again the Sherbrooke Record issues an invitation to the long distance runners of the Eastern Townships to meet in Sherbrooke and decide who is the champion runner.

The date for this year's race has been set for Saturday, September 30th. For some weeks past the Record has been receiving enquiries from all over the townships asking when the race was to take place. Although early to predict there is every possibility of this year's race being the best ever. The runners are all in good condition. Most of them are

of registration cards will be published. PRIZES WILL BE BETTER THAN EVER. The prizes for this year's race promise to be better than ever. They will certainly be worth running for. As soon as the list has been completed it will be published.

START GETTING READY NOW. Every town in the Eastern Townships should have representatives in the Record Road Race. It will bring your home town into prominence. You don't know what material you have. Perhaps after you have trained

familiar with the course. Now that Harvey, last year's winner, is in the United States it will mean that those who came in second, third and fourth last year will have a better opportunity of winning the trophy.

RUNNERS MUST ALL BE REGISTERED. Practically the only difference between the race of 1911 and previous races is that this year all runners must be registered. It is a very simple matter. The matter is now in the hands of the Registration Committee of the A.A.U. of C. and a full announcement regarding the securing

SOCCER.

MAGOG 2: EAST ANGUS 1. Magog, Aug. 28.—(Special)—Magog journeyed to East Angus on Saturday to play their league game of soccer and came out victorious by two goals to one. Magog scoring first through Thompson. A few minutes later Magog scored again but the goal was disallowed through C. Sandall being off-side. East Angus broke away and rushed the ball down to the Magog goal, the ball going a little behind only to be brought right back in play and put through for their first goal. No more scoring was done up to the interval. It was not until near the finish that Magog was successful in gaining the lead. East Angus certainly has a few good players. Muir brothers at full back played a sterling game, also their goal keeper, and with a little combination amongst the half-backs and forwards would give any team in the league a good game.

RAND HANDICAP RACE.

MOSELY OF HATLEY COVERED THE RECORD COURSE IN THE BEST TIME ON SATURDAY. The Rand Harrier Club held their annual handicap race on Saturday afternoon. The event passed off very successfully and the finish was witnessed by a large crowd of people. Young Nollie Paige, with a handicap of fourteen minutes was the first to finish. Brownlow was second. The next time was made by Mosely of Hatley. He covered the course in 47

A HOUSE FLY FAMILY. (Popular Science Monthly). A female house fly which has hibernated in a dwelling house or elsewhere may produce in the spring at the lowest estimate 120 eggs. Assuming that one-half of these hatch as females, and allowing that the breeding goes on without check for four months, we have as descendants of a single hibernating individual 214,557, 444,320,000,000,000,000 flies.

GET POWER

The Supply Comes From Food

If we get power from food why not strive to get all the power we can. That is only possible by use of skillfully selected food that exactly fits the requirements of the body. Poor fuel makes a poor fire and a poor fire is not a good steam producer. "From not knowing how to select the right food to fit my needs, I suffered grievously for a long time from stomach troubles," writes a lady from a little town in Missouri. "It seemed as if I would never be able to find out the sort of food that was best for me. Hardly anything that I could eat would stay on my stomach. Every attempt gave me heartburn and filled my stomach with gas. I got thinner and thinner until I literally became a living skeleton and in time was compelled to keep to my bed."

"A few months ago I was persuaded to try Grape-Nuts food, and it had such good effect from the very beginning that I have kept up its use ever since. I was surprised at the ease with which I digested it. It proved to be just what I needed. "All my unpleasant symptoms, the heartburn, the inflated feeling which gave me so much pain disappeared. My weight gradually increased from 98 to 116 pounds, my figure rounded out, my strength came back, and I am now able to do my housework and enjoy it. Grape-Nuts food did it." Name given by Canadian Postum Co., Windsor, Ontario. A ten days' trial will show anyone some facts about food. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

MEGANTIC CO. HAPPENINGS.

Budget of News From Various Sections of Country.

ST. SYLVESTRE WEST. Arrivals and departures: Mr. Earle Wilson, visiting his sister, Mrs. H. Bgrtholomew, of Frampton, a few days; Mrs. McDonald, Mrs. Farley, and Miss Mary Nutbrown, guests of Mr. and Mrs. W. Nutbrown of Parkhurst, on Wednesday; Miss Beatrice Neill and Miss Gwendolyn Macchell, guests of Mrs. E. J. Neill, of New Armagh on Wednesday and Thursday; Mrs. R. Neill, visiting friends in Leeds; Miss Gertrude Orr, to her home in Lennoxville; Mr. and Mrs. Miller, of Inverness, guests of Dr. and Mrs. King this week; Mr. and Mrs. W. H. Wilson, visiting at Mr. and Mrs. W. Nutbrown's on Thursday evening; Messrs. Harold and Ray and Miss Marjorie Nutbrown attended the dance given by Mr. and Mrs. Bailey of Leeds, on Thursday evening; Mr. Norman Brennan, of Truro, N.S., visiting his parents, Mr. and Mrs. N. Brennan, of Parkhurst. Mr. and Mrs. D. Hawley entertained a number of friends on Tuesday evening. Mr. N. Brennan of Parkhurst is confined to the house through illness.

ADDERLEY. Arrivals and departures: Miss Maggie Ives and nephew, Master Russell Hamilton, to their homes in Newton, Mass; Mrs. Katie Damon and two little daughters, to Bebe on Monday; Messrs. Ed. Parson, and Walter Henderson, to New Ontario on Tuesday. Mr. Peter Hamilton, from Montreal, having disposed of a lot of cattle; Miss Nellie Henderson to Montreal; Mr. Fred Bell, formerly of this place, calling on friends here. Adderley was well represented at the I.O.O.F. picnic at "The Pines" St. Ferdinand, on Saturday. Farmers are finishing harvesting but claim the crops to be below the average. Miss M. E. Ives entertained a goodly number of friends very pleasantly one evening recently, prior to her departure to Newton.

The telephone construction work has been begun on the Second Range in St. Pierre Baptiste. Mr. E. Clarke is in charge.

MISSIONARY MEETINGS, INVERNESS CIRCUIT.

Missionary anniversaries will be held on the Inverness Circuit of the Methodist Church as follows: Sunday, Sept. 3rd.—Lower Ireland 10:30 a.m. Lysander 3:00 p.m.; Inverness 7:00 p.m. Monday, Sept. 4th.—Inverness 7:30 p.m. Tuesday, Sept. 5th.—Kinnear's Mills 7:00 p.m. Wednesday, Sept. 6th.—Hamilton Range, 7:30 p.m. These meetings promise to be of more than ordinary interest, as the Rev. R. C. Armstrong, M.A., who has spent seven years in the mission field in Japan, will deliver addresses at all the meetings.

GLEN LLOYD. Mrs. J. J. Laycraft has been confined to bed for the past few days. Mr. David Walker and Mr. Wm. Gilgate started for the West on the 25th. Mr. Walter George has completely recovered after his recent illness. Many of the farmers in this vicinity have finished harvesting. It is not often the harvesting is finished in August. Miss Ina Plummer has returned from her visit to Rectory Hill. Miss Alice McNulty and her sister, Mrs. Cassidy, from San Francisco, Cal., called on friends here a few days ago.

MILFIELD. The "McKenzie Mill" has again changed owners, Mr. William Cruikshank being the purchaser. Slight repairs are being made to make it ready for gristing. Mrs. H. R. Mooney is recovering from a recent illness. Miss Annie M. McKinnon of Kimberley, accompanied by her sister, Ida, have been visiting friends in this section. Miss Euphemia Cook has completed a term of teaching on the Dublin Range. Mr. Hugh Andrews has rented the Brodie property and is moving in with his family.

LYSANDER. Rev. Thos. Bennett, Secretary of the Bible Society, held his annual meeting here on the 24th inst. The address given was interesting and instructive. Among those who went West on the Harvest Excursion on the 25th were Messrs. Geo. Cox, Jesse Smith, H. McCullough and George Hall. Mrs. H. Sturgeon and Master Willie Watts are spending a few days in Danville, where they have gone to meet Mr. Sturgeon, who is on his way home.

GATES LEFT \$40,000,000. New York, Aug. 26.—John W. Gates left an estate valued at from \$20,000,000 to \$40,000,000, according to ex-Justice Gildersleeve, who drew Mr. Gates will a year ago. The bulk of the estate is left to his widow and his son, Charles G. Gates, equally, according to Mr. Gildersleeve. There is a clause which provides that none of the property can be sold within ten years, it is said, unless one of the heirs dies in the interim. Mr. Gates' idea being that all properties in which he had invested would be greatly enhanced in value in that time. The beneficiaries under the will, it is announced, include relatives, friends and former employees, the total amount of whose legacies will aggregate about \$1,000,000 in bequests ranging from \$1,000 to \$200,000.

SCHOOL DAYS WORTH \$22,800.

An interesting development in connection with the new movement to give boys a right start, consists of deductions showing the value of education, figured in dollars and cents. It is found by subtracting the earnings of a life of uneducated labor from those of a life of educated labor. If a man without education earns \$1.50 a day for 300 days in a year, he does well as an average. If he keeps it up for forty years he will earn \$18,000. If you strike an average in the earnings of educated men, beginning with the presidents of the large railways and other corporations, and so on down to the lowest for the educated worker. In forty walks of educated labor, you will find that \$1,000 a year is a low average years that makes \$40,000. The difference—\$22,800—is the value of a boy's time spent in school. Of course it is not in itself the time spent at the school that enables a boy to earn this difference, but it is the increased intelligence in large measure which qualifies a lad to rise to the higher walks of employment. Dollars and cents may be a sordid measure, except as that standard is taken as indicative of many other values that go with education and self-mastery.

CONDUCTOR AND THE SMILE.

Fresh from the lecture on politeness the street car conductor went on duty resolved to extend courtesy to all. From the car barns up to Ninety-ninth street he put his resolution into effect. He assisted the weak and heavy laden, he smiled serenely under unmerited abuse and he hurried no one unduly. At Ninety-ninth street he noticed that a woman in the middle seat was preparing to leave the car at the next corner. The child beside her was too big to cause her any particular trouble in alighting but the conductor had been pleased with the way the woman smiled upon the child so he hurried forward to help. "The woman stepped down first and the conductor, with one sweep of his arm, set the child down beside her. His signal to go on was followed by a scream, then another and another, "Boo hoo," howled the boy, and "My child! Bring my child back here," cried a woman in the car. Half a block farther along the car stopped. "He isn't mine," gasped the woman when she and the boy had caught up with the car, "I only smiled at him." —New York Sun.

UNIFORM AND THE DEMOCRAT.

An amusing episode is related by a Brussels newspaper with regard to a newly-elected Belgian Socialist senator. This senator, who appears to be an extremist, found it out of keeping with his "advanced" ideas to wear the official uniform to an official function. "A uniform!" he exclaimed; "this is not in conformity with sound democratic principles!"

Being invited to an official dinner at the palace, the senator declared that he would either wear evening clothes or decline to attend. He was careful, however, first to inquire of

the grand marshal whether this dress would be admissible, and was told that so great was the esteem of King Albert for his talents that he would be welcomed whatever his attire.

Accordingly the senator accepted the royal invitation, and arrived at the palace in evening dress without the least decoration. He alighted, however, from a beautiful limousine, on the doors of which his monogram was blazoned in golden letters two inches high.—London Standard.

MR. DUNCAN McLEOD'S VISIT TO SCOTLAND.

President of Local Caledonian Society Had Fine Trip.

MR. McLEOD TELLS OF THE HISTORIC PLACES HE VISITED.

Mr. Duncan H. McLeod, President of the Caledonian Society of this city, has just returned from a visit to "Auld Scotia" with the Scots of America, and gives an entertaining account of the excursion.

Mr. McLeod sailed on the "Graham" of the Allan Line, on July 8th, and had an uneventful voyage. There were 400 Scotsmen on board from all parts of the United States and Canada, and they "foregathered" as people do on a voyage. There were thirteen ministers among the passengers, several returning from the Baptist Convention at Washington, and the Sunday services, and mid-week prayer meeting were well supplied.

Mr. McLeod of Washington, D. C., who preached the first Sunday out, proved to be a distant cousin of Mr. McLeod's, their progenitors coming from the same place. The usual amusements and entertainments made

the time pass quickly, and the voyage was soon over.

164 icebergs were seen, some of enormous size, and a few feet of the ship, an interesting and impressive sight. Going up the Clyde to Glasgow, the travellers were struck by the tremendous amount of shipbuilding in the yards, which seemed literally to line the river banks, and which were full of busy workmen.

They passed the Moll of Kintore and Ailsa's Craig, which legend says was dropped by St. Patrick, while endeavouring to take it from Scotland to Ireland.

The castle of the Duke of Argyll (Colin Campbell) is situated on the banks of the Clyde.

On arriving at Glasgow the visiting Scots were formally received on board by the Mayor and a delegation of Civic Officials; given a cordial welcome, and presented with the freedom of the City of Glasgow.

On Sunday many of the visitors attended the morning service at the Cathedral, and heard a good sermon by a fine preacher, and in the afternoon went to beautiful Queen's Park, Glasgow is a substantial, rich city, with evidences of wealth on every hand, fine buildings, grand university, churches, parks, etc., but smoky and dull to one coming from the bright shores of Canada.

The Glasgow Exhibition was in full swing, and an interesting feature was an exact reproduction of a Highland Village—cottages with thatched roofs, peat fire, women spinning, weaving on a hand loom, and making lace, while men in kilts danced the sword dance and Highland fling on a platform, much to the entertainment of the strangers from overseas.

The first excursion from Glasgow was to Ayr, and then by steam cars to Alloway, the home of Robert Burns, a place of pilgrimage for 25,000 people every year.

Mr. Burns, Pict's church, is buried just within the churchyard of Old Alloway Kirk, now in ruins. In the steeple the bell still hangs, which called the dwellers of the countryside to worship hundreds of years ago. At Ayr, the "Two brig o' Burns" were seen, so associated with Burns and his immortal poems. Tam O'Shanter's cup is still preserved in a glass case.

The "Auld Brig o' Doon" is near Burns' monument, the latter a worthy and beautiful memorial of the beloved poet.

The old Kirk of Ayr, built in the 13th century, was next visited. When Cromwell became Protector he gave 1,000 marks to restore the church, which is still used for worship. The house of John Knox, that stern old divine, was another pilgrimage place.

At Dumfries on the Clyde is the fine monument to Highland Mary, the poet's first love. The tourists went by boat through Loch Fyne, famous for the best herrings in the world, and by coach to Loch Ayr, passing the ruined castle of Kilmarlock. The trip through the far-famed Trossachs was charming.

Stirling Castle was visited, also Wallace's Monument and the field of Bannockburn. Wallace's sword, which is 5 ft. 8 in. in length, is shown, a weapon for a doughty warrior, which few men of the present day could wield.

King George and Queen Mary were in Edinburgh when the tourists arrived there and the beautiful old city, on its seven hills, was in gala attire. The decorations were magnificent, arches, flags, banners, etc., landing color and brilliancy to the grey stone walls. A very impressive scene was the review of the Highland regiments by the King at Holyrood Palace, where the King dismounted and the soldiers with one accord sang the 100th Psalm from beginning to

the time pass quickly, and the voyage was soon over.

164 icebergs were seen, some of enormous size, and a few feet of the ship, an interesting and impressive sight. Going up the Clyde to Glasgow, the travellers were struck by the tremendous amount of shipbuilding in the yards, which seemed literally to line the river banks, and which were full of busy workmen.

They passed the Moll of Kintore and Ailsa's Craig, which legend says was dropped by St. Patrick, while endeavouring to take it from Scotland to Ireland.

end. The King and Queen looked very gracious and smiling, and seemed happy to be with their Scotch subjects.

Space will not permit telling of the many historical and interesting places seen in Edinburgh, but Walter Scott's monument on Prince's Street was particularly admired, its rugged, carved granite attesting the character of the great man to whose memory it was erected. Excursions were made to Inverness, St. Benedict's Abbey being seen on the way. Inverness is said to have been a market place 700 years before Christ, and is a quaint old town. At the battlefield of Culloden, where the heather grows thickly, the graves, in trenches, of the different clans who fell in that terrible day, in 1745, were pointed out and each traveller added a stone to the huge cairn erected on the field. One house is still standing which was there when the battle was fought. At Stornoway, the Capital of the Island of Lewis, Mr. McLeod met a number of friends, and near the ruins of St. Colwinta's Church saw the ancient burying-ground of the McLeod's, his ancestors.

The largest lighthouse in Britain, splendid structure, is on the Butt of Lewis, at the entrance to the broad Atlantic. The party travelled of course to London, and neglected none of its famous places, Windsor Castle, the Tower, Westminster Abbey, Hampton Court Palace, etc., and spent a couple of days in Paris, before returning to Glasgow to sail for home.

Mr. McLeod speaks with great admiration of the beautiful scenery, the fine roads, and enjoyed his trip exceedingly, but hints at much rainy weather as the only drawback.

The "London" on which he was a passenger, encountered a heavy gale near Newfoundland, but weathered it bravely.

net minister which was promised before prorogation and was not done. He explained at length the reciprocity pact. He went back from 1854, until the present time, showing the increased mileage and value of railroads, and other great increases and improvements that have kept us independent of our neighbors to the south, and are still continuing today. He explained how we would have to compete with the other nations of the favored nation agreement if reciprocity was passed, stated how the trade has been augmented by leaps and bounds and that this country is the admiration of the world for such a small population. He appealed to the electors after all due consideration to cast their vote for the man whom they thought would be able to serve them the best.

Mr. H. B. Ames met with a cordial reception on his trip to address the meeting. Many think he said, that the farmers are being kept from having their turn, but he thought that if this pact went through the farmers would have their turn down. Farmers want good crops and good markets, good crops we are not discussing, but good markets we are. The farmers raise some 700 million dollars' worth which goes to three places, Canadian home market, British market and foreign market, which is the United States. If we did up the produce of 1911 into 35 packages, 28 would stay in Canada, 6 to Great Britain, and 1 to the United States. If we tried to increase the one to two, would we lose the home market and Great Britain? It was like the dog under the shadow, dropped the bone for the shadow and lost both. The elements of a bargain are giving and getting. Mr. Fisher tells us all about it, but the price. We are going to get into the market of the United States of 92 millions for farm produce. Do Canadians expect to get a market in the Southern States where there is dark labor? No, then cut out 35 millions, take just Boston, New York, Chicago, Cincinnati and Philadelphia markets. Why there are 12 farmers now to one Canadian looking out for these markets now, and he has earlier seasons, etc., and you have a chance with 12 American farmers to one of stealing his market. There are now several after this market that are not situated any better than you are and are not making a very good success of it. I find from official census in the State of Maine, a shrinkage of 20,000 acres under cultivation in 1910 from 1900; New Hampshire, Vermont and New York run into several hundred thousand and of acres less under cultivation now than 10 years ago, these are on pasture and waste land, and yet the same markets that are now offered to you to sell to. It is shown from United States' statistics that our farm land has increased in value very much more and doubly as fast as theirs. "If we wait," said Mr. Ames, "we will get the benefit of waiting by being able to have cereals instead of wheat, meat instead of cattle on the hoof, lumber and timber instead of logs and so on on the free list, doing all the manufacturing on this side, instead of doing the milling and manufacturing on the other side. Our Liberal friends and papers say we are making a hoggy of annexation, but I don't think we are, we will never be squeezed into it, but we may be squeezed into it. Read President Taft's messages on this pact, and Congress' reasons for adopting it and accepting it. I am not opposed to reciprocity of the right kind, for instance, two countries producing similar articles exchanging their products as Jamaica might send us fruit, oranges, etc., and accept our produce which they do not raise."

Mr. Hickson followed, stating that this is not a party question, but a national question.

Mr. Gagne also spoke, appealing for the candidate, Dr. Hayes.

SIR MACKENZIE BOWELL JOINS MR. BORDEN.

Napanee, Ont., August 28.—When Mr. R. L. Borden arrived here Saturday to deliver the seventeenth speech of his two weeks' tour of Ontario, before 1,500 residents of the Bay of Quinte district he was joined by Sir Mackenzie Bowell, although in his eighty-eighth year Sir Mackenzie is still strong and active, and he has entered the lists against the reciprocity proposal of the Government with vigor and energy which would be praiseworthy in a man half his age. Never in his long public career as member of Parliament, Cabinet minister and Senator, he explained in his speech Saturday had the Canadian people faced an issue of such vital importance to their country as that before them today. To ratify the proposed tariff agreement with the United States he felt, would be to threaten Canada's existence as a nation within the empire.

NORTH COAST COOK.

Some fifty young people of the town gathered in Meade's Hall on Friday evening last on the invitation of Mr. and Mrs. F. J. Meade, the occasion being the celebration of the fifteenth birthday of their eldest daughter, Miss Edith. The hall was very tastefully decorated for the event with flowers and potted plants. The young people enjoyed themselves with games and dancing until the early morning when they dispersed after refreshments were served. Miss Edith was presented by her friends present with a handsome ebony toilet set.

A meeting of the Congregation of Christ Church is called for Wednesday evening to discuss certain repairs necessary to be made to the church.

The Ladies' Guild of Christ Church will meet with Mrs. Shaw on Wednesday afternoon.

Mr. John Whitely and family have moved into the house belonging to Mrs. B. Flynn.

Arrivals and departures: Miss E. Landus, to Sudbury, Ont.; Mrs. L. Cleveland, to North Stratford, N.H., after a short visit to Mr. and Mrs. F. C. Cleveland; Miss Alice Landers, to Montreal, visiting Mrs. T. Landers; Miss A. Marceau, home from East Andover, N.H.; Mr. and Mrs. Lorenzo Ladue, visiting old acquaintances here.

PERKINS' LANDING.

There are many summer people in the cottages along Owl's Head shore, and all are enjoying this beautiful spot.

The fine new Government wharf is a great improvement, as is the new shore road which makes a short and pleasant route to the cottages.

Dr. Hall of South Woodbury, Vt., is the latest addition to cottage owners in this neighborhood. He has returned to his home for a short time.

but expects to visit the lake again the end of the month.

The Union Ladies' Aid is a useful and agreeable institution and gives opportunity for the summer people to become acquainted with those who live here throughout the year. It met on Thursday of last week at Mrs. Blake's cottage near the wharf, and was very largely attended.

Dr. and Mrs. Ross of West Newton, Mass., who have been guests of Miss Sprague at "Comfort Bluff" returned to their home on Wednesday.

Mr. Allen, the State Librarian of Rhode Island, has returned to Providence after a visit with Mr. Bonagrat.

Mr. E. Goff Penny of Montreal, who spends his summer in Georgeville and a party of Montreal friends, visited Mr. W. C. Perkins recently and called at several of the cottages. The Rev. Dr. Symonds, who was one of the party, made a call upon Bishop Niles who is spending the summer here as he has done for forty-three summers.

Miss Bigelow, Miss Coburn and several other young ladies from Newport are passing a few days at "Idylhurst".

Mr. Black and Mr. Burgess with their families have returned to Newport after a stay of a fortnight.

KIRKDALE.

Arrivals and departures: Miss May and Florence Adcock home after holy days in East Angus and Scotch Wood with friends; Mr. and Mrs. S. Rick to Marbleton guests of friends; Mr. Trenholm Armitage to Montreal, after a few days with Mrs. W. H. Rick; Mr. Ned Rick to Sherbrooke to continue his work, which he had to leave some weeks ago, owing to the accident he had with his finger; Miss Grace and Mr. Stevens, Pye to Rectory Hill, guests of friends; Mr. and Mrs. R. Reed and son to Montreal after spending two weeks with Mrs. W. Stuart; Mr. C. N. Lyster home after his trip to Scotland and England.

JOINT MEETING AT SCOTSTOWN.

Supporters of Liberal and Conservative Candidates Meet.

THE BEST OF GOOD FEELING PREVAILED WHILE OPPOSITE VIEWS WERE EXPRESSED.

Scotstown, Aug. 28.—(Special)—A large political meeting was held in Strathcona Hall last Saturday evening, in which both parties took part. The hall could not accommodate much more than half of the people who wanted to get in. It had been reported during the week, and notices were posted up that there would be a meeting of the Liberals Saturday evening. It was not until late Saturday afternoon that it was rumored that the meeting would be a joint one, at which speakers from each party could take part.

Mr. Fred Start acted as chairman. There were seated on the platform Mr. A. B. Hunt, Messrs. J. Nicol, from Sherbrooke; Beauchemin, from Montreal; Lemay, from Sherbrooke, and Dr. Mooney, of this town. The meeting throughout was conducted in an orderly manner and with the best of feeling on each side.

The first speaker of the evening was Mr. A. B. Hunt, who told the electors how reciprocity would benefit the majority of the people of Canada. Dr. Mooney, of Scotstown, followed, and his address was calculated to dispute the view taken by the first speaker and endeavored to show that reciprocity, if it became the policy of the Canadian Government, would be greatly to the disadvantage of the country.

Mr. J. Nicol, Sherbrooke, who spoke in English, answered Dr. Mooney's arguments in regard to certain Government officials and politicians. Mr. Beauchemin, of Montreal, spoke in French.

Dr. Mooney was given the privilege of answering Mr. Nicol in a short address.

The chairman then introduced Mr. Lemay, Sherbrooke, who spoke for the Liberals in the French language. The chairman then gave Mr. Nicol the privilege of answering some of Dr. Mooney's remarks. At this time the meeting took the form of a discussion between Dr. Mooney and Mr. Nicol as to some remarks that Mr. Nicol claimed Dr. Mooney had made, but the matter passed off without any trouble.

Mr. Nicol then concluded his remarks in French. This brought the meeting to a close. A vote of thanks was then moved by Dr. Mooney to Mr. Start for his services as chairman of the evening.

FORMER GOVERNOR SERIOUSLY ILL.

Proctor, Vt., Aug. 28.—Mr. F. D. Proctor, formerly Governor, is seriously ill, and the fact that he has shown no improvement during the last week gives occasion for deep concern. Specialists have his case under close observation. Mr. Proctor has been confined to his bed for about four weeks with what is diagnosed as infective endocarditis.

NEW RACE OF PEOPLE.

New York, N.Y., August 28.—A race of people who have never before been discovered in the Arctic regions of British Columbia by Vladimir Stankov, leader of the American Museum scientific expedition which left here in April, 1908, according to a letter received from him in Brooklyn.

NEW SHERIFF AT QUEBEC.

Quebec, Que., August 28.—The appointment of Mr. Clément Blouin, M.L.A. for Lévis to the position of Sheriff of Quebec, has been made by the provincial Cabinet, and the order was ratified by the Lieutenant-Governor-in-Council, Saturday. This appointment will, of course, necessitate a partial election in Lévis county to secure a successor to Mr. Blouin. The position of Sheriff has been vacant in Quebec since the Hon. Charles Langlois was elevated to the Bench since which time Mr. Bégin, Deputy Sheriff, has been Acting Sheriff.

AWAIT WARSHIP FOR MAINE VICTIMS.

Havana, Cuba, Aug. 28.—The Maine Wreck Board has been officially notified that a battleship will be sent to take back the bodies of the victims when the wreck is finally unwrapped. Much speculation exists among the few army and navy men now here as to which ship will be sent. A suggestion that the present battleship Maine be sent is enthusiastically endorsed. Capt. Tilford received orders to return to the United States pending the further unwrapping of the coffins.

DROWNED NEAR HALIFAX.

Halifax, N.S., August 28.—Walter Freeman, of Greenfield, Queens County, was drowned yesterday in meadow bay on Poonhook Lake. In company with his brother he was taking a load of hay down the Poonhook Lake, when the boat sank under them. They both became exhausted and sank. He leaves a widow and several children.

FRUIT STEAMER WRECKED.

Kinston, Jan., August 28.—The Atlantic Fruit Company's fruit ship

Alice, which sailed from here on August 18 for Bluefields, with a cargo of banana sprouts for the company's fruit department at Nicaragua, with the intention of establishing an industry there, was wrecked on the same night. The captain, his son, two passengers and seven members of the crew reached Bluefields safely in a small boat after four days' terrible experiences. The other ship's boat, with the remainder of the crew, is missing, and it is feared it has been lost.

CANADIAN ARTILLERYMEN

SAID TO HAVE A CHANCE FOR THE KING'S CUP.

London, Aug. 28.—The artillery competition at Salisbury Plain for the King's and other prizes for field howitzer and heavy batteries was finished on Saturday, but the result will not be declared until today. Probably the King's prize will lie between either the Canadians, the Third London or the Aberdeen Battery. The firing generally showed some improvement upon last year, but wasn't of a high order. The special competition between picked men of the territorials unit and the Canadians for the Canadian Challenge Cup had to be abandoned for want of time. The Canadians afterwards went to Portsmouth, where they were entertained by the Mayor at the Town Hall, and marched to Eastney Barracks, where they will be quartered until Tuesday's competitions at Freshwater, Isle of Wight. Today they will visit the dockyard and the Victory, afterwards going to Whale Island. The contingent will also practice with 6-inch guns at Southsea.

It has become a question whether the meetings on the present basis are of much practical good to the territorial force, and it is probable that this will be the last year the National Artillery Association competitions will take place under existing conditions. If a new system is adopted it will enable sixty batteries to compete instead of eleven or twelve as at present.

CANADA AND WEST STEWARTS-TOWN.

Arrivals and departures: Mr. and Mrs. J. B. Nichols and children, to their home in Boston after their vacation with Mr. Nichols' mother, Mrs. H. Nichols; Mr. and Mrs. J. McLean, guests of Mrs. H. and Mr. and Mrs. J. B. Nichols, to their home in Contrecoeur; Mrs. Ker, visiting her people at Norton, Vt.; Miss B. Weeks from her trip to California, and will spend a few weeks with her mother, Mrs. J. A. Weeks; Mr. Shires, to Lancaster, N.H.

Mr. Shires of Bishop's College, preached as usual in St. Paul's Church, Sunday evening. Mrs. R. S. Newman, who recently underwent an operation for appendicitis is convalescent. Her children are staying with Mrs. R.E. Marsh.

BIGGEST BATTLESHIP LAUNCHED.

Quincy, Mass., Aug. 26.—(Special)—Declared to have no equal afloat as a first-class fighting machine, the dreadnought Rividavia, the largest ship of war now building or under design, and the first battleship ever

built in the United States for a foreign power, was successfully launched from the yards of the Fore River Shipbuilding Company shortly after noon today. The Rividavia is being built for the Argentine Republic. A sister ship, the Moreno, is under construction at Camden, N.J., and will soon be ready for launching.
