

rector with two churchwads at his side. At Claremont there were more bouquets, and a band playing the National Anthem, but it came to an end when Claremont House was reached, and the doors of it were shut on the world.

CIRCULATION OF THE DAILY WITNESS during the week ending April 1st, and the corresponding week of last year. Table with columns for MARCH, 1870 and APRIL, 1871, listing daily and total circulation figures.

The Daily Witness.

THURSDAY, APRIL 6, 1871.

SCHEMISM OF ARCHBISHOP OF PARIS AND BISHOP OF ORLANS.—It is stated in the French papers that Darboy Archbishop of Paris has written a letter to the Pope, announcing his entire and unqualified submission to the Decrees of the Vatican Council. The Pope has announced that Dupanloup Bishop of Orleans has also written him, giving his full and entire submission, and stating that only the exigencies of the war had prevented him from doing this sooner.

According to custom there will only be one edition of the Witness issued to-morrow (Good Friday). All purchasers will therefore be pleased to make their arrangements to supply themselves with the noon edition. In case of any very important news arriving late an extra will be issued.

The much longed-for details of the Royal Marriage, perhaps the happiest event England has known in the happiest reign in her history, have at last reached us. The excellent account of it in other columns will be read with great interest.

The news this morning respecting the progress made by the Joint High Commission is of the most cheering kind. The worst thing that Commission could do would be to do nothing, as any amount of giving in on either or both sides, provided honor be not sacrificed, would be preferable to the shortest war. We wish to see the two great Protestant nations linked together by a warm friendship, and we almost hope it will be found that Britain has excelled America in making concessions to secure that object.

POTATOES. The efforts that have been made through Agricultural Societies, supported by Government aid, to benefit the country, have undoubtedly done a good deal to increase its productivity and prosperity; but individual efforts have done far more, and it is chiefly to such efforts that in any other country it is to look for advancement in agriculture, as well as in manufactures and commerce.

CITY ITEMS. The weather remains unchanged since yesterday, except that the cutting wind has abated. There is a heavy fog over the city.

What the Garnet Chili is for a late potato the Early Rose, though not quite so secure against rotting, is far an early potato. Both are vigorous growers and very prolific; and both are large and handsome potatoes, of excellent quality, and doubtless both will be extensively cultivated this year.

damage than a slight shock to the train, as if it had struck something pretty solid. When the train stopped they went back and found that the train had been derailed, one carriage having been thrown off the track, and that having fallen on to the ground, it was not possible to get it on again.

CANADA PRESBYTERIAN CHURCH. The closing public lecture of the Session 1870-71 of the Presbyterian Church, Montreal, was delivered last evening in the Church. The subject of the lecture was "The Influence of the Bible in the History of the World." The lecturer was the Rev. J. D. Macdonald, D.D., of the Faculty of Theology, University of Toronto.

At the close of the lecture, the Rev. Prof. D. H. Macdonald, LL.D., made the following statement: "The influence of the Bible in the history of the world is a subject of the highest importance, and one which has attracted the attention of all ages and all nations. It is the foundation of our civilization, and the source of our moral and political principles."
