GASPÉ, C. E.

[This portion of Canada, in its general characteristics,—resources, commerce, geography, &c.,—presents such a dissimilarity to the other Districts of the Province, that it has been deemed advisable, with a view to its just appreciation, to deviate in some measure from the usual plan of this work, by the insertion of the following general description of this District, which has been kindly furnished by Peter Winter, Esq., of Percé. An additional reason for this course is afforded by the circumstance, that the agent who was specially engaged to take personally the particulars of all the Villages in that neighbourhood, was obliged, by an unexpected breaking-up of the winter roads, to abandon the task in the midst of his journey. Some idea of the impediments he encountered will be conveyed by a knowledge of the fact, that from the time he left Montreal, on this business, a period of 90 days elapsed before he could effect his return to the city. However, subsequent efforts have enabled the publisher to furnish the necessary information of most of the places comprised in the District, which will be found on reference to the general Index.]

This District, comprising the Counties of Gaspé and Bonaventure, is surrounded from Cap Chat to Cap des Rosiers by the waters of the River St. Lawrence; thence to Pointe aux Maquereaux by the waters of the Gulf, this point being the boundary between the two counties; thence to Point Magouacha by the Baie des Chaleurs, and thence westward to the uppermost end of the District by River Ristigouche: the whole extent being about 375 miles of coast, intersected by numerous smaller rivers, bays, and harbors, and being throughout a most valuable and inexhaustible fishing coast,—more particularly so the County of Gaspé, and the Magdalen Islands, situate in the centre of the Gulf. The chief resources of the District, with respect to exportations, are the cod, salmon, mackerel, herring, and whale fisheries, and lumber; the former principally in the County of Gaspé, and the latter principally in the County of Bonaventure. The imports, consisting of the necessities of life in the way of provision and clothing for the total supply of nearly two thirds of the population (not being producers or manufacturers), make of this District an extensive market for the products of other parts of the Province, contributing largely to the public revenue. The trade carried on hitherto has been retained by a comparatively small number of houses (who have realized large fortunes), leaving yet room for many competitors. The population of the District, 20,748 per last census, may now be estimated at about 25,000, mostly settled along the coast, leaving immense tracts of wild lands fit for cultivation. The County of Gaspé consists of the following Township Municipalities,—the populations given are those of the last census:—

	Population.	Mayors, who constitute the Main Division County Council.
Percé (County Town),	2160	Henri Paradis.
Newport and Pabos, united,	1025	James M. Kemon.
Grand River (Seignior),	689	P. X. Dugal.
Mal Bay	780	Jacob S. Packwood.
Douglas	819	Bernard Conolly.
Gaspé Bay South and York, united,	606	James Perchard.
Gaspé Bay North and Sydenham, united,	288	Golbert Lavergue.
Cap des Rosiers,	785 ½	None appointed.
Fox	584 ½	

Secretary-treasurer, O. T. Connick, M.D.

The remainder of the County, Ste. Anne des Monts and Cap Chat, &c., population 996, and the Magdalen Islands, population 2203 being separate County Municipal Divisions, have power to establish separate local register offices; but so far the Percé office is the only one for the whole County.

*Post Office route through the District:—*The mail from Métis, Matane, and Cap Chat, to Ste. Anne and Fox River, is carried on foot, fortnightly; thence to Grand Grève (Cap Rosier Township) and Gaspé Basin, on foot, weekly; and thence to the following offices, and throughout the County of Bonaventure, semi-weekly, with vehicles, which convey travellers at 4d. per mile,—Gaspé Basin, Douglastown, Point St. Peter (Malbay Township), Percé, Cape Cove (Percé Township), and Grand River.

The County of Bonaventure consists of the following Township Municipalities,—the populations given are those of the last census:

	Population.	Mayors, who constitute the County Council.
Cox,	1693	John R. Hamilton (Warden).
Port Daniel,	823	William McPherson.
Hope,	1107	Barnabas McGee.
Hamilton,	1031	
New Richmond,	1274	John Howatson.
Carleton,	855	Romain Landry.
Maria,	1349	
Nouvelle and Shoolbred,	1309	James Paschal Quinn.
Mann,	569	Thomas Wilson.
Ristigouche,	505 ½	James Sillars.
Matapédia,	326 ½	

Secretary-treasurer, J. G. Le Bel.

The mail is conveyed semi-weekly, in vehicles, at all seasons, (passengers at 4d. per mile,) to and from Quebec, connecting at Grand River, through the following stations: Port Daniel, Paspébiac, New Carlisle, New Richmond (Cascapédia), Carleton, and Cross Point (Ristigouche). There is another mail route from New Brunswick across the Ristigouche, and (on foot in winter) from Ristigouche to Métis.

GODERICH, C. W.—The chief Town of the County of Huron. It is beautifully situated on the East shore of Lake Huron, at the mouth of the River Maitland, and has a good and convenient harbour, which is being enlarged and improved. Goderich is the western terminus of the Buffalo and Lake Huron Railway. It has daily communication by steamboat during summer with Sarnia and Detroit, and steamers leave at regular intervals for Kincardine, Port Head, Baie du Dard, and Saugeen, ports further north on the same shore; and upon the completion of the Buffalo and Lake Railway, this autumn, a large portion of the travel and traffic of Lake Superior and the Great West will pass through the place. The country around Goderich is of the most fertile character, and large quantities of wheat are annually raised and exported from the neighbourhood. The fisheries prosecuted at various points along the coast have also been productive of considerable wealth to the Town. The land to the north of Goderich not having been brought into the market for sale and settlement until within the last five years, the progress and prosperity of the place was for a long period much retarded; but it is now rapidly advancing in commercial importance and population. Distant by railway from Stratford, where the Buffalo and Lake Huron Railway connects with the Grand Trunk, 44 miles; from Buffalo, N. Y., 160 miles; from Sarnia by steamboat 65 miles; and from Toronto by railway 132 miles. Population about 4000.

GROSSE ISLE, C. E.—The Provincial Quarantine Establishment, situated on the River St. Lawrence opposite the village of St. Thomas, the present Terminus of the Quebec Branch of the Grand Trunk Railway. The Island is healthy, and is surrounded by scenery of a very picturesque character. It is two and a half miles in length, and about a mile in width. A solid, substantial wharf has been built, having a depth of seventeen feet at low water, at which vessels or steamers may land or embark passengers. This Island is the property of the Province, and is wholly devoted to Quarantine purposes. No persons but those belonging or necessary to the Establishment are allowed to reside on the Island, or to visit it without a pass from the Emigrant Agent at Quebec. All Emigrant ships arriving in Canada are rigorously compelled to stop at Grosse Isle until inspected by the Medical Superintendent and the passengers passed clean and healthy. A large washhouse, as well as ample sheds and every requisite appliance, are provided on the Western extremity of the Island for emigrants ordered, by the Medical Superintendent, to land from on board of vessels in which malignant or contagious diseases may have made their appearance during the voyage, for cleansing and the purification of their luggage. These are situated at the Eastern end of the Island; the residence of the principal officers being in the centre. No communication is permitted between the two extremities of the Island unless a written pass is granted by the Superintendents. Two Clergymen respectively of the Church of England and the Roman Catholic Church are stationed at the Establishment during the season of navigation. A provision dealer is allowed to contract, under certain conditions, to furnish supplies for the Island. A small force of Police is constantly on the Island while the Establishment is in operation. There is no Post office; but letters, whether to persons connected with the Quarantine or to passengers, are forwarded regularly twice a week through the Emigrant office in Quebec,—a steamer being annually engaged to maintain constant, but only authorized, communication between Quebec and Grosse Isle. Distant from Quebec about 29 miles.

GUELPH, C. W.—An incorporated Town, situated on the River Speed. It is the chief Town of the County of Wellington. Guelph is a first-class Station on the Grand Trunk Railway. It is the northern terminus of the Galt and Guelph Railway, which connects with the Great Western; and the southern terminus of the proposed Railway to Saugeen, the distance to which is about 70 miles. From Guelph there are regular stages to Owen Sound, through Fergus and Elora, and a regular mail to Southampton. Being the centre of a rich agricultural district, Guelph has a large retail country trade; its exports are chiefly wheat and flour. In the neighbourhood of Guelph there are very valuable quarries of building stone, which will probably soon become a regular article of trade. Distant from Toronto 47 miles, and from Hamilton 30 miles. Mail daily. Population about 4500.

HAMILTON, C. W.—Is situated on the South-western extremity of Burlington Bay, in the Township of Barton and County of Wentworth. It was laid out in 1813, and occupies a space extending back from the Bay to the base of the Mountain, a distance of about a mile and a half. The land rises gradually the whole distance, affording excellent facilities for drainage. Situated at the head of Lake navigation, and in the very centre of the finest grain-producing country in America, with railways, completed or in prospective, diverging in various directions through the best settled and wealthiest portions of Canada, it is destined to become a great commercial city. For the past seven years it has progressed with almost unexampled rapidity. In 1841 the reported population was 3446, which in 1850 had increased to 10,312, and now it is estimated that the number of souls has reached a total of nearly 29,000. The assessed value of real and personal property in 1850 was \$246,296, and in 1855, \$761,916. The Customs duties on imports for 1853 amounted to \$3,545,509, which had increased in 1856 to \$5,400,025. Hamilton is the head quarters of the Great Western Railway, the Hamilton and Toronto, and the Hamilton and Port Dover Railway Companies. The length of the Great Western Railway, from Niagara Falls to Windsor, opposite Detroit, is 228 miles, passing through the most populous and fertile portion of Canada West, and connecting the Central Railroad of Michigan and the Upper Lakes with Lake Ontario, as well as with the numerous lines of railway through the State of New York to Boston and New York. It is one of the best paying railways in America. The streets of Hamilton are generally laid out at right angles; those running back from the Bay having a direction nearly north and south, and being crossed by others running east and west. The buildings are chiefly of stone and brick, and many of them are of imposing appearance. Hamilton has two of the largest and finest hotels in the Province; and the banks, public buildings, churches, and many of the merchants stores, are handsome and costly structures. On the rising ground approaching the Mountain are a number of elegant residences, which are not surpassed in Canada, with grounds beautifully laid out and tastefully ornamented; and from the Mountain itself a magnificent view may be obtained over the country, and, on a clear day, the lighthouse at Toronto, 45 miles distant, may be seen by the naked eye. The chief business portion of the City is situated about a mile back from the Bay. The City is well lighted with gas; and a complete system of sewerage is being carried into effect. The chief business streets are King, James, John, York, and MacNab Streets. The Gore Bank has its head establishment here; and the Bank of British North America, the Commercial, Upper Canada, Montreal, and Toronto Banks have each a branch in the City. Magnificent water works, at an estimated cost of \$300,000, are now in course of construction; the water for which is to be brought from Lake Ontario, a distance of about nine miles, and pumped into a distributing reservoir in the eastern part of the City. A basin is to be constructed in Burlington Beach, into which the water will naturally filter. A plan of new market buildings has been adopted by the City, and the works will shortly be put under contract; and when completed, the buildings will not be excelled in Canada. Hamilton is the seat of some of the most extensive manufacturing establishments in the Province, among which may be mentioned locomotive works, foundries, car works, machine shops, scale works, &c. It communicates with Lake Ontario by means of a large canal constructed through the Beach, which separates Burlington Bay from the Lake. The City is connected with Dundas by the Desjardins Canal, a navigation of about four miles in length. Burlington Bay is a large and beautiful basin of water, navigable in all parts within a few yards of the shore, and makes one of the safest and most commodious harbors on the Lakes. In summer, daily lines of steamers and propellers run between Hamilton, Toronto, Kingston, and Montreal; and by means of the Hamilton and Toronto and the Grand Trunk Railways, these points are accessible at all seasons of the year. Hamilton returns one Member to the Legislative Assembly. Distant from Niagara Falls 45 miles, from London 76 miles, from Toronto by railway 38 miles, and from Montreal 378 miles. Population about 29,000.

Main Line opened 27th January, 1854; length of road from Eastern terminus, Niagara Falls, to Western, Windsor, 229 miles.

The main line extends from Windsor to Niagara, connecting with the state of New York at the latter place by a Suspension bridge, which is leased by the Great Western Railway Company, and at the former with Detroit, in the State of Michigan, by ferry boats, the property of the Company.

There is a branch line, of 38 miles, from Hamilton to Toronto, where it connects with the Grand Trunk Railway. There is another branch from Harrisburg to Preston, 12 miles, which will shortly be opened to Guelph, 11½ miles further. A branch line is under construction between Preston and Berlin, a distance of 10½ miles.

There is also a branch line under construction between Komoka, near London, and Sarnia, 60 miles long, where it will connect, by ferry boats, with the Port Huron, Detroit and Milwaukee Railway, also with propellers, &c., on Lake Huron.

There are three through fast trains going west daily, and four going east daily.

There are four passenger trains each way on the Toronto branch, and as many on the Preston branch.

The average speed of fast passenger trains is 30 miles an hour; the average speed of freight trains is about 15 miles an hour.

HOCHELAGA, C. E.—An incorporated Village on the North bank of the St. Lawrence at the foot of the Current St. Mary, opposite Longueuil, and immediately adjoining the Eastern suburbs of the City of Montreal. It was originally an Indian village, belonging to the Hurons, which they deemed sufficiently important to maintain in a fortified state. The French made their first successful settlement on the island at this place, about the year 1640. The change of the site of Montreal from Hochelaga to its present position seems not to have been purposely effected, but to have been occasioned by the establishment, in 1657, of the Seminary of St. Sulpice, and of a hospital which its managers founded for the benefit of the inhabitants, which naturally attracted to that portion of the island the subsequent emigration from France. A commodious wharf was constructed here last year, to accommodate the transatlantic Canadian steamers. Population about 300.
