RAIN NEEDED IN ALBERTA

Hot Winds Of Past Three Days Have Aroused Anxiety Among Farmers

Winnipeg, July 22—No break is apparent in the heat wave, which is quite general over the western provinces. High temperatures were reached today at many points. The present week is described as having been a trying one in Southern Alberta, and rain is needed, with which it is hoped a crop can be harvested which will be two-thirds as large as that of 1920. Prince Albert reported cheerfully today that prospects in that crop area were of the brightest. Manitoba needs cooler weather, and rain, but more heat is predicted for tomorrow. Aine Hat, Alt., July 22—The hot winds of the past three days have aroused some anxiety among the farmers and a general rain is needed as an imperative need of the crops in this district. Prospects have been considered fairly good. A Trying Week Lethbridge, Alta., July 22—Crops in Southern Alberta have withstood a trying week of intense heat and warm winds and a general rain is needed to bring conditions back to approaching normal. Wednesday was the hottest day since 1910. It is estimated that about two thirds of last year's total will be the best crop that can be expected over the whole of Southern Alberta. This should be only the one third the 1915 crop. In some districts, particularly along the international boundary crops are still standing up very well, but every where rain is needed to keep the good fields that are left from going back.

U.S. IMMIGRATION TO DOMINION

Retarded Through Exaggerated Statements in American Papers Re Crop Damage

Winnipeg, July 22—The Free Press today publishes the following: "American immigration to Canada is being retarded by exaggerated reports in American newspapers of minor crop damage. This is the statement of John Wardrop, general agent, Industrial and Natural Resources Department, Canadian National Railways. He has just returned from a business trip to the Northwestern states. "In North Dakota and Minnesota large numbers of Canadian farmers, who migrated from Ontario and American farmers seeking better conditions, are ready to move Northward to Canada and settle on Prairie farms, but have been frightened into delaying through the exaggerated reports of the few hail storms in the West this year, Mr. Wardrop says. Business interests in the rural districts are using all their powers to retain their people and miss no opportunity to use reports of unfavorable climatic conditions in Canada to discourage emigration."

ABUNDANT RAINS HAVE HELPED ONTIARIO CROPS

Toronto, July 22—Abundant rains plus a prolonged heat spell have brought Ontario crops along with a rush. On account of the heavy falls of moisture farmers have been unable to attend to haying and in the meantime all grains are ready for the binder. The result is a most unusual situation and only a liberal supply of labor will prevent much wastage. A month ago there was little demand for help but today able-bodied experienced men are in demand.

WHY SIR LOMER LEFT LA PRESSE

One Reason Given At Hearing On Requests For Cross-Injunctions

Montreal, July 22—One reason why Sir Lomer Gouin former Premier of Quebec, left La Presse after a few months service on the directing staff of that newspaper was given in evidence by Arthur Berthiaume, President and general manager of the paper today, during the course of the hearing on requests for cross injunctions made by the two warring factions now fighting for control of the Journal. "Sir Lomer Gouin left La Presse," said the witness, "because Eugene Berthiaume persisted in opening Sir Lomer's letters at the office." Eugene, according to the witness was also in the habit of opening his brother's correspondence and this was a source of continual grievance between the brothers. Eugene Berthiaume followed his brother into the box and his evidence as far as it went until the Court adjourned until Monday was to the effect that the books of La Presse Company had disappeared, he did not know how. Sharp Legal Conflicts The Berthiaume case, was resumed this morning in the Practice Division of the Superior Court before Mr. Justice Loranger. Sharp legal conflicts between attorneys took up the morning. The court is still occupied hearing the evidence for and against a petition for an injunction presented by Eugene and Edward Berthiaume to restrict their brother, Arthur Berthiaume, general manager and President of La Presse Publishing Co., and trustee under his late father's will from continuing the sole management of La Presse which is the most important French paper in Canada. Arthur, who was on the stand yesterday was again called by N. K. Adamme, K.C. counsel for the petitioners, and was questioned at length concerning the transfer of ten shares of the company's common stock by him to Pamphile Du Tremblay another trustee. This transfer was made without any pecuniary consideration to allow his friend elected director. The trust deed was the result showing that the respondent was allowed to dispose of the stock by sale to ensure the formation of a board of directors. When denying that he had consulted the treasurer of the company prior to a meeting on July 14 at which he had stated the company's financial situation would be discussed, Mr. Berthiaume said "I am not in the habit of consulting my employees on matters pertaining to the management of the company."

THE WEATHER.

Toronto, July 22—The barometer continues low in the Western Provinces and is falling slowly between the Great Lakes and the Atlantic. The weather continues fine and decidedly warm in the Western Provinces, Ontario and Quebec and more moderate in the Maritime Provinces.

Lower Lakes and Georgian Bay—Moderate South and Southwest winds mostly fine and decidedly warm. Thunderstorms in a few localities chiefly towards night. Upper St. Lawrence and Ottawa Valley—Light to moderate winds; fine and very warm Sunday, thunderstorms in a few localities. Lower St. Lawrence and Gulf and North Shore—Moderate Southwest winds; fair and warmer. Maritime—Light to moderate Southerly winds; fair and warm today and on Sunday. Superior—Moderate Southwest winds fair and decidedly warm. Manitoba and Saskatchewan—Fine and very warm. Alberta—Mostly fine and somewhat cooler in Northern districts with local showers.

TYPHUS AND CHOLERA SWEEPING WESTWARD

Worst Epidemic in History Is Going Forward With Terrific Speed

Paris, July 22—The worst epidemic of typhus and cholera in history is sweeping Westward with terrific speed. Europe today awakes to a realization that unless Russia's starving millions are immediately relieved the whole Eastern Hemisphere stands in danger of falling in a few months in the grip of grim plague. According to an authentic appeal from Maxim Gorky, cabled to Anatole France, Gerhard Kaupmann and Blasco Ibanez, the situation in Russia is beyond belief. Gorky declares that 300,000 Russians are dying daily from starvation and disease. From one end of Russia to the other crops are complete failures. Suicides by wholesale are reported from the Caucasus, while in Moscow and Petrograd mothers are showing their babies rather than see them die from hunger.

TWO IMPORTANT POINTS IN THE IRISH QUESTION

Future Course Of Negotiations Seems To Turn On These Points

DE VALERA IN DUBLIN

Terms Of Government's Proposal Won't Be Announced Without Prior Agreement

London, July 22—The future course of the Irish negotiations seems to turn on two important points. First, whether another meeting between Sir James Craig and Eamon De Valera can be brought about in Ireland, and second, whether Mr. De Valera can be induced to consent to a solution of the situation through an amendment of the existing Home Rule Act, presuming that such a solution can be worked out. The second question appears to hinge on a desire on the part of the contending parties to hold to their ideals. Mr. Lloyd George, as a concession to the Unionist section of the coalition, wishes to save the Home Rule Act and Mr. De Valera and his party, on the other hand, would vastly prefer to destroy the hated "partition act". Mr. De Valera today had an ovation as he was returning to Dublin. He is expected to spend the entire week-end there in formal talks with his colleagues and probably will summon a meeting of the Dail Eireann next week to examine into the Government's offer. The convening of the Dail Eireann, it is considered here, would be an indication that the offer was regarded as the possible basis for further negotiations. The supposition is that if the draft offer is not approved by Arthur Griffith, Professor John McNeill, Michael Collins and other leaders, the Dail Eireann will hardly be convened, while if the leaders accept the draft, the sanction of the Dail Eireann is certain to follow. Among the Sinn Feiners in London no definite development in the negotiations seems to be expected for ten days or a fortnight. The terms of the Government's proposal apparently will not be announced publicly without a prior agreement between Premier Lloyd George and Mr. De Valera. According to apparently inspired statements however, they are of a somewhat tentative character, intended to indicate the lines on which the Government considers a solution of the situation possible, provided both Ulster and the Sinn Fein are able to agree and request the Government to amend the existing Act. De Valera Reaches Dublin Dublin, July 22—Eamon De Valera and the members of his party reached the Mansion House from London this afternoon. Great crowds which had gathered about the Mansion House gave them an enthusiastic greeting. The party was met at Kingstown, whence they motored to Dublin, by Lord Mayor O'Callaghan of Cork, the Mayor of Waterford, representatives of the Dail Eireann, Mrs. O'Callaghan and other persons prominent in Republican circles. On his arrival at the Mansion House, Mr. De Valera, assisted by Michael Collins and Arthur Griffith held a brief reception. Mr. De Valera, addressing the crowd outside, declared that if the people acted in the future as they had during the last two years they would not need to talk about freedom. They would have it.

CROP PROSPECTS IN SASKATCHEWAN

Said To Be Of The Brightest —Wheat Is All Headed Out

Prince Albert, Sask., July 22—Crop prospects in this area are of the brightest. Although there are isolated cases of severe damage from hail, the percentage on the whole is negligible. No rust or smut has appeared and little damage has been done by grasshoppers or cut worms. Wheat is all headed out and 75 percent of the oats have followed suit to date. Bright sunny weather is now required and this has been enjoyed during the week. With a continuance of the same favorable conditions grain harvest should commence about the middle of August and continue without cessation as the coarser grains are so well advanced. It is estimated the yield will closely rival the output of the bumper crop in 1915. Garden produce of every kind is very prolific, the abundant rains in June having assured successful growth. Hay is very plentiful on the uplands and in the sloughs, but none of the later can be cut without difficulty owing to the presence of water.

CLAIMS OFFER IS MADE TO SOUTH AND NORTH ALIKE

Parliamentary Correspondent Of London Times Forecasts Irish Settlement Bid

STRONG INDUCEMENTS TO ULSTER AND SINN FEIN TO FORM CENTRAL GOVERNING AUTHORITY

London, July 22—It probably will be found on publication of the Cabinet's offer to Ireland, the Parliamentary correspondent of the London Times declares, that, with a single exception, certain military safeguards are reserved for the Imperial Parliament and that a full range of Dominion authority is to be offered alike to the Parliament of the South and to the Parliament of the North. If the North were to decline the new powers, the correspondent says, "the Southern Parliament would be able to exercise them in the twenty-six Counties under its jurisdiction. The powers include control of taxation and customs and control of the police and, apparently the establishment of a territorial force is not excluded". The correspondent asserts that Mr. De Valera expressed the wish that the terms be not published before he communicated them to his principal supporters in Ireland, to which Premier Lloyd George agreed, and that an arrangement is to be made for simultaneous publication in Ireland and England. "One definite fact," says the correspondent, "is that the demand for an Irish Republic is made no longer." He then declares that the document presented to Mr. De Valera is understood to give in broad, exact outline the new arrangements approved by the Cabinet. It avoids details and is concerned only with the large lines of future relations between North and South Ireland and between Ireland and Britain. Explaining that the proposals are based on Dominion self-government and are made both to North and South, the correspondent continues: "If the South accepts it will be open to the North independently of what the Sinn Fein stigmatize as partition. It is part of the Cabinet's scheme that Ulster must not, and cannot be coerced and that the Sinn Fein should recognize the justice of applying to the North the principle of self-determination in local affairs. "But while according to the Cabinet's plans, the North is to retain in full measure the safeguards provided by the 'Better Government in Ireland Act' there will be very strong inducements for the North and South to co-operate in establishing and maintaining a central governing authority for the whole of Ireland to deal with questions of common interest". Editorially the Times declares that the issue between the Irish leaders "can almost be reduced to the question whether a joint body to administer all Ireland affairs, be it Parliament or Council, should be constituted on the basis of equal or proportional representation".

JAPAN PREPARES DRAFT PROGRAM

Will Adopt Positive Role At Conference As Leading Oriental Power

Tokio, July 22—The Japanese Government is now preparing its bearing on a program for the disarmament and Pacific Conference, the former invitation to which it is confidently expected Japan will accept when it is officially received. The preliminary indications give the impression that Japan will adopt a positive role at the Conference as the leading Oriental Power affected. According to the newspapers, Viscount Uchida the Foreign Minister, favors and expects a strong attitude on the part of Japan at the Conference, as it will have a grave bearing on the prestige and interests of the Empire. They announce that he had little dreamed of Japan which it is confidently expected Japan will accept when it is officially received. The preliminary indications give the impression that Japan will adopt a positive role at the Conference as the leading Oriental Power affected. NO NOTICEABLE CHANGE.

Winnipeg, July 22—No noticeable change has taken place in business conditions during the past week. In the east forecasts vary and in the west much depends on the crop situation, which is better than a week ago, states the Weekly Trade report of the Canadian Credit Men's Association.

SENDING PROTEST TO PREMIER TASCHEREAU

Montreal, July 22—At a meeting of the Montreal Trades and Labor Council last night it was resolved that a protest be sent to Premier L. A. Taschereau against the emission of a fair wage clause in the contract for the building of the new court house annex. The committee appointed to enquire into the matter reported that the clause had not been inserted as it had been requested, but a promise had been received from Louis Goyon, Deputy Minister of Labor, that it would be put in.

TWO WIDOWS TOOK ADVANTAGE

Of Insuring With Government Under Returned Soldiers' Insurance Act

Ottawa, July 22—Only two widows have taken advantage of the privilege of insuring with the Government under the Returned Soldiers' Insurance Act. To the present time nine families have taken out insurance under the Act. Seven of the nine policies were taken out by nursing sisters who served during the war. When the Act was passed originally, provision was made to enable the widows of members of the forces who died after discharge from the army to obtain insurance, for the reason that in many cases returned soldiers died after discharge from some cause not attributable to military service, and consequently their widows were not eligible for pension. It was felt that they should be given an opportunity of insuring for the benefit of their children, and this was done by inserting a section in the Returned Soldiers Insurance Act, enabling them to make application for twelve months from the date upon which the Act came into force. This period expires on September 1 of this year, after which date no applications will be received from widows.

ST. JOHN STANDARD SUSPENDS PUBLICATION

St. John, N.B., July 22—The following statement was issued this evening by the managing director of the St. John Standard: "Pending reorganization and the taking over of the business by new interests, publication of the St. John Standard has been temporarily suspended. The expectation is that on re-issue which is anticipated almost immediately, the Standard will resume its original standing as a straight Conservative organ."

HUNGER STRIKE AMONG IRISH PRISONERS

Cork, July 22—A hunger strike among the persons interned in the Bery Island internment camp in Berris Bay, as a protest against their treatment, is reported by the chief Republican Liaison officer. He states that letters and parcels cannot be received in the camp and that the bakers refuse to make bread of it.

REAR ADMIRAL SIMS CONDEMNED FOR "NOTORIOUS PRO-ENGLISH TENDENCIES"

Detroit, July 22—Montreal was chosen as the next meeting place of the Ancient Order of Hibernians at the closing session of the convention of the Order here today. A resolution was adopted asking Premier Harding and Congress immediately to recognize the Irish Republic. Further resolutions endorsed the president's proposed conference on naval disarmament, demanded that steps be taken to collect the principal and interest on ten billion dollars owed the United States in debts by the Allies and condemned Rear Admiral Sims of the United States navy, for his "notorious pro-English tendencies".

AVERAGE TEMPERATURE BOOSTED SKY-HIGH

Hottest Spell Of Heat Since 1840—Thirty One Sizzling Days

Toronto, July 22—There have been long seasons in Ontario and Quebec which have boosted the years average temperature sky-high. There have been a few short spells of sizzling heat. But never before since the meteorological office began in 1840 has the maximum daily temperature continued so high for 31 consecutive days. In Toronto for example, it has not been less than 80 degrees and yesterday it was 82 degrees. Yet the highest temperature, 98 degrees, which was reached on July 5th, considerably below the record for Toronto of 104.3 degrees was reached on July 8th, 1811. The average temperature for July during the very hot summer of 1916 will probably be found to be higher than that of the present month, but in 1916 the maximum temperature reached 89 degrees on only eight consecutive days.

30 Parsonages Established During Twelve Months By Methodist Church

Toronto, Ont., July 22.—Rev. S. Wesley Dean, General Secretary of the Financial Department of the Methodist Church...

statement just completed reports the most prosperous year in the church's history. Twenty seven new churches were established in Canada...

Financial receipts for all purposes aggregated \$11,311,259, record amount. For general mission and women's mission society work \$1,424,104 was raised...

The membership of the church is 400,789, an increase of 5,136. The Sunday School attendance is 469,399, an increase of 13,097 over last year...

Salaries paid out to ministers occupying pulpits totalled \$2,711,077.

ARTHUR SAUVE WILL ACCEPT

Montreal, July 22.—Arthur Sauve, Leader of the Opposition in the Quebec Legislature will accept the seat offered him by a delegation of Montreal Tramways employees on the Arbitration Board...

The Tramways Co. and their employees Union. This was stated this morning by an authoritative party.

The Garrison are determined to put over a win on the Napoleons this afternoon. Be at the Exhibition Grounds this afternoon and witness two great ball games.

TYPOS INVITE CARDINAL BEGIN

Prince Of Church Asked To Open I.T.U. Convention On August 8th. Next

An invitation has been extended to His Eminence Cardinal Begin, Archbishop of the Diocese of Quebec, to preside over the opening of the big convention of the International Typographical Union...

This is a custom which has always been followed by the International Typographical Union and the late Cardinal Gibbons opened their conventions on several occasions in the United States.

The convention which will bring about three thousand visitors to Quebec, will be the largest gathering of its kind ever held in this City. The official opening will take place on Monday August 8th...

On Sunday the 7th, a picnic will be held to the Island of Orleans and already seven or eight vessels have been secured for the transportation of the visitors.

Among the other invitations which will be issued for the official opening of the convention are the following:—the new Governor General, Hon. Arthur Meighen, Prime Minister, Hon. Gideon Robertson, Minister of Labor, Hon. Hugh Guthrie, Minister of Militia and Defence, His Honor the Lieutenant-Governor, Premier Taschereau, Hon. Antonin Galipeau, Minister of Public Works and Labor, His Worship Mayor Samson, Major C. G. Power, M.P., and others.

BARNES IS NEW U.S. GOLF CHAMP.

New Yorker Finished Ahead Of Field In American Open Tournament

Washington, July 22.—Playing as fine a two days' session of golf as the most pessimistic critic of the Ancient and honorable game could desire, James M. Barnes, of the Pelham Bay, N.Y., Country Club, won the open National championship on the course of the Columbia Country Club here today with a score of 289 strokes for 72 holes.

Nine strokes in his wake came Walter Hagen of New York, champion in 1919, and Fred McLeod professional of the local course, each with a score of 298.

National amateur champion Charles "Chick" Evans of the Edge-water Club of Chicago was fourth with 302, the first amateur of the original score, or more of entrants to finish. Another amateur of National golfing prominence, tied in the next group of three, in the person of Robert T. "Bobby" Jones of Atlanta, whose score of 303 placed him alongside the professionals Alexander Smith of New London, and Emmet French of Youngstown, Ohio.

On the half dozen foreign entrants who gave an international aspect to the 26th national open championship only one, George Duncan, winner of the 1920 English open title with a score of 303, finished well up in the struggle for the United States title. He was tied with Clarence Hackney of Atlantic City, for eighth place with 305, two more strokes than he had required in his championship win at Deal, England.

Charles R. Murray, Montreal, the only Canadian to finish well up, had a score of 313.

On the strength of the judgment rendered yesterday the Bastien brothers maintain that the arbitrators appointed cannot decide the question of right but only the question of damages, and it is now rumored that the Bastien Brothers will sue the City for a sum of \$525,000 covering past and future damages.

This was the sum they claimed when the city offered to buy them out, and in return the City offered \$13,000.

It is the intention of the City Council at its next meeting to pass a new resolution authorizing the City Attorneys to expropriate the servitude as well as the property of the Bastien Brothers.

On the strength of the judgment rendered yesterday the Bastien brothers maintain that the arbitrators appointed cannot decide the question of right but only the question of damages, and it is now rumored that the Bastien Brothers will sue the City for a sum of \$525,000 covering past and future damages.

This was the sum they claimed when the city offered to buy them out, and in return the City offered \$13,000.

SUDDEN DEATH OF MR. JOS. BEDARD

Well-Known Theatrical Man Passed A way Yesterday After Brief Illness

The death occurred suddenly yesterday of a well-known figure in theatrical circles in this City and province in the person of Mr. Joseph Bedard, for the past twelve years manager of the Drapeau Theatre Circuit and a former manager of the Strong Man, Louis Cyr, with whom he toured the world.

Born in Montreal, Mr. Bedard in his younger days was a strong man himself and gave public exhibitions, later he took over the management of travelling shows and the success which he attained with Louis Cyr is well known. Coming to Quebec twelve years ago, Mr. Bedard made many friends in this City and his sudden death will be generally regretted.

Although in indifferent health for some time past, there was nothing in his condition to inspire any anxiety. He entered the Hotel Dieu Hospital about ten days ago and passed away yesterday when everything indicated that he was gradually improving.

Mr. Bedard is survived by his widow and one son, as well as one brother, Mr. Edouard Bedard, of Montreal, and three sisters, Mrs. Louis Preville, Mrs. Nap. Deltaut and Mrs. Charles Gaspard, of Montreal.

A NEW TURN IN BASTIEN CASE

The City Temporarily Desists From Expropriation—Rumored Bastiens Will Sue

The case of the Bastien Brothers and the City of Quebec which ran the gauntlet of all the courts in Canada and was carried as far as the Privy Council, took a new turn here yesterday in the Practice Court when Judge Letellier gave judgment maintaining a petition submitted by the City of Quebec to desist from expropriation proceedings.

The Bastien Brothers are mill owners at Loretteville, and sued the City maintaining that since the installation of the 40-inch water pipe by the City, they have been frequently unable to operate their mills through shortage of water.

In the Privy Council the judgment was in favor of the Bastien Brothers who have since obtained judgments for damages against the City aggregating a sum of about \$50,000.

Some months ago the City applied to Chief Justice Lacombe for power to expropriate the property of the Bastien brothers which application was granted and Messrs. Surveyor, Hunter and Beique were appointed as arbitrators.

The Bastien Brothers contested expropriation proceedings in the Practice Court, and as there was some doubt concerning the interpretation of the resolution of the City Council authorizing the City Attorneys to submit a petition to the Court asking permission to desist from expropriation. The reason for this action on the part of the City was the doubt which existed as to whether the resolution merely called for the expropriation of the servitude enjoyed by the Bastien Brothers or for the property and mills as well.

It is the intention of the City Council at its next meeting to pass a new resolution authorizing the City Attorneys to expropriate the servitude as well as the property of the Bastien Brothers.

On the strength of the judgment rendered yesterday the Bastien brothers maintain that the arbitrators appointed cannot decide the question of right but only the question of damages, and it is now rumored that the Bastien Brothers will sue the City for a sum of \$525,000 covering past and future damages.

This was the sum they claimed when the city offered to buy them out, and in return the City offered \$13,000.

Social and Personal

Hon. Antonin Galipeau has left for Lake St. John. Major Vanier will spend the week end at Point au Pic.

Mr. Charles Lewis, of Montreal, is staying at the Chateau. Mr. Percy Stopps, of Montreal is registered at the Chateau.

Mr. W. H. Crochereau of Sherbrooke, is a guest at the Chateau. Mr. G. A. Stenhouse, of Montreal, registered at the Chateau yesterday.

Mrs. C. J. Doherty, of Ottawa, is spending a few weeks at Murray Bay. Miss Beatrice Leonard, Saunders street, has left for Old Orchard, Maine.

Mr. J. T. Davis, of Montreal is among the guests staying at the Chateau. Mr. and Mrs. L. Webber, of Montreal, are in town, guests at the Chateau.

Mr. and Mrs. A. Seavey of Saco, Me., are in town, registered at the Chateau. Mr. and Mrs. Thos. J. Doherty of New York are spending a few days in town.

Mr. and Mrs. Pierre Audet are spending the summer at St. Michel, Bellechasse. Mr. and Mrs. A. C. Barker of New York, are in the city staying at the Chateau.

Mr. Gaspard Huot and Miss Jacqueline Huot are spending some time at Baie St. Paul. Mrs. J. H. Garth, of Montreal, is visiting her sister, Mrs. Shehyn, at Lake St. Charles.

Mr. and Mrs. J. Antonio Grenier and family are summering at St. Michel, Bellechasse. Dr. and Mrs. P. Coote and family have left for Bic, where they will spend a few weeks.

Mr. and Mrs. H. P. Bridgeman, are in town from Los Angeles, Cal., staying at the Chateau. Mrs. J. N. Clark and Miss C. F. Clark are in town from Portland, Me., guests at the Chateau.

Mr. and Mrs. L. Bergeron arrived in town yesterday from Jonquiere, and are staying at the Chateau. Mr. Adrien Turcot expects to leave shortly for Notre Dame du Portage where he will spend his holidays.

Mr. and Mrs. P. P. Paul and Miss Laura Paul are in town from Warwick, registered at the Chateau. Miss Bertha Page, of Gifford has left for Old Orchard, where she will be the guest of Mrs. (Dr.) Thivierge.

Mrs. Edmond Dupre and the Misses Jeanne and Marguerite Dupre are at Kamouraska for the summer season. Miss R. L. Maloney of Rumsen, N.J., and Miss M. Pours, are in town from New York, spending a few days.

Mr. Henri Gagnon has returned from Montreal, where he spent some time the guest of Mr. and Mrs. Arthur Letondal. Mr. and Mrs. Rene LeMoine and family will leave to-day on the Scandinavian for Europe where they will spend several months.

Miss Josephine Thivierge has returned to Sherbrooke after spending a few weeks the guest of Mr. and Mrs. J. N. Thivierge, Silery. Capt. and Mrs. C. W. S. Dunn and their young daughter, left last night by the "Victorian" for Europe, where they will spend several months.

Mrs. W. J. Darlington, President of the Y.W.C.A. left yesterday for Intervale, New Hampshire, where she will spend a couple of weeks. Mrs. S. N. Parent and her daughters, Mrs. Thomas Legris, of Chicago, and Miss Simone Parent are in town the guests of Mr. and Mrs. Georges Parent.

Sisters Othella and Mary St. John of St. Joseph's Order, are in town staying with their mother at College, Beauport. Sister Isabel of the same order, is visiting friends in Quebec.

The marriage is announced to take place on August 8th of Dr. Leo Reid, son of Dr. J. Reid, of this city, to Miss Camille Daubigny, daughter of Dr. T. Daubigny, of Montreal. The ceremony will take place in St. Jacques Church, Montreal.

Princess Marie Louise, in a dark blue georgette dress embroidered with gold, and a black hat with dark blue cire flowers, was present on Dominion Day at a bazaar held by the Marchioness of Zeland at 19 Arlington-street, where work done by disabled soldiers and poor widows and crippled women was shown, including lingerie, church banners, barges, bags, petit point, cross stitch, and other embroidery. The work was given out by the Friends of the Poor, whose headquarters are at 42 Ebury-street, S.W.1. The Queen lent an altar-cloth from the chapel in Buckingham Palace, which had been embroidered by seven disabled soldiers in remembrance of the signing of peace, and Princess Marie Louise lent a footstool and the Hon. Mrs. Capell four chairs embroidered by disabled soldiers.

The American Ambassador and Mr. Harvey, the Prime Minister of Canada and Mrs. Meighen the Chinese Minister and Mme. Wellington Koo were among those present on Dominion Day at the "At Home" given at the Ritz Hotel by the High Commissioner for Canada and Lady Parley. Other guests included: Viscount and Viscountess Harcourt, Viscountess Astor, M.P., Lord and Lady Treowen, Lord and Lady Lovat, Lady Ware, Lady Beck, Lady Drummond, Lady Osier, Lady Kirkpatrick, Major-General Sir Charles and Lady Dobell, Sir Timothy and Lady Goghlan, Sir Campbell Stuart, General Sir Arthur and Lady Currie, Sir Frederick and Lady Orr-Lewis, Sir George Parker, Sir Clement and Lady Kinloch-Cooke, Lieutenant-Colonel Sir Malcolm and Lady Hilda Murray, Sir Edward Lucas, the Hon. Mrs. Lytton, and Sir James and Lady Allen.

For the "Lean Season" For the time of retrenchment, when the purse strings must be held tightly to meet new industrial conditions, eat Shredded Wheat for breakfast with milk, for lunch with green vegetables, for dinner with sliced bananas, berries or other fruits. Try this diet for a few days and you will be ahead in purse, in health and in strength. Shredded Wheat is 100 per cent whole wheat, prepared in digestible form. TRISCUIT is the shredded wheat cracker, a crisp whole-wheat toast, eaten with butter or soft cheese. MADE IN CANADA

REVISE PLATFORM OF THE FEDERAL FARMERS Will Be Main Business Of Canadian Council Of Agriculture Meeting

WRIGLEY'S NIPS 5c NEW Candy Coated Chewing Gum. This delightful new confection is the result of science. The very best of materials are used. It is made in the model factories of the Wrigley Co., Toronto—Immaculately clean. Peppermint flavoured candy coating Peppermint flavoured gum center. A long-lasting delicious treat: good for teeth, breath, appetite, digestion.

Our Portrait is of Mr. E. F. WHEELER, of 22, Regent Street, Balby, Doncaster, England, who writes: "About two years ago I had a nasty wound break out in my big toe. I had it attended to for about three months, but during that time it had spread to all the toes, with the result that I had to undergo an operation, but with no avail. Then, after another operation, as it did not get any better, I thought I would give your 'Clarke's Blood Mixture' a trial. After taking the first three bottles I could walk better, and now after having nine bottles the wound has quite healed, and I am pleased to say I have not seen any sign of it breaking out since." Sufferers from Bad Legs, Abscesses, Ulcers, Eczema, Boils, Pimples, Eruptions, Rheumatism, Gout, should realize that lotions and ointments can but give temporary relief—to be sure of complete and lasting benefit, the blood must be thoroughly cleansed of the impure waste matter, the true cause of such troubles. Clarke's Blood Mixture quickly attacks, overcomes, and expels the impurities, that is why so many remarkable recoveries stand to its credit. Pleasant to take, and free from injurious ingredients. Of all Dealers—see that you get Clarke's Blood Mixture "Everybody's Blood Purifier."

QUEBEC, JULY 23, 1921

PROMISES AND PERFORMANCE

When Mr. Meighen sailed from Quebec to attend the conference of Dominion Premiers at London it was, in his own words, as the representative of the whole Canadian people and not as the leader of a political party or spokesman of any particular class.

During the absence of the Premier, Mr. Mackenzie-King has stamped the Province of Quebec protesting that Mr. Meighen has no right to speak for Canada and hypocritical walls have been emitted in regard to the holding up of public business during his absence.

It is quite true to say that business is being held up while the Premier confers in Europe, but not in the sense that Liberal detractors desire to convey. It is the business of the party of which Mr. Meighen is the head that is suffering by his absence.

The present, in fact, is a most suitable time for the Premier to attend to public business in England because there is so little demanding his personal attention at home.

Unable to find fault with a policy of disarmament, Le Solleil gets in its little stab from behind thus: "Let no one think, however, that it is Mr. Meighen who is responsible for bringing up this question of disarmament."

Not content with the foregoing, Le Solleil must needs drag in its inevitable King Charles' head of conscription: "It was Mr. Meighen" we are reminded, "in common with his chief Mr. Borden, who affirmed in 1916 that there would be no conscription and we had it in 1918."

Le Solleil, whose raison d'être is to pander to partisan interests, must perhaps be forgiven for its failure to comprehend the distinction of national interests, but even its own friends might find it frequently embarrassing if a ministerial promise was to be regarded as something fixed and immutable as the laws of the Medes and Persians.

Le Solleil knows very well that guarantees cannot be given by any leader for the permanent pursuance of any given course of action and it is not guarantees but party ammunition that it is looking for.

What disarmament does mean is that the nations of the world, acting in concert, shall evolve some system by which military and naval forces may be reduced to a minimum consistent with what might be termed "police protection."

THEY WILL HAVE TO HURRY (Springfield Union) The new slogan of the Christian Endeavor Societies is "A warless world by 1925."

NOT FREE AGENTS

A few days ago, in connection with the comfortable theory entertained in some quarters that the Farmers, even if returned to power will not dare to put their policy of free trade into practice, we pointed out that Members of Parliament elected by the United Farmers are not free agents, that they are the delegates rather than the representatives of their constituents and must pursue the course laid down for them unwaveringly, on pain of prompt removal.

Fresh confirmation of this, although surely superfluous, is to be found in a "Declaration of Principles" recently issued by the United Farmers of Alberta who have thrown the Liberal Government out of office. This declaration sets forth that "individual citizenship can only be made efficient and effective through the vehicle of systematically organized groups."

The above feature of the United Farmers' programme is borrowed from the United States. The platform of the Alberta group endorses the referendum and recall ideas holus bolus, without regard for British Parliamentary practice, which has been good enough to make countries following it the best governed democracies in the world.

What it means is simply that when a United Farmer is elected in Alberta he is pledged to vote according to what the organization's committee at home may want, regardless of what may be the larger considerations as seen from a Provincial capital.

As one critic very naturally exclaims: "What a burlesque on representative government this method might easily become! What about the large number of citizens who might not be organized as a political 'economic group'?"

Some Things the Public Would Like to Know:

Pertinent Questions on Matters of General Public Interest are Invited.

When does Hon. J. E. Caron, who opines that November would be a good month for a Tory demise, consider that it will be an opportune moment for his own Liberal Government to take its medicine?

Whether the right of search as exercised by the police in Ontario is consistent with the British constitution's definition of personal liberty?

A Verse Or Two (By Modern Poets)

A CAMP SONG My hermit tent pitched by a purring bay Peers whitely through the trees as I embark. The citadel of my domain by day A stately beacon in the piny dark. Its long reflection in the water clear My flying skiff with many a ripple frills. And none would think the thunder of the mills Began in little gales of laughter here: The stream that so few miles from my retreat Through mosey race its turbid torrent pours Is this same limpid stream to whose loveliest beat Is played the liquid music of my oars.

Undone by crash of looms and whirl of wheels I seek and find in woady solitude Neptunus, never-fading—root that steals The sting from memories of fuss and feud. Long past the hour when bells and strens make A very Bedlam of the dreaming town, I sleep as though my boughs were finest down— On, on, and on, still huncher cries "Awake! A prayer, a plunge, a perch to catch and broil, A smoke that drives alleghery away, A thought upon the uselessness of toil, And I am ready for another day.

The days are much too full for loneliness: They come and go on feet of all wings: 'Tis dawn and dusk a thousand times, I guess, I ask myself, "Can this be it that sings?" So happy am I, and while it is true I miss the presence of a shining one When twilight, treading softly as a nun, Shuts out the sun and then the welkin blue, Not even in the silence that grow As last as sharp as ruthless scimitars. Am I quite lonely, for do I not know That constance, too, is looking at my stars? EDWARD W. BARNARD, in the New York Times.

Press Comment

MR. MEIGHEN'S ENGLISH REPUTATION (Montreal Herald) Judging by the cables and the English newspapers just to hand, our Prime Minister has made himself felt in the councils of the Empire, or as General Smuts has put it, the British Commonwealth of Nations.

Canada has every reason to be proud of her Premier and Montrealeers should be prepared to give him a royal welcome when he returns home at the beginning of next month.

THE HYDROGRAPHIC ARCHIVES OF QUEBEC.

By WILLIAM WOOD.

In our last article we suggested that someone should write a "Histoire Nautique de la Nouvelle-France" or a corresponding work in English. All that is needed is a thorough knowledge of New France, of the sea, and of the proper archives, with a little touch of genius in the author and some appreciation by the public.

Anyone who has himself sailed the pilot waters of our Province with an eye to the hydrography of five successive centuries will readily admit that all the natural hydrographers were not born for service in the last two alone, although Bayfield's magnificent survey, begun less than a hundred years ago, was the first quite complete bit of modern hydrographic work ever done in Canada.

Nevertheless the best parts themselves will well repay a sympathetic study: they are so very good in their own way, so full of pleasing human touches; though likewise so full of the self-thwarting promise that was the ruin of New France.

Every book about Canadian history tells us about Jacques Cartier's adventures at what are now Quebec and Montreal, with the usual stage properties suitably worked in. But not one points out that Jacques Cartier appeared at the very end of the mediaeval age of seamanship, while Champlain came well within the modern age of mast and sail, and that this made a world of difference between them.

Champlain, whose "Don de Dieu" could tack, who once made the transatlantic record of only eighteen days from Honfleur to Tadoussac, and who, we should remember, was what we would now call a Captain, R.N., made many hydrographic observations of great value in St. Lawrence waters. So did Iberville, Joliet, La Rochaudière, Franquelin (on whom Mr. Roy wrote a little monograph a few years ago), and exactly two centuries before the Quebec Government made Mr. Roy its Archivist Louis XV appointed the chevalier de Luynes, a captain in the Navy, as archivist of all the "cartes, plans, journaux et memorias de la Marine."

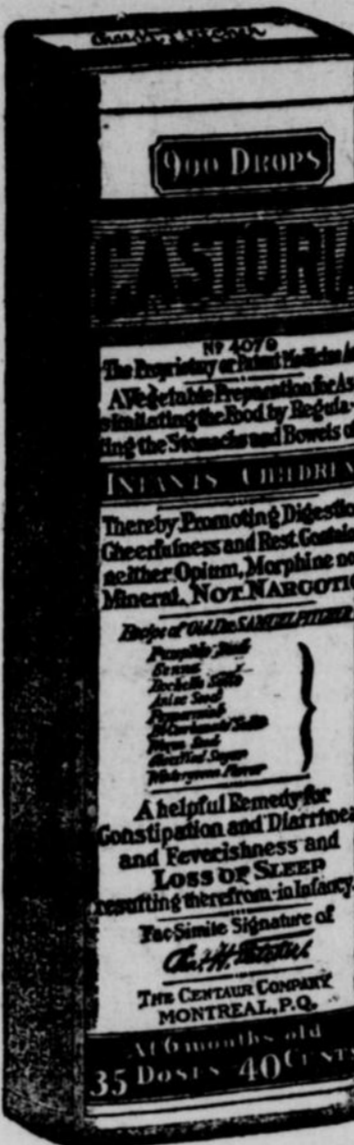

Canada has every reason to be proud of her Premier and Montrealeers should be prepared to give him a royal welcome when he returns home at the beginning of next month.

When Baby Cries.

THERE ARE MANY WAYS a baby has of expressing any pain or irregularity or digression from its normal condition of health and happiness. A short sharp cry, a prolonged irritated cry. Restlessness, a constant turning of the head or of the whole body, fretful. In these and other ways a baby tells you there is something wrong.

Castoria has been used for baby's ailments for over 30 years and has merited the good will of the family physician in a measure not equaled by any other baby's medicine because of its harmlessness and the good results achieved.

And remember this: Castoria is essentially a baby's remedy and not a cure-all for every member of the family. What might help you is too often dangerous when given to a babe.

Children Cry For Fletcher's CASTORIA

Let's Think It Over. There is such a thing as saying too much on any subject, and the "grand-stand" talker sooner or later becomes a bore.

Fletcher's Castoria is all its advertising has claimed for it. Scrutinized by the microscope of public opinion and used for over thirty years it stands without a peer in the hearts of thoughtful, cautious, discerning Mothers.

Masquerading under many names drugs that are injurious to the tender babe have found their way into some households, but the light of experience soon casts them out.

cartes dont se servaient les marins français a dicté la formation du dépôt des cartes et plans de la Marine. On the other hand, the chart taken by Daniel de la "Chézine" and used by Saunders in the "Neptune" (flagship at Quebec in 1759) shows that the French had the requisite hydrographic skill. They also had some good pilots, of whom only one—Abraham Martin—is known to fame, and that only because his cows used to graze on the ground called after his Christian name, the Plains of Abraham. The pilot waters were generally divided into three: the first from Bic to Isle-aux-Coudres, the second from Isle-aux-Coudres to Quebec, by way of the redoubtable Traverse, the third from Quebec to Montreal.

TOURIST TRAVEL IS ON INCREASE

Hotels Crowded And Travel Abnormal Since Beginning Of Week

The tourist travel to Quebec, especially from the United States, has been on the increase since the beginning of the present week, and the Chateau Frontenac and other city hotels have been crowded, while the travel down to the Saguenay by the Canada Steamship Lines boats has been abnormal in the number of passengers.

DID MORE THAN SHE EXPECTED

"Tanlac Deserves Every Bit Of Praise I Can Give It," Declares Mrs. Lajoie

"Tanlac has done everything for me that I could ask and there is no one who has more faith in it than I have," said Mrs. Elsie Lajoie, 23 Giguere Ave., Montreal, recently. "Two years ago I had a severe attack of fever and it seemed to upset my whole system. For a long time I was hardly able to get around the house. My appetite was so poor that I simply didn't want to eat and even the smell of things cooking nauseated me. My stomach gave me no end of trouble and at times I had cramps that were almost unbearable. I had frequent headaches, was nervous and restless and could never sleep well."

TOMORROW AT KENT HOUSE

Two Performances By The Famous Loretas, Afternoon and Evening, Free

The Kent House will have a Big Programme again tomorrow. The Famous Loretas, who have been delighting and astounding audiences all week will give two more sensational performances.

Build Now! Own Your Own Home

Mr. Renter, this is addressed to you. No doubt you have often looked forward to the time when you could own a little home of your very own, a place on which every dollar expended is a dollar earned rather than a dollar wasted. In other words, a home that means more to you than merely a roof over your head.

An Oil that is Prized Everywhere. Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

A CUP A DAY FOR THE NEXT MEET?

This is Ambition Of Quebec Hunt Club For August Running Races

Everything seems to be going ahead in great style for the next meet of the Quebec Hunt Club, scheduled to be held from August 18 to 25 inclusive, and appearance point to the meet attracting an even larger number of horses than were here last month, when over three hundred equines were stabled at the Exhibition Grounds.

The crowds that took in the last races were large, extraordinarily large, but it is confidently expected that the number of people who attended the spring meet of the Quebec Hunt Club, which marked the revival of running races in Quebec after the lapse of a considerable number of years, will be small compared with the crowds who are expected to flock through the turnstiles every day during the seven days of the meet.

A feature race a day, with a cup offered, in addition to the purse, is the ambition of the officers of the Club, and their expectation looks as if it is going to be realized. So far four cups have been promised, while three more are as good as pledged. The four cups that have been promised for the coming meet are from the Exhibition Commission, the City of Quebec, the Stutz Motor Car people in Quebec, and from Cyr Dugas, well known jeweler in the upper part of the town.

Mayor Samson is going to proclaim the opening day of the meet a Civic Holiday, which means that many people otherwise employed will be able to take in the races that day, while it looks as if the Quebec Handicap, which is the name of the race that carries the name of the City of Quebec to the winner, as well as the lion's share of the purse, will be staged on Thursday, the opening day.

In the meantime membership tickets are going fast, and appearance point to a record number of these tickets being sold. Preparatory work is moving ahead like a well-oiled machine, and the officials of the Hunt Club appear well satisfied with the progress made so far.

Incidentally, the horse that captured the last race on the local programme at the June meet of the Quebec Hunt Club, captured another race at Windsor yesterday, paying \$8.00 for a straight ticket, despite the fact that he had already won at the same place this week.

It became known last evening that the firm of G. Seifert & Sons, well-known jewellers on Fabrique street, had donated a cup for one of the days of the next meet. The race for this cup will be known as the Seifert Handicap.

SALESMAN PAID

HIGHEST PRICE Montreal, July 22—Maisonneuve Park results: First race, purse \$500, 3-year-olds and up, about five furlongs—Count Boris, 108, McAlaney, \$4.90, \$4.00, \$2.80, won; Montague, 114, Ball, \$2.80, second; Dudlewig, 113, Guieroff, \$2.90, third. CANADIANS AND AUSTRALIANS

Play First Davis Tennis Cup Contests Today—Milne Hurt Hand

Toronto, July 22.—Canada will enter the competition for the Davis Cup with only three players on the team which plays the Australian champions to-morrow in the first game of the contest. A. S. Milne, of Vancouver, selected as the fourth member of the team, had the misfortune to break two bones in his right hand to-day and will be unable to play tennis for some time.

To-morrow will be a red letter day for Canadian tennis enthusiasts as it marks the first international contest ever staged here. The first match will be a single between J. B. Hawkes of Australia and Paul Bennett of Canada at 3 p.m. In the latter game J. B. Anderson of Australia meets E. H. Laframboise of Canada. In the doubles encounter on Monday, J. B. Anderson and C. V. Todd, Australia, meet Paul Bennett and G. D. Holmes, Canada. Two days later, J. B. Anderson meets Paul Bennett while J. B. Hawkes has E. H. Laframboise as his opponent.

Norman Peach, the captain of the Antipodean quartette will not take part in any of the matches, all of which will be best three out of five sets. Both teams have been hard at practice and brilliant tennis is expected.

ROAD RACE FOR THIS AFTERNOON

Run Organized By Firemen Over Course Of Four And A Half Miles

The first road race organized by the Firemen's Amateur Athletics Association will be run this afternoon. The race is open to all players who have participated in any lacrosse games while members of the City and District Lacrosse League, and is over a course of about four and a half miles. Nine entries have been received, including such well-known runners as Alex. Turcot, Geo. Plomondon, Jos. Dugas, A. Benoit, F. Robballe, A. Fortin, H. Chevratte, A. Dion and M. Blodeau.

The race will start at two o'clock sharp in front of No. 1 Fire Station, the course being Fabrique, St. John, St. Loye Road, Avenue des Braves, St. Louis Road, Grande Allee, St. Louis street, Place d'Armes, Bunde street and back to No. 1 Station.

All lacrosse players who wish to take part in the run are invited. There are six medals for the winners, while Alderman Bertrand, President of the Fire Committee, will award the prizes to the winners immediately after the race.

The Firemen's A. A. A. invite all lacrosse players who wish to play with the Club for the remainder of the season in exhibition games to report to No. 1 Fire Station this afternoon or tomorrow morning.

FIRST TIMER WON FEATURE

Four Heats Necessary To Determine Winner Of 2.15 Trot At Kalamazoo

Kalamazoo, July 22.—It required a fourth heat today to determine the winner of the 2:15 trot on the get-away programme at the Kalamazoo Grand Circuit meeting and bring Guardian Trust, starting for the first time on any track, a winner over Nova Brooke, the favorite and the Great Miss Morris, the heat winners.

"Pop" Geers won his first race of the week when he piloted Lillian Silkwood to victory in the 2:10 pace. Hal Malone won the 2:03 pace. Peter Coley annexed the 2:05 trot after Comet had taken the first heat in easy fashion.

Summaries: 2:05 Class Trotting, Three Heats, Purse \$1,200. Peter Coley, b.g. (Stokes), 4 1 1 Comet, ch.m. (Teachout), 1 2 2 Charlie Re, b.g. (Murphy), 2 3 4 Baron Cegantle, br.h. (McDonald), . . . 3 5 3 Arion McKinney, br.h. (Erskine), . . . 5 4 5 Time: 2:07 1/4; 2:08 1/4; 2:06 1/4.

2:15 Class Trotting, Three Heats, Purse \$1,000. Guardian Trust, b.g. (McMahon), . . . 7 1 5 1 Nova Brooke, b.m. (Murphy), . . . 1 3 2 The Great Miss Morris, ch.f. (Cox), . . . 6 6 1 3 Checkers, b.g. (H. Allen), . . . 2 2 2 to Miss Mahaff, b.m. (Shively), . . . 2 4 6 to Utah and Lady X, also started. Time: 2:08 1/4; 2:07 1/4; 2:07 1/4; 2:11 1/4.

2:03 Class Pacing, Three Heats, Purse \$1,200. Hal Malone, b.g. (Childe), 1 1 2 Roy Grattan, b.g. (Murphy), . . . 3 2 1 John Henry, b.g. (Pitman), 2 4 5 Drift Patch, b.g. (McMahon), . . . 5 3 3 Jay Brook, b.g. (Edman), 4 5 4 Time: 2:04 1/4; 2:04 1/4; 2:04 1/4.

2:10 Class Pacing, Three Heats, Purse \$1,000. Lillian Silkwood, blk.m. (Geers), . . . 1 1 1 Abbe Hal, b.m. (Palm), . . . 2 2 2 J. L. Jr., b.g. (Edman), . . . 4 3 3 Jessie Ridge, b.m. (Lowe), 3 4 7 Minerva Gentry, b.m. (Hedgocote), . . . 8 5 4 Redgocote Boy, Allie Clay and Haledo also started. Time: 2:04 1/4; 2:04 1/4; 2:04 1/4.

Lyda Eldridge, the Prima Donna in the Springtime Follies at the Fine Arts Building, Exhibition, renders some of the latest selections in her fine voice. Hear her tonight.

MRS. J. R. WALLACE WINS GOLF TROPHY

Mrs. J. R. Wallace, daughter of Bishop Williams, won the final match for the Vice-President's Cup of the Grand'Mere Golf Club, defeating Mrs. W. Bowden. Her score of 86 established a record for ladies on this course. The trophy won by Mrs. Wallace is played for annually.

Don't miss the big show at Kent House tomorrow.

The famous Loretta will perform in their sensational Aerial Act. Free admission.

BASEBALL GAMES AT EXHIBITION Bell Telephone Play St. Patrick's And Napoleons Clash With Garrison

FOOTBALL GAME THIS AFTERNOON Quebec City And Veterans Will Clash In A League Match At "Ex."

Two interesting City and District Baseball League games will be played at the Exhibition Grounds this afternoon. The first match, which will start at two o'clock sharp, will bring together Bell Telephone and St. Patrick's, while the second match, which will start about ten minutes after the termination of the first contest, will see the Napoleons in action against the Garrison. Both games are bound to be very exciting as the leadership of the League may be decided. St. Patrick's and Napoleons are tied for first place in the second half of the schedule, so both clubs will have to win their games to maintain their positions. The Bell and St. Pat's are both heavy hitting outfits while also being strong in the field, and as both nine play good ball and never give up, the game is bound to be very exciting. The "Wiremen" will have Pouliot, who has been pitching well all season, in the box, with Dion doing the back-stopping. St. Patrick's will use the old reliable Loignon to do the twirling, with Tremblay giving the signals. In the second contest, Napoleons will tackle Garrison. The Naps are out to get the championship of the second half, and will have their strongest line-up. Bernard, who pitched such a good game last Sunday, will be on the slab with Perron behind the bat. The Garrison are playing good ball at present, and though losing are by no means down-hearted and will go on the field this afternoon determined to put a crimp in the aspirations of the Levisites. Latour will again do mound duty with Perron at the receiving end. The umpires will be Joe Ladden and Henri Paul Drouin.

The Veterans and Quebec City football events will hook up at the Exhibition Grounds this afternoon in a Quebec Football League game. The kick-off is timed to take place at 4:30, and all players on both teams are requested to be on hand at 4 o'clock, so as to get the game started sharp on time. This will make the second time that these two teams have clashed this season, the other game resulting in a 2-2 draw. The Quebec City team have yet to score their first victory of the season, but they say that they will do so at the expense of the Veterans today. The latter, however, say that they are going to regain their place at the head of the League by grabbing two points as a result of this afternoon's game. At present the Empress of France team are leading the League with four points, through two victories, while the Veterans are second, one point behind the France, with one win and a draw. The Quebec City team have one point, the result of their draw with the Veterans on the occasion of their previous meeting, and if Quebec win this afternoon, they will be tied with their rivals for second position. A Veteran victory, however, puts the latter team at the top of the heap, one point ahead of the Empress of France, with the Quebec City outfit in the cellar, one point behind the Empress of British eleven. It is anticipated that a good crowd of football enthusiasts will be on hand to witness the game, which will be handled by Mr. Cowis. The Quebec City team will be drawn from the following players: G. Ansell, T. Bingham, P. Theobald, C. Mills, H. Warner, I. Pont, R. Ward, W. Larkin, A. McLean, W. Barrett, A. Campbell, H. Bartlett and W. Shell. From the following players will be selected the team that will do battle for the Veterans: Farnum, Arnold, Roberts, Uwina, Jacobsen, Bolton, Reid, McQueen, Roberts, Jones, Jacobsen and Bennett.

Sunday and All Week

DEMPSEY CARPENTIER FIGHT

Complying with the request of many who have not yet seen this, the greatest picture in the world today, we shall repeat this feature

TOMORROW
And All Next Week.
Continuous Show 1 to 11 P.M.

Chronicle's Review of Coming Attractions For Next Week

THE EMPIRE
"Man-Woman-Marriage" the super film production of 1921 will open a four days' engagement at the Empire Theatre tomorrow. Dorothy Phillips plays the leading role, the picture being directed by Allen Holubar.

An excited world is revealed in the third period of the story; society as it has developed (or descended) in social circles is pitilessly stripped to our view. Its pretensions and its masques are shown to be just what they are. Truth has never gone further than Holubar has taken it in this relentless disclosure of the passions and follies of a world into which the steps of the Woman are directed by an ambitious, proud and faithless husband. The slavery of Woman to Man is shouted against with all the energy of a passionate soul, and that slavery is shown to be as complete and as humiliating as ever the bars of an Oriental harem interposed between Woman and her rightful development.

Holubar has his own ideas as to how the strife between the Male and the Female of the species ought to be composed and he does not hesitate to state it in terms of dramatic situations; but acceptance of the theories may be granted or withheld by the picture-patron without interfering in the least with the thrill and tug and vigor of the real, vital drama of the play.

A good comedy and other short subjects will also be shown.

THE CLASSIC
Mary Miles Minter's latest photodrama, "Jenny eB Good," which will be the principal attraction of the program at the Classic Theatre for three days commencing Monday is from the pen of Wilbur Finley Fauley.

The story deals with a little girl, Jenny Riano, who is cared for by her old grandmother. She meets and secretly marries Royal Renshaw, the son of parents who have social aspirations. They learn of his secret marriage and at once set about to part the young couple. Jenny, through their influence has the marriage annulled, and Royal, due to the deception of his family, marries Jolanda, a debutante of the smart set. There are many contrasts of the vices and virtues of the common people with that of the so-called American aristocracy, and the gripping story is relieved by a vein of fine humor. Mary Miles Minter as the heroine is supported by a cast which includes Margaret Shelby, Catherine Wallace, Fanny Cosser, Maggie Halloway Fisher, Grace Pike, Jay Belasco and other prominent artists of the screen. Julia Crawford Ivers directed the scenario and William Desmond Taylor directed it. A good comedy, News Weekly and other short subjects will be on the same bill.

Starting Thursday, Charles Ray will be featured in "Ole Swimming Hole." A comedy and other short subjects will complete the bill.

THE VICTORIA
A staff of engineers was employed by Director Del Henderson to do construction work while he was making "Dynamite Allen," a smashing dramatic story of the mines of Pennsylvania starring the brilliant young William Fox actor, George Walsh, which comes to the Victoria Theatre for a four days' engagement, starting tomorrow.

The story calls for the flooding of a mine, and the mine being located a considerable distance from a river, it was necessary for the engineers to construct a giant sluice to carry the water from the river to the mine. The staff worked with a score of laborers day and night for nearly two weeks before the big waterway was finally completed. Thousands of dollars were spent in the construction work to add realism to this William Fox production—only to be blown to atoms for a thrilling climax.

The time, labor and money expended on this and other incidents in the story will be fully justified, it is declared, in the eyes of any one witnessing "Dynamite Allen" and the splendid effects achieved.

The final episode of the Ruth Roland serial, a good comedy and other short subjects will be shown on the same program.

Starting Thursday "Out of the Snows" with Ralph Ince in the leading role will be the featured while a comedy and other short subjects will complete the bill.

THE AUDITORIUM
Next week will mark the last appearance for this season at the Auditorium of the musical comedy company directed by Lea Herrick and Vaughn.

Starting Monday the company will present "Let's Go" which is another mirth provoking and nonsensical musical comedy, interspersed with catchy songs, clever dances, and witty sayings. The leading feminine part will be taken by Edith Thayer whose singing has met with much approval during the last three weeks. Roger Gray will again be seen in the foremost male role, and will amuse as in the past with his jokes and comic antics.

The chorus will also introduce new songs, dances, etc., while a complete change in the costumes will be noticed.

The picture part will consist of "The Guide of a Woman" a stirring drama, while a good comedy, News Weekly, and another short subject will round out the program.

THE CANADIAN
So as not to disappoint the large crowds who failed to gain admission to the Canadian Theatre to see "The Battle of the Century" the management of the Theatre by special request has decided to hold over the pictures of the Dempsey-Carpentier championship fight for another week so all sportsmen will be given the opportunity to witness this great battle.

Every movement of the two boxers has been clearly filmed, another feature being that every round is screened twice, first being shown a short distance and then a close up view, which enables the spectators to clearly see every punch delivered during the round.

During the week the Canadian Theatre was crowded at all performances, and everybody who has witnessed the picture has been entirely pleased as every little detail is visibly shown.

The remainder of the program will consist of short subjects.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

THE FUTURE OF PICTURES

AS ELMER CLIFTON SEES IT
"The big coming American photoplays will deal with the nation's industrial life and interests. We are the clearing house of the world. It is easy to see that this is our forte in motion picture literature."

"Let Europe and Continental film makers be concerned with dead things—with reproductions of the glamour of other days when their nations ruled supreme. We of America have our own interests and if our photoplays is to be a reflection of ourselves it must deal with these vital things of our today."

ALICE IN "THE INNER CHAMBER"

Alice Joyce has two leading men in her new picture, "The Inner Chamber," based on a novel by Charles Caldwell Doble. They are Holmes E. Hebert, who played opposite Miss Joyce in several of her productions, and Pedro de Cordoba, who has recently become associated with motion pictures. The remainder of the cast is equally notable, including Jane Jennings, Mrs. De Wolf Hopper, Ida Waterman, Josephine Whittell, Grace Barton and John Webb Dillon.

VEILLER TO DIRECT LYELL

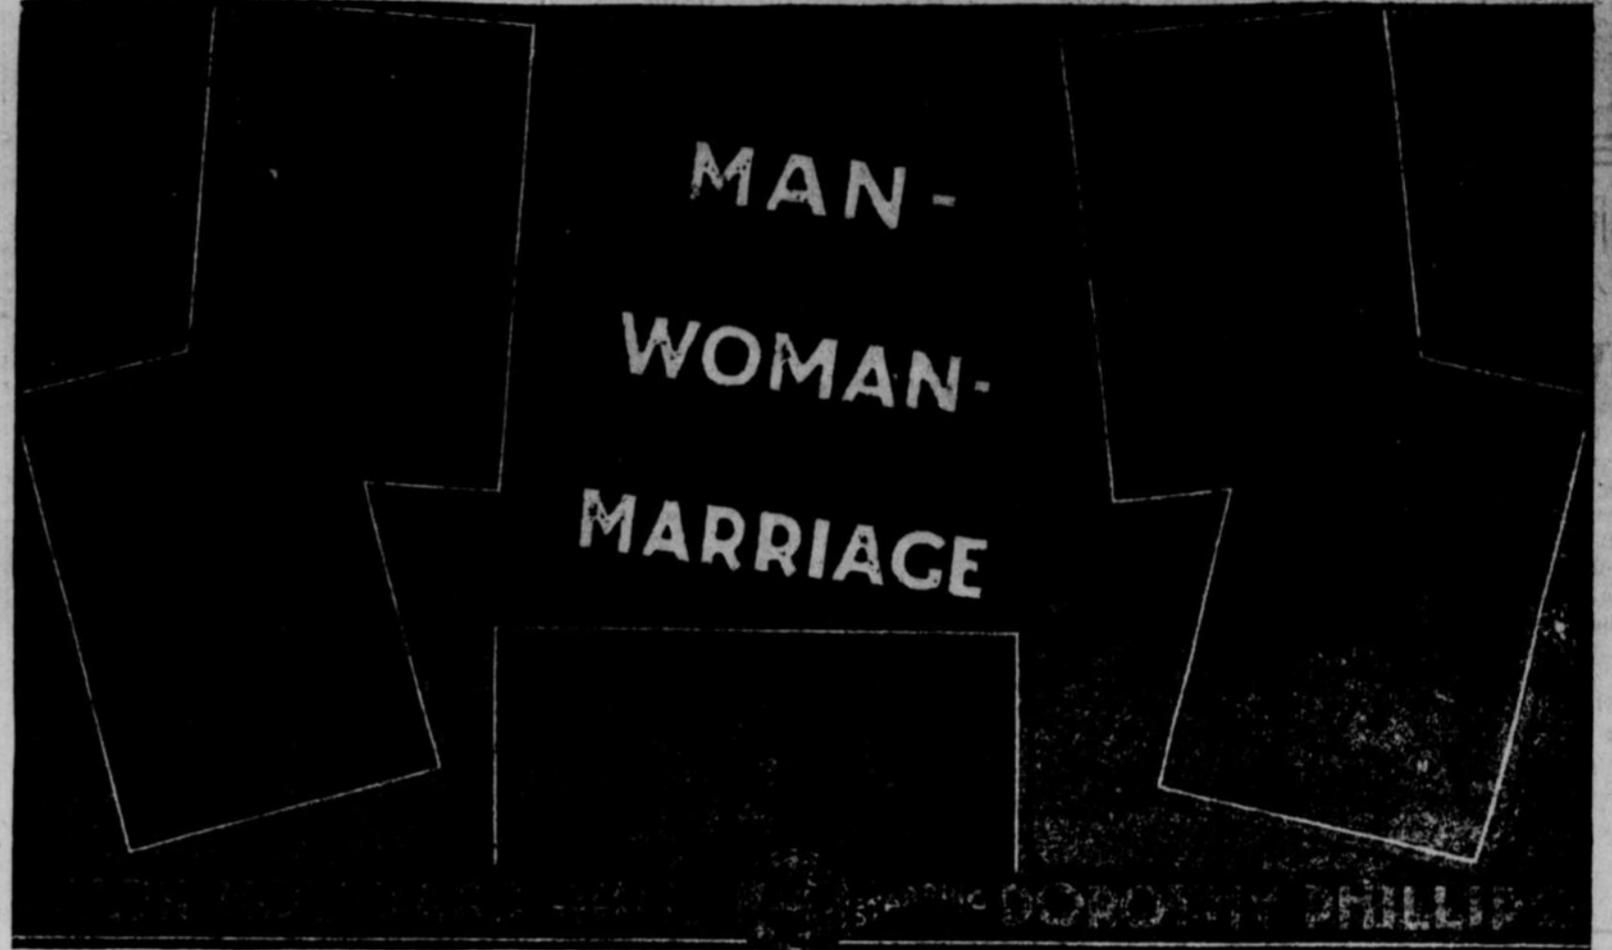

Bayard Veiller is to direct Bert Lyell in his next Metro picture, "Lady Fingers," and adaptation by Lenore Coffey of a story by Jackson Gregory. Production will start as soon as "Junk" the picture on which Mr. Lyell is now working, is completed.

CONCERT
ORCHESTRA

EMPIRE

QUEBEC'S LEADING
PHOTOPLAY HOUSE

Starting Tomorrow, Sunday, 4 Days Only

YOU'LL SEE Hordes of women ride barelegged, bare-armed, bare-chested, into the Mighty Battle of the Amazons, with a woman as their leader.
The pagan courts of Rome thronged with women, barbaric, beautiful, while a slave girl weeps among them. The Bacchanalian dancers in the orgy of life and splendor and feasting among the men and women of today.
You'll see Woman as the cave-man's mate; Woman as the Amazon ruling by Mother-Right; Woman fallen, to be sold in marriage as a medieval chattel; Woman holding fast to her faith even through the abandon of Caesar's court; Woman struggling again for herself today, shackled by the very bond with which she once ruled.
You'll see Woman, gorgeous in nature's beauty, yet fierce in the fight of sex-antagonism.
You'll see thousands of players, thousands of horses and wild animals. You'll see life and love mirrored in great panoramas and moments of tensest heart-drama.
You'll see the Greatest Motion Picture the Screen has known.
And after that you'll want to see it all over again.

Usual Popular Prices—Usual Performances

CAST FOR "BITS OF LIFE"

Marshall Neilan is still engaging people for his "Bits of Life." The acquisitions are Harriet Hammond, Neah Beery and John Bowers. Harriet Hammond is one of the famous Mack Sennet beauties and this will be her first dramatic part. The Chinese episode for "Bits of Life," in which Hugh Wiley, Saturday Evening Post Writer, collaborated, is now finished and the final episode is already under way. The production will be completed with the next ten days. In addition to the above players it offers such popular artists as Len Chaney, Rockcliffe Fallowa, James Bradbury, Jr., Fred Burton, Anna May Wrons and Teddy Sampson. The picture will be released by Associated First National early in the fall.

St. Patrick's and Napoleons have to win the ball games to remain in the leadership of the City League. Be at the Exhibition Grounds this afternoon to cheer them on to victory.

Constipation

It is never necessary to take strong cathartics or harsh castor oil to relieve constipation. Try a combination of simple herbs with pepsin, sold by druggists under the name of Dr. Caldwell's Laxative Syrup Pepsin. It is a mild, gentle medicine so safe that thousands of mothers give it to their babies, and yet effective enough to relieve the most chronic constipation in grownups. The formula is on the package. A sixty-cent bottle lasts an average family many months, and is guaranteed to do as claimed or your money will be refunded. Eight million bottles of Dr. Caldwell's Laxative Syrup Pepsin were sold in drug stores last year!

If you would like to test Dr. Caldwell's Laxative Syrup Pepsin free of charge before buying it in the regular way of your druggist, send your name and address to Dr. W. B. Caldwell, 19 Front St., Bridgeburg, Ont., and a free trial bottle will be sent you promptly, postpaid.

MACK SENNETT BORN IN QUEBEC

Comedy King First Saw The
Light Of Day At Danville In
1880

It would have been impish and contrary to fate's logical decrees had Mack Sennett in anything but light. Mack Sennett is a native of Canada, born in the village of Danville, Quebec. The year incidentally was 1880. Thus the field marshal of the world's humor is Canadian, but he is Irish in parentage. Both his father and mother were born in Ireland and migrated to Canada in their youth. So the Comedy King is Irish in every racial impulse, tendency and sentiment.

As a boy, the future purveyor of screen humor to a needy world, he was possessed of a voice of radiant beauty, and when age robbed his tones of their limpid soprano quality he found in generous substitution a baritone voice of great range and expressiveness. Let any of the old timers of Biograph days fall into reminiscent mood and the hearer will listen to rhapsodies over the singing of Sennett, when between scenes at historic No. 11 East 14th Street, New York, he would regale Griffith, the Gish girls, Florence Lawrence and Mary Pickford with the beauty of his voice.

This decided tendency towards music carried Mack Sennett into the conventional experiences of choir boy and later into musical comedy and vaudeville. From the latter emoluments, Sennett separated himself in 1908, and turned impulsively towards the infant art of "the pictures." He began where Griffith began—at the bottom, and in the very beginning of things cinematographic. He not only grew up with the industry, but the industry grew up with him; for the measure of the motion picture art of today is the motion picture genius of those picture pioneers who blazed the way to present attitudes of artistic and financial success.

After four years with the Biograph organization, Mr. Sennett associated himself with Adam Kessler, Jr., Charles Kessler and Charles Bauman and established the Keystone Film Company. The rest of Mr. Sennett's upward career is part of the history of the film art and industry in Los Angeles, where his studio properties now cover thirty-five acres and where the Sennett two-reel comedies and multiple reel features are being made under the personal supervision of the Comedy King himself.

ECZEMA

You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. MARITIME PROVINCE ROWING CLUBS UNITE

New Brunswick And Nova
Scotian Clubs Affiliate With
Canadian Oarsmen

Halifax, July 22.—New Brunswick oarsmen are represented by the St. John Rowing Club, the Millidgeville and Renforth Clubs are now members with Nova Scotian Clubs of the Maritime Provinces Amateur Oarsmen's Association, affiliated with the Canadian Association of Amateur Oarsmen. Decision to unite the clubs of the two provinces under the name of the one organization was reached at the annual meeting here last night of Maritime Provinces Amateur Oarsmen's Association after Harry Irving, representing the St. John Rowing Club and A. W. Covey, representing the Renforth and Millidgeville had expressed the desire of the New Brunswick shell enthusiasts to join the Association.

The Maritime Provinces rowing championships will be held at Renforth August 23 next, it was also decided.

HANNA IS ASKED TO RECALL THE ORDER

Cutting Wages Of Canadian
Brotherhood Of Railway
Employees Members

Winnipeg, July 22.—President D. B. Hanna, of the Canadian National Railways has been asked to recall the order effective on July 15 last, cutting the wages of workers who are members of the Canadian Brotherhood of Railway Employees. This statement was made yesterday by Robert Dykes, general chairman of Brotherhood for Canadian National lines, who announced the receipt of a message from A. E. Mosher, grand President of the organization at Ottawa, stating he had asked President Hanna to withhold the order pending further action.

A meeting of general chairmen and secretaries of the organization, Mr. Dykes added will be held in Ottawa on Monday to consider the future policy of the organization in regard to wage reductions.

NEW VERA GORDON PICTURE.

Vera Gordon will leave for Atlantic City in a few days to appear as a special attraction at the Keith Theater in a one-act playlet that has gone well over the Keith circuit. Immediately after this engagement, Mrs. Gordon returns to New York to begin work on her new picture, as yet unnamed. William Nigh has been engaged by Harry Raph to direct this special Gordon production.

Pills of Attested Value.—Parmentier's Vegetable Pills are the result of careful study of the properties of certain roots and herbs, and the action of such as sedatives and laxatives on the digestive apparatus. The success the compounds have met with attests the value of their work. These pills have been recognized for many years as among the best cleansers of the system that can be got. Their excellence was recognized from the first and still continues.

A CLEAN ENGINE

THERE is some pleasure in motoring when you know your engine is clean and dependable.

You need not permit your engine to carbonize—

D-B Carbon Remover

will clean the dirtiest engine of carbon in thirty minutes without removing the cylinder head, and make it run perfectly. Then, keep it clean by applying D-B every 500 miles, and avoid all carbon troubles.

AUTO JACK says:
A clean engine is a smooth purring engine. A careful owner gives his car the same attention his wife does her home.

It does not cut Compression
It pays to use D-B Carbon Remover—a complete cleaning in half an hour.

You can try it without expense. Ask your dealer

DUSTBANE MFG. CO. Limited, OTTAWA, ONT.

ARE SWARMING THROUGH WEST

Summer Motor Tourists May Be Seen In Great Numbers Now

Vancouver, B.C., July 22.—Gone are the slow-moving vans, the moth-eaten wagons with their worse moth-eaten steeds, the canvas-covered prairie schooners. The tourist of yesteryear has been relegated to the limbo of oblivion with the advent of the flivver and the paved highway.

The modern gypsy is here! Portland is the clearing house for hundreds of tourists each day at this time of the year. And these tourists are in a class by themselves. California or Canada bound, they are pouring over the highways of the northwest—an animated, good-natured, Goth-like hoard, roving of eye, cheerful of countenance, and amiable of disposition.

In vehicles of all sorts they come, from touring cars with neatly arranged cases containing baggage to big lumbering bodies mounted on "flivver" chassis in which whole families live day in and day out, and from whose windows the eager faces of children peer and from whose sides float string-loads of varicolored "wash."

No weather can deter them, no hardship can cast them down. They are out for a good time. Some parties have been on the road for months, others have just started.

In the auto camp here license tags from as many as 30 states have mingled their colors and their combinations of numerals. Along the highways drifting smoke betokens the presence of campers along meandering creeks and beside cool rivers.

They are going somewhere. Where they don't know. "We're seeing the country," they say. "We've worked hard for years and now we're taking our vacation. It's a great life."

It is no uncommon sight to see the puny radiator of a small car puffing steam through the water vent as the puny engine beneath the hood battles valiantly to hurry along a barn-like tonneau with a family of a dozen.

The camaraderie of it all! "Oh, dad, look, there's the people we saw near Yosemite," a youngster will cry.

"Hello, folks. Haven't seen you since we pulled through Grand Canyon. How's tricks?" Or,

"By George, we'd sure been out of luck if you folks hadn't loaned us that gasoline there in Alberta."

The whole northwest is pervaded with the spirit of the modern gypsy. And here, where their Mecca seems to be, the long lines of them stretch back into the Middle Western plains, up into the mountains of Canada, or down into the rice bottoms of California.

"Make way for the migratory tourist," mutters the traffic cop, as he swings his semaphore to watch them chug past.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freesone" on an aching corn, instantly that corn stops aching, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freesone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

COOLING SYSTEM VERY IMPORTANT

(By Albert N. Atkinson)

The cooling system is a very important part of the power plant of an automobile. If no means was provided for keeping down the excessive heat the engine would soon damage itself by burning up the lubricating oil. The effect of this would be to score the cylinders so that they would have to be reground to overhaul the engine so that it would knock, and finally, to cause the pistons to seize. When this happens the pistons become stuck in the cylinder and the engine stops. This may bend the crankshaft or connecting rod so badly that they will have to be replaced, and the pistons may be so tightly wedged in the cylinder that they will be broken in the attempt to remove them.

It must be understood that the word "cooling" is used in a technical sense, as the engine works best at a temperature that is far from comfortable to the touch. In fact the hotter it is the more power we get out of it. This is because it is a heat engine using the expansion of the gas as it explodes to push down the piston. If the cylinder walls are cool some of the heat goes to warm them up and less is left to make power. This explains why an engine has very little "kick" when first started. But as soon as the cylinder walls are properly heated the full force of the explosion is exerted on the piston. It must then be apparent that the real purpose of the cooling system is to prevent the engine from overheating, and not to cool it in the ordinary meaning of the word.

It is unfortunate that a cooling system is necessary, as we lose at least 30 per cent of the energy through the cooling system alone. But this loss is unavoidable on account of the high temperature of the explosion, which varies between 2,000 and 3,000 degrees Fahrenheit. We may make some use of this surplus heat in winter by diverting it into the body of the car so as to

warm the passengers, but that is all. With further study of the problem our engineers may succeed in making better use of this wasted energy, but the outlook is not very bright.

There are three distinct methods of cooling the automobile engine, called the pump system, the thermosiphon, and air cooling. The pump system is the favorite as it allows the engine to be abused to a point where the other systems would overheat. This damages the engine, just the same, but the results are not so apparent.

The essential parts of the pump system are a water jacket around the tops and sides of the cylinders. This is filled with water which is kept circulating by means of the pump. The only type of pump now in use is the centrifugal, which drives the water away from the centre by centrifugal force. This draws the water from the radiator and forces it into the water jackets. Here it takes up the heat from the cylinders and passes back into the radiator, entering it at the top. As it passes down the water loses some of its heat to the outside air. As the car runs forward the air passes through the core of the radiator and carries off the heat. But the engine is frequently run with the car standing still so that there will be no draught through the radiator. To take care of this condition, there is a fan set just back of the radiator. This is driven by a belt from the crankshaft and is turning all the time the engine is running. One or more drain cocks are placed at the low spots of the system so as to drain out the water to prevent freezing or for cleaning. Rubber hose connects the radiator to the pump and water packets. Rubber is used so as to allow for vibration. There is an overflow pipe to carry off any excess of water, and any steam which may be formed. These would make a dangerous pressure in the system, by the overflow pipe takes care of such conditions.

TIRE IS A TIRE ONLY AS SOLD

One Best Bet Is To Buy The Product Of A Reliable Maker

"When you hear of a British scientist or warrior with a string of letters after his name such as 'Sir John Black, K.C.B., F.R.S.' etc., you respect him, for you know that those letters are abbreviations for titles of honor rewarding work well done. Often you hear of a tire with a string of letters behind it, such as N.F.C., G.C., Second, Rebuilt and the like. These represent abbreviations for titles of which you are to beware."

Thus speaks John V. Mowe, in a warning to those motorists who would be misled by the low prices at which inferior tires have been offered.

"Advertising laws," says Mr. Mowe "prevent the sale of an imperfect tire as one of standard quality, but they do not provide for the education of the buyer as to what he is getting when he purchases a casing dubbed Rebuilt, Second, Blemished, N.F.C., G.C., and what not."

Terms Are Explained.

The tire purchaser may be told by the disreputable dealer that he is purchasing only a "slightly blemished" casing, but neither knows to what extent the blemish or damage may effect the service of the tire. Therefore, Mr. Mowe defines the various grades of tires and explains the terms used to designate them.

A "first class" tire is one which is produced by a reputable manufacturer and bears his stamp of approval for its workmanship. It may or may not be guaranteed for a definite mileage, but the manufacturer will do the right thing through the replacement or repair if any pronounced failing due to the effect of workmanship or materials occurs.

A "Rebuilt" tire is one which may have been the product of a reliable company, but which has been worn down to the tread or blown out. It may be rebuilt to look like a new tire by the addition of a new inside lining and a new tread. The new tread may contain the name of the tread maker and its factory number.

Condition Will Tell.

This rebuilding process will in no way strengthen the carcass of the tire and sooner or later its real condition will assert itself.

A "second" is a tire in which a defect has been found by the manufacturer during inspection or test. This may or may not be a serious defect but the manufacturer will not place his name and serial number on the tire. It is sold as a defective tire.

A "blemished" tire is one not quite so defective as a second, and yet one which is not of the quality guaranteed, or value of a first class tire. "N.F.C." is merely another method of designating a blemished tire and indicates "not first class." This is a broad term and may be applied to serious or slight defects, but the purchaser of such a tire buys blindly with no guarantee or assurance of a hundred or a thousand miles of service.

No Guarantee At All. A "G. C." tire is one on which the guarantee has been cancelled, presumably through the discovery of

PALE AND NERVOUS SCHOOL CHILDREN

Need Rich Red Blood to Regain Health and Strength.

Many children start school in excellent health, but after a short time home work, examinations, hurried meals and crowded school rooms cause their blood to become weak, their nerves over-wrought and their color and spirits lost. It is a mistake to let matters drift when boys and girls show symptoms of nervousness or weak blood. They are almost sure to fall victims of St. Vitus dance, or drift into debility that leads to other troubles. Regular meals, out-door exercise and plenty of sleep are necessary to combat the nervous wear of school life. But it is still more important that parents should pay attention to the school child's blood supply. Keep this rich and red by giving Dr. Williams' Pink Pills and the boy or girl will be sturdy and fit for school. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the statement of Mrs. Watson, Grand Falls, N.B., who says: "In the spring of 1919 my daughter Thistle, then 12 years of age, began to show symptoms of nervousness which developed into St. Vitus dance. She seemed to lose control of her limbs and at times every muscle in her body seemed to be twitching and jerking, and the trouble seemed to be growing worse. We finally decided to give Dr. Williams' Pink Pills, and the result was better even than we had hoped for, and she is now enjoying the best of health."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WATCH WOMEN WHILE TAKING MOTOR TESTS

Camden, N.J., July 22.—On all but three days of each month, West Street, Camden, is just an ordinary street. But on those three days—the first, third and fifth Tuesdays—it bristles with onlookers, a line of automobiles and several men in blue uniforms, waving their arms and blowing whistles.

The men in uniform who wave their arms and blow whistles are policemen and the occupants of the automobiles are Camden ladies taking the test to drive an automobile. A state law requires that they take this test before getting their license to drive.

The greatest Aerial Artists in the world appear at Kent House tomorrow afternoon and night. See them and enjoy one of the greatest treats of your life. Harry's Jazz will supply the music for the dancing in the evening.

some slight defect. In reality however, this has been a method adopted by some manufacturers for the disposal of first-class tires at cut rates in the endeavor to clear a slow-moving stock.

The only safe tire to buy is that product of a reliable manufacturer which passes all of his inspection tests and which leaves his factory with his name and serial number branding it as first class goods. No motorist, whether he be the owner of a \$500 or a \$5,000 car, can afford to experiment with any other type of tire.

DO YOU THINK YOU CAN GET CHEAPER?

CITY OF QUEBEC. CITY HALL. BY-LAW NO. 246. To Amend By-Law No. 24B Concerning the Construction of Buildings.

(Drawn up in the French Language) At a meeting of the City Council of the City of Quebec held on Thursday 30th of June, instant, (1921) the following By-law was read for the first time.

It is hereby ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts: 1: The following article is added after Article 33, in By-Law No. 24B, adopted by this Council on the 11th January, 1918:

33a: Provision must be made for the installation in the front entrance door or any door designated by a street number of all dwelling houses store or office buildings of a "letter drop" (commonly known as a letter box or letter slot) or other suitable mail receiving device, the aperture to be approximately 1 1/2 inches by 5 inches, sufficiently large to permit letters and ordinary newspaper mail packets being deposited therein. The flat of the "letter drop" or slot is to be designated by the word "Letters" and fitted with a spring so as to automatically close after the letter or other piece of mail has been inserted. The "letter drop" or other mail receiving device must be placed in a prominent position in the door and be easily accessible to the letter carrier.

2: The present By-Law is declared forming part of By-Law No. 24B, but it shall be applied only to the buildings erected or modified after it shall have been put in force.

PUBLIC NOTICE is hereby given that in conformity with the disposition of the law, the above By-law shall be read a second time for adoption, on Friday, the 23rd of July, 1921.

By order,
H. J. B. CHOUINARD,
City Clerk.
July 23, 26, 27, 28x4.

WORSE THAN A MOVIE DREAM

One Of Most Fiendish Crimes In History Will Be Expiated

New York, July 22.—One of the most fiendish crimes in modern history will be partly expiated when Mrs. Eva Catharine Kaber finishes her sentence of life imprisonment in an Ohio penitentiary. She was sentenced the other day at the end of a trial in which she sought to defend herself from the charge of murdering her husband. The charge was proved, and but for the jury's recommendation to mercy Mrs. Kaber would have been sent to the electric chair. The result of the trial proved the wisdom of her attorneys who would not accept any woman jurors, for it was made plain in the course of the proceedings that women would have had less mercy on her than men. The men, perhaps, may have come to the conclusion that she was not quite sane, and were obviously bewildered by the frequent fits of hysterics which overwhelmed Mrs. Kaber. Half a dozen others remain to be charged all of them accused of complicity in the atrocious murder, and as two of them are men, charged with having done the actual killing at Mrs. Kaber's instructions, it is not improbable that the chair will yet enfold a victim in its grim embrace for the death of Daniel F. Kaber.

Murder Two Years Old

The murder was committed on July 19, 1919, the victim being a wealthy Cleveland publisher who had become a bed-ridden invalid. The servants were absent from the house at the time and it was in the morning when Mrs. Kaber and Miss Marlon McArdle, her daughter by a former marriage, notified the police. It was taken for granted that the crime had been committed by burglars, and save for the fact that the body showed more than a score of wounds from a stiletto, thus indicating that the assassin had been an Italian, there was no clue for the police. Mrs. Kaber and her daughter moved to New York and the case was forgotten by the public. It was not forgotten by Moses Kaber, the father of the murdered man, who had reason to believe that Mrs. Kaber had been unfaithful to her husband and was in love with a much younger man. He employed detectives and told them to work on the theory that Mrs. Kaber had a guilty knowledge of the murder.

Consulted the Spirits

To such good purpose did they toil that last June Mr. Kaber was able to lay before the Cleveland authorities evidence which justified them in asking for the arrest and extradition of Mrs. Kaber. Her case was hopeless from the start for it became known that her mother, Mrs. Brickel, who was privy to the crime, and Mrs. Colavito, a woman whom she had employed to remove her husband, had confessed. It appears that Mrs. Kaber had a young lover and that the motive of her crime was to secure her husband's estate and enjoy herself with a third husband. For some time she patiently awaited Kaber's death from natural causes, but later on when he showed signs of lingering for years she consulted the Italian woman who claimed to be a spiritist. She told her frankly what she wanted and the Italian agreed to try to invoke supernatural forces to remove Kaber. These ministrations failing she gave the aspiring widow potions which were found to contain poison. These were administered to the sick man and though he became sicker than ever after taking them from the hands of his wife, they failed to produce the desired effect.

Hired Bravos

This seriously undermined Mrs. Kaber's faith in the supernatural, and she sold the Italian secret that the time had come for strong arm methods. She paid her a sum of money and Mrs. Colavito admits that she made a subcontract with 3 Italians named Piselli and Cala. The assassins first looked over the house to assure themselves about exits and entrances. The evidence went to show that while they prowled about, Miss McArdle played the piano in order that their foot steps might not be heard by the sick man upstairs. Having satisfied themselves that the job was a simple one they awaited the signal that all preparations for the murder had been made. The signal was to be a handkerchief fluttering from the front porch. For two or three nights they waited, and then seeing the handkerchief waving they stole into the house by a back door and made their way to Kaber's bedroom.

Cold-Blooded Murder

The doomed man raised himself when he saw the two thugs at his side and asked them what they wanted. Then Cala seized him while Piselli played a dagger into his body twenty-four times. Kaber screamed, but the three women downstairs paid no attention except to start the player piano again. The murderers vanished and the next day the police were notified. In court Mrs. Kaber sought to free her daughter from suspicion, but the Italian midwife said that the final message for the murder had been carried by Miss McArdle. Mrs. Kaber desired to enter the witness box and give a full explanation, but this her lawyers would not permit. It is understood that she based her admitted hostility to her husband on the ground that he had sought to make love to her daughter. There is no evidence to support this charge, however, and Mrs. Kaber must be set down as one of the most horrible murderers in modern history.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Remover.

First Real Action To Prevent Future Wars

The discouragement and pessimism of people the world over who thought all the bloodshed and suffering of the black years of war had brought nothing but heartache and taxes, seemed to turn again into hope a few days ago when President Harding sent out a call to the Great Powers for a disarmament conference, and they all agreed to come. Nation seemed to call to nation in the cable dispatches from London, Paris, Rome, Tokyo, and Berlin, telling of cheering parliaments and approving statesmen and leaders of opinion in the press rising to a world-circling chorus. "A start has actually been made" toward disarmament, and, the New York World notes, "the richest and most powerful of all countries has taken the first step. . . . Peoples staggering under an unbearable burden of taxation are not likely to support governmental quibbling and halting" now that the start has been made. "We are ready to discuss with American statesmen any proposal for the limitation of armaments which they wish to set out, and we can undertake that no such overtures will find lack of willingness on our part to meet them," declared Prime Minister Lloyd George. In Japan, former Minister of Justice Ozaki, touring the country for disarmament, declared on July 4th that such a conference as President Harding has now called would "surely be the beginning of a solution of all the diplomatic questions between Japan and the United States."

While there are some skeptical voices raised in various quarters, there is no doubt that there is a real world demand for the limitation if not the entire scrapping of present day navies. THE LITERARY DIGEST, in this week's number, dated July 23rd, presents public opinion upon this question as reflected in the press of the leading nations.

INLAND REVENUE LOST THEIR CASE

Ottawa Candy Merchant Was Sued For Taxes — Action Dismissed

Ottawa, July 22.—Judgment in the action of the Attorney General against Peter Karson, a candy merchant, has been handed down. This was an action taken by the Inland Revenue Department for the purpose of recovering ten percent tax on candies made by Karson.

son were used entirely in connection with his retail business he was nevertheless a manufacturer and under Sections 19 BB and 19 BBB, became liable for the taxes sued for. This position was opposed by Karson and Judge Gunn by the judgment just delivered dismissed the action with costs. He holds that the section governing the ten per cent manufacturer's tax is by its wording limited to goods imported, or at all events, goods which have a "duty paid value" and that as the defendant's goods did not come under this heading, no manufacturer's tax was payable.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Exterminator.

NO EXACT DATE FOR PREMIER MEIGHEN'S RETURN

Ottawa, July 22.—The Prime Minister's colleagues in the cabinet have no information as to the exact date of his return to Canada, according to the statement of Sir George Foster, acting Premier, yesterday afternoon. Sir George stated he had been informed by cable that Prime Minister's sailing "had been delayed a few days." He could say nothing further than that.

FORT ST. GEORGE
LUXURIOUS SHIP
Reception Tendered By Officers To Local Passenger Agents And Scribes

Capt. MacKenzie, commander, officers, and Mr. G. B. Ramsay, Quebec Agent of the Furness-Bermuda Line steamer Fort St. George, tendered a reception yesterday afternoon to the Quebec passenger transportation agents and members of the city press.

The Fort St. George, an 8,000-ton steamer, arrived at Quebec on Thursday evening with a party of 250 American excursionists from the City of New York and other centres of the United States, and left on her return trip down the river via the Saguenay and Halifax to New York that night at 8 o'clock.

This Furness-Bermuda Line, now operating as a special excursion steamer from New York to Quebec and return, is without exception one of the finest vessels afloat for first-class accommodation and comfort, and is meeting with popular favor from the American tourist travel.

The following is the itinerary of the cruise: Leave New York 10 a.m. Saturday; At sea all day Sunday; Arrive Halifax a.m. Monday; Leave Halifax 5 p.m. Monday; Passing through Gulf of Canada and Northumberland Straits all day Tuesday; Arrive Perce Rock a.m. Wednesday; Along the South Shore of the St. Lawrence all day Wednesday; *Enter Saguenay a.m. Thursday; Arrive Eternity Cove a.m. Thursday; Returning Saguenay and St. Lawrence Rivers; Arriving Quebec p.m. Thursday; In Quebec from p.m. Thursday to 8 p.m. Friday; Leave Quebec 8 p.m. Friday; *Enter the Saguenay a.m. Saturday; Cape Trinity a.m. Saturday; South Shore St. Lawrence River and Saguenay all day Saturday; Arrive Perce Rock a.m. Sunday; Along Gaspe Coast all day Sunday; Northumberland Straits and Gut of Canso all day Monday; Arrive Halifax a.m. Tuesday; Leave Halifax 4 p.m. Tuesday; At sea all day Wednesday; Arrive New York a.m. Thursday.

Weather permitting.

MANY POLES ARE
HOMEWARD BOUND
Steady Movement From The United States Noted By Red Star Line

A new and steady movement of Poles from the United States to their native land is noted by the Red Star Line, which announces that its third class liner Samland, which sailed from New York at noon on Saturday, July 16th, for Hamburg, Danzig and Libau, went out with every available berth taken, principally by Poles.

The Samland's capacity is 1,420 passengers. Of the total on board, 843 were embarked at Philadelphia, from which the ship sailed Friday, and the remainder were booked at New York.

The Samland's passengers include a large percentage of women and children, families of Polish workmen being sent back to Poland, while the head of the family remains in this country.

A similar heavy booking of Poles is noted on the Red Star liner Lapland, which sailed Saturday for Antwerp with more than 1,000 steerage passengers.

According to the Red Star Line officials, various causes are observed as contributing to the present movement of Poles back to Poland. One is the falling off in the earnings of Polish laborers in this country, due to the lowered wages or unemployment in industries employing numbers of Poles.

Another cause of the migration is the strong national pride felt by the Poles in free Poland, and the desire on the part of those who have saved money here to return to their native land in order to taste for themselves the sweets of Polish liberty.

SHIPPING NOTES.
The White Star-Dominion Line steamer Canada reported 150 miles east of Cape Race at 3 p.m. Thursday, is detained by fog and is expected to arrive at Quebec Monday morning.

STRENGTH AND ACTIVITY IN RAILROAD SHARES

FIVE NEW LOWS OF SEASON ESTABLISHED ON MONTREAL STOCK EXCHANGE YESTERDAY

Trading Interest Again Centred in Paper Group—Fourteen Issues Showed Declines, While But Three Made Advances—Paper Furnished Strongest Advance Through Spanish Common

Montreal, Que., July 22.—The list was generally weak on the local Stock Exchange today only three issues making advances while fourteen showed declines ranging from fractions to 3/4 points.

Trading interest again centred in the paper group which furnished three of the advances. This division, though mainly weak and furnishing three of the five new lows established during the day, also furnished the strongest advance, that of Spanish Common, up 3/4 points to 59.

Brompton, Laurentide and Riondon made new lows, Waysagamack lost a full point at 40; Price Bros. was off a quarter at 20 1/2; Spanish preferred was unchanged. On the other hand, Abitibi was 3/4 points at 26 1/2.

The utilities were weak. Brazilian made a new low at 22 1/2 and Detroit Railway at 62. Quebec Railway lost a half at 24 and Toronto Railway a quarter at 73. Bell Telephone was down a point at 108. Power was down a fraction at 81 1/2.

Other weak stocks were National Brewers, which lost a half at 51 1/2. Steamship preferred lost a fraction at 48 1/2.

The industrial and miscellaneous list were only slightly touched on and were universally weak.

Trading in bonds increased over yesterday. Quebec Railway bonds were firmer, being up half a point at 43.

Total sales listed \$4,609; bonds \$113,450.

pean bonds. The best way to answer these attacks or charges is for any well organized house to purchase these bonds direct from the markets in the countries where the bonds emit. Places like the Montreal and New York Exchanges scrupulously examine all bonds that pass through the hands of the dealers and the authenticity of the bonds that are sold there is undoubted.

Why should not English, French, Italian or even German, be less secure than a Canadian bond. Is the fact that Canadian bonds have depreciated nearly one fifth of their value on the New York Exchange to be ignored. It is said that some house realize a profit of one hundred percent on the sale of European bonds. This would appear to be inexact and ridiculous as a person who purchases for a certain amount of European bonds and who follows the exchange quotations each day in the papers, can easily estimate, approximately, just what his bonds are

Closing Letters By Local Brokers

(By Bruneau & Co.) New York, July 22.—Trading is still so light in volume that it represents little public participation after one deducts the transactions of floor traders. Nevertheless, the tone of the market is distinctly improved. The rails are all firmer on the belief that a settlement with the Government is near at hand and that the crop prospect is so good as to assure large autumn tonnage. The sugar stocks are also better responding to a slight improvement in raw sugars and reflecting no doubt the hope of some stabilizing plan to handle the excess crop. The steel shares do not act so well. The flat condition of that industry keeps the stocks heavy. After the long period of depression and with the prevailing uncertainties it is not surprising that there is little public interest in the market. Usually participation of this kind only comes when the professional traders, forward speculators have already produced a substantial advance in prices. It certainly looks now like a better level in prospect for the autumn. Sales 313,300.

(By L. G. BEAUBIEN & Co.)

New York, July 22.—While there was further strength in some of the specialties this afternoon such as International Paper, Corn Products and the sugar and tire stocks the market reacted moderately towards the close. There was a certain amount of profit taking in the rails and the steel stocks and sugars also went off slightly. There were no developments to affect the market one way or the other and price movements represented the shifting of professional positions. Total sales 313,000 shares. New York Funds 12 5-8. Call money opened 5 1-2 per cent, closed 5 percent.

Closing Letters Canadian Press

(By Canadian Press) New York, July 22.—Apart from the comparative strength and activity of railroad shares, trading in the stock market today was dull and insignificant. All classes of transportation figured in the irregular advance of 1 to 2 points, but the principal beneficiaries were Standard issues, comprising the Transcontinental Coal and Cotton carrying groups. Representative steel equipments, oils and kindred issues were steady to firm in the first half of the session, but forfeited most of their moderate gains in the gradual reaction of the final hour. Sales amounted to 300,000 shares. The money market took further heed of the lower discounts fixed by Federal Reserve banks and the Bank of England. Call loans fell to five percent from their opening rate of 5 1-2 and offerings of time money were freer with liberal purchases of commercial paper. International credits also registered moderate improvement although dealings in that quarter were negligible. Exchange on London was firmer, presumably in connection with the consummation of the first commercial credit in this market. Mercantile conditions, as reported from Chicago and other distributing centres were of a more hopeful tenor, but the industrial situation was clouded by price concessions in steel and copper. Reports of the cancellation of foreign orders for copper lacked confirmation. Bonds were relatively more active than stocks and the tone for almost all issues was firm to strong. The Liberty division closed mainly at gains and the new French 7 1-2s, hardened on closing of the subscription books. Rails improved, with Burlington 5 1-2s leading on their advance to par. Total sales, par value, aggregated \$12,350,000.

(By L. G. BEAUBIEN & Co.)

New York, July 22.—Trading is still so light in volume that it represents little public participation after one deducts the transactions of floor traders. Nevertheless, the tone of the market is distinctly improved. The rails are all firmer on the belief that a settlement with the Government is near at hand and that the crop prospect is so good as to assure large autumn tonnage. Daily Gossip On Leading Stocks

The Montreal Stock Exchange will be closed today the committee having decided to remain closed for the third consecutive Saturday. That styles change in investments and speculation as well as in other directions is the opinion of the Financial World, which appears to think that public utility securities, following upon the successive vigors of railway and industrial securities, will shortly attract more attention than they have ever done before. It is pointed out that this will be due to more general recognition of the intrinsic merit of these issues, supplemented by reports of increasing profits and increased distribution on the shares. The market must have a tangible incentive, primarily in the form of profits, but more impressively in the form of distribution of profits. The mere prospect of an initial, increased or restored dividend will attract the public more certainly than anything else. "There are sound basic reasons as well as speculative reasons, for expecting a movement in this group before long," remarks the Financial World. "The increased rates for gas, electricity and traction fares will stand until it is demonstrated by results that they are producing too much revenue. When that occurs action will be taken to reduce rates again, but in the meantime the market will have had its turn. The monthly reports of the public utility corporations continue to make a more favorable showing than those of any other line of enterprise. The utility corporations have, however, suffered considerably from the closing of factories and mills and consequent unemployment, as these companies serve the large centres of population. There has been a decided decline in the price of coal and other materials, some reduction in wages and, more important, an increase in the efficiency of labor. All that is saved in the way of costs goes into net income, and gross income has been increased by advances in selling prices in a majority of cases. When volume of business increases and unemployment disappears, the profits of the public utility corporations will make a surprisingly good showing."

(By Bruneau & Duggan.)

New York, July 22.—Trading is still so light in volume that it represents little public participation after one deducts the transactions of floor traders. Nevertheless, the tone of the market is distinctly improved. The rails are all firmer on the belief that a settlement with the Government is near at hand and that the crop prospect is so good as to assure large autumn tonnage. The sugar stocks are also better responding to a slight improvement in raw sugars and reflecting no doubt the hope of some stabilizing plan to handle the excess crop. The steel shares do not act so well. The flat condition of that industry keeps the stocks heavy. After the long period of depression and with the prevailing uncertainties it is not surprising that there is little public interest in the market. Usually participation of this kind only comes when the professional traders, forward speculators have already produced a substantial advance in prices. It certainly looks now like a better level in prospect for the autumn. Sales 313,300.

Cool off on the Great Lakes. DO you realize the waters of Lake Superior never rise above 40°—that while you are sweating, it is as cool as May on the Lake? Mr. Harrison Watson, Trade Commissioner in London, in summarizing the Final Report on Meat issued by the Standing Committee on Trusts, notes that the imports of Canadian bacon into the United Kingdom increased in quantity about five-fold between 1913 and 1920. The prospect of the Canadian trade expanding sufficiently to drive the American bacon out is, it is stated, not great for in the past the Canadian farmer has not taken kindly to the hog, and the growth of export trade will depend upon that animal taking a more prominent place in Canadian agriculture than it has done hitherto.

The Chicago Produce Market. Chicago, July 22.—Pressure of hedging sales more than counterbalanced the effect of export buying. Prices closed nervous at 1 to 1 1/2 cents net lower. Corn finished 1-4c. off to 1-4c. up and oats lost 3-8 to 3-4c. In provisions the outcome was a gain of 2 to 10 cents. Close: Wheat, Sept. 1.25; Dec. 1.25. Corn Sept. 61.5c; Dec. 61.5c. Oats, Sept. 18.5c; Dec. 18.5c. Lard, Sept. 112.0c; Oct. 112.1c. Ribs, Sept. 10.0c; Oct. 10.7c.

The Toronto Produce Market. Toronto July 22.—Manitoba wheat No. 1 Northern, \$1.85; No. 2 \$1.82 3-8; No. 4 \$1.78 1-8; No. 4 wheat \$1.64 7-8. Manitoba oats, No. 2, Canadian Western, 52 7-8c; No. 3 50 3-8c; extra No. 1 feed 49 5-8c; No. 1 feed 48 3-8c; No. 2 feed 47 3-8c. Manitoba Barley, No. 3, Canadian Western, 83 1-2c; No. 4 79c; rejected 74 1-2c; feed 73 1-2c. All of the above in store Fort William. American corn, No. 3 yellow, 76c, nominal, c. i. f. Bay ports. Mount Hermon Cemetery

(By "Ensign")
The Protestant Cemetery was
opened in 1848 by the "Quebec Pro-
testant Cemetery Association." The
capital stock of the association was
five thousand pounds divided into
one thousand shares of five pounds
each, to be held by Protestants into
the first directors were very sturdy
Protestants, leaders in the affairs of
both Church and State; they were:
George O'Kill Stuart, Mayor of Que-
bec; James Douglas, Jeffrey Hale,
John Musson, John Gilmour, Henry
S. Scott, James Gibb, Christian Wur-
tele, and Robert Cassels. On the
30th May 1849 an Act of Incorpora-
tion was obtained, and the cemetery
was given the name of Mount Her-
mon.

A visit to this beautiful city of the
dead is apt to call to mind the lines
of the psalmist:
"The living know that they must
die,
But all the dead forgotten lie,
Their memory and their name is
gone.
Alas! unknowing and unknown."
To a large extent true doubtless.
The memory of the general public is
a very short one. Once under the
soil, an individual is very soon for-
gotten. New lights and new idols
arise. The King is dead long live
the King! Names that were in every-
one's mouth at one time how seldom
do we hear them mentioned now.
D'Israeli, Salisbury, statesmen once
holding in their hands the destinies
of England, George Peabody eminent
philanthropist, Newman, Wesley,
Martineau, Queen Victoria, King
Edward, Sir John A. Macdonald,
Cartier, George Brown—it is but oc-
casionally we see their names in
print or hear them mentioned in
conversation.

But, those who are not so promi-
nent in public and national affairs
are still more easily forgotten, es-
pecially by a certain class of fair-
weather or sunshine friends, of
whom doubtless most people can
count a few.
"Be glad, and your friends are
many;
Be sad, and you lose them all.
There are none to decline your
nectared wine.
But alone you must drink life's
gall.
There is room in the halls of pleas-
ure
For a long and lordly train,
But one by one, we must all file on,
Through the narrow aisles of
pain."

"Feast and your halls are crowded;
Rust, and the world goes by;
Succeed and give, 'till help you to
live;
But no one can help you die.
Rejoice, and men will seek you;
Grieve, and they turn and go—
They want full measure of all your
pleasure.
But they do not want your woe."

Ah! but those who are akin, mem-
bers of the same family; the father,
the mother, the children, and all
near relatives—the passing of the
beloved one was attended with
great sorrow, and the loving remem-
brance of the departed must surely
continue amongst those who are left
behind whilst life itself lasts. The
careful tending of the last resting-
places throughout this cemetery,
and the tender tributes to the var-
ious graceful monuments to those
who lie beneath the sod are mute
witnesses to that.
"For who to dumb Forgetfulness a
prey,
This pleasing, anxious being e'er
resigned,
Left the warm precincts of the
cheerful day,
Nor cast one longing, lingering look
behind?"

On some fond breast the parting
soul relies,
Some pious drops the closing eye
requires:
E'en from the tomb the voice of
Nature cries,
"In our ashes live their wonted
fires."

Doubtless the fondest hope of
those who have loved ones has
been, and is the hope of union
in the world to come—the better
land, as it has been so aptly called,
and yet who knows Where today
are the spirits of the eleven thou-
sand bodies which lie in this cem-
etry? Have they joined those of
their loved ones who have gone be-
fore, or have they not? None can
tell; the clergyman can say little
more on the subject than the or-
dinary layman.

An eminent minister of the gospel
in Montreal, in a book he has writ-
ten on the hereafter, upholds the
reunion of families in the spirit
land; and this of course is the uni-
versal hope; but Conan Doyle, in
his "New Revelation," quotes ap-
provingly a letter from one of his
correspondents suggesting, as a re-
sult of investigation from his point
of view, that there is no certainty
of family reunion, that married
couples do not necessarily reunite;
but that spirits of similar thoughts,
tastes, and feelings gravitate to-
gether.

When looked at philosophically,
there seems to be some reason in
this, as we have the highest au-
thority for the fact that in Heaven
there is neither marrying nor giv-
ing in marriage. If marriage on
earth was instituted for a special
purpose—the propagation of the
race—there does not seem to be
anything very incongruous in the
theory. And this, too, would set at
rest the doubts which have arisen
as to how a parent who was saved
could possibly be happy throughout
eternity, knowing that one, or pos-
sibly more, of those who had com-
posed the family circle had been
lost, and were suffering the tor-
ments of the damned. If there are
to be no family reunions, the fact
even that such an event had hap-
pened might ever be realized by the
other members.

Strenuous Wars, the American
morrist, used to have a very true say-
ing: "Never prophesy unless you
know"—and so, in this case, there is
little use in anyone prophesying or
speculating because we don't know.
All that those who are still in the
flesh apparently can do is to try to
"play the game," and when their
turn comes to occupy one of the tor-
ments they will know more about it.
It is a question of faith in the
teachings of the Christian religion,

"TIZ" FOR TIRED AND SORE FEET

Use "Tiz" For Puffed-Up,
Burning, Aching, Calloused
Feet And Corns

Why go limping around with ach-
ing puffed-up feet—feet so tired,
chafed, sore and swollen you can
hardly get your shoes on or off. Why
don't you get a box of "Tiz" from the
drug store now and gladden your
tortured feet?
"Tiz" makes your feet glow with
comfort, takes down swellings and
draws the soreness and misery right
out of feet that chafe, smart and
burn. "Tiz" instantly stops pain in
corns, callouses and bunions. "Tiz"
is glorious for tired, aching, sore
feet. No more shoe tightness—no
more foot torture.

Chronicle Files 100 Years Ago

European Intelligence.
The Greeks are said to have gained
a glorious victory in the valley of
Tempe.
Spain is full of troops scouring
the country in pursuit of rebels to
the Constitution.

Chronicle Files 25 Years Ago

Dangerous Pilgrim.
Yesterday the police were sum-
moned to arrest a woman who was
creating a disturbance on a pilgrim
steamer from Sorel. The priest in
charge explained that she did not
belong to his party and that she was
dangerous. When arrested the wo-
man glared at the police and gripped
at their clothing in a convulsive
manner. It was with the greatest
difficulty that the person was landed
in the Police Station, where she
proved a terrible source of worry to
the Police. She finally completely
recovered and her prostration is at-
tributed to sunstroke coupled with
her nervousness at missing her boat.

New Bridge.
On behalf of the City of Quebec
the Hon. C. A. P. Pelletier, City At-
torney, will make application on the
24th August next to the Governor-
General-in-Council for the approval
of the plans for the construction of a
proposed bridge over the St.
Charles River, to connect the city
with the new Park.

Officers Installed.
The following officers elected for
the next six months by Court Que-
bec, Canadian Order of Foresters,
were installed into office the other
day by District Deputy Bro. E. A.
Evans, C. E., assisted by Bro. W.
White, his Grand Marshal; A. T.
Lepine, Chief Ranger; A. D. Dodridge,
Vice-Chief Ranger; F. Phillips, Fin-
ancing Secretary; T. A. Young,
Chaplain; A. B. Van Felson, Senior
Woodward; A. Burns, Junior Wood-
ward; H. Gauthier, Senior Beadle;
C. Phillips, Junior Beadle.

AWAY FROM THE HEAT.
A quartette of well-known North
Shore St. Lawrence Resorts: Cap
L'Aigle, St. Irene, Pointe au Pic,
and Murray Bay a few hours run
from Quebec. The name Murray
Bay is frequently applied to the
whole district reaching from
Pointe au Pic to Murray Bay, a
distance of three miles. Pointe au
Pic is really the heart of the sum-
mer colony, where the Manoir Rich-
elieu and the Chateau Murray, and
most of the hotels are situated, and
with many handsome residences and
bungalows on the heights and down
along the cliffs and sloping fields of
the Bay Shore. Golfing, carriage
driving, tennis, golf, boating and
bathing are the chief amusements.
Murray Bay proper, also called La
Malbaie is a quaint place and less
fashionable.
At St-Irene a delightful life may
be enjoyed at quiet family hotels,
right on the beach in the midst of a
charming country-side for walks and
rambles.

At Cap L'Aigle, roomy farm
houses on the cliffs have been adapt-
ed for the reception of visitors and
the summer life is altogether rural
and free from fashion's trammels.
To the lover of sublime landscapes
the visit of wild grandeur and sylvan
beauty, will, when once seen, leave
an indelible impression upon the
memory, and amidst such surround-
ings with the cool and invigorating
Ocean breezes will give the seeker,
after health, a tonic of inestimable
value.
The quickest way to reach these
points is via the Canadian National
Railways, leaving the Q.R.L.L. &
Co. Station at 4.15 P.M. every
day except Sunday and 7.45 A.M.
every Saturday. For Parlor Cars,
seats, and any other information ap-
ply at City Ticket Office, 10 Ste-
Anne Street, or to any other Agent
of the Canadian National Railways.
July 19, 21, 22, 23.

Use Miller's Worm Powders and
the battle against worms is won.
These powders correct the morbid
conditions of the stomach which
nourish worms, and these destruc-
tive parasites cannot exist after they
come in contact with the medicine.
The worms are speedily evacuated
with other refuse from the bowels.
Sourness is imparted to the organs
and the health of the child steadily
improves.

Aspirin

Nothing Else is Aspirin
Warning! Unless you see the name "Bayer" on tablets,
you are not getting Aspirin at all.
Accept only an "unbroken package" of "Bayer Tablets of
Aspirin," which contains directions and dose worked out by
physicians during 21 years and proved safe by millions for
Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism,
Neuritis, Lumbago, and pain generally. Made in Canada.
Handy tin boxes of 12 tablets cost but a few cents—Larger packages.
Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-
acetyl-salicylic acid of Salicylic acid. While it is well known that Aspirin means Bayer
manufacture, to assist the public against imitations, the Tablets of Bayer Company
will be stamped with their general trade mark, the "Bayer Cross."
