

ROM THE CAPITAL

abinet Meeting—Leave of Absence for Sir Mortimer Clark—Applications for Commutation of Death Sentences.

NO REPORT FROM MR. FIELDING—UNION STATION AT TORONTO—IRON ORE ON VANCOUVER ISLAND—MR. OLIVER RETURNS—LABOR CONGRESS.

Ottawa, July 9.—A meeting of the cabinet was held this afternoon, the first in two weeks. Sir Richard Cartwright, acting premier, presided. It is understood that Police Magistrate Dawson, of Winnipeg, was appointed a third county court judge for the district of Winnipeg, and ex-Attorney-General Cameron was appointed a judge of the Court of King's Bench for Manitoba. Both judgeships were provided for by an act passed at last session of parliament.

Leave of absence was granted to Sir Mortimer Clark, Lieutenant-Governor of Ontario, and to Lieutenant-Governor Dunsmuir, of British Columbia. Sir Mortimer Clark is leaving Toronto for a holiday trip to the seaside, and during his absence Chief Justice Moss will act as administrator.

Three applications for commutation of the death sentences were considered by the cabinet. One case was that of a man named Dale, who was convicted and sentenced for murder of two Frenchmen in Carnie, British Columbia, last November. Dale, while intoxicated, ran amuck in the village, and fatally shot the two men and wounded others. The cabinet decided to let the law take its course. Similar action was taken in the case of a Chinaman named Ching Lee, who fatally stabbed a man employed in one of the camps in Kootenay district, just one year ago to-day. The third case considered was that of an Italian named Frank Canelli, who is under sentence to be hanged on Aug. 1 for murder of William Doherty at Whitehorse, in the Yukon Territory, on Christmas day. Pending the receipt of a further report on the case by the Minister of Justice, no action was taken.

No report has so far been received by members of the government here from the Hon. Mr. Fielding as to the progress of negotiations now pending with France looking to drafting of a new trade treaty with that country. It is not expected that any treaty will be required until it is made in accordance with the return to Canada of the iron ore deposits of Vancouver Island. The ore is found in comparative proximity to coal-bearing areas, and it is believed that very large ore deposits on the island can be profitably worked.

Hon. Frank Oliver, Minister of the Interior, who returned on Saturday from a two weeks' tour of inspection of Canadian immigration agencies in the New England and Western states, states that he found prospects bright for a continuation of recent large American immigration to Canada. Mr. Oliver noted that the high prices now being charged for lands in the Canadian West by the railway companies and by land speculators, are tending to restrict the influx of American settlers and the purchases and advertising of western lands by American syndicates. In consequence more attention is now being paid to Texas which seems to offer a more profitable field for quick profits from land investments.

Messrs. Alphonse Verville, M.P., of Montreal, President of Trades and Labor Congress of Canada; Jas. Simpson, Toronto, Vice-President, and P. M. Draper, Secretary, were in Ottawa yesterday and to-day preparing the report of the Executive to be presented at the annual meeting of the Congress which will convene in the Legislative Assembly chamber at Winnipeg on Sept. 18. The Congress this year will be by all odds the largest yet held. It was announced to-day that the Pressmen's International Union has decided at headquarters to have all local unions in Canada affiliate with Congress. Similar action has also been taken by the International Brotherhood of Carpenters, thus adding about 4,500 more to membership represented by Congress. The Executive has decided to appoint three organizers to devote their time from now until September in getting local unions to affiliate with the Congress. These organizers will be Alphonse Verville, M.P., for Quebec and Maritime Provinces; Allan Studholm, M.P., for Ontario, and W. R. Trotter for Manitoba and the West.

Mr. Simpson interviewed Mr. W. L. Mackenzie King, deputy minister of labor, this afternoon, on behalf of the Letter Carriers' Association of Toronto, to ask that their request for an increase of wages be considered by the Civil Service Commission. Mr. King stated that the Commission would meet in Toronto in September and would go fully into

the case of the letter carriers and other civil servants there.

The report of the Royal Commission which investigated the strike of the telephone girls in Toronto last winter, will be presented to the Government by the Commission, Mr. W. L. Mackenzie King and Judge Winchester, about two weeks hence.

SUNDAY TRAFFIC

CASE AGAINST THE G. T. R. FOR UNNECESSARY MOVING OF TRAINS.

Toronto, July 10.—A case had been brought against the Grand Trunk Railway for breach of the Lord's Day Act by unnecessary moving of trains at Little York Station on Sunday, the specific date mentioned being April 21. The charge came before Magistrate Ellis at East Toronto yesterday morning. Mr. H. S. Oiler, K.C., attorney for the defendant, asked for two weeks' time to prepare his answer to the specific charges. County Crown Attorney Drayton and the magistrate consented to this, as it is a test case, and the hearing was deferred to next Wednesday, to be further adjourned one week, unless the defense is ready by that date.

DOMINION LANDS

OPENING FOR HOMESTEADS AT YORKTON, SASK.

Winnipeg, July 10.—The opening of Dominion lands for homesteads in the Donkhorob reserve at Yorkton was concluded on Saturday, when the last remaining homestead was thrown open. In all 1,380 quarter sections were offered to the public during the period between June 1 and July 9, and of these up to July some 920 had been entered for. The nationality of those entering was as follows: Canadians, 250; Galicians, 240; British, 195; Scandinavians, 36; Americans, 51; balance, various nationalities.

The number of Galicians entering is really remarkable. In addition to these entries there was in the month of May 240 entries, and in June 200 entries, made in the same reserve. Many of the homesteads secured are worth from four to five thousand dollars.

PROBABLE BATHING FATALITY

CLOTHING BELONGING TO J. L. COLE FOUND ON THE RIVER BANK.

It is feared that Joseph L. Cole, a young French Canadian, who has been some time boarding at the Anglo-American House, 357 St. James street, met his death yesterday while bathing in the river near Dominion Park. Mr. R. S. Gates, assistant manager of the infant incubator at Dominion Park, while out for a walk saw a pile of clothing on the river bank, but took little notice of them, thinking someone was bathing. In the evening, however, with Mr. Honore Leduc, the caretaker of the St. Louis Baths, he went to the spot to see if the clothes were still there. They found the garments lying exactly as when he first saw them, and the two men at once concluded that there had been a tragedy, and tried to find the body, without success. They then gathered up the clothes, which consisted of a full outfit, and took them to the Central police station. In the pockets a card was found bearing Cole's name and address, and a letter addressed to his father at St. Thomas d'Aquin, St. Hyacinthe county.

Messrs. Demestelin & Apert, the proprietors of the hotel, said that Cole had left the house yesterday morning and had not returned.

The water at the point where the clothes were found is quite shallow for several feet out, and then suddenly drops to a depth of twenty feet. It is supposed that Cole went in to bathe, waded over the edge of the ledge into deep water and was drowned. The detective department was notified and Chief Carpenter's men have the matter in hand.

ENGINEER KILLED.

Cobalt, Ont., July 10.—A work train, above Englehart, was wrecked yesterday and Thomas Gould, engineer, whose home is at Liskeard, was killed, and one or two others injured. The loose quicksand soil gave way during the night, causing the rails to spread, and the engine and several cars left the track and rolled down the embankment. The news received here says the man was still under the engine at noon. A wrecking crew was summoned from McDougall's Chutes and the rescue work began. Mr. Gould has a wife and three children.

BOTTLE BLOWERS MEET.

Toronto, July 10.—The feature of the session of the Glass Bottle Blowers' Association yesterday was the reading of the report of the financial secretary, W. Launer, the balance on hand was \$185,283.31 in the general fund, and \$2,881.25 in the death benefit fund. In addition, \$200,000 is invested in 4 percent United States Government bonds, bringing the total amount to the credit of the association to \$391,744.88. During the year there were 108 deaths and \$54,150 was paid in death benefits.

APPRECIATED CAR RIDE.

The managers of the Ladies' Benevolent Society wish to thank the Montreal Street Railway Company for a very enjoyable outing given to the women and children of this institution on Monday, July 8.

EX-MAYOR LAPORTE SAYS CITY SHOULD OWN STREET CAR TRACKS

Ex-Mayor H. Laporte is not altogether in favor of the city buying over the Montreal Street Railway Company, or any other corporation, additional streets, in order to facilitate the heavy passenger traffic through the city. That is a question, said Mr. Laporte, that requires the most careful study, because I am of the opinion that the time has arrived when the city of Montreal should run its own street railway system, and that way it would be in a position to give out running privileges to any company that might have the right to operate in the city. I think it would be a mistake for the city to grant further privileges for laying, and I can see the advantage that would accrue to the city if the corporation would only commence the operation of its own street railway system. I have had this idea in my mind for the past five years, and the more I have considered it the more I am inclined to believe in the future benefit to the city.

MR. H. LAPORTE.

THEIR MAJESTIES.

The King and Queen Arrive at Kingstown, Ireland, on the Royal Yacht.

Kingstown, Ireland, July 10.—The Royal yacht "Victoria and Albert," with King Edward and Queen Alexandra on board, anchored in the harbor here before daylight. The weather was fine, and the town was completely bedecked with flags and triumphal arches. All the vessels were dressed with bunting, and thousands of people poured into Kingstown from the country, in order to witness the landing of their Majesties.

SIR WILLIAM BROADBENT DEAD

Physician-in-Ordinary to the King Passes Away at London.

London, July 10.—Sir William Henry Broadbent, physician-in-ordinary to the King and the Prince of Wales, and other royal dignitaries, died to-day. He was born in 1835.

THE LATE SIR WILLIAM BROADBENT, Physician-in-Ordinary to the King.

Physician-in-Ordinary to the King and Prince of Wales; consulting physician to St. Mary's Hospital, Paddington, and various other hospitals, was born in Yorkshire, on Jan. 23, 1835, and was the son of the late Mr. John Broadbent, of Longwood Edge, Huddersfield. He married Eliza, daughter of Mr. John Harpin, in 1863 and had two sons and three daughters. He was educated at Huddersfield College, Owens College, Royal School of Medicine, Manchester, and at Paris. He was physician successively to the Western General Dispensary, London; Fever Hospital; St. Mary's Hospital; president of Harvian Society of London; Medical Society of London (1881); and Clinical Society (1877-88); Neurological Society (1895-96); Royal College of Physicians (1893-99 and 1899-96); Physician Extraordinary to Queen Victoria (1896-1901). Among Sir William Broadbent's best-known published works are: "The Pulse" (1890) and "The Heart" (1897).

IN APPEAL.

Before Judge Tremblay, in chambers, this morning, Mr. Bissett, K.C., presented an application for leave to appeal from an interlocutory judgment rendered by Judge Charbonneau in the Superior Court, in the case of R. J. Demers, plaintiff, and Louis Demers, defendant. Demers asks to have the title and promise of sale of the property known as the Theatre des Nouveaux confirm; and the defendant objects on the plea that the conditions of the promise of sale have not been fulfilled. The proceedings have been long and intricate. The amount involved in the suit is about forty thousand dollars.

ROSEMOUNT WATER

System of Cart Delivery Threatened by Lack of Funds

WATER SUPERINTENDENT MUST KEEP IT UP, EVEN THOUGH HE HAS TO PLEDGE THE COMMITTEE'S CREDIT.

Mr. Janin, superintendent of the Civic Water Department, yesterday afternoon reported that a serious state of affairs existed at Rosemount. This newly annexed district has no proper water service. The inhabitants depend to a large extent for their water on a cartage system, and Mr. Janin informed his committee yesterday that only about a hundred dollars remained of the \$1,400 originally voted for this work. The committee, informed Mr. Janin that the water supply would have to be continued, and if he had no money he would have to get credit on the committee's responsibility. On Monday last the Finance Committee voted thirteen hundred dollars to the Water Committee for the purchase of pipes for a water main to Rosemount. It will take some time to have the pipes delivered, and the money to pay for laying them will be available as soon as it is required.

Mrs. Kearney, widow of the late chief engineer at the pumping station, wrote asking that she might be granted the privilege of occupying her present residence, the property of the city, until May 1 next; she also applied that the equivalent of her late husband's salary might be paid to her until the same date. The letter was referred to the city attorney for his opinion. Four applications for the vacant position of chief engineer were referred to Mr. Janin, who will report on the merits of the candidates at the next meeting of the Water Committee.

GREATER WESTMOUNT

ANNEXATION OF PART OF NOTRE DAME DE GRACE WILL BE AGREED TO.

The Mayor of Notre Dame de Grace states that complete accord has been arrived at for the annexation of part of the municipality to the town of Westmount. The Montreal Street Railway Company has agreed to extend the privileges of its service to the municipality, and a by-law will be presented next Monday at the council meeting proposing annexation. No opposition is threatened, and annexation to Westmount will be an accomplished fact in a few weeks' time.

LACHINE ADOPTS BY-LAW

WILL BORROW \$50,000 FOR WATERWORKS AND IMPROVEMENT PURPOSES.

Property-owners in Lachine yesterday voted on the proposed by-law to borrow \$50,000 for the extension of the water-works and for sewerage and sidewalk purposes. At the close of the poll it was found that the by-law had been adopted by a majority in property value of \$280,000.

SIR ALFRED BILLSON DEAD

MEMBER FOR NORTH-WEST DIVISION OF STAFFORDSHIRE EXPIRED IN THE HOUSE.

London, July 9.—During a division in the House of Commons this evening, Sir Alfred Billson, member for the north-west division of Staffordshire, suddenly fainted away, and then expired. The House immediately adjourned.

Alfred Billson, J.P., solicitor, was born at Leicester on April 18, 1839. He was the fifth son of Mr. William Billson, Leicester. In 1862 he married Lilla, daughter of the late Mr. John Bains, Leicester, and leaves one son and three daughters. Educated at Leicester, he was, in 1860, admitted a solicitor; became a partner in the firm of Messrs. Oliver, Jones, Billson & Co., solicitors, Liverpool. He was honorary secretary of the South-West Lancashire Liberal Association (1866-84), and of the Liverpool Liberal Association; M. P. for Barnstaple division of North Devon (1882-85); contested East Bradford (November, 1896); M. P. (I.R.) from Halifax by-election, March 3, 1897, and remained in his seat until 1900. In 1906 Sir Alfred was elected for the north-west division of Staffordshire, for which constituency he sat until his death. He was knighted by the King at the last birthday honors.

FELL SEVEN STORIES.

Toronto, July 10.—Harley Montgomery, an electrician's helper in the employ of Bennet & Wright, Queen street east, fell seven stories in the elevator shaft at the Alexandra Palace apartment house (University avenue) yesterday, sustaining injuries which resulted in his death an hour and a half after he was admitted to Grace Hospital. No one was present when the fatality occurred, but the indications are that it was accidental.

FOOLED WITH ELEVATOR.

Vancouver, B.C., July 9.—John McLean, sixteen years old, fooled around an elevator in Woodward's departmental store, and was caught by the weight. Both jaws were broken and his face was smashed. It is expected he will die.

NEWS IN BRIEF.

The Russian navy has ordered new warships to be built during the next three years to the value of \$15,500,000. The Frontier Guards have been added to the army and navy, and so removed from the jurisdiction of Parliament.

The King and Queen, on the Royal yacht "Victoria and Albert," arrived at Kingstown, Ireland, this morning.

Laura Gingras, a little five-year-old girl in Ville St. Louis, was run over by a street car last night, and had her left arm cut off at the elbow.

Ex-Mayor Laporte recommends that the city hand over to street railways more streets. Instead, he says, let it lay the tracks itself and rent them to whatever railway chooses to hire.

WESTERN UNION AND POSTAL TELEGRAPH

New York, July 9.—Clarence Mackay, president of the Postal-Telegraph Cable Company, declared to-day that "All the talk about the Western Union and the Postal-Telegraph-Cable Company working in harmony is nonsense." If two companies ever competed in the world, these two companies are competing, and the competition is fierce and bitter. Mr. Mackay's statements were made in commenting upon the action of Attorney-General Wm. E. Jackson, of New York, who yesterday asked a justice of the New York Supreme Court to appoint a referee to secure evidence that the Western Union and Postal companies have formed a combination in restraint of competition.

CHRISTIAN ENDEAVOR

OPENING OF THE 23RD INTERNATIONAL CONVENTION AT SEATTLE.

Seattle, Wash., July 10.—With hundreds of delegates already in the city, and with more due to-day, the 23rd annual International Convention of the Christian Endeavor is well under way. Delegates from every state in the Union and from many foreign countries are in attendance. The city is decorated with thousands of American flags and hundreds of green and white streamers flutter in the breeze.

The convention was ushered in last night with the presentation of Handel's 'Messiah.' Eight thousand people packed the immense tent erected for the occasion, to listen to the rendition of the famous oratorio.

ASK INCREASE OF SALARY.

Employees of the Inland Revenue Department of Montreal have submitted a petition to the Royal Civil Service Commission at Ottawa, requesting an increase of salary. Mention is made that during the last ten years rent has increased fifty percent, and fuel twenty-two percent. Further, that Montreal collects about forty percent of the total revenue of the country, while the working expenses are much less proportionately than those of other centres. Among other things, the petitioners request that a special salary scale be adopted for the Montreal division; that promotion be granted, other qualifications being equal, to the oldest employee, and that the increase of salary from minimum to maximum be ten percent per annum, instead of five percent.

WINNIPEG MUDDLE.

Winnipeg, July 9.—Incensed at the action of the City Council in rescinding permission to construct the Lombard street loop, the Electric Railway Company are refusing to construct the other loops in Graham, Fort and St. Mary streets, for which permission was given at the same time. This announcement was made to-day after a meeting of directors. They issued a statement to the effect that they had hoped the loop would go through to relieve the congestion of cars at exhibition time but this had been frustrated by council. The position is that the city will have no down town loops for the exhibition, and owing to the fact that all open cars are incapable of being reversed, the congestion will probably be greater than ever before.

MR. VERVILLE'S APPEAL.

Mr. Alph. Verville has entered an appeal against the judgment of Mr. Justice Lafontaine, by which he was condemned to pay \$150 damages to Mr. Mederic Martin, for libel.

How Much

would it be worth to you to be really master of the keyboard; not to be limited to 'easy pieces,' but to wander at will amongst the treasures of Schumann, Chopin, Beethoven and Grieg? Ten years ago such a thing was only open to great talent, combined with great perseverance. Eight hours a day for many years of the hardest kind of drudgery was the price paid. To-day, the purchase of a Pianola or Pianola Piano carries this wonderful ability with it, and gives you the Pianola repertory—over 20,000 selections—to choose from.

No previous musical knowledge is required to play. The METROSTYLE shows you how to play artistically, the THEMOSIST accents the melody and guides the accompaniment. Price of Pianolas \$275 up. Price of Pianola Pianos \$650 up. Can be purchased in monthly or quarterly payments.

MARINE INQUIRY

BELL ON THE 'PRESCOTT' COMMUNICATING WITH ENGINE. ROOM REFUSED TO WORK.

At the Wreck Commissioner's Court yesterday afternoon Commander Spurr, E.N., continued the investigation into the collision between the Richelieu & Ontario Navigation Company's steamer 'Prescott' and the barge 'Havana' in lock No. 1 of the Lachine canal last Tuesday.

Michael McLean, foreman of the lock gang, testified that, according to regulations, he ordered the 'Havana' to give place to the 'Prescott' in the lock. He testified that the 'Prescott' entered the lock at too great a speed, and collided with the gate with considerable force.

about fifteen knots. He felt two bumps, the first one against the barge and the next against the 'Havana.' He laid the blame for the accident, entirely on the bells failing to act. Cross-examined by Mr. Holden, witness stated that the two bell pulls from above only rang on the one bell, and that there was no telephonic or speaking tube communication between deckhouse and engine-room.

WORSE THAN LIQUOR.

No Cigarette Smokers to be Retained on Pittsburg Railway.

HEAD OFFICIAL DECLARES SAFETY OF PUBLIC DEMANDS THIS COURSE.

Mr. John Murphy, superintendent of the Pittsburg Railway Company, of Pittsburg, which operates 400 miles of track and 1,800 cars, has written to the 'Sunday School Times' explaining a recent notice issued to the employees of the company that it would henceforth be the policy of the company not to retain in its employ men who use intoxicating liquors or cigarettes or are in the habit of gambling. He says: 'Being an officer of a company that carries over two hundred and twenty-five million passengers yearly, it becomes my moral and legal as well as my public duty to use all reasonable means to protect the lives and further the comfort of this large number of passengers. Having for some time back noticed that our accidents were increasing, upon investigating the cause I satisfied myself that the standard of our men who did not use liquor or tobacco (the latter in the form of cigarettes) was much above that of those who used either. I therefore deemed it my duty to abate the evil so far as lay in my power to do so, and tried to uproot it and cast it out through discipline, but found this method inadequate and ineffectual. I then went further, and concluded the desired end could be attained only by removing from the service or refraining from employing all men addicted to the objectionable habits alluded to. It is my aim and intention to pursue this policy without abatement, since I have by it proved beyond all doubt that it has raised the standard of our men. I have been criticized for the stringency of the order, especially the prohibition of the use of cigarettes; but on the other hand I have the assurance of our division superintendents (of which we have twelve), aided by my own observations, that persons addicted to the use of cigarettes, especially young men, are the most careless in their duties and less able to perform them than men using liquor in moderation. I may also mention that in seventeen years' experience as manager of public utility corporations I have had occasion to promote many of our men from the rank of conductors and motormen to officers, and in no case has a man using whiskey come up to the requirements.'

HARRIMAN METHODS

REPORT OF INTERSTATE COMMERCE COMMISSION RECEIVED BY PRESIDENT.

Oyster Bay, N.Y., July 9.—President Roosevelt to-day received from Special Counsel Kellogg, the report of the Interstate Commerce Commission setting forth facts and conclusions arrived at as a result of the investigation of E. H. Harriman's alleged manipulations of certain railway finances.

OBITUARY.

NOTED ORNITHOLOGIST. Washington, July 9.—Dr. William E. Legrange Balph, curator of the section of birds' eggs in the National Museum, died at the George Washington Hospital in this city yesterday. He was one of the greatest authorities on the habits of American birds. His body will be taken to Utica, N.Y., for burial.

CHARGED WITH INTIMIDATION.

Hamilton, Ont., July 9.—David Adams, a union carpenter, was arrested this morning on a charge of intimidation. Adams was one of the carpenters employed on the terminal station who went on strike a couple of weeks ago. The contractors complain that he has been interfering with non-union men employed to take the places of strikers.

SPORTING NEWS

TORONTO TOOK THE TRIP.

Royals Lost by 7-3, Making Clean Sweep of the Series by the Maple Leafs.

Toronto, July 9.—Toronto won the third and last game of the present series with Montreal here to-day, making the third straight victory. The score was 7-3 in favor of the home team, but the game was listless and dull. Disputes with the umpire landed a player on each team in trouble. Madigan, in the fourth, for disputing a decision of Sullivan's, was sent from the field and fined \$25, while in the next inning a similar fate befell Thoney, of Toronto.

LONGBOAT BELOW THE STANDARD

MEMBERSHIP IN TORONTO Y. M. C. A. SUSPENDED IN CONSEQUENCE.

Toronto, July 9.—The board of management of the West End Y.M.C.A. at their monthly meeting, discussed a recommendation that Tom Longboat, the Indian runner, be suspended from membership. It was thought by all present that such a course would be necessary as Longboat did not maintain the standard demanded by membership in the Y.M.C.A.

MANY EVENTS ARRANGED FOR NEXT YEAR'S MEET.

New York, July 9.—President James E. Sullivan, of the Amateur Athletic Union, and secretary of the American committee of the British Olympic games of 1908, yesterday received a communication from the British Olympic Games Committee, concerning the information of the American committee, the proposed programme that was sanctioned by the International Olympic Committee at their meeting held in the Hague in May, 1907.

BUFFALO WON FROM ROCHESTER.

Rochester, July 9.—Buffalo won another game from the Rochester nine here to-day. Buffalo scored three times in the first three innings of the game, and the home team evaded up in the fifth and sixth. The eighth, however, saw two more runs marked to the credit of the visitors. Hayden and Schirm being the principal factors in the scoring. Score: Buffalo . . . 10 2 0 0 0 2 0 1 10 1 Rochester . . . 0 0 0 1 0 0 0 3 6 3 Batteries—Tozer, Milligan and McCallister; Henley and Dossa. Umpires, McCarthy and Owens. Time, two hours. Attendance, 1,750.

NEWARK WON AT HOME.

Newark, July 9.—The Sailors won here to-day from Baltimore by four to one. McCarthy pitched for the winners, and held the opposing side down to two hits, while in the fifth inning he banded out a home run. Score: R. H. E. Baltimore . . . 0 0 1 0 0 0 0 0 2 1 Newark . . . 0 0 2 0 1 0 0 2 4 6 3 Batteries—McClosky and Hearne; McCarthy and Shea. Umpire, Cusack. Attendance, 1,250.

ONE-SIDED GAME AT PROVIDENCE.

Providence, July 9.—Jersey City gave the home team a bad trouncing this afternoon. A one-sided game ending with a score of 12-2 in favor of the former. Three pitchers were used by Providence, but their several efforts proved unavailing. Clement and Hauford were to the front with the batting, and their hits were responsible for the bulk of the runs. R. H. E. Providence . . . 0 0 0 2 0 0 0 2 8 4 Jersey City . . . 3 4 0 1 0 0 0 11 1 Batteries—Clinton, Leach, Stevens and Peterson; Franmiller and Vandergriff. Umpire, Conway. Attendance, 1,300.

SPECTATOR ARRESTED FOR REFUSING TO GIVE UP A BALL.

Boston, July 9.—A riot appeared imminent in the National League game to-day, when a spectator in one of the stands was arrested for refusing to give up a ball which he had thrown. The police were called to identify the culprit, who was hooted and jeered by a disorderly element, but was applauded by many in the crowd. The police prevented further unpleasantness. The arrest marks the first serious effort of the National League Club to stop the habit of balls by spectators.

ATHLETIC EVENTS ARE AS FOLLOWS:

100 metres; 200 metres; 400 metres; 800 metres; 1,500 metres; 110 metres hurdle; 400 metres hurdle; 3,000 metres steeplechase; 5-mile run; 10-mile run; Marathon race, 25 miles; standing broad jump; standing high jump; running broad jump; running high jump; hop, step and jump; pole vault; hammer shot; tug-of-war; 8-mile time race; 5,000 metres walk; discus, free style and Greek style; javelin. The maximum number of competitors from each country will be limited to twelve. Four tug-of-war teams can be entered and one team from each country in the three-mile relay race. There is an usual programme of swimming events, fencing, wrestling, archery, tennis, rowing, shooting, cycling and racquet competitions. Individual events will be held in gymnastics, the events being voluntary exercises; horizontal bar, swinging movements; horizontal bar, slow movements; parallel bars, slow and swinging movements; rings, steady; rings, flying; pommel horse; vaulting; rope climbing. Every competitor must take part in every item; twenty competitors to be allowed as the maximum from each country. Each will have an individual medal competition, in which the maximum number of competitors from each country will be limited to thirty, with four teams from each country as the maximum number of competitors in the team competition. Lacrosse will be conducted according to the American tournament system; each country limited to one team. Twelve competitors from each country may take part in speed skating at 500 metres; 1,500 metres; 5,000 metres, and in the mile and a half English course race. Only three competitors from each country will be allowed in the figure skating competition, the ladies' figure skating competition and the pair skating competition (lady and gentleman). All the yachting will be conducted under the rules of the Royal Yacht Club; the skipper may be amateur, though professional crews will be allowed for yachts over 8 metres. No races for yachts over 8 metres.

CANADIANS QUALIFIED

IN THE FIRST ROUND OF GOLF CHAMPIONSHIP AT CLEVELAND.

Cleveland, O., July 9.—But seven strokes separated the 15 score of the first three to finish to-day's qualification round in the golf tournament from the 22 of the thirty-second man. G. S. Lyon and F. R. Martin, two of the Canadian contestants, were inside the first thirty-two, with 21 each. Other Canadians who turned in pretty good scores were: A. E. Anstis, 40, 49; St. H. Bette, 41, 45. Walter Reed, of Exmore; Walter J. Travis, of Garden City, and Fred Hershoff, of Garden City, led the field of contestants at the end of the first day's play, each taking but 15 strokes for 18 holes. Close behind them were W. T. West, of Philadelphia; F. W. Whitcomb, of Brookline; Thomas M. Sherman, of Sadaquada, and Ned Sawyer, of Wheaton, with 16 each. Jerome D. Travers had 17. Ben Evans, the opening champion, furnished the biggest surprise of the day by taking 25 strokes for the 18 holes, and he will probably have to do better than 80 tomorrow to qualify. Eighteen holes were played to-day and the winners will be playing to-morrow, the thirty-two lowest scores to qualify for the elimination match-play that commences on Thursday.

LACROSSE UNION MEETS.

Clement Incident Discussed But Union Finds it Has no Powers in Matter of Reports.

An unprecedented occurrence in the receiving of a report from a referee concerning a lacrosse match played under the auspices of the National Lacrosse Union late last night, has caused a discussion of the constitution of that body to entail the consideration of the report. This curious fact came out last night at the meeting of the Union called to consider the report of Dr. Austin Irvine, the referee in the National Capital match a few days ago, on the National grounds, when Clement, a player of the home team, was penalized and received an additional penalty of ten minutes for calling the referee an opprobrious name. Representatives from all the clubs in the Union, with the exception of the Capitals, were present at the meeting. When the meeting had been called to order, President Carland read the report in question and commented thereon, saying that it was in the interest of clean lacrosse that the Union should consider the matter seriously; otherwise self-respecting men would never undertake to act as officials in N.L.U. games. A question was raised as to the rule of the constitution under which the report came, when the referee's serious discreditable report above. Some more or less desultory discussion brought out various suggestions of the remedying of the present state of affairs. One delegate stated that he had seen referees acting in games who did not know the rules, and expressed the opinion that it would have been better to have appointed four or five good men at the beginning of the season. Another suggested that referees should be given the same power as baseball umpires. The idea of imposing a fine on recalcitrant players was scouted, on the grounds that their clubs would pay the fines and the money would not come out of the pockets of the players. Curiously enough also it was found that the Union had not the power to suspend a player and could not do so until after the annual meeting when the necessary change or addition to the constitution can be made. A rule was discovered, however, which showed that any player discussing a decision with the referee unless requested (sic) to do so should be liable to a penalty not exceeding ten minutes. If a player 'talked back' to the referee the latter official had the power to give the offender a ten minute penalty for each and every offense, and by putting the man every time he opened his mouth to 'talk back' for ten minutes, he could be virtually kept out of the game altogether. Mr. Mercier, of the Nationals, suggested that paid referees should be appointed, and should be assigned to the respective matches by the president, but the idea was not altogether favorably received. Finally, Mr. Mercier gave notice of motion that at the annual meeting he would move that the president appoint as referees members from each club to act as referees; remuneration to be fixed by the next executive, and at the beginning of the season the president of the Union select the officials for the different matches to be played during the year. Discussion went on as to the case for which the meeting had originally been called, and it was stated by a National representative, that Clement would write a letter of apology to Dr. Irvine, and the latter had said that he would be satisfied to allow the incident to close there. On the motion of Mr. McLaughlin, of the Shamrocks, the president was requested to write to the different clubs, urging them to warn their players against the use of foul or abusive language. The president being asked for an interpretation of Rule IV, Section 7, gave the ruling that if a player is injured during a game, and is unable to continue, the fifteen minutes had expired in the second half, the captain of the injured player's team can put on a substitute or compel the opposing side to drop a man. The rule, as printed, reads as follows: 'Should any player be injured during a match and be unable to continue, the opposing team shall be compelled to drop a player until such time as the injured player is able to resume play, providing the time lost does not exceed fifteen minutes' actual playing time. The injured player being unable to continue the game after the allotted time it shall be optional during the first half of playing time, with captain of injured player's team, to substitute or compel opponents to drop a man; during second half of playing time, the captain shall be with the captain of opposing team, it being understood that the game is continuous, and shall not be stopped on account of accidents or disputes.' Those present, in addition to the president, Mr. Tom Carland, were Ald. O'Connell and Harry McLaughlin, Shamrocks; A. Raymond, J. Mercier and A. St. Pere, Nationals; Guy Pettigrew, Montreal; W. Piggibon, Cornwall; J. Murphy, Toronto, and J. K. Muir, Tecumseh.

WINNIPEG OARSMEN AT WHITE BEAR REGATTA

Winnipeg, July 9.—The executive of the Winnipeg Rowing Club has decided to send crews to all their entries as originally intended at the White Bear regatta, Minnesota. It was at first considered probable that owing to the expense charges on the boats and the action of the railways in not giving the crews in charge concessions as in other years that Winnipeg would be left unrepresented. This has been happily arranged. They leave to-morrow noon by the Northern Pacific, thirty oarsmen being in the party, which will include four of the Victoria crew, and fifteen members of the local club.

CHATEAUGUAY BOATING CLUB

A grand concert has been arranged for this evening in aid of the canoe fund. A particularly attractive programme will be given by those in charge. Among the many taking part are the M.A.A.A. Quartette, Mrs. I. Jackson, Mr. Percy Hill, the well-known baritone, Mr. B. McMahon, Mr. A. McAllister, and Messrs. Vivian Graham and Arthur King, elocutionists. The concert has been arranged, are padding hard, the two war canoe crews faithfully turning out to practice. Let all turn their eyes in their direction as there will undoubtedly be something doing when they get up against their rivals in the coming regatta.

SIX YOUNG MEN PERISH

Bangor, Me., July 9.—Six young men of a party of seven were drowned in Penobscot Bay late to-day by the capsizing of a sloop. The dead are—Harry Dugan, 18, of Bangor, sophomore in Bowdoin College; Amos Robinson, 17; Raymond Smith, 19; Roy Palmer, 19; Frederick Ringswall, 19, all of Bangor; Wm. D. Vague, 21, of South Brooksville. Six Bangor boys recently went to Hersey Retreat, at Sandy Point, to spend the summer. To-day they were invited by Vague to take a sail. The sloop was struck by a fierce and sudden squall, and was capsized. Laurent D. Hall, of Bangor, one of the party, was rescued by a tug. The others sank. None of the bodies have been recovered. The victims were members of prominent families.

HALLMAN ACQUITTED

WAS CHARGED WITH HAVING SENT AN INFERNAL MACHINE TO RIVAL IN LOVE. Schenectady N.Y., July 9.—A jury in the County Court this afternoon acquitted John Hallman, who was indicted for attempted murder and assault in the first degree. He was alleged to have sent an infernal machine to Daniel Miller, said to have been his rival in love. Miller was terribly injured by the explosion of the machine, and is totally blind.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

ANY EVEN NUMBERED section of Dominion Lands in Manitoba or the North-West Provinces, excepting 35 and 36, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less. Application for homestead entry or inspection must be made in person by the applicant at the office of the local Agent or Sub-Agent.

An application for entry or inspection made personally at any Sub-Agent's office may be wired to the local Agent by the Sub-Agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority, and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personal" entry will be summarily cancelled, and the applicant will forfeit all priority of claim.

An applicant for inspection must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing, and not liable to cancellation, may, subject to approval of Department, relinquish in favor of father, mother, son, daughter, brother or sister, if eligible, but to no one else, on filing declaration of abandonment.

Where an entry is summarily cancelled, or voluntarily abandoned subsequent to the date of cancellation proceedings, the applicant for inspection will be entitled to prior right of entry.

Applicants for inspection must state in what particular the homesteader is in default, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose any prior right of re-entry, should the land become vacant, or if entry has been granted it may be summarily cancelled.

DUTIES.—A settler is required to perform the conditions under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for such homestead, the requirements as to residence may be satisfied by said person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the local Agent, at the Dominion Lands Office, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS

COAL.—Coal may be leased for a period of twenty-one years at an annual rental of \$1 per acre. Not more than 1,500 acres shall be leased to one individual or company. A royalty of five cents per ton shall be collected on the merchantable coal mined.

QUARTZ.—A free miner's certificate is granted upon payment in advance of \$5 per annum for an individual, and from \$5 to \$100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 x 1,500 feet.

The fee for recording a claim is \$5.

At least \$100 must be expended on the claim each year, or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1 per acre.

The patent provides for the payment of a royalty of 2 1/2 percent on the sales.

Placer mining claims generally are 100 feet square; entry fee \$5, renewable yearly. A free miner may obtain two licenses to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental \$10 per annum for each mile of river leased. Royalty at the rate of 2 1/2 percent collected on the output after it exceeds \$10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

THE TRUE POSITION

TROUBLE BETWEEN JAPAN AND THE UNITED STATES AS VIEWED AT THE HAGUE.

London, July 10.—The Hague correspondent of the "Telegraph" sends more than a column of matter on the relations of Japan and the United States, as viewed by the delegates there. He begins by saying that it is not too much to assert that all the diplomatists at The Hague are more interested in the situation between the United States and Japan than in the conference, and he quotes the views of a friendly diplomatist who was commissioned to inquire into the subject. This diplomatist declared that the situation is really strained. The press is not well informed as to the actual state of affairs because the Japanese and American governments conceal the true position, which is unquestionably serious. Since June 20, Japan has sent extremely categorical notes to Washington, which have shown that the question is entering an acute phase. The dilemma is this: Either the central government, by persuasion or force, must oblige California to abolish whatever injures or humbles Japan or Japanese, or Japan will consider herself free to execute acts of force against California. This problem has grown more complicated since June 20. Japan believes that certain American preparedness shows that the conduct of the United States is open to suspicion, because while the American States state that this question cannot provoke a rupture the government is preparing warlike stores in factories and is mobilizing all its ships, even the most ancient and those on the most distant stations.

KNIGHTS TEMPLAR

LONGEST PARADE EVER HELD IN NEW YORK STATE.

Saratoga, N.Y., July 9.—With 50,000 spectators lining the streets along avenues brilliantly decorated, 15,000 Knights Templar paraded here to-day. It was the greatest event of the triennial convocation of the grand encampment Knights Templar, which is being held here this week. On the official reviewing stand with the Earl of Euston, of London, England, Grand Master George M. Moulton, of Chicago, and John B. Tressler, Grand Master of the Priory of Canada, was Governor Charles E. Hughes.

The parade was the longest Knights Templar pageant ever held in New York State. For three hours the Knights passed in procession before the reviewing stand. Two hundred carriages conveyed the members of the grand commanderies of forty-two states and territories. Three hundred horses were used by the aides. Fifty-seven bands, comprising 1,500 musicians, played unceasingly during the parade. To care for any who might fall out of line during the parading, many ambulances and dozens of automobiles, with first aid to the injured corps, accompanied the marchers.

During the parade the services of the hospital corps were required in but four cases, a record for a triennial convocation. Mrs. Anna M. Lincoln, of Boston, Mass., fell from the steps of one of the hotels and sprained her knee. Mrs. F. C. Atherton, of Rutland, Vt., suffered a stroke of apoplexy on the street during the parade, and was picked up unconscious. She is at a local private hospital. Eminent Commander Judson C. McKenzie, of Fall River, Mass., was thrown from his horse and sprained a knee.

The other accident occurred to a Sir Knight in the parade. E. S. St. John, who injured an eye during the formation.

After the parade the first session of the grand encampment was held in the Town Hall, at which Governor Hughes formally welcomed the sir knights to New York State.

Other speakers included former Senator Edgar T. Brackett, of this city;

Baltimore, Md., July 9.—A sentence of two years in the city jail and a fine of \$10,000 were to-day imposed upon John H. Seward, of the fruit importing firm of J. H. Seward, of this city. Seward pleaded guilty on June 15 to the charge of defrauding the government by increasing the weight of decayed fruit, in which there was a refund of duty of one cent a pound.

WEDNESDAY, JULY 10, 1907.

Nine aldermen yesterday balked the entrance into the city of the Southern Counties Railway.

The committee that dickers with the Gas Company proposes to make eighty-seven cents, the figure reached by Mr. Bemis, the starting price for gas, and proposes to allow the company six percent profit as a starting point.

The powers do not seem to be assured of a coming era of peace and universal international friendliness.

The first duty of a city government is to ensure cleanliness and decency in the public streets. When this duty is neglected in matters which are open to the observation of everybody, there is a moral certainty that in other affairs that are not exposed to public gaze conditions are still more reprehensible.

HAYWOOD TRIAL. Detective Charged With Attempting to Manufacture Evidence Against Haywood.

Boise, Idaho, July 9.—The defence in the Stuenberg murder case today charged that Detective James McPartland has been guilty of an attempt to manufacture testimony against William D. Haywood, but was unsuccessful in getting the basis and details of the charge before the court and jury.

Alva A. Swain, a newspaper correspondent, who represents the Pueblo 'Chieftain' at Denver, was called to the stand and questioned as to a conversation he had with Detective McPartland last fall. Senator Borah, for the state, objected to the conversation, on the ground that no foundation had been laid for it.

Clarence Darrow, for the defence, explained that the testimony was offered for the purpose of showing that there existed a conspiracy between the mine owners and the Pinkertons to secure a conviction and execution of the prisoner. McPartland approached this witness in an attempt to manufacture testimony, he declared, and I believe we have a right to show it.

Judge Wood said there was nothing in the evidence that furnished a proper foundation for the introduction of such testimony, and sustained the state's objection. The defence took an exception, and said they would later make another attempt to secure the admission of Swain's testimony. Counsel for the defence are evidently counting on reaching the matter through McPartland himself, but it is quite probable that the state will not call McPartland as a witness.

It is claimed by the defence that McPartland told Swain that he had a letter from Harry Orchard saying that when Haywood paid him for the Yindicator job he took him to one of the Denver banks to draw the money, and that when he believed Swain might remember seeing him, he says that when he went to see Swain the latter said he would not tell whether he remembered the incident or not, and asked for another interview. McPartland declares that he there dropped the matter, and did not again see Swain.

Allen T. Gill, formerly master mechanic of the Tiger and Poorman mine and later city engineer of Spokane, and his wife, Mrs. Gill, were also witnesses for the defence today. They testified that Harry Orchard attempted to sell them his interest in the Hercules mine in February and March, 1903, which was just prior to his departure from the Coeur d'Alene, and Mr. Gill, who saw Orchard in Spokane a month before he killed Stuenberg, testified that Orchard said that it was because of Stuenberg that he lost his interest in the Hercules.

Other than for the interest and for the relief afforded by the introduction of the three witnesses named, the entire day was given over to the reading of the rest of the San Francisco depositions. The man who built the Lindforth flats, the plumber who put in the heating system, the firemen who came after the explosion, and the contractors and the men who repaired the house, all deposed at great length. The weight of their tales seem to favor the gas explosion, but none of the testimony was conclusive, and the whole question will be fought before and decided by the jury. The last of the deponents heard Harry Orchard, and from him heard the story of the Hercules mine, with the usual threat that he was going to fix Stuenberg for driving him out of the country.

Charles H. Mover, president of the Western Federation of Miners, will be brought from the county jail to-morrow to give testimony in behalf of his co-defendant.

Detroit, July 9.—The biennial convention of the International Longshoremen, Marine and Transport Workers Association, which is in session in this city, today adopted resolutions of sympathy for Haywood, Moyer and Pettibone, voted \$200 toward their defence on the charge of murder, and denounced the attitude of the mine owners and officials toward the Western Federation of Miners.

COBALT STRIKE. Operators Seek Protection from the Government.

MR. LORING DECLARES MANY OF THE MEN WOULD GO BACK TO WORK IF THEY DARED.

Toronto, July 9.—One development of the strike situation at Cobalt was signified by the arrival in Toronto this morning of Mr. Frank Loring, said to be the accredited representative of the mine owners. It was freely stated today that the owners are seeking help from the Government. Mr. Loring spent part of the morning with Mr. Sidney Small, a Lethbridge director, and together, they visited the Parliament Buildings. Mr. Loring was seen this afternoon, and admitted that he had come here to see the Government, and that he interviewed the Attorney-General this morning. It was evident from his statement that the mine owners are going to attempt to work the mines, and that they wish the Government to provide protection for the men who go to work. 'So far,' said Mr. Loring, 'in all the mines but the Foster, the men have practically gone out in a body. It is a complete tie-up. But I am morally certain that many of our men would work if they dared. The Government is providing a special force of constabulary and we expect protection. Moreover, we are going to announce that we will employ all men who will work. We have made no arrangements yet for importing men, but we will employ all who come.'

NO LIQUOR FOR TOWN. Toronto, July 9.—The Provincial Government is taking steps to prevent trouble in Cobalt while the strike is on, through the sale of liquor. Upon representations made by the Mayor of Cobalt and the chairman of the Board of License Commissioners, the Government has urged that no express packages containing liquor be forwarded to Cobalt pending the settlement of the strike. The Government also has issued instructions to the license commissioners in the district to see to it that the hotels in Cobalt do not sell any packages of liquor, at the same time instructing them that if hotels should be found contributing to drunkenness their licenses will be suspended. It is reported that there are 2,500 men on strike.

INDIANS PERISH FROM STARVATION. Twenty-One Die in the Forest Surrounding Lake Mistassini. WERE ON THE WAY TO ROBERVAL, A DISTANCE OF 300 MILES. Quebec, July 9.—A despatch was received from Roberval, Lake St. John district, tonight, bringing the news of the death of 21 Indians from famine, in the woods surrounding Lake Mistassini. During Easter week 22 Indians left Mistassini on foot to go to Roberval, a distance of 300 miles. They expected to live on the way down upon the wild animals which they would kill, but, unfortunately, they encountered very little game and dropped one after the other. Only one succeeded in reaching Roberval, bringing the news of the deaths of his companions. News was received in town tonight that three bodies of Indians had been recovered near Mistassini.

OFFICER ASSAULTED. Major Thacker Brutally Beaten While Asleep in Camp. Halifax, N.S., July 9.—Major Thacker, commanding the Royal Canadian Artillery in camp at McNab's Island, was the victim of a mysterious and violent assault in the dead hours of last night. Someone, as yet unknown, crept under the canvas tent and struck the Major across the forehead with a tent pin as he lay asleep. The officer was rendered unconscious. He had a terrible gash from which the blood flowed profusely. It is not known how long Major Thacker remained in that condition, but it was three o'clock in the morning when he regained consciousness and called for help.

When his pitiable condition was seen, a general alarm was sounded, which brought every one in the camp on parade. So hastily did the soldiers respond that some of them came only half clothed. The roll was called and every man in the camp was found present. An order was given to search the woods. This was at once put into effect, but no one was at once put into effect, but no one was found, and though a diligent look-out has been kept up all day, no light has yet been thrown on the outrage. It is believed the assault was committed by

READABLE PARAGRAPHS. A HOPELESS CASE. This amusing story of a telephone misunderstanding was first published in the New York 'Telegraph': 'Are you there?' 'Yes.' 'Who are you, please?' 'Watt's my name.' 'Yes, what's your name?' 'I say my name is Watt. You're Jones?' 'No; I'm Knott.' 'Will you tell me your name?' 'Will Knott.' 'Why won't you?' 'I say my name is William Knott.' 'Oh, I beg your pardon!' 'Then you'll be in this afternoon if I come around, Watt?' 'Certainly, Knott.' Do you wonder they rang off in despair and disgust?

BY JES' LAUGHIN'. It's curious what a sight o' good a little thing will do: How ye kin stop the fiercest storm when it begins to brew. An' take the sting from what commenced ter rankle when 'twas spoke By keepin' still and treatin' it as if it wuz a joke: Ye'll find that ye kin fill a place with smiles instead o' tears, An' keep the sunshine gleamin' through the shadows of the years By jes' laughin'.

Folks sometimes fails ter note the possibilities that lie In the way your mouth is curvin' an' the twinkle in your eye; It ain't so much what's said that hurts ez what ye think lies hid, It ain't so much the doin' ez the way a thing is hid; An' many a home's kep' happy an' contented day by day, An' like ez not a kingdom hez been rescued from decay By jes' laughin'.

'Tommy,' said the hostess, 'you appear to be in deep thought.' 'Yes'm,' replied Tommy, 'ma told me somethin' to say if you should ask me to have some cake or anything, an' I've bin here so long now I forget what it was.' The teacher approached one little fellow who was present for the first time, and inquired his name for the purpose of placing it on the roll. 'Well,' said the youngster, 'they call me Jimmie for short, but my maiden name is James.'

STOCKS HEAVILY SOLD IN NEW YORK TO-DAY

LOCAL STOCKS HELD WELL IN THE CIRCUMSTANCES.

Exchange value of \$1 Sterling to-day is \$4.96.00 to \$4.95.00.

Noon advices stated that dealings in the first hour on Wall Street were in larger volume than for some time past, and from the opening weakness was apparent, with a noticeable pressure to sell stocks.

With the money situation as it exists, and gold shipments in active progress, another \$1,000,000 having been engaged to go to Paris by to-morrow's steamer, the prediction that the bulk of the new Union Pacific bonds will have to be taken by the undersubscribers, the government suit against the American Tobacco Company, and the steadily growing feeling of uneasiness over the Japanese situation, are the disturbing factors.

A well informed market advice says that the most serious of all is the condition of the ironer market, and unless the higher rate for call money, the latter having loaned at 7 1/2 percent this morning, serves to check gold shipments, and a further selling of stocks eases the growing stringency, the situation in this particular is likely to become critical.

The declines shown by the opening prices in New York were severe, and were aggravated by the weakness in London. Large blocks of some of the principal stocks were unloaded or running sales at widely varying prices. In St. Paul, 2,000 shares were sold at 134 1/2 and 133 1/2, compared with 135 1/2 last night; 8,500 shares of Union Pacific at 137 and 137 1/2, compared with 138 5/8 last night, and 5,400 shares of Amalgamated Copper at 90 and 89 1/2, compared with 91 last night.

Southern Railway dropped 2; Reading, Louisville, and Nashville and Brooklyn Transit 1 1/2; Anaconda, 1 1/4; Southern Pacific, and American Smelting, 1 1/8, and Great Northern preferred, Penna. and Sugar a point. Losses in the active stocks ran to a large fraction quite generally.

It was not to be expected that the local market could altogether withstand the sudden and heavy decline in the prices of New York stocks, and it is exceedingly satisfactory that the losses here were only on account of a very small volume of selling orders, and in many cases well restricted within the range of a point.

Canadian Pacific was about the greatest sufferer, owing to its close association with the big specialties of Wall Street, making almost a two-point decline on yesterday's quotations. Montreal Street also lost heavily, with very few sales, however. Fifty were exchanged at 237 1/2 from 210 yesterday. The Mackay stocks were not materially affected by the troubles of the company and its competitors.

Toronto Railway lost a small fraction on inconspicuous trading. Lake of the Woods touched a low mark at 72, for a broken lot of 20 shares. Power also sold down at 90, less than 100 shares being put out. Mexican was very weak at 43 1/2. This stock has been one of the best supported in the whole list during the past months of market depression, and the 150 shares that came out this morning at 43 1/2, was probably due, as in most of the present selling, to the individual and immediate requirements of the holders.

The total selling this morning did not aggregate over 700 shares, a striking tribute to the technical position of the market, and an encouraging one for the time, which will come soon or late, of improved market sentiment everywhere.

The London settlement began to-day, and quotations are now for the new account. Great Northern gross for June increased \$37,653. Gross for twelve months increased \$3,783,732.

Dominion Bank, on further investment buying, rallied further to 229. It is said that since the first of the year the bank has added 160 new shareholders to its list.

H. C. Frick says that business conditions are sound and more settled than a few months ago. Japan will not raise any public loan during the current fiscal year terminating March, 1908.

Copper stocks in London are demoralized with over a three-point decline in Rio Tinto.

Weakness in General Electric since announcement of its proposed financing plans has been marked, and a further break of 1/4 to 1 1/2 yesterday in Toronto again drew attention to the stock. At that point buying demand offered, and after a rally to 116 1/2 on sales of 7,357 shares, it was asked and 116 1/2 bid.

Dealings of Shawinigan Water & Power Company during May were \$47,830, as compared with \$29,388 for the corresponding month of 1906.

PREMIER MURRAY ON STEEL MATTER

Does Not See How By-Laws of Directors Can be Interfered With

A despatch from Halifax states that Mr. J. H. Plummer arrived from Montreal last night, and will leave for Sydney to-day. Premier Murray called on Mr. Plummer at the Halifax Hotel. The Premier stated that he had not received any petition asking for a rescinding of the order to postpone the annual meeting. He said that he could not see on what grounds any shareholder in the Steel Company could ask to interfere in the making of by-laws by the act of incorporation.

MORE VALUABLE STATISTICS OF CANADA'S TRADE

The Industries Classified According to the Value of their Output

SEVENTEEN WORKS PRODUCING \$2,500,000 NOW AGAINST ONLY SIX IN 1900

Ottawa, July 10.—The Bureau of Census and Statistics issued a bulletin this morning giving a further analysis of the growth of Canada's manufacturing establishments since 1901, and showing the comparative average production per establishment, in 1901 and 1906.

The various industries are divided into three groups, first those with products of between \$200,000 and \$500,000 per establishment; second, those with products of between \$500,000 and \$1,000,000 per establishment; and third, those running over one million dollars per establishment.

Compared with the census of 1901, which was for the calendar year 1900, there were in the first group 178 works producing each \$250,000 and over in 1906 as against 32 in 1901; in the second class there were 62 works producing \$500,000 and over in 1906 as against 24 in 1901; and in the third class there were four works in 1906 producing each \$500,000 and over, whereas not one factory had reached that amount in 1901.

ONE DAY'S RAIN

F.I.R. Gross for June 30, Decreased \$4,841

Earnings of the Montreal Street Railway Company for the week ending July 6, 1907, show an interruption in the increase of the traffic receipts for the bank holiday, Sunday, falling off \$4,841. This was due to heavy and persistent rains during the whole day:

Includes \$13,077.77 for extraordinary replacements in ties, bridges, etc. Gross earnings from July 1, 1907, were \$1,767,842.75; 1906, \$1,468,298.34; an increase of \$299,544.41.

THE TELEGRAPH TROUBLE

Clarence H. Mackay, president of the Postal Telegraph, when asked in regard to the proceeding which was instituted yesterday by the Attorney-General of State of New York against the Postal Telegraph and Western Union companies for causing a stoppage in the United States, telegraph and cable companies, said: "We are extending our system all the time and all the time are taking business away from the Western Union. All this talk about the two companies working in harmony is nonsense."

COTTON FIXTURES STEADY

New York, July 10.—Cotton futures opened barely steady. July, \$12.22; Aug., \$12.03; Sept., \$11.96; Oct., \$12.07; Dec., \$12.09; Jan., \$12.16; Feb., \$12.15 bid; March, \$12.25 bid; April, \$12.25 bid; May, \$12.30 bid.

TORONTO MARKET

Toronto, July 10.—The market is inactive, owing principally to the uncertain future, and the fluctuations in options. Buyers are taking only sufficient for their immediate requirements. Millers complain that the price of flour is not on a par with the price of wheat. Old stocks of flour will soon be exhausted, however, when flour prices will probably advance if wheat prices are maintained. Cash corn is a little higher. Deliveries are better. Goose and spring wheat, rye, barley and peas are very light. Receipts at Winnipeg are well maintained, being 358 cars yesterday, as against 75 cars on that day last year.

Prices are—Ontario wheat, No. 2 white, 85c to 90c; Manitoba wheat, No. 1 hard, 85c to 90c; No. 1 Northern, 87 1/2c to 88c; No. 2 Northern, 85 1/2c. Corn, firm: No. 2 yellow, 62c to 62 1/2c. Barley nominal: No. 2, 54c to 55c; No. 3 extra, 53c to 54c. Oats, Ontario, firm, No. 2 white, 44 1/2c to 45c outside. Manitoba, No. 2 white, 45c to 45 1/2c on track at elevators. Peas, nominally 78c to 78 1/2c. Rye, nominally 70c. Buckwheat, 60c. Flour, Ontario 90 percent patents, \$3.45 bid, \$3.50 asked. Manitoba first patents, \$4.75; seconds, \$4.30 to \$4.25; bakers, \$4.05 to \$4.10. Bran, \$17 to \$18 50, outside; shorts, about \$15 outside.

SASKATCHEWAN GOVERNMENT CROP BULLETIN

Programme covering Period from Sowing to Date is Satisfactory

factory

CROPS ARE A LITTLE LATE BUT QUICKLY MAKING UP LOST TIME

Regina, Sask., July 9.—The Department of Agriculture has issued the seasonal crop bulletin compiled from reports furnished by the staff of correspondents throughout the province. A summary covering the programme of crops from sowing time up to the present is appended.

Spring was very late in opening, owing to the late start of the season. Sowing commenced about April 23, became general by May 15, and was practically finished by the end of the month, the crops going in upon a perfect need-be.

Reports indicate that a greater area was sown to coarse grains owing to the lateness of the season. The warm weather and rains of June have brought an extraordinary growth, the different grains being remarkably even, and of a very green tint, which indicates healthy, strong and vigorous growth.

ALD. J. B. A. MARTIN CONFIDENT THE CITY COUNCIL'S SANCTION WILL BE GIVEN TO THE NEW ELECTRIC RAILWAY.

Alderman J. B. A. Martin is determined to spare no effort in order to pass the by-law to come before the City Council, next week, which proposes to admit the Montreal and Southern Counties Electric Railway into the city along Common and Grey N. streets, with a terminal near McGill street. He is busily making amendments of different clauses in order to minimize the opposition, and he feels confident that next Wednesday he will be able to obtain twenty-two votes at least, and that will give him the necessary majority of the whole council.

GUARDING THEIR MAJESTIES
MAN ARRESTED IN WALES WHO
WAS DOGGING THE KING'S
STEPS.

Holyhead, July 9.—Plain clothes officers, who are accompanying the King and Queen on their tour of Wales, took a suspicious acting individual into custody this afternoon. The man had hidden in the bushes alongside the approach to the residence of Sir Richard Bulkeley, just before the arrival of the King and Queen. As soon as he was discovered he made frantic efforts to escape, but was captured after a lively chase and lodged in jail. The identity of the man has not been divulged.

Those removing to the seaside or country during the summer months can have the 'Daily Witness' each day of publication at twenty-five cents per month in Canada. For the United States add twenty-five cents for postage. To include the 'Illustrated Witness' ten cents additional per month.

PUBLIC NOTICE is hereby given that under the Companies' Act, 1902, letters patent have been issued under the Seal of the Secretary of State of Canada, bearing date the 8th day of May, 1907, incorporating Thomas G. Harris, gentleman, William B. Powell, agent, William H. C. Mueser, manufacturer, Frederick D. Monk, advocate, Joseph W. Harris, contractor, all of the City of Montreal, in the Province of Quebec, for the following purposes, viz: To carry on business as engineers, machinists, electricians and contractors, shipowners and builders of ships and dredges, foundries in metals of all kinds to manufacture, trade and deal in goods, wares and merchandise on commission or otherwise, and particularly to manufacture, trade and deal in all kinds of machinery, machines and parts thereof, instruments, apparatus and utensils made in whole or in part of metal or other material. To buy, sell or make use of patents, inventions and trade marks and to manufacture, sell and deal in the wares made under the same. To make, acquire and take over contracts, to transfer or dispose of any contracts or undertakings in whole or in part. To generate steam, gas or electricity for lighting, heating or power purposes. To acquire shares and securities in other companies authorized to do any business which this company is authorized to carry on, subject to the provisions of Section 44 of the Companies' Act. To do all and everything necessary, suitable, convenient, or proper for the accomplishment of any of the purposes or attainments of any one or more of the objects herein enumerated or which shall or may hereinafter be added, and to do all and everything necessary, suitable, convenient, or proper for the protection of the Corporation.

To acquire and take over as a going concern from J. W. Harris all the patents issued by the Dominion of Canada for an Excavating Machine, known in the trade as 'The J. W. Harris Excavator,' which patents are now owned by J. W. Harris, and all patents which shall or may hereinafter be granted by the Dominion of Canada for improvements to said Excavator, also the machines now constructed and in course of construction as well as all contracts now running, and the goodwill of the business. The operations of the Company to be carried on throughout the Dominion of Canada and elsewhere, by the name of 'J. W. Harris Manufacturing Company, Limited,' with a total capital stock of one million dollars, divided into ten thousand shares of one hundred dollars, and the chief place of business of the said Company to be at the City of Montreal, in the Province of Quebec. Dated at the office of the Secretary of State of Canada, this 8th day of May, 1907. R. W. SCOTT, Secretary of State.

McGILL MATRICULATES.

All Records Broken in Number of Successful Candidates.

PRELIMINARY TESTS TAKEN BY 550 PUPILS AND PASS MARKS TAKEN BY 270.

The results of the matriculation examinations for McGill University were posted yesterday afternoon and show that upwards of 275 candidates have fulfilled all the requirements for matriculation into one or other of the faculties of McGill University.

While the percentage of failures usually runs from thirty to forty-five percent of the total number of candidates, the number of successful students in the final examinations this year is within sight of the total number, not to pass, but to write on the examinations in 1908.

In addition to the successful students this year, upwards of eighty have passed in all but one or two subjects, and will be permitted to complete their matriculation standing by passing in these subjects in the September supplemental examinations.

The examination in the preliminary division of the matriculation examination (which comprises English composition, dictation, English grammar, English history, geography and arithmetic), was taken this year by 550 candidates, of whom 200 passed; an increase of nearly 300 percent in the number of candidates in two years.

Of the 550 several also wrote in the subjects of the final division for full matriculation a number of whom were successful. The majority of those who failed did so in only one subject. The examination in this subject may be taken in September next, or, indeed, at any subsequent examination. Those who failed in more than one subject are obliged to take a supplemental examination in September. Otherwise, they will be required to take the whole division over again. The examination in September will be held only in Montreal and at the affiliated colleges of the university.

Examinations this year were held in over sixty centres, taking in almost every part of Canada. Just how widespread McGill's connections are now will be seen by a glance through the various lists. The two top students in the final division are pupils of Victoria College, B.C.; the third name is that of a pupil of Alexandra College, Dublin; fourth comes Bertram St. G. French, a pupil of St. John the Evangelist School, and the first Montrealer to appear in the list.

The following candidates have succeeded in passing the final division of the matriculation examination, and have thus qualified for matriculation as undergraduates in the University.

Another Photo Contest.

Last summer's competi-tions having proved so popular, the publishers have decided to continue them. This contest will close on Aug. 1st, and the prize will be a golden sovereign—\$4.86—which will be awarded for what the judges consider to be the most interesting photograph. Open to all, amateur or professional photographers. Negatives must be sharp and prints clear. They need not be mounted. All pictures submitted become the property of the publishers. Mark, Photo Con-est' and address, Editor, 'Illustrated Witness,' Montreal.

Those removing to the seaside or coun-try during the summer months can have the 'Daily Witness' each day of publica-tion at twenty-five cents per month in Canada. For the United States add twenty-five cents for postage. To in-clude the 'Illustrated Witness' ten cents additional per month.

THE 'WITNESS' DAILY MODEL

CHILD'S ONE-PIECE FROCK.—NO. 5661.

This little frock is charmingly simple and can be made with very little trouble, as the back and front is all in one piece; just a seam under the arm and a hem on the lower edge and the little garment is ready for the trim-ming. A feature that will make it a very popular mode for summer, is the laundering possibilities, as it can be laid out perfectly flat and iron as easily as a pocket handkerchief. White pique trimmed with insertion is shown in the illustration, but several materials are suggested, such as gingham, linen, serge, mohair, and any of the plaids. For a child of five years, 1 3/4 yard of 36-inch material will be required. Sizes for 3, 5, 7 and 9 years.
