S PROSPECTUS IGHLY INTERESTING

inion Securities Co. ells of Its First Deal in Canada.

LIST OF DIRECTORS

American Capitalists Interested Those Behind Webb Schemes in This Country.

Dominion Securities Company, the ial institution of New York which is ing the Webb enterprises in Canada, cause of considerable comment in y circles, and exception is taken to of the statements contained in the ectus. A gentleman, who returned New York to-day, says the stock sold 120 on the "curb" yesterday, and the stock the company was manipulat was entirely that of the Cape Breton y. Neither of the above securities isted on the New York Stock Ex e. The stock of the Dominion Securi Company only a short time ago was d at 50, and has gone up by leaps and s, especially after the House of Com threw out the Montreal Bridge Com bill. The following is the pros us which is signed by some of the hiest and best known men in finan and railroad circles of the adjoining blic:

OMINION SECURITIES COMPANY,

WAGE SCALE ON CERTAIN SECTIONS LEFT TO ARBITRATION

Mr. McNicoll's Statement as to New Schedule Desired by C. P. R. Trackmen.

Speaking of the new schedule which the Canadian Pacific trackmen are seeking, Mr. McNicoll, second vice-president and general manager, to-day said: "We have decided to leave to arbitration the wage scale in certain sections of the line, the arbitrators have not yet been decided upon. Mr. Gauntelet, acting chief engineer of the company, whose name has been mentioned as arbitrator for the company, said it was the first he had heard of the matter. The trackmen's committee expect to remain in the city until the 1st of May, before which they expect to obtain the increase of pay. Mr. McNicoll has promised as regards certain sections leaving the others in dispute to arbitration, Mr. Leonard, general superintendent, from Winnipeg, is in the city consulting with Mr. McNicoll in this connection.

Ald. Laporte Has Returned.

Ald. Laporte, chairman of the Finance committee, returned to the city to-day from Atlantic City, where he has been recuperating for the past three weeks. Ald. Laporte has benefited greatly by the outing. He was in Atlantic City at the time of the big fire; but was fortunate enough to be in one of the hotels out of the burned district.

Game Out of Season.

Harry E. Hall, inspector for the [illegible] Association, [illegible]

the province, has returned from Quebec, where he obtained a conviction against Mr. Aurile Resthier, the proprietor of the Victoria Hotel, in that city, for keeping game out of season.

THE KING OF FIRE ENGINES WHICH WILL BE PURCHASED

The Fire Committee Will Discuss the Question and a Hot Discussion is Expected.

At last two new fire engines, and other fire apparatus, are to be added to the equipment of the Fire Department. A meeting of the Fire Committee has been called for this afternoon, when tenders will be called for the new engines, etc.

It is known there will be a hot discussion as to what kind of engines the Fire Committee should purchase. Chief Benoit will strongly urge that the Lafrance engine be chosen. The city at the present time has one of these engines, and it is the contention of the chief that it has given satisfaction in every way. On the other hand, there are aldermen who will ask that other engines, besides the Lafrance, be given an opportunity of showing what they can do. The Lafrance engine was bought in the United States; and there are civic fathers who contend such machines should be bought from Canadian firms.

MANUFACTURE OF STEEL RAILS FOR THE CANADIAN PACIFIC.

Chief Consulting Engineer of the Road Now Making Investigations in England.

Mr. P. A. Petersen, chief consulting engineer of the Canadian Pacific, who is in Europe inspecting the manufacture of the 20,000 tons of steel rails ordered by the company, 10,000 to Krupp, of Essen, and 10,000 to the Bocham works, has left Germany for England, where he will consult English rail makers as to a special make of steel for the Canadian Pacific, and more especially discuss the proper chemical composition of steel rails, a question which at present is causing great difference of opinion amongst experts. Mr. Petersen is also looking into the question of creosoting wood to prevent decay.

BREAK IN LACHINE CANAL DISCOVERED IN GOOD TIME.

Serious Undermining in Vicinity of Ogilvie Royal Mill is Being Repaired.

A thorough examination of the Lachine canal, which has recently been made by Mr. Denis O'Brien, superintendent, has revealed a serious undermining of the canal in the vicinity of the Ogilvie Royal Mill. A gang of men is now working night and day repairing the broken section. It is thought that if the weak spot had been overlooked in the inspection, it would have meant a washout and a three weeks' delay to the forwarders.

CITY IS HAVING TROUBLE IN GETTING CARTERS

This Accounts for the Dirty Condition of the Streets, Says the Mayor.

"I am receiving many complaints about the condition of the streets," said the Mayor to-day, "but I cannot see how the Road Department can do any more than it is doing to clean them. If we spend a great deal of money now for street cleaning there will be nothing for cleaning in the summer time. Large gangs of men are now at work in the various streets. One difficulty in getting the dirt from the streets is the inability to get sufficient carters to carry it away.

MOVE ITS TRACKS TO THE CENTRE OF THE STREET

The Street Railway Will be Asked to Do So on St. Denis Street.

At the meeting of the Road Committee to-day, it will be urged that the Street Railway Company should place its tracks on St. Denis street, above the C. P. R. tracks, in the middle of the street. At the present time they are on both sides of the streets in close proximity to the sidewalks. It is complained this causes much inconvenience.

ASPHALTED STREETS TO BE REPAIRED

The Road Committee Will Commence Operations in a Few Days.

In the course of a few days the Road Department is to begin and thoroughly repair many of the asphalted streets in the city. A large amount has been voted for this work. The cash will be spent in equal proportions for east and west end.

Putting Seats in the Squares.

The employes of the Parks and Ferries' Committee of the City Council are placing the seats in the public squares of the city to-day. This is the earliest the seats have ever been so placed. The early spring has made such a condition of things possible.

Lacrosse Men are Safe.

TORONTO, April 10.—The Allan Liner Parisian with the Toronto Lacrosse Club's team on board arrived at Liverpool yesterday. Secretary J. M. McDonald who met the boys at the landing, wired past President A. F. Rutter as follows: Arrived with everybody well and everything satisfactory.

The Canadian Cricketers.

TORONTO, April 10.—It is announced that the Canadian cricket team will play in Philadelphia the coming summer as follows: June 30 and July 1, Germantown at Manheim; July 2, 3, Merion at Haverford; July 4, 5, Philadelphia at Wissahickon.

THE MAN FROM GLENGARRY.

Sweet as a Balsam.

The Interior.—"From first to last the book is as straight as a pine, as sweet as a balsam, and as sound as a white oak. The more we have of such books the better for our homes and our country. As Bret Harte loved to picture the miner of the Sierras, and Henry Van Dyke the French-Canadian "voyageur," so Ralph Connor paints the ranchman of Alberta, or the lumberman of the Ottawa."

Special Notice.

Lunch Down Town.

Spend your noon hour in The S. Carsley Company's new Dining-Rooms. You'll find it a very pleasant place. The bill-of-fare is excellent, the prices moderate, and the music enjoyable. The elevator will take you direct up to them. Special Afternoon Refreshments:

PEACE DELEGATES DRAW TOGETHER

The Boer Leaders Will Soon Be in Conference.

KNISLEY AND DAY'S FATE

Uncertainty as to How They Met Their Deaths—Premier Seddon and the Maories.

PRETORIA, Wednesday, April 9.—President Steyn, of the Orange Free State; Secretary of State Reitz, of the Transvaal; Acting President Schalkburger, of the Transvaal, and General Lucas Meyer, Commander-in-Chief of the Orange Free State forces, passed through Kroonstad, Orange Free States, on Sunday, April 6, on their way to Klerksdorp, Southwestern Transvaal, where General Botha, the Transvaal Commander-in-Chief, arrived on Monday, April 7. It was expected that Generals De Wet and Delarey would attend the conference to take place there.

It is understood that the Boer leaders are fully possessed of the British peace terms, and that the conference then assembling was to enable the leaders to discuss these terms thoroughly.

It is expected that the final decision of the burghers will be made known soon.

DELEGATES AT KLERKSDORP.

LONDON, April 10.—The London Times, in its second edition, to-day, publishes a despatch from Klerksdorp, dated Wednesday, April 9, announcing that Acting President Schalkburger and other members of the Boer Government, arrived there by train on April 6th, and that messages were sent out inviting President Steyn and General Delarey to come in and meet them. While awaiting a reply, General Schalkburger and his party were occupying a hotel which had been reserved for their use.

THE MAORIS' OFFER.

(Special to the Montreal Star.)

LONDON, April 10. — A despatch from Wellington, New Zealand, to the Times says: At a meeting at Christchurch, at which he received a testimonial in recognition of his services to the Empire, Premier Seddon strongly deprecated the refusal of the home authorities to accept the offer of the Maoris to serve in South Africa.

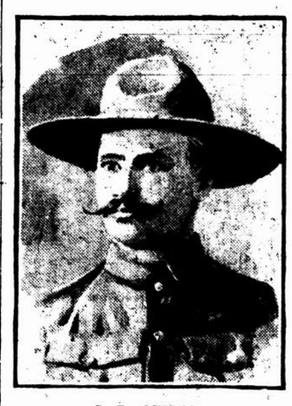

KNISLEY and DAY'S DEATH.

(Special to the Montreal Star.)

OTTAWA, April 10. — There is a certain amount of mystery about the death of Knisley and Day. The battle on Hart's River took place on March 31, whereas the two soldiers named are reported killed April 2; yet in the first despatch it was stated that "released men report Knisley and Day killed." A possible explanation is that these men fell wounded into the hands of the Boers and died of their wounds on April 2.

QUEBEC CRIMINAL COURT.

Bank Ville Marie Cases Were Not Called To-day.

(Special to the Montreal Star.)

QUEBEC, April 10. — Judge Bosse presides at the term of the Criminal Court which opened here to-day, and at which the calendar is quite light. The Banque Ville Marie cases were not called at all and are not likely to be this term.

Talmage Holding His Own.

WASHINGTON, April 10.—It was announced this morning that Rev. Dr. T. DeWitt Talmage, who is lying critically ill at his home here, had "held his own" during the night. There will be a consultation of physicians this afternoon, when a signed bulletin regarding Dr. Talmage's condition will be issued.

To Row the Argonauts.

TORONTO, April 10.—The Argonauts are glad to learn from Philadelphia despatches that Vespers, [illegible] of America, are likely to come to Toronto to row the prospective Henley eight late in May. The Vespers, however, have evidently misunderstood the offer of the Argo's. The $200 offered was for a trophy only, not on account of their expenses to Toronto. The Argonaut's Henley eight may not be definitely selected before May.

AMERICAN CONGRESS

Resolutions Relating to the New Orleans Mule Camp and Alaskan Boundary Adopted To-day.

(Special to the Montreal Star.)

WASHINGTON, April 10.—The House of Representatives, upon motion of Mr. Hitt, Chairman of the Foreign Relations Committee, to-day adopted a resolution calling upon the Secretary of State to furnish the House with all information in his possession concerning the alleged British military camp near New Orleans.

The House also adopted the following resolution: "Resolved that the Secretary of State be and he is hereby requested to inform the House of Representatives whether the State Department has receiver from official or other sources information as to the reliability of reports which have recently appeared in the public prints to the effect that in American territory, near the border of Alaska, British and Canadian officials, exercising authority by an agreement entered into by the Government of the United States and the British Government, are making surveys and encroachments upon territory not included in said agreement, and are removing and destroying ancient landmarks and monuments long ago erected by the Russians to mark the Alaskan boundary."

HEATH AND EDWARDS WERE LIBERATED A DAY TOO SOON

Now Discovered That These Men Arrested on Suspicion and Released Have Criminal Records.

How the ends of justice are sometimes defeated was illustrated to-day when Detective Lamouche laid before Judge Desnoyers the records of two of the men whom His Honour liberated yesterday. They were Heath and Edwards, who were arrested about a week ago at the corner of St. Catherine and Peel streets, along with a local man named Traynor. The arrest was made on the suspicion that they were pickpockets and a charge of vagrancy was laid against them. Outside of the suspicion there was no evidence against them and the judge allowed them to go, on the understanding that they would leave the city immediately, which Mr. Lamouche says they have done. Had they been held for another day they would undoubtedly have been incarcerated. The records of both men are bad and both have spent a portion of their lives behind the bars.

According to the documents which Detective Lamouche had in his possession to-day, both men have done penitentiary terms, besides having spent shorter ones in gaol and on other occasions skipped their bail.

Heath was first arrested at New London, Conn., in May 1896, under the name of Terrance Dwyer alias Teddy Kirshaw, on a charge of pocket picking, was found guilty and was sentenced to a term of sixty days. He was next arrested in October, 1897, for picking a gold watch and chain in New York City. He then gave his name as John Darrington. He was convicted and sent to Sing Sing for a term of three years and two months. He was again arrested in New York in April, 1901, under the name of George H. Howlan, for stealing a diamond scarf pin. He was admitted to bail but skipped.

Edwards was first arrested at Patterson, N.J., in June, 1896, as Joseph McCormick alias Twohey, alias Edwards, on a charge of picking pockets at reception of vice-president Garrett A. Hobart and was sent to gaol for thirty days. He was next nabbed in February, 1897, giving his name as James McCrae, for picking a gold watch in New York City and was sent to Sing Sing. In 1898 he was again arrested for a similar offence and was sent back to the penitentiary. His last arrest was in December, 1901, when he was accused of picking a diamond stud. This time he gave his name as Frank Williams. He was admitted to bail but failed to appear.

RESORT WAS FOUND TO BE MOST LUXURIOUSLY FITTED UP.

Certain Games Played at Commercial Club, However, Cost the Proprietor $50 To-day.

Chief of Detectives Carpenter and some of his men entered the Commercial Club, 118 St. Lawrence street, last night and arrested the manager, I. Solosberg, and eight men on a charge of gambling. The club rooms were found to be fitted up in the most luxurious manner, carpets, curtains, cushions, pictures and all the comforts of home, in addition to the little games that caused all the trouble. The party appeared before the magistrate to-day and Solosberg was fined $50, while the players got off with fines of $20 each. All the money was at once paid into court.

GOT FOUR YEARS FOR STEALING MONEY LETTERS

Arthur L. St. Onge, Letter Carrier, Received a Severe Sentence To-day.

Arthur Louis St. Onge, the letter carrier who was found guilty of stealing money letters, came up before Judge Desnoyers to-day for sentence. When asked if he had anything to say in his defence, he sullenly replied in the negative. His Honour gave him a very severe lecture and then sent him to the penitentiary for four years.

The Marked Cards Case.

The trial of Charles Benson, charged with cheating at cards, took place in the Court of Special Sessions to-day. The evidence was a repetition of that given at the enquete, when the plaintiff, a man named Daoust, swore that he lost over a hundred dollars and then found that marked cards were being used. The defence is that if marked cards were used they were introduced by some one other than Benson, and that he is quite innocent of any attempt to defraud. Mr. Arthur Ware, as card expert, declared that the cards produced were marked cards. Judge Desnoyers has taken the case en delibere until Saturday.

Mr. Walter in Montreal.

Mr. John Walter, of London, Eng., a son of the publisher and proprietor of the London Times, is registered at the Windsor Hotel. Mr. Walter landed at New York and came to this city via Niagara Falls and Ottawa. He will pay a visit to Quebec before leaving Canada.

The Bicycle Boom
IS ON AGAIN.
But it is not the same sort of "boom" that prevailed a few years ago.
It's an intelligent boom this time.
People are not buying blindly, avoiding bicycles simply because it is the fad or fashion to ride them, nor to see how far or how fast or how many miles they can ride.
They buy and ride because they now realize that the bicycle is a health-giver, a pleasure-promoter—because there is nothing else that affords such an invigorating, convenient, exhilarating, ever-ready and economical means of obtaining that out-door exercise and change of scene that counts for so much in the well being of mankind.
The people now indulge in bicycling because it is a tonic—because it enables them to think clearer, hit harder, sleep under and feel better generally.
The causes of the "new boom" ought to interest and awaken YOU and impel you to learn why so many of those who have renewed their cycling activity have purchased EAGLE bicycles. We are in position to both tell you and show you why they did so; and we'll be awfully glad to do it, too.

Freight Jumps the Track.

WAYLAND, Mass., April 10.—An eastbound freight train jumped the tracks here early to-day and ran into the freight house. The engineer and a trainman were killed and the fireman was injured.

Scene in Austrian Chamber.

VIENNA, April 10.—The pan-German parliamentary manners were again unpleasantly exhibited in the Reichsrath yesterday. The trouble arose over the education-

I could not rise to my feet without fainting.

"I had suffered for three years or more at monthly periods," writes Miss Ella Sapp, of Jamestown, Guilford Co., N. C. "It seemed as though I would die with pains in my back and stomach. I could not rise to my feet at all without fainting; had given up all hope of ever being cured, when one of my friends insisted upon my trying Dr. Pierce's Favorite Prescription. ...ith but little faith I ...t, and before I had ...half a bottle I felt ...ter, had better appe... ...and slept better. ...I have taken two ...es of 'Favorite Pre... ...ption' and one or ...olden Medical Discov...ery,' and am happy to say I am entirely cured, and all done in two months' time when all other medicines had failed to do any good at all."

...al question in Bohemia, over which the Czechs and Germans are at loggerheads. The ministers being absent, the president of the Chamber became the victim of the pan-German fury. Whistling and the slamming of desk lids drowned the sound of the president's bell when he attempted to restore order. Finally a dozen pan-Germans stormed the platform and coarsely abused the president. They seized the bell and hammered the table with it and threatened the president with fists and sticks. They also pelted him with wads of paper. The president left the House, thereby suspending the sitting.

PRINCIPAL GRANT AND THE CONTINGENT

He Mourns the Fact That We Do Not Pay the Men Sent to South Africa.

(Special to the Montreal Star.)

KINGSTON, Ont., April 10.—Queen's College medical convocation was held last evening, there being a large attendance. Sir Sandford Fleming, K. C. M. G., presided. Twenty-eight graduates were laureated, medals and prizes distributed and the winners of the three house surgeonships at the General Hospital announced. Chancellor Fleming, Principal Grant and Prof. McComb addressed the graduates. The Principal referred to the marked growth of the medical faculty, and intimated that new apparatus to cost, probably, $5000 or $6000 was needed.

He paid a high tribute to Lieut. Bruce Carruthers, and other Canadians, who had distinguished themselves at Hart's River. He said: "I mourn the fact that we, as Canadians send men to South Africa, but others pay them." He expressed the wish that Canada could have supported as well as raised the contingents sent out, and closed by saying they had need to be proud of what the men had done for the Empire.

Hardware Interests Have Combined With a Big Capitalization.

NEW YORK, April 10.—Authoritative announcement of consolidation of the great hardware jobbing interests of the country in a combination capitalized at $30,000,000, is made by the Iron Age to-day.

The Iron Age will say: "Several names have been suggested for the consolidation such as the International Hardware Company, National Hardware and Metal Company, International Hardware and Metal Company, and there is little doubt that one of these will be chosen. The organization is being technically completed there has been no formal choice of officers. It is purposed that the officials shall be as follows:

"E. Simmons, president; John Bindley, vice-president and W. D. Simmons, chairman of the executive committee. There will be a board of directors consisting of from 25 to 30 persons, representing the different states of the country. There will also be an executive committee of nine.

"The business of the company is attended to by Moore & Schley, of New York; and Geo. B. Hill & Co., of Pittsburg, Pa.

"It is intended to incorporate under the laws of New Jersey with a capital of $120,000,000; $40,000,000 preferred, and $80,000,000 common stock. The preferred will be a 6 per cent cumulative stock preferred both for liquidation and dividends. The general headquarters for buying and selling and transportation of goods will be in St. Louis.

NEW YORK POLICE SCANDAL.

Sensational Development in the McAuliffe Case.

NEW YORK, April 10.—Continued efforts to solve the mystery in the death of Jas. McAuliffe, chief witness against Warden Glennon (who was convicted and sent to Sing Sing for failure to suppress a disorderly house several months ago), resulted in a sensation last night at the West 47th St. police station.

McAuliffe was fought [illegible] ...weeks ago. It developed that he had spent the night in the West 47th St. Police Station, on a charge of drunkenness and had been discharged in court next morning. Two persons have been found who declared they saw a man, answering the description of McAuliffe, put into a cab at the police station. Others are said to declare they saw the same man thrown from a vehicle near where McAuliffe was found dead.

The officers attached to the W. 47th St. Police Station were paraded before two of these men at midnight last night. Both declared that Detective Sergeant James Kiernan was one of the two men they saw carrying a man from the door of the station house toward a cab standing at the curb.

THE DANISH WEST INDIES.

A Compromise Between the Two Danish Houses Likely.

(Special to the Montreal Star.)

COPENHAGEN, April 10.—The secret session of the Upper House yesterday resulted in three reports. The majority report, favoured by 35 members, defers the ratification of the treaty until a vote can be taken in the islands by those qualified on property suffrage. Eight independent members voted for ratification, with a popular vote in the Islands. Afterwards about twenty-one Government supporters voted for ratification outright. Following the example of the Lower House, these reports will be presented in open session. The two houses will be forced to effect some compromise. Probably the final result will be a ratification with a subsequent popular vote in the Islands. The resolution of the eight Independents is the natural compromise. The jubilation of the opponents of the treaty is not justified by the facts. A resolution to reject the treaty outright was defeated by a vote of 35 to 28.

The Brooks Murder Case.

(Special to the Montreal Star.)

NEW YORK, April 10. Statements which may prove to be a solution of the mystery surrounding the murder of Walter T. Brooks, were made yesterday by a witness who wishes for the present to keep his identity from the public. This man makes the statement that Brooks was killed by a young woman living in Newark. The greatest care has been taken by her family to prevent the facts from reaching outsiders for the reason that the young woman has solemnly taken an oath to kill herself the minute she learns the police officers are searching for her in connection with the Brooks' murder.

Chinese Rebels Defeated.

HONG KONG, April 10.—Advices received here from Lieu-Chow say that the imperial general Ma and Marshal Su have defeated the Kuang Si rebels in a sanguinary battle at Kong-Chuen. The Imperial Army was first driven back, when General Wong, with three quick-firing guns and two maxims, arrived on the scene and turned the tide. The rebels retreated to the mountain stronghold, whence they have been making occasional sorties. The rebellion inland is spreading.

Col. Lynch and His Tenants.

LONDON, April 10.—A telegram from Dublin to the Times, says Colonel Arthur Lynch, M. P., has made known his existence to Nationalists in Western Ireland, by suing some of his fishermen tenants for rent. The tenants had pleaded poverty, in ignorance as to who was their landlord.

The various labour organizations of Toronto are petitioning Parliament to discontinue the financial assistance to immigrants to this country. They claim it is a great injustice to them, as it leaves them open to unrestricted competition from the poorest labour markets.

LACROSSE

THE POINTS AND QUEBECS DOOMED

Will Not Be Admitted to the Senior Lacrosse League This Year.

TO HAVE A CHANCE NEXT YEAR

Montreal Will Support Proposal to Have Winners of Intermediate Series Get in in Future.

The Senior League will remain intact this season.

Although some of the Clubs would like to please the Point St. Charles Amateur Athletic Association, and encourage it by admitting their lacrosse team into the senior ranks, it is pretty much a foregone conclusion at the present that they will have to stay out for the present as well as their fellow applicants, the Quebec Club.

The plan to allow the winners of the Intermediate championship to change places with the club that holds the lowest place in the Senior Series, seems to be the one that will prevail.

The Point St. Charles people have worked hard, and amongst them Mr. Jenkins the indefatigable and popular secretary of the Association has done the lion share of the work.

He had actually secured the promise of the support of at least two Clubs, but even if all the three city clubs agreed to allow the Points to get in, the opposition of the outside clubs, would prevent such a consummation.

As matters stand, although all the clubs have the kindest of feelings for the Points, they will not find their way clear to do anything more at present, tending to the admission of other clubs to the Senior League, than support the proposal above referred to.

Had the Points been the only applicants something might have been done, but since Quebec has also made application, the question became a very difficult one to handle.

MONTREAL DELEGATES TO SENIOR LACROSSE LEAGUE FAVOUR FIELD CAPTAINS

Will Support Move That Winners of the Intermediate Series be Admitted in Future.

The delegates to the meeting of the Senior Lacrosse League to represent the Montreal Club will be Messrs. Bramley, president; Chitty and Carlind.

They will be left comparatively free to act as they please, but it is understood that after careful discussion of the situation they are prepared to support the plan to let the winners of the intermediate series in future get in the senior league, and to let the losing seniors drop out.

They are in favour of field captains, if proper and gentlemanly field captains can be secured. If not, they will vote for the abolishing of field captains.

The Quebec Delegates.

QUEBEC, April 10.—The Quebec Lacrosse Club's delegates, who are to present to the N. A. L. U. the local club's petition for admission, leave to-morrow night, are Messrs. W. McManamy and Allan Mead. The club's prospects of success are said to have materially improved during the last couple of days.

BASEBALL

EASTERN LEAGUE CHAMPIONSHIP.

The coupons upon which baseball enthusiasts are figuring out the standing of the Eastern League clubs after the opening game here has been played, are coming in fast. Many, among those merchants, lawyers and other professional men, are already sending in their combinations, showing the interest that is being taken in the coming season.

OUR BASEBALL STRUGGLE.

How the Eastern League Clubs Will Stand on May 15th.

Baseball Editor Star:

From data at hand, and from my knowledge of the game, I place the Eastern League Clubs as follows, for Thursday, May 15th, when the season opens in Montreal, after the opening game has been played.

....

....

....

....

Name..... .....

Address..... .....

Date..... .....No. 5.

The clubs composing the Eastern League this season are: Montreal, Toronto, Buffalo, Worcester, Newark, Jersey City, Providence, Rochester.

RULES GOVERNING COUPON.

Baseball enthusiasts may send in at one time as many coupons with as many different combinations as they like. The coupons will be filed away carefully each day, and on May 16th the name will be announced in the Star of the person who was clever enough to first figure out the standing of the Eastern League Clubs after the opening game in this city, which takes place on May 15th, and who therefore receives a season ticket.

TEAMS WILL SOON BE OUT.

"Infield" writes, that it is difficult to figure out the standing, without knowing the exact composition of the teams. This is true, and the official announcement of the teams cannot be delayed very long now. In the meantime, many, judging no doubt from last year's results, are piling up the coupons.

THE MASCOTTES' FRENCH-CANADIAN BASEBALL TEAM.

There Will be Only One English-Speaking Player on it This Season.

The Mascotte Baseball Club has completed its team for the coming season, and there will be only one English-speaking man on it. The team is as follows:

1st base, R. Poirier, Montreal.
2nd base, P. J. Laurin, Holyoke.
Short Stop, B. Miron, Montreal.
3rd base, F. Cardin, Guelph.
Left field, E. Payette, Montreal.
Centre, R. Laurin, Holyoke.
Right field, R. Boudreau, Montreal.
Pitchers, A. Legris, St. Louis, Mo.; Laperre, Fitchburg, Mass.
Catchers, A. [illegible]rt, Montreal, and Reid, of Waterloo.

PRESIDENT [illegible]Y ...NS PLAYERS.

To the Int[illegible] of American League ... Respect Their ... ts.

NEW YORK, Ap[illegible]—Another obstacle has been put in the way of the National League magnates' move to get back some of the stars that have deserted the National for berths in the American League.

President Tom Daly, of the Protective Association of Professional Baseball Players, has sent a secret notice to the American League players notifying them that it is to the interests of the players to respect their contracts with American League clubs.

Daly's notice has evidently had the effect intended. The magnates' raid on the American League has now been in working order for a week and none of the clubs has lost any of its players up to date. Those who have refused flattering offers outright

...ers a corner. Phil is just 21 years of age and athletic in his build. He inherits his expertness as a ball player from his father, and the once great shortstop takes a great deal of pride in the performances of his boy.

The pitcher who is called upon to face such an aggregation as Fultz, Hartsel, Flick, Lajoie, Davis, Lave Cross, Monte Cross, Powers, and Bernhard, of the Athletics, with Seybold for an emergency batter, will come pretty near having cold chills run up his spine, once he realizes that the team is onto his curves.—Philadelphia Record.

There will be seats for close to 13,500 spectators at the Philadelphia American League baseball grounds this season, or something like 5000 more than last year. The greatest increase will be in the left field bleachers, where an additional 4000 seats have been provided for. Looks like prosperity is abroad in the Quaker City, does it not?

Woodstock Times:—An attempt is being made to organize last year's Canadian Baseball League, and Woodstock has been approached on the matter. The peculiarity of it is that the local management has been approached by the very teams that gave us such a frost last season. Woodstock has seen about enough of "minor" leagues, and inefficient officers.

VETERANS IN THE FIELD OF CANADIAN SPORTS

LIEUT.-COL. GILMOUR.

Lieut.-Col. Arthur H. Gilmour is one of the best known sporting veterans in Canada. His well-known devotion to all branches of sport, his military career, and his particular interest in the breeding of fine horses, have all helped to make him so. As commander of the 60th Battalion (Missisquoi), as a first class cricketer and an indefatigable football player, he has made himself one of the most popular and respected men in his part of the country, and his farm is the envy of many. Fine horseflesh is his hobby. He has the distinction of being the owner of a private trotting track, called Gilmour Park, in Standbridge East, where he annually gives races open to all, and many horsemen from the United States avail themselves of these.

His finely equipped stock farm, the Manor Stock farm, is at Riceburg P.Q., and here he has forty head of high class and standard bred horses. Among these are thirteen standard bred and registered mares, including Helena Duplex, 2.08¼, in foal to Arlette.

He saw service during the Fenian Raid as an officer with the 52nd Battalion (Brome and Shefford.)

He spends the greater part of his winters in Montreal.

THE TURF

THE PHANTOM RACE TRACKS

A Difference of Opinion Regarding Delorimier Park.

UP-TO-DATE TRACK SOME DAY

But it Will Cost More Than Forty Thousand Dollars and Will be Nearer Than Bel-Air.

The announcement that a new one-mile race track is to be built is one of the rumours which go the rounds periodically. There is no doubt that some people have been thinking of such a thing, but between thinking of it and doing it is a great difference.

The present rumour, as far as can be ascertained, is the result of a little difference of opinion between certain parties interested in the Delorimier Park track.

The dissatisfied people have threatened to build another track, and that is all there is to it.

In the meantime it is almost certain that Montreal will some day or other have another race course besides Bel-Air, and one that will be much more convenient to the city. When this does happen, however, it will be a first-class, up-to-date racing park, and will cost a good deal more than forty thousand dollars, the sum reported to be expended on the track referred to in the rumour.

Racing at Bennings.

WASHINGTON, April 10.—At Benning's three favourites, two second choices and an outsider divided the purses. P. A. Daly's stable furnished three winners and a placed horse. Track heavy. Summary:

First race, 6½ furlongs, purse $400—Price, 98, Booker, 7 to 5, won; Alack, 94, Creamer, 7 to 1, second; Fansiluca, 98, Wonderly, 3 to 1, third. Time, 1.25. Goodfox, Imperialist, Glinki, Ben Chart, Princess Otillie also ran. Cormorant disqualified.

Second race, 2 miles, purse $400—Mystic Bell, 100, Wonderly, 3 to 1, won; Gloriosa, 100, J. Daly, 20 to 1, second; Geisha Girl, 100, T. Smith, 12 to 1, third. Time, .51 2-5. Tribesman, Squid All Souls and Enhance also ran.

Third race, steeplechase, about 2½ miles, purse $400—Dreameron, 104, Parsen, 3 to 5, won; Handvice, 138, Donahue, 8 to 5, second; Prank, 130, F. Helder, 5 to 1, third. Time, 5.58. Three starters.

Fourth race, 3½ furlongs, purse $400—Locket, 160, Miles, 7 to 5, won; Roue, 103, Booker, 8 to 5, second; Mayj, 94, Shea, 10 to 1, third. Time, 1.25 1-5. Woodchuck, Frivol and Eminence II. also ran.

Fifth race, 5 furlongs, purse $400—Trump, 95, Creamer, 8 to 1, won; All Saints, 111, T. Burns, 3 to 5, second; Justice, 102, Booker, 5 to 1, third. Time, 1.31 1-5. Ninonia and Curtsey also ran.

Sixth race, one mile 50 yards, purse $400—Himself, 112, Brennan, 10 to 1, won; Calgary, 87, Shea, 12 to 5, second; Ohnet, 100, Booker, 6 to 5, third. Time, 1.49 4-5. Three starters.

Hoofbeats.

Jockey Bullman, who is under engagement to August Belmont this season, has been given permission by his employer to accept outside mounts.

There is a combination among the jockeys at Charleston, and owners are constantly kicking about the poor rides they are getting on their horses.

Joe Ullman got $14,000 on the Montgomery Handicap in the future book, and on the opening day at Memphis dropped nearly the same amount on the block.

Leonora Loring is showing well in her workou's at Sheepshead Bay, and her trainer believes that the filly will be among the topnotchers again this season.

The starting has not come up to expectations at Bennings. The no-recall system has been anything but a success, as the send-offs have been on the ragged order.

The surprising fact of the present Bennings meeting is that very few 2-year-olds are ready to race. It does not look as if there were many good ones quartered there.

Jockey Meade, who was kicked by a horse at Little Rock the other day, is rounding to nicely, and will be able to accept mounts again by the first of next week.

At no period in the history of the turf were thoroughbred yearlings ever in greater demand than they are at the present time. A good colt or filly will bring an enormous price in these times.

A. J. Welch, of the Charter Oak Track, has arrived in New York with articles of agreement for the match race between E. E. Smith's Lord Derby and Thomas Lawson's Boraima, for a side stake of $20,000. The articles call for the race to take place on September 2, which is the second day of the Charter Oak meeting, the racers to receive 60 per cent. of the gross receipts. Both owners have accepted the Charter Oak offer, and already have posted forfeits to bind the match. The articles will be signed immediately.

The Metropolitan Jockey Club, which is completing a running race track at Jamaica, L.I., filed with the Secretary of State a certificate of an increase of its capital stock from $300,000 to $400,000. The names of the shareholders attached to the certificate and the number of $100 shares held by each are: Edward Burke, 1,345 shares; Adrian H. Jackson and John Bergen, 25 shares each; Milton C. Gray and Thomas L. Hamilton, 50 shares each; Eugene D. Wood, 245 shares; Senator Timothy D. Sullivan, 860 shares, and Nicholas J. Hussey, 5 shares.

ODDS AND ENDS.

The Mount Royal Football Club held its first annual meeting in Roy's Hall, cor. Mount Royal and Park aves., at which there was a large number of members and supporters present. It was unanimously agreed to apply for admission to the Intermediate League.

The University of California has cancelled its agreement for a dual track meet with the University of Pennsylvania, on May 10, and if another mutually satisfactory date cannot be agreed upon within the next week, there will be no meeting between the track teams of these two universities this year. In place of the dual games there may be a triangular meet between Princeton, Amherst and Pennsylvania, on Franklin Field, on May 10.

Bob Fitzsimmons refused positively to fight Jim Jeffries in Los Angeles, San Francisco or anywhere else in California. In consequence, the negotiations for the fight are virtually off because it is impossible to pull it off anywhere in the East or the South.

Jim Kennedy received a despatch from Alec Gregains, manager of the San Francisco A.C., announcing that his club had secured the May permit for a fight from the supervisors. Gregains authorized Kennedy to submit to Fitzsimmons the following offer, which has already been accepted by Billy Delaney on behalf of Jeffries:

The men to fight for 70 per cent. of the gross receipts, the club to deposit $5,000 as a guarantee to pull off the fight, and to put up a bond of $50,000 to secure the winner his share of the purse.

Kennedy at once submitted the San Francisco Club's offer to Fitzsimmons who refused absolutely to consider it. He said: "I will not fight Jeffries in California. I will fight in the East or anywhere."

Considerable interest was taken, at the annual meeting of the Royal Hamilton Yacht Club, in the election of the committee of management. When an attempt was made to oust some of the members of the old board and elect new men. This failed and the following were elected: Messrs. E. H. Ambrose, T. Hillhouse Brown, John G. Gould, John Lennox, Judge Monck, H. W. Zealand. The other officers were re-elected by acclamation as follows:

Commodore, R. Lucas; vice do., F. Mallock; rear commodore, J. H. Fearnside; hon. secretary, T. W. Lester; hon. measurer, W. M. Clendenning.

The membership of the club is 624. The receipts last year were $4,298.13, and the expenditure $3,876.86.

The Kingston Yacht Club, with a membership of 200, was organized for the present year. The officers are: Commodore, J. H. Macnee; vice-commodore, Sandford C. Calvin; rear commodore, R. Easton Burns; secretary, C. Kirkpatrick, treasurer, Frank Strange; measurer, Henry Cunningham; executive committee, Dr. Black, J. J. C. Almon, J. Conway, Ross Murphy, and A. C. Johnston; regatta committee, K. A. Cameron, Colonel Drury, J. A. Dalton, Frank Strange and H. Waddell; auditors, S. McBride and T. J. Rigney.

James Braid defeated J. H. Taylor, in a match game of golf over the eighteen-hole course of the Lelant Club, near St. Ives, Cornwall. Braid was in excellent form, his score being 33 out and 38 home, while Taylor, who was unlucky, had a score of 40 out and 39 home. It rained heavily most of the time the game was being played. Each of the day Braid played the best ball, Rumbold and Rawlins, and won by a score of 3 up and 2 to play. Rawlins is the champion American player.

A general meeting of the Emmet Lacrosse Club will be held on Friday evening, 11th, to make final arrangements for the entertainment on April 18, which promises to be a big success.

I MAKE MEN OF PIGMIES.

Made a Man of Him.

Dr. McLaughlin,

Dear Sir: It gives me great pleasure to certify to the excellence of your Belt after a three months' trial. It's worth a fortune to have health and strength and be a man. You are at liberty to refer anyone to me about the Belt. I will be only too pleased to help others to get the benefit that I have received. Yours gratefully, Jas. Alldis, 88 Bruce street, London, Ont., January 27, 1902

If there is a spark of manhood in the veins of a weak, puny man, I can fan into a flame and produce a physical giant.

This refers to men who ought to be strong and have lost their physical strength by overstepping the laws of nature.

Any man who has ever been strong can be again. Age is no barrier. I defy it in vitality, and I can give it to a man of 80 as well as one of 30.

The energy of your body is Electricity—that is what makes you go, just as the engine goes. When you run down I can renew your power and set your body working again.

Give me a man of 50, feeling old and worn out with pains in his back and joint. I can pump a stream of Electricity into his body for a few hours every night, and soon he will feel as strong and light-hearted as he did at 30.

M. Haig, 36 By Ward Market Square, Ottawa, on January 26th, writes: When I got your Belt I could not stoop to tie my shoes, and had to be helped to get my coat on. Now I have not a pain or an ache, and feel as well as ever I did. If I feel sore after heavy work I put the Belt on, and get up in the morning as limber as ever. I will be 80 years old in May next. Yesterday I lifted a barrel of butter (160 pounds) into the sleigh, and six months ago I would not think of doing it.

Give me a man (or woman, for that matter) who has been sick and suffering for years, and taken medicine until the system is all run down and debilitated, stomach unable to digest the food and the nerves shattered. My Electric Belt will give new life to every organ, drive out disease and restore health.

Mrs. M. Gaitshere, Merriton, Ont., writes: Dear Sir,—I am well pleased with your Electric Belt. I have not had an attack of inflammatory rheumatism this winter since using the Belt, and I was always accustomed to have them before ever since I was 13 years old. My husband also wore the Belt for weak back, which would trouble him whenever lifting heavily, and is now cured.

I sometimes wonder how people can be skeptical as to the power of my Belt to cure them, when they know that the foundation of their troubles is a want of sufficient vitality in some part of the body, and it will take a sensible man only a minute to see that the vitality of the body is electricity. So, get that back, and I give it, and you are cured. My patients are the people who have made a study of their own cases. When they do they appreciate my remedy.

Mrs. John Morrison, Kincardine, Ont., writes: Dear Sir,—I was a sufferer from rheumatism, and had constantly to use a cane to assist me. After using your Belt I have discarded the cane. I would not part with my Belt now for anything, and highly recommend it to all those suffering from rheumatism.

I could fill this paper with testimonials from honest people. If you will call or write I will give you names of people all about you whom I have cured.

My confidence in my method enables me to offer the Belt on trial, and any one who can offer me reasonable security can use my Belt at my risk and

PAY WHEN CURED.

I know no better way to prove my confidence in the wonderful curative power of my Belt than to cure you before I ask my pay. Can anything be fairer than that?

Caution — There are many old style Belts on the market to-day, which, while they burn and scar the flesh. These old style blistering scorchers are using a cheap imitation of my Cushion Electrode. My office contains hundreds of these old style Belts, discarded as useless, after the patient had only had them one week. I want every man and woman who are suffering from any pains or weakness to call at my office and TRY MY BELT FREE OF CHARGE.

Free Book — I have a book which will inspire a man or woman who wants health and strength. I will send it free, sealed, on request if you will enclose this ad.

I would like to have you call for free advice and consultation.

THE MINISTERS ON PEACE PROSPECTS

Mr. Long and Mr. Gerald Balfour Are Not Sanguine.

PREPARING FOR MORE DRIVES

Boers Organizing on Cromwellian Lines—The Trial of Kritzinger—A Rosebery Rumour.

LONDON, April 10.—Mr. Walter Long, president of the local Government Board, and Mr. Gerald Balfour, president of the Board of Trade, made speeches yesterday, in which they indicated that the Government does not anticipate that peace will be the outcome of the mission to the Boer leaders in the field or Acting President Schalkburger of the Transvaal.

Mr. Balfour, speaking at Leeds, said that no negotiations were proceeding with General Kitchener, who was merely facilitating a conference between the Boer leaders. Mr. Balfour added that he did not know whether the leaders intended to offer terms of surrender. For himself he was not sanguine in the matter, and he advised his hearers not to be sanguine. Great Britain was still prepared to go as far as was stated a year ago, but that was absolutely the last word. If the Boers adhered to their demand for independence, they might as well abandon the idea of negotiations.

It is stated by gossip in connection with the reported postponement of the presentation of the budget to the House of Commons that the indisposition of Sir Michael Hicks-Beach is diplomatic, and peace is impending, and that the consequent prospect of relief to the estimates has something to do with the postponement. Nothing to confirm these statements can be found. Sir Michael is certainly unwell. He is suffering from a chill of the liver, although his condition is not serious.

BOER IRONSIDES.

The pro-Boer Daily News scouting the peace rumours, discredits any idea of Government amnesty. It adds: "Nor is the situation in South Africa so bad for the Boers that they are moving towards unconditional surrender. Quite the reverse. There is little doubt that they control vast districts in Cape Colony. Their commandants issue orders to the farmers and receive supplies. They move about much as they please, and are scarcely disturbed by General French's operations. Moreover, there is reason to believe there has been a recent re-organization of the Boer forces on Cromwellian lines. Commandant Maritz has formed an Ironsides corps, from which all drunkards and loose livers are rigidly excluded. They hold daily prayer meetings and meet the hourly perils of war with the stern composure of the Puritans.

A HAGUE REPORT.

THE HAGUE, April 10.—A report is current in official circles that terms of peace in South Africa will be signed in a few days. It is impossible to verify the report on any definite authority.

FREE STATERS OBSTINATE.

LONDON, April 10.—It is understood that the peace negotiations are progressing satisfactorily so far as the Transvaalers are concerned, but the latest advices indicate that there is small probability of the Free Staters surrendering in a body. The negotiations, thus far, have been mainly explanations of British intentions. It has been made plain to the leaders that their surrender will not entail banishment, and this has a potent influence. The leading Transvaalers urge their allies to arrange peace terms. The inner circles of the War Office believe that if the present indications are fulfilled and the Transvaalers agree to surrender, the backbone of Boer resistance will be broken and that the Free Staters' opposition will soon be overcome.

STEYN'S OPTHALMIA.

PRETORIA, April 10.—Mr. Steyn, the ex-president of the Orange Free State, who is taking part in the peace negotiations in South Africa, is suffering from severe opthalmia, and is threatened with total blindness.

RUMOUR ABOUT ROSEBERY.

LONDON, April 10.—The Daily Chronicle publishes a rumour this morning that Lord Rosebery is going to South Africa to study the situation there with a view of submitting his impressions and advice to King Edward.

A SERIES OF DRIVES.

PRETORIA, April 10. The British authorities are making preparations for a great series of "drives" on the arrival of reinforcements. The general outlook for the Boers is said to be most disheartening. It is thought here that the bulk of the Boers are only awaiting a promise that they will not be banished to come in and surrender.

KRITZINGER'S TRIAL.

GRAFF REINET, Cape Colony, April 10.—The trial of Commandant Kritzinger, of Lo-Bosc army, by a British court martial, on the charge of having committed four murders, besides train wrecking and cruelty to prisoners, whose acquittal was announced from South Africa, March 8, lasted two days. No evidence was obtained to connect the prisoner with the shooting of natives, and one scout who had been captured by Krittzinger testified that he was well treated and that a pass was granted him. The charge of train wrecking was withdrawn, and he was acquitted without cross-examination by counsel for the defence.

PTE. MIEVILLE'S DEATH.

RAT PORTAGE, Ont., April 10—Through a letter to a friend here, Lieut. H. A. MacMachin, now in South Africa, conveys the sad news of the death of Frank Mieville, who left here last fall as a member of the same contingent. Although not mentioned in despatches, Mr. Mieville died some weeks ago from enteric fever. Deceased came to Rat Portage five or six years ago to engage in mining, and subsequently acted as manager of the Regina mine for a time. Mr. Mieville was a social favourite and his untimely death came as a great shock to his friends. He was English by birth, and about thirty-five years of age.

A SICK CANADIAN.

OTTAWA, April 10.—Lord Minto has received the following cable from the Casualty Department, Cape Town, April 8.—James Arthur Patterson, "C" Division, S. A. C., dangerously ill with enteric fever at Pretoria, April 8. His father resides at 318 Berkley street, Toronto.

Synods Settle Their Accounts.

(Special to the Montreal Star.)

KINGSTON, April 10. — The commissioners of the diocese of Ontario and Ottawa met on Tuesday afternoon and evening and effected a final division of the securities and settlement of the accounts between the two synods. The meeting was most satisfactory in all respects. The balance due to the diocese of Ottawa was $22,616.63, the cheque for which amount the Ottawa commissioners carried away with them. They expressed great satisfaction at the condition of the securities. The commissioners acting for the diocese of Ottawa were: Chancellor Lewis, Judge Senkler and the Rev. Ma. Hannington, clerical secretary. At the annual meeting of the Board of Trade, held last evening, the following officers were elected: President, John Gaskin; first vice-president, George N. Chown; second vice-president, R. J. Carson; secretary-treasurer, F. King.

Congregational Ministers Scarce.

(Special to the Montreal Star.)

WOODSTOCK, Ont., April 10. — Rev. Principal Munson Hill, of the Congregational College, made the interesting statement at the conference of Western Congregational Churches being held here that there are not nearly enough Congregational Ministers in Canada to supply all the churches. Even in Toronto there are not sufficient Congregational ministers. This is the case only with the Congregational Church for as regards other churches in Canada there are more ministers than pulpits.

Decorated by the Kaiser.

BERLIN, April 10. — The Emperor has conferred upon Rear Admiral Sir Edward H. Seymour, formerly naval commander of the first British expeditionary force in China, the Order of the Red Eagle, with sword of the first class, and upon Captain Jellicoe, of the British navy, the same order of the second class. The Emperor said that he was prompted to decorate these officers by reading the report of Capt. Von Usedom, the senior German naval officer present, on the operation for the relief of the Pekin legations.

Col. Gaynor Won't Go Back.

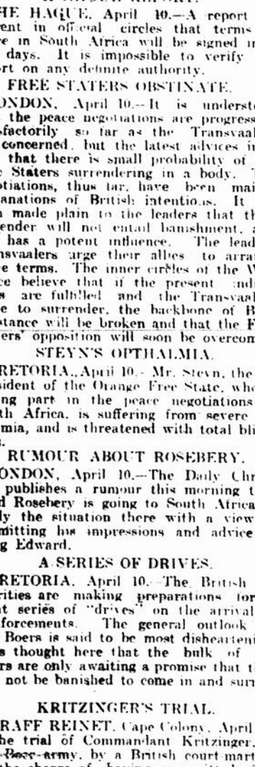

(Special to the Montreal Star.)

QUEBEC, April 10.—The persistent rumours in some of the American papers to the effect that Col. Gaynor and Captain Greene may consent to return to the States for trial without extradition are untrue. The two visitors who are at the Chateau Frontenac here have no intention of returning for trial, and will remain here to fight extradition proceedings.

Insurance Rates Not Changed.

TORONTO, April 10.—No changes in the fire rates were made in the quarterly meeting of the Canadian Fire Underwriters' Association held here last evening.

SEA AIR FOR NERVOUS AFFECTIONS.

When sea air is ordered to a nervous person, she usually rushes down to the seashore, spends all her time on the beach, frets more or less over the expense, and returns after two or three weeks to make up by extra work for the brief holiday. The result is an exaggeration of nervous troubles. The time given to the cure was too short.

ST. JAMES WAFERS are as good for the nerves as the sea breeze; but in case of nervous weakness, like the sea-breeze, they require time.

ST. JAMES WAFERS are a tissue builder and a reconstructive, not a stimulant. Quick temporary results are not to be expected; but permanent improvement will follow their patient use.

ST. JAMES WAFERS help stomach, digest food and send the nutriment through the blood, and this is the honest way to get health and strength, the kind that lasts, develops and breeds the energy which accomplishes much.

St. James Wafers have always sold on their merits alone, as we never have published testimonials.

If you cannot procure the Wafers from your dealer send $1.00 for one bottle, or $5.00 for six bottles, to the St. James Wafers Co. Montreal, Canada.

MRS. J. E. O'DONNELL

Was Sick Eight Years with Female Trouble and Finally Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I have never in my life given a testimonial before, but you have done so much for me that I feel called upon to give you this unsolicited acknowledgement of

MRS. JENNIE E. O'DONNELL, President of Oakland Woman's Riding Club.

the wonderful curative value of **Lydia E. Pinkham's Vegetable Compound.** For eight years I had female trouble, falling of the womb and other complications. During that time I was more or less of an invalid and not much good for anything, until one day I found a book in my hall telling of the cures you could perform. I became interested; I bought a bottle of **Lydia E. Pinkham's Vegetable Compound** and was helped; I continued its use and in seven months was cured, and since that time I have had perfect health. Thanks, dear Mrs. Pinkham again, for the health I now enjoy."—MRS. JENNIE O'DONNELL, 278 East 31st St., Chicago, Ill.—*$5000 forfeit if above testimonial is not genuine.*

Women suffering from any form of female ills can be cured by Lydia E. Pinkham's Vegetable Compound. That's sure.

Mrs. Pinkham advises sick women free. Address, Lynn, Mass.

LORD STRATHCONA.

Canadian High Commissioner Makes An Important Speech.

LONDON, April 10. — Speaking at Aberdeen yesterday, where he received the freedom of the city, Lord Strathcona referred to the importance of the development of the British colonies. He said that however much they might deplore the causes of the war, the fact that soldiers of the Mother Country and the colonies were fighting shoulder to shoulder was an object lesson the importance of which could not be overestimated.

In the ceremony at the County Hall, Lord Provost Fleming, in presenting him with the burgess ticket, referred to his splendid services and princely munificence in raising Strathcona's Horse for the South African war.

Lord Strathcona's speech was in reply to the remarks of the Lord Provost.

Coast Iron Founders' Combine.

(Special to the Moutreal Star.)

VANCOUVER, B.C., April 10. — At a meeting, held last night, it was decided to combine the ten iron manufactories on the coast of British Columbia. The capitalization will be over one million dollars. All will be under one management. The combine will do away with the ruinous competition that has been prevailing, and owing to ability of syndicated concerns to buy in large quantities in cheapest markets, prices will not be increased to the public. All the work contracted for in the province will be distributed between the different foundries.

Killed Himself in His Office.

NEW YORK, April 10—Oscar W. Schaeffer, secretary and treasurer of the W. H. Baker Chocolate & Cocoa Company, committed suicide yesterday at the office of the company on Wall street. He used a revolver.

Schaeffer was 28 years old and married. In the morning he had made an appointment with his wife to meet him at the office at the close of business hours. She reached the office a few minutes after the revolver shot was heard and the clerks had found Schaeffer sitting in his chair dying.

The Russian Fleets.

LONDON, April 10.—The mobilization of the Black Sea fleet of Russia, the Times correspondent at Odessa wires, has been fixed for the end of July, and the depots at Sebastopol are receiving unusually large consignments of naval stores.

The simultaneous mobilization of the Black Sea and Baltic fleets this summer, the correspondent continues, and the unprecedented military concentration, north of Odessa, is considered to be very significant.

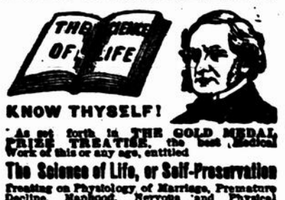

Dined An English Visitor.

OTTAWA, April 10.—Hon. Mr. Fielding, Minister of Finance, gave a dinner at the Rideau Club, in honour of Mr. John Walter, jr., of the London Times, the grandson of the founder of that paper. Among the guests were: Sir Wilfrid Laurier, Speaker Parent, Speaker Brodeur, Hon. Dr. Borden, Mr. R. L. Borden, Sir Richard Cartwright, Hon. Mr. Fisher, Hon. Wm. Mulock, Mayor Cook, Mr. Jas. Courtney, Mr. M. J. Griffin and Prof. Robertson.

Church and Politics in France.

PARIS, April 10. — The bishops of the Catholic Church have issued circulars throughout the French diocese, urging the priests not to interfere in the coming national elections. They quote the recent request of the Pope—after elections let it be impossible to class the priests either with the conquerors or with the conquered.

CHOSE A NEW BISHOP.

Archdeacon Lofthouse Has Been Made Bishop of Keewatin.

WINNIPEG, Man., April 10.—The Synod of Rupert's Land met here yesterday to elect a bishop for the new See of Keewatin. There were present the Archbishop of Rupert's Land, the Bishop of Saskatchewan and Calgary, the Bishop of Qu'Appelle, the Bishop of Athabaska and the following clerical and lay representatives of the Diocese of Keewatin: Archdeacon Blair, Rev. Mr. Page, of Rat Portage; Messrs. Peter and J. R. Bunn; also one clerical and one lay delegate from each of the dioceses in the province of Rupert's Land. Both the standing committee and the House of Bishops concurred in the recommendation of the Archbishop of Rupert's Land, that Ven. Archdeacon Joseph Lofthouse, of Fort York, in the Diocese of Moosonee, be elected to the newly created See, and the choice was therefore unanimous.

The new bishop is about 45 years of age, and his work in the past has been principally in the Hudson's Bay country. Bishop Lofthouse will have his headquarters at Rat Portage. The new bishop is a good preacher and a splendid platform speaker. He has been most successful in the pulpit work and was successful as a missionary in England in connection with the creation of a new See. He is popular among the Esquimaux, knowing their language thoroughly.

Half of the Canadian teachers for South Africa will sail from Halifax on Monday, and the other half on Friday, April 18.

THE ONTARIO MINISTERS.

Several of Them Spoke at the West Nipissing Nomination.

(Special to the Montreal Star.)

STURGEON FALLS, Ont., April 10.—The first Liberal convention in the new riding of West Nipissing was held in Sturgeon Falls on Wednesday afternoon, and was largely attended and enthusiastic. Five candidates were nominated, but all retired in favour of Joseph Michaud. The nominee is a successful business man, of long residence in Nipissing. Hon. Frank Latchford and Hon. Mr. Evanturel addressed the convention in the interest of the Ross Administration. Mr. Evanturel spoke at length in French, stating that he had been seven years out of politics, and both parties had claimed him, but he was pleased to announce that in this, his first public appearance of the campaign, he had returned to his first love, and was glad to point out the benefits of the Ross Administration.

Are Much Lower on the Canadian Side of the Boundary.

(Special to the Montreal Star.)

VICTORIA, B.C., April 10. — The White Pass Railway is about to issue a local freight tariff. The lowest rate will be $45 from Skagway to White Horse. The low rate demanded by the Dominion Government on Canadian territory is neutralized by raising the rate on the American side. Freight is carried 90 miles on the Canadian side for $14, and on the American side $31 is charged from Skagway to Summit, a distance of 21 miles.

position will really reduce the size of the Legislature on getting into power, it will deserve well of the taxpayers of our neighbouring province. The reduction proposed is from forty-five to thirty-eight members, which is a step—if not a very long one—in the right direction.

It may easily be, however, that this will not appeal to the tax-paying electorate as a reform of sufficient importance to dominate a provincial election. When only a small sum of money is proposed to be saved by some new policy of the party out of power, the people are very apt to forget it in the excitement of the campaign, and permit themselves to be swayed by some other more personal and pressing influence when it comes to the marking of the ballots. Like an advertisement, a reform must be striking to draw popular support.

Now, if the young men of the three Maritime Provinces were to go boldly in for the union of the three legislative and governmental establishments in one, they would present a proposal to the electorate that would bury out of sight all minor issues. There would be a large and a lasting economy to be had for the asking; an economy which would mean more money for the other services of the provinces. The people would feel personally richer for having carried such a reform; and this would be a feeling exceedingly hard for the advocates of folly and extravagance to overcome.

The mistake reformers make, as a rule, is the presentation of piecemeal measures. The people are not to be drawn away from their party goes and induced to surrender certain shadowy chances for personal profit if this or that party wins, by any petty reform or imperceptible shaving of economy. In every election, there are strong influences at work to lead the voter this way or that; and a reform, to succeed, must be at least equally striking and tangible. If the New Brunswick Opposition can not persuade the voters to let them take a shaving off the cost of their Legislature; they must not imagine that the people do not want to have this ridiculous extravagance curtailed; but they ought to draw the proper inference that they must be promised a greater reform before they will sink all other questions in its accomplishment.

COMMERCIAL FEDERATION.

We are favoured with a copy of a paper entitled "A Scheme of Commercial Federation for Great Britain and Her Colonies," which was read last December before the Liverpool and District Bankers' Institute. The author is Mr. Alfred Bigland, a Liverpool merchant, whose views on commercial questions command respect.

Starting with the axiom "that countries most favourable to a high tariff are those which possess within their own limits the greatest variety of climate, and such natural resources, that, were they entirely prohibited from trading with the rest of the world, could best support their own population," Mr. Bigland shows that from this point of view the United States occupies the best position, and England the worst. Having, however, admitted that the present commercial condition of England is such that "the pressing necessity of some action is at our doors, and will become more acute before another ten years are passed; and having also admitted that an all round protective tariff in England is impossible on account of the limited variety of its climate and resources, he finds a way of escape from an awkward position in a scheme of Colonial Federation on commercial lines. "What possibilities," he exclaims, "there are in the climates and resources of Canada, India, Australia, South Africa, Egypt, Jamaica, and those numerous small dependencies which acknowledge our rule!" He admits that at first there would be some loss to the people of the Mother Country, who thinks the ultimate object to be gained worthy of some sacrifices. Mr. Bigland claims that such a federation, embracing one-third of the world's inhabitants, would naturally attract to itself small and independent States, and he would admit into the commercial federation every nation that would open its commerce to us on the same lines that governed the Union.

Of course, no attempt would be made at coercing the self-governing colonies, and their right to maintain a certain tariff against the United Kingdom would be recognized, but they would be urged to agree to discriminate to the extent of fifty per cent. in their tariffs in favour of imports from any part of the federation. In return, it is suggested that Great Britain should levy upon every article of which her colonies supply one-fourth of her total imports during the last three years, a duty of 2 1-2 per cent. on all countries outside the Union. When the colonial imports amount to one-half of the whole imports, the duty to be increased to five per cent., and when the colonial imports reach seventy-five per cent., the duty to be ten per cent. against outsiders. It is also suggested that the British Government consider the question of discriminating substantially in favour of the colonies in its duties on tobacco, wine, spirits, tea, coffee, sugar, etc., and that in the event of a duty being levied on any article now on the free list, the colonies get a preference of not less than twenty per cent.

Mr. Bigland looks upon this scheme not as a narrow attempt to impede trade, but as an attempt to form the basis of a world-wide reciprocity with the ultimate hope of universal free trade. It is significant that the writer of this paper advocates this scheme not in a spirit of Imperialism, but because he is evidently convinced that in order to maintain England's commercial supremacy its trade policy has got to be altered to suit altered conditions.

The principal and immediate objection to the scheme from a Canadian point of view is that many of our chief articles of export, and of which the country is capable of growing practically unlimited quantities, do not at present come within the list of British imports, of which the colonies supply even one-fourth. For instance, wheat, butter, oxen, cows, fresh beef, bacon and wood pulp. A duty of two and a half per cent. levied on all wheat except that imported from the colonies, would in a very short time enable the colonies to supply much more than the twenty-five per cent. and would be worth much to Canada.

In Atlanta they have a Carnegie gift library, but do not intend to permit the coloured people to use it. Perhaps they might get another library for them with coloured picture books.

Ex-President Kruger seems to have picked up the idea that Britain can be induced to give the Boers independence if it be permitted to go off with the gold mines of the Rand. The old gentleman must have been reading some of the articles supplied the European press by the Boers' own highly imaginative news agency. They are the inventors of the fable that the British went to war for the gold mines; and they now seem to have told it so often that they have begun to believe it themselves.

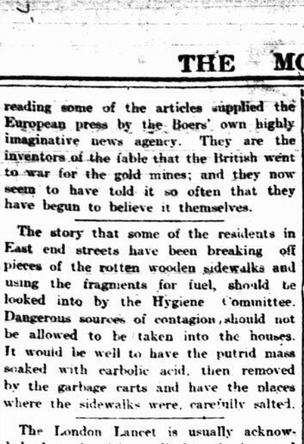

The story that some of the residents in East end streets have been breaking off pieces of the rotten wooden sidewalks and using the fragments for fuel, should be looked into by the Hygiene Committee. Dangerous sources of contagion should not be allowed to be taken into the houses. It would be well to have the putrid mass soaked with carbolic acid, then removed by the garbage carts and have the places where the sidewalks were, carefully salted.

The London Lancet is usually acknowledged to be fair medical authority, and it now comes forward with the statement that cigarette smoking in moderation is the mildest and least injurious form of tobacco using. The objection some people have to the cigarette is similar to that of the rugged plainsman who objected to city whiskey and demanded that turpentine and red pepper be added to it so that he could "taste the cussed thing."

It seems strange, but it is said to be the fact, that the visit President Roosevelt is now making to the South Carolinian exhibition is the first any Republican President has made to the Southern States since the first gun was fired at Fort Sumter. A people who have been forty years within a few hundred miles of their chief magistrate without ever seeing him may be excused for being a little enthusiastic on his first visit.

Complaint is made that many of the spots in the wooden sidewalks which had been mended with mud from the gutters have been washed out by the recent showers. Well, the City Hall told us a few days ago that we were not taking the rigours of our climate into consideration when we were complaining of the condition of our streets.

PROMINENT RAILWAY MEN.

MR. JOHN BELL, K.C.

Mr. John Bell, K.C., the veteran solicitor-in-chief of the Grand Trunk Railway System, has acted in this capacity since 1852. He is an Irishman, having been born in County Tyrone, Ireland, and came to this country at an early age. He has been identified with every important legislation in which the Grand Trunk has been interested during the last half of a century, and is looked upon, by his confreres of the bar as being one of the ablest exponents of railway law in the Dominion. In addition to acting as chief legal adviser to the Grand Trunk in Canada, Mr. Bell is vice-president of the St. Clair Tunnel Company, a director of the International Bridge Company, as well as being on the board of directors of other large corporations closely connected with the road. Mr. Bell resides at Belleville, and is a brother of the late Mr. Robert Bell, one of the earliest railway pioneers in Canada, who was manager of the old Prescott and Byton (Ottawa) Railway.

It's an easy matter to please a woman. All you have to do is to say to her only the things she likes to hear.

A good story is told in a musical paper of the principal of a well known colonial academy of music. He was much pestered with letters from young composers asking his advice. On one occasion he received a letter from a country organist asking in which of his keys he should write a certain musical passage. The professor, being a blunt man, wrote back on a postcard: "It doesn't matter a ——." His offended correspondent sent the postcard to the Academy Board, who sat in solemn conclave on it, and wrote to the principal for an explanation. He answered thus: "Dear Sirs,—I beg to acknowledge the receipt of your letter. I have considered the matter in all its bearings, and it really doesn't matter a ——. Yours, etc."—London Globe.

Senator Depew tells an oleomargarine story. "A friend of mine went into a high-class restaurant and discovered oleomargarine upon the table. 'Come here,' he said to the waiter. 'How do you pronounce o-l-e-o-m-a-r-g-a-r-i-n-e?' And the intelligent servitor at once responded: 'I pronounce it butter, sir, or else I lose my job.'"

PING-PONG HITS DARKTOWN.

Trousers seldom lose their shape from carrying too much money.

Modern folk lore is just plain scandal.

A fool and his mother-in-law are not soon parted.

In a rural town near Elgin the postman carries passengers in the mail-gig to and from the nearest town. An English tourist, who had booked his passage one morning, got irritated at the slow rate of speed, and sharply inquired of the man of letters if that was the only pace his horse could go at. "Na, na," replied the driver, pawkily, "he can gang slower than that."

The Rev. Dr. Mackenzie, who is coming to New York from San Francisco, has always been popular with children. One story goes that he was calling on a new parishioner who had a "limb" of a boy. She had invited the doctor to dinner. "Willie," she said to her hopeful, "pass Dr. Mackenzie a potato." Willie seized the potato between thumb and finger, and before his mother could utter a horrified remonstrance, he had tossed it across the table and squarely into the good man's lap. "Judgment!" cried Willie. "One strike," quoted the quick-witted clergyman. "Willie, leave the table," stormed his mother. "Madam," said the minister, "do not judge him harshly. See how beautifully he put the sphere over the plate." And from that time there wasn't a more earnest worker in all the big Sunday-School than that same Willie.—Philadelphia Times.

MEETINGS AND SOCIETIES.

In the Labour World.

OPPOSE INCORPORATION. — The Independent Tailors' Union went on record last night as being opposed to trade union incorporation. In speaking to the motion, the secretary, Mr. H. Rappaport, said:—"The fact that incorporation would give labour organizations standing and recognition in the courts is the principal argument in its favour, and what is there in that for labour? Labour organizations have no trouble in getting into court when a corporation demands it; its officers are recognized, and even sentenced to gaol for contempt when corporations considered it necessary; injunctions are issued against labour organizations, including the officers and members, and thus far, to all intents and purposes, the organizations might as well be incorporated as otherwise, as far as these questions are concerned. We are recognized by the courts and held under the law to the strictest interpretation of its judges; that we receive very few favours is undeniable. From experiences of the past with the courts, incorporation is not advisable for labour organizations."

THE PLASTERERS.—The plasterers held a mass meeting last night in Blue Label Hall, and discussed the new wage scale for several hours. The men have demanded a nine-hour work day and 28 cents an hour. Ten or twelve of the contractors have signed, and others have held off, and the first of the many strikes that are expected in the local building trades this spring may occur any day. Should a strike be ordered only about half the men would be involved.

THE BOTTLE BLOWERS.—The new executive of the Glass Bottle Blowers' Association consists of William M. Dougherty, Milville, N.J., chairman; William Sinclair, Upper Alton, Ill.; Edgar A. Agard, Fairbury, Ill.; Bernard Bolger, Newark, O.; James J. Dunn, Brooklyn, N.Y.; Bernard Bell, Massillon, O., and Charles McNichol, Toronto, Ont. D. A. Hayes is president of the association; William Lanner, secretary, and Conrad Auth, of Pittsburg, treasurer.

THE PLUMBERS.—In accordance with the notice given, the journeymen plumbers, members of the local union, are arranging all details in regard to enforcing their demand. Up to this time thirty-five signatures have been secured. The men ask for an increase of wages and a reduction of hours in the length of their work day. The situation is becoming serious, and it is just possible that all the small shops in the city will be tied up.

THE MACHINISTS.—The Mount Royal Lodge, International Association of Machinists, held a large meeting last night at 590 Wellington street, Point St. Charles, and initiated many new members. Mr. A. W. Holmes, of Toronto, addressed the gathering.

THE STREET RAILWAY EMPLOYES—Mr. George P. Dowling, of Philadelphia, organizer of the Amalgamated Association of Street Railway Employes, is expected in Montreal on a business trip in a few days.

THE TRADES COUNCIL.—At the meeting of the organization committee of the Federated Trades and Labour Council several new unions were reported as being in an advanced stage of organization.

THE CHARITY ORGANIZATION.—A private meeting of those interested in the Murray Bay Summer Home was held yesterday afternoon at the offices of the Charity Organization Society, Bleury street. The question of removing it to some other less frequented spot was considered, and it was decided to take legal advice as to the possibility of the step without an act of Parliament or an order-in-Council. The difficulty that the home is an incorporated institution, and its property at Murray Bay is held in trust for it.

THE POULTRY ASSOCIATION.—At the meeting of the Montreal Poultry Association, held at 220 St. Catherine street, the report of the committee regarding certain financial matters was approved, and 37 ordinary and four life members were elected. A financial statement presented by the secretary showed that the association's liabilities had been reduced about 50 per cent. since the annual meeting, March 5. Several special committees were appointed.

CHINESE OUTBREAK.

Owing to Charges of Cruelty Against Missionaries.

LONDON, April 10. — A despatch to a news agency from Shanghai, published here to-day, says that allegations of cruelty against Catholic missionaries have caused an anti-foreign outbreak at Ning-Po, a city in the province of Che-Kiang, and one of the ports open to a foreign trade on the Ning-Po river, where a statement was circulated that some of the missionaries gouged out a boy's eyes. Two British and two German warships have been despatched to Ning-Po.

HOBRIBLE PAINS

French Gentleman's Sufferings Are Beyond Description.

Many Doctors Treated Him, But Without Success—Dodd's Kidney Pills Cured Him and Now Life is a Pleasure to Him—He Tells the Story.

ST. URBAIN, Que., April 9.—(Special)—Fearful indeed has been the experience of Narcisse Barette, of this place. For fifteen long and wearisome years he has suffered with an acute Malady of the Kidneys and back which has caused him the most agonizing pains.

He consulted physician after physician and followed their treatment patiently and carefully. Some of them afforded him a little temporary relief (which was in itself a great blessing), but the pain always came back to torture him even worse than before.

Rheumatism added its terrors to his already great burden of misery and his life was a succession of spasms of the most violent pains it has ever been the lot of any mortal man to endure.

The story as told by Mons. Barrette himself is in part as follows:

"For more than fifteen years I suffered with a severe Malady of the back and Kidneys which caused me horrible pains in the back.

"I tried many doctors, but the relief I got was only temporary and the Malady always returned. My suffering was so great at times that it was almost beyond endurance.

"I had Rheumatism as well as the pains in my back, and between them I was sorely tried. I would rather die than suffer again the way I did, but now life is very pleasant for me and I am anxious to live.

"You ask me how I was cured?

"Well, after trying in vain doctors' treatments and almost everything else, I began to use what has been to me the greatest medicine in all the world, Dodd's Kidney Pills, and very soon the pains all left me. They acted almost like magic. I am now in perfect health and work every day."

NOT JUST AS GOOD

Did you ever inquire at a store for certain articles and get for a reply "We have something just as good"? Did it ever occur to you that "Something just as good" is something the dealer has been able to buy much cheaper than the articles you inquire for? This is true in drugs, fabrics, groceries, hardware, and in fact every line, including silver-plated ware. If you inquire for 1847 Rogers Bros.' Knives, Forks or Spoons, don't accept any bogus Rogers' stamp because your dealer tells you it's just as good.

1847 ROGERS BROS. TRADE MARK

The above trade mark has been stamped on every article of the original and genuine Rogers Bros.' goods for over 50 years. Get this and you get the best that is made.

SUBURBAN NOTES.

The monthly meeting of the Westmount Town Council, adjourned on Monday last out of respect for the the late Councillor Thomas C. Bulmer, will be held to-morrow evening.

Mr. George L. Brown, who has been attending the Wellington Medical Hall for the past three years, leaves on Sunday evening for London, Ont., where he goes into business for himself.

Rev. E. A. McKenzie, of the St. Matthew's Presbyterian Church, Point St. Charles, will deliver a lecture this evening at the Taylor Presbyterian Church on the life of John G. Paton.

The Montreal Street Railway has a large gang of workmen engaged in relaying the double tracks on Park avenue through the Annex in preparation for the establishment of the through service with the Park Avenue and river front cars. These cars will proceed up Park avenue, across Van Horne avenue to the Mile End station, where a circuit will be made, and the cars will return by the same route. All the old ties on one track have already been renewed, work begun on the other track, and it is expected that the through system will be inaugurated about the 1st of May. The tracks on Van Horne avenue were completed last fall. At present a service is given to the people of the Annex by cars running on the single track between Mount Royal and Van Horne avenue, and on St. Lawrence street from Mount Royal avenue to the Mile End station. In the course of a few weeks the through system will be also inaugurated on St. Lawrence street, the Windsor and St. Lawrence cars continuing as far as the Mile End station instead of turning at Mount Royal, as at present.

PROF. LAURENTIE'S LECTURE. — "Victor Hugo and His Work as a Dramatic Poet" was the subject of an interesting lecture given at Laval University last evening by Prof. Laurentie. During his series of lectures Prof. Laurentie has become a great favourite by his finished and polished manner in dealing with the works of the great French writers. A striking feature of last evening's lecture was the neat delineation of the character of the great Hugo and its influence on all his poetical works. A child of the people, he understood thoroughly what the people liked most. During his early married life he was entirely devoted to his wife and family, and it was during this period that he wrote some of his most characteristic poems. Chief among these were "The Odes and Ballads," "Autumn Leaves," and "Rays and Shadows." It was not love that inspired him most of all; it was simply an intense appreciation of the joys of the family. In this way he had become a great children's poet. After his exile he wrote a number of satires against those who had sent him into exile. Towards the end of his life he grew fonder of meditation, and his poetry was filled with mystery. Some of his greatest works, however, were those written in early life, and they are most admired by his readers. The attendance was very large and comprised the members of the leading French societies.

Three thousand Chinese troops and a number of Krupp guns have been despatched from Tien Tsin to Southern Mongolia, where the people are in revolt against the severe indemnity taxation.

For Soldiers' Families.

To the Editor of the Montreal Star:

Sir,—Would this not be a good time, while all Canada is proud of the heroism shown by her sons at Elenhar's River, and we are all lamenting the loss of so many valuable lives, for some member of the House of Commons to enquire of the Government what provision it is proposed to make for the families left behind by those who have died for the honour of the flag. This is a question which can be discussed without party bias entering into it. Let the leaders of both parties put their heads together and remove from Canada the reproach of leaving the dependents of her heroes to subsist upon private charity, as is the case now in several cases. The Patriotic Fund and the Soldiers' Wives' League are doing good work, but Canada want something better and more national than that. Let the Government act.

Yours truly,
M. G. A.

MR. BLAIR INTRODUCES RAILWAY COMMISSION BILL

Its Provisions Explained in the House of Commons Yesterday.

CORONATION CONTINGENT

Several Members Think South Africa Veterans Should Have First Choice.

(Staff Correspondence of the Montreal Star)

PRESS GALLERY, HOUSE OF COMMONS, OTTAWA, April 10. — The House yesterday listened to Mr. Blair's presentation of his Railway Commission bill, which he espoused in a half-hearted manner.

It also held a discussion on Mr. Bennet's motion that the coronation contingent should consist of veterans of the South African war, which was opposed by Dr. Borden and talked out at six o'clock.

Progress was reported in regard to Dr. Roddick's bill to establish a Medical Council, the understanding apparently being that when it was further considered by the medical bodies, especially in Quebec, where some objection is made to it, it should again come up for consideration. If the approval of Laval and the other medical authorities of Quebec can be obtained, the bill is certain to pass.

* * *

At the opening of the House yesterday, Mr. Speaker Brodeur announced the election of Mr. George Loy as member for Beauharnois, and later he was introduced by the Premier and Mr. Bernier, taking his seat amidst loud applause.

* * *

The Minister of Railways and Canals, Mr. Blair, introduced his bill entitled an Act to revise and consolidate the law respecting railways. This is, in short, the Railway Commission bill. Mr. Blair entered into a lengthy defence of the measure rather than a brief explanation of its chief features, which is the customary procedure on the first reading. He dealt at length with the demads for such measure in the West and in Ontario, and said that while there was not such a persistent agitation in its favour in Quebec and the Maritime Provinces he had no doubt that the sentiment was in its favour. He referred to and praised the reports made by Prof. McLean on the question of freight rate grievances. He pointed out that in many respects the conditions were different in Canada to those places which had a Railway Commission, and so it would not be wise to conclude that the remedies which were effective in those places would apply in Canada. He pointed out the sparse settlement and consequent dearth of local traffic along portions of our great railways and the difficulties that were involved in the fact that many of them were international lines and had to meet competition from foreign lines. He outlined the complaints of the people against the railways, and said it was proposed that these grievances should be dealt with by an independent commission. The Government, he said, did not want to encourage the expectation on the part of the people that they were proposing a plan by which ideal results might be obtained. However, he was far from regarding it as impossible or improbable that large beneficial results might be achieved. The bill was largely framed to constitute and put in operation a Railway Commission. Besides it embodied a complete codification and revision of the railway laws. He thought he might properly describe the measure as a bona fide attempt to establish a Railway Commission that would be productive of good results.

He explained that the powers now held by the Railway Committee of the Privy Council were transferred to the commission, and they were given other powers as well. The chief features, therefore, were the constitution of the Railway Commission, and the control of rates which was delegated to it. He pointed out that the Government felt it should get the best material to form the commission, and should not be limited in their field of selection. They proposed that the term of office of the three commissioners should be ten years, and they should not be removable except on an address of both Houses of Parliament. They had left blanks in the bill as to the age limit and salary. Their qualifications were not described, but it was felt that one should be versed in the law. Such a man, in short, as might be selected for the bench, and another with a knowledge of railway work. A third they should select from the general community. They proposed that the commission should have power to determine all questions of fact, subject only to an appeal to the Governor-General-in-Council. This proviso, he argued, would remove the litigation and uncertainty that were inimical to the success of American commissions. The commission had control of railway rates. He divided traffic into three classes (1) ordinary traffic, (2) commodity traffic, and (3) competitive traffic. The commission could determine the rates for the first class, and, with certain wide discriminating powers, could fix a maximum and minimum rate for the third class. They could also remove articles from the first to the second class.

Provision was made for having the rates fixed posted in all stations. By means of the discretionary powers respecting the third class, they believed they had guarded against hampering the railways. Heavy penalties were provided for violations of its provisions. The proper classification of freight was another matter that would be determined by the commission. They had also made provisions which they believed would be useful in respect to the regulation of foreign traffic. The question as to the regulation of the tolls for the long and short haul was also dealt with, power being given to prevent higher rates being charged for the short haul than the long, when the former was part of the latter.

* * *

Mr. Brock asked if provision was made also for the regulation of canal and river traffic, and Mr. Blair replied that this would not be done except in special cases.

In answer to Mr. Barker, of Hamilton, he said that provision was made for regulating the rates in case of part rail and part water carriage.

The question was raised as to whether the provisions of the act extended to the Government railways, and no very decisive answer was obtained. Mr. Blair said the Government railways were not specifically mentioned, but they conferred on the commission the power of the Railway Committee of the Privy Council, which included control over the rates on Government railways.

A discussion sprang up, which was taken part in by Messrs. Sproule, Osler, Barker, Wade, Kemp and Haggart.

The ex-minister of railways said that he was on record as favourable to a railway commission, but he criticized the measure as to its provisions, and said that there was not sufficient public demand for it to justify the Government in passing such an act which pleaded in arbitrary control over the railways a commission which might or might not use its powers wisely.

In answer to Mr. Kemp, Mr. Blair said that provision was made for the hearing of the representations of the public and the commission might sit where it liked. The bill was finally given its first reading.

Mr. Fitzpatrick introduced his bill to amend the Bills of Exchange Act.

* * *

The question list was a long one, but the questions and answers were mostly of mere local concern. Mr. Monk was informed that no representations had been made to the Government in regard to the fact that the Pullman car company made all its repairs to the cars used in Canada in the United States, whereas formerly, these were made in Montreal.

Mr. Oliver was informed by the Minister of Militia that those who were partially or totally disabled in South Africa received the Imperial pension and the Government had come to no conclusion to supplement this.

* * *

A number of unopposed notices of motion were adopted, but a brisk discussion sprang up on one moved by Mr. Bennett, of East Simcoe, as follows: That, in the opinion of this House, in the event of a military force being sent from Canada to the approaching Coronation ceremonies, such force should be composed in its entirety of officers and men who have seen active service on Canadian contingents in South Africa.

Mr. Bennett spoke succinctly to the motion, and Dr. Borden replied that the contingent was to be representative of all the forces and every care would be taken to have the South African veterans represented.

He asked that Mr. Bennett withdraw the motion, but Mr. Bennett declined, unless Dr. Borden would promise to give men who fought in South Africa first choice. Dr. Borden declined to do so, and said that he felt that he should be trusted in the matter. Mr. Monk and Mr. Borden endorsed the motion, speaking of the effect, if composed of war veterans, it would have in England. Mr. Monk made an amendment that the words in its entirety be replaced by the word generally, but this did not meet with general approval. Dr. Borden declaring that the motion would just be meaningless and appealed to be given a free hand. The motion was talked out at six o'clock, when the order changed.

* * *

After recess the bills to incorporate the Nipissing and Ottawa Railway Company, and the Battleford and Lake Lenore Railway Company were considered in committee of the whole and reported while second readings were given to all the bills that were ready for it.

* * *

The House spent some time in committee of the whole on Dr. Roddick's bill to provide for the establishment of a Medical Council in Canada as amended by the select committee and adopted a number of clauses.

Sir Wilfrid Laurier then arose and said that in view of the fact that some objections had been raised and the bill was one of grave importance, it was requisite that they should not hastily come to a conclusion and that ample opportunity be given to the profession to familiarize themselves with it. He believed the bill was a very wide one and would serve a good purpose if the objections could be fairly overcome. He, therefore, moved that the committee rise and report progress and ask leave to sit again, so as to allow further time for its consideration.

Mr. Brock, of Toronto, made an earnest appeal for favourable consideration of the bill, pointing out that from the Atlantic to the Pacific the medical profession was in favour of it, and even in Quebec, where objection was raised, the majority of the profession favoured it. He, therefore, asked the Premier's co-operation in dissipating any prejudice that might exist against it, for the Premier had admitted that any objections he entertained had been overcome since he heard it discussed.

* * *

Mr. Fitzpatrick said it should not be referred to as a question of prejudice, since it must be borne in mind that it was a radical departure from the principles that had governed since Confederation. It was a serious move, and it was only proper that all should be heard. It had been amended since it was introduced to provide for provincial co-operation, and it was the more important, therefore, to obtain the aid and approval of all medical bodies.

Mr. Brock explained that he realized the truth of what Mr. Fitzpatrick said, but believed that when the measure came to be fully understood the objections would disappear.

Dr. Sproule had no objection to the Premier's suggestion, and in answer to Mr. Brodeur said that copies had been sent to all the medical men they knew, but he did not think that copies were sent to the Provincial Government at Quebec.

Mr. Charles Parmelee, of Shefford, believed the measure would be a good one, and particularly beneficial to the graduates from Quebec, who knew both languages, if it could be shown that it would not affect their provincial autonomy, of which they were naturally jealous.

Mr. Monk pointed out that several leading French-Canadian doctors had expressed approval of the measure to him, and said that he believed the fact that one medical body was not represented was due to a misunderstanding and could be overcome. The delay would be advisable, and all the doctors should be given copies of the bill. A general discussion took place and it seemed to be agreed that copies of the bill should be sent to all likely to be interested.

* * *

Dr. Roddick then accepted the Premier's motion. He was sorry to say he had nothing from Quebec officially, but he believed that the bill would be approved, and he mentioned that it was being looked into by leading French-Canadian doctors, mentioning especially Dr. Lachapelle. He had no doubt that in a short time the entire province would be in favour of the bill. The committee then reported progress, the understanding being that when the views of medical men were further ascertained it would come up again this session.

* * *

The Premier then moved that in view of the late sitting on the previous night that the House adjourn. Mr. Lancaster wanted to have his cattle guard bill taken up but this proposition was not entertained. The Premier did not feel like taking the matter up in a thin and tired House.

Mr. Charlton also wanted to take up his reciprocity of tariffs resolution, but was rebuked by the Minister of Justice, who said that they had been there until after three o'clock that morning, while Mr. Charlton was home in bed, and the Premier in negativing the request pointed out that the question had been reached previously when Mr. Charlton was not there to press it.

The House adjourned at 9.20 p.m.

Wednesday in the Senate.

(Special to the Montreal Star.)

OTTAWA, April 10.—In the Senate yesterday the Montreal, Ottawa and Georgian Bay Canal bill had its third reading, and was passed. Before the third reading was given it, however, Hon. Josiah Wood (Westmoreland) drew attention to the fact that the charter included provision for the construction of the French River Canal, which Hon. Mr. Tarte had stated that the Government would build. He thought an understanding should be reached before the bill was passed, by which the Government could acquire possession at any time.

At present if the company did any work the Government, if they took over the canal even before it was constructed, would become responsible not only for the amount for which they guaranteed the bonds but also for the amount of the work done.

Sir Mackenzie Bowell, Hon. Mr. Lougheed and others strongly supported this contention.

Hon. R. W. Scott introduced a bill respecting the incorporating of Boards of Trade. There have been several applications from towns in British Columbia which have not a population of 2,500 which under the present act is the minimum population for the incorporation of a Board of Trade. This bill is intended to remedy this.

Sir Mackenzie Bowell suggested that the bill was applicable only to British Columbia. He thought it would be advisable to include the Yukon in the amendment. Hon. R. W. Scott concurred in the suggestion. The bill was read a first time.

Several bills were advanced a stage, and the following were read a third time and passed: The Indian River Railway bill, the Quebec and Lake Huron Railway bill, the Port Dover, Brantford, Berlin and Goderich Railway bill, the Windsor and Detroit Union Bridge bill, and the International Railway bill.

THE PRESBYTERIAN CREED.

Work of the Committee on Revision Almost Completed.

WASHINGTON, April 10.—The Presbyterian committee on creed revision assembled here yesterday. It accomplished considerable work, finishing up all business except that relating to the brief statement of doctrine. Consideration of this statement will occupy the committee during the remainder of the session here. As a result of the work already done overtures will be submitted to the general assembly, which will meet in New York in May for action on the declaratory statement with reference to the third and tenth chapters of the confession. These relate to predestination and election of infants. The object is to remove misunderstandings on these points by declaring that the confessional is not to be understood as teaching that any children who die in infancy are lost; also that the confession is not to be understood as teaching that the provisions of the Gospel and the offer made by it is to be limited to a certain number—that Christ died for all men; nor is it to be understood as in any way interfering with human liberty and with the freedom of man.

An overture will be sent to the general assembly, dropping from the text of the confession the chapters relating to the Pope of Rome and that it is a sin in another to refuse an oath when administered by a rightful authority.

Hotel Proved Its Own Deception.

(Special to the Montreal Star.)

QUEBEC, April 10.—Hotels which are serving or pretending to serve game out of season to their guests without having a cold storage license are being taught a useful lesson in various parts of the Province by the Fish and Game Protection Clubs here in Quebec. An officer from Montreal has just obtained a conviction against one hotel and compelled another to prove that it was simply deceiving its guests by placing venison on its menus and serving up something that was not game at all though flavoured to imitate it.

RECRUITING THE FOURTH CONTINGENT

The Militia Order Authorizing It Is Now Issued.

THE RECRUITING OFFICERS

There Will be Four Regiments—Halifax the Point of Concentration—Terms of Enlistment.

(Special to the Montreal Star.)

OTTAWA, April 10.—The Militia Order authorizing the raising of the Fourth Canadian Contingent was issued last evening though dated the 8th instant. The first paragraph sets forth: "His Majesty's Government having signified their pleasure to accept further troops from Canada for service in South Africa, four regiments of mounted rifles to be designated the 3rd, 4th, 5th and 6th, regiments, Canadian Mounted Rifles, and to be armed, clothed and equipped as the Imperial Yeomanry of His Majesty's forces are authorized."

To a very large extent the contents of the order have been already published, but a brief summary is as follows:

The conditions of service give the term of enlistment as for twelve months, or till the end of the war. The pay will be Cavalry rates till embarkation, and Yeomanry rates from the day of embarkation. Recruits must not be under twenty years of age, standard of height not under 5 feet 4 inches, nor more than 5 feet, 11 inches, being an inch less than the requirement for the 2nd C. M. R.

Preference will be given to men who have had previous service in South Africa, and to single men. Married men and widowers without children will be accepted conditionally on no separation allowance being issued.

THE ESTABLISHMENT.

The regimental staff will be Lieut.-Colonel Major, second in command; Adjutant, Medical Officer, Quartermaster, Veterinary Officer, Sergeant Major, Quartermaster Sergeant, Sergeant Cook, 16 Privates (2 clerks, 2 orderlies to Medical Officers; 12 Batmen.)

Squadron Establishment—Major or Captain, 4 Subalterns, Squadron Sergt.-Major, Squadron Quartermaster Sergeant, Farrier Sergeant, 4 Sergeants, 3 Shoeing Smiths, Saddler, 2 Buglers, 6 Corporals including paid lance corporals at the rate of 2 per regiment), 97 Privates (including 4 paid lance corporals). Total 121. This makes the total strength of the contingent, 2036.

The rates of pay for the Non-Commissioned Officers, and men, have been already published. Non-Commissioned Officers not above the rank of farrier sergeant or farrier staff-sergeant, and privates acting as buglers, saddlers or shoeing smiths will be granted extra-duty pay at the rate of 24c per diem.

Officers, non-commissioned officers and men will be enabled to assign part of their pay to relatives and friends in Canada, and such assignments of pay will be issued monthly from the Department of Militia and Defence. This is a new condition.

RECRUITING REGULATIONS.

Recruiting Officers will report to the Adjutant-General by telegraph at the close of each day's recruiting, the number of men enlisted.

Recruiting officers who become satisfied before they are ordered to cease recruiting that no more men will offer for enlistment at their station, will report to the Adjutant-General for instructions.

All men will be enlisted as privates, but men who have previously served in the permanent corps or in the North-West Mounted Police, as non-commissioned officers, will be given the preference in making selections for non-commissioned ranks.

CONCENTRATION.

Recruits will be forwarded to Halifax, the place of concentration, any day following the date of enlistment, according to transport arrangements to be made by the Quartermaster-General.

At Halifax they will be formed into four regiments of four squadrons each, the 3rd Regiment being first organized, clothed and equipped.

The organization of the 4th Regiment will be proceeded with as soon as sufficient men are concentrated, and similarly the 5th and 6th Regiments will be organized.

Recruiting officers in forwarding recruits to place of concentration will appoint acting non-commissioned officers in the event of there being no officer to take charge, in the proportion of one corporal for any number of men up to ten, and for larger detachments, one sergeant, and for every ten men one corporal.

BRONCHITIS

A SERIOUS DISEASE

Becomes Chronic and Returns Year by Year or Develops Into Bronchial Pneumonia, Croupous Bronchitis, Asthma or Consumption.

The real dangers of bronchitis are sometimes overlooked. It is too serious a disease to trifle with, and for that reason everybody should be familiar with the symptoms.

Children are most liable to contract bronchitis, and, if neglected, it becomes chronic, and returns year after year, until it wears the patient out or develops into some deadly lung disease.

The approach of bronchitis is marked by chills and fever, nasal or throat catarrh, quick pulse, loss of appetite, and feelings of fatigue and languor.

Bronchitis is also known by pain in the upper part of the chest, which is aggravated by deep breathing or coughing, until it seems to burn and tear the delicate linings of the bronchial tubes.

The cough is dry and harsh, and is accompanied by expectoration of a frothy nature, which gradually increases; is very stringy and tenacious, and is frequently streaked with blood.

There is pain, not unlike rheumatism, in limbs, joints and body, constipation and extreme depression and weakness. In some people, the exhaustion amounts almost to nervous collapse, delirium follows, and in young children convulsions may follow.

Dr. Chase's Syrup of Linseed and Turpentine is, we believe, the most effective treatment for bronchitis that money will buy. This fact has been proven time and time again in many thousands of cases.

It is the most effective remedy for bronchitis, because it is far-reaching in its effects on the whole system, not merely relieving the cough, but actually and thoroughly curing the disease. It loosens the cough, frees the chest of tightness and pain, aids expectoration, and permanently cures.

There are other preparations of turpentine and linseed put up in imitation of Dr. Chase's Syrup of Linseed and Turpentine. To be sure you are getting the genuine, see the portrait and signature of Dr. A. W. Chase on the box you buy. Twenty-five cents a bottle, family size, three times as much 60 cents. All dealers, or Edmanson, Bates & Co., Toronto.

BELGIAN SOCIALIST RIOTS CAUSE MUCH EXCITEMENT

Anti-Catholic Agitation Also Leads to Disturbances—Severe Measures Being Taken.

BRUSSELS, April 10.—The mobbing of the King by the Socialists, yesterday, has aroused intense excitement, and there are fears of further disturbances and complications. The Minister of War, Gen. Cousebant Alkema has ordered militia reserves of eighteen regiments to be in readiness to rejoin the colours and gendarmes of all the divisions are held in instant readiness to march wherever required.

In the Chamber of Deputies, yesterday, M. Furnemont, Socialist, gave notice of his intention to interpellate the Government on what he termed a "gross breach of international hospitality") in expelling the Spanish deputies.

The anti-Catholic agitation broke out in a riot here last night.

A thousand Socialists attended a meeting at the Maison du Peuple and afterward marched to Sentin street, where they stoned the house of a Catholic deputy.

The police charged the rioters with drawn swords. A number of the latter were severely injured, and twenty were arrested.

The smashing of windows, revolver firing and other disorders continued throughout the evening. A crowd of rioters marching towards the suburb of Schaerbek, drove three policemen into a cafe. The rioters looted this cafe and wounded all three policemen by revolver shots. Reinforcements of gendarmes have been sent to the suburb.

LIEGE, Belgium, April 10.—A procession of 1500 persons met the delegation of Spanish republican deputies, who were expelled from Brussels, when they arrived at the station here. The Spaniards were given a riotous welcome, but the gathering was broken up by the police. Four persons were injured. During an anti-Catholic riot at Ghent, several persons were injured and a number were arrested. Troops were called out to quell the disturbances.

BRUSSELS, April 10.—Repeated charges of police and mounted gendarmes with drawn sabres resulted in the dispersal of the rioting mobs here early this morning.

Japan's Ex-Premier Dined.

NEW YORK, April 10.—A welcome dinner was given last night at Sherry's to Count Masayoshi Matsukata, ex-Prime Minister of Japan, who recently arrived in this country on a tour of the world. The dinner was given by prominent Japanese residents of this city.

Danger Next Door.

Perhaps it's diphtheria, or scarlet fever. Keep your own home free from the germs of these diseases. Prevent your children from having them. You can do it with our Vapo-Cresolene. Put some Cresolene in our vaporizer, light the lamp beneath, and let the vapor fill the sleeping room. Have the children sleep in the room every night, for it's perfectly safe, yet not a single disease germ can live in this vapor. Ask your doctor about it.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

What! Does The Grim Spectre Follow You Into the Joyous Springtime?

PAINE'S CELERY COMPOUND

Defeats the Work of Death by Removing Your Terrible Burden of Disease.

Are you still in suffering, misery and despondency? Does the grim spectre Death follow you closely as the joyous springtime brings happiness and blessings to others around you? Are you still clinging tenaciously to false theories of physicians or friends who persist in assuring you that time, care and the use of your present medicine will give you new health?

Be assured your present condition is a perilous one. The continuance of the medicine you are now using is a folly; you are simply trifling with life and wasting precious time.

You should remember that while nature clothes the fields with fresh grass and flowers, and while the trees with a strong life are showing bursting buds and now foliage, that human beings—old and young—are dying off in thousands in springtime.

Now is the time for prompt, decided and practical action if life is to be saved. Prejudice and the erroneous theories of even medical men should be cast aside when the hand of death is upon you. It matters not what your social position be; the medicine that saves the humblest man or woman is surely the one adapted for the needs of the rich and those in high social positions.

Paine's Celery Compound has a record of life saving that no other medicine can ever equal. It has rescued rich and poor from the grasp of death when physicians and their most carefully prepared prescriptions failed in the work. If the suffering men and women of to-day could but see the happy faces and hear the kind words spoken by the tens of thousands who have been made well and strong by Paine's Celery Compound, it would soon dispel their existing doubts and fears.

Paine's Celery Compound is the only medicine that reaches the root of disease; it is the only agency that can remove your terrible load of disease. Unsolicited testimonials of cures pour in every day. Young and old constantly bear witness that rheumatism, neuralgia, kidney disease, liver complaint, dyspepsia and blood diseases are banished permanently when Paine's Celery Compound is faithfully used for a time. Begin its use to-day poor sufferer; delays are dangerous. 84 1

Two Ontario Nominations.

COLLINGWOOD, Ont., April 10.—One of the largest and most representative conventions ever held by the Liberal Conservative Association of West Simcoe was convened in the court room of the municipal buildings yesterday afternoon. The delegates numbered 230 and included representatives from all parts of the riding. The president, Dr. Kirkland, occupied the chair. J. S. Duff, of Cookstown, was unanimously selected standard-bearer in the coming provincial election.

PARIS, Ont., April 10.—North Brant Conservatives met here yesterday to select a candidate to contest the constituency in the approaching provincial election. Messrs. J. B. Howell, of South Dumfries, and J. H. Fisher, of Paris, were the only nominees. The latter being the choice of the meeting, he was given the unanimous nomination.

At the annual meeting of the Kingston Board of Trade the following officers were elected: President, John Gaskin; first vice-president, George Y. Chown; second vice-president, R. J. Carson; secretary-treasurer, F. King.

HAVE YOU ASTHMA STILL?

If so, it's certain you have not given Clarke's Kola Compound a thorough trial. Bad cases should not expect much at first. Asthma is a constitutional disease. Clarke's Kola Compound acts specially on the heart, blood and nervous system, therefore the constitution must be brought thoroughly under its influence before the most beneficial results are felt. Some require more than others, but stick at it; a cure is sure to follow. Send 10c for sample. The Griffiths & Macpherson Co., Limited, Toronto.

6000 Years Old

If we live in deeds, not years, then Ayer's Cherry Pectoral must be 6000 years old!

For sixty years it has been curing all kinds of throat and lung troubles—from a slight tickling in the throat to the most desperate diseases of the lungs.

This is the way your doctor orders it:

℞ *One bottle of Ayer's Cherry Pectoral.*
Sig. Carefully follow directions on bottle.

Ask him how many patients he has cured with this prescription.

"I have used Ayer's Cherry Pectoral extensively in my practise, and I regard it the best of all remedies for colds, coughs, and bronchitis, whether acute or chronic."—I. C. COMPTON, M.D., Ratliff, Miss.

TENDER WILL BE ABOLISHED

And All Vessels Will Moor at the New Wharf Instead of Coming to Anchor at Rimouski.

"Yes, the Government has now made arrangements to have an eight hundred foot wharf completed at Father Point, and this will result in enormous advantages to shipping in the Lower St. Lawrence."

Such was the statement made by Mr. J. S. Williams, of Father Point, who has been in the city for a few days.

"With the completion of the new wharf, which is being constructed from the projection at the side of the lighthouse, there will not any longer be any use for the wharf built in Rimouski Bay, six miles up the river, and which has never been of much use. Mail steamers will in future take on and put off the mails at the Father Point wharf along side of which they will be able to moor at any time of the year. In this way quite a lot of time will be saved. Up to the present time the large steamers have never been able to approach the Rimouski wharf, and a tender had to be used all the time. In bad weather especially great inconvenience was caused thereby.

Then again the pilots of all lines get on and off the steamers at Father Point, and up to the present the only means of transport was either a row boat or a small yacht. Again in stormy or very foggy weather a great deal of time was lost in trying to locate the steamers. Little or no delay will be experienced in coming along the wharf, as there is any amount along the new will also permit of all means of water. ATTORNEY SUFFERED NO PREJUDICE

Mr. Justice Archibald to-day, in the case of F. Lareau against his daughter-in-law, the widow of Ald. H. Lareau, dismissed the action, each party being condemned to pay its own costs. This was in accordance with a settlement which had been reached during the pendency of the suit. The attorney for the plaintiff continued the case, however, on the ground that the settlement had been made without his knowledge, and in violation of his rights. The court considered, however, that the attorney had suffered no prejudice.

MINING SITUATION IN NELSON DISTRICT

Mr. T. G. Proctor Tells of Progress the Little Town Has Made.

THE YMIR GOLD FIND

Tourist Association Formed to Make Nelson Better Known to Outside World.

"Strange to say, the feature that has contributed most of all to make the Nelson district such a good one, is that there has practically never been any big boom."

The speaker was Mr. T. G. Procter, of Nelson, B.C., manager of the Kootenay Building Company, who was at the Windsor to-day.

"Of late, steady progress has been made, and the different companies have all recovered from the set-backs that they might have received at the outset. And these drawbacks, in the Nelson district at least, have proved to be of the greatest advantage. The lead and silver mines are all being worked successfully, and as soon as the market recovers large amounts will be disposed of. Then, as far as gold is concerned, the greatest find that has been discovered in British Columbia was made just made in to my departure. In many ways previous a most important one. It was it was the Ymir mines, close to Nelson, and consisted of a find at Nelson, and consisted of twelve hundred foot level. Of course of the most superb ... has always been one such a find ... in the country, but that ... takes it altogether probable ... ...ts may be made even at the same level. The company has recently installed a cyanide plant and will soon be paying a thirty per cent. dividend, not too bad for a Canadian company, is it?"

"Would you say that the population of Nelson is increasing very rapidly?"

"No; but the population is a remarkably progressive one, and Nelson is now one of the prettiest towns in that part of the country. And the beauties of the country are becoming better and better known, and tourists are becoming more anxious to visit it. Just before my departure from Nelson, a Tourists' Association was formed, and arrangements will be made with the people of Rossland and adjoining towns to let the travelling public know that there are such pretty districts to be found as the Arrow and Kootenay Lakes. There is no doubt that there are few prettier spots in British Columbia, and the only reason that can be brought forward to explain that they are not better known is that they are not on the main line."

GOOD BUTTER WILL BE VERY SCARCE

It appears that in spite of the import duty of 6 cents per pound there has for some time been a constant and consistent endeavour to obtain Canadian butter in the United States market. At the present time what is known as "renovated" butter, which is no more or less than old stale stuff worked over, is bringing from 28 1-2 to 29 cents on the New York, Boston and Albany markets. This is the grade of butter ordinarily very largely used in bake shops and which when there is the usual supply on hand sells at a very much lower figure.

It appears that the Milk Dealers' Association, a powerful corporation in the Eastern States, has contracted for practically all the milk obtainable in sections about New York to a point as far away even at Buffalo. This contract extends over the month of April, so that there will be no local output until well on in the month of May.

Within the past few weeks New York dealers have been visiting Montreal and other Canadian points endeavouring to obtain butter which could be imported into the United States to fill the desired holes in the visible supply. The mission was not altogether successful, however, owing to the butter not being on hand in Canada. Local jobbers here and there have been able to obtain a few packages, but nothing to what the demand requires.

It would therefore appear that not only will the market in the Eastern States be depleted of cheap butters before the spring season fairly opens, but the Canadian centres will also feel the shortage.

One reason for the present condition of affairs is attributed to the fact that a large proportion of cattle were sold off last autumn rather than pay the high prices for food during the winter months.

DRAFT OF CONTRACT READY FOR BOARD ON SATURDAY

Harbour Elevator Matter to be Pushed Forward Without Delay.

An effort is being made to close the harbour elevator matter without delay. The Montreal Harbour Board has referred the whole contract to its solicitors, Messrs. Geoffrion, Geoffrion & Cusson, with instructions to confer with Mr. Peers Davidson, who is Mr. Weber's solicitor. It is understood that the respective solicitors are now conferring together and that a draft of the contract will be ready to submit to a meeting of the Harbour Commissioners on Saturday next.

NO WITNESSES IN THE HETU-DESY CASE

Consequently There Was a Postponement To-day Until May 9.

The enquete into the charges of fraud against Hetu and Desy was called up before Judge Choquet to-day, and owing to the absence of material witnesses adjourned to May 9th. It had been announced that L. A. Gingras, who acted as poll clerk at poll No. 37, would be present, and consequently a big crowd had gathered. The attorneys for the defence maintained that there should be no further adjournments, but the Judge expressed his determination to hold the accused under bail until the June term, when the case against A. E. Brunet would be tried.

Ping Pong Tournament.

Ladies representing the Montreal Ladies' Curling Club, and the Ladies' Tennis and Bowling Club, are having a ping-pong tournament to-day in the Montreal Curling Rink. The players are:

For the Curling Club—Miss Clay, Miss E. Marler, Miss H. Marler, Miss Selater, Mrs. Claxton, Miss Murray Smith, Mrs. G. T. Smith, and Miss Dunlop.

For the Tennis and Bowling Club—Mrs. Holt, Miss Molson, Mrs. Young, Miss Beamish, Miss Gould, Miss Greene, Miss Greenshields and Miss Porteous.

No Judgment for the Drinks.

Arrangements made for board do not cover drinks for men employed by the party paying the board bill. This was decided by Mr. Justice Davidson to-day, when he reduced the amount claimed by J. A. Mercure, hotel-keeper, of St. Lazare, from J. A. Pare, from $120.17 to $75.95. The defendant's men boarded with plaintiff, who furnished them with drinks and lent them money. The court allowed the board bill, but refused to give judgment for the drinks.

WORST OF FIGHTING OVER IN PHILIPPINES

Says Drum Major George Kelly Just Back From the Islands.

NO PLACE FOR A POOR MAN

The Chinaman is Prominent in Business Circles — Expenses of Living are High.

After three years' service in the Philippines, Drum-Major George Kelly, of the 21st United States Infantry, has returned to his native country and incidentally to Montreal, where he is known by many in this city. For years a soldier in the United States Army, Kelly having served no less than fifteen years in the 21st, went with his regiment to Cuba. Here the regulars bore an even share of the brunt of battle and distinguished themselves in the short and sharp engagements which were followed quickly by the surrender of Santiago. In April, 1899, the 21st started for Plattsburgh for the Philippines, and Drum Major Kelly, who was then a sergeant, sailed with his command. He now returns in perfect health after thirty-six months' service. Kelly sailed from Manila on March 5 on three months' leave, and arrived at San Francisco on April 2, having made the voyage on the United States Government transport Crook.

The drum major states that the United States has probably seen the worst of the fighting in that section of the world, but at the same time there will probably be some trouble in certain sections for many months to come. The city of Manila is now as quiet and orderly as any Canadian or American centre. The law is represented in the form of a police force, on much the same plan as such an organization would assume on this side of the Pacific.

The 21st saw considerable service of the "hiking" variety, to speak in the army vernacular. This means short and rapid night marches where the troops ordinarily return to camp some time the following day (if they get back at all) utterly done up through wandering in the swamps and thickets. While often effective in rounding up a lot of revolting Philippinos, there were times when the United States troops met with a warm reception. For instance on one occasion a squad of some hundred men of the 21st went out on a "hiking" expedition, and unexpectedly ran into the rebel army in strong force. The consequence was that the command was not only badly cut up, but every commissioned officer, four in number, was either killed outright, or mortally wounded. Such are the fortunes of war in the Philippines.

Speaking of the commercial aspect of affairs in the islands, Drum Major Kelly states that the Chinaman is pre-eminently the business man of the community. John has the capacity of keeping practically all he gets, and this was more than fifty per cent. of the battle of life in the Islands. A very large proportion of the imports which came into the Philippine Islands is shipped from the British port of Hong Kong, indeed, it seemed that this seaport was the very life of trade throughout the country. So far as could be observed in Manila and other centres, the beer business netted more money than anything else at the present time. The advent of United States soldiers had created a great demand for light malt liquors. There is one brewery at Manila, while beer of every imaginable brand was imported into the country. The United States Government has established ice plants at all chief points, the ice being disposed of at a nominal figure to general consumers.

NATIVES PLAYED OFFICERS FALSE.

Drum-Major Kelly states that when the rebellion first broke out, and, indeed, up to within the past year, the United States officers were disposed to take a good deal of stock in the alleged friendship of Filipinos. When the regimental and brigade commanders found, however, that the natives whom they trusted most were playing false, there was an immediate change of front. In one instance a tax collector who was thought to be the personification of loyalty to the United States' cause, was found utilizing the funds collected under the nose of the United States officers in aiding the Filipino cause. In another instance a Spanish priest was caught playing the Government false in favour of the natives and, along with several more in the same boat, were not only arrested, but were compelled to shovel and dig on the thoroughfares.

The climate at certain times of the year is terrible. The tropical rains of this continent are nothing as compared with those experienced in the Philippines, and Drum-Major Kelly has had ample experience in both. The yearly rain begins in June and continues to the middle of December. It rains for perhaps a week at a time, not any ordinary drizzle, but a downpour, and then it clears for two or three days. As a business centre for the comparatively poor man the Philippines do not strike Mr. Kelly as being desirable. Living is high, and when an ordinary clerk has paid $40 or $50 for his board and lodgings, $10 per month for his washing and other incidental expenses in proportion, he has little left out of his salary of, say, $100 per month.

Boy Went With His Father.

Can a child, who has been placed out to board, be held as a hostage for his board? That was the interesting question which it seemed for a moment, to-day, that Mr. Justice Robidoux would be called upon to decide. It arose in an application for a habeas corpus by Mr. James M. Elliott, who sought to recover his minor son from Mrs. Leon Saucier. The child was produced in court to-day, when Mr. Skinner, of the firm of Smith, Markey and Montgomery, claimed that the child should be returned to his parents. Mr. Robillard, who represented the defendants, said that his clients had received the child from a woman who had placed the little fellow to board with them, and Mrs. Saucier had declined to give it up until she knew that the man who claimed the child had a right to do so, and not because the board was not paid. The defendant had the child in court, and was ready to give him up to his father, but declined to pay the costs. The little boy went with his father, but the question of costs will be settled later.

Miss Stone Back in America.

NEW YORK, April 10. — Among the passengers who arrived to-day on the steamer Deutschland, from Hamburg, Southampton and Cherbourg, was Miss Ellen M. Stone, the American missionary who was a captive of brigands in Turkey. She is accompanied by R. B. McClure and R. S. Baker.

Santos Dumont, the Brazilian aeronaut, was also a passenger on the Deutschland.

The Cunard Company's Meeting.

LIVERPOOL, April 10.—Much dissatisfaction with the management was expressed by the shareholders at the meeting of the Cunard Steamship Company to-day, and the sale of the line is suggested. The chairman of the committee admitted that the receipts had fallen off. A four per cent. dividend was declared.

New York Central Accident.

BOSTON, April 10.—An express train on the Boston and Albany division of the New York Central ran into a section gang at Allston to-day, and three men were killed and one was injured.

Y. M. C. A. EDUCATIONAL DEPARTMENT.—The second annual supper of the educational department of the Young Men's Christian Association will take place this evening in the association building, Dominion square. Mr. C. T. Williams will preside, and addresses will be given by Ald. Ames and Messrs. Abner Kingman, A. M. Mackay, G. E. Calhoun and E. E. Howard.

DENY REPORT OF A MEAT COMBINE

English Consumers Have Been Getting Cattle Much Too Cheaply

ARGUE LOCAL DEALERS

No Curtailment of Cattle Shipments by Americans to Force Up Price in England.

Montreal live stock exporters do not appear to be greatly impressed by the somewhat sensational stories which have been current of late, to the effect that the exporters of the United States had combined to force up the price of meat in England by curtailing the shipments.

Mr. D. Munroe, a local exporter, this morning, said: "There is no combine existing for such a purpose, either in the United States or in Canada. Any one can go to the Chicago market and buy there at market prices and ship to the other side."

The fact of the matter is that consumers in England have been getting cattle too cheaply. Four or five years ago the British public was getting beef considerably below cost of production, with the result that a great number of farmers stopped raising cattle in this country. We are now experiencing the effect of this in the shortage, both in the United States and in Canada. Until such time as the herds are brought up to their normal strength the present high prices will continue to prevail, so that lower figures need not be expected for a considerable time to come.

SUPPLY AND DEMAND.

Mr. W. W. Craig, engaged in the same trade, said: "The whole question is one of supply and demand. I am sure I can go to Chicago and buy all the cattle I want at the same price as any other person, and export them. The reason of the falling off in the export shipments is that the home demand in Chicago is so great and the supply so small that there is not much left over for the English market. The margin between what must be paid in Chicago and what is realized in England, is too narrow to permit of a remunerative business. We are feeling the effect of the low prices of a few years ago, and the supply is now short. This is what is putting prices up, and I am of the opinion that all talk of a combine in the export trade is nonsense, as one of the first effects of it would be to compel the exporter himself to pay more for his cattle.

REVOLTING TROOPS

The Socialistic Agitation Infects the Belgian Soldiers Called Out to Suppress the Riots—They Defy Their Officers.

(Special to the Montreal Star.)

BRUSSELS, April 10.—The troops called out to preserve order are revolting and the situation is most serious. The reserves were called out as a precautionary measure in view of the growing disorders instigated by the Socialists. When mustered, it was found that dissension had spread among their ranks. Men defied their officers, hooted the Government and sang revolutionary songs. Fifty persons have been hurt in a clash between rioting socialists and police, during which revolvers were freely used. Two policemen were injured.

OFFICERS TO COMMAND.

Those Who Will Lead the New Contingent.

(Special to the Montreal Star.)

OTTAWA, April 10.—It is distinctly stated that no appointments have as yet been made to the third, fourth, fifth and sixth regiments of Canadian Mounted Rifles, but it is also unofficially understood that Col. Lessard, R.C.D., Major Turner, of Quebec, and Lieut.-Col. Williams, R.C.D., Toronto, will be three of the commanding officers.

The fourth man is not so certain, but it is probable that the commission will fall either to Lieut.-Col. Perry or Major Saunders, of the North-West Mounted Police, which force will be well represented in the contingent. Applications for commissions flow in amain on the Department, and it is expected that recruiting will be lively, especially as the objectionable "quota" has been removed from the order authorizing the raising of the regiment.

Miss Jennett's Supposed Murderer.

(See also page eleven.)

DETROIT, April 10.—The police believe that in Professor James Miller, a music teacher, arrested this morning, they have Miss Jennett's murderer. Blood was found on his clothing; and when an explanation of it was asked, Miller fainted. He was revived, but fainted again while being taken to his cell. Miss Jennett was a pupil of Miller's.

The girl was organist of the Rebekah Lodge to which she belonged, and at the meeting last night she is said to have been cheerful and even gay. Miss Jennett remained until 10 o'clock, when she started for home alone. Her father and mother sat up late for her return, but finally retired, leaving the door unlocked. When they arose this morning they found their daughter's bed was untouched. Later the father went to the morgue and identified the mangled remains. When the police learned this morning that Professor James Miller, a music teacher, and Miss Jennett had been well acquainted, and that he had given her music lessons, Captain Baker went to his house and took Miller into custody.

The officers asked him to take off his coat and vest and with great reluctance the music teacher removed the garments. The officers rolled up the wrist bands of his white shirt. On the inside of these were found blood stains, and when the policemen and detectives looked to Miller for an explanation the man turned deadly white and fell on the floor in a fainting fit. He was restored to consciousness and then led to a cell on the way to which he fainted again. Blood stains were also found on his trousers. Some were found on his overcoat and more on his hat. Captain Baker went into the cell with him after he had recovered somewhat from his fainting condition. Miller looked up quickly and said:

"I know nothing about the matter."

In the sweat box Miller claimed that last night he attended a meeting of the Wolverine Circle, an insurance organization on Baker street, and that he left about 11 o'clock. This would be a sufficient alibi for the murder took place at 11 o'clock or a few minutes later.

Ontario Ministers at the "Soo."

SAULT ST. MARIE, Ont., April 10. — Premier Ross, accompanied by Hon. R. Harcourt, Hon. J. M. Gibson and E. J. Davies, arrived here this morning. The party were met by leading Liberals of the town and escorted in cabs to the Hotel International, where they will be the guests of F. H. Clergue, who will personally conduct them on a tour of inspection throughout the extensive works of the allied companies. To-night the hon. gentlemen address a public meeting here.

DEATHS.

DONOVAN—On April 10th, William Donovan, son of Moses and Sarah Donovan, 173 St. Etienne street, aged 22 years. Funeral notice later. (Boston and Newfoundland papers please copy.)

THE GRAND TRUNK SEMI-ANNUAL

The Meeting of Directors in London To-day Was Cheerful,

ONLY ONE CRITIC PRESENT

The Work of Laying the Second Track Will be Rushed — Mr. Hays Praised.

(See also page twelve.)

LONDON, April 10.—Cheerfulness pervaded the semi-annual meeting to-day, of the shareholders of the Grand Trunk Railway of Canada. The only discordant note came from a shareholder who expressed the opinion that there was not as much economy as possible in the management of the company.

Sir Charles Rivers-Wilson, president of the road, in a speech declared that the company had the first of the railroad managers of America, and, in view of the results obtained, the criticism was ungracious.

The president also characterized the past half year as having been uneventful, but prosperous, and outlined the progress of building the second track. He said he hoped it would be completed from Montreal to Chicago within a year, predicted continued prosperity and expressed the hope that the time was coming when they would be able to close their capital accounts, as some of the roads in the United States had done, and pay for improvements out of the earnings of the road.

The directors, whose terms of office had expired, were re-elected.

DIRECTORS CAUGHT

Wall Street Story About the Rise in Louisville and Nashville Stock—Mr. Gates' Interest.

(Special to the Montreal Star.)

NEW YORK, April 10.—The enormous buying of Louisville and Nashville on the opening of the Stock Exchange to-day carried the price to 120 and the tape told the story that was on everybody's tongue in Wall Street of how John W. Gates, Moore Brothers, John J. Mitchell and other "Westerners" had caught the directors of the road napping and how the interests in control were short of their stock in such large amount that to hold control they had to cover at a heavy loss.

This view of the matter and the fact that Southern Railway interests were in no way identified with the movement disclaimed reports that a merger was contemplated by Morgan interests. No such excitement has marked any deal since the Northern Pacific "corner" a year ago. Meanwhile, the man of the "Street" in whom all the interest centres, Mr. Gates, sat in his private office in Wall Street, smoking a cigar, talking to one or two friends. When the high point, 120, was reached and the price began to ease off, Gates walked out into the customers' room of Harris, Gates and Company and stood with one arm resting on the sill of the partition, watching the board and still smoking, apparently the most unconcerned man in the crowded room.

"Have you bought the Louisville and Nashville Railway?" was asked of Gates.

"I have nothing to say," was his reply. He would not discuss London's short selling and covering. Many thousand shares of Louisville stock are on the water, due here early next week. These are deliveries of stock sold by Englishmen when the price began to rise some days ago.

The five point rise in Louisville yesterday from 109½ to 114½ and the strong closing then made the stock the centre of attention this morning. Nearly half the exchange, the members present on the board, were massed about the Louisville and Nashville and Southern Railway pit.

When 120 was reached Wall Street began to be alarmed, as it was feared disastrous results might attend such a wild flight. Selling orders appeared and the stock sold down to 115¾ as rapidly as it had advanced. It vibrated around 116 for a time, then began another steady mount upward.

Transactions in Louisville and Nashville the past week have amounted to 330,000 shares. The total capital of the road is 600,000 shares.

A SELLING MOVEMENT IN WALL STREET

The Result Was Declines of 1 to 2 Points in Many Instances— Louisville Feverish.

NEW YORK, April 10.—Prices of stocks advanced at the opening in Wall Street, and although there were very heavy dealings in some stocks the gains were restricted to fractions. The opening sales of Southern Railway were of 12,000 shares at 34⅜ to 35¾, compared with 34½ last night, and of Louisville 6,000 shares at 114½ to 115, compared with 114⅝ last night. There were also very large takings of Southern Pacific and Union Pacific. The only stock of any importance to show a decline was U. S. Steel preferred, which fell ⅝. Keokuk and Des Moines and Texas and Pacific rose a point, and New York Central 1⅛. The selling movement became more general, and declines from the best prices of 1 to 2 points were numerous. In some cases prices were as much under yesterday's close. The extreme break in Westinghouse reached 6¼. General Electric 3¼ and Northern American and North-Western 2½ each. Louisville was feverish for a time between 116 and 117. Bonds were stronger.

Chicago Wheat Market.

(From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.)

CHICAGO, April 10.—Wheat was active, with the bears encouraged by the selling of a heavy line that was held here by Capt. James M. Phillips, one of the largest farmers of Kansas. Mr. Phillips had two reasons for disposing of his wheat, the most important being that he had a profit in selling it. Another reason is that he seemed to be impressed with the idea that the Government report is to favour the bears. This selling caused other professionals to tail on, and the price received a set-back of nearly a cent. There were all kinds of rumours relative to the Government. The Price Current was bearish in its summary, saying that the crop outlook is fairly good. There was more talk of an improved cash demand here and at Duluth. Minneapolis stocks are expected to decrease 900,000 bushels for the week, while Duluth stocks are uncertain, depending on charters. North-Western and primary receipts are much smaller than a year ago.

Sales of Canadian Pacific in Wall street up to 2 p.m. were 9000 shares.

Sales of shares on the New York Stock Exchange up to 2 p.m. were 680,000.

ADOPTED ATLANTIC STANDARD TIME

Intercolonial Railway Informs Board of Trade Council of Its Decision.

WORD FROM MR. CHAMBERLAIN

Mr. R. C. Southard Appointed General Superintendent of Construction of New Building.

At the meeting of the Board of Trade Council yesterday afternoon a letter was read from the Intercolonial Railway, stating that the Minister of Railways and Canals had decided to adopt Atlantic standard time on the eastern division of that railway. Both the Montreal and Halifax Boards of Trade have favoured this change.

Consideration was given to Bill 48, an act to incorporate the Montreal and St. Lawrence Bridge Company, and because of its providing for the alienation of harbour property, the council was unanimous in opposing the scheme, and it authorized the sending of a deputation to appear before the Private Bills Committee at Ottawa in opposition to the bill, the naming of the committee being left to the president. It is understood that the bill comes before the committee next Tuesday morning.

GENERAL SUPERINTENDENT.

The president reported that the executive committee had arranged with Mr. R. F. Southard to act as general superintendent of the construction of the new building.

The council confirmed the arrangement made with this gentleman, and he will enter upon his duties immediately. Mr. Southard has had considerable experience in supervision of the erection of large buildings. He was superintendent of the rebuilding of the Merchants Bank of Canada, this city, and of the erection of Mr. C. R. Hosmer's house.

The Governor-General's secretary wrote that His Excellency had received from Mr. Chamberlain an acknowledgment of the copy of the resolution of the Montreal Board of Trade in regard to the fiscal policy of His Majesty's Government.

The Goderich Board of Trade had written with regard to the same resolution that it heartily approved of its recommendations, and would co-operate in any way the Montreal Board might suggest.

ADMITTED TO MEMBERSHIP.

The following were admitted to membership on the board: Messrs. Arthur Browning, insurance broker; Robert Lindsay, Bernard McNally, of the St. Lawrence Sugar Refining Co.; Randall Davidson, of the North British Mercantile Insurance Company, and F. L. Hutchinson, of Messrs. F. L. Hutchinson & Co., on the nomination of Mr. W. W. Watson; Mr. James McDonnell, hay and grain, on the nomination of Mr. C. B. Esdaile, and Mr. R. A. Brock, of the W. R. Brock Co., Limited, on the nomination of Mr. George B. Fraser.

PLUMBER GIVES EVIDENCE BEFORE INVESTIGATION COMMITTEE.

Another Meeting Held to Enquire Into the Recent Repairs at City Hall.

The committee, appointed to investigate into the repairs to the City Hall, held another meeting yesterday afternoon, Mr. J. Sadler, plumber, was heard. He explained his system of prices. The work he had done at the City Hall was more steam fitting than plumbing. He charged fifty cents an hour for a man and helper. The latter was twenty-two years of age, and was almost as good as a man. Had he been more than a helper he would have charged 35 cents an hour for each.

City Comptroller Dufresne produced bills from different plumbers. Ald. Ames made a casual examination of them, and remarked the general price for a plumber was 30 to 35 cents an hour. The bills were filed as evidence.

DEGREES AWARDED BY M'GILL UNIVERSITY

A meeting of the corporation of McGill University was held yesterday afternoon, when the following degrees were awarded:

Banquet to Mayor Cochrane.

Among the guests who have been invited to attend the complimentary banquet to be given on Wednesday evening next to Mayor Cochrane by the St. Lawrence Literary Club, are the three provincial Ministers from this district, Hon. Messrs. Archambault, Duffy and Cain; Mr. B. J. Coughlin, president of the Reform Club, and Mr. Robert Bickerdike, M.P. for St. Lawrence division.

Appreciated His Ministry.

The Stanstead Journal of April 3 details at length upon the farewell which was accorded the Rev. H. A. Brooke upon severing his connection with Christ Church at that place to take the assistant rectorship of the Church of St. James the Apostle. A deputation waited upon Mr. Brooke and presented him with a testimonial and a purse. The testimonial warmly commended the work which Mr. Brooke had undertaken at Stanstead, and it was with profound regret that the parishioners learned of his intended departure from their midst.

TERMINAL COMPANY WANTS A TWENTY YEAR CONTRACT.

Matter Will Come Up for Discussion at the Next Meeting of Council.

At the meeting of the City Council on Monday, next, the question of giving the Terminal Railway Company a longer franchise than five years will be taken up. The Council, some weeks ago, decided to give the company a five-year contract. The manager of the road, however, now asks for a twenty-year contract.

MATTER MUST BE FIRST INVESTIGATED

Question of Closing Up Sunday Stores Before Police Committee.

CHIEF LEGAULT'S REPORT

He Has No Intention of Prosecuting Those Who Do a Legitimate Business.

The question of closing up the Sunday stores was discussed at length at yesterday afternoon's meeting of the Police Committee, and it was resolved not to take any decisive measures until the matter has been thoroughly well looked into. Chief Legault made a report in which he said a state of things was known to exist behind the custom, so to speak, which could not be tolerated, as the morals of young people were in great danger. This was only true of a certain number of places. He had investigated them, and then took action. It was not easy to get evidence, the Chief said, and, as he did not wish to engage women or children to frequent the places, he decided to prosecute the proprietors for breaking the Sabbath. He intended to keep on prosecuting them till the houses were closed. Chief Legault said he had no intention of prosecuting those traders who did a legitimate business.

Chairman Lebeuf agreed with the Chief, and he explained that last year an attempt had been made to amend the law so that it would not include those persons who sold candy, cigars, newspapers and the like. Much opposition had been raised thereby, resulting in the withdrawal of the amendment. The question now was, did the committee desire to have the law enforced, and close up all the shops open on Sundays.

Ald. Ouimet wanted the Sunday liquor selling stopped, and Ald. Ames suggested that a private report be made for the committee. A petition had been handed in from a number of the storekeepers, and the committee ought to know just how many of the signers were widows and were worthy of attention. Several aldermen spoke on the subject, and it was then decided to have the private report prepared as soon as possible.

Ald. Walsh introduced the question of policemen being allowed to attend places of amusement in their official capacity for which they were being paid by the proprietors. The chairman said that it could not be tolerated, and a resolution to this effect was passed before the committee adjourned.

MISS LEEMING'S RECOVERY.

After Suffering With Catarrh of the Stomach For Five Years---Peruna Cured.

Miss Alice Leeming, 2074 St. Catherine street, Montreal, Canada, writes:

"I can conscientiously endorse Peruna. I suffered for five years with dyspepsia, which impaired my general health and deprived me of my usual nerve force. I spent much money on remedies and prescriptions without any benefit until I tried Peruna. Before the first bottle was used I felt much better and after ten weeks' treatment I was a new woman and in perfect health. I cannot speak too highly of Peruna."

MISS ALICE LEEMING.

The women are all talking about Peruna. Of course, they are. Why should they not? Peruna is the remedy that cured them. If they have a cold, Peruna cures them. They found that out by experience.

If they are hoarse or have a cough, they find Peruna an unfailing remedy. Weak lungs, and even the first stages of consumption, Peruna promptly restores, and then there are a host of women who have a slight derangement of the stomach and digestive organs. All these derangements are of a catarrhal nature. Peruna comes to the rescue at once. A very short course of Peruna is sufficient to put the stomach right and to make the assimilation of the food perfect.

But this is not all. This does not exactly explain why the women especially are talking about Peruna. Men, the same as women, have found Peruna useful in the above mentioned ailments. The reason that Peruna is such a special favourite with women is something more than all this.

Women are subject to pelvic catarrh. This condition has been called all sorts of names and is often referred to under the general phase, female diseases. Peruna cures these cases. Peruna cures them because it cures catarrh wherever located. The nature of most of these ailments is catarrhal.

Catarrh is liable to attack any organ of the body. It is especially liable to attack one or more organs of the female pelvis. No wonder women talk about Peruna. No wonder they think it is the greatest medicine in the world.

Miss Mildred Welsh, 208 State street, St. Joseph, Mich., President of the St. Joe Art Amateur Club, writes: "Since knowing the value of Peruna as a woman's remedy, I have wished that the women all over the land could know of its fine qualities as a remedy especially adapted to their own peculiar ills. My own experience with Peruna has been most gratifying, and I advocate it to my suffering sisters."

Miss Mildred Welsh, St. Joseph, Mo.

MISS MILDRED WELSH.

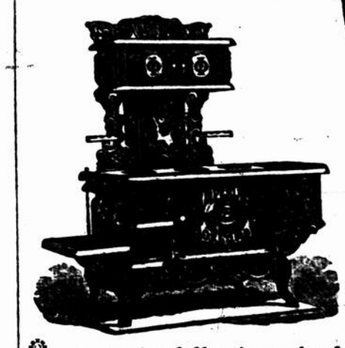

Peruna cures the catarrh wherever located. Peruna is not a guess nor an experiment—it is an absolute scientific certainty. Peruna has no substitutes—no rivals. Insist upon having Peruna.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

PERSONALS.

A very pretty wedding took place yesterday afternoon at half-past four o'clock, at Christ Church Cathedral, when Miss Beatrice Isabel Allan, daughter of Mrs. J. S. Allan, was married to Mr. Herbert Marler. The ceremony was performed by the Rev. Mr. Steen in the presence of relatives and friends of the bride and groom, and a large number of interested onlookers. The chancel and altar were decorated effectively with palms and white flowers. Mr. Norton presided at the organ. The bride, who was given away by Mr. Hugh Allan, looked charming in an exquisite gown of white bolting cloth, closely tucked and made over white taffeta. The bottom of the skirt was trimmed with a shaped flounce of Irish point, above which was an insertion of the same lace, edged with shirrings of bolting cloth. The bodice had a tucked yoke and sleeves, and a trimming of Irish point arranged to simulate a bolero, and caught in front by a large chou of white satin embroidered in pearls. The bride's veil was of Brussels lace, an heirloom in the family, and she carried a bouquet of lilies of the valley. The bridesmaids, Miss Ruth Allan, sister of the bride, and Miss Lorraine Percy, wore gowns of blue mousseline de soie, with yokes and insertions of Valenciennes lace, and toughes of black velvet. They also wore picture hats of black chiffon, trimmed with black plumes and white lace, and carried bouquets of Sunset roses. Mr. J. Cook was best man, and the ushers were Mr. Claude Hickson, Mr. W. J. Angus, Mr. George Montgomery and Mr. Henry Gault. After the ceremony a reception was held at the residence of the bride's mother, 90 Sherbrooke street, at which only relatives and intimate friends were present. The house was prettily decorated for the occasion in white and green. Later, Mr. and Mrs. Marler left on their honeymoon, and on their return will reside at the Marlborough. The bride went away in a tailor-made gown of gray cloth, the skirt trimmed with strappings of black moire, the smart coat made with revers of white satin, trimmed with cream lace, and smaller revers of pale blue panne outlined with black moire strappings. Her hat was of black chrysanthemum straw, trimmed with black tulle and a touch of black velvet. She also wore a white chiffon ruff. Among the many wearers of handsome gowns at the wedding were: Mrs. J. S. Allan, black grenadine, trimmed with insertions of coffee coloured lace, black hat trimmed with white tulle and steel, and bouquet of red roses; Mrs. W. de M. Marler, cream silk, with black lace applique, and hat to match; Mrs. A. A. Allan, gray crepe de chine gown, and black picture hat; Mrs. M. H. Gault, black peau de soie trimmed with jet, black velvet cloak, black bonnet, and bouquet of white roses; Mrs. S. H. Lever (New York), fawn crepe trimmed with lace, and touches of pale blue, large black hat; Miss Emily Gault, gown of gray brocade; Mrs. Colin Campbell, black and white figured oulard trimmed with black insertion, and white tulle hat trimmed with black; Mrs. C. McEachran, gray voile with trimming of cream lace, and black velvet ribbon, and hat of gray straw with black plumes; Miss M. Hickson, in gray, with white boa, and large black hat; Mrs. H. Paton, lavender and white satin foulard with trimming of white lace, black hat, and bouquet of white roses; Mrs. Samuel Finley, gray satin brocade, jetted black velvet cloak, and black and cream bonnet with pink roses; Miss Finley, in fawn, with touches of pink, Miss K. Finley, gray cloth trimmed with black velvet, and large black hat; Mrs. F. Adams, gown of fawn voile, and black hat; Mrs. Ibbotson, in blue with applique of cream lace, and flower hat; Mrs. Leslie Gault, in blue, with white chiffon boa, and fawn hat; Mrs. G. R. Marler, gown of fawn voile, with touches of gold, and light hat; Mrs. Laurie (Quebec), in gray, with gray plumed picture hat; Mrs. Blackader, in pale blue with insertions of black lace over white, and cream hat; Miss Daisy Howard, in gray voile with black hat trimmed with pink roses; Mrs. J. R. Hutchins, in black, with large black hat, and bouquet of red roses; Miss E. Marler, gray voile with touches of blue, and gray and blue hat; Miss H. Marler, light gray gown with cream lace applique, and blue hat; Mrs. H. Allan, costume of black lace over white; Mrs. C. E. Gault, costume of cream crepe and satin, chiffon boa, and cream hat trimmed with foliage; Mrs. P. R. Gault, in brown with trimming of cream lace, and hat to match; Mrs. W. Finley, in black, with black and white boa, and fawn hat with red roses; Mrs. Leslie Craig, black cloth, and light hat; Mrs. Percy, in black with yoke and belt of white satin embroidered in gold, and black and gold bonnet; Mrs. T. Craig, gown of heliotrope satin trimmed with black lace; Mrs. T. G. Finley, in black with touches of light blue, and foliage trimmed hat; Miss May Stephens, black tailor-made gown with revers of white satin embroidered in French knots, and white tulle hat trimmed with black velvet; Mrs. R. Fairbanks, black silk and mousseline de soie gown, black and white tulle hat and boa; Miss M. Greenshields, in blue, with blue hat trimmed with black, and gray boa; Mrs. F. Fairbanks, in black and white with rose trimmed hat; Miss Estella Holland, gray gown and boa, and gray hat trimmed with pink roses; Miss K. McEachran, in blue, trimmed with black lace, and cream hat; Mrs. Bacon, black jetted gown and black and white hat; Miss Bacon, in gray, with white boa, and pake blue hat; Mrs. W. FOOD DOES IT.

Restores Health More Surely Than Any Medicine.

It is a short road to trouble when the food does not supply the right material to rebuild the brain. You cannot use the brain without breaking down small particles every day, and you cannot rebuild unless the food furnishes the right kind of building material, and that is albumen and phosphate of potash. Not such as you get from the druggist but such as Nature stores in certain kinds of food.

Grape-Nuts contains these particles and well defined results can be obtained from using the toothsome, delicious food.

A brain worker whose name can be given by the Postum Co., Battle Creek, Mich., writes: "Last Fall I got in a desperate condition through excessive mental work and lack of proper food. I was finally compelled to abandon all business and seek absolute quiet and rest in the country.

I had been under the care of a good physician for several months, but it seemed my food did not rebuild the brain tissue properly. I was on the verge of despair when I left for the country.

Down at the ferry I purchased an evening Journal and my attention was attracted to the headlines of a Grape-Nuts advertisement which read, 'Food Cure Nature's Way.' I read it carefully and decided to give Grape-Nuts a trial, so next morning I went in on the new food and in two weeks' time gained 10 pounds and felt like a new man all over.

I candidly believe if I had known the remarkable sustaining power of the food prior to my illness I would not have needed a physician nor would I have been sick at all."

CHAPTER XV.—Continued.

"Auntie," said Harry, suddenly, "don't you think you could come to us for a visit? It would do father—I mean it would be such a great thing for father, and for me, too, for us all."

Mrs. Murray thought of her home and all its ties, and then said, smiling: "I am afraid, Harry, that could hardly be. Besides, my dear boy, there is One who can always be with you, and no one can take His place."

"All the same, I wish you would come," said Harry. "When I am here I feel like doing something with my life, but at home I only think of having fun."

"But, Harry," said his aunt, "life is a very sacred and very precious thing, and at all costs, you must make it worthy of Him who gave it to you."

Next morning, when Harry was saying "Farewell" to his aunt, she put her arms round him, and said: "Your mother would have wished you to be a noble man, and you must not disappoint her."

"I will try, auntie," he said, and could say no more.

For the next few weeks the minister and his wife were both busy and anxious. For more than eight years they had laboured with their people without much sign of result. Week after week the minister poured into his sermons the strength of his heart and mind, and then gave them to his people with all the fervour of his nature. Week after week his wife, in her women's meetings and in her Bible class, lavished freely upon them the splendid riches of her intellectual and spiritual powers, and together in the homes of the people they wrought and taught. At times it seemed to the minister that they were spending their strength for naught, and at such times he bitterly grudged, not his own toils, but those of his wife. None knew better than he how well fitted she was, both by the native endowments of her mind and by the graces of her character, to fill the highest sphere, and he sometimes grew impatient that she should spend herself without stint and reap no adequate reward.

These were his thoughts as he lay on his couch, on the evening of the last Sabbath in the old church, after a day's work more than usually exhausting. The new church was to be opened the following week. For months it had been the burden of their prayers that at the dedication of their church, which had been built and paid for at the cost of much thought and toil, there should be some "signal mark of the divine acceptance." No wonder the minister was more than usually depressed to-night.

"There is not much sign of movement among the dry bones," he said to his wife. "They are as dry and as dead as ever."

His wife was silent for some time, for she, too, had her moments of doubt and fear, but she said: "I think there is some sign. The people were certainly much impressed this morning, and the Bible class was very large, and they were very attentive."

"So they are every day," said the minister, rather bitterly. "But what does it amount to? There is not a sign of one of these young people 'coming forward.' Just think, only one young man a member of the church, and he hasn't got much spunk in him. And many of the older men remain as hard as the nether millstone."

"I really think," said his wife, "that a number of the young people would "come forward" if some one would make a beginning. They are all very shy."

"So you always say," said her husband, with a touch of impatience; "but there is no shyness in other things, in their frolics and their fightings. I am sure this last outrageous business is enough to break one's heart."

"What do you mean?" said his wife.

"Oh, I suppose you will hear soon enough, so I need not try to keep it from you. It was Long John Cameron told me. It is strange that Hughie has not heard. Indeed, perhaps he has, but since his beloved Ranald is involved, he is keeping it quiet."

"What is it?" said his wife, anxiously.

"Oh, nothing less than a regular pitched battle between the McGregors and the McEtaes of the Sixteenth, and all on Ranald's account, too, I believe."

Mrs. Murray sat in silent and bitter disappointment. She had expected much from Ranald. Her husband went on with his tale.

"It seems there was an old quarrel between young Aleck McRae and Ranald, over what I cannot find out; and young Angus McGregor, who will do anything for a Macdonald, must needs take Ranald's part, with the result that that hot-headed young fire-eater, Aleck McRae, must challenge the whole clan McGregor. So it was arranged, on Sunday morning, too, mind you, two weeks ago, after the service, that six of the best of each side should meet and settle the business. Of course, Ranald was bound to be into it, and begged and pleaded with the McGregors that he should be one of the six; and I hear it was by Yankee's advice that his request was granted. That godless fellow, it seems, has been giving Ranald daily lessons with the boxing-gloves, and to some purpose, too, as the fight proved. It seems that young Aleck McRae, who is a terrible fighter, and must be forty pounds heavier than Ranald, was, by Ranald's especial desire and by Yankee's arrangement, pitted against the boy, and by the time the fight was over, Ranald, although beaten and bruised to a 'bloody pulp,' as Long John said, had Aleck thoroughly whipped. And nobody knows what would have happened, so fierce was the young villain, had not Peter McGregor and Macdonald Bhain appeared upon the scene. It appears Aleck had been saying something about Maimie, Long John did not know what it was; but Ranald was determined to finish Aleck up there and then. It must have been a disgusting and terrible sight; but Macdonald Bhain apparently settled them in a hurry; and what is more, made them all shake hands and promise to drop the quarrel thenceforth. I fancy Ranald's handling of young Aleck McRae did more to bring about the settlement than anything else. What a lot of savages they are!" continued the minister. "It really does not seem much use to preach to them."

"We must not say that, my dear," said his wife, but her tone was none too hopeful. "I must confess I am disappointed in Ranald. Well," she continued, "we can only wait and trust."

From Hughie, who had had the story from Don and who had been pledged to say nothing of it, she learned more about the fight.

"It was Aleck's fault, mother," he said, anxious to screen his hero. "He said something about Maimie, that Don wouldn't tell me, at the blacksmith shop in the Sixteenth, and Ranald struck him and knocked him flat, and he could not get up for a long time. Yankee has been showing him how. I am going to learn, mother," interjected Hughie. "And then Angus McGregor took Ranald's part, and it was arranged after church, and Ranald bound to be in it, and said he would

SLIGHT CHANGES IN STOCK PRICES

Trading Has Reached Normal After the Boom in Steel Shares.

PACIFIC TO-DAY'S FEATURE

The General Tone of the Market Was Strong, There Being No Pressure to Sell.

The correspondents of the Montreal Star in Wall Street and on the Chicago Board of Trade report that stocks were steady, while wheat was easier. In the local market stocks were easier. Sales on the New York Stock Exchange yesterday were 975,584 shares.

The acuteness of the interest on the part of the general public in stocks is rapidly decreasing. This is evidenced by the decline in the volume of trading, and also by the diminishing crowd which has of late jammed into the public enclosure of the Stock Exchange. A great many of the people who were speculating in Steel have departed with their profits to buy lots and houses and such things in the suburbs.

MR. W. R. MILLER

Makes Cabalistic Signs When the Uproar is Too Great to be Heard on the Stock Exchange.

In the meantime the business of the exchange has about reached a normal level Boom times are not of the enduring sort in the stock business any more than in any other line. The traders who have gone away with profits have left others with high priced stocks, and they must watch and wait for the next opportunity when a fresh influx of buyers will relieve them of their holdings. If in the meantime they do not become weary.

Canadian Pacific was doubtless the most interesting feature of the market to-day. Matters have been shaping themselves for an upward movement for the past few days, and this morning's trading did not disappoint those who looked for a higher level. After closing at 113¾ yesterday, the price rose to 115, and closed the forenoon at 114¾. Wall Street was strong, and sold up to 115. The opening dealings in the local market were at 114, and after rising to 115 reacted to 114½, but again strengthened to 114¾.

Dominion Steel continued to show evidences of being subjected to manipulation, the feeling being somewhat on the heavy side. The opening dealings were unchanged from yesterdays close at 63, but through the forenoon the liquidation carried the price down to 61¾, where support was again given the stock, and the price rallied to 62¾, and closed at 62¾. Preferred was dull and steady at 94, with the bonds active at 91½ to 91.

Trading in other shares brought out no important price changes. Street Railway sold at 271¾ to 271, Toronto Rails at 118¾ to 118½, Twin City at 121¼ to 120¾, Power at 102 to 101¾, and Richelieu at 115 to 115½. Nova Scotia Steel was steady at 95 to 94¾, and Dominion Cotton at 50.

Messrs. L. J. Forget and Co.'s London cable to-day quoted: Grand Trunk first, 102¼; second, 86¾ third, 35; Canadian Pacific, 119; Anaconda, £5⅞.

The Montreal Clearing House returns of bank clearings for to-day are $3,913,226.

Additional capital stock of the New York Central Railway to the amount of $17,250,000 has been listed on the New York Stock Exchange, making a total amount listed of $132,250,000.

The March output of the Dominion Coal Co. amounted to 263,362 tons, and shipments 175,346 tons. This compares with shipments of 120,200 tons in March last year, 85,000 tons in March, 1900, and 22,300 tons in March, 1899.

Twin City earnings for March were $277,574, an increase of $36,937 over those of a year ago. For the year to date the earnings show an increase of $102,242, the total earnings being $791,210 for the three months.

In New York at noon, money on call was firm at 6 per cent. Prime mercantile paper, 4½ to 5 per cent. Sterling exchange was easy at 4 87¼ to 4 87¾ for demand, and at 4.85 to 4.85¼ for sixty days. Posted rates, 4.88 and 4.88½. Commercial bills, 4.84½ to 4.85¼.

The weekly statement of the Bank of England shows the following changes:

Total reserve, decreased	£308,000
Circulation, increased	272,000
Bullion, decreased	35,856
Other securities, decreased	7,775,000
Other deposits, decreased	231,000
Public deposits, decreased	3,720,000
Notes reserve, decreased	397,000
Government securities, decreased	500,000

The proportion of the Bank of England's reserve to liability is 47.75 per cent. Last week it was 41.59 per cent. Rate of discount unchanged at 3 per cent.

Messrs. J. S. Bache & Co., of New York, through their local manager, Mr. C. D. Monk, received the following Wall street advices:

Americans in London generally firm at to ⅛ above parity. Government crop report due to-day at 4 p.m. Price Current says crop conditions are unchanged. Speyer Bros. bought Choctaw, said for Rock Island. National R. R. of Mexico authorized bonds not to exceed $83,000,000 in connection with reorganization of Mexican National. No truth in rumours of purchase of L. and N. by Southern Railway. Bull pool in Southern Pacific resumed operations. Generally considered no probability of anthracite labour trouble. Metropolitan Co's ex-rights to-day. Trade interests are quite bullish on Sugar. Gates crowd principal bulls in L. and N. and S. R. Northern. It will not retire Green Bay B.'s. Additional capital stock of N.Y.C., $17,250,000 issued. Forty-six roads' fourth week March earnings increased 9.00 per cent.

Messrs. Burnett & Co., stock brokers, St. Sacrament street, received the following telegraphic advices to-day:

The New York Sun says: A conference has been held recently between President Pratt, of Pennsylvania, and Gould representatives for the purpose of bringing about an alliance by which Gould lines will enter New York over Pennsylvania system. Special despatch from Austin, Tex., to Times, says Choctaw will be affiliated with the Colorado Southern. Chicago Record-Herald says Pennsylvania interests will soon acquire possession of allied Plant and Atlantic Coast Lines system. Sub-Treasury statement shows banks lost $1,222,000 since Friday. People in a position to have accurate information say they have no knowledge of any pending close affiliations between Colorado and Southern and Choctaw.

London closing: Consols for money, 94; do. for account, 94⅛; Anaconda, 5⅜; Atchison, 81 3-8; do. preferred, 101; Baltimore & Ohio, 106¼; Canadian Pacific, 119⅛; Chesapeake and Ohio, 48; Chicago Great Western, 25; Chicago, Milwaukee and St. Paul, 172⅝; Denver and Rio Grande, 45⅜; do. preferred, 95; Erie, 28 3-8; do. 1st preferred, 70½; do. 2nd preferred, 56; Illinois Central, 146½; Louisville and Nashville, 117⅜; Missouri, Kansas and Texas, 25½; do. preferred, 55½; New York Central 167; Norfolk and Western, 58½; do. preferred, 92½; Ontario and Western, 33⅝; Pennsylvania, 77¼; Reading, 29⅝; do. 1st preferred, 42¾; do. 2nd preferred, 35¼; Southern Railway, 35⅛; do. preferred, 88¼; Southern Pacific, 68¼; Union Pacific, 104 3-8; do. pref., 90½; U.S. Steel, 43⅛; do. preferred, 96⅝; Wabash, 26; do. pref., 45¾; Spanish fours, 78¼; Rand Mines, 12 3-8; De Beers, 44⅝; bar silver, quiet at 24¾d per ounce, money, 2½ to 2¾ per cent. The rate of discount in the open market for short bills is 2 11-16 to 2¾ per cent., do for three months' bills is 2⅝ to 2¾ per cent.

Sales on the morning board of the Toronto Stock Exchange were: Canadian Pacific, 1000 at 114¾ to 115; Canadian General Electric, 23 at 221 to 222; Richelieu, 200 at 115⅝ to 116; Toronto Railway, 75 at 118¼; Twin City, 300 at 120½ to 121; Dominion Steel common, 710 at 62⅝ to 64¾; Dominion Coal common, 150 at 135 to 136; Nova Scotia Steel and Coal, 1062 at 96¼ to 96.

Montreal Mining Exchange.

Following were the sales at this morning's session of the Mining Exchange:

Dominion Consolidated—2500 at 4⅞, 2000 at 4½, 1500 at 4⅝.

Copper and Lead Markets.

NEW YORK, April 11.—Copper, dull; lake, 12⅛ to 12¼; electrolytic, 12⅛; casting, 12; lead steady at 4.10 to 4.15. London—Copper firmer, £53 3s; futures, £53 7s 6d; lead, £11 8s 9d.

HEARD AMONG THE BULLS AND BEARS.

The prognostications which were frequently heard recently when Dominion Steel was having its aerial excursion that a crash was inevitable, has proved so far to have been unfounded. The reaction from the highest figures, at 69 1-2, has been of the most modest character, and to all appearances the interests which are largely concerned in the present market price of the stock have no intention of permitting anything like a serious break, provided, of course, nothing serious occurs to upset well laid plans. There is too much at stake now to permit trouble to occur in the market, if it can possibly be avoided. The forthcoming issue of new common stock is the most important, and now that the price has gone above 60, it is altogether improbable that it will be issued at 25, as at first suggested.

When that price was talked of the stock was selling under 40, and possibly the management did not expect anything like the warm reception given to the stock by the public. Under the present circumstances it would be foolish to expect that a $60 stock will be given out for $25. It has been suggested that the company, instead of issuing $10,000,000 at 25, will instead issue $6,000,000 at 50, which would net the company the same amount for the purposes required. Whatever may be the course decided upon, it seems unlikely that the stock will be allowed to drop below 60, and when it reaches that level supporting orders are pretty sure to be given the market.

No sooner has Twin City Rapid Transit stock been placed upon a 5 per cent. dividend basis than the process of discounting the next raise, if, indeed, it was not started previously, has been commenced. There seems little doubt that Twin City has a bright future before it, but the haste with which the prospects are being discounted, not particularly by the general public, but in advance of the public by those who are interested and are manipulating the stock, is described in the local market by many as "unconservative." Already a section of the financial press is talking of the expected 6 per cent. rate, and already the stock is selling considerably higher than lots of good 5 per cent. traction issues. It is claimed by conservative interests that the company's affairs talk in a strain other than conservative about the future. In view of the closeness with which the dividends are running the percentage of earnings available for dividends on the common.

The air around the stock market is again filled with bullish whispers of an expected rise in Canadian Pacific. The price was strong yesterday at 113 7-8 to 114. Not only is this heard here, but from Wall Street comes the same talk. Many brokers favour the purchase of Pacific by their clients as being one of the best investments, as well as one of the safest stocks to buy on speculation. The future of the company appears so rosy that the consequent buying seems bound to have the effect of advancing the price. The road at its present rate is earning at the rate of 9 per cent. on its total issue of $84,500,000, without allowing for any increased earning resulting from the expenditure of 19,500,000 to be received from the recent issue of stock. This compares with earnings on Burlington of 9 per cent., on St. Paul common and preferred of 9.3 per cent., and on the Northern Securities of about 5 per cent.

A Wall Street writer estimates that there is $400,000,000 watering in capital of the United States Steel Corporation. Add to that about as much more for primary watering of the capital of the constituent companies, and at least half the capital of the successor monopoly is shown to be water. It would be gratifying to know that the failure of the steel stocks to move in a buoyant market was due to appreciation of this feature in the organization. But that is probably not the case. The shares are evidently neglected because nobody high in authority has formed a pool to trade in the shares. Activity in stocks is made, and not spontaneous. There can be no spontaneous combustion where there is as much water as there is in steel stocks.

Hon. Mr. Scott's proposed bill to remove restrictions imposed upon joint stock companies formed in Great Britain and the United States for the purpose of conducting operations in Canada is opposed by the leading financial men of Toronto. "We do not want any New Jersey laws in this country," said a leading broker. "If Mr. Scott's bill becomes law," he said, "we would have all sorts and conditions of companies coming into Canada to do business. You would only have to pay a small bribe to some 'heeler' or Government agent to secure the necessary legislation to do business. Canadians will never sanction any such thing, rest assured."

There was a rumour on the "Street" yesterday afternoon which caused some excitement in stock-broking circles. It was to the effect that the Nova Scotia Steel dividend on the common stock was to be put on an 8 per cent. basis in October next. Insiders, although not denying the report, refused upon being interrogated, to give any information concerning the company's intention. The rumour, however, is taken as a "pretty sure thing." The stock was in good demand at yesterday's session of the Toronto Stock Exchange, and the buying seemed to come from an inside source. The dealings in that stock in the local market have been very light owing to the fact that very little of the stock was placed in this city.

Grand Trunk Railway shares are at present booming in the London market. In view of the confidence in Mr. Hays' management, and the good earnings of the company. The first preferred have crossed the 102 mark, and the second and third preferred are working up gradually. London Truth refers as follows to the market for Canadian railway shares: "In the Grand Trunk market now things are much more lively, and some of the dear 'bears' find their tails uncomfortably twisted. This is largely due to provincial purchases, this smart rise in seconds and thirds, some of the weak "bulls," who got shaken out after the dividend was declared last month stealing timidly back to the market. It is to be hoped that no such unwieldy account will be piled up again. Remarkable, indeed, is the way in which the two Canadian companies maintain their receipts. The Canadian Pacific has an unbroken series of advances for the last ten weeks, the aggregate being nearly a quarter of a million sterling, a record that falls hardly short of startling. It must, of course, be borne in mind that the company has some 900 more miles open this year than last. I repeat that Canadas must go to 120, and that when they top the round figure the next five dollars rise will probably be much more rapid than the last. The Grand Trunk Company keeps its end up well with a gross increase of £20,000 since the beginning of the year, blizzards having retarded Grand Trunk earnings to a much greater extent than those of its sister rival, whose shares are dealt in by the Yankee market, although Canadian Pacific pre-ordinary issues find their proper local habitation in the Grand Trunk department."

The following railway earnings are reported:

OATS STILL WEAKER

Export Sales are Commencing — Decline in Manitoba Flour Forces Ontarios Down—Grain Markets ar Weaker.

The Liverpool market was steady today. May closing 1-4d higher than last night, at 5s 11 1-2d and July, 1-8d down at 5s 10 3-4d. Antwerp was steady to-day at 17 1-4 for No. 2 red winter. Paris was steady, April closing 5 down at 22.00, Sept and Dec. unchanged at 20.40. London quoted No. 1 hard winter wheat, passage, 29s 3d paid; No. 2 Club Calcutta, April, 29s 3d paid; No. 1 stand. Calcutta, arrived, 29s 1 1-2d paid; pspg., 29s 9d; Walla Walla, prompt, 28s 6d; Australian, pspg., 29s 6d; prompt, 29s 6d.

Weather in England and France was fine.

Chicago was weaker this forenoon, May options being quoted at noon as follows: Wheat, 5-8c down at 71 5-8c, corn, 3-8c down at 58 1-2c; oats, 5-8c down at 41 7-8c.

LOCAL MARKET.—Oats appear decidedly weak. Sales in store have been made at 44 3-4c, and it is thought they are not worth so much to-day. A sale of around 25,000 bushels was made for export at a basis of around 43 3-4c afloat. The market is for most part dull. No. 1 northern, store Fort William, May, is quoted at 71c; No. 2 is 68c; No. 2 oats are 44 1-2c to 45c in store Ontario wheat was steady. No. 2 spring being quoted at 74c afloat, May, and No. 1 being 75c afloat, May. Peas are quoted at 78c, high freights, and 83½c afloat, May. Buckwheat was 65c, basis afloat, May; No. 2 rye, 63½c afloat; No. 2 barley, 56c afloat, May.

FLOUR—The decline in Manitoba wheat has forced Ontario down. Quotations in car lots on track here: Manitoba spring patents, $3.85 to $3.95; best strong bakers, $3.55 to $3.65; winter wheat patents, $3.65 to $3.85; straight rollers, $3.35 to $3.45; in bags, $1.65.

FEED.—Quotations in car loads on track: Manitoba bran, in bags, $19.00; shorts, in bags, $22; Ontario bran, in bulk, $18.50 to $19; shorts are scarce at $21 to $22 in bulk; middlings, $22 to $23; moullie, $23 to $30, according to quality.

ROLLED OATS.—The market is easy. Quotations to-day were $4.40 to $4.50 in wood, and $2.15 to $2.20 in bags, car lots.

BALED HAY.—Business is being done at about $8 for No. 1 timothy and $8 for No. 2; clover ranges from $7 on track.

Steady Live Stock Markets.

The market at the East End Abattoir was reported dull this morning. Receipts were fair, those of cattle being 350 head, and those of calves being estimated by some at 2000 head. One load of very choice cattle was held at 5¾c to perhaps a fraction higher, but the sale hung fire. The top of the market for butchers was around 5½c, this being paid for fine steers. Heifers and odd cows brought 4 to 5c, and common stock 2¼ to 3¼c. There being an abundance of calves, the market ruled low, common ranging from $1.25 to $2.25 each; and pretty good from $3 to $5. There were only a dozen or so sheep, and these brought 3¾ to 4c; lambs being more plentiful at $3 to $5 each. Hogs sold at $6.50 off cars.

EAST BUFFALO, April 10.—Cattle, receipts light; feeling strong. Veals, tops, $6.25 to $6.50; fair to good, $5.50 to $6; common to light, $4.75 to $5.25.

Hogs—Receipts, 2,600 head; market active, 5 cents higher. Heavy, $7.25 to $7.30; mixed, $7.15 to $7.25; yorkers, $7.10 to $7.15; light do., $7.05 to $7.10; pigs, $6.75 to $6.85; roughs, $6.40 to $6.70; stags, $4.25 to $5.

Sheep and Lambs—Receipts, 9,200 head; lambs, dull, 10 cents lower; sheep firm. Sheep, tops mixed, $5.75 to $6; fair to good, $5.40 to $5.65; culls and common, $3.50 to $4.75; yearlings, $6.35 to $6.65; top lambs, $7.10 to $7.15; fair to good, $6.75 to $7; culls and common, $5.50 to $6.50; top clipped lambs, $6 to $6.25; fair to good, $5.25 to $5.75; top clipped sheep, $5.50 to $5.70; fair to good, $5.25 to $5.50.

New York Cotton Market.

NEW YORK, April 10.—Cotton futures opened firm. April, 9.19; May, 9.07; June, 9.09 bid; July, 9.08; Aug., 8.90; Sept., 8.45; Oct., 8.24; Nov., 8.14; December, 8.12; Jan., 8.15.

Special Notice.

"A Lady Burns Fifty Dollars."

A certain lady told a friend, "I have burnt $50." "How did you do that?" "Well, I bought a new piano from an agent and now find that I could have got exactly the same article at Leach's Piano Rooms for $50 less.

BUTTER STOCKS LIGHT

Very Little of Any Kind Held Here Now—Western Packers Paying High Prices for Eggs.

BUTTER.—The market is firm, and with held goods becoming scarce and new makes even scarcer, and not likely to increase much for a couple of weeks yet, there is a possibility of a slight advance before the decline, which many look for towards the end of this month. Receipts were larger to-day, being 716 packages. Some sales have taken place as high as 24½c wholesale, but 22 to 22½c is the general view of the market. Held creameries range from 16½ to 19c. Shipments from St. John, N.B., and Portland last week were 565 packages.

EGGS.—Receipts by freight reported on the Board of Trade to-day amounted to 1061 cases. The market was fairly steady, though apparently easier. Several firms reported sales at 12½c in lots, one house accepting that figure for a few cases in one instance. Others received 12¾c for 50-case lots, so that 12½ to 12¾c would be a fair range. Buyers are trying to get stock at 11 to 11½c f.o.b., but western packers appear to be paying 12c. Local men say this figure is ridiculous, and that they would sooner go without.

CHEESE.—The Liverpool public cable was up again at 54s. No further trading was reported to-day, and the market is steady at 10¾ to 11c for eastern, and 11 to 11¼c, and in some cases 11¾c, for western. Shipments from St. John, N.B., and Portland last week were 8154 boxes.

MAPLE PRODUCTS.—The market is steady. In bulk syrup sells at 5c to 5½c, and in tins it brings 55 to 65c for wine gallons, and 70c to 85c for imperials, according to quality. Sugar is 8 to 9c.

POTATOES.—The market is steady. Finest western stock is quoted at 70c on track; eastern and northern, 75c. Dealers are reselling, delivered, in 25-bag lots and upwards, at 85 to 90c.

BEANS.—The market was steady; 20-bag lots of finest primes are quoted at $1.10 to $1.15 a bushel. We quote $1.25 to $1.30 for small lots.

IN SOCIETY AT OTTAWA.

(Special to the Montreal Star.)

OTTAWA, April 10.—The weather yesterday afternoon was the worst the Friends of the Poor have ever had to contend with as regards their annual entertainment, and so the tea in the Racquet Court was very poorly attended. The only cheering circumstance in connection with it was that those who were there were very generous. Fortunately for the good work done by the society, a large number of tickets were sold beforehand. The Racquet Court looked very pretty indeed, and was filled with the cheerful music of a harp, violin and violincello. The tea table was decorative with crimson and white flowers, and the large lamp in the centre of the table was shaded with crimson. Mrs. Davison had charge of the tea table, assisted by the Misses Haycock, Davison, Sims and Higgins. Mrs. W. H. Davis presided over a most tempting candy table, where homemade sweets were sold in very pretty baskets. Mrs. Davis had for assistants the Misses McGee, Girouard, Grey and Chadwick. Mrs. Eyre had charge of the flower table, which stood at the lower end of the room in front of the large mirror and was decorative to the entire room. The young ladies assisting Mrs. Eyre were the Misses Chapleau, Baskerville, Davison, Coursol and Rheaume. Mrs. Lee was in charge of the ice cream table, assisted by the Misses Walker, O'Bara and O'Leary. Miss Harty and Miss Keeley had charge of the lemonade, and Miss Leprohon was in charge of a bran pie. Among the ladies who patronized the entertainment, and one who was among the generous ones, was Lady Laurier, and some of the home-made sweets, it was whispered, had been made by Lady Laurier.

The Ottawa Amateur Orchestral Society are giving their second concert for this season on next Tuesday evening in the Russell Theatre. It will be under vice-regal patronage. The society will be assisted by the famous harpist, Mr. John Cheshire, of London, England. The vocalists will be Madame Arcand, soprano, and Mr. Cecil Bethune, baritone.

After the Paderewski concert on Tuesday night a number of ladies went up to the House of Commons, where the Speaker's gallery presented a very brilliant appearance until early Wednesday morning. Few of the ladies who went up to the House thought of leaving before the vote was taken. It was rather a long visit to make to the gallery, but the monotony of it was broken by an interim in Madame Brodeur's pretty drawing room, where tea was served.

The Misses Borden, daughters of the Minister of Militia, are in New York, and do not return until the end of the week.

Mrs. M. P. Davis, Miss Davis and Mrs. Darcy Scott returned on Tuesday from a visit of some weeks to New York.

Mrs. Laurence Power was the hostess on Tuesday afternoon at a small tea, to which the guests were invited to meet Mr. Walter, of the London Times.

Mrs. H. S. Fleming gave a small farewell tea yesterday afternoon for Lady Alix Beauclerc, who is leaving Ottawa today with the Countess of Minto. Lady Alix Beauclerc is one of the most popular English girls who has so far visited Ottawa as the guest of the Earl and Countess of Minto, and her departure is much regretted.

Moving Day Postponed.

From present appearances it does not seem probable that the Grand Trunk people will move into their new building on McGill street before May. Mr. Hays has made several important changes in the arrangement of departments and it now seems likely that the stationery department which was to have had quarters on the top story will have to remain in its present rooms at Bonaventure. Other departments also which were promised accommodation in the new offices seem probably destined to disappointment.

SUPPORTS BERNIER'S NORTH POLE SCHEME

Chambre de Commerce Will Ask Sir Wilfrid Laurier's Assistance

IN BEHALF OF EXPEDITION

Holds That Canada Should at Once Discover Her Northmost Boundaries.

At the weekly meeting of the Chambre de Commerce, held yesterday afternoon it was decided to forward to the Prime Minister a resolution of the Chambre relative to the Bernier expedition to the North Pole. Attention was called to the necessity existing at the present time for Canada to extend its borders right to the North Pole. All the assistance possible should be given to Captain Bernier who had already given many proofs of his ability to carry out an expedition successfully. Mr. P. Parizeau asked that the Government be notified with regard to the rumours that the British Government intended to increase the import duty on all lumber, even that coming from the colonies. Any such action would result in much trouble because at this time of the year, the exporters were bound by their contracts which have been made on the old tariff. If any change was to be made it should not be made till next year. The Federal Government should inform the Imperial Government of the inconvenience that would result from any further tax being imposed at the present time. It was unanimously decided to write to the Government. On the motion of Mr. Charles Chaput, Mr. W. I. Gear, president of the Corn Exchange, was admitted a member of the Chambre.

MUCH HARD WORK TO GET ARTISTIC EFFECTS

The Mechanism and Labour Involved in the Production of Art Studies at Proctor's.

The manner in which the pictures, now being exhibited at Proctor's are prepared, forms a most interesting study. There is a great deal of rapid work behind the scenes before the public gazes on the finished production. The frame is lined on the inside with electric lights in red, white and blue globes and on top are three very strong arc lights all of which connect with a switch board placed in the wings. The electrician has his box on top of the frame, and is furnished with a light "plot" with the colours for each picture indicated. At a signal, the electrician of the theatre puts the house in darkness, while another electrician turns on the picture lights. A little bell gives the curtain signal and the picture is shown. Everything is done in the most systematic manner. There is a signal for every change. These are responded to so quickly that the entire production seems almost to be done by mechanical means. To be behind and see the miniature cars moving, the electricians working, and the scenes being rapidly changed is almost as interesting as the completed production given to the audience. Two large trucks, on wheels are prepared and while one picture is being shown, another study is being prepared on the remaining truck. Each truck has its own scenery and thus when the models ascend the truck, the picture is complete. The trucks are quickly rolled into position behind the monster frame, and the curtain is raised.

SYDNEY GRUNDY'S "LATE MR. CASTELO" BY THE GARRICK.

Dramatic Club Scored a Decided Success in Its Performance Last Evening.

"The Late Mr. Castelo," one of Sydney Grundy's clever farces, was produced at Stanley Hall last evening by the members of the Garrick Club. The performance, which was witnessed by a large audience, was certainly a credit to the club, indeed it was one of the very best productions ever given by this dramatic organization. There was a swing and "go" to the play seldom seen in performances of this character, and then, again, the choice of vehicle was very fortunate.

Miss Elsie Campbell was cast in the part of Mrs. Bickerdyke, and Mrs. Cecil T. Gordon had the character of Mrs. Castelo, with which to deal. It is not too much to say that both ladies never appeared to better advantage on the stage. The work was consistent, strong and professional in its flavour, while the make-ups were all that could be desired. Mr. Cecil Gordon, who has certainly a decided talent for the stage, was cast as Sir Pinto. He was the elderly club man to the life. Miss Blanche Cotton played Avice Bickerdyke; Mr. W. D. Ryde was Captain Trefusis; Mr. E. Vernon Nott had the part of Jack Unlake, and Mr. A. Rives Hall was the footman.

Prof. Goulet's Benefit.

The outlook for a crowded house for Prof. Goulet's testimonial concert, Friday afternoon, is very encouraging. This indefatigable conductor has worked so hard and successfully to make the Symphony Orchestra one of the leading musical features of Montreal that every lover of good music should turn out on this occasion and give Prof. Goulet a bumper house. The soloists form a leading feature. Miss Caroline Montefiore, a prominent New York soprano, and our leading baritone, Mr. Edmund A. Burke, will participate.

C. P. R. Sunday Train to Ste. Agathe, Labelle, Etc.

The C. P. R. Sunday train which leaves Place Viger Station, at 9.15 a.m., and at present runs as far as St. Jerome, will commencing May 4th, run through to Ste. Agathe and Labelle, returning, arriving Montreal at 9.45 p.m. This will be a great convenience to those interested in the fishing resorts of the Ste. Agathe and Labelle regions.

THROUGH ROUTE FROM THE WEST TO CAPE BRETON.

Bills Now Before New Brunswick Legislature Form Part of Webb's Scheme.

The bills to incorporate the Fredericton and Western railway and the Moncton and Eastern, now before the New Brunswick Legislature and which are in the interests of the Vanderbilt-Webb syndicate will form part of a through route from the west to Cape Breton. The lines strike New Brunswick at the head waters of the St. Croix river, run into Fredericton, thence to Moncton, and then into Nova Scotia. From Fredericton a branch road is proposed down the St. John river valley to St. John. The proposed bills give the company power to purchase charters of other railways. The parties are not asking any subsidies and are required to deposit $10,000 before the bills become law. The bills have been read a first and second time. The scheme is said to include a fast line of steamships from Louisburg and the making of St. John, N. B., the port for its export

Ernest St. Pierre, the young Quebec forger, has been sentenced to two years in the penitentiary.

THE MANILA ATROCITIES.

A British Opinion of the Court Martial Evidence.

LONDON, April 10.—Commenting on the evidence presented at the court martial in Manila, of Major Littleton W. T. Waller, of the United States Marine Corps, on the charge of executing natives of Samar without trial, and on the editorial remarks of American papers and of news papers here, the St. James's Gazette this afternoon says:

"Englishmen knew better than to hold a high-spirited, honourable people responsible for the dishonour of a single criminal. We have no doubt American honour will be vindicated in the same manner as the British has recently been by an award of swift, uncompromising justice to the guilty parties. In this country, our confidence in American rectitude is in no degree shaken by an isolated example of depravity such, as we know from experience, is liable to occur in the armies of the most civilized and most humane nations."

Lobster Fishermen Drowned.

HALIFAX, April 10. — News was received here yesterday of the drowning of three lobster fishermen at Keddore, 45 miles from this city, on the eastern shore. The names of the unfortunate men are Stadly Baker, aged 28, leaving a widow and two children. Fred. Baker, aged 21, unmarried, and Edward Mitchell, about 16 years old, son of Martin Mitchell. They started out to haul lobster traps, and their boat was found bottom up on the beach.

BRITISH MEDALS FOR CANADIAN HORSES

The Shire Horse Society Encourages Good Breeding.

THE GRAND TRUNK MEETING

Mr. Hays' Return is Commented Upon—An Encouraging Outlook.

(Special by cable from the Special Correspondent of the Montreal Star in London.

LONDON, April 10.—In view of the movement to improve the breeds of Canadian horses by the importation of registered Shire stallions, the Shire Horse Society of England, with which the King is prominently associated, has decided, at the suggestion of Mr. John Dyke, to award two gold medals for the best registered Shire stallion and mare at the Toronto and Winnipeg Fairs this year.

The Grand Trunk meeting to-day was quiet and moderately attended. Sir Charles Rivers-Wilson, amid cheers, expressed satisfaction at the return of that brilliant administrator, Mr. Hays, to whom he paid a strong tribute.

there is hope for a continuance of the present good times during the coming half year.

A shareholder asked why there were such heavy charges upon revenue account for the renewal of bridges, etc., instead of increased dividends.

Sir Charles Rivers-Wilson replied: "You must trust the Board. We are doing the best for the company."

WINDERMERE.

INSANE WOMAN'S TERRIBLE CRIME.

Shot Her Husband and Young Son and Then Took Her Own Life.

(Special to the Montreal Star.)

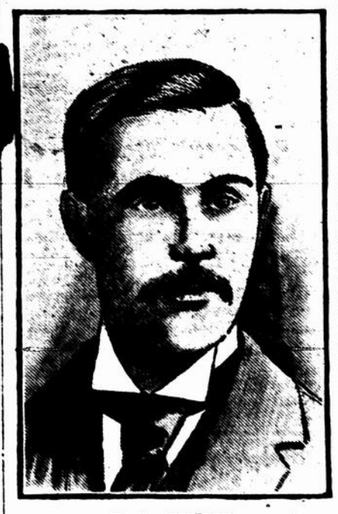

EVERETT, Washn., April 10. A shocking tragedy occurred here last evening when Mrs. Shepard R. Bucey, wife of the assistant cashier of the American National Bank, killed her husband, their four year old son and herself, in a fit of insanity. When assistance arrived at the house, the clenched hand of Mrs. Bucey retained the smoking revolver. In the parlour lay the form of Mrs. Bucey, shot through the heart. By her side was her four year old boy, Eugene, with a bullet hole through his head. In the dining room adjoining the parlour was Mr. Bucey's body with two bullet holes behind the left ear. The most reliable account of the tragedy is told by a servant, Elizabeth McNulty, who said:

"I was in the kitchen when Mrs. Bucey fired the first shot. I started in, but seeing her approach with a smoking revolver, returned to the kitchen, where Mr. Bucey's mother was with the 18 months old baby. With the second shot the old lady started into the room, when Mrs. Bucey ran up to her husband and fired two shots through his head. His mother cried out:

"Oh, She has killed my boy."

"Mrs. Bucey then killed herself. Mr. Bucey came home from the bank about 6.30 and everything seemed pleasant. There was no cause which I can imagine that would cause the tragedy."

Shepard R. Bucey was assistant cashier of the American National Bank and one of the most respected young men of the city and had been a resident here for a number of years.

Hon. Mr. Tarte in Buffalo.

BUFFALO, April 10.—Hon. J. Israel Tarte, Minister of Public Works for the Dominion of Canada, reached Buffalo last night en route from New York to his home in Montreal. In the party accompanying him are Miss Tarte, Mrs. Tenerth and Louis Coste, a civil engineer. Mr. Tarte was seen at the Iroquois and stated that it was his intention to remain in Buffalo to-day for the purpose of inspecting some of this city's grain elevators. The department over which Mr. Tarte presides is at present charged with the construction of a grain elevator at Montreal, J. F. Weber, of this city, who was recently awarded the contract for the construction of the elevator mentioned, it was stated, would accompany the distinguished Canadian on his tri[p] of inspection.

THE CANADIAN NORTHERN RY. BILL

Reported To-day by the House of Commons Committee.

MAY BE AMENDED LATER

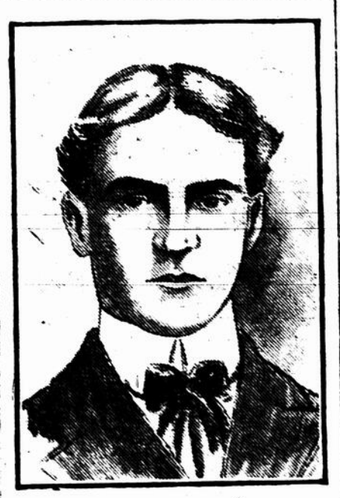

The Manitoba and North-Western Railway Bill Was Also Reported.

(Special to the Montreal Star.)

OTTAWA, April 10. — The Canadian Northern Railway Company's bill, in which Messrs. Mackenzie & Mann seek to obtain a charter for a transcontinental railway with a capital of $35,000,000 and bonding powers to the extent of $28,000 a mile, was the first order of the day for the Commons Railway Committee this morning. The order being called, Hon. A. G. Blair, at whose request the clauses dealing with the amount of the capital and the bonding powers stood over, stated that he regarded both these clauses as being of a restrictive nature, but in order to expedite matters, he would propose that the bill be reported and the clauses amended when the bill was under consideration in committee of the whole House. This was carried and the bill reported.

The Manitoba and North Western Railway bill, giving an extension of time for the construction of the road from York Town to Prince Albert, was considered. An interesting question arose in the discussion as to whether the passing of the bill carried with it the original land grant.

Hon. A. G. Blair said the bill did not renew the land grant, but there was legislation under which the land grant could be revived by an order-in-council. In answer to the Premier, he said no application for such revival had been made, and if his own opinion prevailed no land grant would be made. The bill was reported.

SWITZERLAND AND ITALY.

Diplomatic Relations Have Been Ruptured.

BERNE, Switzerland, April 10.—Diplomatic relations between Switzerland and Italy have been ruptured. This action arises from the refusal of Switzerland to give satisfaction regarding an article published in Geneva, insulting the memory of the murdered King Humbert.

The Bundesrath has sent the following communication to Parliament:

"Regrettable misunderstandings have occurred between us and Signor Silvestrelli, the Italian Minister. We have felt constrained to request the Italian Government in the interests of the good relations of the two countries to recall Signor Silvestrelli. The Italian Government having refused to do so, we broke off relations with Signor Silvestrelli, whereupon the Italian Government, on its part, has now broken off relations with our Minister at Rome. We shall publish the documents relating to this conflict."

Philip D. Armour's Estate.

CHICAGO, April 10.—The total valuation of the late Philip D. Armour's estate in Chicago and New York has just been arrived at. It amounts to $14,751,105, and to a large extent consists of personal property. In addition to the above named sum there is some real estate in Illinois and elsewhere, the value of which is not given. Mr. Armour left practically all of his estate to his widow, Malvina and his son, J. Ogden Armour.

PAYMENT OF WATER TAXES BY LANDLORDS

City Council Will Be Asked to Adopt Such a Scheme In the Near Future.

PRESENT SYSTEM A HARDSHIP.

Especially When Poor Families With Sickness in the House are Cut Off From the Use of Water.

The Mayor is having considerable trouble with the water tax. Every day numerous persons call on him and ask that water be not cut from their houses because of their inability to pay the tax. In very many cases His Worship has strongly protested against the custom of cutting off water in such cases. He is especially opposed to cutting off water from houses where there may be sickness. A painful case of this kind was brought before his notice to-day. A poor woman, who had sick children at home, was about to be deprived of water because she was unable to pay her water tax—$5. The amount had been owing for a year. The Water Department had frequently tried to collect the amount, but to no avail. At last an order was given to deprive the house of water.

After hearing the woman's story, the Mayor sent for an official of the "Long Room," and instructed him that the woman must be given water by the corporation until, at least, her children were better. The Mayor has wide powers in cases of this kind, and so the order had to be obeyed. The woman was deeply grateful for the continued clemency of the city.

The question as to the city cutting off water in cases of this kind, and the question also of the city depriving citizens of their right to vote at municipal elections, if they do not pay the tax, is to be brought up before Council by one of the aldermen. He will urge that the water tax should be paid by the landlords they collecting it, in turn, from tenants. It will be shown that where this custom has been adopted in other cities it has been extremely satisfactory. By collecting for water in this manner the city would lose practically nothing on account of bad debts.

The City Treasurer stated to-day that he was very strongly in favour of the water taxes being collected from the landlords. He contends it would not be a hardship for landlords to collect the tax from their tenants with the rents.

It is well known there will be a strong opposition to the motion that the tax should be collected from owners; in the other hand, there are members of Council who will make a strong fight for the adoption of this custom. It is well known that the masses would gladly approve of such an innovation.

WOULD ESTABLISH IMPORTANT INDUSTRY IN ST. HENRI.

Council Asked to Give Exemption of Taxes to Proposed Factory.

The St. Henri Council held a meeting last night, at which a letter was read from Mr. W. Hanaford, informing the Council that he wishes to establish a factory, employing 100 hands, and paying $30,000 annually in wages, and asking for an exemption from taxes. The application was referred to a general committee. The secretary read a communication from Mr. G. W. Stephens, requesting an amicable settlement of the long pending question of the improvements on the St. Antoine street extension; and suggesting that the work be completed within a specified period. The grading and macadamizing is going on very slowly on St. Antoine street west, and Mr. Stephens says that unless the Council comes to an arrangement within thirty days, he will enter an action for damages caused to his property.

It was decided, in compliance with the representations made by a number of taxpayers at a previous meeting, to construct a stair to the Westmount Canadian Pacific Station. This improvement will give the residents of St. Henri access to two railways instead of only one, as at present.

The contracts for the uniforms of the firemen were awarded as follows: Mr. E. Payette, trousers, $5; Mr. L. Lemieux, pea jackets, $9.50.

The request of the St. Henri Chemical Company for a reduction of taxes on the ground that the company is on the eve of removing from the municipality, was rejected.

The Ladies Approve

The Montreal Novi-modi Costume Co. opens two new Wardrobes this month. One at 1552 St. Catherine St. east; the other at 166 Sparks St., Ottawa.

Unless we pleased our customers, we would not keep on growing. They want the best expert designers and tailors can turn out, but they don't like tailors' delays or their big prices. Again, ready-mades lack that exclusive excellence and freshness of style characteristic of Novi-modi Costumes.

No wonder we keep growing. Men-tailored costumes $10 to $75. Money back if you are not pleased.
