THREATENS CIVIL WAR IN QUEBEC PROVINCE

GAUTHIER OF STE. HYACINTHE ASTOUNDS PARLIAMENT BY THIS MENACE, HON. MR. MEIGHEN MAKES BRILLIANT DEFENCE OF COMPULSORY BILL.

(Special to the Chronicle)

Ottawa, June 21—L. J. Gauthier, St. Hyacinthe, astounded Parliament tonight by a deliberate declaration of civil war in Quebec if compulsory service was enforced by the present parliament. "I want to be frank with the House and I want to make a few remarks in the name of my people. This is one of the most solemn hours of my life, and it may be my last opportunity to address the House of Commons of my country. I say to the Government: 'If you press the passage of that measure my people, declaring that this Government has no mandate, will use this very bill to fight it out. We acknowledge that in this fight there will be suffering, there will be pains. We may have to go to the direst consequences.'"

This bold declaration of hostile intent to the extent of resisting the law of the land by armed forces so astonished Parliament that even the anti-conscriptionists allowed Mr. Gauthier to resume his seat without the customary applause. Another French-Canadian member, J. Demers, St. John, Iberville, also spoke, but he was more moderate in his statements, confining his arguments to the reasons previously advanced by Sir Wilfrid Laurier and Ernest Lapointe. He admitted that, even if a referendum was submitted, he would oppose its adoption with all his might.

Meighen's Brilliant Speech.

Hon. Arthur Meighen made a brilliant defence of the compulsory service act. He declared that the passing of the referendum would bring joy to the heart of every German and every slacker in the world, that was the company the opponents of this bill found themselves in. The measure was not aimed at Quebec as, under the conditions prevailing in that province, the classes to be called and occupations exempted, Quebec would escape with less service than any other province. The Solicitor-General, in discussing the opposition to the measure, dwelt upon the different arguments advanced. Sir Wilfrid Laurier, the mover of the referendum resolution, declared conscription was coming too soon, while the seceder of the resolution, Hon. Frank Oliver, was equally emphatic that it was coming too late. In concluding his address, the Solicitor-General said that Sir Robert Borden had made a most generous offer to the Opposition to secure union, and that spirit still animated the Government. "We are ready to meet the Opposition half way," he concluded, "but we cannot purchase union at the price of national disgrace."

F. F. Pardee's address was a disap-

GERMAN PAPER DENOUNCES AIR RAID ON LONDON

HUN SOCIALIST ORGAN IS
SUPPRESSED FOR ITS OUT-
SPOKEN EDITORIAL.

Amsterdam, June 21 According to the Deutsche Tager Zeitung the Breslau Socialist newspaper Volks-wacht has been suppressed for protesting against air raids on London in which women and children are killed.

"Truly," the Volkswacht is quoted as saying, "our British comrades have no easy task in going to Stockholm to negotiate with their enemies. It is a miracle that they are not lynched or torn to pieces in such a moment of fury."

pointment to the conscriptionists. He started out as boldly as Hugh Guthrie but lamely concluded with a demand for a further trial of voluntary enlistment. Mr. Pardee declared against the referendum and in favor of the bill, paid tribute to Sir Wilfrid Laurier as the Empire's greatest statesman, condemned the Government for laxity in administration and lassitude in recruiting, and then urged that another effort be made to complete our army on a volunteer basis. His speech lacked the sincerity in tone and decisiveness in declaration of position of that of his Liberal colleague, Hugh Guthrie. Another Liberal, George McCraney, Saskatoon, also declared against the referendum. "Let us give reinforcements and not a referendum," he urged. Mr. McCraney advocated a general election before the bill was put into effect.

Hon. Charles Murphy, Secretary of State in the Laurier Government, stated his opposition to conscription, declaring Parliament had no mandate and that necessity of reinforcements had not been shown. Mr. Murphy dragged in the bilingual issue. He represents Russell as a French-Canadian constituency and has a French-Canadian rival in the field for the Liberal nomination. J. H. Burnham, West Peterboro, who threatened to retire as a protest against the bill, declared his intention of supporting it.

NEARLY ALL GROUND LOST TUESDAY IS RECOVERED—CROWN PRINCE'S TENURE OF CAPTURED POSITIONS SHORT-LIVED—TROOPS ARE ALSO BADLY BATTERED IN CHAMPAGNE—COMPARATIVE CALM PREVAILS ON BRITISH FRONT—ACTIVITY INCREASES IN RUSSIAN THEATRE—TREMENDOUS BATTLE RAGES ON THE TRENTINO LINE—ARTILLERY DUELS IN MACEDONIA—SITUATION IN RUSSIA SEEMS BRIGHTER.

The big German offensive against the French line east of Vauxaillon Monday, in which trenches were stormed and captured, has gone almost for naught, for the French forces in a violent counter-offensive had regained nearly all their lost ground Tuesday night.

Although the German Crown Prince had launched his attack with huge effectives, composed of picked troops, and covered it by a heavy artillery fire and by bomb-dropping aircraft, his tenure of the captured positions was short-lived and only a salient of 400 metres north-east of the Moisy farm now remains in his hands. In addition heavy casualties were inflicted on the Germans, who left many dead on the field of battle.

Likewise in Champagne the Crown Prince has been badly battered between Mont Carnillet and Mont Blond. In an attempt to recapture positions previously taken from them the Germans first were repulsed by the French who then assumed the offensive and advanced their line on a front of more than 600 yards and to a depth in excess of 300 yards. Here also the Germans lost heavily in men killed or wounded.

Comparative calm prevails on the front in France held by the British troops under Field Marshal Haig. Artillery duels are in progress on various sectors in Belgium, especially near Dixmude and Pypergaale.

In the Russian theatre, according to the Berlin War Office, the artillery of the Russians and Austro-Germans has increased in activity in Volhynia and Galicia. At several points the Russians have attempted to carry out raids against the Teutonic fronts, but are said to have been everywhere repulsed.

Little news explanatory of the real situation on the Trentino front in the Austro-Italian zone has been received, but unofficial reports say the battle, which is of great proportions extends along the entire line from the Sugana valley to the Asiago plateau. It is in this region that the Italians are endeavoring to break through the Austrian line to one of their main objectives—Trent.

There also is little information coming through concerning the operations in Macedonia, except that artillery duels are in progress on various sectors and that there have been local engagements between the Bulgarians and British in the Struma valley.

Daily the situation in Russia seems to grow brighter. Unofficial advice from Petrograd say that the Congress of Soldiers' and Workmen's Delegates of All Russia have voted confidence in the provisional government and gone on record as demanding a re-organization of the army and an immediate recommencement of hostilities against the Teutonic allies...

SIR WILLIAM PRICE BACK.

St. John, N.B., June 21—A party of 700 returned officers and men arrived from overseas today. Among those on board was Sir Wm. Price.

BRITISH STATEMENT.

London, June 21—The British official communication issued this evening says:

"Hostile raiding parties were repulsed by our fire last night south of the Baupaume-Cambrai road, east of Laventie and in the neighborhood of Lombaertzyde. Another party of the enemy succeeded in entering one of our front line posts near Lombaertzyde, but at once was driven out. A few of our men are missing.

"The enemy's artillery was active during today south and north of the Scarpe river."

FRENCH STATEMENT.

Paris, June 21—The official communication issued by the War Office tonight reads:

"In the course of the day fighting was continued to our advantage east of Vauxaillon. A counter-attack by our troops in a trench section occupied by the enemy in the sector of Moisy farm gave important results. At this hour we have retaken all of our positions with the exception of a salient situated 400 metres north-east of this farm, where enemy groups are still maintaining themselves.

"The artillery action remains very lively in this region. Between Hurtebise and Craonne our first lines were quite violently bombarded.

"In Champagne the advance made this morning by our troops north-east of Mont Carnillet was accomplished under particularly brilliant conditions. A German attempt about three o'clock in the morning to recapture positions which we had retaken from them on the 18th between Mont Carnillet and Mont Blond was repulsed by our grenadiers, who taking the offensive in their turn, pursued the enemy detachments into their own trench, which they captured. We made also an advance of 300 metres in depth of an extent of 600 metres. About 100 German dead remained on the ground.

"Belgian communication: Last night there was bomb fighting near the Ferryman's House and the usual artillery activity during the day.

ITALIAN ROYAL MISSION REACHES UNITED STATES

TREMENDOUS OVATION TENDERED THEM ON ARRIVAL IN NEW YORK.

New York, June 21—The Italian Royal Commission headed by the Prince of Undine arrived here this afternoon from Philadelphia. The party was met in Jersey City by a reception committee headed by Nicholas Murray Butler and Lloyd Griscom, former Ambassador to Italy.

When the Commissioners landed at the Battery they were given a tremendous ovation by great throngs of their countrymen and their Americans. Broadway, through which the Commission passed in automobiles on the way to City Hall, was lined with cheering thousands. The street was decorated with thousands of Italian flags.

ALLIED BLOCKADE OF GREECE LIFTED

ALLIES MUST THEREFORE BE SATISFIED WITH THE SITUATION IN GREECE.

Washington, June 21—Lifting of the Allied blockade of Greece was announced in a brief cablegram to the State Department today from Minister Droppers at Athens. This is taken here to mean that the Allies are satisfied with the Greek situation and that there is no further need to apply repressive or punitive measures.

Cordial co-operation between the Powers guaranteeing Greek independence and the new Greek King, Alexander, is expected. The blockade originally was imposed as a result of former King Constantine's antagonistic policy. It was very strictly enforced during the demobilization of the Greek army and the withdrawal of Greek troops.

The Weather

Toronto, June 21—A few local showers have occurred today in Alberta and Saskatchewan, also over Lake Superior. Elsewhere the weather has been fair, and in the Maritime Provinces quite warm.

CLOSING OF VICTORIA SCHOOL

MR. W. S. LAMB, PRINCIPAL,
GRANTED LEAVE OF AB-
SENCE ON ENLISTMENT.

The spacious hall of the Victoria School was filled to capacity yesterday afternoon by pupils, parents and friends, when the closing ceremonies prior to the summer holidays, took place.

The report of the Principal, Mr. W. S. Lamb, showed that excellent progress had been made in all grades during the term.

In the unavoidable absence of Lt.-Col. W. Ray, who was out of town, the Rev. A. R. Beverley, presided, and amongst those on the platform were Miss Winn, Lady Principal; Mr. A. E. Pfeiffer, Rev. A. R. Kelley, Rev. Mr. Cole, Dr. Farquharson, M. F. C. Wurtelle and Mr. W. S. Lamb, Principal.

The Chairman opened the proceedings with a short address, in which he congratulated the teachers and pupils on the excellent standard the school had attained in the recent examination. He also alluded to the splendid work of Mr. Lamb during the three years he had been Principal, and stated that it was with great regret the School Board were about to lose his services, at least temporarily. About three months ago Mr. Lamb appeared before the Board and tendered his resignation on the ground that he felt it his duty to enlist for active service. The members of the Board at that time felt Mr. Lamb was performing a patriotic duty by instructing the children, and asked him to reconsider his decision; later, however, Mr. Lamb intimated his determination to go to the front, and the Board instead of accepting his resignation, granted him leave of absence during the period of the war. Mr. Beverley then in the name of the Board, teachers and pupils of Victoria School, extended to Mr. Lamb their best wishes for his welfare at the front, and a safe return.

The girls of the junior grades then gave a very pleasing recitation entitled "The Flowers." The pupils of Grade II, rendered the patriotic song "Carry On," for which they were heartily applauded.

The Principal then read his report, which was as follows:

"I am pleased to find that the results of the examinations we have just completed give evidence of a successful year's work in the different grades of the school. The class percentages in general are a credit to teachers and pupils alike. There are four grades in particular which deserve special mention: Miss Jackson's Class, Grade VI, which took 87.4 p.c., the highest percentage of marks in the Senior Grades; Miss Gillespie's Class, one of the Junior Grades, which took 90.8 p.c. also our Grade V classes where Miss Moffat and Miss Rothera have done excellent work.

There are some special branches of work in the school which deserve our approval. It has given me much pleasure to note the progress of the pupils in Oral French during the term.

The Red Cross work has been carried on during the past five months with an enthusiasm which speaks well for the patriotism of the pupils and the staff. During that time the school has contributed \$9.00 towards Red Cross work. This money has been used in providing material for Red Cross sewing. The parents are cordially invited to visit Room 16 before leaving to see the work done during the month of May. There are 241 different pieces of work which our girls have completed since the first of May. We wish to thank Mrs. Finnis for the silver thimbles given to encourage our girls in this work. We sincerely thank the members of the Hebrew community who, each year, give so generously to our prize fund.

In conclusion let me thank the Members of the Board, Miss Winn, the Staff of Victoria School and the pupils for the many kindnesses shown me during the three years I have spent with you. They are years which I shall never forget but I will always look back to them with pleasure. I wish the school every success in the years to come and let me remind the girls and boys, as a farewell message that not only the future of our school depends upon your faithfulness, but the future of our country, our Canada."

The Rev. A. R. Kelly, Rev. Mr. Cole and Dr. Farquharson, then delivered short addresses, which were followed by the distribution of the cups won for shooting Miss Coombe winning the teachers prize for the best average in shooting and Master Weston Dacres for the average in the Boys' Competition. The Nelson Shield for the highest class percentage in Junior Grades was won by Miss Gillespie's Class, whilst Miss Jackson's class was awarded the prize for the highest class percentage in the Senior Grades.

Special prizes, donated by Mrs. Finnis, were presented to the Misses Beattie MacMillan, Laura Sleeth, Myrtle Pugh and Phyllis Lane, for the excellent sewing work they had done for the Red Cross.

Following the distribution of the school prizes to successful pupils, all joined in singing the National Anthem. Before taking their departure the pupils of the school gave three hearty cheers and a "tiger" for Mr. Lamb.

On Wednesday afternoon Mr. Lamb was the recipient of a valuable presentation consisting of a Wrist Watch and Fountain Pen, which was subscribed for by the teachers and

pupils of the school. Miss Winn made the presentation, and in the course of her remarks stated that they all regretted his departure, but fully appreciated the patriotism which prompted him in his wishing to serve his Country. In the name of scholars and teachers she wished him bon voyage and safe return.

AID IS ILLUSION.

The idea of mutual aid among ants is pronounced by M. Cornetz, a French entomologist, to be an illusion. In his observations, a single ant drags a load rapidly towards the nest, but when others take hold of the object they pull it in different directions, and slow progress is made.

CHILD'S SEVERE STOMACH TROUBLE

Harrison (Ont.) Father Says Dr.
Cassell's Tablets Saved his Child's
Life.

Mr. Corby, Harrison P.O., Ont., writes: "Our little girl was weak from birth, and though we tried doctors' medicine and other things got no better. She just lay in her cot and cried, and neighbors all said we could not save her. The doctors said she had stomach trouble, and that her chances were small, yet Dr. Cassell's Tablets cured her. They have been worth their weight in gold to us, for we were just giving up hope of saving our little daughter. I don't think there is any other medicine for children like Dr. Cassell's Tablets. Publish this letter if you like; it may help others as the Tablets helped us."

A free sample of Dr. Cassell's Tablets will be sent to you on receipt of 8 cents for mailing and packing. Address: Harold F. Ritchie & Co., Ltd., 10 McCaul-st., Toronto.

Dr. Cassell's Tablets are the surest home remedy for Dyspepsia, Kidney Trouble, Sleeplessness, Anaemia, Nervous Ailments, Nerve Paralysis, Palpitation and Weakness in Children. Specially valuable for nursing mothers and during the critical periods of life. Sold by druggists and storekeepers throughout Canada.

GIRLS HIGH SCHOOL CLOSING EXERCISES

SPLENDID SHOWING MADE BY
THE PUPILS DURING THE
LAST TERM.

The closing exercises of the Girls' High School took place yesterday morning, and was largely attended by parents and friends.

Rev. A. R. Beverley presided, and amongst those who occupied seats on the platform were: Miss Gale, Principal; Rev. Dr. Love, Dr. Parmalee, Secretary of the Protestant Committee of the Council of Public Instruction, and Rev. A. R. Kelley.

Miss Gale read the Annual Report, which showed that 187 pupils were enrolled upon the school register, the increase in members being most pronounced in Junior Departments, Grades I, IV, and in the Senior Department Grades VIII, XI. There was an increase of sixteen candidates writing on government and matriculation examinations. Reference was also made to the patriotic work of the school, which was well kept up by the School's Chapter of the Daughters of the Empire (Plains of Abraham).

Short addresses were delivered by Dr. Parmalee, Rev. Dr. Love, Rev. A. R. Beverley and Rev. A. R. Kelley.

Miss Sever, who has been a member of the school teaching staff for the past year, gave a farewell address, as she is going away to India on Mission work. She expressed her regret at leaving the school, but the call for workers in the Mission field was so strong that she could not resist the appeal.

A very pleasing musical performance was also given by the pupils, which reflected great credit upon them as well as their teachers.

The ceremonies closed with the distribution of prizes and the singing of the National Anthem.

The annual report and list of prize-winners will be published in tomorrow's issue.

GRAIN SUPERVISORS MEET.

Winnipeg, June 20.—The Board of Grain Supervisors for Canada held an organization meeting this morning in the council room of the Grain Exchange. The only matter of public importance dealt with was the appointment of an executive, composed of Dr. Robert Magill, chairman; J. C. Gage and James Stewart.

All members of the Board were present, and will be in attendance at the public sessions which commence tomorrow. It is not intended, however, that they shall spend all their time in Winnipeg, and for that reason the appointment of an executive to carry on the routine business of the Board was necessary. The Board has not yet named its secretary.

TECHNICAL SCHOOL CLOSING EXERCISES

ELEVEN STUDENTS GRADUATED—FORTY-FIVE NIGHT
CLASSMEN RECEIVED CER-
TIFICATES.

The closing exercises of the Quebec Technical Institute took place last evening, Principal A. Macheras, of the Montreal and Quebec Institutes, presiding.

The event was attended by many friends and relatives of the students whilst amongst those present in official capacities were: Principal P. Degraives, of the Quebec Institute, and Professors A. Buteau, C.E.; N. Kozet, C.E.; A. Vaillancourt, E.E.; J. R. A. Desy, A. Lacroix, B.A.A.; Mr. Arthur Paquet, M.P.P.; Mr. Ls. Lavoie and Mr. P. Lemieux were also seated on the platform.

Eleven students received their graduation diplomas, Mr. Alfred C. de la Chevrete, winning the gold medal and passing with great distinction in Mechanics and Electricity. Joseph A. Page was second, winning silver medal, and Mr. Patrick J. Fuller, was third, also taking silver medal.

Before the distribution of the diplomas and prizes, Principal Macheras gave an interesting lecture, which was listened to with attention by the young men who were graduating, as well as the attendance present.

Of 186 students who attended the night classes, forty-five received certificates for draughting, automobile, mechanics, etc.

The list of prize-winners follows:

First Year.

Jules Halle, Sir Lomer Gouin's prize.

Wilfrid Leblanc, Mr. Arthur Picard's prize.

Ernest Landry, Mr. L. H. Gaudry's prize.

Alfred H. Tremblay, Mr. C. A. Van-dry's prize.

William Fournier, Martin Madden's M.P.P. prize.

John Mill, Mr. Arthur Picard's prize.

Alfred Pinard, Mr. Degraives prize to the student for headwork and good conduct.

Second Year.

Albert J. Soucy, given by Building Society.

Josaphat Theriault, given by Art. Paquet, M.P.P.

Leo Paradis, given by Art. Picard.

Romeo Arsenault, given by Martin Madden, M.P.P.

Gerard Belanger, given by L. H. Gaudry.

Alphonse Blouin, given by Alex. Macheras.

Third Year.—Graduates.

ST. GEORGE'S SCHOOL CLOSED FOR SEASON

PLEASING PROGRAMME CAR-
RIED OUT—TEACHERS AND
PUPILS CONGRATULATED.

The closing exercises at the St. George's School took place last evening in the presence of Mr. Alex. Hyde, the chairman Mr. E. H. Walling, other members of the board and the majority of the parents of the pupils which numbered upwards of one hundred.

A very pleasing musical programme was carried out in connection with the distribution of prizes and closing of the school for the summer vacation. Every detail was carried out in a manner to reflect greatly on Miss Clarke, the lady principal and Miss Isabel Fraser. The successful year at St. George's School was highly commented upon by the visitors. Rev. A. R. Kelley and Dr. J. M. Harper delivered congratulatory addresses.

The following students have received graduation diplomas:

- 1.—Alfred C. de la Chevrete, Mechanics and Electricity; diploma with grand distinction and gold medal.
- 2.—Joseph A. Page, Mechanic, graduated with great distinction; silver medal.
- 3.—Patrick Jos. Fuller, Draughtsman, graduated with great distinction; silver medal.
- 4.—Ernest Delisle, Modeler; diploma with distinction.
- 5.—Eugene Lessard, Mechanic.
- 6.—Henri Talbot, Joiner.
- 7.—Charles Gingras, Mechanic.
- 8.—P. Dagneau, Mechanic.
- 9.—Jean Baptiste Dube, Modeler.
- 10.—Maurice Beaulieu, Modeler.
- 11.—Jules Croteau, Mechanic.

It is officially announced from Berlin that British hospital ships will be treated as war vessels and sunk at sight. They have been doing this "unofficially" for some time. The excuse is that hospital ships are used

CHEQUES PASSED BY BOGUS OFFICER

CAPTAIN DE WILLOUGHBY
FOOLED THEM ALL — SUR-
PRISING STORY TO TELL.

Hamilton, Ont., June 21.—This evening detectives placed under arrest at the armories Captain Percy De Willoughby, and are holding him until an officer comes from Ottawa to take him to that city. He was arrested after he went to the armories this afternoon to enlist, having been recognized through a circular that was sent to recruiting and police officers throughout the country by Col. Sherwood, of the Dominion police, at Ottawa. In this circular he is said to be wanted on a charge of passing worthless cheques. Back of the arrest of De Willoughby lies one of the most surprising stories that have come to the attention of the local police in a long time, and it interests both sides of the Atlantic.

According to the information the police have from Col. Sherwood's circular supplemented with what De Willoughby is alleged to have told them, he has had a remarkable career for the last few months, having lectured in several United States cities, and having met and been introduced to the members of the Balfour and Joffre parties in New York city.

De Willoughby is stated to have enlisted in England, where he was engaged as an accountant, and went with his corps to Havre, France. There he is alleged to have deserted, and to have returned to England, where he again enlisted under the name of De Willoughby. He obtained a commission, and is then alleged to have passed the worthless cheques, and was cashed and passed under open arrest. While under arrest he bolted to America and landed in New York.

He there represented himself to be Captain De Willoughby, D.S.O., of the Argyll and Sutherland Highlanders, and stated that he had been wounded several times. He was warmly welcomed, and was introduced to a number of influential people. He then started a lecture tour, and addressed a number of large audiences, one in Boston numbering four thousand people, with the British Consul as chairman. When the British and French commissions arrived in New York, he secured introductions to the Rt. Hon. A. J. Balfour, M. Viviani and Marshal Joffre. It was not long after that something was learned about him in New York, and according to Col. Sherwood's circular, that place became too hot for him and he left.

When he arrived at the armories, he stated that he wished to enlist as a private in any capacity, and was about to be accepted, when he was detected. He is about twenty six years of age.

AIR CRUISERS TO CROSS ATLANTIC

MR. HAWLEY SAYS THAT THEY
ARE BEING MANUFACTURED
ALREADY.

Washington, June 21.—A billion dollars probably will be required to put 100,000 American airplanes and 20,000 to 30,000 aviators in to the war. Allan R. Hawley, president of the Aero Club of America, told a sub-committee of the House Military Affairs Committee. He declared 25,000 aviators could do more toward ending the war than 1,000,000 additional soldiers. He endorsed the bill to establish a separate department of aeronautics.

What might remain of the 100,000 airplanes when peace is restored could be utilized for commercial purposes, he said. A French government commission is now making plans for such use.

Mr. Hawley predicted that the day of trans-Atlantic air lines was at hand.

"We are now manufacturing air cruisers capable of crossing the Atlantic and have both the pilots and the instruments needed for piloting them," he said.

AMERICAN SOLDIERS WANT TRENCH WARFARE

Boston, June 21.—Proposals to put National Guard officers of this State through a course of mimic trench warfare under the direction of Canadian officers and to send officers of the artillery branch to a school of that service in Canada for special instruction have been made to the War Department by Brigadier-General E. de Roy Sweetzer, acting adjutant-general of the Massachusetts National Guard.

CANADIAN HUNS FINED

Medicine Hat, Ab., June 21.—Two Germans, named Dosch and Welgerinck, were each fined \$200 and costs for trading with the enemy. They were found guilty of sending money to Germany through the United States and Holland.

CITY OF QUEBEC HAS A DEFICIT

STATEMENT OF OFFICIALS
PLACES IT AT \$11,051.00—
MAYOR DISAGREES.

Towards the close of the meeting of the Finance Committee last night Chairman Verret produced a statement which showed that the deficit in the financial operations for the fiscal year 1916-17 was \$11,051.10.

Mayor Lavigneur disagreed with the statement and placed the deficit at \$25,552.48, basing his figures on the contention that there were included in the revenue for the past year balances of unspent loans which could not be considered as revenue and could only be spent for the purposes for which they were borrowed. He said that he had consulted the City Attorneys in the matter and had their assurance that he was right.

Chairman Verret refused to take the Mayor's argument seriously, calling it a "chinoiserie."

The Mayor said that he had not had time to study the statement carefully, having received it only two hours before the meeting, but he would probably find many other items such as he had just referred to.

The Committee granted the incorporation of the Quebec Housewives' League and that of the Club St. Jean Baptiste.

It was decided to use a balance of \$6,000 borrowed for the reconstruction of Dufferin Terrace to purchase automatic gates for the Droûin and Dorchester bridges. The gates will be given employment elsewhere.

A sum of \$8,000 was voted to the Exhibition Commission.

The assessors reported on the value of the Board of Trade property, which was requested at a recent meeting. They placed the total value of the property at \$35,040. The land at \$4.00 a foot gave a value of \$33,040, and the building was placed at \$2,000.

The committee refused the offer of Mr. J. O'Brien to take an advertisement in an auto guide book, which he is publishing.

CANADIANS FIND GERMANS NERVOUS

HURRICANE BARRAGE FOL-
LOWS LEAST MOVEMENT IN
THE BRITISH LINES.

Canadian Headquarters in France, via London, June 21.—(By Stewart Lyon, special correspondent of The Canadian Press).—The enemy is still very nervous along the western front. The slightest sign of an abnormal movement on the part of the British or Canadian troops brings down what the official report characterizes as "hurricane barrage," the enemy depending chiefly upon his guns for the holding of the line. To counteract this our heavy artillery is taking on daily for destruction several of the enemy's more aggressive batteries. Enemy guns, large and small, are ranged along the Canadian front and in the rear. Some are over six miles behind the enemy trenches and the duty of the aviators sent out to check up the condition of the German batteries is no sinecure. Its peril seems to be an added attraction, for there is no lack of candidates for admission to the ranks of eagles.

The drafts from the Canadian depots in England to make good the wastage in the corps are of good quality. I hear nothing but praise for the new men, especially the artillery drafts.

AUSTRIAN CABINET CRISIS DEVELOPS

London, June 21.—A despatch to Reuters Limited from Amsterdam quotes Vienna advices concerning the Austrian cabinet crisis as follows:

"Conferences of the party leaders continue. Count Ciam-Martinic, the Premier, is said to be trying to form a Polish-German majority by appointing Polish, Czech, South Slav and Ruthenian members as extra Ministers in the governments in order to secure a lasting character for the cabinet, the program of which would be to pass the provisional budget and other national measures.

"A plan for a coalition Ministry is also being discussed. In such a cabinet the Ministries of Defence and Food Supply would be regarded as non-political, and eight portfolios would be divided among four Germans, two Poles and two Czechs. The cabinet would be enlarged by the appointment of two Germans and one representative each from German Bohemia and Ruthenia and one Pole, one Czech and one Southern Slav."

MINOR OPERATIONS WAS SUCCESSFUL

APPROACH TO LENS IS REN-
DERED MORE DIFFICULT BY
THE CANADIANS.

Canadian Headquarters in France, via London, June 20.—(By Stewart Lyon, special correspondent Canadian Press).—The approach to Lens has been made less difficult by a successful minor operation north of Souchez river. The object of the attack was a nest of German trenches lying at the foot of Reservoir Hill. These trenches radiate from the ruins of mining buildings which are to be chief places of shelter for the enemy between our front and Lens. Yesterday afternoon parties of bombers went out to capture these trenches by bombing operations. The attack was entirely successful. The trenches were cleared of the enemy, and the dugouts in which the Germans were believed to have been lurking were blown in and the ground incor-

porated into our system. Thirty-five prisoners were taken.

Enemy Repulsed.

During the evening and night the enemy, after an exceptionally heavy bombardment, made three separate and sustained assaults with the object of recovering the ground he had lost, but all were beaten off. This morning the situation is reported as again normal. The Germans are still hard at work upon their new line of trenches, concrete dugouts and wire entanglements which run across the open ground east of Reservoir Hill.

A striking testimony to the growing supremacy of the British aerial service is contained in a letter captured during the Messines operation. A German infantryman, writing from a point near Ypres, on June 16th, to a brother in the flying service, said: "One day we had a nice bombardment. All the dugouts were blown in, although they had a concrete head cover a metre thick. One gun was smashed up too, and the artillerymen had to clear out. This was mainly the work of the English airmen. They were so bold and impudent that they came down to a height of 100 metres and fired on us with a machine gun. None of our aeroplanes could show themselves. They were driven off at once. The English airmen did what they liked, and this was why the bombardment was so good."

GERMAN PROMISES BRAZENLY BROKEN

SLAVES DEPORTED TO GER-
MANY HAVE NOT BEEN RE-
PATRIATED YET.

Havre, June 21.—The Belgian government, in an official statement issued here today, declared that all the German promises to repatriate the Belgian men who were deported to Germany, have been brazenly broken.

Authorization for these workmen to leave Germany was issued only for a period of two weeks, the statement said, and it was made conditional upon the agreement of the deported persons to continue to work four or five months.

Nearly all the Belgian workmen refused to sign the agreement. Those that were allowed to re-enter Belgium were warned by the German military authorities that their visit to their native country would last

only two or three weeks. Thereafter, if the Belgians made resistance to the re-deportation, they would be subjected to forcible removal and punishment.

Under the foregoing circumstances the Belgian official statement said in conclusion, the Germans sent about twenty repatriates back to Belgium or put them to work at other tasks. The workmen so transferred, however, were not allowed to take with them even the things strictly necessary to their comfort and health.

OTTAWA LADIES INJURED IN RAID UPON FOLKESTONE

Ottawa, June 21.—Mrs. J. Roberts Allan and Mrs. S. H. Fleming, of Ottawa, two ladies who have been doing Red Cross work in England, were injured by bombs during the recent raid by the Germans over Folkestone, England. Mrs. Roberts Allan was badly injured and Mrs. Fleming slightly, according to information received here today.

VICTIMS OF SUBMARINES.

Paris, June 21.—Five French merchantmen of less than 1,600 tons each were sunk by submarines or mines during the week ending June 17, according to an official statement issued today. No vessels of greater tonnage were sunk.

Five merchantmen were unsuccessfully attacked by submarines.

CHILD VICTIMS IN LONDON BURIED

WREATHS BORE INSCRIPTION
TO CHILDREN MURDERED
BY GERMAN AIRCRAFT.

London, June 20.—Sixteen children, only two of whom were over five years of age, the victims of the last German air raid on London, were given a public funeral this afternoon, and their bodies were laid in a common grave in an East End cemetery, over which a monument will be placed.

Seldom, if ever, in the history of the country, have children been accorded such a funeral. The Marquis of Crewe attended in behalf of the Government, while Major-General Sir Francis Lloyd, general officer commanding the London district, represented the army. There were messages from the King and Queen, while the Bishop of London, assisted by the Bishop of Stepney, conducted the services in the church, which was a bower of flowers sent by children from all parts of the country.

The Quebec Chronicle

Printed and published by The Chronicle Printing Company, D. Watson, General Manager, at the building of the Chronicle, 9 Buede Street, Quebec.

QUEBEC, JUNE 22, 1917.

HIGH HONOR AWARDED TO QUEBEC GENERAL.

As General David Watson is the proprietor and manager of the Quebec Chronicle, we are naturally inclined to reticence regarding the distinction which he has won in this war. We cannot, however, refrain from voicing our satisfaction at the latest honor which has been conferred upon him. In addition to being a C.B. and C.M.G., he is now the proud possessor of the title of Commander of the Legion of Honor, the second highest title which it is in the power of the French Government to bestow. We understand that this coveted and justly world-famous decoration, the emblem of French chivalry, was recently received by General Watson while on leave in Paris from the hands of the President of the French Republic. This tribute from Old France to an English-speaking resident of the Cradle of New France is much appreciated by his friends as a further evidence of the Entente Cordiale existing between the two great races now fighting side by side on the western front for the preservation of Liberty, Humanity and Civilization—all the ideals that make life worth living.

THE ROOT MISSION.

That the Root Mission now in Russia will not have very easy sailing seems very evident. Herbert Bailey, the Petrograd special correspondent of the New York Times, says that only a few days ago he had a conversation with Mr. Tereschenko, who said that the chief province of the mission would be in the direction of threshing out the question of the aims of the war. There would be in this province difficulties that would demand the greatest skill of Mr. Root to overcome, "obstacles of a gigantic and formidable nature."

"It is not," says Mr. Bailey, "that any difficulties will arise with the Government, for within the Government there has always been a strong pro-American movement and a sincere desire not only to understand American views on the war, but also to forge bonds of real friendship; but the Government is not always its own master, and there are organizations, and powerful organizations, whose active demonstrations in favor of America when she entered the war have since subsided into an attitude of covert hostility toward President Wilson."

"These organizations, if they are not anti-war are only lukewarm supporters of the war against Germany, who are more inclined to quarrel with their country's allies than with the enemy, who are only supporters of the war because they fear economic enslavement from the Hohenzollerns. To these people President Wilson's declarations and policy mean prolonged war, and it is a prolongation of the war that they detest. They will doubtless see in the Root Mission an attempt to hold Russia to a hard and fast policy which would inevitably mean war to the finish and no compromise with Hohenzollernism."

Of course, America's entry into the war following the Russian revolution and the fact that America was the first to recognize the Provisional Government have created a great impression on educated and responsible Russians. But the best brains that American diplomacy can produce will be needed to handle the situation which is remarkable beyond precedent.

But, besides the functions of discussing the aims of the war and of cultivating American-Russian friendship, there is valuable work to be done in the matter of securing information for President Wilson regarding the determination and capability—or otherwise—of Russia to prosecute a vigorous war.

PITT'S COLONIAL POLICY.

"Chatham's Colonial Policy" is the title of a book from the pen of Miss Hotblack, a brilliant historian of Gorton College. Thanks to the masterly grasp of her great and intricate subject which Miss Hotblack possesses, there is presented in this small volume probably the cleanest exposition of the difficulties with which Pitt had to cope in establishing the great world-trade of his country in all quarters of the globe, hitherto published. Certainly there is no finer tribute to the genius of Pitt. Whether she is considering his policy in Africa, in Ireland or in India, his dealings with Frederick the Great, the Dutch merchants, or the American colonists, she bears convincing witness to the unerring justice and consistency of his statesmanship.

Miss Hotblack claims for Chatham that, "he ruled a kingdom and won an

empire." Not only did Pitt win an empire, not only did he successfully thwart French and Spanish enterprise and, which was his primary object, shatter the immense prestige of France, his most formidable rival in Europe, finally securing for Great Britain dominion in the Mediterranean, but by his methods and ideals he laid the foundation stone for that great democracy which his country was one day to establish. Had Pitt remained in office and in power there is no doubt that the American War of Independence would have been averted.

The Great Commoner is said to have stated that there were two roads to power, royal and national. "The path he loved best," writes his biographer, "led across the open spaces of the nation's common ground." Pitt understood the character of his countrymen as no statesman before him, and it was to them, not to King, or party, that he turned when in need of support. In commercial matters—and the intricacies of colonial warfare were mainly concerned with trade—he listened to business men, rather than to diplomats. Unerringly his genius grappled with the detail for constructing a great colonial empire which should also be a great commercial asset; with the utmost care he chose the men who were to carry out his will and unstintingly he supported and assisted them in their tasks, insuring for his country not only much temporary success, but enduring respect.

In his dealings with neutral countries while England was at war, Pitt showed the firmness of a man who knows perfectly his own mind, while he took immense pains to avoid making unnecessary enemies. "He gave law to the world," writes Miss Hotblack, "and it was a law with a sanction." It was, in fact, justice as he saw it, and his views of justice were far ahead of his time. While fiercely jealous for the preservation of certain trade monopolies to Great Britain, he was nevertheless swift to punish the excesses of English privilege and to redress legitimate grievances. "He was resolved to keep the rules of warfare," as we read, and thus preserve his country from all conflict, except that which he regarded as essential to her well-being. No chapter in the book is more interesting, nor more indicative of the temper with which Pitt sought to establish and maintain the Empire than the one entitled "The Stamp Act." At this time he was no longer in power, or he would have avoided the fatal policy which determined to tax the American people harshly, in direct defiance of thoughtful and loyal opinion in the colony, and then proceeded to make good its policy by force. From the first Pitt showed how completely he repudiated the action of the home Government.

In 1765, in a great speech, while reminding his countrymen of the benefits already accrued to England through American trade, he appealed to their good sense to avoid a quarrel, declaring that the mother country had no right to take the money out of the pockets of the colonies, without their consent. His speeches throughout this time show how thoroughly conversant and in what complete sympathy he was with the American point of view. Lord Sandwich, on reading his "plan for settling the troubles with America," observed, "I can never believe it to be the work of a British peer. It appears to me to be rather the work of some American." Thus Pitt, while faithfully administering the things of the old order, had a vision of the new. . . . the most magnanimous exertion of power," he declared in a memorable speech dealing with America, "is often in the non-exertion of it. I wish this to be an Empire of Free-dom; it will be the stronger for it and the more easily governed. . . . The Colonies are too great an object to be grasped but in the arms of affection."

BELGIAN'S SECRET PRESS

One of the first cares of the German military authorities after the German armies had overrun Belgium in the August of 1914, was the rigid censorship of the press. Most of the papers were suppressed, and those which were allowed to continue publication were entirely controlled by the German authorities. One, at least, of the great papers, however, L'Indépendance Belge, succeeded in "getting out of the country," and the story of how its indefatigable editor, M. Lemmonier, and his staff moved the office of the paper from Brussels, first to Ghent, then to Ostend, and, finally, to London, where L'Indépendance Belge has been published regularly, ever since, is one of the most dramatic stories of modern journalism.

Thereafter followed a period in Belgium when the country was almost entirely cut off from reliable news from the outside world, and English and French papers, smuggled in underneath vegetable crates in green-grocers' carts or at the bottom of boxes of grapes, in any and every

way in fact that an extraordinarily ingenious and resourceful people could devise, commanded almost fabulous prices and were secretly passed from hand to hand till they must have been almost indecipherable. All the time, the Germans were perfecting their methods of detection. The supply became more and more difficult to obtain, until at last, for all practical purposes, it ceased altogether. The Belgian, however, was not to be so easily thwarted, and gradually there came into being the now famous Belgian secret press.

When the history of this press comes to be written, and all the details, now necessarily suppressed, are woven into one connected narrative, the world will have a story to read which will surely be worth reading. Each paper—there have been several of them—will have its own tale of adventure, from the brilliant little Mottus, which only evaded the German secret service agent during such time as it could make three issues, to the "utterly undiscoverable" La Libre Belgique, which still makes its appearance "everywhere from nowhere." This last is certainly a remarkable production. The Belgian has one weapon which the German cannot take from him, and that is his irrepressible wit, his aptitude for a certain imp-like gaiety, only adequately described in his own word "zwanze," which one writer has well interpreted as "a spirit of mockery and broad fun, with a free and ingenious use of the methods of the practical joker."

The very idea, therefore, of a secret paper appeals irresistibly to the Belgian, and La Libre Belgique, with its quaint conceits and exasperating aerial-like cleverness, he finds specially acceptable. Its price is "elastic, ranging from nothing at all ad infinitum" and "the vendors are requested not to exceed this limit." Then its dates of issue are described as "regularly irregular"; its telegraphic address is given as "Kommandatur or German Military Bureau, Brussels"; whilst of its editorial establishment it is said "being no place of repose a cellar on wheels has been found more convenient." The Belgian rejoices to hear of its exploits. The latest achievement of La Libre Belgique, is, it may be taken, eagerly passed from mouth to mouth; whilst such stories as that of the member of the German Landstrum who walked solemnly about Brussels with a copy of La Libre Belgique pinned to the back of his uniform is the kind of thing Belgium, greatly and bravely enduring, is grateful for. It was also glad to remember in von Bissing's time that, whoever else went without, the military governor never failed to find a free copy of every issue on his desk.

SOUNDED LIKE IT.

"Gertrude," asked the teacher, "what were the causes of the Revolutionary War?" "It had something to do with automobiles," replied Gertrude. "Oh, no!" said the teacher "That was before the day of automobiles." "Well, it said it was on account of unjust taxes," said Gertrude, firmly. —Harper's Magazine.

THE LIMITS OF SUNDAY.

Doctor Parkhurst, at a dinner in New York, said of Sabbath observance: "There are too many of us who are like the Hempstead woman. This woman said to her little boy the other day: 'You mustn't roll your hoop in the front garden, dear. It's Sunday. Go roll it in the back garden.' 'Isn't it Sunday in the back garden, too, mamma?' the little boy asked."—Kansas City Star.

POETRY AND

ENDURING ELEMENT

Human sympathy is at the heart of every poetic utterance, whether humble or great; rhythm is its outward and visible, once audible sign; and poetry, from this point of view, would therefore seem to be an enduring element in our life.—Francis B. Gummere.

THE SECURITY.

The grand security of the gifts of God is that it is God who gives them. The giver lives forever, and is always at hand. I do not think He will give us any other security, and I am sure we can have none so strong.—Elizabeth Charles.

WHY HE ASKED.

A boy asked one of his father's guests who his next door neighbor was and when he heard his name asked if the gentleman was not a fool. "No, my little friend," said the guest, "he is not a fool, but a very sensible man. But why did you ask the question?" "Why," said the little boy, "my mother said the other day that you were next door to a fool, and I wanted to know who lived next door to you." The guest retired.—London Tit-Bits.

PRESS COMMENT.

If any nation ever earned a right to victory, Great Britain and France have earned it in this war. They were not as well prepared as Germany at the start—but they fought one of the greatest uphill fights of history since that time. France and England and Italy still have great armies and great courage. Let them hold their ground, for there is coming to their assistance a people which has had long experience with liberty and understands it, and which in the last analysis should be worth far more as an ally than Russia was worth even in the great days of Grand Duke Nicholas and General Brusiloff.—Cincinnati Times-Star.

PRO PATRIA.

(Charlton M. Lewis in the July Yale Review.)

Remember, as the flaming car
Of ruin nearer rolls,
That of our country's substance are
Our bodies and our souls.

Her dust we are, and to her dust
Our ashes shall descend:
Who craves a lineage more august
Or a diviner end?

The hunts-up sounds; the bugle-blast
Rings challenge; and the chase
Drives headlong to destroy the last
Destroyer of our race.

No lure of blood, no lust for prey
Impels us to the foray;
We blaze the way of breaking day,
And darkness is our quarry.

So, in the faith our fathers kept,
We live, and long to die;
To sleep forever, as they have slept,
Under a sunlit sky;

Close folded to our mother's heart
To find our soul's release—
A secret coeternal part
Of her eternal peace;—

Where Hood, Saint Helen's and
Raimier,
In vestal raiment keep
Inviolate through the varying year
Their immemorial sleep;

Or where the meadow-lark, in coy
But calm profusion, pours
The liquid fragments of his joy
On lonely shores.

ON A DESERT ISLAND.

What could the reader do if he should be cast away on an uninhabited island with only a pocket-knife in his clothes? An English missionary who met this fate gave his answer to the question in Charles Dickens' "Household Words," and it is reprinted in "Castaways and Crusoes," recently published. He opened oysters with his knife, for food; made fire with two sticks by friction, made a fish-hook from a shark's bones; got salt by evaporation; found a substitute for tobacco; devised a trap to catch wild pigeons; made pottery; built a house, and won the approval of the natives who finally rescued him as "a good Maori" for his ingenuity. Unlike Robinson Crusoe, however, he failed to capture either parrots or goats to relieve his loneliness.

Black as Dirt
About the Eyes

Liver was all Upset and There Was
Pain Under the Shoulder-blade
—Two Interesting Letters.

Toronto, Ont., June 21.—So many people suffer from derangements of the liver that we feel sure these two reports, just recently received, will prove interesting reading and valuable information to many readers of this paper.

Mrs. F. L. Harris, Keatley, P.O., Sask., writes: "I was suffering from liver trouble—had a heavy pain under one shoulder blade all the time, and was nearly as black as dirt around the eyes, so I concluded to try some of Dr. Chase's Kidney-Liver Pills. I did so, and before I had taken one 25c box the pain had left me and I commenced to gain in flesh, and by the time I had taken two boxes I was completely cured and felt like a new person. My trouble was caused by heavy work out-of-doors, and, of course, heavy eating and constipation. I would advise anyone suffering from kidney or liver trouble to give Dr. Chase's Pills a trial."

Mrs. Charles Terry, Tweed, Ont., writes: "Before I was married I was troubled with enlargement of the liver. My liver became so enlarged that you could detect the swellings on either side, and it was only with difficulty that I could get my clothes on. A friend advised me to get Dr. Chase's Kidney-Liver Pills and take them. I commenced this treatment, and used nine boxes, which cured me at that time. Then, about two or three years afterward I was troubled again with the swelling, but only on my right side. I secured some more Kidney-Liver Pills, and took them, which finally cured me. I have not been troubled in this way since. I can cheerfully recommend Dr. Chase's Kidney-Liver Pills to anyone having kidney or liver trouble."

IN AND ABOUT TOWN

BAND CONCERTS ON THE TERRACE

R. C. G. A. BAND WILL BEGIN ENTERTAINMENTS ON MONDAY NIGHT.

Quebecers in general will welcome the announcement that the R. C. G. A. band under the direction of their capable leader, Lt. Charles O'Neill, will give open air concerts on Dufferin Terrace from now until the end of the summer.

The first concert will be on Monday evening, weather permitting, and the band will play three times a week until the second week in September.

It is due entirely to the City authorities that the citizens will have such delightful entertainment on the Terrace, for, as pointed out at the meeting of the Finance Committee last night, the management of the Chateau Frontenac have thus far refused to contribute a single cent.

The City will pay the R. C. G. A. band a sum of \$1,500 and other bands have been engaged for concerts in different parts of the city as follows: Morin Band, \$200; Jacques-Cartier Band, \$200; Lambilliotte Band, \$200; Limoulin Cadets, \$150; Garde Champ-plain, \$150; St. Jean Baptiste Cadets, \$150; St. Louis Band, \$150.

SUE SPECTATORS AT SUNDAY MOVIES

CITY DETERMINED TO FIGHT PRACTICE IN EVERY WAY POSSIBLE.

The Civic Finance Committee recommended to the Council that instructions be given the Chief of Police to secure the names of between five and ten persons who frequent moving picture theatres on Sundays. So that prosecutions may be instituted for violation of the by-law governing Sunday observance.

Some actions had already been taken against alleged spectators who turned out to be employees of the theatre in question.

Mr. Hector Laferte, acting as advocate for the proprietor of the theatre, asked the City Authorities to suspend the execution of the judgments against spectators, failing which he would take out writs of prohibition in each case.

The Finance Committee resolved that the only way of fighting the matter was to prosecute ten persons each week and to have the Recorder impose stiff fines.

CORRECTION.

In the report of the Annual Meeting of the Valcartier Camp Khaki Club, which was published a few days ago, Mrs. Hubert Neilson who was elected 1st vice-president appeared as Mrs. Hubert Wilson. A donation of \$100.00 from Mr. R. D. Morrice, Montreal was also inadvertently omitted.

STAND TRIAL BEFORE COURSE OF KING'S BENCH.

A preliminary investigation in the case of a man named Jas. Tanguay, accused of a criminal offence, was concluded yesterday. The accused pleaded not guilty and is committed to stand trial before the Court of King's Bench at the next term on October 10th.

George Vezina, held on two accusations of forgery, has chosen a speedy trial to take place on July 9th.

CELTIC JAPANESE.

The Annus, the Celtic race of Japan, live in the Island of Yeddo, although the race has become so reduced that there are now not more than 16,300 or 17,000 of them left in the country. The most noticeable peculiarity about Ainu women is that they have tattooed upon their upper and lower lips what resembles a moustache. The women are not considered attractive, and their matrimonial prospects are quite injured without this decoration. The moustache is begun when the girl is quite a child. It is done gradually, a little across the cheek, the material used being the soot from burning birch bark. The face is cut and the black rubbed in. Afterward it is washed in a solution of ash bark liquor to fix the color. The Ainu women are usually finely formed, straight and well developed, with small hands and feet. The eyes are beautiful soft brown, their hair black and most luxuriant, and their complexion olive, with often a deep rich color in their cheeks. The native cloth of which their garments are made is woven from the fibre of the bark of the elm tree.

Will sail from Quebec, Customs House Pier, at 7:00 p.m., on the following dates: June 13th and 23rd, July 7th, 18th and 28th, calling at Godbout and all intermediate places as far as Nastashuan. Sailing of June 23rd, steamer will run as far as Harrington Harbour.
Goods are received the day before and on sailing day up to 5:00 p.m.
Excellent accommodation for passengers.

BUSINESS BEFORE BOARD OF TRADE

PRESIDENT ADDRESSES MEMBERS — CONGRATULATES MEMBERS AT THE FRONT.

The last monthly meeting of the Quebec Board of Trade before the summer vacation was held, yesterday afternoon under the presidency of Mr. J. G. Scott, His Worship Mayor Lavigne and many of the city's business men were present and heard an address by Mr. Geo. Gale on Shipbuilding—past and present. The subject which is so prominent of late since the demand for tonnage is becoming more and more urgent, was treated in a very capable way by Mr. Gale. The address was replete with interesting facts of the once thriving industry in Quebec.

Before the address the business to come before the meeting was disposed. The President made some remarks referring to the workshops of the Transcontinental Ry. and the freight terminals of that railway on the St. Lawrence front of the City. The President's address will be published in full in tomorrow's issue.

Before moving the adoption of the report, Mr. Jos. Picard remarked that the Government was bending most of its efforts to matters dealing with the war and he did not think that the representations from Quebec would be of much avail at the same time he thought it would do no harm for the Board of Trade to keep the City's requirements constantly before the authorities at Ottawa, so that when the war is over Quebec's demands might be met.

Mayor Lavigne congratulated the Board of Trade on its efforts and assured the President and members that the work being done by them was appreciated by the citizens in general. Mr. G. A. Vandry and Mr. P. B. Dumoulin added a few remarks.

Board Members at Front.

It was moved by Mr. Godfrey Rhodes and seconded by His Worship Mayor Lavigne, and resolved: That the Secretary do write to the members of the Quebec Board of Trade now serving at the front, namely to Major General Sir Ernest Turner, K.C.M.G., V.C., C.B., D.S.O., member of the Legion of Honor, and to Major General David Watson, C.B., C.M.G., D.S.O., congratulating them upon the signal honors conferred upon them by His Majesty the King, for their distinguished services.

The resolution which was adopted with enthusiastic applause, was accompanied by eulogistic remarks by the proposer and seconder.

Mr. G. A. Vandry moved, seconded by Lt.-Col. E. F. Wurtelle: That the Quebec Board of Trade learn with sorrow the news of the death in England of Col. Thomas Hunter Grant, who was Secretary of this Board from 1866 to 1874, and takes this opportunity of placing on record its appreciation of the late Colonel Grant's many and distinguished services to the trade of this city and of Canada at large.

As an energetic and capable officer of the Board of Trade, a founder of the Quebec Marine Insurance Company, one of the founders of the Quebec Steamship Co. and of one of our banks, a prominent delegate of the commercial men of Canada at the Detroit convention of 1864, and as being in close touch with the Imperial Government, Colonel Grant rendered signal service to his native city, and to its commercial interests. That a copy of this resolution be transmitted to his family. The resolution was adopted on standing vote.

The following resolution was referred to the Council for further consideration.

Moved by Ernest F. Wurtelle, seconded by L. Belcourt: That a standing committee on Hotels be appointed in the interest of this important line of business, with the following gentlemen as members:

Messrs. J. Art. Gagnon Proprietor and Manager St. Louis Hotel, F. McMahon, Manager Chateau Frontenac, Henri Fontaine, Proprietor Victoria Hotel, Marcel Fortin, Proprietor Mountain Hill House, J. C. Cloutier, Proprietor Blanchard Hotel, Georges A. LeVallee, Proprietor of Neptune Inn, J. T. Regan, Proprietor of the Clarendon Hotel.

It was proposed by Jos. Picard, seconded by E. Harper Wade: That, in view of the differing reports which have been recently made by the majority and minority members of the Royal Commission, appointed by the Government to study and report upon the railway system of Canada, and the best mode of overcoming the difficulties which have been created by the unfortunate duplication of railways in many districts, the Quebec Board of Trade is of opinion that it would be wise for the Government to carefully study the position again, before coming to any decision in favor of the adoption of either of the reports which have been submitted. That there are many reasons why it would not be advisable that the railway system of Canada or any very considerable part of it should be under Government ownership and management, which experience has proved to be not satisfactory in many respects.

GENERAL LESSARD CORRECTS MISTAKE

HERE IN CONNECTION WITH DUTIES NOT TO TAKE OVER DIVISION.

General Lessard, who arrived in town yesterday and who was reported to have taken over the command of Military District, No. 5, says that this report must have been founded on a misapprehension. The purpose of his visit is simply in connection with his official duties as Inspector General and there is no change in the present organization of the division.

The General, who will probably be occupied here for a month or so, voiced his great satisfaction at being privileged for a time to carry out his military duties in Quebec, his old home, where he had spent so many pleasant and useful years in his earlier life. He welcomes this opportunity of renewing many enjoyable old acquaintanceships.

pects; that the progress of the country would be better stimulated by the initiative developed by company management, and that the Government management of the mileage between Halifax and Winnipeg, now operated by the Government should be sufficient to regulate rates so as to direct the western trade to Canadian sea ports; and that it would seem wise for the Government to let the railways work out their own financial problems, and to concentrate its efforts upon the proper equipment of our seaports with steamship docks and grain storage, upon reducing marine insurance rates and thereby attracting vessels to our seaports, upon building or causing to be built ocean steamers to carry the trade of Canada, and in this way making our railway system fulfil the objects for which it was created, and arrest the alarming diversion of our trade to United States seaports. And that copies of this resolution be forwarded to the Right Hon. the Prime Minister, the Minister of Railways and the City representatives in the Cabinet, and in Parliament.

Among those present were: J. G. Scott, President; Ed. Conway, Jos. Picard, Robert Stewart, J. E. Mahy, Belgian Consulate; Godfrey Rhodes, A. F. Leclerc, G. A. Vandry, E. Bail, largeon, Ernest F. Wurtelle, P. J. Frederick, M. R. Carrol, L. Belcourt, O. W. Bedard, J. T. Ross, P. Brunet, Septimus Barrow, John G. Leve, Alex. Hardy, P. B. Dumoulin, E. Harper Wade, H. E. Lavigne, James A. McManamy, J. B. Ramsay, M. Monaghan, B.A.; Ph. Furois, C. A. Paradis, Cyr. Tessier, Ls. O. Beaubien, T. Levasseur, Secretary.

Details of Mr. Gale's address will be found elsewhere in this issue.

TENNIS CONTEST SHOULD ATTRACT

LADY PRICE IS GIVING HANDSOME PRIZES FOR EVENTS NEXT TUESDAY.

One of the interesting features of the garden party to be given by the Stadacona Chapter of the Daughters of the Empire at the Garrison Club next Tuesday will be the tennis tournament which will be open to all.

The matches, which will be played on the grounds of the Quebec Lawn Tennis Club, will consist of mixed doubles. The entrance fee for each person will be fifty cents and it is hoped that there will be a ready response as the whole proceeds will be devoted to patriotic purposes. Entries for the ladies should be sent immediately to Mrs. Handsombody, Genevieve Avenue, and those for gentlemen to W. P. Osborn, Chronicle Office. They can, however, be deposited at the Quebec Court up to 6 p.m. on Saturday. All entries must be accompanied by entrance fees or they will not be considered. Those of ladies and gentlemen must be separate.

As the time is so limited, all the rounds except the final, will consist of one set only. In the final two sets out of three will decide the issue.

Very handsome prizes will be presented by Lady Price for this event and these will take the form of munition trophies which have been purchased from the magnificent collection gathered by Mrs. Col. Lafferty for the garden party, which promises to be a success in every way.

It is announced that the Vice-Royal party will be present at the tournament.

FRANKIE FLEMING

READY FOR ALLEN

In The World of Sport

YESTERDAY'S RESULTS

AT CONNAUGHT PARK

FRANKIE FLEMING IN TOWN
READY FOR ALLEN TONIGHT
AT GRANDE ALLEE RINK

Canadian Featherweight Champion Confident That He Will Trim Brooklyn Fighter, But Says "Red" Must Make 138 Pounds—Montminy and McDonald in Semi-Final—Largest Crowd on Record is Expected to Attend.

Frankie Fleming, featherweight champion of Canada is in town and is stopping at the Chateau Frontenac. There is some class to Frankie and he stops only at the swell hotels. He is accompanied by his manager. He looks to be in the pink of condition and Quebec fans will have a chance of seeing just what he is capable of in the fistic trade when he hops into the ring against "Red" Allen at the Grande Allee Rink tonight.

"I know Allen is a tough boy" said Fleming, last night. "But he will have to make 138 pounds for me, and even then will have ten pounds advantage, which I hope to neutralize through my superior speed and ring knowledge. There is always a chance that the Brooklyn boy may land a telling wallop on me, but I am taking that chance and expect to hand "Red" and the crowd, a surprise by dropping the red fellow if possible. It will be my first bout in Quebec City and I am anxious to make a good impression here, as some press reports from Montreal at times, have not always been favorable to me, though I have always done my best in my fights."

Fleming would have made necessary connections to fight here on Wednesday but for the fact that he had a misunderstanding with the Irish-Canadian Club over the suggestion of a postponement. When news came definitely that the fight was on for Wednesday, it was impossible for him to get here in time, due to the fact that he was outside of Montreal.

However, the fans won't be disappointed tonight. "Red" Allen is here and "Red" says he'll make the 138 easily—may be 137. Allen is out to build up his reputation by flooring Fleming, if such a thing is possible.

"I've watched Frankie go against Wallace and Kilbane," said Red, "and I believe I can solve his style. You just watch me go tonight."

The semi-windup event will bring together the hard hitting local boy, "Joe" Montminy and Sailor McDonald from Halifax. Montminy looks to be as hard as nails and is much faster than usual. McDonald comes here with a big reputation, part of which Montminy intends to assimilate.

The preliminary attraction will be Parent and Piset—a real grudge scrap—which will make the crowd gasp with astonishment. Both boys are out to win and as usual, those first inning affairs are chuck full of action. There may be another six-round affair, but so far, the principals have not yet signed up.

The management of the Club have not yet been assured that "Billy" Armstrong will be on hand to referee but they expect him to be in town today.

Undoubtedly one of the largest crowds which has ever witnessed a boxing match in Quebec will pile into the Grande Allee Rink this evening, to watch Allen trying his luck with Canada's best featherweight.

Yesterday's Results:

Yanks Beat Red Sox.

New York, June 21—New York won a nip and tuck game from Boston here today by a score of 5 to 4. The Yankees scored their winning run in the eighth inning on Pipp's single, Miller's infield out and Peckinpah's double. Boston filled the bases with one out in the ninth inning, but Gardner who had made three hits, ended the game by hitting into a double play.

The score: R. H. E.
Boston . . . 011 000 000—4 9 1
New York . . . 001 030 014—5 10 1
Shore, Penneck, and Agnew; Love Shocker, and Nunamaker, Walters.

Cicotte Lost Close Game.

Chicago, June 21—Bagby outpitched Cicotte in a pitchers duel today and Cleveland shut out Chicago, 1 to 0. The visitors won the game in the first inning. Bagby allowed only three hits and not a Chicagoan reached second base after the initial inning. The support behind the Cleveland pitcher was faultless.

The score: R. H. E.
Cleveland . . . 100 000 000—1 5 0
Chicago . . . 000 000 000—0 8 2

Tigers Won.

Detroit, June 21—Austin's wild throw on a bunt by Veach, permitted Cobb, who had obtained a scratch single to score from first in the ninth inning today with the run that enabled Detroit to win, 5 to 4, from St. Louis. Bothorn and Severoid were ordered from the field for disputing a called ball.

The score: R. H. E.
St. Louis . . . 000 000 001—4 13 3
Detroit . . . 010 000 121—5 23 0

Athletics Beat Senators.

Washington, June 21—Philadelphia beat Washington today 3 to 0, bunting hits off Dumont in two innings. Bush always had something in reserve when threatened.

The scores: R. H. E.

Washington . . . 000 000 000—0 8 2
Bush and Meyer; Dumont, Ayers and Henry.

National League.

Yesterday's Results:

Brooklyn Beat "Alec."

Philadelphia, June 21—Brooklyn bunched hits off Alexander in the second and third innings and won today's game, 4 to 2. Marquard was very effective except in one inning and then a fine running stop by Cutshaw and a great running catch by Hickman held the rally down to two runs.

The scores: R. H. E.
Brooklyn . . . 012 010 000—4 10 1
Phila . . . 000 200 000—2 6 1
Marquard and Miller; Alexander and Killifer.

Cubs Trim Pirates.

Pittsburg, June 21—Chicago easily won from Pittsburg today, 12 to 4. Miller and Grimes were ineffective, Miller being hit for five runs in the first two innings. Poor support however, was a factor in this scoring. Grimes held the opposing side until the 7th inning, when they tallied four runs on two singles and three triples.

St. Louis Lost to Reds.

St. Louis, June 21—St. Louis could do nothing with Toney today and Cincinnati won 7 to 1. Manager Huggins was put off the field by Umpire Byron for protesting a decision on balls and strikes in the 7th, and a moment later Betzel was ordered to leave the field. A crowd of about 300 waited outside the park for Byron after the game and it was necessary for the police to use force to disperse them. No one was hurt.

Giants Shutout Boston.

Boston, June 21—Boston made but three hits, all singles, off Tesreau today and was shut out by New York, 4 to 0. The home team hit the ball hard, but this was offset by the visitors' sensational fielding.

Only two Boston players reached second and none reached third.

PICK GIANTS
AND WHITE SOX

SPORT WRITERS IN CHICAGO SAY COMISKY'S TEAM WILL BE IN FINALS.

Newspaper correspondents with the Chicago White Sox say that the palled Sox confidently expect to meet the Giants in the world's series next fall. Chicago scribblers in the home town are feeding their readers on the same dope. In New York the fans still hope that their dreams of a Giant-Yankee world's series will come true. But there is no doubt about the White Sox being a strong pennant contender. Many stranger things may happen before next fall than a world's series between the Giants and White Sox.

Both clubs have many similarities. Their main strength is in stars purchased for big sums from other clubs. The Giants are being criticized all over the circuit as a team representing the strength of the National Exhibition company's bankroll more than McGraw's constructive genius. Comiskey last season was roasted unmercifully for trying to buy a pennant winner.

McGraw built up his present formidable aggregation in the latter part of last season in deals that brought to the Giants C. Herzog, H. Zimmerman, Harry Sallee and L. McCarty. All of these deals were perfectly legitimate. There was nothing to prevent other clubs from landing these players had they been able to outbid the Giants or present a higher grade of trading material. Still it is supposed to be good form in other cities to pan the Giants and their methods. Such publicity, however, has helped to make the Giants the best drawing card in baseball.

Comiskey paid close to \$100,000 for his two big stars, Eddie Collins and Joe Jackson. Collins cost him \$50,000 and he had to give Eddie a five-year contract at \$15,000 a year. The Old Roman also bought outfielders Eddie Murphy and Nemo Liebold from the Athletics and Indians, respectively for neat little sums, and would have outbid the Yanks for Frank Baker had not Ban Johnson exerted enough influence to swing the player to New York.

Both Giants and White Sox are the nearest to all-star teams in their respective leagues. In fact, both clubs are supposed to have too much stellar material. It is supposed to make them unwieldy and poorly balanced. But we may know more about that a few months from now.

MOTOR-CYCLES TO
RACE ON MONDAY

"DAN" KENNEDY ORGANIZES SOME EVENTS WHICH SHOULD BE OF INTEREST.

"Dan" Kennedy, better known as "Excelsior Dan", is organizing some five motor cycle races for Monday afternoon in conjunction with the St. Jean Baptiste Day sports to be held on the Exhibition Grounds.

There will be three motor cycle races, one mile, three miles and five miles events. Just now there are quite a few entries from Excelsior riders and "Dan" would be pleased to receive entries from riders of Indians or Harleys.

Kennedy is a great motor-bike enthusiast and believes that this pastime is going to prove the most popular of all in Quebec before long. "Its real excitement," says Dan, "and a motor cycle race, in my opinion beats any other kind of a race. All the world wants speed nowadays. And you get it in bunches in motor races."

Sporting Notes

The Irish-Canadian Club management are breathing easier today, Frankie Fleming is in town and ready to meet "Red" Allen tonight at the Grande Allee Rink.

Fleming travels "de luxe" and immediately on his arrival, set sail with his manager, for the Chateau Frontenac.

Allen did some hard work yesterday, though the temperature was decidedly high. "Red" intends to make the 138 pounds or even less, in order that Fleming will have no excuse. Of course, Frankie is giving away about ten pounds, even at that.

If all the fans who are talking about the scrap go up to see it, the Grande Allee Rink will not be large enough to hold the crowd.

Fleming felt keenly over the recent postponement. "I always fight to schedule and would certainly have been here Wednesday only for a misunderstanding."

Sillery and Standards will hold a joint practice tonight on their grounds.

Stadacona and Votigeurs will play on the Exhibition Grounds on Sunday before City League game. Secretary Roberge hopes that the City Leaguers will encourage Junior sport by allowing them until a reasonable hour to finish their game.

The Red Sox are having a hard time lately, despite the fact that they beat Chicago in their last meeting. The White Sox are keeping out in front and there are many who pick Comiskey's outfit to be there at the finish.

"Steve Newton is likely to be back in the game with St. Patrick's soon again."

"Dan" Kennedy promises to give the local sports some excitement on the Exhibition Grounds, Monday afternoon, with a series of motor cycle races. Kennedy hopes that Indians and Harleys will be represented, as most of the entries are Excelsiors.

President Phillips of the Sillery Club states that a fine programme of races will be arranged for the Sillery Grounds on Sunday in conjunction with the ball game between Tipperarys and Sillery.

Robert J. Fitzsimmons during his prime as a boxer employed strategy with more success than any other heavyweight in the history of the game. This naturally led to the belief that the Cornishman had considerable gray matter concealed within his red-thatched skull. The views on this subject were rudely jolted by the opinions of the former champion expressed in an interview on the caliber of boxers past and present.

After declaring that Peter Jackson was the greatest heavyweight in the history of pugilism, and that Gans and Dixon were equally great in their classes, Fitz proceeded to assert that Willard was of no account at all as a fighter. Asked if he thought there was any one in sight to defeat Willard, Fitz replied:

"Oh, yes; my son, Robert Fitzsimmons, Jr., is today the greatest heavyweight in existence, and could sop Willard in a few rounds."

Fitz's boy appeared in exhibition bouts with his father at a theatre in New York several months ago, and a sorrier looking novice never put up his hands in that vicinity.

Facts not worth knowing:—The term "biting the dust" must have been coined by some motorist who was obliged to trail the others. You don't have to be an Irishman to play a harp.

CHARLIE MCCARTHY
WOUNDED AT YPRES

SURELY THE BOXER QUEBECERS KNOW IS NOT DOING THE TOREADOR ACT.

St. Paul, Minn., June 21.—Though he bears 14 bullet scars received in the earlier battles about Ypres, Charlie McCarthy, the Canadian boxer, former member of the "Princess Pats," was accepted as a recruit to day for the First Minnesota Artillery. The examining doctor declared his physical condition good despite the wounds. McCarthy appeared in several ring bouts in the Twin Cities since his discharge from the Canadian troops.

Charlie McCarthy, the boxer mentioned in St. Paul despatch, seems to be the same who left the Canadian Ordnance Corps at Quebec without leave sometime ago. He fought several bouts in Quebec, posing as Canadian lightweight champion and so far as is known here never saw any service overseas, much less with the Princess Pats in their first battles as he was fighting around Quebec during the first two years of the war.

McCarthy, at one time, played in goal for the Wanderer Hockey team in the N.H.A.

YESTERDAY'S RESULT
AT CONNAUGHT PARK

FRUIT CAKE WON DIRECTOR'S HANDICAP EVENT FROM A SMALL FIELD.

Ottawa, June 21.—The feature of today's program at Connaught Park was the Director's Handicap, a six furlong dash for three-year-olds and up. It brought out a small field and resulted in a win for Fruit Cake, the Zollicoffer filly. Water Lady and Tea Caddy, the Arthur-Shea entry ran second and third. Gala Day won the second race of the afternoon from a good field, this being the sixth win out of seven starts at this meeting for J. E. Seagram. The track was fast and the crowd large.

MATT WELLS IS REFUSED AS RECRUIT

New York, June 21.—Matt Wells, former lightweight champion of England, who lost his title to Freddie Welsh, applied to British recruiting headquarters here today for enlistment but was rejected on the ground of deafness although he was otherwise almost perfect physically. He expressed great regret at not being able to enter the service. Another British pugilist who presented himself for enlistment but was rejected was Matt Freeman, an amateur featherweight of London.

SHOT AT THOSE IN LIFE BOATS

INHUMAN ACT OF GERMANS AFTER TORPEDOING BRITISH STEAMER.

Paris, Wednesday 20—A German submarine which torpedoed a British steamer turned its guns on the life boats and killed eight of the occupants, the Admiralty announced tonight.

"One of our patrol boats of the Britannia flotilla" the statement says, "picked up fifty men belonging to a submarine British steamer, and drove off with guns two submarines which were still close to the boats in which the British crew had taken refuge the night before. A patrol boat of the same flotilla saved forty men from a British steamer. The submarine which torpedoed her turned its guns on the life boats, killing eight of the occupants."

BARGES ARRIVE WITH COAL CARGOES.

The tug Seymour left port yesterday with a tow for above. The steam barges Easton and Compton with coal arrived in port during the night. Their cargoes are being discharged under the clams of the Nova Scotia Co. The Samuel Marshall also arrived down with coal.

FREIGHTS AND CHARTERS.

New York, June 21—Steamers and sailing vessels were in steady request and rates were strong in almost every trade, but the continued light offerings of tonnage limited chartering.

Charters: Danish steamer, 1,405 tons, New York and River Plate trade one round trip, private terms, June; Danish steamer, 2,307 tons, New York and South America trade, one round trip, private terms, June; steamer, 1,137 tons, general cargo, New York to Genoa, private terms, late July; steamer, 1,070 tons, cargo, British schooner, 2,300 barrels petroleum, New York to a French Atlantic port, private terms, prompt; British schooner, 1,700 barrels, same; Russian ship, 1,500 tons, general cargo, Gulf to a French Atlantic port, lump sum, July-August schooner, 390 tons, plaster, Windsor, NS, to Newburg, private terms.

ITALIAN MARINE

LOSSES FOR WEEK.

Rome, June 21 via London—Two Italian steamers and five sailing ships were torpedoed by submarines during the last week, according to the official weekly announcement made public today. Two other steamers were attacked but escaped. During the same period 606 vessels with a gross tonnage of 143,170 entered Italian ports and 531 ships with a tonnage of 481,755 sailed.

MEMBERS OF SHIPPING BOARD DIFFER.

U. S. Senators Discuss Varying Prices of Steel.

Washington, D.C., June 21—The row between Major General George W. Goethals and William Denman, of the Shipping Board, found its way to the floor of the Senate today and was aired for some time by Senators Stone, of Missouri; Vardaman, of Mississippi, and Smith, of Michigan.

Senator Stone warned that there is an evident attempt afoot to perpetrate "cold blooded robbery of the United States Treasury" and mentioned attempts of the steel companies of the country to foist high prices on the government as an example. He read newspaper reports of the breach between General Goethals and Mr. Denman on the question of contracts calling for steel plates at \$95 a ton, when the navy is paying only \$65.

"There is, it appears, an issue between General Goethals and Mr. Denman, of the Shipping Board," he said. "Each man appears to be striving for predominance on that Board. General Goethals, it seems, agreed to some contracts calling for steel at \$95 a ton. Mr. Denman turned these contracts down and substitutes agreements proposing, tentatively, contracts for steel at \$55 a ton."

"Now, without entering into the relative merits of these two men, I am compelled to say that I rejoice that such a man as Mr. Denman is at the head of the Shipping Board."

Senator Stone defined General Goethals' action on the contracts now under discussion as such that it would not "redound to the reputation of General Goethals as far efficiency."

Senator Vardaman read a long article from a well known periodical declaring that if high prices were approved by the government at this time it would give those who objected to the war on the ground that it was being directed in the interests of capitalists the very proof they wanted. The article recommends that the steel concerns of the country had a good chance now to disprove that contention and, on a strict ground, forego unusual profits for the benefit of the government.

Senator William Alden Smith, of Michigan, was loud in his denunciation of those "who hastily censure strong and honest men." He explained that no contracts have actually been let by the Shipping Board except on the ground that the Raw Materials Committee of the Council

of National Defence later fix what was deemed a reasonable price for steel products. He said that until this price was named by the committee \$95 a ton for steel plates was as good a figure to work on as 50 a ton or any other figure, and that all might be away off from what is just when it is found what the Raw Materials Committee recommends.

He reviewed General Goethals' career and the fact that he spent "millions in building the Panama Canal without a murmur of suspicion or complaint." Such men, he added, "do not change in a day."

COURTS OF THE DUMB

Birds and Animals Have Ways of Punishing Their Criminals

The punishment that birds and animals mete out to their criminals and the court and legal proceedings connected with it furnish an interesting field of study.

An interesting example of an animal trial is furnished by an ob. server. A little dog had, for no apparent reason been mistreated by a larger bulldog. At once the little fellow scoured the neighborhood and collected all the bones he could find, burying them in the cellar of a house. When he had secured a sufficient number he issued invitations to all the canines in the neighborhood, the bulldog alone excepted.

The guests came from all directions, the hawk, the lame, and the hungry. When justice had been done to the banquet the host arose and made an eloquent after-dinner speech, in which he laid before the assembled company his case. They heard him through, then declared the offending and absent bulldog to be guilty and at once proceeded in a body to carry out the sentence of chastisement.

It is said that a stork, whose morals were sadly out of repair, once appropriated to himself the companion of a neighbor. The injured lady with great despatch, called together the storks of the district and haled her abductor before the tribunal. He was found guilty and sentenced, and the court immediately turning executioner, fell upon him and tore him to pieces.

A similar scene quite common among rooks, is described by an ornithologist. The culprit, brave and jaunty, stood surrounded by forty or fifty of his indignant mates. As the trial progressed the accused little by little lost his jaunty air and hung his head in humiliation. When the sentence had been pronounced the court at once fell to and pecked him to death.

It is quite common in early spring for young and inexperienced sparrows to steal twigs and other building material from the nests of their elders. If this theft is detected, as it usually is, a posse promptly visits the offender's nest and scatters it to the four winds soundly thrashing the occupants into the bargain.

A story is told of a sparrow who had stolen the nest of a martin, and was making himself comfortable in it. The angry owner summoned all his friends and immediately they came, several hundred strong, but the intruder held them at bay for some time by pecking all who came near enough to the opening. Finally the avengers withdrew and held a consultation. In a few moments they returned, each with a mouthful of mud, and proceeded to plaster up the hole, walling the occupants up alive.

The story is told that a French surgeon, wishing to procure a stork but being unable to do so, stole some eggs from a nest and substituted hen's eggs. The innocent female hatched them out, but the male, angry at the strange appearance of his offspring, went away. Three or four days later he reappeared, accompanied by several others, who formed a circle about him while he argued his case. The jury without retiring brought in a verdict of "guilty," and the poor innocent mother was executed.

Financial AND Commercial**Closing Letters
By the Can. Press**

(By Canadian Press)

New York, June 21.—Disregarding a further accession of a bearish sentiment in professional quarters, today's market registered many irregular recoveries from recent low quotations. What the trading lacked in volume, the turnover being almost the smallest for nearly a fortnight, was neutralized in breadth, operations being fairly well distributed.

Gains were greatest in those specialties which have suffered from speculative pressure. Motors, secondary equipments and shippings were stimulated by reports of the closing of government contracts on bases which allowed of a fair margin of profits. Copper's owed their strength to similar conditions.

Call money did not repeat its maximum of the preceding day, most loans being at 6 per cent from which the rate fell to four per cent before the close. Quotations for time loans were virtually nominal in the absence of actual supply. This latter condition denoted the anxiety existing in connection with forthcoming payments on the liberty loan and mid-year interest and dividend disbursements.

News from Washington respecting proposed war tax measures was more reassuring and the strength of rails suggested early favorable action on the impending freight rate situation. Foreign conditions, viewed from the local standpoint, were without material change, aside from the sharp rally in rubles.

Another importation of British gold was of especial interest because of the Bank of England statement, which showed a gain in bullion holdings of almost \$6,400,000 and a marked strengthening of liability reserves.

Steels, coppers, shippings, oils and the general run of war supply issues closed at net gains of 1 to 2 points; utilities, notably People's Gas and Ohio Gas, 3 to 4, and Rails 1 to 1-1/2. The few declines were limited to unimportant stocks. Sales amounted to 580,000 shares.

Bonds were irregular with slight changes. Total sales, par value, \$1,585,000.

Liberty Bonds changed hands at par in limited amounts.

United States registered 2's and coupon 4's rose a point on call and Panama coupon and registered 3's lost 2 1/2 per cent on call.

**Closing Letters
By Local Brokers**

(By McDougall & Cowans)

Montreal, June 21.—Outside of some strength in Brazil, fluctuations were only fractional, and practically unchanged from last night's close. Brazil sold up to 39 3/4, exchange today reaching the highest for a long time. Steamships was the most active security opening at 44 5/8 closing at 44 1/4. Civic Power was firm at 76. In the unlisted department, some large blocks of the 1937 loan came out at 94, it was offered at the close at a new low of 93 7/8, but no trades below 94. Trading in Scotia became quiet, the stock selling at 100.

(Bruneau & Dupuis)

New York, June 21.—Trading today has been very dull, though the range of prices has been steady. The high rate prevailing for money coupled with the scarcity and especially high price of all industrial funds has undoubtedly a restraining influence on prices. In view of the heavy disbursements to be made July 1st, it is probable that rates will stay decidedly firm well over that date. It is easy to talk of two billion dollars but not such an easy task to raise such an amount. The other influence of importance in the market has been the recent radical talk of Secretary of Navy and Trade commission. If the policies advocated were actually put into effect they would undoubtedly cause great confusion and unsettlement in our industrial conditions which would naturally find its reflection in the market. It is to be hoped that wiser counsels will prevail. Red Cross dividends are becoming the rule rather than the exception with our corporations. Several of the coppers joined the procession today. It is certainly up to all of us to see, as far as possible, that the money intended for this specific purpose reaches it.

Total Sales, stocks 582,800.

ANCIENT SHIPPING DUES.

It is believed that the word "tariff" is of Moorish origin, and refers to the duty placed on imports or exports. At the southern point of Spain, running out into the Strait of Gibraltar, is a promontory which from its position commands the entrance of the Mediterranean Sea. A fortress stands upon this promontory, called in the times of the Moorish domination in Spain "Tarifa." It was the custom of the Moors to watch from this point all the merchant ships passing and to levy duties according to a fixed scale on all merchandise passing in and out of the strait. The duty thus levied took its name from the place and was called tarifa or tariff.
