INCOMPETENCE IS THE CHARGE MADE

Federal Employees Prepare Memorandum Relative To The Board Of Hearing

Ottawa, Ont., Jan. 18.—The Ottawa Citizen today publishes the following in its news columns:

A memorandum prepared by the Associated Federal Employees of Ottawa, for the purpose of furnishing specific evidence of incompetence on the part of the Board of Hearing of the Civil Service Commission, and which has been sent to Hon. Arthur Meighen, Prime Minister, was made public today. It cites eleven "typical" cases of alleged incompetence in the work of the Board of Hearing, and states that they are taken from hundreds in the possession of the union. The memorandum was sent to the Prime Minister on December 15 and owing to the continued inaction on his part, the Associated Federal Employees have decided to make it public. Some of the cases cited purport to provide evidence of preferential treatment by the Board. In one case there is a charge of the Prime Minister himself having brought influence to bear on the Board of Hearing, thus securing an increase in salary for a relative of his. Other cases give instances of alleged delay and indifference.

Among other statements made in the memorandum are that "these evils are so serious in character and so far-reaching in their effects that they are disorganizing more and more the whole service, and unless the prompt action is taken it is inevitable that the standards of civil service efficiency in Canada will be wrecked," and that "with all these revisions, affecting approximately 17,000 employees, it is generally admitted that the reclassification is still so unsatisfactory as to be unworkable."

DUG FOR BODY OF AMBROSE SMALL

Montreal Detectives Unearthed A Box But Found It Was Empty

Montreal, Que., Jan. 18.—Acting on information that the body of Ambrose E. Small, millionaire theatre owner of Toronto, missing since December 2, 1919, was buried in a cellar in this city, three Montreal detectives were seen this morning armed with the necessary implements to excavate for the body.

Guy Street, close to the corner of St. Antoine and near His Majesty's Theatre, was the spot designated by the informer, upon whose startling statements the detectives set to work to investigate, and if possible recover the body of the long lost theatre owner. Detectives Gorman, Savard, and O'Donnell, who were detailed, refused to say upon whose orders the search was carried on. The detectives dug in the cellar of a private house. They found a box under a pile of stones beneath the cement floor. The box, however, on being opened, was found to be empty.

SOLDIERS CIVIL RE-ESTABLISHMENT
Ottawa, Ont., Jan. 18.—(Canadian Press)—While no definite announcement has yet been made with regard to the calling of the Special Committee of Parliament to consider all phases of soldiers' civil re-establishment, the matter, it is understood, is receiving consideration at the hands of the Government at the present time.

ICE-BREAKER RESCUED
Tokio, Jan. 18.—The ice-breaker Baikal, which was blown out of the harbor of Alexandrovsk, Siberia, during a storm on December 9, and later became imprisoned in a great ice floe off the coast, has been rescued.

BARONETCY FOR JAMES H. DUNN

Included In New Year's Honors—Sir James Born In Nova Scotia

London, Jan. 18.—(Can. Associated Press)—The New Year honors include a baronetcy for James Hamet Dunn.

Sir James H. Dunn was born in Nova Scotia. He is well known throughout Canada for his connection with a number of important financial deals during the war. Acting on behalf of the British Government he secured an adequate quantity of nickel from Norway and Canada. He floated a company in this country known as the British-American Nickel Company, controlled by British capital and in part by the British Government.

PRESS CENTENARY WAS OBSERVED

Complimentary Banquet To Hon. G. P. Graham, Proprietor Of Brockville Recorder

Brockville, Ont., Jan. 18.—Colonel Geo. H. Ham, of Montreal, of the C. P. R. Press Department, and Dr. P. D. Ross, Ottawa, President of the Canadian Daily Newspapers' Association, were the chief speakers at a complimentary banquet tendered to the Recorder, and the Brockville Board of Trade in honor of the newspaper's centenary. On behalf of the citizens of the town, Hon. Mr. Graham was presented with a silver loving-cup. Among former members of the staff of the newspaper present, were: Thomas Zeuthen, Toronto; J. J. Bell, Ottawa; W. Gibbons, Cornwall, and John A. MacKenzie, Brockville.

Many newspapermen from other places attended the banquet.

MONTREAL HAD DAMAGING FIRE

Apartments Occupied By Dr. George J. Boyce And Family Gutted

Montreal, Que., Jan. 18.—A three-story brick building at the corner of Wellington Street and Riel Avenue, Verdun, constructed six months ago at a cost of \$20,000, was badly damaged by fire this afternoon, the two upper floors, which consisted of residential flats, being gutted, while the ground floor shop premises were damaged with water. The blaze, which broke out at about 1:30 o'clock, was first noticed by Miss Florence Turnbull, who resided on the top floor, the presence of smoke causing her to notify Dr. George J. Boyce, who, with his family, occupied the intermediate flat.

DR. T. J. GLOVER STILL CONFIDENT

Not Satisfied With Findings Of Academy Of Medicine On Cancer Cure

Toronto, Ont., Jan. 18.—"As the Academy of Medicine have seen fit to use the press in order to give their report as wide a publicity as possible without first communicating with me as one medical man would expect from another, I feel it my duty to reply to their report through the same medium," said Dr. T. J. Glover, who returned to his office from New York today and handed out a statement in reply to this report of the special committee of the Academy of Medicine.

"Up to date I have not received any official report from the Academy of Medicine regarding the findings of their committee. My clinic shows that I have apparently cured cases of cancer which could not be improved by operation, administration of radium or X-Ray methods. This can be verified by both doctors and patients."

"On the morning of October 14," he continued, an American authority on the subject of cancer, after examining many cases, stated to me in the presence of another medical man, that the serum appeared to be a cure. "I understand that he expressed the same view that afternoon at the meeting of the special committee of the Academy of Medicine. Every case submitted to the special committee had been previously diagnosed by competent and reliable medical and surgical men and every known test had been made to arrive at correct diagnosis."

LARGEST SLICE FOR MIDDLEMAN

The Canadian Apple Grower Makes Less Than The Retailer—Does All Work

London, Jan. 18.—(Can. Associated Press)—J. Forsyth Smith, Canadian Fruit Trade Commissioner, in Liverpool, writing to the Pall Mall Gazette today, corrects the statement recently made in the press that Canadian apples are selling here at 130 to 140 shillings a barrel while importers' prices are generally 100 shillings below the price fixed by the Food Controller. He says: "The Canadian grower receives no more than 22 to 30 shillings a barrel. The retailer, for merely handling out the contents of a package, receives more than the grower for his work in growing, cultivating, spraying, picking, grading and selecting fruit for export. "This is surely a startling anomaly," he concludes.

RAILROAD MEN TO SEEK INJUNCTION

To Restrain Trades And Labor Congress From Interfering With Them

Ottawa, Ont., Jan. 18.—Formal notice that the Canadian Brotherhood of Railroad Employees will on Saturday seek injunction to restrain Tom Moore, and other members of the Executive of the Trades and Labor Congress of Canada, from representing that members of the C. B. R. E. are not members of the Congress and from interfering with them, has been filed at the court house.

PREMIER SMUTS GAINING GROUND IN SOUTH AFRICA

The Nationalists, Boer Element, Alarmed And Dissatisfied With Their Leaders

REPLIES TO CRITICISM

Fair Opportunity Given Smuts For Decisive Reply On The Secession Issue

London, Jan. 18.—(Can. Associated Press)—Reports from South Africa, where the general election fight is nearing its conclusion, indicate, says a Capetown cable to The Times, that the Nationalists, the Boer element, headed by General Hertzog and consisting of the principal opposition to Premier Smuts, are alarmed and dissatisfied with their leaders. In the Great Reinet district, recently, an entire Nationalist meeting with its Chairman seceded from the party and joined the South African or Smuts party. The cable continues: "It is early yet to judge whether these secessions are very extensive, but unquestionably they are increasing, and General Smuts' frank, straight-forward replies to criticisms and his brilliant presentation of South Africa's status as a Dominion, are having an increasing effect. In urban centers Labor's efforts to raise the economic issue do not appear to be successful. It is notable that the secessions among the working classes seem to be to give General Smuts a fair opportunity to obtain a decisive reply from the electorate on the secession issue."

General Smuts' tour in the Transvaal has produced a series of tours de force. His daily meetings with farmers usually occupy from two to four hours, wherein he is subjected to a fusillade of questions by the Nationalists, one of whom at a recent meeting declared that the Nationalists were God's party and must not be criticized. General Smuts sternly replied that that was rank blasphemy, and in reply to another critic, who asked whether he, as author of a "century of wrong," abided by his remarks about Smuts' Nek, asked: "Will you have the next century another century of bitterness and separation? It is our call as a nation, to purge our hearts of hate."

HARMONY AT U. F. O. CAUCUS
Toronto, Ont., Jan. 18.—Harmony is said to have prevailed at the caucus of the U. F. O. and Labor members of the Ontario Legislature in the Parliament Buildings here this afternoon, so much so indeed that a resolution moved by Karl Homuth, Labor, M.P.P. for South Waterloo, expressing confidence in the leadership of Premier Durney was passed. Indications are that for the coming session, the Labor group in the House will line up behind the Government excepting one member thereof, Mr. M. M. MacBride, M.P.P. for Brantford.

Among the matters discussed at the caucus, it is said, were liquor legislation, eight-hour day, increased workmen's compensation for injuries and old-age pensions.

The Weather.

Toronto, Ont., Jan. 18.—Pressure is highest over the Lower Lakes, while a Pacific low of marked intensity is centered over Southern Saskatchewan. The weather is mild, with local snow flurries in the West, while fair, decidedly cold weather prevails in Eastern Canada.

(*) below zero.

Forecast:
Lower Lakes and Georgian Bay—Fair and decidedly cold, moderating by Thursday.
Ottawa and St. Lawrence Valleys—Fine and decidedly cold.
Gulf and North Shore—Decreasing north to west winds; fine and decidedly cold.
Maritime Provinces—Moderate to fresh north to west winds; fair and decidedly cold.
Lake Superior—Fresh southwest winds, mostly fair with higher temperature, but some light snow in Western districts at night.
Manitoba and Saskatchewan—Light local snow but partly fair and not so cold.
Alberta—Local snow and turning somewhat colder again tonight.

EXPERIENCES OF U.S. BALLOONISTS

Related To Naval Board Of Inquiry By Lieut. Louis A. Kloor

Rockaway, N.Y., Jan. 18.—The thrilling experiences of the American aviators from the time they left Rockaway on December 13 until their forced landing at Moose Factory, Ont., on December 14, were related today to the Naval Board of Inquiry, by Lieutenant Louis A. Kloor, pilot of the United States Naval balloon A-5598.

The story did not differ in detail to the various accounts related to the Canadian Press correspondent at Mattice, Ont., the point at which the aviators entrained for New York last week, after having come overland from Moose Factory.

Lieutenant Kloor carefully avoided any mention of the first fight between Lieutenants Hinton and Farrell which brought the flight to a surprising denouement when they reached Mattice.

HIGHWAYS PROBE IN NOVA SCOTIA

Interesting Evidence Given Yesterday By Pres. Of Bedford Construction Co.

Halifax, N.S., Jan. 18.—(By Can. Press)—"Gee whiz, Chief we have a fat chance of building this road for \$450,000 to \$600,000," was the remark made by F. M. Clarke, Assistant-Chief Engineer of the Provincial Highways Board, to the Chief Engineer, John Rowland, before the court had fairly commenced on the St. Margaret's Bay Road, the estimated cost of which was \$216,000, according to V. J. Caviechi, President of the Bedford Construction Company, the contractors, who was on the witness stand throughout this afternoon's session of the Royal Commission investigating the administration of the Highways Act in Nova Scotia.

Another stage of the proceedings, Mr. Caviechi was telling of an inspection made of the road by Col. Thomas Cantley, a former member of the Highways Board, and himself, and quoted Col. Cantley as having said, when the two parted for the day: "Well, Caviechi, it's a fine piece of road, but the quantities are too great." At this point the witness caught the eye of Col. Cantley who was sitting in the court room and appealed to him for verification of the remark. "I didn't hear you," was Col. Cantley's rejoinder.

Earlier evidence adduced before the Commission had tended to show that the Bedford Construction Company had an arrangement with the Chief Engineer of the Highways Board for performing work on the St. Margaret's Bay Road previous to the actual calling for tenders. The witness explained that this work was of a preliminary nature, having to do with the clearing of the right of way and that the arrangement was that in the event of the Bedford Construction Company, not obtaining this contract, they were to be paid by successful tenderers at the rate of \$250, per mile, which he regarded as a nominal figure.

It had been shown previously that a wide discrepancy existed between the tender for brush matting submitted by the unsuccessful tenderers and that submitted by the Bedford Construction Company at ten cents per yard. The witness explained this discrepancy by stating that the nature of the work on the St. Margaret's Bay Road obligated the need for brush matting and for this reason his company could have afforded to have undertaken the laying of brush matting wherever required for nothing at all.

"A mere trick of the trade," said Mr. Caviechi.

He was aware that his company had been permitted to alter its tender after the other tenders had been opened, but his understanding was that this had been done at the request of the Chief Engineer, John Rowland, owing to the fact that a mistake had been made in estimating the original tender.

Regarding the Port Joli-Sable River Road, the witness said that he had not been on the work two weeks before reaching the conclusion that instead of the estimated cost of \$91,000, the road would actually cost between \$350,000 and \$800,000, according to grade. He said that he had pointed this out to the Chief Engineer and had informed him that unless he reported the matter to the Provincial Highways Board, he would. He said he so reported to the Highways Board on July 31.

EACH DOMINION HAS DESTINY IN OWN HANDS

Pall Mall Gazette Discusses Coming Change In Headship Of Colonial Office

THE IMPERIAL SYSTEM

Continuance Or Termination Of Empire Partnership Left To Discretion Of Each

London, Jan. 18.—(Can. Associated Press)—The Pall Mall Gazette discussing the coming change in the headship of the Colonial Office, says that the Right Hon. Winston Churchill will have an interesting experience in presiding over a significant development of the Imperial system.

The Pall Mall Gazette says that the time has arrived when two great classes of overseas possession require separation from one another in accordance with the practical divergence in their development and moral status. The anomaly of having their relations with the Mother Country administered by the Colonial Office is objected to by themselves and on this side there is the fullest readiness to accept and act upon their point of view. The Dominions are in all respect emancipated from the tutelage which marks the Colony of any species. Each Dominion has its destiny in its own hands and its share in the Empire is a partnership, with always the liberty to continue or terminate the relation at its own discretion.

The demarcation which it will fall to the lot of the new Colonial Secretary to bring about, marks a stage in the history of the Empire which has no parallel in the records of any other world power. It symbolizes the growth of all modern political ideals and the attainment of the stage where the community of nations rests not at all upon force, but wholly on enlightening and voluntary adhesion.

NORTH IRELAND TO BE BONE-DRY

Prediction Made By Pussyfoot Johnson On Return From British Isles

New York, Jan. 18.—(Can. Press)—"W. E. 'Pussyfoot' Johnson returned from the British Isles on the Imperator today to report to the headquarters of the Anti-Alcoholic Movement here, and said that he believed that the northern part of Ireland would in time become bone-dry. He met with a cool reception in Wales, he said, and added that until he was rescued by the police at Wexham, the crowd wished to put out his other eye, or otherwise do him bodily harm."

Johnson said that although he harangued the second cabin passengers—among whom he travelled—telling them of the evils effects of strong drink, they drank harder than ever after his exhortations. He rather lost hope in them, he said. Scotland, he believed, would be eventually dry as it is now dry in the United States, after a long campaign.

Today's Events

The one hundred and fourteenth anniversary of the birth of Gen. Robert E. Lee will be observed throughout the Southern States today.

Dr. David Starr Jordan, chancellor emeritus of Leland Stanford, Jr. University and one of the best known of American educators, celebrates his 70th birthday today.

The Mississippi Valley Association, organized at St. Louis a year ago today to promote the interests of the middle West, will open its first annual convention today in Washington, D.C.

A notable wedding in New York today will be that of Miss Mary Washington Bond Morosini, a great great grandniece of George Washington, and Captain William Lafayette Crabbe, of the U. S. Marine Corps.

The Allied premiers are to meet in Paris today to discuss the subject of German disarmament, the reparations question and the future attitude of the Allies towards Greece.

Conventions Opening Today:
Winnipeg, Man.—Canadian Building and Construction Industries Association.
Winnipeg, Man.—Manitoba Horticultural and Forestry Association.
Winnipeg, Man.—Manitoba Seed Growers' Association.
Montreal.—Quebec Forest Protective Association.
Columbus, O.—Ohio Association of Banking Industry.
Milwaukee.—Wisconsin Automobile Dealers' Association.
Indianapolis.—Retail Lumber Dealers' Association of Indiana.
Dallas, Texas.—Texas Hardware and Implement Dealers' Association.

DICTOGRAPH

System of Interior Telephones
The Dictograph Takes You ALL Over Your
Factory at Once--Gives You the Co-ordina-
tion that Means Capacity Production.

You--just as every other big executive--wish thousands of
times that you could be Here, There and Everywhere around your
plant at the same time.

You know just how it would stimulate production--how the
personal contact would keep things going "full steam ahead"--
every man on his toes.

With the Dictograph on your desk, the only thing between
you and office or department in your factory is the Dictograph
Key, which you control. Throw the key, sit back and talk to one
or half a dozen men, and back come your answers as though the
parties called were just across the desk from you.

"One Bee Working Alone Can Make No Honey," says Maurice
Materdock. It is by working as a Hive.

The Dictograph System of Interior Telephones give to your
organization the co-ordination--the working as a "Hive"--that
means capacity production at a minimum of friction.

Conferences that "kill" half the morning before you can get
all of your executives together are held over the Dictograph in-
stantly, and without a single man leaving his desk.

And not only is your finger on the pulse of your entire or-
ganization but every Dictographed Department is in immediate
automatic touch with every other, co-ordinating effort, saving
time, friction and temper.

Orders, information, instructions are passed down the line on
the minute; errors are reduced to a minimum, and your organiza-
tion runs as smoothly as a finished car runs from your factory.

A five-minute demonstration on your own desk will prove a
revelation to you as to how production (whether in brains or in
merchandise) is speeded in direct ratio to the removing of friction.

VELVET AND SATIN MAKE THIS SMART FROCK

(By GERTRUDE BERESFORD)

There is great distinction in this
delightful dress of rose-colored satin
combined with navy blue velvet. A
striped effect is attained in the skirt,
for pieces of the velvet are applied to
the rose satin. The vestee, cut in
cross-over style, is developed from
the satin, while the short-sleeved
coat is made of navy blue velvet.
This cleverly bloused at the low
waistline and finished with a flar-
ing peplum. A sash cut from the
velvet and faced with the satin is
set about the waistline and is fin-
ished in a big bow at the side. A
navy blue velvet hat accompanies
the dress.

When Eggs Are Dear

(By LORETTA C. LYNCH)

An Acknowledged Authority on All
Matters Pertaining to Household
Management.

The country over, at this season of
the year, eggs are very expensive.
And unless the housewife has pre-
served some eggs at the plentiful
season she will have to manage care-
fully lest her food bills grow unduly
large. With eggs at \$1 and \$1.50 the
dozen, and not enough fresh ones to
go round at that, in some sections it
is cheaper to substitute meat or fish.
The young child of the family
might have two or three eggs a
week, but the older members of the
family should desist from free in-
dulgence in eggs and go in for some
of the other cheaper foods Nature
provides.

A housewife who found she could
not afford to longer provide the six
eggs for breakfast each morning
that her family of three demanded
began experimenting with other
foods for breakfast. She found that
a finnan haddie could be bought for
25c. This she steamed until tender
with a little water in the fry pan,
adding water as more seemed to be
needed. When done, she made up a
pint of white sauce and mixed it
with the fish after it had been
picked from the bones. This was
served on toast and provided a
hearty breakfast in place of eggs at
a little more than half their cost.

Then there are many ways of
stretching eggs. One-fourth of a
pound of dried beef may be fresh-
ened and picked apart and scram-
bled with two eggs that have been
beaten up with a little milk and
seasoning. In this way two eggs
may be made to serve six.

If you are making omelet try
adding one or two tablespoons of
milk for each egg used. This makes
a five egg omelet appear as a six-
egg omelet.

A little country sausage meat
goes a long way at breakfast, and
will be found quite satisfactory
when casting about for a substitute
for eggs at breakfast. It should be
remembered that anything contain-
ing fat "sticks to the ribs." This is
well to remember if you must eat
away from home at noon. A bit of
bacon for breakfast will generally
mean that one can get along with
less at noon.

At times the housewife will want
to make an economical cake. A
one-egg cake is good if properly
proportioned and carefully baked.
All measurements must be taken
level. All dry material must be
sifted before being measured. A
standard half-pint measuring cup is
used.

One-Egg Cake.

One and one-half cups sugar, 3
teaspoons baking powder, 1-4 cup
butter, 3-4 cup sugar, 1 egg, 1 cup
milk (about).
Mix and sift the flour and baking
powder. In an empty bowl cream
the butter and sugar. Add the egg,
well beaten. Then add the flour and
milk alternately, a little at a time,
until all the flour is used and an
enough milk has been used to make
a drop batter. Bake in well-greased
and floured pans. The recipe makes
about eight cup cakes or two ten-
inch in diameter layers or a loaf
cake.
Decide on the pans and get them
ready before starting the cake. Be
sure that your own is in readiness
as soon as the cake is mixed.
Cup cakes take about twenty-five
minutes. Layers take about forty-
five minutes.
Because you are making a one-
egg cake there need be no lack of
variety to your cakes. Stir in half
a teaspoon of vanilla extract or
lemon extract just before putting
the mixture into the pans.
After measuring the flour take
out one-fourth cup of it and substi-
tute one-fourth cup of dark cocoa.
Bake this cake in layers and put
together with marshmallow. Sprin-
kle the top with shredded coconut.

BANQUE D'HOCHELAGA.
The people of the Province of Quebec can take a special and legitimate pride in the steady progress made by the Banque D'Hochelaga for it is a representative institution whose successful management eloquently refutes the shallow catch-word that the French-Canadian has no aptitude for business affairs. Thus total assets have more than doubled in the past five years, amounting to \$75,693,920 at present as against only \$34,515,873 in 1915. Again, total deposits have increased \$5,801,034 over last year and savings deposits show an increase of \$9,000,838. On the other hand deposits not bearing interest have decreased \$3,199,804. The share assumed by the bank in assisting the business of the country is reflected in an increase of current loans from \$8,472,881 in 1919 to \$40,503,753 in 1920.

The reasons for this evident strength of Quebec financial institutions are partially suggested by Provincial statistics quoted by Mr. Beaudry Leman, the General Manager, in his annual address.

The value of the crops in 1914 was \$99,279,000—reaching in 1919 \$317,000,000—being an increase of 310 percent. In five years. These figures are not due only to higher prices but to a large acreage under cultivation. Livestock has not been neglected, the number of cattle increasing and its value rising from \$122,299,000—in 1914 to \$236,529,000—in 1919. The potato crop valued at \$38,157,000—in 1918 increased to \$48,688,000—in 1920; oats increased from \$52,667,000 to \$60,712,000; hay from \$107,098,000 to \$132,452,000. The dairy industry did not lag behind, the production of butter which in 1918 amounted to 36,767,257 pounds valued at \$18,344,950, was in 1919 37,881,368 pounds, valued at \$20,851,323; cheese shows a decrease in quantity produced from 1918 to 1919, but the value increased about \$1,500,000; the yearly output of milk and cream per year is valued at about \$10,000,000, shipments to the United States absorbing about \$2,000,000 worth. The acreage planted in tobacco has increased from 22,404 acres in 1919 to 33,000 acres in 1920, yielding 26,400,000 pounds of tobacco; as the crop is not yet sold it is premature to estimate the return to farmers from this source. In the face of these fundamental conditions and given efficient management the Banque D'Hochelaga could hardly fail to be prosperous.

During the past year the directors have taken a most commendable step to stimulate and encourage credit by adapting to the needs of Quebec, the system of Christmas Clubs, which has given in the United States and in other Provinces of Canada very satisfactory results. Thousands of Banks in the United States have adopted this method and millions of dollars are annually accumulated sometimes for pleasure purposes, but more often to provide for specific needs or as a reserve for contingencies. Although the clerical work of operating small accounts is heavy, the directors hope that the results, which are already very encouraging, will become very satisfactory in the future.

One must not forget, Mr. Leman wisely reminds us, that time is a necessary factor in the solving of the financial problems of the world as the following figures indicate: At the beginning of the war the fiduciary circulation of paper money amounted to \$7,000,000,000—it is now over \$56,000,000,000—thetotal debt of nations in 1912 was \$40,000,000,000—it is now about \$270,000,000,000; in 1913, circulation was covered by a gold reserve amounting to 7 percent, which now does not exceed 12 percent; interest on the total national debts exceeds annually \$9,000,000,000—against \$1,750,000,000—immediately before the war.

There are reasons to be satisfied, however, as Mr. Leman indicates, with the currency situation in Canada. Dominion notes in circulation total \$520,000,000—against a gold reserve of \$96,000,000—or about 90 percent. Total paper currency, represented by Dominion notes and Bank notes amounts to about \$450,000,000—while gold in Government's and Banks' vaults amounts to about \$180,000,000—being a percentage of 40 percent. The percentages of gold against currency for the different Governments show for the United States 49 percent, Canada 30 percent, England 13 1-2 percent, France 14 percent and Germany 1 1-2 percent.

A full report of the address of the General Manager of the Banque D'Hochelaga will be found elsewhere in this issue and will prove of genuine interest.

CANADA'S FIRE LOSS.

Canada's fire loss for 1920 up to the end of November, as reported by the "Montreal Times," was approximately \$24,000,000, or nearly \$800,000 over the total for the entire twelve months of 1919. The loss for November was \$2,770,000, of which \$1,865,090 is represented by 13 fires, with only 7 responsible for \$1,525,000, out of an average monthly number of fires of 1,350. The large fires, therefore, make up by far the larger portion of the losses. It is to the large risk, in the factory, warehouse, sawmill, and other business property, or to the devastating conflagration, we must look for any amelioration of this constant drain upon our created and natural resources.

During the past four years, Canada has enjoyed unprecedented prosperity. Business conditions have been good and the purchasing power of the buying public abnormal; there has, therefore, been very little incentive for the surreptitious destruction of stocks by fire to secure their insured value from insurance companies. Sir Vincent Meredith, president of the Bank of Montreal, speaking at the recent annual meeting of the bank and referring to the present period of deflation, stated that the number of commercial failures would no doubt be somewhat greater. This, unfortunately, is likely to be the case with the number and cost of fires.

In a survey by the Commission of Conservation, preceding the publication of "Fire Waste in Canada", some of the more prominent causes for fires assigned by those consulted were: Moral hazard, non-inspection of property by agents, attitude of courts toward fraudulent claims, and over-insurance.

During the period of high values, insurance agents were active in advocating increased insurance to cover enhancing value. Care must therefore be exercised that over-insurance be not permitted to become a temptation to arson. A careful and rigorous inspection should be instituted by insurance companies as a means of protecting their policy-holders, as, in the final analysis,

the insurance companies are but the collectors of premiums in order to reimburse fire sufferers for losses. It is only fair and just that every precaution be taken against the possibility of converting, by means of fires, high priced stock into cash at the expense of the community.

Discussing fire losses, "Conservation" points out that many people have the idea that when a fuse plug "blows out," it is merely that a weak link in the lightning system has given way. Perhaps the plugs frequently blow out, and the occurrence is each time looked upon merely as one of those annoyances which must be borne.

A fuse plug is a safety device, and is so adjusted that it will "blow out," or break the connection, as soon as the amount of electricity being used is greater than the wires can carry with perfect safety. Instead of simply replacing the plug—remedying the effect—the cause of the trouble should be sought.

Fuse plugs are usually placed near the meter, and the number of amperes to which they are fused is stamped plainly on the plugs. For instance, if the fuse plugs in your home are stamped "7 1-2A," it means that this amount of current can be used at one time on each circuit without danger; using more than this amount causes danger from over-heated wiring.

The electric wiring in a house is usually divided into a number of individual "circuits," each carrying not more than 7 1-2 amperes, or the equivalent of 15 to 20 ordinary lights.

A five-pound electric iron, such as is generally used, requires five amperes of electric current. If 7 1-2 ampere fuse plugs are in use, not more than five 50-watt lights can be "on" the circuit at the same time as the iron without the fuse blowing out. An electric toaster carries about the same amount of current as an iron. Under no circumstances is it permissible to use an electric iron and a toaster on the same individual ordinary lighting circuit at the same time. If fire, resulting from over-heated wiring, occurs when two such appliances have been used, insurance companies are justified in refusing to pay claims for damages.

If an early warning of fire danger is desired, fuse plugs which are fused to carry a fairly low amperage, say 7 1-2 or 10 amperes, on your individual distributing circuits should be used.

THE TRUTH ABOUT MONTENEGRO—No. II

Claim is made by Serbian apologists seeking to justify the forced annexation of Montenegro that the Montenegrins are not Montenegrins at all but Serbs, and that the present "Union" realizes a dream that has long been entertained by the people of both countries. Such a statement, however, is only one of those half-truths which are the worst form of lie, as we shall see.

As a matter of fact it would be just as correct to say that all Serbs are Montenegrins as it is to contend that all Montenegrins are Serbs; both come of the same Slavic racial stock but have maintained separate their national identities for hundreds of years. In the Seventh Century several Slavic tribes, immigrating into the Balkans, fell under the domination of Byzantium. Of these the only exception was the tribe which settled upon the territory comprising present day Montenegro. From the first it was in conflict with Byzantium to establish an independent State. Two centuries later, this tribe succeeded in founding, under the name of Zeta, the first Slavic State in the Balkans. The name of Montenegro was only given to it later on by the Turks upon whom it had inflicted numerous defeats.

Some time afterwards, Zeta succeeded in uniting under its hegemony all the other tribes but, in consequence of the penetration of the Turks into Europe, all the Balkan States, including the Serbian countries, lost their independence. Montenegro alone resisted but could not retain its territories in their entirety; one part falling under Turkish domination, while another was seized by the Venetians. Nevertheless the independence of the State was maintained throughout until 1914 within the borders of modern Montenegro. For centuries the Montenegrins waged war on the oppressors of the Balkan peoples; thanks to which indomitable spirit Montenegro remained independent even when the Turks were in Budapest, Odessa and the Crimea. Once again, these are not matters of controversy but of historic record.

If Serbia is justified in annexing Montenegro by force because both are people of a common racial origin, then Germany would be no less justified in seizing Holland, or Spain in over-running Portugal. By process of time the Montenegrin mountaineers have developed national characteristics, distinct from those of the lowland Serbs, which include a separate dialect and the retention of their orthodox religion. The dream of union has been all on the side of the Serb, whose aspiration has been for the "Greater Serbia" now brought into being as the result of cunning intrigue and ruthless violence. It is true that the possibility of such a Union has been played upon by agitators and malcontents in Montenegro but the great mass of the people have been steadfast in their independence and the Serbian dream could never have been realized but for favoring circumstances brought about by the participation of Montenegro in the great war as an ally of Serbia. There have been few blacker instances of ingratitude and treachery than this in all recorded history. In succeeding articles we shall discuss the attitude towards this issue adopted by the Great Allied Powers and by the League of Nations. Tomorrow that of France will be discussed.

For the first nine months of 1919, "Conservation" reports, paper, wood and manufactures of wood were exported from Canada to the United States to the value of \$163,941,802. The total value of exports of Canadian goods to the country for the same period amounted to \$370,246,970.

With our forests supplying over 44 percent of the exports to offset our purchases, it is not hard to realize what position our exchange would be in but for the forests.

The depreciated value of our money hurts the patriotic pride as well as the pockets of all Canadians. Those who have occasion to visit the United States realize the additional cost to them in purchasing with Canadian money, but it is hard to make the general public realize that the forests of Canada are carrying a tremendous load as the chief support of our credit in the United States. Every effort should be made to protect our forests from fire and to provide efficient forestry management, to enable them to continue in perpetuity the large part they are taking in our foreign trade.

OUR COMPLETE STOCK OF WOOL GOODS REDUCED

The Jaeger Fairy

20 P.C. OFF FOR CASH

JOHN DARLINGTON, Reg'd.,
Opposite Post Office

Have you heard of that beautiful thing.
The Jaeger Fairy of gauzy wing?
Oh! she's a wonderful Fairy!

She gathers the wool from the Baa baa's back,
Then packs it away in a great big sack
When you're not looking she spins it up
Into Combies, and Nighties, and beautiful Stuff
To make into Frocks and Coats and Things.

Oh! she is a wonderful Fairy!

You'll find her sometimes in a drop of dew.
Perched on a rainbow you'll see her too.
Oh! she is a wonderful Fairy!

Have you seen her dance round a toadstool's rim,
Then pop underneath it and draw in her wing?
Mummy say's she can't see her. I do think it
funny,
'Cos she's here, there, and everywhere like a wee
bunny!

She's the merriest Fairy I've ever seen.
Is this wonderful Jaeger Fairy!

LIVESTOCK MARKET CONDITIONS IN 1920

Big Decrease in Exports of Meats Indicated by Ottawa Figures

Ottawa, Jan. 17.—The summary following indicates the condition of the market for live stock and live stock products in 1920 as compared with 1919. The estimated decrease in cattle expressed in terms of dead meats was approximately 149,000,000 pounds, assuming that the cattle marketed in 1920 were of equal weight and quality with those marketed during the previous year. The decrease in exports of beef as dead meats amounted to 18,000,000 pounds. The total decrease in exports as meats was therefore about 167,000,000 pounds. This condition of trade was an outstanding factor in the movement to lower price levels during the past year. The major part of the beef and practically all the cattle exports were made to the United States markets, the British market being a comparatively negligible factor. The usually wide American outlet was very restricted owing to the indifference of the United States feeders who had not forgotten the heavy losses sustained in the breaking of the fat cattle market last spring. Moreover, at times our prices were out of line with those on American markets, and even the condition of exchange was not fully compensatory.

A Laxative The Old Can Rely On

Let them take Dr. Caldwell's Laxative Syrup Pepsin for Constipation. Mild and gentle. Never loses its good effect.

ELDERLY people know how much more difficult it is each year as they get older to avoid the ill effects of chronic constipation. The stomach and bowel muscles relax as age advances, and as you are naturally less active, in time they work only by stimulation. You try dieting and exercise, and then take medicine.

All medicines, however, are not suited to elderly people any more than to children, so you will be glad to know of a particular medicine that acts as near to Nature as has yet been found. It is a prescription written thirty odd years ago by Dr. W. B. Caldwell, who is himself now in the 82nd year of his age and still active in his profession. It is known in the trade as Dr. Caldwell's Laxative Syrup Pepsin, and you can buy it under that name at any drug store. A sixty-cent bottle will last an average family many months, and all can use it.

Dr. Caldwell's Laxative Syrup Pepsin is a combination of simple laxative herbs with pepsin. It acts mildly, gently and without griping. It so trains the stomach and bowel muscles that in time medicine of all kinds can be dispensed with. When people learn of Dr. Caldwell's Laxative Syrup Pepsin and see how wonderfully it acts they realize how unnecessary it is to use drastic salt waters, pills and powders, for these do but temporary good and are weakening to most constitutions. Dr. Caldwell's Laxative Syrup Pepsin, on the contrary, is so natural and safe, (it contains no narcotic or strong drugs), that two generations of mothers have given it to their babies.

Take a teaspoonful the next time you feel any distress of the stomach, liver or bowels, if you are constipated, have a headache, cold or fever, if you are bilious, dyspeptic, tired. If Dr. Caldwell's Laxative Syrup Pepsin should ever fail to do as claimed you can have your money refunded. More people use it than any other laxative in the world.

TRY IT FREE

There are heads of families who will want to prove to their own satisfaction that my Laxative Syrup Pepsin is as effective in constipation, as mild and gentle in action, as pleasant-tasting and safe, as I claim. Let such write me for a free sample. It will be sent postpaid. Address Dr. W. B. Caldwell, 19 Front Street, Bridgeburg, Ont.

TWO DISTINCT DEPUTATIONS

To Urge Quebec's Needs Upon Federal Government At Ottawa

Two distinct deputations left Quebec for Ottawa yesterday to interview the Federal Government in regard to public works in this city and port. His Worship Mayor Samson, Hon. Judge L. P. Pelletier, Mr. J. T. Ross, President of the Quebec Board of Trade; Mr. J. G. Scott, Chairman of the Board of Trade Transportation Committee, and Alderman A. Bouchard, Chairman of the Civic Public Works Committee, formed part of one deputation that will present a lengthy memorandum to Premier Meighen and his Cabinet colleagues on the needs of Quebec.

The second deputation comprise Major-General Sir David Watson, President of the Quebec Harbor and his two associate Commissioners, Brig-General Tremblay and Mr. A. Gravel, and Mr. St. George Bowell, C.E., Chief Engineer of the Commission. The visit of the Harbor Commissioners is in conformity with an engagement made with the Government in the early part of December last, in connection with a general plan for the improvement of the harbor of Quebec which includes dredging at the north end of the Louise Docks breakwater to widen the channel at that locality so as to safeguard the navigation of the large steamers to the inner protected berths in the St. Charles River, and will also permit of four or five additional berths for steamers over and above the present accommodation.

The Commissioners will also submit a plan for the future development of the port in accordance with the approval of the three leading steamship companies, the C.P.O.S., Robert Reford Co. of Montreal, and Canadian Government Merchant Marine. Plans which the Government of the Commission have been studying and working on for a considerable period of time to meet exigencies, and facilitate the work of the Commission for the development of the port for future demands. The Harbor Commissioners will also urge upon the Government the necessity of a cold storage plant at this port to take care of the shipment of farm products from the district of Quebec.

AUDITORIUM D'ANTANT OPENS SATURDAY

A Splendid Personnel Headed By Mr. J. F. Bertani Will Provide Something New—J. R. Young And His Superb Orchestra Will Supply The Music

The dancing public will be pleased to hear that the Auditorium D'Antant will open on Saturday, January 22, at 9 o'clock under the capable supervision of Mr. J. F. Bertani.

The third floor of the Auditorium Building has been refitted and decorated into one of the finest and most artistic Dansants in the city. The decorative and lighting scheme is splendid and gives a decidedly pleasing effect. Many improvements have been made, and added to all this will be the capable supervision of Mr. J. F. Bertani, Mr. Bertani is well and favorably known to the Quebec public, having been connected with the Chateau Frontenac, Kent House, etc., during the past 6 years. It is safe to say that anything presided over by Mr. Bertani will have a tone and "class all its own." He will have associated with him Mr. R. (Count) Morency, who will also assist greatly to make everyone feel at home and have a pleasant time.

The music will be, perhaps, the most important feature, as it will be supplied by Mr. J. R. Young and his orchestra. Mr. Young has been playing for the Quebec public for several years, having been leader of the Auditorium Theatre orchestra, and the Chateau Frontenac orchestra. Mr. Young knows the wants of the public in music and will, as usual, give them nothing but the best. He receives every day, direct from the publishers a consignment of the latest dance hits, (right off the press), and he will arrange his programmes to include the best of these, of course, he will be only too pleased to play any pieces desired, upon request.

It is safe to predict, however, that the Auditorium D'Antant is due for a most successful career.

CITY IS FREE FROM SMALL-POX

Disease Prevalent In Ottawa—Measures Of Precaution Likely To Be Adopted Here

Dr. C. R. Paquin, City Health Physician in answer to a query last evening said that Quebec City Health Department had not as yet taken any steps to perfect an organization against the invasion of the contagious disease of small pox which was at the present prevailing to such a large extent in the city and district of Ottawa. He said that the matter of organization rested with the Superior Board of Health of the Province, of which Dr. Arthur Simard of this city was president. He was awaiting instructions from this Board, he said, before taking active measures of precaution. In the meantime the Quebec City Health Department have ever ceased to take precaution to combat this disease and have, for some few years past, used every means of prevention, with the result that no case of small pox has been reported to the Department for many months, as existing in this city, and in the present there was no case to his knowledge existing in this city.

In the meantime Hon. Athanasius David, Provincial Secretary, is alive to the situation, especially as it is under his direction all matters relating to the public health are controlled, and does not intend that civic politicians in Ottawa shall place the Province of Quebec in danger of a small pox epidemic. He has taken up the matter with the Quebec Superior Board of Health, with a view to find out what has already been done, and to decide upon future action, should circumstances make stringent action necessary.

Hon. Mr. David is kept in constant touch with the situation by the physicians of the Superior Board of Health and yesterday Dr. Simard, President of the Board left for Montreal to hold a meeting of the Board and consult with Dr. Elzeir Pelletier and the Chief Inspector of the Board. Dr. Simard said if the situation demands, orders will be immediately issued as to action. What alarms the Provincial authorities is the reported antagonism of Mayor Plant and other municipal authorities at Ottawa, toward vaccination, notwithstanding all school children in Ottawa were recently vaccinated, and the Superior Board of Health, after consultation with Hon. Mr. David it was decided to communicate with Dr. Amyot, the Federal Deputy Minister of Public Health, and request the possibility of having all Federal Civil Servants vaccinated immediately.

The practice of vaccination has been generally carried out among school children in the city of Quebec, during the past two years, without the least opposition or objection to the operations, directed by the Civic Health Department.

G.W.V.A. SEC'Y. ON GRATUITIES

Says Attempts To Dictate To Government "Like Baying At Moon"

Ottawa, Ont., Jan. 18.—The hope prevalent among a large section of ex-servicemen in Canada that the coming session of the Federal Parliament would again take up the question of a further cash gratuity to veterans is discouraged by G. Grant MacNeil, Dominion Secretary of the G.W.V.A., in a letter published in the January issue of the "Veteran." Mr. MacNeil writing in reply to a criticism of the editorial attitude of the "Veteran" on the subject, declared that it is not so much a question of what the returned men need as one of what they can decently get. Attempts to dictate to the Government, he declares, is mere "baying at the moon." While Mr. MacNeil wrote the letter on his own initiative, President Maxwell, of the Dominion Command, G.W.V.A., stated this morning that it was thoroughly in accordance with his views, and he thought expressed the general opinion of the Executive.

BOSTON FIRM IS BANKRUPT

Boston, Jan. 18.—The stock brokerage and investment security firm of E. Smith and Company, today filed a voluntary petition in bankruptcy. Assets of \$1,397,348 were claimed, and liabilities of \$846,094 given.

CLAIMED POWERS NOT FORWARDED BY KING

London, Jan. 18.—(Can. Associated Press)—At the Cambridge Assizes today action was brought for non-delivery of potatoes, the defence being that the contract was void by reason of the food controller's order.

Mr. Justice Rowlatt remarked that the controller's order was written in the vilest English. Moreover Controller claimed powers which were not possessed even by the King of England or by anyone else since England was England.

HAS CITY THE LEGAL POWER

To Dispose Of Montcalm Market Property For Monument National?

The municipal authorities are not in a position to say yet that they can comply with the request of Mr. Roddick and his associates who desire that the city should hand over to them the Montcalm Market building for conversion into a Monument National. When the request was first made by a group of citizens to give over the Montcalm Market buildings, the city authorities were asked if they had any legal right to do so in face of the fact that the land on which the market building is located, was originally the property of the Imperial Government and after confederation handed over to the Federal Government of Canada in trust, which Government leased this land to the city for the express purpose of creating a city market.

Mayor Samson, the city clerk, and even the civic law department was unable to give any information, and since that time a search has been made by the city officials for any document that would establish the agreement between this city and the Government in regard to the property, and until a record of the transaction is found, the city authorities are not in a position to dispose of the proposition.

Prior to Confederation the property on which the Montcalm Market stands was part of the city fortifications and under the control of the Ordnance Department. In the early 70's, Kent Gate was built at the expense of the Federal Government, and by permission of the Department of Militia, Dauphin street was extended through the gate to open up a roadway to connect with St. Patrick street. At this time the Upper Town Market was located in the square opposite the Basilica, and the butchers' stalls in a long narrow wooden building running from the corner of Buade street along Garden street up to St. Anne street, in line with that portion of the Jesuit barracks. When it was decided to demolish these barracks, which also meant the disappearance of the Upper Town Market, the City Council decided to look around for a site to locate a new Upper Town Market. In 1874 when the MacKenzie Liberal Government came into office at Ottawa, application was made by the city authorities to acquire the land on which the barracks stood for the building of a City Hall. When the late Sir Francis Langelier was elected Mayor of Quebec in 1886 he succeeded during his term of office in acquiring the land from the Government for the purpose, of building on the site a City Hall, and later sold one half of the land to the Christian Brothers in which now stands the Commercial Academy. In the meantime the city applied to the Government for permission to lease the land which the Montcalm market now occupies, and it was granted, but as no record of the transaction has as yet been found, the terms cannot be vouched for by the city authorities. It is presumed however, an investigation now in progress will probably verify, that the land was leased to the city for the express purpose of locating a market and for no other object, and therefore the city has not the legal right to dispose of it for any other purpose.

After Confederation when the Imperial Government handed over all Ordnance properties, it was with the understanding that the Imperial Government could reclaim the land if at any time found necessary. In keeping with this deed of trust the Canadian Government cannot sell and give a deed of sale to any purchasing party in regard to Imperial property formerly controlled by the Imperial Ordnance Department. In the meantime the Federal Government can and has leased parts of these properties for commercial purposes for a term of 99 years, with the understanding that said lease can be cancelled at any time in case of emergency. Therefore it is presumed that the Ordnance property on which the Montcalm is situated was leased for the special purpose of a market, and the city authorities have not the legal right to dispose of it for any other object.

IDEAL SERVICE FOR THE TRAVELLING PUBLIC

Trains from and to Quebec arrive and depart from Bonaventure Station.

The most modern all-steel sleeping cars are attached to these trains and the travelling public will appreciate their comfort in these sleepers with their up-to-date electric lighting. The feature of the lighting of these cars at night is a great convenience for passengers occupying upper berths, as the lights are underneath the seats, throwing sufficient light in the sleeper, instead of being from the ceiling.

Leaves Quebec (Palais Station) 11:55 P.M. daily, with direct sleeping car for Ottawa, arriving Montreal 7:10 A.M., making connections at Montreal with Grand Trunk train No. 47, which arrives Ottawa 11:45 A.M.

Returning: Leaves Ottawa 7:20 P.M., making connections at Montreal with No. 34 (Bonaventure Station) at 11:15 P.M., arriving Quebec 6:15 A.M.

Tickets and further information may be obtained at City Passenger Agent's Office, 10 St. Anne St., Palais Station, or at nearest Canadian National Railways Agent.

INSPIRING TALK ON EDUCATION

Miss Constance Laing Tells Of The Educational Work Of The I.O.D.E.

Yesterday afternoon in their Headquarters in the Y.W.C.A. Building the daughters of the Empire of this city listened to an instructive and inspiring address by Miss Constance Laing, National Educational Secretary, upon the educational work of the Order.

The speaker was introduced in a few well chosen words by Mrs. Harry Morrell, Municipal Education Secretary and when rising to speak was presented with a beautiful bouquet of mauve orchids by Mrs. Finnie, Municipal Regent.

Miss Laing explained that the scheme for the I.O.D.E. War Memorial was a very ambitious one, entailing a large expenditure, and that it had taken several months of constant organizing work to complete. As Quebec was the first province to reach its objective of the amount at first asked for, it was only fair and suitable that she should explain to the Quebecers how their money was being spent.

In the first place the War Memorial is being used for two separate though similar purposes. The first of these is the establishment of "Bursaries," and the second the establishment of the "Overseas Scholarships." The memorial as a whole has been instituted as an appreciation of the services rendered by our brave soldiers during the late war and as an effort in part to act as parent to the children of deceased soldiers, or of those totally disabled, by providing them with the education of which death or disablement had robbed them. The tendency today in all classes is to aspire to a higher education, an aspiration which the I.O.D.E. felt it a duty to foster. There were plenty of people of bolshevik tendencies to tell the children of dead soldiers that their fathers were fools to give their lives and to point out with bitterness the sacrifices entailed by their descendants. It was the hope of the I.O.D.E. in the most practical manner possible to combat these principles by showing that the largest and perhaps most powerful organization of women in existence agreed with their fathers and valued their sacrifice and patriotism.

The Bursaries have been established to provide a university education to children of deceased or totally disabled soldiers. A four year course is to be provided to one scholar from each province, and already eight of these candidates have been chosen and started on their careers. Prince Edward Island having made no application, \$100,000 has been allocated for the purpose of carrying on this branch of the work, but much more will be needed in the future. This year there were only eight applications for bursaries, and consequently all of them were accepted, all the candidates having filled the requirements. Statistics show that the average age of the soldier's child is now ten years. Year by year therefore more children will become eligible for application, and will be most disappointing through lack of funds to be obliged to refuse to help worthy candidates. In eighteen years' time the need for the bursaries will have disappeared and also the fund for administering them at the present rate.

The Overseas Scholarships on the contrary are intended to be awarded in perpetuity. For them also \$100,000 has been allocated, not quite half of the fund it is proposed and hoped to raise for their support. These scholarships, again owing only to lack of further means, are granted to four candidates yearly, the first four having already been chosen. Each province has its committee of selection which nominates a candidate from the total number of which four are finally chosen. The scholarships are of \$1,400, last year, and entitle the holders to post-graduate courses in practically any university of the Mother Country. High scholastic attainments are required of the candidates, as well as a good record of military service during the Great War, and all other conditions being equal, the preference is given to a soldier, his son, his daughter, his brother or his sister. The first four members of scholarships, the woman among whom is from this province, have filled with distinction all the requirements and are sure to be a credit to the provinces they represent, the Order and the Empire.

Formerly post-graduate courses of our Canadian university graduates were followed in the United States, where positions were offered and often accepted. Thus Canada lost the benefit of this additional study. In the case of the I.O.D.E. scholarships, however, an unwritten but not less binding promise is to come back to follow his career in Canada. It is also felt that attendance of Canadians at British universities is an additional link between the countries.

The I.O.D.E. also adds to the pensions of soldiers' widows enough money to enable them to keep their children at school instead of sending them out to work at an early age before their educations are completed. This work, however, is not national but is being done on a smaller scale by municipalities or by individual chapters.

Miss Laing then went on to speak of the work of educating the foreigners in our country who now constitute a grave menace to us by their ignorance of our tongue and customs and from the pernicious teaching they receive from their own leaders.

She pointed out that Canadians, but Ruthenians, Ukrainians, Doukhoures etc., give scope for a tremendous amount of work. In Montreal the proportion of foreign born is one in nine, in Toronto one in eight, while in Winnipeg it is one quarter of the entire male population. This might be seen to constitute not a provincial but a national problem.

Dr. Parmelee moved a vote of thanks to the speaker which was seconded by Miss Joseph Anderson.

Relieve Your Rheumatism For 25c.

NR does it by improving digestion, assimilation and elimination—the logical way.

NR Today—Relief or No Pay

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of the waste.

Let anything interfere with these processes—let them be interrupted or improperly carried on, and sickness of some kind follows.

Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism—due to some interference with the process of elimination, failure to get rid of certain body poisons—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as

rheumatic poison is allowed to remain in the body.

Think of this: It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days—must help you, must give you prompt relief and satisfactory results or cost you nothing.

And Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the whole system. You'll feel like a new person when you've taken NR Tablets a week. You'll get results this time. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

A Japanese Style Bungalow

DESIGNED BY CHARLES S. SEDGWICK

SUNNY Japan and cherry blossoms—one instinctively thinks of them when one looks at this most attractive little five room bungalow. Pointed roofs and gentle sloping lines give this unique design an artistic touch which place this plan in a class all to itself. For sheer artistic beauty, this little home cannot be surpassed and built of stucco with concrete foundation, and with shingle roof stained a russet brown to harmonize with the trunks of the trees and earth toward which it is inclined to settle, this bungalow is one that would instantly be pointed out as unusual and distinctive by passersby. Looking at it one can easily visualize it set down in a bewitching garden in which cherry and apple trees are all a-bloom, and one can catch their sweet fragrance wafted by caressing winds through the quaint latticed windows through which one glimpses distant blue

mountains which rise mistily in the background.

But let's go inside a minute! From the tiny hallway from which the stairway ascends to either unfinished attic or a nicely fitted up sleeping apartment, according to the owner's

taste and incidentally, his pocket-book, one steps into the living room with its three windows grouped together and an open fireplace. The sun parlor which could be made an open air porch in summer time, is directly off from the living room as is also the dining room in which is a built-in sideboard. The kitchen is fully equipped and there is space on the service porch for the refrigerator. Two bedrooms and a bath, separated from the rest of the house by a tiny passageway, complete this charming and convenient floor plan. One of the unique features of this home is the front terrace which could be so attractively furnished for outdoor entertaining. Washington fir finished with mission stain is used and the flooring is of oak. The estimated cost, exclusive of plumbing and heating, is between \$8,000 and \$7,000.

TORONTO POST OFFICE
LAYS OFF VETERANS
Toronto, Ont., Jan. 18.—Harry Flynn, organizer of the Grand Army of United Veterans, speaking at a meeting of unemployed in Massey Hall here yesterday afternoon, stated that fifty returned men who have been employed at the Toronto General Post Office, were given notice on Saturday that they would not be employed after January 24.
"If these men are being laid off by the Civil Service Commission," Mr. Flynn said, "why does not the Government interfere?"

REVAL EXPECTED BY WALL STREET
Greater Industrial Activity Gives Confidence To New York Financial District
(Mail and Empire)
With easier money gradually but steadily becoming an established fact and reports of increased operations by industrial plants in all parts of the country, the financial district in general sees higher prices for stocks and bonds ahead. There is some division of opinion as to whether stocks will not have a slight recession from the present level and then begin a major upward movement, but those looking for better prices in the bond market the next year are practically united. Expectation by some of a probable reaction in stocks from this level is based on the rapidity with which quotations have risen the last two weeks.
Railroad shares have shown but little improvement throughout the recovery in the industrial department, but the holders of those stocks are waiting patiently, confident in the belief that the transportation companies must share in the improvement in rates granted by the Interstate Commerce Commission, which shows a rate increase to a little less than four per cent. on the physical valuation of the common carriers. Inasmuch as the Transportation Act was passed with the intention of permitting the railroads to earn 6 per cent, they believe that there should be a further adjustment in rates in the near future, when it is demonstrated that the earnings are inadequate to come within the intent of the Transportation Act.
Important bankers and railroad executives state that the railroad situation would be helped materially if the Treasury Department would pay a substantial part of the money which the United States Government was the transportation companies. This sum is estimated at about \$400,000,000.
Action of the directors of the Sears-Roebuck Company in declaring a regular dividend payable in script bearing 5 per cent. interest, was accepted in the financial district as indicating a manner in which a number of industrial companies which have earned their dividends could maintain payments to shareholders without hurting their resources.
The rise or fall in the price paid for money as reflected in interest rates governs the quoted market values for bonds. The demand for this type of investment has improved materially recently owing to the easier money market and the expectation that rates will continue to decline.
Because of the growth of their business due to increased population the public utilities are expected to do considerable financing this year. The industrial companies, however, are expected to devote their attention to the reduction of their debts because they are doing less business and do not need any more money for expansion. The railroads are expected to do a substantial amount of financing for the refunding of maturing obligations, but very little money is expected to be used for expansion. The transportation companies will, however, have to do a fair amount of new financing in the form of equipment trust certificates.

Commercial and Financial News
CLOSING LETTERS BY THE CANADIAN PRESS
(By Canadian Press)
New York, Jan. 18.—Trading on the Stock Market today repeated in its main essentials the uncertain and professional tone of the preceding session, the idle drift of prices again denoting an utter lack of public interest.
Despite the assurances of Governor Harding of the Federal Reserve Board of a gradual return to normal conditions, the day's news, in its direct relation to financial, industrial and commercial conditions indicate a continuance of the re-adjustment of values in all parts of the United States.
Almost the one encouraging development was the report of the comptroller of the currency, which stated in substance that the condition of the United States National banks, specially as to credits and loans, was most gratifying.
Less than a dozen stocks made up the bulk of the day's contracted operations of these Mexican Petroleum, Crucible Steel, Atlantic Gulf, Baldwin and United States Steel were most prominent.
The final hour was enlivened by buying of food, leather and shipping issues, net gains of 2 to 5 points being registered by Food Products, Central Leather and United Fruit, General Asphalt also rising four points on steady accumulation. California Petroleum gained four points, but other oils were reaction-ary, as were also Steels, equipments and rails.
Rates aggregated 465,000 shares. Rates for call and time loans were unchanged, although offerings were unusually large. Exchange on London was firm and remittances to all continental points added to yesterday's advance, except the German mark, which eased slightly.
Liberty bonds except an otherwise dull bond market, the first 4-4's displaying special strength, most of which was retained.
Sales (par value) \$10,275,000.
Old United States bonds were unchanged on call.

THE CHICAGO
PRODUCE MARKET
Chicago, Ill., Jan. 18.—Bears in the wheat market took advantage today of reports that Italy had cancelled some other contracts for wheat bought in the United States. Prices rallied later but failed to hold. The finish was unsettled. Corn lost 5-8 to 1-7-8; oats 3-8 to 1-3 cent; provisions 7 cents to 45 cents.
Wheat, March \$1.74 3-4; May \$1.66 3-4.
Corn, May 59 5-8; July 70 5-8.
Oats, May 1-2; July 45 1-8.
 Pork, January \$24.00; May \$23.70.
Lard, January \$13.12; May \$13.87.
Ribs, January \$12.10; May \$12.80.

DAILY GOSSIP ON THE LEADING STOCKS
The American Radiator Company has announced a price reduction of 20 per cent on all of its products. The Birmingham (Alabama) plant is expected to resume after having been closed for some time.
The German Government is considering the deficit of German railways, estimated at 16,000,000,000 marks yearly, and is elaborating a scheme of reorganization aiming at docking the present tariffs. The increase would raise passenger rates to nine times pre-war levels and goods rates fully 12 times.
Commerce reports say the production of bananas in the Puerto Barrios district of Guatemala during 1920 was far in excess of the crop for 1920, and unless unforeseen complications appear, the crop for 1921 will be a record one. More than 3000 acres of bananas were planted in 1919 by the chief fruit-growing company in that country, and these plants will come into full bearing this year. During the period ended October 20, 1920, this company exported 3,387,000 stems of bananas to the United States.
In carrying out repairs and "reconditioning" of a permanent character on the system the Canadian Pacific has expended during the last few months over \$750,000 on the Edmonton, Dunvegan & British Columbia Railway, this improvement being mainly on the northern sections of the line.
A Rome paper says the Italian Treasury, which showed a deficit of nearly 1,000,000,000 lire last October, now shows a surplus of nearly 100,000,000 lire.
According to the Canadian bank statement for November, 1920, total deposits in all branches of chartered banks in Canada increased by \$21,500,000 and the deposits in such banks outside of Canada by \$11,825,000. There was a decrease during the month of \$14,825,000 in note circulation, a decrease also of \$46,429,000 in current loans in Canada, and of approximately \$24,000,000 in current loans outside of Canada.

CLOSING LETTERS BY THE LOCAL BROKERS
(By Brunau & Dupuis)
New York, Jan. 18.—There is not much to be said of today's market. Trading has been light and the fluctuations of minor importance. The general aspect of the market is that of waiting and finding the bearings after the existing turmoil of the end of last year. The one great factor in favor of the market is the easier tone in money and the let up of that persistent pressure which has so onerous all during the past year. Of course this is the inevitable result of the slackening in business which is slowly accumulating funds in the banks. It looks as if we were in for a waiting period for a few weeks at least with possibly some further heaviness in prices. Sales 472,400.
(By L. G. Beaubien & Co.)
New York, Jan. 18.—The early and midday dullness in connection with a declining market was followed by a turn in the trend this afternoon and moderate advances resulted. There were exceptions to the better tone such as the fertilizer stocks but in most instances gains on the day were reported. The most pronounced advances took place in the leather stocks. Central Leather and Hide and Leather Preferred reached a gain of about 4 points each, general Asphalt, Food Products, Corn Products and other specialties were strong, while there was a moderate retrenchment in the rails and oil stocks. There was no news to account for the change in the market aspect and it apparently resulted from the traders realizing that the market was pretty well sold out and was easier to move up than down.

HOW CONSUMERS AID LOWER PRICES
Buyers Should Patronize And Encourage Merchants Giving Best Values
Boston, Mass., Jan. 18.—Consumers, as well as sellers of goods, have a duty to perform if they do their fair share in the present era of price reducing. In this case the merchant turns the tables on the careless buyer who purchases from price tags instead of from values. Honest merchants who follow the business practice of marking down commodities and relying on volume of business to yield a profit rightfully feel that they may expect patronage in preference to those who exact abnormal profits merely on the "elegance of the transaction" or some other equally un-economic claim without delivering an equivalent value.
The merchants agree that it is no idle charge that purchasers too frequently choose the same goods at higher prices under the mistaken idea that the price is the determining guide to value. They point out that if real deflation is to be effected consumers ought to patronize the merchant who sells the same goods at lower prices at least as an indication of their approval of his method of doing business rather than encourage the higher priced store against which they complain but do not act.
A special point of this is made by the newly formed Association for the Promotion and Protection of Savings, which quotes Prof. Thomas N. Carver, of the department of economics at Harvard University, to this effect:
"When prices are rising, if people think they are to continue to rise, they are tempted to hurry up and buy whatever they are likely to need, before prices go any higher. This accelerates buying and tends also to accelerate the rise in prices; but when prices begin to fall, as they inevitably must under this system, then people begin to think they are going still lower, and they wait whatever they are buying until things get cheaper; thus buying is retarded below the normal and prices tend to fall more rapidly than they otherwise would. The obvious remedy for this is a more intelligent and consistent method of buying."
"Another point," the association makes it that it is just as important to buy tools, equipment, and instruments of production—in other words, that we invest regularly and conservatively as that we buy consumers' goods regularly and conservatively. People who do this are masters of their pocket-books and not mastered by their pocket-books."

THE QUEBEC CHRONICLE
GERMAN BONDS
We offer for immediate delivery:
City of Berlin 4% Bonds
10,000 Marks for \$190. (subject)
Normal \$2,400.
INTEREST COUPONS PAYABLE EVERY SIX MONTHS
We Will Cash Coupons
These bonds are instantly saleable any time at the market price and, during the past year we have seen marks treble in value in ten weeks' time.
Why doesn't everybody buy German Bonds? Simply because of the old, old streak of human nature which never buys when securities are cheap, but always plunges in when they are high.
It is our firm belief that the next upward swing will be permanent and far reaching.
Opinion of a prominent banker who has just been back from abroad.
"All talk of 'Starving Germany' is a myth. Germany is not needy and has never been."
She will never default payment of her Government Bonds either in principal or interest. The war has not devastated her property.
She is purposely distributing propaganda to make the world terms in the payment of the war indemnity, so she may obtain easy believe her in desperate circumstances so she may obtain easy Germans are the most industrious people in the world, anxious to work ten hours a day, and now the blind submission of the Kaiser is dispelled, they will never wish and can never be led into another war, civil or foreign."
Germany's Monetary and Banking Systems are such that she can restore her money to normal value more easily than any other country and we are almost certain that the mark will be nearer normal in three years than any other money in continental Europe.

MEETING OF THE
CITY COUNCIL

FRIDAY, JANUARY 14th, 1921.

Quebec, January 15th, 1921.

Present: His Worship the Mayor; Aldermen: Messrs. Bedard, Bertrand, Bouchard, Bouchard, Collier, Delegrave, Fiset, Lesage, Martin, Mercier—(10).

The minutes of the last meeting are read and adopted.
Read the following letters from the Federative Council of Trades and Labor: 1. Renewing their demand for a sidewalk and shelter on the car line in Ste. Therese street; 2. Asking that work be commenced on the sewer proposed along the St. Charles River to give employment to the unemployed. Both letters are referred to the Public Works Committee.

Read a letter from the Central National Council of Trades of Quebec asking that two workmen be appointed on the Board of the Exhibition Commission. Referred to the Finance and By-Law Committee.
Read a letter from Messrs. Roy, Lavigne, Laverie et al., on behalf of Mr. A. Adams who claims a difference of salary which was granted to him as a continuation of his full salary in the employment of the City when he enlisted in War service. Referred to the Legal Advisers of the City.

Read a letter from Messrs. Drouin & Drouin claiming for their client Mr. Elz. Boucher, damages to the amount of \$51.60 in consequence of damages to his property by water. Referred to the Public Works Committee.

Read a letter from Mr. C. Smith, Secretary Harbour Commission, suggesting that labor be commended on the River St. Charles to complete the damming of the said River. Referred to the Public Works Committee.
Read a petition from the Choroie Notre-Dame de Lourdes praying the Council to give its assent to their petition for incorporation. Referred to the Finance and By-Law Committee.

Read a letter from the Automobile Club of Canada asking the support of the Council in favor of their petition for legislation to compel the use of lights on automobiles. Referred to the Finance and By-Law Committee.
Presented petitions from several Societies praying the Council to favor the granting to them of the use of the Montcalm Building for the purposes of their respective organizations. Referred to the Finance and By-Law Committee.

Presented the following Reports of Standing Committees:

Finance and By-Law Committee:
381.—To grant additional credits to the Police Department and to Contingent Fund. Moved by Alderman Mercier, seconded by Alderman Fiset and resolved: That the said report be inscribed as 2nd order of the day.
382.—To authorize payment of \$64.98 account due for the Central Palace, Exhibition Park. Moved by Alderman Mercier, seconded by Alderman Bouchard (J.-C.) and resolved: That the said report be inscribed as 3rd order of the day.

383.—To authorize the payment to La Societe du Patronage des Tuberculeux the sum of \$3,500, as a subsidy. Moved by Alderman Mercier, seconded by Alderman Bouchard (S. R.) and resolved: That the said report be inscribed as 4th order of the day.
384.—To pay to Mrs. Widow Guerard \$1,100, in settlement of her claim of \$3,000, for the death of her late husband, killed in the service of the City. Moved by Alderman Mercier, seconded by Alderman Fiset and resolved: That the said report be inscribed as 5th order of the day.

The Order of the Day Being Called: With the permission of the Council, Alderman Bedard calls to the attention of the Council the fact that on Friday next, the 21st of January inst., Mr. August Malouin, Assistant City Clerk, will have completed 45 years of uninterrupted service to the City. It is moved by Alderman Fiset, seconded by Alderman Bedard and unanimously resolved: That when the Council shall adjourn, it stand adjourned until Friday the 21st of January inst., in order to afford the Council an opportunity of tendering their congratulations upon the rare and happy event.

The Order of the Day Being Called: 1st order of the day: The Council then proceeds to the second reading of By-law No. 36C, re removal of snow, for which second reading for adoption there must be present the absolute majority of the members of the Council. The following members being present, His Worship the Mayor, Aldermen Bedard, Bertrand, Bouchard, Bouchard, Collier, Delegrave, Fiset, Lesage, Martin, Mercier, the preamble of the said By-law being read is adopted.
Clause 1 of the said By-law being read, it is moved by Alderman Bedard, seconded by Alderman Delegrave, that the words "Lockwell Street" be added after the word "Cremazie", to read as follows, to wit: "Cremazie and Lockwell streets in their whole length", and the said clause 1 being put to the vote is adopted, and the said By-law thus amended being put to the vote "in toto" is adopted, and His Worship the Mayor declares said By-law to have been read a second time, adopted and put in force.

2nd order of the day:—Read the 381st report of the Finance and By-Law Committee, which being put to the vote is adopted and it is resolved:

TRADE CONDITIONS
POOR IN NEW ZEALAND

Washington, Jan. 17.—(By Can. Press).—A report received by the Department of Commerce from the United States Consul General at Auckland, New Zealand, says: "Trade conditions in New Zealand at the present time are not at all satisfactory and the outlook not very promising. There is nothing threatening in the outlook, but there is a general disposition on the part of banks and conservative business men to curtail imports wherever possible, especially along the line of nonessentials. In fact the banks have made it known that they are not inclined to finance nonessentials imports, such as automobiles, certain lines of dry goods, and luxuries in general. This does not mean, however, that imports will fall much if any, below normal, for the reason that a strong demand exists for essential lines to make good the reduction in stocks during the war."

An Aid to Wearing
This Season's Fashions

(Helps to Beauty)
Here is a simple, unfailing way to rid the skin of objectionable hairs: With some powdered delatone and water make enough paste to cover the hairy surface, apply and in about 2 minutes rub off, wash the skin and every trace of hair has vanished. This is quite harmless, but to avoid disappointment be sure to get the delatone in an original package.

At The Theatres

"Humoresque" at Victoria Theatre
For Last Showings Today—See It!

Today will be the last opportunity of seeing "Humoresque", the great picture of the season at the Victoria Theatre. Don't be one of those who, a week later, will say "I believe they had a great picture at the Victoria, but I couldn't attend." Make it a point to be there today. You'll not regret it. And the comedy is a dandy one.
Tomorrow: Enid Bennett in "Her Husband's Friend."

"The Cinema Murder" at Empire
—Ruin or Shame—Which?

Her "angel" had come to collect! On the very night of her first triumph as an actress! He was the power to wreck her career—may be said to the gallows the man she loved. She had not dreamed he knew of the "Cinema Murder." But blindly, ruthlessly, he told the brutal facts and bade her choose.
Come and see what happened!
The Empire Orchestra also giving selections from "Lacis."—Mack Sennett comedy and scenic.

Final Showing at Classic Today
of "813" and "Velvet Fingers"

TODAY AND TONIGHT WILL BE THE FINAL SHOWING AT
THE CLASSIC OF "813"—THE GREAT ARSENE LUPIN—
ROBINSON-COLE SUPER SPECIAL WHICH EVERYONE
WHO SAW IT YESTERDAY SPOKE SO HIGHLY OFF

"Velvet Fingers" the best serial yet produced. (the general opinion) will have the last showing of its first episode today and tonight.
These two numbers should not be missed by anyone who appreciates something extraordinary. In addition there is Bill Parsons, in a 2 reel comedy, The Ray Pictograph and 2 other numbers.

Cold Snap Does Not Keep Vaudeville Fans From The Auditorium

There is nothing that can keep the vaudeville fans from the Auditorium, this week, not even the extreme cold snap we are having, so attractive in fact is the bill offered this week.
The vaudeville numbers are really wonderful, they constitute one of the very best bills desirable. Don't miss this week's vaudeville at the Auditorium. And Douglas Fairbanks is there also in "The Molly-coddle," along with a comedy, etc.

That this Council hereby authorizes the transfer of the following sums to be put to the credit of the following "Items": Police (General purposes), \$4,000; Contingents, \$4,000; Municipal Buildings, \$250; to pay account for repairs to the Finance Committee Room; the two first "Items", \$4,000 each, to be charged to the credits voted for "Interest and Commissions", and the amount of \$250, to be charged to the surplus of the year 1919-20.
3rd order of the day:—Read the 382nd report of the Finance and By-Law Committee which being put to the vote is adopted and it is resolved: That this Council authorize a temporary loan of \$14,400 to be added to the loan already made at the Bank of Montreal (St. Roch), Central Palace, Exhibition Park, to pay the balance due to Mr. T. Guay & Brothers.
4th order of the day:—Read the 383rd report of the Finance and By-Law Committee which being put to the vote is adopted and it is resolved: That a subsidy of \$8,500 paid to "La Societe du Patronage des Tuberculeux", said amount to be charged to the proceeds of the "Poor Man's Tax".

5th order of the day:—Read the 384th report of the Finance and By-Law Committee which being put to the vote is adopted and it is resolved: That this Council authorize the payment of \$1,100 to Mrs. Widow Guerard, in final settlement of her claim arising out of the accidental death of her late husband who was led in the employ of the City. Said payment subject to the condition that Mrs. Gerard renounces her rights and claim against the City.

Questions Being Called:
Alderman Lesage asks: What is the amount paid for extra work to each of the City Assessors, and was the said amount paid legally in the opinion of the City Legal Advisers?

Motions Being Called:
Moved by Alderman Fiset, seconded by Alderman Bouchard (J.-C.) and resolved: That this Council orders the Public Works Committee and the City Engineer to take the steps and measures at once to compel the Electric Railway Company to cross all the railway tracks which cross Bell's Road and the Beauport Road, whether it be level crossings, subways, or elevated railways, and to report on those operations to the Council.

It is then moved by Alderman Fiset, seconded by Alderman Bedard, and it is resolved: That this Council do now adjourn until Friday, the 21st of January, 1921.
Adjourned.

Miss Ray Scott and Miss Billie Watson are leaving for Montreal on Thursday, where they will be the guests of Mrs. (Dr.) Wright, Cote St. Antoine Road, Montreal.

Mr. and Mrs. E. Dumais, 10 Conroy St., announce the engagement of their daughter, Jeanne, to Mr. J. E. LaRouche, son of Mr. and Mrs. J. O. LaRouche, of Sweetburg, Que.

Capt. and Mrs. J. F. Burnell and the Misses Phyllis and Rosemarie Burnell left Ottawa yesterday for New York, where they will sail by the Imperator for England, where they will spend a few weeks.

and to carry out reconstruction and development work in the Dominion.

MONTREAL CONSTABLE
TELLS HIS EXPERIENCE

At The Time He Began Taking Tanlac Dupre Had Been Suffering a Long Time, He Says—Feels Fine, Now

"Nothing ever helped me until I got Tanlac, and now I'm just like a man made over," was the statement made recently by Wilfred Dupre, well known special constable for the City of Montreal, residing at 731 Cote Des Neiges Road. Mr. Dupre has been in the service of the city for over 20 years, and is well known and popular.

"At the time I began taking Tanlac I had suffered for a long time with severe and frequent attacks of indigestion. I couldn't eat anything but what would blast me all up and cause hours of misery. I had splitting headaches and often got so dizzy I could hardly go. I was very nervous, could scarcely sleep at all, and always felt tired and worn out. I also suffered from constipation, and altogether I was in a pretty bad condition."

"Although I tried medicine after medicine, I just kept going down hill. It worried me no little to realize the condition I was in, and while I had youth on my side, I didn't fail to keep my eyes open for something in the way of medicine that might help me wear my troubles off. One day I read a Tanlac testimonial and decided this might be the medicine for me, and it certainly proved to be the right one. The first bottle helped me, and now I am eating just anything I want, and everything agrees with me perfectly. I sleep like a log nights, and am no longer troubled with headaches, or in fact, any of my old ailments. Tanlac is the best medicine in the world for stomach trouble."

Tanlac is sold by Martel & Dion and Jolicoeur's Pharmacy.

Confirmation Class, St. Matthew's Church, 4 p.m.

Evening Service, Trinity Church, 8 P.M.

LEFT RINGS BEHIND.
STOLEN JUST THE SAME

Chicago, Ill., Jan. 17.—Mrs. Katherine L. Gibbons, of Cleveland, had been going to the theatre last night, left her diamond rings at the home of friends when her escort, John Burke, warned her of the danger of foot-pads. When she returned the rings were gone.

Mrs. Gibbons, reporting the loss to the police, casually mentioned that Burke left the theatre in the second act and returned late. He was arrested but released.

Burke went to police headquarters today and demanded an apology. The police becoming suspicious, re-arrested him, and said they found Mrs. Gibbons' three rings in his possession.

There is only one Aspirin—Bayer's—You must say "Bayer" Handy tin boxes of 12 tablets cost but few cents—Larger packages.

BAYER

Aspirin
Only "Bayer's" Genuine

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-aceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."
