**PLAN MARRIAGE** — Australian engineer Terry Whitfield, 28, claims he was fired from his job at a northern radar station because of his love for Anne Witaltuk, 25, a Canadian Eskimo and former airline hostess. They are shown in Ottawa looking over an Eskimo carving of a kayak. (CP Photo)

## Told fraternizing rule 'doesn't apply to you'

TORONTO (CP)—Australian engineer Terry Whitfield said Tuesday night an official of Canadian Marconi Company told him the firm's rules banning fraternization with Eskimos "don't apply to you" because he isn't a Canadian. The rules were written into the contract Terry signed with Marconi when he went to work at a northern radar installation. He was dismissed on the ground he was "fraternizing" with Anne Witaltuk, 25, the world's first Eskimo airline stewardess.

## Employment for city shows big increase

Employment in Sherbrooke increased during April, Eugene Charette, manager of the Sherbrooke Unemployment Insurance Commission, revealed Wednesday. Figures showed a number of placements during April, well above the corresponding period in 1960. The number of unplaced applicants dropped by almost 1,250 to 6,144 from March to April, he said. Operations at the local office, with comparative figures are shown: April, 1961: 2,376 registrations; 984 referrals; and 786 placements. April 1960: 2,290 registrations, 801 referrals, 563 placements. March, 1961: 2,413 registrations, 641 referrals, 526 placements. In his statement, Mr. Charette said: "We take this opportunity of mentioning our appreciation to employers who used our employment office, and to invite others who require labor to also make use of the agency." In the insurance field, the Sherbrooke office and its local sub-offices of Richmond, East Angus and Coaticook, have registered during April 1961, 856 initial claims in person, 777 renewals, and 136 postal claims, for a total of 1,769, a considerable drop from

## Kennedy visit: May be cool on Latin aid

OTTAWA (CP) — President Kennedy may get a polite turndown today when he urges Prime Minister Diefenbaker to provide a measure of Canadian economic aid for Latin America. Well-informed sources said Canada is unable at this time to make contributions which would have any significant impact on the Latin area. Mr. Kennedy, 43, who arrived here Tuesday afternoon for a two-day state visit, is reported hopeful of persuading Canada of increasing western hemisphere strength through at least some "gesture" of Canadian economic aid which could be linked to the United States \$500,000,000 program which has just been launched. The president pleaded for United States-Canadian solidarity in his arrival speech at Uplands Airport where a throng of about 1,500 cheered and applauded the lanky Irishman and his ethnic wife, Jacqueline. Mr. Diefenbaker, in welcoming him, described Mr. Kennedy as "a world leader of the legion of freedom whose courage in war is needed today in these uncertain days of peace." Governor-General Vanier greeted the president as "a man whose standards of courage and integrity have been widely acclaimed." Moderate crowds of perhaps 30,000 or 40,000 lined the streets during the 12-mile cavalcade that took the White House couple through the Canadian capital to Government House, residence of the governor-general and their home during the state visit which ends Thursday morning. The president will speak before a joint session of Parliament in the House of Commons at 3:15 p.m. EDT. Mr. Kennedy would like to see Canada become a member of the 21-country Organization of American States. Canadian and American informants said membership would carry some responsibilities for Canada providing aid to the hard-pressed Latin countries. The Canadian government is giving this subject new consideration. To the growing number of public voices taking sides on the issue have been added those of former prime minister St. Laurent and the 1,000,000-member Canadian Labor Congress. Both said Tuesday that Canada should join. Informants said, however, that the government is not planning any immediate decision. Mr. Kennedy may have to leave empty-handed. Canada's overall economic aid program is currently estimated at about \$82,000,000 annually in grants, mostly to Colombo plan countries in Asia. Both the president and prime minister ventured into the French language in their airport speeches. The prime minister limited the French portion of his speech to a simple expression of welcome. Mr. Kennedy observed in French that it was fitting that in his first trip as president outside the United States, he should visit Canada, "the oldest of our neighbors and among the closest of our friends." After their arrival at Government House, the Kennedys planted two young red oak trees on grounds where other world figures have followed the same tradition.

## May hold Summit in Vienna

VIENNA (Reuters) — The United States has informally asked the Austrian government whether a meeting between President Kennedy and Soviet Premier Khrushchev can be held in Vienna, authoritative sources said here today. These sources said the proposed meeting was due to begin June 3. So far there was no approach yet from the Soviet Union, they added. Reliable sources in Paris reported the United States had informed the NATO permanent council of plans for the meeting and that an announcement was expected Friday. A senior Austrian official told a reporter: "I do not doubt that the two statesmen will meet in Vienna on June 3." However, Soviet Embassy officials here maintained they knew nothing about any meeting. But reliable sources said that several senior officials of the Russian Embassy had been called to Moscow in connection with the reported forthcoming visit. An Austrian government spokesman told a correspondent that President Adolf Schaerf, now on a state visit to the Netherlands, was being informed continuously on the developments in connection with the possible meeting. He said that if the two statesmen decided to meet in Vienna, the Austrian government would restrict its activities to "purely protocol obligations." This meant that Kennedy and Khrushchev would meet on their arrival according to protocol regulations. The same would apply for their departure.

## Marries princess

VANCOUVER (CP) — A princess and a part-time cowboy were wed Tuesday in Trieste, Italy. The princess is Olga Windisch-Graetz, a member of a noble family that dates back to the 13th century. The cowboy is Karl Anton Riedemann, 29, son of Mr. and Mrs. Rario Riedemann of Vancouver.

## 'Rifleman' terrorizes East Ward

Sherbrooke police Tuesday noon captured a teenaged 'rifleman' who menaced residents of Sherbrooke's East Ward, from Talbot Street, south along Bowen Avenue towards the city limits, with scattered volleys of .22 calibre bullets. Capt. Armand Genest, of the Sherbrooke police, said Wednesday that the youth "under 18" would probably undergo a mental examination. He was charged Tuesday with discharging a firearm within the city limits. According to the captain, the young man was trying to be "left alone." He recently quit his job in Sherbrooke. Police were first notified of the case when terrified roads department men working in that area reported being threatened by the youth. As soon as the police appeared, the youth fled into the woods in the direction of Lennoxville. The Lennoxville police were immediately notified and the combined police departments circled the area to cut off his escape. He was cornered about three-quarters of an hour later not far from where he first appeared on Talbot Street. He surrendered quietly. Captain Genest said further charges may be laid against the boy, depending on the outcome of a mental examination.

## Plan to film entire Bible

ROME (Reuters) — An Italian movie producer today announced plans for the ultimate in biblical spectacles. Dino de Laurentiis, a producer and the husband of actress Silvano Mangano, said he plans to make a 10-hour movie covering the entire Bible. It will feature international directors and actors, he said. The movie is to be divided into three parts and may cost as much as \$24,000,000. De Laurentiis told reporters the film would probably keep him busy for three years.

## Five killed in ambush

LISBON (AP) — Five Portuguese soldiers were killed and six wounded when a patrol was ambushed by hundreds of Negroes with automatic guns on the road from San Salvador to Nogu on the Congo border, the Lusitania agency reported today.

**SOUTH KOREAN TROOPS REVOLT** — Newsmap shows South Korea where South Korean armed forces revolted and seized control of all major cities after heavy fighting.

## Army digs in in S. Korea

SEOUL — Reuters — Revolutionary troops of the South Korean Army began digging themselves in around Seoul today amid growing uncertainty about the amount of support the rebel junta commands throughout the country. The troops began digging anti-tank ditches, trenches and machine-gun nests on the road north of Seoul, which they seized Tuesday in a dawn coup. Meanwhile, the United States put new pressure on the military junta, describing it as an "unauthorized military body working in contravention of the United Nations command." A senior U.S. Embassy official here told reporters that the United States continued to recognize the government of Dr. John Chang as the only legal and constitutional administration of the republic. The commander of the South Korean 1st Field Army dealt the junta a blow today by ordering his troops to remain neutral. The junta had claimed Tuesday that it had the support of the commander, Gen. Ham Lim Lee. Lee signed his declaration simply as commanding officer of the 1st Field Army but he controls all the combat divisions in the South Korean Army, which includes 18 divisions. The junta nevertheless pushed ahead today with its takeover of government ministries. It was reported to have arrested five South Korean cabinet ministers, including Foreign Minister H. H. Chung. But the whereabouts of Dr. Chang were still unknown. The junta sent 24 colonels to take over government ministries and appointed another of

## Pipeline explodes

NORTH BAY, Ont. (CP) — A section of a natural gas pipeline exploded near here early today, sending rocks and debris hurtling for hundreds of feet and setting off a 500-foot-high fire that could be seen for miles. A few persons were taken to hospital but were not believed severely injured. Residents of a half-dozen or so houses in the area were evacuated. At the one-storey home of Ft. Lieut. Dave Wier of the RCAF, about 300 feet from the centre of the blaze, two boulders plunged through the roof into a bedroom, just missing a crib with two children in it. Another boulder tore a hole almost two feet in diameter in the roof and plummeted through the kitchen floor into the basement. Heavy rocks spewed as far as Highway 11, 500 feet away. One rock estimated to weigh about three tons was thrown 200 feet. Small bush fires were started over a 1,000-foot area.

## Missionary dies

TORONTO (CP) — Mrs. Minnie Campbell Scott, wife of a former moderator of the United Church of Canada, died Tuesday in hospital.

## O Canada

### Cuban refugees arrive

MONTREAL (CP) — All 61 passengers on a Trans-Canada Air Lines plane broke out spontaneously with O Canada as the aircraft came in for a landing here Tuesday night. Many of them were back home for the first time in more than a decade. But it was an involuntary return to their native country. Nuns and priests, they were forced to leave troubled Cuba because the government of the Latin American country took over their convents and colleges May 1 following Premier Fidel Castro's announcement closing all schools. Three of the sixty-four originally scheduled to return on the TCA flight elected to stay in Cuba at the last minute, and some 40 Canadian missionaries still remain there. All those returning Tuesday night wouldn't answer any political questions because of the 40-odd who stayed behind. Most expressed a desire to return to Cuba "some day." And all left their personal belongings behind, coming home, in many cases, with nothing more than the clothes they wore. The nuns wore the habits of their order, but the priests travelled in civilian clothes—mainly sports shirts and flannels. "We didn't want to cause any demonstrations at Havana airport," Father Fernand Gaudry of Quebec City said. Acting as spokesman for the group, Father Gaudry, a member of the Foreign Missions Society of Montreal, said the society's college at Colon, in Ma-

## Thirteen homeless

High winds fanned an Omerville fire out of control Tuesday evening to destroy one home and threaten a nearby building. Mr. and Mrs. George Harvey and their eleven children were taken in by neighbors after their rented home, owned by Delphine Picard, was destroyed. Magog Fire Chief Telesphore Lavoie with two of his men and eleven volunteers from Omerville managed to keep the fire from spreading to the adjacent Daigle and Frere building which houses a grocery store and three apartments. Omerville is on the eastern limits of Magog.

# Blames leftists for Laos impasse

GENEVA (Reuters) — U.S. State Secretary Dean Rusk said today that continuing attacks by leftist rebels in Laos were preventing an effective cease-fire in that kingdom. Rusk told the international conference on Laos that the leftist rebels were continuing their attacks in the area around Xieng Khouang. The secretary said an effective cease-fire was necessary if there were to be any constructive results at the 14-country talks here and warned that failure to bring one about would result in a highly dangerous situation. Rusk urged the conference to issue cease-fire instructions to the three-nation international truce commission on Laos—made up of India, Canada and Poland—as a matter of the first importance. REPLIES TO CHARGE The secretary's charge that the leftists had failed to observe the Laotian cease-fire was made in reply to an attack on the United States Tuesday night by Chinese Communist Foreign Minister Marshal Chen Yi. Chen accused the United States of being responsible for the Laotian crisis and demanded the liquidation of the Southeast Asia Treaty Organization (SEATO). The Laotian right-wing delegation boycotted Tuesday's opening session despite its designation as a "business session" to get around the delegation's refusal to go to the conference on equal terms with neutralist and pro-Communist Pathet Lao representatives from Laos. Soviet Foreign Minister Andrei Gromyko was scheduled to make a policy statement in the afternoon and, like Rusk, he was expected to echo calls for a neutral Laos made Tuesday by Prince Norodom British Foreign Minister Lord Home and Chen Yi. The conference went into a closed-door session Tuesday at which Home proposed a four-point plan of action—a declaration of neutrality by Laos, a

# Stars pay tribute to Gary Cooper

HOLLYWOOD (AP)—The largest assembly of movie stars of modern times met Tuesday to pay final tribute to a tall, soft-spoken hero of a hundred films—Gary Cooper.

A silent crowd of about 200 stood outside the Church of the Good Shepherd in Beverly Hills during a solemn requiem mass.

Cooper died Saturday at the age of 60 after a gallant fight against cancer.

Although the 505-seat California mission style church on busy Santa Monica Boulevard was only three-quarters filled, the roster of stars was unequalled for any congregation of recent memory.

## About Television

**NEW YORK (AP)—**Whispering Smith, NBC's new western series, made its debut Monday night with a switch: The heavy was a woman. Of course there was also the usual number of fast draws and barroom brawls, but the high spot came when the vengeful mother horse whipped the son she trained to be a killer.

There's been a real trend toward beating up women in westerns this season. Maybe now it's the ladies' turn at bat. Audie Murphy stars as the

## Show Business

**By BOB THOMAS**

**HOLLYWOOD (AP)—**Kim Novak's Gowns by Kim Novak. Something like that is scheduled to appear among the credits of her new movie Notorious Landlady. This is the latest development in the burgeoning career of Kim Novak, artist-designer.

Don't scoff. At a current exhibition of Hollywood art, there was genuine excitement over two canvases by Miss Novak. Now she's adding a new dimension by designing her clothes in Landlady.

At a rehearsal for the film she said: "I just finished the painting of her, and I had challenge and the studio gets wanted to finish it before I started the film. So I got up at 5 and worked all morning. It's a likeness; I'm not one of those who believe a portrait should look like anything but the subject. I get the features down and then I go from there in adding my own interpretation of the subject's life."

"I guess people are surprised by my art, but they shouldn't be. After all, I had a scholarship to the Chicago Art Institute and studied for three years."

What about the dress designing?  
 "It happened by accident," she said. "I love Jean Louis' clothes and wanted him for the picture, but he was unavailable. So I volunteered to do them myself."

"I didn't realize how much work was involved — going around to the stores and finding materials. But it has worked out well for both of us: I've had the satisfaction of meeting the

**HOLLYWOOD (AP)—** Veteran comedian Jack Benny Tuesday night won an Emmy award from the television academy for his outstanding achievements in humor.

The award was the first of a long series of statuette presentations at the 13th annual event. Benny was not present to receive it but Bob Hope, considered a strong favorite for the honor, was.

Macbeth scored victories for both its stars in the category of best single performance. Maurice Evans won in the title role and Judith Anderson as his wife. Both acknowledged their debt to the author, William Shakespeare.

Fred Astaire continued his winning ways with Emmy, scoring for the best program achievement in variety. Two years ago his first TV special garnered nine awards.

A double winner was Leonard Bernstein, chosen in the field of music for his New York Philharmonic broadcasts. He also won in the children's programming category.

Eleven hundred of TV's elite gathered at the Moulin Rouge for the television gala and another group attended the festivities at the Ziegfeld Theatre in New York.

**SERLING HONORED**  
 A popular winner for best writing of a dramatic program was Rod Serling for The Twilight Zone. There were cheers also for the corps of writers collecting the best comedy achievement Emmy for their gags on The Red Skelton Show.

Conductor Bernstein's second Emmy of the evening was for his program celebrating Aaron Copland's birthday on Young People's Concert.

## Butters Memorial Hospital

### To immunize all patients for measles tomorrow

Patients at the Cecil Butters Memorial Hospital in Austin, a home for advanced mentally retarded children where 20 died recently during an epidemic of measles, will be immunized against the disease probably on Thursday, Mrs. Lily Butters superintendent of the home said today.

The immunization with gamma globulin will be undertaken at the expense of the Quebec Department of Health.

"It will help," Mrs. Butters said, "although the epidemic is completely over and no one is in quarantine now."

Twenty children died during the epidemic which lasted for about five weeks and ended about a week ago.

Fifteen of these died of measles or complications resulting from the measles; the others died of complications resulting from their afflictions.

Dr. Roger Foley, chief epidemiologist of the Quebec Department of Health said Tuesday that "no blame could be attached to the institution. Medical service at the hospital is first class," he said.

He explained that because of their condition the patients in the hospital have no resistance against disease and die more easily than normal children.

Dr. John Bryant, one of two Magog doctors who serves the hospital said in reference to Mrs. Butters, "I have nothing but praise for her. The hospital is a labor of love."

Mrs. Butters founded the home in 1946 as a memorial to her son who was killed at St. Johns, Que., in 1943 while serving with the RCAF.

The hospital has a staff of 35 and accepts children with a wide variety of congenital defects that no other institutions in the province will take.

### Hail establishment of autoroute office

Government Bill No. 67, introduced in the Legislative Assembly this week and calling for the establishment of a Quebec Autoroutes Office has been hailed by the Sherbrooke Chamber of Commerce as a first important step towards the construction of the Sherbrooke-Montreal Autoroute.

"This bill, as reported in the newspapers, seems to follow the recommendations contained in two memos which were prepared by the Eastern Townships Autoroute Committee and presented to the premier and to the Minister of Roads," the Chamber notes in an official press release.

The Quebec Autoroute Office would have five members appointed by the government and would study the need for first-class roads throughout the province, according to Roads Minister Bernard Pinard.

The Office would be responsible for study of any Autoroute projects, for the preparation of plans and drawings, for the construction, for the administration and for the necessary maintenance and repair work.

Salaries for the five members of the office will be fixed by the Cabinet. These members may not have any interest, direct or indirect, in any company which builds or maintains roads, or any company which makes or sell materials or machines used in the construction or maintenance of roads.

Headquarters for the office will be situated in the Quebec or Montreal areas.

The new office will replace the Laurentian Autoroute Office, acquiring its rights and assuming its obligations, while all employees of the Laurentian Office will now become employees of the new office.

Reactions of members of the Eastern Townships Autoroute Committee have been highly optimistic.

Co-chairman Mayor Armand Nadeau said that the bill indicates a "radical" change in provincial policy on roads and Granby Mayor Horace Boivin agreed. Both termed the announcement of the bill "very good news."

"At last, the government is giving the Eastern Townships the consideration which she has deserved for a long time," said Mayor Boivin.

### Robitaille hearing put off

SWEETSBURG — (Staff) — The preliminary hearing of Ubald Robitaille, of South Stukely charged with the murder of his 43-year-old wife was set for Thursday May 25, by Crown prosecutor Claude Noisieux at the Sweetsburg Court House Tuesday morning.

"We will definitely be ready to go ahead with the hearing on the 25th," Mr. Noisieux told the court Tuesday. However, Robitaille will once again appear 'pro forma' before Judge Patrick Delaney next Tuesday May 22. Under Quebec law, an accused must appear before the courts at least once every eight days.

Robitaille will be detained at the Sweetsburg jail pending his hearing.

The body of his wife, mother of seven children, was found Monday May 1 under a pile of hay in an abandoned chicken coop at the rear of the Robitaille home on Route 1, two miles East of South Stukely.

Montreal provincial police medico-legal experts established that the woman died from strangulation. Experts at the coroner's inquest held at the Knowlton High School Friday, May 5, said the woman's body showed finger marks on her throat.

It was also established she suffered a blow to the back of her head at the moment of death.

The dead woman's son, Bernard, 20, said at the inquest that he found his mother in the chicken coop which is located 125 feet from the house, four days after her disappearance.

## 2 tots sought following \$12,000 fire

RICHMOND FIRE — Smoke pours from the front of the Lariviere shoe shop in Richmond at the height of a blaze that caused extensive damage to a downtown business block Tuesday. (Record Photo by Maurice Malick)

RICHMOND — (Special) — Two small girls, aged about four or five years, are being sought following a blaze which caused an estimated \$12,000 damage to a two-story building in the heart of Richmond Tuesday.

Fire Chief Gerard Paquin said Wednesday that the fire broke out shortly after noon Tuesday, in a shed at the rear of the building, at 446 Main street, which adjoins a block of business establishments.

A shoemaker's shop and two tenements above it were badly damaged.

Chief Paquin said two small girls were seen playing in the shed with matches, just moments before the fire broke out, and about the time the fire started, were seen running away.

Owner of the shoe shop, Jean Marie Lariviere, was at home having lunch when the fire started. Tenants of the upstairs apartment, Mrs. Omer Cote, and her three children were not there, but Ghislaine the younger girl, was nearby and warned a neighbor, Mrs. Mabel Blanchette, who called the fire department.

Arthur Lacombe, in the building at the time, was storing some coats in the front of the shop when he smelled smoke and heard the crackling of the flames.

Firemen arrived almost immediately, and under direction of chief Paquin, assistant chief Leslie Rattray and Lt. Ernie Dancause, prevented the flames from spreading to the other business establishments next to the burning block.

Chief Paquin said there were some bad moments because of the high winds, but after about an hour, they were able to enter the building to check the amount of damage.

One next-door apartment, occupied by Mr. and Mrs. Irving Allen, suffered slight damage from smoke and water.

The building, owned by M. Saab, was purchased a few years ago from the late Sydney Barrie.

No one was injured.

### Special city council meeting

### Establish five procedure rules for tenders, contract awards

Five rules of procedure for calling tenders and awarding contracts were established at a special meeting of city council Tuesday night.

They are as follows:

(1) The city will call for tenders only from local contractors providing there are at least three. If not, outside contractors will be permitted to tender.

(2) In cases where outside contractors are awarded contracts their personnel working in the city must all be local workers with certain exceptions, i.e. key workers.

(3) Tenders for important works or machinery, will be opened publicly on Monday nights at eight.

(4) No preferential margin for local contractors will be established but each case will be judged on its merits.

(5) Any new contractors wishing to submit tenders will first be approved by council.

Although all ten aldermen were present for the meeting, at least one felt that it was a waste of time.

Ald. Everett Nicol said that he was happy to be at the meeting but couldn't understand why it had been called. He said there was no reason to drastically change the old procedures because "the procedure for calling tenders must remain flexible."

He strongly criticized local organizations which have made a number of well-publicized suggestions to council concerning tenders. "Everything we do here, we try to do for the good of the city and when we are extensively criticized in this manner, it gives the impression that we aren't sincere," he said.

"It's very easy to criticize, but it is constructive criticism" I work for the good of the city and if I have erred, then let them show us where," he said.

He said it was up to the aldermen to make their own decisions and not be ruled by publicity and the criticism of various local organizations.

Ald. Marcel Savard noted that "everything was going well" but that extensive publicity had prompted the criticism and now "we have no choice but to make a study of the situation."

Mayor Armand Nadeau ended the discussion by declaring that "if tonight's meeting has no other result than to inform the public I think that will be enough."

### Sherbrooke courts

### Fled from police at 100 miles per hour

A 36-year-old Asbestos man was fined \$150 and costs and had his driver's license revoked for 18 months when he appeared in Sherbrooke District Court Tuesday.

Robert Morrissette was charged with criminally negligent driving. Morrissette was arrested early Tuesday morning after Sherbrooke police were notified that he had fled from Drummondville police and had driven at speeds over 100 miles to Asbestos and then on to Sherbrooke. Drummondville police had attempted to intercept him after he failed to stop for a red light.

Following the court's decision Morrissette was taken into custody again until he could be handed over to the Drummondville police for trial there.

### Old motor sparks blaze

ROCK ISLAND — (Special) — A fire believed to have been started by sparks from an old motor vehicle parked in the back of the Belliveau and Comeau Garage here caused an estimated \$1,000 damage late Tuesday afternoon to the duplex house occupied by the Comeau family.

It is believed children may have been playing with the motor.

Flames quickly spread from the car parked outdoors near the building and up into the roof.

The Rock Island fire department responded to the call at about six o'clock. The interior of the Comeau house was damaged by smoke and water.

Plans are discussed for annual meeting

At the regular meeting of the Board of Directors of the Sherbrooke Chamber of Commerce, plans were discussed in connection with the organization of the forthcoming annual meeting which is scheduled for June 8.

On behalf of the Chamber's delegates, President Len Curtis reported to the Board on the meeting with the Hon. Leon Balcer, Minister of Transport, in Ottawa, last Wednesday.

After expressing the appreciation of the delegates for the courtesy extended to them, the Board voiced its regrets that the interview with the Hon. Leon Balcer had not produced any definite improvement in the situation of the Sherbrooke airport.

In the light of the lack of results at the meeting with the Minister of Transport, the Airport Committee under the chairmanship of Director Eugene Marcoux, is continuing its study of the situation.

This has been necessitated partially in view of the substantial investment made both by the City and by the Federal Government, and it is Chamber's opinion that it is imperative that every effort be made to secure the regular services by a scheduled airline, for the airport.

ATTACKED U.S. POLICY The Chinese foreign minister devoted most of his 18-minute speech to a scathing denunciation of U.S. policy in Southeast Asia and an attack on Vice-President Lyndon Johnson's current tour of the area.

Chen said the U.S. has carried out "obstruction and sabotage" to balk attempts by the Laotian people to achieve national harmony.

He claimed the ink was "barely dry" on the 1954 Geneva agreement on Indochina when the U.S. organized SEATO. He described SEATO as not defensive.

The marshal said the recent joint communiqué by Johnson and South Viet Nam President Ngo Dinh Diem, promising American military and economic aid, was a direct violation of the 1954 Geneva agreement.

Communist China, outside the United Nations, was represented at the 1954 talks but since then has not attended a major international conference until the current meeting.

Sheared of double trusteeship

QUEBEC (CP) — A bill shearing Mme. Angelina Du Tremblay of double trusteeship she held in La Presse, the Montreal newspaper founded by her late father, has been approved by the public bills committee of the Legislative Assembly.

One of several amendments before the bill was adopted Tuesday also made sale of the newspaper practically impossible for 15 years.

Attorney-General Georges Lapalme sponsored the amendment, saying there have been rumors for some time that foreign interests want to buy the newspaper.

The grandchildren of Trefle BerThiaume, the newspaper's founder, presented the bill.

CHANGED THE WILL Legislation adopted by the Quebec legislature in 1954 ultimately gave Mme. Du Tremblay the double trusteeship and changed provisions of the will of her father.

She took over the trusteeship and presidency of the newspaper from her husband Senator P. R. Du Tremblay when he died in 1955.

Lawyers for Mme. Du Tremblay and the grandchildren congratulated Mr. Lapalme on the amendment dealing with retention of the newspaper's family ownership.

The grandchildren claimed a double trusteeship by one person is incompatible and Mme. Du Tremblay, under the will, had no right to act as a trustee.

Gilles, Andre and Charles BerThiaume and Mrs. Marie Lord are the grandchildren.

**Student duels resumed**

By LOYAL GOULD  
 MARBURG, Germany (AP)—West Germany's student duellists are slashing away at each other again—and with ideological overtones.

More than 46,000 students belong to duelling fraternities. Not all have the courage to duel, but members regard a sabre-inflicted scar as a badge of honor. Discouraged by the Nazis as dangerous and banned by the Allies in 1946, student duelling was sanctioned again by the German Supreme Court in 1953.

Some universities frown on the fraternities. But where they are condoned, "they're the most reactionary groups on the campus," says a professor of political science at the University of Marburg, one of West Germany's main duelling centres. Here almost half of the university's 6,800 students belong to duelling fraternities. In practice, membership is composed of native-born German gentiles.

Aside from swordsmanship, the fraternities stress what they call "German folk unity, tradition and fate."

A member who duels is checked for his ability to face an opponent's blade unflinchingly.

One student duellist says "blood-honored tradition" forbids flinching, an act that could bring expulsion from the fraternity.

"If I should ever flinch," he continues, "I could never face my father or my friends as this would mean I had failed to live up to the ideals of the class I choose to belong to."

Duells take place in fraternity houses or beer cellars.

Regulations dating from the middle ages make serious injury rare. Forehead cuts are normal. The heart, throat, eyes and nose are protected by leather and metal wrappings. Weapons are dull except for three inches sharpened to a fine edge.

Fighting is done by rounds with 30 rounds to a match. Four thrusts are made a round with the arm raised high so the end of the sword sweeps downward. Blows must be aimed at the top of the head.

The duellists face each other at the length of a sword, or about 3½ feet. They must not budge, lean back or show signs

**STREET FAIR NAME CHANGE**

It was decided to change the name of the Street Fair to be held on June 3, to rummage sale.

The following workers were Nourse, Mrs. Converse, Mrs. Beattie and Mrs. MacNaughton; dresses, Mrs. Morrill, Mrs. Delaney and Mrs. Alexander; children's wear: Mrs. Walker, and Mrs. MacNaughton.

Mrs. MacNaughton will look after the posters and contact Mr. Smith re tables, etc. It was also decided to have the rummage sale advertised over radio.

As many as possible were asked to come to the hall on June 2, to help mark and sort articles.

The regent brought up the matter of a flower arranging demonstration which might be put on by a lady from Westmount, and the secretary was instructed to write for more particulars.

The regent gave a full and interesting report of the annual meeting recently held in Montreal.

A letter was read from the Provincial Standard Bearer re new stands, and one will be ordered.

After discussing means for raising funds, it was decided that each member give one dollar now and another in the fall instead of having two food sales.

The hostesses were Mrs. Converse and Mrs. Lemoine, Mrs. Birch and Mrs. Fortin will be hostesses in June.

# Auto union backs health insurance plan

By A. F. MAHAN  
DETROIT (AP) — A new health insurance program that features the doctor-team approach has been launched here with the support and blessing of the United Auto Workers union.

Taking what its sponsors say are the best features of a number of other programs, the Community Health Association is aimed at paying not only the big bills that come with serious illness—but the little ones as well.

CHA has one hospital, Detroit Metropolitan, and one 25-doctor team. In the doctor-team con-

cept, there is a corps of specialists built around a nucleus of general practitioner family physicians.

A CHA member is free to choose any general practitioner he wants as his family physician from this team, and also has a final say on any specialist. But he won't be covered if he goes outside the list.

With the creation of CHA, Michigan's hospital-controlled Blue Cross and its doctor-controlled Blue Shield have their first competition from a citizen-controlled plan.

**MODEST START**  
Blue Cross has 225 hospitals

in Michigan, and 83 per cent of the state's doctors participate in the Blue Shield program.

CHA started operating in December with members of its own office staff, plus approximately 10 per cent of the employees of Commonwealth Brass Corporation, for a member total of about 100, counting dependents. But it set out to add quickly to this.

It recently added 519 workers from the Chevrolet gear and axle and Chevrolet forge plants.

For CHA, the break-even point will come with a membership of 35,000. It plans to have facilities by the end of 1961—two neighborhood centres with 15-doctor teams at each—capable of serving the needs of 50,000 to 60,000 members. This is a modest number when placed alongside the Blue Cross-Blue Shield roll calls — 3,500,000 in Michigan.

To get CHA going, the United

# Killer of Jane slays U.S. press

By RONALD COLLISTER  
WASHINGTON (TNS) — "I killed Jane," confessed clipped British press czar Cecil Harmsworth King. "And I killed Patti, too."

King was explaining the exit from his jazzy London Daily Mirror of Jane, the blonde stripper sometimes credited with having won the war, and short-lived successor, Patti.

It's difficult to maintain the image of the girls in the car-

for the vast Odhams Press of Britain, talks with the punch of a page from the Mirror.

**PARISH MAGS.**  
Speaking to the National Press Club here, he slaughtered the U.S. press — "A bunch of parish magazines" — and said its last contribution to the world was 40 years ago.

The leadership of newspapers in the world, he claimed, had gone to England, France, Japan.

Surely, he said, it was time the U.S. press woke up. The Wall Street Journal was the first U.S. newspaper to take up publishing in several centres — "that idea was started in England in 1908."

He called U.S. papers "acres of soggy verbiage" and their handling of pictures "judicious."

"It's time someone were hired from some other country to show these newspapers how to conduct some of the more important techniques of the craft."

Wandering into politics, King found it "astonishing that this country should be so backward politically."

**DANGEROUS TO ALL**  
"You are still in the horse-and-buggy age and that is dangerous, not only to you but to all of us."

Asked if he thought Kennedy were bringing the country up to date, he replied: "No, sir."

## George Masse Named President Of Summer Festival Executive, Plans Are Discussed For Special Features

G. A. Masse was unanimously elected president, last night, of the first "Sherbrooke Summer Festival."

Mr. Masse will be seconded in his work by four vice-presidents, Al Caplan, Paul McKenna, Mathieu Pariseau and Leon Beaudry.

Delegates from diverse local associations met last evening to form the executive committee of the festival and study the program of festivities organized for the first time in Sherbrooke, this summer.

The secretaries of the festival are Bruno Michel, Camille Charron, J. Legare, E. Lalonde, and L. P. Demers. Miss Therese Champagne was given the post of treasurer.

The directors elected at the same meeting are Andre Remillard, Lucien Trahan, Lucien Saucier, Marcel Dufresne, Jean-Paul Pepin, and G. Joubert.

During last night's meeting, held at the Elks Club, the newly-appointed executive chose the emblem for the Sherbrooke Summer Festival. It is made up of a sun, at the center on which will be inscribed: Sherbrooke — Festival — of Sherbrooke.

Each local association was allotted its share of the festival.

### Shoemaker Is Five Wins Away From 4,000 Club

INGLEWOOD, Calif. (AP)—The exclusive "4,000 club" of race riders awaited its fourth member today — jockey Willie Shoemaker.

The mighty mite was just five winning mounts away from the charmed circle as he entered the afternoon action at Hollywood Park.

Shoemaker had mounts booked in the first seven of the eight races on the card.

Members of the "4,000 club" are:

Johnny Longden, who at 54 is still going strong and earlier this spring passed the 4,000 mark.

Sir Gordon Richards of England, who retired with a total of 4,870.

Eddie Arcaro, who is approaching 4,700 at Aqueduct.

FAME CAME EARLY

Shoemaker is only 29 and the remarkable part of his brilliant career is that he will reach 4,000 in approximately 12 years on the race track. It took Longden and Arcaro, as well as such other outstanding riders as Ted Atkinson, Ralph Neves and Sir Gordon, 20 or more years to win 4,000.

Shoemaker scored his first victory April 20, 1949. Since then his mounts have earned approximately \$22,000,000, second only to Arcaro, who is around \$29,000,000.

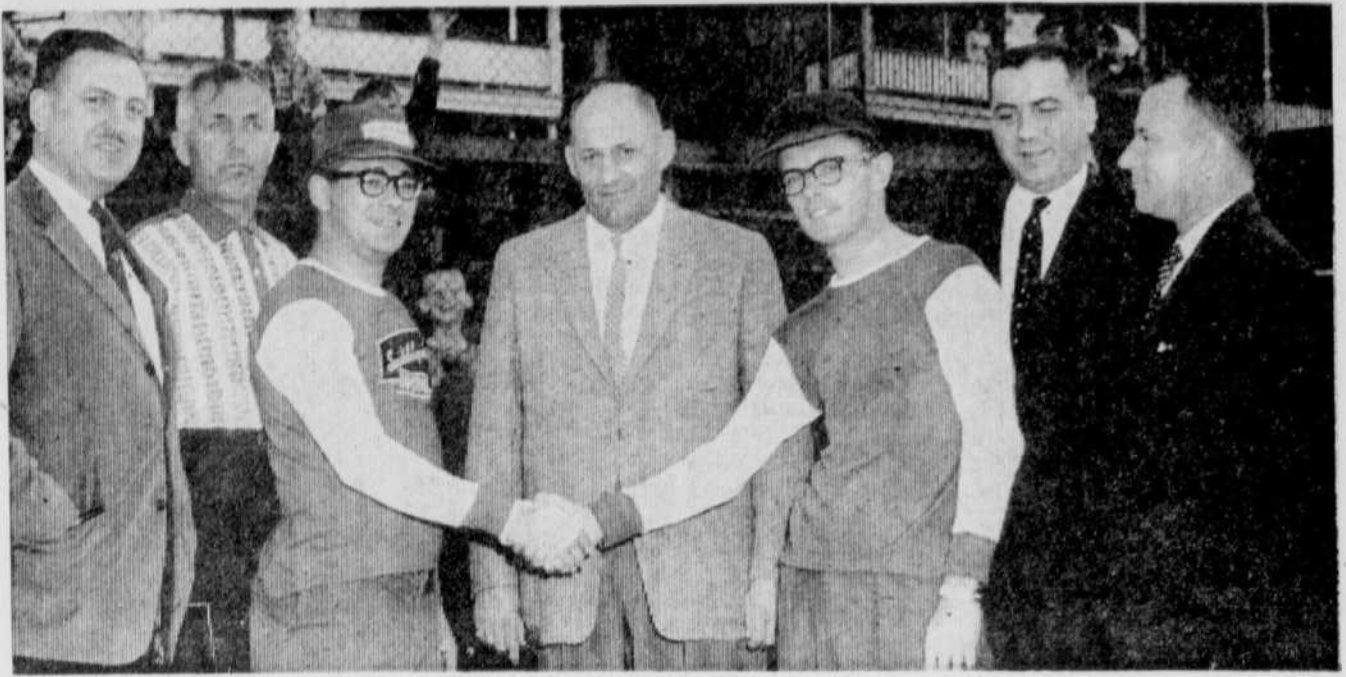

Since 1950, Shoemaker has won the national riding championship five times.

## Californians Dominate US Davis Cup Team

NEW YORK (AP) — Three Californians — Jon Douglas of Santa Monica, Chris Crawford of Piedmont and Hugh Stewart of Pasadena — were chosen today as the United States Davis Cup team in its competition with the British Caribbean, formerly the British West Indies, at Barbados May 25-27.

Douglas is ranked No. 6 on the 1950 list and Crawford No. 10. Stewart, who has lived in Sweden for the last four years, was rated No. 11 in 1950 but since then has won numerous titles in Europe.

Dave Freed of Salt Lake City again is the non-playing captain of the U.S. team.

## Sherbrooke Racing Club Getting Set For Opening Sunday

The Sherbrooke Racing Club, under the guidance of a new board of directors with Roger Trudeau as president and Luder Beaudry as vice-president, is getting set for the official opening Sunday at 2:00.

Several changes have been made at the local track including a new paddock, with twenty stalls, painting of the stand and fence around the track, and several other items.

President Trudeau has been supervising the work constantly for the past four weeks and it is hoped that everything will be in order for the opening Sunday. Eight races will be on the program and it is expected that the fans will witness some close races.

The club has purchased a new camera for the "photo finish" which will give better pictures. For the past few years some of the photos were hard to figure out but with the new camera the situation will be greatly improved.

The camera will give the time of each horse in the race which will be a big help for the racing secretary in classing the horses as all times will be recorded. In past years it was a guess for the time of any horse in the class outside of the winner.

It will help Andre Olney, the secretary, in securing all times in order to put the horses in their proper classes and there can be no objection about the time the horse covered the race in.

Another big point is that on each program the time of the horse, along with his finishing position will be recorded. This is another new factor which should be a big help for the bettors.

The list of starters will be released within the next two days as secretary Olney is working on it at present. It is expected with the increase of purses that several new horses will be on hand for the season's opening Sunday.

## Jack Sanford Hurls Giants Into Three-Game Lead With Win Over Cubs, Braves, Pirates Post Wins

It was a long time coming, but Jack Sanford finally has shown the kind of pitching he was expected to produce as one of the accepted aces of the San Francisco Giants' staff.

The Giants have been getting along without much help from Sanford, but with the right-handed veteran coming through for a six-hit, 2-1 victory over Chicago Cubs Tuesday night, they now have a three-game lead—their biggest bulge yet in the National League race.

While Sanford was putting away his first complete game and second victory in six starts, Los Angeles Dodgers skidded from second to fourth with a 5-3 defeat by Milwaukee; Pittsburgh jumped into second by beating St. Louis 2-1 and Cincinnati moved into third with a 4-2 victory at Philadelphia.

The Pirates, Reds and Dodgers are all three games back of the Giants.

Sanford, who had failed to last two innings in either of his last two starts, walked none and struck out five. He blanked the Cubs on three hits after the third inning when he scored on a triple by Dick Bertell and a two-out single by Don Zimmerman.

Orlando Cepeda, with three of the Giants' hits off loser Dick Drott and Don Elston, tied it with a single in the fourth, then singled and scored the winning run on Hobie Landtrith's single in the sixth.

The Braves beat Dodger southpaw Sandy Koufax on a three-run homer by Frank Bolling that made it 5-0 in the fourth inning. Don Nottebart and reliever Moe Drabowsky held the Dodgers to four hits. Nottebart had a one-hit shutout until the sixth, when Los Angeles scored three runs, two on a homer by Willie Davis.

A sixth-inning home run by Dick Stuart broke a 1-1 tie for the Pirates against Cardinal lefty Curt Simmons. Vern Law, out since April 29 because of shoulder trouble, gave way to a pinch-hitter after shutting out the Cards on four hits for five innings.

Elroy Face then came on and won it after giving up the St. Louis run in the sixth on singles by Bill White, Ken Boyer and Stan Musial.

Gene Freese, whose error helped the Phils get a 2-0 lead in the second inning, brought the Reds from behind with a three-run homer in the fourth at Philadelphia off Frank Sullivan. Frank Robinson also homered for the Reds, who now have won 11 of 13. Joey Jay won his third in a row with a five-hitter, walking two and striking out seven.

## Als Season Tickets Just About Same

MONTREAL (CP) — If Montreal Alouettes are going to feel the loss of quarterback Sam Etcheverry and end Hal Patterson, it appears it won't be at the gate.

The deadline for season-ticket renewals passed Tuesday, and while no official figures were immediately available, it was understood that total subscriptions were almost equal to last year's.

The Big Four football club had 17,500 season subscribers last year. The club's peak season was 1958 when there were 20,000 subscribers. Molson Stadium, the club's home field, has a capacity of about 26,000.

Etcheverry and Patterson, two longtime stars with the club, were dealt off last winter. Etcheverry ended up with St. Louis Cardinals of the National Football League after refusing to report to Hamilton Tiger-Cats of the Big Four, while Patterson signed with Ticats.

## Yesterday's Stars

**Hitting**—Orlando Cepeda, Giants, had half of club's six hits, drove in tying run with a single, then singled and scored tie-breaking run in 2-1 victory over the Cubs.

**Pitching** — Hal Woodeshick and Dave Sisler, Senators, held Yankees to just two hits for 3-2 victory.

## REMEMBER WHEN

Carl Hubbell pitched his first complete game for the Toronto Maple Leafs 35 years ago today, shutting out Jersey City with two hits. Two years later, Hubbell went to the New York Giants, where, with the aid of his "screwball," he was their pitching mainstay for 15 years.

## Young Lefty Comes To Locals After Tryout With Kansas City Athletics, Waterloo Here Sunday Afternoon

Claude Lafrance, a lefthanded pitcher from Thetford Mines, signed last night to play with the Sherbrooke Alouettes and may be given the assignment Sunday afternoon when the Als meet Waterloo at the local park at 2:00 in the first of a two-game feature. They clash in the evening in Waterloo at 8:00.

Lafrance, despite his age of 19 years, possesses considerable experience. He has just returned from taking part in the spring training of the Kansas City Athletics at Sarasota, Fla. He and Joe Setlakwe, both of Thetford, reported to camp for the training period.

He was told to play regularly in a league of a good calibre, such as the Provincial Eastern Townships Baseball League, and report back next spring to camp. His addition will certainly give the Als' pitching staff a shot in the arm.

At the age of 16 years he performed in the Thetford Juvenile League where he toiled before moving up to the junior loop. Last season he joined the Miners in the Provincial League where he stayed all summer and continued to improve.

At the end of the season he hurled a great game against Fred Bourbeau and lost out 1-0 but only after a terrific job. He was chosen the star of the game on his performance.

His work brought scouts on his trail and Bill Enos and Tom Giordano, of Kansas City, advised him to forget hockey and concentrate on baseball. His addition is another proof that the Als are trying to better their club by hiring good help.

The Als dropped their first two games with Acton Vale. They were both close and last Sunday's was anyone's game under Claude Prud'Homme tired in the 11th. With Lafrance's arrival it will give them two experienced hurlers for their Sunday doubles.

## Surprising Senators Still Rolling, Edge Yanks 3-2 To Move Up While Tigers Belt Baltimore Orioles 10-4

No one expected Detroit Tigers to be out front with a four-game bulge. But if there's really an unexpected twist in the expanded American League, it has to be Washington's surprising Senators.

The club debuted with only one established starter and reliever, Dick Donovan and Dave Sisler, respectively. However, in the last five games Washington has permitted just 13 hits and five runs to sport from 10th Norm Cash also homered for Detroit.

Steve Barber (4-3) was the loser, giving up a two-run homer by Rocky Colavito and a two-run triple by Bubba Morton in a decisive four-run fourth. Detroit Cash also homered for Norm.

**WYNN WON**

Early Wynn (4-1) nailed his 288th victory with a two-out, tie-breaking single for the White Sox in the eighth inning. Minnie Minoso's seventh inning home run for the Sox had tied it 4-4. Loser Pete Ramos (3-3) had three of the Twins' six hits, one a home run.

Frank Malzone and rookie Jim Pagnionari homered for the Red Sox as Ike Delock won his second with relief help in the eighth. Wynn Hawkins (3-2) was the loser, despite a 15-hit attack by the Indians.

A single by Dick Howser gave the As the winning run in the sixth inning against Eli Grba (3-4) while rookie Norm Bass blanked the Angles on four hits for eight innings. Jim Archer relieved in a four-run ninth, and saved it for Bass (2-1).

## MANTLE HOMERED

The Yankees scored a run in the third inning on two walks, a wild pitch and an infield out, but didn't get a hit off Woodeshick until Mickey Mantle cracked his 10th home run with one out in the sixth. Their only other hit was an eighth-inning single by Bill Skowron off Sisler, who had come on in the seventh and fanned pinch-hitter Yogi Berra with the bases loaded.

## Charleston May Get Marlins, Says Prexy

CHARLESTON, W. Va. (AP) Tommy Richardson, president of the International Baseball League, promised Mayor John Shanklin Tuesday this city would get the San Juan franchise if minor details and some guarantee of support can be worked out.

Richardson, by telephone, indicated Miami, Fla., would not receive the franchise mainly because of a disagreement over rental of Miami Stadium.

Shanklin also quoted Richardson as saying the Puerto Rican city's last chance to keep the triple-A team had fizzled because of poor attendance over the weekend.

Although Jersey City is scheduled to play in San Juan Friday, Saturday and Sunday, Richardson said the first two games might be postponed and a doubleheader Sunday may be played here.

Richardson said, "It would cost Jersey City \$4,300 to make the trip down there and they don't feel like they can afford it."

He said the Columbus, Ohio, club lost a lot of money in its San Juan series over the weekend.

Shanklin said he told Richardson that the Powell Park here could be rented for a dollar a year, but there would be no guarantee of an advance sale.

The mayor said, though, quite a bit of interest has been shown in the San Juan club.

### Boxer Harry Campbell Dies 24 Hours After Collapsing In 10th Round Of Main Event In San Francisco Monday

SAN FRANCISCO (AP) — Referee Verne Bybee said he was surprised to learn that Lightweight boxer Harry Campbell, 23, a former Olympic star who turned pro, died Tuesday night—24 hours after suffering a brain injury in a 10-round main event.

Campbell, who underwent surgery for a hemorrhage, never regained consciousness. An accumulation of hard, but not devastating punches was blamed for the injury.

The San Jose State sophomore and member of the 1960 Olympic team collapsed in the Kezar Pavilion ring Monday night after losing a 10-round decision to Al Medrano, Sacramento, Calif.

The circumstances recalled those in which Ed Sanders, Los Angeles, who won the Olympic heavyweight title in 1952, was injured fatally in a bout with Willie James of New York in Boston Dec. 12, 1954. Sanders died 18 hours after he was knocked out.

Doug Hayden, San Francisco member of the State Athletic Commission, said he would start an investigation to determine whether any negligence was involved in Campbell's fatal injury.

Referee Verne Bybee said he was surprised to learn that Campbell had collapsed. "I didn't realize he was badly hurt until after I was in the dressing room and they came in to get a stretcher," said Bybee. "I don't think any referee in the country would have stopped the fight. When I cleaned off his gloves after the knockdown (in the 10th) his eyes looked clear."

Dr. Don Lastrero, physician for the California Athletic Commission, told newspaper men after the fight he recalled no "real hard" punches but believed the fight's injury came from an accumulation of blows. "I didn't think I hit him very hard," Medrano said. "I didn't even hit him until the late rounds."

**GOT UP AGAIN**

Medrano floored him with a left hook in the 10th, but Campbell was up before Bybee finished the mandatory eight count. In a flurry just before the round ended, Campbell went down again but it appeared to be more of being wrestled down rather than a solid punch.

Campbell, who came to the

West Coast from Detroit, had won 106 of 112 amateur fights and his first five pro bouts before losing an upset decision to Medrano in March. The match was his first fight since His death was the sixth among northern California pro boxers since 1938. The previous fatality was that of Billy Cornell, after a fight in San Jose March 29, 1949.

### Wins \$30,425 On \$2.00 Tickets

BOSTON (AP) — Marion Kallil, 23, an ardent racing fan and handicapper, used her lunch hour Monday to pick up some travel folders for a vacation in Nassau.

She planned to pay for the trip from her winnings in the twin double Monday at Suffolk Downs.

She picked the four horses she liked, and gave her father, Al Kallil her list and instructions to bet \$2 on her choices.

The horses came in winners in the fourth, fifth sixth and seventh races, and Kallil went home with \$30,425—third largest American payoff on a \$2 ticket.

### Home Runs Feature Bisons-Leads Twin-Bill As Teams Split While Marlins Stopped 4-2 By Richmond

Jim Coker's two-out double in the ninth inning scored Jim Frey with the decisive tally Tuesday night as Buffalo Bisons staged a four-run uprising to shade Toronto Maple Leafs 5-4 in the second game of a cold doubleheader at Buffalo.

The come-from-behind triumph earned a split for the Herd after the Leafs won the opener, 12-5, with a 12-hit attack that included four home runs.

Meanwhile the San Juan Marlins are in a dilemma. Despite a 4-2 loss at the hands of Richmond, they are only a game out of first place in the International League—but may suddenly find themselves deposited from their island home in Puerto Rico.

"We are not happy about the situation," general manager Joe Ryan said today after hearing that IL president Tommy Richardson said the team might be moved to Charleston, W. Va., if details can be worked out.

**TALKS AGAIN TODAY**

He said he felt Jersey City, not San Juan, was the league's greatest problem, adding he could not understand why plane transportation could be considered so expensive. However, he

refused to comment further until he talked later today with the club's owner William Macdonald, who is in Miami.

Jersey City's game with league-leading Columbus was postponed because of wet grounds while Rochester shut out Syracuse 8-0.

Steve Demeter clubbed two first-game homers for the Leafs and drove in five runs. Joe Hannah and Ellis Burton connected for the others.

Demeter socked his third homer of the evening and seventh of the league season in the second game of relief pitcher Max Surkont in the ninth to give the Leafs a 4-1 lead. Then the Bisons went to work.

Wally Shannon led off with a single and scored on a triple by Julio Becquer. It was his first hit in 12 at-bats. Becquer scored on a wild pitch and Ted Savage walked. Jim Frey singled to score Savage.

**HITS PAYOFF**

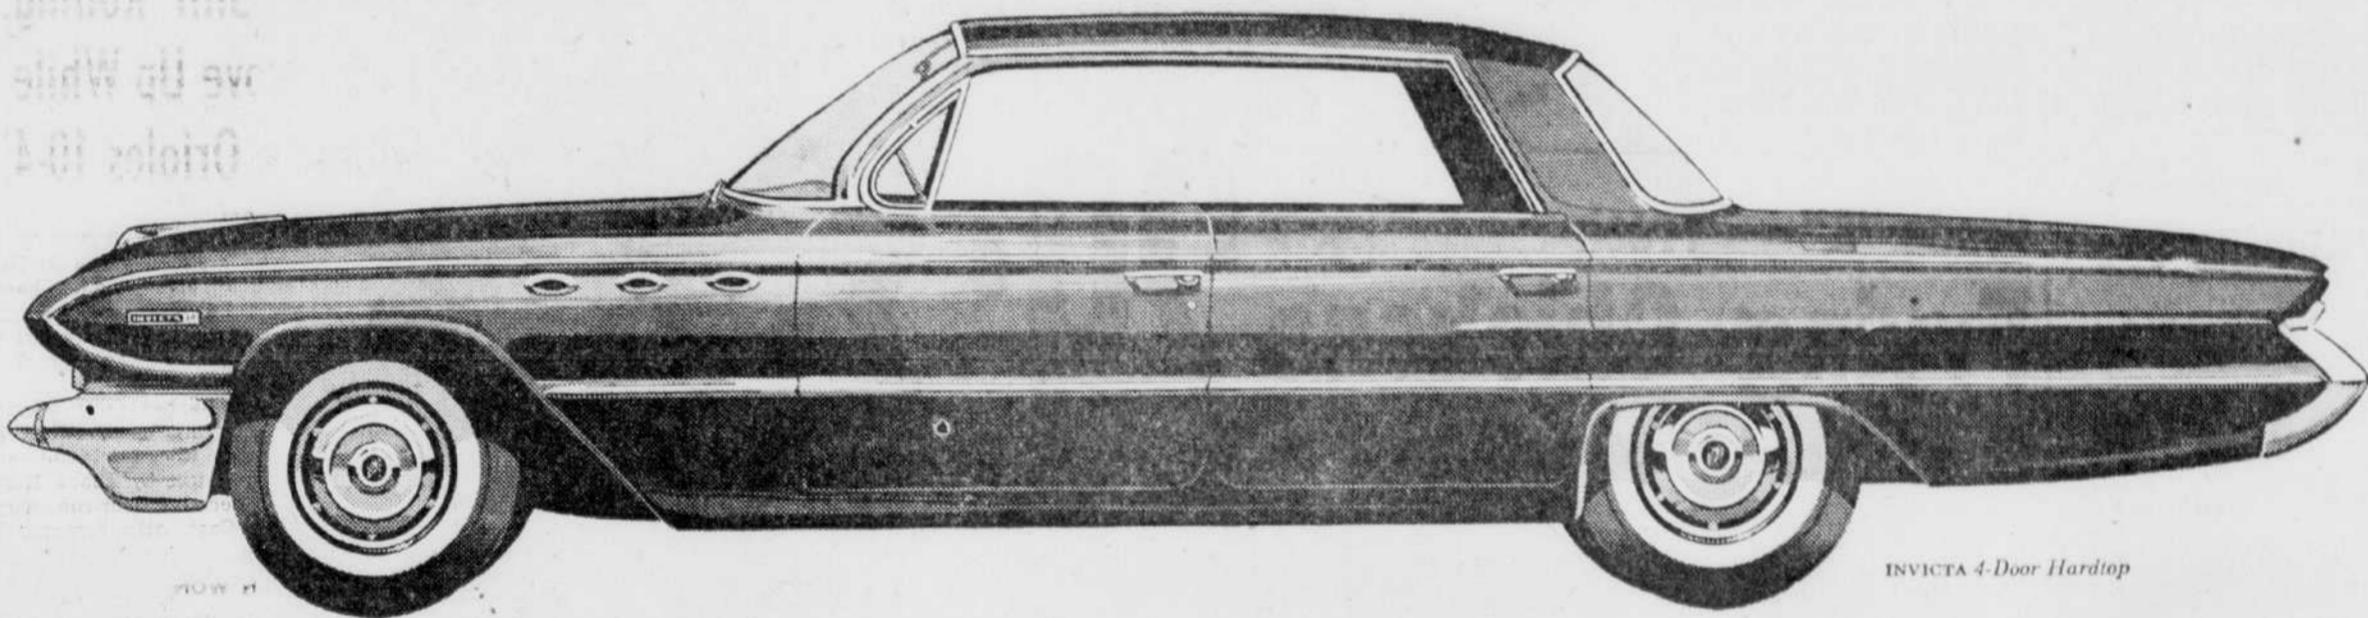

Felix Torres, who socked his sixth homer in the opener, greeted Raoul Sanchez with a hard smash through the middle. Jack Davis fled to left for the second out before Coker hit a drive into the screen in right centre for the payoff blow.

## House and Garden tour

# Old, new combine in the Scowen home

PERFECT FOR SUMMER — The tiled hall of the Scowen home leads out onto the patio which provides an ideal spot for summer sunning and gives a beautiful view of the lake through the birches. (Record Photo by Doug Gerrish)

The successful combination of antique and contemporary furniture is the keynote to the North Hatley home of Mr. and Mrs. P. H. Scowen.

A one storey extension to the original house has recently been completed and this with the living and dining room in the original part of the home will be on display June 6 during a house and garden tour being sponsored by the Sherbrooke Hospital Ladies Auxiliary.

The Scowens is one of seven North Hatley homes which will be on display from 1 to 5 p.m. that day.

One enters the Scowen home through the black and white tiled hall. The master bedroom and family playroom are on one side of the hall and the living and dining room on the other.

Both the bedroom and playroom are furnished with early American pieces mostly pine. Twin spool beds and a hand-made chest and vanity table, all antiques of unusual beauty have been chosen for the bedroom.

In the playroom the Scowens have combined pine rockers and other early American furniture with gaily checked easy chairs and large windows that look out on the lawn and garden.

The grey walls in the living room provide a perfect backdrop for the chintz upholstery and the figurines and Steuben glass bowl that form the mantel decorations.

The dining room is furnished with teak furniture in modern lines. The table is particularly attractive with long drop leaves. A bay window on the opposite side of the room provides another view of the grounds. Open shelves in one corner display a collection of old glass

# How do I save?

If there's a fool-proof way to save I've yet to hear of it. But one thing I do know: the "Royal's" 2-Account Plan makes saving a whole lot easier.

It works. Because with two separate accounts you can curb that natural urge to dip into your savings; you can actually see your savings grow.

### The Doctor Says

IRKED READERS CHALLENGE SOME OF HIS VIEWS

One of the minor diversions of a medical columnist is provided by the anguished cries of dissenters. "Are you trying to say a draft cannot start a cold going?" inquires an indignant "draft dodger."

Assuming that my answer is in the affirmative, the lady proceeds to ask, "Are you really fool enough not to recognize that many sicknesses are started, not because of the increased number of germs present or introduced, but rather because a cold house, improper clothing, or sitting in an annoying draft has purely and simply cut down the person's resistance?"

My answer, dear lady, is, "Yes, I'm fool enough."

A lecturer on "Natural Foods," just returned from a "most enlightening tour of the greatest health centers of Europe," asserts "You need help, Dr. Hyman. And you need help, bad! Go man, you need this kind of lectures very bad. I know it will help you. Let us be honest for once. I am for the well fare of all the People."

I don't deny I can use all the help I can get. Perhaps I can show my appreciation by offering a few lessons in basic English.

An American expatriate now living south of the border to escape from "political shenanigans, dishonesty and greed," is of the opinion "that it's pitiful and you don't know more about the Hoxsey Clinic and the wonderful sensible cure they have for Cancer." And she goes on to say that "the U.S. Government is stoopid and unprincipled" for declaring the Hoxsey treatment a "fraud."

Well anyway, I'm in good company this time.

"It is seldom I bother to comment on a columnist who is so far out in left field," writes a defender of Yoga. "If you are not aware that purified air in the lungs is beneficial to a good complexion as well as to other physical well being, I'd say you've missed the boat on a lot of important theory. Also, you failed to mention that the headstand beneficially affects the pituitary, pineal, thyroid and parathyroid glands."

Sorry about the headstand, dear lady. But which head do I stand on?

### STANBRIDGE RIDGE —

Mr. and Mrs. E. S. Cochrane spent a few days in Montreal, guests of the Misses Georgette and Bert Gaudreau.

Mrs. Frank Corey entertained the Ridge ladies in honor of Mrs. Edwin Belluyham. Gifts were presented in a basket by Sharon Cockerline, who also assisted in opening them. Also present were Master David Realfie and Baby Anne-Marie Monette. Mrs. Corey was assisted in serving by Mrs. C. Vaughan, Mrs. Fred Cook and Mrs. M. Cockerline.

Mrs. Frank Sager spent the weekend with Mrs. E. Boucher in Pigeon Hill.

### GRANBY —

Miss Eva Kennedy is a patient in the Montreal General Hospital, having fallen at her home and suffered a fractured hip.

The Sew and So Club of St. George's Anglican Church held a rummage sale in the parish hall. Mrs. D. Baker was in charge and reports that it was a real success.

Mr. and Mrs. Max English of Brampton, Ont., are guests for a few days of Mr. and Mrs. O. R. Jackman, Lyman Avenue.

Mrs. Duncan Foster, of Terra Cotta, Ont., the former Mrs. Marcella Berry of this place, is visiting her daughter, Mrs. B. S. W. Brown and Dr. Brown on Drummond Street.

### Start new patrol

NEW YORK (AP)—A special psychiatric unit will patrol New York City's streets this summer to ferret out seriously disturbed members of youth gangs. Youth services commissioner Ralph Thayer said the plan is aimed at spotting mentally ill youngsters and encouraging them to undergo psychiatric treatment.

**Musician honored on 80th birthday**

MONCTON, N.B. (CP) — An energetic woman who in the last 75 years has seldom been without some sort of musical instrument in her hands has been honored for her contribution to Moncton's musical life.

Nearly 300 persons crowded into a banquet hall for Mrs. Maude Burbank's 80th birthday celebration.

This remarkable woman is still teaching youngsters to play brass instruments and her bands perform annually in the New Brunswick music festival, winning many awards. In 1955 her junior group took top honors in Canada.

A native of Island Pond, Vt., where she played a church organ before she was eight, the former Maude Danforth studied music in Portland, Me., Boston and New York.

In Berlin, N.H., she met Arthur Burbank who engaged her to lead his dance band. They married, formed a vaudeville team, joined the Keith Circuit and played in theatres throughout North America.

In 1920 they settled in Moncton, leading a theatre orchestra until the advent of talking pictures.

But Mrs. Burbank was far from finished. In her 70s she decided it was time to brush up on her trumpet-playing technique and took an advanced course at Boston University.

**Tips for parents**

By HELEN R. HEWSON  
Parent Education Associates

The new baby was due at any moment. Mother's bag was packed for the trip to the hospital. Grandma's bag was packed, ready for her week with the boys as mother-substitute.

Then came the hurried telephone call. "I'm off, Mother. The boys are having supper with a neighbor and she'll keep them until you come. I hope you don't have any trouble."

**INSTRUCTIONS**

When the boys were quiet in their beds Grandma sat down to look over the instruction sheets her thoughtful daughter had prepared.

There were favorite menu suggestions, likes and dislikes were noted and the boys' chores were listed.

For the nine-year-old — feed the dog, keep the bird-feeding box supplied with grain, check and fill the water pan in the hot air furnace, make sure that bicycle, tricycle, wagon, etc. were in the back garden after each day's use.

The six-year-old "is our tidy from finished. In her 70s she decided it was time to brush up on her trumpet-playing technique and took an advanced course at Boston University.

The littlest one "likes to empty the ash trays."

Knowing how forgetful little boys can be, Grandma reminded them of their duties.

On the second day she was told "You don't have to tell us what to do, Grandma. We'll do it." And they did. (Mother reports that they do sometimes forget).

**ACCEPTANCE**

These are ordinary lively, noisy little boys who play a lot, scrap a bit, tear their clothes, track in mud over freshly cleaned floors. But they accepted their responsibilities cheerfully and willingly.

How has this been accomplished?

- They have regular and specific duties. Each knows what is expected of him.
- The children have had a voice and a limited choice in deciding who is going to do what.
- The plan is not rigid. They are free to trade jobs and often do.
- Their parents notice and commend them for a job well done.
- They feel that they have an important part in caring for the house and each other.

Grandma found them to be a most considerate and co-operative trio. But the littlest one did wish she would go home so Lummy would come back again! (TNS)

**Creative ambition finally achieved**

VANCOUVER (CP) — Mrs. Jack Hoskins has realized a lifetime ambition to create beautiful objects in wood despite the fact that she cannot see.

The slight, brown-haired grandmother is one of two women among 24 members of the Canadian Institute for the Blind's recently opened wood-working classes.

"As a little girl she became interested in wood, chopping it just for fun.

"I used to get far more pleasure out of that than anything else, especially when I was mad about something. I could work it out of my system."

Mrs. Hoskins works for pleasure, not profit. She has built a small flower-pot stand and a tea tray and now is working on a small lamp table.

"The first problem for us is how to locate the tools. We are shown where everything is—once—then we remember and go back to find out just what we want. And, of course, the tools have to be put back where we found them. . . .

"Touch and hearing are developed to razor keenness in the blind. They stop and listen more than normal people."

Blind since birth, Mrs. Hoskins walks and talks with confidence that belies the fact that she has only dim, sporadic vision in one eye.

## Y's Men's Club has long service record

The Sherbrooke Y's Men's Club, sponsors of the 19th annual Interscholastic Track Meet taking place at the Parade Grounds Saturday, has had a long and impressive record of service.

The Club was formed in 1923. Closely associated with the spiritual and physical influence of the YMCA, then under the direction of the late Rev. W. P. McVie, this group of men felt the urge to create in Sherbrooke a new fellowship and service club.

In associating themselves with International Y's Dom, these farsighted young men chose a club whose motto is "To acknowledge the duty that accompanies every right." A club whose aims and ideals are to support the mental, physical and spiritual forces of the YMCA, a club that seeks to be of service to others.

The club flourished well until 1934, when evil times befell and operations were temporarily disbanded. Not long however, for in 1937 the club blossomed forth once more and became intensely popular and a very active organization.

To mention some of the stalwarts who reorganized the club at that time, there were Les Draper, Lyman Tomkins, John Fitzsimmons, Bud Howard, Mait Soles, Norm Welsh, Douglas Howard, Stan Pearson, Dean Bishop, Larry Pergau and several others.

Since 1937 the club has had an unbroken wave of popularity and has operated to the fullest of its membership.

Past presidents of the club have been: John Leigh, 1923; E. T. Herbert, 1924; C. K. Tate, 1925; Norton Baldwin and P. G. Smith, 1926; E. Johnston, 1927; Nelson Lothrop and G. Parker, 1928; W. H. Griffith and Walter Murray, 1929; William B. Watson, 1930; R. M. Simmons and Howard Moffatt, 1931; Edward B. Loomis, 1932; Leonard E. O'Donnell, 1933; John A. Fitzsimmons, 1934-35; William Watson, 1936; W. Lyman Tomkins, 1937-38; Ben C. Howard, 1939; Norman Welsh, 1940; Lawrence Pergau, 1941; Wesley Bradley, 1942; Stan Pearson, 1943; Dean Bishop, 1944; V. W. Newton, 1945; C. F. Simms, 1946; J. J. McKnight, 1947; C. Griffith, 1948; Archie Mitchell, 1949; Ernie Chalut, 1950; Jeff Wilson, 1951-52; Mac Bradshaw, 1953-54; Bob Chadsey, 1955; Jim Atto, 1956; Ken Strew, 1957; Cliff Lamb, 1958; Don Griffin, 1959; Curtis Bishop, 1960; Halley Evans, 1960.

## Camp is a major project

Apart from organizing the annual E. T. Interscholastic Track Meet, the Sherbrooke Y's Men's Club has another major project, that of maintaining the Y's Men's Camp at Shore Acres.

Soon after receiving its charter from International, the Y's Men's foresaw the necessity of one main single welfare project: large in scope, broad in vision and charitable in purpose, to keep the club operating at its maximum efficiency.

A camp was decided upon and for several years the club operated a camp on an island in Lake Memphremagog, then known as Howard's Island. A new camp site was soon to be desired because of the inaccessibility of this location. Led by Carl Skinner, the club undertook an extensive campaign to raise funds by subscription from any generous firms and citizens in the City of Sherbrooke, to purchase and erect a permanent camp nearer Sherbrooke. Once fully subscribed, these funds were used to erect a summer camp for boys and girls on the newly purchased land.

Located in the heart of the Eastern Townships, the Y's Men's camp is ideally situated on one of the finest stretches of the line on Little Lake Magog (Lake Scaswanipus); it is just 12 miles from Sherbrooke and adjacent to the Shore Acres Club property.

From 1929 when the main cabin was put up until 1934 when the camp had a main cabin and five sleeping cabins, it was owned and operated by the Y's Men's Club. 1935 to 1939 saw the camp under the direction of the Y.M.C.A. In 1939 operation and directorship were again taken over by the Y's Men's Club.

The new cabins were added, flush toilets and an electric water pump installed with electric lights in all the cabins, along with many other improvements.

The main cabin serves as a dining hall and a recreational centre on rainy days. The adjacent, newly modernized kitchen is well stocked with all necessary eating and cooking utensils. Running water, a sturdy stove, electric range, electrically heated water and an electric refrigerator, make cooking for 70 hungry boys a pleasure.

The sleeping cabins hold six boys each without any difficulty, and the bunks are army spring-type and the boys rest comfortably on real mattresses and soft pillows.

The flush toilets are kept in first class condition and are inspected daily as indeed are all the cabins and kitchen.

The boys who attend camp are enthusiastic as only boys can be about swimming, and the large raft is the most popular place in camp. Swimming is one of the most important phases of camping activity.

Those who do not already know how to swim are taught by expert supervisors. All campers are required to pass a test when first entering the water and are graded accordingly. Boasting a large playing field which has been ploughed and levelled, the camp can offer softball, soccer, volleyball, archery and many other field games. Water skiing has also been added.

The Camp Director will take to camp a well planned program, for both outdoor and indoor day and evening recreation. The Y.M.C.A. has loaned the camp its movie projector for

**Usher hears tiring remarks**  
 By HAL BOYLE  
 NEW YORK (AP)—Remarks from a movie usher gets tired of hearing: "The pictures they show here are pretty lousy, but they have the best popcorn in town."  
 "Why can't I take my dog in with me? He doesn't chew gum or talk out loud, and he's smarter than most of the people in this audience."  
 "What time does the feature begin?"

"I stayed and seen this pitcher through twice, and I still don't understand what it's all about. Is it up for an Academy award or something?"  
 "His uniform fits him like a glove—a baseball glove."  
 "If he was in the navy and had all that gold braid, he'd be commanding at least three battleships and a carrier."  
 "Hey, General Custer, which way to the lounge?"  
**TOO MANY FRIENDS**  
 "Hi, Melvin. Joe and our two gal friends are waiting at the side exit. How about slipping 'em in for free?"  
 "This is the third time this month you have failed to pass inspection, Melvin. Unless you get that button sewed back on before the next performance, I'll have to ask you to turn in your uniform."  
 "The next time the U.S. cavalry chases the Indians away, would you mind going down to my son—he's the little boy in the front row—and tell him that you're a policeman and if he doesn't go home now you'll have to put him in jail? I'll be waiting in the lounge."  
 "Pod'n me, young man, but would you please tell the gen'lman seated next to me to keep his hands to himself—that is, if he don't want to wind up with a bloody nose from having this shopping bag bopped in his face?"

**CAUGHT NECKERS**  
 "Melvin caught three young couples necking in the balcony last week. He asked for a raise, but instead the management gave him an oak leaf cluster to his good conduct medal."  
 "I just sneezed—and out they flew. Let me have your flashlight. I'll find them. They couldn't have gone more than three or four rows."  
 "Who said I was snoring? So what if I was! Why don't you show pictures that keep people awake instead of putting them to sleep?"  
 "These are nice seats. Thanks, sonny, and here's a dime for yourself. Remember, don't spend it all on one girl."

**EXPLORERS' RECORDS FOUND** — Records of explorers found last year in the Canadian Arctic archipelago, are now on view in Ottawa by the department of northern affairs. Most of the records, shown in this photograph, were located around tumbled stone cairns, left by searchers scouring the Arctic islands for traces of Sir John Franklin's expedition which set out in 1845 to find the Northwest Passage. The records include a Quebec newspaper of 1908 (upper right) telling of the expedition of Capt. Joseph Bernier. It was found on Melville Island. (CP Photo)

**Confirmation service at St. Peter's**  
 On Ascension Day at 8 p.m. the Lord Bishop of Quebec, Rt. Rev. Russel F. Brown, held a confirmation service at St. Peter's Church, Sherbrooke. In the presence of a large congregation the Bishop confirmed 28 candidates, who were prepared and presented by the Rev. John Franklin. The church was beautifully decorated and part of the service was televised.

Considerable discussion then took place regarding possible future close co-operation between the two churches in regard to finances, common pastoral oversight, etc.  
 A committee was then named consisting of Stanley Beere, worth, George Engelhardt, Cecil Akhurst, Jack Turnbull, Stanley Cromwell, Miss Jean Stein and Mrs. Earle Beerworth, which will meet with a seven-person committee of the Ayer's Cliff Church, to be elected at a meeting of their congregation. The joint committee will go into further discussions of mutual interest at an early date.  
 A vote of thanks was expressed to Mr. Barr and Mr. MacLeod for their cooperation in recent meetings. Mr. Boyd closed the meeting with a benediction.
