President McKinley Shot Twice.

ANARCHIST MAKES DESPERATE
ATTEMPT TO KILL.

The President Was Attending Buffalo
Exposition When Dastardly
Attempt Was Made.

Doctors Say the President Will Live

Buffalo, Sept. 9--(special)---
The bulletin this morning states that the President passed a somewhat better night, sleeping fairly well, and that his general condition was unchanged.

And yet despite all this optimism the President is by no means out of danger. Not one of his physicians, not one of his advisers who is admitted to the inner councils has the temerity to go as far as that. But if the President continues to improve for one more day the danger of peritonitis, which is most dreaded, will have practically disappeared.

STORY OF THE SHOOTING.

The story, as told in the latest edition of the local papers, says that while President McKinley was holding a public reception in the Temple of Music at the Pan-American this afternoon he was approached by a man whose left hand was covered with a handkerchief. As the man extended his hand to the President, apparently with the intention of shaking hands with him, he fired a shot, which entered the President's right breast, lodging against the breast bone. Another shot was fired immediately, and it entered the President's abdomen.

THE ASSAILANT ROUGHLY HANDLED.

The assailant was immediately arrested and was thrown to the ground, and quick as a flash twenty men were upon him. When rescued he was covered with blood from a gash in his face. Cries of

of police, with a guard of soldiers to fight back the enraged throng in the Esplanade, Nieman was placed in a carriage and driven at a gallop down Delaware avenue, past the home where the invalid wife of the President was waiting for her husband, to police headquarters, where he was locked up. The police have just learned that the real name of the would-be assassin is Leon Czolgosz. He was born in Detroit and came here from Cleveland.

ATTEMPT AT LYNCHING.

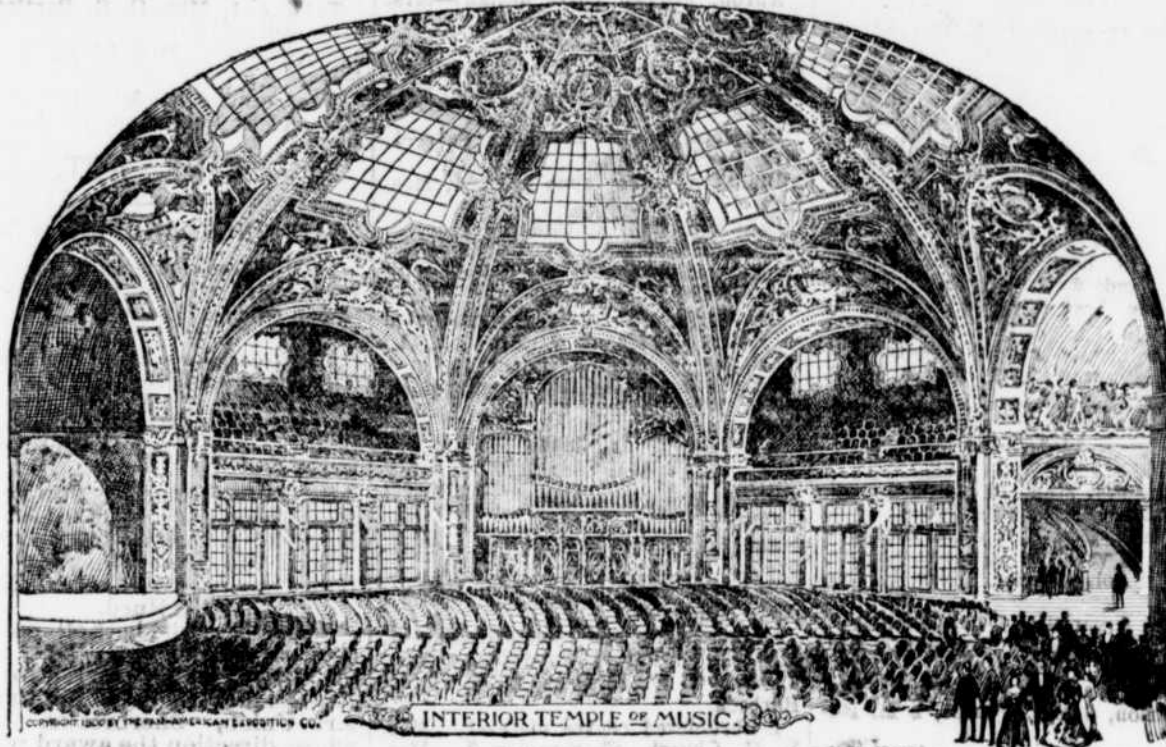

The thousands who waited about the Temple of Music surged forward when he appeared, tearing down the barriers of ropes, fighting with the officers and the soldiers, and shouting, "Lynch him! Lynch him! Hang him! Kill him!" Some clutched at the horses, others at the wheels of the carriage. The police and soldiers fought back the crowd, and the carriage galloped away. The escape of the would-be assassin from the hands of the infuriated people was in accord with the wishes of the President. As the President sank back in the arms of Detective Geary and President Milburn after the shooting he gasped the name of his secretary, Cortelyou. The Secretary bent over him.

THOUGHTFUL FOR HIS WIFE.

"Be careful about my wife," gasped the President. "Do not tell her." Then, writhing in the agony of his wounds, the President turned and saw his attempted murderer helpless on the floor, beneath the blows of soldiers and detectives. He raised his right hand, stained with the blood of his wound, and, drawing down the head of his Secretary, he whispered, "Let no one hurt him." Then he sank back, deathly white, but clearly conscious, while they dragged his assailant from his sight.

THE DOCTORS' BULLETINS.

The following bulletin was given out at the Milburn home at 9 o'clock to-night:—The President was shot about 4 o'clock. One bullet struck him on the upper portion of the breastbone and did not penetrate. The second bullet penetrated five inches below the left

Interior View of the Temple of Music, Buffalo, where President McKinley was shot.

Buffalo, Sept. 6.—The scene of excitement and anxiety displayed on Buffalo's streets to-night never had parallel in the city's history. The Pan-American was abandoned and the entire population, including the many thousands of temporary visitors, congregated down town blockading the street while they awaited the frequent reports of the stricken head of the nation. The newspapers here do not furnish the public with the complete and regular bulletin service of important or interesting news that is given in Toronto, and practically everything was given out in special editions of all the papers, which were devoured by the waiting crowds as rapidly as the presses could run them off.

MR. MCKINLEY MAY RECOVER.

The President was first reported to be still lived, after receiving the two bullets from the revolver of the would-be assassin, and each succeeding announcement was more encouraging until about 9 o'clock it was given out that the probabilities were quite favorable for the President's recovery.

It was not until this development that Mrs. McKinley, who has been an invalid for several years, was made aware of the attempt on her husband's life. He was removed to the home of Mr. John G. Milburn, President of the Pan-American, whose house has been occupied by the Presidential party since their arrival here.

lynching were heard in every direction, but the police managed to get the prisoner out of the grounds and locked him in a station house, some distance from the grounds. Later he was removed to police headquarters. Detective Geary was near the prisoner, and the President fell into his arms.

"Am I shot?" asked the President.

The officer opened the President's vest, and seeing blood, replied:—"Yes, I am afraid you are, Mr. President."

NATURE OF THE WOUNDS.

The President was immediately taken to the Emergency Hospital. The bullet of the first shot caused simply a superficial wound. It was removed within five minutes after the doctors saw the President.

The second bullet was not found.

An operation was performed at the Emergency Hospital on the Exposition grounds. The President's stomach was opened but the bullet was not found. Drainage tubes were inserted, the incision was sewed up and the president was removed to the home of Mr. John G. Milburn. The doctors stated after the operation that they were hopeful, and that the wound was not necessarily fatal.

THE PRISONER'S STORY.

The man who did the shooting offered no resistance, and at first refused to give any information about himself. Later he said his name was Fred Nieman, that he was 28 years old, that he came to Buffalo last Thursday and had been occupying room No. 8 at 1,025 Broadway. He gave his occupation as a blacksmith, and said he was born in Detroit. It is believed he recently was in Cleveland.

"Why did you shoot him?" he was asked, but he made no answer.

"Are you an Anarchist?" was the next question.

"Yes," he replied.

"Why did you shoot him?" he was asked again.

"I only done my duty," he replied.

Nieman was detained in a side room in the Temple of Music while the President was removed to the hospital. Then, under an escort

nipple, and one and one-half inches to the left of the median line. The abdomen was penetrated. Through the line of the bullet had penetrated the stomach. The opening in the front wall of the stomach was carefully closed with sutures, after which a search was made for the hole in the back wall of the stomach. This was found and also closed in the same way. The further course of the bullet could not be discovered, although careful search was made. The abdominal wound was closed without drainage. No injury to the intestines or other abdominal organs was discovered. The patient stood the operation well. Pulse of good quality, rate of 130. His condition at the conclusion of the operation was gratifying. The result cannot be foretold. The condition at present justifies hope of recovery.

"Signed) P. M. Ricey, M. D., Mann, E. Washin, Roswell Park, Herman Mynter, George B. Cortelyou, Secretary to the President."

ENGLAND'S SYMPATHY.

London, Sept. 7.—The news of the attempted assassination of President McKinley was received here shortly before 10 o'clock last night, and quickly spread through the clubs and the hotels of the West End. The details were meagre, but it was understood that the wounds were serious and that the President's life was in danger. All who heard the sad intelligence were outspoken in their expressions of horror at the occurrence and sympathy with Mrs. McKinley. Everybody hopes that the President will recover sufficiently to again direct the affairs of the State. Only the other day the English people were sympathizing with President McKinley because of his wife's serious illness, and now they tender their condolences to her because of the terrible deed at Buffalo.

In consequence, I give public notice to all who intend to proceed against any trier in the common law of said district and to others that they must be present then and there. And I give notice to all justices of the Peace, owners and Peace Officers, that they must be present there with their Records, Roll, Indictments and other Documents, in order to do those things which belong to each of them, in their respective capacities.

Hacking

There is nothing so bad for a cough as coughing. It tears the tender membrane of the throat and lungs, and the wounds thus made attract the germs of consumption. Stop your cough by using the family remedy that has been curing coughs and colds of every kind for over sixty years. You can't afford to be without it.

Ayer's Cherry Pectoral

loosens the grasp of your cough. The congestion of the throat and lungs is removed; all inflammation is subdued; and the cough drops away. Three sizes: the one dollar size is the cheapest to keep on hand; the 50c. size for coughs you have had for some time; the 25c. size for an ordinary cold.

"For 15 years I had a very bad cough. The doctors and everything else I tried had a true case of consumption. Then I tried Ayer's Cherry Pectoral and it only took a bottle and a half to cure me."

WINSLOW.
Our tea-meeting, on August 28th, was quite a success. The nice grove near our village was so delightfully cool and pleasant for a social time. A number of people from Milan, Springhill and other persons were there. We were pleased to see Miss MacDonald, of Fitchburg, Mass., formerly of Scotstown, there also, with her sister and nephew. Addresses were delivered by Rev. Mr. McLeod, of Hampden, Rev. Mr. Buchanan and Messrs. D. L. McLeod, Millan, Elder D. S. McLeod, and John Buchanan, which were heartily enjoyed.

Two of the best sermons that we had the pleasure of listening to this summer were preached by the Rev. D. McLeod, August 25th, from Gen. 17: 1. "I am the Almighty God, walk before me, and be thou perfect." Also on 1 Tim. 1: 8. "Godliness is profitable for all things."
Mr. M. Nicholson is rapidly recuperating since his arrival to his native air. He and his mother are returning to their home in Stornoway.

Some of our young people are returning to the States this week. Harvesting is nearly over round here.

Coaticook Notes.

Boy Who Fooled With Powder Severely Burned.

Coaticook, Que., September 4.—Clare Thomas, the eleven-year-old son of N. W. Thomas, dry goods merchant, of this town, had his face badly burned on Thursday last. It appears the youth found some powder wrapped up in a paper, and taking it out to the road, ignited the paper, with the result that the powder exploded before he had time to withdraw.

The doctor was summoned, and attended to the boy's wounds which were fortunately not of a serious nature.

The three and a half year old son of Principal Ford received a severe kick in the face from a horse on Thursday last at Bacon's Bay. Besides a severe gash in the face, the bridge of the child's nose was found to be broken. Doctor Mountain of the Post-Graduate School, New York, was on the grounds at the time, and succeeded in stopping the hemorrhage, with the assistance of Drs. Brown, Jones and Trenholme. The wound was sewed up and the child removed to his home in Coaticook, where he is progressing favorably.

The academy is booked to open on the 9th instant, but as the new building is not quite ready, the classes will meet in the old building. The following staff is in charge: Principal, C. W. Ford; assistants, Misses Wadleigh, Trenholme, Hall, Vanvliet, Nunn, and Isabel Wadleigh. The North End School will be conducted again by Miss Florence Hopkins.

The Bank National is about to open a branch in town, and has fitted up the drug store formerly occupied by DeBachant. The workmanship of the fittings is of the best, and the building has a most inviting appearance.

Turkey Quarrels With Britain.
Constantinople, Sept. 5.—The Turkish ambassador in London has been instructed to inform Great Britain that the action of the commander of a British warship in the Persian Gulf, in preventing the Turkish corvette Schob from entering Koweyt, is incompetent with friendly relations. The British side of the controversy is that the Schob was trying to land Turkish troops on the territory of a sheikh who is independent of Turkey.

A Night of Terror.
"Awful anxiety was felt for the widow of the brave General Burman of Machias, Me., when the doctors said she would die from Pneumonia before morning" writes Mrs. S. H. Lincoln, who attended her that fearful night, but she begged for Dr. King's New Discovery, which had more than once saved her life, and cured her of Consumption. After taking, she slept all night. Further use entirely cured her." This marvellous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c and \$1.00. Trial bottles free at all druggists.

LIVE STOCK MARKET.
London, September 6.—The trade in cattle was firmer, but prices show no actual change as compared with a week ago. The market for sheep was easier as a decline of 1c. Choice American cattle sold at 12c; Canadian cattle at 12c, and sheep at 11c.

Liverpool, September 6.—A fair trade was done in cattle, and prices ruled firm, with choice Canadian selling at 12c to 12c. Sheep were easier, and sold at 11c to 12c.

Montreal, Sept. 6.—The feature in export live stock circles has been the firmer feeling in the market for ocean freight rates, which is due to the improved demand for space of late, and the fact that a large number of Northwest ranch cattle will be shipped this month, and next than there was a year ago on account of them not being in condition as early this year as last. The advance in rates to Liverpool can also be attributed to the scarcity of vessels sailing from this port, in consequence of which one of the lines running to Glasgow carries stock to both ports on the same vessel. Late engagements to Liverpool have been made at 45s; to Glasgow at 40s; to Manchester at 40s, and agents are also asking 41s to London. All the trade to Bristol has been engaged for September. In regard to prices in the London market they are 1c lower for American cattle and 2c for Canadian than they were this date last year. In the Liverpool market they are 1c to 1c lower than a year ago. The demand for cattle from shippers has been somewhat slow of late in the western market, and as the offerings were fairly heavy prices for choice stock have eased off some to \$4.75 to \$5, while medium have ruled steady at \$4.25 to \$4.60.

The various schools under the
Protestant Board of School Com-
missioners opened this morning
after the summer vacation. There
was a very good attendance of
scholars.

The Rev. Dr. Dumbell, in his ser-
mon in St. Peter's Church yester-
day, referred most feelingly to the
dastardly attempt on the life of
President McKinley at Buffalo.
The sermon all through was a most
able one, and was taken from the
text, "Righteousness exalteth a nation."

The winner of the parlor cabinet
offered by the Edwards Furniture
Company was Mr. N. T. Dussault,
president of the Association, with
the ticket numbered 1204. Mr. Dus-
sault declined to accept of the
prize, but generously offered to
hand over the cabinet to be disposed
of in the fall, when the proceeds
will go to the Roman Catholic and
Protestant Hospital.

A Shocking Calamity.

writes Dr. A. Kehete, of Will-
ford, Ark. "His foot was badly

Piles and all skin eruptions. It's

"The American Girl," which is
announced for Friday, Sept. 13, at
the Clement Opera House, unlike
a majority of the present-day
comedies possesses a well-defined
plot, which has even a serious
element. It is from the pen of a
playwright who has never turned
forth a mistake for stage presenta-
tion. H. Grattan Donnelly. The
attraction is a winner through
honest merit; never has a play
given more universal satisfaction,
and it should be greeted by a full
house on its appearance here.
The company is one of unusual
strength, headed by George F. Hall
who has a personality that can-
not be overlooked. His humor is so
infectious and so apparently genu-
ine that his importance in the cast
increases with each act. The au-
thor has furnished two unusually
good children parts which are
played by little Daisy Stampe and
little Gracie Russell.

Catarrh Poisons The System.

lowers health and vitality, des-
troys digestion and makes the
victim feel like a tiny cent. Foolish-
ness may criminal to have Catarrh
and offer its evil consequences
since Catarrh is so quickly and
pleasantly cured. It is medicine
carried to the lungs, throat and
nasal passages, by the air you
breathe. It's as absolute in its
power of curing as it is scientific
in its method of treatment. Your
doctor or druggist will tell you
that nothing equals it for Catarrh
and all other lung and throat dis-
eases. All dealers, 25c. and \$1.00.

The Frontenac Milling Company.

The above company had a very
fine exhibit of their products in

and kiln-dred corn meal. The ex-

attention, and the representative

S. White, Lennoxville, opened up
quite a bit of new business as a
result of their exhibit. Mr. L. G.
Heon, of Victoriaville, Que., was
in charge of the exhibit.

supporting company and most
elaborate mechanical effects and
scenery ever given "Faust."
will appear here soon. Interest is
already awakened in what will
prove to be the event of the season.

The Value of "The Examiner" To Advertisers.

On the 30th August Mr. Myrton
Bean was unfortunate enough to
lose a wallet containing the sum of
\$125, between North Hatley and
Eastis. Mr. Bean, on going over
the road again, made a diligent
search, but could find no trace of
the missing wallet. He accord-
ingly came to Sherbrooke and placed
an advertisement in this paper on
Monday last, and on the following
Friday Mr. F. McClure of North
Hatley brought the missing wallet
to him, saying that he had found
the money and the owner through
the instrumentality of the adver-
tisement in THE EXAMINER. Mr.
Bean was naturally highly elated
when he came to our office on Sat-
urday to stop the advertisement,
and said many kind things about
the merits of this paper which our
modesty forbids us to publish.
