PEARY ALSO HAS.
REACHED NORTH POLE

Year later than Dr. Cook, the Second American Explorer, Meets with Success in His Adventurous Trip.

A REMARKABLE COINCIDENCE IN ARCTIC.

"Indian Harbor, via Cape Ray, Nfld., Sept. 6, 1909. To Associated Press, New York, N.Y. Stars and Stripes sailed to North Pole. (Signed) Peary."

"Indian Harbor, via Cape Ray, Nfld., Sept. 6, 1909. Herbert L. Bridgman, Brooklyn, N.Y. Peary discovered, Roosevelt safe. (Signed) Peary."

"Indian Harbor, via Cape Ray, Nfld., Sept. 6, 1909. The New York Times, New York, N.Y. I have the Pole April 6th. Expect arrive Chateau Bay Sept. 7th. Secure credit wire for me, big story. (Signed) Peary."

New York, Sept. 6.—Peary has succeeded. "Stars and Stripes" sailed to the North Pole. From out the Arctic darkness there was flashed to this message which stunned the scientific world and thrilled the heart of every layman. From the bleak coast of Labrador, Peary gave to the world the news that he had attained his goal in the far north, while at the same moment, in far off Denmark, Dr. Frederick A. Cook, of Brooklyn, was being dined and lionized by royalty for the same achievement.

Undoubtedly Yankee grit has conquered the frozen north and there has been created a coincidence such as the world will never see again. Two Americans have planted the flag of their country in the land of ice which man has sought to penetrate for four centuries; and each ignorant of the other's conquest has flashed within a period of five days, a laconic message of success to the waiting world.

Cook, in his first message to his countrymen, was brief but non-committal; Peary was even briefer, but specific. "Stars and Stripes" sailed to the Pole," he said. That was all, but never before have so few words conveyed to a people a greater meaning or a greater patriotic satisfaction. Five days ago, on Sept. 1st, Dr. Cook sent out from the Shetland Islands the first message of his success—a message which has aroused a storm of controversy around the world. To-day Robert E. Peary, lost from view in the land of ice, was unheard from since August, 1908, startled the world by a similar message sent from Indian Harbor, Labrador. There was no qualification; it left no doubt. It announced

unequivocally that he had reached the top of the world. Thus two flags with the Stars and Stripes of the United States are floating in the ice packs, proving the courage of intrepid Americans.

With but a word from Peary, the world waits breathlessly for details, but until to-morrow, when he should arrive at Chateau Bay, Labrador, waiting must suffice.

First word of Peary's success reached New York at 12:30 o'clock this afternoon in a despatch to the Associated Press. It contained the bare announcement of his finding the Pole. Almost simultaneously he had transmitted the news to London, repeating dramatically and simply, "Stars and Stripes sailed to the North Pole." At the same time he similarly advised the Governor of Newfoundland.

Both the old and the new world were thus apprised of his great achievement practically at the same moment and the excitement which followed attests to the high pitch of interest aroused over the climax of man's perseverance. Newspaper extras were rushed from the press and those who read marvelled at the twist of the universe which had snatched the ice mark from the north in so strange a manner.

Like Dr. Cook's first message, Peary's was tantalizing in its brevity and the waiting public, stimulated by Cook's success, was left unsatisfied. For, as did Dr. Cook, Peary resumed his homeward journey immediately after filing the curt news of discovery.

A few words were added to this message information at 2:15 p.m., when there was made public this additional information sent to Herbert L. Bridgman, of Brooklyn, Secretary of the Peary Arctic Club: "Pole reached, Roosevelt safe, Peary."

This gave assurance that the vessel in which Peary departed had passed through the ice unscathed, but details of his home-coming and the date of this discovery of the Pole were still lacking. It was not until the New York Times had received a despatch later in the afternoon that these vital points were cleared up. The message said: "I have the Pole April 6th. Expect arrive Chateau Bay Sept. 7th."

With this information at hand it was a comparatively simple matter to ascertain that the April 6th referred to was April of the present year, as

his expedition did not start from New York until July 7th, 1908.

April 6th, 1909, the date that Peary planted the flag at the Pole, and April 21st, 1909, the day that Dr. Cook unfurled the Stars and Stripes a year before, consequently became the cardinal dates upon which exploration of the far north will rest hereafter. Though separated by a year and fifteen days, the same feat was accomplished by two Americans, neither of whom was aware of the movements of the other. Cook says that he found no traces of Peary in the moving ice, and whether the American naval commander found any indications that the Brooklyn physician had preceded him farthest north must remain unsolved until an account of his experiences is obtained from the lips of Peary.

Just as Dr. Cook notified his wife waiting in Brooklyn, so Commander Peary took advantage of the brief stop at Indian Harbor to assure Mrs. Peary of his safety.

Asked if there was any probability of Peary having found the tube containing his records, Dr. Cook replied: "I hope so, but that is doubtful on account of the drift."

Dr. Cook added: "Commander Peary would have reached the Pole this year, probably while I was there. Last year his route was several hundred miles east of mine. We are rivals, of course, but the Pole is good enough for two. That two men got the Pole along different paths," continued the explorer, "should furnish large additions to scientific knowledge. Probably other parties will reach it in the next ten years, since every explorer is helped by the experience of his predecessors, just as Sverdrup's observations and reports were of immeasurable help to me. I can say nothing more, without knowing further details, than that I am glad of it."

PEARY FOUND NO TRACE OF COOK.

St. John's, Nfld., Sept. 6.—Commander Robert E. Peary, who announced to-day that he had discovered the North Pole on April 6th, of the present year, found no trace of Dr. Frederick A. Cook, of Brooklyn, who reported to the world five days ago that he had made the same discovery in April of the preceding year. This news reached here to-night through Captain Robert Bartlett, on the Roosevelt, Peary's ship, en route to Chateau Bay, Labrador.

Capt. Bartlett telegraphed to relatives here that Peary has found nothing to indicate that Dr. Cook had reached the Pole. While Peary does not expressly repudiate Dr. Cook's contention in so many words, his statement may have an important bearing upon determining the extent of Dr. Cook's explorations.

The Roosevelt was in good condition and the crew all right, wired Capt. Bartlett in addition, and reported that the schooner Jeanie, carrying supplies for the expedition had met them off the coast of Greenland. Coming south the Roosevelt passed Etah and Upernivik, Greenland, where Dr. Cook had preceded Peary. The Roosevelt to-night is bound for Chateau Bay, Labrador, with Peary and party on board where he is due to-morrow. Chateau Bay lies northwest of Castle and Henley Islands, on the north shore of Belle Isle Strait and due east of Belle Isle.

Copenhagen, Sept. 6.—It is doubtful if history furnishes a more dramatic episode than the breaking of the news to Dr. Cook that Peary had realized the goal of his life's ambition, and repeated struggles. Dr. Cook was seated at a dinner, surrounded by explorers and correspondents, in the grand hall room of the Tivoli Casino. Around his neck was hung a garland of pink roses, according to the Scandinavian method of honoring heroes, which the explorer wore blushing and with visible embarrassment. Several speeches, acclaiming him, had been given and repeated toasts to him drunk with clamorous cheers.

Amid this scene a whisper went around that Peary had planted the Stars and Stripes at the Pole. Cook was perfectly cool and unmoved. He paid high tribute to the work of Sverdrup, who sat next to him, and covered the largely owed success, to John R. Bradley, who had financed the expedition to the intelligence, endurance and faithfulness of the Eskimos who had assisted in the preparations and those who had accompanied him. The whole story of the expedition he said, had not come out and will not come out for some time; nor will it come in installments but only when it is completed.

Dr. Cook did not permit the whispers which came to his ear of Peary's success to move him in the least, but when he had finished he was surrounded by correspondents who looked for some sign of emotion, but the explorer said, smilingly:—"I am glad."

New York, Sept. 6.—From the time Peary wrote his late letter home from his depot of supplies at Etah in August, 1908, until he flashed the made words from Indian Harbor, nothing was known of the fight he had been making across the frozen crust of the north. The last words came in the mails of Sept. 1, 1908, letters written in August aboard the Roosevelt, but undated. Some were to Mrs. Peary. Mrs. Peary subsequently expressed the belief that her husband would be heard from some time this month and that he would be successful.

At Etah, Peary had established a station for training Eskimos and dogs and accumulating supplies. He divided his party into three groups—one to make meteorological observations, another to take meteorological notations, and a third of five or six men and dogs for the last dash to the Pole, while the first two followed more slowly and established bases of supply for the return trip. When the Roosevelt turned her prow northward in the summer of 1908, Peary left behind a record of his explorations and letters to friends to be opened if he never came back. There was tender messages for Marie, the snow baby born in the north, but now a miss of sixteen; words for Robert E. Peary, Jr.,

ALLAN STEAMER

Thrilling Scenes when the
Laurentian went on Rocks
Near Cape Race

NO LIVES WERE LOST

But Passengers and Crew Had Trying
Experience in Getting Ashore—
Vessel a Total Loss.

St. John's, Nfld., September 6. — Thrilling scenes attended the loss of the Allan line steamer Laurentian, bound from Boston for Glasgow, which piled up on the rocks near Cape Race during a dense fog at six o'clock this morning. The vessel is a total wreck, but all the passengers and crew escaped to land after a trying experience.

The Laurentian left Boston Friday. She carried 20 cabin passengers, 30 steerage and a crew numbering 40. When the ship struck she rebounded heavily, the shock throwing most of the sleeping passengers from their berths. They stampeded for the deck, without stopping to dress and for an hour excitement prevailed. Captain Imrie and his officers, however, succeeded in quieting all hands and persuaded everyone to return to quarters and dress.

A stiff northwest wind banged the ship about and at seven o'clock orders were given to put the boats overboard. Twenty-five passengers, mostly women and children, were placed in the first boat, but the bow tackle collapsed and several persons were thrown into the sea. Others were injured by the thumping of the small craft against the sides of the collapsing liner. Within 15 minutes those thrown into the water were drawn to the deck and the passengers in the disabled boats were rescued.

Six more life boats were put over, but the passengers say that some of the seamen of the Laurentian did not know how to row and that they were obliged to handle the oars themselves. Along the iron-bound coast cliffs rise to a height of 50 feet. After the boat had been adrift two hours, fearing to put in a boat from a nearby fishing village was sighted through the fog, and finally it piloted the life craft to a harbor.

A steamer left St. John's late to-night to bring the shipwrecked people to this port. The hull of the Laurentian broke into two near the engine room and Captain Imrie was obliged to stand by and see the end of his ship, which for 37 years had crossed and recrossed the Atlantic. The Laurentian was built at Greenock, Scotland, by R. Steele & Co., in 1872.

PLANS FOR NEW
QUEBEC BRIDGE

Have Been Definitely Fixed Upon by
the Commission and will be
Announced Today.

(Special to the Chronicle.)
Montreal, Sept. 6.—The Quebec Bridge Commissioners are meeting here to-morrow, when it is expected that an important announcement will be made regarding plans for the new bridge. Among those in the city to-day are Hon. Geo. P. Graham and Messrs. Butler, Modjeska, Vantelet, Holgate and Fitzmaurice. In conversation with one of the engineers, your correspondent was informed that the plans and arrangements for the new bridge had been agreed upon. It is thought that to-morrow's meeting will ratify before Mr. Graham the agreement reached by the members of the committee.

It is also thought that the services of Mr. Fitzmaurice, who was called into consultation, have had an important bearing on the agreement reached by the committee, and it is now hinted that the verdict of the Commission will be unanimous.

LUNGHI MAKES NEW RECORD.

Celtic Park, L.L., Sept. 6.—Emilio Lungi, the Italian champion at many distances, beat the world's record for the 700 yard run at Celtic Park to-day. Lungi's time was one minute 27 2/5 seconds. The best time recorded was that made by Leon Myers, of New York, on the old eight lap track in Williamsburg in 1882.

8TH MARKSMEN ARE STILL KEEN

Large Turn Out at the St. Joseph de Levis Ranges on Saturday and Good Shooting.

A number of the 8th R.R. men were at the ranges Saturday last. The weather was not favorable for high scoring on account of the very bad light. However, on the whole, the scores were very good, there being only one score lower than 80 points. The Macpherson and Price monthly aggregates, which are still being competed for, are of a great benefit to the regiment, they being the means of bringing along the green shots, who will have to be counted on for next year's tyro teams at the P.Q.R.A. The green men of the regiment should take every opportunity offered for competing in three matches. The following are the scores made:—

THE LATE MRS. TIMMONS.

The funeral of the late Mrs. P. Timmons took place on Sunday afternoon from the C.P.R. station to St. Patrick's Church, which was heavily draped with emblems of mourning. A solemn Libera was sung by a full choir, Rev. Father Tanley officiating, assisted by Rev. Fathers Delargy and Lawlor as deacon and sub-deacon respectively. At the conclusion of the Libera "Nearer My God to Thee" was sung in a feeling manner by Miss May Mahoney. The pall bearers were Messrs. Geo. Mulrooney, E. Duggan, G. Hayden, J. T. Donnelly, M. Arlison, and T. J. Murphy. After the service in the church the remains of the deceased lady were conveyed to St. Patrick's Cemetery and placed in the family lot, followed by a large number of mourning friends, who were desirous of paying a last tribute of respect to the deceased.

A VOCAL STAR AT THE NICKEL.

The Nickel management has secured a rare treat for its patrons this week in the engagement of Miss Mazie Wolfe, late of Keith's Theatre, Boston. This lady is possessed of a voice of a range that is altogether exceptional. Verifying from contralto to counter-tenor is somewhat exceptional, and not often heard, but this Miss Wolfe is capable of, and her ability in this respect will be demonstrated before her engagement terminates. The programme of views to-day are all of high class merit and well worthy of witnessing. "Thilly's Heart" is a dramatic picture that is beautifully portrayed. The story is a Grecian one and the costumes are magnificent in keeping with them, while the different scenes and staging combine to make a picture the like of which is seldom seen in a local theatre. Another splendid picture is "The Maid and the Millionaire," while "We Must Have a Butler" is equally interesting. "Caucasian Customs" is an intensely interesting educational picture, in which many features are shown that are appreciative and instructive. "Borrowed Clothes," of course, has a humorous side to it, the merriment caused in the depiction of which is unlimited. Apart from this there is also a pleasing illustrated song entitled "If You Must Love Someone." This is sung by Mr. Carroll, who has made himself a favorite with Nickel patrons. Mr. Carroll is possessed of a tenor voice of good range and which he fully knows how to use, and his singing is at all times pleasing to the ears. Taken all in all, the programme at the Nickel is a rare one and well worth seeing.

A LITTLE RED SPOT

Novel Experiment by Which It May Be Made to Disappear.

A peculiar feature about psoriasis, the new skin discovery is that no one is asked to buy it without first sending to the Emergency Laboratories, No. 32 West Twenty-fifth street, New York City, for an experimental sample and applying same to an affected part of the skin, about the size of a silver dollar. It will clear the spot so treated in twenty-four hours—a remarkable visual demonstration of its powers.

While psoriasis has been mentioned principally in connection with the cure of eczema, the most stubborn of skin diseases, it must be remembered that when used for itch, hives, pimples, blotches, acne, itching feet, scaly scalp, chafing of infants and similar minor skin troubles its action is all the more pronounced, results being seen after an overnight application. As only a small quantity of psoriasis is necessary to cure such cases, a special fifty-cent package, usually sufficient, has been placed on sale at Henry Willis, 4 St. John street, and other leading drug stores in Quebec, and throughout the country.

The deeper a man is in debt the still deeper he would go if anybody would let him.

IN AND ABOUT TOWN

INFANT WAS SMOTHERED

Buried Head in Pillows and Found Dead in Bed in Morning.

Coroner Jolicœur held an inquest yesterday at Lotbinière on the body of a four months old infant which was found dead in its bed. The evidence showed that the child had been sleeping in a cradle, and had buried its head in the pillows in such a manner as to produce suffocation. A verdict of death from asphyxiation was returned.

Coroner Jolicœur was also notified last evening of the sudden death of a man at Lévis. No details were given except that the body of the man was at the morgue of Mr. Moisan. An inquest will be held to-day.

Keep Tuesday evening free for the Sailors' Concert. Come yourself and bring your friends.

AMBULANCE CALL.

The ambulance was called out yesterday afternoon to convey a woman from St. Roch's to the Hotel Dieu. The woman had broken her leg by falling down stairs.

DEER SEEM PLENTIFUL.

Deer seem to be plentiful this season, and some of the crack shots at the St. Joseph de Lévis ranges on Saturday were quite worked up over a report that two had been seen in close proximity to the place. However, the animals got away, before the St. R. crack shots had time to divert their attention from the targets to the animals.

PRICES LOWER THAN EVER.

We are receiving our fall goods and we tell you that the style and the price will surpass anything just now.

FAGUY, LEPINAY & FRERE.

NEXT SATURDAY.

The programme of equestrian sports to be executed next Saturday, 11th September, by the Quebec Hunt Club on the Exhibition Grounds will certainly be the best sporting event of the season. The numerous entries in every event on the programme, and the variety of sports, will create a keen interest from beginning to the end. The polo pony races, the cabmen and farmer races are always very popular; the open hurdle race and the exhibition of high jumping and fox hunting with hounds will certainly create the greatest enthusiasm among the large crowd of spectators attending those sports.

If you have never been at a Sailor's Concert, try the one on Tuesday in the Y. M. C. A. Hall. Admission 10 cents.

SEND OFF TO COL. ASHMEAD.

Just before the conclusion of the races on Saturday afternoon on the exhibition grounds, Colonel Ashmead, the indefatigable secretary of the Quebec Turf Club, who left the same evening for England, was called into the directors' room, and in a neat speech by Major T. S. Hetherington, President of the Turf Club, was presented on behalf of his fellow members with a handsome silver cigar case as a mark of the high esteem in which he is held and also as a tribute to the way in which he had worked to make the present year's meet such a great success. Colonel Ashmead was taken completely by surprise but the genial Colonel made a happy speech in reply.

CHANGES ON THE C. P. R.

Owing to the increasing business of the Canadian Pacific Railway system another change has been put into effect for the distribution of the work, by which in future the Atlantic steamship service will be placed directly under the supervision of Mr. G. M. Bosworth, fourth vice-president of the system. Hitherto this business has been under the direct supervision of Sir Thomas Shaughnessy, to whom all reports were sent. The work devolving upon the president, however, has become so great that it was found necessary to relieve his office of a good deal of the detail work, with the result that the trans-Atlantic steamship business has been transferred to Mr. Bosworth. On Saturday a circular was issued by Sir Thomas Shaughnessy setting forth that "Commencing October 1st, the operation and maintenance of the Canadian Pacific Railway Company's Atlantic Steamship line will be under the jurisdiction and supervision of Mr. G. M. Bosworth, fourth vice-president. The manager of the line will report to Mr. Bosworth and be governed by his instructions."

This change will not affect the other steamship services of the C. P. R. on the Great Lakes and the Pacific, which will report as hitherto direct to the president. The move, however, is taken as indicating that the increasing importance of the Canadian Pacific's maritime business will ere long lead to the whole steamship department being placed under the direct supervision of one of the vice-presidents, and that Mr. Bosworth's jurisdiction will eventually be increased to cover the whole marine service.

THRILLING ACT AT RUSTIC THEATRE

Slide for Life by Lady Performer Made Great Impression Last Evening.

The season may be drawing to a close, but the bills at the Rustic Theatre at Kent House grounds show no signs of waning. This week's programme partakes largely of a gymnastic and acrobatic character, and all the performers are stars in their various lines, and they provide a startling and sensational performance. The big feature is undoubtedly Ellwood & Mead, who do a ladder balancing and perch act, the conclusion of which gives the lady, Miss Mead, a remarkable opportunity to display her nerve in a thrilling slide for life, which made those who saw her last night gasp with astonishment. The Chartres Bros. have a clever barrel act and Herrera does an aerial specialty that is very good. Ed. and Rolla White, the comedians, are welcome stop-overs from last week, and M. and Mme. Dubuisson again score high with their French songs. The Kleino-graph, as usual, supplies the latest and best in the moving picture line. The present week's bill is one that should attract a great week's business to this popular summer resort, for it is one well in line with its predecessors.

MAN INJURED ON ROAD.

A report was current in town yesterday that a tramp had been killed by a train at St. Gregoire station on Saturday night. The report, however, was unfounded, although a man had been struck by a train and badly shaken up. He was taken to the Hotel Dieu.

IMPORTANT NOTICE.

The Grand Trunk Railway System beg to notify the public in general that the last through Pullman Sleeping Car will leave Lévis for Portland, Me., on Sunday, September 12th, at 12.30 p.m., and the last Pullman Sleeping Car will leave Portland for Lévis on Monday, September 13th.

MIDNIGHT AMBULANCE CALL.

About 11.30 last night, a man, under the influence of liquor, fell on the asphalt pavement on Bridge street, near the new building of La Caisse d'Economie. Night Watchman Ryan called for the ambulance and the police, but when they arrived upon the scene, the constables had taken the man, who fell, in charge. When the man fell on the asphalt, the time-keeper advised his friends to remove him to a room in the Jeffrey Hale building and this was accomplished.

OBITUARY.

The obituary columns of the Chronicle this morning give notice of the death of Mrs. John Sandfield Macdonald, widow of the late Hon. John Sandfield Macdonald, premier of Ontario in 1867, who died at her residence in Cornwall, on Friday, the 3rd of September. Mrs. Macdonald, who was ninety-one years of age, had been ill only for a short time. The funeral will take place on Monday, at St. Andrews, near Cornwall, where her husband was buried. Mrs. Macdonald was Miss Christine Waggaman, daughter of the late Senator Waggaman, of New Orleans, one of the members of the old Southern Society, which sat at Richmond, Virginia. She has resided in Canada ever since her marriage nearly seventy years ago, and Cornwall has been her home since the death of her husband in 1882. Four children, three daughters and a son survive Mrs. Macdonald. They are Mad. Langlois, of Portneuf, Que.; Mrs. Col. Uppley, London, Eng.; Mrs. Col. Pemberton, Cheltenham, Eng.; and Mr. George Sandfield Macdonald, barrister, of Toronto.

FROM THE BENCH

A Judge Commends Pure Food

A judge of a Colorado Court said: "Nearly one year ago I began the use of Grape-Nuts as a food. Constant confinement indoors and the monotonous grind of office duties had so weakened and impaired my mental powers that I felt the imperative need of something which neither doctors nor food specialists seemed able to supply. "A week's use of Grape-Nuts twice a day convinced me that some unusual and marvelous virtue was contained therein. My mental vigor returned with astonishing rapidity; brain weariness (from which I had constantly suffered) quickly disappeared; clearness of thought and intellectual health and activity which I had never previously known were to me the plain results of a few months use of this food."

"Unhesitatingly I commenced Grape-Nuts as the most remarkable food preparation which science has ever produced a food as my knowledge and experience extends."

The judge is right. Grape-Nuts food is a certain and remarkable brain builder and can be relied upon. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

LABOR DAY PROCESSION

One of the Best Held in Quebec for Many Years Past.

For some nineteen or twenty years past, the labor men of Quebec have been celebrating Labor Day with a grand procession. Yesterday's turnout was undoubtedly entitled to rank with the best which they have ever held, and it was witnessed by immense crowds which lined the streets throughout the whole route through which it passed. There were over half-a-dozen bands of music, flags, banners and other decorations and many handsome and striking allegorical cars. From an early hour, the vicinity of the Bourse du Travail, in St. Valier street, presented a busy scene as the various unions affiliated with the Central Council of the National Trades and Labor Congress assembled to take their places in the procession. The different bodies were quickly marshalled into line, and shortly before nine o'clock set out to traverse the city over the following route:—St. Valier, Sauvageau, Boisseau, Aqueduct, Colomb, Boulevard Lange-lier, St. Valier, Cote d'Abraham, St. John, Fabrique, Buade, Mountain Hill, St. Peter, St. Paul, St. Joseph to starting point.

The weather man was kind to the horny-handed sons of toil, and he provided them with a clear, bright day after the heavy rain, and though the streets were anything but inviting none hesitated to take their place in the ranks and swell the display of the workmen of Quebec on their great annual holiday.

The procession was headed by Chief of Police Trudel, with his handsome span of horses, and after him came the Grand Marshal and the banner of the National Trades and Labor Council. The Chevaliers Bonaparte, with two miniature representations of the great French General, formed a new feature of the march, and after them came the many unions which go to make up the National Council in Quebec. The Coal Drivers' Union took back this year to convey them over the ground, and they made a fine show. The Hackmen's Union was in no ways behind and they also had a big turn out. The Brewers' Union, Longshoremen's Union, Steamboat Carriers' Union, Bateaux Men's Union and others had very effective and striking allegorical cars.

There were a number of Aldermen, members of Parliament and other prominent men in the procession, which was favorably commented upon all along the line. Yesterday afternoon there was a big day of sports on the exhibition grounds, which was attended by an immense crowd of people. There were horse races, bicycle races, foot races and all description of sports and they provided a great afternoon of enjoyment.

BLANCHARD HOTEL.

A big addition to the comfort and accommodation of visiting tourists is to be found in the newly renovated "Blanchard Hotel." The proprietor, Mr. J. Cloutier, in order to meet the increasing demands of his business, has added a wing, 80 feet by 100 feet, supplied throughout with electric lights, baths, barber shop, etc. The dining hall, in itself, is worthy of more than passing notice. Mr. J. Cloutier, the proprietor, himself, is one of those gentlemen that we are happy to meet and sorry to part with. His ambition is to please his guests, and he never fails to do so.

WEDDING BELLS.

A quiet, but very pretty wedding was solemnized in St. Patrick's Church yesterday morning, when Miss Cissie O'Doherty, daughter of Mr. P. O'Doherty, became the bride of Mr. John J. Murphy, of the C. P. R. Telegraph Co. staff, the nuptial knot being tied by Rev. Father Delarue, C.S.S.R. The bride, who looked charming in a white crepe de chine dress, over taffeta, with hat to match and carrying a handsome bouquet of white roses, was given away by her father, the groom being attended by his brother, Mr. T. Murphy. The high esteem in which both bride and groom are held was evidenced by the number and elegance of the presents received by them. After a recherche breakfast served at the residence of the bride's parents, the happy couple left by the 8.30 a.m. C. P. R. train on an extended trip to the West, followed by the good wishes of a host of friends for their future happiness and prosperity in life. As the bridal party boarded the train they were liberally showered with rice and confetti.

"Every One Thought I Had Consumption."

Peru-na Saved Me."

"I THANK DR. HARTMAN FOR PE-RU-NA."

MRS. MOIS PARIZEAU.

"I hardly know how to thank you for the good Peru-na has done me. "I suffered five years with pain in the stomach. About a year ago it became so bad I could hardly bear it. I coughed day and night and grew weaker and weaker. The pain extended through my body and I also had difficulty in breathing, which made me cough. Everyone thought I had consumption. "My husband heard of Peru-na and bought five bottles. This treatment virtually cured me and now I recommend Peru-na to every one who is suffering. "I thank Dr. Hartman for this excellent remedy." Ste. Julie de Vercheres, P. Q., Canada. ---Mrs. Mois Parizeau.

A NEGLECTED cold is generally the first cause of catarrh. Women are especially liable to colds. These colds occur more frequently during the wet, sloppy weather of winter and spring than any other time of the year. Often they are not considered serious and are allowed to run on, or they are treated in such a way as to only palliate the symptoms, while the cold becomes more deep-seated and the patient finally awakens to the fact that she has a well-developed case of catarrh. By reason of their delicate structure, the lungs are frequently the seat of a cold, especially if there is the slightest weakness of these organs. The treatment of catarrh of the lungs is also more difficult and discouraging than catarrh of any other organ of the body. It would be wise therefore, to guard against it by every precaution possible. Peru-na has been found the most reliable of all remedies for coughs, colds and catarrh, by reason of the fact that it goes at once to the very seat of the trouble. It searches out every crevice, every duct of the body. It quickens and equalizes the circulation of the blood, thus relieving the congested mucous membranes. It exercises a healing and soothing effect upon the mucous membranes, no matter whether they are the more exposed membranes of the head and throat, or whether they line the remotest cells of the lungs. Mrs. Jaschob, 1681 Hicks St., Toledo, Ohio, writes: "When I wrote to you for advice, I had been sick for three years. I had trouble with my throat. Often I could not breathe through my nose. I also had pains in my chest and a cough. I took Peru-na according to directions and it has cured me."

CLOSING DAY OF TURF CLUB RACES

Another Splendid Afternoon of Sport, with
 Keenest of Contests and Closest of
 Finishes on Saturday.

AN IMMENSE CROWD IN ATTENDANCE.

The best of sport was provided at
 the closing day of the Quebec Turf
 Club's meet on Saturday, and the
 six races on the card again brought
 out exceedingly keen contests. No bet-
 ter racing has ever been witnessed in
 Quebec in many a year, and the Turf
 Club is to be congratulated upon the
 success which has attended this year's
 gathering. The attendance too was
 very large on Saturday, over three
 thousand people being present. His
 Honor Sir C. A. P. Pelletier, Lieut-
 Governor of the Province, honored the
 gathering with his presence and Que-
 bec society was out in force, the
 grand stand being filled with the
 wealth and beauty of the Ancient Cap-
 ital. The Q.O.C.H. band again sup-
 plied a choice selection of music, and
 the afternoon proved a most enjoy-
 able one in every respect, even the rain
 clouds holding off their threatening
 downpour until after the races were
 finished. The six events were run off
 expeditiously and without hitch, the
 officers and officials of the club, in-
 cluding Dr. Kine Smith, judge, and
 Mr. P. McGinnis, starter, winning
 warm commendation for the manner in
 which the whole meet has been con-
 ducted.

The finishes of some of the races
 were so close and exciting that they
 brought the occupants of the stand
 to their feet cheering and encouraging
 their favorite horse. The first race,
 the Beauvoir Plate, brought out a
 field of seven, and was won by Clai-
 borne after a neat run, Elfall being
 second and Great Jubilee third.

The second race, another three-
 quarter mile dash, was a pretty one,
 and the finish hard fought out between
 Bird Slayer, Minnie Bright and Seren-
 ade. The horses finishing in this order
 with little to choose between them.

Another splendid race and one which
 furnished plenty of excitement was the
 Hunt Cup. This brought out no less
 than eight entries, all members of the
 Quebec Hunt Club. The distance was
 one mile over stiff hurdles, and was
 won in fine style by Mr. Jos. Savard
 on his well-known jumper Kate after
 a beautiful ride. He was given a great
 battle for the place by Mr. U. Gauvin
 mounted on Roller, while Benmore,
 ridden by Mr. Hamel, was a good
 third. Nelly, ridden by Mr. J. A. Ver-
 mette, went down at the first hurdle,
 while Princess also threw its rider,
 Mr. Geo. Carrier, a little later, but
 the horse continued in the race and
 was up with the leaders at the finish.

The race aroused the greatest in-
 terest among the members of the
 Hunt Club and their friends and Mr.
 Savard was the object of hearty con-
 gratulation on its success.

The big event of the day was un-
 doubtedly the contest for the White
 Horse Challenge Cup, and it certainly
 provoked all the excitement expected.
 Five horses lined up for the start and
 four of these finished right in a bunch
 after an event a race as has been run
 on a Quebec track in a long time.
 Montclair was greatly fancied for the
 winner with Sabado also ruling high.

ALL-STARS WON.

The game between the National H.
 of Montreal and the All-Star team of
 this city on the Q.A.A. grounds on
 Sunday afternoon was a surprisingly
 good one considering the heavy down-
 pour of rain and the wet condition of
 the field. The match resulted in a win
 for the Quebec aggregation by a
 score of 4 to 2 after an exciting con-
 test. The teams lined up as follows:
 All-Stars—Savard, goal; DeBeau-
 mont, point; Belanger, cover-point;
 Metivier, J. Doyle, D. Doyle, defence;
 D. Beland, centre; Bernard, Demers,
 Pelletier, home field; outside, P. De-
 Beaumont; inside, L. Finet.
 National—Demers, goal; S. Belle-
 rose, point; Cadot, cover-point; David,
 Verres, C. Bellerose, defence; Lafond,
 centre; Trudeau, Bouillon, Laroux,
 home field; Vaillancourt, outside; Du-
 frene, inside home.
 Referee—D. Neilan and N. Bernier.

MONTREAL DEFEATED TECUMSEH

Toronto, Sept. 6.—Montreal defeated
 Tecumsehs 4 to 2 in a N.L.U. cham-
 pionship game played at the Scar-
 boro Beach grounds this afternoon be-
 fore 4,000 people. Although Tecum-
 sehs scored two goals to their oppo-
 nents' one in the first quarter, they
 could not stand the pace, and after
 half time were mostly on the defensive.
 It was quite evident that the hard
 game at Cornwall on Saturday had
 taken much of the vim and dash from
 the Indians. Querrie played through
 the game and for a while was ef-
 fective, but a hard crack on his lame
 knee somewhat early in the game
 bothered him to the end. Hogan,
 Roberts and McKerron starred for
 Montreal. Both goal keepers played
 phenomenally and to their efforts
 the smallness of the score was due.
 At one time the game became so
 rough that the police interfered and
 threatened arrests. Thereafter the
 players paid more attention to la-
 crosse than to each others bodies.

SATURDAY'S LACROSSE.

At Montreal—Shamrocks, 5; Nation-

al, 4.

At Ottawa—Capitals, 13; Toronto,

At Cornwall—Cornwall, 4; Tecum-

sech, 2.

NO BASEBALL GAMES.

The baseball game on Sunday be-

tween Rock City and St. Patrick had

to be postponed owing to wet weather,

while yesterday's game between Quebec

and Napoleon failed to come off be-
 cause the Levis Club did not turn up.

BASEBALL GAME.

The Napoleons failed to appear to
 play the exhibition game arranged
 with the Quebec team yesterday. Not
 to disappoint the "vast throng" that
 was assembled Manager A. Copeman
 brought forth his All-Star aggrega-
 tion and challenged the Quebecers.
 Several of the latter team had left
 the grounds or had decided not to
 play, but two teams were got to-
 gether and after a game filled with sen-
 sational stunts, Manager Copeman's
 Braves emerged victorious by a score
 of 12 to 3. The teams:—

Steel Oven Heats Quicker— Saves Fuel

Make sure your new range has a steel oven, and "Pandora" nameplate on the door. Go, at once, to nearest McClary Agency and pick out size desired.

Pandora has a sheet steel oven, because steel is more sensitive to heat—absorbs it faster—than cast iron does. Pandora oven thus heats quicker—less time required to get oven ready for the baking—which also means less fuel-expense.

THE AUTOPIANO

FOR NON-PLAYER AND PIANIST ALIKE

Think of the joy and pleasure that the wonderful AUTOPIANO with the "SOLOIST" attachment can mean for your family and your home. Artistic playing is possible for any non-player through the aid of music-roll and treadles. The instrument can also be played by hand in the regular way. TWO PIANOS IN ONE.

If you love music and cannot play for yourself, or if you do play but wish to increase your repertoire a thousandfold, you should have an AUTOPIANO in your house.

You can play all classes of music exactly as you may like it through the use of tempo and expression levers in front of keyboard.

CANADA CONSUMING LESS SPIRITS

Production of Tobacco Also Shows
Falling Off—Visit of British Ambassador Bryce to Ottawa.

London, Sept. 6.—The Highgate Hill mental blue book to appear is the annual report of the Inland Revenue Department. It shows a falling away in the production of spirits as well as in the consumption of tobacco. During the twelve months ending March 31, the quantity of spirits produced in Canada was 5,176,045 gallons, a decrease of 1,673,715 gallons as compared with the previous fiscal year. There was a falling away in the demand for Canadian distilled products, the quantity exported being 311,314 gallons, a decrease of 101,043 gallons. The total excise revenue collected during the year was \$15,045,589, a decrease of almost one million dollars. During the year 129,195,371 cigars were consumed as compared with 200,133,255 in the previous twelve months. Cigarettes manufactured totalled 356,189,380, a decrease of over 85,304,674. The figures in respect to cigarettes have already been announced and commented on. The great reduction in the production and sale was no doubt due in a large measure to the restrictive legislation adopted a couple of years ago by parliament.

It is understood that Ambassador Bryce's visit to Ottawa is on the subject of the waterways agreement. The question of the ratification of waterways treaty between Canada and the United States, final approval of which has been withheld so far owing to the rider in respect to St. Mary's river attached by the United States Senate, has not yet been thoroughly discussed by the council. It is not likely that the matter will be finally dealt with until the return to the Capital of Hon. A. B. Aylesworth, Minister of Justice, and other Ministers should be present. The prospect is that the Canadian Government will give its consent to the final ratification of the treaty by the British Government with the rider attached, providing, however, it is assured that there will be no surrender of Canada's power interests entailed.

A claim for \$2,000 damages has been made against the Board of Health by Miss Mulroney, formerly head nurse in the scarlet fever ward of the isolation hospital. While performing her duties as such she contracted diphtheria and since January has been unable to attend to any work. Her health is seriously impaired. The letter will come before the Board of Health to-night. The claim is somewhat unusual and will likely be disputed by the city on the ground that the nurse took the risk that all isolation hospital nurses have to take.

The city to-day accepted a tender for \$10,420.60 civic 4 per cent debentures. The successful bid was by the Bank of Ottawa and they were taken at par value. They run from ten to thirty years.

Papers arrived from the Provincial Government roads department to-day suspending collection of tolls on the Ottawa Gloucester road, one of the main highways into the city. The provincial inspector reported it in bad condition. This is the second toll road declared free here recently at the instigation of the county authorities.

The police commissioners have decided to investigate the work of the local police department in handling the recent McMillan diamond robbery, which was the subject of much adverse public opinion locally.

A SURPRISED MINISTER

"For many years I have been a sufferer from bronchial catarrh, and had despaired of anything like a cure. Judge of my pleasant surprise when I first used Hyomei, which brought complete relief. Hyomei has been a veritable godsend."—Rev. Charles Hartley, Sardinia, Ohio.

Thousands of catarrh sufferers have given up in despair. They have tried stomach dosing, snuff, sprays and douches without success, and now believe catarrh to be incurable to be incurable. But Henry Willis, druggist, holds out hope to all distressed. He sells a remedy called Hyomei which is guaranteed for catarrh, colds, coughs, bronchitis, asthma and croup.

Hyomei (pronounced Hi-ho-me) is medicated air, full of the healthy virtues of the mountain pines. You breathe in the delightful antiseptic air, and as it passes over the inflamed and germ ridden membrane, it allays the inflammation, kills the germs, and drives out the disease.

A complete Hyomei outfit, including a hard rubber inhaler, costs but \$1.00, and an extra bottle of Hyomei, if afterwards needed, costs but 50 cents. See Henry Willis about it to-day.

HE KEPT THE KISS.

Apologies of Lord Northcote's name being mentioned as a probable successor to Earl Grey in Canada, his Lordship was once made curious of while Governor-General of Australia. Strolling one night through the avenue of sombre trees to a friend's house, to dinner, he was suddenly pounced upon by a maid servant, who kissed him effusively and pressed a little parcel into his hand. "Here's a sausage for you. I can't come out to-night, as master has company," she whispered, and as mysteriously disappeared.

When he got to the house he found one of his servants loitering by the gate. "What are you doing there?" asked Lord Northcote.

"I'm waiting for my sweetheart," the man stammered.

"Where is she?"

"In service here."

"Ah, then, I am right. Here is a sausage from your sweetheart, and she wishes me to tell you that she cannot come out to-night, as her master has company." Seeing that the man looked nervous, he added, kindly: "She also gave me a kiss for you; but perhaps you would rather wait until you see her. Here is five shillings instead."

MYSTERY OF A BLACK SHADOW

Chemist Strangled and His Assistant Unconscious—Crime in a Cellar.

London, Sept. 6.—Mystery seemed to surround a murder which was committed in the Bois Colombes, Paris, on Tuesday. The victim was a chemist, while his assistant was found unconscious by his side.

The assistant, Gustave, opened the shop as usual soon after seven, but a little later a customer who entered could get nobody to serve him. Others had the same experience, and thinking all was not as it should be a neighbor called the police.

They could find nobody in the shop, the room behind, or the upper part of the house. So they proceeded to explore the regions below. As they descended the stairs they heard creaking groans, and on entering the cellar found the chemist and his assistant lying on the floor.

The body of the former lay on its back, the knees drawn up as if in agony, and thumb marks on the throat pointed significantly to the cause of death.

Gustave was apparently at his last gasp, and examination showed that an old black kid glove was thrust down his throat. When this had been extracted he soon came round and told a remarkable story.

"After I had finished clearing the shop," he said, "I went into the yard. Through a grating in the wall which admits air to the cellar I heard my employer's voice calling me in a distressed sort of way. I struck a match and went down the cellar stairs. I saw my master lying on the floor looking imploringly at me, and I was about to turn to go up and fetch some brandy when a black shadow flitted by me and I received a violent blow at the back of the head, which stunned me. I remember no more."

The police were very sceptical over Gustave's story, and after twenty-four hours' alternate questioning and solitary meditation in his cell, the assistant declared that he would tell the whole truth. It was he who killed the chemist in a quarrel.

His employer having gone down to the cellar, summoned him, and accused him of purloining his wine. The two men had words, and the chemist called his assistant a liar and a thief. The latter, in a fit of anger, sprang at his employer's throat.

Being a much younger and stronger man, he "squeezed too hard," and suddenly discovered that the chemist was dead. In alarm he determined to concoct a story of mysterious murderers. He rammed one of his own gloves down his throat as part of the plot on scene, to induce the police to believe that he had been attacked also by the unknown assailant or assailants.

It is certain that the chemist was suffering from heart disease, and he may have died merely of the shock when his assistant attacked him.

HIGHGATE CABLE TRAMS VANISH

Whole District Makes Merry to
Celebrate the Occasion—25
Years Old System.

Ottawa, Sept. 6.—The first department cable system of the tramways—the first of its kind laid down in Europe—closed down on Monday, and the route in future will be served by the London County Council's electric cars.

The passing of the cable system, which has run for over a quarter of a century up and down Highgate Hill, was marked by a great demonstration on the part of the inhabitants of the neighbourhood. Boisterous scenes were witnessed up and down the route, and as early as nine o'clock a huge crowd had assembled at the foot of the hill, cheering each car as it left on its journey.

Towards eleven o'clock p.m., when the last car was timed to leave, the demonstrators took things very much into their own hands. The tops of the trams were crowded with people, many of whom stood up and leaned over the sides, beating the tin advertisements with sticks, whilst others let off coloured lights and fireworks.

Popular airs led by a man playing a cornet, were also sung, each car as it went off the service being greeted by singing of "Auld Lang Syne." The climax was reached when the last car started on its journey down the hill. People fought to get on it, and from the start to the end of the journey pandemonium reigned.

Everyone seemed to possess coloured lights, crackers, fireworks, and sticks, which were used to increase the noise caused by the passengers, and the crowd alternately singing and cheering.

The conductor made a brave attempt to collect the fares, but so great was the crush that he was unable to get beyond the top of the staircase. As the car completed the journey at the foot of the hill, the crowd that had assembled joined in singing "Auld Lang Syne."

This car had yet to mount the hill in order to reach the depot, and it was quickly boarded by people eager for the last ride. Some delay was occasioned in its starting owing to an attempt to collect fares—an effort which was found impossible of accomplishment—and the car started off amidst great shouting and cheering.

RETURN OF QUEBEC DELEGATES

Two Local Life Underwriters Honored
at National Convention
in Toronto.

The Quebec delegates, Messrs. J. B.
Morissette, Frank Glass and M.
Monaghan, have returned from Toron-
to, where they attended for three days
the annual convention of the Life
Underwriters Association of Canada.
The meetings were a signal success,
both as regards numerical strength
and importance, there being 200 de-
legates present from all over Canada
as well as several of the general man-
agers and officers of the different life
companies. The visitors were socially
most hospitably received by their To-
ronto friends. An automobile parade
was one of the many social features
of the entertainments given. Some 30
autos conveyed the visitors around the
streets for three hours on Wednesday
afternoon when the beautiful homes of
Toronto wore their brightest exterior
attire. The visitors were finally con-
veyed to the Lambton County Club,
where they were served with a re-
cherche dinner.

Among the general managers who
assisted at every session of the con-
vention were the Hon. Senators Corr
and Ross, Messrs. R. Macauley, Som-
merville, Bradley and the Hon. Mr.
Jolmston, of New York.

A very noticeable feature of the con-
vention was the flattering reception
given to the Quebec delegates. This
was quite apparent when Mr. Mon-
aghan delivered his address to the con-
vention on Wednesday afternoon. Mr.
Monaghan received the honor of elec-
tion as member on the Executive Com-
mittee of the Canadian Association
and Mr. J. B. Morissette to be a de-
legate to the National Assurance Life
Underwriters.

MESSAGE FROM INWARD STEAMER

Picked Up in a Bottle on the
Beach Near Bersimis
Recently.

On the 30th August, Mr. Albert H.
Topping, of Hamilton Cove, Sagua-
way Co., picked up a bottle on the
beach near Bersimis, which had evi-
dently been washed up by the tide.
On opening the same it was found to
contain a piece of paper, the con-
tents of which we give below:

"Aug. 5, W. D. Rees, England,
bound for Harrisburg, Saline Co., Il-
linois, U.S.A.; T. H. Quayle, Van-
couver, the same ship, Empress of
Britain."

Should either of the above two
people from the Empress of Britain
read the Chronicle they will learn that
their message has been received.

UNITED STATES RETALIATORY DUTIES

Will Not Affect Province of Quebec
Companies—Jonquiere Pulp
Co. Has No Fear.

There is no truth in the report that
the Jonquiere Pulp Company will be
seriously affected by the operation of
the United States retaliatory paper
and pulp duties. Even if the club
(25 per cent. ad valorem) does fall.
It is true that the large paper
machine will be in operation before
the close of this year, but the pro-
duction of this machine will be taken
care of in Canada and Great Britain;
already considerable orders have been
booked.

The company looks eventually for
entire prohibition of the export of
pulp wood from the whole of the Do-
minion by the Federal Government and
as soon as can be, the most compre-
hensive possible prohibition of the ex-
port of pulpwood from the Province of
Quebec.

Immediately the pulpwood from Can-
ada is stopped going into the United
States, their wood would increase at
once 50 per cent. in value, and thus
materially increase their cost of manu-
facture, they would then be unable to
dump their paper on the English, Aus-
tralian and other markets, which
would then be free for us.

Why should Canadians be bemoans
of wood only? That is what the Am-
ericans want to make of us. Let us
protect our forests and water powers.

NUPTIALS.

Dr. Edgar Lemieux, ex-resident phy-
sician at the Hotel Dieu, in this city,
was married on Saturday last to Miss
Albertine Audet, daughter of Mr.
Rodolphe Audette, president of La
Banque Nationale member of the firm
of Thibault Freres & Co. The mar-
riage ceremony took place at eleven
o'clock at the Notre Dame Church,
Levis, the bride being supported by
her father, while Judge F. X.
Lemieux accompanied his son. Only
the relatives of the contracting parties
attended the wedding and the break-
fast which was subsequently served at
the beautiful residence of Mr. Audette
at Levis. Dr. and Mrs. Lemieux, who
were the recipients of a large number
of handsome presents, left on a trip
to Europe by S.S. Dominion on Satur-
day evening. Dr. Lemieux intending to
follow medical courses in England,
France and Germany during the next
eighteen months.

TO THE MEMORY OF OUR FATHER.

H. HULL.

Who Died August 22nd, 1908.

Our dear, kind father a year to-day,
From earth to Heaven was called
away:

The Saviour suddenly took him home,
Leaving us to mourn his loss alone.

Still fresh in memory are his closing
days.

When on his dear beloved face all
glowed.

And never did for a moment think,
Our dear one was so near the brick.

Death thrice laid loved ones in the
tomb.

This o'er him cast a deep, dark
gloom;

Lil's death so filled his heart with
grief.

We know in Heaven he has found
relief.

She was the idol of his loving heart,
To see her suffer and then depart.

For days he scarcely ever spoke,
This death of Lil's his dear heart
broke.

His sweet dear face we'll see no more,
He is watching for us on above
bright shore;

There with Lil he is waiting each to
greet.

God grant we all in Heaven shall
meet.

His life devoted to good works of all
kinds.

Lives fresh to-day in thoughtful
minds.

Sincere and truthful he did his part,
No hate nor malice in his kind heart.

No duty did he ever leave undone,
His crown of glory he has truly
won;

His children counselled in wisdom's
ways.

And lovingly cared for them all his
days.

Oh, father, we miss you and ever will,
No other can your dear place fill.

We know you've earned the well de-
served rest.

Asleep in God's keeping, there with
the blest.

MIRIAM JOMINI.
