PRICE: 2 CENTS.

**REV. J. R. DOBSON RETIRES  
 FROM FAIRMOUNT-ST. GILES  
 AFTER 37 YEARS OF SERVICE**

Was Inducted as the First and Only Pastor of St. Giles' Presbyterian Church in June 1894—Farewell Service Last Sunday—Rev. J. P. Macfarlane Goes to Chatham.

Rev. Dr. J. R. Dobson rendered an account of his 37 years stewardship with the congregation, when he preached his farewell sermon last Sunday morning in Fairmount-St. Giles' Church.

"I shall remain one of you," he insisted, in indicating his intention to continue as a member of the congregation. At some length he told of his many experiences with the church, with a wealth of human anecdote and personal comment.

It was in June, 1894, that he was inducted and ordained as the first and only pastor of old St. Giles Presbyterian Church. Born in Pictou, N.S., Mr. Dobson matriculated at McGill in 1887 and graduated in 1891, graduating in theology in 1894. In 1920 he received from his alma mater the degree of D.D. honoris causa.

With some feeling, Dr. Dobson spoke of the union of the Presbyterian and Methodist churches in 1925. He recalled that he led his congregation into the union and had the support of a large majority vote. The former church properties were sold and the handsome new church was built to serve as a place of worship for the great newly-formed family.

Dr. Dobson went on to stress the value of unity and pointed out the very real feeling of the new church as proof of the virtue of the association of the two churches as one. The actual union, he said, was inaugurated by the United Church Council in 1925 and its effect throughout the Dominion has been the strengthening for the joint organization permitting of new strength without impairing the separate strengths of the component parts.

He concluded with a note of welcome to the new pastor, Rev. Burton Robinson, M.A., who preaches his first sermon next Sunday.

**Rev. J. P. Macfarlane**

Rev. James P. Macfarlane co-pastor of Rev. J. R. Dobson, D. D., since union, also bade farewell to the congregation of the church at evening service. Mr. Macfarlane is leaving to assume a new pastorate at the Park Street United Church, of Chatham, Ontario.

With feeling, he spoke of his association with Fairmount-St. Giles' congregation and said it was no easy task for him to say farewell to so many people with whom it had been a privilege to work. He recalled that it was 29 years ago that he was preparing to preach his first sermon. His

term at the church had afforded him the joy of seeing men and women of all ages banded together in a fine spirit of fellowship and, he pointed out, it had been his privilege to conduct a series of evangelistic services during which he had baptised 25 adults. It had been more than a pleasure for him to work with Dr. Dobson, he said, and he also took the opportunity of asking the congregation to give a whole-hearted welcome to the pastorelect, Rev. Burton Robinson.

**Mrs. Elizabeth Wilkinson  
 Buried Monday Morning**

Final tribute was paid to Mrs. Elizabeth Wilkinson, widow of the late John A. Wilkinson, by the many friends who attended her funeral service in the Church of the Ascension, Monday morning.

Following the service the lengthy cortege proceeded to the Mount Royal Cemetery where interment took place.

**FAIRMOUNT-ST. GILES  
 NEW MINISTER  
 HERE SUNDAY**

Rev. Burton H. Robinson Comes From Chatham, Ontario

On Sunday next the newly-appointed pastor of the Fairmount-St. Giles' United Church, Rev. Burton H. Robinson, of Chatham, Ont., will assume his pastoral duties.

Mr. Robinson will preach at both morning and evening services. The Fairmount-St. Giles' Church is holding union services during the months of July and August, with the Temple Baptist Church. During July, morning worship will be conducted in Fairmount-St. Giles' Church each Sunday at 11 a.m., and evening worship in the Temple Baptist Church at 7.30 o'clock, Mr. Robinson being in charge during July and Rev. C. G. Smith officiating during August.

Mr. Robinson graduated from Victoria College as Bachelor of Arts in 1911. He completed his theological course for graduates and received his Master of Arts degree (Toronto University) in 1912. He has held pastorates at Bervie (Bruce County), Sarnia, London, Leamington, and Chatham, all in the London conference area.

**MOUNT ROYAL SYSTEM  
 OF LIGHTING ON AGENDA;  
 PLANS BEING PREPARED**

New System Will be Adopted After Due Consideration of the Future—Plans Will be Discussed When Town Council Meets.

Plans are being prepared at present for the new lighting system which will extend over the large area of Model City in due course.

The problem of proper lighting facilities will be a major item in the consideration of the plans and specifications in preparation by engineers.

No attempt at being too hasty in carrying out this project in the Town of Mount Royal, considering its present necessity has been made, but rather, the Town shall have recourse only for the future expectations of their plan, which it is hoped, shall not be found lacking in any way, when the present plans are accepted and carried out.

The system when installed will be modern in every degree and will provide same street illumination as found in big central cities.

**Sub-Station Secured**

A portion of the garage located at the corner of Laird and Kenora streets has been secured as a sub station for the system. All the electrical apparatus required, such as switchboards, reducers, and various other controls will be housed in the station where sufficient space will be provided for this equipment.

**Not Decided Yet**

No definite date has yet been decided for commencement on the lighting system until plans already under consideration will have been fully drafted and accepted by the Town. In this way the matter of saving as much expense as possible by revision or deductions can be carefully attended to, and citizens directly interested will be able to voice some suggestions when the Town Council meets to decide upon the undertaking.

**Their Majesties Attend Service In Ancient School Chapel**

This picture was taken when King George and Queen Mary attended divine service in the chapel of Eton, England's famous boys' school. Their Majesties can be seen walking through the ancient archway with the school boys of Eton with their tall hats and the choir boys forming a guard of honor.

**NEW YORK CAR SKIDS  
 INTO TRAMWAY DITCH  
 ON PARK AVENUE**

More than twenty-five street cars were held up for nearly an hour on Park Avenue near Mt. Royal shortly after 11 o'clock last night when a tourist car skidded into a tramway ditch. The car bore a New York license plate 2C-62-55, and the occupants whose names were not divulged lived on Second Avenue, N.Y.

Three persons were in the car at the time of the accident, but only one, a young baby of several months old sustained injuries. The child's condition was not reported as being serious.

According to a story from the driver of the car, he drove up Park Avenue from Pine along which the centre of the street car tracks are paved, but, did not notice any sign of incompleteness in the roadway. On approaching the ditch, he said, it was very dark and he saw no danger before him until it was too late. He tried to bring his car to a halt before it went into the ditch, but on applying the brakes, the car skidded on the wet pavement, and got out of control.

## The Toll Bridge Nuisance

As pointed out frequently in these columns, there are only two routes from the island of Montreal that are toll-free. A motorist cannot proceed south, west, or north-west, without paying heavily for the privilege of getting off the island. The new Harbour bridge, the Victoria bridge, the bridges at St. Annes and Vaudreuil, the bridge at St. Eustache, and the bridge at St. Rose are all at the service of the travelling public only after the travelling public permits itself to be mulcted of sums varying from twenty-five cents up for each trip. It is a situation that is not equalled anywhere else in Canada. Some of the officials of the Tremholme Park Community Club came face to face with the situation while conducting an educational tour to St. John's last week. Three trucks full of children from the Park were en route to inspect the plant of the Canadian Potteries, Limited. When the trucks reached Victoria Bridge they were held up for payment of tolls aggregating nearly eight dollars. Those in charge of the party were attired in summer togs and had brought little change with them. One of the party, fortunately, had enough to meet the demands of the toll clerk, thus preventing the day from being entirely spoiled for the children. It is time the government took action to abolish toll charges on public highways.

## Possible Benefit in Delay

No one who has been watching the signs of the times was surprised at the announcement that the Imperial Economic Conference, which was to have met at Ottawa in August, has been indefinitely postponed. This change of plans is, of course, not due in any way to conditions, either political or economic, in this country. General elections are pending in both Australia and New Zealand, and consequently it would be practically impossible for both these Dominions to send representatives to Ottawa in August. South Africa, as well as Canada, has accepted the postponement as inevitable. The British government's attitude in the matter can well be imagined as mainly a feeling of relief. Mr. Thomas stated some time ago that preparations were well under way for the participation of the Mother Country in the Conference; but it is difficult to believe that they can have made any appreciable progress as things are at Westminster. Before the London Conference rose, Mr. Bennett announced that Canada was prepared to consider the desirability of accepting the quota system as a solution of the problem of the marketing of Empire wheat in the United Kingdom; but there is every reason to believe that this policy has not proved acceptable to all members of the British Cabinet. The probability is, therefore, that, in spite of the enormous difference arising out of the presence in the chair of Mr. Bennett, instead of Mr. Thomas, the Ottawa discussions might not have resulted fruitfully after all. But time works wonders, and a postponement now may conceivably mean a meeting in circumstances altogether more propitious later on. As far as this country is concerned, Mr. Bennett has taken the opportunity, on behalf of the Government, of expressing his unqualified belief in the soundness of the proposals which he made at the London Conference.

### PREFERRED BY WOMEN OF GOOD TASTE

The fine grain and glowing tone of Canada Flooring hardwoods (manufactured by the Canada Flooring Company, Limited) harmonize perfectly with the clear-cut lines and beautiful color schemes of modern interior decorations. There is also a half-inch Canada Flooring board, specially made to lay over old floors. This is a very simple operation, requiring no re-adjustment whatever to your woodwork or doors. Avail yourselves of the experience and free advice of our service department.

## City of Sheffield Finances Discussed

By ERNEST PITT

Another overseas city, the story of whose finances, in view of the general idea of depression in the Old Country, makes encouraging reading is Sheffield, famed as the home of high-grade cutlery and steel work, says Mr. Ernest Pitt in his weekly review.

Last year they showed a population of 518,000, in an area of 34,163 acres, showing that with one half Montreal's population, their acreage is larger. Evidently every one has a small garden.

They showed a net debt per head of population of somewhat over \$180 and net assets per head of \$300. The cost of running their city hall for the year amounted to \$20,000. Education, which comes under city expenditures, cost nearly two and a half million dollars, in addition to a government grant of approximately the same amount. The Health Department cost the city a million and three quarters for the year. Maintenance of parks the art gallery cost the city \$190,000 for the year. Maintenance of parks cost \$200,000. Watching, under which head come police and fire departments, cost a round million dollars.

Mr. Pitt points out that in the Old Country public ownership has proven to be very successful, which is a contrast to operation of this kind in our country.

The municipal water plant showed a net loss for the year of \$250,000, but municipal tramways showed a profit of \$500,000; municipal electric supply \$450,000 profit, and civic markets a profit of \$3,500. The municipal electric supply undertaking sells current for lighting purposes at four pence per unit and for heating at one penny per unit.

It is notable that the Health Department's expenditure included \$65,000 under the heading "Welfare of the Blind" and \$70,000 for the maintenance of baths. Care of the mentally defective cost the city \$100,000 but government grants, fees, sale of produce from farms, gardens, etc., brought in nearly \$50,000 toward this. The Lord Mayor is Charles William Beardsley, J.P., the City Treasurer, A. B. Griffiths, F.S.A.A. and the City Auditor is Chas. A. Bilbin, F.S.A.A.

### Evelyn Brent Returns to Work After Long Lay-Off

Evelyn Brent, noted screen star, returns to the Columbia lot after an absence of nearly six months, to portray the feature feminine role in the company's adaptation of William Du Bois' sensational stage play, "Pagan Lady." The play, which served as a starring vehicle for Lenore Ulric and as such enjoyed a record run on Broadway, will come to the screen as one of the company's "Specials." John Francis Dillon will direct.

Miss Brent numbers among her outstanding screen vehicles: "Woman Trap," "Broadway," "Why Bring That Up," "Slightly Scared," "Paramount on Parade," "Silver Horde" and "Madonna of the Streets."

"To ride a horse, the first thing you need is balance," says a jockey. I thought it was a horse.

### Canadian Medical Association

#### AN OLD MAN OF—!

Quite frequently we read in the newspapers an account of the death of some citizen and, as part of this account, it is said that he was an old man. Reading on, we learn that he was in his sixties.

In the eyes of many young people, particularly those in their early twenties, any person over sixty is old and ready for the scrap heap. We all know how difficult it is for the man of fifty to obtain new employment; he is classed as old in the labor market.

Is this a reasonable attitude? If it is, we can only say that the human machine is wearing out too quickly. After all, it is not the number of years a man has lived that determines the state of his body. It is the condition of his body at the present time that indicates his real age, the extent of his capacity for work, and what his expectation of life is.

We would not put into the same class all makes of motor cars, irrespective of the care they had left the factory. No, we would take into consideration, to begin with, the type of car, and even more would we consider the care the car had received since it had been on the road.

We do not start out into life with equal advantages. Some of us have stronger bodies than others. The true age of a man's body at any period of his life depends upon the type of body with which he started life and the care he has taken of it since.

This casual way of calling people old because they have reached a certain age is all wrong. It comes rather as a shock to an in-

dividual when he is made to realize that because he has had so many birthdays, he is now considered as belonging to the old age group.

He need feel nothing of the kind; he is only the age which he had made himself to be through the care he has taken of himself. Abuses and carelessness lead to premature old age, despite the occasional case that can be reported where someone had lived to be a hundred years old despite the fact that he had done everything which tends to cut life short.

There is much more interest and value in a healthy life than in a long one. Reasonable attention to right living and the avoidance of over-indulgence will increase the number of healthy years we can hope to enjoy.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

## "Empress of Britain" Claims Atlantic Speed Crown

Majestic and glittering in her coat of white the Canadian Pacific's new liner the "Empress of Britain" is shown in the above aerial photograph how she appeared under steam in the St. Lawrence, just below Quebec, after making her second trip from Europe to Canada and on which she snatched the speed crown away from the "Bremen" by making the voyage from Cherbourg to Father's Point in the record time of four days, 12 hours and 30 minutes. A sister ship, the "Empress of Japan" set up a new speed record on the Pacific last year.

### PLANNING MAY BE SOLUTION TO BACK VERANDAH PROBLEM

It is none too soon to begin to plan summer activities, particularly getting ready to make the most of the back porch during the coming hot season. Too many back porches are nothing but "catchalls" where many things are deposited because there is no other particular place to put them, many persons get no benefit at all from their back porches when with a little planning most back porches could be used as living rooms during the day and as sleeping rooms at night during the summer months.

The first requisite, if one plans to really use the back porch, is to have it well screened. The flies and mosquitoes must be kept out if the members of the family are to be able to occupy the porch at all. With the porch screened, both eating and sleeping are possible, and much of the work of keeping the house in order is eliminated.

Some furniture will be necessary, too, if the family is to enjoy the porch. By patronizing public sales or the second-hand stores one will be able to secure for a very small sum whatever is necessary. Look over your possessions and see what is lacking. If a table is needed, try to locate a table with drop leaves. This may be used as a work table and later as a dining-table. When it is not needed the leaves may be let down and it will require very little space. If it has castors it can be pushed easily into a corner until it is wanted the next time.

A wicker couch will be nice to put on the porch, for it will furnish a comfortable place on

which to rest occasionally during the day and can be used as a bed at night. Look around and purchase several cots. They will furnish places to sleep for several members of the family at night and may be folded up and placed against the wall in the daytime. Have some comfortable chairs and plenty of cushions also on the back porch. Several homemade rugs on the floor will add to the appearance of the place also. If the housekeeper uses an oil stove this may be placed on the back porch if one is careful to select a place where the wind does not interfere too much.

Another recommendation for living on the porch as much as possible during the warm weather is the fact that such a place will be easily kept clean. Pour several pails of water onto the floor and scrub it around to wash off the dust. If this is done in the afternoon it will help to keep the place cool. It is nice to have some vines along the side of the porch, especially if it faces the west, and there are no trees to furnish some shade.

For the person who cares to do a little planning and make a few changes from her ordinary plans the work of housekeeping may be greatly simplified. This will allow extra time for the extra work that always comes with the summer and also will provide a little time for a rest every afternoon, which each housekeeper should have.

### MacVicar Memorial Christian Endeavor

MacVicar Memorial Young People's Society of Christian Endeavor will open house during the summer and will enter upon an "Attendance Contest" after next week. Monday night, July 5th will be Canadian Patriotic Night and will be open to all young people wishing to spend a pleasant hour in a suitably cool hall.

### Sunday School Picnic Last Sat. Successful

The Sunday School picnic of MacVicar Memorial held last Saturday was an unqualified success in every way. The day throughout was ideal and the Chambly Canton grounds exceptionally good. The long list of races and sports with the accompanying prizes and awards gave keen interest and delight to everyone.

Great praise is due to Mr. George Porteous for the management of the day and to the general secretary, Mr. C. S. Cooke for transportation.

Mr. Bob Russell in his Highland costume accompanied the bag-pipes on the train journey and on the grounds. Quite a number of the scholars joined in the march round the picnic grounds.

### Miss Sylvia Kelsey Sang at McVicar

Miss Sylvia Kelsey, soprano of Westmount sang at both services in MacVicar Memorial Church last Sunday.

In the morning the "O Lord Our God" was the title of the selection which revealed her wonderful talent, and in the evening, "Just For To-day" in an entirely new setting was greatly enjoyed by the congregation.

Miss Kelsey will assist in the choir work during the month of July and will sing on Sunday evening at the seven o'clock service.

Miss Kelsey has had an exceptional advantage in her course of vocal experience. In choir work she assisted in Christ's Church Cathedral and more recently in Dominion-Douglas, Westmount. Her work abroad included advanced studies in London, England and at Rome, and on her return took part in the performance conducted by Edward Johnston during the past season.

### FORMER KINGS LEAVES THRONES WELL FINANCED

Paris.—The dethroned rulers of the world may be suffering from political ailments and a few physical derangements, but the pangs of hunger and want are not gnawing at their vitals.

Afonso XIII, last of the exiled monarchs, according to an English estimate of the Bourbon fortune, is \$10,000,000 to the good. Another \$10,000,000 is stacked up as a counter-balance for the jewels of his wife, Queen Victoria.

Ex-Emperor Wilhelm II, according to a French estimate, heads the list of wealth for the "has beens," and the Chinese emperor, who is only 26, is at the bottom of the money ladder, with only imitation jewels in his strong

box. At one time the ex-kaiser is said to have possessed a personal fortune of \$10,000,000 stored away in German and foreign banks, and the far-reaching lands of his native estate piled up another \$125,000,000. Wilhelm has been paid almost \$75,000,000 as an indemnity for property confiscated by the Reich.

### Manuel, Mere Pauper

England shelters the exiled Manuel of Portugal, who is not considered exactly a pauper with only \$3,000,000 in personal fortune and a republican pension of \$8000 a year. He was prohibited, however, from departing with more than his own wardrobe, which comprised 58 trunkloads of wearing apparel, when he went away in 1911. In 1926 he was permitted to transfer 417 large packing cases shrouding his noblest ports, sherris, palace furnishings and a fine collection of arms.

The dangerous period for pedestrians, it is said, is 45, but around here it's just as hazardous at 5.15.

## Salad Recipes Available to Householder are not Always Practical

Housewife Should Follow Recipes Carefully if She is Not Satisfied With Her Creative Powers — Imagination Should be Allowed to Have Full Play in Making of Dishes.

There are literally thousands of salad recipes that have been made available to the home cook. Not all of these are practical for service in the home, but so many of them are that the hostess need never want for a salad idea for every occasion. If she is not confident of her own creative genius, she should follow a good recipe carefully. But if she has an ingenious and artistic nature let her improvise her own salads. My advice is, if she has an imagination, give it the reins and let it run fancy free. Most charming of salads are those that express the mood of the truly imaginative soul.

### Consider Meal

When we are planning to make or create a salad we need to consider the meal and the time of the day at which it is to be served. A dinner salad should tread lightly. It is the interlude between two of the heaviest courses, so this salad needs to be a welcome intermission. It plays the role of stimulating the appetite for a greater appreciation of the remaining course. The cucumber with its pale translucent greenness, endive of both varieties and its cool, pleasing bitterness, and blanched or delicate green lettuce with its crisp and succulent leaves served with a simple dressing make perfect dinner salads.

For the luncheon we may choose something more substantial and a fancier, more complicated dressing. Also a more exquisite garnish is permissible and necessary. Since the salad constitutes one of the heartiest courses in the luncheon we may go to the limit without fear of breaking any dietetic rules. Mayonnaise dressing with whipped cream and cream cheese combinations are more in order for luncheon salads than French dressings.

### Care in Mixing

Once we have made a choice of what our salad shall be we are next concerned with that most

vital process of mixing and serving. Unless a salad is properly combined and unless it is served at the proper time it cannot give the satisfaction it should. A salad is one of the most perishable of foods. Therefore it must be combined with care and it must be served with dispatch because green vegetables soon wilt and vegetables quickly oxidize and shrivel.

To serve a salad on a wilted or rusty leaf of lettuce and on a warm plate is like an unsightly splotch of ink on a perfectly composed and beautifully written letter. The greens which are used for the base of the salad such as lettuce, celery and raw spinach should be perfect in shape, fresh, crisp and free from all dirt and imperfections.

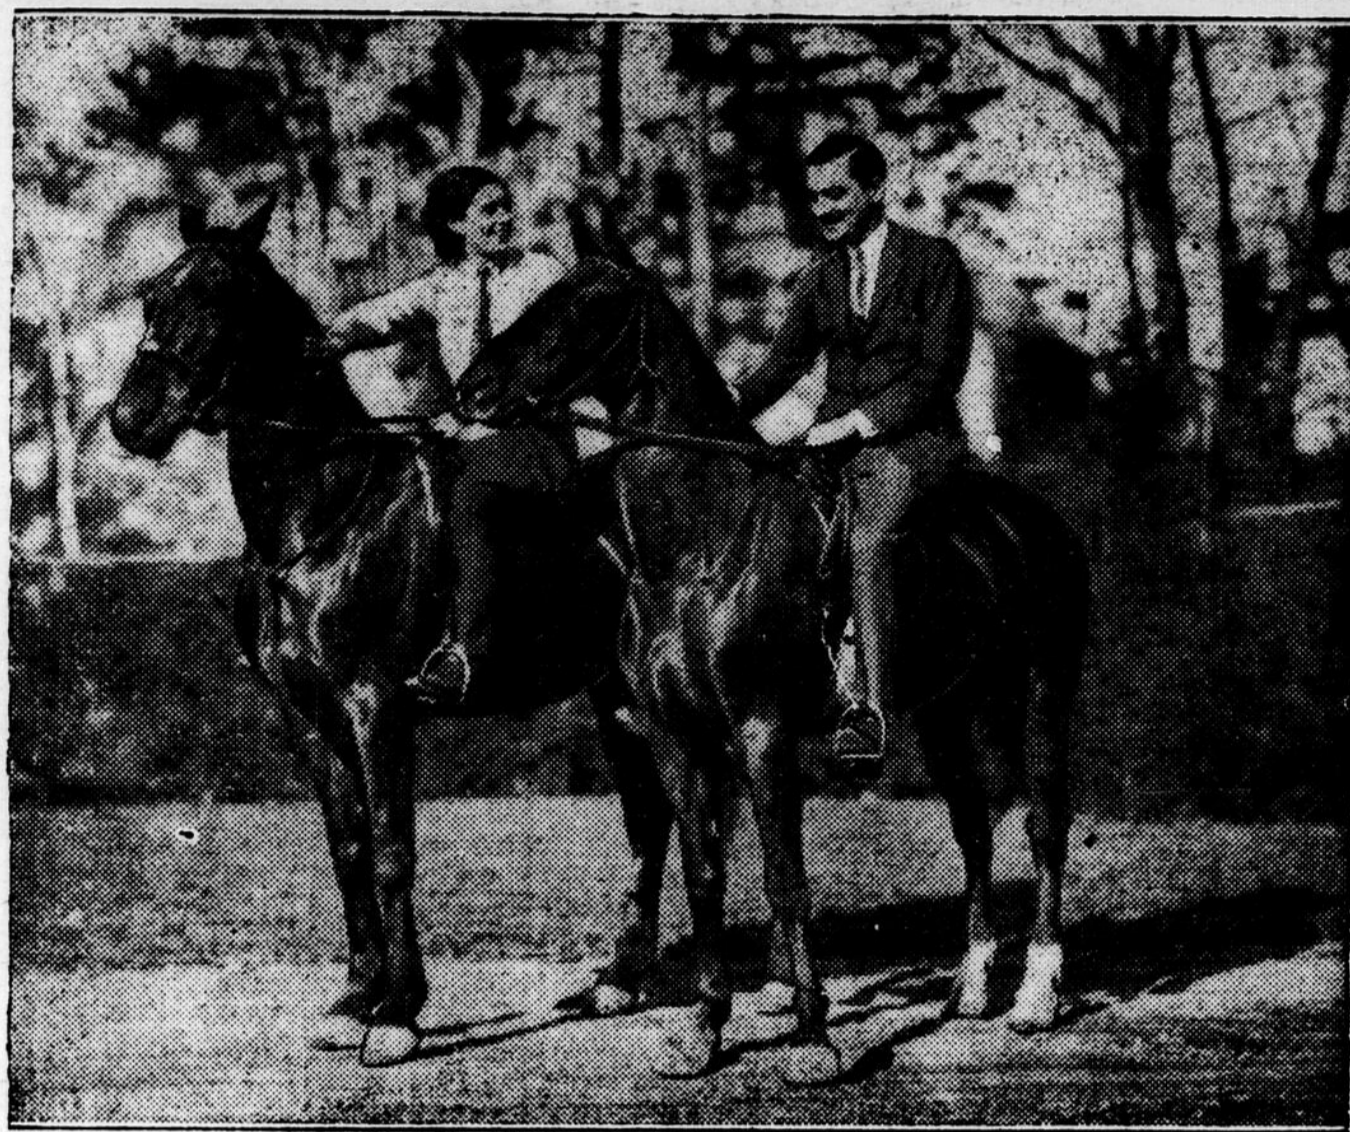

### Wash Vegetables

Green vegetables for salads should be washed clean in cold water. If they are wilted or limp they should be left to stand in cold water but only long enough to become crisp. They then should be removed from the water and wrapped loosely in a cloth and put in the refrigerator to keep cold.

Raw fruits for salad should be peeled just before they are needed for the salad, then served immediately. If a number of fresh fruit salads must be made up and it is necessary that they stand for a little while, the fruit should be dipped quickly in lemon juice to prevent discoloration. Canned fruits should be freshly opened and left in the syrup until only a short time before they are used. When needed, drain well and if it is necessary for the fruit to have a dry outside surface, pat it dry with a clean cloth or a clean piece of absorbent paper.

### Plates Should be Chilled

Vegetables should be diced, julienned, or grated just before they are required for use. Salad dressings may be prepared and plates may be chilled in advance. Fresh berries may be washed, drained and hulled and put in the refrigerator. Garnishings may be

Early season guests at the Seigniory Club, Lucerne-in-Quebec, were Miss Diana Kingsmill, daughter of Admiral Sir Charles Kingsmill, Ottawa, and Christian Gross, Esq., second secretary of the United States Legation, Ottawa.

made ready and put in the refrigerator. With ingredients and equipment ready, it does not take long to assemble a dozen or so salads.

When it comes to the assembling of ingredients, salad materials should be handled with the care of rare china. No heavy handedness here. Lightness of touch comparable to the artist retouching the delicate lines of a masterpiece is one of the essential qualifications of a good salad maker. Many a salad has been ruined by cooks who are clumsy.

## SOCIAL

Mr. and Mrs. A. L. Lefebvre, of Outremont recently returned from their honeymoon, visiting New York, Atlantic City and Pennsylvania. They are now residing at 1277 Bernard Avenue, Outremont.

The marriage took place at half-past eight o'clock last Tuesday morning in the Chapel of St. Germain, Outremont, of Suzanne, daughter of the late Lieut.-Col. Pierre Bisailon and of Mrs. Bisailon, to Mr. Louis Bergevin, son of Mr. and Mrs. Achille Bergevin. The Rev. Father Desjardins officiated at the ceremony. The church was effectively decorated for the occasion with pink and white peonies and ferns. During the Mass a musical programme was rendered by Mr. J. Mondy. Mr. Bergevin acted as witness for his son.

The bride, who was given in marriage by her brother, Mr. Lefort Bisailon, wore a Chantai model ensemble of hussard blue, a large blue mohair picture hat in the same tones, and matching crepe slippers. Her bouquet was composed of Columbia roses. She was unattended.

Mrs. Bisailon, mother of the bride, wore a navy blue crepe en-

semble, and a black baku hat caught with an aigrette; her corsage bouquet being composed of Talisman roses and sweet peas. Mrs. Bergevin, mother of the bridegroom was gowned in platinum flat crepe with a black hat, and carried a bouquet of American Beauty roses. Mrs. O. Faucher, grandmother of the bridegroom, wore black georgette, baku hat, and a corsage bouquet of violets; Miss Pierrette Bisailon, sister of the bride, an ensemble of reseda green and white, and a natural colored panama hat; Miss Diana Bergevin, sister of the bridegroom, a gown of white crepe marocain, a French straw hat, and a corsage bouquet of red roses; Miss Olga Bergevin, another sister of the bridegroom, a canary yellow ensemble with a black straw hat, and Miss Jeanne Bisailon, sister of the bride, powder blue crepe with a matching hat, and carrying sweetheart roses.

Following the ceremony, a reception attended only by relatives, was held at the residence of the bride's mother, on Maplewood avenue, where the rooms were decorated with flowers of the season. Later Mr. and Mrs. Bergevin left by motor for a trip to the Lower St. Lawrence, the bride travelling in a brown wool ensemble with a brown felt hat and shoes to match. They will reside in Montreal on their return.

### Little Cakes on Picnics, Found Very Suitable

The following recipes will produce little cakes that will be found delightful for the picnic lunch or porch supper.

#### Lemonade Jumbles

Beat 1-2 cup of butter to a cream; gradually beat in 1-2 cup of sugar, 1 egg, beaten light without separating, the grated rind of a lemon and 1 1-4 cup of flour. Put the mixture into a cookie press and press on to a buttered baking sheet in rings or figures; or, drop in small spoonfuls on buttered baking sheet. Bake in a rather hot oven—375 to 400 deg. F., to a delicate brown color.

When the jumbles are "dropped" they should be slightly flattened with the back of a spoon.

#### Hermits

One-half cup shortening, 1-2 tea-spoon salt, 3-4 cup brown sugar, 1 egg, 1-4 teaspoon baking soda dissolved in 1 tablespoon boiling water, 1 1-3 cupfuls pastry flour, sifted once before measuring, 1-3 teaspoon cinnamon, 1-4 teaspoon allspice, 3-4 cup chopped dates, 1-4 cup glace cherries, 1-2 cup seedless raisins.

Cream shortening and sugar, add beaten egg, dissolve soda and then flour, which has first been sifted with the spices. Add the prepared fruits, mix well, and drop on buttered baking pan. Bake in a moderate oven—375 deg. F., until delicately browned.

#### Oatmeal Hermits

One-half cup shortening, 1 cup brown sugar, 1 egg, 1-3 cup milk, 1-2 cups rolled oats, 1 cup seed-

less raisins, 1-2 cup chopped walnuts, 1 1-2 cups pastry flour, 1-2 teaspoon salt, 1 teaspoon baking powder, 1-4 teaspoon baking soda, 1 teaspoon each of cinnamon, nutmeg and ginger.

Mix and sift flour, baking powder, salt, soda, cinnamon, nutmeg and ginger. Cream the shortening and sugar thoroughly, add egg, well beaten, milk, rolled oats and raisins and nuts. Add to this the sifted flour mixture. Mix well. Drop from spoon on well greased pan about 3 inches apart. Bake in a moderate oven for 15 minutes.

#### Chocolate Drop Cakes

One and one-quarter cups brown sugar, 1-2 cup shortening, 1 egg, 1-4 teaspoon salt, 3-4 teaspoon soda, 1-3 cup sour milk, 1 cup chopped walnuts, 2 squares bitter chocolate, 1 1-2 cupfuls pastry flour.

Cream shortening and sugar, add egg, well beaten. Sift dry ingredients together and add alternately with the sour milk. Beat in the melted chocolate and add chopped nuts. Drop by spoonfuls on an oiled baking sheet and bake in a moderate oven (375 deg. F.) for 7 to 10 minutes. Slightly less flour will be required if bread flour is used.

#### German Cookies

One-half cup butter, 4 table-spoonfuls sugar, 3 ounces ground almonds, 1 teaspoonful grated lemon rind, a few grains of spice and 1 cup flour.

Beat the butter to a froth, beat in the sugar, add the almond, the lemon rind, spice and flour. Stir well. Make into little round balls the size of a walnut. Press them into little round tins. Make a round hole in the centre and fill with currant jam. Roll some of the dough to make it like a thick cord. Curl this on the top of each jam filling. Brush with beaten egg yolk and bake in a fairly hot oven, 375 deg. F.

#### Maple Nut Cookies

Beat the white of one egg until stiff. Add very gradually, while beating, 1 cupful sifted brown sugar, two or three drops of maple flavoring, then fold in 1 cupful pecan nut meats, chopped very fine. Drop from tip of spoon at least one and one-half inches apart on a buttered and floured baking sheet, and bake in a slow oven until lightly browned.

Delicious with the early summer fruits.

An Emporia, Kan., druggist says he sold 32 miles of chewing gum last year, which should have been more than enough to take care of all the theatre seats.

Some men get credit for being good providers when they have only one car for the whole family.

## MRS. A. MACPHERSON BURIED TUESDAY

The death occurred last Saturday morning of Mrs. Annie Cameron Macpherson at the home of her daughter, Mrs. Sheldon W. Warner, 5731 Hutchison Street.

Mrs. Annie Cameron Macpherson was born in Lancaster, Ontario on August 27, 1844.

Mrs. Macpherson was the widow of John Angus Macpherson, son of Duncan Macpherson, also born in Lancaster, and the daughter of the late Captain John Macpherson of Lancaster, and Catherine Cameron of Fairfield, Summerstown. She was the sister of the late D. M. Macpherson of Lancaster.

Both families of Macphersons and Camerons are of the old pioneer stock of Canada, who settled in Glengarry county. The "Fairfield" Camerons were United Empire Loyalists, who sacrificed their homes and possessions in the Mohawk Valley, N.Y. State, and came to Glengarry, their progenitor being John Cameron (called "Wise") of Fairfield, an officer in the British Army, of the direct line of the Camerons of Lochiel in Scotland.

On the Macpherson side she is descended from Alexander Macpherson and Lillias Macpherson, who came to Glengarry in 1801 from Kingussie, Scotland, with his sister Margaret Macpherson, settling in that part of Lancaster known as the 2nd concession. Alexander Macpherson was of the family of the "Cluney," chief of the clan.

Mrs. Macpherson is the last of her generation of the line of Alexander Macpherson, leaving two daughters, Mrs. Mabel Macpherson Warner of Montreal, and Mrs. Alberta Macpherson Costello of Brooklyn, N.Y., and one son, John C. B. Macpherson of Vancouver, B.C., as well as ten grandchildren.

A number of years of Mrs. Macpherson's early married life were spent in Cowansville, St. Johns, Que., and Montreal, her husband predeceasing her in Montreal in 1887.

The funeral service was held at Jos. Wray and Bro., Mountain Street, on Monday evening and interment took place Tuesday morning in Lancaster, Ont.

The motor car has brought into existence a new race of human beings, who go into the country, not because they love the country, but because they love their cars.

## MACKLOVITCH FREED FROM ALL BLAME

### Accidentally Shot Michael Heller of Outremont

A coroner's jury Tuesday morning exonerated Manuel Macklovitch, from blame in connection with the death of Michael Heller, student of Arts in McGill University, living at 32 Joyce Avenue, Outremont, who was accidentally shot at Val David, Que. 10 days ago.

Macklovitch testified that he was shooting at a tin can which he had placed at the base of a small hill. In all the time he was shooting he said he saw nobody in the vicinity. Then on a roadway a few hundred feet away, he saw some people running towards a man who had collapsed. He went to the scene and helped the victim into an automobile which took him to Ste. Agathe. The witness said it was only the next day that he read that a man had been fatally shot in the forehead at Val David, and realized that it was he who had done the shooting. He immediately reported to the Provincial police.

Several witnesses testified but none saw the actual shooting and admitted that there was a mound between where Heller was found and the place where Macklovitch was practising.

The reason executive ability is scarce in the ranks is that it doesn't stay there long.

It is better for a man to forgive an enemy than to take a sound thrashing.

## COMRADES HONOR REV. W. D. MURPHY

Comrades of his railroading days when he worked as car checker and record clerk of the Canadian National Railways at Montreal, joined in honoring last week Rev. W. D. Murphy, C.S.S.R., who was ordained at Woodstock, Ont., on June 14, and who said his first Mass at St. Raphael's, Outremont on the 21st.

The function took the form of a dinner at the Queen's Hotel, under the joint chairmanship of S. J. Murphy and L. G. Sandison, and nearly one hundred former railroad associates of Father Murphy were in attendance.

The newly-ordained priest was a car checker and record clerk on the Canadian National in Montreal from 1918 to 1925 when he resigned to study for the priesthood. Felicitations were expressed on behalf of the gathering by A. A. Gardiner, assistant general passenger traffic manager; R. C. Johnston, terminals superintendent; R. B. Corrigan, assistant superintendent of terminals; D. McGrath, terminals trainmaster, and by Rev. Fathers Byrd and Mayall, and were suitably replied to by Rev. Father Murphy.

The paradox of capitalism is that social wealth consists in the expectation of sharing in a cake which in fact is never cut.

The whole trouble with the Russian Communistic plan is that it ignores the factor of human nature.

## Tour the West Indies

40 days of travel  
14 ports of call

Six weeks of luxurious cruising in tropical seas, visiting Bermuda, St. Kitts, Antigua, Guadeloupe, Dominica, Martinique, St. Lucia, Barbados, St. Vincent, Grenada, Trinidad, Demerara, with time ashore every day or two at colorful island ports (some rarely visited by tourists) by the comfortable ships of the Ocean Dominion line. Fast diesel-engined ships free of smoke and dirt. Spacious window-lit staterooms with two lower berths only in each; bathroom between each two staterooms. First class cuisine and service.

## OUTREMONT LACROSSE TEAM LOSE CLOSE CAME TO OKA INDIANS

Heavier Home Team Celebrated Dominion With Spectacular 8 to 5 Victory—Tieushaw Scores Trio of Counters—Langevin and Brisebois Star for Visitors.

Oka, Que.—(By H. W. Sylvester)—Dominion Day was more than just a holiday in Oka for the numerous spectators, who gathered from countryside and town to see the Outremont lacrosse team meet the Indian boys of Oka in a hard-played, swift-moving contest, which finally wound up with the defeat of the visiting team by a score of 8 to 5.

The victors, mainly comprised of Indian players was heavier manned than their opponents, and in this way gained considerable advantage for a win.

Outremont began well and in the early minutes of the game were rushing the Okians around the field in prolific fashion. R. Langevin was up in opposite territory following Marcel when the first counter for Outremont was registered. He took a pass from Marcel and fired into the corner net.

Later, as Outremont continued to make a better showing against their opponents, many fine shots went wild. Webster took a perfect pass from Slattery and was right in on the Oka nets when he slipped and the shot went amiss. A second or two later Brisebois after an assist from Fink sent a fast shot-arm drive, and it passed Angus for the second goal. Brisebois' efforts to score were loudly cheered by spectators who were short-breathed for an instant watching the player's movements until the tally was made.

No effort was lost by the Oka squad to raise the score for their team in retaliation for the two of the opposite team and they plunged into heady play. Tieushaw attacked vigorously in the lasting minutes of the first session, being himself a heavily built, fleet foot runner, and succeeded in making the first counter for his team after many close swings upon the Outremont nets. No sooner had play got into ac-

tion again than the team hurled another brickbat at Outremont when N. Jacobs went through to even the score. It was a goal well earned by Jacobs who stick-handled his way to Kieran who could not stop the whirling missile shot by the Oka brave.

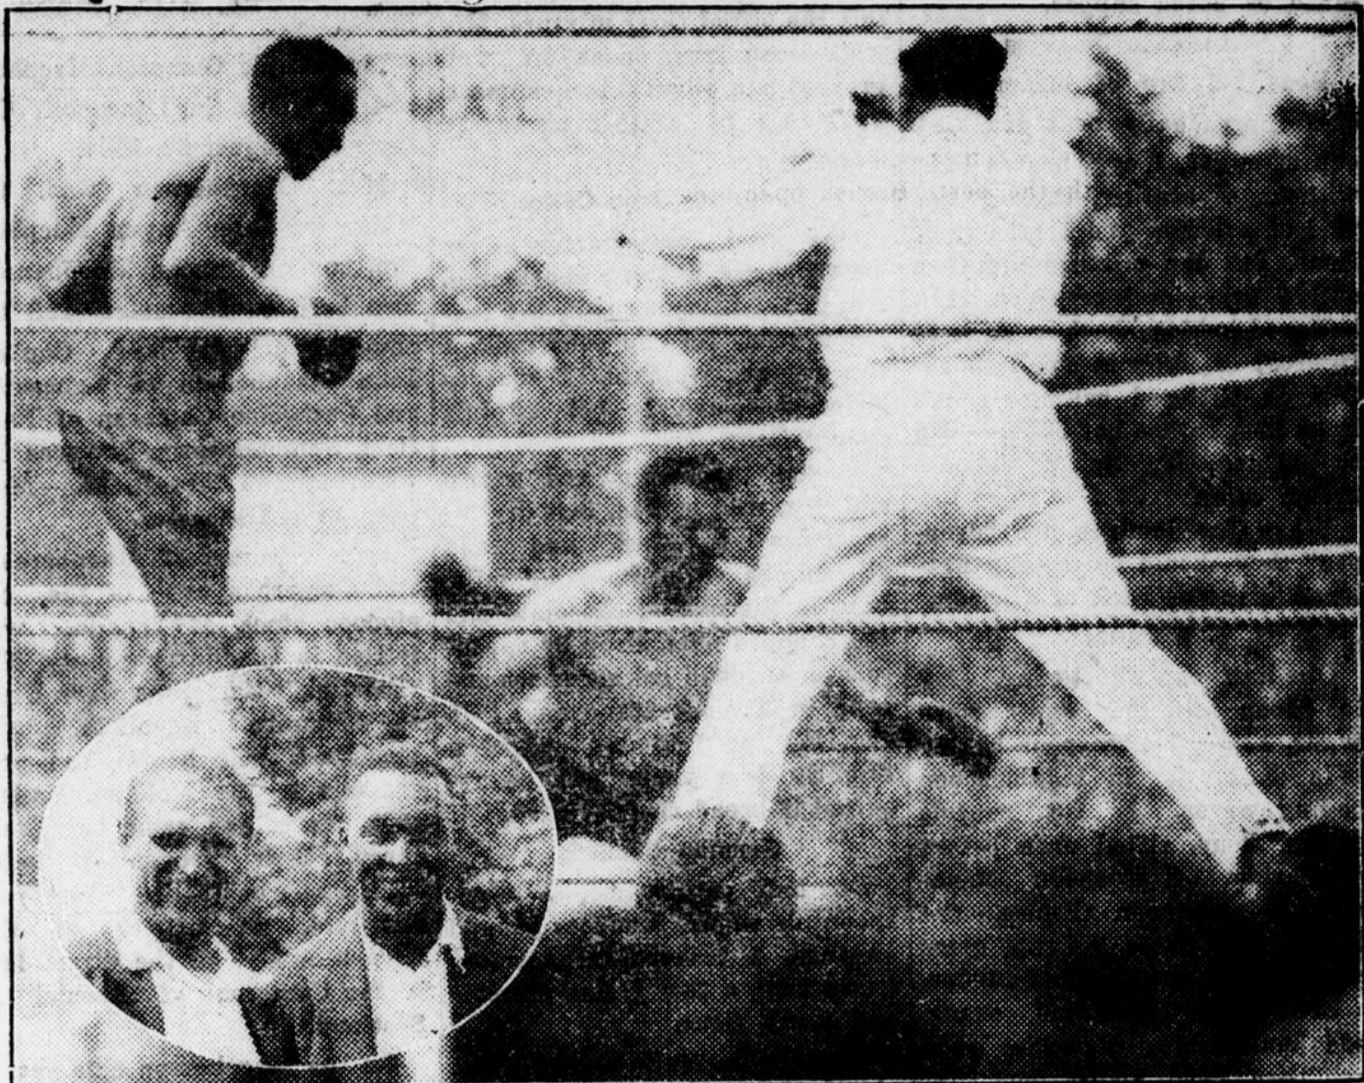

### Sensational Goaling

The biggest feature of the second period was the sensational goaling on both teams. Fast shots bombarded either goalies and the test of endurance by them was well marked by their successful attempts to save the score. Kieran was kept unusually busy and performed brilliantly. Close ones and far ones were peppered at him, but he repelled the ball ably and fearlessly. Somehow, the challengers gained better control of their combinations in this set, though playing rather haphazardly at times, but Outremont were slow in realizing this. The only thing they did perceive, and with bitter protest was the fact that Oka permitted an extra man to play when the teams should have been even in number. One goal was believed to have been scored by this extra player while on the field uncalled, but the referee overruled this assertion, claiming that he had no such knowledge of the additional man.

At this stage of the game when both scores balanced, the dash for victory seemed well in the Indians' hands. They staged a well-formed series of attacks upon the Outremont nets, and converted the latter team into strongly defensive playing. The ball was hurled far and wide of their nets, but Lecoq outguessed Kieran on two occasions by a margin of two minutes to score two goals in succession.

Outremont did not seem very much disheartened by this double reprisal, and put up a hard fight to retaliate before B. Jacobs

## Canadian Heavyweight Makes Phil Scott Lie Low

The two pictures above mark the beginning and ending of the short meeting between Larry Gains, the Canadian heavyweight star, and Phil Scott, British heavy and one-time seeker after world's honors. The picture insert shows Scott (left) and Gains when they met at the weighing-in machine in the afternoon, while the larger view shows the Englishman knocked out by Gains in the second round of the much-heralded fight, in the evening.

slammed in the fifth marker.

### Indians Have Edge

The third period saw a no better chance for victory by Outremont in view of the three goal margin for Oka, than did the latter's chances appear in the early minutes of the game when Outremont salted a two-goal lead against them.

Several hundred spectators had apparently satisfied themselves by this time of the turning qualities of the game, and being mainly composed of relatives of the Oka team and many residents there, they became more content to remain for the end of the game, in spite of the severe warmth of the weather. However, their point of observation was more enticing by the cool shade of the pines which surrounded the grounds. These pine trees I mention cover an immense tract of land over hill and dale, and of which forestry experts in Europe declare there is no such forest of pine trees elsewhere in the world. The lacrosse field which opens a breach in this forest of such trees is, in nature, a perfect replica of the ancient amphitheatre only much more sheltering.

### Oka Wins

Fink was credited with excellent performance during the game, already holding an assist

with Brisebois' counter, and several times startling spectators with hard driven shots at the Oka nets. His work especially in attacking lent valuable aid to his side in suppressing the efforts of the rival team.

The fourth counter for Outre-

mont by McDonough was quickly repudiated by Oka, who again slashed this one for another through Etienne.

Langevin sent the ball home to the Oka nets several minutes

## Tommy Armour's Long Game Similar to that of Bobby Jones

Tommy Armour is the first of the American professionals to break through where the great ones left off setting the pace for them and none will question the Black Scot's right to a place at the top of the heap as British open champion.

Except for his putting, Armour's game with the wood and iron lacks none of the Jonesian quality. At times Tommy can putt with the best, as he did at Oakmont in 1927.

His long iron play is matchless in its accuracy, although so qualified a critic as Johnny Farrell thinks Armour's best club is the brassie.

"You hear more about Armour's iron play," Farrell told me before he went abroad, "but he gets more out of a brassie shot than any other professional I know."

It is strange but nevertheless a fact that Armour's accuracy with his long shots is due to the type of swing he was forced to develop, as a result of the weakness of his battle-scarred left arm. Tommy relies on his right hand and arm, keeping the latter close to his body. His body, instead of pivoting as fully as does Jones', shifts laterally. The combination produces unusual smoothness and control.

Armour has touched off some great scoring fireworks when the mood was with him.

Tommy romped through the Western open at Milwaukee in 1929 with the blazing total of 273 for 72 holes. This was 15 under fours for the championship route. In the Canadian open

of 1930 Armour tied Leo Diegel at 277 and then whipped Leo in the play-off with a pair of 69's. That's the way Armour shoots when he's hot.

Since he turned pro six years ago last winter, Armour has compiled an imposing record of tournament victories. He shares with Jim Barnes and Walter Hagen the distinction of being the only pro to capture the British open, the American open and American P. G. A. tournaments.

He is the only pro to add the Canadian open to this collection.

Here's Tommy's record of major triumphs since 1927:

1927—American, Canadian, Oregon and El Paso opens.

1928—Metropolitan, Pennsylvania, and Philadelphia opens.

1929—Western open, runner-up Los Angeles and Canadian opens.

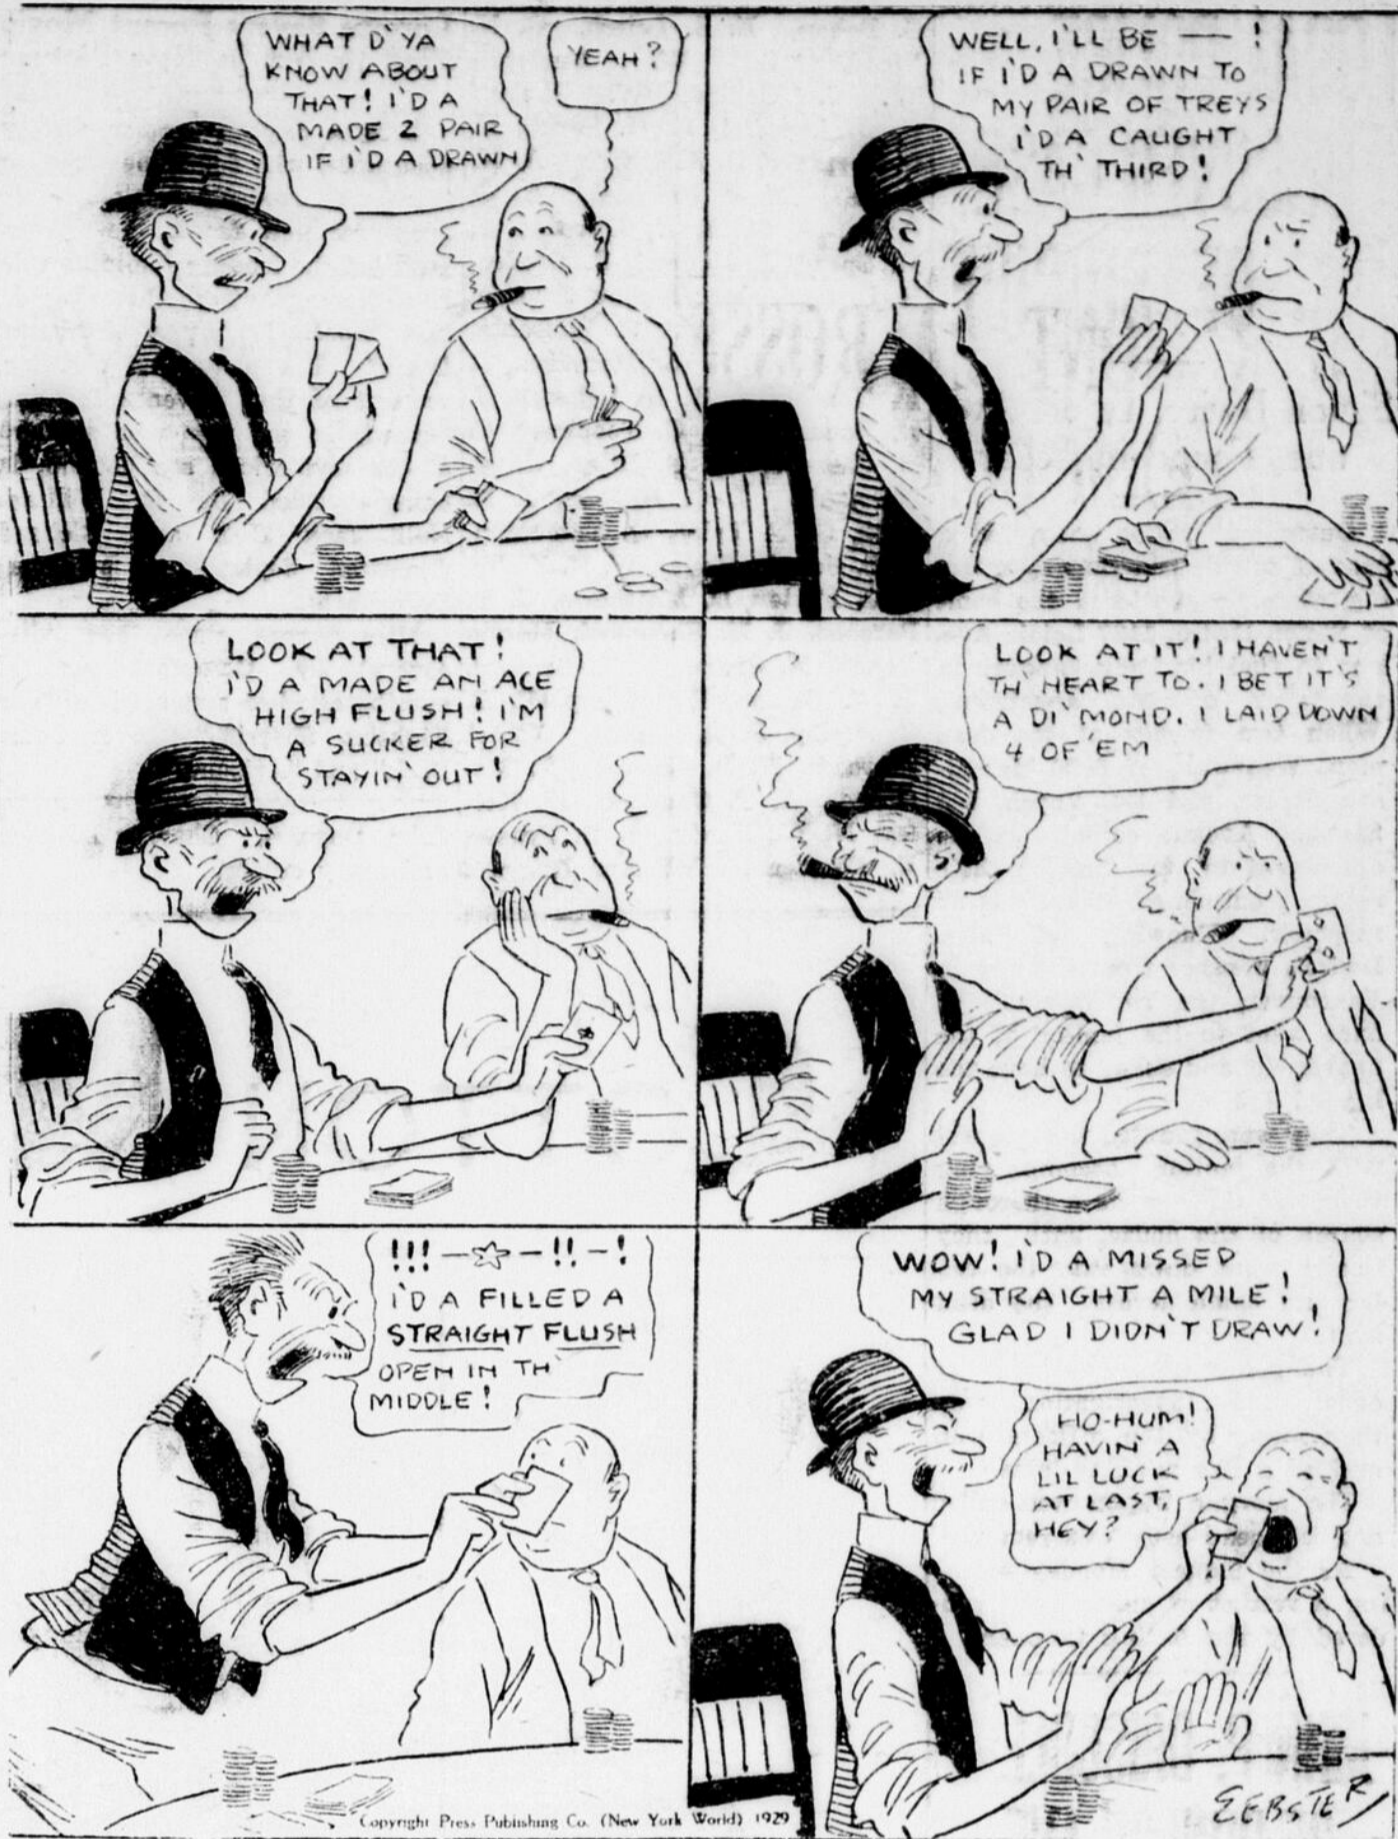

1930—Canadian open, P. G. A. championship, St. Louis open.

1931—British open.

The uproar from the bunkers and fairways over the new "balloon" ball adopted by the United States Golf association has been widespread and pronounced from the start of the year.

Perhaps the trouble was that the U.S.G.A. failed to furnish the opportunity for a year's notice of its adoption. The duffer began to howl as soon as he started hitting the new sphere and watched its vagaries in a high wind. He blamed it for real as well as imaginary causes of distress.

The brethren need not be shocked if the new ball goes "out of bounds" and stays there.

## SPORTS DAY AT ST. HELEN'S ISLAND

### Prizes Presented to Winners of Various Events

At a gathering of the Chancel Choir, Girl's Choir and Sanctuary Boys held recently at Luke Callaghan Memorial School, Rev. Father Singleton, pastor, distributed the prizes to the winners of the different competitions which were held in conjunction with the recent outing at St. Helen's Island.

The prizes were donated by Rev. Father Singleton, Rev. Father Britt, Rev. Father Byrd, Mr. P. O'Connor, Mr. and Mrs. Tod Kane, Mr. Leprohon, organist.

The following were the winners:

100 Yards. Fourth Year High Girls. 1, Cherry Dussault; 2, Gertrude Parisien.

100 Yards. Third Year High. 1, Monica Sutton; 2, Noreen Dockrell; 3, Helen Craig.

100 Yards. Second Year High. 1, Angela McDonegall; 2, E. Whittingham; 3, M. Riley.

First Year High, 1, Noreen Graig; 2, L. Deslauriers; 3, M. Griffin.

Sixth Year Girls, (A), 1, M. Johnson; 2, McLellan; 3, G. Lappin.

Sixth Year Girls, (B), 1, V. Edmondson; 2, F. Kerr; 3, G. Moran.

Choir Girls Special, B. Furlong.

Choir Boys under 12, 1, Ed. Wright; 2, Ed. Deslauriers; 3, Norbert Cronin.

Choir Boys 12 and 13, 1, Thos. Daly; 2, Geo. Barrett.

Choir Boys 14, 1, Leonard McCabe; 2, Charles Lawrence.

Sanctuary 11 and 12, 1, Allan Sears; 2, E. McGowan.

Sanctuary Boys 13 and 14, 1, Leonard DePrato; 2, Clifford Wilson; 3, Pat Dussault.

Three-legged race 10 to 12. E. Deslauriers and E. Turner.

Three-legged race girls, G. Lappin and N. Craig.

100 Yards. Choir Special, Thomas Daly.

100 Yards Special, L. Deslauriers.

100 Yards Special, boys, 12 to 14, C. Wilson and L. DePrato tied.

Do not get angry with the census enumerator; be sorry for him. He is only doing it because it's his job of work and he must go through with it.

## BOYS' DEPARTMENT AT "Y" NOW IN FULL SWING

The summer programme is now in full swing at the North Branch in the Boys' Division. On Dominion Day a picnic was held at Cap St. Jacques, the weather lending itself to a successful day. On Tuesday, July 7th, the High School and Junior boys will pay a visit to St. Helen's Island. On Thursday, July 9th, the younger boys will go to Lachine for an outing.

The Crystal pool is the most popular place these warm days, the High School and Junior boys having the privilege of using the pool once a day. The Preparatory group use the pool three times a week, the Business boys have their turn each evening at eight thirty. Horseshoes are popular since two tossing lanes have been installed at the side of the building; ping pong and billiards never lose their popularity.

The quiet boy can find his pleasure in the reading room.

## Outremont Lacrosse Team Lose Close Game to Oka Indians

(Continued from page 6)  
later and Outremont rested with its fifth and last goal. Soon after, the Indians took the fourth period for their three re-

maining goals and permanently ousted the opposing team's hopes of evening the score. Teushaw was the hero of the last goals scored for his team.

### Line-up.

Oka (8)—Angus J., Lecoq L., Jacobs L., Oke F., Jacobs B., Teushaw N., Oke W., Jacobs J., Katrine E., Nelson C., Etienne, Vincent M., White C., Jacobs L., Oke J.

Outremont (5)—Kieran B., McCartan, B., Dorais R., McCartan, J., Bohemier A., Slattery B., Fink H. S., McDonough G., Brocklehurst G., Langevin R., Marcell P., Brisebois J., Fortin, Webster J., Moquin.

Scorers — Teushaw (3), N. Jacobs and Etienne (1), Lecoq (2).

R. Langevin (2), Brisebois, Marcell and McDonough.

## LOCAL POLICE UNCOVER CASE OF SUICIDE

Simon Dwire, Lajoie Avenue, Found in Cellar

Outremont police uncovered a case of suicide last Sunday morning when they entered the home of Simon Dwire, 1127 Lejoie Avenue to find his body hanging in the cellar of the apartment. When two friends of the dead man, Wearwan, of 6026 Hutchison Street, and Ed. Vnysh, 806 Stewart Avenue called at his apartment to visit him on their return from church, there was no response. Knowing of Mrs. Dwire's absence from the city in Vancouver, the two youths at once went to the janitor of the apartment and asked to have the key of Apt. 8.

They were granted this request with the janitor accompanying them, all three made a thorough search of the house, until they finally went down into the cellar and came across the dead man.

The police were notified at once, and investigation was then made by the officers who arrived a few minutes later.

The morgue wagon was called and the dead body was removed.

At the inquest Monday morning a verdict of suicide was rendered by the Acting Coroner.

## JOHN P. DRISCOLL OF DUNLOP AVE. BURIED ON SAT.

Was Chief of Car Accounts of Canadian National

Numerous mourners gathered last Saturday morning to pay a last tribute to the late John Patrick Driscoll, of 785 Dunlop Avenue whose death occurred at his residence last week.

The funeral service was held in St. Raphael's Church where Rev. Father J. O'Rourke officiated and the parish choir sang the Perosi-Yon funeral mass. Interment was made at Cote des Neiges cemetery. Mr. Driscoll is survived by his wife, formerly Miss Annie MacLeod, a son, Fred M. Driscoll and two sisters, Mrs. O. J. Ahearn and Mrs. C. Hillier. At the time of his death Mr. Driscoll was chief of the car accounts department of the C. N.R. and had been connected with railroads in Canada for over 50 years, entering the service of the Grand Trunk Railway when he was a boy. He was a member of the Canadian Service Committee and the American Railroad Association, and also of the Canadian Order of Foresters, Court Laurentide No. 651.

The pall bearers were D. Crombie, chief of transportation, C.N.R., H. W. Balkwill, car accountant, C.N.R., J. D. Altimas, general superintendent of car service, C.P.R., P. S. Newton, C.N.R., J. T. Foster and J. MacRae.

Among those present were: N. S. Jordan, F. H. Lewis, F. W. Case, E. J. Collins, F. E. Carlin,

## Loretta Sayers Recent Movie Find to Act in New Picture

Loretta Sayers, former society debutante, who found her way to the screen recently in Columbia's quest for new faces, has been awarded the leading feminine role in the company's forthcoming deluxe 'Special,' "Fifty Fathoms Deep." The picture, a thrilling account of the adventures and hazards of the men who salvage at the mysterious sea bottom, is being directed by R. William Neill. Jack Holt and Richard Cromwell depict the principal male parts.

Miss Sayers, since her 'discovery' by Columbia several months ago has appeared in "The Fighting Sheriff," "Lover Come Back" and "Arizona." John Duggan, Charles Dickson and many others.

## Bicycle Riders Cause Local Residents Trouble

Bicycle riders in the vicinity of the terminal station in Model City have been the cause of considerable annoyance lately, because of ruthless riding over grass lawns and endangering plants.

Autoists too have chosen a somewhat soft looking parking space for their cars while enjoying a spectator's view of tennis in front of the Town courts. Police have been given strict orders to see that all trespassers on civic lawns be notified to keep off the grass, or otherwise they will be obliged to pay fines.

Help to preserve the beauty of your Town by abiding by its rules.

## Houston Branch Added to Columbia's Writing Staff

Houston Branch, noted screen writer, is the latest important name to be added to Columbia's pretentious writing staff. This

marks Mr. Branch's return to the Columbia forces after an absence of four years. He launched his literary career in 1927, when Columbia Pictures accepted his first screen story, "Pleasure Before Business."

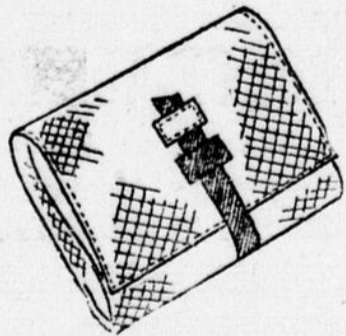

# COTTON MESH IS COOL

### Hats

A Panama Hat, whether it is banded in black velvet or in patent leather... white or colored... is flattering, indeed, when worn with a cotton frock. At \$2.95 and \$3.95.

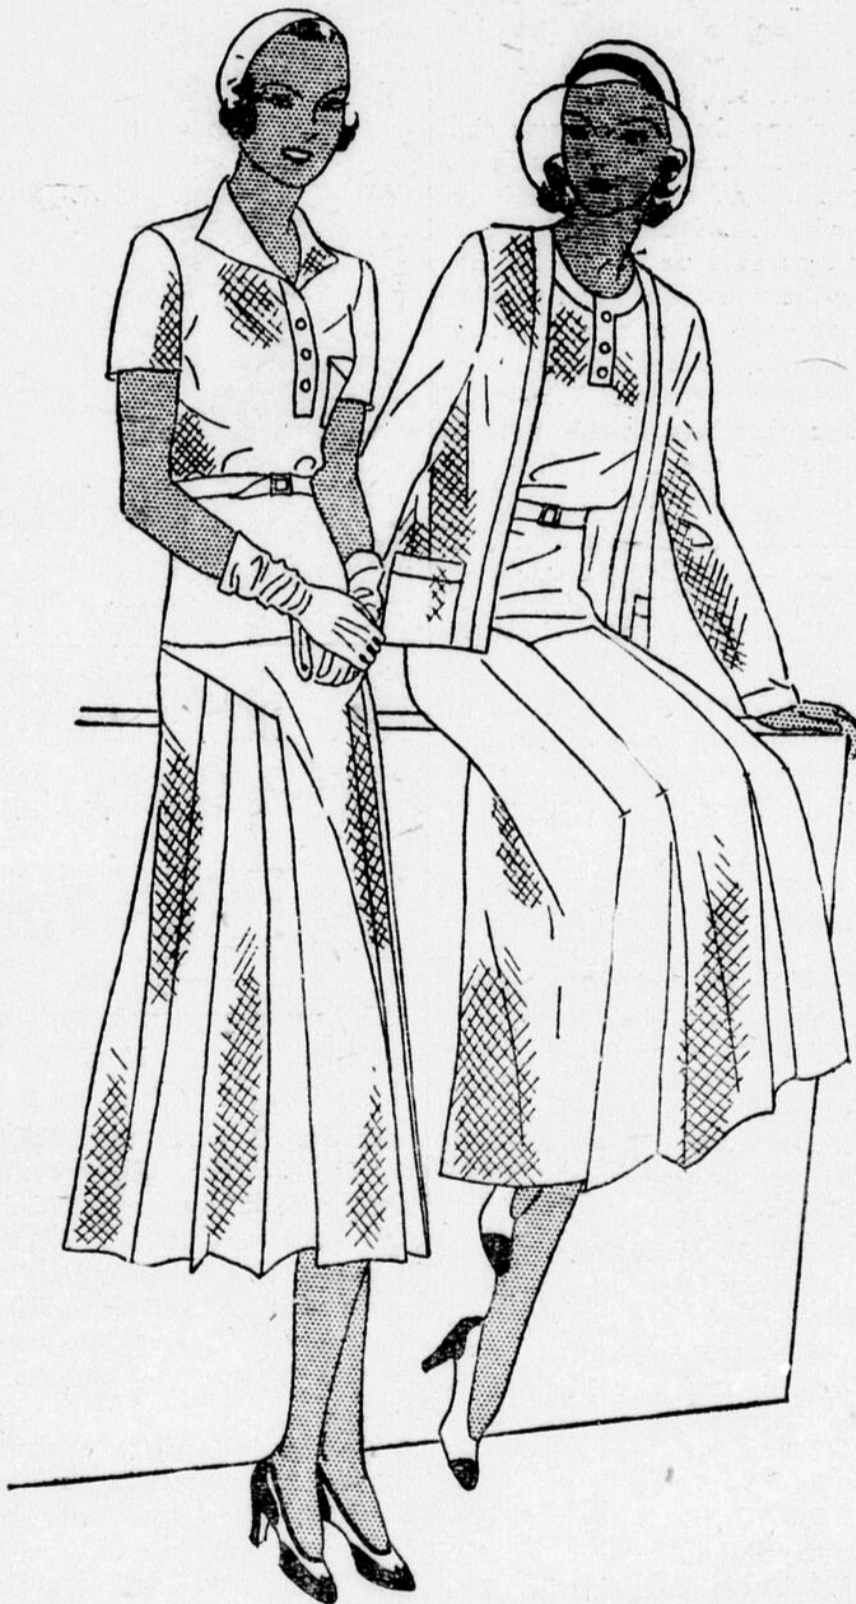

—Second Floor

### FABRIC Bags

Adapted to summery needs is the fabric bag. Light and cool... in white and pastel shades... it smartly complements the Summer costume. At \$3.50. There are many interesting Summer bags at Ogilvy's.

—Street Floor

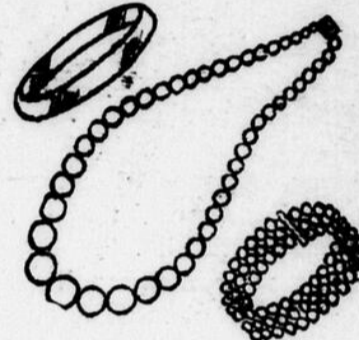

No wonder Dame Fashion insists on cotton mesh for summer sport wear. Washable and air-cooled, it is the perfect fabric for hot days.

Two delightful cotton mesh dresses are shown at Ogilvy's... both in white and pastel shades... sizes 14 to 38... at \$7.95 each.

A lightweight jersey jacket may be worn with either of these frocks smartly. At \$2.95. Others at \$4.95 and \$5.95.

—Sport Shop, Second Floor

### Jewelry

Well-chosen costume jewelry gives a smart accent to the Summer ensemble. Developed in white is a bracelet at \$1.50... a smart necklet at \$1.50... and a three-strand pearl bead bracelet at \$1.50.

—Street Floor

### Gloves

Perhaps no other accessory needs to be so carefully chosen and fitted as gloves. These in washable suede and kid come in white, grey and beige—slip-on style. At \$3 a pair.

—Street Floor

JAS. A. OGILVY'S LIMITED
