LOT OF TRAMPS KILL A CONSTABLE

Was Assisting to Put Them Off a
Train when He was Knocked Down
and Killed to Death.

Vancouver, B.C., April 19—Answering a summons for aid by railway officials Constable Lane was killed Canadian canal officials being at least seven, who had boarded the Seattle express as it pulled out on the Canadian side of Sumas. The constable boarded a southbound train and met the express two stations south of Mission. The hoboes were seated at their ease and deifying the conductor in the smoking car when the constable arrived. He at once ordered them off, but his orders were met with a volley of oaths. The constable seeing that further parlaying was useless resorted to force, and with the help of the train crew grabbed two of the men and rushed them towards the door. In the melee which followed, the constable was thrown to the floor and was lost to view. The brakeman, conductor and fireman finally succeeded in getting rid of the men, who by this time had taken up their position on the vestibule. A hasty examination of the constable on the floor revealed injuries inflicted by many feet. He died later. The three men have been arrested and charged with murder.

SCHEDULE WAS DRAWN UP

Manufacturers' Baseball League Give
Every Promise of Having a Very
Successful Season.

A meeting of the Manufacturers' Baseball League was held at the Victoria Hotel last evening, when arrangements for the coming season were definitely decided. The Ritchie team and the Rock City team dropped out of the League, but the Canadian Northern, Ross Rifle and Dominion [textile] had delegates in attendance, and these three teams will stick by the new League and play out the season. The three clubs decided to play a double schedule, and as there are many ball players among them the [text] should prove to be a most interesting one. Mr. Fleming of the Dominion Textile Co., was elected Vice-President of the League. The Manufacturers' League promises to be one of the most important factors in the development of baseball in the Ancient Capital, and in conjunction with the other leagues will no doubt afford a leading attraction among the sports of the coming summer. The schedule of games to be played is as follows:—

May.
14—C.N.Q. Ry. vs. Ross Rifle Co.
25—Ross Rifle vs. Dom. Textile Co.
June.
4—Dom. Textile vs. C.N.Q. Ry.
18—Ross Rifle vs. C.N.Q. Ry.
25—Dom. Textile vs. Ross Rifle Co.
July.
2—C.N.Q. Ry. vs. Dom. Textile.
16—Ross Rifle vs. C.N.Q. Ry.
23—Dom. Textile vs. Ross Rifle.
30—C.N.Q. Ry. vs. Dom. Textile.
August.
6—C.N.Q. Ry. vs. Ross Rifle.
20—Ross Rifle vs. Dom. Textile.
27—Dom. Textile vs. C.N.Q. Ry.

PRICE OF FOOD GOING DOWNWARD

Big Drop in Rates in the United
States—How Prices Were
Kept Up.

St. Louis, April 19—The high price of meat is due partly to fictitious competition in bidding for cattle between buyers regularly employed by Swift, Armour and Morris, and buyers employed by the National Packing Co., which controlled by those interests, according to testimony given to-day by A. N. Benn, Vice-President of the St. Louis Dressed Beef and Provision Company in the investigation of the packing companies by Attorney-General Major of Missouri. To this "competition" between concerns, ostensibly rivals, but really under the same control, the witness specifically attributed the recent price of \$11.15 for hogs. Benn said that buyers, ostensibly representing the National Company, but in fact representing Armour, Swift & Morris, frequently bid against the buyers directly employed by these firms, and thus forced up the price of meat. The benefit of this policy, which raised the cost price of raw material for the meat companies, was explained to the investigators as producing an illusion of competition in the eyes of the public.

Pittsburg, April 19—Live hogs dropped 40 cents at union stock yards here to-day. The high record, made less than a month ago, was \$11.85, and to-day's best price was \$9.40. The fall in price is said to be due to lessened consumption.

New York, April 19—The present sensational drop in the price of potatoes may mean cheaper food of all kinds. Farmers are closing out their supply of old potatoes for as little as 20 cents a bushel, which is the lowest price in many years. Other foods are also cheaper. As a result of its investigations, the American Agriculturist for April 23rd will say: "A marked decline has occurred in the prices of certain food products. If this decline continues much longer, the commissions that are investigating high prices will find their lives out of a job. Compared to the high price in wheat last year, the present market at Chicago shows a decline of 7 cents a bushel. The decline in corn from the high point of last year is 19 cents and oats 20 cents. In other words, the present wholesale price of oats is 32 percent below the highest price of last year—corn is off 24 percent and wheat 4 percent. These declines in grain are reflected in mill feeds. Wheat bran is now selling in the west at \$5 or \$6 a ton, less than previous highest quotations, a decline of 21 percent, while middlings have declined at New York points about \$3 a ton, or 12 percent. Even cotton seed meal is off \$3 to \$4, or 8 to 10 percent. Cotton oil is a fraction of a cent a pound less than in January, showing a decline of about five per cent. Potatoes have not been so low in years, wholesale prices at present being at 40 to 50 percent lower than in November last. Vast numbers of farmers held on to their potatoes until the late winter or spring markets and are now glad to get rid of their stock at 25 cents a bushel, whereas a year ago they were wholesaling at Chicago at \$1 a bushel at this time. Butter has declined 6 percent, eggs have gone off, as usual, in the spring. Live beef cattle have no more than held the high quotations of March, and hogs are a trifle off, although still very high, and prices of sheep and lambs well maintained. There has been a break in the price of hay at country points in the west; beans are also cheaper. The tables in this issue prove that current prices are higher than the values which prevailed a few years ago, but in numerous instances farmers are now receiving a good deal less than last year. Altogether, indications point that a reaction in food prices has taken place. With good crops in 1910, we may expect the price of food to consumers to be considerably lower than during the past twelve and eighteen months although we do not look for a return to the phenomenal low prices of ten and twelve years ago. Cold weather this week may do considerable damage to the fruit crop, but there is ample time for spring grains to be re-seeded wherever the springing crops have been badly frosted."

BOATS TIED UP

Sault Ste. Marie, Ont., April 19—owing to a shortage of locking facility forty boats are tied up below the Canadian canal. American lock officials are still doubtful about the time of opening their locks. They say it will be about the first week in May.

BOXING MATCHES

Boston, April 19—Young Loughrey, of Philadelphia, got the decision from Honey Melody, of Boston, at the end of ten rounds before the Armory Athletic Club Association to-night. Dave Despler, of Cambridge, and Tommy O'Keefe, of Philadelphia, drew in ten rounds.

NAVIGATION AT KINGSTON

Kingston, April 19—The steamer Carleton is at the drydock, she loaded cement at Point Anne and was on her way down the Bay of Quinte when she struck a shoal and punched a hole in her hold. A diver is examining the hull to find the damage. The steamer Belleville has left her winter quarters and towed to Garden Island by the tug Frontenac. She had a new smoke stack installed and was then towed to Swift's wharf, where the finishing touches will be put on. The Belleville will clear for Hamilton.

Some remarkable figures of the attendance of Territorial infantry at camp were given in a return issued on Monday. Thus, of 697 officers and men in the 5th East Kent (Greenbrook), 684 went into camp, of 710 5th West Kent (Bromley), 686, of 997 Post Office Rifles, 970, and of 906 6th City Rifles, 930.

New Dress Goods 75c Value for 39c

Thousands of yards of Beautiful, New Dress Fabrics in a great variety of attractive colorings and black, satisfying selection of weaves and textures, in widths ranging from 42 to 46 inches, fabrics which were intended to sell at 75c. and 80c. a yard. Purchase Sale Price, per yard.....49c.

The Quebec Chronicle

QUEBEC, APRIL 20, 1910.

THE INDIAN SCANDAL.

Canada has always enjoyed the reputation of having treated her Indian population with justice. It is a matter upon which she has frequently been congratulated by the United States, and rightly so, since the latter country has been responsible for several discreditable episodes in dealing with the redmen. However, the proceedings, which were connected with the surrender and sale of the St. Peter's reserve near Selkirk, reflect very little credit on the present administration of Indian affairs.

The facts of the case, as exposed by Mr. Bradbury in the House of Commons, are these. Through the machinations of Mr. Jackson, former Liberal member for Selkirk, Mr. Frank Pedley, Deputy Minister of the Indian Department, and certain political sympathizers of the Government, the Indians were induced to surrender their reserve as a whole, some of it being parcelled out amongst them. In justification of giving this land to them the Minister said:—

"The Indian would only sign the surrender of the reserve as a whole when he got this particular piece of land as his very own to do with as he pleased, and when he got it as his very own we had no control over him as an Indian Department or as a Government. He could dispose of it as he pleased."

This means that the Government committed the unprecedented act of giving a large area of ground to the individual Indians and thereby removed its protection from them. "This," says Mr. Bradbury, "was practically handing the land over into the hands of a few men that this whole transaction was apparently arranged for. I have no hesitation in saying, with the evidence I have before me, whether the Minister is conscious of the fact or not, that this whole transaction was engineered and arranged so that this magnificent area of land should drop into the hands of three or four men who have actually got these lands. To prove the correctness of the contention that the Government anticipated that these lands would eventually pass into the hands of the whites who were hovering around watching their opportunity, I shall quote part of a letter from the Deputy Superintendent General of Indian Affairs to the Hon. Frank Oliver. The letter is dated Oct. 26th, 1907, a short time after the surrender was completed. He says:—The placing in the market of the land to be sold, namely, 24,000 acres, will afford an opportunity long looked for of having the land available for farming and other purposes, and the issuing of patents to individual Indians will ultimately, I believe, result in a considerable portion, if not all, of the land granted to them passing into the hands of the whites."

After the surrender was secured many people in Selkirk, who realized the value of these lands, were anxious to negotiate for portions of the reserve. However, there arrived a letter from Ottawa to warn the general public that the Indian could sell nothing until he had his patent. Everyone who approached the Indian agent was told that nothing could be done until the land was secured and the patents issued. There were, however, four men who were undeterred by this notice. One of these was a man named Frank, a large real estate agent in Winnipeg and a supporter of the present Government. He had been to Ottawa and interviewed some one in office. "I met that gentleman myself," said Mr. Bradbury, "on his return to Beauport, fifteen miles east of Selkirk, and we rode in the train together. He then said to me: I am going to buy these lands, I am going to take the chance, if you like to come in with me, it is all right, it is quite safe. He gave me the tip; I did not take it. He said he had been to Ottawa. I asked him whom he had seen; he did not tell me, but the result was, as is very evident from what has since transpired, that that man had the tip from the proper source. He immediately started to work to negotiate

with the poor Indian to buy these lands, he and three others. One of these was Fred Keith, a lawyer in Selkirk, a man who drew \$1,800 in fees in connection with this very surrender. Another was George Tracy, a drayman in Selkirk, who conducted one of the most scandalous transactions ever perpetrated in the west in connection with these Indians. Another was a man named Funk, an American. These four men negotiated and dealt with these Indians and bought out of 24,000 acres that the Indians had, about 18,000."

These men secured the co-operation of the chief and councillors, buying their land and getting them to give their assistance in bargaining with the other Indians for the balance of the land. They made the latter believe that they were merely advancing them a little on their land and that the rest would be paid when the patents were issued. Thus they secured land at from two to five dollars an acre, which they are selling to-day for forty and fifty dollars. The transaction was engineered for the benefit of a few political parasites. The only man who is on record, according to Mr. Oliver himself, as having requested the surrender, is Mr. Jackson, the Liberal member. The \$5,000 which was distributed amongst the Indians to secure the surrender, was sent down on the eve of the general election. The Indian agent, who not only failed to protect the Indians, but went in with the land-sharks and bought land himself, was an active organizer for the Liberals. The Deputy Superintendent-General of Indian Affairs, who negotiated the surrender, warned the general public away. When the voting on the question of the surrender took place, it was only carried by 7 votes in spite of bribery and intrigue. The surrender was illegal since only 38 per cent of the band voted for it. Clause 49 of the Indian act states:—

"Except as in this part otherwise provided, no release or surrender of a reserve or a portion of a reserve, held for the use of the Indians of any band, or of any individual Indian, shall be valid or binding unless the release or surrender shall be assented to by a majority of the male members of the band of the full age of 21 years, at a meeting of council, thereof summoned for that purpose."

THE SECURING OF THE SURRENDER.
The voting took place on this wise Mr. Jackson, the Liberal member, having failed to win over certain unwilling members of the band by offering to arrange that they should have more land, Mr. Pedley, the deputy superintendent, decided that the time had come to take a vote. A sworn affidavit alleges that he stood up in the middle of the room and said:—"We must take a vote. I have \$5,000 here in my satchel; if you vote for this surrender to-night I will distribute it among you. If you do not vote for it I will take my bag and go home, and you will not get a cent."

"These men were desperate," is Mr. Bradbury's account of the incident. "They were bound to get that surrender, and after Mr. Pedley had made that statement he said: Now the time has come to take a vote; this room is too small; get outside in the field among the rest. Two-thirds of them were outside. These men went out and before they divided the Rev. John Semmons, Indian inspector, stood forward, held up his hand, and speaking loudly in the language that the band understood, the Cree language, he said: All you that want \$90 go to that side, indicating the side on which the councillors, the chief, Chief Justice Howell and Mr. Pedley were standing, and that side was counted in favor of the surrender. Yet, in spite of these two facts, first, the statement by the Deputy Superintendent General of Indian Affairs that he had \$5,000 to distribute amongst those people, and the direction of Mr. Semmons that if they wanted \$90 they should go to one side, they only succeeded in securing seven of a majority. I have evidence here in my hand to show that non-treaty men who had no right to vote were counted amongst those favoring the surrender, and that minors, young men, also put in their votes. In the face of this evidence it must be clear to every man in this House that the manner in which the surrender of St. Peter's Indian reserve was secured shows that this was one of the most scandalous transactions that has ever taken place in the country."

There can be no misunderstanding about this \$5,000. In Mr. Pedley's letter to the Minister, he says:—"Five thousand dollars was left at the time of the surrender with the Indian Agent Lewis and Inspector Semmons to distribute to the Indians of the band. Part of this was done on the spot at the time of surrender and the balance will be distributed from time to time as the parties entitled to it appear before the agent for that purpose."

FIRE YESTERDAY.
The explosion of a lamp was the cause of the total destruction of the residence of Mr. Auguste Amyot, carpenter, at Limoilou, yesterday. The building, despite the efforts of the firemen, fell a prey to the flames. There is insurance on the house and contents.

THE CONSERVATIVE CONVENTION

And the glue over it all is, as it has ever been, with the facts of the case all twisted out of shape, whenever the organic affairs of the Conservative party are under discussion by the subsidized Liberal organs. The lie direct is the Liberal party weapon, when all other means of defence are worn out, as they are coming to be more and more every day. The Conservative convention that was to have been held in June next month has been postponed for the most obvious reasons—valid reasons that are ruthlessly trampled under foot by the subsidized ones, who claim that the Conservatives dare not hold any such gathering at the present time for fear that the divisions in the party will be made more acute and given still wider publicity. How this greater degree of acuteness and publicity is going to be had, in presence of what the Liberal organs have already been saying about Mr. Borden and his sub-leaders, is more than one can make out. To believe them, the Conservative party is already all broken up. It is quite disintegrated. There is no life in it, these same organs have been saying for weeks past. What worse than that do they want or can they expect? The fact is the Conservative convention has been postponed merely because the month was not found to be a convenient month for the holding of such a convention. It is going to be the busiest month in the year for the most of our public men since two general provincial elections are expected to be on hand during the ensuing summer. That is all there is in the postponement. In the meantime plans towards re-organization are being matured at Ottawa among the Conservative leaders, and it is expected that, when the proper time comes round for holding the convention, these plans will help to make it all the more of a success, illustrating the adage that truth is stronger than fiction—stronger than the fiction the Liberal organs have lately been subscribing to in the most flagrant way.

MUSIC AS A CIVILIZING AGENCY.

There is perhaps no city of the same size on the continent or in the world, where there is to be met a higher appreciation of the classic in music than in Quebec. We have had ample instances of this during these winter months in the large audiences which have greeted the operas and band concerts of the Auditorium. Our churches have the best of talent in their choirs and efficient directors, too, and these, with the Symphony concerts under the direction of Mr. Jos. Vezina and the recitals conducted by Messrs. Bishop, Reed and Perry, have proved the most effective means of elevating the standards of musical criticism on the part of the people. An excellent article on church music has lately appeared in the University Magazine. It is from the matured pen of Mr. D. R. Jack, of St. John, N.B.; and one would like to give the whole article for a perusal to our readers, if space were at our command. So far have we developed our musical environment in Quebec, that Alexander Pope's words have been on the lips of many of our citizens lately, namely, "Some to the church repair, not for the doctrine, but for the music there"; and Mr. Jack claims that the phrase is as pertinent and true to-day as when it was written, inasmuch as the minds of church attendants are, for the most part, as readily reached by music as by sermons. Mr. Jack's article deals with all the phases of musical development from the invention of the pan-pipes to that of the organs of wide compass which are to be heard in our Quebec churches. "Music," says Mr. Jack, "is a pure art medium, and it is both untruthful and absurd to contend that the impressions it produces are merely sensuous and evanescent. It is not alone to the cultured classes it appeals. For the poor and sick at heart, and those upon whom the care of the world press heavily, there is no more potent support than good music. It is when burdened by a bitter realization of the complex struggle forever raging between the spirit and the flesh, or when the cares and distresses of the world weigh most heavily upon us, that our minds are usually in the most receptive moods. Singers inform that, howsoever uneducated an audience may be, it is never more critical or sympathetic than when composed of the poor. Music, as much as any other of the arts, appeals less to the senses than to the mind and spirit, and its gratifications are more spiritual than sensual." Mr. Jack's article is replete with his own experiences in the churches of Europe—all of them illustrative of his subject, and exceedingly interesting. Some of our readers may still preserve their recollections of the Rev. Dr. Haweis, the poet, musician and preacher. Mr. Jack, in telling us what his impressions were of the man, when he visited his church in London. "I can see him now, small of figure and painfully lame," he says, "tolling along with a cane at the rear of the procession as it entered the church. A first glance in no way revealed the inward fire contained within that frail body of his, but to bear him preach, to listen to the beautiful liturgy of the Church of England as interpreted and arranged by him, to see the exquisite glass stained windows painted by Burne-Jones, the beautiful carvings, and the other accessories with which he had transformed an old-fashioned barn-like structure into some semblance of a modern church, was a revelation of the phenomenal ability of the man." The above quotation gives a taste of Mr. Jack's general pleading in behalf of the church environment that makes a suitable setting to the right kind of choral service and which is gradually coming into fashion in all our churches, outside of creed affiliations. Mr. Jack is strongly in favor of the surplised choir for our Protestant churches. The Methodist Church in Quebec has taken the initiative in this respect, and, when we get time, we may give a review of his arguments in favor of the innovation.

CARTER'S LITTLE LIVER PILLS.
CURE SICK HEADACHE.
Sick Headache and all the troubles incident to a bilious state of the system, such as Dispepsia, Nausea, Drowsiness, Distress after eating, Pain in the side, etc. While their most remarkable success has been shown in curing them.

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cure one of these troubles, they are worth trying.

Ache they would be almost priceless to those who suffer from this distressing complaint, but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick headaches, yet Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

SHIPPING NEWS

ALLAN LINE.
 Steamer Sicilian sailed from Glasgow on Sunday morning, 17th inst., via Mobile, for Quebec and Montreal with 177 cabin and 863 steerage passengers.

NORTH SHORE LINE.
 R.M.S. General Wolfe, Captain Belanger, left yesterday for Nantahquan and way places with passengers, mails and general cargo.

QUEBEC STEAMSHIP CO.
 Steamer Oceana sailed from Bermuda for New York at 11 a.m. yesterday.

Steamer Trinidad sailed from Bermuda for New York at 11.30 a.m. yesterday.

OCEAN FREIGHTS.
 New York, April 19.—Chartering was limited in ocean steam and sail, but a steady demand was encountered for boats. Rates were steady and unchanged in all trades. Quotations to London and Antwerp, 1d; Liverpool and Glasgow, 1 1/4d; Hull, 1 1/2d; Bristol, 2d; Rotterdam, 3 1/4d; Hamburg and Bremen, 1 1/2 pennings; cotton to Liverpool, per 100 lbs., 15c.

STEAMER FOR THE LAKES.
 A new steamer, which will be employed by the Canada Shipping Company in the grain trade between Montreal and the Upper Lakes, sailed from Newport, Mon., on Saturday last and will arrive here about April 30th. The steamer was built at Glasgow within the last year and was christened the D. A. Gordon. It is a full-sized canal boat and is bringing to this side on its present voyage a full cargo of wire.

PURCHASED TWO MORE STEAMERS.

Word has been received from London that the Canadian Northern Co. has purchased two steamships of the immigrant-carrying class from Messrs. Rubittino Brothers, the biggest shipowners in Italy, who are themselves thinking of entering the Canadian trade. The names of the vessels reported purchased are not mentioned. Rubittino steamships run to South America and are built for third class passenger trade. Running in company with the Royal Edward and Royal George, these vessels, which average 3,500 net tons, could handle all class of trade; the renamed Cairo and Heliopolis are intended primarily for first-class passengers.

ANOTHER STEAMER FOR THE LAKES.

Toronto, April 19.—The Point Anne Quarries Co., Ltd., of which Mr. M. J. Haney is the promoter, have received word from Glasgow that their new steel boat will be launched on the first of May. It will be called the Renvoyle and will be used as a grain carrier on the Fort William-Montreal route. This will be the first of a number of freight boats which Mr. Haney proposes to have built for this route. The Renvoyle is of solid steel, 260 feet in length, 42 feet six inches beam and 18 feet six inches in depth. It has a capacity of 100,000 bushels. The cost will be in the neighborhood of \$125,000.

NOTES.

Steamer Hero left Philadelphia on the 16th inst. for Quebec, with a cargo of coal.

Steamer Wobun, Captain Meikle, from Sydney, with a cargo of coal, arrived in port yesterday afternoon, and moored in the Louise Dock. She is on her second voyage of the season to the St. Lawrence.

Steamer Lorle, Captain Eggert, from Philadelphia on the 11th inst., for Montreal, passed Father Point yesterday afternoon, and is due in port this morning.

PORT OF QUEBEC.

Arrived, April 19.
 SS Wobun, Meikle, Sydney, N. S., S. & C. Co., coal.

THE BRITISH BUDGET

London, April 19.—David Lloyd-George re-introduced last years budget in the House of Commons to-day. He declared that he realized that the present deficit of \$131,240,000 would be more than wiped out when all arrears had been collected and that there would be an actual surplus of \$14,800,000. If the budget had been passed as usually last year, he said, there would have been a surplus of \$21,000,000.

The Chancellor commented upon the remarkable decrease of 32 percent in the consumption of whiskey, which he attributed mainly to the extra duty imposed. The gross revenue from spirits as compared with the estimated figures was \$14,000,000.

Smoking and Chewing Tobacco

AFTER DOCTORS FAILED

Dr. Williams' Pink Pills Cured a Severe Case of Anæmia and Weakness.

Anæmia—poor watery blood—is the cause of most of the misery which afflicts mankind. The housewife especially falls an easy prey to it. The long hours and close confinement necessary in performing her household duties sap her strength. She becomes run down and often suffers extreme misery. Dr. Williams' Pink Pills are the housewife's friend. They make new blood—lots of it—and pure blood banishes all women's ailments. Mrs. E. St. Germain, wife of a well-known farmer of St. John des Chateaux, Que., found new strength through Dr. Williams' Pink Pills. She says:—"A year ago I was extremely weak. I could not attend to my work. I suffered from dizzy spells; my head ached; my blood was poor; I had a bad cough and the doctors feared I was going into consumption. I followed their treatment for some time but without relief. I grew discouraged and finally gave it up in despair. I was strongly advised to try Dr. Williams' Pink Pills so I procured six boxes. Before they were all gone I felt relief. The headache and dizziness became less frequent and I felt a little stronger. I continued the pills for a couple of months at the end of which time I had gained in weight; the pains had left me; my appetite was gone and I felt as strong and well as ever I did. I cannot say too much in favor of Dr. Williams' Pink Pills for I certainly owe my good health to them."

The woman in the house, the man in the office, the boy or girl in the school will always find a friend in Dr. Williams' Pink Pills. These pills actually make new, rich red blood and good blood banishes rheumatism, general debility, kidney troubles and those aches and pains caused by overwork or overstudy; good blood builds up the tired unstrung nerves and makes pale thin cheeks rosy and healthy. The pills are sold at 50 cents a box, or six boxes for \$2.50 by all medicine dealers or by mail from The Dr. Williams' Medicine Co., Brockville, Ont.

CANADA'S TRADE IN PULP AND PAPER.

Export statistics recently compiled by the Dominion Government show that for the last nine months of the calendar year of 1909 Canada sold the United States \$5,000,000 worth of pulp wood, as compared with a shade over \$3,500,000 worth for the corresponding months of 1908. There was no other customer for Canadian pulp wood. In wood pulp the United States bought in the last nine months of the year closed \$3,000,000 worth, or just four times as much as Great Britain bought. The total sales of wood pulp in the last nine months of 1909 were \$3,800,000, as compared to \$3,200,000 in the corresponding period of the year before. Canada's total sales of paper in the last nine months of 1909 were \$2,000,000, or half a million less than for the corresponding months of the year before. The United States and Great Britain each bought three-quarters of a million in the last three-quarters of 1909.

Canada's importations of paper in the last nine months of 1909 amounted to nearly \$3,500,000. The United States sold her two and a quarter millions and Great Britain three-quarters of a million. The total buying exceeded the nine months of a year before by three-quarters of a million.—Pulp and Paper Magazine.

A SETTLEMENT ANTICIPATED

New York, April 19.—Settlement of the wage dispute between the New York and Hudson river railroad and its conductors and trainmen is now in the hands of the arbitrators, F. H. Morrissey and E. E. Clark, who finished taking testimony and closed the hearing this afternoon. The arbitrators have a large mass of figures and statistics to consider in arriving at a decision, but have indicated their expectation that they would be able to announce their judgment by the latter part of this week.

Added importance was attached to the result because of the presence at the hearing of C. L. Schaff, vice-president of the Vanderbilt lines west of Buffalo.

Invaluable to Every Farmer

Its Wonderful Power in Curing Sick Cattle and Colicky Horses Makes "Nerviline" Worth Its Weight in Gold.

The stockman or farmer that doesn't know of the thousand and one uses of "Nerviline" around the stable, has a great deal to learn. "Why, I wouldn't think of locking my stable door at night without knowing I had a supply of 'Nerviline' on hand. I always get a dozen bottles at a time from my druggist."

"To cure colic, indigestion and bad stomach in a horse or cow there is no remedy on earth in the same class as 'Nerviline.' Last summer I had a \$250 horse that got the colic, and I would have lost him if I hadn't been able to give him Nerviline. I poured a full bottle of Nerviline in a pint of water down his throat and saved his life. I know of neighbors who have saved many heads of valuable stock, stricken with colic, just by using Nerviline. It is equally good as a rub-on liniment, and I know from my experience that for man or beast, internally or externally, 'Nerviline' is worth a dollar a drop."

James E. McCullough, Stock Breeder, etc.

You will not regret using Nerviline, but see you get it and not something else, 25c. per bottle, or five for \$1.00 at all dealers, or The Cattarhazoo Company, Kingston, Ont.

ANNUAL MEETING OF THE Y.M.C.A.

FOUR DEAD; TEN INJURED

Successful Year's Work—List of Board of Directors and Trustees Elected.

The annual meeting of the Young Men's Christian Association was held in their rooms last evening. The president, Mr. G. B. Ramsay, in the chair. There was a fair attendance of members. The reports of the Board of Directors and Trustees were read, and showed the finances of the Association to be in a healthy state. In fact, they were never better.

After the adoption of the reports, the election of Directors was proceeded with and resulted as follows:—Messrs. W. H. Wiggs, A. Veasey, R. Stanley, L. C. Webster, J. Thomson, W. C. Scott and J. P. Twissell.

The two retiring Trustees, Hon. R. Turner and Mr. J. T. Ross, were re-elected.

The meeting was then brought to a close.

CLEAR OF ICE.

Lake St. Joseph has been clear of ice since Monday last. It has never been known to be clear so early in the season before.

LATEST STYLES.

Our dress goods for summer are in light wool, linens, mercerized, and other effects. They have just been received. Come and make your choice.

FAGUY, LEPINAY & FRERE.

READ IT.

Have you seen the list of good things Myrand & Pouliot are offering this week for Saturday next, if not you had better look for it, there are certainly articles to interest mostly all the population.

QUEBEC CARTAGE CO.

It is announced that the above company is specially equipped for the removal of safes, machinery, etc. Those who are desirous of having this class of transfer performed should apply at their offices, corner St. Roch and des Fosses. 'Phones 386 and 2867.

GREAT DRESS GOODS SALE.

Attention is directed to the advt. of Marceau & Co., which is appearing in another column in regard to their great sale of dress goods now going on. This is bound to be the greatest sale on record as the prices asked are below the original cost.

CATHOLIC SCHOOL COMMISSION.

At a meeting of the Roman Catholic School Commissioners, Rev. Father Beaulieu, curé of St. Jean Baptiste parish, was elected chairman. A vote of thanks was tendered Mgr. Gauvreau, who for fifteen years occupied the position.

Don't forget the extraordinary

Wall Paper Sale of exclusive designs now going on at B. Leonard, 53 St. John St., it will be to your own advantage to call, as the prices asked are extremely low.

OBITUARY.

The friends of Mr. J. Mercier, Jr., master printer, will regret to learn of the death of his child, Rene Louis de Gonzague, which took place yesterday. Much sympathy will be extended to Mr. and Mrs. Mercier in their bereavement. The funeral takes place this afternoon at 3.45 o'clock.

BE PROUD OF YOUR CHILD

If you wish your boy to be elegantly dressed bring him to FAGUY, LEPINAY & FRERE. Every specialty for the First Communion.

SENT TO ASYLUM.

The man L'Heureux, whom Detective Sylvain arrested some days ago at St. Ferol for causing disorder in his home and threatening his family, and who was sent to gaol to await examination as to his sanity, was yesterday examined by Dr. Brochu, who found that the unfortunate man was of unsound mind. He will now be sent to Beauport Asylum.

NEW PROTHONOTARY AT PERCE.

Mr. Alphonse Garneau, advocate, who has just been appointed Prothonotary and Registrar at Perce, in the place of the late Mr. Jos. A. Lavoie, is the son of Mr. A. S. Garneau, C.R., with whom he practised in the firm of Garneau and Garneau. His appointment will be hailed with pleasure by the whole County of Gaspé, and the choice is a judicious one in every respect. His father, Mr. A. S. Garneau, C.R., will carry on the practice alone in the future.

FRENCH GRAND OPERA

Judging from the numerous enquiries from local theatre patrons, the coming engagement of the New Orleans French Grand Opera promises to surpass all previous records of attendances. The engagement is for one week only, with the following repertoire:—Monday, "Les Huguenots"; Tuesday, "Manon"; Wednesday matinee, "Faust"; Wednesday evening, "Carmen"; Tuesday, "Lakmé"; Friday, "Mignon"; Saturday matinee, "Rigoletti," and Saturday evening, "La Traviata." The scale of prices will be one dollar and a half and two dollars for the lower floor, one dollar and a half and one dollar for the balcony, and twenty-five and fifty cents for the gallery. Two matinees will be given, Wednesday and Saturday, prices same as evening.

FIRE AND WATER MEET

Two Civic Committees Held Interesting Conferences at City Hall Last Evening.

There were meetings of the Fire and Waterworks Committees at the City Hall last evening, when a considerable amount of routine business was disposed of. The first committee to meet was that of Fire, Ald. Cummings presiding. The members of the committee present were Ald. Messervy, Barbeau, Fiess, Dinan, Delisle, Lamontagne, Cote and Emmond. Mayor Drouin, whose business-like attention to the affairs of the city has already made him prominent alike in committee and Council, was also present at both committees as well as a large number of Aldermen.

There was a long discussion upon the question of confirming in their positions three firemen who had been temporarily appointed to succeed men who had been unable to fulfil their duties through illness.

Due to the large number of applicants for position on the brigade Ald. Fiess thought the matter should be further considered at length. It was decided that Messrs. White, No. 1, Plamondon, No. 2, and Quinn, No. 5, should be appointed permanently.

Mayor Drouin then read the report of the Chief of the Fire Brigade upon the fire-fighting facilities of Limoilou and the efficiency of the aqueduct. The report caused much discussion. The requirements for Limoilou included the addition of 14 men to the brigade and the installation of a fire alarm telegraph service. "It's a legacy," said Ald. Dinan. The Mayor suggested the expenditure of a certain amount year by year upon the fire service of Limoilou.

Several other matters in connection with the Limoilou service were discussed before the committee dispersed. In the absence of Ald. Lavigne, Ald. Goulet was called upon to preside at the meeting of the Waterworks Committee. The other members of the committee present were Ald. Levallois, Paquet, Mulrony, Plamondon, Lantier, Cummings, Fiess.

There were the usual list of applicants for positions in the service as well as requests for increases of salaries.

Mayor Drouin read the report of the Waterworks Engineer, Mr. Gallagher, upon the aqueduct of Limoilou, and this was discussed at length. It was estimated that it would cost some \$25,000 for improvements and repairs, and the Mayor suggested that the same plan should be followed as in the case of the Fire Committee that a certain amount be expended each year upon it. The matter was left over for further consideration.

Tenders were opened for the supply of a number of supplies needed for the department. The lowest tenders for pig iron, Messrs. Terreau & Racine; brass, Mechanics' Supply Co.; lead pipe, Mechanics' Supply Co.; cement, Bosse & Banks; bricks, J. Jack; drain pipes, Standard Drain Pipe Co. were, on motion, awarded the contract.

Ald. Mulrony called the attention of the Waterworks Engineer to the danger surrounding a fire-plug at the land-slide.

Mr. Gallagher, Waterworks Engineer, brought up the whole question of the condition of the street due to the land-slide.

The Engineer was requested to make a report at next meeting of Council.

BOOKS FOR BOYS.

What sort of books their boys should read is frequently a source of worry to parents. The Alger Series of books are highly recommended. Their high moral character, clean, manly tone, and the wholesome lessons they teach without being goody-goody, make Alger books as acceptable to the parents as to the boys. Alger's books go right to the spot every time. His characters are living boys who do things. Mr. T. H. O'Neill, 248 St. John street, is advertising in another column a new cloth bound edition of this popular series at the remarkably low price of 15 cents per volume. See advt.

FIRST COMMUNION.

We have all that is necessary for boys or girls. Unless to enumerate what we have. Come and make your choice.

FAGUY, LEPINAY & FRERE.

AFRAID OF FREE TRADE

Augusta, Me., April 19.—The letter from Senator Eugene Hale to Byron Boyd, Chairman of the Republican State Committee, in which he declines to "engage in a conflict for the Senatorship," was received by Chairman Boyd to-day. In the letter Senator Hale does not refer to the condition of his health, but instead calls attention to the fact that he has been given what no other man in Maine has received, five unanimous nominations for continuous terms in the Senate and says it seemed not fitting for him "to undertake a personal contest for the succession." Senator Hale takes occasion to predict that "should the Democrats carry the next House of Representatives within 90 days after the opening of the next Congress a free trade tariff bill will be sent to the Senate and interests will be marked for slaughter." The senator from Maine also declines the invitation of the State Committee to accept the temporary chairmanship of the Republican State convention, to be held in this city June 29th. As far as known here, Senator Hale will complete his term, which ends March 3rd, 1911.

OCEAN ARRIVALS.

April 19th, 1910.
SS. Re D'Italia, at New York, from Genoa.
SS. Cincinnati, at New York, from Genoa.
SS. Mauretania, at Liverpool, from New York.

VASELINE IN TUBES

Vaseline Camphor Ice
Heals chapped hands, cracked lips and skin.

White Vaseline
Invaluable internally for coughs, colds, sore throat, croup.

Capsicum Vaseline
Better than mustard plasters; does not blister.

Borated Vaseline
A valuable remedy for catarrh.

Mentholated Vaseline
Allays neuralgic pains, nervous headache; cold in head.

Camphorated Vaseline
Eight per cent. gum camphor; for rheumatism, gout, etc.

Carbolated Vaseline
Best antiseptic dressing known.

Vaseline Oxide of Zinc
Quickly heals eruptions, sores and wounds.

Pure Vaseline
Known world wide as the best and safest family remedy.

OUR FREE VASELINE BOOK
Write the name of each Vaseline preparation and gives directions for its proper use. Send us your name with proof of address, enclosing this paper, and we will mail you a copy, postage prepaid.

For Ladies Only!

Women need Zam-Buk even more than men. For chafed places, inflamed surfaces, skin sore from friction from clothing, rough, red hands, unsightly face sores—for all these and a hundred and one needs that are peculiar to women, Zam-Buk is a boon.

Then there are the children! For their little cuts and burns and knocks—for skin rashes and skin sores, Zam-Buk is far the best. Why?

Best because it is pure. Best because it contains not one grain of mineral matter or poisonous coloring, not one bit of animal fat. It is antiseptic, soothing and healing.

A WIFE'S EXPERIENCE.

Mrs. Joseph Carr, who keeps a grocery store at 201 Hamburg Ave., Toronto, says:—"In all my years of housekeeping I have never yet used a preparation equal to Zam-Buk. It is nothing short of a wonder—a miracle. Indeed I cannot speak in terms too praiseworthy of its wonderful healing properties, and would not be without this remedy in my home at any cost. I have used it for sores, cuts, bruises and other skin injuries, and consider it a household necessity, especially where there are children, as it heals all wounds and bruises in almost incredibly short time. My eldest son had occasion to use Zam-Buk for a badly inflamed toe, caused by an ingrowing toe nail. A few applications were all that was necessary to draw out the soreness and inflammation, and he has had no trouble with the toe since. Every mother and every woman who has charge of a household should keep Zam-Buk handy."

Sure cure for eczema, varicose veins, bad leg, scalds, burns, blood poisoning, face sores, ringworm, salt rheum, ulcers, hemorrhoids, and all skin injuries and diseases. 50c box, drugists and stores everywhere or post free from Zam-Buk Co., Toronto, for price.

RAIN SPOILED BASEBALL GAMES

New York Fans, who Turned Out in Large Numbers, were Disappointed.

New York, April 19.—Rain again prevented the baseball games to-day in three of the four eastern cities where big league contests were scheduled. Boston alone was favored with suitable weather, and there the Boston Red Sox of the American League twice defeated Washington. Yesterday's postponed game was played off in the morning and the teams crossed bats again in the afternoon.

At New York a heavy downpour this afternoon forced the calling off of the National League games between New York and Boston at the Polo grounds, and the Philadelphia Brooklyn game in Brooklyn. Despite the unpromising weather thousands fanned themselves in the Polo grounds to give the Giants a send off in the opening game at home, but the rain held the day. Rain made the game between the New York Americans and the Athletics impossible.

American—Morning Game.

Boston, April 19.—Attended by the usual flag raising ceremony and pitching of the first ball into play by Mayor Jno. F. Fitzgerald, the American league baseball season in this city was opened to-day and celebrated by the home team with a victory over Washington by a score of 2 to 1. The grounds had been well dried by the sun and the game was fast and snappy throughout. Nearly 15,000 persons were present. Score:—

Washington 001000000—1 3 2

Boston 10100000x—2 5 2

Oberlin and Street; Cicotte and Carrigan. Umpires, Dineen and Connolly.

Afternoon Game.

Boston, April 19.—Thirty-seven thousand persons, the largest crowd ever at a ball game in this city, saw Boston defeat Washington 5 to 4 in an exciting contest this afternoon. The visitors were two runs ahead when Boston went to bat in the ninth but a base on balls and three successive hits gave the locals the game. Score:—

Washington 00100000—4 6 1

Boston 000000203—5 9 2

Johnson and Street; Hall, Wood and Carrigan. Umpires, Connolly and Dineen.

Exhibition Games.

At Bedford (afternoon) New Bedford (N.E.L.), 1; New Haven (Conn. League), 0.

At Brockton (afternoon) Brockton (N.E.L.), 5; Jersey City (E.L.), 4.

At Waterville, Me., University of Maine, 8; Colby, 2.

At Worcester (afternoon game) Worcester (N.E.L.), 2; Providence (E.L.), 4.

At Worcester, Cornell, 1; Holy-cross, 2.

At Lawrence, Mass., (afternoon) (E.L.), 2.

At Lowell, Mass., Lowell (N.E.L.), 3; Utica (N.Y.S.L.), 2.

TRACK HEAVY AT AQUEDUCT.

Aqueduct, N.Y., April 19.—The track at Aqueduct to-day was still heavy and holding the day as a result of the heavy recent rain. The fields, however, were not reduced and the racing was very interesting. The Pecos handicap, with a value of \$1,500 at six furlongs, resulted in an easy victory for King Cobalt, who was played down from 8 to 1 to 5 to 1 at the end. He took the lead early and was never extended.

Alberto Terrazos, president of the Jockey Club of Juarez, Mont., was an interested spectator at the races to-day. He said racing would continue for the next 19 years at the fine course over the line from El Paso.

WESTON IN BUFFALO.

Batavia, N.Y., April 19.—Edward Payson Weston arrived here at 7 p.m. The entire route from Buffalo was in the face of a driving, cold rain, turning at times to snow. Weston was very tired but he insisted upon carrying out the programme arranged for him here. At the Land Office he turned a spade full of earth upon the roots of a memorial tree, after which Mayor Atchison presented the veteran with a gold badge bearing his name and the dates of his four visits to Batavia. He retired shortly after 8 o'clock, leaving orders to be called at 2 a.m., when he will start for Rochester.

MONTREAL POSTERS ATHLETICS.

Montreal, April 19.—The Controllers are highly in favor of affording as much opportunity as possible to the youth of the city to indulge in outdoor sports. Such was their attitude this morning when a delegation composed of Messrs. W. E. Findlay and T. Carling, representing the M.A.A., Mr. T. Slattery, of the S.A.A., and Mr. St. Pere, of the N.A.A., appeared before the Board in order to make request that better facilities be placed at the disposal of boys who desired to practice field sports. They pointed out that under present conditions though certain parks, as for instance Fletcher's Field, were so used, owing to the fact that there was no supervision or order maintained, the younger boys were often driven from play by the older ones. The delegates asked that the city authorities have some understanding as to what games should be played at certain hours.

The delegation was introduced by Ald. O'Connell, Boyd, Monahan and Mayrand, and the Controllers, in reply, stated that they were favorable to the fostering of the athletic sport. They were heartily in accord with the views expressed by the delegates.

CANADIAN WINS BOSTON MARATHON

Cameron, of Amherst, an Easy Winner—Seven Canadians Out of 12 Placed.

Boston, April 19.—Fred L. Cameron of Amherst, N.S., and half a dozen fellow Canadian runners captured most of the honors in the Boston Athletic Association's fourteenth Marathon road race to-day, over the 25 miles of state road from Ashland to this city. While no records were broken, Cameron's time of 2 hours, 28 minutes 52 3-5 seconds was the third best time made in this event. It was only four minutes and 28 seconds behind the record made by Tom Long boat, the Indian, three years ago.

With the exception of a mile or two early in the race, the little Amherst runner never saw the heels of a competitor and gained the honor of being the first winner of a Boston Marathon run to set the pace, practically from start to finish.

That Clarence H. Demar, an 18-year-old runner of the Dorchester district of Boston, was second, was due to his stamina in beating out Jas. J. Corkery, of Toronto, in the last three miles. John R. Roe, another of the Toronto team, was fourth, while R. E. McCormack, of Toronto, came in sixth. Chas. Cook, of Hamilton, Ont., was sixteenth, Jno. G. Near, of Toronto, seventeenth, and Gordon W. Wolfe, of Dartmouth, N.S., 19th, giving seven placed men in the team of 12 Canadians who started.

The race to-day was the fourth that has been won by a Canadian runner. J. Caffrey, of Hamilton, Ont., was the victor in 1900 and 1901, while Tom Longboat also of Hamilton, established the record of 2:24.24 for the course.

Fred Cameron's Marathon to-day was his first 25 mile race. He had gained many honors in ten mile distances, winning the Nova Scotia ten mile championship last Thanksgiving Day and establishing a new Canadian amateur record of 54 minutes 46 seconds. He is only five feet 3 1-2 inches in height and weighs 127 pounds.

Toronto, April 19.—Sporting Toronto took keen interest in the Boston Marathon, and immense crowds gathered around the bulletin boards and cheered themselves hoarse when Cameron, the little Nova Scotian, was announced the winner. There was some disappointment that it was not a Toronto entry that won the classic event, but much gratification was expressed at the splendid showing made by all the Canadian runners. An interesting event was the presence at a local newspaper office where returns were being received of C. L. Cameron, a brother of the victor, and D. J. J. Corkery, an elder brother of the Toronto boy, who finished third. They were introduced to each other and together they hung over the operation on the special race wire. "My brother likes the mud," said Cameron. "Mine likes anything," retorted Corkery. When the bulletin "Cameron wins" flashed, Joseph Corkery was the first to raise a cheer. "Three cheers for Cameron, the Canuck," he said, and the little crowd raised the cheer and departed.

FISHING CLUB ELECTS OFFICERS.

At a meeting of the Trois Lacs Fishing Club, which was held at the Victoria Hotel recently, the following officers were elected:—C. N. Gagnon, president; E. Lafrance, vice-president; J. A. Leclerc, secretary-treasurer. The club has a very fine ground, and prospects for the coming season are very promising.

HOW TO SLIDE.

That the coming baseball player will be a good slider is believed by Fred Clarke, and the manager of the champions spent much time instructing his young men in the trick during the spring workouts.

"Never try to stop a slide after you have once started to make it, or you will be carried off the field sooner or later. Learn to go in feet first, and also to slide head first with the feet swinging clear round to the bag," was the gist of Clarke's lessons.

Catspaw Rubber Heels

are a nice habit. The step is soft, sure, springy. They won't slip. All Shoemen.

HAD NO CAUSE FOR ACTION

Toronto, Ont., April 19.—An unusual turn characterized the wind-up of the suit brought against Henry Timmins, of Toronto, by Grant Hux Brown, of New York, who sued for \$150,000 cash payment on three mining properties in Cobalt. It developed that before making the payments the property had been transferred to the United Cobalt Exploration Co., of New Jersey. The Brown-Timmins action was dismissed by Chief Justice Sir G. Balcanquhall, with costs, because Mr. Brown has no cause of action, not being personally interested. The result of this action carried no prejudice in case the United Cobalt Company subsequently brought action.

CAP ROUGE.

Building lots 35 x 115 are now offered to the public at attractive prices and on liberal terms, on the heights at Cap Rouge, overlooking the St. Lawrence, three minutes' walk from the beach, bathing, boating, etc.; only ten minutes' walk from the Canadian Northern Quebec Railway Station.

HERE IS A VERY CLASSY RACE

All the Big Running Stars Have Been Signed Up for a Contest at Toronto.

Toronto, April 19.—The entry list for the 20-mile professional race, which opens the Island Stadium on May 7, is a truly formidable one. The list is as follows:—Ljungstrom and Johansen, the Swedes.

Meadows, Holmer, Sellen, Acoose, Marsh, and Red Hawk, the Canucks. Crowley and Crooks, the Yankees. St. Yves, the Frenchman.

Dorando, the Italian. Any man in the race except Red Hawk must be conceded a chance—that is, taking the dope books for it.

Red Hawk is a good boy when trained right, but he hasn't a chance. Ljungstrom and Meadows have beaten each other twice, with Meadows winning at 15 miles and Ljungstrom at 20 miles and the Marathon distance.

Johansen won an indoor Marathon in record time, and was third to Ljungstrom and Crowley in the polo grounds outdoor Marathon Derby.

Paul Acoose, Percy Sellen, and Hans Holmer have always been right there at 15 and 20 miles. Holmer is coming fast again, but the distance is a trifle too long for Sellen.

John D. Marsh is a danger old plugger in any race above 15 miles, and Crowley must be reckoned with because he can stand the campaigning better than the rest.

The Frenchman and the Italian are about on a par with each other at 20 miles, and Crooks is coming.

As the race is open, Fred Simpson, Tommy Longboat, Abbie Wood, Hughie Bruce, Percy Smallwood that new Finn runner with the funny name, are all liable to take a chance at the big purse. It's going to be "some" race, and the new stands should be taxed to hold the crowd.

MODERN SANATORIUM

Temperance Institute

854 St. Valier St. Phone 2698

Drunkenness Cured

By the most scientific and least inconvenient method. Takes only 21 days. Absolutely the most effective, and giving the most satisfactory results.

The only treatment sanctioned by the Government. You are invited to visit the place.

PRINTING

IF you use Printing in any form and desire to have it put in the most suitable shape, we can serve you.

In Printing, good or bad, the main items of cost are fixed and you pay as much for stock, for composition, and for presswork to one printer as another, provided he is estimating with a true knowledge of his costs and a fair profit. The fact that one piece of work is more attractive than another is caused only by the intelligence with which it is planned and care which the work receives. This planning and careful supervision is not expensive, and the difference in price between good and poor printing is less than you may suppose, while the difference in selling power may be—probably will be—several times greater than any POSSIBLE difference in cost.

We have the knowledge and facilities necessary for producing good Printing and shall be glad to exert them on your orders.

THE MANUFACTURE OF DAIRY PRODUCE

Occupied the Attention of Quebec's Legislators the Greater Portion of Yesterday's Sitzings.

Yesterday was farmer's day in the Legislative Assembly and Hon. Mr. Caron's bill respecting butter and cheese factories was the subject discussed at length during the afternoon and during part of the evening sittings. During the evening several Government bills were adopted in second reading and a number of bills passed, but on the whole, both sittings were devoid of any particular interest.

The manufacture of dairy products was the principal question discussed yesterday afternoon and part of last evening at the Legislature and several of the members took part. The debate arose over Hon. Mr. Caron's bill to amend the Revised Statutes respecting the manufacture of dairy products. One of the main articles in this bill provides that after the first January, 1912, no butter or cheese factory will be allowed in operation without the consent of the Minister of Agriculture and such permission may be refused upon a report from an inspector if the latter states that the hygienic conditions are not carried out. Moreover, every butter or cheese manufacturer must from that date be provided with a certificate from the St. Hyacinthe Dairy School.

Mr. Tellier criticized the bill, remarking that it was against the freedom of trade and that it was preferable to classify the produce from these factories according to quality.

Hon. Mr. Caron replied that the classification of goods depended entirely upon the Federal Government. He expected that his bill would have a good effect as it would indirectly reduce the number of cheese and butter factories, while at the same time improving the quality of butter and cheese. The Provincial Government had no authority to reduce the number of these factories, but could impose certain conditions upon manufacturers.

Mr. Bourassa also criticized the bill on the ground that it gave too much power to the Minister of Agriculture and the latter could take better means to reduce the number of these factories if he desired to do so. The butter and cheese industry was the most important one in this Province and this was now to be left in the hands of an inspector who would be the arbitrator of what the people required.

Hon. Mr. Caron replied that this butter and cheese industry in this Province amounted to \$25,000,000 but with a little care could be increased to \$30,000,000, and even to \$35,000,000.

During the evening, Hon. Mr. Caron's bill was again discussed but was finally deferred until to-day on suggestion of Mr. Lavergne.

A number of bills were read for the first time including those to ratify certain arrangements passed between Montreal and the C. P. R.; to change the county seat of Beauharnois; respecting the Soulange Power Co.; to incorporate the First Church of Christ Scientist, Westmount; and Dr. Finnie's bill to incorporate the Syrian Greek Orthodox Church of St. Nicholas.

Resolutions respecting the establishment of a new judicial district, were brought down by Sir Lomer Gouin, who remarked that a bill would be introduced providing for the establishment of a court in the northern part of Montcalm and Ottawa and that a new court house and jail would be erected at Mont Laurier at a cost of \$40,000. At present litigants and witnesses in that district had to travel at least a distance of 200 miles to Hull. There is a population of 40,000 in that district and a new judge would have to be appointed.

Mr. Tellier had no objection to the bill which was read a second time.

Hon. Mr. Taschereau introduced his bill respecting the establishment of an employment bureau for workmen and in support of his measure, remarked that it was for the benefit of British subjects in this Province. As regards private employment bureau, none will be allowed to carry on business in future without obtaining permission from the department. The present system would prevent any frauds which had occurred in the past, as it frequently happened that workmen

had been cheated out of their money in some of these private bureaus.

Mr. Langlois (St. Sauveur) supported the bill, which he considered would be a benefit to working classes.

Hon. Mr. Devlin also spoke in favor of the bill, remarking that immigrants were well looked after in the Montreal and Quebec offices and that the Provincial Employment Bureau in Montreal had shown good results.

Several other members took part in the discussion and in reply to certain objections to the bill, Hon. Mr. Taschereau stated that the Government intended appointing labor men in charge of these bureaus, as they were the best qualified.

The bill was read a second time, as was also the bill respecting the appointment of three new judges of the Circuit Court, Montreal. Sir Lomer Gouin, who proposed the bill, remarked that at present the three judges presiding at that court were unable to deal with the large number of cases.

Mr. Tellier suggested that the Superior Court judges should hear the Circuit Court cases and that if necessary six new judges be appointed.

Sir Lomer Gouin replied that the present system of having judges to hear Circuit Court cases in Montreal worked satisfactory and was approved of by the Montreal Bar.

Hon. Mr. Decarie's bill, to amend the Revised Statutes, respecting mining companies was also read a second time. This bill is to regulate foreign companies which change their name and head office and intend to carry on business in this Province.

The bill respecting the incorporation of the Old Boys' School, of Bishop's College School, which was adopted by the Legislative Council, was read a second time and referred to the Private Bills Committee, as was also the bill respecting the Balm Industrial School for girls.

A few items of the estimates were passed and the House adjourned at eleven o'clock.

Catspaw Rubber Heels

When once worn are always worn. Reason is—they are made right and won't slip—All Shoemen.

DISCOVERY OF SILVER MINE

Kingston, Ont., April 19.—A silver vein, said by a mining engineer to be remarkably rich, has been discovered in the range of hills lying about four miles south of Arden, a village on the C. P. R., in Keenebec township. The lead was discovered by C. Ritchie who sent samples to New York which assayed a high percentage of the white metal. Arrangements are now under way to have the Ritchie silver claim developed and a small gang of men will be sent to work within a few days.

WORTH ITS WEIGHT IN GOLD

Mi-o-na Has Reached a Gold Standard, Says Harry Ellis of Fergus, For Stomach Trouble.

Harry Ellis, of Fergus, Ont., says: "I believe that Mi-o-na for the cure of stomach trouble, is worth its weight in gold. It cured me from a stomach difficulty that seemed to puzzle all other prescriptions and remedies. I was unable to eat, the food would ferment and form gas and make a serious pressure on my heart. There were terrible pains in the pit of my stomach. I became weak, drowsy, discouraged and later I got nervous and could not sleep or rest. This disease makes one feel like not wanting to see any human being and produces melancholy and forebodings. I was told to try Mi-o-na, and when I commenced on the first box I had hardly any faith in it, but the first two days' treatment made the pain in my stomach cease, and to make a long story short, the upshot of my using Mi-o-na was that it cured me wholly, and I now can eat what I like and when I am hungry. I am an ardent advocate of the use of Mi-o-na."

Henry Willis sells Mi-o-na Tablets, the dyspepsia remedy that is making such surprising cures throughout Canada, for 50 cents a box, guaranteeing them to cure, or money back.

BE WELL DRESSED.

Do not forget our great sale of Suits for men and boys, which will take place this week. Come and make your choice early.

FAGUY, LEPINAY & FRERE.

TONOMEAD

The **Russell** \$2,350 "30" Fully Equipped

RUSSELL

You are not asked to buy the Russell "30" because this or that man has bought it, nor because its success is the most striking feature of the present season. But the reasons why well-known motorists are buying it and why its success is so conspicuous are reasons enough to make any man think twice before he decides on any other car.

Look at the construction. Do you ever see anything like it in a car of this price?

Look at the quality of the metal—tested in both laboratory and shop. Look at the engine—an engine that makes you feel like shouting with satisfaction when you find how it works for you. Look at the perfect alignment of driving parts, transmitting every bit of power the engine brings out.

Look at the bearings—bearings with the world famous Hoffman balls, which are guaranteed to be within one ten-thousandth part of an inch of standard—an example of the minute care shown in Russell's construction.

You ask how we do it? You ask how we can sell a car like this for \$2,350 fully equipped.

There's no secret about it. The car is standardized. That means that no important changes have been necessary from last year, and that the expensive equipment used in its making did not need to be changed.

You get in this car the experience of a successful plant crystallized. You get a great car without great expense, and about as near perfection as anything built by human hands can be. It has 115-inch wheel base, shaft drive, selective transmission—full standard construction.

Don't miss seeing this car. Judge by first-hand information. Ask for a demonstration—it will be given gladly.

A CURIOUS CUSTOM.

It is a prerogative of Western civilization that a proposal of marriage should issue from the man. Any other course would jar upon our sense of the fitness of things. But this is not the case in some of the more remote parts of the world. In the island of New Guinea, for instance, there exists a continual leap year, for women does all the proposing. The New Guinea man, indeed, thinks himself far too superior even to notice a woman, consequently, the civilized order of things is reversed. When she has chosen a

likely lover, the New Guinea maiden sends a piece of string to the lucky man's sister—or any other near female relative if he has no sister. Going to her brother, the sister says, "Brother, I have news; so-and-so is in love with you." If he is agreeable, a meeting is proposed, when it is at once decided between the pair whether they shall marry. There is no courting, no glow of romance to lighten up the future, nothing to look back upon when the marriage day arrives. It is as though the men of New Guinea have no time to waste on their sweethearts—not

even to allow them to make love to them. The betrothal is immediately announced, the engaged man is branded on the back with charcoal, but the woman's mark of engagement is an indelible one, for it is actually cut into her skin. Should it happen that either of them afterwards decides to break off the engagement, nothing can be done unless in the way of personal chastisement to the faithless one. This seldom happens, however, and the prosaic wooing is generally followed by an equally prosaic wedding and an even more prosaic married life.
