VOL. XXXVI. No. 280 MONTREAL, THURSDAY, NOVEMBER 24, 1904. PRICE ONE CENT.

GREAT EXCITEMENT PREVAILS AT BELLEVILLE OVER OPENING OF BOGUS BALLOT BOX CASE

The Genuine Ballot Box Which Was Sent to Watertown, N. Y., as a Model Said to Have Been Secured—Believed to Have Been Supplied From Frontenac County—Rielly, the Kingstonian Involved, Will Accompany Detectives to Belleville and Give Evidence.

Special to The Montreal Star.

Belleville, Ont., November 24.—Another day will see the resumption of the ballot box scandal, and people here are eagerly looking forward to it. The fact that Phil. Lott has returned from Watertown, N. Y., bringing with him evidence for the prosecution is not denied. In fact, Phil. admitted as much. The story that he brought back with him the man who made the boxes is, however, denied. There is, however, no secret made of the fact that the authorities of this city have received, or will shortly receive, the original Dominion ballot box which served as a pattern for the Watertown parties who made the bogus boxes. This box, of course, is of the ordinary innocent kind, and has none of the devices of the trick boxes. The various slides, etc., it is claimed were made from specifications and plans, and it is hinted that the prosecution, by means of those plans, expect to incriminate some people well up in the political ladder.

It is alleged that this pattern box bears the stamp of Poll 13, Frontenac, and the fact of its being absent from the Court House, Kingston, at the recent election, is said in incriminate officials of that city and to explain inactivity in neglecting to arrest the man Reilly.

It is also believed that at poll 13, Frontenac, one of the "quick-fire" boxes was used, for the interesting question arises, if the real Dominion box was absent from poll 13, Frontenac, what box did the deputy returning officer there use?

It is pointed out that Mr. Stratton's denial of ever having met Phil. Lott has been contradicted by the latter's brother, who, in an interview, told of a meeting between Stratton, Weese, Phil. Lott and himself.

Just at present people in this city are wondering what will happen to-morrow if both investigations go on at once. The criminal libel case was being heard in the court-room when the court adjourned. Police Magistrate Flint, who will conduct the investigation into the conspiracy charge, is alleged to have the court-room for his business.

It looks as though there will be strong opposition to this. The best informed people, however, think that the conspiracy case will simply be called, and formally enlarged till the criminal libel case is over.

WILL OFFER LITTLE DEFENCE.

It is stated that Magistrate Wood will come to this city to-morrow prepared to proceed with the criminal libel case, and finish it with as little delay as possible, holding night sessions, if necessary. According to the defence people they will enter hardly any defence, but will allow Mr. Carman to be committed for trial without much opposition. The prosecution expects to be able to produce the other ballot boxes which were alleged to have been brought into this riding and with which the name of Mr. Bremner, of Bancroft, was associated.

A rumour was afloat here that the United States Government was about to take steps in regard to the Watertown parties, who are said to be connected with the manufacture of ballot boxes, but the United States Consul when seen, said that was improbable, though it was possible an investigation might be held in regard to the alleged smuggling of the boxes across the St. Lawrence.

Mail for Col. Sherwood and Detective Chamberlain has arrived here showing that they are expected to be in this city at the investigation to-morrow.

WHAT LOTT'S BROTHER SAYS.

In conversation with Phil. A. Lott, it was stated to him that his brother, Byron, said he was crazy. Phil. Lott said he would show whether he was crazy or not, "Let him deny what he likes," said Phil., "I can prove all I have told and more, too." The star witness for the prosecution then said they would have some more startling information for Friday, and that the case would be proved to the hilt. "I am sorry for Byron," he said, "but he has brought this matter on himself." The whereabouts of Shibley, late Liberal candidate for Frontenac, was discussed and Phil. Lott said he had seen him at Gananoque on Tuesday.

Byron O. Lott, who is now a foremost figure in one of the most sensational dramas in Ontario politics, has four times appeared for the support of the electorate in the Liberal interest and each time unsuccessfully. In 1898, he ran for the Legislature in North Hastings against W. J. Allen. He was defeated, but succeeded in unseating his successful opponent, running again in the by-election with similar success. Again in 1902, he upheld the banner of Ross, only to be once more defeated. Then he graduated from Provincial to Dominion politics, and for the first time blossomed out as a candidate for Federal honours against E. Guss Porter, on November 3rd, being defeated by 880.

RIELLY WILL GO TO BELLEVILLE TO-MORROW

Whereabouts of Shibley Unknown, But it Is Not Expected He Will Turn Up.

Special to the Montreal Star.

Kingston, Ont., November 24.—Government Detectives Chamberlain and Greer were still here this morning, but have made no further discoveries. They have been unable to discover the party to whom the ballot boxes were addressed at Kingston, viz., H. W. Carefoot, fictitious name, of course, neither have they any further word about W. J. Shibley, who is still at large.

There is considerable speculation as to whether Mr. Shibley will turn up at the trial in Belleville to-morrow or not. Some think he will, but the majority have decided that he has taken his flight if not across the border, at least into the tall timbers, where he is just as safe from an army of detectives.

Rielly will go to Belleville to-morrow morning with Detectives Chamberlain and Greer. It is expected that he will tell everything he knows about the matter even at the risk of involving others, in view of the fact that there are letters which he must face. He will be defended by Mr. J. McD. Mowat, of this city.

which were present Messrs. R. B. Angus, James Crathern, C. F. Smith and Doctors Craik, F. W. Campbell and Roddick.

Dr. Roddick was elected president.

It was decided to call a public meeting on or about the 7th of December at which addresses will be delivered by several prominent men, with a view of interesting the English-speaking citizens in the hospital, and securing the necessary funds for its construction.

LOUIS BOYER WAS ARRESTED AND CHARGED WITH THEFT

Louis Boyer, an employe of H. Vineberg and Co., wholesale clothiers, was arrested last night on a charge of stealing money from his employers. It is alleged that he stole the money, while acting as paymaster, his scheme being to prepare an envelope for a person who had left the employ of the firm. It is alleged that such an envelope was found in his desk last night, after he had declared that all the hands were paid.

After being charged with the crime last evening, Boyer asked permission to get a drink of water, and in returning from the washroom made an attempt to escape. He was caught and handed over to the police. To-day Mr. J. C. Walsh appeared for him and entered a plea of not guilty. He was remanded until next week.

Mr. Cowan Arrives To-morrow.

Mr. M. K. Cowan, K.C., M.P., will arrive in the city to-morrow to assume his duties as solicitor of the Grand Trunk Railway. Mr. Cowan is accompanied by his wife, and he will reside here.

OYSTER SUPPER.—The 3rd Field Battery is to give an oyster supper in its quarters at the Armoury next Wednesday evening. Major Stephens issues an invitation to all ex-members of the battery to be present.

HAMEL SENTENCED TO SEVEN YEARS

Ex City Paymaster Goes to St. Vincent de Paul Penitentiary.

SAD SCENE IN COURT

Prisoner Broke Down Completely After Pleading for Mercy for His Wife and Children.

Utterly broken down, and in tears, Alphonse Hamel, the ex-city paymaster, to-day pleaded for the mercy of the court for his wife and children, and at the close of his plea he was sentenced by Judge Choquet to seven years in St. Vincent de Paul penitentiary.

Until the final hour, before appearing for sentence, Hamel had kept up a pretty good front, but when he asked for mercy for his wife and children, and when the judge's scathing words told him that he should have thought of that before, he broke down completely and sobbed.

When asked if he wished to be sentenced immediately by the judge in the Court of Special Sessions, he replied in the affirmative.

Mr. Fleet, for the Bank of Montreal, was asked if he had anything to say, and answered that he appreciated the unfortunate position of the accused, and that of his wife and family, but the interests of the community were at stake. The public and the financial institutions of the country had a right to expect protection. The accused was guilty of three charges: that of forgery, of uttering and of obtaining money by false pretences. It must also be remembered that the Imperial, and the Dominion Government had been put to trouble and expense to get the accused back to stand his trial. Mr. Fleet was sorry for the family, but he could ask for no leniency.

Mr. Ethier, on behalf of the city, took the same ground exactly as Mr. Fleet.

HAMEL'S SPEECH.

Mr. Honore Gervais, K.C., made his plea in the court below, and it was now the turn of the accused to speak. He said:

"I know that I do not deserve any pity, for myself, as I know that I will have the courage to stand the sentence that I deserve, and that I shall get. But I do appeal for some leniency because of my wife and children.

"I know that there are absolutely no extenuating circumstances in my case. I disregarded the first advice of my friends to make a clean breast of what I had done, and again when Chief Carpenter saw me, he advised me to refund the money immediately, and hope for the best. This advice was repeated by my relatives and friends, but I am sorry to say that I disregarded it all.

"Then followed the orders of the Government to have me extradicted, and at once I started a fight against it. I know that I could have avoided being in this position, if I had followed the advice of my friends.

"Again I say, that I have no favour to ask for myself. I regret much what I have done, and I wish to say that I have not taken the matter philosophically as has been reported.

"Once more I say I regret the deed, and I ask for mercy for my wife and children."

The Judge asked him if he was ready to reimburse any money that he might get, to the bank which lost the money. He said that he had placed $3,000 in the bank to the credit of his wife, on March 7, and that this had been seized by the bank. Mr. Fleet said that this was quite true.

PRONOUNCED SENTENCE.

Judge Choquet: "This is a very serious case. It must be dealt with in a serious manner. You were a confidential employe of the corporation, and as such you had the confidence of the city officials, and of the managers of the bank.

"You were many times warned that you were under suspicion of doing what was not right, but you never heeded the warning. You betrayed the confidence of your employers, and that of the bank. You forged the cheque, got the money, and fled.

"That is the brutal fact.

"There are no extenuating circumstances. You did not act on the impulse of the moment, but deliberately and coolly. A man who keeps bad company, and uses intoxicants, so that he commits some crime while he is not in possession of all his faculties, can be to a certain extent excused, and may have a claim to clemency, but you have none.

"Yours was a deliberate betrayal. Not only that, but you would not listen to the warnings to do right or the efforts to get you to make some restitution. You would make no settlement. You forced the expenditure of a large sum of money, and you fought extradition with the very money which you stole.

"There is nothing in your favour. Your sentence will be a shock to your mother, who is so ill that you will probably never see her again.

"Your wife and children must bear the pain and disgrace for you.

"Justice must be done. I sentence you to seven years in St. Vincent de Paul Penitentiary."

COMMENT

The Goldminers are coming for sure.

The professional and semi-professional element in hockey are going to try and drive John Ross Robertson out of the business.

That is it. Queen's is not quite certain that the Quebec Rugby Union bluff are in its class and are afraid of making a faux pas, at least socially.

The athletic movement in Ottawa is going in the right direction. Those interested in sport there are now working upon the lines which will make the C. A. A. U. a great body some day.

Captain Gorman explains that the change in the A. A. U. rule, amateur regarding delegates means that in future gentlemen who have taught athletics and therefore are barred from amateur competition may still act as delegates.

The coming of the Yukon Hockey team will give a fine opportunity to get decently rid of the Stanley Cup for once and all.

YUKON HOCKEY ENTHUSIASTS DECIDE TO SEND A TEAM EAST IN DECEMBER

"Weldy" Young Wires the Star From Dawson City That the Team Will Be Picked After a Series of Four Matches.

The Star is in a position to set at rest all speculations about the coming of the Yukon Hockey Club, and to announce officially and definitely that it has been finally decided at Dawson to send the team in search of the Stanley Cup.

To-day, the following telegram was received over the three thousand miles of copper wire and fifteen hundred miles of other wire that connects Dawson City with Montreal:

Sporting Editor Montreal Star:

It has been finally decided that the Klondike Hockey team will leave Dawson on the 20th of December. We will give ourselves eighteen days to make the trip, so that we will arrive in Ottawa on January the ninth. I have been chosen captain. We have splendid material here for a team, and we will play a series of four matches to decide what men shall go. The first of these matches will be played to-morrow.

The citizens of the Yukon have guaranteed all expenses.

W. C. YOUNG.

The sender of the telegram is "Weldy" Young, one of the fastest, most daring and trickiest of hockey players in this part of the country some years ago.

The trip will cost ten thousand dollars and the distance from Dawson to White Horse, 350 miles, will be made on foot.

C. A. H. L. INTERMEDIATES WILL HOLD THEIR CONVENTION SATURDAY EVENING

The Intermediate Clubs of the Canadian Amateur Hockey League will hold their annual convention in the Windsor Hotel on Saturday next.

The gathering will take place in the evening, and some new propositions will be brought up.

There are three new applications for admission, including those of the McGillis and the St. Lawrence.

ODDS AND ENDS

The ordinance which has just been passed by the board of aldermen, having for its object the prevention of six-day bicycle racing, is quite broad in its provisions, so much so that it might be interpreted to stop many popular games. It forbids any person in a contest of speed, skill, or endurance, from remaining in the contest for more than three hours out of any twenty-four.

Under strict application the new ordinance, if sign'd by the mayor, might affect golf, bowling and even the time-honoured poker game.

Following are the athletes who had won prizes during the summer at the weekly handicaps, and the events in which they had been successful:—

C. P. Tisney—1st, 100 yards; 1st, 440 yards; 2nd, 440 yards; 1st and 2nd, 75 yards.

H. A. Connolly—1st, 100 yards; 2nd, 220 yards; 2nd, 440 yards.

F. L. Lukeman—100 yards; two bronze clasps; 1st, 220 yards; 1 silver clasp; 2nd, bronze, 220 yards; 1st, 440 yards; 1st, 75 yards; 2nd, broad jump; 2nd, high jump; 2nd, hurdles.

P. Molson—2nd, 220 yards; 2nd, broad jump; bronze clasp; 2nd, 75 yards.

J. C. Riddell—1st, 100 yards; 1st, 220 yards; 1st, 440 yards; 2nd, 440 yards; 2nd, 75 yards.

R. Gonery—2nd, 880 yards, bronze clasp.

Leslie Scott—1st, 880 yards; 1st, one mile.

E. B. Savage—1st, broad jump, 1st, 120 yards hurdles, two silver clasps.

Arthur Smith—1st, 16-lb. shot; 2nd, 16-lb. shot, one bronze clasp.

Peter Deer—1st, one mile; 2nd, one mile.

P. M. Higgins—2nd, one mile.

J. Peterkin—2nd, 880 yards; 2nd, one mile.

D. J. Griffin—1st, 16-lb. shot.

W. Marshall—1st, 75 yards.

At a conference of delegates of both bodies yesterday, the affiliation was effected of the Ottawa Hockey Club and the Ottawa Amateur Athletic Club, and henceforth the Stanley Cup holders will make their home at the O. A. A. C. To-day's move was the initial step in a big scheme to centralize representatives of every form of athletics in the O. A. A. C., making it the sporting centre of the city. It is expected that the Ottawa Football Club will follow the lead of the hockey club in casting in its lot with the O. A. A. C., and, although they are independent bodies, several members of the executive of one are also connected with the other. By next summer it is expected that the O. A. A. C. will have representation in practically every branch of athletics. The committees who brought about the affiliation at to-day's meeting were:

R. T. Shillington, L. N. Bate and Dr. Kirby, for the Ottawa Hockey Club, and J. P. Dickson and D. A. Johnson for the O. A. A. C. All the members of the hockey club will become full members of the O. A. A. C.

The present season is marking an epoch in the affairs of the Ottawa Amateur Athletic Club. For years the club has been on the decline, it being impossible to make both ends meet financially. The new board of directors this year marked their advent by inaugurating a general scheme for the financial betterment of the institution.

The final football match in the Mulock Cup series, played at Varsity, Toronto, yesterday afternoon between Ontario Agricultural College, of Guelph, and Senior School Practical Science, resulted in a victory to the latter by 31 to 12.

Francis Galley has lowered the world's quarter-mile swimming record during the Olympic Club's tournament at San Francisco. The former record was held by F. Daniels, of the New York Athletic Club, whose mark was 6.02. The new record is 5.59 4-5.

Auvry and Maupas to Meet Again.

Emile Maupas, the local champion, and Albert Auvry, the big 263-lb. champion, will meet again on Monday night, at Sohmer Park.

FOOTBALL

McGill Men Get Souvenirs.

A very interesting event took place at a mass meeting of the Sophomores, of McGill, and the Royal Victoria College in Molson Hall, last night, when the members of the '07 Football team were each presented with a watch fob. The fobs were presented by Principal Peterson on behalf of the Sophonore year, who wished to show some token of appreciation to the men who had won for them the College championship trophy. The men of '07 who took part in the championship matches were: C. W. Davis (Capt.), W. S. Baird, R. W. Ellis, C. Gamble, E. S. Holloway, L. B. Kingston, E. S. McDougall, W. T. McLaughlin, E. Montgomery, F. P. Quinn, B. T. Renaud, D. W. Sinclair, R. W. Sutherland, W. F. Steedman, L. Wallace, G. T. Wilson, H. W. Wood.

An excellent musical programme was rendered. Mr. A. S. McCormick gave an instrumental selection, "The McGill March," which was composed by himself. The '07 quartette gave a vocal solo and Mr. E. M. L. Gould gave a violin solo accompanied by Miss I. Couture on the piano. Dean Moyse read several short selections, which were most highly appreciated. Principal Peterson, Dean Moyse and Prof. McNeil also gave short addresses.

The business part of the meeting was the election of a hockey committee to look after the class team. The men elected were Messrs. E. S. McDougall (Arts), Spafford (Science), B. Dickson (Medicine).

BASKETBALL

Opening of Y.M.C.A. Season.

The basketball season opened last night at the Y.M.C.A., with a senior and an intermediate match between the Britts and Beavers I., and Tigers and Beavers II. respectively. In the senior match the score of 22 to 4 in favour of the Britts does not at all indicate the play. The teams lined up as follows:

Britts.		Beavers.
J. N. McCuaig	Home	R. Hastings
G. Burton	Home	C. Stanley
W. Davidson	Centre	W. Smaill
H. Matthews	Defence	G. Morrison
P. McCuaig	Defence	W. McLaren

In the intermediate, the Beavers II were defeated by the Tigers, and the score of 18 to 10 in favour of the Tigers about represented the play. The teams lined up:

Beavers.		Tigers.
F. Booth	Home	A. Cameron
E. Simpson	Home	A. Baker
G. Armstrong	Centre	H. Copland
A. McLeod	Defence	C. Yuile
A. Stewart	Defence	M. Murphy

THE TURF

The Racing at Bennings.

Bennings, D.C., November 24. — Willie Shaw's riding was the feature at Bennings yesterday. Of five mounts he rode three winners, one second, and a third horse. D'Arkle, the only favourite to score, won the handicap for two-year-olds handily by two lengths. The surprise of the day was the defeat of Grazlallo, who finished last in a field of four. Sly Bride and Alster were both heavily backed to win their races, but Queen Elizabeth and Pancreatic, the other winners, had few followers. Summary:

First race, handicap, 2-year-olds, 6 furlongs—D'Arkle, 123, Shaw, 11 to 10, won; Blue Cot, 110, Redfern, 12 to 1, second; Foxy, 107, Romanelli, 3 to 1, third. Time, 1.15. Koenigin Luise, Amber Jack, Novena and Belle Sauvage also ran.

Second race, 3-year-olds and up, 7 furlongs—Queen Elizabeth, 115, Redfern, 12 to 1, won; King Pepper, 110, Travers, 2 to 1, second; Green Crest, 110, Shaw, 8 to 1, third. Time, 1.29 1-5. A STOP PUT TO NOTORIOUS "FAKING" IN BOXING MATCHES

The Referee in the Tommy Ryan-Root Match in Philadelphia Exposed Last Night's Put Up Job—The Spectators Would Have Made Short Work of the Boxers if the Police Had Not Interfered and Protected Them.

Special to The Montreal Star.

Philadelphia, November 24. — Four rounds of love taps and weak spirited counters so disgusted the sports at the Ryan-Root match, last night that when the middleweight champion went down to the floor, apparently unconscious, from an innocent slap in the face, the crowd rose up and rushed into the ring furiously. Some hurled seltzer bottles and other missiles into ring, and one siphon bottle narrowly missed Ryan as he lay on the platform. A large force of policemen jumped into the ring, surrounded the boxers, and guarded them to the dressing rooms. The squad had great difficulty forcing its way through the angry mob. The principals would unquestionably have been injured had not the police protection been immediate. Every one about the ring was crying "fake."

Ryan and Root were late in entering the ring. After the spectators had been kept waiting a half hour, Referee McGuigan, who has an interest in the club, announced that the boxers were counting the money in the box. He explained that the house was a slim one and that each man wanted his money before entering the ring. Five minutes later Ryan and Root appeared.

The men did nothing more than feint for nearly a minute in the opening round, which was followed by a light exchange of blows which left no mark on the boxers. Ryan caught Root lightly on the cheek and Root returned it with a light one on the jaw. There was more sparring and then Ryan let go a straight arm blow to Root's mouth, which did no damage. When the bell rang the men were clinched. The spectators began to hiss the men towards the end of the round, and as they took their corners a storm of disapproval was hurled at them.

In the second round not a solid blow was struck. Both men swung wildly at each other, the blows in most cases falling short of the mark. What few light blows were struck were harmless. Root, as a rule, was the aggressor. All through the second round the crowd hissed and kept it up between the rounds.

The third round was so palpably poor that Referee McGuigan leaned against the ropes and waved his hands in disgust at the boxers' attempts to mix it up. After two minutes and twenty seconds of the round had elapsed, Root swung on Ryan and the latter dropped to the floor to avoid it. At this action the referee turned his back on the men and the spectators became noisy. Ryan got on one knee and seeing that the referee was not telling the seconds the boxers went to their corners. The confusion was great. At the expiration of the three minutes the bell rang, but instead of sitting in their corners the men thought it was the beginning of the fourth round. The referee let them go. He watched the men mix up a little and then walked over to where the newspaper men were seated and told them Root had just told Ryan to "mix it up." He watched them again attempting to land blows, which did no damage, and after a minute and a half had elapsed he jumped through the ropes and left the men in the ring alone. His action was met with approval by the crowd. The moment McGuigan left the men, a half hundred policemen, under command of a captain, surrounded the ring, and Ryan and Root stood in their respective corners, not knowing what to do and evidently afraid to leave the roped arena.

Suddenly a soda water bottle, which had been thrown from the gallery, dropped in the middle of the ring. Then a score of policemen climbed through the ropes and waved their hands for the crowd to be calm, after which Ryan and Root were led to their dressing rooms, under heavy escort.

The boxers and their managers declared the action of the referee was an outrage, and that it was unfair to the patrons to have stopped the match, as both men were trying hard. Referee McGuigan said the men were guaranteed $2,500 which they insisted upon getting before entering the ring. As they had the money, he could do nothing but stop the exhibition.

He declared the club lost $1,800 on the venture.

Sicilian Prince Floated.

New York, November 24.—After lying fast in the sand near Point Lookout off the Long Island shore, since early Sunday morning, the Prince line steamship Sicilian Prince was floated at high tide Tuesday. According to the marine observers, who have watched the vessel since she first went ashore, the liner is not damaged to any great extent. It was expected that she would proceed immediately to her dock in Brooklyn.

Willis Armstrong, the motorman on the street car in the Toronto crossing accident of Thursday week, has been placed under arrest. Before the coroner's jury he blamed the car for the accident, and says it was out of order when he took it over. The preceding motorman, Maguire, contradicted this evidence, and stated that the car was in good order.

The twenty-five cent stamp has been added to the Canadian series, which bears the King's head.

GENERAL LOCAL NEWS.

FINAL MEETINGS OF CAMPAIGN SERVE BUT TO ACCENTUATE SPLIT AMONG LIBERALS OF ST. LOUIS DIVISION

Mr. Godfroy Langlois, Liberal candidate in St Louis division, last night held at the Monument National a meeting which served to accentuate yet more deeply the split existing in the Liberal ranks.

Hon. H. B. Rainville, the Government candidate in the division, according to Mr. Langlois, has no claim on the Liberal party. The Liberals kept the honourable gentleman at the City Hall for 20 years, and at Quebec for seven years.

Mr. Langlois was particularly bitter against Hon. J. Israel Tarte, whose whole life, he declared, was a series of betrayals from the time he betrayed his benefactor, Hon. Thomas McGreevy, to the betrayal of Sir Wilfrid Laurier, the leader of the Liberal party.

Senator Beique, Senator Dandurand, Mr. C. A. Wilson, Mr. W. D. Lighthall, K.C.; Lt.-Col. F. W. Hibbard, K.C.; Mr. John Faulkner, president of the Montreal Workingmen's Educational Association; Mr. Honore Mercier, and Mr. A. L. Gareau supported Mr. Langlois on the platform. Mr. A. Brodeur presided.

Mr. John Faulkner opened the meeting with an address, in which he called on the workingmen to put down Bribery. He would like to see the briber and bribed behind prison walls. If the workingmen would have their interests protected, they must send their own representatives to Parliament.

MR. LANGLOIS MAKES SPEECH.

Mr. Langlois followed, and was greeted with applause, while a number of Laval students in the gallery, who had entertained the gathering with songs before the opening of the meeting, gave him a cordial reception. The gathering had before them, he said, the man who had been represented as a free-thinker, a Freemason and an atheist. Despite his denials of these charges, Hon. J. I. Tarte, in La Patrie, kept up the agitation on the ground that he was a Freemason. He was better pleased to have Mr. Tarte and La Patrie against him than for him in this struggle. Mr. Tarte had been betraying people all his life, and could be expected to continue in that course. If he was such a reprehensible character, how was it that Mr. Tarte had allowed him for seven years to control the paper, of which the minister was the political director? In that very paper he had advanced his ideas on public instruction, which now appeared so reprehensible to Mr. Tarte, and to the paid canvassers of Mr. Rainville. Such charges were unworthy of serious consideration and would not be hearkened to by the people of St. Louis.

THE SPEAKER'S PLATFORM.

The speaker defined himself as the representative of the protest of the people against the oppression of the trusts and monopolies fathered by Mr. Rainville and helped through the Legislature through his efforts.

Mr. Langlois declared that he was the Liberal candidate chosen by a free meeting of the Liberals of the division. It was true, he lacked the endorsation of the Prime Minister, Mr. Parent, but it was a new doctrine to Liberals that Mr. Parent, of Quebec, was to choose the candidate in St. Louis division, Montreal. Besides, had the ministers at Quebec been consulted, he was sure that a large section would not have approved Mr. Rainville's candidacy.

VIEWS ON PUBLIC INSTRUCTION.

Mr. Langlois gave expression to his views on public instruction, on the relations between clerks and merchants, and other subjects. On the colonization question, he said that the building of the G.T.P. would open a new region for settlement beyond the Laurentides, and he believed that a stronger colonization policy was necessary. If the party to which he belonged did not carry out a patriotic policy on this subject, he would not hesitate to oppose his party, and, if necessary, join with the opposite party to secure for this province its full development. He appealed to all classes and creeds for support in the best interests of the city.

SENATOR BEIQUE'S ADDRESS.

Hon. Senator Beique followed. He regretted the personal attacks of Hon. H. B. Rainville, and disclaimed any desire to enter into personalities. It had been said that he and Senator Dandurand had left the city, but if Mr. Rainville thought abuse would scare them, he was mistaken. Hon. H. B. Rainville had declared that the speaker was actuated by spite because he had lost $15,000 a year as attorney for some of the big companies. He denied this. He had never been the regular attorney of any corporation; he had at one time been employed as a lawyer by the Royal Electric Company. He was at that time a director of that company with Mr. Rainville and Mr. Forget. He had, with Mr. David Morrice, opposed increasing the capital stock, thus rendering it necessary to charge the public higher rates. He had been offered the presidency of the company, and had been re-elected a director after Mr. Rainville an dhis friends had succeeded in having the capital stock increased, but he had refused to serve on the board, and had sold out his interests in the company. He had no grudge against Mr. Rainville on that account, for that gentleman had a right to do what he did. Another company which had employed the speaker was the Montreal Gas Company, but he had never been their regular lawyer. He had given them advice and services as a lawyer, and they paid him, and he was not bound to them in any way. He failed to see how Mr. Rainville could deny that he was connected with the Montreal Light, Heat and Power, when his name appeared as one of the incorporators.

NEUTRAL IN THE FIGHT.

He had been very careful to write Mr. Langlois that Le Canada, of which the speaker is president, must be neutral in the fight, because Mr. Rainville was a director while Mr. Langlois is manager of the paper. On the other hand, he believed it his duty to come before the electors and ask them to regard their own interests rather than those of Mr. Rainville.

Senator Dandurand declined to be drawn into personalities. "The question was," Did Mr. Rainville represent the ideas and interests of the people of St. Louis, or the interests of Mr. Rainville and the companies which were raising the price of light and other commodities? They were too long stories about Freemasonry that recalled Leo Taxil's famous Diana Vaughn's story. The giant corporations had secured all the water powers now developed, and had secured the rights to undeveloped powers at Caughnawaga and other places, so that the city was in the grip of the trusts and monopolies. The only way to free the city was to send to Quebec men like Mr. Langlois, who would stand up for the rights of the city.

Mr. C. A. Wilson followed, after which Lieut.-Col. Hibbard and Mr. W. D. Lighthall spoke in English, and Messrs. Honore Mercier and A. L. Garceau closed the meeting.

LABOUR CANDIDATE IN ST. LOUIS DIVISION HELD MEETING.

A largely attended meeting was held last night, in the St. Joseph's Hall, corner St. Catherine and Ste. Elizabeth streets, in the interests of Mr. Archile Latrielle, labour candidate in St. Louis division.

The chair was occupied by Mr. Joseph Ainey, one of the founders of the Federated Trades and Labour Council, who delivered an address, urging the electors to vote for Mr. Latrielle on Friday, and thus safeguard their interest.

The other speakers were Messrs. A. Verville, labour candidate in Hochelaga; the candidate in St. Louis, Mr. A. Latrielle; Mr. J. A. Rodier, Mr. Ed. Latrielle, Mr. A. Arcand, Mr. Joseph Gervais, who has just been appointed general organizer of the Soft Stone Cutters' Union for the Province of Quebec, by the president of the International Union, Mr. Averd, past general secretary of the Early Closing Association, who declared that notwithstanding the statements that have been made by the friends of Mr. Langlois, the clerks were with Mr. Latrielle in the fight.

Labour Candidate Meeting.

The two labour candidates will hold a joint meeting to-night in St. Jean Baptiste Market Hall, St. Lawrence street. The meeting will be opened by Messrs. Verville and Latrielle, who will speak of the different phases the contest has assumed, and deal generally with political affairs. It has been arranged, however, that the candidates are not to occupy more time than 15 minutes each, and the other speakers 10 minutes, and the chair will be taken at 8 o'clock sharp.

A Quebec Candidate Retires.

Quebec, November 24.—Ald. P. Hogan, one of the four Liberal candidates in Quebec West, retired from the field yesterday afternoon, leaving Ald. Griffin, J. C. Kaine and M. Madden still in the field. Ald. Griffin is the Government candidate, but the friends of both other candidates are confident of success.

A Breckenridge Incident.

The death of Col. W. C. P. Breckenridge, of Kentucky, will recall an incident to many local participants in the great C. E. convention held in Montreal in the early nineties. Col. Breckenridge was billed to speak on Saturday night on some subject of moment to the C. E. people. It was rumoured about the hall during the afternoon that he would not be present. When the papers of that afternoon were available, the attendants at the convention were shocked to read of the Madeline Pollard revelations. The Rev. G. H. Wells, formerly of the local American Presbyterian Church, but then of Minneapolis (since died), spoke in the place of Col. Breckenridge on the evening in question.

To Change Street Names.

A special civic committee will meet next week and consider requests made for changing the names of the following streets: Boucher to St. Michael; Dufoux to Chenier; Gauthier to Brunet; Quibilier to Tupper.

Dufoux street is a cul-de-sac in St. Louis Ward. It was only recognized as a public street in 1903.

Gauthier street runs from Papineau avenue to Delorimier avenue, and was ceded to the city in 1903.

Quibilier street is the western continuation of Tupper street, in St. Antoine Ward.

DR. PARKIN ON CECIL RHODES

Interesting Paper Read Before Meeting of Royal Colonial Institute.

IMPERIAL MINDED MAN

The Late South African Statesman Eulogized, and His Life Work Described.

At a meeting of the Royal Colonial Institute in London, on November 8th, with the Right Hon. Earl Grey in the chair, Dr. G. R. Parkin, C.M.G., read an interesting paper upon The Rhodes Scholarships.

With a prefatory comment upon the idealism and liberality of this scholarship scheme, the greatest ever devised, Dr. Parkin proceeded to a consideration of its results, eulogizing the imperial-minded man, to whom the Empire was indebted for it. Mr. Rhodes' individual greatness could only be comprehended by a study of his splendid achievements in South Africa.

First there was Rhodesia, commanding through its central position, the whole of South Africa and brought under the British flag by Rhodes' initiative, when the Government shrank from the task. Then his wide plans for the development of agricultural Africa, well devised and richly endowed, his advancement of the "Cape to Cairo" route, his industrial organization of Kimberley. Finally there was the bequest of his entire accumulated wealth to found these scholarships and so carry out plans made in his earliest years. They were not mere monuments to himself, Dr. Parkin said, constructed as an after-thought by a man who did not know what to do with his vast wealth. "Admitting the grievous mistake into which Cecil Rhodes fell at one point of his career, his friends may claim that seldom or never has so noble an atonement been made for individual error. I know of nothing parallel to it in our history."

OPPORTUNITY OF OXFORD.

Whether or not Oxford saw at first the widening of opportunity for herself in this scheme is doubtful. A nervous tremour certainly ran through the common rooms of the University at the first announcement. The fact of two hundred young men being drawn to her from the ends of the earth, from veldt and prairie and Australian bush, brought visions rather trying to the imagination of scholars. But the feeling was temporary and limited. The points of difference of standard in the universities represented in the scholarships presented a difficulty at first that was soon settled by careful arrangement. Other difficulties arose in the new standards, by which Mr. Rhodes desired the scholars to be selected. But in working out the plan, the trustees have aimed to secure the best advice in every community represented. They have come in touch with every educational man of weight in the United States and British Colonies.

Politics and denominationalism were found to be the chief stumbling-blocks to impartiality, but Dr. Parkin was able to make one appeal to all who worked with him. In a materialistic age a man of great wealth had bequeathed his money for the higher purposes of life. Educational men so challenged were bound to make the bequest a success; to fall short of this would be to discourage giving on a large scale for a long time.

This scholarship scheme is recognized in every part of the colonies visited by Dr. Parkin as a mighty binding force within the Empire. It may be twenty or fifty years before its full force is felt, but it has been planned for the centuries and its full development should be awaited with patience. The education, training and atmosphere of this grand old university, the influence of the scheme upon Oxford is summed up briefly thus: "The needs of the University, its right to support, its opportunity to become a great imperial centre. The appointment of a Canadian (Dr. Osler) to an important professorship a sign of the future.

To Trace Missent Letters.

Special to the Montreal Star.

Ottawa, November 24. — The Post Office Department, in its last supplement to the postal guide, has the following notice regarding missent or delayed mail matter: "Persons who receive letters that have been missent or delayed are requested to preserve the envelopes of such and send them specially direct to the Post Master-General with any information in the case that may be of service to the department in making an investigation."

In this having cases of irregularity before the department, care should be taken to send the envelopes of misdirected correspondence, as the post marks thus furnish evidence which enables the department to bring the irregularities home to the offenders. Any information as to posting or delivery which may be in the possession of the person complaining is also desired, since where one piece of evidence fails, another sometimes becomes effective.

Canadian Coal for Mexico.

Special to The Montreal Star.

Sydney, N. S., November 24. — The Dominion Coal Company some weeks ago sent a cargo of five thousand tons of coal to Vera Cruz, Mexico, to be tested on one of the systems of that country. The coal has proven of such excellent quality that a contract for twenty-five thousand tons has been placed with the company, and which will be shipped mostly from Louisburg during the coming winter season. This, together with the 75,000 tons for the Boston and Maine Railway and Halifax and St. John trade should keep the collieries fairly busy until the opening of navigation. The company, however, expect to get this output with a considerably decreased force of men at the mines.

A Nova Scotia Nomination.

Special to The Montreal Star.

Amherst, N. S., November 24.—At a convention of the Liberal party, held here yesterday, to select a candidate to fill the vacancy in the local House, caused by the appointment of Hon. Thomas R. Black to the Senate, E. R. Paul, of Springhill, was unanimously chosen and accepted the nomination. Mr. Paul is a new man in the political arena. The names of E. N. Rhodes, barrister, and C. R. Smith, K.C., are mentioned as among the possible candidates of the Conservative party.

The Murder Trial at Hull.

Special to the Montreal Star.

Hull, Que., November 24. The summary hearing of Hugh McMillan, the shantyman, arrested by Constable Cummings and brought to Hull, charged with the murder of Oscar A. Lauzon, of Montigny, on Sunday, the 13th inst., has been set for Monday, November 28, at 2 o'clock. Several shantymen who were at the scene of the conflict will be examined, and the investigation, which will be before Judge Talbot, will be of a sensational nature.

SON OF BISHOP HAMILTON IS DEAD.

Ottawa, November 24. — Word has been received of the death at Riverside, Cal., of Hubert Valentine Hamilton, second son of the Bishop of Ottawa. In June last the late Mr. Hamilton, who was an athletic young man, dived into the swimming bath of the Y.M.C.A., of Riverside, deceived by an optical illusion into the belief that the tank was full, whereas it contained but three or four feet of water. The momentum of his plunge caused him to strike the concrete bottom with such force that he sustained a fracture of the bone of his neck, resulting in paralysis of his whole body.

MEDALS FOR HEROIC CONDUCT

To Those Who Showed Heroism in Slocum Disaster.

New York, November 24.—It is announced that the medals given by the United States Volunteer Life Saving Association for bravery and heroic conduct during the Slocum disaster will be presented on December 2 by Mayor McClellan. The medals to be presented are in three classes — a silver medal to each of forty-eight persons who risked their lives; 54 bronze medals to those who did heroic work, and 63 certificates of honour to those who assisted rescuers, making 165 in all.

CAN YOU TELL WHAT AILS THIS MAN.

He Is Only One in Hundreds of Thousands. Watch Well Your Own Individual Self.

He has a tremendous appetite, yet has no desire to exert himself in the least. He seems lazy and indolent. His sleep is fitful and troubled. He has pains under his shoulder blades and a bitter taste remains in his mouth. His tongue is often furred and coated. He is dizzy when he gets up to walk or arises from stooping over. One day his bowels may move, but the next day he is constipated. The natural sewers of the body become clogged up, the bile in the stomach not being able to pass out through the natural channels is absorbed into the blood. If you said "he is a bilious man," you would be exactly right, but how few there are who know what to do for such a condition. See here! Read carefully and you will find out what to do. If you have similar feelings, take as directed Smith's Pineapple and Butternut Pills, which are an infallible remedy for biliousness and all other forms of liver trouble. Their effects are quickly seen in a complete change of spirits, regular daily movements of the bowels, refreshing sleep and a rapid return of healthy appetite and digestion. Smith's Pineapple and Butternut Pills are purely vegetable. Nature's true laxative. They always cure sick headache, constipation and biliousness in one night. 25 cents at all dealers.

ROOSEVELT TO TRAVEL LIKE THE CZAR.

Pittsburg, November 24.—The Pennsylvania Railway will carry President Roosevelt, his Cabinet and others from Washington to St. Louis, the trip beginning next Thursday evening. The Pennsylvania received notice of this in Pittsburg last night, and the following statement was given out:

"The President's special will be one of the finest trains of Pullman cars ever handled over the tracks of the Pennsylvania system. The measures of precaution which will be taken will render impossible any delay or accident in so far as human ingenuity can accomplish this. A 'pilot' train will precede the President's special all the distance from Washington to St. Louis, being two miles ahead of the official party.

"All division engineers who have any jurisdiction over any part of the track over which the train will pass will be ordered out for a special inspection to cover the time until the President's party has passed over the respective divisions.

"Besides the 'pilot' train, a track walker will be on every mile of the road between Washington and St. Louis, covering the mile of track just ahead of that being travelled by the 'pilot' train."

Prisoner's Release Ordered.

Halifax, November 24. — Mr. Justice Russell has given a decision of some interest in the case of Walter A. Dickey, held in gaol for over a week on a charge of theft committed at Brooklyn, N.Y., a writ of habeas corpus was applied for, and the prisoner's release ordered.

The prisoner was discharged on the ground that his detention would be wholly void in the case of a fugitive from one state of the American Union to another, the only authority for holding him being a telegram from an American detective agency. On his release, Dickey was at once re-arrested on extradition warrant.

Hon. E. J. Davis' Appeal.

Toronto, Ont., November 24. — The appeal of Hon. E. J. Davis against the judgment of Chancellor Boyd and Justice Teetzel, unseating him in North York, has been set down for hearing in the Court of Appeal for Friday morning.

Toronto Union Station Scheme.

Special to The Montreal Star.

Ottawa, November 24.—The Railway Commission has set down December 9 as the date when the expropriation order of the Grand Trunk for the Toronto Union Station scheme shall take effect. It is probable that the city will be heard in regard to certain objections which it has raised, but everything must be cleared up before December 9.

At the head office of the G. T. R. in this city, it was said that no intimation had as yet reached the company of the order of the Railway Commission.

A "REORGANIZED" HARBOUR BOARD.

There are certain unmistakeable—one is almost tempted to call them ominous—indications that the Government contemplates taking over the Harbour Board and all its works in the very near future. The first tentative feelers have already been sent out through the recognized channels of semi-official communication, to be followed by a formal announcement as soon as the public mind has been keyed to a properly enthusiastic pitch.

There is little doubt that the Harbour Commission has contributed more directly to its own undoing than any other influence. Its sessions have been distinguished rather by perpetual bickering and the interchange of personalities than by the thoughtful and dispassionate legislation expected from a body with grave responsibilities on its shoulders. Many of the commissioners have talked long and feelingly of the "national port" and what it means to Canada, but their commendable loquacity has not expedited the transaction of business which needed disinterested planning much more than fervid oratory. The Board has been dilatory when there was need for haste, it has not known its own mind on matters of the utmost importance, it has squabbled and called names when the interests of the Port demanded united action, but it has, nevertheless, this to its credit—it has more or less successfully blocked powerful interests which have long been attempting to harness the Harbour Board machinery for the advancement of personal projects.

If the present Commission is to be replaced by a body better able to meet requirements, well and good. If the new Board is only to be more compliant and in closer sympathy with certain recognized politico-personal influences, then farewell to Montreal's hopes for honest handling of the interests of the St. Lawrence route. The old Board was, at worst, a negative good; the new one may easily be a positive evil.

SMITH, OF WENTWORTH, SHOULD RESIGN.

There are not so many Conservatives in the new Dominion Parliament that their number should be recklessly reduced; but there is one Conservative member, who is legally in possession of a seat, who should promptly give it up.

The good and sufficient reason is that the seat does not belong to him. It is not by his fault that another man's seat has come into his possession. He is as innocent as a man is who gets another man's gas bill by mistake. But any gentleman will return a mis-directed gas bill; and there is not enough difference between a gas bill and a seat in Parliament to justify a gentleman in keeping the latter when it belongs to another "hot air artist."

But the truth is that a seat in Parliament is the property of the electors. The electors of Wentworth, Ont., voted squarely and honestly for Mr. Sealey, the Liberal candidate. But a deputy returning officer made a mistake and numbered all the ballots in his polling division, which legally had the effect of "spoiling" them. So the judge cast them out; and, with them, the majority for Mr. Sealey.

But this does not change the fact that the electors of Wentworth chose the Liberal candidate; and that the Conservative candidate cannot keep the seat without practically denying to his fellow constituents the right to select their own member.

Mr. Smith should declare at once that he will resign as soon as possible, and thus solve the legal difficulty. Mr. Smith has always made a good member. His defeat is a real loss to Parliament. But it is the prerogative of the people of Wentworth to give their mandate to another man if they see fit; and they ought not to be deprived of this right by an error of a deputy returning officer. The obvious intention of the electorate should always prevail.

THE WAR SITUATION.

With half the Baltic Fleet in the Indian Ocean and half the remainder already at Port Said, interest in the situation at Port Arthur naturally deepens. It has been from the first, an essential feature of the Japanese plan of operations that the fortress be captured before Rosjestvensky arrives. It would be difficult enough to continue operations with a strong hostile fleet at Vladivostok, several hundred miles farther from the centre of activity. Should Stoessel be able to offer a modicum of shelter, Rosjestvensky's hands would be greatly strengthened.

It is interesting to note that all three blockade-runners captured this week have contained nothing more war-like than provisions and medicine, and this in the face of oft-repeated assurances that all the fortress needed was ammunition. If the main arsenal, which was threatened yesterday by flames ignited by a bombardment of naval guns, explodes, there will be another difficulty added to the long list of those with which the garrison is already contending.

To the north, there has been at least one more serious attempt on the part of the Japanese to capture Lone Tree Hill, but, like all its predecessors, it was beaten back with heavy loss, although at one time the attackers were actually in the Russian trenches. Other activity on the Japanese right is interpreted as the possible commencement of a wide turning movement, but it has not yet developed sufficiently to be surely identified.

SOCIALISM IN THE UNITED STATES.

William Jennings Bryan has lost no time in turning Judge Parker's defeat to account. A reflex of the wave which swept Roosevelt in triumph to the White House, lifted Mr. Bryan out of the flotsam of a wrecked and disintegrated party and placed at his disposal the material out of which a new national party is to be constructed. The old Democratic party has had its day—has, perhaps, outlived its usefulness. Except in the South, where Democracy is a tradition, not a principle, it has lost all but a semblance of vitality. A re-organization was not only desirable but imperative.

This task fell to Bryan; it could logically have fallen to no one else, and his roughly formulated platform is one of the most remarkable documents in the political history of the United States. In it are the tenets and creeds of every form of organized discontent: it declares against a strong standing army and an expensive navy, it is uncompromisingly bitter against Imperialism, it calls for radical legislation against those vested interests popularly known as "Trusts," it favours national ownership of railways, an income tax, remedial labour legislation, the initiative and referendum, popular election of United States senators, a reform in the judicial system, and, last, but by no means least, bi-metallism. Some of these planks will be popular, others are impossible. The Republic is wedded to Imperialism and the gold standard; but it has no love for "Trusts."

Still from a purely political standpoint, it is an aggressive document. Mr. Bryan's avowed purpose being to draw up a document which would appeal to what he is pleased to call "the common people" little fault can be found in the way he has taken to do it. If the battle is to be fought out along these lines, however it is as well, in the interests of all concerned, to have the issues clean cut and clearly defined. Republicanism there is a distinction between it and Roosevelt-ism — has gravitated towards the interests of capital, in a word, towards the "classes." Democracy inevitably has swung to the other pole, the "masses." The obvious distinction drawn between the interests of capital and labour is false, regrettable and dangerous, but it is worse than useless to shut one's eyes to the fact that it exists. Given a period of financial depression with its consequent hard times in the industrial world, and Mr. Bryan's party has an excellent opportunity, not only of turning out the Republicans, but of testing the structure of the Republic.

An advocate of the retention of the Philippines by the United States puts forward the argument that "the gift of independence would mean only a transfer of power to a small coterie of Filipino leaders, who would keep the masses in a state of political and economic slavery." Supposing some outside power were ruling the United States for its good, and, in reply to a plea for the freedom of that country, were to reply that the gift of independence would mean only the transfer of control to a small coterie of bosses, who, though they might allow the forms of free government to subsist, would absorb all real power themselves, there would certainly be some truth and force in the statement. It is entirely possible that a so-called despotism or autocracy might give better government to the people of the United States than they now enjoy, enforce respect for laws as they themselves are unable to do it, and give more real liberty to the citizen than he now enjoys. But, even if all these advantages could be distinctly and surely foreseen, would the people of the United States purchase them at the sacrifice of what they call their independence?

NEW YORK TRIBUNE ON ANNEXATION.

Special to The Montreal Star.

New York, November 24.—The New York Tribune, commenting on recent statements made by Goldwin Smith on the subject of annexation, says: "We do not regard Canadians themselves with indifference, on the contrary we regard them with much esteem as an uncommonly progressive and enterprising folk, whose acquaintance is worth cultivating, whose friendship is to be prized, whose rivalry in industry and commerce is not to be ignored, and whose material development presents many object lessons which Americans might well take to heart. We have ourselves frequently pointed out Canada's superiority to the United States in the matter of developing systems of inland waterways and have shown how through such means the Dominion has made serious inroads upon our foreign commerce. Nor is that the only respect in which our northern neighbours have given Yankee enterprise a cause to blush with shame at its own backwardness. What Americans do regard with indifference is not Canada or Canadians, but Canadian annexation. It is more complimentary to Canada to regard her as a nation, strong enough to be forever independent than it would be to look upon her as a weakling that could not stand against the influence of her greater neighbour."

A BIT OF DAILY COMMENT.

The selection of a jury in the trial of the actress Nan Patterson was not by any means a simple affair. Before the twelve "good men and true" were found, eighty-five talesmen had been examined. Twenty-eight of these were challenged by the defence and half as many by the prosecution. So much has been said and written of juries and their sympathies in similar cases in the States during the past year that a wide interest was evidenced in the personnel of this most recent one. Now the trial progresses day by day while the prisoner's aged father, forgetting past annoyance, in a supreme moment sits beside his daughter protectingly.

Chicago has not Montreal's many memorials of an historical past, but it is not so given over to commercialism as is frequently supposed. Workmen in a lumber yard there recently discovered an old iron cross surmounted by a fleur-de-lis, and Chicago, or at least a portion of it, is displaying a real interest in the discovery. The relic similar to that found in the old church at Cahokia was brought to Chicago by Pere Marquette. Its discovery verifies the antiquarian Guthrie's claim fifty-eight years ago that Marquette's original camping place had been on this site, which will now be suitably marked.

The statue of Frederick the Great, given to the American people by the Kaiser and erected on the esplanade of the new Army War College in Washington, was not only a surprise, but in the beginning a cause of embarrassment to the American Government. Poles and Bohemians in the States protested against it; other people wanted to know what claim to distinction Frederick the Great had upon the American nation that his statue should be set up in legislative quarters. And that it should be placed there the Kaiser had expressly stipulated. After much correspondence the gift was formally accepted, and the people began to learn of the great Prussian's connection with the republic. It seems that he upbraided the German princes who raised the Hessian troops for England, and he so prevented the passage of some of these troops through his territories that they never reached the scene of war. He also granted leave of absence to Baron Stenben of his forces, who as drillmaster of the colonials very effectively advanced their struggle for independence.

It is an interesting fact that this man, who called modern Germany into being, had his unique military ability brought an insignificant state into a notable position among European nations. At the age of thirty-three he had won for himself a place in history beside Napoleon and Alexander; he had infused into his countrymen something of his own indomitable spirit and made Germany a power to reckon with. In his contest against the combined forces of Austria, France and Sweden and Russia, he was aided for a time by England. A few years later he was indirectly helping the American colonies in a struggle that probably appealed to his own strong sense of freedom.

THIS DATE THIRTY YEARS AGO.

Messrs. Hodgson, Sumner & Murphy, dry goods merchants, of St. Paul street, have forwarded to Chief Bertram, of the fire brigade, a cheque for fifty dollars, as a donation to the funds of the Firemen's Benevolent Association for services rendered in connection with the fire which destroyed the premises of McArthur & Sons, of DeBresoles street.

MR MURPHY died a few years ago very suddenly at the Hall where he was a guest. He had retired from the firm many years before his demise.

A startling cable this morning from London, Eng., says that excitings rumours are afloat in the city of the sudden death of Queen Victoria at Balmoral yesterday. A later despatch says that no official information has yet been received, and it is hoped the rumour may prove false.

THERE was the most intense and painful feeling all over the Dominion at the false report, for utterly false it proved to be. The story was telegraphed to New York, and, as found out a few hours later, originated in a Fleet street punch house. Stock jobbing was at the bottom of the bogus report, and great indignation was expressed in the press of all countries at such conduct.

The Immigration Home, St. Antoine street, has been thoroughly cleaned and renovated, and the agent, Mr. Chicoine, has sent in his resignation, merely holding office until his successor will be named.

THE late Mr. Ibbotson received the appointment, and an excellent official he proved to be. He was the right man in the right place, and the complaints of previous years of bad management ceased.

Messrs. Thomas Workman and D. Lorne McDougall will be the visiting governors to the Montreal General Hospital for the week beginning next Monday.

BOTH the governors crossed to the unknown world years ago. They were prominent in social and business circles, and ever ready to aid in all beneficent work for the good of their less fortunate fellowmen.

Wore the Wrong Uniform.

Toronto, November 24.—A Mail and Empire's despatch from Ottawa says: "It has just leaked out that the character of the uniform worn by Hon. Jabez B. Snowball, Lieutenant-Governor of New Brunswick, was called in question by an officer of Lord Minto's household. The officer of Lord Minto's household. The officer claimed that the Lieut.-Governor's uniform was one which only the Governor-General or an Imperial Privy Councillor had the right to wear. The Governor asserted that he had his London tailor's authority for the statement that the uniform was of the right class, and for this reason refused to have the uniform altered. The grades of official uniforms are five in number, viz.: 1. Governor-General and Imperial Privy Councillors; 2. Lieut.-Governor; 3. Privy Councillor and Solicitor-General; 4. Deputy Minister; 5. Secretary to the Governor-General. The uniform is the same in all cases, except that the higher the rank the greater the amount of gold lace worn."

The Difficulties of Our Language.

Tiny little Frenchwoman (who is learning poker, to the champion heavyweight)—I—I—what you call it?—lift you up?"

Mrs. Grouch—"If I should die you would never get another wife who would look after you as I have done."

Mr. Grouch—"No, not if I could help it."

There were so many delegates at the Toronto convention that some of them had to climb up to "the gods," thus illustrating the old saying of "the god in the machine."

Mr. Thomas Cote of memory "dear" (or expensive) in connection with the census returns, is featured by Ottawa Events as editing La Presse with a revolver. Down with militarism!

Ald. Carter—like his namesake of the cabstands—appears to know how to drive a queerly assorted double team. Think of Sam Ewing and Senator Dandurand both hustling for him!

Premier Ross told the convention that it was summoned to "keep alive the vestal fires of Liberalism." Presumably the Buffalo belles were "the vestal virgins" charged with this sacred task.

The German theory that a private soldier should permit himself to be slaughtered by a superior officer, should be gently communicated to those excited individuals who thought that Lord Dundonald was a "militarist."

There is this much to be said for the Libs. They only hold a convention when they need one. Laurier has not held one since he got into power; and there are no rumours that Premier Parent is thinking of summoning one in the immediate future.

The saddest thing in connection with the Lib. convention so far is that the resolution committee sat till midnight deciding to turn down the proposal to "abolish the bar," and then hurried down to their hotels to find the ungrateful "bars" closed.

The entry of a journalist into a Government has more than once called forth cloqiums from his confreres. Such an appointment is generally supposed to have a broadening influence. Readers of Graham's Brockville Recorder can, at least, hope that such a supposition in his case may materialize in fact.

A correspondent writes: "Put me down on record as predicting that the Liberals will raise the tariff on cotton manufactures next tariff revision. Why? Because they have pledged themselves to do so, in return for the financial aid of the cotton interests."

The idea of any one believing that promises are made by governments at election times to be kept, entitles this prediction to a place in "Passing Hour."

FIRE AT FARNHAM.

The Loss Is Estimated at About $8,000.

Farnham, Que., November 24.—A fire broke out this morning about 3 o'clock in the block next to the Balmoral Hotel, on Depot street, and occupied by W. Mann, baker, a pool-room, and the Oddfellows' Hall. It soon spread to Wilson & Sons' harness shop and the barns, completely destroying them. The efficiency of the fire brigade, under the direction of Chief Fairfield, prevented the fire from spreading any further.

At different times the Balmoral Hotel and other buildings caught fire, but were soon extiguished. Chief Fairfield met with an accident, which nearly cost him his life by taking hold of a live electric light wire, which threw him down and rendered him senseless for a short time. The damage to the buildings and contents is about $8,000; partly covered by insurance.

PREMIER ROSS ADDRESSES THE LIBERAL CONVENTION ON CHOICE OF PLATFORM

He Advises the Delegates to Choose a Moderate But Forward Platform in Regard to Temperance and Defends His Action Regarding the Referendum — Resolutions Passed Declaring for Purity in Elections —Many Other Questions Under Discussion.

Special to The Montreal Star.

Toronto, Ont., November 24. — The feature of yesterday afternoon's session of the Liberal convention in Massey Hall came after three o'clock, as I shook up the members of the Liberal "machine," who were at that time chatting and smoking in the basement of the hall, away from the scrutiny and the voices of the deputy-ciating delegates. The blow came in a petty resolution, moved by N. W. Rowell, K.C., Toronto, and received added force from a rider tacked on by Captain Hunter, of Toronto, whose sarcastic invective gave wings to his luminous ideas. It remained for Rev. Fred. T. Tapscott, of Sault Ste. Marie, to make the concrete application, and he did so by naming Vance and Sutherland as the sort of men the Ross Government should keep out of election contests. He pointed his lips with his personal experience with these men in the Soo, and the delegates cheered.

ELECTORAL PURITY.

Mr. Rowell then introduced a purity resolution, couched in vigorous terms, and repudiating and condemning in the most unqualified way every form of bribery and all fraudulent schemes to defeat the wishes of the electorate as contrary to the spirit and traditions of Liberalism. Election trials should be continued till every offender was convicted and punished, no consideration, political or otherwise, to be permitted to interfere with the sanctity of the ballot. In moving the resolution, Mr. Rowell declared this not a new policy on the part of the Liberal party. It had secured responsible government for the people, and the whole genius and spirit of Liberalism was that the voice of the people should be heard uncorrupted. In some respects he confessed it had a new application. They had denounced the crimes of their opponents. He saw with regret that there had been circumstances during the past few years which required the application of some of that denunciation to themselves. If it was not the honest and sincere intention of Liberals to stamp out everything of that kind, it would be better not to move the resolution. They spoke of West Elgin. It was said that the corruption of the Conservatives made a by-election necessary there. That was no answer at all. If their opponents were corrupt, the greater was the responsibility resting upon them to maintain a high moral standard in the country. He discussed the saw-off system, and the method by which at election trials, after the admission of one petty case, the trial was closed. He recommended the English custom, by which the public prosecutor rushed the case to the end. Affidavits had to be furnished by both parties before the withdrawal of an election case, declaring that no concealment was involved. J. M. Mowat, Kingston, seconded the motion. He said emphatically that the party was pure at the source, whatever had occurred.

CAPT. HUNTER'S RIDER.

Capt. A. T. Hunter addressed his unwieldy friend, the Liberal convention. He wished to test its honesty. It was all very well to repudiate corruption. That was a programme defiance of no one in particular. He wished to stop corruption in the beginning. He would move as a rider to the resolution, and if they were in earnest some one would second it, that every Liberal candidate should be required to complete his organization with reputable men, chosen from his own riding, and that no person judicially noted for corrupt practices should be included in his organization or brought into contact with his constituents. He asked for a seconder, and cries of "We'll all second that" arose. It was the duty of the party, he said, to train workers in each riding. If they could not do that they should clear out and give place to those who could. Some of their wiseacres had advised the idea to take possession of them that organization was a question like the practice of law. The men in Toronto and elsewhere for export. He could remember the good old days when a number of Smart Aleck's came into the city and addressed meeting in the city. They would charter a boat or buy a hotel, and they were the source of regrettable incidents. If they would organize their own ridings, and instead of sending for outside help, scrutinize every outsider who came in, there would be no need for conventions.

A VOICE FROM THE SOO.

Rev. Fred. T. Tapscot did not claim a hearing as a minister, but as a resident of Sault Ste. Marie. There were only two Liberals in the Sault who were responsible for the trouble there, and they were both from Toronto. James Vance was told from more than one pulpit that his services were not required. No sooner was the atmosphere cleared of the aroma of his presence than the man Sutherland appeared. Mr. Sutherland only gave the satisfaction of telling them that if the election was not conducted cleanly, the tracks would be so covered up that the Conservatives would never be able to discover them. "Clean your own door steps, gentlemen," he concluded amid cheers.

Senator Kerr Coboure expressed his unqualified approval of the resolution, but in justice to the Liberal party and the Conservative party he would ask who originated the system. He recalled the Elgin and Pacific incidents, but could not obtain a hearing.

R. C. Smith, Toronto, said they were a magnificent people but not perfect. There had been things done up and down the line in the name of Liberalism, which were a disgrace to any country. They had come there to clean out these things, he said, and a great cheer went up. He would rather see the Ross Government go down and the party out of power to the crack of doom than win by dishonourable means. Loud cheering followed.

Rev. J. A. Macdonald, editor of the Globe, said he had not expected to say a word. He had other opportunities. There was no hope for the party and there ought to be none if it was not prepared to face any defect in its own rank. He was proud of the party, because he was sure they were prepared to look the worst and ugliest fact in the face. He had every confidence in Mr. Ross, in spite of the worst that had occurred that his integrity was unimpaired and he trusted his conspicuous devotion and ability would be rewarded with five years more to complete his work. He also trusted that nothing should take place in the coming election which might disgrace any one. If they adopted pure methods Mr. Ross would be returned with a larger majority than money could buy.

THE RESOLUTIONS.

The following is the resolution moved by N. W. Rowell, K.C., Toronto:—"That this convention, representing the Liberal party of the Province of Ontario, repudiates and condemns in the most unqualified terms every form of bribery by which elections are illegally or corruptly influenced at elections to the Legislative Assembly, and all fraudulent schemes to defeat the honest purposes of the electorate, as being a violation of the fundamental principles of responsible government and contrary to the spirit and traditions of the Liberal party. And this convention would also call upon the Liberal members of Parliament to devise the most ample means whereby election trials shall be continued until every offender is duly convicted and punished, and that no political or other considerations be permitted to stand in the way of the fullest vindication of the sanctity of the ballot and the protection of public morals."

Capt. Hunter's rider was:—"That any candidate bearing the Liberal colours should try to complete his organization out of reputable men, residing or having business connections in his own riding (hear, hear), and that it is the active duty of every Liberal candidate to see that no person who has been judicially noted for corrupt practices is included in his electorate organization or brought into political contact with his constituents."

The resolution and rider were adopted amid enthusiasm.

NEW ONTARIO DEVELOPMENT.

A. E. Dyment, M.P., East Algoma, introduced a resolution approving the development of New and Northern Ontario, and the extension of the Temiskaming Railway up to Hudson Bay. It approved of the construction of the railway by commission, and its extension to the intersection of the Grand Trunk Pacific Railway, and urged the pressing forward of Government surveys, with the object of connecting the fisheries of Hudson Bay with the centres of population. Ontario depended upon the increase of its population and the settlement of these new districts for the assistance of her manufacturers. He thought there should be a separate Government service to look after colonization roads, town sites and water powers, and other natural resources.

C. N. Smith, of Sault Ste. Marie, and D. C. Cameron, M.L.A., Fort William and Lake of the Woods, introduced a resolution dealing with Crown lands, timber and minerals. New settlers should be allowed to have all the timber and other resources of the land they occupied. The right to cut every description of timber except pine, should be granted at once, and sufficient pine for building and fencing and on the completion of the patent, every resource without any reservation of pine or minerals should be granted.

John Ewan moved a resolution aimed at preventing companies which had been beaten in an effort to obtain from the Provincial Legislature incorporation, going to the Dominion House and obtaining rights there which the province had refused them. The resolution called for legislation to protect municipal rights in this respect.

The next resolution, introduced by Mr. Holmes, of Clinton, bespoke implicit confidence in the Government of Hon. G. W. Ross during the past five years. The convention would regret any change as fraught with danger to the province. The adoption of this motion was the signal for a quite remarkable outburst of enthusiasm. The cheering that followed was of the heartiest character, and the demonstration far surpassed that accorded to Sir Wilfrid Laurier on a recent occasion.

PREMIER ROSS' SPEECH.

"I thank you for your reception," said the Premier. "I were less than human, indeed, were I not overwhelmed, if not overcome, with the cordial greeting you have given me." He had little idea when first sworn in that on the twenty-first anniversary of that event such a reception was in store for him. He knew that in the hearts of the Liberal party, in spite of misunderstandings and misconceptions—and he thought it was misconception rather than anything of malice that was to be found on the part of his opponents—that he had a place somewhere deep in the hearts and generosity of the Liberal party, and that was a great reward.

The enemy had considered them down, scotched and subdued, but they were still as vigorous and virile as ever, and there was no weakening of character or conscience amongst them.

He was more than delighted with the practical character of the resolutions adopted. He was especially pleased with the declarations made that afternoon on behalf of political morality. He hoped their brethren, when they met next day, would pass a similar resolution and take it as much to heart as he believed the Liberals would do. It would be a sorry thing if, after thirty years of clean, progressive government, they should close their career in the clouds that had come over them in the last few years, or that their children should think them recreant to the principles of true liberalism. It would, indeed, be a sorry thing if any historian should say that their honours were purchased at the price of morality or at the sacrifice of the truth and honesty the party had so long upheld.

RECORD OF LIBERAL PARTY.

He had served the great Sir Oliver Mowat and the generous Arthur Hardy. The enemy said he had pushed out Mr. Hardy, but the enemy generally lied, and they did on this occasion. Unless the party found some reason for his getting out he expected to stay there till Providence called him away, or a better man could be found to carry on the Government. He was old enough to remember the conventions of '67 and '83. It was an extraordinary thing that the party had never before laid down a platform for their leader. It showed great confidence in the leaders or great skill on their part in determining the mind of the people. He hoped they would never need to call a convention again.

LIBERAL CONVENTION.

They had heard of the great areas of land in the north land, the home of the deer, the wolf and the bear. Should it be follow with its $75,000,000 of pine, as much hard timber and countless millions of minerals? He recognized Sir Wilfrid Laurier as his great leader, and why should they not take advantage of the Dominion railway policy and rise to the importance of the conquest of that land and the opening up of Hudson Bay?

THE TEMPERANCE QUESTION.

Sir Oliver Mowat had pledged himself to bring in temperance legislation to the limits of the power of the province, but he and Mr. Hardy both retired before they could carry out their projects. As successor to them he felt that he could not repudiate the plighted faith of his party. In endeavouring to implement his promises he submitted the Manitoba Act to the Legislature with the addition of a condition requiring the approval of the people. They could not pass a prohibition law with the consent of the Legislature alone. In 1902 the conditions were not fulfilled and prohibition was not adopted. They must understand the difference between a leader and a dictator, and he had to follow the wishes of the people. He might have forced a bill upon the Legislature and gone to the country, when he would have been defeated.

"No," was heard from the hall.

"Might have been," corrected the Premier. The history of dictators was short, he said. William Jennings Bryan had tried to force free silver on the United States. Charles I. tried to force Episcopacy on Scotland. He desired anyone acquainted with the duties of a leader to say should he have followed their example. He went to the country in 1902. At first six was the majority, not the lucky even numbers this time. The majority was reduced by misfortunes in the courts and by death to three. The three were as dauntless as those who kept the bridge in the brave old days of old. They had put through legislation which would have done credit to a majority of 16. Not one of his followers had failed him during that time. They went into the work of the session, fought a hundred fights, and never lost a gun. He had been told he could not carry on Government with a majority of three, and that they should resign, but he would never do so as long as it was possible to carry out valuable legislation. They had put through the complicated assessment act, and taken up the Sault works, where 4,000 men were now employed, and steel rails were being turned out daily.

ADVISED MODERATE POLICY.

They were gathered there to advise him what was to be done on the question of temperance. As in the case of electoral reform and public ownership, they should have a progressive policy. They should not seek for the pound of flesh. Shylock was dead long ago. But if they could strike the line wisely, and not be afraid to aim high, they could keep the policy of the party in advance of that of the Conservatives. They should do what they could to mitigate the evils of the traffic and support the good men who fought against it. The fundamental power and purpose of the Liberal party was with the electors. He was not a coward to run away or resign. That might have done no little harm to the cause. They must adopt a platform not too meagre, nor one not sufficiently balanced, nor too aggressive. He had been charged with being a traitor once in a while. He was the custodian, he thanked God, of his own honour. They were there to tell him what they should do. It would not do to try to carry on the Government much longer with a majority of three. The nervous strain was too much, apart from anything else, even if he should find a majority of three when he went to the House. They must give him a bigger majority. He was loyal enough to the Liberal party to abide by their decision.

THE MINISTRY'S RECORD.

"I do not think that you will gain much by a change of Government. Perhaps I am not a judge," he remarked. He had seen some Governments that had come to an untimely end. In 1896 the country was full of scandal, but that was not the serious side of the question. The Ministers of the Crown had degraded their high office, put their hands to corruption, and bought up seats by the score. Their own strong tower, their Malakoff was the purity of their acts as Ministers. Let any one show prostitution of their high office, and he would retire at once. There had been no proof produced of any corrupt act. No ballot box had been burned by them in Muskoka. They had not switched ballots as the Conservatives had done. No election was carried more honestly or purely than that of 1902. As with the Irish party everything not proven against them was assumed against them. Was that fair? Although three judges had said there was no evidence against them it was assumed evidence must exist somewhere, and the public was kept in a limbo of suspicion, where nothing could be seen clearly. He hoped he would be permitted to earn sufficient title to their good will by further service. He was in his 34th year of public service now, as strong and able as 34 years ago. There was no duty, mental or physical, that might be laid upon him to which he was not equal. Whether defeated or victorious at the next election, and they ought to be victorious, they would congratulate themselves that they had held the fort longer than any Government in British history.

THE PERORATION.

In a peroration of some length, he described the comfort and comeliness of life in Ontario and the moral vigour and virility of the people. They robbed no man of his birthright, nor encroached on the conscientious scruples of any of His Majesty's subjects. Whether under his leadership or that of another, his prayer was that in the bonds of their lovely heritage, where freedom slowly broadened down from precedent to precedent, with the church spires pointing to the destiny they all hoped to attain, and the schools laying the foundation of civic strength, that prosperity would enable them to preserve the beauty of exalted citizenship ever found under the flag which was the emblem of imperial power and constitutional liberty. Mr. Ross spoke for about 40 minutes. He spoke evidently under effort and somewhat hoarse at times. He was enthusiastically applauded on resuming his seat.

FURTHER RESOLUTIONS.

"You're the kind of timber," was the greeting to Hon. A. G. Mackay, when he came forward with a resolution, seconded by John Mackay, that the most liberal terms be offered to prospectors for minerals, provided that their claims be developed within a reasonable time.

The preservation of immature timber in pulpwood concessions, and the conservation of forest interests was the subject of the next motion adopted.

The next resolution declared that many public interests would be greatly protected by the appointment of a Provincial commission having authority to deal with such questions as the bonding powers, and capitalization of companies concerned in the operation of public utilities, the application of municipalities for consolidating debts, and by-laws of municipalities purporting to confer monopolistic rights in public utilities, such commission to have power to advise upon the terms of such by-laws and generally upon other matters similar to certain state commissions in the United States or the Local Government Board of the Mother Country.

Hon. J. M. Gibson thought the convention should not swallow the resolution without understanding what they were swallowing. It was sought to remedy the over-capitalization of companies seeking incorporation and the watering of stock. Many applications were made by municipalities for the consolidation of debt. Many of these were attempts to sneak through schemes to incur further debt, without appealing to the voters. He thought the board would serve a most useful purpose. But great care would have to be taken in the organization of such a board, with powers such as were suggested. It was not now mooted for the first time, but had been suggested by a committee of the House a session or two ago.

PARTY ORGANIZATION.

Joseph McDougall, of Ottawa, introduced a resolution dealing with the organization of the party for the next election. It read that the Liberals of Ontario form an executive body to support and maintain the Liberal organization of the province, which shall be elected by and responsible to the general body of Liberals of the province, and that the following be a committee to report on the subject, Hon. G. P. Graham, W. S. Calvert, M.P., C. M. Bowman, M.L.A., B. H. McLean, Carlton; J. McD. Mowat, Kingston; Fred. Stone, Chatham, and D. J. McDougall.

Dr. Chamberlain introduced a resolution looking to the encouragement of international transportation by radial railways in rural districts. The convention would approve of any legislation whereby any bona fide company might have power to enter into a contract with county authorities and have authority to endorse bonds of a company having reasonable security. The resolution was not satisfactory and was referred back to the committee.

T. H. Preston, M. L. A., brought in a labour resolution, the second clause of which raised most discussion. It declared that these branches of the public service affecting labour should be consolidated with a view to the fullest consideration of the various matters with which they are concerned in order, if possible to establish better relations between capital and labour, to aid in the avoidance of strikes by the best methods of conciliation and to prevent unskilled, alien and pris on labour from unduly interfering with the opportunities of the working classes of the province.

J. J. Hunter, as a labour man, hoped to see the different labour departments consolidated under one Minister of Labour, or deputy minister.

Louis Gurfosky followed in the same strain and hoped the Minister would follow in the steps of Sir William Mulock. Mr. Wallace, of Brockville, also endorsed the plan. Mr. Jenkins, of Petrolea, desired to have all goods made in prison so marked. If they asked why, he said, there was no why.

CONVENTION NOTES.

Among the delegates to the convention was Mr. George Sutherland, one of the chief engineers of the Liberal "machine," whose name has been prominently mentioned in despatches from Sault Ste. Marie, Lennox, North Renfrew and other constituencies.

Hon. J. R. Stratton entertained the members of the West and East Peterborough delegations to the convention at dinner at the King Edward last night.

"Instead of being maligned by the press, the late Provincial Secretary should have been exalted to one of the highest positions of eminence ever given to any of our statesmen," was one of Hon. G. W. Ross' glowing periods in praise of Mr. Stratton.

Hon. J. R. Stratton, in response to calls from the audience, delivered a brief speech, defying his critics. "The vilest stories of calumny put out against me originated in a gang of corruptionists the like of which was never before seen in this country," was the ringing key-note of Mr. Stratton's argument.

While the convention was waiting for business from the Resolutions' Committee, the new Ministers, Messrs. Graham, Evanturel and MacKay, were called upon. Each was given a hearty reception.

The first resolution reported by the committee was moved by Mr. J. Chisholm, of Hamilton, endorsing the policy of the Educational Department, especially in regard to the provision regarding education in agriculture and manual and domestic service training, and favouring assistance to the pro-

HON. W. A. CHARLTON,

Commissioner of Public Works in the re-organized Ross Cabinet.

What Chance Do You Stand?

If You are Afflicted With Foul, Offensive, Disgusting Catarrh, Your Progress Will Be Slow.

Catarrh is a terrible handicap in the business and social world. The extreme offensive nature of the disease, the foul and sickening breath, the everlasting hawking and spitting, the fetid discharge at the nose, the watery eyes and catarrhal deafness all combine to make the unfortunate victim one of the most avoided and despised of mankind.

Many first class, competent men have lost good positions on account of their unbearable presence, due to catarrh. The catarrh victim is tabooed socially and his appearance is secretly dreaded. What makes the matter worse is that he does not know himself how offensive he is, as his sense of smell, and frequently taste, is destroyed. Leaving out of consideration the suffering, annoyance and danger of the disease, no man can afford, from a business or social standpoint, to have catarrh for one minute if he can possibly avoid it.

Stuart's Catarrh Tablets have done more to stamp out this disease than any known remedy. They strike at the root of the malady and completely expel it from the system. Catarrh is a deep-seated disease and will not yield to local applications, such as sprays, ointments, inhalations, etc. Stuart's Catarrh Tablets cleanse the system and renovate it thoroughly of all impurities. Under their influence all catarrhal poisons are carried off and the blood becomes pure, the eye bright, the breath sweet, discharges cease, the head clears up, the sense of smell and taste are restored and the sufferer becomes sound and well and fit to associate with his fellow-man.

Stuart's Catarrh Tablets are for sale by all druggists at 50 cents a box. The druggist no more thinks of getting along without Stuart's Tablets than he would without his prescription case. The demand for them is so universal and their popularity is so great, and they have cured so many thousand people that he would not be considered an up-to-date druggist if he did not keep them, and his customers would lose confidence in him and go to some other store to buy their other drugs as well as their Stuart's Catarrh Tablets. 280 3 2aw

NOT FOR BEST FARM

In the State.

"I saw so much in the papers about the wonderful cures effected by Pyramid Pile Cure, I determined to give it a trial. I bought from my druggist one fifty cent box and used it as directed, and by the time I had used the last "pyramid" I was entirely cured; in four days after I began to use the "pyramids" all inflammation was gone. I was perfectly easy all the time, the excesive discharge stopped at once, and stools became easy and gentle.

"I was unable to get my own firewood for four months, and half the time when I could walk at all I had to walk half bent. I used many pile remedies, salves and ointments, all to no effect until I used one fifty cent box of Pyramid Pile Cure and was cured.

"I would not be afflicted as I was four months ago for the best farm in the State of Arkansas. I can give proof and reference of the wonderful cure to all who are afflicted as I was. Pickaxe publish my letter that I may advise the afflicted." W. E. Wallis, Piggot, Ark., Box 26.

The experience of Mr. Wallis is that of thousands of others who suffer for years with the most painful forms of hemorrhoids or piles, and after trying everything they hear of, give up all hope of a cure and look for temporary relief only. To all such, a little book published by Pyramid Drug Co., Marshall, Mich., brings glad tidings, as it tells all about the cause and cure of piles, and is sent free for the asking.

TEMPERANCE PEOPLE AND MR. WHITNEY.

Special to The Montreal Star.

Toronto, November 24.—A meeting of temperance people was held last night to consider the advisability of approaching Mr. J. P. Whitney, the leader of the Conservative party in Ontario on the temperance question. After a long discussion it was decided to let the question remain in abeyance till the policy of Mr. Ross was definitely determined. Those present were unanimous in their opinion that the Liberal party had unfairly treated the temperance party, and that the Premier deserved punishment for his perfidy. Mr. Webb, a delegate to the Liberal convention, said that he believed that nothing in the way of temperance legislation could be expected from Mr. Ross. The convention was packed. Most of the delegates had been appointed by the Liberal executives of the ridings of the city, and most of those in the country, and a large proportion of them were office holders under the Ontario Government. They seemed already to have decided to oppose any temperance measure which might be proposed, and Mr. Webb had gathered from the speech of Premier Ross that the latter considered himself released from all his previous pledges by the referendum.

LEIGHTON M'CARTHY MAY BE COUNTED OUT.

Special to the Montreal Star.

Barrie, Ont., November 24.—The recount of the ballots cast in the North Simcoe election was concluded yesterday afternoon before Judge Ardagh, and argument was begun in the case of the disputed ballots numbered by the deputy returning officer. It is now only a matter of five or six votes between Major Currie, the Conservative candidate, and Mr. Leighton McCarthy, the Liberal member-elect, with good prospects of the former being declared elected

At the foot of his will, the Rev. William Richardson, of Lewes, England, wrote: "This is all twaddle—only wreckage of an estate to leave." But he left $57,416.

WOOLLEN INDUSTRY DOES NOT SHARE GENERAL PROSPERITY

Special to the Montreal Star.

Ottawa, November 24. — Mr. J. E. Brown, woollen manufacturer, of Kingsville, Essex County, in an interview here, said the Canadian woollen industry was still suffering very much for need of protection.

"I am intending to move my manufactory to the United States," said Mr. Brown. "I think you can buy the stock of any Canadian woollen concern at the rate of twenty-five cents on the dollar. To be successful, we should have a protection of at least thirty-five per cent. We have gone on our hands and knees to the Government and begged for more protection, but so far we have got little or nothing. While the country generally is prosperous, one thing sure is that the woollen industry does not share in it."

SIR WILLIAM MULOCK IS GOING TO MEXICO.

Special to The Montreal Star.

Ottawa, November 24—Sir William Mulock leaves in a couple of days for Mexico to consult with the Mexican Government with a view to the establishment of an Atlantic steamship service between the two countries, the intention being that the line shall run from Montreal in summer and from a maritime port or ports in winter. At the commencement the proposed service will be monthly. Sir William fully expects to dispose of the business which is taking him to Mexico and to return in time for the opening of Parliament.

A Vessel Rammed in Harbour.

New York, November 24.—Fourteen hundred Italian steerage passengers returning to Italy on the La Veloce line steamship Nord America were thrown into excitement yesterday when the ship was rammed by the New York, New Haven and Hartford Railway float No. 6, in the harbour off Liberty Island. The float struck the steamship about forty feet from the stern and two feet above the water line, tearing a hole twenty feet long and six feet high in her plates, and making it impossible for the vessel to continue her voyage without extensive repairs.

The Nord America will have to be docked and returned, and cannot resume her trips for some time. The company is in a dilemma as to what to do with the steerage passengers thus left on its hands. The next steamer of the company to sail, the Lombardia, due here to-day, has every place on her booked

Special Notice.

Heintzman & Co. Score Again.

His Excellency the Hon. Mortimer Clark, governor of Ontario, has just received the magnificent Heintzman & Co. Piano ordered by him some time ago. The Speaker's room in the Parliament House has just been furnished with a Heintzman & Co. Piano, purchased by the Government. Mr. Osborne, the director of the Winnipeg College of Music, has just purchased a Heintzman & Co. for his own use, and Mrs. Julia Henshaw, the famous Vancouver artist and critic, has purchased another. It puzzles us to keep track of these honours, they come so fast and so thick. Only a few weeks ago Mayor Laporte, of Montreal, purchased a Heintzman & Co. Piano, of the finest style, and McGill University Conservatorium of Music purchased eighteen. Let us warn the public that the name is just "Heintzman & Co."; there is no other name either in front or behind. C. W. Lindsay, Limited, 2366 St. Catherine street, Montreal, are the sole agents for the Genuine Heintzman & Co. Pianos. 279 3

REVOLT AGAINST PREMIER PARENT

Senator Choquette Is Strongly Opposed to Provincial Leader.

HE WILL SPEAK TO-NIGHT

Has Invited the Premier to Attend and Defend Himself—Excitement at Quebec.

Quebec, November 24. The Liberal revolt against Premier Parent, led in the district of Montreal by Senator Legris the other night, has been taken up here by Senator Choquette, who publicly declares his intention of denouncing the Provincial Premier at a meeting in Quebec East to-night, in support of Dr. Jobin, who is opposing Mr. Parent's candidate, Mr. Parveau, in that constituency.

The cause of the onslaught here is Mr. Parent's alleged support of Mr. Forget, M.P., and of his candidate, Mr. D'Auteuil, in Charlevoix, against the straight Liberal candidate, Dr. Sanotte. Senator Choquette has called his attention to Mr. Forget's frequent u-

HON. A. G. MACKAY,

Commissioner of Crown Lands in the re-organized Ross Cabinet.

claration in th county that Mr. D'Auteuil had Mr. Parent's support, but the Premier has ignored the protests and declared that he was not interfering at all.

Senator Choquette wrote to Premier Parent to-day, telling him what he intended to do to-night and inviting him to attend the meeting in St. Rochs and to defend himself.

The Senator claims that Mr. Parent's usefulness as a Liberal leader has gone and that he must disappear. He alleges that the revolt against him in the Liberal ranks is general and that he has in his possession and will read at to-night's meeting a copy of a letter written by Mr. Parent's law partner, Hon. Charles Fitzpatrick, Minister of Justice, giving the weight of his support in the local contest now pending in Quebec West, Mr. Kaine, against Ald. Griffin, who has the personal support of the Premier.

Ald. Hogan, who retired from the four cornered contest in Quebec last night claims that he also has been misled and believed that he would have had the support of the local government. The promise of the revelations and attacks to be made at to-night's meeting are public property here, and excited groups of men are to be met in all parts of both the east and west divisions of the city anxiously and excitedly discussing the situation.

Instead of the general abstention from voting in these divisions to-morrow and the lack of interest that was anticipated in the contest, it is now pretty apparent that there will be a giant trial of strength between Mr. Parent and the revolting Liberals who will leave no stone unturned to defeat the Premier's candidates in both divisions.

ALD. MARCHAND'S CAMPAIGN IN ST. MARY'S

A meeting of the English-speaking electors of St. Mary's division in favour of the candidature of Ald. J. T. Marchand was held at 103 Craig street last night. Mr. M. White occupied the chair.

Ald. Marchand, in the course of his address, referred to the work he had done in the interests of the ratepayers in the City Council and said that if returned to Quebec he would continue his good efforts for the welfare of the people. The meeting was also addressed by Messrs. John Kennedy, J. B. Mack and Thos. Fisher. The latter represented the Federated Trades and Labour Council, and called upon all branches of organized labour to put forward their best endeavours to secure the return of Ald. Marchand on Friday.

ENDORSE ALD. WALSH.—At the regular meeting of the Maple Leaf Lodge, No. 134, Brotherhood of Boilermakers and Iron Shipbuilders, some interesting topics were discussed, amongst them being the lack of protection of Canadian industries, particularly aginst American competition. Before the meeting adjourned a resolution was unanimously adopted, endorsing Ald. Walsh's candidature in St. Anne's.

QUIET TRADING IN STOCK MARKET

Only One Session With No Lead From United States Markets.

DETROIT UNITED STRONG

Operators Took Montreal Street Railway in Hand and Price Moved Up Two Points.

Owing to the absence of a lead from Wall street today, the local market did a fair amount of trading during the forenoon, but it was decided to dispense with the afternoon board.

There was a marked dearth of anything in the nature of commission house trading, and a few operators took Montreal Street Railway in hand and easily worked the price up from 215 at the opening to 217, after which the price reacted a point from the top. Yesterday's range was 214 to 214½.

DETROIT UNITED STRONG

The only other issue which was at all prominent in the dealings was Detroit United. Yesterday the price sagged to 77, but before the close rallied to 78. To-day the initial dealings were at the same price, with a subsequent rise to 78½. Earlier in the week the price rose to 78¾, followed by a reaction of 1½ when weakness developed in Wall Street.

The market was divided between advances and declines. Stocks which showed a lower trend were Nova Scotia Steel, Twin City, Toronto Railway and Dominion Iron pfd.

TRACTIONS WERE EASIER.

The latter, which was up to 104¾ a few days ago, has worked down to 103½. Twin City, which closed at 105¾ yesterday, sold at 66½ to 66⅝. The changes in the transactions were very slight. Twins selling is down, at 106, and Toronto the same at 106 to 105⅞. Halifax Tram continued to show strength, and sold higher at 103. and Toledo was steady at 52.

Montreal Power showed some strength at the opening of the market, by selling a half higher at 85½, but before the end of the morning the gain was lost, and the stock was sold at 85. There was nothing done in Canadian Pacific, and quiet times were normal. The rights sold in small quantities at 6 to 6½.

ASTHMA

Permanently Cured after Physicians had Pronounced the Case Hopeless.

Asthmatics know what a waste of time and money it is to go to specialists. Their treatment is all alike—the stereotyped sprays and gargles—which may afford temporary relief, but never cure.

Clarke's Kola Compound not only affords instant relief, but completely eradicates the disease from the system.

Mrs. J. Wise, of Vancouver, writes: "I have been a sufferer from Asthma for eight years. My doctor told me I could never be better. Then I heard of a gentleman who had been cured by Clarke's Kola Compound, so I tried it. Before I finished the fourth bottle, the attacks ceased, and during the six months of damp, foggy, rainy weather, I have not had a single attack."

Such confidence have we in Clarke's Kola Compound that we will send a sample bottle free to any address. Write to-day, and get relief.

SEVERAL CHANGES ARE RECOMMENDED

Result of Conference Between Board of Trade and Underwriters.

IMPROVEMENTS DESIRED

High Pressure Water System and Underground. Telephone and Telegraph Wires.

The result of the conference between the special committee of the Montreal Board of Trade Council, and a committee of the Canadian Fire Underwriters' Association, pertaining to urgent improvements necessary for Montreal's fire protection, has resulted in a recommendation for high pressure water system, and underground telephone and telegraph wires.

The report contaiming these recommendations, was read at the meeting of the Board of Trade Council yesterday afternoon. The Council, after discussions, finally decided to lay the important question over until the meeting next week.

The council, after considering the question of the proposal of the City Council to revise the present system of taxation in Montreal, concluded to renew its former representations in favour of the adoption of a tax to defray the cost of keeping the sidewalks clear of snow and ice during the winter, which work it deemed advisable, the city corporation should undertake.

Mr. James Crathern, the board's representative on the Harbour Commission, presented a communication which set forth that the plans adopted for the two-storey sheds on the wharves are to be re

THOSE WHO MADE BOGUS BALLOT BOXES TELL THE WHOLE STORY

Rielly Paid Several Visits to Watertown During the Month of October, and Came to Terms With Tinsmiths in the Employ of a Mr. Irwin.

The Original From Which the Boxes Were Made Came From Portsmouth, Ont.—The Boxes Were Shipped to Canada By Way of Ogdensburg.

Understood at Watertown That the Boxes Were to Be Used in Both Dominion and Provincial Elections.

From D. Neil McIntyre, a Staff Correspondent of the Montreal Star.

Kingston, Ont., November 24.—"Yes; the bogus ballot boxes which are kicking up such a row over in Canada were made right in the back of this shop," said E. B. Irwin, a tinsmith, of Watertown, N.Y. Mr. Irwin has one of the largest tinsmith shops in this city and in addition does a large retail business.

His store is at 26 Court street. In connection Mr. M. R. Scott runs a jewellery establishment.

Mr. Irwin had at first denied all connection with the affair, but ultimately he stated the full particulars of his connection with the case.

"I was visited by a man giving the name of Rielly, on the first Sunday in October," he said. "He was a tall thin fellow, with a small freckled face and bright eyes. He said he had been directed to my store by some friends of his. He wanted some work done. I asked him what he wanted. He at once produced plans and drawings of some ten boxes he wanted made. He had also a model. It was labelled 'Portsmouth,' and Rielly said it had been made in Watertown. There were several minor changes he wanted in it. I didn't like the job. It looked crooked. I told Rielly so and he did not like it at all.

DICKERED WITH THE BOYS.

"He asked me if I had any objection to his making an arrangement with my men to make the boxes. I told him to go ahead. He went to the back shop and interviewed them and finally he came to an agreement with them whereby they were to make twenty of them. They were to receive two hundred dollars for doing so. After dickering with the boys Rielly turned to me and asked if I would mind forwarding them to him. I agreed. He then asked me to forward them by express, to C. A. Kavanaugh, Ogdensburg. They would be called for. As Rielly was a fair spoken young fellow I agreed, and on October 22nd the boxes went in one consignment to the above address. They were billed as tin pails and were boarded."

Mr. Irwin here showed the reporter his shipping register, which attested the above.

SAW RIELLY THREE TIMES.

Mr. Irwin continued: "We saw Rielly three times in all. The second time was on the ninth and tenth of the month. The last time was about the twentieth. On this last occasion he was accompanied by a stout man of medium height, whose name I do not know. He was supposed to be from Napanee, Ontario, and had been here before as agent, I think, for some patent brick apparatus to go inside stoves. They seemed to be rather nervous this time. Rielly came to the store several times, and Mr. Scott came across to me after he went out the last time and said, 'Why does that fellow change his hat every time he comes in?' I jollied Rielly about it after and it seems he thought it disguised him."

Mr. Irwin stated that he could identify Rielly's companion. He was a stout man with a smooth face. His complexion was rather fair. He had not stayed at the Herriman House, where Rielly was, but at the Woodruff, the leading hotel. He and Rielly had, he thought, separated, the stranger going back to the "Burg" before Rielly.

Mr. Irwin had been surprised to receive a visit from Phil. Lott on Monday last. Lott had given him an account of all that had happened in Belleville, and had asked his assistance in clearing up the case. He, with Mr. Smith, had made their declarations, and had let Lott have the sample box, with the plans. He was positive that the box had "Portsmouth" written on the side. Lott had, moreover, prevailed on one of the tinsmiths to go to Belleville for the trial, and he would identify Reilly. The evidence would be startling.

Mr. Irwin refused to give the name of the employe who had left for Canada, but the latter could identify Reilly. He had accompanied Reilly to a football match, and the two had discussed football, in which Reilly was interested. Mr. Irwin could not go to Canada for the trial. He would be happy to help the ends of justice. He had not received any money for his share in the matter, and the statement published in Watertown that fifty thousand dollars had been paid the manufacturer was absurd.

FOR USE IN TWO ELECTIONS.

Reilly had hinted that the box would be used generally throughout Ontario, both at the Dominion and the following provincial elections. Fully twenty had been made in Watertown, he was sure.

Mr. Irwin further stated that he had been visited on Wednesday morning by Col. Sherwood, of the Dominion police, and he had given him all the information he possessed. Men in his shop had been working with another manufacturer two years before when similar boxes had been made. It was common talk in the city that the "Ross Government will win their election in Watertown."

Mr. M. O. Scott, jeweller, who occupies half of Mr. Irwin's store, confirmed his statement throughout. He was a Canadian by birth, and would like to see justice done. He had seen the boxes manufactured, and had been present when they were boxed and labelled.

He could identify the man Reilly. On examination of the hotel register at the Herriman House, Court street, the name of F. J. Reilly was seen on the register for October 10 and October 20.

The signature of the stranger who accompanied him on his last visit could not be identified.

COL. SHERWOOD INTERVIEWED.

Col. Sherwood, when interviewed by the Star staff correspondent at the Woodruff House, admitted that he was in Watertown in connection with the ballot box scandal, but refused to say anything as to the results of his trip. He arrived in Watertown Tuesday evening and left this morning, returning via Cape Vincent to Kingston.

At the Watertown police station, the Chief of Police stated that he had been visited by Col. Sherwood and had been glad to direct him to certain parties. There was no question of arrests being made.

Phillip Lott, on his visit here last Monday, arrived at 6 p.m. from Kingston, via Cape Vincent. He had registered at the Herriman House, and went out and visited Scott and Irwin's store, and later returned. He went to Ogdensburg later, taking with him a good sized parcel, which appears to have contained the sample box obtained at Irwin's.

At Ogdensburg it was learned that Lott had endeavoured to identify C. A. Kavanaugh, but no such man had been found there. He had crossed to Prescott from there. The Star staff correspondent endeavoured to investigate the rumour that similar boxes had been made in this city two years ago.

The name of J. B. Wise & Co. was connected with the rumour, which proved to be incorrect.

Mr. C. R. D. Wise, the son of the senior member of the firm stigmatized the report as untrue.

FOUR CANADIANS DROWNED NEAR SARIA.

Port Huron, Mich., November 24.—The rowboat of William Briggs, the night ferryman between this city and Sarnia, Ont., which is directly across the St. Clair River from here, was upset near the Sarnia dock early to-day, and four men who were passengers were drowned. The names are: Alfred Greene, engineer, St. Thomas, Ont.; John S. Chreeman, fireman, St. Thomas; John Dack, brakeman, St. Thomas, and James Connell, barkeeper, Sarnia, Ont.

Ferryman Briggs left the Port Huron dock with six passengers in his rowboat. A heavy sea was running on the river, kicked up by the strong north wind that was blowing. The boat pitched and tossed on the waves, but made the passage safely until within about 100 yards of the Sarnia dock. Then a heavy back swell from the shore suddenly caught the craft and capsized her. Ferryman Briggs, John Dobson, an engineer, of St. Thomas, and Daniel Fisher, a conductor, of Ridgetown, Ont., saved themselves by hanging to the overturned boat, but the other four passengers were drowned. The three railway men who were drowned were Pere Marquette Railway employes.

LIBERALS HELD AT STANDSTILL

Convention Marked Time This Morning While Committe Argued.

THE CAUSE OF TROUBLE

Was the Policy to Be Adopted Regarding Prohibition—A Compromise Reached.

(See also page five.)

Special to the Montreal Star.

Toronto, November 24. — The Liberal delegates got together this morning with the expectation of trouble. The resolution committee were downstairs struggling with the temperance programme, and the whisper had gone forth that what was to have been the big resolution of the convention was being "treated" with the object of very materially limiting its scope and effect. Temperance delegates were known to have come to the hall primed, many of them supplied with amendments and

HON. F. E. A. EVANTUREL,

Minister without portfolio in re-organized Ross Cabinet.

determined to press them to the last ditch. Premier Ross was in his place on the platform long before the hall had filled up. He conversed with D'Arcy Scott, of Ottawa.

The fall in temperature outside was reflected in the hall. A few fur caps and turned up coat collars were seen and the Premier paid tribute to the low atmosphere by sitting on the platform wearing a heavy overcoat. Chilliness combined with impatience caused the delegates to clammer for business to start at 10.35, but at that time few Government Ministers were present, although the spectators were there in force. It was the general opinion, however, that when the committee on resolutions made its temperance and prohibition report that things would "warm up." And many rumours as to the final action of the convention on this subject were current.

NEW PORTFOLIO PROPOSED.

Colonel Thompson opened the convention at 10.45 by reading a resolution calling for the appointment of a Minister of Colonization and Labour, to control the development and immigration for New Ontario. Lieut.-Col. Thompson, the mover, and Mayor White, of Woodstock, the seconder, spoke briefly, and the resolution carried.

The chairman, when this was finished, announced that he had a resolution on public utilities to read, but the mover and seconder were engaged in the committee on resolutions in temperance resolution. This allusion caused a round of applause and caused the delegates to "sit up" and look expectant. The resolution on utilities was lengthy. Col. Thompson said it could be read in half an hour, but he read it in something less. It was a general profession of faith in the principle of extending municipal control of municipal rights. The important part of it was a clause that all municipal franchises be limited to a term of 30 years and subject at any time to be taken over by the municipalities at a fair value to be fixed by arbitration. Another clause declared the convention to favour the granting of a special charter to the city of Toronto and to other cities whose population or geographical position would warrant it. This resolution was carried without dissent.

MR. DEVLIN, OF OTTAWA.

"There seems to be a wish," said the chairman, "to hear from Mr. Devlin from Ottawa." This remark and the sight of Mr. Devlin on the platform, produced applause, and Mr. Devlin spoke, characterizing Ontario as the "sweet garden of Eden," and Premier Ross as "one of the greatest leaders of ancient or modern times." The old men of the party laughed gleefully and younger members grew boisterous and made remarks from time to time. "When the Opposition goes to the country next time they will be as naked of policy as a frog is of feathers," said Devlin. "You might just as well try to hold on to the scarlet robes of sunset as try to turn the Liberal party out of office."

"Marshall," called the delegates, and in response the chairman called upon Duncan Marshall, of Bracebridge, who addressed the convention.

SENATOR CLORAN.

Senator Cloran followed Marshall, appealing as a citizen of Ontario to stand by the Government of thirty years and to take note of the impartiality which prompted Mr. Ross to take into his Cabinet a member of the minority, Hon. Mr. Evanturel.

T. C. Robinette, K.C., of Toronto, spoke on another demand from the audience, declaring that if comparisons ever were odious, the Ross-Whitney comparison was

Apparently the Premier was wearied by the speeches, to which, while the committee wrestled with the important and somewhat dangerous temperance propaganda, the conventionc was forced to listen. Mr. Ross yawned several times, and closed his eyes, and then as if lulled by the voice of the speaker sat as if lost in thought, still wearing his great coat, which the temperature of the hall warranted.

LIBERAL PREDICTION.

Still at 11.40 the Resolution Committee gave no signs of life or activity, and the chairman in default of the more vital issue, cast around for speaking stop-gaps.

"Hyman," yelled some delegates; "Grant," called others; "Guthrie," exclaimed others. Mr. Hyman was not present, Mr. Grant was in the hall, but was unable to speak. Finally Robert Stewart, of Ottawa, was fished out and elevated to a speaking position. Mr. Stewart saw the Dominion results would be duplicated in the province, and that Ottawa would elec two Liberal members to the House

A perceptible lull followed this speech and then the Rev. Dr. Richardson, of Kingston, was called on. He said the Conservative party might be likened to a potato, the best part of which was underground. If that party dared to look itself in the face it would then go and commit suicide. (Applause.) "If you had Mr. Ross here on the right and Whitney on the left what would you do?" he asked. "Shoot the left," promptly returned a platform Liberal. A storm of laughter greeted this answer, which increased when a man in the hall sang out "Johnny, get your gun."

T. H. Pardo likened J. P. Whitney to the man who was advised in this way "jump, Jimmy jump. I think you can do it in the second jump."

Mr. Pardo's address brought the convention to the time of adjournment.

A COMPROMISE REACHED.

At the same time the committee on resolutions finished their struggle with the temperance programme and adjourned, or rather broke up to get together in little groups and fight it out over again. Their resolution will be presented to the convention at two o'clock. It is a compromise, the product of a hard fought fight, heated argument and the conflict of two determined opposites. The resolution, it is said, calls for a compulsory vote on prohibition in all the municipalities of the province on the first of January, 1906. The municipality voting for prohibition shall have and keep it until it is otherwise directed by Act of Parliament. Any municipality voting against prohibition in 1906 shall have the privilege of another vote after three years. New Ontario is specially treated. No new licenses are to be granted and land grants in future must be accompanied by a condition against the sale of liquor. The convention this afternoon will be a storm centre.

Mrs. Root, Rosemount avenue, has issued invitations for an "At Home" on December 3rd.

RUMOURED CHANGES IN MILITIA CIRCLES

Sir Frederic Borden Pays Visit Here on Departmental Business.

REORGANIZATION HINTED AT

Said That Col. Otter May Become Director of the Royal Military College at Kingston.

Sir Frederick Borden, the Minister of Militia, was in the city yesterday, presumably on business connected with the headquarters staff at Ottawa.

Since the arrival of Col. Lake in Canada, speculation has been rife among the local officers as to what changes the reorganization will entail. The rumour that possibly has gained most currency is to the effect that Col. Otter, who commanded the first contingent in South Africa, was to become director of the Military College at Kingston, while Col. Gordon, D.O.C., Montreal, was to be removed to Toronto, to succeed Col. Otter. Col. Lessard, who is at present with the cavalry at Toronto, was mentioned as Col. Gordon's successor.

The undermentioned officers having been examined in equitation at the temporary school of equitation, Quebec, have been awarded certificates.

Captain L. Marsan, 6th Regiment Canadian Artillery; Captain B. C. White, 6th Regt. Canadian Artillery; Captain C. H. E. de Blois, 85th Regiment Canadian Artillery; Captain L. Garon, 89th Regiment Canadian Artillery; Lt. L. S. Vien, 6th Regiment Canadian Artillery; Lt. T. Vien, 6th Regiment Canadian Artillery.

ICE-SHIP STORD OVERDUE FOR DAYS

It is feared that the wooden steamship Stord, belonging to Revillon Bros., of Montreal and Paris, has been lost in endeavouring to make a trip between Sydney, C.B., and St. John's Nfld.

The Stord was a wooden steamship of 648 gross tons and 372 net tons, and was built specially for service in the north, being utilized by Revillon Bros. in carrying in supplies to their fur trading posts in Unganda Bay and Hudson Bay.

In July last the Stord started from Quebec with supplies for these posts, and upon her return was to have taken one load of coal to St. John's, Nfld., after which she was to return to Quebec for the winter.

At the office of Revillon Bros. to-day it was stated that nothing had been heard of the vessel since she left Sydney for St. John's on the 15th inst., and it was feared that she had, perchance, foundered in the angry gales of last Thursday and Friday, which swept all along the Atlantic coast.

When the Stord left Sydney she had on board a cargo of seven hundred tons of coal. She was manned by a crew mainly composed of French-Canadian sailors from the vicinity of Quebec and Levis. Her master was W. Perry, an English seaman, and her first mate was also English. The crew numbered seventeen hands.

The Stord was built at Stord, near Bergen, in 1900, and had an English register. She was 167 feet long, 28 feet in breadth and drew 15 feet 7 in. of water. She was a powerful vessel for her inches and was constructed with the particular view of combatting with ice fields.

ICE-BREAKERS WILL WORK IN VICINITY OF CAP ROUGE.

The Dominion Government's ice-breakers, Montcalm and Champlain, will put in a good part of the winter endeavouring to keep the St. Lawrence free from ice jams at Cap Rouge. It was announced this morning that the project of bringing up a coal laden steamship from Sydney to Montreal early in December would not be attempted this year, at least.

The ice-breaker Champlain is now at Quebec, and the Montcalm is on her way to Canada from her builders in Great Britain. The Montreal steamship men state that in order to make a real test of ice conditions it would be necessary for the Dominion Coal Company to wait indefinitely for the ice to form to a thickness which would give the breakers a trial of their powers. This, of course, might come by the first week in December, the date when it was proposed to have the Dominion Coal Company's steamship sail from Sydney for Montreal, and again it might be the middle of December before zero weather made the passage of the St. Lawrence, between Quebec and Montreal, a matter of real difficulty.

MR. J. T. CARDINAL PASSED AWAY TO-DAY

He Carried Conservative Standard in St. James Last Election.

STRICKEN DURING CAMPAIGN

Deceased Had Worked His Way Up to a High Position in Legal Circles.

Mr. J. T. Cardinal, K. C., Conservative candidate in St. James's division at the last Federal elections, died today at his home, 59 Cherrier street.

The deceased was stricken down in the midst of the campaign, and on Sunday evening his end was expected. He rallied partially, and for a few hours yesterday there was a faint glimmer of hope. During the night, however he became unconscious and remained in that condition until he died during the forenoon.

The deceased was one of the best known and most successful of the younger lawyers in the city. He was

The late Mr. J. T. Cardinal.

a partner for years in the legal firm of Beaudin, Cardinal, Loranger and St. Germain, one of the leading French-Canadian legal firms. He was made a King's Counsel a little over a year ago. He was also Syndic of the Bar of Montreal, and generally regarded as one of the leaders among the younger members of the profession.

Mr. Cardinal was popular with all classes and in all circles. He was born at St. Remi, Napierville county, forty years ago, and in his youth worked as a baker in his father's shop. He went to college and completed a classical course, after which he took up the study of law and was admitted to the Bar. He was also a strong figure in politics. He was a Conservative, but when his party needed him, he never refused to obey a call.

He also took a prominent part in municipal politics, and was one of the prime movers in the reform movement which has done so much to purify the municipal government.

Mr. Cardinal was married to a Miss duVerger, who survives with two children, a son and a daughter.

SHIPPING SEASON TO CLOSE ON MONDAY

Two regular trans-Atlantic liners are left in port, and the chances are that neither of the steamships will leave port before Sunday or possibly Monday next.

The steamships are the Manchester Trader, Furness, Withy and Company, and the Etolia. The latter vessel came into port with a large cargo of raw sugar, which was consigned to the Canada Sugar Refinery, and is now being unloaded at Windmill Point.

If these vessels clear from port by Monday next, the season of ocean navigation will close upon the same date as last year, the 28th. In 1903, the last steamship to leave port was the Toronto.

The last coal steamer to clear from Montreal for the lower ports this year was the Universe, the vessel leaving Montreal on the 21st of November. By peculiar coincidence the same coliner was the last vessel of her class to leave port last year, and the date was the 21st, one day earlier.

The weather this year, however, has been extremely mild in comparison with a year ago, and from all appearances steamships could just as well have made their last sailings on December first or later.

THE BUOY SERVICE.

The engineer of the buoy service announces that every gas buoy between Grondines and Cap a la Roche will be replaced by an iron buoy by to-morrow, it being feared that the ice in the swift moving current would do them more or less damage, while the iron buoys answer the purpose just as well.

With the clearing of the two steamships in port, the season of navigation will close with 796 departures, as compared with 802, for the entire season of 1903. The aggregate tonnage this year amounts to 1,857,000 tons, as compared with 1,890,000 tons for 1903; thus showing a shortage of six vessels and 33,-904 tons, as compared with a year ago.

The general shipping was much behind last year, but the general average was brought up very largely by the large number of coal steamers arriving in port. At the Harbour Office this morning, it was stated that the arrivals and departures would have made a sorry showing but for the coal trade.

MRS. DENNIS SHEA, OF DALHOUSIE ST., MONTREAL.

How She Won Back Her Strength After An Attack of Grippe.

Those who have had the grippe know how weak they are afterwards. Mrs. Dennis Shea, of 150 Dalhousie street, Montreal, says:

"An attack of grippe robbed me of my strength, and I seemed to grow weaker each day.

"Then a severe shock upset my nerves and affected my heart to such an extent that I was on the verge of nervous prostration.

"Fortunately St. James Wafers were brought to my notice, and before using them a week I began to feel better. Now my appetite has returned, the rheumatic twinges and backache have disappeared and I feel as strong and well as ever.

"I owe my recovery to St. James Wafers—the stomach and nerve remedy."

CONSERVATIVES ARE IN CONFERENCE

Ontario Convention Opened This Afternoon In Toronto.

PREPARING RESOLUTIONS

The Eastern and the Northern Delegates Held Conferences During the Morning.

Special to The Montreal Star.

Toronto, November 24.—The Conservative conference opened this afternoon at two o'clock, and upwards of 2,000 delegates are expected to register before night. The attendance includes many Independents and Liberals. A special train brought the Hamilton delegation.

The executive of the Conservative associations met this morning, and at the meeting there was a very large attendance. Every part of Ontario is represented.

RESOLUTIONS PREPARED.

The eastern delegates also had a consultation this morning and decided to bring forward resolutions in regard to public ownership, while the northern men agreed to present resolutions affecting the mines, timber, etc., of the north.

The executive was addressed by Hon. Geo. E. Foster, Mr. J. J. Fry and Mr. J. P. Whitney. The latter said the utmost freedom of debate would prevail at the convention and that they expected to hear from some Liberals who were neither office holders, contractors nor men who had their fares paid to attend the convention.

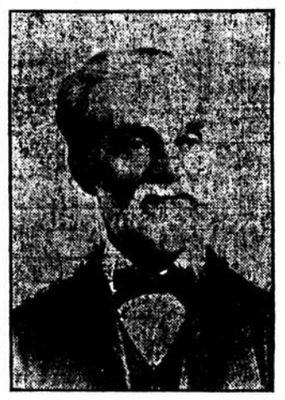
The executive appointed the following as a small resolution committee: Mayor Ellis, Ottawa; Ald. Walker, Kingston; Capt. Morrison, Ottawa; George Gordon, Sturgeon; R. J. Sims, Ottawa; Dr. Rochon, Russell.

While it is not the intention of the Conservatives to follow the example of the Liberals in the way of resolutions, some important planks may be adopted.

MR. JOHN MITCHELL, WELL KNOWN CITIZEN, HAS PASSED AWAY.

One of Montreal's well known business men disappeared yesterday with the death of Mr. John Mitchell, up to lately a member of the firm of J. & J. Mitchell, of this city. The deceased was born near Dufftown, Scotland, the birthplace of Lord Mount Stephen, in 1830. He was consequently in his seventy-fifth year. Coming to Quebec when sixteen years of age, he entered the office of G. B. Symes & Co., at that time the foremost timber merchants in the Dominion.

After spending some years there, he came to Montreal, and in 1854, in connection with his cousin, the late Mr.



THE LATE MR. MITCHELL.

James Mitchell he established the firm of J. & J. Mitchell, which did a very extensive business with the Maritime Provinces, Newfoundland, the West Indies and the Mediterranean. Since that time Mr. Mitchell has been more or less connected with every movement for the improvement of business conditions in the city. He had practically retired from business for the last few years and lived quietly.

He was one of the original members of the St. James's Club, and in company with Mr. David Shaw built the present Thistle Curling Club's rink. On account of serious illness he was forced to retire from active curling some years ago, though he never lost interest in the game, and his name still remains on the rolls as an honorary member.

Mr. Mitchell was twice married. By his first wife, who was a Miss Turner, of Scotland, he leaves a son, now in business in the Saskatchewan Valley, and a daughter, who is connected with the Montreal Star. By a second marriage to Miss Scott, of Montreal, he leaves two sons, one of whom is manager of the Bovril Co., in this city, and the other connected with the Star.

Mr. Mitchell was highly esteemed in commercial and social circles, and was a well known figure where merchants do congregate. The funeral will take place at 2 p.m. to-morrow, from his late residence, 178 Mance strete, where service will be held by Rev. G. Colborne Heine, pastor of Chalmers Church.

FUNERAL OF ABBE BOURASSA PROMISES TO BE LARGE ONE.

The funeral of the late Abbe Bourassa, which takes place to-morrow, at nine o'clock, at St. Louis de France Church, bids fair to be one of the largest ever witnessed in the city. The translation of the remains from the presbytery to-day was attended by a large crowd, among whom were many members of the clergy, and the Laval students in a body with the banners of their several faculties appropriately draped in mourning colours.

In deference to the wishes of Mgr. Racicot, administrator of the diocese, in the absence of His Grace Archbishop Bruchesi, the remains will not be removed to Montebello, but will be laid to rest in the crypt of St. James's Cathedral. Mgr. Racicot will celebrate the Requiem Mass at St. Louis de France Church to-morrow.

COAL BURNING AT PORT ARTHUR

Portion of the Supply Ignited by Shells From Jap Guns.

SECOND PACIFIC SQUADRON

A Division Arrived at Port Said This Morning—The North Sea Incident.

Che Foo, November 24. — 6 p.m.—A huge pile of coal near the railway station at Port Arthur was ignited by Japanese shells on November 20, and according to Chinese arriving here by junk to-day, it was still burning when they left the besieged town on November 22. A Japanese torpedo boat destroyer overhauled this junk, but allowed it to proceed. Another junk with six Hindoos on board was taken ashore, where the junk was burned. The passengers were sent to Dalny.

THE SECOND PACIFIC SQUADRON.

Port Said, November 24. — A section of the Russian second Pacific squadron has arrived here. All precautions have been taken to prevent any untoward incident during the passage of the vessels through the Suez canal.

The division consists of the battleships Sissoi Veliky and Navarin, the cruisers Jemtchug, Almaz and Svietlana, the torpedo boat destroyers Bodri, Blestiaschy, Bezumprechni, Bystri, Bravi, Bedovi and Bulny, and the transports Gortschakoff, Veronej, Kitai, Tamboff, Kieff, Jupiter, Merkur and Vladimiroff. The division exchanged salutes with the town on entering and the Russian bands played the British National Anthem in honour of the presence of the British guardship Furious. The local Russian representatives visited Rear-Admiral Voelkersam's flagship. All the ships are fitted with wireless telegraphic apparatus. The ships are not ordered to coal here, but will take water, fresh provisions and hay for their live stock.

Cape Skagen, Denmark, November 24.—The second division of the Russian second Pacific squadron sailed this morning.

THE NORTH SEA OUTRAGE.

St. Petersburg, November 24. — The Anglo-Russian convention on the subject of the North Sea incident will probably not be signed until to-morrow.

CALCHAS WILL BE RELEASED.

St. Petersburg, November 24. — A bond to cover the value of the British steamer Calchas, pending a final decision in her case has been filed, and orders have been telegraphed to Vladivostok to release her.

Mr. Marechal is Ill.

Rumours were current about the Court House to-day, that Mr. L. T. Marechal, K.C., Conservative candidate in St. Mary's, at the recent Federal elections, had been stricken down with appendicitis. Enquiry at his home brought the reply that while Mr. Marechal had a slight attack, his condition was not regarded as serious by his physician, and he expects to be well enough to appear for the prosecution on Saturday, in the St. Antoine election conspiracy case.

Mr. Chas. Garth Improving.

Mr. Charles Garth, who has been indisposed for some time, was to-day reported by his physicians to be improving.

CAUGHT COLD CAMPING OUT.

A CANADIAN VOLUNTEER

Tells of His Sufferings and Subsequent Recovery with Dr. Slocum's

PSYCHINE

(PRONOUNCED SI-KEEN)

Mr. Chesley R. Schell.

Mr. Chesley Schell, Ravenswood, near London, Ont, used the Dr. Slocum Remedies with splendid results. His letter, May 26th, 1904, reads as follows:

"I was out with the volunteers at London a year ago last June, and I got a heavy cold, which turned to bronchitis, and my lungs were severely affected. I had a cough and difficult breathing all summer, but in October I obtained the Dr. Slocum Remedies, and am most grateful for what they did for me. I am convinced that Psychine is a positive cure for bronchial affections, and as a tonic there is no equal.—Yours truly, Chesley Schell."

People everywhere are conversant with Psychine, and strongly recommend it. It is strange if no person has recommended it to you, if you suffer with an incipient or chronic ailment, coughs, colds, catarrh, asthma, bronchitis, la grippe, pneumonia, all throat or lung troubles or any conditions of decline.

PSYCHINE is pronounced SI-KEEN.

For sale by all druggists at $1.00 and $2.00 per bottle. For further advice and information, or for free sample, write Dr. Slocum, Limited, 179 King street, west, Toronto, Can.

ST. LAWRENCE DIVISION.

To the Electors of St. Lawrence Ward:

Gentlemen,—

In answer to the entreaties of an important group of electors of this electoral district, I confidently place myself at your disposition and solicit your vote as candidate for the seat of which you have the disposition at the Provincial Parliament.

It is not as a stranger, nor as a person unknown to you, Gentlemen, that I present myself. I have, as you all know, in the principal commercial artory of our magnificent quarter, a flourishing business, of which the foundation dates back many decades. I contributed according to the measure of my means and my influence, which I would like to see larger, in order to develop and embellish this quarter.

I, therefore, have the conviction of having, in the past, performed the duties of a good citizen. And I am certain that no one of good faith will think of questioning my civic qualifications and commercial morality with regard to the honorable and at the same time responsible post to which I have the honor of aspiring. It is with this certitude that I present myself before you with the confidence that you will support me.

My programme? My platform? It is all the clearer from the fact of its being concise. Here it is:

A. Equality for all without distinction of party, fortune, nationality or creed.

B. Purification of the Provincial Legislature, justice for all, abolition of abuses, favoritism and intimidation by the Legislature.

That is all. You will look in vain for ambiguity, surprises or pit-falls, etc., which too often form part of a programme.

Gentlemen, the contests in this ward have always been made between English-speaking candidates, because the majority of the electors are English-speaking; the French-Canadians, therefore, did not think of placing a French-Canadian candidate in the ranks. But, under the present circumstances, the absence of a second candidate of the English language permits the French-Canadians to make opposition, which opposition will be made in the interest of the English as of the French element, as both races will find in me a man of good will.

As a candidate, at the delegation, I have, Gentlemen, a sufficient experience of business, which dates back twenty-five years; full knowledge of the wants of the City in general, and of St. Lawrence Ward in particular, and a devotion which will not stop at obstacles, and which will allow of no compromise in regard to the interests of our quarter.

The voting will probably be at the same polls as at the last elections.

I have the honour of being, Gentlemen electors,

Yours very truly,

J. B. A. LANCTOT.

P.S.—On account of the short time at our disposal, although we believe we will be able to send cards to all the electors, if any one does not receive one, I would be much obliged if you would Telephone Main 2826, or call at the Committee Room, 550 Lagauchetiere Street.

"Bashfulness and Nervousness."

Says the Boston Transcript, referring to educational matters:

Because many girls do not do themselves justice when reciting in mixed classes, owing to a certain "bashfulness and nervousness," when competing with men, Dr. N. M. Trenholme, a son of Mr. Justice Trenholme, of Montreal, professor of history in the University of Missouri, has divided his large elementary class in European history into sections according to sex. In making this arrangement he disclaims any opposition to co-education. Although in general girls are more conscientious in the preparation of their lessons, they frequently fail to recite as well as men, particularly in the early stages of their university work, and Professor Trenholme maintains that if at this period they are placed in a class by themselves their recitation work becomes excellent, if anything superior to the men.

Women as Stock Gamblers.

A New York exchange remarks:

"A woman as a stock gambler is always a failure. If she wins she usually hands all of her money back to the broker, and when she finally loses the principal and the profits, she weeps. A stock broking firm, following the lead of half a dozen others that failed last week, could not pay its way through the clearing house, and the receiver stepped in.

Then some women fainted. Others had hysteria, and one woman old enough to know better, told of a clear loss of $3,800. Another woman thought it was a good joke, for she lost $500 through the bankrupt firm, which was only one half of her winter's winnings.

The play of women against the market this year has been heavier than ever before. They are always optimistic and bet on an advance. If the market declines they lose, and in many cases if the market advances the broker the women select loses, and in either swing of the market the woman is a loser.

Gambling is bad enough for the winner, but the woman as a speculator is nine times out of ten a loser."

A Bit of Humour.

Col. Lusher came in softly. Just as he reached the top of the stairs the cuckoo clock went 3, and with rare presence of mind for a man in his condition Col. Lusher immediately cuckooed eight times more to make Mrs. Lusher think it was only 11 o'clock. He got to bed without interruption. Next morning Mrs. Lusher handed him the clock, all wrapped up with the request that he take it to the jeweller's.

"What for?" asked Col. Lusher, innocently.

"Why, for our cuckoo," said his wife. "I noticed that he had the hiccoughs last night when he struck 11."

THE STAR'S NEW SERIAL.

"BREWSTER'S MILLIONS"

By George Barr McCutcheon.

Of all the younger writers on this continent, none have a more fertile fancy or more fascinating way of telling a story than George Barr McCutcheon. In "Brewster's Millions" he has mapped out a new path and, half satirically, yet with clean, wholesome humour, he tells the story of a young man's efforts to spend a million dollars in a year in order to comply with the requirements of an eccentric uncle's will. The story is interesting from the first page to the last and, in offering it to our readers, the Star is confident that they will find this new serial as entertaining and engrossing as those which have preceded it.

Squash Pie.—One coffee cup cooked squash, one coffee cup milk, four heaping tablespoonfuls sugar, two eggs, one tablespoonful melted butter, one-fourth teaspoonful nutmeg, one level teaspoonful ground ginger, one level teaspoonful ground cinnamon, one-fourth teaspoonful salt. Put the squash through a sieve or ricer, add the sugar, butter, spices and salt and heat thoroughly; then put in the eggs (well beaten), and lastly the milk. This amount makes one medium-sized pie. If there is not enough of the mixture to fill the dish full, add a little more milk of cream. (Clara G. Mitchell.)

Lecture on Italian Poetry.

The first of Prof. Guissepe Nelli's series of Italian lectures on the Literature of Italy was given at the residence of Mrs. F. D. Monk this week. At some length Prof. Nelli considered the poetical literature of his country prior to Dante—the Sicilian, Bolognian and Tuscan, then turned to the Divina Comedia and its author. The romantic poetry of old Provence, brought by the Troubadours to Italy, where it strongly influenced native poetry, was described as a blithe and sprightly literature, with themes of love and glory, voicing the joyous life of a people in love with liberty, and abounding in courtliness and chivalry. A scholarly summary of Dante's great poem was given by the lecturer.

After the lecture, tea was served by Mrs. Monk. Those present were Mrs. R. Franksen, Mrs. J. A. Macdonald, Mrs. J. Labatt, Mrs. L. Rodier, and the Misses Monk, Redpath, Turgeon, Steele, Clouston, Forget, Dacier, Baril, Boyer and Beaupre, members of Prof. Neill's Italian class.

THE TRIAL OF NAN PATTERSON

Her Counsel Declares He Has Witness Who Saw Shooting.

DR. O'HANLON'S TESTIMONY

The Coroner's Physician Said That He Considered Case Suicide at First.

New York, November 24. — At the trial of Nan Patterson for the murder of Caesar Young, yesterday, Abraham Levy, counsel for the accused, asserted that he would bring forward a witness who would tell a convincing story of having actually seen the shooting, no matter how strong the evidence of the prosecution, that no one was within range of vision of the cab when the fatal shot was fired. This witness was a passenger on a street car passing across West Broadway, a short distance from the scene of the tragedy, he said, and in his narrative he will swear from where he stood, though his glance was momentary, he saw Nan Patterson's companion in the cab grasping a revolver in his hand and struggling with the young woman who was endeavouring to wrest it from him.

Mr. Levy cross-examined Dr. O'Hanlon, the coroner's physician.

"If you had regarded the case as one of homicide, would you have made a more careful examination?" asked Mr. Levy.

"I did not so regard it then as a case of homicide."

"Did you regard it as a case of suicide?"

"I did," the witness replied.

Dr. O'Hanlon said that while performing the autopsy he found three black marks on the second finger of Young's right hand, and he stripped off pieces of skin, which were turned over to the district attorney. The witness was not permitted to answer a question as to whether the black marks were made by gunpowder.

Another question as to whether he found any indication of gunpowder when he examined Nan Patterson's hands soon after the shooting also met with an objection from the prosecution, and the court directed the witness not to answer. At the conclusion of Dr. O'Hanlon's examination, that part of his testimony in which he said that he considered the case to be one of suicide and not homicide, when he performed the autopsy was stricken from the record on motion of Mr. Rand. Counsel for the defence took exception to the ruling on the point.

Mr. Levy suggested that Dr. O'Hanlon be put on the stand to tell the jury what made the black marks in the pieces of skin taken from Young's finger. Mr. Rand objected to the defence going on at this stage of the trial and also calling Dr. O'Hanlon as an expert.

"I have a man who extracted grains of powder from those pieces of skin," said Mr. Levy.

Justice Davis admonished the attorney to be more careful in his remarks and directed the jury to disregard the utterances of counsel regarding what it was claimed examination of exhibit by others than the witness disclosed.

The scene between Nan Patterson and her brother-in-law, J. Morgan Smith, which was referred to at length by Mr. Rand, in his opening argument, was described by Joseph Hewitt, a newsboy. The witness said he was standing in front of a cafe when Smith and Miss Patterson came out and got into a cab. They were quarrelling, and as they got into the cab, Smith struck Miss Patterson in the face.

"What did the man say?" asked Mr. Levy.

"He said 'You'll have to do it,'" answered the newsboy.

"And what did she say?"

"'I won't,' and then he struck her and pushed her into the cab."

The court adjourned until Saturday.

Situation at Buenos Ayres.

Buenos Ayres, November 24. — The strike movement here still continues, but owing to the determined efforts of the Government its effects have been much ameliorated. The telephone service was resumed yesterday, those willing to work being given police protection. The strikers from the principal electric lighting and power company have been temporarily supplanted by stokers and engineers from Government vessels, and the plants are running without interruption. The street railway service is still partially suspended. The railway companies are operating as usual, having conceded a reduction of hours with the former pay, which in most cases has been accepted. In Rorasio strikes are general and rioting is intermittent. Several people have been injured in these disturbances.

THE PREFERENCE A PLEDGE OF HARMONY

Austen Chamberlain Points Out the Opportunity for the Empire.

Canadian Asociated Press.

London, November 24. — Austen Chamberlain, speaking at Rugby, said the best markets in these days were the Colonies. How much greater might they not become if close and intimate relations were cultivated with them? Were we quite certain that in the face of growing competition we could keep their trade? He objected to Sir Henry Campbell-Bannerman describing the preference as squalid bonds. He saw in the conference proposal, not squalid bonds, but fresh and lasting pledges of harmony for the whole Empire. He believed a fiscal change was necessary to our insular condition, but the question touching the future of the British Empire was greater and more important. Should we not all, with pride in the collaboration with the Colonies seek to lend a hand to keep our place as the freest, the greatest, the most united among the world's Empires?"

LAURIER'S VIEWS.

Under the heading "The Voice of Canada," the Morning Leader quotes extracts from Laurier's speeches, tending to show him as not desirous of a preference. It draws special attention to his utterance during the Diamond Jubilee celebration.

IN THE SUPREME COURT.

An Interesting Railway Case—The Court Adjourns.

Ottawa, November 24.—In the Supreme Court yesterday the arguments in The Imperial Book Company vs. Black, were concluded, and judgment was reserved.

The Grand Trunk Railway Company vs. Birkett, the last case on the Ontario list, was next heard. The action was brought by the widow and administratrix of one William Birkett, seeking compensation for the death of her husband by negligence of the company. The deceased was a conductor on the Grand Trunk Railway and was taking a train into the small (not the main) station in London, approaching it on the centre track of three lying east. When near the station, a light engine, moving reversely, came from the opposite direction on the track between his train and the station, and the conductor, getting off his train before it stopped, and attempting to cross the station, was struck by the light engine and killed. On the trial the plaintiff was non-suited on the ground that he did not look or take ordinary precautions to avoid danger. The Court of Appeal ordered a new trial, holding that the light engine showed a red light at the rear end, which should signify to a railway man that it was going in the opposite direction from where the conductor was killed. The appellants argued that deceased had violated a rule of the company, forbidding employes to get off a train in motion, and that, if he had not done so the accident could not have happened, and that the company was not liable. The respondent contended that the rules were violated by the light engine running between the station and the passenger train and by its carrying a red, instead of a white light. Judgment was reserved. W. Cassells, K.C., for the appellants; R. S. Robertson for respondent.

The court then adjourned until Monday, 28th November, when the list of appeals from the Maritime Provinces will be taken up.

A Negro Murderer at Large.

Philadelphia, November 24.—Prompted by jealousy, Frank Saylor, a negro farm hand, at midnight shot and killed Henry Henderson, aged 23 years, and when he was over taken by George Henderson, Henry's uncle, fatally shot him also. In addition he fired two shots at Ella Scott, whose refusal to accept his attentions aroused his jealousy. Saylor escaped into the woods and has since eluded capture.

Anarchy in Macedonia.

Washington, D.C., November 24.—An official report says that a state of anarchy prevails throughout Macedonia, that public security has not been restored, and that assassinations of Christians not in sympathy with the Bulgarian movement occur daily. Greeks generally are the victims, and large numbers of them have been tortured, with the result that they have started bands across the frontier of Greece with retaliation as their purpose.

GERMAN SOLDIERS MUST NOT RESIST. THEIR SUPERIOR.

When Attacked They May Parry a Blow, But Must Not Strike Out.

Berlin, November 24. — The German soldier does not possess the right of self-defence against an attack by a superior. This amazing decision has been handed down in a case just ended at Dessau. The facts of the case are as follows: "Sergeant Heine, who was drunk, entered a public dancing saloon and insulted two girls, who were in the company of two soldiers named Guenther and Voight. The girls appealed to their companions for protection and the soldiers protested to Heine, who drew his sward. He made a drunken lunge with the weapon and slightly wounded one of the girls. A violent scuffle ensued, in which Heine was disarmed and felled to the floor. Guenreh and Voight were arrested for striking their superior officer. In the course of the trial the prisoners' counsel contended that they had acted in self-defence. He declared that it was permissible for soldiers to defend honour and life against a superior.

"Nothing of the sort," responded the prosecuting counsel. "Self-defence is a conception that does not exist in the relations between soldiers and their superiors."

Counsel for the defence asked: "Must a soldier allow himself to be unresistingly slaughtered by a superior officer?"

The prosecutor replied, "Yes."

The court, however, partially dissented from this view of the case of a soldier whose life was endangered, explaining that the soldier might parry, although he must not strike a counter blow. The prisoners were each sentenced to five years hard labour, in addition to which they were dismissed from the army and deprived of their civil rights.

Heine was sentenced to three months imprisonment for assault. A demand that he be degraded to the ranks was refused.

AGREEMENT FOR DIVISION OF PROFITS.

Made Between Hamburg-American Line and Shipping Trust.

Berlin, November 24.—The London correspondent of the Tageblatt learns that a private agreement between the International Mercantile Marine Company and the Hamburg-American Company was made before the outbreak of the rate war against the Cunard Company. Under its provisions a general agreement regarding the six per cent. reciprocal compensation clause went into effect for 1904. Consequently the Hamburg-American company pays nothing to America in 1904, even should the dividend exceed 6 per cent. It is calculated here that the dividend will be eight per cent. This is equivalent to a saving of half a milion marks to the shareholders. The North German Lloyds Company, on the other hand, expects a dividend of under 6 per cent. Therefore, it will probably be entitled to a quarter of a million marks from America.

It is generally considered here that the original agreement has proved of substantial benefit to the Hamburg-American Company.

SUBSIDIES NOT DUE TILL WORK HAS BEEN COMPLETED.

Quebec, November 24.—Chief Justice Routhier rendered judgment in the case of Galindes vs. His Majesty the King, yesterday. It was a petition of right, claiming some $115,000 for balance of certain subsidies alleged to be due by the Government of the Province of Quebec to Pedro de Galindes, et al., for the construction of a portion of the Baie des Chaleurs Railway. The judgment declares that "the balance of said subsidies is not due to suppliants, but should be devoted to the construction of the last sections of the Baie de Chaleurs Railway, from Caplan to Gaspe Basin, where the works of construction are not even commenced on said section, and that the Government is not bound to pay such subsidies until the said construction is perfected and that, therefore, the respondent has proved the allegations of its contestation maintains the said contestation and dismisses the petition of right with costs."

THE WEATHER IN ENGLAND.

London, November 24.—Unprecedented snowfalls continue in the British provinces. Many places and villages are isolated and everywhere in the north railway communication is delayed and in some parts entirely stopped. There are instances of funerals being snowbound between the house and the cemetery, and children have had to be dug out of drifts between their houses and the schools. Even in West Cornwall and the island of Jersey, where snow is a rarity, heavy falls are reported.

Ten to twenty degrees of frost were registered in the United Kingdom last night.

He Refused to Take Food.

Brockville, November 24. — Paul Allan, a coloured man, aged 91 years, committed to Brockville gaol on the 10th instant, on a charge of insanity and removed to the asylum on Saturday last, died, practically from starvation. During his ten days' incarceration in the gaol he refused to partake of food or water, on the ground that God had ordained that he should not. Shortly after his entry into the asylum the old man at once took some nourishment, but his run-down constitution failed to revive, and he passed away. Allan was a slave in the South, and after being liberated, came to Canada, and settled in the adjoining township where he spent the remainder of his days. He had no relatives and was buried by the asylum authorities as a pauper.

A Labour Man Arrested.

Cleveland, O., November 24.—Joseph F. Valentine, president of the Iron Moulders of North America, was placed under arrest here on a telegraphic request from the Cincinnati police. Valentine had waited at his hotel several hours for the expected officer. Valentine's arrest is made in connection with alleged violence by members of the order of which he is the head, in Cincinnati, where a strike is on. Valentine was detained in the detectives' room of the Central police station. Valentine was permitted to address a local union of the iron moulders, and will leave for Cincinnati to-day.

The Pennsylvania is Fast.

Boston, Mass., November 24. — The armoured cruiser, Pennsylvania, in her official trial trip off the New England coast, yesterday, made the highest speed with the smallest relative expenditure of fuel of any armoured vessel so far built for the United States navy. Her contract called for 22 knots, and her average speed for the four hour's trial was 22.43 knots per hour, while her coal consumption was 2.3 pounds per horse power per hour.

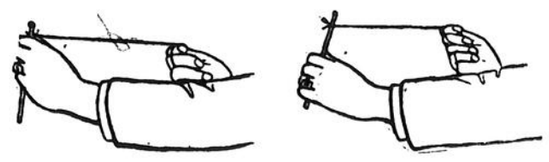
MASON AND RISCH PIANO TALK No. 6



A SIMPLE EXPERIMENT

TO more clearly show the great advantage gained by the Mason and Risch Piano in its pin-block construction we give this simple experiment.

Tie a string to a lead pencil about one inch from the end, and hold it in the left hand close to where the string is tied and pull the other end of the string. You will find that you get a much stronger resistance than if you held the pencil lower down, as then the leverage would be greatly increased.

As there is no iron plate covering the Mason and Risch pin-block the strings are attached to the pins close to the pin-block just where the greatest resistance is. This is one of the reasons why a Mason and Risch Piano remains so long in perfect tune and its tone is free from a metallic quality.

If you cannot call in to hear the Mason and Risch Piano, write for some of our booklets. They tell the whole story.

DREAM FOLLOWED BY AWFUL CONSEQUENCES.

Chicago, November 24.—As a result of a dream, Mrs. Lizzie Couet, 41 years of age, lost her life yesterday, and her husband and infant child were fatally burned in a fire which partly destroyed their home. The woman dreamed that her savings had been stolen from a hiding place in the bottom of a sugar jar in the pantry. Startled by the reality of the dream, she took a lamp in one hand and her baby under her other arm and went to investigate. The lamp fell from the woman's hand and exploded. Her husband roused from sleep in an adjoining room, made a brave attempt to put out the flames and finally succeeded with the aid of a mattress, but only after he, as well as the wife and child, had been frightfully burned. Mrs. Couet died while being taken to a hospital.

Great Northern's Improvements.

The Great Northern Railway of Canada has been quietly improving its Montreal terminals, and now possesses a first class station, with train shed, etc., on St. Catherine street east, between Marlboro and Moreau streets. The heads of the operating and traffic departments have offices in the same building.

A new turn-table and round house are being erected, and it is understood orders will shortly be placed for new passenger equipment. The Chateauguay and Northern Division (Montreal to Joliette, 36 miles), was re-ballasted during the past summer and a branch from L'Epiphanie to St. Jacques L'Achigan, 8 miles, partially constructed.

PROBLEM OF A MUNICIPAL LIGHTING PLANT FOR TOWN OF WESTMOUNT CONTINUES SUBJECT CONTROVERSY

As stated recently in the Star, a scheme has been popounded by the Mayor and Council of Westmount for the public and private electric lighting of the town, and the matter has created a lot of interest. Seen on the subject by the Star, this morning Mr. W. D. Lighthall, ex-Mayor of Westmount, said:

I have not personally examined the details of the scheme, but am in favour of the principle of Westmount undertaking such a proposal, and consider the experts, Messrs. Ross and Fellows, are men of sufficient character and reputation to trust their estimates and opinions. The entire scheme is not, after all, a very large one in view of the fact that $65,000 are intended for the incineration plant which the town must build in any event in the immediate future, and in which it cannot go very far wrong.

THE LIGHTING QUESTION.

"As for the lighting, that also ought to be a comparatively simple proposition in view of the numerous electric lighting plants which exist. The sole questions to me are as to whether the estimated profits from private lighting will turn out correct, and whether the town authorities are able or likely to conduct the enterprise properly.

I think, from what I know of the town, that the business is likely to be run in a reasonably satisfactory manner. As for the matter of estimates and private lighting, it seems to me that in any case the project will result in a considerable lowering of the cost of light even if that result should be obtained by the present company cutting the rates, which I think it would be difficult for them to do in view of their other adjoining territory.

MUNICIPAL OWNERSHIP.

"The general question of municipal ownership is scarcely involved, as I think it is now conceded by most fair-minded people that as far as enterprises of this nature are concerned, the particular community must be considered, and what would fail in some places would succeed amongst a business people such as we have in Westmount. The opponents of the measure express dissatisfaction with certain personalities, but I think personal questions should be waved in such a matter, as the enterprise will be a private affair."

MR. WALBANK'S STATEMENT.

Mr. W. McLea Walbank, of the Montreal Light, Heat and Power Co., was also seen as to the scheme, and expressed the opinion that it could never be successfully carried out. "In the first place," he said, "the experts only provide for 10,000 lights in Westmount, whereas we have already 13,580 there, and the first thing the Council would have to do would be to double their plant. Again, the revenue which would be derived on 10,000 lights at the rate they propose, of half a cent per hour, would only be $13,509 per annum, and only give them $1.35 per lamp, whereas they require $1.25 in order to pay their actual operating expenses, showing an annual deficit of $18,834 on private lighting alone.

"When the contract for the street lighting of Westmount was signed with the Lachine Rapids Co. in 1901, the town was to pay 90 dollars per annum per arc lamp of direct current, but there was a condition in the contract that if the town wished to instal lamps similar to those in use in Montreal on the alternating current system they could have them for $75 per annum, this being the type of lamp and candle power specified in the experts' report. The estimated cost of operation by the town would be $73 per arc lamp per annum, consequently the supposed saving of $17 per lamp on the 113 lamps, or $1,921, is reduced to $2 per lamp, or $226 per annum, and this without any financial risk to the town.

"One clause in the contract reads: 'If at any time during the present contract the town should so desire, it shall have the right to require the contractor to substitute series alternating arc lamps similar to those now in use in the town of Lachine, and the contractor shall furnish the same, together with all necessary lamps, etc., for $75 per annum.' Evidently," remarked Mr. Walbank, "the experts have not been supplied with proper data."

ANOTHER IMPORTANT POINT.

"Another important point lost sight of," he added, "is that Westmount is about the poorest place for business and revenue in the Island of Montreal. Why, there are no saloons, no cigar stores, and no hotels, and, after all, it is these places that burn the most light. There is no place I know of where a municipal electric lighting plant could be run to greater disadvantage than in Westmount."

Mr. Walbank went on to give figures as to prices charged for electric light in many American towns and cities, with which Montreal favourably compared, and he also gave a number of expert opinions which went to show that the municipalization of electric lighting works had not been a success. "It is a luxury," he added, "and very often the poorer classes who do not use it have to make up deficiencies through the rates."

Mr. Holt Makes a Statement.

Mr. H. S. Holt, president of the Montreal Light, Heat and Power Co., has issued the following statement:

To the Citizens of Westmount.

Dear Sirs,—In view of the fact that a report has been circulated, by those interested in the passing of the proposed by-law for the erection of a municipal lighting plant in Westmount, that in the event of the said by-law being defeated, the present rates for light would immediately be increased, and in order that the ratepayers may not be misled in this connection, I herewith state positively that no increase in the rates for lighting will take place in Westmount within the next ten years; furthermore, it is anticipated that instead of an increase a reduction of the rates will take place within the period above mentioned.

Respectfully yours,
H. S. HOLT,
President.

LARGE INCREASE IN NUMBER OF SUICIDES

The Epidemic Still Continues in Montreal and Neighbourhood.

DEADLY LEVEL CROSSING

Coroner McMahon Expresses Opinion That They are Obsolete and Should Be Done Away With.

According to the officials of the Coroner's Court, there has been a very large increase in the number of suicides in Montreal and vicinity during the past year, as compared with previous years, and the epidemic still continues. The coroner has been called into the rural districts to hold investigations during the past few days. The report shows that during the present year more than twenty-five persons have taken their lives. It is also demonstrated that there has been an increase in the number of people who have met with death by violence.

A striking feature of the deaths through violence is the large proportion of people who have been killed at one or other of the level crossings in the neighbourhood of St. Paul, St. Henri and Ste. Cunegonde. During the last three years, according to the report sent from the coroner's office to the chairman of the Railway Commission, there have been thirteen cases in which persons have lost their lives at the level crossings.

Coroner McMahon, when interviewed on the subject by a representative of the Star, to-day, expressed a decided opinion that level crossings should be abolished, and be superceded by over-head bridges, as was the case in other cities. "The deadly level crossing should be a thing of the past," he remarked. Continuing, he said: "I favour the immediate adoption, in the absence of the over-head bridge, of a system whereby electric bells could be brought into requisition for the purpose of warning the public of the danger of approaching trains. This system, he explained, could be worked simply and effectively by the train, when it passes a given point, coming in contact with a button or spring in the rail, which would at once set the electrical alarm in motion at all crossings. This system is in operation in some cities in the United States, and it has been found to work very satisfactorily."

ANOTHER SENSATION IN ONTARIO

Special to The Montreal Star.

Toronto, November 24.—Mr. S. Price, a well-known barrister of St. Thomas, has made claims to have made a sensational discovery in connection with the recent Dominion election, namely, that the form of oath printed by the Government and distributed and used as such throughout the province of Ontario was not the proper oath required by law, but was a false and mutilated form. The clauses relating to bribery, which the election law imperatively required to be in the oath administered, were, Mr. Price declares, altogether omitted, with the result that no voter would have to swear that he had not been bribed, or that he had not bribed anyone else at the election.

THE OMITTED SECTIONS.

The following are the sections of the oath that were surreptitiously taken out:

(8) That you have not received anything, nor has anything been promised you, either directly or indirectly, either to induce you to vote at this election, or for loss of time, travelling expenses, hire of team or any other service connected therewith.

(9) And that you have not, directly or indirectly, paid or promised anything to any person either to induce him to vote or to refrain from voting at this election.

IMPORTANT ACTION ENTERED TO-DAY.

An important action was entered to-day by Messrs. Lafleur, MacDougall and Macfarlane, acting for the Mergenthaler Linotype Company, of New York. The defendants are Mr. J. R. Dougall, who was the Canadian representative of the plaintiff company, and the Toronto Type Foundry Company, to which Mr Dougall assigned his rights.

The action seeks the cancellation of the transfer on January 1st last, of the rights of Mr. Dougall to the Toronto Type Foundry Company, an accounting of the profits since the date of the transfer, and an injunction to prevent Toronto Type Foundry Company from using the special tools, patterns, patents and other things handed over by the New York Company to their Canadian representative, and by him transferred to the Type Foundry Company. The plaintiff also asks $50,000 damages.

Against Mr. Dougall, the company brings a separate action, to cancel the agreement under which he did business as the Linotype Company from April, 1891, to December 31, 1903, and an accounting by him for the profits made which have not already been accounted for, and which the company claims amount to $85,000.

CANADIAN CAPITAL AND DETROIT TRAMWAYS.

It is stated that a large syndicate has been formed for the purchase of the Detroit tramways, and that the moving spirit is Mr. Everett, who, some twelve years ago, was the promoter of the Montreal Street Railroad Co., the price being $8,200,000, which is being subscribed for by European, Canadian and American capitalists. A slight rise was noticeable on the Stock Exchange yesterday in the price of the Detroit stock, and this is now being explained by the fact that the Railroad Company was about to change hands.

It has not yet transpired in Montreal who the Canadian capitalists concerned are, and at the office of Messrs. Forget & Co. it was stated that very little of the Detroit stock is dealt with here ,and that the transfer books of the company are kept in New York.

Have Made Assignments.

Theoret Freres, grocers, have assigned, with liabilities approximating $3,000.

Gustaxe Fleury, wholesale tobacconist, has made an assignment for the benefit of his creditors. His liabilities amount to about $4,000.

Mr. McCarthy's Majority.

Calgary, N. W. T., November 24. — The returning officer has declared Mr. McCarthy (Cons.) elected by 448 majority.

James Angus, J. M. Orkin, and R. Auzias Turenne, of Montreal, and Mr. and Mrs. Ed. F. Reynard, of Toronto, sailed from New York for Europe, Tuesday, on the "Kaiser Wilhelm der Grosse."

TEXT OF REASONS FOR JUDICIAL ENQUIRY INTO POLICE.

(See also Page Ten.)

The following is the text of the city attorney's plea, which points out the reasons why an enquiry ought to be ordered by a judge of the Superior Court:

To any of the honorable justices of the Superior Court sitting at Montreal, district of Montreal.

The petition of the city of Montreal aforesaid respectfully represents:

1. That in virtue of the powers contained in the act of Quebec 58 Victoria, chapter 42, the council of the city of Montreal has the necessary right and authority to request a judge of the Superior Court of this district to hold an investigation on all matters relating to:

1. A malfeasance.
2. A breach of trust.
3. Any matter connected with the Government or the conduct of any part of the public business of the city.

2. That several complaints have been made and formulated concerning matters relating to the conduct of an important part of the public business of the city of Montreal, viz., of the business of the Police Department, and also to certain acts of constables and officers of the police force of the said city, the said complaints being contained in a report or resolution from the city council, copy whereof is hereunto annexed.

3. That the complaints so formulated involve charges of a serious nature and are calculated to cause, in public opinion, a great harm to the dignity and honour of certain public services and tend to destroy the confidence which the ratepayers should have in the integrity and honesty of the municipal officers in charge of the administration and management of one of the most important civic departments, viz., the police department.

4. That by a resolution of the Council of the said city adopted at a meeting held on the 21st November instant, it was resolved to apply to one of the honorable judges of this court through the city attorneys and to request thereby an investigation into certain charges and accusations as set forth in the said resolution, a certified copy of which is hereto annexed and referred to.

5. That the said charges and accusations and each of them as contained in the aforesaid resolution and report come within the powers conferred upon the judges of this honorable court under the terms of the Act of the Legislature of the province of Quebec passed in the 58th year of the reign of Her late Majesty Queen Victoria, entitled "An Act to prevent bribery and corruption in civic and municipal corporations":

6.—That the said charges have been formulated and specified out of the sworn evidence taken before the Recorder's Court of the city of Montreal, in an action instituted by "the King" against "Aurora Deschamps (widow Lalonde)," a synopsis of which evidence with affidavits are also hereto annexed and referred to:

Wherefore, your petitioner prays that Your Lordship be pleased to investigate the charges and accusations mentioned in the aforesaid resolution and report and to make a report thereon, the whole according to the provisions and requirements of the aforesaid statute, and to adjudicate likewise on the costs.

The St. Lawrence Contest.

Ex-Mayor Cochrane stated this morning that he had five committee rooms open in St. Lawrence Division as against one in the interest of Mr. Lanctot, his opponent. He does not anticipate a large vote in the division to-morrow. But, he says, he finds evidence that the French electors themselves are asking why Mr. Cochrane's opponent is violating the understanding that this seat should go to an English-speaking representative. He certainly has not the best elements of the French Liberals behind him, according to the ex-Mayor. The English-speaking people should not be indifferent, according to Mr. Cochrane, for there is no telling what may happen in elections. At any rate Mr. Cochrane expects to be returned at the head of the poll.

Was Awarded $1000.

Mr. Justice Mathieu to-day awarded Mr. F. E. Browne, real estate dealer, $1000 commission, which he claimed in an action from Mrs. Alex. Mackay for selling one of her properties on St. Antoine street to the Mussen Estate. She pleaded that she had concluded the sale without the services of Mr. Browne.

St. Mary's Conservative Club.

The Conservative Club of St. Mary's division will hold a meeting this evening at Gariepy Hall, corner of Logan and Maisonneuve streets. A large attendance of the members is requested, as business of importance will come up for consideration.

Mr. Dansereau Ill.

A cable has been received from Paris, stating that Mr. Arthur Dansereau, political director of La Presse newspaper, is seriously ill in that city. Mr. Dansereau left Montreal on November 1 and sailed from New York the following day.

The Late Henry M. Holland.

The funeral of the late Henry M. Holland was held privately from the family residence, 100 Shuter street today. The Rev. Edmund Wood, rector of St. John the Evangelist, conducted the service both at the house and at the grave in Mount Royal Cemetery.

WAYFARERS FROZEN TO DEATH IN ENGLAND.

London, November 24.—The temperature in some districts of the United Kingdom during the night, although only 25 degrees below freezing point, was the lowest ever recorded here. The distress is general, and the local authorities are organizing relief works. The interruption of road communications in the country continues, and the isolated villages are suffering severely. In a few, it is said, wayfarers have been found frozen to death in the snow.

Seventeen Sailors Perished.

Norrkoping, Sweden, November 24.—The Swedish steamer Bur, from Grimsby, England, with a cargo, foundered yesterday at the entrance of Arko Sound. The entire crew, numbering 17 men, perished.

GENERAL FEELING OF USEFULNESS

It Comes From the Stomach and Dodd's Dyspepsia Tablets Will Cure It.

It's not the pains and aches that are the worst feature of Indigestion and Dyspepsia. It is the general feeling of discomfort and uselessness. When the Stomach is wrong the whole body is wrong, because its source of supply is not working right, and the body lacks nourishment and lacks strength.

Put the Stomach right with Dodd's Dyspepsia Tablets if you would do a good day's work and enjoy it. They never fail. Mr. Joseph Leake, 194 McCaul St., Toronto, says:

"I was troubled for three years with Biliousness and Dyspepsia. I tried many medicines, but none could cure me till I began to use Dodd's Dyspepsia Tablets. They cured me. My daughter too was troubled with Headache and Dyspepsia, and Dodd's Dyspepsia Tablets cured her."

Your stomach is overworked and needs rest. It will find the rest it needs in Dodd's Dyspepsia Tablets.

A CREAMY FOOD

Scott's Emulsion is cod liver oil prepared as a food—not a food like bread or meat, but more like cream; in fact, it is the cream of cod liver oil. At the same time it is a blood-maker, a nerve tonic and a flesh-builder. But principally it is food for tired and weak digestions, for all who are fat-starved and thin. It is pleasant to take; children like it and ask for more.

Amusements.

His Majesty's Theatre.

"Cupid & Co.," a new musical comedy in two acts, is to be produced at His Majesty's for the first time next week. The production is said to be one of the most elaborate the stage has seen in recent years. Scenically, the two acts are very handsomely put on, while the costuming is exquisite. Musically, "Cupid & Co." is a bright example of the modern school of entertainment, the music being of the bright, merry, tinkling order so popular with theatre-goers. The book of "Cupid & Co." is by E. Tracy Sweet and E. Temple, and the music is by A. Baldwin Sloane. The cast is a competent one, and includes the following players: Junie McCree, Hughey Dougherty, Herbert Carr, Edouard Durand, Walter F. Dyett, Nelli McCay, Thelma Fair, Laura Butler, Florence Young, Gertrude Fort, Lois Tabor, Vera Cameron, and Elsa Reinhardt. The scene is laid in the Catskill Mountains, at the Overlook House, a hotel which has been leased for the purpose of promoting marriage. The company numbers in its entirety eighty people, and embraces the services of clever comedians, singers and dancers. The sale of seats will open on Thursday morning at nine o'clock.

Academy of Music.

"King Dodo," which is now in its fourth season, will be at the Academy next week. Last year this merry work played nearly all of the big cities in the country, and achieved with a most flattering reception. The reasons for "King Dodo's" popularity are easily found, in the first place, it is genuinely witty. The fun is clean, there is not a line at which even the most captious could take offence. The other reason is in the music. There are twenty-three as charming musical numbers as have been given to a work of this kind. From the opening chorus until that sung as the curtain is going down on the final act there is a flow of melody which not only pleases the ear, but also is of that quality which once heard is not easily forgotten. "King Dodo" is presented with all of the completeness of production detail which signalized its run at Daly's Theatre, New York City; the Studebaker in Chicago, and the Tremont in Boston for twelve months. Presented by a big cast, it is one of the big attractions of the present season.

Francais Music Hall.

On Monday there will be a complete change at the Francais Music Hall, and new vaudeville, with its companion attraction, new musical melange, will again be the atraction. This time Weber-Fields' "Fiddle-Dee-Dee," with its songs, 30 well-costumed chorus girls and big cast of principals will be produced. Among the last are Lew Newcombe, Jos. Standish, Archie Deacon, W. T. Holmes and Sam Mason, for comedians; Gertruda Bennett Holmes, Mattie Lockett and Selma Mantell, all tried actresses and singers. The olio is said to be especially strong, and is headed by Mlle. Adgie and her lions; Les Salvaggis, European whirlwind dancers; Cordua and Maud, wire act; Mattie Lockett and Gertrude Bennett Holmes, in novelty songs, complete the list. The daily matinees are proving quite an attraction.

Haycock & Dudgeon

2453-2457 ST. CATHERINE STREET.

NOW FOR A FITTING CLIMAX TO A BUSY MONTH.

We've prepared a veritable bargain feast for this, the last Friday and Saturday of November. And you well know that such an event means something away out of the ordinary hum-drum of "Bargain Friday" sales. Don't some of these "sales" remind you of the small boy who writes on his slate under a scrawl, "This is a horse," so you can tell what he is trying to draw. Such "labeling" isn't necessary under the Haycock & Dudgeon roof!

The following bulletin, for instance, need no superlatives to hurry you Haycock & Dudgeonward to-morrow and Saturday—Some for an hour only—some all day Friday—some for Saturday, too.

FRIDAY BARGAINS.

750 Ladies' Superb Coats at Half Price

THE MOST TREMENDOUS BARGAIN SALE ON RECORD

This constitutes the most remarkable offering we have yet been able to announce. The circumstances leading up to it are rather curious, too. A certain great continental manufacturer was pledged to ship us part of our season's order of Ladies' Winter Coats by a given date. He failed to do so, and we obtained them elsewhere. Unwilling to have this large order on his hands, the manufacturer made us the offer of a startling discount if we would help him out of the difficulty. We saw the possibilities of such an opportunity, and promptly closed. You now have the chance of benefiting with us. The selection of Coats is simply superb. Every one a masterpiece in its way. The values are almost incredible. For quick disposal we have arranged these magnificent garments in

CARPET and HOUSE CLEANING —by— Booth's Vacuum Process

The cleaning agent is AIR, neither chemicals nor washes are used. Every particle of dust is removed from the Carpet and underfelt, and the appearance of the Carpet is improved, the nap is raised, and the Carpet becomes soft and elastic to the tread.

Absolutely Dustless when in use.

It is not necessary to remove any article of Furniture or Drapery, because Booth's System is absolutely dustless—besides dust, it removes by a powerful vacuum system all Germs, Microbes, Moths, and other injurious insects

The Booth System does not blow the dust into a bag, but draws the dust by suction direct from the article being cleaned through rubber tubes into an air-tight dust receiver outside the house.

The BOOTH VACUUM CLEANER cleans CARPETS, CURTAINS, BEDDING, UPHOLSTERED FURNITURE, DRAPERIES, ETC.

Orders may be left at the Carpet Department, which will receive prompt attention.

THE WEATHER

The first pronounced snow flurry of the season occurred today.

But the flakes no sooner struck the pavement than they melted.

The maximum temperature was considerably higher than that of yesterday.

That circumstance probably accounts for the melting process.

The outlook, however, is for colder weather, with a continuance of the snow flurries seen to-day.

WELL ATTENDED MEETING HELD IN FAVOUR OF MR. J. COCHRANE.

Mr. James Cochrane, the candidate of the Liberal party in St. Lawrence division, held a well attended meeting in his committee-rooms at 728a St. Lawrence street, last evening. Messrs. Ed. Marcotte and Ed. Halley were joint chairmen.

The Hon. Lomer Gouin, Minister of Colonization in the Local Government, spoke in favour of the candidate. He spoke in terms of appreciation of the devotion which Mr. Cochrane had always displayed for the Liberal cause. Thanks to that devotion, Mr. Cochrane had won for the Liberal party St. Lawrence division. He was now presenting himself under the same banner as in 1900 to the same electors. In the opinion of the speaker it would be ingratitude on the part of the electors of St. Lawrence to refuse to elect Mr. Cochrane as their representative. Mr. Gouin in this connection deplored the error of Mr. Lanctot, a Liberal, who, now running as an Independent Liberal, should have remained faithful to the regularly appointed candidate of the party.

Mr. Gouin then made a rapid review of the course pursued by the Liberal party since 1897. Surpluses, he declared, had replaced deficits in the finances of the province since that date, and that without the imposition of added taxation. The various civil services had been administered with order and liberality. Public instruction, agriculture and colonization had received subsidies far in excess of those granted by the Conservatives. Mr. Cochrane had contributed in no small degree to this progressive Administration. Thanks to the development of the province, 75,000 French-Canadians had been repatriated—French-Canadians who had emigrated during the Conservative regime. In this way the province of Quebec was in a fair way to regain her lost position as the premier province in Confederation.

Senator Casgrain also spoke of the activity of Mr. Cochrane in the discharge of his duties as a member of the Local Legislature. Mr. Cochrane had looked after the interests of Montreal as a whole, and expressed the opinion that he deserved a continuance of the confidence of the electors of St. Lawrence division.

Lieut.-Col. Hibbard and Major G. W. Stephens also commended Mr. Cochrane as a champion of the rights of Montreal.

Mr. Marc. Sauvalle called upon his fellow-citizens of St. Lawrence division to give Mr. Cochrane a decided victory, to elect him by a grand majority, and to leave his adversaries only the reproach of having opposed such an excellent citizen.

Messrs. Seth P. Leet and A. Delisle also spoke briefly.

Mr. Cochrane was well received on rising. He asserted that he was proud of what he had been able to do during his term in the Legislature not only for the city of Montreal, but for the balance of the province as well. Continuing, Mr. Cochrane explained why, when the city charter was up for discussion last session, he had voted to refuse the corporation the right to raise money without receiving the sanction of the Legislature. It was not until the clause had been read in the Legislature that its dangerous nature became apparent. He had then joined in the opposition to approval of that particular clause.

Mr. Paul G. Martineau brought the meeting to a close in a brief speech, in which he expressed his appreciation of the work done by Mr. Cochrane in the Legislature.

Dr. Guerin's Mass Meeting.

Hon. Dr. Guerin, candidate for St. Ann's division, will hold a mass meeting to-night at St. Ann's Hall, corner of Ottawa and Young streets. The speakers will be the Hon. Mr. Lemieux, Hon. W. A. Weir, and Mr. George Smith, of Megantic. Mr. Smith can speak in French—so he says.

THE SPENDING OF MONEY.

Commenting on the results of the recently ended campaign, the Moncton Times, a Conservative paper, said:

"As for the mere spending of money, the Liberals appeared to have all they could spend, and the Conservatives spent all they could get, which in many of the constituencies was perhaps not a very large sum. But a bad business is not made better by comparisons of guilt because if the Conservatives were in power under the same circumstances, with a big corporation seeking concessions of vast importance, the conditions might have been reversed. The problem is to end a state of affairs that has always been bad, and is rapidly becoming worse. Mr. Borden took a step in the right direction when, before the recent election, he made a statement that no contributions for election purposes—and the legitimate expenses of a campaign are always a big item—would be accepted from any person who might expect favours in return in the event of his party's success. But Mr. Borden might have gone further. Six months, or a year or two years before the contest came on he might have declared that the Conservative party as a whole would fight the election pure, and the candidate who spent money corruptly would do so at his own hazard. There is an excellent law on the statute book dealing with wrong practices in elections which, like some other good laws, is a screaming farce in the majority of the constituencies. If this law were put in force and the evil practices were continued, the gaols of the country would not hold the criminals, and half the electors would be disfranchised."

IMPORTANT EVIDENCE BROUGHT OUT IN ALLEGED CONSPIRACY CASE IN ST. ANTOINE

Detective Guerin Swears That One of the Prisoners Made Statement When Arrested Regretting Being Mixed Up in "This Dirty Business."

Judge Desnoyers, yesterday afternoon, resumed the enquete in the alleged St. Antoine election conspiracy case in which the defendants, Bissonnette, Levesque, Aubetin, Beauvais, Hurtubise, and St. Jacques, are charged with conspiring to impersonate voters in the St. Antoine division at the recent election.

The evidence was mostly of the arrest, and descriptions of articles found in the possession of defendants.

Mr. J. P. Dixon, returning officer for the St. Antoine division, produced two voter's lists, which were numbered and placed on record.

Detective Gallagher then took the stand, and said he was present when five of the defendants were arrested in a saloon on St. Lawrence street, on November 3. He produced the articles found in possession of St. Jacques, which consisted of eight printed powers of attorney from Peter Lyall, four of which were made out to Alfred St. Maurice, D. Rondeau, Alcandius Lanctot, and Louis Barrett respectively. There was also a memorandum with the name of "Marconi" printed on it, and the code M. Lyall; A. Ames; R. mort; C. Introuvable; O. Donteux; N., telegraph; L. person; 22 red paste board cards, with the inscription "Peter Lyall & Son., employe." 12 smaller cards with the address on the back, 2653 Notre Dame street; eight canvassers cards, giving the names and addresses of persons living in Montreal, or where they were to be found. Also included in the miscellaneous collection was a poet card with the photograph of Mr. R. Bickerdike and two pamphlets entitled "Discours sur le Budget," and "Sir Wilfrid Laurier et son venure."

EVIDENCE OF DETECTIVE.

Detective Guerin was recalled, and spoke of the arrest of Hurtubise. With other detectives he went on November 3 to No. 630 Berri street, where accused resided, but nobody answered the call. They returned the following day, and again failing to obtain any response, they went round to the back, where Hurtubise' father greeted them. The father told the detectives that his son was indoors, that he would surrender readily, and give up all papers and documents connected with the business. Witness then entered the house and went to Hurtubise's room. Upon seeing witness, accused sat up in bed and said:

"I know what you are looking for. I don't want to have anything more to do with this dirty business, or get myself in trouble for other people. I am choir master of Notre Dame de Grace, and my folks are closely allied to the Decary family, who are respectable people. It is that fine guy Bissonnette who has brought me into this affair. If he had explained that it was for a dirty piece of work I would never have consented."

Mr. Dugas asked witness whether Hurtubise had made any other statement after his arrest. Detective Guerin replied that on the way to the station accused was anxious to be released on bail, because of his family, and witness was proceeding to relate a further statement when Mr. Leet objected on the ground that Hurtubise had not been warned beforehand in the legal manner.

Detective Guerin admitted that the man had not been warned, and the statement was not permitted. Witness then proceeded to give a list of the articles found in possession of Hurtubise, which included seven accounts of Peter Lyall against one Doherty, seven large card board tableaux, each bearing the number of a poll and containing names, addresses and occupations of persons who were absent and dead, 150 canvasser's blank cards, eleven printed cards for voting, purporting to be issued by Ald. Ames, instructing people to vote, nine of these bearing the name of J. H. Primeau, and two that of Lafebvre. There was also an alphabetically indexed list in book form containing names and addresses, printed letters of introduction signed "Peter Lyall," a letter dated "30 University street, November 1, 1904," with the instruction "Please call up Vallee. Would like to make appointment with you. P. H. L."

There was also a slip with an inscription in French which meant, "Check the unfindables and refer to our code."

There were also cards giving the names and addresses of parties in Montreal, and 250 fac-simile ballots, bearing on the back instructions how to vote.

WITNESS CROSS-EXAMINED.

Cross-examined by Mr. Leet, witness did not think Hurtubise was aware that a warrant had been issued against him, when the conversation took place in the bedroom. He thought Hurtubise spoke in a manner which indicated that he was very angry with Bissonnette.

Detective Demers, who assisted at the arrest of Hurtubise, produced three receipts from Jos. Fortin, a list of the polls and addresses, and a number of invoices, some of which were charged to Mr. Peter Lyall and others to Bissonnette. Those articles were found on accused, when he was searched at the police station.

Joseph Fortin, 29 St. Charles Borromee street, deposed to renting the front apartment of his house to Bissonnette, St. Jacques and Hurtubise. They represented that they wanted it as a committee room for Mr. Bickerdike. They were charged $20 for the use of the room from October 14 to November 1, and $5 additional for occupying the premises until November 3. He did not know the names of any one else who came to the committee room. Hurtubise, who acted as secretary, with the assistance of St. Jacques, remained there most of the time, the office hours being from 9 a.m. to 10 p.m. Mr. Bissonnette told him from the start that nobody was to be allowed to go into the room.

QUESTION RULED OUT.

Mr. Marechal asked Mr. Fortin if the committee was run in a regular manner, but Mr. Leet objected, regarding it as a suggestive question. Mr. Marechal remarked that the private nature of the committee room was enough to arouse suspicion. The question was finally ruled out. Mr. Fortin proceeding with his evidence, said there was nothing displayed outside the house to indicate that it was a committee room.

James Bannister deposed to having charge of Ald. Ames' committee room at 2152 St. Catherine street, and said that on the Wednesday or Thursday before the election, Beauvais, one of the accused, came and enquired if a man named J. Pilon had a vote. After consulting the list he told Beauvais that Pilon had a vote, whereupon he (Beauvais), said that he was Pilon, having moved from his former residence at 365 Richmond street to the east end. Witness then gave him the usual slip of paper, bearing the number of the booth where he was to vote. This slip witness now identified.

Mr. Leet cross-examined Mr. Bannister. Mr. Bannister said the demeanour of Beauvais, certainly made him suspicious, and immediately after his departure from the committee room he made a note of the incident, which he sent to Ald. Ames. The memorandum was produced, and identified by witness. It gave a personal description of Beauvais, who had signed himself Joseph George Pilon, instead of Joseph Jean Pilon, as shown on the voters' list, and further advised the Conservative candidate to enquire into the matter as he (witness), suspected that it might be an attempt to secure a vote.

The court then adjourned until Saturday next.

REMARKABLE CASE OF SELF-WOUNDING.

A remarkable case of self-inflicted injuries has just come to light. John Arnold, of the village of Grenville, in a fit of insanity, chopped his left hand clean off with an axe, cut away the toes of one of his feet, and made an ugly looking wound in the other leg. Arnold was an inmate of Verdun Hospital, and was considered such a safe patient that he was allowed to visit his home at Grenville. A few days ago he became agitated and went into the yard, picked up a sharp axe, placed his left hand on a block of wood and severed it at a blow, then he cut off the toes of his left foot and tried to chop off his left leg. Before he had time to hack himself to pieces he was discovered and a surgeon was summoned as quickly as possible. The unfortunate man was sent on the first train to the Royal Victoria Hospital, and on his arrival at the institution, it was found necessary to amputate both his legs. The patient passed a good night, and to-day his condition is reported by the officials of the hospital as being much improved.

The St. Antoine Contest.

There seems to be an impression in the minds of many of the electors of St. Antoine district that Alderman Sauvageau is one of the candidates for the Provincial House. This is an error, not only is Alderman Sauvageau not a candidate, but he is one of the signers of Alderman Carter's nomination paper. The Mr. Sauvageau who is a candidate is the young man who had charge of the distribution of the city's wood and coal supplies in connection with its attempt to relieve the distress caused by the coal famine of 1902-03. His management of that business did not indicate the possession of the qualities which should be considered requisite in any man aspiring to represent a city constituency at Quebec. A general and early vote for Ald. Carter, the candidate upon whom both parties, Liberal and Conservative, have agreed upon, will probably result in his election by a triumphant majority. Mr. Carter's friends claim that the only factor which will save the deposits of his opponents is the feeling that "Carter is sure anyway."

Pleaded Guilty to Theft.

A youth who gives his name as Adam Thompson, pleaded guilty today to a charge of stealing a number of small articles from rooms in the London House, Chaboillez square. He went there last night, and soon afterwards was found wandering about the guests' and servants' rooms. He was arrested, and some of the articles were found on his person. He was remanded for sentence.

An Old Offender.

Bernard Thompson, who has been sentenced to twenty-six terms in gaol or penitentiary, was to-day sentenced by Judge Choquet to six months in prison for stealing some butter.
