WITH POLICY OF
DECEASED MEMBER

Sir Wilfrid Will Start Reciprocity Campaign in Division of the Former.

Ottawa, Aug. 3.—The Laurier decision to open his reciprocity campaign in Norfolk, the home of the late John Charlton, is causing much comment among those who recall the peculiar relations existing between the Prime Minister and the man who a dozen years ago was preaching reciprocity in and out of Canada, in and out of Parliament, whose later years were embittered by repeated slights put upon him by Sir Wilfrid Laurier, and who died an unrecognized and disappointed man.

The Laurier reciprocity policy is the Charlton policy revived, with Charlton no longer alive to get the credit, if credit there be. For Sir Wilfrid to this late day to trade upon the memory of John Charlton is looked upon here as tactless and in bad taste. When the Prime Minister selected the date for polling he narrowly missed an election on the anniversary of the very day when the MacKenzie government was swept from power on this very issue. MacKenzie went to the country confidently expecting a huge majority on the reciprocity issue, on Sept. 22, 1878. Sir Wilfrid, 30 years later, takes the count on the 21st in 1878 as in 1911, there was a change of Governors, with a member of the royal family coming to Rideau Hall. The rest of history has yet to repeat itself.

Here is another point in which the sudden dissolution helps the Laurier game. On the last day of the session Sir Wilfrid Laurier brought down in the house the reports of the imperial conference including the decision in regard to naval matter. He went through the form of moving that these documents be printed for distribution. The next day he got his dissolution. The Conservative members have no guarantee that they will get the printed record, if indeed the printing is done at all, and Sir Wilfrid Laurier is free to go about Quebec and Ontario giving his own version of what happened in London.

Tons of Liberal literature are going out of Ottawa, addressed to all parts of Canada. The franking privilege for ordinary members closed on Saturday and to get over this difficulty the stuff is going out under the evergreen frank of the absent minister of railways.

The voters' lists are being sent out alphabetically. This works out to the disadvantage of the men whose surnames come down near the end of the alphabet, except in case of ministers, such as MacKenzie King. They get theirs.

Mr. R. L. Borden will probably open his campaign before the Prime Minister gets out of Ottawa. The Ontario tour will be arranged in Toronto on Saturday, probably in Mr. Borden's absence, as it is not now likely that he will be able to leave his office this week.

DEATH OF TAMMANY

HALL LEADER.

New York, Aug. 3.—John McGoldrick, secretary of Tammany Hall, and one of the right hand men of Richard F. Croker ten years ago, died last night at Manhattan State Hospital for the Insane. His death was not announced until today. McGoldrick suffered a mental ailment about six weeks ago, following a long period of illness. He will be buried on Saturday.

MONTREAL PORT'S
CONGESTED STATE

Harbor Commissioners Take Steps in Regard to the Storage of Grain.

Montreal, Aug. 3.—As a result of the congested conditions which have existed in the port of Montreal since the present season of navigation opened, it is understood that the Harbor Commissioners will shortly announce that in future no grain will be received in their elevator which is not destined for immediate transshipment to trans-Atlantic ports. It is also stated that the period of 20 days free storage at present allowed by the commissioners will be discontinued. The commissioners state that the congestion is due to shippers sending grain here and keeping it in storage, instead of at once shipping it across the Atlantic.

"If the grain shippers in the lake and river parts were a little more systematic and did not rush hundreds of thousands of bushels of grain to this port, where they know there is no room for them, you would not find the congestion about which there is complaint," declared Mr. David Seath, secretary of the Board of Harbor Commissioners, commenting upon the statement of some transportation officials that they were losing upwards of a thousand dollars a day because their boats had to remain idle here for lack of space to store their cargoes.

"Montreal was never meant to be a port for storage," continued Mr. Seath. "It is only suited as a quick transit centre and the sooner the grain shippers realize this fact the easier things will go."

Another suggestion put out by the transportation men is that tolls on vessels in ballast coming to Montreal for cargo be abolished. "The modern ocean liners do not take as much grain as the old boats used to, and if the port of Montreal wishes to retain the grain handling trade it must be in a position to attract tramp steamers, as the vessels at present entering the port cannot possibly handle the amount of grain offering for shipment."

COLD WEATHER

IN COLORADO.

Denver, Col., Aug. 3.—A thirty-nine year cold weather record for Aug. 3 was broken here early to-day when the government weather bureau thermometer registered a minimum of 48 degrees or 16 above freezing. The lowest previous record on this date was 51 degrees in August, 1884.

HARD FIGHT FOR

AD. CONVENTION

Boston, Aug. 3.—Following a busy convention day the 3000 delegates to the seventh annual meeting of Associated Advertising Clubs of America went to the Point of Pines to-night and discussed an old-fashioned New England clambake and shore dinner. Quebec, Toronto, Winnipeg, Winston-Salem, N. C., and Portland, Ore., all launched booms to-day for their cities as the next meeting place of the convention, but Dallas, Tex., still had the lead, with many delegates. The Texans announced to-day that Governor Oscar B. Colquitt of Texas would soon be here to ask the convention to come to Dallas. Governor E. O. Eberhart of Minnesota was a guest of the convention this afternoon.

VALUE OF THE

U. S. COTTON CROP.

Washington, Aug. 3.—With continued official assurances that the 1910-11 cotton crop of the United States will be the greatest yield in the history of the country, there is speculation as to its total value. Should the staple this year sell at the same price it did in 1910, the value of the crop would be approximately \$1,000,000,000, exceeding the record breaking cotton crop value made last year by more than \$180,000,000.

Further estimates to-day from the government's official figures of 89.1 per cent of a normal for the condition of the growing crop on July 25, indicate that the crop will be 7,046,500,000 pounds, or 14,741,631 bales of 478 pounds net weight. This would surpass the record cotton production year of 1904 by more than one million bales.

If the crop this year sells at 11.5 cents a pound, the average price for the last five years, its value would be about \$20,000,000 below last year's great value record.

BOY ALLOWED

TO RETURN.

Montreal, Aug. 3.—Walter Curtis, the 12-year-old lad who ran away from his home at Springfield, Mass., and who was prevented from returning yesterday by the United States immigration authorities, was permitted to return across the border to-night after a searching cross-examination. Money arrived from his mother, and this fact, combined with wires received from the chief of police of Springfield, served to convince the officials that the boy's story was true and that he was not an "undesirable alien."

SHEFFIELD CHOIR'S
EMPIRE TOUR

Was Great Advertisement for Canada, But Dr. Harris Will Lose Heavily.

Toronto, Aug. 3.—That Dr. Charles A. E. Harris of Ottawa, who shouldered the burden of an Empire Tour for the Sheffield Choir of England, will be \$500,000 out of pocket by the project, was the statement of Dr. Harris' business manager, W. J. Robson, who has returned to Toronto. The choir is now on its way to South Africa from Australia, where immense audiences greeted the concerts and civic receptions were offered on every hand. During some weeks of the Australian and New Zealand trip the receipts went as high as \$40,000 a week, and the average through the Canadian West was also very large.

Such receipts, however, large as they were, have proven insufficient to meet the cost of the trip, which include such items as renting an ocean steamship and engaging an entire hotel. Dr. Harris undertook to finance the extensive arrangements for taking 250 people on an empire girdling journey and thus far has succeeded to the fullest expectations. He expected at the outset to be "out of pocket" and has certain not been disappointed. The African engagement may reduce the deficit somewhat.

"It was one of the finest advertisements for Canada that could possibly have been presented," said Mr. Robson. "The effect of one of the returning Britishers will mean more than a bushel of pamphlets. Thousands of dollars were invested in the Canadian West by members of the choir, and at some points town lots were picked up by the half dozen."

CLOSE RUN IN

THE AMERICAN LEAGUE.

New York, Aug. 3.—The defeat of Detroit by Boston in a twelve inning contest to-day brought the American League leaders down to within a single point of a tie with Philadelphia for the leadership. The Athletics were idle because of rain, making the standing of the two pennant races as follows:—Detroit won 63, last 35; percentage .643; Philadelphia won 61, last 34; percentage .642. Chicago's loss of a game to Brooklyn also brought the Cubs down a peg from their pennant leadership in the National League to a percentage of .626. New York, running second, with .613, was idle at Pittsburgh, where yesterday they broke up the Pittsburgh's winning streak of 13 games straight.

C.O.F. CONCLUDES

ITS CONVENTION.

Cleveland, O., August 3.—The election of officers late to-day completed the business sessions of the International Convention of Catholic Order of Foresters. Thos. H. Cannon, of Chicago, was re-elected to the office of High Chief Ranger. Simeon Viger, of Lawrence, Mass., was chosen Vice Chief Ranger. Thos. F. McDonald, of Chicago, High Chief Secretary; Gustav Kellar, of Appleton, Wis., High Chief Treasurer, and Dr. J. P. Smyth, of Chicago, High Chief Medical Examiner, were each re-elected.

The following Trustees were elected:—John E. Stephen, J. F. O'Brien, Thos. P. Flynn, and Louis J. Neilhof, Chicago; M. J. Herbert, Cleveland; M. H. Korn, Menominee, Mich.; J. A. Collar, Shattou, Minn.; Michael Mohegan, Ontario.

The convention to-day decided to abolish the extra charge for insurance on all persons engaged in hazardous occupations. Louisville was selected as the place to hold the convention.

SITUATION IN

PORT AU PRINCE

Port Au Prince, Hayti, Aug. 3.—A number of persons appointed members of the new committee of public safety which was organized to-day having refused to serve, that body again has been dissolved and still another is being organized. The members of the diplomatic corps are bending their efforts to secure an equal representation on the committee for the followers of General Leconte and General Firmin and for citizens who have remained neutral in the struggle.

This afternoon two groups of men, composed of Leconteists and Firminists, fought in front of the telegraph office. Two men were killed. Later the city again became calm.

Ex-President Simon is still in the harbor on board the American vessel Bradford C. French.

NIOBE WILL BE

TOWED TO HALIFAX

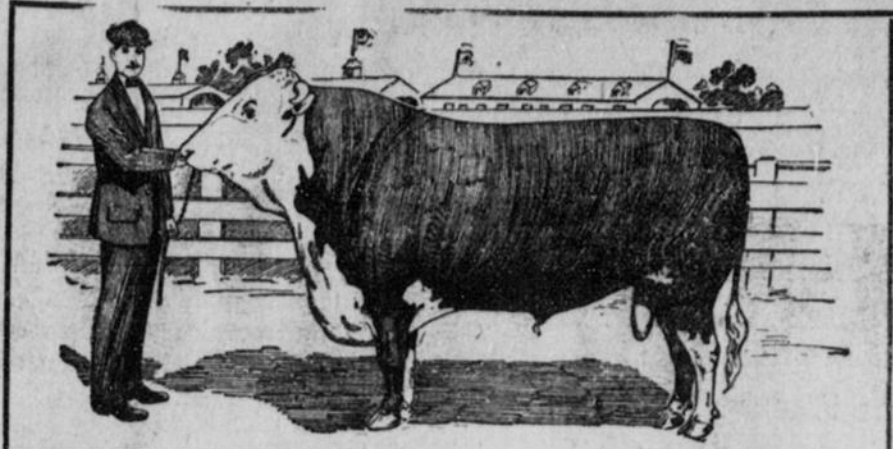

Halifax, N. S., Aug. 3.—The marine officials at Halifax announced to-day that the condition of the Niobe is so much improved that she will be towed to Halifax on Sunday or at the latest on Monday. The starboard engine room is practically clear of water. She will be towed instead of coming under her own steam because they fear that the vibration would be injurious. The cruiser, which at her worst was drawing 32½ feet, is now drawing on 29 feet.

Nice mixed Linen Ties, all different shades, two for 25c.

AMERICAN FLAGS
ORDERED DOWN

London, Ont., Aug. 4.—Hundreds of American flags that were put up in conspicuous places about the city in honor of next week's Old Boys' celebration were today ordered down by Alderman Mitchell, chairman of the decoration committee. Three thousand of these are Americans and the flags were put up to honor them and show a feeling of good-fellowship, but a number of prominent citizens protested against the "flaunting of the Stars and Stripes in the face of Canadians" with the result that Alderman Mitchell ordered an investigation to discover who ordered the placing of the flags.

A great chorus of criticism is arising on all sides, and many of the citizens are wrathful over the treatment accorded to the Stars and Stripes, however, the majority favor Mitchell's action. The alderman ordered all the flags taken down and no more put up.

At a meeting of the East London Progressive Association, held last night, the matter was discussed and many comments were passed on the action.

W. Pearson, a member, quoted an instance of going to Detroit with a Foresters' celebration, and of having to remove a Canadian flag, which the men were wearing on their coats, before they would be allowed to walk up the street. He also stated that an American flag had been shown in a local theatre and that it had been cheered, while a Union Jack had been hissed.

Here the discussion waxed warm and such expressions as: "It will soon be all American flags" and "We are not going to give ourselves to Taft, yet a while" were heard.

The meeting finally closed by instructing the secretary to write to the City Council approving Alderman Mitchell's action.

This is the second time the American flag has been interfered with in this city. The first time was three years ago during an Orange celebration, when a flag was torn down from the balcony of the City Hotel and trampled on.

Now American citizens residing in the city are becoming indignant and there is some talk of withdrawing the float which they were going to put in the parade next week.

QUEBEC, FRIDAY, AUGUST 4.

RECIPROCITY AND OUR PORTS

We have on previous occasions quoted some utterances of Governor Foss, of Massachusetts; but his recent address before the Fruit and Produce Exchange of Boston, calls for fuller presentation and further consideration.

According to the report in the Boston Herald, Governor Foss spoke as follows:—

"There are two essentials to successful industry. First, that you must have your raw materials on as favorable basis as possible. This includes not only what goes into the industry, but also includes the food and necessities of life to the workmen.

"Second, you must have the broadest possible markets.

These are the two requisites and these are what reciprocity will give to Boston.

"You will have better transportation facilities both on land and water; our coastwise shipping will double and every steamship company serving the district to the North and East of us will double its fleet.

"Our great water terminal, Boston harbor, will be improved with new docks and piers adequate to this increased business.

"Our present railroads will increase their facilities and extend their lines to handle the increased business, and the great Transcontinental lines of Canada will come to the port of Boston, which is the natural port for Eastern Canada as well as New England.

"Reciprocity will command a greater Boston, for our increased industrial and commercial interests will compel it. Real estate values will increase materially, owing to this increased business development, and the increased population which will follow.

"New factories in all lines will be established here, for under these conditions our capital will no longer seek Canada for the purpose of building up those factories which it is now forced to build in Canada by unnatural tariff conditions.

"To every man, woman and child in Massachusetts reciprocity will mean a greater opportunity for a livelihood, and it will mean that our young men and young women will find better opportunities right here at home and will not be compelled to seek their fortunes in other sections of the country."

This is certainly a good thing for Boston. Just look at its various points. In the first place New England is to get raw material from the Dominion and manufacture it for sale to Canadians, thereby taking all the manufacturer's profits and the workman's employment to Boston and other U. S. points.

The shipping of New England is to be doubled to carry raw materials from Canada and manufactured goods back while Boston, Portland, etc., are to become the great Atlantic ports for the Canadian transcontinental lines. This must be quite an interesting fact to Montreal and Quebec, Halifax and St. John.

Boston is to become the great factory city for the supply of manufactured goods to Canada.

The new reciprocity conditions are to put a complete and effectual stop to the coming of United States capital into Canada for the establishment of branch factories in this country. When "the pact" comes into force the manufacturing is to be all done in the United States and the sales are to be made in Canada, while Canadian mechanics stand idle or will be forced to emigrate.

Our neighbors are to take possession of Canada's "natural resources" and develop them for the purpose of supplying United States factories with cheap raw material, keep them running full time, and afford plenty of employment and profit south of the international boundary, at the expense of Canadian workmen.

This idea of feeding American ports at our expense is not in accordance with the principles enunciated by the Premier on former occasions when he has asked the Canadian people to vote large sums of money to built transcontinental railways.

"Let me observe," he said on one of these occasions, "that if we have used American ports, it is not because for five months in the year our own ports are icebound. Everybody knows that our ports in winter are just as open as the American harbors. Everybody knows, except Mr. Andrew Carnegie and the bulk of American public opinion, that if we have used American ports and the bonding privilege, it was not because our harbors were ice-bound in winter, but simply because we had no railways to reach them.

In the face of this, are the Canadian parliament and people going to stand on their manhood and place us in such a position that at all times of the year, not only by one railway, but by two or more, we shall have access from January to December to our own harbors, and be able to say to our American neighbors: 'Take off your bonding privilege whenever it suits you, we are commercially independent.'

We were told in 1903 by Laurier, Fielding, Lemieux, Fisher, Bourassa and the whole Ministerial Press that the diversion of our trade into channels running North and South would strike a blow "at the very foundation of our national existence." Sir Charles Fitzpatrick is another who told us only a few years ago at a banquet given in honor of "the Empresses" that his dream of "Canada for the Canadians" would only be realised by the maintenance of traffic in the direction of East to West and vice versa. There were some he said, who argued that trade followed the flag. Nothing could be more false. The flag followed trade.

LEVEL CROSSINGS.

The letter referring to level crossings which appeared in these columns yesterday calls attention to a condition of things which should be remedied in the interests of the public. Every year these crossings exact a heavy toll of deaths and though many have now been eliminated there are still a lot remaining on routes that are much travelled. Only last week an instance occurred near Pittsburg where four persons who were crossing the tracks in an automobile were struck by an engine and instantly killed.

Many of the existing crossings are unprotected by gates or flagmen. The time, however, should not be far distant when all of them on roads that are travelled to any extent will be better guarded by flagmen or provided with automatic devices to give warning of the approach of trains.

It is a matter that has not received the attention which it merited.

Until that time arrives the public should take warning from these lamentable accidents that occur so frequently and should be exceedingly cautious when passing over grade crossings. The lessons that are being offered almost daily on this continent should have the effect of making people careful.

BOTHA AND LAURIER.

A curious contrast is afforded by the attitudes of the Premiers of Canada and South Africa. General Botha, the man who was leading the Boers against England a few years ago, is made of very different stuff to Laurier and his loyalty consists of something else than mouthing specious generalities about the Empire.

For a thing he has a very different

conception of the responsibilities of the overseas Dominions and he has absolutely no sympathy with Sir Wilfrid's top-sid declaration of "neutrality." He has no desire to get rid of the Union Jack and a recent despatch contains the following statement from his secretary:

"I am authorized to state that General Botha has endeavored to state as clearly and unambiguously as possible, the fact that he does not agree with the Volksstein's article. He considers that for South Africa, or for any other Dominion, to be neutral, while the Mother Country is at war is an impossibility. There can be no question of optional neutrality."

In making this statement, General Botha did so without any reservation whatever.

It is hard to see what other view could be propounded by an overseas statesman who is not willing to advocate independence openly. It is quite evident that Mr. Botha is not scared out of his equilibrium by any anti-British sentiment in his dominion. Like Laurier he acknowledges that we are still relying in England's protection and taking advantage of the privileges afforded us by the British flag. Unlike Laurier he realizes also that these privileges entail some measure of gratitude.

Nor is Botha the only premier to repudiate the Laurier policy of so-called autonomy. Recently that eccentric genius, Mr. W. T. Stead, had an interview with the Commonwealth Premier and stated that the latter had supported the "fair-weather partnership" theory of Laurier.

We now learn that when the intimation to this effect was published in Australia such a storm of protest was raised that the Labor party with which Mr. Fisher is associated feared that its influence would be lost.

Now Mr. Fisher cables on his way home to Australia that he never made any statement to the effect that the British Empire consisted of separate nations, each of which would choose when and where it would assist or refuse assistance to the others, and that the idea is "monstrously grotesque."

The despatches give us to understand that Premier Fisher's repudiation of the Stead interview has been very welcome, both to his party and to the public generally. The premier, in his cablegram, adds that he is an "ardent Britisher" and is always "ambitious to keep the flag flying."

THE ADVANCE OF WOMEN.

While, in a general way, most of us seem to realize that some advance has been made by woman in her desire to take part, side by side, with man, in the business affairs of the world, it is extremely probable that the extent of the ground won is realized by few. A pretty fair summary has been made by a woman writer in one of the current magazines and the record is enough to convince even the most sceptical that "when a woman will she will, you may depend on't."

In her battle for equality of privilege woman has won the full suffrage in no less than five of the states of the United States, in Finland, Federated Australia, New Zealand, Portugal, and Iceland. And in Norway, with a slight taxpaying restriction, she has full suffrage also. The privilege of voting on all but parliamentary questions is granted in Great Britain and Wales, Denmark and Sweden. The privilege of the suffrage on municipal affairs is granted in Canada, in Natal, Africa, Bombay, Laibach, Austria and Zurich, Switzerland. The franchise in restricted form is granted to women in Russia where female householders may vote on members for the local council; in Italy and France where they may vote for the tribunal of Commerce; in the province of Vorarlberg, Austria, when they are taxpaying women; in Hungary, if they own real estate, and in Germany, where women farmers may vote for the members of the Chamber of Agriculture.

Thus much has woman already won and still, all over the world, is her voice heard demanding more. It would seem that to a certain extent woman is conquering prejudice and is being granted by men the privileges—and the responsibilities and duties—she craves, so that universal woman's suffrage may be considered no longer a chimera.

If there still remains opposition to granting women all they desire and ask for in this regard, it comes and will come, we think, from that body of men who conscientiously believe that the position of womanhood in the social scheme is not only not to be bettered, but is positively to be made worse, by her acceptance of duties of whose care and burden she has no adequate knowledge.

There are those who believe that if women fulfill the sacred duties of the home for which by nature they are fitted, they can do more for the regeneration of the universe than would be possible by all their votes.

Duffy's Pure Malt Whiskey

is invaluable in the hot summer weather to bring restful sleep and keep the system and stomach in a good healthy condition so that they will be able to ward off the diseases, such as indigestion, cramps, cholera, dysentery and diarrhoea, which are so common. You cannot afford to be without it.

The Why and Wherefore of Advertising

If you are satisfied to plod along in a small way, trusting to interest the curious passer-by—or those who are hurriedly looking for something in their most convenient locality, willing to put up with a small variety of goods for the sake of expediency—your business *may* exist without the aid of the newspaper.

If you could find a location where two-thirds of the population of this town would pass once or twice a week, you *might*, with the aid of well-dressed windows, *almost* dispense with newspaper advertising so far as *local* trade is concerned.

But, since to find such a location is almost an impossibility in a city of any size, and since the purchasing public is so accustomed to take the time to read well-written and well-displayed ads. in the daily news-sheet, with eyes wide open for suggestions, the newspaper is absolutely essential to any *successful* business.

Newspaper advertising is now almost universally recognised to be the best possible means of reminding the public that you are in business—what kind of business—and where located.

Moreover, it behoves the advertiser to command, not only the attention, but the *respect* of the public by means of well-written ads., appealing to the purchasing instincts of prospective customers.

At the Chronicle you will find every possible convenience and encouragement. The Chronicle "Ad. Man" is a good man to know—take him into your confidence—he can, and *will* help you.

Paquet's Great Prosperity Sale Starts on Friday

A Whirlwind of Bargains To Greet You on the First Day

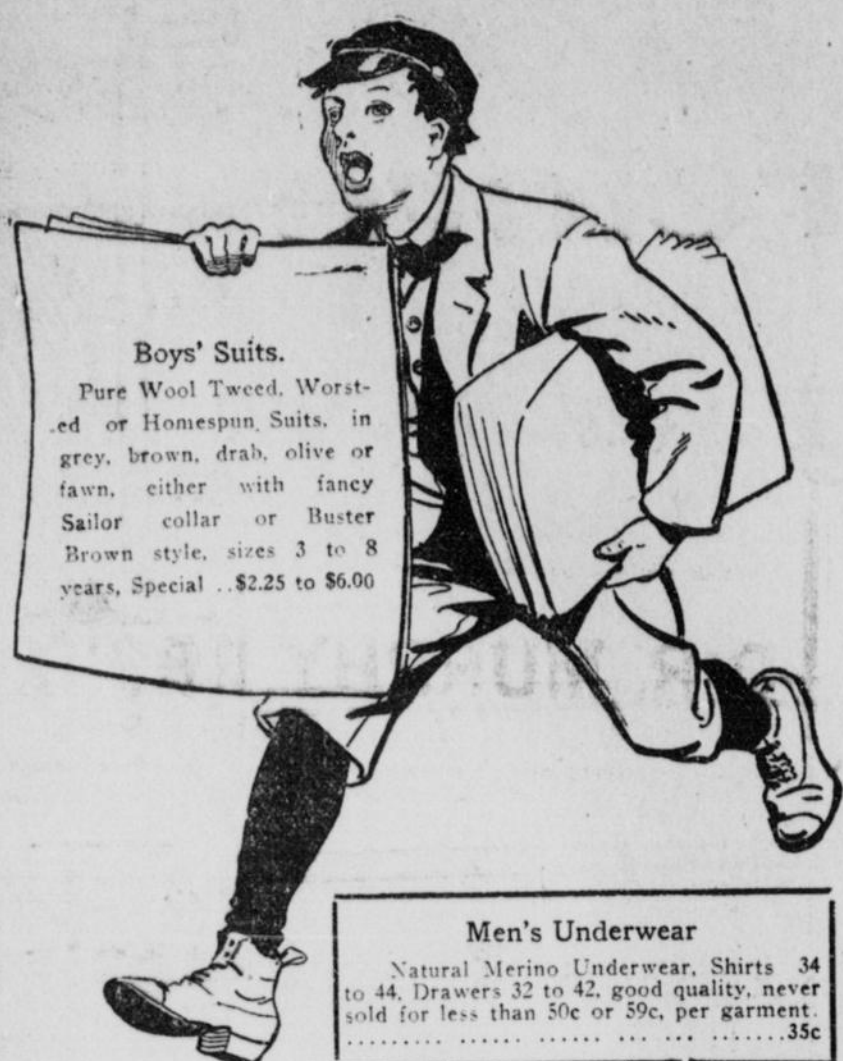

COMMENCING Friday, August 4th, we will hold a Great Prosperity Sale, celebrating the most prosperous year in our history. Great improvements are now being made throughout the entire store. The front has all been renovated—the wood-work entirely renewed and finished in mahogany—and a new asphalt pavement has been laid along the entire frontage of 182 feet.

And these improvements are only the beginning of a campaign of progress and betterment which is now being carried on in every department of the store.

This Great Prosperity Sale will prove a truly remarkable money-saving event for every citizen of Quebec. Prices have been cut to the lowest possible figure, and seasonal goods, which are in great demand at this very moment, will be cleared at a mere fraction of their actual value.

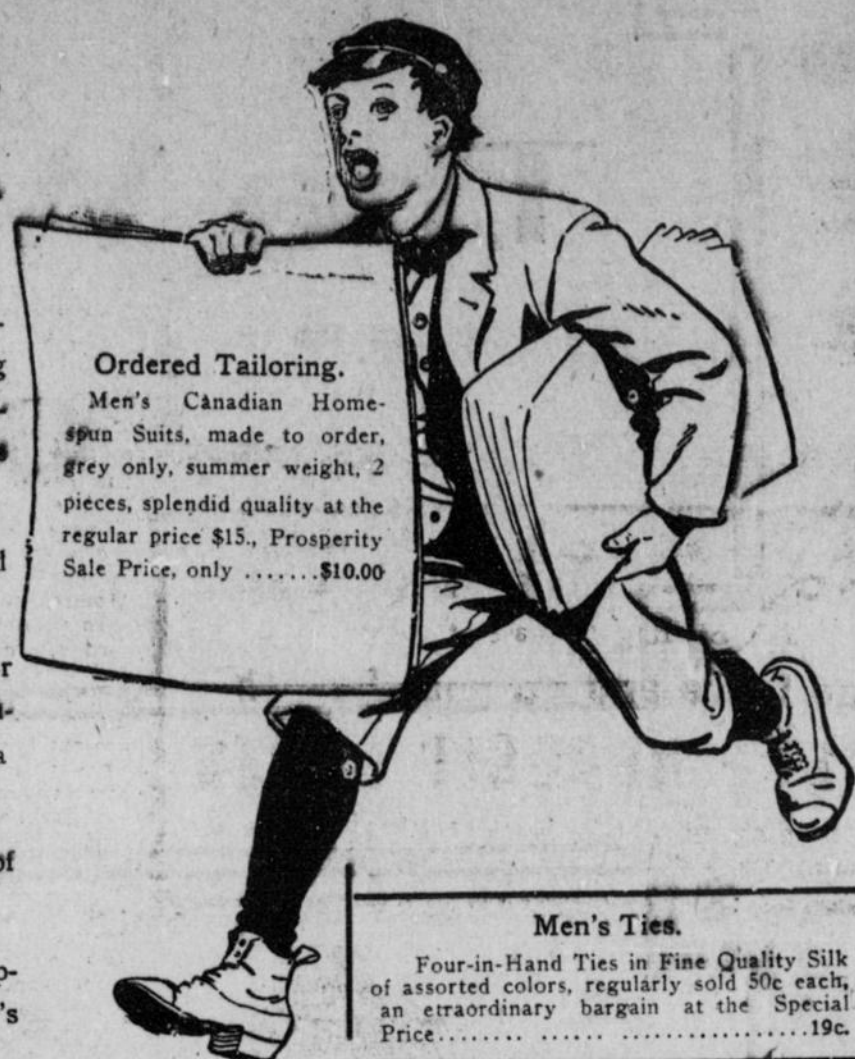

Come on Friday and be among the first to choose from the finest assortments of late summer merchandise we have ever had the pleasure of showing you.

This year has been a prosperous one for us—this sale will now give you an opportunity to benefit by our prosperity. Early shoppers will get the cream of Friday's offerings—COME EARLY!

IN AND ABOUT TOWN

CORINTHIANS HAVE ARRIVED

Look Forward to Very Pleasant Trip Through Canada.

The following fourteen members of the Corinthian football team arrived on the Empress of Britain late last night and will leave for Toronto this morning:

Cheford Brown, S. H. Day, J. Snell, R. G. Thompson, R. M. Weeks, C. Brisley, B. O. Corbett, A. L. Corbett, H. Maples, H. G. Sache, Lewman, F. N. Tuff, H. Henry, J. B. Bickerteth, and Vassall.

Messrs. M. Morgan Owen, W. A. Temones and L. A. Vidal leave by the Allan Line to-day and will arrive in time to assist the team against Montreal.

In an interview the president, Cheford Brown, stated that all were well and looking forward to an enjoyable holiday renewing old friendships and making new ones. He was rather anxious over the first three games—Saturday and Monday at Toronto and the Hamilton game next Wednesday—as their defense could not be as he would desire until the other three men arrived. The forwards are capable of securing goals and the whole team were determined to uphold the prestige of England's popular game as an offset against recent reverses in other branches of sport.

In an interview with Mr. G. A. Parker, manager of the Corinthian team, in regard to the dissatisfaction in soccer circles in Vancouver over the two postponed games there, said that he failed to see that he was wanting all the coin. The dollars was not the chief consideration on this tour. What he was most anxious over was to make the tour a financial success, and not to call upon his friends to meet any loss. His request was £250 guarantee only and 65 per cent of takings over and above this amount.

To close matters with Vancouver and to satisfy the committee out there he was willing to accept the same terms as Montreal and Toronto, two-thirds of gross takings with no guarantee.

UNION SERVICES.

St. Andrew's Methodist Church union services will be continued during the month of August. On Sunday the Rev. Calvin E. Amaron, D.D., will preach in the morning at St. Andrew's and at seven o'clock in the evening at the Methodist Church.

FRENCH PRESBYTERIAN CHURCH.

During the month of August there will be only an evening service held at Kirk Hall at 8 o'clock, conducted by the pastor, Rev. Dr. C. E. Amaron.

RECORDER'S COURT.

All of the prisoners, six in number, who appeared before Aldermen Goulet and Barbeau, in the Recorder's Court, yesterday, on charges of drunkenness, went to jail. Four were fined \$20 and costs or two months in jail each; one \$10 and costs or one month, and one \$5 and costs or fifteen days.

BAND ON THE TERRACE.

The R. C. S. A. Band will render the following selections to-night from 8 to 10 o'clock:

March, Mad Hatter.....Williams
Suite, Sigurd Jorsalfar.....Greig
Overture, Merry Wives of Windsor.....Mozart
Saxophone solo, "Bereuse".....Nicolaï
Bandman Gasson.
Selection, American Airs.....Tobani
Valse, Luna.....Lincke
Virginian, Intermezzo.....Rosenfeld
O Canada! God Save the King.
CHARLES O'NEILL,
Bandmaster R. C. S. A. B.

SHIP LABORER HURT.

Yesterday morning Eugene Jeffery, a young ship laborer, while assisting in discharging cargo from the Sir. Manchester Corporation, received serious injury. He, with another man, was bringing a heavy barrel of material ashore from the steamer on a truck. As they were descending the gangway the barrel rolled from the truck, striking Jeffery with great force and knocking him down. When picked up it was found that his back and hips were badly crushed. He was conveyed to the home of his parents, facing the Champlain Market place. The two medical men who were called in to attend to him consider his case rather serious.

TOURIST SOUVENIR.

Kindly do not leave the city without seeing the Quebec Souvenir Album, including views of the Saguenay River, Ste. Anne de Beaupre and the Montmorency Falls, published by the James Bayne Co. Sold by the best souvenir firms and by Ant. Langlois, general newspaper and souvenir depot, 26 Montain Hill.

HANDSOME CUP FOR RIFLEMEN

Will be Open to Competition By Members of Quebec and Levis Associations.

A handsome cup has been presented for competition among the rifle associations of Quebec and Levis by Sergt. Murray Slater, one of the 8th Royal Rifles' leading marksmen. The cup is offered to encourage shooting among the members of the different associations of the district and will no doubt do much to bring out the riflemen in an effort to win the trophy. The cup stands nine inches high, is gold lined, and will be on view in the Chronicle window to-day. The rules governing the cup provide that it is open to all members in good standing of the Quebec and Levis Rifle Associations. It is to be shot for annually at the annual matches of the Eighth Royal Rifle Association, the cup to go to the winner of "Open Match" at above meet. The cup to be held for one year by winner of said match.

The cup to become the property of any member of any Quebec or Levis Rifle Association who may win same three years in succession.

The cup must be returned in good order on the 1st of July of each year to the Secretary of the Eighth Royal Rifle Association.

PERSONAL

J. E. Murray Smith, London, Eng., is at the Chateau.

LT-Col. Holt, U.S. Army, and Mrs. Holt, West Point, N.Y., are guests at the Chateau.

Mr. Nap. Filteau, representing the firm of John Scott & Sons, Montreal, is spending a few days in this city.

LT-Col. H. C. Thacker, R.C.G.A., Halifax, has been spending a few days in town and is a guest at the Garrison Club.

Col. Sir E. W. S. Ward, K.C.B., is in this city a guest of the Chateau and yesterday visited the Ross Rifle Factory.

Mr. Drury and sister, of Halifax, arrived by the Empress of Britain last evening and registered at the Chateau Frontenac.

The announcement that Mgr. Faguy, Cure of the Basilica, whose serious illness has been reported, is recovering will be received with much pleasure.

His Grace Archbishop Begin officiated yesterday at a benediction of the new bells of the parish church of Beaumont, County of Bellechasse.

Premier Hazen, of New Brunswick, Mrs. Hazen and the Misses Hazen were passengers by the ss. Empress of Britain last evening and left this morning by the Ocean Limited for St. John, N.B.

Mr. Emile Barlatier, the well-known Canadian balloonist, arrived in town yesterday from Montreal and is stopping at the St. Louis Hotel. Mr. Barlatier will probably be seen in his flights during the Quebec Exhibition and intends also to organize yacht and boat races during exhibition week.

Latest arrivals at the Clarendon:—C. Duquette, J. Mullen, R. W. Rankin, Mrs. R. S. Wood, Mrs. A. N. Small, Montreal; J. E. Irving, Les Eboulements; T. Curtee, P. H. Curtee, Erie, Pa.; R. A. Rousseau, St. Huges; C. Pope, Ottawa; J. A. Dallaire, St. Evariste; M. J. Camore and family, North Bay; L. A. Talbot, Fraserville; Miss A. Stevenson, City; E. W. Brewster, Lennoxville; G. G. Willis, Toronto; R. Lawrence, Montreal; R. M. Laval, St. John; A. A. Warner, Toronto; P. Garson, Toronto.

Arrivals at the Neptune Inn:—J. Brindman, Duluth; Dr. N. Alp. Sirois, Ste. Anne de la Pocatiere; Mrs. F. D. Lauzon, Montreal; N. Garon, Caspascap; T. Young, New Glasgow; J. E. Dube, Matane; T. E. Erickson, C. Thorstensen, Christiania; H. F. McManly, Bangor, Me.; Wm. Johnson, wife and son; B. Lavery and wife, Miss M. Lavery, Mr. and Mrs. J. F. Quesnel, J. G. Desjardins, Montreal; N. T. Turgeon, Beauceville; J. Corribeau, J. Courset, Montreal; J. N. Dube, St. Pascal; J. E. Freve, Quebec; Miss J. L. Lepage, Miss E. Decote, Berlin, N.H.; Mrs. R. Gels, Pittsburg, Pa.; C. A. Twitchell, Portland; R. Manly, Montreal; C. Conbury, Halifax, N.S.; F. X. Tandel, Oldtown, Me.; P. Potvin, La Tuque; Mrs. Graham, Montreal; J. W. Godin, Louiseville; Mrs. J. Kendall, Mrs. H. Meredith, Batavia, Ill.; P. Dionne, Montreal; Mr. and Mrs. R. Palmer, Schenectady.

LEVIS RIFLE

ASSOCIATION MATCHES

The annual meeting of the Levis Rifle Association will take place on Monday next. The programme shows a prize list of \$250, the open match having \$50 in prizes. The meeting promises to be a most interesting one, and there will undoubtedly be a large number of entries.

MONUMENT TO

CANADIAN HISTORIAN.

Paul Chevre, the sculptor, who has been commissioned by Mr. Geo. E. Amyot to erect a monument to the memory of the late F. X. Garneau, the Canadian historian, had an interview with the local government yesterday in regard to the site upon which it shall stand. It is proposed to place the monument on the grounds facing the Parliament Buildings, on Grande Allee.

ELECTION RUMORS ARE MANY

Senator Choquette Declares He Will Take No Part—County of Quebec.

Senator Choquette, who returned from Orchard Beach this week, was met by a Chronicle reporter yesterday and asked as to what stand he would take in the forthcoming general elections. The Senator replied that for the present he had no intention of taking any part in the elections, as he was returning to Old Orchard to-day to join his family and his future action would all depend upon circumstances.

A Liberal convention will be held in Drummond on Monday next to select a candidate in opposition to Mr. Gilbert, the Nationalist M.P. for Drummond and Arthabaska, and the name of Mr. Laferte, advocate, of this city, and son of the ex-M.P.P. for Drummond, is announced as the Liberal standard bearer.

Among the latest political rumors in circulation is that Mr. Joseph Turcotte, M.P. for the County of Quebec, is to be appointed Sheriff of Quebec, which position has been vacant for over a year past.

It appears that at a meeting of the Council of Trades and Labor to be held this week in Montreal, Mr. Narcisse Arcand will be chosen as labor candidate against the present member, Mr. M. Martin.

Dr. Camille Bernier, of Montreal, has been selected by the Morin Club to oppose Mr. Verville, M.P., the labor candidate in Maisonneuve.

TORONTO HOUSE AGAIN IN DANGER

Fire Broke Out This Morning in West Wing of Parliament Building.

Toronto, Aug. 4.—At 2 o'clock this (Friday) morning a fire of unknown origin started in the workmen's scaffolding in the corridors of the west wing of the Provincial Parliament Buildings, the reconstruction of which after the fire of two years ago, was just nearing completion. Within seven minutes five streams of water were playing on the flames, and at 2.15 the fire was reported under control. Extensive damage was done to the plastering and decorating, but the structural work will not be hampered, as the wing had been made completely fire-proof.

BOY ESCAPED RAIN, BUT BADLY CRUSHED.

Niagara Falls, N. Y., Aug. 3.—William Grace, 15 years old, living at No. 1926 Fairfield avenue, crawled beneath a freight car on the Erie "Cripple" track at Portage road this afternoon to escape a terrific rainstorm. While beneath the car a freight train backed into it and he was terribly crushed, several ribs being broken, his back injured and one leg badly crushed.

SUMMER WEAR.

Cricket Shirts, in all shades, from 14 to 17½, at \$1.00.
T. LAFRANCE, Buade St.

MOTHER SAVED SON

WITH A RAKE.
Guelph, Ont., Aug. 3.—Roy Smith, son of James Smith, was missed yesterday after the family was starting for a picnic. His mother went to the cistern, but there was no sign of him there. She went to the Exhibition Park but could not find him. Returning to the cistern, she grasped the garden rake, worked it around the bottom and brought the lad to the surface. A physician succeeded in restoring him to consciousness. The little fellow stated that he had fallen in and clung to the side until he was exhausted and then sank.

Also pure Silk Half Hose at 50c in all shades.
T. LAFRANCE, Buade St.

ELECTIONS AT THE URSULINES.

His Grace Archbishop Begin has confirmed the elections at the Ursulines, which resulted as follows: Rev. Mother St. Aurelie, superior; Rev. Mother Marie de l'Assomption, assistant; Rev. Mother St. Helene, zealtatrice; Rev. Mother St. Marie de la Providence, depositaire; Rev. Mother St. Josephine, first poster; Rev. Mother St. Therese, mistress of novices; Rev. Mother Marie de Bonsecours, mistress general of classes, Mother St. Francois Borgia was named superior of the Convent of Merici.

DOMINION ATHLETIC CHAMPIONSHIP MEET.

Montreal, August 3.—The executive of the Quebec branch of the Amateur Athletic Union of Canada, as a meeting to-night, decided to accept the offer of the A. A. U. of C. to hold the Canadian track and field championships here next fall under the auspices of the latter instead of in Toronto as originally planned. The date will be fixed at a meeting of the committee Monday. The resignation of Arthur Plow, the Secretary, was accepted and Mr. Wm. Stuart elected in his place.

DENONCED THE RECIPROCITY PACT.

Hamilton, Aug. 3.—Arthur F. Hatch, re-elected chairman of the local section of the Canadian Manufacturers' Association, took occasion to refer to the proposed reciprocity pact and denounced it in the strongest terms. In his remarks he said: "To reduce our tariff for the purpose of accepting some doubtful advantage made attractive under the guise of reciprocity would be nothing more or less than acquisition of our own impoverishment. The cost of living cannot be the question troubling those who are demanding these tariff changes because the Minister of Labor, in his recent report, states that the advance in the price of agricultural products since 1890 has been three times as great as the advance in the price of manufactured goods."

NOTICE

Is hereby given that the Pier at the mouth of Cap Rouge River is submerged as well as the other deep water Pier that was there up to last winter at the end of the long wharf. The position of the pier at the mouth of the Cap Rouge River is as heretofore shown by a flat buoy by day and a white light by night, and the position of the deep water pier recently taken at the end of the long wharf is in a straight line with the said flat buoy and about 600 feet to the west. Cap Rouge Wharf and Pier Co.

Shipping News

ARRIVAL OF THE EMPRESS OF BRITAIN

With Passengers and Mails
From Liverpool—Tunisian
Due Here This Morning.

R. M. S. Empress of Britain, Capt. Murray, from Liverpool, arrived in port at 10.40 pm. yesterday, mooring at the Breakwater. She brought out 235 saloon, 318 cabin and 883 steerage passengers, a total of 1,436, the mails and a general cargo. Among the Empress of Britain's passengers were Hon. T. C. and Mrs. Casgrain, and the Corinthian football team of England. Special trains were in waiting for the saloon passengers, who were proceeding westward, and for the mails, of which the steamer had a large quantity. The Empress suffered considerable detention in the gulf by fog. Otherwise the passage was uneventful.

ALLAN LINE.

Str. Scotian, Capt. Moar, from Glasgow, with passengers and a general cargo, was reported 180 miles east of Belle Isle at 1 p.m. yesterday. Due here Sunday morning.

Str. Tunisian, Capt. Fairfull, from Liverpool, passed Martin River at 11.05 am. yesterday. Due here this morning. She has 111 first, 298 second and 633 third class passengers and a general cargo.

C. P. R. LINE.

Str. Lake Champlain, Lieut. Webster, R. N. R., arrived from Montreal yesterday afternoon and after embarking Quebec passengers proceeded for Liverpool.

Str. Mount Temple, Capt. Moore, from London and Antwerp, with passengers and general cargo, was reported 105 miles east of Belle Isle at 12.30 pm. yesterday. Due here on Sunday.

QUEBEC STEAMSHIP CO.

Str. Trinidad arrived at New York from Quebec at 11 am. yesterday.

THOMSON LINE.

Str. Cervona, from Middlesborough, with a general cargo, arrived in port yesterday morning and proceeded for Montreal.

WHITE STAR—DOMINION LINE

R. M. S. Canada, from Liverpool, on the 29th ultimo, was reported 145 miles east of Belle Isle at 1 p.m. yesterday, and is due in port Saturday evening. The Canada has 418 cabin and 475 third class passengers.

TRAWLER ASHORE.

Canso, N. S., Aug. 3.—During a dense fog last night the trawler Cambodia went on the rocks at Flag Island Point. While running an anchor out, their boat was dragged down and Mate Simon Sorensen and Paul Thompson were drowned. Capt. Olsen commands the Cambodia, one of the largest types of trawlers. The chances of saving the vessel are not yet known.

YACHTS COMING.

Mr. Henri Menier's steam yacht Bacchante is expected to arrive in Quebec from France about the 15th instant.

The Prince of Monaco's yacht Alice is also to arrive here about the same time. She is a splendid vessel of 2,500 tons register.

FREIGHTS AND CHARTERS.

New York, Aug. 3.—The steamer market continued firm and a steady demand prevailed for tonnage. The sail market was quiet, with rates steady to firm. Freight rates offered sparingly. Quotations to Liverpool and Glasgow, 14d; London, 14d; Rotterdam, 4 1/4c; Hamburg, 30 pennings; Bremen, 35 pennings; Hull and Bristol, 24d; Antwerp, 2d; Cork for orders, 2s 1 1/4d; picked ports, large tonnage, 1s 7 1/4d; cotton to Liverpool, per 100 lbs., 20c.

Charters.—British steamer, 2,959 tons, general cargo, hence to India ports, berthed, September 25; British steamer, 2,586 tons (previously), lumber, gulf to River Plate, 127s 6d, August; British steamer, 1,533 tons, cotton, Wilmington, N. C., to Liverpool or Bremen, 28s 9d, September; Belgium steamer, 970 tons, timber, Sapele to Antwerp, private terms, August; British steamer, 1,295 tons, timber, gulf to Newport and Cardiff, 80s, rails, Baltimore to Galveston, private terms, prompt; steamer, 1,696 tons, same; steamer, 2,046 tons, same; British bark, 532 tons, lumber, Moss Point to Havana, 7s; British schooner, 373 August; steamer, 1,579 tons, steel tons, lumber, Moss Point to Matanzas, 6s 50; British schooner, 377 tons, lumber, Moss Point to Kingston, Jamaica, 80s.

DAIRY PRODUCE, WHOLESALE.

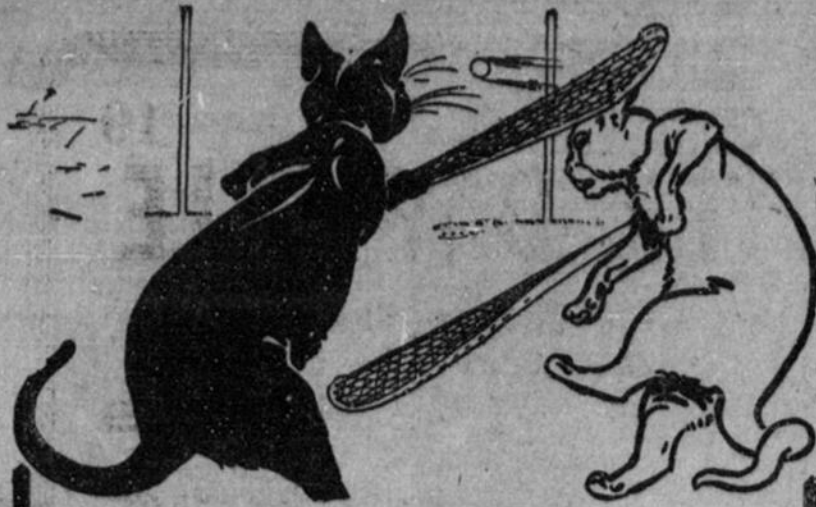

Butter.

Butter continues to advance and if present good demand for export as well as for home consumption continues we shall see very high prices in a short while. Saturday as high as 23 1/2c was paid in the country for creamery mild salted, while to-day (Tuesday) 23 1/2c was paid for salted fresh creamery. Our local market, under the circumstances, is higher at firm price. We quote:

Creamery, choice, solid, 23 1/2 @ 23 3/4
Creamery, choice, prints, 23 1/2 24
Creamery, second, 22 1/2 23
Dairy, solid, 20 21
Dairy, prints, 20 1/2 21

Cheese.

Cheese is in very good demand with production short compared with last year. Prices continue to advance. White and colored cheese, best quality, cannot be bought at the factory under 12 cents, and in some cases special lots have sold as high as 12 1/2 cents. Our local price is, consequently, very firm, and we quote:

"Face" the Facts

Play a fair game with yourself. Match up the best cigarettes you've ever smoked—at any price—with

Black Cat

10 CIGARETTES FOR 10c.

Then ask yourself if you've ever known greater cigarette enjoyment than these give.

The smooth, even flavor of the sun-cured, straight Virginia tobacco in Black Cat Cigarettes make you wonder how the price is possible.

Honesty is the answer. Just the policy of the maker to give full value in the best possible cigarette.

Look for the Black Cat at your tobacconist's—to-day.

CARRERAS & MARCIANUS CIGARETTES, Limited, Montreal, Quebec

PROVIDENCE SHUT MONTREAL OUT

Royals Could Do Nothing With Badiett's Pitching and Lost, 3 to 0.

Providence, R.I., Aug. 3.—Montreal could do nothing with Badiett's delivery to-day and lost the first game of the series by a score of 3 to 0. Badiett received the finest kind of support. Burchell pitched good ball in all but the third inning, when he passed two and was hit safely three times. His support was fast and saved him from a worse beating. The score:

RACES AT DELORMIER PARK

Six Heats Run Without a Decision in the 2:20 Pace.

Montreal, August 3.—The feature of to-day's racing at Delormier Park was the 2:20 pace, which attracted ten entries. Six heats were run without a decision and the winning heat will take place to-morrow. Only three of the entries are left in the running. Nettie Ethon won the first two heats, but was unable to get better than 3rd in the next four. Carmen and Walker K. are the other two entries left in the running.

MANAGER MCGINNITY WAS EXONERATED.

New York, August 3.—President Barrow, of the Eastern League, to-day exonerated Manager McGinnity, of the Newark Baseball Club, from blame in connection with an incident at last Sunday's game in Newark when Umpire Wright was hit by a ball. President Barrow says that the testimony of both umpires as well as several Toronto players shows that there was no intention on McGinnity's part to injure the umpire. A ball had been thrown from the Newark bench at the request of the umpire for a new ball, and at the same time another ball that had fouled over the fence was tossed back. One of the balls hit Wright in the calf of the leg without hurting him. An automatic fine of \$10 for being put out of the game has been paid by McGinnity. President Barrow has refused to consider the Newark Club's protest of Tuesday's game with Toronto, on the ground that Newark suffered no injury from the umpire's decision.

CORINTHIAN FOOTBALL TEAM ARRIVES

Famous Aggregation Reached Quebec Last Night on Board the Empress.

The famous Corinthian football team, which is to make a tour of Canada and the United States, arrived last night by the steamer Empress. The visit of the team is a most notable one in the history of the game, and is expected to give soccer such a boost in Canada and America that it will assume the same popularity which it has achieved in the old country. The team sent out by the Corinthians comprises some of the most noted exponents of the game, among them being the following:

G. G. Newman—Charterhouse and Oxford. A reliable goalkeeper, who has played some great games for the old Carthusians. Like his predecessors, he has a safe pair of hands. R. L. Braddell—Charterhouse and Oxford. A powerful back and splendid kick, who despises weight and size, can move fast and tackle well. Another P. M. Walters of memorable fame. Holder of an amateur international cap against France. He is a double Blue, having also played in the last two Varsity cricket matches. Fine bat.

F. N. Tuft—Malvern and Oxford. A good all round man, who can play either back or forward. He is a double Blue at Oxford, and also plays cricket for Kent County. Useful bowler.

I. E. Snell—Charterhouse and Oxford. One of the best men in the team, occupies with distinction any position in the field, at full or half-back, where his great height and heading powers are invaluable. Was a Blue at Oxford, and obtained his international cap against France. Is a barrister of the inner temple.

R. G. Thompson—Malvern and Cambridge. A full-back of considerable promise, who has not yet realized the limits of his powers. Is fast, a powerful kick, and stubborn. R. M. Weeks—Charterhouse and Cambridge. One of the younger generation, who, from being a forward at Charterhouse, developed into a half-back, and obtained his Blue for his consistent play in this position. Just the man for a long tour.

M. Morgan-Owen—Shrewsbury and Oxford, a native conjurer with. He is a Welsh international of wide-world reputation. A brilliant and determined centre-half, who displays splendid headwork, and a pattern half-back to watch in making openings for and feeding his forwards. He is now schoolmaster at Repton. The captain of the team.

L. A. Vidal—Malvern and Oxford. He is a very useful half, and can also play forward. He is a player of the vigorous type, and can more than hold his own in the hottest scrum. A demon for work, and so say his scholars at Radley College.

J. B. Bickersteth—Charterhouse and Oxford. Captain of the Oxford team which secured such a well-deserved victory over Cambridge this year. Has been educated for the Church, gaining experience in Canadian mission work near Edmonton. He is a pretty half-back player.

B. O. Corbett—Thame and Oxford. Is an international, and one of the veterans of the team, but still retains his form. He is seen to the best advantage at outside left, where his great pace and cleverness are of great assistance to his side. He is head schoolmaster at Derby.

R. C. Maples—Sheffield and Oxford. A sound player in the forward line and very clever with the ball. Had a large share in the victory of Oxford over Cambridge in February last.

A. L. Corbett—Thame and Oxford. Brother of the more famous B. O., but is also an Oxford Blue and has been a very valuable member of the Corinthian team for some years. He is a master at Brighton College. Is a clever fast forward.

Howard Henry—Partner to R. C. Maples in the last Varsity match, his clever work being very much admired. Learned his football with the Manitoba Football Association, secured a Rhodes scholarship, and just down from Oxford, and starting life as a barrister in Winnipeg.

S. H. Day—Malvern and Cambridge. Is the greatest exponent of inside play in Great Britain to-day. He possesses unerring judgment, and wonderful control of the ball. He is an international and also a double Blue. Is a popular member of the Kent County cricket team. Now a master at Westminster School.

H. G. Bache—Cambridge. Fine all round athlete, who, although recently down for his university, has played for the A. F. A. against Bohemia Wales, and France. One of the surest goal getters in the team, being very clever at getting openings. Is a lawn tennis player of distinction, and plays occasionally for Worcester cricket eleven.

G. C. Vassall (Vice-Captain)—Charterhouse and Oxford. A household name. Now one of the old brigade who distinguished himself at Oxford by obtaining a double Blue, and jumping 23 feet against Yale and Harvard, which is a record for this event. He is an international, possessing great weight and pace, and a terror to all opposing goalkeepers. The strength of his shooting is most remarkable.

C. Wreford-Brown—President of the Corinthian Club. Is the most wonderful player of modern times. What Wreford does not know in

"Accidents Will Happen!"

A SINGLE misstep—stumbling in the dark—the form slips from the compositor's grasp and goes crashing to the bottom of the stairs where it lies a hopelessly "pied" mess of type, rules, cuts, "furniture" and quoin—the work of hours, of days, in ruins! All has to be sorted, distributed and set up again at the employer's expense. For accidents such as these are beyond human control. Worse, still, however, the customer frets and fumes and grows impatient at the delay. You temporize with excuses. But no matter how plausibly put, excuses cannot successfully bolster up the deficiencies of an irregular business system. Hence the customer decides finally to go elsewhere with his printing order another time. The accidents, expenses, and generally disastrous consequences that follow the practice of such slipshod methods of handling stock and forms can be effectually prevented by the installation of

OTIS FENSOM FREIGHT ELEVATORS

Forms can be taken quickly and safely to and from the pressroom without danger of

Full information on the subject of freight elevators is supplied in our new illustrated book, "Freight Elevators and Their Uses." Contains just the information you want presented briefly and completely. Write for it.

accidents; and the printed sheets can be transferred in the same way without risk of crumpling, as often happens when carried by hand up the stairway. In view of these facts, it is obvious that cost systems will avail little toward conserving profits, so long as the attempt is made to run a modern printing office without the practical aid of an elevator.

If your present shop should not require a belted elevator, we have a Hand Power Elevator which will render excellent service where loads are light or where it is desired to save space. These elevators can be installed anywhere, and, as they are equipped with our improved steel roller bearings, simplicity and ease of operation are assured.

Fort Erie, Ont., August 3.—To-day's races at Fort Erie were run over a heavy track. It was the first time during the meeting that mudders had a chance of showing their merit and some of the winners came from most unexpected quarters. The feature race was the Grand Canadian Steeple-chase over the full course. It proved little better than a good gallop for St. Abe, who beat Dr. Koch out six lengths for the place. There were only three starters and The Welkin made a bad landing at the first fence and lost her rider at the second jump. Among those present were many prominent turfmen from different sections, who came on to attend the

sale of the Sanford horses this morning. Three of the choice ones were bought by Canadians, J. E. Seagram securing the star of the sale in Rockville, for whom he paid the top price, \$5,200. Mr. M. MacFarland, a prominent shoe manufacturer of Montreal, bought Moss Rock for \$1,400 and Cliff Stream for \$1,800. The twenty-two head sold realized \$30,025.

All of the big owners are entering liberally in the stakes of the Woodbine and Blue Bonnets this fall which will close to-morrow. Jockey Davenport, who was suspended by the judges yesterday, will be permitted to ride in the Canadian Sportsman's Handicap on Saturday.

BIG EXCURSION TO Plattsburg, New York

Organized by
THE GUARDS OF QUEBEC
Saturday, August 5th, 1911.
BY G. T. R.

REMOVING WRECK OF THE MAINE

Interesting Operations Now in
Progress in Connection with
the U. S. Battleship.

Havana, Aug. 3.—The work of re-
moving the wreck of the battleship
Maine entered an exceedingly inter-
esting and important phase this after-
noon when there was begun the pro-
cess of dissecting the shattered and
distorted remains of the vessel by a
gas blast apparatus. This is operated
by one man and projects a tiny flame
of intense heat and brilliancy against
the steel, melting part of the heaviest
deck beams and side frames in less
than five minutes.
The work was begun on the highest
part of the wreckage above the cen-
tral superstructure, which, at the pres-
ent rate of progress, will be entirely
cut away in a few days, greatly facili-
tating the exploration of the hull.
Afterwards the wreckage of the for-
ward section will be removed in a
similar manner. The stern section of
the vessel, however, will not be touch-
ed by the gas blasters pending settle-
ment of the question whether there is
a possibility of placing a bulkhead in
it and floating it out of the cofferdam.
Some bones were found to-day em-
bedded in the pile of wreckage in the
bow, but it will be impossible to ex-
tract them at the present time.

**STRUCK MATCH;
LAUNCH ON FIRE.**
Ogdensburg, N. Y., Aug. 3.—While
entertaining four friends to-day in
a motor boat near Huckleberry
Island in the St. Lawrence River,
Alexander Harris set fire to the craft
by striking a match to light his pipe.
Flames from the resultant explosion
of gasoline burned the boat to the
water's edge and resulted in Harris'
death. The five men clung to the
boat's edge as long as they could,
dropped off when the fire got too
hot and started for shore. Harris,
who could not swim, was drowned
in eighty feet of water. He was 30
years old and leaves a widow and
three small children. Searching parties
are grappling for his body.

U. S. NAVAL LIEUTENANT'S SUICIDE.

New York, Aug. 3.—Lieut. Charles
E. Brillhart, of the United States
navy, was found dead from a bullet
wound at the Hotel Astor in his
room overlooking Broadway late to-
day. There were no circumstances
to contradict the coroner's imme-
diate opinion that the case was one
of suicide. In one of his hands he
clutched a 32-calibre revolver with
all but one of the six chambers load-
ed. The bullet from the empty cham-
ber had struck his right temple and
made its way through his head and
it was found on the floor behind him.
To Mrs. Charles E. Brillhart, who
is said to be his bride of but eight
months, the naval lieutenant had
sealed, addressed and stamped a let-
ter which the coroner forwarded to-
night without opening. To Mrs. Brill-
hart, at "The Carroll, Sixteenth street
and Second street, N.W., Washing-
ton, D. C."
Lieutenant Brillhart arrived at the
Astor shortly before noon Tuesday
without baggage, and in recognition
of his standing in the navy he was
shown to a room without the neces-
sity of paying in advance. From this
time on no special attention was paid
to the guest and nothing was heard
of him until a maid complained this
afternoon that she could not get into
his room. Entrance was forced from
an adjoining room and the body was
found as described.

PREMIER M'BRIDE SAYS VICTORY

Feels Sure That the Federal
Conservatives Will Carry
the Coming Elections.

Vancouver, B. C., Aug. 3.—"I do
not intend to enter this election as
a candidate, but I will do my utmost,
consistent with my position, to aid
in the victory which I feel sure will
crown the federal Conservatives in
this campaign."
Premier McBride made this state-
ment in an interview prior to his
welcome here to-day by members of
the Conservative party which took
the form of a public reception.
In reply to an address which ap-
proved his stand against reciprocity,
the Premier repeated his view that
such a measure would lead to the
exploitation of Canada by the United
States. Furthermore Canada would
be a broken link in the chain of
empire.

MEETING OF NATIONAL LACROSSE UNION.

Montreal, Aug. 3.—The special
meeting of the National Lacrosse
Union to-night took up protests from
nearly every club, but failed to look
favorably upon any change in the
rules and approved of the interpre-
tation which the officials have been
putting upon them. Cornwall and
Capitals both fought for some change
in the reserve list regulations so that
they might be allowed to play some
of their promising juniors, which
they had not played on their list be-
fore the limit date. The rules will
remain unchanged, however.
The case of Dandeno and Barnett
was discussed, but while the rule in
the N. L. U. prevents a player from
playing with any other team than his
own, it seems that it says nothing
as to his playing with a team in some
other organization. Consequently
the league took no action regarding
their having played with Young To-
rontos.

Cornwall protested that the crease
rules had been wrongly interpreted
twice but the decision of the officials
was upheld. President Murphy closed
the meeting with a eulogy of the
work of the officials this year.

CANADA'S FIRE LOSSES FOR JUNE.

Toronto, Aug. 3.—According to the
estimate of the Monetary Times the
fire losses in Canada for the month
of June amounted to \$5,384,300, as
compared with \$1,151,150 for June,
and \$6,386,674 for the corresponding
period last year. Forest fires con-
tributed very materially to the list of
losses in Northern Ontario occasioned
by the forest fires in July being
conservatively estimated at \$1,250,-
000, while at Squamish, B.C., forest
fires did damage of \$500,000. Fires
in the lumber yards at Aylmer, Que.,
did damage estimated at \$550,000, and
at Sarnia of \$205,000. Eganville, Ont.,
suffered a loss of \$300,000.
The estimate of July losses is as
follows:
Fires exceeding \$10,000.....\$4,611,000
Small fires 71,000
Fifteen per cent for un-
reported fires 702,300
Total\$5,384,300

THE ALPS CLAIM MANY VICTIMS

Twenty Tourists Killed and
Many Injured—Season Only
Beginning.

Paris, Aug. 2.—Although the climb-
ing season in the Alps has only be-
gun, 25 tourists have been killed and
an unknown number injured. If this
rate continues until the close of the
season, Sept. 15, the death rate will
be the deadliest on record.
Death in nearly every case has
been the result of foolhardiness, and
has frequently been due to tourists
going up alone, a violation of the
first rule of mountain climbing.
This is a German mountaineering
habit, as this year's fatalities do not
include an Englishman and only one
American, who, contrary to the prac-
tice of his countrymen, was alone.
The Americans are not only taking
the best guides, but are also accom-
panied by a sufficient number.
The only fatality this year where
the party was equipped with guides
was that of a Parisian, Gaillet, and
a skilled Alpine porter named Simond.
This accident was due to a mischance.
A stone fell on the porter's head and
killed him outright. At the same
time a sharp point of the rock struck
Gaillet, and he fell over the side of
the mountain.

NO NAVAL MANOEUVRES WILL BE HELD.

Duluth, Minn., Aug. 3.—Because of
the contention of Canada that a
treaty is violated by naval militia
manoeuvres of the Great Lakes, no
manoeuvres will be held this year, it
was said here to-day. The Gopher,
the ship of the Minnesota Naval
Militia, will leave Duluth on Satur-
day for her annual cruise, going to
Chicago to attend the opening of the
new naval training station, but no
contests will be held among the ves-
sels in the Naval Militia fleet. In-
formal contests and drills may be ar-
ranged, however, with the crew from
the Yantic, the Michigan ship, but
the other boats in the fleet will hold
no races, target contests or other
competitive drills.

PREPARATIONS FOR CANADIAN HENLEY.

St. Catharines, Ont., Aug. 3.—The
Canadian Henley Regatta course pre-
sented a busy scene to-day, in spite
of the excessive downpour of rain and
high temperature. The course was
dotted with crews covering the course
preparatory to rowing in to-morrow's
and Saturday's events. The Argo-
nauts spent the morning on the
course, and the eight are in fine shape.
The Britannia crew, Ottawa, made quick
time in a practice heat and will make
a strong bid for the senior four cham-
pionships. The Detroiters had a good
workout and the rain did not dampen
their enthusiasm. The Detroiters state
they will defeat the Argonauts
in the eight. Many of the contest-
ants in the junior singles.

JEALOUS WIFE ATTEMPTED SUICIDE.

Toronto, Aug. 3.—Jealous of her
husband, Mrs. Evelyn Quaff attempt-
ed to suicide this afternoon by taking
laudanum. The young woman was
rushed to St. Michael's Hospital in
an almost unconscious condition. The
drug was removed from the stomach,
and by 8 o'clock she had recovered
sufficiently to be removed to the po-
lice station, where she is charged with
attempting suicide.

BRIEF NOTES OF DOMINION NEWS

Ottawa, Aug. 3.—The dead body of
a child was found at Hull Thursday
and to-night a jury returned a verdict
that Miss Rosanna Villeneuve, mother
of the child, was responsible for the
death. A warrant for her arrest for
infanticide will be executed as soon
as her health is restored.

Montreal, Aug. 3.—Two men were
accidentally wounded today by others
who were practicing target shooting
in one of the side shoots at Dominion
Park. The two, Alexander McGee
and John Collins, were standing be-
hind the target which the bullets
pierced. Both were wounded in the
legs, but it is expected they will be
able to be about in a few weeks.

Kingston, Ont., Aug. 3.—A discov-
ery of coal has been made on a four-
hundred-acre farm owned by John
Lowry, near Parham, on the King-
ston & Pembroke Railway.

North Bay, Ont., Aug. 3.—Paul Tes-
sier, from Montreal, a passenger of
the Soo west-bound Canadian Pacific
Express to-day, on his way to work
in the lumber shanties, fell from the
train near Warren and was instantly
killed. Joseph Lafatier, of Calk
River, a Canadian Pacific employe on
a work train, fell from the wheels of
One arm was badly crushed and other
a train to-day on the Kippawa branch.
Injuries sustained, and he died later at
Mattawa Hospital.

Ottawa, August 2.—Canada's immi-
gration grows. The figures for the
month of June last announced, show
an influx of 40,008 as against 34,482 for
June of last year, a 16 per cent in-
crease. Of this number 27,974 came in
at ocean ports while people from the
United States moved across the
boundary to the number of 122,035.

NEWS NOTES FROM THE CAPITAL

Ottawa, Aug. 3.—Hugh Bradley, 22
months old son of Mr. Clem Bradley,
was drowned in an artificial pond on
the Driveway here. His father has
only been here three weeks from Por-
tage la Prairie for a holiday. The de-
ceased is a nephew of Hon. Hugh
Armstrong.

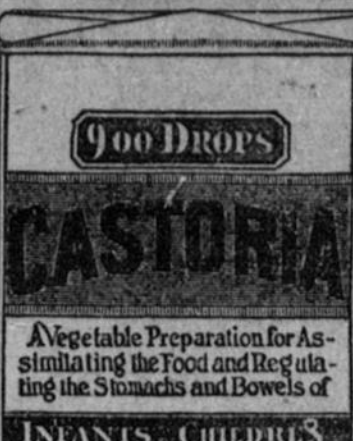

George Pappilon, one of the team-
sters drawing lumber for J. R. Booth,
fell off his cart during the heat at
Hull to-day. The wheels of the cart
passed over him and he died to-night.

A new company is in process of or-
ganization to build and operate an
electric railway between Ottawa and
points up the Gatineau River. The
intention is to take in all the sum-
mer resorts between Ottawa and
Farmpoint, including Chelsea, Kirk's
Ferry, Kingsmere, Cascades, which
will, in all likelihood, be the ultimate
destination of the road. Already the
estate market has been affected by
the proposed new line and prices for
Gatineau property have been steadily
rising.

Although the hundred or more mes-
sengers residing here in the employ
of the Dominion Government some
eight months ago drew to the atten-
tion of the government and of Mr.
Hal McGivern, M. P. for Ottawa, the
fact that they are now getting only
a minimum of \$500 a year (with an-
nual increases of \$50 until the max-
imum of \$800 is reached), and asked
for an increase in pay, they have had
no assurance that they will get one.
They are going to hold a meeting this
week to fully discuss the situation.

NO AGREEMENT ON STEEL PRICES

Independent companies Have
No Understanding with the
United States Co.

New York, Aug. 3.—John A. Topping, chairman of the board of directors of the Republic Iron and Steel Company, which recently cut prices on steel products, told the House Committee of Inquiry into the United States Steel Corporation to-day that no agreement to maintain prices existed between the steel corporation and the independent companies.

Mr. Topping was led into a discussion of the so-called "Gary dinners" where steel men of the nation assembled to discuss the trade, and his attention called to the fact that at a Gary dinner just after the Republic Company cut prices last May he had not been present. Mr. Topping said he did not know whether he had been slighted or not because the Republic Company had slashed the price.

Before his examination relating to the steel price question Mr. Topping, who formerly was a member of the Tennessee Coal and Iron Company Syndicate, told the committee that at the time of the transfer of the Tennessee Company to the United States Steel Corporation, he had not wanted to sell his stock, but did so out of friendship for Grant B. Schley. Mr. Topping also discussed the control of the ore freight shipping from the Superior region to Pittsburgh by the United States Steel Corporation. The rates, he declared, were excessive and he predicted that increasing strength of independent steel concerns eventually would force a change in these freight rates.

In response to questions by Representative Bartlett of Georgia, relating to steel price agreements, Mr. Topping said he had not recognized any "golden rule" of prices such as have been talked about since the chairman of the board of the United States Steel Corporation inaugurated his banquets to steel manufacturers. "When did the Republic Iron and Steel Company begin to cut prices?" Mr. Bartlett continued.

"I think it was last May," said Mr. Topping.

"Following immediately the Republic's price cut there was another Gary luncheon to which you were not invited, and you know, do you not, that the Republic Company was criticized for cutting prices?"

"I have no knowledge of that dinner."

"You were persona non grata?"

"I think not. We still speak as we pass by," Mr. Topping answered.

"What was the real purpose of the Gary dinners anyway?" Representative Beal of Texas asked.

"It was a general desire on the part of steel men to discuss geological, technical and other questions of mutual advantage," Mr. Topping replied.

"Wasn't any such a sordid subject as price ever talked about?"

"Not specifically," said Mr. Topping. "In a general way, perhaps."

Chairman Stanley asked the witness if he had been invited to attend the international conference of steel manufacturers at Brussels last July. He said he had but had declined.

"Were you asked to go there before the Republic cut prices?" Mr. Stanley asked.

"I declined before that," Mr. Topping answered.

"Did you notify Judge Gary of the Republic's intention to cut steel prices?" continued the chairman.

"I think I did notify him."

"Why?"

"Oh, it was not necessary to do so," Mr. Topping replied. "I told him as a matter of course. There was no reason to conceal it."

The United States Steel Corporation announced a reduced price schedule soon after the Republic cut, and the chairman inquired if that action had any significant connection with the Republic's decrease. Mr. Topping said that the only significance was the desire of the Steel Corporation to meet the prices of a competitor.

The chairman read comments in a German iron journal on the Brussels conference which charged that the American steel men were attempting to introduce American trust methods to control steel prices of the world.

"Do you believe as a practical business man," Mr. Stanley then asked, "that this effort made in Brussels to fix prices all over the world will escape Parliaments of Europe as price fixing has escaped here and that this American institution can be fastened on the rest of the world?"

"I doubt it very much," said Mr. Topping, "even if it were practical."

Charles M. Schwab, president of the Bethlehem Steel Company, and former president of the United States Steel Corporation, has been summoned to testify to-morrow.

FALSE TEETH FOOD FOR FISH

Man Leaped Overboard and
Teeth Dropped Into the
Stomach of a Bass.

(Special to Chronicle!!!)
Winsted, Conn., Thursday.—A big mouthed bass in Highland Lake wears or carries a set of false teeth belonging to James Turley of New York, who is sojourning at that resort. Mr. Turley went bass fishing yesterday with Dennis Coffey.

The city man, his eyes and mouth wide open, was looking over the side of the boat into the deep, clear water, when suddenly a swell from a passing motor boat rocked the craft and his false teeth fell into the lake. As he peered downward he saw his teeth disappear in the mouth of a large bass, which swam away.

If any piscatorial artist should catch a bass having in his possession the missing false teeth, he will confer a favor on the owner by leaving them with Dennis Coffey.

MONTREAL FIRE CHIEF'S AUTO NOT SUCCESSFUL

Montreal, Aug. 3.—Montreal's municipal authorities were badly fooled when they bought Fire Chief Tremblay an automobile to enable him to be quickly on the scene when fires are reported. Chief Tremblay reported to the Board of Control to-day that the car has been under expert examination and is now said to have been second-hand when bought. The machine was purchased from a New York firm brand new.

SANATORIUM ON MONTREAL MOUNTAIN.

Montreal, Aug. 3.—Dr. J. E. L. Berger, of the infectious disease department, has presented an application to the City Council for the inauguration of a sanatorium on the mountain, for incipient sufferers from tuberculosis. His scheme would provide a building wherein the patients would be able to have suitable diet specified by the medical officer of health, and sleep out in the open air at night. This idea, he is convinced, would have a great tendency to lessen the spread of the disease, which is alarming in the city.

ON A HOT DAY.

A Monologue by a Human Stomach
(Brooklyn Times.)

"Well, say, I wonder what my owner thinks I am, anyway. He seems to think I don't feel the heat at all. Doesn't the big boob know that I've got to be treated with consideration on a hot day like this? Gee, here comes another one of those fool soda water drinks. What is it this time, I wonder? Oh, yes, I see; it's a raspberry phosphate. Gulped down, too. That makes the third soft drink since breakfast, and I can't stand it much longer. I've provided accommodations already for one orange ice cream soda, one maple ice cream soda and one strawberry frappe, and now, by gosh, I've got to take care of this dogged raspberry phosphate. I s'pose he's hot and all that, but just the same he ought to think of me once in a while and not try to drown me out just because his throat or his tongue happens to be dry. The day's young yet, and heaven only knows what else he'll send my way before night. Gee, the very thought of it makes me feel like turning inside out. Maybe he'll get a little sense, though, and let up on me. I'm the best friend he's got, if he only knew it, but he's got to use me right or I'll raise particular cain with him. A man can't monkey with me in hot weather; I simply won't be imposed upon. I— for the love of spleen, look who's here, will you? Why? he's a bigger boob than I thought he was. What kind of a drink is this coming down? Hello, little stranger! Honest, this is almost funny. That's cantaloupe—I recognize you. And that's ice cream. And there's some whipped cream on top of you. And—ah, here we come!—two little red cherries, dyed in coal tar. Move along, ice cream sodas, frappes and phosphates. As the conductor says, there's plenty of room up front. Here! What's this too? Another one? Oh, this is too much. I won't stand for this. He may think I'm a copper kettle but I'll him I ain't. I'll stand just so much ill treatment from a man and no more. If he don't look after me, I'll have to look after myself, that's all. I'm going to send some of this back."

(Business of doing so.)

"Hello, what's this coming down? Hasn't he come to his senses yet? Oh, bicarbonate of soda and ammonia, hey. Ha, ha! The old, old story. Abuse me first, then try to square me."

CHURCH ORGANIST'S SUDDEN INSANITY.

Bethel, Me., Aug. 3.—Clinging to the limbs of a pine tree, with part of her clothing gone and in a state of partial collapse, Miss Elsie M. Davis, a church organist, who disappeared during the morning service last Sunday, was found to-day in the woods near here. Her hiding place was located by Fred L. Edwards, owner of the land, shortly after her shoes, hose, coat and shirtwaist were found in the vicinity. She was in a very weak condition and was hurried to her home in an automobile attended by physicians. The young woman appeared bewildered and made no signs of recognition when her father, who was one of the searching party, spoke to her. Miss Davis is 24 years old and is an accomplished musician. Before her disappearance Miss Davis had not shown any sign of illness to account for her strange behavior.

The sales of the day were 10,000 bales, of which 1,000 were for speculation and export, and included 9,100 American. Receipts were 100 bales, including all American. Futures opened quiet and steady and closed steady.

NEW YORK CLOSING LETTER.

By private wire to McDougall & Cowans, 81 St. Peter street.

New York, Aug. 3.—The market opened not far from last night's closing with a few stocks down fractionally all around. This liquidation was not extensive and the market soon rallied. During the greater part of the day showing quiet firmness. In the last hour, however, fresh selling developed all along the line, carrying stocks off. The Northwestern stocks, notably Northern Pacific were very weak, but the list as a whole moved very evenly toward lower levels. Among active issues Steel withstood the pressure better than anything anything else. Some rallies took place in the last half hour on short covering, but these were not extensive and the tone as a whole was decidedly heavy. News from Washington that the government contemplated a new suit against some of the coal carrying railroads had a further depressing effect, but probably the sharp rise in grain on the Chicago Board of Trade caused as much selling as anything else, as it to a certain extent corroborated the damage news which has been in circulation of late. Total sales, 407,537.
