THIS is the Dalton Adding and Calculating Machine—with *ten keys.*

It is the fastest adding and listing machine in the world. But it does more than add—it divides, subtracts, multiplies—*fractions as readily as whole numbers.*

Operation by the *touch method* (impossible on old-style adding machines) results in a wonderful increase in both speed and accuracy. 287 lines of business have turned their figuring problems over to the Dalton. Try it in your own office on your own work

Missing Names

You know of some names that were in last year's Directory but are missing from this year's.—

Not merely names of those who have moved to other cities or towns, but of many who have moved beyond the boundaries of life.

Some left their families well provided for. Some left them with little or nothing; for the call came before they were ready

Your name may be among the missing next year.

Are you ready? Will your family be left in a position to live as you would like them to live?

It takes time to build an estate. While you are building, you can safeguard your family's future by creating an emergency estate, which will crystallize into hard cash on the day when you cease to be able to build—no matter how soon that day may come.

Life assurance affords the means

Let us tell you about it.
