Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill.* The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup,* it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

For a *Cough* and *Cold,* no better remedy can be had. Take small doses three times a day and put the feet in warm water at night, until the disease is broken up.

For *Influenza,* when it affects the throat or lungs, take the same course.

For *Whooping Cough,* give small doses three or four times a day.

For *Croup,* give large and frequent doses until the disease is overcome.

No family should be without the *Cherry Pectoral* on hand to protect them, in case of attack, from the above complaints. Its timely use often spares the patient a great amount of suffering and risk, which he would incur by waiting until he could get other aid. Parents, keep it in your houses for the exigencies that arise. Lives dear to you may be saved by it.

So generally are its virtues known, that we need not publish certificates of them here, or do more than assure the public that the best qualities it ever possessed are strictly maintained.

TRADE NAME!

McLEAN & CO.'S

CARBOLIC DISINFECTANT BURNING OIL.

THIS valuable OIL is now extensively used in the west with wonderful success, as may be seen by reading the accompanying testimonials from highly respectable and well-known persons in whose houses the OIL is in nightly use, and was, as a disinfectant, in constant demand during the visitation of the small-pox last spring. As a durable article (because it is less volatile than the ordinary burning fluids,) one gallon lasts longer than the oils now in use. It never blackens the lamp chimney, if the wick be properly trimmed, nor will it deposit any sediment in the lamp, by which the wick generally becomes charred, as the "poisonous mineral chemicals," used in its decolorization, are carefully extracted. It burns freely, giving a beautiful soft light which never affects the eyes, as the wick is never charred or incrusted by foreign matter. From its CARBOLIC and other medical properties, of a similar nature, it is a certain disinfectant in the sick chamber, the hospital, and on board of ship, where all classes of society (during the voyage) are crowded together, from the statesman down to the pauper, just escaped, perhaps, from within the walls of Newgate, and still wearing his prison rags, with, it may be, a large sprinkling of the dregs of "small pox" or some other disease equally infectious, to be widely spread among the inhabitants of the country to where he is emigrating.

TESTIMONIALS.

MESSRS. McLEAN & Co.,

GENTLEMEN,—It affords us much pleasure to inform you that your Burning Oil is the best and safest we have ever used, one gallon of which lasts or burns longer than any other we have used previously. It never chars the lamp, burns freely, giving a beautiful soft light which does not affect the eyes like the other Oils now in use. Altogether we consider it the great desideratum as far as burning-oil is concerned.

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

A CURE for CONSUMPTION, COUGHS, COLDS, ASTHMA, BRONCHITIS, GENERAL DEBILITY, and all SCROFULOUS HUMORS.

FOR CONSUMPTION,

it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands, has arrested the disease in its primary stages, and restored the patient to robust health.

BRONCHITIS.

Its effect in this troublesome disease is very marked, although it is necessary to persist in its use for a considerable length of time.

FEMALE DEBILITY.

To sustain and augment the vital forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body—nothing can be better adapted than this preparation.

In Asthma, Gout, Rheumatism, Sciatica Diabetes, Eruptions, Scrofula, Rickets, Neuralgia, Infantile Wasting, General Debility, Emaciation, Stubborn Ulcers, Spinal Disease, Hip Complaints, Coughs, Palsy, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious.

BRISTOL'S

SUGAR-COATED PILLS!

PURELY VEGETABLE.

THE need of a safe and perfectly reliable purgative medicine has long been felt by the public; and it is a source of great satisfaction to us that we can, with confidence, recommend our BRISTOL'S SUGAR-COATED PILLS as combining all the essentials of a safe, thorough, and agreeable Family Cathartic. They are prepared from the very finest quality of medicinal roots, herbs, and plants; the active principles or parts that contain the medicinal value being chemically separated from the inert and useless fibrous portions that contain no virtue whatever. Among those medicinal agents we may name PODOPHYLLIN, which has been proved to possess a most wonderful power over the LIVER, and all the bilious secretions. This, in combination with LEPTANDRIN, and other highly valuable vegetable extracts and drugs, constitutes a purgative Pill that is greatly superior to any medicine of the kind heretofore offered to the public. Bristol's Vegetable Sugar-Coated Pills will be found a safe and speedy remedy in all such cases as Piles, Headache, Jaundice, Bad Breath, Foul Stomach, Loss of Appetite, Liver Complaint, Habitual Costiveness, Dyspepsia or Indigestion, Heartburn or Flatulency, Dropsy of Limbs or Body, Female Irregularities, and all diseases of the Stomach, Liver, Bowels, and Kidneys.

In diseases which have their origin in the blood, Bristol's Sarsaparilla, that best of blood purifiers, should be used with the Pills; the two medicines being prepared expressly to act in harmony together. When this is done faithfully, we have no hesitation in saying that great relief, and in most cases a cure, can be guaranteed when the patient is not already beyond human help.

For general directions and table of doses, see the wrapper around each phial.

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

FLORIDA WATER,

FOR THE

Handkerchief, the Toilet, and the Bath

THIS most agreeable and refreshing of all perfumes, contains in its highest degree of excellence the aroma of flowers, in full natural freshness. As a safe and speedy relief from

FAINTING TURNS, NERVOUSNESS,
HEADACHE, DEBILITY,

and the ordinary forms of Hysteria, it is unsurpassed. It is moreover, when diluted with water it, the best dentifrice, imparting to the teeth that clear, pearly appearance, which all ladies so much admire. As a remedy for foul or bad breath, it is, when diluted, most excellent, neutralizing all impure matter around the teeth and gums, and making the latter hard and of a beautiful color. With the very *elite* of fashion it has for a quarter of a century, maintained its ascendancy over all other perfumes, throughout the West Indies, Mexico, and Central and South America, and we confidently recommend it as an article which, for soft delicacy of flavor, richness of bouquet, and permanency, has no equal. It will also remove from the skin

ROUGHNESS, BLOTCHES,
SUN BURN, FRECKLES,
AND PIMPLES.

It should always be reduced with pure water, before applying, (except for Pimples). As a means of imparting rosiness and clearness to a sallow compexion, it is without a rival. Of course, this refers only to the Florida Water of MURRAY & LANMAN.

EDUCATION.

The opinions expressed in Archbishop Manning's pastoral, which we epitomized in our last, according to the writer in the Pall Mall *Gazette*, embody very nearly one of the most mischievous errors of the day, and, at the same time, afford an excellent illustration of the paradoxical position in which the Roman Catholic clergy find themselves in a country like England, and the nature of the moral struggle which most assuredly will have to be decided some day or other, and which has been long, though somewhat obscurely, in progress between the lay and clerical elements of society. The Archbishop's view of the character of the relations which exist, and which ought to exist, between Church and State, in matters of education, is very simple. The State ought, he thinks, to commit the teaching of the people to the clergy of the true (*i e.*, the Roman Catholic) church; but if this is impossible, as he admits it is, in a State which has "forfeited its religious unity," then let it commit the education of the children of each denomination, to the clergy of each denomination. If the State affects to regulate education itself, independently of religion, it claims "supremacy over the conscience," and this is the "deification of the Civil power which Christianity overthrew." It is a "true tyranny over body and soul." In attempting to estimate the character of such language as this, continues the reviewer, it is necessary, in the first place, to get rid of a certain number of bugbears. In the first place, what is the meaning of "tyranny?" We understand by it, nothing but the use of force for a malevolent purpose. The mere employment of superior force, if the end for which it is employed is good, is no tyranny at all. Dr. Manning himself, says, that the "Church claims and possesses the right and the commission to direct, and by all moral power to constrain its members to educate their children as Christians." If the Church does possess such a power, and if it is for the general happiness of both parents and children, that it should be used in the manner stated, there is no tyranny in making that use of it. On the other hand, the State has also the power to direct, and by various means, moral and physical, to constrain its members to educate their children in any way in which the State may determine. Now let us assume, for the sake of the argument, that it is on the whole for the happiness of both parents and children *that the State should exercise this power*, its exercise would not be tyranny, for it would be a benevolent and useful, instead of a malevolent and injurious exertion of superior force. Nor is it to the point to say that such a measure would be "equivalent to a state supremacy over conscience." Every command which one human creature can possibly issue to another is, *pro tanto*, an act of supremacy over conscience; that is to say, an act whereby one person takes upon himself to overrule the determination which another person would otherwise form as to his own acts. Every one, clergyman, statesman or soldier, who rules at all, exercises a certain degree of supremacy over conscience, and in doing so, the question whether he does a good action or a bad one, depends on its tendency to promote general happiness. The question then between Church and State in the matter of education, comes practically to this—which is the best and wisest guide? which is the more likely to provide a good education for children? Whichever may be the best and wisest ought to undertake the task in question, and is guilty of no tyranny in doing so. In order to answer this question, we must look further into the meaning of the two words, Church and State, and must refer more precisely to time and place, for they mean and have meant very different things, at different times and places. Practically, in this country, the State means the House of Commons, and the Church means the different denominations of clergymen. But what is the House of Commons? It is the representative of the common sense of the great bulk of the respectable adult male population of the country at large, and it reflects very fairly their habitual frame of mind. We come then to this question—which are, on the whole, best and wisest, the laity (who form the bulk of the parents of the children to be educated) or the clergy? For whichever are the best and wisest, ought, if they are also the more powerful class, to decide this and all other such questions. To this we answer emphatically, that the laity, as a whole, are far better and far wiser than the clergy; that they are much more likely to have sensible views as to what education ought to be, and how it should be related to religion; that they are much more likely to have sensible views about religion itself than the clergy, inasmuch as their minds have been less distorted upon the subject, and that for this reason they, and not the clergy, ought to regulate public education. As to the clergy and to their teaching or religious matters, it is enough to remind Archbishop Manning, that it is absolutely impossible that all of them can be right. He himself passed half of his life or more in what he now regards as deadly error; and with what force can he, of all people, come to the House of Commons and say: You ought to educate, but mind; it is very wicked and tyrannical to do it directly; you must do it through the agency of a vast number of clerical persons, most of whom, as I have the best means of knowing, teach damnable heresies of various kinds, which it is a deadly sin to hold, unless you happen to be in a state of invincible ignorance. Since you will not make me moral viceroy of England under the Pope, pay me, and the clergy of the Church of England, and the clergy of the Church of Scotland, and the Protestant Dissenters, and the Jews, and the Unitarians, to teach every sort of conflicting religion; for any thing in the world is better than to teach, by public authority, those vague, general notions of religious duty and worship which are, so to speak, the greatest common measure of all our conflicting creeds, and which, practically speaking, form the religious instruction of ninety-nine English families out of a hundred, because it comprehends all the religion to which the vast bulk of parents really and in their hearts attach much importance.

Having thus briefly, but, we also think, clearly, given the views of Dr. Manning and his English reviewer, we will, in our next, point out the different condition of things now existing in Canada, and how, under them, education in its true sense can be best promoted.

ADOLPHE NIEL, MARSHAL OF FRANCE.

In the death of Marshal Niel, which a cable telegram has announced, France has lost one of her most experienced soldiers. He was born at Muret Haute-Garonne, in 1802, and at the age of 21 entered the Ecole d'Application at Metz. He became lieutenant in 1827, and entered on a military career during which he has shared in nearly all the important military movements of the French army, and has seen in his lifetime five sovereigns upon the throne of France. During the Algerian war he distinguished himself at the capture of Constantine, and received promotion for his services on that occasion. In the expedition to Rome in 1849 he acted as Chief of the Staff of Engineers, and rendered such valuable services that he was appointed a General of Brigade and sent on a mission to Gaeta to carry the keys of the city to the Pope. The Russian war next offered an opportunity for the employment of his abilities in military engineering operations. He commanded the engineers at the capture of Bomarsund, then went to the Crimea and reported upon the condition of the army and the state of the siege of Sebastopol, and finally took command-in-chief of the Engineers and directed the siege. Soon after the final assault he received the insignia of the Grand Cross of the Legion of Honor, and was created a Senator in 1857, and about this time wrote a work entitled the "Siege of Sebastopol." He received the command of the Fourth Corps of the Army of the Alps at the commencement of the Italian war, and after the victory of Solferino, in which the artillery played so important a part, he was appointed a Marshal of France. In 1867 Marshal Niel was appointed Minister of War, and retained that position during the late change in the Cabinet. His administration of military affairs was characterized by vigor and ability. In a short time he succeeded in removing the disadvantages under which the French army labored, and rendered it equal if not superior to any force in Europe in point of arms and organization. In the Senate he ably and consistently sustained the policy of the Emperor, and, although openly opposed to Prussian ascendancy in European politics, he yielded to the Emperor's decision against war. One of his latest measures as Minister of War was the intimation of his desire that no non-commissioned officer should be promoted to the rank of officer after the age of 28. This regulation was intended to secure greater efficiency in the army, as it was based on the opinion that the cases must be rare in which a man having served in the ranks for eight or nine years without having been marked as fit for a commission would make an efficient officer.

LUNAR WARMTH.

Lord Rosse has been measuring the heat that comes to us from the moon. Using one of his great reflecting telescopes as a burning mirror, he has condensed the moon's rays upon one of the most delicate of heat gaugers—a thermopile. Without being able to determine by what fraction of a Fahrenheit's degree the lunar warmth increases the temperature of the terrestrial atmosphere, he has found, as an approximation, that the radiation from the moon is about the ninety-thousandth part of that from the sun. He conceives that the variation of heat from one satellite follows the same law as that of its light; i.e., that we have most warmth from the full moon, and least from the nearly new. By comparison with a terrestrial source of heat, Lord Rosse estimates the actual temperature of the moon's surface at lunar mid-day to be about 500 degrees Fahrenheit. This scorching results from the slow rotation of the moon, which makes its day equal to our month, and from the absence of any atmosphere to screen the lunar world. Years ago Sir John Herschel, who has more than once proved himself a prophet by his sagacious inferences, remarked that "the surface of the full moon exposed to us must necessarily be very much heated, possibly to a degree much exceeding that of boiling water." Fontenelle and his followers to the contrary notwithstanding, the moon can be no place for living beings, unless they are salamanders.

CHEERING—IF TRUE.

The "Canadian Monetary Times" makes allusion to the reports which from time to time, we hear concerning the number of people who leave Canada for the United States. It says:—"It is true a great many young men do go there, but it is also true that many come back. For that matter, a great many Americans come and settle in Canada; but this proves nothing more than that people will rove about. Canada never witnessed such an era of progress as at the present time. Railways are being built in all directions; new branches of industry are being developed; new territory is being opened up; and we have organized a system of immigration which has already borne good fruit. We have a new and fertile West for our young men, where their adventurous spirit can sate itself. Each province is vieing with the other in economy. Our people are comfortable, and well satisfied with their political institutions. When we say that we have the freest country upon earth, it is no idle boast, for we challenge contradiction. Indeed, our American neighbors are the readiest to confess it; and none are more earnest in their advice that we should retain our identity than those who have experienced the evils which the better educated classes in the States labor under.

AN ECLIPSE DISCOVERY.

Professor Winlock, of Harvard College, is bringing back the results of his observations on the eclipse. The *Courier* says: "His most remarkable discovery, however, far surpassing those of Janssen in India, is the presence of an ocean of magnesium in the sun. Of the six new lines discovered by him, four are magnesium. It is therefore unnecessary for any earth-born mortal to claim that he discovered the power that magnesium possesses for making a brilliant light. Of the five lines known before the discovery of the six new ones by Professor Winlock, four are known to be hydrogen. The constitution of the other is unknown." Another curious fact seems to be settled now; it is, that the corona of the sun and the Aurora Borealis are identical in constitution.

LOCAL INTELLIGENCE.

SUDDEN DEATH.—An old man named Pierre Bedard, laborer, died suddenly at his residence, No. 56, St Gabriel street, at noon yesterday. Coroner Panet held an inquest to-day.

INCENDIARISM IN MONTREAL.—Our neighbours are having quite an exciting time of it in this direction. Each night, the *Witness* says, now leaves its evil crop of these fires.

REPRIEVED.—A reprieve has been granted to Poitras, the convict now under sentence of death in Murray Bay Jail, for the murder of one Ouellet; and he will be hung, if hung at all, on the 20th September, instead of on the 20th inst.

FIRE.—The fire alarm sounded on Monday morning about half-past 9, from box 61, corner of D'Artigny and Amable streets, St. Lewis suburbs. The brigade turned out promptly, and extinguished the fire with the aid of a few buckets of water.

IMPORTANT TO GAS CONSUMERS.—Consumers of gas are reminded, by a notice in another column, that their quarterly accounts, with all arrears, must be paid on or before the twentieth instant, to secure the discount of 10 per cent. The rules will be strictly adhered to. They are also reminded that English and American silver is taken at a discount of five per cent.

MOVEMENTS OF MINISTERS.—The Ottawa *Citizen* of yesterday says, the Hon. Messrs. Howe and McDougall left for Thunder Bay on Monday, accompanied by Messrs. Munro and Rowan of the Board of Works Department. The Hon. Mr. Howe proposes to extend his tour to Red River to make himself personally acquainted with the country. It is understood that on his return to Ottawa in October next, he will vacate the office of President of the Council and accept that of Secretary of State for the Provinces, in which capacity he will have to carry on the correspondence not only between the Dominion Government and the different Provinces, but also between the Dominion and the territorial Government to be established in the North-West. We believe that the Hon. Wm. McDougall will finally proceed to Red River in October next.

THE LOWER GOVERNOR'S GARDEN.—We are not surprised at the outcry being made in the city press at the offensively exclusive manner in which this beautiful promenade has been monopolized by the Laval Normal School. As a part of the city fortifications, it is to be presumed that the property should be under imperial military control; and if so, one class of citizens should have as free access as another. If not, and it should be that the Normal School authorities have secured a special right to the exclusive use of the grounds, then are they bound, for the satisfaction of the public mind, to make it known. We would therefore hope, that before any unpleasant circumstance arrises out of it, the question may be promptly looked into and explained. Perhaps the commandant of the garrison could enlighten us on the subject.

THE WEATHER AND THE CROPS.—The Witness of yesterday says that the weather was very favorable for the crops during the past week, and the hay that had remained over, awaiting suitable weather, was nearly all under cover before the late rains came on. The rain, from what we learn, appears to have been pretty general all over the country, and in many places it will have been injurious. The crops are so rank this season that the heavy rain which fell on Sunday last laid them down, and it is feared that all will not rise again to ripen. Indian corn, in particular, which had benefitted very much by the recent dry and somewhat hot weather, has received another severe check. Potatoes have suffered very much recently from rust, caused by damp weather. Some of the best kinds are most affected, whilst the larger soft potatoes, usually termed "Rocky Mountains," are comparatively free from spot or blemish. There are many complaints of the midge in spring wheat, but to what extent it will be affected we cannot say. The crop on the whole looks well, and with favourable wheather to harvest it, we have no doubt but it will be abundant. Oats are really good. Peas are also good, although the return of grain is not expected to be equal to the appearance of straw. Apples, plums &c., are not ripening as fast as could be desired, which is owing to the raw, unseasonable weather. The crop will be abundant as regards numbers, but in many places the return in size will be unusually small.

MARITIME ITEMS.

The Quebec and Gulf Ports Steamship Co.'s steamship City of Quebec, Captain Connell, left port at midnight, for Pictou and intermediate ports, with the mails, forty-eight passengers, and a general cargo. The steamer was detained until that hour by a slight derangement in the machinery.

MONTREAL, August 16.—The propeller Congress ran ashore last night, at a place called "The Churches," a short distance above the Rapids. She was laden with grain, and it is thought that she will not be got off until the river rises.

NEW YORK, August 16.—The steamer Havana, of the Nashville Packet Company, was burned to the water's edge at Parlor Grove, twelve miles below here to-day, where she had just landed a pic-nic party. No lives were lost. The total loss is $12,000; insured $9,000.

LIVERPOOL, August 16.—The ship Bazaar, which sailed from Liverpool Aug. 7, for New York, collided at sea with the ship Sandusky from New York, July 15th, for Liverpool. The Bazaar put into Milford Haven, and the Sandusky arrived here to-day. Both vessels were much damaged and leaking badly.

MOUNT VERNON, IND., Aug. 14.—The Evansville and Cairo Packet Cumberland exploded her boiler near Shawneetown, this morning. Eighteen or twenty lives were lost. The boats and books were blown overboard, and the names of the missing cannot be ascertained.

THE RECENT DISASTERS ON THE COAST OF NEWFOUNDLAND.

ST. JOHN'S, N.F., Aug. 17.—News from the wreck of the steamship Germania, up to a late hour, represent that only one box of silver had been recovered since Saturday, making 28 bars in all. The ship has settled down aft in nine fathoms of water. The cargo coming up, consisting of sewing machines, clocks, tobacco and cigars, is almost worthless.

The officers of the Germania report that another steamship struck near the same place on the same day, but she got off and proceeded on her voyage. The Captain of the Germania is still at the wreck.

The Cleopatra sunk in shallow water. Her captain is endeavouring to secure the cargo saved by boats.

The bark Odd Fellow, of New London, bound to Greenland, was lost at Little Placentia on Friday, and was plundered by wreckers. Nothing was saved for the owners.

The passengers of the Germania expressed the greatest satisfaction at the treatment they received at Trepassey and at this place.

A RAFT IN THE RAPIDS.

Yesterday's Montreal Gazette says, on Saturday evening Mr. Cullen arrived at St. Anne's with 52 cribs of timber from Ottawa, on which, besides himself, there were four men. On Sunday morning the steamer Fashion came up and took the rafts in tow; all went well until it arrived at Lachine, here the Fashion towed it to the head of the dam, but too far out in the stream. There was but one strong rope on board, and that was attached to a large anchor which was at the head, instead of at the stern, as is usual on rafts coming down the rapids. The men being distributed over so long a distance were not able to get the anchor off in time, nor had they any rope with which to make fast to shore. The Fashion, when she let go, then attempted to go out and push the timber back, but she was too late, and away went raft and men down the stream. The Indians at Caughnawaga were fortunately on the alert, and seeing the danger the men were in, manned a couple of canoes and paddled over to them, got on board the cribs, cut four of them loose from the rest of the raft, saved the five men, their clothes; and at last ran the four cribs down to the foot of the rapids and anchored them there. The rest of the raft went to smash over the rapids, and timber was floating down before the city all day yesterday; a considerable portion of it was secured by Mr. Vincent's boats. Cullen thinks that by this disaster he has lost fully $4,000.

CONSECRATION OF THE NEW METROPOLITAN.

The Rev. Ashton Oxenden, rector of Pluckley, Kent, was consecrated on Sunday, the 1st inst., in Westminster Abbey, as Bishop of Montreal and Metropolitan of Canada, in the room of Bishop Fulford, who died last year. At ten o'clock the procession entered—comprising the beadle, almsmen, choir, the dean (Dr. Stanley), the canons, F. Hart Dyke, Esq., registrar of the province; John Shepherd, Esq., proctor; the Bishop elect; eight bishops assistant, viz.—Bishop Smith (late Hong Kong), Bishop Trower (late Gibraltar), the Bishop of Labuan and Sarawak, the Bishop of Columbia, the Bishop of Gibraltar, the Bishop of Ely, the Bishop of Rochester, and the Bishop of London; The Archbishop of Canterbury (attended by Rev. A. Martineau); Rev. S Flood Jones, &c. The communion service was at once commenced by the Archbishop of Canterbury, the Epistle being read by the Bishop of Ely and the Gospel by the Bishop of London. The sermon was then preached by the Rev. G. H. Sumner, from St John, chap. xx., verse 21—"Then said Jesus to them again, Peace be unto you; as my Father hath sent me, even so send I you." The preacher paid a high tribute to the Bishop elect as a Christian and a scholar, and particularly as the advocate of peace and love. The difficulty of choice on the part of Churchmen in Canada had been solved at the very mention of the name of Ashton Oxenden. What might have led to disputing, to alienation of some perhaps, was accomplished, not by any compromise of principle or any sacrifice of position, by the selection of one who with no faltering hand had led many to the pathway of truth, and who had never made an enemy because his words of truth were always spoken in love and charity, never imputing evil to those who differed from him, but in kindness and in faith he simply did his Master's work. The present were days when the Church could not afford to show to the world the sad spectacle of a house divided against itself. There were many eager for the downfall of the Established Church, and it was important that a firm and undivided front should be displayed to its foes, infidelity and irreligion alike. Some difference of opinion was no doubt, essential to the Church's well-being, A dull level of uniformity would be no sign of health, but of stagnation. The dogmas of the Church must be maintained, as they were God's heritage, but they should be upheld in the spirit of true Christian charity, and ever in the view of maintaining peace, love and good order. After the sermon the Bishop elect proceeded to the Islip Chapel to be vested in his rochet, the choir meanwhile singing Ouseley's anthem, "How goodly are thy tents." On his return the Archbishop took a seat in front of the altar, and the Bishops of Ely and Rochester presented the candidate. The Queen's mandate for the consecration was then read by the registrar, and the Bishop elect took the usual oaths. Mendelssohn's anthem, "How lovely are the messengers," was sung, while the Bishop elect retired and was vested in full episcopal robes, and, on his return, all the prelates present joining in the imposition of hands, the newly consecrated Bishop took his seat within the altar rails and the Holy Communion was administered, the offertory being devoted to the Westminster Spiritual Aid Fund.

MORE ABOUT THE CRACOW NUN.

The intense excitement which the Cracow sequestration case has caused throughout Austria is undoubtedly warranted by the enormity of the crime; but we should have heard much less about it if the revelation had been made some three years ago. Since the war of 1866, however, Austria has set about establishing a free Constitution, and in no respect have the people and the Government worked together more perseveringly than in the effort to shake off clerical thraldom. Hence, whereas this affair might, perhaps, have been hushed up before the recent reforms, the nation is now determined to have full inquiry, and the Government is not disposed to thwart its wishes. No one, we are assured, will be screened by any sort of privilege from the inquiry which has been set on foot. A petition is being got up praying for the removal of the Jesuits. As Cracow has always been considered one of the strongholds of clerical influence, this is a remarkable fact. One of the Cracow papers tells a story which, it is thought, may throw some light on this great mystery. In the month of April, 1848, a patrol of the National Guard remarked, about one o'clock in the morning, a travelling carriage before the entrance door of the Carmelite nunnery. Curiosity and suspicion induced the young men on guard to stop the carriage, which was just starting. Two of them went to the carriage door, and saw in the carriage two men, one of whom held on his knees a woman in a nun's dress, and having a night-cap on her head. While the National Guards asked questions of the men in the carriage, the woman jumped out and ran into the court-yard of the convent. One of the Guardsmen ran after her, and, in spite of her entreaties, would not let her go. The noise in the midst of the night awoke the nuns and servants of the convent. When the nun remarked this she cried out, "I am lost!" and fainted. What became of her afterwards is not known. It is proposed, however, to trace over the lists of the National Guard, so as to find out, if possible, who was on duty on that night, in the hope that some material facts may be elicited.

EXTINCT FAMILIES.—Robert Stephenson leaves no family behind him. His wife died many years ago, and he remained a widower, so that the direct line from George Stephenson, the eminent English engineer, has died out. James Watt, the noted British inventor, left no descendants. It appears that the men noted for mechanical genius, like many of those famous in literature, science, and government in Great Britain, leave no children to perpetuate their names, Shakspeare, Milton, Bacon, Newton, Harvey, Pope, Mansfield, Pitt, Fox, Gray, Cowper, Collins, Thomson, Goldsmith, Congreve, Hume, Bishop, Butler, Locke, Hobbs, Adam Smith, Bentham, Davy, Sir Joshua Reynolds, Sir Thomas Lawrence, Byron, Lord Clyde, and others well known to fame in British annals, have no lineal representatives now living.

LATEST TELEGRAPHIC NEWS.

GREAT BRITAIN.

London, Aug. 16.—The Harvard crew were out at practice again on Saturday. They traversed the course from Putney to Westlake, which is the regular course agreed upon for the race on the 27th, in 21 minutes and 10 sec. The Oxford afterwards rowed over the same course in 22 minutes 10 sec. Clasper is building a boat for the Harvard crew, and oars by the best makers have been ordered.

Later—The Harvard crew were out to-day in their new boat, and a new set of oars have been made here. The Oxford crew rowed on the water at the same time, and both the crews were loudly cheered by the spectators, of whom a large number had gathered on the banks. Betting has now fairly commenced, and stands 3 to 1 in favor of the Oxford.

Rev. Paul Bagley's petition for the release of the American Fenians has been sent to the Queen.

Dublin, August 16.—A great Orange demonstration was made to-day at Clones. It is estimated that 30,000 people took part in the procession, and at a subsequent open air meeting resolutions were adopted denouncing the disestablishment of the Irish Church, and party procession act.

Meetings have been held at Waterford and Thurles, at which resolutions were adopted urging the Government to issue a general amnesty to the Fenians.

London, Aug. 16. Midnight.—The miners held a meeting at Sheffield to-day, to devise measures for keeping up their strike. After the meeting, a number of the men who had been locked out, attacked the houses of some non-unionists, and sacked them. A great riot followed, but it was finally stopped by the police, who succeeded in dispersing the mob. At last accounts the city was quiet.

London, August 17.—The Harvard and Oxford crews are out every day for practice. For the past few days the tide between Putney and Westlake has been bad, and rowing could only be done early in the morning or late at night. Good judges say the Oxonians are faultless. The past movements of the Harvard crew are much improved and are rapidly working into the English style. They display great strength, and their pace against the reverse tide is rapid. The question is generally asked—"Can they hold out at the terrific pace with which they start?" Betting to-day is 5 to 2 on the Oxford. Yesterday it was 3 to 1.

Later—The Harvard and Oxford crews both rowed from Westlake to Putney to-day. The former made from 38 to 39 strokes per minute. They had heavy weather part of the way.

It is rumored that Wm. Stuart, English Minister to Buenos Ayres, will go to Madrid in the same capacity.

Charles Moore, member of Parliament for Tipperary, is dead.

Dublin, August 17.—The Municipal Council adopted an address to Earl Spencer, Mr. Gladstone and Earl Gray, congratulating them and the country on the passage of the Irish Church Bill. The conservative members of the Council absented themselves when the vote on the address was taken.

Archbishop Cullen has summoned the Roman Catholic Bishops to meet in Council for the discussion of public questions.

SPAIN.

Paris, Aug. 15.—Despatches from Madrid contain reports of the discovery of additional Carlist plots for rising in various parts of the country.

A party of Carlists in Valencia was defeated by regulars and volunteers, and fifteen prisoners taken.

There are great fears of an important Carlist movement on the frontier. In the town of Fatonia, shouts were raised by the people of "Live the Republic! Death to Monarchy!"

Madrid, August 15.—The troops have had encounters with bands of Carlists in Castile and Valencia. In every case the Carlists have been defeated, and many have been captured, among them being several priests.

The Government has decreed the capitation tax, but it is doubtful whether they will be able to force its collection.

The Bishops re-affirmed their adhesion to the present Government.

Madrid, Aug. 16.—Encounters continue between the troops and bands of Carlists. Up to the present moment the Carlists have been defeated.

Madrid, August 17.—The Epoca and other newspapers of this city deny the existence of negotiations between Spain and the United States relative to Cuba. It said that the Government desires the restoration of order in Cuba before considering the subject of cession to the United States. The rumor of union is officially denied.

Paul S. Forbes of New York, who has been here sometime in the interest of Cuba, has gone to America. He will return here again on the re-assembling of the Cortes.

A body of Carlists led by Vicar Alcublas were defeated at Abehula by the National troops. The Vicar and 19 of his men were taken prisoners.

FRANCE.

Paris, August 14.—It is understood that the affliction of the Emperor at the death of Marshal Niel was so great that he was compelled to hastily leave the Chalons camp when the military feats were in progress.

The French Government has authorized the French Cable Company to lay a cable from Brest to England.

The Journal Official to-day publishes a decree in which the Emperor, in commemoration of the hundredth birth-day of Napoleon I., grants full and complete amnesty to the press and political offenders; to persons convicted of evasion of taxes; to deserters from the army and navy, and to sailors in the merchant marine who have abandoned their ships.

Paris, August 15.—The Emperor remitted the sentences by the court martial on eighty offenders, and reduced the sentences of seventy others.

Paris, Aug. 16.—The Emperor will visit the camp at Chalons in September.

The Public Opinione to-day states that the Emperor still suffers from rheumatic pains and remains at St. Cloud.

Marshal McMahon will probably succeed Marshal Neil as Minister of War.

Paris, Aug. 17.—The Emperor was better to-day and took a walk in the Park at St. Cloud.

The press of the city regard the recent amnesty decrees of the Emperor as an abandonment of the past policy, and pledge for the future.

The funeral of Mar. Niel takes place to-day.

It is now asserted that Gen. LaBœuf will be appointed Minister of War.

AUSTRIA.

Vienna, Aug. 16.—At the sitting of the Austrian Delegation to-day, during the discussion of the military estimates, the Minister of War said that, considering the aspect of affairs a reduction of the army would be impolitic. Austria could not take the lead in such a movement, though her forces exceeded half a million. The number under arms was very small.

Vienna, August 17.—The entire press of the city disapprove the note recently sent by the Prussian Government denying Von Buest's assertion in respect to his endeavours to permit a general amnesty. The journals denounce the course of Prussia as unprecedented diplomacy.

Trieste, Aug. 17.—The United States steam frigate Franklin has arrived at this port.

ABYSSINIA.

London, Aug. 16.—The Levant Herald reports that two Armenian prelates who had been detained three years in Abyssinia, have been released through the intercession of the British Government.

ITALY.

Rome, August 17.—The Pope has decided to hold a universal exhibition of Christian Art next year.

PRUSSIA AND ROME.

Berlin, August 17.—It is reported that the North and South German States have agreed to a common action with respect to the Ecumenical Council, if the resolution adopted by that body on the question of the temporal power of the Pope should threaten the peace of Europe.

TURKEY AND EGYPT.

Paris, Aug. 15.—The Grand Vizier's letter to Ismael Pasha states circumstantially the grievances of the Sublime Porte. He refers to the Cretan affair, the journey through Europe, the oppressive administration in Egypt, and demands clear and categorical explanations. He expresses his determination to insist strictly on the terms of the firman of 1841.

Constantinople, Aug. 17.—The early arrival of Ismael Pasha is expected here.

From Mexico.

City of Mexico, Aug. 13th.—A conspiracy against the life of Juarez was discovered, which has already been reported. It was completely frustrated; the principal conspirators included five generals. One of the latter has since escaped from prison and is in Michoacan. A number of persons arrested in connection with this plot have been liberated.

The Mexican army is to be filled up by enlistments instead of conscription. Recruiting parties will be sent throughout the country, and extra inducements will be offered.

Senor Solaka, formerly Chairman of the Mexican boundary commission, has become insane.

John Black, for many years Consul in Mexico, is gone to New York.

A copy of the treaty between Mexico and the North German Confederation has been forwarded to Berlin for ratification.

The National Military Academy at Lacabaya is full of students, and is in a very prosperous condition.

The Indian revolt in Yucutan is growing more serious. The Indians are 1000 strong, and their number is increasing. They have burned seven haciendas, near Ismael.

The Cuban residents of Merida offered their services to the Government to assist in the defence of the city.

Two Indian chiefs have been captured in Chiapas and shot.

From Cuba.

Havana, August 14.—A plan has been disclosed in Matanzas to poison the bread intended for the garrison of that place.

There is a rumor that Col. Quieroi had attacked the insurgents at Sitio and killed ninety.

Havana, Aug. 17.—At the opening of the Casino and Planol, Captain-General Derodas made a speech. He congratulated the gentlemen who had established the institution on having carried out an idea pregnant with good results. He warned the members of this association and those of similar associations that they should avoid political discussions, otherwise their reunions would degenerate into political or revolutionary clubs, presenting obstacles to good government.

The President of the Casino and the editor of the Presan made replies fully according with the sentiments of the Captain General.

LO! THE POOR INDIAN—MEETING OF MIC-MACS.

The usual yearly meeting of the Mic-Mac Indians of P. E. Island, took place on the 26th July, at Lennox Island. Louis Spark, who, a year ago, was chosen Chief, in place of his late brother John Spark, broke the silence by saying, "That he was glad to see his people met together from Malpeque, Cascumpec, Charlottetown, St. Peter's and Murray Harbor. He was 70 years old, and had witnessed much change. When he was a boy, there was plenty hunting and fishing, and the Mic-Macs counted 700 Tomahawks—the white people had come and cut down their forests and frightened the beavers and the martins away, and now they had no place but that little Island—and even that they tried to take from them. He hoped that God would bless his people and make them yet strong, so that they could sing with their children, and have food plenty and warm wigwams."

The chief said a good deal more, which we have not time to translate, after which he sat down. After a long silence, Alick Thomas, a swarthy Indian, got up and said—"Mic-Macs and chief, it grieves my heart to speak, but the good of my people tells me to speak. The Mic-Macs were once strong, now they are weak—the white man comes with his rum and Indian drinks and dies. Our chief should not drink. You all know he drinks too much, and not fit to be a chief of Mic-Mac Indians, and unless we have good sober chief we will all die. Long time ago, any bad King, people put him away and take another. I vote that Peter Bernard be chief."

Several other Indians spoke in favor of Peter Bernard, and on a shew of hands Peter Bernard was declared elected. Louis Spark, the deposed chief, then said—"Mic-Macs, for one hundred years my family have been Chief and have watched over you, ready to go with you to fight and bring you back safe to your wigwams. You this day have got a new chief—you will be sorry for this, and soon the crows will mock poor Indian. Your squaws that now laugh will cry—your guns no more shoot, and Indian all die—none left to bury the last. I hope not so, but I am afraid; but let new chief try for one year, see what he will do."

The new chief is a quiet, good man, and intends soon to pay his respects to the Administrator of the Government. His wife's name is Mary Mattche, from Richibucto.

A BRIGHTON CLERGYMAN LOST ON THE ALPS.

Captain Ramsay Phipps, writing from Grindelwald, gives some details of a fatal accident, by which the Rev. Julius M. Elliot, of Brighton was killed by a fall from the Shreckhorn. Mr. Elliot was travelling in Switzerland with the Rev. P. W. Phipps, with the object of ascending several mountains together. They were accompanied by Franz Biner, of Zermatt, Mr. Elliot's guide for the last four years, and by Joseph Lauber, of Zermatt, as porter. On Monday afternoon, July 26, they left Grindelwald to sleep at the Cave under the Kastenstein, taking with them Peter Baumann, of Grindelwald, as an additional porter. On Tuesday morning last they commenced to ascend the Shreckhorn, and the first half of the ascent was effected with comparative ease. As the rocks became more difficult, Baumann and the Rev. P. W. Phipps put on their rope. Mr. Elliot, however, declined to put on his, as he thought it was unnecessary. He ascended very rapidly, and went on some distance in advance with his two guides. When Mr. Phipps and Baumann reached the Col at the top, Mr. Elliot, with Biner and Lauber, were about half way up the final peak; they were just leaving the snow, and were cutting the last steps to reach the rocks of the summit; they were in great spirits at their success, and the two parties shouted in congratulation one to another. At this moment it appears that in springing from the snow on to the rocks Mr. Elliot slipped and fell. Lauber was on the rocks, but not firmly placed, and could render no assistance. Biner caught him by the arm for the instant, but failed to hold him, and being unroped, Mr. Elliot glided rapidly down the steep snow slopes of the north-east face of the mountain, rolling occasionally over until he disappeared from their sight some 1,000 feet below, near the Lauter-aar Glacier. Ten guides, under the direction of Peter Michel, were sent off to use their utmost efforts to discover the body of Mr. Elliot. They took with them provisions for three days, and everything that could be suggested as of use.

Volumes XI. and XII. of Mr. Froude's "England" are now in press. They comprise the events beginning with the fall of Woolsey, and ending with the death of Queen Elizabeth.

GENERAL NEWS.

Sir Henry Holland and his son, Rev. Henry Holland, are to leave Liverpool on the 25th for the States. They are to visit Mr. Aspinwall and Mr. W. M. Evarts, intending, with the latter, to make a trip through the country.

SIXPENNY TELEGRAPH MESSAGES.—The Sheffield Chamber of Commerce has importuned the Post Office for a sixpenny rate for short telegrams. In reply Mr. Scudamore says that a reduction of rate is not thought advisable until the department gets into working order. After that the question will be considered. And it may be added that there is not the remotest doubt of the sixpenny tariff prevailing in due time.

SCANDINAVIAN UNITY.—An enthusiastic meeting of 10,000 Swedes, Danes and Norwegians, took place in the park of the royal palace of Fredericsburg, about 12 miles from Copenhagen, on the 4th of July, in favor of a political union between Sweden and Denmark. There were representatives present from all parts of Scandinavia; and the speakers all insisted that a close of union of the Scandinavian nations was the only means for protecting themselves from the attack of their powerful neighbours.

ONE TO HIS HOLINESS.—The Pope's sense of humour is proverbial in Rome, and he gave a good example of it the other day to a corporation of bakers, who asked an audience of him in order to remonstrate against the new and excellent public oven, which supplies far better bread on much lower terms than they had been in the habit of making. This interference with their long-enjoyed monopoly was, of course, although a great popular benefit, a grievous injury in their eyes. "Holy Father," said the spokesman, "it is very hard on us; we have worked so long for the public benefit." "It is quite true, my son," replied the Pope; "and it is high time you rested a little, and let other people work."

BRAHMINS.—The Brahmins are prohibited, under pain of forfeiture of every social privilege which they hold dear, from crossing the sea, which they therefore, not without reason, designate *kala pawnee*, or "black water." According to the *Times of India*, only six Brahmins of the highest caste have ever crossed the sea. These were put under a vow when they returned, but it did not last long, and Brahmins will soon hunt "moonstones" the world over. As another sign of Hindoo progress, it is mentioned that two native ladies have applied for admission into the entrance examination of the University of Calcutta.

NEW METHOD OF SIGNALLING.—A Hungarian paper, the *Hermanstadter Zeitung*, mentions a new system of railway signalling, invented by Herr Eduard Krejczy, the special advantages of which are the following:—1. A train without slackening its speed can communicate with any station or any other train on the same track. 2. In case of an accident the train itself can signal for assistance, and make the casualty known along the whole line. 3. A concussion is impossible, as two trains in motion can constantly exchange signals. 4. The working of the new system is very cheap. Herr Krejczy has placed his invention in the hands of the Hungarian Government, with the stipulation that in case of its being sold he is to receive one-half of the purchase money and the State the other.

STORY OF A MILLIONAIRE PAUPER.—The Paddington Guardians have been investigating the case of Mr. Wood, the millionaire, who was brought to the workhouse by the failure of Overend, Gurney, and Co. He was originally a Manchester manufacturer, and, after accumulating a large fortune, retired into private life. Dissatisfied with the monotony of retirement, he came up to London. Here he became a prominent director of the Marylebone Bank; and when that affair collapsed he was served with a writ for £150,000, and thus became beggared. He then went to the Southern States of America, where he again succeeded in acquiring a large fortune, every penny of which he lost during the American civil war. Returning to London, success again followed his efforts, but his spirit of enterprise died out with his last failure, which was caused by the stoppage of Messrs. Overend, Gurney, and Co's concern. There is no doubt of the accuracy of this narrative.

A HUGE STEAM HAMMER.—One of the largest, if not the largest steam hammer, ever made, is now being constructed by Messrs. Thwaites and Garbutt, of Bradford, for the Russian Government, and is intended to be used in the forging of steel guns. The total weight of the ponderous machine when erected will be close upon 1,000 tons, the anvil block will weigh 500 tons, the other castings belonging to the hammer about 300 tons, and the "tup" or hammer head 42 tons. The latter mass of metal, which has been cast by Messrs. J. Cliffe and Sons, Union Foundry, Bradford, is 10 feet long, 6 feet wide, and 4 feet deep, and is pronounced to be a fine piece of workmanship. The metal was melted in five hours, and the operation was perfectly successful. In the same yard the ponderous iron beams for the new bridge at Halifax are fast progressing; the total weight of iron in Messrs. Cliffe's contract for the bridge, which is being erected by Mr. A. Neill, of Bradford, is 1,200 tons.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks: "The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb. and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England.

LORD BROUGHAM AND THE GREAT SEAL AT ROTHIEMURCHUS.

At Rothiemurchus, then the residence of the Dowager-Duchess of Bedford, Lord Brougham, when Chancellor, found a large party of English ladies, with whom he had romped so familiarly that to be revenged on him they stole the Great Seal, and hid it where neither he nor his attendants could discover it. This was rather a serious practical joke, for without the Great Seal the Government is at a stand-still. The Great Seal alone gives validity to the most important acts of the Executive Government, and every grant in the Sovereign's name, bearing the impression of it is, in point of law, conclusively authentic. At last he was in such real distress about it that the ladies took compassion on him, and assured him it was in the drawing-room, and that he might find it blindfold, one of them assisting him by playing loudly on the piano when he approached it. He was blindfolded accordingly, and by the hints which the piano gave him he dragged the bauble in due time from a tea-chest.

BOATING IN ENGLAND.

Boating is done more thoroughly here, writes a London correspondent, than we have ever had an idea of. I think that some babies here have been cradled in rowing cutters and fed with spoon oars. I saw a four-oared boat on the river a few days ago manned as follows: Bald-headed old gentleman pulling stroke, two daughters amidships, small boy bow, and a very small boy coxswain. They were pulling well—a good stroke—clean through the water, and in a narrow boat, too,—I think it was a shell. There is very little boating done in the United States outside of the colleges and the professional oarsmen. We do not see in any of our waters dozens of houses filled with boats—and gentlemen of all ages and from all pursuits coming down in the evening to pull. While base ball has thousands on its rolls, you can count boating men by the dozen, and though I admire the national game, I think that there is much more health and strength to be developed on the end of an oar than on the end of a bat.

WHO IS MRS. WINSLOW?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs Winslow has immortalized her name by this invaluable article, and we believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

THIRTY YEARS' EXPERIENCE OF AN OLD NURSE.

MRS. WINSLOW'S SOOTHING SYRUP is the prescription of one of the best Female Physicians and Nurses in the United States, and has been used for thirty years with never failing safety and success by millions of mothers and children, from the feeble infant of one week old to the adult. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and gives rest, health and comfort to mother and child. We believe it the best and surest remedy in the World, in all cases of DYSENTERY and DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. Full direction for using will accompany each bottle. None genuine without the fac-simile of CURTIS & PERKINS is on the outside wrapper. Sold by all Medicine Dealers, 25 cents a bottle. The TROCHES are offered with the fullest confidence in their efficacy; they have been thoroughly tested and maintain the good reputation they have justly acquired. For Public Speakers, Singers, Military Officers and those who overtax the voice, they are useful in relieving an Irritated Throat, and will render articulation easy. Being an article of true merit, and having proved their efficacy by a test of many years, each year finds them in new localities in various parts of the world, and the *Troches* are universally pronounced better than other articles.

OBTAIN only "BROWN'S BRONCHIAL TROCHES," and do not take any of the *Worthless Imitations* that may be offered.

INDIGESTION

Takes innumerable shapes. Sometimes the stomach becomes so sensitive that it rejects the simplest food; and in other instances, digestion is so painful that the patient is afraid to indulge the appetite. It is in cases like these that the tonic properties of BRISTOL'S SUGAR-COATED PILLS are most strikingly manifested. Mrs. Margaret McElroy, of Troy, New York, testifies that for five years, she was unable to digest solid food—taking nothing but jellies, rice, and arrow root—and even these caused her so much uneasiness, that she was obliged to limit the quantity to a couple of ounces, three times a day. She was terribly emaciated. She at length commenced taking BRISTOL'S SUGAR-COATED PILLS—she states the result as follows:—"I am now quite well. I eat heartily, sleep comfortably, have recovered my flesh, and feel no pain. All this I owe to BRISTOL'S SUGAR-COATED PILLS, and I earnestly recommend them to all who suffer from a weak stomach. *They are sure.*" In all cases of indigestion the use of BRISTOL'S SARSAPARILLA at the same time as the Pills will greatly hasten a cure. 114

☞ The efficacy of Bryan's Pulmonic Wafers in curing Coughs, Colds, and all Bronchial affections, and cheering the afflicted, has passed into a proverb. In the United States, where these marvellous Wafers are known, they bear down all opposition and eclipse all rivalry; the demand for them has steadily increased for the last twenty years, until now the sales average over one hundred thousand boxes a year. Eminent members of the medical profession without number admit that they know of no preparation producing such beneficial results as these wafers. When taken in season they effect a permanent cure. Sold by every druggist and most of the respectable stores throughout the Province, at 25 cents per box.

HORSES SAVED.

The lives of thousands of horses have been saved during the past year, and the credit is due to "Darley's Condition Powders and Arabian Heave Remedy." This preparation is being extensively used, and exacts from all the highest praise. Nothing of the kind has ever before been half as successful or given such universal satisfaction; it cannot be equalled. We can confidently recommend it, and would advise all who own horses to keep a supply of it on hand—it may be the means of saving your horse's life. Remember the name, and see that the signature of Hurd & Co., is on each package. Northrop & Lyman, Newcastle, Ont., Proprietors for Canada. Sold by all Medicine Dealers.

A CARD FOR THE DRESSING-ROOM.

Ladies, your attention is invited to the especial advantages of Murray & Lanman's Florida Water, over every other perfume. It is manufactured from fresh floral extracts, not from unwholesome chemical combinations intended to counterfeit their odors. Besides being the most delicate and delightful of floral water, it has important sanitary recommendations. Its aroma relieves headache, prevents fainting fits, promotes sleep, and soothes the nerves. Infused into the bath, it renders it more invigorating and refreshing. Combined with water, it imparts whiteness to the teeth, preserves the enamel, and renders the gums hard and rosy. No other toilet-water retains its fragrance so long after contact with the atmosphere. ☞ Beware of counterfeits; always ask for the legitimate Murray & Lanman's Florida Water, prepared only by LANMAN & KEMP, New York. All others are worthless. 520

ENDURING POPULARITY.

If ever a luxury possessed the elements of enduring popularity, that luxury is Murray & Lanman's Florida Water. Its freshness its purity, its delicacy, its unchangeableness, its wholesomeness, and its disinfectant properties in the sick room, place it far in advance of every other in perfume of the day. No other toilet-water is like it; nothing can supply its place; no one who uses it can be persuaded to use any other perfume. Hence the amazing rapidity with which its sales increase. It is so far superior to all other perfumes of this hemisphere, that it may be said to have no second; it stands alone, and after being thirty years before the people is now making more rapid progress than ever. ☞ Beware of counterfeits: always ask for the legitimate Murray & Lanman's Florida Water, prepared only by LANMAN & KEMP, New York. All others are worthless. 521

DOCTOR J. D. L. ZENDER'S

19th Annual Visit to Quebec—First, in 1834, and next from 1852.

MEDICO-SOMATOLOGICAL and Phrenological consultations either verbally or by writing, or with his book "Anthroponomy," or the Magnetic, Phrenological and Terapeutical constitution of man.

The Doctor has performed several remarkable cures in all pains, whether on the head or on the sides, etc., in obstructions, stiffness of limbs, and in other diseases, by human magnetism alone, and also by means of electro-magnetism, or of medicines, or of hygienic directions. Therefore, he gives a special attention to the cure of the diseases of the nervous system, of the brain, of the face, of the skin, of the Stomach, of the Liver, of the spinal bone, of the Throat and of the Lungs, as well as to the cure of mental derangements, Rheumatism, Asthma, Epilepsy, Paralysis, Cholic, Cholera and Consumption. He will also describe the dispositions of the Heart, such as character, virtues, defects and vices, then the capacities of the mind, and hence he will advise, according to his judgment, on the choice of profession, trade, occupation, associations, friends, servants and matrimonial alliance. At last he will prescribe physical and moral remedies, and will give directions for the cure and prevention of the diseases of the soul and of the body.

R. MORGAN,

Music and Piano Dealer,

ST. JOHN STREET.

HAVING now completed all the alterations necessary in his new place of business, begs to call the attention of the public to his large and varied stock of MUSIC AND MUSICAL MERCHANDISE, which he defies any one in the trade to excel, consisting of all the newest and best songs, dances and Piano pieces &c., published in England, France and the United States. His thorough knowledge of music enables him to chose the best and exclude the trash. The collection of Instruments, &c., includes Violins, (copies after the best Italian masters,) Guitars, Banjos, Flutes, Fifes, Flageolets, Clarionets, Patent Mouth Harmonicas, Accordeons, Harmoniums, Concertinas, (an immense variety,) Cornets, Trumpets, Bugles, Children's Trumpets and Trombones, Drums, Music Boxes, playing from 1 to 6 airs, delightful companions for an invalid or the drawing-room, and a new kind of Hand Organ, playing from 6 to 12 of the latest new pieces of Dance Music. These will be found an excellent substitute for a band, for pic-nic parties, or down at the sea-side and in the country, where it is inconvenient to take Pianos. Of Pianos, I keep an assortment of Chickering & Sons, Boston, and Steinway & Sons, New York, and others of good, reliable makers, varying in price from $300 to $650.

A few more of those beautiful photographic musical albums just received, a charming novelty suitable for wedding presents.

Ayer's SARSAPARILLA

THE WORLD'S GREAT REMEDY

FOR

SCROFULA AND SCROFULOUS DISEASES.

From Emery Edes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known firm of Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost everything a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as anybody's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas — General Debility — Purify the Blood.

From Dr. Robt. Sawin, Houston St., N. Y.

DR. AYER: I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars' worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as anybody. Being in a public place, my case is known to everybody in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunckhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis*, and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER — My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia, when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co, Lowell, Mass., and sold by

PLEURISY.

Another of the respectable citizens of Quebec, Canada, has voluntarily addressed the following to W. E. Brunet, Esq., Druggist, &c., Pont St. Roch Street Quebec:

It affords me great pleasure to inform you that I have been completely cured of a very severe Pleurisy, which I had neglected, and by the use of only three bottles of the **Bristol's Sarsaparilla,** which I bought at your establishment in Vatier Street.

I am, dear sir, very truly yours,
J. B. ALEXIS DORVAL,
Inspector of Timber

HOME EVIDENCE.

Mr. R. DUGAL, Chemist and Druggist, Crown Street, Quebec:

Sir,—I send you the following certificate attesting the efficacy of BRISTOL'S SARSAPARILLA:

RESULT OF A SLOW FEVER.—I certify that on the 19th March, 1860, my son, nine years old, was obliged to keep his bed from the above sickness. I employed the best doctors, who took him under their charge for two years, without affording relief. Last spring I commenced to give BRISTOL'S SARSAPARILLA, and from the moment he began taking the remedy a rapid improvement took place, and at present he can walk with facility. I therefore advise all persons suffering with similar maladies to try BRISTOL'S SARSAPARILLA.

JEAN LACHANCE.

THE GREATEST MEDICAL DISCOVERY OF THE AGE

PERRY'S CORDIAL BALM OF SYRIACUM restores the impaired powers of life when exhausted by the follies of youth, maturity, or old age. It is a certain cure in all cases of extreme nervous debility produced by early imprudence, and various other causes, spermatorrhœa, exhaustion, incapacity for society, study, or business, indigestion, shortness of breath, dimness of sight, giddiness, cholic, bowel and bilious liver complaints, constipation and relaxation, dysentry, asthma, jaundice, fever, lumbago, gout, rheumatism, coughs, colds, sore, weak and ulcerated throats, nervousness, hysteria, pains in the limbs, interrupted circulation, tic-dolereau, restlessness at night, all chronic diseases and and all female complaints. This invaluable medicine is the most wonderful triumph of art over nature, and is adapted for both sexes. It has the effect of restoring and increasing the natural vigour of those who are suffering from prostration and langour produced by sojourning in the colonies or in hot climates. Thousands have been restored to health and vigour by its use, as sworn to on oath before the Right Honorable Matthew Wood, Lord Mayor of London, and the following Aldermen :—

Sir John Eamer, George Scholey, Esq., John Atkins, Esq., and others.

Price 11s. per bottle, or four quantities in one for 33s., which saves 11s.; and in £5 bottles effecting a saving of £1 12s.

Perry's Concentrated Detersive Essence.

A remedy for any of the forms of Secondary Symptoms, and for purifying the system from contamination. It is recommended for all those diseases for which mercury, &c., are not only employed in vain, but too often to the utter ruin of health. Its action is purely detersive, and its beneficial influence on the system is undeniable. Price 11s. and 33s. per bottle, also a saving of 11s.

Perry's Patent Concentrated Essence of Copaiba and Cubeb Sugar-coated Globules.

An agreeable preparation of the very essence of the Balsam of Copaiba and Cubebs, perfectly tasteless, still retaining at the same time all its curative powers.

In all cases of Gonorrhœa, Gleet, Stricture, &c., a single trial will prove the efficacy of this invaluable remedy; as it at once acts upon the kidneys, bladder, and the urino-genital organs, restoring them to their healthy state. Price 11s. and 33s. per box.

HEALTH DEPENDS UPON PURE BLOOD.—Perry's Purifying Specific Pills, an infallible cure for all diseases of the skin, such as scurvy, scrofula, ulcers, boils, blotches, pimples on the face and body &c. Price 11s. and 33s. per box.

On Nervous Relaxation and Exhaustion. New edition, enlarged to 199 pages, illustrated by 100 anatomical colored Engravings, on steel, just published, price 2s. 6d.

THE SILENT FRIEND.—A medical work on the nature, treatment and cure of nervous and physical debility; exhaustion, spermatorrhœa, and all urino-genital diseases incidental to both sexes, producing a degeneracy of mental and physical strength, terminating in total debility and incapacity; shewing why these diseases so often appear incurable, when in reality they can be effectually removed by the most simple means.

Also, to be had from all agents in all parts of the world, Extracts from the Silent Friend, price 6d., which contains directions for the guidance of patients.

Sold at Messrs. R. & L. PERRY & Co.'s wholesale Depot, No. 19 Berners street, Oxford street, London. Agents:—BARCLAY & Co., Noo. 75 Faringdon street, London.

Messrs. R. & L. PERRY & Co. are only to be consulted at their residence, No. 19 Berners street, Oxford street, London, as they never, under any circumstances, travel either at home or abroad; and they hereby caution the public against any person using their name: and, as a further precaution against fraud, the public is notified that none of their medicines are genuine unless the subjoined fac-simile of their signature is attached to every wrapper.

NATURES GREAT REMEDIES — for Purifying the Blood — and Regulating the Bowels — BUCHAN'S SUGAR COATED VEGETABLE PILLS — & Universal Vegetable Skin Ointment.

HEALTH, HAPPINESS and LONG LIFE are within the reach of all, by the use of Doctor BUCHAN'S VEGETABLE DOMESTIC MEDICINES, prepared from the prescription of the late Dr. Buchan, Fellow the Royal College of Physicians, &c., &c. Cures are daily made, and their efficacy proved in thousands of cases, attested before the Aldermen at Guildhall, the Right Honble. Lord Mayor of London, and sitting Magistrates of Marlborough Street, Westminster, Worship Street, Bow Street, &c. Used by the most celebrated Clergymen, Medical men and others.

DR. BUCHAN'S SUGAR-COATED SARSAPARILLA PILLS.

It is a well-known fact that Sarsaparilla is the greatest purifier of the blood in the world. Keep your Blood pure!—your Bowels regular!!—and defy the doctor!!! These Pills strike at the root of each disease, and are for the cure of every ailment incident to Man, Woman, and Child—such as Eruptions on the Skin, Indigestion, Bilious, Liver and Stomach complaints, general Weakness, Gout, Rheumatism, Lumbago, Pains in the Limbs, Headaches, Sore Throats, and every complaint caused by irregularities of the bowles, obstructed perspiration, and deteriorated and unhealthy blood. These Pills work their way to the very roots of each disease, cleansing in their passage, especially where mercury has been taken, and removing every unhealthy accumulation till the blood is purified, the whole system renovated, and all the functions acting according to nature; the duties of life become a pleasure, where before they had been sad and weary burdens. Do not hesitate! do not delay! a clean stomach must make a clean body. A clean body will contain pure blood; when the stomach, body and blood are pure, from regulating and cleansing the bowels, health is certain. Begin at the beginning; waste no time; strike at the root of your ailment. Again, I say, look to your stomach. One trial of these Pills will force conviction.

Sold in bottles, at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s.

DOCTOR BUCHAN'S INVIGORATING ESSENCE,

For Nervous relaxation and general weakness, at once restores and invigorates, with magical rapidity, the most debilitated constitution, thereby ensuring permanent health, increased strength and energy, and a redoubled development of the muscular system. Failure is impossible, for success is as certain as that daylight follows darkness. The only infallible remedy for acquired, local and general debility, nervous prostration, depression of spirits, diminution of vital energy, emaciation, and for all female complaints. This medicine not only restores health and strength at once, but increases the natural vigour of man in youth, maturity, and old age. The properties of this invaluable re-invigorating Essence act directly on the nervous and muscular system, enriching, increasing, and purifying each particular vital fluid; its action is never-failing, and in perfect accordance with the laws of nature. As the falling rain vivifies the parched vegetation, so will the power of this all-potent agent restore the lost strength and energy of all who suffer from exhaustive derangment, which so few of the medical profession attempt to treat. Price, 4s. 6d. and 11s.; or four quantities in one, 35s.

DR. BUCHAN'S VEGETABLE SKIN OINTMENT

Is the only one yet discovered that cures the most inveterate sores. Its effects are wonderful, giving instant relief to the sufferer. Many thousands have used it, and declare it to be the best in the world. It is the only NATURAL REMEDY for all kinds of sores and skin eruptions. It never closes up the surface of a wound while full of matter, but will first bring all to the surface, and finally heal without breaking out again. The Pills aid the Ointment in the following:—Piles, Boils, Bruises, Excoriations, Blotches on the Face, Ulcers, Ring-worms, Sore Heads, Eyes and lips, Baldness, Chapped Hands, Chafed and Blistered Feet, Corns, Bunions, Chilblains, Frost Bites, Scalds, Cuts, Biles, Freckles, Stings, Scrofula, King's Evil, Bad Legs, Bad Breasts, Contracted and Stiff Joints, Fistulas, Gout, Swelled Glands, Lumbago, Rheumatism, Whitlow, Sore Nipples, Sore Throats, Scurvy, Sore Heads, Rash, Tumours, Old and deep-seated Ulcers, Wounds, Worms, Itch, &c. 1s. 1½d. and 2s. 9d. per pot. THE "FLORENCE NIGHTINGALE" OF THE NURSERY.

The following is an extract from a letter written by the Reverend C. Z. WEIZER to the *German Reformed Messenger* newspaper, at Chambersburg, Penn.:—

"A BENEFACTRESS.—Just open the door for her, and Mrs. WINSLOW will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "SUSY" to say, "A BLESSING ON MRS. WINSLOW," for helping her to survive and escape the griping, colicking, and teething siege. We confirm every word set forth in the PROSPECTUS. It performs precisely what it professes to perform, every part of it—nothing less. Away with your "Cordial," "Paregoric," "Drops," "Laudanum," and every other "Narcotic," by which the babe is drugged into stupidity, and rendered dull and idiotic for life. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power, we would make her, as she is, a physical saviour to the Infant Race." 25 cents a bottle. Sold by all Druggists. Be sure and call for "MRS. WINSLOW'S SOOTHING SYRUP," having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations.

BROWN'S BRONCHIAL TROCHES.

"I have never changed my mind respecting them from the first, excepting to think yet better of that which I began thinking well of."—REV. HENRY WARD BEECHER.

"For Throat Troubles they are a specific."
N. P. WILLIS.

"Contain no opium, nor anything injurious."—DR. A. A. HAYES, Chemist, Boston.

"An elegant combination for Coughs."
DR. G. F. BIGELOW, Boston.

"I recommend their use to Public Speakers."—REV. E. H. CHAPIN.

"Most salutary relief in Bronchitis."
REV. S. SIEGFRIED, Morristown, Ohio.

"Very beneficial when suffering from colds."—REV. S. J. P. ANDERSON, St. Louis.

"Almost instant relief in the distressing labor of breathing peculiar to asthma."
REV. A. C. EGGLESTON, New York.

"They have suited my case exactly—relieving my throat so that I could sing with ease."—T. DUCHAME, Chorister, French Parish Church, Montreal.

As there are imitations, be sure to OBTAIN the GENUINE.

THE PRIZES INCLUDE

The right to select a valuable Work of Art from one of the Public Exhibitions;
Statuettes in Porcelain,
Medallion Inkstands in Bronze,
Silver medals of Sir R. Westmacott, R.A., and other Works, all produced exclusively for the Society.

An Artist's proof of the plate may be had for Five Guineas, with Five Chances in the distribution; or a Letter Proof on India, with two Chances, for Two Guineas.

The Art-Union of London was established to promote the knowledge and love of the Arts, and their general advancement in the British Empire, by a wide diffusion of the works of native artists; and to elevate Art and encourage its professors, by creating an increased demand for their works, and an improved taste on the part of the public. It is under the direction of a Council of the Members, whose services are honorary, and four of whom retire from office every year.

Every Member for each Guinea subscribed, is entitled to—

I. One chance in the distribution of prizes at the annual meeting on the last Tuesday in April.

II. An impression of one or more plates produced exclusively for the Society; admission for himself and friends to the General Meeting and to the exhibition of prizes; and the annual report with list of Members, and almanack.

Numbers are not put on the subscription-receipts, because, as there must always be necessarily many receipts left in the various Agents' hands undisposed of, it would be very difficult to ensure the the proper numbers, *and no others*, were put into the drawing. The names are numbered in regular order a few days before the General Meeting, and any member may learn his number by stating the letters on the corner of his receipt.

EXTRA CHANCES.—Any Member having paid his subscription for the current year, and wishing to have one or more extra chances in the next distribution of prizes—but without another print—may have one such extra chance for every half-guinea subscribed for that purpose, for which a separate printed Receipt will be given.

WORKS OF ART IF LIEU OF PRINTS.—A bust, statuette, or other work, may be had instead of the print, by additional payment. Payments in different years may be combined with a view to obtain one of these works; provided always, that at the time of the first and every subsequent payment it be expressly stated at the office that such payment is made for that purpose.

PAYMENT IN ADVANCE.—A subscription for ten years in advance, entitles to a porcelain bust, or a tazza in iron, or one of the medals executed for the Society in Silver; in addition to the annual advantages attached to the Subscription.

TEN GUINEA PRIZE.—Any Member who has subscribed Ten Guineas in successive years, ending with the current year, without gaining a prize of any kind in that period, shall be entitled to one of the porcelain busts as a special prize. An accidental omission of payment for one or more years may be made up at any time by adding to the current year's Subscription.

Members have the option of taking, instead of the print of the year, any of the following, viz.:—

THE SURRENDER OF CALAIS;
OR
A WATER PARTY;
OR
A LABOUR OF LOVE,

With any one of the following EXTRA WORKS, viz.:
Woodcuts from Milton's L'Allegro;*
" " Byron's Childe Harold;*
Illustrations in outline from Pilgrim's Progress;
Illustrations in outline from Events in English History;
Illustrations in outline or The Seven Ages of Man;
A ruled bas-relief of The Entry into Jerusalem;
Or a ruled bas-relief of Christ led to Crucifixion;
Or two of the following prints, or one with one EXTRA WORK, viz.: The Villa of Lucullus; The Burial of Harold; The Clemency of Cœur-de-Lion; The Piper; or, Come Along; &c., &c., &c.

* Or one volume of woodcuts and one set illustrations in outline.

Subscriptions to the *LONDON ART-UNION* will be received, by the undersigned, Honorary Secretaries for Quebec. As the list will be closed on the 1st of March, all parties who wish to subscribe will please send in their subscriptions before that date.

No name will be entered before payment.

MRS. WINSLOW'S SOOTHING SYRUP.

REV. SYLVANUS COBB thus writes in the Boston Christian Freeman:—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with cholic pains quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which i harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth the child till it had finished with the teething siege, on any consideration whatever.

SORE THROAT, COUGH, COLD,

and similar troubles, if suffered to progress, result in serious Pulmonary, Bronchial, and Asthmatic affections oftentimes incurable.

BROWN'S BRONCHIAL TROCHES

are compounded so as to reach directly the seat of the disease and give almost instant relief.

The TROCHES are offered with the fullest confidence in their efficacy; they have been thoroughly tested, and maintain the good reputation they have justly acquired. For Public Speakers, Singers, Military Officers and those who over-tax the voice, they are useful in relieving an Irritated Throat, and will render articulation easy. To the soldier exposed to sudden changes in the weather they will give prompt relief in Coughs and Colds, and can be carried in the pocket to be taken as occasion requires. Sold at 22 cents a box. jn18

MOTHERS! MOTHERS! MOTHERS!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Winslow's Soothing Syrup. It will relieve the poor little sufferer immediately—depend upon it: there is no mistake about it. There is not a mother on earth who has ever used it, who will nor tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price 25 cents. Sold everywhere.

The New French Remedy.

By Royal Letters Patent, under the special sanction of Her Majesty's Government and the Chiefs of the Faculté de France.

THERAPION:—or CURE OF CURES

This successful and highly popula medicament, as employed in the continenta hospitals by Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed. Devoid of all *taste*, *odour* and *appearance* of medicine, it can be left or carried anywhere, and taken from time to time without exciting suspicion. Each package contains full instructions for every case.

THERAPION, No. 1, in three days only—removes gonorrhœa, gleet, and all discharges; effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief, where other well-tried remedies have been powerless.

THERAPION, No. 2, for syphilis, disease of the bones, sore throat, threatened destruction of the nose and palate; impurity of blood, scurvy, pimples, spots, blotches, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of the sufferer's teeth; and ruin of health. Under this medicine every vestige of disease rapidly dissappears; and the skin assumes the pleasing softness of infancy.

THERAPION, No. 3, for relaxation, spermatorrhœa, and all the distressing consequences arising from early abuse, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated. To those who are prevented entering the marriage state by the consequences of early error, it will render essential aid by subduing all disqualifications, and restoring the lost tone to the system. Therapion may be procured at 11s., and 33s. per package, through all medicine vendors, or in £5 packages for foreign shipment, direct from London only, by which £1 12s. are saved: and £10 packages for the more inveterate cases, by which a still greater saving is effected. In ordering the above, the purchaser should state which of the three numbers he requires.

Her Majesty's Hon. Commissioners have graciously permitted the government stamp bearing the word "Therapion" in white letters, to be attached to each package; thus insuring the public against fraudulent imitations, and securing to the proprietor the sole right of supply throughout her dominions; and any infringement of which they will prosecute with the utmost severity.

AGENTS FOR ENGLAND,—Thomas & Co., 7, Upper St. Martin's-lane; Barclay & Co., Farringdon-street; Edwards & Co. and Newbery & Sons, St. Paul's church-yard; and obtainable through all medicine vendors in the known world, or in case of difficulty, by enclosing a draft or order for £5 or £10, according to the nature of the case, payable in London to Messrs. Thomas & Co., as above, a large package will be sent by return mail, carefully secured from observation or accident.

THE CAUSE AND CURE OF PREMATURE DECLINE,

Sold by all the Agents for Dr. De Roos' Medicine, or sent post free, secure from observation, direct from the Author, for 2s. 6d.

THE MEDICAL ADVISER, on the modern treatment of mental and physical incapacity, syphilis, stricture, &c.; with unfailing rules and prescriptions for the speedy cure, by very simple means, of all the more common diseases and supposed incurable maladies of the sexual system. By Dr. W. DE ROOS, M.D., &c., of the Ecole de Médecine, Paris.

REVIEWS AND NOTICES.

"The MEDICAL ADVISER, by WALTER DE ROOS, M.D., for the class of diseases upon which it treats, is undoubtedly the best and most soundly practical book which has come under our notice. The author is a man of most enlarged experience."—North of England Telegraph, June 29th, 1861.

"To those who contemplate marriage, its perusal is especially recommended."—Bap. Mag. "The knowledge it imparts must come some time, and happy they who do not possess it too late"—Politician. "Cure is certain in every curable case, and few indeed are they which are not so."—Med. Review. "It is calculated to effect a complete revolution in the treatment of these complaints."—Med. Gaz. "Simple and inexpensive, every sufferer may cure himself speedily, privately, and at the least possible cost."—Scalpel.

From long practical observation of the treatment pursued in the most famous institutions of this country and the continent, for those diseases referred to in the above work, the Proprietor has had somewhat unusual facilities for acquiring that uniform success which has hitherto characterized his practice, in which the distressing consequences resulting from the injurious employment of mercury, capivi, sarsaparilla, and similar dangerous medicines, are entirely obviated. Lasting benefit in these cases can only be reasonably expected at the hands of those who devote their chief attention to such diseases; and to such only can confidence be safely extended. Dr. De R. refers with pride to the numbers he has been instrumental in restoring to health and happiness; whilst to all who need such aid he offers every assurance of speedy restoration.

FOREIGN RESIDENTS can be successfully treated by correspondence, on sending the detail of their case; with a Bank note or Bill on a London house for £5 or £10, in order that a package of medicines to meet the exigencies of the case, may be sent out by next mail, thus avoiding the protracted suffering and unnecessary loss of valuable time, which must otherwise occur.

DR. DE ROOS' GUTTÆ VITÆ or LIFE DROPS; protected by Royal Letters Patent of England; Seals of the Faculté de France; Royal College of Prussia, &c.; have in numberless instances proved their superiority over every other advertised remedy for Spermatorrhœa; langour; lassitude; depression of spirits; irritability; auger; excitement, needless fear; distaste and incapacity for society, study or business; indigestion, pains in the side, palpitation of the heart; giddiness, noise in the head; impotency, impediments to marriage, &c. This medicine strengthens the vitality of the whole system, gives energy to the muscles and nerves, thus speedily removes nervous complaints, renovates the impaired powers of life, and invigorates the most shattered constitution. For skin eruptions, sore throat, pains in the bones, and all those diseases in which mercury, sarsaparilla, &c. are too often employed in vain, to the serious detriment of health, its surprising efficacy has only to be tested to be appreciated.

As these complaints if neglected become "chronic" or incurable, sufferers will do well before they waste valuable time in seeking aid from instruments, and other absurdities professing to supersede medicines; to make fair trial of a remedy, which, concocted on unerring scientific principles, cannot fail; and may be carried about the person, or left upon the toilet table, without exciting a suspicion of its nature. Price 11s., and four times the quantity at 33s. per bottle. The £5 packages, containing twelve 11s. quantities, by which a saving of £1 12s. is effected, will be sent from 25 Bedford Place, only, on receipt of the amount per draft on a Londoo house or otherwise.

PAINS IN THE BACK, GRAVEL, LUMBAGO, GOUT, RHEUMATISM, DISEASE of the KIDNEYS, BLADDER, &c. DR. DE ROOS' COMPOUND RENAL PILLS are a most safe and speedy remedy for the above dangerous complaints, Discharges and Diseases of the Urinary Organs generally, which too frequently harass the sufferer over the best years of life, and end only in an agonizing death. They agree with the most delicate stomach, and in three days effect a cure when capivi, cubebs, &c., have utterly failed. 2s. 9d., 4s. 6., 11s. and 33s. per box. The superiority of these celebrated medicines over everything of the kind is universally acknowledged, and the extraordinary demand for them without precedent.

Many there are, who from natural diffidence or fear of discovery, would silently bear their afflictions rather than apply for aid to those from whom they may reasonably expect relief. With the above remedies the sufferer may, without the knowledge of a second person, cure himself speedily, privately, and at the least possible expense.

Sold wholesale by Barclay & Son, 95, Farringdon-street, London; Agent for Quebec, John Musson & Co., of whom also may be had "THE MEDICAL ADVISER," or should difficulty arise in procuring any of the above, enclose the amount by draft or otherwise, to 25, Bedford Place, Bloomsbury Square, London, W.C., and they will be sent securely packed per return.

CAUTION.—Sufferers should guard against the recommendation of useless imitations by dishonest vendors, who thereby obtain a larger profit. The genuine have the words "WALTER DE ROOS, LONDON," printed in white letters on the Government Stamp, by order of Her Majesty's Hon. Commissioners, to imitate which is felony.

THE MOST WONDERFUL PILLS IN THE WORLD,

ARE DR. DE ROOS' PILULÆ VITÆ OR LIFE PILLS. All sufferers from general nervousness, debility, low spirits, sleeplessness, harrassing dreams, unnecessary fears, mental irritability, failure of the mental and bodily powers, weakness of the nerves, noises in the head, giddiness, indigestion, rheumatism, pains in the back, and other symptoms of chronic disease, will hail with joy the discovery of Dr. De Roos' Life Pills, that speedily and almost magically remove pain and disease of whatsoever nature, restore cheerfulness of spirit and vigour to the mind, and strengthen all the organs on which health and life depend. They do not contain a particle of mercury, but are purely vegetable. They act mildly on the bowels, without pain or griping, impart strength to the stomach, promote a healthy action of the liver, thus preventing, or when present curing the jaundice and dropsy, clearing the skin, removing sallowness and pimples, purifying the blood, and marvellously invigorating the whole system. Females of all ages will find them invaluable, and should never be without them. For elderly people or when an occasional aperient is required, nothing can be better adapted. Owing to the great and increasing demand for these pills, and in order to protect the public from fraudulent imitations, Her Majesty's Commissioners have graciously permitted the proprietor to have his name, "WALTER DE ROOS, LONDON," impressed upon the government stamp affixed to each box. Sold by all medicine vendors in the world, price: 2s. 9d., 4s. 6d., 11s. and 33s. per box.

"As a Family Pill they are invaluable."—Dundee Times. "Persons of full habit should never be without them."—Surrey Telegraph. "For Females they are almost a necessity."—Ladies' Journal. "To Mothers—for children of all ages they are the simplest and best medicine that can be given."—Vide Dr. Smith's Report.

Quebec, July 16, 1866.

REMARKABLE TESTIMONY!

Messrs. PICAULT & SON, Chemists and Druggists, No. 42 Notre-Dame Street, Montreal, have received the following testimony:

MONTREAL, C. E., *July* 31, 1863.

Messrs. Doctors Picault & Son.

Sirs, — This is to certify that for five years I was troubled with general debility, unable to perform any household duties, and suffering violently from palpitation of the heart. I was constantly under the influence of a chilly fever, and experiencing awful pain in my whole body. I tried every thing—sought medical advice—but all to no avail. Twelve months ago I was induced to try BRISTOL'S SARSAPARILLA, and before I had taken two bottles, experienced a decided improvement; but my means not allowing me to continue its use, I was becoming worse again, when you kindly gave me a few bottles. It was the needed remedy, and its effect on my system was wonderful. I am now another woman; I feel well, eat well, and sleep well, and do all my work without the least fatigue. I cannot too strongly recommend this invaluable medicine to the suffering, and I have not the least doubt they will derive from it the same benefit as I have.

(Signed) ANGILE DANIEL,
Wife of CELESTIN COURTOIS,
95 *Visitation Street.*

I certify the above is the truth.
CELESTIN COURTOIS.

Sworn before me this thirty-first day of July, 1863.
J. BOULANGET,
Justice of the Peace.

IT IS ASTONISHING!

Still another grateful letter sent to Messrs. DEVINS & BOLTON, Druggists, next the Court-house, Montreal:—

Dear Sirs,—For years I have suffered severely from liver complaint, constant pain in the side, no appetite, intense drowsiness, and a sense of suffocation, compelling me at times to remain in bed for three or four days. For two years I was constantly taking medicine, under the advice of two of our best city physicians, without getting any relief. By their orders I spent the whole of last summer in the country, but without benefit. Last March I was advised by a friend, who knew its virtues, to try **Bristol's Sarsaparilla**, but I had lost confidence in every thing, and was fearful of getting worse. At last I did try it; its effect was most beneficial: my appetite returned; the heavy drowsiness left me; and my digestion became vigorous and healthy. I used in all twelve bottles, and am now as strong and well as any man could desire.

You are at liberty to make my case known to the public.

Yours, very truly,
J. H. KENNEDY,
Grocer and Dealer in Wines and Spirits,
No. 160 St. Mary Street, Montreal.

BE IT KNOWN

What is said by one who has tried

BRISTOL'S SARSAPARILLA.

Messrs. DEVINS & BOLTON, Druggists, Montreal:

GENTLEMEN,—It is with the most grateful feelings that I give you the particulars of the cure effected upon me by the use of the **Bristol's Sarsaparilla** bought from you. A severe and painful rheumatism had troubled me for years, rendering my right arm almost useless, and, extending across my chest and down my back, made me unable to walk, and comparatively helpless, besides much pain in the side, from what my family doctor called liver disease. Mr. KENNEDY, my neighbor, on whom the **Bristol's Sarsaparilla** produced almost a miraculous cure, advised me to try a bottle or two. I did so, taking, at the same time, as directed by you, a couple of **Bristol's Sugar-Coated Pills** occasionally.

I am now entirely recovered, free from pain of every kind, and feel as if I had taken a new lease of life. I can with confidence recommend the **Sarsaparilla** and the **Pills** to any one suffering with the same troubles.

MRS. CROSBY,
Dry Goods Store, St. Mary's St., Montreal.

READ THIS!

Still another of our well-known and highly respectable neighbors has come forward, under a sense of duty, and made the following statement:—

ST. CONSTANT, DIST. OF LAPRAIRIE,
May 25th, 1863.

Messrs. Devins & Bolton, Druggists, next the Court-house, Montreal:

Dear Sirs,—When I began using BRISTOL'S SARSAPARILLA, I had been for nine months suffering with rheumatism, and had completely lost the use of my legs, being unable to walk during four months out of the nine. The first bottle of BRISTOL'S SARSAPARILLA gave me great relief, and before I had finished seven bottles I was entirely free from pain, and able to walk as well as I ever could. You will confer a favor on many by making these facts public, which I shall be glad to confirm.

Very respectfully, yours,
THOMAS QUELLIAN.
