PERRY DAVIS'
VEGETABLE
Pain Killer

We ask the attention of the public to this long tested and unrivalled

Family Medicine.

It has been favorably known for more than twenty years, during which time we have received **thousands** of testimonials, showing this Medicine to be an almost never-failing remedy for diseases caused by or attendant upon—

Sudden Colds, Coughs, Fever and Ague, Headache, Bilious Fever, Pains in the Side, Back, and Loins, as well as in the Joints and Limbs; *Neuralgic and Rheumatic Pains* in any part of the system, Toothache and Pains in the Head and Face.

As a *Blood Purifier* and *Tonic* for the *Stomach*, it seldom fails to cure Dyspepsia, Indigestion, Liver Complaint, Acid Stomach, Heartburn, Kidney Complaints, *Sick Headache*, Piles, Asthma or Phthisic, Worms, Boils, Felons, Whit-lows, Old Sores, Swelled Joints, and *General Debility* of the System.

It is also a prompt and sure Remedy for Cramp and Pain in the Stomach, Painters' Colic, *Diarrhœa*, Dysentery, *Summer Complaint*, Cholera Morbus, Cholera Infantum, Scalds, Burns, Sprains, Bruises, Frost Bites, Chilblains, as well as the Stings of Insects, Scorpions, Centipedes, and the Bites of Poisonous Insects and Venomous Reptiles.

See Directions accompanying each bottle.

It has been tested in every variety of climate, and by almost *every nation known* to Americans. It is the almost constant companion and inestimable friend of the *missionary* and the *traveller*, —on sea and land,—and no one should travel on our lakes or rivers without it.

Prices, 12½ cts., 25 cts., 50 cts., and $1.00 per Bottle.

It is ordained and enacted by the said Council, and the said Council doth ordain and make the following By-Law, viz.:—

A BY-LAW TO AMEND A BY-LAW ENTITLED, A BY-LAW CONCERNING THE MARKETS OF THE CITY OF QUEBEC.

WHEREAS, it is necessary to amend the By-law concerning the Markets passed on the twelfth day of April, one thousand eight hundred and fifty-eight: Be it, therefore, ordained and enacted, and by the present By-law, the City Council of the City of Quebec doth ordain and enact the following regulations:—

1.—It shall not be lawful to any person to sell, or offer for sale, within the limits of the Champlain, St. Peter's, Palace and St. Lewis Wards of this City, in any private stall, shop, shed, or any other building whatsoever, without the markets of this City in the said wards, any butcher's meat, or poultry, without having previously obtained a license for that purpose, signed by the Mayor of the said City, and attested by the City Clerk, for which license the party applying for the same shall pay to the City Treasurer the sum of Three Hundred Dollars, as a tax or duty for such license; and every person who shall sell or offer for sale, in private stalls, shops, sheds, or other buildings whatsoever, within either of the said wards as aforesaid, any butcher's meat, or poultry, without having obtained a license for that purpose as aforesaid, shall incur a penalty not exceeding twenty dollars for each offence, or be subject to an imprisonment not exceeding fifteen days; provided, however, that it shall be lawful to any grocer to sell and retail salt pork in his shop, and that nothing in the present By-Law contained shall affect the provisions of the By-Laws now in force relating to private stalls in any other ward or part of this city.

2.—Butchers shall be allowed to sell all sorts of meat, fresh, salted or smoked meat on the Champlain Market Hall of this City.

3.—All farm produce landed on the Champlain, Finlay or St. Paul's Market, and intended for sale on the markets of the city, shall pay the market dues on the market on which the same shall have been landed, and on no other market.

4.—Every by-law or portion of by-law which is inconsistent with the present by-law is hereby repealed.

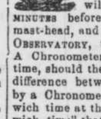
NOTICE TO MARINERS.



THE TIME BALL in the CITADEL, each day, (Sunday excepted,) at HALF-PAST TWELVE will be hoisted half-mast; at FIVE MINUTES before ONE it will be hoisted to the mast-head, and at ONE o'clock, MEAN TIME AT OBSERVATORY, the BALL will be DROPPED. A Chronometer keeping correct Greenwich time, should then shew 5h. 44m. 49s., and the difference between this, and the time shewn by a Chronometer, is its true error on Greenwich time at that moment;—As it is "Greenwich time" that the Observatory shews when the Ball is dropped it is no matter where the ship is lying; for instance, if a ship half-way across the Atlantic could see the Ball drop, the difference between 5h. 44m. 49s. and the time shewn by the face of her Chronometer, would be its error on Greenwich time.—A ship, on arriving, should compare her Chronometer by the TIME BALL, as it will enable her to get her "Sea Rate," which seldom or ever agrees with "Harbour Rate."

—EXAMPLE:—

May 23rd, 1859, the Barque "Nancy," of Bristol, on leaving Liverpool, found her Chronometer (Dent 728) fast on Greenwich mean time, 0h. 4m. 57s.—June 20th she anchored at Quebec, and when the Ball dropped her Chronometer shewed 5h. 50m. 42s
Greenwich Mean time when Ball dropped 5h. 44m. 49s

June 20th, Chronometer fast on Greenwich mean time.		5m. 53s.
May 23rd, " " "		4m. 57s
No of days.. ..	28	56s
Sea rate, ...		2s
Again, on June 27th, when Ball dropped, Chronometer shewed	5h. 50m. 54s.	
June 20th, Chronometer shewed	5h. 50m. 42s.	
No of days, ...	7 | 0m 12s	
Harbour rate	0m.	8 1-7

By paying attention to the Sea and Harbour Rates, under different temperatures, the intelligent master of ship will be able to arrive at a better rate for his Chronometer than could be obtained in any other way.

It is strongly recommended not to send a Chronometer on shore, when they can be so easily rated on board, and no one who has the interest of his ship and the welfare of his owners at heart, will ever give his Chronometer to the charge of another, if it is possible to avoid it.

Should the ship be loading timber, the Chronometer can be slung to the loom of an oar (one end being made fast, the other affords a spring,) that will save the Chronometer from any jar or injury.

Inspector General's Office,
CUSTOMS DEPARTMENT,
Quebec, 26th April, 1861.

HIS EXCELLENCY THE GOVERNOR GENERAL in Council has been pleased to approve of the following Regulations, governing the Trade with the Free Port of Sault Ste. Marie.

By Command,
R. S. M. BOUCHETTE,
Commissioner of Customs.

REGULATIONS
GOVERNING THE TRADE WITH THE FREE PORT OF SAULT STE. MARIE.

1.—All vessels bound to or hailing from the Free Port of Sault Ste. Marie, or in any way frequenting the same, or any port, place or district thereunto attached by Proclamation, shall be treated as vessels trading with a Foreign Port, and be, as such, subject to all the laws and regulations governing the Trade and Navigation of this Province with Foreign Countries.

2.—No goods, wares or merchandize shall be allowed to be imported into the said Free Port of Sault Ste. Marie or into any part of the district or districts thereunto attached, or exported therefrom, being the produce or manufacture of Great Britain, or its possessions, or of any Foreign Country, except in vessels of at least thirty tons burthen.

3.—Goods in any of the Queen's Bonding warehouses, at any warehousing Port in Canada may be exported to the said Free Port of Sault Ste. Marie, or to such sub-ports, in the said districts, as are hereinafter designated, under the usual bonds required on the exportation of goods ex-warehouse to any place or port beyond the limits of this Province; and parties desirous of so exporting goods in bond to the said Free Port or to such parts thereof as are hereinafter designated, shall be allowed the privilege of sorting in bond the goods that may be required for the markets of the said Free Port; provided that no one package to be so made up for exportation to the said Free Port, shall be of a value of less than $200, and that the same be so made up and sorted in the presence and under the inspection of the Collector, Appraiser or other proper officer of the port where the goods are so warehoused, and whence they are intended to be exported as aforesaid, and any expenses incident to the packing and sorting goods in bond as aforesaid shall be borne and paid by the exporter, or owner of the goods.

4.—And whereas vessels resorting to the fishing grounds of Georgian Bay, and for trading purposes along the north shore thereof within the district of the Free Port of Sault Ste. Marie, would be put to great inconvenience and loss were the masters thereof compelled to proceed up the river Ste. Marie, to the Free Port aforesaid to report inwards and outwards, it shall be lawful for all vessels so resorting to the fishing ground or trading within the lower limits of the said Free Port, to report inwards and outwards and enter the goods, wares or merchandize they may have on board at the following places or sub-ports attached to the Free Port of Sault Ste. Marie, viz:

At Wikwemikong, on the Great Manitoulin Islands;
At Waiebidgiwang (or little current);
At Port of Bruce Mines;

And the vessels so reporting and entering their cargoes inwards and outwards at any one of the said sub-ports or places shall be deemed to have duly reported and entered at the said Free Port of Sault Ste. Marie, and be dealt with accordingly; provided that all vessels trading with or visiting Sault Ste. Marie, or the fisheries or shores of Lake Superior, within the limits of the Free Port aforesaid, report inwards and outwards at the Port of Sault St. Marie, and enter their cargoes there; and any vessel resorting to the waters of Lake Huron and Superior for fishing and trading purposes hereinbefore mentioned, or hovering off any of the coasts or Shores of the Free Port aforesaid or limits thereof that shall not be in possession of a clearance from the Collector or other proper Officer of Customs at the place before named shall be liable to the forfeitures and penalties imposed by the 97th Section of the 17th Chapter of the Consolidated Statutes of Canada, and every contravention or violation of any of the regulations hereinbefore made and prescribed, shall subject the vessel, master and goods to the forfeitures and penalties in the 97th Section imposed.

5.—Vessels clearing from the said Free Port of Sault Ste. Marie or from any out port thereof, from which such Vessels are permitted to clear, and destined for any other place or port in the Province of Canada, other than the said Free Port or districts aforesaid, shall, before sailing or departure, give good and sufficient Bonds to be executed by the Master or Owner of any such Vessels respectively, in such amount as shall cover the value of the goods so shipped, the conditions of which Bonds shall be that none of the goods shipped on board the said vessel or vessels and cleared as aforesaid shall be landed or suffered to be landed at any other place or port than that or those to and for which the same have been shipped and destined, and that the said goods shall be duly reported and customed in accordance with the Customs and Navigation Laws of said Province; and the Collector of Customs at the Port of arrival shall certify to the Collector of said Free Port of Sault Ste. Marie the due landing of the said goods for entry, after receiving from the Collector of the said Free Port by mail a certified copy of the clearance of such vessel or vessels, with all the particulars, as to quantity and value of goods in the said vessel or vessels, whereupon the Bonds aforesaid shall be cancelled; provided, always that the goods so exported from the said Free Port to any other Port in Canada shall be reported and customed as the law directs.

6.—Vessels resorting to and trading within the limits of the Free Port aforesaid, the cargo of which consists in part of whiskey or other intoxicating liquors, shall give good and sufficient Bonds, to be executed by the Masters and Owners of any such vessels respectively, in the sum of $200 00, the condition of which bond shall be that the Owner, the Master or the Crew shall not directly or indirectly barter or trade or give any Whiskey or other intoxicating liquors to the Indians living, found or trading within the limits of the said Free Port; and the owner, master or crew, so offending against this Regulation, shall not only forfeit the sum of two hundred dollars before named, but the vessel and cargo shall be liable to seizure and to the ordinary penalties imposed by law on persons selling to or supplying the Indians with spirituous liquors.

The foregoing Regulations approved by His Excellency the Governor General in Council, 26th April, 1861.

THE PROPRIETOR of the *Chronicle* has reason to believe that persons are in the habit of inducing the Carrier Boys to sell the papers which they have for delivery to regular subscribers. He, therefore, gives notice, that means will be taken to bring the matter home; and any persons found guilty of tampering with the Carrier Boys, will be proceeded against with the utmost rigor.

QUEBEC, MAY 1, 1861.

THE EXODUS FROM THE STATES—HOW TO PROFIT BY IT.

Hundreds of British people, who have been living in the United States, are now said to be leaving that country for Canada, and the various mercantile agencies in our cities report frequent enquiries from Americans as to whether capital can be advantageously invested here and the best means of doing so. Lower Canada as well as Upper Canada participates in the benefit of the exodus from the Republic, and we hear that the cars of the Champlain and St. Lawrence Railway Company are daily crowded with French Canadians who are disinclined to mix themselves up with the disturbances which now distract our neighbours, and are returning to their native soil, where they can live in peace and quietude.

Great advantage will accrue both to Upper and Lower Canada from this changed state of things, and the colonization roads which have been opened up by the Government in both sections of the Province will be found of great service in providing openings for the settlement of the immigration which we may reasonably expect to be directed to Canada.

For the interests of the whole Province we would gladly see the Government extending their action with respect to this means of preparing for and attracting immigration, by opening up and rendering accessible more of the large extent of territory which is now lying, as it were, fallow; its worth almost unexplored; its resources undeveloped. As Quebecers, we should like to see the St. Maurice territory thus dealt with, for that is properly our "back country." It can contain a population equal to that which now inhabits the Ottawa valley, and pours the wealth of that region into the lap of Montreal and Quebec. Its soil is fertile, its climate not too rigorous to allow of the cultivation of the finest cereals, while its lumber and its minerals only await the axe and the pick to yield an abundant return If colonization roads were made into the St. Maurice territory—a main line running from Quebec westward, with cross roads at intervals leading from it to the river—the Canadians now returning from the States would swarm into them. The populous parishes on the North Shore between this and Montreal would send their surplus labor thither too. In ten years the forest, now unbroken, would be checquered with numerous farms; the country, now a desert, would be well peopled; lands now useless would be rendered valuable to the country, and the trade of Quebec would be largely increased.

But there are other parts of Lower Canada which might be opened up with almost as much advantage. There is the country between River du Loup and the New Brunswick frontier. In view of a union of the colonies, it would be desirable that that region should be developed by concentrating there a good deal of the labor and expenditure now diffused over half a dozen counties on the South Shore. Then there is Gaspé, which, if it is to be prosperous, must be made populous, and this by opening up roads from the Basin into the country. Let some one of these districts be singled out, and prepared for the reflux of the Canadian population which the troubles on the other side of the lines are likely to create, with the same energy which our energetic Commissioner of Crown Lands has displayed within the last three years, in opening up the country North of Lake Ontario. In the supplementary estimates we see indications that such a policy is really to be adopted. If so, it will be of the greatest benefit to the Province.

THE FINANCE MINISTER AND THE PUBLIC ACCOUNTS.

The London *Protolype* says of the Budget, "The public accounts for 1860, and the estimates for the present year have been laid before the House. This year, Mr Galt has prefaced them with a preliminary report, shewing, in a condensed and tabulated form, the whole fiscal affairs of the Province, from 1851 to 1861 inclusive, embracing every department of the Government, the Crown Lands, the Post-office, the Board of Works, Schools and Colleges, the Customs, the Canals and every other branch of the public revenue and service. Mr. Galt is, undoubtedly, the most able Minister who has ever managed the finances of the country, and, should the Grits attain the long looked for control of the Government, amongst the serious evils which their accession to office will bring upon the Province, the loss of the present Finance Minister's valuable services will not be the least."

QUEBEC VS. MONTREAL.

All the Montreal papers express their annoyance at our having mentioned the fact that our harbor opens long before theirs, and they think it cannot have been the case this year, because on the same day we alluded to it, we also said there was a good deal of floating ice in the river here. They lack the sense to perceive or the candor to state that the ice in question actually came down from Montreal. We repeat our assertion, that our harbor was open, this season, a month before that of the sister city, and our columns contained the announcement of the arrival of schooners from below a long time before the ice broke away from the neighborhood of Montreal. Montrealers have an insane jealousy of Quebec. They carry it so far as to try to cut out another mouth for the St. Lawrence, by way of Caughnawaga, and, if they could do that, no doubt they would afterwards endeavor to block up the natural outlet of the river somewhere below Quebec. We have no such feeling towards them. We sympathize with them during their annual floods, and, if they do suffer from colder weather, more snow and more fog than fall to our lot, we give them pity, not the hard words with which on too many occasions they favor us.

MINING RIGHTS.

The Hon. Mr. Alleyn has introduced a bill respecting mining rights, which we hope will meet with no opposition in the House. The object of the bill is to remove the doubt and uncertainty which have, hitherto, attached to purchases of rights of this description, and to assure the purchasers or holders, under a transfer duly registered, in the legal possession of the same. There have been so much difficulty and trouble arising out of imperfect and conflicting claims, that some such measure is much needed in order to remove doubt and secure to purchasers of privileges arising from the soil the same certainty of title as is enjoyed by purchasers of the soil.

Mining rights and locations are a favorite speculation with British capitalists, and any legislation which will have the effect of protecting them against trouble, dispute and litigation in purchasing them will, no doubt, lead to the introduction of a considerable amount of capital into the country for investment.

ADDITIONAL DRILL FOR THE MILITIA.

We are pleased to see, in the Supplementary Estimates, an appropriation of $15,000 additional for drilling the militia. The events happening both in Europe and the States are such that we ought to prepare against emergencies. Fifteen thousand dollars could not be better spent than in drilling our citizen soldiers.

ADDITIONAL GRANT FOR EMIGRATION.

An additional grant is proposed to make our emigration system more effective. It is needed, now that European emigrants are arriving, by the hundred, in every steamer, and Americans, in almost equal numbers, by every railway train.

ARRIVAL OF THE "BOHEMIAN."

The Canadian mail steamship "Bohemian," passed Father Point at half-past five o'clock yesterday P.M. A telegraphic summary of the news, containing some interesting items, will be found in another column. The "Bohemian" brings fifty-four cabin and three hundred and forty-six steerage passengers.

CANADIAN RIFLE ASSOCIATION.

The Association met in the Conference Room of the House of Assembly, at two o'clock yesterday afternoon, for the purpose of receiving the report of the deputation appointed to wait on His Excellency and to convey to him the request of the Association to allow himself to be named Patron and President. The chair was taken by the Hon. Sir N. F. Belleau, Speaker of the Legislative Council, and the reply of His Excellency, couched in the following terms, was read by the Hon. Sir A. N. MacNab:—

"GENTLEMEN:—I have learnt with the greatest pleasure that a Rifle Association has been formed in this Province, by the spontaneous movement of persons so competent to appreciate the paramount importance, and so well fitted to guide it when formed The Militia of Canada won its laurels in times long past, and I doubt not, if the occasion should arise, it will wield with great success the improved weapon of our own day. At any rate it is clear that the skilful handling of these weapons has become necessary for every man who would desire to defend his home and his country. It is therefore, gentlemen, with the utmost satisfaction that I comply with the request you have made to me to become the Patron and President of your Association, and I beg that you will accept the amount of the check which I now hand you as a contribution to its funds."

Accompanying the reply was a check for $100, being His Excellency's donation to the funds of the Canadian Rifle Association.

On motion of Sir A. N MacNab, seconded by Sir E. P. Taché it was resolved that Lieut Gen. Sir W. F. Williams be requested to join the Association, and that he be named one of the Vice-Presidents thereof.

The petition of the Association to His Excellency the Governor General, and both Houses was then submitted to the meeting by the Secretary.

After some further routine business the meeting adjourned.

LAVAL UNIVERSITY.

There was a musical and literary festival at the Laval University, last evening, in honor of the birth-day of the illustrious founder of the Quebec Seminary, Mgr. Laval. The great hall of the University—without exception the most magnificent public room in the city—was crowded to excess, there being nearly two thousand persons present, which, when we consider the unfavorable state of the weather, is an indication of the interest taken in the progress of our Lower Canadian University. Many members of the Legislature, representatives of the different learned professions, besides a host of clergymen, and professors and students of the University and Seminary thronged the seats in the lower part of the hall, while the galleries were crowded with ladies representing the *elite* of our city. Want of time prevented us from devoting more than a few minutes to the festival of which, however, we saw enough to enable us to speak highly. A couple of eloquent discourses from pupils of the University were loudly applauded. An efficient orchestra rendered some splendid selections of classical music, in the most effective manner, while the vocal pieces were rendered with that correctness which only great care and skilful training can hope to attain. We regret extremely that we are unable to give our readers a detailed report of the celebration.

CITY COUNCIL.

The City Council did not transact any business last evening. At the usual hour, the Mayor, and Councillors Lampson, Giblin, Hearn, Rhéaume, Charlton, Hall and St. Pierre, only, were present, In consequence, the Council adjourned until Friday evening.

POLICE COURT.

BEFORE J. MAGUIRE, ESQ., POLICE MAGISTRATE

In this Court, yesterday morning, James Todd of St. Raymond, was sentenced to a fine of twenty-five shillings and, in default of payment, was committed to gaol for fifteen days, for assaulting his wife, Nancy Ann Garven. The latter had left her husband's domicile some months ago and engaged as a servant, in town, owing to some dispute between them. The defendant followed her, and on her refusal to speak to him, the assault complained of was committed. The defendant stated that he had no cause of complaint against his wife, who, it was proved, bore an excellent character.

THE QUEBEC COTTON MILLS.

There were but few persons in the Reading Room of the Exchange, yesterday afternoon, at the time appointed for holding the meeting of citizens favorable to the establishment of a cotton mill in this city. Several of the gentlemen who were to have moved or seconded the resolutions which had been drawn up for the purpose of being laid before the meeting, were absent. Consequently nothing was done and the meeting stands adjourned *sine die*.

TRIAL OF SHERRICK AND WARD—ACQUITTAL OF THE ACCUSED.

(Special Telegram to the Quebec Morning Chronicle.)

TORONTO, April 30th.

An attempt was made, to-day, to prove an *alibi* on behalf of Sherrick. A number of witnesses proved that he was in the Township of Tecumseth from July 1859, to December 5th 1859; one man testifying that he had been in company with him every day from the 29th November to December 5th. The case for Jane Ward was rested upon the bad character of the Crown witnesses, and the discrepancies in their testimony. The trial lasted from 9.30 A.M. to 8 P.M. The jury has not yet agreed.

SECOND DESPATCH.—The jury, after being out two hours, returned a verdict of acquittal.

SPECIAL MIDNIGHT DESPATCH TO THE MORNING CHRONICLE.

HARRISBURG, April 30th.

Gov. Curtin's message on the opening of the extra session, speaks of the unexampled promptness and patriotism with which Pennsylvania and other States have responded to the call of the President. It says that the slaughter of Northern troops in Baltimore, for the pretended offence of marching at the call of the Federal Government peaceably, over soil admittedly in the Union, with the object of defending the common capital, imposes new duties and responsibilities on the State and Administration. This state of things cannot be submitted to, whether Maryland may profess to be loyal to the Union or otherwise. There can be permitted no hostile soil, no obstructed thoroughfare between he States undoubtedly loyal, and their natural seat of government. There is reason to hope that the route through Baltimore may be no longer closed against the praceable passage of our people armed in the service of the Government, but we must be fully assured of this, and uninterrupted enjoyment of a passage to the capital by any and every route essential to the purposes of the Government, must be attained peacefully if possible, but by force of arms if necessary. The time for temporising and forbearing with this rebellion is passed. On Saturday last our additional requisition was made for 25 regiments of infantry and one of cavalry There have been more companies tendered than will make up the entire compliment. The Governor communicates the fact that the Banks of the Commonwealth have voluntarily tendered any amount of money necessary for the common defence and general welfare of the State and nation. The loan of $500,000 is not yet exhausted, as it is impossible to have the accounts prope ly se tled, but a much larger sum will be required. The Legislature has been convened not only to complete the reorganization of the militia laws of the State, but to give the Governor authority to pledge the faith of the Commonwealth to borrow such sums of money as may be necessary for the extraordinary requirements. In order to protect the border, he recommends the immediate organisation of 15 regiments of cavalry and infantry, exclusive of those called into the service of the United States. He recommends an act legalising the authorising of appropriations for the families of volunteers. He also recommends the passage of a judiciary law to prevent the sacrifice of property by forced sales in the collection of debts.

The whole force of the New Jersey Volunteers, 3000 men, will leave Trenton to-morrow. They will embark in twelve propellers, each armed with two guns, and go through the canal to Bordentown, thence down the Delaware to the Delaware and Chesapeake Canal, and proceed to Annapolis.

The Providence Artillery Company left Philadelphia this morning for the South.

A large number of Baltimoreans who were driven from their homes under mob rule, have returned to that city with their families, the Union element being restored to power.

The Chief Justice of Vermont was in Richmond on Friday last, and had a full opportunity of judging of the number of troops there. He estimates them at 11,000, and believes that 15,000 more were South of that point in motion northward.

An agent holding an official position in Washington arrived here to-day, after one week's stay in Virginia. He communicates the important fact that the vote against Secession in the secret session of the Virginia Convention was fully fifty, and not sixteen, as was reported. He got this information from a prominent member of the Convention, who dared not make the statement public. No Virginia paper dare publish it.

David Mitchell, machinist, belonging to Perry Co., Pa., has arrived here from Richmond. He was forced to volunteer in that city, and made his escape at night. He had great difficulty in reaching here. He says that all men of Northern birth are watched with desperate vigilance.

Only eighty-six members answered their names in the House to-day.

In the Senate, on motion of Senator Finney, a resolution was passed declaring that the objects of the special session be confined to the subjects in the Governor's message, and to the banks and banking.

NEW YORK 30th.

Forts Madison and Nonsense near Annapolis are occupied by our troops.

WASHINGTON, 30th.

A special despatch to the 'World' says that Secretary Cameron and General Scott are in conference with Governor Sprague, and have ordered another regiment from Rhode Island, being highly pleased with those here.

The 'National Intelligencer' says that both Houses of the Maryland Legislature passed resolutions affirming the right of the General Government to march troops through Maryland without hindrance, to defend Washington.

Correspondence from the South represent that North Carolina will go out of the Union by acclamation.

The Virginians are removing all the machinery from Harper's Ferry to Richmond.

Bishop Onderdonk died this morning, aged 70 years.

A special despatch to the 'Post' says that the presence of Sherman's battery at Elktown, Md., changed the community from Secessionist to Union men.

Troops are concentrating around Baltimore. Troops are all ready in Western Virginia, and a force of Federal troops will soon be posted at Frederick.

Governor Lletcher has notified that any approach of the Confederate troops towards Washington will be the signal for an instant attack on Richmond and Norfolk.

Captain Dodge of the Federal army has been elected Colonel of the 9th New York Regiment, and accepted.

Washington despatches to the 'Commercial' says that a Union Convention will be held in Wheeling on the 13th May, composed of delegates from Western Virginia. The Secessionists will attempt to conciliate by granting the demand to tax slave property.

The Dedbom Zouaves arrived here last night and are quartered at the City Hall Park.

The 'Adriatic' is to be employed as a transport.

BOSTON, 30th.

The brig 'St. Mary' was seized by the collector to-day. She had on board 500 kegs of powder addressed to Baltimore.

From information gathered from gentlemen, whose position and influence puts them in the way of knowing the feelings and views of the majority of the Legislature of Maryland, we feel warranted in saying that that body will not even pass a bill to call a State Convention, but will content themselves with making a calm and dignified appeal to the country.

The first regiment will not leave to-day, but is ready and waiting orders.

The Boston Volunteers, and Chelsea Light Infantry, North End True Blues and East Boston Infantry Corps have been attached to the 1st regiment

The 1st regiment of the United States Marine Troops are expected to reach Boston to-morrow, and will be immediately be ordered to New York, by one of the steamboat routes.

RECORDER'S COURT.

BEFORE J. CREMAZIE, ESQ., RECORDER.

In this Court, yesterday morning, Elizabeth Kately and Bridget Madigan, were, on their voluntary confession, as loose, idle and disorderly persons, each committed to gaol for fifteen days.

Jane Webb, on complaint of Sub-constable Highfield for being drunk, impeding passengers and staggering in Des Carrieres street, was admonished and discharged.

Michel Langlois, popularly known as "Grelot," was committed to gaol for fifteen days, on complaint of Sub-constable Highfield, for wandering and not giving a satisfactory account of himself, in St. Ursule street.

Flavien Vermette found lying drunk on the sidewalk in St. Joachim street, by Constable Badger, was admonished and discharged.

Edward Burns, on complaint of Constable Ward, for being drunk and impeding passengers on the Napoleon Wharf, was admonished and discharged.

Ruth Monaghan, on complaint of Sub constable McCullen, for being drunk and using abusive and indecent language on the Upper Town Market, was admonished and discharged.

John Russell, found by Constable Badger in a state of drunkenness in St. Joachim street, at two o'clock, yesterday morning, was also discharged after an admonition.

Twenty summonses were paid before entry into Court, viz: assessment $96,18 and fees $11,80.

Seven judgments were rendered against defendants who, during the last week have made default to appear viz: assessments $215,53, with interest and costs.

One judgment was rendered for water-rate $24.

Sixteen summonses were entered into Court claiming assessment $123,30—the defendants making default. Proof fixed for Tuesday next.

One summons claiming assessment $134,50, was, after proof and *deliberé*, dismissed with costs.

Three writs of execution were issued for assessment.

We are requested to state that Professor and Mrs. Miller, have arrived in town, and will shortly give some of their Magic Exhibitions and Parlour Concerts, before the citizens of Quebec.

The Galt 'Reporter' is informed that Nassau C. Gowan, one of the defeated at Grey, at the last election, is arleady making a vigorous canvass of Waterloo, with a view to the next election.

We call attention to the large sale of bright sugars, molasses, syrups, &c., &c., and a very large assortment of manufactured and leaf tobaccos, at the stores of Messrs. Lane, Gibb & Co., to-day, at half past one o'clock.

A quarrel took place in Cayuga, C.W., on the night of Thursday last, between James Glenny, a shoemaker, and a printer employed in the 'Sentinel' Office; in which the latter stabbed Glenny.

Upper Canada papers say farmers are fully aware of the agitated state of European affairs, and future probable demand for grain, and will, therefore, sow largely for spring cereals to meet the demand after harvest. A large quantity remains on hand, and will be brought to market so soon as spring work is done.

A patriotic citizen of Chicago, Solomon Sturges, has agreed to arm and equip a company of eighty sharpshooters at his own expense. It is to be made up of some crack shots, many of them members of the Audubon club, and to be armed with the Maynard rifle, sword bayonet, and a pair of eight inch revolvers.

The congregation of Christ Church Cathedral, Montreal, have presented to Mr. John Bethune, a silver portmonnaie containing the sum of two hundred and fifty dollars, a well merited acknowledgement of his efficient services on several occasions when circumstances had deprived the congregation of the services of a professional organist.

The New Brunswick 'Colonial Empire' contains this mysterious paragraph:—A private letter to a gentleman in this Province, states that the Governorship of New Brunswick has been offered to a person of rank, now holding an official position in Downing street, and that if he decides on accepting the position, he will probably arrive in this city, early in June.

Long John Westworth, of Chicago, complaining of the mass of war poetry showered on him by patriotically sentimental young men, says:—If these young patriots want to serve their country, let them shoulder their muskets and march to the rendezvous. We need more action and less talking. Poetry is good enough in its way—but just now we want 'pitching in.'

We have been requested to state that the auction sale of furniture &c by A. J. The London 'Prototype' says a fine sturgeon, weighing thirty-five pounds, was caught yesterday, at Devinney's dam, by the son of the proprietor of the mill. The gentleman was taken with a net, and proved to be one of the finest caught in the river for many years past. The Thames, this season, is swarming with fish, principally mullet, and the disciples of old Ike Walton come home daily heavily laden with the dainties.

From the Dunville 'Independent' we hear that oil has been discovered in the neighborhood of Selkirk, in the township of Rainham, in the county of Haldimand, C.W. A company has been formed, and parties are now engaged in prospecting and securing claims. two persons have commenced sinking wells, and we understand they have succeeded in finding oil, but as yet only in very small quantities. We have been informed that a gentleman interested in the Pennsylvania oil springs has examined the locality, and he gives it as his decided opinion, that oil exists there in considerable quantities. So satisfied is he of this that he intends at once sending for men, and commencing operations immediately.

A meeting of the representatives from the several corps of the Volunteer Militia of Upper Canada was held in the old Parliament Buildings, Front street, Toronto, on Thursday last, for the object of forming a Rifle Association, similar to that now existing in England. The meeting was well attended, about thirty-five corps being represented. It was organized by Lieut. Col. G. T. Denison, Commandant of the Toronto District, being called to the chair, and Capt. Douglas G. Macdonald, of this city, appointed Secretary. A number of letters were then read from many officers in different parts of the Province, who were unable to attend but all of whom expressed hearty approval of the objects of the Association—namely, to give permanence to Volunteer corps and to promote rifle shooting throughout Upper Canada.

The 'North American' arrived at Londonderry on the morning of the 18th.

GREAT BRITAIN.

In the House of Commons, on the 17th, the bill legalizing marriage with a deceased wife's sister, was lost, by five majority.

The Lord Mayor gave a banquet to the Ministers on the 17th, Lord Palmerston, Gladston, and other members of the Cabinet were present. The reception of the latter was very flattering, and evinced the popularity of his budget. Palmerston in a speech eulogised the budget, said remission of taxation was made without diminishing in the slightest degree the military and naval means of defence, and was great proof of the solidity and resources of the country, and gave England that weight in external affairs which might enable her to use influence in securing peace. There are questions pending, which, if judiciously used by those who wish to disturb peace may furnish at least half a dozen respectable wars. He trusted, however, peace would be maintained.

The 'Morning Chronicle' expresses an opinion that the various speeches at the banquet were remarkable for certain suspicions of war, and says, when the Duke of Somerset remarked this was no time for reducing the navy, sudden and loud cheering took place. The Marquis Dazeglio made his first appearance at the banquet, as Italian Ambassador.

FRANCE.

It is again rumored that a large army is to be concentrated for the Eastern Departments.

The excitement relative to the Orleans pamphlet continued, but with no effect as a political demonstration.

It is reported that Prince Napoleon asked consent from the Emperor to challenge Duke d'Aumaule, but was refused.

The Corps Legislatif passed a Bill exempting from stamp duty newspaper supplements containing legislative proceedings.

It has been resolved by the Committee on petitions in Senate, that the memorial lately received on behalf of the Christians in Syria, shall be declared in an order of the day, and discussed accordingly. It is expected that every opposition will be offered to withdrawal of the French troops in June, whether Syria is tranquil or not.

The Bourse was firm and quiet at 67.75.

BELGIUM.

The Chamber of Deputies, after hearing speeches by Ministers, voted credit of fifteen and a half million francs for artillery by yeas 63, nays 32.

ITALY.

News unimportant.

The Chamber of Deputies agreed to the project of law on the new title of Government acts as proposed by Committee.

The discussion on Garibaldi's project relative to national armament, was expected to commence the day the steamer sailed.

It is reported that the Sardinian government requested the French Government to use its influence to induce the King of Naples, to quit Rome.

The London "Post" speaks of the probability of an early visit of Garibaldi to England.

RUSSIA AND POLAND.

Affairs at Warsaw unchanged. Exasperation of the people increasing throughout the country.

The number of killed, wounded and arrested at Warsaw consisted of 1000.

The Military Governer of Warsaw published a proclamation sternly prohibiting the wearing of political emblems, and limiting the followers at funerals to the family of the deceased.

Warsaw is ordered to contribute two thousand roubles for the maintenance of troops, and 1500 roubles for the expense of burying those who fell in the disturbances.

The rumor of a bloody conflict at Lublin was not confirmed.

It is asserted, via Paris, that six Russian corps d'armee will be placed on a war footing in summer.

An Imperial decree permits merchants of Kiachta to trade unlimitedly with China.

INDIA.

Bombay telegrams of March 27th says, fears are entertained that the famine will extend to the Madras Presidency.

The cotton question attracted much attention.

VIA LONDONDERRY—REUTER'S TELEGRAM.

PARIS, Friday.—The 'Moniteur,' in its bulletin of to-day, gives an account of yesterday's sitting of the Chamber of Deputies at Turin, in which the following particulars are ascertained:—"Garibaldi accused the ministry of having fomented the fratricidal war on Southern Italy. The majority of the members protested against this accusation of Count Cavour. Garibaldi again spoke, and demanded that the nation should be armed in the same manner as England. He designated the French army as an enemy to Italy, because it occupied Rome. Garibaldi indicated, as a means for reconciling the different parties of the country, the re-organisation of the army of volunteers, and its immediate dispatch to the two Sicilies to the suppression of all disturbances."

MADRID, Friday.—The Correspondence 'Autografia' says, the Government will accept the annexation of St. Domingo as soon as it has been confirmed by a vote of the people, and if no foreign power protest against the incorporation of St. Domingo with Spain.

Arrival of the Steamship

ADRIATIC.

The Polish provinces were being divested of Prussian troops, so as they can be concentrated at Warsaw.

A writ of execution has been issued against the Great Eastern, at the suit of Scott Russell, to satisfy his claims.

It is reported that the Conservatives of the British Parliament are preparing a strong opposition to Mr. Gladstone's project in the hope of a ministerial crisis.

All the great mercantile houses in Marseilles had suspended payment, their liabilities, in some cases, are very heavy. The suspensions were caused by the Turkish Government not providing for its acceptances, and the refusal of the Bank of France to continue its advances

The important debate in the Italian Parliament, on the re-organisation of the Southern Army, continued on the 20th Cavour made various explanations. Garibaldi said he was not satisfied with these declarations as the prospects were alarming; he therefore insisted on the re-organisation of the Southern Army. The Chambers finally adopted, by a vote of 197 against 75, the following order, which was proposed by Ricasoli:—

"The Chambers having heard the declaration of the ministry, and being convinced that the decree for forming three divisions of volunteers will be faithfully executed, that the Government will suitably provide for the Southern Army. That the Government will know how to increase and arrange the forces in an efficacious manner. And finally, being convinced that the Government will actively occupy itself with the armaments for the defence which appertains to the Government alone. This is passed as the order of the day."

Liverpool Breadstuff Market was dull. Richardson, Spence & Co., report the market dull and nominally unchanged. Flour dull and quotations nominal. Wheat quiet. Provision market dull. Bigland, Athaya & Co., and others report Beef steady. Pork steady. Bacon dull. Lard steady.

NEW YORK, April 30th.

Carl Schurtz, United States Minister to Spain, has obtained three month's leave of absence, and will go West, to immediately organize a military force in that quarter.

It is said the Legislature of Maryland has refused to call a Convention to consider the question of secession, and the Union feeling is said to be rapidly gaining in the State. The question of the transit of troops, it is also said, will be satisfactorily settled.

A correspondent of the Philadelphia 'Press' asserts in the most positive manner, that the British Minister, at Washington, had been instructed by his Government to offer to the United States, arms, ammunition and troops, to aid in the suppression of the rebellion of slaveholders, and that he has sent already to England for 300,000 Minié rifles. and lastly, that the English and French fleets will be sent to assist in the blockade of the Southern ports.

NORWICH, N. Y., 29th.

I leave here with a company of volunteers this morning. We shall carry the stars and stripes through Baltimore, or die.

(Signed,) J. F., Captain."

HARRISBURG, 29th.

Full preparations are being made here, to put up bridges on the Northern Central Railroad.

The Pennsylvania Central has loaned or presented to the Government a number of frames for iron bridges, which they have always ready to replace bridges destroyed or burnt on their road. 250 carpenters and other working man have been quietly concentrated at York since Saturday. They will be protected by troops as they advance. Five regiments are now lying organised at Camp Curbin, and they will probably move to-morrow on York. The intention is to guard every bridge with troops, clear through to Baltimore. When troops reach that point they will attempt to pass round Baltimore and reach the relay house, at the junction of the Washington and the Baltimore and Ohio Railroad. That point, should they reach it, they will hold permanent.

CHAMBERSBURG, Pa., 29th.

A test vote in the Maryland Legislature, today, on secession, resulted, yeas thirteen, nays fifty-three.

BALTIMORE, 29th.

A spontaneous Union meeting was held tonight, in East Baltimore; about 2000 persons were present and great enthusiasm war manifested. The national banner was unfurled.

CIRCULAR.

Chicago, April 23d, 1861.

Our unfortunate political and financial trouble have kept us in constant excitement during the last week. Two or three of our city Banks have endeavored to discredit a large portion of our currency, and although the other Banks manfully sustain it, in order to prevent such a serious loss as would result to the community at large, the wheels of trade have been badly clogged, and transactions have been consummated with much difficulty.

Sight Exchange on New York has advanced to 15 per cent selling, and the Bankers do not care to sell at any figure.

The general markets are so unsettled that it is difficult to give quotations that can be relied on from day to day.

The receipts of Live Hogs have been liberal, and have been taken almost exclusively by packers at $4.60 a 5.30 gross for light to heavy. The receipts for the week and for the corresponding period the past two past years sum up as follows, viz: in 1859, dressed 7; live, 2216; in 1860, dressed, 29; live 2434, and in 1861, dressed, 40; live 4041. The receipts of dressed are so trifling that they are all taken by the retail trade. There had been an irregular demand for Mess Pork at all kinds of prices. $21 for heavy, and $20 for light are about the closing quotations at which purchases can be made payable in currency.

Prime Lard has been in demand at 10c, and in a few cases at still higher figures.

There is no sale for bulk Meats, and some of the holders are cutting their bulk Sides into Mess Pork. Shoulders are dull at 6½c a 6¾c packed.

HENRY MILWARD.

A New Feature in the Trade of Kingston.—We have to notice the beginning of a new branch of commerce which may hereafter rise to very great proportions, and become of immense importance to this city. Within the past few days a large quantity of square oak timber has arrived at this port by the Grand Trunk Railway. Up to the 20th instant six trains of cars arrived here from Alfred Craig, near Sarnia, bringing altogether a measurement of 32,639 feet of squared oak, consigned to Messrs. Calvin and Breck of Gardenisland, under whose direction it will be raised and forwarded to Messrs. Thomson & Co. of Quebec. This venture, it is true, may be but an experiment; though it cannot be doubted that the cost of railway transport was first counted. That would this mode of conveyance have been selected had not the increased rapidity of transit and other advantages which the railway locomotive possesses over the tedious canal boat and uncertain lake craft fully warranted the undertaking. It is this view of the matter which leads us to suppose that the traffic just initiated will increase and become an important feature of the transhipment business of our ports as that of cereal produce in Kingston's palmiest days. In sending on the timber by rail instead of schooner, the intricate navigation of the St. Clair river and lake, and the circuitous route of the Detroit with lakes Erie and Ontario and the Welland Canal, are exchanged for an almost direct air line to Kingston. The increased rapidity of the transit on the Grand Trunk Railway is thus obtained by a shortening of distance as well as by increased speed of locomotion; and although many question the practicability of a competition between rail and water carriage of heavy goods, which should prove financially successful to the former, there are still circumstances and localities in which the railroad will prove itself somewhat materially superior to a slow water navigation. Thus the result of this experiment may prove that a very large portion of the immense quantities of valuable timber in which Lambton, Huron, Perth, and other counties of the western peninsula abound, may be sent to the Quebec market by rail cheaper than by schooners on the lakes. At all events it may be safely hazarded that timber standing at some distance from the lake front and near the line of the railway may be more cheaply forwarded to the head of the St. Lawrence river navigation by rail than otherwise. There is thus a prospect that this trade will continue on a large scale until the available timber of the western districts is exhausted, at which time the traffic in wheat and agricultural produce, which will also find an outlet at Kingston, and descend the St. Lawrence for shipto Europe. Our merchants and mechanics, therefore, should not be without hope, for though legislators may make and remake a city the seat of government, they cannot destroy a geographical position. The location of our port at the confluence of the great chain of lakes with the river St. Lawrence is a geographical position of imprescindable value, and one which no Parliament can take away. And the Grand Trunk Company after a year or two's blindness to their own interests have at length brought into operation their branch line to the harbor, so that King ston is doubly placed at the head of the St. Lawrence and foot of the Lake navigation. There is a large and growing trade in wheat and flour which descends the lake and is forwarded by rail to Montreal, and we have just witnessed the beginning of a traffic in timber in which the relations are exchanged, the timber reaching this port by rail, and descending the St. Lawrence in rafts.—Kingston News.

H. & W. BANSLEY, HAIR CUTTERS

To His Royal Highness the Prince of Wales, His Grace the Duke of Newcastle, Earl St. Germain, General Bruce, Major Teesdale, and Suite.

THE HUMAN HAIR.

ADVICE TO PARENTS.

WHEN the Hair begins to fall off the only resource is to cut it short at least once a month. It should be equally cut. Give it a good brushing with a moderately stiff brush while the hair is dry; afterwards wash it well with luke-warm Soap-suds, or Salts of Tartar; rub into the roots of the hair a little Bay Rum, or H. & W. BANSLEY'S HEATHER BALM.

The above instructions should be performed twice a month, and the brushing may be profitably done twice a-week. (In cases of falling hair, it must be very slightly brushed.) Damp the hair with water every time the toilet is made. Nothing is better than pure water for the hair, providing the Scalp is kept clean, as we have named. The excessive use of oils, pomatums or grease of any kind is more ruinous than the above fluids. Oils eventually collect dust, &c., soiling whatever they touch. For the Human Hair nothing is preferable than H. & W. BANSLEY'S Fluid, or pure soft water Young Ladies look upon their hair as a most beautiful ornament, and it is invariably the excessive use of corrosive fluids, disease and grease, that makes it fall off before their prime. BANSLEY'S Hair Fluid has been in use in the Canadas during the last twelve years, and has met with marked approbation.

DOWN'S VEGETABLE BALSAMIC ELIXIR,

FOR

Colds, Coughs, Consumption, Whooping Cough, Croup, Asthma, and all Diseases of the Chest and Lungs.

WARRANTED.

We subjoin a few certificates of cures, some of which date back within a few years of its discovery :—

Stanbridge, L. C., June 22, 1836.

For the benefit of the afflicted, I beg leave to give the Rev. N H Downs' Vegetable Balsamic Elixir the highest possible recommendation. I have given it to child of mine whose lungs were evidently dangerously affected, and for whom we were much alarmed, after having tried many other remedies in vain—the result is, the disease is apparently removed and the child restored to health. To effect this one phial only has been used

STEPHEN CHANDLER.

Montreal, March 30, 1860.

Messrs. J. M. Henry & Sons:

SIRS,—In a case of prolonged, obstinate and most annoying cough, following a cold, I experienced immediate and entire relief from the use of your great remedy, the Vegetable Balsamic Elixir; and therefore take pleasure in recommending it to the similarly afflicted.

W. WHITE.

From the Hon Bates Turner, late Judge of the Supreme Court of Vermont :

I hereby certify that I have been well acquainted with the medicine called 'Downs' Elixir,' for seven years past, and from its effect upon myself, and in cases where I have witnessed its operation, consider it one of the most fortunate inventions ever made. I am also acquainted with other medicines for coughs, colds, &c., but in my opinion they cannot at all compare with this. I have been at three different times raised up from dangerous illness by the use of this article, and in one of which I had the attendance of an able and experienced physician, but whose prescriptions did not suit my case as well as the Elixir. I have recommended it invariably for a number of years past to those afflicted with lung complaints, and believe with good success.

HENRY'S VERMONT LINIMENT

THE VERMONT LINIMENT is a Pain Killer different from everything else bearing the name, and yet possessing virtues which render it superior to every other Liniment within the scope of our acquaintance. While each separate ingredient possesses in an eminent degree, powerful remedial properties, the *toute ensemble*, or combination of these well-known agencies, produces a Liniment, the superlative excellence of which has been attested by hundreds who have used it.

The Liniment is harmless. No possible injury can result from its use, if taken or applied according to directions. As an application for RHEUMATIC AFFECTIONS, NEURALGIA, TOOTHACHE, HEADACHE, BURNS, SCALDS, BRUISES, STIFF JOINTS, SWELLINGS, CORNS, SORE THROAT, LUMBAGO, and pains of a chronic nature; or, as an internal remedy for CHOLIC, COLDS, BOWEL COMPLAINT, CHOLERA, CHOLERA MORBUS, and similar complaints; it may always be used with an entire confidence in its success.

We give a large bottle for twenty-five cents, and warrant it.

Montreal, December 12, 1860,

MESSRS. Henry & Sons:

My wife tells me that she likes your Liniment well. She feels grateful for its beneficial effects, and takes great pleasure in recommending it to others.

GEO. R. McNAMEE, Conductor on G. T. R. R.

Montreal, December 6, 1860.

Messrs. J. M. Henry & Sons:

It affords me great pleasure to state that I have used both your Liniment and Downs' Elixir in my family, and esteem them both very highly. The employés in my house have also used them, and found them beneficial. A stranger from Elmira, New York, stopping at my hotel a short time, had with him a daughter, who was in ill health, and I recommended the Elixir. He was so well pleased with the result that he purchased a large bottle to carry home with him. Numerous other instances of the value of your preparations have come under my notice, and I heartily recommend them to every person who is afflicted with the diseases for which they are designed.

PROSPECTUS.

THE QUEBEC COTTON MILLS.

To be Incorporated by Act of Parliament.

CAPITAL,.....$50,000, IN ONE THOUSAND SHARES OF $50 EACH.

IT is certain that Manufactures contribute, in an eminent and peculiar degree, to the population and wealth of Cities.

Our great manufacture, the building of vessels, is at a low ebb; the population which it fostered cannot much longer endure successive winters of idleness and privation.

In the manufacture of cheap cotton goods there seems to be a remedy, which will involve a small outlay of capital, and which offers a fair prospect of success.

The present tariff would appear to have been expressly framed for the encouragement of manufactures: raw material free, and a duty of twenty per cent. on manufactured goods. Its weight on the community is barely perceptible, and the finances of the Province seem to demand that for a lengthened period it should be upheld as a source of revenue, if we would avoid direct taxation. But, even supposing the protective duty to be reduced, why should not we manufacture, in this city, staple cotton goods and yarns, of which the consumption is so great, as successfully as our neighbours in New England? Labor is higher there than with us; they pay cash at New York or Boston for raw cotton, and, notwithstanding our tariff of twenty per cent. on their goods, they send them into Canada, and sell at a profit.

Let us calculate the cost of establishing and carrying on a cotton factory here (the precursor, as we hope, of many others leading to the introduction and investment of capital, and the circulation of thousands of pounds among all classes).

TO ESTABLISH THE FACTORY :

1. *Buildings :* For these no capital will be sunk; they are ready, in the most eligible locality, and to be obtained at a moderate rental.
2. *Steam Engine :* Do, do.—(The above save an outlay of $20,000.)
3. *Machinery :* 45 Looms.....$32,500
   Duty, 20 per cent..... 4,500
   Packing, freight, fitting.... 2,325
   $39,325

An annual expenditure of $17,875, which includes salaries, wages, rent, coal for engine, oil and extras, of which ample details will be furnished when the subscription books are opened.

A pound of good quality of raw cotton will cost, at the outside, 12 cents; this can be manufactured into three yards of fair 36-inch-wide sheeting, which will sell at present rates freely at 9 cents per yard to wholesale houses: the cotton in each yard costs, therefore, four cents.

Forty-five looms will average 1800 yards of sheeting per day; or, in three hundred working days, 540,000 yards: therefore,—
540,000 yards at 9 cents, give.....$48,600
Deduct:
The cost of raw material in 540,000 yards, at 4 cents..$21,600
Cost of manufacture, as above.. 17,875
39,475

Profit.....$9,125

or about 18½ per cent. on the whole capital.

No city can become wealthy by mere aspirations. Not only should we strain every nerve to increase our shipping and forwarding business, but we should offer permanent employment to the working classes of both sexes, numbers of whom, who have left Canada to obtain a livelihood at the cotton factories of Lowell, would gladly embrace the opportunity of returning to their native land.

We require busy winters as well as prosperous summers.

D. A. ROSS, A. STRANG.

Quebec, March 9, 1861. 3mc

Eagle Life Insurance Company of London.

Established in 1807.

☞ Canada Agency Established in 1825. ☜

THE Quinquennial Division of Surplus for the period ending in 1857, will be paid in Cash at the office of the undersigned Agents, the current rate of Exchange, to those policyholders who may select that mode; they have the option, however, of applying the surplus in either of the following modes, viz. :—

1stly.—Payable in Cash.
2ndly.—Adding to the amount assured
3rdly.—In a reduction of Premiums falling due in the five years subsequent to 1857.
4thly.—In a reduction of all Premiums subsequent to that date.

The Surplus in 1857, divisable among the assured, exceeds TWO HUNDRED AND FIFTY THOUSAND POUNDS, Sterling.

The realized assets of this Company amount to over ONE MILLION THREE HUNDRED THOUSAND POUNDS, Stg.; and the annual income upwards of TWO HUNDRED AND TWENTY THOUSAND POUNDS.

The rates of Premium are as low as the experience of more than half a century warrant; and as eighty per cent. of all profits is every five years divided among the assured, it is evident that these rates are the very lowest that any Life Insurance Company can demand, consistent with its own safety, and the consequent security of the assured. Policies are issued with or without participation of profits, for one year, seven years, whole life, joint lives, or payable on the life attaining the age of sixty. Premiums payable quarterly, half-yearly, or yearly. One-half credit for first five years.
