MINISTER OF RAILWAYS DIED UNEXPECTEDLY LAST EVENING

Hon. C. W. Kennedy, Recovering in Naples, Florida, From Operations in Montreal, Died From Heart Failure—Touching Tributes From Premier King And Leader Of Opposition Meighen

Naples, Florida, Jan. 17.—(Canadian Press) — Hon. C. W. Kennedy, Minister of Railways and Canals, who came here recently to recuperate after an operation in Montreal, died suddenly tonight from heart failure.

News Shocked Ottawa
(By Canadian Press)

Ottawa, Jan. 17.—News of the death of Hon. Mr. Kennedy came as a great shock to his friends and Cabinet associates here for there were few men in public life as popular as the late Minister of Railways. Recent advice that he was to recuperate after his two serious operations, had been of a reassuring nature, and it was believed to be only a matter of a few months until he would be able to again take up his duties as head of the department. Men in all spheres of political and public life joined in expressions of their regret at the passing of a man who had given his best in the service of his country and had labored in the administration of a difficult department at a time when the considerations of his own health forced his friends to urge upon him that he submit to an operation which had been declared necessary if his life was to be saved.

For a time while the late Mr. Kennedy lay in hospital in Montreal a few months ago, it was not believed that he could possibly recover and when a second operation had been performed and he rallied from it, doctors declared that his recovery thus far was little short of miraculous. His powers of recuperation were declared to be tremendous and it was believed when he left the hospital that a few months rest from his administrative duties would complete a cure.

The death of Hon. Mr. Kennedy makes the first break in the ranks of the Cabinet of Right Hon. Mackenzie King which took office on December 23, 1921. It also leaves vacant one of the most important of the Cabinet portfolios at the present time. Since the illness of Hon. Mr. Kennedy the Department of Railways and Canals which administers the Canadian Government Merchant Marine as well as the Canadian National Railways, has been administered by Hon. George P. Graham, Minister of National Defence as Acting Minister of Railways. Mr. Graham, it is expected will continue as acting Minister of Railways for the time being.

Hon. Mr. Graham's Statement

Hon. Mr. Graham made the following statement on receipt of the news that Mr. Kennedy had died:—"When a day or two before he left for Florida I saw Mr. Kennedy in his office in Windsor and said 'good-bye.' I confidently believed that he was on the sure way to recovery and would in a few months at the longest be back with his colleagues in Ottawa. The news of his passing comes as a shock indescribable.

"Years ago long before his name was mentioned in connection with public life, I marked him as a young man who had great possibilities in nation-wide affairs, and finally he was induced to allow his name to be considered in this connection. During these years we became very warm personal friends, the meaning of which I realize more at the present moment than ever before. From the day he entered Parliament he showed marked ability at grasping the problems that confronted a country like Canada, and when he became a Minister of the Crown he dealt with the great railway question in a masterly way.

"Although impelled by very firm convictions and fixed purposes in everything he undertook, Mr. Kennedy made few enemies but daily added to his friends. He will be missed by his colleagues in the Government and lamented by every Member of Parliament, but even deeper than this will be the mourning of the entire citizenship in the riding of North Essex where those who knew him best loved him most."

Meighen Voices Regret

Right Hon. Arthur Meighen, Leader of the Opposition voiced the regret felt by those politically opposed to the late Minister of Railways when the news of Mr. Kennedy's death was conveyed to him.

Mr. Meighen said:—"I have just heard with amazement and dismay the news of the death of Mr. Kennedy. We all had hoped that the splendid recovery which was the reward of his long and courageous battle would prove permanent. That such was not the outcome is the profound regret of us all.

"I doubt if there was any Member of Parliament more thoroughly respected on both sides than was Mr. Kennedy. The sincere regard with which he was held by all his associates was enhanced in recent months by the brave battle which he gave to the attack of the malady which ultimately has destroyed him.

Canals. It is the first break which has come in the ranks of the present administration. To me personally, as to all the members of the Government, the word of Mr. Kennedy's death has occasioned the profoundest sorrow. He was the most loyal of colleagues and the truest of friends. I had shared with the public the hope that it was but a matter of a short time before his integrity and rare executive abilities would again be at the country's service in the important department of Government, the exacting duties of which he had demonstrated such a marked capacity to administer. That he is no longer with us is due, beyond all question, to the fidelity and tenacity with which, at great risk to his health, and as it now proved, to his life, he held to his post of duty at a moment when the business of his department demanded close and continuous attention. His life has been lost in the service of the State. The sympathy of his fellow members in the Government and in Parliament will go out in full measure to the constituency those interests he represented with so much ability and distinction; but, above all to Mrs. Kennedy, whose interest and devotion were never failing in all that pertained to his public and personal life. She may well believe that in her loss the nation shares, for in Mr. Kennedy's death there has been taken from public life one of the most distinguished and public spirited of men, as well as one of the most upright and diligent in the affairs of state."

Heart Was Weak

Montreal, Jan. 17.—Hon. W. C. Kennedy was ill for several months last year and was a patient in the Royal Victoria Hospital in this city from the early part of August until November 22 last. He suffered from gall stones and underwent two operations, both of which were successful so that when he left the hospital he was reported as recovering.

His heart, however, was always weak and this was the point which the doctors feared most during his illness. He went to the Southern States to escape the rigorous Canadian winter and to get back strength to face his arduous duties at Ottawa.

Possessed of fine abilities, combined with a patriotic desire to serve his country and his fellow men, Hon. William Costello Kennedy, M.P., Minister of Railways and Canals for Canada, occupied an enviable position in his comparatively brief political career. He was first elected to the House of Commons as the Liberal member for North Essex in the General election of December, 1917. He was re-elected in the same riding in the General Election of December, 1921, when the Liberal party triumphed at the polls and Hon. W. L. Mackenzie King became Prime Minister.

Mr. Kennedy was taken into the King Cabinet upon its organization, December, 1921, as Minister of Railways and Canals. This important office he filled with zeal and capability, but an unfortunate illness, involving serious operations, interfered with his carrying on the duties of his office at a critical period in the reorganization of the Canadian National Railways.

Hon. Mr. Kennedy's capacity for work and his natural bent for public service were shown long before he ran for Parliament. He was President of the Windsor Board of Trade for 1909-10. He was a member of the Windsor Board of Education from 1913 to 1918, and in the same years he was a Councillor of the Town of Ojibway, Essex County. Born in Ottawa, on August 27, 1868, Mr. Kennedy was the son of William and Julia (Costello) Kennedy. He was educated in the Separate Schools of Toronto and in the La Salle Institute, Toronto.

TURK DELEGATES VOICE ANXIETY

At Lausanne Over Fact Of British Giving Out Pessimistic Reports

Lausanne, Jan. 17.—Mr. Bompard of the French delegation to the Near East Conference left for Paris today accompanied by one Turkish and one French expert to discuss with the French government the unsettled financial problems encountered by the negotiation of the Turkish peace treaty. He will not return until Saturday night, consequently the main financial matters figuring on the program of the conference will go over until next week.

The Turkish delegation voiced anxiety today over the fact that the British have been giving out pessimistic reports concerning the progress of the conference and expressed a desire to be acquainted with the reasons for this gloom in British quarters.

A British spokesman later said his delegation had received no information leading them to believe the Turks were disposed to come to any satisfactory arrangement concerning judicial privileges or guarantees for foreigners in Turkey.

This morning's meeting of the conference was devoted to elaborating details of the plan for the exchange of minority populations between Turkey and Greece.

NOT CONTEMPLATING

ANY EXPULSIONS

Berlin, Jan. 17.—It was stated in official quarters today that the German Government is not contemplating any expulsion of French subjects from Germany.

There is still no sign that France is interfering with the movement of coal from the Ruhr district to unoccupied Germany.

B.E.S. LEAGUE WILL

MEET NEXT IN LONDON

Convention Called In Capital Of England For Month Of July

Ottawa, Jan. 17.—The next meeting of the British Empire Service League will be held in London in July according to a cablegram received by R. B. Maxwell, president of the league in Canada from Field Marshal Earl Haig. The cable states: "Reluctantly recognizing the impossibility of my leaving England this year, my headquarters advisory committee has unanimously decided to convene the Empire convention in London in July. I earnestly hope your association will send three delegates. Kindly cable decision earliest possible."

Canada will send the three delegates asked for, it is stated.

BRITAIN'S FOREIGN

TRADE FOR 1922

Washington, Jan. 17.—Official figures reaching the Department of Commerce today showed that Great Britain's foreign trade in 1922 improved her trade position materially as compared with 1921. In comparison with the preceding year, her total trade increased \$2,743,000 or \$385,522,350, and exports increased \$1,309,000 or \$80,611,000, while re-exports were less by \$3,274,000 or \$15,256,840.

FRENCH START POLICY

OF REQUISITIONING

Paris, Jan. 17.—The French government has begun its policy of requisitioning in the Ruhr, it was announced this evening. Five thousand eight hundred tons of coke and six hundred tons of coal which the Germans had loaded in cars, were taken and re-routed for distribution among the Allies.

On the other hand, there is a report of a possible replacement of the United States troops on the Rhine by Italian troops, but this is directly opposed to Premier Mussolini's announcement of his policy at a recent Cabinet council and may possibly be explained as indicative of some compromise proposals from Italy to France.

French Given Reply.

A despatch to the Times from Essen says the German coal mine owners this afternoon handed the French authorities a carefully drafted reply to the order of M. Coste, the French inspector-general of mines, for them to resume deliveries of coal to the French.

The reply, says the despatch, points out that the Versailles Peace Treaty recognizes Germany as a sovereign state; hence it follows that German subjects owe obedience to their laws and their authorities. It argues that no one can be forced to take the dishonorable step of acting against their own country.

FRENCH POLICY TURNING Milder

Defaulting Magnates Not To Be Arrested, But Simply Court-Martialled

COMPEL PRODUCTION

France Has Put Nearly 100,000 Troops In Ruhr—Military Operations

Essen, Jan. 17.—The French economic mission has decided to content itself for the time being with the requisitioning of coal already mined and brought to the surface, diverting to France the cars already loaded and destined for the interior of Germany and postponing for the present the idea of requisitioning the mines themselves.

This decision was reached at a meeting of the economic mission at which General Simon presided and which lasted many hours.

The meeting was called after advice had been received from Paris that the word "confiscation" mentioned in the French papers was creating a bad impression abroad, especially in Great Britain and the United States.

The requisitioning of the Ruhr was totally inadequate to direct a task of such magnitude also was responsible in a measure for alteration of the French plan.

That the French policy in the Ruhr is veering toward milder methods is also shown by the announcement by French general headquarters, at midnight, "that the defaulting magnates" would not be arrested, but would be simply summoned and tried before Court Martial, leaving these Courts to deal with them as they deemed fit.

"We will not give them an opportunity to pose as martyrs" was the comment at headquarters.

Application of the Tirard plan for collecting customs, which was sent with the Paris conference, M. Poincaré will also be enforced between now and January 31.

It developed during the evening that friction existed between the French economic civilian mission and the occupying military authorities, which was responsible for orders and counter-orders from the vacillating policy involving: first, the stern, and the conciliatory measures obtaining in the past few days.

The economic mission realizes that preparations are totally inadequate for the French to take complete charge of the Ruhr mines without the assistance of German technical organizations, and is desirous of gaining time, without the wish to resort to the requisitioning of the mines until there is absolutely no other way out.

Military Operations Completed.

London, Jan. 17.—Another stage of the French progress in the Ruhr was reached today with the announcement by the French command that military operations had been completed. France has put nearly 100,000 troops into the Ruhr Valley, taking her occupation to the extreme limits, if not beyond, of the territory authorized under the Treaty and is now about to try the effect of force to compel the German mine owners to produce coal for France and Belgium.

All that France has actually achieved thus far has been the recovery of the Ruhr to over 80,000 tons of coal, or a drop of nearly 40,000 points within a week.

The French intend to take possession of the mines tomorrow and threaten to prosecute the recalcitrant mining magnates.

The general belief in London is that this would be the beginning of the French troubles and that the bayonet can do everything but pick coal. Much seems to depend upon the attitude of the Ruhr miners, which is still an unknown quantity.

The British government continues to observe a watchful waiting attitude.

Italy's policy is not defined. Reports that the Italian Government is trying to mediate between France and Germany cannot be confirmed and it is noteworthy that Germany is delivering coal to Italy in exchange for reparations to Italy, and that the German Minister has not been withdrawn from Rome, indicating that there is hope in Berlin that Italy may be detached from the Franco-Belgian policy.

On the other hand, there is a report of a possible replacement of the United States troops on the Rhine by Italian troops, but this is directly opposed to Premier Mussolini's announcement of his policy at a recent Cabinet council and may possibly be explained as indicative of some compromise proposals from Italy to France.

French Given Reply.

A despatch to the Times from Essen says the German coal mine owners this afternoon handed the French authorities a carefully drafted reply to the order of M. Coste, the French inspector-general of mines, for them to resume deliveries of coal to the French.

The reply, says the despatch, points out that the Versailles Peace Treaty recognizes Germany as a sovereign state; hence it follows that German subjects owe obedience to their laws and their authorities. It argues that no one can be forced to take the dishonorable step of acting against their own country.

A copy of this letter is being signed by each magnate who will add a personal declaration of inability to comply with M. Coste's order, which they will assert would be a dishonorable act.

NOVA SCOTIAN MINERS WARNED

Cannot Affiliate With Red Organization At Moscow And Stay With U.M.W.A.

Indianapolis, Ind., Jan. 17.—Notice has been served on the coal miners of Nova Scotia by the International Executive Board of the United Mineworkers of America, the Labor Union now operating in most of the mine fields of the United States and Canada, that they cannot affiliate with the Red International Labor Organization of Moscow and at the same time remain members of the United Mine Workers, it was announced here today.

The United Mine Workers by this step, it was declared, have put themselves directly on record against radicals who are endeavoring with Russian examples, "to destroy the American Labor movement and substitute the reformed principles of Bolshevism."

In case the Canadian local Unions concerned attempt to proceed further with their affiliation efforts the Union's leadership has decided to revoke their present power of controlling their own local organizations and set up new ones in the territory, as was done in Kansas two years ago.

Miners of the Nova Scotia district raised the question, it was explained, by making a formal application to the executive board for permission to affiliate as a unit with the Red International.

Further action in the matter will depend on the compliance or non-compliance by them with the decision as announced today.

WOMAN DISCHARGED.

New York, Jan. 17.—Jane Hansen, identified by the police as "Juanita Hansen movie star" today was discharged in court when arraigned on a charge of possessing narcotics. The woman recently was arrested in a West Side apartment.

able action against the Fatherland. Each signer will further express the conviction that his attitude is in full conformity with the Treaty of Versailles, the right of Nations and the laws of warfare as prescribed by the Hague convention.

Seize Coal On Rhine.

Late tonight the French announced their intention to seize all cargoes of coal now on the Rhine and in the Herne canal destined for unoccupied Germany, saying a despatch to the Times from Essen.

Newspapers Suppressed.

A despatch to the Evening Standard from its Essen correspondent says the French have opened preliminary military proceedings against the coal owners and especially Thyssen, "because they refused to obey the French orders for delivery of coal on the reparations account."

The French have suppressed the newspapers in Bochum, the correspondent adds, in consequence of the attitude adopted toward the occupational forces by the local inhabitants.

Russia To Assist Germany.

The Riga correspondent of the Times says he learns from reliable sources that the Russian Soviet Government has decided to mobilize the five years conscripts with a view to assisting Germany should Germany decide to resist French action.

French Commission at Emden. A French commission has arrived at the port of Emden to control German coal exports, according to a Central News despatch from Berlin.

Military Conquest.

Berlin, Jan. 17.—It is asserted here that the difficulties the French are encountering in the Ruhr has led to differences between Premier Poincaré and Marshal Foch, the Marshal having demanded more troops owing to the unexpected resistance by the industrial magnates and that Foch is successful in his demand the French advance will be one of military conquest.

SHOULD LEAVE ACT AS IT IS

Opinion Of Branch Of C.M.A. Over Coming Revision Of Bank Act

Montreal, Jan. 17.—R. W. Gould, Secretary of the Province of Quebec division of the Canadian Manufacturers' Association, here today from Ste. Hyacinthe, where he has attended the organization meeting of the Ste. Hyacinthe district branch of the C. M. A.

It was decided at the meeting to include in the new branch the neighboring town of Drummondville represented by several members.

The first election of officers for the branch resulted:—Chairman, J. A. Laframboise, of Casavant; Vice-Chairman, L. Augustin, of O. Chailfoux & Fils; Secretary, J. E. Champagne, of the Omega Engine Company.

A discussion was held on the question of general taxation and it was unanimously decided that the Ste. Hyacinthe and Drummondville branch support an adaptation of the present system of sales tax rather than the imposition of a turnover tax.

With regard to the coming revision of the Canada Bank Act the consensus of opinion was that the act should be left just as it was, without any experiments at further amendments.

Considerable criticism was directed toward the Bankruptcy Act the administration of which in the Province was considered as detrimental to the business interests of Ste. Hyacinthe and district. A resolution was adopted urging that the act be amended in such manner as to provide for more satisfactory administration in the Province of Quebec.

PROVINCES SHOULD

DISCUSS TAXATION

Conference Advocated By

Treasurer Of Manitoba—

Overlapping Of Expenses

Winnipeg, Jan. 17.—With collection of the income tax the principal subject to be discussed, a conference of all provinces with the Dominion government to discuss taxation questions as advocated by Hon. F. M. Black, Provincial Treasurer, Mr. Black has communicated with Hon. W. L. Mackenzie King, Premier of Canada, looking toward the convening of such a conference.

Overlapping of expenses in collection of Dominion and provincial taxes would come up for discussion and Manitoba will move to eliminate all possible overlapping coupled with an endeavor to effect all economies possible in collection, the Minister said.

The Weather.

Toronto, January 17.—The cold wave is now centered in eastern Quebec, while a depression which was situated in southern British Columbia last night has moved with great rapidity to Manitoba.

The weather has been very cold to-day over the greater portion of Ontario and Quebec, but temperature is now rising rapidly in Ontario. In the Western Provinces the weather is turning decidedly colder again, owing to the approach of a cold wave from the Yukon territory.

HEAD OF AMERICAN

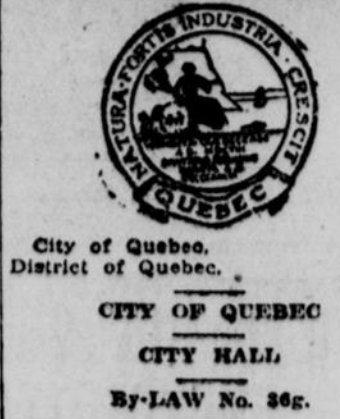

JESUITS DEAD IN ROME

New York, Jan. 17.—Word of the death in Rome yesterday of the Rev. Joseph Francis Hanselman, head of the American Jesuits and assistant to the General of the Order, has been received here. He had been ill for some time and efforts to save him through blood transfusion served merely to prolong his life for a brief period.

BIG GAME HUNTERS IN

N.B. BAGGED MANY DEER

Fredericton, N.B., Jan. 17.—Big game hunters in New Brunswick secured twice the number of deer during the past season than were killed during 1921, said L. A. Gagnon, Chief Game Warden, today, while the number of moose killed in 1922 was very slightly in excess of the 1921 killed.

City of Quebec,
District of Quebec.
CITY HALL
By-Law No. 366.

To Amend By-law Concerning the
Removal of Snow.

Drawn up in the French Language
At a meeting of the City Council
of the City of Quebec held on Fri-
day, the twenty-second of Decem-
ber, 1922, in the City Hall, in con-
formity with the law in the virtue
of a By-law passed by the Council,
and after the accomplishment of
all the formalities by statute pro-
vided, at which meeting were present
the absolute majority of the mem-
bers of the Council, to wit:
His Worship the Mayor, and Alder-
men: Bedard, Berthiaume, Collier,
Delagrè, Desrosiers, Durois,
Emond, Lesage, Martin, Paradis
(Jacques Cartier), Paradis (St.
Sauveur), Tremblay, Thibault.
It is ordained and enacted by a
By-law of this Council and the said
Council hereby ordains and enacts
as follows to wit:

1. Clause 1. of By-law No. 366,
authorized and passed on the 12th
of December, 1919, as amended by
By-law No. 366, passed on the 23rd
of January, 1920, as amended by
By-law No. 366, passed on the 15th
of January, 1921, as amended by
By-law No. 366, passed on the 28th
of October, 1921, as amended by
By-law No. 366, passed on the 25th
of November, 1921, as amended by
By-law No. 366, passed on the 13th
of January, 1922, is cancelled and
replaced by the following:

Clause 1. of the By-law hereby
empowers the City Engineer to re-
move the snow and ice on St. John
street up to the city limits, as they
stood before the annexation of
Montrealville; on Buade and
D'Aiguillon streets; on that portion
of Palace Hill, between St. John
street and Rampeau street; on that
portion of Glacis street, between
St. John street and D'Aiguillon
street; on that portion of D'Aiguillon
street, between Glacis street and
St. Eustache street; on St. Eustache
street, between St. John and
D'Aiguillon street; on Mountain
Hill street, between Du Port street
and Dalhousie street; on Cote d'Abraham
Hill and that portion of St.
Valter street, between Crown street
and Cote d'Abraham Hill; on the
following streets: Candiac, Du-
mont, St. Laurent, Cremaz, Lock-
well, Aberdeen, Saunders, Jean
of the city, on Park Avenue, Hol-
land, Monkton, Bougainville, Mur-
ray, Marquette, Calixa, Lavallee,
Marguerite, Bourgeois, St. Louis
Road, Joffre, Belvidere, Bell's Hill,
Fennell, St. Charles, St. Louis-
maque, Cartier, and on all the
other streets of Montreal Ward
north of the line mentioned; on De
Salaberry Avenue between St. John
street and Grande Allee; on Gar-
den street, between Buade and St.
Ann streets; on St. Ann street,
between Dalhousie street and St.
Augustin street, between D'Aiguillon
street and St. John street; on St.
John street, between St. Louis
and Grande Allee, up to St. Louis
avenue; on D'Aiguillon street, between
St. Eustache and St. Mary streets;
on Cote d'Abraham street, between
St. Paul street and St. Louis street;
on St. Peter street, between St. Paul
and Champlain Market; on St.
Joseph street, between St. Roch
and St. Valter streets; on D'Au-
tault street, between Dauphine and
Glacis streets; on St. Ann street,
between Du Port and D'Auteuil
streets; on Place d'Armes between
St. Ann and St. Louis streets; on
Du Port street, between Buade and
St. Ann streets; on Garneau street,
between St. John and St. Famille
streets; on First Avenue, between
Drogn Bridge up to Lamontagne
street; on St. Valter street, be-
tween St. Roch street and Parent
Square; on St. Nicholas, Ancien
Chantier and Lachois streets; on
Pine Avenue, Cedar Avenue, and
Birch Avenue; on the land lots of
the Quebec Land Annex; on the
First Avenue, between Lamontagne
Avenue and the Crossing of the
C.N.R.; on Hamilton Avenue, Ber-
thiaume Avenue, Laurier Avenue,
between the lots of the Female Or-
phan Asylum and Briand Avenue;

QUEBEC, THURSDAY, JANUARY 18, 1923.

BOTH PARTIES IN FULL ACTION**Most Of Political Conventions Will Be Ended This Week—Many Candidates**

Montreal, Jan. 17.—A Montreal Gazette writer says:—Next week will see most of the political conventions of both parties over, and the heavy artillery of both parties in full action. Walter Mitchell, M.P. for St. Antoine will enter the fray for his former colleagues of the Quebec Government by speaking at the Liberal convention in Missisquoi to be held at Bedford Monday afternoon. It is expected also that Mr. Mitchell will make several speeches in Montreal, one of them in company with Premier Taschereau and Sir Lomer Gouin. Beyond the fact that the Premier is to speak at Quebec tomorrow evening nothing has been forthcoming as to his plans but it is taken for granted in local Liberal circles that he will be well under way next week and speak in Montreal.

Mr. Sauve made a flying visit to his home at St. Bonoit today and returned to Montreal to-night, to continue his organization work.

Hon. E. L. Patenaude returned to-night from the Eastern Townships where he has been busily engaged in aiding the Conservative organization. The Conservative plans provide for a convention for Laurier division here, to be held Friday evening. Three other Conservative conventions will be held in Montreal district Friday. The Nicolet gathering will be at 2 p. m. at Becancour, at Knowlton for the County of Brome at 1 p. m. and at Rigaud for the County of Veaudreuil Friday morning. The Liberals have arranged for a convention to be held Saturday at Mount Laurier for the newly created division of Labelle.

The County of Labelle was divided into two sections last session, the Northern portion retaining the name of Labelle, and the Southern portion the name of Papineau. The convention in Papineau will be held by the Liberals at Papineauville at 2 p. m., next Monday and the convention in Bagot will be held at St. Leger the same afternoon. There is a new contender for the Liberal candidature in the new city division of Mercier in the person of Emile Massicotte, notary. Mr. Massicotte has had a good deal to do with Liberal organization work in Montreal and district.

In St. James Division where the fight is expected to be warm, the Conservatives will select a candidate at a convention to-morrow evening. It will be held at the Cartier-Macdonald Club, 279 East Ontario Street. Dr. Beaudoin is mentioned prominently as the candidate against Irene Vautrin.

6 Candidates for 1 Division

As the election campaign advances the tangled skeins in some of the districts seem to show some signs of unravelling, while in others the confusion becomes greater. At a recent meeting of the Perron Club it was found that six suitable Liberal candidates were ready to take the field for the new Mercier Division. The six prospective Liberal candidates are E. Depocas, Wilfrid Pilon, Alderman Samuël, L. C. Farley, G. A. Lapointe and Charles-Edmond Rodier. Alderman Vandaele was also a possible candidate, but he has definitely withdrawn.

On the opposite side, a couple of new names have come forward as likely candidates in the Conservative interests. One is N. U. Lacasse, a former partner of George Cousineau, who once led the Opposition. The other is A. Julien, a lawyer and resident of Mercier Ward, particularly prominent in philanthropy circles and head of the St. Vincent de Paul Society.

Alderman O'Connell is finally counted out in St. Ann's Division. A deputation asked him yesterday to run in the Conservative interests, but he declined the honor. This leaves the field clear for ex-Alderman Monahan from the Conservative side.

It is very probable that Alderman Quintal will run in St. Mary's Division as a straight Independent in Opposition to Joseph Joseph Gauthier, Labor, who will likely have the support of the Liberals, and Ed. Masson, standing in the Conservative interests.

The Liberal convention in Yamaska will be held on January 23, Missisquoi, 25, Stanstead, 23. A Liberal rally will be held in Berthier on the 23rd.

The Opposition convention for Laurier will be held on Friday, at 2140 St. Lawrence Boulevard. The Conservative convention for Nicolet will be held at Becancour on Friday for Veaudreuil at Rigaud, to-morrow. The Laprairie-Naperville and Yamaska convention will be held today.

Hector Perrier denies the rumor as to his withdrawal of candidature

REACH DEADLOCK ON BRITISH DEBT**No Further Progress Can Be Made Until Commissioners Consult Government**

Washington, Jan. 17.—The British and American debt commission have reached a point in their negotiations where it virtually agreed no further progress can be made until the British commissioners have returned to London and conferred with their Government.

The two commissions will hold another joint meeting to-morrow, but it is expected to constitute only a leave-taking preparatory to the departure of the British from Washington. They will sail from New York Saturday and any attempt to establish even a tentative agreement as to terms of settlement of the British war debt is expected to be delayed for several weeks.

Despite the exchanges which have taken place since the arrival of the British group, it was indicated to-day in authoritative quarters that no results had been produced of a character positive enough to warrant concrete recommendations to Congress for amendment of the funding law.

The British representatives are understood to have suggested in a tentative way that the terms of settlement be based on a fixed minimum for annual payments which would include both interest and principal, and which need not represent to total Great Britain would pay in any given year if she found it possible to exceed the minimum figure.

Coupled with this was a suggestion that the time limit and interest rate fixed by the present law be readjusted. The United States commission is declared not to have made any definite agreement to any of those proposals, however, and the British representatives are understood to have suggested in a tentative way that the terms of settlement be based on a fixed minimum for annual payments which would include both interest and principal, and which need not represent to total Great Britain would pay in any given year if she found it possible to exceed the minimum figure.

Among other things the British officials and Parliament are said to find it difficult to understand why the United States representatives are reluctant to consent to a low interest rate, in view of the fact that the Bank of England now is loaning money at home at three percent.

Saturday has been the date allotted by the British commission for its return to London, but until today it had been hoped that the period spent here might be sufficient to put an agreement into at least tentative form. It has been suggested, however, that it may be possible to so advance the discussion of the British Embassy will be able to complete any agreement eventually found possible, making it unnecessary for another commission to come to the United States.

No Rupture in Negotiations.

London, Jan. 17.—It was emphatically stated in official quarters today that there has been no rupture in the negotiations at Washington regarding the funding of the British war debt to the United States, the conversations being, it was declared, merely suspended.

GAS SERVICE ON LATOURELLE STREET

Ald. Bedard and Ald. Delagrave, of St. John's Ward, were notified by the Q. R. L. H. & P. Co., yesterday that next spring the gas service will be installed in Latourielle street. This has been asked for many years, but the former directors of the company refused on the grounds that it would be too costly to cut trenches into the solid rock for the laying of the gas pipes.

SLAYER SENTENCED

Mount Holly, N.J., Jan. 17.—Charles M. Powell confessed slayer of "Honest" John T. Brunen, circus owner, was today sentenced to not less than twenty nor more than thirty years in the New Jersey State prison at Trenton.

from Laurier. Asked today if it were true that he was to withdraw and leave the Liberal field clear, for the present member Dr. Poulin, he declared that he had no such intention.

Alderman Savard who has from time to time been mentioned as a probable candidate for the much disputed Mercier Division, has accepted the appointment as returning officer there and will not therefore be a candidate.

An opponent for Arthur Sauve will be selected at the Two Mountains Liberal convention to be held at Ste. Scholastique to-morrow.

The Conservative convention for St. James Division will be held to-morrow, when it is practically certain that Dr. Beaudoin will be the choice.

Savoie Nicolet Choice

Three Rivers, Que., Jan. 17.—J. A. Savoie was chosen as candidate in Nicolet County by a Liberal convention held at Becancour this afternoon.

A Conservative convention at St. Francois du Lac this afternoon chose Joseph Desrochers, notary, of St. Guillaume as candidate for the Yamaska Division.

Perrault In Abitibi

(Special to The Chronicle.)

Amos, Que., Jan. 17.—At a very enthusiastic meeting held here today at which a large number of delegates from every parish in the county was present, the Hon. J. E. Perrault was unanimously chosen as the Liberal candidate for the County of Abitibi at the coming Provincial elections.

ORGANIZERS IN BOTH CAMPS ARE VERY CONFIDENT**Hon. P. Paradis Is Spoiling For A Fight With A Worthy Opponent****CHIP ON HIS SHOULDER****"No Liberal Acclamations, Not Even Magdalen Islands," Says Chas. Dorion**

There is strong expression of confidence by the leaders of the political camps as to the outcome of the electoral campaign.

Hon. P. Paradis, the Liberal organizer claims he is spoiling for a fight but can't get anyone to fight with. In other words he has a chip on his shoulder, but who will dare to knock it off.

Charles N. Dorion, the Conservative organizer, confined himself to saying that everything was going well, but added that the Liberals would not get a single seat by acclamation, not even Magdalen Islands.

Hon. P. J. Paradis, chief Liberal organizer, stated here last night that the Liberal convention in the new county of Matapedia will be held to-morrow while the convention in Bonaventure will take place on Saturday. Hon. J. E. Caron, Minister of Agriculture, will attend both conventions.

Mr. Paradis said that with these two conventions all the Liberal candidates will have been chosen in the District of Quebec. He said that in general the members representing the divisions in the last Legislature are accepted without a convention but wherever it has been the custom to hold a convention the Liberals do so. Such was the case in Bonaventure County, he said.

Commenting upon the outlook, Mr. Paradis said:—"The prospects are bright everywhere. I may say that in Montreal they are just as bright as they are here. What we Liberals want is a fight. We have a chip on our shoulder, but there is nobody to knock it off."

Charles N. Dorion, Conservative organizer in the District of Quebec, announced last night that Boniface Belanger had been chosen Conservative candidate in L'Islet County. Mr. Belanger is Mayor of St. Jean de Port Joli.

He announced the following Conservative conventions for this week: Chicoutimi, on Thursday; Dorchester on Thursday; Temiscouata on Thursday; Montmorency on Friday; Portneuf on Saturday.

He also said that he had just received word that Remi Bolduc, lawyer of St. George Beauce, had been chosen Conservative candidate in Beauce.

Giving his views on the political situation, Mr. Dorion said:—"Everything is going well. There will be Conservative candidates in every constituency and by Tuesday of next week all our men will have been chosen. There will be no Liberal acclamations, not even in Magdalen Islands."

LA TUQUE PLAYS HERE TOMORROW**Team From North Country Will Cross Sticks With Sons Of Ireland**

The second half of the Provincial Hockey League schedule will be inaugurated tomorrow at the Arena when the celebrated La Tuque outfit invades the city to endeavor to take a fall out of Sons of Ireland, champions of the first half.

The boys from the North country are coming more determined than ever to send the locals to the dressing room at the end of the third period with the small end of the score. Their desire may be accomplished and then again it may place for it is simply a toss up as to which team will emerge victorious.

The struggle for the second half honors will from all appearances be the hardest fight for a championship in many leagues throughout the Dominion. There is little to choose between either of the three teams that are now in the circuit so that every game played whether in this city or away in Chicoutimi or La Tuque will be a closely contested one.

Sons of Ireland will have the same team on the ice as during their first games of the season. Hammy Laroche, who has been confined to his bed through illness for over two weeks, has completely recovered and will very likely be back at his old position at left wing. The return to the game of Laroche will make the locals stronger than in the last few games for it will permit the regulars to be relieved often.

The La Tuque outfit is determined to capture the second half title and will put their strongest line-up on the ice in an effort to commence the schedule with a victory. The Sons and La Tuque teams are very evenly balanced so that a closely contested game can be depended upon tomorrow night.

ARCHITECTS ARE NOW OBJECTING**Take Exception To Manner In Which Were Treated Re Exhibition Building**

A letter was received at the City Hall last night from the Quebec section of the Association of Architects of the Province of Quebec protesting against the manner in which they were treated with regard to the industrial building at the Exhibition Grounds, the specifications for which were drawn up by O. H. Cote, former Industrial Commissioner of the Board of Trade.

The letter, which is addressed to the Mayor and Aldermen, is signed by J. E. Bergeron, Secretary of the Association, reads as follows:

"The architects of the Province of Quebec (Quebec section) wish to call your attention to and to protest against the manner in which they were treated relative to the construction of the Industrial Building at the Exhibition Grounds."

"It is the duty of public bodies to set the example as regards the observance of the laws. It is regrettable, however, to note how the Exhibition Commission acted in the face of the Provincial laws concerning architects. Trusting gentlemen, that these facts were not to your knowledge that you will give us justice; we remain, etc."

On hearing the letter read the Committee decided to write to Mr. Bergeron to find out in what way the Exhibition Commission had transgressed the Provincial laws concerning architects.

The Committee received an offer from Albert Tremblay, C.E., and Ed. Hamel, C.E., Assistant City Engineer, offering to draw up a detailed plan of the city, including all the underground surface works from Silery Point to Beauport and also to make a new survey of the entire city.

They are asking a sum of \$20,000 for the work and also want a sum of \$5,000 on account for preliminary work done.

Chairman Martin said that such a plan would be a very valuable thing for Quebec.

Mayor Samson held a like view, but Ald. Paradis (St. Sauveur) expressed surprise that one of the engineers in question was an employee of the city and yet it was held that the city had to seek outside help and advice on almost every important thing.

Mayor Samson—"It is not surprising that we have to go outside."

Ald. Paradis (St. Sauveur)—"I do not think that you have to go outside."

Ald. Tremblay—"Give us proof that you have to go outside."

Ald. Collier held that it would be a good thing if it was decided to have such a plan to also include in it the purchase of St. Foy and Beauport for which one had noted the expansion of the city within the past twenty years, it was just as well to look to the future. He was not prepared to say what was a just remuneration for the preparation of such plans. At his suggestion it was decided to have Messrs. Tremblay and Hamel appear before the Committee and explain what they proposed to do.

Ald. Bedard thought that it would be a good time to think of forming an embellishment committee.

A petition was received from the residents of Ste. Famille street urging that the city place ornamental poles on Ste. Famille street. Dr. Thibaudeau supported the petition and pointed out how important it was that the street leading to the entrance to the University should be properly lighted. On motion of Ald. Collier it was decided to ask the City Engineer to prepare an estimate of the cost of the work. The idea is to have single lights such as used in the Battlefields Park.

A letter was received from the Quebec Railway Company suggesting that Ste. Genevieve Avenue be continued to D'Auteuil street so as to relieve the congestion on St. Louis street. The question was left over for further study.

An offer of a poutoon for the sum of \$15,500 was received and was referred to the Finance Committee.

MR. ALEX FACKNEY LAID TO REST.

A splendid tribute of respect was paid to the memory of the late Mr. Alexander Fackney, contractor, when his funeral was held yesterday morning from his late residence, Aberdeen Street, to St. Patrick's Church, Chatham Street. Delegates of the different organizations to which deceased belonged also attended in large numbers.

At the church the levee du corps was made by Rev. Father Connolly, C.S.S.R., Rector of the Parish, assisted by Rev. Fathers O'Hara and Koester as deacon and eub-deacon. The sacred edifice was deeply draped in mourning for the occasion, and musical portion of the service was most impressive. Mr. Richard Timmons rendered "Pie Jesu" fittingly. A full choir was present.

The chief mourners were M. Paul Fackney, son of deceased; son-in-law Mr. J. J. Breen; brother-in-law Mr. Wm. Stewart of St. Catherine's, Port., nephews, Mr. R. P. Smallhorn of Montreal, Mr. Fred McCormack, Mr. Arnold Maher, Mr. Edward Payne and Mr. Jos. Gale also of Quebec.

The remains were conveyed to St. Patrick's Cemetery, where the prayers were recited by Rev. Father McCormack, C.S.S.R.

DAMAGE CAUSED BY ROCK BLAST**Glass Shattered In Houses On Abraham Hill And Roofs Damaged**

A rock blast on Abraham Hill where operations are going on to widen that thoroughfare caused heavy damages to the buildings on the hill yesterday afternoon and it seems almost miraculous that there were not many casualties to report as a result.

It is not known whether the accident was due to a too heavy charge of dynamite or whether the rock was of a softer nature than was expected, but when the explosive worked huge pieces of stone were projected into the air and crashed through the roofs of buildings, while some of them were hurled so far that they fell into St. Valier street.

Small fragments of stone flew in all directions breaking the glass in all the doors and windows for a radius of nearly 100 feet on either side of the explosion.

The damage has been variously estimated. Some maintain that it will be in the vicinity of \$1,000 but others hold that it will far exceed that amount and one proprietor alone held that he had suffered about \$4,000 damages.

The question was brought up at a meeting of the Public Works Committee last night when Ald. Delagrave inquired about the accident and said the system of doing this kind of work was being looked after by the City, but later he said it had been let out by contract without consulting the aldermen.

Chairman Martin said that the contractor was P. Rousseau, who was responsible for any damage which had been caused.

Ald. Paradis said that if tenders had been called the responsibility would have been fixed more definitely and the cost of the work would have been determined better.

Ald. Martin said that the case had been an urgent one and that he had taken the action in question after consulting the Mayor and the City Engineer as well as consulting the aldermen by telephone.

Ald. Drolet held that tenders should be called.

Chairman Martin—"am ready and will spend work tomorrow morning. The only thing is that the unemployed will suffer."

Mayor Samson said that he would not break his head any longer to find work for the unemployed. He would let the aldermen look after things themselves and they would get all the details they wanted. All he would do would be to sign the cheques. There were some who were always ready to criticize but they did not come to the City Hall to help.

Ald. (Dr.) Paradis—"You do not invite me, Mr. Mayor. We learn in the press what is going on at the City Hall."

Ald. Delagrave said that the aldermen had not come to the City Hall to get down all fours and never to seek details or take exception to anything. They had their share of responsibility at the City Hall and they wanted to be consulted. He said he was not criticizing the work done on Abraham Hill, because that had been approved by all the members of the Council. What he took exception to was the change of system whereby it had been given out by contract without consulting the aldermen.

"You seem to say, Mr. Mayor, that we do not help you, but there was no one who received the support that you have received since 1920."

The incident closed here. ago.

**Try these Bakers' Raisin Pies —save baking at home**

THERE are luscious raisin pies just around the corner, at your grocer's or a bake shop.

Baked to a turn—a flaky crust filled with tender, tempting raisins, the rich filling forming a delicious sauce.

Once try these pies that master bakers bake fresh daily in your city and you'll never take the trouble afterwards to make raisin pies at home.

Get a pie now and let your men folks taste it. Made with tender, thin-skinned, seeded Sun-Maid Raisins. Raisins furnish 1560 calories

of energizing nutriment per pound in practically predigested form.

Also a fine content of food-iron—good food for the blood.

Use raisins frequently, therefore, which are both good and good for you, in puddings, cakes, cookies, etc.

You may be offered other brands that you know less well than Sun-Maids, but the kind you want is the kind you know is good. Insist, therefore, on Sun-Maid brand. They cost no more than ordinary raisins.

Mail coupon for free book of tested Sun-Maid recipes. Learn what you can do with luscious raisins.

50 DOLLARS FOR MILLION MARKS**Extreme Low Record Of .005 Cents Registered In New York Yesterday**

New York, Jan. 17.—It took just \$50 in United States money today to become a millionaire in German marks. Theoretically the American dollar could buy 20,000 marks in the foreign exchange market but practically little or no business was transacted in less than million share lots. At pre-war prices 20,000 German marks would have been worth \$4,760.

Today's quotation for the mark, which was technically given as .005 cents, represents an extreme low record. The pre-war price of the mark was 23.8 cents each. Local bankers report that little new German commercial business is being transacted in marks, German exporting and importing firms having adopted foreign currencies as a medium of exchange months ago.

LAVIOLETTE 10 MOUNT ROYAL 1**Three Rivers Team Scored An Easy Victory In Province Of Quebec League**

Three Rivers, Que., Jan. 17.—Laviolette of Three Rivers defeated Mount Royals in a Province of Quebec Hockey League fixture here to-night by the score of 10 to 1. Every Laviolette player scored a goal.

INQUEST HELD AT STE. ANNE DE BEAUPRE

An inquest was held yesterday morning over the body of a man found dead in Poulin's Hotel at St. Anne de Beaupre on Tuesday, and the verdict was heart failure.

A receipt for a license as a razor and knife and scissor grinder was found in the man's clothes, made out to E. Courchesne, 199 St. Louis street, Montreal, so it was presumed that the man's name was Courchesne.

HARBOR COMMISSIONERS

VISITING NEW YORK

Mr. W. Gerard Power, President of the Harbor Commission, accompanied by Brig.-General Tremblay, Commissioner and General Manager, has gone to New York to confer with brokers and shippers of grain in the American metropolis, in connection with the shipment of grain through this port's elevators during the next summer season of navigation. The New York brokers and shippers who will be called on by President Power and Brig.-General Tremblay, have already been approached on the matter, and it is expected that the Harbor Commission grain elevators will be kept busy next summer. On their return to Canada, President Power and Brig.-General Tremblay will stop over at Montreal to confer with grain shippers and brokers in that port in regard to the same question.

WEEKLY ROTARY CLUB LUNCHEON

Interesting Address On Tailoring Trade Delivered By Mr. J. A. Chicoine

President Frank S. Stocking presided over the weekly lunch meeting of the Rotary Club yesterday afternoon, which, as usual, was attended by about 70 percent of the members. The speaker of the day was Mr. J. A. Chicoine, merchant tailor, who gave a very interesting talk filled with humor on the tailoring trade, and the lot of those engaged in it from the time of their apprenticeship until they become journeymen and, later, experts. He discussed the life of the apprentice from his own experience when he started to learn the trade, when boys were paid \$1 per week and their board for the first year, and for the second year \$2 per week and board. He then described the life of a journeyman with all its responsibilities, and finally the troubles of a tailor when he went into business on his own initiative. The situation was then countered, the buying and choice of goods, and the difference in the trade of the past compared with the present day business, which required more care in all its departments, and the following of the fashions, as well as the different mentality of customers, and at the close of his remarks was greeted with applause for his very interesting address.

Montreal Convention. President Stocking referred to the convention to be held in Montreal by the 28th District of the Rotary Clubs on the 2nd and 3rd of March next, and the work being done by the Club's Committee in charge of local arrangements. Messrs. Geo. Donahue, Chairman, C. A. Langvin, T. H. Levesque, W. MacMillan, G. H. Henderson, Paul Hebert, P. W. Taylor, Paul Dionne and Jack J. Marnell, to make the Quebec attendance a success, and he hoped that every member would be able to attend the convention.

A motion was adopted declaring that the National Council of Education was not suitable for Rotary consideration.

President Stocking announced that the eighteenth anniversary of the foundation of Rotary would fall on February 23rd and that a programme was now being prepared to celebrate the event in conformity with the occasion. It is proposed to hold a banquet on the evening of that day at the Chateau Frontenac attended with a befitting programme. The members of the Club unanimously adopted a resolution of condolence with Rotarian W. MacMillan on the death of his respected father, and the Secretary of the Club was instructed to send a copy of the resolution to the family of deceased. It was also decided as a mark of sympathy to send a floral wreath to the home of the family.

VESTRY MEETING AT GRAND'MERE

St. Stephens Church Reports For Past Year Very Satisfactory

The annual vestry meeting of St. Stephen's Church, Grand'Mere, was held on Monday evening, the 15th.

The Rector, the Rev. W. H. Moorhead, M.A., presided, and there was a good attendance. Mr. Troy Bilco, the retiring People's Warden, presented the financial statement, which showed a balance on the right side after all indebtedness had been paid.

The Rector strongly emphasized the necessity for a new church building and a committee, composed of Messrs. F. A. Sabatton, Louis Armstrong, J. Wallace and Mrs. Chahoon, was appointed to take up the matter, and report to a special meeting of the vestry to be held on the second Monday in May.

On the motion of Mr. Geo. Chahoon the increase in the Budget was accepted by the Vestry.

The Rector read a letter from the Bishop asking each Rectory in his diocese to make a voluntary contribution towards the stipend of the Diocesan Missionary. The Bishop's request was unanimously accepted, and the People's Warden was authorized to tender a contribution.

The Rector, in reviewing the work of the parish, made special and enthusiastic reference to the splendid work Miss McCray, the choir director, has done in making the choir so very efficient. The services of Mr. Martin Smith, the organist, were deeply appreciated.

Mr. P. A. Sabatton was appointed Rector's Warden for the coming year, and Mr. J. Wallace was elected People's Warden.

Messrs. Ellwood Wilson and Louis Armstrong were elected delegates to the Synod.

The Rector was enthusiastic in his review of the work, and the possibilities of the future. The church organizations are in a healthy condition, and the Sunday School is flourishing, and the congregation is enthusiastic.

Special appreciation was expressed regarding the fine work that has been done for the church by Mr. Troy Bilco, the retiring People's Warden.

The meeting closed with prayer.

During 1922 construction contracts awarded in Quebec, according to MacLean Building Reports Limited, amounted to \$103,291,800 compared with \$61,337,500 in 1921; \$55,994,600 in 1920; \$55,277,300 in 1919 and \$23,641,700 in 1918. The Quebec figures for 1922 according to classifications or types are as follows:—

Type	No. of Projects	Value
Apartments	39	\$ 2,453,500
Churches	52	3,586,100
Factories	60	5,497,400
Public Garages	219	943,800
Hospitals	9	1,992,000
Hotels and Clubs	18	1,250,500
Office Build.	40	1,792,700
Public Build.	12	1,687,900
Residences	4,445	23,297,100
Schools	29	7,122,600
Stores	209	5,956,100
Theatres	2	64,000
Warehouses	42	1,030,900
Total Build.	5,241	\$ 56,583,700
Bridges	53	872,900
Dams & Wharves	23	2,146,400
Sewers & Water	34	1,061,500
Roads & Streets	144	8,658,000
Gen. Engineering	24	34,029,300
Total for Que.	5,519	\$10,291,800

CONSTRUCTION IN QUEBEC WAS MORE

Contracts Awarded During 1922 Totalled \$103,291,800

The following were elected to the Committee of Management, on the motion of the Rev. W. H. Stevens, seconded by Mr. A. Veasey: Messrs. G. Moir, H. Young, E. R. Lafache, W. Q. Stobo, R. Stanley, P. W. Marsh, W. Chodot, A. J. E. Mott, G. B. Ramsey, A. E. Pfeiffer, A. Veasey, W. M. Wiggs, A. W. Colley, W. G. J. Paxman, C. H. Thorne, R. P. Seale, J. Thompson.

Mr. A. Veasey was elected Auditor.

Bishop Farthing. His Lordship Bishop Farthing at the outset of his address said that he took a great and deep interest in the Bible Society. He congratulated the Quebec Auxiliary upon the work it had done under circumstances of peculiar difficulty, and praised the work accomplished by the Rev. A. J. McLennan, in His Lordship's Diocese, where he was always welcome to pursue his labors. They were all proud to support the British and Foreign Bible Society, which has met with such great success because it has concentrated upon one thing, that was providing the people of all nations with the Bible printed in their own language. It had accomplished a great deal in the past but it would accomplish more in the future. To provide the word of God to every one in their own tongue was a tremendous task for any Society, but the British and Foreign Bible Society was meeting with marvelous success in striving to do this. It has brought all its energies into the task, and today it is going stronger than ever. It has always its eye on the goal. Criticisms have been levelled at the Bible and have gone down to oblivion. The Bible Society says here is the Bible, read it, and if some of their critics read it, they would, perhaps, not have so much to say. The Society has nothing to do with the interpretation of the Bible, it's only duty being to put it to the British and Foreign Bible Society, which would then have the Bible printed in the language of the people for whom it was required, and it had to be written in such a manner that it was intelligible to those for whom it was intended to be read. He also explained the difficulties in preparing editions for those countries which had high class literature particularly in some parts of India, but no matter what the difficulties were the Bible Society had surmounted them. The Bible has been translated into the lands of every man in his own tongue. The Bible Society has nothing to do with the divisions of the sects, but says to all, "here is the Bible to read," and is always keeping that end in view and turns a deaf ear to all attacks upon it. The Lordship then dwelt upon the difficulties with which Missionaries have to contend in presenting the word of God to the natives of countries without a written language, and explained how they had to learn the language, put it into grammatical form, and send the result of their labors into 569 languages. Last year there were twelve translations into other languages, and during the past nine years it has been translated into one hundred languages. The work of translating the Bible was a necessary one, and he mentioned as evidence of this, that there was a tribe of Eskimos numbering 100, that spoke a different dialect to the rest, and in order to provide these people with the word of God, the Rev. Mr. and Mrs. Walton, who labored among them set to work to

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost every one knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago, the only way to this mixture was to make it at home, which was messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darken your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, glossy and attractive.

ACKNOWLEDGMENT.
The Governors of the Jeffery Hale's Hospital wish to acknowledge with grateful thanks the receipt of fifty dollars from the Quebec Ladies' Aid Association.

The sale of magazines and periodicals will be held in the Rooms of the Literary and Historical Society (Morrin College) on Thursday afternoon, the 18th day of January inst., at 5 P.M.

Jan 18/23

BIBLE SOCIETY ANNUAL MEETING

Address By Bishop Farthing—Society Had Successful Year

"The success which the British and Foreign Bible Society has met with was due to the fact that it had concentrated its efforts upon providing the people of all nations with the Bible printed in their own language," said Bishop Farthing, in addressing the Eighty-Seventh Annual Meeting of the Quebec Auxiliary Bible Society, held last evening in the Y.M.C.A. Hall, and presided over by Mr. G. B. Ramsey.

The meeting was one of the largest attended for some years and much interest was taken in the proceedings by those present.

The Rev. N. McLaren submitted the reports of the past year which were very satisfactory, showing a large increase in the distribution of the Bible and also in the finances. The reports were adopted on the motion of Mr. H. Young, seconded by the Rev. A. Delporte.

The Rev. A. T. Love proposed, seconded by Mr. Gordon Pfeiffer, "that the meeting express its deep appreciation for the generous help given by the Lady collectors."

The President, Mr. Ramsey expressed his appreciation, on behalf of the Society, at the support it had received from its friends. He mentioned that the increase in the distribution of bibles and portions of Scriptures had been 133 per cent since 1914. Cash sales increased in the same period 360 per cent and at depositaries 360 per cent. The total revenue had increased from \$1,573.00 to \$3,524.00, whilst the increase in expenses had been nominatively small. Some progress had been made in the matter of securing a Bible House for the Auxiliary. Mr. Ramsey concluded by asking for even greater support for the Society.

The Rev. G. A. McLennan, District Secretary then gave an interesting account of the work done during the year, and eulogized the work carried out by Miss Caron and her assistant at the Immigration Buildings.

It was moved by Rt. Rev. Bishop Williams, seconded by Rev. L. Abram, that "We as an Auxiliary Bible Society, express anew our hearty appreciation of the great and growing work of the Canadian Bible Society from the Atlantic to the Pacific, and we pledge ourselves to do our utmost to aid in this much needed work of Bible distribution."

"And be it further resolved: That we voice our gratitude to the Upper Canada Bible Society for their generous aid through the Canadian Society."

The following were elected to the Committee of Management, on the motion of the Rev. W. H. Stevens, seconded by Mr. A. Veasey: Messrs. G. Moir, H. Young, E. R. Lafache, W. Q. Stobo, R. Stanley, P. W. Marsh, W. Chodot, A. J. E. Mott, G. B. Ramsey, A. E. Pfeiffer, A. Veasey, W. M. Wiggs, A. W. Colley, W. G. J. Paxman, C. H. Thorne, R. P. Seale, J. Thompson.

Mr. A. Veasey was elected Auditor.

Bishop Farthing. His Lordship Bishop Farthing at the outset of his address said that he took a great and deep interest in the Bible Society. He congratulated the Quebec Auxiliary upon the work it had done under circumstances of peculiar difficulty, and praised the work accomplished by the Rev. A. J. McLennan, in His Lordship's Diocese, where he was always welcome to pursue his labors. They were all proud to support the British and Foreign Bible Society, which has met with such great success because it has concentrated upon one thing, that was providing the people of all nations with the Bible printed in their own language. It had accomplished a great deal in the past but it would accomplish more in the future. To provide the word of God to every one in their own tongue was a tremendous task for any Society, but the British and Foreign Bible Society was meeting with marvelous success in striving to do this. It has brought all its energies into the task, and today it is going stronger than ever. It has always its eye on the goal. Criticisms have been levelled at the Bible and have gone down to oblivion. The Bible Society says here is the Bible, read it, and if some of their critics read it, they would, perhaps, not have so much to say. The Society has nothing to do with the interpretation of the Bible, it's only duty being to put it to the British and Foreign Bible Society, which would then have the Bible printed in the language of the people for whom it was required, and it had to be written in such a manner that it was intelligible to those for whom it was intended to be read. He also explained the difficulties in preparing editions for those countries which had high class literature particularly in some parts of India, but no matter what the difficulties were the Bible Society had surmounted them. The Bible has been translated into the lands of every man in his own tongue. The Bible Society has nothing to do with the divisions of the sects, but says to all, "here is the Bible to read," and is always keeping that end in view and turns a deaf ear to all attacks upon it. The Lordship then dwelt upon the difficulties with which Missionaries have to contend in presenting the word of God to the natives of countries without a written language, and explained how they had to learn the language, put it into grammatical form, and send the result of their labors into 569 languages. Last year there were twelve translations into other languages, and during the past nine years it has been translated into one hundred languages. The work of translating the Bible was a necessary one, and he mentioned as evidence of this, that there was a tribe of Eskimos numbering 100, that spoke a different dialect to the rest, and in order to provide these people with the word of God, the Rev. Mr. and Mrs. Walton, who labored among them set to work to

translate the Gospel of St. John, and this had been printed and distributed amongst the members of the tribe. Bishop Farthing then referred to the method of publication. It was found by the Society that it was more satisfactory, wherever possible to have the printing done in the countries where it was intended to distribute copies of the Bible, such as Japan, China, India, etc.

In addition to the ordinary translations, the Bible Society had also translated the Bible into Braille for the use of the blind. This was a great thing especially for India where there are so many blind people. Then they had the bible printed on one side in English and on the other the languages of the people for whom it was published. The circulation was threefold: First, through the depositaries and the book trade; Second, through the Missionary Societies; Third, through the Calporters. The Bible Society has helped all branches of the Christian Church, and has at the request of the Greek Church sent bibles to be distributed amongst the Greek refugees. The Armenian Church has been almost wiped out by the Turkish Mahomedan Church. The Bible had proved a great comfort to the refugees in Eastern Europe in their trials and tribulations. His Lordship mentioned the fact that it was interesting to note that everyone of the 27,000 children who had been sent to Canada from the Barnardo Homes had been supplied by the Bible Society with a copy of the Scriptures, and it was also interesting to know that the percentage of failures amongst these young people had been very few. He also touched on the Society's work in the Universities, and how it presented each theological student with a copy of the Greek testament. Bishop Farthing then explained that the Society naturally worked at a financial loss. It sold the Scriptures for a small sum, and consequently there was a loss. This loss was however made up by subscriptions and Canada contributed an enormous sum of \$100,000. As an explanation of what the Society had to cope with in respect to languages His Lordship mentioned that the Bible Society set out to provide bibles in accordance with the change in the language made by Soviet Russia.

His Lordship concluded by making a strong appeal to the Christian communities to support the Bible Society. The Bible appeals to us, he said, as God's mind, and it is particularly dear to us because it contains the greatest witness of the Eternal Son of God. The problems confronting the world today can only be solved by the Christian Church's impressing upon the people obedience to Jesus Christ.

A vote of thanks to Bishop Farthing was proposed by the Rev. A. D. Matheson, seconded by Mr. J. Thompson.

The meeting closed with the pronouncement of the Benediction by Bishop Williams.

If you like dancing, come to the Apollo Dansant, St. John Street, this evening.

FIREMEN GIVEN A HARD FIGHT

Blaze In Domaine Lairet Badly Damaged Three Story House Last Evening

A double alarm, rung in from Box 424 at 9:25 last evening, called the firemen out to fight a stiff blaze in Domaine Lairet, where a house on 1st Avenue, near Avenue Lamontagne, was badly damaged by fire.

The outcome of the blaze is not certain, but when the firemen reached the scene of the conflagration, a few minutes after the alarm had been rung in, they had a formidable task to face, and a second alarm had been rung in with all possible speed.

The building affected last night is a three story affair of brick, of which the second and third stories are unoccupied, and the first floor divided into two stores, one occupied by a butcher named N. Matte, and the other at present being empty, although a grocer is to move in there in May next.

The firemen worked hard and after a couple of hours succeeded in getting the blaze under control. As stated above the origin of the conflagration is not yet determined, nor could an estimate of the damages be obtained from Mr. Bertrand, who owns the property, or a list of insurance carried.

Great Improvement in Canadian National Rys.

Fast Train Service QUEBEC-MONTREAL

The Canadian National Railways offer an exceptional train service between Quebec and Montreal. Hours of departure of both day and night trains, most suitable for the traveling public. "The Montreal" leaves Quebec Palais Station at 1:20 p.m. daily and arrives Montreal, (Bonaventure Stn.) at 6:20 p.m. "The Mount Royal" leaves Quebec at 11:45 p.m. daily and arrives Montreal at 6:55 a.m. "The Quebec" leaves Bonaventure Stn. at 4:45 p.m. and arrives Quebec at 9:45 p.m. daily. "The Citadel" leaves Bonaventure Stn. Montreal at 11:30 p.m. daily and arrives Quebec at 6:55 a.m. These trains operate over the Quebec Bridge and are furnished with the most modern equipment: parlor cars, cafe-parlor-cars, first and second class coaches on day trains and standard sleeping cars with drawing-rooms and compartments on night trains.

For further information on additional train services between Quebec and Montreal, for reservations, tickets, etc., apply to City Ticket Office, 10 St. Ann Street, Quebec, Tel. 530, or to any Agent of the Canadian National Railways.

La
CAISSE D'ECONOMIE
de Notre-Dame de Québec
1848-1923

Founded in 1848 under the auspices of the St. Vincent de Paul Society, La Caisse d'Economie de Notre-Dame de Québec will on the 21st of May next complete its 75th year.

A purely Quebec institution at the start—it has grown lusty and strong, but has remained purely QUEBEC.

Deposits of over eleven millions of dollars (\$11,000,000) are an eloquent tribute to a reputation for stability and service.

Established to promote thrift, La Caisse d'Economie invites deposits of 25c. and upwards.

Twelve well equipped offices scattered throughout Quebec and Lévis are at the service of depositors.

All are made welcome.

QUEBEC BEAT SHERBROOKE-LA TUQUE HERE FRIDAY

QUEBEC HOCKEY OUTFIT SCORED FIRST VICTORY OF SEASON AT EXPENSE OF SHERBROOKE TEAM

Locals Came Out With Long End Of 7-4 Score—Visitors Requisitioned Tony Demers To Guard Nets—Game Was A Listless Affair

The Quebec "Bulldogs" broke into the win column at the expense of the Sherbrooke representatives whom they defeated by a score of 7-4 in a scheduled Province of Quebec Hockey League fixture played at the Arena last night. The game which was scheduled to start at 8:30 o'clock was over an hour in starting owing to the failure of Sherbrooke to put a team on the ice. The visitors were without the services of Langia, H. O'Donnell, Moore and Workman, their regular goalkeeper. Workman came down with the team but was taken suddenly ill and was unable to put in an appearance at the rink. Antonio Demers, who guarded the nets for the Loyola sextette in the local City League, was requisitioned by the visitors to play in the goals while Manager Maguire of the visiting team donned a pair of skates and figured on the defence throughout the game.

The contest was by no means spectacular and from a mediocre brand of hockey it went to the listless stage. Neither team seemed to be able to get going in the least while both sextettes depended entirely on individual rushes to pierce their opponents' defence.

Quebec had the better of the play after the opening five minutes of the first period and just buzzed around the visitors goal. Demers in the nets for the visitors turned in a good game and turned away numerous shots that appeared labelled for sure goals. In the third period he pulled off some beautiful saves, blocking Morrison and Morris on a couple of occasions after they had eluded the defence.

Quebec was the first to score in the opening period. Morrison doing the trick after two and a half minutes of play on a pretty individual effort. The visitors evaded the count two minutes later when Trudeau took a pass from behind the net and flipped the disc behind Moag O'Connell put the visitors in the lead a minute later on a long shot from left wing that caromed into the net off Moag's arm. Morrison evened the count and before the period ended Chamallard put the locals in the lead with one of his famous long shots.

Four goals were scored in the second twenty minutes, of which three went to the locals. In this period the locals completely outplayed the visitors and the forwards seemed to experience little difficulty in breaking through the Sherbrooke defence, though in the majority of cases Demers took care of their shots.

Near the close of this period Charlebois was benched for throwing his stick in front of Wolfe who was skating in on the goalkeeper. The visitors claimed a goal for this infringement of the rules though it was not allowed.

Each team netted once in the final twenty. O'Donnell doing the trick for Sherbrooke while Chamallard tallied for Quebec. A crowd of about six hundred people witnessed the contest.

Morrison and Morris were the best for the locals while Demers and O'Donnell turned in the best performance for the visitors.

The teams and summary:

Quebec	Sherbrooke
Goal	Demers
Point	Point
McDonald	Barlow
Charlebois	C. Point
Kane	Maguire
Morris	Trudeau
Morrison	Wolfe
Morency	L. O'Connell
Derouin	Chevalier
Chamallard	Scott

HAMILTON OUT-PLAYED ST. PATS

Tigers Defeated "Saints" By 5-2 — Ill-Feeling Cropped Up At End

Toronto, Jan. 17—Outplaying St. Patricks here tonight in all departments, Hamilton defeated the Irish by 5 to 2. Ill-feeling cropped up towards the end.

Goalie Vernon Forbes played the most brilliant game of his career while at the other end of the rink John Ross Reach was below his usual form.

Immediately the game was over, Randall rushed at Bouchard, hitting him down with his fists and so injuring him that he had to be carried off the ice.

Line-up and summary:

15-YEAR-OLD BOY BEAT HAWAIIAN CHAMPION

Sydney, N.S.W., Jan. 17—Charlton, the 15-year-old boy swimmer, today defeated Harris, the Hawaiian champion, in the quarter mile New South Wales swimming championship. His time was 5 minutes, 2.25 seconds. Charlton recently made the half-mile in 11 minutes, 3.5 seconds.

HOCKEY PLAYER HURT WHILE WATCHING GAME

Welland, Ont., Jan. 17—Allen German, well-known hockey player and son of W. M. German, M.P., was injured last night when watching the intermediate game between Port Colborne and Welland. He was leaning over the boards when one of the players fell, his skate making a deep gash under German's right eye.

FRANCHISE GRANTED

New York, Jan. 17—Granting of a franchise in the new Atlantic League to Bethlehem, Pa., was sanctioned today by 3-0 vote. The franchise was granted to the Atlantic and International Leagues.

CHALLENGERS FAIL TO WIN SHIELD

Challenge Shield Retained By Stocking's Rink After Exciting Game Last Evening

Three contests were run off last evening on the ice of the Quebec Curling Club, one of them being in the Mixed Doubles competition, the second in the Senior Singles and the third in the Challenge Shield series of games.

In all three matches the curling was of the keenest variety and the games were most closely contested.

S. G. Newton defeated A. P. Doddridge in the Senior Singles by one shot, the score being 8-7, while in the Mixed Doubles R. C. Cream and A. L. Jolicoeur came through with a win over R. Langlais and A. L. McWilliam by 13-10.

The Challenge Shield match saw the defenders of the former McManamy Shield defeat the challengers, skipped by H. Blair, by four shots, in a very closely contested game.

JEWTRAW MADE A CLEAN SWEEP

Captured Both Races In Adirondack Gold Cup Skating Contests

Plattsburgh, N.Y., Jan. 17—Charles Jewtraw, of Lake Placid, made a clean sweep in the Adirondack gold cup skating championship races here today, winning both the 220-yard and three-quarter mile events of the opening program. Jewtraw equaled the world's eight-lap track record in both the semifinal and final heats of the 220-yard event and in the three-quarter mile race came within one-fifth of a second of equalling the world's record of 2:02 4.5 which he set last week at Johnson City.

Richard Donovan and Edward Corcoran, both of Johnson City, finished second and third respectively, in the 3/4-mile, while Alf. Nusher of Johnson City was second and Emery Stephenson of Toronto was third in the 220-yard event. Jewtraw leads in points scored with 60, Nusher and Donovan are tied for second with 20 each and Stephenson and Corcoran are third with ten each.

The summaries:

Three-quarter Mile Race—Won by Jewtraw; Alfred Nusher, Johnson City, second; Emery Stephenson, Toronto, third. Time, 19 seconds.

C.N.R. HOCKEY GAMES TONIGHT

Inter-Dept. Matches Scheduled At Garrison Rink—Title At Stake

In the C.N.R. Inter-Department Hockey League, two important games will be played at the Garrison Rink tonight. The first game will see the Operating Department cross sticks with the St. Malo team; the latter team is at present leading the League. The second game will be between the Parent Square Freight Department and the C. N. Express. These two teams are pretty evenly matched and keen interest is also being taken by the supporters of these two clubs.

Great interest is being taken in tonight's games as they will have an important bearing on the championship. A record crowd is expected to be present.

The games will be handled by Dave Power who so ably handled the previous games during this season.

The teams and line-up will be practically the same as in the previous matches, with a few exceptions.

JOHNSON SIGNS MORE UMPIRES

Clarence Rowland And Emmett Ormsby New Arbiters or American League

Chicago, Jan. 17—The shake-up in the staff of umpires of the American League became more pronounced today when it became known that President Johnson had signed Emmett Ormsby as an arbiter for the 1923 season. Recently Johnson announced that Clarence Rowland, former manager of the Chicago White Sox had been signed as an umpire.

Ormsby has been an umpire in the Western League for the past two years and began his baseball career as semi-professional pitcher in Chicago.

President Johnson has definitely announced that Ollie Chill has been dropped and it is understood that Ed. Walsh and Bill Guthrie will not be back in the official family.

The puck will be faced by Mr. W. J. Atkinson, the popular Superintendent of the St. Maurice Division, Canadian National Railways.

The first game is scheduled to start at 8:00 p.m. sharp.

BANFF WILL HAVE WINTER CARNIVAL

Set To Open February 24th And Will Last Through To March 5th

(Special to The Chronicle)

Banff, Alta., Jan. 17—This pretty little town nesting in the Rockies has definitely decided to hold a winter carnival this year as in years past. It has been set to open February 24th, and will last through to March 5th. There will be the usual sporting events for which Banff is already famous. Champion ski jumpers will compete and snowshoeing and skating as well as tobogganing will be more or less general. For most of these sports the mountain slopes surrounding Banff offer the greatest possible facilities. An unusual feature, however, will be the dog Derby, which will be run off on March 3. Some big prizes are hung up for this event, the first prize being \$2,500. Already seven of the teams that will race in the Le Pas to Winnipeg event have entered for the Banff event. The Banff course will be laid out so that the event can be watched from start to finish, and there will be many races, besides the big feature. A contest between

Sporting Notes.

No definite news could be obtained up to midnight last evening regarding the proposed Ottawa-Canadian game here Sunday or Monday. Some word will in all likelihood be known this morning.

Charlebois, the new defence player secured by the Quebec hockey team made a good impression with local fans last evening in the game with Sherbrooke. He is a fast skater and a good stickhandler and fits in nicely with McDonald.

YANKS SIGN PLAYERS.

New York, January 17—The New York Yankees today announced they had signed Corporal George Anderson, an army infield star and Fred S. Pates, of Westboro, Mass. former Brown University pitcher who twirled last season in Boston semi-professional ranks.

FORMER YALE CATCHER SIGNS WITH GIANTS

New Haven, Conn., Jan. 17—James Kernan, of Rome, N.Y., former Yale catcher has signed a contract with the New York Giants for next season. Kernan played with Reading in the International League last season.

police dogs will be another feature of the carnival. The carnival was made possible by contribution from local business men, headed by Lawrence Trimble, of the Trimble-Murfin Production Co., who are making a series of moving picture productions in the vicinity.

DELLA UNKO TOOK FEATURE EVENT

Upset Dope In Capturing Main Race Of Ice Harness Racing Card

Mount Clemens, Mich., Jan. 17—Della Unko upset the dope today and won the feature of the ice harness racing card in which there were nine starters, in straight heats. It was the 2:15 pace. The winner set the best time 2:14 1/4 in the first heat. Blend J. was a close second in the first two heats, a loose tire placing him third in the final.

Ella R. Knight took the 2:24 trot in straight heats, the best time being 2:16 1/4; Worthy Reo was second in each heat.

The H. and B., piloted by Morrison, was a contender in the first heat but fell on the third turn, the driver sliding clear of the track.

Peter Johnson, the popular choice came through in each heat of the 2:20 trot, his best time being 2:24 1/4.

More than 2,000 attended and near-zero temperature brought perfect ice conditions.

More than two-thirds of the rubber produced in the world is being manufactured into automobile tires of various kinds.

BIG POST INVENTORY SALE

LARGE OPERATORS ADOPTED HESITANT ATTITUDE

PRICE CHANGES IN YESTERDAY'S RELATIVELY DULL MARKET WERE GENERALLY SMALL AT NEW YORK

Public Manifested Little Interest In Course Of Quoted Values—Rather Large Volume Of Overnight Selling Orders Gave Weak Tone At Opening

New York, Jan. 17.—Price changes in today's relatively dull stock market were generally small, large operators adopting a hesitant attitude pending further developments in the European situation and the public manifesting little interest in the course of quoted values. Inability or unwillingness to make margin calls caused a rather large volume of overnight selling orders which gave the market a weak tone at the opening, the decline running from small fractions to two points. The stubborn resistance offered by some of the leaders caused a brief rally but the comparatively large volume of stocks offered at the higher levels, discouraged buyers and caused prices to sag again. The midday period was dull with some seemingly afraid of a further decline in prices for fear that constructive departments abroad would find them caught short of too many stocks and with operators for the advance disinclined to bid up prices on the possibility of further trouble in the Ruhr valley would be likely to bring about a large volume of outside selling and another sharp reaction.

Speculative traders who bought special stocks on the theory that domestic conditions warranted an appreciation in values regardless of developments in the foreign situation, finally broke the apparent deadlock, extensive short covering accelerating the brisk advance that took place in the last hour.

Baldwin, Studebaker and California Petroleum were again the most active shares on the list. Industrials were the first to rally as they were the first to decline, the average of twenty leaders showing a slight increase over yesterday. Italy was largely neglected in the early selling but they succumbed to the second reaction and were slow in coming back.

Packard Motors indulged in sudden burst of activity, gaining 2 1/2 points on transactions exceeding 15,000 shares. Buying by new investors was the only reason that the speculative community could advance for the sudden rise in this issue, which sells around \$14 a share.

American Bosch Magneto, Dupont, Woolworth and Manat Sugar were conspicuous weak spots, all off 2 to 3 1/2 points. Two of the outstanding strong spots were Nash Motors and National Lead, up 3 1/2 and 3 1/4 points respectively.

Foreign exchanges were reactionally. Demand sterling got as low as \$4.64 1/2 but rallied at the close to 4.64 3/4, where it was about 1 1/2 cents on the day. French francs dropped 15 points to 6.65 cents and Italian lire were down 13 points to 4.76 3/4 cents. German marks dropped to another new low record, being quoted at .005 cents, or 20,000 marks to the United States dollar.

The day total sales were \$76,000,000. An extremely sharp break in French and Belgian bonds which carried a number of issues to their lowest levels in all time was the outstanding development in today's bond market, which was decidedly reactionary in tone. French 7 1/2s, dropped below 81, the previous joint established last November and the French municipals broke through their record lows of March 1921.

Soissons 6s, slumped 4 1/2 points and New low marks also were established by Serbian 8s, off 2 3/4; Bordeaux 6s, off 2 1/2; Lyons 5s, and Marseilles 6s, off 2 each and Paris-Lyons-Mediterranean 6s, began 7 1/2s and 8s and Czechoslovakian 8s, all down one to one and a half points.

A dozen other issues also registered losses of a point or more. British bonds yielding fractionally on reports that the British debt delegation would leave the country without reaching a definite agreement for the funding of the British war debt.

Weakness of sugar company bonds in sympathy with the reactionary trend of the raw sugar market was the feature of the industrial list, losses of one to two points being recorded by several issues. Books were opened and closed on the new \$100,000,000 Anacosta six percent issue and the bonds were quoted on the stock exchange at slightly above the issuing price.

United States government bonds were irregular, the Liberty 3 1/2s and the third and new 4 1/4s, showing net gains of 2 to 4 cents to \$100 and the second 4s, and first and fourth 4 1/4s, dropping 3 to 12 cents. The others were unchanged.

Total sales, par value, were \$12,745,000.

Closing Letters By Local Brokers

(By L. G. BEAUBIEN & Co.)

New York, Jan. 17.—The market has been steadier this afternoon and although advances have not been frequent yet in the last two hours of trading prices have about held their own and the pressure which was apparent yesterday and this morning appears to have been momentarily lifted.

The news from abroad is not important this afternoon and attention in the market was paid to the fact that the money rates again declined to 3 1/2 percent.

Some of the specialties in which pools have been operating came into prominence in the late trading today.

The Anacosta 7 percent Debenture will be offered for sale tomorrow at 100. They are convertible into common stock on a sliding scale from 53.

Republic Iron and Steel has resumed dividends on the preferred at the rate of 1 3/4 percent for the quarter.

Montreal, Que., Jan. 17.—Trading on the local market was again very quiet and uninteresting. Prices, where trading took place, this forenoon were a shade off from yesterday's closing prices but most early losses were recovered during the afternoon trading.

Abitibi Power was fairly active at 66 to 66 1/4; Bell Telephone registered quiet a number of transactions at from 115 1/2 to 116 but in most cases were odd lots of less than ten shares. Brazilian Traction after opening at 43 3/4 gradually declined to 42 3/4 and closed at 43 1/4.

Smelters, British Empire 2nd Preferred, and Breweries were only two sales. Quebec Railway was a shade better at 24. Howard Smith met some selling during the afternoon session at 75, off 1 1/4 from opening. Bank shares were strong but sales were scarce.

Victory bonds continue strong. 1923, 105.15; 1927, 107; 1934 102.60.

Daily Gossip On Leading Stocks

(Special to The Chronicle)

Mexican Pete produced 53,208, 616 barrels of oil on its Mexican properties in 1922, as compared with 29,467,706 barrels in 1921. It exported 39,408,530 barrels of the total, consisting of 34,693,687 barrels topped crude and the balance refined. Exports for 1922, showed a gain of 12,179,761 barrels over 1921.

Pynchon & Co. wire Craig, Luther & Irvine. The market will not continue to keep in this area for long. It is bound to break through one way or the other, and in view of the fact that there was real liquidation yesterday, we think that the market today will be called upon to actually show its underlying position.

If the market is as strong as it has seemed it will undoubtedly withstand the shock of further selling, but on the other hand, breaking through the old lows today would mean, in our opinion, the resumption of the reactionary movement, which could easily carry stocks back very near or even below the lows of last November.

General Motors rebounding from a 1921 deficit of more than \$38,500,000 to a 1922 profit of approximately \$67,000,000 is a shining example of flexibility of a large organization properly managed. Progress is expected to continue, and before end of 1923 the common appears certain to be returned to a regular dividend basis.

In connection with the trade position in South Africa, the Standard Bank has received a cablegram from their general managers intimating that during the month of December, the Union of South Africa, imported approximately \$3,956,000, and exported approximately \$3,787,000 Native Gold.

"In Wall Street, as elsewhere, the man who gets the business gets the big money and there is a dearth of business getters in the 'Street', with the exception of the look-out for high-priced men who can produce good business," says the current issue of Barron's Weekly. "There are a great many of such men in various houses already. For instance, one young man was taken into partnership in a certain house beginning this year, who has done from 20,000 to 30,000 shares weekly for the last 18 months. Another house has a bond salesman whose sales totalled \$12,000,000 in 1922. In one instance, a customer's man has but five clients, yet these brought on an average 15,000 shares weekly to the firm by whom he is employed."

A good many of the houses on the "Street" look for an upward movement in Public Utilities Stocks. The expected increase in Montreal Power's dividend, and the power developments in Shawinigan are expected to have the effect of bringing these stocks into prominence, with an advance in price.

It is interesting to note that Shawinigan stock is selling considerably below pre-war prices, and many think that this stock is due for a substantial advance in the near future.

There are quite a number of sound investment stocks on the board which would seem to be giving too high a yield, particularly in view of the possible reduction in money rates, which the advance in Victory and other Government bonds would seem to indicate.

SOMEWHAT STRONGER TONE WITH SLIGHT EXPANSION MARKED MONTREAL TRADING

Paper Trend Irregular With Losses And Gains About Equal—Brazilian Market Leader In Activity—Kaministiquia Strong Feature Of Day

Montreal, January 17.—A somewhat stronger tone with a further though slight expansion in volume marked trading in local shares on the local stock exchange today. The paper trend was irregular with losses and gains about equal. Brazilian was again market leader in activity and showed further fractional weakness being down 1-2 at 43 1-4.

Spanish Common came second and was up 1-4 at 94. Abitibi was third and was up 1-4 at 66 1-4.

Kaministiquia was the strong feature of the day, advancing ten points to the new high of 110. The greatest loss was of two points in two issues Howard Smith off a point to 101 and National Breweries off to 90.

Other changes in the paper group took in Howard Smith, off a point to 101; Brompton up 1-2; Laurentide up 1-2 to 93 1-2; Price Bros. off 1 to 44; Spanish pfd. unchanged at 102 1-2 and Waysamacy, off 1 to 58. In the traction, Quebec Railway was up 5-8 to 24 1-8.

Toronto railway advanced 3-4 to 84 3-4. Winnipeg Railway pfd. up two at 82.

Our price changes included Bell Telephone up 1-2; Canada Steamships up 1-4; and the pfd. off 1-2; Smelters up 1-2; Dominion Canners off 1 to 44; Spanish pfd. unchanged at 102 1-2 and Waysamacy, off 1 to 58. In the traction, Quebec Railway was up 5-8 to 24 1-8.

Toronto railway advanced 3-4 to 84 3-4. Winnipeg Railway pfd. up two at 82.

Our price changes included Bell Telephone up 1-2; Canada Steamships up 1-4; and the pfd. off 1-2; Smelters up 1-2; Dominion Canners off 1 to 44; Spanish pfd. unchanged at 102 1-2 and Waysamacy, off 1 to 58. In the traction, Quebec Railway was up 5-8 to 24 1-8.
