DAMASCUS NOW SURROUNDED BY BRITISH CAVALRY

IMPORTANT POINT ON BERLIN-BAGDAD RAILWAY IS CLOSELY INVESTED.

London, Oct. 1.—British forces marching north from Palestine have virtually surrounded the city of Damascus. They are established on the north, west and south of the city, it was officially announced today. The troops which have affected this movement are cavalry forces. Some 1,000 prisoners and five guns were taken from the enemy rear-guards. The text of the statement reads: "By the evening of Sept. 30 our cavalry had established themselves on the north, west and south of Damascus. From the enemy rear-guards which disputed the advance throughout the day 1,000 prisoners and five guns were taken."

KING ALBERT ANSWERS POINCARÉ

Paris, Oct. 1.—(Havas).—President Poincaré today received from King Albert of Belgium a telegram replying to congratulations sent by M. Poincaré on the success of the Belgians in the fighting against the Germans in Flanders. "The Belgians," said King Albert, "are very proud to contribute by every means to the triumph of the sacred cause of the Allies."

The Weather

Toronto, October 1.—The weather continues fair throughout the Dominion, with somewhat higher temperature in Ontario.

	Temperatures:	Min.	Max.
Victoria	...	80	86
Vancouver	...	80	86

GATEWAY IS OPEN TO MARSHAL FOCH FOR SWIFT ADVANCE EASTWARD IN TASK OF RECLAIMING NORTHERN FRANCE—GERMANY AND HER ALLIES CONTINUE TO PLAY LOSING GAMES ON EVERY BATTLEFRONT AND REPORT HAS IT TURKEY IS SENDING OUT "PEACE FEELERS"—IN FLANDERS, BELGIANS AND BRITISH HAVE DRIVEN SHARP WEDGE FURTHER EASTWARD FROM DIXMUDE TO ARMENTIERES.

New York, October 1 — The Associated Press issues tonight the following:—

The town of St. Quentin, upon which the Germans had so firmly built their hopes of proving an insuperable barrier to the Allies, at last has been entered by the French, and seemingly the gateway is open to Marshal Foch for a swift advance eastward in his task of reclaiming Northern France.

Meanwhile the Germans and their Allies on all the battlefronts have continued to play a losing game, and report has it that the Turks, realizing the critical situation through successive defeats and withdrawal of Bulgaria from the war are sending out "peace feelers."

From Northern Belgium to the region of Verdun the battlefront is still seething with activity on various fronts, and with the Entente forces continuing to make gains against the Germans which are seriously impeding the enemy lines.

In Flanders the Belgians and British in the region from Dixmude to Armentieres have further driven in their sharp wedge eastward, capturing important towns and cutting lines of communication necessary to the continued holding by the Germans of their submarine bases on the North Sea.

From Cambrai to St. Quentin, notwithstanding most violent reactions from the Germans, the British, Americans and French again have won heavily fortified positions of the enemy all along the front. The town of St. Quentin at last has been taken by the French, and the enemy realizing that Cambrai no longer is tenable, has given it up to the torch. Midway between the two towns the remaining portions of the old Hindenburg line are slowly being demolished, although the Germans have imposed the strength of nearly half a million men against the Allied troops to hold the front, the breaking through of which, in conjunction with the successful manoeuvre in Flanders, along the Aisne and in Champagne, would mean disaster.

Between the Vesle and Aisne Rivers the French continue to push the Germans north of the Aisne, while in Champagne the French, operating in conjunction with the Americans, are steadily advancing northward. Their guns now dominate the Aire River Valley running to the north of the Argonne Forest, while on the other side of the Forest the Americans are slowly coming up the Aire Valley from the south and soon will be in a position with the French to nip this great wooded bastion out of the German line.

In the mountain region of the Italian front there has been a considerable increase in artillery activity, and it is probable that Marshal Foch soon will begin an offensive here against the Austro-Hungarians.

General Allenby in Palestine has surrounded Damascus and French cavalry is reported to be working its way up the Mediterranean Sea Coast toward Beyrut.

In the Macedonian theatre, east of Lake Ochrida the Austrians are evacuating territory in Albania, probably indicating that now Bulgaria is out of the war the Austro-Hungarians realize they are in a serious predicament, far from home and with no allies to aid them.

Peace demonstrations have been held in Berlin in which police intervention became necessary. Some excesses were committed by the crowds, such as the tearing down of statues. The possibility of a Cabinet crisis in Germany is indicated by the resignations of the Imperial Chancellor, Vice-Chancellor and Foreign Minister.

In the recent fighting in France and Flanders the German losses in men killed or wounded and in guns captured have been enormous. To the Belgians and Germans lost virtually all their forward defensive artillery and some heavy naval guns. Many men were made prisoner. During September the British took 66,300 prisoners, 700 guns of all calibres, and thousands of machine guns in addition to inflicting heavy casualties on the enemy, and in August and September took 123,018 prisoners and 1,400 guns.

AMERICAN STATEMENT.

Washington, Oct. 1.—Further advances by the American forces advancing along the Meuse River and in the Argonne Forest were repulsed in General Pershing's communique for today received tonight at the War Department. American patrols have passed beyond Cierges and are maintaining contact with the enemy.

More than 100 hostile planes and 21 balloons have been shot down by American aviators since September 26, General Pershing said.

ITALIAN STATEMENT.

Rome Oct. 1.—Artillery duels which at times became intense were prevalent yesterday on the entire front in the Pasubio area on the Asiago Plateau and in the Montello region of Northern Italy says the official statement issued today by the Italian War Office. South of Mori hostile parties attempting to approach the Italian lines were dispersed.

Winter Will Soon Sweep Down on the Land

When the light garments of Summer must give way to more comfortable clothing and necessary furs.

Buying cheap furs is false economy.

Selecting good sturdy furs that will give you many months of satisfactory wear is a duty you owe yourself.

Wolf Sets, colored Black Taupe and Brown, are splendid furs for "hard usage."

The Great Half Million Dollar Sale

This gigantic clearance sale, the aftermath of our recent purchase of a stock of merchandise to the value of \$300,000 has created a sensation, the like of which has never been known in Quebec before. Of all the hundreds of clearance sales we have successfully organized, during more than sixty years, this one is by far THE GRANDEST. It reaches the pinnacle of greatness, in the vastness of the assortment of merchandise and in the extraordinary values.

Almost incredible in these times of soaring prices it far excels the great merchandising feats of the year.

Our customers will find shopping more comfortable and will help to alleviate the extra pressure upon our staff, by refraining from doing all their buying in the early days of the sale. There will be plenty of goods for everybody.

ESTABLISHED 1764.

QUEBEC, WEDNESDAY, OCTOBER 2, 1918.

TWO CENTS.

HEAVY FIGHTING
BETWEEN CAMBRAI
AND ST. QUENTINNOTWITHSTANDING INCREASED
RESISTANCE BRITISH
GAIN ALL ALONG LINE.

London, Oct. 1.—Extremely heavy fighting has been in progress throughout the day along the Cambrai-St. Quentin sector, according to Field Marshal Haig's report tonight. Notwithstanding increased German resistance the British have gained important territory along the greater part of the line.

During the month of September the British captured on the western front 66,300 prisoners and 790 guns. During the months of August and September the British captured 123,618 prisoners and 1400 guns.

The text of the statement reads: "The operations continued satisfactorily today on the St. Quentin-Cambrai line. On our extreme right, northeast of St. Quentin, we made considerable advances eastward onto the high ground east of Livergies."

"Further north we gained a footing in the center of the defenses of the village of Estrees and cleared the enemy from the high ground south of Le Catelet."

"In the center fighting of a severe nature is taking place in the village of Crevecoeur and Rumilly and in the rising ground north and east of these places."

"On the left between Cambrai and the River Seneze our troops have been severely engaged throughout the morning in attack and counter-attack with fresh hostile forces brought up to the battlefield. Notwithstanding we make progress east of Tilloy and in the neighborhood of Blecourt."

"During the four days fighting from September 27 on the St. Quentin-Cambrai battlefront we engaged and defeated with heavy losses thirty six German divisions (approximately 452,000 men)."

"During the month of September the British forces captured 1,200 prisoners, including 1,500 officers, and also 700 guns of all calibers and some thousands of machine guns. During the months of August and September the total losses of the British amounted to 123,618 prisoners, including 2,783 officers, and about 1400 guns."

KINGSTON ABDUCTION CASE.

Arguments of "Curse" Continued in
Sister Mary Basil's Suit.

Toronto, October 1.—The part taken by Dr. Phelan in alleged attempted abduction of Sister Mary Basil was dealt with today by W. N. Tilley, K. C., counsel for the plaintiff, in the appeal before the Appellate Court on behalf of Archbishop Spratt. Dr. Phelan and the Mother Superior, against an award of \$25,000 to Sister Basil. Mr. Tilley in his arguments claimed that Dr. Phelan was liable and that his participation had been fully established. He further held that, besides the verdict against Dr. Phelan, costs should also have been assessed. The afternoon session was taken up with the arguments of D. L. McCarthy, K. C., which concluded this notable case. He claimed that there was no animosity on the part of the Archbishop towards Sister Basil. Mr. McCarthy declared that Father Mea was responsible for the whole trouble and that he wanted to "knif" the Archbishop as to the liability of the Roman Catholic corporation. Mr. McCarthy argued that, even if the Archbishop was liable, it would be in his individual capacity only.

BUTTER SITUATION WATCHED

Food Board and Living Costs Com-
missioner in Close Touch.

Ottawa, Oct. 1.—The Canada Food Board is keeping a close watch on the butter situation as is the Cost of Living Commissioner McFall. Present indications are that there will be no attempt on the part of the whole-sale dealers or storage firms to do much price boosting as the result of the Government order with regard to creameries. There are now about 20,000,000 pounds of butter on hand in Canada and on this there are fixed margin prices which will not allow it to go much higher.

BISHOP FALLON
PLEADS FOR THE
CATHOLIC HUTSSAYS GRAFT IN WAR EXPEN-
DITURES IS BIG AS A
PEA.

Toronto, October 1.—"There was a word in our democratic dictionary, 'graft,'" said Bishop Fallon, Bishop of London, reciting his experiences in England and France before the immense audience which filled Massey Hall, for the launching of a campaign for the Catholic Army Huts. His Lordship had come in his survey of Canada's war activities to the Pay and Record Office, London. He found, he said, that 72½ per cent. of the money handled went in "wages"—he was ashamed to use the word—to "Canada's sons who have gone over to fight Canada's battles." When from the remainder was the expenditure for food, equipment, transportation, ammunition, etc., "there is a little figure," he added, "about as large as a pea, and it is labelled 'graft.' That is my criticism of the expenditure of my country in the war."

Of the 600 or 700 who were killed in the Record Office in Rouen, almost all, he said, were wound stripes. Some were without arms or legs. From this depot in one year, more than 2,000,000 letters had been re-addressed. In one day he had seen more than 2,000 bags of mail and parcels handled for redistribution along the front. But what touched him most was that, since the office opened more than 20,000 parcels of the effects of soldiers who had fallen, were returned to their relatives at home.

After a brief tribute to the work of the Catholic Huts, which were "open to every soldier in England and France" and to the huts of the Y.M.C.A., the Church Army (Anglican), and the Salvation Army, which he said, were doing a wonderful work for the welfare of Canadian soldiers, Bishop Fallon paid an eloquent tribute to the Canadian Army Medical Corps paying special attention to the Ontario Hospital at Orpington, which he declared, was "well" worthy of all the money spent on it.

"Why should the cost be considered?" he asked. "Was sent those men to the front? For whom are they fighting? For what cause are they fighting? It is only right that you and I should pay."

Of the work of the railway troops he said the Lieutenant General commanding the Eighth English Corps had said to him: "Your Canadian railway troops have taught us what is the meaning of railways in war." The trouble with English Engineers, the Bishop added, was that they wanted to build a railway that would be there after the war; the Canadians wanted to build a railway to get the war over."

The Bishop declared that Lieutenant-General Currie was "one of the greatest discoveries of the war. Looked up to by the soldiers, revered by his officers, his every command was put into effect that spells victory."

Nothing Too Good.
Regarding the returned soldiers, he said:

"There is very little within the measure of reason and of justice that is too good for the returned Canadian soldier."

This was not the time to speak of peace, he went on. "The man who relaxes his effort, he cause there seems to be a rent in the cloud is not the man who understands. It is the last five minutes of the game that counts."

As to after-the-war problems, we sometimes heard murmuring of a "we can stand alone" sentiment.

"Perhaps we can," said His Lordship, "but if we attempt to stand alone, others will fall."

Archbishop McNeil, in introducing Bishop Fallon, declared that there was no need of bringing our religious antagonisms into our public life.

"This campaign," he said, "is an honest effort to try to get together in the community spirit."

The other speakers were George Warburton, General Secretary of the Y.M.C.A., and Norman Somerville. The former, in speaking of the co-operation of the organization here presented with the Catholic Huts campaign, declared that "any Christian organization had better be buried than boggled."

Representatives of the Salvation Army and of the Trades and Labor Council also occupied seats on the platform.

W. H. MOORE RESIGNS
AS C.N.R. SECRETARY.

Toronto, October 1.—It was announced at the head office of the Can. Nor. Railway today that William H. Moore, had resigned as Secretary of the Company, and had been succeeded by R. F. Ormsby, former Assistant Secretary.

Mr. Moore's resignation had been expected. He was associated with Sir William Mackenzie and Sir Donald Mann for a great many years, and his action follows their retirement.

PRACTICAL THRIFT
IDEAS ARE WANTED

Here is the opportunity for some thrifty housewife or some practical business man to earn a little pin money for five minutes effort. In order to emphasize the national value to be derived from habits of thrift, the Chronicle has been asked by the Publicity Committee of the Victory Loan Campaign to open a contest among its readers.

A prize of five dollars is offered by the Committee for the most practical idea as to how thrift may be practised and money saved for war purposes. All that is necessary is to send in your suggestion to the Thrift Contest Editor written plainly on one side of the paper. The suggestion must be written in one hundred words or less and credit will be given for neatness and brevity as well as for the idea itself.

As many suggestions as possible will be published in the Chronicle on Saturday next, October 5th, and the following Saturday, October 12th. The contest will close at five o'clock on Friday afternoon, October 11th, and no entries will be accepted after that hour. The prize will be awarded in accordance with the verdict of a representative Committee to be announced later.

There is no age limitation and our youngest reader stands as good a chance of winning the five dollars as his father or mother. Send in your suggestions and try to win.

THE CHRONICLE THRIFT CONTEST

SELF LIKELY TO
SUCCEED HERTLINGMINISTER OF COLONIES MEN-
TIONED FIRST IN BERLIN
POLITICAL CIRCLES.

Paris, Oct. 1.—(Havas)—Dr. W. S. Solf, the German Minister of Colonies is mentioned first in Berlin political circles as the successor to Count Von Hertling, the retiring Imperial Chancellor, according to a despatch from Zurich to Le Journal.

Then in the order named, the following are spoken of as candidates for the position:

Count Von Brockdorff-Rantzau, German Minister to Denmark; Count Von Bernstorff, former Ambassador at Washington and now Ambassador to Turkey; Friedrich Von Payer, Imperial Vice-Chancellor, and Konstantin Fehrenbach, the President of the Reichstag.

EATING HOUSE PRICES.

Ontario Attorney-General Unprepar-
ed To Take Action Yet.

Ottawa, October 1.—The Ontario Attorney-General has taken the view that the Order-in-Council dealing with the high cost of living does not apply to eating houses and that the present time is not prepared to take action in regard to prices being charged. Dr. McFall, the Dominion Cost of Living Commissioner after investigating conditions in certain Ottawa restaurants and finding them unsatisfactory, wrote to the Provincial Attorney-General suggesting prosecution. The Cost of Living Commissioner was not prepared to state what further action he would take in the matter, but he said it would not be allowed to drop.

AMERICANS OUTNUMBERED

Hold Out Valiantly in Advanced
Position South of Cambrai.

With the American Army on the St. Quentin front, Oct. 1.—(By the Associated Press)—Some hundreds of Americans in a certain far advanced position between Cambrai and St. Quentin, which they reached late Sunday, were holding out valiantly against superior enemy numbers, according to latest reports which were received yesterday.

The Australians made heroic attempts to assist them and, so far as can be learned, are still keeping up these efforts, the result of which is not known. Furious fighting continues here.

INDEPENDENT AIR FORCE

BOMBS METZ-SABLONS.

London, Oct. 1.—In conjunction with the operations of the American First Army in France, the British independent air force Monday night bombed the Metz-Sablons station and Frencat, according to an official communication issued tonight. German blast furnaces at Burbach also were attacked.

FIVE-EIGHTS OF THE
WESTERN FRONT ENGAGED

Paris, October 1.—Approximately five-eighths of the Franco-Belgian front is involved in the present great battle. The intendant estimates that out of a total front of nearly 400 miles, active fighting is going on along an aggregate frontage of 350 miles.

SENATE REFUSES
WOMEN SUFFRAGEAFTER FIVE DAYS OF BITTER
DEBATE RESOLUTION IS
DEFEATED.

Washington, Oct. 1.—The Senate today refused to grant the request of the President that the woman suffrage resolution be passed as a war measure.

After five days of bitter debate, corridor conferences and cloak room negotiations the Susan B. Anthony Federal Amendment resolution enacted by the House last January received on the final roll-call two votes less than the necessary two thirds majority. Fifty-four Senators were recorded for it and 30 against it with twelve absent and paired.

Before the vote was announced Senator Jones, of New Mexico, Chairman of the Women Suffrage Committee to comply with Parliamentary requirements, changed his vote from the affirmative to the negative and moved that the Senate reconsider. This made the final official 53 to 31 and left the resolution technically pending on the Senate calendar, in position for further consideration planned after the November elections, when suffrage force hope to muster the requisite number of votes.

President Wilson's personal address to the Senators yesterday supplemented by letters today to several Democratic Senators opposed to the resolution did not change a single vote although in the final debate some Senators asserted that defeat of the resolution would mean repudiation of the executive. Including the absent and paired Senators, the roll call showed that the Senate line up of 62 to 34 on the resolution remained virtually unchanged from the beginning of the fight last Thursday.

Chairman Jones and other champions of the resolution declared after today's vote that the defeat is only temporary, and that the contest will be renewed after the November elections when changes in membership are certain.

BOND BROKERS FILE
PETITION IN BANKRUPTCY

St. Louis, Oct. 1.—Alex H. Brown and Company, stock and bond brokers, with memberships in New York, Chicago and St. Louis Exchanges, today was placed in the hands of a receiver after a voluntary petition in bankruptcy had been filed against the Company. The Company's attorney declared the liabilities were \$450,000 and the assets about \$300. The petition alleges that one of the members of the firm speculated for his own account on New York Exchange, with a loss to the firm, according to its attorney of \$50,000 to \$100,000.

FRANZ RINTELEN
SENT TO JAIL

New York, Oct. 1.—After being held here for many months pending appeals and on pleas of illness, Franz Rintelen, German Naval Captain and reported relative of Emperor William who was convicted of bomb plotting and other crimes, was today under close guard to the Federal Prison at Atlanta, to serve sentence aggregating three years.

Rintelen's exchange for an alleged American held by the Germans was demanded some time ago by the German Government and refused by the United States.

A NEW CAMPAIGN
MUST BE BEGUN
ON SERBIAN SOILGERMANY WILL MAKE EF-
FORTS TO MAINTAIN COM-
MUNICATION WITH TURKEY

London, Oct. 1.—The military authorities are agreed that the Allies must prepare for a new campaign in Serbia against the Austro-Hungarian and German forces, which number 150,000 including those in Albania. The German elements are chiefly concentrated in the neighborhood of Uskub, which French cavalry have entered, while the Austrians are expected to defend Nish as well as the confluence of the western and southern Moravia rivers and the great strategic points down to the Danube.

Germany, if reports from a neutral center can be relied upon, is going to make a great effort to maintain communication over the Orient railway with Turkey, and thus hopes to keep her eastern ally in the war.

According to a Hague despatch to the Central News, 250,000 German and Austro-Hungarian troops have arrived at Sofia from Rumania, and while part of these will remain in Sofia as an argument favoring the overthrow of the Malinoff Government, the majority will endeavor to keep the Allied troops from the Orient railway which joins Germany and Austria with Constantinople, the capture of which was a few years ago hailed as the greatest achievement of the Central Powers.

The removal of troops from Rumania, however, is not without danger. A few weeks ago when appealed to by his colleagues on the western front for assistance, Field Marshal von Marchens reported that conditions in Rumania did not warrant the transfer of a single soldier to that country. Now Rumanians are predicting that if the Rumanian army does not rejoin the Allies, there will be at least a rising in that country which will completely nullify the Bucharest treaty so far as it provides for the reestablishing of the Central Powers.

FOREIGN LANGUAGE PAPERS.

Secretary of State Forbids Circulation
Of Two Winnipeg Sheets.

Ottawa, Oct. 1.—The Secretary of State has issued warrants under the consolidation orders respecting censorship, forbidding the possession in Canada of copies of two largely circulated and important foreign language publications of an extremely revolutionary and socialist type published in Winnipeg. Both of these newspapers are printed in the same office. One, a newspaper of many years standing, is entitled the "Robotchij Narod" and is published in the Ukrainian language. The other, which is under distinct control, although printed on the same presses as this paper, is in the Russian language.

These papers have been publishing matter advocating the doctrines and practices of the Russian Bolsheviks, and have published considerable material in criticism of the action of the Allied Powers in intervening in Siberia.

FLOUR GOES UP.

Price Per Barrel Increased Eleven
Cents in July.

Ottawa, Oct. 1.—The Cost of Living Branch of the Department of Labor reports an increase of eleven cents per barrel in the cost of wheat flour and flour substitutes for the month of July as compared with the previous month. The increased cost was due chiefly to the cost of substitute flours which varied in price. The percentage used during the month was 90 of wheat flour and ten substitute flour. The average cost per pound for the production of bread was one-fifth of a cent per pound higher than in June.

AUSTRIANS WITHOUT
PASSPORTS FINED

Toronto, Oct. 1.—Approximately \$400 tinkled into the Police Court's till today as the result of Austrian forfeiture. Seven imports from the Dual Kingdom, pleaded guilty to the lapse of memory. They failed to carry passports, proofs of registration and the like on their persons. Evidence was forthcoming to show that each earned in the vicinity of \$7 daily. They were fined \$30 and costs or 30 days.

STREAM POLLUTION SERIOUS

The Leger Strawboard and Paper Co., of Xenia, Ohio, was recently fined \$100 and costs for allowing refuse liquors from its paper mills to enter Massie creek, killing large numbers of fish. The company claimed that the liquors entered the creek accidentally. Pollution of streams is a serious matter.

MENACE GROWS TO
COAST POSITIONS
AROUND OSTENDBRITISH AND BELGIANS ARE
NOW DRAWING CLOSER TO
BRUGES.

With the British Army in Flanders, Oct. 1.—(By The Associated Press)—Strong British patrols have fought their way through the town of Warnton, on the Lys River, between Armentieres and Menin, and also have gone through La Basseville and St. Peters.

The Germans today continue to fight as desperately as before, but every hour sees the menace to the Belgian coast positions around Ostend increased. At the same time the British and Belgians are drawing closer to Bruges. The continued success of the Flanders operations, it is anticipated will have wide and most important effects in more ways than one. The Germans will try to hold on there as they never have held any place before, and it is improbable the fighting may develop into a very fierce battle. Belgian cavalry has come into action in the neighborhood of Roulers and has succeeded in clearing up strips of the country.

The Germans are holding onto the Armentieres-La Basse salient with great tenacity, but the salient rapidly is being outflanked by the British advances north and south of it, particularly on the north, where the British have made important gains.

Late Monday the enemy delivered strong, but unsuccessful counter-attacks here and there along the new Flanders front in an effort to regain important positions. All his efforts were smothered under a rain of fire.

AUSTRIA DESIRES PEACE.

Budapest Newspapers Urge It De-
spite Defensive Measures.

(Bulletin)—Amsterdam, Oct. 1.—According to Budapest newspapers the Austro-Hungarian Government desires peace, in agreement with Germany, notwithstanding the fact that measures have been taken for defense as a result of Bulgaria's withdrawal from the war.

A despatch received today from Budapest quotes the newspapers of that city as saying that a Crown Council was held Saturday, at which military measures that had become necessary as a result of Bulgaria's effective defense, but the Government was still striving at the earliest possible moment in agreement with Germany, to secure a peace that would absolutely preserve the Monarchy's territorial integrity.

ALL GERMAN SECRETARIES
OF STATE RESIGN

Amsterdam, Oct. 1.—All the Imperial German secretaries of State have resigned and the Prussian Ministers intend to resign according to the Berlin Tageblatt, a copy of which has been received here.

BRITISH CASUALTIES
DURING SEPTEMBER

London, Oct. 1.—Casualties among the British forces reported during the month of September totalled 94,937 officers and men, divided as follows: Killed or died of wounds, officers 1,899, men 11,014. Wounded or missing, officers 5,573; men 72,531.

FOUR KILLED IN
AUTO ACCIDENT

Bangor, Maine Oct. 1.—Four persons were killed when their automobile was struck by a freight train on the Aroostook Valley Railroad at Parson's Crossing, near here late last night. The dead are William Kibney, and his 18-year old daughter Gladys, of Bloomfield, N.B., and Stanley and Hanford Kibney, brothers of William, of Washburn Maine.

GRAIN GROWERS
WANT \$2.50 WHEAT

Washington, Oct. 1.—Senators and representatives from wheat growing states and officials of the National Wheat Growers Association, in conference here tonight, decided to urge upon President Wilson immediate action fixing the price of wheat for 1919 at \$2.50 a bushel.

U. S. EMERGENCY POWER
BILL HAS PASSED

Washington, Oct. 1.—The House today passed without a dissenting vote and sent to the Senate the Administration Emergency Power Bill, providing for Government acquisition and extension of electric power plants. It authorizes the expenditure of \$175,000,000 for extending existing plants or building new ones.

SUBMARINE CHASER
SUNK IN COLLISION

Washington, Oct. 1.—Navel submarine chaser number 60 was sunk early today in a collision with the oil steamer S. W. Walter, off the Coast of New Jersey. Two men from the chaser are missing, but the other members of the crew were rescued.

SPANISH GRIPPE
STILL INCREASING
IN THE STATESPNEUMONIA ALSO SHOWS
DANGEROUS DEVELOPMENT
WASHINGTON REPORTS.

Boston, October 1.—Official reports sent to Washington tonight stated that the influenza epidemic was practically over at Camp Devens and in the First Naval District, but that it is "still on the increase" among the civilian population in many places in Massachusetts.

Admittedly incomplete reports to the State Department of Health covering the situation up to noon today showed 6,140 new cases and 89 deaths, exclusive of Boston and army and navy stations.

In his daily report sent tonight to Surgeon-General Blue, State Health Commissioner Kelley said:

"Boston situation apparently much better as indicated by hospital admission reports, but Boston deaths in past 24 hours high. Death notices averaging five solid columns in Boston papers daily. Epidemic still on increase in many cities and towns."

"Epidemic practically over at Devens, and among merchant marine personnel. Very few new cases in stations of naval district."

The Boston Board of Health announced tonight that there were 152 deaths from influenza and 30 from pneumonia for the 24 hour-period ending at 10:00 o'clock tonight. This exceeds by 31 the highest daily total since the epidemic started. Since September 14th there have been 1,671 deaths in Boston.

Ten nurses from Halifax arrived today and were assigned to cases.

Spreads in Army Camps.

Washington, October 1.—Spanish influenza continued to spread in army camps. More than 14,000 new cases were reported to the office of the Surgeon-General during the 24 hours ending at noon today. This was an increase over yesterday of 3,600 cases. Pneumonia cases also increased with 1,000 and 300 deaths.

Stricken Vessel in Port.

An Atlantic Port, October 1.—With all members of the crew down with Spanish influenza the Gloucester fishing schooner "Athlete," has made this port with difficulty. Some of the men were too ill to stand their watches or take any part in sailing the "Athlete" in from the Banks. F. Poole, a member of the crew, died after the ship's arrival. The other members are being cared for here.

BOCHE'S BACK TO WALL.

Vorwaerts Whines That Bulgaria
Has Deserted Central Alliance.

Washington, Oct. 1.—An official despatch from France today quotes the German socialist newspaper Vorwaerts on the Bulgarian situation as follows:

"Bulgaria deserts the Central Alliance to make peace. We, the German people, then remain alone to face the French, English and the Americans, with our backs to the wall and death facing us. Such is the situation that we have in view today and we must meet it with the necessary courage."

The Berlin Lokal Anzeiger says: "No one can avoid seeing how great the danger is owing to the Bulgarian crisis. It would be a crime to conceal it."

VATICAN HEARS KING
FERDINAND WILL ABDICATE

Rome, Oct. 1.—The Vatican has received confidential information from Vienna that King Ferdinand of Bulgaria probably will abdicate in favor of his son, Prince Boris.

COUNCIL OF PARIS
CONGRATULATES VICTORS

Paris, Oct. 1.—(Havas)—The Municipal Council of Paris has adopted a message of congratulation to the Allied generals and soldiers "who have been continuously victorious for so many weeks." The Council expressed hope that the hour will soon come when France will be liberated from the foreign yoke.

RAILWAY TELEGRAPHERS
LOOK FOR INCREASE

Washington, Oct. 1.—Railroad telegraphers probably will receive soon a wage increase of between \$20 and \$25 a month it was said today by Railroad Administration officials. The application of the Order of Railroad Telegraphers for more than twice this amount of increase still is pending before the Board of Railroad Wages which is expected to report soon to Director General McAdoo.

The Quebec Chronicle

Printed and published by The Chronicle Printing Company, D. Watson, General Manager, at the building of the Company, 9 Beaudry Street, Quebec. Subscription: Daily, \$4.00 per annum; Weekly, \$1.00 per annum; payable in advance. Advertisements: 15 cents per agate line each insertion.

QUEBEC, OCTOBER 2, 1918.

THE NAVY'S RECORD.

In comparing the effort of Britain with that of her Allies there is a tendency in certain quarters to discount the British contribution by pointing to the fact that those islands have hitherto enjoyed immunity from invasion. It is probable that those who hold such a view have failed to take into account the enormous sacrifices in men, money and material which Britain has made and is making, in defence not of her freedom only, but of that of the civilized world. Take, for instance, the Navy's record:

	Aug., 1914	Jan'y, 1918
Personnel (officers and men)	145,000	450,000
Tonnage employed in naval service	4,000,000 tons	6,000,000 tons
Minesweepers and Patrol Boats	12	3,800

The 140,000 square nautical miles of the North Sea, an area larger than Germany, are patrolled incessantly, in all weathers. In one month British warships proper travelled 1,000,000 sea miles in home waters alone. In the same period the mileage of auxiliary vessels, including minesweepers and patrol boats, was 6,000,000—250 times the circuit of the globe.

Whereas in 1915 256 out of 1,400 ships eluded the patrol squadrons, at the end of 1916 only 60 out of 3,000 escaped being intercepted. In one month of 1917 not a single vessel trading with neutral countries crossed the North Atlantic and Arctic Oceans without being held up and examined. British submarines have attacked successfully 40 enemy warships and 270 other vessels.

There are now 235 dry docks of considerable size in the British Isles, exclusive of Royal Naval Docks. These have handled 90 per cent. of the maximum tonnage within their capacity.

Every month 1,100 merchant warships are docked, in one month 1,000 warships have been completed or repaired, since August, 1914, 31,000 ships have been slipped and docked, exclusive of vessels belonging to Allied nations, the output of warships and auxiliary vessels in 12 months ending October, 1917, was from three to four times greater than the average of two years before the war.

Since war broke out the Navy has been instrumental in transporting to the British Armies and those of our Allies:—

13,000,000 men (of whom only 2,700 have been lost by enemy action), 2,000,000 horses and mules, 50,000 vehicles, 25,000,000 tons of explosives and supplies, 51,000,000 tons of oil and fuel. In addition, 10,000,000 tons of food and other materials have been moved in British ships.

It is characteristic of the way our municipal affairs are managed that, at a Committee meeting when the Medical Health Officer was to submit an important report relative to the measures adopted to meet the threatened inroad of Spanish Influenza, there should have been no quorum and the meeting postponed in consequence. If there is no actual incompetence there is at least an apparent indifference to responsibility which the rate-payers should vigorously resent.

Also it would be of interest to know what disposition is made of the garbage which the municipality has undertaken to remove from private houses. This promised to be a progressive move in line with procedure in other up-to-date communities but there will be little advantage if it is simply collected and dumped en masse on St. Louis Road. Naturally an incinerator is what is required, but if our finances do not permit the acquisition of such an equipment, then at least the garbage should be disposed of so as not to endanger public health.

Great Undertakings

NO. 24—FORESTRY AND RAILWAYS.

A memorable incident in the experiences of the Canadian Press Mission was its visit to the Forest of Conches, not far from Paris, where, under strange surroundings, it saw familiar Canadian logging and lumber operations in full blast. Transported across the Atlantic by some black art the journalists saw a home-like saw mill working at capacity but it was no big-framed agile lumber-jacks who handled the "peavies" but sullen German prisoners under the watchful eye of armed guards.

Altogether, there are some sixty Companies in the Canadian Corps scattered through the timber areas of France and England and each is an independent, self-contained unit, capable of handling all classes of work. Are huts required for the army, or tent, poles, or axe-handles or a dozen other wood products? It is the Forestry Corps which fills the want. Again must plank roads be laid down to bring up the guns, who finds the planks but the Forestry Corps? Indeed practically all the timber operations for the French and British forces are conducted by this efficient corps, so typical of Canadian industry.

Towards the end of March, 1917, a Directorate of Timber Operations, France, was organized to take over the work of the Canadian Forestry Corps presently operating for the British and French Armies in French forests. The demands of the armies for tim-

ber were ever increasing, and the quantity of shipping tonnage available to handle that timber was decreasing rather than increasing to meet these new demands.

Since that date, the production of the Canadian Forestry Corps in France has been steadily increasing, and, from a total of 11,500 tons in March, 1917, made up of 5,500 tons of sawn material, 3,500 tons of round and 2,500 tons of fuel, it has steadily grown until in May of this year it had almost reached a total of 150,000 tons, made up of 90,000 tons of sawn lumber, 10,000 tons of round timber, and 50,000 tons of fuel. During this same period the strength of the Corps increased; rising from a total of slightly over 2,000 in March, 1917, to a total of just under 13,500 at the end of May, 1918.

When the work was taken over by the present Directorate, there were approximately seven mills being operated by ten Canadian Companies, whereas, at the present time, there are fifty-one saw mills and two re-saw plants being operated by fifty-eight Companies, in addition to which two other Companies are specially employed on aerodrome construction work with the Independent Force, R.A.F. Another interesting fact illustrating the growth of the Corps is that the production for the first six months of the present year was practically 50% in excess of the production for the whole twelve months of 1917.

During the first six months of this year, over 183,000,000 feet of sawn product have been produced, and, if approximate comparative values are given to the quantities of sawn lumber, round timber, and fuel produced, the value of the sawn lumber is almost 85% of the total value of the products of the Corps. At the present time, sawn lumber is being produced at the rate of over 1,400,000 feet per day and in order to meet the heavy demands of the Armies for standing gauge and other sleepers in connection with their railway construction programmes over 350,000 sleepers are being produced each week.

The main sources of supply of standing timber for this sleeper production are the oak forests of Normandy and Central France, and the immense pine areas of the "Landes", south of Bordeaux. This latter area comprises over 2,000,000 acres of almost flat sand lands, which have been planted with Maritime pine since the end of the 18th century. One of the main sources of supply of sawn lumber, in addition to the sources mentioned previously, is the large fir and spruce forests in the mountains of the east of France, in the Department of the Vosges, Doubs, and Jura, which are being largely operated by the Canadian Forestry Corps for the French Army. The forests in the former of these Departments are mainly located in mountainous country presenting many difficulties from a lumberman's point of view, and in one case the timber has to be lowered by cable to the mill from a slope of over forty-five degrees.

In most of the operations of the Corps, the logs are transported from the stump to the mill by railroad, since climatic and natural conditions do not permit of adopting the usual Eastern Canadian methods of winter hauling over snow or ice roads, and floating by river or lake from the forest to the mill. About ninety miles of railroad are now in use, including short spurs of standard gauge, and long stretches of one metre, three-foot and two-foot gauge track. The cars which are operated by these narrow-gauge railroads have been mainly built by the Corps, and various means of traction are employed, including steam locomotion, petrol tractors and horses. In this connection General Stuart points with pride to a petrol locomotive built by his men in No. 2 District Machine Shop within eight weeks time. The engine is from an evacuated Jeffery truck, the differential from a captured Mulhausen (German) truck, and the remainder of the parts from scrap material of all kinds gathered from the dumps, adapted and utilized for the purpose. To prove its efficiency I need only add that, at the first test, it hauled a load of trucks approximating twenty-one tons.

As with Forestry so the Railways are a distinctive Canadian contribution to the cause of Allied victory. The Germans, who were not less prepared in this respect than any other for the conflict, had been using narrow-gauge lines for some time before the Canadian Corps received permission to experiment with their use. Certain details were set apart for maintenance and operation but it was not until their urgent necessity had been amply demonstrated that a Railway Corps was authorized and formed. Today the front is grid-ironed with these light roads over which bucking little trains ply on business of all sorts and it is the Canadians who are in charge of the work—and particularly dangerous it is—in practically every case.

On the light railway, troops are brought in to action and the wounded are brought out, on them too supplies are brought up to the trenches and ammunition to the guns, while even these unwieldy monsters are moved from one point to another by their good offices. When the wind is favorable a train will be loaded up with hundreds of gas tanks and despatched to a rail-head close to some enemy position: then the tanks will be discharged and Fritz receives a wholesale gassing new in his experience.

When an advance is made, the construction troops are on the spot to link up their forward lines with those formerly owned by the enemy and in a few hours, the trains are scurrying gaily over that erstwhile "No Man's Land". As an experienced officer said to me, in fact, "they can do pretty well anything that a standard gauge road can do, they can be laid down very much more quickly and repaired without difficulty, while almost any sort of fuel can be used for locomotion."

I have referred to danger and not without cause; even narrow-gauge roads are permanent works that do not admit of camouflage and switches, sidings, junctions, bases or rail-heads inevitably attract artillery fire; nor could a better target be desired by any battery than a train moving forward over track, every foot of which has been accurately registered by repeated observation.

One Hundred Years Ago Today

The Quebec Gazette stated at this time one hundred years that: "We have inserted in this days Gazette a curious extract from the Morning Chronicle (London England) of the 14th August; relating to the present state of affairs between the United States and Great Britain. The Chronicle is known to be the leading opposition paper in England. It is difficult to conjecture why it should think it necessary to endeavour to unite an alarm of hostile feeling on the part of the ministers towards the United States. It is not improbable, however, that the conduct of the American Government in the Florida, and the putting to death of Ansbuthnot and Ambister, may have given rise to some discussion between the two governments. If it were true, as is sometimes alleged, that these gentlemen were in the peaceful pursuit of their private avocations when they were taken and put to death, the British Government cannot pass the matter over in silence, for every subject is entitled to the protection of his Government, whereas he may lawfully go, complying with the laws of the country in which he may temporarily reside."

WOMEN'S WAR WORK

Sir Douglas Haig, writing to Dame Eva Anstruther recently said: "Urge all at home to buy books and magazines and pass them on freely to the Camp Library for circulation among the troops. The demand that has now to be met is very great." The last sentence was underlined.

The Earl of Derby wrote: "We feel we have only to ask every man, woman and child to respond to an appeal which will add so great a pastime to the life of his or her own belongings and friends at the Front. The matter is urgent." Here also the last sentence was underlined.

Do Canadians keep the boys supplied with papers and magazines? Do we share the good stories, the little poems that say what we would like to say and cannot, the jokes, the fun? "If not, why not?" as the dreadful examination questions used to say.

Another thing: Because we have gloomy solemn thoughts should we send them over there? Every one says: "Make your letters smile." Why not send smiling, rollicking printed matter—even the kind we do not like but know that our boys like it? Why not?

Paris adapts itself promptly and thoroughly to war time necessity. The windows bear really attractive designs worked out with strips of paper pasted on the glass to prevent breakage from the anticipated shelling by the Huns. Restaurants serve no food between the hours of 2.30 and 6.30 and no one is allowed to bring food with which to supplement that procurable in the restaurant. The chocolate that is served is known as the Mexican variety and is stiff enough to hold the spoon upright. Butter is out of the question and toast is not served at any meal. Cheese is allowed at nothing but a high-class dinner but these same dinners are almost without pudding and sweets. Sandwiches are not allowed at any time. Parisians are using oysters in greater quantity than formerly.

English women are awakening to the fact that momentous questions must be met immediately after the end of the war. They realize that only by studying those questions thoroughly to-day can they do their whole duty when the time comes. Seven leading associations including both Catholic and Protestant women and representing patriotic, national and educational interests as far as they concern women and girls have seen the need of concentrated and united effort on their part. "Women Citizens Associations" are being organized in numbers.

Mothers!

Watch the tongue of your young! Clean the clogged-up faces! Bring joy to little faces! Kiddles will eat and smile, When you do away with bile. Careful mothers o'er the land Always keep Cascarets at hand. Children think them dandy—They are mild cathartic candy. Cascarets sell for a dime! They "work" every time.

When a child has a coated tongue, tainted breath or is bilious, constipated, feverish, or full of cold, give Cascarets. Children gladly take this harmless candy cathartic which thoroughly cleanses their little stomachs, livers and bowels without griping. Each 10 cent box of Cascarets contains directions for dose for children aged one year and upwards.

For some of the most impressive and adventurous trips while at the front I am beholden to the Canadian Railway Corps, whose members ply their profession under new conditions and frequently under heavy shelling with the same matter-of-fact skill that they did when building "a mile a day" for some one or other of our own great transcontinental roads.

ARTHUR PENNY,

Died of Starvation

Many a Belgian mother could have these words engraved on her child's gravestone—"Died of Starvation."

Perhaps the child has wasted away with Consumption, or has been twisted into a mockery of happy childhood by Rickets, but starvation is at the root of the tragedy.

What else can be expected for a growing child whose daily ration is the bowl of soup and two pieces of bread provided by the United States loans to the Belgian Government?

The only hope for the destitute children of Belgium is that we who can afford three meals a day will be moved to pity and send help immediately. Even a small contribution will help to take some child, sinking under its load of trouble, over to Holland, where with good milk, nutritious food, medical care and loving treatment, he or she may regain health, strength and the wish to live.

GIVE—give until you feel the pinch! Don't wait until someone asks you personally. THIS is personal!

CHANGE of NAME

OWING to a base imitation of crushed orange being offered to the public for our original crushed orange, we have decided to change the name to RONGE-O (Registered).

Imitation may be a form of sincere flattery, but The Imitators only show their lack of originality when they basely imitate and steal the name crushed orange.

In future when you require a true and perfect orange drink ask for RONGE-O, it is orange and made from orange.

RONGE-O is the most perfect orange drink it is possible to procure in the world.

IT PAYS TO SELECT POTATOES
FOR SEED

Before the Tops Die Down in Au-
tumn is Best Time to do so

Recent investigations have shown
that lack of vigour in the seed po-
tatoes planted has been the cause of
poor yields and inferior quality in
the resultant crop. It has also been
found that seed from New Brun-
swick or New Ontario gives better
older Ontario than home-grown
seed. It may not be convenient for
every farmer to purchase seed grown
in New Brunswick or New Ontario,
but a process of selection can be
conducted which will materially in-
crease yields and profits. Usually the best
potatoes are found in the hills which
have the strongest and most vigor-
ous tops. These should be marked
before they die down in the autumn
and kept separate at digging time for
seed the following year. This will
not cost anything except a little time
and it will be time profitably spent.
While conducting illustration work
on farms, the Commission of Conser-
vation has noted increases in yield as
high as 38 per cent from the selected
seed over the seed from the common
bin. Select enough now, for a seed
plot next year.—F. C. N.

IN AND ABOUT TOWN

FAUST PROVED A
VERITABLE TRIUMPH

MORE THAN FIVE HUNDRED
PEOPLE TURNED AWAY
FROM THE AUDITORIUM.

Faust, Gounod's immortal opera
was produced at the Auditorium last
night by the San Carlo Grand Opera
Company with an artistic éclat which
has never yet been equalled by any
aggregation of artists visiting this
city.

The theatre was all too small to ac-
commodate the thousands of patrons
who flocked to its entrance and be-
fore the curtain rose more than five
hundred people had been turned
away, disappointed that they were
not allowed to pay any reasonable
price for the privilege of even stand-
ing in the lobby and catching an oc-
casional strain of the popular opera.

It was a brilliant scene that the
theatre presented with every box and
every seat from orchestra to pit oc-
cupied while all the available space
in the rear of the hall was crowded
with enthusiasts who were glad to
stand throughout the performance.

The cast for last night's production
was exceptionally strong and from
the opening scene to the tragedy of
Marguerite's prison there was not a
weak point throughout, and the
leading artists both individually and
collectively as well as the chorus
were accorded an ovation at the close
of each scene.

Miss Elizabeth Amsden made a
charming Marguerite, her rich so-
prano voice, which she used with
such ease, proved equally thrilling in
the sweet notes of the Jewel song
and in the frenzied tragedy with
which the music of the prison scene
works up to the climax.

Leon Rothier, the incomparable
Mephistopheles, was in excellent
form his deep basso voice at all
times full and true was in itself a
treat and he was probably at his best
in the "Veau d'or" song.

Ralph Errolle, as Faust, left no-
thing to be desired. His rich tenor
voice with its wonderful range mas-
tered the most difficult notes with an
ease which was admirable.

Joseph Royer, in the role of Valen-
tin, Doria Fernandez, as Siebel, and
Alice Homer, as Martha, all starred
in their respective parts, and together
with the chorus contributed to the
great artistic triumph which was
well appreciated by the large audi-
ence.

The orchestra under the able baton
of Gaetano Merola, sustained its
share of the success and the music
throughout was in keeping with the
excellence of the artists on the stage.

"Aida," Verdi's masterpiece, will
be produced at the matinee this af-
ternoon, while this evening the famous
"Lucia di Lammermoor" will be given.

HIS EMINENCE PAYS
VISIT TO THE DUKE

THE GOVERNOR-GENERAL EN-
TERTAINED LARGE PARTY
AT LUNCHEON YESTERDAY.

His Excellency the Governor-Gen-
eral received yesterday morning, at
his quarters on the Citadel, His
Eminence Cardinal Bégin, Canon La-
berge, His Worship the Mayor and
Colonel O'Meara.

His Excellency entertained at
luncheon yesterday afternoon, the
guests present were: Lady LeBlanc,
Sir Lomer and Lady Gouin, The Bis-
hop of Québec and Mrs. Lennox Wil-
liams, Lieut.-Colonel and Mrs.
Jamieson, Mr. and Mrs. J. Burstall,
Major and Mrs. Victor Pelletier,
Captain LeBlanc, The Ladies Caven-
dish, Captain and Lady Mary Kenyon-
Slaney, Miss Walton, Lord Richard
Neville, Captain H. A. Clive, A.D.C.,
and Captain the Earl of Minto,
A.D.C.

Late in the afternoon the Govern-
ment, accompanied by his family
and staff, motored to Chateau Bigot,
where they were shown over Messrs.
Holt, Rinfrew & Co.'s silver fox farm.

WEEKLY REPORT OF
AGRICULTURE DEPT.

FRUIT AND VEGETABLE
WHOLESALE PRICES THAT
WILL PREVAIL SATURDAY.

The Fruit Branch of the Federal
Department of Agriculture issues the
following fruit and vegetable prices
for Saturday in Québec, Chateauguay
and Montreal. These prices are
wholesale unless otherwise quoted:

Québec: Wealthy, St. Lawrence
and Alexander, No. 1 apples \$8.50
to \$7. No. 2 \$1 less per barrel.

Peaches \$1.25, pears \$1.25, tomatoes
70 to 80c, plums \$1.10, all in 11
quart baskets. Potatoes \$1.80 to \$1.75
per bag.

Chateauguay, P.Q.; Weather very
wet and packing greatly hampered.
Wealthy nearly all shipped. Fameuse
are now ready—about 20 per cent of
a normal crop and 40 to 45 per cent
clean. Growers are asking \$6 for
Nos. 1 and 2 f.o.b. point of ship-
ment. McIntosh Red are about 80
per cent of a normal crop and 60 to
70 per cent clean.

per barrel in each case. Plums, 11-
quart basket 85c to \$1.25, 6-quart 55
to 65c; peaches, 11's (leno) \$1.50 to
\$1.75, flat \$1 to \$1.25; pears, 11's
(leno) \$1.25 to \$1.50, flat 90c to
\$1.25; tomatoes, 11's, 45c to 50c;
grapes, 6's, 35c to 40c. Québec and
New Brunswick potatoes \$2.25 per bag.
Montreal onions \$1.75 per bag.
Arrivals since last report: 1 car
Maine cranberries, 3 Québec apples,
1 Ontario apples, 17 Ontario mixed
fruits, 1 Ontario tomatoes and 1 car
California pears.

DR. ANDERSON TO LECTURE
ON THE BRITISH NAVY.

The Québec Branch of the Navy
League has been fortunate in secur-
ing Dr. George Anderson, Hon. Chap-
lain in the British Navy, for a lec-
ture which will be delivered in Morrin
College Hall on Thursday evening,
October 4th, at 8:00 o'clock. The
subject will be: "The British Navy
and Its Work in the War."

Mr. Anderson is a most eloquent
and pleasing speaker as many people
in Québec who have had the pleasure
of hearing him, can testify. The sub-
ject is one dear to his heart, and on
which he is particularly competent to
speak.

It is hoped the hall will be crowded
as this will be the only opportunity
of hearing Dr. Anderson speak, as he
leaves in a day or two. No admis-
sion fee, but a silver collection will
be taken up for the benefit of the
Québec Branch of the Navy League.
Dr. Anderson has been with the Navy
at Malta, Gibraltar, and many other
places.

QUEBEC & SAGUENAY RY.

Freight shipments destined to
points on the Québec & Saguenay
Railway, will be accepted at the Qué-
bec Railway, Light & Power Com-
pany's Station, St. Paul Street, for
furtherance to destination. New rates
are in effect since the 1st October.
Oct. 2xw04-th-satx3.

LAVAL LAW STUDENTS
ELECT OFFICERS.

At a meeting of the law students of
Laval University held on Monday
afternoon, Mr. Eugene Bernard, stu-
dent in law was elected president of
the faculty after keen competition
among several aspirants to the po-
sition. Other officers elected were Mr.
L. D. Desilets, First Vice-President;
Mr. A. St. Pierre, Second Vice-Pres-
ident; Mr. Jacques Dumoulin, Stand-
ard-bearer.

GUARDING AGAINST
SPREAD OF GRIPPE

MILITIA AUTHORITIES PLACE
DRILL HALL AND CITADEL
UNDER QUARANTINE.

As a precautionary measure against
the spread of Spanish Influenza
among the soldiers and draftees now
in this city, the Militia Authorities
have placed the Drill Hall and the
Citadel under quarantine. The order
was issued at noon yesterday and
will affect over one thousand men.

It is reported that a number of
local manufacturing plants are seri-
ously handicapped because of the
epidemic of grippe, one firm in par-
ticular yesterday having to send six of
its employees home who could not
stand up under the effects of the
disease.

The City Health Physicians re-
quest every physician in the city to
report to them any case coming un-
der their observation where there is
the slightest symptom of grippe or
influenza so that the necessary steps
may be taken to investigate the case
and if found of a contagious nature,
to place the premises wherein it is,
under quarantine.

PERSONAL.

Mr. J. A. McClure, Optometrist, of
St. John Street, has left for Boston
where he will attend a series of lec-
tures on modern optics.

DOOLAN VS. CLANCY

Some Business-like Back Verandah
Comment on Unsavory Meat Shops

"Do you get your meat at Clancy's
yet, Mrs. Doolan?"

"Sure I do not, Mrs. Hogan. I hap-
pened to go over there one day in-
stead of phoning, and I noticed quite
a lot of flies crawling over the meat
on the counter."

"Had he no fly screens?"

"Yes, but the screen door at the
back was full of holes, and the spring
on it was no good at all."

"Did you say anything to them
about it?"

"I did so, Mrs. Hogan. When the
young man came over to serve me, I
pointed to the flies and I told him
that not another pound of meat
would I buy out of that shop until it
was cleaned up."

"And you did right, Mrs. Doolan.
If the man doesn't know enough to
protect his meat from flies and may-
be disease germs carried by flies he
should not be in that business."

"Well, Mrs. Hogan, I believe it did
some good, for although I have not
been in the store since, I noticed that
he has a new screen door with
springs on it."

"Good for you, Maggie Doolan. If
the rest of us women would speak up
whenever they notice dirty condi-
tions in any food store or milk shop,
there would soon be a difference."

"Some women would be afraid to
say anything."

"That is so; but they might drop
an anonymous letter in the box, or
bring the matter up at the Women's
Club!"—Winnipeg Health Bulletin.

AN ALLY OF GERMANY

Germany has a powerful ally work-
ing within the boundaries of Canada.
Its operations are very effective. It
enters munition plants and causes ex-
plosions. It cripples hundreds of
factories which are labouring to pro-
duce war-time necessities. It waits
until the grain in the fields is ripe for
harvest, and then destroys it over
thousands of acres, or else it hides
its time until the harvested crops
have been stored in elevators and ob-
literates them by the hundreds of
thousands of bushels. It operates in
every city and town and in the coun-
try districts. It is increasing in its
activities, working by night as well as
by day, and for every hour of the
twenty-four. It enters countless
homes, bringing devastation and sor-
row; and last, but not least, it causes
heavy loss of life.

This foe is not an "alien enemy,"
but comes of good Canadian stock.
It is encouraged by millions of peo-
ple who believe themselves to be
patriotic. Without their help, it
would soon be overcome. The name
of this great enemy is Preventable
Fire, and its principal cause is Cana-
dian carelessness.

CURING TUBERCULOSIS

The earlier tuberculosis is detected
in an individual case, the greater are
the possibilities of a cure. Therefore
help your friend, your neighbor, your
relative, to recognize and treat this
disease at the start.

The first essential for the treat-
ment is rest until the disease has
ceased progressing. The physician
must determine when exercise should
be resumed. The second is food in
abundance until the lost weight has
been regained, and a little more. The
third is fresh air, indoors and out, but
most of the time out, in all seasons
and weathers. If the patient sleeps
indoors, the windows and the ex-
ternal door of his room, if there is
one, should be open every night and
all night.

The fourth is hope and determina-
tion. Your chances for recovery will
largely depend on your attitude of
mind and willingness to make a de-
termined effort to recover. Make
your sacrifices at the beginning.

NO DECISION YET IN CITY SERIES

STANDARD REPRESENTATIVES
CLAIM COULD NOT ACT AT
LAST NIGHT'S MEETING.

Though a meeting of representatives of the clubs interested in the post season baseball games was held last night, the playing of the first game, together with what teams will face each other in it is no nearer a solution than it was yesterday. The Standards were represented by Messrs. Lomas, Legeux, Martineau and Dion, the Tipperarys by Messrs. McLaughlin, H. Kelly and Byrne, while the 5th C.G.R., was represented by Sgt.-Major Steele, President C. T. Phillips being present on behalf of the Intermediate Baseball League.

According to reports of the meeting, Sgt.-Major Steele on behalf of the 5th C.G.R., stated that he was willing to play the Standards next Sunday on any grounds the latter team would name, provided that the diamond was in good playing condition. The Standard representatives, however, informed the meeting that they would first have to consult the remainder of the team before giving an answer. The Standards, it is said, also wanted the same teams which were scheduled for last Sunday, the Tipperarys and 5th C.G.R. to play on next Sunday, but as six members of the Tipperary team have been quarantined, the Tips found it impossible to meet the 5th C.G.R., although being perfectly willing to but for the quarantine regulations. After considerable discussion, the meeting broke up without reaching a decision apart from the promise of manager Lomas, of the Standards, to inform Sgt.-Major Steele of the 5th C.G.R. some time today of the decision of the Standard team as a whole, as manager Lomas stated at the meeting that he could not act until the whole team had been made aware of the proceedings of the meeting.

Sporting Notes

Which is the greatest thoroughbred of the racing season? Cudgel, Commander Ross's great racing horse, Roamer, the mile record holder, a speed wizard, Sun Star, a smashing three year old, or Harry Payne Whitney's French three year old John? Experts are divided, and around the Stove League this winter, this question will be debated, as each has a strong following. The real test of thoroughbreds now, however, is the gameness in men, not horses. The war is the thing. "What did he do in the great war?" will be the question for generations to come. Our test open to a man whose circumstances prevent him from showing his mettle overseas is to join a threshing gang and play a man's part in the harvest field. And it's a real man's job.

Kid Gagne challenges Marcel Boisy to a return match. Gagne will endeavor to wipe out the defeat suffered by him at the hands of Boisy last year at the Theatre Francaise.

If Jack Britton, Soldier Bartfield and Mike Gibbons, all lusty wallflowers, were unable to knock out Ted Lewis in ten rounds and Leonard could not knock out Britton in ten rounds, it did not seem likely that Leonard could knock out Lewis in eight rounds with eight-ounce gloves.

Lower Canada College beat Montreal High School in the opening game of the Inter-School Rugby season in Montreal on Monday by the score of 11-2.

This is another Peter, the Great year among the trotters, particularly the colt trotters. In Red Bluff, and half a dozen other babies are taking down the classics, and earning big money for the owners. Peter the Great is the greatest living sire, in fact the greatest sire of all time. The blood is there, and blood tells. The blood of free men is in the veins of North Americans. The news from the battlefield shows what kind of men this continent produces. Back up the boys at the front by showing the same spirit at home. Help to get in the harvest. It's all in the game.

SEAGRAM'S STRING TO RACE AT LAUREL.
Toronto, Ont., Oct. 1.—In charge of Trainer William Bringle, Joseph E. Seagram's extensive string of racers has left for Laurel. Eleven head made up the shipment, including six two-year-olds, none of which has yet started. The entire lot are of Mr. Seagram's own breeding. Among the youngsters are some highly prized stock.

Belle Mahone, last year's King's Plate winner, Galley Head, Sturdee, Gala Dress and Statim are the four year-olds, and the two-year-olds are Hong Kong, Galway, Doleful, Court Gallant, Gallant Kitty and Azrael. The entire lot are fit and ready, having been kept in training during the greater part of the summer.

DISAPPROVES OF HANDICAP IDEA

FORMER MONTREAL NEWS-
PAPER MAN DIFFERS FROM
PHILADELPHIA LADY.

New York, Oct. 1.—O'Neil Sevier, a former well-known Montreal newspaper man, writes in the Globe: The proposition of Mrs. Walter M. Jeffords of Philadelphia, that the coming championship two-year-old race for \$5,000 or \$10,000 a side and a \$10,000 purse, the latter to be offered by the Maryland States Fair Corporation, be a handicap so that such colts as Routledge and Star Hampton may run with Billy Kelly and Eternal with some prospect of success, is sportsmanlike, but not practicable. The object of Colonel Mass Winn, the general manager of Laurel Park, in offering \$10,000 for the meeting between Billy Kelly and Eternal, and such other youngsters as might be considered good enough to race with these on even terms was to develop a race horse folk the country over would be willing to accept as decisive of the two-year-old championship.

A championship contest must be a scale weight affair. A horse that has to have an allowance to win a race can hardly be called as good as the horse he beats when the beaten horse is required to make him a concession in weight. It was because he wanted to establish indubitably the title to the championship among the three-year-olds of 1917, that Colonel Winn insisted, when Hourless and Omar Khayyam were matched in his \$10,000 special at Laurel last October, the race that is called in the manuals the John R. McLean Memorial Cup, that the two colts carry full weight—120 pounds each. Really, there are only three championship races run in this country. They are the Saratoga Special, a great sportsmanlike event for two-year-olds at \$500 a side, at three-quarters of a mile, the Saratoga Cup, a gallop of one mile and a quarter for three-year-olds and over, and the Belmont, a three-year-old Westchester special at the mile and three furlongs. In all three of these races starters must carry the weight prescribed by the jockey club's scale without reference to previous victories or defeats. Neither the Kentucky nor the Latonia Derby is a championship race. In each the weights are fixed by a scale of penalties and allowances. The same is true of the Preakness, Pimlico's great spring special, and of the Lawrence realization, Belmont Park's great autumn race for three-year-olds.

AMERICAN TROOPS ADVANCE ON EDGE OF ARGONNE WOOD

STRENUOUS FIGHTING IS REPORTED AROUND CIERGES, BY ASSOCIATED PRESS.

With the American Army Northwest of Verdun, Sep. 30.—(By The Associated Press)—American troops today made an advance on their extreme left along the edge of the Argonne forest. Strenuous fighting took place around Cierges, near the centre of the line. Both sides fought tenaciously for possession of Cierges, the Germans throwing strong reinforcements against the Americans.

The fluctuating fighting brought only minor results as the advance on the American left, the only gain of the day, was not carried to any marked depth. Although the Germans appear to intend to hold their present line at all costs reports have been received that they have taken the precaution to remove a wireless station from the Kriemhilde line. Fires behind German lines on the American left would seem to show that they are intentionally burning supplies they cannot carry away.

As against the theory that the Germans are preparing to fall back there is reported southward movement of a small detachment of tanks from Romagne. If they are brought into action it will be the first time the enemy has used them in this operation.

Paris, Oct. 1.—(By The Associated Press)—A German counter-attack in the vicinity of Anzumont, on the battlefield northwest of Verdun, was successfully beaten back in the forenoon of today by the Americans. Otherwise the fighting on the American front was virtually at a standstill.

SAVE TIME TO KEEP GOOD TIMES GOOD

NATIONAL LEAGUE ENDS DECEMBER 10

ANNUAL MEETING ON ABOVE
DATE. TO WIND UP ALL
BUSINESS.

New York, October 1.—Major league baseball, in so far as it concerns the National League, will be officially terminated at the annual meeting of the Association to be held in this city on December 10th. At the gathering the senior organization will formally wind up the business affairs of the season just closed and enter upon a hiatus which will remain undisturbed until such time as international affairs appear to warrant a revival of the professional end of the national game.

This at least is the contention of the magnates at the present time and nothing short of a most sensational change in the war status within the next two months will cause a shift in the plans of the league.

A declaration of peace coming late next Spring would prove of little value to the big league clubs, according to the opinion of magnates.

General opinion appears to support the idea that a new and better order of professional baseball will come forth at the proper time, but that much of this advantage would be lost if the big league rushed blindly back to the game at the first hint of an opening.

It is understood, however, that the magnates will not tie their hands by any definite statements or arrangements, but will leave the affairs of the organization in such a fluid state that business can be resumed at a later date. The office of the league will be continued and Secretary Heydler will, in all probability, be re-elected to his present position with full authority to act for the league in all matters which have heretofore been in the hands of the President as well as the other elective officers of the league.

He was a bashful lover, and had courted her long. She knew he loved her and knew that he was afraid to propose. She resolved to help him out. "When I get married I hope to see you at my wedding," she said. "Heavens!" he gasped. "I hoped to marry you myself." "Well, she rejoined, as her cheeks flushed to the hue of a rosy sunset, "I meant I hoped to see you there as the groom."

Then he fainted with joy.

The broken roads and destroyed bridges are being repaired in order that the transport of supplies to the front may be continued with greater regularity. There was no change in the battle line at 2:30 o'clock this afternoon, when this despatch was filed.

The enemy's casualties continue heavy under the American artillery and infantry fire and the operations of the American tanks. The trench strength of one company of Germans was reduced from 60 to 18. Another company lost 30 per cent. of its effectives.

The enemy on Tuesday was continually bringing up reinforcements, leading to the belief that it is his intention to endeavor to hold his present line, at least temporarily.

C. G. R. TRACKMASTER

KILLED NEAR SYDNEY
Sydney, N.S., Oct. 1.—A. E. Wellwood, of Sydney, C.G.R., trackmaster was fatally injured today near North Sydney. He was examining the track when a train came upon him unawares. His injuries were attended to at Hamilton Hospital, but he lived only a few hours after being struck. Mr. Wellwood is a railway official and has been a resident of North Sydney for the past 27 years. He was a native of Harcourt N.B. and aged 57 years old.

McADOO WANTS MIXED

FLOUR RAW REPEALED
Washington, Oct. 1.—Secretary McAdoo has joined with Food Administrator Hoover in asking Congress to repeal for the duration of the war the mixed flour law so that such flour may be milled in this country, in accordance with the agreement entered into between the United States and its co-belligerents. In a letter to representative Rainey of Illinois made public today, the Secretary said the law is of no importance as a revenue measure. Efforts to have the House repeal the law by amending the war revenue bill failed, but a separate bill probably will be introduced.

Wear your learning, like your watch, in a private pocket, and do not pull it out and strike it, merely to show that you have one. If you are asked what o'clock it is, tell it; but do not proclaim it hourly and unasked, like the watchman.

After a woman has married twice for love, her female friends consider her hopelessly queer.

ANOTHER DAY OF VICTORIES FOR OUR ARMY

GAINS OF GREATEST IMPORTANCE MADE BY AUSTRALIANS YESTERDAY.

With the British Army in France, Oct. 1.—(By The Associated Press)—This was another day of victories for the fighting British army. The Belgians also continued their forward movement.

Gains of the greatest importance were made by the Australians between Cambrai and St. Quentin and it seems that they have crossed the Canal everywhere. Long lines of enemy transports are fleeing east and northeastward from this region, as well as other regions.

The day was an ideal one for flying, and the British aviators, who had not been busy for several days, again came into their own. The planes flew low over the enemy masses and poured bullets by tens of thousands at the enemy, while at the same time bombers picked massed troops as targets and often loosed projectiles on the transport columns in full flight, inflicting terrible damage. The better visibility also enabled the British gunners to do more accurate work.

Once more casualties of great proportions have been inflicted on the Germans, who now are fighting with the greatest desperation realizing that their positions in this entire area are more precarious than at any time during the past four years.

True, there has been again the hardest of close fighting astride and in the Hindenburg system; but back of here there is open country. Joncourt now is well behind the British lines after brisk fighting. The lines are some distance east of Levegies. Estrees, captured once and then lost in a counter-attack, has now been taken again by storm. The Australians smashed well eastward of it, making sure of maintaining their gain.

From here the battle line curves back northward, passing about 1,500 yards southwest of Gouy which also has been reached by the Allied troops but at the present moment is in German hands. The torch has been applied to Cambrai and the town is burning briskly. It is evident that the Germans realize they must get away from this locality, and consequently they are burning Cambrai and other places. Great tongues of flames and billows of smoke are rising from Cambrai.

South of the Scarpe the Canadians were again in heavy engagements. Since Monday their advance was halted for a moment by a terrific barrage. In the face of vicious counter-attacks they withdrew slightly from Blecourt, north of Cambrai, to the railway line east of Sancourt. Tilloy, between Sancourt and Cambrai, is held firmly by the British.

Today the inclement weather has disappeared leaving the air clear and crisp.

British Headquarters in France, October.—(Reuters, Limited).—The battle along the St. Quentin-Cambrai front was resumed this morning on a scale of ferocity unequalled in the present war. The Germans have now brought up large reserves and are resisting and counter-attacking with desperate determination. The Canadians north of Cambrai are engaged against at least eight German divisions, nearly one hundred thousand men.

Joncourt was reported to have been taken early, with a large part of the Nauroy trench system. The Australians are working up the trenches of the Hindenburg system in the direction of Gouy and have taken Estrees and an important hill ridge astride the Hindenburg line north-east of Bellecourt.

In Flanders, Ledeghem and Rolleg-hemcapelle have been occupied.

USEFUL HINTS ON

CANNING BEETS

Use only small beets for canning. Wash, scrubbing if necessary, and get very clean. Cut off all but an inch of leaf stems. Grade, and blanch 5 minutes. Cold dip and scrape off skin and stems. Beets averaging 1/2 inch in diameter may be packed whole, but larger ones may be cut in convenient size for packing.

Add 1 level teaspoonful of salt to each quart jar, and cover the pack with boiling water. Put on a new rubber and the top, dipping them both in hot water just before placing. Adjust the top bail or screw on the top with thumb and little finger.

Sterilize 30 minutes in hot water bath, or 60 minutes at 5 to 10 pounds steam pressure. Remove from sterilizer, seal tight and cool.

USE PLENTY SEED

WHEN SOWING CLOVER

Among other comparisons being made on farms in Dundas county by the Commission of Conservation is that of thickness of seeding of clover. Many farmers sow too small an amount to insure success, in some cases as low as two or three pounds per acre being sown. On the farms where five pounds or less was ordinarily being sown per acre, an acre or two was sown in 1917 with double the amount usually sown. The difference was not so noticeable in the young seeding during the autumn of 1917, but the results were decidedly in favour of the thicker seeding at haying time this year, 1918. In a number of instances, there was just about the same difference in amount

FOR THE AIR SERVICE OF THE ALLIED ARMIES

An immense R. A. F. machine ready to start with its load of bombs for Germany.

THEY are cutting spruce in British Columbia. The silver spruce forests, long neglected because of lack of market and transportation, have found their place. The straight, fine-grained, tough wood is the ideal material for the manufacture of aeroplane parts. The silver spruce grows only on the islands and ocean coast of British Columbia and the north-west United States. The American timber of this species is being used exclusively for war purposes of the States, the needs of the other allies in the great war are supplied by the

Aeronautical Department of the Imperial Munitions Board. Hundreds of camps, scores of tug-boats, thousands of men are at work on the forests, while scores of mills cut the logs. Canadian Pacific Railway Company tug hauls great rafts across the waters of the Pacific Coast and discharge the cargo at the mills and terminals. Hundreds and hundreds of Canadian Pacific Railway cars roll eastward monthly loaded with prime aeroplane lumber, bound for the aeroplane factories in the east. The wants of France and England, Canada and Italy are filled by the logger of British Columbia, and the industry will grow even beyond its present tremendous volume.—L. V. K.

A Sitka (silver) spruce log cut on the Queen Charlotte Islands off the coast of British Columbia for the Imperial Munitions Board.

Let Us Estimate on Your Printing

WHEN you are in line for Stationery, Folders, Pamphlets, Booklets, and Circulars, 'phone 6000. Our solicitor will call immediately.

of hay as there was difference in amount of clover seed sown. If everythings is favourable, a seeding of less than ten pounds of red clover to the acre may give good results, but it is much safer to sow clover seed liberally along with the timothy.—F. C. N.

The skating rink instructor was a man of iron nerve and iron muscle, and he did not quail when the fourteen stone female learner asked his assistance.

Now, a skating instructor may be very clever; but it is too much to expect that he can juggle with heavy weights, and when the lady slid floorwards he was helpless.

"Don't be alarmed, madam, we'll get you up, all right," said one of the attendants, who had rushed to the rescue.

"Oh don't think I am alarmed!" replied the heavyweight; "but, all the same, your floor is terribly lumpy!" "I'm not a lump," came a smothered voice from underneath. "I'm an attendant."

CARE NEEDED WHEN USING ELECTRICITY

SIMPLE RULES FOR PREVENTION OF ACCIDENTS IN STREET AND HOME

Electricity, like fire, is a valuable servant, but a dangerous master. So long as it is kept in perfect control it is the most convenient and cleanly source of energy that science has made available for use in the household. But it must be controlled. Hundreds of lives are lost every year and much property destroyed as a result of defective wiring and the careless handling of this remarkable unseen force.

Below is a brief summary of recommendations by the United States Bureau of Standards which, if followed, will go far toward eliminating accidents in the use of electricity:

- (1) Never touch a wire or any electrical device which has fallen on a street, alley or lawn, or which hangs within reach, if there is any possibility that it may be touching any overhead electric wire. This applies to insulated overhead wires as well as to bare ones.
- (2) Avoid touching guy wires which are used to anchor poles to the ground, or the ground wire run down wood poles. Never try to jar arc lamps, nor touch the chains or ropes supporting them. During and after storms do not touch even the poles, if wet.
- (3) Never climb a pole or tree on or near which electric wires pass. Never touch such wires from windows nor while on roofs. Warn children against climbing poles or standing on pole steps.
- (4) Never throw string, sticks, or pieces of wire over the electric wires carried overhead. Also, never fly kites near overhead wires, nor throw

sticks or stones at insulators.

(5) Do not touch or disturb any electric wiring or appliances in buildings except such as are intended to be handled. Keep furniture and other materials away from interior wires, or see that the wiring is in conduit, or otherwise adequately protected against mechanical injury. After using portable heating appliances, turn off the current before leaving them.

(6) Never touch those interior live metal parts of sockets, plugs, etc., which are used to carry current. Use the insulating handles which are provided for that purpose. While in bathrooms, toilet rooms, kitchens, laundries, basements or other rooms with damp floors, stoves, heaters or pipes, etc., which may be touched; avoid touching any metal part of lamp sockets, fixtures, or other electrical devices since they may accidentally be alive. While in a bathtub never touch any part of an electric cord or fixture even if it is a non-conductor. The use of electric vibrators in the bath is dangerous. Avoid touching stoves or other metal articles when using the telephone particularly during electrical storms.

(7) Never try to take electric shocks from the wiring in buildings or on streets nor induce others to take such risks.

(8) Avoid touching bare or abraded spots on flexible electric cords. Do not hang such cords on nails and when damaged have them repaired or replaced by a competent electrician.

(9) Never touch a person who has been shocked while he is still in contact with the electric circuit, unless you know how to remove him without danger to yourself. Call a doctor and the nearest lighting company. Use a long dry board or wooden-handled rake or broom to draw the person away from the wire, or the wire away from him. Never use any metal or any moist object.

(10) To resuscitate a person suffering from electric shock draw his tongue out of his throat and apply artificial respiration for two or three hours, if necessary.

THE DOCTOR'S WORK AT THE FRONT

HAVE KEPT GREAT ARMIES HEALTHY AND FREE FROM EPIDEMICS

Everyone knows something of the work of the Doctor at the front, of the day and night toil in Advanced Dressing Stations during a big push when the wounded come back in a continuous stream, of the wonderful surgery, of the elaborate sanitary work, of the travelling laboratories, of the testing of all water before it is drunk, of all that labour which has kept great armies healthy and free of epidemics, though fighting under conditions which in the past would have swept them away with disease. But this work has already been begun in the training camps at home. There the men have learnt some of the simple rules of health, how to avoid the conditions which cause disease, and how to care for themselves under the rough life and harder work of the army. They have lived under the continual care of their Medical Officers. But let us see the Medical Officers of a battalion at work on his daily camp routine.

It is 8 o'clock in the morning, and he is sitting at a table in the cubicle of one of the long iron huts. There is a shelf with bottles along one side. The attendant "sick orderly" calls out, "A Company." The duty N. C. O. of the Company steps forward and hands in his sick report. On it are the names of all those men who before early morning parade that day had answered his call of "Anyone going sick?" and against their names are written their lengths of service, religions and the numbers of their huts. At the end are two columns still to fill in, one for the diagnosis, the other for disposal.

The first man's name is called. "Well," says the Doctor. "What's wrong with you?"

"Heart feels a bit queer, sir," says the man.

"Take your coat off." The man's heart is tested with a stethoscope and he steps out and falls in again with the men of his Company. Meanwhile the doctor has entered D. A. H. (disordered action of the heart) in the first of the vacant columns and "three days light duty coming up re-examination."

The second on the list steps in. He should have gone on a route march, but suddenly developed illness.

"What's the matter with you?"

"Pain in the back, sir."

The Doctor looks at him. "Take those pills and go on duty at once."

The man steps out, looking very ill pleased and the doctor writes "medicine and duty" against his name.

The next case is obviously ill. He is feverish and breathing with difficulty. But when asked the usual question he answers, "Bit of a cold, sir."

"When did you feel this coming on?" says the Doctor.

"On Tuesday, sir."

"Why didn't you report sick before?"

"I thought it was nothing, sir."

"You should not think. You ought to have come before."

He examines the man, calls in the orderly and writes "pneumonia" and "hospital" in the two columns.

The next case is an accident. The man had been cutting bread with a patent bread cutter and got his fingers where the bread should have been. He unwraps the handkerchief that is round it and shows a jagged rough cut.

"Nasty place," says the doctor. "Want to be careful with it."

"Yes, sir."

"Go to the orderly. He will wash and bandage it for you. You are excused duty. Come again to-morrow and be very careful."

The doctor signs the report for "A" Company. It is given to the duty N. C. O. and he marches his men back to the Company lines—all but the pneumonia case. He has already gone to hospital. "B" Company follows "A" and between nine and half past all the patients have been seen. But the doctor is still only at the beginning of his day. There are a hundred men chosen for the next draft overseas who all have to be medically examined and passed as fit before they can be sent; there are duties at the camp hospital, and there is a lecture to be delivered to recruits on personal cleanliness, on hygiene, on the care of the feet after route marching. It is a full day, but in the course of such full days as these the doctor comes to know his men—the men who will hardly confess to being ill; the men who make nervously much of little, the men who can usually find something the matter with themselves if there is a duty they would escape. He knows the type as well as he knows the symptoms of illness.

His day of anxiety comes when one morning a man reports sick with an infectious disease. The sending of him to the Isolation Hospital is only the beginning of the work. His hut is cleaned and disinfected. The men who share it with him are sent for at once, examined, and put in quarantine. They can attend no parades but will do such drill as they can among themselves, for their training must go on. The canteens, the dining hut, all the places where other men go are forbidden them. Their meals are carried to their door. If the distance is dangerous, they do not stay in their own hut but are sent into an isolation camp at some distance from the main camp and there they have their own kitchen and do everything for themselves. Every precaution is rigorously and promptly taken. Nowhere is infectious disease more quickly attacked than in a camp. For nowhere can it be more dangerous.

The Medical Officer's duties do not end with the daily care of the health of his battalion. There are periodical courses to be given to officers and men on sanitation. There are men detailed for the water cart to be drilled in its uses, there is the instruction in first aid and stretcher work. There are many things for him to do, and more for him to supervise, if the battalion is to live healthily in its training camp and to go overseas well equipped for continuing healthy in the rougher makeshift life of billets and trenches.

ALL IN A LIFETIME

The only service of its kind that has ever taken place in the world's history occurred a few weeks since in St. Paul's Cathedral, London. No gathering ever before assembled in that historic grandeur. More famous personages have been concerned in services held in St. Paul's but nothing more sublime has ever been celebrated. Five thousand war nurses gathered to honour the memory of the three hundred and fifty nurses who have given their lives in this great world war. Their sacrifice was sublime and the acknowledgment of its worth by the British Government was also sublimely impressive.

In this "home church" of the Empire the Archbishop of London speaking from the words "Not one of them is forgotten in the sight of God" paid a beautiful tribute to the noble women who are worthy followers of the "Lady with the Lamp" who, less than a century ago set the example to all nurses whether in war or peace and gave the impetus to what afterwards became the Red Cross Society. What does the world not owe to Florence Nightingale?

The five thousand nurses were merely representative of their profession but the tremendous part which they are carrying of the war load will be better appreciated after a careful study of the list. There were members of Queen Alexandra's Imperial Nursing Service, Queen Alexandra's Imperial Nursing Service Reserve, Queen Alexandra's Royal Naval Nursing Service, Colonial Nursing Association, Territorial Force Nursing Service, the British Red Cross and Order of St. John, the Scottish Women's Hospital, the Australian, the Canadian, the Indian, the New Zealand, the South African Nursing Services, the Serbian Relief Fund and the V. A. D.'s.

When one recalls that Florence Nightingale would have been ninety-eight had she lived until May 16th of this year, that she died only four years before this war began and that only a little more than half a century ago she began her great work by becoming the first army nurse, one becomes a believer in the existence of unbounded opportunities for women who fit themselves for worth-while work. Where is there a greater example of the sure reward of untiring devotion to a great cause than this bit of history with Florence Nightingale at its beginning and the impressive St. Paul's service as its last incident?

Immediately below the pulpit from which the Archbishop spoke was a memorial which was unveiled by Queen Mary 3 years ago—a memorial to Florence Nightingale the first war nurse, and the first women to be thus honoured in St. Paul's. The services concluded by the playing of the "Dead March in Saul" by the band of the Coldstream Guards and the "Last Post", both thrillingly impressive.

Say No!

"You might as well have it," whispers temptation, but your Canadian Patriotism says "No!"

THE tempting suggestions of selfishness meet no response from a patriot.

For he knows that selfishness and self-indulgence are just now the allies of the Hun—they fight on Germany's side against Canada.

When the devil-whisper says "You might as well have it," every true Canadian answers "No!"

Except for the bare necessities of life, we should not be spending five cents a day.

For every expenditure we make on things not absolutely necessary directly affects the fighting strength of Canada and her allies.

The materials that go into the making of things you can do without are needed for our soldiers overseas.

Many of those materials which enter into our unnecessary purchases are brought from other countries and occupy

precious space in ships; space sorely needed for those cargoes which can be used for the winning of the war.

The labor that fashions the things we unnecessarily use is labor which could and would be employed to real advantage in the production of war necessities.

Knowing all this, how dare you divert a single unnecessary dollar from your country's war effort!

The shame that must inevitably follow your every self-indulgence, at so grave a time, will be your fitting punishment—if you persist in buying the things you merely want and do not need.

Resist indulgence, cultivate thrift—for thrift is an evidence of patriotism.

And the money you save by thrift will be yours to lend to your country whenever the call comes.

Sleep Sweetly

Coffee, tea and some other drinks when taken at the evening meal tend to keep some people awake.

One of the merits of POSTUM

is that it never affects nerves or heart.

In fact one can drink as much Postum as he pleases just before bedtime and no ill results follow, for Postum is pure and absolutely free from caffeine or any other harmful drug or substance.

Postum comes in two forms; Postum Cereal, which must be boiled, and Instant Postum, made in the cup in a moment. They are equally delicious and the cost per cup is about the same.

SHIPPING NEWS

JAPAN WIDENS ITS
SHIPPING ACTIVITIESUCHIDA KISEN KAISHA FIRST
TO ACT IN THIS DIRECTION

The great development in Japan's shipping trade of late years is, of course, due to the war, and it is accordingly open to doubt whether the present prosperity will continue after the conclusion of hostilities. In this connection it is interesting to note, says the Japan Chronicle in a recent issue, that of late many shipping concerns have begun to consider new business undertakings, presumably to offset the decline in shipping prosperity after the war. The Uchida Kisen Kaisha, of Kobe, was the first to take action in this direction, for last year it established the Uchida Shoji Kaisha at Tokyo to engage in general import and export trade, principally with the United States and South America. More recently, the Asano Goshi Kaisha, in which Mr. Asano, the president of the Uchida Kisen Kaisha, is interested, has established the Asano Bussan Kaisha, and is trying to acquire large business connections in North and South America. It is understood that in its business operations the new concern will receive valuable help from the Uchida Kisen Kaisha in regard to the supply of tonnage.

A few months ago the Yamashita Kisen Kaisha opened a South Sea service, and now contemplates opening export and import trade with the South Sea Islands. For this purpose the Singapore branch of the steamship company has been making arrangements in French Indo-China, Sumatra, and Soerabaya, and it is expected that a foreign trade department will be shortly opened in the Yamashita Goshi Kaisha.

SHIPPING NOTES.

The C.S.L. steamer St. Irene arrived up from the Saguenay yesterday at 4.15 a.m., and left for Montreal at 4 p.m.

The C.G.S. Druid arrived up from the lower St. Lawrence stations yesterday at 5 p.m.

The steam barge Yorkton arrived down with a cargo of coal at 4.30 o'clock yesterday afternoon.

The steamer North with the steamer South in tow arrived down from Montreal yesterday at 6.30 p.m.

So successful has been the prevention methods introduced in shipyards that within a few months it is expected the percentage of accidents in such places will be much lower than in most private employments says a Department of Labor bulletin. Already accidents have been reduced to a point far below the figures for days preceding the war, and the campaign is still progressing. In one month at Hog Island, for example, there were only 107 accidents among 20,407 employees.

THREE SHIPS LAUNCHED
AT NEW YORK

New York, N.Y., Oct. 1.—Two 7500 ton steel freighters were launched on Saturday by the Standard Shipbuilding Corporation, and a mine layer was launched by the Todd Shipyard Corporation.

U. S. SHIPPING BOARD
TO SPEND \$484,000,000

Washington, Oct. 1.—Chairman Hurley, of the Shipping Board, appearing before the House Appropriations Committee today, asked for authority to spend \$484,000,000 additional to carry out the shipbuilding programme.

STEEL WORKERS THROWN
OUT.

St. Louis, Mo. Oct. 1.—More than 1200 steel workers in the American Steel Foundries in the east side town were thrown out of work following the refusal of 150 craftsmen and electricians to return to work until the company grants them an 8-hour day and an increase in pay. They demand a 10 per cent wage increase. The Federal War Board will be appealed to for relief by the men. The men are now receiving as high as \$6 a day.

FLEET OF THIRTY
TO BE WITHDRAWN.

New York, Oct. 1.—Thirty of the fleet of vessels engaged in the coal trade are about to be withdrawn and placed in the Chilean nitrate trade or used by the Government in overseas business. Many of them are Dutch vessels which the Shipping Board chartered some time ago for coal carriers, but finding them unfit for that business they will be withdrawn. The capacity of the steamers is about 3,500 tons each. They will be replaced by a fleet of boats that has just been brought down from the Great Lakes, and which are better adapted to the coal carrying business owing to their large hatchways and facilities for loading.

Canadian Pacific Railway night trains now leaving Quebec and Montreal at 11:35 P.M. daily respectively, will not run on Saturdays effective September 29th next.

THE TRAINING OF
NAVAL ARCHITECTSFUTURE OF AMERICAN SHIP-
BUILDING GOLDEN WITH
GREAT PROMISE FOR
TRAINED MEN

Washington, Oct. 1.—In a nationwide plea for three hundred or more naval architects to aid in designing and building ships, the Educational and Training Sections, Industrial Relations Group, United States Shipping Board Emergency Fleet Corporation, points out that the future of American shipbuilding is golden with promise for the technically trained young man.

To meet the need for naval architects, Prof. Frank P. McKibben, supervisor of technical training of the Educational and Training Sections, has organized at Massachusetts Institute of Technology a ten weeks' course in naval architecture starting from September 30. E. F. Hurd, assistant to the president of the Newport News Shipbuilding and Drydock Company, recently said that his company need at least fifteen naval architects. Mr. Hurd said that his yard employs, 11,000 men, and is now preparing to expand so as to employ a total of 20,000. He offers to provide special housing facilities for students who come to his yard.

Registration for the intensive training course at Massachusetts Institute of Technology should be made with Louis E. Reber, Director Educational and Training Section, Industrial Relations Group, United States Shipping Board, Emergency Fleet Corporation, 253 North Broad Street, Philadelphia. Applicants should be graduates of civil, mechanical or architectural engineering course of should have the equal of such training.

In discussing the scarcity of naval architects, Prof. McKibben said: "During the past year less than a dozen naval architects were graduated in this country. Only three schools carried permanent courses—the Massachusetts Institute of Technology, the University of Michigan and the Webb Shipbuilding Academy of New York. The scarcity is real and must be met at the earliest possible moment. I know of no field that offers greater opportunities for the technically trained young man."

SAVE YOUR HAIR
AND BEAUTIFY IT
WITH "DANDERINE"Spend a Few Cents! Dandruff Dis-
appears and Hair Stops

Coming Out.

Try This! Hair Gets Beautiful,
Wavy and Thick in
Few Moments.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scrub robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a small bottle of Knowlton's Danderine at any drug store or toilet counter for a few cents; apply a little as directed, and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

Windsor Table Salt
THE CANADIAN SALT CO. LIMITED

CITY OF QUEBEC.
City Hall.CITY CLERK'S OFFICE.
Quebec, 25th September, 1918TENDERS FOR CAPS FOR
FIREMEN.

PUBLIC NOTICE is hereby given that sealed tenders, endorsed "TENDERS FOR CAPS" and addressed to the Fire Department, will be received from this day till TUESDAY, the 8th day of October next (1918), at four o'clock p.m., for the supply of seventy-five caps—more or less—for the firemen.

A sample for such cap shall be seen at the office of the Chief of the Fire Brigade.

The City does not bind itself to accept the lowest or any of the tenders, and the contractor shall pay the cost of drawing up the contract and notarial copies for official use.

By order,

AUG. MALOUIN,
Secretary Police-Fire Committee

CITY HALL.

Quebec, Sept. 21st, 1918.

REMOVAL OF GARBAGE.

PUBLIC NOTICE is hereby given that in order to make an experiment regarding the removal of Garbage in the City of Quebec, by the Corporation, it has been decided that, on Friday the 27th instant, Friday the 4th October, Friday the 11th October and Friday the 18th October, carts will be provided to remove the Garbage which householders must place (in barrels or boxes) on the sidewalk in front of their properties.

It must be understood that it is not the City's intention to clear the yards and cellars. Domestic garbage only shall be removed, and not more than one barrel full for each lodging. As soon as the receptacles have been emptied, their owners must remove them.

The removal of garbage will be undertaken in the whole of the City.

The employees of the Road Department will remove the Garbage during the night, beginning at 7.00 o'clock, p.m., on the above mentioned dates.

BY-LAW NO. 21.

By-law to Amend By-law No. 2G and
repeal By-law No. 2H.

(Drawn up in the French Language)

At a meeting of the Municipal Council of the City of Quebec, held at the City Hall in the said City of Quebec on the thirtieth day of August, one thousand nine hundred and eighteen (1918), in conformity to law, and in virtue of a by-law, passed by this Council, pursuant thereto, and after the due observation of all the formalities prescribed by the statute in such case made and provided, at which meeting were present the absolute majority of the members composing the Council of the City of Quebec, that is to say: His Worship the Mayor, Aldermen Bedard, Bouchard, St. R., Bouchard, J.C., Collier, Gauvin, Lantier, Lesage, Merrier.

Whereas that By-Law No. 2H, passed on the 2nd of July, 1918, article 20 of By-Law No. 2G amended by an error, instead of article 19 of said By-Law No. 2G.

It is in consequence ordained and enacted by by-law of the Municipal Council of the City of Quebec, and the said council doth ordain and enact as follows, to wit:

1.—By-Law No. 2H, passed by this council on the 2nd of July last, is hereby repealed.

2.—Article 19 of By-Law No. 2G, passed on the 23rd of April, 1918 is repealed and replaced by the following:

19.—Each and every person or company carrying on the trade of conveying persons from one place to another in the city, by using certain vehicles for fares must before following said trade, obtain a license for such vehicle, for which shall be paid the sum of eleven dollars, for each and every vehicle.

Every person or company carrying on the trade of transporting from one place to another in the City, for fares, merchandise, or other material whatsoever by using any sort of vehicle, must before exercising said trade, obtain a license for the price of which they shall pay the sum of fifteen dollars for each vehicle.

3.—Article 20 of By-law No. 2G

Legal Intelligence

Judgments Rendered — Writs Issued.
Judgments by the Court of Review:

Marcotte, plaintiff in warranty, vs. Laberge et al. defendants in warranty. Reversed, action in warranty dismissed with costs of both Courts, Hon. Chief Justice Lemieux dissenting.

Julien & Cie. vs. Chevanelle et al. Appeal dismissed and judgment confirmed with costs.
Despres vs. Begin. Reversed; action maintained for \$201, with costs of both Courts.

Pruneau vs. Flood. Reversed; and defendant is condemned to pay plaintiff \$350.00, with interest and costs of first instance and those of the Court of Review.

Marcotte et al. vs. The School Commissioners of Portneuf. Appeal maintained; judgment reversed and plaintiff's action is maintained, with costs of both Courts against the defendants.

Judgment by Hon. Justice Cannon: Doyle et al. vs. Menard. Seeing the defendant's default to plead and the evidence he is condemned to pay plaintiffs the sum of \$75.32, interests and costs.

Judgment by the Prothonotary: Eug. Julien & Cie., Ltée. vs. Truchon et al. Defendants are condemned jointly and severally, to pay plaintiff \$212.50, interest and costs, less the costs of evidence by affidavit.

Writs of summonses issued from the Prothonotary's Office:

Alfred Dugnay, vs. The Quebec Ry., L., H. & P. Co., \$151.00, damages.

Joachim Boursie, vs. Pierre Plante, La Sare; \$176.03, promissory note and account.

INCREASED COAL SUPPLY.

Fuel Administrator's Production Campaign Expected To Have Good Results.

Washington Oct. 1.—Greatly increased supplies of coal to meet the demands of the nation's vast military programme and to assure adequate supplies for domestic needs are expected by officials to result from the increased production campaign launched by Fuel Administrator Garfield calling for an increase of sixteen and one-half per cent. in the bituminous output and an increase of six and one-third per cent. in the anthracite output in the next six months.

The bituminous fields are asked for an average production of 12,234,000 tons weekly, an increase of 1,731,000 tons over production during the same period last year and the anthracite mines are asked to average 2,030,000 tons weekly an increase, as compared with the winter months of last year of 121,000. Maintenance of these quotas, Fuel Administrator Garfield has said, "will give us all the coal needed this winter."

METHODIST CHURCH OF CANADA CONFERENCE.

Delegates From All Over Canada Attend Meeting in Hamilton.

Hamilton, Ont., October 1.—Delegates from all over the Dominion and Newfoundland were flowing to Hamilton, Ont., today for the opening session of the Quadrennial Conference of the Methodist Church of Canada, which opens tomorrow morning in the First Methodist Church. Rev. Dr. H. C. Chown, L.L.D., General Superintendent and Presiding Officer of the conference, and Rev. T. Albert Moore, Secretary of the conference, who also holds the position of Secretary of Social Service and Evangelism, were among the early arrivals. The proceedings commence tomorrow morning with the observance of the Lord's Prayer. The rest of the morning will be devoted to conference business. In the afternoon Dr. Chown will deliver the Quadrennial address, which promises to be a message of great importance.

The public reception of the delegates will take place in the evening, when Mayor Booker will welcome the delegates, responding addresses being made by Mr. Justice McKeown, of St. John, N.B., and Rev. Dr. Chown.

CHICAGO BANK

PRESIDENT SHOT

Chicago, Oct. 1.—Nicholas Kyriakopoulos, president of the Atlas Exchange National Bank, was shot and killed in the street last night. Peter Demopoulous when arrested, is said by the police to have admitted the shooting and to have declared that the dead man had swindled him.

LEMON JUICE

WHITENS SKIN

Girls! Make beauty lotion at home for few cents

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best bleaching and skin whitening lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck arms and hands each day and see how the tan, redness, sallowness, sunburn and windburn disappear and how clear, soft and rosy-white the skin becomes. *Yeast is harmless.*

AT THE THEATRES

SESSUE HAYAKAWA AT THE EMPIRE AGAIN TODAY "JUNE CAPRICE" TOMORROW

"HIS BIRTHRIGHT" Sessue H. Hayakawa, the actor who has been playing to crowded houses at the Empire for the past two days, will be seen again today for the last time. "His Birthright" is one of the most remarkable plays of its kind, the star a Japanese himself, being responsible for the very effective interpretation of the little understood Oriental character.

JUNE CAPRICE TOMORROW.

Daring June Caprice in a play in which the dramatic interest piles up without flagging until the crashing climax relieves the tenseness, will be the big attraction for tomorrow, along with another chapter of "THE EAGLE'S EYE." The title of the June Caprice play is "MISS INNOCENCE," and depicts a pure and pretty girl braving the opinion of the world to save the man of her heart.—Adv.

MADAME PETROVA LAST TIME TODAY AT THE VICTORIA

Today will be the last opportunity Quebecers will have of seeing "The Light Within" featuring Madame Petrova, the screen's most distinguished artist at the Victoria Theatre. The picture is unquestionably one of the strongest ever made by this actress and no one should miss seeing it. There is also a fine Lyons Moean comedy, "Please hit me." Coming tomorrow: Elsie Ferguson, in "Heart of the Wilds" and Fatty Arbuckle in "His Wedding Night."—Adv.

Social and Personal

Mr. J. T. Davis, of Montreal, is a guest at the Chateau.

Sir Wilfrid Laurier is spending a few days in Montreal.

Brigadier-General Swift is expected in town from Ottawa today.

Mr. L. Brousseau of Chicoutimi, is registered at the Chateau.

General Elmsley is expected in Quebec shortly to spend a few days.

Mr. J. E. Desjardins, of Montreal, is in town, registered at the Chateau.

Captain Percy Flynn has been attached to the Siberian Expeditionary Force.

Lieut.-Col. E. C. Dean, is in the city from Halifax, and is staying at the Chateau.

Mr. Adelard Tanguay and Miss Tanguay have left for a tour of the American West.

Mrs. John McGowan, Holyoke, Mass., is in town, the guest of her sister, Mrs. J. A. McClure.

Mr. and Mrs. J. M. Gingras have returned to town from Riviere du Loup, where they spent a few days.

Mr. M. Monast has returned to town from his vacation, which was spent in Montreal and the Country of Rimouski.

Mr. and Mrs. J. T. Donohue, Miss Eileen Donohue, and Mr. Charles Donohue have returned from Murray Bay, where they spent the summer months.

Mr. and Mrs. J. W. LeBel have returned to town from Montreal, where they spent a few weeks, the guests of their daughter, Mrs. de Gaspé Goudeau.

The marriage is announced to take place on the 8th instant of Miss Marie Ann Simoneau, daughter of Mr. and Mrs. Nazaire Simoneau, of this city, to Mr. Odilon Kirouac, son of Mr. J. A. Kirouac, also of Quebec.

The engagement is announced of Miss Mildred K. Walling, daughter of Mr. E. H. Walling, of this city, to Mr. J. Duncan Maguire, of Montreal, formerly of New Carlisle, P.Q. The marriage will take place quietly on the 16th of October.

The marriage is announced to take place in St. Patrick's Church, this city, on the 14th instant, of Miss Irene McMahon, daughter of Mr. William McMahon, Quebec, to Mr. Robert McHenry, son of Mr. William McHenry, also of this city.

The Duchess of Devonshire, accompanied by Miss Saunders, visited Queen Mary's Needlework Guild at 118 Windsor Street, Montreal, on Monday afternoon, where she was received by the President, Mrs. D. Forbes Angus, Mrs. John Turnbull, Mrs. Arthur Drummond and Miss Scott, and other members of the committee. Her Excellency expressed much pleasure over the display and excellence of the work, and had a cheery word of greeting for each one present.

The marriage was solemnized on September 28th, at the Dominican Church, Ottawa, of Miss Reynalde Francoise Begin, to Mr. Henri L. Capdeville of Portsmouth, New Hampshire. In the absence of the bride's father and brother, Lieut. Col. Begin and Lieut. Berchmans Begin, who are both in France, Madame Begin gave her daughter away. Mr. L. A. DuPlessis, Asst. Comptroller of the R.N.W.M.P., was best man. The nuptial ceremony was performed by Rev. Father Charland, Dominican, uncle of the bride. Immediately after the ceremony Mr. and Mrs. Capdeville left on their wedding trip. After October 20th they will reside at Portsmouth, N.H.

The Cathedral of the Holy Trinity

was the scene of a pretty though quiet wedding yesterday morning, when Miss Emma Mathilda Moffatt, second daughter of Mr. and Mrs. William Hall Moffatt, of this city, became the bride of Regimental Sergeant-Major Harry W. Steel, D.C.M., son of Mr. and Mrs. H. Steel, of Preston, Ont.

The bride, who was unattended, was given away by her father, and looked charming in a navy blue crepe de chine and Georgette crepe dress, with black fox fur and black picture hat.

The Very Reverend Richmond Shreve, D.D., officiated. After the church a reception was held at the home of the bride's parents, 56 Claire Fontaine street, following which the happy couple left for Montreal and New York by motor, and will later take up their residence in Montreal.

Sergeant-Major Steel has spent over thirty months in France with the First Canadian Division, and has been both wounded and gassed. He has been the recipient of the two decorations for his work at the front—the Distinguished Conduct Medal and the Military Service Medal. Mrs. Steel was formerly a member of the teaching staff of Victoria School, Quebec.

Miss Jeanne Prince, who has been the guest of Mr. and Mrs. J. E. Perreault, Arthabaska, has returned home.

Dean, Halifax; Mr. and Mrs. Chas. L. Warner, Bridgeport, Conn.

How to Rid the Skin of Objectionable Hairs

(Aids to Beauty)

A simplified method is here given for the quick removal of hairy or fuzzy growths and rarely is more than one treatment required: Mix a stiff paste with some powdered talc and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and every hair has vanished. This simple treatment cannot cause injury, but care should be exercised to get real talc.

APARTMENTS TO LET.

Those desiring apartments for the winter months would do well to enquire at the office of the Chateau Frontenac before deciding on rooms elsewhere as, from the first of October special reduced rates will be granted.

You Can Have Dainty and Luxurious Underwear

Have you longed for those dainty undergarments the best shops show? Have you envied the luxurious softness of their fine materials, the exclusive trimness of their careful fashioning.

Such is Moodie's Peerless Underwear. Fashioned to fit—you hardly know you have it on. Trim and always in place.

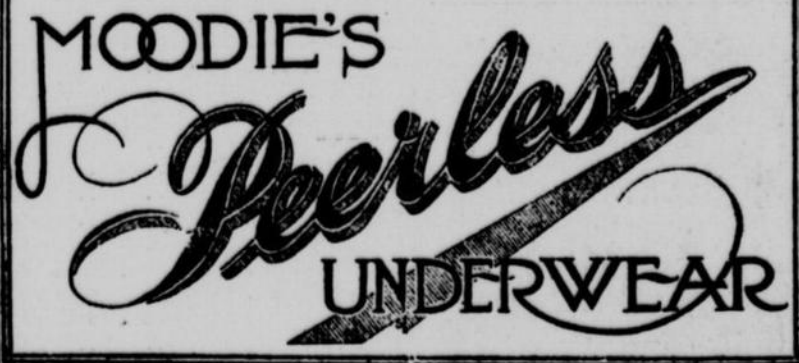

And wonderfully fine in texture and feel. You'll love to wear it.

Price need not stand in the way of your enjoying dainty and luxurious undergarments. Moodie's Peerless Underwear is high-quality, but not high-priced. There's economy, too, in its long service.

Made in weights for all seasons. In all styles, both combinations and separate garments. For women and children. Sold by nine out of ten shops.

The Peerless Underwear Co., Limited
