Much Less Than Republicans Counted On — Democrats Make Gains Throughout States But Republicans Will Still Have Majority In Next Congress.

New York, Nov. 7.—Elections were held yesterday in 42 states, and, generally speaking, there were no great surprises. Throughout the South the Democratic state and congressional ticket have been elected by the usual majorities.

In the West and East the states that were aligned two years ago in the the Democratic or Republican columns show no material change. The Republicans retain control of Congress by a good majority. Perhaps the widest general interest centered in the remarkable fight for governor in New York state, between Charles E. Hughes, the Republican candidate, and William Randolph Hearst, the regular Democratic and Independence League candidate.

The latest returns available show that Mr. Hughes, while losing nearly all the principal cities of the state, was successful by about 50,000 plurality. The rural districts brought about the Republican victory.

In New York city the Tammany-Independence League judiciary ticket was successful, with possibly one exception, over the candidates named by the non-partizan "judiciary nominators."

Massachusetts has re-elected Curtis Guild, jr., Republican, as governor over District-Attorney Moran, of Boston, who was the candidate of the Democratic party, the Independence League and the Prohibitionists by 40,000 majority.

In Chicago it is estimated that the Independence League ticket polled 40,000, but there was a Republican plurality for the state officers.

Pennsylvanic has elected Stuart, Republican, governor, over Fusion opposition, by the usual Republican plurality.

In Rhode Island, Jas. H. Higgins, Democrat, is elected governor.

Michigan, Iowa, New Hampshire, North Dakota, Connecticut, Minnesota, Indiana and Wisconsin have rolled up big Republican pluralities, although there was some falling off from the usual vote in Iowa.

Nebraska shows big Republican gains. Ohio also shows Republican gains over the Pattison vote of last year. The Republicans expect a plurality of 75,000 in the state.

The constitution of the new state of Oklohoma will be written by the Democrats. The Indians voted almost solidly Democratic. Oklahama also went strong Democratic in choosing delegates to Congress.

Arizona and New Mexico voted favorably on the proposition to enter the union jointly as a single state.

Gov. Hoch is re-elected in Kansas by a slightly reduced majority. The result in Missouri was in doubt at a late hour, the Democrats expecting to gain some of the congressional districts they lost two years ago.

Congressman Nicholas Longworth was re-elected in Cincinnati.

Congressman J. W. Wadsworth, for many years chairman of the house committee on agriculture at Washington, was defeated in the 34th district of New York.

The Republicans carried Utah, Wyoming and Washington and seem to have lost Nevada, while both parties are claiming Colorado.

NEW YORK RESULTS.

As generally was expected, Mr. Hearst showed his greatest strength in the cities throughout the state, and took out of the Republican column a number of the more important municipalities. Among the cities which gave Hearst a plurality were Buffalo, Rochester, Utica, Troy, Elmira, Rome, Little Falls and Johnstown. All of these, except Utica and Rome, were Republican two years ago. Mr. Hughes did not gain a single city. The Republican ticket was successful, but sustained serious losses in Syracuse, Gloversville, Amsterdam, Ithaca, Schenectady, Watertown and Plattsburg.

As a result of the scratching and the voting for the same candidates under different party emblems, the returns for the subordinate officers on the various state tickets are so complicated as not to be available last night.

Great interest centered here in New York in the campaign waged for the judiciary ticket, named by a committee of lawyers, headed by Jos. H. Choate, and former Judge Alton B. Parker. The Tammany and Independence League joint ticket has won over the non-partizan candidates by big pluralities.

Otto A. Rosalsky, Rep., is elected judge of general sessions over McAvoy, Sem.

State Senator Thomas F. Grady, of Tammany Hall, has been re-elected over Thomas Rock, who has been known in the campaign as "Eight Hour" Rock, and who claimed he had been "tricked" by the Independence League.

Throughout the state there has been a notable falling off in the vote from 1904, which was a presidential year.

The Republican ticket showed the greatest loss in this respect, especially in the cities.

In claiming the election of Mr. Hughes last night by a large plurality, Republican State Chairman Woodruff said: "I knew all along we had lost the labor vote. Every possible thing was done to recover it, but I think without avail."

MR. HUGHES NOT ELATED.

Mr. Hughes said: "I am very much gratified if I am elected. Whatever my plurality may be, my feeling is not one of elation, but of responsibility."

While both the State Senate and Assembly will be strongly Republican, the Democrats are claiming that they have made gains. The complexion of the New York congressional delegation, it is believed, will undergo but a slight change, if any. Returns on congressmen, State Senate and Assembly are coming in slowly.

MR. HEARST'S STATEMENT.

At 2.15 o'clock this morning, Mr. Hearst said: "In view of the result I have only to reiterate what I have said in my speeches. I am enlisted in this fight against the control of the Government by the trusts and corrupt corporations, and I will fight to the end.

"But I will serve in the lead or in the ranks, just exactly as the people desire, and as earnestly and loyally in one place as in the other. The people have decided to retain the Republican party in power. I will make my fight in the ranks, therefore, and as a private citizen do my best to promote the interests of my fellow citizens."

At 11.30 o'clock State Chairman Woodruff estimated Mr. Hughes' plurality outside of Greater New York at not less than 130,000. He was confident that Mr. Hearst would receive less than 80,000 plurality in this city, and that Mr. Hughes would consequently have 50,000 or more plurality in the state.

After receiving the returns up to 9 o'clock last night, Max F. Ihmsen, campaign manager for Mr. Hearst, sent to Independence League leaders throughout the state the following telegram:

"Urge your watchers to utmost vigilance. Returns from Republican strongholds everywhere withheld. Compel immediate declaration of results. Hearst elected by 50,000. Don't permit victory to be snatched away by fraud. Fight for your rights. Get out the figures.

"(Signed.) M. F. IHMSEN,
"Chairman."

Charles F. Murphy, leader of Tammany, and a number of district leaders and candidates, received the candidates at Tammany Hall. Just before midnight Murphy said: "It is now clear to everyone that at Buffalo this organization (Tammany) did nothing more than recognize and obey the demands of the people."

This was Mr. Murphy's only comment on the election.

ARRESTED FOR SERIOUS OFFENCE.

VROOMAN TAKEN INTO CUSTODY AT LONDON, ONT. — COMMITTED ASSAULT AND DESERTED POST AT STATION.

London, Ont., Nov. 7. — (Special)—Elmer Vrooman, night operator at Dorchester station, was arrested yesterday charged with assault on the daughter of Stationmaster Cusson, of Dorchester.

Immediately after committing the alleged crime Vrooman left for London, where he procured a livery rig and stating he had allowed the train to pass his station against orders and leated wreck, announced he was about to leave the country. His story proved correct, as he had left the office unattended, and several trains passsd before another operator was notified. A dense fog prevailed at the time, thus increasing liability of wreck.

LOCKED IN VAULT.

UNPLEASANT EXPERIENCE OF TWO LADY STENOGRAPHERS.

Toronto, Nov. 7.—Two of the lady stenographers in the Provincial Secretary's Department was accidentally locked in the large vault Monday evening, and narrowly escaped spending the night there. Fortunately the vault, which owing to the lack of office space in the Parliament buildings, is also used as a workroom, has two or three windows overlooking the lawn at the back of the buildings. A tennis match was in progress there, and the two young ladies by calling from one of the windows managed to attract the attention of some of the spectators. These communicated with officials of the department, who were just leaving the buildings, and in a short time the involuntary prisoners were released.

As the result of a free fight of Lake Shore section men near Sandusky, Ohio, in which knives were freely used, Michael Mitera is dying, several others wounded and a number are under arrest.

THE CITY REVENUE, OF WHAT IT CONSISTS.

Real Estate Tax Furnishes Two-Thirds of Total.

A STATEMENT OF THE VARIOUS SOURCES OF REVENUE IN THE CITY.

In view of the petition now before the Council for the abolition of the salary tax or to change the minimum on which it is levied, a statement of just how the city revenue is made up may prove of interest. The purpose of the city authorities has been to make every citizen pay his fair share of the city expense. This is a very difficult thing to do and probably has not been entirely accomplished.

EXPLANATION OF TAXES.

The various taxes or licenses which are collected may be slated as follows:

General Tax consists of a levy of 12 mills per dollar on the valuation of all taxable real estate in the city. Real estate, also, pays an additional tax of 5 mills for school purposes and 1-2 mill special sewer tax.

Business Tax is a levy of 2 p.c. on the rental of premises occupied by a person engaged in business in the city.

Tenant Tax is 2 p.c. on rentals. A business man who rents the premises he occupies therefore pays 7 p.c. on his rental.

Special Tax is collected from certain lines of business, such as banks, $250; auctioneers, $25 to $50; telegraph and telephone, $25 each; brokers, $50, etc.

Salary Tax, 1 p.c. on salaries over $500, that is no tax is collected on the first $500 of a man's salary.

Insurance Tax, Life Cos., $50; Accident, $20; no tax on fire insurance companies.

Dog Tax, $2 to $5.

Horse Tax, $2.

Professional Tax—Lawyers, doctors, surveyors, notaries, etc., $10.

Liquor licenses—Hotels, $200; liquor groceries, $150; wholesale, $100; liquor restaurant, $200.

Sundry licenses—Pedlars, butchers, billiard and pool tables, bowling alleys, livery stables, transient traders, milk vendors, etc.

Carters and hacks—$3 to $7.

THE REVENUE.

These taxes and licenses and a few other sources of revenue gave the city last year $78,152.58, divided as follows:

General tax	$52,633.68
Business tax	3,877.32
Tenant tax	3,425.48
Special tax	1,445.00
Salary tax	1,375.02
Insurance tax	990.00
Dogs	546.50
Horses	853.50
Professional tax	570.00
Liquor licenses	4,550.00
Sundry licenses	1,317.50
Carters and hacks	412.00
Fines and costs	895.08
Interest	463.21
Market fees	4,252.25
Interest sinking fund	181.71
Farm	89.39
Wood	141.12
Rent, etc.	132.82
	$78,152.58

THE SALARY TAX.

Regarding the Salary Tax. As levied this year, 1906, it amounts to about $1800. $1400 of this is paid by heads of corporations, departments or clerks, only about $400 coming from the mechanics of the city. Thirty-four men pay $685 of the amount. The highest salaried man in the city pays $95 of this amount, and the next $45.

JAPAN AND THE UNITED STATES.

Investigation Into The San Francisco Matter.

SCARE OVER TOKIO'S SEIZING PHILIPPINES RENEWED— CAPT. ALDRICH SAYS PLANS HAVE BEEN MADE.

San Francisco, Nov. 7—Secretary of Commerce and Labor Victor H. Metcalf, accompanied by Consul I. N. Uijen of Japan Monday visited the Japanese quarter of the city and the Oriental school, in pursuing his investigation into the exclusion of Japanese pupils from schools attended by white children. The secretary ate luncheon with the Japanese consul, and then went to the Japanese Consulate, where he heard statements and complaints of Japanese restaurant keepers, who say that their business is boycotted.

SAYS JAPAN WILL TAKE ISLANDS.

Oakland, Cal., Nov. 7—Captain T. H. Aldrich, a nephew of Major General Shafter, in command of Company H, Thirty-fifth Infantry, is convinced that Japan ultimately will make a determined effort to take the Philippines from the United States. He thinks the present agitation may have been brought about with a view to precipitating trouble, preparatory to the invasion by Japan of Luzon. Captain Aldrich points out that the northern extremity of Luzon is only two hundred miles distant from the Japanese island of Formosa, and that the entire eastern coast line of Luzon, a bleak, barren stretch of seven hundred miles, is protected and patrolled by only one company of infantry located in the bight opposite the island of Polillo. This island is twenty-two miles long and lies fifteen miles out from Luzon. From this point the insurgents received arms and ammunition when fighting the United States troops. Captain Aldrich says:

"I am firmly of the opinion that the Japanese Government is preparing to take the Philippines from the United States, and thus command the entire coast line."

MILLION DOLLAR FIRE IN OHIO.

Big Dry Goods Stores and Other Buildings Destroyed.

MOST DISASTROUS FIRE IN THE HISTORY OF HAMILTON, O.

Hamilton, Ohio. Nov. 7.—(Special)—The most destructive fire in the history of this city broke out this morning in the dry goods store of C. D. Mathes & Co. The flames were communicated to the dry goods store of Holbrooke & Co., and both stores were destroyed. The loss upon buildings is estimated at $150,000, and that upon stores at $250,000.

The flames leaped across the alley to the building occupied by the T. V. Howell & Sons dry goods company, and Second National Bank. Both were destroyed. At two o'clock the flames spread east and west on High street, towards Second and Third streets, and it is believed that everything in the path of the flames will be destroyed.

Assistance was summoned from Cincinnati and Dayton.

It was estimated early to-day that loss might reach $1,000,000.

RUSSIANS ARE OUT OF MANCHURIA.

Evacuation Of Territory Is Completed.

CHINESE COMMISSION BEGINS ON TARIFF INVESTIGATION — MOUKDEN AND FOREIGN TRADE.

New York, Nov. 7.—A Pekin copyright despatch to the Times says that a well-known Englishman just returned from the north of Manchuria reports that with the exception of the railway guards all the Russian forces have been withdraw, and that Chita in Trans-Baikalia will be the most important military depot of the Siberian Railway west of Manchuria. The Chinese Commission is leaving to investigate the conditions in Manchuria. Many questions require solution, the most important being the opening of Moukden and other cities to foreign trade—the Chinese still persist that the cities themselves must not be opened—and the question of the customs at Dalny. Differential treatment as regards rates is now accorded on the railway in favor of Dalny and against NewChwang, but it is hoped that this is only temporary, during the military occupation. It is reported that the Japanese desire that Japanese of the South Manchurian Railway Company shall act as agents for the board of revenue and levy and collect customs duties at Dalny and remit them to Pekin. Such an arrangement is bound to be strongly opposed, for the Japanese railway company consists of merchants and manufacturers whose goods thus would be handled by customs officers under their own control. The arrangement favored here is the establishment at Dalny of the system which works so favorably at Kiao-Chow. The question of the withdrawal of the Japanese military administration at NewChwang has been settled in principle, but the details are still incomplete. The military administration will cease about the end of the month, when the port will be closed by ice.

MAGOG BED OF RIVER CASE.

Evidence Being Taken Before Judge Demers.

CIVIL ENGINEERS FIRST EXAMINED — HAVE KNOWN LOOSE LOGS AND SMALL SKIFFS TO COME DOWN.

A start was made yesterday afternoon about five o'clock in the Magog River Bed case before Mr. Justice Demers at the conclusion of the business in the Circuit Court. It is said the case largely depends on whether the evidence shows the river to come under the head of "navigable stream."

The first witness examined was Mr. G. K. Addie. He stated that he had lived nearly all his life in Sherbrooke and was well acquainted with the Magog River. The river extended over a distance of about 18 miles from Lake Memphremagog to the discharge at St. Francis River. About five or six miles of a lake intervened. The dam erected by the British American Land Company at the Little Lake had been there as long as he could remember. Witness then produced a profile of the surface of the river from the dam at the Little Lake down to a distance of about three miles towards Sherbrooke. The fall in the distance as shown in the profile was about 33 feet. Witness thought that the fall of the river from the upper dam to the St. Francis River would be about 100 feet. The course of the river is crooked and irregular throughout the entire length, except where it has been dammed and the current artifically checked. Witness said that the only thing he ever knew to be floated on the river besides single logs, was small skiffs, except in that portion where it was artifically dammed he had seen small steam launches cruising. To his knowledge he had never known logs to have been taken down in rafts. In his opinion small skiffs might reach the point of the river in question, but it would only be by poling as the current was so swift. It was impossible for a skiff or a canoe to come down the Magog River from the Paton Co. dam to the St. Francis, and he had never heard of logs having been floated down this portion of the river.

Cross-examined, witness stated that he had not observed any change in the volume of water in the Magog River since he had known it, but it was an acknowledged fact that the discharge of rivers have altered in capacity, owing to the clearing of the country.

The Court then adjourned.

This morning, Mr. L. A. Dufresne, land surveyor, was the first witness called. He stated that he had experience in surveying rivers. He produced a plan of the Magog River from the Little Lake to Sherbrooke, showing the lots. The distance of the River Magog from the St. Francis to the Little Lake was 10 1-3 miles. The character of the river from the Little Magog Lake to the point in dispute is very rapid, and shallow. Witness also made some measurements of the river and character of the bottom. There were some boulders in the river, below and above the surface. The current ran at the rate of ten miles an hour. Witness produced a number of plans giving the width, etc., of the river. The fall of the river from the Paton dam to the St. Francis was about 100 feet.

Witness said that it would not be practicable to go up the stream between the section covered by the letters patent and the dam at outlet of the Little Lake with any kind of a craft, neither was the stream flotable for any but loose logs.

SHERBROOKE RETAIL MERCHANTS MEET.

Are Opposed to New Trading Stamp Scheme.

PASS A RESOLUTION TO THIS EFFECT — MERCHANTS WILL OPPOSE ITS INTRODUCTION.

The retail merchants of the city met last evening in Murray's Hall, Mr. L. H. Olivier presided. Mr. E. P. Bedard was appointed secretary for the meeting.

Some time ago the green trading stamps were in vogue but this system was stopped by act of Parliament. A new scheme of a similar character, but which, it is understood, comes under the law, is now advanced by representatives of the former system, Messrs. H. A. Wilder & Co., of Montreal.

At the meeting last night the new trading coupon matter was thoroughly discussed before about seventy-five merchants of the city. As the green trading stamps did not prove very satisfactory, and was a means by which many merchants lost money, the meeting was very much against accepting the new and similar scheme.

A resolution was passed to oppose this new system and a committee was appointed consisting of Messrs. Boucher, Bedard, Stenson, Lanctot and Olivier to visit the merchants not present at the meeting.

The committee have completed their work and report that all the merchants of the city are against the new coupon system.

Some of H. A. Wilder & Co.'s agents were in the city yesterday but did not meet with success.

Miss Edith Thorpe entertained a number of her young lady friends at the tea room Saturday in honor of Miss Verna Barlow.

The Young People's Circle of the Methodist Church is being entertained by Mrs. W. L. Shurtleff on Thursday evening.

Chief T. E. Garceau has been hired by the corporation for a further period of one year as road overseer and Chief of Police. It has been noticed that Mr. Garceau has done all in his power to further interests of drivers and pedestrians in his capacity of overseer, it being especially hard this year owing to the several heavy rain storms, making extra work, as some places had to be fixed two and three times over.

Make Healthy Women.
Whether you believe it or not, this incontrovertible fact remains. These tablets will change weak and diseased organs into strong, healthy organs; fast with some, more slowly with others, but sure and absolutely certain with all who persist in their use, except the few beyond the help of medicine.
Disease, even chronic, will then disappear as these organs are restored to their normal conditions.
These tablets are now recognized beyond doubt or question as best adapted to the special needs of women.

YOUR WILL POWER.

Every Day a Man Has the Chance to Prove His Strength of Purpose.

When a man enters a store he knows what he wants, and if he has that quiet strength of purpose he gets what he wants.

If a man goes into a store to get a pair of shoes or a Semi-ready tailored suit he proves his will power when he insists, like the man from Missouri, on the "Show-me" policy. Make the clerk show the label and price on the garment or article.

Semi-ready tailoring would not have its reputation for goodness if it had not been earned by excellence. The Semi-ready label is sewn on the inside of the pocket of every genuine Semi-ready garment.

"Grand Peninsular"

Is an Ornament to the Home.

Popular taste no longer clings to deeply carved, highly ornamental ranges.

People now want rich, yet simple, elegance.

That is the way I make my new Grand Peninsular Range.

The "Grand Peninsular" is easy to keep clean, because there are no deep carvings to collect the dust and dirt. The design is simple but very effective. No fuss or frills. Just smooth surfaces which take a beautiful bright polish. The nickelled castings are detachable, and can be lifted off without loosening a bolt, when the range is to be brushed or cleaned.

Then there is the ALL-STEEL OVEN—the THERMOMETER on the oven door—extra large GRATE BARS—and a dozen other time-and-labor-savings conveniences—that are exclusive with my GRAND PENINSULAR. Have your dealer show you all these points. 42

Monday eve a very interesting and instructive lecture, illustrated by colored lime light views, was gratuitously given in the Town Hall, Lennoxville, by Mr. George Fuller, Principal of Knowlton Academy, who is visiting his brother in town. A few maps of North America and California were shown first, then the city of San Francisco, the Golden Gate, the magnificent harbor of the city, Seal Rocks, the Cliff House, etc. The audience were then taken in imagination across the Bay to the city of Oakland and other towns, and saw orange groves, both in bloom and laden with fruit. They were then carried eastward to the famous Yosemite Valley, or National Park of the United States, where all the principal points of national beauty were exhibited, including the "big trees," some of them 50 feet in diameter, and 300 feet high, waterfalls, mountain peaks, lakes and other marvels. Returning to Canada the lecturer showed some very pretty specimens of our native trees, such as the maple, and elm, which compared very favorably in point of beauty with the great trees of the west. A few of the Canadian schools taking up the McDonald Nature Study and some of the consolidated schools, were shown, with views of the Knowlton Academy, the McDonald Hall at Guelph, Ont., and others. A vote of thanks was tendered to Mr. Fuller for the delightful evening's entertainment he had given. A silver collection was taken up in aid of the school library.

Remember the opening social and concert at the Y.M.C.A. Friday evening, Nov. 9th.

THE MAGISTRATE'S COURT.

Horace Alex, of Fitch Bay, who pleaded guilty to a charge of stealing a baby carriage from Mr. C.H. Mansur, Rock Island, came up for sentence this morning before Judge Mulvena. In view of the fact that the accused had previously borne a good character, and that certain other exceptional circumstances had come to the knowledge of the Court, Judge Mulvena sentenced him to thirty days in jail, and at the same time gave the accused a severe admonition.

THE CALEDONIAN SOCIETY.

The Caledonian Society held their regular quarterly meeting last evening. There were present Messrs. Mackinnon, Dinning, Sangster (President), Ballantyne, Dunsmore (Secretary), Duncan, McLeod, Dean and others. The regular routine business was transacted. A committee was appointed to prepare and make arrangements for a celebration on January 25th, in memory of Burns. Several prominent speakers from other cities will be present on this occasion and deliver addresses. A piper will also be in attendance. Ladies are to be present at the banquet.

THE S. P. C. A.

The regular monthly meeting of the Sherbrooke branch of the S. P. C. A. was held on Monday afternoon at the Y. M. C. A. building. Those present were: the Vice-President, Mr. F. P. Buck, Mrs. Hargrave, Mrs. Buck, Mrs. Powers, Miss Elkins, Mrs. White, Mr. G. E. Borlase, Secretary, and Mr. E. S. Foss, Inspector for the Society. In the absence of the President, Dr. A. N. Worthington, Mr. Buck took the chair. The report of the work of the month was submitted. Only three cases had been brought before the Society, and all had been investigated and dealt with satisfactorily. The overcrowding of animals on the railway cars was the subject of discussion and instances were cited when the packing was so close that when an animal fell down, it was unable to get up again.

Mr. Buck said that shippers are allowed a certain number of animals to a car and unless that number was exceeded, nothing could be done by the S. P. C. A. No doubt, however, overcrowding is often practised, and overlooked by the authorities, and in that case the society could and would interfere. The Inspector was given full discretionary powers in the matter, and any case of the kind, if reported, will be followed up.

Mr. Borlase stated that after the appearance in the daily paper of the case of cruelty to a horse at Windsor Mills, he had received a letter from the President of the Montreal S.P.C.A. offering $25.00 towards prosecuting the case, and the Secretary of the Quebec Society had also written in regard to the matter, showing the interest taken in the work of the Sherbrooke branch. One new member was enrolled and it was decided, to arrange with the secretary of the Y.M.C.A. for the use of a room for the meetings.

No other business being brought up, the meeting adjourned.

EXCAVATIONS BROUGHT TO LIGHT SKELETON SUPPOSED TO BE THAT OF THE ARTIST.

Florence, Nov. 6.—The Leonardo da Vinci Society of Florence is about to undertake fresh researches to discover the tomb of the great artist whose name it bears.

Frances I., after the Battle of Marignano, gave his faithful follower, Leonardo, a cottage, now called Clos-Luce, near by the Castle d'Amboise. Ten days before his death there, in May, 1519, Leonardo inserted a clause in his will desiring to be buried within the Church of St. Florentin d'Amboise.

Excavations made among the foundations of the demolished church by M. Arsene Houssaye in August, 1863, brought to light a skeleton 5 feet 6 inches long, which M. Fleury, director of the French School at Rome, thought coincident with the characteristics of Leonardo's portrait painted by himself. Moreover, fragments of a sepulchral stone, on which the characters, "Leo" and "Vinc" plainly appeared, seemed to confirm the authenticity of the relics. However, later on, M. Harisin produced a copy of the death certificate (the original having perished), and this tended to show that Leonardo da Vinci was interred, not in the Church itself, but in the adjacent cloisters. Then arose other critics who tried to prove from topographical evidence that the said certificate was apocryphal; and the problem has remained in doubt ever since.

EDUCATION BILL.

DEBATE IN LORDS ADVANCED AS FAR AS CLAUSE FOUR.

London, November 6.—In the House of Lords last night the debate on the educational bill advanced as far as clause 4, which provides that the local educational authority "may" afford extended facilities for special religious instruction. Lord Heneage's amendment, making his clause mandatory, was carried against the Government by 157 votes to 46.

In a recent automobile wreck caused by a motor running into a ditch near New Britain, Conn., Henry Maxwell is dead and four others hurt.

CITY NEWS.

Mrs. J. L. Cote entertained yesterday at a very successful and largely attended tea at her home in Lennoxville, in honor of her niece, Mrs. Clarke, of Hamilton, Ont., who is her guest. Mrs. Cote, who received her guests in the drawing room, was assisted by Mrs. Clarke, Mrs. Chamberlin, Mrs. F. W. W. Bowen and Mrs. Anderson, Sr. In the tea room, where the decorations were red and white, carnations and smilax, Mrs. A. G. Lomas and Mrs. J. S. Mitchell poured tea and coffee. Salads and ices were served by Mrs. L. A. Bayley and Mrs. John Leonard, assisted by Mrs. A. H. Anderson, Mrs. A. F. Foss, the Misses Mitchell, Taylor, Orr and Blue. Among those present were Mrs. R. W. E. Wright, Hon. Mrs. Henry Aylmer, Mrs. Worthington, Mrs. Norreys Worthington, Mrs. Bradford, Mrs. S. W. Jenckes, Mrs. Wells, Mrs. Grundy, Mrs. E. R. Johnston, Mrs. E. C. Fraser, Mrs. J. O. Duncan, Mrs. Tuck, Mrs. Hood, Mrs. Steele, Miss Howe, Misses Gertrude Johnston (New York), Hunt, Moe, E. Hargrave, Tomlinson, Elkins, Lomas, Blue and many others.

A large number of the friends of Mr. C. C. Knight and family assembled in the lecture hall of the Methodist church last evening to spend an hour or two with them, and to bid them good-bye and "God-speed", to their new home in Regina, Saskatchewan, whither they go next week, Mr. Knight being given in charge of that great province in the interests of the Sun Life. — The room had been prettily decorated with flowers, plants and flags and looked very attractive. After an hour had been spent in social converse the Rev. Mr. Deeprose, pastor, called the gathering to order, and in a feeling address voiced the regret of the numerous friends of Mr. Knight and family at their removal from Sherbrooke, wishing for them even greater usefulness, health and prosperity. He then presented Mr. Knight with a very handsome photograph box partly filled with photographs of the officers and teachers of the Sabbath school and members of the Official Board of the Church. The box was done in burnt effect, and hand-painted flowers, lined with silk, and will be a souvenir to be prized. Mr. Knight was visibly affected in replying to the pastor's address. He alluded to the ten years spent in Sherbrooke, as most pleasant years, which he could never forget, nor the kind friends who had received him and his and made them feel at home from the first. He said that honest differences of opinion may have occurred, and they had not always seen eye to eye in everything, still he hoped and believed that he retained their esteem and friendship. Dr. Hyndman, who has succeeded Mr. Knight as superintendent of the Sabbath school, presented Miss Spence, one of the teachers with a handsome bracelet on behalf of the school, and other members of the family were privately remembered with pretty souvenirs of their stay in Sherbrooke. Refreshments were served and the pleasant re-union terminated shortly after ten o'clock. An orchestra rendered excellent selections during the evening, and a solo by Mrs. Armitage and a male quartette by Messrs. George Armitage, C. W. McKay, H.F. Roberts, and Ernest Armitage, materially added to the pleasure of the occasion. Mr. Knight and family expect to leave about the middle of next week for their new home.

GOING TO WEST INDIES.

WINSTON CHURCHILL AND DUKE OF MARLBORO TO VISIT ISLANDS.

London, Nov. 7.—Winston Spencer Churchill, the Parliamentary Secretary of the Colonial Office, will go to the West Indies about Christmas to study the resources of the islands, especially the prospects of extending cotton growing. The Duke of Marlborough and Sir Alfred Jones, president of the Liverpool Chamber of Commerce, and others interested in the islands, will accompany him.

CHINAMAN'S SUICIDE.

QUONG LUNG HANGS HIMSELF AT GRAND VALLEY.

Grand Valley, Nov. 7.—A Chinaman named Quong Lung, who had been conducting a laundry business here for the past few months, was found dead, having committed suicide by hanging himself. Not having been seen since Monday the authorities became suspicious and forced an entrance. The body was found suspended from a beam in the drying room of the laundry. He had been dead for several hours. He was apparently in prosperous circumstances.

DANA'S BROTHER DEAD.

WAS 86 YEARS OLD AND LEAVES LARGE ESTATE.

Warren, Ohio, Nov. 7.—Junius Dana, only brother of the late Chas. A. Dana and for many years one of Warren's conspicuous citizens, died Wednesday at Buckeye Lake, near Newark, where he had gone to hunt duck. He was the financial sponsor for the Dana Musical Institute, was interested in a number of manufacturing concerns, and leaves a large estate. He was 86 years old.

MONEY AND RANK.

American girls who married for rank have paid so dearly for their bargain in titles that they are beginning to question very seriously if it was really worth while to give up so much of the "real" American money for degenerated old world nobility. Experience is a hard taskmaster, but there is some satisfaction in thinking that although Consuelo Vanderbilt and Anna Gould will come out of their late situations of supporting extravagant husbands considerably poorer, they may also be somewhat wiser.

CANADA AND NEWFOUNDLAND.

Newfoundlanders are aroused over their fishery difficulties with the United States and indignation at what they regard as the sacrifice of their interests by the mother country in the agreement entered into with the Washington Government.

A press despatch says the islanders will appeal "to Canada, Australia and South Africa to support the colony in insisting upon its power to legislate respecting its own people." It holds that the modus vivendi violates this power.

Canadians, recalling the Alaskan boundary settlement, the Maine boundary matter, etc., are able to offer a very real sympathy to their island neighbors.

It might not be bad policy to make this feeling known to the people of Newfoundland who have regarded Canada somewhat coldly during recent years.

The rounding out of the Dominion by bringing Newfoundland into the Canadian confederation is a matter which should not be lost sight of by Canadian statesmen.

LOCAL OPTION CAMPAIGN IN SUTTON.

A local option campaign is now in progress in Sutton Township.

Brome County stood by the Scott Act when all others had abandoned it. Finally it was defeated in this banner county of temperance and morality. For some time a movement has been on foot to have the Act again submitted. The local option poll in Sutton is perhaps preliminary to the referring of the prohibition question to the whole county.

The result in Sutton township will be of interest as showing the state of public opinion after several years of high license.

There was a time when the temperance sentiment was extremely strong throughout the townships. The fact that prohibitory laws were not strictly enforced gave their opponents an argument which resulted in their repeal.

The argument was not sound, for it is the duty of government officers not private individuals to enforce laws, but it carried weight and prevailed at the polls.

It is to be hoped this re-awakening temperance sentiment in Sutton will prevail. If anything can be done to lessen the evils of intemperance it is to the eternal interests of that community that it should be done and done at once.

GROCER'S ASSOCIATION ADVANCES PRICES.

AMERICAN BACON, CHEESE, BUTTER, JAM, SUGAR AND RAISINS AFFECTED.

London, Nov. 6—The English are complaining of a rise of prices all along the line.

The Birmingham and Midland Counties Grocers' Association have decided to raise the price of American bacon 1d a pound; and also to make an advance of ½d in the price of coupon soaps.

An advance on cheese was postponed, though a resolution was passed urging members of the association to make increased efforts to put cheese on a remunerative basis. The question of raising the price of sugar was also postponed, as the state of the market was uncertain.

The president of the association, Mr. G. Keen, said butter and cheese had been affected by the continued drought during the summer.

The rise in jams is to be attributed to the failure of this summer's fruit supply. Foreign oranges and lemons are also very scarce.

Regarding the sugar supply, the Cuban insurrection occurring just when canes were ripe has forced America to seek her supply from Continental beet.

Heavy storms in Spain and France have resulted in a terrible failure of the raisin crop.

LAD PHONES THE KAISER.

ASKS WAR LORD FOR HOLIDAY FOR HIS SCHOOL AND IS GRANTED REQUEST.

Berlin, Nov. 6.—An enterprising lad in the third form of the gymnasium at Honef having heard that the Kaiser was shortly to visit Honef, thought it an admirable chance for a holiday. So, on behalf of his class, he went to the public telephone office and rang up the Schloss Schaumburg, in Bonn, where the Kaiser is staying at present, and expressed his wish to speak with His Majesty.

The Kaiser actually came to the apparatus and heard the boy's petition, and next day sent one of his chamberlains with a message saying that the school was to have a holiday when he visited Honef.

HOT FIGHT IN AUSTRALIA.

ORANGEMEN RUNNING CANDIDATES IN THE COMMONWEALTH ELECTION.

London, Nov. 7—A Melbourne cablegram says the Commonwealth electoral campaign is waxing hotter owing to the fact that the Orange institutions are running separate sectarian candidates against three orthodox parties, and in consequence of the repudiation by the anti-Socialist candidates of Victoria of both Reid's and Deakin's leadership.

COOKSHIRE.

Nov. 7.—The oyster supper and entertainment held last Friday night in Victoria Hall under the auspices of the Ladies' Guild was a great success, net proceeds amounting to $80.

Miss Lena Newson, who has been visiting friends in Detroit, Mich., for the past four months, has returned to Cookshire.

Mrs. Charlie Lee, of Jericho, Vt., who has been visiting friends in and around Cookshire for the past five weeks, returned to her home Monday last.

Mr. C. C. Lusk and family have moved into the tenement just just finished off on East View avenue by Messrs. Osgood and Macrae. Mr. Lusk is the first family to take up his residence on this new street. Mr. Ayton Cromwell and family expect to move the next.

Several of the boys who were arrested for different offences on Hallowe'en, it is said, have taken action against the town for false arrest.

Mr. and Mrs. Phelan left for Sherbrooke last night, where they will take up their residence at the Magog House.

The many friends of Mr. Alex. Ross will be pleased to hear he is progressing favorably now.

Mr. Lefebvre has returned from East Angus, where he has been installing a new metallic switch board for the Canadian Telephone Co., who expect this will greatly improve their service to Sherbrooke on this line.

Daily Market News

HOG MARKET.

Montreal, Nov. 9.

At the Montreal Stock Yards, at Point St. Charles, Monday morning, receipts of all lines of live stock were fully up to the average and especially so of cattle sheep and lambs. There was no important change in the condition of trade. The market for hogs was easy, but as supplies were not excessive, prices were unchanged, selected lots selling at $6 to $6.25 per 100 lbs., weighed off cars. The sharp decline in prices of 4s to 8s per cwt. for Canadian bacon in the leading foreign markets last week was evidently discounted here, as it seemed to have but little influence on the local market for hogs today. Supplies of medium and lower grades of cattle were ample, but good to choice beeves continue to be somewhat scarce, owing to the good demand for such throughout the country for export account.

EAST END MARKET.

The offerings of live stock at the East End Abattoir market Monday morning were 1,800 cattle, 40 milch cows, 1,000 sheep and lambs, and 500 calves. The tone of the market for cattle was steady, under a good demand, and an active trade was done. Choice beeves sold at 4¼c to 4½c, good at 3½c to 4c, fair at 3¼c to 3½c, common at 2½c to 3c, and inferior at 1½c to 2½c per lb. The market for sheep and lambs was stronger, under an active demand and smaller supplies. Sheep sold at 3½c to 4¼c, and lambs at 5½c to 6c per lb. The demand for milch cows was fair and sales of choice stock were made at $55 to $60, and lower grades at $25 to $50 each. Calves met with a good sale, and choice stock brought 4½c to 5¼c and ordinary 3c to 4c per lb.

FOREIGN MARKET REPORTS.

London, November 5.—There was no market at Deptford today, but sales of American cattle on Saturday were made at 13½c, which shows no change compared with last Monday's figures. Canadian cattle sold at 12½c, and ranchers at 12c. These prices are ½c higher.

Liverpool, November 5.—The market for Canadian and ranch cattle has continued strong and prices show a further advance of ½c to 1c on the week, with sales of Canadians at 12c and ranchers at 11½c.

Glasgow, November 5—Canadian cattle were quoted at 10½c to 11½c, and the prospects are good for choice stock.

Fine Suit Materials

Suit materials must of course be chosen with regard to the style of the suit required.

The weave and the weight of a cloth for a hip length costume is—or should be—quite different from that of a three-quarter coat suit.

This is where our experience tells. We know the right kind of material for every requirement and are able to supply it.

In our stock of Venetians and Broadcloths, every wanted weave, weight and color are to be found and the quality is the best.

To-day we are making a special display in this line, and we give below some idea of our price:

VENETIANS, 52 inches wide..... .... 75c., $1, $1.25, $1.35
BROADCLOTHS, $1.25, $1.50, $1.65, $1.75, $2, $2.25, $2.50 and $2.75.

In very new and fashionable shades, black being well represented. This gives but a small idea of our range in material and price, but a full display can be seen in our department to-day.

Semi-Ready Suits

We are meeting with great success with our SEMI-READY GARMENTS. The quality, fit and style is responsible for this.

No one tailor can make an entire suit as well as nine tailors can who have each confined themselves to the particular part of that suit, which they best know how to make. Semi-Ready tailoring is done by teams of experts, working on his own particular speciality.

It is this system of specializing that makes each Semi-Ready garment retain its shape until worn out—makes the collar fit perfectly to the neck—makes every line fall in its right place. —See our sack suit styles.

BOUCHER & LACROIX.

IMPROVED machinery will not, of itself, produce good flour.

You may be an excellent cook, but you cannot produce light, wholesome baking unless the flour you use be the kind that permits such results.

So in the milling; machinery alone cannot produce

Royal Household Flour

out of the wrong kind of wheat any more than you can make the right kind of bread or pastry out of the wrong kind of flour.

Ogilvie's Royal Household Flour is made from hard spring wheat—a wheat that is rich in nutriment, that grinds fine and white, and produces bread and pastry that are wholesome and nourishing as well as light and crisp—it's a flour that begins to be good in the wheat fields, not in the mills.

Your grocer prefers to sell you Ogilvie's Royal Household Flour because he knows the value of a pleased customer.

CHORUS ASSAULTS CRITIC.

ADVERSE OPINION OF THEIR WORK IS PROMPTLY RESENTED.

Florence, Nov. 6.—Signor Silvio Tanzi, the musical critic of the Nuovo Giornale, of Florence, was seriously assaulted at the close of the performance of "William Tell," at the Verdi Opera House, by the director and chorus, who took exception to an unfavorable criticism published the preceding day respecting the choral execution.

The theatre management, in a public letter deploring this infringement of the liberty and dignity of criticism announces its intention of putting these above suspicion by the suppression of all gratuitous press tickets.

FRENCH FOREIGN POLICY STANDS.

Clemenceau Not In Favor Of Disarmament.

PRESENT ALLIANCES, HE SAYS, MUST BE MAINTAINED — PEACE WITH DIGNITY, FRENCH POLICY.

Paris, Nov. 7.—The Clemenceau declaration of policy before Parliament, Monday, declared that as the change in Cabinet was due solely to the ill health of ex-Premier Sarrien, the Government only intended to pursue actively the work of reform, and that its foreign policy would remain unchanged.

"Founded upon peace with dignity," said M. Clemenceau, "we can say with pride that during the 35 years of the republic there has not been one minute when we could be accused of threatening the peace of Europe. At the same time, since the peace of the world is based on force of arms, we cannot disarm, for to do so, would destroy the guarantee of our independence. Until the arrival of that happy but uncertain day when the regime of force will be changed, our first duty is not to weaken our defensive powers, of which our international understandings form an important element in cultivating good relations with other Powers. We must carefully maintain the alliances contracted in the interests of peace, as well as the friendships whose value has already been proved, and we must not forget that moral authority and upright policy openly practised can become determining factors in European opinion without which no Government in the future can fail to reckon."

Chicago, Nov. 7.—The announcement that the Chicago and North-Western Railway Company is to spend $20,000,000 to establish a new passenger terminal in Chicago is another evidence of the enterprise which has characterized this road. The following facts about this new station will be of interest:—

The cost of station, sheds and work on tracks will reach $20,000,000.

The cost of the ground required to carry out the plan has been about $3,000,000, and will be nearly that much more.

The cost of the station building proper will be about $3,000,000.

The station and train sheds will cover all of the three blocks bounded by Madison and Lake Streets on the south and north, and Canal and Clinton Streets on east and west.

Washington and Randolph Streets are to be built over without changing the grade of the streets or obstructing traffic in any way, these thoroughfares to be illuminated tunnels for a block.

More than one hundred substantial buildings will have to be razed or moved to make room for the new station, and about 600 tenants will have to find other quarters.

Exits from suburban trains at each street spanned by the new station will be provided, so that a man whose place of business is Randolph Street, for instance, will not have to go to Madison Street on leaving his train and then to Randolph Street, or four blocks out of his way, but can enter Randolph Street direct from the train sheds through subways.

There are to be no offices in the new station except those absolutely required for the movement of passenger trains and conducting the business of the great station.

PRIEST IS MOBBED BY WOMEN AND CHILDREN.

HIS VESTMENTS TORN OFF—HE IS ROLLED IN THE MUD AND BEATEN INSENSIBLE.

Vienna, Nov. 7. — The women of Zobor, near Pressburg, Hungary, have nearly lynched Father Hojasyik, who has just been appointed priest of the parish.

Father Hojasyik is a Magyar, and his Slovak congregation regarded his appointment as an insult to their nationality. As he refused to resign, who, it was thought, would be more likely than the men to escape subsequent punishment, attacked the priest's home, which had been barricaded.

For two hours they continued the siege, and finally battered in the door with heavy beams. Then they rushed in and dragged the unfortunate priest out into the street. He had put on his vestments, thinking they would secure him personal respect, but the women tore them off and rolled him in the mud from one end of the village to the other, belaboring him with sticks, till he became unconscious.

Father Hojasyik was conveyed home, where he recovered. He still refuses to resign, and a detachment of hussars and a company of infantry are now quartered in the village to protect him.

SPECIAL COUNCIL ON BAIT ACT.

NEWFOUNDLAND TAKING GREAT CARE IN TEST OF FISHERIES MODUS VIVENDI.

St. John's, Nfld., Nov. 6.—In order to avoid the possibility of any legal defect or technicality vitating the proposed test cases which the Newfoundland Government intends to bring against Colonial fishermen employed on board of American herring vessels, to determine whether the modus vivendi arranged between the United States and Great Britain is valid or otherwise, the Government will send competent legal counsel to the west coast to arrange for these precautions, to draft the necessary papers and to oversee the enforcement of the bait act. It is the purpose of the Government to carry these cases to the Privy Council if necessity arises.

ACID IN FRANKFURTERS.

GERMAN SAUSAGES PLACED IN SAME CATEGORY AS U. S. CANNED GOODS.

Paris, Nov. 6.—Since the outcery over Chicago canned goods, German canned goods have largely replaced the American product in France. Now the German tins are likely to share the same fate as their predecessors in public favor.

Consignments of German canned goods examined at the municipal laboratory at Paris are said to have been found to contain, in every instance, a notable proportion of harmful preservatives.

The specimens of the celebrated Frankfurter sausage examined were found floating in a solution of "benzoic acid," which, in Germany, is extracted from the bladder of cows and horses.
