THE AUER LIGHT.

Rev. J. Quinlivan, Priest,

St. Patrick's Church,

Says:—

I consider the Auer

Light one of the most

wonderful triumphs of

our inventive age, and

a marvellous combi-

nation of beauty, uti-

lity and economy.

This opinion is based

on the following rea-

sons:—

1st. The Auer Light

is whiter, clearer and

softer, and a nearer

approach to sunlight

than any other arti-

ficial light adapted to

ordinary use.

2nd. The combus-

tion is perfect; no

smoke to soil walls or

ceiling; no disagree-

able or noxious gases.

3rd. It is perfectly

steady; no flickering.

4th. It gives off not-

ably less heat than an

ordinary gas jet.

5th. With all these

advantages it costs

less, for half the quan-

tity of gas gives a

light about three

times as strong as an

ordinary jet.

Send for Circular.
