LOST, yesterday afternoon, on McGill St. John St. Sagrament, St. Peter, Lemoine, or St. George's streets, Four Hundred and Sixty five Dollars (\$465), in a roll consisting of bills of different Banks, chiefly those of Bank of Montreal. A handsome reward will be paid to any person returning the same to the office of this paper.

SPECIAL NOTICES.

FALSE.—Judging from what English manufacturers' agents in Montreal say about facilities that Canadian dry goods importers have for buying in the English markets, S. Carsley ranks equal to any firm in the Dominion. So that the report lately got up amongst dry goods dealers that S. Carsley is selling with a profit is false. It may be correct that he is selling at regular wholesale prices, and we should think still be making a very fair profit.

THE DAILY WITNESS. FRIDAY AFTERNOON, JULY 19.

THE CHARGES AGAINST THE PRIVATE OF "A" BATTERY. QUITE A DIFFERENT STORY. (To the Editor of the Witness.)

SIR.—In your issue of Monday last I saw a paragraph alluding to the arrest of Mr. C. Richards, a member of "A" Battery, in Victoria Square, on Saturday night, for, it is alleged, without the least provocation whatsoever, drawing his sword on a man named Denton.

Now, sir, this I contradict, as I was an eyewitness of the whole affair. The true facts of the matter are that when Richards was passing along the street a number of ruffians (such as about a regular policeman in uniform arrived, when he pointed out to him a man who had assaulted him and requested his arrest, but the "specials," being excited, pounced on him and instead took him unjustly into custody, as he was perfectly sober and collected, and kept him for 24 hours in the Juror street Station. He was finally released at the instance of a Military Officer on the facts of his whereabouts being made known by a gentleman who witnessed the whole affair and kindly interested himself on Richards' behalf, although a perfect stranger to him, when those who had him in custody failed to send word to his commanding officer of his arrest, although repeatedly requested to do so by him. They failed to doubt, wishing to keep him in custody as long as possible. Now, Sir, I sincerely hope you will publish the true facts of the case, as witnessed by myself and a number of other disinterested parties, and thus clear him of the stain which his enemies have tried to cast upon him, while his conduct was nothing but manly and admirable in the midst of a lawless mob, from whose assaults he defended himself. I therefore hope you will give this insertion in justice to him, and oblige, F. KELLY, Montreal, July 18, 1878.

AN INACCURACY. Our reporter appears to have made a mistake yesterday in his report of the Orange case, having credited to Mr. Devlin a remark made by Mr. Doure. Mr. Devlin writes, making the correction, as follows:— (To the Editor of the Witness.)

SIR.—In your report of the proceedings had yesterday in the case of the persons arrested upon the 12th inst., you make me say "that the City Council would likely pass a resolution authorizing the Mayor to test the case in the civil courts." Allow me to state that I said nothing of the kind, and that I made no reference to the Corporation. And that what was said respecting the Corporation was said by Mr. Doure—not by me. B. DEVLIN.

REFUSE TO ABOLISH THEMSELVES. After a long and exhaustive debate by the Legislative Councils, the Government measure by which they intend abolishing that branch of the Legislature, was thrown out on a vote of 16 to 3.

PROBATION. The Legislative Assembly meets again this evening at 8 o'clock. The morning session occupied but a short time, and was taken up with the bare routine matter. The House, it is intended will be prorogued to-morrow. The Legislative Council will consider the Supply Bill this afternoon.

OTTAWA. (Special to the Witness, July 19.) A PILGRIMAGE from Ottawa to St. Anne Benedict has been arranged by the Roman Catholics.

STRIKE.—The printers in the Herald office have struck work owing to the proprietors refusing their pay to 27 cents per 1,000 ems. The Typographical Union has issued a circular to the public stating that the printers will not deal with persons who advertise in it, and requesting all the workmen to adopt a similar plan.

KILLED BY DRINK.—A man named Napoleon Duval was brought into the police station about 1:30 o'clock this morning while laboring under delirium tremens and died a couple of hours later. His face was considerably bruised, and suspicions of foul play are entertained, although the chances would seem to be that he injured himself by falling. An inquest is being held.

ST. JOHN, N.B. ROSS returned from Halifax this morning with a new Swadwell and Winch boat, which he purchased from the Rowing Club at cost price. He is perfectly satisfied with the boat.

THE WEATHER to-day is warm for St. John. The thermometer in the shade is 73.

PROPOSED RAILWAY TO THE CASPIAN SEA.

LONDON, July 19.—It is reported two parties of railway experts under the direction of the Government will examine the Tigris and Euphrates Valley for the best railway route to the Persian Gulf.

THE ITALIAN CABINET. The rumor of the probability of the resignation of Count Costi, the Italian Prime Minister, is denied. The entire Ministry approve of his conduct. Fifty meetings favor the annexation of the Southern Tyrol to Italy. In the principal towns the agitators are Extremists. Their course is disapproved of by the best people. The Government cannot interfere so long as they do not violate the law.

A PROTEST. A Berlin despatch says France suggested a joint protest of the Powers at Constantinople against Turkish outrages in Thessaly.

THE EMPEROR WILLIAM. The health of Emperor William is steadily improving. He goes to Gastein shortly. A number of the Nobeling family have changed their names to that of Edeling.

A VETERAN DIPLOMATIST LOOKING AFTER HIS INTERESTS. BERLIN, July 19.—Gortchakoff has returned to St. Petersburg, instead of going to Wildbad as intended. It is reported he goes to St. Petersburg to oppose intrigues for his own overthrow and Schouvaloff's promotion.

A PASHA'S USELESS RESISTANCE. VIENNA, July 19.—Caratheodori Pasha raises difficulties in his negotiations with the Austrian Government relative to the occupation of the Turkish Provinces. He insists the Sultan's sovereignty over Bosnia and Herzegovina must be recognized, and that the duration and extent of the occupation be previously settled. Neither the date of the departure of General Philippovitch nor the movement of the army across the frontier has yet been fixed, on account of the pending deliberations. It is understood the Porte has been informed that a postponement of Austrian occupation beyond a certain date will be inadmissible.

IMPERIAL PARLIAMENT. LONDON, July 19.—The Marquis of Hartington gave notice in the House of Commons that he would soon call attention to papers relating to the Eastern Question, and move a resolution.

Mr. Smith, first Lord of the Admiralty, said Admiral Hornby telegraphs that the flag captain of the British fleet in the Aegean Sea has had an interview with Gen. Todleben, who stated he had heard nothing of the firing into a British man-of-war boat. Todleben extremely regretted the occurrence.

CAPE CHATTE, July 19.—SS. "Sarmatian" passed Cape Chatte at 2 p.m.

AMERICAN. A MURDERER'S CONFESSION. WATERLOO, N.Y., July 19.—Peter Bresnahan, now in Canton Jail for the confessed murder of Dauthier, has made a supplemental confession stating he committed three other murders. The first was an Indian, who claimed the right to hunt where he was operating. In 1851 he killed Duncan McCameron, with whom he was buying furs near Big Epigon Lake, Canada. In 1861 he killed Michael Crowley on Shad Lake, near Bonshire Point, Canada. Crowley was supposed to have money. He killed McCameron because they had trouble about furs. He also confessed other crimes.

ARREST OF A CLERGYMAN. WHEELING, West Va., July 19.—Jacob Shiltner, a travelling clergyman, has been arrested, charged with an infamous assault on a girl six years old.

ARRIVAL OF AN ASTRONOMER. NEW YORK, July 19.—J. Norman Lockyer, the celebrated English astronomer, arrived yesterday. He goes West to observe the solar eclipse.

"NO LIMIT TO THE HEATED TERM." The weather is warm, close and oppressive this morning, though cloudy. The Times says, at the rate it is now traveling, the cooler wave will reach New York some time to night. Manitoba has prepared another wave of heat that has already started. At five o'clock last evening the temperature at Bismarck, Dakota, was 89, at Breckridge, Minn., 89, and at St. Paul, 88, so that from observations to date there is no limit to the heated term. The mean degree of heat during the succession of years never varies more than one or two degrees. A very hot summer must necessarily be followed by a very severe winter. The Signal Service office in this city is haunted by grain merchants. Great damage is done to grain in store or in transit by the excessive heat, and they say if it continues their losses will be very large.

TORONTO. (Special to the Witness, July 19.)

LACROSSE TEAM.—The following 11 of the Toronto team:—Jas. Hughes, goal; R. S. McKenzie, point; W. O. Ross, cover; R. C. Ross, John Innis, defence field; S. Johnson, S. Hughes, fielders; W. T. Arthur, L. Mitchell, home field; R. H. Mitchell, J. Ralph, H. E. Swick, men have been practising hard and feel pretty confident that they will win. They evidently expect a severe struggle, however, and are inclined to think that there may have been a little foxing in a Montreal despatch which stated that although the Montreal team were individually good men they had not had much practice together.

OUR MEN AT WIMBLEDON.—A Globe cable dated London, July 18, says:—The match for the Kolopore cup was decided at Wimbledon today, the mother country being victorious by 11 points. The total scores were:—Canadians, 611; British, 622. The scores at the three ranges were—at 200 yards, Canadians, 222; British, 236; at 500 yards, Canadians, 213; British, 203; at 600 yards, Canadians, 176; British, 181. The Canadian score was three points better than the winning score last year. The British team include the best marksmen in the camp. A grand garden party was given in the Canadian camp this afternoon. The weather was magnificent, and a large number of visitors were present. The Duke of Cambridge arrived at three o'clock and inspected the team. On parade he spoke to each man individually, and then addressed the company. He referred to the Kolopore competition, and regretted that he could not congratulate them on being successful, but their defeat was no discredit to them, and they should not be discouraged by it. He compared the loyalty and patriotic spirit in Canada to the patriotism displayed in India. He was confident that if occasion required, though he hoped it never would, the Canadians would be ready and willing to aid the mother country. He expressed pleasure at again seeing the team. The Duke was obliged to return to town immediately. Sir Michael Hicks-Beach and Colonel Stanley, Secretary of State for War, arrived later, when the team paraded again and was inspected and addressed. Colonel Stanley said, on behalf of the Volunteers, how very glad they were to welcome the Canadians again, and to congratulate them on their shooting. Although not wholly successful to-day still they had narrowed the distance between them and their competitors. When it was remembered how comparatively small a population the Canadian team was selected from as compared with the home team, they need not be his least ashamed of the result. On behalf of his colleagues, he thanked them for the evidence they gave of their zeal for Her Majesty's service, and congratulated them on the manner in which they had distinguished themselves. Sir Michael Hicks-Beach expressed a hope that Canadian excellence might in future years be rewarded with success. It deserved to win the prize which this year they had so nearly gained. The team included representatives of almost every branch of Her Majesty's forces in Canada, and he wished therefore to assure them of the strong and deep feeling entertained by the Government and people of England, and by the Queen herself, of the loyalty, good feeling and will Canada had shown in her readiness to help if required in the crisis, through which happily we have passed. He could not sufficiently assure them of the satisfaction their expressions of loyalty had given rise to and the Government could not sufficiently thank them in behalf of the people of England for the determination they had shown to help the Mother Country in danger. The visitors included the Marquis of Hertford, Lord and Lady Wharfedale, the King of Hony, two members of the Chinese Embassy, Lady Wolsley, Lord Airey, the Bishops of Niagara, Toronto, and Mr. Justice Moss, Lord Seymour, Lady Constance Stanley, Sir Morton and Lady Peto, Sir Hastings Doyle, Sir John Rose, Col. Bernard, Sir Daniel Lysons, Sir Edmund Henderson, Sir John A. Macdonald, the Hon. C. Fraser, of Toronto, and Sheriff Jarvis.

THE INTERNATIONAL TEMPERANCE MEETING at Grimley has proved a great success. If arrangements can be made Mr. Francis Murphy will conduct a series of meetings in this Province in November.

QUEBEC. (Press Despatch, July 19.) ILLNESS OF THE PAPAL ABBATE.—His Excellency Bishop Corroy is seriously ill at St. Johns, N.B.

A RELIC OF SPRING TIMES.—The workmen engaged in repairing the masonry facing the river immediately below the railway in Durham Terrace discovered an old relic yesterday in the shape of a cannon-ball, imbedded in the old wall. It was taken over to the Parliament House, and laid upon the table of the Legislative Assembly, where it was inspected during the day by a large number of visitors. This ball, which appears to weigh about thirty-two pounds, and has already been subject to considerable oxidation, was probably fired into the position in which it was discovered during one of the sieges of Quebec, either from the Lévis Heights or from one of the vessels of the attacking fleet.

COMMERCIAL.—The number of sea-going vessels entered inwards at the Quebec Custom House from the opening of navigation up to yesterday is 375. The clearances to the same date are 357, leaving 28 vessels in port, and in the small outports; there are also 18 vessels in the port of Montreal. Since the opening of navigation, 147 vessels have been licensed by the Quebec Custom House for the local trade of the Province. Since the opening of navigation, 1,393 schooners and market steamers have arrived from the lower ports and parishes, being 178 more than at this date last year.

BROME, QUE. (Press Despatch, July 19.) SEVERE THROW OUT.—Last evening while Mr. C. H. Smith, manager of the Smith Organ Company, was driving in company with the daughter of the Secretary-Treasurer of the same Company, his horse took fright and ran away, throwing them both out. The young lady, however, escaped unhurt, but Mr. Smith was seriously, if not fatally, injured. He was unconscious all night, and at the present writing, (10 a.m.) is about the same.

WEATHER REPORT. METEOROLOGICAL OFFICE, TORONTO, July 19, 10 a.m.—In the lower lake region slight changes have occurred in pressure, with moderate winds, and clear to partly cloudy hot weather. In the St. Lawrence, the pressure has increased slightly, with moderate to fresh winds and partly cloudy weather. In the Maritime Provinces the pressure has decreased, with moderate to fresh wind, and cloudy to partly cloudy weather, with rain areas. Probabilities for the next twenty-four hours.—For the lower lake region, light to moderate winds, generally clear weather, slight changes in temperature. For the St. Lawrence, moderate winds, clear to partly cloudy weather. For the Maritime Provinces, moderate winds, mostly westerly or north-westerly, partly cloudy weather.

“THE TWELFTH OF JULY.”

(New York Tribune.)

Of course there is not a word to be said in defense of the mob which has kept Montreal in terror by its threats to prevent some five or six hundred Orangemen from parading. These Irish rioters have been engaged in a conspiracy against the public peace, and in the prosecution of it they have openly avowed their purpose to commit murder.

They are only required to be thoroughly impartial in their treatment of rival parties, and to allow the freest liberty consistent with the welfare of the community.

The much-talked-of Orangemen's demonstration at Montreal yesterday resulted in no riot, probably for the reason that the military and police authorities interfered to prevent the procession which the Orangemen proposed to form.

Outrageous as the oppressive act of Mayor Beaudry has been towards the Montreal Orangemen, it is yet something in the fanatical blindness and pertinacity of the man that suggests the stuff of which great characters in history, especially in the history of religious persecution, have been made.

SUPERSTITIOUS FISHERMEN.—A large meeting of the fishermen of Tarbert was held recently, the object of which was to oppose a proposed course of erection near the inner quay by Mr. Wm. Hay, fish merchant, being used for smoking and curing purposes.

WHAT FREDERICK CAN BRAG ABOUT.—A correspondent of the St. John Telegraph says:—The revenue of tax notices has commenced his rounds. The amount assessed is \$30,612.

(Boston Journal.)

THE COURSE pursued by the Mayor of Montreal and the authorities generally in reference to the Orangemen Friday was simply disgraceful and outrageous. We have no sympathy with the Orange organization.

PROVINCIAL LEGISLATURE.

FIRST SESSION—FOURTH PARLIAMENT

(From the Morning Papers.)

LEGISLATIVE COUNCIL.

QUEREC, July 18.

THE SPEAKER took the chair at 11.10 a.m. After routine.

Hon. Mr. JOLY moved the second reading of the bill to amend the Acts relative to the Consolidated Railway Fund of this Province.

Hon. Mr. CHAPLEAU proceeded to narrate the history of railway legislation in this country, arguing that in all it did the De Boucherville Government had been the guardians of the honor and good faith of the people of the Province.

which the Legislature has created, and the Consolidated Revenue Fund, consisting of the debentures of the Province, or their proceeds issued for railway purposes. He contended the amendments would cut out of this fund toward the promoters of subsidies for railways in the Province would be endangered by the passage of the Bill which proposed to take over three millions of dollars from the Consolidated Revenue Fund to loan to the Railway Commissioners for the completion of the Government Railway, and provided in the event of the fund from any cause proving insufficient to meet the same, the deficiency should be made good and the advance paid out of the Consolidated Revenue Fund of this Province.

Hon. Mr. JOLY replied at some length to the remarks of the hon. member for Pontiac. He said it was notorious that both sides of the House were in accord in the policy of encouraging railways to open up the country, and had worked in union on this head until the time when the Government thought fit to adopt the fatal policy of taking the North Shore road out of the hands of the private Corporation.

Hon. Mr. JOLY continued the debate upon the Railway measure, further elaborating his argument that the Government was expediting the city municipalities from the responsibility of their subscriptions, and trying to saddle the rural counties with it.

Hon. Mr. CHAPLEAU said the object of the Government in introducing this measure was to preserve their political ascendancy in the cities, and to cloak the emptiness of their policy, and to repay Quebec and Montreal for their support, while throwing the responsibility upon the rural counties.

COTEMPORARY PRESS.

WHAT IS COMMUNISM, AND HOW FAR IS IT DESIRABLE?

Does the above convey a definite idea to ordinary readers? and if not, should we not search out its meaning? Let us ascertain first what it does not mean.

But setting aside all the more pronounced kinds of communism, there are a number of ways of reaching modified degrees of the same principle, some of which are to be found in operation in every community.

Even when any one did go elsewhere, he had to apply for relief at all he was carried back to his own parish. This system was rapidly involving all classes in one common ruin, not only material, but moral, when Parliament had to substitute for outdoor relief to the poor or unemployed the right of support in a Union Work House.

For instance, all property may be taxed to provide common or public schools in which the children of all classes have the same rights and advantages. The rich furnish it, may be, tenths of the means, and the poor nine-tenths of the children. That is good communism, and that is what we have in New York.

politicians, and all who do not belong to this favored class are taxed to support it. Nothing more demoralizing or dangerous to liberty can be devised, and it is just by this device that the Tammany organization, backed by the Church of Rome, has been enabled through long years to rule and rob and almost ruin New York.

Let us all go in for Christian communism, but not for that kind which is bred of whiskey, beer, tobacco, and Sabbath desecration.—N. Y. Witness.

DOMINION NEWS.

OSTARIO. MAD DOGS.—The Stratford Beacon says that a number of dogs afflicted with hydrophobia have recently killed at Brussels, Ont.

A PLENTIFUL CROP.—The Times says that during one day recently "forty tons" of strawberries were shipped from Oakville.

CREDIT VALLEY RAILWAY.—Mr. Laidlaw writes that he has raised the money required for the construction of the Credit Valley Railway, bought the rails, and engaged the ships to carry them to Canada, and has everything in readiness for transportation at once.—Galt Reflector.

SINGULAR ACCIDENT.—One day this week while Mr. Thomas Howson, son of William Howson, Esq., of Otonabee, was in the act of mixing ammonia with Paris Green for the purpose of sprinkling it upon his potato vines, the ammonia exploded in the bottle, and the contents flew into his face, causing such injuries that it is feared he will lose his eye-sight.—Peterborough Examiner.

CRIMINALS.—There are eight prisoners in the Provincial gaol.

MILITARY.—A new infantry company is being formed in Winnipeg by Mr. C. U. Lindsay.

AGRICULTURAL POSSIBILITIES.—The Free Press says: "A fine specimen of timothy, nearly five feet in length, and well headed for onions, about three feet and a half, grown by Mr. John Higgins at Roseville Cottage, are exhibited at the Free Press branch office as samples of what Manitoba soil can produce."

NOT INSUFFICIENT.—The Winnipeg Free Press of July 6th says:—"The Hon. D. A. Smith, M. P., spent fully three hours in the camp of the Field Battery on Saturday morning, and witnessed the turnout of the four guns to fire the salute. He expressed his satisfaction to find the corps fully up to its strength, and composed of such fine men, as he had been given to understand at Ottawa that the Volunteer organizations of Winnipeg were inefficient. He further stated that the Minister of Militia, who was anxious to do what he could to promote the success of the Militia in Manitoba, was also under this false impression, and he promised to write without delay to Mr. Jones and set the matter right."

A PROTESTANT CONSTITUENCY.—By a recent census taken in the County of Westbourne, Manitoba, the population of that municipality is shown to number 795 persons, who were born in the following countries:—Canada, 504; Scotland, 107; England, 41; Ireland, 40; Denmark, 3; United States, 2; Switzerland, 1. Of the above 795 persons, 392 are Presbyterians, 229 Church of England, 166 Methodists, and 6 Baptists, while two belong to no denomination. The assessed value of property in the municipality is as follows:—Property owned by residents, \$257,278, do owned by non-residents, \$303,162. Half breed and miners' lands, \$117,000. Total valuation \$677,449.

FRENCH AMERICANS IN MANITOBA.—Rev. Father Lacombe has returned from a visit to the settlements of the French Canadians who came here from the Eastern States. The Rev. gentleman speaks highly of their progress and of great strides they are making in building up new homes in Manitoba, while he says they express themselves perfectly contented and highly pleased with the country. He relates one incident: Meeting an old man, whom he had seen when visiting Massachusetts last year, he expressed his surprise, as he had warned the old man, who had no money, against coming to the Prairie Province. "Ah," says the old man, "you told me not to come, because I was poor, but now I have my property, for which I would not take \$2,000."—Winnipeg Free Press.

THE PEMBINA MOUNTAIN CORRESPONDENT of the Free Press, in a letter dated June 25th, relates the sad death of two young men, named Alfred Dredge and Henry Hutson, who came from Oxford County, Ont., in company with five others and settled near the mountain. The whole party were sick, and it was conjectured that they were poisoned by eating or drinking something of a poisonous nature. Two of the remaining three were in a critical condition and one not expected to live. The correspondent further says: "The immigration to these parts has not yet ceased, every day bringing some fresh arrivals. The land is nearly all taken up as far back as Rock and Swan Lakes, and some settlers have even pushed themselves as far back as Turtle Mountain. Mosquitoes are thick, and the crops are looking well."

NEWS FOR INTENDING COLONISTS.—Baltimore is a central place, being near Fort Pitt and Edmonton on one side, and Carleton and Prince Albert on the other, and having a prospect so favorable of communication with Fort Walsh and McLeod. It is convenient for traders from the plains, who are beginning to come here for supplies in exchange for furs. Here, as in places all through Canada, are spots of not very rich land, but one cannot expect to find hundreds of miles of land where no labor is required. Men with energy would soon make money here. If determined to work they will find not so many drawbacks. The climate is most enjoyable, and invigorating to the land easily cultivated, as no evaporating requires to be done, and there is but little stormy ground to be found. Horses can feed out all winter, and in the spring are fatter than those that have been kept in the stables. Although we are always led to believe that the climate is severe, yet from the dryness of the atmosphere, people can work out of doors all day during the winter with much thinner clothing than in Lower Canada. You seldom see overcoats worn, and never see mufflers; and where in Lower Canada one would be forever exclaiming, in February and March, "What disagreeable weather! Here, the cry is: Is it not glorious weather? It is useless to expect all the luxuries here you have in an old country, but it would only be disappointed people, and those determined to look on the dark side, who would be unhappy in a place like Battleford.

The reports that have gone abroad of trouble from our Indians have been chiefly caused by plotting individuals who have no other means of bringing themselves into notice. The Indians know full well who are their friends, and having always been considerably and fairly dealt with by white people, and knowing that the great benefit white settlers are to them, they will hardly be so foolish as to listen to the prouplings of wicked men, who are far from having their welfare at heart. While the Indians are settling on their reserves it is the time for the missionary work. Energetic, noble-minded men, who have the conversion and improvement of the Indian race at heart, ought to know that now is the time to teach the Indian the way to Heaven. It is only when they are settled alone with their teachers, that the power of the gospel is unmistakably seen, and the fruits of the missionaries' efforts are fully appreciated. The English Church has done a noble work in this country. The Wesleyans have also done well.—Free Press Correspondence, dated June 9.

BRITISH COLUMBIA. WELL MATCHED.—The Victoria Standard says Mr. Bunster, M. P. for Vancouver Island, ran a race of three hundred yards with a butcher, being defeated after a stiff contest by six inches.

WESLEY CONGREGATIONAL CHURCH.

The corner-stone of the new edifice in course of erection on St. Catherine street, opposite City Councilors street, for the use of the Wesley Congregational Church, was laid last evening with interesting ceremonies.

LAYING THE CORNER-STONE.

The corner-stone of the new edifice in course of erection on St. Catherine street, opposite City Councilors street, for the use of the Wesley Congregational Church, was laid last evening with interesting ceremonies.

ADDRESS FROM THE PASTOR.

During the excitement attending the circumstances out of which arose the congregation for whom this church has been commenced, it was thought best by him, who serves it as pastor, to wait for a time of greater calmness before making any reply to the numerous adverse statements of his former companions in church relationship.

for a more loving unity of Christians. He saw the more learned and pious liberals drawing nearer to the orthodox, and the orthodox drawing nearer to the liberals.

Mr. W. C. Pridham then deposited a box in the hall, the contents of which were:—Foliot entitled "Catholicity and Methodism," by the Rev. James Roy, M.A.; photograph of the Rev. James Roy, M.A.; copy of the address presented to the Rev. James Roy, M.A., 2nd May, 1877; constitution, rules, and names of 142 members of Wesley Church; list of the names of the Deacons of Wesley Church; list of the names of the Building Committee, the Architect, and the Contractors; coins, viz.: one cent, five cents, ten cents, twenty-five cents and fifty cents, also one dollar, two dollars, and twenty-five cent notes of the Dominion of Canada; one copy of each of the following papers: Montreal Gazette, Herald, Star, Witness, Canadian Illustrated News, L'Opinion Publique, Minerva and Nationalist, a map of the city of Montreal; photo of Lord and Lady Dufferin; photo of Sir John A. Macdonald, and a photo of the Hon. Alex. Mackenzie.

ADDRESS FROM DR. WILKES.

After the singing of another hymn, the Rev. Dr. Wilkes delivered a brief address, in the course of which he said:—As we understand the purpose of our friends who have arisen to build, it is that this house shall be hallowed and sanctified by the simple, spiritual worship of God: the Father, the Son, and Holy Ghost, the God of our salvation.

There are indications that in Scotland the next elections will turn more upon the question of disestablishment than upon the foreign policy of the Government.

CORPORATION NEWS.

THE WATER COMMITTEE.

A meeting of this Committee was held yesterday afternoon. Present—Ald. Donovan, Chairman, Ald. Holland, Robert and Thibault.

WATER TO OUTLIVING MUNICIPALITIES.

After routine business, a letter from the St. Gabriel and Point St. Charles municipalities, accepting the conditions for the supply of water through a metre placed on the Centre street hydrant, was read.

Mr. LESAGE, Superintendent of the Water Works Department, said that he had completed the measurements of the masonry at the new reservoir, but was not prepared to give an explanation, as some of the calculations had to be revised.

The CHAIRMAN—How do you account for the discrepancy? Mr. LESAGE said he would rather not say anything about it yet, but thought it was through carelessness more than anything else.

The CHAIRMAN thought it was owing to an error of one of the young men in the office, who had tried to rectify it by chiselling something off.

THE GOFF FORGERY CASE.

Mr. Walker yesterday continued the cross-examination of Mr. G. H. Dumesnil. Q. Is it not true that you referred to Mr. Goff, on the day in question, that you wanted and desired that this and all other proceedings against Mr. Goff by the said Company should be stayed and settled? A. As I said before, I thought there would be no gain to the Company to continue the proceedings; and, as Mr. Goff observed to me he would leave it to arbitration, and that if he was owing the Company he would pay the Company, I thought it would be better for the Company to accept the proposition.

Q. Did you not state to Mr. Goff, on said occasion, that you were heartily sick of all these proceedings, and wished you were out of them, as you considered them frivolous? A. I never said so. Q. Is it not true that on the same day you requested Arthur S. Baker to go and see Wm. T. Fish, one of the joint assignees of the company, in order to urge a settlement of these legal proceedings and have them withdrawn, and report to you what Mr. Fish said? A. I believe I said so. I do not remember if it was exactly on that day.

Q. Did you not tell Mr. Arthur S. Baker, on or about the 25th June last, that you thought Mr. Fish and Mr. Ross were doing wrong in pushing these legal proceedings? A. I never blamed my joint assignees for their doings in these legal proceedings.

Q. Will you positively swear that you never made such a remark as asked in the preceding question? A. To the best of my knowledge, I do not remember making such a remark.

Q. Will you swear upon the oath you have taken that you did not say so? A. I am not positive, but to the best of my knowledge I did not.

Q. Did you not state to Mr. Goff and Mr. Sowdon, in conversation a few days later, in front of the Court House, in this city, that you thought these legal proceedings should be stopped; that you were sick and tired of them, and that no good could result from them to the Company? A. I remember meeting Mr. Goff and Mr. Sowdon. I had a conversation with them about these proceedings, and wished they might be settled, as they were of no use to the Company.

Q. Did you not tell Mr. Goff, in the presence of Arthur S. Baker, about the same time, that you believed that if Mr. Goff had not had difficulties with Hon. George B. Baker these legal proceedings would never have taken place? A. I never said so. I remember Mr. Goff said so, and I remarked at once at the Court House door here that legal proceedings had been commenced in February last; and I believe my deposition was prepared in February, but the date left in blank.

Q. Is it not true that you remarked to Mr. Goff, in the presence of A. S. Baker, on several occasions, both before and since the 25th June last, that you wanted all legal proceedings stopped, and all differences between Mr. Goff and the Company settled by arbitration? A. Yes, provided Goff would give security in the event of his being indebted to the Company.

Q. Refer to the minute book of the said Company, and state by whom are the minutes signed on the 17th July, 1877. A. They are signed by W. Cambell as secretary.

Q. Refer to the by-laws, and state if the secretary is not the proper officer to sign the minutes and to keep the same. A. The secretary shall keep the minutes, but it does not say by the by-laws that he shall sign, but as a general thing the secretary did sign them.

Q. Refer to the by-laws, and state who is authorized to accept drafts on the Company? A. I cannot say; but after a good deal of confusion in the by-laws, but after what I see, the Managing Director is the proper officer to accept drafts on the Company.

Q. Were resolutions at the time you were appointed director and afterwards, at all times regularly moved and seconded at meetings of the Executive Committee, or was the business transacted in those meetings done in a sort of conversational manner? A. The business was laid before the committee by the Managing Director, and, after deliberation of the members present, the president asked if the other members present agreed to the proposition before the Board; if it was agreed to, it was passed unanimously. I do not remember a vote being taken during my time of office; we were always unanimous.

Q. Is it not true that, on the said 17th July, during the time the meeting was progressing, Mr. Goff left the room about the time that the statement of his account was asked for, and returned in a few minutes with a statement marked "D," showing the amount \$22,700.17 as the Company's indebtedness to him, as given by the book-keeper, and that said statement was handed to Mr. Angus, the President? A. I do not remember Mr. Goff going out that day.

Q. Will you swear positively that the statement made in the foregoing question is not true? A. I cannot swear positively. As this concluded the cross-examination, Mr. Davidson then desired to re-examine the witness. Mr. Walker objected, but was never allowed. Mr. DEMESNIL continued—I never saw Messrs. Buchanan and Baker previous to the

day I met them in the Police Magistrate's room. I never recognized the legality of the two drafts referred to, and was never aware that Mr. Sowdon paid anything on them.

Q. When you stated in your cross examination that you authorized Mr. Sowdon to arrange the matter in the banks, did your instructions cover the two drafts in question? A. No, because I considered them illegal.

Q. Had the Company transactions in banks other than the two referred to? A. Yes, I know they had transactions in four or five other banks.

Q. Was Mr. Baker's or Mr. Buchanan's presence in the Police Court, on the occasion you refer to, in any way the cause of or connected with the making by you of the present charge? Mr. Walker objected but was overruled.

A. Not to my knowledge.

Q. Are you not aware that the present charge was submitted to the counsel of the Company some months previous to the Goff-Baker controversy being heard? A. I know there was a charge made in February against Mr. Goff, and the Trustees told me they had several charges against Goff.

Case continued till this morning.

SPORTS AND GAMES.

LACROSSE.

THE TORONTO-MONTREAL CHAMPIONSHIP MATCH, which takes place next Saturday afternoon, is claiming all the attention of those interested in lacrosse, though the feeling has not reached the height of enthusiasm which attended the late Shamrock-Toronto match.

The speculation is generally in favor of the Toronto players, though the record and present form of the Montreal men have given rise to considerable uneasiness in Toronto. Several of the best authorities on the game remarked at the late Montreal-Catharwaga match, that the Montrealers had never before shown such excellent play.

AQUATIC.

The Grand Trunk Boating and Swimming Club has decided to hold its annual regatta on Saturday, the 17th of August. A meeting was held last night at Point St. Charles. A large number of prizes are offered for competition, and will doubtless attract a number of veteran rowmen into the field.

COURTNEY TO ROW HANLAN A FIVE-MILE RACE IN OCTOBER.

TORONTO, Ont., July 16.—Mr. John Davis, of Windsor, one of the leading members of the Hanlan Club, who met Courtney at Capo Vincent on Saturday last, reports on the negotiations as follows: At the outset Davis stated that as Hanlan held the championship, Courtney challenging him for it must, according to rule and custom, row him on his own waters—Toronto Bay. Courtney and his friends said they wanted the match rowed on a land-locked lake, Oswego Lake for instance. Davis declined this. Courtney's friends then said they would make a match, waiving the championship for three miles. Davis said three miles was Courtney's favorite distance, whereas five miles had come to be regarded as the distance for first-class rowmen aspiring to championship of the world.

If either Hanlan or Courtney went to England to meet Davids they would have to row the Thames championship course, from Putney to Mortlake, which was four miles and three furlongs. He was, therefore, in favor of a five-mile race, and would match Hanlan against Courtney for that distance for \$2,500 a side, the race to be rowed in the Province of Ontario, but not on Toronto Bay. If Courtney insisted on a three-mile race on his own waters the Hanlan Club would expect him to give odds in the States.

After some further discussion Davis' offer for a five-mile race was practically but not definitely accepted by Courtney, the race to be rowed early in October, the 10th if possible, date and other details to be arranged hereafter. Hamilton Bay, Kempenfeldt Bay at Barle, Lake Sturgeon, or the Beuchville course, will probably be the scene; but Courtney declared that on no consideration would he row on a course where side-wheel scowmen were permitted.

COMMERCIAL.

Hayard & Candee's, wool brokers, London England, have failed, with a quarter of a million liabilities.

It is stated by the Boston Advertiser that all arrangements have been made to keep intact the through connections of the Grand Trunk Railway to Chicago by way of Detroit.

BOOTS AND SHOES.—There is no new feature to report in this trade. Manufacturers are busy on fall goods. Business is very quiet now, but the chances are an average fall trade will be done.

LEATHER.—Business is fairly active, and prices are steady. Spanish and Slaughter Soles are quiet at unchanged rates. Waxed and Grained Upper are in very moderate request. Splits are firmer and more called for. Measured Leathers are still very quiet.

LIVE STOCK MARKET.—July 18.

There has been a large increase in the number of beef cattle brought to market, but many of them are not overburdened with fat. A considerable business was done at 4 1/2c per lb. for city consumption; a few being sold at higher figures for exportation. The market here this afternoon brought 150 head of beef cattle; sheep and lambs are also pretty numerous and slightly lower in price.

SCHOLARS' NOTES.

(From the "Little P'p'ria Question Book," by Mrs. W. Barrows, Congregational Publishing Society, Boston.)

LESSON III.—JULY 21. MINISTRY OF JOHN THE BAPTIST.—Luke iii. 15-22.

- 15. And as the people were in expectation, and all were mused in their hearts of John, whether he were the Christ...

GOLDEN TEXT.—"For he shall be Great in the sight of Lord, and shall drink neither wine nor strong drink," Luke i. 15.

- 1. Who was John the Baptist? Ans. A wonderful preacher in Judaea.

SCIENTIFIC & SANITARY.

SUMMER AIR.

Summer air suffers much from unfortunate additions which are made to it by man himself. The stirring of the soil and the pulverized roads and particles of dust floating hither and thither, and the air is quite well laden when we do not know.

- 17. Who are meant by the wheat and the chaff? Ans. The righteous and the wicked.

There is a good tale told of Malherbe, the French poet, which illustrates the elaborate care he took with his poems.

taken for use in the summer—we have known to last until October. Every farmer's wife knows how needful is a good supply of ice for dairy purposes, and every farmer and those who are not farmers who live in the country are able to appreciate ice-cream or ice-water during the warm weather of summer.

for them.—I know whom I have believed, and am persuaded that he is able to keep that which I have committed unto him against that day.

The gifts and calling of God are without repentance.—Who shall separate us from the love of Christ?—The Lamb which is in the midst of the throne shall feed them, and shall lead them unto living fountains of waters: and God shall wipe away all tears from their eyes.—So shall we ever be with the Lord. Wherefore comfort one another with these words.

THE PARIS EXHIBITION—THE CATTLE SHOW—ITS MANAGEMENT AND ITS PARTICIPANTS.

was grieved, but because the quarrel, if quarrel there must be, should be interminable at all points. She had loved them all; but, if they turned against her, not the less because of her love would she punish them.

It all went on from bad to worse. Seppel, the carpenter, gave her notice he would leave her service at the end of August. "Why at the end of August?" she asked, remembering that she had promised to give him the higher rate of wages up to a later date than that.

THE MODERN GIRL.

"Well, my dear, now that Laura has flown, electric to the postman's ring, I don't mind confessing that I am as a babe before the modern girl, with her quick bright mind, her capabilities for martyr usefulness in decorating a church, or working herself thin for a centennial tea-party, and her unlimited capacity for dawdle, except under the high pressure of strong excitement.
