FOR GOOD GOVERNMENT.

THE G. G. ASSOCIATION RESUMES ITS MEETINGS.

Geo. W. Stephens Brings Forward a
Number of Important Charter
Amendments.

The Good Government Association resumed its meetings yesterday afternoon in the Board of Trade Building. There were present: Messrs. Geo. Hague, T. W. Evans, H. Joseph, J. Joseph, Edgar Judge, D. McFarlane, Geo. W. Stephens, F. Wolferstan, Thomas, J. Cradock Simpson, ex-Aldermen, W. Smith, H. Laporte, Jno. Turnbull, H. B. Ames, and others.

On motion of Mr. J. Joseph it was resolved that the annual election of officers should take place at 4 p.m. on Monday next. Messrs. Drake, Hagar, Fisher, Ames, Thomas and Laporte were appointed as Nominating Committee.

Stephens said that it was necessary to introduce French-speaking citizens in the work if anything was to be accomplished. He also believed that the Real Estate Owners' Association should change its name to that of Rate Payers. Now they were only appealing to a class.

Mr. H. Laporte, who had been called to chair after the departure of Mr. Hague, said he hoped the Chamber de Commerce would organize a Good Government Committee, which would appeal to French-speaking citizens, and organization could work in harmony with the existing one.

Before adjournment Mr. Stephens presented the following amendments to the city charter, as notices of motion: "Section 14 of the Act, 51 Vic., is hereby amended by adding hereto the following sub-section (1): Nothing in this clause contained shall relieve any alderman from his personal responsibility for contravening any of the provisions of this charter."

"Section 11 of the Act, 51 Vic., Cap. 78, is repealed."

The cases of expropriation three of the assessments shall value the property to be taken. They shall base their valuation of the property to be expropriated upon the average valuation of the city for the five years preceding such expropriation with ten per cent added thereto. If any buildings are disturbed or injured, the value of such damage shall be valued by experts, and paid for in addition to the assessed compensation. A notice of one year shall be given by the city of its intention to proceed with such expropriation. The notice shall be given on or before the first day of May, preceding the date of proposed expropriation, in which case no damages shall be allowed to any landowner.

"The following section is added after section 213 of the said charter: '213a. The city may acquire the whole or part of the property subject to expropriation and sell the residue thereof by public auction, after the improvements shall have been effected. This provision shall apply both to expropriations under the general law and to those governed by special acts by the city. The city shall have the right to effect in the month preceding the appointment of the commissioners.'

"The following section is added after section 216 of the said charter: '216a. Legal interest shall be due by and exigible from the proprietors or parties interested, on any assessment for the improvement of streets or public places from and after the deposit of the compensation in the office of the Superior Court by the city and also on the cost of drains or sewers within the limits of the city from the time they are completed; provided always that a regular statement of the sums so exigible has been transmitted to the persons obliged to pay the same.'

"The following section is added after section 133 of the said charter: '133a. The said council shall not be bound to make improvements, the cost whereof, paid by the city, shall exceed the limits of the financial state of the year.'

"51 Vic., Cap. 78, sub. sec. 10 and 12, and the amendments thereto are repealed so far as they affect St. Lambert and St. Antoine Streets, and the city is hereby relieved from proceeding with the expropriation in said streets."

"51 Vic., Cap. 78, section 7, is hereby amended by adding thereto the following sub-section: 'No expropriation shall take place under this section until the proprietor has built back on the new line of street proposed widening or has removed his fence thereon. No compensation for buildings or damages of any kind can be claimed by a proprietor under this section.'

"The city shall purchase annually an amount of the bonds, equal to one per cent of its bonded debt."

"No alderman shall hold office for a period exceeding two terms of office consecutively. After an interval of one term succeeding the said second term the alderman shall be again eligible."

"The following section is added after section 233 of the said charter: '233a. The City Treasurer may, in any case of seizure by garnishment, delegate an employee of his office with necessary instructions to make a declaration in court with the same force and effect as if he had made it himself.'

"Sec. 24 of the Act, Cap. 79, is hereby replaced, and the following substituted therefor: 'Sec. 24. No person shall hold office or be capable of being nominated or elected as mayor or an alderman who is not a natural born or naturalized British subject, and of the full age of twenty years, or who has been convicted of treason or any other indictable offence in any court of law in Great Britain or any of the British dominions, or colonies, or who is in holy order, or a minister or teacher of any religious sect, or a judge or clerk of any court, or member of the House of Commons, or who has any contract for the performance of any duty, or who is surety for any such contract for work to be done or supplies furnished, or who is interested directly or indirectly in any contract for work to be done or supplies to be furnished to the corporation, or who is in any way accountable for the city revenue, or in the employment of the city, or who is indebted to the city for taxes, assessments or water rates, or special assessments for local improvements excepted, or is a party to or interested in any law suit or judicial process whatsoever, the amount of which shall exceed one hundred dollars, and wherein the city shall appear as an adverse party.'

"Sec. 77 of 52 Vic., Cap. 79, is hereby amended by adding thereto the following sub-sections: (1) Any ratepayer of the city shall have access to the minute books of committees and council, and all books of accounts of every department at any reasonable hour of the day, and the City Clerk shall furnish to any ratepayer applying for the same extracts from such minutes and copies of all reports, warrants, vouchers and cheques or other evidences of payment on file in any of the departments of the corporation or in the records of the city on payment for the same at the rate of ten cents per hundred words of written matter only. (2) All meetings of the City Council or of its committees shall be open to the public. Business transacted with closed doors shall be null and void."

"Actions against aldermen or officials of the corporation under any of the provisions of this Act shall be instituted by petition, 'requeite libelle,' summarily from day to day, in term and vacation. No objection, founded upon form, or upon the commission of any formal error, imperative, shall be allowed to prevail in any such case unless substantial injustice would be done by rejecting such objection. The term 'municipal elector,' shall include and be synonymous with the term 'ratepayer.'"

"No advocate, who is an alderman, and no member of a legal firm having one of its partners an alderman, shall act professionally or receive any fee or reward in any suit or any proceeding in expropriation in which the city is a party. Any alderman who is an advocate contravening the provisions of this section shall ipso facto cease to be an alderman, and his place shall become vacant without any further proceeding."

"And if such alderman fails to send in his resignation to the City Clerk, he will be liable to a penalty of ten dollars for each day and every day which elapses from the date of the infringement of the section until such resignation is filed with the City Clerk. The city or any ratepayer may sue for the recovery of the penalty in any court of competent jurisdiction. The whole penalty shall belong to the person suing for the same, in whose favor the proceedings shall be commenced by petition, 'requeite libelle,' and shall be proceeded with summarily from day to day in term or in vacation."

"The City Controller and Auditor shall be personally responsible for the correctness of all financial statements, and for all payments made under warrants for which no expropriation has been made by Council. He shall counter sign all warrants, which shall not be payable without his signature. The City Controller and Auditor shall be removable only by the vote of two-thirds of the Council."

EIGHTEEN KILLED.

Dreadful Railway Accident Near Brussels, Belgium.

Brussels, Oct. 7.—Despatches received here this morning from Havre, 15 miles from Brussels, state that 180 persons were killed, and that 100 persons were injured. A crowd of passengers and an engine occurred yesterday afternoon, as exclusively caused to the Associated Press last night, show that 18, instead of 10 persons were killed, and that 100 persons and not 40 were injured. Several of the wounded persons are so seriously injured that their lives are despaired of. There are no Americans among the dead or injured.

The passenger train was just passing the railroad station at Mousty when an engine, coming from Ottignies at full speed, collided with and telescoped three of the passenger trains, which were crowded with passengers. The collision was so violent that the engine and the passenger train were forced to stop. The engine was completely wrecked, and the passenger train was thrown off the tracks. The collision was so violent that the engine and the passenger train were forced to stop. The engine was completely wrecked, and the passenger train was thrown off the tracks.

Among the passengers aboard the train were Mr. Beernaert, President of the Chamber of Deputies, and his family. None of them sustained serious injuries and the president was unhurt.

IN MADAGASCAR.

The French Close Upon the Native Capital—The Queen's Appeal.

London, Oct. 7.—A correspondent of the Times at Antananarivo, writing under the date of September 23, says: "The French are thirty miles off and are advancing fast. The British cemetery and the French observatory have been wrecked. The Queen in a speech yesterday said: 'The French are close upon you. You said you would fight for me, but you will not fight. I will not yield. I shall die at the palace.'"

"The Hovas are preparing to make the last stand at Ambohenanga."

SUGAR STILL ADVANCING.

Refiners and Wholesalers Again Put Up Prices.

The sugar market continues very strong and active, and prices were again advanced yesterday. Refiners put up the price of granulated at 4 1-4 and the lowest grade valued at 1-1-4.

In sympathy with this action of the refiners the wholesale trade were notified yesterday afternoon by the Wholesale Grocers' Guild of an advance of 1-3c.

BREVITIES.

Thomas Conway and Edward Sullivan, charged with having broken the window of a Chinese laundry, were allowed out on bail yesterday morning.

A large party of young Englishmen, eighteen in number, arrived in the city Sunday by R. M. S. Vancouver and registered at the Jacques Cartier Hotel. They intend settling in the Western States.

The Y. M. C. A. educational classes opened yesterday evening. On Thursday evening an illustrated lecture will be given on "Northern Italy, from Tuscany to the Alps," by Prof. C. W. Colby, of McGill University, to which all members of the association are invited.

The Theatrical Mechanical Association will hold a benefit night in April. The following letter has been received by Ed. Saucier: "Dear Sir, Sir Henry Irving asks me to send the enclosed check for \$25 as his donation to the Montreal Theatrical Association with his best wishes. Believe me, yours truly, Bram Stoker."

Richard Poole, proprietor of Hotel Benedict, Detroit, accompanied by Mrs. Poole, are spending a few days in the city, and are at the Cadillac. Mr. Poole is one of the best known Republican politicians of the state. In conversation with the Herald he hinted that the feeling for the presidential elections seemed to him to be for Hon. Mr. Morton of New York State for the candidature. Should he fail as nominee Hon. Thomas Reid of Maine was next man for the honor.

CANADIAN ARTIST'S SUCCESS.

London, Oct. 7.—Miss Florence Carlyle, who will show several paintings at the forthcoming exhibition in Paris, is styled "An American artist," though a grandniece of Thomas Carlyle. She was born in Woodstock, Ont. Long before she had any artistic training some of her paintings, then only flowers, had attracted the attention of Princess Louise. This led to her being sent to Paris, where she has since prosecuted her studies under Delcuse, Lefevre and Fleury.

IS MR. CHAPLEAU A JOKE.

(Special to the Herald.)

Ottawa, Oct. 7.—The Premier is reported to have said to the Ottawa correspondent of the Nor' Wester, the Government organ in Winnipeg, that he regarded the idea of Mr. Chapleau entering his Cabinet as a huge joke. The correspondent in question is in the confidence of Sir Mackenzie Bowell. It is rather rough on Chapleau.

The Allan steamship Laurentian, from Montreal for Liverpool, arrived out on Monday morning with loss of 7 sheep out of 951 cattle, 1389 sheep and 8 horses.

DOUBLE DECEPTION

The Public Often Imposed On.

Proprietary Medicines and Pills That Are Utterly Worthless.

When You Ask for Paine's Celery Compound, Do Not Allow Your Dealer to Recommend Something Else.

Yes, there is a vast amount of double deception practised in the country. The double deception imposed on a too-confiding people just means the making of worthless pills, medicines and pills, and putting them into the hands of dealers, who often recommend them when Paine's Celery Compound is asked for, because they pay larger and handsome profits. This is a new life, which must be substituted in fraud with many evils. It encourages deception and falsehood; it brings the public to the position of slaves to the will of the grasping dealer; it tends to prolong sufferings and agonies when the sick are forced to buy what they do not ask for; and lastly, the vile work of substituting a false for a true remedy, and the circulation of preparations that should be prohibited by law.

This work of recommending poor and trashy medicines when Paine's Celery Compound is asked for is meeting with its just reward in many places. The substituting and deceptive dealers are being shunned, and the money for Paine's Celery Compound goes into the hands of upright and honest business men, who are anxious to give men, women and children just what they ask for. The great desire of sick and diseased people is to get relief from their ailments, health, strength and bodily vigor. This condition is surely and speedily realized when Paine's Celery Compound is used. This fact is proved every day by the number of testimonials received from cured people. The clergy, medical men, bankers, merchants and the everyday people testify in favor of Paine's Celery Compound. Each letter must be shown by the proprietors of the medicines you are asked to avoid.

MRS. SHORTIS ILL.

The Prisoner's Mother Not in Court

This Morning.

(Special to the Herald.)

Beauchamp, Que., Oct. 7.—Shortis' mother was not in court this morning. It is reported that she is not well, but not seriously ill. She has been lately affected by the production in the court of her son's clothes which he wore on the night of the tragedy at Valleyfield. Prisoner's father and Rev. Father Dunn were in court this morning, also the doctors called for the defence.

Mr. Foster is still in Valleyfield.

Warmth and vigor accompany good digestion. Adams' Tuffi Fruit is a

wonderful aid to digestion. Refuse

imitations.

THE MONTREAL HERALD CO.

MONTREAL, OCTOBER 8.

MR. TAILLON AND ST. ANN'S.

For the second time the Gazette announces that Mr. Frank Hart has been appointed on the Catholic School Board, from which he was so unceremoniously ousted a couple of years ago. It is to be hoped, for our contemporary's sake, that Dr. Brennan will not again say that he has not resigned. Indeed it is not probable that he will.

The Herald's agitation has had its influence, and the Tailleur Government has recognized the necessity of propitiating the electors of St. Ann's. Thus Mr. Hart has his seat on the School Board, and there will be night classes in St. Ann's School.

To outsiders the action of the Government is exceedingly ludicrous. Not twelve months ago the Ministers declared that they could not appoint Mr. Hart on the School Board because he was not a university man and the law would admit of no other being appointed. Since the law has not been changed, owing mainly to the opposition offered by Mr. Tailleur to Mr. Kennedy's bill to that effect, and we are not aware that Mr. Hart has taken his degrees during the last year, yet on the eve of an election Dr. Brennan is induced by mysterious pressure to resign, even after denying that he intended to do so, and Mr. Hart gets the position for which he was declared unqualified and for which he has not since done anything to qualify himself.

Mr. Tailleur and his colleagues could not confess more openly that their opposition to Mr. Hart a year ago was purely personal and not founded on law; and no one will begrudge them any credit which they may deserve for their cringe.

The back down concerning night schools is equally flagrant. It was announced from the pulpit of St. Ann's that there would be no night schools in St. Ann's, as it had been announced in every newspaper. It was only when the Herald had denounced the conduct of the Government that, at the last minute, Mr. McDonnell's supporters obtained from the Minister the promise that a night school would be opened in St. Ann's. The insults offered by the Gazette to those who said that there were to be no night schools in St. Ann's apply as well to the priests of the parish and to the Rev. Brothers as to any of those against whom they were specially directed.

All the Government's backing down does not alter the fact that it has cut down the appropriation for night schools by one half, rendering their efficient organization impossible, and that it has treated all matters affecting the organization in the most niggardly manner. The people of St. Ann's may thank the Herald for the little they have obtained.

AN INVITATION.

The Paris loan is now running the gamut of a metropolitan constituency, but the voters have heard from neither Mr. Hall nor the Star.

As Mr. McDonnell has declared that he would have opposed the loan had he been in the Assembly at the time, and as Mr. Hall did oppose the loan to a point which must have been well noted by all that are informed in the matter, Mr. Hall may be able to plead that he and Mr. McDonnell occupy the same position on the question.

But where does the Star stand? As an organ of public opinion it should be independent of those considerations which have weight with the politicians. In Bonaventure it made a vital issue of the Paris loan, it fought the Government with tooth and nail, and it succeeded in decreasing the majority by which the Government had led at the general elections. In Stanstead it established an elaborate machinery for the defeat of the Government on the same issue, and the Government candidate, Hon. Michael Hackett, was returned by a majority immensely greater than he had received three years before.

It is conceivable that such results should have discouraged the Star. But have they cast down its ideals? Have they altered its perception of the right? Have they convinced it that the Paris loan was a necessary, an economical and

a business-like measure? Have they persuaded the Star that, however unwise and extravagant, or even corrupt the Paris loan may have been, the Government is to be commended on its general record?

If so, let us hear. If, since the scene of battle has been shifted to near at hand and the manoeuvres have been subjected to the possibility of general scrutiny at short range, the Star has changed its mind, let it come out now and go down into the Valley of the Shadow and give Mercier's bones a rattling.

SUGGESTION OF MUNICIPAL REFORM.

The late Chicago papers contain vivid accounts of fighting amongst the thugs engaged for ascendancy in the Republican caucus or primary elections. These disgraceful rows reveal the character of a large proportion of Chicago's voting power and politicians, and point to one of the main reasons why the Western metropolis' municipal administration has not always borne the stamp of honesty and of wisdom. The rowdy element in Montreal certainly forms a smaller proportion of the population than in any of the large American cities. Yet it is doubtful that Montreal is better administered. The measure of our civic debt in proportion to population and resources would indicate that there has been more waste and extravagance here than even in Chicago.

In the United States corruption and fraud in civic affairs are frequently exposed, and while many of the offenders escape, many end their career in prison. The exposures make the extent of the evil notorious, but they also serve to restrict it.

It must be a matter of regret that in the whole history of Montreal, while aldermen have been known to live like lords and grow rich without visible means of doing so, there has never been one who has been convicted of any illegality.

Are our boddlers so much shrewder than the American species? Or is it not rather that our municipal system does not offer the same opportunities for exposure? When one remembers how every civic investigation has been restricted and how enquiry is constantly barked, one must come to the conclusion that the latter is the true supposition.

The American municipal system has, indeed, in this respect, a decided superiority over our own. The public officers such as the controllers, auditors, treasurers and attorneys are elected by the people and they are almost completely independent of the aldermen or legislative branch. That gives them independence and strength. In the second place they represent the electors of the whole city and have a superior responsibility to that of the aldermen who generally see nothing in a question but what will affect opinion in their respective wards. Thus, these officers have repeatedly been instrumental in breaking the rings and in bringing offenders to justice, to begin with the famous Tweed. Here the public officials are the mere subordinates of the members of the Council. By the Council they are appointed, by the Council they may be dismissed, from the Council they expect favors and increases of salary, and they must not speak on act until invited to do so by the Council. It is not so long ago that officials were ordered not to give information to the press, until it had been considered by the aldermen.

By this means information is kept from the public and all check on the aldermen is removed.

The Herald is not ready to say that public officials should be elected by the popular vote. But there is certainly need for some one who would represent the whole city, be independent of the Council, and be in a position to control all the transactions of the civic administration. The Mayor would hardly be the proper person to invest with that power. He is not expected to hold his office many years, has not time to examine all the payments and other transactions and cannot be required to have all the qualifications required for such an office.

The city auditor and comptroller would appear to be the proper person to exercise the control. At the present time he is reduced to the role of a mere bookkeeper. Let him be made independent of the Council, compelled to give adequate security for the fulfillment of his duties, and invested with prerogatives similar to those of the Auditor-General at Ottawa, and he will prove a power in exposing scandals and preventing illegal expenditures.

This reform could be operated without any great revolution in our civic system, and we believe would save a great deal of money to the public treasury.

WELCOME SIR OLIVER.

The return of Sir Oliver Mowat, the veteran Premier of the Province of Ontario, from an extended trip to Britain and the Continent, and his incidental visit to this city, was the notable event of last Sunday evening in Montreal. The distinguished visitor looked travel-worn as though he had not been afraid to encounter the sunshine and the winds as they might come. He said that he was in good form, and he looked it. All of which was a source of great pleasure to those who were privileged to meet him.

Amongst other gratifications that are coming to the Tories just now, the latest of which is the reported financial deficit for the year, of four and a quarter millions of dollars coupled with the measure of thankfulness that it is not greater, may be posted up the veteran Liberal Premier's assurance that "he was in perfect health, and consequently even if he desired to retire from public life he could not possibly plead failing health as a reason." The rumours of his being a physical wreck and drifting into a state of collapse were at any rate a short lived gratification and could scarcely have served even a partisan purpose of any account.

Sir Donald Smith's habit of declining to draw his sessional indemnity is the subject of frequent comment by the press of the country. The St. John Sun alludes to it and goes on to say: "Major McLennan, M.P., for Glengarry, also a good liberal conservative, has

drawn his indemnity and mileage regularly. But there is a great road in Glengarry which requires improvements and subscriptions have been taken for the work. Mr. McLennan put his name down for the exact amount of the mileage which he has drawn during his six years in parliament. This is an improvement on Sir Donald's method."

From the Conservative point of view, it is Sir Donald Smith leaves his sessional indemnity where it will benefit nobody but the people at large. Major McLennan spends his mileage where it will do the Major himself most good politically. From the Tory standpoint, the Major's method is an improvement on Sir Donald's.

GLADSTONE'S MOVEMENTS

Planning Another Foreign Journey—His Temperance Opinions.

London, Oct. 7.—Mr. Gladstone, with his eighty-sixth birthday close at hand, is planning another foreign journey. He will probably visit Lord Rensel at Cannes and go to Biarritz afterward. Since his retirement from the House of Commons there is a marked change of tone in public references to him. His former opponents no longer speak bitterly of him, partisan resentment is passing away; men of all parties have begun to recognize in him the great figure in the Victorian age, in whose fame and intellectual eminence Englishmen may well glory. The letter written by Mr. Gladstone and which was read at the National Temperance Congress at Chester on Friday has caused quite a flutter in the temperance world. Mr. Gladstone wrote that he does not believe in local option, of which, he adds, he has only a poor opinion. He spoke favorably of the Gothenburg system, which he thought the plan of free trade with high license deserves a trial, and was emphatic in asserting that the holder of a license is the only person in regard to whom a word regarding compensation ought ever to be mentioned.

INSPECTOR M'GRATH'S DEATH.

His Wagon Upset and the Inspector's Neck Was Broken.

Ottawa, Oct. 7.—Mr. Bolton McGrath, a land surveyor by profession, and for thirty years school inspector for the counties of Ottawa and Pontiac, met his death yesterday morning near the village of Quyon, Pontiac County, Que., while driving down a hill. The buggy in which he sat upset, and he was found on the road side dead, with his neck broken. He was perhaps the best known man in Ottawa and Pontiac Counties. Of late he had not been very active, being over 70 years of age, but still attending to school inspecting, and was necessarily very much on the road. A son of deceased is a member of the Legislative Assembly for the Northwest Territories and a Dominion Land Surveyor.

TELEPHONE AND CAVALRY.

Quick Line Construction Performed by Prussian Uhlans.

Berlin, Oct. 7.—The experiment of installing the telephone by trotting cavalry has been successfully undertaken by the Prussian Uhlans between Berlin and Potsdam. Two sets of officers proceeded respectively from Berlin and Potsdam. Each set was equipped with complete telephone apparatus, which, together with the requisite quantity of small wire, was carried by one of the men in a leather case. The end of the wire was, by means of a fork fixed at the end of a lance, thrown over the tops of trees along the road. As each kilometre of wire was thus suspended a halt was made to ascertain whether there was connection with the station. The two sets met at Teltow, where the wires were connected and telephonic connection between Berlin and Potsdam was established. The distance is twenty miles, and the task was completed in about four hours.

TO PARNELL'S MEMORY.

A Procession to the Grave on the Anniversary of His Death.

Dublin, Oct. 7.—The anniversary of the death of Charles Stewart Parnell, the Irish leader, was observed here yesterday in the customary manner. The Lord Mayor, most of the municipal authorities and Messrs. John and William Redmond, Harrington, Field, O'Kelly, John H. Parnell, brother of Charles Stewart Parnell; Hayden, Clancy, P. O'Brien and Kenny, all members of the House of Commons, delegates from the National League, a large number of political bodies and others marched in the procession to Glasnevin cemetery, where Mr. Parnell is buried, and placed wreaths upon his grave. The procession was two miles long.

SUSPECTED TRAIN WRECKERS

Examined but Could Not Be Held—Owen Murphy's Funeral.

(Special to the Herald.)
Quebec, Oct. 7.—The enquiry over the attempt to wreck a passenger train on the Quebec and Lake St. John Line, near Chaudiere, ended by the arrest of two young men suspected of being the authors of the outrageous attempt. However, Mr. Justice Chabreau let the two fellows go free because nothing could be proved against them.

The funeral of the late Owen Murphy took place this morning. It was attended by a large number of prominent people.

NO MORE RICE-THROWING.

London, Oct. 7.—There is to be no more rice-throwing at English weddings in high society. The substitute will be paper confetti. There have been several accidents during the past season caused by grains of rice striking the eyes of the bride or groom. Hence the prejudice against the practice. The confetti is about half the size of a letter water and stamped in gold, silver and all colors.

PORTUGAL'S KING WANTS MONEY.

London, Oct. 7.—The King of Portugal will arrive in London on Oct. 13 seemingly on a state visit but, it is said, he wants to negotiate a large loan, and in that connection will discuss with the Government the purchase by Great Britain of Delagoa Bay on the east coast of Africa.

Ground for Resistance.

The City Attorney thinks that the payment made by the city of \$125,000 in 1887 to the Provincial Government in satisfaction of its claims against the city settled for ever any dispute between them. The Recorder's Court fines were not specified in the contract signed, but mention was made of a settlement of all accounts outstanding between them. The Tailleur Government now claims \$500,000 for the Recorder's Court fines from 1887. Mr. Roy says that the city has good ground to resist the claim.

Reserved seats for all performances of the French Opera House can be reserved at the Pratte piano rooms, 1676 Notre Dame Street.

DEBS' NEW PARTY

To Form a Political Labor Organization Opposed to Unions.

Chicago, Oct. 7.—Chicago labor organizations are again in a turmoil; this time over a reception which it was proposed to be given Eugene V. Debs on his release from Woodstock jail. At a meeting of the Labor Congress it was reported that arrangements for the reception were progressing while at a meeting of the Trade and Labor Assembly several delegates expressed their disgust with the entire matter and said that they had come to the conclusion that Debs was not a martyr after all. It developed later that the officers of the Trade and Labor Assembly claim to have discovered that upon his release President Debs will enter upon what they call a war on trades unions, and will endeavor to establish a political labor organization, which will have its headquarters in Chicago.

MINISTER TERRILL DENOUNCED.

Chicago, Oct. 7.—At a largely attended meeting of the American National Union of Chicago, the course of Mr. Terrill, United States Minister of Turkey, in connection with the Armenian affairs, was hotly discussed. Finally a set of resolutions was adopted charging him with having over and over again ignored requests for aid made by Turkish officials; that he has in his despatches to the State Department totally misrepresented the situation; has been against his persecuted fellow-citizens in Turkey because of a "decoration to his daughter."

No narcotics in Dr. Lavoie's Syrup of Turpentine, consequently no drowsiness, no headaches, but immediate relief and speedy cure.

Wants Sheep Embargo.

London, Oct. 5.—English agricultural papers are clamoring for an embargo on American and Canadian sheep, declaring that scab has been spread by an importation. They want them killed on landing.

KNABE PIANOS.

Have been before the public for nearly 75 years, and upon their excellence, have attained such a high position of eminence which establishes them as unequalled in Tone, Touch, Workmanship and Durability. WILLIS & CO., 124 St. James St., Montreal, sole Agents for Central Canada.

LIQUOR SMUGGLERS

UNDER ARREST IN ST. JOHN'S NEW-FOUNDLAND.

THE WHITEWAY GOVERNMENT IS AN AWKWARD POSITION.

The illicit Trade Carried on by Scores of Lending Merchants.

St. John's, Nfld., Oct. 7.—A startling sensation was created yesterday by Wicks, the first of the smuggling syndicate to plead guilty, being sentenced to six months imprisonment without the alternative of a fine. The magistrate stated that they are determined to stamp out this practice. Two other arrests have been made. They are also prominent business men, but the authorities will not disclose their names until their arrests have been made and the Government has completed its case.

Until Wicks made his confession, all attempts to stop smuggling had failed, and it was believed that the present activity against the syndicate was doomed to collapse. Nearly all the customs officers in the outposts, or coast settlements, are natives of the villages, where they live and have many friends or relatives among them. They wink at infractions of the law. Most of them, too, are in the power of the local merchants, who are adept smugglers. The customs service is wretchedly inefficient outside, and in St. John's is little, if any better. The appointments to places in this and every other department go by favoritism. There is no esprit de corps, no discipline, no judicious encouragement for the officers.

The public has a deep-rooted prejudice against anything involving a spy or an informer. The man who does his duty finds others looking at him askance. If he seizes property belonging to a Government supporter, it is returned in nine cases out of ten to the owner, and the officer is reprimanded. The fact is, the whole public service of the colony is honey-combed with partisanship and corruption, every member of the last twenty years having fostered this condition of things for its own purpose.

The seizure which started the present sensation consisted of nine casks and several cases of spirits, equivalent to \$1,400. The liquor was found in a basement store adjacent to a wharf on which it had been landed from a schooner from Odein in Placentia Bay, a harbor which enjoys the distinction

OF DOING MORE SMUGGLING.

than any other place in the island. The schooner was owned by Mr. Power, a brother-in-law of two Whiteaway members of the Legislature. This suspicious circumstance gave the customs people the first clue to the extent and nature of the conspiracy. Power brought the liquor in the bottom of the vessel, beneath his fish, and landed and secreted it at the first favorable opportunity. Fully half of it had been taken away and sold to customers in the city before the raid was made.

The revelations brought out, however, during the pursuit of this matter by the detectives have established that there is a regular smuggling syndicate, with recognized headquarters, an official agent and a schedule of prices. Out of 58 retail liquor stores in the city, 22 have not purchased a gallon of spirits in the legitimate way this year. Nearly all of the dealers live in the western portion of the city, which is likewise the scene of all the smuggling franks.

Furthermore, it is charged upon that few government employees in the assembly are active partners in the smuggling syndicate; that many public officials are implicated and that conspicuous ward politicians are directing the whole business. Wire-pulling began upon the moment of the first seizure, and the delay in the prosecution gives color to the suspicion that the Government does not mean to press the charges.

The determination of the course to be pursued with the persons captured has caused a dead-lock in the Government. The leaders of the party see that they cannot afford to undertake a prosecution. Therefore, the resolutions of the revenue board, the demands of the Legislature, and the undoubted manifestations of public opinion are disregarded.

The revenue board declare they will resign unless the matter be probed to the bottom. The complication is serious and unpleasant, but the board will have to succumb. The Government officials are absent just at this juncture: Attorney-General Whiteaway has gone on a shooting excursion. Colonial Secretary Bond is contesting a district in the far north of the island. Other members of the Government are engaged in the pleasures of travel until the storm blows over.

TELEGRAPHIC BRIEFS.

General Mahone's condition, which was very critical Sunday, improved slightly during the night. He slept well and rested comfortably.

Manches & Wilson, wholesalers moulding dealers, and Manches, Wilson and Adams, King St. west, Toronto, have assigned, also M. Divan & Co., coal dealers, Queen Street, Toronto.

Steamers Manolis, Masaba and Mafosa, with a combined length of 930 feet and tonnage of 940,087 were locked through the new Sault Ste. Marie locks, and one of the captains said it was the sight of a lifetime.

Madame Beaudin Letourneau, of St. Pierre, Montserrat, upon the representation to Lord Aberdeen by Mr. Choquette, M.P., of the fact that she had given birth to triplets, has received the customary royal bounty of three guineas.

An order has been passed which should prove a convenience to those intending to enter the Royal Military College at Kingston. Hereafter the matriculation examination of certain universities will be accepted in place of the entrance, or preliminary examination of the college. The institutions named are the Toronto University, McGill College, Queen's College, Laval University, University of New Brunswick and Dalhousie College. Candidates must present themselves within one year of matriculation, and on passing the medical examination will be ranked alphabetically after those who have passed the ordinary entrance examination of the Royal Military College.

INTERESTING INTERVIEW.

An American will Make Arrangements With a Canadian Firm.

Ottawa (Special) Sept. 30.—An American who has been here interviewing the members of the government on private business has left here for Toronto, where it is understood he will try and make an arrangement with the Dodd's Medicine Company of that city for the establishment of a manufactory of Dodd's Kidney Pills in New York State. He declined to specify the locality. During his stay in Ottawa he has been investigating the now celebrated case of G. H. Kent who was saved by this remedy when in the last stages of Bright's disease, and has satisfied himself of the genuine nature of the case. He asserts that the medicine is now universally used throughout the state.

TURK AND ARMENIAN.

England Again Divided in Opinion Respecting Eastern Troubles.

New York, Oct. 7.—The Times in its London cable letter from London publishes the following respecting the Constantinople riots and the condition of affairs in the East:

Confidential and English comments on the situation as it stands reveal an entire confusion, not only as to what will happen, but as to what has already occurred. Here in London we have two sharply conflicting accounts of the Constantinople riots. One says that the Armenians are wholly to blame, the other pictures them as lamblike victims to Turkish ferocity.

Lord Salisbury, on succeeding to the Foreign office, felt in duty bound to make the best show of continuous Eastern policy that he could, but his party was under no such obligations, and the Tory papers began at once to change their tone about the Armenians. Today the Times among them remains almost alone in desiring to see the Porte humiliated and the Mesopotamian Christians exalted. Its Tory contemporaries now have correspondents in Constantinople who reflect their readers' views and paint the Armenians in as bad a light as possible, while the Radical press set reports after their own heart, which make every Moslem a demon and every Levantine Christian a suffering angel. So the English parties are being released from the artificial restraint of the hybrid Rosebery-Kimberley foreign policy and swung back into the natural positions which have been held since the close of the last century.

It can be seen that all this will not simply Lord Salisbury's very puzzling task. His private predilections are those of his party, his personal notion of sending a fleet to the mouth of the Dardanelles would be to warn off Russia, and not to terrify the Sultan, and yet he finds himself nominally working with Russia and using British men-of-war against the Turk to further aims which are ostensibly Russia's as much as England's. If it were not so full of sinister possibilities, this position of affairs would set all Europe roaring with laughter. It is funnier than any farce, but, somehow, no one smiles. This comedy has no easy-minded spectators. Its audience of to-day may all be called to the stage as actors to-morrow, and the burlesque may give place to a tragedy.

DURANT'S ALIBI

Will Vanish Before the Robust Evidence of the Prosecution.

San Francisco, Cal., Oct. 7.—The Examiner says: "One of the greatest sensations in the Durant case and one which comes as a climax with crushing weight upon the accused, has become the property of the prosecution. Theodore Durant not only confessed to a classmate that he had no notes of Dr. Cheney's lecture, but he begged his friend to take his notes to his mother, that they might be copied.

"I have no notes of that lecture," the accused student said, "and I only need them to complete my alibi." When the student to whom Durant made the confession takes the witness stand, the crumbling fabric of the defence will fall.

The prosecution is said also to have information that will completely shatter the alibi set up by the defence. They claim that Dorr, a member of Durant's class in college, told in his family circle that on the day of the murder the prisoner's seat was occupied by a student named Barry. He did not tell the same story when called in court, and will be recalled and made to tell the whole truth.

PLEASANT SUNDAY AFTERNOON SOCIETY.

The Work for the Winter Opens With Bright Prospects.

The opening lecture for the winter season under the auspices of the Pleasant Sunday Afternoon Society was delivered Sunday afternoon in Fraternity Hall, Point St. Charles, by the Rev. Dr. Ker, rector of Grace Church. There was a very good attendance, and President Darlington welcomed them all to the meetings. Dr. Ker spoke from the text: "Seek ye first the Kingdom of God, and all these things shall be added unto you." He delivered a plain and practical address, pointing out that all the evils from which the working man suffers are due to his own neglect. If he exercised his right to the ballot he could ameliorate his condition.

In the discussion which followed many shades of opinion were represented, but the speaker vindicated his position ably against all.

Tuesday evenings will be devoted to scientific lectures, for which Dr. Colby, Dr. Adams, and other friends of the Society from McGill are responsible. The first lecture will be delivered by Miss Carrie M. Derick, demonstrator in botany. Next month the Saturday evening concerts will be recommenced. Among early speakers at the Sunday meeting are Professor J. Clark Murray and George W. Stephens.

Victoria Rifles Band.

The band of the Vics is at present working hard for the annual concert, which takes place early in November, and they promise a programme of music, both classical and light, such as has not been hitherto heard in Montreal. The Vics want to have the best band in the city, and to this end they have secured as an associate of Bandmaster Quivron one of the finest musicians on the continent, Mr. Leon Medard, a first prize man of the Royal Conservatory of Brussels, ex-chief of the Belgian Lancers, solo clarinet of the King's Regiment of Belgium, a member of the Academy of Arts of Hainaut, and officer of the Literary and Scientific Academy of France; also first prize man in the Paris competition of 1892 for composition. With such leaders and with the trained instrumentalists who compose the band it should be able to take a high place.

Teeth That Will Bite.

Artificial teeth of the very best make inserted at lowest cost, painless extraction. Partial or full sets of teeth. Examination free. A. S. Brosseau, 142-144 St. Lawrence Street.

FOR THE ELBE DISASTER.

Amsterdam, Oct. 7.—The action of the North German Lloyd Steamship Co., against the owners of the steamer Cathie, which sank the Elbe, commenced on Saturday. The Cathie's owners have entered a counter suit for damages for detention at Rotterdam after the collision. Judgment will be delivered Nov. 6.

A Useful Book.

The little book, "How To Know a Good Piano," issued by the N. Y. Piano Co., 446 St. James Street. Everyone interested should have one. Free to any address.

An Appeal For Funds.

New York, Oct. 6.—The National officers and executive committee of the Irish National Alliance to-day issued an appeal for funds to carry on the new Irish-American movement established at the Chicago convention.

THE SOCIAL WORLD.

Mr. and Mrs. J. H. R. Molson gave their annual garden party on Saturday afternoon at Belmont Hall, that quaintest and most picturesque of Montreal pioneer residences. Dr. Peterson, the new principal of McGill and Mrs. Peterson were the guests of honor on the occasion. For many years Mr. and Mrs. Molson's garden parties have been a feature of the inner social life of Montreal. Over three hundred people took part in the function of Saturday. The guests were received in the upper drawing room. The circular staircase, in the centre of the great hall-way, with its indolent windings, was entwined with vines. The dining hall being inadequate to the number of guests, the tables of the conservatory which is adjacent. The display of silver plate was lavish and lovely of the antique had a rare treat in store for them. Belmont Hall in its interior appointments and associations has probably no counterpart in the old-fashioned dwellings of Montreal.

No Use Baking

FATAL CHURCH CEREMONY.

Lorain, Ohio, Oct. 7.—While a great crowd of people were assembled yesterday afternoon to witness the laying of the corner stone of the new St. Mary's Catholic Church a temporary floor on which many of the people were standing suddenly gave way, precipitating many men, women and children into the basement. One was killed outright, ten were fatally injured and will die, and between thirty and forty others were badly hurt.

Quebec Depositors Meet.

Quebec, Oct. 6.—The depositors in La Banque du Peuple, in Quebec, met at the Chateau last night in order to take the Board of Directors into consideration and also to appoint a representative on the Advising Committee. Hon. L. P. Pelletier was chosen.

Beware of fraudulent imitations.

Scott's

Sarsaparilla

IS A MOTHER'S REMEDY regulating and strengthening the maternal functions. It purifies the female system of ulcerative weaknesses and debilitating humors. It expels the first symptoms of hereditary humors in children and youths that may owe their origin to past generations. It searches out and renders the system free from disease-breeding germs.

"THE KIND THAT CUBES."

There are not many forms of disease upon which Scott's Sarsaparilla does not act favorably, because pure blood carries to the diseased parts renewing and building up properties. This medicine makes pure blood which builds up where disease has torn down, and carries away the impurities upon which it feeds.

RECIPES.

Mayonnaise of Sweetbreads.—Clean and parboil one pair of sweetbreads, then throw them in cold water for half an hour. Remove the fat and skin, and cover them with fresh boiling water; add a teaspoonful of salt and simmer gently for twenty minutes. When done stand away to cool. When cold, cut into thin slices, wash and dry the tender leaves from one head of lettuce. Rub the bottom of a soup dish with onion and make in it nearly half a pint of mayonnaise. Place a thin slice of onion in the centre of your salad, arrange the lettuce leaves around it; mix the sweetbreads carefully with the mayonnaise, and put in the centre of the dish. Serve.

Cabbage with Cream.—Cut a young tender head of cabbage in halves, soak in cold water one hour, then drain, and shake dry. Remove the stalk and core and chop the remainder rather fine. Put it in a saucepan, cover with boiling water, and boil twenty minutes. Drain in a colander. Put two ounces of butter in a saucepan, place it over a good fire, add the cabbage, a teaspoonful of salt, a fourth of a teaspoonful of black pepper, sprinkle over it a tablespoonful of flour, add a half pint of cream, or good milk; keep stirring with a wooden spoon during the whole process. As soon as the whole comes to a boil it is ready to serve.

Veal Pot Pie.—Take the neck or shank of veal. Boil them long enough to skim off all the froth. Make a paste and roll it about half an inch thick. Butter the pot and lay in the crust, cutting out a piece on each side of the circle in such a way as to prevent its having a thick fold. Put in a layer of meat, then flour, salt and pepper it, and add a little butter or a slice or two of salt pork, as you choose. Do this until you have laid in all your meat; pour in enough of the water in which the meat was boiled to half fill the kettle, then lay on the top crust and make an incision in it to allow of the escape of the steam. Watch that it does not burn, and if necessary pour in more water through the hole in the crust. Boil an hour and a half. The objection to this dish is that boiled crust is apt to be heavy, and therefore unhealthy; but if made after the recipe for Cook's Friend Baking Powder biscuit it will be light.

TRADE AND COMMERCE.

FINANCIAL.

Monday, Oct. 7.
Business was again very dull on the local stock exchange this morning, the features being the street railway stocks. Toronto Railway declined to 80 3/4, and Montreal Street Railway new was steady at 207, the old issue being neglected. Gas was a shade lower at 202 1/2. Outside of these stocks business in the miscellaneous list was very quiet. In bank stocks a weaker feeling was apparent in Peoples, but no sales were made. The closing quotation was 16 bid, stock offering at 80. A sale of Molsons was made at 175, and a few Merchants changed hands at 168 3/4. The money market is unchanged, call loan rates being quoted at 4 per cent. to 4 1/2 per cent.

In the afternoon business was almost wholly confined to Toronto Railway, which declined to 79 3/4. It rallied towards the close, however, to 80. The market closed dull and with a heavy tendency.

The highest, lowest and closing prices, total sales and net changes from Saturday's closing prices for actual sales in the local market were as follows:

MORNING BOARD.	
Sales.	High, Low, Close, Chrg.
50 Gas x.d.	202 1/2 202 1/2 -
100 Peoples	163 164 164 1/2
50 New St. Ry.	207 207 207
25 Telegraph	175 175 175
400 Toronto Ry.	80 80 80 - 1
25 Molsons Bank	175 175 175
10 Merchants	168 168 168
Advanced.	Declined. Total shares sold, 955.

Following are the latest reported earnings of the Duluth, South Shore and Atlantic Railway:

DULUTH EARNINGS.	
Third week, Sept. 1895.	\$36,415
Third week, September, 1894.	\$3,150
Decrease	\$1,741

BRAZILIAN EXCHANGE.

New York, Oct. 7.—The quotation for Brazilian Exchange to-day was 10 7/16.

NEW YORK STOCKS.

Boody, McLehlan & Co. wire R. Meredith: "Market opens heavy, prices do not respond to higher quotations from London."

TICKER GOSSIP FROM R. MEREDITH.

The covering of shorts affected not a little the rally in Saturday's early dealings, and the late downward tendency in values appeared to be due to the influence of the bank statement which seems to foreshadow a hardening in money market. If any speculative deal is pending in sugar refining, shrewd observers are still unable to forecast its character from the current professional movement. Last week's decline in Kaffirs, which as nearly as may be judged ranged from 5 to 25 per cent., appears small after the previous inflation of 100 to 500 per cent.

NEW YORK GOSSIP.

J. S. Bache & Co., New York, wire their local manager, C. D. Monk, as follows:

A great many loans are reported to have been disturbed this morning and rates marked down.

Chicago special: Moloney says he intends to study the Gas plan carefully. He says: "If it violates the law in any respect there will be no reorganization while I am Attorney-General, if I can prevent it."

Chicago special: Greenhut has gone to New York. Anti-trust distilleries are active. The Globe at Pekin yesterday increased to 4,000 per day, and is now at 1,700 head of cattle, making a grand total of 4,000. The American at Pekin Saturday increased to 3,600 bushels of grain per day, and is feeding 3,600 head of cattle. Big shipments of cattle will arrive at the Atlas Distillery in Peoria this week.

Chicago special: Atchison this morning has put into effect a new tariff cutting freight rates on six classes, covering the bulk of business in carload lots at an average of 50 per cent. The new tariff is 50 cents between Chicago and Colorado points on full class and classes A, B, C and D, class E, 40 cents; O 37, 6th, 8th, 9th, class A, 10th, B 32, C 37, D 33 1/2, E 31. Rock Island will meet the cut to-morrow as will the other Colorado roads.

Chicago special: A high railroad official says that the tariff between Chicago and Colorado is really no change. It is merely an open quotation of rates secretly current for some time. The rate situation everywhere, northwest, and south is rotten. Secret cuts are the order of the day. I look for an open break in rates both to the Missouri River and to the Northwest.

Chicago special: B. G. B. already put into effect the 50 per cent. reduction in rates between Chicago and Colorado points. Traffic Manager Merrill says: "Missouri River rates are in very bad condition. Nobody knows what they are."

Chicago special: General Manager Truesdale, of Rhode Island, says: "The rate situation throughout the west is extremely unsatisfactory. Missouri River rates are in bad shape, and I should not be surprised to see them openly reduced before long."

THE LONDON SITUATION.

New York, Oct. 7.—The Evening Post's special London cablegram says: "The recovery on the Paris Bourse late on Saturday caused all markets to open firm, especially Kaffirs, which jumped up considerably. Ultimately, however, a material set-back in Kaffirs. Options generally vary about them, but the general idea is that a severe slump will, if possible, be prevented, in view of the many new issues of capital to be made. Americans have been firm, but closed quiet at the lowest. Argentine issues were in strong demand on the further confirmation of the rumor cable sent while since that the entire external debt may possibly be unified into a four per cent. stock. The trade returns for September are almost satisfactory. Exports increased nearly 2,000,000 sterling. A feature of the day is the growing dislike in the discount market to the growing accumulation of continental bills. The acceptance of many French houses sold to have refused here."

THE DAY IN WALL STREET.

New York, Oct. 7.—The Evening Post's financial article says: "Developments in the local money market to-day were an interesting sequel to Saturday's bank returns. On the stock exchange rates for call loans were up to three per cent. and several banks were reported as out of the market. Nor is this surpris-

ing, when the reserve of several national institutions is already below legal requirements. The day's operations were somewhat puzzling, for the time money market was not affected, and foreign lenders instead of calling up rates called in their loans. But the result was, of course, the same in either case, and the exchange money market had some of the features of a panic. Naturally, the speculator exaggerated the significance of this development, and careless newspaper critics have encouraged exaggeration. Even in this season of 1891, with bank reserves much smaller than at present, and with the interior trade demand very much larger, average rates on call rarely advanced above 4 or 5 per cent. While to-day's call money market was advancing, sterling exchange reflected the situation by a further decline in rates to the lowest quotations since last spring. On the stock market the rather general calling in of loans had the natural effect of starting professional liquidation. In all stocks, such as the active grangers and industrials, where fairly large amounts are held on slender margins, early prices declined a point or more. The movement was emphasized by reports of rate cutting in the West. But the sharp reaction attracted buying orders and the last two hours were marked by a recovery. Closing was strong and fairly active, though prices ended at fractional net declines.

MONTREAL STOCK EXCHANGE.

The closing prices of local stock exchange to-day were reported as follows by Mr. John Low, stock broker, Stock Exchange Building:

TURKEY MUST OBEY

THE POWERS SEND A COLLECTIVE NOTE TO THE SULTAN.

Armenians Must be Protected in Constantinople—Reforms are Promised.

Constantinople, Oct. 6, via Sofia, Oct. 7.

The Powers have sent a collective note to the Turkish Government calling attention to the inadequate measures taken by the police authorities to maintain public tranquility in Constantinople and its suburbs and demanding the prompt institution of a rigorous inquiry into the recent rioting, bloodshed and wholesale imprisonment of Armenians here.

In addition, the Powers demand the release of all prisoners who are innocent of wrongdoing and the cessation of arrests.

Said Pasha, the new Turkish minister for foreign affairs, who held this portfolio before he was made Grand Vizier, in which office he has been succeeded by Kiamil Pasha, has called at the different embassies and has presented to the representatives of the Powers a communication from the Turkish Government, respecting the assurance that a plan for reform in Armenia has been accepted by the Porte. It is not believed, however, that this will satisfy the Powers. There have been no further excesses however, although a feeling of great disgust still prevails and fresh demonstrations upon the part of the Armenians are feared.

The Armenians who are still inside the Patriarchate Church here in which they sought refuge after the rioting of Monday last, fired some shots at noon, to-day, and it was feared that another outbreak was imminent. The police watching the building promptly notified the military authorities, and a strong force of troops was sent to this spot. The soldiers immediately blocked all the adjacent streets.

This action of the military caused quite a panic among the inhabitants of that quarter and they fled from their homes in all directions. The Kurds then entered the workshops along the quays and expelled from them all the Armenians they could find. Later, it is claimed, the bodies of four Armenians were found.

There is one feature of the police work which is attracting considerable attention. It is frequently recalled that the gendarmes, while making arrests, repeatedly told the persons taken into custody to "Call upon England to deliver you."

Those who know the way of Turkish officials say that this shows that the police were instructed to impress upon the minds of the Armenians that Great Britain was unable or unwilling to assist them in this emergency.

NEWS FROM THE WEST.

Heavy Delivery of Wheat—C.P.R. Boats and the Flour Trade.

Winnipeg, Oct. 7.—The general freight agent of the C.P.R. said this afternoon that in the matter of farmers' deliveries at stations and elevators in the province and territories east of Moose Jaw last week they were the greatest in the Canadian Pacific Railroad's history in this country, the receipts having been 1,000,000 bushels as against 558,000 bushels for week ending September 22, 1894, the heaviest week last season. This is stored at different points. The farmers are evidently holding for advanced prices.

At present C.P.R. boats at Fort William are not hauling out much grain, their capacity being taxed with carrying away flour. The output of flour from western mills keeps the boats busy, as the Canadian Pacific gives first attention to the manufactured article, the weekly shipments amounting to 3,900 tons.

W. D. Scott left to-day for Toronto, where he will represent the Manitoba Government this winter as Ontario immigration agent.

Lieut.-Governor Mackintosh and Mrs. Mackintosh arrived to-day from the west. Mrs. Mackintosh went through on the same train to the east, but his Honor remained in the city.

Premier Greenway to-day published a careful estimate of this year's wheat crop, placing the first-class high-grade wheat at twenty million bushels, and lower grades at fifteen millions. There are twenty million bushels of oats for export.

ADA CAVENDISH DEAD.

London, Oct. 7.—Ada Cavendish, the actress, whose serious illness was announced in these despatches of Saturday a week ago, is dead. Ada Cavendish was the widow of the late Frank Marshall, co-actor with Sir Henry Irving, of "The Irving-Shakespeare." She was known in America as the Mercy Merrick of Wilkie Collins' "The New Magdalen."

Press Assoc. Conclude With Aid. Wilson Smith.

At a meeting of the executive of the Press Association, Province of Quebec, yesterday afternoon, Dunbar Browne, of the Shareholder, presiding, it was moved by J. K. Foran, Trust Writings. That the executive of the Press Association, Province of Quebec, desires to place upon record its expression of the most sincere sympathy with Mr. H. Wilson Smith, proprietor of the Insurance and Finance Chronicle, ex-president of our association, and an esteemed member, who has recently been visited with a sad bereavement, the loss of a charming daughter, a bereavement which is intensified by the fact that it is the second which has befallen him within the past eight months. It was also ordered that a copy of this resolution, signed by the president and secretary, be sent to Mr. Smith.

Artistic Merit Recognized.

The natives of the Loo Mountains of Southern China have for years been noted among their near-by neighbors for their skill in carving.

There is a peculiar stone of many colors, called jade stone, found only in these mountains, which is used in their work. Until very recently these carvings had never been seen outside their own country. Hearing of the demand outside for all things curious, some of the more enterprising natives got together a collection of these carvings and carried them in wicker baskets on poles over the thousand miles intervening between the mountains and the coast of Shanghai. They are now on exhibition at 227 St. Catherine Street. An opportunity is thus offered to lovers of the curious and the beautiful to secure something entirely new in the world of art, something, too, of great artistic merit.

Will Oppose Hon. W. Harty.

Kingston, Oct. 6.—Dr. Smythe having declined to oppose Hon. W. Harty in the provincial bye-election, Conservatives declare another candidate will be named. It is also announced that those guilty of bribery in the last election will be prosecuted.

Fatal Nicotine.

There is little doubt but that nicotine taken into the system continually will prove injurious. A new pipe with an absorbent asbestos bowl has been invented, which takes up all the nicotine, and colors like meerschaum. Ross, of 20 Chabolliez Square, has added them to his complete stock of smokers' materials, and would like to show them to you.

CATHOLIC COUNCIL'S WORK

Education and the Conduct of the Faithful Among the Subjects of Decrees.

The Council of the Roman Catholic Bishops of the ecclesiastical province of Montreal held its last business meeting yesterday, and the titles of the decrees adopted will be read to-morrow morning in the Roman Catholic cathedral.

As to the decrees arrived at, the lips of the members of the council were sealed, at least to members of the press. They were not so between members of the clergy. One of the prelates of the diocese took the Herald reporter aside and explained the situation as follows:

"The members of the council will not make their decisions known because they must first be submitted to the Pope and the Sacred Congregation of the Council. The council has several changes to be made before the decrees become law, and you understand that it would be awkward to let the general public know the differences which exist between our theologians and the Roman authorities. I do not mean to say that there is anything extraordinary or surprising in these possible differences. The council has examined decrees, touching, for example, the point of ecclesiastical discipline, and every interest of the Church, and doctors are permitted to disagree on at least a few out of so many questions."

"All the decrees, however, had been very carefully prepared long beforehand; they have been discussed in the council by the theologians, for and against, as a bill is discussed in Parliament; and as a whole, the work of the council may be considered as near perfect as possible. Yes, the council has considered the relations of the Church to education. Not in a general sense, however. The council could not more readily with the Marist school question, or any other question of the four decrees represented, than a municipal corporation could tinker with the tariff. The educational matters considered were the fine and interest of Laval University, the authority which the bishops are to exercise over the teaching orders, etc."

"Am I to understand that the reforms urged by Hon. Mr. Dawson, the Council of Public Instruction were discussed?" ventured the reporter.

"You may understand that an honest effort has been made to meet the views of all the men who have honestly spoken of education, at heart. But do not forget that the power of action of the bishops is limited; that there are laymen who have duties in the matter."

"The council has reiterated, with some modification, the prohibition for priests to meddle in political affairs, to practice medicine, or to go beyond the duties of their ministry generally. Members of religious orders are forbidden to make innovations in the exercise of special devotions, without the sanction of the proper authorities. The regulations concerning religious burials, and the attitude of the Church towards the press, have been drawn to meet the civil law as interpreted by the courts in recent years. Decrees have been enacted for better Sunday observance, forbidding excursions on that day, the holding of political meetings at church doors, etc."

The medical profession has received some attention, and more severe measures than ever are to be taken to prevent all practices contrary to morality on the part of Catholic physicians. Usury, that plague which has always been denounced by the Church, is the subject of some severe decrees.

"In a word, the Fathers have gone over the ground covered by the first Provincial Council of Quebec, and they have altered the decrees to suit the changed conditions, and enacted new ones to meet recent abuses. The result, I am sure, will be more satisfactory relations between the clergy and the episcopate and the laymen, and the suppression of many deplorable abuses."

GRAND TRUNK RAILWAY.

A Corporation Which is Alive to the Interests of the Public.

The Grand Trunk Railway are not only taking the best of care of the passengers travelling on their trains, but have added to the comfort and health of the travelling public by the introduction of the celebrated "Crystal Filter" in the vestibule of the Bonaventure depot. They are also preparing to supply all the other waiting rooms with it.

DUKE'S SOLICITOR COMING.

London, Oct. 7.—The Duke of Marlborough's old family solicitor has sailed for America to assist in drawing up his marriage settlements. A friend tells that a great bustle of preparation has begun at Blenheim, among other things the huge pleasure lakes on the demesne being dredged and cleaned, a work which cost \$30,000, and which, owing to the chronic state of this particular demesne, was not done before for ninety years.

BREVITIES.

The English-speaking Conservative electors of the riding of Jacques Cartier have been invited to meet in St. Lawrence Hall at 3 p.m. on Monday next to select the eleven delegates, to be sent on the 15th, to the convention called for the choice of a candidate.

At Douglas Methodist Church on Sunday a memorial window was unveiled to the memory of the late Rev. William Hall, M.A. The window presents pictorially the story of the good Samaritan. The unveiling ceremony was presided over by Rev. Dr. Hunter, and addresses were delivered by the Rev. Dr. Carman, Rev. Dr. Sutherland, and Mr. J. J. MacLaren, Q.C. Rev. A. M. Phillips, pastor of the church, presided.

The mortality in the city last week was: Catholics 33, Protestants 23; total 106. Amongst the fatal maladies were consumption, which caused 10 deaths; infantile debility, 9; diarrhoea, 8; cholera infantum, 6; diphtheria, 4; bronchitis, 4; typhoid fever, 2; croup, 2; scarlatina, 2, and pneumonia 2.

PERSONALS.

Bissell Wilson, district passenger agent of the Missouri Pacific Railway, Iron Mountain Route, and Texas and Pacific Railway at Chicago, is in the city on a short business trip.

H. J. McGuire, proprietor of the Bonaventure Depot refreshment room, returned home by R.M.S. Vancouver from an extended trip to Europe. Mr. McGuire is looking well, and was welcomed home by many friends at the ship.

John Summers, who for years made many friends in this city, is a photo artist, and who was well and favorably known in the M.A.A.A., in St. George's and Old Tuque Blue Snowshoe Clubs leaves to-day for Boston, where he will take up his residence.

Rev. Canon Rollitt, of Huntingdon, has been appointed to the Protestant chaplaincy of St. Vincent de Paul Penitentiary, rendered vacant by the recent death of Rev. Canon Fulton.

Mr. H. Laporte, of Laporte, Martin & Co., has moved his residence in the city again. He has been spending the summer in Dorlon.

Grand Union Hotel, Ottawa.
The most popular hotel in the capital city. Finest sample rooms in Canada. Central modern and moderate in charges. Cuisine unexcelled.

The Jacques Cartier Hotel, Jacques Cartier Square, furnishes the best table and accommodation at reasonable prices to parties making arrangements now for the winter months. Inspection invited.

BROKE THE MAIN.

SUMMARY DEALING WITH THE WATER AND POWER CO.

The Seal Was Broken and 2270 Gallons Taken Previously.

Acting Superintendent Laforest, of the Water Department, ordered his men yesterday to break the 53-inch water main connection between the city and the municipality of Westmount.

This main is on St. Catherine Street. The Water and Power Company draws water from it to supply its customers in Westmount. The water was turned off by order of the Finance Committee in June last, but during the night the Water and Power people turned it on again. Then Mr. Laforest turned it off once more, and put a seal on the valve. Last week one of the city's water-meter inspectors found that the seal had been broken, and that 2,270 gallons of water had been taken. This having been reported to the Water Committee, it instructed Mr. Laforest to consult the City Attorney as to the legality of breaking the connection altogether. To-day the connection has been broken. A member of the Water Committee said yesterday morning:

"The city functionaries have been altogether too dilatory in their dealings with the Water and Power Company. That company owes the city over \$100,000 to-day for water, and yet it shows not the slightest disposition to pay up. The water should have been turned off when the Finance Committee ordered it to be turned off last spring. The City Attorney was also instructed to take steps to annul the contract with the company. What has been done in this connection? Nothing that I know of. The next we will hear about this company will probably be a private bill brought in stealthily to the legislature compelling the city to buy out the company. Two years ago such an attempt was made, but was frustrated by Mr. G. W. Stephens, M.P.P. What the city should do now, it appears to me, is to make a demand of assignment upon the company. If a poor man owes a few dollars for water and does not pay the water is cut off from his little tenement. This company owes \$100,000, has never paid one cent for its water, and treats the city with contempt."

A POET LAUREATE.

London, Oct. 7.—There is a rumor about that William Ernest Henley is to be made Poet Laureate. It is a selection which always seemed to be the most fitting to me, if Swinburne must be excluded, but that surely is no reason why it should be negated. Henley is a certain Johnsonian intractability, not to say malice, of temperament which it is difficult to imagine politicians finding admirable. Edwin Arnold would be more in their form.

Mme. Melba and the Aeolian.

"When I first heard of the Aeolian I was unable to understand how a musical instrument requiring no technical knowledge on the part of the performer could be artistic from the musician's standpoint. I do not think it possible for any one to understand it unless they do as I did—see it and hear it played. I am sure that every one who does will join me in a hearty endorsement of your truly wonderful instrument."

(Signed) Nellie Melba.

The Aeolian may be heard at the Pratte Piano Co's warerooms, 1676 Notre Dame street.

TO BECOME CARDINALS.

Paris, Oct. 7.—The figure says that the next consistory will be the occasion of creating the following cardinals:—M. Ferrata, the Papal Nuncio at Paris; Mgr. Ag. Hardi, the Papal Nuncio at Vienna; and Mgr. Satolli, the Papal Ablegate to the church in the United States.

The Society of Arts of Canada, 1668

Notre Dame Street, Montreal.
Distributions every Wednesday.
Value of prizes ranging from \$4 to \$500, tickets 25 cents.
Value of prizes ranging from \$3 to \$2,000, tickets 10 cents.

Stole a Pipe While Drunk.

Two sailors of the steamer Strathmore named Alfred Weeks and James Thompson were arrested and brought before Judge Dugas yesterday charged with having stolen a pipe from the tobacco store of a Mr. Dabond on Notre Dame Street yesterday. His Honor fined them \$10 each, as they were drunk at the time, for vagrancy and ordered their imprisonment for two days.

Rosa Maria Poirier was fined \$5 or one month for giving liquor to a prisoner in the Police Court cells.

We are making the best Dress Suits, silk or satin lined, for \$35.00. Kelly Bros. 1691-1697

Notre Dame.

That Gas Contract.

A special meeting of the City Council has been called for to-night on a resolution signed by Ald. Prefontaine, Hurlbut, Robert, Maréchal and Dupre. The object of the meeting is to authorize the mayor to sign, on behalf of the city, the contract with the gas company which was adopted by the Light Committee at its last session.

We are now showing the latest in Fancy Suitings, Vestings and Fall Overcoatings. Kelly Bros 1691-1697

Notre Dame.

A Serious Charge.

Onesime Carter, cashier of Messrs. Quintal & Pils, grocers, was arrested this morning by Deputy High Constable Bissonnette on the serious charge of embezzlement. He is accused of having taken \$800 and \$300. The case was remanded for enquiry on Wednesday upon the prisoner pleading not guilty.

We have just received the latest style materials in Fine Vicunas, Cheviots, Serges and Fancy Suitings. Kelly Bros. 1691-1697

Notre Dame.

The Bridge.

The bridge of a piano serves the same purpose as the bridge of a violin, a strong bridge helps give a steady tone. The bridges in the Pratte Pianos are of eight thicknesses, twenty-five times as strong as the ordinary kind and twenty-five times as expensive as the ordinary, made of one solid piece. But the expense is no obstacle where the aim is the Best. These kind never split or give from strain. Just such points as this all through the Pratte Piano have made it the "artist's instrument." This subject can be made very plain and interesting if you will call at the warerooms, where you will be shown samples and experiments.

Pratte Piano Co.
