BRITISH CRUISER PATHFINDER HITS MINE AND SINK

LOSS OF LIFE NOT KNOWN—
CARRIED 268 MEN—CAPTAIN
WAS WOUNDED.

London, September 7.—The light cruiser Pathfinder, of the British navy has been blown up by a mine in the North Sea. The loss of life is not definitely known. The paymaster, Sydney W. Finch, was killed, and the commander, Capt. Francis M. Leake, was wounded. Six junior officers and two petty officers were wounded.

The Pathfinder is the second British cruiser blown up by mines in the North Sea. She was of 2,940 tons and carried a complement of 268 men. She was commissioned at Portsmouth in October, 1913, and was attached to the 8th flotilla.

The Wilson passenger liner Runo, with 600 passengers on board, struck a mine in the North Sea and was sunk Saturday afternoon. All of the crew and passengers, with the exception of about 20 Russian refugees, were saved.

The Runo sailed from Hull for Archangel on Friday and fouled the mine when 40 miles out. Shields at 4.35 o'clock. The rescues were made by fishing trawlers, a member of the crew of one of which said that he heard a report and saw the Runo rise in the water and then settle by the head until the forepart of the ship was awash. She remained in this position long enough to enable her small boats and the trawlers to pick up the survivors, 200 of whom were later landed at Hull.

The survivors of the Runo arrived here at Hull aboard the trawlers Cameo and Euripides. 213 passengers were saved, 26 were missing and 1 died. The first-class passengers landed include Mr. Ray, on his way to take up his position as consul at Odessa.

7 FALSE ALARMS RUNG LAST NIGHT

FIREMEN REPEATEDLY CALLED OUT IN HEAVY DOWNPOUR OF RAIN.

Whether the work of some drunken idiot or the pastime of some weak-minded degenerate there were seven false fire alarms rung in between eleven and twelve o'clock last night. It is the impression of the authorities that the parties responsible for the ringing last night drove from box to box in an automobile, and the police are believed to have information in their possession which will lead to the capture of the guilty parties.

The boxes which were sounded last night were: Nos. 134, 148, 124, 85, 81, 77, 29. Despite the heavy downpour of rain the firemen had to respond to each call which was anything but pleasant in weather such as was prevailing last night.

NO MORE THROUGHS

VIA THE U. S. A.

Sarnia, Ont., Sept. 7.—It is reported here that the Grand Trunk has notified its ticket agents in the United States to discontinue selling tickets through Canada to all foreigners in order to preclude the possibility of Austrian or German reservists getting back to the seat of war.

NUMBER OF THOSE UNEMPLOYED IN LONDON LESSENS

RECRUITING ACCOUNTS SOMEWHAT FOR THIS, ESPECIALLY IN NORTHERN DISTRICTS.

London, Sept. 7.—10.00 p.m.—A return issued by the Board of Trade tonight shows that the growth of unemployment has virtually stopped. In the trades where insurance against unemployment is enforced the percentage of unemployment is 6.24—almost exactly the same as last week, and compares with 3.34 last year.

The number of persons seeking employment at labor bureaus actually has fallen off, but is still about double what it was a year ago. Recruiting, which is proceeding at an amazing rate, accounts somewhat for this, particularly in the north and in the mining districts. Recruits are applying in such numbers that at some places it has been decided to close the recruiting offices for a week.

Prices of food show little change, and this is due to increased freight and insurance rates than to a shortage of supplies. Meat and fish are arriving in almost normal quantities.

The saloons of London are closed hours earlier than usual. At Hull, Chatham and other places, where many sailors are congregated, they have been closed entirely, while in other provincial towns the hours for remaining open have been reduced.

DARING FEAT OF A SUBMARINE

PENETRATES HARBOR OF
BREMERHAVEN AND FIRED
TWO TORPEDOES

Hull, Eng., Sept. 7.—Early last week destroyers and submarines of the British fleet by close surveillance discovered a passage between the mines which German destroyers used in coming out to the North Sea. With that information a flotilla of submarines and destroyers proceeded to round up the German ships.

When the operation was finished the British vessels returned to their base, with the exception of one submarine. There was much anxiety as to the fate of this vessel, and as nearly a day passed without news of it the fleet began to conclude she had been lost. Just as this fear began to be viewed as a certainty the submarine came calmly into the midst of the fleet and asked to be replenished.

Excitement among the bluejackets at the return of the wanderer spread to every ship. Questions on every lip were: "Where has she been and what has she been doing?" Explanation was soon forthcoming, and all who heard it were thrilled at the daring feat accomplished by the commander and crew.

The submarine actually penetrated into the harbor of Bremerhaven, where she fired two torpedoes. The Germans were panic-stricken, in the midst of which submarine went to sleep on the bottom of the harbor. For hours the ship and crew remained there, the harbor being trawled, but fortunately not passing over her.

As soon as he considered it was safe the commander gave the order to proceed out of the German harbor, the submarine returning across the North Sea without mishap.

GERMAN FORCES ARE DRIVEN BACK BEFORE THE ALLIES AS RESULT OF BIG BATTLE

British Are Reported To Have Annihilated The German Imperial Guard Which Was Commanded By The Crown Prince---Russians Gain Further Successes---British Cruiser Is Sunk By Mine

London, Sept. 7.—One more the Germans and the allied French and British armies have grappled in the great battle which has been fought with only two brief intermissions since August 23.

The tide has turned, for a time at least, and, according to the official bulletin from Paris, the Germans on Sunday evening were compelled to make a retreat.

The battle line stretched in a rough crescent east of Paris from Nanteuil-Le-Haudouin to Verdun. The front was more than 100 miles long, with the French on the outer edge of the crescent and the Germans occupying the interior line. It was a general action and the British troops were in the battle with the French.

Brief and indefinite though the announcement was, it has kindled high hopes in Great Britain that the German steam roller has struck an impassable barrier.

GERMANS RETREAT.

Paris, Sept. 7, via London, 8.35 p.m.—It was officially announced tonight that the Germans are retreating from the line of Nanteuil-Le-Hardouin to Verdun after a vigorous action with French and British troops.

An earlier official statement given out in Paris today said that a general action had started on the line from Nanteuil-Le-Hardouin to Verdun, a distance of 120 miles. It was then said that, thanks to the vigorous action of the French troops, supported by the British the Germans had "started retreating." Unofficial advices from Berlin also have indicated that a battle of tremendous importance was being fought in the territory described.

VICTORY FOR ALLIES.

London, Sept. 7, 10.17 p.m.—A Boulogne despatch to the Evening News says a telegram has been received from General Pau announcing a victory by the allied forces at Precy Sur Oise. The Imperial Guard, under Crown Prince Frederick William, is reported to have been annihilated by the British force which opposed them.

London, Sept. 7, 10.17 p.m.—A Boulogne despatch to the Evening News says:

"A telegram has been received from Gen. Pau, announcing a victory by the allied forces under Field Marshal Sir John French, commanding the British, and Gen. D'Amade at Precy Sur Oise, about 25 miles north of Paris.

"The Allies were drawn across the northern line with the centre at Precy. The English troops were on the left and the French on the right. The former had in front of them the Imperial Guard, under Crown Prince Frederick William.

"On both wings, it is reported, the Allies were successful. The German left was held by the French and retired to the north.

"The Imperial Guard, who were ordered to surrender, were annihilated by the British. It is reported that the Crown Prince was in their midst."

The British Official Bureau has received no confirmation of this message.

AUSTRIANS RETIRE.

Petrograd, Sept. 7.—The Russian General Staff, in an official communication, issued tonight, says:

"In the sphere of operations around Rawa (32 miles northwest of Lemberg, in Galicia) the Russian forces continue a number of serious engagements. The Austrian army which has been operating in the direction of Kholm is retreating, repulsed by the Russian troops, which have taken numerous prisoners together with artillery and ammunition trains.

"Five hundred Austrian soldiers are in hospitals, suffering from dysentery, which is said to be ravaging the ranks of the enemy.

"On the German front there have been only insignificant skirmishes."

POSITION OF ALLIES.

Paris, Sept. 7.—The following official communication was issued here tonight:

"First. The Allies have advanced their left wing without energetic opposition from the enemy.

"Second. The situation is unchanged on our centre in the region of Verdun, our forces alternately advancing and retreating. There have been some partial successes on our right in the Vosges.

"Third. The advancing troops and the Allies defending Paris have had several combats on the Ourcq River, with the results in favor of the Allies."

JOFFRE'S PLANS SUCCEED.

London, Sept. 7, 11.45 p.m.—The Official Bureau says: "General Joffre's plans are being steadily carried out. The allied forces, acting on the offensive, have been successful, in checking and forcing back in a northerly direction the German forces opposed to them."

WAR SUMMARY

Apart from the announcement that the German forces have fallen back before the offensive tactics of the Allies on the line from Nanteuil-Le-Haudouin to Verdun, the most interesting report is contained in a despatch to the London Evening News, from Boulogne, in which the French commander, General Pau, is given as authority for the statement that the Allies have won a victory at Precy-Sur-Oise, in which the Imperial Guard, under the Crown Prince of Germany, is alleged to have been annihilated by a British force.

The British Official Bureau says that the plans of the French commander-in-chief, General Joffre, are being steadily carried out and that the Allies have succeeded in forcing back in a north-east direction the German forces opposed to them.

Paris officially reports that the Allies have advanced their left wing without energetic opposition by the Germans, and that several engagements on the Ourcq River have favored the French and British.

The Russian army operating in Galicia is reported still to be driving back the Austrians.

The casualty list as a result of the blowing up of the British cruiser Pathfinder by a mine in the North Sea, comprises four men killed, 13 wounded and 242 missing.

GERMANS ISSUE PROCLAMATION TO HOSTILE TOWNS

ENTIRE CITY IS HELD RESPONSIBLE FOR ACTS OF EACH INDIVIDUAL

Berlin, Aug. 26.—The commander of the German troops are issuing a proclamation to the inhabitants of every hostile town they occupy, as follows:

"Citizens—A body of the German army under my command has occupied your city. Inasmuch as the war is carried on only between the armies I guarantee in due form the life and private property of all the inhabitants under the following conditions:

"1.—The inhabitants must strictly avoid every hostile act against the German troops;

"2.—Food and forage for our men and horses are to be furnished by the inhabitants. Every such delivery will be paid for at once in coin, or a receipt will be issued, to be redeemed after the termination of the war;

"3.—The inhabitants are to house our soldiers and horses in the best manner, and to keep their houses lighted at night;

"4.—The inhabitants are to put the roads in a passable condition, to remove all obstacles erected by the enemy, and to give the best support to our troops in order that they may be able to fulfil their task, doubly difficult in a hostile land;

"5.—It is forbidden to collect in crowds on the streets, to ring the bells, or to communicate with the enemy in any way whatever;

"6.—All weapons in possession of the inhabitants are to be handed over at the town hall within two hours;

"7.—The mayor, the clergymen and four well-reputed citizens are to appear before me at once to act as hostages during the stay of the troops.

"Under these conditions—I repeat it—the lives and private property of the inhabitants are perfectly secured. The strict discipline to which our soldiers are accustomed even renders it possible that no inhabitant will be compelled to neglect his business affairs, or to desert his home and hearth. On the other hand, I shall adopt the most stringent measures as soon as the above conditions are not observed. In this respect I shall hold the hostages in the first instance responsible. Besides this, every citizen will be shot who is found with a weapon in his hands, or committing any act whatever hostile to our troops. Finally, the entire city is responsible for the acts of every individual citizen; and the citizens will do well to keep mutual oversight over each other, in order that they may avoid the unpleasant consequences that must follow upon any co-operation with the enemy."

As a consequence of alleged non-observance of such proclamation a number of villages on the French frontier have been burned and the inhabitants severely punished.

A HUNDRED YEARS AGO TODAY

Interesting Accounts of Bonaparte.

The following semi-official intelligence has been issued from the government offices. Upon quitting Roanne Bonaparte requested that a British vessel stationed off Toulon might be procured to convey him to Elba. The "Undaunted," commanded by Capt. Usher, was appointed to that service. Bonaparte arrived at Frejus and was embarked the next day on board that vessel. Nothing could exceed the violence and animosity of all classes of the people as he passed along. At Avignon the carriages which preceded him were stopped, and the eagles defaced; the servants threatened with immediate death if they did not cry out Vive le Roi! and if Bonaparte had passed there the preceding day he would have been assassinated by persons who had collected for that purpose. At Oren an effigy was brought before him, dressed in uniform, besmeared with blood, with the inscription, "Voilà donc l'odieux Tyran—tot on tard le crime est puni." Stones were thrown at him and many indignities offered him. At Montemart the following conversation occurred, between the ex-Emperor and the hotel keeper: "Are you the master of this hotel?" "Yes, sir." "At what o'clock can I arrive at Aignon?" "Between 6 and 7 in the morning, sir." "The Devil! Then it will be daylight; the roads must be bad." Bonaparte then put his hand upon his forehead and muttered: The inhabitants of Avignon are a hot headed people, like all provincials. The famous Glaciere is in that country. I will not enter Avignon. When he left the people shouted Vivent les Bourbons.

FRENCH SOLDIERS

HAVE NEWSPAPER

Bordeaux, Sept. 7, via Paris.—The soldiers' newspaper issued by the government for the benefit of the army contains an article by Rev. Emile Wetterle, member of the Reichstag, from Alsace-Lorraine, declaring that one million and a half people in Alsace-Lorraine are waiting for the French soldiers to rescue them "from under the heel of a pitiless despot."

THIRTY YEARS AGO TODAY

Our Canadian Boatmen.

Thirty years ago at this time Lord Melgunds paid a visit to Caughnawaga to obtain recruits for Lord Wolsley's expedition up the Nile, created a great deal of interest. Grand Chief Williams accompanied the Governor General's deputy and spoke for him to the Indians. The pay offered to the foremen, one of whom would go with every 25 men, was \$75 per month, and \$40 was offered to the men. Only good experienced men were wanted, however, and such would not go for less than \$50 a month. Lord Wolsley has a very favorable experience of the Indian canoeemen. He was impressed with their qualities in the Red River expeditions, where he had abundant opportunities of becoming acquainted with their skill, energy and pluck. That 600 are to start immediately for Egypt is another tribute to the merits of Canada, and no doubt but by their valuable services they will spread abroad the good repute of our Dominion.

BRITISH VESSEL WAS STRIPPED OF WIRELESS

San Francisco, Sept. 7.—The British freighter Cetrania, under charter to the German Government, was stripped of her wireless by the German cruiser Leipzig on Aug. 3 off Magdalena Bay, Lower California, and her cook, a German, and one other German reservist were taken aboard the Leipzig. This was the word brought by Captain Minister of the British Naval Reserve, commanding the Cetrania, which arrived here today. He left July 24 laden with 900 tons of coal consigned to the Leipzig. The two vessels met in Magdalena Bay and the Leipzig was coaled on Aug. 4, the day war was declared. Not until some time later through

HANDLING OF GUNS.

September brings the opening of the hunting season, and this year, just as in every other year, advice regarding the careless handling of guns cannot be too often given. Unsuspecting members of hunting parties by the score have lost their lives because of the careless handling of firearms in the hands of those inexperienced in their use, and as long as there are hunting parties, fatalities undoubtedly will occur. The exercise of a little more care than usual, however, should result in a considerable reduction in the number of these fatalities.

It is undeniably easy for the unpractised eye and the excitable imagination to fire the amateur into hasty action, but with the long record of accidental shootings in mind, there is no reason why more care should not be taken and the safety of human life ensured. Before leaving with a hunting party a man should be an adept in the art of using a gun, and every member of the party should determine not to needlessly endanger life by taking exceptional care always that there is no danger of a fatality. Carelessness is but the outcome of incompetence and inexperience, but even these should not serve as excuses when the sacredness of human life is at stake. Too great care cannot be taken.

THE NEW POPE.

It is customary for a new Pope to intimate the lines he will follow by the name which he assumes. The assumption by Cardinal Della Chiesa of the name of Benedict will draw attention to his predecessor of that title, Benedict XIV., who was pope from 1740 to 1758. He was born at Bologna and it is from the Archbishopric of Bologna that the new pope comes to Rome. Benedict XIV. is described as having been not only earnest and conscientious, but of incisive intellect and unfailingly cheerful and witty. In several respects he bettered the economic conditions of the papal states which were then under Rome's rule, but he was disinclined to make the thorough reform of administration that was needed. In foreign politics he made important concessions to Portugal, Naples, Spain and Sardinia and was the first pope to recognize the King of Prussia as such. To the end of his days he kept up his studies and his intercourse with other scholars and founded several learned societies.

The well-known prophecy of St. Malachi, made centuries ago with regard to the popes, describes the present pope with the disquieting title of "Religio Depopulata" (the faith laid waste). Pius X. was described as "Ignis Ardens" (the burning fire). There may be many who will connect "the burning fire" with the general conflagration into which Europe had come at his death, a condition which undoubtedly hastened his end. There may be those, too, who will read in this queer old prophecy of mediaeval days a significance in "Religio Depopulata" connecting it with trial through which the church must go before peace again prevails.

CITY OF LEMBERG.

The city of Lemberg, where the Russians have gained such success, is the capital of the Austrian kingdom of Galicia and Lodomeria. It is 468 miles northwest of Vienna and has a population of slightly more than 200,000. According to size it is the fourth city in Austria, ranking after Vienna, Prague and Trieste. It is situated on a tributary of the Bug River, in a narrow basin among hills. Its chief defence is an immense and modern citadel around which the city has grown up.

Lemberg is the seat of a Roman Catholic, a Greek United and an Armenian archbishop, and has about thirty fine churches and many monasteries. In the 17th century, and earlier, it was known as the "town of monks." Being the centre of religious activity and noted for its churches, it is also the home of some of the most precious art treasures, including a famous image of the Virgin Mary, housed in the Dominican church. It is also an educational centre and its university, the University of Lemberg, founded in 1784 and reorganized in 1817, numbers more than 1,000 students. In Lemberg, also, is the national institute, which was founded by Ossipinski in 1817. The institute contains a library of 81,000 volumes and 3,000 manuscripts chiefly of Polish literature, and splendid collections of coins, medals, antiquities, paintings and engravings.

Lemberg is also important commercially as it does a large and thriving trade in flax, hemp cloth, leather, agricultural products, machinery, oils and beer. It was founded in 1259 and

since 1340 had been an important city of Poland. The experience of capture by an enemy is not a new one, for the city had been many times besieged, the last previous occasion being in 1848. It fell to Austria at the first partition of Poland. Of the population the majority are Polish and may be expected to be more in sympathy with Russia than with Austria. If retained by Russia in the final settlement it should prove a most important prize.

THE BOMB-THROWERS.

A committee who investigated the havoc wrought by the bombs dropped from the German Zeppelin in the city of Antwerp makes this scathing report, as contained in a despatch to the London Chronicle:

"For the first time in history a great civilized community has been bombed from the sky in the dead of night. Crant Zeppelin, whom the German Emperor calls the greatest genius of the century, has performed the greatest exploit of his life. He has thrown bombs on hospitals, where doctors were attending German wounded. He has staggered humanity."

The New York Sun in a passage which begins with General Sherman's famous characterization of war, says: "To murder wantonly and futilely, to slay or mangle little children and young mothers in their beds, to salute the Red Cross flag with a bomb, to slaughter and terrorize non-combatants, random destruction with no military results, with no permanent result except to sicken and anger all civilized mankind: this is war as practiced on a city from Zeppelin airships."

This is the world's opinion of the methods of war employed by the Kaiser whose impious assumption that his war operations are being conducted under the auspices of Providence is revolting.

In Saturday's "Press Comment" we published an article dealing with Mr. Henri Bourassa. This should have been credited to the Montreal Daily Mail from which it was reproduced.

PRESS COMMENT.

Now is the time for practical Canadianism. Everybody should help to give the trade and industry of the country the strong underpinning of patriotism. Let the barren teaching of economists that trade is a cold-blooded and altogether selfish business be now disproved. If sentiment were always absent from business the lot of the mass of the people would not be much better in peace than it would be with war raging about them. The sentiment of patriotism ought always to be active in the commerce of a country. Especially in times like this it ought to be a strong inspiration to trade. At present the natural industries of Canada are in an exceedingly fortunate and at the same time responsible position. All is well with them, and the welfare of the whole country greatly depends on them. The Canadians in whose hands these industries are are expected to do their duty in this crisis no less loyally than the Canadians who are enlisting for service in the Empire's defence abroad. Our farmers have just taken off a good harvest. The trans-Atlantic markets yawn for Canadian foodstuffs, and the sea routes for the transportation of Canadian foodstuffs are guarded by British cruisers. Excellent prices are offered for all that our farmers have to sell. The prosperity which the situation brings to them will not, we are sure, be selfishly kept to themselves by our farmers. They will use their buying power this year as they have used it in former years. Let them now study more than ever before to give their fellow-citizens engaged in the manufacturing industries the benefit of their preference.—Mail and Empire.

It is one thing to be generously minded toward those with whom the Empire is at war; it is another thing to let those people impose on the liberty that is granted them by such generosity. Recent events have shown what mischief may be done by dishonest or injudicious publications. The Calgary Herald draws attention to another phase of the same question. At various points in Western Canada there are papers in foreign languages, among them several papers published in German. One of them is the Alberta Herald, published in Edmonton, in the German language, and for the benefit of the German population. In its issue of August 13, nine days after war had been declared between Great Britain and Germany, that paper contained matter seditious in character and mischievous intent. On its front page is "Public Warning," signed by the Austrian consul in Winnipeg, and conveying to all Austrians throughout West-

ern Canada the orders for their mobilization and instructions as to how to proceed with it. In another part of the same paper is a signed editorial headed "The Canadian War Boom," which states that "England is trying to antagonize all nations against Germany by false and highly colored news." It informs its readers that the war reports published are meant only to "boost the circulation of the English newspapers." It reminds them that the German people are far ahead of other nations in "social position, education and development," and recounts alleged experiences of the falseness of the war news published to Canadian readers. In the Saskatchewan Courier, of August 26, a German paper published in Regina, is published an appeal to German newspapers and German societies throughout Canada. It refers to the charges being made against the German war methods, and says they should "reply to such expressions and to such ignorant and excited reports" by "arranging a protest from the united Germans in Canada." It reminds its public that political leaders in Canada "understand the importance of the German Canadians," adding "we are nearly a million among a total population of a little more than seven millions." It closes by urging those whom it addresses to present an address to the Dominion Government reminding them that though they have duties to fill toward their new home, "we must show that we cannot in silence accept the calumnies to our German forefathers and our German civilization." The translations of the above extracts may not be strictly verbatim, as it is difficult to procure such a translation, but they are close enough to clearly indicate the spirit and intention of the references. Do those papers realize that this country is at war with Germany, and that they have no right in the world to publish or even to speak such language within the Dominion of Canada? How long has any paper published in the English language in Germany lasted after war was declared, and for how long would an English editor in Germany last outside of prison walls if he dared to utter the converse of the sentences above quoted? The fact is that the excessive liberality extended by British communities in the matter of free speech is liable to abuse by those who do not understand the principles underlying it. The Herald suggests that the government should promptly deal with foreign newspapers of this character in a manner which will prevent them from doing further harm to the cause of our country.

Public notice is hereby given that, under the Quebec Companies' Act, letters patent have been issued by the Lieutenant-Governor of the province of Quebec, bearing date the fifteenth day of June, 1914, incorporating Messrs. Alfred Lang Wade, merchant, William Eric B. Schreiber, travelling agent, of the city of Quebec, Harry Cooper Smith, manager, of the city of Montreal, Gabrielle Berthe Larue, wife of William E. B. Schreiber, by him duly authorized, and P. Martha Sharpe, wife of Alfred Lang Wade, by him duly authorized, of the city of Quebec, for the following purposes: To carry on business as general contractors for the construction, demolition or repair of all buildings and other works, public or private, and for such purposes to enter into, carry out, perform and sublet contracts for doing work and supplying materials in connection therewith; To manufacture, buy, sell and deal in every kind and description of tiling, mosaic and terrazzo materials and interior marble and slate, and to act as agents for manufacturers and dealers in such goods; To acquire, manufacture, build, maintain and operate all stock, plant, machinery and appliances necessary and convenient for the proper carrying on of any of its undertakings; To buy, own, hire and sell moveable and immovable properties necessary for the business of the company, and to invest its available money in such property as it may see fit; To apply for, purchase, lease or otherwise acquire any patents of invention, patent rights, trade marks, trade names, agencies or other rights, privileges, or concessions relating to the foregoing objects, or any of them, and to pay for the same or for services rendered to the company, either in whole or in part, by the issue of paid stock of the company or otherwise; Without in any way restricting the generality of the foregoing, to acquire and undertake the whole or any part of the business, rights, goodwill, property and assets, including any option, concession and the like, of any individual, firm, association or corporation carrying on any business which the company is authorized to carry on, and to assume the whole or any part of the liabilities thereof, and to pay for the same wholly or in part in cash or in bonds, or in payment or in part payment thereof, to allot and issue as fully paid up and non-assessable shares of the capital stock of the company, whether subscribed for or not; To sell or otherwise dispose of the whole or any part of the property, assets, rights, undertakings or goodwill of the company, and to accept payment for the same wholly or in part in cash, bonds, stock or other securities in any corporation or company, any such sale or disposition to be valid and binding on the company, provided the same is accepted by shareholders representing two-thirds of the subscribed capital of the company; To acquire and hold, and to sell or otherwise dispose of the stock, shares, securities or undertakings of any other company, having for one of its objects the exercise of any of the powers of the company, and to transfer its whole or any part of the property, assets, rights, undertakings or goodwill, or to amalgamate with any such company; To enter into any arrangement for the sharing of profits, union of interests, co-operation, joint-venture, reciprocal concession or otherwise with any person or company carrying on or intending to carry on any business which this company is authorized to carry on, or is capable of being conducted so as to directly or indirectly benefit the company; Generally to carry on any business incidental to the proper fulfillment of the objects for which the company is incorporated; It is hereby declared to be the intention that the objects specified in each of the foregoing paragraphs shall be in no wise restricted or limited by reference to or inference from the terms of any other paragraph or the name of the company, under the name of "Provincial Marble & Tile Company, Limited," with a capital stock of three thousand dollars (\$3,000.00), divided into thirty (30) shares of one hundred dollars (\$100.00) each.

The principal place of business of the corporation will be in the city of Quebec, Canada, and the office of the Provincial Secretary, this fifteenth day of June, 1914.

C. J. SIMARD,
Deputy Provincial Secretary.

Do you ever ask yourself why there are so many sauces offered under the name of "Worcestershire"?

Because of the hope that the sauce will be mistaken for the original Lea & Perrins—every detail of label and bottle being imitated as closely as the law permits.

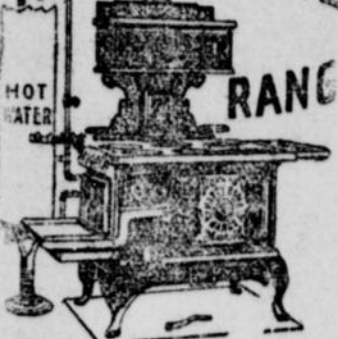

Don't call for "the Worcestershire," say distinctly "LEA & PERRINS"—and look for this signature on label and wrapper.

WOMEN'S PATRIOTIC SERVICE PREPARED TO AID THOSE REQUIRING ASSISTANCE.

The special chapter of the local Daughters of the Empire, known as the Women's Patriotic Service, which was formed on Thursday last to busy itself with the needs of the wives and families of those soldiers who have answered their country's call to arms, has announced after yesterday's meeting that room 33B, in the Court House, St. Louis street, has been secured as an office for the transaction of business pertaining to this branch and all applications for aid or requests for information in connection with the movement may be made in person by calling between three and four o'clock in the afternoon at the above-mentioned address. Any communications addressed to Mrs. J. T. Clarke, secretary of the chapter, will receive a prompt response.

It is to be hoped that those families who require assistance of any description will not hesitate to put their cases before the ladies' committee in order that the latter may proceed at once to render all the aid in their power.

FINE ENTERTAINMENT

AT THE AUDITORIUM

The Auditorium was crowded to the doors at all the performances yesterday, and to say that the audiences enjoyed the excellent entertainment placed on the boards, is putting it mildly, for the applause from the rising of the curtain until its fall was almost continuous.

The performance opened with Delmo in acts of jugglery which were really astonishing, so rapid were they in execution. Hagan and Westcott, singers, dancers and comedians, had the audience either applauding their clever dancing and singing or laughing at their witty sayings, while on the stage. Scott and Annetta (male and female) in their hand balancing feats gave undoubted proof that they hold a leading position in their profession and received well deserved applause. The Knox Bros' musical act was a revelation to the audience, and it is almost needless to say that they were heartily applauded. As tight-wire artists, the six Vallerins have never had their equals appear in this city, their acts being both graceful and daring, all being performed with an ease and finish that could only be executed by master hands.

The same bill will be presented this afternoon and evening, when no doubt bumper houses will again be in order.

GERMANS DEFEY ALL

RULES OF HUMANITY

American War Correspondent

Warmly Rebuke's Kaiser's Troops For Actions

New York, Sept. 7.—The Tribune has the following—yesterday from Richard Harding Davis, its war correspondent: "I have not seen the text of the letter addressed by President Wilson to Americans urging them to preserve towards this war the mental attitude of neutrals. But I have seen the war. I feel very deeply, therefore, that if I did not earnestly try to convince Americans that they should not be neutrals I would be shirking a responsibility. Were the conflict in Belgium a fair fight on equal terms between man and man, then without question the duty of Americans would be to keep to the side lines and preserve open minds. But it is not a fair fight. "Germany is fighting foully. She is defying not only the rules of war, but all rules of humanity. "This is not a war against Germans, as we know Germans in America, who are among our sanest and most industrious and most responsible fellow-countrymen. It is a war, as Winston Churchill, in his interview last Sunday, explained, against the military aristocracy of Germany, men who are six hundred years behind the times; who, to preserve their class against democracy have perverted every great invention of modern times to the uses of warfare, to the destruction of life. "These men are military-mad. Their idea of government is as far opposed to our men as are, martial law and free speech of our town meetings. Every belief of these high-born butchers is opposed to every principle that is to us most dear."

A.O.H. CONVENTION A GREAT SUCCESS

REPORTS PRESENTED, OFFICERS ELECTED AND VISITORS DINED AT KENT HOUSE

The 11th biennial provincial convention of the Ancient Order of Hibernians in America, which opened in this city on Saturday, came to a most successful close yesterday afternoon.

The convention was possibly the most interesting and largely attended held in the Province of Quebec in many years, every centre in the Province where the Order is established having its full quota of delegates.

The reports of the President, Secretary and Treasurer were most interesting and satisfactory to the assembled delegates, and showed that the Order was constantly growing in power and influence, with a bright future before it.

No less interesting were the reports of the various committees, all of which were adopted.

A feeling reference was made to the great loss sustained by the Order in the death of the late Mr. J. Gallagher, whose familiar figure and sound advice at previous conventions they were now deprived of. His passing away to join the vast majority was deeply deplored by the speakers.

Several amendments to the constitution which had been recommended were adopted after having been carefully considered, all of which were deemed to be in the best interests of the organization.

By a unanimous vote the Provincial President was instructed to forward to His Holiness Pope Benedict XV. the hearty congratulations of the convention on his elevation to the Papacy and pledging the fidelity of the Ancient Order of Hibernians to the Holy See.

Considerable interest was manifested in the election of officers, there being a lively contest for every office. The result was as follows: Provincial President, Peter Doyle, Montreal; Vice-Presidents, Ald. T. O'Connell, Montreal, and W. J. Breen, Quebec; Provincial Secretary, W. J. Sheely, Montreal; Provincial Treasurer, P. W. Brown, Quebec.

There was also much interest in the selection of the place of holding the next convention, Montreal securing it by a good majority.

A most interesting and pleasant gathering was brought to a close by all present heartily joining in the singing of "God Save Ireland."

On Sunday the visitors were entertained by the local Hibernians to a trip to the shrine of Ste. Anne de Beapre, and on the return trip a stop was made at Montmorency Falls. At 7 o'clock a sumptuous banquet was partaken of at the Kent House, which was served in Mr. Fraser's best style, and needless to say was thoroughly enjoyed by all.

Patriotic speeches, songs and recitations followed, all of which were received by loud applause.

Messrs. P. Doyle and P. Keane, on behalf of the visitors, thanked the Hibernians of Quebec for the truly Irish and millie faith which had been extended to them and for the hospitality shown them during their stay in the city.

Most of the delegates returned to their homes by the 5 p.m. C. P. R. train yesterday.

FINE REVIEW AT VALCARTIER CAMP

GOVERNOR-GENERAL AND PREMIER WELL SATISFIED WITH THE SHOWING

Sunday's bad weather was the cause of much disappointment at Valcartier and what promised to be one of the greatest military scenes witnessed in Canada was marred by the drenching rain which fell during practically the whole day.

In spite of the rain, thousands of spectators, many from Montreal, Toronto, Halifax and other cities lined the splendid parade grounds to witness the review of some twenty-five thousand troops by His Royal Highness, the Duke of Connaught, as well as Sir R. L. Borden, Premier of Canada, Col. The Hon. Sam Hughes, Minister of Militia and many of Canada's leading men. The Japanese Consul-General Yada together with his aide, Commander Zabana viewed the parade from the Premier's automobile.

The Governor-General addressed a few words to Sir R. L. Borden before the review, stating that in view of the downpour he would dispense with the inspection which would necessitate the standing of the men for a long period in the rain and would merely review them as they marched past. By this time the Minister of Militia and Colonel Williams had taken up positions near His Royal Highness and viewed the men as they marched by. The troops took from forty to forty-five minutes to pass the saluting base marching in line of quarter-column double company formation. There were in all 25,000 men, 2,000 horses and about 400 guns. At the close, His Royal Highness spoke in appreciative terms of the fine body of men he had seen. Both military and civilian spectators were greatly impressed at the display of efficiency in all ranks.

Everybody was delighted with the fine form shown by all ranks under the most depressing circumstances, the more especially as nothing in the nature of a rehearsal had been thought of, much less attempted.

Premier Borden, the Minister of Militia and the Japanese Consul-General expressed great pleasure at the fine appearance of the troops. The Premier stated that he was astonished at the amount of work done and delighted with the men, whose efficiency reflected great credit upon the officers responsible for their training.

A new eight-roomed house has been erected on a fine site in the camp for the Minister of Militia. The construction of this house which has all modern conveniences occupied but eight days and reflects great credit on Lt.-Col. Low and Major Desroche who superintended the work.

It is noted in camp orders that a request has been received from the Department of Naval Service, Ottawa, asking all executive naval officers who have resigned or retired from His Majesty's Service to communicate with the Department with a view of their being sent to England for Naval Service.

H. R. H.'s MESSAGE.

Says Parade Reflected Great Credit On All Ranks.

After reviewing the troops during the rain on Sunday and inspecting the camp yesterday morning H. R. H. the Duke of Connaught made the following statement which appeared in last night's issue of the Camp Orders:

"His Royal Highness congratulates The Honorable The Minister of Militia and Defence for Canada on yesterday's well-organized parade and was very pleased with the appearance of the men under the circumstances and considers that the parade reflected great credit on all ranks."

"His Royal Highness regrets that owing to the existing conditions of bad weather, the men have been unable to do any training today, and consequently, he has been prevented from seeing the troops at their work. He wishes, however, to impress upon all ranks the necessity of devoting their best energies to training in camp and to the necessity of maintaining a high standard of discipline."

"His Royal Highness leaves the camp with the knowledge that a fine spirit pervades these patriotic Canadians who have come forward so splendidly, from all parts of the Dominion to take their share in the defence of the Empire at this trying time in her history, and he feels confident that their example will be followed by all Canadians capable of helping the Motherland in the field should further calls be made upon them."

"FABER SYSTEM"

Longspan Reinforced Hollow-Tile Flooring

This system of Fireproof Flooring consists of porous hollow tiles bonded into slabs, it does away with the beams and may be used for every ordinary span and live load in buildings of all kind.

It is a very cheap floor, because its simple construction makes a great saving in labor and material; it is the lightest and thinnest without exception, on the market.

It is fireproof, being built up with hollow terra cotta blocks, cemented together and reinforced by steel rods, it is classified by the British Fire Prevention Committee under "Full Protection."

The safest and strongest without exception.

LOCAL CRICKETERS
WIND UP SEASON

QUEBEC CLUB HAS NOT BEEN
BEATEN ONCE DURING THE
SUMMER

The last match of the season took place on Saturday afternoon against a team from H.M.S. Calgarian, and resulted in a victory for the Quebec Cricket Club by 5 wickets and 14 runs. The Quebec Captain won the toss and put the Calgarians in. Four wickets fell for only 5 runs, but when Large and McKinnell got together matters became very lively for some time, until a change of bowling brought about their downfall, Rawland being the cause of same. He secured 4 wickets at a small cost. Large made 28 runs by some fine hard hitting and McKinnell got 22 very quickly. These two batsmen made 50 runs out of 60 made from the bat.

Gray also bowled well taking 4 wickets in all. Parmelee and Attlee both made good catches. Batting for Quebec, Massey had top score with 18 not out; Gray, 16; Attlee, 13; Parmelee and Messias, 12 each.

Captain Hesler tried half a dozen bowlers. Large being the most successful. It may be noted here that Hesler recently playing for Second Stewards vs. First Stewards of the Calgarian, took 5 wickets in succession, all clean bowled. To hit the stumps five times running without batsmen to defend them would be a feat in itself. It was well he did not repeat the performance on Saturday!

WILL GERMANS GET
THE DERBY WINNER

London, Sept. 4, 10:40 p.m.—Durbar II, winner of this year's Epsom Derby, and many other valuable racing horses belonging to H. B. Duryea of New York are in training quarters at La Morlay, near Chantilly, within a short distance of the German forces. Mr. Duryea arrived in London to-night, having crossed from France to Weymouth on the American cruiser Tennessee today. He is uneasy as to what will become of his horses. The French Government has offered every protection to thoroughbred, guarding the mares especially as it desires to encourage the raising of good cavalry horses. The German advance, however, imperils the

TACTICS WON THE
EARL GREY CUP

THE GOING WAS EXTREMELY
HEAVY AT BLUE BONNETS.

Montreal, Sept. 7—Running through sloop more than fetlock deep, Tactics, carrying the colors of Fred J. Coleman, annexed the long end of the purse of the Earl Grey Cup, the feature event of the second day of the Montreal Jockey Club meeting at Blue Bonnets.

The Earl Grey Cup is one of the oldest fixtures run for annually Blue Bonnets. The net value of the Earl Grey Cup to the winner amounted to \$1,275, which is well up to the standard of former years.

The holiday card was run over a greatly changed track from that of opening day. The going, which was in record-breaking condition Saturday, through the heavy rains was turned into going that was sloppy and deep, which accounted for the defeat of a number of the choices.

First race, maidens, for 2-year-olds, 5½ furlongs—Venetia II, 113, Metacalf, 3 to 1, 8 to 5, 4 to 5, won; Ninety Simplex, 114, Carroll, 5 to 2, out, second; Amant, 111, Bird, 5 to 2, out, third. Time 1:09 4-5. Rescue, Solon, Andromeda, Merry Twinkle, Bull Moose and Brook Cress ran.

Second race, Canadian breds, all ages, selling, 6 furlongs—Calumny, 111, Metacalf, 4 to 1, 6 to 5, 3 to 5, won; Old Reliable, 103, Callaghan, 10 to 1, 4 to 1, 3 to 2, second; Corn Broom, 105, Louder, 4 to 5, 1 to 3, out, third. Time 1:17. Hampton Dame, Puritan Lass, Auster, Duke of Chester, Annie Jean and Mons C. ran.

Third race, 2-year-olds, 5½ furlongs—Ethan Allen, 108, Leander, 5 to 2, 7 to 10, out, won; Sir Edgar, 120, Taplin, 6 to 5, 2 to 5, out, second; Stalwart Helen, 105, Metacalf, 5 to 2, 7 to 10, out, third. Time 1:09 1-5. Shyness, Utelus and Heenan ran.

Fourth race, the Earl Grey Cup, 3-year-olds and up, mile and a quarter—Tactics, 101, Metacalf, 2 to 1, 3 to 5, out, won; Barnegat, 106, Shilling, 9 to 2, 3 to 2, 3 to 5, second; Polly H., 104, Van Dusen, 7 to 1, 2 to 1, 3 to 5, third. Time 2:08 3-5. Rudolfo ran.

Fifth race, steeplechase, selling, 4-year-olds and up, two miles—Shannon River, 142, Allen, 7 to 5, 3 to 5, out, won; The African, 134, Tansey, 4 to 1, 3 to 2, 3 to 5, second; Mystic Light, 137, Dayton, 5 to 1, 3 to 2, 7 to 10, third. Panorams, Bigot, Velsmi ran.

Sixth race, 3-year-olds and up, selling, 6 furlongs—Harry Shaw, 104, Cullen, 4 to 5, out, won; Ancon, 102, Shilling, 10 to 1, 3 to 1, even, second; Marjorie A., 115, Taplin, 3 to 2, 3 to 5, out, third. Time 1:15. Springmass, Arran and Dr. R. L. Swanger ran.

HEAVY.

Montreal, Sept. 7—The Dominion Lacrosse Association schedule wound up here this afternoon, when Nationals vanquished the Irish-Canadians for the sixth time this season, 19 to 10.

The downpour about midday left the grounds inundated, so that the nets had to be placed on the west side of the field. The attendance was slim.

The score just about indicates the respective merits of the contestants, the home of the Nationals once more demonstrating their superiority over any other attack on the circuit.

Another message, this one coming from Berlin, urgently recalls the First Line troops for use on the eastern frontier, where the Russian sweeping movement con-

What's
in this? WRIGLEY'S
SPEARMINT?

You've a right to know—we'd like to show you, in our factories—the most up-to-date, sanitary chewing gum factories in the world!

WRIGLEY'S SPEARMINT is made from the air-dried, milky sap of the Sapodilla Tree, which grows in Mexico and Central America.

This sap is boiled down into chicle, flavored with the aromatic juice of pure fresh mint leaves, then cut into the delicious, springy bars which you buy.

New machines, costing several hundred thousand dollars wrap WRIGLEY'S SPEARMINT in an inner waxed seal, then the inside pink wrapper, then the NEW OUTER WAXED SEAL that is air-tight, damp-proof, dust-proof. The same machines encircle this waxed-wrapped packet of five big sticks in the familiar band you know so well. It's as good and as clean as men, machines and money can make it.

A VETERAN WHO WAS
WITH LORD ROBERTS

Laid Low With Rheumatism—But Cured By "Fruit-a-tives"

Chatham, Ont., April 3rd, 1913.

"I am a veteran of the Crimean war and the Indian Mutiny, volunteering from the Royal Artillery into the Royal Engineers, and served under Lord Roberts during the Indian Mutiny, and am a pensioner of the British Government. Fierce hand-to-hand fighting and continual exposure left me a great sufferer from Rheumatism, so much so that my legs swelled up, making it impossible for me to walk. "Fruit-a-tives." They cured me of both the Rheumatism and Constipation. In my regular employment, I walk thirty miles a day and enjoy perfect health."

ENEMIES' SUBJECTS
MUST GIVE UP ARMS

GERMANS OR AUSTRIANS IN CANADA MUST NOT POSSESS FIREARMS, ETC.

Ottawa, Sept. 7.—An Order-in-Council has been passed, under the provisions of the War Measures Act passed at the recent session of Parliament, relating to the prevention of the use or possession of firearms, dynamite, gunpowder or other dangerous explosives by foreigners. The order declares that it will be the duty of all aliens—subjects of enemies, having in their possession firearms, ammunition, dynamite, powder, etc., to deliver the same to a Justice of the Peace or to an officer or constable of the Royal Northwest Mounted Police within ten days after September 3.

The Justice of Peace or constable receiving firearms, ammunition, etc., shall give a receipt for the same, and shall report the fact to the Chief Commissioner of the Dominion Police or to the Commissioner of the Northwest Mounted Police, under whose direction the property shall be retained or otherwise disposed of. It is further provided that if any alien enemy is reasonably suspected of having firearms, ammunition, etc., in his possession he and his premises may be searched, by any peace officer or constable without warrant, and the property seized. If such seizure takes place after the lapse of ten days the property seized may be forfeited to the Crown and the owner be liable to a penalty not exceeding \$500, and to imprisonment for a term not exceeding three months.

It shall be an offence for any person to give, sell or hire firearms, ammunition, etc., to an alien.

Any person guilty of such action shall be liable to a penalty not exceeding one hundred dollars, or to imprisonment for a term not exceeding one month.

Prosecutions may be proceeded with by way of summary conviction or under the provisions of the Criminal Code.

The onus of establishing whether or not a person proceeded against is an alien enemy shall lie upon the accused.

BOERS ARE LOYAL
TO KING GEORGE

THE GERMANS IN SOUTH-WEST AFRICA HAVE BEEN PREPARING

London, Sept. 7.—That the German in South-west Africa, where there are 30,000 German troops, have been storing guns and ammunition for some time preparing for military action has been made known to the British. It is said the Germans believed the Boers would aid them.

Although the Germans proceeded with great secrecy the British officials have been fully informed concerning their action and know the number of arms in their possession and their military dispositions.

With populous British territory on two sides of German South-west Africa and with adequate military forces at hand Great Britain is said to be well prepared for the situation. It is generally believed here that she will soon seek to take control of all German territory in Africa.

German East Africa is bounded on the north and south-west by British territory and, with the end of the British Island of Mozambique just off the coast, it is thought here it will be easy for the British to dominate the east coast with the co-operation of land and sea forces.

It is said here that the Boer farmers living in South-west Africa are all loyal to King George.

CANADA FOOTBALL
CUP COMPETITION

FORT WILLIAM BEATS REGINA AND CHAMPIONS DRAW WITH TORONTO.

Winnipeg, Sept. 7.—The C. P. R. team of Fort William defeated the Leaders of Regina 4 to 1, while the Norwoods of Winnipeg and Eatons of Toronto played a scoreless draw in the opening Connaught games for Dominion football championship this afternoon.

The Fort William team looks like a serious contender for the cup as they showed class in disposing of the fast Regina eleven by the score of 4 to 1. The clever work of the Fort William defence men was the outstanding feature of the play.

Over 1,000 enthusiasts attended at the Stadium to see the champion Norwoods and Toronto's come together. Neither team managed to score during the full time, but both goalers were forced to make some clever saves, and a draw is a good criterion of the play. The easterners, with their close passing game, were the aggressors in the opening period, with Simpson making a marvelous save early in the play, while the Toronto outside left missed the goal by inches on two occasions.

A BIG PROCESSION
IN LABOR PARADE

EVEN WRETCHED WEATHER DID NOT DAMPEN ARDOR OF MARCHERS.

The inclemencies of the weather did not dampen the ardor and enthusiasm of the Quebec labor organizations yesterday who celebrated Labor Day with the usual procession which was larger and more imposing than any previous year in the history of organized labor in Quebec.

This year both the bodies of the National and the International union took part in the procession, which was punctuated here and there by brass bands which discoursed marching airs as the long train defiled through the streets.

In the course of the procession there were imposing allegorical cars and none were more interesting than that of the Quebec Typographical Union which was a masterpiece in every detail.

The parade formed at St. Peter's Market and after marching through the streets of St. Roch and St. Saviour and Upper Town returned to St. Peter's Market where those who took part dispersed.

On account of the rain the sports which were to have been held at the Exhibition Grounds were cancelled.

REPATRIATION WORK.

Mr. Alfred DeCelles, of the Ottawa Valley Immigration Aid Society has been in the city for the past day or two looking over immigration conditions prior to starting on a tour through New Hampshire.

The object of the Society is to encourage immigration to Canada. With this aim in view lectures are given in the United States, and pamphlets distributed. The Society is working for the Federal Government. The work has been carried on in the State of New York and Maine and will be continued this week in New Hampshire.

Mr. DeCelles has been through the Temiscouata and Upper Gatineau districts while the Beauce District is to be visited.

HAVE SEEN SERVICE:
WANT TO GO AGAIN.

That the different troops at camp at Valcartier are all keen and are doing their utmost to be among those which will make up the first Canadian Contingent for overseas service is very evident, from a conversation had with Lieut. Halpin-Catty, Lieut. Heuston and Sergt. Collins, three New Brunswick volunteers, among those who have been under canvas for the past two or three weeks, and who spent last night at the Chateau.

These two officers and sergeant as well as about five hundred men whom they know at present at Valcartier, all having seen active service, are at the present time rather disappointed at the trend of events at the camp with regards to the selection of the overseas contingent and the reason is that they are under the impression they will not make up the first contingent.

One of them, Sergt. Collins, of the 63rd Halifax Rifles, stated that not only was he willing to give his services to the Mother Country, but he was ready to sell his farm in Halifax, N.S., and go to the front without receiving any pay. Lieut. Halpin-Catty and Lieut. Heuston are no less keen on going to the front. The former is a broker at Kentville, N.S., and is connected with the 14th K. C. H., while Lieut. Heuston has served six months as lieutenant in the R. C. R.

ACID STOMACHS
ARE DANGEROUS

NINE-TENTHS OF ALL STOMACH TROUBLE SAID TO BE DUE TO ACIDITY

A Physician's Advice on Cause and Cure

A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a deranged condition of the stomach which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is interesting to note that he condemns the use of patent medicines as well as of medical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary bisulphated magnesia, which, by neutralizing the acidity of the food removes the source of the trouble. He contends that it is as foolish to treat the stomach itself as it would be for a man who stepped on a tack to rub liniment on the foot without first removing the tack. Remove the tack and the foot will heal itself—neutralize the acid and stomach troubles will disappear. Irritating medicines and medical treatments of the stomach remain acid; remove the acidity, and there will be no need for medicine—the inflamed lining of the stomach will then heal itself. Sufferers from acidity, sour stomach or heartburn should get a small bottle of bisulphated magnesia from their druggist, and take a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes if necessary, this being the dose which the doctor has found most efficacious in all cases.

QUEBEC HORSE
DIES IN RACE

MAJOR B. O. COLLAPSES WHEN LEADING IN FINISH OF FIVE MILE RACE

Major B. O. is dead. The gamest harness horse that ever raced on Quebec tracks and one of the noblest of his kind dropped dead on Saturday afternoon just one-eight of a mile from the winning wire in the last lap of the five mile race. He died in harness, and thus brought to a close a career which was unmatched for gameness, endurance and all the unfinching mettle which is bequeathed by sire to son down long lines of pedigreed stock.

Faithful to his breeding the gritty old horse was true as steel to the very end and when the last call was made on him he was not found wanting, but responded with the same determined effort which had ever characterized him and which knew no surrender. The indomitable courage and fighting spirit were still fresh in the old horse but the iron stamina which had made him the hero of many a hard-fought race could not withstand the strain in his old age—there is a limit to endurance even in horses—and he fell just as the goal of another victory was in sight.

It was a pitiful scene which followed the collapse of Major B. O. Hundreds of his followers and backers rushed on to the track, some of them believing that he had been fouled by Hervey M., the horse which was following closely behind him. This belief fortunately proved to be untrue, but when the Major had collapsed from exhaustion the driver of Hervey M. could not clear the fallen horse and fell over him and the two horses and drivers lay in a heap. It was this unfortunate accident which enabled Bay Billy to win the race for if Hervey M. had cleared the dead horse he would certainly have finished first.

Happily neither of the drivers were injured and Hervey M., although badly shaken up, seemed none the worse for the mishap.

Major B. O. was undoubtedly the best harness-racing horse that was ever brought to Quebec. He was first owned here by the late Mr. Max Clement, and came into prominence in the Ottawa ice races. Subsequently the big gelding was raced down through New York State and won many hard races. In 1912 on being acquired by Mr. F. X. Jobin, the Major was entered in the five mile race and won with ease in 12:31, 7 seconds slower than the world's record, and created a new world's record for four miles, covering the distance in 9:56. It was Ald. Gauvin who drove Major B. O. that year and also on Saturday when the horse dropped. Last year, however, Major B. O. lost to Bay Billy, which was afforded a chance to win on Saturday by the old horse dropping out.

There were five horses in the race on Saturday and at the start, Hervey M. led the field for the first two miles. Then Bay Billy came along and set the pace, closely followed by Major B. O. and Hervey M., but in the fifth mile the Major forged ahead and led with Hervey M. right up until coming down the stretch to the wire when he dropped in his tracks and the driver of Hervey M., unable to clear in time fell over him. Bay Billy then came along and finished in a jog with Prince Greenland second and Petit Joe third. The time was 12:40. In the other two events which it was found impossible to conclude before sunset the purses were divided among the horses having the highest average in the summary.

MONTREAL POET DEAD.

Montreal, Sept. 7.—Mr. John MacFarlane, better known to the lovers of poetry as "John Arbory," died today at his residence in Cote des Neiges. With his passing Canadian literature loses a singer of singular fidelity and tenderness.

John MacFarlane was born 58 years ago at Abbington, Lanarkshire, Scotland. At the time of his death he was connected with the advertising department of La Presse.

Kansas City, Sept. 7.—Jim Flynn, of Pueblo, defeated Al Norton, the young California heavyweight here tonight, knocking him out in the sixth round of their scheduled ten round bout.

GERMANS HAVE BURNED
THE TOWN OF DINANT

Hundreds of the Male Inhabitants Were Shot Down by the Ruthless Barbarians—Prominent Citizens Executed

London, Sept. 8, 12:26 a.m.—An Ostend despatch to the Reuter's Telegram Company says:

"The Germans have destroyed the Belgian town of Dinant (fifteen miles south of Namur) after shooting hundreds of the male inhabitants because it was alleged shots had been fired from the heights overlooking the city."

"The Germans in a few hours by shell fire and incendiaryism destroyed Dinant on the Meuse. Hundreds of male inhabitants were shot, including one party of one hundred prominent citizens who were executed together in the Place D'Armes."

"The Germans alleged that the civilians had fired shots into Dinant

from the heights. While the shooting and burning were going on, the women residents of the city were confined in the convents.

"Among those shot were M. Hummers, the wealthy manager of a large weaving factory, and M. Poncelot, son of a former senator. The latter was killed in the presence of his wife and children. Germans appeared at a branch of the National Bank, where they demanded the cash in the safe. The manager, M. Wasseize, refused to hand it over, whereupon he, together with his two sons, was shot."

"There is no evidence, so far as is known, that the alleged shooting from the heights resulted in the killing of any Germans."

WAR NEWS

ESTIMATE LOSSES
OF GERMANS HIGH.

Copenhagen, Sept. 7.—Private information received here says two German officers now imprisoned at Antwerp estimate the total German losses up to two days ago at between 200,000 and 300,000.

A GERMAN DEFEAT.

London, Sept. 7.—A Reuter despatch from Antwerp confirms earlier despatches of a German repulse on Friday at Cappelle au Bois, and says that they left 3,000 dead on the field. Many of the Germans, the despatch adds, proceeded back to Brussels.

NO RACE SUICIDE HERE.

London, Sept. 7.—The population of Paris and suburbs before the war was 3,400,000. According to semi-official figures it is 2,010,000 today, owing to the mobilization of the army and the departure of the fugitives.

The Minister of Public Works is aiding the people to leave and is providing free transportation in many cases.

BRITISH DREADNOUGHT
AFTER GERMAN BOAT

Honolulu, Sept. 7.—The Watson Navigation Company's steamer Wilhelmina reported on arrival here today that she picked up a wireless message from the British Dreadnought Australia, then in Hawaiian waters, saying that she was in full chase of the German cruiser Nurnberg which left here Sept. 1.

The Nurnberg is a small cruiser of only 3,450 tons and if overhauled would have little chance with even an armored cruiser. Her main battery consists of ten 4-1 inch rifles.

It is believed here that the Australian cable to British Columbia was cut by the Nurnberg.

The interruption to the cable is between the Bamfield, B.C., cable station and Fanning Island. No particulars are obtainable.

BELGIANS RETIRE.

London, Sept. 8—12:25 a.m.—A despatch to Reuter's Telegram Company from Ostend, says:

"Violent fighting, lasting five hours, has taken place between Melle and Quatrech't, near Ghent, between Belgian volunteers and a superior corps of Germans. After determined resistance the Belgians retired in good order."

"The Germans occupied Melle and are marching on to Ghent."

MANY DESERTIONS
FROM AUSTRIAN ARMY

Rome, Sept. 7, via Paris, 8:10 p.m.—Reports arriving here say that desertions from the Austrian army are increasing daily. This is said to be especially true along the Roumanian frontier, and it is declared also that many Austrian soldiers have reached Switzerland through the Tyrol. It is said that 34 per cent of the men of the Mechlin regiments have disappeared.

V. C. OFFICER IS
REPORTED MISSING.

London, Sept. 7—9:45 p.m.—Col. W. E. Gordon, of the Gordon Highlanders, who won the Victoria Cross in the South African war, is among the officers who are reported missing in France. Col. Gordon gained the Victoria Cross by going out under heavy fire and attaching a rope to a gun which was in danger of being captured. With his men he was wounded in trying to drag it to safety.

GERMAN ARMY CORPS
RUSHED FROM FRANCE.

London, Sept. 7.—A news despatch from Rome says that six German army corps have been rushed into East Prussia and Galicia from France, and their places taken by the second line of troops.

Late advices from Petrograd indicate that the Czar's forces opposing the Germans in East Prussia will be reinforced with twenty army corps, containing from 800,000 to 1,000,000 men.

BRITISH CAPTURE
GERMAN RESERVISTS.

San Francisco, Sept. 7.—Great Britain acted within her rights, as defined by the State Department, when she detained forty German reservists, taken at Hong Kong from the American steamship Manchuria, of the Pacific Mail fleet.

This was made clear in the detailed report brought by officers and passengers of the Pacific Mail liner China which arrived here today from Hong Kong, Yokohama and Honolulu.

The port authorities boarded the Manchuria within the three mile limit. Previous despatches had not made clear whether she had been searched within the treaty limits of a British port or in high seas.

PARIS SUBURBANITES
TAKEN ELSEWHERE

London, Sept. 7, 7:15 p.m.—A Dieppe despatch to the Evening Star says that the transport of 25,000 people from the suburbs of Paris to the south and south-east commenced on Sunday. These people were ordered to leave their homes by the military authorities, so that the houses could be destroyed, leaving a clear range for the guns of the forts. The residents of Neuilly and Boulogne-sur-Seine, as well as the vast populations on the other sides of the city, were taken away on trains provided by the government. These people had hardly left their houses before refugees from the north arrived and occupied them. These, too, will be taken south.

SYNOPSIS OF REGULATIONS.
GOVERNING TIMBER ON DOMINION LANDS in Manitoba, Saskatchewan, Alberta, the Northwest Territories, the Railway Belt in the Province of British Columbia, and the tract of Three and a Half Millions Acres, Located by the Government of the Dominion in the Peace River District in the Province of British Columbia.

LICENSES.
A license to cut timber on a tract not exceeding twenty-five square miles in extent may be acquired only at public auction. A rental of \$5.00 per square mile, per annum is charged on all timber berths excepting those situated west of Yale in the Province of British Columbia on which the rental is at the rate of 5 cents per acre. In addition to rental, rate of 5 cents per acre, at the rate of 100.00 per square mile for each permit.

TIMBER PERMITS AND DUES.
Permits may be granted in the Provinces of Manitoba, Saskatchewan and Alberta, to owners of portable saw mills, to cut over a definitely described tract of land not exceeding one square mile in extent, on payment of the rate of 50c. per thousand feet, B.M., and of a fee at the rate of 100.00 per square mile for each permit.

TIMBER FOR HOMESTEADERS.
Any occupant of a homestead quarter-section having no timber of his own suitable for the purpose may, provided he has not previously been granted free allowance of timber, obtain a free permit to cut the quantity of building and fencing timber set out in Section 16 of the Regulations.

W. W. CORY,
Deputy Minister of the Interior.

SYNOPSIS OF CANADIAN
NORTH-WEST LAND
REGULATIONS

The sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency, (but not Sub-Agency) on certain conditions.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Six months' residence in each of three years, after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. CORY, C.M.G.,
Deputy Minister of the Interior

GENERAL FRENCH PAYS TRIBUTE TO BRITISH SOLDIERS

PERSONAL ASCENDANCY OVER GERMANS ESTABLISHED—MORE MEN ARE NEEDED.

London, September 6.—The operations of the British army in France last week are reviewed in a statement issued by the official war information bureau today. The statement reads:

"It is now possible to make another general survey in continuation of that issued on August 30th of the operations of the British army during the past week.

"No new main trial of strength has taken place. There have indeed, been battles in various parts of the immense front which in other wars would have been considered operations of the first magnitude. But in this war they are merely incidents of strategic withdrawal and contraction of the Allied forces caused by the initial shock on the frontier and in Belgium and the enormous strength which the Germans have thrown into the west theatre, while suffering heavily through weakness in the Eastern.

"The British expeditionary army has conformed with the general movement of the French forces and acted in harmony with the strategic conceptions of the French General Staff. Since the battle at Cambrai on August 26, where the British troops successfully guarded the left flank of the whole line of French armies from a deadly turning attack, supported by an enormous force, the 7th French army has come into operation on the British left.

Success for French.

"This, in conjunction with the fifth army on our right, has greatly taken the strain and pressure off our left. The French army, in particular, on August 29, advanced from the line of the Oise River to meet and counter the German forward movement and a considerable battle developed near the town of Guise. In this the fifth French army gained a marked and solid success driving back with heavy losses and in disorder three German army corps—the tenth, the guard and a reserve corps. It is stated that the commander of tenth German corps was among those killed.

"In spite of this success, however, and all the benefits which followed from it, the general retirement to the south continued, and the German armies, seeking persistently after the British troops, remained in practically continuous contact with our rear guard.

"On Aug 30 and 31, the British covering and delaying troops were frequently engaged. On September 1, a very vigorous effort was made by the

Germans which brought about a sharp action in the neighborhood of Compiègne. This action was carried through by the first British cavalry brigade and the fourth guards brigade and was entirely satisfactory to the British.

"The German attack which was most strongly pressed, was not brought to a standstill until much slaughter had been inflicted upon them and ten German guns had been captured. The brunt of this creditable affair fell upon our guards brigade, who lost in killed and wounded about 300 men. After this engagement our troops were no longer molested. Wednesday, Sept. 2nd, was the first quiet day they had since the battle at Mons on August 23rd.

Marching and Fighting.

"During the whole of this period marching and fighting have been continuous, and in the whole period the British casualties, according to the latest estimates, have amounted to about 15,000 officers and men.

"The fighting having been in open order upon a wide front, with repeated retirements, has led to a large number of officers and men, and even small parties, losing their way and getting separated. It is known that a very considerable number of those now included in the total will rejoin the colors safely.

"These losses, if heavy in so small a force, have in no wise affected the spirit of the troops. They don't amount to one-third of the losses inflicted by the British force upon the enemy, and the sacrifice required of the army has not been out of proportion to its military achievements.

"Drafts of 19,000 have reached our army or are approaching the men on the line of communication, and advantage has been taken of the five quiet days that have passed since the action on September 1, to fill up the gaps and refit and consolidate the units.

Now South of the Marne.

"The British army is now south of the Marne, and is in line with the French forces on the right and left.

"The latest information about the enemy is that they are neglecting Paris and are marching in a south-eastern direction towards the Marne and towards the left and centre of the French lines. The first German army is reported to be between La Fère-Sous-Jouarre and Effisès Bof.

"The second German army, after taking Rheims, is advancing on Chateau Thierry and to the east of that place.

"The fourth German army is reported to be marching south and on the west of the Argonne between Fuisseps and Ville Jourbe. All these points were reached by the Germans on September 3rd.

"The seventh German army has been repulsed by a French corps near Dienville. It would therefore, appear that the enveloping movement on the Anglo-French left flank has been abandoned by the Germans because it was no longer practicable to continue such a great extension or because the alternative to a direct attack upon the Allied lines is preferred.

German Plan Changed.

"Whether this change of plan by the Germans is voluntary or whether it has been forced upon them by the strategic situation and the great strength of the Allied armies in their front will be revealed by the course of events.

"There is no doubt whatever that our men have established a personal ascendancy over the Germans and that they are conscious of the fact that, with anything like even numbers, the result would not be doubtful. The shooting of the German infantry is poor, while the British rifle fire has devastated every column of attack that has presented itself.

"The superior training and intelligence have enabled the British soldiers to use the open formation with effect, and thus cope with the vast numbers employed by the enemy. The cavalry, who have had even more opportunities for displaying personal prowess and address, have definitely established their superiority. Field Marshal Sir John French's report dwells on the marked superiority of the British troops of every arm of the service.

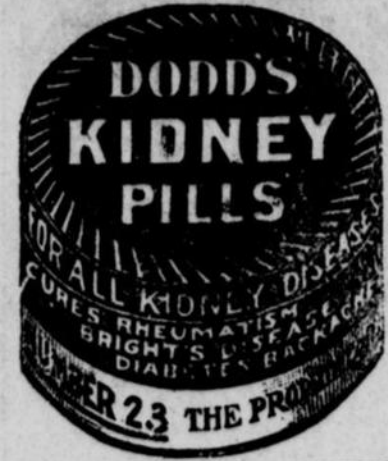

"The cavalry," he says, "do as they like with the enemy until they are confronted with twice their number." The German patrols simply fly before our horsemen. The German troops will not face our infantry fire. As regards the artillery, they have never been opposed by less than three or four times their number.

"The following incidents have been mentioned. During the action at Le Chateau on Aug. 26, all the officers and men of one of the British batteries had been killed or wounded with the exception of one subaltern and two gunners. These continued to serve one gun and kept up a sound raking fire, and came out unharmed from the battlefield.

"On another occasion a support of a supply column was cut off by a detachment of German cavalry. The officer in charge was summoned to surrender. He refused, and, starting the motor at full speed, dashed safely through, leaving only two lorries.

"It is noted that during a rear guard action of the guards brigade on September 1, the Germans were seen giving assistance to our wounded.

"The weather has been very hot,

with an almost tropical sun, which has made long marches trying to the soldiers. In spite of this, they look well and hardy, and the horses, in consequence of the amount of hay and oats in the fields, are in excellent condition.

"In short, it may be said that the war, so far as it has advanced, has giving most promising opportunities of adding to the reputation of British arms and of achieving notable and substantial successes. But we must have more men so as to operate on a scale proportionate to the strength and power of the Empire."

KIPLING AT SCHOOL.

How Kipling jumped into prominence at school and made life miserable for many of his school fellows is recalled by Mr. Edward O'Neill, the actor, who during his long theatrical career has met many of the most prominent figures in art and letters of the day.

"I should imagine that Kipling would have his own way as a playwright," remarked a friend the other day.

Mr. O'Neill laughed. "Yes, I expect so," he agreed. "By the way, I was at school with Kipling. In fact, he was my 'tag,' and, what is more, he was a very bad one."

"I suppose you aren't one of the characters in 'Stalky and Co.'?"

"No," he replied, with a smile, "but I know the original well, and many of the incidents that are mentioned in the book actually happened while I was there. Stalky was a chap called Dunstonville, who is now a colonel in the army, and stationed in India. Mc-Turk's real name was Beresford, and he is today an artistic photographer in London, and Kipling himself of course was the Beetle."

"I remember distinctly the incident when they buried the cat, as it happened close to my dormitory. Kipling never held any great place in the school life, his chief occupation used to be 'fagging' at the cricket nets."

New York, Sept. 7.—Transports leave Southampton every hour of the day, laden with troops for France, according to reports of passengers aboard the Minnetonka, which reached New York this afternoon from London. Returning, the transports are bringing wounded from French battlefields for distribution among English hospitals and emergency stations. The Minnetonka was stopped three times by cruisers after leaving London.

After Vacation Peel Your Discolored Skin

Women returning from the seaside with brown, reddened or freckled complexion will be wise in immediately taking up the mercolized wax treatment. Weatherbeaten skin had best come off, for no amount of "beautifying" will ever make such skin pretty to look at. The surest, safest, easiest way to shed the discolored cuticle is with the treatment suggested. Put the wax on before retiring, as you would cold cream, and rinse it off next morning with warm water. Minute particles of scori skin will peel off day by day, gradually showing the healthy, youthful skin beneath. One ounce of mercolized wax, obtainable at any drug store, is enough to make any discolored or spotted complexion clear, white and satiny soft. Its action is so gentle no injury is caused and the face shows no trace of its use. Burning heat, irritating winds and dirt are such wrinkle-makers that the daily use of the following astringent, tonic lotion at this season is highly advisable: Powdered saxolite, 1 oz., dissolved in witch hazel half pint. Used as a face bath this is a splendid wrinkle remover and preventive.
