First Premium Fur Establishment.
A. BRAHADI,
MONTREAL,
RESPECTFULLY invites those who are desirous of purchasing CHOICE FURS, to visit his establishment, where they can see an array of the LATEST FASHIONS and best description. A mere glance at the articles which he has on sale, will be sufficient to convince connoisseurs that they cannot be surpassed in either materials or manufacture. Even the unskilled may safely trust their eyes, his Furs being as good in their quality as handsome in their appearance. But, as there are persons who, distrusting their own judgment, require the attestation of the skilful, he thinks it right to mention that, at the Exhibition held here last autumn, he gained all the prizes [eight in number] offered or superiority in his line of business,—a success not surprising, considering that he obtained a knowledge of his art in those parts of Europe where it has been longest practised and carried to the highest degree of excellence yet reached.

THE ORIGINAL AND GENUINE
DR. TOWNSEND'S
COMPOUND EXTRACT OF
SARSAPARILLA,
Is the Great Renovator of
THE BLOOD.
The sovereign remedy for
ERUPTIONS of the SKIN, ULCERATED SORES,
AND ALL FORMS OF CUTANEOUS DISEASES.
These Complaints can be speedily and effectually cured by the use of this
WORLD-RENOWNED
SARSAPARILLA.
Thousands have experienced its salutary effects, and tens of thousands have witnessed it, until it has ceased to be a question among the intelligent portion of the community.
When the BLOOD becomes lifeless and stagnant, either from the effects of Spring weather, change of climate, want of exercise, the use of a uniform saline diet, or any other cause, this compound extract of Sarsaparilla will RENEW THE BLOOD, carry off the putrid humors, CLEANSE THE STOMACH, regulate the BOWELS, and IMPART A TONE OF VIGOR TO THE WHOLE BODY.
TO THE PUBLIC.
The public are hereby notified that the preparation extensively known as DR. S. P. TOWNSEND'S Compound Extract of Sarsaparilla, is now manufactured under my direction and supervision, from the original recipe obtained from Dr. S. P. Townsend; and I certify that it is composed of ingredients PURELY VEGETABLE, and WITHOUT MERCURY; and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effect.
JAMES R. CHILTON, M.D.,
Chemist.
Dr. S. P. Townsend's Compound Extract of Sarsaparilla, has a reputation among all civilized nations as the best preparation for
RENOVATING AND PURIFYING THE BLOOD.
which science has ever offered to man. In this resides its peculiar excellence, and to this is due its WORLD-WIDE RENOWN.
It contains all the vegetable principles which experience has proved useful in clearing the system from disease, extracted and combined with the highest skill which the refinements of modern chemistry enable us to employ.
Whatever may be said by mortified competitors or splenetic physicians, the fact that this medicine is everwhere used, and that its use creates an increased demand, shows conclusively that it possesses medicinal merits of the first order.
CAUTION.
To avoid imposition it will be necessary to see that
DR. JAMES R. CHILTON'S
Certificate as well as the signature of DR. S. P. TOWNSEND, is on the outside wrapper of each bottle.
BE VERY CAREFUL TO USE NO OTHER.

Important National Work
PUBLISHED BY D. APPLETON & CO.,
346 & 348 BROADWAY NEW-YORK,
Which is sent to Subscribers in any part of the country (upon receipt of retail price) by mail or express, prepaid:
Appleton's New American Cyclopædia,
A popular Dictionary of General Knowledge. Edited by George Ripley and Charles A. Dana, aided by a numerous select corps of writers in all branches of Science, Art and Literature. This work is being published in about 15 large octavo volumes, each containing 750 two-column pages. Vols. I. to VIII. are now ready, each containing near 2,500 original articles. And additional volume will be published once in about teree months.
The work is issued in bound volumes. Price in cloth, $3; Sheep, $3.50; half Morocco, $4; half Russia, $4.50; full Morocco Antique, $5.00; full Russia, $5.50 each.
In this comprehensive work, for every object, person and thing, natural, political and social, likely to be inquired after, there is, in its alphabetical place; a representative article giving information. There are many heads of a conversational character, never before admitted into works of the same class, but all of them interesting and important.
The results of the researches of four thousand years into the arcana of knowledge are sifted, arranged and condensed. Nothing in Nature, in Science, in Art, or in Commerce, but is placed in the latest light. The reader is thoroughly posted in Geography, Biography and History.
The vast amount of new and original matter which it contains, and the care with which all scientific subject of a progressive character are brought down to the present time, render the work indispensable to those who would keep their stock of general information up to the demands of modern society.
A single dollar a month put aside while the work is appearing, is sufficient to purchase the whole.
The work has been endorsed by nearly all the great lights of our contemporary Literature, such as Prof. Silliman, Washington Irving, Thomas H. Benton, Prescott, Chapin, Barnard, Holmes, Professor Henry, Archbishops Hughes and Potter, etc., and the Press has been unanimous in its favour.

Carvers and Gilders,
In calling attention to their
Superior Style of Framing,
Beg respectfully to
CAUTION
the gentry of Montreal and vicinity against having good Engravings framed in the spurious Moulding, as vended by persons dabbling in a business they have no working knowledge of.
The Moulding (35,000 feet), advertised largely as gilt, is only silver laid over with a lacquer to give the appearance of gilding, and is, therefore, a gross deception.
The Rosewood also advertised is only Pinewood stained or painted, and is also as great a deception.
A. J. P. & CO. solicit ORDERS for the genuine article of
Rosewood, Walnut or Bird's-Eye Maple, as made by them.

SEWING MACHINES.
CRAM & HEPWORTH,
277 Notre Dame Street.
WE are happy to announce to the Public that we are now manufacturing, in the City of Montreal, three different kinds of SEWING MACHINES, all of which are of a very superior quality, as well in beauty of design as in neatness of workmanship and durability of structure.
We have one Machine, that we shall sell for the very moderate sum of $30. No family can afford to be without one. It takes what is commonly known as the Grover & Baker, or double thread loop stitch, and sews from two common spools. This is a very excellent Machine for family use, and is very extensively used in the United States. More than thirty thousand Machines taking this stitch have been sold in the States since 1853.
We also have in process of construction two other kinds of Machines that take the lock stitch (the Wheeler & Wilson and a Shuttle Machine). The Shuttle Machine, a sample of which may be seen at our Store, is beautifully adapted for either family use or manufacturing purposes, such as tailoring, shoe-binding, &c.
All who are desirous of getting a Good Machine for any purpose, at a very moderate cost, will do well to favor us with a call before purchasing.
OBSERVE!—All our Machines are manufactured under our own superintendence in the City of Montreal. Observe, also, that we Warrant every Machine sold by us, for a reasonable time, with fair usage, and that we are right on the spot, and shall always be ready and willing to make any repairs, should a Machine get out of order.

Just Published,
IN one handsome Post 8vo Volume, Illustrated with many Cuts, and issued by Longman & Co., of London, in their best style—
Salmon Fishing in Canada,
BY A RESIDENT.
Edited by Sir J. E. ALEXANDER.
Price—$2.50.
This Book is interesting to the economist who regards the St. Lawrence Fisheries solely as a means of national wealth, as well as to the amateur who views them only as a means of healthful recreation.
The magnificent scenery of the Lower St. Lawrence, and the rare sport to be found in its waters and those of its tributaries, have never before been described, except in some few articles in magazines or newspapers. In this Book, the "Resident" has given much practical information, which a resident only can give, seasoned with the quiet humor of a "gentle fisherman," and conveyed with the practical skill of a scholar.

THE IRRESPONSIBLE CONFLICT BEGUN AT THE SOUTH—PREPARATIONS FOR DISUNION.

[From the N. Y. Herald.]

It is not without the gravest apprehensions for the future that we regard the present threatening appearance of the politicol horizon. Ever since the meeting of the Charleston Convention the disunion party in the South has been preparing for the dissolution of the confederacy—an event which, at first regarded with the utmost alarm by the great majority of the people North and South, has come latterly to be looked upon as a foregone conclusion—one which might be temporarily arrested, but which can, by no means, be entirely averted.

It is time, now, that our people should look at this matter as it stands. We feel bound therefore, to lay before the country this morning the evidence that the South has already made arrangements to secede peaceably from the Union in the event of the election of Lincoln, who seems morally certain to obtain a majority of votes in the electoral college. We commend, then, to the careful attention of our readers the elaborate manifesto of the Hon. Lawrence M. Keitt, and the brief, but no less important, letter of the Hon. William L. Yancey, which will be found in our impression of to-day. We are told that both these gentlemen are ranked as "fire-eaters" at the North, but we know, also, that they represent the general feeling in the cotton States, and that the cry of secession, which was raised four years ago, comes up now with redoubled vigor, and that some of the most prominent Union men in 1856 are now foremost in the ranks of the seceders.

If we examine Mr. Keitt's argument critically, we shall find that his premises are plainly stated, and his conclusions worked out clearly and logically. He employs no bombastic phrases by way of illustration; his style is calm and temperate, and he writes like a man who expresses the deliberate convictions of a powerful party, rather than one who gives vent to his own crude and ill-digested fancies.—In his letter the position of the republican party is fairly stated. He accepts for the party creed Mr. Sumner's view: first, that slavery is barbarous, and the South necessarily in a savage state; second, that the South, being inferior in every way, is to be held tributary to the North, which section is hereafter to be the sole fountain of political power. What follower of Lincoln's banner can deny that these are the issues of his party, as presented by Seward, Sumner, Helper, and other leaders and teachers of the Republican masses. Mr. Keitt proceeds to prove that the "impending crisis" is upon us—that the "irrepressible conflict" is "a living and terrible reality. He asks, pertinently, what would have become of the Government had the black Republicans held the executive power when the John Brown affair took place at Harper's Ferry. His sympathizers would have sided with him as a matter of course, and the land would have been deluged with fraternal blood. The motto of the South is "Equality in the Union, or Independence out of it." If the party which John Brown represented succeed in the next election, "Loyalty to the Union will be treason to the South."

Mr. Keitt calls for a union of all parties in the South for Breckinridge and Lane, but he has evidently very little hope of their election. He is prepared for the inevitable result. He advises secession, and points the way towards such a consummation, and closes with a description of the rottenness of our political system, in which, though overdrawn, there is too much that is undeniably true.

The letter of Mr. Yancey advances the same conclusions as that of Mr. Keitt; and since the 10th of June the "League of United Southerners" has not been idle. Already the cotton States are prepared for revolution. The piece is loaded. The torch is lighted. The cannoneer stands by his gun waiting for the fatal signal.

It is not alone the evidence of Messrs. Keitt and Yancey which we have upon this subject. The influential Southern presses declare that the issue is between the North and South, as represented by Lincoln and Breckinridge; that the South will be defeated, and that the State Legislatures must be prepared for the worst. In the Gulf States the feeling in favour of secession seems quite unanimous, the border States are undecided, and there is a dark cloud which means mischief hanging over Virginia. The great landed proprietors of the South believe that, in the event of Lincoln's election, there would be no adequate security for their property, and they are, therefore, preparing to reassume the powers delegated to the general government. We cannot resist the conviction that they are terribly in earnest.

That the South can secede, if united in the movement, there is no reasonable doubt. The vote of that section will be given to Breckinridge and lane. The Southern Senators and members of the House would go to Richmond instead of Washington. Congress being opened in regular form, Mr. Breckinridge would be declared President of the United Southern republic, and the government may be organised in a week after the result of the November election is made known. There is really nothing to prevent such action on the part of the South, and there is every reason to dread that it may take place. In view of this state of things, we deem it to be our duty to warn parties interested of the danger which threatens them. So far as we can see, the Breckinridge movement at the North will avail nothing. Lincoln will be the Northern President, and Breckinridge the Southern. The confusion into which our commercial and monetary affairs will be thrown cannot be described.—Trade will receive a blow compared to which the storm of 1857 was a mere flurry; stocks will go down to within a fraction of nothing; all kinds of property will depreciate in value, and the fortunes accumulated by years of toil will be swept away in a moment.—*N. Y. Herald.*

QUEBEC CRIMINAL LAW.—The late Murder in Champlain Street, and the facts attendant on it, if truly stated to us, for we are not allowed access to the evidence, quite surpass the annals of atrocity which our jurisprudence for some years has exhibited. A man called Heyden, possessed of some wealth and consequently some influence in his vicinity, and being in point of fact the head of the Champlain street boarding house interest, is accused of murder by stabbing a sailor. A youth of the name of Walsh is the material witness against Heyden; he is most reluctantly forced to give evidence, after every effort at keeping and being kept out of the road, is exhausted. Forthwith an inquest of Heyden's friends find Walsh a principal with Heyden in the murder,—in order to prevent his giving testimony, and from no other motive whatever than that of serving the accused.—Heyden is quite comfortable in a partial concealment which the guardians ofthe city peace are very unlikely to disturb, while the young lad Walsh, locked up in jail, is left to learn the wholesome lesson that "it is better to conceal crimes than to disclose them!!

THE MAIL OCEAN STEAMERS.—We understand that instructions have been received from the Honorable the Postmaster General to put in execution the plan some time since alluded to by us, of landing and embarking all mails by these steamships at River du Loup.—*Quebec Mercury.*

ACQUITTAL OF JUDGE TERRY FOR KILLING SENATOR BRODERICK—A JUDICIAL FARCE.— We perceive, by telegraph to the Boston *Post*, that Judge Terry, who killed Senator Broderick, was acquitted yesterday under circumstances leaving no doubt of collusion between the prosecution and defence. Judge Hardy opened the Court at 9 a.m., and the District Attorney announced that the witnesses had not made their appearance. The case went to the Jury without a word of testimony, and, under the charge of the Judge, the Jury acquitted Terry before ten o'clock.

Witnesses to establish the guilt of Terry were on their way, but were delayed, and did not reach the Court Room until twelve o'clock.

THE NELSON MONUMENT.—It may be interesting to learn what is the actual condition of this monument of by-gone days, and of a deceased hero. Examination made on behalf of the Committee recently appointed, has shown what is a matter for great congratulation—that the statue itself is still in excellent preservation. The thumb of the left hand alone seems to be injured. The pedestal on which the statue stands, however, at the head of the column, seems to have suffered considerably from the injuries of the weather. As to the plinth, though looking rough and unsightly, it is probably, with the exception of the joints, in nearly the same condition as when it was put up. When rejointed it will be none the worse for the half century during which it has stood its ground. The emblematic mouldings on the base of the column, are the only parts of it on which ruin and decay have done any serious evil, and these are being fast destroyed. They are made after very beautiful models, and it is a great pity that they should perish, which they would inevitably do in a brief space, if left to the action of water and frost. We understand that accurate drawings will be made of the various emblematic ornaments by a competent artist, or probably by the photographic process, in order that they may hereafter be sculptured in marble or cast in metal for the renovated monument. In the meantime steps will be taken to ascertain from Messrs. Coade & Co., whether the original models remain in their hands. In that case it is probable that they will be employed to furnish a new set. Otherwise the new ones will be made here in one of the modes already mentioned. Of the inscriptions one is good; but the other will require renovation, and the railing will probably be changed for one of a more ornamental character. These repairs must not be understood to have been resolved on by the Committee; but they result from the state of the pillar as it has appeared on close inspection.

§ THE INKERMANN DIVISION.—Mr. Hamilton, of the well-known lumbering firm, has published his address to the electors of the Inkermann Division. Mr. Hamilton is precisely of that class of men who should make it a point to take part in public affairs. He is one of the natural leaders of the people of his neighbourhood, as well from old associations, as from community of personal interests, and thorough independence of position. We do not purpose to offer advice to the people of Inkermann as to the choice that they shall make, if other men in whom they have a right to place confidence, shall offer their services. We trust, however, if Mr. Bellingham should be Mr. Hamilton's competitor, as we understand he propcses to be, that the electors of the Division will show a correct appreciation of the difference between a mountebank politician and a gentleman deeply interested in the general as well as local prosperity, and besides, known to be above any paltry dodges.

POLICE AFFAIRS AT TORONTO—THE CITY COUNCIL VS. THE POLICE COMMISSIONERS.—The majority of the present City Council of Toronto signalized their advent to office by a very foolish parade of their political opinions; and all through the country it was proclaimed that poor George Brown, who has been killed so often, but who like the English at Waterloo, too ignorant to know when they were beaten, persists in living on in spite of the murders done on him,—was dead at last and no mistake, this time. He had twice been returned by large majorities against all the old tory feeling, subserviency to what the Irish call Castle interest, and the weight of money paid out in contracts and other ways; but here at last was a City Council with a majority who took care at once to proclaim themselves partizans, and partizans of the opposite house to that of Mr. Brown. Unfortunately for their political friends this precious Council has not by its conduct, tended to elevate our opinion of the political creed, to which its majority belongs; and it may fairly be presumed if the electors choose their civic representatives on account of their politics — a thing very unlikely — that they must be thoroughly disgusted with the reality, of that, which at a distance they admired. One of the first things the conservative council did was the anything but conservative act, of stupidly getting the City into all the expenses of a lawsuit, in which it has been beaten. The thing happened on this wise. Owing to the thoroughly inefficient character of the Toronto police, which abounded in red hot partizans, the force had become notoriously inefficient, and it was judged necessary to remove the control of it from the City Council, to a Board of Commissioners, who would not be influenced by the same desire to secure votes, which was imputed to the Council. Under the management of this Board which has been about three years in existence, a very considerable reduction has been made in the expenditure for the Department; and from the concurrent testimony of several persons, entirely differing on other points, the efficiency of the force has been raised, till it has become satisfactory to every one. But the new City Council saw with an evil eye this abstraction of power and patronage from their hands. So on one pretense or other which we need not inquire into, they refused to pay more than one half the money required for the salaries of the officers of the Force. The Police brought actions for the recovery of the balance, and the Courts have decided that the full salary shall be paid. On the same day on which this rebuff was administered in Court, a meeting was called—apparently, though this is not very clear from the accounts,—by persons in the interest of the majority of the Council. However that may be, none of the promoters of the meeting ventured to show, for the purpose of explaining the object of the assembly. At length, when some one after censuring the insult offered to the public, by inviting them to an entertainment with nothing to set before them, had moved the adjournment, a motion was made in amendment:—

"That the Police and officers of the same be paid the amount of their salary in full, up to the last day of July, under protest, and that the action of the Council on this subject be cordially sustained after this date: and that the following gentlemen be a Committee to draft a petition to the three branches of the Legislature, protesting against the action of any body of men having paramount power to saddle the inhabitants with taxation so excessive and unnecessary as the present Police Force is, and that the Council have it as one of their restored rights to number the Police and settle their pay annually:—Hon. Mr. Allan, Hon. Mr. Brown, M.P.P., Hon. J. H. Cameron, Mr. Robinson, M.P.P., and G. Perkins, Mr. Moffatt, Mr. J. Beaty, Mr. Carr, Mr. Vance and the Mayor."

This attempt to get a popular endorsation of the Council's endeavour again to seize on the management of the Police, met with no response. Instead of it, a direct vote of confidence in the Police Commissioners, which, under the circumstances, was as direct a vote of non-confidence in the majority of the Council, was carried by an immense majority. If, however, the Council by their political action during the early part of their term of office, had done their little possible to injure Mr. Brown, that gentleman had now, at least, his turn of the game, for it was he who moved the resolution, by which the action of the Council was condemned. In the game of politics, therefore, the Toronto City Council has not taken much by its action.

AIDE DE CAMP AND STOCKJOBBING.—The Hamilton *Spectator* says that the Queen has made Sir Allan MacNab her Aide de Camp. We wonder if her Majesty has any occasion for a good shrewd trick on the Stock Exchange. If so her new *Aide de Camp* will be able to render her signal services, as is testified by the neat little transaction in the North West Transportation Company's affairs, so unhappily nipped in the bud the other day by the Court of Chancery. We presume, however, that the accomplishments exhibited on that occasion, had not reached the royal ear, and that therefore they did not form part of the reason for the appointment. If King Hudson wears the Militia uniform, he would make a first rate pair for alternate duty with our own knight.

FUNERAL OF THE LATE MR. W. COOPER OF THE POST OFFICE.—This day the remains of Mr. W. Cooper, late of the Post Offices of this city, are to be conveyed to their long home. Mr. Cooper twenty five years ago, was engaged, in in the *Herald Office*, and there acquired a popularity, which he retained after his appointment to the Post Office, where he was remarkable for his good natured desire to oblige every one who had to transact business with him. In this respect indeed he was proverbial. No amount of trouble was too great for him, if it would render a service to any one. Though in a somewhat subordinate situation in the Post Office, Mr. Cooper was a man of considerable classical attainments, especially as a Greek scholar, and he had been educated for the medical profession.

STATE OF PARTIES IN THE UNITED STATES.—We copy elsewhere an article from the New York *Herald* on this subject. The *Herald* assumes that the triumph of Lincoln and the Anti-Slavery party is certain; and then it says that the South, in that event, will certainly secede from the Union. The *Herald* has an object, which is to frighten the voters into uniting on Breckinridge for President; but deducting that grain of salt, its article is a fair exposition of what the Southerners talk of doing. What they will do is altogether another matter.

BRITISH AND FRENCH IN NEWFOUNDLAND.—By the "Jura's" news we are informed that Lord John Russell informed Parliament that the French and English Governments were agreed on this subject.

RESULT OF SPIRITED ADVERTISING.—Four Thousand Eight Hundred and Ninety-two persons visited Messrs. James Morison & Co.'s Dry Goods Store on Monday last.

ORATORIO SOCIETY.—It has been freely reported that the Montreal Oratorio Society will take no part in the Concert to be given under the management of the "Citizens' Reception Fund." This is an error. We are informed they perform during the first part. The programme has been submitted, received, and is now in course of rehearsal. This Society will also perform at the inauguration of the Crystal Palace.

THE MUSICAL PART OF THE FESTIVITIES.—The Executive Committee for the Prince of Wales celebration have engaged Strakosch, assisted by Patti, Brignoli, and some other performers. They are to give an entertainment of about an hour's length the night after the Ball. They receive $2,500.

MUSICAL PROMENADE.—The Montreal Rifle Band (Prince's), will give their eleventh musical promenade this evening in Richmond Square, commencing at half-past seven.

NEAPOLITAN STEAMER GONE OVER TO GARIBALDI.—A Neapolitan steamer of 12 guns has deserted to take service under the Sicilian Dictator.

NEW PAPER IN CORNWALL.—We observe that a new paper, on the Reform interest, is about to be published at Cornwall and called the *Cornwall Economist*. This is, we presume, one of the fruits of the secession of Mr. John A. Macdonald from the friends with whom he has been acting, and who are not satisfied with the course of the *Freeholder*.

We are requested to state that the pews in St. Stephen's Church, Griffintown, are free every Sunday evening.

THE ST. HYACINTHE RACES.—A slight typographical error occurred in our yesterday's account of these races. The Hurdle Race was a two mile, instead of a one mile dash. We also omitted to give the time made during the second mile, which was 2 min. 10 sec., making 4½ min. for the two miles.

As some highly colored stories are afloat respecting the disturbance which took place on the second day of the races, it may be well to state that it was merely a private quarrel, which arose, we believe, through a misunderstanding. There was no one injured, all reports to that effect being quite unfounded.

MONTREAL AND CHAMPLAIN RAILROAD.—It will be seen on reference to the advertisement of of the above Line, in our fourth page, that the steamer *Iron Duke* leaves for St. Lambert at 3:30 A.m., instead of 6:45, as heretofore, on and after the 30th instant.

SALE OF FURNITURE.—This morning, Mr. Arnton will sell at his rooms a good collection of Furniture, Mattrasses, Chamber Sett, &c. The present is a favorable chance for persons adding to their household goods, and preparing for visitors on the occasion of the Prince of Wales' visit.

AMUSEMENTS.

THEATRE ROYAL.—A splendid entertainment is offered this evening, being for the benefit of the Italian Prima Donna, Signora Ghioni. In addition to the Italian Opera Company who will all appear on the occasion, the English Dramatic Company will perform. The management has placed the prices at *Seventy-five Cents, Thirty-Seven and a-half cents, and Twenty-five Cents* for the occasion. Thus all classes may have an opportunity of hearing the Italian Opera at a mere nominal price.

S. COWELL'S COMIC PERFORMANCE.—We need only say of Mr. Cowell's performance that it was crowded, and that it promises to be so every night, during which it is continued. The fun is somewhat of the broadest; but it is perfectly innocent, and surely one may get rid of the starch life occasionally, for a hearty laugh that injures no one, and scoffs at nothing respectable.

MRS. MACREADY'S ENTERTAINMENT.—Mrs. Macready last night had a very thin audience, and this circumstance, together with the loud sounds from the Musical union on the other side of the street, no doubt tended to destroy that perfect self possession which is so necessary to the artist. Nevertheless she was frequently applauded by the audience especially in the quieter pieces. "The lady's request to her lover," "Jessie Brown at Lucknow," and a very excellent address to the Prince were to our taste the best parts of the entertainment.

HALIFAX CORRESPONDENCE.

HALIFAX, July 16, 1860.

RECEPTION OF THE PRINCE.

Sir,—I have only a few moments before the departure of the mail; but thinking you would like to know what preparations we are making here among the Bluenoses for the reception of the Prince, I forward you a few lines containing the information I have been able to glean respecting the official and unofficial performances, to take place on the long looked for and auspicious occasion.

The following is the latest intelligence here respecting the all-engrossing topic of the Prince's visit.

Admiral Milne, Naval Commander-in-Chief, has issued a programme which announces that her Majesty's ships in port will dress ship and salute H.R.H's. Standard with 21 guns, on the arrival of the Royal Squadron at St. George's Island. They will also man yards and greet H.R.H. with three cheers when the "Hero" comes to moorings off the Dockyard. They for it was he who moved the resolution, by which the action of the Council was condemned. In the game of politics, therefore, the Toronto City Council has not taken much by its action.

AIDE DE CAMP AND STOCKJOBBING.—The Hamilton *Spectator* says that the Queen has made Sir Allan MacNab her Aide de Camp. the cellars from the streets. The Council would not be justified in draining one section, and neglecting another, where the same improvement was as urgently needed. Unless the gentlemen who desired this improvement were willing to wait till a general system of drainage could be adopted, they should contribute a part of the expense of immediate drainage. He did not think that the financial position of the city would justify the expenditure of $7,000. for what was after all only a local improvement. He was averse to the present system of drainage, and advocated an improved general system.

Councillor Homier supported the Report.

Councillor Bernard could not agree with the Road Committee in recommending so large an appropriation for a local improvement.

Alderman Jodoin represented that the expense of a general system of drainage would be very great.

Alderman Bulmer supported the grant, considering that some sacrifice should be made by the city, in a case where the health of a particular locality was endangered to so great an extent as in this instance.

After some further discussion the vote was taken on this question, and the result was that 6 voted for, and 7 against the report.

Ayes: Beaudry, Brousseau, Homier, Bellemare, Gorrie and Jodoin.

Nays: Cusson, Rodden, Lyman, Bernard, M'Oambridge, Corse and Marchand.

THE STATE OF THE STREETS DURING THE PRINCE'S VISIT.

Councillor Rodden's motion, given in our last report, came up—To remove obstructions and encumbrances from the streets, and to prevent trenches being made therein, between the 18th of August and the 18th of September.

Councillors Rodden, Lyman and Bernard briefly pointed out the necessity of the contractors being compelled to stop their works during the stay of the Prince.

Councillor Homier indignantly denounced the idea of the Council putting a stop to building.

Alderman Bulmer thought that some difficulties might arise from the carrying out of this motion. For instance, the contractor who was laying down the water pipes, was limited in time. The Council would have to bear this in mind, or the city might be exposed to an action for damages.

After some other members had expressed their opinions, the vote was taken, and the motion was carried, 11 voting for, and 5 against it.

THE REPORT OF THE WATER COMMITTEE ON MR. KEEFER'S [LETTER.

This famous Report, which has already been published in the *Herald*, in full, then came under consideration. On account of its extreme length, and the fact of its being in print, the Council dispensed with its reading.

Alderman Gorrie moved its adoption.

Alderman Bulmer suggested that members might propose additions to, or alterations of the Report, if they thought fit to do so.

Councillor Lyman characterised the Report in question as an "angry Report." He read some sentences of it, which he considered as unbecoming, and displaying ill-feeling to Mr. Keefer. Some of these objectionable expressions were such as calling the letter a "long" letter; in saying that Mr. Keefer was "very lavish of his opinion;" that "he did not enjoy the confidence of the Council as an engineer," &c., &c. These expressions might do very well for one of their own reviews, such as were characterised by the press as "*gas*," but it was hardly the style of composition for a public document. He considered that Mr. Keefer deserved the thanks of the Council, for some of the very actions censured in the report. He would move in amendment, seconded by Councillor Bernard, that the report be laid on the table.

Alderman Marchand, as one who had formerly been a member of the Water Committee, could say that at that time Mr. Keefer did not enjoy the confidence of the Water Committee, nay more, he could say that he did not enjoy the confidence of the Harbor Commissioners, when employed by them.

Councillor Lyman interposed that he hoped this would not be recorded by the Reporters.

Alderman Marchand said that he was ready to assume the responsibility of the assertion, and he would not object to its being made public. He insisted that the Water Committee had been led into many projects of which they disapproved, solely because the engineers recommended them, and the Committee were afraid to take upon themselves the responsibility of acting contrary to the engineers. When asked by Councillor Bernard why the Council did not discharge Mr. Keefer if they had no confidence in him, he replied that the Committee and the Engineers had no such power—a power which could not be easily revoked.

Councillor Beaudry believed that the Council would be quite justified in expressing their want of confidence in Mr. Keefer.

Councillor Bernard said there was no doubt that the report "pitched into Mr. Keeter in a most magnificent manner," but in pitching into him, it had also pitched into many others; indeed, he was not certain but that it pitched into some of the Councillors themselves. Perhaps these expressions were not very parliamentary, but they had at least the merit of being expressive. The report, as a public condemnation of the whole course of Mr. Keefer's professional conduct, but it was also a condemnation of the conduct of the Water Committee of that time. If the statements of the report were correct, it was of great importance to the city. It recommended the expenditure of a large additional sum to complete certain works; but he hoped that before it was adopted, the Council would take the opinion of persons better qualified to judge of the matter than the present Water Committee. He suggested that it should be laid on the table, to be taken up when occasion called for it.

Councillor Rodden thought that there was nothing in the report which required adoption. He was disposed to let the report pass, and lie on record to go for what it was worth. He considered that Mr. Keefer, in his reply, had not denied the vital charges contained in the report. He had been one of those who had moved a vote of thanks to Mr. Atwater, the chairman of the old Water Committee, but this, he thought, was fully justified by the circumstances of the case.

It was then moved in amendment by Councillor Lyman, seconded by Councillor Bernard, "That this report be received and placed on fyle."

Councillor Lyman wished to explain respecting what he had said of the report, that he only objected to the language adopted. Otherwise he had no objection to the report. Regarding the power of Mr. Keefer, to his knowledge all the expenditure, &c., had first to be approved of by the Water Committee.

After a prolonged discussion, the vote was taken and the amendment was lost, ten voting against and only two for it. The main motion, to adopt the report, was then carried by the same majority.

It being now past midnight, the Council adjourned.

POLICE COURT—YESTERDAY.

SELLING SPIRITUOUS LIQUOR WITHOUT LICENSE.—A person named André Vilmaire was charged by the Revenue Inspector, 1st. division, with this offence. The defendant pleaded guilty, and was fined $50 and costs, or, in default of payment, 3 months' imprisonment.

REFUSING TO PAY SAILOR'S WAGES.—A man, named Alexander Brien, was brought up on this charge, but, the proof not being complete, the action was dismissed.

DAMAGING PROPERTY.—This charge was brought by André Vilmaire, against Urbain Goderic. The charge being substantiated by witnesses, the defendant was fined $4 and costs.

Four other unimportant cases of assault were also disposed of.

A carter, named Owen Martin, for being drunk and disorderly in King street, was fined 25s or 1 month.

RECORDER'S COURT—YESTERDAY.

There were eleven persons brought before the Recorder yesterday morning, nine of whom were inebriates, and the other two were fast youths, who, coming home through Great St. James Street at two o'clock in the morning, got into a squabble with the police, who interfered to check the disturbance they were creating. The case, which was not settled, will come up again at an early date.

ST. CLAIR DIVISION.—The anti-Cameronites in Lambton, have been put to their wits' ends to secure the services of some one to contest the St. Clair Division, against the Hon. Malcolm. At last, they have induced a very estimable person, Mr. A. W. Schwieger, to undertake the hazardous enterprise. Mr. S. is a Pole by birth, but has been many years in the country. He was connected at one time with the Board of Works, and assisted in the construction of the gravel road to Port Stanley, under Mr. Killaly. Subsequently, he was employed by the firm of Gzowski & Co., on the Grand Trunk, and is at present, we understand, connected with the same firm. He is a man of considerable ability, and has seen much of Canada.

His platform is as follows:—Representation by Population; Opposition to Disunion, but in favor of the Federal Union of the British North American Provinces, including the Hudson's Bay Territory; the Common School Law to remain as it is; a Bankrupt Law; Homestead Law, and Exemption Act. With regard to the Tariff, he says:—

"As to Mr. Galt's Tariff, I consider that sufficient time has not elapsed to allow us to judge how this measure may act. I shall carefully notice and consider its workings. If I find the results are beneficial to the country, I shall support, if otherwise, oppose it. I shall, however, in any case certainly vote for a reduction of duties on the common necessaries of life, such as Tea, Sugar, Coffee, &c., &c. I shall also consider myself bound to look into the management of public monies, and will advocate retrenchment in every possible way, and will, to the best of my ability, act in the same manner for all, without reference to creed, sect or party."

City Council Proceedings.

[*Reported for the* MONTREAL HERALD.]

At the Special Meeting of Council, held on Wednesday evening, there were

PRESENT:

Acting Mayor, Alderman Leprohon.

Aldermen:—Thompson, Gorrie, Jodoin, M c-Cambridge, Corse, and Marchand.

Councillors: Beaudry, Brousseau, Homier, Cusson, Rodden, Grenier, Bellemare, Lyman, Rennie, and Bernard.

PETITIONS RECEIVED.

From Noel Pratt, praying for the remission of a certain fine and imprisonment imposed by the Recorder for contravention of a By-law, the Petitioner not having surrounded a wooden house which he built in Vitre Street by a brick wall. Referred to the Finance Committee.

From the Proprietors of the majority of the Real Estate bordering both sides of Bonaventure Street, directing attention to the projection several feet into said street of a fence enclosing vacant ground belonging to Mr. James Logan, and petitioning that this obstruction be removed back to the line of said street by purchasing from Mr Logan or representatives, at a fair reduction, the amount of land required for said improvement. Referred to the Road Committee.

From Mr. C. Dorwin, for reduction of costs in suits No. 287, 288 and 289, in the Court of the Recorder. Referred to the Finance Committee.

From the Proprietors and Residents in Aylmer Street, representing that there is no light above the corner of Berthelot Street, which is distant from Sherbrooke Street nearly 550 feet; and praying that two lamps may be granted, one placed at the north corner, Sherbrooke Street, and the other at a convenient place, near midway between Berthelot and Sherbrooke Streets.

MR. CONTANT'S LETTER.

An application was received from Councillor Contant, offering to purchase a piece of land belonging to the Corporation, situated at the corner of Dorchester and Campeau Streets.

The letter was referred to the Finance Committee.

BY-LAWS.

The next four orders of the day for the reading of certain By-laws, were postponed, as there was no quorum for the consideration of by-laws.

COMMISSIONERS' SQUARE.

Alderman Bulmer's motion—To alter the name of Commissioners Square to that of VICTORIA SQUARE—was again postponed.

DRAINAGE.

A Report was then presented by the Road Committee, sanctioned by the Finance Committee, recommending an appropriation of $7,000, for the purpose of draining the swamp at the foot of Cote-à-Baron.

It was moved by Alderman Jodoin, seconded by Councillor Homier, "That this Report be adopted."

A long discussion then took place on this subject.

Councillor Lyman opposed the Report.

Councillor Rodden thought that this $7,000 would merely benefit six or seven wealthy proprietors. If $7,000 could be procured for this sewer, £7,000 could also be procured to drain those parts of the city where the water ran into

A number of Mr. Swiger's friends came down into West Midsex on Tuesday to see how the land lay, bwe are not aware what report they were abb take back.

RECIPROCITY.—Anor western American city has declared agat the Reciprocity Treaty. The Detroit *Tribune* says:—

"The Committee bfore appointed by the Board of Trade, to rort on the operations of the Reciprocity Treabad a meeting on Saturday last, at which asolution was adopted in favour of the uncotional abrogation of the treaty, unless a msial modification can be effected, so that its cations may be governed by some degree of ness. Notwithstanding several of the gentlen of the committee are directly interested ine free navigation of the St. Lawrence, and ough at the outset some diversity of opinionsisted among them, the resolution passed *unanously*. Proofs of the glaring injustice of operations of the treaty have multiplied so idly, that this is the only conclusion that cam arrived at after a calm investigation. To il such a one-sided measure a *Reciprocity* ity is decidedly a misnomer, since the enactment of the unjust and partial Canadian tariff which removed every vestige of its *spirit*."

THE CORPORATION GONE MAD.—The City Council have resed to purchase the Gas Works, as they hathe power to do under the Act of incorporat. Here is the opening of another grand fielor "jobbery and corruption." The Watdworks, intended to be a boon, have becomeancially speaking, a curse on the Municipality Those who spent a dollar previously for wa now pay a pound. The natural inference the Corporation taking the Gas Works under ir charge, is that the price of gas will rise fa three dollars to twelve, and at that figure will be a worse bargain than the water wh is to those who get it rather an improvent on the old article.—*Quebec Mercury*.

The past week's transactions, although small have been satisfactory, prices generally ruling the same as last noted; we do not anticipate any material change, if our fall importations are judiciously selected. The stock of groceries more especially staples, is much lower than the average, and we look for a steady business for some weeks to come. Buyers are acting cautiously, merely operating for immediate wants and looking more to the interest of money than a larger per centage on purchasing in a dull season.

SUGAR experiences a "first-rated" demand—particularly the highest grades of Cuba and Porto Rico, which realize long figures. Ordinary samples are favoring holders, whilst the lower grades are comparatively speaking, unnoticed.

Refined meets considerable favor, but there is little here. The "Canada Sugar Factory", quotes prices as under, which is nominal having none in stock.
