## NEARLY A CRIPPLE. ST. JACOBS OIL CURED HIM.

Chief Officer Mutton, of the S.S. Braganza, says: "In the early part of the year 1882, I felt a pain in the region of the right hip, which rapidly developed into a pain so intense that at times I could not walk ten yards without halting. Medical men, both in England and on the Continent, pronounced it Sciatica. They prescribed for, and signally failed to give me the slightest relief. At last I determined to give St. Jacobs Oil a fair trial.

"With the second bottle I felt most decided relief; after using the third I walked one day fully ten miles without feeling a twinge; with the fourth I was virtually cured; and after using the fifth bottle I had no longer any need of its use, and am now, thanks to its marvelous properties, entirely free from pain, never having had any return of it, and I am firmly convinced that had it not been for St. Jacobs Oil I should now have been very near, if not quite, a cripple."

IT ACTS LIKE MAGIC.  
CONQUERS PAIN.  
Price 1/1 and 2/6.

## THE SHIP LABORERS AND THE LEYLAND LINE

The Situation Unchanged—Non-Union Labor and Batteau-men In Sympathy with Ship Laborers and Refuse to Work

MR. HARLING SUMMONS MR. KENNEY—INTERVIEW FRUITLESS.

The difficulty existing between the members of the Quebec Ship Laborers' Society and the Leyland Steamship Company still remains unsettled. Early yesterday morning the S. Iberian was removed from the Great Northern elevator and freight sheds, to the north wall, in order to take in a quantity of flour. When the hour to commence work arrived, the non-union labor employed by the Leyland line refused to handle any freight for the Leyland line, and the batteau-men also refused to come alongside the Iberian with lumber or have anything to do with the steamer connected with the Leyland Steamship Company, until the difficulty with the Ship Laborers' Society was amicably settled. There was nothing left for the Leyland people to do but work the Iberian's crew, which was done, the sailors being promised a wage of \$2 per day in excess of their regular ship's pay. The non-union men employed on the docks are in perfect sympathy with the ship laborers, and say that they will stand by them in their trouble. The batteau-men are equally determined, consequently the position is likely to remain in statu quo, unless one or the other party gives in, and the ship laborers say that they will not recede one inch from the stand that they have taken. In the meantime no overt act on the part of the laborers has been committed, on the contrary, they even keep away from the steamer and insist that they are not on a strike, but simply locked out by the Leyland Steamship people.

other vessel in the port seems to be affected by the difficulty the laborers are all at work, and seemingly minding their own business. Mr. Thos. Harling, Manager of the Leyland Line evidently feels very keenly over the situation, and yesterday morning expressed a desire to have an interview with the president of the Ship Laborers' Society. Mr. Kenney, and later in the day despatched a messenger to the latter asking an interview. Mr. Kenney sent back word that Mr. Harling knew where to find him if he wanted him and meant business. Mr. Harling next addressed a letter to the President of the Ship Laborers' Society, requesting a meeting at the Company's general offices, St. Peter street at 4 o'clock. At this hour Mr. Kenney and Mr. Murphy, accompanied by two of the officers of the French section of the Society, called on Mr. Harling in answer to his request. The interview lasted for one hour, and when the officers of the society emerged from the building they simply said that there was no change in the situation. Mr. Kenney said that he had nothing to make public, for the reason that nothing was done. Mr. Harling had requested his presence in writing, and when he saw that gentlemen, he had no proposition to make further than point out the condition of trade, and the injury that was being done the port of Quebec. That he gave Mr. Harling to understand that the Ship Laborers Society had taken a stand in the matter from which they would not budge one inch, which ended the interview.

## AFFAIRS IN VENEZUELA

CRUSHING DEFEAT OF THE GOVERNMENT TROOPS — BARCELONA INVESTED BY THE REVOLUTIONARY ARMY — MYSTERIOUS MOVEMENTS OF PRESIDENT CASTRO.

Wilkesbarre, Island of Curacao, July 7.—President Castro, of Venezuela, left Caracas Sunday, not for Valencia, as had previously been announced, but for La Guaira, taking with him his private guard of 500 veteran soldiers, and General Herrera, as chief of staff. The President reached La Guaira in the afternoon, and left there at midnight on the steamer Ossin, his destination being Guanta or Barcelona, about 150 miles east of La Guaira. He intends to reorganize the Government forces at and about Barcelona, and assume the offensive against the revolutionists at once. Nobody at Caracas can explain the change in his plans, and the step is considered as peculiar, as the invasion of the Valencia district by the main army of the revolutionists has begun. This force will be opposed by the Government army under General Sofreino Castillo.

Later in the day news reached here from Venezuela to the effect that three thousand Government troops under

General Modesto Castro, the President's brother, were completely routed July 3 between Barcelona and Aragua by troops of the revolutionary army under General Rolando. The Government forces lost all their ammunition and equipment, and many of the soldiers deserted to the revolutionists during the engagement. After the battle the revolutionary army moved on Barcelona, and surrounded that city. The inhabitants were panic-stricken, the shops were closed and streets were barricaded.

**THE COAL STRIKE**

New York, July 7.—President Mitchell spent the day with Mr. H. M. Taylor, of Braidwood, a soft coal operator, who said that he telegraphed Mr. Mitchell at Wilkesbarre to meet him in New York. He denied that their meeting had anything whatever to do with the anthracite miners' strike, or to the soft coal mine situation, or the approaching convention of the United Mine workers at Indianapolis. Each asserted that they were together simply as boyhood friends, after seeing friends off for Europe.

Mr. Mitchell also denied that he came to consult labor leaders here regarding the advisability of the soft coal miners breaking their contracts with the operators to enter upon a general strike, and reiterated that the anthracite miners would stay out until they won. He said he would leave for Wilkesbarre this evening.

## WOULD WRECK THE PENITENTIARY

Convicts Plotting Escape at St Vincent de Paul

## EXPLOSIVE BOMBS THROWN

FORTUNATELY ONLY ONE OF THE THREE EXPLODED AND THE DAMAGE CAUSED WAS VERY SLIGHT — THE MAN WHO THREW THE BOMBS IS NOT YET DISCOVERED BY THE AUTHORITIES.

Montreal, July 7.—A daring attempt was recently made to wreck St. Vincent de Paul Penitentiary at the place of that name, some distance from Montreal, where over 600 convicts are confined. The attempt is believed to have been part of a plan by some of the convicts to escape. Three bombs filled with explosives were thrown from the upper story in the inside of the penitentiary into a large corridor below. Fortunately only one of the bombs exploded, and very little damage was done. The authorities have not yet found out who threw the bombs, but a thorough investigation will be made. It is supposed some of the convicts got some powder from the quarries and made the bombs, which were very primitive affairs.

## CANADIAN SOLDIER DEAD

Ottawa, July 7.—A cable from South Africa to-day announces the death from pneumonia of Wm. Smith, who went out with the third contingent. Smith belongs to St. Catharines.

## MURDER AND SUICIDE

New York, July 7.—Karl Von Boeckmann shot and killed his wife, fatally wounding O. F. Farewell, a friend of the family, and then sent a bullet through his own head to-day. The shooting occurred in the house of Mrs. Von Boeckmann, in the upper part of Manhattan.

## CANADIAN NORTHERN STRIKE

Winnipeg, July 7.—Many of the men who took the place of the strikers in the Canadian Northern Railway claim they were brought here under false pretenses, and are dropping out. The company claim they will have everything moving freely in a few days and that many of the section men have returned. This is strenuously denied by the strikers.

A delegation of prominent labor men and representatives of the strikers waited upon Mayor Arbournot to-day to elicit his support in having the strike terminated. They asked His Worship to consult some prominent business men and form a delegation to wait upon the C.N.R. officials and ask on a settlement according to the terms asked by the strikers. The Mayor promised to do all in his power to have the strike satisfactorily settled.

## TAFT AND THE VATICAN

Rome, July 7.—A member of the committee of Cardinals which is examining the proposition submitted to the Vatican authorities by Judge Taft, Governor of the Philippines, with regard to religious orders in the archipelago, has unofficially informed Bishop O'Gorman, of Sioux Falls, N.D., who is a member of Judge Taft's party, that the committee expects to be able to reply to Judge Taft's propositions, submitted July 3rd, by Thursday night. The Vatican is priding itself upon the expedition with which this business is being done on its side. The note to be given by the Vatican to Judge Taft will, as did Judge Taft's note to the Vatican, contain a sort of contract with clauses of agreement to be signed by both parties. Great difficulty continues to arise as a result of Judge Taft's request that the friars in the Philippines be withdrawn. The Cardinals specially insist that the friars of other than Spanish nationality, although they may belong to the four religious orders concerned, remain, as well as a sufficient number of Spanish friars to teach the Spanish language in their universities in the islands.

## PECULIAR IF TRUE

Oyster Bay, July 7.—The first official call on President Roosevelt at Sagamore Hill since his arrival here, was Rev. John Hay Cushing, a Catholic priest of Denver, Colo., who went here to-day to file a complaint against Ambassador Meyer at Rome. Cushing claims that he and twenty-eight other priests were driven out of the Denver diocese by Bishop Metz for no other reason than their failure to vote for him for the Bishopric. He said he was the fourth to go. Protests were sent to Rome and later the twenty-nine priests, as well as Bishop Metz, went there to state their case before the Vatican. The fight has continued without success since 1888. In 1901 Bishop Metz is alleged to have had Cushing arrested in Rome for forcing himself into his presence, and it is said Cushing was put in jail by the Italian police, who openly admitted that it was in retaliation for the lynching of Italians in New Orleans. He claims he was treated to great indignities and that Ambassador Meyer and Consul De Castro were negligent in protecting him as an American citizen. Cushing claims further that three New York men furnished Bishop Metz with \$30,000 with which to fight the 29 priests in their claim to ecclesiastical functions. When Dr. Cushing called the President was not at home, but he left certain papers and will return here Thursday.

## CHAMBERLAIN BADLY INJURED

DRIVING THROUGH THE CANADIAN ARCH THE HORSE SLIPPED AND HE WAS THROWN VIOLENTLY AGAINST THE GLASS FRONT OF THE CAB.

London, July 7.—The Colonial Secretary, Joseph Chamberlain, was somewhat cut on the head to-day as the result of a cab accident in Whitehall. His hansom was passing through the Canadian arch when his horse slipped and Mr. Chamberlain was precipitated forward with great violence. His head struck and shattered the glass front of the cab.

When extricated it was seen that his head was badly lacerated and bleeding profusely. A policeman helped the Secretary into a cab and accompanied him to Charing Cross Hospital, where his injuries were dressed.

Nevertheless Mr. Chamberlain was sufficiently injured to necessitate his remaining at the hospital all night, and he was carried on a stretcher from the room where his wounds were dressed to a bedroom.

It is officially announced that he is suffering from a scalp wound, which is severe, but not dangerous, rendering advisable his detention for the night. The gash on his forehead required a number of stitches. The conference of the Colonial Premiers which was to have been held to-morrow to discuss the question of Imperial defence, has been postponed on account of the accident.

Mr. Chamberlain is recovering, but the doctors are not sure that he can be moved to-morrow.

Mrs. Chamberlain remained at the hospital until a late hour.

The following bulletin was issued this evening from Charing Cross Hospital:—Mr. Chamberlain is suffering from a scalp wound on the forehead. He is now free from pain and feeling comfortable. There is no concussion.

London, July 7.—Mr. Chamberlain's injuries, although not dangerous, are likely to detain him in the house for the remainder of the week. He has already cancelled his engagements until Thursday, and it is extremely doubtful if he will be permitted to attend the coronation banquet to be held in the Guild Hall Friday, or the reception to Lord Kitchener Saturday on his return from South Africa. The Colonial Secretary has a nasty crescent shaped cut across the forehead, three inches long, and penetrating to the bone. Pieces of broken glass were embedded in the wound. There was no concussion, but the bone is bruised.

Mr. Chamberlain also sustained a slight cut under the right eye. Upon being that he must remain in the hospital, the patient asked if he might be placed somewhere where he could smoke. He was thereupon carried to a room on the next floor. Mr. Chamberlain treats the matter of his accident slightly. He has informed official friends that he hopes to resume his official duties Friday. King Edward and Queen Alexandra, and the Prince and Princess of Wales have sent messages of inquiry to Charing Cross Hospital.

## LORD KITCHENER LIKES THE BOERS

AN EXTRACT FROM THE COMMANDER'S VALEDICTORY ADDRESS TO THE ARMY IN SOUTH AFRICA — BOERS WILLING TO FIGHT FOR GREAT BRITAIN.

Pretoria, July 7.—Lord Kitchener's valedictory to the troops, dated June 25th, after extolling the conduct of the British soldiers in the face of great hardships and difficulties and against dangerous and elusive antagonists, commends the kindly and humane spirit displayed in all ranks, and concludes as follows:—"This message would be incomplete were no reference made to the soldierly qualities displayed throughout the campaign by our quondam enemies and the admirable spirit displayed in carrying out the surrender. Many of those who contended until the end have expressed the hope that they may have, in the future, an opportunity to serve side by side with His Majesty's forces."

## ENORMOUS GAS COMPANY

Dover, Del., July 7.—The Lowe Coke and Gas Securities Company of New York City, to manufacture coke and coal gas, capital stock \$30,000,000, was granted a certificate of incorporation here to-day.

## ANGLO-AMERICANS

Minneapolis, Minn., July 7.—Dr. W. R. Harper, President of the University of Chicago, delivered an address before the National Council to-night in review of the educational progress of the year. He painted a picture of an Anglo-American alliance in the fields of enlightenment and humanity, describing the scholarship bequests of Cecil Rhodes and the Carnegie endowment of a national university at Washington as the greatest educational events of the last decade.

## EXCITED INDIAN BRAVES

Guthrie, Okla., July 7.—The Cheyenne Indians, near Calumet, in Canadian County, are reported to be holding a council of war, angry over an order issued by Major Stouch, Indian agent, prohibiting them from practicing their dances, so called, incident to their sun dance. The Indians are excited, and the whites near Calumet are becoming frightened. Major Stouch has apprised the War Department of the situation. About 2000 Indians took part in the dance last week in celebration of their religious festival, and the tortures were to have closed the doings. This is the first time that the dances of the Cheyennes have been stopped by the Government authorities.

## IMPROVEMENT REMAINS CONSTANT

Satisfactory Condition of His Majesty King Edward

## DATE OF THE CORONATION

GENERAL GOSSIP OF BUCKINGHAM PALACE — THE DAY IN LONDON.

London, July 7.—King Edward passed a favorable day to-day, and the official bulletin given out to-night says that His Majesty is still doing well. The use, by the Prince of Wales, of the word "recovery" when he referred to the King's progress at the inauguration of the Raphael Nurses' Home, is regarded in many quarters as indicating that the Royal family considers the King's case most hopeful.

London, July 7.—No intimation has reached the Canadian Ministers regarding the date of the coronation. It is expected before the close of August, or early in September, in which case Sir Wilfrid Laurier, Hon. W. S. Fielding and other Canadian Ministers will be here. It is hoped also that a fresh contingent of Canadian troops may come over.

Sir Frederick Borden is spending a few days in the country.

It is intended to decorate the Canadian arch for Lord Kitchener's reception with a new flag design.

## BOERS FOR MONTREAL

Halifax, July 7.—The steamer Beta arrived from the West Indies at two o'clock this morning. She has on board four Boer officers, who are going to Montreal this morning. They were with Cronje at Paardeberg.

## JUMPED FROM BROOKLYN BRIDGE

New York, July 7.—A man committed suicide this afternoon by jumping from the Brooklyn Bridge. A rope was thrown to him from a passing tug, but he evidently was bent on dying, for he refused it and soon sank. His body was not recovered.

## STRANDED COLONIALS

London, July 7.—Many Canadians and Australians are in Cape Town in a stranded condition. They interviewed the Mayor of the place on Saturday, demanding assistance and threatening to raise a disturbance if it was refused. The Mayor promised them assistance in the shape of employment until the arrival of expected transports to take them home.

## IRON WORKS BURNED

Halifax, N. S., July 7.—The Londonderry Iron Works, at Londonderry, N. S., were destroyed by fire this evening, causing heavy loss and throwing one hundred men out of employment. The works are owned by the Montreal Rolling Mills Company, of Montreal. The Company had several large contracts for pipe on hand and the mills were running full time.

## CANADIAN MANUFACTURERS

Montreal, July 7.—When the Montreal branch of the Canadian Manufacturers' Association meets here on Wednesday a resolution will be introduced requesting the Government of the Province of Quebec to make an annual appropriation of \$5,000 to pay the expenses of a practical representative for the Province at the office which the Dominion Government purports to establish in London. It is pointed out that Ontario has taken action of that kind and it is claimed that this Province should do the same thing.

## AFFAIRS IN MANILA

Manila, July 7.—A large body of Moros, from Massieu, Island of Mindanao, armed with 21 rifles, recently planned to ambush a pack train of the Lake Lano column, but the Americans were warned in time and anticipated the attack. One shell from a mountain gun dispersed the Moros. The Moros in the towns of Massieu and Boceol are growing more aggressive. General Chaffee has advised General George Davis to disregard the insulting letter received from the Sultan of Boceol and remain inactive until the advent of the Governor, or disorders be committed.

## A ROCHESTER HURRICANE

Rochester, N.Y., July 7.—Rochester narrowly escaped the ravages of a destructive cyclone which passed over this city this evening. The hurricane approached the city from the southeast at six o'clock, and was heralded by terrific thunder and lightning. A large frame building, owned by Geo. Streasser, was picked up and dashed to the ground. The lower story was crushed and the upper stories were thrown against an adjoining building, occupied by Henry D. Silver, a grocer. The Silver building was badly wrecked. The tornado then bounded and struck half a mile away, demolishing one of four frame buildings in process of erection. Nothing remains of the work except the foundation. The total loss on the three buildings is \$3000. The cyclone disappeared in a north-westerly direction.

Chicago, N.Y., July 7.—A series of severe electric storms passed over this city to-night, with severe rain. The Oswego electric light system was damaged to some extent. The Cumberland Flour Mill was struck by lightning during the storm and was totally destroyed by fire, which followed the strike. Several firemen narrowly escaped injury by the falling wall.

For a profitable investment in newspaper advertising—our bargain columns.

**Well Made.**  
Pure flour and pure yeast do not necessarily mean good bread. It may be spoiled in the making. Just so: material is not everything. Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, after a number of analyses, reports that "Sunlight Soap is a pure and well-made soap." "Well made" means more than you think. The Sunlight Soap—Octagon Bar—next wash day, and you will enjoy the benefits of a "well-made" soap, and will see that Prof. Ellis is right. No one should know better than he. 214

## The Quebec Chronicle

CHRONICLE TELEPHONE No. 45.

TUESDAY, JULY 8, 1902.

### INTERESTED FRIENDSHIP.

The contemplation of Picturesque Quebec does not seem to have the soothing effect on the Mercury's nerves that might have been expected. It now falls foul of the Chronicle in the Intercolonial, and quotes pages 23 and 32 over and over in support of its position. It is to be hoped that the Mercury, whose wisdom must be great judging from its appreciation of the ship laborers of the metropolitan city, knows what the Intercolonial people mean, for nobody else does. On page 1 the folder addressing tourists enumerates five "ticket offices," of which Quebec is not one; on page 23 it mentions five "ticket offices" also, this time substituting Quebec for Toronto, and on page 32 it speaks of four "city passenger agencies," Quebec being one. All three statements differ and "you pays your money and you takes your choice." The Mercury says that the Chronicle attacks the Intercolonial because that line does not advertise with it; if that is its view, it is only fair to presume that our confrere defends the Intercolonial because it gets its advertising.

### A FORTIER MISJUDGES HIS CLAY.

The Adventists of the Eastern Townships and the border States are in the habit, we believe, of holding an annual meeting, either at Magog, Bebec Plains, or some place in the vicinity adapted to the purpose, and convenient of reach. Such meetings are generally well attended and elicit a goodly manifestation of religious fervor, which is, doubtless, not without its good effects for a more or less lengthy part of the ensuing year; as a general rule, also, they are harmonious, and a spirit of brotherly love prevails. An exception to this rule was, however, made this year at the meeting held in the last week of June, and there are divers sore hearts on both sides of the line in consequence. It all came about through an injudicious attempt to introduce politics into the number of topics available for religious discussion, in addition to the usual stand-bys of "the world, the flesh and the devil." They are not, despite the attractions which they possess in everyday life, pleasant topics for theological conversation, inasmuch as they necessarily provoke denunciation, but they cannot well be dispensed with, however jarring may be the note which they send forth. It is different with politics, which may be described as answering in this connection to the Fourth Dimension in Mathematics. The world is bad enough: the flesh worse; and the devil worst of all; but they can be tolerated in speculative discussion, as they are a great deal more than tolerated in the average practical life. Still, the line must be drawn somewhere, and as the barber in Pickwick drew it at coal-heavers and refused to exercise his art on the chins of chimney sweeps, so preachers and moralizers should draw the line at the devil and abstain from going lower down in the moral scale of politics as practised in this continent. "That way madness lies," and Elder Potter, of Vermont, found out this to his cost when he left the legitimate track and began to denounce the Boer war and the conduct of the British Government to a meeting, the majority of which was composed of Canadians. The rash man entirely mistook the Canadian temperament, and imagined that it was a great deal more phlegmatic than a United States audience would have been in a parallel position, and therefore he not only repeated all the calumnies of the American pro-Boer press to an audience largely composed of the people that had sent their sons and brothers to fight and, if need be, die in the cause of the Empire, but actually rejoiced that he had an opportunity of "boarding the lion in his den," which is what the Americans fancy they are doing when they twist the other end of the Royal animal. His joy was turned into sorrow when an indignation meeting was held at the conclusion of the service, and resolutions were unanimously passed, politely but firmly requesting him to withdraw his false and calumnious assertions and apologize for them without delay at the service which was to take place in the evening. If Elder Potter was indignant in the morning he recognized that indignation was the better part of valor in the evening,

and he accordingly complied with the request made. He did even more; fully comprehending that he would not be a persona grata to the assemblage, and having a natural recollection of what generally takes place when United States sentiments are outraged, he took the earliest opportunity of seeking a city of refuge in the Vermont hills and went off by the next train. We confess to a certain amount of sympathy with Elder Potter in this unlooked-for termination of his career in Canada. The utterances of individuals and a large section of the Canadian press might well lead him to conclude that he was not voicing unacceptable opinions, though, on the other hand, the national action in sending contingents to the war and the utterances of an even larger section of the press, should have warned him to make sure of his ground before proceeding to occupy it, but apart from this, American citizens have other reasons for believing that they can say and do things in Canada which they could not, with impunity, in their own territory. In many cities in the United States the British flag cannot be raised in conjunction with other flags on occasions of public rejoicings without grave risk of being torn down by the mob and trampled in the dust. We know in Canada that this has been done time and again, and yet on every public holiday here, and on every patriotic celebration, the Stars and Stripes are even more in evidence than the Union Jack or the flag of the Dominion. Why should not Americans think that we are not at all solicitous for the honor of our flag, or ready to take umbrage at insults offered to Great Britain? Why should they not believe that the "looking to Washington" is the great principle of our lives, and that we are ready to swallow any amount of dirt to curry favor with the market of seventy millions?

### GOOD ADVICE TO MANUFACTURERS.

Industrial Canada, published in Toronto, under the direction of the Canadian Manufacturers' Association, in its last issue has this to say of the desirability of the manufacturers taking advantage of the Winnipeg Industrial Exhibition to make their wares known to Western purchasers: "Thousands of new settlers are now on their way to the North-West Territories, and there are many indications that before long the West will become the most important market open to us. So little manufacturing is done there that almost all their goods must be brought in, and, unless the merits of our own manufactures are pointed out, and an effort made to retain the market now, we will be driven from the field. The situation will surely appeal to the keen manufacturer and business man. Immediate action is demanded. An earnest effort should be made to convince the people of the West that their own manufacturers can supply them with the very best goods they require, and give them the best value for their purchases. With this in view, every enterprising Canadian firm should secure display space at the Winnipeg Industrial Exhibition. It is the best advertisement given in the West, and Canadian firms will be given every encouragement by the Exhibition authorities and the transportation companies. It is expected that 150,000 people will visit the Exhibition this year."

### RAILWAYS IN THE WORLD.

The Iron Age publishes statistics of the railroads of the world, from 1830 to 1900, thus giving the progress of railway building from its beginning and throughout the nineteenth century. A summary of those statistics and allied facts of interest is as follows:—The mileage built in each decade for the world has been:—

1830-40.....	4,772
1840-50.....	19,198
1850-60.....	43,160
1860-70.....	63,255
1870-80.....	101,981
1880-90.....	152,179
1890-1900.....	107,421

The mileage built before 1830, insignificant in amount, is included with the 4,772 miles credited above to the decade 1830-1840.

Of the total of 491,066 miles completed at the end of the century, more than one-half has been built since 1850, and nearly three-fourths since 1870. It is notable, however, that in the last decade of the century 44,758 miles less were built than in the preceding ten years.

The mileage in each of the quarters of the globe in 1900 was:—

Europe.....	176,212
Asia.....	37,477
Africa.....	12,501
North America.....	220,850
South America.....	629,071
Australia.....	14,925

Thus North America alone has more railroads than Europe and Asia together; the three old continents together have 226,190 miles; the three new ones, 264,776.

The aggregate capital invested in the railroads of the world is the stately figure of \$32,661,696,000, of which no less than \$18,170,114,000 has been invested in 162,225 miles of European railroads, which have an average

range capital of \$119,593 per mile! while the average of 263,356 miles in the other parts of the world is \$55,034 per mile. As there are 65,000 miles whose capital is not reported, we are safe in assuming that the world has \$36,000,000,000 invested in its railroads.—Halifax Herald.

### BRIEFLETS OF THE DAY

Las Palmas, July 7—Gen. Kitchener and Gen. French, who are returning to England from South Africa, arrived here at sunset this evening. Both are in good health.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath softens the water at the same time that it disinfects.

London, July 7—The King will probably go for a yachting cruise when he has gained sufficient strength to move about. The Royal yacht is being prepared in Plymouth dockyard for the King's use, in case it is required.

### Children Cry for CASTORIA.

Cape Town, July 7—Lord Milner, the British High Commissioner in South Africa, has received a despatch announcing that the Imperial Government has decided against the proposal to suspend the constitution of Cape Colony.

### AT SUMMER RESORTS.

The Chronicle will be mailed daily to any summer resort in Canada or the United States from now until the 1st of September for 50 cents. All orders addressed to "Subscription Department" will be carefully attended to.

Regina, N.W.T., July 7—Chief Justice Richardson has been stricken with apoplexy and lies in a critical condition at his home here. Chief Justice Richardson presided at the trial of Louis Riel. He is 76 years of age.

### Children Cry for CASTORIA.

London, July 7—In the House of Commons this afternoon, A. J. Balfour, the Government leader, announced that an autumn session of Parliament would be necessary beginning about the middle of October and that the House would adjourn in August.

### DR. GRONDIN'S PRIVATE HOSPITAL.

After an absence of 6 months in Europe, Dr. Grondin professor of gynaecology at Laval University, will resume his private consultations, every day, from 2 to 4 p.m., at his private hospital (Sundays excepted).

Ottawa, Ont., July 7—An excursion of 400 French-Canadian farmers from Quebec county reached this city today to visit the Central Experimental Farm. The excursionists were from Hon. Chas. Fitzpatrick's constituency and were personally conducted by his secretary.

**DR. A. W. CHASE'S 25c. CATARRH CURE**  
It is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever, Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

About sixty men arrived yesterday in Winnipeg to take the place of Canadian Northern Railway freight strikers. They are quartered in the round house of the Company, which is endeavoring to keep them from communicating with the strikers. An attempt was made yesterday afternoon to burn the Northern Pacific Railway bridge.

They will honestly catch the eye of every one—our bargain columns.

10 Florida	French Line	do
10 G. Kurfurst	North German	do
10 L. Simcoe	Beaver Line	Quebec
12 Estancia	Canatic Line	New York
12 Rheinland	Red Star	do
12 Mesaba	At. Transport	do
12 Ryndam	Holland Am	do
12 Ancherla	Anchor Line	do
12 Monzonian	Allan Line	Quebec
12 Californian	Dominion	Portland

### ALLAN LINE.

The ss Monte Videau, Captain Wal-  
lace, sailed from London for the St.  
Lawrence on Saturday afternoon.

The ss Brazilian, Captain Williams,  
from the St. Lawrence, arrived at  
London yesterday.

The ss Livonian, from Glasgow, ar-  
rived at Philadelphia at 10 a.m. on  
Monday.

The ss Carthaginian, from New York  
for Glasgow, arrived out on Sunday  
morning and landed all her live stock  
without loss.

The ss Austrian, from Boston for  
Glasgow, arrived out on Sunday morn-  
ing and landed all her live stock with-  
out loss.

The R. M. S. Numidian, Captain  
Main, from the St. Lawrence for Li-  
verpool, passed Malin Head at 1:40  
a.m. yesterday.

The ss Sarmatian, Captain Pitts,  
from Glasgow, passed Cape Chatte at  
3 p.m. yesterday and is due in port  
to-day.

The R. M. S. Mongolian, Captain  
Braes, from Liverpool, 26th, via Mo-  
ville 27th June, with 377 passengers  
and a general cargo, arrived in port  
at 5:30 a.m. yesterday and moored at  
the Breakwater. After landing pas-  
sengers she proceeded to the Com-  
pany's wharf to discharge Quebec  
goods, and left for Montreal at 11  
a.m.

### DOMINION LINE.

The ss Manxman, Captain Christie,  
sailed from Liverpool on the 3rd in-  
stant, for the St. Lawrence, with a  
general cargo.

### ELDER-DEMPESTER LINE.

The ss Lake Champlain, Captain  
Stewart, from the St. Lawrence, ar-  
rived at Liverpool on Saturday.

### QUEBEC STEAMSHIP COMPANY.

The ss Korona arrived at New York  
from the West Indies at 9 p.m. last  
Saturday.

### SYLVIANA RE-FLAGGED.

The steamship Sylviana, Captain J.  
S. Wyatt, which stranded on the beach  
at Skinnington, Eng., during the heavy  
gale last December, on her journey  
from Antwerp to West Hartlepool, has  
been re-flagged. The Sylviana had  
drifted on to some quicksands and  
moved 120 feet from her original po-  
sition; this, and the fact that she lay  
broadside on made the task of float-  
ing a most difficult one. Mr. A. S.  
Purdon personally conducted the  
work from beginning to end. The  
Sylviana belonged to the Hansa-St.  
Lawrence Line.

### SOO TRAFFIC.

Sault Ste. Marie, July 7. — The  
freight tonnage passing through the  
United States and Canadian ship-  
canals is increasing so rapidly that  
the question has arisen as to how  
long the locks will be able to ac-  
commodate the traffic. In well in-  
formed circles is the belief that the  
construction of a new lock to re-  
place the Weitzel lock, to begin next  
year, it would not be completed any  
too soon to take care of the Lake  
Superior business. The total tonnage  
passing the canal this season is 11,  
486,501, as against 6,767,120 for the  
same period last year, an increase of  
4,719,381 tons.

### CUBAN VESSELS FREE.

Washington, D. C., July 7. — The  
President has issued a proclamation of  
date July 3, removing discriminating  
duties upon Cuban vessels entering  
United States ports. Under Spanish  
rule and also under the military occu-  
pation such duties were not imposed  
upon Cuban vessels, for it had been  
formally declared to the authorities  
that Spain imposed no such duties  
upon United States vessels. But  
when Cuba became an independent na-  
tion the law was self-acting and the  
duties began to run, until such time  
as the President should receive satis-  
factory assurance that there was no  
discrimination against United States  
vessels in Cuban ports. Now such  
assurances have been received through  
Mr. Squires, and the proclamation has  
been issued.

### LOST STEAMERS.

Seattle, Wash., July 7. — A letter  
received from Lieut. Gatabe, of the  
revenue cutter Thetis, gives the lat-  
est news brought to Seattle concern-  
ing the fate of the steamers Portland  
and Jennie. It is hoped. The cutter,  
June 23, was at home, preparing to  
depart for the neighborhood of the  
merchants. The letter says: "We  
are now searching for the lost steam-  
ers Jennie and Portland, carried up  
into the Arctic, caught in the ice. We  
are here at Nome getting more coal.  
If we do not encounter them further  
south, it means Point Barrow, for  
our destination. The season is very  
late. The Thetis has encountered a  
great deal of ice, but we hope to get  
these vessels."

### THE WOLVIN LINE.

The Great Lakes and St. Lawrence  
Transportation Co. have closed a con-  
tract with the American Shipbuilding  
Co., of Chicago, for the construction  
of ten steel steamships to navigate be-  
tween the upper lakes and Quebec in  
connection with the company's docks  
and general plant at Quebec. The ten  
ships are to be built and ready for  
operation in May, 1903, and are to  
cost \$2,000,000 when completed. They  
are to be of uniform size, and as large  
as can be launched through the Welland  
and other Canadian canals. Their di-  
mensions will be 257 feet length, 43  
feet beam and 46 feet depth. They  
are to be of steel throughout, and will

be equipped with triple expansion en-  
gines, Scotch boilers and all modern  
appliances. They will be used chiefly  
for carrying cargoes to Quebec to  
transfer to Atlantic steamships, and  
are to be the nucleus of a greater  
fleet. — Monetary Times.

### NOTES.

The ss Concordia sailed for the St.  
Lawrence from Glasgow on Saturday.

The ss Iona sailed from Newcastle  
on Saturday for the St. Lawrence,  
with a general cargo.

The ss Empress of India sailed from  
Yokohama for Vancouver on Friday  
afternoon, July 4th.

The ss Indiana, which was ashore  
at Bauld Island, arrived in port last  
evening at eight o'clock in company  
with the ss Lord Stratheona.

The ss Savoy, Captain Belanger,  
from Anticosti, with passengers and  
freight, arrived in port yesterday af-  
ternoon, mooring at Chouinard's  
wharf.

Steamer Montague, Captain Griffin,  
from Duluth, with a cargo of wheat  
and flour, arrived in port yesterday,  
mooring in the Louise Basin.

Steamers Manchester Importer, from  
Manchester, Mystic and Hilda, from  
Sydney, arrived in port yesterday and  
proceeded for Montreal.

An automatic whistling buoy on the  
Cometway principle has been placed  
by the Dominion Government at Mani-  
couagan shoal, below Quebec.

The steamer Cambria has been sold  
to Buffalo parties, and will run be-  
tween that city and Crystal Beach.  
She was built at Lewis in 1877, and  
rebuilt at Owen Sound in 1888. She  
ran on the Georgian Bay, and latterly  
as an excursion boat out of Toronto.

The propeller Ocean now runs the  
Galop Rapids on the St. Lawrence,  
using the south channel, which the  
Gilbert Engineering Company has  
about finished. She thus saves four  
hours over the old method of locking.  
It is supposed that the Wolvin fleet  
of grain vessels, drawing 14 feet, will  
be using the new channel before long,  
as it is dredged to a depth of from 16  
to 17 feet.

### PORT OF QUEBEC.

Arrived, July 7.

SS Mongolian, Braes, Liverpool, Al-  
lans, Rae & Co., passengers and  
general cargo.

SS Mystic, Dawson, Sydney, Domi-  
nion Coal Co., for Montreal, coal.

SS Montague, Griffin, Duluth, G. L.  
& St. L. T. Co., flour, etc.

SS Hilda, Gibson, Sydney, Dominion  
Coal Co., for Montreal, coal.

SS Manchester Importer, Dundas, Man-  
chester, W. M. Macpherson, for  
Montreal, general cargo.

SS Savoy, Belanger, Anticosti, mas-  
ter, passengers and freight.

Schr. La Marina, Lapierre, Green  
Island, potatoes.

Schr. Marie Louise, Tremblay, Ish-  
aux Coudres, potatoes.

### CLEARED.

SS Nitocris, Anderson, Liverpool, H.  
Kennedy.

SS Parisian, Wallace, Liverpool, Al-  
lans, Rae & Co.

SS Escalona, Ritchie, Aberdeen, H.  
Fry & Co.

SS Milwaukee, Symons, London,  
Elder, Dempster & Co.

SS Jesse H. Farwell, Duncanson, Du-  
luth, G. L. & St. L. T. Co.

Schr. N. W. White, Bergeron, Rigolet,  
Weston Hunt & Son.

Schr. Minnie Bride, Rigolet, Weston  
Hunt & Son.

C. B. Alex. McDonald, Jefferson, Fort  
Edward, Sr. Anne Power Co.

C. B. O. M. Temple, Lafontaine, Ticon-  
deroga, Bennett & Co.

C. B. Jas. Moir, Gilman, Ticonderoga,  
Bennett & Co.

C. B. Leonard, Forcier, Ticonderoga,  
Auger & Son.

### SIGNAL SERVICE.

Quebec, 7th July, 1902.

Note.—The figures after the names of  
places denote the number of miles be-  
low Quebec.

River du Loup (94)—Cloudy; strong  
west wind. Inward at 10:30 a.m.

Lord Stratheona and Indiana.

Cape Chatte (233)—Clear and calm.  
Inward at 2 p.m., Sarmatian.

Martin River (258)—Clear; east  
wind. Inward at 9 a.m., Symra; at  
1:15 p.m., Activ; yesterday at 3 p.m.,  
Greenlands.

Cape Magdalen (292)—Clear; south-  
west wind. Inward at 1:20 p.m., Al-  
derney.

Fame Point (322)—Clear and calm.  
Outward at 1:30 p.m., Milwaukee.

North Shore—Clear and calm. Ber-  
sinn—Mary anchored.

Low Point (580)—Clear; west wind.  
Inward yesterday at 4 a.m., Mount  
fields and Lord Lansdowne; at 10  
a.m., Benedick and Priestfield; at 2  
p.m., Catalone; at 6:30 p.m., Eva.  
Inward at 9:30 a.m. to-day, Louis-  
burg; at 10:30 a.m., Bonavista; at 11  
a.m., Rodlam and Gundreda. Out-  
ward at 1 p.m., Benedick.

Cape Race (817)—Clear; north  
wind. Inward yesterday at 1 p.m.,  
Trinitia.

### LATER.

Little Metis Light — Two-masted  
steamer inward at 6:30 p.m.

Matane Light — Sarmatian inward  
at 4:40 p.m. Fine and calm.

L'Islet — Lord Stratheona towing  
Indiana inward at 5 p.m. Cloudy and  
calm.

Father Point — Sarmatian inward at  
8:15 p.m.

Matane Light — Symra inward at  
4 p.m.

### HIGH WATER AT QUEBEC.

Tuesday, July 8, 7.51 8.26

### People with Bad Breath.

Generally suffer from Catarrh and  
should use Catarrhose Inhaler four  
times daily, and be cured. The pleas-  
ant scented Catarrhose vapor  
spreads through every air passage of  
the breathing organs, and reaches the  
very root of the disease at once; it  
kills the germs, purifies and cleanses  
the mucous surfaces, and eradicates  
every vestige of catarrh in a short  
time.

Pure, sweet breath, free from head-  
ache, sneezing and discharge are quick-  
ly derived from the use of Catarrh-  
ose Inhalers. Complete outfit, guar-  
anteed to cure, costs \$1.00, trial  
size 25c. Druggists or N. C. Polson  
& Co., Kingston, Ont.

DR. HAMILTON'S PILLS STIMULATE THE LIVER.

## Summer Clothes.

Let us hope that June  
ended the chilly weather  
—not because Semi-ready  
has summer clothes to  
sell. We have no quarrel  
with the weather, for busi-  
ness has been bounding  
along as nobody ever knew  
a Canadian clothing busi-  
ness to do.

But it's Summer time  
surely. Men want to  
disport themselves by sea  
and lake in Panama hat  
and Semi-ready flannel or navy serge suits.  
—\$12, \$15 and \$18.

Staid and sensible styles that suit most  
men—Styles with more dash for young men.  
Scientifically graded sizes fit all shapes.

## Semi-ready

# CEYLON TEA GREEN OR BLACK.

Has been adjudged guilty of being Pure and Economical, at the bar of public opinion, and been sentenced to a prominent place on every table where those qualities are appreciated.

## G.A. BOLDUC & CO. 166 St. John Street, Quebec.

And everything in the line of machines for the manufacture  
of furniture. Complete outfit for cheese and butter factories.  
A complete assortment of circular and band saws, pulleys,  
leather and rubber belting, rubber hose, iron pipe, fittings,  
valves, oilers, lubricators, injectors, steam whistles and all  
sorts of Brass fittings for machines. Do not buy elsewhere  
before going to

## Chas. A. PAQUET,

2-4 ST. JOSEPH STREET, - - - QUEBEC.

## CAZENEUVE AS MEPHISTO

OPENING OF THE NATIONAL  
FRENCH THEATRE CO. AT  
JACQUES CARTIER HALL IN  
FAUST - AN ENORMOUS suc-  
CESS.

Paul Cazeneuve, the star of the  
Theatre National Francaise, who opened  
last night in the Jacques Cartier  
Hall, is one of the best known ro-  
mantic actors on the American stage,  
and three years ago visited Quebec  
in The Tree Musketeers, winning golden  
opinions by his portrayal of D'Ar-  
togman. During the past year, how-  
ever, he has gone in for the produc-  
tion of classic dramas in French, and  
for this purpose he organized the stock  
company at the Theatre Nationale  
Francaise in Montreal, which has played  
a continuous engagement there for  
51 weeks. His success has been enor-  
mous, and well deserved, and his com-  
pany have supplied for the sister city  
what may best be described in the  
hackneyed phrase "a long diet want."  
In transferring this company to  
Quebec for a short season Mr. Caze-  
neuve has been well advised, and if  
the enthusiasm of last night is any  
criticism a brilliant success awaits him.  
The hall was crowded to its utmost  
capacity, there being 2030 paid admis-  
sions, while many persons were turn-  
ed away. The auditorium has been  
thoroughly cleaned and a handsome  
new drop curtain provided—moreover,  
as a protection against the heat, six  
electric fans have been installed, and  
these hummed merrily during the in-  
tervals between acts. The play was  
"Faust," Morrison's version, in its en-  
tirety, with special scenery, electric  
and calcium effects, and indeed every  
accessory which the exigencies of this  
dramatic spectacle demand. Mr. Caze-  
neuve appeared as Mephisto, and made  
a tremendous hit. He is well nigh  
perfect in the roll, and even possesses  
the blood-curdling "Morrisonesque"  
laugh which has become so famous.  
His portrayal of the King of Evil was  
full of dignity, and he avoided the  
siff of burlesque, into which many  
spirits to this role so ignominiously  
fall. Mr. Cazeneuve's support was  
really of a high order. Mr. Hamel  
was fully satisfactory as Faust, and  
in the love scene was exceptionally  
strong. A feature of the performance  
was the work of Mr. Filion as Wagne-  
le dressed the part to perfection, and  
his rich round voice lent itself most  
admirably to the portrayal of the role.  
He is a decidedly clever character ac-  
tor. He was ably assisted by J. Go-  
leau as Froidin. The small part of  
Valentine fell to Mr. Palmieri, and his  
work was most satisfactorily per-  
formed. Miss Eugenie Verbeul, an  
attractive and petite young lady, put  
plenty of verve into the part of Sat-  
urnine, while the part of Dami-  
Martha, one of the finest comedy char-  
acter roles in modern dramatic liter-  
ature, was played in a most notable  
manner by Mme. Nosiere. Miss Blanche  
de la Sablonniere was a most attrac-  
tive Marguerite. She is a young lady  
of splendid stage presence, a good  
voice, and a graceful manner. She  
seals her lines with rare expression  
and was wonderfully strong in the  
emotional prison scene. She is fully  
worthy of her position as leading lady  
with Mr. Cazeneuve. The play was  
put on in a masterly manner, and  
by all odds the finest seen in Jac-  
ques Cartier Hall for some years. The  
orchestra, under Prof. Roy, is the re-  
gular orchestra of Mr. Cazeneuve's  
Montreal house, and the musical se-  
lections between acts were much ap-  
preciated. Faust will be given twice  
to-day, matinee and night.

### THE BY-LAW UNJUST

Montreal, July 7.—The efforts of the  
part of the police in this city to put  
a stop to Sunday selling in small  
stores of such articles as tobaccos,  
light drinks and candy have met with  
a sudden check by the judgment ren-  
dered to-day in the Recorder's Court,  
when twenty small traders who had  
been arrested on a charge of violating  
the civic by-law in that connection  
were dismissed, the Recorder taking  
he ground that the by-law was un-  
just and oppressive and had no right  
to be made.

### SALMON AT LAKE ST. JOHN.

An Interesting Piscicultural Experi-  
ment.  
A correspondent writing to Forest  
and Stream says: "I have just return-  
ed home to Quebec from a visit to the  
Grand Discharge, where I had set my-  
self the task of making a thorough in-  
vestigation of the many stories of the  
occasional existence of salmon in the  
ananche waters of Lake St. John. Ad-  
d of the result to date of the experi-  
mental planting of Salmo salar in  
one of the feeders of the lake.  
For three years past a portion of the  
product of the salmon strapping at Ta-  
lousac hatchery has been planted in  
the Salmon and Metabetchouan Rivers  
and 250,000 more of the fry have just  
been received from Talousac at the  
lobster hatchery, where they will be  
kept until the approach of winter,  
when they, too, will be planted in or-  
der to make room for the annual sup-  
ply of ananche spawn. At the same  
time, there will be planted from the  
same hatchery, nearly 600,000 young  
ananche, hatched nearly two months  
ago. It was mentioned some time ago  
in this column that a few smelts were  
found in Lake St. John last year, the  
product of the fry planted two or  
three years before. It is pretty well  
authenticated that net fishermen in  
Lake St. John took several smelt this  
year, weighing nearly half a pound  
each. The most careful inquiries made  
in the spot leave no doubt in my mind  
of the subject. As the annual run of  
American anglers to Lake St. John  
has now commenced, it may be well  
to repeat what was said in this col-  
umn a few weeks ago, that a close  
watch should be kept for the young  
salmon this year, and that it would  
be well to the interest of the experi-  
ment, if anglers, competent to identify  
almost smelt from the young of the  
ananche, and fortunate enough to  
catch any of the former this summer,  
at once report the circumstances, fully,  
through the columns of Forest and  
Stream. It should be clearly un-  
derstood, that no good sportsman cap-  
turing salmon smelt will fail to re-  
turn them to the water.  
Whether these fish will descend to the  
sea after the manner of their kind,  
remains, of course, to be seen. Like  
the salmon which formerly inhabited  
the waters flowing into Lake Ontario,  
they may simply retire into the depths  
of the lake itself. Should they run  
down to salt water from Lake St. John,  
I am perfectly convinced that they  
can readily ascend if they choose  
to do so, for I have now satisfactory  
evidence that the salmon of the sea  
as already been captured, in a few  
instances, in the upper waters of the  
Grand Discharge. One of the most re-  
liable guides of Lake St. John, Mont-  
calm ten years ago was with a Mont-  
calm angler when he caught a sup-  
posed salmon in Griffiths pool, only  
two miles below Lake St. John, has  
been interviewed by me, and is positive  
that the fish in question, which weigh-  
ed nine pounds, was from the sea. By  
a strange coincidence, I had only ar-  
rived home a few hours from Lake St.  
John when I was called on by Dr.  
Frapp, of Auburn, N.Y., who with Mr.  
Isborne and others was on his way to  
the Saguenay Club waters opposite the  
lower end of the island of Alma in  
the Grand Discharge. The doctor as-  
sures me that Mr. Chamberlain, a well  
known member of the club, caught a  
trout salmon some years ago in the  
club waters, which weighed eleven  
pounds, and that he himself had hook-  
ed another, which upon leaving the  
hook, had immediately started off  
upon a run, taking off all the line at  
a single spurt, and leaving only the  
empty reel and reel in the hands of  
the doctor. No ananche, as all  
who have angled for them know, ever  
make a run of this kind.

## Fell Exhausted and Unconscious

A FRIGHTFUL CASE OF EXHAUSTED  
NERVES AND DEBILITATED  
SYSTEM - FROM A MERE SKE-  
LETON, PALE, WEAK, TREMB-  
LING AND ALMOST WILD WITH  
PAIN, MRS EDWARDS WAS  
MADE STRONG AND WELL BY  
DR. CHASE'S NERVE FOOD.  
Mrs. R. W. Williams, 33 McMuray  
St., Brantford, Ont., describes her  
case as follows:  
"For five years I have suffered more  
than words can tell from nervous head-  
ache, nervous dyspepsia and exhaus-  
tion. The pains in my head would at  
times almost drive me crazy. I could  
not sleep nights, but would walk the  
floor in agony until I fell exhausted  
and unconscious, and my husband  
would have to carry me back to bed.  
Sometimes I could take no food for  
four days at a time, and experienced  
terrible gnawing sensations in the sto-  
mach, had bad taste in the mouth and  
coated tongue. I was pale, nervous,  
irritable, easily exhausted, was re-  
duced to a mere skeleton of skin and  
bone, and my heart would palpitate  
as though it was about to stop beat-  
ing. My greatest suffering was caused  
by the dreadful pains in my head, neck  
and back, and all this was in spite of  
the best efforts of three leading doc-  
tors of this city.  
"For the past nine months I have  
used Dr. Chase's Nerve Food, and for  
a considerable time I have not ex-  
perienced a headache, or any of the  
symptoms mentioned above. From a  
mere skeleton that medicine has built  
me up in flesh and weight until now  
I am strong and well, do my own  
housework, walk out for two hours  
without feeling tired, and am thor-  
oughly restored to health. Is it any  
wonder that words fail to express my  
gratitude for this remarkable cure?  
You can use this testimonial for the  
benefit of other sufferers."  
It would be impossible, we believe,  
to produce stronger evidence to prove  
the wonderful powers of Dr. Chase's  
Nerve Food as a system builder. It  
contains the very essence of the most  
potent restoratives of nature, and is  
certain to be of benefit to you. 50  
cents a box, six boxes for \$2.50, at  
all dealers, or Edmondson, Bates &  
Co., Toronto.  
Adam was the one and only man  
created free and equal.

## Wretched Hot Weather Sufferers.

# Paine's Celery Compound

SHOULD BE USED IN JULY  
AND AUGUST.

The extraordinary variable spring  
and early summer weather of the  
present year has been the cause of a vast  
amount of sickness in every part of  
the country. Strong men and women  
have been victims; the weak, rundown  
and sickly have suffered intensely, and  
many families now mourn the loss of  
near and dear ones.  
The nervous, weak, rundown and de-  
bilitated should now devote their best  
energies and attention to health build-  
ing, so as to enable them to withstand  
the enervating effects of the approach-  
ing hot weather.  
The use of Paine's Celery Compound  
will soon bring a return of true phys-  
ical strength; the nerves will be fed  
and braced; the blood will be made  
purer and richer; digestion will be cor-  
rected, and sweet, refreshing sleep will  
take the place of insomnia and irritability.  
Paine's Celery Compound is doing a  
marvellous work for the sick and suf-  
fering at this time. It is the only  
preparation that possesses value and  
virtue for recruiting the strength and  
restoring the energies of weakly and sick  
people in summer time. The trial of one  
bottle will give you happy results.

### AN IRREGULAR SKIN GAME

PLIGHT OF A YOUNG MAN WHOM  
GYPSY WOMEN STRIPPED -  
VAIN HUNT AFTER THE LA-  
DIAS.  
Ottawa, July 6.—High Constable Ham-  
ilton has returned to the city after  
assuring himself that the gypsy band  
who have been so boisterous for the  
past few days were outside the bounds  
of Carleton county.  
At three o'clock on Friday afternoon  
the High Constable with constables  
Morgan, Laeche, Hogan and McLaugh-  
lin left for Hog's Back where they  
heard the gypsies had gone from Bill-  
ings Bridge. They had six warrants  
for women. Alexander Salisbury, of  
204 Nepean street, accompanied the  
constables to identify the women.  
The night before Salisbury was as-  
saulted by the six women in question  
and robbed. After searching his pockets  
they stripped him of his clothes and  
sent him home naked. It was on his  
information that the warrants were  
taken out and they contained no  
names. He assured the constables  
that he could identify the women.  
On reaching Hog's Back the con-  
stables learned that the gypsies had  
gone ahead. A baker had met them  
going in the direction of Manotick.  
There were five double rigs and eight  
single ones containing about 30 grown  
up people and 40 children.  
Later on a toll gate keeper told the  
officials that the gypsies had expressed  
their intentions of going on to  
Kemptville thence to Brockville and  
Toronto.  
At this point Chief Hamilton dis-  
missed his assistants and went on to  
Manotick. He arranged to summon  
them for assistance if he located the  
camp. As far as could be learned the  
luring law breakers made no stay on  
their march yesterday and are now  
far from the city.  
No effort will be made by the con-  
sultable to execute the six warrants.  
"We have got rid of them," said High  
Constable Hamilton, "and that is  
what we wanted."  
Salisbury, who is the victim, is not  
unwilling to prosecute.

### A Capital Cure for Sore Throat.

Is to use as a gargle a few drops of  
Polson's Nervine in sweetened water,  
and before retiring rub the throat and  
chest vigorously with Nervine. By  
morning the soreness and inflamma-  
tion will have disappeared entirely.  
Nervine drives away the pain and  
cures sore throat and hoarseness quick-  
ly, simply because that's what it's  
made for. Buy a 25c. bottle from  
your druggist to-day.  
DR. HAMILTON'S PILLS STIMULATE THE LIVER

### NATIONAL COUNCIL OF WOMEN

St. John, N.B., July 7.—This after-  
noon's session of the National Council  
of Women was devoted to a conference  
of two affiliated societies, the King's  
Daughters and the Woman's Art Asso-  
ciation. Mrs. C. E. MacMichael pre-  
sided at the former. Mrs. Coad read  
a report of the work of the King's  
Daughters in Ontario, showing the  
order to be in a satisfactory condition.  
The Dominion Secretary, Miss Brown  
submitted a report which embodied the  
work done by the order in the past  
year all over Canada, and showed it  
to be in a satisfactory condition. Mr.  
Corrington, of Toronto, Miss Barte  
and Miss Hanington, of St. John,  
were among the speakers.  
Lady Tilly presided at the meeting  
of the Women's Art Association, and  
an interesting session was held.  
Papers and addresses on the develop-  
ment of art in Canada were among  
the special features. In the evening a  
large audience assembled to hear a  
discussion on Domestic science and  
annual training in the schools. The  
speakers were Prof. Kidner of Truro,  
Mrs. Hoodless, Ontario, and Dr. Inch,  
Superintendent of Education for New  
Brunswick, and others.  
Nova Scotia was specially congratulated  
upon the growth of this branch  
of work and the interest taken in its  
development.  
Mrs. J. V. Ellis entertained the  
adies at a reception this evening.

### TORONTO PLUMBERS' STRIKE

Toronto, July 7.—The striking  
plumbers, after being out for three  
weeks, will return to work to-morrow,  
a compromise having been arranged.  
The men broke a three years agree-  
ment with the wage scale, 27 1/2 to 32  
cents per hour, was not enough in  
view of the advance of living. The  
employers denounced this conduct as  
a gross breach of faith but were not  
able to obtain men elsewhere, and  
rather than tie up the building trade  
of the city for the year agreed to  
pay a minimum wage of 30 cents  
now and 32 1/2 cents after January 1st  
next. It is understood that mecha-  
nics of special ability will get more  
than this minimum. A day is  
eight hours, but when working in the  
country the men will work for ten  
hours a day.

### Young and Old Love It.

A Prominent Newspaper Proprietor  
Speaks About  
**Malt  
Breakfast  
Food.**  
He Finds It The Most Satisfactory  
Cereal Food Ever Used  
In His House.  
Mr. R. A. Fraser, the popular pro-  
prietor of The Delta News, of Ladner,  
B.C., says:  
"We have used Malt Breakfast Food  
in our house for some time and have  
found it to be the most satisfactory  
cereal food that we have used, and  
there is very little danger of any  
other finding its way in while we can  
get Malt Breakfast Food. It furnishes  
a delicious dish, and its strength-  
ening qualities are beneficial to the  
worker." I can recommend it with  
pleasure. See your Grocer.

## Wretched Hot Weather Sufferers.

# Paine's Celery Compound

SHOULD BE USED IN JULY  
AND AUGUST.

The extraordinary variable spring  
and early summer weather of the  
present year has been the cause of a vast  
amount of sickness in every part of  
the country. Strong men and women  
have been victims; the weak, rundown  
and sickly have suffered intensely, and  
many families now mourn the loss of  
near and dear ones.  
The nervous, weak, rundown and de-  
bilitated should now devote their best  
energies and attention to health build-  
ing, so as to enable them to withstand  
the enervating effects of the approach-  
ing hot weather.  
The use of Paine's Celery Compound  
will soon bring a return of true phys-  
ical strength; the nerves will be fed  
and braced; the blood will be made  
purer and richer; digestion will be cor-  
rected, and sweet, refreshing sleep will  
take the place of insomnia and irritability.  
Paine's Celery Compound is doing a  
marvellous work for the sick and suf-  
fering at this time. It is the only  
preparation that possesses value and  
virtue for recruiting the strength and  
restoring the energies of weakly and sick  
people in summer time. The trial of one  
bottle will give you happy results.

### THE BY-LAW UNJUST

Montreal, July 7.—The efforts of the  
part of the police in this city to put  
a stop to Sunday selling in small  
stores of such articles as tobaccos,  
light drinks and candy have met with  
a sudden check by the judgment ren-  
dered to-day in the Recorder's Court,  
when twenty small traders who had  
been arrested on a charge of violating  
the civic by-law in that connection  
were dismissed, the Recorder taking  
he ground that the by-law was un-  
just and oppressive and had no right  
to be made.

### SALMON AT LAKE ST. JOHN.

An Interesting Piscicultural Experi-  
ment.  
A correspondent writing to Forest  
and Stream says: "I have just return-  
ed home to Quebec from a visit to the  
Grand Discharge, where I had set my-  
self the task of making a thorough in-  
vestigation of the many stories of the  
occasional existence of salmon in the  
ananche waters of Lake St. John. Ad-  
d of the result to date of the experi-  
mental planting of Salmo salar in  
one of the feeders of the lake.  
For three years past a portion of the  
product of the salmon strapping at Ta-  
lousac hatchery has been planted in  
the Salmon and Metabetchouan Rivers  
and 250,000 more of the fry have just  
been received from Talousac at the  
lobster hatchery, where they will be  
kept until the approach of winter,  
when they, too, will be planted in or-  
der to make room for the annual sup-  
ply of ananche spawn. At the same  
time, there will be planted from the  
same hatchery, nearly 600,000 young  
ananche, hatched nearly two months  
ago. It was mentioned some time ago  
in this column that a few smelts were  
found in Lake St. John last year, the  
product of the fry planted two or  
three years before. It is pretty well  
authenticated that net fishermen in  
Lake St. John took several smelt this  
year, weighing nearly half a pound  
each. The most careful inquiries made  
in the spot leave no doubt in my mind  
of the subject. As the annual run of  
American anglers to Lake St. John  
has now commenced, it may be well  
to repeat what was said in this col-  
umn a few weeks ago, that a close  
watch should be kept for the young  
salmon this year, and that it would  
be well to the interest of the experi-  
ment, if anglers, competent to identify  
almost smelt from the young of the  
ananche, and fortunate enough to  
catch any of the former this summer,  
at once report the circumstances, fully,  
through the columns of Forest and  
Stream. It should be clearly un-  
derstood, that no good sportsman cap-  
turing salmon smelt will fail to re-  
turn them to the water.  
Whether these fish will descend to the  
sea after the manner of their kind,  
remains, of course, to be seen. Like  
the salmon which formerly inhabited  
the waters flowing into Lake Ontario,  
they may simply retire into the depths  
of the lake itself. Should they run  
down to salt water from Lake St. John,  
I am perfectly convinced that they  
can readily ascend if they choose  
to do so, for I have now satisfactory  
evidence that the salmon of the sea  
as already been captured, in a few  
instances, in the upper waters of the  
Grand Discharge. One of the most re-  
liable guides of Lake St. John, Mont-  
calm ten years ago was with a Mont-  
calm angler when he caught a sup-  
posed salmon in Griffiths pool, only  
two miles below Lake St. John, has  
been interviewed by me, and is positive  
that the fish in question, which weigh-  
ed nine pounds, was from the sea. By  
a strange coincidence, I had only ar-  
rived home a few hours from Lake St.  
John when I was called on by Dr.  
Frapp, of Auburn, N.Y., who with Mr.  
Isborne and others was on his way to  
the Saguenay Club waters opposite the  
lower end of the island of Alma in  
the Grand Discharge. The doctor as-  
sures me that Mr. Chamberlain, a well  
known member of the club, caught a  
trout salmon some years ago in the  
club waters, which weighed eleven  
pounds, and that he himself had hook-  
ed another, which upon leaving the  
hook, had immediately started off  
upon a run, taking off all the line at  
a single spurt, and leaving only the  
empty reel and reel in the hands of  
the doctor. No ananche, as all  
who have angled for them know, ever  
make a run of this kind.

### NATIONAL COUNCIL OF WOMEN

St. John, N.B., July 7.—This after-  
noon's session of the National Council  
of Women was devoted to a conference  
of two affiliated societies, the King's  
Daughters and the Woman's Art Asso-  
ciation. Mrs. C. E. MacMichael pre-  
sided at the former. Mrs. Coad read  
a report of the work of the King's  
Daughters in Ontario, showing the  
order to be in a satisfactory condition.  
The Dominion Secretary, Miss Brown  
submitted a report which embodied the  
work done by the order in the past  
year all over Canada, and showed it  
to be in a satisfactory condition. Mr.  
Corrington, of Toronto, Miss Barte  
and Miss Hanington, of St. John,  
were among the speakers.  
Lady Tilly presided at the meeting  
of the Women's Art Association, and  
an interesting session was held.  
Papers and addresses on the develop-  
ment of art in Canada were among  
the special features. In the evening a  
large audience assembled to hear a  
discussion on Domestic science and  
annual training in the schools. The  
speakers were Prof. Kidner of Truro,  
Mrs. Hoodless, Ontario, and Dr. Inch,  
Superintendent of Education for New  
Brunswick, and others.  
Nova Scotia was specially congratulated  
upon the growth of this branch  
of work and the interest taken in its  
development.  
Mrs. J. V. Ellis entertained the  
adies at a reception this evening.

### TORONTO PLUMBERS' STRIKE

Toronto, July 7.—The striking  
plumbers, after being out for three  
weeks, will return to work to-morrow,  
a compromise having been arranged.  
The men broke a three years agree-  
ment with the wage scale, 27 1/2 to 32  
cents per hour, was not enough in  
view of the advance of living. The  
employers denounced this conduct as  
a gross breach of faith but were not  
able to obtain men elsewhere, and  
rather than tie up the building trade  
of the city for the year agreed to  
pay a minimum wage of 30 cents  
now and 32 1/2 cents after January 1st  
next. It is understood that mecha-  
nics of special ability will get more  
than this minimum. A day is  
eight hours, but when working in the  
country the men will work for ten  
hours a day.

### Young and Old Love It.

A Prominent Newspaper Proprietor  
Speaks About  
**Malt  
Breakfast  
Food.**  
He Finds It The Most Satisfactory  
Cereal Food Ever Used  
In His House.  
Mr. R. A. Fraser, the popular pro-  
prietor of The Delta News, of Ladner,  
B.C., says:  
"We have used Malt Breakfast Food  
in our house for some time and have  
found it to be the most satisfactory  
cereal food that we have used, and  
there is very little danger of any  
other finding its way in while we can  
get Malt Breakfast Food. It furnishes  
a delicious dish, and its strength-  
ening qualities are beneficial to the  
worker." I can recommend it with  
pleasure. See your Grocer.

VICTORIA CROSS  
UNION MADE CIGAR.  
Recently introduced but already popular. Price 5 Cents.

## Notice to Contractors.

### Paradis & Letourneau

Stadacona Village, Near Quebec.  
In thanking the public for their liberal encourage-  
ment in the past, Messrs. Paradis & Letourneau de-  
sire to say that they have just installed their new plant  
and that they are prepared to fulfil all orders in the  
shortest possible time.  
**THE REAL PRESSED BRICK**  
manufactured solely by this firm in the district of Que-  
bec. Call there before placing orders elsewhere.

COMMERCIAL.

NEW YORK STOCK MARKET. New York, July 7. - A number of things were given thoughtful consideration because of their bearing upon the values of securities to-day.

But very little of this thoughtful consideration appeared in any positive action in the way of buying and selling.

The developments in regard to the crop were considered favorable. The sun and warmer weather were regarded as good for harvesting in the South-West and the renewed rains yesterday were ignored.

The weekly statistics of railroad traffic were also promising for a continuance of large earnings.

The movement of miscellaneous freight westward is reported as maintained on an unprecedented scale and rates are firmly held.

The so-called local traffic, too, which is so important a factor in the aggregate in the prosperity of railroads, is reported as unusually large and varied.

The crop news made the grain-carrying railroads prominent. Rock Island made a sensational jump of 5/8 points.

There were more substantial and better maintained advances in some of the other grain carriers, notably Missouri Pacific.

The disclosure by recent railroad reports that the soft coal carrying railroads are profiting materially by the increased demand for soft coal since the mining of anthracite has been suspended created another centre of strength, in which Pennsylvania and Hoeking Valley were the leaders.

But the advances were largely restricted to the leaders in both groups and gave place to reaction. The closing was heavy and showed that all of the animation had gone out of the market.

Children Cry for CASTORIA.

Quotations and transactions reported for the Chronicle by NEVILLE BELLEAU & CO., 93 St. Peter Street, Quebec. Tel. 1324.

STOCKS.

Table with columns: Canadian Pacific, Canadian National, Montreal Street Railway, etc. Asked, Offered.

Genuine Castoria always bears the Signature of Chas. H. Fletcher.

When baby was sick, we gave her Castoria. When she was a child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had children, she gave them Castoria.

**PROPERTY SALE.**

The extensive property owned by Messrs. King Bros., at St. Jean des Chailions, including the sawmill, has been sold. Messrs. T. M. McCrae and E. W. Jolin being the purchasers for a company interested in pulp mills and mining. The amount paid for the property is said to be \$250,000.

**LEVIS COLLEGE.**

Rev. T. Lachance has been appointed Superior of Levis College in the place of Rev. C. E. Carrier, whose term of office has expired. Rev. C. E. Carrier has been named director of Ecclesiastical, Rev. Celestin Lemieux prefect of studies, and Rev. Gaudouise Lemieux director of pupils.

**AMBULANCE CALL.**

Yesterday afternoon the city ambulance was called to remove a man named Mr. Burton from the Hotel Dieu to the Jeffery Hale Hospital. Mr. B. Burton, who came from the Eastern Townships the day previous to be treated for internal injuries, was taken to the former Hospital by mistake.

**R. & O. NAV. CO.**

The Saturday excursions at one first class fare for the round trip to Bay St. Paul, Eboulements, Murray Bay, Rivier du Loup and Tadoussac, will begin Saturday, July 12th. Tickets will be issued good to go Saturday or Sunday returning not later than the following Monday. The steamers arrive in Quebec early in the morning.

**A NOBBY UNIFORM.**

The messenger connected with the Quebec branch of the Montreal Bank has been furnished with a nobby uniform, which makes him a conspicuous figure on the streets, and no doubt helps to facilitate his business with merchants, and cause them to be alert with him when he enters to make collections. The innovation is a good one, and no doubt will be followed by the different other banks in the city.

**TWO MEN INJURED ON CITADEL.**

Yesterday a scapolding on which two men were at work on the Citadel, suddenly gave way, and caused the men to fall a distance of twenty feet. They both received severe cuts about the face and head, as well as a severe shock to their systems. After being treated at the Citadel hospital, one of the men went back to work, but the other not feeling equal to the occasion was sent home.

**WAS IT CAT OR RAT?**

Corinne Howard, a little girl three years of age, who appears on a local stage as Baby Corinne, awoke screaming early Monday morning with her ear and one of her fingers bleeding badly. It is claimed that a rat attacked her, but the two ladies who were sleeping in the same room did not see the animal, and there is some doubt as to whether a strange kitten was not responsible. The child is in Dr. Verge's care.

**Hearts That are Diseased**

will never be cured by the false stimulation of liquor. First increase your vitality, build up the system, strengthen and purify the blood—then the heart will respond and grow strong.

Ferrozone is precisely what to take, it gives you an appetite and a digestion that will look after everything that is eaten. Ferrozone improves nutrition, makes rich, vitalizing blood, and is positively the most powerful restorative and strengthener known to science; it improves the nerve tone, regulates the heart's action, makes the feeble strong and the sick well. Ferrozone will do you untold good and costs only 50c., at druggists, or Polson & Co., Kingston, Ont.

**DR. HAMILTON'S PILLS STIMULATE THE LIVER.**

**TO-MORROW'S PICNIC.**

The 18th annual picnic of the Quebec Bakers takes place to-morrow at St. Catharine's Grove and judging from the interest taken in this event a large number of citizens will attend. The bakers have this year gone to considerable trouble in their efforts to make the picnic an unequalled success, as the prize list is one of the best ever offered to competitors. Besides the different sporting events, dancing will be kept up for the afternoon to the strains of one of Quebec's best orchestras. Trains will leave the Quebec & Lake St. John Railway station at 5.15, 6.30 a.m., and 1.15 p.m. Meals, hot or cold, will be sold on the grounds.

**Mainly About Persons.**

Mr. W. O. H. Dodds of Montreal, is a guest at the Chateau.

Mrs. D. Larose, wife of the manager of Sohner Park, Montreal, is a guest at the Clarendon.

Mr. Paul Cazenove, accompanied by Mrs. Cazenove and his father, Mr. Gabriel Cazenove, are guests at the Victoria.

Mr. Charles Thibault, the veteran election orator, who has been in Quebec during the past week, returned home yesterday.

Mr. John Lynch, formerly of Quebec and at present confidential manager of Dillon & Co., wholesale and manufacturing druggist, of New York, is in the city on a visit to his friends.

Mr. Max Freeman, a prominent theatrical producer of New York, is a guest at the Chateau. Mr. Freeman is on his first visit to this city and only returned yesterday from a two weeks trip to the Saguenay, which he thoroughly enjoyed. He is quite enthusiastic over his visit to Quebec and the Lower St. Lawrence.

Arrivals at the Clarendon Hotel: J. L. Miller, Pembroke; Geo. Gauvreau and wife, Mde. Larose, A. Palmien, C. P. Metcalf, Montreal; T. A. Chasse, Ottawa; J. A. Dumas, J. F. Dumas, Boston; E. F. Kuhn, New York; G. Rowley, Lake Edward; Jos. D. Archard, Montreal; A. M. Paxson, M. B. Johnson, Lowell; Rev. D. McCall, St. Sylvestre; E. J. Powell, Ottawa; W. D. Hamilton, Montreal.

Lt.-Col. J. S. Dunbar and Mrs. Dunbar returned to town yesterday from Fredericton, N.B., where the gallant colonel has been acting D.O.C. for the last two years. Lt.-Col. Dunbar has been transferred to this city, where he will act as district adjutant. It is needless to say that yesterday Lt.-Col. Dunbar had a busy time receiving the greetings of his numerous friends in this city.

**Use Putnam's Painless Corn and Wart Extractor.** It acts in one night and never causes discomfort. For years "Putnam's" has been the standard Corn cure of Great Britain and America, it is the best—try it.

**FIRE AT CACOUNA.**

Mr. John Laird and Family Had a Narrow Escape.

A fire broke out in the summer residence of Mr. John Laird and family, of this city, at Cacouna, on Sunday morning last, and the inmates had a narrow escape. It appears that the family, who occupied sleeping apartments over the dining room of the house, were awakened at one o'clock by smoke that was making its way from the lower portion of the premises into their rooms. They immediately sprang from their beds and rushed out onto the lawn, when it was discovered that the kitchen was on fire, and the flames were spreading throughout the premises. Fortunately a quantity of water in barrels was at hand, and by the aid of neighbors who formed a bucket brigade, the fire was subdued before it could make much headway, the kitchen, however, being badly damaged.

**ANOTHER AUTHOR BLOWN UP.**

George Douglas, author of the now celebrated "House with the Green Shutters" (McClure, Phillips & Co.) not only wags his tongue, but has his desk piled high each day with letters of every description from people of every class from all portions of the English-speaking world. Speaking of his early days in Scotland, Mr. Douglas says:—"In my green, unknowing youth I had already injured my eyesight for good by examining too closely, with a lighted match, the properties of gunpowder. It went off, and I went up, both of us rather suddenly. How long a pionette (like a berry) stuck with pins at the end of a pipe stem when a boy blows through the bowl I can scarce remember. It seemed to me that I was projected a considerable distance into the empyrean. What I do remember with most painful and distinct recollection is, that I came down with a tremendous bump on one end of my body and very little skin on the other. The powder had been stolen (convey the wise it call), and good folks said it was a judgment. I shall wear goggles forever in memory of that scorching hour."

**EXCITING SCENE ON FABRIQUE STREET.**

Horse on Trial by Fire Brigade the Cause.

An exciting scene occurred on Fabrique street yesterday afternoon at 2 o'clock, that was caused by a horse that was being tried by the Fire Brigade with a view to purchase. The animal, which gave evidence of being a splendid specimen, was harnessed to a hose reel, when two of the members of the brigade, firemen Gagnon and Rochette, of No. 1 station, mounted on the seat, and started out of the central station, or a trial. The horse soon gave evidence of being high-spirited and a jumper, for the moment he left the station he did so with a bound and instead of proceeding down the main roadway leading to Fabrique street, he disregarded his driver's guidance and sprang over the embankment across the sidewalk, and went down the street at breakneck speed, swerving from one side to the other until reaching opposite Mr. J. E. Livernois' photograph show window, when the horse cart struck the curb and toppled over, at the same time throwing the unmanageable animal, that endeavored to rise, when it went bang up against the gate and private entrance to Mr. Montminy's photograph studio. The shaft of the horse cart fortunately struck the iron pillar between the gate and the door, which saved the animal from having its skull fractured. In the meantime firemen Rochette and Gagnon were thrown to the ground and were severely hurt, while the horse cart had its shafts broken. The horse was returned to the stables, where its owner awaited the result of the trial with Chief Dorval, who decided to "have no further such experience."

**THE LATE MR. WOODS.**

Much regret will be felt in this city over the death of Mr. W. C. Woods, formerly of Quebec. He was a son of the late Alexander Woods, Esq., who was for many years chairman of the civic Finance Committee, a member of the Quebec Harbor Commission, and president of that body during the McKenzie regime.

**POLICE COURT.**

James Bon and James Macdonald, two tramps, arrested for illegally begging on the streets, were before the Police Court yesterday, and condemned to go to gaol for three months each.

A resident of St. Anne de Beaupre, charged with disturbing the peace, gave bail for future behavior, when he was given his liberty, after paying the costs incurred by his arrest.

**QUEBEC'S POPULAR STORE.**

The well known firm of S. J. Shaw & Co. is doing a rushing business just now in the sporting line, and their goods include the finest fishing tackle, golf requisites, etc., to be found in this city. The firm are always "up-to-date" and receive their goods daily from the most prominent manufacturers in England and the United States and their prices defy competition. Their stores on St. John street and at the foot of Mountain Hill contain nothing but the best of goods, and should be visited by all parties requiring sporting goods, cutlery, etc.

**SUCCESSFUL CANDIDATES.**

The following is a complete list of the successful candidates admitted to practice law at the recent examinations: Messrs. A. Gobeil, A. Beaudry, L. E. Beaulieu, F. A. Beique, E. Duff, H. Haines, L. Houde, Jules Langlois, J. E. Leveille, E. C. Emond, A. Gagne, J. J. Meagher, Z. Normandin, H. Springle, E. E. Vipond, C. M. Cotton, Sweets, Jurg, and the following Quebecers: Messrs. M. J. Ahern, C. V. Darveau, J. A. Demers, E. Desrivieres, Alfred C. Doherty, Marc A. Lemieux, A. Malhot, L. E. Payment, C. A. Stein, Louis A. Talbot.

**THE SHOE BUSINESS.**

The Shoe and Leather Journal says regarding Quebec: "In the shoe manufacturing district work has been indifferent for some time, and most all of the factories are taking things easy; the prevalent impression elsewhere, however, that Quebec has reason to fear a permanent loss of trade can hardly be said to have foundation. The best opinion is that the city is getting a good share of trade. Manufacturers are showing a tendency to look abroad for business, and a number are endeavoring to secure export trade. Several firms are shipping to other countries. A prominent New Zealand firm has recently had a representative in the city, and samples have been sent out to that country with good prospects for orders to follow."

**SUMMER BABIES.**

Summer babies should be brought up on health-giving Lactated Food, which is strongly recommended by our best physicians. Lactated Food is the only safe and pure food for the little ones in the hot weather. It is a preventive of cholera infantum, dysentery and diarrhoea. Makes puny and weak babies strong and happy. Ask your druggist for Lactated Food; take no other.

**GOVERNMENT PROMOTIONS.**

Mr. E. Hecker, hardware appraiser in connection with the Examining Warehouse, Customs Department, has been appointed to an important position in the Finance Department at Ottawa.

Mr. E. Beaudet, employed in the Long Room of the Quebec Custom House, has been promoted to fill the vacancy as hardware appraiser, vice Hecker, removed to Ottawa. The promotion of Mr. Beaudet is a well deserved act of justice. He is one of the old reliable and enterprising merchants who helped to build up the commercial prosperity of Quebec, and heretofore was a partner in the firm of Messrs. Clinic and Beaudet, hardware merchants of this city. At the same time he is a gentleman of excellent business attainments, and highly esteemed by the whole community for his integrity of character.

**PERSISTENT AND GLARING ATTEMPTS MADE TO DEFAUD THE PUBLIC.**

Several Vile Imitations of Paine's Celery Compound Now Sold in Some Drug Stores.

Recognizing the virtues, fame and wondrous sales of Paine's Celery Compound, nature's health restorer, unscrupulous and dishonest men are making persistent and glaring attempts to defraud the public by putting up vile imitations. These imitations, by adopting the name Celery Compound, the style of bottle, etc. (marks peculiar to the genuine Paine's Celery Compound), have just brought themselves within the meshes of the law, and this nefarious work will be forcibly brought to the attention of the guilty parties in due time.

For the present it is deemed advisable to warn the public and put them on their guard. The sick and suffering, and friends of such, are notified that the following imitations are deceptions and frauds:

Gibson, Howell & Co., Celery Compound.  
 Robertson & Co.'s Celery Compound.  
 Andrew's Celery Compound.  
 The only genuine Celery Compound is PAINE'S CELERY COMPOUND; it is the kind that "makes sick people well."
