

THE FAIR

Scored Another Success This Year.

THE ATTENDANCE WAS LARGE.

No Rain Fell Except on Wednesday Afternoon.

THE EVENING PROGRAMME.

This New Feature of the Fair Proved a Great Success.

Sherbrooke Exhibition is over and today, everything is being removed from the grounds. Much of the stock will be taken from here to Quebec, where the provincial exhibition will be held next week. The fair this year must be considered an unqualified success. The excellence and extent of the exhibits in all departments were unusually great. The cattle and horse display was better than last year, while the sheep and swine exhibits were fully up to the standard. The poultry display was the largest ever shown here. In the horticultural and other departments the exhibits were, also, very extensive, and of good quality. The attendance was very large on the principal days of the fair, which insured the financial success of the exhibition. The 18,000 people on the grounds on Thursday composed one of the largest crowds ever on the grounds. The races have been good, though perhaps in point of interest were not equal to those of some former years. The specialty performance was found entertaining by the people. The evening illuminations and special performance proved a strong drawing card, and were certainly one of the most interesting features of the fair. Nothing occurred during the week to mar the successful progress of the fair, with the exception of the Wednesday afternoon rain, which was certainly an unpleasant occurrence and must have materially affected the enjoyment of the people. So complete were the arrangements for the fair and so systematically were they carried out that everything seemed to move with the steadiness of clock work from Monday to Saturday. During the week the exhibition was honored by a visit from the Premier of the Province and the Townships' representative in his cabinet. This has become of yearly occurrence, for the Great Eastern Exhibition is recognized as one of the institutions of the province. The street railway service has been excellent and thousands have been saved the tiresome walk from the station to the fair grounds by this innovation in Sherbrooke. The crowds were, on the whole, very orderly and with the excellent police arrangements, no serious violation of the peace occurred. On the whole the directors of the association must be well satisfied with the air just closed.

FRIDAY.

The attendance on the grounds yesterday was large for the last day and the programme of entertainment was as complete as on the previous days. The double balloon ascension at 5 o'clock was one of the finest ever seen here. There was little breeze and both balloons ascended straight above the fair grounds. They floated for some time before the parachute leas were made. One balloon fell on the main building of the exhibition grounds, the lady aeronaut landing just beyond, outside the grounds. The other balloon floated for some distance to the north.

The leading farce comedy of the day is "What happened to Jones," which is to be seen at the Opera House, on Friday evening, Sept. 16. It is seldom that the people of Sherbrooke have the pleasure of witnessing such a recent success. Indeed, just now it is the reigning success of London and is attracting immense audiences at the Strand theatre. The wit is clean and clever. Their is no vulgarity or horse-play. As soon as the curtain rises the laughing begins and it continues uninterrupted for two and one half hours. The company presenting it here is a fine one direct from New York. It is headed by Howell Hansel, whom the Montreal and Toronto critics declare is the best of anyone who has appeared in the role of the irrepressible Jones. A whole lot happens to Jones, but one

A private cable from Vienna announces that Montreal has been decided on as the place for the World's bicycle meet in September next year.

CHAMBERLAIN STILL FOR ALLIANCE.

British Colonial Secretary Reiterates His Well-Known Views as to Anglo-American Relations.

Danvers, Mass., Sept. 9.—Right Hon. and Mrs. Joseph Chamberlain and their daughter of Birmingham, Eng., arrived in this town Thursday afternoon, and will pass the next ten days at the residence of Mrs. Chamberlain's parents, Hon. and Mrs. William C. Endicott, in Ingersoll street. Mr. Chamberlain said he was willing to reiterate his views regarding an Anglo-Saxon alliance: "When I declared in Birmingham in May that even war itself would be cheaply purchased if in a great and noble cause the Stars and Stripes and Union Jack should wave together. I had no mental reservation, and I am happy to say that I voiced the sentiments of 999 out of every 1000 Englishmen. "England is ready," and this was said with emphasis upon each word, "to meet the United States more than halfway. It is for you to determine how close the relations between the two countries shall become. There are no great obstacles to be overcome in bringing the English-speaking people in alliance. When your Senate decides that it is for your interests to join with us in securing certain benefits to both nations, the alliance will quickly be an accomplished fact. "Why shouldn't we be allied? Our interests are common, as is our language. We are both striving for the betterment of mankind. England gloried in your success in the late war, or, should I say, the present war? Our sympathies were yours. Now let us have a little better understanding all around, and we can snap our fingers at hostile intrigues."

CORNWALL DISASTER.

Bodies of Six of the Victims Recovered. Cornwall, Ont., Sept. 9.—So far the bodies of six of the unfortunate men who met their death in the collapse of the O. & N. Y. bridge have been recovered, but the remaining nine are still at the bottom of the St. Lawrence. The remains of Daniel Hughes, of Cleveland, which were recovered yesterday, were taken to Cornwall, and sent to Cornwall for interment. This morning a couple of St. Regis Indians found the bodies of two men who turned out to be Raymond L. Dysart, of Tyrone, Pa., and William Sander, of 1410 Fort avenue, Baltimore, Md. The bodies have been found in Canadian waters, Coroner Hamilton, of Cornwall, was notified and ordered the remains to be taken to Cornwall. He decided not to hold an inquest unless requested to do so, and the bodies, both of which are badly decomposed, will be buried tomorrow in Woodlawn Cemetery. This afternoon the body of another man was found near the foot of Cornwall Island, and like Saunders and Dysart, taken to M. A. McDonald & Co's. Morgue. It was identified as the remains of Robt. Martin, of Montreal, the man whose presence on the bridge at the time of the accident was in doubt.

NEW HAMPSHIRE TRAGEDY.

One Farmer Shoots Another. Plymouth, N. H., Sept. 10.—(Special)—Alfonso Smith of Orford shot and instantly killed Carlos A. Grant of this town at Orford Wednesday. Mrs. Grant, whose maiden name was Emma E. Drown, has for some time been living with Smith as his house-keeper at his home, six miles from Orford village. Wednesday Grant, armed with a revolver appeared at the Smith farm and tried by threats of violence to induce Mrs. Grant to depart with him. Smith interfered and fired, as he alleges, in self defence. He surrendered himself to the authorities, was arraigned Thursday, charged with manslaughter, entered a plea of not guilty, and was held for a further hearing on Friday, Sept. 16.

SMALL MILLS TO BE CLOSED.

A despatch from Montreal says: "The Dominion Cotton Mills Company, which recently made an arrangement respecting the production of grey cotton with two Quebec factories, has also adopted a new policy. It is proposed to close several of its mills at outside points and to increase the capacity of its mills here. The smaller mills are reported as not paying as well as the larger concerns. This, it is expected, will effect a great re-entrenchment in the cost of executive management."

JOSEPH LEITER PAYS ALL HIS DEBTS.

Chicago, Sept. 9.—Joseph Leiter has cleared up his famous wheat deal. Every creditor has been paid, obligations to banks whose assistance was enlisted have been cancelled, and 14,000,000 bushels of wheat have been liquidated since the announcement of the voluntary assignment nearly three months ago. This has been done only by great sacrifice, including the giving of mortgages on property belonging to the Leiter estate aggregating nearly \$5,800,000.

METHODIST CHURCH.

Division of the \$1,000,000 Fund. Toronto, Sept. 9.—The most important matter that came before the Methodist General Conference this afternoon was the presentation of the report of the special committee appointed to arrange the details of the twentieth century million dollar fund scheme. Rev. Dr. Ryckman presented the report, which occasioned a brisk discussion. Rev. Dr. Potts, educational secretary and father of the scheme, is chairman of the committee. The report recommended that 70 per cent. of the entire fund should be divided among the educational institutions and the missionary enterprises of the church; \$450,000 to go to education and \$250,000 to missions. Of the balance it was recommended that 15 per cent. should be given to the superannuation and superannuery fund, 10 per cent. towards the liquidation of the debt of St. James church, Montreal, and 5 per cent. towards the general conference, and union church relief funds. The object of such a large proportion of the money being devoted to educational purposes was met by Dr. Potts, by pointing out the fact that there were seven institutions among which this sum was to be distributed.

The special committee nominated the following as the board of the twentieth century fund: Ministers—Rev. Drs. Potts, Sutherland, Briggs, Griffin, Courtice, Wakefield, Sparling, Rpeckman, T. G. Williams, Burwash, Brecken, Dewart, Withrow, W. R. Young, J. R. Gundy, L. Curtis, G. J. Bond, E. Robson, A. C. Crews, L. Gaetz.

DROWNED AT CHICOUTIMI.

Two Chicago Newspaper Men the Victims. Chicoutimi, Que., Sept. 10.—(Special)—Two young newspaper men were drowned at Grand Carage on Friday. They were Carl Smith and Louis Sarriv, of the Chicago Record. They arrived from Quebec by rail on Wednesday night and crossed Lake St. John by steamer on Thursday, and went to the Island House, where they made arrangements to run the rapids. On Friday they started in a canoe with two French Canadian guides, and had passed the most dangerous part of the descent when their canoe upset. The young men tried to reach shore, but were swept down by the immense rush of water and disappeared almost instantly. The guides clung to the canoe and were rescued by two canoes which followed them carrying a lady and gentleman. The bodies have not yet been recovered.

UNCLE TOM'S CABIN.

George Burtch's company of the above name will give a performance in the Opera House on Monday evening, Sept. 12, at popular prices. They do not carry a brass band, but put their best show on the stage. There is no need to say that the play will draw, for it will. We have all seen poor persecuted Uncle Tom, the feeing Elias, the comical Lawyer Marks, and heard the dinky songs, and can't resist seeing and hearing again. The company is above the average, and give a full and finished performance. The prices are certainly low enough to admit of every man, woman and child attending, being only 10, 20 and 30 cents. Tickets may be had in advance at Fraser's Drug Store.

your space in the newspaper is filled with advertisements that are fresh and up-to-date. That will involve changing the ads frequently—every issue, perhaps. In the case of the City Record, it may also necessitate engaging the services of such an one as Will J. CITY OF SHERBROOKE.

The City of Sherbrooke is situated at the junction of the Magog and St. Francis rivers. It is 100 miles east of Montreal, 140 miles southwest of Quebec, and the third largest city in the Province of Quebec. It has a population of 11,000. It is the recognized "hub" of the Eastern Townships, a large and prosperous portion of Canada. The Canadian Pacific and Grand Trunk Railways pass through the city, while the Boston & Maine and Quebec Central make this one terminus of their roads.

Exceptionally good water power is in use, and can be secured for all kinds of manufacturing. Sherbrooke has all modern conveniences in the way of electric cars, electric lights, gas, etc. Capital from all parts of Canada and the United States is being invested in buildings and enterprises in the city. To anyone looking for a place to start in business, or locate a home, the progressive and growing city of Sherbrooke cannot be surpassed.

To my dear little friend **Johnnie:**

It is quite a while since I had occasion to address you through the RECORD. Your frequent visits along with your mother through the earlier part of this season gave me an excellent opportunity of showing you all the nice and useful things we keep for boys. I have missed you of late, however, by your absence from the city. You were away I understand enjoying the milder air of the country, thus recuperating your health and strength to resume your close studies at school again. By the way, school opens pretty soon. How are your supplies of clothes and boots for school wear? We have a magnificent line of Boys' Suits, Reefers, Overcoats, Underwear, Stockings, Boots, Rubbers, etc., etc. Come down to see me and bring your mother with you.

Your friend in need,

MILES GOES TO SEE ALGER.

Refuses to Talk Further on His Controversy with War Department.

New York, Sept. 8.—General Miles, asked what he thought of the published reports that it is believed in Washington circles that the present public discussion of army affairs will be dropped after his expected interview with President McKinley, he said: "I decline to be led into a discussion of the matter."

General Miles went shopping this morning with his wife and daughter. Before leaving he said: "I shall start for Washington at noon today. I shall immediately enter the treadmill, meaning my official duties. I shall call at the War Department first and then go to the White House to pay my respects to the President."

General Miles, with his wife and daughter, left the Waldorf-Astoria at 11.58 a. m., in a carriage for the Pennsylvania ferry, to take the train for Washington.

The general said he had received no word from Washington relative to his published statement yesterday, and that his report at Washington would be a verbal one. He said that he might later visit Camp Wikoff.

RELIABLE AND PERFECT.

Diamond Dyes the Only Scientifically Prepared Dyestuffs for Home Use.

Expert color scientists have often asserted that the Diamond Dyes are the only perfectly pure home colors produced in the world. The popular Diamond Dyes have, long ago, banished from the homes of our country all madder fustic, logwood, cochineal and all other antiquated dyestuffs. Home dyeing as at present done with the Diamond Dyes, simple though the process is, would quite astonish our grandmothers.

Dyes with the grand qualities and extended reputation of the Diamond Dyes soon commend themselves to all thoughtful and intelligent women. They are the brightest, strongest and fastest and the easiest dyes to use.

The Diamond Dyes like all other perfect preparations are very largely imitated in style of package. These imitations are in every case worthless and adulterated mixtures, ruinous to goods and positively dangerous to handle.

For your autumn dyeing work use the Diamond Dyes; refuse all other makes that your dealer may ask you to try.

WANTS SWIFT BATTLESHIPS.

Russia Thinks They Will Be the War Vessels of the Future.

New York, Sept. 8.—Irving M. Scott, vice president and general manager of the Union Iron Works at San Francisco, where the crack battleship, Oregon, was built, arrived yesterday from Bremen on the North German Lloyd steamship Kaiser Wilhelm der Grosse. He spent most of his time abroad in Russia, and induced the czar to give the Union Iron Works a chance to build some battleships for the Russian navy.

Mr. Scott says the wonderful cruising and fighting ability of the Oregon is the talk of naval experts abroad.

The prestige of American shipbuilders has gone beyond even that of English shipbuilders. The swift battleship, in the opinion of Russian naval authorities is the war vessel of the future.

The fate of the Spanish torpedo boat destroyers at Santiago has created the impression in Russia that the torpedo boat is not as useful as it was supposed to be. The Russians are inclined to put their faith chiefly in swift, heavily armored craft.

Mr. Scott says Russia has developed wonderfully in recent years. There is a great demand for merchant vessels of all sorts, and Mr. Scott thinks the shipbuilders of the Pacific coast will have a chance to build for the Russians.

SMITH'S NORTH AMERICAN INDIAN RHEUMATIC AND KIDNEY CURE

The only thing that has ever been known to effect a perfect cure. It is a new thing to the white man but an ancient thing to the North American Indian. This medicine contains no drugs and is made of purely roots, herbs, berries, seeds and flowers gathered by the dusky sons of the forest. Six bottles of this medicine are guaranteed to cure any case of rheumatism, no matter how long standing, or the money will be refunded. Sold by all druggists. This remedy is the best blood purifier yet known, as it cleanses the kidneys to a healthy action at once, causing them to show the poisonous matter off and therefore must also be recognized as a kidney cure.

TESTIMONIALS.

WHAT A VERMONT GENTLEMAN SAYS: Mr. GEO. W. RUSSELL. DEAR SIR—After suffering for more than six years with Stiff Rheumatism, I could not see, and had to go with crutches some of the time. I began taking the North American Indian Rheumatic Cure, and after taking two bottles was entirely free from pain, and could sleep as well as ever. Would advise anyone suffering from the same to try the same medicine. Yours truly, GUY J. SHEPARD, Irasburg, Vt.

WHAT A WATERLOO GENTLEMAN SAYS: I have had the Rheumatism for 12 years, the doctors told me that I was chucked full of rheumatism and that they could not cure me. About three weeks ago Mr. Hill gave me a bottle of the Great North American Indian Rheumatic and Kidney Cure, and as soon as I commenced taking it I told him that it was the right thing. I could feel the pain leave my arms and legs, and my blood circulated as freely as ever and I never have felt any pain in my arms or legs since. Waterloo, March 21, 1898. NATHAN SMITH.

WHAT A FARMER SAYS: I was afflicted with lame back and rheumatic for years. I saw my neighbors being cured by the Great North American Indian Rheumatic and Kidney Cure. I tried it and I am happy to tell you that my rheumatism vanished like a dew before the sun, and today I am a well man. I commenced this remedy to all who suffer with rheumatism and kidney trouble. P. S. PER LAFFERT Barnston, Que., March 25th, 1898.

ONE BOTTLE CURE. I had the rheumatism for 15 years and, at times very bad and pain in my back and limbs was almost unbearable. I thought that I had Bright's disease. About one year ago I got a bottle of the Great North American Indian Rheumatic and Kidney Cure. I tried it and I am happy to tell you that my rheumatism vanished like a dew before the sun, and today I am a well man. I commenced this remedy to all who suffer with rheumatism and kidney trouble.
