## GENERAL HUERTA LIKELY TO RESIGN PROVISIONAL POST

WILL UNITED STATES RECOGNIZE HIS SUCCESSOR—LONDON DESPACHES.

Washington, Oct. 17.—John Lind, President Wilson's personal representative in Mexico, has reported from Vera Cruz indications of General Huerta's intention to resign the Provisional Presidency.

### LIND'S MESSAGE.

Mr. Lind has advised the President that if the information that has come to him is reliable, the United States may be called upon indirectly to indicate whether it will recognize or open negotiations with Huerta's successor. Apparently various names are being suggested and acceptability to the American government, it is thought, might influence the final choice.

From Mr. Lind's report which was filed Wednesday, there arose today rumors of fresh negotiations with the Huerta government by the United States, but at the White House and State Department it was declared communication had been resumed.

Speeches in congress and other suggestions today for an armed protectorate over Mexico in conjunction with other nations were met by high administration officials with the declaration that such an act would impair the sovereignty of Mexico. Attention was called to President Wilson's original instructions to Mr. Lind in which it said:

"It is our purpose in whatever we do or propose in this perplexing and distressing situation not only to pay the most scrupulous regard to the sovereignty and independence of Mexico—that we take as a matter of course by which we are bound by every obligation of right and honor—but also to give every possible evidence that we act in the interest of Mexico alone and not in the interest of any person or body of persons who have personal or property claims in Mexico they may feel they have the right to press."

It was declared today by those who know President Wilson's attitude on these questions that no matter what emergency may arise, even though drastic measures are eventually required to compose the situation in Mexico, under no circumstances will the present administration at Washington interfere in any case with the sovereign or territorial rights of Mexico.

London despatches declaring Great Britain looked with disfavor on the suggestion of armed intervention because it would not benefit British interests while it might by annexation of territory or indemnity recompense the United States, brought out from officials the comment that territorial acquisition would never be considered in connection with interference in Mexico and policy that may hitherto be accepted looking merely to the restoration of constitutional order and peace.

The situation seemed unchanged tonight with respect to further diplomatic parley by the Washington government, which is disposed to treat no further with the Huerta regime though admittedly in a receptive mood for suggestions or declarations of purpose on the part of the constitutional chiefs.

Constitutionalist representatives here are maintaining silence with respect to such negotiations. The only development to which they called attention tonight was the appointment of General Felipe Angeles as minister of war to Governor Carranza. They said Angeles was commissioned a major-general in the Federal army before Madero was overthrown, that he remained in Mexico City until a month ago, and at the first opportunity sailed for Europe and came to the United States at once, arriving in Nogales, Sonora, today to join Carranza. News of his active participation in the Constitutionalist movement, its local representatives said, caused a sensation today in army circles in Mexico.

### MAN INJURED.

Picked Up With Cut in Head and Put in Cell.

A man giving his name as Eugene Lachance was picked up by the police at the Palais yesterday afternoon with a deep cut in his head from which the blood flowed profusely.

He was taken to No. 1 Police Station and Dr. Turcot was called and tended the wound.

Later the wounded man was conveyed to the Hotel Dieu Hospital, where admission was refused him, as he was under the influence of liquor.

It is alleged that the victim was struck on the head in a Palais saloon, hence the deep wound.

He is now confined in a cell at Central Station.

### TO OBSERVE THANKSGIVING.

In order that the civic employes may go into the real spirit of thanksgiving on Monday, the offices of the City Hall will all be closed.

## REVENUE OF QUEBEC GROWN BY \$60,577

ONLY DECREASE IS IN CHAMPAIN STREET—LOTS WORTH \$3,295,474 MORE.

The fact that within the past year in the City of Quebec new property has been constructed to the value of \$3,295,474, was announced at the meeting of the City Council last evening when he produced a statement furnished him by the city assessors in which a comparison of last and this year's values is made.

The increase in revenue this year over last year in the whole city is \$60,577.00, and there is an increase shown in every ward except Champlain, where the deficit is \$819.17, which is due, of course, to the property being taken over by the Government and not being assessable.

The largest increases in revenues are in Montcalm Ward, which shows an augmentation of \$16,891.23; Limoilou Ward, showing an increase of \$14,566.18; Jacques Cartier Ward, \$7,305.64; St. Peter's Ward, \$7,185.40.

In St. John's Ward the increase was only \$407.58, and in St. Malo \$72.52.

The total real value of the property all through the city of Quebec at the present time is \$61,717,081, and the revenue in assessment this year on that property was \$1,280,666.85.

### Construction By-Law.

After considerable discussion last evening the Council passed the by-law relative to new constructions. An amendment was made in nearly every clause specifying that the metallic laths be employed.

A letter was received by the city from Mrs. George Tanguay, thanking the city for the expressions of gratitude to herself and family in their recent bereavement.

### Has Some Nerve!

Mr. Cyrius Jacques, notary, representing the "Syndicat Immobiliere de St. Roch," sent in a letter to the council in which he offers to exchange the Jacques Cartier Hall property with the city for the Jacques Cartier Square property, adjoining, providing the city relieves them of all mortgages and grants an exemption from taxes until May, 1916. The reason for making the offer is alleged to be that there is a movement in the public that the site held by the "syndicat" at present be converted into a public park. The communication was referred to the Finance Committee.

### Abattoir Company.

A petition was received signed by some tanners, and leather merchants protesting against the city granting an exclusive franchise to any abattoir company. The letter was referred to the Finance Committee.

The Champetre Hockey Club applied to the city for the use of the property situated at the corner of St. Roch's and Desfossees streets. The request was referred to the Roads Committee.

A letter was received from Hon. Judge McCorkill complaining that his property was valued higher than adjoining properties which were worth more than his. The letter was referred to the Finance Committee.

The contract for the supplying of oats, hay, straw, bran, etc., for the Fire Brigade, which was recommended by the Fire Committee was awarded to Messrs. Colvin & Co., the only tenderer.

### Fire Committee Metts.

Previous to the meeting of the City Council there was a brief meeting of the Fire Committee, at which it was decided to order 25 rubber sheets for the salvage corps.

## MONTREAL GRAIN EXPORTS DOUBLE

THE FIGURES FOR THIS SEASON WILL BE FROM 60 TO 65 MILLION BUSHELS.

Montreal, Oct. 17.—The export of grain from the port of Montreal for the present season will be from 60 and 65 million bushels, according to an estimate made at the offices of the Harbor Commissioners. This output will be double, or more than double, the quantity exported last season. Grain received in the harbor elevators this season to date is estimated at 51,000,000 bushels. At the present moment there are only 2,250,000 bushels in the Harbor Commissioners' elevators, and not more than about a quarter of a million bushels in the Grand Trunk elevator, so that there is space for the accommodation of another million and a half bushels.

That the spare space will be needed before the end of the season, however, and will probably be overtaxed, is evident from official reports received from inland ports. There were 20,000,000 bushels in the elevators at Fort William on the 9th instant, and the quantity is now almost certainly greater, while the elevators at Tiffin, Goderich, Depot Harbor, Midland, Owen Sound, Point Edward, Port Colborne and Port McNicoll are packed. Grain is being sent down to Montreal as speedily as possible.

## TWENTY-EIGHT DIE WHEN EXPLODING DIRIGIBLE FALLS

GERMANY ADDS ANOTHER TERRIBLE AERIAL DISASTER TO HER RECORD.

Berlin, Oct. 17.—Twenty eight persons were killed near Johannisthal today in the explosion and fall of Count Zeppelin's latest dirigible balloon, the "L-11."

The twenty-eight men represented the entire personnel of the Admiralty board which was to conduct the final trial of the dirigible looking to its acceptance by the government as a new unit of the German aerial navy, the pilot and crew and invited guests. Every person that went aloft in the big airship is dead.

Twenty-seven of them were killed almost instantly by the explosion of the gas in the Lalloonettes or burned to death as the flaming wreck fell to the ground from a height of nine hundred feet and enveloped them. One man, Lieut. Baron Von Bleu of the Queen Augusta Grenadier Guards, a guest of the Admiralty board, was extricated alive from the mass of twisted wreckage. His eyes were burned out and he suffered only terrible hurts. Begging his rescuers to kill him and end his sufferings he was taken to a hospital where he died tonight.

The "L-11" had it proved successful, would have been attached to the aerial corps of the navy, which after today's facilities now has only two men trained to command airships. The official report of the accident says the explosion was due to the ignition of gas in or above the forward gondola, but not within the body of the airship.

The navy was not the only sufferer today through aviation accidents, for three army officers were killed in aeroplane flights—Captain Haeseler, Lieut. Koch and Sergeant Mente. Emperor William, in a telegram to the Minister of Marine, voices public sentiment concerning the accident by saying:

"The sorrow over what has happened, I am convinced, will only be a spur to renewed exertions to develop so important an aerial weapon into a trustworthy implement of war."

The newspapers reflect the Emperor's belief that there should be no relaxation in the efforts to supply Germany with an adequate aerial fleet.

## ADMIRAL EATON MURDER TRIAL ON

WIFE'S MOTHER CORROBORATES STORY OF FRICTION IN HOUSEHOLD.

Plymouth, Mass., Oct. 17.—Mrs. Virginia Harrison, of Alexandria, Va., a member of a prominent family of that state, was called by the prosecution today to tell about conditions in the home of her daughter, Jennie May Eaton, who is being tried on the charge of murdering her husband, Rear-Admiral Joseph Giles Eaton, U. S. N. (retired), by giving him poison. Mrs. Harrison said that her daughter manifested "hysterical tendencies" toward the Admiral at times. During the past four years the witness has spent much time at her daughter's home in Assinippi, and she testified that she considered her son-in-law "always very much of a gentleman." Her daughter, she said, seemed actually to believe that the Admiral dabbled in drugs and was insane.

## MURPHY WAS JUDGE, JURY, PROSECUTOR AND BAILIFF ALSO

### Deposed Governor Issues Statement Describing His Trial as Political Lynching and Disgrace to Civilization—Tammany's High Court of Infamy

Albany, N.Y., Oct. 17.—William Sulzer ceased to be Governor of the State of New York at noon today. He was removed from office by the High Court of Impeachment by a vote of 43 to 12, two members not voting.

Sulzer was guilty of falsification, perjury and an attempt to suppress evidence against him. Of all other charges he was acquitted, the court today unanimously voting him not guilty of the four remaining articles of the impeachment not passed upon when it adjourned last night.

The verdict of the court was that

(Continued on Page Seven)

## GOOD PROGRESS IS BEING MADE ON ST. MALO SHOPS

WORKMEN OF ST. SAUVEUR CONTRAST QUEBEC'S PRESENT TREATMENT WITH PAST.

The lavish generosity of the Borden Government towards the city of Quebec and its spirit of justice are in evidence on all sides and furnish a contrast to the fifteen years of neglect experienced under the former Liberal regime. When Sir Wilfrid Laurier came into office in 1896, he faithfully promised that no time would be lost in an effort to promote public works for the development of the port and city of Quebec, and he never made good his promise. On the contrary, he fed the citizens, especially his Quebec East constituents, on a continuation of these promises which he never intended to fulfil.

But the Borden Government did not come into office under any such covering of false pretences, but when they did assume the reins of power, they told the people of Quebec that it was their intention to protect their interests by the development of the port and city of Quebec and aid it to share in the prosperous benefits of the Dominion at large.

Hon. Mr. Borden visited Quebec shortly after his advent to office, and declared that his government would formulate a scheme for the advancement of Quebec, and he, as no other Prime Minister that preceded him, has honestly lived up to his word. The work in progress under the auspices of the Quebec Harbor Commission for the development of the port of Quebec needs no comment. The commencement of the Transcontinental Railway terminals, new Union Station at the Palais, enlargement of the Drill Hall and Post Office, and the construction of the Levis dry dock, Transcontinental workshops, dredging of the river St. Charles and other public works, all these are in evidence to prove that the Borden Government has made no false promises to cajole the electors of Quebec, but, on the contrary, that Premier Borden and his colleagues, including the Minister for Quebec, Hon. L. P. Pelletier, have been true to their word. These works involve an expenditure of many millions of dollars, and at the same time assure the people of Quebec that the turning point in their city's history has been at last realized, and the dawn of a new era of prosperity arrived, that guarantees the future.

### St. Malo Workshops.

Learning that Mr. Gosselin, contractor for the construction of the Transcontinental workshops at St. Malo, was pushing the work with splendid results, a representative of the Chronicle yesterday paid a visit of inspection for the benefit of the Chronicle readers.

The trip to St. Malo was made in the street cars which extends to the ground where the workshops are in course of construction, and it must be admitted that the newspapermen were destined to meet with many pleasing surprises.

In the first place the Q. R., L. H. & P. Co., besides running their line out St. Valier street as far as the C. P. R. crossing close by the St. Charles Cemetery, have also built a new branch line or circuit that passes up by the former Frontenac Gas Co. property, and turns by the new car sheds built close by the Ste. Foye heights into the city.

The trip through St. Sauveur and St. Malo was a revelation, caused by the great changes that have taken place in this section of the city within the past two years. The streets

## OPPOSE REDUCTION OF CITY COUNCIL

ALDERMAN FISET THINKS WARDS ARE ENTITLED TO REPRESENTATION.

The midnight curfew again called or rather recalled the members of the City Council to the fact that it was now, and that they could not legally debate any longer, and again, as last week, the discussion was on Ald. Lavigueur's motion to divide the city into two wards and to change administrative administration to a new system with two commissioners.

"It is midnight," said Ald. Fiset, "and I therefore move the adjournment of the debate."

The question was again sidetracked until the next meeting. Ald. Lavigueur, in supporting his motion, said that one reason why he preferred the proposed system to ward representation was that works were being done which were not required nearly so much as other improvements which were neglected.

Ald. Fiset:—"If, as Ald. Lavigueur says, he has seen work done in Quebec which was not warranted, and he did not get up in the Council and denounce it, he is not deserving to represent his constituency."

Continuing to oppose the proposed motion Ald. Fiset turned to Ald. Cannon:

"Does the leader of the Council believe that Mr. Gouin?" he asked.

"Hon. Mr. Gouin," corrected Ald. Cannon.

"Very well, then, Hon. Mr. Gouin," returned Ald. Fiset.

It is believed for a moment that the Hon. Prime Minister of this Province would be willing to do away with the members of parliament who represent the different counties. When was such a thing heard of?

Ald. Cannon:—"The membership of the Transcontinental was reduced."

"Yes, it was," Ald. Fiset admitted, "but with supervision."

He then went on to discuss the question but was obliged to abandon at midnight.

In the course of the discussion Ald. Cannon, while not agreeing with all that Ald. Lavigueur had said at the last meeting, was of the opinion that the question was one which was worthy of study by the Council as well as by the By-law Committee. He did not believe that any cities in England were administered by the proposed system, but since 1900 the city of Galveston, Tex., in the United States had been successfully managed and since that time other American cities had followed suit.

## CAPTAIN INCH GETS ANOTHER COMMAND

HIS BRAVERY PRESERVES HIM FROM FATE OF OTHERS WHO LOST SHIPS.

New York, Oct. 17.—The unwritten but almost inexorable law of the sea which bars a captain who loses his ship from being given another command will not be applied to Captain Francis Inch, of the Voltorno. The officials of the Uranium Line made it known today that the heroism of the young skipper—his desperate, though losing fight to save his vessel, and the brave part he played in the battle which resulted in the saving of such a large proportion of the Voltorno's passengers and crew—will preserve him from the fate of many a master whose ship the sea has claimed.

"The line needs men like Inch," said Manager E. O. Thomas today. "He will be given another boat to command and we will be glad to keep him in our employ."

"Well, I guess the warm weather is over for the year," said the Oracle, as he entered the office this morning and hastily tried to conceal the ear muffs which had accidentally fallen out of his overcoat pocket, where they had been placed in case of necessity. "The last rose of summer has long since bloomed and been forgotten; the last potato has been dug up and housed; the maid has already washed the double windows; and we're a year older than we were last year at this time. Isn't it strange that it's only in the Fall that this idea of getting older strikes you very forcibly. I guess most ideas have their origin in times of gloom or mental stress—and this time of the year is sure gloomy enough. More of the same, as regards the weather."

When you are having difficulty in writing those letters, does the idea ever occur to you that may be it's the poor quality of paper that makes writing so tiresome. Try our

THE SULZER VERDICT.

It is likely that opinion will be very much divided as to the justice or otherwise of the verdict rendered by the Court of Impeachment in the Sulzer case. Some will think the deposed Governor worthy of sympathy, while others will think he deserved punishment. And there is a lot to be said on both sides.

As for the latter contention, it seems to have been shown clearly enough that Sulzer was morally unfit to hold office, though he was no worse than, if as bad as, those who brought about his downfall. Of two evils, Murphy and Sulzer, the latter was decidedly the lesser. And, though convicted of wrong-doing himself, that was not the cause so much as it was the means of his undoing. His chief "crime" was that he tried to fight Murphy and the allied forces of Tammany, that he "went back on the organization." That was the unpardonable sin for which he paid the penalty. As soon as he showed the least sign of breaking away, the hounding began at once. Even in his own house, it is said, his servants were bribed to shadow him and to steal his private communications. It is surprising what can be achieved by a body such as Tammany with its manifold ramifications and influences. Before the trial began the general result was practically a foregone conclusion.

It cannot be said, however, that Sulzer did much during the trial to bear out his contention that he was the champion of public morality and the victim of his own zeal for reform. It was a great shock to those who believed in him when he failed to take the witness stand in his own behalf after he had heard so many promises about the sensational revelations which he was going to make. He could, at least, have served the common weal if he had had the courage to expose Murphy instead of shielding himself with silence. He could have rendered service to the public by a truthful recital of the circumstances which led to the break with Tammany and his subsequent trial. He might have revealed the scandalous system of Murphy's political administration, the price which the "bosses" demand for the privileges of office and remaining in office, and the orders which they issue to their political pawns. Surely, if Tammany feared anything, it must have been the threatened publication of the secret history of the organization. The greatest service that the Governor could do Tammany was to keep silence on these matters; the greatest service that he could do the people was to divulge them. He chose the former course. Did he hope thereby to get off more lightly and was he "double-crossed" by Murphy? It appears that during the trial one of the witnesses swore Sulzer had urged him to use his influence on the chance that Murphy might stop the impeachment proceedings. "Mr. Sulzer," declared the witness, "said he was willing to do whatever was right." Is it possible that he refrained from taking the witness stand because he hoped that Tammany would regard this silence as "right" and in consideration thereof save him from conviction? Whatever be the facts, his case excites both contempt and commiseration.

He has spoken now, but he has probably spoken too late. Had he spoken before his sentence was pronounced, instead of now when he has so little left to lose, his words would have carried far more weight.

A CONTEMPTIBLE LIE.

Speaking of our statement that it is better to develop the stretch of harbor-front above Diamond Harbor rather than that just below it, the English Liberal organ of this city had the following to say last night: "Nor is it a secret that the article, which appeared in our morning contemporary the other day on the subject, was prepared in the Transcontinental Railway Commission's office at Ottawa, and sent out as a feeler, the object being to throw more dust in the eyes of the public here and to force the hands of the Ministers in submitting to Major Leonard's dictation." We challenge the above assertion as a contemptible and utterly baseless lie and call upon the organ in question to retract. Its attitude in this matter is on a par with the campaign of misrepresentation which it has been carrying on so long to the detriment of Quebec.

OIL ON TROUBLED WATERS.

Pouring oil on troubled waters has been a trite figure of speech for many long years, and most of those who have used it little understood its full significance. If they read the graphic account of the manner in which the oil tank steamer Narragansett smoothed with oil the gigantic waves which had prevented for many hours the rescue of half a thousand terrified passengers from the burning Voltorno, they will get some idea of its significance. It is possible that without that method of stilling the sea, the rescue might not have been practicable. A dozen steamers had stood by for hours, helpless in the terrific sea. They could not launch their boats with safety and the few that were launched found it impossible to reach the stricken steamer. The rescuing vessels could not get near enough to cast a line over which the terrified passengers might be passed, because a collision meant destruction of the rescuing vessel.

Finally the Narragansett, loaded with oil, reached the scene of horror and disaster. Taking a position aft of the burning ship she proceeded to "pour oil upon the troubled waters" from hose connected with her tanks. The oil spread upon the surface of the water. The waves soon ceased to break and were subdued in their fierce rush in the space between the oil steamer and the burning one. In a little while it was possible for rescuing boats to live in the stiller water thus produced and to reach and rescue the despairing women, children and men, who had practically abandoned hope that the sea would become calm enough for the boats before the fire reached the stern of the burning vessel where they were huddled. This is not the first time oil has been used to calm stormy seas. But it is the first recorded instance of its use on so large a scale as to permit the rescue of large numbers of imperiled people in danger of death by fire, explosion and drowning.

AN EXPLODED FALLACY.

The Jews of Montreal, Toronto and Winnipeg and of many of the larger cities in the States are naturally much indignant at the revival of the ridiculous "ritual murder" charge in the trial of the man Beiliss at "Holy Kiev." That they should be so is not surprising in these days of what we call advanced civilization. It is only in Russia,—we do not take the statements made in our own Court House seriously—where the persecution of Jews is almost considered a virtue, that anyone affects to believe in the "Blood accusation" nowadays, in what Chief Rabbi Hertz of London calls "the most hideous calumny that malice and hatred have ever invented," the charge of "religious cannibalism" made against a whole people by the Russian government in regions of barbarity and superstition.

It has been a favorite method of persecution throughout all the ages to accuse the propagators of a new and unpopular religion of murdering children to obtain their blood for their ceremonial observances. Lecky, in his "History of European Morals," says:—"The charge of murdering children, and especially infants, occupies a very prominent place among the recriminations of religionists. The Pagans, as we have seen, brought it against the Christians, and the orthodox against some of the early heretics. The Christians accused Julian of murdering infants for magical purposes, and the bed of the Orontes was said to have been choked with their bodies. The accusation was then commonly directed against the Jews, against the witches and against the midwives, who were supposed to be in confederation with the witches."

Coming to more recent times, it may be stated that one of the accusations of the Boxers in China against the Christians was that they killed children to make use of their eyes.

This calumny of the "blood accusation" has been rebuked by many Popes, as, for instance, by Innocent IV., Paul III., Gregory X. and Clement XIV. On the 8th May, 1247, Pope Innocent IV., in a bull addressed to the Archbishops of Vienna, speaking of one of these "blood accusations," said:—

"It proves an unpraiseworthy zeal or a repulsive cruelty when Christians, acting contrarily to the clemency of the Catholic religion, which permits Jews to dwell among them, and has ordained that they may live in their own rites, despoil, mutilate and kill the Jews out of avarice or bloodthirstiness without a trial."

"The Jews of your province are now making bitter complaint to us, that some prelates and nobles of those parts in order to have a cause for raging against them, charged them with the death of a girl, who is said to have been secretly murdered near Valreas, and on that account inhumanly delivered some of them to the flames, without their having been legally convicted, or having confessed; deprived several of all their property and banished them, and that they are compelling their sons (contrary to the manner of the free mother, who bears her children to freedom) to become baptized."

"Since we do not intend to tolerate this, as indeed, under God, we cannot, we command that you restore everything again to legal conditions as regards these Jews, and do not allow them to be unjustly oppressed by anybody whomsoever, henceforth, on account of these or similar accusations, by using the compulsion of ecclesiastical punishment, without granting appeal, in the case of those who oppress them."

Almost a hundred years ago, i. e. in 1817, Czar Alexander prohibited the prosecution of so-called ritual murder cases in order to "make an end of the prejudice that the Jews use Christian blood for their ritual purposes." And yet today, in this twentieth century this foul slander and this same fanaticism and blood-thirstiness are revived in Russia in order to inflame ignorant peasants to anti-Semitic frenzy. And the charge is even repeated in our own Court House.

Surely it is time that the civilized world should serve notice on Russia that these vile barbarities and baseless slanders should be suppressed, and that if she persists in encouraging them she puts herself outside the pale.

Comment of The Press

Mexico has had sixty revolutions in fifty years. They come so fast they overlap each other. Sometimes two or three are in progress at the same time. No sooner had Madero been elevated to the presidency by a revolution than a revolution started to depose him. He was finally deposed by the commander of his own troops, and ever since revolutionists have been striving to drive him from power. Zapata is a typical example of the Mexican revolutionist. He started what he called a revolution against Porfirio Diaz, and when Madero took the reins of power he continued his revolution against him. When Huerta succeeded Madero by force, Zapata headed another revolution against him. Revolution is, in fact, a trade in Mexico—a chronic condition due to an ignorant, unstable, fickle population and leaders who turn to revolution as a pretext for robbing and plundering the country.—Exchange.

Baseball is the survival of the fittest of ball games for Americans. It has an ancestral line, but nothing as concentrated in action and strategy as itself. The American standard of athletics has been largely developed by it. Its share has been important in bringing to this country the championship in running, jumping, vaulting, hurdling, shot putting, the discus, Marathon racing, throwing the hammer and dumbbells. But better than these laurels is the cultivation of the taste for field sports, the physical training of the masses of American youth. No race of mollycoddles could be feared in a land whose favorite pastime is baseball. The English race is virile, but the difference between cricket and baseball may account for the difference in Olympic tests. If Waterloo, as has been said, was won on the cricket fields, this country can rest easy as to its latent military strength.—St. Louis Globe-Democrat.

The risks attending aviation are daily growing more serious. Thinking an aviator was about to fall, a girl in Wisconsin grabbed the arm of a stranger standing beside her, and later the two were married.—Montreal Herald.

**INDOOR WORK REDUCES STRENGTH**  
 because confining duties, lack of fresh air and sunshine gradually weaken even a strong constitution, and the enfeebled system readily accepts sickness and disease.  
 Scott's Emulsion checks such decline. Its pure cod liver oil is nature's grandest medicinal food while its hypophosphites act as a building tonic. It refreshes the body, puts vigor in the blood, strengthens the lungs, upbuilds the nerves and invigorates the whole system.  
 If you work indoors, Scott's Emulsion after meals will prevent much sickness and loss of time, and often thwarts tuberculosis—it builds up and holds up your strength.

**A Wonderful New Musical Instrument**

The latest invention in the way of a musical instrument is being introduced now. It combines the tone qualities of the guitar and mandolin with improvements. It is played with a keyboard arrangement, and is so simple that sweet music can be played by even the inexperienced. The wires are vibrated by blows from a small hammer worked from the keyboard, producing a perfect mandolin trill. Come and try it yourself, in our Music Department.

**Powerful Buying Inducements for Saturday Shoppers**

**Unusual Sale of Linen Remnants**

This is one of the most amazing bargains of the Autumn. A large quantity of Remnants of Table Linen cleared to us by an Irish Mill will be offered for Saturday and Monday only at prices very far below the actual value of the goods.

Being remnants, there are all kinds of lengths in the lot, but all of them useful.

We advise early shopping on Saturday in this Department as these remnants are selling very quickly.

1800 yards of half-bleached heavy Damask Table Linen, from 60 to 72 inches wide, and in lengths of 1 to 12 yards in the price. Mark these very low Sale Prices, per yd. . . . . 22c, 25c & 35c

COTTON COMFORTERS, with fancy floral covers; size 5 x 6 ft., well filled with good cotton down, Special, each . . . . . \$1.98

GOOD PROGRESS IS BEING MADE ON ST. MALO SHOPS

(Continued from Page One)

On either newly macadamized and clean, and the old-wooden buildings of the past have disappeared to make room for new and comfortable brick dwellings.

The greatest surprise, however, was the number of new buildings in course of construction at the west end of St. Malo, and along the new branch line extension of the Q. R. L., M. & P. Co., where carpenters and masons are to be seen busy in building operations, in anticipation of the future progress and prosperity of that section of the city when the Transcontinental Railway workshops are built and in operation.

Only one month has passed since the contract for the building of the workshops at St. Malo was awarded to Mr. Gosselin, and at that time the ground site was covered with brush and was to a large extent marshy. Today the ground has been entirely cleared and the brush growth and scrub has disappeared. The contractor has 250 laborers engaged in excavation work for the required foundations, while the foundations for the locomotive erection shop are partially built, and the foundations for the power house commenced.

The locomotive erection shop will cover a large area of ground and its length will be 602 feet by 152 feet in width, or 91,504 feet in superficial, and one of the largest of the cluster of buildings that will compose the workshops. The workmen engaged in carrying out the project are giving the greatest satisfaction, and, though only some three weeks on the foundation, are giving splendid results.

The contractor, Mr. Gosselin, is aided by his chief engineer, Mr. C. V. Johnson and staff and four foremen of practical experience. The Transcontinental Railway Commission is represented on the construction by a resident engineer, Mr. E. B. Forrest, with an assistant engineer, Mr. H. E. Balfour, and chief inspector of construction, Mr. H. Laberge.

The contractor has erected seven buildings on the grounds, one used as his office, and offices for the engineering staff of the Transcontinental Railway Commission, with additional draughting rooms. There are also store buildings, for cement and other material to be used in construction, a blacksmith forge, carpenter shop, etc., and a dining room for the workmen to take shelter in and fitted with a large cooking range for the men to warm their food in their dinner cans for their midday meal.

Several railway sidings connecting with the main line of the C.P.R. have been laid along the grounds to bring material in for construction, and a gang of men kept busy making other preparations to facilitate the work of building as the work progresses. In fact everything is being carried out with a system that reflects credit upon the contractors and engineers in charge.

The excavation work in progress and nearly finished for the building of the power house keeps a large number of men busy. This building will be 124 feet in length and 107 feet wide, and will be pushed to completion as fast as possible, in order to install the machinery and utilize the power for the rest of the construction. Besides the 250 men at work on excavation and foundations, there are 25 teams busy hauling, and three steam engines constantly at work, with two concrete mixers, and four pumps engaged emptying the pits. The contractor has been fortunate enough to secure all the sand he will require on the ground, which is a great convenient accommodation, as well as a saving in expense. The sand is of excellent quality, and approved of by the engineers.

**A Talk With Workmen.** The visiting newspaperman during the course of his tour of inspection, talked with a number of the workmen, who are residents at St. Malo. They all expressed their delight on the construction of the workshops so close to their doors, and also expressed satisfaction with the wages paid. On being asked their opinion as to the treatment being accorded them by the present Conservative Government, and the former Liberal administration, they unhesitatingly praised the Borden Government for its magnificent treatment of Quebec, and said they were now considering what fools they had been in their support of the Liberals who, during 16 years, handed them a stone instead of bread. One old resident of St. Sauveur said: He had always supported Sir Wilfrid, but his allegiance had come to an end, and it was his opinion that when Sir Wilfrid Laurier again presented himself in Quebec East for re-election, he would meet the same fate as Mr. Fisher did at Chateauguay. The general sentiments in respect to politics expressed by the workmen and even by many of the old-time Liberals of St. Sauveur, showed that the treatment being accorded to Quebec by the Conservative Government, in contrast with their predecessors, has engendered a feeling strongly against the Liberal party.

All the residents of St. Sauveur and St. Malo look with favor on the building of the workshops, arguing that they hail as a forerunner of better times, and prophesying that the day is not far distant when the entire valley of the St. Charles will be covered with manufacturing industries, especially when the Transcontinental Railway workshops are in operation, the tunnel built, and the draining of the St. Charles river accomplished.

The hearings will be resumed Monday.

LISTEN MOTHER DO BE CAREFUL

IF CHILD IS CROSS, CONSTIPATED, SICK, GIVE "CALIFORNIA SYRUP OF FIGS."

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

are to be found in the fast decreasing ranks of the Liberal party and that pass the time in giving vent to their chagrin by sneering at the efforts of the Conservatives to develop the resources of Quebec, have lately been busy decrying the possible building of the tunnel to run under the Ste. Foye Heights from Wolfe's Cove to St. Malo.

The building of the tunnel will be delayed, but there are well qualified reasons due to the perfecting of the plans by the Transcontinental Railway Commission engineers engaged on the work, and in the near future this very important work will be commenced.

On Wednesday last His Worship the Mayor, Mr. Napoleon Drouin returned from Ottawa, where he went to confer with the Government in regard to the tunnel and building of the freight depot and local passenger station on the Champlain Market site.

The engineers are now at work on the plans for these works, and as soon as they are through and their plans approved, the work will be commenced on the tunnel, which will take a little over a year to complete. The building of the tunnel was never doubted after the government had decided to build the workshops at St. Malo, for without the tunnel the site would not be well qualified.

**New Industries at St. Malo.** It is generally conceded that in the course of time a number of new industries will be located at St. Malo, in close vicinity to the workshops, and already a number of capitalists have been looking over the ground. The Eastern Canada Steel Works, that started at St. Malo recently, is now doing a large business, and are unable to keep up with its orders. This industry, only in its infancy, has a splendid future in store.

PAPER SNAKE PUTS BURGLAR TO FLIGHT

Kansas City, Oct. 17.—H. P. Bowman, 3912 Broadway, purchased a "snake in the box" while touring Colorado. When the lid of the box was opened a dummy snake popped out. In the absence of the family yesterday a negro entered through the rear window, neighbors saw him and notified the police. In less than three minutes he was seen to rush from the house, but was later arrested. Mrs. Bowman examined the house and found that the lid to the "snake in the box" had been opened. The imitation snake, 18 inches in length, was in full view. The negro had opened the lid.

At the police station the negro gave his name as George Robinson, 18 years old, 914 Cedar avenue. He was so frightened by the experience that an old wound in his side reopened and it was necessary to remove him to the old city hospital.

U. S. GOVERNMENT WOULD DISSOLVE STEEL TRUST

New York, Oct. 17.—The last of the ore experts left the stand and manufacturers were called in behalf of the United States Steel Corporation today in the Government's suit to dissolve the "trust" under the Sherman law. Through several witnesses, the defence sought to show that no monopoly in the steel and iron trade exists.

Maximilian Levison, a consulting engineer who has erected many buildings in New York, testified that in purchasing material no coercion had ever been exerted as to where he should buy. E. W. Wurster, former mayor of Brooklyn, head of a rolling mill and manufacturing company, denied he had knowledge of the existence of any arrangement among manufacturers to regulate prices.

"During an active market I have found in my experience that the independent manufacturers advance their prices," Mr. Wurster said, "and when the market is sluggish and orders scarce their general custom is to quote prices several points below those of the Carnegie Steel Company, who maintain a more uniform rate at all times."

SEVEN MINERS ALIVE IN FLOODED MINE.

Rockdale, Tex., October 17.—Seven of the eight miners caught late yesterday in the Vogel and Lawrence Mine near here, when the roof of the mine caved in and the mine was flooded, are still alive today. They are entombed by a water barrier 90 feet below the surface, but are believed to be safe as long as their supply of air holds out. One miner was drowned outright, instead of seven as reported last night. The men are all Mexicans.

An airshaft is being drilled to the miners and the mine is being pumped out as rapidly as possible. The men escaped drowning by managing to reach a slope beyond the cave-in.

**San Domingo, Oct. 17.**—The government today issued instructions that the Clyde Line steamer Seminole be permitted to call at Puerto Palata to take on board foreigners and natives who desire to leave the republic before military measures are taken against the revolutionists. A large force of troops have been sent from here to attack the rebels.

WANTS JUVENILE COURT FOR QUEBEC

JUDGE LANGELLIER CONSIDERS POLICE COURT FIGURES PROVE IT NECESSARY.

The number of juveniles, some of them of tender years, that are frequently arrested and brought before the Quebec Police Court for correction, causes surprise that no juvenile court exists in this city to deal with such a youthful class of offenders, and see that their cases are disposed of otherwise than by the provincial reformatory route.

A representative of the Chronicle familiar with these conditions yesterday afternoon called upon Hon Judge Charles Langellier, Judge of the Sessions, to learn his views in regard to the question, and, when asked to give his opinion, His Lordship said: "It would, indeed, be a good thing for society, and the youthful offenders that are constantly being brought before me for offences of which they could be cured if we had in Quebec a juvenile court to deal with such cases, as is done at Montreal.

"We have on an average of 15 to 20 children brought to this court who are sent to the reformatory every year and would be better corrected if we had a juvenile court to deal with their cases, a court advised by a committee of ladies where girls are concerned, and by a committee of gentlemen when it is a question of boys.

"The statutes provide for such a court, George V, Chap. 59, in section 41, authorizes the city to contribute to the establishment and maintenance of a court for young offenders, as well as of a house of detention, and house of industry; provision is also made for the payment of the staff required for such a purpose.

"In section 42 the city is not bound in any manner to contribute to the support and maintenance of young offenders coming from any other municipality other than that of Quebec.

"The city of Quebec, however, needs no house of detention to support; there is an abundance of Protestant and Catholic institutions in the city, where the young and not incorrigible offender could be looked after, and the city would only have to maintain a staff of officials, but all other officers connected with the court would be paid by the Government.

"The girls looked after by a committee of ladies, if belonging to the Protestant religion, could be sent to a Protestant institution, and the boys the same. These committees, under the direction of the court, might take charge of the children, and have the right to investigate their records and see their parents and ascertain if they have the means, or not, to pay for their maintenance in the institutions where the children were placed. They would also have the right to visit families where there are children, and oblige the parents to send their children to school. If there should be special cases that cannot be adjusted, the offenders in such cases could be sent to the reform school, or detained in the house of detention, should the city provide one, to see if they can be reformed without the necessity of being sent to the provincial reformatory.

"Where parents neglect their children and are personally to blame for their misconduct, the Judge has the power, with the advice of the committee, to take the children away from the influence of their parents, and place them with farmers willing to accept them. In Montreal 500 children under those circumstances have been given out to farmers, and many reclaimed from evil inclinations.

"A juvenile court will not be a heavy expense on the city. The first juvenile court was established in Denver, Colorado, some 20 years ago, and has been an example of success, and now there are many such courts in the United States doing excellent work in the interest of youthful offenders. So great has been the salutary effect of these courts in the United States that the system is being generally adopted, and even France has taken up the question of establishing such courts.

"The statistics show that in the case of the United States 90 per cent of the youthful offenders looked after in these courts have been reclaimed, only 10 per cent proving incorrigible.

"It is the conclusion of the experienced that the moving picture shows and cigarette smoking are the chief causes for children becoming offenders. They start to go to the moving picture shows and to beg and smoke cigarettes.

"The law is very strict in regard to the sale to and smoking of cigarettes by children under 12 years of age.

"Any child seen smoking a cigarette on the streets can be arrested by any citizen as well as a police constable and brought before a magistrate and the child fined \$5; also the child may be asked to tell the name of the dealer who sold him cigarettes or cigarette papers, who is liable to a similar fine.

"The same thing can be applied to children attending moving picture shows under 12 years of age, unless they are accompanied by their parents or persons specially authorized to take them to such a show. The proprietor of a moving picture show is liable to a fine of \$20 for admitting children of the prescribed age to see a show, unless they enter with their parents or authorized guardian. Besides, a police constable has the right to enter such shows, and arrest a child found there, and the proprietor of such show held responsible.

"This law is not enforced in Quebec as it should be. I frequently see boys smoking cigarettes on the street and know from experience that the children who are allowed to indulge in this habit not only injure their health and undermine their constitution but are led into temptation to

MORE LUNATICS IN THE DOMINION

PRINCE EDWARD LEADS WITH HIGHEST PERCENTAGE—QUEBEC IS FOURTH.

Ottawa, Oct. 17.—A bulletin just issued by the Census and Statistics Office gives the result of enumeration of the defective classes in Canada—blind, deaf and dumb, insane and idiotic—in the census of 1911.

The number of blind was 3238; of deaf and dumb, 4584; of insane, 14,702, and of idiotic 5387, making a total of defectives of 28,611, of which 15,530 were males and 13,081 were females.

From 1901 to 1911 the population increased by 34.17 per cent; for the same period the total number of infirm increased from 26,148 to 28,611, an increase of 9.42 per cent in the decade.

In Canada in 1911 there were 100 males to every 75 females incapacitated through blindness.

In 1901 there were 6165 blind persons per 10,000 of population. In 1911 the proportion had fallen to 4493 per 10,000.

Deaf and dumb persons constituted 11,608 per 10,000 of population in 1901. The proportion in 1911 was 6361.

In every ten thousand of the population in 1901 there were 31,014 insane and idiotic persons. The proportion fell to 28,847 in the year 1911.

There has been an increase in actual numbers and in proportion of the population of unsound mind in every province excepting New Brunswick. The highest proportion is shown by Prince Edward Island with 41.77 per 10,000 of the population, followed by Ontario with 34.998, Nova Scotia with 33.615 and Quebec with 32.443 per 10,000.

WANT TO REOPEN DULUTH RATE QUESTION

Minneapolis, Minn., Oct. 17.—An attempt is being made by Twin City shipping interests to have the famous "Duluth Rate Case" reopened by the Interstate Commerce Commission, and a petition was today sent to that body. The petition will be presented at the result of a secret meeting of Minneapolis and St. Paul business men held last night.

Several weeks ago Duluth succeeded after two years of deliberation by the commission in getting an order for freight rates from Eastern points much lower than that accorded to Minneapolis and St. Paul, according to local merchants. The latter consider this unfair. The present rates have been in force since 1897.

\$15,000,000 RAILWAY STATION IS COMPLETED

Geneva, Oct. 17.—One of the largest and most expensive railway stations in Europe has just been completed on the Swiss-German frontier at Basle.

The station, which is on German territory but touches the Swiss frontier, cost nearly \$15,000,000, and the work of construction took nearly three years. Most of the capital was found by the Duchy of Baden.

procure the cigarettes, and this leads them from bad to worse, a matter which to my mind, could be remedied if Quebec had a juvenile court."

**ERNESTINE GAUTHIER**  
TO SING HERE  
The popular mezzo-soprano from the Boston Opera House, Miss Ernestine Gauthier, to meet the numerous requests of her many friends and admirers in this city, has arranged to give a concert at the Auditorium early next month. This agreeable news will be heartily welcomed by all music lovers. Miss Gauthier is unquestionably one of the finest exponents of pure singing the American concert stage can boast of. Her voice is exquisite and her interpretation of songs has stamped her as a unique artist.  
The elite of Quebec's society are highly interested in the coming concert of Miss Gauthier. She has been assured of the support of many of our prominent society people, who will occupy boxes and will personally help to bring a crowded house.

**ASPHALT STREETS**  
**INJURE HORSES**  
SLIPPERY CONDITIONS RENDER THEM DANGEROUS —  
S. P. C. A. MEETING.

At the monthly meeting of the Society for the Protection of Cruelty to Animals, the attention of the committee was drawn to the numerous complaints that are made with reference to the asphalt of the streets of the city, as being most dangerous and injurious to horses, due to its slippery condition. The society before this have desired the city to put some other material on the city streets, but they have continued, and are still doing so, asphaltting streets which have an incline, and which cause horses to fall and are thereby injured. Scarcely a day passes that accidents are not reported. The committee take this opportunity of requesting the Road Committee of the City Council to take up the matter, so that the City Engineer may be instructed to have the remaining streets which are to be paved, not asphalted, but laid in the material used on the Avenue des Braves or that used at the westerly end of the Grande Allee.  
Several of the streets this past summer have been laid in asphalt, which is really a cruelty to animals, and the Society has received letters from citizens requesting them to take some action in this matter.  
The watering of the city streets which are asphalted, in the afternoons, is a serious mistake, as the wet asphalt is doubly dangerous for horses slipping. In other large towns the watering is done during the night when the traffic is small, and by the day time the asphalt has partially dried up, and the horses have a better footing. The committee of the S. P. C. A. think that this is a matter the Road Committee should remedy, by not permitting the streets to be watered at all during the day.  
Only One "BROMO QUININE"  
That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Cures a Cold in One Day, Cures Grip in Two Days. 25c.

**POLICE COURT INQUIRY.**  
Yesterday afternoon Mr. Justice Anger presided over the preliminary investigation, behind closed doors, into the serious charges made against a young St. Roch's grocery clerk, by the parents of a young girl only seven years of age.  
An attractive programme will be furnished by Miss Lottie Shipman and pupils, in the Knights of Columbus Hall, Thursday, October 23, at 8 p. m. The entertainment, under the distinguished patronage of His Honor the Lieutenant Governor and Lady Langelier, will contain many original features, musical gems, and fancy dancing. Several of the dances given here for the first time.  
**LETTER OF APPRECIATION.**  
A special delegation of ladies representing the Daughters of St. George travelled over the Grand Trunk Railway System from Chicago to Boston recently and the General Passenger Department are in receipt of the following letter of appreciation from the Supreme President.  
"I wish to express our appreciation for the courteous way we were treated while travelling on your line. We have always found comfort and kindness while travelling on the Grand Trunk."  
**DEATH OF MRS. W. C. FISHER.**  
The many Quebec and Levis friends of Mrs. Will C. Fisher will regret to learn of her death, which occurred yesterday afternoon at the Hotel Dieu Hospital. Deceased was the daughter of the late Mr. Amund Henningsen, in his life time interpreter in the employ of the Allan Steamship Line.  
She was born at Levis 42 years ago, and in her younger days was quite a favorite with a large circle of friends. Mrs. Fisher was an estimable lady, highly respected by all who knew her for her womanly virtues, gentle disposition and goodness of heart. Besides her husband, Mr. Will C. Fisher, she leaves one brother, Mr. Olaf Henningsen, of Boston, Mass., to mourn her loss, who have the sincere sympathy of their friends in their sad bereavement.  
Jaeger Overcoats are known to be "without exception" the finest in the market today. John Darlington, Registered, selling agents for Jaeger Pure Wool, have these excellent coats on view. See advt.  
**WEDDING BELLS.**  
A very pretty and quiet wedding took place at St. Matthew's Church on the 15th, the contracting parties being Ida K. Sommerville of Quebec, and Arthur Williams of Leamington Spa, Eng. The bride, who was prettily attired in a white serge suit, with hat to match, was given away by her brother, Mr. R. Sommerville, her sister, Mrs. M. J. Dwyer, of Montreal, being bridesmaid, whilst Mr. C. N. Mills of Sheffield, Eng., acted as best man. After the ceremony the wedding breakfast was served at the home of the bride's mother, 7 1/2 D'Artigny street. Afterwards this happy couple left for Montreal and Toronto.  
They were the recipients of many beautiful and useful presents, including a handsome dinner and tea service boxes and will personally help to bring a crowded house.

**CHALMERS CHURCH.**  
A Thanksgiving service will be held in Chalmers church next Monday morning at 11 o'clock, at which the minister will preach. All are invited to join in this public acknowledgement of God's goodness.  
**AUTO-PIANO AT A GREAT REDUCTION—OWNERS LEAVING CITY.**  
A superb auto-piano from New York, mahogany case and 20 rolls of music. All in perfect order, having only been in use a few months. For sale, as owner is leaving Quebec. May be seen at the stores of Lavigne & Hutchison, 81-83-85 St. John Street.  
**CHIEF BRIDGE ENGINEER**  
OF N. T. R. IS HERE  
Mr. R. F. Uniacke, chief bridge engineer in connection with the Transcontinental Railway construction, arrived in the city yesterday to consult with the divisional engineer, Capt. A. E. Doucet, and take observations of certain work in progress on this city, in connection with the Transcontinental Railway terminals.  
Mr. Uniacke is ranked as one of the most prominent bridge engineers in Canada, and is attached to the Transcontinental Railway Commission. It was he who superintended the construction of all bridges along the line of the railway from Winnipeg, and recently gave an interesting lecture in Montreal, on the subject of building the Transcontinental Railway, in which he elucidated all the difficulties that had to be overcome and said that under more primitive conditions it would have taken to quarter of a century to build the Transcontinental Railway on account of its isolation from civilization.  
Mr. Uniacke, besides inspecting some work in Quebec and looking over the ground, paid a visit to Mr. St. George Boswell, chief engineer and general manager of the Quebec Harbor Commission, to gain information in respect to the cribwork laid at Lampson's Cove, for the building of the retaining wall.  
He was later seen at the Chateau, but declined to give an interview, saying he was under instructions to give out no statement.

**FASHION-CRAFT MEN'S CLOTHES OF WHICH CANADA IS PROUD.**  
Cost no more than the other kind of clothes; made to hold the reputation the makers have already established among the best dressed men in Canada. Regardless of price every garment is equally well tailored, the difference in cost being caused by different quality materials used.  
Obtainable only at  
L. A. ROY, Proprietor,  
Shops of Fashion-Craft,  
178 St. John street,  
128 S. Joseph street,  
Quebec.  
**A BUSY DAY**  
AT POLICE COURT  
Judge Langelier Has Variety of Cases to Dispose Of.  
Hon. Judge Langelier presided over the Police Court yesterday, when the following cases were disposed of:  
Etezar Cote, a resident of Stadacona, accused of selling liquor without a license, was found guilty and condemned to pay a fine of \$50 and costs.  
Anselme Turotte, a St. Sauveur grocer, charged with permitting liquor to be drunk on his premises, pleaded guilty, and was condemned to pay a fine of \$30 and costs.  
Three young men of St. Felleal, accused of assault, pleaded guilty and were condemned to a fine of \$2 and costs or two month's imprisonment.  
A tramp named Morrison, arrested on the charge of vagrancy and begging alms from passengers at the C.

**HOMESEEKERS' EXCURSIONS.**  
Reduced fares to Winnipeg, Brandon, Saskatoon, Regina, Edmonton, Athabasca Landing (Gateway to famous Peace River District) and other points in Western Canada, every Tuesday until October 28th. Return limit two months. For tickets, information, etc., apply at Canadian Northern Railway Station, City Ticket Offices, 32 St. Louis street and 31 Blande st. oct18xlawtf

**MAYOR DROUIN'S VISIT TO OTTAWA**  
WAS IN CONNECTION WITH  
CHAMPLAIN MARKET AND TUNNEL SCHEME  
That the visit of Mayor Drouin to Ottawa this week is of much importance to Quebec was brought out last evening in the following interview which Mayor Drouin gave to a representative of the Chronicle:  
"You may announce," said the Mayor, "that I went to Ottawa to consult Premier Borden in connection with the banquet which will be tendered him there by the citizens of Quebec on the 22nd instant."  
"The principal object of my visit to Ottawa, however, was in connection with the freight and passenger station on the Champlain Market site and the construction of the tunnel from Lampson's Cove to St. Malo.  
I urged that the work on the depot at Champlain Market be started immediately, and that Premier Borden inaugurate the work on the tunnel from Lampson's Cove on the St. Lawrence River through the height of land to St. Malo where the work is already under way on the workshops."  
"What reply did you receive?" asked the reporter.  
"The reply," responded the Mayor, "will be given to the citizens of Quebec by Hon. Mr. Borden himself when he comes here next week."

**GOOD COATS FOR GIRLS.**  
You will find our Girls' Coats this season are better tailored than ever before, in fact, it would be hard to find any Ladies' Coats that exhibit any better workmanship; the qualities we offer are the best we have been able to produce for several years. P. R. station, pleaded guilty, and his sentence suspended on a promise that he would leave the city.  
A young man named Goudbot recently arrested on a charge of stealing, preferred against him by his employer, Mr. Chs. Gastonguay. The defendant pleaded not guilty and after a hearing the young man was honorably acquitted.  
**OLD TIME ADVICE TO DOCTORS.**  
There is an old manuscript in the National Library at Paris which has the following advice to physicians: "On approaching the patient you should assume a calm expression and avoid any gesture of greed or vanity, greet those who salute you with a humble voice and sit down when they do. Then, turning to the sick person, ask him how he is. To the patient you promise to cure, but immediately on leaving the room you say to the relatives that the disease is grave. The result will be that if you cure him your merit is greater, and if you die, while if he dies they will say that you had no hope from the first."

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Post Office Fittings at St. George East, P. Q." will be received until 4:00 p. m., on Tuesday, November 4, 1913, for the work mentioned.

Plans and specifications to be seen on application to Mr. Chs. Chapais, District Engineer, Post Office, Quebec, to the Postmaster at St. George East, P. Q., and at the Department of Public Works, Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender.

By order, R. C. DESROCHERS, Secretary, Department of Public Works, 4872, Ottawa, October 16, 1913.

MAIL CONTRACT. SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 28th November, 1913, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, six times per week each way over a circular Rural Mail Delivery Route, having the Post Office at "St. Sylvester" as point of departure, from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of St. Sylvester, St. Sylvester West and Wilson's Mills, and at the office of the Post Office Inspector.

S. TANNER GREEN, Post Office Inspector, Post Office Inspector's Office, Quebec, 11th October, 1913.

CONTINUATION OF BUSINESS. We, the undersigned, beg to notify our friends and the public in general that we have been appointed Agents for the following Insurance Companies, heretofore represented by the late Mr. Frank Holloway:

Messrs. Dale & Co., Limited, Marine & Fire Underwriters. The Caledonian Insurance Co. of Scotland.

The Employers' Liability Assurance Corporation of England. The Employers' Liability Assurance Corporation of England (Fire Branch).

The London & Lancashire Life & General Assurance Association of England. Lloyd's Plate Glass Insurance Co. of New York.

We have been connected with the office of the late Mr. F. Holloway for the past eighteen years and can therefore assure our patrons of the same care and attention which have been given them in the past.

G. S. OLIVER, Fred S. Coolican, OLIVER & COOLICAN, General Insurance Agents, Union Bank Building, Quebec.

Latest Sporting News

TODAY MAY DECIDE DROUIN CUP'S FATE

MUCH DEPENDS ON RESULT OF MATCH BETWEEN MONTMORENCY AND R.C.G.A.

Two association football matches will be played in Quebec this afternoon, the one between the R.C.G.A. and the Montmorency Club, on the Exhibition grounds, and the other between the R.C.R. and the Quebec City on the Plains of Abraham.

There are six games for each team to play in the schedule and the R. C. G. A. have already played five, so that today's game will be their last. Up to date they have got 7 points, and a win today would leave them 9, a lead which no other club could overtake.

The teams are likely to be chosen from the following: R.C.G.A.—Lowther, Boyd, and Kear, Mackintosh, Curtis and Pugh, McGrath, Loshing, Rose, Ryan and Tingman.

Montmorency: Willis, Mills, Sheard, Fleming, Herring, Forbes, West, Roberts, Price, Slater, Phillips, Taylor, Lovett, Larder.

The clubs have met, once before this season and on this occasion the R. C. G. A. came out victors. However, the Montmorency team has been considerably strengthened since then and there is a possibility that the gunners will be minus the service of Boyd, one of their best men, today.

The R. C. R. vs. Quebec. The game between the R. C. R. and Quebec is likely to prove interesting also for the reason that this is the first time that the two teams meet.

The R. C. R. have not had much luck and it is said that they are intending to make a desperate effort to change this condition of affairs this afternoon.

The teams will be chosen from the following: Quebec—Moult, Spry, Prögger, Farnan, Newton, Horlock, Powers, Delehanty, Bartlett, Fuller, Hodgkinson, Hoade.

R. C. R.—Lieut. Alexander, Thompson, Good, Spencer, Lieut. Willoughby, Mills, Johnson, Slowey, McKenna, Fournier, Dumble.

Both matches will start at 3 o'clock. Mr. Warner will referee the game at the Exhibition Grounds, and Mr. Pike the one on the Plains.

BASEBALL SALES. Baltimore, Oct. 17.—The sale of Catcher William Bergen and Outfielder Geo. Maisel to the Scranton club, of the New York State League, was announced today by Manager Jack Dain, of the local International League team.

Bergen was formerly with the Brooklyn Nationals, Maisel is a brother of "Fritz" Maisel, who went to the New York Americans from the Baltimore team this season.

VICTORIA CLUB TENNIS FINALS. The tennis finals of the Victoria Club were played last Thursday, and were very closely contested.

The following results were given: Mr. J. Patry, in the singles, beat Mr. F. Coulombe, by the scores 6-4, 8-10, and 6-3.

In the doubles, Messrs. F. Choquette and J. M. Guerdan won the championship, having defeated their strong opponents, Messrs. J. Patry and F. Coulombe, the scores being: 6-4, 4-6, and 6-4.

DOORKEEPER DIES. Has Seen Seven Canadian Premiers Come and Go. Ottawa, Oct. 17.—Benjamin Chilton, door-keeper of the Canadian Privy Council office, died here tonight at the advanced age of 81 years.

Deceased held the position of door-keeper since 1878 and has seen seven Canadian Premiers and ministers since that date come and go. He was with Sir John A. MacDonald when the latter's death occurred in 1891.

OILS, ETC. Savannah, Ga., Oct. 17.—Turpentine steady, 40; sales, 600; receipts, 345; shipments, 272; stocks, 2,850.

Rosin, irregular; sales, 1,362; receipts, 1,384; shipments, 1,921; stocks, 152,603.

WOMEN'S NATIONAL GOLF CHAMPIONSHIP

MISS RAVENSCROFT MEETS NEW YORK LADY IN TRIALS —MISS DODD OFF COLOR.

Wilmington, Del., Oct. 17.—Miss Marion, Hollins of New York, the youthful metropolitan champion, will represent America in the final match of the Women's National Golf Championship Tournament on the links of the Wilmington Golf Links tomorrow when Miss Gladys Ravenscroft, a former British champion, will endeavor to secure possession of the Robert Cox Trophy, emblematic of the American championship.

Miss Ravenscroft in the semi-final round today easily defeated the present English and Canadian champion, Miss Muriel Dodd, 8 up and 7 to play. Miss Hollins, on the other hand, secured the right to enter the finals only after the hardest kind of a match with Miss Harriet Curtis of Boston.

Although Miss Dodd failed to play up to her usual form, Miss Ravenscroft played the strongest game that has been shown in the present tournament. Her medal score for the first nine holes was 40, while that of her opponent was 48.

The winners of the semi-finals each excelled in distance shots, both driving well. Miss Ravenscroft drove Miss Dodd at every hole, sometimes by fifty and sixty yards. The British-Canadian champion failed to win a single hole and was able to have only three of the eleven played.

GERMAN EXPERT TRAINS ATHLETES

ALREADY HAS SYSTEM FOR WORK AMONG THE STUDENTS.

Berlin, Oct. 17.—A. C. Kraenzlein, who has come to Berlin to prepare German athletes for the next Olympic Games, is already engaged in building up a comprehensive training organization, which will afford facilities for athletic practice for young men in all parts of the empire.

The Germans have shown faith in his ability by giving him unrestricted charge of all training operations. Officials of local athletics articles in various parts of the country look to him for ideas and instruction.

"Physically," he said, "the German students appear to be far inferior to the Americans. I doubt if any German university could get together the right material for a football team.

"The arm, however, provides excellent physical discipline, and I am trying to find strong men among the young soldiers. The enthusiasm and determination for which the Germans are noted is admirable. They are willing to work outdoors from April to November, and then put in the whole winter training hard in doors.

The Berlin stadium is magnificent. There is nothing to compare with it here at Harvard, Syracuse or on the Pacific Coast.

The German athletic commission, which recently made a tour of the United States is planning to make use of the lessons learned there. Carl Diem, head of the commission, has given a series of lectures on American athletic methods, illustrated with moving pictures.

WHITE SOX CLUB STARTS WORLD TOUR

Chicago, Oct. 17.—The White Sox Ball Club, Chicago champions, left tonight for Cincinnati, Ohio, where, tomorrow, they will meet the New York Nationals in the first game of a baseball tour around the world.

The local players left aboard a special train which is to be their home almost continuously until they board the steamer at Vancouver, Nov. 20, for Japan.

President Comiskey and a large number of rooters accompanied the team to Cincinnati.

Games have been scheduled to take place almost daily before the teams embark on the Pacific Coast.

WEIRD PROPERTY FOUND ON STREETS OF PARIS

Paris, Oct. 17.—Among the property lost last week in the streets of Paris and unclaimed by the owners were five long prose manuscripts, four long manuscripts in verse, and two concerning which the police are not certain whether they are in verse or prose.

There are 43 corsets, 721 bunches of keys, 23 boots and hats, which in a year and a day will become the property of the finder if he likes his game high.

McFARLAND TRIMS TOMMY MURPHY

PACKY OUTFIGHT AND OUT-BOXED OPPONENT IN EVERY ROUND.

New York, Oct. 17.—In a ten round bout at Madison Square Garden tonight Packy McFarland of Chicago outboxed and outfought Tommy Murphy of this city from start to finish, never giving Murphy a chance in any round. McFarland weighed 140 and Murphy 138 pounds.

The Chicago fighter gave a clever exhibition of boxing throughout. In the first round Murphy was unable to reach his opponent with a clean blow while McFarland rained left jabs and right hooks to the head and face. At close quarters Murphy's short-arm work was cleverly blocked by McFarland, who acted as though he was giving boxing lessons. Murphy was able to reach the body only a few times in the entire fight. He did not land a dozen clean blows, and these had no effect on the stocky champion. Murphy was frequently carried across the ring with right hand smashes to the head and face and at times he stood as if bewildered.

Murphy appeared to tire in the sixth after receiving a hard right uppercut to the jaw. The crowd kept calling to McFarland to put him out but McFarland contented himself with jabbing lefts to the face and hooking rights to the head with an occasional hard left to the body. During the seventh and eighth McFarland frequently slapped Murphy in the face with the back of his right glove. It appeared as though the Chicago fighter could have brought the bout to a quicker termination had he so desired.

X-RAY TEST ON ATHLETES Physician Finds Dilated Heart Does Not Interfere With Health.

London, Oct. 14.—After an examination by X-rays and otherwise of the hearts of 250 athletes and 300 students Dr. Bender, of Budapest, would discard the term "sport heart" as used on the Continent for cardiac dilation in athletes.

His examinations were confined chiefly to defining the outlines of the heart. He found that of those persons who had been taking part in athletic sports and active bodily exercise for a year or two the majority manifested some dilation of the heart, which, however, did not at all interfere with their health. He was inclined to regard such dilation as a semi-physiological condition with those who are habituated to athletic sports and exercises. His conclusion is that such exercise, even when decidedly energetic, are not injurious because the vascular system and the cardiac action gradually adopt themselves to a slight dilation.

Neither does arterio-sclerosis occur in a greater percentage in athletes than among other persons. Of course, the conclusions apply to normal and healthy subjects and not to those who are addicted to any excess or over-indulgence in alcohol or tobacco.

"DIED SUDDENLY, BUT OF NOTHING SERIOUS"

Madison, Wis., Oct. 17.—Of the hundreds of death certificates handled annually by the State Board of Health in making its classification of diseases many contain interesting remarks as to the cause of death. These death certificates generally are filled out by a local physician and mailed to the board. Some of the "causes," as found in the reports by Chief Statistician L. W. Hutchcroft, follow:

"A mother 'died in infancy.' "Went to bed feeling well, but woke up dead."

"Died suddenly at the age of 103. To this time he had fair to reach a ripe old age."

"Do not know cause of death, but patient fully recovered from last illness."

"Deceased had never been fatally sick."

"Died a mere child!" (An infant of 1-2 year.)

"Last illness caused by chronic rheumatism, but was cured before death."

"Died suddenly, nothing serious." "While cranking his automobile sustained what is technically known as a colles fracture of the right rib."

"Pulmonary hemorrhage—sudden death." (Duration, four years.) "Kick by horse shod on left kidney."

"Chronic disease." "Deceased died from blood poison caused by a broken ankle, which is remarkable, as the automobile struck him between the lamp post and the radiator."

"Exhaustion." PAID \$800,000 FOR GAMBLING New Government at Budapest Will Annul the Concession.

Vienna, Oct. 17.—There has been a great sensation caused by the revelations of Budapest newspapers regarding the concession for a gambling establishment which the former Hungarian Prime Minister Dr. Von Lukacs granted to the Allgemeinen Verkehersbank. This gambling establishment was to be established on Margaret Island in the Danube opposite a royal palace. The Verkehersbank declares it has placed \$800,000 at the disposal of the Government of Dr. Lukacs and certain deputies of the National Labor party in return for the concession. As the present Prime Minister, Count Tisza has annulled the concession granted by his predecessors, the Verkehersbank intends to bring an action against the Government for the recovery of the money.

These Young Men's Suits Are Really Young Men's Suits

They are special models, originated expressly for young men.

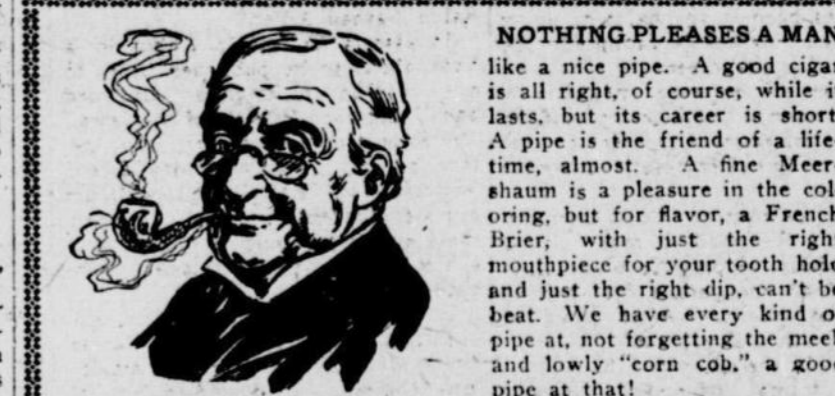

The spirit of youth is incorporated into every line of these new models. The air of youthfulness they wear—and the air of youthfulness they reflect on the wearer—show how carefully the designer has caught the young man's ideals.

The patterns, too, are distinctly youthful—novelty weaves and colors that are most suitable for youthful faces and figures.

Every price—from \$15. to \$35.—represents honest value.

GOVERNOR GLYNN'S POSITION UNIQUE

IS FIRST TO ATTAIN OFFICE THROUGH IMPEACHMENT OF PREDECESSOR.

Albany, N.Y., October 17—Two features unique in the history of New York State marked Lieutenant-Governor Martin H. Glynn's assumption of the office of Governor today.

LAW INVOKED FIRST TIME.

The constitutional oaths of office heretofore have been administered almost without exception by the Secretary of State or attaché of his office.

That law was invoked for the first time today, when Judge Cullen who had voted against the conviction of Governor Sulzer on everyone of the articles of impeachment, and who but a few hours before had excused himself from voting on the question of his removal from office, administered the constitutional Governor's oath to the new chief executive.

Mr. Glynn was not in the Capitol when the vote removing his predecessor was taken. He arrived shortly afterward, however, and was immediately surrounded by friends, both political and personal, all eager to offer congratulations.

Refuses Congratulations.

"Don't offer me congratulations," Governor Glynn admonished the throng. "This is not a time for them. I do, however, accept your good wishes and thank you heartily for their sincerity and cordiality."

According to the ruling of presiding Judge Cullen, Mr. Glynn became Governor the instant the High Court of Impeachment had voted to remove William Sulzer. This was a minute or two before noon. Governor Glynn however, did not exercise any of the prerogatives of the office until after he had been sworn in, and the oath filed with the Secretary of State.

He met the newspapermen late in the afternoon. To them he said he had no aspirations to become the "leader of the Democratic party of the State."

"I shall be content to be Governor," he said. "I intend to move slowly and carefully. I propose to be Governor of all the people first and to serve the public. After that, of course, I am a Democrat."

Earlier in the afternoon he had issued a formal statement outlining briefly his future policy.

Glynn's Statement.

Martin H. Glynn, who today became Governor of New York as the result of the removal of Governor Sulzer, issued a statement this afternoon, in which he declared that he would insist upon "economical, clean, orderly and efficient transaction of the State's business."

"This is not an occasion for exultation," he said, "and I have no such feeling. To me it is an occasion of solemnity mixed with sadness. I am charged with the duties of Governor not through any act or desire of mine, but because the law, which I have sworn to uphold, imposed the obligation upon me under the distressing circumstances of the situation that has arisen."

"However, now that the court for the trial of impeachment has rendered its judgment and, thereby, under the mandate of the constitution of our State, the powers and duties of the office of Governor devolve upon me, I must take up the work of the office free from the limitations which existed from the impeachment to the conclusion of the impeachment trial. The office must now be administered under a policy for which, since it be my policy, I assume the responsibility."

"My earnest endeavor shall be to give to the people of the State an honest, peaceful, progressive and wise conduct of their public affairs. I will insist upon a business administration which means an economical, clean, orderly and efficient transaction of the State's business."

Will Not Be Factionist.

"I will not be a factionist. I will not devote the time which I owe to the State to partisan politics, within or outside of my own party. I keenly appreciate the high responsibilities that it is my duty to meet and to discharge, and I will try to give an administration in keeping with the genius of our people and the dignity of the State."

"To the accomplishment of this purpose, I promise my best efforts. With God's help, I will faithfully execute and see to the execution of the laws of this great State, with an eye single to the welfare of the sovereign people whom I serve. Their welfare, the dignity and honor and well-being

of the State shall be the aim of all my efforts, the goal for which I will unflinchingly strive. To achieve this purpose, I seek the advice and ask the support of all by fellow citizens."

Robert F. Wagner, who became Lieutenant-Governor, declined to make any statement. He is succeeded as president pro-tem of the Senate by James J. Frawley, chairman of the Finance Committee, and who headed the Frawley investigation committee.

Appointments Delayed.

Governor Glynn announced that he would make no appointments tonight and probably not until Wednesday. The legislature today recessed until Wednesday night, and, although the new executive made no definite announcement of his plans, it is generally believed he will send to the Senate for confirmation, appointments of two up-State public service commissioners, a State commissioner of labor, and a health commissioner.

There is also a possibility that he may appoint a successor to Superintendent John B. Riley, of the State prison department.

When Governor Glynn assumed his new office, the duties, honors and emoluments of the Lieutenant-Governorship fell to Robert F. Wagner, of New York, president of the Senate. His salary will be \$5,000 a year. As Senator he received \$1,500.

Senator Wagner's duties as floor-leader of the majority probably will fall to the lot of Senator James J. Frawley by virtue of his position as chairman of the Senate finance committee, although it was pointed out tonight that the Democratic Senators had the power to choose another leader if they saw fit.

Governor Glynn does not propose to take up his official residence in the executive mansion for some time. He said it had been his custom for many years to remain in his summer home at Cedar Hill until about the first of November, and his household probably would not depart from their custom this year.

The new executive is an Albany newspaper publisher, 42 years old. He has been active in politics for the past fifteen years. He served one term in Congress—from 1898 to 1900—and one term as State Comptroller, from 1906 to 1908. In 1901 President McKinley appointed him a member of the National Commission on the Louisiana Exposition, and he was elected its vice-president. He is married. He is a Democrat, but has been endorsed in his campaign by both that party and the Independence League.

KING OF BRITONS SAVED BY RABBI.

Told Queen Victoria the Law Before Birth of Present Ruler.

Berlin, Oct. 17—That King George sits on the throne of Great Britain and India and his father before him, is due to the presence of a Jew, Rabbi Nathan Adler.

So asserts Dr. Adolph Kohut in a book about to be published here; to put its title in English, "Crowned and Uncrowned Friends of the Jews." Dr. Kohut insists that very soon before her first son was born Queen Victoria went to Italy and, with her minister's assent, intended to remain there until she should be blessed with a boy, the heir to the throne, or another girl.

It was then, according to Dr. Kohut, that the learned rabbi Nathan Adler, who, for the benefit of his fellow religionists, had studied English law, went to the British Foreign Minister and informed him that as heir to the crown of England must be born on English soil and if the birth took place abroad the expected prince would lose his right to the throne.

On the rabbi's advice the ministers agreed that the queen should return to England and Edward, the peace-maker, was born soon afterward.

Dr. Kohut says that King Edward never forgot what Dr. Adler had done for him. Dr. Adler afterward became chief rabbi, and on his death, was succeeded by his son, Dr. Herman I. Adler, who also had the warmest sympathy of King Edward.

The Weather

Toronto, Oct. 17—A shallow depression which moved quickly to the lake region from the southwest has caused showers today over western Ontario. Light local showers have also occurred in the Gulf of St. Lawrence and Maritime Provinces, while in the West the weather has been fine.

Minimum and maximum temperatures: Dawson, 8-22; Victoria, 44-50; Vancouver, 42-50; Kamloops, 34-48; Calgary, 20-48; Edmonton, 22-46; Battleford, 22-50; Prince Albert, 30-42; Regina, 20-42; Winnipeg, 34-52; Fort Arthur, 30-44; Pelly Sound, 38-52; London, 52-57; Toronto, 51-57; Kingston, 46-60; Montreal, 54-54; Quebec, 46-52; St. John, 54-58; Halifax, 58-70.

Forecast.

Lakes and Georgian Bay: Showers at first, followed by clearing weather with fresh northwesterly winds and cooler.

Ottawa and Upper Lawrence: Fresh winds with showers.

Lower Lawrence: Cloudy and cool with showers.

Gulf: Easterly and northeasterly winds, cloudy and cool with occasional showers.

Maritime: East and northeast winds, cloudy with occasional showers.

Superior: Fresh northerly winds, showers at first at the Soo; fair at Port Arthur.

Manitoba: Fair, not much change in temperature.

Saskatchewan and Alberta: Mostly fair, but some light local showers or snow flurries.

MURPHY WAS JUDGE, JURY, PROSECUTOR AND BAILIFF ALSO

(Continued from Page One)

By a virtually unanimous vote, also, the impeachment tribunal decided that Sulzer should not be punished by disqualifications to hold office of honor and trust in this state in the future. This would have been the extreme penalty under the law.

The ousted executive was served with a copy of the verdict of the court at the executive mansion—christened by himself "the peoples house"—a few minutes before 6 o'clock tonight.

"Good, I thank you," he said to the Sergeant-at-arms of the Senate who delivered the document.

Mr. Sulzer, private citizen, will leave the capital probably on Sunday—wherefor he has not disclosed.

The outgoing executive issued a statement in which he denounced the tribunal which had removed him as "Murphy's high court of infamy."

Sulzer declared that his trial was a "political lynching as far as the Tammany part of the court was concerned—the consummation of a deep laid political conspiracy to oust me from office."

"A horse thief in frontier days," he said, "would have received a squarer deal."

"Had I but served the boss with half the zeal I did the state William Sulzer would never have been impeached," he said.

SULZER STATEMENT.

"Horse Thief in Frontier Days Would Have Had Square Deal."

Albany, N. Y., Oct. 17.—The Sulzer statement follows in part:

"In response to requests from friends throughout the state, for some expression from me I can only say at this time that I am glad my trial is over.

"By virtue of a power, beyond the present control of our electorate I now hand back to the people the commission they gave me, and I hand it back to them—untarnished and unsullied.

"My lips have been sealed for weeks, during which time I have patiently submitted in silence to abuse and vilification.

"My trial, from beginning to end—so far as the Tammany part of the court was concerned—was a farce—a political lynching—the consummation of a deep laid political conspiracy to oust me from office. I am glad it is all over. I am tired of being calumniated, tired of being hunted and hounded; tired of trying to do my duty and being traduced.

"The court ruled in everything against me, and ruled out everything in my favor. The well settled rules of evidence were thrown to the winds. A horse thief in frontier days would have received a squarer deal.

"Mr. Murphy controlled the Assembly and 'ordered' the impeachment. He controlled most of the members of the court and dictated its procedure and wrote the judgment. He was the judge and the jury, the prosecutor and the bailiff.

"The meetings of the court were in secret and behind closed doors. It was a star chamber proceeding, where the enemies of the state could work for my conviction undiscovered.

High Court of Infamy.

"They called it The High Court of Impeachment, but history will call it 'Murphy's high court of infamy.' The trial was a human shambles; a libel on law; a flagrant abuse of constitutional rights; a disgrace to our civilization; and the verdict overturned the safeguards of liberty and the precedents of three centuries. The judgment will not stand the test of time. The future historian will do me justice, and posterity will reverse the findings of the court.

"There is a higher court than Murphy's—the court of public opinion. I appeal from Murphy's court of political passion to the calmer judgment of the future and the sober reflection of public opinion.

"When I declined to obey the 'orders' of the 'boss' about patronage; when I refused to call off Hennessey and prevent further investigations of graft; and finally, when I set in motion the wheels of the machinery of the courts to bring the criminals to justice and to stop the looting of the state, then, and not until then, did Mr. Murphy threaten me with degradation, and with removal from office. From that day to this all that money, all that power, all that influence can do to disgrace me, and destroy me, has been done. It is a long story, but it will all come out sooner or later.

A Temporary Victory.

"Mr. Murphy and the special interests, which I antagonized, have won a temporary victory; but the fight for reform and for honest government will go on. The farce of my trial will have a good effect in the end. It has opened the eyes of the people to the graft of millions of dollars annually and it will hasten the adoption of the initiative and the referendum; bring about the recall of public officials, including judges and judicial decisions, and write upon the statute books other reforms, especially a direct primary law, so that the voters, instead of the bosses, will nominate as well as elect all officials to public office.

"The people now know that the power to nominate public officials is the power to control these public officials; and that we cannot have honest government in the State of New York until the voters nominate and control all public officials.

Honest and Faithful.

"As the Governor I have been honest and faithful to my trust. No influence could control me in the performance of my duty but the dictates of

The Magnetic Girl

How She Compels Others To Obey Her Will.

100,000 Copies of Remarkable Book describing Peculiar Psychic Powers to be Distributed Post Free to Readers of the Quebec Chronicle.

"The wonderful power of Personal Influence, Magnetism, Fascination, Mind Control, call it what you will, can surely be acquired by everyone, no matter how unattractive or unsuccessful," says Mr. Elmer Ellsworth Knowles, author of the new book entitled: "The Key to the Development of the Inner Forces."

The book lays bare many a startling fact concerning the practices of the Eastern Yogis, and describes a simple though effective system of controlling the thoughts and acts of others; how one may gain the love and friendship of those who might otherwise remain indifferent; how to quickly and accurately judge the character and disposition of an individual; how to cure the most obstinate diseases and habits without drugs or medicines; even the complex subject of projecting thoughts (telepathy) is explained. Miss Josephine Davis the popular stage favourite, whose portrait appears above, declares that Prof. Knowles' book opens the door to success, health, and happiness to every mortal, no matter what his or her position in life. She believes that Prof. Knowles has discovered principles which, if universally adopted, will revolutionize the mental status of the human race.

The book, which is being distributed broadcast, free of charge, is full of photographic reproductions showing how these unseen forces are being used all over the world, and how thousands upon thousands have developed powers which they little dreamed they possessed. The free distribution of the 100,000 copies is being conducted by a large London institution, and a copy will be sent post free to anyone interested. No money need be sent, but those who wish to do so may enclose 5 cents (stamps of your own country, to cover postage, etc.). All requests for the free book should be addressed to: National Institute of Sciences, Free Distribution Dept., 248, B., No. 258, Westminster Bridge Road, London, S.E., England. Simply say you would like a copy of "The Key to the Development of the Inner Forces," and mention the Quebec Chronicle. oct11aw.satz3w

my conscience. I have lost my office, but I have kept my self respect. I would rather lose the Governorship than lost my soul; and no Governor can serve God and mamman; the state and special interests; the people and the boss; the visible and the invisible government.

"Let us indulge the hope that my loss of the Governorship will be the people's gain. Misfortunes are often blessings in disguise. If my undoing by an arrogant and corrupt and desperate 'boss' shall be the humble means of forever destroying 'bossism' in the State of New York, I shall be content and feel that I have not struggled in vain for better things.

The Hennessey Matter.

"When the court determined to exclude the evidence of Mr. Hennessey and thus prevented by establishing facts which would discredit the testimony of Mr. Peck and show his motive for telling an untruth, which would also disclose what has been discovered in the way of crime and corruption in the various departments of the state government and which were largely the inducing causes in bringing about my impeachment in order to prevent further disclosures and prosecutions, I became satisfied that it was useless to present myself as a witness because the defence that I best and most efficient means of clearing my name would not be permitted to be told by me in court.

Denies Testimony.

"Let me say here that I wanted to take the witness stand in my own behalf—especially to tell the story of my troubles with the 'boss' and to deny the Peck fabrication; the absurd story of Allan Ryan; and to explain the Morgenthau testimony. But I was finally persuaded not to do so by those who have in view the real welfare of the state, and because under the rulings of the court refusing to accept the testimony of Mr. Hennessey, and other witnesses in my behalf, it was apparent that my story of the reasons Murphy 'ordered' my impeachment would also be ruled out as incompetent and inadmissible; and I was further advised that as no evidence against me had been adduced of 'wilful and corrupt misconduct in office' that therefore I had committed no impeachable offence, as the Governor of the state; and hence could not, on the evidence before the court, be legally or justly removed from office.

"Those familiar with the facts can testify that Peck lied about me to save his job; that Morgenthau was fooled by the clever ruse of an unscrupulous enemy; and that Allan Ryan was in Albany several days under the tutelage of astute counsel to aid the prosecution at the psychological moment, in any way desired.

"Suffice it to say that Allan Ryan came to see me; I did not go to see him; I never asked him, or any other man, to request Senator Root or Delancey Nicoll to see Mr. Barnes or Mr. Murphy or anyone else for that matter, to do aught for me regarding the trial. These matters were afterthoughts of the prosecution to injure my cause with the public and prejudice my case with the court.

"Another thing. Every dollar given me, which I deposited to my personal account, was subsequently turned over by me to the committee in my office, or to an agent of Mr. Murphy, or to the state committee. The truth about this is known. I will go into details later on.

"It is now apparent that the stories put in circulation regarding moneys given to me when I was a candidate for Governor were grossly exaggerated, industriously circulated, and prominently printed for the purpose of prejudicing my case before the people. But never mind about that now. As Kipling said, 'that's another story.'"

His Financial Affairs.

"Much has been said about my financial affairs. I want to tell the public the truth about my financial condition, so that there will be no

They Fit Well

Our Street and Evening Gowns fit well. No delays and no deception. You are not obliged to accept any defects. You do not have to accept unless you are entirely satisfied after fitting on our goods.

We do not handle any inferior goods and we have only one price.

The prices of Gowns vary from \$5.00 to \$40.00.

If you wish for everything good and everything choice come to us and you will get entire satisfaction.

COTE & LEMIEUX, Specialists. 52 Crown Street

more falsehoods about it. "Before I was a candidate for the Governorship I was in debt about \$70,000 and had more assets than I have at present. "The truth is I owe now as follows: "L. M. Josephthal \$27,000. "Hugh J. Reilly \$26,000. "E. P. Meany \$10,000. "A. E. Spriggs \$8,500. "Ogilvie & Company \$3,000. "Smaller creditors about \$1,600. "Making a total of \$76,000 besides the cost of my trial. "I own no real estate; no mortgages; no stock or bonds, and no other assets save an equity in some stock in two small mining companies. This mining stock has no market value. I have been unfortunate in mining matters, and, insofar as I could, got out of them last year. "I had on deposit in the Farmers' Loan and Trust Company before my nomination over \$11,000; I have on deposit there now not much more, and that is all the money I possess. Take it all in all I am poorer today than I was before the fight for the Governorship began last fall.

Rejected Offers.

"Had I wanted to make money out of my campaign for Governor, I certainly would not have rejected, as I did, offers of donations from several citizens of upwards of \$100,000—and borrowed the money I did from Reilly and Meany and several others. The court ruled out all testimony concerning these large sums of money offered to me by Judge Beardsley and others and which I declined at the time to accept for good and sufficient reasons.

"I want to thank Judge Cullen and the members of the court who voted for my vindication; the able lawyers who stood by me and gave me wise counsel; and the friends of good government throughout the state whose belief in my honesty and whose faith in the rectitude of my intentions never wavered.

"I have fought a good fight against tremendous odds for honest government; I have kept the faith; I have been true to my official oath; I have stood by the people; I have dared to defy Boss Murphy, and I did it in the face of threats of exposure and personal destruction.

"Had I but served the 'boss' with half the zeal I did the state, William Sulzer would never have been impeached.

"Looking back over it all, I am frank to say that I now realize I should have been more careful in some matters last fall, but I was so busy in the campaign that I gave no heed to details and trusted others, some of whom have proven treacherous; but so far as my administration of the Governorship is concerned, I have no regrets, as my conscience is clear and tells me truly that I have done no wrong, but my whole duty fearlessly and honestly—day in and day out—to all the people of the state—as God gave me the light to see the right.

"At some future and more opportune time, I promise to make a further public statement, and I am inclined to the conclusion that I would rather express my views from the platform, where I can look into the

PROSPECTING TRIP IN BAFFIN'S LAND

OTTAWA MEN WHO WENT WITH BERNIER EXPEDITION FOUND NO GOLD—BRING BACK FURS.

Ottawa, Oct. 17.—After 12 months' stay in North Baffin's Land, in latitude 73, where the thermometer loafs around 45 degrees below zero...

"Of course we had many thrilling experiences," said Mr. Lawson, "but the particulars of these we will make public later."

Mr. Wilson and myself went as prospectors for Capt. Bernier. We hoped to find gold and silver deposits, but did not.

"From Nov. 9, 1912, until Feb. 3, this year, the party never saw the sun. During the time the light never got brighter than twilight."

Herr August Bebel, the late German Socialist leader, whose funeral at Zurich was attended by 15,000 people, was not a pessimist.

THE TORTURES OF RHEUMATISM

Driven From the System by Dr. Williams' Pink Pills.

The sufferer from rheumatism who has not gone about curing himself in the right way must expect a return of the torture with every change to cold or damp weather.

Rheumatism can only be driven out of the system by driving out the poisonous acid in the blood. This can only be done by making the blood supply rich, red and pure.

How To Keep The Hair Beautiful

A good picture surrounded by an ugly frame loses more than half its beauty. A beautiful face beneath lifeless hair loses its attraction.

To keep the hair in good condition it needs air, light and exercise. The latter can be given by means of vigorous brushing. Select a good brush for this purpose; pay more attention to bristles than to the back.

When all of the dirt has been removed rinse the brush in clean water and place it with bristles down to dry. This cleansing is necessary once a week.

For an oily condition of the scalp the following is an excellent formula: Quinine Hair Tonic. Sulphate of quinine 1 dram, Rosewater 8 ounces, Diluted sulphuric acid 15 minims, Rectified spirits 2 ounces.

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic.

NO BETTER.

Herr August Bebel, the late German Socialist leader, whose funeral at Zurich was attended by 15,000 people, was not a pessimist.

HER DRESSES ARE SYMBOLIC

Nazimova Understands the Psychology of Dress—See the Ones She Wears in "Bella Donna."

Nazimova has often been asked why it is she plays so many parts like "Bella Donna." Her answer is always the same: "Because they fascinate me—because there is always a depth to such a woman's character to study."

For an oily condition of the scalp the following is an excellent formula: Quinine Hair Tonic. Sulphate of quinine 1 dram, Rosewater 8 ounces, Diluted sulphuric acid 15 minims, Rectified spirits 2 ounces.

COGNAC

which has been in highest favor in this country, ever since its introduction over fifty years ago. Its popularity has increased every year for very simple reasons: it is absolutely pure, it has an exquisite aroma, a mellow and penetrating flavor and standard quality. The success of JULES ROBIN CO. COGNAC is due solely to its merits.

SOLD BY ALL LEADING WINE MERCHANTS.

**HAS NEW CONTINENT BEEN STUMBLER ON?**

OR IS ALLEGED RECENT DISCOVERY ONLY A PART OF TERRITORY ALREADY DISCOVERED.

From the reports brought back by Commander Wilitsky from the Far North it would appear that the two Russian Government vessels under his command had penetrated some distance into the unexplored region to the north of Siberia. Not far, it would seem, had they to go before they reached a northern shore of the Arctic Ocean, for at a point 81 degrees north latitude and 102 degrees east longitude they touched the coast of what appeared to be a northern continental mass. With two or three interruptions on account of the ice pack the vessels were able to cruise along the coast line from the point we have mentioned to north latitude 79 degrees and 104 degrees east longitude. It would thus appear to be an extensive body of land the expedition encountered. That it was land and no mere mass of ice seems to be put beyond question by the description of its physical features. The shore is high and rocky, its cliffs being abrupt. Many high peaks were to be seen in the interior, and there were indications of volcanic action, past and possibly present.

**Terra Incognita.**

Though Arctic explorers have added immensely to the sum of the world's geographical knowledge, a vast portion of the North Polar region still lies beyond our ken, and the new land Commander Wilitsky is reported to have discovered is said to be part of that great terra incognita. Of Greenland and of the Arctic Archipelago to the west of it and immediately north of Canada's mainland much has been ascertained. But the remainder of the region enclosed by the Arctic Ocean presents a great tract of which but little has yet been found out. Peary is of the opinion that the North Pole is in a continental mass. This discovery of Wilitsky's, if discovery it is, would indicate that there is a continental mass which might be continuous over the North Pole. It would seem strange, however, that it before escaped discovery, seeing that it is so close to Cape Cholyuskin, in Northern Siberia.

**Is It Genuine?**

After Dr. Cook's experience it would seem improbable that there would be any further romancing about discoveries in the Arctic regions. Dr Cook might not have hurried back with his tale of finding the North Pole had he not been aware that Peary was upon that quest and was likely to be successful. It was a case of intelligently and unscrupulously trying to anticipate the fame of another man. Commander Wilitsky appears to have left Vladivostok on the 10th of June last. By that time all the world knew of the Canadian exploratory expedition led into the North by Captain Stefansson. Now comes the report that Wilitsky has found the continent of the North, which Stefansson might have touched from his North American approach. There is of course in that part of the world work for explorers for years to come, and if the northern continent is discovered Stefansson will have plenty of other information to bring back about the North.

**Under Which Flag?**

The Russian commander is said to have raised his country's flag on the new land. But if that new land extends over the North Pole there is already a national flag flying upon it, for Peary hoisted the Stars and Stripes at the Pole. It may be found, too, that the British flag is planted on some portion of the tract. The question of ownership of lands discovered in the Arctic circles is one to which the Russian Government has given much attention, and years ago it proposed an international conference for the purpose of allocating northern islands and settling disputed claims in that part of the world. Canada's interest has never extended beyond the northern regions within its own meridional lines. Canada claims the sector of the Arctic Circle enclosed between the radii formed by the country's most westerly and most easterly longitudinal lines. This principle was long ago laid down by the Government of Sir John Macdonald. If there is a continental mass, as Wilitsky maintains, and if it takes in most of the unexplored area, the greater part of it will be matter of dispute between Russia and the United States, as it lies largely within their two sectors of the Arctic Circle.

**Potential Benefit.**

That the polar regions may some day be brought into utility is not impossible. What indeed is impossible in this progressive age? Great though the success of exploratory enterprise has been, it has not yielded such wonderful results as have been obtained by applications of the modern scientific spirit along other lines. Science has greatly facilitated geographical

The Little Six \$1,895

**The Original Mitchell Engineer**

Again at the head of the Mitchell-Lewis Motor Company—a matchless line for 1914

The Mitchell 1914 Line is being produced by Engineer John W. Bate, the man who created the Mitchell car, and the famous Mitchell Baby Six. After a year's rest he returns to Racine to place the Mitchell in a stronger position than it has ever occupied.

The Mitchell-Lewis Motor Company, with unlimited capital at its command, has surrounded Mr. Bate with the best facilities and the finest factory that it is possible to build. It will back the car with the most liberal Service-Policy for car owners that the business mind can conceive.

Eighty years of faithful service to the American public is the Company's Guarantee This Means for the Mitchell Car for 1914

**Quality—Efficiency—Long Life**

The Mitchell Little Six is the most logical value on the market. It has a long, low, racy streamline body, luxuriously upholstered, is equipped with electric self-starter and generator, electric lights and all modern conveniences, sells for the reasonable price of \$1,895

**Equipment of All Mitchell Models**

- Electric Self-Starter and Generator.
  - Electric Lights
  - Speedometer.
  - Mohair Top and Cover.
  - Rain Vision, Ventilating
  - Quick Action Windshield.
  - Extra Removable Rim.
  - Double Extra Tire Carrier.
  - Bar Bow Holders.
  - License Plate Bracket.
  - Electric Horn.
  - Electric Exploring Lamp.
  - Complete Set of Tools.
  - Pump, Jack.
- All included in list price.

Prices F.O.B. Racine

Duty not paid

The Mitchell Big Six is very much the same design as the Little Six. It has sixty horse-power, 144 inch wheel-base and seats seven passengers. It has big tires and the same splendid finish throughout as the Little Six, likewise the \$2,350

The Mitchell Four has 120 inch wheel-base, forty horse-power and seats five passengers. It is a splendid family car for little money. It is equipped precisely the same as \$1,595

No matter which one of the Mitchell cars you select, you will make an investment. You have Bate's word for it. You have our word for it. And the service that lies behind it is ten times better than a guarantee. We are going to make you like the car, like us and like the agent you deal with. In all respects this is to be a Mitchell year and you will love

discovery by the powers, conveniences and comforts with which it has provided explorers, and science may find ways of unlocking great resources of the Arctic regions for the benefit of mankind. The northern explorers are finding out much about the conditions of life in that region. They are obtaining valuable information about the ice movements, and in this way are providing data that ought to be useful in dealing with problems of navigation.—Toronto Mail.

**TURNING THE TABLES.**

The scene was a registry office. A mistress was endeavoring to engage a maid.

"How many are there in the family?" asked the latter.

"Three; my husband, myself, and daughter," was the reply.

"How many afternoons out will you give me?"

"Every second Sunday, and one every week."

"Shall I have any evenings to myself?"

"Oh, yes, every Thursday evening."

"Well, I think I'll give you a trial for a while, anyway."

"Oh, thank you. But just a moment. Do you play the piano?"

"No, mum, I do not."

"Well, I suppose you can dance, or give dramatic readings from the poets, or something like that?"

"I'm no actress, mum."

"Hum. Can you play a good game of bridge?"

"No, mum, I cannot."

"Dear me, this is too bad. But don't you golf or tennis or go in for athletics, generally?"

"I'm no tomboy."

"Then I'm afraid you won't do. No, really you won't do at all. You see, I want somebody who will entertain my guests while I do the work."

**TERRIBLE TOLL IN THE COAL INDUSTRY**  
**HAZARD TAKEN BY THE COLLIER IS A SORRY ONE—CONDITIONS ARE HARD.**  
 (Ottawa Citizen.)  
 Once again the coal industry of South Wales has taken a terrible toll in miners' lives. A sudden explosion... and of the 900 men toiling in the Cardiff pit only 500 are left alive to make their way, grim slaves, to the surface. Truly the hazard taken by the collier is a sorry one. He is lowered down a black shaft, possibly thousands of feet deep into the crust of the earth. Reaching the bottom and leaving the lowering cage he must make his way, possibly for a mile underground, along narrow galleries and low tunnels, sometimes crawling on hands and knees, until he reaches the place allotted to him at the face of the coal seam. There, crouching low, unable to stand upright, he begins his day's work. Maybe the coal mine is near the sea-shore. After descending the shaft the pitman may have penetrated far under the ocean. It is rolling thousands of feet overhead, separated from the worker by a solid crust of rock and mineral. But through the low roof, drip, drip, falls a steady stream of water, percolating from the salt sea, saturating the miner, who toils grimly, in a hot underground temperature and damp cold dust.  
 To keep the roof from falling in, crushing and burying the pitman under tons of rock, pit props are studded, column-like, throughout the part where the men work. At the seam face the heavier marks off a suitable block of coal and commences to clear away underneath and around, with pick and drill, until the block would appear to be loose enough to blast off. Shots, charges of gunpowder, are then placed in the drilled holes; the miner lights the train and retires to a safe distance the gunpowder charge does its work, and there before the heavier lies a mass of coal to be laden into small trucks and drawn by pit ponies and hauling gear to the shaft. Sturdy lads drive the ponies, while smaller and younger boys open and close trap-doors, shutting off air-ways to the different galleries, as the pony trucks pass through. Before the miners combined into a great federated union to protect themselves, the age limit and working hours in the coal mines reduced the pitman to a condition of vile slavery. Keir Hardie tells how he commenced work at the age of 8; then, a mere baby, from his bed at the ungodly hour of four in the morning and carried down into the mine to stay there all day, till dark at night—never seeing the light of day from week end to week end.  
 Explosions such as the Cardiff disaster are caused by an accumulation of coal gas in the mine. Many laws, strenuously opposed by the mining monopoly, have been placed on the statute book by the miners' members of parliament to make working conditions safer. Unhappily the mining operators are between the devil and the deep sea, so far as safety apparatus is concerned. Every concession to the men costs money, leaving less to go for profits. And behind the mining directors stands the privileged land monopoly, never lifting a finger to earn a cent, but adamant in its determination to claim all the surplus after the workers have been paid a bare living wage and the necessary renewal of capital has been provided for. For every ton of coal taken out of a certain mine in Northumberland the great Duke of —, a pillar of society, demands a percentage in the form of a "royalty." The duke need never get out of bed, he possibly has not been near the mine for twenty years, but the royalty, wrung from the sweated toilers in blood and tears, is paid regularly for the privilege of being allowed access to the land—and safety appliances or the men's wages have to suffer. Less than a year ago an explosion in the Cadeby mine killed 88 workers. The Home Office instituted an inquiry. Mr. Robert Smilie, president of the miners' federation of Britain, and Mr. Vernon Hartshorn, of the South Wales miners, presented a report based upon the facts brought out in the evidence, which stated that:  
 "The conditions which preceded the explosion were such as called for action on the part of the management that would have made such an awful slaughter impossible; that ordinary precautions were not taken, and that the lives of the victims of the disaster were sacrificed on the altar of output."

**ENGLAND REACHES LOW BIRTH RATE**  
**REGISTRAR STATISTICS SHOW VERY LARGE DECREASE OF BIRTHS AND MARRIAGES.**  
 London, Oct. 17.—The birth rate in 1911 in England and Wales was the lowest on record, and the causes of the decline which has not been going for many years are examined in the Registrar-General's report, just published. The rate reached its highest point in 1876, when it was 36.3 per thousand. In 1911 it was 24.4. This was 0.7 below the rate of the previous year. The provisional figures for 1912 indicate a further fall of 0.6 per thousand.  
 Perhaps the most remarkable features, it is stated, are the fall in the proportion of marriages to marriageable persons and the evidence of the postponement of marriage by women. Both bachelors and spinsters are marrying later in life. When the result of such a tendency is borne in mind, "it is seen," says the report, "that this change in itself must have an appreciable effect in diminishing the birth rate." It is calculated that the mean marriage age for all husbands in 1911 was 29.03, and that for all wives 26.80 years.  
 Apart from the fact that the consequence of later marriages is fewer children, unwillingness to assume parental responsibility is stated "largely no doubt" to be contributing to the declining birth rate. It is disclosed that the ratio of births to wives of potential ages showed a decrease in the period of 1881-1911 of 34 per cent. Put in another way, if there had been no changes in the directions which the report discusses the births in 1911 would have numbered 1,273,698 instead of 854,505.  
 The extent to which the nation not only produces but rears children can be studied in the report. The Registrar-General makes the comment that an investigation does not encourage the opinion that success in the preservation of young lives as a compensation for failure in their production is likely to go very far in our day.  
 The highest birth rates in the country are those of Wales, and next to them of the North of England; while those of the South are much the lowest and would be very low indeed if it were not for London.

**THE BAGGAGE OF THE DUKE.**  
 The advance guard of the Duke of Connaught arrives by the "Virginian" this week in the shape of two hundred and twenty-five pieces of baggage, all of which, according to ancient tradition, is passed without a murmur by the customs officers as "settlers effects," without as much as a look being disturbed or a rope cut. Of these pieces, one hundred, consisting of the heavier pieces, containing household equipment and utensils, will travel by freight, but one hundred and twenty-five of the lighter cases will be transferred from the wharf at Montreal by motor truck to Windsor Street Station, and will be shipped in a specially guarded C. P. R. baggage car on a passenger train to Ottawa. One piece of "baggage" will, however, have the honor of travelling all by itself. This is the Duke's automobile, a magnificent equipage, which will be driven up a gangway into the back end of a Dominion Express wagon—the type that is usually reserved for racehorses and pedigree animals—so carefully constructed that there is the very minimum of vibration in transit.  
 The first arrival of the Duke of Connaught in Canada caused considerable perturbation in the breasts of the baggage men. They were instructed to take particular care of the two cases containing the Duke's medals and the Duchess's jewels, both totalling in value well over two million dollars. A soldier was detailed with a loaded gun to sit on the two cases, and deep was the breath of relief when the cases were safely delivered at Rideau Hall.  
 On this occasion, however, there is no such concern, for the jewels and medals have already been delivered at Ottawa, and are securely shut in the strong rooms of one of the Banks pending the arrival of the Royal Party.

**LONDON MARKETS.**  
 London Oct. 17.—Raw sugar, centrifugal, 10s 9d; muscovado, 9s 3d.  
 Beet sugar, October, 9s 8 1/2d.  
 Calcutta linseed, October-November, 44s 10 1/2d.  
 Linseed oil, 22c 7 1/2d.  
 Sperm oil, £30.  
 Petroleum, American refined, 8 1/2d; spirits, 9 1/2d.  
 Turpentine spirits, 30s 3d.  
 Rosin, American strained, 9s 6d; do. fine, 15s 7 1/2d.

**THE TORONTO PRODUCE MARKET**  
 Toronto—The quotations on the exchange are as follows:  
 Wheat—Ontario, No. 2 winter, 82a 83c outside, according to location Manitoba, No. 1 northern, 86c; do. No. 2 northern, 84 1/2c.  
 Oats—Canadian west, No. 2, 38c; No. 3 do., 37c at lake ports for immediate shipment. Ontario, No. 2 white, 33a34c outside; do. on track Toronto, 35a36c.  
 Corn—American, No. 2 yellow, 77 1/2c on track, Toronto.  
 Peas—No. 2, per bushel, 90c.  
 Barley—Outside for malting, 56a58c. Buckwheat—Per bush, 53c.

 Millfeed—Manitoba bran, \$23.00 per ton; do., short, \$24.00 per ton, on track Toronto.  
 Eggs—Selected, 34c doz.; fresh 30c; No. 1 stock 28c; No. 2 stock 27c.

**DOHAN'S CLOSING LETTER.**  
 Received over the private wire of M. L. Dohan, broker, Dominion Building, St. Peter St. Phone 4748.  
 New York, Oct. 17.—In the late afternoon the market was quiet, except for a little spurt of bullish activity at about 2:15 p. m., which carried prices up to highest level of the day, but was checked when large interests supplied the stocks as they had done on a previous occasion to avert the possibility that shorts might rush in fright to cover.  
 Rock Island preferred by selling at 19 made a new low record and common fell to within a fraction of its previous low of the year. There was also some selling of the collateral trust four which declined in price to within about a point of the low figure touched in June.  
 The strength of United States Steel in the face of unfavorable trade news was regarded as the most significant feature of the market.  
 Money closed 3 to 3 1/4 per cent. Total sales for the day 338,994, of which 69,897 were done in the last hour of trading.

No. 451. City of Quebec. District of Quebec. To wit: CITY OF QUEBEC. CITY HALL. BY-LAW No. 451. Annexation of the Municipality of Little River (La Petite Riviere), to the City of Quebec.

(Drawn up in the French Language.) At a meeting of the Municipal Council of the City of Quebec, held on the 10th day of October, one thousand nine hundred and thirteen (1913) the following by-law was read for the first time.

It is ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts as follows: 1. After the approval of the present by-law by the municipal electors of the municipality of Little River (La Petite Riviere), in the manner prescribed by law, the territory now comprised within the limits of the said municipality of Little River (La Petite Riviere), shall be annexed to the city of Quebec and shall form part thereof as the ward known as "St. Charles ward."

2. St. Charles ward shall be represented in the Municipal Council of the City of Quebec by two Aldermen, who shall be elected in the manner provided by law, by the municipal electors of the territory so annexed possessing the qualifications prescribed by the charter of this city for voting at the election of one alderman for Seat No. 1, and one alderman for Seat No. 2, and the list of such electors shall be previously made out by the secretary-treasurer of the annexed municipality, who shall forward such list to the City Clerk.

3. As soon as the said Aldermen shall have been elected according to law and will be in default to sit in the Council of this City, the secretary-treasurer of the said Municipality of Little River (La Petite Riviere), shall deliver to the Treasurer of the City all minute books, registers, assessment or valuation rolls, archives, papers and documents whatsoever belonging to the Corporation of the said municipality of Little River (La Petite Riviere), as well as all sums of money that may be in his possession in his capacity of secretary-treasurer, and from and after the date of such delivery, all sums of money due or to become due to the former Corporation of the municipality of Little River (La Petite Riviere), shall be payable only to the Treasurer of the said City.

4. From and after the election of the said Aldermen, the City of Quebec shall alone be liable for the debts contracted by the Corporation of the municipality of Little River (La Petite Riviere), and all moveable and immovable property belonging to the said Corporation shall become and be the property of the City of Quebec.

5. Immediately after the said annexation, the City shall take the necessary steps to cause to be removed and to disappear the toll gates which are erected on the roads of the said municipality thus annexed.

6. The public roadways running from east to west in the said municipality shall be widened in such a manner as to be of a width of sixty feet (60').

7. Such widening shall be executed within two (2) years from the date of the annexation when and where the City Council shall adjudge it to be necessary, and it shall be executed in conformity with the alignment which shall have been fixed and determined previously by the City Engineer.

8. The land required for such widening and to straighten where necessary the said roads running from east to west, shall be ceded gratuitously to the City by the proprietors of the said lands bordering on the roads. And the Corporation of the said Municipality shall before annexation obtain the consent to that purpose of the proprietors interested.

9. The City of Quebec shall introduce the water works into the said roads as needs arises and when it will become necessary.

10. The said roads shall be lighted by means of electric light, in the course of the year following the annexation—and the electric tramway shall be extended upon the said roads within the two (2) years from the date of the annexation.

11. The fire brigade and fire department shall be increased so as to extend to the new ward the protection against fire.

12. During the five (5) years extending from the first of May, 1914, to the 30th of April, 1919, the buildings now existing in the municipality of Little River (La Petite Riviere), and those that will be built in the said new ward to the 30th of April, 1917, shall not be taxed at a higher rate than the rate now in force at Little River (La Petite Riviere), as regards assessments on immovables, and their value as presently entered in the valuation roll shall remain the same for the said purposes.

13. During the ten (10) years extending from the first of May, 1914, to the 30th of April, 1924, the lands employed as farming lands, including the buildings thereon presently erected, shall continue to be assessed at the rate and upon the value at which they are presently taxed, but only as long as they shall remain thus employed for farming purposes.

14. From the 30th of April, 1917, all lands upon which new buildings or new constructions shall be erected in the said ward, shall be subjected

to be assessed in the same manner as in the other wards of the city. 15. The residents of the north side of the river who hold contracts with private companies for the supply of water shall be exempt from the water tax until the 30th of April, 1919.

16. The proprietors or occupants of lands used for farming purposes shall not pay, during the period of ten (10) years following the annexation, any taxes or licenses whatsoever on animals and moveable effects used for the working of the said farming lands, except a tax of fifty cents (50c) per horse, ox or cow watered with water from the City aqueduct.

PUBLIC NOTICE. Is hereby given them, in conformity to law, the above by-law will be read a second time, for adoption, on Friday, the seventeenth day of October instant, 1913.

By order, H. J. B. CHOUINARD, City Clerk.

FIRE COMMITTEE. CITY OF QUEBEC. CITY CLERK'S OFFICE. CITY HALL. TENDERS FOR FIREMEN'S WINTER UNIFORMS.

Quebec, 3d October, 1913. PUBLIC NOTICE is hereby given that the undersigned will receive sealed tenders until Wednesday, the 16th day of October next, 1913, at four o'clock p. m., for the supply of one hundred and forty winter coats (more or less), in dark grey cloth, of eighteen ounces to the yard, and one hundred and forty pairs of winter pants (more or less), in dark grey cloth of sixteen ounces to the yard.

The buttons for coats shall be supplied to the contractor, who shall place them according to instructions from the Chief of the Fire Brigade. The Fire Committee does not bind itself to accept the lowest or any of the tenders.

The Committee reserves the right of exacting securities. The contractor shall pay the notary the cost of drafting a contract and shall provide the Fire Committee with a copy of same. All the uniforms shall have to be delivered for the 15th of December, 1913, and if the contractor has not fulfilled that condition, there shall be retained five dollars a day for each day of delay after said date until the last uniform shall have been delivered.

Tenders are requested to send only one sample of cloth for their tender.

For further information apply at the office of the Chief of the Fire Brigade.

(Signed) AUG. MALOUIN, Secretary Fire Committee.

FIRE COMMITTEE. CITY OF QUEBEC. CITY CLERK'S OFFICE. CITY HALL. TENDERS FOR HAY, OATS, ETC.

Quebec, 3d October, 1913.

PUBLIC NOTICE is hereby given that sealed tenders and endorsed "Tenders for Hay (bale or pressed), Straw, Oats, Bran, Gaudriole," and addressed to the undersigned, shall be received at this office from this day till the 16th day of October instant, 1913, at 4 o'clock p. m., to supply Hay (Timothy Hay, 15 pounds per bundle), Oats, Straw, Bran, Gaudriole, for the fiscal year from the 1st day of November next, 1913, until the 31st of October, 1914, for the Fire Department.

The City does not bind itself to accept the lowest or any of the tenders. The contractor shall pay to the notary the cost of the deed and furnish a certified copy to the City.

Each tender shall contain a receipt from the City Treasurer of the amount of a hundred dollars.

For further information apply to the Chief of the Fire Brigade, No. 1 Fire Station, Fabrique street.

AUG. MOULIN, Secretary Fire Committee.

CITY OF QUEBEC. October 1st, 1913. Public Notice Re Snow Guards.

The attention of the public is called to clauses 4 and 5 of By-law No. 23 concerning the lighting of certain portions of the city, which read as follows:

4. When the apparatus for the said lighting shall be placed in certain places where they may be exposed to damage through the fall of ice or snow coming from the roofs of buildings, the proprietor of said building shall place on the edge of the roof of said building a snow fender or an appropriate and convenient protection bar to prevent the fall on the said lighting apparatus of any snow or ice or objects of a similar nature to damage the said lighting apparatus.

5. If the owner of a building in this city omits or neglects to place on the edge of the roof of his building a snow fender sufficient to prevent the fall on the said electric lighting apparatus, such proprietor shall be liable to a fine not exceeding forty dollars, and in default of payment of the said fine and costs, to an imprisonment for a space of time not exceeding two months.

I have the honor to request proprietors opposite whose property ornamental poles have been erected to kindly have the snow guard above referred to erected immediately.

W. D. BAILLAIRGE, City Engineer.

AGAINST REVISION OF PRAYERBOOK

PROTESTANTS REQUIRE TWO-THIRDS VOTE OF BISHOPS AND DEPUTIES.

New York, October 16—An amendment to the constitution making it impossible to change the title page of the Prayerbook or otherwise revise it without a two-thirds vote of both the House of Deputies and the House of Bishops, was overwhelmingly adopted late today by the House of Deputies of the Protestant Episcopal Church, in triennial convention here. The House of Bishops must concur before the amendment becomes effective.

Important action by the House of Bishops taken this afternoon and announced tonight negates the proposal endorsed by the House of Deputies to make the presiding bishop of the church elective. Seniority of consecration now decides the choice. The House of Bishops meets in secret session and only the bare announcement was made that it had voted down the plan for an elective presiding bishop after an extended debate.

The debate in the House of Deputies over the constitutional amendment affecting Prayerbook revision, was extended and spirited. The amendment was offered by the Rev. Dr. William T. Manning, rector of Trinity Church of New York, who was High Church party candidate for presiding officer of the deputies. While efforts were made to keep out of the debate any direct reference to the proposal to change the name of the church from Protestant Episcopal to American Catholic, Dr. Manning spoke at length on his amendment, plunged directly into phase of the matter and afterwards President Mann, of the House of Deputies, declined to rule out of order deputies who undertook to answer Dr. Manning's arguments. The amendment was voted down by dioceses and was carried as follows: Clerical vote for, 48; against 154; divided, 8. Lay vote for, 58; against, 814; divided, 3.

The debate brought out the important announcement that the proposal to change the name of the church, which it had been believed was dead as far as this convention was concerned, would be brought up in direct form on the floor of the House of Deputies before the conclusion of the present session. Dr. C. F. G. Wright, of Brooklyn, said he understood the question was to come up through a memorial from the diocese of California.

Dr. Manning made it clear during his address on the amendment he offered that his proposal was made in the interest of church harmony. He explained his objection to the present name of the church; that it was too cumbersome and did not sufficiently express the church's "splendid catholic comprehensiveness," but he did not believe the church was yet ready for a change.

THROWS BRICKS AT PROTESTANT RECTOR. Paris, October 16—Two bricks were recently thrown a beautiful stained glass window of the American Protestant Episcopal Church, and stones also were thrown through a dining room window of the rectory of the Rev. Dr. Watson, adjoining the church Miss Minnie Vail, a woman of 45, formerly residing in New York, but for a long time a resident of Paris, was arrested and admitted today before the examining magistrate that she had broken the windows. She said she was a suffragette, but added that she had private motives for her conduct, which she refused to disclose.

Miss Vail declined to accept passage to America, and an examination of her mental state has been ordered. Meanwhile she is held in custody. Miss Vail was employed in the charitable work under the supervision of the Relief Committee of the church for several years. She is now seemingly without means of support.

ENDS DYSPEPSIA, INDIGESTION, GAS. "PAPE'S DIAPEPSIN" CURES SICK, SOUR STOMACHS IN FIVE MINUTES—TIME IT!

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn, and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, your belch gas and eructate sour, undigested food and acid; head is dizzy and aches; your breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.

STRONGLY ADVISES "FRUIT-A-TIVES"

Because They Cure 'Em, And They Will Cure You

MR. ALEX. McCARTER

Walkerton Ont., May 9th, 1911. "I have been in Walkerton in business for a good many years and many of my townsmen know that my health for long periods was precarious. My trouble was extreme nervousness, brought on by indigestion and dyspepsia, from which I suffered in the most severe form. It was so bad that I could not sleep before about four in the morning. I noticed one of your published testimonials of how someone had used "Fruit-a-tives" for similar trouble and asked Mr. Hunter, my druggist, his opinion on the matter and he advised their use. I immediately procured several boxes and I am pleased to say that I now enjoy splendid health and could not possibly feel better. I can eat with every degree of satisfaction and sleep without an effort. I strongly advise anyone suffering from like complaints, to commence using "Fruit-a-tives."

ALEX. McCARTER. 50c a box, 6 for \$2.50—trial size, 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

FISH HAVE NO MERCY Hatred And Savagery Rule Under The Water.

Place a number of different kinds and sizes of turtles in a small space and the forbearance which is exhibited might well be a lesson to man. Big and little will crawl about, heedless of each other's comfort or security from harm. A small painted terrapin, for instance, will clamour solidly over the head of a vicious snapper and the chances are that the latter will merely duck its head or move to one side so that the claws of the former will not injure its eyes. There seems at such times a look of patient resignation or sullen submission, which would immediately change to savage resentment and fierce attack if a man made a hundredth part of the commotion. These creatures appear to be able to distinguish between "no offense meant" and intentional mauling. While they submit to the one, they will fight over the other. If fight has not been previously thrashed out of them.

Carnivorous fish seem to be natural bullies in the light of Mr. Meehan's observations. In a group occupying a restricted space there is nearly always one fish that will torment the others. Nor is it the largest necessarily. There were for months, he writes, two small-mouth bass and nine largemouth bass confined in the same tank. The smallest of the entire party, a small-mouth bass of nine inches, hectorated the others continually and succeeded in reserving an entire half of the tank for himself. The others were obliged to huddle themselves in a far corner of the remainder of the tank. The 10 fish submitted to this treatment from the very beginning without the semblance of a fight.

This particular bully never attempted to injure its victims. If one of them ventured beyond the prohibited line, the autocrat would swim slowly forward and with open mouth push the venturesome fish back to its quarters. When, after a lapse of some months, the bully died one of the fish that had been its humble subject took the leadership and ruled just as absolutely. But all such depots of the fishy world do not avoid violence as did this particular specimen.

Some of them exercise their power with relentless cruelty, and go to the length of forbidding those under their control to feed, even when the tormenting fish have already gorged to the utmost of their stretched capacity. Neither do bullies learn by bitter experience to show forbearance. A certain 7-inch trout is an instance in point. This fish had made life miserable for an aquarium full of trout slightly smaller than itself. Finally the hectoring became so outrageous that the offender was removed and placed in an aquarium containing a number of trout several inches larger than itself.

The moment it was dropped into the tank its new companions made a rush at it and, huddling behind an outflow pipe, it escaped only by a hair's breadth from furnishing a meal to one or another of the inhospitable occupants. In this place the young bully remained for three days in a state of abject terror, constantly guarded by a relentless group, anxious for it to move but a quarter of an inch, so that they could gobble it up.

At length, hoping that a lesson had been learned, the trout was returned to its first quarters. Unfortunately its terrifying experience was soon forgotten. Less than an hour after its return the trout was the same arrogant bully as before.

Fish distinguish between those of their kind which have been wounded and those which are diseased. The wounded or crippled are joyfully assailed as a comfortable meal and devoured with "unpitying" relentless, conscienceless pleasure, while the attitude of a fish toward a sick or dying comrade is that of flinty indifference.

ENGLISH BOARD OF TRADE INQUIRY

OFFICERS AND CREW OF LOST VOLTURNO SAIL TODAY TO ATTEND IT.

New York, Oct. 17.—All the officers and crew of the lost Volturmo brought to this port by the steamers Grosser Kurfirst and Kronland, excepting Captain Inch, will sail for England tomorrow on the Oceanic of the White Star Line. They are going back to attend the inquiry into the disaster conducted by the English Board of Trade.

Captain Inch will stay here until he has recovered from hardships and injuries. He probably will sail Wednesday on the Mauretania. The Cunard Line today notified the Uranium Steamship Company, Captain Inch's employers, that the best suite on board would be reserved for her heroic commander. "His bravery warrants for him the best treatment that can be accorded," said General Manager Charles Somner, "and the invitation extended by the Cunard line is in appreciation of the fearless work done by him in the face of death."

The survivors who sail tomorrow include ten of the Volturmo's officers, among them Second Officer Edward L. Lloyd, Third Officer Walter Dusselmann, six engineers and two wireless operators.

General Manager Edward O. Thomas of the Uranium Company said today that there would be no investigation in this country either by the company or the government.

PENSION FUND FOR MONTREAL EMPLOYEES

Montreal, Oct. 16.—A by-law to establish a pension fund for the permanent employees of the city of Montreal was adopted by the council at a special meeting today.

The pensions are to be paid out of the general funds of the city, an amount sufficient to pay them to be included in the annual appropriations.

RITUAL MURDER TRIAL. Accused Plays Most Insignificant Role—Religious Antagonisms.

Kieff, Russia, October 16—There probably never has been a celebrated case in which the accused played such an insignificant part as that of Mendel Reiliss, charged with the murder of the boy Yushinsky. The name of Reiliss was hardly mentioned in the court proceedings today. Violent scenes between the opposing counsel, reflecting the religious or party antagonisms existing in Russia, occupied a large part of the time and are becoming daily more frequent. On several occasions the president of the court has been obliged to intervene.

Present indications are that the case will not be finished for another fortnight. The testimony given today proved of no greater interest except that the tailors who supplied the clothes worn by Yushinsky denied that the fragments found in a bundle and alleged to be part of the boy's clothing, were the same as had been used by them.

Vassily Tcheberiak testified that he did not attribute the death of his two children to cakes said to have been sent to them by the former police inspector Krasgovsky.

WHAT IS ALCOHOL? Druggist Says When Pure It Is a Definite Chemical, Not a Liquor.

London, Ont., October 16—T. A. Loughrey, a druggist, who was brought before Police Magistrate Judd today charged by License Inspector A. R. Galpin, with selling liquor without a license, admitted that he had given a prohibitory lister 25 cents worth of pure alcohol, but raised a point that the Magistrate thought worthy of a week's consideration.

Mr. Loughrey's contention is that liquors are alcoholic beverages and that pure alcohol is a definite chemical and not a liquor. Upon this argument he based the defence that he did not commit a breach of the Liquor License Act.

Crown Attorney McKillip argued that alcohol is a liquor and an intoxicating beverage, and accordingly it should not be sold, but the defendant quoted the act under which druggists and chemists conduct business to show that they are entitled to sell pure alcohol for purposes of art or manufacture in quantities not exceeding one gallon.

"Pure alcohol would choke a man if he attempted to drink it, and is accordingly not a beverage," the druggist contended.

The Crown asked if it would be a beverage of the druggist had added 80 per cent water before making the sale. The defence admitted it would have been drinkable, but replied that the man bought it for purposes of "manufacturing" liquor if he really intended to add water for a beverage.

The Magistrate considered the point to be well taken and stated that he would reserve his decision for a week.

The judgment is expected to be one of some provincial importance, in that it is said that the point has never before been raised in such instances.

SPOT CASH SHOP N. MOISAN,

Corner St. Julia and D'Artigny Sts. Now is the time to make the winter provisions of Butter. "Spot Cash Butter" always ahead. We are receiving it daily in one pound blocks, 16 ounces to the pound. Special price for winter supply in 28 and 56 pound boxes.

A Natural Remedy Time was when disease was thought to be due to the direct influence of evil spirits, and exorcism and magic were invoked to cast it out. Science has taught us wisdom. The evil spirits exist still. We call them "Disease Germs," and they also must be cast out. Once lodged in the stomach or intestines, fever with its hallucinations, or biliousness with its aches and pains, is the result. ENO'S 'FRUIT SALT' is the approved remedy for driving out disease germs. Its action is quick and thorough. It clears the intestines, rouses the torpid liver to new life, stimulates the mucous membrane to a healthy action, and cleanses and invigorates the whole digestive tract. Be prepared for emergencies by always keeping a bottle in the house. Prepared only by J. C. ENO, Ltd., 'Fruit Salt' Works, London, England Agents for Canada, Messrs. HAROLD F. RITCHIE & Co., Limited, 10, McCaul Street, Toronto.

Dr. J. Collis Browne's Chlorodyne THE ORIGINAL AND ONLY GENUINE. Acts like a Charm in DIARRHOEA and is the only Specific in CHOLERA and DYSENTERY. Checks and arrests those too often fatal diseases—FEVER, CROUP, AGUE. The best Remedy known for COUGHS, COLDS, ASTHMA, BRONCHITIS. Effortlessly cuts short all attacks of SPASMS. Is the only relief in NEURALGIA, RHEUMATISM, TOOTHACHE. Chlorodyne is a liquid taken in drops, graduated according to the malady. It invariably relieves pain of whatever kind; creates a calm refreshing sleep; allays irritation of the nervous system when all other remedies fail; leaves no bad effects; and can be taken when no other medicine can be tolerated. INSIST ON HAVING Dr. J. COLLIS BROWNE'S CHLORODYNE. CONVINCING MEDICAL TESTIMONY WITH EACH BOTTLE. Sold by all Chemists. Prices in England: 1/6, 2/6, 4/6. Sole Manufacturers: J. T. DAVENPORT, LONDON, S.E.

## Making One Dollar Do the Work of Two

**YOUR** dollars vary in value according as they vary in purchasing power.

The man or woman who studies advertising is able frequently, to make one dollar do the usual work of two.

The experienced reader of advertisements will always make a dollar command a premium, that is, make it buy more than the dollar of a non-reader of advertisements.

How much "above par" are the dollars in your pocket worth?

It will depend on how closely you study the buying opportunities out-lined in the store ads.

## Many Great Wars Have Started Over Trifles

When a certain Venetian ambassador was once asked by the Turkish grand vizier to ratify a treaty in the Moslem fashion upon his beard and the beard of the Prophet, he declined, because, as he said, "the Venetians wear no beards."

This remark somehow offended the Turk, who retorted angrily, "Nor do monkeys!" This untimely bit of temper caused the Venetian to tear up the treaty and retire from the conference. The sequel was a war in which 70,000 Christians and four times as many Turks fell, says the London Globe.

But the Turks were not the only ones to use blows instead of arguments on the slightest provocation. Some 250 years ago an Emperor of China began a war on account of a smashed teapot.

The owner of it, a high dignitary of the court, considered this article a priceless treasure, and it accompanied the great man on all his journeys. It so happened that when he was traveling through the law less provinces in the northwest of China some of his retinue were intercepted by a band of robbers, who found the teapot among the luggage, and carelessly flung it to the ground and broke it. The matter was reported to the Emperor, who

was so indignant at his favorite's loss that he sent out a punitive expedition, and a long war began, which resulted in the death of 500,000 men!

Nine hundred years ago a party of soldiers from Modena stole a bucket, apparently in joke, from a public well in Bologna, and refused to restore it. Fighting thereupon began between the soldiers of the rival cities and a war was started that devastated a large part of Europe.

Equally tiny sparks have kindled many other conflagrations. The war between Sweden and Poland that began in 1654 arose through a fancied slight. The King of Sweden discovered that in a despatch his name and title were followed by only two "et ceteras," whereas the name of the King of Poland had three. A declaration of war was the result.

More disastrous in its sequel was the small stone that a Huguenot child threw at the Duke of Guise, for it was the cause of the massacre of Vassy in 1562 and of the Thirty Years War that followed.

The borrowing of a tobacco pipe and its retention caused civil war in the Pamirs and Afghanistan, and the scaling of a Castilian lady's lace petticoat by a Moor led to a long conflict in Spain.

## Newest Anesthetic Frees Patient From All Fear

A new method of producing anesthesia, whereby the patient may be rendered unconscious without any sense of fear or other unpleasant associations is the hope held out by Dr. George W. Crile, of Cleveland, O., one of the most eminent surgeons of the country.

If his method proves to be the success as he and many of the most prominent medical men of this country and England fondly hope, then the name of Crile will be placed along side of Long, Morton, Wells and Simpson, all of whom helped rob surgery of its terrors by producing the "blessed sleep."

At the recent meeting of the British Medical Association in Brighton, England, the discovery of the American surgeon was described by Sir Berkeley Moynihan, who placed great stress upon its importance.

In recent years the greatest difficulty that operating surgeons have had to face is the severe nervous shock that many patients have experienced in connection with an operation.

In numerous cases the attendant shock has been a cause for alarm, more than the operation itself. Thousands of persons regard the surgeon's knife with horror and think of it only as a case of last resort after all else has failed.

By the use of the new method, it is believed that the area of operation may be shut off from the brain for several days if necessary, by reason of the fact that barriers will be placed on all nerve centres, completely isolating the field of operation.

Expert On Brain Cells.  
Dr. Crile maintains that the effect of a general anesthetic on the brain cells is harmful, and in a great measure destructive to the cells themselves.

In speaking about the new method, he says:

"Nerves are fuses which, when ignited, light the magazine—the brain. The brain cells respond to every injury. The stored energy of the brain cells is consumed in surgical operations, and the only way to prevent

this consumption of energy is by the employment of some method which will exclude all harmful or noxious associations or stimuli."

In speaking of the significance of the term, "anoci-associations," Dr. Crile says: "It simply means the absence of harmful associations, such as dread of the operation on the part of the patient." This exclusion of harmful associations and stimuli is obtained by Dr. Crile by first putting all the brain cells to sleep that are capable of being affected by general anesthetics, such as ether or chloroform. He then "blocks" sensation from the areas in the field of operation by the use of local anesthetics.

In other words, Dr. Crile puts the patient to sleep with ether or nitrous oxide, and operates upon him under the influence of the local anesthetic injected at a point near the nerves leading from the operative area to the brain. For this purpose he uses novocain, quinine and urea hydrochlorate. He has achieved brilliant results by this method.

Dr. Crile maintains that any method of anesthesia which would reduce morbidity must also reduce the mortality rate, and he claims this for anoci-association anesthesia. He also believes that the most complete anesthesia is obtained by this method, and that this was proved by an absolute relaxation of the muscles in the field of operation. He also declares that the use of local anesthetics prevents harmful stimuli from reaching the brain.

Success In Cleveland.  
In Cleveland, where he practises his profession, Dr. Crile has used his new method extensively, and says that the mortality rate has been greatly reduced by the employment of the combination anesthesia. He also says that nitrous oxide is superior to ether as a general anesthetic.

The eyes of the medical world are being turned toward Cleveland. Already this gifted surgeon, still a young man, has accomplished enough in the field of medicine to give him a high rank with the members of his profession.

### RATIONAL GOLF

By Stephen Armstrong

Sometimes a little thing will put a player right on his game, and although he may do the same thing later without success, it is always a good plan to try these dodges if not playing as well as one would wish. A good instance was J. H. Taylor's inspiration at the open championship at Hoylake.

Taylor had been playing his short approaches badly, and suddenly conceived the idea of resting his right arm on his thigh, and as every one knows, the results were superb.

As a matter of fact, I have found this a very excellent plan for short putts, or medium length putts on fast greens, for it has a very steadying effect on the whole stroke. Many people say that this is a mistake, but in my humble opinion it is one of the many little things which are well worth trying. While on the question of putting, a good tip if you are looking up prematurely and are unable to stop yourself doing it, is to hold the club short, and stoop right down so that the feet are fully three feet apart. Another excellent tip when putting badly is to try holding the wrists well in with only the heel of the putter on the ground, or the wrists well out with only the toe on the ground. I have known players who have suddenly come to their putting by adopting one of these tips.

An idea which is sometimes very effective in driving is to try holding the club at different places; if, for instance, you are not driving well, and it is your habit to hold the club at the end of the shaft, try holding it half an inch or an inch from the end. If, on the other, you already hold it a little way down the shaft, try holding it right at the end. The same applies to iron clubs, but personally I have derived the greatest benefit with the wooden ones. If you have a difficulty in getting

out of bunkers, remember, above all, not to be too ambitious—make certain of getting out the first time. I am sure it pays in the long run. As for the actual playing of the shot, use a fairly long club and hold it right at the end of the shaft, or at any rate give this method a good trial. In my own case it has saved me a great many strokes.

While I sincerely admire what C. B. writes in the World of Golf, and think his above remarks well worth following, I would add a tip of my own to some of his. In regard to putting I have noticed that so many putts are missed through being topped. Now if you are having a run of missed putts try holding the club with a longer grip, or else bend over the ball a little more. While acknowledging the wisdom of Taylor's idea of touching the right arm on the thigh, I would warn you that there is a certain danger in doing so for short putts. Be very sure the club head follows through in a straight line for the hole otherwise you may suddenly develop a tendency to pull the shots. The greatest tip I ever got for putting was from Miss Rhona Adair. "Imagine the hole is the size of a washtub. You could hole out every time if it were and it is just as easy to putt back from a foot beyond the hole as it is from a foot short, and you may have a chance of going in on the way. Also take a long grip and a loose one for long putts. As they grow shorter let your grip grow shorter in proportion, at the same time let it grow tighter." Another good thing is to listen for the ball to fall instead of trying to see it do so. This is safer than C. B.'s idea of altering your stance.

As for bunkers, I think Chandler Egan's tip to take a short grip is a safer one. Advance the right foot to balance it and hit hard at the sand two inches behind if the sand is light, one inch if the sand be wet and heavy. Above all things make sure of getting out in one stroke. You are not likely to lay the ball dead out of a bunker more than once in 100 times.

Many months of Overcoat weather in Canada. Then again—there's next winter—and Semi-ready Overcoats are not one-season coats—they're made to wear.

Whether it's a stout Tweed at \$15 or a lamb's wool chinchilla at \$30 or \$40—the value is there always.

Better to be comfy in Canada in a Semi-ready Ulster than soften and pine in Florida.

For—ours is a glorious and healthy winter country. Warm winter suits, too, at \$15 to \$35—right here.

### INSOLVENT SALE

BY TENDER Under the Winding-Up Act.

CANADA. Province of Quebec. District of Quebec. IN THE SUPERIOR COURT. No. 2204. In the matter of— LA COMPAGNIE DE MARBRE DU CANADA, LIMITEE.

In Liquidation. Notice is hereby given that according to a judgment rendered on September 19th, 1913, by the Honorable Justice A. Malouin, tenders will be received at the office of the undersigned liquidators until Saturday, the 15th day of November, 1913, for the purchase of the assets of the above named Company, as follows:

1. A lot of land containing a Marble Quarry, situated at Ste. Thecle, in the county of Champlain, P.Q., containing about eighteen acres in area being known and designated as forming part of lots number two, hundred (200) and two hundred and one (201), and two hundred and two (202), of the cadastral plan for the parish of Ste. Thecle, in the county of Champlain with buildings thereon constructed and more fully described and designated in deeds of sale by Treffe Bouchard and Louis Toupin, dated on August 10th, 1912, and another deed of sale by Joseph Richard dated on August 28th, 1912, in favor of La Compagnie de Marbre du Canada, Limitee.

2. The waterworks on same.  
3. Machineries and tools used for operations.  
4. Fire wood, lumber, explosives and oils.  
5. Office furniture and rolling stock.

This quarry is situated at proximity from railway station and fully supplied with necessary plant and tools to start operation. Samples of marble drawn from the quarry may be seen at our office, as well as certificates of analysis and architect's appreciations. The five above mentioned items will be sold in a single lot and every tender will have to be accompanied by an accepted cheque for the amount of \$1,000.00 which will be confiscated from the tenderer who might refuse to fill the conditions of his tender.

Any person wishing to tender may have all particulars by applying to the office of the undersigned. The liquidators do not bind themselves to accept the highest or any of the tenders that may be offered. BEDARD & BELANGER, Joint Liquidators. Office: 101 St. Peter street. Quebec, October 10th, 1913. Oct. 15, 18, 22, 25, 29. Nov. 3, 5, 8, 11, 13.

City of Quebec, District of Quebec, No. 24 A. CITY OF QUEBEC, CITY HALL. BY-LAW NO. 24 A TO AMEND BY-LAWS CONCERNING THE CONSTRUCTION OF BUILDINGS.

(Drawn up in the French language.) At a meeting of the Municipal Council of the City of Quebec, held on the tenth day of October, 1913, the following by-law was read for the first time.

It is ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts as follows:

1st. In the following wards of the City, to wit: St. Peter's, St. Louis and Palace, it is forbidden to erect any building whatsoever, even sheds, otherwise than in stone or brick or concrete (beton) or wooden wall recovered with brick of at least four inches in thickness, or with a wainscoting in asbestos cement, or with a rough cast in cement laid upon laths.

2nd. In the following wards of this City: St. John, Montcalm, St. Roch and Jacques Cartier, not only the houses, but also all the other buildings, shops, store houses, must be constructed of stone or brick or concrete (beton), or of wood covered with a wainscoting of brick of at least four inches in thickness, or with materials of cement asbestos, or with a rough cast of cement laid upon laths, with the exception of such sheds as are used exclusively to put in fuel or coal.

3. But even as regards such wooden sheds, their front walls bordering on a street, or public square, must also be of stone or brick or of wood recovered with brick of at least four inches in thickness, or of materials of cement asbestos, or of rough cast of cement laid upon laths. The other side may be covered with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise or square.

4. But if such shed does not border on a street or public square, the four sides may be covered with sheet iron laid upon a leaf of asbestos of at least fourteen pounds to the toise or square.

5. In the following wards of this City, to wit: St. Sauveur, St. Valier, St. Malo, Limoilou and Champlain, the front walls of the houses, shops, store houses, bordering on a street, or public square, must be constructed of stone or of brick or of concrete (beton), or of wood shielded with brick of at least four inches in thickness, or with materials of cement asbestos, or of rough cast cement laid upon laths.

6. The walls of wooden houses not bordering on a street of public square must be shielded with brick of at least four inches in thickness or of materials of cement asbestos, or with a rough cast of cement laid upon laths, or with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise, and the sheds must be completely covered with sheet iron.

7. In all the wards of the City, if a proprietor raises his wooden building by adding one or more stories, and that by this fact, the gable ends or side walls exceed the roofs of the neighboring buildings, such gable ends or side walls may be covered with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise.

8. In all the wards of this City, if the owner of a house already built wishes to shield the gable ends or sides thereof facing a yard or a vacant lot, he may cover them with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise.

9. In all the wards of this City, the porches and enclosed stairways situated on the outside of buildings must be shielded on their sides and on the top and bottom thereof with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise or square, or with other incombustible material above enumerated.

10. The wooden sheds or out-houses used as store houses upon the wharves must be shielded with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise or square. And if there is no wooden board shielding such asbestos must exceed by an inch on all sides the studs, rails or rafters.

11. Such sheds or out houses built on wharves must not be occupied as offices or rooms used as lodgings, unless such sheds be put in the same conditions as those required for the building of houses.

12. In the following wards: St. John, St. Roch, Montcalm, Jacques Cartier, St. Sauveur, St. Valier, St. Malo, Limoilou, Champlain, private stables and their dependencies occupied for domestic purposes shall be considered as sheds (hangars).

13. In all the wards of this City, it is forbidden to construct wooden buildings of more than thirty-five feet in height from the average level of the sidewalk to the highest point of the roof, nor having more than three stories above the basement in masonry.

14. In all the wards of the City, a wooden building constructed in conformity with the present by-law must be coated with brick, stone, materials of asbestos cement, or sheet iron immediately after it has been erected. In case the proprietor or builder should neglect to conform to the present by-law within thirty days after being notified by the City Inspector of buildings to build such coating, the said building shall be considered as

having been constructed contrary to law and to the by-laws of this Council.

15. In all the wards of the City, no wooden building already built and not shielded with incombustible materials will be allowed to be transferred from one lot of land to another, or from one portion of the said lot to another portion of the same lot, unless it be shielded in incombustible materials, as required by the present by-law immediately after such displacement.

16. In all the wards of the City, it is forbidden to use saw dust or shavings of wood between the floors or in roofs except as regards ice houses and refrigerators.

17. The outside cornices of buildings must be in incombustible materials, and in all cases the stone or brick walls behind the cornices must be extended up to the inferior side of the planking of the roof (or cut-fire wall, if need be), and such cornices shall be solidly fixed to the wall independently of all wood work.

18. Whenever there shall be within the limits of this City any old walls, chimneys, or buildings in ruins, either through age, or after fire which may menace public security, it shall be the duty of the City Inspector of Buildings to inspect the same and examine them, in company with a competent person and to draft a report stating the facts, and to deliver a copy of this report with a notice summoning the proprietor of the said building to demolish, throw down immediately the said walls, chimneys or buildings or any portion thereof which may be a menace to the public security, and the said proprietor shall then be bound and compelled to demolish or take them down immediately at his own cost or expense.

19. Every proprietor or builder must remove the materials from buildings in construction or in process of demolition through a duct made of wood or metal, running from the upper story down to a distance of two feet from the ground.

20. When a wall of a building must be erected alongside another wall already existing, whether the latter be a wall belonging to an adjoining building or that it belongs to a wall of a building the property of the person who erects the new wall, such new wall must be built of stone or brick or of wood shielded with brick of at least four inches in thickness.

21. In all the wards of the City, if a proprietor builds of wood or of brick two or more houses, he shall be bound to erect the dividing or cut-fire walls (coupe-feu) in brick or concrete, of at least eight inches in thickness between each of the said houses, and moreover the said dividing or cut-fire wall must be laid on a stone or concrete foundation.

22. The roofs of buildings in this City may be covered with five layers of tarred paper of ten ounces with one layer of gravel over. The said gravel must be dipped in warm pitch instead of metal.

23. Whoever proposes to build in this City any building whatsoever, or to execute upon a building repairs, the cost of which is valued at more than one hundred dollars, must, before beginning such works of construction or of repairs, obtain from the City Building Inspector a written permit to execute the same.

24. The following sums shall have to be paid for the water from the waterworks used in the preparation of mortar or concrete to be used in the construction of buildings as follows, to wit:

A. For each thousand of bricks employed for the said building, ten cents (10 cts.).  
B. For each cubic yard of masonry of stone, concrete or terra cotta, three cents (3c).  
C. For each one hundred yards in superficies of rough cast or deafening floor, fifty cents.

25. When a building is in course of construction in line with a street, the sidewalk must be kept all the time free of obstruction.

26. Every sidewalk, whether temporary or not, fronting a building in course of construction, must be provided at a height of eight feet above the said sidewalk with a planking sufficiently strong and waterproof to protect the passers by against the fall of objects which might drop over them.

27. The provisions of By-law No. 24, passed by this Council on the 9th of August, 1912, which are incompatible with the provisions of the present by-law, are by the present by-law repealed.

28. Whoever infringes any of the provisions of the present by-law is liable to a fine not exceeding forty dollars, and in default of the said fine and costs thereof, liable to be imprisoned for a space of time not exceeding two months.

29. Each separate day during which an infringement of any of the above provisions shall be committed or continued during the day, shall constitute a distinct and separate offence punishable in the manner above prescribed.

PUBLIC NOTICE. It is hereby given that, pursuant to law, the above By-law will be read a second time, for adoption, on Friday, the seventeenth day of October instant, 1913.

By order, H. J. J. B. CHOUINARD, City Clerk.

FOR SALE House Nos. 308-316 St. John Street, opposite St. Matthew's Church; 2 stores and 2 dwellings. Good investment.

W. R. LaRUE, Notary, 28 St. Ann St.

Kaiser's Snub to Envoy Arouses Berlin Comment

Mr. Leishman Had No Farewell Audience and Received No Parting Souvenir, Facts Attributed to His Daughter's Engagement to the Duke of Croy.

CANNOT USE GERMAN TITLE OF ROYAL HUSBAND

(Special Dispatch.) BERLIN, Oct. 18. THE German newspapers are commenting freely on the leaving from Berlin of Mr. John G. A. Leishman and calling attention to the fact that he is the first American Ambassador to leave without being granted a farewell audience by the Kaiser.

The fact that the Emperor returned to Potsdam the day before Mr. Leishman left and received two other retiring members of the Diplomatic Corps was emphasized as well as the circumstance that the Kaiser bestowed upon Mr. Leishman no parting souvenirs as is his custom.

When Mr. David Jayne Hill retired from his German post he was made the recipient of a magnificent vase from the royal porcelain works bearing on one side a portrait of the Kaiser, and also a tentative offer of orders was made him, which the regulations of the State Department prevented him from accepting.

In this connection the German newspapers also refer to the engagement existing between Mr. Leishman's daughter and the Duke of Croy, and express the opinion that should the marriage take place the magnates of the house of Croy would at once take action to prevent Miss Leishman from using the German title of her royal husband.

In that case she would receive the automatic titles of Duchess of Croy and Princesse de Soire, which belong to the Duke by his French and Spanish patents of nobility, which, however, would not be recognized by the German court.

FAREWELL TO MR. THACKARA. A farewell dinner for the retiring Consul General, Mr. A. M. Thackara, will be given at the Hotel Adlon. The date of the event is not yet decided upon, owing to the fact that Mr. Thackara's leaving for Paris will be somewhat delayed, as the government at Washington has deemed it expedient to make no consular transfers until the new tariff is on a firmer working basis.

Mr. and Mrs. Thackara have been much entertained this week. Mr. and Mrs. Albert B. Ruddock were their hosts at a dinner to which also were invited Mr. John G. A. Leishman, Mr. and Mrs. Joseph Clark Grew, Major G. T. Langhorne, Mrs. Alexander Kirk, Miss Eleanor Thackara and Mr. Ernest Ives. Mr. and Mrs. Stephen H. McFadden and Dr. and Mrs. Arthur Davis also gave a dinner for Mr. and Mrs. Thackara.

TANGO THE RAGE IN BERLIN. All Berlin stands under the sign of the tango, as the German idiom has it. This tango-mania has rolled in with terrific force and at present there are no indications of an ebb tide. In this respect Berlin is diametrically different from New York, and American instability is not only bewildering but absolutely incomprehensible to the average German mind.

Society here is slow about falling into line, but, having once adopted any new measure, it is pursued with unwavering consistency. The tango to-day, the fish walk to-morrow, and the lame duck or some other zoological vagary the day after, is too swift a transition to find favor in Germany. Therefore, this season Berlin will tango persistently. One might almost add thriftily, for why expend a lot of time and money achieving the complicated evolutions of other dances if they are to be capriciously abandoned in a few weeks? This is apt to be the German's point of view.

THE TANGO ON THE STAGE. The stage has been invaded by the Argentine importation, and while the tango, as isolated, turns out to be no novelty, it has never dominated the work until the "Tango Princess" made its appearance this week. In this latest operetta Mr. Jean Gilbert, who is no less prolific than his confreres, Mr. Lehar and Mr. Leo Fall, has proved that the well of his inspiration is by no means exhausted, and Berlin already re-echoes with his outstanding musical numbers.

Mr. Alvin C. Kranzlein, the American athlete who came to Germany by invitation of the National Committee for the Olympic games to undertake the training of competitors in the 1916 event, says: "Germany's strongest hope in the coming competitions is in the army. I have found no one thus far in the various athletic clubs who could defeat the men holding championships, but hope to find better material among the soldiers whose profession has been a valuable schooling for physical development."

AIGRETTE WEARERS IN PANIC. American women on the Continent have been thrown into a state of panic by recent despatches regarding the rigid enforcement of the clause in the new tariff bill prohibiting the importation of feathers plucked from live birds. As one woman wailed this week: "But my aigrettes are the pride of my life and cost such a lot of money. What am I going to do?" To which a practical minded friend, who resides in Europe, suggested: "Enjoy them to the last moment and then have a bargain sale. Any one of us will be glad to take them off your hands."

Frau von Billow has returned here from a three months' sojourn in France and Switzerland together with Mrs. Arthur King Laffin of Boston. She went to Aix-les-Bains for the cure and later made an automobile tour through Switzerland and the Italian lake district. While at Geneva she made a flight in a hydro-aeroplane.

Mrs. Harry K. Davarax and her daughter, Miss Aileen Devereux, of Cleveland, are expected to arrive in Germany next week, travelling from America by the Korprinzessin Cecilie.

ter, Miss Aileen Devereux, of Cleveland, are expected to arrive in Germany next week, travelling from America by the Korprinzessin Cecilie.

BARON VON STUMM'S WEDDING. Their first stop will be Hamburg, where Miss Devereux will be one of the bridesmaids at the wedding of Fräulein Irma von Lutwitz, daughter of Colonel Baron Arthur von Lutwitz, commander of the Seventy-sixth Infantry, stationed at Hamburg, and his American wife, to Baron Braun von Stumm.

After participating in this event, Mrs. and Miss Devereux will come to Berlin to renew the many acquaintances made during their winter sojourn two seasons ago, at which time both mother and daughter were presented at court.

Mrs. Stewart White, wife of the well known lumber king of Grand Rapids, Mich., has arrived at Professor Krause's this week to see her son, Mr. Roderick Ivan White, a young violinist, who will be among the new appearances upon the Berlin concert stage this season.

OLD EWELL CASTLE IS NOW FOR SALE

American Flag Flew for Five Years Over Turrets on Site of Famous Stronghold.

(Special Dispatch.) LONDON, Oct. 18. AFTER flying the American flag for five years, during which it has been held by Captain Clarence Weiner, Ewell Castle, in Surrey, is being offered for sale by Messrs. Collins & Collins, of 27 South Audley street. Ewell Castle is interesting not only because it stands on the grounds of Nonsuch Palace, where King Henry VIII. and Queen Elizabeth held revel, and is overlooked by the picturesque ruins of the ancient stronghold, but it possesses the most beautiful Japanese garden in all England.

It was at Nonsuch Palace that the headstrong Earl of Essex was confined by Queen Elizabeth. It was from Nonsuch that Queen Elizabeth fled after the execution of Essex, because, it was said, of fear of the ghost of the man she had put to death. Later, for reasons which history does not clearly tell, the Duchess of Cleveland caused Nonsuch Palace to be demolished; and then at the foot of the slope Thomas Calverly built Ewell Castle. Five years ago it was bought by Captain Weiner, who renovated it and made that Japanese garden which is second to none in the world.

The octagonal turrets of Ewell Castle look over well ordered lawns and fields that slope gradually up to the old Nonsuch banqueting hall. In the Japanese garden an Oriental boat cave shelters a punt and a canoe, and a Japanese tea house with many windows crowns an island. There are rose temples, a Japanese bathing house, more modern necessities, such as tennis court, bowling green, polo ground, an eighteen hole golf course and an up to date farm and some good game shooting. The castle itself contains a spacious entrance hall, drawing room, dining room, morning room, smoking room, billiard room, seven large and eight smaller bedrooms, winter garden, indoor fountain and commodious domestic offices. It is also close to two stations and only twenty-five minutes' train run from London.

SMUGGLERS FLOURISH ON KENTISH COAST

Many Cargoes Landed Without Paying Duty, Deal Being Headquarters of Trade.

(Special Dispatch.) LONDON, Oct. 18. THE capture of a small lugger, with a cargo of contraband brandy and tobacco, on the Kentish coast, and the issue of an Admiralty notice warning sailors that some of their privileges will be curtailed unless the practice is stopped in the navy, are reminders that smuggling is still extensively carried on on the south coast.

Apart from the smuggling practised by sailors, there are lots of cargoes landed on the south coast without paying duty. The little town of Deal, half pilot station, half pleasure resort, forms the headquarters of the southern art in contraband. Here, mixing with the law abiding crowds that come from London, may be found the swartly fishermen who are the successors of the smugglers whose feasts delighted the boys of a past generation.

The Deal smugglers do not sneak up back alleys, accosting strangers with the hint that the parcel they carry has never paid duty. Their profession consists in running the goods ashore; the subsequent disposal is work for other hands. And for those who know their way about it is not difficult to get in touch with these sturdy relics of the romantic past. Their wares are mainly tobacco and spirits, though some lace comes through now and then.

In Eastern Kent the smuggled tobacco is in great demand. It comes in hard, black cakes, exceedingly pungent, and seems to suit the local palate. To the unaccustomed stranger it is not pleasant to smoke, but many a Kentish man waits longingly for the arrival of the smuggler's carrier with his fresh supply.

Seems Like It. Baltimore American:—"Don't schools sometimes commit practical bulls?" "How so?" "Why, they finish their scholars with a commencement."

A Snapshot at the Recent Military Manoeuvres

The First Lord of the Admiralty and Mrs. Winston Churchill.

Prominent among those who watched the battle of Davenry at the recent military manoeuvres in England were Mr. and Mrs. Winston Churchill on horseback. The Right Hon. Winston Leonard Spencer Churchill has been first Lord of the Admiralty since 1911. In 1908 he married Miss Clementine Hozier, daughter of the late Colonel Sir H. M. Hozier, K. C. B., and they have one son and one daughter, Randolph and Diana, aged respectively two and four years. Mr. Churchill was born November 30, 1874.

Queen Marys Society Leader

Buckingham Palace Is Being Prepared Appropriately for the Season's Social Entertainments.

(Special Dispatch.) LONDON, Oct. 18. THOSE who are in a position to know say that Queen Mary, now that Princess Mary's debut in society is in sight, aspires to take her place as an actual leader of society. It is well known that the Queen is fond of dancing and is an excellent waltzer and that the shade of aloofness which is the beginning of her reign gave an appearance of stiffness, which was said to be due to her very quiet upbringing, has now given place to a gracious kindness which is exactly what is required of a social leader.

All the world may see that the outside of Buckingham Palace is being prepared appropriately for this new social change, but it is less generally known that the inside of the palace has been entirely redecorated, and the fine white and gold walls and the French curtains of rose color of the large drawing rooms will form a charming setting for the festivities being arranged for Princess Mary and her friends.

One of the great features of the coming months will be afternoon dancing, for the latter exercise is in the forefront of fashion even in the social altitudes, and this dancers are the last word in entertainments. A young girl gives a "tea" to her friends of both sexes and afterward the floor is cleared—an easy matter now that parquet and rugs are so usual—and dancing goes on till dinner time. It is said that there will be many such teas at Buckingham Palace.

If only for the number of bachelors' halls that are promised the "little season" should be gay. It is an acknowledged fact that bachelors make admirable hosts. They never cheep. The champagne is of the best. By all that one hears, afternoon parties are to be "the thing," which will give an opportunity to that important damsel, "the flapper," to show up. Everybody seems to be learning the tango. Several hostesses have arranged when they return to town to have private dancing classes at their houses, so as to give their friends an opportunity of perfecting themselves in the new dances. "It is much nicer than going to a public class," they say.

POWDERED HAIR COMING IN VOGUE

Likely to Become Fashionable for Evening Functions at London Social Gatherings.

(Special Dispatch.) LONDON, Oct. 18. THE powdering closets which still exist in some old London houses may yet be restored to their former prestige, for there is now something more than a possibility of powdered hair becoming fashionable for evening functions.

"We expect to be very busy powdering during the 'little season' before Christmas," said the head of the hairdressing department at Selfridges. "Many followers of the fashion, of course, will get the same effect by means of gray or white wigs, for few ladies today find themselves able to spare the time which the eighteenth century grande dame patiently devoted to the powdering of her hair and the subsequent brushing out of the powder. White wigs are, however, expensive, so that there will be a great deal of actual powdering done."

"Powdered hair is quite a good idea from a spectacular point of view," said a theatrical costume designer, "and I quite believe in the rumors that it is to be worn again with modern dresses. Women have positively lapped up the Baket theories of dress as decoration, and regard themselves more and more as pegs and backgrounds for weirdly decorative schemes. "The woman with glorious red or blue black hair would be a fool to powder it, but those whose locks are what I once heard a little girl call 'hair colored' will find that powder gives them great distinction."

Another West End hairdresser confessed to having already fulfilled orders for white wigs. "The most expensive of those wigs," he declared, "we supplied to a lady who has bought several sets of the new dyed furs and quite rightly decided that only white hair would look well with her pink muff or her canary colored stole. "The red fox which the furriers are displaying may encourage the demand for white hair. Already we have brightened the reddish brown hair of a few clients which will give them a real and real that it is not for the women whose tresses are dull."

A Spirit of Rivalry. Washington Star:—"As a matter of hard fact," said Mr. Cumrox rather testily, "the value of this picture depends on the signature of the old master." "I must admit it." "Well, my signature is just as valuable as his and it doesn't take me anything like as long to write a check as it took him to paint a picture."

Civil Marriage Is Increasing

More Than Twenty Per Cent Now Go Before Registrar, Avoiding Religious Ceremony.

(Special Dispatch.) LONDON, Oct. 18. ONE of the most remarkable aspects of the present day in England is the astonishing decline in religious marriages. Forty years ago the percentage per thousand of civil marriages was very small. To-day it is more than twenty per cent. That is to say, of every thousand people married more than two hundred content themselves with the brief and formal declaration before a registrar.

In the course of a talk with the registrar of a populous North London district, he ascribed the increase to convenience and to the fact that a great many young people nowadays dislike the publicity attaching to the average wedding in church. "A marriage before me," he said, "occupies perhaps ten minutes and does not necessitate any elaborate preparation in the way of dress. Many couples get married and immediately go to their respective places of business. A church ceremony usually calls for elaborate preparations, a good deal of expense and a number of guests."

A prominent bishop, asked what he thought about it, said:—"I was aware that the number of civil marriages was on the increase, but I did not realize to what an alarming extent. Twenty years ago very few people could be persuaded to be married before a registrar. It was not only considered unlucky, but was regarded in the light of a wedding without the sanction of the Church. "It is easy, of course, to get married before a registrar, but many of the unhappy marriages are undoubtedly due to this. Young people rush into it without due consideration, which the Church urges, and so lives are ruined. It was better in the old days before 1837, when there were no civil marriages."

The Rev. Stephen Barrass, the well known vicar of St. Lawrence Jewry, thought that publicity attendant upon the church ceremony was largely the cause of the increasing number of civil marriages. "There are a great many people," he said, "who very much dislike the idea of having their banns published in church beforehand. Many modest, retiring girls naturally object to it. I think this reading out of the banns should be abolished."

Second Officer of the Corinthian Sees Strange Water Giraffe with Neck Twenty Feet Long on His Last Trip from London to Montreal

DIVED DOWN WITH A WAIL LIKE A BABY'S CRY

(Special Dispatch.) LONDON, Oct. 18. SURELY it would have been a mistake for the "silly" season to pass without its sea serpent. Down at the Surrey Docks just now is a man who has not only seen a fearful and wonderful marine monster, but has even sketched it from life.

It is not exactly the sea serpent of hoary tradition, but a sort of sea giraffe—an extraordinary looking amphibious animal which is puzzling the zoologists who have heard of it and seen the drawing. Some idea of this weird freak of nature may be gathered from this first hand description of it:—"Has bonny blue eyes; cries like a baby; neck twenty feet long; body fifty feet; big head with long ears and snout; three horned fins adorn its bony head; two big flapping fins; skin like a seal; brownish yellow in color, with pretty dark spots."

A plain, commonsense seaman, who tells his story bluntly, without any frills or trimmings, Second Officer G. Bachelor, of the Allan line steamship Corinthian, describing his strange adventure with this sea giraffe, said:—"We were bound from London to Montreal, and it was my turn on watch on the bridge in the early morning of August 30. It was a cold morning and the gray dawn was just breaking when, as I was keeping my eye straight ahead on our course, I picked up a queer looking object about a mile ahead. It disappeared, and as quickly, it shot up again no more than two hundred feet away from the ship.

"I saw it distinctly rise out of the water. First there was a big head, with long ears and long snout, and bulging blue eyes that were mild and liquid. Then there was a neck—no end of a neck—and it swayed with the wash of the waves. What it was I couldn't guess, for in twenty years of seagoing, including trips in tropical waters, I've never seen anything like this sea giraffe that was staring right at the Corinthian. "As the thing seemed to eye me I lashed the water with its big front fins. Then it suddenly dived and disappeared, at the same time giving an odd little wail like a baby's cry. You wouldn't think such a huge animal could have had such a small voice. "As soon as I went off duty I went below and made a sketch of the monster in India ink. When the Corinthian reached Montreal my sketch was shown to Professor F. E. Lloyd, of McGill University, an expert in zoology. The professor said that whatever it was, it wasn't a serpent, but a sea mammal. It was certainly built on high speed lines, and its finlike protuberance was well adapted for running things up. "I located this sea giraffe in latitude 47 deg. 51 min. north, longitude 68 deg. 23 min. west, off the Grand Banks, and not many miles distant from the spot where the Titanic went down. I am inclined to think myself that the wreck of the Titanic has had something to do with the presence of this strange creature in water where nothing of the kind has ever been noticed before. Is it making food of the dead bodies below?"

Mr. Bachelor made the grousing suggestion in all seriousness. He was evidently impressed with the absolute accuracy of his observations. Mr. Bachelor, it may be added, is a canny Scot, and his view is that there may still be more survivors of an almost extinct race of sea beasts. Anyway, zoologists are not unacquainted with an "amphibious or aquatic reptile" called the sauropterygia, which curiously resembles the description of what Mr. Bachelor saw. This sea monster had a small head and an exceptionally long neck, but it is generally stated to have been extinct for ages.

Curious Customs at Eton College for King's Son

Many Things Which Prince Henry Will Have to Learn at the Famous School Where Discipline and Oddity in Dress Are Followed by Students.

(Special Dispatch.) LONDON, Oct. 18. THERE are many old and curious customs that a new boy has to learn on going to Eton, and just entered the King's third son, who has just entered the famous school, will have to become acquainted with them to become a full fledged Etonian. A new boy gradually picks up these as he goes along. In fact, a boy who from the start always remembers to say "Half" instead of term; "M'tutor" instead of "my tutor," "saw" instead of "sawt," who says "m'am" to his dame and touches his hat to palpable masters, who knows the meaning of the words "sock" and "puppy-hole"—well, that boy starts all right.

It is the frequent complaint of parents and other people generally that the Eton boy seems to be the slave of etiquette, but such things are an inseparable part of Eton, and a boy there likes to be correct. An Etonian always turns up the bottom of his trousers no matter what dress he may be in. The bottom button of his waistcoat is always left unbuttoned, which is an invariable rule at Eton. Then, if an Etonian has occasion to use an umbrella he is not allowed to roll it up unless he is a member of "Pop" (Eton Society). It is the rule at Eton to walk on the right hand sidewalk when going into or coming back from the town, and no boy is ever seen on the left hand side except when he calls at a shop there.

Boys are not allowed to link arms with one another; this is a special privilege of "Pop," but a member of "Pop" may link his arm with a non-member. When a boy goes to the playing fields to watch games or to walk about he wears the coat of an ordinary lounge suit instead of an Eton jacket, and a cap instead of a hat. But when in a change coat (any coat that is not the regulation Eton dress) the collar must always be turned up. This rule is strictly adhered to, whether a boy is going to cricket, football or rowing, only "Pop" being allowed to wear them down.

Boys may not go outside the college except on the playing fields in half change or full change. Even at games the Etonian has to study etiquette. For football he wears knickerbockers of the standard gray cloth, buckled below the knee, a flannel shirt, a change coat or sweater, or both, a scarf, a cap and black boots. Brown boots may only be worn by members of "Pop," "shorts" by boys who have played for their houses in house matches; canvas shirts are worn only by boys with their house colors. For fives and other games certain clothes have to be worn. The new boy at Eton has a great deal to learn in the way of names of various persons, places and things. At Eton a brother Etonian is always known as a "fellow," whereas at Winchester he is known as a "man." A swell is always called a "blood." The lampoon in the middle of the college is known as "buddy."

Soldierly Swatters. Washington Herald:—"Now it is suggested to turn the Boy Scouts into a military organization." "Now it is suggested to turn the Boy Scouts into a military organization."

SHIPPING NEWS FAST PASSAGE OF THE GRAMPIAN FROM GLASGOW UNDER 7 DAYS - LAURENTIC ALSO MAKING A GOOD RUN.

LANE LINE. R. M. S. Grampian, Captain Hall, from Glasgow, on Saturday afternoon, 14th inst., arrived in port at 10.00 p.m. yesterday, thus completing a rapid passage from port to port. The Grampian brought out 35 first, 167 second and 143 third class passengers, the mails, and a general cargo. She will land her passengers this morning.

ANTICOSTI LINE. Steamer Cadillac, Captain Sullivan, from Anticosti, with a cargo of pulp wood for the upper lakes, passed here yesterday morning. Steamer Thyna Menier, Captain Jones, with a cargo of pulp wood from Anticosti, passed up to the upper lakes yesterday afternoon.

C. P. R. LINE. R. M. S. Empress of Britain, Captain J. A. Murray, left Liverpool yesterday afternoon, for Quebec, with passengers, the mails, and a general cargo. Among her passengers are T. R. H. the Duke and Duchess of Connaught, Princess Patricia and suite.

CUNARD LINE. Steamer Ansonia, Lieut. McNeill, R.N.R., left Southampton for Quebec on Thursday, with passengers and a general cargo.

DOMINION LINE. Steamer Englishman, Captain Harries, from Avonmouth, with a general cargo, passed Fame Point at 11.10 a.m. yesterday. Due here this afternoon.

DONALDSON LINE. Steamer Saturnia, Captain Taylor, from Glasgow, was reported 166 miles east of Heath Point at 11.50 a.m. yesterday. Due in port tonight. She has 96 cabin and 86 third class passengers and a general cargo.

MANCHESTER LINE. Steamer Manchester Commerce, Captain Couch, from Manchester, with a general cargo, passed Matane, at 1.20 p.m. yesterday. Due here this morning.

WHITE STAR-DOMINION LINE. R. M. S. Teutonic, Captain James, for Liverpool, sailed from Montreal at daybreak this morning, and will arrive here early this afternoon. This steamer will moor at the Breakwater wharf on arrival, and will sail from here at 7.00 o'clock this evening.

R. M. S. Megantic was reported 530 miles west of Inishrahull at midnight on Thursday, and is due in Liverpool tonight.

R. M. S. Laurentic, with 130 first, 225 second, and 458 third class passengers, and the mails, passed Father Point at 9.50 p.m. and is due in port at 9.00 a.m. today, and will moor at the Breakwater wharf. She is making a fast passage from Liverpool.

FREIGHTS AND CHARTERS. New York, October 17.-The demand for tonnage of all kinds was exceedingly light, and but little chartering was done. Tonnage was offering steadily, with rates favoring charterers. Quotations for Liverpool and London, 24d; Glasgow, 3 1/2 asked; Rotterdam, 7c; Hamburg, 4 1/2 pfenings asked; Bremen, 40 pfenings; Hull, 3 1/4 d; Bristol, 4 1/2 d nominal; Antwerp, 3 1/4 d asked; Cork for orders, 3s; picked ports, large tonnage, 2s 3d to 2s 4 1/2; cotton to Liverpool, per 100 pounds, 30c. Charters. - British steamer, 39,000 quarters grain, Baltimore to Rotterdam, 2s 1 1/4; November; schooner, 654 tons, coal, Norfolk to Savannah, \$1.10; schooner, 360 tons, coal, Philadelphia to Calais, \$1.10.

DIRECTORY OF OCEAN SAILINGS.

Table with columns for ship name, destination, departure date, and agent. Includes ships like St. Paul, Cleveford, Ascania, etc.

at the Gulf of Darien; then into the Gulf of Uraba; thence through the mouth of the Atrato River, which is very deep and about 2,000 feet wide on the average, having 150 tributaries, to a point where it turns back into the mountains, where it finds its source. Between the point and the head waters of the San Juan river is a portage of about five miles wide. This portage is broken country, but it is said that it can be turned into an artificial waterway without trouble. The San Juan River is both wide and deep, being a tidewater stream flowing into Boca de San Juan on the Pacific side. The canal when completed would be considerably more than 300 miles long, and would have Buenaventura as its Pacific outlet port.

PILOT ADJUTOR LACHANCE REINSTATED. Ottawa, Oct. 16.-For the first time in many years, the Marine Department has deemed it expedient to interfere with the ruling of the Board of Wreck Commissioners, and it is announced that the pilot, Adjutor Lachance, president of the Pilots' Corporation, Quebec, who had his license suspended from August 14th, 1913, until the completion of the present season of navigation, will be reinstated immediately by order of the Marine Department.

It will be remembered that Pilot Lachance was in charge of the C.P.R. boat Lake Manitoba, which stranded on the Island of Orleans near Quebec on July 29 last. An investigation was held by the Board of Wreck Commissioners in Montreal, with Captain Lindsay as chairman, and Captains Nash and Mitchell as the other members of the board. As a result of the investigation the license of Pilot Lachance was suspended until the completion of the season of navigation.

In reinstating Pilot Lachance, the Department takes the position that having regard to the extreme importance of efficient pilotage on the St. Lawrence, a temporary suspension as in the present case, results in unfitting a pilot for work when the license is restored. The Department argues that conditions in the river are liable to change, also that additional aids to navigation and changes in the position of buoys are not uncommon. As a result, a pilot who is under temporary suspension would not have a knowledge of these changes when he returned to his calling.

The Department feels that its action is in keeping with the spirit of the framers of the act governing pilotage, which prescribes the imposition of a fine so as to render unnecessary the temporary withdrawal of a pilot from his work. The Department believes that the reinstatement of Pilot Lachance is more in the interest of an efficient pilotage service than to continue the suspension until the end of the period designated by the court. It is understood that the Department would have been very reluctant to have interfered with a ruling of the court upon an offence of so grave a character which would have warranted permanent suspension.

GENERAL NOTES. Tug J. H. Hackett arrived from the upper lakes yesterday, with a barge in tow. Steamers Myra Fell, from Montreal for Hull and Kamouraska, from Sydney for Montreal, passed here yesterday.

**NEW YORK CLOSING LETTER.**

Received over the private wire of McDougall & Cowans, Stock Brokers, 51 St. Peter St. Quebec. Tel. 246

New York, Oct. 17—Liquidation by commission houses was in evidence this morning and this selling together with pressure by bear traders forced stocks to new low levels for this movement all around the room. There was good banking support thrown into the market, however, and traders seeing this soon began to cover the short and buying from these classes, however, was more than sufficient to offset the commission house liquidation and before the end of the first hour the market had rallied well in the list. By noon leading active issues were up over a point as a rule from early low level. In early afternoon liquidation started in, the Rock Island forcing these stocks down to lowest of year, the collateral being actively traded in and selling below 50. On the whole, the market closed above last night's close, with some irregularity and sentiment a good deal confused.

Total sales 340,000.

**THE STANDARD LIFE ASSURANCE COMPANY**

Accumulated Funds ..... \$65,000,000.00

**IMPORTANT**

Fresh from the press, thousands of copies of "October" investment offerings are being sent to all points in the Dominion, giving to the investor, large or small, his choice of the most "attractive investments."

It is still within the power of the investor to procure some of the highest class Bonds and Stocks at lowest prices, but evidences of an early return of normal conditions are very marked, which will bring about a change as to the investment return now procurable.

Full particulars, with legal opinion, etc., can be had on application to

**CLOSING LETTER.**

Received over the private wire of Neuville Belleau & Co., brokers, 93 St. Peter St. Quebec.

New York, Oct. 17—Prices were weak in the initial transactions, but a little support was forthcoming and in the ensuing rally gains of 1 point were general.

The coppers were in better demand, Utah making an excellent statement for the past quarter, this stock rose 1/2 and Amalgamated 1 1/2 points.

London reported a further rise in the metal of 1 1/2 9d.

Sales of about 10,000 shares were reported for that city.

New Haven and rights made a new record at 85.

Opposition to the Currency bill seems to be developing strongly and we believe the bill will have to suffer severe amendment before its passage can be secured.

Mexican affairs are still in a delicate state and liable to create trouble at any moment.

Distillers Securities Corporation statement shows 1.15 per cent earned on the stock for this year, as against 1.6 per cent last year.

Rock Island securities were conspicuously weak, the 4 per cent collateral trust bonds dropping to 49 1/2, the preferred touched 17 1/2 and the common sold at 11 1/2.

We have repeatedly called attention to the desperate condition of the Rock Island road and the course of its securities seems to point surely to bankruptcy.

An announcement of great interest was the proposed issue of Pennsylvania Railroad bonds, the company proposing to put a blanket mortgage on the property for \$1,000,000,000.

Some investment buying was noted
