

CHERRIER'S

NEW GUIDE TO THE LOCATION AND NUMBERS OF STREETS,

to which is added the Ward location, also giving Number Indices to Churches, Colleges and Schools, Banks, Government and other Public Offices, Terraces, Chambers and Squares, City Hall, Police and Fire Stations, Asylums, Charitable Institutions, Convents, Hospitals, Railway Offices and Stations, Clubs, Rinks, Consulates and Newspapers Offices, Hotels, Restaurants and Reading Rooms, Quebec Exchange, Boards of Trade, Railway Commission, Telegraph Companies and Branch Offices, Halls, Post Offices, Markets, Water Cisterns, Manufactures, &c., and Cherrier's Quebec Directory Office.

EXPLANATIONS.

The chief object this Guide has in view is to show the location of each street, also indicating what other streets end on it, run from it or intersect it, with, whenever possible, the corner numbers of such streets ending, commencing or intersecting.

It will be noticed that the names of the streets are set down in Alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass.

In accordance with the new numbering of the City enacted by a special meeting of the City Council, held on the 10th of March and confirmed by a subsequent meeting, held on the 7th of April, 1876, and which took place early in the spring of that year, it was decided that all streets, outside of the *Encente*, running from the Cape to the River should be numbered from South to North, odd numbers on the left or West side and even numbers on the right or East side; and that all streets running from East to West should be numbered accordingly, odd numbers on the left or South side and even numbers on the right or North side. However as regards the streets of the Upper Town, St John and Montcalm wards, this order was reversed, and streets inside the *Encente*, and in St. John and Montcalm wards were numbered from North to South, odd numbers being on the left or East side and even numbers on the right or West side.

With these and the following explanations no doubt this GUIDE TO THE STREETS will be thoroughly understood and the Compiler hopes that it will be found of great practical convenience.—It is, however, his painful duty to state that through the apathy of some of our City Fathers, Montcalm ward has not yet been renumbered, though many efforts were made on the part of the Compiler to that effect, unfortunately without avail. Owing to this deficiency the Guide to the Streets of Montcalm ward will not be found so useful; it is however hoped that before the expiration of the year, this inconvenience will have been remedied by a proper renumbering of this district.

This Guide is especially intended to indicate at a glance the proximate locality of any number on any street, for example: if you desire to know where No. 221 (French Prot. Ch.) St. John street is located, the Guide tells you that being an odd number it will be found on the left or South side of John street and about midway between St. Eustache and St. Augustin streets. Again desiring to know where No. 12, (Cherrier's Quebec Directory Office, established in 1858) St. Ann street is located, you will readily perceive by reference that No. 12 being an even number, will be found to be the corner house on the right or North side where Du Fort street ends.

Entered according to Act of Parliament, in the year 1877, by A. B. CHERRIER, in the Office of the Minister of Agriculture and Statistics of the Dominion of Canada.

A — denotes that there is no number on the corner.
