## PRINCE OF WALES LANDS ON NEWFOUNDLAND SOIL

CAME ASHORE FROM RENOWN AT TOP SAIL, A FISHING VILLAGE ON CONCEPTION BAY— SPENT FEW HOURS ASHORE TAKING PHOTOGRAPHS.

St. John's, Nfld., August 11.—The Prince of Wales landed from the battleship Renown at Top Sail, a fishing village on Conception Bay, for his visit to Newfoundland soil today. After remaining for a few hours he returned to the warship. He will come to this city tomorrow.

The Prince and members of his suite spent much of the time ashore strolling about country and obtaining photographs of scenery. Several hundred seamen, marines and cadets from the Renown and its escorting squadron were given shore leave.

Admiral Halsey and Colonel Grigg of the Prince's staff came to St. John's by motor from Top Sail, a distance of 12 miles to discuss with the Governor the details of the programme prepared for the reception of the royal visitor here tomorrow. Streets, public buildings and residences have been brightly decorated for the celebration.

The Renown reported a pleasant and uneventful trip across the Atlantic. May icebergs were seen in the neighborhood of the Grand Banks, but the weather was so good that there was no danger. The Prince and his suite found much interest in examining several small bergs in Conception Bay.

**Final Plans.**

Final plans for the reception to the Prince were announced tonight. After his landing at noon tomorrow he will be driven through the city passing under several triumphal arches. He will receive three addresses: From the Mayor and City Council at the dock, the Board of Trade at its building, and from the Government and Legislature at the Parliament Buildings. Returned soldiers of the Newfoundland contingent in the war will escort the Prince and his party through the city to the Government House where he will be the guest of the Governor, Sir Alexander Harris; after an official luncheon the Prince will motor through the suburbs. Later in the day he will present medals to seamen who rescued the survivors of the liner Florizel, which was wrecked near Cape Race in February, 1918. In the evening there will be a parade, a State dinner and a dance at the Government House.

**Great Preparations**

St. John, N.B., August 11.—Hammers ring out merrily in almost every street of the Loyalist City as preparations go on apace for the coming of the heir to the British throne on Friday, August 15 and the preceding day's welcome to New Brunswick returned soldiers. By linking up the two events, committees in charge have assured the biggest 9 days St. John has ever seen and citizens are acquiescent with expectancy. Cordial invitations to all soldiers who served in the war to come to St. John with their families for the two days have been issued and free quarters have been guaranteed. Women's organizations have arranged to feed thousands at a dozen different points and a housing bureau is taking the names of hundreds of citizens who are willing to open their homes to lodge visitors. The programme for Thursday which is being called "soldiers' joy day" includes a mammoth parade in the morning with firemen's organizations from all parts of the Maritime Provinces and Maine with bands, will take part, boat races on the harbor in the afternoon and street concerts and fireworks in

the evening. Crews from the North West Arm, Halifax, are to compete in the boat races against St. John scullers.

**Distinguished Gathering.**

His Royal Highness the Prince of Wales will land at Reed's Point at 10 o'clock Friday morning and will be welcomed there by civic, federal and provincial dignitaries as well as vice-regal representatives, this being the first point at which His Royal Highness will touch the soil of Canada. A guard of honor of 100 returned men, mostly from the famous 26th Battalion, under command of Major R. Major, M.C., will be drawn up to receive the Prince and 1100 school children, massed on a graduated stand will sing among other selections the old Welsh song "God Bless the Prince of Wales." Through gaily decorated streets the royal party will then proceed to the armories where formal addresses will be presented. Immediately after this formal ceremony, the Prince will proceed to the Barrack Square where the thousands of returned men expected to remain in the city from the city from the previous day, will be drawn up for review. Here the royal visitor will present colors to the 26th Canadians, a glorious regiment which through an inadvertence, marched into Germany at the end of the war without having regimental colors at their head.

The royal party then visits the Post Office where a brass tablet presented by the St. John Women's Canadian Club and containing the name of every New Brunswick unit serving in the war will be unveiled by His Royal Highness.

Inspection of the newly equipped military hospital after a motor ride to the West Side then follows and afterwards comes the official luncheon given by Premier Foster at the Union Club.

At 2:30 P.M. the royal party goes by motor to Rothesay nine miles from the city where Lieutenant-Governor Pugsley is giving a reception at Government House. This road has been decorated almost for its entire length and the drive will pass under a succession of arches. Rothesay holds historic interests for the Prince as it was at this station that his grand father, the late King Edward VII took steamer for Fredericton when visiting Canada in 1860 and the place was named for the Prince of Wales at that time, as one of his titles was the Duke of Rothesay.

At 6 o'clock the Prince re-embarks on the Renown.

### WITHOLDS LETTER FROM GENERAL BLISS.

Washington, D.C., August 11.—President Wilson today refused to send the official copy of General Bliss' letter concerning the Shantung settlement on the ground that it contained confidential references to other governments.

"The various data bearing upon or used in connection with the treaty of peace with Germany," said the President "are so miscellaneous and enormous in mass that it would be impossible for me to supply them without bringing from Paris the whole file of papers of the Commission itself, and would include many memoranda which it has agreed on grounds of public policy it would be unwise to make use of outside the Conference."

## MC FALL CHARGES PROFITEERING IN SUGAR SUPPLIES

PRICES UNWARRANTABLY ADVANCED BY PERNICIOUS COMBINES AND CONSPIRACIES.

Ottawa, August 11.—"Sugar supplies in Canada are being artificially restricted and sugar prices are being unwarrantably advanced by combines and conspiracies which are absolutely pernicious and unlawful," is the statement of Dr. R. J. McFall, Cost of Living Commissioner. "Now that the season is here when the housewife should be preserving and canning fruit, the people in control of our sugar have seized upon the opportunity to deal another blow to household canning and make the consumer still more dependent upon the big canning combine. For several weeks the dealer has been experiencing difficulties in getting sugar to supply his retail customers. There have been a few strikes at the refineries which have helped to cause a stringency, and on top of these other refiners have seized upon the same time to close down their plants for repairs. The attempt has been made to blame the shortage of refined sugar on excessive exports, but this is absolutely untrue as shown by the facts. The last available Customs records showing the excess of our imports over exports is very much greater than usual; the sugar coming into Canada is sufficient to supply, decidedly more, not less, than our customary requirements. In spite of labor difficulties and well-timed closing of plants, sugar has been refined lately in Canada at a rate in excess of our requirements. Yet we have a shortage, and an advanced price comes into effect in Canada while the price remains constant on the New York market, which is now the world's clearing house for sugar. When the market price in Montreal advances 55 cents per hundred-weight; the price of all sugar in the hands of the refiners, wholesalers and many of the retailers advances also even on the large quantities in storage. Some retailers have already advanced their prices for the sole reason that they are profiteers. This is not general for most of our retailers are good citizens. Moreover, there is no general combine among the retailers to make them advance prices in common. There is, however, a vicious combine before the sugar reaches the retailers, and there is a powerful weapon in operation to cause the price, on the tens of millions of pounds in all the major stock bins to advance at once. This combine makes a substantial discount to wholesalers provided they maintain the common price set by the combine; if prices are cut, the discount is not received. Under such conditions the advance in price on all major holdings is inevitable. This combine promotes the welfare of the large business interests but is destroying the good old fashion of household preserving and is bleeding the consumers. It will be remembered that a few weeks ago one of the large refiners, whose stock is heavily watered, announced at its annual meeting, that its profits for the last year had doubled."

**Embargo Retained.**

The embargo on the export of hides and leather to the United States passed at the urgent insistence of Dr. R. J. McFall, Cost of Living Commissioner, is not likely to be withdrawn despite much trade pressure. It is stated to be only the first of several similar suggestions made for the reduction of the present cost of common commodities by conserving Canadian products for home use. The situation is a little complex by the fact that in normal times there is both export and import of hides and leather, but Dr. McFall thinks that in view of the statement that boots may be retailed at \$30, some drastic step is necessary to prevent manipulation of our markets by foreign dealers who have no interest in the Canadian workman. The embargo is one of a series designed to reduce prices and to prevent further soaring.

### JAMAICAN RACE RIOT SUPPRESSED.

Panama, August 9.—(By the Associated Press).—A race riot reported to have occurred at Kingston, Jamaica, on Wednesday, July 30th, was suppressed only after West Indian troops and fifty marines with machine guns were called out, according to news of the affair received here today.

The reports make no mention of casualties.

### PRAY FOR PRINCE.

London, August 11.—(Canadian Associated Press).—Dr. Moyer, a leading non-conformist London pastor, yesterday urged his congregation to pray for the success of the visit of the Prince of Wales to Canada, which would he said, cement the friendship of the people of this country and those of the Far West.

## MANY CHARGED WITH BREAKING LICENSE LAWS

PROVINCIAL POLICE HAVE A LONG LIST OF CASES PENDING.

Montreal, Que., Aug. 11.—The Provincial Police have made many charges within the past six weeks in connection with the violation of the new liquor laws.

Dominico Soychuck, who was found guilty recently, is the only one who has failed to pay his fine. He is now serving three months' imprisonment at Bordeaux.

The last sentence was today when Fred. Ricketts, who keeps a restaurant on St. Gabriel street, for many years a popular eating-house among the local judges and advocates, was fined \$150 and costs or 3 months' imprisonment. Others who have pleaded guilty and were fined during the past month include: T. Cote, guilty on two counts; C. Gardiner, Anna Lamarche, Broker's Restaurant, Hub Restaurant.

Charges have been made and cases are now pending against some thirty restaurants, many of them on second, and a few even on third charges.

## HALIFAX TO GIVE TWO RECEPTIONS

WILL GREET BOTH PRINCE OF WALES AND GENERAL CURRIE

Halifax, N.S., August 11.—Receptions for the Prince of Wales, and General Currie, were discussed by the City Council today.

The Mayor stated that the City Council would meet the General on his arrival and that he was to be entertained by the Canadian Club at luncheon.

Colonel Ralston, stated that the General's arrival should not be overshadowed by the larger welcome to the Prince. Halifax was to be the first place Sir Arthur would land on Canadian soil and as he represented the Canadian army, he should receive recognition.

Mr. D. McGillivray stated that it would be a singular thing, indeed, if General Currie were permitted to land here without some formal reception of recognition. He suggested that the City council might escort the General to the Grand Parade and present him with an address and a piece of plate. Vice-President Whitman, of the Board of Trade, stated that the finances would be provided for by the Board of Trade. These suggestions and offer were acceptable to the meeting and will be carried out.

## COLLAPSE OF THE KOLCHAK MOVEMENT

REPORTS REACHING WASHINGTON GIVE GLOWING FORECAST OF SIBERIAN SITUATION.

Washington, D.C., August 11.—Complete collapse of the Kolchak movement in Siberia was forecast in reports reaching Washington today. Kolchak forces have fallen back almost 200 miles from their former advanced lines and Omsk was said to be threatened with evacuation.

Failure of the Allied and Associated Governments to get adequate supplies to Admiral Kolchak, the advice said, had forced him to fall back steadily before the greater superior Bolshevik forces composed of veterans whose officers include many Germans who fled to Russia when the armistice was signed.

Officials here are known to regard Kolchak's efforts at an end unless most radical measures are adopted by outside governments and it was suggested that the President might call the attention of Congress to the imminence of Bolshevik control of all Siberia.

### CARVELL HAS TAKEN OVER NEW DUTIES.

Ottawa, August 11.—Hon. F. B. Carvell, former Minister of Public Works, today took over his new duties as Chairman of the Railway Board, after first visiting the Department of Public Works and saying farewell to his staff.

Mr. Carvell has been on a visit to New Brunswick since the day of his announcement of his retirement from the Government.

## FITZ-RANDOLPH AGAIN BEFORE DIVORCE COURT

THE DEFENDANT'S COUNSEL MOVES LIBEL BE DISMISSED WITH COSTS.

Fredericton, N.B., Aug. 11.—The Fitz-Randolph case came before the divorce court again this morning. R. B. Hanson, K.C., who appeared for the defendant moved that the charges of the libel against Mrs. Elizabeth Fitz-Randolph be dismissed with costs in view of the findings of the jury who answered all questions in favor of the defendant.

M. G. Teed, K.C., who has taken over the case for the plaintiff opposed this motion and asked for time to appeal from the findings of the jury.

Mr. Hanson opposed Mr. Teed's proposal contending that no appeal could be made until a formal verdict had been entered by the court.

Mr. Teed held the view that the jury finding in divorce, like chancery cases, was in itself the courts decision, which was not the case at "nisi prius".

Mr. Justice Crockett confirmed this view and upon application granted time for an appeal from the decision and refused the motion for dismissal of the libel. October 10 was set as the date until which Mr. Teed will be allowed to state his grounds for moving a new trial.

Mr. Hanson then read the affidavit of Mrs. Fitz-Randolph asking for alimony and the payment of debts amounting to upwards of \$900 incurred by her since February, 1918. The defendant had received no amounts since that time from the plaintiff who owned a house worth about \$5,000 and swore on the stand that he had an annual income of about \$4,000. The defendant was without funds and Mr. Hanson moved that alimony be granted and that the amount of the bills be paid by the plaintiff.

## INVESTIGATIONS AT FIUME ENDED

SOLUTION EVOLVED TO SATISFY FRANCE WITHOUT OFFENDING ITALIAN PRIDE.

Rome, August 11.—(Havas).—The Allied Commission appointed by the Supreme Council to investigate recent disorders at Fiume has concluded its work and has evolved a solution of the difficulties there, the Corriere Della Serra says today.

The Commission's findings, according to the newspaper, are not limited to establishing facts in the case but advanced a proposal which the Commission holds would guarantee peace in Fiume.

The newspaper adds that the conclusions reached are of such a nature as to satisfy France without offending the dignity or pride of Italy.

## The Weather

Toronto, August 11.—Showers have occurred today in the vicinity of Port Arthur and in the eastern districts of the Maritime Provinces, while in other parts of the Dominion the weather has been fair and moderately warm.

Temperatures:

## BIG FLYING BOAT CRASHES IN TEST

### FELIXSTOWE FURY WAS TO START FOR CAPETOWN TO DAY

London, August 11.—(By the Ass'd Press).—The flying boat Felixstowe Fury which was due to start Tuesday for Cape town, South Africa, on an eight thousand mile flight, crashed today off Felixstowe during a test flight. The wireless operator on board Lieutenant MacLeod, was killed.

The six passenger were rescued. The hydro-airplane was capable of carrying thirty passengers and at the time of the accident it was flying at the rate of 90 miles an hour. The machine had risen gracefully and was flying over the water gaining height as it went along. Suddenly it appeared to careen at a dangerous angle and while still at a comparatively low altitude slipped and fell into the sea. The plane crumpled under the impact with the water and was virtually submerged. MacLeod was dead, strapped to his seat when the wrecked craft was towed ashore.

# AT THE THEATRES

## DOROTHY GISH, IN "NUGGET NELL," FOR LAST TIME TODAY AT ALLEN

Dorothy Gish, the popular Paramount star, seldom has been seen to better advantage than as Nell in her latest Paramount picture, "Nugget Nell", which was shown to full houses yesterday at the Allen. The same picture is offered today for the last time.

It is a satirical comedy of the wild and woolie western girl therein. There are many exciting situations which serve to make the photoplay thoroughly relishable.

A comedy adds to the enjoyment of the play while the orchestra, keeping up its good work, provides the best music in the city.

Tomorrow and Thursday, Shirley Mason in "The Final Close-Up."—Advt.

## 'THE LIGHT OF WESTERN STARS' SCORES HIT AT EMPIRE

Movie Fans of Quebec have waited a long time for a picturization of Zane Grey's famous book, "The Light of Western Stars" and at last it is here, showing at the Empire Theatre the first three days of this week. The story, in picture form, as equally as attractive as the book, and the large numbers who attended the Empire last night, and after seeing the picture, were fully convinced that it is the snappiest, Western dramatic production that has been screened in a long time.

The exclusive feature, Topics of the Day, a very interesting Pathe News Weekly, and a "feel" comedy, are also on the bill. The best program at usual prices.—Advt.

## TREMENDOUS CROWDS SEE "DESTINY" AND "GREAT GAMBLE" AT "VIC"

Enormous crowds attended the Victoria Theatre yesterday to see Dorothy Phillips in "Destiny" and the opening episode of the "Great Gamble" at the Victoria Theatre, and they were not disappointed, the program being a high class one in every particular.

Seldom has so able a cast been presented in a photoplay as is to be seen in Dorothy Phillips' picture "Destiny", now showing at the Victoria Theatre. In her support are William Stowell, Harry Hilliard, Gertrude Astor, Stanhope Wheatcroft, Antrim Short, Walt Whitman, Tom Ashton, Edgar Sherrod, Allan Sears and Nannie Wright.

In the "Great Gamble", Anne Luther and Charles Hutchison are featured and the supporting cast is undoubtedly the best ever assembled for a serial. No matter how much you may say that serials are "all the same thing", "The Great Gamble" will interest you. See it and be convinced. An Arbuckle comedy and Pathe weekly containing pictures of General Watson's reception in Quebec is on same bill.—Advt.

## GERMAN TACTICS IN NORTH RUSSIA

### CARRYING ON A DESPERATE FLIRTATION REALIZING COMMERCIAL POSSIBILITIES.

Beresnik Archangel, Aug. 11.—I arrived here this morning, and am awaiting a tug to take me farther up the river to Topsis, which the Hampshires took from the Bolsheviks today.

Before leaving Archangel on Wednesday afternoon I was able to complete investigations which I have been making for some time into the operations which Germany is conducting in this country, with Berlin as headquarters. If there is anyone at home who cherishes the belief that the Germans, having been trounced in France, is now whining like a dog that has been justly punished, this message should help to disillusion him. The German may be suffering indescribable agony of mind in the West, but he is carrying on a desperately serious flirtation in Russia. All the old business acumen with which we have been generous enough to credit him in the past is being exercised out here. He realizes that if he succeeds in winning the affections of Russia there are commercial possibilities here which, if properly exploited, will pay his war bill and leave a magnificent balance on the right side.

A number of Russian officers who arrived in Archangel from Berlin a few days before I left for the front came like maidens to their parents after the first proposal. The German had been so magnanimous that their breath was taken away; I am not sure that they did not fear that they would never be forgiven for thinking harshly of him. These officers, who had been prisoners of war, were told that they must now regard Germany as "their second home". For some time past they had been treated as though they were the honored guests

of the State; they listened to fulsome praise of the Russian national character, and one declared that he was told, "If we were to unite our resources, we could have the world at our feet."

### Russian Character.

To the sceptical this may sound like drum-beating, but may I suggest that the Russian character is so susceptible at this period that impressions are easily forced upon it? Moreover, this is a transitory stage in the history of the Russian; he has suffered so much during the last four or five years, and has listened to so many promises from so many sources, that hope deferred has made him sick enough to accept any hand that may be held out to him, provided that the hand is well filled. The Allies are only now beginning to fulfil their promises, and the concerted movement started today by the taking of Topsis may rob this warning of its significance.

The German is far from being a dilettante in studies psychologic, and even if his kiss is influenced by the promise of 30 pieces of silver, a kiss is worth that much to the Russian today. Will it surprise you to learn that Berliu is already issuing a newspaper published in the Russian language? I was shown a copy the other day, and there in print was the invitation to Russia to regard Germany as her second home. Germany may disclaim any connection with this Bolshevik movement, but if you ask any officer of ours who had been fighting on the Dvina he will tell you that for a long while he could afford to treat the Bolshevik artillery with disdain. Then came a change. The marksmanship was extraordinarily good. Shells were dropped within six yards of their objective. It was then that German marksmanship was recognized. One cannot fight in France and Flanders for four years without learning something.

### The Book Trade.

Now, what has Germany to gain, commercially, by wooing and winning Russia? Take the book-publishing business—if you doubt its importance, reflect for a moment on what propaganda has done in the war. Before 1914 Germany practically monopolized the trade in Russia. Her agents were sent all over this country, and they profited by the traditional dilatoriness of the native. They crept

## ONLY MEDICINE MADE FROM FRUIT

### Extraordinary Success which "Fruit-a-tives" Has Achieved

One reason why "Fruit-a-tives" is so extraordinarily successful in giving relief to those suffering with Constipation, Torpid Liver, Indigestion, Chronic Headaches, Neuralgia, Nerve, Chronic Rheumatism, Pain in the Back, Kidney and Bladder Troubles, Rheumatism, Eczema and other Skin Affections, is, because it is the only medicine in the world made from fruit juices.

It is composed of the medicinal principles found in apples, oranges, figs and prunes, together with the nerve tonics and antiseptics of proven repute.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

into the villages and hamlets; not even the wayside cottage at the edge of the trail was despised. These agents sold books, published in Russian of course, dealing with trade, engineering, folk-lore, and fairy tales—the Russian peasant loves fairy stories; and they described the life of the German villager. The Russian peasant loves to hear of the conditions existing in the villages of another country. These agents did not ask for payment at once; they allowed the instalments to run over 12 months and more. In every Russian village there is at least one peasant who can read, and the villagers gather round of an evening and listen to his efforts. The Germans understood that they must write their books in the simplest form of phraseology, the six-letter word being about the limit. Epitomized, these books might read: "God is good. So is the German." Millions of books were sold, and the profit to the publishers must have been enormous. Then came the war, and all reading matter was forwarded to the troops. Subsequently the revolution saw most of the Russian printing presses destroyed by the Bolsheviks. The position today is just this: Russia, as represented by the peasant, must collect a new library, a new literature. Which of the Allies is going to supply the nucleus?

In conversation with a Russian educationist the other day I gathered that never was there a finer opportunity than now for some British publishing firm to open a branch in this country. Whoever comes to investigate must acquaint himself with the needs of the people by going into and living in the villages. The Russian character is supposed to be simple, but my experience of it is that complex is the better word to apply. The firm that makes the first serious effort will probably secure valuable concessions from the Government, which earnestly desires assistance in the task of recreating the national life. The raw material for the making of paper pulp is unlimited and with a little enterprise and expenditure the transport facilities might be improved beyond description.

The details that follow affect a number of industries. I give them in juxtaposition because there is no time to select from and arrange the notes that were gathered from the very best of sources. You will note the references to forest land and connect them with the suggestions above mentioned.

North Russia may be defined as the territory drained by all the rivers that flow into the Arctic Ocean or White Sea—or that part of Russia north of a line drawn from Petrograd due east to the Ural mountains, which line would represent the 60th degree of latitude.

### Mineral Wealth.

From an industrial point of view this part of Russia is very poor and the country sparsely populated. Minerals are to be found only in the region of the Ural mountains, around Petrozavodsk and the Kola Peninsula. Coal, iron, copper, asbestos, silver, gold, and platinum are to be found in large quantities on the European side of the Ural mountains, but these have been worked and exploited only as far north as the 61st degree of latitude. Iron ore in unlimited quantities is to be found on the River Sissola, and has been worked for many years, but the ironworks are out of date and dilapidated. These works, three in number, could be brought up to date by enlarging the reservoirs and substituting electricity for charcoal.

Some years ago oil was discovered near the River Uchta, a tributary of the Petchora. I understand that Nobel bought the concession, but never worked it.

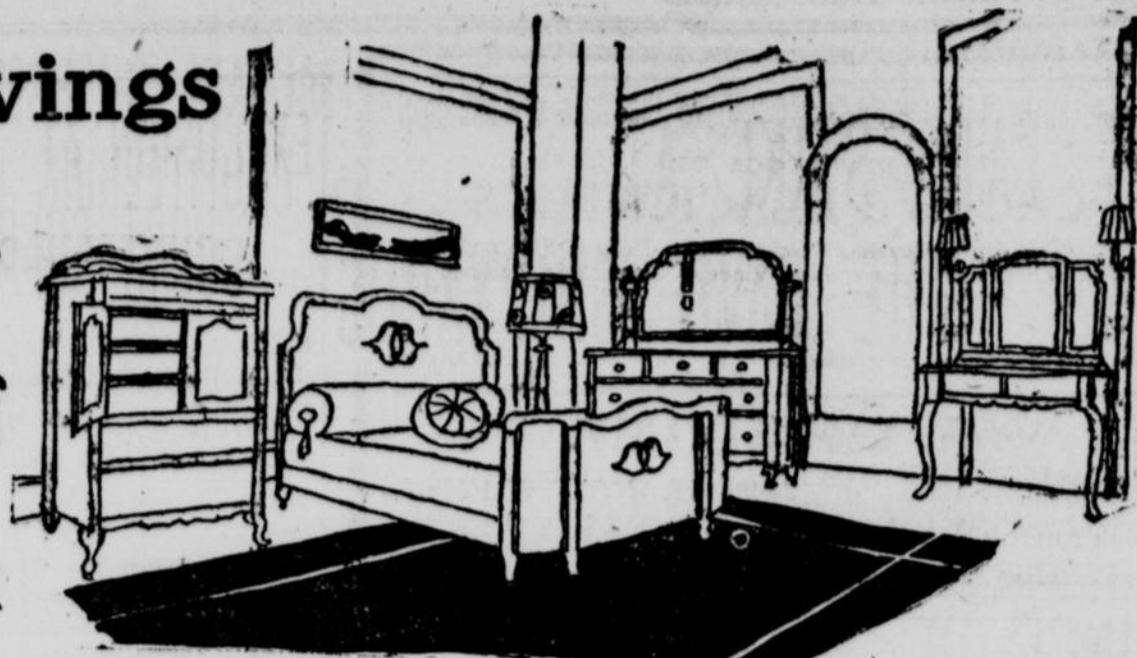

Marble and granite and all colors of clay are to be found on the banks of the Dvina and Pinega, while mica exists near Archangel on the southern shore of the Dvina Bay.

### Virgin Forests.

The area north of the 60th latitude, representing one-third of European Russia, is one immense forest. Today Archangel has 33 saw-mills, the rivers flowing into the White Sea (other than the Dvina), 12; Mezen, two; and the Petchora, one. There are three or four saw-mills south of Kotlas, but these are for local requirements. Approximately one-half of the timber shipped is sawn and the other half in the round. East of a line drawn from Archangel to half-way between Kotlas and Viatka and right over to the Ural mountains there are unlimited virgin forests of red and white wood, producing the finest grades of sawn lumber in the world.

## Now is the Time to Buy Furniture at 20 to 30 P.C. Off

# Liberal Savings During the Whole of The Month

Our show windows convey a partial idea of the kind of Furniture on which you can save 20 to 30 Per Cent during this month. The kind of Furniture that will grace the best of homes—built to last a lifetime, and improve with age, as good Furniture should do.

In this Sale we offer the product of Canada's foremost makers, whose reputation is a guarantee of superiority. The best for the price has always been our policy. It is a good policy for you to follow in buying Furniture. And our prices are lowest, because they have not kept pace with manufacturing cost.

We are selling Furniture today at old prices, which are really MAKERS' PRESENT PRICES. Over and above this inducement we give you a reduction of from 20 to 30 Per Cent during this month.

Can you not see how profitable it is to buy now.

THE LATE STIKE AT THE DAVIE SHIPYARDS

LOCAL WORKERS WRITE TO THE CHRONICLE ANSWERING STATEMENT GIVEN OUT BY INTERNATIONAL REPRESENTATIVES LAST WEEK.

Aug. 11th, 1919 Editor, Chronicle, Dear Sir,

The salaried chiefs of the International Union, strangers to Quebec and Lauzon have published last Thursday in several of our Quebec newspapers, a supposed statement to justify the illegal conduct they have advised their victims to follow during the strike that has just ended.

We want to point out certain declarations in this statement to put in full light all the malice therein and to show our fellow workers how dangerous it is to have hired or salaried individuals as counsils.

The statement says at first that in April last the Federation known under the name of "Marine Trades Federation" had called at Ottawa under the presidency of the Minister of Labour the different companies operating the shipyards in the country to discuss the conditions of Labour, and make a rule for the future, it says that several Companies' Managers accepted the invitation and went to Ottawa, and that it was decided there that these Managers would go back to their yards and take the matter up with their employees so as to come to an understanding.

The Davie Shipbuilding & Repairing Co., Ltd., took no part whatever in this meeting and this Company was not the only one to do so. Many other firms had no reason whatever to discuss questions that had already been positively settled.

In fact last year a Royal Commission sieged at Quebec, at Montreal and in several other cities throughout the country where there were shipyards. All complaints, grievances, all miseries were submitted to this Royal Commission and all and everything has been settled to the entire satisfaction of employees and employers.

Principally for the Davie Shipbuilding & Repairing Co., Ltd., the Commission having arbitrated on a scale of wages, after an absolutely complete inquest on labour conditions and cost of living regarding this shipyard. The commission recognized that the Davie Company had totally accepted the union of its employees under the name of "National Union".

The Minister of Labour had expressly recognized that the great majority of the employees being affiliated to the National Union it was almost impossible for the Davie Company to recognize an other Union.

Consequently a contract was signed by the Davie Shipbuilding & Repairing Co., Ltd., and Officer of the National Union for the time between then and the signature of the Peace Treaty.

the National Union and get them to join the International Union, to afterwards declare a strike. They have met with a complete failure.

Through despair and rage these International ring leaders have decided their poor victims to commit an illegal act, persuading them that they had the right to stop those who wanted to work, from going back in the yards.

This is what they have said: Lay a rope so as to close the entrance of the yards, you are 300 strong, get behind this rope and keep everybody from going in the yards; use ill-treatment if necessary to keep whoever away.

Criminal law dishonours and punishes such acts. The Judge that heard the case of the 87 men accused of the strike has said so to the ring leaders of the International Union, who were strangers, but known just the same to the Public who filled the hall of the Court House.

They were there, in Court, the famous Arcan and his mates, they have heard the Judge tell them he would put them in jail if upon listening their advice the International men would prevent the National Men from going back to work. They have been afraid. Their work, their sad and dirty work was at an end. They were threatened with jail, so they quit.

Last Thursday the National Union men went down to the shipyard they went in, nobody from Lauzon got in their way; the International men from other localities had disappeared.

Just a word on salaries. The members of the National Union have the salaries they have asked for.

Is it ridiculous enough for strangers to come to Lauzon and preach strikes and revolutions amongst employees of a company that is the wealth and prosperity of our locality, under such circumstances?

EXPLOSION AT PORT COLBORNE

UNITED STATES AND CANADIAN GOVERNMENTS DISPATCH EXPERT INVESTIGATORS

Port Colborne, Ont., August 11.—Various boards of experts, sent here by the Governments of the United States and Canada today continued their investigation into the cause of the explosion here Saturday, which caused the death of ten persons, and the injury of twenty others, with the destruction of the two million dollar Government elevator and the sinking of the grain barge Quebec.

It is generally accepted now that the explosion was the result of spontaneous combustion in the huge elevator. Methods to prevent a repetition of the disaster, in any of the scores of similar elevators on the continent, will be formulated by the experts now on the ground.

Efforts Fruitless. St. Catharines, Ont., August 11.—All efforts to recover the bodies of Alfred Beck and Sidmond Dunlap, missing since the explosion, at the Port Colborne Government elevator on Saturday night, have been unsuccessful. No doubt is entertained as to their fate, however. Relays of rescue gangs are continuing the work of pumping grain and water out of the hold of the barge "Quebec" and in clearing the concrete and steel wreckage.

It is feared that the death toll of ten may be increased by two. Arthur Montreuil, one of the crew of the "Quebec," is in a serious condition and little hope is held out for his recovery. He will be sent to the Welland Hospital.

S. Mouck, an employee of the elevator, who was engaged in loading the barge, was severely burned and his condition tonight is regarded as critical.

Captain Hector Latour, his wife and family, and the members of the crew with the exception of Montreuil, left tonight for Montreal. The same train carried the remains of Joseph Latour, brother of the Captain.

Funerals of four of the victims took place today.

POLISH FORCES ENTERED MINSK

BOLSHEVIKI UNABLE TO ARREST CONVERGING MOVEMENT ON CITY.

London, August 11.—(By the Associated Press) — Polish forces entered Minsk, capital of the Russian Province of the same name, last Friday after a fortnight of heavy fighting, according to an official statement issued by the War Office tonight.

INQUEST OPENED INTO DOMINION PARK DISASTER

TWO OF THE THREE DEAD WOMEN IDENTIFIED YESTERDAY

Montreal, Que., August 11.—Two of the three women dead in the Dominion Park disaster yesterday have been identified. They are Yvonne Deschamps, 19, 191 Palm Avenue, and Florine Desrosiers, 17, 46 St. Marguerite Street.

The total now known to be dead is 7, three men, three women and a boy. Coroner McMahon opened the inquest today into the deaths of the victims. Evidence of identification was taken from relatives establishing each case beyond doubt, pending further evidence the inquest was postponed until next Tuesday.

Little was brought out in evidence that would indicate incendiary origin of the disaster. A ticket-taker stated he had seen two men climb out of a small window of the building soon after he had seen smoke issuing from it. It is thought, however, that these were simply men escaping from the flames.

Another witness is being sought who is said to have stated that he noticed fire leaping from one of the electric wires. An investigation into the fire will also be conducted by Fire Commissioner Latulippe and his detectives.

The morgue today is truly a house of death, and in it lie on slabs the burned and charred remnants of what yesterday were merry-makers enjoying the fun of the well known east end amusement park, Dominion Park.

Seven bodies were discovered up noon and have been identified. There were rumors this morning that two other bodies had been found among the debris, but this information has not been confirmed.

One body was identified through a lady's gold watch bearing the name Elgin, and the number 1771755. The watch is stopped at exactly 20 minutes to 6 o'clock.

Dominion Park this morning was quiet and the only signs of the tragedy were the burnt tressels of the scenic railway and the bodies lying in the morgue.

The ruins were again searched today for other victims of the disaster.

BLACK SEA-COAST ABOUT CLEARED

ONLY ABOUT FIFTY MILES NOW REMAIN IN BOLSHEVIK HANDS

London, August 11.—(By the Ass'd. Press)—Only about fifty miles of the Black Sea coast remains in the hands of the Bolshevik, the volunteer army having advanced south and west of Kharkov and occupied Hochakov, 41 miles east-northeast of Odessa according to a War Office official statement tonight.

"On the Astrakhan the volunteers are advancing and regaining the ground lost a few weeks ago," the statement continues. "A thousand enemy deserters have joined the volunteers."

"On the Volga front the Urbaeh-Astrakhan railroad has been torn up, the defenses destroyed and many prisoners taken. Three quarters of the Kamishin-Baltashov railroad are in the hands of the volunteers but Bolshevik counter-attacks have been successful near Kloan."

RUMANIA STILL LAND-GRABBING

TRYING TO SECURE MORE TERRITORY IN THE BANAT DISTRICT.

Belgrade, Aug. 11.—A semi-official statement issued here says Rumania is making efforts to secure more territory in the Banat district of south-east Hungary although she has already been allotted to greater part of the territory.

The statement adds that the Siberian Government intends to request the Peace Conference to settle the question by means of plebiscite throughout Banat.

A despatch from Paris on Sunday quoted an official communication from Bucharest saying Rumanian troops had entered Temesvar, in Banat, the previous Sunday and that the population warmly received the Rumanians.

went around the tunnel alone, and the water in the watercourse was pumped into the mill by a pump. There were 12 boats operating and about 6 or 7 came out after the fire started. Of the boats that remained he said that the first three were full, the fourth, was empty and the fifth had only one man in it.

Inquest Is Postponed. Coroner McMahon at this stage said that it would be impossible to proceed further with the inquest until some evidence could be collected by the fire inspectors regarding the cause of the fire. The inspectors would have a report on the cause of the fire about Thursday this week.

SECRET SHANTUNG TREATY CANCELLED

LANSING CLAIMS HE WAS KEPT IN DARK BY JAPANESE AMBASSADOR.

Washington, D.C., Aug. 11.—Existence of the secret treaty between Japan and Great Britain regarding the Shantung, China, peninsula was "concealed" from Secretary of State Lansing by Viscount Ishii, Japanese Ambassador to the United States, Mr. Lansing testified today before the Senate Foreign Relations Committee.

On September 6th, 1917, Mr. Lansing said, during the negotiations leading up to the Lansing-Ishii agreement, Viscount Ishii told him that he had assured Sir Edward Grey, the British Foreign Minister, that Japan would return Kino-Chow to China "but would have to retain the German Pacific Islands because no Japanese Government could stand without retaining them."

"Did Viscount Ishii make any further statement regarding the disposition of German claims in China?" asked Senator Borah, Republican, Idaho. "No," replied Secretary Lansing.

"But you know now that at that time Japan had an understanding with Great Britain for Japanese control of Kiao-Chow, and that Ishii concealed that from the Secretary of the United States."

"That's the truth." The Secretary said he first heard of the secret treaties on the subject between Japan and Great Britain, France, Russia and Italy in February of this year at Versailles. He said he had investigated "very thoroughly" and that these secret treaties never were published in Russia.

LENINE READY TO RETIRE NOW

INSTRUCTS RAILROAD MINISTER TO REACH UNDERSTANDING WITH MENSHEVIKI.

Copenhagen, August 11 — Bolshevik Premier Lenin, it is rumored intends to retire from the head of the Bolshevik Government, according to despatches from Helsingfors quoting Russian reports.

Strikes are reported to be raging everywhere in Bolshevik controlled territory. One hundred and fifty strike leaders were said to have been executed.

Pending his actual withdrawal, Premier Lenin was reported to have instructed Herr Krassin, Minister of Railroads to try reach some understanding with the Mensheviks, the moderate opposition party.

The strikes which have been becoming more violent are spreading in spite of the Government's intervention.

PROFITEERING BILL IN BRITISH HOUSE

OPPOSITION BASED ON FACT THAT MEASURES TOUCHES SMALL TRADERS.

London, August 11.—The House of Commons today began the second reading of the profiteering bill and when the members met it was expected the measure would cause a lively debate.

The chair was notified that four motions for rejection of the bill would be made. The opposition to the measure is based chiefly on the argument that the bill while introducing "wasteful and cumbersome machinery" is directed mainly against small traders and does not touch or penalize the powerful interests. The members in favor of rejection are of the belief that the large concerns are making enormous profits.

APPEAL TO THE ALLIED NATIONS

ARCHANGEL BODIES ASK THEM NOT TO WITHDRAW TROOPS.

Archangel, August 11.—An appeal to the Allied Nations not to withdraw their troops from Russia is being issued by the Municipality of Archangel and the boards of the Governmental and district Zemstvos of the Archangel Province, it was announced here today. The appeal constitutes an indictment of the Bolsheviks as "enemies of the Constituent Assembly for which the Russian democrats are fighting."

THE FUNERAL OF ANDREW CARNEGIE

WILL BE HELD PRIVATELY FROM HOME ON THURSDAY NEXT.

Lenox, Mass., August 11.—Announcement was made this afternoon that the funeral of Andrew Carnegie would be held from his home, and would be strictly private.

It was said unofficially late today that Rev. Benson N. Wyman, pastor of the Lenox Congregational Church, and Rev. Dr. Wm. Merritt, pastor of the First Presbyterian Church of New York would officiate at the funeral to be held on Thursday and that the body would be taken to Tarrytown, N.Y., for burial.

Washington, D.C., August 11.—Andrew Carnegie had given away \$350,000 up to June 1, 1918, a compilation of his benefactions prepared by the Carnegie Endowment for International Peace shows.

THE DISH THAT SATISFIES

Foods that please the palate are not always nourishing or satisfying. Shredded Wheat Biscuit with berries or other fruits is deliciously satisfying and nourishing. The crisp and tasty baked wheat holds the juices of fruit in their natural flavor—a dish for the Summer days when the appetite is fussy and the digestive powers are weak. Ready-cooked, ready-to-eat.

QUEBEC, AUGUST 12, 1919.

THE VALUE OF PUBLICITY.

The letter from the secretary of the Quebec Harbor Commission appearing in the local press during the past few days is both welcome and important; welcome because it shows a disposition on the part of this body to take the public into its confidence and important because it conveys a great deal of information that has not hitherto been generally known. Apparently the Harbor Commissioners have been working conscientiously on their "job" but have yet to learn the value of publicity in getting results. Here is one of the biggest undertakings in the Ancient Capital and yet it is questionable how many people can name offhand the men who are entrusted with it. Certainly very few people have been aware what they have done and are seeking to do.

In other great ports the Commissioners maintain close touch with newspapers and employ every other available means not only of informing the man in the street as to their activities but of bringing the influence of public opinion to bear in coping with the difficulties that inevitably arise from time to time; recent negotiations with the Wheat Export Company being a case in point.

It is gratifying to know that we have not only one of the world's finest harbors from the point of view of natural resources but that in many respects it is also equipped with the finest mechanical facilities to be found anywhere. At the same time the situation appears to be that we are "all dressed and no place to go," since no one will contend that we are doing the business to which such resources and facilities entitle us.

The Chronicle is not altogether persuaded that our troubles are due to organized discrimination as other people believe. Montreal enjoys an advantage in being situated at the head of ocean navigation that is hard to contend with in the first place and in the second, there is naturally a keen competition between rival ports in which those who have the best "selling" agents win out. If we sit back, depending upon the service that we can deliver to get business for us, while others perhaps less well equipped are out hustling we cannot expect to get very far, nor can we justly complain of discrimination if the business moves through other channels.

Whatever may be the position with regard to freight exports and imports to and from Central Canada, Quebec enjoys a strategic situation, as has often been pointed out before, with regard to the Middle and Far West. With a Government Railroad at our doors anxious to get as much of the long haul as it can, there should be no great difficulty in soliciting a co-operation with this harbor that would result in a considerable increase in tonnage within a short space of time.

The Harbor Commissioners may be endowed and we are prepared to credit them with energy and initiative but there is a limit to what they can accomplish single handed. By taking the public into their confidence at all times they will not only stimulate greater general interest in harbor problems but they will be able to avail themselves of an influence sufficient to offset any organized discrimination that may exist.

TIDY-UP!

The attention of the Chronicle has been directed by several citizens to tidying-up that needs to be done immediately if Quebec is to set its best foot forward for the impending visit of the Prince of Wales. Thus, for instance, the side-walk leading to Citadel Hill is in a rather dilapidated condition and indeed the road itself in rainy weather is little better than a morass of mud. Again we are told that the fine Latin inscription on the Wolfe-Montcalm Monument has been so badly erased by time as to be practically illegible. Doubtless there are many other small points of a similar character that will occur to individual citizens.

We are confident that it is the common desire that the Ancient Capital shall leave only the most favorable impression on the memory of His Royal Highness and we commend these matters to the attention of whoever is responsible for them. In addition the City Council might find it worth while to issue public notice urging a cleaning up of those places in particular that the Prince is to visit.

Up to the present nothing has been heard of the Council's intentions but we further suggest that it would be at once a graceful compliment to our Royal visitor and a great convenience to those who desire to attend some at least of the functions provided for in the official programme, if a Civic Holiday were declared on either Thursday, August 21st, or Friday, August 22nd, when the Prince first comes to this city. Such action would permit everyone to join in making his welcome a memorable one in keeping with so historic an event in our municipal annals.

A DISCREDITED REMEDY.

Much has been heard of late concerning the so-called Whitley Plan adopted in Great Britain and heralded as a certain panacea for all ills of industrial unrest. Reference was made to it in the report of the Industrial Relations Commission which conducted a transcontinental tour of investigation throughout Canada a few weeks back and certain modifications

were recommended as having received the endorsement of a large number of witnesses heard.

For this reason it is interesting, if a little disquieting, to learn from the Christian Science Monitor that the operation of the Whitley Councils in Britain, so far as they have been tried out, gives little hope for an effectual solution of the labor problems that are troubling the world.

Labor, it is said, is already becoming indifferent to the committees which have been set up in many industries, and does not abide by their rulings. Participation in a joint committee of employers and trade union representatives only engenders suspicion among the more radical element of the workers, who do not regard the proposals as going far enough on the road of co-operation and joint control.

The industrial councils, it is said, go very little farther than the arrangements for negotiations between employer and employed already obtaining under trade union conditions in well-organized industries. In the case of poorly organized trades, however, the institution of these councils would undoubtedly bring about a great improvement in the status of the workers.

The Whitley scheme is being ignored by the six largest trades of the country—the engineers, the miners, the shipbuilders, the cotton operatives, the steel smelters and the railwaymen. The government accounts for this aloofness by the size of the trades and the complexity of their organizations. The adoption of the Whitley plan, by setting up bodies "for purposes of consultation and decision on matters of common interest", is purely optional; there is nothing in the nature of compulsion either for employer or employed, and unless voluntarily invoked, the benefits of the scheme are not made available to the workers. Indifference on their part is, therefore, fatal to the project.

PRESS COMMENT.

THE PATRIOTIC FUND.

(St. John Standard.)

The future policy of the Patriotic Fund Committee, so clearly outlined by Sir Henry Ames, is one which must commend itself to every person in Canada. Few patriotic undertakings have been administered so conscientiously as had this work in the interests of soldiers' families. From one end of the country to the other, officials employed by the Committee and unpaid members of local organizations have, for five years, performed their duties in a thoroughly impartial manner while at the same time yielding to the demands of sympathy and of consideration for others in so far as they legitimately could. A very large amount of money has been collected, some of it through voluntary contributions and the remainder by assessment. It has been expended fairly, yet generously, so that no one with any real claim on this fund has had reason to complain of the treatment received. And the cost of administration, averaging all the numerous branches throughout Canada, and in consideration of the immense amount of detail involved, has been surprisingly low, so low indeed that one wonders how a record like this was attained. The collection and disbursement of the Canadian Patriotic Fund is an achievement which may well be regarded as one of Canada's greatest successes in the war.

A balance remains on hand, more money than will be required for the payment of the ordinary allowances to the families of men still in service. Very properly the Committee has decided that this balance shall not be returned to those who contributed—no one wants his money back—but shall remain at the disposal of the local organization to be used for the benefit of soldiers' families who, during the continued existence of that fund, may find themselves in need.

LOSING NO TIME.

(Hamilton Spectator.)

The investigation into high cost of living in the United States is moving swiftly. The most important announcement is to the effect that agents of the department of justice have been ordered to "ferret out all hoarders of necessities and profiteers throughout the country." They are to be prosecuted under the Food Control Act. This will, at least result in a show-down, and we shall know definitely what actual basis exists for the suspicions of wholesale profiteering so generally prevailing. The immense stocks of food and essential commodities held in storage will doubtless be released to a large extent—to the great joy and profit of the community. Excessive profits, too, are due for a tumble. Just where the line is to be drawn between reasonable and excessive profits may be difficult to determine in certain cases; but any person who puts private gain above the welfare of his compatriots and the stability of his country may fairly be defined as a profiteer.

"The love of money grows as its bulk increases." Profiteering is a disease which nothing but official intervention can cure. If we are to wait for a change of heart on the part of the plutocrat food barons, the clothing barons, et id genus omne, we shall have to wait till the crack of doom. These gentry require a little assistance in getting their atrophied consciences into working order again, after the orgy of wealth to which they have been accustomed by the war and its necessities. Canada must do as the United States is doing, not merely feed the populace with promises and deferred hopes of future action—which makes the public heart sick—but act promptly and firmly to the uttermost limits which the laws will permit.

ELECTRIC FOWL PICKER.

A machine invented by O. G. Rieske, of Buffalo, picks an ordinary fowl naked in less than five minutes, says Electrical Experimenter. Moreover, no feathers are scattered. A small electric motor turns a suction fan, and also a roller contained within the instrument itself, the power being transmitted by means of flexible cable. The roller is hollow and its outer surface is pierced by a number of slots which permit the incoming blast produced by the fan to pass freely through it. The top of the instrument is hood-

ed, and attached to this hood is a little rubber roller which rests firmly against the large drumlike wheel. The feathers of the fowl, sucked up against the two rollers, are plucked by having to squeeze between the rollers, after which they are blown to a tank.

A thumb contact permits the hood to be moved around in its axis, and thus the relative positions of the two rollers are adjusted according to the needs of each case. The smallest wild fowl or the biggest turkey may be plucked with equal ease. A fowl can readily be plucked in the dry state, but ordinarily it is scalded.

LODGE SENT INFORMAL DRAFT OF COVENANT.

Washington, D.C., August 11.—President Wilson today sent to Chairman Lodge, of the Senate Foreign Relations Committee, the informal draft of the League of Nations covenant presented by the American Peace Commission at Paris and also the informal report of the Commission on the League of Nations. The President wrote Mr. Lodge that it would not be possible to comply with the committee's request for the documents used by the American Peace Commissioners at Paris in negotiating the peace treaty.

**IN AND ABOUT TOWN**

**REPRESENT QUEBEC IN UNION CABINET**

**NAMES OF JUDGE MARECHAL AND ROMEO LANGLAIS MENTIONED IN DESPATCH.**

An Ottawa despatch published in L'Evenement yesterday states that when coming to Quebec to meet the Prince of Wales Sir Robert Borden will come a couple of days sooner to confer with his political friends here in view of prospective cabinet changes.  
The despatch states that rumors are current that Hon. Judge L. T. Marchal and Mr. Romeo Langlais, K.C., two Conservative leaders and personal friends of the Prime Minister, will be taken into the Cabinet, Judge Marchal as Secretary of State, while Mr. Langlais will be given an important portfolio.

The policy of free trade, it is stated, announced by the Liberals has perturbed manufacturers and labor, and as a result it is felt that it would be possible to elect Judge Marchal and Mr. Langlais in labor divisions such as Maisonneuve and Quebec-East.  
The need of Quebec representatives in the Federal Cabinet has long been felt, and public men in this city of all shades of politics do not hesitate to deplore the fact that Quebec is not properly represented at Ottawa and cannot be so long as she has not men to look after her interests in the Government of the country.

**ENTER ACTION FOR BREACH OF PROMISE**

**YOUNG MAN HAD DOLLED UP FOR WEDDING — BRIDE CHANGED MIND.**  
An action for breach of promise was entered in the Superior Court yesterday by the legal firm of Fitzpatrick, Dupre & Gagnon on behalf of Acauld Kirouac against Louis Racine.  
The defendant in the suit, Louis Racine, is the father of Adrienne Racine, eighteen years of age, who, the plaintiff alleges, promised to marry him. With the prospect of marriage in view Kirouac got busy and spent the sum of one hundred and fifty dollars on fancy shirts, socks and other glad rags incidental to wedding mornings. But, alas, a few days before the joyous event, it appears that the young lady eloped with another young man.  
The plaintiff wants to be reimbursed by the father of the young girl for the money which he expended on the purchase of wedding clothes.

**NATIONAL EDUCATION.**

Well-known Quebec Educationalist to Speak at Conference at Winnipeg.  
Among the speakers at the National Educational Conference, which is to be held in Winnipeg, October 20th-22nd, will be Dr. G. W. Parmelee, Deputy Minister of Education for Quebec. Dr. Parmelee will open the discussion on "Auxiliaries to the School in Moral Training," the general subject of two addresses one of which will be given by Dr. James W. Robertson, Dominion Commissioner, Boy Scout's Movement; the other will be given by Taylor Statten, National Boy's Work Secretary, Y. M. C. A.  
During the past two years Professor W. E. Osborne, Head of the French Department of the University of Manitoba, has been touring the country in the interests of the Conference. The enterprise has gone forward steadily during that time and is shortly to be consummated in the great meeting referred to. This conference promises to be the most impressive educational gathering ever held in Canada, it will in fact, be the first National Educational meeting in which citizens as well as professional educators will consider the problem of education from the National point of view. The special theme of the conference will be the Relation of Education to the Quality of our Canadian Citizenship. Among the participants in the conference will be Hon. Dr. Cody, Sir Robert Falconer, Dr. James W. Robertson, Peter Wright of the British Seaman's Union. President Binley, of New York, and President Suzalo, of the University of Washington.

**VATATIS ARRESTED**

Copenhagen, August 11.—General Vatatis, former commander-in-chief of the Bolshevik forces and his chief of staff have been arrested by order of the Bolshevik Government, according to a Helsingfors despatch quoting a report from Petrograd. The two officers were charged with organizing a counter-revolution.

**CHANGES IN THE LOCAL CABINET**

**MOTUED NOMINATIONS ARE EXPECTED TO BE MADE ON WEDNESDAY.**

Now that the Quebec Liberals have returned after putting order into the Liberal camp at Ottawa, and have selected a successor to the late Chief, Sir Wilfrid Laurier, it is expected they will take up the question of putting things in order in their own house here.  
At the last session of the Legislative Assembly a number of promising young politicians kicked over the traces, and it seems plain that the only thing that can soothe their ruffled nerves is to take them from the back benches of political oblivion and bring them into the lime-light of the cabinet. This has already been decided, it would seem, and all that was awaited was the settlement of the big Federal issue before the changes here be given effect.  
Sir Lomer Gouin, who immediately went to Murray Bay, after his return from the Convention at Ottawa, is expected in the city today and the big meeting of the cabinet will be called for tomorrow.  
It was generally conceded, even by prominent Liberals, before and since the recent elections in this province that Sir Lomer Gouin would not remain in Provincial politics for the next session, but would retire from the head of affairs to go to Ottawa, or to return to Montreal to resume his law practice and found a legal firm with his sons. If this be still the intention of the Prime Minister there has been no intimation as to when it will take place. He will probably make all the other cabinet changes and appointments and when he has settled these matters he will quietly withdraw relinquishing the reins of power to the Hon. L. A. Taschereau, who will then have an opportunity of showing whether or not he has within him the stern stuff of which successful party leaders and prime ministers are made.  
Among those who are designated for cabinet jobs are Messrs. J. E. Perrault, member for Arthabaska, Athanase David, member for Terrebonne, Louis Letourneau, member for Quebec-East, and J. N. Francoeur, member for Lotbiniere.  
With regard to the entry of Mr. Athanase David into the Cabinet it may be interesting to note that L'Authorite in its issue of August 9th under the title of "Mr. A. David commits suicide, politically speaking," has some comments to make on the motion which the provincial member for Terrebonne laid before the Quebec caucus at the Liberal convention. The article states that it has already qualified as childish the action of Mr. David, which asked that the Quebec delegates abstain from a choice of a Liberal leader.  
"At a time when the Liberal party has inscribed at the head of its programme, harmony between the races, the proposition of Mr. David would do nothing more than to widen the breach between Quebec and the other provinces. His speech deserved the following appreciation of one of his hearers: 'It read like an article in Le Devoir.' Mr. David evidently did not submit his motion to Sir Lomer Gouin, for the Prime Minister, whose chief quality is good sense, would not have hesitated to advise him to put it at the bottom of his pocket. Mr. Athanase David has been spoken of as a minister in the coming reorganization of the provincial cabinet; but it is probable that his bad shot at Ottawa will keep him from a portfolio for a long time."

**BAND CONCERT**

By the kind permission of Col. Jamieson and Officers of the Regiment, the Band of the R. C. G. A. will play the following programme on Dufferin Terrace this Tuesday evening, from 8 to 10.  
1. March—"The Great Little Army"  
2. Overture—"Giovano D'Arco"  
3. Value—"April Buds"  
4. Selection—"The Bing Boys"  
5. "American Patrol"  
6. Selection—"The Passing Show"  
7. Incidental Music to Monsieur Beaucaire  
8. Intermezzo—"Huetamo"  
O Canada God Save The King.  
Conductor CHAS. O'NEILL,  
Lieut. R. C. A., Bandmaster R.C.G.A.

**RECORDER'S COURT.**

No less than twelve prisoners appeared in the Recorder's Court yesterday morning, all of them on the charge of drunkenness. One of the delinquents, owing to its being his first appearance, was admonished and allowed to take his departure. The remainder were sent to jail for various terms, in default of paying the fines imposed upon them by His Honor the Recorder.

**VICE-REGAL PARTY VISITS RIMOUSKI**

**THEIR EXCELLENCIES ARE TAKING IN PICTURESQUE POINTS ON NORTH SHORE.**

The H.M.C.S. Hochelaga with the Vice-regal party which left Quebec on Sunday, August 3rd for a cruise in the Lower St. Lawrence, put in at Rimouski recently.  
The party is composed of His Excellency the Governor-General, Her Excellency the Duchess of Devonshire, Lady Rachel Cavendish, Lady Dorothy Cavendish and Lady Ann Cavendish, Lord Haddington, Secretary; Captain McMillan, A.D.C., and others.  
At the Rimouski wharf Mr. P. H. A. Caron was the bearer of a message to Their Excellencies announcing that their son Lord Charles Cavendish was returning from overseas on board the C.P.O.S. Metagama.  
While on the wharf at Rimouski, His Excellency met Capt. Jos. Bouillon, and one of his sons who had served overseas. The Governor shook hands with them and congratulated the young soldier for his patriotic service.  
Before leaving for Campbellton, N. B., His Excellency on board the Hochelaga in the presence of the Vice-regal party, presented a souvenir to Mr. Caron.  
Pilot Albert Lachance has charge of the vessel from Rimouski to Father Point.

**R. C. G. A. BAND GOING TO HALIFAX**

It is announced that the R.C.G.A. Band is leaving at the end of the week for Halifax, where it will perform during the visit of the Prince of Wales to that City.  
Immediately after the departure of the Prince from Halifax the Band will return to Quebec in time play during the visit of His Royal Highness to the Ancient Capital.  
The fact that this Band has to travel to such a distant place to perform is something Lieut. O'Neil and his capable musicians may well be proud of, and they will leave for the Nova Scotia Capital with the best wishes of the Citizens of Quebec, for a successful trip.

**COURT OF SESSIONS.**

A resident of Levis, named Laurent Fournel, was convicted by Hon Judge Choquette in the Court of Sessions yesterday morning of having robbed a handbag, and sentenced to six months imprisonment.

**ST. LOUIS ACADEMY.**

Rev. Mother St. Agnes, for many years attached to the Good Shepherd Academy, has been transferred to St. Louis Academy, where she has been made General Mistress of the Classes. Rev. Mother St. Virginia has been appointed Superioress of St. Louis Academy.

**SERIOUS ACCIDENT.**

Scaffolding Collapsed Yesterday At Harbor Commission Grain Elevator.  
A serious accident occurred yesterday morning at the Harbor Commission grain elevator when a scaffolding upon which a number of men were working collapsed. The men were working at a height of about eighty feet, and Louis Roy and Joseph Giguere fell to the ground, both suffering grievous injuries. Arthur Brilliant and Edouard Delongchamps both managed to cling to parts of the damaged scaffolding and remained suspended until they were rescued in an exhausted condition.

**COLLISION UNDER INVESTIGATION**

Sydney, N.S., Aug. 11.—The investigation being held here before Captain Demers, Dominion Wreck Commissioner, into the collision between the S.S. War Witch and the Schooner Gallia, early last Thursday morning, met this afternoon and immediately adjourned until ten o'clock tomorrow until further word is received from McLanis and Mellish, Halifax who are acting for the owners of the Gallia. This morning, Hugh Ross, who is looking after the interests of the War Witch, at the inquiry, received a wire from the Halifax firm asking him to represent the owners of the Schooner Gallia or unable to do so, to obtain an adjournment until tomorrow. This was done.

**EDUCATIONAL**

Founded 1848 LENNOXVILLE, P.Q. CANADA Royal Charter-1853

Sporting Notes

The Cincinnati Reds lost half a game in the National League pennant race yesterday, losing to Philadelphia while the New York Giants did not play.

The Masked Marvels will play another Exhibition game with the Standards on Friday evening, and they say that they are going to win this one.

The Victoria Athletic Club will probably stage some more bouts in the near future.

The Toronto Leafs lost some more ground in the International League pennant race yesterday, dropping both ends of a double header to Newark, while the Baltimore Orioles won and lost.

We wonder who was the guy trying to push a Ford up Mountain Hill yesterday afternoon?

Our idea of agony—Watching a ball player posing gracefully for a nice, juicy fly, and then miffing it.

Battling Levinsky, who announced after his knockout at the hands of Jack Dempsey that he was through with the ring, staged a come back, and put Jim Tulley, the light heavy amateur champion, to sleep in about two minutes at Troy on Saturday evening.

New Westminster defeated Vancouver on Saturday in a Pacific Coast Lacrosse League game by a score of seven to three. The game was played at Vancouver.

The ball games at the Exhibition Grounds next Sunday promise to furnish some of the most exciting baseball ever seen in the local diamond. In the first game Napoleon and C.B. will meet again. The last time these two teams met, the game ended in a victory for the Cow Boys by a score of seven to six, they having overcome a five run lead the Naps obtained in the early stages of the game, and staging a ninth inning rally, they scored two runs, enough to give them the victory. The Naps have been practising hard for the last three weeks, and say that there will be no need of a ninth inning rally by the C. B.'s this time, as they are going to score so many runs in the first inning that an adding machine will be needed to keep track of the score. The C.B.'s, say the same thing, so a battle royal may be expected to be seen when they meet.

The Athletiques of Quebec, defeated the Young Montagnais, of Levis, on Sunday in a ball game by the score of 20 to 2. Gamache twirled great ball for the winners striking out twelve men. The names of the winners are: Belanger, Gamache, Labbe, Verreault, Giguere, A. Gamache, P. Lorrain, Gravel, and La Tulippe. On Sunday next they will play with the St. Jean Baptiste team.

Shamrocks defeated Ottawa on Saturday in a National Lacrosse Union match by the one-sided score of 12 to 1 at the Shamrock grounds in Montreal.

The game next Sunday between St. Patricks and Standarus promises to supply some good ball. The Standards were the victors on the last occasion that these two teams met, winning by a score of 6 to 4. Moroney, the southpaw pitcher of the Standards, won his own game in the eight frame, cracking out a single which scored two runs. The Saints promise to see that there is no need to for the Standards to score singles which will give them the game, for they say that there are going to be enough runs made in the first couple of frames to win the game, and they promise that the greater number of them will be credited to the Irish team. That fact remains to be seen. One thing is certain, however, and that is, the Saints must practise if they expect to win games.

Cornwall defeated Nationals on Saturday at Cornwall in a National Lacrosse Union game by the score of 16 to 9, thereby strengthening their leadership in the pennant race.

Standarus say that next Sunday they will not lose by one run. They are the real 'hard luck' champions of the City League this year. Both of their games against the C.B. team were lost by one run each. The first was a score of 8 to 7, while Sunday's game was 5 to 4. Their game with the Tips was also lost by one run, the score being 2 to 2.

TO HAVE RACING WITHOUT GAMBLING

MONTREAL RACE TRACKS TO OPEN DOORS TO PUBLIC NEXT SATURDAY.

Ottawa, August 11 — News from Montreal that local race tracks there will open next Saturday in defiance of the Federal prohibiting racing, presents an interesting situation.

The tracks are opening up on authority of a provincial license. Such a license is for the purpose of raising provincial revenue, but it is subject to the Dominion law.

There is a popular misconception on the subject of racing being banned. Racing as such is not banned and never has been. It can go on every day in the week but Sunday.

What is banned is racing "with the privilege of betting." The provincial license authorizes racing. It does not over ride the ban against betting and the provincial ministers are fully aware of that fact. The enforcement of all criminal law is a provincial matter and it is presumed that if racing with betting is attempted the provincial or municipal authorities of Montreal will carry out the law. If they fail to do so, any citizen or society may lodge information, however, that the provincial or municipal policy will stop betting. No one is prepared to make a statement as to what will be done, if betting is resumed and is not suppressed. The attitude here is one of "wait and see."

BATTLING LEVINSKY PUT TULLEY TO SLEEP

Troy, August 9 — Battling Levinsky knocked out Jim Tulley, amateur light-heavy weight champion in less than two minutes at Saratoga Springs tonight the fight had scarcely started when Levinsky hit his opponent a wicked jab on the jaw sending him to the floor for the count.

YACHT "WINDWARD" WON OCEAN RACE

Halifax, N. S., August 11—At ten thirty tonight the first yacht arrived in the ocean race from Chester to Halifax, when the Windward sailed up the harbor, followed a few minutes later by the Gem. At eleven o'clock no other yacht had been sighted.

The Chester Club offered three prizes for this race.

Louis Chevrolet established a new half mile dirt track record in Montreal on Saturday, when he covered the distance in thirty three seconds. Gaston Chevrolet, his brother, covered the half mile at the local track last summer in thirty five seconds, during the automobile races which were staged here.

DALMATIA REPRESENTED AT ATHLETIC MEET

Halifax, N. S., August 11—The Italian town in Dalmatia over which there was much discussion in the peace conference, was represented by a field and track team in the recent athletic exhibition held in the National Stadium. Athletes from all over Italy participated. In a grand parade of all the athletes in the stadium before King Victor Emmanuel, Zara had the place of honor and was received with tumultuous enthusiasm.

SIZE DIDN'T COUNT. Thought That Heartened Young British Soldier.

Tommy Kehoe, a sixteen-year-old English boy, tells how he "got his first Hun." Not a hundred feet away they were when our lads were jumping to the parapet to meet them with their bayonets. I made a leap for the top of the ladder, grabbed at it, missed and slipped back. Somebody reached out a hand and pulled me up. Almost on us they were. Oh! never in my worst dreams—and I've had many a bad one since then—have I seen a more dreadful sight than that. They came at us out of the dark like fiends from another world, like the pictures I've seen of men from Mars, for their heads were covered with the most evil looking masks that anybody could imagine, masks with huge round eyes and long, piggy snouts. Shells were bursting above them, machine guns were tearing through their ranks and their masks were white and ghastrly in the light of the rockets. Many a time I had thought of what war would be like, but never had I thought I should look on such a sight as that. "Fight or die, Tommy Kehoe! Fight or die!"

That's what I told myself as I crouched in front of the sand bags, with my bayonet ready for them. Whopping big men they were, head and shoulders above me. But as I waited there a thought flashed through me of the Bantam regiment, little fellows scarcely bigger than I, who had made good against even those giant Prussians. Size didn't count behind a bayonet. It was quickness that counted. I was sure of it. If it didn't then it was all over with me. Even then, when they were almost up to us, how the guns were mowing them down! It looked as if none could be left in a moment or two. But those that didn't fall came on like madmen and poured through the lanes where the big guns had leveled our wires. One—he was a six-footer if he was an inch—ran straight for me with his bayonet. I crouched and thrust at him—thrust upward. His bayonet went over my shoulder. He staggered and fell over my gun. I had got him! I had got him! In the stomach! "Twas lucky for me there was no time to think over it or to stand there gaping at him—the dead Hun hanging over my gun with his masked head almost touching me—for it was horrible. For a second or two I turned dizzy and sick. But it was fight again or die. I jerked my rifle back and stumbled over the dead man as he flopped to the ground. "Make for their stomachs Tommy Kehoe! Make for their stomachs!" I told myself. "Size don't count."

LORD MAYORS MUST BE RICH. Have to Show They Can Afford to Spend \$50,000 a Year.

Those people who imagine that a Lord Mayor has a well-paid job worth £10,000 and a baronetcy thrown in, makes a sad mistake, says Spare Moments. Supposing a man with insufficient means, in order to satisfy a life-long ambition, were tempted to try to scrape through somehow, the City Council takes good care to veto his plan—partly for his own sake, and partly for the sake of all those who may be independent upon the would-be Lord Mayor, or who have business dealings with him. The fact that he has at last become eligible for the chief magistracy is some evidence of pecuniary capacity, since he must have been alderman for about ten years, at an annual cost to himself of £400 or £500, and he must also have been sheriff which will have cost him from £2,000 to £3,500. But being Lord Mayor is, after all, a different matter, and the city demands that the most convincing proof of the candidate's financial standing shall be afforded to it. Before the time for his election comes, a secret sitting of the Court of Aldermen is held, and at this sitting the alderman who is next in rotation for the chair practically lays bare to his brethren his financial position. He produces proof that he is in possession of means which will

warrant him in spending £10,000 over and above his allowance without impoverishing his family. If his brother aldermen are satisfied all is well. Needless to say, the giving of such information is a very serious matter to a city magnate, but the secrets he discloses after he has thus "given bond" are never under any circumstances told outside. It would go ill with any alderman who became a traitor to this absolutely secret court.

ROYAL CANADIAN NAVY RECRUITS WANTED. Seamen and Stokers (Firemen) with a limited number of other ranks. Engagement for one year, possibility of further service. Usual age between 18 and 38. PAY: Ordinary Seaman \$ .90+75c. bonus; Able Seaman 1.10+75c.; Stoker, 2nd Class 1.00+75c.; Stoker, 1st Class 1.25+75c. Free kit on entry. Marriage allowance. Particulars on application. Application should be made by letter to Naval Recruiting Secretary, Department of Naval Service, Ottawa, Commanding Officer, H.M.C.S. "Niobe", Halifax, N.S., or Commanding Officer, H.M.C.S. "Rainbow", Esquimalt, B.C. G. J. DESBARATS, Deputy Minister, Department Naval Service. Ottawa, June 28th, 1919.

GRATEFUL TO CANADA. A Connecticut soldier, Gunner Harry Smith, who enlisted in the Canadian army, writes the New York Times expressing his gratitude for his treatment by this Dominion. He is worth quoting: "I was discharged one hour after arriving in Canada from overseas, and equipped with my first month's gratuity allowances, transportation, and service badge, was on my way home to the United States in 'jazz time.' We were also allowed \$30 for civilian clothing. I am now receiving \$70 and my wife \$30 per month for the time stated. My wife received \$30 per month during my absence plus foreign exchange money. I cannot speak too highly of this wonderful country which treated us American volunteers like 'gentlemen.'" Gunner Smith, who feels he was treated like a gentleman, has acknowledged it like one.

# LAST APPEAL

Riddance Sale in White Footwear

# THE GOAL STRIKE IN GREAT BRITAIN

WILL THE "WAKE-UP" COME TOO LATE, CORRESPONDENT INQUIRES.

London, Eng., July 29.—(Special mail correspondence to the Chronicle)—If the Coal Strike in Great Britain has done nothing else it has roused some of the community to a realization of the gravity of the relative commercial position of the country.

The fact that the Huns ruined factories and machinery and flooded coal mines in France and Belgium horrified the world, but when the miners of Great Britain have flooded the mines of their own land to such an extent that some of them may never be worked again, and thereby bringing want and misery on hundreds of thousands of innocent people dependant upon coal consuming industries for their living, has caused a realization of the danger of ignorance and all one can say is, "God forgive them for they know not what they do."

The greatest difficulty seems to be to get the man on the street to realise that Great Britain is in competition with the world and in order to maintain her commercial and financial supremacy something must be done to inform and educate the people concerning the real position.

Since the Coal Strike started, the newspapers are informing the people of the facts of the case. Some Members of Parliament are taking the keenest interest in the situation and pointing out that Great Britain lives upon its export trade. Had this information been brought home to the people before the strike started it is questionable that things would have gone so far for a full realization of the far reaching effect of their actions would have brought a steady feeling of responsibility to the strikers.

The seriousness of the situation as regards coal and the alarming results of reduction of output is being put before the people now the strike is on. At one time Britain's export sales of coal amounted to 77 million tons per annum. Today there is virtually no export of coal. The United States claims to have a capacity of two million tons a month for sale to Europe at prices very much lower than Great Britain can possibly compete with on the present basis of the cost of production. The production of coal per man per year employed in the mines of England is only 265 tons as against 800 tons per man in the United States. The United States output of coal has increased in the last 7 years from 480,000,000 tons per annum to 755,000,000 tons.

English business men are returning from the U. S. and are amazed to find out that in almost every line the manufacturer and producer in Britain is under a staggering handicap as to cost of production. Pig iron is 30 per cent higher here than in the U. S. Steel rails are about in the same proportion, but because of the tremendous increase in production per operative the wages are higher in the U. S. than they are in Britain. The enormous increase in the last U. S. Trade Returns showing a surplus of exports over imports of \$4,129,000,000 for the past year has caused considerable comment and tends to a realization of world conditions.

That the Huns are gloating over the strikes in this country is beyond question and the Special Correspondent to the "Daily Express" puts this situation in a nutshell as follows:—

"Taking the Bait. The knowledge that the strikes and internal strife in England are gloated over by Bolsheviks and Germans as proof that the British working man is blindly taking their bait and precipitating his own destruction, should make him reflect lest he should throw away the fruits of victory, and bring nearer Germany's day of revenge."

The latest information as to Bolshevik rule in Russia has been a revelation to the few deluded people who considered Bolshevism the panacea of all industrial troubles.

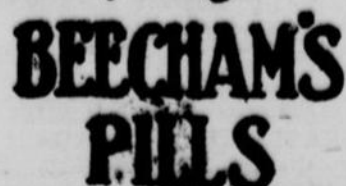

The following is a despatch from Copenhagen dealing with this situation:—

How the Bolsheviks Deal With Strikers.

"The Bolshevik authorities in Russia (according to the Copenhagen correspondent of the Exchange Telegraph Co.), have introduced severe measures to check 'idleness' and increase production in the nationalised factories.

"These include:—  
"Abolition of the six-hour day and its substitution by an eight-hour day;  
"Abolition of workmen's rights to make complaints direct to factory directors;  
"Rules for factory discipline;  
"Abolition of factory committees of workmen". The rules for discipline proclaim a scale of punishment for 'strikers, shirkers, grumblers, and other offenders'. Incitement to cut

When you feel that your stomach, liver or blood is out of order, renew their health by taking

Largest Sale of any Pills in the World. Sold everywhere. In boxes, 25c.

down production will henceforth be punished by revolutionary tribunal with a sentence of not exceeding three years' imprisonment. Incitements to strikes which culminate in serious disorder is made a capital offence punishable by shooting. Simple incitement to strike is punishable by three years' imprisonment."

The greatest difficulty experienced is how to get the people informed of the situation, as the average Englishman has supreme faith in Great Britain and the nation's individual ability. It is most difficult to convince the Lancashire cotton operative that cotton can be manufactured anywhere else in the world, yet the official figures show that Japan has increased her manufactured exports to India nearly 10 times during the last three years and this is mostly in cotton piece goods.

The producer of coal thinks that England alone can furnish the necessary fuel for industries regardless of price. The workers in the shipyards do not conceive that ships can be built elsewhere.

The supreme unreasoning faith may be a splendid national characteristic under the emergencies of war, but when it comes to world commercial prosperity, which is the underlying basis of England's greatness, it must be admitted it is a most dangerous state of mind. Every effort will be needed to convey to all classes of the community the relative position of the great nations in world trade and commerce. The necessity for impressing every individual to get down to work and production on a rational economic basis is the supreme task of the leaders of the people.

That Canada should take the hint and keep posted upon all trade conditions upon which the prosperity of the Dominion is based is obvious.

Things are moving so rapidly that delay is dangerous.

WM. HAMAR GREENWOOD.

## NO WAR BETWEEN CHINA AND GERMANY

Peking, Friday, Aug. 8.—(By The Associated Press)—Parliament today passed a resolution authorizing the President; to issue a mandate declaring that a state of war does not exist between China and Germany. It is considered doubtful whether the mandate will be published until delegates have discussed terms with German representatives.

## BLOCKADE RAISED.

London, August 11.—The Entente blockade of Hungary was raised today, according to a Vienna despatch to the Exchange Telegraph Company, the telegram adding that the Rumanians are extending their area of occupation to west Hungary alleging the necessity of suppressing Bolshevik plots there.

## HOPES PEACE TERMS MAY BE SOFTENED.

Vienna, August 10.—(Via Basle).—Dr. Karl Renner, the German-Austrian Chancellor and head of the Austrian Peace Delegation, expressed to the Foreign Office staff today his hope that the peace terms may be somewhat softened, especially with reference to southern Tyrol, which he said, he could not believe would be lost.

Commenting on the economic and financial terms of the treaty he declared that they were of a nature which would plunge Austria into catastrophe.

## CZECHO-SLOVAKS

### ENTER PROTEST

Paris, August 11.—(By the Ass'd. Press).—The Peace Conference today received a note from the Czecho-Slovak Government protesting against the Rumanian occupation of Hungary and especially against the seizure of properties which should be divided among the Allies under the reparation arrangement.

The Supreme Council considered the Czecho-Slovak note this afternoon and also telegram from Colonel William Haskett, High Commissioner for the Great Powers in Armenia, and conditions in that country resulting from the withdrawal of the British

## BREMEN'S CREW

Berlin, August 11.—(By the Ass'd. Press).—The Vossische Zeitung says that the entire crew of the German submarine Bremen which disappeared three years ago has arrived at Bremen.

Great Britain kept the men prisoners and completely shut them off from the world in order to keep the whereabouts of the vessel a secret, the newspaper adds.

# TREASURE SALVED FROM IRISH SEA

GOLD INGOTS RECOVERED FROM WRECK OF LINER... LAURENTIC.

Bunchana, Ireland, August 11.—(By the Associated Press).—Gold ingots to value of 1,000,000 pounds sterling, have been recovered by salvagers from the wreck of the former White Star-Dominion liner Laurentic, which was sunk January 28th, 1917, off Fasad Light.

The Laurentic, a vessel of 14,892 tons, which was acting as a British auxiliary cruiser struck a mine off the north coast of Ireland and later sunk. Of a personal of 470 only 120 were saved. According to testimony of Captain Norton before the coroner's hearing, a large number of men perished in open boats as a result of the bitter weather then prevailing.

## SHIPPING MOVEMENTS.

Arrivals at Halifax, Aug. 11.—Steamers Stella Maris from St. Pierre, Miq; West Mead from Norfolk, Va.; Lady of Gaspe from Powell; Chaudiere from West Indies via St. John; Regnolite from Montreal. Cleared—Steamers Oriano for Liverpool; Regnolite for Montreal.

Arrival at St. John, N.B., Aug. 11.—Oil steamer Iocote from Halifax. Cleared—Schooner Titton for England.

Arrivals from Sydney, N.S., Aug. 11.—Steamer War Dream from Montreal. Aug. 10.—Steamers McKay, Bennett (cable ship) from St. John; Lingan from Montreal. Aug. 9.—Steamer Derwent River from Quebec. Cleared Aug. 10.—Steamers McKay, Bennett for sea; Lingan for Montreal; Magdalena for Rotterdam. Aug. 9.—Steamers Derwent River for Brow-head, Eng.; Wabana for Montreal; War Dream for London.

## THE BICYCLE

The pushmobile of today is not unlike the first bicycle, which appeared in 1816, and was invented by a baron. That machine was built with two wheels of equal size connected by a "perch" on which the rider sat now and then, or, when he made speed enough by running, could lift both feet and let the wheels run themselves. The first pedals and chains appeared on a machine in 1840, and other improvements were added gradually until the modern bicycle has become almost a necessity as a means of getting about.

Until 1878 all bicycles were imported, but at that time their manufacture was demanded in the United States and the start for them became so great that in 1900 over one million were made and sold in America.

# NOT ASPIRIN WITHOUT THE "BAYER CROSS"

Any Tablet Offered as Aspirin and Not Stamped with the "Bayer Cross," is Not Aspirin at All!

"Bayer" Now Made in Canada—No German Interest—All Rights Purchased from U. S. Government

There is not a penny of German money invested in "Bayer Tablets of Aspirin" nor will a German citizen profit by its sale, or ever be allowed to acquire interest.

The original, world-famous "Bayer Tablets of Aspirin" is now made in Canada and can be had at your druggist's. Unless you see the "Bayer Cross" on package and on tablets you are not getting Aspirin at all.

During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. But there is no substitute for genuine "Bayer Tablets of Aspirin" which have been proved safe by millions for Pain, Headache, Toothache, Earache, Rheumatism, Lumbago, Colds, Grippe, Joint Pains, Neuritis.

Proper and safe directions are in every "Bayer Package." Get original package.

Don't accept Aspirin in a pill box. Always buy a "Bayer Package"!

Boxes of 12—Bottles of 24—Bottles of 100—All druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monopropionicacid of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

dually until the modern bicycle has become almost a necessity as a means of getting about.

Until 1878 all bicycles were imported, but at that time their manufacture was demanded in the United States and the start for them became so great that in 1900 over one million were made and sold in America.

## HOLD NO GRUDGE.

Time brings many changes. Take for instance the fellows who volunteered their services when war was

declared and who have since been promoted to be commissioned officers. Some of the men toiled in shops and offices and had to toe the mark for clerks or foremen to get fired. Then came the draft and these same clerks and foremen became doughboys and now take orders from their former office boys and employees. Some humorous stories have come to light from the nearby cantonments, but let it be said to the credit of the former office boys, they have not made life unbearable for their superiors, although they have had the opportunity to do so. As an illustration of this the other day a doughboy was serving mess to his top sergeant. As he did so he spilled some dressing from the salad. The sergeant noticed this and smiled. "Just about a year ago I was serving you with soup," said the sergeant, at the same time mentioning the hotel where he had worked as serving man, "and you gave me the devil because it was cold. I'm not going to kick because you spilled the dressing. I'm going to treat you right." And this is the general spirit throughout the camps.

**Children Cry for Fletcher's**

**CASTORIA**

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

**What is CASTORIA?**

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

**NOTICE**

The annual general meeting of the Shareholders of The Kingston Gold and Copper Mining Company, Limited, will be held at the office of the President, Mr. Vesey Boswell, 92 St. Valier street, Quebec, on Tuesday, 19th August, 1919, at 11:30 a.m., for reception of reports, election of officers and other business.

**ROBERT STANLEY,**  
 A.5,12x2 Secretary.

**PURCHASER IN LONDON PREPARED TO TAKE TWENTY OF FERRIS TYPE.**

New York, August 11—The Shipping Board has received a cable from its London agent announcing that a purchaser stands committed to take over twenty wood steamships of the Ferris type that the prospective buyer has deposited funds in bank awaiting acceptance of his offer and that he has been given a 30 days' option on the purchase of an additional 100 ships. The cable asked authority to sign a contract for the sale of the twenty vessels and this authority has been cabled to him. Under the terms of the sale the buyer agrees to pay ten per cent. of the purchase price upon signing of the contract, and the balance upon delivery. Upon signing of the contract, the buyer will name his American agent who will represent him in the matter of deliveries. All of the vessels to be sold in this group are of 3,500 deadweight tons which is equivalent to 2,355 gross tons. The purchaser pays \$300,000 for each vessel. This sale will bring the total number of wood ships disposed of up to 38. A fleet of 38 having previously been sold. In the last group of this type of vessel sold by the Shipping Board were seven 4,500 deadweight tons vessels and five of 4,000 deadweight tons. They were sold at a flat rate of \$450,000 each. The sale of wood steamships by the Shipping Board offers the only opportunity in the world market today for the purchase of seagoing tonnage at a very attractive price, and when these vessels are sold, the market for this class of tonnage will be closed indefinitely.

As to performance there are now 174 wood steamships, of 614,116 deadweight tons, under operation by the Shipping Board in varied services to all parts of the world. Most of these steamships are of 3,000 dead weight tons each. Three are of 4,000 and two of 4,920 tons each. Thirty-one are under charter and 145 assigned for operation.

**PROJECT OF STATE OF MAINE WINS SUPPORT OF STEAMSHIP MEN.**

Portland, Maine, August 11—Construction of a state pier will mean a great development of this port, in the opinion of Robert Reford, head of the Robert Reford Company, Ltd., of Montreal, representative in Canada and Portland of the Cunard Lines and the Anchor-Donaldson Lines, and a leading figure in the trans-Atlantic shipping business. He believes that better piers and docks here will bring more business to Maine, and that any move in this direction will have the indorsement of steamship companies. He points out that in the past ships have had to anchor in the harbor until their loading cargoes at the available piers started out to sea.

In discussing the matter Mr. Reford said: "I wish the state pier were available right now. It would mean much to us. We expect to increase our steamship business at this port the coming season, and although there is a shortage of ships, we plan to have weekly services between Glasgow and Portland. Boats of our Thomson Line fleet will maintain service between Portland and Leith and Newcastle. The Cunard Line will operate freight and passenger service between Portland and Bristol and London, and Portland-Glasgow and passenger and freight service will be handled by the Anchor-Donaldson line.

"The services to be maintained by my company will open here about Nov. 15 and I expect a heavy passenger business governed by the number of ships available; but the Cunard Line has recently purchased 12 new ships and is building 15 more.

"All the passenger ships in the Canadian trade, have been booked solid from the present time until November, and it is fair to assume that when the ships now running to Montreal transfer to Portland for the winter season, this port will benefit materially by increased passenger traffic."

**SHIPPING NOTES.**

The C.P.O.S. Metagama passed Fame Point at 7:30 p.m. yesterday and is due to arrive here between five and six o'clock this afternoon.

The Carillon Head passed Little Metis inward at 6:30 p.m. yesterday.

The Steamer Wabana passed Crane Island inward at 7:30 p.m. yesterday.

The Manchester Hero passed Fame Point at 3 p.m. yesterday and is due to arrive here early this morning.

The Steamer Guide was reported inward at Goulet at 1 p.m. yesterday.

The French Steamer Hudson arrived up at 6:25 a.m. yesterday and left again going up at 10:20 a.m.

The Steamer Vardulia passed up at 4:15 p.m. yesterday.

The Steamer Norfolk Range passed up at 5:30 p.m. yesterday.

The C.G.S. Bellechasse arrived up at 6:45 p.m. yesterday.

The Steamer Lake Gilpin arrived down at 1:50 a.m. and left going down at 8 a.m. yesterday.

The Steam Barge John B. Ketchum arrived down at 3 a.m. yesterday.

The C.G.S. Detector left going down at 3:15 a.m. yesterday.

**SHIPBUILDING AT SHANGHAI**

The U.S. Consul at Shanghai, China, reports that a new shipbuilding company has been formed at Shanghai, the Sung Fuh Yue Shipbuilding Co. It has secured 15 acres of land, on which it is proposed to build a plant capable of turning out large vessels. It is reported that this concern has the backing of Japanese interests. The launching of the steamer Gueneth, which is being built for the Halcrow Steamship Co. took place at the Nicholas Tau Engineering and Shipbuilding Works on May 3. The vessel is a sister ship of the Myla, launched in October, 1918, for the same owners. Its length is 360 feet, beam 40 feet, and depth of hold 25 feet 3 inches; it has a dead-weight capacity of 3,000 tons, and measures 3,360 tons. It is fitted with triple-expansion engines, and is designed to make a speed of 11 knots.

**WHITE STAR LINE SERVICE**

New York, August 11—The White Star Line's New York Cherbourg-Southampton service will be resumed in August.

Announcement that the service, which has suffered a five year interruption, owing to the war, would be resumed with the sailing of the Adriatic from New York on August 14, was made yesterday at the International Mercantile Marine's office.

The Adriatic will be followed by the Lapland on August 20. Later in the year, the Olympic will also return to this route after a thorough reconditioning. The largest ship in the I.M.M. fleet made a splendid record as a troop carrier during the war, and before she returns to the White Star, she will be refitted and relubricated.

**What to Use and Avoid On Faces that Perspire**

Skin, to be healthy, must breathe. It also must perspire—must expel, through the pores, its share of the body's waste material. Certain creams and powders clog the pores, interfering both with elimination and breathing, especially during the heated period. If more women understood this, there would be fewer self-ruined complexions. If they would use ordinary merozilized wax instead of cosmetics they would have healthy complexions. This remarkable substance actually absorbs a bad skin, also unclogging the pores. Result: The fresher, younger under-skin is permitted to breathe and to show itself. The exquisite new complexion gradually peeps out, one free from any appearance of artificiality.

Obtain an ounce of merozilized wax from your druggist and try it. Apply nightly like cold cream for a week or two, washing it off mornings. There's nothing quite so good for an over-red, tanned or freckled face.

**A Labor Saving Combination**

"It is the last straw that breaks the camel's back." So runs the old proverb. And it is the little extra efforts which tire you out on wash-day.

**Eddy's**  
 Indurated Fibreware  
**Washtubs and Washboards**

form a combination which save you much extra labor. Indurated Fibreware tubs are much easier to lift and to move about. They keep the water hot for a much longer space of time, because they do not conduct heat as metal does. They are easier to keep clean, because they are made in one piece without joint or seam, and the hard, glazed surface is impervious to liquids or odors. And they cost no more. Last longer, too.

Eddy's Twin Beaver Washboard has a double rubbing surface of Indurated Fibreware which loosens the dirt quickly and saves many tiresome motions.

CLOSING LETTERS BY THE CANADIAN PRESS

(By Canadian Press)
New York, N.Y., August 11—Stocks were strong at the opening of today's session indications pointing to a continuance of the rally which accompanied the trading of the final days of last week, but the market soon reversed its course and closed with mixed gains and losses.

Reasons for the set-back were based in part on the stronger tone of the money market and further unsatisfactory labor conditions. Call loans opened at six to six and a half percent, the higher rates which prevailed virtually throughout the day.

The check to the important western and southwestern sections was attributed less to the high cost of the drive of the mid-session, but the strength of equipments especially American Car and Pressed Steel Car, effecting rallies of one to almost 3 points from lowest levels at the end.

Sales amounted to 975,000 shares. More stable conditions ruled in foreign exchange, the French rate hardening with a steadier tone for Sterling, but Italian offered another slump.

Firmness attended the restricted dealings in bonds, although International bonds were slightly lower. Total sales, par value, aggregated \$9,350,000. Old United States bonds were unchanged on call.

BRUNEAU & DUPUIS STOCK BROKERS logo and address.

ONLY GOSSIP ON THE LEADING STOCKS

Recovery operations are expected to continue in view of a clearing of the various labor strikes and the same methods developing at Washington as to the cost of living investigation.

The average price of twenty railroads yesterday was \$1.31, up 1.35 per cent; that of twenty industrials was 104.33, up 2.45 per cent.

The steel industry expects a 200,000 ton order of rails, although early advice is that but half of this amount is in sight.

Hides are said to be high because they are scarce. Copper is selling at 23 3/4 a pound. United States Rubber is confident that its future is assured; the renewal of dividends on common and plans for expansion being evidence of the company's strength.

On good recoveries John Moody says that holders of securities who have purchased for profit might wisely consider taking their profits.

"The big trader who had been heavily short of this market since the close of last week started covering late on Friday and Saturday and he and his followers were said to be still buying stocks."—Wall Street Journal.

CLOSING LETTERS BY THE LOCAL BROKERS

(By Breen & Gourdeau.)
New York, Aug. 11—The market closed with a tired look and acts as though there was still a considerable amount of undigested stock around.

Trading today has been less active and the general aspect of the market has been quieter and less speculative, opening strong, there followed a period of some reaction with a moderate improvement toward the close, the equipment stocks have been the feature on the belief in good business ahead.

The steel industry expects a 200,000 ton order of rails, although early advice is that but half of this amount is in sight.

Hides are said to be high because they are scarce. Copper is selling at 23 3/4 a pound. United States Rubber is confident that its future is assured; the renewal of dividends on common and plans for expansion being evidence of the company's strength.

SWISS VILLAGE OBSERVES CORPUS CHRISTI FEAST

Quaint Religious Procession in the Sequestered Lotschen Valley. By Marie Widmer.

One of the most interesting of the many beautiful Swiss Alpine Valleys is undoubtedly the Lotschen, a tiny stretch of land, only 26 Km. long, rising from the Village of Gampel, 2,100 feet above sea level, on the right shore of the river Rhone, up to the cradle of the tempestuous mountain stream of the Lonza, 10,151 feet above sea level.

While Nature has showered her choicest gifts on this diminutive mountain vale, she has made it practically imperative for its inhabitants to chiefly depend on their own resources and to adhere to the simple life—to dairying and farming on a modest scale, such as the soil of that high region would permit.

The usual events in human life, christenings, courtings, wedding and funerals naturally assume considerable importance in the otherwise uneventful life of the natives, but aside of these happenings it is religion which plays the most prominent part in the devoutly Catholic Lotschen Valley.

The principal festive days are consequently religious ones and among these the day of Corpus Christi and the Sunday following the same are observed with particular pomp.

All the men of military age have to take part in the big procession which takes place after Mass and which is led by bearers of flags and crucifix. The uniform of these men consists of white trousers, red coat with yellow and black decorations.

The procession winds its way from Kippel, the principal village of the Valley, to the meadows near by, where it stops before a wayside cross to invoke the divine blessing upon the place, its inhabitants and the products of the fields.

The recent Corpus Christi festival on June 19th was celebrated with particular fervor and devotion and additional prayers of thanks were offered in view of the termination of the world war which kept Switzerland's men of military age on frontier duty to a great extent of their time.

A QUARREL. Even the school children suffer from it. A teacher in one of the Toronto schools looked up from her desk the other day to find a little girl standing before her bathed in tears and sobbing away as if all the sorrows of the world had descended upon her.

The Lieut. Governor of New Brunswick and Mrs. Pugsley will give outdoor fete at Government House.

### Reminiscences of The Past

#### Chronicle Files

##### 100 Years Ago

**Non-Ratification of Treaty.**  
The news from Cadez of the non-ratification of the Treaty for the Cession of the Floridas, has excited a strong feeling among the American newspaper writers. They ascribe the delay, if not the refusal, on the part of Spain to ratify the treaty, to the secret intrigues of the British Government, and talk loudly of taking possession of Florida by force; a threat, which, judging from the disregard shown by the American Government to the Law of Nations, by the previous invasion of that Province, will probably soon be carried into execution, should the Spanish Government persist in its apparent determination.

**Obituary.**  
In announcing the death of Philip Lloyd, Esquire, Co-Seigneur of the River St. Paul, Coast of Labrador, who departed this life on the 8th ul, after a short but severe illness of a fortnight at Three Rivers, it is but doing justice to his memory, and to his distant friends, to say that, as he lived beloved, he died regretted, at the age of 75 years; that during this long period, he justly and truly gained the esteem of all, from his uncommon integrity and universal benevolence.

#### Chronicle Files

##### 25 Years Ago

**Exhibition Notes.**  
The Hon. P. Garneau has given a prize of \$50 for the Exhibition. Several Special Committees, including those on horses and poultry, met Friday afternoon to arrange the preliminary details and appoint judges. The large lithographed posters from Toronto have arrived and are exceedingly handsome. The large guns are being removed from the Drill Hall to afford more space for exhibits.

**Insurrection.**  
There is mutiny and mimic war in Company Four, British Columbia Brigade of Garrison Artillery. On Tuesday night the company was ordered to parade in preparation for the annual inspection, which is fixed for September 15th. The men turned out well, but refused to drill unless one of the newly appointed officers resigned. Lieut. Townley thereupon announced that no more drills would be held until further notice, in the meantime he will report the occurrence to Colonel Prior, the officer commanding. Some time ago a complete new staff of officers were gazetted, not one of whom had won the uniform and had absolutely no knowledge of military matters and the men objected. It will be a good case for General Hebert.

**Labour Day.**  
The Quebec Trades and Labour Council has passed a resolution requesting the proprietors of all newspapers of the city not to publish their papers on Labour Day, as it has been made a legal holiday by the Dominion Parliament.

**A QUESTION OF DRESS.**  
Few of the picturesque tribal costumes that depart in main essentials from the dress found convenient by western civilization have succeeded in maintaining their traditional characteristics. The Rumanian people are among those whom the war has caused to forsake a distinctive national male attire. This, in its main lines, recalled the costume of the Roman legionaries, which was adopted by the Nation when Rumania formed the Roman Province of Dacia. It consisted of a short white tunic, "bag-trousers" of white wool, and a curiously embroidered coat. Many of these garments were carried away as loot by invaders during the war, and the relief garments sent in from France, which are of more conventional design, are expected to drive the national costume into disuse. Heavy demands, however, will doubtless be made upon it in the field of masquerade and musical comedy.

#### OVEDUE

Five principal men of the "Seven Nations of Canada" are expected soon to start for Albany, New York, to ask the Governor of that State for \$5 annual payments said to be overdue for land purchased by the State from the Indian tribes making up this group, in the year 1796. The purchase is said to have been made on what is called the perpetual installment plan, annual payments to be approximately \$1165. The ancient treaty stipulated that the people of New York should not be obliged to pay these installments unless at least five of the principal men of the "Seven Nations" should go to collect the "wampum" and give proper receipt for it. Chief Delia, Indian Mayor of Caughawaga, who stated that payments ceased about the year 1834, has estimated that he and his fellow braves ought to carry back home with them about \$60,000 of American money.

### Reminiscences of The Past

#### Chronicle Files

##### 100 Years Ago

**Non-Ratification of Treaty.**  
The news from Cadez of the non-ratification of the Treaty for the Cession of the Floridas, has excited a strong feeling among the American newspaper writers. They ascribe the delay, if not the refusal, on the part of Spain to ratify the treaty, to the secret intrigues of the British Government, and talk loudly of taking possession of Florida by force; a threat, which, judging from the disregard shown by the American Government to the Law of Nations, by the previous invasion of that Province, will probably soon be carried into execution, should the Spanish Government persist in its apparent determination.

**Obituary.**  
In announcing the death of Philip Lloyd, Esquire, Co-Seigneur of the River St. Paul, Coast of Labrador, who departed this life on the 8th ul, after a short but severe illness of a fortnight at Three Rivers, it is but doing justice to his memory, and to his distant friends, to say that, as he lived beloved, he died regretted, at the age of 75 years; that during this long period, he justly and truly gained the esteem of all, from his uncommon integrity and universal benevolence.

**Exhibition Notes.**  
The Hon. P. Garneau has given a prize of \$50 for the Exhibition. Several Special Committees, including those on horses and poultry, met Friday afternoon to arrange the preliminary details and appoint judges. The large lithographed posters from Toronto have arrived and are exceedingly handsome. The large guns are being removed from the Drill Hall to afford more space for exhibits.

**Insurrection.**  
There is mutiny and mimic war in Company Four, British Columbia Brigade of Garrison Artillery. On Tuesday night the company was ordered to parade in preparation for the annual inspection, which is fixed for September 15th. The men turned out well, but refused to drill unless one of the newly appointed officers resigned. Lieut. Townley thereupon announced that no more drills would be held until further notice, in the meantime he will report the occurrence to Colonel Prior, the officer commanding. Some time ago a complete new staff of officers were gazetted, not one of whom had won the uniform and had absolutely no knowledge of military matters and the men objected. It will be a good case for General Hebert.
