TENNESSEE SWELS REPUBLICAN MAJORITY

Determined Attacks Being Made Against Wrangel's Men

Democratic Tradition Of A 'Solid South' Has Been Shattered, Returns Show

Tennessee Has Swung Into the Swelling Republican Columns—Her Shift From the Democratic Ranks, Coupled With a Similar Upset in Oklahoma, Assured Warren G. Harding of 386 Electoral Votes as Against 127 Definitely in the James Cox Column, and Left in Doubt but Eighteen Seats in the Electoral College.

(Associated Press Despatch)

NEW YORK, Nov. 4.—Tennessee has swung into the swelling Republican columns, shattering Democratic tradition of a solid south, unofficial, but nearly complete returns, from the Volunteer State showed early today.

Her shift from the Democratic ranks, coupled with a similar upset in Oklahoma, reported late last night, assured Warren G. Harding of 390 electoral votes as against 127, definitely in the James Cox column and left in doubt but 14 seats in the electoral college, divided among Arizona, (7); Nevada, (3); New Mexico, (3) and North Dakota, (5).

In all of these states save New Mexico, Harding was in the lead on available returns, and even in New Mexico Republican managers were claiming a Harding plurality, though available returns showed a Cox lead.

Tennessee, on the face of returns tabulated by the Memphis Commercial Appeal from 93 to 95 counties, with fifty precincts missing, gave Harding 199,759 votes, and Cox 189,789, a Harding plurality of 9,977. Governor Roberts, Democrat, was swept out on the Republican tide and Alfred A. Taylor, unsuccessful candidate for Governor against his brother, in 1886, was elected.

No further actual upsets were reported from the "solid south," although several towns in Florida and Louisiana and several counties in Georgia and Alabama broke precedents by piling up Harding pluralities.

The Republican congressional sweep assumed larger proportions as belated returns continued to come in. The victory of Samuel D. Nicholson, Republican candidate for Senator from Colorado, assured president-elect Harding a majority of at least ten in the Upper House and of five states where senatorial choices had not been determined, the Republican candidates were in the lead in four—Arizona, Oregon, Nevada and North Dakota. In the fifth, Kentucky, Republican leaders still clung to the hope that late returns would overcome the advantage held by Senator Beckham, over Richard P. Ernst, his Republican opponent.

LATE RETURNS INDICATED POSSIBLE TURNS—BRYAN PLACES BLAME

The Republicans had secured 257 seats in the House of Representatives to 132 for the Democrats. Four seats went to miscellaneous, including one Socialist and one Prohibitionist. Forty-two districts were unreported. On the returns so far the Republicans had a plurality of 131.

Late returns also indicated possible turnovers in cases of some Democratic representatives reported elected. A notable instance was in New York, where three Republican candidates reported defeated—Ryan, in the Fifth District; Anseger, in the Twenty-first, and Rosedale in the Twenty-third, had forged ahead of Dooling, Donovan and McKinney earlier in the period elected.

The House will have one Socialist member, Meyer London, of New York, who defeated Henry M. Goldfogle, fusion candidate. The Prohibition party lost its lone representative, but an Independent Prohibitionist, Milton W. Sprow, was elected from the Twenty-fifth Pennsylvania district.

Several notable upsets occurred in the congressional race, among them the retirement by Missouri voters of Former Speaker Champ Clark, of the House, and the election by Texas voters of a Republican representative—Harry Waurbach.

Post-election developments within the ranks of the beaten Democratic party included a tart statement from William J. Bryan, in which he divided blame for the defeat between President Wilson and Candidate Cox, asserting that the former had "laid the foundation for the disaster," and the latter had "completed the structure."

Wayne B. Wheeler, legislative counsel of the Anti-Saloon League of America, issued a statement declaring a check of the congressional election in forty states showed a "substantial majority," in both houses against any beer or wine amendment.

Returns early today showed the following states had given their electoral votes, a total of 390, to Harding:

California, 13; Colorado, 6; Connecticut, 7; Delaware, 3; Montana, 4; Idaho, 4; Illinois, 29; Indiana, 15; Iowa, 13; Kansas, 10; Maine, 6; Maryland, 8; Massachusetts, 18; Michigan, 15; Minnesota, 12; Missouri, 18; Nebraska, 8; New Hampshire, 4; New Jersey, 14; New York, 45; Ohio, 24; Oklahoma, 8; Oregon, 5; Pennsylvania, 38; Rhode Island, 5; South Dakota, 5; Tennessee, 12; Utah, 4; Vermont, 4; Washington, 7; West Virginia, 8; Wisconsin, 13; Wyoming, 3. Total, 390.

Governor Cox had safely the following:

Alabama, 12; Arkansas, 9; Florida, 6; Georgia, 14; Kentucky, 13; Louisiana, 10; Mississippi, 10; North Carolina, 12; South Carolina, 9; Texas, 20; Virginia, 12. Total, 127.

States still in the doubtful list, lacking insufficient returns, were: Arizona, 3; Nevada, 3; New Mexico, 3; North Dakota, 5. Total, 14.

Plans For The Building Of More Houses Were Discussed At Public Meeting Held At Mayor's Request—Prompt Action Urged

It Was Decided that a Committee Go to Quebec to Obtain Information from the Provincial Treasurer as to the Best Means to Employ—Mayor Denault Explains the Situation and Tells of Great Need of More Houses—Messrs. Steele, Biron and McKee Add Suggestions to Discussion.

ALTHOUGH but few answered the call of Mayor Denault and attended the public meeting held last evening in the Council Chamber to promote another housing company, the assembly was not unproductive of results, and it has been decided to take immediate steps to organize, if possible, another such company and to do all that can be done to construct more dwellings in this city.

The meeting was presided over by Mayor Denault, and representatives of the Board of Trade and interested parties entered into the discussion on the ways and means of providing more houses. Mr. C. O. Biron was appointed secretary of the meeting.

Mayor Denault opened the meeting by explaining that there was, at present, a great dearth of houses, and that, if the city wanted to have continued prosperity, there was only one thing to do, secure enough dwellings for the people who are employed or who will be in the future. He referred to the steps taken by the Board of Trade to form a company, and lauded their efforts in the matter.

A number of people would like to build next year, when it is expected that building will be less costly, but would not be able to do so on account of lack of funds at the time. If these intending builders could obtain money in the form of a loan, they would immediately be in a position to go ahead.

The Provincial Treasurer, Hon. Walter Mitchell, said that the money to be loaned was allocated, but that, by reason of the fact that some of the municipalities decided not to use their share, it might be possible to obtain a further allowance for this city.

Mr. D. J. Steele also spoke of the pressing need for houses, and said that it was his opinion that, while there was a certain depression in trade and industry at present, it was the general opinion that this would soon pass and that the boom of building would again be taken up. He suggested that a more practical plan to follow would be to arrange for private parties to build houses in different sections of the city instead of in a segregated area such as had been done in the Model City. He said that East Sherbrooke was to be one of the finest industrial sections of the city, and wanted to see something done to insure better housing accommodation for this part of the city.

MR. COUSINEAU IS APPOINTED TO JUDGESHIP

Will Succeed Judge Robidoux as Judge in Superior Court in Terrebonne District.

(Associated Press Despatch)
MONTREAL, Nov. 4.—The appointment of Philemon Cousineau, K.C., former leader of the Conservative opposition in the Quebec Legislature, as judge of the Superior Court for the district of Terrebonne, is announced.

He succeeds Judge Robidoux, who recently retired from the bench.

Bolshevik Army Is Battering At Seven Mile Trench System Held By Troops Of General Wrangel—Perekop Is In Ruins

Stated that Efforts of the Enemy Have Been Meeting with Very Little Success—The Soviet Official Statement Claims Advances and the Capture of Several Armored Trains and Materials—Perekop, Which Was Occupied, Is a Mass of Ruins.

(Associated Press Despatch)
SABASTOPOL, Nov. 4.—Russian Bolshevik troops have been unsuccessful in attacking the line held by General Wrangel's army south of Perekop.

The Soviet army is battering at the seven mile trench system which extends west across the narrow neck of land leading to the Crimean Peninsula, but General Wrangel's position is quite strong.

It has on its left the Gulf of Perekop, and on its right the Gulf of Sivash, or Putrid Sea. Back of his main line, General Wrangel has heavy naval guns and other artillery.

The town of Perekop, which has been occupied by the Bolsheviks, is a mass of ruins.

Four Soviet armies with cavalry are pushing towards the railway on Alexandrovsk to cut off General Wrangel's forces. The latter admits the loss of Perekop, but declares he will fight to the end.

SOVIETS CLAIM FURTHER ADVANCES

(Associated Press Despatch)
LONDON, Nov. 4.—Further advances by the Bolshevik forces in their offensive against General Wrangel's troops in South Russia are reported in Wednesday's official statement from the Soviet War Office in Moscow.

It reads: "In the Crimean sector we are continuing to drive back the enemy, who is retiring to the peninsula, fighting fiercely."

CAPTURED CONSIDERABLE MATERIAL

(Associated Press Despatch)
WARSAW, Nov. 4.—Advices from South Russia report that during the offensive against General Wrangel between Melitopol and Alexandrovsk, the Bolsheviks captured three armored trains. They now control hundred of miles of main line railroad, it is said. At Melitopol the Soviet forces also are said to have captured millions of pounds of flour and grain, as well as other supplies, including fuel and munitions.

The advices are that the Bolsheviks are regrouping their forces in order to continue the offensive.

POLISH IRREGULARS HELD OUT

(Associated Press Despatch)
RIGA, Nov. 4.—Offensive operations by irregular Polish troops, commanded by General Zeligowski, have been checked along the entire front by the Lithuanians during the past few days, and as a result the evacuation of Kovno has been postponed.

The only point where the Poles have not been defeated is on the northern sector of the line, where they have occupied the railroad station at Dushit.

Reports from Kovno attributes the Lithuanian success to the assistance given by Prussians who are said to have been joining the Lithuanian army.

Whole units, it is declared, have crossed the frontier with their arms and ammunitions, large quantities of which are said lately to have disappeared from German government arsenals. It is asserted the Lithuanian government fears these Prussians may later turn to marauding.

The Lithuanian government is massing troops south of the Dvinsk frontier, fearing an advance in that direction by General Zeligowski's forces.

TWO TOWNS RECAPTURED

(Associated Press Despatch)
LONDON, Nov. 4.—Reports by the Lithuanians of General Zeligowski's troops is reported in a wireless message from Moscow today.

The towns of Pozerska and Vitzevishki have been recaptured from the Poles, the despatch says.

BRITISH MINERS TO RETURN TO WORK

LONDON, Nov. 4.—As a result of the balloting by the miners not resulting in a two-thirds majority vote rejecting the Government's offer, the leaders have called off the strike and the men are ordered to resume work at once.

HAVANA, Nov. 4.—Dr. Alfredo Zayas has been elected President of Cuba. This is based on returns received by the government from three-fourths of the voting precincts.

ENGLISH PAPERS COMMENT ON ELECTION RESULT --- COMPARES WOODROW WILSON WITH LENINE

The Manchester Guardian Says: "The Main Political Motive for the Electors' Choice Is by General Assent Accumulated Dislike to Wilsonism and Not Love of Harding and His Party"—French Papers Give Considerable Prominence to Result of Election.

(Associated Press Despatch)
LONDON, Nov. 4.—Commenting on the United States election, the Morning Post compares President Wilson with Lenin.

It says both are idealists, with identical methods, though different aims, and thinks that rejection by the United States of such autocratic idealism will bring relief to the world.

The Daily Chronicle admits that the battle raged around the League of Nations, but not in the sense that the United States is hostile to concerted measures to preserve peace, and believes that now the domestic problems loom large, the average citizen desires above all things "a policy the opposite to a policy of adventure."

The Daily Mail says: In electing Mr. Harding, the people of the United States declared emphatically for a spell of conservatism in home politics, and cautious Americanism in the world outlook.

The Daily Telegraph ascribing the result of the election to "national impatience and resentment against Wilsonism," thinks Senator Harding and his colleagues have yet to discover how far they can reckon on the support of Republicanism, for its own sake, in dealing with serious difficulties they have to face.

In its comment today on the result of the presidential election in the United States, the Manchester Guardian says: "The main political motive for the electors' choice is by general assent accumulated dislike of Wilsonism and not love of Harding and his party."

The national repudiation marks a change from those weeks in the autumn of 1918 when the material power of the United States was deciding the world war, and its foremost mind was leading the world towards such a peace as might have given us a tranquil, swiftly convalescent world instead of the present world's fair of spies, greed, and suspicion, between nations and disunion inside each of them.

The soiled, scarred old world of international politics seemed to be on the eve of redemption on the day when the news came that Germany would surrender on the basis of Wilson's fourteen points.

"In what proportions a want of dynamic genius in President Wilson and an irredeemable viciousness of spirit in other politicians contributed to darken that opening prospect we cannot tell you. It is gone now, Europe is snarling, grabbing and jockeying in the old slime, while all the remaining effect of Wilsonism in the United States is the decision of the presidential election by an overwhelming balance of public antipathy to it. The story is that of one of the most pitiful of all failures in the execution of a task nobly conceived."

French Newspapers Comment.

(Associated Press Despatch)
PARIS, Nov. 4.—Newspapers of this city give great prominence to reports of the election in the United States. In their comment, the newspapers declare the election of Senator Harding was a triumph, and give high praise to him personally, and recalls that he has always asserted great sympathy for France.

In examining the consequences of the election, editors are unanimous in remarking that it clearly condemns the policy of President Wilson, and settled definitely the situation existing between the administrative and legislative departments of the government. They assert this situation has "completely paralyzed American international policy," and expresses the conviction that the result of the election will in no way prejudice Franco-American friendship.

Hope is expressed by the Echo de Paris that "the discussion which will be started on relations between the United States and the League of

Mexico Greatly Interested.

(Associated Press Despatch)

MEXICO CITY, Nov. 4.—Reports of the election in the United States were given the entire front pages of newspapers of this city, which reflected the interest taken by the Mexican public generally in the result of the campaign. Only two journals, however, the Excelsior and El Heraldo de Mexico, ventured to speculate editorially on what a Republican administration in the United States means for this country.

The latter, after saying Senator Harding has not been a vigorous Mexican critic, admits his election "will, at least, not be an obstacle to good relations between Mexico and the United States."

The Excelsior, which sees in the election a "personal rebuke" for President Wilson, asserts he now "can scarcely be expected to refrain from recognizing Mexico as a revenge against the Republican senatorial majority, which in the past has assumed an uncordial and even hostile attitude towards this country."

German Newspapers on Election Result.

(Associated Press Despatch)
BERLIN, Nov. 4.—Of the United States election, the Lokal Anzeiger says:

"We have got rid of Wilson, who in the last analysis was to blame for our misfortune."

"Mr. Harding will play politics and mix in world affairs only so far as they concern the United States' interests."

The Zeitung Ammting says: "It would be premature to regard the end of the Wilsoners too optimistically."

The Vossische Zeitung says: "It is not Harding's victory or Cox's defeat, but the complete disavowal of Wilson."

ENTERTAINMENT

AT EAST ANGUS BIG SUCCESS

A First Class Programme Was Presented to a Large Audience.

EAST ANGUS, Nov. 4.—The second entertainment in the Lyceum Course took place on Tuesday of this week and drew a crowded house in spite of wet weather. This concert appealed especially to lovers of music, and the general opinion was that no better artists with violin and in elocution had ever appeared in Angus. Miss Caverly held her audience in all her work, sometimes humorous, as in "Minnie at the Movies" and "Bedtime" and "Schoolgirl Song," sometimes sentimental, as "Home." Miss Helen Baine gave a most finished exposition of the violin, finishing eight or nine numbers, some of which, like "Bubbles," "Cuckoo Song" and "Serenade," were of a very high order. These ladies had never before played in a town with a predominant French population, and were very gratified with the success they scored. It is worthy of note that the committee in charge put on this concert practically with a general admission of 25 cents, while in all American cities the same concert is played with \$1 as the lowest charge. Four more evenings are arranged for, all on the same high level, and none will be repeated. In future the admission will be slightly higher, to meet the heavy expenses.

Mrs. Melver described the abundance and fine quality of the fruit produced and the efforts that are made to have the crop harvested and saved. In the canning season, and there are canneries everywhere, all efforts are made to save the fruit. Every member of the home is enlisted in picking and the fruit is taken from the field direct to the canning factory. During the war he served as chaplain to the 117th Eastern Townships Battalion and was overseas for some time. Previous to his appointment with the 117th, he was curate in St. Peter's church in the city of Sherbrooke. Mr. Moorehead comes well recommended by the Bishop. His Irish good nature and ready wit have made him a general favorite wherever he has been. He will find in St. Anne's church a ready and splendid field of service and a welcome will await him from all the citizens of the town of every denomination. He will enter upon his duties in the course of a month's time.

Mr. Charles Kerr has been appointed as a delegate from the Is-

land Pond Railroad Y.M.C.A. to attend the convention of R.R.Y.M.C.A. to be held in Richmond, Virginia, on November 16. The party will go direct to Richmond, but will have an opportunity of stopping off on the return trip in such places as Washington and New York.

World's Temperance Sunday was observed in town by the united Methodist church, Mrs. Pease, representing the W.C.T.U., presided, and an excellent programme was rendered, consisting of songs and recitations by the scholars of the Methodist school. Mr. Harry Jones, of the Congregational Sunday School, gave an interesting illustrated lecture on the devil fish and alcohol. His address was listened to with great attention by the children. Addresses were also given by Mr. P. C. Duboyce and Mrs. D. Bogie. A special temperance sermon was preached by the pastor of Chalmers church in the evening. The Boston Last Factory, after being slack for some time, has received a large order and is running at full time. Mr. Bieber is looking well, though he says that life in Windsor, Ont., is of the strenuous variety. In eighteen months he has built up a strong business and employs a staff of eleven at the present time. He left on the early train Wednesday morning for Windsor.

Mr. Charles Campbell, chairman of the committee on subscription for the Wales Home, is busy preparing the plans for a campaign for building and endowment funds. He expects to have the plans in order that a drive may take place very shortly. The need of this home is becoming more and more apparent every day. The secretary reports that he has many applications from worthy people who have no place in which to live and are anxious to have the home open. If the home was ready there would be no trouble in filling it within a week. The governors are expecting that the public of the townships will respond to the drive

MRS. B. GUILMET GAINS 30 POUNDS BY TAKING TANLAC

Montreal Woman Says She Feels 20 Years Younger and Can't Express Her Gratitude.

"By taking Tanlac I have actually gained thirty pounds in weight and feel all of twenty years younger," was the truly remarkable statement made the other day by Mrs. Bernadotte Guilmet, of 324 Drolet Street, Montreal.

"The six years previous to the time I got Tanlac was just one unbroken period of suffering for me. My stomach was so disordered there were a number of things I never dared eat and even fresh bread and vegetables always gave me trouble. After eating I had a heavy feeling and almost unbearable pains in the pit of my stomach, and gas formed which pressed on my heart and made it beat so violently I thought my time had come.

"I had no appetite and even the smell of things cooking made me sick. My liver was badly out of order, and I suffered constantly from awful headaches. My nerves were so upset the least noise would almost set me wild. I had constant pains in my back and couldn't stoop over or bend about without intense pain.

"This went on till I just had to put myself on a rigid diet, and, in fact, for nine weeks took practically no solid food whatever. In seeking relief I tried everything I could think of or heard about, but nothing helped me, and I was going down in health all the time.

"But, I declare, it's just wonderful how different everything is with me since I have taken Tanlac. My appetite is splendid, and I can eat pork or any kind of vegetables, or, in fact, just anything I want, and never feel even the least inconvenience afterwards.

"My nerves are steady, I sleep fine, and all the headaches and back-aches have left me. My friends who haven't seen me since before I took Tanlac hardly know me for the same person when they meet me. I just can't find language to fully express my gratitude to Tanlac.

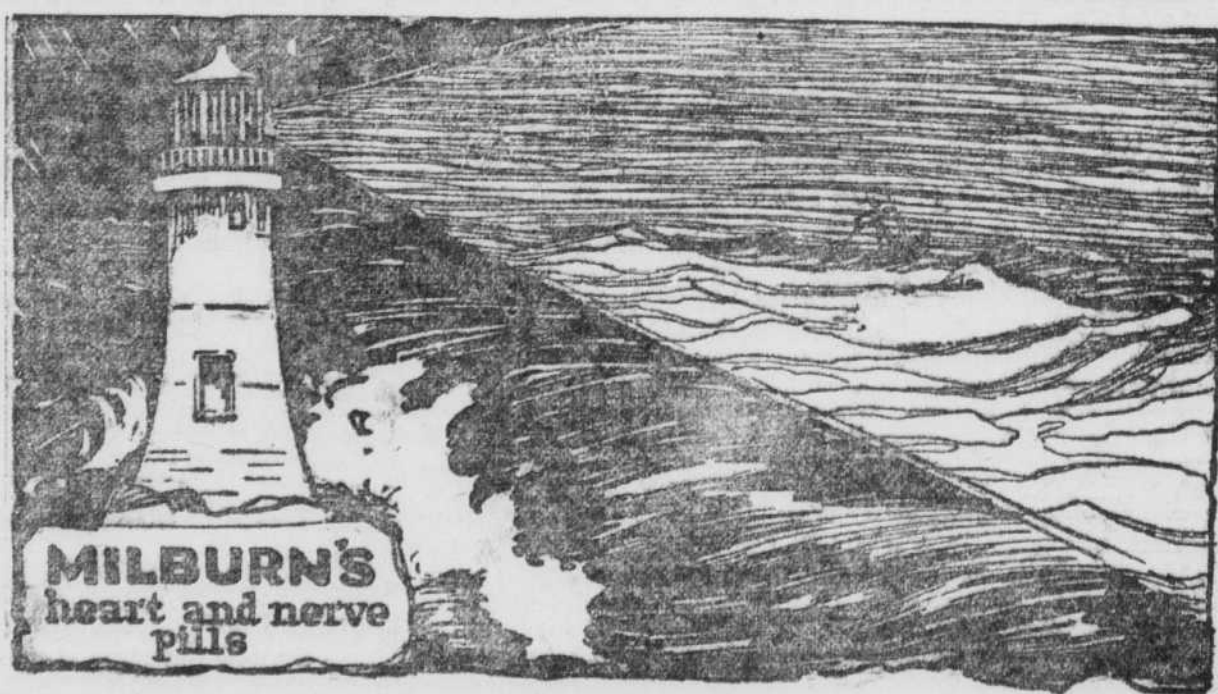

Tanlac is sold in Sherbrooke by Griffith's Drug Store and A. E. Duberger, and in Lennoxville by W. J. H. McKinney, under the personal direction of a special Tanlac representative. (Advt.)

This is to be the gift of the Protestant churches in Canada as a memorial church for Lens, and will be known as the Memorial church.

Lessening the Life Toll

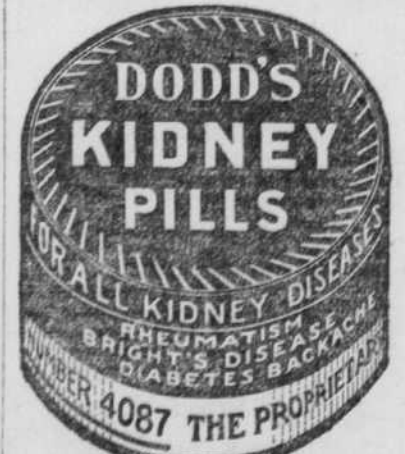

THE value of the lighthouse is especially appreciated by seafaring folks. Many fascinating stories of averted disasters originate from these structures the world over. Their first purpose, however, is preventing the loss of human life. In this they are closely connected with the purpose of Milburn's Heart & Nerve Pills, around which there are also interesting facts of averted disasters.

People to-day are using Milburn's Heart & Nerve Pills as their "Lighthouse" on which to steer a course for good health. There are very few to-day taking an active part in any walk of life who do not require, at some time or another, an additional food for the Heart & Nerve system, for without these properly carrying out their duties every other organ in the

body must suffer. The effects of weakened Heart & Nerve centres vary. With some, the heart thumps harshly and irregularly. They feel irritable and are easily excited. Others are afflicted with sleeplessness at night, and drowsy sensations during the day. If you feel unfit in any way you owe it to yourself and friends to try a box of

Those Nasty Little Pimples

That Come On The Face Are Caused by Bad Blood.

Many an otherwise beautiful and attractive face is sadly marred by the unsightly pimples and various other skin troubles, caused wholly by bad blood.

Many a cheek and brow cast in the mould of beauty have been sadly defaced, their attractiveness lost, and the possessor of the "pimply face" rendered unhappy for years.

Their presence is a source of embarrassment to those afflicted as well as pain and regret to their friends.

There is an effective remedy for these facial defects and that is Burdock Blood Bitters, the old reliable medicine that has been on the market for over 40 years.

It drives out all the impurities from the blood, and leaves the complexion clear and healthy.

Mrs. James Williams, Waterford, Ont., writes: "My face was covered with pimples for nearly a year. I used different kinds of remedies to get rid of them and finally thought there was no relief. A friend dropped in one day and told me I should try Burdock Blood Bitters. I did so and used three bottles, and found the pimples were all disappearing from my face, and now I have a clear complexion again."

No need to explain that this has been a backward season; that because of warm weather throughout the Fall Season, business all over the country has suffered somewhat unforeseen injury. Manufacturers, jobbers and retailers alike have seen their fond hope of a record-breaking business shattered to "Smithereens."

Everybody is overstocked—we are, but we do not intend to be very long. From now on prices throughout the store will be marked to a point where buying will be so irresistible to all who come that our stock will soon be reduced to a normal state.

WE ARE OVERSTOCKED
A mighty Sale

You Won't Need a Searchlight

to see the wonderful values, for you know a sale at Lanctot & Sons, Limited, is a real sale, and will measure up to everything the word sale means. Bargains awaiting you that will shatter all former selling records.

Owing to the fact that our well-known Upper-town Store (corner Peel and Marquette Sts.) will be in the near future converted into an exclusive, high class Furniture Store, the management have decided to turn over their entire balance stock of Men's and Boys' Ready-to-Wear Apparel to the 13 King St. Store, where this wonder sale will take place.

Considering the timeliness of the sale and the quality of the merchandise offered, surely a sale could not come at a more opportune time, for this is the time that you need winter goods most. We are determined to do treble the ordinary amount of business for the next 14 selling days, and prices have been made with that idea in mind.

2 BIG STOCKS included in this mighty sale.

ARMISTICE DAY.

The ever memorable Armistice
Day comes again in anniversary on
Thursday, November 11th. Two
years have passed since the great
day and the world is still struggling
to adjust problems arising out of the
conflict.

The British Empire is to remember
Armistice Day, Premier Lloyd George
in the House of Commons has stated
that a two-minute silence, in memory
of the great dead, will be observed
as far as possible throughout the
United Kingdom and the Empire.

In addition to this, services will be
held in communities almost every-
where.

November 11th will stand out for
all time as one of the greatest days
in human history. Each year as it
comes around it should be fittingly
remembered as such.

JUDGE WHITE II.

It appears to be accepted as a
fact that the vacancy on the bench
in St. Francis district has been filled
by the appointment of Charles D.
White, K.C., of Sherbrooke, son of
Hon. Justice William White, who for
many years graced the bench in this
district and who though retired still
follows closely the course of public
events.

The public generally will congratu-
late the new justice upon his ap-
pointment with a sincere belief that
he will bring to his office the ability
and the will to efficiently discharge
his duties.

The new judge has been a promi-
nent and brilliant member of the bar
in this district, and in the opinion of
his confreres is well qualified to as-
sume his new responsibilities.

A GOOD MOVE.

Sherbrooke is now to have a Medi-
cal Health Officer and, with the be-
ginning of next year, a competent
doctor will open the first city health
office. The question is not a new one,
and has been brought to the atten-
tion of the Council at different times
during the past. At each discussion
some objection was raised, and the
matter was left in abeyance, under
the plea that the city was not in a
position to bear the expense of a
highly paid official, the need of
which was not apparent to some of
the Council.

The point was raised by the Police
and Hygiene Committee at the last
meeting of the Council, and, although
different views were expressed, the
motion carried with only one dis-
senting vote.

The public will certainly not be
averse to this new departure in the
interest of the health of the citizens,
collectively and individually. The
good record that Sherbrooke enjoys
regarding epidemics and mortality
from infectious or contagious disease
is no guarantee for the future, and
the multiple duties of a qualified
Medical Health Officer will insure
that every precaution will be taken
to prevent the breaking out of epi-
demics and to improve the normal
health conditions generally.

Safeguards will be provided
through the regular inspection of
sanitation, milk, food and water, and
the most important duty of the new
official will be to look after the
health of the school children.

The annual cost of the new branch
will not, in any case, exceed four or
five thousand dollars, including of-
fice expenses, and this, when calcu-
lated on a per capita basis, is less
than twenty-five cents per year for
every man, woman and child in the
city.

This is not too much insurance to
pay for the policy of good health,
and the ratepayers will not object to
the expenditure — especially since
there is still three thousand dollars
voted for this year which was never
spent.

No longer an exception in this re-
spect, Sherbrooke will now be able
to rest under the assurance that
everything possible has been done to
protect its citizens.

CANTERBURY

Last Friday evening Mr. and Mrs.
James herman gave a farewell party
to Mrs. Bown and Thomas before
their departure for Fitch Bay.
Friends from Galson, Scotstown and
Canterbury were present to wish
Mrs. Bown and Thomas good luck
and good bye before leaving.
Mrs. Sherman served a very delicious sup-
per, assisted by her daughter, Mrs.
Thomas Watson, which was enjoyed
by all present, after which Mrs.
Bown and Thomas were presented
with a gift of money, together with
the good wishes of all. Mrs. Bown
and Thomas appreciated very much
the kindly feeling of all their friends.

Hallowe'en Masquerade Was
Well Patronized — General
News.

MAGOG, Nov. 4.—Mr. Maurice
Donigan, of McGill University, spent
the week-end at his home here.
So far, all efforts at recovering
the body of Mr. Bergeron have been
unsuccessful. It will be several weeks
before the lake will freeze over, and
his body may still be found.

The members of the Methodist
Sunday School will hold their annual
rally on Sunday, November 14th. In
addition to their regular schedule,
the Principal of Stanstead College
and another official of the Religious
Education Association of the Pro-
vince of Quebec will be present, so
that both the morning and evening
service will be taken up. On the
Monday following, it is planned to
hold two meetings, one in the after-
noon and one in the evening. These
will be undenominational in character
as they will be under the auspices of
the Religious Educational Associa-
tion, an organization which is suc-
ceeding the Sunday School Associa-
tion of the Province of Quebec, and
all those interested in Sunday School
work are especially invited to at-
tend.

The Hallowe'en masquerade given
in the Methodist Church Parlor, un-
der the auspices of the Epworth
League, on Saturday evening last,
proved to be a unique and original
event, and successful both from a so-
cial as well as financial point of
view.

This community was grieved to
learn of the death of Mrs. Guy Tib-
bits, at the Sherbrooke Hospital,
early this week. Only a few of her
friends were aware of the fact that
she was sick at all. She went to the
hospital, where an operation for ap-
pendicitis was performed, and ap-
parently successfully, but she passed
away suddenly Monday morning.

Mrs. Jennie Taylor, who has been
visiting friends here for a short time,
returned to Waterloo the latter part
of last week.

Mrs. H. Shonyo has returned from
a visit with friends in Montreal in
Granby.
The apartment houses, which the
Dominion Textile Company have
been erecting for their employees are
now taking on a finished appear-
ance. Their location on the south side
of the river presents a better appear-
ance than the former bare spot which
was so apparent from the north side.
The different apartments are not
large, but are cozy and will prove a
boon to many families.

The snow fall of the first of the
week proved to be quite an incentive
to local hunters to follow up their
favorite sport, and in a large per-
centage of cases they were success-
ful. One hunter went out for an af-
ternoon and came home with a large
buck. Two others went to Red Brook
bog, one of whom shot a deer, but in
securing help, did not sufficiently
spot his way, and they were unable
to recover it. Three other hunters
tried another location, and, in a day's
time, returned home with three bucks
— all good size, while quite a number
came home 'without the venison.'

Mr. F. E. Christie is spending his
holidays on a hunting expedition in
company with some friends from
Coteaucook.

ces of the Ladies' Guild of St. Mat-

sale table, which opened at five o'-
clock, was filled with beautiful fancy
articles and was presided over by
Mrs. Herbert Hunt and Miss L. Tur-
ner, and brought in the sum of one
hundred and forty-five dollars. In
the basement a chicken pie supper
was served from six to eight o'clock
which netted the sum of \$175, which
with the sale, totals \$320, a sum
which is very gratifying to the mem-
bers of the Guild and other work-
ers.

morning. Mr. A. Ware was minus a
wagon which he located after much
trouble, some distance from home,
while gates were removed and a part
of the cement walk in front of G. M.
Owen's store was torn up. It seems
too bad that the boys would not re-
frain from destroying, and a lesson
should be given them to prevent
these actions in the future.

The Hallowe'en entertainment given
by the Junior Chautauqua on Sat-

to both old and young. The hall was
prettily and appropriately decorated

INTERESTING ADDRESS BY MISS ARNOLDI

Tells I. O. D. E. Members They Have Many Tasks Before Them.

A splendid reception was given yesterday by the Daughters of the Empire in Sherbrooke to Miss Joan Arnoldi, Present of the National Chapter, who is visiting the principal places in the Dominion in the interest of the Order, and came to this city from Quebec. The G. W. V. A. Assembly Hall, which had been kindly placed at the disposal of the I. O. D. E. for the occasion was crowded, every Chapter being largely represented, and the new president of a great organization, who is handsome, distinguished, attractive in personality and possessed of a charming voice and manner, earnest and sincere, made a distinct impression.

In introducing Miss Joan Arnoldi as the principal speaker of the afternoon, Mrs. Hume said that she considered it a great event that the president of the National Chapter should come to Sherbrooke to address the members of the Order.

After speaking of the pleasure it gave her to address the Sherbrooke members, Miss Arnoldi said that though a member of her chapter since its inception, never in her wildest dreams had she thought of being the National President. In this period of reconstruction there were so many things to discuss. The new executive had really had a very hard row to hoe. They came in very nearly all new officers and with a new office staff. If they had made mistakes they must ask for leniency, but they felt now that their organization was very complete, and that things should be done smoothly in future. They had adopted a new system of book-keeping; the old one being found to be inadequate for the large sum of money which had to be handled, particularly in connection with the new War Memorial scheme, so they had engaged chartered accountants to install an entirely new and up-to-date set of books. They had also adopted the "budget" system, as better suited to present conditions, and a little booklet giving figures for the past year, and a provisional budget, showing what might be done with more money, would soon be sent to the members, showing how their money was spent, and would perhaps be understood more easily than the usual treasurers' statements. It has also been considered proper to have a bonded treasurer, as is the custom with all concerned handling the people's money, though their treasurer was absolutely trustworthy and reliable. Miss Mary Wise had been appointed National Secretary, a position which carries much work with it.

Miss Arnoldi said she had always felt that the girls' branches should be represented on the National Executive, and in the appointment of Miss Wise, who belongs to a girls' chapter, and who is very vigorous, very clever and capable, she thought that the interests of all the chapters had been served.

The National Executive felt that they should ascertain from all the chapters their views as to the main thing to put before the members as to the direction their work should take. The speaker pointed out that the Executive is the servant of the chapters and it is necessary to find out exactly what is required. They had written the Provincial President in the organized Provinces and the Municipal Regents in the unorganized districts, and asked their advice and opinion of a policy for the coming year. It might surprise the audience to learn that the answers were practically unanimous that what was most necessary first was the education of the members of the Order. There are many of us who would find it very difficult to express the aims and objects of the Order, and there is no use in belonging to something about which we are not thoroughly informed. We must present a united front to the world. The Executive is preparing a little pamphlet, giving a history of the organization from the beginning, and it is hoped that every member will learn the facts in this by heart. And we want to know all about the work of other chapters, in other Provinces, from coast to coast. Next was the Imperial Order of the Daughters of the Empire as important as is today. It is an important factor in the life of the Dominion and the life of the Empire. Enemies within and without are attacking the British traditions which we stand for and which we must defend. Some people say to us that time for patriotic work is over, but it is really only begun. When our men went to the front, we naturally stood behind them and worked for them in every possible way, but now is the time to consolidate the victory that our men fought and died for. In his recent book "Now It Can Be Written" Philip Gibbs says "The matter with the world today is the failure of ideals." That may be so. Our men went out to fight for ideals, but it was hard to keep these ideals bright amid the slaughter and horrors of war. It is our place to restore those ideals. Do we realize what it means to live on this continent, in this untouched land. Our duty is evident; we must not only help at home, but help wherever men would not in those distracted countries of Europe, where there is such terrible distress. Miss Arnoldi said she realized this more keenly, having recently come into contact with among the thirteen millions starving children in those countries.

"In a very clever and amusing speech, made some two years ago, Sir Andrew MacPhail said, whether in earnest or not, that 'civilization was built up entirely around women.' Women demand comfort and luxuries which otherwise men would not trouble to acquire. The war showed that the majority of men were able to live very comfortably, simply and economically in dug-outs. It is doubly our duty, as women, and as Daughters of the Empire that carries

civilization throughout the globe, to see that it is maintained.

WORK TO BE TAKEN UP
"It is impossible to suggest any special work to any special locality. The National Executive can merely be the melting-pot of the ideas of all, and we must therefore get together and thrash the subject out; it is the only way in which there can be national thinking," but Miss Arnoldi said she would like to mention several important business branches of work which had been undertaken by different chapters.

"A paramount duty of our Order is to take a prominent part in local affairs, to make its influence felt locally. Then the War Memorial is a great responsibility. This is the first time our Order has united on one great big national scheme that is our own, a memorial to our glorious dead and our glorious living, the soldiers who are still with us. The War Memorial has only been in action for a year and already the names have been given in for the children of soldiers who are to be educated. As to post-graduate courses, about which all are not quite agreed, there are only four this year. There will be five next year, and probably nine after that, and eight applications have been received already from the Province of Quebec alone, all returned men. We hate to think that a returned soldier will have to be denied that post-graduate course. Even one bursary from each Province is going to be very inadequate. The National has not taken up secondary education for children, as several of the Provinces have undertaken that work. In Ottawa, already, forty children of soldiers are being given a secondary education.

"We must not forget the soldiers still suffering from wounds or the effects of the war, and have great patience with them. Canon Scott, who has just returned from a coast to coast trip, is much cheered by his visit and he has met and talked with hundreds of returned men, who he finds settling to work and doing well, but he was saddened by the many cases coming to the military hospitals, most of them due to shell-shock, postponed shell-shock. We must do our best for these men.

THE BRITISH NEWCOMER
"Then there is the newcomer, the British newcomer first. The schools do much for the children, but the chapters should seek out the women and make them welcome. Every British woman should be a member of our Order, no matter what her business, occupation, social position. Foreigners should be taught English, and formed into clubs, if possible. Chapter membership for a time might be impracticable, but it is generally found that foreign women are anxious to learn English.

"Then there is the education of women to their new duties as citizens and voters." Miss Arnoldi said that she had not been a suffragist herself. In fact, had belonged to an anti-suffrage society, but now the vote had been given to the women of Canada, it was their duty to use it properly, and we have no right to shirk it. In a speech at Ottawa she had advised the women not to vote in herds as men have done for centuries and had been much berated by a Montreal paper for saying this. She had heard a public speaker say that men voted for somebody and something, but women always against somebody or something. "However, that may be, we want to use our privilege intelligently and properly, or it will be a curse instead of a blessing.

"There are many movements just being started in Canada which may well attract the attention and work of the Order, Child Welfare, Social Welfare, Anti-Tuberculosis work and work for defective children, all vitally necessary, and it remained for each City, for each chapter to choose what special work should be its principal object for the coming years," said the speaker.

Mrs. Hume said that it was evident that every member present had listened to Miss Arnoldi, as she herself had, with the utmost interest and pleasure, and a cordial vote of thanks (Continued on page 7)

The members of the Church of England Men's Club are well known as good entertainers, and the names appearing on the programme of this evening's concert at the Art Hall, represent some of the best talent, both as musicians and mirth creators.

The concert is given under the auspices of the above club, and several prominent musicians are assisting the members in giving a programme par excellence.

Mrs. F. H. Bradley needs no introduction, but Mrs. H. C. Pawson, has been heard only a few times, and music lovers will welcome her tonight in her rendition of "The Singer," and "Mr. Bear," both well suited to her beautiful contralto voice.

Messrs. J. C. Stewart, F. W. Colville, A. Blier, Gault, Parker, A.

Dakin, and C. Hall, are local favorites, while the Cadahams Quartette—well, you have to hear them, to be able to pass judgment.

Messrs. Barrie and Briggs are booked for Banjo and Guitar duets, and every one is on the qui vive, wondering if it is to be a "dark duet," or they know how to bring good music out of those stringed instruments.

Another charming number will be "Nursery Rhymes," by the Misses Carr, of Lennoxville, and with the several solo numbers, an enjoyable evening is promised.

Mr. A. E. Whitehead, mns. bac., will be the accompanist.

CORRECTED

"Well, if it isn't little Peggy Parker," cried an ex-neighbor, meeting the child at the movies.

The rooms looked very attractive and cheery with their appropriate Hallow'een decorations, Jack-o'-lanterns and flowering plants. One big pumpkin, prepared for the evening's festivities, was abstracted by some kind neighbors, and while the hostess was lamenting its loss was returned, filled with fruit, nuts, etc., a timely gift. The hours passed pleasantly in games, music, and towards the close of the pleasant evening, appetizing refreshments were served. Among the guests was Mrs. John Bentley, of Bishop's Crossing, Mrs. Pearce's mother, who entered fully into the spirit of the occasion.

OXO GENERATES HEAT

Concentrated Beef Cubes Fortify Body Against Chills.

An Oxo cube dissolved in a cup of hot water is a splendid thing to take before going out in the cold or damp, or on coming in, if one feels the slightest ill effects. Besides its nourishing and invigorating properties, Oxo acts as a fuel in the body, generating heat that the system requires.

Oxo cubes—in tins of four and ten cubes—have endless possibilities. For soups, sauces, gravies, savory dishes and meat jellies, they do all that meat could do, and do it quicker and with less trouble. Use Oxo cubes with "left-overs" and oddsends for new, delicious dishes. There is nothing better than Oxo for building sturdy boys and girls.

Lord's Ambulance was called to East Angus this morning to bring Mr. Macdonald, an employee of the Brompton Pulp and Paper Company, at that place, to the Sherbrooke Hospital, the man suffering from a fractured skull, received in a bad fall while at work. FAREWELL GIVEN TO REV. MR. RUSSELL

The departure of the Rev. E. C. Russell, for several years curate of St. Peter's, for another parish, was the occasion last evening of a notable gathering in the Church Hall, the congregation being largely represented, while many were present from other churches of the city. Mr. W. H. Lynch, K.C., acted as chairman, and spoke of the object of the meeting, which was to bid farewell to one who had identified himself with the work of the parish and who, he regretted to say, was leaving for another field of labor. The meeting, therefore, though a pleasant one, had also an element of sorrow, to which he and others would refer later. In the meantime a programme had been prepared and would be carried out.

Songs were contributed by Mr. Harold McConnell and Miss A. Baldwin, both of whom sang exceedingly well and were encored. Miss K. Edgell accompanied the songs. Rev. Alfred Bright, of St. Andrew's Presbyterian Church, and Dr. G. Ellery Read, of Plymouth Church, were then called upon and made short addresses, both speaking in the warmest terms of the Rev. Mr. Russell and the personal friendship entertained for him, and emphasized the work he had done amongst the young people of the city, especially in connection with the Boy Scouts, in which organization he had been so deeply interested, work which must leave its impress. Mr. Russell had made as many friends among the members of other congregations as his own, and always received a warm welcome when able to be present at any of their meetings.

Both speakers expressed pleasure that Mr. Russell was not going far away and would frequently revisit Sherbrooke, and Dr. Read said that, if Mr. Russell must leave Sherbrooke, he was to be congratulated on his appointment to Stanstead, where he himself had lived ten years, among a broad-minded, cultured, Christian people, kindly, sympathetic and responsive, where he could scarcely fail to be happy and contented. He wished Mr. Russell Godspeed and every success in his work.

Rev. H. Reginald Biggs, Rector of St. Peter's, made a few remarks, in the course of which he referred to the pleasant relations which had existed between himself and Mr. Russell during the years of their association, and his regret at his leaving the parish, in which he had been so faithful and devoted.

Every address was greeted with a burst of applause, and the climax was reached when the chairman, declaring that he had a pleasant duty to perform, presented Mr. Russell, on behalf of the congregation, with a handsome gift, referring again to the good work of Mr. Russell among the boys of the city, every one of whom he seemed to know intimately, and also to his labors among the sick and poor, and his ever-ready care, kindness and consideration for those who needed assistance in any way. Every member of St. Peter's and scores of others would, he knew, join in good wishes for Mr. Russell's future.

Mr. Russell replied in his accustomed pleasant fashion, thanking his friends for their kindness during his stay in Sherbrooke, a parish which he left with real regret. Too much had been said of him and his work, but he had always endeavored to do his best. He hoped often to be

in Sherbrooke and keep in touch with the young people who had been so much to him, and also to receive them at his home in his new parish. Vociferous applause closed with the "Scout yell" and "God Save the King" was sung.

Very excellent refreshments were served, and later good-byes were exchanged with the guest of honor, coupled with every kind wish for his future welfare.

LENNOXVILLE

ST. GEORGE'S YOUNG PEOPLE'S CLUB ORGANIZED

A meeting of much interest to the community was held last evening in St. George's Church hall, Lennoxville, for the purpose of organizing a young people's club, and which a large number of the congregation attended.

The rector, Rev. Canon Wright, presided, and opened the meeting with a few remarks, explaining the object of the gathering, which was most representative. Plans were soon under way, and it was decided

that the new organization would be called the "St. George's Young People's Club"; that boys and girls, fifteen and over would be eligible for membership; the dues being placed at twenty-five cents a month, payable in advance, and that the meetings would be held as follows: Girl's meeting on Tuesday evenings, from 7.30 to 10.30 o'clock, the boys on Wednesday evenings, at the same hours, and once a month a combined social evening.

The following officers were elected: Honorary president, Rev. Canon Wright; president, Fred W. Day; vice-presidents, Miss Della Sterling, Darcy Bennett, and Will Mitchell; treasurer, Gladys Benton; secretary, Miss M. Carr; assistant secretary, Dallas McMurray.

An advisory board was chosen from the older members of the congregation, and a most promising membership resulted from the initial meeting.

The officers wish it to be known that any boy or girl who desires to become a member should send their name to the secretary, Miss Carr, so it may be passed upon and accepted by the Advisory Board. They will also be glad to receive dona-

etc., for the use of the club.

LADIES AID HOLDS BUSY MEETING

The monthly meeting of the Ladies' Aid was held on Tuesday afternoon at the home of Mrs. C. E. White, and Mrs. Watson, and in spite of the inclement weather, the attendance was good, and considerable business transacted.

The president, Mrs. Forbes, presided, and the business routine included the passing of several bills, to be paid, the report of the canvass for subscribers to the Methodist official organ, which showed a result of twenty-one subscriptions; arrangements for helping needy families, and a sum of money voted for current expenses of the church and other purposes.

Social functions were also planned for winter months, and the business meeting was followed by the usual refreshments, served by the hostess, and concluding a very pleasant afternoon.

PERSONALS.

Choir practice for Sat. night, postponed. Mr. J. S. Marlin's little daughter, Millicent, is recovering from an

operation for appendicitis, which she recently underwent at the Sherbrooke Hospital. Mrs. G. G. McCurdy was in Cookshire on Tuesday and Wednesday in the interests of temperance work.

INTERESTING ADDRESS BY

(Continued from page 6.) was moved by Mrs. S. W. Jenckes, Regent of the Duke of Wellington Chapter, seconded by Mrs. W. A. Farwell, treasurer of the Municipal Chapter, and carried by an unanimous rising vote.

VALUE OF ORGANIZATION

Mrs. John Stewart, Secretary of the Organizing National Chapter, I. O. D. E., who had accompanied Miss Arnoldi, was then introduced by the Municipal Regent, and gave a short address, dwelling especially upon the value of organizations, and urging the formation of primary and children's chapters, for the children of today will be the women of tomorrow. If, the speaker said, any of you during the winter visit other places in Canada, which you are sure to do, and find that there is no chapter of the I. O. D. E., report to the Provincial or the National Organizing Secretary, and steps will be taken at once to remedy such a state of things, for, in my opinion, every woman, girl and child should be in name, as well as in fact a daughter of the Empire.

Mrs. Stewart went on to speak of the unswerving loyalty of the Province of Quebec, at a critical period in the past, when Canada was almost lost to the British Empire, and of the faith and vision of her Fathers of Confederation, who united the scattered Provinces of Canada into one great Dominion, pointing out that the work of Sir George Foster was now fully recognized. Mrs. Stewart paid a high tribute to Miss Arnoldi, who went overseas at the beginning of the war, and remained there during the great struggle, doing out help and comfort to the men who were fighting at the front, and giving them that home touch which preserved the morale of the Canadian forces. Now she had been appointed to other work, work upon the loyal women of the Dominion, and would, she felt sure, be equally successful. Mrs. Stewart was warmly applauded, and thanked, and Miss Arnoldi supplemented her address with a few words in reference to Echoes, the organ of the I. O. D. E., which it is intended to convert into a Women's Magazine, which should take the place of "Good Housekeeping," one of the publications of Mr. William Hearst. This could only be accomplished with the co-operation of the women of Canada, and of the Daughters of the Empire, in particular, everyone of whom should be a subscriber to "Echoes."

The ladies present were presented to Miss Arnoldi, who remembered meeting her or three, in her first visit to Sherbrooke some years ago, also to Mrs. Stewart, and a social half hour spent, tea being served by the members of the 53rd Regiment Chapter, who were in charge. The magnificent bouquet of roses in the Hall were presented the National President, and Secretary when leaving.

FARMERS' CLUB AT MELBOURNE HELD SOCIAL

Event Proved a Great Success—
Other General News Items.

The Farmers' Club of Melbourne held a very successful box social evening in the school house at Gore Saturday evening, which was attended by nearly everyone in that progressive community. Mr. Benjamin Husk filled the position of chairman in his usual good manner. The programme, which was well arranged, was ably executed by the local talent, which would be difficult to surpass.

Mrs. Kenneth Cook, who possesses a beautifully cultivated voice, gave the following solo: "What a Wonderful World This Would Be," and "Let the Rest of the World Go By." Mrs. Cook also rendered a very beautiful melodious solo. Mr. Wesley Ford sang, "The End of a Perfect Day" and "The Long, Long Trail is Winding," with a degree of perfection, that showed the well trained voice of a natural singer. Miss Olive Simpson, sang "Sweet and Low," in a charming manner. This young lady possesses a remarkably clear voice, of a rich softness that careful training can bring to a very high place of perfection. Mr. Harold Hull gave a reading, while Mr. W. H. Porter gave many selections on his gramophone, which were greatly appreciated. Then the real fun of the evening commenced with the auctioning of the very prettily arranged boxes, with Mr. Wesley Ford as auctioneer. Mr. Ford's efforts were very successful in encouraging bidders when business showed a tendency to slacken. A good sum was raised, which no doubt, the club will know what to do with. A good time was then spent in social intercourse, and before the mystic hour of midnight drew near, which heralded the approaching Sabbath, the happy audience broke up and wended its several ways homeward.

Good Programme Was Much Enjoyed—General News.

KNOWLTON, Nov. 4.—The Hal-lowe'en Concert by the Ministering Children's League of St. Paul's Church, on Monday evening, was a great success. A fancy-work table, home-made candy, and grab bag were in evidence, after which the children provided the following programme:

Recitation, Marguerite Stone; chorus, League children; recitation, Laura Knowlton; "Little Miss Muffet," Brenda Duggan, dance; Marguerite Stone and Judith Cowin; "Where Are You Going, My Pretty Maid," Marguerite Boright and Annie Kenworthy; recitation, Dorothy Sturtevant; and solo, vocal, Annie Grimson, play, seven League girls; recitation, Doris Morgan; "When You and I Were Young, Maggie," Annie Grimson and Elsie Rollet; chorus, League girls; recitation, Margaret Mason.

The committee is very deserving of credit for the success of the evening. Proceeds for missions and Pipe Organ Fund, amounted to a large sum.

PROTEST FROM CANADA WAS CONSIDERED

British Food Controller Replies to Question in House of Commons.

(Associated Press Despatch)
LONDON, Nov. 4.—Food Controller McGurdy was yesterday asked in the House of Commons concerning protests from Canadian salmon canneries against a continuation of the salmon control here. He replied that these protests had been given consideration, but it had not been agreed that canned salmon was placed at a disadvantage to other products.

"I regret any exaggeration of Canadian fishing on a measure which was taken for the protection of the consumer," said Mr. McCurdy.

MINERS' VOTE RETURNS ARE INCOMPLETE

Result of Voting on Agreement Proposed Will Likely Be Known Tonight.

(Associated Press Despatch)
LONDON, Nov. 4.—Figures in the miner's ballot are so incomplete that it would be unwise to hazard general deductions. It is said that Yorkshire and Northumberland will have large majorities for acceptance of the proposed settlement. Derbyshire is also likely to accept, although the vote there is very incomplete.

South Wales, which is always obstinate, shows considerable majority against acceptance, but will not have the necessary two-thirds majority, warranting the continuance of the strike.

The feature in all the coal fields is the small percentage of votes cast. This seems to show that the terms offered were agreeable and that the men thought voting was superfluous. Definite figures will probably be available tonight.

SCOTLAND IS VOTING TODAY RE LIQUOR

"Drys" in Three Areas in Scotland Register Victories.

(Associated Press Despatch)
LONDON, Nov. 4.—Up to midnight three areas in Scotland in which voting took place yesterday on local option had polled dry, namely, Sanquhar, a rural constituency, and Kirkcubright and Kilsyth, mining centers.

Fourteen other sections voted for no change. They included Grange-mouth, Bridge of Allan, Dunoon, Lanark, Helensburgh, Barrihead, Bonnybrigg, Loanhead and Stirling.

THIRTY DAYS.
An athletic young fellow in Australia went on a tear and landed in the police court. The magistrate inquired what the prisoner's occupation was.

"He's a professional football player," said his counsel. "He plays outside right for his team."

"Oh, he does, does he?" replied the magistrate, "well, then, we must change his position. He'll be left inside for the next month."

LARGE AMOUNT OF LIQUOR AT THE BORDER

Large Quantity of Liquor Found by American and Canadian Officers in Westville and Vicinity.

MALONE, N.Y., Nov. 4.—Customs Officers Cowan, Dejon and Starks and Turney King, of Malone, with Customs Officers McMillan and Wilson, of Canada, descended on the line store kept by Jo. Caskinette at the foot of Briggs street, Westville, on the international boundary. The presence of the Canadian officers prevented the transfer of liquor from the American side of the jurisdiction of the American officers, and the search revealed six bags of bottled liquor, three cases of bottled goods and about thirty-five loose bottles in Caskinette's cellar on the American side. The liquor was seized and brought to Malone by the American officers.

While the search was going on, Mr. King saw a child running to the home of one Dumas in Canada, and his suspicion was at once aroused. With Dominion Customs Officer McMillan the child was followed and there twelve bags of liquor and about 150 bottles loose were found in various parts of the house. These were seized by Mr. McMillan. The supposition is that the stock at the Dumas place was a reserve for Caskinette, and that at the line store American runners were being supplied in considerable quantities. Caskinette himself was not arrested because he remained on the Canadian side of the line out of the jurisdiction of the American officers. He disappeared when the Dumas house was under search.

Two more seizures of liquor in

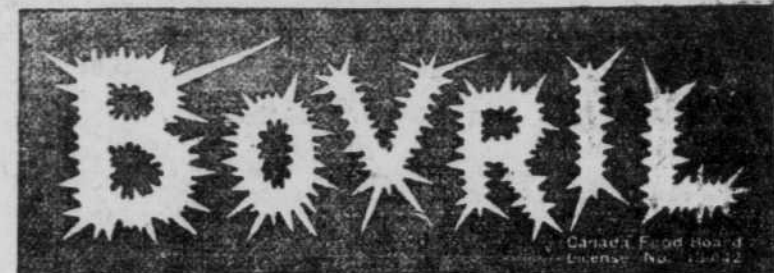

transit in automobiles were made by Sheriff Edwards' force and local customs Officers Monday night and Tuesday forenoon. In the first case a Hudson Super-Six, in charge of three men from Messina, and carrying twelve cases of Canadian liquor, was taken near Ft. Covington and the men placed in custody. In the latter the catch was a roadster and seventeen cases of various expensive brands of liquors, also in charge of a Messina man. The seizure was made near Bombay. Twenty-one automobiles, valued at not less than \$30,000, were in the hands of the officials as the result of recent raids on the smugglers.

Presenting for TODAY at 2.30, 7.30 and 9.00, one of the very best and biggest

Features of the whole year.

"Soldiers of Fortune"

By Richard Harding Davis, and mounted by Allan Dwan in a most gorgeous manner. If you want to forget home cares and business worries, come and see this great picture. Thrills! Nothing but—Say! Fearless riders and dauntless miners! Something moving all the time exactly as Richard Harding Davis imagined it and as the screen alone can picture it. A COMEDY. BEAUTIFUL SCENIC.

PEARL WHITE COMING IN BIG FOX FILM.

Pearl White, the marvel of the screen, is coming to the Casino Theatre next Friday, being presented by William Fox in a special production, "The White Moll," a stirring story of life in New York's underworld. This is her first big production—she having heretofore devoted her screen work to serials.

The story was written by Frank L. Packard, author of "The Miracle Man," and the scenario is by E. Lloyd Sheldon. It deals with Rhoda, a girl crook of the slums, who, having seen the light in a startling miracle performed in St. Agnes' Church—where her father is killed trying to rob the poor box—determines to reform and labor to aid those in the underworld. As a settlement worker she becomes known by the crooks and gangsters as "The White Moll."

Her work has started to bear fruit. "The Sparrow," a notorious safe burglar who has served a long term in prison, is released. When "The Dangler," leader of the gang, tempts the released convict to return to his unlawful trade, "The White Moll" who has been caring for his aged mother, steps in and wins the Sparrow's promise to go straight. But she incurs the enmity of the Dangler, who determines to "frame" the Sparrow. Then begins a series of thrilling experiences which, it is said, make the picture one of the most fascinating and heart-appalling ever screened.

The story, written in Mr. Packard's inimitable style, carries an appeal even stronger than his famous tale, "The Miracle Man." Supporting Miss White are Richard C. Travers, who plays the dual role of "The Pug" and "The Adventurer"; Walter Lewis, J. Thornton Baston, Eva Gordon, William Harvey, George Pauncefort, Charles J. Slattery, John P. Wade and John Woodford.

News of E. T. Men

Attending McGill

The first social function of the Eastern Townships Club for this year will be a smoker, to be held in the McGill Union on the 10th instant. It is expected that several of the club's patrons will be present. The smoker will serve more or less as an introduction to a dinner which the executive is planning for the second week in December.

One of the activities of the club is the establishment of a bureau which will endeavor to find positions during the summer holidays for all members of the club who cannot otherwise find work during the five months in which lectures are suspended. The executive hopes to have this service in working order soon, and will be glad if anyone likely to have positions vacant during the months of May to October, will communicate with the president of the club at 323 Sherbrooke Street West, Montreal. A canvass of the townships will shortly be instituted in search of such employment, and any assistance from graduates or others will sincerely be appreciated.

Another popular branch of the club's activities will likely be the reception committee for new Eastern Townships students. During the summer months, the executive will also communicate with the High Schools of the townships, and will find rooms in the city for those who intend coming to McGill. The members of the reception committee will also see that those men requiring assistance in finding their way around during the first few days of the session are given all the help possible. The purpose of the club, in the first place, is to make the men as comfortable as possible, and to give them the "home touch" which is always lacking at first. While there are no club hours or rooms, still all feel that students appreciate interest in their welfare, and the break will be less pronounced if the men can immediately slip into place among others from "near home." The executive will welcome correspondence from any young men in the townships who would like information concerning the University and conditions here; it is quite frankly admitted that it is the desire to interest as many as possible in the possibilities and advantages of McGill.

John Robinson, of Waterloo, was recently elected to the presidency of the first year of law.

It is noted with pleasure that the Hon. Sydney Fisher, P.C., LL.D., who has been quite ill, is rapidly recovering. The club hopes that he will be able to attend the smoker on the 10th.

most critical time of your lives. It is the time of decision, when every boy should subject himself to a careful test and find out what he is best fitted for. In the last analysis, the boy must settle the thing himself. It is his destiny that is at stake.

But outside stimulus helps, Mr. Statten added. Encouragement and advice should not be underestimated. Over-confidence was a dangerous characteristic inherent in many boys, but over-modesty was just as bad and had more victims. The average boy didn't rate himself high enough; he harbored timidity of the other fellows who had made good and seemed unapproachable. Every boy should be cognizant of the fact that just a few years' time and a little hard work was all the difference between the fellow who had arrived, and the fellow who had not.

"Know thyself," explained the speaker, "find out as quickly as you can whether you like working with men, with things or with abstract ideas."

There were very few persons who knew that there were over three thousand different occupations listed by the Boston Vocational Bureau. Here was an opportunity for consulting the business men of the city and the men who were doing some important work for the community. It was becoming a popular thing for men to help boys—they realized that it was for the good of the future generation. And the big thing to remember was that mere dollars and cents was not the goal; that the monetary returns would come secondary with the man who found his life work and who devoted his best energies to it.

BOXING BOUTS WILL BE GIVEN BY VETERANS

Tournament Has Been Arranged For, and All Are Invited to Take Part.

The Great War Veterans Association will hold a boxing tournament starting sometime in the early part of December. All men and boys of the Eastern Townships and from the various clubs and associations are invited to enter the competitions, and all wishing to do so are requested to hand in their names to the secretary of the G.W.V.A. at once. The date of closing of the lists will be about December 4, thus giving the men plenty of time to get into condition.

The following rules are to be followed:

1. Dress and gloves, light shoes, vest and jerseys covering chest and back, running shorts. Gloves to be six or eight ounces, soft bandages to be worn by all competitors.
2. Weight, 100, 115, 125, 147, 158, and 175 pounds and heavy weights. Length of bouts to be three minute rounds (except finals, which will be three rounds of four minute duration).
3. Bouts in all competitions. The contestants shall be paired and in all cases a contestant drawing a bye shall appear each night of the tournament to box in case he is called upon to do so. Failure to appear as drawn renders boxer liable to suspension from further appearance at an amateur competition until he has satisfactorily explained his case or reason for default.
4. There will be referees, judges, and time keepers each night. Points to be based on five for each round; final bouts, five points for first and second round, and seven points for the last bout, all final bouts are of four minute duration.
5. All extra rounds ordered will be of two minutes' duration, and the points awarded will be five in each bout.
6. Each competitor will wear a distinctive colored sash that is either red or blue, provided by the G.W.V.A. for the purpose of award. The judges will make their points accordingly. The corners will be marked similarly.

THE BOERS ALL GOOD BRITISH SUBJECTS NOW

Called Themselves Boers Once, But That Is Thing of the Past.

(Associated Press Despatch)
TORONTO, Nov. 4.—Leo Weinthal, a noted African journalist, who is editor of the South African World, in London, England, and is in this city to address the Empire Club today, objected strongly yesterday to a notice in the lobby of the hotel where he is stopping, referring to him as a "distinguished Boer."

He declared: "I am not a Boer. I am a Britisher. We South Africans called ourselves Boers at one time, but that is a thing of the past. We are all good British subjects now."

Hog receipts were 830. Packers quotations were unchanged at \$17-60. A few sales were reported up to \$18. Sows were \$4 less than steers.

SOUTHERN PACIFIC WAS FEATURE OF WALL STREET

(Associated Press Despatch)

NEW YORK, Nov. 3.—(Wall St. Noon).—Southern Pacific maintained its leadership throughout the morning, holding the greater part of its gain despite heavy selling for profits. Associated oil, its subsidiary gained four points and Royal Dutch also was strong, but other oils reacted with shipping, steels, equipments and numerous specialties.

Heaviness was shown by Crucible Steel, United Fruit, American Woolen, International Paper and several of the leather issues, which lost three to six points. Investment rails, particularly Southern Railway, Pittsburgh and West Virginia, Rock Island and St. Louis, Southwestern eased one to one and a half points.

Call money opened at nine per cent, and exchange rates on London and Paris were lower.

REDS PLANNED
REVOLUTION IN
BRITISH ISLES

Soviet Courier, Taken Prisoner, Had Manuals Showing Plans for Protection of Bolsheviks and Seizure of Factories.

LONDON, Nov. 3.—Further information concerning the activities of revolutionaries in England were revealed when a man, alleged to be the intermediary between the British Communists and the Soviet Government, was brought up again at Bow street. A code letter from Sylvia Pankhurst to Zinovieff has been decoded, and the police read a passage stating that she had spent six pounds weekly watching seaports, another six pounds organizing propaganda in the army, and ten pounds on distributing illegal literature.

From another letter it appeared the communists had plans for work in Ireland, but were deterred from the lack of money. A document of 56 pages was produced, written by a certain Nosovitzky to Louis Fraina, described as the international secretary of the communist party in America.

Military manuals seized on the prisoner were filled with instructions for the use of the Red army in England. Some of the directions they gave were for use in factories to strengthen walls, block windows, barricade doors, select shelters, for the troops while being shelled, how to mount machine guns to command all approaches, and where to plant mines. Many areas are shown to be extremely vulnerable to blockade, especially those in the Welsh valleys with a single road, and the line of these approaches must be held; the surrounding hills must be held by a series of blockhouses, as to banks the instructions are to locate bulwark and seal the entrance; strengthen the windows, etc. As to telephone exchanges, the Reds direct that essential parts should be removed and the wires cut. Another document referred to the expenditure of \$2-185 on firearms, machine guns and bombs. Another referred to work in the navy and Red propaganda among the lower ranks. The prisoner was Erik Weltheim, a native of Finland. He was sentenced to six months at hard labor.

INDUSTRY IS
TO BE STARTED
IN EASTMAN

EASTMAN, Nov. 4.—The future is looking bright for this town. Messrs. J. A. Moquin, J. Crawford and J. Lachapelle have bought the Silver Lake timber limits and are going to build a saw-mill here. Men are busy now, drawing in stone for the foundation of the mill.

This will give employment to a number of men in the woods, and it is hoped that in the near future there will be other industries coming to this place.

A number of the New York stockholders of the Canadian Copper Refining Company visited their property near town recently.

Among the boys returning from the harvest fields of the West are Geo. Parise, O. Paradis, K. O'Malley and W. Danue.

Mr. and Mrs. F. Payne and twin daughters, of Sherbrooke, were recent guests at the home of her parents, Mr. and Mrs. J. Marchand.

Miss T. Larocque, of Maplewood Convent, Waterloo, is spending a few days at the home of her parents, Mr. and Mrs. S. Larocque.

Mrs. E. Craig, of Smith's Falls, Ont., is visiting her daughters, Mrs. N. S. Parker and Mrs. W. Tibbitts.

Mrs. W. Paige and daughter Queenie went to Sherbrooke, where Miss Queenie will remain to take a course in stenography.

LONDON, Nov. 3.—Further information concerning the activities of revolutionaries in England were revealed when a man, alleged to be the intermediary between the British Communists and the Soviet Government, was brought up again at Bow street. A code letter from Sylvia Pankhurst to Zinovieff has been decoded, and the police read a passage stating that she had spent six pounds weekly watching seaports, another six pounds organizing propaganda in the army, and ten pounds on distributing illegal literature.

From another letter it appeared the communists had plans for work in Ireland, but were deterred from the lack of money. A document of 56 pages was produced, written by a certain Nosovitzky to Louis Fraina, described as the international secretary of the communist party in America.

Military manuals seized on the prisoner were filled with instructions for the use of the Red army in England. Some of the directions they gave were for use in factories to strengthen walls, block windows, barricade doors, select shelters, for the troops while being shelled, how to mount machine guns to command all approaches, and where to plant mines. Many areas are shown to be extremely vulnerable to blockade, especially those in the Welsh valleys with a single road, and the line of these approaches must be held; the surrounding hills must be held by a series of blockhouses, as to banks the instructions are to locate bulwark and seal the entrance; strengthen the windows, etc. As to telephone exchanges, the Reds direct that essential parts should be removed and the wires cut. Another document referred to the expenditure of \$2-185 on firearms, machine guns and bombs. Another referred to work in the navy and Red propaganda among the lower ranks. The prisoner was Erik Weltheim, a native of Finland. He was sentenced to six months at hard labor.

TRUE BILLS ARE BROUGHT IN BY GRAND JURY

Petit Jury Was Called This Morning
and Court Is Ready to Proceed.

True bills were returned to the King's Bench by the Grand Jury last evening in the following cases: Romeo Gagnon, housebreaking and theft, plaintiff, E. S. Fitzgerald; Romeo Gagnon, housebreaking and theft, plaintiff, A. J. Bedard; Paul Abran, obtaining under false pretences, plaintiff, G. Carrier; Jules Coulombe, housebreaking and theft, plaintiff, J. Malenfant; Irwin J. McCormack, indecent assault, plaintiff, Anne Cassidy and M. A. Howison; housebreaking and theft, plaintiff, E. O. Conway.

Gagnon and Howison were arraigned and the former case was fixed for today, while that of the latter will come up on the eleventh.

The calling of the Petit Jury occupied all of the morning session, and the jurors who asked exemption were heard. In every case, this was granted, upon satisfactory evidence being presented to convince the Court that the jurymen had valid reason for his request.

The Grand Jury will continue through the list of indictments, and will report their findings this evening.

SHERBROOKE SNOWSHOE CLUB ANNUAL

N. B. Prichard New President—
An Invitation Extended to the
Quebec Snowshoe Club.

The annual meeting of the Sherbrooke Snowshoe Club, at the club house, was marked by a large attendance, and much enthusiasm.

The new officers elected are as follows:

Hon. Pres., W. A. Hale; President, N. B. Prichard; 1st Vice-Pres., M. L. Hunting; 2nd Vice-Pres., A. C. Skinner; Treasurer, C. E. Soles; Secretary, G. S. Samson; Hon. Purveyor, C. H. Foss; Assistant Purveyor, C. O. Gustafson; Committee, Messrs. Spafford, Houlihan, Sangster, Barrie and Bradford.

A resolution was adopted extending an invitation to the Quebec Snowshoe Club to visit Sherbrooke during the season as guests of the Sherbrooke Club.

The reports submitted showed the club to be in a satisfactory condition. A few vacancies occur in the membership, which will provide room for a number who are on the waiting list.

In order to meet the increased expenses of the club a revision of the fees was decided upon, the initiation fee being placed at \$10 instead of \$5, and the annual membership fee \$7 instead of \$5.

Announcement was made that 150 yards of cloth was available for suits this year, and the new executive will issue further announcements to the membership in this connection.

THE RIGHT BELIEF IN THE INCARNATION NOT EASY, BUT VERY NECESSARY

Bishop Farthing Addresses the
Divinity Students of Bishop's
College.

The Rt. Rev. S. C. Farthing, D.D., Lord Bishop of Montreal, speaking last night at Compigne, in the oratory of the Ven. Bede, urged upon those students of Bishop's College who are studying divinity, the importance of grasping the basis of all real fellowship. There were also present some artsmen. During the course of his remarks, His Lordship pointed out that a proper belief in the incarnation is absolutely essential.

This, it will be remembered, is directly opposed to the unaccountable utterances of two Montreal clergies less than a year ago. These priests maintained, contrary to all the teaching of the Church of England, in which they minister, that it was not necessary to believe in the Virgin birth. This view is, of course, recognized throughout Christendom as a most improper statement of the incarnation.

His Lordship dwelt mainly upon "fellowship." All true fellowship with man, he said, springs from and depends upon our fellowship with God. "If a man say that he loves God and hateth his neighbor, he is a liar."

The need is, first of all to remind ourselves of the personality of God. He is perfect in His attributes and in the expression of those attributes. In the personality of God, therefore, we see the infinitely perfect fellowship of the blessed trinity. Each "person" of their blessed trinity exists from all eternity in perfect fellowship with other. "God is love," infinite love.

But perfect love must be perfectly comprehended and perfectly reciprocated, and this is only possible with God. Thus God the Father perfectly understands and perfectly reciprocates the love of God the Son, and vice versa.

It is impossible to imagine with the Unitarians of today that God is not a trinity, but a single personality for infinite love expended upon self would only lead to infinite selfishness. And, as this modern mind cannot see the perfection of God's love, so it is also unable to see the perfection of any of His attributes.

His Lordship then went on to speak about the incarnation of Christ, Jesus Christ, child of Mary, yet unborn, was still God the Son, and in perfect fellowship with God the Father and the Holy Spirit. As boy and as man this eternal perfect fellowship remained, and in this way our manhood was brought into His perfected fellowship with God. It is not easy to believe that Almighty God was born of woman and lived and died as man, but it is most necessary—more especially in these days—if we are to maintain the Catholic faith of Christ. Moreover, it is only in the Man Christ Jesus that we find our manhood brought into infinite fellowship with God.

But we cannot stop here. Every baptized person is baptized into Christ and becomes a member of His incarnate body. We are all invited to that manhood of Christ, and through Christ we all join in His fellowship with God.

Holy baptism is for more than invitation into one particular communion—Anglican or Protestant, Roman or Orthodox. It is entry into the fellowship with God that each one of us may "be filled with all the fullness of Christ" as St. Paul put it when writing to the Ephesians. His fellowship is infinite. There is no limit to it.

Bishop Farthing then pointed out in conclusion that this is the basis of all Christian fellowship, which must be in Christ. Every baptized member shares the fullness of this divine fellowship, and we are all, therefore, members one of another.

This is the true Catholicity of the church which is His body"—Christian fellowship with God and with each other. The basis of this fellowship must always be "in Christ," for in Him we are all united, and in Him we all share the "fullness of God."

This, then, is the foundation of all reunion. The reunion of Christendom is to be the outward expression of our unity in Him. And at last this reunion begins to look more than a mere dream if only we can realize and keep before us the vision of that Christian fellowship which knows no limits, no narrowness, which leaps all barriers between Catholic and Protestants, and even between Anglicans and Roman, Roman and Orthodox. This, indeed, is the great Catholicity of Christ's body, that we shall each "be filled with all the fullness of God," and so be brought into perfect fellowship with Him and with each other.
