# WHILE RUSSIANS ARE RETIRING FRENCH ARE SLOWLY GAINING ALONG WESTERN BATTLE-FRONT

## Austro-Germans Show No Sign Of Abating Their Offensive And Another Russian Defeat Seems Like'y On The Dniester River—Terrific Attack On Warsaw Is Expected—British Campaign To Enrol Munition Workers Meets With Adequate Support

London, June 24—The Russians are still retreating in the east; the French are slowly gaining at certain points on the western front.

With the fires set by the retreating Russians still burning, the Austro-Germans are now firmly established at Lemberg and have shown no sign of ceasing their offensive.

The battle of the Dniester, to the south of the city, is not yet over, but, according to Berlin, General Linsingen has been able to throw his forces across the river, a fact which is taken in some quarters to presage another Russian defeat.

With Galicia all but cleared of Russians, the weight of Austro-German forces released in that theatre must soon be felt somewhere, but opinions are divided as to whether it will be on the western front or in Poland. One theory is that the Germans will launch against Warsaw another terrific attack, similar to their drive in Galicia. This coincides with the belief that it is the Austro-German plan to batter Russia more before turning west.

Opposed to this are reports that troops from Galicia are already journeying westward and that Germany plans to start a fresh campaign in the near future along the Belgian coast.

Lemberg is celebrating the return of the Austrians, and Vienna has not yet ceased her revelry at the recapture of the city. Petrograd, meanwhile, continues to depreciate the military importance of the achievement, professing confidence that it will have no bearing on the ultimate outcome of the war.

The first day of David Lloyd George's appeal for munition workers seems to indicate that an adequate number is being enrolled. The whole country is now in the throes of a recruiting campaign more intense than any previous appeal for fighters at the front.

## STEAMER SEIZED BY THE BRITISH

### AMERICAN VESSEL ORDERED TO LONDON—CARGO FOR PRIZE COURT.

London, June 24.—6:06 p.m.—The American steamer Neches has been seized in the Downs and ordered to proceed to London to discharge her general cargo, which is to be thrown into the prize court. The contention of the British government that the cargo came from a country hostile to Great Britain is denied by the shippers.

The cargo of the Neches was loaded at Rotterdam and the steamer was on her way to New York when she was seized.

The shippers maintain that the cargo is of Belgian origin.

This is the second time that the Neches has been held up by the British authorities. Several weeks ago she was detained on a voyage from the United States to Holland with 3,000 tons of cotton. The cotton was released on the promise that the Netherlands Overseas Trust would take charge of it.

## PURPOSE FAILED.

### Turkey Aimed for to Have Italy Keep Large Force In Africa.

Rome, June 24, via Paris, 12:30 p.m.—Reports received by officials of the government indicate that Turkey with the support of her allies, planned to give assistance to the Senusi tribesmen in their uprising against the Italians in Libya. The purpose of this movement is said to have been to compel Italy to keep a large number of troops engaged in northern Africa. This purpose was not achieved, however, the Italian government having withdrawn its military posts in the interior. In consequence Italy now requires a smaller force than heretofore in Libya.

## FOUND DROWNED.

Toronto, June 24.—Joseph Chambers, formerly of the British navy, was found drowned in the slip at the foot of Bay street this afternoon. He had been missing for a week.

## DAMAGING FIRE AT CHICOUTIMI

### CONFLAGRATION THREATENS TOWN WHEN GOUDREAU AND GAGNON STORE IS ABLAZE.

(Special to the Chronicle).

Chicoutimi, June 24.—The town of Chicoutimi was threatened with another conflagration tonight, the third anniversary of the big fire of 1912, when a blaze broke out in the departmental store of Goudreau & Gagnon and caused damage to the extent of several thousand dollars.

It was about 6:15 o'clock when the fire broke out in the basement of the store and spread rapidly, volumes of thick black smoke issuing from the building.

The entire fire brigade was soon on the scene and after a couple of hours hard work the blaze was finally mastered.

Much damage was done to the store proper as well as to the large stock, while the homes of Messrs. P. Goudreau, Gagnon and J. O. Couture over the store were also heavily damaged.

The loss is, in large part, covered by insurance.

## REGISTRATION OF NATIONAL RESOURCES

### Bill To Be Introduced In House of Commons.

London, June 24.—8:30 p.m.—Now that the agitation for munitions is at its height, England is going to take a stock of her resources. A bill providing for "the registration of national resources" is to be introduced in the House of Commons next week by Walter Hume Long, president of the local government board, according to an announcement made tonight by William Hayes Fisher, unionist for Fulham. Just what will be the scope of the inventory, and whether it will include men as well as supplies, has not been made known.

## RAIN RETARDS ITALIAN ACTIVITIES

Brescia, Italy, via Paris, June 24.—A downpour of rain is preventing military operations. The rivers are out of their banks to such an extent that they are impassable. Airships have been compelled to return from scouting tours owing to the dense fog or otherwise had weather conditions.

## BANK CLEARINGS.

St. John, N. B., June 24.—Bank clearings for the week ended today \$1,502,670 as compared with \$1,442,911 last year.

## PRUSSIAN DIET IS DIVIDED ON WAR QUESTION

### HERR BRAUN SAYS GERMAN PEOPLE WANT PEACE WITH- OUT HUMILIATION.

London, June 24.—A Reuter despatch from Amsterdam gives the following excerpt from a speech made in the House of Deputies of the Prussian Diet by Herr Braun, a Socialist member:

"It would be a calamity for Germany to carry out the annexation ideas recommended by the interested groups. Such a policy is rejected by the Socialist party. The German people want no conquests, but peace without humiliation or violence."

The sitting of the Diet was subjected to much disturbance on the part of the Socialists, the correspondent adds. Herr Delbrueck, the Prussian Minister of the Interior, announced that Germany was able to carry over a considerable reserve of bread, grain and potatoes into the new harvest year, but that it was desirable to maintain maximum prices in order to secure control of consumption. New regulations concerning this, he added, would be published shortly. He reiterated that it was Germany's intention to persevere until victory was secured.

Herr Wiener, a Progressive, followed. He echoed Herr Delbrueck's sentiments and protested against the attitude of some of the Socialists who, he declared, were engaging in a peace campaign. The speech of Herr Wiener was interrupted by Dr. Karl Liebknecht, one of the Socialist leaders, and other Socialists, and then Herr Braun began his speech.

When Herr Braun had concluded Herr Delbrueck again rose. A fresh commotion began among the Socialists and Herr Delbrueck protested that they ought to hear him as patiently as the House had heard Herr Braun. The uproar from the Socialist benches continued, however, while Herr Delbrueck was insisting that the Socialists, if they possessed an understanding of the true interests of the Fatherland, would follow the example of the other parties.

The sitting closed after a speech by the President of the Chamber, which was devoted mainly to the recent successes in Galicia.

## AUSTRIA TO HAVE GRAIN MONOPOLY.

London, June 25, 3:45 a.m.—A Reuter despatch from Zurich says: "The Austrian government announces its intention to sequester the entire crops of the new harvest, in addition to all the stocks of old grain in the monarchy on the 15th of August, placing the whole in the hands of a special grain monopoly. The present system of bread tickets and similar measures will be retained."

## MONTENEGRIN ARMY AT GATES OF SCUTARI

Rome, June 24, via Paris, June 25.—12:57 a.m.—The Giornale D'Italia's Scutari, Albania, correspondent says the Montenegrin army has reached the eastern gates of Scutari and are occupying the height of Renzi and the camp of Kiri. Feeble resistance was encountered.

An official note issued by the Montenegrin government says that strategic and political reasons impelled the descent on Albania, and that the step also was taken because other powers have occupied portions of Albania.

## OFFICER REBUKES GERMAN EMPRESS

### DYING WISH THAT KAISER MAY SUFFER AS HE HAD.

London, June 25.—A Petrograd despatch to the Morning Post says: "The Novoe Vremya correspondent at Warsaw says the German Empress visited the officers hospital at Posen recently and was carried out in a fainting condition in consequence of a reply of one of the officers to her attempts at consolation."

"The officer, all four of whose limbs had been amputated while his body was covered with shrapnel wounds, lay very near death. When the Empress reached his bedside and asked if he had any wishes to express the German is reported to have said: 'I wish Emperor Wilhelm and his children may suffer what I have suffered.'"

## TIMES APPROVES NATIONAL REGISTER

### BRITAIN MAY YET NEED EVERY AVAILABLE MAN IN COUNTRY.

London, June 25.—3:15 a.m.—The Times asserts that the chief aim of the registration of national resources will be to form a register of the available manhood of the nation remaining in the country.

"It is expected," says The Times, "that every man in the country will be required to give his age and condition, whether married or single, and also particulars indicating for which branch of war work he is best suited."

"We are not likely," adds The Times, "to achieve at one stroke the perfect system of the Germans, but a determined effort will be made to take a preliminary survey of the nation's capacity, without which no complete war organization can ever be achieved. It will take time to complete the register; a stupendous task of this character cannot be carried out in a week or a month."

The Times military correspondent, welcoming the government's decision to seek the power to make a national registration, points out that Great Britain's military establishment is now in the neighborhood of 3,000,000, and as the total male population in the United Kingdom between the ages of eighteen and forty, is about 8,000,000, there are still some 5,000,000 unaccounted for, of whom there are certainly between 2,000,000 and 3,000,000 available for military service. "It may be," said the writer, "that we shall need every man that can be recruited. We have been unable to break the German defensive in the west or the Turkish offensive in the Dardanelles, while Russia's campaign is not going well. Therefore, such a measure as a national registration is merely an act of common prudence

## OFFICIAL

### FRENCH STATEMENT.

Paris, June 24.—10:25 p.m.—

The following official communication was issued by the War Office tonight:

"In the region to the north of Arras there have been no infantry actions today. Our troops have organized themselves in the conquered positions. A lively cannonade occurred in the sector of Angres-Ecurie.

"The enemy last night and today very violently bombarded Berry-Au-Bac and the neighborhood of Sapigneul. This bombardment caused us only insignificant losses.

"In the Argonne and on the heights of the Meuse there is nothing to report except artillery actions.

"In the Vosges, at Fontenelle a German attack was repulsed. The Germans have bombarded the outskirts of Metzeral and the ridges to the east of the village, where our progress has continued to a slight degree."

## RUSSIAN STATEMENT.

London, June 24.—8:50 p.m.—

despatch to Reuter's Telegram Company from Petrograd says:

"Although the buildings in Lemberg were left intact, the engineers effectively destroyed the roads behind the retreating Russians. The rearguard corps were brilliantly handled and gained invaluable time by delaying the Austro-Germans four miles northwest of Lemberg and also to the west and south of the city. The new Russian front, which was referred to in Wednesday's official communication as the point on which the Russians were retiring, is on Galician territory.

"The Retch says it thinks the Russian army accomplished everything that was possible with its available resources."

## The Weather

Toronto, June 24.—In the Western Provinces today the weather has been for the most part fine and moderately warm, but local thunderstorms have occurred in Manitoba and Southern Alberta. The temperature has been somewhat higher than yesterday in Ontario and Western Quebec, but continues low further east.

BELLEVUE CONVENT CLOSING EXERCISES

PRIZES AWARDED AT FIFTY-FIRST ANNUAL COMMENCEMENT CEREMONIES.

The fifty-first annual commencement of Bellevue Boarding School, Saint-Foye-Road, Quebec, which took place in the auditorium of the institution on June twenty-first at 9 a.m., was in every respect characteristic of the best traditions of the time-honored Distribution Day.

Before this audience the young ladies presented a musical and literary offering of a very high order, which was highly appreciated.

The demonstration was a beautiful tribute to the efficient work being accomplished by this institution and to the praiseworthy efforts being put forth by the Daughters of Margaret Bourgeois, whose splendid achievements in the cause of Catholic education are universally recognized.

LEGAL INTELLIGENCE.

Judgments By Hon. Justice Dorion—Writs Issued.

Judgments by Hon. Justice Dorion—Letarte vs. Cite de Quebec—Plaintiff claims an amount of \$218.75, unduly paid to defendant for taxes in her immovable properties, in Bellevue, in the City of Quebec, alleging that when the Ville Montcalm was annexed to the City of Quebec, said properties were valued at \$80,000.00, that in virtue of the by-law including the conditions of the annexation, during seven years from the 1st of May, 1914, the properties could not be valued more than they were before; that defendant has made a higher valuation of the plaintiff's properties and the plaintiff had to pay the City of Quebec \$218.75, to get rid of a seizure against her; defendant denies the allegations of the plaintiff's declaration, alleging that she had renounced to all recourses against her, by paying voluntarily and by not contesting the valuation bill, according to law. The learned judge considers that the plaintiff had not paid the amount by error but knew that the sum given was too high and had not contested the valuation roll within the delays fixed by law; doth dismiss the action with costs.

Julien & Cie., vs. Brassard—Judgment according to the consent of parties filed on the fourth instant.

THE VOICE IN THE WILDERNESS.

Over two years ago, in the little subjugated Roman province of Palestine, there was enacted a drama of life on the smaller of historical scales, wherein was let loose the phrase: "Prepare ye the way of the Lord!" The humanities were much the same in those days as they are in these days, however attenuated were the events that embodied their activities as compared with the compass of the events of the twentieth century are witnessing in the wars and rumors of war that are claiming a whole world for an amphitheatre of unrest. And the multitudes of misguided saints and sinners that would drag events for explanation out of the rut of cause and effect, into the waywardness of a man-created God, are as plentiful as ever. Running my eyes over the newspapers the other day, I came across the following prayer in the Boston Transcript, which may be taken as a way out of the situation that besets the world for the moment, if man's responsibility is to be eliminated from the call "Prepare ye the way of the Lord!" The prayer carries with it its own comment even when offered up with contrition; and to say what that comment is, would only give rise to a discussion which might possibly lead to the theoretical crucifixion of some one or other for holding views not held in common by everybody. The prayer is as follows: "Grant, O Lord, in thine own time and way, that peace which works for righteousness. Make this the last of earth's great wars. Leave us not, in the day of peace-making, to the confusion arising from misguided counsels, nor suffer our children and our children's children ever again to have to do and to suffer, as we are doing. Bring down the ambition of the proud, above the lovers of violence, and put an end to hate. Teach us, as we watch the self-givings of the peoples, the lesson which war carries with it; teach us that there are gifts more precious, and rewards more to be desired than even life itself and its worldly honors. Remember the bereaved and the forsaken, the wounded and the dying, and those who helped them in their need. Be with every wife and mother and sister in their long suspense and lonely hours. O Lord of Hosts and Father of mankind, in Thy hand we leave the issue of the strife, confident that amid it all Thy kingdom is sure to come in. Have mercy on us all and teach us how to find and keep Thy way towards an abiding peace. In the name of Christ, Amen."

Judge Langelier Awarding Report on Prisoner's Sanity. The man James Doolan, who shot and wounded Sergt. Ryan, of the municipal police force, a couple of weeks ago was brought in from the gaol yesterday morning, and was again remanded for another eight days by Judge Langelier in the Court of Sessions. Doolan is at present under observation by the doctors at the gaol and Judge Langelier is awaiting their report.

TO MAKE HAIRS VANISH FROM FACE, NECK OR ARMS

Keep a little powdered delatone handy and when hairy growths appear make a paste with some of the powder and a little water, then spread over hairy surface. After 2 or 3 minutes rub off, wash the skin and it will be entirely free from hair or blemish. This simple treatment is unailing, but care should be exercised to be sure and get genuine delatone, otherwise you may be disappointed.

ILLEGAL GATHERING OF GULLS' EGGS

TWO MEN FROM KAMOURASKA COUNTY FINED BY JUSTICE OUELLETTE.

Quite a stir was created at St. Andre of Kamouraska when, a few days ago O. Sirois and A. Ouellette, of that parish, were brought before Justice of the Peace Ouellette by the Quebec Fish and Game Protective Association's game-warden for illegally gathering gull's eggs on Pilgrim Islands. Art. 2314 R. S. Q. enacts as follows: "It is forbidden to disturb, injure, gather or take at any time, the eggs of any species of wild fowl, etc., and all vessels or boats employed in disturbing, gathering or taking the eggs of any species of the aforesaid wild fowl may, as well as the eggs, be confiscated and sold;" and this part of the law seems to be completely ignored in some places. The Association has decided to make some examples in order to save our wild fowl from complete destruction. During the hatching season this year, a game-warden stayed at the Pilgrim Islands inhabited by thousands of ducks, gulls, penguins and other aquatic birds with the result that good protection was given to the birds and a fine of \$10.00 each imposed upon the two above parties who were caught poaching with a few dozen eggs in their possession.

WAR MUNITIONS MINISTER IS AWAKENING BRITAIN

LLOYD GEORGE HAS OPENED EMPLOYMENT BUREAUS—LABORITES WILL DO THEIR PART IN SUBSCRIBING TO WAR LOAN.

London, June 24.—The enrolment of war munitions volunteers is engaging more attention for the time being than the enlistment of recruits for the army. It is a striking proof how David Lloyd-George, the Minister of Munitions, has succeeded in awakening the country to the paramount necessity of concentrating on the production of shells and other war materials.

At 6 o'clock this evening work bureaux were opened in nearly two hundred town halls in various parts of the country, of which fifty-three are in London alone, and in a large number of other buildings, to give British workmen an opportunity "to get into the factory line and supply the firing line."

According to a page advertisement in big type printed in all the important newspapers, these bureaux were opened in the evening in order that the men might enlist for munitions work without losing time in their present situations.

"Every skilled worker, who is ready to go, will be put into his new job with the least possible delay," said H. E. Morgan, a well-known business man whom Mr. Lloyd-George has impressed to help mobilize the new army of skilled workmen. "There will be no long period of waiting. The need is too urgent. The loyalty of the British working-man is such, we know, that he is prepared to make sacrifices to help his 'pals' on the firing line."

The working-man of Great Britain was never before the object of so much consideration. Both on the firing line and in the factory line he is regarded as the saviour of the country.

The papers credited with a large circulation among the wealthier classes print a big advertisement appealing to the employers of skilled workmen to "make it easy for them to enroll as munitions workers and easy for them to get their old jobs back."

The Chancellor of the Exchequer, Reginald McKenna, in the meantime, is appealing to the workmen to subscribe to the new war loan. At the Treasury today he received a deputation representing the principal trades unions and other organizations which exercises great influence on workmen's savings and urged upon them the necessity of their co-operation to make the loan a success.

"There is no suggestion of compulsion in the matter," said the Chancellor. "We appeal to the workmen on the ground of national need. We have tremendous financial resources but there is no good in having that asset unless we use it, not only for ourselves but also for our allies. If we make the loan a success we shall win the war and triumph."

"We will do our share towards getting the money," was the response of Charles W. Bowerman, an influential Labor member of parliament.

To enable the poorer classes to participate in the loan it was suggested that loan certificates as low as two shillings each be issued. Already it has been arranged to issue five shilling certificates, and the Chancellor promised to consider the smaller sum.

BANK OF ENGLAND'S NEW WAR LOAN.

London, June 25, 3.30 a.m.—The Bank of England already has sent out over four million prospectuses of the new war loan and the clerks devoted to this special business continue as busily engaged as ever in handing out further copies and explaining the details of the loan to inquirers.

According to the Times the applications from the general public for allotments of the loan are coming well up to anticipations.

STUDENT IS KILLED FALLING AGAINST SAW

London, Ont., June 24.—Accidentally falling against a rapidly revolving saw in the mill of his father at the village of Granton, a few miles from here, Clifford Langford, aged 20, a university of Toronto student, was almost instantly killed late this afternoon. Langford's right leg was severed at the trunk and his body was terribly mangled.

SOLEMN CEREMONY AT FOUNDLING HOME

CARDINAL BEGIN LAYS CORNER STONE OF THE NEW WING.

Yesterday as a red-letter day at the "Creche" or Foundling Home on the St. Foy Road. As previously announced the corner stone was to be laid at 3 p. m., by His Eminence Cardinal Begin and a large concourse of people notwithstanding a lowering sky wended their way to take part in the religious ceremony. Representations of all classes were there and were received with warm welcome by the Reverend Sisters of the Good Shepherd under whose watchful care so many homeless waifs are sheltered.

Among the clergy present and surrounding His Eminence were the Rev. Canon Halle and Father Healy, C. S. S. R., the two eloquent preachers for the solemn occasion. There were also present the Rev. F. Pelletier, Rector of Laval, Rev. Arsene Roy, O. P.; Rev. Hyacinthe, O. F. M.; Fathers Belanger, Lageux, Godbout, Chaplain of the Good Shepherd, Father Maguire, Rev. J. A. Langlois, Prof. of the Seminary, Rev. Fr. Tugnon, Proux, Gelly, Laberge, Leclerc, Derome, V. E. Payment.

Among the laity present were many of Quebec's leading citizens, the ladies predominating for the most part. His Honor the Lieutenant-Governor and Madam Leblanc who took great interest in the institution were there seated among the many other benefactors such as Lady Gouin, Senator and Madam Landry, Madam E. B. Garneau, The Hon. Geo. E. Amyot and Mrs. Adjutor Amyot, Hon. Judge and Madam Carroll, Madam Edmond Taschereau, Mad. A. Cantin, Mesdames Dr. Marois, Geo. Tessier, Alex. Taschereau, Mrs. Edward Foley, Mrs. W. D. Laney, Madam Evanturel Mrs. Julie Smith, Mrs. J. G. Scott, Mrs. Heustis, Mrs. McKenna, Mrs. M. Dinan, Mrs. Tierney, M. Monaghan, Ald. Walling of Belvedere Ward and many others whose names escaped our attention.

The Rev. Canon Halle, with a rare and lucid eloquence set forth in French the objects and aims of this charitable institution. His brief but apposite remarks affected deeply those present. He was followed by the Rev. Father Healy who also spoke with telling force and persuasiveness as the plate collection of \$237.00 clearly illustrated. In substance Father Healy's discourse may be thus resumed. He claimed that the work of the Creche was God's own work and that it was part of that great heirloom of charity, which Christ left to his Church and that the Sisters were perpetuating the work of Christ, that they were Sisters of the Good Shepherd indeed, caring for the lost sheep of the House of Israel, angels of mercy, Apostles of Christ.

He declared that their work was a hidden work continued for years and was as effective though unseen as the work of God's inspiration in the individual heart.

He then referred to the great charity of two of Quebec's highly esteemed citizens Mrs. John Sharples and the Hon. Geo. E. Amyot, whose princely generosity in donating the necessary funds, made possible the work which was now well begun and would be hurried to its completion.

This contribution on the part of these two distinguished citizens has had this salutary effect, it brought out to the limelight, indirectly indeed, the great work of charity which was being carried on unobtrusively for years past, a work the key note of which was charity, mercy pity and love all blended beautifully into one.

Then citing the text "Suffer the little ones to come unto Me and forbid them not for of such is the Kingdom of Heaven," he proceeded to say that this text is the apology, the raison d'etre of this foundling Home. I am now the spokesman for these infant children and if all their infant cries could be uttered in one single voice the burden of that cry would be "We crave your pity, your mercy, we desire your love we long for that mercy, that pity, that love and that they be shown forth in charity. That, too, is God's appeal. By helping in this good work—we preserve human lives—lives that were brought into this world by no fault of these poor babies, you unite by your charity all the corporal works of mercy, clothing the naked, feeding the hungry, giving drink to the thirsty and shelter to the abandoned. You my friends, by helping on this good work and by aiding the Sisters continue Christ's life work on earth, you become other angels of mercy, other good shepherds, other Christs.

The Reverend Father wound up his discourse by citing the words of St. Vincent de Paul to the ladies of Paris encouraging them to take up the work of caring for 500 foundlings of the City. The appeal of the great Saint was an appeal from the Heart in which he said the little one would continue to live in charity would protect them, but tomorrow would behold them perish if they were cast off.

Lastly the Rev. Father appealed to the Christian Mothers and Maidens of Quebec for the honor of their sex, the glory of their Motherhood and the precious jewel of their mai-

UNITED STATES IS STILL PROTESTING

AND WILL PROTEST TILL DOOMS-DAY IF WAR IS CONTINUED.

Washington, June 24.—Great Britain, in a memorandum transmitted to the United States and made public here and in London tonight recites at length its efforts to minimize inconveniences to neutral commerce resulting from the Order-In-Council against trade with Germany, Austria and Turkey, and asserts that American citizens have no just grounds for complaining on account of the treatment accorded their cargoes.

No attempt is made to answer the principles asserted in the American note of March 1 protesting against the Order-In-Council and insisting upon the right of neutrals to carry on legitimate commerce with each other and to trade in non-contraband with civilians in belligerent countries. In transmitting the memorandum, Ambassador Page said it was "merely an explanation of concrete cases and the regulations under which they are dealt with."

Another note to Great Britain is now in course of preparation at the State Department and is expected to be dispatched as soon as the negotiations with Germany over submarine warfare have been cleared up. While this communication probably will make reference to the latest memorandum, it is understood that the manner of enforcing the Order-In-Council will not be treated as relevant to the question at issue—whether there is any warrant in international law for the powers that Great Britain and her allies have assumed to exercise over the commerce of the world.

In its memorandum the Foreign Office emphasizes the "various special concessions made in favor of United States citizens" in setting forth that all British officials have acted in every case "with the utmost dispatch consistent with the object in view, and of showing in every case such consideration for neutrals as might be compatible with the object, namely, to prevent vessels from carrying goods for, or coming from the enemies territory."

Arrangements for buying American cotton detained and for permitting the passage of goods bought in Germany by Americans before the date of the Order-In-Council are outlined and the promise made that consideration will be given to special cases of this kind in the future.

According to a summary of ships detained there are now 27 vessels which cleared from the United States now held in ports in the United Kingdom. Of these eight are said to be unloading cotton which Great Britain has agreed to purchase; seven will be allowed to depart as items of their cargo placed in a prize court have been discharged and the other 12—three of them American ships—are the subject of investigations not yet completed.

Regarding the complaint that undue delay has occurred in the prize court, the memorandum points out that delay is frequently caused by the request for adjustment of cases by counsel for the claimants, and quotes from the records of the prize court one specific instance where the claimants after pressing for an early hearing, and an early date having been fixed, came into court and asked for a six weeks adjournment. Other delays have been occasioned by efforts at amicable settlements out of court.

When these failed, the American shippers then asked for adjournment in the prize court, despite the fact that the Crown was ready to proceed.

The memorandum concludes: "His Majesty's government are earnestly desirous of removing all causes of avoidable delay in dealing with American cargoes and vessels which may be detained, and any specific inquiries or representations which may be made by the United States government in regard to particular cases will always receive the most careful consideration and all information which can be afforded without prejudice to prize court proceedings will be readily communicated; but they can scarcely admit that on the basis of actual facts, any substantial grievance on the part of American citizens is justified or can be sustained, and they therefore confidently appeal to the opinion of the United States government as enlightened by this memorandum."

TORONTO MAN INVENTS RESPIRATOR.

Tests Satisfactory—Device May be Recommended to War Office.

Toronto, June 24.—A respirator for neutralizing the effect of chlorine gas, invented by A. Newman, of this city, has been given a satisfactory test at Kingston camp, and will probably be recommended to the War Office. Mr. Newman remained in a hermetically sealed room filled with the gas for sixteen minutes without unpleasant results, and several officers also gave the respirator a thorough and satisfactory trial.

denhood not to be unmindful of the tender cries of God's little ones.

This appeal touched every heart present and many were the favorable comment exchanged respecting the touching eloquence of the two zealous preachers.

PRESIDENT WILSON DOES NOT EXPECT EARLY PEACE

COLONEL HOUSE DOES NOT THINK PUBLIC OPINION IN BELLIGERENT COUNTRIES IS YET RIPE FOR CONCLUSION OF WAR.

New York, June 24.—President Wilson does not see any prospect for an early peace in Europe. Col. E. M. House, his close friend and unofficial envoy to Europe, gave the President today the results of his sojourn of several months in the principal capitals of Europe, where he talked intimately with the responsible officials of the British, French, and German governments, and the information he imparted in the long walks and talks which they enjoyed today reflected definitely the ideas held by both diplomats and the military element in each of the countries at war. He also disclosed the various beliefs and currents of public opinion in each country as to what might be the possible terms of peace, and the trend of public opinion toward the different peace proposals that have been brought forward from time to time in informal discussions by the press and peace organizations.

The President has been guided largely by what Col. House has reported to him by cable and letters in handling the delicate question of renewing the efforts of the United States to bring about a general acceptance of mediation. Mr. Wilson himself said last Tuesday to the Washington correspondents that no new tenders of good offices had been made to any of the warring powers, but that all foreign governments well understood the willingness of the United States to be of any service in any way possible to pave the way for an approach to peace.

One fundamental thing, the President has learned, which has affected the efforts of the United States to make peace is the unpreparedness of public opinion in some of the belligerent countries as to terms which they fear their adversaries might advance, or that are already discussed.

Col. House observed during his trip to Europe that public opinion in some of the countries was most insistent on terms which the governments of those countries already had learned in various ways would not be acceptable to their opponents. In all countries he found that there had developed among the masses a desire for a settlement that would be commensurate with the sacrifice in blood and treasure that had been made by the people. If left to the diplomatist in Europe alone a return to the territorial status quo would perhaps not be difficult, some of the information indicated.

In Germany it seemed, according to reliable information given to the President that the object of the large and influential party was to prepare public opinion for a realization of the idea that Germany's best interests lie in colonial expansion and the incidental development of overseas commerce, rather in territorial extension in Europe proper.

The question, however, which Col. House thinks likely will play a most important part in any peace negotiations is "freedom of the seas."

Neither the President nor Colonel House would make any formal statement tonight on their conference.

SASKATCHEWAN NOW ON WATER WAGON

TEMPERANCE BILL GIVEN THIRD READING LAST NIGHT BEFORE PROROGATION.

Regina, Sask., June 24.—With thumping of desks and parliamentary "cheers" the government's temperance campaign was this evening, in the dying hours of the Saskatchewan legislature session, given a third reading and is now law. The bill was given third reading after division. Division was forced by the presentation by the Opposition of an amendment declaring for a referendum on the legislation, an attitude adopted by the Opposition early in the session. The government representation voted solidly against the amendment, and the bill was passed through committee just before six o'clock.

The Lieutenant-Governor formally prorogued the House tonight.

U.S. REPLY TO GERMAN NOTE

DON'T WANT PRIZE COURT PROCEEDING IN CASE OF SINKING OF SS. FRYE.

Washington, June 24.—The reply of the United States to the last German note regarding the case of the American ship William P. Frye, sunk by the commerce raider Prinz Eitel Friedrich, was dispatched to Berlin today.

In substance the note reiterates the contention that the sinking of the Frye was in violation of international law and of the Prussian-American treaty of 1828, and asks for reparation without reference to prize court proceedings. Germany has agreed to make reparation under the treaty of 1828, but justifies the destruction of the Frye and has referred the case for a prize court.

BATH-TUB BRIDE'S CASE BEING HEARD

TESTIMONY OF LAWYERS AND DOCTORS GOES AGAINST DEFENDANT.

London, June 24.—7.10 p. m.—A bathtub reposed on the counsel table in Old Bailey today, while the prosecution enacted the death of Beatrice Mundy, one of the three wives of George Joseph Smith who stands indicted on the charge of having murdered them all to obtain their property.

It is the Crown's contention that Smith drowned them; the defense maintains that they died natural deaths due to some seizure.

Under cross-examination by the prosecution, Dr. F. A. French testified how, when summoned by the defendant, he had found the woman lying on her back in the bath, her face partly submerged. The water, he said, was clear, not soapy. Death had occurred only a few moments before his arrival.

The doctor admitted that a person of the woman's height would have had both head and shoulders out of the water if sitting in a normal position.

"Do you think it possible to drown a person in a bath if he or she is conscious," asked the counsel.

"Yes, if taken by surprise," replied the doctor. He added that there were no marks of violence on the body.

At this point a jurymen suggested that some one be put in the bath for a practical demonstration.

"When the bath is removed to your private quarters," remarked the judge, "you can put one of yourselves in it—select some jurymen about the size of the woman."

Accordingly, before the trial is concluded, it will be necessary for some jurymen to perform this service.

Dr. French related how the defendant in July 1912, then masquerading under the name of Williams, called on him shortly before Beatrice Mundy's death. He desired that she be treated for fits. The Crown contends that the defendant was thus preparing for a plausible explanation for her forthcoming demise.

Dr. French said that Smith described certain symptoms, but that his wife insisted she remembered nothing relative to fits excepting a headache.

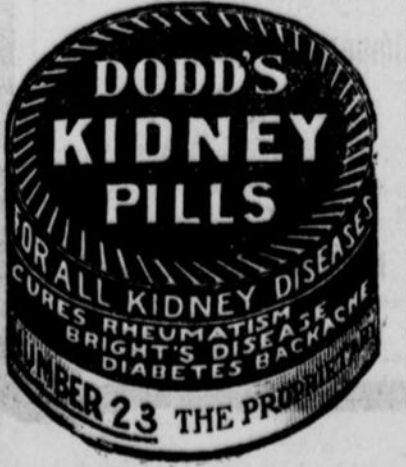

The doctor found that the woman's heart and pulse were normal and there was no evidence of the tongue having been bitten. Nevertheless he prescribed for fits. Three days later Smith summoned him by note, saying: "Come at once; I am afraid my wife is dead."

The doctor hurried to the house and found the woman dead in the bathtub. Death was due, he testified, to suffocation, although he admitted under cross-examination by the defense that he had told the coroner the woman had had an epileptic fit.

He admitted also that a person in a bath, if seized by the legs by some one seeking to submerge his head, could easily put his arms under the sides of the tub and prevent it, provided that it was not done unexpectedly.

A lawyer, testifying for the prosecution, told how Smith had sought him before the woman's death and arranged their wills, whereby everything each owned should go to the other in case of death.

The trial will be continued tomorrow.

PRINCESS PATRICIA'S.

History contains few more graphic or more stirring passages than Sir Max Aitken's narration of the story of the Princess Patricia's, that splendid Canadian regiment which, it appears, is now in danger of extinction. We are convinced it is the wish of the whole Dominion that this regiment should continue to carry on the glorious and immortal traditions which it has already accomplished since the outbreak of this great war. It should be an easy matter for Canada to recruit this regiment up to full strength once more.

A WORLD-PROBLEM.

The reading of the daily news items concerning the progress of the war is bringing the advanced thought within the nations nearer and nearer to the verdict that the said war is a case of economic insanity that can now only be checked by wearing itself out. The germ of militancy, fostered through a lack of foresight on the part of the unbalanced Hohenzollern dynasty, has infused itself, myriads strong, into our advancing civilization; and an interim exhaustion can alone save our twentieth century for better days to come. And it is but little wonder that our most astute thinkers—Celtic, Teutonic, and Anglo-Saxon alike—are beginning to turn aside from the current history of the daily disasters of the conflict, to busy their minds, as to the nature of the convalescence that is to be ours when the fever of the outbreak has spent itself. Even the German philosopher, in many cases, is rising above his national prejudices, to take part among wisdom's friends in all the nations, in denouncing the portion of lies and excuses which have been, and are being, forced upon the poor victim of fever and wrath, to keep up the inflammation of his inner and outer parts, as he traverses the trenches of the battlefield in quest of the life-blood of some one or other. And let us all hope, that the hour is at hand, when wisdom's friends may come together in safety, under the aegis of a sane statesmanship, to discuss the prospect of our civilization coming to a right kind of convalescence, when once the fever rage has really and truly exhausted itself. Are there to be further wars, or is this to be the last beginning to a query in everybody's mouth. And the world has to be made to believe that this is a last war or at least something leading away in the future from the warring that is an economic insanity. A coroner's inquest has placed Wilhelm Hohenzollern, or whatever his many other aliases be, in full view of the prisoner's cell. He is even now spoken of everywhere as "William, the Murderer"; and no matter what further outrages he may commit against our civilization, he is sure to be finally convicted by a jury of the moral forces of the world as a breeder of fevergerms undermining to the health of society and ruinous to all international confidences. And this is said of him with no desire to decry him before he be formally condemned in a court presided over by the commercial spirit and the common sense in our Christianity.

It is easy enough for any one to say that the time is not ripe for discussing the convalescence that is to come after, until the war is fought out to a finish. There is always some one near at hand to throw an objection in the way of the inauguration of any righteous movement in behalf of an advance in our civilization—always somebody with a complaint or a sneer or a laugh. The most urgent need, it is true, at the present moment is a multiplying of our reinforcements. Everybody within the limits of the British Empire has this in his eye and deep down in his heart at the present critical moment. And everybody in Canada has to mature his courage against the common enemy up to the last inch. Germany, as even, certain Germans of high intellectual standing now claim, cannot possibly save the German Emperor from final condemnation and punishment. He and his Hohenzollern militancy are doomed. And surely it is not out of the way for any one to conjecture what is to come after, when once their condemnation has been formally announced as a making of history, out of line with our Christian civilization. Let us listen therefore to all who have, or think they have, a solution of this World-Problem in their gift, to bestow upon an unwillingly suffering humanity. We have not had, nor can have enough of the present war until it has been fought out to a finish through the activity of our brave lads at the front. The Kaiser has forced us to fight and we are going to fight till the Kaiser is driven to his own place, whatever that may be. But the moral forces of our civilization cannot make pause there, at the partition line of victory. They have surely the instinct within them

to look over and beyond that boundary-line of a cruellest war brought to an end. They always have in hand, or ought to have, the regulating of the world's ethics in order to bring us into the birthright of a lasting peace; and every pulpit and every platform and every printing-press have to rally to take up with the campaign that is on the point of being inaugurated in behalf of the coming righteousness that may exalt every nation to fight against the approach of war as strenuously and as courageously as it has to fight at the present moment in a war that has been inaugurated to undermine its prowess and rob it of its liberty.

Our fellow-citizen, Dr. J. M. Harper, President of the Literary and Historical Society of Quebec, has lately been addressing Sunday public gatherings in Ontario on the above topic; and a stenographic report of his address delivered before the Empire Club on "The Gospel of Peace" will appear in our Saturday's issue. In his "War-Note or Two as a Guide to Good-Will" as well as in his "Triumph of Life" and "Problem of Problems," he has dealt with the same topic, and all of these have been widely read and commented upon throughout the Empire as well as in the United States.

A writer in a New York paper says that "Great Britain has designed and is now building an 'antidote' for submarines. These are high-speed vessels of every shallow draught which have been built to ram submarines. They are broad in the beam and have high flaring bows like the bow of a gondola, and will be used to pursue the submarines into their very bases and to drive them from the sea."

A correspondent in a contemporary refers to the fact that Alexander Dumas, the elder, twice sought French parliamentary honors, and in the course of one speech he said:—"Geographically, Prussia has the form of a serpent, and like it, she seems to be asleep, and to gather her strength in order to swallow everything around her—Denmark, Holland, Belgium—and when she shall have swallowed all that you will find that Austria will be swallowed in its turn and perhaps, alas, France also."

The Russians have lost heavily but the Germans have suffered even more. And they cannot afford to lose equality with the Russians. If Germany should now draw off an appreciable proportion of her heavy guns to use against Italy, the flexible Russian line would quickly assert itself and go forward again. On the other hand, if the Germans decide to entrench and prevent the Russians from advancing anew in Galicia, the situation would be the same as if Germany had locked up that army in a fortified city; and Russia would then devote her energies to Silesia.

PRESS COMMENT.

If the Russian armies retreat from Galicia in good order these armies will retain their power to subsequently advance in good order. The Austro-German armies depend on their system of strategic railways. The great hope of the German strategists was to get the Russian armies tangled up in the territory served by the strategic railways and destroyed, just as Von Hindenburg destroyed three Russian army corps in the Mazurian Lakes region. The withdrawal from Przemyśl and from Lemberg, the evacuation of Galicia, does not imply the realization of the Great German Hope. The Austro-German advance cannot cut loose from the railroad of its strategic lines and follow the Russian army to destruction on ground chosen by the Grand Duke Nicholas. An Austro-German army as great as that required to put the Russians out of Przemyśl, Lemberg and other parts of Galicia will be required to keep them out. The re-conquest of Galicia secures mere temporary advantage to the Austro-Germans unless the process of re-conquest be accompanied by the destruction of Russian armies and the dislocation of the Russian military machine. The Grand Duke Nicholas had to maintain an offensive and defensive campaign during the first five months of war against the strength of armies that always outnumbered the Russians by at least 500,000 men. If the Grand Duke Nicholas get his armies out of Galicia in good order and retains the power of these armies to renew the offensive, the Russian commander-in-chief will have once more proved that in the words of Buchan:—

He possesses the highest of military gifts, the power of renunciation, of "cutting loose," of sacrificing the less essential for the more.—Toronto Telegram.

The conviction of General De Wet of high treason at Bloemfontein

serves as a reminder of the comparatively rare instances of this major offence against the state of sovereignty in modern times. It likewise calls to mind the essential difference between the interpretations of treason in the two great Anglo-Saxon countries. Treachery against the throne or the state constitutes treason in Britain and her dominions. In the United States the constitution defines treason as consisting only in "levying war against the Commonwealth or in adhering to its enemies, giving them aid and comfort." It is clear that unless a state of war exists in the United States the crime of treason cannot be committed, whereas such is not the case under the British crown. The history of treason in Britain is particularly interesting as illustrating the efforts of different periods to bring the legal definition into conformity with the needs of the times. An unpreached sermon was held to convict Peachum, and a paper found in a closet to convict Algernon Sidney, though merely speculative in its character, under the definition laid down in the reign of Edward III, respecting treason against the king's person. Between the reigns of Henry IV, and Queen Mary the courts returned to the system of inventing constructive treasons, and actually included as such the clipping of money, burning houses to extort money, refusal to abjure the pope, etc. These and other equally absurd "acts of treason" were abolished by Edward VI. Under George III, some additional crimes were held to constitute treason but these are principally concerned with the personal safety of the monarch. Punishment for treason was formerly severe and even barbarous. To be hanged, drawn and quartered was the legal sentence up to 1870 and readers of Irish history in particular have learned how often this terrifying penalty was enforced in the case of the patriots working for the freedom of their country. In addition, the penalty carried the equally distressing post mortem effects of "corruption of blood and forfeiture"; this meaning that the attained person could neither inherit lands from his ancestor, nor transmit them to any heir. This also was altered by the reform of 1870 although the barbarous method of hanging traitors by the neck is still the penalty for treason. The offence of praemunire is perhaps the only form of treason with which we may concern ourselves. It was originally the introducing of a foreign power into the country and now includes similar offences. It is possible that De Wet's action has been construed as praemunire and the death sentence thus averted. It would in any event appear to have been poor policy to hang a native leader only a few short years after the ruling power had come into possession of the country by force of arms.—Ottawa Citizen.

Spreading the Fame of the Great British Specific for Rapid Fat-Reduction.

ANTIPON IN CANADA.

The burden of obesity is so distressing and so unprepossessing, and is generally so difficult to get rid of with any degree of permanence, that the introduction to Canada of the famous British Specific Antipon will be welcome in many quarters. The preparation is not unknown here already, but the obstacles in the way of its supply to the general public were necessarily great. All difficulties are now removed.

Ere the important discovery of Antipon the treatments usually employed for the reduction of weight included starvation dietary rules, sweating and purging, together with mineral drugging. All these things are weakening in the extreme, and when obstinately persisted in, ruinous to the constitution. Antipon is diametrically opposed to such drastic methods.

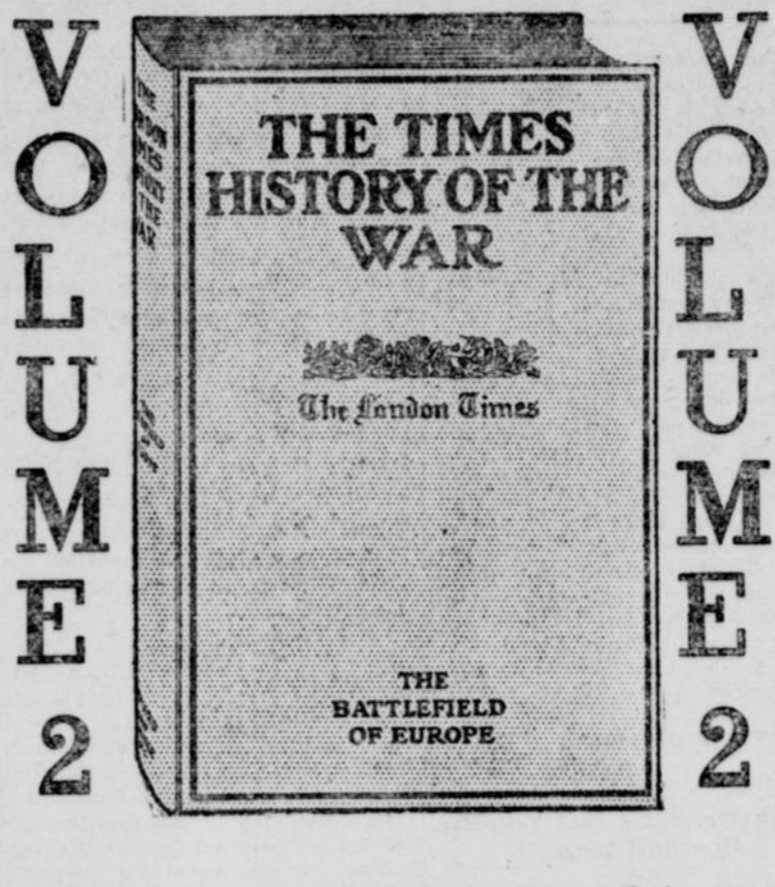

To expel the superfluous fatty matter from the system is all very well, but the body must be amply nourished at the same time. Now, Antipon not only rapidly eliminates the excess of fat, but overcomes the unfortunate tendency to "run to fat." Ample wholesome food, therefore, becomes Antipon's strength-giving ally, and there is no need to dread that the extra nourishment taken will bring about a re-development of excessive fatty tissue.

Every dose of Antipon is, a sure step in the direction of the recovery of beauty of form and vigorous nervous energy.

The decrease in weight is not a tedious process. Within twenty-four hours of the first dose there is a reduction varying, according to individual conditions, between 8 oz. to 3 lb. The scales will be the unerring recorder. The daily decrease is eminently satisfactory. When normal weight and symmetrical proportions are regained the treatment is no longer necessary.

Antipon contains only the most harmless vegetable substances in solution, the liquid being in appearance like a light red wine. It is palatable, refreshing and slightly tart, and never occasions any unpleasant reactionary effects.

### ANOTHER MIRACLE AT STE. ANNE'S

CHARLES LAPRATTE, OF BERTHIER (EN HAUT), DROPS CRUTCHES AT SHRINE.

Another miracle was added to the long list of cures at the famous shrine of Ste. Anne de Beaupre on Wednesday when Charles Lapratte, of Berthier (en haut) abandoned his crutches at the foot of the shrine and walked away completely cured.

Mr. Lapratte, it appears, was the victim of a serious accident about a year ago in which he had both feet so badly crushed that he was unable to move about without the aid of crutches. His case was a practically hopeless one as medical science seemed to give him no relief, and as a last resort he decided to make a pilgrimage to Ste. Anne de Beaupre.

On Wednesday he limped up the altar railing at Ste. Anne's and after having received Holy Communion he knelt in thanksgiving before the Shrine. To the astonishment of all about him he was suddenly seen to rise and dropping his crutches he walked away completely cured.

This is the first miracle reported from the Shrine this season.

### SIGNAL HONOR FOR QUEBEC LADIES

REGENT OF STADACONA CHAPTER APPOINTED TO NATIONAL CHAPTER.

The Stadacona Chapter, Daughters of the Empire, at a meeting held at Morris College Hill yesterday morning voted the sum of \$25 to the Quebec Khaki Club and a similar amount to the proposed Khaki Club at Valcartier. The question of assisting the soldiers at the front with donations of tobacco and cigarettes was also discussed, but it is not decided as yet whether the subscription will be forwarded to the Chronicle Tobacco Fund or sent separately.

Letters were read from Col. Macdonald, commander of the Strathcona Horse, in France, and also from Major Roy, of the R. C. A., thanking the Chapter for the gift of socks, games, tobacco, etc.

In the correspondence was a letter from Toronto announcing that Mrs. McLimont, the Regent of Stadacona Chapter, had been chosen a member of the Executive Council of the National Chapter of the Daughters of the Empire. The members of the local Chapter are naturally delighted at the signal honor conferred on their Regent.

Mrs. A. de L. Panet, the energetic Secretary of the Chapter, who is shortly to leave Quebec to take up her residence in Toronto, tendered her resignation from office at the meeting yesterday. Regret on losing such an earnest worker is felt by the members who passed a vote of thanks in consideration of what the retiring Secretary has done for the branch in this city. Mrs. G. B. S. Young has been chosen to succeed Mrs. Panet as Secretary.

### PATRIOTIC OFFER OF MONTMAGNY LAWYER

Mr. Aime M. Dechene Places His Manoir At Disposal of Red Cross.

Mr. Aime M. Dechene, Advocate of Montmagny, has made a patriotic offer to the Red Cross Society in placing his splendid manoir at St. Roch des Aulnaies, L'Islet County, at the disposal of the Society as a Convalescent Home for wounded soldiers. This superb property, which was the summer residence of the late Senator Dechene, is beautifully situated on the St. Lawrence River, and is surrounded by charming grounds, which include a Maple Grove, apple and plum orchards and spacious avenues and walks.

### MARGUERITE CLARK AT G. A. GARDENS.

Powerful Photo Dramas For the Week-End.

Friday and Saturday the powerful and heart gripping drama of The Crucible, by Mark Lee Luther will be shown in five enchanting reels, featuring dainty Marguerite Clark. A story of tense breathless moments showing the portrayal of a soul's ordeal in the melting pot of suffering from which fiery furnace it emerges unscathed and strengthened by its agonies. Miss Clark plays the part of little Jean Fanshawe, at first hoyden and tomboy unjustly condemned to a reformatory, who later triumphs over the shame of her imprisonment and the sordid corruptness of her environment returning good for evil to those who worked havoc with her life and later how she regains her own love, and is rewarded for her long struggle against evil and despair which are vividly unfolded in this unusually strong photo-play. The usual very popular Strand War series will be shown together with a very laughable comedy. Week commencing June 28th Quebecers will have the pleasure of seeing one of the two best photo-plays little Mary Pickford ever played in, i.e. The Dawn of a Tomorrow which is more than a mere triumph. Mr. Dave Parks the baritone vocalist will commence his engagement on Monday evening, also Mr. Parks, who has an excellent voice will render popular war songs etc., during his engagement at the Gardens. Grande Allee Gardens has set a new standard in Motion Pictures in Quebec, because they are contrived from master stories, by master directors and played by master players. Success and Reputation are the natural results that follow.

### OFF TO SAN FRANCISCO.

Non-Militant Suffragist Going to the Peace Conference.

New York, June 24—Mrs. Phillip Snowden, a non-militant suffragist, who is the wife of the senior member of parliament for Blackburn, Lancashire, arrived here today on the steamship Adriatic from Liverpool. Mrs. Snowden said she is going to San Francisco as a delegate to the International Woman's Peace Conference, which convenes July 4. She said that she will represent four organizations of England—the Independent Labor party, the Woman's Co-Operative Guild, the Union of Democratic Control, and the British Committee of the International Woman's Congress. These organizations, she added, have an aggregate membership of about 80,000.

## TOBACCO FUND NOW REACHES \$431

CHRONICLE'S APPEAL FOR SOLDIERS MEETING WITH GENEROUS RESPONSE.

The Chronicle's Tobacco Fund is meeting with popular encouragement, as will be noted by the list of pro-patient citizens who have generously contributed to it.

It was a happy thought that prompted the Chronicle to inaugurate this subscription and the manner in which it being supported by citizens in general proves beyond all doubt that citizens are anxious to do what they can to improve the lot of our boys at the front who have immortalized Canadian valor in the eyes of the whole world.

During the battle the soldier, thanks to a merciful compensation of Nature, is so keyed up to action that he fails to realize the appalling character of the drama which is being enacted around him. It is after the battle that this realization strikes him in all its terrible entirety. That is the moment when a pipeful of tobacco or a cigarette is a real solace to him and helps incalculably in soothing his well-nigh shattered nerves.

Thanks to the generous response with which the Chronicle's appeal has been greeted the fund has now reached the handsome sum of \$431.00.

Details with regard to the purchase and distribution of the tobacco will be published in these columns within the next few days.

### Dogs Wanted.

The French military authorities have issued an appeal for the gift of as many dogs as possible suitable for keeping sentries company and helping them to be on the alert. Sheep dogs or similar breeds are particularly asked for. If necessary, adds the appeal, the dogs will be considered as lent, and after the war will be returned to their owners, "if circumstances permit."

YESTERDAY'S RACES WERE CANCELLED

RAIN MARRED AFTERNOON'S SPORT—BIG MEETING FOR NEXT JULY.

Owing to the rain and the heavy condition of the track, the card arranged for yesterday afternoon at the Exhibition Grounds track had to be cancelled and the Quebec Trotting Association has decided not to hold any more races here until the month of July...

Mr. J. M. Landry, the Secretary and administrator of the Association, to whose energetic work the success of the recent races is due, will leave shortly for St. Hyacinthe, Three Rivers, and other points to arrange for a meeting in July, which will include three days' sport for Quebec.

Sporting Notes

Emmets will practice this evening.

There will be a large crowd on hand to witness Alfie Lynch do a come-back stunt against Young Ketchell, before the Victoria Club.

The 8th R. R. Baseball Club hereby challenge the Maple Leafs to a game to be played at St. Joseph de Levis, Sunday next. A reply through these columns is solicited.

The Montmorency team which will play the R. C. E. at Fort Martiniere in a scheduled game of the local football league will be chosen from the following: Mills, Reid, Martin, Barnes, Campbell, Graham, Pink, Warner, Elletts, Gutteridge, Duddy, McCooey, Zeller, Lovett, Hart, Shell. Players will meet at the Levis ferry at 2.00 p.m. Saturday.

Mr. C. M. Pike will referee the game at the Fort, and Mr. H. Slater will referee the fixture between the 8th R. R. and Quebec Rovers, which will be played on the Exhibition Grounds.

The Boston American says that Mr. Sam Lichtenhein, owner of the Montreal Club of the International League, is in Boston. The International League is not enjoying what may be called an easy financial season.

"What brings you to Boston?" inquired a friend of Lichtenhein at Fenway Park, yesterday. "Oh, I just dropped in to have a laugh. There's nothing to laugh at in our league."

Hans Wagner made his hundredth home run of his career in the major leagues the other day. Wagner made his first home run in the big show with Louisville, of the National League, in 1897. His total number of hits to date is 3131.

Ty Cobb was caught napping off first for Detroit in a close game, the Georgia peach's slumber costing the Tigers the game.

Billy Jacobs will referee the bouts at the Victoria Club, Wednesday next. Jacobs understands the game thoroughly, and everything goes off very smoothly when he is the third man in the ring.

Acquin, who played for Emmets last Sunday against Levis, appears to be another find. Emmets have certainly got together an effective team.

Gone and maybe forgotten.—Jack Johnson and Billy Sunday.

A Montreal golfer has this to say about the new links of the Quebec club at the Falls:

Albert Murray, the well-known local golfer, has just returned from Quebec where he has been laying out a new eighteen hole golf course for the Quebec Golf Club.

Mr. Murray said this morning that the new Quebec Club which would comprise and area of between 85 and 95 acres, would be one of the best in Canada, and was such as would test the skill of the best golfers in this country.

The new course will be on the Montmorency river, just behind the old Kent House, and will be within eighteen or twenty minutes car ride from the city. The turf, Mr. Murray says, could not be better, the property having been used for years as a pasture land without the sod ever having been broken.

The links of the old Quebec Golf Club, one of the oldest golf clubs in the Dominion, although a portion is still in existence, have been greatly reduced, and with rifle factories, ammunition factories, barbed wire fences and sentinels scattered all over the course it resembles a battle field more than a golf course.

IN CAMP AT PYRAMIDS.

Australians and New Zealanders Are Splendid Lot of Felows.

In a letter from Cairo a tourist says:

"This city has never been so interesting. The streets are crowded with Australian and New Zealand soldiers, the finest looking men I have ever seen. Many of the ordinary soldiers have incomes of from \$25,000 to \$50,000 a year, and have enlisted as privates. It is strange to see these men in their khaki uniforms lunching at Shepherd's Grill Room, the most expensive restaurant in Cairo, dining at the fashionable hotels, and dancing at the Saturday night ball given at the Continental.

"Those from Queensland have sand colored sombreros caught up on one side with a large cascade of emu feathers; other sombreros are trimmed with fur, etc. It is rather funny to hear one of these good natured, unspoiled men say 'Thank you very much' to an Arab gamin who has given him back change for something he has bought.

"One rich man, a sergeant at Abassia, who was told to appear before the lieutenant of his regiment, and when he did so found that his superior officer was the chauffeur whom he had employed in Australia at \$12.50 a week. The democracy of the Australian continent amazes strangers, as the officers do not hold aloof from the men in the way they do in other countries.

"The most marvellous sight of all is the new city that has sprung up at the base of the Pyramids, behind the Mena House. I could hardly believe my eyes. Here is a tinned city of over twenty thousand. Mararam roads have been laid in the sand,

CORPORATION OF QUEBEC... City Engineer's Office.

Tenders for Paving and Laying Curb in Certain Streets of the City.

CITY HALL. Quebec, 25th May, 1915.

Public notice is hereby given that sealed tenders endorsed "Tenders for Street Paving" with the following guarantee:

Granite... 2 years. Scoria Blocks... 2 years. Sheet Asphalt... 5 years. Compressed concrete... 5 years. Asphalt Blocks... 5 years. Other pavings... 5 years.

The contractor for any street, will furnish and lay the curb required for said street, which curb will be 9" x 12" of Terrebonne or St. Alban's stone, or granite, laid on a concrete foundation; which the City will allow \$1.00 a lineal foot.

Tenders must be made on the printed blank forms, and endorsed in the printed envelopes, which will be furnished to intending contractors, on application for the same at the City Engineer's office, and the Road Committee will not entertain any tender that is not made on the said blank forms and enclosed in the said envelopes.

Tenders must be endorsed on the outside of the envelopes, with a certificate from the City Treasurer of the necessary deposit as security for the contract.

Each tender shall be subscribed to by two responsible parties willing to secure the execution of the contract.

Each tenderer shall deposit in the hands of the City Treasurer an accepted cheque equal to 5% of the amount of his tender, to be confiscated by any one refusing to sign the contract, returned to non-contractors and retained to the contractor until the signing of the contract.

The City will withhold on each estimate twenty per cent, which twenty per cent. will be paid: 10% at the acceptance of the works by the Engineer, and 10% at the expiration of the period of guarantee exacted by the City.

The Corporation does not bind itself to accept the lowest or even any of the tenders.

The contractor to pay for drawing up the contract, and supply the City Engineer with a certified copy thereof.

BY-LAW No. 10.

Concerning the Assessment of Assessable Property, in the City of Quebec, and to amend By-law No. 2-B, Concerning the School Tax.

(Drawn up in the French Language.)

At a meeting of the Municipal Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the twenty-third day of April, one thousand nine hundred and fifteen (1915), in conformity to law, and in virtue of a By-law passed by this Council pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting were present two-thirds of the members composing the Council of the City of Quebec, that is to say: His Worship the Mayor Aldermen Bouchard, Cannon, Cote, Dinan, Dussault, Emond, Galibou, Garant, Gauthier, Lantier, Lavigne, Lockwell, Madde, Martin, Paquet, Verret, Walling.

It is hereby ordained and enacted by the Municipal Council of the City of Quebec as follows, to wit:

1. Article 5 of the By-law No. 2-B, is replaced by the following:

"A tax of three tenths (3-10) of one per cent of the real value annually assessed upon immovable property belonging to proprietors of the Roman Catholic faith in this City is hereby imposed and shall be levied upon the said immovable property, in order to collect the sums payable each year by the City of Quebec, to the Board of Catholic School Commissioners for the maintenance of the Catholic school in this city, in conformity with the law."

A tax of four-tenths (4-10) of one per cent of the real value annually assessed upon immovable property belonging to proprietors of the Protestant faith in this City, is hereby imposed and shall be levied upon the said immovable property, in order to collect the sums payable, each year by the City of Quebec to the Board of Protestant School Commissioners for the maintenance of Protestant schools in this City, in conformity with the law."

SAVED HIS REPUTATION.

Curious Experience of a White Man in Central Africa.

The arrival of a strange white man in any of the villages in central Africa is quite an exciting event. Speaking of his personal experiences in this respect in his book, "Among the Primitive Bakongo," Mr. John H. Weeks says:

"Every one passed remarks on my personal appearance and selected my physical peculiarities for special attention. There were allusions to my youthful appearance, to my neck and nose and absence of beard. Of course I was unable to understand them, but my colleagues were only too delighted to give a very literal translation of the observations none too quietly passed by the facetious onlookers."

"The town was agog with excitement. There was bartering for food, the haggling about the price of the cassava, the plantain, or the peanuts offered for sale and the worth of the trade goods offered in exchange; the interchange of news, but the greatest of all interest to the local natives centered on the white man. The inhabitants of the village formed a semicircle round his newly borrowed hut and watched his every movement. He strips off his jacket, turns down his collar round his neck and rolls up his shirt sleeves preparatory to a wash, and there are audible remarks about the whiteness of his skin. They eye him critically at his toilet."

"What is that stuff he is rubbing on his hands?" asks one ignoramus. "That," replies a much traveled man, "is what they call soap. See what a lather it makes! And there is much amused contempt in his tones as he gives the bit of information to the untraveled folk in his village."

"The ablutions are finished, and the white man is now drying himself, and while two or three spectators are passing remarks on the using of so good a cloth—towel—for such a purpose a woman on the outside of the crowd asks: "Is that all he is going to wash? Why, we wash all over!"

"And there is disdain mingled with disappointment as she puts the question and a suggestion that the white man is not as clean as he might be. The white man's boy does not like the query in the tone, and as his honor is bound up with his master's he informs the crowd generally that his master bathes regularly in his own town. The woman is answered and the public receives an interesting bit of information, which by and by is distributed among the neighboring villages. The white man's reputation for cleanliness is saved."

A Bit of Nerve. A short time ago a man was charged in Glasgow with stealing a herring barrel. After the charge had been proved the principal accuser thus addressed the magistrate: "Deed, Sir Baillie, the man at the bah is a great rogue. The stealing of the barrel is nothing to some of his tricks. He stole my signboard last week, and what does your honor think he did wi'?" "That would be hard for me to say," replied the judge. "Weel, sir, I'll tell ye," said the witness. "He brought it into my ain shop wi' my ain name on't, and offered to sell me't, as he thought it would be o' mair use to me than onybody else."—Glasgow News.

Gladstone's Advice. That Mr. Gladstone considered life a "serious business" is shown by the following extracts from a little paper of advice written to one of his sons at Oxford. To keep a short journal of principal employments in each day; most valuable as an account book of the all-important gift of Time. To keep also an account book of receipts and expenditure; and the least troublesome way of keeping it is to keep it with care. This done in early life, and carefully done, creates the habit of performing the great duty of keeping our expenditure (and therefore our desires) within our means. Establish a minimum number of hours in the day for study, say seven at present, and do not without reasonable cause let it be less; noting down against yourself the days of exception. There should always be a minimum number for the vacations, which at Oxford are extremely long.

**TIMBER REGULATIONS.**  
 GOVERNING Timber on Dominion Lands in Manitoba, Saskatchewan, Alberta, and the North West Territories, the Railway Belt in the Province of British Columbia, and the Three and a Half Million Acres Located by the Government of the Dominion in the Peace River District in British Columbia.

**Licenses.**  
 A license to cut timber on a tract not exceeding twenty-five square miles in extent may be acquired only at public auction. A rental of \$5 per square mile, per annum, is charged on all timber berths excepting those situated west of Yale, in the Province of British Columbia, on which the rental is at the rate of 5 cents per acre. In addition to rental, dues are charged on the timber cut at the rates set out in section 20 of the regulations.

**Timber Permits and Dues.**  
 Permits may be gained in the Provinces of Manitoba, Saskatchewan and Alberta, to owners of portable saw-mills, to cut over a definitely described tract of land not exceeding one square mile in extent, on payment of dues at the rate of 30 cents per thousand feet, B.M., and subject to payment of rental at the rate of \$100 per square mile per annum.

**Timber for Homesteaders.**  
 Any occupant of a homestead quarter-section having no timber of his own suitable for the purpose may, provided he has not previously been granted free allowance of timber, obtain a free permit to cut the quantity of building and fencing timber set out in Section 51 of the Regulations.

**Synopsis of Canadian Northwest Land Regulations.**  
 THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-agency), on certain conditions.  
 Duties: Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead, on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.  
 In certain districts a homesteader in good standing may pre-empt a quarter section (longside his homestead). Price \$3.00 per acre.  
 Duties: Six months residence in each of three years after earning homestead patent, also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.  
 A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre.  
 Duties: Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.  
 The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

**S.S. ROMNEY IS STILL ASHORE**

**SS. LORD STRATHCONA WILL ASSIST IN FLOATING OF STRANDED VESSEL.**

Up to a late hour last night the S.S. Romney, of the Elder-Dempster Line was still ashore off the Green Island whether she ran in a dense fog early yesterday morning. Although the vessel is not reported to be in any great danger, the S.S. Lady Evelyn, a mail tender at Rimouski Wharf, which went to the assistance of the Romney early, is still endeavoring to float the stranded vessel.  
 The Steamer Lord Strathcona left last evening for Green Island, which is about 100 miles below Quebec, to assist the Lady Evelyn in an effort to pull the liner into deep water again. The S.S. Romney was bound for Montreal with a general cargo.

**RAILWAY MILK SERVICE.**  
 Average Milk Can on Cars One Hour—Supervision Must Go Further.

The problem of milk supply in large cities is one of ever-increasing importance, and as soon as the warm weather begins Montreal has its agitation for better control over production and sale of this vital food product. The natural tendency of many reformers is on all occasions to hit blindly at the railways, but in this question of milk the railways have themselves always readily co-operated in any practical proposal to secure a pure milk supply. In his report on the milk supply of New York City, Commissioner Lederle pays his tribute to the help given by the railways, and in Montreal, both the C. P. R. and Grand Trunk have urged a more adequate organization for the protection of milk.

As, however, the average time spent by a milk can in a railway car is just one hour, whereas the time between the milking of the cow and the delivery to the customer may be as much as thirty-six hours, the responsibility and authority of the railway is comparatively small, and it has been found that the inspection and supervision must be carried right to the farm itself where the physical condition of the cow, the stables, the farm hands, the farm water supply have an important bearing on the bacteriological content of the milk. Moreover, if the milk is not quickly cooled directly after being drawn from the cow, the bacteria increase with enormous rapidity, which no amount of careful handling in transit can counteract.

The creameries must also be subjected to close supervision. In 1905, where 500 creameries were inspected the drainage was found to be almost universally defective and the milk inadequately protected against dust and dirt. At the city end, inspection must be more rapid still, for the purest milk may be poisoned by the atmosphere in which it is dispensed at the corner grocery, etc.

New York gets its supply of milk from 44,000 farms outside the city limits and drinks each day 2,500,000 quarts supplied by 350,000 cows which are shipped from 1,100 creameries over 11 railroads, the shortest haul being 50 miles and the longest 425. The milk reaches the city at 15 different terminals, is delivered by 5,500 wagons, and dispersed at 14,000 stores, over 127,000 persons being engaged in its production and distribution. New York City has now 36 milk inspectors, of whom half are assigned to country districts and half to the inspection of stores, wagons and other premises in the city. All milk sold is carefully graded and dated so that in the event of an epidemic the source of infection can be readily detected. It is a criminal offence in New York to sell milk at a temperature above 50 degrees.

COMMERCIAL NEWS

NEW YORK MARKET.

(Canadian Press). New York, June 24—Unmistakable signs of liquidation, mainly for foreign interests, was the conspicuous feature of today's weak stock market.

The movement began at the outset and gathered greater force with the progress of the session, there being at best only intermittent or feeble rallies. Canadian Pacific and United States Rubber were persistently sold.

More or less circumstantial reports dealing with the dividend prospects were mainly the cause of their weakness. Canadian Pacific's position in this regard has long been the subject of much speculation, and doubt as to the maintenance of the rubber disbursement was heightened by a cautious statement of its president.

Next to United States Steel, dealings in rubber were the largest of any issue, today's sales of 47,000 shares exceeding the total sales of that stock for many days. Steel held fairly steady in the face of constant pressure until the final hour, when it receded a point from yesterday's close.

Imports of gold from Canada were resumed, another \$2,500,000 being received, making a total of \$50,000,000 from that source since the early part of May. Exchange on London was again firm, but Paris checks repeated yesterday's low rate of 5.49.

Foreign selling again contributed to the heavy tone of the bond market. Total sales, par value, aggregated \$2,595,000.

CLOSING MARKET LETTERS

By private wire to Breen & Gourdeau, Stock Brokers, 63 St. Peter Street, and 6 Sault-au-Matelot, Phone 185.

New York, June 24—In the absence of aggressive buying power, floor traders took every advantage possible today to depress prices in the stock market, and as a result of their efforts, fell with a moderate degree of success.

Chicago, June 24—Wheat: Firmer cables and rains over the south-west caused our wheat market to open higher. A sharp advance in northwestern markets, Winnipeg, at one time advancing 9¢ over yesterday's close, caused sympathetic strength here.

Corn—An early advance in corn was lost, due to the decline in wheat and to the report of another purchase of Argentine corn by New York interests.

Oats—Local crop expert issued a report, predicting a acreage of 100,000,000 and indicating a crop equalling that of 1912, which induced heavy selling of oats. A revival of seaboard demand was reported near the close.

Wheat: Open, High, Low, Close. July 105 105 1/2 103 1/2 103 1/2 bid. Sept 102 1/2 103 1/2 101 101 bid. Dec 105 1/2 106 1/2 104 1/2 104 1/2 bid.

**A HUNDRED YEARS AGO TODAY**

**St. Jean Baptiste.**  
Our French Canadian fellow citizens yesterday 30 years ago celebrated their natal day, the display was particularly pleasing, and the weather, though a little cold in the early part of the morning, turned out pleasant enough and the procession through the streets was a grand success. In the Church the addresses were patriotic, spirited and in admirable taste.

**Chief Dorval Meets Accident.**  
During the procession of the Society, Chief Dorval of the City Fire Brigade who was in the lead, on horseback met with an accident, when from cause his horse reared and threw the chief to the ground and rolled over him. Fortunately Mr. Dorval had no bones broken. He was picked up and carried home and medical aid summoned, his place in leading the procession being subsequently taken up by Deputy Chief Colman. We understand that the Chief will soon be on deck again.

**St. John the Baptist and Masonry.**  
Whatever may be the connection between St. John the Baptist and Freemasonry we do not know. In these columns 30 years ago we learn that the 24th of June having been the festival of St. John the Baptist, the annual installation of officers was held at Tuscan Lodge A. F. and A. M. Levis. The ceremony of installation was performed by a well-known D. D. G. M. from Quebec. After the ceremony the visiting brethren were subsequently entertained by Tuscan Lodge to a recherche dinner.

**The Balloon Ascension.**  
There was a balloon ascension in the afternoon, but not according to the programme, the high wind rendered the experiment too hazardous. In the afternoon however the balloon escaped from its moorings and sailed peacefully away in the direction of Levis, where later it was recovered in a dilapidated condition. The manager believes that the ropes were maliciously cut.

**DUNKIRK SUBJECTED TO A HEAVY FIRE**

**SEVERAL CIVILIANS WERE KILLED BUT NOT SINGLE SHELL REACHED FORT.**

Dunkirk, France, June 23—Via Paris, June 24—2.20 p.m.—Thirty tons of explosives and metal were fired into Dunkirk yesterday from the German positions somewhere behind Dixmude. Several civilians were killed or wounded and considerable material damage was done, but not a single shell reached the port or any other point of military importance. The impressions on the inhabitants differed in no way from that made by preceding bombardments, and the first trains out of the city today carried no more than the usual number of travellers.

The first shell struck in the city at the break of dawn and others followed at intervals of 25 minutes until a quarter past six in the evening. They came without warning for, though, Dunkirk constantly hears the guns of the Allies along the Belgian front, no sound comes from the monster weapon that hurls these 16-inch shells from a spot more than 20 miles distant. The shriek of the shell gives no warning of the missiles coming as the noise is heard only in the last 200 yards of flight and almost simultaneously comes an explosion that makes the earth tremble.

Scarcely had the smoke of the first shell lifted when red-colored notices reading "refuge in case of alarm" began to appear on the fronts of buildings having cellars safe from the shell fire. Many people, hastily clad, hurried to these shelters. Still more ran in the direction of the explosion hoping to aid the victims. Whenever one of these monster missiles falls, however, the work of rescuers is reduced to a minimum, as the destruction of the shell works in the immediate vicinity is nearly complete. The streets were strewn in many places with broken plate glass, crushed paving stones and other debris before the work of clearing away began.

In the intervals of this fifteen-hour bombardment melancholy calm prevailed in the city. There was little excitement at any time and no panic whatever. When the fire was over the streets resumed their ordinary war-time aspect, and among the throngs who went about their affairs in neither haste nor confusion, street arabs swarmed about stricken spots hunting fragments of shells to sell to passers-by. The electric current was cut off in the city, but gas could be burned as usual. Persons who had sought the cellar refuges came out before morning to the sound of violent cannonading from the Allies front that had continued all night.

**A German Proclamation.**  
We and our allies, attended by victory, conquered the capital of our enemy, our banners waved in Paris; Napoleon abdicated his authority Liberty was restored to Germany, security to thrones, and to the world the hope of a durable peace. This hope has vanished we must again march to the combat. A perfidious conspiracy has brought back to France the man who, for ten years together, brought down upon the world unutterable miseries. The people confounded, have not been able to oppose his armed adherents. Though he himself, while still at the head of a considerable armed force, declared his abdication to be a voluntary sacrifice to the repose and happiness of France; he now egads this like every other convention, as nothing, (the scrap of paper was not coined in these days). He at the head of perjured soldiers, who desire to render war eternal. Europe is again threatened; it cannot suffer the man to remain on the throne of France who loudly proclaimed universal empire to be the object of his continually renewed wars, who, confounded all moral principles by his continued breach of faith, and who can therefore give the world no security for his peaceable intentions.

Again, therefore arise to the combat! France itself wants our aid, and all Europe is allied with us. United with your ancient companions in victory, reinforced by the accession of new brethren in arms, you go, brave Prussians to a just war with me, with the Princes of my family, with the Generals who have led you to victory. The justice of the cause we defend will insure us the victory. Thus united with all Europe in Arms, we again enter the lists against Napoleon Bonaparte, arise then, with God for your support, for your King and country.

**FREDERICK WILLIAMS.**

**THE LIGHTER SIDE.**

A stranded but still haughty "leading lady" was obliged to put up at a dilapidated country hotel. She glanced frowningly about the office, reluctantly signed the register, and took the brass key from the proprietress.

"Is there water in my room?" she demanded.

"Why, there was," replied the proprietress. "There was, but I had the roof fixed."

This thing called trouble is a curious biz; Its distribution isn't so unfair. Each mortal thinks that he has all there is.

Yet there's enough for each and some to spare.

An Irishman was on his first visit to London. Passing through a back street he was gazing up at the houses in apparent wonder. A wag looking down from a window spied Pat and shouted:

"Hello, there, Pat! You seem to be astonished a he size of these houses; why they are only stables compared with the grand ones in the principal streets."

"I was thinking they were stables," remarked Pat, dryly, "when I saw the donkey's head at the window."

"I fear that young man to whom I gave a job in the store last week is crooked."

"You should not judge by appearance."

"I am judging by disappearances in this case."

What if it should turn out at last that the reason the war did not end long ago is the same reason as that which prolonged the famous fight between Rafferty and O'Hanlon? "I was many years ago, but 'tis still good."

Rafferty and O'Hanlon had been spoiling for a fight for a long time, and when they came to it at last, it was agreed that it should be whatever the Irish is for a loutance—no quarter given or expected. As Rafferty put it:

"We'll fight till one of us says 'Sufficient!'"

So they went at it, and 'twas some fight. They tell of it now to the great-grandchildren. They were both at the end of their endurance, feebly slapping and pushing, when Rafferty gasped out: "Sufficient!"

"For the love of St. Patrick!" whispered O'Hanlon, "I've been tryin' to think of that word for an hour."

KEEP YOUR MONEY AT HOME BY PURCHASING A CANADIAN MADE PRODUCT WHICH IS SUPERIOR.

There is one side of **CLAIRE FONTAINE** enterprise which every man and woman in Canada may help to develop, and you can do so by helping to promote the sale of Claire Fontaine bottled mineral water.

As everyone knows, most of the fashionable table waters now consumed in this country are of foreign production or bear a foreign name. **CLAIRE FONTAINE** is better than any of them, and it is also—absolutely Canadian. As a mixer with wines, whisky, mild beefessence etc, it has no equal.

You can insist upon having it with your next glass of wine or whisky and by fighting the battle of the Allies and Canada's trade help towards the defeat of the enemy.

Here is a comparative analysis (official report) of some of the leading waters of the world. Number of grains per Imperial gallon.

Claire Fontaine, (Canadian) 75.93, Vichy (French) 36,798. Apollinaris (German) 25.52, Aix la Chappelle (German) 54.67, White Rock (American) 37.06, Radnor (Canadian) 20,899.

This analysis proves most conclusively that "Claire Fontaine" water supplies a table water of first merit, which, as far as component parts are concerned, beats any other table water.

The peculiarity of the water is, that it contains so much and is absolutely tasteless, colorless odorless and perfectly transparent.

Once you make use of it for a short time, we are certain you will never be without it in your home. Please do not class it as a luxury, as after a while you will perceive it a necessity by the good effect it will have in cases of failing appetite, habitual constipation, and flatulent dyspepsia which often occasions congestion in the region of the head. In cases of kidney trouble its effect is wonderful.

It is advisable to take regularly every day from one to four glasses, according to the state of the health, it should always be taken in the morning on an empty stomach, and at right going to bed.

The great volume of liquid which specially freights ladies, for from being a disadvantage is an advantage. As a matter of fact, the water only traverses the alimentary canal where it acts as an antiseptic which, stimulating movements of the intestines and the sanguinary vessels, while strengthening the digestive power of those in good health as well as those who are ailing.

As a proof of our faith in the water, we will undertake to supply you for one month with the water, and at end of month you see it has not done you some good why, you don't pay us for what you got. Now we ask you is there anything fairer.

The water is taken from our artesian spring bored 271 feet deep through solid rock, the temperature of the water as it comes to the surface is 43 degrees.

Ask your grocer or dealer for it. **BUT BEWARE** of the fake substitutes that are offered. Insist on Claire Fontaine.

**ELAINE ESCAPES UNHARMED AGAIN**

"The Vanishing Jewels", the third episode of the "Exploits of Elaine" which will be shown today and tomorrow at the Olympia are the story of a very daring robbery accomplished by artists of the "trade", but Craig Kennedy comes in time and by his masterly way of preventing any harm to be done to persons he is protecting he gives this powerful drama a happy denouement that send the patrons satisfied that the heroine has escaped once more.

Very amusing comedies will also be shown with this feature of the Famous Pathe Exchange.

**THE FUNNIEST ACT IN THE BUSINESS**

To keep the audience in a constant roar of laughing during more than fifteen minutes is a stunt that very few acts in the vaudeville line have accomplished, but "The Luggage Smashers" can say with pride that they have earned that reputation of delivering a car load of laughs in their turn which is booked for the Auditorium next week.

"Mallia-Bart Company" are the hit of the season this week at Sohmer Park, playing with acts like Ashai, the best attraction the Auditorium has had in years and this alone should be enough to convince everybody that they have one of the best comedy acts if not the best in vaudeville. Four other highclass vaudeville acts will be on the same programme. The prices will remain the same.

**HELP THE ALLIES TO WIN WAR**

KEEP YOUR MONEY AT HOME BY PURCHASING A CANADIAN MADE PRODUCT WHICH IS SUPERIOR.

There is one side of **CLAIRE FONTAINE** enterprise which every man and woman in Canada may help to develop, and you can do so by helping to promote the sale of Claire Fontaine bottled mineral water.

As everyone knows, most of the fashionable table waters now consumed in this country are of foreign production or bear a foreign name. **CLAIRE FONTAINE** is better than any of them, and it is also—absolutely Canadian. As a mixer with wines, whisky, mild beefessence etc, it has no equal.

You can insist upon having it with your next glass of wine or whisky and by fighting the battle of the Allies and Canada's trade help towards the defeat of the enemy.

Here is a comparative analysis (official report) of some of the leading waters of the world. Number of grains per Imperial gallon.

Claire Fontaine, (Canadian) 75.93, Vichy (French) 36,798. Apollinaris (German) 25.52, Aix la Chappelle (German) 54.67, White Rock (American) 37.06, Radnor (Canadian) 20,899.

This analysis proves most conclusively that "Claire Fontaine" water supplies a table water of first merit, which, as far as component parts are concerned, beats any other table water.

The peculiarity of the water is, that it contains so much and is absolutely tasteless, colorless odorless and perfectly transparent.

Once you make use of it for a short time, we are certain you will never be without it in your home. Please do not class it as a luxury, as after a while you will perceive it a necessity by the good effect it will have in cases of failing appetite, habitual constipation, and flatulent dyspepsia which often occasions congestion in the region of the head. In cases of kidney trouble its effect is wonderful.

It is advisable to take regularly every day from one to four glasses, according to the state of the health, it should always be taken in the morning on an empty stomach, and at right going to bed.

The great volume of liquid which specially freights ladies, for from being a disadvantage is an advantage. As a matter of fact, the water only traverses the alimentary canal where it acts as an antiseptic which, stimulating movements of the intestines and the sanguinary vessels, while strengthening the digestive power of those in good health as well as those who are ailing.

As a proof of our faith in the water, we will undertake to supply you for one month with the water, and at end of month you see it has not done you some good why, you don't pay us for what you got. Now we ask you is there anything fairer.

The water is taken from our artesian spring bored 271 feet deep through solid rock, the temperature of the water as it comes to the surface is 43 degrees.

Ask your grocer or dealer for it. **BUT BEWARE** of the fake substitutes that are offered. Insist on Claire Fontaine.

**ELAINE ESCAPES UNHARMED AGAIN**

"The Vanishing Jewels", the third episode of the "Exploits of Elaine" which will be shown today and tomorrow at the Olympia are the story of a very daring robbery accomplished by artists of the "trade", but Craig Kennedy comes in time and by his masterly way of preventing any harm to be done to persons he is protecting he gives this powerful drama a happy denouement that send the patrons satisfied that the heroine has escaped once more.

Very amusing comedies will also be shown with this feature of the Famous Pathe Exchange.

**THE FUNNIEST ACT IN THE BUSINESS**

To keep the audience in a constant roar of laughing during more than fifteen minutes is a stunt that very few acts in the vaudeville line have accomplished, but "The Luggage Smashers" can say with pride that they have earned that reputation of delivering a car load of laughs in their turn which is booked for the Auditorium next week.

"Mallia-Bart Company" are the hit of the season this week at Sohmer Park, playing with acts like Ashai, the best attraction the Auditorium has had in years and this alone should be enough to convince everybody that they have one of the best comedy acts if not the best in vaudeville. Four other highclass vaudeville acts will be on the same programme. The prices will remain the same.
