ADMIRAL EATON DIED FROM POISON, SAY THE EXPERTS

WIDOW ACCUSED OF OFTEN WISHING HER HUSBAND WAS DEAD.

Plymouth, Mass., October 20.—Rear-Admiral Joseph G. Eaton died from poison, at least one dose of which was administered within six or eight hours of his death, during which time, testimony showed, he was unconscious. This statement of medical experts, was the principal evidence introduced by the government in its efforts to support its charges that the Admiral came to his death at the hands of his widow, Mrs. Jennie May Eaton, now on trial for her life.

WOMEN'S COURT CROWDED. That Mrs. Eaton had many times said she wished that her husband was dead, was the statement made on the witness stand today, by Henry M. Cates, of Rockland, who knew the family in 1910.

These threats, Mrs. Eaton's personality, her expressed fears that she and other members of the family would be poisoned by the Admiral, a statement that he had actually tried to poison her on several occasions and other utterances by the accused widow, were all detailed in testimony during the day.

The court house was crowded during the afternoon, mostly by women. A score or more were tuned away.

Mrs. Eaton still maintained, to a large extent, the composure which she has so far manifested during the proceedings. Occasionally during the medical testimony, she bit her lips and again broke out in laughter during the testimony of acquaintances.

Testimony as to the finding of poison in the Admiral's body and indications as to the time and manner of its administration were given by Prof. W. F. Whitney and Prof. William Balch, both of Harvard Medical School. These experts, retained by the government, had analysed the contents of the organs removed from the body of the Admiral. Sixteen grains of pure white arsenic was found and a greater amount was probably thrown off from the Admiral's system before death, according to the testimony.

Both professors admitted under cross-examination by Attorney William A. Morse, that the presence of a large quantity of arsenic has been accepted by experts as an indication that the poison was self-administered. District-Attorney Barker in re-direct examination, brought out testimony to show that the poison might equally well have been administered by some other person. The poison could have been taken in tea with less likelihood of detection than in other manners, Prof. Balch testified. He added that its presence might also be disguised in a mixture of salaratus water. It is the contention of the government that poison was given the Admiral in tea and other beverages by his widow.

BRITISH POLICY NOT ANTAGONISTIC TO U.S.

MERELY COINCIDENCE THAT MINISTER PRESENTED CREDENTIALS SAME TIME AS HUERTO'S DECLARATION.

London, October 20.—The view of the British government is that the policy of Sir Lionel Carden, the British minister to Mexico, is not antagonistic to the point of view of the United States, and it is pointed out as merely a coincidence that Sir Lionel Carden presented his credentials simultaneously with Provisional President Huerta's declaration of dictatorship. The fact that Great Britain had recognized Provisional President Huerta rendered necessary, it is argued here, that the British minister should present his letters without delay and so obtain an official standing.

NO FLIRTING WITH SHIP'S OFFICERS ON THIS LINE. Christiania, Norway, Oct. 20.—The new American-Norwegian Transatlantic Company will engage only total abstainers for service on its liners and has made a rule that no officer or member of the crew may engage in conversation with a passenger. All proper questions will be answered promptly by a person hired for that purpose. These regulations, it is argued, will enhance the safety of passengers by preventing the attention of officers and crew being distracted from their duties during a voyage.

SHIPWRECKED IN LAKE ONTARIO

CAPTAIN AND CREW OF BARQUE SLIGO ALMOST PERISHED OFF SCARBORO BEACH.

Toronto, Oct. 20.—To be shipwrecked off Scarboro Beach after two days' continuous struggle against wintry elements, and to be saved by Captain Ward and his crew just when the waves of an exceptionally heavy sea were wash of the main deck, was the experience of the crew of the barque Sligo, who were taken from the abandoned ship today and given warmth, food and other comforts at the Island Filtration plant. Had it not been for the timely efforts of the life savers, who battled the huge waves for one and a half hours, the men, according to their own statements, would have been washed overboard into a sea which no expert swimmer could breast for long.

The chain of accidents and hardships common on Thursday, when the Sligo's bows were stove in while passing through the Welland canal. Divers were set to work on her in an effort to patch the holes sufficiently strong to bring her to Toronto. All might have gone well had not the ship encountered one of the fiercest gales known to Captain Dan McVicar, himself, and which aroused the sea and pounded the weakened sides of the vessel, causing her to take in water at the rate of two feet per hour. Then to make matters worse the new hawser by which she was being towed by the Lake Michigan, belonging to the Point Ann Quarry Company, owners also of the Sligo, snapped, which left her at the mercy of the elements two miles of Bowmanville on Saturday morning.

Captain McVicar, who had already been at the wheel for twelve consecutive hours without taking rest, immediately hoisted the foresail with the vain hope of making Toronto without aid, as the storm prevented splicing the hawser which connected with the Lake Michigan. The easterly wind subsequently increased in fury which threatened to force the ship ashore, but by expert seamanship the worn-out captain and crew managed to arrive off Scarboro Beach this morning.

Throughout the day and night the centrifugal pump had managed to keep the water low enough for safety, but just as the ship was two miles off the eastern channel a sudden squall caused the boat to lurch violently, snapping the large boom, which in turn demolished the pump, and the boat became a helpless derelict. The water was rushing into the hold, and the captain foreseeing disaster immediately blew distress signals.

Captain Ward of the Island Life Saving Station, immediately put out in his oar-propelled lifeboat, but a half hour was consumed before the distressed crew was reached. The sea was running so high that it seemed as though the frail craft would capsize at any moment. Much difficulty was experienced by the life savers in their repeated attempts to transfer the crew to their own boat; every time they would draw alongside the Sligo rolled heavily, and at every lurch it seemed as though the lifeboat would be forced under the water by the former's massive bulwarks. By the time this difficult task had been accomplished, the lifeboat and derelict had drifted to within two miles of Great Point, where Capt. Ward and his crew were able to convey the worn out mariners, Capt. McVicar, Edwin Wood, of Toronto; Fred Cole, Toronto, and Andrew Walker, of Cobourg, to the Island Filtration Plant, where they were cared for.

The Sligo was later in, the day beached.

FRENCH GENERALS WILL FIGHT DUEL

TWO SEPTUAGENARIANS SEEK PISTOLS AND COFFEE OVER BUTTON EPISODE.

Paris, Oct. 20.—A challenge to a duel was sent today by one French septuagenarian warrior, General Bosc, aged 72, to another still older, General Georges Florentin, aged 77, the Grand Chancellor of the Legion of Honor.

The cause of the quarrel was that legal proceedings had been started by General Florentin to prevent the members of a military society, the Society of National Merit, founded by General Bosc, from wearing a button among its insignia, and thus infringing the privilege of members of the Legion of Honor.

The seconds of the two aged officers met this afternoon to deliberate as to whether a combat would be necessary.

MCGILL WON RUGBY MATCH

Montreal, Oct. 20.—Although it was raining hard and as a consequence the playing field on the McGill campus was in bad condition, McGill and Montreal stars met in an English rugby match today, which resulted in a victory for the colligians by a score of 11 to 5.

ST. JOHN'S LODGE CELEBRATES 125TH ANNIVERSARY

W. BRO. R. WALLACE, THE MASTER, PRESIDED OVER BANQUET—ELOQUENT SPEECHES.

It is very rarely indeed that lodges of any fraternal order arrive at the ripe old age of 125 years. Yet St. John's Lodge No. 3, A. F. & A. M., last night celebrated the century and a quarter of continuous existence.

This excellent body of the craft was instituted on the 30th May, 1788, when the following officers were installed: W. Bro. A. Ferguson, Wor. Master; W. Bro. C. Chambers, Senior Warden.

W. Bro. G. Beattie, Junior Warden; W. Bro. Galloway, Secretary.

The lodge today is in an extremely flourishing condition, having nearly 100 active members on its roll.

The function last evening took the form of an excellent banquet, presided over by W. Bro. R. Wallace, the master of the lodge. Very great interest, indeed, was given the occasion, so much so that the Most. Wor. the Grand Master, R. W. Bro. Wright, came down from Montreal, accompanied by R. W. Bro. W. H. Whipple, Grand Secretary; R. W. Bro. Allan, and R. W. Bro. Crawford.

The menu was thoroughly enjoyed by over 150 Masons present, and an excellent programme of music provided by members of the lodge.

Eloquent speeches were made by M. W. Bro. Wright and Rt. W. Bro. Whipple of Montreal, appreciating the hearty welcome accorded them and congratulating the members of St. John's Lodge on this, their 125th anniversary.

The reminiscences of St. John's Lodge furnished the matter for a most interesting discussion given by M. W. Bro. E. T. D. Chambers, who reviewed the history of the craft in this city and particularly that of St. John's Lodge.

Rt. Wor. Bro. Walling in a most interesting discourse mapped out the history of St. John's Lodge since its inception in 1788 down to the present time. He showed how the lodge had first received its official number of 241, then No. 302, afterwards 214 and 182, and finally its present No. 3 under the Grand Lodge of Quebec. One of the strictest regulations of the old lodge was the impositions imposed on drunkenness, immediate expulsion.

Bro. Walling referred to the past distinguished masters, among whom

CLERGYMAN LOST ON HUNTING TRIP

REV. SCOTT CURRIE THOUGHT TO HAVE PERISHED IN LABELLE COUNTY WOODS.

Buckingham, Que., Oct. 20.—Rev. Scott Currie, Anglican clergyman at Glen Almond, in Labelle county, has been missing since Saturday last when he got separated from a hunting companion, and it is feared that he accidentally shot himself.

With Herbert Hall, a young man of Halls Corners, Labelle county, Rev. Mr. Currie started out Saturday morning at 5 o'clock on a hunting trip in the mountains. Neither had much knowledge of the country and in a short time they had lost their way. For several hours they wandered about, finally becoming separated. Hall heard a shot as he was trying to find the clergyman, and thinks the latter may have fallen and accidentally killed himself. Hall reached Perkins Mills about five o'clock Sunday morning with his story and since that time search parties have been scouring the woods in the district in search of the missing man.

GERMANY IGNORES CHURCHILL'S PLAN

IT IS DOUBTFUL WHETHER ANY OFFICIAL NOTICE WILL BE TAKEN OF IT

Berlin, Oct. 20.—The proposal by Winston Spencer Churchill, First Lord of the British Admiralty, that England and Germany should declare a "naval holiday" in 1914 was received without sympathy by the German government, which regards it as not calling for a reply. It is generally considered doubtful whether any official notice will be taken of the suggestion although it is thought Imperial Chancellor Von Bethmann-Hollweg may perhaps refer to the subject later on in the course of debate in the Imperial Parliament.

The naval authorities here consider the proposition that Germany should not build any warships while England is constructing or acquiring at least three cannot be discussed.

MRS. PANKHURST FREE TO ENTER UNITED STATES

BRITISH SUFFRAGETTE LEADER MAY NOW WANDER WHERE SHE WILL.

Washington, October 20.—America's doors were opened today to Mrs. Emmeline Pankhurst, and during the few weeks covered by her lecture engagements the British militant suffragette leader is free to go where she will in the United States.

WILSON ISSUES ORDER.

An order releasing the much discussed visitor from detention at Ellis Island, New York, and revoking the deportation order of the special inquiry board was issued today after President Wilson had conferred with Secretary Wilson of the Department of Labor, and a formal hearing before Immigration Commissioner Caminetti, on Mrs. Pankhurst's appeal had been concluded. Secretary Wilson announced that he and the President had agreed that Mrs. Pankhurst should be admitted "on her own recognizance," with the understanding that she would depart when she had fulfilled her lecture engagements. Both the President and the Secretary agreed that Commissioner Caminetti, in the opinion that there was an element of doubt as to whether the acts which Mrs. Pankhurst has been convicted in England constituted moral turpitude, or were political in character.

Formal Statement Issued. Commissioner Caminetti tonight issued a formal statement outlining the reasons for his decision in the case.

"There is nothing in the record of before me," said the statement, "to indicate that the British government desires that Mrs. Pankhurst shall be returned to England; and the evidence of record indicates that while she was placed under a sentence of three years penal servitude, she has served only a small part of her sentence, and apparently no effort has been made to compel her to serve the balance, but as matter of fact, marked leniency has been shown towards applicant by the English authorities. Shall this government deny even temporary asylum when by so doing less consideration would be shown Mrs. Pankhurst than England has displayed?"

Mrs. Pankhurst states, and counsel throughout the case have asserted,

NOW ENROLLED ON MEDICAL REGISTER

RESULTS OF EXAMINATIONS UNDER CANADA ACT ARE MADE KNOWN.

Ottawa, October 20.—Dr. R. W. Powell, registrar, announces the results of the recent examinations in Montreal under the Canada Medical Act:

The following candidates, arranged alphabetically, have been successful in passing the recent examination by the Medical Council of Canada and are thereby entitled to be enrolled on the medical registrar of Canada:

- L. A. Aubin, Rawdon, Que.; I. F. Belanger, Quebec; I. A. Bergeron, St. Antoine de Tilly, Que.; C. R. Bourne, Montreal; C. E. Brown, London, Ont.; I. Cumming, Ottawa; A. P. Davies, Hull, Que.; A. S. Duncan, London, Ont.; J. B. Gallagher, Bath, N.B.; I. F. Grant, of Montreal; E. H. Gray, Montreal; W. G. Hepburn, Montreal; L. G. Howie, Bras D'Apic, Que.; W. C. Hutton, Montreal; J. J. Irven, Montreal; I. A. H. Joyal, Montreal; R. F. Kelso, Montreal; J. H. G. Lacasse, St. Genevieve de Pierreford, Que.; J. L. Lamy, St. Flore, Que.; A. Leger, Montreal; A. F. MacAulay, London, Ont.; F. H. MacKay, Montreal; T. W. F. MacKnight, Tamworth, Ont.; L. W. MacNutt, Ottawa; A. A. Martin, Pierce, Neb.; A. J. McCalla, St. Catharines, Ont.; W. G. Morris, Vancouver; R. L. Morrison, Barrie, Ont.; P. Kase, Verdun, Que.; I. G. Phillips, Cornwall, Ont.; W. S. Pickup, Fort William, Ont.; I. L. Poirier, Craigmont, Ont.; L. K. Poyntz, Tavistock, Ont.; A. L. Raymond, Williamstown, Ont.; K. M. B. Simon, Toronto; A. Stewart, Ottawa; T. W. Sutherland, Montreal; F. S. Swaine, Montreal; A. T. Turner, Bowden, Alta.; E. J. O. Walkott, Montreal; L. W. Walker, Hanover, Ont.; T. J. Wall, Kansas City, Mo.; W. G. Wallace, Metcalf, Ont.; H. C. Workman, Kingston, Ont.

Of the seventy-one candidates who presented themselves for this, the first examination under the Canada Medical Act, the above forty-four proved equal to the occasion. Eight were referred back to the council, having failed in not more than two subjects and nineteen were rejected.

"Well, I enjoyed my holiday yesterday, in spite of the rain," said the Oracle, as he dropped into a chair this morning. "Sorry there can't be a Thanksgiving Day every week! A lot of people were growling about the weather. One fellow wanted to know what there was to be thankful about when it rained like that. Why, said I, what's the use of grumbling. If it's raining, if it's snowing—and if it is blowing pretty hard, it isn't freezing. If you can't be thankful for what you've got, for Heavens sake show a little gratitude for what you've skipped. There's a break in the clouds, so I guess it's due to clear up today." We have lots of things to be grateful for—amongst others we appreciate the patronage we have received from you in the past—we thank you in anticipation of the future. We would announce today a new book by the author of the "Rosary," called THE BROKEN HALO, by Florence Barclay. Come in and see it, at JOHN E. WALSH'S Reg'd., 11 ST. JOHN STREET

QUEBEC AND ONTARIO BAPTISTS CONVENE FOR THE ASSEMBLY

REPORT STATES THAT FRENCH CANADIAN BAPTISTS NOW NUMBER 2,054,890.

Peterboro, Ont., October 20.—At this morning's session of the Baptist convention of Ontario and Quebec, devotions conducted by Rev. J. B. Kennedy and Rev. E. J. Stobo, had special reference to Thanksgiving Day.

The Grand Ligne Mission, an independent Baptiste work conducted among the French-Canadians of the province of Quebec, and appealing for funds to the churches of this convention as well as to the churches in eastern and western conventions, made a report of its work through Rev. D. W. Terry, of Coaticook, Que. The report shows that the French population is now 2,054,890, or 28 1/2 per cent. of the entire population.

The effort of the Roman hierarchy to bring this growing element to the service of not only religious but political ends. The Young French Catholic Association avowed its purpose to bring about the absolute supremacy of Rome in all matters, moral and religious, its sole direction of education of the young and the exclusion of government from the sphere of education and the establishment of a united Catholic party in Canada. The educational status of Quebec calls for serious consideration from patriotic Canadians.

During the year the mission has employed 30 missionaries and teachers. It maintains a fine academy at Grand Ligne. There had been fifty-four baptisms. Total disbursements during the year were \$40,564, of the receipts \$15,076 came from Toronto. The deficit is \$430. Rev. Dr. A. L. Therrien, of Montreal, is the new president of the mission.

Prof. J. H. Farmer reported for the committee appointed last year to report to the convention upon the future of Grand Ligne. The committee reported progress, suggesting that it be enlarged and representative at the next convention. There were four proposals advanced: To bring the mission under a composite board, representing all conventions, to add to the board, to bring the mission under the convention of Ontario and Quebec, and to maintain the status quo.

The report of the committee on State of Religion was presented by Rev. Dr. Stobo, of Smith's Falls.

Number of churches organized, 495; last year, 515; the apparent decrease being due to churches not reporting to the convention.

Amount raised for work at home, \$675,168, or \$2.267 per number, an increase of over \$35,000 over last year. Amount raised for work abroad \$202,300, or \$3.61 per member, an increase of about \$46,000. Amount raised for all purposes \$877,468, an increase in total giving of \$80,861.

The report of the home mission board was presented by Rev. W. E. Norton, superintendent.

The board maintains three Slavic missions in Toronto and others in Montreal, Hamilton, and Fort William. The Scandinavian missions report a good year's work. During the year about \$12,000 will be spent on Scandinavian and Slavic missions in Ontario and Quebec. Home mission work all around reports better conditions.

WELSH WINS ON FOUL.

Winnipeg, Oct. 20.—After being warned for hitting low at the start of the ninth round "Young" Saylor, of Indianapolis, lost a scheduled twelve-round bout here tonight to Freddie Welsh by fouling his opponent near the finish of the round, which sent Welsh to the floor and stopped a fairly interesting match.

QUEBEC, TUESDAY, OCTOBER 21, 1913.

THE ABATTOIR QUESTION.

While we are heartily in favor of the establishment of an abattoir in this city and think that this would benefit the city in many ways, we are decidedly against the granting of the demand for an exclusive franchise for a large number of years. Let the city grant an exemption of taxes to the new company if it wishes or let it even give a bonus if need be, although the policy of giving bonuses is as a rule to be discouraged and has been abandoned by most up-to-date cities. But, as for giving an absolute monopoly, that is a condition which is too much to ask. Supposing that one of the wholesale merchants wanted to have a monopoly of sugar or flour or some other commodity! Supposing a new bakery was to come in and insist that it should meet with no competition! And yet meat is one of the most important articles of diet.

It may be argued that the street railway is a monopoly but the parallel is not a very good one and, in any case, the conditions of the contract between the city and the company to enable the public to claim protection. But, if the abattoir company receives what it demands there will be no possibility of redress and the public will wake up too late to find out that it has been trapped.

A MOMENTOUS VISIT.

The visit of Premier Borden to this city will be as important as any that was ever paid by a Dominion Premier. It will be unique in that no other Prime Minister has ever been associated with the inauguration of so many public works in this city at the same time, and the programme that is mapped out for the distinguished visitor is a large and comprehensive one.

These public works may be divided into practically two classes, those of local and those of national importance. Most of them are of both. Such, for instance, are the dry dock, much of the development of the port, the deepening of the St. Lawrence channel, the completion of the Quebec Bridge. The Battlefields Park is another which partakes of a national character, though the benefits will be chiefly local. As for works of local interest the most important include the alteration of the St. Charles River and the installation of the Transcontinental shops at St. Malo. Both of these will contribute in large measure to the expansion and prosperity of the eastern section of this city. Then there are the new post office, the drill hall extension, the freight and passenger stations, and a large number of improvements in the district generally.

It will be a memorable event also in the career of the Prime Minister himself. He will find that the people of Quebec are no less ready than those of other cities to recognize merit in any man, no matter of what party he may be, and to show that they can be just to them that are just towards them. These qualities they have learned to respect in the case of Canada's present Prime Minister, as the proofs of his justice, breadth of mind and desire for the advancement of this city are evident on every side.

TARIFF REVISION.

Sir Wilfrid Laurier out of office and Sir Wilfrid Laurier in office are two persons as diametrically opposite as the poles. That is why the Liberal leader is now resurrecting the tariff promises which he made before his accession to power in 1896 and which he forgot or ignored as soon as he was safely installed at Ottawa.

Having apparently realized that the rest of his platform is somewhat shaky, Sir Wilfrid seems at last to have decided to make his policy one of tariff reduction and to attack the high cost of living which rose so much during his tenure of office. It should be a popular platform for several reasons as there are none of us who would object to find our housekeeping bills less.

When, however, we examine the past history of Sir Wilfrid Laurier, we find much to make us believe that Sir Wilfrid will be no whit more sincere today than he was seventeen years ago. As a public man he then avowed tariff reduction principles, agitated them in a successful effort to overthrow the Conservative government and, having attained power, cast them to the winds. Conduct of that kind is nothing else but political immorality. In 1897, the year after the election in which he won success, Sir Wilfrid and his colleagues completely betrayed the people who had sent them to Ottawa, went utterly over to the protectionists, said that the "vested interests" of the Canadian manufacturers must be safeguarded, and stole and greatly extended the National Policy of Sir John Macdonald upon which they now appear to be gathering for another onslaught.

It is common knowledge that in the period from 1878 to 1896 every proposal to increase a protective duty or re-enact a bounty law was opposed by the Liberal minority at Ottawa and condemned on Liberal platforms throughout the Dominion. We shall see how Laurier's policy was altered later.

Late in the electoral campaign of 1896 Sir Wilfrid telegraphed from Black Lake to a Liberal candidate at Pictou, Nova Scotia, assuring him that, if the Liberals were successful at the polls, they would follow the policy laid down in the Liberal platform adopted at the Ottawa convention of 1893, the platform that denounced the National Policy and pledged the Liberals to a tariff for revenue only. But Sir Wilfrid evidently did not want to let his right hand know what his left was doing, for while Liberal candidates were seeking election on this programme, a bargain had been made between men high in the inner councils of the Liberal party and a Toronto manufacturer named Bertram and other manufacturers. This bargain was an assurance that Liberal success at the elections would spell no danger to the protected interests and Bertram was elected in Centre Toronto because of this pledge of Sir Wilfrid. As "Industrial Canada," the organ of the manufacturers, said in November, 1908, "the incoming of the Liberal party in 1896 was a great thing for Canada in so far as it served to demonstrate that free trade was an impossible policy for this country, and that neither party would attempt to put it in force."

Writing in his book, "The Revolt in Canada

Against The New Feudalism," Mr. Edward Porritt says:—"The numerous protected interests, while they realized that the campaign of deception was necessary to the game of politics that the Liberals were playing, were quite conscious that there was no foundation for the claim that the National Policy of 1896-1907 was less protective or less comprehensive than the policy of Sir John A. Macdonald and the Conservatives. Among themselves, and particularly in the conclaves of the Canadian Manufacturers' Association, the protected interests congratulated themselves that the Laurier government capitulated to them in 1897 and was steadfast to its new allies at the revision of the tariff in 1907. To use the phraseology of American political conventions, the Canadian Manufacturers' Association, after the revision of 1907, "pointed with pride" to their triumphs with the Liberal government and rejoiced in the then obvious fact "that the Liberal party who, when in Opposition, declared that protection was unsound in principle and unjust to the masses, are today the defenders of a tariff based upon the very doctrine which formerly and in sincerity they denounced."

It is true that the Laurier government gave us the British Preference but the idea did not originate with the Liberal party which opposed it when in opposition. In any event the Preference only benefits a few people and it has been whittled away from all semblance of its former self. Its many curtailments between 1904 and 1911 are proof convincing that the Laurier government would at any time rather make an inroad upon it than run any risk of antagonizing its allies, as they were then, of the privileged class. With the exception of a couple of interests, no protected interest which asked for a curtailment of the preference was refused after 1900. Preference was little more than a political cry.

But what must be said of a supposed and professed free trade party which not only failed to reduce the tariff but actually bottle-fed the protected interests that they affect to attack. What about the Anti-Dumping Act of 1904? What about the bounties running into many millions which were awarded to the iron and steel interests? And yet, with that record of protection, at his back, Laurier still has the effrontery to come before the Canadian public and ask them to believe that he will again take up the principles which he abandoned seventeen years ago.

Comment of The Press

The spectacle of Hon. William Pugsley hastening to Ottawa to offer his condolences to and mingle his tears with Sir Wilfrid Laurier is a truly affecting one. So long as the Chateaugay election was in doubt, the wily one from New Brunswick held carefully aloof. He did not go down into the fight to do or die for the sacred cause and beloved leader. This Poseidon of the deep was fully engaged with the concerns of his maritime realm until disaster overtook his coadjutors, Sir Wilfrid Laurier and Hon. Rodolphe Lemieux. But to the wounded veterans he comes post-haste with balm for their wounds, the excoiating balm of salt sea brine upon quivering flesh. If there is any honor in leading the tattered remnant of the Liberal party Sweet William is near that honor now. That ebullient pansy, Rodolphe Lemieux, was the right bower of Sir Wilfrid Laurier, and Sweet William adorned the position of his left bower. The venerable gentleman was buttressed by recklessness on his right and strategy on his left, with a mixture of truculence in both. Lemieux, however, was Elisha to the prophet, because of Quebec. There he was Laurier's heir-at-law. Why should Pugsley, or indeed any man with the moral characteristics and mental outlook of a Pugsley be a part of the glory of Laurier, the setting sun, hardly preceding the rising of Lemieux, the morning star, at Chateaugay? It was more than could reasonably be expected of a Liberal with a proper eye to his own interest. When both, however, were enveloped in a total irremediable and final eclipse, the situation was entirely changed, and Pugsley, without more ado, took the first train for Ottawa. The feelings with which his bruised and humiliated chieftain will greet him may be better imagined than described. But he may be trusted to conceal them with his wonted diplomatic suavity. What will make an added pang is that Pugsley was the head and front of the offending in Parliament which has led to the complete undoing of the Liberal party. He was the most vigorous obstructionist of them all. It will no doubt please his colleagues that he should triumph in their ruin, having been one of the strongest factors in making it general and complete.—Winnipeg Telegram.

The tributes to Verdi, in connection with the celebration of the hundredth anniversary of his birth, duplicate and repeat the Wagner tributes of last May. If the year 1813 had no other claim to distinction as a "wonderful year," the name would be deserved by the fact that it gave to the world the two great masters of opera. To think of what opera would be without Verdi—opera without "Trovatore," "Traviata," "Aida" and "Rigoletto," "Otello" and "Falstaff"—is to gain a realizing sense of what the centennial of the Italian composer's birth means to all music-lovers, and particularly to the vast constituency of opera-goers. And to consider further what opera would be without "Lohengrin," "Tannhauser," "Tristan und Isolde," the "Meistersinger" and the "Ring" is to appreciate how fully Verdi and Wagner were the joint creators of modern opera. There would be little left if their works and their influence were eliminated—a poor foundation for competing opera-houses and scant provocation for opera-madness on the part of an intelligent community. No other of the great arts has been so dominated by two men—men of such different genius and so unlike in ideals and methods. Certainly painting, sculpture and the drama afford no parallel to this dual mastery of the musical art by the great Italian and the great German composer.—New York World.

There are two jobs which the average farmer's boy regards with deep-rooted antipathy. One is turning the grindstone, the other manipulating the dash of an upright churn. The introduction of hydro-electric power in Ontario promises to remove one of the most potent causes of boys leaving the old homestead. At the same time it furnishes power for mother's sewing machine and minimizes the labors of the lady in charge of Monday's laundry.—Vancouver Province.

IF YOUR SHIRT IS LAUNDERED

By our new "pressing system" it has the same attractive appearance that it had when new. Our process gives the shirt the proper stiffness without that harsh, board-like effect.

And, owing to the fact that there is no friction used to iron your garments, by this method, there is positively no opportunity for unnecessary wear.

Our "press ironers" make your linens fit and look better—and wear longer.

Try our work.

We guarantee that any overcoat made at these special prices will be fully up to our high standard of tailoring.

GLIMPSES OF OLD QUEBEC

From the Files of the CHRONICLE, October, 1813 and 1913.

THIRTY YEARS AGO TODAY

The Citizens Ball.
Thirty years ago Quebec honored itself by the magnificent manner in which its citizens entertained His Excellency the Governor General and H. R. H. Princess Louise at the ball given at the Music Hall and St. Louis Hotel, on the eve of their departure from Canada. The decorations were in the hands of that well known decorative artist, Mr. B. Leonard.

The Quadrille D'Honneur.
The above was composed of the following ladies and gentlemen: The Mayor of Quebec and H. R. H. Princess Louise; Lord A. Russell and Lady Macdonald; His Honor the Lieut. Governor and Madame Robitaille; Premier Mousseau and Madame Routhier; Lord Bury and Madame Chauveau; Hon. C. A. P. Pelletier and Lady Bury; Judge Chauveau and Madame Garneau; Hon. P. Garneau and Mrs. De Winton; H. M. Price and Mrs. R. H. Smith; Lt. Col. Duchesnay and Madame Mousseau; Col. De Winton and Mrs. Wurtele; Hon. I. Thibault and Miss Hervey; Mr. Bursall and Mrs. Duchesnay; Hon. Wurtele and Mrs. Bursall; Col. Rhodes and Mrs. Price; Lord J. Hervey and Miss McNeil; Hon. Starnes and Mrs. Drayner; Major Collins and Miss Boxer; Capt. Bagot and Miss J. Meredith; Col. Airstake and Mrs. Tessier; Mr. R. H. Smith and Madam Duchastel; Col. Forsyth and Mrs. Beckett; Mr. Beckett and Mrs. Dobell. H. R. H. the Princess remained until close upon midnight, and His Excellency until after two o'clock.

A HUNDRED YEARS AGO TODAY

American Marauders.
Information has been received here that 12 or 13 boats or bateaux, containing about 300 of the American regular troops, commanded by Col. Clarke, arrived near the house of Capt. Cook, of the Canadian Militia, at Caldwell Manor, on the lines, immediately adjoining Missisquoi Bay. This party landed and entered the house of Capt. Cook and plundered from it sundry articles of merchandise, and a quantity of household furniture—in short, all moveables they could conveniently carry away. Col. Clarke headed this plundering party into the house, and actually assisted in the destruction.

Even Took Silver Thimble.
The above named officer even took a fancy to a silver thimble belonging to Mrs. Cook, which he pocketed. This gallant officer even after being entreated by Mrs. Cook to leave some loaf sugar which she had for a sick child, if he did not pocket that, it was only on account of the size of his pocket; it was taken, however. Having secured their booty they departed in their boats. They proceeded then to Philipsburg, a village within our lines in Missisquoi Bay, where this marauding party again landed, but being opposed by a small party of Canadian Militia, shots were exchanged in which one man on each side were killed and several wounded.

DEER VISIT A CITY
County Jailor Kills Two — Other Hunters Also Shot Them.

Montesano, Wash., Oct. 20.—The hunting season is on in Chehalis County and some excellent bags of game have been reported. Hank Hildebrand, County Jailor, killed two fine deer within the city limits of Montesano, while other hunters report getting the limit.
The bags of ducks and pheasants were not large, there being very few ducks in the lower harbor as yet. Chinese pheasants in the valleys are quite plentiful and the game wardens are exceedingly active endeavoring to prevent game violations.

HEIRESS TO ESTATE IN THE ANTIPODES

CLAIMS POSSESSION OF \$80,000.—000—STORY OF DISINHERITED SON.

Niagara Falls, Ont., Oct. 20.—Mrs. Mark Mondia, wife of an employe of one of the local power companies, and in humble circumstances, is arranging to sell her little home in Seventh st. and sail for Australia, where, with Mrs. Sarah Louise Marshall, she will prove her claim to an estate of £60,000,000.
Mrs. Mondia has been in correspondence with Mrs. Marchall, her sister, for several months, and in that time has received many letters from her, but the last one, arriving a few days ago contained the first intimation as to the value of the estate. Heretofore the letters have been very vague as to the value of the property to which she was heir, and contained only details as to family connection and references to the relationship of the two women, and their ancestors.
It appears from facts that have been established by Lieut. Col. F. W. Mondia, that one Edward William Jennings, Mrs. Mondia's grandfather, living in England, had a son who married against his father's wishes and was disinherited. This was in 1882. No one seems to know where he went except that he came to Canada. This son was Edward William Jennings, and was the only heir to his father's estate.
On his death bed, according to the story told by Mrs. Mondia, the father, related, and commissioned a barrister in England to search for the son, and, if alive, turn the estate over to him. Mrs. Mondia was a Miss Jennings, and she has reason to believe that she is the daughter of this heir. Her sister, Mrs. Marshall, went to Australia a number of years ago. Mrs. Mondia was 12 years old when her father disappeared, and she does not know where he went. The family first settled in Toronto, then went to Hamilton, and ultimately came to this city.
These facts, so Mrs. Mondia says, have all been established by records which she now possesses, and as soon as she can dispose of her little home she will go to Australia, where she will join her sister, who, it is said in the last letter, is seriously ill, and may not recover, and then go to England and lay claim to the vast estate, most of which, it has been learned by Mr. Hill, is in good securities.

PEARLS WORTH \$10,000 SEWED IN HER CORSET

Boston Customs Officials-Allege Further Disclosures Regarding Mrs. May Van Alen Thompson.

Boston, Oct. 20.—That Mrs. May Van Alen Thompson, niece of the late Col. John Jacob Astor and bride of Griswold A. Thompson, of New York, had pearls to the value of at least \$10,000 sewed to the inside of her corsets when she arrived at this port on the White Star liner Arabic on Thursday was disclosed this afternoon at the office of the United States Customs.
The information came to light when the expert appraisal of the contents of Mrs. Thompson's 25 trunks, seized on suspicion by the customs inspectors, began at the appraisers' storehouse in State street. The discovery of the pearls was made by Mrs. Wilkins, the customs inspectress, who after yesterday's discovery of the belt of jewels on the person of Miss Connor, Mrs. Thompson's maid, was ordered by Deputy Collector Barling and Deputy Surveyor Mann to search the mistress also.
Sewed to the inside of her corset, Mrs. Thompson carried a small chamois bag filled with pearls, some of them in settings. The exact value of the pearls is not yet known. They are being held for appraisal by experts.
The 25 trunks brought over on the Arabic by Mrs. Thompson were opened this afternoon and the appraisal of their contents commenced. On account of the variety of the contents, it will be necessary to engage half a dozen experts to set prices on the laces, gowns, furs and silks.
The customs authorities are also conducting an investigation into the reason Mrs. Thompson always sailed from Boston. She had often been asked about it, and said she did not care to sail from New York. She has been a frequent transatlantic passenger, sailing two or three times a year.

DRESDEN SUSPECT SENT TO BERLIN

UNUSUAL POLICE PRECAUTIONS FOLLOW ALLEGED PLOT AGAINST KING OF SAXONY.

Dresden, Saxony, Oct. 20.—The authorities here have ordered a strong police escort to accompany to Berlin a student named Kienholz, who was arrested Wednesday because suspected of an intent to assassinate the King of Saxony and Grand Duke Cyril of Russia.
No formal charge has been made against the student, and it is reported in some quarters that he is simply a harmless young person who neglected to get a permit to carry a pistol and who in consequence fell into the clutches of an overzealous detective. However that may be, the police, who have been silent on the affair from the beginning, are taking extra precautions to prevent the student from escaping on the way to Berlin. There, according to a report, he may be released.
Young Kienholz had hired a room in a hotel overlooking the route that King Frederick Augustus and the Grand Duke were to take on their way to the court theatre. His pistol and an alleged dagger were taken from him and he was arrested after he had been persuaded to go into another playhouse near the court theatre.
This is the second time this month that Dresden has been stirred by reports of plots against the Saxon ruler. In each case there has been an official denial of a plot.

HAWK DESCENDS ON AUTO AND ATTACKS A PASSENGER

Big Bird, Dazzled by the Headlights, Fastens Its Talons in Man's Arm and Fights Him.
New Orleans, Oct. 20.—Swooping down out of the darkening sky, a large hawk attacked an automobile driven by Dr. C. A. Bohne on the West End road. Flying directly at the brilliant headlights, the bird missed the lamps and fastened its talons in the arm of Thomas Lane Ross of No. 1524 State street, riding with Dr. Bohne in the car.
"The auto was going about thirty miles an hour," said Mr. Ross, "when the bird appeared, darting at great speed at the lamps in front. Missing these, the hawk clutched the first object that came in its way—my arm. Sinking its talons through my rain-

coat and coat, it struck repeatedly at my eyes with its huge beak.
"The doctor increased the speed of the car, thinking to throw off the clinging bird, which must have weighed nearly ten pounds, and with my free hand I fought the creature until I tore loose its claws and threw it bodily from me.
"It fell almost to the roadway, then caught itself and swooped again at the car, rising when we shouted and disappearing in the darkness.
"The incident occurred about midway between the cemetery and West End. The hawk appeared to have been attracted first by the headlights, which were particularly brilliant, and, missing these, to have been maddened by my efforts to fight it off."

HELPLESS CRIPPLE FROM RHEUMATISM

Helpless Lady Took "Fruit-a-tives" And Cured Herself. HOME PLACE, TORONTO, DEC. 15th, 1909. I was a helpless cripple from Rheumatism for nearly a year. All down the right side, the pain was dreadful and I could not move for the agony. I was treated by two physicians without benefit. I saw "Fruit-a-tives" advertised and decided to try them. After taking one box, I was much better. When I had taken three boxes, I could use my arm and the pain was almost gone. After taking five boxes, I was entirely well again. The cure of my case by "Fruit-a-tives" was indeed splendid because all the doctors failed to even relieve me. "Fruit-a-tives" cured me. Mrs. LIZZE BAXTER. 50c a box, 6 for \$2.50—trial size, 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

SPECIAL COURT AT RIVIERE DU LOUP

JUDGE LANGELIER WILL TRY MEN ACCUSED OF FRAUDING FARMERS.

Hon. Judge Charles Langelier, at the request of the Attorney-General, left for Riviere du Loup yesterday, to hold a special court, and preside over the hearing of three men who are charged with obtaining money from the farmers of that district under false pretences. This hearing is the sequel to the arrest of four young men who are said to have mulcted the farmers of Temiscouata and vicinity, out of a large sum of money. The charge is that they went over the county, pretending that they had an invention for manufacturing boots and shoes by a patent leather that would reduce the cost by one-half, and were desirous of organizing a company. They showed bogus letters patent, and even a certificate of incorporation, signed by the Lieutenant-Governor of the Province, and succeeded in getting considerable cash from the farmers, and having some to sign an agreement, which was a promissory note, which the gang had later discounted by the banks. The farmers in the end became suspicious and had the matter called to the attention of the Attorney-General, who had the four operators arrested and placed in the Riviere du Loup jail. The ringleader pleaded not guilty, and has been committed to stand his trial before the Criminal assizes. The others then elected to take a speedy trial, and Judge Langelier has gone to Riviere du Loup to preside. The complaints made by farmers of late, made victims by gangs of rascals who obtain money under false pretences, have become so numerous, that the Attorney-General is giving the matter his personal attention.

CONCERT WAS A DISTINCT SUCCESS

Charity Entertainment in Columbus Hall Last Night Was Indeed a Gem.

Certainly, without any exaggeration whatever, it is only fair to say that the concert which was held in Columbus Hall last night in aid of St. Bridget's Bazaar, was assuredly one of the very best and most entertaining of its kind ever held in Quebec. The highest praise is therefore due to the many talented and accomplished performers, as well as to the organizer and directress, Miss Emily Brady, to have afforded the audience such a splendid opportunity of contributing to a deserving charity and at the same time of spending a delightful evening. There was a large gathering present and that each and every item from the first to the last was appreciated and judged by the fact that every performer was recalled and the audience was just as enthusiastic after the three hours of entertainment as they were at the beginning. A lot of new talent was brought out last night that has perhaps seldom been heard in public before, and it seems most desirable that persons of such ability should be heard from more frequently. Concerts of the calibre of that held at Columbus Hall last night never come too often.

RELIGIOUS ADDRESS.

Dr. A. L. Gaebelein's Special Meetings in Y. M. C. A.

At 4 p.m. yesterday Dr. A. C. Gaebelein spoke on The Masterpiece of God. The speaker mentioned that God had produced two great masterpieces; one of creation, and the other redemption. Mr. Gaebelein spoke on the first chapter of Ephians, and said that it was God's highest revelation concerning Himself and concerning the Church. The Father planned for it, the Son came to the earth to redeem us and the Holy Spirit is here to make a reality of it in our lives. In whom we have redemption through His blood, the forgiveness of sins, according to the riches of His grace. At 8:00 p.m., Mr. Gaebelein spoke on the Work of Christ on the Cross. This was predicted and foreshadowed in the Old Testament. The Lord Jesus Christ's death gave us perfect justification, perfect peace with God, perfect standing, perfect power, perfect deliverance, perfect title. The meetings were not largely attended, the inclement weather probably having to do with the small attendance. We ask for a good audience this afternoon and evening, when the addresses will be The Masterpiece of God. Second address, 8:00 p.m., The Work of Christ on the Throne. You are missing rich blessings by not hearing Dr. A. C. Gaebelein at the Y.M.C.A. Hall, 4 p.m. and 8 p.m. Come and bring your friends.

RUSSIAN ACTRESS CHARMS HEARERS

TALENTED NAZIMOVA APPEARS IN BRILLIANT PRESENTATION OF "BELLA DONNA"

The elite of Quebec society filled the Auditorium last night to its utmost capacity to witness Nazimova, the great Russian actress, in the new play, in four acts, "Bella Donna," adapted from the novel by Robert Hichens and dramatized by James Bernard Fagan. The audience was specially noticeable by the presence of the English-speaking population of the city, who occupied over two-thirds the seats. His Honor the Lieutenant Governor Sir Francois with Lady Langelier and household were also present and occupied one of the lower boxes. Every one present must admit that Nazimova, in "Bella Donna," is no ordinary actress. She is the great Russian tragedienne and fascinating in the sinister Egyptian play. But the vast audience will have also to admit that this fascination is due, first to the strange, exotic Russian actress, and second to the stagecraft and not to the story Robert Hichens tells, or to his manner of telling it. The attraction lies in the descriptive portrayal and embellishment and not in the essentials for stage purposes in melodrama. However, the performance, with the aid of beautiful scenery, so faithfully realistic of Egyptian scenery and life, at times entrances the audience, especially the drawing room scene in the Villa Androu, near Luxor, and the distant echoes of the Mahomedans in prayer, and the wind music of the country, that is softly wafted through the open windows of the villa, followed by a storm that changes the scenic aspect into a scene of terror, so real in its stage mechanism and awe-inspiring in its conception. The deck scene on the yacht Lautia, on the Nile, where Bella, Mrs. Chestow, is found obeying the behest of her Egyptian lover Mohammed Barouch, in slowly poisoning her husband, when Dr. Myer Issacson comes to the rescue, and the scene in the fourth act, the exterior of the Villa Androu, one remarkable for scenic grandeur and true color to the subtlety of the plot. There is little inspiration in the story of "Bella Donna." It is a mystical story in subtle crime, with a dark, clinging vampire woman with a past married to a simple-minded Englishman, whose chances of succeeding to a title and a fortune look good. But succession having been assured to another branch of the family, Bella Donna sickens of domestic life; carries on an intrigue with an Egyptian lover, a man of wealth, and starts to get rid of her husband by administering poison in small doses. His friend and physician has followed the married couple to Egypt out of love for his friend—the husband—intervenes at the psychological moment, when Bella Donna confesses and rushes to her Egyptian lover, who repulses her because he cannot have scandal openly attached to him. Then she wanders out into the world in evening dress alone. Nazimova is extremely strong in her portrayal of the character of the soulless woman, ready to commit the crime of murder in her passion for pleasure and wealth. She is snaky in all the situations of her portrayal, but so finished in her subtlety that she does not produce feelings of abhorrence. Her tragedy acting is of a new style to a Quebec audience, and her acting is faultless in the personification of the character. There is great novelty in the play by the glamour of the Egyptian setting. The scenes on the Nile are beautiful in conception, but great as she is as a tragedienne, she cannot galvanize the part of Bella Donna into greatness for the elements of greatness are lacking in it. But she makes the audience hang on her every word and follow with the eye here every graceful motion—so graceful and so charming, that makes the audience forget the poverty of the past by her serpentine gracefulness and seductive voice and statuesque poses. She is supported by a good company. Mr. Charles Bryant in the role of Dr. Myer Issacson is an artist of excellent histrionic ability, and shares the honors with Nazimova. His portrayal of the cool, practising English physician, who discovers the secret of Bella Donna's treachery to her husband and determined resolution to save him and expose the true character of the woman he married, was extremely well acted, and added to the interest of the play. Mr. Herbert Percy, as the Hon. Nigel Armine, husband of Mrs. Chestow (Bella Donna), was also strong in his role, and to the last brought out the fine points of the English gentleman in his trust in his wife. Mr. Robert Whitworth, as Mahommed Baroudi, the Egyptian lover, was also very good in his role and brought out the finest diplomacy of the cunning Egyptian man of wealth with all his cool, calculating passions with true effect. The Egyptian attendants of Bella Donna were also very good, and on the whole the play is one that should be witnessed if for nothing else but to see the great Russian tragedienne, Nazimova, a high-class star that rarely visits Quebec.

Winnipeg, Oct. 20.—The tilted C. P. R. elevator at Transcona remains in the same position as at noon yesterday. Preparation are being made to tap the welling bins and run the grain through spouts into cars to be rushed to the lakes. With favorable weather for a few days, it is likely that this plan the loss of grain will be small.

TILTED ELEVATOR AT WINNIPEG

Winnipeg, Oct. 20.—The Inter-City soccer match between eleven representing Toronto and Montreal, played here today, resulted in a win for the representatives of the Queen City by a score of 3 to 1. The quality of football served up may have been below par, but much better could not have been expected under the conditions, which were more suited to water polo than soccer.

READ THE ADS ABOUT THE PONY CONTEST

It will certainly be hard to give a programme to please the public after the performance of "Bella Donna" by Madame Nazimova, but Mr. Paquet has booked for the rest of the week a bill that is in every way fit to follow such a treat as this for the theatre goers cannot expect to get stars like the great Russian actress every night.

The "Gougets," a novelty musical act that plays only in the larger theatres of the big cities, will be the first on the program this week, and we can expect that they will be very popular sensations in other great centres. That will be followed by "The Labakans," comedy acrobats who carry with them a wonderful dog that will amuse the most difficult and please the most severe critics.

The automatic doll "Enigma" is one of the best acts of vaudeville that has come to the theatre for a good many weeks, one that will interest the older people as well as the young ones. Gallagher and Hill will give us a very fine act of eccentric singing and talking. They are very fine comedians that have been appreciated in the best theatres. And to close the bill, the manager has booked Conroy and Leland, comedy monopedes, a

novelty that has never been seen in the province we might say; they are coming direct from Boston where they played a good many weeks in the same theatre.

proposes to take has not yet been determined.

FORTY THREE GERMANS HELD BY MEXICANS

Mexico City, October 20.—The holding of 43 Germans at Torreon by Gen. Francisco Villa as hostages against an attack by the federal forces has aroused the German government to make strong demands upon the Mexican Foreign Office to insure their safety.

DUFFY WINS HAMILTON ROUND-THE-BAY RACE

Hamilton, Ont., Oct. 20.—Only four started in the annual round-the-bay race of the Herald this morning. All finished fresh. It was the smallest field in 20 years that the race has been run.

General Villa permitted the Americans to depart from Torreon, but held the Germans, about the same number of French residents, ten or twelve Britishers and several Spaniards, declaring that his purpose was to use them as a foil to deter the federals from attacking the city. He also let it be known, according to advices received here, that they would be sacrificed unless the efforts to retake Torreon was abandoned.

The winner was James Duffy, Ramblers A. C., Hamilton, formerly of the Eaton A. A., Toronto. He won last year, when he made a new record of 1:46.15. His time today was 1:48.38. In view of the heavy going, the race this year was remarkable.

What action the Foreign Office

William Allen, of the Tiger A. C., finished second and George Hepburn, the Winnipeg Telegram winner, third, in 2:05.10, and George Robinson, Brinton A. C., Peterboro, fourth. Duffy finished two miles in the lead.

IN AND ABOUT TOWN

**MAN IS DROWNED
 IN LOUISE DOCK**

**SLIPPED OVER DORION'S
 WHARF—CRIES FOR HELP
 WERE HEARD BY SEVERAL.**

Ernest Sifard, aged twenty-two years, was drowned in the Louise Dock last evening shortly before 8 o'clock, and the body now lies at Moisan's Morgue where an inquest will be held by the Coroner this morning.

It appears that the young man, who comes from Petite Riviere, St. Francois, had been work in the city for some time past and was evidently looking for some friends on board a schooner which he sought at Dorion's wharf, when he slipped on the wet deck and fell into the water.

His cries for help attracted several persons who threw wood into the water hoping that the drowning man might grasp a piece and keep afloat until a boat would reach him. He could not swim at all, however, and sank for the third time where he had fallen in.

Sergeant McAneney and Constable Cullerton, of No. 10 Station, hearing of the drowning, went to the scene with a grapple and the body was recovered in about an hour's time.

**ST. CHARLES RIVER
 DAMMING SCHEME**

**ENGINEER REVIEWS PAST
 WORK AND GIVES INFORMATION ABOUT FUTURE**

The work in connection with the river St. Charles is showing excellent progress, and judging by the results obtained during the past few weeks the contract will be completed in the fall of 1915, and ready for the giving out of subsidiary contracts to follow, that will eventually convert the whole valley of the St. Charles into a most important industrial centre.

Mr. M. J. Butler, the eminent Canadian engineer, who is interested in the work of damming the river St. Charles, with the contracting firm of Messrs. Quinlan & Robertson, arrived in the city yesterday morning to inspect the work, and in an interview with a Chronicle representative yesterday afternoon said:

"The work on the damming of the St. Charles is now progressing in its splendid form. We have succeeded in driving over two hundred lineal feet of the steel sheet piling, and finished the first section of the excavation of 75 lineal feet for the coffer dam, and ready for the Rt. Hon. R. L. Borden when he comes to Quebec, to lay the corner stone."

"I might say that all the prospecting work is now finished, and if we are lucky enough to have fine weather next summer, will finish the dam by next fall, and in addition make good headway with the building of one of the two locks, to be installed in connection with the dam."

"In the meantime we will work at the construction as late as the weather will allow us this fall, and next spring when he recommence the work, we will push it ahead as fast as practically possible to obtain good results by next fall."

Mr. Butler was asked if he did not consider the damming of the River St. Charles as a valuable asset in the interest of Quebec's future commerce, and answered as follows:

"Of unquestionable value, and many of the citizens of Quebec have no present realization of the impetus this dam when finished will give to the trade of Quebec. It is but the key to a much larger development of the St. Charles river, and will have inestimable value as an import channel, while the river frontage of the St. Lawrence will have its value for the export trade. Wait until you see the plans, which are not yet wholly accepted, and then you will have an idea of the great importance of this work for the development of the whole valley of the St. Charles, and its future asset for Quebec."

"Quebec is at the turning point of its general development, and the citizens of Quebec as one man should appreciate the work being done for their port and city, by the government, and help along these prosperous conditions by ceasing to encourage any political agitation, and looking at the business side of things, refrain from politics altogether in this crucial hour, when the Government of the Dominion is favorable to the development of the port and welfare of the city of Quebec. It is therefore the policy of the people to turn out en masse and manifest their appreciation by welcoming Rt. Hon. Mr. Borden, who is coming here as Prime Minister of Canada, and the office he holds deserves to be shown every honor."

**LEVIS SHOWING
 QUEBEC THE WAY**

**CITIZENS OF SISTER TOWN
 DECORATE THEIR HOUSES
 TO HONOR BORDEN**

Rt. Hon. R. L. Borden, Premier of Canada, is due to arrive in Quebec tomorrow morning, accompanied by several of his cabinet colleagues, and will remain in Quebec three days, during which time he will inspect the public works in progress, and take observations of conditions that will determine the Government on its policy for the further development of the port and city of Quebec.

Hon. Mr. Borden is not in any sense visiting Quebec as a politician; he is coming here as Prime Minister of the Dominion, on a business mission, and as the Premier of Canada is deserving of the fullest recognition in honor of the exalted office he holds in trust as the guardian of the interests of Canada and the Canadian people.

The Borden administration is doing a great deal for the benefit of the port and city of Quebec and the citizens of Quebec should show their appreciation by turning out en masse to do him honor. Never heretofore in the annals of Quebec has a government done so much as the present administration is doing for the Ancient Capital.

Premier Borden is conferring these benefits upon the city and citizens of Quebec, is not looking for favor in return. When he was in opposition he often came to Quebec, and said that if it ever should come to pass that he would be chosen chief of a Canadian administration he would see that Quebec was at last dealt with justly, and he has well and truly kept his word.

A well known prominent Quebec Liberal was heard to say yesterday that Mr. Borden had conferred more favors on the people of Quebec in the short time he has been in office, than all the Dominion Premiers have done from the time of confederation. He advised that every citizen of Quebec should forget his political opinions during the visit of Mr. Borden, and turn out to do him the honor that is his due as a friend of Quebec, Prime Minister of Canada, and a gentleman of the highest qualities. For his part, he would call upon Mr. Borden when he arrives, and as a citizen of Quebec offer him his respect, and thank him for his generous treatment and spirit of justice to old Quebec.

"The people of Montreal and Toronto are ever in the front rank as a unit, when looking after the interests of their respective cities. They put their city's interest before politics, and if Quebecers had emulated their example years ago, our city would not be behind as it is today, but thanks to the just nature of Hon. Mr. Borden, Honorable by the dignity of his office, and honorable in the dignity of his distinguished character, we are at last destined to come into our own. It is therefore my advice to the citizens of Quebec to welcome the Canadian Chief with all the honor that is due, and let every citizen that has a flag, fly it to the breezes from the day of his arrival on Wednesday until after his departure on Friday next.

 These effects will be on view on Thursday, the 23rd instant, at ten o'clock.
 Oct. 21st

MINISTERS COMING FOR THE BANQUET

SEVERAL OF HIS COLLEAGUES WILL BE HERE WITH PREMIER BORDEN.

A meeting of the committee on arrangements in connection with the banquet to be tendered by the citizens of Quebec to Rt. Hon. R. L. Borden and his cabinet colleagues, to take place at the Chateau Frontenac tomorrow night, was held yesterday at the Board of Trade rooms and was presided over by Mayor Drouin.

The secretary, Mr. T. Levasseur, reported that there were no more cards of admission to the banquet; that the last of the 400 printed were sold out on Saturday last, and since then there had been fully 200 applications for cards. The members of the committee expressed their regret that the limited accommodation had all been disposed of.

Considerable routine business was disposed of regarding arrangements, and it was reported that besides the honored guest, the following members of his cabinet had sent letters of acceptance to the invitation to be present: Hon. L. P. Pelletier, Postmaster General; Hon. R. Rogers, Minister of Public Works; Hon. Mr. Hazen, Minister of Marine; Hon. Mr. Nantel, Minister of Inland Revenue, and Hon. Dr. Reid, Minister of Customs.

Hon. C. J. Doherty, with Hon. Mr. Coderre is absent visiting the Canadian West, Hon. Mr. Perley is in England, and Hon. F. Cochrane, Minister of Railways, is indisposed and confined to his home.

The meeting adjourned until tomorrow afternoon, when the order of speeches and other business will be decided.

LIFEBOAT DWELLING.
 A famous Cornish lifeboat, after years of service, has been converted into a dwelling, and is to let at \$3 a week. This old lifeboat has done duty as many wrecks. It was launched when the Mohagan went ashore on the Manacles with the loss of so many lives, and also at the stranding of the American liner Paris.

OSTEOPATHY

OBSERVANCE OF THANKSGIVING DAY.
 Thanksgiving Day was very quietly observed in this city yesterday. Services were held in a number of the churches, but apart from that business went on pretty much as usual, only the courts, banks, government and civic offices being closed.

TRAFALGAR DAY.
 An advertisement will be seen in another column in which the attention of the Daughters of the Empire and other ladies interested, is called to the fact that today is the one hundred and eighth anniversary of the naval victory of Trafalgar, in which England's glorious admiral hero Nelson, fell. All are invited to a meeting which will be held this afternoon in Morrin College, to discuss several patriotic questions.

PRESENTED WITH CLOCK.
 A pleasant event took place on Saturday afternoon, when Mr. Wilfrid Mountain, distributing clerk in the construction department of the Harbor Commission, on the eve of his marriage, was presented with a handsome clock by his fellow employees.
 An address testifying to the genuine esteem in which Mr. Mountain is held by his comrades, was read by Mr. Pat. Kerwin, and the recipient, who was taken by surprise, responded in suitable terms.

To Cure a Cold in One Day.
 Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box, 25 cents.

EUCHRE IN THE ST. PATRICK'S HALL
 The Ladies of St. Bridget's Table at the Bazaar in aid of St. Bridget's Home will hold a euchre in St. Patrick's Hall on Monday evening, October 27th. The entertainment promises to be a distinct success in matter of attendance, while the prizes which will be awarded are numerous and valuable. Tickets are on sale at thirty-five cents each.

ORGAN RECITAL
 The following is the programme of the recital to be given by Mr. E. A. Bishop at the Cathedral of the Holy Trinity this (Tuesday) evening at 8.30 o'clock:
 Concerto No. 1 (2nd movement).....Handel
 (By request.)
 Andante with Variations.....Beethoven
 Sonata Pontificale.....Lemmens
 Song Without Words.....Tschaikevsky
 Tempo di Minuetto.....Guilmant
 Intermezzo.....Callert
 Overture in E flat.....Faulkes

EIGHTH MARCHING SQUAD ROUNDDING INTO SHAPE.
 The marching squad of the Eighth Royal Rifles turned out in goodly numbers last evening despite the inclemency of the weather, and by eight o'clock there was almost a full attendance at the Drill Hall.
 The first hour was devoted to company and arm drill and the second hour was taken up with gymnastic exercises and a three-mile run. By the close of the night the men worked in a very snappy manner, which shows how well they are rounding into good shape.
 Weather permitting, there will be a parade every night for the remainder of the week, except Saturday night, and next Sunday afternoon there will probably be a march out with equipment.
 Before the close of the present week equipment will be issued to all ranks.

Hunger or Faintness
 between meals it is a frequent condition of school children.
 They do not get the right kind of food to nourish their bodies and brains.
 Try a dish of crisp Grape-Nuts and Cream
 They make the best men and women, too.

The Weather
 Toronto, Oct. 20.—The disturbance which was last night over Virginia moved northward to the Great Lakes and is now passing eastward to the Maritime provinces. In the centre of the disturbance the barometer is reading below twenty-nine inches. Showers have occurred in Ontario and Quebec and are now setting in over the Maritime provinces. The weather has been fair and cold in Manitoba and Saskatchewan and comparatively mild in Alberta.
 Minimum and maximum temperatures:
 Vancouver, 40, 48; Kamloops, 44, 50; Calgary, 28, 62; Edmonton, 28, 56; Prince Albert, 18, 28; Moose Jaw, 18, 33; Winnipeg, 20, 22; Parry Sound, 32, 38; London, 32, 42; Toronto, 38, 49; Kingston, 40, 54; Ottawa, 38, 52; Montreal, 40, 56; Quebec, 38, 54; St. John, 56, 62; Halifax, 58, 66.
 Forecasts.
 Lower Lakes and Georgian Bay and Ottawa Valley and Upper Lawrence: Strong winds and gales from northwest, colder with light local falls of rain or snow.
 Lower Lawrence: Showers today, followed by strong winds and gales from northwest and colder.
 Gulf: Strong winds and gales from eastward and rain.
 Maritime: Scutheasterly to southwesterly gales with rain.
 Superior: Strong northwesterly winds, mostly fair and cold, local snow flurries.
 Manitoba: Mostly fair and cold, but some light local rain or snow.
 Saskatchewan: Mostly fair, but some light local rain or snow, a little higher temperature.
 Alberta: Mostly fair and comparatively mild.

OTTAWA FOOTBALL TEAM VICTORIOUS

DEFEAT ST. LAWRENCE UNIVERSITY UNDER AMERICAN RULES, 26 TO 12.

Ottawa, Oct. 20.—In the exhibition of football under Canadian and American rules this afternoon, the Ottawa football team defeated that of St. Lawrence University by a score of 26 to 12. Heavy rains and a soggy field left the conditions very bad with the result that there was little brilliant football on either side. The Ottawas completely eclipsed the United States players in kicking and tackling and the Canton boys showed little that appealed to the spectators, though their passing and line plunging was good. They worked the forward pass for big gains and the locals were unable until the latter part of the first half to break up their wedged interference play. The St. Lawrence team scored 12 against 3 under the American rules, but in the last two quarters with Canadian football in force, the Ottawas piled up 23, while the visitors were shut out. Under the American rules, Kihian scored Ottawa's only points with a field goal. Long runs by Ryan and Gerrard featured. Father Stanton used a team composed mostly of substitutes. At the beginning of play the offense interference left the Ottawas bewildered and the St. Lawrence players marched twice from centre and across Ottawa's line for a try. Frank Shaughnessy, Tom Clancy and Jack Reid, the St. Lawrence coach, officiated and play was very clean, no penalties being handed out.

The line-up: Ottawa—Full back, Johnstone; right half, Megloughlin; left half, Boucher; quarter back, Killian; centre, Emmerston; right guard, Kuhn; left guard, O'Leary; right tackle, Fleming; left tackle, Disney; right end, Tubman; left end, Ryan.

St. Lawrence—Full back, R. Gardner; right half, Griswold; left half, E. Gardner; quarter back, Roundy; centre, McInnes; right guard, Kennedy; left guard, Morgan; right tackle, Kenney; left tackle, Hutchins; right end, Dodds; left end, Church.

Referee, Frank Shaughnessy. Umpires, J. Reid and Tom Clancy.

MEETING PROPOSED.

Chicago, Oct. 20.—The meeting of the National Baseball Commission, which was to have been held here today was not called to order. President Lynch, of the National League, was not in town and August Herrmann, chairman of the commission, left early for Cincinnati.

O. R. F. U. MATCH.

London, Oct. 20.—The local O. R. F. U. Juniors defeated the Toronto Argonaut intermediates this afternoon in an exhibition game by the score of 5 to 3. The field was heavy and both teams evenly matched and only one point score was made, with London excelling in kicking and bucking. Few runs were made as the field was a sea of mud in places.

BALL GAME PLAYED WHILE SNOW FALLS

Springfield, Ill., Oct. 20.—The New York Giants defeated the Chicago White Sox today, 6 to 4. Snow was falling while the contest was being played.

Governor Edward F. Dunne, escorted to the mound by Manager John McGraw, of the Giants, and President Comiskey, of the White Sox, pitched the first ball over the plate. The Sox got an early lead, but were unable to retain it. The teams are due to play tomorrow in Peoria. Score: R. H. E. White Sox 200 100 001—4 7 1

Giants 100 400 10*—6 8 0

Scott, Benz and Schalk; Mathewson, Fromme and Wingo.

HAMILTON ROWING CLUB FOOTBALL TEAM BEATEN

Toronto, Oct. 20.—Making their debut in O. R. F. U. senior company, the Hamilton Rowing Club team was beaten by Parkdale at the University of Toronto Stadium today by 24 to 5. The game was very loose at times, but productive of some good football. Hamilton Rowing Club is very weak in team play, but has the foundation for a formidable outfit. The Ambitious City club did not succeed in landing any of the Alert stars as was expected. Most of the players are from Hamilton intermediate ranks and in fairness to the visitors it should be said that it was their first appearance on the field as a team.

Parkdale—Flying wing, Lee; right half, Zimmerman; centre half, Bryan; left half, Bickle; quarter back, Gardner; centre scrimmage, Davidson; left scrimmage, Dudley right scrimmage, Carlaw; right inside, Pottery; left inside, Milton; right middle, Robinson; left middle, Barber; right outside, Simpson; left outside, Doane.

Hamilton Rowing Club—Flying wing, M. McKenna; right half, Clary; centre half, Smith; left half, Palmer; quarter back, J. McKenna; right scrimmage, Murphy; centre scrimmage, Jolly; left scrimmage, McNeilly; left inside, Burns; right inside, Powis; left middle, Keyes; right middle, Van Bickle; right outside, Moyer; left outside, Dodman.

Referee, Dr. Henry. Umpire, Geo Smith.

SOME SECRETS OF THE PRIZE RING

MANY BOXERS OWE THEIR TRIUMPHS TO THEIR BRAINS, SAYS CARPENTIER

Brains and will power, as well as the ability to punch and stop punches, are necessary if a man is to make a first-class boxer. There exists a tendency to treat boxing as a mere sport demanding little else but an orthodox knowledge of punching, coupled with brute strength. A greater mistake was never made.

These words are those of Georges Carpentier, champion of Europe, who points out that pugilists like the wonderful Freddie Welsh owe their success to the working of their brains during a combat, and that a brainy boxer "is bound to succeed against one who, although endowed with exceptional fistic talent and physical advantages, has not the brain to put this to the highest profit."

Hypnotism in the Ring.

As a matter of fact, boxers, like poets, are born, not made. "The instinct," says Carpentier, in his book, "My Methods," (Ewart, Seymour), "must in a marked degree be born in one. . . . The art of boxing cannot be taught to those whose inclination and aptitudes do not tend that way."

That is why he advises beginners to ask themselves first of all if they really have an aptitude, however small, for the art.

Apart from skill and aptitude, however, Carpentier considers that much can be done in the ring by influencing an opponent's mind. We all know that the force of mind of one person over the other may result in the former dominating the latter.

"This sort of mild hypnotic influence," says Carpentier, "plays a tremendous part in the ring, for if you can, either by your personal magnetism of actions, before and during a contest, make an opponent believe you can beat him, he is already on the down grade, as it were."

Tommy Burns was a great believer in this power of mentally subduing opponents before a contest, and it was even said of him that he hypnotized them. The very act of keeping them waiting for lengthy periods, while he unconcernedly disrobed and made other elaborate preparations for the fight, undoubtedly acted upon their nervous system with disastrous results.

Nobody knew this better than the ex-world champion, and he was perhaps the first of what might be called "brainy boxers" to appreciate the dire efficacy of this system of intimidation.

Methods Kept Secret.

For some time at the beginning of his career Carpentier was not regarded seriously by other pugilists. It was said he lacked punching powers—that he put no steam behind his blows. The explanation of this is particularly interesting. Carpentier says that from 14 to 18 years of age the bones of the hands are still in the soft stage, and he was strongly advised by numerous medical men who from time to time examined his hands to refrain from using all his force when punching, otherwise he would seriously jeopardize his pugilistic future.

The consequence was that he depended mostly upon what science he possessed.

"All this," he says, "was naturally kept a profound secret. Imagine my joy when, just before I met Bandman Rice, a specialist told me that my hands had sufficiently hardened to 'try them out.' It was perhaps unfortunate for my opponent that he should have been selected for 'my trial run,' as it were, for that was really the first time in my professional career that I felt unfettered and free to punch with all the pent-up energy of half-a-dozen years of restraint. This I did, and the change in my punching powers was noticeable to all. . . . Since that time I have, I think, shown that the 'finding of my punch' was not a myth, but, on the contrary, an accomplished fact. My victories over such heavyweights as Bombardier Wells and Lurie are sufficient testimony to my newly-acquired and, I hope, high-caliber punch."

Why English Boxers Fail.

In Carpentier's opinion English boxers are trained on wrong lines. They are just trained to flick their sparring partners, and this brings on a natural lassitude of action when engaged in actual contests.

It may be difficult he points out, to find men who will "stand for" punishment in a gymnasium, but that is where the Americans have proved themselves harder punchers, in that they pad and mask their sparring partners with face protectors, that no laxity may be necessary in the delivery of blows. The same condition should obtain while training as while actually fighting.

Value of Bluffing.

Carpentier's remarks on ring tactics are particularly interesting. "The clever tactician will often turn defeat into victory by mere strategy. Thus it is that the feigning of grogginess and other well known methods of bluffing an opponent are occasionally practiced with varying success by tactical boxers."

"In my contest with Wells, for example," continues Carpentier, "I concealed as much as possible the effects of the right punch that put me down. I could have got up at the count of six, but generalship told me to take the full respite.

"Then there is the boxer who will seek occasional repose by going down

from a harmless punch, while I have known others to take a count of nine, in the hope of deluding their opponents into the belief that the contest is practically over, to catch the latter as they carelessly step up to administer what they think is the coup de grace. Without either counselling or entirely approving of all these ring tricks, they are to be guarded against if not practiced."

How Wells Was Beaten.

Carpentier, by the way, lays great importance on changing the style of guard for each class of opponent. A different guard is needed when opposed to rugged boxers to that used when faced by a scientific boxer, and he mentions, apropos of his victory over Bombardier Wells at Ghent, that to adopt an upright posture when opposed to a tall, scientific boxer is to court trouble.

"I experienced this," he says, "in the first round of my contest with Bombardier Wells, and paid the penalty of my folly. Seeing that he was so much taller than myself and possessed of a far longer reach, it occurred to me that I had better stand up and hit him. To get near such a giant seemed almost an impossibility, so I tried to bring off some long-range punches. As most of these failed, and furthermore, I had been floored in my attempts to reach Wells, I realized that my guard must be altogether wrong. With boxing, as with all things, necessity is the mother of invention, so my mind wandered around for something new. Wells had a vulnerable stomach; my only means of success was to get there somehow. But how might I do so with the minimum risk to myself? No sooner had these reflections occupied my brain than I had formulated my new plan of campaign."

"Still too shaken in the second round to impose my altered methods, it was not until the third meeting that I began to appreciate their efficacy. When I realized that I had found the right road to victory all was plain sailing. That is why the contest at Ghent bore two distinct phases: one during which I was 'feeling my way,' so to speak, with almost calamitous results for me, and the other when I had completely changed my guard and tactics."

SARNIA SWAMPED.

Petrolia, Ont., Oct. 20.—Sarnia was completely swamped in a junior O. R. F. U. game here this afternoon by Petrolia by the score of 20 to 4. The locals outclassed the visitors with a heavier line and outplayed them, scoring the 20 points on four touchdowns.

AMERICAN BOWLERS Will Hold Their Next Tournament at Atlantic City.

New York, Oct. 20.—At a meeting of the National Bowling Association held here today, announcement was made that the next tournament of the association will be held in April at Atlantic City, N. J. M. W. Gage, of Rochester, N. Y., secretary of the association, will have charge of the tournament.

The contests will take place on 11 alleys and the first of them will not begin later than April 8. Teams and individual bowlers from all parts of the country are expected to participate in the tournament.

6,334,951,680,000 MILES.

This According to a Discovery Reported from Johannesburg Is the Diameter of the Universe, Which Is Bounded by the Milky Way.

Washington, Oct. 16.—The boundaries of the universe have been discovered, according to a report received at the National Observatory from Professor R. A. T. Innes, director of the Union Observatory at Johannesburg, South Africa. The universe, Professor Innes asserts, is contained within the space girdled by the Milky Way, and he figures that the distant star in that wonderful girdle is 540 light years distant from the earth. Inasmuch as the planetary system, of which the earth is a member, is commonly supposed by astronomers to be close to the centre of the area embraced within the Milky Way, and inasmuch as light travels 186,000 miles a second, or over five and three-quarters quadrillion miles a year, the diameter of the universe, by Professor Innes's calculation, is 6,334,951,680,000 miles. This is the distance light would travel in 1080 years. A ray of light takes 16 minutes and 36 seconds to traverse the diameter of the earth's orbit. The so-called "helium stars," the Johannesburg astronomer avers, are the most distant of all stars from the earth. The helium stars are peculiar to the Milky Way.

Professor Innes says that the most powerful telescopes penetrate far into space, beyond the boundaries of the universe—revealing nothing. In particular, he says, there is absolutely no sign of other universes of similarly constituted stellar system. He looked out beyond the universe—the air in South Africa is very clear—but his telescope discovered in those far-away depths of space none of those vague clouds called "nebulae," which some astronomers suppose to be star-systems in process of formation. Many of these nebulae are spiral-looking, and the conjecture is that they are whirling around and around, condensing themselves into solid globes, on which life may later appear.

The number of stars, according to Professor Innes, is limited, falling far short of the number of people on the earth. He estimates the mass of the universe as equal to 441,000 times the mass of the sun. That is to say, the combined mass of all the globes, big and little, in the universe is as heavy as the sun there are 300; of stars ten times as massive as the sun there are 5000; of stars equal in mass to the sun there are 200,000, and of stars smaller than the sun there are 16,000,000, 1,000,000 of which are one-tenth the mass of the sun; 5,000,000 are one one-hundredth of the sun's mass, and 10,000,000 are one one-thousandth of

Hard wear in the hard-finished worsteds— You simply can't wear them out.

That is one reason they are so desirable for men's Winter Suits.

But not the only reason. Semi-ready patterns are refined; nothing about them too conspicuous; nor are they so dull as to lose you in the crowd—many have beautiful silk threads to give them the right tone.

the sun's mass. There are besides small stars in scattered clusters, equal in the aggregate to 1000 times the sun's mass.

POPULATION VS. PRODUCTION

Application of Machinery Has Made Necessities of What Were Luxuries.

(From the Daily Iron Trade.) In the two decades between 1890 and 1910 the population of the United States increased from 63,000,000 to 93,000,000.

During the same period the ton-mileage of the railways increased from 65,000,000 to 225,000,000.

Therefore, while the population was increasing 50 per cent, the railroad tonnage mileage was increasing 400 per cent.

To satisfy the demands of traffic in 1890 the railroads of the United States moved the equivalent of one ton of freight a distance of 1032 miles for each individual; to satisfy the same demands in 1910, it was necessary to move the equivalent of one ton 2742 miles.

Now, let us take a further illustration to show that traffic and production are increasing much more rapidly than population.

Between 1890 and 1912 the production of pig iron grew from 8,500,000 tons annually to nearly 30,000,000 tons, an increase of 350 per cent.

In the same period the coal production grew from 140,000,000 to 550,000,000 tons, an increase of 400 per cent.

Between 1889 and 1912 the freight tonnage of the Sault Canal grew from 7,400,000 to 71,000,000 tons, an increase of 960 per cent in only 23 years.

If we plot the curve of population for several decades we shall obtain a fairly straight line showing an annual increase of 1.5 per cent.

The curves of production and traffic for the same period will be found to lie above the curve of population, with a strong tendency to escape at the top of the diagram.

The universal application of machinery to the arts and industries has multiplied products and has placed within reach of the humblest and poorest comforts and conveniences undreamed of a century ago.

The luxuries of yesterday are the necessities of today.

Mankind requires more than food, shelter and clothing, and we may, therefore, expect that consumption, production and traffic will continue to increase.

The world is confronting a situation which is sufficient to give one pause, for it would seem that if population, production and traffic maintain the same ratio that they have for three decades past, the curve of production will shoot into infinity.

At any rate, the figures show that the future is fraught with problems of the greatest weight to the human race.

—No. 451.— City of Quebec. To wit: District of Quebec. CITY OF QUEBEC. CITY HALL. BY-LAW No. 451. Annexation of the Municipality of Little River (La Petite Riviere), to the City of Quebec.

(Drawn up in the French Language.)

At a meeting of the Municipal Council of the City of Quebec, held on the 10th day of October, one thousand nine hundred and thirteen (1913) the following by-law was read for the first time.

It is ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts as follows:

1. After the approval of the present by-law by the municipal electors of the municipality of Little River (La Petite Riviere), in the manner prescribed by law, the territory now comprised within the limits of the said municipality of Little River (La Petite Riviere), shall be annexed to the city of Quebec and shall form part thereof as the ward known as "St. Charles ward."

2. St. Charles ward shall be represented in the Municipal Council of the City of Quebec by two Aldermen, who shall be elected in the manner provided by law, by the municipal electors of the territory so annexed possessing the qualifications prescribed by the charter of this city for voting at the election of one alderman for Seat No. 1, and one alderman for Seat No. 2, and the list of such electors shall be previously made out by the secretary-treasurer of the annexed municipality, who shall forward such list to the City Clerk.

3. As soon as the said Aldermen shall have been elected according to law and will be in default to sit in the Council of this City, the secretary-treasurer of the said Municipality of Little River (La Petite Riviere), shall deliver to the Treasurer of the City all minute books, registers, assessment or valuation rolls, archives, papers and documents whatsoever belonging to the Corporation of the said municipality of Little River (La Petite Riviere), as well as all sums of money that may be in his possession in his capacity of secretary-treasurer, and from and after the date of such delivery, all sums of money due or to become due to the former Corporation of the municipality of Little River (La Petite Riviere), shall be payable only to the Treasurer of the City of Quebec.

4. From and after the election of the said Aldermen, the City of Quebec shall alone be liable for the debts contracted by the Corporation of the municipality of Little River (La Petite Riviere), and all moveable and immovable property belonging to the said Corporation shall become and be the property of the City of Quebec.

5. Immediately after the said annexation, the City shall take the necessary steps to cause to be removed and to disappear the toll gates which are erected on the roads of the said municipality thus annexed.

6. The public roadways running from east to west in the said municipality shall be widened in such a manner as to be of a width of sixty feet (60').

7. Such widening shall be executed within two (2) years from the date of the annexation when and where the City Council shall adjudge it to be necessary, and it shall be executed in conformity with the alignment which shall have been fixed and determined previously by the City Engineer.

8. The land required for such widening and to straighten where necessary the said roads running from east to west, shall be ceded gratuitously to the City by the proprietors of the said lands bordering on the roads. And the Corporation of the said Municipality shall before annexation obtain the consent to that purpose of the proprietors interested.

9. The City of Quebec shall introduce the water works into the said roads as needs arises and when it will become necessary.

10. The said roads shall be lighted by means of electric light, in the course of the year following the annexation—and the electric tramway shall be extended upon the said roads within the two (2) years from the date of the annexation.

11. The fire brigade and fire department shall be increased so as to extend to the new ward the protection against fire.

12. During the five (5) years extending from the first of May, 1914, to the 30th of April, 1919, the buildings now existing in the municipality of Little River (La Petite Riviere), and those that will be built in the said new ward to the 30th of April, 1917, shall not be taxed at a higher rate than the rate now in force at Little River (La Petite Riviere), as regards assessments on immovables, and their value as presently entered in the valuation roll shall remain the same for the said purposes.

13. During the ten (10) years extending from the first of May, 1914, to the 30th of April, 1924, the lands employed as farming lands, including the buildings thereon presently erected, shall continue to be assessed at the rate and upon the value at which they are presently taxed, but only as long as they shall remain thus employed for farming purposes.

14. From the 30th of April, 1917, all lands upon which new buildings or new constructions shall be erected in the said ward, shall be subjected to be assessed in the same manner as in the other wards of the city.

15. The residents of the north side of the river who hold contracts with private companies for the supply of water shall be exempt from the water tax until the 30th of April, 1919.

16. The proprietors or occupants of lands used for farming purposes shall not pay, during the period of ten (10)

years following the annexation, any taxes or licenses whatsoever on animals and moveable effects used for the working of the said farming lands, except a tax of fifty cents (50c) per horse, ox or cow watered with water from the City aqueduct.

PUBLIC NOTICE.

Is hereby given them, in conformity to law, the above by-law will be read a second time, for adoption, on Friday, the seventeenth day of October instant, 1913.

By order, H. J. B. CHOUINARD, City Clerk.

CITY OF QUEBEC.

City of Quebec, District of Quebec.

BY-LAW NO. 449.

CONCERNING THE ANNEXATION OF VILLE MONTCALM TO THE CITY OF QUEBEC.

(Drawn up in the French Language.)

At a meeting of the Municipal Council of the City of Quebec, held at the City Hall, in the said City, on the 10th day of October, one thousand nine hundred and thirteen (1913), in conformity to law and in virtue of a by-law passed by this Council pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting were present two-thirds of the members composing the Council of the City of Quebec, that is to say:

His Worship the Mayor, Aldermen Beaumont, Campbell, Cannon, Collier, Cote, Dinan, Dussault, Emond, Fiset, Gauvin, Gosselin, Lantier, Lavigne, Lockwell, Madden, Morin, Plamondon, Pouliot, Trudel, Verret.

DRAFT OF BY-LAW

Concerning the Annexation of the Town of Montcalm to the City of Quebec.

It is ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts as follows:

1. After the approval of the present by-law by the majority of the municipal electors of the town of Montcalm who are proprietors, and who shall have recorded their vote on this by-law in the manner prescribed by law, and especially in accordance with section 71 of the Act 51-52 Victoria, chapter 78, it is enacted that the territory now comprised in the limits of the Town of Montcalm, shall, through the operation of the law, and in virtue of the present by-law, be annexed to the City of Quebec and shall form part thereof to all intents and purposes. The said Town of Montcalm shall then be one of the wards of the city of Quebec, and shall be known and designated as "Belvedere Ward."

The said annexation shall be effected on the following conditions, to wit:

2. The said ward shall be represented in the Council of the City of Quebec by two aldermen, in conformity to the Statute 1, George V, chapter 59, section 27, sub section 3a.

3. The first election of the two aldermen after the annexation shall take place under section 72 of the Act 51-52 Victoria, chapter 78, and shall be effected in the manner prescribed by law, by the municipal electors of the territory so annexed who possess the qualifications required by the charter of the said City for voting at the elections of such Aldermen respectively prepared by the secretary-treasurer of the annexed municipality who shall transmit the same to the City Clerk after having subdivided the polling districts in accordance with article 5378 of the Revised Statutes.

4. When the said Aldermen shall have been so elected and shall be legally entitled to sit in the City Council, the secretary-treasurer of the Town of Montcalm shall hand over to the treasurer of the city all the minute books, registers, assessment or valuation rolls, archives, papers and all documents whatsoever belonging to the Corporation of the Town of Montcalm, as well as all sums of money which may then be in his possession in his said capacity of secretary-treasurer, and from and after such delivery, all sums of money due and to become due to the former Corporation of the Town of Montcalm shall be payable to the City Treasurer only.

5. After the election of said Aldermen, the assets and liabilities of the Town of Montcalm shall be consolidated with the assets and liabilities of the City of Quebec, and that City shall be vested with the rights and be liable for the obligations legally contracted by the Town of Montcalm.

6. From the date of the annexation to the 30th of April, 1914, no other taxes shall be levied upon the inhabitants of the new ward than those imposed by the Council of the Town of Montcalm for the fiscal year 1913-14.

7. During the seven (7) years following the 1st May, 1914, the immovables of the new Belvedere Ward on which one or more buildings are erected, shall not be valued, either as to their real value or yearly or leasing value, for an amount higher than that at which they are now entered on the valuation roll of the Town of Montcalm. Lots of land on which one or more buildings are erected within three (3) years from now, shall during the remainder of the said years, be entered on the valuation roll at their real value.

8. During the ten years following the 1st May, 1914, the lands not divided into building lots and used solely for farming purposes, shall continue to be valued at the same rate as that for which they appear on the valuation roll of the Town of Montcalm, notwithstanding any improvements thereon, either as regards farming purposes or in connection with the houses and other buildings actually on them or those which may replace them for the same purposes,

during the said ten years.

9. The buildings and lands which are to have the privilege of a certain valuation for a certain number of years on the conditions set forth in articles 7 and 8 hereinabove, shall, during the said years, be assessed at the rate of 1/2 of 1% (one-half of one per cent.) for assessment on immovables, and 1/2 of 1% (one-half of one per cent.) for water rate on water and drainage, based upon the value mentioned in the valuation roll. This last mentioned tax on buildings surrounded by large tracts of land shall be imposed according to the mode actually practised in the city of Quebec, and as regards the lands upon which the water from the waterworks and drainage are not yet introduced, the water rate shall be one-eighth of one per cent. upon their value.

10. The waterworks now existing in the town of Montcalm shall, become the property of the City of Quebec, remain as separate as they are now; they shall be fed from the present sources and shall be maintained in good and effective condition and, except in case of fire, shall be used solely for the service of the Ward so annexed, and that so long as the City Engineer will judge it convenient in the interest of the efficiency of the general service of said Ward.

11. During the five years following the annexation, the City of Quebec shall spend an amount of at least two hundred and fifty thousand dollars on works of a permanent nature required in the ward, at the rate of at least one hundred thousand dollars for the first year; seventy-five thousand dollars for the second year; forty thousand dollars for the third year; twenty thousand dollars for the fourth year, and fifteen thousand dollars for the fifth year.

12. The Corporation of the City of Quebec shall introduce and maintain the water of the waterworks and shall construct and maintain sewers for drainage as well as cesspools, and put hydrants in the streets and avenues of the new ward when it shall deem the same expedient.

13. Within the limits of the new ward, the St. Foye Road, the St. Louis Road, the Belvedere Street, the Levis Avenue in Montcalm Park shall be paved or macadamized during the year 1914, as needs be, provided the water works and drainage systems shall have been introduced therein in a permanent manner.

14. The other streets shall be opened, paved or macadamized as need for the same arises.

15. All the streets and avenues of the new ward shall be as well lighted as those of the other wards of the City.

16. During the first year following the annexation, a fire alarm system shall be organized like the system of the City of Quebec,

The Claridge is primarily a hotel to live in

THE Claridge is not a port in a storm, but a permanent haven.

It is an individual hotel, for people who are individual in their preferences.

It is, above all, a hotel which combines the solid comfort of home life with many advantages which home is without.

Its construction, appointments, furnishings, and its cuisine are up to the modern minute of excellence.

And to live at The Claridge in one of its liberal, lofty suites, and to dine at The Claridge where dining is a pleasure, one need pay no more than one pays elsewhere for less.

Single Rooms \$2.00 upward
Room and Bath 3.00 upward

HOUSEHOLD DUTIES AND FAMILY CARES

severely tax a woman's strength and when wife or mother complains of fatigue, nervousness, loss of appetite or energy, she needs rest, out-of-door exercise and building up.

The first thought should be Scott's Emulsion, which is medicinal food free from alcohol or narcotics. Its nourishing force quickly fills hollow cheeks, builds healthy tissue, enriches the blood, restores the healthy glow, overcomes languor and makes tranquil nerves.

Nothing equals or compares with Scott's Emulsion for just such conditions, but insist on SCOTT'S. At any drug store.

THE PRESS URGES SPAIN TO TAME ITS OWN SAVAGES

Illiteracy in Alfonso's Kingdom Declared by Madrid Newspaper "National Disgrace."

12,000,000 OF HER PEOPLE NEITHER READ NOR WRITE.

Thirty Thousand Rural Villages Are Without Schools of Any Kind.

Madrid, Oct. 20.—In an article headed "Spain's National Disgrace" the *Heraldo de Madrid* (newspaper) says: "Out of a total population of some 19,000,000 that Spain possesses 12,000,000 can neither read nor write. In thousands of villages and small towns in the interior of the country no one knows how to read or write.

"There are in Spain 30,000 rural villages without schools of any kind, and many thousands which can only be reached by a bridge path, there being no high roads nor railway communication of any kind. Attendance at board schools is voluntary, not obligatory. Seventy-six per cent of the children in Spain are illiterate and this is especially noticeable in the capital.

"With such facts, such shameful ones, before us as the foregoing we have embarked on a mission (which is casting the country millions) to civilize Morocco. If it were not sad it would be laughable. Let us first set ourselves to educate and tame the innumerable savages we have among us before attempting to civilize Morocco.

"And this is Spain in the twentieth century! Would that heaven would send us a minister with the temperament and energy of Lloyd-George! Will those in power in Spain never awake to the real needs of the country?"

In this connection it is interesting to note that the first battalion of the King's Own Regiment has recently gone to join the army in Morocco, and that among the officers accompanying it was H. R. H. the Infant Don Alfonso de Bourbon, the Infanta Eulalia's son and the King's cousin. The little Prince of Asturias, heir presumptive to the Spanish throne, is honorary colonel of the regiment. He addressed the following telegram to the captain commanding the battalion:

"Greatly regretting that my tender years do not allow me to place myself at the head of my regiment, which is about to take the field in Morocco, I salute my comrades and brother officers, not forgetting the rank and file, wishing them all good fortune and occasions to add new laurels to their famous regiment."

SNOW IN KENTUCKY.

Louisville, Ky., Oct. 20.—A light fall of snow was recorded this morning in eastern and southern Kentucky. Trenton reported a fall of two inches and in several other places the ground was covered with one inch or more. The earliest fall of snow previously recorded in this state was on Oct. 27, nearly fifty years ago. There was a rapid fall in temperature tonight and freezing weather generally over the state is forecasted for tomorrow morning. Snow began falling in Louisville tonight.

A SPECIAL AND EXCLUSIVE FASHION-CRAFT SERVICE

The Special Order department of a Fashion-Craft shop gives to fastidious men, who have not been able to get exactly what they required, from the Fashion-Craft ready-to-wear stock, an opportunity of having their clothes made by Fashion-Craft cutters and tailors from their own individual measurements; each detail being carried out entirely to their own ideas of what they like best. This service brings at a reasonable price the highest grade garments, combined with the exclusiveness of the old style custom tailor.

Inspect Fashion-Craft special order samples before buying your new suit; absolute satisfaction guaranteed by L. A. ROY, Proprietor. Shops of Fashion-Craft, 178 St. John St., 128 St. Joseph St., Quebec.

FACING GALLOWS, NEGRO PINS FAITH TO RABBIT'S FOOT

Five Times Sentenced to Death for Murder and Each Time Saved.

NOW ABOUT TO GO TO TRIAL FOR SIXTH TIME

Crime Brutal One and Real Culprit May Be Another Negro Who Flew Country.

Birmingham, Ala., Oct. 20.—Probably the only man who ever has faced a death sentence six times on the charge of murder will be tried again by the Court of Anniston in this State late this month or early in November. The prisoner is Ervin Pope, colored, who is charged with killing J. B. McClurkin, a prominent planter of Oxford, near Anniston, in April, 1909.

Pope will face a death sentence with the assertion of his innocence after having been sentenced to death five times. The prisoner has never shown the slightest trace of fear. He says he carried in his pocket during all the trials the left hind foot of a rabbit "killed in a graveyard on a moonlight night," and this has saved his life five times.

The murder of McClurkin was brutal. He heard a noise near his barn and when he rode toward the scene, was knocked from his horse with a heavy cudgel. His head was beat to a pulp with a rock. Pope and another negro John Body, were arrested soon after the murder. Pope was well-to-do, being a successful farmer. He always paid his debts and had a good reputation, but the evidence was against him, strengthened by the allegations of Body who turned witness against him.

Pope was convicted of the crime for the first time in May, 1909. Shoes found in the barn in the rear of his house, overall buttons found in ashes around a washpot, a defect in one of the hoofs of a mule and other things, were introduced against him, but the most telling feature of the trial was the testimony of Body, who stated that he heard the scuffle between Pope and McClurkin, who pleaded for mercy, in front of his house, where the killing occurred. Body said he lighted a candle and wrote down the words of the victim and the name of Pope, so he might not forget them. When he was released from jail he fled the country and has not been heard from since.

Bitter feeling was manifested against Pope from the first. Special guards were kept at the jail during the hearing to protect the man from mob violence. As soon as he was convicted he was hurried away to Birmingham, where he has since been, except when carried to Anniston for trial.

A gallows was erected in the rear of the county jail for Pope's execution, and all was ready for his death, when a stay of execution was granted. The case was affirmed by the Supreme Court, but a rehearing was secured and a new trial ordered. He was convicted again by the lower court, April, 1910, and again a new hearing was ordered.

Pope was tried and convicted again in the spring, 1911, but the case was reversed and remanded on account of the admission of testimony which tended to exculpate John Body, who was believed by many to have been a party to the crime. Pope was tried for the fourth time in February of this year, convicted again on circumstantial evidence and sentenced to be hanged. The Supreme Court reversed the case in June on account of a ruling by Judge Coleman declining to admit the testimony of Body, which was said to have been contradictory to evidence on which the oft condemned man was sentenced. His fifth trial resulted similarly, but another new trial was granted.

The gallows on which Pope was to hang was an eyesore for several months, until the jail fence was raised to hide it from view. Pope insists that he is innocent, and declares he will never be executed so long as he carries in his pocket his rabbit's foot.

SHOOTING MICE IN HUNTING CAMP

Frederickton, N. B., Oct. 20.—Mr. John Boa, the expert rifle and revolver shot, who returned this week from a hunting trip to the Miramichi woods, spent the evenings of the rainy weather in a novel way in Guide Wm. Griffin, Jr.'s hunting camps.

A pocket search light and a 22 calibre revolver were Mr. Boa's equipment and he shot on an average of five mice on the floors of the camp daily, missing only one shot in the entire time. Mr. Boa was so well pleased with his trip that he is to return to New Brunswick again next season. It was his first trip for moose and other big game, and the mice shooting proved an interesting side line.

POLICE COMMISSIONER IS BASEBALL PRESIDENT

Philadelphia, Oct. 20.—William F. Baker, former police commissioner of New York, was today elected President of the Philadelphia National League Baseball Club, succeeding the late William H. Locke. The directors decided to retain Charles Dooin

**PEEVISH, CONSTIPATED CHILDREN
LOVE "CALIFORNIA SYRUP OF FIGS"**

**HARMLESS "FRUIT LAXATIVE"
CLEANSSES STOMACH, LIVER
AND BOWELS**

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once. When peevish, cross, listless, pale, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has stomach ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in just a few hours all the foul, consti-

pated waste, undigested food and sour bile gently moves out of its little bowels and you have a well, playful child again. You needn't coax sick children to take this harmless fruit laxative; they love its delicious taste and it always makes them feel splendid. Ask your druggist for a 50 cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages, and for grown-ups plainly on each bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

**U.S. LAW GIVES
MIGRATORY BIRDS
MORE PROTECTION**

Open Seasons All Over United States Carefully Indicated For Hunters.

**CLOSED SEASON
MADE PERPETUAL
IN THE WEST.**

In New York Duck Hunters Only Have Until Dec. 15 to Legally Bag Their Game.

Washington, Oct. 20.—The Migratory Bird bill, which President Wilson has signed, fixes the open seasons in New York as follows:
On brant, ducks and geese—Sept. 16 to Dec. 15.
On rails, coots and gallinules—Sept. 16 to Nov. 30.
On woodcock—Oct. 1 to Nov. 30.
On black-breasted and golden plover, on jacksnipe or Wilson snipe, and on greater or lesser yellow legs—Sept. 16 to Nov. 30.

Both dates are inclusive in each case, and all shooting must be between sunrise and sunset only. For New Jersey the open seasons are: Brant, &c., Nov. 1 to Jan. 31; rails, &c., Sept. 1 to Nov. 30; woodcock, Oct. 10 to Nov. 30; plover, &c., Sept. 1 to Dec. 15. For Connecticut the open seasons are: Brant, &c., Sept. 1 to Dec. 15; rails, &c., Sept. 16 to Nov. 30; woodcock, Oct. 10 to Nov. 30; plover, &c., Sept. 1 to Dec. 15.

There is no open season on wood-duck until 1918 in California, Connecticut, Illinois, Indiana, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, Washington, West Virginia and Wisconsin. In California coots may be taken from Oct. 15 to Jan. 31. That State is closed to rails until 1918. In Illinois woodcock are closed to 1918. Vermont is closed on rails to 1918.

There is no open season in the District of Columbia, Maryland, South Carolina or Virginia on migratory, insectivorous birds, except on reed birds or rice birds, from Sept. 1 to Oct. 31. There is no open season in any State until 1918 on bandtailed pigeons, little brown cranes, swans and curlew. It has been decided that doves are not covered by the new Federal law. They may be taken during the open season provided by State game laws. A perpetual closed season has been declared on all migratory birds passing over or at rest on any of the waters of the main streams of the Mississippi River between Minnesota and Tennessee, and of the Missouri River between Bismarck and Nebraska City.

The American Game Protective Association of New York City has prepared a table showing the exact open seasons provided by these new Federal regulations on all migratory game birds in every State of the Union. A comprehensive plan for the enforcement of the law has been made, but it is not yet fully worked out. The United States will be divided into thirteen districts, each in charge of an experienced inspector and a force of about 200 picked men selected by the State wardens.

There are 3,000,000 to 4,000,000 hunters in the country, it is estimated. For the present, arrests for technical violations will not be made.

**PROTESTANTS ELECTED
MISSIONARY BISHOPS**

New York, Oct. 20.—Four missionary Bishops of the Protestant Episcopal Church were elected today by the House of Bishops at the general convention. They are: Bishop of North Dakota, Hugh Burleson of New York City; Bishop of Spokane, W. B. Capers of Columbia, Tenn.; Bishop of Cuba, Milo H. Gates of New York City; Bishop of New Mexico, F. C. Howden, of Georgetown, D. C.

The action of the House of Bishops must be ratified by the House of Deputies before the new Bishops are appointed, but it is practically certain that the choice made by the former body will be allowed to stand.

TEMPLEMORE TOWED IN.

Boston, Oct. 20.—The steamer Templemore, abandoned on fire off the Virginia Capes, on Sept. 30, was towed into port today by the revenue cutter Androscoogin, which picked her up still burning, off the Georges Bank, six days ago.

The steamer probably will be turned over to the agents of the companies in which she was insured.

SERVIANS WITHDRAWN.

Belgrade, Oct. 20.—The Servian Government today notified the European powers that it had ordered its troops to withdraw immediately behind the Albanian frontier fixed by the Peace Conference held in London at the conclusion of the first Balkan war. This step complies with Austria's ultimatum.

**HOW "TOMMY" GETS
PAST THE CUSTOMS**

ENGLAND'S "ATKINS" DE-LIGHTS IN "BEATING THE GOVERNMENT TO IT"

Tommy Atkins, of England, is not more than human in being ready, at times to "make a bit out of the government," and if the government to be duped should happen to be that of another country, so much the better. Thus the news which came to hand a short time ago of the smuggling of large quantities of hashish from Austria into Egypt, through the agency of the British troops at Malta, illustrates the point. This is how it was done.

Members of the Army Service corps (who are, of course, entrusted with the supply of stores to regiments), imported the drug from Austria into Malta, labelled it as army goods, and stowed it in the docks until an outward bound troopship came along. It was then placed aboard with a great variety of army stores, and consigned to supply depots of the Army Service corps situated in different parts of Egypt. On arrival it was hidden away by prearranged plan until the native traders for whom it was intended could sneak into camp at dark and bargain for it. Some remarkably high prices were thus obtained, but the ruse was discovered and quashed.

An Opium Parcel.

The fact is, however, that the British soldier is not always the principal mover in these matters, for smugglers find him an indispensable convenience because of his facilities for getting about foreign countries. For example, the sergeant of a draft proceeding to India a year or two back was approached by a foreign-looking gentleman at Southampton with a request that he (the sergeant) should, for a consideration, deliver to a certain gentleman at Bombay a very bulky parcel. It was explained that the latter contained some valuable effects, that could not be trusted to the post, of a native gentleman who had died in England and had bequeathed them to a near relative at the port named. The sergeant agreed; but, owing to a mishap in the baggage-room on the voyage out, the parcel burst open, and was then seen to contain nothing but opium!

In another case, a smuggler's agent, disguised as a clergyman, gave a sergeant in London a packet, addressed to the Catholic chaplain of the troops in Cairo, which he was to hand over to a native priest, who would come on behalf of the former—the "priest," of course, being also an agent. This case, however, came to the knowledge of the general officer commanding, and was duly reported.

Bible Packed With Diamonds.

But even greater daring was shown by the unscrupulous rogue who actually prevailed upon an army chaplain at Kimberley to carry a bogus Bible, packed with diamonds stolen from the mines, to the thief's confederate in Cape Town! Soldiers have, however, occasionally done a little smuggling on their own account by acting as the agents of the Spaniards in Algeria and La Linea, near Gibraltar. The latter, of course, is a free port, so that tobacco, spirits, etc., are extremely cheap; but, although all Spaniards passing into Spain from the "Rock" are rigorously searched, British soldiers going there on leave are not interfered with, and are therefore free to act in collusion with smugglers, who in that part of the world are as plentiful as blackberries in autumn. Moreover, on returning to England from such stations, the soldier is not above taking a little risk on his own account, as may be inferred from the fact that dutiable goods have been discovered hidden in the magazines of rifles and deep in the "bells" of army instruments!

**HAD BAD SORE FOUR YEARS
ZAM-BUK HAS HEALED IT!**

Mrs. Wilson, 110 Wickson Ave., Toronto, says: "About four years ago a sore spot appeared on the right side of my face. This spot increased in size until it became about half an inch in diameter and very painful. I went to a doctor, but the ointment he gave me did not have any good effect. The sore continued to discharge freely, and was most painful. I had it cauterized, tried poultices, and all kinds of salves, but it was no good, and I continued to suffer from it for four years!

"A sample of Zam-Buk was one day given to me, and I used it. Although the quantity was so small, it seemed to do me some good, so I purchased a further supply.

"Each box did me more and more good, and to my delight, before I had been using Zam-Buk three weeks, I saw that it was going to heal the sore. In less than a month it was healed!

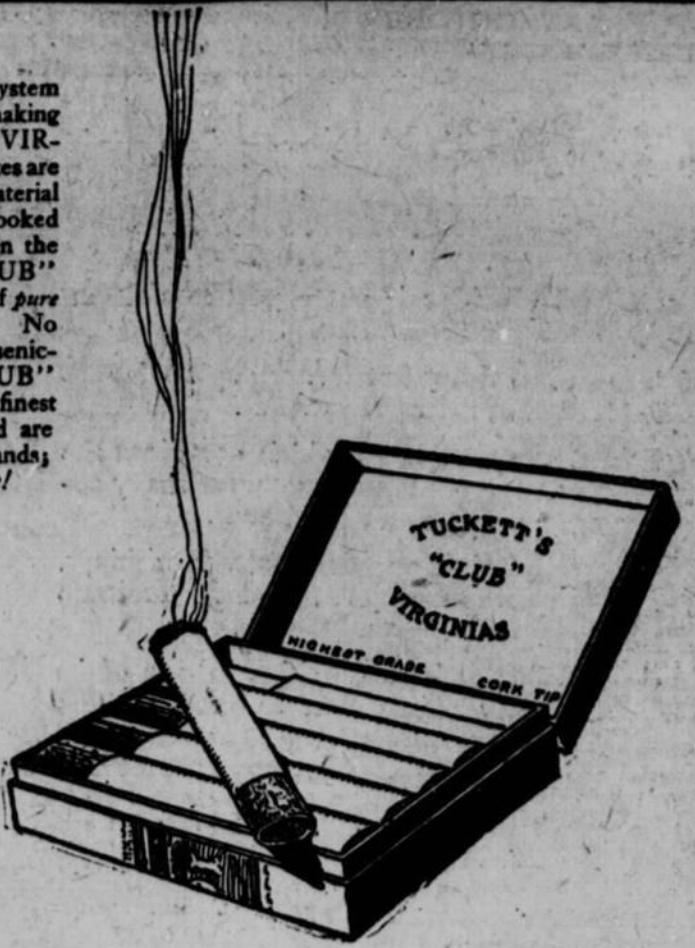

"I know a lady in the east of the city, whose husband suffered for years with an open sore on his leg. On my recommendation, Zam-Buk was tried in that case. The other day, when I saw her, she told me that it had healed the sore completely.

"My daughter, who lives in Lethbridge, Alta, has also used Zam-Buk with the same satisfactory results. I think it is, beyond all doubt, the finest healing balm known."

Such is the opinion of all persons who have the really tried Zam-Buk. It is a sure cure for eczema, piles, abscesses, ulcers, scalp sores, ringworm, cuts, burns, scalds, bruises, and all skin injuries and diseases. 50c. box, all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. In case of skin disease use also Zam-Buk Soap, 25c. tablet.

SO rigid, so unremitting is the system of scrutiny enforced in the making of Tuckett's "CLUB" VIRGINIAS that thousands of Cigarettes are discarded every day for slight, immaterial imperfections which would be overlooked by even the critical smoker. Even the paper in which Tuckett's "CLUB" VIRGINIAS are rolled is made of pure rice paper imported direct from France. No chances are taken with ordinary arsenic-tainted papers. Tuckett's "CLUB" VIRGINIAS are made from the finest selected growth of Virginia leaf and are equal to the exclusive imported brands; but—mark the difference in the price!

City of Quebec, District of Quebec.
To wit:
No. 24 A.
**CITY OF QUEBEC,
CITY HALL**

**BY-LAW NO. 24 A
TO AMEND BY-LAWS CONCERNING THE CONSTRUCTION OF BUILDINGS.**

(Drawn up in the French language.)
At a meeting of the Municipal Council of the City of Quebec, held on the tenth day of October, 1913, the following by-law was read for the first time.

It is ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts as follows:

- 1st. In the following wards of the City, to wit: St. Peter's, St. Louis and Palace, it is forbidden to erect any building whatsoever, even sheds, otherwise than in stone or brick or concrete (beton) or wooden wall recovered with brick of at least four inches in thickness, or with a wainscoting in asbestos cement, or with a rough cast in cement laid upon laths.
- 2nd. In the following wards of this City: St. John, Montcalm, St. Roch and Jacques Cartier, not only the houses, but also all the other buildings, shops, store houses, must be constructed of stone or brick or concrete (beton), or of wood covered with a wainscoting of brick of at least four inches in thickness, or with materials of cement asbestos, or with a rough cast of cement laid upon laths, with the exception of such sheds as are used exclusively to put in fuel or coal.
3. But even as regards such wooden sheds, their front walls bordering on a street, or public square, must also be of stone or brick or of wood recovered with brick of at least four inches in thickness, or of materials of cement asbestos, or of rough cast of cement laid upon laths. The other side may be covered with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise.
4. But if such shed does not border on a street or public square, the four sides may be covered with sheet iron laid upon a leaf of asbestos of at least fourteen pounds to the toise or square.
5. In the following wards of this City, to wit: St. Sauveur, St. Valier, St. Malo, Limoilou and Champlain, the front walls of the houses, shops, store houses, bordering on a street, or public square, must be constructed of stone or of brick or of concrete (beton), or of wood shielded with brick of at least four inches in thickness, or with materials of cement asbestos, or of rough cast cement laid upon laths.
6. The walls of wooden houses not bordering on a street of public square must be shielded with brick of at least four inches in thickness or of materials of cement asbestos, or with a rough cast of cement laid upon laths, or with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise, and the sheds must be completely covered with sheet iron.
7. In all the wards of the City, if a proprietor raises his wooden building by adding one or more stories, and that by this fact, the gable ends or side walls exceed the roofs of the neighboring buildings, such gable ends or side walls may be covered with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise.
8. In all the wards of this City, if the owner of a house already built wishes to shield the gable ends or sides thereof facing a yard or a vacant lot, he may cover them with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise.
9. In all the wards of this City, the porches and enclosed stairways situated on the outside of buildings must be shielded on their sides and on the top and bottom thereof with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise or square, or with other incombustible material above enumerated.
10. The wooden sheds or out-houses used as store houses upon the wharves must be shielded with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise or square. And if there is no wooden board shielding such asbestos must exceed by an inch on all sides the studs, rails or rafters.
11. Such sheds or out houses built on wharves must not be occupied as offices or rooms used as lodgings, unless such sheds be put in the same conditions as those required for the building of houses.
12. In the following wards: St. John, St. Roch, Montcalm, Jacques Cartier, St. Sauveur, St. Valier, St. Malo, Limoilou, Champlain, private stables and their dependencies occupied for domestic purposes shall be considered as sheds (hangars).
13. In all the wards of this City, it is forbidden to construct wooden buildings of more than thirty-five feet in height from the average level of the sidewalk to the highest point of the roof, nor having more than three stories above the basement in masonry.
14. In all the wards of the City, a wooden building constructed in conformity with the present by-law must be coated with brick, stone, materials of asbestos cement, or sheet iron immediately after it has been erected. In case the proprietor or builder should neglect to conform to the present by-law within thirty days after being notified by the City inspector of buildings to build such coating, the said building shall be considered as having been constructed contrary to law and to the by-laws of this Council.
15. In all the wards of the City, no wooden building already built and not shielded with incombustible materials will be allowed to be transferred from one lot of land to another, or from one portion of the said lot to another portion of the same lot, unless it be shielded in incombustible materials, as required by the present by-law immediately after such displacement.
16. In all the wards of the City, it is forbidden to use saw dust or shavings of wood between the floors or in roofs except as regards ice houses and refrigerators.
17. The outside cornices of buildings must be in incombustible materials, and in all cases the stone or brick walls behind the cornices must be extended up to the inferior side of the planking of the roof (or cut-fire wall, if need be), and such cornices shall be solidly fixed to the wall independently of all wood work.
18. Whenever there shall be old walls, chimneys, or buildings in ruins, either through age, or after fire which may menace public security, it shall be the duty of the City Inspector of Buildings to inspect the same and examine them, in company with a competent person and to draft a report stating the facts, and to deliver a copy of this report with a notice summoning the proprietor of the said building to demolish, throw down immediately the said walls, chimneys or buildings or any portion thereof which may be a menace to the public security, and the said proprietor shall then be bound and compelled to demolish or take them down immediately at his own cost or expense.
19. Every proprietor or builder must remove the materials from buildings in construction or in process of demolition through a dust made of wood or metal, running from the up-

per story down to a distance of two feet from the ground.

20. When a wall of a building must be erected alongside another wall already existing, whether the latter be a wall belonging to an adjoining building or that it belongs to a wall of a building the property of the person who erects the new wall, such new wall must be built of stone or brick or of wood shielded with brick of at least four inches in thickness.

21. In all the wards of the City, if a proprietor builds of wood or of brick two or more houses, he shall be bound to erect the dividing or cut-fire walls (coupe-feu) in brick or concrete, of at least eight inches in thickness between each or the said houses, and moreover the said dividing or cut-fire wall must be laid on a stone or concrete foundation.

22. The roofs of buildings in this City may be covered with five layers of tarred paper of ten ounces with one layer of gravel over. The said gravel must be dipped in warm pitch instead of metal.

23. Whoever proposes to build in this City any building whatsoever, or to execute upon a building repairs, the cost of which is valued at more than one hundred dollars, must before beginning such works of construction or of repairs, obtain from the City Building Inspector a written permit to execute the same.

24. The following sums shall have to be paid for the water from the waterworks used in the preparation of mortar or concrete to be used in the construction of buildings as follows, to wit:

A. For each thousand of bricks employed for the said building, ten cents (10 cts.).

B. For each cubic yard of masonry of stone, concrete or terra cotta, three cents (03c.).

C. For each one hundred yards in superficial of rough cast or deafening floor, fifty cents.

25. When a building is in course of construction in line with a street, the sidewalk must be kept all the time free of obstruction.

26. Every sidewalk, whether temporary or not, fronting a building in course of construction, must be provided at a height of eight feet above the sidewalk with a planking sufficiently strong and waterproof to protect the passers by against the fall of objects which might drop over them.

27. The provisions of By-law No. 24, passed by this Council on the 9th of August, 1912, which are incompatible with the provisions of the present by-law, are by the present by-law repealed.

28. Whoever infringes any of the provisions of the present by-law is liable to a fine not exceeding forty dollars, and in default of the said fine and costs thereof, liable to be imprisoned for a space of time not exceeding two months.

29. Each separate day during which an infringement of any of the above provisions shall be committed or continued during the day, shall constitute a distinct and separate offence punishable in the manner above prescribed.

PUBLIC NOTICE.

It is hereby given that, pursuant to law, the above By-law will be read a second time, for adoption, on Friday, the seventeenth day of October instant, 1913.

By order,
H. J. B. CHOUMINARD,
City Clerk.

WATERY BLISTERS INTENSELY ITCHY

Between Fingers. Spread to Tips. Would Swell Up, Itch and Burn. Did Not Dare Put Hands in Water. Cuticura Soap and Cuticura Ointment Cured.

Carman, Manitoba.—"A breaking out between my fingers was the first trouble. It was very itchy and spread to my finger tips affecting the nails. It first appeared in watery blisters and they were so intensely itchy I scratched them and let the water out making sores. They would swell up, itch and burn and finally the nails would loosen and come off. I spent many sleepless nights. I did not dare to put my hands in water except to wash them.

"I kept using ointments, Ointment, but was not cured. Sometimes the remedies would help a little but I was not free from it altogether. I was that way for nine years trying everything. I heard of Cuticura Soap and Ointment and sent for them and before I had used them half a dozen times I noticed an improvement. By washing with the Cuticura Soap and applying the Cuticura Ointment frequently I was cured in three months." (Signed) Miss Florence E. Sanderson, May 20, 1913.

For more than a generation Cuticura Soap and Ointment have afforded the most economical treatment for affections of the skin and scalp that torture, itch, burn, scale and destroy sleep. A single set is often sufficient. Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U.S.A.

WHAT ABATTOIR COMPANY DEMANDS

DETAILS OF THE PRIVILEGES ASKED FOR — EFFECT ON THE PUBLIC.

Mr. Director:
We wish to make plain to the public certain explanations in reference to the privileges which the Quebec Abattoir Company ask from the City Council.
The Company only asks for two special favors:
1. The exemption from taxation;
2. That the City should agree not to grant to any other Abattoir Companies, within the next few years, the rights of operation.
We exceedingly regret that such request has been misinterpreted to the public, and has been the cause of much discussion.

The Establishment of Slaughter Houses.
I may venture to say that I faithfully re-echo the various opinion that have been given on this subject in Quebec, by saying that each and every one admits of the urgent necessity of a general abattoir, and the enormous advantages which the city would benefit of by the construction and operation of such an establishment, from an industrial, commercial and hygienic viewpoint.

We are well aware that since thirty years or more, no serious company has ever taken firm ground within our walls, even with the advantages the city was disposed to offer.
Let us then consider in their just light the demands of the new Abattoir Company of Quebec.

Referring to Privilege Asked For.
Today, our markets are controlled by large Montreal and Toronto companies. Around one thousand (1,000) heads of cattle are weekly placed on our markets, of which one hundred and fifty or two hundred (150 or 200), are slaughtered here, and the balance purchased by the agents of outside companies.

As long as such companies do not meet with serious competition from us, they will certainly not establish themselves here, for one administration, and one plant is by far more economical.

It is to be apprehended that as soon as a serious company shall have created a slaughter house establishment here, and that on a large scale, these millionaire companies from Montreal, Toronto, and Chicago, shall avail themselves of the opportunity and will establish themselves among us, and then on the strength of the unlimited resources they have at their disposal, will run a strong competition against us, and endeavor, even in a disloyal matter, to shake us off the field. Then, the game will be theirs.

All that the Quebec Abattoir Company asks of the City Council, is that between now and a certain number of years, no permit shall be granted to any rival company or companies to establish themselves within our walls. When this maiden company shall have lasted a few years, it shall then be in a position to fight its own battle. But in order to enable it to prosper and help itself it is absolutely necessary to give it the proper time to gain a steady footing.

All the existing industries may continue their operations as heretofore. We simply ask of the city the promise not to issue any other permits in the future, within a special allotted time.

The Monopoly.
We misunderstand how we can create a monopoly. We do not intimate the controlling of the leather trade, the commerce of meat, nor other subsidiary industries.

Our line of business is to slaughter cattle, to place the meat in refrigerators, to manufacture the subsidiary products, and to conserve by canning and packing, all other products not otherwise disposed of on our markets. We do not even come within reach of the leather trade, and we may safely say that the butchers shall derive precious advantages from our establishment.

Actually they cannot supply first quality meat otherwise than by having it shipped from Montreal and Toronto. Ask your butcher to sell you 25 pounds of fillet of beef; he will have to procure it elsewhere for you, and you shall be called upon to pay, in addition to the current price, a certain sum, as indemnity for his trouble. Whereas in our establishments there will always be at your disposal a complete assortment of first quality meat.

Furthermore, they shall bring back their meat that has been slaughtered here, and will offer it for sale as heretofore.

The leather merchants shall have in addition to the 200 skins of cattle weekly slaughtered here at the present moment, the skins of 1,200 to 1,500 heads of cattle and possibly more. They shall, therefore, be given the opportunity to make a better choice, and to purchase on more profitable conditions.

The laboring man shall also not be called upon to pay so high a price for meat. Let it be well understood that the rise in the price of meat is due to the great competition among buyers, or on the other hand to a scarcity of meat. The establishment of slaughter houses in Quebec shall not increase the number of buyers. But on the other hand, such establishment would have for effect to greatly increase the quantity of goods offered to the public. As we have already said instead of 200 heads of cattle to be slaughtered weekly, there will be from 1,500 to 2,000 weekly slaughtered within our walls. It is therefore, but natural that the price of meat should be lowered. Our

idea on this point is certainly confirmed by the fact that the price of meat is comparatively lower in Montreal and Toronto than in Quebec. We openly defy any contradiction on the subject.

On the other hand the company is quite willing to submit itself to all regulations the Council may think advisable to adopt relative to the rates and conditions of slaughtering.

The company also binds itself not to sell its rights nor privileges and willingly agrees that their profit be granted on such conditions only.

I consider, Mr. Director, that with the help of the above explanations, the public should be able to justly judge the demands of the Quebec Abattoir Company.

I am quite confident that the bulk of our population shall reunite themselves with renewed energy in favor of a project which has for its principal aim to contribute to the commercial and industrial development of our city,—to revolutionize, while ameliorating, the hygienic and sanitary conditions of slaughtering, and distributing of meat.

We do not entertain the slightest doubt Mr. Director, that you shall intelligently enlighten your readers on this important subject, and that you shall stimulate them to place aside all small personal interests, when public interest and the general health of our population is at stake.

I have the honor to be,
Mr. Director,
Your very obedient servant,
THOMAS VIEN.

NEW C. P. R. LINERS.
Next season will see the Atlantic service of the C. P. augmented by the addition of two new steamers, which will make St. John their winter port of call. These two vessels will be on the one class cabin type, which are becoming so popular. Barclay Curle and Company, of Glasgow, secured the contract for the building of the ships some months ago, and the construction is well under way. They are being specially constructed for the Atlantic service, and will contain every possible convenience for the comfort of passengers. Their length will be 520 ft., greatest breadth 64 ft., while the breadth of the passenger deck will be 41 feet. Each vessel will have a capacity for 520 second-class passengers and 1,200 third-class, while the dead weight capacity will be 7,950 tons; with an approximate cargo capacity of 6,000 tons. The famous cruiser stern, which is the feature of the new Empresses recently placed on the Pacific coast, is being introduced, and the new ships will also have six complete steel decks. In order to ensure safety the hulls are to be sub-divided by watertight doors and bulkheads, so as to be capable of floating when three compartments are open. These watertight bulkheads and doors will be automatically controlled from the bridge. The speed of each vessel will be 15 knots, with a draught of 27.5. As for the interior of the vessels, each second-class state room will be fitted with a wardrobe and chest of drawers, folding lavatory with mirror, and other conveniences. The public rooms will be dining saloon, smoking room, lounge and drawing room. The refrigerating plant will be capable of making 300 lbs. of ice per eight hours. The vessels will be heated and ventilated on the thermotank system changing the air eight times each hour. There will also be a printing plant on board each vessel.

ALLIGATOR TRIES TO ENTER KITCHEN IN HEART OF CITY

Negro With Lasso Captures Three-Foot Reptile and Puts It On Exhibition.
Shreveport, Pa., Oct. 20.—An alligator three feet long and estimated to be between 15 and 25 years old, was found almost within the heart of the city in the early morning by Claude Ellis, a negro. The reptile was lassoed and captured. It was afterward displayed in the downtown section.

How the 'gator came to be in the densely populated section where it was found it is not known. There is no bayou or stream of any sort anywhere in the vicinity. It is thought that the reptile found its way through town by way of a system of semi-stagnated drainage ditches.

The negro who captured the alligator said he found it trying to crawl into the open window of a kitchen.

The temperature had dropped several degrees here within 24 hours, and it is thought the alligator was seeking warmth.

To Grow Hair on A Bald Head

BY A SPECIALIST.
Thousands of people suffer from baldness and falling hair, having tried nearly every advertised hair tonic and hair-grower without results, have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist: Bay Rum, 6 ounces; Lavona de Composee, 2 ounces; Menthol Crystals, one-half drachm. If you wish it perfumed, add half to one teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics.

IMPORTANT

Fresh from the press, thousands of copies of "October" Investment offerings are being sent to all points in the Dominion, giving to the investor, large or small, his choice of the most "attractive investments."

It is still within the power of the investor to procure some of the highest class Bonds and Stocks at lowest prices, but evidences of an early return of normal conditions are very marked, which will bring about a change as to the investment return now procurable.

Full particulars, with legal opinion, etc., can be had on application to

C. W. WALCOT,
Tel. 377. 98 St. Peter Street.

COMMERCIAL NEWS

NEW YORK STOCK MARKET.

McDonald & Lesperance, stock brokers, private wire to New York and Montreal, Hochelaga Bank Building, Telephone 1227.

(Canadian Press Service.)

New York, Oct. 20.—Hopes that the rise in stocks late last week was the prelude to a sustained upward movement were extinguished today in short order. For a time after the opening, it is true, prices rose slightly. This was largely under the spur of buying by London, which took about 10,000 shares on balance. A few stocks, including Denver & Rio Grande, Erie preferred, Rock Island preferred and American Car, rose a point or more. But it was soon apparent that a broad demand for stocks for the long account had developed in spite of the vigor of Saturday's upturn. The shorts, as they say how the market was shaping, ceased buying stocks to cover, and put out new lines instead. The market turned and early advances were soon replaced with losses. The list was well under Saturday's close most of the day, although a late rally reduced losses and in some cases cancelled them.

The discouraging feature, from the point of view of the bulls, was the ease with which prices were depressed. It required no great amount of selling in any quarter to force down quotations. The railroad list was heaviest, and such stocks as St. Paul, Lehigh, Reading, Pennsylvania, New York Central and Union Pacific were off 1 to 2 points at the low figures of the day. New Haven, which dropped 2 1/2 to 83, reached a new low record. Pennsylvania's heaviness was associated by further reports that the company was planning a billion dollars mortgage, although there was no official information on the subject.

The coppers were benefited temporarily by an advance in the metal in London. During the recent slump in the price of warrants abroad a large short interest apparently was built up and covering was believed to be the main factor in today's advance, although some improvement in the European market had been reported recently.

Foreign exchange rates advanced slightly today after reaching new low points for the year last week. Demand sterling is not far from the level of last August when there was talk of gold imports, but in view of the growing ease in the domestic money market and the unsettled conditions abroad, it is the opinion of international bankers that no steps will be taken at this time looking toward the bringing in of the metal. Such action, it was pointed out, probably would meet with decided opposition.

Bonds were irregular, with further pressure on Rock Island issues. Total sales, par value, \$1,150,000.

United States 2's advanced 1/4 on call.

NEW YORK STOCK MARKET.

Quotations on the New York Stock Exchange, as reported through BrunEAU & Dupuis, by Chas. Head & Co. Telephone 1596.

Dec	13.93	May	13.74
Jan	13.68	June	13.66
Feb	13.69	July	13.64

Spot closed steady. Middling uplands 14.30; do gulf 14.55c.

Sales 500 bales.

Liverpool.—Cotton, spot, good business and prices firm.

Am. mid. fair	810	Low mid	746
Good mid.	780	Good ordy	680
Middling	768	Ordinary	640

The sales of the day were 8000 bales of which 500 were for speculation and export, and included 6900 American. Receipts were 11,000 bales, including 10,500 American. Futures opened and closed steady.

AVIATION IN EUROPE AS VIEWED BY CURTISS

Well developed for Military Purposes but Not the Sportsman's Use.

London, Oct. 20.—Glen Curtiss, the New York aviator, speaking of his visits to France, Germany and Russia, said:

"I am quite satisfied with the results of my European trip. I am sending over two more waterplanes, but shall sail for America on the George Washington on Sunday.

"From the military point of view, aviation has been very well developed in Europe, but from the viewpoint of the sportsman hardly at all. I visited France, Germany and Russia, and I think that in aeroplanes, on the whole, France is ahead. The Germans and Russians are both working very hard, however. The English are doing most in waterplanes.

"Transatlantic flight is coming, but hardly enough prize money is offered at present to warrant the expense of such an undertaking. If \$100,000 were offered I think some one would try the trip. I would gladly build a machine, though I am not venturesome enough to undertake the flight without a navigator. I think some sort of adventurer is required to try such a flight. I don't think the engine would be the difficulty. They are pretty reliable now."

Mr. Curtiss's trip was for business purposes in connection with his flying boats, with which he gave a series of striking demonstrations at Brighton.

The Curtiss hydroplanes are to be managed here by Capt. Ernest Bass, who took his pilot's certificate at the Curtiss Aviation School at Lake Keu-

Public Notice Re Snow Guards.

The attention of the public is called to clauses 4 and 5 of By-law No. 23 concerning the lighting of certain portions of the city, which read as follows:

4. When the apparatus for the said lighting shall be placed in certain places where they may be exposed to damage through the fall of ice or snow coming from the roofs of buildings, the proprietor of said building shall place on the edge of the roof of said building a snow fender or an appropriate and convenient protection bar to prevent the fall on the said lighting apparatus of any snow or ice or objects of a similar nature to damage the said lighting apparatus.

5. If the owner of a building in this city omits or neglects to place on the edge of the roof of his building a snow fender sufficient to prevent the fall on the said electric lighting apparatus of snow or ice or other objects liable to damage the said lighting apparatus, such proprietor shall be liable to a fine not exceeding forty dollars, and in default of payment of the said fine and costs, to an imprisonment for a space of time not exceeding two months.

I have the honor to request proprietors opposite whose property ornamental poles have been erected to kindly have the snow guard above referred to erected immediately.

W. D. BAILLARGE,
City Engineer.

CORNWALL TO HAVE ANOTHER RIVER

Cornwall, Ont., Oct. 19.—Word has reached here that this section of the St. Lawrence River will shortly be opened by a stream which has heretofore been scarcely more than a creek in comparison to it. It is un-

derstood that the St. Lawrence River Power Company, of Masena, has received the consent of the authorities at Washington to dredge the Grasse River from the power house to the mouth of the river, a distance of nine miles, the work to be done at the expense of the power company, and work will be started at once. Application was made for permission to do this work in June last, and the consent of the department has just been received. The application was endorsed by the Massena Board of Trade and other organizations.

URGES 'REVISION' OF MINING LAWS

PRESIDENT OF AMERICAN CONGRESS PLEADS FOR WORKMEN'S COMPENSATION.

Philadelphia, Oct. 20.—"The crying need of the mining industry is a complete revision of the mining laws," declared Dr. David W. Brunton of Denver, president of the American Mining Congress, in his annual address here tonight. He referred to the so-called "apex" law as the most archaic that was ever placed upon the statute books. He inveighed against the recently passed laws in many western states which he declared placed new burdens upon mining property, but pleaded for the extension of workmen's compensation acts to all states.

"In every state in which compensation laws have been passed, so far as I am able to learn," said the speaker, "the results have been extremely gratifying. The cost to the employer has been no greater than before, while the sufferers get from two to ten times as much as they did under the antiquated laws in force in most states."

Dr. Brunton declared that the mine owner and miner of the west are being throttled by a gigantic smelting monopoly, which, he declared, not only dictates the price to be paid for ore, but in some instances how much ore may be produced.
"Wild cat" promotion was also scored by the speaker, who concluded his address with the statement that the greatest service the mining congress has so far accomplished has been the assistance given toward the creation of the Federal Bureau of Mines.

SUFFRAGETTE WORKS SYMPATHETIC RACKET.

London, October 20.—A dramatic appearance at the weekly suffragettes meeting was made today by Miss Annie Kenney, organizer of the Women's Social and Political Union, the militant suffragette organization. Suffering from the effects of a "hunger strike" in Holloway jail, the idol of the women's movement, looking extremely feeble, was borne into the hall on a stretcher and given a memorable reception by the crowded audience of women who stood on chairs and cheered until they were weary.

This was Miss Kenney's first appearance in public since her release and she reached the hall in an ambulance escorted by a guard of militant suffragettes in taxicabs.
The stretcher supported on chairs was placed in the middle of the platform where Miss Kenney lay motionless and only to whisper a few words to her friends.

Correspondence

THE ABATTOIR QUESTION.

Mr. Thos. Delany Thinks the Public Will Pay If Monopoly Is Granted.

Quebec, Oct. 20, 1913.
To Editor of Chronicle.

Dear Sir: Before the abattoir question has been settled, permit me to give my opinion. The gentlemen present their side very eloquently. But it is not a new industry which they offer the city.
They wish to compel over a hundred separate concerns who pay license fees and taxes to abandon their present plants and come any pay them for slaughtering. The butchering business as it has been carried on in this city for the past three years is being done with the minimum of profit and in some cases at an actual loss. It will stand no more expense and this is a very serious one.

If the gentlemen promoting this abattoir are serious as they say, then give them the right to build. Exempt them from taxes for, say, five, or even ten, years. But do not compel the other butchers to give up. If the proposed abattoir can improve present conditions as they say, they will, in time, get all the trade.

But that is a very different matter from the city giving them an absolute franchise.
If the city gives this proposed combine a monopoly it will naturally increase the cost of delivery to the public.
THOS. DELANY.

TORONTO SHAM BATTLE DOES NOT COME OFF.

Toronto, October 20.—The usual sham battle which takes place on Thanksgiving Day did not come off today. The military authorities of Toronto did not wish to have any brave defenders of the city run the risk of contracting colds, so when the day broke with a drizzling rain falling, they decided that the fight would not be pulled off. Unfortunately the Queen's Own Rifles, which had been selected to attack the city did not know about the arrangement. They marched forth early in the day to begin the invasion, but the other local regiments remained at the armories. The Queen's Own did some marching, of their own, and as the day grew brighter at noon, they enjoyed a good outing. A great deal of fun is being made locally of the regiments who would not defend the city in a rain-storm.

EVIDENCE NO CLEARER IN JEWISH MURDER CASE

Kiev, Oct. 20.—It was hoped that the testimony of the newspapersman, Brusskovsky, who investigated the case, would help to unravel the skein of hearsay evidence which has grown daily more tangled since the trial began. It had the reverse effect. Brusskovsky described an interview with Krassovsky, the former head of the Kiev Detective Service, after the arrest of Beiliss, at which Krassovsky declared: "An innocent man has been arrested."
Subsequently Krassovsky said to him: "I know nothing. It is all guess work. Vera Techeberiak is the key to the enigma."

This inspired Brusskovsky to make Vera's acquaintance. She told him, he said, that the Pridhikos—Yushinsky's mother and step-father—and a man named Mife killed Yushinsky. He arranged for an interview with Vera Techeberiak in the presence of a lawyer, at which she promised to reveal everything, but nothing came of the undertaking. At one time, he testified, the Techeberiak woman said to him: "I am going to avenge myself. It was Mary Mife who poisoned my children because I burnt the eyes of her son, Paul, with vitriol."

WILSON ELASTIC ON CURRENCY BILL

IS WILLING TO ACCEPT SUBSTANTIAL AMENDMENTS TO SECURE SPEEDY ACTION

Washington, Oct. 20.—With President Wilson willing to accept substantial amendments to the administration's currency bill in the hope of securing speedy action on the measure in the Senate committee, supporters of the amendment today grew optimistic over the chances for the passage of the measure before the end of the extra session of congress.

The President himself, in a letter to Majority Leader Underwood announced his willingness to consider a proposal for a recess of the House, because he said conferences with members of the Senate committee led him to believe the bill would be reported to the Senate the first week in November, and passed during the present session.

Republican members of the committee, and Senator Hitchcock of Nebraska were inclined to look upon this plan as too optimistic.
A reduction in the number of reserve banks fixed by the administration bill at 12, and the removal of the Secretary of Agriculture and the Comptroller of the Currency from the federal reserve board, which would control the new currency system, were the amendments which the President let it be known he would not oppose.

The proposed amendments would retain the federal reserve board as a strictly governmental institution, but would provide that it shall be composed of seven members, six to be appointed by the President and to devote their entire time to the work of the board, and the seventh to be the Secretary of the Treasury. The committee has not yet taken up the question of reducing the number of reserve banks, but suggestions have been made putting the number all the way from 3 to 10.

The proposal for a recess of the House was taken up at the White House and at the capitol today, and negotiations continued without any definite conclusion.

Mr. Underwood urged Representative Mann, the minority leader of the House, to consent to a recess of the House until Nov. 15. Mr. Mann, who has insisted that congress should adjourn because of his beliefs that the currency bill could not be enacted at the extra session, postponed decision on the request until tomorrow. Then he went to the Senate and discussed with Republican and Democratic members the President's assertion that the currency bill probably would be disposed of in November.

"I found," Mr. Mann said later, "that the Senate was without a quorum, as is the House. I found that the President had not consulted with Republican senators, nor received assurances from them that the currency bill would speedily be disposed of. I found that the President must have been mistaken, or else was very much misled."
Representative Mann had not decided tonight whether he would agree tomorrow to the passage of a joint resolution permitting a recess of the House. As a quorum of the House is not in town, the Democratic leaders cannot act without the consent of the Republicans.

MME. DELAUNAY'S METHOD OF MAKING BOOKS COMES HIGH.

Paris, October 20.—Mme. Sonia Delaunay, a talented Russian painter and the wife of Robert Delaunay, the leader of the so-called Orphist movement is applying the principles of her husband's system of painting—to square spots of color without drawing—to bookmaking. Already she has turned out a unique and handsome volume of poems. The pages are differently colored; no two consecutive lines of type are of the same color, and sometimes the color is changed in the middle of a word, getting an offset similar to the ancient illuminated texts. She does not obey Maxim Gorky's dictum to vary the color of the ink for passionate passages, gray for dull etc.—but she merely puts each page in color as a separate composition to please the eye. It costs \$100 to produce one volume.
