CANADIAN DESPATCHES.

THE ANCIENT CAPITAL.

Stringent Quarantine Precautions.—The
"Chronicle" issued for Label-Pol-
itical Gatherings.

QUEBEC, August 30.—It is feared that
other animals in the Levis quarantine,
in addition to the McCreas and Allan
herds, will have to be sacrificed. Every
possible precaution is being taken to pre-
vent the spread of the contagion. Owners
of stock are only asked to keep their
animals burning their clothing and of
afterwards bathing. The earth of the roadways
used by the animals is also to be burned
to the depth of a foot, and it is probable
the authorities will have to buy and
destroy all the cattle owned by farmers
around the quarantine.

Mr. Lawrence Lynch, who so worthily
represented the Quebec Branch of the
Irish National League, with Mr. McCar-
roll, at the Chicago convention, has en-
tered an action of \$5,000 damages for libel
against the *Morning Chronicle*, in conse-
quence of the latter's attack upon him
in connection with alleged remarks
made by him to the effect that
we had a protective tariff on
the other side to boycott English
goods. Editorially the *Chronicle* called
Mr. Lynch some very hard names, which
it is said they will now have to prove.
Besides these Mr. Lynch says he did not
use the words above quoted. The affair
causes a good deal of excitement.

There is a book in political gatherings.
Yesterday meetings were held in most of
the counties all over the province. Some
very characteristic speeches were made.

QUEEN CITY NOTES.

Safe Burial—A Confidence Operator.—
Address to Monsignor O'Brien.

TORONTO, August 30.—Brasill's gro-
cery store, corner of King and Jarvis
streets, was burglarized early this morn-
ing. The burglars had drilled a hole in
a large iron safe close to the combination,
and then inserting a punch they knocked
the combination to smithereens, and filled
the safe of all the money in the drawers,
which fortunately only consisted of a few
dollars in silver. They left behind them
three drills, punch, brace and screw ham-
mer, which were afterwards claimed by a
blacksmith, from whose shop they had
been stolen.

Hugh Patton, a resident of Milton, was
confined out of \$50 by a stranger with
bogus, cheque on July 14th at the Union
Station. The police have been looking
for this stranger since then and to-day
John Harvey, alias Harvey Wallace, well
known in criminal circles, was arrested as
the confidence operator.

The Catholics of Toronto, to-night,
presented an address to Mgr. O'Brien,
Papal Ablegate, congratulating him on
his visit to Canada, and expressing un-
swerving allegiance to the Holy Father.
The address was handsomely bound in
Morocco and contained sketches of St.
Michael's Cathedral and the Papal arms.
Mgr. O'Brien replied at length, thanking
him for his reception in this city.

COUNTY DEMONSTRATION.

Both Parties to the Front in Speech-
making at the Capital.

OTTAWA, August 30.—Sir John Mac-
donald's return to the city to-day after
his British Columbia trip was taken ad-
vantage of by leading Conservatives to
organize a counter demonstration to that
under Liberal auspices announced for to-
night when the Hon. Messrs. Blake and
Mowat were announced to address the elec-
tors. The roller rink having been secured
for the Blake-Mowat demonstration, the
Conservatives rented the Grand Opera
House. Both buildings were filled to the
top at the Liberal meeting Mr. A.
F. McIntyre, President of the Liberal
Association, occupied the chair. The principal
speakers were Messrs. Mowat and
Blake, and an address of thanks to these
gentlemen was subsequently moved by
Hon. R. W. Scott. At the Conserva-
tive meeting the chairman was Mr. T.
Stewart, President of the Conservative
Workingmen's Association. The speakers
were presented to Sir John Macdonald
congratulating him on his safe return,
and the Premier replied. Other speeches
followed by Sir Hector Langevin, Hon.
Messrs. Carling and Thompson, the local
members and others.

DOMINION RIFLE ASSOCIATION.

The Matches Opened at Ottawa Yester-
day—Wind and Rain Lower the
Scores.

OTTAWA, August 30.—The Dominion
Rifle Association meeting opened this
morning at nine o'clock. Heavy rain
showers a few hours previously made the
prospect rather poor, but the clouds had
largely cleared off by the time firing
commenced. A heavy wind accounts for
the low scores at 600 yards.

The first match fired was at 600
yards; and the prize winners were
as follows:—Trooper Duncan, P. L. D.

THE ENGLISH COMMONS.

BRITISH OCCUPATION OF BURMAH.

LONDON, August 30.—In the Commons
this evening, Sir J. E. Gorst, Under Sec-
retary for India, defended the annexation
of Burma on the ground that it was
necessary for the safety of India. He stated
that as soon as the cold season sets in the
Government intends to mass a force in
Burma to subjugate the country. The
Radicals supported two amendments to
the address condemning the annexation
of Burma. The amendments were
negated by majorities of 76 and 73 re-
spectively.

Mr. Clark, Radical, moved that
the debate on the address be
adjourned. Lord Churchill opposed
the motion, stating it was not
conceived with a view to public advan-
tage, and that the Government desired to
express its opinion to that effect. (Order
of "withdrawal.") Mr. Hingsworth,
Liberal, likened Churchill to Satan cer-
reting sin. (Laughter.) A lively scene
followed. The House finally divided
with the following result: For adjourn-
ing, 12; against, 197. Lord Churchill
then agreed to adjourn the debate.

OBSTRUCTION BY THE PARLIAMENT.

LONDON, August 31.—It is rumored
that the Perillites intend to oppose the
Government in its desire to hasten the
closing of the present session. There is a
likelihood of some all-night sittings over
the estimates. The Speaker ruled out of
order Mr. Pictou's amendment declaring
the result of the electoral count while it
showed that the country objected to the
land purchase scheme did not decide the
question of a Parliament in Dublin.

BULGARIAN AFFAIRS.

Prince Alexander Making a Triumphant
Tour.

RUSCHUK, August 30.—Prince Alexander
has been warned to take precautions
against possible attempts on his life by
Pan Slavist fanatics and followers of the
metropolitan element whose party has
manifestations in interior Bulgaria. Prince
Alexander arrived at Ruschuk at 8 o'clock
this morning; his progress through the
town was one continuous triumph. The
people lifted the Prince from his carriage
and carried him on their shoulders to
the great church where a Te Deum
was sung. The Prince afterwards started
for Timora and arrived there this
evening.

THE PRINCE'S MANIFESTO.

RUSCHUK, August 30.—A manifesto
has been issued by Prince Alexander.
It approves the measures adopted by the
Stambouloff regency, confirms the existing
Ministry and the appointment of Mut-
kouroff as commander-in-chief of the
army, thanks the people and army for
their fidelity and resolute attitude in
favor of independence, implores God's
blessing, and urges all to unite in pro-
moting the welfare of Bulgaria.

RUSSIA'S DESIGNS ON BULGARIA.

BERLIN, August 30.—The *Vossischezeitung*,
Berliner Tagblatt and *National Zeitung* in-
dicate that it is impossible for Germany and
Austria to tolerate a Russian occupa-
tion of Bulgaria. It is stated that M.
Niedhoff, Russian Ambassador at Con-
stantinople, in an interview with the
Grand Vizier, hinted at Russian occupa-
tion of Bulgaria, adding that if a hair of
one Russian was touched, Russia would
be compelled to interfere.

EXCITEMENT IN SOFIA.

RUSCHUK, August 30.—The populace
of Timora gave Prince Alexander an en-
thusiastic welcome. Advice from Sofia
say the city is excited and that some dis-
orders have occurred. M. Zankoff, the
revolutionary leader, was attacked by
the mob and nearly killed. It is expected
that the military plotters will be executed
and that amnesty will be granted to the
conspirators.

HURRICANE AND LOSS OF LIFE.

NASSAU, N.H., August 30.—A hurri-
cane swept over the island on the night
of the 22nd instant. The gale came from
the southeast and blew with great violence
for several hours. A number of houses
were blown down and others were
damaged and considerable injury was done
to fruit trees, fences, etc. Two schooners,
the *Emily Hope* and *Sponger*, went ashore
near Silver Bay and were total wrecks.
Two other small vessels dragged their
anchors and were driven over the bar and
out to sea. The American schooner W.
Mackie broke from her moorings at the
quarantine station, and went to sea with
her crew on board. Help was sent to her,
and she was safely towed into Egg Harbor
by the tug *Island*. Reports from
Borvo Island state that the storm
there was very heavy, and that many
shipping and fishing vessels were wrecked.
Some loss of life is reported.

A French Steamer Wrecked.

VALPARAISO, August 30.—The French
steamer *Ville de Metz* went ashore in a
fog to-day and was wrecked. The pas-
sengers and crew were saved.

SUMMER SAUNTERINGS.

No. 4.
Hotel Windsor, 605-611, The Home-
McKay Race on Wednesday, 1st Sept.

Back from the Adirondacks, weary and travel-worn, but so glad to get back. There is no place like home, and Hotel Windsor seems like home to all who enter its hospitable portals. We must leave our trip for next letter, as there is so much going on here that deserves chronicling.

The great Home-McKay race, for a prize of \$1,200, comes off on Wednesday, and we expect many Montreals besides a large party from New York.

For several days the lake has been like a mirror, reminding one of Lakes Placid and Mirror in the Adirondacks. The rival rowers, with their trainers, practice daily, and only hope they may have such a calm sheet for the great day. The ladies of the Methodist Church are making great preparations for the dinner in aid of the church, which is to be furnished to strangers on the day of the race for the small sum of thirty-five cents. On Tuesday evening we intend to have a "progressive euchre" party and dance at Hotel Windsor, where "progressive euchre" has been the rage during the past week.

But I am quite too previous in telling what we expect to do next week before describing our grand doings of last.

On Wednesday evening

MRS. LEONARD'S "AT HOME,"

at her residence, "Fairview Park," proved a brilliant success. About two hundred of the elite of the village and guests of the hotel attended, and a delightful evening was spent. The great house, with its myriad windows brilliantly lighted, threw a blaze of light across the lawn, and out over the calm waters of the bay, where lay moored the yacht "Mystic" with many other fair-lyle craft. Mrs. and Miss Leonard stood in the great entrance hall to receive their guests, who found the whole house thrown open to them. Delightful music enlivened the scene, and a *recherche* collation was served at ten o'clock. Dr. Hakes, of Philadelphia, afforded great pleasure by his brilliant violin selections, which were charmingly accompanied by Mrs. Perry (cousin of Mrs. Leonard), who is a brilliant pianist. On Thursday evening we had a "progressive euchre" party at the hotel and another on Saturday evening at the home of many of the players were Montreals. The prizes, which were very pretty and well selected, were graciously presented by Mrs. Howland, of Newark, Mrs. Duncan McCormick, of Cote St. Antoine, taking the star prize. Mr. M. Leonard the consolation and Mrs. Armour, of Newark, the trophy.

The hot weather has brought

BATHING

again into fashion and every day a gay party of ladies and children cross on the lake to Albion Tongue, where the beach is long and sandy, and the bathing very safe. The old ferry is in itself a picturesque and quaint little craft, being a sort of sailing vessel, with a broad stern, at each end of it that is possible; anywhere there is no difference between the bow and the stern, which lets down to form a gangway to the shore. Although built of solid wood, the old ferry is seemingly equipped with every modern contrivance, how many may be aboard, there is always room for a dozen more or another team.

Our mornings are enlivened by music, readings and recitations. Miss Beck, the young daughter of our host, possesses exceptional musical talent, while Mrs. Horrocks, a young widow of Newark, is a charming reader, and Mrs. Armour, also of Newark, is also talented as an elocutionist and recites beautifully. Yachting and fishing parties are every day affairs and we are kept well supplied with fresh fish. Now, when *tempus fugit*, the same man who made our clock tick, is found in the minds of Canadians, and we are flocking back to town to fuss and broil through the hottest days of the season, our American cousins who make both time and money fly freely do not seem to regard either. When asked if they must not hasten home,

SEND THE CHILDREN TO SCHOOL.

they reply that their schools do not open until the middle of September or first of October. As a rule their school hours are shorter, often only one session in the day, and, best of all, corporal punishment is obsolete in the best American schools. It is a pity that Canadians continue so far behind the times, and still believe in the old-fashioned whipping of their boys and the spirit out of them, yet expect them to grow up manly, straightforward, independent men? But the world moves; people are learning that brutal treatment must make a brutal boy, and hope to see the day when corporal punishment will be abolished in our public schools as it has been in the United States. In New York and other American cities it is the teachers themselves who object to whipping, having met together and decided that it is undignified and demoralizing for any man or woman to whip a defenseless little child.

For my own part I am always felt an utter contempt for any man who will thrash a little child, and feel assured that he must be a cowardly fellow, who would not dare to strike a man of his own size. To prove this we need only look at our colleges. Are not students there most usually sent to the principal, to what professor boys in the world, yet what professor would undertake to thrash them, and how soon they settle down steadily to work, and there is little trouble with them. We can all remember the conduct of some of our McGill College students last summer. Had they been little boys at the High School they would soon have been thrashed into object submission, but what was done with the students? If I remember rightly, they were allowed to dictate on what terms they would return to classes! It is very easy for any grown person to have enough.

BRUTE FORCE AND IGNORANCE

to thrash a child, but few are sufficiently depraved to brag of such exploits. It is only the power of the press that can ever suppress such oppression of the weak by the strong, and I hope to see THE HERALD place a few of our thrashing teachers upon the gridiron this season. A little roasting would make them more tender.

I must recommence to my readers

"The man with the broken ear," or, as it is called in Lovell's cheap library, "A new lease of life." The hero, a political spy, condemned to death, is saved by an idea of resuscitating him with a more convenient season. After being half dead he is placed in a rarified atmosphere, where all the fluids of his body are drawn off, and to complete the process of drying up he is baked in an oven; he is then safely packed away for half a century in a strange world in which his himself is very amusing. The moral seems to be that should we return to the world after even a few years absence we should find no place for us, and would be only too glad to get out of it again. It also shows that should dissociation prove feasible it

might lead to an easy solution of some difficulties. People who have made of life had become inextricably tangled, need no longer commit suicide, but could be

QUIETLY DRIED UP until affairs adjusted themselves. Then, again, that good old slang, "You dry up," would no longer be slang, but might be addressed to any person whose ideas were in advance of his age, such as mine and the subject of whipping children, and as doubtless some will wish me to be de-lasted, I shall be de-lasted until my next.

EPIPHONY.

P.S.—I must resuscitate myself to give you the names of Montreals now at Hotel Windsor, and Mrs. Duncan McCormick, and Master McCormick, Mr. and Mrs. Arthur, Mr. Molnes, private secretary to Sir George Stephen, the Messrs. James Crathern, Jackson, Howard Leslie, Higginbotham, Mr. distinguished American guest, the Messrs. A. B. Vanhorn (member of Congress), J. S. Ward, jr., banker, N.Y., W. C. Smith, general manager, Miss, & V. R. W. C. Fonda, member of Congress, J. Scanton, of Scranton, Penn., Dr. Fawcett, Dr. Murphy, Dr. Palmer, Dr. Hakes. Most of these gentlemen have their wives here with them, and we have also the wife and daughters of W. Higgins, the New York millionaire, but we have left out two most eligible bachelors as a *bonne bouche* for the ladies. They are James and James Rutherford, of the great New York family after whom Rutherford Square, New York, Rutherford Park, New Jersey, are named. The family have donated the ground for both. The Rutherford brothers have just come with a great haul of fine fish, including two marklings weighing over ten pounds each. When the fish are brought up each evening they are laid on the grass in front of the piazza and we all gather round as an admiring chorus while they are weighed.

TWO WOMEN WORSHIPED AS GODS.

Features of a Remarkable Religious Mania.

(Cincinnati Enquirer.)

One of the most remarkable religious manias of which there is any record has broken out in a little circle in Cincinnati. A party of thirty or forty people, most of them prominent and above the average in intelligence, believe that Mrs. John B. Martin, of Walnut Hill, is Christ manifest in the flesh, and that her sister, Mrs. John F. Brook, is the Holy Ghost. The followers of these two women meet at Mrs. Brooks' house and worship them both. Mrs. Martin has exerted some strange and wonderful influence that has put them completely in her power, and they are fanatics on the subject. One of the followers of this woman Christ is named Jerome. He was a book-keeper here for the Cincinnati agency of Dr. Appleton & Co., the New York publishers. He gave up his position of \$1,800 a year to serve the female Saviour of mankind. To an *Enquirer* reporter, who recently interviewed him, he said, in an earnest and eloquent conversation, "I have seen God face to face in the last half hour."

A young man named Cook, who works in the auditor's office of the Adams Express Company, has also been captured. He resigned his position, and has attached himself to the church. They believe that the new church is a fraud, and the preachers a set of fools. Accounting for the fact that Christ should manifest himself in a female, they say that in heaven there are no sexes, and the Saviour is as liable to appear in a woman as in a man. Martin, the "New Christ," and Mrs. Brook, the "Holy Ghost," they say, are the only two perfect women on earth, and that the millennium is at hand. This movement has been going on quietly for a year without becoming generally known. The women accuse themselves and will be seen by any one who is not a worshipper, or vouches for by one of them. Many have sold their homes and taken homes near the women on the hill. Those who have given up their positions say that they do not need work or money. They are spiritual food, and this will be furnished by the Lord, just as it was furnished to the children of Israel in the wilderness.

A Miss Andrews, who lives with her mother on Walnut Hill, is almost insane from excitement and passes her whole time in weeping, singing and praying. Her mother has to show her the folly of her belief, but in vain. Among the worshippers of these new gods, are Mrs. Judge Worthington, Mrs. Julia Carpenter, Miss Tillie Carpenter, Miss Emma Black, Mrs. L. H. Foulds, Mr. John Cook, Miss Cook, Mr. E. W. Jerome, Miss Marie Andrews, Mr. and Mrs. J. L. Burke, Mr. and Mrs. Reuben Sherwood, Mrs. Flora Miller, Mr. Shepherd, Miss Homit, and Mrs. Crocker. In this list are numbered some of the best people in Cincinnati. Exposure to public ridicule, it is thought, will bring them to their senses.

THE "LONDON NEWS" SAYS:

"Among the many specifics introduced to the public for the cure of dyspepsia, indigestion, derangements of various kinds and a general family medicine, none have met with such genuine appreciation as Hop Bitters. Introduced to this country but a short time, to meet the great demand for a pure, safe and perfect family medicine, it is the most popular medicine known. It is famous by reason of its inherent virtues. It does all that is claimed for it. It discharges its curative powers without any of the evil effects of other bitters or medicine, being perfectly safe and harmless for the most frail woman, smallest child, and weakest invalid."

"Few are the homes indeed where the great discovery has not been hailed as a deliverer and welcomed as a friend. It does what others affect to do. Composed of simple materials, it is a marvel of delicate and successful combination. Nothing is wanting. Every ingredient goes straight to the mark at which it is aimed, and never fails. Pleasant to the palate, agreeable to the stomach, and thoroughly effective as a cure, it has won for itself the confidence of all."

"Hop Bitters are used in six of the large London Hospitals, and in similar institutions throughout the world, and are the purest and best medicine ever made."

Given Up by the Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you it is true that he is entirely cured, and with nothing but Hop Bitters, and only ten days ago his doctors gave him up and said he must die, from Kidney and Liver trouble!"

None genuine without a bunch of green hops on the white label. Shun all the vile, poisonous stuff with "Hop" or "Bitters" names.

To get relief from indigestion, biliousness, constipation or torpid liver without disturbing the stomach or purging the bowels, take a few doses of Carter's Little Liver Pills, they will please you.

SHOOT THE

EASTERN TOWNSHIP NOTES.

St. John's, Farnham and the C. P. R.—Swindlers at the Farnham—Farnham—Four Young Montreals Preaching the Gospel.

The Chamblé mills are running full time. Mr. Willett employs 174 hands.

The Allen Grove Cheese Company, in Huntingdon County, are making twenty mammoth cheeses, weighing twelve hundred pounds each, for the Colonial exhibition.

Messrs. H. Lovell & Sons have purchased the Benson, Bennett & Co. lands, consisting of 4,437 acres in Oxford for \$13,311. The Cookshire Mill company has purchased from the British American Land Company 12,202 acres of land in Ditton and Newport for \$37,308.

The Bedford Times very properly warns the public against the swindling operations at fair time of the snide jewelry peddlers and the wheel of fortune and dice gamblers, who reap a rich harvest from the unsophisticated at the country exhibitions. But we fancy this is a case in which any amount of warning will go in at one ear and out at the other.

It seems to be a settled thing now that the Pacific Railway will run through St. John's and Farnham. It is indeed stated that the contract for the building of this portion of the line has been given to a Mr. Dunn, and that the work will be completed this fall. What route will be adopted beyond Farnham deponent saith not, and probably it would be hazardous even to surmise; but possibly a straight line via West Shefford, Stukely and Massena, will be adopted. St. John's is understood to give the Company \$10,000, and the Government, it is expected, will grant the aid asylum land, back of the court house, for a depot. The Richelieu will be bridged between Jones' bridge and the locks—St. John's News.

Mr. J. S. Williams, proprietor of Rugby Farm, and the well known breeder of thoroughbred stock, holds a large sale of Shorthorn cattle and Berkshire swine at Knowlton on the 13th September, the day previous to the Bromé Fair. The sale will comprise twenty head of thoroughbred cows and heifers bred from the most fashionable strains of short-horn blood. Mr. Williams has spared no expense or pains to bring his herd up to a high level and he takes a front rank, as he deserves, among the leading Canadian breeders. His sale on the 13th will be important to the farmers and stock raisers of the district who will have an opportunity of laying for themselves the foundation of better herds.

FOUR YOUNG MONTREALERS—Of the names of Carle, Cameron, Barnett and Judge, who have been boating from the city all the way to Ausable Chasm, New York State, and spending considerable time on Lake Champlain, reached Chamblé Canton on their return journey on Saturday night last. They pitched their tent and commenced work at once for Sunday services. Under the shadow of the old Fort they gathered a congregation at 4.15 p.m. and addresses were given by each of these young men. They supplied the congregation with copies of the sacred songs and solos of Stanley College, Montreal. They sang, F. E. Smith, Reg. merchant of Montreal, John Morrison, sen., of Chamblé, and the Rev. E. M. Taylor, Methodist minister, assisting. In the evening, after the sermon by the pastor in the Methodist Church, the young men sang and faithfully repeated the claims of the Christian religion upon all present. Mr. Carle, who is an excellent reader, and whose manner of address is very impressive, announced himself as a prospective minister of usefulness. He is a student of the "Bioscience Theological College, Montreal. If all pleasure-seekers from the cities would take a course in accord with that taken by these young men there would be a great difference in the results of effort. These young men are going back to the city with systems invigorated and minds at peace. No festering memories of ill-spent time.

MOVEMENTS OF PROMINENT PEOPLE.—Says the Canadian Gazette, London, Aug. 19.—Sir Adolphe P. Caron sails for Canada on Thursday, the 26th August.

Sir David L. Macpherson, Canadian Minister of the Interior, has returned to town from Germany much improved in health.

A number of French artists and scientists of distinction have visited the Dominion during the season of 1887. The Baron de Combourg has the organization of the proposed party in hand.

Canada was represented at the recent meeting of the International Medical Association at Brighton by Dr. Grant, of Ottawa, who is a Fellow of the Royal College of Physicians, and President of the International Medical Congress.

During Sir Charles Tupper's absence, the official correspondence of the High Commissioner's Office will be conducted by the Secretary, Mr. J. G. Colmer. At the Exhibition, Mr. C. C. Chipman, of the Canadian Commission, will act for the Executive Commission.

Lord Lansdowne landed at Liverpool early on Sunday morning [Aug. 16], and proceeded to his London residence, Lansdowne House, Berkeley Square, where he remained for a day or two and will join Lady Lansdowne at his country seat, Wood Park, Calne, Wilts. His Excellency's movements are undecided, but it is probable that he will return to the Dominion in October.

Mr. Julius Thomas, special correspondent of the Melbourne Argus and Australasian, is shortly about to return to Melbourne by way of the Canadian Pacific Railway. Mr. Thomas purposes being in British Columbia in October next, and will, during his trip, describe the beauties of the transcontinental route. It is four years ago since Mr. Thomas stayed some time at Moodyville on the Pacific coast, when he was at that early period engaged in an advocacy in various journals of the establishment of a line of steamers between Australasia and Burrard's Inlet.

Dr. Grant, in his address to the medical section, dwelt upon the great importance of the Canadian Pacific Railway, not only as a source of strength to the British Empire but also on account of the various health resorts, such as watering places, mineral springs, and non-consumptive centres which the new line had made easily accessible. The hot-springs at Banff were described in detail, and Dr. Grant expressed his belief that they were equal in every way to the well-known hot-springs of the United States. In the course of the meeting Dr. Grant and Dr. Hingston, of Montreal, were elected honorary members of the association, one of the most distinguished honors in the gift of the medical profession.

That tired languid feeling and dull headache is very disagreeable. Take two of Carter's Little Liver Pills before retiring, and you will find relief. They never fail to do good.

CORRESPONDENCE.

John Jordan the Boatman—The Champion Life Saver.

To the Editor of THE HERALD.

Sir,—Please publish the following in the columns of your popular journal.

There is living in our midst a very respectable citizen whose name appears at the heading hereof, and whose many heroic acts performed in the rescue from a watery grave in the River St. Lawrence during the past 40 years deserve some substantial public recognition to which he is justly entitled. Jordan's record as a life-saver is an extraordinary one, he being instrumental in saving some 150 human beings from drowning, at various times.

Jordan has been on the river since he was boy of ten years of age and is now about 50 years old. He is to-day as active and valiant as of yore. I will endeavor here to give a few of the many interesting cases in which he figured at the risk of his own life and without the remotest prospect of fee or reward, to rescue from drowning many persons who would otherwise have met death by drowning.

On 23rd Dec., 1853, Lieut. Carpenter, R. A., whilst skating broke through the ice on the river, when about midway to the island, and would have been drowned had not Jordan rescued him. For which Jordan received the Royal Humane Society's medal and certificate.

In the spring of same year, 1853, two civilians, named Higgins, were capsized from their boat in mid-stream, and were saved by the Hero of the River—Jordan. Another rescue: In 1855 five soldiers started in a boat from the city bound for the island, and on striking the current the boat was instantly upset and its occupants thrown in the water. Jordan reached the scene of the accident in time to save two of the men; the others were drowned.

On another occasion, Col. Cole, of the 17th Regiment, and his wife were being rowed across from the Government wharf to the island by Jordan, when nearing the island four young men were seen floundering in the water and their boat, keel upwards, floating away from Jordan. Jordan took in the situation at a glance, and requested permission of the gallant Colonel to go to the rescue. Jordan energetically went to work and saved all four. Mr. Jordan also saved Lieut. Thompson, of the 20th Regiment, and a bandman of the same regiment. Jordan also rescued two officers of the 20th Regiment, who very imprudently ventured on the ice before it had properly thawed. The ice carried them down towards Isle Ronde, where they were taken off by Jordan.

About the same time, some twenty-five officers, men and women of the 20th Regiment had a terrible experience. They attempted to cross to the island in the garbion boat, and when about mid stream the floating ice, which was then moving down stream, rendered the passage across both a difficult and a dangerous one to those inexperienced navigators. The boat, with its living freight, drifted helplessly down the stream, the crew becoming demoralized, and the passengers panic stricken with fear. Jordan observed the position of affairs, and fearing a catastrophe, immediately put out in his small boat and reached the garbion boat when nearly opposite Hochelaga. As might be supposed, he was hailed as a deliverer with transports of joy. Fortunately, the ice had got jammed between Boncherville Island and Longue Pointe. Jordan here performed one of the most heroic actions of his life. After quieting the terrified occupants of the boat, and giving them proper advice as to keeping their positions in the boat, he set out alone for the north shore, testing the ice foot by foot, and finding the ice strong enough to carry his weight, he returned to the boat and brought one passenger to shore. Retracing his steps, and repeated the same till the 25 passengers were safely landed at Longue Pointe, whence they were conveyed to the Barracks at Montreal.

Moreover, a sailor who accidentally fell off the yard-arm of a ship and who sank for the third time was saved by Jordan. Again, a man, evidently in *delirium tremens* threw himself from the long wharf into the river. This took place at midnight. Jordan jumped in and rescued him. Also a young man named Provost accidentally fell out of a boat and was being carried down stream but was saved by Jordan. And a young man named J. Ryan was saved by Mr. Jordan; also a lad named Murray, Mr. McAuley, Mr. Nicholson, &c.

Another distressing case is that of two young men who were having a sail on the river opposite Varennes. The boat was overturned and they were pitched into the river; one of the men managed to get hold of the scow of a wood barge and the other was picked up by Jordan some half a mile away from the scene of the mishap. Mr. Jordan conveyed the young man to his parents at Varennes, and was offered pecuniary reward, which he declined.

Mr. Jordan is also in possession of several medals for gallantry and swimming. Numerous other interesting and thrilling cases could be cited, but I fear additional details would encroach too much upon your valuable space, all tending in the same direction, whereby Jordan's pluck and daring are clearly exhibited. With such a splendid record Jordan's name will go down to posterity as the hero of the St. Lawrence and the champion life saver of the Dominion.

Jordan's long, faithful and gratuitous services rendered in the cause of humanity, certainly entitle him to receive some substantial testimonial from the Dominion Government. The member for Montreal Centre should perform an act of justice by presenting this case before the Minister of Marine and Fisheries and urging it on to a successful issue.

Yours, respectfully, ADMIRER.

A Wise Precaution.

During the Summer and Fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

Miscellaneous.

GOLDEN MEDICAL DISCOVERY.

CURES ALL HUMORS.

from a common Itch, or Eruption, or any of the worst skin diseases, or humors, or scaly or rough skin, or in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great EATING Ulcers rapidly heal under its benign influence. Especially its use manifests its potency in curing Tetters, Rose Rash, Boils, Carbuncles, Erysipelas, and all the terrible swellings, Hip-Joint Disease, White Swellings, Gout, or Thick Neck, Enlarged Glands, and all the same amount for treated on Scrofulous Affections.

"THE BLOOD IS THE LIFE." The Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, vital strength, and soundness of constitution, will be established.

CONSUMPTION.

which is Scrofulous Disease of the Lungs, is promptly and certainly arrested and cured by the Golden Medical Discovery. It cures before the last stages of the disease are reached. From its wonderful power over the terrible fatal disease, when first offering this new celebrated remedy to the public, Dr. Pierce thought surely of some Scrofulous Affection, but abandoned that name as too limited for a medicine which, from its broader combining of tonic, or stimulant, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequalled, not only as a remedy for consumption of the lungs, but for all.

CHRONIC DISEASES.

OF THE Liver, Blood, and Lungs.

If you feel dull, drowsy, debilitated, have a yellow color of skin, or yellowish mucus on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chilliness, with burning, itching, or smarting, or gloomy forebodings, irregular appetite, and coated tongue, you are suffering from Indigestion, Dyspepsia, and Torpid Liver, or "Biliousness." In many cases only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Bronchitis, Coughs, Croup, Hoarseness, and all kindred affections, it is a sovereign remedy. Send ten cents in stamps for a copy of the book on Consumption. Sold by Druggists.

PRICE \$1.00, FOR \$5.00.
