

PARIS STUDENTS
DEFY THE UNIONSDecide to Finish Club-house
by Their Own
Labor

ARE TIRED OF STRIKES

Guarded by Policemen They Com-
mence Placing of Girders to
Receive the Roof.

Paris, Sept. 22.—The students of Paris are in a fair way of getting a home of their own through their own particular manual work, provided they do not get into a row with the trades unions. For a long time the students cherished an ambition to have a club-house of their own. After long negotiations they succeeded in getting from the city an old building, which had formerly been used by the faculty of the College of Medicine. There was a proviso, however, that the students should preserve the historic parts of the building. In order to do this and provide a proper meeting place, it was necessary to reconstruct the building. The money for this purpose was raised by the students by entertainments and subscriptions and the work was begun.

The students were counting on being able to enter their new home on the 16th of last January, but repeated strikes among the men employed on the building threatened to postpone its completion indefinitely. The students finally got tired of waiting for the strikers to resume work, and determined to undertake to do the work with their own hands. Three stories of the building were covered, and it was only necessary to place 15 metal girders in position to allow the roof to be put on and enable the plasterers and painters to complete the inside work.

Some of the students began the work to-day and began hoisting the beams into place. Half a dozen policemen supervised the operations in order to prevent interference from the strikers.

ELEPHANTS HOLD UP CITY

Santa Barbara, Cal., Sept. 22.—Eight elephants belonging to a circus stampeded shortly before daylight to-day and invaded the residence section of the city. Fences were torn down and scores of fruit trees uprooted by the surging animals before they were controlled. One great beast demolished the porch at the home of B. F. Hammond and overturned addition to the house recently erected. The elephants were corralled in a swamp in the outskirts of the city. The stampede was caused by an attempt to take a calf from its mother.

LONGBOAT A FAIR ATTRACTION

Toronto, Sept. 22.—Tom Luncheon and his manager, Sol Mintz, of Hamilton, are taking in the fall fairs, giving exhibition runs and reaping a rich harvest. The Indian has cut out his loafing and drinking and has got down to business with the result that Mintz says he will be in his old time form when the running season opens again this fall. The professional racing game opens up again here on Oct. 2 at Scarborough Beach when Tom Flannigan will bring Al Herzberg's new wonder, Mueller, of New York, over for an open 12 mile race. Percy C. Sellen, Fred Meadows and F. Nebelich, of Buffalo, are all sure starters against Shrub, Longboat or any one else that likes can come in.

TO-DAY'S HORSE PARADE.

Great interest is being taken in the work horse parade which is to be held on the Q.A.A. grounds this afternoon, and there are already 70 entries for the event. The judge for the parade is to be brought from Montreal.

The ladies' branch of the S. P. C. A., under whose auspices the show is to be given, are to be congratulated upon the success which they have met with in their arduous labors, and which are sure to be productive of so much good. It is to be trusted that all lovers of dumb animals will turn out and aid in the good work on which the ladies have spent so much time and trouble in organizing.

MASS FOR DECEASED BISHOPS.

This morning at 9 o'clock a solemn requiem mass will be sung at the Basilica for deceased Bishops. The celebrant will be Mgr. McCarthy, of Halifax, while two sermons will be preached, one in English, by Mgr. McDonald, Bishop of Victoria, and the other in French, by Mgr. Brunault, Bishop of Nicolet. Should the weather prove fine a procession of the prelates from the Archbishop's Palace to the Basilica will take place following the same route as that of last Sunday morning.

RIOTS OVER A
STREET CAR STRIKEOne Man Seriously Injured by Pistol
Shot and Others Wounded
by Missiles.

Omaha, Neb., Sept. 22.—John Petrick, a bystander, was shot through the hip and seriously wounded, two motormen were hit with bricks, one of them being perhaps fatally wounded and the third man was less seriously injured in riots which occurred after dark to-night in connection with the street car strike. Eight cars were partly demolished. The injured men, with the exception of Petrick, are strike breakers. Their names were not given out.

The first riot call came from the car barn at 24th and Vinton streets just before 8 o'clock. A car was just being switched into the barn when it was partly derailed by a half open switch. A number of persons who were standing around began jostling the crew of the car and a large crowd soon gathered. Two other cars came up and a blockade followed. A building in course of construction furnished strike sympathizers with ammunition and within a short time every window and door in the cars had been broken with bricks and stones.

Eight strike breakers were injured, one of them, perhaps fatally, John Petrick, a bystander, was shot through the hip and eight cars were partly demolished as the result of riots which occurred after darkness to-night in connection with the street car strike which began here last Saturday.

LOSS OF
SIXTY LIVESWhich Swept Over New
Orleans and Coast
Cities.

New Orleans, La., Sept. 22.—Gradually New Orleans and the territory surrounding the crescent city is recovering from the first effects of the tropical hurricane which, starting Sunday, continued throughout Monday and Monday night. Sixty lives are now positively known to have been claimed as victims of the storm and 46 others are reported to have been lost in Lower Terrebonne parish, but as yet this report has not been authenticated. The property loss will run into the millions. Miles of territory have been laid waste and crops have practically been ruined. Dwellings, cotton gins and sugar mills have been leveled.

It was not until to-night that the Western Union was able to get a working wire out of the city. Both the Illinois Central and the Louisville and Nashville railroads have suffered heavy loss, miles of their tracks having been swept away. From early to-day the death list in the lower portion of the Terrebonne parish increased as details were received until to-night it numbers 28. It is reported that at least 40 others have been drowned or crushed in the flying debris of wrecked mills, dwellings and fishing camps. Store houses, sugar mills and dwellings of every character at Houma and other villages suffered heavily and scarcely a structure was untouched by the hurricane.

The damage done by the storm at Grand Island, Cheniere, and Caminada was very heavy but at these places there was no loss of life. The crops of these islands were totally destroyed and the orange groves were stripped clean of fruit and foliage.

Advices were received here to-night from East Port, Miss., that Mark Hamilton, his wife and five children were killed when their home was blown over and then burned to the ground in Monday night's hurricane.

GLACE BAY STRIKE.

Montreal, Sept. 22.—Dan McDougall, of Glace Bay, an officer of the United Mine Workers of America, who is charged with libelling the Dominion Coal Co. in an advertisement that appeared in some of the Montreal papers, appeared before the Police Court this afternoon. Evidence was produced to show that McDougall had not written the advertisement and the case was postponed.

THE CANALS OF MARS

Boston, Sept. 22.—A telegram received to-day by John Ritchie, Jr., from Prof. Percival Lowell at his observatory at Flagstaff, Ariz., states that recent observations show that the antarctic canals of Mars are disappearing. Prof. Lowell has in previous years, in the fall, observed a similar disappearance, which he considers a reasonable phenomenon and which he thinks tends to support the theory that life exists on Mars, and that the canals denote a system of irrigation.

AERIAL TRANSPORT
BY NEXT SPRINGGerman Company Will be
Launched
Soon

DIRIGIBLES FIRST STEP

Aeroplanes Will be Used Later if
Tests Should Prove
Satisfactory.

Berlin, Sept. 22.—The Air Navigation Company, which is to operate steerable balloons and aeroplanes between German cities, is expected to be launched shortly. The immediate business of the concern is said to be to build aeroplanes, rather than to declare dividends.

The service of the new company will not begin until Spring, when airships of the Zeppelin-Parasol type will inaugurate it. It is proposed to buy a Wright aeroplane and utilize it after it has been found suitable for long cross-country flights. Many of the stockholders of the new concern are already shareholders in a company which own the right patents in Germany.

DR. COOK'S
FIERCE ORDEALForty Newspaper Men Questioned
Him Upon His Polar
Experience.

New York, Sept. 22.—Dr. Frederick A. Cook, seeking rest and seclusion with his family after the boisterous welcome of yesterday, denied himself to interviewers and remained in his suite at the Waldorf-Astoria until late this evening, when he submitted cheerfully to one of the severest cross-examinations since he announced his discovery of the North Pole. The ordeal of the interview, which was conducted by forty newspaper representatives, including several from foreign newspapers, proved at last that he was not afraid to meet the public. Incidentally the city of New York officially recognized his achievement to-day when the Board of Aldermen passed a resolution, commemorating his discovery and providing for a public welcome at the city hall. The date of the reception will be announced later.

The material points of Dr. Cook's answers to-day did not differ from his original recital in a great degree. Some slight details were cleared up, however, which throw light on the way in which the polar dash was affected. As the questions asked were put by laymen they did not go deeply into the scientific aspect of the expedition. But Dr. Cook was ready to answer anything pertinent to the issue.

The most interesting phase of the interview was reached when Dr. Cook was asked if he would object to showing his diary. He immediately consented and after retiring to his room, returned with a small octavo notebook which he showed freely to all. It was a thin book, containing 176 pages, each of which was well filled with 50 or 60 lines of pencilled writing in minute characters. The book, he said, contained considerably more than one hundred thousand words while he has besides other work embracing his observations and other data. He did not show them, however, to-day.

The interviewers were rather severe in regard to the details, but nothing indicated that the Polar traveller's memory was at fault even in the most minute particulars. Sometimes when a petty question showed ignorance at the want of technical knowledge displayed. Not once did he refuse to reply except when the name of Commander Peary was broached. Even then he said that he had always and did now consider Peary as his friend, but controversial subjects in connection with his rival he avoided entirely, saying that they could wait.

When requested to say what had occurred at his meeting with Harry Whitney, the New Haven sportsman, he said he preferred to let Whitney tell his own story as Whitney was quite unbiased. His reasons in imposing secrecy on Whitney, or Pritchard, Commander Peary's cabin boy, and the Eskimos were prompted by his desire to be first to tell the world his discovery. He had done the work he said, and was entitled to relate how it had been carried out.

The damage done by the storm at Grand Island, Cheniere, and Caminada was very heavy but at these places there was no loss of life. The crops of these islands were totally destroyed and the orange groves were stripped clean of fruit and foliage.

Advices were received here to-night from East Port, Miss., that Mark Hamilton, his wife and five children were killed when their home was blown over and then burned to the ground in Monday night's hurricane.

Montreal, Sept. 22.—Dan McDougall, of Glace Bay, an officer of the United Mine Workers of America, who is charged with libelling the Dominion Coal Co. in an advertisement that appeared in some of the Montreal papers, appeared before the Police Court this afternoon. Evidence was produced to show that McDougall had not written the advertisement and the case was postponed.

Boston, Sept. 22.—A telegram received to-day by John Ritchie, Jr., from Prof. Percival Lowell at his observatory at Flagstaff, Ariz., states that recent observations show that the antarctic canals of Mars are disappearing. Prof. Lowell has in previous years, in the fall, observed a similar disappearance, which he considers a reasonable phenomenon and which he thinks tends to support the theory that life exists on Mars, and that the canals denote a system of irrigation.

ST. INDIA TRADE COMMISSION
Ottawa, Sept. 22.—The commission as to the Canada-East India trade opened here to-day in Ottawa. Lord Balfour, of Burleigh, Sir John Dickson-Pender, Sir Daniel Morris, Hon. W. S. Fielding and Hon. Wm. Patterson were present. The enquiry here elicited the evidence only of Government officials. Lord Balfour explained the extent of the commission. Transportation methods, telegraph communication, the extent of trade and all other matters having reference to the subject would be looked into. The commission will sit in Toronto on Sept. 27th, St. John 29th, Halifax Oct. 1st and Montreal on Oct. 4.

WHOLE FAMILY
WAS MURDEREDTerrible Crime Reported from West
Virginia—Bodies of Victims
Burned.

BLUEFIELD, W. VA., SEPT. 22.—An

entire family of six persons were murdered and the bodies of all but one of the victims were burned with their home at Hurley, Buchanan County, Va., early to-day. The motive was evidently robbery, as the owner of the house, an aged woman known as "Aunt Betty" Justice, was generally supposed to keep a large sum of money about the place.

Mrs. Justice, her son-in-law, George Meadows, his wife and three children, were the victims. Meadows' body, badly mutilated, was found this morning lying in the yard of his destroyed home. Two bullet holes through the body and a wound which almost severed the head from the body, gave the discoverers their first evidence of the extent of the tragedy.

A search of the ruins of the house disclosed a sickening spectacle. The blackened masses of half burned flesh and charred bones of the two women and the three children were found beneath the debris, each body bearing evidences of murder committed before the house was destroyed by fire, evidently for the purpose of hiding the crime. The elder woman's skull was upturned some distance from the remainder of her half burned body amid the smoldering ruins.

Another daughter of Mrs. Justice told the police that her mother had a large sum of money buried under the sill of the house and they succeeded in digging up \$950 in gold and silver.

The murderers are supposed to have secured \$900 which "Aunt Betty" always carried on her person.

Bloodhounds were rushed to the scene and in a short time took up the trail of the supposed murderers. Foot prints of three men were found in the soft soil. A posse of citizens heavily armed, are following the bloodhounds, bent on lynching the murderers if they are captured.

The damage done by the storm at Grand Island, Cheniere, and Caminada was very heavy but at these places there was no loss of life. The crops of these islands were totally destroyed and the orange groves were stripped clean of fruit and foliage.

Advices were received here to-night from East Port, Miss., that Mark Hamilton, his wife and five children were killed when their home was blown over and then burned to the ground in Monday night's hurricane.

THE AUTOPIANO

FOR NON-PLAYER AND PIANIST ALIKE

Think of the joy and pleasure that the wonderful AUTOPIANO with the "SOLOIST" attachment can mean for your family and your home. Artistic playing is possible for any non-player through the aid of music-roll and treadles. The instrument can also be played by hand in the regular way. TWO PIANOS IN ONE.

If you love music and cannot play for yourself, or if you do play but wish to increase your repertoire a thousandfold, you should have an AUTOPIANO in your house.

You can play all classes of music exactly as you may like it through the use of tempo and expression levers in front of keyboard.

LAVIGNEUR & HUTCHISON

81-83-85 ST. JOHN ST.

Come here, and see and play this AUTOPIANO for yourself. Your used instrument taken to part payment. Catalog mailed to any address on request.

GRAND

POLITICAL REUNION

- AT -

ST. HYACINTHE

On Saturday, 2nd October, MR. HENRI BOURASSA

will hold a political meeting at St. Hyacinthe when he will render account of his conduct in the Provincial Legislature.

Having been specially invited by Mr. Bourassa, Mr. Tellier, leader of the opposition has accepted to be present and to address the meeting.

MESSRS. ARMAND LAVERGNE and J. PREVOST will also be present, and MR. N. K. LAFLAMME is also expected to be present, on this occasion. This will be the first time that MESSRS. BOURASSA and TELLIER will have appeared together at a public meeting and in the region where both are well-known, the event is looked forward to with considerable interest.

It is expected that the meeting will be attended by thousands of spectators. It is reported that the Quebec friends of the speakers are organizing an excursion for this occasion, and we will let the public know as soon as it is decided upon.

Why Cough

Ask your doctor if all coughs are necessary. If not, then why cough? Ask him about Ayer's Cherry Pectoral.

Stop coughing! Coughing rasps and tears. Stop it! Coughing prepares the throat and lungs for more trouble. Stop it! There is nothing so bad for a cough as coughing. Stop it! Ayer's Cherry Pectoral is a regular doctor's medicine for coughs and colds.

Quebec Chronicle

QUEBEC, SEPTEMBER 23, 1909.

THE DISCOVERY OF A MASTERPIECE.

The discovery of a fine masterpiece by one of the greatest painters of the glorious Italian renaissance, anywhere in the world would cause surprise as well as the deepest interest, but to find this inestimable treasure hidden and unknown here in Quebec seems extraordinary, unless we take into consideration the important fact, that at the time of the French revolution large numbers of priceless paintings were rescued from destruction in Paris from the Royal Palaces, and the churches by Monsieur L'Abbe Desjardins, who was then vicar-general of Paris and lived for some years in Quebec, during the revolution. Large numbers of the very rarest religious and historical works were sent over from France, and to-day after more than a century, Quebec is found to abound in priceless masterpieces. Not only is this a fact to be borne in mind, but also that long prior to the revolution and dating from the very earliest history of the French colonization of Canada, old families brought over with them their family heirlooms, treasures that had been recently handed down from generation to generation and which are still being handed down, consisting of rare paintings, furniture, china, porcelain, books, rare enamels, clocks, jewellery and other priceless relics of antiquity. But among other rare paintings lately discovered in Quebec is a masterpiece of transcendent value and interest. The work in question represents the Supper of Our Lord at Emmaus, and is painted by no less a painter, than the great and grand Italian master, Luca Signorelli, the composer of the greatest artists of all time, who made possible the advent of the divine Michelangelo himself. It is a gallery work, measures seven feet by six, and is painted on canvass and in a remarkable state of preservation. In this magnificent composition, Our Lord is represented seated at a table between his two disciples in the act of breaking bread at the repast. The majestic figure of the resurrected Saviour is illumined by a wonderful halo, and depicted with an expression of superhuman wisdom. The disciples on either side are portrayed in dramatic attitudes, expressing profound wonderment. The splendour of the grouping and the magnificence of the amply folded costumes are distinctly characteristic of this greatest of the master's works, "soul wrapped and steeped in thought profound." The fine technique, the superb coloring, and chiaroscuro subtle in their wonderful grasp, to carry subtle in their wonderful handling combine to produce a wonderful effect almost illuminary. Through the window is a scene where our Lord meets with His disciples, rendered as was customary with the great masters to represent the subject, clearly by telling the story in various ways in the same picture to impress the meaning more tellingly. This work is the property of the Hon. John Shaples.

The National Gallery of London possesses four works by Signorelli, one of which came from the Duke of Hamilton's collection, and the Louvre contains only one specimen. We give a few particulars of his life elsewhere which may interest lovers of art, and the general public, in view of the approaching exhibition of paintings belonging to the Laval University.

A TIMELY WARNING.

Commissioner Whipple, of the State of New York, has recently issued a circular letter to all the supervisors in the forest preserve districts to take extra precaution for the prevention of forest fires at this particular season of the year. He says that the next forty-five days will be the most dangerous time of the year for fires, and every person going into the woods should be warned about starting or leaving fires. A little special attention on the part of each supervisor, patrolman, and game protector, he adds, will save

Don't Cough! It's Dangerous!

"Father Morrissey's No. 10" will stop the Cough and Cure the Cold

Are you one of those who say, "O, it's only a little cold", and let the cough hang on, doing nothing for it?

If you are, just think a minute. It is true that most colds, if left to themselves, will leave you after a while—but they leave you with the delicate lining of throat and lungs weakened—an easy prey to the next cold. Every cold you neglect makes it easier to catch the next one, and harder to get rid of it, and it doesn't take many such colds to give you Catarrh or some serious lung trouble.

"Father Morrissey's No. 10"—Cough Cure and Lung Tonic—is a preparation of roots, herbs and balams that will prevent all this. It promptly clears away the mucus, removes the irritation and inflammation that causes the coughing, and heals and strengthens the delicate membranes. Besides, it tones up the whole system and gives you strength to resist the next attack.

Trial bottle, 25c. Regular size, 50c. your druggist's, or from Father Morrissey Medicine Co., Ltd., Clitham, N.E.

the state, counties, and towns much money and valuable forests. The importance of such warnings at the present time is emphasized by the immense losses from forest conflagrations in the Northern and Northeastern States last year, and although the heated term now closing has not been so severe as that of 1908, autumn is approaching with its dry spells in which the forests become extremely liable to fires. In the latter days of September, and throughout October, the large dry areas of high barometric pressure form more frequently, and usually retain their position for several days, during which a little fire started in the woods will very quickly extend, and widen into destructive proportion.

The warning is a good and timely one, so far as it applies to the forest reserves, either of the United States or of the Dominion, but it should have a further application. As we had occasion to point out some time ago when discussing the subject of forest fires, the principal originators of these disastrous events are neither the sportsman and tourist, nor the passage of trains, nor the lightning, but the carelessness of the farmers settled in contiguity with forest, or bush lands. This point may be regarded as satisfactorily proved by the details given in the last report of the Minister of Land and Forests for the Province of Quebec, and the warning of Commissioner Whipple should be specially taken to heart by them. The season is now approaching when the usual agricultural custom is to turn up the waste that remains after the harvesting in of the crops, and, of course, advantage is taken for that purpose of the dry areas of high barometric pressure of which Commissioner Whipple speaks; they should, therefore, take particular care to supervise and control the fires that they start.

THE MILITARY AEROPLANE.

In our issue of yesterday we spoke of the apparent disregard with which the effect of the recent discoveries in aeronautics was viewed by naval experts; the case is far different on land where the recent autumn military manoeuvres in France and Germany have shown that dirigible balloons can be used for scouting purposes.

In military science the discovery of what the enemy is doing in order that his enterprise may be thwarted or his mistakes in the disposition of his troops be taken advantage, together with precluding him from similar information has always been the supreme part of the strategist. A cavalry screen far in advance of the flanks of an army not only protects the army from surprise but prevents the opposing force from obtaining a knowledge of its movements, and on this account has obtained the nickname of the "fog of war." The commander of the army is dependent on spies, scouts, and cavalry for dispelling of this fog which obscures the movements of his adversary, but aerial scouting by a flock of dirigible balloons and airships, equipped with wireless telegraphy promises to lay bare every strategic or tactical move of either army. At the French manoeuvres it is stated that the war balloon disclosed the opposing forces entire plan of campaign. The question now will be how to frustrate this new scouting force. "Hitherto," says an exchange, "cavalry scouting has been opposed to cavalry scouting, therefore it would appear that each army will have to be preceded and guarded by a screen of armed airships, whose duty it will be to prevent the enemy's airships from discovering the strategic secrets of their own force, and, if possible, destroy them and thereby secure a free hand in reconnoitering the opposing army. In other words the airships will form an aerial cavalry screen with practically the same duties, in a strategic sense, as the cavalry now perform. That is, not only to prevent the enemy penetrating their line, but to drive in the enemy's cavalry screen and reconnoiter the enemy's position. Consequently we may expect in the next war that the opening of the campaign will be marked by a series of aerial combats between the dirigible balloons and aeroplanes of the opposing forces, with the result that the victorious airships will put the fog of war all over the opposing army, while its operations in detail will be exposed to the other commander. He can then make his dispositions with the comparative ease of a man with sight and hearing, fighting a man who is blind and deaf. Hitherto the cavalry have been the eyes and ears of the army. That function will now devolve upon the airship squadron."

THE COW TREE.

South American Plant Furnishes Milk, Bread and Fruit.

Groves of cow trees, such as are to be found in hilly districts of certain parts of South America, are said to be a wonderful sight. These trees, which, it need scarcely be said, do not actually resemble cows, grow to great height, yet for lengths of perhaps fifty feet they are quite without branches. Near the top they expand

into thick heads of foliage, however, and display a matted texture of leaves and branches.

If you walk in a cow tree grove at daybreak or evening you might have the surprising pleasure of seeing the natives come to milk the cow trees. A hole is bored in the heart of the trunk. From this hole there pours a milky fluid much esteemed as a drink by some. If this fluid is put aside for some time a thick white cake forms at the top of it, while beneath there remains only a clear liquid.

The fruit of the tree is also esteemed as food. It is of moderate size and contains one or two nuts which are said to rival strawberries and cream in their flavor. And this is not all. A kind of bread is said to be almost as nourishing as wheat bread.

Forecast of Weather.

Toronto, Sept. 22-8 p.m.—The disturbance which was centred in Missouri last night has since passed northward over Lake Superior, causing strong winds and gales over the lake region attended by heavy local rains; elsewhere in Canada the weather has been generally fine and in the Western provinces quite cool.

Minimum and Maximum Temperatures.

Dawson, 28-34; Victoria, 22-62; Vancouver, 48-60; Edmonton, 40-58; Battleford, 28-54; Prince Albert, 32-50; Calgary, 32-52; Swift Current, 36-54; Winnipeg, 36-56; Port Arthur, 54-62; Perry Sound, 58-62; Toronto, 60-70; London, 62-72; Ottawa, 50-70; Montreal, 52-74; Quebec, 46-72; St. John, 48-62; Halifax, 42-72.

Forecasts.

Lower Lakes and Georgian Bay.—Fresh to strong southwesterly to northwesterly winds; showers to-day, becoming a little cooler. Friday fair.

Ottawa Valley, Upper and Lower St. Lawrence and Gulf.—Fresh to strong southerly to westerly winds; warm, occasional showers.

Maritime Provinces.—Fresh southerly winds, generally fair; a few local showers tonight and on Friday.

Lake Superior.—Fresh to strong northwesterly to westerly winds; fair and cool.

Manitoba and Saskatchewan.—Fair; not much change in temperature.

Alberta.—Fair, stationary or a little higher temperature.

JUST RECEIVED.

A very large assortment of new music for the celebrated Autopianos, pianolas and all kinds of automatic pianos has just been received.

LAVIGNEUR & HUTCHISON,

81-83 and 85 St. John St.

CLOSING LETTER.

By private wire, Neville Belleau & Co., 93 St. Peter street, Quebec. Phone 946.

New York, Sept. 22.—The opening prices were strong and higher, following the lead of London. Steel started with 15,000 shares as first sales at 85 1/2 to 86 1/4 and preferred touched 129 3/4. Southern Pacific, 122 3/4, and Reading 171 1/8, and Union Pacific 206 1/8. Apparently the public had stocks to sell for a speedy reaction took place of one to two points after which the market halted and became quiet. There was a rally after the noon hour, followed by a further slump to lowest prices. It was announced that only routine business was transacted at the Penn. Av. meeting, which was followed by a drop in price of the shares of over a point. A dispatch from Philadelphia stated that Reading Company had sold out all its interest in the Central of New Jersey and in the Lehigh Valley at a tremendous profit, yet Reading was weak, selling down to 198 and the story lacks confirmation. The electric shares showed better tone and the companies are said to be looking for large orders. This should have some effect on the copper producers' figures next month and a shrinkage in the visible supply is anticipated. Heavy buying of Steel by London, in connection with the Paris demand is said to have taken place, fifty thousand shares being the amount stated. Republic Iron was also well bought and rumors are current of dividend distribution in the near future. Atchafalca sold off slightly in line with the trend of the markets, but was not active. Closing was heavy and rather dull at lowest prices with prevailing sentiment bearish for the immediate future. Undoubtedly there was quite a little liquidation during the day, such an incident as took place yesterday when Lehigh Valley slumped 12 points was not reassuring to speculators or to the public and President Taft's recent speeches are not relished in Wall street. We look for temporarily lower prices.

PROCESSION OF ICEBERGS.

One of the most remarkable phenomena in Newfoundland scenery is the stately procession of great icebergs passing along the East Coast in spring. This year there was not only an enormous number of towering ice mountains, but the field ice was unusually heavy and late. The wind hung the drift ice in on the shore, and greatly interfered with navigation, as well as chilling the air and delaying vegetation. But no matter how the wind is the bergs are always steadily moving south, driven along by the great Arctic River, known as the Labrador Current. They move south until they reach the north bend of the Gulf Stream, which reaches up to the Grand Banks, and then turns off for Europe and Africa. When they reach this warmer water they gradually melt away and disappear.

This great ocean current, which delays Newfoundland agriculture and impedes navigation, however, brings down the food for the fish and the whales. It is one great living mass of food, full of small crustaceans and animalcules. It makes Newfoundland the home of the cod, salmon, and herring.

INSURANCE APPLICATION.

Remarkable Occurrences Recorded in These Documents.

The way in which application forms for insurance are filled up are often more amusing than enlightening. As illustrations the British Medical Journal gives the following: Mother died in infancy. An uncle died of cancer on his mother's side. Father went to bed feeling well, and the next morning woke up dead. Grandfather died suddenly at the age of 103. Up to this time he had fair to reach a ripe old age. Applicant does not know anything about maternal posterity, except that they died at an advanced age. Applicant does not know cause of mother's death, but states that she fully recovered from her last illness. Applicant has never been fatally sick. Father died suddenly; nothing serious. Applicant's brother, who was an infant, died when he was a mere child. Grandfather died from a gunshot wound caused by an arrow shot by an Indian. Applicant's fraternal parent died when he was a child. Mother's last illness was caused from chronic rheumatism, but she was cured before death.

A REMARKABLE MAP.

London Valuation Map is Twenty by Thirty Feet in Size.

The Valuation Map of London, England, which is being compiled by the surveyors of the London County Council, is undoubtedly the largest in the world. It was commenced 15 years ago, and embraces the whole of the area of the Metropolis, from Stamford Hill on the north to Lower Stratford on the south, and from Plumstead on the east to Putney on the west.

This vast area is exactly 115 miles in extent, and the map is to indicate every house, shop, and piece of property within the boundaries mentioned. The owner of nearly every bit of land has been ascertained, and up to the present over 34,000 separate estates have been discovered. It is expected that another three or four thousand will be added before the work is complete.

The gigantic map is made in sections of 25 inches or more sheets, the whole work requiring 110 sections. When it is finished and laid out, with its sections in order, the map will be more than 30 feet wide and 20 feet from top to bottom.

The whole of the work was estimated to cost about £13,500, but before it is finished its cost will have increased to at least £16,650. The map has already saved the Council a sum equal to about three times its cost.

Some curious and little-known facts about London's landowners have been brought to light. Although the 400 acres owned by the Duke of Westminster, with its rent-roll of £3,000,000 a year, is the wealthiest estate in London, it is by no means the largest. One estate in South London actually covers an area of nearly four square miles, and there are several estates exceeding two square miles.

Other big landowners in London include Lord Howard de Walden with 292 acres, and an annual rent-roll of £2,900,000. The 250 acres of the Duke of Bedford's estate bring him in a yearly income of £2,250,000. Lord Northampton owns 260 acres worth £1,600,000 a year. The Duke of Norfolk is receiving £1,500,000 for his Strand estate. Lord Portman's 270 acres return an income of £1,500,000.

Earl Cadogan's 200-acre estate is worth £1,500,000, while the Ecclesiastical Commissioners receive £500,000 in ground rents from their estate in the most fashionable part of Kensington.

AT THE CLOVE HARVEST.

Trees are Beaten With Bamboo Sticks Until Fruit Falls.

Cloves are not cultivated in many of the tropical regions of the earth. A clove tree begins to bear at the age of ten years and continues until it reaches the age of seventy-five years. There are two crops a year, one in June and one in December. The tree is an evergreen and grows from forty to fifty feet high, with large oblong leaves and crimson flowers at the end of small branches in clusters of from ten to twenty. The tree belongs to the same botanical order as the guava. The cloves, which are the undeveloped buds, are at first white, then light green and at the time of gathering bright red. Pieces of white cloth are spread under the trees at harvesting time, and the branches are beaten gently with bamboo sticks until the cloves drop. They are dried in the sun, being tossed about daily until they attain the rich dark color which proclaims them ready for shipment.

WEAK KIDNEYS MAKE WEAK BODIES

Kidney Diseases Cause Half the Common Aches and Pains of Quebec People.

As one weak link weakens a chain, so weak kidneys weaken the whole body and hasten the final breaking-down.

Overwork, strains, colds and other causes injure the kidneys, and when their activity is lessened the whole body suffers from the excess of uric acid circulated in the blood.

Aches and pains and languor and urinary ills come, and there is an ever-increasing tendency towards diabetes and fatal Bright's Disease. There is no real help for the sufferer except kidney help.

Booth's Kidney Pills act directly on the kidneys and cure every kidney ill. Quebec City cures are the proof.

Mons. J. Rouillard, of 23 St. Julia St., Quebec, Que., says: "Mr. Rouillard had been suffering for months with a very lame back which had caused him much suffering and inconvenience. If he would stoop over or lift anything, severe pains would shoot across his back and he could hardly straighten up for some moments. He had used a number of remedies without benefit, but I am glad to say that he has found in Booth's Kidney Pills a quick relief and cure. The lameness and pains have left his back, it has been greatly strengthened and he seems to feel better in general. I am therefore pleased to recommend Booth's Kidney Pills. They were procured at Henry Willis' Pharmacy." Sold by dealers. Price 50 cents. The R. T. Booth & Co., Ltd., Fort Erie, Ont., sole Canadian Agents.

On and after Tuesday, the 2nd of November next, this Bank will pay to its shareholders a dividend of one and three quarters per cent., being at the rate of seven per cent. per annum, upon its capital, for the quarter ending on the 31st of October next.

This dividend will be paid according to the list of shareholders inscribed on the 16th October next.

By order of the Board of Directors,
N. LAVOIE,
General Manager.
Quebec, 21st September, 1909.

IN AND ABOUT TOWN

THIEVES HAD LIKING FOR PENS

Thirty or More Waterman Fountain Pens Taken in Lower Room Last Night.

As Mr. James Duggan, night watchman in Lower Town, was going his rounds as usual, about 10.20 last evening, he discovered that the plate glass door in the stationery establishment of Messrs W. J. & G. Mulroney had been broken. Mr. Duggan immediately telephoned the Messrs. Mulroney and Detective Walsh who were soon on the scene and when they entered the store, the proprietors found a large stone on the floor and also that burglars had succeeded in entering the store and taking away thirty-eight Waterman fountain pens, valued from \$2 to \$4.50, which were in a special glass case, one box of cigarettes and about two dollars in cents which were in a drawer.

TO BOSTON BY THE CANADIAN PACIFIC RY.

On Friday, September 24th, the Canadian Pacific Railway will sell first-class tickets to Boston and return at the reduced rate of \$11.05. Tickets good going by all regular trains. Return limit, Friday, October 8th, 1909. sept23x2.

RECORDER'S COURT.

The only four prisoners who appeared in the Recorder's Court yesterday, charged with drunkenness, were disposed of as follows:—One was fined \$5 and costs or eight days' jail; one \$2 and costs or two days; one \$1 and costs or two days, and one was discharged.

CANADIAN NORTHERN APPOINTMENT.

The Traffic Department of the Canadian Northern Quebec lines announces effective 20th inst. the appointment of Mr. G. Roussin as travelling agent. This appointment has been made necessary on account of the additional mileage to Quebec and Ottawa. While Mr. Roussin is a native of Lowell, Mass., and formerly travelled for the C.P.R. in that section, he is equally familiar with the Province of Quebec.

TWO YEARS IN THE PENITENTIARY.

Anatole Laberge, the young man arrested for damaging pictures in the Laval University, was before the Court of Sessions yesterday. On pleading guilty to the charge he was sentenced to two years in St. Vincent de Paul Penitentiary.

SPORT MEN

Send your Game Heads to Holt, Renfrew & Co. Ltd., to be mounted by C. J. G.anson. First class work and prompt delivery guaranteed. sept22xt.f

FOURTH HARVESTERS' EXCURSION BY C. P. RY.

The Canadian Pacific Railway is organizing a fourth harvesters' excursion for September 24th to Manitoba, Saskatchewan and Alberta at the rate of \$10.00 single fare. Excursionists who engage to work at the harvest will be distributed free on lines Moose Jaw and East and at a nominal rate to other points in Saskatchewan and Alberta and including Calgary, MacLeod and Edmonton. Tickets \$18.00, conditional upon thirty days' work at harvesting, will be issued for the return journey from Moose Jaw and East, to the original starting point as shown on going ticket; proportionate reduction from Calgary, MacLeod, Edmonton, etc., the whole as per conditions printed on tickets. Children pay full fare. It is an excellent opportunity for the farmer to visit the West at cheap rate.

During the remainder of the month of September the Richelieu & Ontario Navigation Co. will issue tickets to the Saguenay and return, including meals and berth at \$11. September is the finest month of the year to view the Saguenay River and the steamers are comfortable and the service unexcelled. sept23xt.f

WORK HORSE PARADE

Under the auspices of the Ladies' Branch of the S.P.C.A., under the patronage of His Honor the Lieutenant-Governor, Sir Alphonse Pelletier, K.C.M.G., and His Worship the Mayor Sir George Garneau, K.C.M.G.

THE COMING MUSICAL SEASON

Will Certainly be the Most Brilliant Since Many Years.

Yesterday, a Chronicle representative had the pleasure to meet Mr. J. A. Gauvin, well known in musical circles as impresario and an active member of the Quebec Symphony Society, who expressed his enthusiasm over the musical season now about to open. From Mr. Gauvin's standpoint, this season will certainly eclipse many preceding ones. The Symphony Society, now reorganizing, will be more numerous and better balanced than ever. Under the efficient direction of Mr. Joseph Vezina, it will present programmes of exceptional merit, with foreign and local soloists of first rank. A committee of citizens is now being formed in view of assuring the financial success of the Symphony concerts. Hon. Amelée Robitaille is the promoter of this scheme, and crowded houses at every concert will be the result of this good idea.

Messrs. Gauvin and Cinq-Mars will also present to the public of Quebec world-wide reputed artists who have never appeared here before.

The first of their offering will be Miss Eva Mylott, the Australian contralto, who has just arrived in America after having had a considerable success in London and elsewhere. She will sing at the Auditorium theatre on October 6, being assisted by Miss Mary Genevieve Maroney, a fine pianist from California, and Frederick Nicolai, a Russian cellist of high attainments.

This concert will be followed, at reasonable intervals, by others of different character, so as to give the Quebec public a variety in musical entertainments.

There is even some probability of securing Donalds, the great diva, and perhaps the famous Russian Symphony Orchestra under the direction of Modest Altschuler.

Another great musical event will be the production of a new comic opera by Mr. Joseph Vezina called "Le Rajah." Mr. Vezina is now working hard at it and expects to give its premiere in February next.

Sure, Quebec is awakening, musically speaking!

4 DAYS

Only Separate Us From the Grand Exhibition, Which Will Take Place at the Quebec Skating Rink, Grande Allee, between the 27th, September and 9th October. Special programme of attractions every day. Admission 10 cents.

POSTPONEMENT OF EXHIBITION.

The special exhibition of the religious paintings, historical portraits, and other works at Laval University, which was ordered for the 30th of September, has been postponed until the 10th of October, in order to afford the necessary time required for the special electric lighting.

HUDSON-FULTON CELEBRATION, NEW YORK.

For this occasion the Canadian Pacific Railway will sell first-class tickets to New York and return at the reduced rate of \$18.00. Tickets good going Friday, September 24th. Returning up to Friday, October 8th, 1909.

POPULAR LADIES STORE.

Now that the opening of the latest styles in millinery has occurred, our lady readers should not fail to visit Miss O'Neill's, 40 Garneau street. Miss O'Neill, as in the past, has on hand a splendid consignment of ladies' goods and parties requiring up-to-date millinery should pay this store a visit.

R. C. G. A. BAND ASSOCIATION.

The annual rifle matches of the R. C. G. A. Rifle Association will take place at the St. Joseph Ranges on Friday and Saturday next. A fine programme has been arranged for the matches to be fired include: the "Murray," the "Association," the "Canteen," the "Officers," "Citadel District," "Roped Fire," "Win. Price Match," and the "Open Match," while they will be fired at 2.30 p.m. on Saturday.

ENGLISH NOVELTIES.

J. H. Mullin has opened two cases of English imported ties and dress vests per Empress of Ireland. They are the choice of Bond street connoisseurs and are on view only inside of his store.

When a man or woman finds sickness coming on, such as indigestion, weak eyes, kidney trouble, etc., it is time some attention is given to the subject of food and drink.

In practically all such cases where coffee or tea is the drink, one can obtain relief by quitting the coffee or tea and taking Postum, for he leaves off a drink that is an active producer of disease and takes in its place a powerful liquid food that contains elements for rebuilding the nerve centres which have heretofore been torn down.

"There's a Reason"

WILL CROOKS WAS SURPRISED

English Labor Member for a While Wondered What the Situation Meant.

"No one can hope to be a leader, unless he can push up inclines," said Mr. Will Crooks, the English Labor M.P., for Woolwich, in his address last evening at the Auditorium Hall, which had been placed at the disposal of the Congress delegates by Mr. Dugal, the manager of the Auditorium Cafe. Mr. Crooks had a most enthusiastic greeting when he arose to speak, and he stated that it was the first opportunity which he had to formally deliver a message from the labor members and the labor men of Great Britain to their brethren in Canada.

Mr. Crooks, whose address was listened to by an audience which filled the Auditorium hall to its fullest extent, was a striking one, and one which called forth at intervals a remarkable demonstration of approval from the large and representative audience which was in attendance.

Mr. Crooks said he was delighted and astonished to hear the report of the Social and Moral Department, which had been reported yesterday, and which had placed the labor movement on the highest plane which he had ever known.

No trades union, he said, ever hoped to win by a strike. It was the union man's last resort. The English labor men realized this, and their 33 representatives in Parliament had won many victories, not from their beauty nor from their number, but from their winning ways.

Mr. Crooks went on to discuss some of the problems which confronted the labor men and their leaders in England to-day. England did not wish to unload its unemployed upon Canada or any other nation. There was work enough and there was money enough to keep them at home.

Mr. Crooks then went on to speak of the legislative achievements of the labor party in the Old Country, and said that the land owned to-day by an infinitesimal proportion if the population was able to support five times the present population.

The address of Mr. Crooks was one which gripped the hearts of all present, and he held the deepest and undivided interest of all as he related the work which the English labor party had accomplished on behalf of the women and children.

At the conclusion of the address of Mr. Crooks, there was quite a diversion, when Mr. Landers, one of the delegates, rose to his feet and questioned some of the remarks of the English labor leader. Invited to the platform he said that he hoped before Mr. and Mrs. Crooks left Canada they would be fully aware that in the Dominion there was pure silver, not only in the Cobalt but also in Quebec. He concluded his remarks by presenting to Mr. Crooks, on behalf of the Trades and Labor Congress of Canada, a handsome silver tea service, the event catching the English labor man completely off his guard and he really unconscious of what all the speaker had been delivering himself in apparent criticism of the English brother labor representative, and which turned out to be one of the most neatly planned surprises of any Congress yet held.

A PAINTER OF THE RENAISSANCE

Luca Signorelli (b. 1442, d. 1524), one of the greatest of the Italian Renaissance painters, who ushered in the full culmination of the art under Leonardo da Vinci, Michelangelo, and Raphael, was born in Cortona—his full name being Luca d'Efidio di Ventura; he has also been called Luca da Cortona. The precise date of his birth is uncertain; but, as he is said to have died at the age of eighty-two, and as he was certainly alive during some part of 1524, the birth date of 1442 must be nearly correct. He belonged to the Tuscan school, associated with that of Umbria. He presented to Lorenzo de Medici a picture which is probably the one named the School of Pan, discovered some years ago in Florence, and now belonging to Marquis Corsi; it is almost the same subject which he painted also on the wall of the Petrueci Palace in Siena—the principal figures being Pan himself, Olympus, Echo, a man reclining on the ground, and two listening shepherds. Pope Sixtus IV. commissioned Signorelli to paint some frescoes, now mostly very dim, in the shrine of Loreto—angels, doctors of the church, evangelists, apostles, the incredulity of Thomas, and the conversion of St. Paul. He also executed a single fresco in the Sistine Chapel in Rome, "The Acts of Moses." In Siena, in the Convent of Chiusura, he painted eight frescoes, forming part of a vast series of the life of St. Benedict; they are at present much injured. From Siena he went to Orvieto, and here he produced the works which, beyond all others, stamp his greatness in art. These are the frescoes in the Chapel of St. Brizio, in the cathedral, which already contained some pictures on the vaulting by Fra Angelico. The works of Signorelli represent the last days of the Mundane Dispensation, with the Pomp and Fall of Antichrist, and the Eternal Destiny of Man, and occupy three vast lunettes, each of them a single picture. In one of them, Antichrist, after his portents and impious glories, falls headlong from the sky, crashing down into an innumerable crowd of men and women. Paradise, the Elect and the Condemned, Hell, the Resurrection of the Dead, and the Destruction of the Reprobate follow in their compartments. The daring and terrible invention of the great compositions, with their powerful treatment of the nude and of the most arduous foreshortenings, and the general mystery over complex grouping and distribution marked a development of art which had never previously been attained. He was partially paralytic when he began a fresco of the Baptism of Christ in the Chapel of Cardinal Passarini's palace near Cortona, which is the last picture of his that we find specified. Signorelli stood in great repute not only as a painter, but also as a citizen. He entered the magistracy of Cortona as early as 1488, and in 1524 held a leading position among the magistrates of his native place. In or about the year 1524 he died there.

Test a "Black Cat" with any Virginia Cigarette, at Any Price—We Stand by Your Decision. Do It To-Day

Pay any price you like, you cannot buy better Cigarettes. The real natural taste of Pure Matured Virginia Leaf is found in every BLACK CAT Cigarette—an indescribable flavor which is only produced by Nature at her best.

Test—Light a BLACK CAT Virginia and any other Virginia Cigarette together. Smoke from each alternately and pass the smoke through the nose. The smoke from Black Cat will be smooth and mild—the other will "bite" the sensitive nerves in the nose. BLACK CAT tobacco is perfectly matured the other is "green." Any Virginia Cigarette at ANY price may be tested as above with a BLACK CAT.

10 for 10 Cents
At leading tobacconists'

If you cannot obtain BLACK CAT CIGARETTES at your dealer's, send ten cents in postage stamps to Adolph Frankau & Co., 232 McGill Street, Montreal, and you will receive a package of 10 BLACK CAT Cigarettes by return mail, post free.

Our Designs

are beyond question, the best in Canada to-day. Our styles spell success.

They are noticeably different—so much so, that more men than ever are deserting the merchant tailors and adopting the sensible, economical plan of wearing Fit-Reform garments.

We are putting more style, more quality, more value in Fit-Reform Suits and Overcoats, than have ever been put in fine garments before.

The two styles shown above are our latest creations for fall wear. They are exclusive Fit-Reform models—shown only in Fit-Reform Wardrobes.

LATEST SPORTING NEWS

PREPARATION FOR HOCKEY SEASON

Temiskaming League Talks of Amalgamation with the Federal League.

Cobalt, Sept. 22.—Although it will be about four months before the first game in the Temiskaming Hockey League will be played, preparations are being made by the three teams for players. Tommie Hare, of Cobalt, who is the recognized authority on hockey in this section of the country, has received several applications from clubs for the purpose of taking in teams and forming a new league. One that might be considered favorably is the confederation with the Federal League. If three teams in this section were to play off in Eastern Ontario they would be away a week and play one game with each of the Ottawa Valley teams in the league. In return any of the other teams from that section could play three games on their visit north.

Haileybury is out after the championship hard, and perhaps has the larger amount of players to pick from. Their team will include all the players of last year, who are willing to play. "Con" Corbett, "Skinner" Benoit, Baird and Louis Berlanquette are all up in the Gowanda section of the Montreal River, completing assessment work on the properties which they received last winter upon the close of the hockey season. Harry Smith came down the river the fore part of the week, and with his brother Tommy went west to Fort William to work for their father. Both will return for the hockey season. Art Throop will probably try out for a place this winter. "Besides Billy Nicholson, who performed in the flags last year, they can have Percy LeSueur, of last year's Ottawa's, who is now 'chaining' on the Nipissing Central Street Railway Company's survey party. "Banty" Bannerman, the utility goalkeeper of last year, is in Ottawa.

COBALT'S RESERVES.

Cobalt will have "Chief" Jones, of last year's team. Angus Campbell, last year's left wing, is also in town. Herb Clarke is in business for himself in Elk Lake City, and the Cobalt management count on him this winter if he can get away. The Toms brothers have signified their intention of dropping from the game, but Murray and Hal Kennedy are working at the O'Brien mine. Steve Vair will probably stay for the winter, while some tempting offers have been made to outside players, who figured in the Stanley Cup matches last year. Nothing much can be learned about them, but it seems possible some of them will be landed, if money counts for anything.

New Liskeard have done nothing so far, but have always been quiet about their doings, and at the last minute bring on winners. They say that they have been dickered for some professional. But one thing is taken almost for granted in this country, and that is that during next summer the Stanley Cup will rest among the silver mines of Temiskaming.

YESTERDAY'S BASEBALL.

(Eastern.)

At Baltimore:—
First game—Rochester, 3; Baltimore, 0.
Second game—Rochester, 11; Baltimore, 5.
At Jersey City:—
Jersey City-Buffalo games postponed: rain.

Washington, 3; Detroit, 8.
At Philadelphia:—
St. Louis, 2; Philadelphia, 6.

FOOTBALL.

A game of association football, between the engineers and stewards of the steamer Empress of Ireland, will take place on the Q.A.A. grounds this afternoon, immediately after the work horse parade.

RESULTS AT GRAVESEND.

Gravesend, N.Y., Sept. 22.—Essex, at 7 to 5, won the King's high steeplechase handicap over the long course here to-day. The race was marred by the falling of the favorite, Lynwood, and of Rising Star, a long shot. These two raced head and head for two miles when they both took the Liverpool jump together and both went down. Essex, who was ten lengths behind, then took the lead and won easily. Both horses were remounted and Rising Star finished second with Lynwood third. Kelleher had his collar bone broken while Kermath escaped with a shaking up. High Private, winner of the third race, was bid up to \$4,000 and secured by C. C. Smithson.

FAGUY, LEPINAY & FRERE.

REORGANIZED SHAMROCK TEAM

Will Meet the Tecumsehs in Next Saturday's Match by All Accounts.

Montreal Gazette:—Billy Foran and Billy McIntyre are the men who will handle the game between Tecumsehs and Shamrocks on the Mile End grounds Saturday. That is if they have not changed their minds since the same teams met at Hanlan's Point some six weeks ago.

It was arranged, previous to the first meeting of the teams in Toronto, that Foran and McIntyre would be the officials for the two games in which the Irishmen and Indians were scheduled to meet, to which arrangement the Ottawa pair agreed.

But it will be remembered the Shamrocks took exception to one of Foran's decisions when they met Tecumsehs at Hanlan's Point, and threatened to leave the field. McIntyre was penalized 20 minutes for knocking out Green. The Irishmen held that the penalty was too severe, claiming the blow to be accidental, but Foran considered it a deliberate foul and gave McIntyre the maximum penalty.

Al. O'Connell called the Shamrocks off the field; but after a short consultation between the officials of the Irishmen and the referees, the game was resumed.

There was some talk at the time that Foran and McIntyre would not handle the second game between the teams, which is the game scheduled for Saturday at the Mile End grounds. It is expected, however, they will be here. They are two of the best officials in the country, and can be counted on to give both teams a fair show.

The game is of more vital importance to the Irishmen than was the one of last Saturday on the M.A.A.A. grounds, for while the Shamrocks could afford to lose to Montreal, and still be in the race, they must win from Tecumseh to remain in the running. A win for the Indians would give the championship to Montreal.

There is talk now of making a complete change in the Shamrock team from point to inside home, with a view to improving their chances of victory. It is said that Howard will be played at cover-point, so as to block the home men rushing in, while Kavanagh will be moved from the field back to point. Dillon will go from cover-point to second defence, in order to add speed to the field, and Rochford will move back to the position in front of cover-point, between Howard and Dillon. It is more than likely McIntyre, Tobin and Munday will retain the positions they played Saturday, but the changes to be made on the home will not be known before to-morrow night. It has been stated on good authority that two of the men who figured on the scoring end last Saturday will be given a rest, and a couple of others tried out.

Some followers of the Shamrocks blame Dr. Cousineau and Joe Cattardich, who handled the game on the M.A.A.A. grounds, for the defeat of their team; but in that they are far from right. Unless the Irishmen put up a much stronger game against the Tecumsehs than they did against the Montrealers they will suffer another defeat.

Owing to the importance of the game it is creating more than the usual amount of interest amongst local lacrosse followers, and the Tecumsehs will have the backing of the supporters of the Montreal team, who want the Indians to down the Irish.

NO TRUTH IN THIS TALE.

Ottawa, Sept. 22.—The Montreal despatch alleging that the Montreal Baseball Club's Eastern League franchise would be transferred to an Ottawa syndicate is a mere pipe dream. Ten years ago certain Ottawa baseball capitalists got properly stung when the Rochester franchise was bought, while the sports who were behind the northern league venture three years ago also dropped heavily, so there's no chance for baseball in the capital for some time to come.

The Aetna Fire Insurance Company, whose advertisement we publish in another column, has now entered its 91st year. During its existence the Company has collected the sum of two hundred and twenty-six million dollars, while it has paid over one hundred and sixteen million dollars in losses. Measured by every standard representing greatness in fire insurance its notably long and honorable record in dealing with its policyholders, which it has won their unbounded confidence, it is unquestionably one of the greatest American Fire Insurance Companies. The Aetna is represented in Quebec by Mr. Arthur E. Scott, 55 St. Peter street.

ODD MARRIAGE COMPACT.

Romantic Marriage Outcome of 37-year-old Compact.

A most romantic marriage was celebrated at Carshalton, England, recently, which was the outcome of a compact entered into thirty-seven years ago.

Two cousins were married on the same day in 1872 at New Brentford to Mr. Hugh Stevens and Mr. John Dunstone. The two brides and the two bridegrooms agreed, after the ceremony, that if it should be possible in the future the bride who survived her husband should marry the husband who outlived his wife.

Mr. Stevens died in 1882, but Mrs. Dunstone was still living, and the widow married Mr. Edward Benjamin Goodwin, of Brentford, who died in 1899.

Mrs. Dunstone died recently, and so the old compact was fulfilled by the marriage of Mrs. Goodwin to Mr. Dunstone. Mrs. Goodwin was given away by her nephew, and her bridesmaid was one of her daughters by her first marriage. The best man was the son of the bridegroom.

Blunoz Serge Suits at \$22

We show Suits in the famous Blunoz Serge—dark navy blue and fast black—in single and double-breasted Sack Suits—at \$22. Or we will make you a Blunoz Serge Suit to Special Order for \$24, which is \$2 extra.

NO RECORDS WERE BROKEN

Stiff Wind Prevented any Fast Time Being Made at the Woodbine Track Yesterday.

Woodbine Race Track, Toronto, Sept. 22.—In spite of threatening weather and occasional spatters of rain, the crowd at the Woodbine this afternoon was fully as large as yesterday. A stiff wind up the back stretch and a track a trifle heavy prevented any record shattering. The big event of the day, the Durham Cup, was spoiled by scratches, only four horses facing the starter, of which the Seagram pair were overwhelming favorites at the prohibitive odds of 1 to 3. The race was really no contest, Seismic winning as he pleased. Canine Maid went off in the lead with Mendip a close second and Seismic, under double wraps, third. Coming into the stretch, Seismic shot by and came home with his mouth open a winner by six lengths. The Globe was left in the rear from the start and followed Mendip by an eighth of a mile.

Summary:—
First race, Grafton purse, selling, 3-year-olds and up, 6 furlongs.—Woodlaine, 114, Burns, 3 to 1, even and 1 to 2, won; C. W. Burt, 114, Howard, 6 to 1, 2 to 1 and even, 2nd; Cooney K., 109, Wilson, 8 to 5, 7 to 10 and 2 to 5, 3rd. Time, 1:13 3-5.
Second race, Huron purse, selling, 2-year-olds, 6 furlongs.—Pulka, 103, Goldstein, 4 to 1, 9 to 5 and 9 to 10, won; Banives, 107, Burns, 4 to 1, 8 to 5 and 4 to 5, 2nd; Fernnaught, 11, 105, Mentry, 5 to 1, 2 to 1 and even, 3rd. Time, 1:14.
Third race, Elwyn Compton, Lord Elam, Adalia, Grey Girl, Merman, Narnoc, J. V. Jr., and Hedge Rose also ran.

Fourth race, Doncaster purse, 3-year-olds and up, one mile.—Port Johnson, 104, Musgrave, 5 to 2, even and 1 to 2, won; Lawrence P. Daley, 102, Kennedy, 6 to 1, 2 to 1 and even, 2nd; Picola, 109, Rice, 13 to 5, even and 1 to 2, 3rd. Time, 1:45 4-5.
Fifth race, Reginald, Captain Johns, Michael Angelo, John Carroll, Old Honesty, Moorshott also ran.

TOURIST TRAIN ON Q. R., L. & P. CO. STE. ANNE DE BEAUPRE. LINE.

The change of time table of the Q. R. L. & P. Co. will not interfere in any way with the tourist train which has been running all summer. This train will run as usual until further notice. The train is a very popular one with tourists and the fine weather at present makes this the best season of the year for the tourists to take in the trip. It leaves Quebec for St. Anne de Beaupre at ten minutes past ten in the morning, arriving in Quebec at 12:45 and 1:30 p.m. Leaving again in the afternoon at ten minutes past two, arriving in Quebec at 4:50 and 5:15 p.m. This trip includes stop over at Montmorency Falls.

The laws of the Dominion partly protect you against impure and injurious food. You are absolutely unprotected, as to the unseen poisons that lurk in the water you are now drinking. Only the analytical chemist can tell you how much dangerous organic matter you are taking into your system with every glassful you drink.

We hear a lot about pure milk, but, what about your water supply. Pure water is as necessary to good health as pure food and pure air.

The famous CLAIRE-FONTAINE spring, is drawn from Nature's filter, is by analysis a perfect water. Results of analysis of the water is on a label of every bottle that leaves our factory.

Monday Will Be
the Day

Saturday our FALL
OPENING will be adver-
tised in this paper. Bear
it in your mind that this
event will take place on
Monday.

A Foretaste of Our Fall Opening

WE do not see a better way to prepare
you for our Fall Goods Exhibi-
tion than to call your attention to
our assortment of Girls' Coats. Our stock
is now complete and ready to be shown on
demand.

On Monday next they are going to be
exposed to your admiration.
Suitable for any age and any purse.

Ladies' Ton Coats.—CHIC is the proper word to qualify
them. From the short, bright shade
jackets to the long, semi-fitting Directoire Coat, so fashionable this
year. In all the newest shades. In the most fashionable styles.

Ladies' Tailor Suits.—It is in a very confident state of mind
that we call our assortment of Ladies'
Tailor Suits the biggest in the whole town. We put the full strength of
our brain to pick up the nicest shawls and have them made after the
most expensive fashions from London and Paris. The result is that we
can sell you for \$10.00 a suit worth \$20.00 anywhere else.

They are worth while inspecting. From \$10.00 to \$45.00.
The full range in prices, styles and qualities.
It is the most exquisite application of the styles.

For Men

Black or colored Over-
coats, the newest style,
with lapels or auto collar,
pockets and cuffs with
fancy finish.

Our special is worth
being mentioned.
Price \$15.00

For Young Men

Fall suits, made of
heavy woven tweed, sin-
gle or double breasted,
lapels, sleeves and pockets
beautified with fancy but-
tons and braid. A very
nice range of suits. There
is nothing missing re-
garding the finish and the
quality. Very acces-
sible prices.

We Will be on

Time

We are going to have
a fall goods exhibition on
Monday. The choice is
as large as any concep-
tion could want it to be.

Mrs. M. Sutherland, Mrs. C. W.
Thomas and wife, Fernie, B.C.; Mrs.
A. Morin, Cap St. Ignace; J. A.
Sutherland, Chicago; Geo. Perron,
St. Jerome; M. St. Laurent, Ri-
nzuski; F. P. Rand and wife, New
York; J. I. Kerr, London; A. G.
Lewis, England.

THE NICKEL.

The Nickel management have secured
a new vocalist in the person of Mr.
Frank Woods, who comes here well
recommended and was heard for the
first time yesterday. Bonnie Ravelle
still maintains her popularity with
her audiences, who are daily increas-
ing in numbers. Her singing of Scotch
songs is really clever and those who
hear her are not slow in showing their
appreciation. Miss Wolfe also has
a very pleasing song which she renders
in an able manner. The usual change
of the picture programme took place
yesterday afternoon and an exception-
ally fine selection of subjects is ex-
hibited, all of them of a nature that
are sure to please diverse tastes. Among
those included in the programme are
"The Wonderful Fan," "A Kind-Heart-
ed Touch," "A Child of the Forest,"
"The Haunted Hat," and "A Doctor's
Bride." The vocal number of Mr.
Frank Woods will be "When the Can-
dle Lights are Gleaming." All the
songs will be changed to-day.

Piles and Purgatory

Begin With The Same Letter And There
Are Other Resemblances.
Suffer? Oh, no! "Suffer" don't
express it, but there is the PYRAMID
PILE CURE. It's a Cure that comes
to stay and gives one a fresh grip on
things.

IT PROMISES TO CURE
and keeps its word. Even to the last
letter. It is made that way. This is
why. And it is not expensive—within
the easy reach of every one. Only 50
cents a box at your druggist, and a box
goes a long way.

YOURS IS THE WORST
kind and of long standing? Already
tried everything you ever heard of?
Discouraged? Well, rather. But the
PYRAMID PILE CURE was made for
just such cases. Yours is not a bit
worse than hundreds of other cases
that the Pyramid Pile Cure has cured.
SKEPTICAL? NO FAITH!

No wonder. But listen. We are so
sure that our remedy will cure you
that we will send you a Free Trial
packet. This will begin to show you
what enough of it will do and then
you can go to your drug store and get
as much as you need. It won't be
more than a box or so.

DON'T PUT OFF
getting rid of this terrible trouble. Of
itself it is hard enough to endure,
but it leads to things worse. In truth
it badly disarranges the entire lower
bowel tract; creates ulcers, abscesses
and a series of evils any one of which
can easily prove fatal.

DON'T PUT OFF
sending for the free trial package.
We send this to show how great our
faith is in this cure. If we did not
believe in it, we would not make this
offer. To-day is the best day you will
ever have to send for it. Do your
writing plainly, so there will be no
mistake. Fill out coupon; it won't
take a minute's time and mail it to
us.

Free Package Coupon

Fill out the blank lines below
with your name and address, cut
out coupon and mail to the
PYRAMID DRUG COMPANY,
216 Pyramid Bldg., Marshall,
Mich. A trial package of the
great Pyramid Pile Cure will
then be sent you at once by mail.
FREE, in plain wrapper.

TOO MUCH ENTERTAINMENT

Delegate to Trades and Labor
Congress Says Not Enough
Time to Work.

"Too much entertainment," said one
of the delegates at the meeting of the
Dominion Trades and Labor Congress
yesterday afternoon. "Here we are on
Wednesday afternoon, and little pro-
gress has been made, while many im-
portant matters are awaiting to come
before the Congress." The remarks
were drawn forth by the fact that
when the Congress assembled this
afternoon there were no less than 56
resolutions before it for consideration,
but none of the committees had as
yet any opportunity to consider the
many questions fully and place them
before the conference, only a small
fragment having been considered by
the committee on resolutions and pre-
sented in the regular order this after-
noon. Finally it was decided to ad-
journ and allow the committees to
get to work so that when the Con-
gress meets this morning there may be
no more delays, and the Congress may
go ahead with some prospect of get-
ting ahead before the end of the week.

The first business at the afternoon
session was the reception of invita-
tions for the next meeting of the Con-
gress, Guelph and Fort William being
strong contenders for the honor. The
invitations will be considered later.

The Committee on Resolutions then
reported that they had examined a
number of resolutions, but that there
were many more yet to come.

Among the resolutions which the
committee approved of were legislative
aid for the establishment of co-opera-
tive efforts in Canada; a resolution
from the Carpenters' Union of Mon-
treal urging the selection of a num-
ber of matters of supreme interest to
the workmen of the Dominion upon
which the attention of the Congress
should be concentrated; a resolution
from the Victoria Trades and Labor
Congress in regard to war, setting
forth that when the workmen real-
ized that the loss of human life and
destruction of property came upon
them especially, they would be ready
to support a proposition that the
Trades Congress should be a peace
congress to take part in any peace
movement which might be inaugu-
rated in Canada.

Among the new resolutions intro-
duced this afternoon was one from
the Winnipeg Trades and Labor Coun-
cil against race track gambling, ask-
ing for the total prohibition of the
same, and putting on record the Con-
gress' protest that the Government has
not as yet taken action.

Another new resolution was one
urging upon the Government such
legislation as should make the "hu-
mane and modern" system of proba-
tion and indeterminate sentences,
which has already been found so pro-
ductive of good, more general in the
Dominion.

The white slave traffic was the sub-
ject of another resolution, introduced
on behalf of the Winnipeg Trades and
Labor Congress, the effect of which
was to urge upon the Government the
introduction of such legislation as
would make the man found guilty of
connection in such cases liable to
heavy penalty.

There were a number of other inter-
esting motions also placed before the
Congress, the chief one possibly being
one looking to the abolition of the
right of any man holding a dual po-
sition as member of Council and Legis-
lature or Legislature and Dominion
Parliament. Another motion com-
mended the work of the Labor Fed-
eration Association in Ontario and
pledged the moral support of the
Congress. A resolution strongly re-
sisting the proposal of the Canadian
Manufacturers' Association to raise
the deposit of candidates for Federal
Parliament from \$200 to \$500 was also
referred to committee.

A resolution from the Painters' and
Decorators' Union of Montreal called
upon the Government for legislation
to prevent any paper hanging until
the old paper upon the wall has been
removed, this being in the interest of
public health.

A number of amendments to the
constitution were also received, and
these were referred to the proper com-
mittee.

The most important of these had
for its object the meeting of the dif-
ferent committees of the Congress in
sufficient time prior to the convention
that no time should be lost when the
delegates meet.

General Organizer Trotter's report
of his tour in Ontario for organiza-
tion purposes gave rise to a brisk dis-
cussion in the morning session. The
statement that he found in some
places partisan politics interfering
greatly with organized labor was the
cause of the discussion.

Mr. John Donohue, Parliamentary
solicitor, delivered his report yester-
day morning.

A very interesting and important
report from the Moral and Social Re-
form Council of Canada, was read by
Mr. Simpson.

"THE VOLUNTEER ORGANIST."

The plot of William B. Gray's fa-
mous pastoral play, "The Volunteer
Organist," which is booked for the Au-
ditorium Monday and Tuesday, Sept.
27 and 28, revolves around a broad-
minded young clergyman who falls in
love with the tavern-keeper's daugh-
ter, and who is man enough to stand
by the woman he loves in spite of all
the petty annoyances and worries cast
upon him by his congregation. The
climax is reached when the organist
and choir refuse to take part in the
church services unless the young wo-
man resigns from the choir. The min-
ister calls for a volunteer organist,
and a tramp, who has been hanging
around the village for some time, re-
sponds to the invitation and plays.
The tramp turns out to be a long
lost brother of the clergyman, and
happiness is meted out to all deserv-
ing of it while the wicked are shown
the error of their ways.

Children Cry
FOR FLETCHER'S
CASTORIA

EDUCATION IN QUEBEC.

The prizes which could not be
awarded until the results of the Uni-
versity School and Government exam-
inations were known, were presented
to the successful scholars at the Girls'
High and Victoria Schools on Tues-
day, 21st inst., by the Chairman, the
Very Rev. Dean Williams.

At the Girls' High School three
scholars wrote for the University
School exams., and all passed, Miss
Alice Sweezy, 699 marks out of 900,
taking 20th place among 150 com-
petitors in the province; Miss Elsie
Amy 644 marks; and Miss Isabel
Quinn 621 marks.

Ten wrote in the preliminary exams.
and nine passed:—Misses Rosetta
Joseph, 333 marks; Mabel Lebeau,
327; Florence Wilkinson, 283; Annette
Dunlop, 277; Constance Jackson, 276;
Julia Amy, 271; Edith Parker, 262;
Leah Herskovitz, 231; Mildred Jack,
197.

The prizes were awarded as follows:
Alice Sweezy, full marks, 100 p.c. in
algebra. Superintendent of Public
Instruction gold medal, and first prize
in school exams.; Elsie Amy, second
prize; Rosetta Joseph, first school
prize; Mabel Lebeau, second school
prize.

The prize list of Victoria School
model grades is as follows:—

Grade III. Model—Miss Winn's Class.
—Annie Feiczewicz, Scholarship at
Girls' High School, 1st promotion.
late Dean Norman's prize for general
proficiency: Sadie Brown, 1st prize
given by T. J. Moore, Esq., for 1st
class marks, regular attendance and
punctuality; Alice Pasman, 2nd
class marks; Violet Smith, 1st good
conduct, punctuality and regular at-
tendance; May Young, deportment.

Grade II. Model—Rachel Schmil-
ovitz, 1st promotion and class marks;
Margaret Ralph, 2nd promotion; Agnes
Armstrong, 2nd class marks, 1st
good conduct, punctuality and regular
attendance; Charlotte Carson
and Constance Fanning, prizes for
general progress.

Grade I. Model—Muriel Jackson, 1st
promotion; Florence McTeer, 2nd
promotion, 1st class marks, good con-
duct, punctuality and regular attend-
ance; Bella Rosen, 2nd class marks,
with full marks, 100 p.c. in written,
rapid and mental arithmetic; Ruth
White, 1st punctuality and regular at-
tendance; Annie Juri, 2nd good con-
duct; Louise Caron and Daisy West,
prizes for general proficiency; Sarah
Buchman, Annie Wright and Rachel
Buchman, prizes for general progress.

Grade II. Model—Mr. Sangster's
Class.—David Kerr, Scholarship in
High School of Quebec, 1st general
proficiency; Lieber Lermer, 2nd
general proficiency; Henry W. Law-
son, 3rd general proficiency; H. F.
Jewell, 4th general proficiency; Alfred
P. Girault, 5th general proficiency.

Grade I. Model.—Fred. W. Phillips,
1st general proficiency; Clayton A.
Faulotte, 2nd general proficiency with
full marks, 100 p.c. in written, rapid
and mental arithmetic; Herbert
Wright, 3rd prize general proficiency.

That good work is being done in
Victoria School is proved by the fact
that in the Government examinations
of the model grades, the school ranks
of the province among 49
schools with 83.23 p.c., being only 23
points behind the first, Hatley school,
with 85.63 p.c.

Last year, 1907-08, was the first
time that the model grades of Vic-
toria School wrote in the Government
exams., and ranked 16th on the list,
and to jump to second place shows
good progress all along the line.

In addition to the regular curricu-
lum, the Rev. Mr. Lebeau will con-
tinue his lessons in oral French, and
Quartermaster-Sergeant Gen. R.C.R.
I will conduct the physical drill and
rifle instruction during this school
year.

The Girls' High School building has
been renovated from top to bottom,
the walls and ceilings and woodwork
painted in oils, and the basement con-
creted. The primary class has been
resumed and the domestic science
classes will be opened on the 1st of
October.

These excellent results in the schools
under the Protestant Board, and also
in the High School of Quebec (Boys)
show that education in the city of
Quebec ranks high in the Province
and the Dominion.

DEATH OF MAJOR NUTT

Boston, Sept. 22.—Rodina Nutt, last
male survivor of the late P. T. Bar-
num's famous midget troupe, died at
his home in Dorchester to-day at the
age of 69 years. Since retiring nine-
teen years ago Major Nutt, as he was
known, had conducted a successful real
estate business. Heart trouble caused
death. He was a brother of "Com-
modore" Nutt, who died in 1881.

S. P. C. A.

WORK-HORSE PARADE

As there are a number of
persons desirous of enter-
ing Horses in today's
Parade, it has been decided
to have a Post entry
(m'collaneous) class to be
judged at 4.30 P.M. All
those whose entries were
offered too late to be ac-
cepted are requested to re-
port to the Treasurer of
the Society, on grounds at
2 o'clock to-day, or before
at his office, 85 St. Peter
St.

Women's Costumes for Street Wear

We counted yesterday thirty-five different models that have just come
in from some of the best foreign tailors. The gowns are distinctly differ-
ent in every line and trimming. There is no need for any two women to
look alike when an exquisite gown of such distinctive merit is available at
these very moderate prices.

The fabrics are fine luster Broadcloths, twilled Serges, Corded Suitings
and various novelty weaves in woolsens.

The styles are so varied that they are beyond the possibility of descrip-
tion and lengths are here to suit all figures. Prices are \$25.00, \$32.00,
\$35.00, \$37.50.

More Novelties Than Ever Before in This Charming Gathering of Dress Trim- mings from Paris

Dressmakers will be as much delighted as the woman who will wear the
charming gowns, as the New Trimmings. Open up the most wonderful pos-
sibilities for beautifying costumes, and they are designed to produce the
results with the least possible efforts.

The most striking feature of the new trimmings are the metal effects
which are chiefly in dull finishes, and of silver and gold. The beautiful
beaded designs and the jeweled encrustations presenting reproduction of
every gem known to the category.

Among the black trimmings the jets are more beautiful than ever, and
promise wider favor than ever this season. The designs are strikingly new
and effective.

Jet Bead Trimmings are shown at \$10.00 to \$25.00 each.
Beaded Tassels, at 75c. to \$2.00 each.
Colored Embroidered Trimmings 50c. to \$5.50 a yd.
Jet Beaded Garnitures, 50c. to \$6.00 a yd.
