STRIKING BACK

YESTERDAY'S DEMONSTRATION DID NOT HELP THEIR CAUSE TO ANY GREAT EXTENT.

Pittsburg, Sept. 3.—It was believed that yesterday's creditable labor demonstration would give impetus to the steel strikers' cause and strengthen them in their great fight, but the developments in the strike situation to-day were all favorable to the masters. From nearly every point in this district the reports were of a discouraging nature to the strikers. Thirty-two new workmen, all said to be skilled, entered the Star Tin Plate plant without moletation; 125 machinists returned to work in the Pennsylvania & Continental Tube plants and 12 imported men went to work at the Steel Hoop Mill in Monessen. At Duquesne no further efforts were made to get the men out and the works were in full operation.

Rumors of peace still continue in circulation, but nothing definite can be traced to a reliable source. Among the latest reports is one to the effect that a conference would possibly be held to-day at which the strike might be settled. Prominent manufacturers and the leaders of the strike, however, declare they knew nothing of the intended meeting.

THE SHAFFER CHARGES.

Buffalo, Sept. 3.—A quorum of the members of the executive council of the American Federation of Labor held a conference in a room at the Vendome Hotel late last night, and after a few words from the president, Mr. Samuel Gompers, the council adjourned to await the report of a committee appointed to investigate the charges which have been made against Mr. Shaffer, president of the Amalgamated Steel Workers of America, by a former vice-president of the association. Upon the report of the committee, which, it is said, will be made by Friday, depends the support of the parent body, the American Federation of Labor, in the steel strike. The object of the conference was the appointment of a national committee which would investigate the charges made in the Milwaukee convention last week that Mr. Shaffer had ordered a useless strike.

MANITOBA WHEAT

FORTY CARS SHIPPED EAST FROM WINNIPEG YESTERDAY.

Winnipeg, Man., Sept. 3.—Forty cars of new wheat were shiped east from Winnipeg on the C. P. R. on Sunday. Buying will begin at many points to-day. James McMillan, of Scotia, threshed a twelve-acre wheat field on Saturday which wielded 608 bushels, an average of fifty bushels per acre and graded No. 1 hard.

MOSES HARVEY, LL.D.

DEATH OF THE HISTORIAN OF NEWFOUNDLAND.

St. John's, Nfld., Sept. 3.—The Rev. Moses Harvey, historian and scientist, and discoverer of the devil fish now in the Smithsonian Institution, Washington, died this morning. He was born in 1820.

A strong wave of sadness comes over one who once met Dr. Harvey, on the news of his not unexpected death, and a first view of him will not soon be forgotten. A slight, almost fragile, looking figure in a clerical black coat, and soft felt hat, head bent, and busy in thought, he was trudging along the cobble stone paving of St. John's streets in a mist that any one else would have called a drenching rain, and yet on he went as though he enjoyed it, and when urged to put up his umbrella he hugged it closer, and with a whimsical smile declared 'this' was not rain at all. He even offered on a similar occasion to go to the post-office to save a visitor going out in the wet. And when said visitor refused to accept the too kind service, he insisted on going too—for his constitutional—and when they returned to the comfort of the cheery grate fire, there peeped here and there from under his solicitude for a guest's comfort a hint of decided enjoyment that another 'Canadian' had got a good taste of a Newfoundland fog, which, however uncomfortable it might make one not used to it, would still do not the least harm. For was he not a living witness? Fifty years he had lived thus, and where would you find one of his years doing more?

That was only two years ago, and at 79 he held a government post, was regular Newfoundland correspondent for the Montreal 'Gazette,' for the New York 'Herald,' for the Reuter Telegram Agency, and was writing constantly articles for magazines and works of reference besides.

Dr. Harvey was born in Armagh, Ireland, the son of the Rev. James Harvey, the Presbyterian minister of Redrock, in 1820. Educated at the Royal College, Belfast, he took honors in Greek, logic and moral philosophy, and had his first charge at Maryport, Cumberland, England. In 1852 he accepted a call to St. Andrew's (Free) Church, St. John's, Newfoundland, and there he labored for 26 years. During these years he was, too, a noted lecturer, and whenever he lectured he commanded a crowded house. At the end of a pastorate of 26 years, in 1878 he retired, the congregation granting him a liberal life annuity. But his retirement meant not rest, only change of work. Science and Newfoundland were his hobbies. In 1886 he was elected a Fellow of the Royal Geographical Society of England, and in 1891 a Fellow of the Royal Society of Canada. In the same year he received the honorary degree of LL.D. from McGill. He was also a corresponding member of the Nova Scotia Institute of Science, and an honorary member of the New England Historical Society.

Few who have been thrilled with descriptions of the great devil fish know that its discoverer was Dr. Harvey. The monster was found by some fishermen in Portugal Cove, nine miles north of St. John's. They hauled it ashore, and were cutting it up to feed their dogs when the minister of the place stopped them. 'Take it in to St. John's,' he said, 'to Parson Harvey; it's the kind of thing he wants to see, and he will pay you for it.' Into 'Parson Harvey's' house the thing was brought—the loathsome body, with the big eyes and cruel beak, filled and spilled over the big, round foot bath, and the snake-like arms thirty feet long were draped over a broomstick laid across the backs of two chairs, and there it was photographed. A cast of it now adorns the museum in St. John's, and the body itself rests in the Smithsonian Institute, Washington.

But his chief aim was to bring to the knowledge of the world the importance of Newfoundland, Britain's oldest colony, and the one most neglected. Since 1869 the sketches and articles he has written for papers and magazines far and wide on Newfoundland, her history, her natural resources, her possibilities, would fill many volumes. The articles in Johnston's 'Universal Cyclopaedia' and the 'Encyclopaedia Britannica' are from his pen.

Among his books are 'The Characteristics of the Present Age' (1851), 'Thoughts on the Poetry and Literature of the Bible' (1852), 'The Testimony of Nineveh and the Veracity of the Bible' (1854), 'Lectures on the Harmony of Science and Revelation' (1856), 'Lectures on Egypt and its Monuments as Illustrative of Scripture' (1857), 'Lectures, Literary and Biographical' (1864), 'Cormack's Journey Across Newfoundland (edited in 1873), 'Across Newfoundland with the Governor' (1879), 'Newfoundland, the Oldest British Colony' (1883), 'Text-book of Newfoundland History' (second edition, 1890), 'Where are we and Whither Tending?' (1886), 'Newfoundland as it is in 1894, a handbook and Tourist's Guide,' and 'Newfoundland in the Jubilee Year' (1897). Mrs. Harvey died only about a year ago.

Dr. Harvey was a journalist of a type of which the world has too few. A cheery, patient, painstaking, scholarly laborer, his chief aim was to get facts and record them as they were.

NOTES FROM THE CAPITAL.

Ottawa, Sept. 3.—A telegram from Sir Louis Davies says the damage to the government steamer 'Minto' by fire at Charlottetown is not serious and can be made good in a couple of days.

Two dollars restitution money was to-day received at the Marine and Fisheries Department from the Province of Quebec.

It has now been practically decided to add the duties of the office of Gentleman Usher of the Black Rod to those of the Sergeant-at-Arms of the Senate. The Upper House placed itself on record some years ago as favoring the abolition of Black Rods. The present Sergeant-at-Arms of the Senate is Mr. J. St. Denis Lemoine.

A LABOR DAY RIOT.

Savannah, Ga., Sept. 3.—Business of all kinds was practically suspended from noon yesterday for Labor Day. There was a parade of organized labor through the streets in which both races participated. After the parade the unions took trains for Tybee Island where the principal events of the day were to occur. At night there occurred what promised to become a general and dangerous riot between civilians and soldiers from Fort Screven. A call was sent to the Fort for troops to quell the disturbance, but for some reason there was no response. After the rioting had subsided it was found there were many broken heads and noses, but no fatalities.

COLLIDED WITH A FREIGHT TRAIN.

Phoenixville, Pa., Sept. 2.—A northbound passenger train on the Schuylkill Valley Railway collided with a freight train to-day at Spring City, near here. A number of persons were slightly injured, and several cars were wrecked. One of the freight cars was loaded with cans of oil, which exploded, setting fire to the train. The Spring City and Royersford fire departments extinguished the flames. While the wreckage was being removed from the track, one of the cars slipped from the derrick, killing George Graham, of Spring City, and injuring three others.

GOLD IN PORTO RICO.

San Juan, Porto Rico, Sept. 3.—At Comerio it has been ascertained that gold is being taken out of the various streams by some of the poorer people. The natives make daily excursions to these streams and search for pebbles which are covered with gold. At night they return to town and purchase food. None of them will show an outsider to the places where these pebbles can be found, and guides employed for this purpose invariably lead the prospectors astray.

FATAL NEW YORK FIRE.

New York, Sept. 3.—Three Chinese lost their lives in a fire on Pell street, in the heart of Chinatown, to-day. One of them was instantly killed by jumping from the third floor to the street. The other two were suffocated. The damage to the building, which was used as a restaurant and lodging-house, was about $25,000. The Chinese Masonic lodge also had its rooms in the building.

KILLED IN THE TYROL.

London, Sept. 3.—News has reached London that the Venerable Wm. Pelham Burn, Archdeacon of Norfolk, has been killed in the Tyrol.

CALLED TO VANKLEEK HILL.

Vankleek Hill, Ont., Sept. 2.—A congregational meeting of Knox Church was held here this afternoon for the purpose of extending a call to a pastor, the Rev. J. Cormack, moderator, presiding. The selection was by ballot, which resulted in a large majority in favor of the Rev. S. G. Thomson, M.A., of Toronto.

BOUCHERVILLE.

Celebration of the Double Centenary a Great Success.

SERVICE IN THE VILLAGE CHURCH—A GRAND BANQUET.

The festivities in connection with the hundredth anniversary of the construction of the parish church and the two hundredth anniversary of the foundation of the local convent by the venerable Sister Bourgeois at Boucherville, commenced this morning.

BOUCHERVILLE CHURCH IN HONOR OF THE CENTENARY OF WHICH THE CELEBRATION IS BEING HELD.

At nine a.m., the steamer 'Three Rivers' left the city crowded with members of the clergy, former pupils of the convent, and invited guests, and other boats carried additional visitors during the day.

The beautifully situated village is profusely decorated with flags and bunting and every house has a festive appearance.

THE REV. J. PRIMEAU,
Curé of the Parish of Boucherville.

Immediately after the arrival of the 'Three Rivers,' the solemn service in the village church commenced, Archbishop Bruchesi officiating in full pontificals. The Rev. Father Louis Lalonde, S.J., preached the sermon. The church was splendidly decorated and illuminated, and the music rendered by a powerful choir and orchestra was most impressive.

After the service a banquet was held on the college grounds, the ladies of the parish attending to the wants of the numerous guests.

The programme for the rest of the day includes a concert and literary entertainments in the large convent hall, and the grand illumination and display of fireworks this evening.

Steamers will leave Victoria wharf, Jacques Cartier square, at eight o'clock to-night.

Among those present this morning were the following bishops and archbishops:—Archbishop Bruchesi, of Montreal; Archbishop Brunelle, of Ottawa; Bishop Emard, of Valleyfield; Bishop Decelles, of St. Hyacinthe; Bishop Bruneault, of Nicolet; Monseigneur Racicot, vicar-general of Montreal; the Very Rev. Abbé Phibaudier, vicar-general of Nicolet; and the following prominent laymen: The Hon. Mr. DeBoucherville, the Hon Joseph Royal, the Hon. Mr. La Bruere, Superintendent of Public Instruction; Mayor Perrault, of Longueuil, and others.

THE KING'S THANKS.

APPRECIATES THE SYMPATHY OF THE CITIZENS OF MONTREAL UPON THE OCCASION OF HIS SISTER'S DEATH.

Mayor Prefontaine has received from the office of the Canadian Commissioner in London a letter enclosing a communication from the Colonial Office, to the High Commissioner, reading as follows:

My Lord:

I am directed by Mr. Secretary Chamberlain to acknowledge the receipt of your letter of the Tenth inst., embodying the telegram from Mr. Raymond Prefontaine, K.C., M.P., Mayor of Montreal, requesting that an expression of the deep sorrow of the citizens of that city may be conveyed to His Majesty the King, and to His Imperial Majesty, the German Emperor, on the death of Her Late Imperial Majesty, the Empress Frederick.

I am to inform you in reply, that this telegram has been duly communicated to His Majesty the King, who commands the secretary of state to request you to be good enough to convey an expression of His Majesty's sincere thanks to Mr. Prefontaine and the citizens of Montreal for their sympathetic message.

Mr. Chamberlain has also caused this message to be notified to the foreign office, with a request that it may be communicated to His Imperial Majesty through the usual channels.

(Signed) H. BERTRAM COX.

CONVENT AT BOUCHERVILLE, WHICH ALSO CELEBRATES TO-DAY ITS CENTENARY.

HAWAIIAN AFFAIRS.

Honolulu, Aug. 25, via San Francisco, Sept. 3.—The territorial courts do not agree regarding the question of the constitution following the flag to Hawaii. The Supreme Court has just handed down a decision, with Judge Galbraith dissenting, to the effect that 'during the period between the annexation of these islands to the United States and the territorial government, persons accused of crime could lawfully be prosecuted without the intervention of a grand jury, and convicted by nine out of twelve jurymen.' The decision remanded back to jail seven defendants who had been released on habeas corpus by Judge Geer, of the First Circuit Court.

Judge Geer held that the provision in the Newland resolution that 'laws of Hawaii not contrary to the constitution of the United States remained in force,' meant that the laws that were contrary to the constitution were annulled.

Governor Dole has returned from his trip for his health. He is greatly improved in condition and expects to resume the duties of his office next week.

The Supreme Court has given a decision sustaining the income tax law passed by the legislature a few months ago.

WHEN THE EMPERORS MEET

FEARED EFFORTS TO ROB THE OCCASION OF POLITICAL IMPORT WILL PROVE FRUITLESS.

Berlin, Sept. 2.—In spite of the efforts made to preserve the non-political aspect of the coming meeting between the Emperor William and the Czar, the 'Schlesiache Zeitung's' St. Petersburg correspondent declares that the Czar has been in autographic correspondence with the Emperor, special couriers visiting Berlin twice weekly bearing letters which have not passed through the hands of the officials.

COLONEL GORDON IMPROVING.

Ottawa, Sept. 3.—A message received at the Militia Department this morning from the casualty department at Capetown, says that the condition of Lieut.-Colonel Gordon on Aug. 30 was slightly improved.

SUGAR CONFERENCE TO REASSEMBLE.

London, Sept. 3.—A despatch to the Central News from Brussels says that the sugar conference which adjourned in 1898 is likely to reassemble in October and that Germany and Roumania will participate in the meeting.

A CASUS BELLI

VENEZUELA HAS A GRIEVANCE AGAINST COLUMBIA.

Caracas, Venezuela, Sept. 2.—The 'Official Gazette' to-day publishes the memorandum of the Minister of Foreign Affairs to all friendly nations, explaining the complaints made by Venezuela against Colombia. The case is considered to be a casus belli. There is much comment and excitement.

Colon, Aug. 31 (delayed three days by the censor).—Bocas Del Toro, 140 miles west of Colon, is virtually besieged by the liberals, or insurgents. They number at least two hundred, and, as already cabled, occupy Provision Island, which is opposite the town, and commands the entrance to the harbor. They are fairly well armed, possessing two small modern cannon, as well as plenty of ammunition, and are commanded by a Nicaraguan. Among them are many Nicaraguan and Costa Rican liberals.

The opposing forces have occasionally exchanged shots, although with the exception of one Jamaican wounded, there have been no casualties.

Martial law prevails in Bocas Del Toro. The authorities have stopped communication with other ports, except Colon.

The United States, French, British and German consular agents in Bocas Del Toro told the Colombian commander that if the severe harbor restrictions interrupting commerce were not abated they would call for gunboats. These representations resulted in a limited improvement only in harbor conditions.

The local trade, which has been chiefly in bananas sent to the United States, is virtually dead. The United States consular agent in Bocas Del Toro has made an urgent appeal to the United States consul in Colon to send a gunboat. Commander Sargeant, of the United States gunboat 'Machias,' is fully informed of the situation, and if this does not improve shortly the 'Machias' will probably proceed to Bocas Del Toro. The liberals on Provision Island say the presence of the 'Machias' will not alter the situation, as they have in no way interfered with or injured foreigners, and the government alone is responsible for the restrictions laid on commerce.

REBEL SUCCESS.

New York, Sept. 3.—Mr. H. H. Hale, a mining engineer of Boston, was among the arrivals yesterday from Cartagena. Concerning the civil war in Colombia, Mr. Hale did not care to express an opinion as to the final outcome, but said that so far the rebels had been more successful than the government troops.

Mr. Luther E. Ellsworth, United States Consul at Puerto Cabello, Venezuela, arrived yesterday from La Guayra. 'War betwen Venezuela and Colombia,' said the consul, 'is improbable. Neither republic is in a position to enter into a conflict, but of the two Venezuela is better situated.'

Caracas, Venezuela, Sept. 3.—The 'Republic,' semi-official organ of the government, published to-day an inspired article ending as follows: 'The hour for notes has passed and the time for action has arrived. Diplomacw has laid before the world the just reasons which it has had and has for asking compensation for grievances suffered. It has exhausted all the means at its disposal for settling threatening questions between nation and nation. We have waited enough. Now is the time for reprisals.'

PICKETING BY STRIKERS

LIFE OF TRADES UNIONISM ENDANGERED BY THE HOUSE OF LORDS DECISION.

Swansea, Wales, Sept. 2.—The thirty-fourth annual trades union congress assembled at Albert Hall here to-day under the presidency of C. W. Bowerman, M.P. About four hundred delegates were present, representing a million working people.

Among the subjects which will be discussed are 'Higher grade education,' 'Housing of the working classes,' 'A general eight-hour day,' 'Compulsory arbitration in trades disputes,' 'Parliamentary franchise to women,' 'Adult suffrage' and 'Old age pensions.'

A commotion was caused at to-day's session of the congress by the action of some of the employers in endeavoring to recover damages under the House of Lords decision of July 22 last, from labor organizations for picketing by their members. A delegate from Blackburn was served with a writ yesterday restraining him and the members of the Blackburn branch of the Weavers, Winders and Warpers' Association, from picketing Banister & Moore's works, where a strike is now in progress. Damages and costs were claimed. Besides this suit the Taff Vale Railway is suing the Amalgamated Society of Railway Servants for £20,000 damages incurred as a result of the strike of 1900. These suits will be strenuously defended, but their seriousness puts in the shade almost every other topic of discussion. The president, Mr. Bowerman, to-day devoted the principal part of his address to this topic, declaring that union funds were threatened with demolishment and that the position was intolerable. He said the parliamentary committee favored an alteration of the constitution of the unions, with the object of minimizing their liability to action.

The 'Chronicle' to-day supports this view, maintaining that no association of working men can stand long against such litigation and that if the decision regarding picketing is final then any unscrupulous capitalist will have his employees at his mercy and 'the working classes will sink back again into an unorganized and impotent crowd.'

MR. MULOCK'S PLANS

HAS NO INTENTION OF RETIRING FROM POLITICS AT PRESENT.

Toronto, Sept. 3.—The 'World' says: The Hon. Mr. Mulock, speaking over the telephone from Aurora on Saturday, declared that beyond rheumatism in his arm, he was feeling all right. He wished it stated also that he never had a day's illness until lumbago attacked him recently. That he is about to retire from politics he characterized as absolutely false. He declared that, no matter how pleasing the rumor of his ill-health might be to many, he would have to disappoint them this time.

LI HUNG CHANG FAILING

DOUBTFUL IF HE WILL EVER BE ABLE TO ACT AS CHAIRMAN OF THE COUNCIL OF STATE.

Pekin, Sept. 3.—Li Hung Chang is becoming more and more feeble, and it is apparent to all his visitors that it is not probable that he will ever be able to act as chairman of the council of state.

Mr. Conger, the United States minister, is taking steps to reclaim the small American concession at Tientsin, the title of which has practically lapsed of late years because of the government being unorganized and a majority of the American residents being scattered among the British and German possessions. The American need for the concession is chiefly for military uses, so as to avoid the experiences of last summer, when the United States army had difficulty in getting quarters and docking facilities.

COAL INDUSTRY DECLINING.

Berlin, Sept. 3.—A private despatch from Cologne says many laborers are being discharged from the coal mines and industrial establishments owing to declining business. The men discharged are mostly Italians and Poles, who are returning home in troops. The weekly decrease in the miners' wages amounts to 400,000 marks.

CRUISE OF THE 'OPHIR.'

St. Vincent, Cape Verde Islands, Sept. 3.—The British royal yacht 'Ophir,' with the Duke and Duchess of Cornwall and York on board, and the war vessels escorting the yacht, were sighted to-day off Porto Praya.

BELGIUM AND HOLLAND.

The Hague, Sept. 3.—For the first time since the establishment of Belgian independence the Government of the Netherlands has invited Belgium to send military representatives to attend the autumn manoeuvres in Holland. The incident is of political importance.

MILITARY REVIEWS.

The Minister of Militia and the Major-General commanding were in conference until a late hour on Saturday on the subject of reviews which are to be held at Quebec, Toronto and Halifax during the visit of the Duke of Cornwall and York. The Quebec demonstration being the first, arrangements were perfected for the command of the different arms of the service there.

Major-General O'Grady-Haly will be in command at the three reviews, with Col. the Hon. M. Aylmer, adjutant-general, as second in command.

The other officers at Quebec will be as follows D.A.G., Lieut.-Col. Vidal; D.A.G., medical service, Lieut.-Col. Neilson; D.A.A.G., Lieut.-Col. Lindsay; A.D.C.'s Major Heward and Lieut. Farrell, 66th Regiment, Halifax; but at present attached to the R.C.R.I.

Cavalry brigade, commanding officer, Lieut.-Colonel Lessard; brigade-major; Lieut.-Colonel Williams, Royal Canadian Dragoons.

Artillery division, Lieut.-Col. Hudon in command; brigade-major, Capt. A. T. Ogilvie, R.C.A.

Garrison artillery, Lieut.-Colonel J. F. Wilson in command; brigade-major, Major J. A. Fages.

Infantry division, Lieut.-Col. Evanturel in command; brigade-major, Major A. O. Fages, R.C.R.I.

First Infantry brigade, Lieut.-Colonel E. B. Ibbotson, of Montreal, in command; brigade-major, Capt. Thacker, R. C. R. I.

Second Infantry division, Lieut.-Col. O. C. C. Pelletier, D.O.C., in command; brigade-major, J. P. Ouellette, 9th Regiment.

Medical corps, Lieut.-Col. Sewell, A. M. S., in command; Brigade-Major Brosseau, A.M.S., of Quebec.

The officers for the reviews in Toronto and Halifax will be named in a week or two.

THE DANISH WEST INDIES.

London, Sept. 2.—A despatch to a news agency from Copenhagen, to-day, says the new Danish ministry has decided to accept the United States' offer of sixteen million kroner for the Danish West Indies, thus announcing as an accomplished fact what the despatches of the Associated Press and the ministry would do.

McGILL NEWS

THE PHYSICS BUILDING.

Work in the Physics building will be a little slow in beginning this year, because the insurance companies have introduced new regulations in regard to electric wiring, to comply with which it has been necessary to take out all the wires in the building, replacing them with heavier ones. The wooden cleets have also been replaced by porcelain ones, and various other changes made.

ACCORDING TO THE CALENDAR.

All the entrance, supplemental, exhibition and scholarship examinations at McGill, and the openings of lectures, will take place as set forth in the calendar, except that lectures in the Faculty of Medicine will not begin till Oct. 1, on account of the alterations to the building. The medical entrance and other examinations, however, will be held at the appointed time.

THE NEW STACK.

Great efforts are being made to get the new stack room of the McGill library finished by the time of the royal visit, but it is feared that even if it is completed in time, the Duke and Duchess may not have time to inspect it, all their time being taken up with the opening of the medical building and the convocation in the Royal Victoria College.

The new stack has five floors, separated from the old stack by a fireproof wall and doors, and from the top floor, which is given up to seminary rooms, by a fireproof cement ceiling. It is constructed upon the latest and most scientific system of building, to obtain the greatest stability with the least possible waste of space. The three lower tiers of shelves are supported by cement piers, each with its own foundation, and the two upper tiers and top floor rest upon a special supporting floor on steel girders.

The shelves are arranged in ten rows on each side of the gangway which run through the stack. They are held in place by iron supports from the bottom to the top of the building with notches all the way up so as to accommodate books of any size. The gangways will be floored for six inches in the middle with grating for ventilation, the rest of the floor being of glass to exclude dust, and light stairways will lead from one tier to the other.

Altogether the new stack could accommodate 200,000 volumes, but as special arrangements are to be made for storing maps and newspapers not quite so many will be provided for: The alcoves at the end of the building are to be used as reading rooms, and the librarian's private office will also be situated there.

NEW JUSTICES OF THE PEACE.

Chief Detective S. H. Carpenter and Mr. Thos. G. McConkey have been appointed justices of the peace for the district of Montreal.

The following new justices of the peace have also been appointed for the districts of Beauharnois, in the county of Huntingdon:

Parish of Saint Anicet.— Messrs. Edward Hussy, Maurice William Leahy, William Leslie and Henri Caza.

Village of Huntingdon.—Messrs. Daniel Shanks, William Scott McLaren, Andrew Philps and John Hunter.

Township Hinchinbrooke. — Messrs. Matthew Wallace, Thomas Oliver, James Rennie, John Purse, William Saunders, Laughlin McArthur, Archibald Muir and Robert Gardiner.

Township Franklin.—Messrs. Findley Wilson, Ernest Samuel Ames, Daniel Nelson Parkam and William Sharpe.

Township Godmanchester. — Messrs. William Francis Stephen, Gabriel Trilly, James Moore, Samuel Montgomery, Charles Bell, and William Cameron.

Township Havelock.— Messrs. John Webster Curran, George Brand Edwards and Stephen Shannon.

Township Hemmingford. — Messrs. John Graham Barr, Michael McAleer, Patrick Leahey, Joseph Merlin and Jas. McKay.

Village of Hemmingford.—Messrs. John Frederick Scriver, and William Albert Blair.

GENERAL HOSPITAL REPORT.

In the month of August the admissions to the wards of the Montreal General Hospital were 264; and the discharges, 265; the deaths were 25; the average daily sick in residence, 735; ambulance calls, 1120; there were 41 typhoid fever cases at one time. Outdoor consultations, including prescriptions and minor operations, 2485.

DR. THROSBY HURT.

Dr. W. Geo. Throsby, while riding on Sunday, was thrown from his horse, sustaining injuries to his right arm and scalp. His injuries, though not of a serious nature, will keep him from working for some days.

HEAVENLY HELPERS.

II. Kings vi., 15-17.

'Greater is he that is in you than he that is in the world.' (I. John iv., 4.)

'If God be for us who can be against us?' (Rom. viii., 31.)

Elisha had warned the King of Israel of the traps of the King of Syria, who was warring against Israel, and Benhadad had concluded that it was more important to capture Elisha than to try to fight against the country that had such a man of God on their side.

A great host of the Syrians, with horses and chariots, went to Dothan, the city where Elisha lived, and by night laid siege to it. In the morning, when Elisha's servant went out, he saw the great camp of Syrians round the city, and ran back in terror to his master, tremblingly asking what should be done now. Elisha answered with calm confidence in God: 'Fear not, for they that be with us are more than they that be with them.' No doubt the young man looked much astonished, and perhaps ventured to contradict Elisha's fearless statement. Incredulously he would say, 'The people of this city are not nearly as many as those encamped outside. Where, then, is our help to come from?' Elisha did not argue the point, but prayed God to open the spiritual eyes of the doubter that he might see the hosts of God which encircled the believers. And the Lord opened the eyes of the young man, and he saw the hosts of God, and behold the mountain was full of horses and chariots of fire round about Elisha, the servant of God. Then he had no more fear, for he clearly saw with his outward eye what Elisha had all the time seen with the eye of faith. 'The angel of the Lord encampeth round about them that fear him, and delivereth them.' (Ps. xxxiv., 7; lxviii., 17.)

Last summer in the awful days of the siege of Pekin the whole world wondered how it was that the little handful of people in the besieged compound kept at bay the strong and determined army outside. It was noticed that the enemy did not pursue the usual methods of warfare in attacking the walls, but spent a good deal of the time shooting up into the air, and the shots passed harmlessly over the heads of those assembled in the legation. This extraordinary conduct was a source of continual surprise to those who were hourly expecting death at the hands of the terrible Boxers. But perhaps it was not so surprising to those who were making continual prayer to God for the safety of the missionaries and Christians. One day one of the native Christians asked a missionary if he ever saw angels. The missionary said that he had never seen any angels, but that of course he believed that there were angels, because the Bible told of them. Then the Chinese Christian said, 'It is queer that you never saw them, for the soldiers outside the gates say that there are a great army of white spirits floating over the legation, and that they have to shoot up at them and kill them before they can shoot at you!'

In this case the Lord God opened the eyes of the heathen to see what his own children had to take by faith, namely, the reality of the angels of God encamping round about those who feared him, and delivering them. This incident is vouched for by a missionary who passed through the siege of Pekin. There have been several other well authenticated cases in times of persecutions of angels being seen by those who had intended to kill or rob some godly man as he went alone on some mission. Those who were to have done the wicked deed were deterred only by the sight of men in white accompanying their intended victim. One of the old divines dreamed that he died and went to heaven, where he was shown a series of pictures representing incidents in his own life. Most of them were scenes of danger, and showed how in each case an angel or a company of angels had stood between him and harm. In one picture he saw himself falling from a horse, and an angel just turning him aside from the rough, jagged stone on which he would otherwise have landed. In another picture he saw an angel turning him aside from a path he had greatly desired to take, but when he looked past the angel in the picture he saw that it would have meant death to take that path. In the light of those pictures he saw the meaning of the apparent failures of his life.

God sees the things that we cannot see, and if we will let him guide us day by day, he will guide our feet into the way of peace. If we sincerely love God and honestly yield our wills to him, we may be perfectly sure that he will guide us, and that he will make all things work together for our good. Disappointment may only mean the unseen angel standing in the way to guard us from harm. God can see; we can only trust.

When Balaam was determined to disobey God, God sent an angel to stand in the way and prevent him. Balaam did not see the angel, but the ass on which he rode saw and feared. Daniel may not have seen the angels which God sent to shut the lions' mouths, but the lions no doubt saw and feared.

SPORTS

Montreal Baseball Team Lost to Buffalo.

GRAND TRUNK BOATING CLUB REGATTA—OTHER SPORTING NEWS.

The present position of the various teams composing the senior lacrosse league constitutes the most interesting as well as the most undecided problem as to which of the teams will have the much-sought-after honor of holding aloft the banner representing the lacrosse championship of the world for the present season. During the last decade the cities of Ottawa and Montreal have held the monopoly of the trust. Since the amalgamation of the old Ottawa city team with the team now known as the Capitals, the championship has been won more frequently by the latter team than by any other in the league, the Shamrocks, however, running the Senators a close second. The only other team to attain the coveted honor of being champions of the world during the said decade, was the Nationals, who, in 1898, commemorated their entry into the senior lacrosse league by carrying off the championship. For a number of years the Capitals and Shamrocks were so much the superior of the other teams that the general interest in lacrosse waned to a considerable degree, although when the above-mentioned teams met they never failed to draw crowds, numbering in some instances from 6,000 to 9,000 people. The matches between the other teams were but very meagrely attended. Of late years, however, with the general improvement of the character of lacrosse played, the interest has revived to a great extent, and to-day it has apparently reached the climax. With practically the same team it has played during 1899 and 1900, the Cornwall Club has developed to such a degree that it has forged its way to within one rung of the top of the ladder, and has a good chance of reaching the highest point before the close of the 1901 series. As is well known, the Cornwallites are strictly a homespun aggregation, and certainly merit the championship, if dogged determination counts for anything. But there are two serious factors which militate against the chances of the Factory Town boys, and these are no other than the old-time rivals—Shamrocks and Capitals. Next Saturday's match between these latter teams will decide which will be in the grand 'saw-off' with the Cornwalls, and whichever team it may be, the Cornwalls will have their work cut out for them, for the match will be played on neutral grounds. It is a noticeable fact that the Cornwall team is seldom beaten on its own campus, but away from that spot their record tells a decidedly different tale. It is generally conceded that the Shamrocks should win out next Saturday, but the 'Caps' are ever an unknown quantity, and no chances can be taken with them. Should the expected happen, however, and the local team win, the final Cornwall-Shamrock match will either be played in Ottawa or on the Montreal lacrosse grounds. The Shamrocks have still to meet the Montreals, and the Capitals play the Nationals in this city on Sept. 14, but the results of these matches, according to lacrosse experts, are foregone conclusions.

The present standing of the teams is as follows:

Team.	Won.	Lost.	To play.	P.C.
Cornwall	8	2	0	.800
Shamrocks	6	2	2	.750
Capitals	6	2	2	.750
Torontos	3	7	0	.300
Nationals	2	7	1	.222
Montreal	2	7	1	.222

As will be seen from the above table the Cornwalls, Shamrocks and Capitals stand at present on a fairly even footing, with the odds in favor of Cornwall.

BASE BALL

MONTREAL LOST TWICE.

Buffalo, N.Y., Sept. 2.—Hooker pitched grand ball in the first game to-day and shut Montreal out without a run. Hooker allowed only one hit in each of the last six innings. He was hit in the knee by a hot liner in the last inning, but he declined to retire. Amole was hit freely in the second game, but with ragged fielding, the game was lost by Montreal. Score:—

ROCHESTER WON AND LOST.

Rochester, N.Y., Sept. 2.—Rochester made their fourteenth consecutive win this morning at Culver Field more emphatic by completely shutting out the Toronto Club. Greminger's three-bagger, Carr's double play unassisted and McFartlin's good work at the rubber, keeping hits well scattered, were features.

Rochester, N.Y.—Sept. 2.—In this afternoon's game Toronto turned the tables on Rochester, and won out in spite of a spirited up-hill struggle on the part of the home team. McFarlan was touched for three singles and a double in the first inning, scoring three runs. Four errors by Toronto in the last two innings, coupled wth fine base running, would have tied the score, but Bean's attempt to draw the throw, that Lush might come in, failed. Score:—

SWIMMING

MONTREAL SWIMMING CLUB RACES.

The annual races of the Montreal Swimming Club were held yesterday. No finer day could be desired. The boys turned out in great numbers, and the crowds on the top of the hill facing the watery ground of the club were interested. The officials in charge were: The president, Mr. Eug. H. Godin, as presiding officer; Mr. G. Normandin, secretary; referee, Mr. A. E. Taylor; judges, Messrs. Chris. H. Goulden, C. McClatchie, Dr. J. P. Gadbois, C. Terroux and C. Cook. Starter, Mr. A. Comte. Timekeeper, Mr. P. S. Cook.

The first event started at three o'clock, and the races were not through until after five o'clock, though no unnecessary delay occurred between the numbers of the programme.

LAWN TENNIS

INTERNATIONAL TOURNAMENT.

Niagara-on-the-Lake, Ont., Sept. 2.—In the international tennis tournament being held here, three final matches were played to-day. The challenge round in the men's singles between R. D. Little and F. P. Fischer was won by the former, the trophy now becoming his property, as he has won it three times. The finals in the men's doubles and ladies' singles were also played. The tournament will conclude to-morrow with the final round in the handicap singles. Scores:—

Men's single championship round—
Raymond E. Little, holder, beat E. P. Fischer, challenger, 6—3, 4—6, 6—2.

Men's doubles, final round—
R. D. Little and F. B. Alexander, Princeton, beat E. P. Fischer and H. H. Hackett, New York, 7—5, 11—9, 3—6, 2—6, 6—3.

Ladies' singles, final round—
Miss Marion Jones, California, beat Miss Carrie B. Neely, Chicago, 6—2, 7—5, 8—6, 6—0.

AQUATICS

GRAND TRUNK REGATTA.

The annual regatta of the Grand Trunk Boating Club was held yesterday afternoon, and proved the most successful in the history of the club, and the bank of the river and the club house grounds were crowded with interested spectators. The river was dotted with gaily decorated canoes and pleasure boats, loaded with men, women, and children, but notwithstanding the number that were enjoying themselves on the river the course was kept very clear, and the officers and committee of the club deserve credit for the way in which everything was conducted. The races were close and exciting, and some of the finishes were neck and neck. The ware canoe race especially was magnificent.

The following is the result of the different events:

Single scull shell, green, club, one mile—
E. Raymond, jr. 1
J. M. Edwards 2

WHEELING

MAJOR TAYLOR WON.

New York, Sept. 2.—Major Taylor easily won the professional half-mile event at the Vailsburg, N.J., track to-day from Fischer. Time, 3.27 4-5. In the two mile handicap the back markers failed to catch the handicap men and were shut out.

W. A. Ruts, Newhaven (150 yards), won. Time, 3.57 4-5. Bardgett, of Buffalo, (150 yards), was fourth. In the motor match race, in heats, the quarter mile was won by Shults and Bennett, Cleveland; King and Hunter, Stearn's team, second. Time, 21 1-5.

Five miles, won by King and Hunter. Time, 7.17 4-5.

Two miles, won by King and Hunter. Time, 2.56 1-5.

Joe Nelson, of Chicago, made a mile in 1.37 in an exhibition ride, motor paced. Nelson and Fischer were severely injured in spills.

PACED RACES.

Boston, Sept. 2.—At the Revere Cycle track to-day the one hour motor paced race between Johnny Nelson, of Chicago, and James F. Moran, of Chelsea, was won by the former. Nelson made 27 miles and 3 laps.

Providence, R.I., Sept. 2.—Ben Monroe beat Archie McEachran in a 25-mile motor-paced race to-night at the Colliseum by five laps in 40 15 3-5. McEachen had two accidents which put him out of a chance to win.

FOOTBALL

BRITANNIA FOOTBALL CLUB.

The semi-annual meeting of the Britannia Football Club will be held to-night in the club-room of the Windsor Hotel at 8.15 o'clock. It is hoped that all members whether active or not, will be on hand to assist the president and officers to get the teams into good shape.

The opening practice was held yesterday morning with about twenty members present, and a good practice is expected to-morrow morning.

WESTMOUNT VS. CANADA PAINT CO.

This match was played yesterday on the Westmount grounds, commencing at 9.30 a.m., and was won by Westmount by 42 runs—a result mainly due to the fine bowling of Clarke and Smith, and the batting of Hughes and Lyons. The score was:—Canada Paint Company, 15 runs; Westmount, 57 runs.

WESTMOUNT VS. VICTORIA.

This match was played yesterday afternoon at Westmount Park, the home team winning by 29 runs. The total score was:—Westmount, 51 runs; Victoria, 22 runs.

WESTMOUNT H. VS. MOUNT ROYAL.

After an interesting game, played yesterday in Westmount Park, Mount Royal managed to beat Westmount second eleven by twenty-two runs. Dudley, for the victors, and Grant, for the Westmount, put in some fine work. The following was the total score:—Mount Royal, 51 runs; Westmount, 29 runs.

ATHLETICS

M.A.A.A. ANNUAL HANDICAPS.

It is difficult to pick out the handicap winners at the M.A.A.A. next Saturday. There will be a splendid list of entries and many of the Oxford-Cambridge men have also sent in their names. It is about even betting the new comers will be all on scratch. Lord Strathcona will present the prizes.

GOLF

RECORDS BROKEN.

New York, Sept. 2.—All records were broken in the mixed foursome handicap at the Richmond County Country Club to-day when L. H. Thomas and Miss Hurlbut established a new 18 hole score of 89.

YACHTING

'SHAMROCK'S' MAST AMAZES VISITORS

From all points of the compass visitors came yesterday to view the 'Shamrock II.,' lying at her mooring buoy in Sandy Hook Bay. There were small launches, steam and sail yachts and rowboats, each with its quota of admirers of the handsome green yacht.

The tall steel pole mast was an object of wonder to those who had not seen it before, and the sailormen were kept busy answering the questions of the visitors. When told that the 'Columbia' would defend the cup one merry son of Scotland said: 'It'll not be hers to defend when we get through with her.'—New York 'Journal,' Sept. 2.

SHIRT MAKERS' PICNIC.

The first annual picnic of the Standard Shirt Company was held on Saturday and proved a very successful affair. The outing was taken by the steamer 'Duchess of York' to Sherringham Park. There was an orchestra and a gramaphone on the boat, and at the park a few races were run, but as it was drier on the boat than on land the picnickers adjourned to the floating house and engaged in amusements of a different character from those outlined on the orginal programme. Notwithstanding the unfavorable weather a very enjoyable time was spent.

'COLUMBIA' IS BEST.

PROVES AGAIN HER SUPERIORITY OVER 'CONSTITUTION.'

Newport, R.I., Sept. 2.—The second official trial race of the 'Columbia' and 'Constitution' to-day had practically no result. The yachts, for lack of wind, were unable to finish within the time limit of 5½ hours. At 6.30 this evening the contest came to an inglorious conclusion two miles to the eastward of Benton's Reef lightship. At that time the 'Columbia' led by a good quarter mile. The course was triangular, ten nautical miles to a leg, the first being a beat to windward, east by south, the second a reach with the wind about abeam and the third a run before the wind which hauled to make it another stretch, with the wind abeam, until the race was declared off.

After crossing the line at exactly the same moment with the 'Constituton' in the windward berth, the 'Columbia' worked out and getting her wind free, forged ahead. The 'Constitution' tacked off shore and shortly after the 'Columbia' followed, going up to windward and passing her.

From then on to the windward mark it was nothing but a steady gain for the old boat, and when both had rounded it was found that the 'Columbia' had gained four minutes and 55 seconds, the worst beating the 'Constitution' has yet received.

On the second leg the wind fell very light and the 'Constitution,' bringing it up with her, gained slightly. After rounding the second mark, four minutes and 30 seconds behind this starting for home, the 'Constitution' carried about all the wind there was and passed her rival. Then the breeze came up again and the 'Columbia' once more shot ahead.

Shortly after the race was called off with the 'Columbia' well in the lead. It will be resailed to-morrow afternoon, the start being at 2 o'clock.

The official times follow:—
'Constitution, start, 1.00.06; first mark, 3.16.03; second mark, 4.55.10 (did not finish).
'Columbia,' start, 1.00.06; first mark, 3.11.03; second mark, 4.50.40; (did not finish).

STEAMERS COLLIDE

DISASTROUS RESULTS AVERTED BY GOOD JUDGMENT.

Peterborough, Ont., Aug. 31.—The steamer 'Sunbeam,' with a party of moonlight excursionists on board, ran into the steamer Alert on Stony Lake late last night and disastrous results were only averted by the good judgment and activity of the captains and crews of both boats.

The 'Alert,' it is said, was showing no lights. Captain White, owner of the 'Alert,' as well as of the 'Sunbeam,' was in the cabin with his family, and Mr. Morin, a carpenter, was at the wheel. The latter got confused in meeting the 'Sunbeam,' and ran across her bows without giving the proper notice. The 'Sunbeam' crashed into her and stove in her bow. Capt. White and his family and the crew of the 'Alert' were speedily transferred to the 'Sunbeam.'

They had no sooner got away from the boat than it sank. They had no time to save any of their effects. The wrecked boat is on the bottom in ten feet of water on the southern side of the lake. The collision occurred in the centre of the lake, which is a mile in width and in about 75 feet of water.

BABOON ATTACKED A MAN.

SPRANG UPON A SPECTATOR WHO WAS FIFTEEN FEET AWAY.

The New York 'World' of Saturday publishes the following despatch from Omaha, Nebraska:

An immense trained baboon in a travelling show made an attack upon Mr. W. A. Pixley, of the Nebraska Telephone Company, to-day, and inflicted serious injuries upon him. Jerry, the baboon, has a national reputation among showmen for cunning and agility. Mr. Pixley is a friend of Mr. Rowe, one of the partners of the show, and with him was taking a look behind the scenes. The baboon sat on his pony at the entrance to the big tent waiting his cut to go on. Accompanied by his wife, Mr. Pixley stood about fifteen feet from the animal as the baboon sat thoughtfully on his little saddle.

'Jerry is a great admirer of ladies,' remarked Mr. Rowe, as he pointed out the monkey's fine points, 'but the animal seems to bear a particular grudge against the man who happens to be with one.'

Almost at the word, with a tremendous bound, Jerry cleared the intervening fifteen feet and alighted squarely on Mr. Pixley's shoulder and throat. The animal weighs about seventy-five pounds, and the force of the impact threw the man upon the ground. The brute's teeth tore his shirt and collar away and inflicted deep wounds.

Mrs. Pixley seized the baboon by the collar, and as soon as Jerry felt a woman's hand he instantly released the man and sprang back upon the pony. Mr. Pixley is receiving the Pasteur treatment.

DROWNED AT PLAY.

'Playing horse' to amuse his four-year-old boy cost George Belcher his life yesterday afternoon, and the drowned man's eighteen-year-old daughter may also pay the same price for her part of what had been started in childish jest. George Belcher, forty-seven years old, was a well-to-do painter, living at 882 Myrtle avenue, Brooklyn. Accompanied by his wife, his daughter, Eva Belcher, and a four-year-old son, he went to Broad Channel, Rockaway Beach, yesterday for a day's outing. The little boy remembered being at the beach a week previous, when Mr. Belcher had amused him by swimming about with Miss Eva on his back. 'Play horse in the water!' cried the little fellow, and to please him, father and daughter prepared for a swim, and it was great fun for the little chap when his big sister Eva put her arms around her father's neck and the two dived into the water together. 'Whip the horse, Eva!' shouted the baby boy, and he clapped his hands in delight as father and daughter unaccountably sank together. Scores of people were watching. They thought nothing of it, as they knew the man was a good swimmer. But as the two reappeared on the surface it was seen that they were struggling together. The baby boy still cried with delight, the mother became apprehensive, and Richard Prussie dived into the water and swam to the aid of father and daughter.

Before he reached their side the girl had sunk and again came to the surface, this time alone. She was sinking again when Prussie caught hold of her and swam to the pier, where he placed the girl's unconscious form at the feet of her mother. Other men had gone out in boats to help Mr. Belcher, but they returned with his dead body. Mrs. Belcher fainted and fell across her daughter's body. Dr. Tingley, of Far Rockaway, worked over Miss Belcher for two hours before she recovered sufficiently to tell what had happened in the water. She explained that while on her father's back he had been seized with cramps and sank. The girl tried to hold him up, but was unequal to the task, and down they went together. Miss Belcher was in a hysterical condition all day and doctors had to attend to her all night.—New York 'Herald,' Sept. 2.

The Daily Witness.

TUESDAY, SEPT. 3, 1901.

A very necessary reform has been inaugurated in the Recorder's Court, where minor offenders and children will in future be segregated from recognized criminals. In the past old and young, male and female, the vicious and the foolish, have alike experienced the degradation of the prison cell, but now a waiting room has been provided for children and those adults against whom nothing previously has been known, and who, offending wittingly or unwittingly, have only incurred the penalty of a fine. That a man who had forgotten to pay his bicycle tax was worthy of the same official treatment as the vagrant, the drunkard and the outcast in general was firmly established in the minds of the old régime, and Superintendent Legault deserves credit for sweeping this illogical and unjust system away.

Ten years is too long a period in these rushing times for national stock-taking. It leaves too great a gap, after the first year has elapsed, for purposes of practical comparison. To meet the demand for accurate, up-to-date information private enterprise has supplied several yearly publications, and the Department of Statistics at Ottawa does something in the same direction in the compilations it issues annually in book form. The parliamentary reports of the several government departments are also valuable. As regards vital statistics, it seems a mistake to organize a census department and disband it just as all connected with it have been trained to its peculiar work. The tabulating and publishing of census figures usually extends over three years after the census has been taken. If the department retained its organization permanently the clerks would become experts in their several spheres, facts would be more continuously registered and much less would be heard about partisan appointments and about 'stuffing the returns.' In the United States the idea of maintaining the Census Bureau permanently is now under consideration and will probably be adopted. The 'Witness' has for many years urged the importance of taking the census every lustre instead of every decade.

So much has been written of late by Americans in praise of their own commerce and by Germans in praise of theirs, and so much that is depreciatory of British Commerce has filled the columns of British papers, that we take a more than usually lively pleasure in recording British advances. A little while ago we pointed out how much the United States trade with Cuba had fallen off compared with that of Great Britain, and figures just to hand concerning British trade with Egypt are equally satisfactory. This is a market where British traders enjoy no special privileges and it gives anything but warrant for the decadence of British trade, which it is so much the fashion nowadays to predict. In the most important departments of Egyptian trade the United Kingdom more than holds its own, being responsible for thirty-seven and a half percent of the imports into the country and taking considerably more than fifty percent of Egyptian exports. England is still the largest exporter of coal to Egypt, in metals and manufactures her share has risen in five years from a third to a half, and two-thirds of Egypt's textile imports come from the United Kingdom and India. Lord Cromer advises that British manufacturers should pay more attention to the possibilities of the Soudan as a promising market. He considers that with the settled government now enjoyed by that once barbarous country, its future appears to be secure as a safe and profitable field for capital and enterprise.

In the first races in which the 'Columbia' and 'Constitution' met the latter was the winner by very large distances. After the 'Independence' had been dropped out of the contest the 'Columbia' began to show up better. Latterly she has been winning every race and is now looked on confidently as the yacht which will defend the cup. The 'Constitution' has lost a good deal of public favor by the excuses which have been given for her every defeat. At one time it was that she had scraped up two of her plates by touching bottom and the drag of these lost her the race. Then in two or three she was apologized for on the ground that she had not been as recently cleaned as had the 'Columbia.' Then she again touched bottom and had some harm done to her sheathing. For the last two races, however, no excuse can well be advanced. She has been cleaned, had her rig altered, and had her designer on board for the final test, all to no purpose. It will be remembered that the 'Shamrock II.,' in her first tests with the 'Shamrock I,' seemed the slower boat; but such alterations were hit on as to make her decidedly superior. 'Shamrock I.' herself is supposed to be some six minutes faster than when she sailed in American waters two years ago. It takes a great deal of practical testing to get the rig of these big yachts adjusted to its most advantageous form and it is not at all impossible that with more time the 'Constitution' might yet be made the faster boat. The 'Shamrock II.' is to meet the defender in her first race for the cup on the twenty-first of this month.

There is now little more than a fortnight left before Lord Kitchener's proclamation regarding the support of Boer families and expatriation of Boer leaders will become operative. As yet it has had little if any effect. The weekly lists of surrenders have not been noticeably augmented, and the generals have declared their intention to continue the war. It was, however, hardly to be expected that the Boers would surrender in advance. They are going to hope on for European intervention till the last day. It seems probable that some at least will not let the day that will declare them outlaws go by without exercising the better part of valor. After that day the selling by auction every week of confiscated farms, the titles to which they might have retained, will be apt to make many of the fighters restive. There is said to be a revulsion of feeling in Cape Colony and the Rev. Andrew Murray, who is the leader of the Dutch Church in South Africa, has gone on a mission to De Wett to ask him to withdraw all commandos from the Cape. The press of the Cape is raising a concerted cry against the lack of mobility of the British columns. One journal emphasizes the necessity of rendering the British forces as mobile as the roving commandos which they are set to catch, another South African newspaper severely criticizes the slow movements of British forces, and still another deplores the cumbered condition of their columns. The cry is likely to be of little avail, for the British army officer is not inclined to leave behind anything that can conduce to his comfort. It would not be surprising to find that the officers had on their waggons 'ovens and such things as never before were carried on transport,' just as Edward III. is said to have had with him on his invasion of France.

The elements of Armageddon are said to be again brewing. The oldest of the present generation does not remember the time when this great propheeied conflict was not immediately impending. All the powers were to meet in conflict on the ancient battlefield of Megiddo, in Palestine, and the world was to see distress such as it had never seen. The decrepitude of the Turkish empire and the combative attitude of the vultures of Europe hovering over it and watching for its demise, has never failed to feed the expectancy of many interpreters of Scripture who have postponed the date calculated from Daniel and from the Revelation from period to period, as the evolution of days and years rendered it necessary to do so, but with no abatement of confidence in the imminence of the event. The very peremptory attitude of France towards Turkey over a multiplicity of matters, to none of which she is a party, and which she did not need to have made a cause of quarrel, if she did not wish to quarrel, certainly has a somewhat alarming look. The tendency of any quarrel with Turkey to become universal is undeniable. The rumor, however, that Germany has espoused the cause of Turkey against France—which would read to many as meaning that the triple alliance was buckling on its armor against the dual alliance—has no visible foundation in fact. Germany has certainly been posing for years as the champion or guardian of the sick man, and it is most natural that he should make appeal to her when assailed. What Germany might do when appealed to no one could foresee. It would have been a miracle if somebody had not in vision beheld the Emperor encouraging the Sultan to resist. The news which reaches us to-day is at least far more probable—that Germany has advised her sickly friend for the good of his health to come to terms as fast as he can. This valuable advice would be greatly strengthened if Germany could show him how. The French companies and individuals who have been injured by the failure of Turkey to keep her promises and pay her debts are no worse off than countless Turks and others in precisely the same position. The Sultan has no money, and cannot borrow any.

MR. TARTE'S CHANGE OF FRONT.

The present government was elected with tariff reform as the principal plank of its platform. It brought forward and passed a most popular tariff reform measure, and later accentuated its position by a further preferential reduction. Yesterday, in Toronto, Mr. Tarte said he had rejected the Wolvin proposal, which would have brought about the investment of millions of American money in a scheme to promote Canadian commerce because when he asked if the ten ships which the company were to put on the St. Lawrence route were to be built in Canada the agent replied, 'Decidedly not.' This can hardly have been Mr. Tarte's real reason for rejecting the proposal. Yet, seemingly, for the sake of eliciting cheers in a shipbuilding yard, he has declared that he, a minister in a tariff reform Cabinet, is a protectionist in the worst of all lines—shipbuilding. The United States adopted this policy and as a result their whole ocean commerce is done in foreign bottoms. Of all the tremendous fleet of passenger-carrying steamers plying between the New and Old Worlds there is but one American line of note, and that one, though heavily subsidized out of patriotic desperation, finds itself so severely handicapped that it has never made a bid for more than a subsidiary place. It is probable that had Mr. Tarte been addressing a gathering of railway men instead of shipbuilders, he might have given another and possibly more real reason for his action, namely, that his object was to discourage the canal traffic, to secure which the country has spent so much, to enable the railways to keep up their rates. Mr. Tarte seems to have discovered this reason for snubbing Mr. Wolvin only after seven months of negotiation. He knew that Mr. Wolvin and his associates were among the largest ship-builders on the lakes and that there was never any question about building the first ten vessels in any other yards but their own. As there are no facilities in Canada at present for any such extensive building of ships as the Wolvin people would have required for the next season of navigation, Mr. Tarte's reasons for 'turning down the Wolvin crowd' are puerile. For months he let it be understood that the Wolvin proposals would probably be accepted, and he knew seven months ago as well as now that building the ships in Canada was out of the question. What the Harbor Commissioners will do about it remains to be seen. If they feel strong enough to-morrow and at subsequent meetings to fight Mr. Tarte and the railway interests that are behind him, they will earn the respect even of those who differ with them. If they acquiesce in Mr. Tarte's volte face and perform it with him, their friends will grieve and their opponents will mock them. Now is the time for the Harbor Commissioners to show whether they have any backbone, and to get at the real facts explaining why Mr. Tarte refuses now an enterprise which up to a week or two ago he was supposed strongly to favor.

TAX ON COFFEE.

(Correspondence of the Associated Press.)

San Juan, Porto Rico, Aug. 28.—The coffee question is still agitating the entire island, and town councils one by one are following the example of the large seaports and declaring a $125 tax on every thousand kilos of coffee. It has been discovered that Brazilian coffee has been used in Porto Rico since last March by the army. It is said that the dealers asked fancy prices for the coffee, and that they had a sliding scale. The government declined to buy at such rates, and gave the trade to other places.

A NATIONAL INTEREST

THE NEEDS OF THE HARBOR OF MONTREAL.

An expert engineer, who has given considerable attention to the transportation question, in formed the 'Globe's' Ottawa correspondent that the port of Montreal is losing a great quantity of trade, owing to the lack of terminal facilities at that port for handling the freight. 'To give you an example, said the authority in question, 'the Canada Atlantic Railway was obliged, no later than July, to hand over to the New York Central at Buffalo five hundred thousand bushels of grain, for the carriage of which the latter railway received of which the latter railway received three and three-quarter cents. This grain was carried from Chicago to Buffalo by the steamers running in connection with the Canada Atlantic line. It ought to have been transported at Depot Harbor and conveyed to Montreal, but the Canada Atlantic Railway could not take it there because of the lack of facilities. Furthermore, quite recently the same company has sent several hundred cars of freight to Portland for the same reason. Fancy freight going to Montreal and from there having to be forwarded to a United States port! In dealing with this transportation question, we btgan at the wrong end. We should have equipped Montreal first and then built canals and railways. We should have commenced by improving the Montreal ship channel and providing the port itself with modern facilities for handling freight. Had we done that, and at the same time deepened the Welland canal, Prescott would today have been another Buffalo. The sooner we get to work and establish a proper system of elevators and cranes and dock accommodation at Montreal the less we shall be out of pocket in the long run.'—'Globe,' Sept. 2.

THE SHERBROOKE FAIR.

Sherbrooke, Que., Sept. 3.—The second day of Canada's great Eastern Exhibition opened this morning with Queen's weather, and everything bids fair for a big day. All the trains entering the city this morning were well filled, but to-morrow and Thursday will be record-breakers if the weather continues fine. All the exhibits were in place yesterday and a full programme of attractions was given in front of the grand stand in the afternoon. The attendance was more than double that of any Monday of previous years. The judging in the various classes commenced yesterday, but owing to the large number of entries this work will not be completed before to-morrow. The main building is devoted exclusively this year to industrial exhibits and manufactures, with the exception of upstairs, which contains the ladies' fancy work as usual. The Hon. Messrs. Duffy and Gouin have signified their intention of visiting the exhibition to-morrow, and they will be entertained to lunch at noon in the directors' dining hall. There is the usual number of sideshows, from the pink lemonade to the latest curio in the shape of wild men from the Philippine Islands. The small boy, as usual, is very much in evidence, and the ring and cane men, three shots for a nickel, and other games of chance are just as popular as ever.

STATIONARY ENGINEERS.

Rochester, N.Y., Sept. 3.—Over a thousand delegates and alternates were present when Mr. P. T. Leahy, of New York, the president, called the twentieth annual convention of the National Association of Stationary Engineers to order in the council chamber of the City Hall this morning. The conference will undoubtedly be one of the most important gatherings of the clans in the history of the organization and it may mark an epoch in its career as matters of grave importance are to come up for discussion. The most important matter will probably be the question of wheter it shall be resolved into a big labor organization or shall maintain independence and freedom from labor union entanglements.

There are 357 lodges, with a membership of twenty thousand, in the association, and from one to five delegates represent each. Lodges as far west as Tacoma, Wash., south, to Galveston, Texas, and east, as far as Augusta, Me., reinforced by a fraternal delegation from Canada, are in attendance at the convention.

POLITICAL PICNIC

MR. BERGERON ATTACKS THE LIBERAL PARTY.

A large picnic was held at Buisson Park, Beauharnois, yesterday, in honor of Mr. J. H. G. Bergeron, ex-M.P. for Beauharnois. A number of Conservatives came up from Montreal by steamer, and some more from Valleyfield, Beauharnois and the surrounding districts. Mr. Arthur Plante, ex-M.P.P., presided, and after a short speech, concluding with Mr. Monk's regrets at his inability to be present, called upon Mr. Bergeron.

Mr. Bergeron would not discuss protection or the school question, but proceeded to denounce the Liberals, who, he said, had adopted the Conservative policy and unwisely modified it. The preferential tariff had reduced wages, and the census showed that the people were leaving the country, while the government was spending money on Galicians and Doukhobors. He also spoke of the difficulties between capital and labor, which he thought should receive the attention of public men.

The Hon. G. A. Nantel and Mr. Jos. Barnard also spoke.

CITY ACCIDENTS.

John Campbell, a sailor on the SS. 'Bivona,' had a fall while at work yesterday, in which he cut his head and sprained his ankle. He was taken to the General Hospital.

Frank Hews, sixteen years old, driver for the Montreal Baggage Company, fell from his waggon near the Place Viger station yesterday, and received some cuts, which were dressed at the Notre Dame Hospital.

Alice Charbonneau, six years old, fell down stairs and broke her leg while playing at her home, 101 Desjardins avenue, Maisonneuve. She was taken to the General Hospital.

RESIDENT MEDICAL STAFF.

The following physicians will form the resident medical staff of the Montreal General Hospital for the coming year: Dr. von Eberts, medical superintendent, with Drs. Turner, Secord, Robertson, Campbell, Howard, Bruce, Brown, Rogers and Ker.

DAMAGED ENGINES

TWO SENT FOR REPAIRS TO THE G. T. R. SHOPS.

Engine 991, which crashed into the van of a freight train while hauling the Grand Trunk International Limited, between Pointe Claire and St. Anne's, last Friday, has been brought to the 'Point' shops for repairs.

The force of the collision is noticeable in the amount of damage done to the locomotive. The smoke-stack was knocked out of place, the running board and pilot smashed. The inspirator pipe, which runs from one end of the boiler to the other, and which is only about a foot away from the cab in which Murphy, the engineer, remained at his post, was also smashed.

Engine 916, upon which the driver, Mr. Meron, of Belleville, and the brakeman, Charles Stone, of the 'Point,' were killed at Thousand Island Junction last week, has also arrived. There is little left of the locomotive but the boiler and the driving wheels.

BUSY BURGLARS

A STE. FAMILLE STREET RESIDENCE BROKEN INTO YESTERDAY.

At an early hour yesterday morning burglars entered the house of Mr. J. Try-Davies, stock broker, 99 Ste. Famille street, and managed to secure three valuable pins, $12 in money and a gold watch, the property of Mr. Charles H. Cunningham, manufacturing agent, who resides in the same house.

The men entered the house from the back yard, carefully removing a circular piece of glass from the window of the back door. They then proceeded, it would appear, to go around the house, cutting off telephone communication meantime by cutting the wires.

Mr. Davies, awakened by the noise the men made, saw a man in his room, his face being concealed by a mask, who, as soon as he saw himself perceived, pointed a pistol at Mr. Davies, making a demand for money, and afterwards searching the clothing that lay in the room, abstracting a gold watch from a vest pocket. While thus engaged there was heard the sound of a whistle in the street, and the men—for there was another in the house—hastily extinguished the candles they carried and rushed downstairs. The whistle, apparently, was blown by an accomplice who was detailed to keep watch outside.

The police were notified of the occurrence as soon as possible after the departure of the thieves.

The detective department have the matter in hand, but, up to the present time, no arrests have been made.

THE LATE MR. C. F. W. STATON.

The funeral of the late Mr. Charles F. W. Staton was largely attended yesterday afternoon by friends and relatives from his late residence, Grand Trunk street. The deceased, the second son of Mr. George Staton, of Quebec, and nephew of Mr. E. D. Staton, of this city, died somewhat suddenly at the General Hospital on Saturday evening, which place he entered some ten days ago suffering from typhoid fever. On Saturday afternoon at about four o'clock he was visited by relatives, and was reported to be on the way to speedy recovery. He was in the best of spirits and spoke hopefully of the future and a quick return to his wife and family. About seven p.m., after a long conversation with his fellow patients, he became quiet, and within five minutes it was learned that he had passed away. His relatives were immediately communicated with. The suddenness of the news was sad in itself, after having had such a good report but a few hours previously. Deceased was a member of Court Maple Leaf, Canadian Order of Foresters, and as a steamfitter was employed at the G. T. R. shops at Point St. Charles. He leaves a wife and one child.

THE LATE MR. ROBERTSON.

The funeral of the late Robert Robertson took place yesterday afternoon. The service was conducted by Elder Charles Robertson, of the Advent Christian congregation. The casket was covered with floral tributes. Among those who attended were Messrs. Jos. Luttrell, Thos. Pringle, Major Costigan, W. Grose, D. Robertson, G. T. Bell, J. C. Wilson, W. H. Clancy, A. C. Stonegrave, Mr. Swalwell, Chas. Robertson, J. Noble, J. H. Nault, R. Kendal, W. Livermore, P. Lyall, Jas. Robertson, P. Burket, N. Kendal, J. Rutherford, M. Rutherford, N. Barnwell, W. H. A. Eckhardt, E. Bain, D. Swan, E. P. O'Neill, T. Collins, Jas. Johnston, Wm. Crawford, R. Smart, A. McAllister, W. Murray, W. Oakley, W. Kennedy, R. Duncan, W. O. H. Percy, W. Wilson, Geo. Robertson, Messrs. Chisholm, Elliot, Dewar, Wilson, Neilson, York, Barwick. Members of Masonic Temple Club, Mizpah and Mount Moriah lodges also attended.

LONDON MERCHANTS' CUP.

It will be noticed that our provincial rifle team has won this celebrated cup for this year, heading the other provinces by twenty-two points. For several years we have had no chance, so this success, following the new range, gives our men good heart. This cup was given to the first Dominion team under Major Worsley, subscribed for by a number of London merchants, and is really a very handsome piece. It will be held by Lord Strathcona, the provincial president for the year.

EXTENSIVE JURISDICTION.

Mr. Gaspard Lefebvre, of the Montreal post-office, has been appointed a justice of the peace, with jurisdiction over the whole province.

LABOR DAY.

Trades Councils Hold Successful Picnics and Games.

FINE WEATHER ATTRACTED UNUSUALLY LARGE GATHERINGS.

Yesterday's Labor Day celebration was a most successful one. Although in the morning the sky was somewhat shaded by fleecy clouds, in the afternoon it was clear and fine. Labor honored itself by taking a holiday. The Federated Council and friends spent the after part of the day at Delorimier Park, the Central at Mascotte Park, and the Iron Moulders' Union at Queen's Park.

Almost all of the factories, foundries and other shops in the city closed for the day, and thousands who do not belong to labor organizations and many who did not march in the processions witnessed the sports. The order everywhere was very good, and there was very little drunkenness observed. This was a source of pride to some of the labor leaders, which may be regarded as significant of better times ahead for the working man.

CENTRAL TRADES COUNCIL.

SUCCESSFUL GAMES HELD AT MASCOTTE PARK.

The Central Trades and Labor Council's demonstration, held at the Mascotte Park, was a grand success, 2,700 tickets having been disposed of at the gate.

Following are the events and results which kept the large crowd interested during the afternoon:

Boys' race, 100 yards—N. Cameron, P. Cameron, R. Mooney, H. Forest, J. Tremblay.

Men's race, open; 100 yards—W. Coldwell, M.A.A.A.; J. Hale, W. C. Nicholson.

Bicycle race, ½ mile—B. Leclair, P.A.A.A.; W. O. Davis, P.A.A.A.; C. Nadeau.

Bicycle race, 1 mile—W. O. Davis, B. Leclair, A. Spellman.

Bicycle race, 2 miles—W. O. Davis, B. Leclair, A. Spellman.

Bicycle race, three miles—W. O. Davis, B. Leclair, A. Spellman.

Putting 16-lb. shot—J. Lauson, M.A.A.A., 32 feet 1 inch; T. McBride; W. C. Nicholson, M.A.A.A.

Throwing 56-lb. weight—Z. Deamarteau, 30 feet 8 in.; T. McBride, J. Lauzon.

Open race, 220 yards—Coldwell, A. Carter, Nicholson.

Open race, 440 yards—Coldwell, Hale, Carter.

Open race, 880 yards—Carter, W. Cairns, D. Brown, M.A.A.A.

Ladies' race, 75 yards—L. Fleury, K. Campbell, A. Griggs, M. Ryan, A. Lemieux, V. Broggie.

Fat ladies' race—Mrs. A. Lescarbeau, Mrs. D. Verdon

Hop, step and jump—J. Guilfoyle, F. Phillips, Nicholson.

Running broad jump—Nicholson, Guilfoyle, Phillips.

Members' race, 100 yards—L. Pine, J. B. McInroe, J. J. Fontaine, A. Rivet, P. Duquette.

Members over 40 years—J. T. Fontaine, J. H. Dodd, G. Gagnon, L. Daoust, A. Lemieux, F. Craig, P. Duquette.

Girls' race—1, F. Ryan; 2, K. Whyte; 3, A. Nelson; 4, M. Cooney; 5, B. Sohmer.

The judges of games were—Messrs. G. A. Lacombe, M.P.P.; A. Sauvageau, Jos. Beland, Ald. Tansey, J. T. Fontaine, Ald. Ouimet.

A baseball game was played in the middle of the afternoon between the Mascottes and the Cuban Giants. Neither team distinguished themselves by brilliant playing, and there was more jeering for errors than cheering for remarkable playing.

The Mascottes won by a score of 11 runs to 7.

AT DELORIMIER PARK.

There was a large gathering at Delorimier Park of the members of the Federated Trades and Labor Council and their friends, the attendance being estimated at upwards of 4,000. At intervals during the afternoon some pleasing selections of music were played by the military band in attendance, which considerably enlivened the proceedings. A good programme of games was carried out, in addition to which there was an interesting lacrosse match between the Mascottes, of Montreal, and the Victoria team, from Quebec. After some fast play the visitors were defeated by 4 to 0. The following were the teams engaged:—Mascottes: Cattanach, Husureau, Germain, Sauvé, Mireault, Michaud, Cousineau, Roy, Dery, Lamoureux, Vallois, Renaud, St. Pierre, Renaud, E. Gingras. Victorias: Dufresne, Gingras, Turgeon, Tardiff, Picard, Patry, O. Dufresne, Laberge, Donnelly, Laverty, Courtois, Boivin, A. E. Gingras, T. Dion, A. Lafleur. Mr. Blanchard acted as referee.

In the foot and bicycle races the results were as follows:

Girls' race, 12 and under, 100 yards—R. Martel, 1; M. L. Gagnon, 2; Annie Epstein, 3.

Boys' race, 12 and under, 100 yards—P. Betourle, 1; A. Cousineau, 2; E. Adam, 3.

Married members' race—Geo. Robley, 1; J. B. Maurice, 2; Joseph Cinq Mars, 3; J. Gardiner, 4.

Race for delegates to Federated Trades Council, 100 yards—J. B. Mack, 1; E. Berthiaume, 2; F. Denis, 3.

Members' race, 40 years and over, 75 yds.—J. Gardner, 1; P. Barrett, 2; M. Leveille, 3.

Young ladies' race, 75 yards—B. Martel, 1; R. Labelle, 2; A. Dugas, 3.

Married women's race, 75 yards—Mrs. Scanlan, 1; Mrs. Thynan, 2; Mrs. Barry, 3; Mrs. Regan, 4; Mrs. Chevalier, 5; Mrs. Porteous, 6.

Members of unions affiliated with the council—H. Cote, 1; George Robley, 2; J. Cinq Mars, 3; J. Sauve, 4; J. Paquette, 5.

Bicycle race, half-mile, for members only—N. Dorval, 1; J. B. Maurice, 2; L. Dorval, 3.

Bicycle race, one mile, for members only—N. Dorval, 1; L. Dorval, 2; J. B. Maurice, 3.

The officials were:—Judges, J. B. Mack, J. O'Hara, D. Berthiaume, E. Berthiaume, J. Labelle; starter, A. Verville; secretary, P. A. Beaudry.

IRON-MOULDERS' PICNIC

The first annual picnic and games of the iron-moulders was attended in the afternoon by a large number of sightseers, who filled the grand stand of the Queen's Park and overflowed into the arena. All the games were well contested, and although several of the events came off simultaneously, it was long past six o'clock when the programme was finished.

The following is a list of the prize-winners:

The Irish jig also brought out several expert dancers, whose performances amused the grand stand and elicited general applause.

Teh day's sports closed with a lacrosse match, but, darkness coming on, the play was stopped before the game was completed.

THE BAKERS' UNION PARADING ON THE CHAMP DE MARS YESTERDAY.

METHODIST FINANCES

THE FRENCH AND INDIAN MISSIONS CONSIDERED AT DISTRICT MEETING.

The financial meeting of the ministers of the Methodist Church for the Montreal district was held to-day in St. James Church, the Rev. Dr. Williams, chairman of the district, presiding, and the Rev. M. Taylor acting as secretary.

When the proceedings opened, nearly all the ministerial members of the district were in attendance and a few of the lay delegates were also present at the morning session.

The business under consideration was altogether of a financial character. The grant recommended to the domestic French and Indian missions of the district were dealt with at the morning session, and were still under consideration when the session adjourned.

DEADLY LEVEL CROSSINGS

ANOTHER FATAL ACCIDENT OCCURRED ON SATURDAY.

Joseph Vezina, 50 years old, of 75 Plessis street, carter for Valade & Co., was on the G.T.R. track at the Canning street crossing in his cart when an incoming suburban train came along, on Saturday evening, and struck the waggon, which was smashed. Vezina received a fractured skull, from which he died in the General Hospital some hours later. An inquest was held at the hospital yesterday.

It was shown in the evidence that a train had just passed, and the gateman from his position could not see the other one coming, so he opened the gate and let the waggon get on the track. He saw the train a second later, and shouted to Vezina to stop, but it was too late.

The jury decided on a verdict of excusable homicide, with a rider to the effect that either the gatemen's stand should be placed so high that he could see over the trains, or else there should be a gateman on each side.

COURT OF KING'S BENCH

THE DOCKET FOR THE SPETEMBER TERM INCLUDES TWO MURDER CASES.

The September term of the Court of King's Bench will open on Tuesday next, Sept. 10, at 10 o'clock a.m., the presiding judge being Mr. Joseph Ouimet.

The docket, which is not a particularly heavy one, consists of the following cases: Joseph Ernest Laplaine, murder; Mary Egan, wife of Patrick Bulger, murder; Chas. Beaudoin, house-breaking (two charges); Chas. Beauquin, escape from lawful custody; Thos. J. Moore, stealng post letters; Adelard Lauzon, arson; Giovanni Ramaglia, wounding with intent to kill; Alexander Lippé, theft; Robert Inskip, shopbreaking; Z. Labelle, thefts as a servant (two cases); Adrien Bechag, theft; Pierre Dauplais, false pretences; John Seymour Allen, false pretences; John T. Wilson, Jos. Lemon, A. T. Stout, libel; Henry Mason, libel; Hugh Graham, libel. The three last named cases are private cases.

AN IMPORTANT APPOINTMENT.

Mr. V. G. R. Vickers, agent of the Dominion Express Company in this city, is being congratulated on his recent appointment to the more responsible position of general agent of the company. This gives him full control of the Montreal office and makes him rank next to the superintendent.

TOOK AN UMBRELLA.

For the theft of an umbrella, the property of a Mr. Joseph, a boot shiner named W. Day, employed at the St. Lawrence Hall Hotel, was this morning sentenced by Mr. Lafontaine to a fine of $5 or 15 days in jail. The prosecutor had laid aside his umbrella in order to have his shoes shined and the accused took an opportunity to abstract it while the prosecutor was not looking.

SAYS HE TOOK THE MONEY.

A young man named Alfred Auclair pleaded guilty before Mr. Lafontaine, in the Police Court this morning, to stealing $70 from a man named Jules Giroux, who boarded with him at a house on Bonsecours street. He was remanded until Sept. 10 for sentence.

Food Experts Decide That Delicious

Malt Breakfast Food

Is The Only Scientific Health Food.

While a number of manufacturers of cereal foods are making the most extravagant claims for their productions, the manufacturers of Malt Breakfast Food, after having submitted their popular grain food to the most noted experts for analysis, are positive that they are supplying to the public the only true and nourishing health cereal manufactured. No other breakfast food in Canada has at present such an enormous demand as Malt Breakfast Food. It is the only grain food free from the stomach-irritating properties present in other foods. It is recommended by the best physicians. All Grocers sell it.

BACK TO STUDY.

The City Schools Reopen This Morning.

SOME EIGHT THOUSAND PROTESTANT CHILDREN RETURN TO SCHOOL AFTER THE HOLIDAYS.

There may not be exactly eight thousand Protestant children at school today, but the Protestant School Board generally considers that it has this number of children under its jurisdiction.

This is opening day after the holidays. In all the public schools boys and girls were seen, tanned, healthy, full of animal spirits. There were no lessons today. The chief thing was to find one's place, to register, to be sure of status, and to prepare for the serious business of study to-morrow.

In the High School the rector and his staff were in attendance for the purpose of receiving new pupils, settling the question of place and the like. The regular body of pupils begin their school term to-morrow.

In the total number of children attending the Protestant schools must be included, of course, the Jews, who number somewhere in the neighbourhood of a thousand. These are educated at a loss to the commissioners, and the latter have often seriously discussed the Jewish school question, but it is recognized that a good work is being done in the public schools for the education of Jewish children in the subjects which will help them to become good citizens. And, as the principals of the public schools confess, the aptitude of the Jewish children is remarkable. They always occupy a good place in the class; they carry off coveted honors; and they take good positions in commercial life when they leave the schools. The commissioners are sadly hampered for room. In some schools two classes have to be put into one class-room. The question of a new Senior school has frequently engaged the attention of the board, which, however, is not in a financial position to undertake any fresh burden involving a considerable expenditure.

The Protestant community grows, but Westmount has been largely built up at its expense. Still, if the board had plenty of money it would be glad to make enlargements which are needed. There are no considerable changes in the teaching staff, which is most efficient, and the school year opens auspiciously, the pupils being free from sickness, and the equipment of the High and public schools being thoroughly up to date in every particular. Indeed, the Protestant schools have been frequently declared to be superior to those of Ontario, whose system is a national one.

There will be a special meeting of the board to-morrow evening for the purpose of considering what steps to take in connection with the royal visit. It will be the desire of the commissioners to do what is fitting to show the loyalty of the Protestant children, and at the same time to mark the occasion in the youthful memory with a demonstration which shall not be easily forgotten. One reason why the commissioners have not the money with which to undertake new buildings is found in the multiplication of joint stock companies, whose taxes, according to law, are placed in the neutral panel, which panel is divided pro rata—the bulk of course, going to the Roman Catholic schools, although in most joint stock companies the shareholders are Protestants, who are thus deprived of the right to express their preference for Protestant education. Of course, very many Protestants approve of this idea, claiming that it is a good thing that all the children of the community, of whatever race or creed, should be educated, in order that the country may advance in prosperity and culture. The incidence of the neutral tax is, therefore, approved of, as rendering possible an education to the majority which would not be as complete lacking the taxes from the neutral panel as it is at present with that support. On the other hand, of course, this means a dwindling revenue to the commissioners, a circumstance which can only be improved by additional taxation for school purposes in the city.

There is, however, on the part of Protestant taxpayers, a decided objection to further taxation, which is in curious contrast with the feeling in other places, and the board sees a failing revenue in the face of new demands for expansion. The board has more than once drawn the attention of the Provincial Government to the present state of affairs, and asked for relief to the extent of making it legal for joint stock companies to declare their preference when paying their taxes. This was met by a counter petition from the Roman Catholic Commissioners, asking that the entire school taxes should be divided pro rata. The government took no action in the premises; the law remains and works to the detriment of the Protestant schools, which, however, with the limited income at the disposal of the board, accomplish admirable results.

ABERDEEN SCHOOL.

The Aberdeen School, town of St. Louis, was opened this morning with becoming ceremony, the chair being occupied by Mr. Robert Herbert, chairman; Messrs. J. W. Cole and E. Pearse, commissioners, also being present. Mr. C. A. Humphrey, the new principal, was ably assisted in the opening exercises by Miss Hill and Miss Robson, teachers.

The Boulevard Protestant School, which is managed in connection with the Aberdeen School, was also opened by the same persons. Miss Hutchinson has taken charge of this school. It is the intention of the residents in the north-east portion of the city to build a new school house in this district to replace the Boulevard School, and a request for permission to borrow the money for this purpose has already been forwarded to Quebec.

POLE TOUCHED A WIRE

WORKMAN RECEIVES FATAL SHOCK FROM HANDLE OF DERRICK.

A workman named G. D. Gauthier was killed by an electric shock this morning while employed in the building of the new Catholic church on Boulevard St. Denis, Mile End.

A derrick had been put up in such a way that its boom rubbed against an electric light wire; in a short time the insulation wore out, and when Gauthier took hold of the handle of the derrick this morning he received a shock which killed him instantly.

The body was taken to his home, 1550 St. Andre street, where an inquest was opened this afternoon, to decide on the responsibility for erecting the derrick in such a dangerous place.

DR. WILSON'S MEETINGS POSTPONED.

Owing to Dr. Wilson not having arrived in Montreal as expected the meeting advertised for this evening at the Evangelistic Hall will be postponed until further notice.

THE ROYAL VISIT

Description of the New Royal Car Sandringham.

THE SPECIAL RECEPTION COMMITTEE WILL DO ALL IT CAN TO FACILITATE ERECTION OF PRIVATE DECORATIONS.

There was a meeting of the special civic committee working in connection with the approaching visit of the Duke and Duchess of Cornwall and York this morning, and an important and interesting decision was arrived at regarding the facilities to be afforded to citizens for the erection of private decorations, arches, etc. There are by-laws which make it compulsory for citizens to get the consent of the City Surveyor and the Road Committee before constructing any erections on the sidewalks, and there are others which make it necessary to get the approval of the building inspector before erecting such a simple construction as a grand stand.

This morning an application was received from Mr. Scroggie for permission to erect a private decorative stand across the sidewalk on St. Catherine street in front of his store. The application had been referred to the city surveyor, Mr. Barlow, and he had reported against it, as it would obstruct the view and be an annoyance to the neighbors.

The Mayor, who presided, said he understood Mr. Barlow's objections. It was based upon proper official caution, but this was not a time to be overcautious in such matters. The city should do everything in its power at a time like the present to facilitate the decorating of the city as far as possible by private citizens and certainly no obstacles should be allowed to stand in the way.

Alderman Sadler asked, if the committee allowed the infringement of the by-laws and an accident occurred, would the city be responsible.

Alderman Ekers thought that Mr. Scroggie's best way would be to proceed with his arch without obtaining permission. He added: 'If I wanted to erect an arch I would erect it, and run the risk of having it ordered down.'

Alderman Sadler drew attention to the fact that the council could suspend the by-laws.

The Mayor said that there was no necessity to go to the council at all. The council, when it appointed the committee, gave it full power to make all necessary arrangements for the reception. The powers of the council were consequently delegated to the committee and it had direct power to deal with the officials and regulations of all departments.

It was decided to grant Mr. Scroggie's request, he to assume full responsibility in the case of accidents. The committee will similarly deal directly with all similar requests.

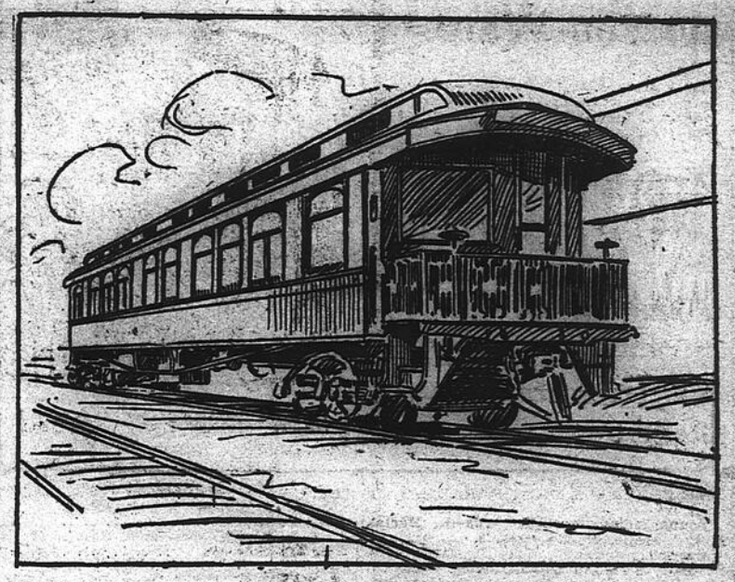

On motion of Alderman Smith, it was decided to instruct the building inspector to thoroughly inspect the lookout on the mountain before the Royal visit, to ascertain that it is safe.

At the request of Senator Casgrain, on behalf of the Citizens' Committee, it was decided to ask the city surveyor to locate the places on Mount Royal and Logan's Park where the fireworks displays are to take place, so that they may be roped off. It was also decided to have forces of police and firemen detailed for these points.

A meeting of the General Citizens' Committee and all the subscribers to the fund will be held on Thursday, Sept. 5, at 4.30 p.m., in the Art Gallery, Phillips square, to consider progress made.

VERY MISTAKEN IDEAS ABOUT AS TO THE MONTREAL CELEBRATION—

Ald. Sadler, who has been one of the most indefatigable members of the civic reception committee for the Duke and Duchess of Cornwall and York, has returned to the city from his trip to Buffalo and the west. Alderman Sadler said that he had been very much surprised and annoyed at the peculiar impression he found to prevail in the west with regard to Montreal's preparations for the reception of the Royal couple. Through the manner adopted by certain of the Montreal papers in reporting the proceedings of the reception committee in a farcical and very far-fetched way, and through the repeated announcement that there is no money for this, that mittees have done their part to beautify the streets, various other organizations are doing theirs, and the citizens at large will do likewise. Nothing that is really essential to the success of the demonstration has been left undone for want of money or for any other reason.

THE NEW ROYAL CAR 'SANDRINGHAM.'

(Special to the 'Witness.')

Ottawa, Sept. 4.—The Canadian Government Railway's coach 'Sandringham,' built expressly for the royal party to be used during their tour in Canada, is now lying in the Canada Atlantic yards here. It is an exceptionally pretty example of car construction, and attracts much attention.

The coach is finished on the outside with oak and has large platforms at either end protected by high brass railings and automatic gates. It is both wider and longer than the ordinary railway car. Inside the fittings are of mahogany. The draping and upholstering is of finest silk plush and leather.

The car is lighted by electricity and contains a large dining room, kitchen, two observation rooms, two staterooms, a porter's room and six berths.

DINNER ON THE LAKE SIMCOE.

The Elder-Dempster SS. Lake Simcoe was inspected last night by senators, members of Parliament, aldermen and members of the Board of Trade, and the unanimous opinion was that the Lake Simcoe was not only thoroughly up-to-date in her appointments, but that she was one of the best boats that had ever come to Montreal. After the company's guests had been entertained at dinner by Mr. David W. Campbell, manager of the Elder-Dempster line, several toasts were proposed and responded to by eminent guests. The Hon. J. P. B. Casgrain responded to the toast of the Parliament and Legislature; Mayor Prefontaine and Senator Mackay to the city and port of Montreal, while the transportation interests were eulogized by Mr. W. J. White, K.C., and suitable responses were made by Messrs. Robert Kerr and William Stewart. The toast of the Board of Trade was responded to by Major Bond, Mr. McKergow and Mr. L. A. Lawrence. Messrs. Metcalfe and Craig responded for the Corn Exchange and Mr. Smeaton White for the Press. The proceedings were pleasantly interspersed by Mr. W. J. White, K.C., singing the Brigadier.

NEW ZEALAND ANXIOUS TO ESTABLISH A STEAMSHIP LINE TO VANCOUVER.

New York, Sept. 3.—The 'Times's' corespondent at Wellington, under date of July 25, says: The government of New Zealand is contemplating the discontinuance of the subsidy granted to the mail service to San Francisco, and its diversion to a service to Vancouver, B. C.

In the New Zealand Parliament nearly all the speeches referred to this matter. The question is likely to engage the attention of the Federal Cabinet shortly, when the Minister of Foreign Affairs will urge the subsidizing of a Vancouver service but will object to a subsidy to a San Francisco line. A strong feeling is shown in parliament against the latter.

MILLINERY DAY.

THE FALL OPENINGS WERE WELL ATTENDED.

The fall millinery show, which was opened to-day, was well attended, the number of milliners, both of the city and from the outside points, who visited the warehouses of the wholesale milliners, being as large, if not larger than usual, the present fine weather no doubt bringing many to the city who would not have come had the weather been wet.

The greater part of the visitors were, of course, ladies, who had come to see and to buy, and who were resolved to do both with satisfaction to themselves. The Paris models were sought after with much eagerness and took but little time in the selling.

At Messrs. Caverhill & Kissock's on St. Peter street, good sales in all lines were the order of the day, and it took all the members of the staff every second of their time to attend to the needs of their fair customers.

The openings continue for some two or three days, and the crowds of visitors are, judging from to-day's results, likely to increase rather than diminish in numbers.

Child-Health Wrecked By Ontario School System.

Alarming Prevalence of Brain and Nerve Diseases Among Children.

Weak Bodies and Defective Eyesight Caused by Cramming for Examinations—A Warning to Parents.

In nearly every school in this province there are children who are being ruined in mind and body by the exeessive exertion brought upon them in cramming for examinations. Early and late they are bending over their books, contracting their lungs, ruining their eyesight and consuming nervous energy at an enormous rate, and this at the very period in life when, on account of important physiological changes, every resource of nature is taxed to the utmost to supply nutrition for the functional development.

Fond parents, anxious to see their children rank high at examinations, forget that the nerve force which is being so lavishly spent must sap the vitality of the body and ultimately result in nervous exhaustion, St. Vitus' dance, epilepsy, paralysis, brain congestion or some dreadful form of brain or nerve disease. What hosts of weak, puny, nervous children are to be seen everywhere these days. Unless prompt action arrests their declining health they cannot possibly develop into healthy, robust men and women.

If your boy or girl is weak, puny or nervous do not suppose for one moment that the trouble will wear away of itself. It will not. Nervous diseases do not get well of themselves. External assistance is necessary in order to overcome the constant waste of vital energy. Dr. Chase's Nerve Food contains in concentrated form the very essence of the most effective nerve restoratives found in nature. Gradually and naturally it recreates nerve cells, forms new red corpuscles in the blood, rekindles the spark of life and builds up weak and wasted bodies. 50 cents a box, 6 boxes for $2.50, at all dealers or Edmanson, Bates & Co., Toronto.

Sept. 2, 1901.

The local stock market was very active. The leaders were Canadian Pacific, Twin City, Montreal Power, Toronto Rails, and Richelieu, but there was quite a bit of trading distributed over the rest of the list. The market opened strong, and the tendency to rise carried the favorites up two or three points higher than Friday's closing. These advances were not maintained, however, with the exception of Montreal Power, which closed at 99. The others fell off from one to one and a half points, but all closed at a substantial advance on the opening.

BRITISH CATTLE MARKET.

London, Aug. 19.—Rather shorter supply of fat beasts, consisting chiefly of Herefords, Runts, and Lincolns, which met rather slower sale with slight downward tendency in value. Fat butchering cows and bulls sold at about last Monday's value. Best Herefords quoted at 4s 7d to 4s 8d per 8 lbs.; Runts, 4s 3d to 4s 6d. Arrivals—103 Irish, 134 Norfolk, Suffolk and Essex, 1,063 midland, home and western counties, 40 Devon. Decrease of 150 in sheep market, amongst which were a fair proportion of lambs, of which but few were really choice; these therefore made more money; plain descriptions were very irregular in price. Sheep met slow trade at last Monday's rates. Beasts, 2s 4d to 4s 8d; sheep, 3s 2d to 5s 8d; lambs, 5s 6d to 6s 2d per 8 lbs. Total supply—Beasts, 1,340; sheep and lambs, 660.

Liverpool, Aug. 19.—Beasts, 1,054; sheep and lambs, 15,173; best beast, 6d to 6¼d; second, 5½d to 5¾d; third, 4½d to 5d; best Scotch sheep, 7¼d to 7¾d; other sorts, 6d to 7d; lambs, 6d to 7¼d; an increase of 108 beasts, and 1,130 sheep and lambs. Slow demand for all classes at about late rates.

Newcastle, Aug. 21.—Number of cattle, yesterday, 1,619; sheep and lambs, 11,442; calves, 76; pigs, 436. Shade brisker trade all round. Prime heifers, 8s to 8s 3d; steers, 7s 9d to 8s; second class, 7s 6d to 7s 9d; coarse and inferior, 6s to 6s 6d; pork, 6s to 7s 9d; mutton, 6d to 7¾d; lambs, 7d to 8½d; veal, 6d to 7d.

Salford, Aug. 21.—At market yesterday, cattle numbered 1,855; trade good, with the prices favoring sellers. Sheep and lambs, 16,137; choice qualities in demand; others dull. Calves, 155; trade improving. Quotations—Cattle, 5d to 6¾d; sheep, 6d to 8d; lambs, 7d to 8d; calves, 5½d to 7½d per lb.

BUTTER.

Manchester, Aug. 21—The numerous holidays in the district are having a depressing effect on business, the demand ruling slow yesterday, and finest qualities only salable at barely last week's rates, though there was no great decrease in prices to note. Irish creamery in good demand, and no change in values. Quotations—Finest Danish and Swedish, 114s to 116s; finest Finnish 107s to 109s; finest Irish creamery, 108s to 110s; Canadians, 106s to 108s.

Cork, Aug. 26.—Firsts, 85s; seconds, 81s; thirds, 80s; fourths, 70s; superfine, 92s; fine mild, 83s; choicest boxes, 99s; choice, 83s; mild. In market, 340. Fresh A, 92s; B, 91s.

Limerick, Aug. 21.—Choicest pure Irish centrifugal creamery was officially quoted by the Price Committee at Limerick yesterday at 105s to 110s to dairies.

Ladies Who Value Their Time and Study Economy Use Only The Diamond Dyes and The Diamond Dye Mat and Rug Patterns.

A vast quantity of Diamond Dyes are used every year for the coloring of rags, yarns and warps for the making of home-made Carpets, Mats and Rugs. Diamond Dyes are universally used for this work because they give colors that sun or washing can never fade. We have seen floor rugs, the materials of which had been dyed with Diamond Dyes that looked rich and bright after five years of wear.

Just a word here to those who are interested in Mat and Rug-making. The proprietors of the celebrated Diamond Dyes are manufacturers of the popular Diamond Dye Mat and Rug Patterns. This season their designs are attracting much attention, and retail dry goods houses are buying them freely. The Diamond Dye Mat and Rug Patterns are the best and most artistic in Canada. If your dealer has not yet put them in stock, write for sheet of designs sent free by The Wells & Richardson Co., Limited, Montreal.

NEW IRISH PARISHES

ENGLISH-SPEAKING CATHOLICS DESIRE TWO SUCH IN THE NORTH END.

There is at present an active movement among the Irish and other English-speaking Roman Catholics looking to the establishment of two new English-speaking congregations in St. Jean Baptiste ward and St. Louis du Mile End respectively. There has been a great development of the English-speaking Roman Catholic population of those districts, and a census of the two existing parishes shows that there are 450 English speaking Roman Catholics families at present living in St. Jean Baptiste parish, and 400 in St. Louis du Mile End. At present these families have to contribute to the support of the existing churches, but they have no priests of their own nationality, and never have a chance of hearing an English sermon unless they go to St. Patrick's, St. Bridget's or the Church of the Gesu. They have frequently laid the matter before the clergy, but without avail and now a number of influential English-speaking Roman Catholics of both parishes have taken the matter up with the object of having memorials drawn up and representations made in the regular way to the Archbishop.

The Boys' Page.

The Great 'Scoop.'

(Molly Elliot Seawell, in the 'Youth's Companion.')

CHAPTER V.

The 'Journal,' like the 'Times,' went to press at half-past two, and there was still an hour in which it might get the news—and the 'Journal' man still held on desperately to the last chance of getting the news to his paper.

'I say, Mr. Woodruff,' said Henshaw, almost before Woodruff had a chance to speak, 'can't one of these fellows take the wire now? I've been standing—'

Before Henshaw could finish the sentence, the operator fell back in his chair, with a faint smile. 'I'm done up,' he said. 'I'm not very strong, and I feel like fainting. I couldn't send another word to save my life.'

There was clearly no chance for the 'Journal' man. Somebody helped the operator to the door, where the fresh, cool air of the summer night seemed to revive him; but it was perfectly plain that, as he said, he was 'done up.'

And so was Henshaw. With a reporter to stand guard on the telegraph instrument in case the man might revive enough to go to work, and with Mr. Woodruff and another reporter and an officer with a warrant plunging down the railway tracks towards the Henderson place, there was no doubt of the success of the "scoop." Henshaw climbed into the special car, which was on a siding, the locomotive having steam up and ready to start at a moment's notice. The only thing obtainable at the station had been an ordinary box car, with some hay spread on the floor. Henshaw, in spite of the tension of his nerves, was so overcome with fatigue that he lay down in a corner, and in two minutes was sound asleep.

The next thing he remembered was the rattle and rumble of starting. He saw by the light of a lantern, as they bumped along rapidly, a group of two or three strange men guarding Harbishaw and the valise—and Murray was bending over Henshaw with a strange look upon his face. And there were Mr. Woodruff, and a reporter or two, and the discomfited 'Journal' man. Henshaw started up and began to rub his eyes, and in an instant it all came back to him. Murray was the first who spoke.

'Henshaw deserves the reward,' he said.

'Half of it, you mean,' answered Mr. Woodruff.

There was only a dim light in the car from the lantern, but Henshaw could see Murray's handsome face, and there was a new expression upon it,—something that had aged it and humiliated it,—and he looked like anything but a man who has just achieved a great success.

'No, I don't mean half,' said he, firmly. 'I mean that Henshaw did the whole thing, and I wouldn't touch a dollar of that reward for any earthly consideration.'

This was so unlike Murray that Woodruff concluded him to be unnerved and a little befogged by the excitement of the occasion. Henshaw said nothing; he realized that Murray was acting strangely, and the saving common sense that went with the Henshaw blood made him at once take up another cue.

'Do you know, Mr. Woodruff,' he said, 'I didn't realize until we got started and it was too late to turn back, that I ought to have gone to the office first, and let you manage the business. It certainly was "fresh" in Murray and me to start out to do this on our own hook; but I declare, neither of us thought of it until it was too late, as I said.'

'It's a very good thing that you succeeded, young man,' replied Mr. Woodruff, deliberately, and with a peculiar look out of his eye. 'I will give you and Mr. Murray a slight warning. In the future, when anything of the greatest importance like this occurs, involving the enterprise of the paper and its character as a news-gatherer, it is preferred that the editors shall have some share in the management of the affair, and I have a great mind to recommend that both of you shall have your salaries docked for this week,' which last neither Murray nor Henshaw took seriously; but the first part of the speech they understood at once. Suppose they had failed! Henshaw grew pale when he thought of it.

Henshaw could not return home that night; he felt bound to see the paper through the press. At half-past two promptly the building resounded with the roar and thump of the great presses. Harbishaw was by that time safely lodged in jail, and Henshaw and Murray were being lionized by the staff of the 'Daily Times.' Murray persisted in giving all the credit to Henshaw, while Henshaw justly said that he could have done nothing without Murray. This magnanimity struck everybody forcibly.

But Henshaw had undergone a transformation of character. He still loved Murray, but never, as long as he lived, would he again fall under the slavish control of his affections. He saw it all now,—Murray's weakness, his momentary lapse,—and the conviction came home to Henshaw that Murray, too, was a changed man. Murray had stood on the brink of crime, and by a miracle he had escaped.

He was not a criminal at heart, and the horror of what he had so nearly fallen into almost paralyzed him. He got away from the office as soon as he could, dragging Henshaw with him. When the two were in the quiet streets, where the ghastly gray of the first dawn was showing in the leaden sky, Henshaw said hurriedly:

'Murray, you are behaving like a lunatic about that reward. You know you are entitled to half, and if you refuse it, with what Harbishaw will tell, you will at once arouse suspicion. You threw the package of money away, and if you take your share of the reward everything will be all right. And can't you see that it is impossible that I should be entitled to all of it?'

Henshaw argued with him all the way home, but when they got to Murray's room, Murray was no more persuaded than in the beginning that it was madness to refuse the money. Henshaw slept an hour or two on Murray's bed, Murray meanwhile watching him as a mother watches a child, and feeling in his heart an intensity of gratitude. This honest, straightforward young fellow had saved him. Whenever that thought came back to Murray, he would have given Henshaw everything he had on earth.

And the 'Journal' was 'scooped.' The next morning the 'Times' had the whole thing, and the names of 'our enterprising young reporters, Richard Henshaw and Arthur Murray,' were blazoned upon the first page of the paper. Henshaw was 'made' as a newspaper man. The reward was a fortune to Hugh and Mary and little Jane,—for Murray steadily refused to touch a penny of it,—and with a peculiar professional thrill that marked the true newspaper instinct, Henshaw gloated over the great 'scoop' with a delight that all the words in the dictionary could not half express.'

(The End.)

AGONIES OF RHEUMATISM BANISHED BY

Paine's Celery Compound

THE ONLY MEDICINE THAT CAN SAVE PAIN-RACKED SUFFERERS.

A Marvellous Cure After Use of Seven Bottles of the Great Compound.

Paine's Celery Compound has absolute proofs that it has effected complete cures in 97 percent of the cases of rheumatism in which it has been used. The worst sufferer is healed, crutches thrown away, and the poor cripple of yesterday becomes the vigorous man or woman of to-day. Mr. William Morisette, of Roxton Pond, Que., writes thus:

'Having been given up to die some time ago by some of the best doctors in the United States, I came to Canada last autumn terribly ill, and had lost all hope. Suffering agonies from inflammatory rheumatism, I was strongly urged to use Paine's Celery Compound. I gave it a trial as recommended, and the first bottle did me so much good I continued with the medicine until I had used seven bottles, when I found myself perfectly cured; indeed, I never felt better in all my life than at present. I use every possible means to tell others of Paine's Celery Compound, and will always recommend it to those troubled with rheumatism.'

BIBLE GLEANINGS.

TUESDAY, SEPT. 3.

OUT OF AND INTO.

Wonderful contrasts are presented in the Scriptures, and none are greater than those which set forth what believers were and what they have become. In John v., 24, they are said to have passed out of death into life, and in I. John iii., 14, we are told they know it. There are some Christian professors who are not sure about this, yet there is no Christian who has not passed out of death into life. Next, in I. Pet. ii., 9, we have deliverance out of darkness into God's marvellous light. Most people know when it is night and when it is day. Does every professed Christian know what it is to be light in the Lord? Again, in John ix., 25, a man whose sight was restored says: 'One thing I know, that, whereas I was blind, now I see.' This one thing, Christian, do you know? If so, you will rejoice in the new world opened to your view, and will bend at the feet of Jesus and worship Him. Fourthly, 'Out of the world' (John xv., 19), 'into Christ.' (Gal. iii., 27.) Church member, have you this experience? What means, then, your love of money, of self, of worldly pleasures? Christ is not of this world (John xvii., 16), and you cannot be of it and at the same time be one with Him. Whichever one you are in, you are out of the other. Lastly, believers are freed from the curse of the law and brought into the place of blessing. (Gal. iii., 13, 14.)

Some things you may have without seeking, some you may seek and not find; but there are things, and those you most need, that you will never find without seeking.—Mark Hopkins.

Christianity is not a drill; it is life, full, free, radiant and rejoicing. What a young man should do is not to vex himself about his imperfection, but to fix his mind on the bright image of perfection; not to weary his soul with rules, but to live with Christ as one liveth with a friend. There is one way to complete manhood, and that is, fellowship with Jesus Christ.—Ian Maclaren.

READABLE PARAGRAPHS.

THE GREAT UNWASHED.

This story is told by the president of a New Bedford bank. Not long ago he and other officers and directors engaged in a business meeting, held in the directors' room of the bank, and were surprised to see a poor little waif enter the room, something which a man of business affairs would not dare to do under such conditions. The little girl, shabbily clothed and pinched looking, had all unconsciously entered on forbidden ground, but this she did not realize, and at once went to the men seated about the big table, offering them small cakes of soap for sale. The very first director whom she approached shook his head, impatient at the interruption of business, and said sharply, 'I never use it.' The tiny pedler, unabashed, went from man to man, all the others, out of pity for her wan little figure, buying of her. As she started to leave the room, after thanking each purchaser, the girl hesitated a moment in front of the director who never used soap, according to his own declaration, and, looking him over from head to foot, said, disdainfully, 'Well, yer look it!' and then she swept out like a duchess.—Boston 'Herald.'

First Financier—'Are you getting much cut of that new oil well?'
Second Financier—'Are we? About five thousand dollars a week, all in five dollar subscriptions!'

Riter—'Have you read my last poem?'
Reeder—'I hope so.'

'I beg your pardon, ma'am, but your account is overdrawn.'
'Dear me! Why, I've got a whole lot of cheques left.'

CENSOR AT WORK AGAIN

HAS BEEN INSTRUCTED BY THE WAR OFFICE TO ALLOW NO NEWS TO PASS THROUGH.

London, Sept. 3.—The War Office has ordered the censor in South Africa, the 'Sun' says, to permit absolutely nothing to pass over the wires until further instructions shall have been given. The opinion in official circles is that the war is not merely practically, but actually finished. Hence the desire to conceal even the smallest details of pending negotiations until an official announcement shall be made.

BOERS SHOT AT WOMEN.

DETAILS OF THE BLOWING UP OF THE TRAIN NEAR WATERVAL.

London, Sept. 3.—The Pretoria correspondent of the 'Daily Telegraph,' in a despatch describing the blowing up of a train between Waterval and Hamanskraal, on Saturday, by Boers, when Lieut.-Col. Vandeleur, of the Irish Guards, was killed, says: 'The train carried several passengers, among them two ladies with babies and a nurse. As it toiled through a cutting a negro was seen to raise his hand. Instantly a Boer discharged two mines, derailing the train, while a body of Boers poured in a heavy rifle fire.

'Lieut.-Col. Vandeleur shouted to the women to lie down under the seats, and ordered his men to return the fire. As he was proceeding along the corridor a Boer burst into the carriage and fired, killing him after, it is supposed, his refusal to surrender.

'Another Boer deliberately fired upon and wounded the nurse, bullets were flying in all directions, although the Boers were aware that women and children were there.'

CHARGED WITH TREASON

MAN WHO GAVE UP KEYS OF JOHANNESBURG ARRESTED IN LONDON.

London, Sept. 3.—Dr. Kraus, former governor of Johannesburg, and a prominent official of the late Transvaal Government, was arrested in London last night, on a charge of high treason. He will be arraigned to-day at Bow Street Police Court.

For the past four months Dr. Kraus has been living in Great Britain. It is alleged that after signifying his allegiance to the British Crown, he secretly forwarded information to the Boers. It was Dr. Kraus who handed to Lord Roberts the keys of Johannesburg on the occasion of the surrender.

Dr. Kraus, former Governor of Johannesburg and a prominent official of the late Transvaal Government, who was taken into custody in London last night, was charged at the Bow Street Police Court this morning with high treason in the Transvaal under the fugitive offenders' law, and was remanded for a week without bail. No evidence except as to Dr. Kraus's arrest being offered, Sir George Lewis, on behalf of the prisoner, asked if any deposition against his client supporting the charge existed. The prosecutor, Mr. Muir, replied that there was of course information against the accused in Cape Colony. The police here, he said, had acted upon telegraphic instructions.

The police testified that Dr. Kraus, when arrested, looked at the warrant and remarked: 'The charge is absurd.'

THE IRISH AMERICANS

REPORT OF CAPTAIN CARL REICHMANN TO BE USED IN REBUTTING COMPENSATION CLAIMS.

London, Sept. 3.—Major-General Sir John Ardagh, the representative of the British Foreign Office, before the Transvaal compensation commission, presented to the commission yesterday as part of the British case against the American and other claimants the report of Captain Carl Reichmann, who was United States military attaché with the Boers. From this it appeared that the Irish American ambulance, originally consisted of fifty-three men. On their arrival at Pretoria forty-six of them threw away their red cross badges and took up Mausers. Captain Reichmann was quoted as saying that the works of the Netherlands Railway and the dynamite factory at Johannesburg were turned into Boer arsenals. Consequently the claimants who had worked therein could not be entitled to damages for deportation.

Washington, D.C., Sept. 3.—The American ambassador to the Court of St. James, Mr. Choate, has cabled to the State Department from London, under date of Aug. 3 as follows:

'South African commission will receive no further claims after Sept. 15.'

This commission is dealing with claims of foreigners on account of damages in the Boer war.

THE DOORNBERG AFFAIR

CAPTAIN BARKER'S LITTLE COUP WAS A DECIDED SUCCESS.

A Reuter despatch, dated Winburg, Aug. 22, says: Further particulars regarding the defeat of Haasbroek's commando by Colonel Barker show that the latter left Winburg in the evening for Doornberg, twenty-five miles to the north, where Haasbroek's laager had been discovered. Near Doornberg Col. Barker passed a Boer outpost of twenty men, who were all asleep on a kopje. They were left undisturbed, and the force marched to the north side of the Doornberg. Shortly after crossing a drift on the Zand river, Major Marshall with the 10th Mounted Infantry, pushed round, getting into position on some high ground commanding Haasbroek's laager, which was situated in a kloof covered with dense bush. In the meantime, Col. Barker drew a force across the mouth of the kloof to the north, making the cordon round the enemy almost complete. At daybreak a heavy fire was opened on the Boer laager from all sides, and was kept up for ten minutes by our guns and small arms. The surprise was complete, the Boers, numbering about a hundred and twenty, being all asleep. When fire was opened they rushed out of their beds, and great confusion prevailed.

Haasbroek himself was not present at the time of the attack, having left the night before on a visit to his wife. Forty men belonging to the commando, who had obtained leave the previous day, were also absent. Field Cornet Cronje, who was in command of the laager when it was surprised, escaped on Mr. George Farrar's well known race horse 'Minnikin.' We had no casualties. Most of the prisoners captured were between 15 and 25 years of age, but one was 77. Many had three or four led horses, but nearly all these stampeded when the British opened fire.

LORD MILNER OF CAPETOWN.

New York, Sept. 3.—The 'Tribune's' special cable from London says Lord Milner of Capetown has not been idle since his return to South Africa. One of his first public actions on resuming his duties has been to offer some assurances in reply to representations made on behalf of Uitlander refugees. The High Commissioner declares that there is no object for which he will work more strenuously than that of bringing the people back to the Transvaal as quickly as possible.

THE CZAR'S JOURNEY

ROYAL PARTY REACHES DENMARK.

Elsinore, Denmark, Sept. 2.—The Russian Imperial yacht 'Standart,' with the Czar and the Czarina on board, which arrived in Kjoge Bay last night, anchored here at 2 p.m. to-day. The Imperial party was received at the water side by King Christian and all the members of the royal family.

THE COLORADO BEETLE

PEST HAS AGAIN APPEARED IN ENGLAND AND IS CAUSING WIDESPREAD ALARM.

London, Sept. 3.—The Board of Agriculture announces that the Colorado beetle in various stages of existence has been discovered in a potato patch at Tilbury. The beetle hitherto has not been known to breed in Great Britain although it has been occasionally imported as in 1877, when it caused a universal scare. The board had the crop in which the beetle was found and the surrounding crops at Tilbury destroyed immediately and it hopes that this will be effective in preventing the spread of the beetle.

THE GROWING WEST

MR. E. S. CLOUSTON IS SATISFIED WITH CONDITIONS OF GROWTH.

The general manager of the Bank of Montreal, Mr. E. S. Clouston, has returned from a trip to the coast, thoroughly satisfied with the conditions which were presented. He was able to confirm all the favorable things said about the crop. The farmers are in a hopeful frame of mind. Towns and cities in Manitoba are growing; the Mormon settlement at Lethbridge was in a flourishing state; the strike among the miners in British Columbia had resulted in some unsettlement, but business was good along the coast. With regard to the question of labor unions and strikes, Mr. Clouston holds that it would be more satisfactory to combinations of Canadian workmen if their unions were purely Canadian—that is to say, if they governed themselves, instead of being under the control of American organizations, the heads of which very frequently did not understand the conditions with which they were called upon to deal in Canada.

MR. J. R. McCONICA

WILL ENGAGE IN RESCUE WORK AT FALL RIVER, MASS.

'The Rev. J. R. McConica,' says last Saturday's 'Evening Sun,' of New York, 'has left the Metropolitan Temple, where he has for some time been an assistant, and eminently successful in certain lines of work pertaining to the large clergy staff of this West Side church. Mr. McConica has accepted the permanent charge of the rescue work at Fall River, Mass., and will leave New York by Fall River boat this evening to enter upon the new duties for which long experience has fitted him. For eleven years he was the superintendent of the Old Brewery Rescue Mission work in Montreal, having left that city in March last. Before going to Montreal he had long experience in evangelistic work in the State of New York. At one time he was connected with the Helping Hand Night Mission in Brooklyn, and afterwards was superintendent of the Aqueduct Mission at Albany. He is considered an eloquent and forcible speaker, has good organizing and administrative ability, is an ardent lover of humanity and wholly consecrated to his work.'

SERIOUS RUNAWAY ACCIDENT.

Winnipeg, Man., Sept. 2.—Mrs. Patton, wife of Mr. Frank Patton, manager of the local branch of the Dominion Bank, sustained a double fracture of the leg, and Miss K. Campbell, a companion, was seriously injured in an accident yesterday. The horses, which they were driving towards Elm Park, with Mr. Patton, became frightened and bolted, and the carriage and occupants were hurled over a twenty-five-foot bank of the Red river.

APPROVED DESIGNS.

Something About Correct Heraldry for Royal Visit Decorations.

THE NEW ROYAL CYPHER AND CROWN AS APPROVED BY KING EDWARD.

The preparation of shields and heraldic devices for decorative purposes has become, in view of the approaching royal visit, a regular business in Montreal. Artists are busy, and have been busy, for some time on such work, not merely for Montreal, but for every city in Canada where the royal party will stop, from Halifax to Vancouver. Even busier than the painters are the electric manufacturing establishments, for electricity is in vogue and the illuminations will be distinctively a feature of the Canadian demonstrations. As a result of the beautiful effects produced at the Pan-American exhibition, at Buffalo, a

MONOGRAM SHIELD, WHITE ON LIGHT BLUE.

The companies have gone to considerable trouble to find out the correct heraldry for these designs.

The Montreal Electric Company some weeks ago received orders to produce the royal cypher in electric lights, and wishing to be correct with that and certain other devices, placed itself in communication with the proper authorities in England. A communication was received from the War Office, with regard to the enquiry as to the royal cypher, enclosing a drawing of the approved pattern of the royal cypher and crown as approved by His Majesty. A reproduction is given herewith, and the company is carefully adhering to this design in its electric pieces.

With the design the War Office also sent an extract from an army order issued in May, and which reads as follows:—

War Office, London, S. W.,
May, 1901.

His Majesty the King has selected and approved the above design of royal cypher and crown to be worn on badges,

MONOGRAM SHIELD, WHITE ON LIGHT BLUE.

buttons and other devices throughout the service, wherever they are at present borne. The design of the royal cypher has been made plain, without foliation, at His Majesty's express wish, and no device or ornament will be placed above or upon it. His Majesty has brought to notice that on accoutrements, colors, buttons, etc., etc., there are no less than six or seven totally different pattern crowns. Some of them are foreign Continental crowns, others are different deviations of the British crown. His Majesty now wishes one uniform crown alone to become the sealed pattern for the service—the Tudor, 'Henry VII.' Crown, chosen and always used by Queen Victoria personally; all other patterns to be abolished.

This is useful to remember by those who are contemplating decorating their premises and want to be correct.

Among other designs the Montreal Electric Company enquired about was the Prince of Wales's plume. The approved design gives the plumes greater length and less droop than usually shown, and with the ducal crown shown conspicuously round the base.

As emblematic of the profession of His Royal Highness, that of the royal naval service, the correct emblem is the 'Nelson' anchor.

For those who wish to produce the monograms of the royal couple in their decorations, the approved form consists of two light blue shields, charged with the Gothic letters 'M' and 'G' in white.

As the Duke of Cornwall is said to be almost as particular in such matters as his royal father, these facts are of general interest to Canadians just now.

CANADIANS AT SEAGIRT

FINISHED THIRD IN THEIR INITIAL MATCH YESTERDAY.

Seagirt, N.J., Sept. 3.—Fresh from the work at Rockliffe ranges, Ottawa, all last week, the members of the all-Canadian rifle team arrived at Seagirt, N.J. They quartered yesterday alongside the Irish team, in the front row. The representative riflemen of the Dominion of Canada received a hearty reception when they arrived. Governor Voorhees, General Spencer and a majority of the military and civilian rifle shooters who have been at Seagirt for some days, met the visitors at the railway station and greeted them enthusiastically.

The first competition in which the visitors entered was the Hilton trophy match, shot in three ranges, 200, 500 and 600 yards. Eleven teams of twelve men each shot for this prize and the contest was so keen that the result was in doubt until the last bullet flashed. The District of Columbia team was successful, but in winning broke the record, which it established in 1895, making a score of 1,098. The best individual shooting done in this match was that of Sergt. Corry, of the 12th Regiment, New York, who made a possible at the 600-yard range, and was only six points from a possible at all the ranges. The New York team had a lead of 17 points when they left the first stage, but the marksmen from the District of Columbia overcame this in the last two distances. A 'bull' was made by Wells, of New York, on the wrong target, and according to the rules this was marked a miss. If it had not been for this error, the New-Yorkers would have had the same score as the winning team. The Canadians were in eighth place when they left the 200-yard range, but their shooting at 500 and 600 yards played them in to third position at the finish.

The New Yorks' score was 1,093; the Canadians,' 1,077.

ROBBED THE COACH

MOUNTED HIGHWAYMAN GETS AWAY WITH A LARGE HAUL.

Sydney, N. S. W., Sept. 2.—A masked cyclist last night held up the White Cliffs-Hilcania mail coach, wounded a passenger, secured the mails and opals valued at $1,400, and escaped.

TORONTO EXHIBITION.

Toronto, Sept. 3.—The reaction from the slough of despond in which the Industrial Exhibition was sunk last week came yesterday and came like a vast tidal wave. The number of people who passed through the gates reached, in round figures, 83,000, and Citizens' and Labor Day of 1901 ranks as the second greatest day in the history of the exhibition, being surpassed only in 1898, when 87,000 people visited the fair in one day.

PICTOU LIBERALS.

Halifax, N.S., Sept. 3.—The Liberals of Pictou, in convention yesterday afternoon, nominated Messrs. E. M. MacDonald, M.P.P.; George Patterson, barrister, of New Glasgow, and Robert Dewar, manufacturer, of Barney's River, as their candidates for the coming local election. Messrs. Patterson and Dewar are new men in politics.

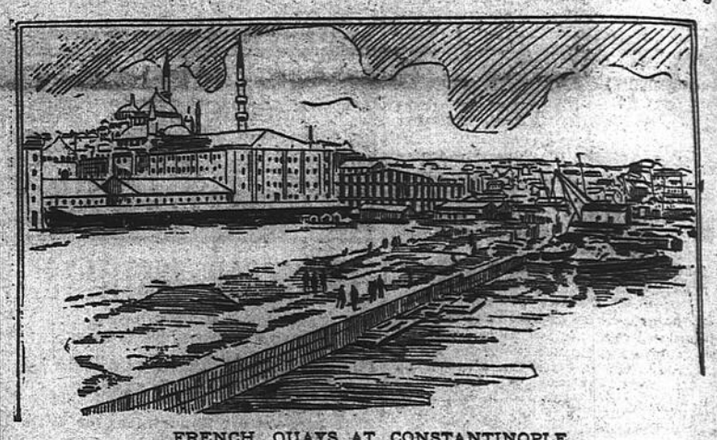

MUNIR BEY LEAVES FRANCE

DISREGARD OF STRAINED RELATIONS RESULTS IN A DISTINCT SNUB.

Paris, Sept. 2.—The result of Munir Bey, the Turkish ambassador to France, coming to Paris, in spite of the rupture of Franco-Turkish relations, and holding a fete in the most open way at the Turkish embassy yesterday in honor of the anniversary of the Sultan's accession to the throne, was that the French Government sent him a request to leave France immediately. Munir Bey departed for Switzerland in the evening.

Advices received here from Turkey indicate a disquieting internal situation. Disorders and military uprisings are reported in Armenia, Macedonia and the neighborhood of Mecca. The son of a high functionary was carried off by brigands near Adrianople. The brigands fought a bloody engagement with the troops sent against them. A despatch from Salonica says that Nouri Bey, aide de camp of the Sultan, who was sent to investigate the brigandage in Albania has been killed by Albanians.

It is also said that the Turkish troops

FRENCH QUAYS AT CONSTANTINOPLE.

Which were the chief cause of the ultimatum delivered to the Porte by M. Constans.

at Prisrend, Albania, and Uskub, are rioting because they have not been paid.

M. Constans, the French ambassador to Turkey, had another conference today with the French Foreign Minister, M. Delcassé. The government of France is determined to compel Turkey to fulfil her entire obligations. Unless the Sultan shall yield soon he will find the bill against him increased by a number of other outstanding claims of Frenchmen, which will make an appreciable addition to the sum now demanded.

Paris, Sept. 3.—The 'Matin' announces that it has received from a source alleged to be authoritative in Constantinople information to the effect that the Sultan, relying upon the assurance of a great power that France will not proceed to force, will refuse any concession in the Constans affair.

Constantinople, Sept. 2.—The report that the Sultan has appealed to Germany to use her good offices to settle the dispute with France is confirmed. Germany, it is understood, will advise the Porte to settle with France as soon as possible.

Paris, Sept. 3.—It was rumored last night that a naval division will be ordered to Turkish waters to-day.

Munir Bey will only return to Paris against the wishes of the French Government unless the dispute is settled.

Constantinople, Sept. 3.—Munir Bey, Turkish Ambassador to France, wired the Porte on Saturday that he had strong hopes that a settlement of the Franco-Turkish difficulty would be reached which would preserve the dignity of both governments.

M. Delcassé, French Minister of Foreign Affairs, on the contrary, wires M. Bapst, councillor of the French Embassy, categorical instructions to take no steps to show that the relations between the two countries were modified.

MR. TARTE IN TORONTO

HE EXPLAINS WHY THE WOLVIN SCHEME WAS TURNED DOWN.

Toronto, Sept. 3.—The Hon. J. Israel Tarte made a vigorous speech yesterday at the launch from the Polson shipyard of the new suction dredge to be used by the government in the deepening of the St. Lawrence channel below Montreal. The dredge, its builder announced, is the largest hydraulic suction dredge in the world, and a similar one will be built for work on the British Columbia coast. The vessel was launched sideways, and Mrs. Polson christened it the 'J. Israel Tarte,' as it struck the water.

Mr. Tarte, in a speech after the launch, made a plea for the establishment of more shipbuilding yards. It had been to encourage shipbuilding that he had come to Toronto on behalf of the government, and given 'this politically heretical city' an order for the greatest dredge of the sort in the world. He hoped the capitalists of Toronto would not let the yard remain idle after it was through with the government work.

Mr. Tarte, continuing, explained at some length the Wolvin proposal for building elevators and shipping grain from Montreal, and said he had rejected it because when he asked the syndicate if the ten vessels to be used would be built in Canada, the agent replied: 'Decidedly not.'

Mr. Tarte said he could not stand that, and the crowd at the launch cheered and shouted 'good boy.'

In closing, he urged that Canadian capital step in and provide shipping for the carriage of Canadian produce.

SHIPBUILDING PLANT FOR SYDNEY.

Halifax, Sept. 2.—A Sydney special to the 'Chronicle' says: 'A gentleman prominent in commercial and industrial circles told the 'Chronicle's' correspondent that he felt absolutely certain that a steel shipbuilding plant, headed by Swan & Hunter, of Walls-end-on-the-Tyne, would be established in Canada within two years. The plant would probably be operated under the direction of Swan & Hunter, though Canadians would supply the greater part of the capital. Swan & Hunter devoted their attention to passenger and freight steamers and dry docks.

TWO SUSPICIOUS DEATHS.

Midland, Ont., Sept. 3.—The body of a man was found floating in the bay here near Playfair's mill yesterday. The body was too badly decomposed to be identified, but from papers found in the clothing it is supposed to be that of Edward Delaney, a lumber inspector of Bradford. The authorities at Bradford have been communicated with.

Harriston, Ont., Sept. 3.—Jacob Seifert, of Jerusalem, a village near here, was advised by telegram recently that his daughter, Elzie, had been drowned in Chicago, and was asked to forward $200 to cover the expenses of sending home her body. Instead, he went himself, and after great difficulty, succeeded in finding the remains of his daughter. The girl had been employed by Dr. Buchan, as a housekeeper. On Aug. 15 she received $75, and went out to bank some of it, and sent the balance to her parents. She disappeared, and a few days later her body, badly decomposed, and wearing an old wrapper was found, lying face downwards in a pool. A coroner's inquest was held, and notwithstanding the suspicious circumstances in connection with the affair, a verdict of found drowned was rendered. Mr. Seifert has returned home heartbroken, and with no hope of any further steps being taken to clear up the mystery.

ONTARIO LUMBER LAW

RESTRICTIONS FORCING ANOTHER FIRM TO LEAVE MICHIGAN.

Windsor, Ont., Sept. 2.—It is probable that the Eddys, the big sawmill firm of Saginaw, Mich., will follow the Saginaw Salt & Lumber Company to Sandwich, Ont. In a few weeks these two big mills will have cut up all the logs on hand at Saginaw, when the lumber industry of that section will become a thing of the past, killed by United States tariff restrictions and the retaliatory measures of the Canadian Government.

The Saginaw Salt & Lumber Company already have a large boom a short distance below Sandwich, and will soon begin the erection of the mills and buildings, with which they will begin operations early in the spring. The buildings equipped will cost two hundred thousand dollars, and will give employment to over a hundred men. Two rafts, containing three million feet of lumber, have arrived from Parry Sound for their first cut next spring.

MURDERED BY MONKS

PRIOR OF MONASTERY LOSES HIS LIFE BECAUSE HE HAD OFFENDED THEM.

St. Petersburg, Aug. 22.—The prior of the famous Russian Blagovestchensk Monastery, near Nijni Novgorod, has been murdered, and his murderers, it is thought, may be found among the monks. The prior had a premonition of death, and the hour before his murder he spent before an icon praying that he might be spared a violent death. The safe in which he kept the monastery funds was robbed. The prior had made himself disliked by the monks by condemning their vicious lives and imposing heavy penances.

MORE FIGHTING IN THE PHILIPPINES.

Manilla, Sept. 2.—Colonel Gracias, two other officers and fifty men were killed in the recent engagement, lasting three hours, in Batangas Province between Captain Harry C. Hale, with a detachment of the Twentieth Infantry, and the insurgent leader Gonzalez. Many deserters and renegades were seen and heard giving commands in English. Everything points to the early capture or surrender of Miguel Malvar, the insurgent leader. When either event occurs everything will be favorable to the establishment of permanent peace. Each day shows an increasing number of surrenders and captures in all the disaffected districts.

NEW INTERNATIONAL BRIDGE OPENED.

Winnipeg, Sept. 3.—A Beaudette, Minn., despatch says the international bridge there was opened on Monday night at six o'clock, when the first engine ran across. The enthusiasm on the part of the citizens of Beaudette and Beaver Mills was great. The bridge is a grand piece of work and will always be one of the interesting points on the new Canadian Northern Railway.
