REBELS CAPTURE TAMPICO; OPENS WAY TO CAPITAL

Control Seaport and Will Now Be Able to Secure Arms and Ammunition. United States War Vessel Ordered to Tampico to Protect American Interests. Americans Release Seventy American Murderers, Who Are Now With Bands Plundering the Country. Sir Edward Grey Has No Belief in Mediation.

Washington, May 14.—(Special)—Secretary of the Navy Daniels has given Rear-Admiral Mayo full power to send an American battleship back up Panuco River to Tampico if in his judgment conditions should warrant such action. Admiral Mayo further reported that the Federal troops blew up their barracks before retiring from the city. By four o'clock yesterday afternoon, he said, the firing practically had ceased.

BRIEF REFERENCE TO MEXICAN SITUATION.

Berlin, May 14.—(Special)—Only brief reference to the Mexican situation was made by Gottlieb von Jagow, the German Foreign Minister, in his survey of Germany's foreign relations, addressed to the Imperial Parliament to-day. He said the German Government was gratified that the Government of the United States had decided to accept the mediation proffered by Argentina, Brazil and Chile.

SICK AND WOUNDED AT NEW YORK.

New York, May 14.—(Special)—The naval hospital ship Solace, which reached quarantine early this morning, docked at the Brooklyn Navy Yards to-day with 101 patients aboard from Vera Cruz. The ship also brought the bodies of Henry Pulliam and Clarence R. Harshberger of the Navy, men who died of wounds received incident to the occupation of the Mexican city. There were on board the vessel thirty-one wounded. The remainder were suffering from disease contracted in Mexico.

MEXICAN MURDERERS RELEASED.

Vera Cruz, May 14.—(Special)—A friendly Mexican army officer has informed General Funston that seventy Mexicans imprisoned in the prison of San Juan de Ulua were released by the Americans and are now in Vera Cruz or with the bands that are plundering the country beyond the American outposts.

The seventy murderers, who gained their liberty, simply took the names of recruits whom they terrified into silence. It has not yet been disclosed, but it is believed, that some of the Mexican keepers and guards aided them in this matter.

The recruits who were left were shut in the cells and ticketed as the dangerous prisoners.

TAMPICO FALLS INTO HANDS OF REBELS

Washington, May 14.—Tampico fell into the hands of the Constitutional-

ists under command of General Pablo Gonzales yesterday afternoon. The day had practically exhausted their ammunition and after heavy losses on both sides, the Mexican federal forces, under Gen. Garza, evacuated the city, retreating westward over the railroad leading to San Luis Potosi. At the same time two of the three Mexican gunboats retreated eastward down the Panuco river emerging about two o'clock and anchoring near the foreign warships outside the breakwater.

The Constitutionalists entered the city early in the afternoon. The fighting continued while the victors under General Gonzales were driving the rear guard of the vanquished federalists from the Plaza to plaza towards the garrison.

The retreat of General Garza's forces towards San Luis Potosi will be followed by another engagement between Tampico and that place. Another flying column of Constitutionalists, under command of General Tarrero Torres and Gen. Candida Aguilera have cut the railroad between Tampico and San Luis Potosi, and will seek to give battle to the retreating federalists of Gen. Garza's command.

GEN. MAAS DEPOSED

Washington, May 14.—News reached Washington through official sources last night that General Navarette, one of the highest ranking officers in the Mexican Federal army, had taken command of the forces outside of Vera Cruz, superseding General Maas.

MEDIATORS MEET

Washington, May 14.—First formal steps in the programme of mediation in the Mexican problem were taken here yesterday. Justice Lamar and Frederick W. Lehmann, together with their secretary, H. Perceval Dodge, who will represent the United States paid their respects to the three South American envoys who have undertaken by diplomacy to solve the Mexican question. The representatives presented by Counsellor Robert Lansing, acting secretary of state in the absence of Mr. Bryan. It was a call of courtesy but paved the way for informal conferences in advance of the first meeting at Niagara Falls Ont., next Monday.

MEDIATION WILL NOT AVAIL

London, May 14.—The Standard says that Sir Edward Grey, British secretary for foreign affairs, has had under consideration a despatch from Sir Lionel Carden, the British minister at Mexico, dealing exhaustively with the whole Mexican situation. This is to be submitted to a cabinet meeting, together with the foreign secretary's notes thereon.

It is understood, according to the Standard, that Sir Edward Grey advises that no useful purposes will be served by South American mediation and that he will indicate a line of policy which will go far to minimize the possibility of further bloodshed.

ONE MILITANT TO ANOTHER

"General" Flora Drummond Asks Protection of Sir E. Carson Against Arrest

ASKED FOR HIS PROTECTION FROM ARREST FOR CAMPAIGN OF MILITANCY.

London, May 14.—(Special)—"General" Mrs. Flora Drummond, leader of the militant suffragettes, this morning pitched her camp on the doorstep of Sir Edward Carson's residence in Eaton Place and informed the Ulster leader that she, as a militant, had come to him as another militant to seek his protection from arrest.

Mrs. Drummond had been summoned to appear in court this afternoon in connection with the campaign of militancy, and she had made up her mind not to appear before the magistrate.

BOARD OF TRADE ACTIVITIES

General Meeting Called For Next Week to Discuss By-Laws

INDUSTRIAL SITUATION — LESS UNEMPLOYED THAN IN OTHER CANADIAN CITIES—THE ICEMAN'S CONTRACT.

The meeting of the council of the Board of Trade held last night dealt with a number of matters of importance.

THE BY-LAWS.

The meeting last evening discussed three by-laws which are to come before the ratepayers on the 26th. It was decided to call a general meeting of the board for next Wednesday evening to consider these by-laws. Though no action was taken last evening, the council of the board seemed generally favorable to the measures. They felt that the important results which might accrue from the introduction of a first shop factory justified the aid to the J. H. Hamilton Co. In the case of the Canadian Rand, the company has so greatly exceeded the conditions of its earlier contract with the city, it was felt that a fixed valuation of \$100,000 for municipal taxes only was not unwarranted. In the case of the C.P.R., five years have passed since the City Council entered into an agreement with the company. The company has made its improvements on the strength of that agreement, and there seemed to be a strong feeling that the citizens were under a moral obligation to endorse the arrangement, which still had five years to run, in view of the fact that the vote has been so long delayed.

CLEAN-UP WEEK REPORT.

The secretary reported that clean-up week had been a marked success. A general awakening seems to have taken place. From 1,200 to 1,500 loads of refuse were delivered at the different dumping grounds, and it was pointed out that any one who doubted that there had been a clean-up could be convinced by making an inspection of the dumping grounds. The good work which the city had done was most favorably commented upon and a hope expressed that they would keep it up. There is more cleaning to be done, however, and the Board of Trade is still supporting the health department in its efforts. An expression of appreciation was made for the good work of Dr. Pariseau, and especially for his lectures held under the auspices of the Board of Trade.

THE INDUSTRIAL SITUATION.

Mr. Steele gave out an interesting word sketch of the industrial situation, the most pleasing part of it being his remarks to the effect that the industries lately started were doing remarkably well. One of these is already talking about extensions. Three or four important new concerns are now favorably considering Sherbrooke. The financial depression in the States may retard their decision to come to Canada, somewhat. American concerns are said to be now using all the orders they can secure in Canada to keep their home factories going, very few of which are now running to full capacity.

TIMES NOT SO BAD IN SHERBROOKE.

The rumors current on the street with regard to the laying off of hands in Sherbrooke appear to be much exaggerated. It is very true that orders are not rolling in to the Sherbrooke factories at an abnormal rate, but it is not true that things are dead. No one need be out of work who has ability and is willing. If a man is not able just now to find work in his particular trade, still his powers of application and industry can find a market, and at good prices. The new factories starting up are about to take place will take care of any men who may be temporarily unable to get work in their favorite lines. Sherbrooke to-day is perhaps better off than any other industrial city in all Canada.

THE ICE COMPANIES.

The secretary was instructed to look into the interpretation of the rule established by ice companies not to furnish ice at intervals to parties who were not regular customers. It was felt that such a condition, if really existing, was unfair to the public and that an effort be made to have it changed, as the company's rule as interpreted would mean that families cannot obtain ice except under contract for a month or more. It is felt that this would be a decided hardship for poor families in the summer. The board will further investigate the matter.

THE HOUSING QUESTION.

The chairman of the housing committee felt that the board should go slowly with this question, owing to the fact that no stringency existed. Mr. Skinner was of the opinion that there was no better time than the present to go ahead, because the construction work would be a benefit to the city. He was sure the houses would be taken up and if, as a result, others were vacated, it would be the worst class of these, and proprietors would wake up to the fact that the standard of homes in Sherbrooke had risen—that they must improve their premises or go without tenants. It was finally decided that a definite plan be worked out which could be brought into effect when the opportunity time was at hand.

LABOR SITUATION.

As referred to above, the investigation of the board showed that there was no large number of men out of work. (Continued on page eight.)

With the date of the vote definitely fixed both parties may now plan their campaign.

OLD MAN BURNED TO DEATH

Hamilton, Ont., May 14.—(Special)—Alexander Ross, aged 87 years, was burned to death in a fire which started in the home of his brother, David Ross, 107 North Bay street, shortly before 2 o'clock this morning.

The fire started in the victim's room on the second floor of the house, and was evidently started from a coal oil stove.

DEBATE ON C.N.R. UP IN COMMONS

W. F. Nickle, M. P. For Kingston, Makes Slashing Attack on Sir W. Mackenzie

DOES NOT TRUST HEAD OF C.N. R. AND WOULD NOT GO INTO PARTNERSHIP WITH HIM.

Ottawa, May 14.—The debate on the resolution setting forth the agreement between the Government and the Canadian Northern Railway, by which the bonds of the railroad are to be guaranteed to the extent of \$45,000, commenced yesterday afternoon. There were four speeches. Premier Borden set forth the reasons for the action taken and the concessions secured, a reply from the leader of the Opposition, expressing disapproval of certain features of the agreement, a reply from Hon. Arthur Meighen, and finally a speech by W. F. Nickle, Conservative member for Kingston, who disagreed with his party and advocated that no action should be taken without a more comprehensive investigation into all the affairs of Mackenzie and Mann.

Mr. Nickle's speech was marked by straight opposition to the Government's proposals. He favored the Government taking over the C.N.R. and the National Transcontinental, and operating them as Government roads. His speech had been carefully prepared and was followed with the closest attention by the leaders of both sides of the House.

ATTACK ON SIR WILLIAM MACKENZIE.

The feature of his speech was a sensational attack upon Sir William Mackenzie, president of the C.N.R. He quoted from the Kingston Whig a statement that Sir William was a favorably disposed towards Kingston because of the attitude taken by himself as member upon the C.N.R. proposals. He charged further that Sir William had threatened that no orders would be given to the Kingston Locomotive Works on this same account. Some of the references to Sir William were bitter and biting.

"Are the representatives of the people being deceived?" asked Mr. Nickle. "Better that I should be out of public life than that Mackenzie and Mann should put their fingers on my throat."

Mr. Nickle said, further, that on one occasion Sir William had said to him: "Why don't you go over to the Opposition. There is no room for independence in Canadian politics."

"I would rather go down to honorable defeat at the next election if I am a candidate, than be in Sir William Mackenzie's shoes," said Mr. Nickle. "He has adopted the tactics of a South African savage who blows a poisoned dart into the back of his unsuspecting enemy. Some one behind me laughs. Let him stand where I have stood for the last three weeks and he will not laugh."

Mr. Nickle asked what democracy was coming to when the moneyed plutocrat could attempt to throttle the representatives of the people. If there was no room for independence in Canadian politics he would prefer the freedom of an elector to the fetters of the elected.

"I am opposed," he added, "to going into partnership with Mackenzie and Mann, just as I would be opposed to going into business with a man I do not trust. I believe that they will do the Government in the end."

It was evident that the member for Kingston felt his position in disagreeing with his party somewhat keenly, and at times he showed emotion.

Sir William Mackenzie was present at the debate in the speaker's gallery during the speeches of the Premier, Sir Wilfrid Laurier, and Hon. Arthur Meighen, but had left before Mr. Nickle rose to speak.

NEW SCHOOL BUILDING

Protestant Ratepayers Will Meet School Commissioners and Discuss Question

MEMBERS OF BOARD ARE DIVIDED AS TO WHETHER THERE SHOULD BE ONE OR TWO BUILDINGS.

A meeting of the Protestant ratepayers of the city will be held on Friday evening, the 22nd inst., in the High School, Queen street, at 8 p.m., to meet the School Commissioners and to discuss the question of increased accommodation.

This matter has been occupying the attention of the Board for a long time. The present school is inadequate to accommodate the present number of pupils, and in view of the rapid increase in the population of the city, it is admitted on all sides that some addition or rearrangement is absolutely necessary and that steps should be taken immediately towards this end.

A short time ago the chairman of the Board, Mr. J. A. Tate, visited Boston, in company with Mr. J. M. Jencks, another member, in order to inspect the Boston school system and to interview the noted firm of architects who specialize on school plans.

As a result of this visit, Mr. Logue came to Sherbrooke and conferred with the School Commissioners with reference to the scheme for rebuilding. He subsequently submitted plans in connection with the project, and these have been under the consideration of the Board on several occasions.

It is understood that the members of the Board are divided in their opinion as to the course to pursue. Three members are in favor of remodeling the present school and making an addition thereto, so as to have the high school grades and the elementary section under the same roof. The other two members believe that the higher grades and elementary department should have separate buildings in accordance with the system in vogue in large and progressive cities. They therefore support the idea of building a separate high school, and remodeling the present building on modern lines for the lower grades.

Owing to the importance of the question and the division of opinion amongst the members of the Board, they have decided to submit the matter to the ratepayers for a free and full expression of their views at the meeting on the 22nd inst.

GERMANY AND FRANCE IN HAITI

Both Countries Will Collect Money Due Citizens by the Haytian Government

UNITED STATES WOULD NOT AGREE TO AN INTERNATIONAL CONTROL OF THE REVENUES

Washington, May 14.—Following a refusal by the United States to agree to a suggestion of international control of the revenues of Haiti, the Governments of Germany and France are believed by officials here to have determined to adopt their own course with reference to the collection of money due to German subjects and French citizens by the Haytian republic.

In official circles the fear is expressed that these two European nations intend to assume charge of Haitian customs houses with the purpose of holding them until sufficient revenues have been collected to satisfy the German and French holders of Haitian bonds. But in other quarters, regarded as able to speak with authority, this idea is rejected as impossible.

In the view of United States officials, a serious problem confronts the Government in connection with Haiti. These officials are inclined to believe that it is nearly as grave as the Mexican crisis and even more pressing. Though the United States has not determined what it will do to avert possible European control of Haitian affairs, with all the dangers involved in such a situation the chances are that the matter will be adjusted by an arrangement between the Government of the United States and Haiti for the collection and distribution of Haitian revenues by the Americans.

Blue-jay Ends One Half the Corns

Do you know that nearly half the corns in the country are now ended in one way? Blue-jay takes out a million corns a month. It frees from corns legions of people daily. Since its invention it has ended sixty million corns.

The way is quick and easy, painless and efficient. Apply Blue-jay at night. From that time on you will forget the corn.

Then Blue-jay gently undermines the corn. In 48 hours the loosened corn comes out. There is no pain, no soreness.

Don't pare your corns. There is danger in it, and it brings only brief relief. Don't use old-time treatments. They have never been efficient. Do what millions do—use Blue-jay. It is modern, scientific. And it ends the corn completely in an easy, pleasant way.

The L.T.L. will meet at the Acorn School house on Saturday next in the afternoon.

The annual meeting of the W.C.T.U. for the election of officers was held in the Temperance Hall, on the 5th inst., and resulted as follows: President, Mrs. F. A. Cutter, re-elected; 1st Vice-President, Mrs. F. J. Hayden; Cor.-Sec., Mrs. F. Eland; Treasurer, Mrs. K. Hill. The report of the Secretary for the year's work was as follows: The membership roll showed 103 members and 30 honorary members; of these seven members had joined the newly-organized Abercorn Union, as they resided there and one member and one of the honorary members was called to "the Rest that remaineth for the people of God." Twenty regular and two special meetings were held through the year. Five public meetings were held which were well attended. 23 large boxes of flowers were sent to the Montreal Flower Mission, for distribution among the poor and in the hospitals; 15,656 pages of literature of an interesting nature, in which temperance leaflets were enclosed, were sent to the Brome County Fair, and a large box of literature was sent to Scotland for the lumber camps, and 18 departments were worked. The report of the Treasurer showed that \$72.49 had been paid out. Among the items given were the following: \$24 paid for membership fees to the Provincial W.C.T.U., and it is a notable fact, considering its population that the Sutton Union pays the largest per capita tax to the Provincial Union of any other Union outside Montreal, in the Province of Quebec, and only one other Union in Montreal exceeds it in that respect; \$9.50 was sent to the County Union; \$15 to the Dominion Alliance; \$4.00 was sent to the North West Mission and other work of the kind received its quota, and a goodly sum was spent for literature. in many cases the awakened temperance sentiment that seemed to pervade the village and its outlying environment. HEART TROUBLE

When uric acid is dissolved in the blood it thickens the blood almost to a jelly; this is what causes the heart to flutter and seem to stop because it is weakened by the strain uric acid puts on it. Anti-Uric Kidney Pills drive out all uric acid poisons from the system. They are quick and safe and guaranteed by Dr. Chagnon. See that the name B. V. Marion is on the package.

A Brick Limerick

The ancients had trouble to make their bricks,
Without using straw for a binder,
Since those times, the people have learned some tricks,
And the task-masters, too, have grown kinder.
But, alas! you will find, it is true of to-day,
And this we have learned from our mascot,
That good bricks can only be made from good clay,
And the good clay is all in the Corner of Ascot.

LETTERS TO THE EDITOR

PUPILS OF SCHOOLS AND THE PATRIOTIC EXERCISES, MAY 21.

Editor of Record.

Dear Sir:—It is the aim of the Daughters of the Empire to create in our community, through the pupils of our schools, a deeper feeling of patriotism and loyalty. As a step towards this goal, they send forth a cordial invitation to all the pupils of the public schools of Sherbrooke and Lennoxville to take part in patriotic exercises on the evening of May 21. A number of short addresses have been arranged for, and a full programme of the proceedings for the evening will appear at a later date.

Through the kindness of the officers of the 53rd Regiment, it has been made possible to hold these exercises in their Armory at a time when the regiment will be in full attendance.

The patriotic chorus will be under the direction of Prof. Badin, who has kindly consented to take charge of the singing. The Regimental Band will be in attendance.

Thanking you for your valuable space, I am,
Yours sincerely,
FLORENCE J. PURDY,
Regent of the Children of the Empire.

SIR WILFRID LAURIER RECEIVES FELICITATIONS FROM PARTY.
Ottawa, May 14.—Sir Wilfrid and Lady Laurier celebrated yesterday the forty-sixth anniversary of their marriage. The Liberals of Parliament presented their felicitations to their chief and to his "chief adviser" in the form of forty-six of the most beautiful roses that the Capital could provide.

The married life of the Liberal leader and of his helpmate through nearly half a century has been an ideal one. On May 13, 1868, Wilfrid Laurier, then a struggling barrister of Arthabaskaville, married Miss Zoe Lafontaine, of Montreal. Sir Wilfrid has since often borne eloquent testimony to the constant help she has ever been to him in every step of his honorable career up to the highest place in the land.

MARRIAGES

HARMER — BROWN.

A very quiet wedding took place at Belvidere on Tuesday, May 12th, at noon, the contracting parties being Miss Myrtle Louise Brown, daughter of Mr. and Mrs. Robert Brown, and Mr. Edwin Harmer, of Sherbrooke, the Rev. Mr. J. C. Nicholson officiating.

After the ceremony and congratulations, refreshments were served. The bride who looked very nice in her travelling suit, was given away by her father, and was unattended. Owing to a recent bereavement in the bride's family there were no invitations issued, only immediate relatives being present.

The young couple were the recipients of many useful and valuable presents.

The happy couple left on the C.P.R. for Montreal, amidst a shower of rice and good wishes for their future happiness.

VUDOR PORCH SHADES

Watch for the big full page adv. in Saturday Evening Post of May 14th. This one advertisement for only one issue costs \$5000.

During the next sixty days the manufacturers will spend \$30,000,00 advertising Vudor Porch Shades.

If the quality, style, finish and durability of these shades were not vastly superior to all others, they would not feel justified in spending such large amounts.

Vudor Porch Shades are just the thing for "boxing in" porches or balconies that are to be used as outdoor sleeping or living apartments.

Vudor Porch Shades are made of thin, flat strips of wood of the kind that best endures out-of-door exposure. These strips are closely bound together with Seine Twine, in a lock-stitch weave.

They are artistically stained in soft, pleasing colors. These colors are weather proof, and will not fade or crack off.

The shades can be instantly raised, or lowered (operating on the principle of a theatre curtain) and are easily and readily put up.

One price to everybody no matter what quantity. 4 ft. wide, \$2.75; 6 ft., \$4.00; 8 ft., \$5.50; 10 ft., \$7.50. Two colors, Dark Green or Mottled Lemon. They are all the same drop, 7-8 ft. For prompt shipment enclose cash with mail order.

TREMBLAY WON FROM JARRY

Took Two Straight Falls After Fifty Minutes of Strenuous Wrestling

JARRY WAS ON DEFENSIVE ALL THROUGH—SMALL ATTENDANCE

Eugene Tremblay, the world's champion lightweight, took two straight falls from Jarry, at the Monument National, last night.

A small attendance was on hand but they witnessed one of the best wrestling matches ever seen in Sherbrooke. It took thirty-two minutes of strenuous wrestling before the champion pinned Jarry's shoulders to the mat for the first fall with a head and arm lock.

After a rest the wrestlers came back strong, and some first class wrestling was witnessed before Tremblay won the decision with a half nelson and leg hold in twenty minutes.

Jarry was inclined to mix things, evidently with the idea of worrying Tremblay but the latter kept his head and showed up to advantage in the tight places. Only once or twice during the match did Jarry have him in a tight place and then he showed cleverness in extricating himself. Jarry wrestled on the defensive throughout.

CITY LEAGUE LACROSSE

At Least Four Teams Will Apply For Admission To-morrow Night

ALL TEAMS WILL BE STARTED ON EVEN FOOTING AS REGARDS SENIOR MEN

At least four teams have been organized and will apply for admission at tomorrow night's meeting of the City League. There should be no hitch at the meeting and the result will no doubt be the formation of a strong city league.

Many are of the opinion that a strong city league would be a greater attraction this year than senior lacrosse, as the teams will be evenly balanced, from three to four senior men figuring on each line-up. These players will give the benefit of last year's experience in senior company to the youngsters, and next year should see no scarcity of senior players if Sherbrooke decides to have another trial in the big show. The lack of experienced men was responsible for Sherbrooke having to drop out this year.

THE COST OF NEWSPAPERS

(Toronto Globe)

An interesting and informing discussion as to the cost of making newspapers has followed upon the action of the publishers of the Winnipeg Free Press and Telegram in increasing the price of papers delivered to their Winnipeg subscribers from six to ten cents a week. The Ottawa Free Press makes a vigorous attack on the publishers in Montreal, Toronto and Winnipeg, who send out tens of "slaughter price" newspapers every day, and says "it is difficult to see how the Post Office Department can maintain that a newspaper which contains from \$3 to \$5 worth of white unprinted paper is not being sold at a nominal price when subscriptions are received by the publisher at \$1 or less. It might be noted by the Department also that some of these identical newspapers for subscriptions in their home cities find it necessary to increase the price to \$5.20 a year."

The Brantford Expositor takes the view—which is emphatically endorsed by the St. Thomas Daily Times—that the time is close at hand when an increase in the subscription price of newspapers will become necessary. There are few newspapers, it is argued, which are sold at present at anything like actual cost, and the discrepancy between the cost of the white paper supplied the subscriber and the amount the latter now pays for his newspaper is constantly increasing by reason of the larger-sized newspapers which are being published.

Naturally the papers engaged in the Montreal newspaper war discuss the matter in a decidedly frank way. The Montreal Star is believed to be hostile to any increase in the cost of carrying papers by mail because it has a very large dollar-a-year list. The Daily Mail, which does not love the Star, asks "why the Government should overburden its mails with large quantities of out price journals, claiming to be newspapers, but consisting mainly of advertising, which does not advertise as it claims to do, and is anomalous and unfair to legitimate newspapers. As opposed to this condition, the Postmaster-General, Hon. L. P. Pelletier, who has shown every disposition to do what is right, has the warrant of the majority of the Canadian newspapers to move in the direction of stopping a grave abuse. Such a stop, it may be pointed out, would assist the citizens of Montreal, at the present time in their emphatic refusal to be dominated by a monopolistic press."

Setting aside all personal differences and business feuds, it is assuredly true that the newspaper subscriber

At a cost of a few dimes—not often a great many of them—this tenant may be found. Thus, with an available room to sublet, and a "Furnished Rooms to Rent" advertisement, that WEEKLY INCOME may be secured.

FORWARD STEP FOR TIPPING BILL

Measure Was Put Through the Committee Stage of The Senate

WAITERS IN LARGE CENTRES HAVE EXPRESSED THEIR APPROVAL OF THE BILL NOW UNDER CONSIDERATION

Ottawa, May 14.—The Senate gave the bill against tipping a long step forward yesterday by putting it through the committee stage. Senator Davis, the author of the bill, said he thought there should be no amendment which would make a distinction between the penalties provided against employers and employees. He would not like to see a boy or girl who took remuneration for helping a rich person in a hotel fined \$25 or \$50 or sentenced to a term in jail. If employers were under penalties they would see their employees took no tips. The Senator said that in Winnipeg and Montreal waiters had formally expressed their approval of the bill.

Senators Choquette and Boyer thought there might be difficulty in enforcing the law, the latter also also doubting whether Parliament would be adding to its dignity by enforcing such legislation.

On motion of Senator David, of Montreal, the bill was amended by declaring that it should not apply to "servants in private residences."

CHAMPIONED

WIDOW'S POSITION

Liberal Members Enter Many Protests in Relation to Imperial Naturalization Bill

POINTED OUT THAT UNDER MEASURE BRITISH WOMAN LOST RIGHTS IF SHE MARRIES AN ALIEN.

London, May 14.—The Imperial Naturalization Bill, which has already passed its third reading in the House of Lords, was yesterday introduced in the Commons. The Colonial Secretary, Mr. Harcourt, having explained the purport of the measure, was literally bombarded with protests by several Liberal members, who championed the widow's position. It was pointed out that under the bill a British woman who married an alien lost all rights as a British citizen. Even though her husband died within a year of their marriage and she never left these shores she was an alien for the rest of her days unless she went through the rather formidable process of naturalization.

Mr. Harcourt promised to see if arrangements could be made for a simplification of the process to enable her to regain her British nationality.

HUMAN OPERATION PERFORMED ON CAT

Veterinary Makes Unique Experiment to Save Tail of Feline

A unique operation was performed in Toronto when the fractured bones in the tail of a cat were sewn together with silver wire and the tendons caught and rejoined with retractor tendons. The operation was carried out in the same manner as if human bones were being treated, and the experiment is believed to be successful. The operation is the first of its kind to be made in Canada, so far as is known. The cat, known as Prince, was caught in a swinging door. The feline's tail was broken at the third joint and was set in splints. In some manner these became loosened and the setting was broken. Owing to the second accident it was almost impossible to save the tail, and it was then decided to operate upon the animal, treating the break in the same manner as human bones. Dr. Morphy placed the feline under the X-rays, and, locating the position of the break, laid bare the tail bone and drilled through the joints in two places, stitching the fracture together with silver wire. The tendons were caught and knotted with retractor tendons and the opening restitched again. The flesh and fur were then sewn over the wound. The cat was placed under an anæsthetic for the operation, which lasted about an hour.

Origin of Blankets

The cold winter of 1340 gave us the blanket. Its inventor, Thomas Blanket, was a Flemish merchant, settled in Bristol, and fallen from affluence to want. He and his wife suffering from the intense cold by reason of scanty bedding and lack of fuel, he searched for something to put on the bed to increase the warmth, and hit on a piece of rough unfinished cloth that had been thrown to waste. Its success as a warmth-giver suggested the manufacture of special bed covers of the same material, and these articles to which he gave his own name, won him wealth and immortality.—London Chronicle.

The Shortest Book Review

The time-honored precept, "The King can do no wrong," inspired one of the most caustic book reviews ever published. When Louis XVIII issued his Voyage à Coblenz, the Constitutionnel gave it a notice of exactly two lines: "If this little volume was written by the king it is above criticism; if not, the work of his majesty, it is below criticism." Contrary to the usual practice of French newspapers, this review was unsigned, and the secret of its authorship has never been made public.—London Chronicle.

FINAL PASSAGE OF HOME RULE BILL

Premier Asquith Announces That
Date Has Been Fixed
For May 31

MEASURE WILL GO THROUGH IN
SAME FORM AS IT WENT ON
TWO PREVIOUS OCCA-
SIONS.

London, May 14.—The Home Rule
bill comes up for its third and final
passage May 31, according to an-
nouncement by Premier Asquith in
the House of Commons.

There was general discussion yester-
day of his further important an-
nouncement that the Government was
willing to introduce an amending bill
to give effect to any compromise
that the Government, the Ulster
Unionists and the Irish Nationalists
could agree upon.

This compromise would have to do
with the Ulster problem, and would
probably be on the lines already
suggested, namely, that the four
Orange counties be given the privi-
lege of remaining outside the scope
of the Home Rule bill for a period
of six years.

The point of the Premier's an-
nouncement is that the Home Rule
bill must go through its third pas-
sage in Parliament in the same form
as it went through two previous ses-
sions in order to become a law
under the Parliament Act without
the indorsement of the House of
Lords.

employment in Sherbrooke. There are
some, however, and the labor com-
mittee of the board has instructed
the secretary to get in touch with the
contractors for the Sherbrooke and
Stanstead road and ascertain par-
ticulars of men wanted and wages of-
fered, and to make this information
public for the benefit of any men who
may be out of employment.

The labor committee, from its in-
vestigations, believes that there is
employment available this summer
for all, and is prepared to render all
services possible to assist men who
are unemployed to obtain work.

BRITAIN UPHOLDS PRES. WILSON

LONDON TIMES SAYS THERE IS
NO DISPOSITION TO SNEER
AT HIS POLICY.

London, May 14.—The Mexico City
correspondent of the Times tele-
graphing from Vera Cruz, compares
Mexico City to Naples under King
Bomba. He says: "Spies are every-
where and summary arrests of Am-
ericans and Mexicans are frequent.
Prominent foreign residents expect
the fall of Huerta through a local
revolution or defeat by General Vil-
la."

In an editorial on the Mexican situ-
ation, the Times says:
"There is no disposition in Great
Britain to sneer at the course Presi-
dent Wilson has followed throughout
the Mexican entanglement—a course
with which his present reluctance to
prepare for war is quite in keeping.
He has shown, as we have always
gladly acknowledged, remarkable pa-
tience, high-mindedness and forbear-
ance in pursuing his ideals."

DELEGATES FROM MUNICIPALI-
TIES THROUGH WHICH HIGH
WAY PASSES MEET AT
BEDFORD.

Bedford, May 14.—(Special)—The
delegates appointed by the various
municipalities through which the
Missisquoi-Brome Government high-
way will pass, met in convention at
the County House at Bedford on
Saturday afternoon.

Mr. Enoch Buzzell was nominated
acting chairman of the meeting. On
motion the following gentlemen were
added to the organization: Messrs.
Claude B. Jameson, C.S. Campbell,
and F.G. Lyman.

A permanent chairman was then
proposed in the person of Mr. Claude
B. Jameson. Ever since the road
question was first introduced, Mr.
Jameson has devoted a great deal of
his time and energy, as well as lent
his personal influence to bring this
important matter before the Premier
and the Government with satisfac-
tory results.

In taking the chair Mr. Jameson
opened the meeting by repeating a
message given to him by Mr. Gose-
lin, the local member, to the effect
that the Minister of Roads, the Hon.
Mr. Tassier told him that the En-
gineers would be engaged on the pro-
posed route by the month of August.
This piece of news was well received
by those present, and later on, Mr.
Goselin verified the statement which
he made to the Chairman, Mr. Jame-
son. The local member is watching
the matter very closely in the in-
terests of his constituents.

Mr. W. F. Kay, M.P., was also
present, and assured the meeting of
his support in their efforts to get
this work started. Mr. Kay suggest-
ed that a small committee be ap-
pointed to take hold of this work,
and endeavor if possible to get the
Engineers on the route by the month
of June.

Dr. Pickel, of Cowansville, also ad-
dressed the meeting and offered many
useful suggestions, and declared that
he was ready to assist in every way
possible to get the work on the road
started.

The following gentlemen were then
unanimously chosen to form an Exe-
cutive Committee: Messrs. Claude B.
Jameson, J.A. Boisvert, C.S. Camp-
bell, Dr. Pickel, R.P. Small, U. T.
Chilton and Louis H. Rocheleau.

PUBLIC LIBRARY FOR BEDFORD
A generous offer has been made to
give the Town of Bedford a Public
library.

An informal meeting to discuss this
question was called at the Academy
on Saturday afternoon, at which
quite a number of citizens were pre-
sent.

Several expressed gratitude and
pleasure of hearing of this proposal,
and all were of the opinion that such
an offer should not be allowed to
slip through their hands.

The amount involved in the gift is
ten thousand dollars, which includes
a building, library books and equip-
ment. The donor makes it a con-
dition that in return for his gift the
library shall be properly maintained
by competent authority.

A resolution of appreciation and
gratitude was unanimously passed
by the meeting, and a committee,
composed of Rev. W. Windsor, Mr.
Marvin Smith and Mr. C.O. Jones,
were appointed to make further in-
quiry and get information on the
subject.

Schools and by other favorite sing-
ers. The public are cordially invited

the Convention which will be held

noon, at St. James' Hall.

ASK PASTOR TO REMAIN.

The official board of the Methodist
Church for Bedford Circuit met on
Tuesday with Rev. G.H. Forde, Su-
perintendent, presiding and a good at-
tendance of the members present
from both the Bedford and Mystic
appointments. The reports for the
year's work were considered most
satisfactory. The following stewards
were elected: Messrs. W.A. Harbison,
J.B. Norman, H.L. Snyder, F. T.
Baldwin, J.E. Watson, Alf. Russell
and Myron Schoolcraft. Mr. F. T.
Baldwin was re-elected Recording
Steward, and was also appointed by
delegate to the District meeting to
be held at Farnham. A resolution
was unanimously passed requesting
that the Pastor, Mr. A.J. Ward, re-

A "Reason Why" Advertisement On Clothing

In reading the many
different advertisements
on clothing, each claiming
to be the best value for the
money, it is small wonder
that all advertising is taken
by the average reader with
a grain of allowance for
the enthusiasm of the ad-
vertiser.

But when you read
our advertisement, we
earnestly urge you to take
every word of it literally.

Each statement we offer,
each claim that we make is
carefully and thoroughly
considered before it is
made, and then when it is
put in one of our advertise-
ments, we stand ready with
our entire organization to
back it up to the limit.

And it is then, this
combination of service and
quality that makes this the
store for you to think of
when you need clothes.

U. S. NAVY TO GO DRY AS OR- DERED.

Washington, May 14.—Secretary
Daniels announced proudly yesterday
that he had Admiral Fletcher's word
for it that out of the 6,000 American
sailors and marines who were landed
at Vera Cruz when that city was
seized, not one was at any time
found drunk or under the influence of

liquor. The Secretary says this
makes a new record for any navy.
"The order will go into effect
July 1," replied Secretary Daniels,
firmly, to an inquiry as to whether
the President disapproved of his
plan to amend the naval regulations
so as to prohibit the bringing of any
intoxicating liquor aboard ship or
into a naval reservation.
