A REFORMATIVE INSTITUTION NEEDED FOR WOMEN.

Montreal Local Council of Women Recommends Government to Establish a Central Institution in the Vicinity of Montreal.

Certain articles upon the subject of reformative treatment for women delinquents having appeared in Montreal papers, it seems wise to lay before the public a brief statement of what is being done towards securing a provincial reformative institution or industrial school for women.

Since 1896 the Montreal Local Council of Women has been at different times actively interested in reformative work. Improvement in the care of women during the interval between arrest and commitment to prison have been secured, and desirable changes, chiefly hygienic, have been made in the Protestant female jail.

In the autumn of 1908 the Local Council of Women was asked to consider the question again. The necessity for action was further emphasized by the Rev. Arthur French's endeavours to promote social purity.

Particular attention should be concentrated on the law-breakers in the class of (for the most part) first offenders, as offering the best promise for improvement, that we desire better provision.

One central institution, thoroughly equipped and administered by trained staff, should be established in the vicinity of Montreal, and have sufficient acreage to provide for the employment of the inmates in agricultural pursuits.

It is desirable that this institution be in the vicinity of Montreal, and have sufficient acreage to provide for the employment of the inmates in agricultural pursuits.

MONTREAL PRESBYTERY

Mission Work Amongst the Jews to be Developed.

The Presbytery of Montreal met this morning at Knox Church. The Rev. A. Bowman, moderator, occupied his chair.

The Rev. Mr. Dickie presented the report of the examining committee, with recommendation of students to the college. The following sessions are entitled to send commissioners to the General Assembly by rotation: St. James, St. Andrew, St. Paul, St. John, Knox Church, Valleyfield, Belleville, Riverfield.

The following ministers have a right to go to the General Assembly in June by rotation: The Revs. A. S. Ross, R. P. Ducloux, Dr. Barclay, J. A. Mitchell, E. H. Brandt, P. E. St. Germain, Dr. Thompson, J. E. Sincennes.

The Rev. J. R. Dobson gave a report on the Foreign Mission in Montreal, especially among the Jews. The committee work among the Jews is being conferring with the Methodist church authorities so as to divide the field between the two churches, so that the Jewish work temporarily is overlapping. Mr. Dobson stated that sixty per cent of the population in the central part of the city was Jewish.

The presbyterian Church withdrew from the Jewish work temporarily a few years ago, but it is felt that duty demands that such work should be resumed in view of the fact that the large Jewish population in Montreal is scarcely touched to-day by any Christian body. Mr. Dobson spoke of the most encouraging work being done among the Jews of Toronto, and said there was no reason why Montreal did not expect similar results in Jewish work in the city.

The committee on the Griffintown district reported on the Presbytery interests in that locality. The report shows that there is a general desire to unite these important interests so that they may be more efficiently worked in this part of the city. The Presbytery expressed its satisfaction at the progress made toward the solution of this long standing problem. The Presbytery is still in session.

EMPHATICALLY DENIED.

London, Nov. 8.—Reuter's Telegram Company has communicated the following to the Canadian Associated Press: 'Reuter's Telegram Company has been requested to bring to the attention of Canadian newspapers the emphatic contradiction of Mr. J. Murray, the Prime Minister of Victoria, of a certain vilifying press report in regard to the resignation of Mr. Thomas Tait, chairman of the Victorian Railway Commission, which was published in Canada on September 28. The Prime Minister states that the resignation was not only voluntary, but is greatly regretted by the Government.'

TARIFF CONFERENCE.

Ottawa, November 8.—There was no meeting of the tariff commissioners this morning, but they will get together this afternoon for a couple of hours. It will be a matter of a few days before a statement is given out, and then it is likely to be in general terms only.

MONTREAL DEPUTATION.

Ottawa, Nov. 8.—A number of Montreal men are here to-day to confer with the government in respect to the accommodation at the detention sheds at Quebec.

WOODS' CASE POSTPONED

Absence of Witnesses Causes Delay of Hearing to Next Friday.

BENCH WARRANT OUT.

Defence Contends That Missing Witness Knows Important Facts.

Much interest was shown this morning in the Woods case, which was due, on postponement, to commence in the Court of King's Bench.

Mr. Crown was anxious to proceed. Mr. Walsh was ready, but the defence was not.

Mr. Crown said that it was his duty to his client to proceed without the presence of material witnesses.

Mr. Walsh said that if the Crown knew what it intended to prove by this witness the Crown might be prepared to admit the facts.

Mr. Crown replied that he had been informed that Mr. Burgess had acted as an intermediary between parties in the case.

'L'AMICO FRITZ'

The two outstanding features in the performance of the above opera at the Metropolitan Theatre last night were so far as the audience in general was concerned, were without doubt the Intermezzo and the love duet of Susel and Amico Fritz in the last act.

The first act had a somewhat grey complexion, and it was only after the Intermezzo had been twice applauded that the audience warmed into appreciation and was prepared to enjoy the duet of the last act, the one purpose of the composition.

It was after the Intermezzo's fame was established by his opera, 'Cavalleria Rusticana,' which was produced in 1890, that he produced 'L'Amico Fritz,' and the critics of the time were kindly to it. The theme is not overinspiring, as it contains few of those contrasts of human experience and passion which induce tears and shudder, as it were, in musical expression.

The 'story,' indeed, is of the thinnest. The characters are 'L'Amico Fritz, who is the equivalent to an English 'gentleman farmer,' David, a Rabbi, who is a good old matrimonial intriguer; Susel, a sort of Maud Muller, but of the type of the 'Caterina'; the dinner is served; Fritz, 'Come, then! to table, Hanezo; but where can Peppe be lingering?'

Frederico is of the type of the 'Caterina'; the dinner is served; Fritz, 'Where are you going? Of course, it sounds different in Italian, and where ignorance of Italian is bliss 'tis folly for an English auditor in such a case to grow wise. But the composer is Italian, and he could hardly get up much enthusiasm for composing to a libretto which is half made up of such common-places.

'L'Amico Fritz' is indeed chiefly worth while in this series of operas as an example among others of the neoclassical school, and in this sense it is educative. It also explains why Mascagni never repeated the success of 'Cavalleria Rusticana,' either in 'L'Amico Fritz,' or in his two latter operas, 'Zantuzza' (1893) and 'Fritz,' produced in 1898. After his first success he ran short of ideas.

There is nothing but praise, however, to be given to the last evening. It did what there was to do at all times with distinction, and when there was the slightest chance, superbly. The 'Susel' of Miss Frischi, the Amico Fritz of M. Ugo Colombini, and the David of Giuseppe Pimazzoni, will long separate themselves in the memory for the individuality of their renderings.

The orchestration was good all through, and the band's work in the Intermezzo was beyond praise, since Azide Jacchini, the director of orchestra, is a great asset to these operas.

The audience was not so large as it should have been, but it was a knowledgeable one and an infectiously enthusiastic.

Mascagni's well-known opera of 'Manon' will be given in French this evening.

ARRANGE FOR WHARE.

One at St. Helen's Island to Cost \$25,000.

An agreement has been reached regarding a new wharf at St. Helen's Island, whereby the Board of Control will recommend to Council that permission be given the Harbor Commissioners to construct a wharf to cost not more than \$25,000. The city is to have exclusive use of this except when it is needed by the Federal Government, and for this privilege is to pay annually five percent interest on the expenditure for twenty years.

TUESDAY, NOVEMBER 8, 1910.

In an address on culture, delivered by Mr. Asquith, the British prime minister, in his Rectorial Address as Rector of Aberdeen University, in the Mitchell Hall, Marischal College, he made this notable exhortation: 'Keep always with you wherever your course may be the best and most enduring gift that a university can bestow—the company of great thoughts, the inspiration of great ideals, the example of great achievements, the consolation of great failures. So equipped you can face without perturbation the buffets of circumstance, the vicissitudes of fortune, the inscrutable vicissitudes of life. Genius apart, Mr. Asquith upholds the old University ideal of the 'all-round' man—not the superficial smatterer who knows something about everything and much about nothing, but one who has not sacrificed to the pursuit of a single dominating interest his breadth of outlook, the zest and range of his intellectual curiosity, his eagerness to know and assimilate the best that has been said or thought, and who is being thought and written and said about the things that either contribute to the knowledge or enrich the life of man. Such culture as this prepares has long been looked upon, like good manners or good clothes, as part of the social and personal equipment of the well-born and well-to-do, but it is only of recent years that its attainment has been within the range of the 'common man.' The ideal, at any rate, is now universally accepted that 'no child shall start upon the work of life unfurnished with the keys of learning, and that in the case of every child whom nature has gifted with brains and ambition, the barriers of fortune and circumstance shall no longer block its progress at any stage of the way which leads to the innermost courts of the palace of knowledge. There are still, of course, many ragged edges and ugly gaps in the way of the attainment of this ideal, but it is good that the ideal is here.

WILL TARIFF 'REFORMERS' CONSENT? While Mr. Garvin in the London Observer is championing devolution, and Lord Milner, another most influential Unionist, is said to be enlisted earnestly in the same cause, the free trade, anti-Socialist, 'middle-class' speaking 'Spectator' trembles at the thought of it, like an old lady crossing the streets. The 'Spectator' proves to its own satisfaction, that what it calls a 'Disunited Kingdom' would be impossible—if for no other reason, on financial grounds: 'The impossibility of disentangling the finances of the four kingdoms, first from each other and then from the new Imperial Parliament. . . Federation is forbidden by finance.' However, lots of things are done that cannot be done. Nearly everything, in fact, has been under that ban. We all know the story of the man in the stocks: 'What are you in the stocks for, my man?' asked a passing lawyer. 'For such a thing,' replied the man. 'But they can't put you in the stocks for that,' proclaimed the lawyer; 'well, I am in!' concluded the man. The 'Spectator's' alternative to devolution or federation appears to us fantastic and difficult to defend on ethical grounds. It supposes that the

need of the hour is to get rid of the Liberal Government because it has given pensions to some very old men and women and proposes to tax in small part the unearned increment on land. The only way to turn the present government out to the 'Spectator's' satisfaction is to make the Unionists strong enough to do it, and there is only one way to do this, and that is to make the Unionists give up the present field-work for 'Tariff Reform.'

'We do not wish on the present occasion,' says the 'Spectator,' 'naively, to say a word about the "abstract merits" of Tariff Reform; but we are convinced that Tariff Reform' reached its high water mark, 'at any rate something near high-water mark,' at the last election, and 'that if the electors are once more appealed to purely on the question of Tariff Reform' the present government will get a new lease of life. So that for the Unionists to win the Unionists must either be as mum as possible about tariff reform, or their leaders must guarantee that the country shall see the tariff when it is ready, and have the opportunity to vote on it either at a general election or a referendum. No wonder the 'Spectator' fears that 'sincere' tariff reformers, who are really convinced that theirs is the only policy to save their country, will be 'disgusted and will consider that we are asking them to make an immoral bargain, in order to secure office.' Nevertheless, the 'Spectator' urges them to do it, on the most specious lines, although 'in the abstract we entirely agree with such a declaration, and that any other would be utterly unworthy of Unionists and Conservatives.' We have rarely read an article that is so indefensible. And it founders worse than a whale.

THE NAVY QUESTION.

Unquestionably a campaign of instruction on the subject of the navy is needed in this province if the appeals of the Nationalist leaders are to be properly met. As a matter of fact, too, instruction on the subject is still needed in other provinces and among English-speaking people. While it is true that the general consensus of opinion in the country at large was that it was Canada's duty to contribute in some form or other to the defence of the Empire, it is equally certain that to very many the new policy did not appeal. Anyone who can remember the common attitude of mind in regard to foreign wars forty or even twenty-five years ago, knows that the general sense of the people was that both countries were so situated that they could keep out of foreign complications, and that it was the part of wisdom to keep out of them. There was a good deal of truth in the attitude. It was a definite spirit of anti-militarism, and was accompanied by a reliance for defence in case of need upon the courage and patriotism of the citizens. Freed from thoughts of war and conquest, the work of citizenship would be confined to the development of the resources, the trade and commerce, and in its higher aspects, to the building up of the character and the institutions of the country. But time has wrought some changes which call for a reconsideration of this policy. We have to face some serious facts to-day which make it necessary for the country not, indeed, to embark upon the militarism of Europe, but to take steps in the direction of modern preparation for defence. Both Canada and the United States are obliged to realize that with an awakened and modern Japan, an awakening China, and a heavily armed Europe, it is impossible to disregard the eventuality of either or both countries becoming directly involved. The usual answer to this is that if we will wear the garments of peace we will be left in peace, and that the preparation for defence is the certain means of courting aggression.

UNITED STATES ELECTIONS

Unfavorable Weather in Many States May Result in Light Vote.

New York, Nov. 8.—First visitors to the polls in this city to-day went through a fall of snow that melted on the sidewalks and pavements almost as fast as it fell. The sparse snowfall was predicted for the day, but the early morning, however, reports from various parts of the city in the first hours were that voting was as brisk as it usually is. Unsettled weather was predicted for the day, but the voters, should have an opportunity to express themselves upon it.

OREGON VOTE WILL BE LIGHT.

Portland, Oregon, Nov. 8.—With the rain falling in several parts of Oregon the chances are that in spite of the deep interest aroused in the election result from the fact that it was brought on by the attempt of the prohibition element to have Oregon put in the 'dry' column, not more than seventy percent of the registered vote will be polled.

POLLS CLOSED.

Boston, Mass., Nov. 8.—The weather throughout the state was clear and cold for election. In some of the smaller towns the polls closed shortly after noon, and the announcement of the result from these places was eagerly awaited.

POLLING PLACES ARE GUARDED.

Philadelphia, Pa., Nov. 8.—Election day opened with a sprinkle of rain, some snow and hail in different parts of the city. The morning was rainy and cloudy, but the weather cleared as the day progressed. The polls opened at 7 a.m. throughout the state, and were closed at 7 p.m. in the main.

FELL FROM LADDER.

Mr. Leo Parent, 35 years of age, residing at 648 Montcalm street, was taken to the Notre Dame Hospital, suffering from broken wrists and bruises which he sustained by falling from a ladder three stories high, at a corner of the building he was working, at the corner of Ontario and Beaudry streets yesterday, at 4.15.

York Tribune, for a tilt with the Fifteenth Amendment to the Federal Constitution. Amendments to the state constitution intended to exclude colored persons from the franchise have twice been submitted to the voters. The first of these was defeated by a decisive majority because it would also have excluded a certain class of naturalized citizens. The second appeared to let in all the naturalized whites, but there was some doubt as to the completeness of the inclusion and the second draft was also rejected. The last Legislature prepared a third amendment, which contained a grandfather clause applying only to colored persons, but it was not to be submitted to the people until 1911. In the meantime, the Legislature authorized the experiment of setting up a grand jury in municipal elections, for voters in municipal elections, passing a law applying to the city of Annapolis. That law was taken before the Federal District Court of Maryland and the grandfather clause, section has been pronounced unconstitutional. The decision of the judge was sweeping. He brushed aside all technicalities and ruled that the Annapolis act, like all the other disfranchising devices, aimed at the negro race, as a race when it laid down the qualification that a voter to be accepted by the registers of election must have had the right to vote prior to January 1, 1868, or must show descent from a person having that right. Only white persons were permitted to vote in Maryland before January 1, 1868, so that the restriction was necessarily based on race and color. He also bluntly disposed of the fantastic argument that the guarantees of the Fifteenth Amendment to the Federal Constitution extended only to 'federal' as distinguished from state, county and municipal elections.

This is the first time, says the 'Tribune,' that any federal court has passed directly on a restriction intended to deprive the negro as such of the right to vote. In Maryland the purpose to defy the federal Constitution has been obvious and unceasing. Other states have been more circumspect, imposing a grandfather qualification only as a temporary device or selecting tests which do not follow the lines of race or color, although used in practice almost exclusively against the negroes. The Southern states generally have deprecated Maryland's rash experiments, on the ground that if the question got into the federal courts Maryland would lose and their own constitution might then have to be overhauled. It is generally admitted by United States writers on the matter, except 'down South,' that the grandfather clause is 'un-American and unconstitutional,' and the advice is given that it should be abandoned everywhere. The hope is also encouraged that it will be replaced, in all states which want to restrict the suffrage, by qualifications applying equally to white and colored citizens. It is easy enough to impose a suffrage qualification which will penalize ignorance and irresponsibility, but this to be constitutional must include whites as well as negroes.

VERDICT FROM PEOPLE WANTED ON QUESTION OF A NAVY

So Says Mr. F. D. Monk, M.P., Speaking Before Y.M.C.A. Debating Club.

SCHEME NOT ANGLLO-SAXON.

Obliges Canada to Participate in Struggles in Declaring for Which She Has No Voice.

With many references to the recent election in Drummond-Arthurspark, with sarcastic remarks for that part of the press which has criticized the campaign waged by the Nationalists, Mr. F. D. Monk, M.P., for Jacques Cartier, last night spoke of his reasons for opposing the naval policy of the Liberal Government. The executive of the Y. M. C. A. Literary and Debating Club, which has arranged to hear both sides of many important public questions, had invited Mr. Monk to speak on this subject. A large number of young men were present, but Mr. Monk spoke not only to them. He stated frankly that he was delighted to have this opportunity of putting his views before a general public, and that, although he might see no opposition, and that of his colleagues, carried with it nothing of dissipation to great Britain. There was a great campaign of false representation, of menacious representation, said Mr. Monk, drawing near the end of his remarks. It is his duty to declare that he has these arguments against the navy been advanced, and that here we have stirred feelings of race and religion. Gentlemen, the arguments I have advanced here are not a mere party matter. It was said the Naval preparations were inadequate. But before this, in February, the Government passed an order in council approving the plan of the Special Committee of Imperial Defence of the Privy Council. They approved this in toto and sent word of their approval to the British Government. The question of the House, they were a mere Committee of the House, did this. Such a thing would not be tolerated in England, where they understand parliamentary procedure.

EFFORTS TO SETTLE STRIKE

New York Merchants Criticise Express Companies Affected.

FOR CLOSED SHOP STAND.

Many Striking Chauffeurs Have Had Demands Granted—General Strike Discussed.

New York, Nov. 8.—Strong pressure to end the express strike which has seriously hampered business, was brought to bear late last evening on the six transcontinental companies involved by the Merchants' Association of New York. Protecting that position of the companies is unreasonable and prevents a settlement, the association in a letter demands that they recede from their stand. The action followed the sympathetic strike of 2,000 chauffeurs and cab drivers to aid the express employees.

Copies of the letter were sent to the officers of the companies, who have been in charge of the strike since the strike was called. The letter quotes the statement of Mayor McGraw that the negotiations for a settlement 'failed' on one point only, namely, the companies would not acquiesce in the request of the men that some of them should be discharged for reasons that he had joined the union, and continued.

Assuming this position to be held by the express companies, who are among your largest patrons, who have no sympathy with that position, your attitude, namely, to employ merely because a man has chosen to join a union, would in effect result in an application of some of the principles of a 'closed shop.'

MANY TAXICABS WERE DAMAGED.

While talk of a general strike was heard freely to-day, the strike leaders are giving no intimation that such a thing is contemplated for several days at least.

The strike of chauffeurs brought many of the employers hurrying to headquarters to effect settlements, and nearly half of the men returned to work before night. Attacks on taxicabs were frequent, however, and many of them were badly damaged.

The question of licenses for drivers was brought to the fore to-day by Francis W. Magstadt, an escaped fugitive from the Middletown State Hospital, who was arrested yesterday while acting as a strike-breaker. A two-foot club was found in the leg of his trousers. When Magistrate O'Connor asked Magstadt what was the reason, he heard the circumstances, and expressed great indignation. 'This is the kind of men we allow on the streets of New York,' he exclaimed. 'I'll hold you in \$1,500 bail for several sessions.' The asylum authorities have been notified of the man's arrest.

Peasants are seriously troubled to-day, when practicing the entire policy in force is employed in election duties, were allowed by the announcement of the companies that they will not attempt to operate wagons.

ELEVATOR WORKERS HAVE QUIT JOBS.

Boston, Nov. 8.—A general strike of elevator constructors employed by the Otis Elevator Company in various parts of the city was called off yesterday. One hundred men in Boston and a number in Springfield and Brookline were among those called out. The strikers are engaged to take the entire work of building trades union officials will order a sympathetic strike, it is announced. The strike originated in Chicago over wages some time ago.

SHERBROOKE FAIR.

Will Likely be Conducted as Civic Enterprise in Future.

Sherbrooke, Que., Nov. 8.—At a regular meeting of the City Council last night the request of the Canadian Eastern Exhibition, of which William Morris is president, for an extra grant of \$1,750, was refused. The finance committee claimed they had no funds. Last year the exhibition had a deficit of \$10,000. The situation took a new phase when Ald. McManamy, chairman of the finance committee, suggested that hereafter the exhibition be conducted as a department of the city, and an annual appropriation to it be provided against.

COLLEGE OF ARMS OF CANADA.

The College of Arms of Canada is opening its heraldic collection to the public, and begs the aid of members of the societies of the city and their friends, for information of the history of families in their localities who bore armorial seals before 1783, and of the names of the armorial grantees, or of their heirs, or of royal counsellors and military commanders. The above college desires their aid in securing proper certification and registration of said arms under a seal and signed by its commissioners, under royal edicts, and their friends are invited to the next year's heraldic display of the college's collection to be opened in June.

HOCKEY CLUB'S OPTION Renfrew Club Have Options on Last Year's Players.

Renfrew, Nov. 8.—With the hockey season less than a month away, and other clubs in the National Association already prepared for the coming campaign, officers of the Renfrew club are beginning to show signs of activity.

It is understood that the Renfrew club intends to try out Imbeus, the star wing man of the Rovers. Imbeus played sensational hockey in the Ottawa Valley League last season and was widely consented to a trial in faster company. The Rovers, however, are anxious to keep their own star wing man, and it is not likely that the Renfrew club will include Albert Kerr and Imbeus in their roster.

Caught a Heavy Cold. It Left Him with a Hacking Cough.

Mr. J. H. Richards, 1852 Second Ave. East Vancouver, B.C., writes: "I allow me to write a few lines in praise of your Dr. Wood's Norway Pine Syrup. Last fall I contracted a heavy cold which left me with a hacking cough, and every time I would get a little more cold this hacking cough would become a lung splitting one. It kept on getting worse and I kept on spending money buying different cough remedies until a friend asked me if I had contracted Dr. Wood's Norway Pine Syrup. I told him I was willing to try anything. I thought would cure, and on the same day bought two bottles. Before half the first one was used my cough began to get better, and by the time I had used a bottle and a half my cough was gone. I am keeping the other half bottle in case it should come again but I am quite sure I have a positive cure. Let me recommend Dr. Wood's Norway Pine Syrup to all who suffer from a cough or about irritation of any kind."

ARGOS PROTEST Unique in History of Inter-provincial Canadian Rugby Union Football.

WEDNESDAY APPOINTED FOR HEARING. Protest is Based on Four Points, Which Are: Time Up, Late Start, Darkness, Offside.

Contrary to general expectation, and for the first time in the history of the Interprovincial Rugby Football Union, Secretary Finn, of the Interprovincial Amateurs Football Union, was the recipient of a protest from the Argonaut Club against the decision of their match with Ottawa on Saturday last, holding good.

The protest is based on the following points: 1. That the game was not started until 3.15. 2. Darkness had set in before the close of the last quarter.

It was at first decided to accept the result of the game as it finished on Saturday, but such convincing proof was forthcoming that irregularity had occurred and representations made after the club's return, that it was in the interests of football generally, as well as their own, that the protest was lodged.

The secretary, Mr. Finn, has conferred with President Clancy, and in the bounds of probability that a meeting will be convened for tomorrow evening at the Grand Union to investigate the protest and adjudicate upon it.

The Argos are very emphatic in their statement that they should be awarded the game, and requested a meeting at the earliest date so as to prevent any uncertainty as to the positions of the clubs in the league table.

Toronto, Nov. 7.—Argos are not going to sit back and see the Big Four champions taken away from them by reason of their defeat at Ottawa on Saturday. Not if they can prevent it.

ENGLISH RUGBY Montreal Club Anxious to See Others Formed Under Code.

The Montreal English Rugby Football Club had arranged for an exhibition game on Saturday afternoon, but owing to an insufficient number of players turning up to form two full sides, due to the wretched weather prevailing all the morning, the intended tourney had to be abandoned.

The Montreal Club is desirous of enlisting the active sympathies of large organizations, such as the C. P. R. and Grand Trunk Railway. They consider that, with such a large number of young men from the Old Country as are in the employ of these two important railway companies, there ought not to be the slightest difficulty in the way of the formation of two strong English Rugby Football Clubs, and these a Montreal & District English Rugby Football League could inaugurate.

The Rugby Football Union, with which the Montreal English Rugby Football Club is affiliated, has a membership of about 50 clubs, all of which clubs are entirely composed of amateur players, distributed all over the British Empire, including India; but, naturally, the majority of the clubs are located in the United Kingdom, and the clubs which are in London, where all general meetings are held, and the secretary, Mr. C. R. Marshall, is in the country, are in contact with the following address:—Rugby Union, Twickenham, Middlesex, England.

PLUNDER RECOVERED  
Detectives Successful  
May Throw Light on Murder Mystery of Last Winter

Yesterday morning Detectives Savard, Richard and McLaughlin raided the houses in the north end of the city, recovered between \$2,000 and \$3,000 worth of furs, clothing and jewelry, recently stolen from the store of Mr. J. B. Thibault, 1827 St. Catherine street east, and effected the arrest of four persons.

Mr. Thibault's store was broken into during the night, about ten days ago, everything of value being taken, and the occurrence, the detectives have been at work on the case, with so much success that last night they recovered the stolen goods and arrested four persons in connection with the matter.

Of Interest to Women.  
The 'Witness' Daily Fashion Hint.

THE VOLUNTEER WORKER.

Efficiency is the password to success, and it is now coming to be recognized that even the voluntary helper in charitable and philanthropic work requires some training in order to make her activities of the most real value. The woman who undertakes voluntary work is beginning to see that she is not exempted from any responsibility because her time is not paid for. There are finer sentiments than can be reckoned in salaries, and when she accepts an honorary post many a girl to-day takes, or should take, pains to qualify herself for her position.

ARTIFICIAL FLOWERS.

There is no doubt that fresh flowers have a charm of their own which can never be rivaled by the most perfect imitations, but it is this very charm which makes them unfit for certain purposes. For instance, a bunch of real flowers worn at a dance becomes withered and crushed long before the close of the evening, whereas a bunch of artificial flowers looks as effective as when it was put on. Many women now recognize the advantage of wearing satin roses or velvet violets at the waist on occasions of this kind, and as these flowers are perfumed with the scent of the original it is not always possible to detect the difference at once. For dinner parties and receptions real blooms continue to be worn on the corsage.

AN 'ANTI LEADER.

Lady Jersey is taking a leading part, with Lord Cromer, Lord Curzon, and Mrs. Humphry, in the joining of forces of the two anti-suffrage leagues—one for men and one for women—under the title of the National Anti-Woman Suffrage League.  
Clever, cultivated and gifted with untiring energy and much power of organization, Lady Jersey is also an eloquent public speaker and writes with a versatile pen. She was at a meeting last year when a patriotic and capable Colonial statesman asserted that the greatest disgrace from which England suffers is the refusal to give women the vote. 'Let us hope,' he added fervently, 'that this blot on the fair fame of the nation will ere long be removed, and that women like Lady Jersey will be given the franchise. It is absurd, it is almost incredible, that a woman with the mind and attainments of Lady Jersey should in her head and front of a right so plainly hers.'

SMART BREAKFAST ROBE.

Interesting new negligees show, instead of the long approved lace and ribbon trimming, conventional bands of Bulgarian or Norwegian embroidery in strong, crude colors which give an exotic, though rather smart style. The bodice garment is made of white permo material—a supple mixture of wool with mohair threads—and the embroidery is done in several shades of blue with a dash of strong orange and some black lines. The overhanging part of the gown which slopes from the bust to the end of the train, is lined with a medium shade of the blue, and this color shows with each movement of the wearer. Frills of accordion plaited white silk form the loose sleeves under the sleeves of the gown.

Lady Jersey sat it all out calmly, and it was only later that the statesman discovered in her the head and front of a right so plainly hers.'

TRADE DIFFICULTIES.

United States Calls Germany's Potash Law 'Dangerous.'

Berlin, Nov. 8.—Following the refusal of the German Government to accede to the proposal of the United States on the potash dispute, the committee representing the American potash interests yesterday issued a statement on the subject. This refers to the action of the German Government as a 'dangerous step in international commercial relations,' and declares that the competing group of mines is thereby prevented from selling at a materially lower price than the syndicate, of which the Prussian Government is a member. It also declares that the competing group of Americans is thereby prevented from selling at a materially lower price than the syndicate, of which the Prussian Government is a member. It also declares that the competing group of Americans is thereby prevented from selling at a materially lower price than the syndicate, of which the Prussian Government is a member.

DECREASE OF CATHOLICS

Priest Finds Many Leaving Parish of St. Louis de France.

The decrease of the Roman Catholic population of Montreal before the incoming Protestant community, which many believe will be strikingly illustrated by the forthcoming census, is foreshadowed by a statement made by the Rev. Father Belanger, parish priest of St. Louis de France. The annual visiting period of the clergy to the people in this parish has just concluded, with the result that Father Belanger announces there are 29 less Catholic families in the parish than there were last year, showing a diminution of 241 communicants. There are 2,410 Roman Catholic families in the parish, and the cure deplores the fact that the French-Canadians are allowing 'foreigners' to crowd them out of the district.

EXPORTS INCREASE.

Canada Securing Flour Trade of Great Britain.

Ottawa, Nov. 8.—According to a report to the Trade and Commerce Department, made yesterday, Canada's exports of flour to Britain have risen from 439,320 cwt. in 1907, to 2,059,400 in 1909. In the three years exports from the United States to Britain have declined by 2,800,000 cwt., from Austro-Hungary by 22,000, and from France by 189,000.

STOPS EIGHT PICTURES.

Brandon, Nov. 8.—Mayor Adolph has ordered the chief of police to stop the exhibition of the Johnson-Jeffries fight pictures.

FIRE AT WELAND.

Weland, Ont., Nov. 8.—A frame residence occupied by Chas. Soutan, and owned by H. U. Robbins, was partly destroyed by fire early yesterday, the contents being saved. Scarcely had the firemen left the building when the Weland Planing Mills, owned and operated by J. M. Cutler, were found to be on fire. A high wind was blowing and the whole burning out soon a mass of flames. The firemen, by hard work, saved the large stock of lumber in the yards and Lambert's planing mill and lumber yard, just opposite, and also other buildings close by. Mr. Cutler's loss will be about \$15,000, with only \$3,500 insurance. The cause of the fire is unknown.

WOMAN'S AUTO. TRIP.

New York, Nov. 8.—For a stake of a dinner and theatre party, Mrs. Bertha Matlock of No. 43 West Thirty-eight street, started at noon yesterday for Ottawa in an auto that she must drive and repair with absolutely no assistance.

EARTHQUAKE RECORDED.

Big Seismographs at Toronto and at St. Boniface.

Toronto, Nov. 8.—An earthquake lasting an hour, commencing at 3:45 p.m. yesterday, was registered on a seismograph at the Toronto Observatory. The boom showed a swing of two and a half millimetres, which is considered a medium earthquake.  
St. Boniface, Man., Nov. 8.—The seismograph in the Jesuit College Observatory recorded an earthquake of considerable intensity on Sunday afternoon at 2:30. Director Russo, S.J., calculated the disturbance to be two thousand miles distant northwesterly, which would be about the eastern extremity of Greenland.

PETITIONS GOVERNMENT.

Eastern Townships' Dairymen's Association Adopts Resolution.

Sherbrooke, Que., Nov. 8.—At a meeting of the Eastern Townships Dairymen's Exchange at Cowansville, on Saturday, after sales had been made, a long discussion took place as to the advisability of forwarding a petition to the Dominion Government with regard to the conservation of the butter and cheese interests. It was finally agreed that a strongly worded resolution be sent to Ottawa, pointing out the importance of the industry.

STEAMER WAS AFIRE. Distress Signals Issued From Vessel Near San Francisco. San Francisco, Nov. 8.—Wireless messages were picked up at various points along the coast last night from the steamer "Falcon," of the American-Hawaiian Steamship Company, stating that the boat was afire and asking for aid. The Mare Island station received a message early this morning that the "Falcon" had flashed distress signals about 8:30 o'clock while off the Columbia River bar. The fire was put out, it was reported, shortly after midnight, after the tug "Snomish" had gone to her assistance, and the steamer proceeded on her way to Astoria, Oregon. The "Falcon" left San Francisco Sunday morning with a general freight cargo for Northern points.

Peaceful Town Shows Record of Only Five Arrests in a Month. The monthly meeting of Verdun Council was held last evening, Mayor Allen presiding. There were also present Aldermen Hadley, Lamothe, Leclair, Evelyn, Lyons, Farrar and Manning. The police report showed five arrests during the month, 2 false alarms, 2 fires, and 18 house numbers put up. The health report showed 2 houses disinfected, 4 deaths, 4 births, 2 cases of measles and one of typhoid. The typhoid was proven had been contracted outside of the town. The engineer, Mr. H. Hadley, Jr., reported that several roads had been repaired and temporary sidewalks laid; and that in connection with the electric light line work had been done on Verdun avenue and Lower Lachine road. Mr. George A. Ward reported on behalf of the delegation to Quebec that they have submitted plans for the proposed dyke extension to Sir Lomer Gouin, and that the question was finally referred to the government engineer for report, which has been made and is understood to be favorable.

WESTERN HOSPITAL NEEDS A HUNDRED THOUSAND DOLLARS

Appeal for Financial Assistance Made on Behalf of Institution by the President and Secretary.

An appeal for help for the Western Hospital is made in the following letter by Mr. Peter Lyall, president, and Dr. George T. Ross, secretary.—The Western Hospital of Montreal needs financial assistance in carrying on the work that the immense increase in the population of the district of Montreal has practically made it impossible to carry on. The centre is daily bringing to its doors, and now appeals to the generous people of Montreal for a tangible expression of their interest in the good work which this institution is doing and the greater work it wants to do. The Western Hospital needs a hundred thousand dollars. We need this money first for the erection and equipment on our vacant land of the requisite buildings to accommodate the daily increasing demands for treatment of the sick and injured poor of the district. The westward growth of the city and the consequent increase in residential population, together with the large number of factories below the hill, stretching from McGill street to Lachine, with their thousands of employees cause the greater part of the hospital emergency work of the city to fall to our care. Our public wards are filled to overflowing and deserving patients are constantly being turned away. We need more and better accommodation for our nurses. It is essential to their good health and efficiency that they have large and airy bed and recreation rooms. The close confinement and strenuous character of this work demands this which we cannot furnish without money. The sewage staff also has not sufficient accommodation and more room is urgently needed for the administration department, there being no room for laundry or linen store. We need this money also to extinguish our mortgage and floating debts, the annual interest charge upon

riage and of parenthood. Teach the sacredness of the natural functions, and the result of violating nature's laws. Fathers, teach your sons; mothers, teach your daughters. See that no boy or girl goes forth from home without the knowledge that is the safeguard of the sacredness of life—and that tends to purity of mind and body. The impure phases of sin were a menace to the sons. We want our boys to be safe and pure as well as our girls. It is time, concluded his Lordship, to be vigilant. Men must take part in enforcing the laws while women take the work of personal contact. Let all unite in raising the tone of morality by eternal vigilance, tireless labor, persistent Christian love. Mr. Recorder Weir added a few observations from his experience. Ignorance and lack of training to do any one thing well, he had found factors in the downfall of many. He spoke also of the inadequate payment girls receive in certain employments. The meeting was well attended, Mrs. E. M. Renouf presiding. Two solos, sung by Mrs. Bayley Sprott, were much appreciated.

MUSICIANS SMOKED Stadium Fire May Have Been Caused by Disregard of Prohibition. Mr. Ritchie this afternoon opened an inquiry into the fire which destroyed the St. Hubert street skating rink stadium on November 1. The first witness was Alfred Dabonne, a fireman. He deposed that as it was impossible to save the stadium the engines concentrated their attention on the neighboring buildings. The water pressure was good. This latter statement was contradicted by subsequent witnesses. One Lavoque, a workman who was on the spot, said he saw flames coming from the direction of the band stand in the balcony, but saw no fire engines working. Alfred Gauthier, a director, who slept in the building, said he thought the fire must have begun in the bandstand, where the musicians disregarded the prohibition of smoking. Albert Dismont, a constable, who went round the building about 10 p.m., said he was not smoking. There was a big wooden spittoon in the bandstand, which Eugene Cordon, an employee of the establishment, said he always full of cigar, cigarette or pipe ash, and as it was full of sawdust, he thought it must have been the starting place of the fire. He had seen that all the electric switches were on, and all openings closed. Joseph Adolphe Christian, one of the directors, said the building was insured for \$24,000, and the fire cost \$8,000. The total loss was about \$16,000. As it was a good paying concern he thought it would be re-built.

KINGSTON ALDERMEN. Legislature Will be Requested to Permit Reduction in Their Number. Kingston, Nov. 8.—Ald. Harrison informed the City Council last night that he would move that the Ontario Legislature be petitioned to permit a reduction in the number of aldermen for Kingston from twenty-one to fourteen. He was convinced that a smaller number of aldermen could do the business of the city. Ald. Hoag followed by giving notice that he would move to petition the Ontario Legislature to repeal the present act regarding the election of aldermen for

A party, including Mr. Templeman, Admiral Kinsmill, Commandant Royal Marines, Mr. D. Desbarats, Deputy Minister of Marine; Lieutenant-Governor Paterson, and Mr. McBride, met the "Rainbow" at the

BISHOP ON RESCUE WORK. Address Before the Women's Club Deals With Social Purify.

One standard of morality and purity of life for both sexes, no condoning of vice, and giving fallen women a chance to return to a respectable way of living—these were points emphasized by Bishop Farthing in a notable address on rescue work before the Women's Club yesterday afternoon. His Lordship said that he found this phase of women's work on which he had been called to speak a difficult one to deal with in that place, and he then proceeded to treat the subject with simple directness from the Christian standpoint. To Christianity, his Lordship said, woman owes her freedom and her high place in society. It was said in the New Testament that "there is neither male nor female in Christ." What could that mean except that there was only one moral standard, irrespective of sex. As Christians, we could not dare not make a difference of sexes in matters of life and morality. This was the foundation of work for social purity. We sometimes found good men and women, and good women, demanding a higher standard for one sex than the other. Christianity must fight prostitution, and be content with nothing less than doing away with it, root and branch. Segregation implied a certain tolerance of vice. The Christian principle could not condone immorality in any system of regulation, and we should combine to make the pressure of public opinion felt in seeing that the laws were vigorously enforced. Consideration of the treatment of fallen women, his Lordship urged the need of sympathy and practical help. To condemn them availed nothing. Severe lectures and moralizings passed them by. They were used to being pitied and looked down on. It was only a realization of divine persistent love that could reach their hearts, and it was Christian women who had the privilege of making that love known to them. But were they doing their part? Even devout women were bitter against fallen women, because these had degraded their sex. Yet we often saw good women receive and countenance men of questionable character when they would not have a fallen woman for a scullery maid. The problem was confronted—how to come into contact with those so much needing help. It could not be left to amateurs, or to the young or inexperienced women. There must be some skilled workers, representing the common womanhood, to go and meet them, in police courts, on the streets, to call at houses if some one of whom they knew or had heard was there. And it must be made easier for the girl who had fallen to get back to decency, by finding places where those who wanted to earn a honest living could get the chance. It was unjust that we had made it as hard as possible for the female sinner, and easy for the man who was perhaps oftener to blame. There were difficulties, of course, and common sense must be shown. Whatever place of safety was provid-

WOULD VERY OFTEN FAINT AWAY. Doctor Said That Sometimes He Would Never Come Out of One.

Many people may be unaware of having anything wrong with their heart till some little excitement, overwork, or confinement in an overheated or overcrowded room or public building makes them feel faint or dizzy. If you neglect the warning the slight feeling of dizziness gives you, and fail to take treatment, there will be a gradual progression to something more serious. There is no reason you should wait till your case becomes desperate before you avail yourself of a perfect cure by using Milburn's Heart and Nerve Pills. Mr. F. S. Chute, Wheatley, Ont., writes:—"It is with gratitude I can now tell you that Milburn's Heart and Nerve Pills benefited me. I was very weak and run down, and had headache, nearly every day and would very often faint away. In fact, my doctor said that sometime I would never come out of one of them. After taking three boxes of your pills, I am glad to relate that it has been a number of years since I have had a fainting spell and scarcely have had a headache. Too much cannot be said in praise of Milburn's Heart and Nerve Pills for in me they have effected a perfect cure. Price 50c per box, or 3 for \$1.25. SUMMARY OF THE PRECEDING CHAPTER.

A sudden reversal of fortune through the father's rash speculation plunges the Talbot family living in Quebec into the dilemma of how to make a living. Mr. Talbot announces his resignation of position as manager of the bank and the boys decide to farm, and of the three girls Phyllis is about to be married. May takes a position as companion and Phyllis, after much hunting, secures a position as governess in a little town in the province of Ontario.

nothing like them in the world. CASCARETS the biggest seller—why? Because it's the best medicine for the liver and bowels. It's what they will do for you—not what they say they will do—that makes CASCARETS famous. Millions use CASCARETS and it is all the medicine that they ever need to take.

Right at the bottom of the box she came upon a sealed canvas bag, and after starting at it a moment in stupefied silence she took up the bag, and on it was written, "Registered Postal Packet and Money Order from San Martin to San Fernando."

"Dear Jack," she murmured, then broke into reproaches because of her sister's sad looks. It is not honoring to Jack's memory to sit looking like a picture of melancholy. You and I know very well that he would have been absolutely incapable of doing anything so base as running away with the mail.

A DISCOVERY. Janet had already been arranging to take a cottage with a few fields and an orchard on the outskirts of San Martin; a poor place indeed, but it would have been on the water, and if nothing better had offered, this was left in abeyance now until the decision of the post office was settled.

"Who discovered salt?" asked Constance, eagerly. "Oh, yes, you could, but it would be too much work for too little salt," answered Aunt Ethel, "and that is why people on Cape Cod decided after salt-days or mines were discovered all through the Western and Southern States."

# REDPATH ESTATE

## THE HEART OF MOUNT ROYAL PARK

We have just purchased the balance of the Redpath Estate containing 583,000 square feet, the last large section of high class subdivision property in the heart of Montreal.

This most magnificent, select residential property is surrounded on three sides by Mount Royal Park—the grandest and largest Park in any large City in Canada.

**REDPATH** will be laid out by the best landscape artists so as to retain all its original natural beauty and grandeur.

We paid for this wonderful property the highest price per acre ever paid in Canada.

Adjoining property is assessed at \$1.75 per square foot, and our new Redpath subdivision with its higher elevation and commanding view is much more desirable. The purchasers who get early selection of lots in the Redpath Estate at \$2.00 per square foot will certainly be considered fortunate, as this property will command the highest price for select residential sites in Montreal.

We have applications already for over one hundred thousand feet. Make your application at once if you want to get an early choice.

MAYOR OF ROME SENDS REPLY

He Seems to Think Council Was Wise Enough to Reserve Judgment.

DID NOT BLASPHEME.

Spoke of 'Political Organization Waging War in Faith's Name Against My Country.'

Mayor Nathan, of Rome, so recently censured by Montreal's Council, has written a letter, which will be submitted to Council on Wednesday next.

Mayor Nathan's letter reads as follows: Rome, 25th October, 1910. To the Mayor and aldermen of the city of Montreal: Gentlemen, His Eminence the Archbishop of Montreal, in accordance with other reverent and eminent men, who direct the political organization of the Catholic Church, has called a meeting of the faithful to engage me in blasphemy, for insulting God, the Saviour, and His Holiness the Pope.

At a meeting of the Common Council many of you gentlemen, before approving a similar vote of censure, in the uprightness of your judgments, desired to have before you the precise text of the charges against me.

I am, Gentlemen, Yours obediently, ERNESTO NATHAN, Mayor of Rome.

MACDONALD COLLEGE NOTES.

A revival of the art of story-telling was the chief feature of the opening Macdonald College Club, Thursday evening at the point out, my criticism do not affect faith, they treat of a political organization waging war, in faith's name, against my country, striving to undo Indian unity, to repress the contentment of conscience, power of research, modern science, civil progress.

Dr. Sinclair and Miss Sinclair spent the Thanksgiving holidays at Lake Placid, in the Adirondack Mountains.

Mr. Logan, Point St. Charles, spent the week-end with Mr. and Mrs. Wright.

Miss Fisher, of Toronto, is visiting her sister, Miss K. Fisher, head of the School of Household Science.

Mr. Girard, of Chicoutimi, was here in order to learn the art of making Coulommier cheese.

Mr. Birkett, an architect from London, England, paid a visit to Macdonald College, in order to study the interior of the building from an architectural point of view.

A most delightful 'at home' was given by Miss Peables, principal of the Practice School, on Saturday afternoon, to which many Montreal friends, members of the Macdonald College staff, students and others were invited.

The following programme was rendered at the musicale held in the assembly hall after which afternoon tea was served in the reception room of the women's residence:

Vocal solo—(a) My own true love. (b) I come to you. Mr. Reuben Dumbrell. Piano solo—(a) The Gavotte and Musette. Miss Muriel Gurd. Vocal solo—(a) Autumn. (b) Spring. Miss Edith Atwater. Violin obligato—Miss Mary Tooke.

Selected. Miss Mary Tooke. Vocal solo—(a) My treasure. (b) Angus Macdonald. Miss B. Fraser. Vocal solo—(a) The Hills of Skye.

He also quoted a prophecy from Confucius that is most remarkable in its almost exact similarity to the prophecy of Isaiah. It reads, 'In process of time a holy one will be born who will redeem the world. The nations will wait for him as fading flowers desire the summer rain. He will be born of a virgin. His name will be Prince of Peace.' China will be visited by his glory.'

GARDEN CITY PLANNED. Montrealeers Form Syndicate and Apply for Charter. With a capital of one million dollars, and the intention to purchase a large tract of land close to Montreal and there erect model cottages built on the most hygienic lines, and each with its own garden attached, a number of Montreal citizens, on the initiative of His Excellency Earl Grey, are applying for a charter under the name of The Garden City Company of Canada. This is the first enterprise upon this side of the water, following the lines of the Co-Partnership Tenants Company of England.

NO CLEMENCY. Cabinet Council Decides that Candy Must Die. Ottawa, Nov. 5.—The sentence of Timothy Candy, who murdered Constables Fortin and O'Connell, on May 6 last, will not be commuted. At yesterday's sitting of the Cabinet Council, on the report of the Minister of Justice, it was decided not to recommend executive clemency, and Candy will therefore, pay the extreme penalty of the law. A strong but futile effort was made by the wife and friends of Candy to secure a commutation of the sentence.

## RECIPROCITY OPPOSITION

### Outspoken Views Against Agreement Prove Aid to Negotiators.

### CANADA'S POSITION SHOWN.

Conferences Will Likely be Concluded This Week—No Announcement Made.

Ottawa, Nov. 8.—The tariff negotiations to-day was confined to a comparatively brief sitting in a committee room of the Senate, which concluded shortly after five o'clock. None of the commissioners would say a word as to the progress of the 'pourparlers' on the course they are taking, and it is apparent that they are all going to remain true to an agreement reached on Saturday not to say anything until such time as it is considered expedient to give a formal statement to the press. It is not even known definitely whether the negotiations have got beyond the initial stage of a preliminary exchange of views, but the probabilities are that if this stage has been passed not much progress has yet been made in the consideration of detailed proposals. Beyond the fact that the negotiators will bend their efforts in the direction of bringing about a betterment of trade conditions, particularly in respect to freer interchange of the national products of the two countries are concerned, nothing of a definite character is known, and statements which have been made as to what will be proposed, either country are based solely on deductions drawn from existing trade conditions.

### OPPOSITION HELPS NEGOTIATORS.

It is understood that the Canadian negotiators are by no means displeased because those who are opposed to reciprocity have not been adverse to proclaiming their views from the housetops. Their action serves to make it clear to the American negotiators that the government cannot afford to make a bargain unless it promises to be a good one for the country, and will, no doubt, help to convince them, if they are really anxious for a reciprocity treaty, that

## IMMIGRATION INVESTIGATION

### Royal Commission Will be Appointed for Vancouver Inquiry

TO CONSIDER OPIUM TRAFFIC.

### Chinese Interpreter Will Not be Reinstated—Mr. Bowell's Suspension Stands.

For everything Canada gives the United States must concede something of at least equal value in return. In some quarters the view is expressed that to-day's elections in the United States may have some bearing on the negotiations. Victory for the low tariff Democrats, it is asserted, might have the effect of inducing the American commissioners to make greater concessions, and the more they are prepared to give the greater would be the possibility of satisfactory and workable agreement being arrived at.

### TO STOP STUDENT ROWDYISM.

Toronto Police Authority Must Be Secured for Parades.

Toronto, Nov. 8.—That the 'Varsity footballs' will not be allowed to march through the streets after winning football games unless they have received written permission, is the verdict of Col. Grassett, chief of police. It is the result of the scrimmage on Saturday night when a crowd celebrated the blue and white victory over Queen's and had to be dispersed by mounted police, much to the terror of the innocent bystanders who were in immediate danger of being run over. 'It is a rule that the students must apply for permission before they parade the streets,' said the Colonel, 'and they did not have that permission on Saturday night. They simply telephoned down that they were going to do it, and that was all. I gave them no permission. In future they must get permission before they start.'

### CAVALRY CALLED IN STRIKE.

Coal Miners in South Wales Threaten Violence.

London, Nov. 8.—The situation in the South Wales coal fields, where 30,000 miners are on strike because of the employment of non-union men by the house-tops. Their action serves to make it clear to the American negotiators that the government cannot afford to make a bargain unless it promises to be a good one for the country, and will, no doubt, help to convince them, if they are really anxious for a reciprocity treaty, that

### OTTAWA, NOV. 8.—The Dominion Government has decided to appoint a Royal Commission to inquire into the question of Chinese immigration and the traffic in opium on the Pacific coast.

The departmental inquiry into the recent Chinese immigration frauds on the coast has resulted in a decision to deport all the Chinese detained at Vancouver, because of their inability to establish their status as merchants. On arrival in Canada they produced merchants' certificates which were found to be fraudulent. The Chinese interpreter, Yippon, who was believed to be concerned in the frauds and who was suspended, will not be reinstated. The suspension of Mr. Bowell, as controller of Chinese for the Pacific coast, stands for the present.

### NEGRO TAKEN FROM JAIL AND LYCHED.

Macon, Ga., Nov. 8.—A negro, A. Walker, who killed Marshal Charles Bush, of Montezuma, Ga., two weeks ago, was taken from the Macon county jail by a mob and lynched last night. He had been captured only two hours before.

### A POULTRY EPIDEMIC.

Sherbrooke, Nov. 8.—An epidemic of chicken cholera appears to be raging throughout the Eastern Townships. Many flocks have been infected with this disease, and in many cases serious losses have been sustained by the owners. Dr. A. W. Tracey, meat inspector, stated that he had been on the lookout for diseased chickens on the market, but had not found any. He was aware, however, that there were several cases in this section.

## LORD'S DAY ALLIANCE GRATIFIED AT PROGRESS.

A meeting of the Provincial Lord's Day Alliance was held in Douglas Methodist Church yesterday afternoon at 2:30 o'clock. Encouraging reports were presented.

The following officers were elected: Hon. president, Mr. L. H. Davidson, D.C.L., K.C.; president, the Rev. W. R. Young, D.D.; vice-presidents, the Rev. Robert Johnston, D.D.; the Rev. J. A. Gordon, D.D.; the Rev. J. Edgar Hill, D.D.; the Rev. Principal Shaw, D.D., LL.D.; the Rt. Rev. J. C. Farthing, D.D., D.C.L., Bishop of Montreal; the Rt. Rev. A. Hunter Dunn, D.D., D.C.L., Bishop of Quebec; the Rev. Hugh Podley, M.A.; the Rev. W. Sparling, D.D.; the Rev. Canon J. F. Renaud, the Rev. J. A. McFarlane, M.A.; Mr. C. W. Cate, K.C.; Mr. Alfred Johnston, M.A., LL.B.; treasurer, Mr. J. H. Carson; general secretary of Canada, the Rev. Wm. M. Rochester, B.A.

The following legal committee was appointed: The Rev. Robert Johnston, D.D.; Mr. L. H. Davidson, K.C.; D.C.L.; Mr. Arch. McQuinn, K.C.; Mr. Andrew McMaster, K.C.; Mr. E. M. ders of the town was presented about a month since, and was favorably received by the council, who unanimously agreed to prepare a by-law to that effect.

A petition was presented from the Montreal and C. P. stock yards was presented to the city, and the required notice for its discontinuance sent through the city attorneys.

The following report of the executive was then read and adopted: We meet to-day in the 10th annual meeting of the Provincial Lord's Day Alliance to record the work of the year, which has just closed. It is with gratification that we view the progress that has been made, and with confidence we look forward to the work in the future.

Realizing that the success of our work depends on the will of the people, a good deal of time has been spent in stimulating and arousing public sentiment by public addresses, articles in the press and in unifying various forces such as labor unions, mercantile associations and others whose interests in this regard are at one with ours and in this we have been most successful. We have sought to conciliate as far as possible and the police and town councils, and the work and other committees and authorities and the results have been encouraging.

The Roman Catholic Church is also educating its people along the lines of Sabbath observance, and in many of the exclusively French towns all Sunday work and selling have been stopped, and placards have been posted so that the interfering customers of the fact. The Synod of the Anglican Church has also adopted a resolution recommending the taking of such action as was necessary to the extent of its power to prevent the defiance of those disobeying the law with regard to Sunday opening.

At the beginning of the year one of the members of the majority put himself on record as having saved Montreal from 'a tiresome Sunday.' The Alliance was active in calling the attention of every minister in the city to this and in churches of nearly every denomination it was in every way active and in many instances at and sermons preached thereon. The Archbishop also declared himself as opposed to the open Sunday.

The case of the city of Montreal on the 29th of November last passed a by-law, No. 395, prohibiting the sale of newspapers on the streets by boys and girls after the 1st of May, 1910, on Sundays, to the great satisfaction of these workers and of the citizens generally.

By working through the local organizations a number of grocers, Hebrews and photographers have been fined for keeping their places of business open on Sundays, and certain action has been taken against druggists for selling other than drugs.

At the request of the Alliance, Chief Campeau has given orders for the removal of the open peanut stands on the streets of Montreal, and has undertaken to see to the open base-ball cases.

Cases of hotels violating the license act by selling liquor on Sunday have been reported to Inspector O'Keefe, and in some cases they have been fined and in others the licenses cancelled.

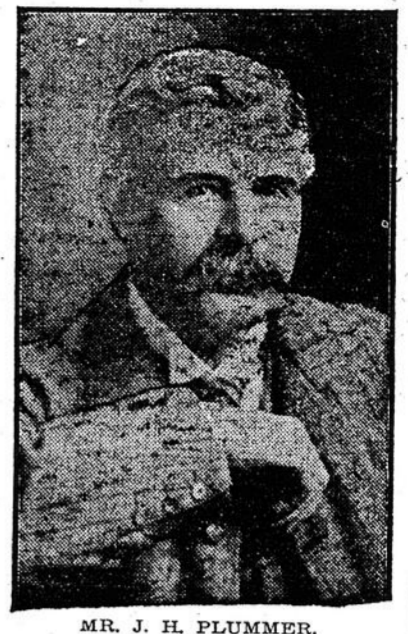

A great deal of desecration was caused by the issuance of dance hall licenses. These licenses commissioners have refused to issue in future.

Coalbrook and Waterville have taken action against Sunday selling, and have insisted on their own terms. St. Lambert instituted an action before Judge Bazin, who threw it out for want of jurisdiction. It is understood that it will be made an issue in that town shortly.

A petition of the ratepayers of Outremont asking for the suppression of all Sunday selling within the bor-

## MR. PLUMMER CHOSEN WILL VOTE ON STRIKE ACTION

As President of Canada Life Assurance Company at Annual Meeting.

MR. J. H. PLUMMER.

Toronto, Nov. 8.—At a meeting of the directors of the Canada Life Assurance Company held yesterday Mr. J. H. Plummer, president of the Dominion Steel Corporation, was elected Vice-president to take the place of Dr.

Chicago, Nov. 8.—A strike vote was taken among engineers of Great Lakes west, south and north of Chicago, following the Illinois strike, and negotiations between the road and grand officers of the Brotherhood of Locomotive Engineers, which have been in session since September 25.

Differences in wage increases of approximately 7 percent and alteration of working conditions stood between the negotiations. Grand Chief Warren S. Stone, of the Brotherhood, said he believed the Brotherhood would be unanimously in favor of a strike.

The general working conditions of which the engine drivers complain include, among others, these: Drivers of the Mallet compound engines, which do practically the work of two engines, receive the same wages as other drivers of high power engines of much lesser capacity.

Engineers wish to be relieved of the toil of preparing their engines for travel and of caring for them after runs.

Switching time should be paid for on a different basis.

MEANS INCREASE OF \$2,000,000.

The magnitude of the wage question is evidenced by a statement by the employees that a seven percent wage difference now standing between the drivers and the railways means approximately \$2,000,000 a year. The cost of alterations of the working conditions in the case of a strike conference, would be less than \$500,000, it is asserted.

'When the conference began,' said the chairman, Mr. V. B. Scott, of the managers' conference committee, 'the engineers' demands approximated a 20 percent increase. This finally was brought down to 17 percent. We finally agreed to a ten percent increase, totalling \$8,500,000. The Canadian Pacific represent, and here we both struck. The \$6,528,000 increase they struck for was more than we could concede.'

BANQUET AT JOLLETTE.

Pleasant Entertainment Held by C. N. R. Employees.

Jollette, Nov. 8.—The Windsor Hotel was the scene of a pleasant evening when the employees of the Canadian Northern, in the various departments, gave a hearty send-off to Mr. R. S. Richardson, who recently resigned the position of assistant general manager. After songs, recitations and addresses, Mr. Richardson was presented with a well-filled purse, accompanied by hearty remarks at his departure. Mr. and Mrs. Richardson have left for the Pacific Coast.
