

THAW WILL GO TO COATICOOK WEDNESDAY; DEMAND FOR BOARD OF INQUIRY THERE

Decision of Attorneys After Conference. Rejection to States May be Resisted. Habeas Corpus Hearing on Wednesday. Liberty of Short Duration. Warrants Ready For Thaw's Re-arrest. Latest Developments in Case.

Defence will demand board of inquiry at Coaticook in connection with Immigration Department's action to reject Harry K. Thaw.

Case at Coaticook may occupy several days and decision of board may even be appealed.

If rejected, Thaw would be put over line at Norton Mills.

Ex-Governor Stone and Hon. Wm. Blakeley, of Pennsylvania, come to Sherbrooke on Thaw's behalf.

High Constable Moe has warrant in his pocket for re-arrest of Thaw immediately on release.

Jerome at Colebrook, N.H., on way to Sherbrooke.

Thaw gives interview on prospect of going to Vermont.

Following a lengthy conference held by Thaw's Canadian lawyers and Ex-Governor Stone and Wm. Blakeley, his Pittsburg attorneys, held in the Library of the Court House yesterday afternoon, a slight change in the plans of the defence was practically decided upon. This conference will be continued this afternoon, when Mr. Greenshields, who spent Sunday in Montreal, will be on hand.

Their plans do not alter the fact that Thaw will be deported to Vermont. On Wednesday morning he will be brought before the Court, and the argument on the writ of habeas corpus will take place. This whole proceeding should not last more than an hour. The petitioner, through his counsel, Dr. W. L. Shurtleff, will place the contents of Thaw before His Lordship Justice Globensky. In all probability the defence will make no opposition to the granting of the writ, as it is understood they admit that the grounds and allegations of the petitioner are sound in law, and that to argue would only be to lose time.

WILL IMMEDIATELY BE RE-ARRESTED.

After hearing the argument, it is expected that His Lordship will declare Thaw a free man. His liberty will be short, however, as the Canadian Immigration officers will immediately take him into custody, and probably remove him to the jail for a short time. Thaw's attorneys will ask that an Advisory Board be appointed under the provisions of the Immigration Act. The Act then provides that the prisoner, immediately after he has been turned over to the Immigration authorities, be taken to the Immigration Office, and there given a hearing.

WILL BE TAKEN TO COATICOOK.

Thaw will be taken to Coaticook, a port of entry, and confined in the Immigration Office there pending his hearing before the Board of Inquiry. The Board must be composed of three members, and Immigration officers are eligible for seats on this Board. It is possible that Officers Williams and Reynolds, of Ottawa, will act with the officer now at Coaticook, or else with Mr. Blake Robertson, of Ottawa, who is expected back in the city by Wednesday next.

Thaw will have the right to be represented at this hearing by counsel. He can produce witnesses on his own behalf, and also cross-examine the witnesses produced by the Immigration authorities. The evidence will all be taken down and kept on record.

WANT IMMIGRATION AUTHORITIES TO SHOW THEIR HAND.

The object of making the request for a Board of Inquiry is evidently to force the Immigration authorities to show their hand. The lawyers for the defence are in the dark as to the exact proof the prosecution is in a position to adduce, and as there is always a chance of that proof being insufficient even to have Thaw deported from Canada, his attorneys want to find out just what evidence there is against him.

HAVE RIGHT TO APPEAL.

As the evidence is submitted by the Immigration authorities Thaw's lawyers will weigh it carefully. If they should consider it faulty, or insufficient to warrant Thaw's deportation to the United States, and should the judgment of the Advisory Board be sent to Vermont, an appeal will be registered against the judgment.

MUST APPEAL WITHIN FORTY-EIGHT HOURS.

Should the defence decide to appeal, they will have to do so within forty-

eight hours. All the evidence in the case will have to be forwarded to the Acting Minister of the Interior, Hon. C. J. Doherty, Minister of Justice. If Thaw were a Canadian citizen he would have the right to appeal to the Canadian Courts to have the judgment of the Advisory Board reviewed. Being an American, however, his only recourse is to appeal directly to the Minister of the Interior. The latter will carefully review the evidence taken, and either confirm or reverse the finding of the Advisory Board. His action, however, will be final. Should the judgment of the Board be that Thaw is undesirable, and this judgment be confirmed by the Minister of the Interior, or the Acting Minister, Thaw will have no choice but to cross the border to the country from whence he came.

WILL LIKELY BE DEPORTED AT NORTON MILLS, VT.

Thaw will be taken across into Vermont at Norton Mills, a station about ten miles southeast of Coaticook. Anticipating this move on the part of the Canadian authorities, it is understood that former District Attorney John Mack, of Dutchess County, New York, has been busily engaged in preparing his forces for the apprehension of Thaw as he steps into Vermont.

WHEN THE REAL FIGHT WILL BEGIN.

Once Thaw is arrested in Vermont, what is expected to prove one of the most sensational legal fights ever fought in the United States will begin. It will be a purely legal fight, the point at issue being whether or not Thaw can be extradited by the New York authorities from the State of Vermont. It is understood that Thaw's attorneys are well satisfied that their client cannot be handed over to New York by the Vermont Government.

A SECOND CHALLONER CASE.

Many expect a second Chalonner case. The central figure in this case was declared insane by the New York authorities and confined in Mattawan Asylum. He made his escape in much the same way as did Thaw, and got into Virginia. He was there declared sane, and although his case has gone through every court in the United States he is still at liberty, having the distinction of being sane in Virginia but insane in New York.

STATEMENT BY FORMER GOVERNOR STONE.

Ex-Governor Stone, of Pennsylvania, arrived in the city yesterday, having come here at Harry's solicitation. In a brief interview he gave out the following statement: "I have long been his personal counsel and that of his family in property matters at Pittsburg. It is too early for me to give an opinion. He surely has a very creditable array of legal gentlemen here to advise him. I have no doubt that whatever is decided here will be for the very best interests of all concerned. I think the plan will be determined upon soon,

and we will be glad to make a statement of the actual situation as soon as possible."

Mr. Stone is still in the city, and to-day will confer with the Canadian attorneys with a view to definitely deciding on a course of action.

ATTORNEY BLAKELEY RETURNS HOME.

Last night Hon. William Blakeley, Thaw's Pittsburg attorney, left for his home on the New York train. During the day he had several lengthy conferences with the other lawyers.

STORY OF BRIBERY A MYTH.

A Toronto paper published a rumor to the effect that the Thaw millions were being used to bribe the American authorities to drop their charge against Thaw, and also to try and fix it up with the Canadian Immigration officers to allow him to get away.

WHERE WILL THAW BE KEPT IN VERMONT?

District Attorney Conger denies that any such attempt has been made to bribe the American officials, and is confident that the same is the case with the Canadian officials.

WHAT ABOUT GEORGE McLEISH?

There is much speculation as to the connection of George McLeish with the Thaw case. A New York paper calls him the "mysterious friend of the family" and would like to hear him tell what he knows about the getaway.

McLeish is staying right with the case in Sherbrooke, and is very busy. His exact line of action is obscured from public view.

McLeish may be referred to as a former Sherbrooke man. He is a native of Sherbrooke and "knows the ropes," so to speak.

JEROME IN THAW CASE FROM BEGINNING.

The former District Attorney Jerome, who has been appointed special attorney to get Thaw back, has had years of experience in the various legal battles of Harry Thaw. He prosecuted him in the two murder trials and opposed the freeing of Thaw on the three writs of habeas corpus that were taken out by Thaw's counsel. He was special Deputy Attorney-General in the habeas corpus proceedings before Justice Mills in 1909, and appeared in the case again in May, 1912, when Mr. Carmody designated him to oppose the attempt to get Thaw out on the ground that he was not insane. Mr. Jerome also played a leading part in other legal proceed-

ings that were brought from time to time in Thaw's interest.

MYSTERIOUS MR. VON HOFFMAN

The mysterious Von Hoffman, the man who would not write his name in a hotel register, left Sherbrooke Friday night, leaving his bill for George McLeish to pay. McLeish carries a roll as big as your arm and is able to fix up all these little accounts.

The purposes of Von Hoffman's visit to Sherbrooke may never develop. Some believe that there was something interesting planned which was not pulled off.

LEGAL ASPECT OF CASE DISCUSSED.

The legal aspect of the Thaw case is the source of much comment by the members of the legal profession in this city.

The defence are up against quite a problem. This has arisen through the error on the commitment, which says that Thaw shall be retained in jail until liberated in due course of law. As a general rule, when an accused person is committed to jail it is stipulated that he shall appear before the court within so many days, or, on the other hand, to stand his trial before the Court of King's Bench.

The defence took out the habeas corpus proceedings to have Thaw liberated on the strength of the error in this commitment.

The action of the prosecution in trying to force Thaw's release so that he could be rejected set the defence on another line.

DEFENCE SILENT AS TO PLANS.

The defence attorneys are silent as to their plans, but go so far as to admit that the situation is a peculiar one.

The defence have two alternatives. They can allow the habeas corpus proceedings to drop. In that event Thaw would have to remain in jail until the next term of the Court of King's Bench. He could, however, ask for a speedy trial before Judge Mulvena. If the defence desired to keep Thaw in jail as long as possible it is not expected that they would advise Thaw to appear in the District Magistrate's Court.

IF THAW WERE ADMITTED TO BAIL, WHAT THEN?

If the present charge stands over until the King's Bench, he could apply to a Judge of the Superior Court for bail. It would be optional whether this was granted or not.

Should bail be granted, the question arises, could the Immigration authorities lay hands on Thaw and reject him?

When spoken to on this point a leading attorney stated that he did not think they could.

It would not be surprising, therefore, if this move to hold Thaw until October was made by the defence.

WHAT THE PROSECUTION WILL DO.

Mr. H. Verret, K.C., stated this morning to the Record that there was nothing new in the case. It (Continued)

VERMONT NEXT TO HOME STATE

Thaw Issues Statement For Sherbrooke Record and Rutland Herald

"The one reason I don't want to go to Vermont is my wish to return home," says Harry Thaw. "In Vermont we know that there are good Americans, and that not on my account, but just from uprightiness—they won't allow any trickery to be used against anyone."

"In Mattawan I saw a good deal of an old Vermont lawyer, Arthur Austin. Mr. Austin may have suffered from a mental disease some years ago, but after 1908 he was sane, yet was being kept apparently for life. He had been found wandering in a deserted home when non compos mentis, and a technical charge was lodged against him."

"In 1911, Mr. Austin, who had already been sane for three years, was still in the most hideous madhouse, with apparently no hope. In 1911 a friend and I started in and exposed abuses too painful to enter into. The result was successful, and superintendent and his first assistant left the hospital under grave charges, laid before Colonel Scott. Then that rara avis in New York, a trustworthy superintendent, was found in the person of Dr. May. Dr. May has since become a member of the State Board of Lunacy, and the best one since Dr. Phiggin."

"During those exposures we took out some patients, by writs, and though my influence was too small to help myself, it was great enough to help others. Mr. Austin was one, and, despite the resistance of the first assistant, Mr. Austin was freed. For several months I gave him employment, until early this year he went out west to the home of his son."

"From Mr. Austin I heard much of Vermont, and would be glad to rest there were it not for going to my native State."

"Vermonters have communicated with counsel and me, and one thing is sure: No subterfuge from New York County can pull wool over their eyes."

"Canadians of all sorts have told us that there is not the least doubt that their Immigration authorities, if they should be called on, will arrange for me to return home. If the States have differences between themselves, they say, it is no affair of the Dominion's. A citizen of the United States, once I was acquitted by a New York jury, I had the same rights as every other citizen in the eyes of the law, and no one honestly respecting the law desires to nullify the verdict of that jury."

"No grand jury can be got, even by packing, that would indict me on the trumped-up charge now whispered about, and no self-respecting one of the States would assist the fixers of this fictitious charge."

"Thaw's fellow-citizens would be shocked if Canada yielded where another State in the United States itself would not, and all the more as charges in the editorial in the New York Evening Journal of June 29th, 1906, were confirmed by Jerome himself in his extraordinarily frank speech, June 28th, 1908, that the activities against Thaw were on behalf of an unsavory gang of influential gentlemen."

JEROME ON HIS WAY TO SHERBROOKE

Colebrook, N. H., Aug. 25.—(Special)—William Travers Jerome, former District-Attorney of New York, who has been appointed by New York State Authorities as Special Deputy Attorney-General in connection with the attempt to extradite Harry K. Thaw from Canada, arrived here today on his way to Sherbrooke, Que.

Mr. Jerome, who was accompanied by John Langdon, was driving his own automobile and followed as far as possible the route taken by Thaw after his flight from Mattawan.

After stopping at Colebrook for a short time, Mr. Jerome departed for Beecher Falls, Vermont, Railway Station, about a quarter of a mile from Thaw left the train and hired a carriage to drive him across the line last Tuesday.

"I have no doubt," said Mr. Jerome, that Thaw will be returned to New York and again confined in Mattawan. I am confident of the outcome of this case. I believe Thaw will be deported from Canada and there will be no trouble about getting him into New York State."

When Mr. Jerome left here he expected to reach Sherbrooke where Thaw is held in the local jail sometime during the day.

AT COATICOOK.
Coaticook, Aug. 25.—(Special)—William Travers Jerome, who has been retained to represent the State of New York, arrived in Coaticook, about one o'clock by auto. He was accompanied by another lawyer. He went into the Coaticook House, where he had a cigar and some refreshments. After a few minutes rest he left for Sherbrooke, which place he should reach about two o'clock.

NEWSPAPERMEN VISITED NORTH HATLEY

Guest of Record at Connaught Inn

ON TUESDAY WILL BE ENTERTAINED BY BOARD OF TRADE.

As guests of the Daily Record the visiting newspaper men, in the city for the Thaw trial, were entertained at luncheon at Connaught Inn, North Hatley. Automobiles kindly provided by Messrs. Robert W. Hogg, H.W.D. Downs, Capt. Kenneth Kennedy, Nelson Chartier and others conveyed the party from Sherbrooke to North Hatley, and the scenic beauty of the country en route was a surprise to the newspapermen, many of whom were in Canada for the first time.

After a pleasant trip the party reached the famous summer resort, and were taken to the comfortable quarters of the Massawippi Canoe Club. Large chairs were pulled up, and an hour or so spent in drinking in the beauty of Lake Massawippi and the mountains which surround it. A number enjoyed a motor boat ride, after which the party repaired to Connaught Inn, where they were the guests of the Sherbrooke Record at luncheon.

Miss Hostess Miss Knowles had a most appetizing meal prepared. The Boston Journal's representative allowed the lamb was the most delicious he had ever tasted, and by word and deed Scribe E. G. of the New York World, bore witness to the fact that the apple pie was "exclusive to Connaught Inn." The service was all that could be desired, the meal over preparations were made for the return trip.

Before leaving Mr. Sears, photographer for the Boston American, and Mr. Gillette, photographer for the Boston Journal, took a picture of the group as they sat on the Inn steps.

Mr. J. A. Cook, Secretary of the Sherbrooke Board of Trade, then extended an invitation to the visiting newspapermen to attend a dinner to be given them by the Board of Trade, on Tuesday evening, at 9.30 at the Magog House. The invitation will be accepted by the boys, who will be on hand.

Among the newspapermen now in town, many of whom took in the trip, are the following: B. W. Sears, photographer for the Boston American; E. L. Waite, Boston Journal; D. P. Gillette; J. K. Winkler, New York American; E. G. Ideh, Evening World, New York; L. Walbridge, Evening Sun, New York; J. W. Carberry, Boston Globe; G. W. Pennington and F. B. Elson, Associated Press; Jack Nevins, United Press; H. A. Somerville, Montreal Telegraph; Geo. Macdonald, Canadian Press; T. R. Dibble, New York Evening Journal; Geo. S. Wheat, New York Herald; Mr. Owens, New York Press; Edward Becker, New York Morning Herald; Mr. Kinkley, Boston American; Mr. Burnham and Mr. Atkinson, Boston Post; Leo Delawate, Toronto Star; A. E. Stevenson, Montreal Star, and several others.

ENGINE CRASHED INTO AUTOMOBILE

Mr. R. Bishop, Marbleton, and Mr. Lefebvre, Cookshire, Seriously Injured

BOTH MEN WERE THROWN DISTANCE OF TWENTY-FIVE FEET BY FORCE OF COLLISION.

Marbleton, August 25.—(Special)—Falling to observe a train leaving Lime Ridge station, two men in an auto had a narrow escape from death. As it is both are suffering from serious injury.

The car was smashed to pieces. The car, which was owned by Mr. Lefebvre, Cookshire, and who was an occupant, was being driven by Mr. Richard Oughtred. As the car was about to take the crossing at Vide Brook Hill a Q.C.R. train came along. It was too late to get out of the way and the engine crashed into the automobile. The driver, Mr. Oughtred, and Mr. Lefebvre, were picked up about 25 feet away from where the auto was struck.

The former was carried to his home here and Dr. Macdonald found that he was suffering from a dislocated shoulder, a deep cut on one knee and several other bruises.

Mr. Lefebvre was found in an unconscious condition as a result of his injuries. He was later taken to his home in Cookshire by train.

From the nature of the accident the wonder is that both men were not killed.

SITUATION IS SERIOUS

Keenest Anxiety is Being Manifested in Mexico City

GREAT BRITAIN, FRANCE, JAPAN AND CENTRAL AMERICAN COUNTRIES WITH U. S.

Mexico City, August 25.—The keenest anxiety was manifested in the capital yesterday as to what will be the development of the undertaking of the United States Government in Mexico's internal affairs. Mexico's attitude is one of waiting, while the people resident here, both native and foreign are displaying deep apprehension.

That President Huerta will make public today the correspondence between the two countries is now a matter of doubt.

Rumors continue that Huerta still considering resigning, possibly in favor of Gen. Trevino, but there is no basis for this assertion.

U. S. HAS WORLD'S SUPPORT

Washington, Aug. 25.—Bested by Great Britain, France and Japan practically all the Central and South American countries are lending their supports to the efforts of the United States to bring about a peaceful settlement of the Mexico revolution.

Unless satisfactory overtures made by the Huerta Government, before Tuesday, President Wilson proclaims in person in a message both Houses of Congress the principle that constitutional government alone can be recognized in Mexico and will outline the suggestions of the United States for the elimination of Huerta and the establishment of a legally constituted administration of the southern republic.

THAW IN SHERBROOKE SIDELIGHTS

"Sherbrooke seems to like Thaw and might make him mayor if he could stay, or county sheriff."—Boston Journal.

The Magog House register bears the following entry: "Harry K. Thaw, Mattawan." Harry is eating Magog House dinners, but he isn't signing registers as a regular guest, and if he did the entry would not be as above. It might read like this: "Harry Kendall Thaw, of Pittsburg, Penn., on his way home after an absence of seven years."

A Boston paper runs a picture of Wellington street under the line, "Principal business street of Sherbrooke, which Thaw put on the map" after the town officials had spent (Continued on Page 8)

High Yields

Many investors think first of yield and safety next—this, it is true, is quite contrary to the rules of good investment practice. These investors are willing to buy preferred shares while the issuing companies are in the construction stage, as it were—in other words, they are willing for the sake of yield, to grow up with the companies whose securities they buy.

If you belong to this class of investors we shall be glad to furnish you with a list of preferred shares which we have for sale at the present time. All of the companies have passed the experimental stage, however.

CLAREVILLE.

The Harvest Home Festival held in connection with the Methodist Church of Clareville on the Parsonage grounds in the village of Clareville was a decided success. The proceeds amounted to \$112. The address was by Rev. Mr. Stewart, pastor of the Baptist Church, Dairy Valley; Rev. Mr. McNeill, Methodist minister of Lacolle, and Rev. H. Coffin, rector of the Anglican Church, Clareville were all inspiring. Rev. P. Pergau acted as chairman and as usual filled the position with dignity. The musical part of the programme was of a high order. The "Townshend Memorial Hall," Clareville, has been placed at the disposal of the people, especially the young where they may meet and hold social intercourses, every Thursday night. This is very commendable and it is a non-denominational, all who wish may attend and take part in the evening's entertainment. The Episcopalians deserve acknowledgement for their thoughtfulness. Until the present time there has been no charge but later in the season a nominal fee, perhaps of 5 or 10 cents will be charged for heating and lighting the hall. Next Friday night, Aug. 29th, young people will serve ice cream and cake. The proceeds will be used in securing books for a public library.

Mr. and Mrs. W. M. Whiteher are now in Oregon where it is hoped the climate will agree with them better. Mr. Whiteher was not a stranger to rheumatism here, but while in Gladstone, Mann., was much worse. Those from here who attended the musical at Foster Monday evening were amply repaid. It was the best play of the kind ever given in this section.

School will re-open at the Creek on August 26th., with Miss Gladys Whitehead as teacher. It was a mistake to state Mr. Ezra Bell was through here as Judge. He was the one appointed, but was unable to come and sent a substitute.

MINISTER OF MILITIA CANCELS DISMISSAL Bugler Hill Resented Flaunting of U. S. Flag in His Face

EVIDENCE SUBMITTED TO DEPARTMENT DID NOT WARRANT DISMISSAL FROM CORPS.

Ottawa, Aug. 25.—The action of the officer commanding the 95th Fusiliers in Saskatoon in dismissing Bugler Hill for resenting the flaunting of the American flag by a woman in the line of the regiment on July 31 has been sustained by the Minister of Militia and Defence, who maintains that the evidence asked for and submitted does not warrant his dismissal from the service on that account. After the incident had occurred, the Adjutant-General, Colonel Williams, wired Colonel Sam Steele, D.O.C. at Winnipeg, to ascertain if the bugler had been punished to such extent, if the action of the officer commanding the regiment in dismissing Hill was conclusive and fair to all parties, and if the evidence of the bugler and others who had witnessed the incident had been taken into consideration.

"BREWSTER'S MILLIONS" AT HIS MAJESTY'S.

"Brewster's Millions" presented by the Al. Rich Production Co., at His Majesty's Theatre on Saturday evening was a distinct success. The novel conditions under which a young man inherited a huge legacy and the thrilling incident in which he figures, combined with the inevitable love affair, appealed to the large audience. "Monty" Brewster was to receive in one year, the sum of seven millions under his uncle's will, conditionally upon spending in that time all the money he possessed. He was to take nobody into his confidence, must not engage in any matrimonial entanglement, and be neither stingy nor spendthrift. To enable him to do this he opens an office and starts his friends by his extravagances and apparently insane methods. He entertains lavishly, gives handsome presents, makes a "star" of a chorus singer, publishes a book for a young lady, saves a bank from failure by refusing to withdraw his money, buys stocks that are sinking and backs horses that have no chance, etc., etc. Mr. Louis Nissen at "Monty" was perfect and he was supported by a capable company.

Hebert, of Sherbrooke, who are among the oldest and most esteemed residents of the parish.

A large number of friends from Sherbrooke, Clifton and other places assembled and solemn high mass was chanted at the Church of St. Edwidge by the Rev. Abbe Morache, parish priest, assisted by the Rev. Abbe Favreau, of Clifton, and the Rev. Abbe E. Gervais, of the Seminary, Sherbrooke, as sub-deacon. The parish priest made a suitable address, congratulating the worthy couple on having attained to their golden wedding day and saying that nothing was more pleasing in the sight of God or men than a Christian marriage, blessed and blessing. He concluded by wishing Mr. and Mrs. Hebert many years of happiness together. After mass a sumptuous luncheon in the open air was served at the home of the host and hostess, when various addresses were made and cordial good wishes extended.

Mayor Desjarlais, of Clifton; Mayor Hebert, of Sherbrooke, and Hon. Justice Hebert, of Woonsocket, R.I., were among the speakers.

Some sixty guests were present and the afternoon was pleasantly spent in music, singing and the recalling reminiscences of the earlier days in the Townships.

"SOME HA'E MEAT, AND GANNA EAT"

So Bobby Burns tersely describes the rich, but still poor, dyspeptics. But their case is not now so desperate as when Burns wrote. For the man who has the food now can eat without suffering for it, if he just follows the meal with a Na-Dru-Co Dyspepsia Tablet.

These remarkable tablets banish the troubles of the chronic dyspeptic—the man who is bilious—the sufferer from heartburn, gas on the stomach or occasional indigestion. You can eat hearty meals of wholesome food—and digest them, too—if you take Na-Dru-Co Dyspepsia Tablets.

Compounded by expert chemists, after probably the best formula known to medical science, they are quick and certain in their action, giving prompt relief from all forms of stomach trouble, toning up and strengthening the digestive organs and bringing about permanent cures.

A man is no stronger than his stomach. Fit yourself for your best work by taking Na-Dru-Co Dyspepsia Tablets, 50c. at your druggist's, National Drug and Chemical Co. of Canada, Limited, Montreal.

THAW WILL GO TO COATICOOK ON WEDNESDAY

(Continued from Page 1)

all depended on what move the defence will make.

The prosecution admit that the commitment is not legal, but it is understood that steps may be taken to amend this.

It is thought that this could be done by having the commitment amended so that it would read that Thaw was ordered to appear before the Court on a certain day.

Supposing this was granted, it would be quite easy for the prosecution to state, when he came before the Court, that they had no evidence to adduce, and as a result he would be discharged.

Then the Immigration Department could step in and take charge of Thaw.

CANNOT ELUDE OFFICERS.

"Rumors of possible trouble for the immigration authorities between the time that Thaw is technically freed Wednesday and his apprehension by them have been laid to rest by a wire sent to Sheriff Aylmer by the Minister of Justice and acting Minister of the Interior to the effect that Thaw shall not be released from jail until taken in charge by the immigration men. The latter have no intention of allowing their prospective guest to slip through their fingers, and it is stated, that it may even be forbidden for any visitors but his counsel and his physicians to see Thaw in his ward.

Warden Laforce of the goal here stated that he did not place the slightest confidence in rumors of an attempt being made to kidnap Thaw either by his friends or by the State of New York. "If I had any reasons for apprehension," he stated, "I would long ago have put Thaw in the ward."

FORMER DISTRICT ATTORNEY JEROME EXPECTED TO-DAY.

American officials now in the city are hourly expecting the arrival of former District Attorney Jerome, the man who conducted the case for the prosecution in Thaw's trial in New York for the murder of Stanford White.

Mr. Jerome resides in Connecticut, and it is possible that he may make the trip to Sherbrooke by automobile.

THAW IN GREAT DEMAND.

If Canada does not want Thaw there are several of the states of America that do, according to reports received from attorneys from several states. "Send him to New Hampshire last evening. Vermont get him," said an attorney from New Hampshire last evening. Vermont attorneys are not slow in pressing for the fact that in Vermont Thaw would also be safe. The notoriety of defending Thaw, for say nothing of the remuneration, appeals to members of the legal profession, and as a result lawyers in various states are doing their utmost to induce Mr. Thaw to make his fight within the confines of their respective states.

HAD TO HAVE A PICTURE.

An amusing story is told by a visiting newspaperman showing the strategy necessary to be a successful newspaper photographer. The photographer for a leading metropolitan paper had found it practically impossible to get where he could photograph Thaw. A call down from his office did not add to his peace of mind, and as a last resort he went to the jail to try his luck for the last time. Focusing his instrument on the window of Thaw's window he let out a blood-curdling yell. Thaw came to the window and the picture man got a picture of him, which is said to be one of the best yet shown. Saturday night he left for home, happy as a lark.

HOW THAW SPENT SUNDAY.

Coatless, disheveled and with the week-old stains of travel not all erased, Thaw spent a good part of the day looking out over the serene valley that stretches away to the east from the jail. The pine table supplied him for his increasingly voluminous correspondence was buried under a mass of letters and telegrams. On a sheet of yellow paper he had carefully deposited the ashes and stumps of the many cigars he smoked. The confusion of papers was in marked contrast to the spotless cleanliness of the cell. The floor is scrubbed daily like a ship's deck; the walls are newly whitewashed.

An earthen jar on the window sill held a battle of sweet peas.

"Who sent the flowers?" Thaw was asked.

"I don't know," he said.

The governor said he did not know who had sent them. "A little girl, maybe," he smiled. Then, breaking into French, he asked a warden if he knew. The warden shook his head.

Thaw laughed at the recurring rumors that attempts would be made to kidnap him. "The whole trouble is," he exclaimed, "that they send a guard up to watch me every time I have a caller. This keeps them trotting up and down stairs and disorganizing the jail equipment. You can make a good story out of the kidnapping stuff, though," he added.

"Why not something like this: 'Arrested things sent across the border by Canada; clash between United States and Canada over Harry Thaw?'"

"Have you seen Roger Thompson since his arrest?" Thaw was asked.

"Thompson who?" he evaded.

"Was he a good chauffeur?" in interviewer insisted.

"I told you my lawyers found me reasonable," said Thaw, rising and gesticulating with a cigar stump. "If I answered any such questions as that it would not be very reasonable would it? I retained counsel for Thompson because he is a British subject, wrongly involved in my case. They tell me he was born in Toronto."

"Gentleman Roger," lounging in another cell, had no statement to make except, "I've admitted that I'm Roger Thompson; and that I drove

Thaw in a car when he escaped. That's all I am going to admit. They have got a lawyer for me now and things look better."

THOMPSON A TORONTONIAN.

Thompson handed out a history of his life as follows:

"Mitchell Harrison Thompson was born at Toronto, Canada, about 34 years ago of respectable Irish parents. At the time of my birth my father was a Toronto police officer. My father died when I was about four years old. Shortly after I was brought to New York City by my widowed mother and have lived there ever since. My mother's father and mother were living in New York and my mother left Canada with my brother and sister and myself to live with them in New York City."

After giving a list of his employers he added: "My brother and sister are both married. I am single and live with my mother, who remained a widow. I have never been accused or indicted in any country or court for any crime other than auto speed and have not lost one year's work since I left school about twenty years ago. Go to these people I have mentioned and ask them about my character and you will get a good line on the life I have led. Roger Thompson (the Roger I assumed), is no more than a nickname that was given me by my chums and seemed to stick. I gradually got to be known as Roger among my chums. This can be confirmed by inquiry among them. The people here have been very kind to me and have shown me every consideration possible, and I am sure when these facts of my life are verified they will not, on my first visit to the land of my birth, try to persecute me."

OPINION IN OTTAWA.

Ottawa, August 25.—E. Blake Robertson, assistant superintendent of Immigration, returned to Ottawa Saturday from Sherbrooke and was closeted with Hon. C. J. Doherty, Minister of Justice, and acting head of the Department of the Interior and Immigration. Mr. Robertson reported that the Thaw proceedings were at a standstill, and would likely remain so until Wednesday, when the present adjournment terminates.

It is probable that Mr. Robertson will return to Sherbrooke to-day or to-morrow, the expectation in official circles is that Thaw will have decided by Wednesday that the prolongation of his stay in the Sherbrooke jail will not help him and the case will move rapidly. The officers of the immigration branch will be on hand on Wednesday to deport Thaw according to their instructions should the court proceedings terminate.

Letters are still coming in at the office of the Government from people who object to the deportation of Thaw. A number of these appeals appear to be the result of an organized effort to arouse public sympathy in Thaw's behalf. Many of the letters have come from as far west as Toronto.

CARNEGIES AVOID CALLERS.

New York, August 25.—Mr. and Mrs. George Lander Carnegie, sister and brother-in-law of Harry K. Thaw, who got back from Sherbrooke, Canada, could not be found at the Hotel Gotham, where they live when they are in town.

It was said at the desk that no information as to the whereabouts of the Carnegies could be given out. The maid in the Carnegie apartment said that she did not know when Mr. and Mrs. Carnegie would be in.

Evelyn Nesbit Thaw could not be reached for interview either. She sent word through William Hammerstein that she would have nothing to say for publication.

THAW AUTO IS CLAIMED.

Rochester, N. H., Aug. 25.—Automobile No. 36284 N. Y., in which Harry K. Thaw is supposed to have made his flight from Matteawan, at times attained the speed of eighty miles an hour, in the opinion of Richard R. Fox, who took possession of the car for the owner, John Collins of New York.

Fox found all the tires in bad condition, but the machine was not greatly damaged.

WAITS FOR CANADA TO ACT.

Washington, Aug. 25.—Gov. Sulzer's message to Secretary of State Bryan, asking that the Canadian authorities be requested to deport Harry K. Thaw, was received at the State Department today.

Mr. Bryan replied that as the Thaw case involved the application of the Canadian Immigration law, the United States Government could not act, but that steps had been taken to inform the Canadian authorities of Thaw's escape from Matteawan.

Secretary of Labor Wilson wired to acting Governor Glynn that he could not find any law that would authorize the Department of Labor to ask the Canadian Government to deport Thaw.

HOW VERMONT AND N. H. COULD DEPORT THAW IF NECESSARY.

New York, Aug. 25.—Examination of the statutes of New Hampshire and Vermont do not reveal authority for the extradition of Thaw from either of those states to New York on the ground that he is an escaped lunatic. The statute covering extradition relate only to fugitives from justice from another state who must be charged with a crime committed in that state.

This was the interpretation of the two states given by competent attorneys of this city. It was pointed out that the warrant charging Thaw with conspiracy issued by the authorities of Dutchess County, N. Y., could be made the basis for extradition proceedings.

It was held that if the question were then brought up in the state where extradition was asked that

Thaw, being insane, could not have committed a crime—that this question could not be adjudicated by the authorities of that state. The question would be for the New York authorities to decide after his extradition, it was said.

WATCH THAW HEREAFTER.

Matteawan, August 25.—If the authorities succeed in bringing Harry K. Thaw back to the State Hospital, he will not be allowed to have the privileges that ordinary patients enjoy. Dr. Kieb, the superintendent, made this declaration yesterday.

"Thaw did not have any extraordinary privileges when he escaped," said Dr. Kieb. "When I came here I found that he was enjoying privileges which I thought were an injustice to the other patients, and which had been granted to him by a previous administration. I at once cut off these privileges. If he comes back many of the privileges granted ordinarily to other patients will be taken away from him."

The number of guards at the hospital has been increased and attendants now patrol both inside and outside the walls.

THAW CAR'S WILD RUN.

Rochester, N.H., August 25.—Automobile number 36,824 N.Y., in which Harry K. Thaw made his flight from Matteawan, attained at times a speed of eighty miles an hour, according to Richard R. Fox, who has taken possession of the car for John Collins, of New York, the owner. The machine was not badly damaged.

TRACE BUTLER AND DUFFY.

New York, August 25.—The local police so far has been unable to find any trace of the men who aided Harry Thaw in his escape from Matteawan. The detectives who have been working on the case reported Saturday that neither Duffy nor Butler was in New York City.

They found that on last Wednesday night Butler and Duffy visited several saloons in the vicinity of West Twenty-fourth street, and spent considerable money, at the same time boasting of having fooled the police. They said they were going to Atlantic City. The detectives said they found that O'Keefe lived in the neighborhood of Third avenue and Ninety-third street, and that the man had spent several days at the home of Butler previous to the escape of Thaw.

MRS. THAW SAYS IF HARRY HAD BEEN POOR, THEY WOULD HAVE LET HIM GO.

Johnstown, Pa., Aug. 25.—Seated in her summer home at Cresson, on the summit of the Alleghenies, Mrs. Mary Copley Thaw, mother of Harry K. Thaw, listened to reading from the office of the Johnstown Tribune of despatches detailing the day's developments in the case of her son at Sherbrooke, Que. Rumoring comment from the other end of the telephone displayed keen interest in various phases of the case and occasionally a burst of scornful dissent or criticism made the reader's job far more monotonous.

Mrs. Thaw was very much interested. (Continued on Page 8)

CITY WILL NOT ACCEPT ASPHALT

Final Decision on Question Reached by Council on Division

MATTER HAS BEEN SOURCE OF MUCH DISCUSSION AMONG THE ALDERMEN.

At the Council meeting on Friday night the Mayor referred to the presence of a representative from the Canadian Mineral Rubber Company, who was anxious to know what the Council intended to do with reference to the stock of asphalt stored in the city's sheds.

Ald. Denault suggested the matter be left in the hands of the Chairman of the Road Committee.

Ald. Simoneau was sure the Council would turn down the road committee's recommendation as they had done for the last three years. The matter had been dragging along for over a year and it was time it was settled. He moved: "That this asphalt be purchased from the company and be paid for within one year as it may be used."

Ald. Thompson quoted the report of the committee of August 4th., recommending that Montreal and Brooks Streets be laid in penetration pavement providing the proprietors pay one half of the cost and the Canadian Mineral Rubber Co. were willing to sell from the material already here, any quantity they required. That report was adopted by the Council and the only difference between that and Alderman Simoneau's motion was to bind the Council to take it within a year. Under his (Alderman Thompson's) recommendation if the material proved good they would probably want it all, but if it proved bad they would not require any more.

Ald. Brault seconded Ald. Simoneau's motion.

Ald. Darbois agreed with the views of Ald. Thompson.

The representative of the company, asked that the heater be embodied in the resolution.

Ald. Thompson objected to that as the heater would cost from \$350 to \$400 and they may only use a small portion of the asphalt.

The Mayor thought the question should be definitely decided as to whether they purchased the asphalt or not.

After further remarks from Aldermen Darbois, Denault, Simoneau and Thompson the vote was taken and the motion was lost by 5 to 4. For—Genest, Simoneau, Brault and Truiner.

Against—Jencks, Thompson, Ewing, Darbois and Denault.

SIDING TO C.P.R.

The question of the construction of a siding from the C.P.R. siding to the new site of the Connecticut Mills Cotton Co. was referred to the city attorney.

RAIN STOPPED FIRES.

Scotstown, Aug. 25.—(Special)—The rain of Friday evening and Saturday was welcomed in this district. Everything was so dry that there was a danger of bush fires starting up. Incipient fires that had started up were, however, put out by the heavy rain.

THAW WILL GO TO COATICOOK ON WEDNESDAY

(Continued from page 7.)
ed in a telegram detailing Dr. Britton D. Evan's activity in behalf of Thaw. She caught the words "Thaw's millions," and instantly checked the reading. Scorn tingled over the wire in the repeated words:

"Thaw's millions! Why, one might imagine we were Vanderbilts or Astors! Why, look here. Mr. Thaw, when he died, left an estate of \$19,000,000 to be divided among his 10 children, myself and a number of benevolences. It's positively ridiculous. 'Thaw's millions'! And some of them have been after Thaw's millions ever since they put him in Mat-tewan."

Once more a statement made by Dr. Evans stirred Mrs. Thaw. "Yes," she exclaimed, "Dr. Evans is just right. If Harry had been a poor man they would have let him go right after his first trial. But he was a member of a wealthy family and had to suffer. That's just it. He's been punished because of his wealth, which some have imagined to be much more than it is."

A few moments later Mrs. Thaw again interrupted the reader: "Let me tell you and all the correspondents at Sherbrooke and in New York and elsewhere that Roger O'Mara is not Harry's guardian. Grown men do not have guardians. Mr. O'Mara is Harry's trustee in bankruptcy. That's all."

Mrs. Thaw in the remark showed her idea of her son's standing before the law in Pennsylvania and incidentally indicated that she never had even raised in her own mind a question as to his sanity. In her opinion Thaw is sane in his home state, although insane in New York.

Mrs. Thaw apparently does not intend to leave Elmhurst for some time.

WHO DOES THIS AIRMAN WANT?

Aeroplane Seen Flying Over Victoria Park To-Day

IS HE AFTER HARRY THAW?—CIRCLED PARK SEVERAL TIMES.

Considerable excitement was aroused here about half-past 12 o'clock when an aeroplane was seen flying above Victoria Park. It circled over the park several times, coming quite low on several occasions and then went towards Bromptonville.

Later the aeroplane returned to a position about the park and then went away in a westerly direction. Curiosity has been aroused as to the presence of an aeroplane in the vicinity of Sherbrooke, more especially when it came unheralded, and at a time when so many rumors are going the rounds in connection with the Thaw case.

Some go so far as to state that the "strong arm gang" from New York has arrived, and that every precaution must be taken or else Thaw will be taken through space to a point where he will be perfectly safe from New York authorities.

Who the airman was or where he was headed for has not been found out, as he has not yet come down to earth.

THAW IN SHERBROOKE

(Continued from Page 1)
\$2,000,000 to do this with far less success."

Will the next scene of the Thaw case be at Newport, Vt.? The next question is, how many "astute" lawyers has Vermont? There will be a job for them all.

A Sherbrooke man in New York writes: "With all excitement in this quiet burg coming by wire from Sherbrooke, one finds it difficult to amuse himself during the short delays between the newspaper extras. Yesterday afternoon I dropped into the Hammerstein Theatre to see Evelyn Nesbit Thaw dance. Her's is a clever little act and elicited much applause. She is very graceful and winsome. I thank you very, very much," was her acknowledgment to the audience for repeated encores. Incidentally, the Sherbrooke happenings do not lessen attendance at the show just off Broadway."

Dr. Britton D. Evans, the alienist, who came to Sherbrooke with Mr. and Mrs. Carnegie, has issued the following statement:

"I left Mr. Thaw physically as strong as he was when I last saw him. He is mentally as sane and calm as a child and would expect any normal individual to be, subjected to a continuous strain such as he has been. He is surrounded by able counsel, who will, I believe, protect his interests. If the people who are knowingly or unknowingly persecuting him do not succeed in bringing about nervous prostration or mental breakdown, it will not be because they have not used every available force and means within their reach. Mercy, the milk of human kindness, and the fellowship of man find no place in the hearts of these people who have been hounding this man, who has been tried and found 'Not Guilty' in the sight of the law."

"It is wonderful," remarks a New York paper, "how Thaw has crowded Suizer off the front page of the newspapers." Another paper of the metropolis remarks, "The centre of the universe is constantly shifting. One day it is Mexico, the next it is Albany, now it is Sherbrooke. Where next?"

Thaw says when he is freed he will entertain his Sherbrooke well-wishers at the biggest banquet they ever attended. Judging from the remarks of the man on the street, there would be some large attendance, and the dainty bouquets that have found their way to his present quarters indicate that the function would be graced by the presence of the ladies.

The New York Sun says, editorially: "One of the probable results of the escape of Thaw from Mat-tewan into Canadian territory will be to produce a new chapter in the medico-legal extravaganza that stands for the views of the law upon lunacy. We already know the sort of evidence required to prove that a man was irresponsible when he committed a crime. We are likewise aware of the practical effects upon a lunatic's status of his passage to another State jurisdiction. But we have yet to learn what talent can do in the way of proving a man sane in Canada who was insane by court decision within the borders of this State. There are those who regret the prospect of a repetition of all the fantastic and sensational innuendo that has been poured out in Thaw's previous days in court. Such persons forget the genius of the experts for finding new things to say. If the latest prank of the man from Mat-tewan leads to his lawyers and specialists out-herding Heralds in their efforts in his behalf, it will at least, we may confidently expect, not end in dullness or mere reiteration. What are brains for?"

The Boston Globe indulges in a little salliness at the expense of the clever city detective. The country "constable" did the trick. The Globe says: "Sherlock Holmes has been beaten at last, and by a country deputy sheriff from Coos County, N. H. Sherlock, followed closely by Dr. Watson, was fast tracing out the itinerary of Harry Thaw by the aid of an imprint of a cut in the rear right hand wheel of Thaw's automobile, and was almost certain of his quarry by the toothmarks left in a half-eaten ham sandwich that Harry carelessly discarded in his flight. In a few more hours Thaw would have been cornered and Sherlock would have done the trick once more. But a rural deputy by a simple twist of a questioning jaw and the flash of a cross-roads eyeball beat Sherlock out. It was a sure enough Yankee in the person of Burleigh H. Kelsea who nailed the fugitive. After Thaw was in the country lockup Kelsea wired the New York authorities of his success and claimed the \$500 reward. This prompt act proves that he is a genuine Yankee. The detectives of four States who might have intercepted Thaw should take off their hats to Kelsea. But they won't, and Kelsea don't care if they don't, provided he gets the five hundred. The time, the place and the reward always appeal to a genuine Yankee."

LOSS OF LIVE STOCK.
Bishop's Crossing, Aug. 25.—(Special)—Mr. L. J. Hooker has had the misfortune to lose four yearlings in the last month. The cause of their deaths is unknown. There were five cattle in the pasture, and one was found dead first, and in a few days another, and a little later two more. Only the bones remained of the last two, consequently they must have been the first to have died, but were the last to be found. The fifth is all right at present, but has been moved to another pasture.

LABOR UNREST IN LONDON

Thousands of Men Are Affected by Many Strikes in the Metropolis

THERE ARE STILL THREATS OF FURTHER TROUBLE IN THE BUILDING TRADE.

London, August 25.—(Special)—Recurrence of labor unrest in many forms is evidenced by the fact that half a dozen strikes are now in progress in London. Thousands of men are already affected and there are threats of still further trouble. In almost every case the demand is for increased wages, although question of trade union recognition figures prominently in some disputes.

The building trade is the one most affected. At any moment 50,000 laborers in the Metropolis may adopt a "Down tool" Policy, and their action would involve another 150,000 skilled artisans. Laborers are asking for code of rules, an increase of wages and same treatment as that meted out to skilled workmen. Renovation of Buckingham Palace, it is understood is in no danger of being delayed by strike, as men have no grievance against contractor who has work in hand. Masters regard the campaign as the beginning of an organized movement for suppression of non-unionists.

PECULIAR ACCIDENT AT MASSAWIPPI

Boy's Fall From Auto Broken by Striking a Pedestrian

MACHINE WAS GOING AT RATE OF THIRTY MILES AN HOUR AT TIME.

Massawippi, August 25.—(Special)—A rather peculiar accident fortunately unattended by very serious results occurred here on Friday. Just a short distance above the village an automobile was being driven at a rate of speed of about thirty miles an hour. In crossing a wooden culvert the occupants were lifted from their seats. One boy, who was standing up, was thrown out. Just at the moment Mr. H. Mosher was passing, and the boy in his flight from the auto struck him on back. This had the effect of breaking the boy's fall, and in all probability saved him from serious if not fatal injuries. As it was the lad was somewhat dazed, but was able to proceed in the auto, which shortly afterwards resumed its journey.

It is needless to say that Mr. Mosher received quite a surprise, but he, too, escaped without any serious result.

BUSH FIRES STARTED UP.
Lake Megantic, Aug. 25.—(Special)—Bush fires started in many places during the past few days. On Friday night a fierce one was raging near Victoria Bay and another one in the St. Ovide district. But up to the present no dangerous fires have been reported in districts near here where lumbering operations were carried on last winter. The presence of Mr. Roche, the fire inspector, and the fire wardens in this section, and the recent prosecutions against delinquents have had a wonderful and beneficent effect in the careless starting of fires.

BOY SCOUTS IN CAMP.
Farnham, August 25.—(Special)—The Farnham Company of Boy Scouts, under the leadership of Capt. Guy Bowker, left on Saturday for a couple of days' camping out up the Yamaska River, near the Parkins' farm.

RAIN FILLED WELLS.
Lake Megantic, Aug. 25.—(Special)—A much needed and welcome rain fell here during Friday night and Saturday morning. Vegetation was becoming parched and dry for the need of it, and many shallow wells had dried up. Many farmers were hauling water during all of last week for their family use, and stock had to be driven to water.

Farnham, August 25.—(Special)—A full set of the Pickering wheels have been sent to the Toronto Exhibition; also a partial set will be on exhibition at the Sherbrooke Fair. The demand for these wheels is increasing, and arrangements are being made to enlarge the works.

SMALL BOY HAD LEG BROKEN.
Cowansville, Aug. 25.—(Special)—The young son of Mr. Rheame, expressman, had his leg broken below the knee on Friday afternoon by a horse rake falling upon him. M., marched in a body, accompanied by many members of the order from St. Johns, Cowansville, Sherbrooke, etc., to the Methodist Church, which was crowded to the doors. Owing to the recent severe illness of the Rev. Mr. Huxtable, the service was held and a most eloquent sermon preached by the Rev. W. S. Lenton, of Granby. After the service the brethren, to the number of 125, marched back to the Masonic hall. The visiting brethren were entertained at J. H. Martin's hotel.

OCCUPY NEW BANK PREMISES.
Danville, Aug. 25.—(Special)—Members of the staff of the local branch of the Canadian Bank of Commerce took possession of their new and commodious quarters over bank. There are five bedrooms, of which is most comfortably furnished. The mission scheme has been followed out in the furnishings, and each has a large centre on the floor, giving a most homelike appearance to the rooms. The clerks occupy the entire storey.

Besides the bedrooms there is a very cosy and complete sitting room with a fireplace in one corner. They are fitted with easy chairs, tables and tables. The bathroom arrangements are the most complete, every device known has been incorporated in this part of the building. The equipment of the rooms and the authorities have furnished to the utmost detail to the care and comfort of the staff. It speaks well for management that they should manifest for their employees the thoughtfulness that they have apparently shown.
