THE BRITISH COAL DUES

IMPORTANT DEBATE IN THE BRITISH HOUSE LAST NIGHT—A MINERS' STRIKE PROBABLE.

London, May 2.—The full House and galleries had to wait until nearly six o'clock for the beginning of the coal tax debate. Sir William Vernon Harcourt led with a severe, almost violent, arraignment of the Government. He said the tax would throw the coal trade into chaos and confusion. It recklessly disregarded existing contracts and was a most unbusinesslike way of dealing with a great trade. It was an extraordinary and vexatious piece of bungling. It was nonsense to say the foreigner would pay the tax because he could not do without the coal. But the Government of Italy had answered by taking coal from America instead of this country. The trade of France was equally divided between this country, Germany and Belgium.

THE PENSIONS FOR MILITIAMEN

CONSIDERABLE DISCUSSION ON THE YUKON ITEMS—MR. HAGGART SCORES TARTEISM IN THE AWARDED OF GOVERNMENT CONTRACTS AT EXORBITANT RATES TO PARTY FRIENDS.

(Special to the Chronicle.)

Ottawa, May 2.—There was a caucus of Liberal members this morning, when it was understood nothing definite was decided on in reference to the extra five hundred dollars indemnity, but confidence was expressed of being able to prorogue before the 24th.

On motion of Hon. Dr. Borden for the House to go into committee on the resolution declaring "that it is expedient to provide that pensions or gratuities may be granted to staff officers, officers and men of the permanent militia force, and to the widows and children of such officers," Hon. Mr. Wallace asked whether retired men who had been staff officers would come in under the resolution.

The Minister said they would not, because they had got their money.

Mr. Clarke, of West Toronto, said that he had communications containing information of retired veterans who had been 25 years in the service and had gone through both the Northwest rebellions, who were in distress and on the verge of the poor house. He urged that these men should be considered in any relief measures.

Dr. Borden said they might come in for special consideration in individual cases.

When Col. Prior asked that provision should be made in the resolution before the House, the Minister thought it would be better to discuss the matter at the committee stage.

The resolution was passed, and the Government got permission to draft a bill.

YUKON ITEMS.

After these the House went into committee on the Yukon items. Many Opposition seats were vacant. Mr. Sproule seemed to be doing the leading of the nine or ten Conservatives in attendance. Hon. Mr. Haggart, however, was also on deck and expressed his opinion in very forcible terms in committee on Mr. Tarte's extravagance generally, especially in the noted Charleson Northwest supplies account.

He said the system which had been going on during the present administration of buying from certain friends at exorbitant prices was a most reprehensible one, and was not even beneficial to the Government, as they made ten jealous enemies to one grateful friend. He pointed out that during his administration of the Railway Department every important expenditure was by an advertised tender. He very strongly recommended the system which prevailed in Great Britain, of a published book schedule of every conceivable article likely to be required, with its fixed Government prices, and the public, when supplies were needed, were invited to tender at a fixed sum over or under.

Mr. Tarte had no particular opinion to offer on the suggestion, and managed to worry through his batch of Northwest items about eleven o'clock, when general canal items were taken up, Hon. Mr. Blair being again on his defence.

FLOODS AT CHICOUTIMI

Chicoutimi, May 2.—The Pulp Company, of Chicoutimi, has received a very severe check to its summer operations, by the washing away of about 350 feet of the land forming the southern wing of its new dam, recently constructed at a cost of nearly \$40,000.

The river, instead of going over the dam has formed a new course for a distance of about four acres. Yesterday morning there were fears that the Pulp Mill, which is situated on an island lower down the river, would fall a prey to the violence of the water, which flowed down its now unrestricted course, with tremendous velocity.

The dam which carried the water to the flume of the Company, in common with a foot bridge adjoining was carried away, and the whole of the work will be stopped for a period of at least two months. In addition to the trouble for the Pulp Company, great inconvenience is felt throughout the town, as the Electric Light Company ran their dynamo from the same power.

The water works of the town are also disorganized, as they were situated in the same river, and as the amount of clay washed away has mingled with the water, there is now a tremendous torrent of mud flowing into the River Saguenay.

CHINESE RISINGS ARE PROBABLE

THE YANG TSE PROVINCES IN A STATE OF FERMENT—BRITISH CONSULS ANXIOUS.

London, May 3.—"The reports of the secret combination out of disaffected elements in the Yang Tse provinces for the purpose of organizing general risings are receiving some confirmation," says the Shanghai correspondent of the Morning Post. "The British Consul at Nankin telegraphs Mr. Brennan, the British Consul in Shanghai, that the Nankin Viceroy is very anxious about the Yang Tse movement, and asks Mr. Brennan to assist the Taotai to preserve order by holding troops in readiness."

"It is announced from a German source that the French have withdrawn their troops from Hwai Lai to Pao Ting Fu, thus leaving the Germans in sole possession of all the passes into Shan Si."

THE STEEN AFFAIR

Montreal, May 2.—The dispute in English Church circles in this city, which has arisen in connection with the resignation of Prof. Steen from the Diocesan College, is likely to come before the Courts. It is believed that Prof. Steen will refuse to give up the license granted to him by Archbishop Bond, in which case it will be revoked and the matter will be brought before the courts.

NEW RUSSIAN LOAN

Berlin, May 2.—The Vossische Zeitung prints a special despatch from St. Petersburg announcing that Russia has virtually arranged with France for loans amounting to 500,000,000 francs, and that another Russian loan is being negotiated with English and American bankers in London. The despatch further says that the Czar is planning for a trip abroad during next August, and that he will visit Copenhagen, Darmstadt and Vienna.

A MURDER CAUSED SUICIDE

Harrisburg, Pa., May 2.—Despondency over the murder of his friend, Cashier Charles W. Ryan, of the Halifax National Bank, of Halifax, recently, in an attempt to prevent Henry Rowe and Watson Keiper from robbing the bank, to-day led John Kohler cashier of the Millersburg National Bank of Millersburg to take his own life by shooting himself in the head with a revolver. He was 56 years old.

A POISONING CASE

Middlebury, Vt May 2.—The hearing of Nelson C. Jones, charged with the murder of Ida Fosburg by poisoning on March 12th at Shoreham, was opened here to-day before Justice O. P. Moore. Dr. Walter D. Berry, of Waterbury, told of examining the viscera of the dead woman and gave it as his opinion that Ida Fosburg died from strychnine poisoning.

A. Whittings, a druggist of Rutland, testified that he had received two letters from Shoreham signed by Nelson Jones, asking for poison.

F. W. Churchill, of Brandon, a drug clerk, testified that he sent 15 grains of strychnine to Ida Fosburg at Shoreham, March 2.

IMPORTANT JUDGMENT

Ottawa, May 2.—An important judgment has just been given by Mr. W. L. Scott, Master in Chancery, in the case of the suit of the Union Bank vs. J. W. McRae and others. The suit involved the sum of \$39,000 and judgment went against the defendants, Messrs. J. W. McRae and Hector McRae were executors of the estate of the late John Nicholson. J. W. McRae, as executor, signed the note in question and gave certain limits to himself as security. The bank contended that though J. W. McRae had signed the note as executor, his signature made him personally responsible. Mr. McRae contended that the limits should not be sold.

The Master, in giving judgment, held that J. W. McRae was personally liable, and that the limits should be sold.

CAN'T IDENTIFY HER

Halifax, N.S., May 2.—All efforts to discover the identity of the woman who shot herself at the Halifax Hotel have failed. The authorities at Wolfboro, Mass., say that the woman is not Mrs. Cross. The description given of the woman who arrived at the Dufferin Hotel, St. John, on Monday from Boston, and that of the dead woman are the same. The police authorities have communicated with various points about here, but have learned nothing that would lead to her identification.

CHRONICLE TELEPHONE, No. 45. QUEBEC, MAY 3, 1901.

HONOR TO WHOM HONOR.

The news was received yesterday that one of the most distinguished of the many brave fellows that left Canada to serve in the South African war, Major R. E. W. Turner, V.C., D.S.O., son of Hon. Richard Turner, of this city, has taken passage on board the Tunisian for Canada. When Major Turner left us, he did so with an excellent reputation as a zealous and intelligent cavalry officer, devoted to his profession, and during his arduous service in actual warfare, he has fully sustained that character, and comes back to us with the enviable distinction of the Victoria Cross, and a member of the Distinguished Service Order. We congratulate his parents and family on the prospective safe return to their midst of the young hero of whom not only they, but his native city, and the whole Dominion, may be justly proud, and we trust that steps will be taken to mark on his arrival here the high estimation in which he is held by his fellow citizens, and the hearty welcome with which they receive him back.

THE CHAMPION PROJECT.

The acquisition of the Leyland Line of steamers by the American Trust King, J. P. Morgan, has excited a great deal of attention in some quarters and evoked both a languid interest in others, according as its significance has been represented. Mr. Glynn, a director of the Leyland Line at Liverpool, divests it of more importance than that which attaches to a somewhat large transaction, and said that all that Mr. Morgan sought was to obtain sufficient ordinary shares of the Company to give the American syndicate represented by him the right to nominate two directors. The transfer, he explained, concerned the Company's interest in the American, Mexican and West Indian fleets, and Liverpool would not, at least for a year or two, be affected by the tenor of the shares. According to other information, Mr. Morgan's deal with the Leyland Line is of a less limited scope, the intention being to secure for the New Orleans traffic of the Illinois Central Railway a certain number of ships on which it can depend. This sort of a thing is, as our readers are well aware by no means a new departure, and a Montreal contemporary points out that "several other railway lines have relations more or less close with steamship companies, consisting usually, however, of a simple agreement like that between the Grand Trunk and the Dominion Line for Portland, and that between the Great Northern and Leyland Line for Quebec. The Illinois Central management evidently believe that a still closer relation would be to their advantage, and to that end they appear to have arranged for the purchase of enough stock to secure control of the line." This statement is a decided advance on that made by Mr. Glynn, who said that all the Americans sought was the nomination of two directors on the Board of the Company, but even this is thrown in the shade by the New York Journal, which announces in sensational headlines that the Atlantic is to be an American lake; that such is the purpose of the new ocean steamship line combine formed by the American Trust King, J. P. Morgan; that the Leyland purchase is the first step of a policy by which the company expects eventually to control the traffic on two oceans and the Mediterranean, and to get the trade to the Far East. It says that a new giant fleet is scheduled now, that ten huge steamers, one of them to be fitted with a theatre, will be constructed at the cost of \$50,000,000, and that the billion dollar Steel Trust will reach from the Far East to Europe by the purchase of steamship lines, and its alliance with the railroad combine. The first step to all this is the purchase of an interest in the Leyland Line of steamers, and the probable control of the Atlantic Transportation Company, eighty-five steamers in all. That something more is on the tapis than the accommodation of the Illinois Central Railroad is evident from the fact that the Leyland Line had already made a contract with that Company for additional ocean tonnage from New Orleans, by which it was to furnish four steamships a week from that port for Liverpool and other European ports; and some color is given to the sensational report of the Journal by the statement that Mr. Morgan is negotiating for the acquisition of the Dominion and Johnson lines, with how much truth it is difficult to say at present. The eighty-five vessels claimed for the new project can be accounted for as follows: those owned by the Leyland Line, those owned by the Atlantic Transport Company, and those which the American railroad combine is about to place on the Pacific. Negotiations had already taken place for the consolidation of the first two lines, but fell through for the time, owing

to a difference of opinion as to how the stock should be issued.

The Leyland Line, which now numbers about sixty vessels, has been extending its operations considerably during the past year. It recently bought the West Indies and the Pacific Steamship Companies, and is now building several big ships for freight and passenger service. Its fleet runs from New York, Boston and New Orleans to London, Liverpool, Antwerp, Central America, West Indies and the Mediterranean and Black Sea ports. The company is capitalized at \$75,000,000.

The Atlantic Transport Line has twenty-three vessels running between New York and Baltimore and London. Two large steamships are now being built.

WHAT SHALL IT BE, AND WHERE?

The removal of the carter and their kiosk from the vacant space between the French Basilica and the City Hall, and the contemplated laying of it out into a miniature park, seems to us a fitting occasion for calling the attention of our readers, and the citizens generally, to the fund raised by the Chronicle through the medium of a twenty-five cent subscription for the purpose of erecting a monument to commemorate the bravery of those who left this city with the different Canadian contingents to serve in the war in South Africa. This fund, amounting to between nine and ten hundred dollars, is still lying idle, awaiting a decision as to its disposal, and several suggestions have lately been made to us on the subject. Two things require to be considered; first the site, and next the proportions of the proposed memorial, and on these two we venture to say a few words. First, as to the site: As this project partakes rather of a local than of a national nature, it appears to us that the memorial should be placed in some central part of the city, where access to it can be easily gained at all times, without involving the necessity of a trip to the Plains of Abraham, which is rather out of the way for both the transient visitor and for the great bulk of our own population. There are two sites, both conspicuous, which might be selected, either in the Frontenac Park, or on the square between the great French Cathedral, and the official residence of the municipality of Quebec, and we incline to the latter as the more fitting place for a monument from Quebec city to Quebec boys. In that case, the park now being arranged should be done with an eye to the subsequent erection of the memorial in its centre. Secondly, as to the proportions. The amount raised, though it is satisfactory considering the narrow limits assigned to the individual subscription, is not large enough for any pretentious affair. Still it might be enabled to make a good showing, if supplemented by the city, and would be ample to put up a handsome granite obelisk, after the fashion of Cleopatra's needle, if the city will on its side provide a pedestal of six or eight feet high, with brasses on the four sides containing, first, the names of all the Quebecers who left here, secondly, the death roll, whether from battle or disease, with the place and date of death; third, the list of all the engagements in which the Quebecers took part; and fourth, an inscription narrating the circumstances under which the monument was erected and containing the thanks of the city of Quebec to her soldiers. Some such memorial, thus roughly outlined, would perhaps be more suitable by its severe simplicity, to the military character of the commemoration, than a more pretentious affair; but as we understand, from conversations with several prominent citizens, that the general feeling is that something more worthy of the greatness of the city of Quebec should be done, and that there would be no difficulty in raising, from five to six times the amount in hand, we think His Worship the Mayor, who is always ready to promote everything that tends to the beautifying and adornment of the city, would consult the wishes of the citizens if he called a public meeting to consider the subject, and decide on what steps should be taken, either to use the sum now on hand, or to adopt it as a nucleus for something larger and more imposing.

AQUATICS.
THE ST. GEORGE CLUB.
 The St. George Boating and Sailing Club will hold their official opening at Lake St. Joseph on Saturday, the 12th instant, when every member is expected to be present. So far the club's prospects are very brilliant. Three new yachts will fly the club flag, and there is every probability that Glenair II., the Seawhaka cup defender of 1899, will be secured by one of the club members. There will be plenty of sport at Lake St. Joseph this coming summer to satisfy the most fastidious.

LACROSSE.
YOUNG SHAMROCKS WILL COME.
 A message was received last night from the Shamrock Athletic Club, Montreal, to the effect that the Young Shamrocks had accepted the invitation of the Quebec Lacrosse Club for an exhibition game here on the 24th of May. This is good news for lacrosse enthusiasts and will give the local team some good practice before the opening of the regular league series. The Young Shamrock team this year will be exceptionally swift organization and will make a strong bid for the championship. Quebec will have a good opportunity to show by their form against the visitors, what they are likely to accomplish themselves, towards capturing the trophy.

CONSTITUTION'S MEASUREMENTS.
 New York, May 2. — The Commercial Advertiser says:—The following measurements and description of the new Herreshoff Cup Defender, the Constitution, which is to be launched next Monday night, are from an authoritative source. The Constitution, it is learned is of the same over-all-length as the Columbia—132 feet, and also of the same length on the water line—87 feet 7 inches. There is little difference in the draught, the Columbia drawing 19 feet 7 inches and the Constitution a little less. The Constitution, however, is wider in the midship section by a foot and a half than the Columbia. This will be greatly to the advantage of the new boat when she is heeled over.

RESPECT FOR HER MEMORY
 London, May 1. — It has been officially announced that owing to the mourning for the late Queen Victoria, no drawing rooms or levees will be held this year.

MINING STRIKE
 London, May 1. — Reports from the mining district indicate that a majority of the miners are in favor of a strike. They have had two years of prosperity and the funds of their unions are overflowing. Therefore they are likely to welcome a holiday. It is admitted, however, by Liberals and Conservatives alike that their action will have no effect so far as a repeal of the coal tax is concerned. The whole country condemns the strike which will tend to disorganize all the industries.
 The prospect of a strike has spread dismay among the mill and foundry owners in Lancashire as there are no stocks in hand at the collieries.

Maid.—"Mr. Dawkins paid you quite a compliment the other evening."
 Ethel (eagerly)—"What did he say?"
 Maid—"He said you looked so awfully well he didn't recognize you at first."
 Women with pale, colorless faces, who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills, which are made for the blood, nerves and complexion.

PROVISIONS OF ARTICLE 6814
—OF THE—
REVISED STATUTES OF QUEBEC

1. To the legal representatives of the late Joseph Tenuer, in his lifetime farmer of Hopctown, in the County of Bonaventure, in the District of Gaspe, and to all whom these presents may concern.
 On the twenty-fourth day of November, in the year one thousand eight hundred and ninety-three, by a deed passed before Jos. Mes. Roy, Notary Public, at New Carlisle, in the County of Bonaventure, in the District of Gaspe, James Lamy, of Paspebiac, in the said County, and Mathilda Whitton, his wife duly authorized, have sold unto Walter Cameron Ross, of Hopctown, in the said County, accepting thereof, all the rights, titles, interests and demands belonging and having belonged to him, the said Lamy as universal legatee, being in possession of the estate of his late father, Jacques Lamy, in and to the annual perpetual ground rent and to the arrears thereof accrued since the year one thousand eight hundred and eighty-eight, stipulated by the said Jacques Lamy and made payable to himself, his heirs and assigns, by a certain deed of Bail a Rente, made and signed by the said Jacques Lamy to one Victor Tenuer before Mr. Sheppard, Notary Public, at New Carlisle, on the tenth day of November in the year one thousand eight hundred and thirty-eight, whereby the said Victor Tenuer bound himself, his heirs and assigns to pay the said annual ground rent in the manner hereinafter fully detailed, the same being applied by privilege of bailleur de fonds and by hypothec, on the following described lot of land, to wit: The east part of lot number nine (9) in the first range of the Township of Hope, and measuring about fifty acres in superficies on a front of one acre and a quarter of an acre in front, bounded by the shore of the Baie des Chaleurs, towards the west by the part of the same lot owned by William Powers, towards the east by another piece of land owned by John Alexander Smith, and in rear, at the depth of the said lot, by the second range of the Township of Hope and other properties of which he might come to possess.

2. On the fourteenth day of July, in the year one thousand eight hundred and ninety-eight, by a deed passed before Edouard J. Angers, Notary Public, at the city of Quebec, George LeFebvre representing the firm of LeFebvre and Taschereau, accountants, acting in the quality of curator of the insolvent estate of the heretofore named Walter Cameron Ross, of Hopctown, has sold to Rodolphe Audette, Esquire, of the City of Quebec, merchant, accepting thereof, the stock and fixtures of the shop of the said insolvent, and the whole and universality of the book debts and others mentioned in the list or inventory thereof, of rent then accrued and due to the said estate by the assignees or legal representatives of the said late Victor Tenuer.

3. On the eighteenth day of July, in the year one thousand eight hundred and ninety-eight, the said purchaser, Rodolphe Audette, by a deed passed before the same Notary Angers, has sold unto William Walter Ross, of Hopctown, merchant, accepting thereof, the whole stock, fixtures, book debts and others mentioned in his said deed of sale, as having belonged to the estate of W. C. Ross.

4. On the seventeenth day of December, in the year one thousand eight hundred and ninety-eight, by a deed passed before the aforesaid Notary Angers, at Quebec, the said George LeFebvre, acting as heretofore mentioned, as curator to the estate of W. C. Ross, has sold unto William Walter Ross aforesaid, accepting thereof, all the rights belonging to the said estate of (\$40) forty dollars, payable annually, in effects or produce, and applied on a certain lot of ground, described as follows, viz.: One quarter of an acre of land in front, one acre by thirty-three and one-half acres in depth, situate in the Township of Hope, in the County of Bonaventure, bounded in front by the Baie des Chaleurs, in rear by the second range, to the east by William Smith, and to the west by the representatives of Louis Philippe Tenuer.

The above described property being identically the same as that sold by the said Jacques Lamy, a titre de bail a rente already recited, the same is now known in the cadastral plan and book of reference for the Division of Bonaventure East as cadastral No. 89 of the Township of Hope.

5. On the fourteenth day of June, in the year nineteen hundred, the said William Walter Ross departed this life at Hopctown aforesaid, having by his last will and testament, received at Hopctown before P. C. Beauchene, Notary Public, on the twenty-fourth day of May of the year nineteen hundred, appointed his universal joint legatees his two brothers, Colin Ross and John Scott Ross, and his two sisters, Lydia Ann Ross and Laura May Ross, so that all his moveable and immovable properties were to be equally divided between them.

The testator also stipulated that his said brother, receive and sue for all his active debts whatsoever and rents due and to become due, and reverse the proceeds of said debts and rents to his said brother and sisters one-fourth to each, as formerly expressed. A declaration of heirship was duly filed by and on behalf of the said legatees in the Registry Office of the first division of the County of Bonaventure, and each and every the herein before described deeds have been also duly registered, and a certified copy of the same was deposited, as required by law, in the office of the Prothonotary of the Superior Court at New Carlisle, in the County and district aforesaid.

The first wheat crop reports for Manitoba issued by the Northern Pacific for the week ending April 30, show that although seeding was a little later this year than last, a larger percentage of the crop is already sown. The weather conditions have been favorable and the increased acreage will average fully 15 per cent. higher than last year.

Returns have been received from 875 census-takers, about one-tenth of the total number engaged. Of these 470 are from Ontario, 359 from Quebec, 20 from Manitoba, 13 from New Brunswick and 6 from Nova Scotia. At the taking of the last census only 53 returns were sent in during the month of April.

An incident of the great stock market rush of business in New York is a demand for expert bookkeepers who understand the brokerage business. The rush of orders to be handled has overwhelmed some brokerage concerns, and they are anywhere from three to five days behind hand in the details of their accounts. The clerks and accountants have been working eighteen hours a day.

The contract for the ironwork on John D. Rockefeller, speaking to the Young Men's Bible Class of the Fifth Avenue Baptist Church the other day, told—with an apology for the personal incident—of the fact that in a generation he had, through the business which he established, paid to labor the stupendous sum of \$700,000,000, which is equivalent to \$10 to every resident of the United States.

A marriage took place in Bristol, Wisconsin, lately, between two mutes. The officiating minister did not speak the sign language, the bride could neither read nor write, the groom's language, which was English, while he was similarly situated with respect to the bride, who was German. For some time it looked as if the wedding would have to be postponed, but the difficulties were finally surmounted by the aid of interpreters, who translated the marriage service into two languages.

The engagement is announced in New York of Miss Madeline Goddard, daughter of Col. William Goddard, of Prince Henri of Croy. There will be several troublesome questions to be settled before this marriage can take place, as the Prince will be obliged to renounce

YOUNG MAN'S SUICIDE

WITH NOTHING TO DO BUT DRINK HE BOUGHT A BAR, AND AT LAST KILLED HIMSELF IN IT.

St. Louis, Mo., May 1. — Thomas Brennan, son of the late Judge Brennan, of St. Louis, and who came into a large fortune at the death of his father recently, put a dramatic end to his career yesterday afternoon in the presence of Sgt. Nolte and a squad of patrolmen by sending a bullet into his brain as they entered the saloon he bought two weeks ago. Brennan had been living at the Wyoming House for a year or two. With nothing to do but collect his rents, time hung heavily, and he took to drink. Two weeks ago he bought the bar in the hotel, since which time his drinking had been heavier than ever.

This morning he told Mr. Etzler, proprietor of the hotel, that he could have the saloon, as he was through with it. Etzler laughed at him, and suggested that Brennan go back to his business. Returning to the saloon about 2 o'clock he sent the barkeeper downtown on an errand, and the porter to the cellar to store away some liquor casks just received. Then locking the front door, Brennan started on a cruise of destruction. With a beer mallet he smashed the handsome plate glass mirror behind the bar, decanters, bottles and glasses were hurled onto the floor and smashed.

The police were notified of the destruction being wrought. Sergt. Nolte and a squad of officers hurried to the scene. Finding the front door locked, they tried the side entrance. Upon passing through the winerom Nolte met Brennan, revolver in hand almost face to face. Brennan raised his pistol as if intending to shoot the sergeant, but suddenly turned the weapon, placed the muzzle of the pistol against his ear and pulled the trigger, falling dead at the officer's feet.

FEW PEOPLE ESCAPE PILES.

And Dr. Chase's Ointment is the Only Positive and Guaranteed Cure for This Torturing Disease.

There is usually very little satisfaction in consulting a physician regarding a case of piles. In nine cases out of ten he will recommend a surgical operation, forgetting that many, the risk, suffering and physical as well as financial expense which this treatment entails. For this reason very many people are going about in misery with piles, believing that they cannot be cured, except by means of the surgeon's knife.

It is to such persons that this advertisement will bring good news of great value. Dr. Chase's Ointment has grown in popularity until to-day it is recognized the world over as the standard ointment for the cure of itching, burning skin diseases, and as absolutely the only preparation that can be relied upon to cure every form of piles.

It seems strange that anyone should suffer the wretched uneasiness and acute torture of burning, itching piles when it is so easy to procure Dr. Chase's Ointment. Nearly every dealer in medicine keeps Dr. Chase's Ointment, and you can apply it at home without any inconvenience. The first application is usually sufficient to put an end to the itching, and it is rarely that more than one box is required to make a thorough cure.

Hosts of cases in which Dr. Chase's Ointment has actually cured serious and long-standing cases of piles have been reported in the Canadian press. Should you want to know more about it ask your druggist or your neighbor. There are few people in Canada who are not familiar with the record of this famous preparation. If your dealer does not have Dr. Chase's Ointment in stock it will be sent postpaid on receipt of price, 60 cents a box, by Edmanson, Bates & Co., Toronto.

STRUCK BY LIGHTNING

Chicago, May 2. — A dozen people were severely shocked and two seriously injured by a bolt of lightning which struck the Lower Ozark apartment building at 35th street and Wash-burn avenue. After demolishing the tower the bolt ran down the electric light wires to the fourth floor, where it entered the flat occupied by Dr. Anna Wells. Mrs. Wells and her companion, Mrs. C. M. Shafer, were thrown to the floor and rendered unconscious by the shock. Both will recover. In the basement where the cafe is located the greatest damage was done. A score of people were more or less hurt by falling walls and glass.

THE EASTMAN TRIAL

Cambridge, Mass., May 2.—Although the larger portion of the proceedings at the Eastman murder trial to-day was taken up in unimportant expert testimony on powder stains on clothing and alloys of lead in bullets, there were one or two witnesses who proved to be most important in the trial, while the day ended with a magnificent forensic effort on the part of the Attorney-General to obtain the admission of the testimony of the accused, which he made before the Grand Jury which indicted him. This testimony the court, earlier in the week, after a private hearing to the different lawyers, excluded, but the Attorney-General to-day made another effort in an open court to obtain a reversal of the decision of the judge, through numerous legal citations, backed by an earnest and eloquent plea. The defence, relying on the court's former decision, made no reply to the arguments of the Attorney-General, and as the court withheld its decision on the last plea of the Attorney-General, the latter will to-morrow morning cite additional cases bearing on the subject.

By far the most important witness to-day was the aged and decrepit mother of the dead man, who testified feebly into the court and gave an instance where Eastman looked towards her son and said: "His days are short." This was a little over a week before the tragedy.

Two witnesses, recalled, identified the little bullet as the one taken from the body by reason of its peculiar formation. This last testimony will have a great bearing on the case if the defence should claim that the bullet which has been frequently shown to the jury, and which has been frequently admitted by the defence to be a centre fire bullet, was changed some time after the autopsy by some Government official.

Should the Government's plea for the admission of the Grand Jury's testimony be overruled to-morrow morning, it is likely that the case against Eastman will rest there and that the defence will then be begun.

A KIDNAPPING CASE

Rochester, N.Y., May 2. — Irene Boehler, aged 4, mysteriously disappeared from her home No. 208 Berlin street at 6 o'clock to-night, and up to midnight nothing has been seen or heard of the little one. Her parents say an effort was made last summer to kidnap Irene, and they are almost certain the child has been stolen.

PEASANTS STARVING

St. Petersburg, May 2. — Starvation and typhus are increasing among the village population of Bessarabia. Seventy per cent of the farmers of that district have lost all their horses and have no seed for the spring sowing.

RUSSIA AND PERSIA

London, May 3. — A despatch to the Daily Mail from Simla announces that a high official of the Russian Ministry of Finance has arrived at Teheran and is discussing with the Persian authorities a very important, new and special tariff between the two countries.

BE PRUDENT.

If you require dry goods, do not purchase without having gone to FAGUY, LEPINAY & FRERE.

SAW MILL BURNED

Grayling, Mich., May 2. — The land saw mill owned by Salling and Houston, at this place was destroyed by fire to-night. The loss is supposed to be over \$100,000.

OTTAWA LICENSE REGULATIONS

Ottawa, May 2. — The Ottawa License Commissioners have adopted a number of new regulations which will be enforced after June 1st. Chief among these are that after regular selling hours no blinds will be permitted on the windows of any place where liquor is sold; that the windows must be of clear glass; that the doors half way up must also be of clear glass. No obstructions of any kind will be allowed to interfere with a view from the street. After November 1st all bars must be made facing the highway. No bells, gongs, whistles or tubes will be allowed in bars.

TO-DAY'S WEATHER.

Toronto, May 2. — Since last night a depression has developed and moved with great rapidity from the Lake Superior district to the Lower St. Lawrence Valley, where it is now situated. Showers and thunder storms have occurred generally in Ontario and Quebec. Elsewhere the weather has been for the most part fair. The temperature ranged from 70 degrees to over 80 degrees in the shade to-day in Southern Ontario, but conditions are now approaching from the north.

Maximum and minimum temperatures Victoria, 48.5; Calgary, 42.6; Qu'Appelle, 48.7; Winnipeg, 40.7; Port Arthur, 38.5; Parry Sound, 46.4; Toronto, 42.7; Ottawa, 46.6; Montreal, 46.5; Quebec, 46.5; Halifax, 32.48. Lower Lakes and Georgian Bay.—Fresh northerly winds, fine and cooler.

Ottawa Valley and Upper St. Lawrence.—Fresh northerly winds, fine and a little cooler. Lower St. Lawrence and Gulf.—Fresh to strong northwesterly winds, fair, not much change in temperature. Maritime Provinces.—Fresh winds, shifting to westerly and northwesterly showers or local thunder storms at first, then clearing Saturday.

A WHOLE TOWN BURNING Wooster, Ohio, May 2. — Word has been received here that the business portion of Loudonville is burning and that the entire town seems doomed. Calls for aid have been sent to all surrounding towns and apparatus is being rushed to the scene by special trains. Loudonville is a town of 1,500 inhabitants in the southern part of Ashland County.

MAJOR TURNER IS RETURNING HE SAILED FROM LIVERPOOL YESTERDAY FROM THE SS TUNISIAN — THE GALLANT WINNER OF THE VICTORIA CROSS AND THE D. S. O. EXPECTED HERE ON FRIDAY, THE 10TH — ARRANGEMENTS FOR A DEMONSTRATION OF WELCOME.

A cable message has been received in the city to the effect that Major R. E. W. Turner, V.C., D.S.O., sailed for home yesterday from Liverpool on the Allan Liner Tunisian. That will bring him to Quebec probably on Friday next, May 10th. In about fifteen months Major Turner has had a military career of the greatest brilliancy. South Africa for him, has not proven a "grave of military reputations." He has distinguished himself as a gallant officer time and again, and to crown his achievements he comes back to "his friends and townsmen wearing Britain's greatest military reward, the Victoria Cross. His honor is the honor of Quebec, and his native city cannot do better than prepare for his returning a demonstration that will far outshine anything of the kind ever attempted in the city. If the citizens unite and get to work quickly, something can be done that will be a credit to the Ancient Capital and will show in some measure how great is the pleasure and pride of Quebec citizens in welcoming the man the King has so signally honored. There is plenty of time for the erection of a few triumphal arches and if the worthy Mayor would take the matter up and consult with some of the other prominent citizens, the matter can be arranged without the slightest difficulty.

AROUND THE COURTS. Some Important Judgments Rendered. By Chief Justice Sir L. N. Casault. Gosselin vs. Belley—Action of libel by which plaintiff claims \$1000 damages for articles which appeared in a newspaper printed and published in Chicoutimi, and in the Province and District of Quebec. Both parties reside in Chicoutimi, and the action was taken at Quebec and served upon the defendant Belley in Chicoutimi. The latter filed a declinatory motion by which he alleged that the cause of action originated in the district of Chicoutimi, and that the action should have been taken in that district. His motion was maintained with costs and the record was ordered to be sent to Chicoutimi. Lachance vs. Langlois—Judgment ex parte for \$100 interest and costs. Duchesnay vs. Giroux—Judgment ex parte for \$30 arrears of ground rent. Quebec Railway, Light and Power Co., vs. Tremblay et al.—The plaintiffs claim that they are proprietors and in possession of property bordering both sides of the Montmorency river at and near its mouth, including Montmorency Falls, and as such are entitled to the enjoyment of the whole natural flow of the waters of said river for the purposes of carrying on their trade. They complain of the defendant, who they allege, had erected certain dams, dikes and other works in the Laval river, which is tributary of the Montmorency river, and had also cut a canal between the Laval river and the river known as the Lottenville or Petit Pie river, and by means of the said works had diverted the waters of the Laval river from their natural course to the Montmorency river, and had caused them to flow into the Lottenville river, thereby causing great damage to the plaintiffs, who are deprived of the waters of the Laval river. The defendants in reply to the action pleaded that they had a right to the dams in question, which existed previous to 1756. That the properties adjoining the dam and mills nearby had been purchased in 1877 by Tremblay, senior, who transferred them to his son, one of the defendants. The plaintiff's action was dismissed with costs. By Judge Caron. Cote et vir. vs. Demers.—The plaintiff a property at St. Giles, occupied by took action to be put in possession of the defendant, and that the latter pay them \$60 damages. The defendant pleaded that he had purchased the land in question, but from letters produced at the enquete it appears that he offered to purchase the land from the plaintiffs, thereby admitting that they were the owners. Judgment was rendered in favor of plaintiffs and the defendant was condemned to pay \$50 damages. Fabrique de Beurre de St. Agapit vs. Dumont—Action of damages for \$150, the plaintiffs complaining that the defendant supplied poor milk to them for the butter factory, thereby injuring their business. The defendant denied the facts alleged in the action, but after hearing of evidence, Mr. Justice Caron condemned him to pay \$25 damages and costs. Lavoie vs. Rioux et al., defendant, and Kirouac et al., and Rioux et al., opposant to annual seizure. Judgment maintaining both oppositions with costs and dismissing the contestation thereof by Mr. Beaulieu, who seized for his costs as plaintiff's attorney. Lapointe vs. Carrier, et al.—Action for \$150 and judgment for \$137, interest and costs. Corporation of Levis vs. Robitaille.—The action was taken for \$267, which the Corporation claimed as taxes. The defendant denied the allegations of the action, alleging that during four years he had by error paid the plaintiffs \$25 yearly, and that, moreover, the Corporation's claim was compensated by an amount of \$400 which the latter owed the defendant for coal and other goods sold to the plaintiffs. The plaintiff's action was dismissed, and the defendant's incidental demand against the Corporation was maintained for \$109, the whole with costs.

THE BIG LAKE ICE JAM Detroit, Mich., May 2. — Reports from above indicate that the condition of the packed ice in the St. Clair River is worse to-day than it has been since the jam first formed. The ice extends down the river from Port Huron to the mouth of the river at Lake St. Clair. Lake St. Clair, Mich., May 2. — The ice is moving on the Canadian side of the bar but is stationary on this side. The water is 2 inches lower with the current sluggish. The Stepan S. Hall came down on the Canadian side this morning and attempted to make a dock below the city on this side. She only went about her length in fixed ice and remains there.

JAPANESE GOVERNMENT Yokohama, May 2. — In consequence of the continued postponement by the Japanese Minister of Finance, Viscount Vatanabe, of the carrying out of the expected public works, the Cabinet crisis reached a climax yesterday and Marquis Ito, the Premier, after the Cabinet meeting proceeded to the Palace and tendered his resignation to the Mikado. All the other members of the Cabinet did likewise, with the exception of the Minister of War, Baron Kodala. It is asserted that Marquis Ito advised Emperor Mutsuhito to entrust the task of forming a new Cabinet to Marquis Yamagata, whose Government resigned last October; but it is doubtful whether Marquis Yamagata will accept the responsibility. The probability is that Marquis Ito will re-constitute the Cabinet, excluding Viscount Vatanabe.

Just The Blues. Many a woman dresses to go out, feels irresolute, sits down, and falls into a fit of despondent musing. Ask her what's the matter, and she'll probably answer "I'm the blues." And what are the blues? Only another name, in general, for a disordered liver and a diseased stomach. Cleanse the liver, heal the stomach, purify the blood, and there'll be no more blues. It can be done by the use of Dr. Pierce's Golden Medical Discovery. This medicine puts the diseased organs of digestion and nutrition into a condition of sound health. It eliminates from the blood all impure and poisonous substances, and cleanses the clogged liver. It contains neither alcohol nor narcotics. "I had liver complaint for the past fifteen years, complicated with dyspepsia and wall stones," writes Mrs. M. Bernier, of St. Em. St., Oklahoma, Ok. "I doctored with seven of our prominent doctors, and not one of them have done me the good, nor begun to do what your medicine has. I have used three bottles of Dr. Pierce's Golden Medical Discovery, one vial of his 'Pleasant Pellets,' and one bottle of Dr. Pierce's Favorite Prescription, and have gained about eighteen pounds since I first began to take these remedies."
