MARINE INTELLIGENCE.

PORT OF MONTREAL.

DEPARTURES—May 3.

Schooner Helene, 110, J Menard, master, for St Johns, Nfld, general, Kirkpatrick & Cookson, agents.

VESSELS IN PORT.

Steamships.

Polino, 524, H Dobell & Co.

Schooners.

Anna Maria, 66, C A Boucher.
C Bernier, 116, C A Boucher.
Eugenie, 195, C A Boucher.
Ripple, 77, C A Boucher.

FIRST ARRIVALS FROM THE LAKES.

The propeller Alma Munroe arrived from Port Stanley on Monday afternoon at five o'clock with a load of wheat, and was loading a cargo of general merchandise, from G E Jacques & Co, for Hamilton yesterday, and leaves to-day.

The propeller California arrived at six p.m. on Monday, with a cargo of flour from Toronto, and is now loading a general cargo for Georgian Bay ports, from G E Jacques & Co. She leaves at noon to-day. Both these steamers are of the Merchants Line.

PORT OF QUEBEC.

ITEMS—May 2.

The donkey engine men are endeavoring to form an amalgamation for unloading vessels for the present season.

The brigantine Corrine arrived from Montreal this morning under sail, and proceeded at noon.

The schooner St Ann from Montreal for St John having taken on a deck load of staves proceeded this afternoon.

The Upper Traverse lightship proceeded to take up her station this afternoon.

The Lower Traverse and Red Island lightships came out of winter quarters to-day and are fitting out to proceed to their stations.

The Government steamship Druid arrived up from below last night, having placed the buoys in position.

The pilot schooner No 3 left for below this morning with a batch of twenty-one pilots to meet incoming shipping.

The propellors Nipigeon and Mattawan have come out of winter quarters.

The steamships Texas, Quebec and Manitoban and several other steamships, which are due, are supposed to be detained in the ice, large quantities of which undoubtedly lie in the track of incoming vessels. Some of these steamships, besides passengers, have several hundred head of grade cattle on board.

HALIFAX, May 2—Steamer George Shattuck arrived from St Pierre, Miquelon.

Steamer Canima sailed this p m for New York.

The American schooner Samuel Wonson, of 50 tons register, with her tackle, etc., was sold at auction here to-day, and purchased by Capt. Joseph Sileman for $740.

Steamer George Shattuck, which arrived here from St Pierre, Miquelon, was prevented by ice from entering Louisburg, C B. She reports passing off this harbour last night a deeply laden steamer headed for Louisburg.

FOREIGN PORTS.

NEW YORK, May 2.—Arrived—Belgenland from Antwerp; D Steinman, from Antwerp; Baltic and England, from Liverpool.

Arrived—Hapsburg, from Bremen.

GALVESTON, May 1.—The German brig Ceres was struck by lightning 120 miles from here. The fire was not extinguished till she arrived here, and was sunk in 11 feet of water. The vessel had a cargo of cotton, valued at $55,000. Vessel damaged, $10,000.

QUEENSTOWN, May 2—Arrived—Alaska. She made the passage in six days and twenty one hours. It is claimed to be the greatest on record.

MONTREAL, May 2.

THE INMAN SS. "CITY OF RICHMOND" sailed from New York, for Liverpool, on Saturday last, with 123 cabin passengers.

THE CIRCULATION OF STANDARD DOLLARS for the week ending April 29 was $161,000 against $106,499 for the corresponding period of last year.

IT HAS BEEN DECIDED IN THE SUPREME Court of California in the case of the Oakland Bank for Savings *vs.* Wilcox that when the president of a bank directs checks to be paid beyond the amount upon deposits, his act is a fraud in law, and he is liable to the bank for any loss it may suffer thereby.

THE AUTHORITIES OF THE FRENCH POST OFFICE intend, it is announced, to buy up the patent rights of the telephone in France. It is proposed to open stations in connection with the present telegraph offices, at which the public without becoming subscribers may communicate with subscribers at a charge of half a franc for every five minutes.

WE UNDERSTAND THAT A MEETING OF the shareholders and directors of the new St. Lawrence Steamboat Company was held yesterday afternoon at the company's offices, St. James street, and arrangements were made for at once putting on the Upper Lakes and St. Lawrence route on the opening of the season a fleet of boats for freight and passenger traffic.

THE FRENCH FISHERMEN ON THE COAST OF Brittany formerly used to earn $3,000,000 annually by their catch of sardines off that coast. This valuable industry has been entirely destroyed by the disappearance of the sardine from that region. The fact has been brought to the attention of the French Academy of Science. An investigation shows that it is due to a change in the Gulf Stream.

THE GUION LINE FLAG SHIP, THE SS. "Alaska," on her last voyage from Liverpool to New York, outstrips anything previously accomplished by any steamer afloat. Her log from Queenstown to Sandy Hook shows an average speed of 404 4-10 nautical miles per day for the entire voyage, or an average of 16 7-10 knots per hour for the trip, and on one day 17½ knots per hour were averaged for the twenty-four hours. She sailed from Queenstown at 10.43 a.m. April 9th, and arrived at Sandy Hook 12.39 p.m., April 16th.

THE PITTSBURGH "COMMERCIAL GAZETTE" tells of a newly-invented spike machine, which, if it proves successful, will tend to profit its owners, and probably sooner or later the public, with reduced prices for spikes. The machine is said to be a simplification of previous arrangements, thus permitting great strength of all the parts. It receives the rods directly from the rollers without reheating, a decided advance, and turns out spikes "of superior shape and finish." Three of these machines have been built. They are being tried at Pittsburgh, but are to be used at Moundsville, W. Va.

FINANCIAL.

The principal feature of the Money market to-day was the heavy, dull feeling which pervaded all corners of the "Street." Business is almost at a standstill. The fluctuations are kept within the very narrowest limits. Everything, it appears, is in sympathy with the state of the market in New York, which at this season of the year cannot be spoken of as being in the most active condition. Money is very easy, and only a fair enquiry for accommodation to commercial borrowers. Good mercantile paper is negotiable at 6 @ 7 as to name and date, and for call and short-dated loans 5½ @ 6 on the choicest collaterals, a considerable amount being secured within this range this afternoon. Sterling Exchange is dull, but firmer at 9½ @ 9⅝ for round amounts, of 60-day bills between banks and 9⅝ @ 9⅞ to the public; demand bills being at 10 @ 10⅛ and currency, par @ 1-16. Documentary are 8⅛ @ 9 and in limited offered. The New York Evening *Post* remarks that security and commercial bills are scarce, but as yet there are no indications of gold exports this week. There may at any time be a considerable amount of sterling exchange made by the Philadelphia and Reading Railway Company against the payment in London of the second instalment on the Deferred Income bonds, which payment amounts to about $1,300,000. The thirty-fifth annual meeting of the shareholders of the City and District Savings Bank was held to-day, and the statement submitted by the directors of the business of the institution for the past year will be found in another column. The return is a very satisfactory one, and reflects every credit upon the careful management displayed in all the departments. The net profits for the year amount to $60,970, and after the payment of two half yearly dividends, $24,970 have been carried to profit and loss account. The increase in the deposits over the corresponding period last year is $900,690, evidence enough that our people are saving their surplus earnings.

The business to-day on the local Stock Exchange was anything but cheering to the manipulators on the "Street." Everything was dull and barren of interest, and brokers were at their wits' ends to know what to do to put more life into the market. Bank of Montreal remained very steady at 212½ @ 212½ regular and 208 @ 208½ ex-dividend, but was only dealt in to a small extent. Ontario were firm at 67@ 67¼ and in demand. Peoples changed hands to limited amount at 88½ @ 89. One sale of Molsons brought 125½. Toronto were in active demand at 181½ @ 182, sales being made within this range. For Jacques Cartier 122 bid and 125 asked. Merchants were in moderate demand at 133 @ 133¼ (regular) and 130 @131 ex-dividend. Quebec were enquired for at 108, but no trade was reported. The movement in Commerce was slightly upwards, and strong at 147¾ @ 148½. The approaching half-yearly dividend of this investment makes things a little more lively with speculators and investors. There is no change to note in Montreal Telegraph, which remained very steady at 132 @ 134½, the business being light and in small lots. Richelieu advanced ¼ over yesterday's closing prices, a considerable amount being placed at 62 @ 62¼c. City Passenger were in limited offer at 147 @ 147¾. Gas were quiet and inactive at 165 bid, 165½ offered. Sales of Dundas Cotton Co. were effected at 126 @ 126½, and Canada Cotton Co. were enquired for at 143, with holders at 146. Enquiries were made at the morning session for Canada Shipping, 90 bid, sellers 98. Some 200 shares of the Montreal Loan & Mortgage Co. were sold at 107. A lot of St. Paul & Minn. R. R. brought 119, and a small parcel of Royal Canadian Ins. Co. 50. The rest of the investments are nominally as quoted :—

MORNING BOARD.

THE CITY AND DISTRICT SAVINGS BANK.

ANNUAL MEETING.

The annual meeting of the shareholders of the Montreal City and District Savings' Bank was held in the Board Room of the Institution at one o'clock this afternoon. The President, Mr. Edward Murphy, occupied the Chair, and amongst those present we noticed Dr W H Hingston, Lieut-Col J A Ouimet, Messrs A Larocque, Henry Judah, R Moat, — Archibald, James O'Brien, T W Ritchie, Q C, Thos Workman, R Bellemare, E J Barbeau Chas E Schiller, J H R Molson, John B Murphy, Michael Burke and Col Reddy, of Melbourne.

Mr. Henry Barbeau acted as Secretary.

THIRTY-FIFTH ANNUAL REPORT.

MONTREAL, May, 1882.

To the Shareholders of the Montreal City and District Savings' Bank, Montreal, at the annual meeting, May, 1882,

Gentlemen,—Your Directors have again the pleasure of submitting to you the result of the operations of the Bank during the year ended December 31, 1881 :—

There was at credit of profit and loss at end of 1880	$ 86,511 04
Net profit for the year 1881	60,970 04
	$147,481 08
Out of which were paid—	
Dividend No. 20, Feby. 2, 1881.	$18,000
Do No. 21, Aug. 2, 1881	18,000 36,000 00
Leaving at credit of profit and loss	$111,481 08

They have the satisfaction of noticing the increase of general prosperity as evidenced by the business transacted by the Bank during the past year.

This year we have on deposit	$5,531,854 87
This time last year we had	4,631,163 98
Increase	$ 900,690 89
This year the number of open accounts is	$ 24,034 00
Last year it was	21,061 00
Increase,	$ 2,973 00

The balance sheet and the report of the Auditors are herewith submitted and detailed statements are on the table for your information.

You will as usual require to elect Directors and Auditors for the current year.

EDWARD MURPHY,
President.

Statement of the affairs of the Montreal City and District Savings Bank on the 31st December, 1881.

H. J. BARBEAU,
Manager.

The report of the auditors, Messrs. Chas. Glackmeyer and G. F. C. Smith, was then read, certifying that the bank's accounts, according to examination by them, were found correct. Mr. O. N. Marchand's inspection of the branches of the bank at St. Catherine, St. Joseph and Wellington streets, was also read and was found very satisfactory.

In reply to a question the President stated that the Charity Fund was invested in six per cent. municipal bonds.

On motion of the President, seconded by Mr. Thomas Workman, the reports were adopted.

Mr. Moat moved, seconded by Mr. Archibald, that the thanks of the meeting are due and are hereby tendered to the President and other officers of the bank for their services during the past year. Carried.

Messrs. Moat and Burke were appointed as scrutineers, and the shareholders proceeded to ballot for Directors to replace the retiring Board.

Mr. J. B. Murphy said he thought that the dividend could be increased. He thought from the position of the profit and loss account the Directors could do it very well.

The President believed that the Directors elected would likely consider the proposition. Meantime he thought it had better remain as a suggestion.

The scrutineers reported that the old Board of Directors were re-elected as follows: Messrs. Ed. Murphy, A. LaRocque, Henry Judah, W. H. Hingston, M.D., Jas. O'Brien, T. W. Ritchie, Q.C., Thos. Workman, R. Bellemare, Lt.-Col. J. A. Ouimet and E. J. Barbeau.

Messrs. Glackmeyer and Smith were re-elected auditors.

Mr. Schiller asked if the Government Inspectors visited the branches of the bank.

The President remarked that there was no such officer appointed by the Government. The stockholders appointed two Auditors independent of the Directors.

Mr. Judah said the stockholders had tried to secure the appointment of such an officer, but without success.

The meeting then adjourned.

At a subsequent meeting of the Board of Directors, Mr. Edward Murphy was elected President, and Mr. A. Larocque Vice President.

RAILWAY NEWS.

—It is now reported that Mr. Gowen has railed to place the new Reading 5 p.c. consolidated bonds in the London market.

—The Board of Directors of the Pennsylvania Railroad Company have declared a semi-annual dividend of 4 per cent. payable May 30.

—It is stated that the New York Central and Hudson River Railroad has within the past few weeks discharged about one thousand hands, owing to the decreased volume of tonnage.

—The approximate earnings of the Ohio Southern Railroad Company for the week ending April 23rd were $5,799.10, a decrease of $670.46 compared with the corresponding week of last year.

—It is stated that the March statement of the Pennsylvania Railroad Company included many rebate checks for advances on freight carried during the railroad war, and presented for payment in March.

—The Rock Island Railway Company claim that they are entitled to a larger percentage in the Colorado pool, and if their demands are not granted they will request that the matter be left open to arbitration.

—A considerable amount of Western Union long stock has been sold within the past week or ten days, and it is known that the earnings of the company have fallen off owing to the dullness in general business.

—A despatch from Pueblo, Colorado, says: "The Denver and New Orleans Railroad drove the last spike on Saturday, which completed the broad-gauge between Denver and Pueblo. It will be a rival of the Denver and Rio Grande narrow-gauge."

—The Colorado pool roads at St. Louis agreed on Saturday to give the Burlington system an increased percentage in the pool business. This result is well received, as it is thought it will be the means of maintaining paying rates on all business west of Missouri.

—Advices from Chicago state that emigration to the North-West was unabated during the last week, being the largest of the year. 7,990 foreigners went North over the St. Paul, Albert Lea and Northwestern lines. There is also a large emigration from the Eastern and Middle States to Dakota and Montana.

—The Chicago and Rock Island annual election will be held in Chicago in about a month, but no change is proposed in the management. Under the Illinois classification act four or five directors, including Messrs. Dows, Riddle, Cable and Scott, go out, but they will be re-elected. Mr. Hugh Riddle will continue as President. The Directors of this road offered to increase the latter's salary, but he refused to accept it.

—There is said to be a hitch in the negotiations between the Rock Island and the Chicago and Omaha roads on one side and the Chicago, Portage and Superior Railroad on the other. The latter road, together with its land grant, recently passed into the hands of the former companies, but there was subsequently a misunderstanding, and it is rumored that a suit has been begun by General Schofield and others of the Portage road for the recovery of the property or for damages.

—A despatch from Philadelphia says at the Pennsylvania Railroad meeting yesterday it was "Resolved, That shareholders will have privilege of subscribing, at par, to stock of company in proportion to 8 per cent. of number of shares registered in names April 29, 1882, and those entitled to fraction of share can subscribe the full share. All subscriptions must be made and paid for in full prior to June 15, 1881. No subscriptions received after that date, and privilege of taking new stock may be sold by any stockholder.

RETAIL MARKETS.

MONTREAL, May 2.

Bonsecours market to-day was very sparsely attended by farmers; the inclement weather having a decided influence in producing that result. The supplies, therefore of farm produce were necessarily limited, although quite equal to the enquiry. Oats were the principal grain offerred and prices for such were steady sales being reported at from 95c @ $1 per bag. Peas were scarce at $1 @ $1.10 per bushel, and Beans were still scarcer, quotations being nominal at from $2 @ $3 per bushel. Buckwheat was in meagre supply and firmly held at $1.30 @ $1.40 per bag according to quality. There is no change of any importance to note in the vegetable market, the demand running chiefly on Potatoes and fresh green vegetables. Prices throughout show no quotable alteration, Potatoes continue to be exported in large quantities, but any augmentation of values is avoided by liberal receipts; the market if anything is a shade easier, although prices are not changed. Sales were made to-day at $1.10 per bag for choice Early Rose and from $1 @ $1.05 for Chilis as to quality. White kinds were in moderate enquiry at from 85c @ 95c per bag. New Potatoes from Bermuda have been sold at $4 per bushel. Carrots, Beets and Parsnips are all very scarce at $1 per bushel for all three. Turnips are in good demand at advancing prices, we now quote $1 per bushel for the best. Onions are prime at $2 @ $2.50 per brl and Spanish at 50c per dozen. Montreal Cabbages of very poor quality have been sold at $3. Imported fresh heads sell freely at 25c @ 40c each. Lettuce is quoted at 50c @ $1 per dozen, with an active demand at these figures, Spinach also is also moving better at $1.50 per bushel. Fresh Artichokes were on the market today and sold at $1 per bushel. Radishes are steady at 80c @ $1 per dozen and Asparagus at 75c @ 80c per bunch. Rhubarb sells at 10c @ 15c per bunch and Parsley at 5c @ 10c and Mint at 5c. Tomatoes are easier at $1.50 per box. The prominent feature in the fruit market is the firmness exhibited by Apples in sympathy with the strong English markets. Holders now obtain $6 50 per brl for northern Shy, $6 for Runsets and $5 for Baldwins. Oranges are steady at $9 @ $10 per case and Lemons at $6 per case and $4.50 per box. Strawberries are unchanged at 50c per quart and pine apples at 40c @ 50c each. The dairy produce market is unchanged, the supplies being poor, of fresh Butter at 25c @ 30c and tub at 18c @ 22c. Fresh Eggs sold at 18c @ 20c per dozen in a retail way. Meats are as last quoted. Hogs selling quickly at $10 per 100 lbs. Business in the Fish market was quiet, but dealers on the whole seem to be satisfied. Haddock and Cod retailed at 7c @ 8c and Halibut at 15c. The following are the day's quotations :—

Flour, per 100 pounds	$3 50	@	3 70
Buckwheat flour, do	0 00	@	2 15
Oatmeal, do	2 40	@	2 60

PROVISIONS—The local market in sympathy with the continued upward movement of the Western markets is very firm; prices, however, have not as yet been augmented. A fair aggregate of jobbing business was transacted on both city and country account at former quotations. Canada Short Cut Pork sold at $22 per brl., Western Mess at $21 @ $21.50, and Thin Mess at $20.50 @ $21. Lard was quiet but firm, sales of Canadian being made at 14½c @ 14¾c, and of Fairbanks' at 14¾c @ 15c. Smoked Hams are experiencing an improved local demand at from 13½c @ 14c for city cured. Breadfast Bacon moves fairly well at 13c @ 13½c, and Smoked Shoulders at 10c per lb. We quote :—

Canada Short Cut	$	@22.00
Heavy Mess, new, per brl	21.00	@21.50
Thin " "	00.00	@20.50
Lard, Canadian, per lb	0.14½	@ 0.14
" Fairbanks', "	0.14½	@ 0.15
Hams, City cured, per lb	0.13½	@ 0.14
Green, per lb	0.00	@ 0.00
Dressed Hogs, per 100 lbs	0.00	@ 0.00
Bacon, per lb	0.13	@ 0.13½
Shoulders, per lb	0.10	@ 0.00

The only change in the Liverpool Provision market to-day was a gain of 3d on lard. The following were the quotations at 5 p m: Pork, 82s 6d; lard, 56s; bacon, 51s 6d @ 52s; and tallow, 40s 6d.

As was generally anticipated the Chicago Provision markets developed further strength to-day and along the line an enhancement of values was secured, but more especially on pork. The strength of lard may be partly attributed to the heavy lines of "shorts" now out, and strong efforts will be made to administer sufficient pressure, which will produce an epidemic among the "shorts." May pork advanced 20c per brl, closing at $18.45. June delivery opened at $18.47½, and sold up to $18.60, finally closing 12½c better than yesterday at $18.57½. At the close July was $18.77½, showing a gain of 10c compared with yesterday. May lard was firm at $11.25. June closed 2½c up at $11.37½, and July at $11.50. Ribs advanced 7½c @ 10c, and closed at $10.40 June, and $10.47½ @ $10.50 July. The sales on Call were 450,000 lbs ribs, 2,250 brls pork, and 5,750 tcs lard. Compared with the 16th April the stock of pork now held in Chicago shows a decrease of 10,504 brls; ribs also have decreased 2,354,779 lbs. Lard on the other hand has increased 8,222 tcs.

The following were the stocks of provisions in Chicago on the dates given :—

	May 2, 1882.	April 16. 1882.
Pork, brls	283,366	293,870
Lard, tcs	140,913	132,691
Ribs, lbs	22,341,866	24,696,645

The following was the movement of provisions in Chicago to-day :—

	Receipts.	Shipments.
Pork, brls	675	1,100
Lard, lbs	283,800	538,575
Cut Meats, lbs	363,556	2,937,701

The New York *Commercial Bulletin* has the following :—

The advance in lard is partly in sympathy with grain, and partly due to a large short interest now existing, and there is some speculative feeling abroad, based upon the belief that the constant rise in prices of animal food must, sooner or later, cause lard, which is relatively much cheaper than meats, to be sought after at considerably higher prices; and the belief is also general that, owing to the low price of lard and the demand for the unrendered leaf for butterine, the manufacture of lard at the present time is running 500 tierces daily behind last year.

BUTTER—The business done to-day was at steady prices, although some dealers talked about weaker rates. Sales of choice new Eastern Townships were made at 22c, and of inferior lots at 20c @ 21c. Old stock is dull and drags along at whatever it will bring. We quote :—

Choice Creameries, ₱ lb	00c @ 00
Eastern Townships, new, ₱ lb	20 @ 22
Eastern Townships, ₱ lb	20 @ 22
Morrisburg and Brockville, ₱ lb	20 @ 21
Western, ₱ lb	15 @ 17
Kamouraska, ₱ lb	12 @ 13

CHEESE—The market is quiet and unchanged. New make is quoted at 11c @ 12c, and old at 9c @ 13½c, as to quality, with jobbing sales at these figures. Liverpool was cabled steady at 63s. The exports from New York last week were 21,103 boxes.

EGGS—The demand is slack and unable to absorb the offerings. Sales were difficult to make at from 14c @ 15c.

ASHES—The market is quiet at $5 @ $5.05 for Pots. Pearls are purely nominal. In New York, demand moderately active and somewhat uncertain in character, with about former rates ruling. Pots, 5c; Pearls, 6¼c @ 6½c.

The following was the day's movements of Breadstuffs at the points mentioned :—

CHICAGO.	Receipts.	Shipments.
Flour, brls	13,042	10,938

A LOSING JOKE.

A prominent physician of Pittsburg said jokingly to a lady patient who was complaining of her continued ill health, and of his inability to cure her "try Hop Bitters!" The lady took it in earnest and used the Bitters, from which she obtained permanent health. She now laughs at the doctor for his joke, but he is not so well pleased with it, as it cost him a good patient.—*Harrisburgh Patriot.*

IMPORTANT.

When you visit or leave New York City save Baggage Expressage and Carriage Hire and stop at *Grand Union Hotel*, opposite Grand Central Depot. 450 elegant rooms, fitted up at a cost of one million dollars, reduced to $1 and upwards per day. European Plan. Elevator. Resturant supplied with the best. Horse cars, stages and elevated railroads to all depots. Families can live better for less money at the Grand Union Hotel than at any other first-class hotel in the city. DW

In the cure of severe coughs, weak lungs, spitting of blood, and the early stages of *Consumption*, Dr. Pierce's "Golden Medical Discovery" has astonished the medical faculty. While it cures the severest coughs it strengthens the system and *Purifies the blood.* By druggists.

McGILL UNIVERSITY.

ARTS AND SCIENCE—ANNUAL CONVOCATION.

The annual meeting of Convocation of McGill University, for the conferring of degrees in the Faculties of Arts and Applied Science, was held yesterday afternoon in the William Molson Hall. Notwithstanding the fact that, owing to the space in the Hall being very limited, admittance was by ticket only, the Hall was completely filled by the friends and graduates of the College. The proceedings of the day were opened with a meeting of the members of Convocation in the Library at 2.30, when the Hon. Justice Mackay presided. The minutes were read by Mr. William Craig Baynes, Secretary of the University. Dr. S. P. Robins was then called upon to read the declaration of the election of Fellows, which showed that the following representative Fellows had been re-elected for the ensuing year:—J S Hall, B A, B C L, in Law; Francis J Shepherd, M D, in Medicine; Rev E I Rexford, B A, in Arts; Robt Bell, C E, M D, in Applied Science.

At the conclusion of this meeting the Governors and Fellows proceeded to the large hall and took their places on the platform. Hon. Justice Mackay, in the unavoidable absence of the Chancellor of the University, presided and opened the meeting with a few remarks. There were also noticed present on the platform: Sir Francis Hincks, K C M G, C B, and Mr R A Ramsay, M A, B C L, Governors; Principal Dawson, Ven Archdeacon Leach, LL D, Alexander Johnson, LL D, Rev George Cornish, LL D, Rev D H MacVicar, John R Dougall, M A, Rev J Clarke Murray, LL D, Henry J Bovey, M A, C E, B J Harrington, M A, Ph D, Rev E I Rexford, B A, Rev J F Stevenson, D D, Rev Canon Henderson, M A, Clement H McLeod, Ma E, Fellows; Wm C Baynes, B A, Secretary, Registrar and Bursar; Jas W Brakenridge, B C L, Clerk; Professors P J Darey, B C L, Chas E Moyse, B A, and Messrs G H Chandler, M A, Dr Jas McGregor, M A, Dr S P Robins, M A, H H Lyman, M A, Rev W J Shaw, M A, Hon J S C Wurtele, S C, B C L, Rev A D Coussirat, B A, J T Donald, B A, W E Lyman, B A, E M Taylor, B A.

Ven. Archdeacon Leach opened the proceedings with prayer, after which Dr. Johnson, Dean of the Faculty of Arts, was called upon and read his annual report of the Faculty of Arts, which was as follows:

FACULTY OF ARTS.

PASSED THE SESSIONAL EXAMINATIONS.

Lochhead, Macfarlane, McArthur, Stewart, J A McLean, Yates, Blair, Martin, Hargrave, McLennan, Ellis, Thomson, Calder, Budden. Watson, Macvicar, Grant Osborne, Currie, Higgins,

At the Examinations in September, 1881, the following scholarships and Exhibitions were awarded:—

SCHOLARSHIPS—TENABLE FOR TWO YEARS.

Third Year—Mathematical Scholarship, *Murray J R. Third year—Natural Science Scholarship, *Ross L F. Third Year—Classical and Modern Language Scholarships, *Bland C E, †Lee A.

EXHIBITIONS—TENABLE FOR ONE YEAR.

Second Year—*Mackay, Pictou Academy, N S; *Unsworth, J K, Brampton High School; ‡Blackader, E, High School, Montreal. First Year—*Climbe, W, Listowel High School; Lochhead, W, Listowel High School; ‖Patterson, W, Huntingdon Academy, 2.

*Value of Scholarship or Exhibition, $125 yearly; founder, W C Macdonald, Esq.
†Value of Scolarship, $120 yearly; founder, Charles Alexander, Esq. ‡Value of Exhibition, $125 yearly; donor, George Hague, Esq. ‖Value of Exhibition, $100 yearly; founder Mrs. Jane Redpath.

At an Examination held at the beginning of the Session 1881-82, the new Shakespeare's Society Prize for knowledge of Shakespeare was awarded to Leigh R Gregor, Fourth Year.

The prize-winners were then presented to the chairman by the professors and received their prizes and honours, after which members of the graduating class were called up, the oath administered to them by Mr. W. C. Baynes. The degree of B.A. was then conferred on each, Principal Dawson performing the ceremony of "capping" the new graduates, amidst the peculiar applause of certain persons in the rear end of the Hall

Mr. Norman T. Rielle was then introduced by the chairman and delivered a happy valedictory address on behalf of the graduating class, depicting in happy terms the glories of the University, the advantages of her training, and her foremost position amongst the educational establishments of the Dominion.

The degree of M.A. was then conferred upon Messrs Rankine Dawson, B A, Finlay McN Dewey, B A, James T Donald, B A, and Ernest M Taylor, B A, by Principal Dawson.

Prof. Bovey, Dean of the Faculty of Applied Science, then presented the list of successful students in that faculty, which was as follows:—

FACULTY OF APPLIED SCIENCE.

GRADUATING CLASS—PASSED THE EXAMINATION FOR THE DEGREE OF BACHELOR OF APPLIED SCIENCE.

Civil Engineering—(Advanced Course)—Frederick Miller.

Civil Engineering—(Ordinary Course)—Philip Lawrence Foster, Thomas Daniel Green, John James Collins, Thomas Drunamond.

Mining Engineering—Albert Peter Low.

Practical Chemistry—Jeffrey Hale Burland.

Frederick Miller—Lorne Medal; certificates of Merit in all the subjects.

Thomas Daniel Green—Scott Exhibition,

Alfred Peter Low—First rank honours in Natural Science; certificate of Merit in Practical Chemistry.

THIRD YEAR—PASSED THE SESSIONAL EXAMINATIONS.

Civil Engineering—)Advanced Course)—Donaldson Bogart Dowling.

Civil Engineering—(Ordinary Course)—James McEvoy, Richard E Smith, James William Moffatt.

Mining Engineering—William Henry Howard.

Donaldson Bogart Dowling—Scott Exhibition; certificates of Merit in Mathematics, Experimental Physics, Mathematical Physics, Descriptive Geometry Surveying, Materials, Applied Mechanics, Practical Hydraulics.

James McEvoy—Certificates of Merit in Surveying and Materials.

William Henry Howard—First rank honours in Natural Science; certificate of Merit in Practical Chemistry.

SECOND YEAR—PASSED THE SESSIONAL EXAMINATIONS.

Civil Engineering—Cecil Brunswick Smith, David Ogilvy, John McDonald, John M McKenzie, John L. Hislop, Bryce Johnston Saunders.

Mechanical Engineering — William Graham, Joseph Alfred Robert.

Practical Chemistry—Edward Henry Hamilton.

Cecil Brunswick Smith—Certificates of Merit in Mathematics, Mathematical Physics, Experimental Physics, Surveying, Mechanism, Materials, Zoology.

David Ogilvy—Prize; certificates of Merit in Mathematics, Mathematical Physics, Experimental Physics, Surveying, Mechanism, Materials, Zoology.

John McDonald—Certificate of Merit in Zoology.

John M McKenzie—Certificate of Merit in Materials.

FIRST YEAR—PASSED THE SESSIONAL EXAMINATIONS.

Edward Payson Matthewson, Ernest McCourt Macy, William Murray Reid, John Andrew Burns, Samuel Henry Pitcher, Percy Atkinson Bath, Joseph Charles O'Callaghan Mignault.

Edward Payson Mathewson — Prize in Chemistry; certificate of Merit in Chemistry.

Ernest McCourt Macy—Certificates of Merit in Mathematics and Chemistry.

William Murray Reid—Certificate of Merit in Chemistry.

Admitted Ad Eundem Gradum—John Alexander Low Waddell.

Bachelor of Applied Science, proceeding to the degree of Master of Applied Science, in course—William T Thompson.

The process of administering the oath and the conferring of the degree of Bachelor of Applied Science on the members of the graduating class in science was gone through with in the same manner as with the Arts men. Mr. William Craig Baynes administering the oath and Principal Dawson conferring the degrees and "capping" the students.

The degree of Bachelor of Applied Science (*ad eundem*) was conferred upon Mr. J A Waddell.

Mr. Jeffrey Hale Burland then read an amusing valedictory on behalf of the graduating class of applied science, enlarging on the advantages of the study of applied science, giving advice to the younger students and thanking the Dean and the other Professors of the Faculty for their earnest labours in their behalf and their kindness to them during the year.

Dr. Johnson then delivered an address on behalf of the Faculties. For the first time he said in the history of the University he believed one Professor had been requested to address the students in both graduating classes. This was done principally for the purpose of saving time. He dwelt upon the pleasure which they would feel on completing their course, in which pleasure he assured them the Professors heartily joined. He cautioned them, however, on going out into the world against relying on their acquired knowledge in College and their degrees alone. This would be dangerous, and if followed out their competitors would certainly pass them in the race of life. Made better by the course in college, they should strike out in the battle of life fearlessly and boldly, and, they would then stand against all their competitors. He dwelt upon the disadvantages arising from the absence of graduate scholarships or studentships in the Canadian Colleges. It was greatly to be regretted that there were no such aids to higher education as such graduate scholarships or studentships lasting for a limited term of years, and of respectable annual value sufficient to enable the ablest men not merely to study, but to study with freedom from anxiety as to pecuniary means during the tenure of scholarships. The absence of these was a defect in all Canadian colleges while other countries had seen the benefit of these aids to higher education. The only source from which these could come now he thought was the Dominion Government. He considered that if it created say 30 such studentships of the value of $1,000 each, and tenable for seven years, a wonderful impetus would be given to the advancement of science and literature in Canada. Some $10,000 more for expenses of examinations and to supply prizes, and in all about $40,000 would be required. But it might be objected that Dominion Government would never give $40,000 for this purpose, but this could not be known for certainty until the attempt was made. The time was most opportune he thought for such an attempt. Something he was sure must be done in this matter, unless Canada was to be left behind other countries in higher education. In conclusion he congratulated the students on their success in College, and assured them of the best wishes of himself and the other Professors for abundant success in their future careers.

The degree of D.C.L. was here conferred by Principal Dawson on the Hon. J. S. C. Wurtele, Provincial Treasurer, amidst applause.

Principal Dawson then reported on the work of the past session. During the course of his remarks, he referred to the number of degrees in course granted at the close of this session, 75 in all—to the attendance of students, which had been 374, independently of students of affiliated colleges, to the success of the educational work of the session, and the high standard attained by the students in the examinations; and to the one sad feature of the session—the removal by death of one of the most promising students in applied science. He noticed the changes introduced in the arts curriculum, whereby, while the uniformity of the course in the first and second year is retained, larger options are given to both ordinary and honor students in the third and fourth years. These changes (which have previously appeared in our columns), are noticed in the Announcement of the Faculty of Arts, now ready for circulation, and he expressed the hope that they might enlarge the sphere of usefulness of the University without lowering in any way the educational value of its degrees. Dr. Dawson referred to the approaching completion of the Peter Redpath Museum, to be opened on the occasion of the visit of the American Association for the Advancement of Science in August. This would give the University for the first time satisfactory accommodation and means of study for its classes in natural science. It might be said to place this part of the work of the University in advance of some others, but in this respect it was an indication of what should be done, or must in the future be done, for these others. It would also give the University the means of aiding the higher education of women more effectually through the Ladies' Educational Association, whose classes were to have the benefit of the Museum next session. A less agreeable matter was the financial depression from which the University had been suffering, owing to the diminution in the income from investments. This had been met by retrenchments, which were, however, very undesirable at a time when the demand for additional expenditure in educational work was growing, and by an appeal to the friends of education. This appeal had so far resulted in addition to Mr. W. C. McDonald's munificent gift for scholarships, in a sum of about $26,000 added to the endowment fund, and annual subscriptions to the amount of about $5,000 yearly. For this the College could not be too grateful, as it tided over the immediate difficulty, but the University could not in present circumstances take its proper position without an addition of at least $150,000 to its endowments. He asked that this should be given within this the 50th year of the University, so that it might commence its second half century with renewed life and vigour. He closed with a few words of congratulation and advice to the new graduates and students.

The proceedings were then brought to a close by the Rev. Principal MacVicar pronouncing the benediction.

THE UNIVERSITY DINNER.

ANNUAL GATHERING OF THE MEMBERS OF THE GRADUATE'S SOCIETY AND THEIR FRIENDS.

The annual University dinner, held under the auspices of the Graduates' Society, was held in the Windsor Hotel last evening, and both from the number of those present and from the high order of the intellectual part of the evening's proceedings, the gathering was a most decided success. About eight o'clock the President, Dr. Osler, the invited guests, and the members of the Society, about 130 in number, entered the dining-room and took their seats. On the right of the President sat Principal Dawson, L L D, F R S, C M G; Mr John H R Molson, Mr G W Stephens, M P P; Mr S Haight ane Rev James Roy, and on his left Hon P J O Chauveau, Hon Justice Mackay, Mr R A Ramsay, Rev W H Drewett (of Manchester, England), Rev Dr Stevenson, and Dr J Clarke Murray. The vice-chairs were occupied by Dr F W Campbell, Mr C H McLeod (Vice-President), and Dr F W Kelley.

The following was the list of the

INVITED GUESTS.

His Excellency the Governor-General, His Honour the Lieut-Governor Quebec, His Honour the Lieut-Governor Ontario, President Eliott of Harvard, President Porter of Yale, President White of Cornell, President Gilman of Johns Hopkins, Baltimore; President Buckham, of University of Vermont; Rev M S Methot, Rector of Laval; Rev T E Hamel, of Laval; Dr Wilson, of University College, Toronto; Chancellor Fleming, of Queen's, Kingston; Rev J A Lobley, of Lennoxville; Chancellor Heneker, of Lennoxville; Principal Nelles, of Victoria College, Coburg; Hon Mr Justice Mackay, Hon Dr Chauveau, Hon Edward Blake, John McLennan, M P; Hugh McLennan, George Hague, W C Macdonald, A S Wood, James Burnett, M H Gault, M P; J H Burland, Alex Drummond, A T Drummond, Alex Murray, T J Claxton, J H R Molson, George Brush, Warden King, J Hickson, J S McLachlan, A S Ewing, J H Ewing, David Morrice, Sir Francis Hincks, Hugh Paton, Thomas Craig, And Robertson, Thomas Workman, Jas Court, J M Douglass, H Meckenzie, Geo Stephen, G M Kinghorn, J Rankin, J Duncan,

So far as could be ascertained, the following is a complete list of

THOSE PRESENT.

Dr Osler, Dr Ross, Rev Canon Norman, Mr McClure, Mr McGillivray, Mr F Win, Mr W McL Walbank, G W Stephens, M P P, M Hutchinson, E Lanctot, E Lafleur, Mr H H Lyman, Mr Henry Lyman, Mr E B Greenshields, Mr S Greenshields, Mr Alex Robertson, Mr J F Greenshields, Mr E B Busteed, Mr J J Curran, Mr J E Robidoux, Mr C A Geoffrion, Mr J S Hall, Mr S D Taylor, Mr J P McLennan, Mr Hampson, Mr R M Esdale, Dr F W Campbell, Dr F W Perrigo, Dr R L Macdonald, Dr Cameron, Dr Gardner, Dr Alloway, Dr Bell, Dr Armstrong, Dr T A Rodger, Dr Guerin, Dr Ross, Dr Roddick, Principal Dawson, Dr Cornish, Dr Murray, Dr Harrington, Dr George Dawson, Prof Boney, Mr Kennedy, Mr Watson, Mr Leslie Skelton, Prof Moyse, Mr Chandler, Rev J Empson, Rev Dr McVicar, Rev Canon Henderson, Rev James Roy, Rev James Fleck, Mr W Drysdale, Prof Coussirat, Mr Barnjum, Prof C H McLeod, Dr Johnson, Rev Mr Drewett, Manchester, Eng; Mr James Gardner, Rev R Campbell, Mr Watson, Mr Charles Gibb, Mr C H Gould, Mr F McLennan, Mr Wm McLennan, Philippe H Roy, Raymond Prefontaine, L J Ethier, L H Frechette, LL D, W D Lighthall, J Bouthillier Trudel, James R Walker, Arch McGoun, jr, Dr H A Howe, Dr S P Robins, Dr F W Kelley, Rev E J Rexford, J J Donald, A E Duncan, Rev A H Munroe, F S Hait, J W Tucker, E Lefebre, Rev E M Taylor, Dr McGregor, Mr A C Lyman, Dr Molson, Dr Geo Ross, Dr Stephen, Dr Craik, Dr W McEachran, Mr D McEachran, Dr Buller, Mr Ibbotson, Dr G T Ross, Dr Hingston, Dr McCallum, Dr Howard, Dr Kennedy, Dr Shepherd, Dr Browne, Dr Fiunie, Dr Mills, Dr Blackader, Dr Godfrey, Dr Munro, Dr Gurd, Dr Howard, Dr Stephen, Dr Fenwick, Dr Burland, Dr Proudfoot, Rev Dr Sullivan, E Barnard, M M Tait, L N Benjamin, W D M Marler, C H Stephens, N W Trenholme, J S Archibald, C J Doherty, H J Kavanagh, D Barry, D Downie, Rev J Carmichael, W F Ritchie, A G Cross, C Cushing, M B Bethune, R A Ramsay, S P Leet.

While the *menu* was being discussed, Mr. Charles Reichling's string band discoursed excellent music.

The following formal toasts were then disposed of:—"The Queen," "The Governor-General," "The Lieutenant-Governor."

In proposing the next toast, "The University," the President said he felt highly honoured to have the privilege of proposing this toast on such an occasion, and in doing so would give, in a few words, the history of this University, of its early trials, and of the men who so nobly encouraged its career, of its founder, and of those who in the past had borne the burden and the heat of the day, who had sown the seed from which they had reaped the harvest, and who had long entered into their rest. He felt honored, because he felt that this was a festive gathering to celebrate the coming of age of their University. (Applause.) McGill University was in the 50th year of its existence or more correctly its 50th Session. A University, like some other things, came to maturity slowly, and he thought they might safely say that their University was to-day coming of age. In this connection it might be interesting to ask the parentage of this Institution. Who fathered her? Why, the Merchants of Montreal; she was born, so to speak, in the Chamber of Commerce. She had been reared wet and dry nursed. by merchants; all her little early difficulties and troubles had been treated in the Corn Exchange. [Laughter.] To whom did she first lisp forth her early prayers? To the merchants of Montreal. They had seen her safely through the teething, the measles and the several other critical periods of her existence; moreover they saw her through the critical period of puberty, and he believed that period was the time they sought the aid of their noble Principal; he was the doctor called in and he reared her through that critical period. [Loud applause.] In looking over the history of the Institution briefly, he did it with a medical eye (laughter and loud applause), and just at that time there were indications of commencing maturity, and it was very fortunate for this Institution and this city that they called in so skilful a physician. [Cheers]. He might say in this connection that this University was a child of trade; founded, as he said, by the merchants of Montreal, she owed her continued existence almost exclusively to these gentlemen. There was nothing in the whole history of Montreal to which the merchants of Montreal could look forward with so much pride as McGill University. [Cheers]. The coming of age of this University brought with it additional responsibilities. In the first place, the University should be a teaching place where the youth could go and seek information in all departments of knowledge [loud applause], where men could be educated to fill any calling in life. To do this they required a staff of the ablest men they could get — not only the ablest men that the country possessed, but the best that money could get, the best talent that they could get irrespective of nationality. (Applause.) He hoped that by the time of the next jubilee —namely, the centennial dinner—their University would be known not only as a centre where men could come and get education, but a centre where men could find the means of extending the limits of knowledge. The graduates of McGill University should look forward to the time when she would have her laboratories and all the necessaries to give to students opportunities of individual and private research. Referring to the large amount of work done by the professors, Dr. Osler said that the man who gave 12 or 13 lectures a week could not be expected to devote much time to original work with any proper degree of enthusiasm. He would give them "The University."

The toast was received with the greatest enthusiasm.

Dr. Henderson then gave a song, after which,

Hon. Justice Mackay responded as follows:—

I have to thank you and the graduates for your kind invitation to me to make one at your festive board this evening. The scene before me leads me to comparisons of things past with present, for I was raised in the time of no university and when the chief schools for the English part of the people, in Upper and Lower Canada, were only five or six. I confess to possessing little academical experience beyond what I have acquired in the past few years. In an after-dinner speech it will not do to sermonize; yet a very, very short retrospect may be excusable—I mean of affairs pertaining to our own University. These have a better appearance than they had. The year past was not unattended with some discouragements owing to diminished resources, chiefly from the over-abundance of money, leading to a fall in the rates of interest on investments, as you are aware, and as our worthy Principal has stated to-day. The Governors some may imagine have a position of honor with no anxieties, but those who think so (I mean as to the anxieties), are under mistake. When the discouraging cloud appeared last year the Governors were, nevertheless, not scared. They resolved upon the course of calling to their councils their fellow citizens, of placing the case before them and the claims of the University, trusting to them for a deliverance. I think you will agree with me that the result has shown the wisdom of the course taken. One chief desire of the Governors all the time was to be perfectly fair towards the Professors and not to reduce salaries, if it could possibly be avoided. It is fitting, while acknowledging aid received, to allude particularly to the splendid gift, following upon many large though lesser ones in times past, of $30,000 from Mr. W. C. McDonald. Our prospects for the future are brightening; yet the work that might be done and ought to be, if we only had the means, is large. One piece of such work is, as our Principal has several times stated, a boarding and lodging house for the students, a building in which each one would have his separate bedroom and study room; in the same building there is to be a large dining-hall and room for exercising and public meetings. The Peter Redpath Museum is fast approaching completion; it is proposed to be publicly opened about the 24th of August. It will be an ornament not only to the College grounds but to the city. May it long endure, a monument to the liberality and noble mindedness of the donor. Honour to Peter Redpath!

The Rev. Professor Clark Murray was most warmly received on rising to respond in the name of the Professors, for which he thanked the Assembly very heartily.

At this point the Rev. Dr. Sullivan, Bishop Elect of Algoma, entered the room, and was provided with a seat beside the speaker amid a storm of welcomes.

The Rev. Professor Murray continued:—The Professors of the University had a good deal to be grateful for in the manner in which their services were received both by the public at large, by the Governors, by the graduates attached to the University, and also by the students whom the Professors teach, for scarcely a session passed without their receiving from the Valedictorian an expression of gratitude for the services which they have endeavoured to render during the session, and he took it that this expression on the part of the Valedictorian should not always be regarded as unmeaning; and he could only say that the professors felt it to be their duty to evince their gratitude by doing what they could to render services more effectual. He referred at some length, and for the first time in public, to the important changes made in the curriculum, and, in response to a possible objection to the change, remarked that the University, as the President had just reminded them, partook something of the character of an organism, and as the growth of an organism implies change, they had made such alterations in the curriculum as best to serve the interests of the graduates and the usefulness of the Institution, and as some complained that the governors had already gone too far, while others complained that they had not gone far enough, it might be expected that they had struck the happy medium most desirable in such a case. He referred with pride to the fact that our merchants were not all absorbed in the task of increasing their bank accounts, but that the immediate object of some of them was to promote higher education in the community. He referred to the great civilizing effect of education as instanced by the history of Greece and Rome, and predicted an industrious and prosperous career for the University.

Rev. E. I. Rexford in a very humble way as one of the fellows of the University said word with reference to the work carried on, and pointed to one feature to show the very great love and affection the Graduates had gwards the Fellows' remedy in returning to the last elections the representative fellows of former years. He also referred to the fact that in both science and literature special merit was rewarded without tedious delay. He referred to the change in the Curriculum as one calculated to be highly beneficial, as tending towards the production of better graduates in the future than the University has been able to produce in the past.

Professor Moyse proposed the toast of "Our Sister Universities," and referred to the universal growth of education in Europe and on the continent. He held that the "recent improvement" made by the governing body was looked upon with favour by all as most conducive to the growth of a liberal education. He called upon the

Hon. P. J. V. Chauveau, who on rising to respond was received with great applause, and cries of *En Anglais* and *En Francais*. He said that speaking for Laval he would address the meeting in French. The toast had been received in a most pleasing manner, and it was peculiarly gratifying that the toast was greeted with the popular English refrain "For they are jolly good fellows." The people he represented were of the French race, but they were fond of that refrain. Their own gaiety inclined them to join with sentiments of fraternity in such a song breathing such gaiety. If the race to which he belonged had exerted any influence upon this continent it was largely due to this very gaiety of their dispositions. Every one was fond of the beautiful Canadian songs. But he had to refer to two things of a more serious character. Laval University was the youngest as a University, but was perhaps the oldest in the wide Dominion as a seat of learning. They had never regarded with jealousy or with an evil eye the success of other institutions of a like character. They were never disposed to sham a spirit of unfair rivalry; in everything tending to the advancement of learning, they were above such a spirit. Indeed, if there was anything for which they had become proverbial for, it was the exaggeration of the opposite feeling, and the desire to maintain the "highest possible standard." Laval then is not to be feared by McGill, but to be considered as a friendly competitor in the same work. He himself had been made a Doctor of Laws in McGill, and it was his first honour of the kind. He had also to refefer to one whom he must call the second father of the University, Dr. Dawson, (Cheers) who had begun the work of re-establishing it when he (Mr. Chauveau) was Secretary of the Province, and had to give some attention to the institution. He recollected how Judge Mackay, Canon Leach, and many other friends of the University had repeatedly come, endeavouring to secure the assistance of the Government to this institution in its financial difficulties. And yet for McGill as for many other institutions, it seemed as if such difficulties were really the source of success. Every time Dr. Dawson had come to the office of the Provincial Secretary to seek $10,000 or $20,000 or $30,000 (cheers), he had always felt how well he deserved what he sought, and he always wished the Government could do its utmost for it. And he (Mr. Chauveau) was one of those who had always done their best for McGill, even before Dr. Dawson came to Montreal —as far back as 1820. He came to Montreal the same year as Dr. Dawson came as Principal of McGill, and it was one of the happiest recollections of his life that he had assisted Sir Geo. Cartier in the establishment of McGill Normal School. They recognized the wisdom of sinking religious differences and valued the principle consecrated in the English maxim "to agree to disagree." He was always glad to reply to this toast, as it gave him an opportunity of testifying to the zeal, industry, and talent that characterised its foundation and supporters. Its Principal was a man who loved science for science's sake. The chairman had referred to the desirability of having connected with the University men who might devote their mind to producing works of high class in literature and science, without the necessity of being distracted by the work of teaching. But this was a young country and we can hardly hope for a large leisured class. We have rather to congratulate ourselves when we possess men that in addition to performing their teaching duties can at the same time establish a renown as literary men, as scientific writers of highest merit. And McGill can boast of a man who has achieved that distinction, who has gained a name in Europe and in America that challenges our greatest admiration. He need not say he referred to Principal Dawson. [Cheers.]

Another suggestion that had been put forth was for the erection of a *pensionnat* for the students of McGill. They had it in Oxford and Cambridge, and they had it in the ancient University of Paris. In England to-day Balliol College, St. John's College, and others had brought the students close together and developed that *esprit de corps* that distinguishes the sons of such *alma maters*. Laval had a *pensionnat* for her students in Quebec and he hoped that she as well as McGill would soon have it in Montreal. In conclusion, he thanked the meeting for this toast and hoped for great success to institutions of learning that will build up our country. [Applause.]

The Chairman regretted the unavoidable absence of Rev. Chancellor Henneker of Bishops College, Lennoxville; Rev. Canon Norman, Montreal; and Rev. Chancellor Henning of Queen's University, Kingston, all of whom he had hoped would be present and respond to the toast.

The Chairman then gave the toast of the evening, "The University of Montreal," which brought forth the most enthusiastic applause on the part of the audience towards the revered

Principal Dawson as he rose to respond. He commenced by humourously referring to the varied manner in which the toast was put on the several billets and advertisements, and also to the Chairman's description of the youthful trials of the University and would not speak of the University of Montreal any further than to say how very much they were indebted to Dr. Chauveau, as the representative of Laval University and the French nationality in the city of which he (Dr. C) was a most fitting representative for the kind words spoken on this occasion. He preferred to put the toast, "The Citizens of Montreal and McGill University." He characterised McGill as a giant in his day, when at a time when Moutreal boasted of but 20,000 inhabitants he founded the University, and he was glad to say that from time to time others of like sympathy and benevolence appeared—Dunkin, Hugh Ramsay, Benjamin Holmes, Peter McGill and more besides. They had been found so earnest and energetic that when the professors had entered upon their duties with absolutely nothing in the University chest—they had been prepared to pay the expenses out of their own pockets—and the race is not yet extinct while we have such men as Peter Redpath and D. Macdonald (applause). He was struck not long ago by a remark of the worthy Chancellor that there was nothing he envied so much in a wealthy man as the power he had for contributing to good purposes. That was the sentiment, the luxury of giving realizes that holy truth, "it is more blessed to give than to receive. He referred to the love of fame inherent in man, and contended that no more lasting monument could a man raise for himself than an endowment, a chair, or a scholarship. He referred to matters pertaining to the University, which he believed in its career to the peaceful Saint Lawrence, bestowing benefits throughout its course.

Mr. M. M. Tait, Q.C., then gave a song, which was loudly *encored*.

Mr. George Hague, in responding, said that it was a great pity that in a wealthy city like Montreal, and for so small a sum as $150,000 there should have been those measures of retrenchment that they heard of in the afternoon, and he hoped that before long this reproach would be wiped away. McGill University was the greatest thing that Montreal had to boast of. He referred to the great and honorable Faculty of Arts, which produced men fitted for every department of commercial and political life, which trained men that they might take their part in moulding the destiny of the great northern part of this continent, which might be to the continent what our mother country was to Europe. [Applause]. They were all interested, as business men in the success of McGill University, and it was worth their time to devote money, time and labour in advancing its interests. Applause.)

The Rev. Dr. Stevenson then proposed the toast "Canada." He alluded in most complimentary terms to the election of the Rev. Dr. Sullivan to the Bishopric of Algoma, and congratulated him on the increased ecclesiastical dignity and prominence which that position gave him. In accepting that position Dr. Sullivan had committed an act of faith and self-sacrifice, for which they sincerely admired him. (Applause.) In reference to his leaving Montreal, they condoled one another and desired to express their very sincere regret that their society of which he had been so great an ornament would shortly lose him. [Applause]. He was very proud to propose this toast of Canada. Born, as he was, on the other side of the Atlantic, he was glad now to drop the name of Englishman and to take the name of a Canadian. They could be proud of Canada without belittling in the slightest degree any of the other nationalities. [Hear, hear]. They could congratulate England on her mighty history; they could point to the history of Scotland, that brave little land that gave such great and brave men; they could look across the Channel to Fair France, and see a people who were first in the clear expression of thought, first in those ornamental delicacies which helped so greatly the charm of social intercourse; they could look to Germany, that seat of learning, or across the Alps and glory in the brightness of the Italian sky, and in the soft elegance of Italian literature; and they could come to their own country, and boast of a sky as clear as the Italian sky, and a race which poured into their blood all the richest qualities of the English, Scotch, French and Italian races. They must congratulate themselves on the splendour of their climate and the grandeur of their territorial extent. Great nations had been made by some climatic peculiarity, and Canada undoubtedly possessed climatic advantages which alone would make of her a great nation. He did not wish to speak unkindly of other histories, but we had lights in our history that were like the Chevalier Bayard, men without fear and without reproach. France and England had quarrelled and been enemies in the past, but they had now shaken hands over the sacred dust of their heroes, and in this Canada of ours the intermingling of these two great nationalities would be of great benefit. They had had a glorious past, and they had a glorious prospect for the future. From Sarnia to Gaspe and right away to the Pacific Ocean where was the man who could not breathe freely in this beautiful air of ours, where was the man who had grievances that could not ventilate them right to the foot of the throne. [Applause.] There was no exclusive class in Canada, every man had perfect freedom in speech, freedom in life and freedom in the press. As a Protestant clergyman he could not forget the heroism of those Catholic Missionaries who came to this country many years ago, and went into the wildness and civilized the people. He concluded a most eloquent address by saying that they had only to preserve sacredly and earnestly their confidence in him who was the source of all good things, and the giver of every blessing and they would then be a great nation in the time to come. (Applause.)

Dr. Louis H. Frechette, in reply, said it natural that the toast of "Canada" having been proposed in English should be responded to in French, since, as had been said by the eloquent speaker who had proposed the toast, our country had an immense advantage in the rare good fortune of having been discovered, peopled, inhabited and developed by two of the greatest races in the world, the Anglo-Saxon and the French. This toast was one that called forth a response from every heart. The name of one's country has always inspired poets with their finest sentiments, and all the poets of Canada have sung their native land: from Cremazie who sang on the battlements of ancient Quebec to the late poet who cried, *avant tout je suis Canadien*, from that other veteran whose refrain was *O Canada, mon pays, mes amours*, to the poet who sang of *Nos peres sortis de la France, Qui cherchaient loin de leur patrie, Une terre de la liberte*. But it is not sufficient that a poet should have inspiration, but there must be the occasion to call it forth. He must be under its direct influence. The proposer of the toast in recalling the noble heroes of the past, those men whose deeds made us delighted with the thought that this was our country, had furnished such an impulse, he thought he might repeat a few lines that he had composed upon a like occasion:—

Et toi, de ces heros genereuse patrie,
Sol Canadien qu'on aime avec idolatrie,
Dans l'accomplissement de tous ces grands travaux.
Quand je pese la part que le Ciel t'a donnee,
Les yeux sur l'avenir, terre predestinee,
J'ai foi dans tes destins nouveaux.

Yes he had faith in the destiny of his country, especially when he looked upon such institutions as McGill University, which had sprung from her soil, and were fastened under the banner of a glorious past, and in the hope of a great future. [Cheers]. On resuming his seat Mr. Frechette was greeted with loud calls of *Soixante-dix*, in response to which he repeated the words of his poem "1870," which were listened to with the profoundest attention, and at the close greeted with enthuiastic applause. Mr. Eugene Lafluer then sang "*Sol Canadien*."

Professor J. E. Robinson then proposed the toast of "McGill in Parliament," which was eloquently responded to by Mr. G. W. Stephens, M.P.P.

"The Ladies," who

THE VICEROYALTY OF IRELAND.

It appears that we were not astray in crediting the rumour that it was the intention of Mr. Gladstone to recommend the appointment of the Earl of Dufferin to the Lord Lieutenancy of Ireland, notwithstanding the subsequent intimation that Earl Spencer had been selected to fill that exalted position. It appears now that both rumours are likely to prove true, that the latter nobleman will be Earl Cowper's immediate successor, but only temporarily, until it is convenient for Lord Dufferin to take his place. We are not informed how long the interregnum—if we may use the term—is to be or the reason of it. Several possible reasons offer themselves. It may be that Lord Dufferin is engaged on some delicate business with the Porte, which it is preferable he should carry to completion than that it should be transferred to other hands to finish. Or it may be that his lordship would feel the necessity of spending some time in London before proceeding to Ireland, in order to thoroughly inform himself of the situation, and receive from Ministers full instructions as to the course he will be required to pursue. The latter is the most probable of all the suppositions that occur to us, especially as rumour says that important changes in the Irish policy are in contemplation, which it would not be likely Government would determine upon without previously consulting with the official who will be charged with the responsibility of carrying out the perilous experiment. That there are to be such changes is now more than a mere speculation; indeed in the debate which preceded the Easter holidays, the Premier gave the House and country clearly to understand that important modifications were under consideration. The necessity of a revision of the Irish policy has been recognized by the British press of all shades of opinion with singular and impressive unanimity. The *Spectator*, which is certainly not prone harshly to criticise the present administration, says:—"We see no advantage to be gained by concealing so palpable a fact as that Coercion has failed in its main object, that of restoring the authority of law." The *Economist* asks:—"Are there any substitutes for the present form of Coercion which will be at the same time, more effective for the prevention of crime and less repugnant to the ordinary procedure of the law?" The *Daily Telegraph* says:—"We have said and must repeat that the Government have two great duties to perform, separated from each other by a clear broad line of demarcation. The first is one which they have never yet thoroughly taken in hand—the repression of crimes that strike at the bases of society itself, and the condign punishment not merely of the savages who commit them, but of their betters who have systematically stirred up and inflamed the worst passions." The *Morning Advertiser* speaks in the same strain:—"It is clear that matters cannot stop as they are; murders are now of daily occurrence.....yet there has not been one conviction for the capital offence." So with the *Dublin Express*—"Let the Government look to it while there is yet time." We might multiply such opinions almost indefinitely but the foregoing will suffice to show how complete is the concensus of journalistic opinion as to the inefficacy of the Coercion Act. Mr. Gladstone himself admits it, and further allows the necessity of dealing with the disorders in Ireland in some other way. Some time has elapsed since he made this frank admission in Parliament, yet we are still in suspense as to the nature of the changes to be made. But it would be unreasonable to be impatient when so weighty a matter has to be dealt with; it is better that a few weeks, to the public view wasted, should be spent in deliberation, than that any blunder should be committed especially at a critical time like this But it is natural that conjectures and suggestions should be rife; and among the remedies thought possible or recommended are the following:—Much severer punishments and the offering of really solid rewards for the discovery of crime; the appointment of a large number of active and zealous magistrates, backed, if necessary, by the abolition of trial by jury; release of the suspects; martial law, if all other plans fail; the re-enactment of the 39th section of the Peace Preservation Act of 1870, which required the grand jury in any case of murder or maiming to exact from the district compensation to the person assailed or his representatives, and in the event of concealment of evidence a heavy fine; an extension of the powers of searching for arms; the establishment of a peasant proprietary, (the scheme of Mr. W. H. Smith, M.P. for Westminster), together with others too numerous to mention. Which of these suggestions if any of them, Mr. Gladstone may fall in with, or what he will propose in the event of not any of them meeting his views, of what should be done remains to be seen; but the appointment of such men as Earl Spencer and Earl Dufferin to the Chief Magistracy seems to point to a relaxation of the rigour which is confessed on all hands and by the Premier himself to have only partially succeeded in the restoration of order.

AN UNWARRANTED ATTACK.

"Professedly in the interest of the public health, a guise which but thinly veils the inspiration of the little ring of capitalists interested in the Montreal Abattoir Company the HERALD for a second time attacks the Hon. Mr. Lynch in relation to his vote in committee on the bill regarding the abattoir question, and seeks to find a new cause for censure in the explanation volunteered by the Hon. gentleman in the House, an explanation which not only satisfied, but elicited commendation from those whom the HERALD has ever proclaimed as blameless and infallible, the Hon. Messrs. Joly and Mercier, and Mr. George Washington Stephens. Mr. Lynch's explanation of his vote was simple and all-sufficient. He appealed to the House to say if it was not the invariable practice in committee when there was a tie on any question for the chairman to cast his vote so as to bring the question under the notice of the House, and was followed by the Liberal leaders who both stated that the honorable gentleman had only done his duty as chairman of the committee. If the first animadversions of our contemporary were unwarranted and unjustifiable, as the HERALD'S town friends have practically admitted, how much more so this latest attempted slur on the conduct of a Crown Minister, who, it has been allowed, even by his opponents, simply did his duty. There is no need to go further into the matter. The real motive of the HERALD'S attack is too transparent to deceive anyone, and the conclusion of its article so illogical as to be unworthy of notice."

The above is from the Montreal *Gazette* of yesterday, and we very willingly reproduce this effort at defence of Mr. Lynch's conduct, but we do not think that the citizens of Montreal will be satisfied with so lame an excuse for so reprehensible an act. The public are led to suppose by the above that Mr. Lynch's negative vote gave the bill the only chance there was of its being brought before the House, the absurdity of which position must be apparent to everyone. But mark the witnesses whose evidence is proffered to establish the consistency of Mr. Lynch's course in the matter. The Hon. Mr. Joly's name can be found in the columns of the *Gazette* as one blurred with the stain of dishonesty, and a thousand charges can be found in the pages of that journal, which, if established, would damage the reputation of any public man irreparably, and yet, when occasion serves, our contemporary looks to this gentleman, the leader of the Opposition, for a coat of whitewash. Mr. Mercier's admission that Mr. Lynch's vote had been given conscientiously, might, perhaps, be attributed to the fact that he was professionally interested in the question, and, as a matter of course, serving the interests of his clients as well as he could. But what will the Conservative readers of the *Gazette* think of that journal which, by force of circumstances, has been compelled to apply to Mr. George Washington Stephens, the member for Montreal Centre, for a certificate of the Solicitor-General's good faith? In order to show how much any recommendation of the member for Montreal Centre would be worth, it should have republished the coarse attacks which it has made upon the private character and public career of the hon. gentleman. If, however, we are to regard the above extract as an evidence of penitence on the part of our esteemed neighbour, we shall willingly accept it as such, and express the hope that when any further whitewashing is necessary it will walk into the Reform ranks and solicit the application of the cleansing brush.

MONTREAL GOVERNED BY BROME.

We presume Mr. Lynch purposes to supplement his action on the Montreal bill, by bringing in one of his own, with the consent of his colleagues, and for which we take the freedom of suggesting an appropriate title, namely, "A bill to curtail the powers of municipalities to protect themselves from the ravages of disease, and to authorizet the free sale of provisions, diseased or other wise." This is what the matter really amounts to. He has constituted himself the arbiter of the health of Montreal by the position he has taken. He has told the Corporation, and so far as the bill which the Council has all but unanimously sustained, has gone, has stood by it, that it is one of the functions of Parliament to overrule whatever decisions the governing body of a municipality may come to as to what is best for the sanitary interests of the same. The Legislature has the power of life and death, in other words, and can at its pleasure thwart any efforts which even the Corporatin of the chief city of the Province, and of the Dominion may make to conserve the health of its inhabitants. This is a heavy responsibility for any man—even an able man—to assume, but in the case of Mr. Lynch the assumption is the very extravagance of audacious rashness. Can he produce from all the tomes in the Parliamentary library a precedent for such interference? We doubt it, but if he could, the justification would not be established by the production of any number of precedents. The Corporation are charged with the preservation, so far as is possible, of the public health, and the city's prosperity depends upon its maintenance. They keep up drainage, supply water, remove refuse from backyards, vaccinate gratis, maintain a staff of health officers, and do many other things costing money which our heavily burdened taxpayers furnish uncomplainingly. But when they decide to put a stop to one of the most destructive evils that can exist, the private slaughtering of cattle wherever anyone may care to do the butchering, and the sale of meat which may be good or diseased, together with the stench and general offensiveness of this method of killing—Mr. Lynch steps in and says, "You cannot do this; I, by my vote, forbid it. You have erected abattoirs on the most approved plans, as you say, and equipped them with all necessary machinery and other appliances, but that is of no consequence. You must go on enduring this worst of all nuisances, of which you are desirous to rid yourselves, and making the procuring of food guaranteed to be fit for consumption impossible." It is almost inconceivable that any sane man should deliberately assume a responsibility of such magnitude. What impression the verdict of the Montreal City Council or the arguments which may be urged by its delegation may have upon him and his colleagues we cannot foresee, but the injustice which it has been proposed by the Solicitor-General to do to the population of Canada's metropolis is so gross that words completely fail to describe it.

Late cablegrams announce that Mr. Forster has resigned the Irish Chief Secretaryship, and that the principal suspects have been released. Amendments are to be made to the laws respecting the administration of justice, and important changes in the general policy of the Government towards Ireland are foreshadowed.

Our Halifax despatch announces the arrival at that port of the Dominion Line steamship "Quebec," which was unable to reach Quebec because of ice fields in the Gulf. When first sighted, the "Quebec" was supposed to be the Allans' mail steamship "Polynesian," which vessel is doubtless detained in the ice, and may with others be obliged to go also to Halifax.

In reference to a paragraph which appeared in our commercial columns yesterday morning respecting recent changes in the American tariff, it was not perhaps generally understood that the Bill to repeal the ten per cent. discriminating duty on goods, the growth of countries east of the Cape of Good Hope, when imported into the United States from the Nethertands was amended in the Senate, the repeal clause being made to extend to the discriminating duty on such goods no matter from whence they may be brought into the United States. This Act now only awaits the Presidents signature to become law. The concession has been warmly approved by the trade of the entire Union, and it is to be hoped that our own Finance Minister will follow the example of Congress, and abolish the vexatious ten per cent. discriminating duty on tea imported from the United States. This restriction while in no way promoting direct trade with China and Japan, is extremely harassing to the trade and should be removed. The Minister should therefore see that the necessary change is made before Parliament rises.

From our own Correspondent.

Winnipeg, April 24, 1882.

The weather here for the past week has been bright and warm during the day, but quite cold with occasional heavy frosts at night. This has had the effect of to some extent of retarding farming operations as well as preventing the intending settler from reaching his location on account of the continued bad state of the roads.

Real estate matters have been very quiet lately, sellers being in the majority at present, partially owing to the feeling that for sometime at least matters are not likely to improve, and again a number have payments about to become due, and are anxious to provide for them by unloading their less desirable holdings. Business, however, in all other branches has been very satisfactory; but merchants are feeling the short supply of goods and the utter impossibility of obtaining delivery of freight, which has in many cases been over six weeks on the road. This blockade aggravated by a stoppage of freight traffic for probably two weeks or more, in consequence of the washout about a mile and a half south of St. Vincent, has caused a heavy increase, especially in the price of provisions, meat being now retailed at 30c per lb., and wood hardly to be had at any price, $12 per cord being easily had for stuff which in Montreal would not be recognized as firewood. Unless the railroad companies make some special effort to supply our market, the cost of living, which is now daily increasing, will become unbearable; but we hope the present state of affairs will not continue long.

The topic of the week has been the flooding by the Red River and the destruction consequent upon ridding herself of her wintry garb. The old idea that Winnipeg and her surroundings were only destined to be inundated once in every two years or so has in the minds of every one been most thoroughly dispelled by this spring's experience, fears being at one time entertained that the scenes of 1826 and 1861 would be repeated. Happily, however, so far such has not been the case, and although much higher water that at present, is expected, nothing really serious is anticipated. The Red River began rising shortly before noon on Wednesday and about an hour and-a-half afterwards a general shove took place carrying away two of the spans of the new Broadway bridge (an open iron structure supported by plate-iron cylinders filled with portland cement and resting on cedar piles.) These supports being knocked away, the spans dropped upon the ice and were borne down the stream for a considerable distance before breaking through. Later on in the afternoon it was expected that the remainder would be carried away, but fortunately these expectations were not realized although the supports have been badly damaged and in some instances considerably displaced. Some engineers who visited and examined the structure, pronounced the architecture altogether erroneous in view of the severe climate and the current of the river. The Louise bridge, further down the stream, and used by the C. P. Ry., was severely shaken a couple of times, but escaped with no further injury than the loss of the breakwater of the centre pier, upon which the swing span turns. The ice on the Assiniboine has not yet moved, and the fears which were entertained for the safety of this bridge have abated, as well as fears of a flood from this source. No sooner have our citizens began to congratulate themselves upon the danger being past when a number of those residing on the Main street, as far down as Jemima street, had the pleasure of awaking on Sunday morning to find their quarters transformed into an impromtu Venice, lacking, however, that Venitian convenience, the gandalas. This was caused by the rapidly melting snow on the prairie, the means of draining off which were insufficient, and consequently the water was compelled to seek other channels, and consequently inundated the city. The City Engineer is now hard at work with a larger staff of men opening temporary drains in order to allow of the water to find its way to the Red River, and it is hoped that matters will shortly be all right again. On visiting the outlying districts yesterday, it was both amusing as well as pitiable to see the vast expanse of water dotted here and there by deserted tents, their occupants having been compelled to beat a rather hasty and disordered retreat in the dead of night.

In consequence of the washout near St. Vincent, we have been without our mails for five days, but arrangements are being now completed for a steamer to run between Selkirk and Emerson, connecting with the train at both points, for the purpose of conveying passengers and mails; we are expecting a portion of our five days' supply to-morrow.

The writer had the pleasure of meeting the Rev. Mr. Bridges, who came out in charge of the party of emigrants sent out under the auspices of the Church Emigration Society. He expressed himself well pleased with the success of his trip, but complained of the lack of competent Government agents whose duty it would be to take charge of emigrants on their arrival, accompanying them throughout the journey, supplying them with all needful information regarding the country and its resources, and advising them as to the best localities for settlement, and then upon their arrival at the end of their railway journey to provide guides to conduct them to their chosen settlements. That this want is greatly felt, especially by those coming from the other side, your correspondent can corroborate, having travelled on an emigrant train from Port Huron to Chicago and heard identical expressions of opinion from a number of the passengers.

To return to city matters. Amongst the latest adornments to the city architecture is the new Ontario Bank building, which has just been completed and moved into. It is a handsome three storey, brown stone front structure, situated on the Main street, a short distance south of the Bank of Montreal. Besides being a credit to the institution and an ornament to the city, their new quarters were much needed, as they are doing a large and lucrative business.

Yesterday being St. George's day, a special service was held in the Holy Trinity Church in the afternoon at which the members of the Society were present in a body, the service was full choral, conducted by Dr. Maciagan, and was largely attended, the sermon being preached by Rev. Archdeacon Pinkham. The annual dinner of the Society was held in the Queen's Hotel on Saturday evening, which was largely attended and enjoyed in right royal style.

The Rev. Mr. Fortin, an old and respected friend of Montreal Episcopalians, is Rector of Holy Trinity Church, and I am sure they will be pleased to hear that he has been exceedingly prosperous in his work here; his church which will seat between five and six hundred being crowded to overflowing at each service. Ground has been purchased and designs have been asked for, for a new edifice to cost $100,000, which will be pushed through as rapidly as possible, when ample and more comfortable new accommodation will be afforded.

The Kennedy family of Scottish vocalists have been entertaining the Winnipeg public during the past week in their quaint and inimitable manner, and were the recipients of a most enthusiastic support throughout.

The disallowance of the South-Eastern charter by the Dominion Government is again engaging the attention of the inhabitants in this district, but the contract between the Canadian Pacific Company and the Dominion Government is so binding that no hope is entertained of their wishes being gratified.

The following is the latest report of markets here. The estimated consumption of provisions for several weeks past has been about $50,000 daily, and it is feared that for staple articles of food prices will be high until fresh supplies can be had.

Flour—XXX, $2.75 per bay; XXXX, $3.25; Patent Process, $4 25; Oatmeal, $3.25 per bag; Buckwheat flour, $4.75.

Grain—Wheat, 75c to 80c per bushel; oats, 75c; barley, 90; bran, $1 per 100 lbs.

Dairy—Butter, fresh, 30c; in firkins, 25c to 28c; cheese, 15c to 20c; fresh eggs, 30c per doz; lard, $3.75 per pail: milk, 10c per qt.

Meat—Pork, $13 to $14 per 100 lbs; mutton, 15c. Fresh meat retails at 25c to 30c per lb.

Live Stock—Oxen, $150 to $175 per yoke; milch cows, $40 to $60; horses, $125 to $250; cattle, $9 to $10 per 100 lbs, live weight.

Fish and Poultry—White fish, 6c to 7c per lb; retail, 8c; Lake Superior trout, 10c; chickens, 20c; geese, 20c; turkeys, 25c to 30c per lb.

Roots and Vegetables—Potatoes, $1.50 to $2; turnips, 50c; carrots, 60c; beans, $1.25; parsnips, $1.25; cabbage, 10c per head; celery, 10c per head; beets, $1 per bush; onions, $2.25.

Miscellaneous—Hay, $20 per ton; wood, soft, $10 to $12; wood, tamarac, none; oak, $10 to $12; cedar posts, $10.50 per 100; green hides, 4c to 5c; dry, 7c per lb; coal, $18.50 per ton.

DEATHS.

Smith—At Philipsburgh, P Q., on Friday, the 28th April, 1882, William Arthur Smith, Esq., aged 44 years, for many years actively engaged in business in Montreal.

The deceased gentleman's many friends deeply sympathize with his bereaved family.

Munro—On the 2nd instant, after a long and painful illness, Annie, eldest and beloved daughter of Hector Munro, Esq.

Notice of funeral hereafter.

Rintoul.—In this city, on Sunday, 30th April, Andrew, fourth son of the late Rev. William Rintoul, M.A.

Funeral on Wednesday, 3rd instant, at three o'clock p.m., from his late residence, 40 Shuter street, to the Church of St. James the Apostle, thence to the Mount Royal Cemetery. Friends are invited to attend. u

QUEEN'S HALL!

—:o:—

Guernsey-Listemann Combination

Miss M. GUERNSEY, the Wonderful Dramatic Artist, and
Miss EVELYN BARNES, Vocal Soloist, with the
Bernhard-Listemann Concert Company: Leading Soloists From
Theo. Thomas' Orchestra, Mendelssohn Quintette Club, Boston Philarmonic Club,
Forming the finest Combination of Solo Instrumentalists in America, will give

ONE GRAND CONCERT, On Friday Ev'g May 5,
And Grand Instrumental Matinee, Saturday, May 6, at 3 p.m

The Listemann Concert Company is said to be the finest Combination of Solo Instrumentalists in America. Composed of the following Artists:—

BERNHARD LISTEMANN, Violin (Soloist and Leader of Theo. Thomas' Orchestra and of the Boston Philharmonic Club); EDWARD HEINDL, Flute, Viola and Zither (Of the Mendelssohn Quintette Club); FRITZ LISTEMANN, Violin (of the Thomas Orchestra and of the Boston Philarmonic Club); ALEXANDER HEINDL, Violoncello and Saxophone (of the Mendelssohn Quintette Club); HENRY GREENE, Double Bass (Boston's Favorite Performer); MARIE EVELYN BARNES, Vocal Soloist (a very rich and delightful pure Contralto. This Company by its superiority over most other concert parties in America, is enabled to offer three principal features, of its performances, in great variety, viz:—1. Classical Music for strings, from the trio of Beethoven up to the sextette of the modern master composers. 2. Solos for violin, flute, viola, violoncello, saxophone and double bass. 3. Orchestra music, specially arranged by Bernhard Listemann for this organization. The finest Italian instruments are used by the members of this organization. ☞All the solos, whether instrumental or vocal, will be accompanied by the entire club. Admission, 50 cents; Reserved Seats, 75 cents. Matinee, 50 cents to all parts of the House. Plan open on Monday, May 1st, at Queen's Hall office, N. Y. Piano Co.'s building, 226 St. James street, where reserved seats can be secured. Doors open half-past seven. Concert at eight o'clock.

April 28 101

DON'T MISS IT!

THE FIRST CHANCE!
THE LAST CHANCE!

I have opened this day 1,000 dozen of GENT'S TIES and NECK WEAR of every description, and have marked them at such a figure that you all can afford a half-dozen, as it will cost you only the price of ONE TIE. Look at this list of prices of all pure SILK TIES:—

500 Windsor Scarfs, reduced from 55c to 19c each.
300 New Heart Scarfs, reduced from 50c to 15c each.
200 New Heart Scarfs, reduced from 40c to 15c each.
500 New Heart Scarfs, reduced from 85c to 38c each.
500 New Heart Scarfs, reduced from 75c to 43c each.
300 New Heart Scarfs, reduced from 80c to 38c each.
600 New Cross Scarfs, reduced from 75c to 41c each.
400 New Cross Scarfs, reduced from 90c to 43c each.
300 New Cross Scarfs, reduced from 65c to 31c each.
150 New Cross Scarfs, reduced from 45c to 22c each.
700 Black Wellington Ties, reduced from 40c to 18c each.
600 Summer Heart Ties, reduced from 35c to 10c each.
A lot of Two Ties in One, reduced from 45c to 22c each.
A lot of Two Ties in One, reduced from 80c to 38c each.
300 Made-up Scarfs, reduced from 25c to 15c each.
500 Made-up Scarfs, reduced from 45c to 35c each.
200 Made-up Scarfs, reduced from 50c to 27c each.
100 Made-up Scarfs, reduced from 75c to 18c each.
150 Made-up Scarfs, reduced from $1.10 to 35c each.

And many others all to be sold at corresponding prices. This is a Mammoth Stock I have just received control of, and now offer them to you at one-eight of their actual cost.

BOONEKAMP OF MAAG-BITTER,

—:o:—

This magnificent STOMACH BITTER, from its highly-prized Medicinal properties, has attained a world-wide popularity, and has been approved by the

Royal Prussian Medical Board.

It has an immense demand throughout EUROPE AND IN THE UNITED STATES where it is largely used in cases of

Intermittent Fever and Stomach Disorders.

Prizes were awarded it at London, 1862; Dublin, 1865; Oporto, 1865; Paris 1867; Wittenburg, 1869; Altona, 1869; Bremen, 1874; Cologne, 1875; Philadelphia, 1869; Sydney, 1879; Melbourne, 1880, &c., &c.

Beware of SPURIOUS IMITATIONS sold as "Boonekamp," which are generally worthless and injurious to health.

The Genuine "Boonekamp of Maag-Bitter" is made only by **H. UNDERBERG-ALBRECHT,** and sold by him, in his house opposite the Townhall at Rheinberg, Rhine Province, Germany, and also at his Agents' at home and abroad.

Directions for using the above are given with each bottle either in the DUTCH, FRENCH, ENGLISH, SPANISH, or GERMAN languages, as may be required.

Nos. 15, 16, and 17 COMMON ST.

May 103

DOMINION PARLIAMENT.

FOURTH SESSION—FOURTH PARLIAMENT

HOUSE OF COMMONS.

OTTAWA, May 2.

The Speaker took the chair at 3.5 2p.m.

Hon. Mr. POPE introduced a Bill to amend the Patent Act of 1877.

Sir JOHN MACDONALD introduced a bill respecting the Windsor and Pictou branches of the Intercolonial Railway. He regretted that his hon. colleague the Minister of Railways was unable to be present owing to illness in his family, for he (Sir John) would be unable to enter into a full explanation of the matter. Carried.

Sir LEONARD TILLEY moved that the House go into Committee of the Whole tomorrow to consider the following resolutions:—

1st—That it is expedient to provide for the payment of the salaries of the Judges of the Supreme Court of Judicature of Ontario, constituted by the Judicature Act, 1881, passed in the 44th year of Her Majesty's reign by the Legislature of that Province, and that the said saiaries be as follows: The Chief Justice of Ontario, $6,000 per annum; three Justices of Appeal, each $5,000; the Chief Justice of the Queen's Bench, $6,000; two Judges of the High Court of Justice, Queen's Bench Division, each $5,000. The Chancellor of Ontario, $6,000; two Judges of the High Court of Justice, Chancery Division, each $5,000. The Chief Justice of the Common Pleas, $6,000; two Judges of the High Court of Justice, Common Pleas Division, each $5,000.

2nd—That it is expedient to provide for the payment of the salaries and travelling allowances of two County Court Judges in the Province of Manitoba, the salary of each judge being $2,000 per annum for the first three years of service, and $2,400 per annum after each three years, and the said travelling allowances being such as the Governor-in-Council may from time to time determine.

3rd—That it is expedient to provide that the salary of the Judge of the County Court of the city and county of St. John, N.B., shall be increased to $3,000 per annum.

4th—That it is expedient to provide for the payment of the salary of the Judge of the County Court for the counties of Kings and Albert, lately established by the Legislature of New Brunswick, and that such salary shall be $2,000 per annum.

5th—That it is expedient that the said salaries and travelling allowances shall be paid out of any unappropriated moneys forming part of the consolidated revenue fund of Canada. He said the salaries mentioned in clause 1 were the same as those paid now, but it was necessary to pass a bill to fix them owing to the fact that the titles of the Judges had been paid. The Judge of the County Court of the City and County of St. John had had his duties increased and therefore he thought it was expedient to increase his salary.—Carried.

Sir JOHN A. MACDONALD moved that the House go into Committee to-morrow on the following resolutions:—

Resolved—That in case a Judge of a County Court after having continued in office as such Judge for a period of at least ten years, becomes afflicted with some permanent infirmity disabling him from the due execution of his office, or in case a Judge of a County Court, after having continued in office as such Judge for a period of at least 25 years resigns his office, Her Majesty may, by letters patent under the great seal of Canada, grant to him a pension equal to two-thirds of the annual salary of which he was in receipt at the time of his resignation to continue thenceforth during his natural life, and be payable pro rata for any period less than a year during such **continuance.**

Resolved,—That if a Judge of the County Court be removed by the Governor-in-Council for inability or incapacity, and the inability or incapacity has arisen from the old age or ill health of the Judge, Her Majesty may grant to him the same pension which might have been granted to him had he resigned his office at the time of his re**moval.**

Resolved,—That all such pensions shall be payable out of any unappropriated moneys forming part of the Consolidated Revenue Fund of Canada.

Resolved,—That if any person receiving a pension becomes entitled to any salary in respect of any public office under the Government of Canada, such salary shall be reduced by the amount of such pension. **Carried.**

Sir Leonard Tilley and Sir John Macdonald wished first to go into Committee on the above two sets of resolutions.

Mr. BLAKE objected, saying that he expected the regular day's notice before considering them, and consequently had not read certain papers bearing on the questions.

The motions were accordingly set down for to-morrow.

Sir ALBERT SMITH asked when the correspondence he moved for concerning the appointment of the Judge for Kings and Albert would be brought down?

Sir JOHN MACDONALD said the hon. gentleman was speaking out of order. If the hon. members on the other side of the House were such sticklers for regularity of procedure they should have it.

Sir ALBERT SMITH said he was only asking a question relating to a previous subject.

Sir JOHN objected that he was out of order.

Sir ALBERT—I move the adjournment of the House.

Sir JOHN again objected that the motion was out of order, as the hon. member had already spoken.

Hon. Mr. ANGLIN moved the adjournment of the House.

Sir ALBERT J. SMITH then asked when the further correspondence above referred to would be brought down.

Sir LEONARD TILLEY hoped it would be brought down very soon.

The motion for adjournment was withdrawn, as Sir John A. Macdonald moved that, for the remainder of the session, this House do sit on Saturdays, and that when it adjourns on any Friday it shall stand adjourned until Saturday at 3 o'clock, and that on every Saturday for the remainder of the session Government business have precedence, and that on Mondays also the Government business do have precedence.

Hon. Mr. BLAKE objected to the latter part of the motion relating to Mondays. No notice had been given of it, so it was out of order as an addition.

Hon. Mr. MACKENZIE BOWELL moved the motion in the form of an amendment.

Hon. Mr. BLAKE objected to the Government thus taking every day of the week, and thus shutting out other legislation for the session.

The amendment of Mr. Bowell was carried.

Hon. Mr. McLELAN moved that the order for the second reading of the Act to amend the Act to extend certain provisions of the Seamen's Act of 1873 to vessels employed in navigating the inland waters of Canada, be transferred from the Public Bills and Orders to the Government Orders. **Carried.**

Sir L. TILLEY moved that the House do to-morrow go into Committee of the Whole to consider the following resolution: That it is expedient to provide that if any incorporated or other company, approved by the Governor-in-Council as having the ability to perform work, enters into an agreement with her Majesty to construct a dry dock for the reception and repairing of vessels at a place, and according to a plan and specification approved by the Governor-in-Council on a report of the Minister of Public Works as sufficient for the requirements of the public at such place, and to be completed within a convenient time to be limited by such agreement, then provided the company performs the work according to such agreement and to the satisfaction of the Minister of Public Works under the supervision of whose Department the work shall be done, the Governor-in-Council authorize the payment of any unappropriated moneys forming part of the Consolidated Revenue Fund of a subsidy not exceeding 2 per cent. per annum on the cost of the work during 20 years from the time of its completion and acceptance by the said Minister, provided that such subsidy shall not exceed $10,000 per annum, and that the cost on which it shall be calculated shall not be greater than the value of the work, as estimated by the said Minister, the subsidy shall not be payable for any portion of the said 20 years, during which the dock shall not be in complete repair and working order. Carried.

Sir L. TILLEY moved the House into Committee of the Whole to consider the following resolution: That it is expedient to repeal certain provisions of the General Inspection Act of 1874, and make other regulations with respect to herrings packed and inspected in Newfoundland. Carried.

The resolution was passed in Committee, was read a first and second time, and a bill founded upon it introduced and read a first time.

Sir LEONARD explained that the bill was to remedy a grievance by providing that herrings imported from Newfoundland should be subject to the same conditions of inspection as herrings of Canadian fishermen.

The House then went into Committee on the Bill to provide for allowance of drawback on certain articles manufactured in Canada for use in the construction of the Canadian Pacific Railway. The bill was reported from Committee, read a third time and passed.

Sir HECTOR LANGEVIN then moved the third reading of the Civil Service Bill.

Mr. CASEY moved in amendment as follows, seconded by Mr. BLAKE:—

That by the report of the Sub-Committee of Council of 14th June, 1880, on the subject of the Civil Service it was declared that: "Many men have by old age, incapacity, bad habits or continued idleness become unavailable for useful purposes; the number of men in each department has increased, it is thought, out of proportion to the needs of the Service; young men have been appointed who, from want of education or strength of constitution or general unfitness, have not made and will never become efficient public servants. The general expense has become increased by the tendency of the existing rules to the gradual calmination of officers by the mere force of survivorship into the more highly paid classes," and that a reconsideration of the question is desirable, with a view to seeking greater economy in all the departments by the weeding out of men who, from any of the causes named, are no longer efficient public servants, and a Commission was recommended; that by the report of Civil Service Commission appointed accordingly objection is taken to the appointment by political influence and patronage, and the Commissioners say that to this baneful influence is due many of the evil effects found in the service, owing to the appointment of those on no other qualification but that they are followers of influential politicians;

That the Commission declares that the only remedy for the evils it discloses can be found in completely eliminating all traces of political patronage, and proposes probationary appointments by open competitive examinations, under an independent Civil Service Commission;

That the said Bill does not adopt this principle; that the Bill be referred back to the Committee of the Whole, with instructions that they have power to amend it, so as to provide for probationary admission to the Civil Service by open competitive examination under an independent Civil Service Commission; that the report of the Sub-Committee of Council, of 14th June, 1880, on the subject of Civil Service, states that the general expense has been increased by the tendency of existing rules, the gradual culmination of officers by mere force of surivorship into the more highly paid classes; that the report of Civil Service commission finds that by far the greatest portion of the Civil Service are employed on merely clerical labor, and according to present salaries are a source of unnecessary cost, and recommends that the motive work of the department be performed on a different scale of salary from those now paid; that the said bill be referred back to Committee of the Whole with instructions that they have powers to amend the same by providing for the creation of a class of writers to discharge such routine work with salaries proportionate to the nature of their duties with a view to greater economy.

Mr. CASEY supported his resolution in a brief speech, laying stress on the fact that the report of a commission, specially appointed by the Government to look into the question of the Civil Service, had been directly disregarded by the Government.

The resolutions were put and declared lost by the Speaker.

The motion for a third reading of the bill was then carried on a division.

Sir JOHN A. MACDONALD moved the second reading of the bill respecting Fugitive Offenders in Canada from other parts of Her Majesty's Dominions. He explained that legislation had been adopted in Great Britain and most of the colonies, except Canada, providing facilities for the removal of fugitive offenders from one part of the Empire to another. This bill was to provide the same legislation for Canada as the Imperial Government and other colonies had adopted. It was a copy of the Imperial Act, except the necessary verbal changes. The Bill was read a third time and passed.

Sir JOHN MACDONALD moved the second reading of the Bill to amend and further continue in force, for a limited, time the Act respecting the administration of Criminal Justice in the territory in dispute between the Governments of the Provinces of Ontario and Manitoba. The motion was carried and the House went into Committee upon the Bill.

Mr. BLAKE said the title of the Bill would have to be changed to read "between the Governments of the Province of Ontario and the Dominion of Canada" instead of "between the Governments of the Provinces of Ontario and Manitoba," this was necessary since the title of the Act which it was proposed to amend read the former way.

Sir JOHN agreed, and the title was changed as suggested, the Bill was then read a third time and passed.

The Bill to amend the Act 40 Vic., Chap. 30, intituled "An Act to make provision against the improper use of firearms" was then read a second time and carried in committee. Read a third time and passed.

The Bill respecting County Court Judges was read a second time.

The Bill further to amend "The Pilotage Act of 1873" and other Acts therein mentioned was read a second time, after discussion.

AFTER RECESS.

The Bill to amend the Acts respecting the Militia and Defence of the Dominion of Canada was read a third time.

The Bill respecting bridges over navigable waters constructed under the authority of Provincial Acts wae reported with amendments, and the Bill to amend and consolidate the Acts relating to the office of Port Warden for the Harbour of Montreal was read a third time.

The House then went into Committee of Supply, and the supplementary estimates were taken up. The following items were passed:—

St. John post office, balance due contractors, furniture, gas fittings, &c., $13,627.85; Fredericton, balance for completion of post office, custom house, &c., $1,000.00; Montreal Custom House, $435,000; Grosse Isle balance of contract, &c., Quarantine New Hospital, $514,400; Quebec Fortifications and Military Buildings, $8,000.00; St. Vincent de Paul Penitentiary, heavy iron wire gratings for front basement windows, $270,000; Quebec Citadel, His Excellency the Governor General's quarters, $5,700; Supreme Court of Canada, new furniture and repairs to old, $1,600; Ottawa Geological Museum, heating apparatus, $5,000; Windsor, to complete payments of Post Office, Custom House, $1,100, Hamilton Immigration Shed, $4,000; Winnipeg Post Office, addition and alterations, $11,800; Emerson Immigration Office, $1,000; Dominion buildings, Battleford, supplies furnished in May, 1876, by the Hudson Bay Co. to Mr. H. Sutherland then in charge of these buildings, $4,112; to cover expenditure for alterations, &c., in Parliament building owing to the removal of Supreme Court offices $10,000. On the item of $126 to pay Dr. Cameron for services rendered by him in connection with the improvement of Mahone harbour by dredging,

Mr. MACKENZIE enquired what Dr. Cameron was engaged for. He was aware that a gentleman of that name was a Conservative candidate at the last election and he thought it was indecent and improper to engage a medical man to inspect public works simply because he was a Conservative candidate.

Campabello, breakwater, at Wilson's Beach, N.B., to refund amount expended by Jas. Brown, $20,844; Etang du Mond, Magddalen Island, $3,500, Owen Sound Harbour, to complete works, $7,500; new hull, etc., for dredge vessel, Maritime Provinces, $9,000; Union Suspension Bridge, Ottawa, additional amount required, $1,000, to pay D. Fraser in full and final settlement of his claim, $233.80; compensation to Patrick McHale for damage to his land by the erection of a dam near the head of the Chats Slides, Ottawa River, $435; to complete telegraph lines to Mille Vaches and those in the Maritime Provinces, $4,510.

On the item for dredging in the Maritime Provinces,

Mr. HADDOW called the attention of the Minister of Public Works to the petition of the inhabitants of Campbellton, N. B., to have the shallow part of the River Restigouche, about two miles below the town dredged out. He strongly advocated the granting of the petition, and pointed out that the expenditure would not be very great. The matter was, just now, very important to the people of Campbellton, because merchants shipping lumber, etc., were put to additional expense from the difficulties of navigation.

Sir HECTOR LANGEVIN said the sum voted for dredging in the Lower Provinces was put all together, and when it came to be laid out in detail to be applied, he would try and include this claim for improvement made by the hon. gentleman.

The following items were passed:—Military works and buildings, repairs, improvements and construction, $1.000.

To provide for the cost of printing the triennal list of shipping on the registration books of Canada, $1,901.

On the item $12,000, to provide for expenses in connection with the training ship "Charybdis," a lengthy and humorous discussion arose.

Mr. MACKENZIE said the vessel was not worth keeping, and beside was a cause of expense and of no ability whatever. He wished to know from the Minister of Marine what had been the expense of the vessel and what it is intended to expend on her.

Mr. BURPEE said she was a nuisance in St. John harbour, and the sooner she is removed, the sooner the people would be pleased. At present she is floating around and doing excessive damage.

Mr. DOMVILLE also agreed that she was of no practical use in St. John harbour, but he could not blame the Minister of Marine or the Government.

Mr. OGDEN suggested that she be stationed in the harbour of White Haven, stating that St. John was not a fit place for this vessel.

Mr. DOMVILLE repudiated the statement that the harbour of St. John was not a fit place place to hold a ship.

Mr. BUNSTER wanted her to be put on the route from Eastern Canada to British Columbia. She had been in British Columbia before, and they all felt proud of the gift of Her Majesty.

An han. member wanted to know if she could weather the horn

Mr. BUNSTER—Thst depends oe the kind of horn.

Mr. WRIGHT suggested that all the retiring politicians should go an extended trip in the "Charybdis."

SIR LEONARD TILLEY said the vessel requires very considerable repairs to make her seaworthy. When she was presented to us we found she was not so desirable a vessel as was hoped for. The estimate was required to pay expenses down to July.

The item was passed, as were also the following:—

To provide for repairs to and maintenance of steamer "La Canadienne," $12,000.

Expenses incurred by Water Police in connection with Montreal labourers strike, $7,000.

Additional sum in payment of Cape Race light dues, $300.

For maintenance by the Harbour Commissioners of Montreal of buoys and beacons in the Port of Montreal, $7,000.

Several other items were passed, and the House adjourned at 1.40 a. m.

QUEBEC LEGISLATURE.

LEGISLATIVE ASSEMBLY.

QUEBEC, May 2.

The Speaker took the Chair at 3.15.

Mr. Mercier moved the third reading of the Bill to amend the Acts relating to the city of Montreal.

Mr. Blanchet moved that the Bill be not now read a third time, but that it be sent back to a Committee of the Whole to be amended, so as to permit farmers to sell meat on the different markets, provided that it has always been inspected by the market inspectors.

The amendment was lost on a division, and the Bill was read a third time.

Mr. Chapleau then resumed the debate upon Mr. Beaubien's amendment to his motion that the House do resolve itself into a Committee of the Whole on the resolution to confirm the sale of the Eastern Section of the North Shore Railway, including its branches. He spoke at some length on the details of the contract which has already been published, giving minute explanations on every point, and replying to several inquiries put by members. He also fiercely attacked Mr. Beaubien for the manner in which he said he had used information with the enemies of the Government confidentially obtained from him. He said it would be better for the Government and their friends if Mr. Beaubien would cross to the other side of the House at once.

At six o'clock the House took recess.

After recess Mr. Champagne moved the third reading of the Bill to incorporate the Grande Nationale Lotterie of Quebec. The reading was carried on a vote of 27 to 13.

Mr. Martel moved the House again into committee upon the Bill to amend the Act of Incorporation of the South Shore Railway and Tunnel Company.

Dr. Cameron and Messrs. Watts and Marchand thought the bill a most remarkable one, giving the right as it did to the company to build the line to Huntington or any other point on the Province line.

Mr. Paquet said the company wished to connect with the Rome and Watertown Railway at Potsdam, eleven miles from the frontier. It was then agreed to amend the first section of the bill so as to more clearly define the modifications to be made in the line of railway.

Mr. Gagnon, in Committee, having objected to the company being released, as their amendments seemed to release them, from all obligations, the Committee rose and reported progress and asked leave to sit again.

The bill to incorporate the Drummondville Bridge Company was then read a third time and passed.

Mr. Chapleau resumed the debate upon the railroad sale, and was followed by Messrs. Charlebois, who opposed the sale, and Carbray, who supported it.

After a few words from Mr. Picard the debate was adjourned, and the House adjourned at 1 a.m.

ADVERTISING CHEATS.

It has become so common to write the beginning of an elegant, interesting article and then run it into some advertisement, that we avoid all such cheats and simply call attention to the merits of Hop Bitters in as plain honest terms as possible, to induce people to give them one trial, as no one who knows their value will ever use anything else.—*Providence Advertiser.*

Miscellaneous.

Stores Contracts.

Tenders are invited for STORES of various kinds, required by the Company at MONTREAL, Que., at PORT HURON, Mich., at PORTLAND, Me., and at other places during the twelve months commencing JULY 1, 1882.

Forms of Tender, with full particulars, can be had on application to the General Storekeeper of the Company, at Montreal, Que., or to the Deputy Storekeepers, at Port Huron, Mich., and Portland, Me.

Tenders, endorsed "Tender for Stores," and addressed to the undersigned, will be received on or before WEDNESDAY, MAY 31st.

JOSEPH HICKSON,
General Manager.
Montreal, April 15th, 1882 a MW 92

PROVINCE OF QUEBEC, }
District of Montreal. }

SUPERIOR COURT.

Montreal the third day of April one thousand eight hundred and eighty-two.

BE IT KNOWN, that the City of Montreal, a body politic and corporate, duly incorporated, and having their chief place of business in Montreal, by their petition fyled this day under number 1,045, and granted by this Court, pray for the sale of an immovable situated in this district, and described in the said petition as follows, to wit:—"A certain lot or emplacement situated in the Saint Mary's Ward of the City of Montreal, being No. 484 of the official plan and book of reference of said St. Mary's Ward, containing by admeasurement 2,650 feet, English measure, more or less, bounded in front by Shaw street, without buildings.

Petitioners alleging that there is actually due to them, as and for taxes and assessments accrued upon said property, in and for the years 1875, 1876, 1877, 1878, 1879, 1880 and 1881 the sum of twenty-seven dollars and sixty cents currency; the other and further sum of six dollars and ten cents for interest at the rate of six *per centum per annum*, accrued on each year's assessments, respectively, from the first of November of the year in which the same accrued to the twenty third of March, eighteen hundred and eighty two, under and by virtue of the Provincial Act 42 & 43 Vic., Chap. 53; and the other and further sum of forty-four dollars and twenty-five cents for proportion of cost of drain in Shaw street, in 1876, said different sums united forming the total sum of seventy-seven dollars and ninety-five cents, for the payment of which the said Petitioners have a legal privilege upon the property above described.

The Petitioners further alleging that the last proprietor known of the said immoveable was one William Smith, of this city, and that the actual proprietor is uncertain and unknown.

NOTICE IS THEREFORE GIVEN to the actual proprietor of the said immoveable to present himself and appear before this Court within two months from the date of the fourth publication of these presents, to be inserted once a week, during four consecutive weeks in a newspaper printed in the French language, and in a newspaper printed in the English language in the City of Montreal, to answer to the demand of the said Petitioners; failing which, the said immoveable shall be sold by decree, according to law and with the usual formalities in such case, to the end that out of the net proceeds of the sale the said Petitions be paid the said sum of seventy-seven dollars and ninety-five cents with interest thereon from the said twenty third day of March, 1882, together with costs.

HUBERT, HONEY & GENDRON,
P. S. C.

Medical.

LOCKYER'S SULPHUR HAIR RESTORER is the best for restoring grey hair to its former colour. It produces a perfectly natural shade, and is absolutely harmless. Recommended for destroying scurf and encouraging growth of new hair.

LOCKYER'S SULPHUR HAIR RESTORER will darken grey hair, and in a few days completely bring back the natural colour. The effect is superior to that produced by any instantaneous dye, and does not injure the skin. Large bottles, 1s. 6d.—Lockyer's Sulphur is equal to the most expensive hair restorer.

PEPPER'S QUININE AND IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Quinine and Iron Tonic, the mental faculties brightened, the constitution greatly strengthened, and a speedy return to robust health certain. Bottles of three doses, 4s 6d; next size, 11s. Sold by Chemists everywhere. The name of J. Pepper, 237, High Holborn, Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents of India and the Colonies, and should always be kept by them for use in every case of fever or febrile condition.

PEPPER'S QUININE AND IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debility and ill health from the effect of h

LOCAL NEWS.

ROBINSON'S suits fit perfectly.

NO FIT, no pay is Robinson's way of doing business.

THE very thing you want in suitings will be found at Robinson's.

IF you want a real stylish suit made from really first-class material be advised and go to Robinson.

WHEN about it get a suit made to fit properly. It cost no more, and Robinson can do it to perfection.

ILLEGAL LIQUOR SELLING.—Joseph Dupont and Jeremie Lajeunesse, both of Vaudreuil, were each find by the Police Magistrate $75 and costs for selling liquor without a license.

A WAIF.—The Recorder yesterday morning sent Delia Caron, a little girl of 22 months, to the Reformatory School of the Bon Pasteur for five years, she having no guardians or protectors.

ACKNOWLEDGMENT.—The Treasurer of the Montreal General Hospital acknowledges with thanks the receipt of $80.50, subcriptions of the employes of the boot and shoe factory of Messrs. Ames, Holden & Co.

RUSSO-JEWISH RELIEF.—The Rev. Dr. De Sola acknowledges with thanks the receipt of $3 from the Rev. T. Fenwick, of "The Manse" Metis, P.Q., which he has handed to the Treasurer of the Citizen's Committee.

INSANE.—A young man named William P. McFarlane, living on Mountain street, was yesterday arrested on a warrant for being mentally deranged and incapable of taking care of himself. He was committed to gaol on a certificate of insanity.

THE DEATH RATE.—Last week there were 42 interments, 58 in the Roman Catholic cemetery and 24 in the Protestant, of these 32 were males and 46 children under five years of age. There were two deaths from diphtheria and one from scarletina.

THE big sale at the Oshawa Cabinet Co.'s rooms, 447, 449 Notre Dame street, will commence this morning at 10 o'clock. All the fine goods on the lower flat will be sold first. The safe, office clock and fixtures will be sold in the afternoon. Shaw & Fowdey, auctioneers.

A SEND OFF.—A large number of the Grand Trunk Railway employes assembled at the Bonaventure Degot yesterday morning for the purpose of seeing off their foreman, Mr. Dicksen, who is leaving the city. Mr. Dicksen received quite an ovation as the train moved off.

A GATE SMASHED.—A G. T. R. engine and tender, proceeding west yesterday afternoon, ran into the gate at the Vinet street crossing, Ste. Cunegonde, smashing it to fragments. Mr. Pare, the gate-keeper, was hurled a considerable distance by the shock, but fortunately received no injuries.

THE TROUBLES OF A FAMILY.—The Linde case was brought up in the Recorder's Court yesterday morning, when Linde applied for a warrant to search for and detain his boy as a witness against his mother. The Court granted the request, and a search will be instituted for the missing lad. The case has been postponed till Thursday.

NEW GUIDE.—The proprietors of the Caledonia Springs has issued a new and comprehensive guide to this favourite summer and health resort, whiah will be mailed to all applicants. The season re-opens 1st June. The bottled water always to be had from Gurd & Co and all leading grocers and hotels.

FOOTBALL. The Montreal Club plays the R. M. C. Cadets at Kingston on Saturday next. The Commandant, staff and gentlemen cadets of the Royal Military College of Canada have invited the President and members of the Montreal Club to a ball on the 9th in Kingston. Members desirous of attending will notify the Montreal Secretary of their intention.

ARBITRATION REWARDS.—The arbitrators appointed to value the properties expropriated for the extension of the Q., M., O. & O. Railway to the Quebec Gate Barracks Depot, have announced the results of their labours in the cases of Mr. J. H. R. Molson and the Canadian Rubber Company. In the former instance $25,000 has been awarded and $9,000 in the latter.

MONTHLY MEETING.—The regular monthly meeting of the English Workingmen's Benefit Society was held on Monday evening. The reports of Directors, Stewards and Treasurer were read and adopted. The doctor's report showed no sickness during April; showed cash on hand $42.08, making total cash assets of the Society $2,664.84. The annual meeting of the Society is to be held on the 29th of May.

ACCIDENT TO A SCHOONER.—The schooner "Stella Matutina," Quebec, while on her way up from Three Rivers on Monday evening, was run into by a large cake of ice which struck the vessel some three feet below the water line, and caused her to fill rapidly with water. She managed to reach Hochelaga shore in safety, and a number of men were engaged in repairing her yesterday morning.

RISE IN BREAD.—A rise is reported in bread; brown bread, now selling at 24c. the six-pound loaf, which is a rise of 2c. on the old prices, and although white bread remains to sell at the same price, 20c. a loaf, it is a pound a loaf lighter. The rise is attributed to the fact that last week the journeymen bakers of the city demanded that their wages be raised from $10 to $12 a week. The principal master bakers acceded to the demand on Saturday afternoon, and to defray the extra expenses raised the price of bread.

THE AMERICAN ASSOCIATION'S VISIT.—At a meeting of the local Committee for the reception of the American Association for the Advancement of Science, held on Monday evening, a letter from Prof Putnam was read stating that the American Society for the Promotion of Agriculture would meet in Montreal on the 21st and 22nd of August next, and be sent to the various Agricultural Societies. It was reported that the Guarantee fund now amounted to $3,600, and the subscriptions to $500. The meeting was adjourned for a month, when the reports of the various Sub-Committees will be received.

SUDDEN DEATH.—A little five month's old child named William A. Berard, illegitimate son of Ann Arbour, died suddenly at the residence of its mother, No. 263 St. Joseph street, on Monday morning. The child, before its birth, had been kept by a Mrs. Duchamp, of St. Jean Baptiste Village. Sunday evening the nurse brought the child home saying she did not wish to keep it any longer. The infant was seized with coughing shortly afterwards, and in a short time was dead. Coroner Jones held an inquest on the body at which Dr. Demers testified that he believed the child had died of inflammation of the lungs on its way from St. Jean Baptiste Village and from the effect. A verdict to this effect was accordingly returned by the jury.

EXHIBITION OF BUTTER-MAKING UTENSILS.

Mr. W. H. Lynch, of Danville, exhibited a complete set of butter-making utensils in the Long Room of the Mechanics' Hall yesterday afternoon, quite a number of those interested in dairy matters being present. The utensils were five in number, and Mr. Lynch very kindly explained their mode of working to the gentlemen present, a description of each utensil being given below.

THE MILKING PAIL.

One of the first things required in the dairy is cleanliness, and it is rather strange that we have not had hitherto a pail that would secure cleanliness in milk. Mr. Lynch exhibited a pail and patent pail cover, with a strainer. The milk goes through this strainer, and is thus secured from dirt and odour. This is important to both the cheese-maker and the butter-maker, as well as those who drink milk.

THE CREAMER.

The second feature in butter-making is setting the milk, and separating the cream from the milk. The creamer exhibited is adapted to the wants of the ordinary farmer. It is very cheap and an immense saving of labour. It is constructed boiler-shape, with a capacity for five cows. The cold water is applied to the upper part of the milk, instead of at the bottom, and serves at the same time to secure ventilation without allowing dust or odours to get to the milk. The cream may be drawn off above the milk and so be free from sediment. A glass in front of the creamer shows the division of the milk from the cream.

THE CHURN.

Mr. Lynch also exhibited Caisse's improved air-pipe rotary churn. There is no dash in this churn, and the butter is brought by the cream falling in a body. Two points required in making butter are that the grain must not be broken, and the butter must be perfectly freed from buttermilk or cheesy matter. Mr. Lynch contends that the first point is gained by having no dash to the churn, and the second by drawing off the butter-milk while the butter is in small grannals. The churn is also furnished with an air-pipe, which admits the air and allows the gas to escape. A boy eight years of age can do the churning of a large number of cows with this churn.

THE BUTTER WORKER.

In butter working there are two reasons why the hands should not touch the butter, —first, the heat of the hands tends to destroy the grain, and secondly, the well-known fact that the body constantly giving out impurities suggests the harm that comes to butter from contact with the hands. The merits of the butter-worker are that it makes the working of salt easy, and it is simple and cheap, so that it comes within the reach of all farmers.

THE BUTTER TUB.

The merits of the butter tub exhibited by Mr. Lynch are that it is air-tight. It is proposed to make the cover of pressed pulp instead of wood, and the tub itself will be made in the ordinary torm, but with greater care than tubs are now usually made.

The gentlemen present expressed themselves highly pleased with the working of the churn and butter-worker, butter being made by Mr. Lynch in their presence.

CIVIC AFFAIRS.

WATER COMMITTEE.

A meeting of the Water Committee was held yesterday afternoon. Present—Alds. Donovan (Chairman), Proctor, Holland, Farrell and Rainville.

The first business was to award the contracts for the supplies for the Department for the ensuing year, the different tenders having been referred to the Superintendent, Mr. Lesage, at the last meeting, to ascertain which were the lowest tenderers. The contracts were awarded as follows:—For castings and scrap iron, Chas Garth & Co; bricks (hard burnt), Bulmer & Sheppard; fire-bricks and fire-clay, McNally & Co; drain pipes, Currie & Co; cement and lime, McNally & Co; handles for hammers, &c., Gedeon & Plouffe; tallow, Jas Wilson, jr; cotton waste, Dufresne & Mongenais; oils, packing and paints, Jas Wilson, jr; steel, B J Coghlin; brooms, putty, potash and soap, Dufresne & Mongenais; brushes, rope, bar iron, tools (except shovels), nails, screws, &c, Benny & McPherson; belting and leather, John C McLaren; copper, tin (ingot), lead (pig and sheet), and shovels (cast steel, round points), B J Coghlin; zinc (slab), steam and water fittings, and wrought iron tubing, Copeland & McLaren; lamps and padlocks, E Chanteloup; turpentine, Jas Wilson & Co; glass tubing, W & F Currie; lumber, Henderson Bros.

A report was received from the Superintendent, showing the importance of improving the city water mains, which he estimated would cost $62,000, and with various other estimates of pipe laying, etc., would make a total cost of $65,000.

The Committee ordered a report to be made to Council recommending these improvements.

The Committee decided to visit the Aqueduct on Saturday next.

Pipes in Recollet street were ordered to be laid.

A claim from Andre Montrait for $57 damages done to his house by water, was recommended to the extent of $6.

After the transaction of some minor business the Committee adjourned.

ARRIVAL OF IMMIGRANTS.

Mr. J. J. Daley, Immigration Agent, No. 175 Bonaventure street, has just received the following letter from Mr. John-James Jones, M.G.C., F.R.G.S., Director of the American and Canadian Labour and Emigration Agency, London, England, which speaks for itself:—

OFFICE, 98 HIGH STREET, HOMERTON, London E., Eng., April 17, 1882.

J. J. Daley, Esq., Montreal.

MY DEAR SIR,—I sail on the 27th inst. in the "Peruvian" with about 490 emigrants. about 150 of these will be glad to know on their arrival the most likely part to obtain work. It is my intention, on arriving at Rimouski, to send you a telegram after the following style:—"Ten carpenters, twenty common labourers, fifteen agricultural labourers, six masons, and so on." I shall feel greatly obliged if you will reply by wire to me immediately, care of L. Stafford, Esq., Point Levis, Que., and say what are the chances for any that I mention to obtain employment in your district. I shall not, of course, consider your telegram as an offer to obtain employment for any of them, but only as an expression of your opinion as to the probability of their being likely to find the work they require in your locality.

Yours respectfully,
JOHN JAMES JONES.

A good chance is thus afforded for those requiring skilled labourers in the different branches named to obtain them without much trouble.

HOTEL ARRIVALS.

WINDSOR HOTEL.

R Peters, St John, NB; A Glidden, Maine; Robert McLea, Montreal; Geo M Bowen and wife; Miss S Bowen; H Read, J Jeffery, Peterboro; J C Huckoate, London; R B Green, Manchester; Robert Harney and wife, Peru; R Larmour, Stratford; J A Moore, Detroit; J J Coleman, Seaforth; C P Dewey, London; Wm Kelly, Toronto; Wm H Tweddell, Capel de Jeune, G H Reeves, New York; Geo E Cramer, Poughkeepsie, N Y; Mrs Larkin, G Leve, New York; James L Hoole and servant, England; Mrs H and Miss Brown, Repentigny; R Ward, Warsaw; A W Penny, Providence; J S L Mynick and wife, Boston: H Orr, Toronto; R A Gordon, Ottawa; Wm M Angus, Toronto; Percy G Davis, London, Eng; F G Shaw, Madras Army, India; Jas Collas, Gaspe.

THE accountant for Messrs. Walker & Maxey, Gardiner, Me., Mr. Roberts Gould, recently wrote; "About one year ago I was taken with the genuine sciatica. I employed the best physicians, but they could only relieve me for the moment. Finally I used St. Jacobs Oil and was entirely cured."

A DERANGEMENT OF THE LIVER

THE CAUSE OF DISEASE IN THE

STOMACH, KIDNEYS AND NERVOUS SYSTEM!

Below will be found a brief Summary of a Lecture upon the Liver, delivered before the Eclectic College of Medicine, by

DR. J. HAYDOCK.

The Liver has been known as the great *blood-maker* and *blood-purifier* of the Circulation. From its size and spongy nature, it plays a most important part in the animal economy as regards assimilation and nutrition. Food taken in the mouth and acted upon by the digestive organs or the stomach is converted into Glucose and Peptone, and in these forms enters the Portal vein. Here, by the action of the Liver, these substances are converted into a form of sugar, and pass out of the Liver by a large vein, called the Hepatic vein, into the general circulation. The new material now formed serves two purposes, viz.: the maintenance of heat in the body and assisting in the cell growth of the system.

Dr. Murchison says: "The composition of bile and its secretion is very complex. It is constantly being secreted by the Liver, and, increasing suddenly before eating, gradually decreases as soon as the appetite is satisfied and feeding ceases." Now, if this most important organ of the body becomes torpid, or the passage of bile interfered with, emaciation and diseases ensue. I note eight marked peculiarities that now occur, and which we all know of:—

1. The patient complains of a feeling of weight and fullness of the epigastrium.
2. Distention of the stomach and bowels by wind.
3. Heart-burn.
4. A feeling of weariness, pains in the limbs and great sleepiness after meals
5. A bad taste in the mouth, especially in the morning, and furred tongue.
6. Constipation, with occasional attacks of diarrhœa.
7. Headache in front of head.
8. Depression of spirits and great melancholy, with lassitude and a disposition to leave everything for to-morrow.

All of the above symptoms go to show functional derangement of the liver; and now comes the great importance of any error made as to the condition to the patient. He should immediately provide himself with a LIVER STIMULANT, the most common form of which is a Pill. Daily experience shows that this, when the Pill is compounded properly, is the readiest mode of inciting and promoting the action of the liver, and can be almost always relied on. I have devoted many years of my life, as many as you now before me know, to compounding a Pill that will act readily and systematically as a Bilious Remedy. I do not believe in great purgatives, and therefore have made a Pill, one of which is an active and thorough dose. I have called it

DR. HAYDOCK'S NEW LIVER PILL

(Sugar Coated).

ONE PILL IS A DOSE! ONE PILL IS A DOSE! ONE PILL IS A DOSE!

These Pills are an absolute cure for all bilious and malarial affections. They grapple with disease at its fountain head, and root it out of the patient's system at once. They fortify the body against Disease in all forms of sudden attacks and epidemics, and enable all to brave the miasmatic danger of swamps and forests. One vial of DR. HAYDOCK'S NEW LIVER PILLS relieves the entire system of pains and aches, enlivens the spirits and sends new blood *bounding through the veins.*

Send for this inestimable medicine at once, and take no other.

Hesitation and delay are nothing but another form of suicide when you have a remedy at hand to cure sickness instantly.

Take disease in time and you will be saved many days of useless misery.

DR. HAYDOCK'S NEW LIVER PILLS are the true grains and essence of health, and the greatest blessing that Science has given to the world. All over this vast country

THE PEOPLE KNOW THEM! THE PEOPLE USE THEM!

THE PEOPLE PRAISE THEM!

What Hundreds of Letters say from Patientt all over the Habitable Globe.

Dr. Haydock, your new Liver Pill has rid me of all my biliousness.

No more noxious doses for me of five or ten pills taken at one time. One of your pills cured me.

Thanks, Doctor. My headache has left me. Send me another vial to keep in the house.

Our doctors treated me for Chronic Consumption, as they called it, and at last said that I was incurable. Your new Liver Pills cured me.

I had no appetite; Dr. Haydock's New Liver Pills gave a hearty one.

Dr. Haydock has cured my headache that was chronic.

I gave half of one of your pills to my babe for Cholera Morbus. The dear young thing got well in a day.

Your pills are marvellous.

My nausea of a morning is now cured and no more headaches.

Your vial of Dr. Haydock' Liver Pills cured me of terrible neuralgia and pains in the head.

Send me two vials. I want one for a poor family.

Send me five vials of your New Liver Pills by return mail.

Doctor, my biliousness and headache are all gone.

For all Diseases of the Kidneys, Retention of Urine, Dr. Haydock's New Liver Pills are a perfect cure. One pill satisfy the most skeptical.

For Female Diseases, Nervous Prostration, Weakness, General Lassitude, Want of Appetite and Sick Headache, Dr. Haydock's New Liver Pills will be found an Effectual Remedy.

They are universal in their effects, and a cure can almost always be guaranteed.

Each Vial Contains Twenty Pills—One Pill is a Dose. Price, Twenty-five Cents. For Sale by all Druggists.

☞ *Every Pill is Sugar-Coated.* If your druggist does not keep them, we will mail them free to any address on receipt of 25 cents. Five vials for $1.00. BUY AT ONCE. DO NOT DELAY.

HAYDOCK & CO.,
NEW YORK.

April 17 9

For Sale or to Let.

PROPERTY FOR SALE

By H. H. GEDDES.

DETACHED RESIDENCE—I am instructed by G. A. Holland, Esq., to offer for sale his excellent residence, No. 201 Upper University street, with good outbuildings and fine garden containing over 27,000 superficial feet, with handsome shade and choice fruit trees. This location is undoubtedly one of the most desirable in this city and is worthy the special attention of any one seeking an attractive home.

ALSO FOR SALE—The commodious residence at present occupied by E. H. Botterell, Esq., No. 128 Upper St. Urbain street, having garden lot of about 10,000 superficial feet. A nice home for a gentleman of moderate means.

THE TWO HANDSOME CUT-STONE COTTAGES, bay windows, Nos. 75 and 77 Maple street, above 255 Sherbrooke street, belonging to R. McKeown, Esq. The houses are thoroughly well built, attractive in appearance, pleasantly and suburbously situated. Will be sold at a very moderate price and on easy terms. Lot 48x100.

THE VERY HANDSOME DETACHED RESIDENCE, belonging to W. C. Snowdon, Esq., situated at Cote St. Luke, with 170,863 superficial feet of land. This house has been carefully built throughout for owner's personal occupation, and any gentleman requiring an attractive, comfortable, suburban house, near the city, are requested to examine this property.

DUFFERIN SQUARE.—That extensive property, Nos. 491, 493, 495, 497, 499 Dorchester street, corner of St. Phillips street, and directly opposite Dufferin Square, contains 10,520 superficial feet, more or less. This is a splendid position for manufacturing purposes, affording light on all sides and quite close to general business, and being opposite to the pretty Square. It would also be a good site for a terrace of houses which would be sure to rent well.

NICE COTTAGE—I am instructed by Mr. G. C. DeZouche to offer for sale the neat Cottage Residence No. 48 Fort Street. This house is beautifully decorated and exceedingly attractive throughout, with pretty little conservatory, &c. Lovers of good taste should examine this house. The lot is 22x132, with good stabling, &c.

TO MANUFACTURERS.—I offer that very central property, Nos. 18, 20 and 22 St. Charles Borromee Street, close to Craig Street. The lot measures 88 feet in width and 148 feet deep—11,900 superficial feet, more or less, with the Buildings thereon. The size of this lot, and its being situated in the very midst of business, renders it valuable for manufacturing purposes.

NO. 11 BRUNSWICK STREET.—This very commodious residence has been lately put in thorough order, and is only offered for sale in consequence of the owner having removed from this city. Any person desiring a comfortable home near to the business centre should examine this house.

CENTRAL RESIDENCE—The fine Cut-stone Residence, containing about fourteen commodious apartments, also good Stabling and large Lot, belonging to Dr. Dugdale, No. 645 Palace Street, adjoining the Messiah Church. The most prominent position on Beaver Hall Hill, and is probably, without exception, the finest site in the West-End for an institution, boarding-house, store, or any public building.

GOOD INVESTMENTS.—Those two exceedingly well built solid brick houses of four tenements. Nos. 116, 116½, 118, 120 St. George street, and the two fine brick houses of four tenements, Nos. 51, 51½ 53 55 on Anderson street. The whole forming one block and occupied by eight excellent tenants. This property being very centrally situated and the rents moderate in good or bad times, always commands a choice of tenants, and having been erected by one of our most thorough and competent builders for his own investment, intending purchasers can therefore act with confidence. Perfect title and liberal terms.

FACTORY SITES—The large Stone Building Nos. 41½ and 43, corner St. Antoine Street and St. Monique Street, with lot about 45x129.

87 OSBORNE STREET—second house from Drummond street.

ELEGANT DOUBLE STONE COTTAGE.—This beautiful Cottage was built one year ago, expressly for the use of the present owner, and is situated on one of our most favourite streets, and close to business. The house is 37x44, two stories high, bright basement, twelve apartments in perfect order, pantry, linen closets, bath, w.c., furnace, &c., in fact, nothing is wanting to constitute a cosey and attractive home Lot 42x100.

TWO ELEGANT RESIDENCES, Nos. 1129, 1131 Dorchester Street West—Three Stories, high bright basements, Mansard roofs, cut-stone, bay windows in front and rear, cut-stone steps and fencng, 26 feet frontage with a depth of 52 feet (including the bay windows,) 16 apartments, finished in the most modern and elegant manner. Lots 26 x 100, with outbuildings and lane in rear, situation is exceptionable. The design is by one of our most prominent Architects, and erected under the supervision of a thoroughly practical man, and are admitted by experts and experienced property buyers to be two of the finest terrace houses in this city. Can be inspected by permit only.

No. 47 ST. MARK STREET—A charming corner residence, nearly new, built expressly for the use of the present owner, containing many additions and improvements rarely met with in this city. The house has an average frontage of 27 feet, and is 41-6 feet deep, nice little Conservatory, Coach-house and Stable. Lot 31-6x116.

Nos. 49 AND 51 ST. MARK STREET—Adjoining the above and belonging to the same proprietor—Two handsome Stone Cottages and vacant lot, suitable for two more similar houses. The position is one of the most salubrious in the West-End, and to any one seeking an attractive home or good investment this presents a rare opportunity. A large portion of the price can remain on the property at six per cent. The title is perfect.

THE DESIRABLE PROPERTY, consisting of several Shops and Dwellings, corner of St. Lawrence, Roy and St. Dominique Streets, belonging to the Estate of the late Mr. Reinhardt, will be sold *en bloc* or separately as required.

CORNER OF CITY COUNCILLOR AND MAYOR STREETS, Nos. 28, 30 and 60.—This property, consisting of Shops with Dwellings, is an old-established business stand, and being situated in a thickly populated and highly respectable locality, it is a good opening for a Grocer, Butcher or similar business, or, if all rented will yield over 10 per cent. to the purchaser. Perfect title and easy terms.

SUBURBAN RESIDENCE FOR SALE OR TO LET—That very spacious, handsome Residence, 64 feet front and 42 feet deep, fitted up with all modern improvements, including hot and cold water pipes, fine Stabling, Coach-house and other outbuildings, together with six acres of land planted with fine shade and choice fruit trees. This property belongs to B. Peache, Esq., and is beautifully situated, Sault-au-Recollet, close to the Convent and overlooking the Back River. Price very moderate.

NOS. 18 and 20 DRUMMOND STREET—These two very substantially built three-story houses were erected by the late Wm. Stuart, Esq., for his private investment, and are so advantagously constructed that each house can, if desired, be occupied by one or two families, and are consequently adapted for good or bad times, and is one of the best positions in the city for renting purposes. Each lot, 25 x 106, with lane in rear.

Also, the Buildings 601 to 607 Lagauchetiere Street, near Bleury Street, with lot about 90x90. Both properties are quite close to the business centre, and a good position for manufacturing purposes.

ELEGANT DOUBLE TENEMENT.—That very handsome Stone House, Nos. 6 and 8 Fort street, corner of Dorchester street, consisting of two elegant tenements, exceedingly well constructed, and are so conveniently arranged that they are in constant demand by first-class tenants. The situation is very attractive, overlooking the beautiful grounds of the Hon. D. A. Smith, and for private occupation or as an investment can be confidently recommended.

THE HIGHLY VALUABLE WELL-KNOWN PROPERTY, for many years owned by John McClellen, Esq., measuring 202 feet on Wellington Street, 192.6 feet on Murray Street, 140.4 ft. on Young Street, being 32,600 superficial feet, English measure. This property offers a rare opportunity to Capitalists, Companies or Corporations, who contemplate the erection of Warehousing, Manufacturing or other premises requiring a large area, and especially worthy of the attention of the Flour and Grain Trade, being close to the G. T. R. Depot and opposite the magnificent Stores and Elevators of the Montreal Warehousing Company. With the Grand Trunk Railway track running along its Wellington Street front to the wharves of the Ocean Steamers and Vessels, it is unxcelled as a site for receiving and shipping. Its close proximity to the splendid new Dock and Basins and all the large Manufactories and Mills, and the fact that the Government own all the land near it on the Canal side (which cannot be sold), make it invaluable as an investment for speculation. Notwithstanding that an offer of over $65,000 was refused for this property five years ago, I have positive instructions to sell at a comparatively low figure. Commuted and perfect title. No ground rent. Liberal terms.

EXCEEDINGLY COMMODIOUS RESIDENCE—That fine four-story first-class residence No. 13 Plateau Street. This house has been built in the most substantial manner expressly for the use of the present owner, and contains about twenty-five spacious, well finished apartments; also large extension in rear. The whole building is thoroughly heated by steam. Probably no Private house in this city is better adapted for a School, Institute or First-Class Boarding House. The out building is very spacious, and in good condition. In order to close an Estate this Property will be sold at a great sacrifice on the original cost. Perfect title and easy terms.

No. 129 MANSFIELD STREET.—This fine residence is comparatively new, three stories, stone front, about 14 apartments, modern improvements, and in excellent order. This is a nice house and well situated. Notwithstanding the great increase in the cost of building, I am instructed to sell on terms exceedingly advantageous to the purchaser.

FERNCLIFF—The charming Residence and beauiful Grounds belonging to W. G. Murry, Esq., Massawippi, Stanstead, P.Q. This very attractive residence was built five years ago, and is adapted for Summer and Winter, with excellent furnace and modern conveniences; also, fine Stabling, Ice-house and other Outbuildings, 17 acres of Land under a high state of cultivation, consisting of Flower and Vegetable Garden, Young Orchard an other Fruit Trees in full bearing, nice Lawn, etc. This property is on the line of the Massawippi R. R., 18 miles from Sherbrooke and same distance from Newport, Vt. The R. R. Station and Telegraph Office is only a few minutes' walk from the house. The beautiful Lake and other fine surroundings renders it one of the most attractive homes in the Dominion.

VALUABLE BUSINESS PROPERTY—Nos. 595 to 601 on Craig Street, opposite St. Francois Xavier Street. Two commodious stores with dwellings. This property is situate in the very midst of general commerce and on one of the leading thoroughfares, and is well adapted for most any kind of mercantile business or manufacturing purposes. Size of Lot 48 x 110, 5,280 sup. feet, with lane in rear.

THAT FINE RESIDENCE with 10 arpents of garden land belonging to Alex. Ramsay, Esq., situate on the Lower Lachine Road.

CADIEUX STREET—Those Brick Cottages, Nos. 36, 42, 64, 66, 108, 143. These houses are within the reach of small capitalists and paying investments.

A HANDSOME VILLA with pretty little Conservatory at Weredale Park, on Dorchester street West. Free from city taxes.

A NEW AND VERY PRETTY DETACHED DOUBLE RESIDENCE, with good stable, on Dorchester street West. No city taxation.

CRAIG STREET PROPERTY—That very central and prominent corner property Nos. 517, 519 and 521 Craig street, corner St. Charles Borromee street, consisting of two cut stone front stores with dwellings. This property is situated on one of the greatest thoroughfares in this city, and in the hands of an energetic business man cannot fail to prove a good investment. Sheriff title.

Nos. 10, 12, 14, Drummond street—These houses are splendidly situated, well built and in perfect order, and, being medium sized and central situated are in constant demand by an excellent class of tenants, and are consequently a desirable investment. While to any one requiring a pleasant and economical home the amount of interest on the price demanded will represent but a very moderate rental. Will be sold separately, if desired, on liberal terms

TERRACE OF CUT STONE HOUSES—This property consists of five spacious residences, each having a lot of about 28 feet frontage, and 145 feet deep, with solid brick out buildings. The terrace is situated in the West End, and is rented to good tenants. The present revenue, which is very fair, could be greatly increased by converting those houses into double tenements, for which their ample dimentions and large yards so well adapt them.

The two Stone residences, with bay windows, 88 and 90 St. Famille street; only $1,000 cash required down.

Nos. 119 and 121 Panet street, very cheap.

Nos 18 and 20 Wolfe street, brick cottages.

Building lots on Peel, near Burnside street.

Three Cut-Stone, conveniently arranged houses, 621, 623 and 625 Sherbrooke street.

Brick cottages, Nos. 36 and 42; Coursol street, close to C. P. Railway

Neat brick residence, 258 St. Antoine street, close to Lusignan street.

Five first-class Houses, Windimere Terrace, McKay street, above St. Catherine street,

First-class Stone residence, 208 University street near Prince Arthur street.

Two good solid Brick houses, Nos. 149, 151 St. Dominique street, opposite St. Lawrence market. The depth of the land and the convenient entrance will enable the purchaser to build two additional houses in rear, which, in that central locality, will prove a good investment.

Two first-class Cut Stone residences, 28 and 30 St. Famille street, near Sherbrooke street.

The excellent property, known as McCready's, Nos. 81 to 285 and 93 to 101, corner Bonaventure and Mountain streets.

Lot 72 x 109, and tenements 7 to 13 on Hermine street, near Craig street.

Villa lots 44 x 120 and 62 x 120, Nos. 34 and 91 Durocher street.

First-class residence, latest improvements, on Peel street, near Sherbrooke street.

Commodious residence, 856 Sherbrooke street, opposite the College grounds.

Valuable business property, corner St. Joseph and St. Martin streets

Corner villa lot, 54 x 119, on Sherbrooke street, free from city assessments.

MAGNIFICENT SEMI-DETACHED RESIDENCE FOR SALE—I am instructed by Robert Brown, Esq. (who is about removing from the city), to offer for sale his splendid residence, No. 1,149 Dorchester street. The size of the house is 42 6 x 46, built of stone, interior division walls built of brick, three stories and basement, galvanized iron roof, wide verandah on side and in rear; contains about 20 elegantly finished apartments, numerous wardrobes and linen closets, baths and W. C., &c.

The position is unexceptional. Size of lot about 76x230, 17,530 sup. feet. For permits to view and other information, apply to

FIRST-CLASS DOUBLE STONE TENEMENT, Nos. 67 and 67½ Victoria Street.—This fine property was erected by a practical builder for his own occupation Size 28 x 50, three story mansard roof, fine, bright basement and large cellar. Also, in rear, a good outbuilding which was formerly used as a dwelling. Lot 28 x 95, lane in rear. This house is situated on one of our leading West End streets, close to Sherbrooke street.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y.

CAPITAL NOTES.

The Agricultural Inquiry Farce Concluded.

THE REAPPORTIONMENT BILL.

The Irish Sympathy Resolutions in the Senate.

AMENDMENT BY MR. HAYTHORNE.

Characteristic Motion of Mr. Wallace, of Norfolk.

The Bill respecting Queen's College passed through the Senate Committee on Private Bills to-day.

The delegation which is now in the city from St. John, N.B., for the purpose of having their harbour placed in commission do not expect to receive an answer from the Government before Thursday.

HONORS TO MR. RYMAL.

The presentation of a gold watch and chain to Mr. Rymal, M.P., by his friends in Parliament will take place this week.

APPOINTMENT.

W. J. A. Lumsden, of Hamilton, has been appointed to the *Hansard* staff in place of Mr. Isaac Watson, who retires at the close of the present session. The salaries have been increased to $1,100 per year, with a yearly increase of $100 until it reaches $1,500.

THE DECEASED WIFE'S SISTER BILL.

His Lordship Bishop Binney, of Nova Scotia, is in the city, engaged in interviewing the different members of the Government, with a view to preventing, if possible, the Deceased Wife's Sister Bill from becoming law. It is not probable, however, that the Government will advise His Excellency to withhold his assent to a bill which passed both Houses by such large majorities.

THE AGRICULTURAL (?) COMMITTEE.

Dr. Orton's Committee to inquire into the effect of the present high tariff on the agricultural interests has finished its labours. The proceedings from first to last have been of the most farcial character. Witnesses who have ventured to tesfify adversely to the Government's desires have been rudely insulted, and political wire-pullers have been made to do duty as "representative farmers." Several of the principal party managers who were summoned to the Capital to assist in gerrymandering the constituencies had their expenses paid as "witnesses" summoned to give evidence before Dr. Orton's Committee. Mr. Currie, the Government candidate in West Middlesex, it is said, had the expenses of his trip defrayed in this way. The report of the Committee will, no doubt, be of a most unfair and partizan nature, though it is expected that Messrs. Trow, Bain, and Bechard, will submit a minority report. A gentleman remarked the other day that there was about as much chance of obtaining a fair and just report from Dr. Orton' Committee, as there would be of securing a just verdict from a Court held in a certain warm locality, and presided over by a personage in whose existence Bob Ingersoll declares his most emphatic disbelief.

THE MANITOBA CHIEF-JUSTICESHIP.

The efforts of Dr. Schultz, Mr. H. J. Clarke and others to annoy and, if possible, procure the removal of Chief-Justice Wood of Manitoba, are likely to prove futile after all. Mr. Clarke has been in Ottawa nearly the whole session, lobbying against Judge Wood, who has the misfortune to be an appointee of the late Government. As Dr. Schultz is to be raised to the Senate, and Mr. Clarke's name is mentioned as the Conservative candidate for Lisgar, perhaps their anxiety to oust Judge Wood may be appeased.

THE CITY MEMBERS.

Mr. Currier, M.P., for Ottawa City, announces that he is not an applicant for the Postmastership or any other office, and that no appointment of any kind has been tendered him. Should he receive a nomination at the hands of his political friends he will again contest the constituency. The rumours of Mr. Currier's intention to retire have been circulated by certain Government supporters acting in the interest of other aspirants for the seat. Mr. Tasse has been canvassing for re-nomination, but finds very little encouragement, and there is now little doubt that he will seek a Quebec constituency.

THE RE-DISTRIBUTION BILL.

There are pretty plain indications that the outrageous provisions of the gerrymandering bill, are condemned by a large number of respectable Government supporters. All the representatives from Quebec and the Maritime Provinces who have any regard for justice and fair dealing, object to becoming a party to the enacting of a measure which must always remain a stigma upon the party name. The Ontario Ministerialists, however, insist that they should be permitted to regulate their own political household, and that it is the duty of Quebec and Maritime Province Conservatives to confirm any arrangements which are designed to benefit the party. Ontario Conservatives argue that as they have refused to confirm the Boundary Award at the command of Mr. Mousseau, and permitted Sir Leonard Tilley to fill the public Departments with his friends and relatives, they should in return be permitted to "re-adjust" the Ontario constituencies. There are Government supporters also who fear that the new arrangements will injure rather than improve their chances of re-election. Some modifications may be made in the Bill, but nobody expects that the Senate will disapprove of any portion of it.

PREPARING FOR PROROGATION.

Much indignation is expressed by private members at the action of the Government in shutting out all private legislation by taking Mondays. This was done, as Mr. Blake pointed out, in defiance of the rules of the House bearing upon the subject.

SUPREME COURT.

Antoine Gagnon *as.* Dame Hermine Prince, Mr. Geo. Irvine, Q.C., counsel for appellant, Mr. W. Laurier, M.P., respondent. This is a case of appeal from a judgment of the Court of Queen's Bench for the Province of Quebec. The appellant in this case brings action in his capacity as guardian to Marie Richard, his daughter's child, to recover certain amounts from Dame Prince, whose son was the child's father, and who had previously been also the child's guardian. On the 21st of February, 1880, the Superior Court at Arthabaska rendered judgment condemning the present respondent to account for the administration of the minor's property by Louis Richard and his widow (Dame Hermine Prince) since his death.

RECIPROCITY WITH GREAT BRITAIN.

Mr. Wallace of Norfolk, the soft money advocate, has given notice of the following resolution: That in the opinion of this House it is most desirable that the commercial relations between Great Britain and her dependencies should be so regulated as to give each in the markets of the other a preference over foreign nations; that the adoption by the mother country of trade regulations which would give subjects resident in her dependencies a preference in her market over the people of foreign states which would more fully recognize that they are subjects, would create a great community of interests between the inhabitants of the several portions of the Empire, would bind them more strongly together, and would greatly tend to the strenghening and consolidation of the Empire; that Her Majesty's loyal subjects residing in Canada being most anxious that the connection with the present state should be perpetuated will give their dutiful consideration to any proportion emenating from Her Majesty's Imperial Government having in view the adoption of trade relations which will provide for admitting the productions of their fellow-subjects in the other portions of the Empire into the markets of the Dominion on terms more favourable than are accorded to foreigners. It appears that Mr. Wallace has not profited by the lectures of the chief organ respecting the impropriety of Canadians making suggestions as to how the affairs of the United Kingdom should be managed.

THE IRISH SYMPATHY ADDRESS IN THE SENATE.

In the Senate this afternoon the Irish sympathy address, which was passed unanimously in the House of Commons, came up for discussion. It was moved and seconded by Senators Howlan and Power.

Senator Read opposed the resolutions, and Senator Haythorne moved an amendment to clauses 5 and 6 of the Address as follows:—"We would further represent that your Majesty's subjects in the Dominion of Canada (whatsoever may be their origin) sympathise most earnestly with their fellow subjects in Ireland in all their legitimate efforts to obtain the lands they occupy at fair rents; with ample security against arbitrary ejectments and full powers to dispose of their improvements, and they rejoice to know that these important objects are generally attainable through the operation of existing legislation, and we would further desire to express our earnest hope that the time is not far distant when it may no longer be necessary to deprive any of your Majesty's subjects in Ireland of their liberty for political offences or to detain them in custody without trial in due course of law." The debate was adjourned on motion of Senator MacDonald.

AMUSEMENTS

ACADEMY OF MUSIC.

"THE BANKER'S DAUGHTER."

The Union Square Company were greeted last night with a very fine audience on the first appearance in the above popular society drama. As we have already published the plot, we shall to-day only deal with the characters as personated by the several members of the company. Mr. Joseph Whiting as "John Strebelow" was everything that one could wish for in the frank, honest, manly gentleman, ready at all cost when the trial came to defend not only his own honour but that of his wife, much as she may apparently have compromised herself. The parting scene between husband and wife was very affecting and natural, as also the duel scene which was the least overdrawn. Miss Adele Belgrade, who made her first acquaintance with a Montreal audience, is an actress of no mean ability, and in her personation of "Lillian," She displayed all that artistic taste and attention to detail so necessary in a character where more than ordinary care, is required in the emotional parts. She fairly divided the honours of the evening with Mr. Whiting. Miss Lizzie Hudson as "Widow Brown," and Mr. G. C. Boniface as "G. Washington Phipps," supplied all the comedy and did it to perfection, keeping the audience in roars of laughter with their absurd sayings and doings. The part of "Natalie," "Lillian's" child, was beautifully played by little Georgie Tuyder. The young miss, who we hear is only five years of age, shows much aptitude for the stage, and should she continue as she has begun, has a brilliant future before her. W. S. Daboll, as "Count de Carojac," E. L. Tilton, as "Westbrooke," and J. Wilkes, as "Babbage," Miss Rose Grahame as "Fanny," and Mr. Cowper as "Harold," faithfully filled their *roles*, to the satisfaction of the audience. The dressing was excellent, especially the ladies, whose toilettes were much admired, and the setting of the piece reflected much credit on the stage management. The play itself is worth seeing, and in the hands of such a strong company is doubly so. We advise all our readers to see "The Banker's Daughter" which will be repeated every night this week.

TOM KEENE.

The above celebrated tragedian appears at the Academy in a round of Shakspeare's plays next week, and we anticipate for so finished an actor warm and cordial support.

THEATRE ROYAL.

BARRY AND FAY.

Another crowded house greeted Barry & Fay's Comedy Company in "Muldoon's Picnic" at the Royal last evening. The last performance will be given this evening.

QUEEN'S HALL.

Our musical citizens are evidently awakening up to the grand musical treat in store for them on Friday and Saturday next, a great many of the choice seats being already secured. We have seen a draft of the programme for Friday which contains several classic gems, both vocal and instrumental, and some popular pieces and solos by modern classical and well known authors, so that everybody will have something to gratify and please their individual tastes. Those who have not already secured tickets had better do so without delay at Queen's Hall office, 226 St. James street.

OSCAR WILDE.

The great æsthetic apostle will appear in our city on the 15th instant and give one of his lectures on the Beautiful in Nature. There is no question of doubt but that Mr. Wilde will be courteously welcomed in the metropolitan city of the Dominion.

SOMEBODY'S CHILD

Somebody's child is dying—dying with the flush of hope on his young face, and somebody's mother thinking of the time when that dear face will be hidden where no ray of hope can brighten it—because there was no cure for consumption. Reader, if the child be your neighbour's, take this comforting word to the mother's heart before it is too late. Tell her that consumption is curable; that men are living to-day whom the physicians pronounced incurable, because one lung had been almost destroyed by the disease. Dr. Pierce's "Golden Medical Discovery" has cured hundreds; surpasses cod liver oil, hypophosphites, and other medicines in curing this disease. Sold by druggists.

DOMINION DESPATCHES.

Steamships Delayed by Ice in the Gulf.

A NEW BRUNSWICK VESSEL LOST.

New Graving Dock at St. John's Newfounland.

THE CHURCH MUSIC CONTROVERSY.

The Disallowance Question in the Manitoba Legislature.

ANNUAL BAR MEETING.

QUEBEC, May 2.—The Bar of Quebec annual election of officers was held yesterday afternoon at three o'clock in the Advocate's Library, Court House, with the following result:—Batonnier, J. G. Bosse, Q.C.; Syndic, G. H. Pemberton; Treasurer, D. J. Montizambault, Q. C.; Secretary, R. J. Bradley; Council, Messrs. Dunbar, Q.C., Malouin, Q.C., Ross, Q.C., Langelier, Q.C., Irvine, Q.C., Morisset, Q.C., Gauthier and Jules Larue, Q. C.

A CHANCE FOR OFFICE SEEKERS.

Owing to the retirement of Mr. Green, surveyor of customs, and the superannuation of Mr. Bilodeau, Chief Appraiser at this port, two first-class positions are at the disposal of the Government.

A parade of the fire brigade was held at the central station this afternoon, when ex-Guardian Harney was presented with a ring on the occasion of his leaving the force. The brigade afterwards went to the residence of Hon. Mr. Langelier and congratulated him on his election to the Mayoralty.

The law students of Laval University, this evening, presented Mr. Langelier with an address of congratulation on his election to the office of Mayor.

SUDDEN DEATH.

Philippe Pinault, a young law student of Laval University, was found dead in his room this morning from an apopleptic fit. It is noticed as an extraordinary fact that a fit of the same nature occurred on the same day last year.

ICE IN THE GULF.

That there must be large quantities of ice in the track of incoming vessels is the only way to account for the detention of several steamers now overdue. The Dominion line steamers "Texas" and "Quebec," from Liverpool, sailed on the 13th and 15th of April respectively and are undoubtedly detained by the ice. The steamers "Scotland," "Manitoban," "Earle King," "Mississippi," and other vessels, which sailed a few days after, ought, under the usual circumstances, also to be heard from shortly. Several of the incoming steamers and sailing vessels have large consignments of potatoes. The market here is dear enough and the supplies are much sought after.

TORONTO BAPTIST COLLEGE.

TORONTO, May 2.—The first convocation of the Toronto Baptist College was held in Jarvis street church to-night. There was a large and fashionable assemblage. Three graduates—Messrs. McEwan, of Brantford, Tapscott, of Toronto, and McArthur, of Dominionville — delivered excellent addresses, and were afterwards presented with diplomas and addressed by the President.

A CHEMICAL NUISANCE.

A peculiar case came on for hearing at Osgoode Hall to-day. The plaintiff brought action against his next door neighbours, who are druggists, claiming damages and an injunction to restrain them from generating acid gases on their premises in such a way as to be a nuisance. During the hearing a settlement was arrived at, the defendants paying plaintiff $150 and undertaking in future to carry off such gases as may be generated in their manufacturing operations from the neighbourhood of the plaintiff.

CONTINUED EXODUS TO THE UNITED STATES.

About 200 settlers from the Eastern Provinces passed through here to-day on their way to Dakota and Montana. Few of them appeared to be in anything like a prosperous condition.

To-day the tender of Mr. Page, builder, of $17,200 for the erection of a house of refuge for the poor of the county of York was accepted, and work will go on at once.

LOST OVERBOARD.

ST. JOHN, N.B., May 2.—Archibald Hutchinson, of St. Stephen, a seaman on board the schooner "Race Horse," jumped overboard at sea a few days ago and was drowned. He was temporarily insane. Hutchison leaves a wife and children.

ESCAPE OF PRISONERS.

Daniel Doherty and Jos. Daley, who were sentenced yesterday to five years each in the Penitentiary, for indecent assault, made their escape from gaol last night. They have not been, and probably will not be, recaptured.

LOSS OF A NEW BRUNSWICK VESSEL.

News has been received that the vessel reported by cable yesterday as wrecked at Swanage, England, with the loss of all hands, was the ship "Alexandrova," of this port. The "Alexandrova" was bound from Rotterdam in ballast to Cardiff, to load for Calcutta, having sailed from Rotterdam about ten days ago. It is not known here whether any of the crew are provincials. The crew would number about eighteen men. The vessel was 1,274 tons register, and was owned by Steeves, Bros. & Co. and others. The insurance on her in St. John amounted to about $19,000.

A heavy freshet in the St. John river is expected. It is raining here to-night, with flurries of snow.

A MAGNIFICENT GRAVING DOCK.

ST. JOHNS, N.F., April 30.—Last night, in the Newfoundland Assembly, an act was passed which granted to a number of New York capitalists a charter of incorporation to enable them to construct a graving dock in the harbor of St. Johns. The company, who are represented here by Mr. Mason Loomis, belong to New York, and have received the most favorable and even generous terms from the Newfoundland Legislature. The government gives the company a subsidy of $30,000 per annum for 45 years, and indorsed their bonds to the extent of $600,000. The government also grants to the dock syndicate all the lands that are necessary for the construction and extension of the dock and the erection of buildings and other essential works. The proposed graving dock will be the largest in the world, and capable of accommodating steamships of the deepest draught afloat, excepting the "Great Eastern." It will have a clear length of floor of 600 feet, with an inside width at the coping level of 100 feet. The bottom of the dock will be 83 feet wide. The main entrance at the coping level will be 66 feet in width, and from high water mark to the floor of the dock there will be a depth of 30 feet. The material of construction will be native granite, drawn from the quarries of Killegrews.

Situated as St. Johns is, almost midway in the Atlantic, between the great trade centres of the United States and Great Britain, the proposed graving dock will be hailed by the commercial world as a boon to the interests of ocean shipping of very considerable magnitude.

THE WANT OF CONFIDENCE DEBATE.

WINNIPEG, Man., May 2.—The following is the resolution moved by Mr. Greenway in the Local House last night and accepted by the Government as a motion of want of confidence:—That this House regrets that in a matter of such vital importance to the Province as the recent disallowance by the Dominion Government of the South Eastern Railway charter, granted by this Legislature at its last session, His Honor the Lieutenant-Governor had not been advised to enter a protest in his speech from the throne against such interference with our provincial rights; that in view of great lack of railway facilities now afforded this city and province, and so much felt at the present time, it is deeply to be regretted that said bill should have been disallowed, thereby indefinitely postponing additional facilities so essential to the development of this country.

The mover supported his resolution with a vigorous and forcible speech.

J. S. Aikens opened the debate to-day in a speech against the amendment and was followed by the Premier who defended the course of Government from a constitutional standpoint.

Hon. J. W. Sifton moved the adjournment of the debate which is getting interesting and drawing crowds to the House.

It is understood that James Ross, General Superintendent of the Credit Valley Railway, has been appointed Chief Engineer of the Canadian Pacific Railway, who will also act as Superintendent of construction.

Lieut.-Governor Cauchon is spoken of as a probable candidate in the Liberal interest for this Province at the Dominion election.

Fred. Aylmer's C. P. R. engineering party has reached Fort Benton, and will leave at once for Calgarry, the point of rendezvous for Rocky Mountain Survey parties.

Langdon, Shepherd & Co. are pushing the work of construction of the west division of the C.P.R. Track has been laid from Flat Creek, the terminus of last year, to Gopher Creek, where grading was stopped. Distance, 20 miles.

THE FLOODS.

Passenger trains continue to arrive from the south, the steamer "Selkirk" being still used for purposes of transfer between St. Vincent and Emerson. Should the water continue to fall as it is doing at St. Vincent it is believed through traffic by rail can be again established in a week or ten days. The track is still in a bad state, and the old stone wall line has been put in repair to Portage. The Assiniboine having overflowed the country in vicinity of Brandon bad wash-outs have interrupted traffic. The water is reported to be subsiding, and a construction gang is expected to have through traffic to Brandon in a few days. The Air Line is to be raised and made more permanent. The water in the Red River is still steadily rising, and the threatening appearance of several weeks ago again presents itself. On the Flats, at the foot of Post Office and Notre Dame streets, there are a number of houses under water, most of whose occupants have again been compelled to seek refuge in the upper portions of their dwellings. The water, which has been rising slowly since the fall of a few days ago, rose rapidly again last night having risen some six inches from six o'clock in the evening until noon to-day. It is still rising slowly, but there is cheering news of a fall at Emerson, and this gives hopes that the water has reached a maximum. The water in the Assiniboine rose 5 inches between six p.m. yesterday and eight a.m. to-day, and is rising steadily. The action of this river is believed to be the principal cause of the continuous rise in the Red River. St. Boniface is also again badly threatened, and many low portions of this suburb are also in danger.

THE CHURCH MUSIC QUESTION.

PETERBORO' May 2.—The Presbytery of Toronto met yesterday afternoon in St. Paul's Church, Peterboro'. After disposing of some routine matters the report of the Committee appointed to confer with the new representatives of the new movement opposed to the use of instrumental music and hymns in public worship reported that they had been unable to dissuade them from their desire to build their proposed church in Carlton street. After the opposing view of the sessions of old St. Andrew's, St James Square and Central Churches had been read, Principal Caven moved that the matter be referred to a small Committee to prepare a deliverance on this matter to be submitted to the Presbytery at its next meeting. Carried. Mr. Bain appealed to the Synod, which is about to meet here, as he represented the Memoralists and they wished the matter settled at once, as they were kept without church ordinances, but withdrew his appeal on the Presbytery agreeing to meet and determine the whole matter on the first Tuesday of June. The Synod of Toronto and Kingston met in St. Paul's Church yesterday evening. Rev. John Smith preached an eloquent sermon from Mark xiii., 34, "To every man his work." The Synod proceeded to the election of a Moderator, the choice falling on the Rev. A. A. Drummond, of Newcastle. Over one hundred ministers and elders are present, and are comfortably domiciled. An interesting meeting is looked forward to for to-morrow.

MISCELLANEOUS.

Thirty thousand tons of steel rails for the Midland Railway will arrive at Belleville this season.

A meeting of 400 of the electors of the proposed new riding of West Ontario met at Stouffville yesterday, and passed strong resolutions condemning the action of the Government, and made arrangements for organizing should the Bill become law.

TRUTH IS MIGHTY.

When Dr. Pierce, of Buffalo, N. Y., announced that his "Favourite Prescription" would positively cure the many diseases and weakness peculiar to women, some doubted, and continued to employ the harsh and caustic local treatment. But the mighty truth gradually became acknowledged. Thousands of ladies employed the "Favourite Prescription" and were speedily cured. By druggists.

FIRST-CLASS work, extensive variety of choice and reasonable prices distinguish Robinson over all tailors.

EXPERIENCE proves that a good well suit cut and well made is decidedly the cheapest in the end; Robinson is the man to build it.

FROM THE OLD WORLD.

The Imperial Government's new Irish Policy.

MR. FORSTER RESIGNS.

Release of Parnell, Dillon and O'Kelly.

REJOICINGS THROUGHOUT IRELAND

Wealthy Jews to be Prevented from Leaving Russia.

THE EGYPTIAN IMBROGLIO.

THE IRISH-AMERICAN SUSPECTS.

LONDON, May 2.—The *Times* says it will be formally decided to-day whether the suspects will be liberated. The correspondence between the Governments of Great Britain and the United States relative to suspects, will show that there has been no weak acknowledgment of pretensions inconsistent with international law and common sense. Great Britain has firmly maintained the position that American Irishmen in Ireland must submit like other Irishmen to the laws deemed necessary by Parliament. It is in deference to the comity of nations, not to any claim of right, that prisoners of American nationality were offered liberty if they left the country. If some foolishly and insolently refused to give such a pledge they must take the chances of remaining in gaol as long as the Executive deems necessary. It is, however, no longer doubtful that the Cabinet is considering whether the prisoners may not be liberated, except those who were arrested on suspicion of being personally concerned in outrages.

MR. GLADSTONE'S NEW IRISH POLICY.

Mr. Gladstone, in the House of Commons, made an announcement similar to that of Granville's in the Lords. He stated that a large number of other suspects would be released, and the Government instead of renewing the Coercion Act would introduce a measure remedying the administration of justice in Ireland. Instructions have already been sent to Ireland for the release of three imprisoned members of Parliament, and lists of suspects are being carefully considered with the view of the release of all except those arrested on suspicion of having been personally concerned in outrages. These releases will be on the Government's sole responsibility. Mr. Forster had resigned because he was unwilling to share this responsibility. Mr. Forster would make a personal explanation on Thursday. The measure which the Government will introduce remedying the administration of justice in Ireland deals with the protection of life and property.

Mr. Sexton said the Government had taken the first steps in a policy that would crown its administration with glory, and produce ties of mutual interest between Ireland and England.

Granville explained that Cowper had not resigned the Lord Lieutenancy because of any difference with the Government regarding their policy. Lord Carlingford would temporarily take the presidency of the Council.

Mr. Gladstone said the release of Davitt was totally distinct from the release of the suspects, which was a question it might be right for the Government to consider.

Northcote likened the Government to a pendulum, swinging from one side back to the other.

Mr. Gladstone stated that the reconsideration of the prisoners' cases would not extend to the case of Michal Davitt. He also said that if peace and security were jeopardized by the action of secret societies the Government would propose counteracting measures. The Government did not think the Coercion Act had failed, as it served an important purpose in a great crisis. He expressed regret at the retirement of Forster.

MR. FORSTER RESIGNS.

In the House of Lords, this evening, Earl Granville announced the resignation of Mr. Forster, Chief Secretary for Ireland, and the intention of the Government to release three imprisoned members of Parliament.

REJOICINGS IN IRELAND.

There was great excitement in Dublin on the receipt of the news of the resignation of Forster. Crowds gathered, cheered for Parnell and groaned for Forster. Bands paraded the city playing national airs. Further changes at the Castle are expected. Burke, Under Secretary, and Hillier, Inspector-General of Constabulary will probably resign. Joseph Chamberlain, President of the Board of Trade, or George Shaw Lefevre, Commissioner of works and buildings, will probably succeeded Forster. If the former is appointed, Sir Charles Dilke will succeed to the Presidency of the Board of Trade. Fires are blazing on Wicklow Hills in honor of the release of members of Parliament. There is a spontaneous rejoicing throughout Ireland. At Limerick many people danced with joy, shouting: "Forster is gone, God save Ireland." A band turned out at Waterford. Emblems of rejoicing are universal.

THN CHIEF SUSPECTS RELEASED.

Parnell, Dillon and O'Kelly have been released from Kilmainham Gaol. They drove around the outskirts of the city to a station, where they took the train for Avondale. They will remain in Parnell's residence for two days and arrive in London on Friday.

THE RECENT STORM.

At Dover, Swanage, Brighton, Portsmouth, Plymouth, and other places on the coast, the recent storm caused great damage and loss of life. Several disastrous wrecks are reported in the channel. A Danish brig was wrecked near Havre and four men drowned. The Coraing Fishing Fleet lost £3,000 worth of nets during the gale.

THE SEARCH FOR DELONG.

YAKUTSK, May 2.—The American officers searching for the "Jeannette's" men in consequence of the exorbitant sum demanded for the steamer "Lena" engaged another steamer for the search. The latter, however, proved unsuitable. It is stated that Sibiriakoff has despatched the "Lena" to search for DeLong.

JEWS PREVENTED FROM EMIGRATING.

ST. PETERSBURG, May 2.—Orders have been issued to prevent the emigration of the richer class of Russian Jews. After a six weeks' trial for embezzlement of State money, four functionaries of the Ministry of Domains have been sentenced to deprivation of the rank of nobility and exiled. Eight others were acquitted.

Ex-Empress Eugenie was mobbed and hooted as she left her hotel for the railway yesterday at Lyons.

Seven persons have been killed by an explosion in the Victoria colliery, near Leeds.

Five suspects were unconditionally released from Naas jaol yesterday.

The Upper House of the Prussian Diet has passed the Ecclesiastical Bill by 87 to 33.

A sensation was caused in Rome yesterday by Professor Sbarbaro, a writer on international law, publicly spitting in the face of Bacelessi, Minister of Instruction. The offender has been arrested.

CABLE NOTES.

A Hong Kong despatch says the French have taken Ha Nai after two hours bombardment.

At Bilbao, Spain, yesterday, an explosion occurred in a gunpowder factory, killing three persons and injuring several others.

The published report that the ship "Western Monarch" with 1,300 emigrants for New Zealand was lost, with all hands is unfounded.

The second electric railway constructed by the Messrs. Siemens, and running from Lichterfelde to the College for Cadets, Germany, was formally opened on Saturday.

In the action of the *United Ireland* against Mr. W. E. Forster to recover £20,000 damages on account of the seizure of that paper, the defendant refuses to answer the interrogatories on the ground that they concern matters of State.

The Berlin *National Zeitung* says Great Britain is disposed to assent to Turkish intervention in Egypt. France opposes intervention, while Germany favours it, provided all the Powers are agreed as to its necessity. Intervention is not yet regarded as imminent.

The number of Jewish refugees arriving at Lumberg is constantly increasing. An assembly of Polish Jews has pronounced in favour of emigration to Palestine. Seven thousand families have applied to the Emigration Committee for assistance to enable them to settle in Palestine.

At a meeting of the Mansion House Committee of the Property Defence Fund the Lord Mayor stated that the fund amounted to £20,000. The committee's report stated that during the last three months agents had attended 95 sheriffs' sales, 172 caretakers had been supplied for unoccupied farms, 54 laborers provided for boycotted farmers, 172 writs served and £17,000 in rent recovered for landlords.

The barque "Cardenas," from Gaboon, reports that in the latter part of March, some pirates of Pangvooys and Bakallas captured and plundered a French cutter. The Colonial Government of Gaboon sent a force to recapture the cutter. An action took place when a French surgeon was killed and three French soldiers wounded. Singiningi Town, on the Island of that name in the river Como has been destroyed, and the trade with rivers emptying into the Gaboon entirely suspended.

UNITED STATES NEWS.

THE MILL STRIKES.

COHOES, N. Y., May 1.—The Harmony Mills gates were thrown open this morning, and the signal bell that the work for the day was about to begin sounded. A large number of operatives gathered in the neighborhood, but no one entered upon the mill grounds. Fifteen minutes after the usual time the gates were secured, and the strikers dispersed. There has been one week's idleness, and $25,000 have been lost in wages. The migratory movement among the operatives has been suspended. Extensive preparations are being made for an outdoor mass meeting Tuesday night, and an assemblage of 5,000 persons is expected. There are no signs of a compromise.

FALL RIVER, Mass., May 1.—The Sagamore mill did not start up this morning as was expected.

SUMMARIZED DESPATCHES.

The excess of imports of merchandise for March was $5,978,000, while for March last year the excess of exports was $2,434,900.

The steamer "Glamorgan," from Liverpool, while on a voyage to Boston, passed 100 large icebergs on which were seen many polar bears.

Black small-pox is killing thousands of inhabitants in the States of Sinalo and Campeachy, Mexico. Doctors are treating the people without compensation, and a panic prevails.

The Maine State authorities have notified the parties interested in the intended prize fight between Tommy Bates, the Sheffield boxer, and Jim Hurst, formerly of Montreal, that arrest will follow the pitching of the ring.

Near Farmora, Mexico, a battle took place between a company of Dragoons under Cayetano. Novega, and the famous bandit Teodolo Caballeras. The troops were badly defeated after a hard and long fight. Novega was killed. The robbers rode away to the mountains,

CRIMES AND ACCIDENTS.

NEW ORLEANS, May 2.—A duel with pistols occurred yesterday at St. Bernards parish, between Joseph Livesay and a son of Attorney General Egan. Several shots were fired without effect. The affair grew out of certain charges against the Attorney General printed in Livesay's paper.

WEATHER REPORT.

MONTREAL, May 2.

Temperature in the shade by Standard Thermometer, observed by Hearn, Harrison & Co., Opticians and Mathematical Instrument makers, 242 and 244 Notre Dame street:—8 a.m., 42°; 1 p.m., 45°; 6 p.m., 42°; Max., 49°; Min, 36°; Mean, 42.05 By Standard Barometer — 8 a.m 29.76; 1 p.m., 29.80; 6 p.m., 29.86.

METEOROLOGICAL OFFICE, TORONTO, May 2, 10.00 a.m.

Probabilities for the next 24 hours:—Lakes—North-westerly to westerly strong during the day; fine cool weather to-day with frosts at night, followed to-morrow by westerly to southerly winds and fine, milder weather. Upper St. Lawrence—North-westerly to westerly winds, fresh to strong during the day; fine cool weather with sharp frosts at night, followed by fine and milder weather at night. Lower St. Lawrence—Fresh to strong westerly to north-westerly winds, gradually clearing cooler weather sharp frosts at night.

LATEST SHIPPING.

HALIFAX, N S, 3, 12.30 a m—The mail steamer Polynesian is reported coming up the harbor but is not yet to the wharf.

Later—The steamer which arrived early this morning was not the Polynesian mail boat but the Dominion line boat Quebec which left Liverpool about 20 days ago for Quebec and could not get there and came here.

November 11

FINE RESIDENCE FOR SALE

That superior first-class and commodious four-story Cut-stone Residence, No. 696 Dorchester Street, directly opposite the elegant mansion and grounds of the late Harris Stephens, Esq. The house is constructed in the most substantial manner, and contains about eighteen most conveniently ranged, well-finished apartments. Plate glass in the principal windows and doors. Elegant marble mantels, wash-basins with hot and cold water; handsome stone steps to front entrance, with frost-proof cellar underneath, two coal cellars, furnace, &c. The whole constituting one of the finest Terrace Residences in the city. The beautiful and convenient position of this Property is too well known to require comment. A large portion of the price can remain at six per cent. Perfect title.

Lot 170 feet deep, with land in rear, for stabling, &c.

The principal rooms of this house have just been handsomely decorated by Messrs. DeZouche & Son. Intending purchasers who have inspected the house before the recent improvements were effected are invited to call again.

H. H. GEDDES,
REAL ESTATE AND FINANCIAL AGENT,
119 St. Francois Xavier Street, Montreal.
February 22

TO HOTEL KEEPERS

Unsurpassed occasion for an enterprising man to get a very liberal return for his pains and money.

TO LET FOR AN HOTEL.

JACQUES CARTIER BUILDINGS, on the square of same name in close proximity to the Q., M., & O. Railway NEW OFFICES, which will be completed early next spring, and at 5 minutes' walk from the Richelieu & Ontario Navigation Co.'s piers and offices.

These buildings contain about 100 bed rooms, several Drawing Rooms and a very spacious dining room; the barroom attached did a very good business years ago, when occupied as an Hotel.

Valuable additions have since been made including a most perfect system of double fireproof safes, built on the several floors, new complete hot water heating apparatus and gas fixtures all through. All of which and other improvements have cost several thousand dollars.

We are ready to lease the above premises for a period of years on very favorable terms and conditions; and if found too large, or rent considered too high, we are willing to reduce the size of premises, leasing part to two Wholesale Grocers who have offered to occupy it as such for a term of years, thereby reducing the rent to $1,000 and over.

For further particulars apply to 266 or 268 St. Paul Street.

A. PREVOST & CO.
April 11 mws 8
