STEAMSHIP VOLTURNO BURNS IN MID-OCEAN

Another Marine Disaster Shocks World With Great Loss of Life--Fleet of Rescue Ships Stands Importantly by Blazing Vessel for Hours Hindered and Held Off by Fury of Storm.

World Shocked by News

London, Oct. 11--Not since the Titanic sank has Europe been so thrilled as by a wireless message today telling of the burning of the Steamship Volturno in mid-Atlantic with a loss, so far as is at present known, of 135 lives and the rescue of 521. The survivors are now aboard a fleet of steamers summoned by the Volturno's call for help, some of which are bound eastward and others westward.

London, October 11--The Volturno sailed from Rotterdam on October 2, for Halifax and New York. According to the official statement she carried twenty-two first cabin passengers, 538 steerage, and a crew numbering 96.

The rescue ships reached the scene of the disaster in plenty of time to save all, but for hours stood by the blazing vessel, impotent because of the storm to reach the agonized men, women and children crowding the afterpart of the ship and within a stone's throw.

All night long Thursday, the lifeboats made a desperate effort to get alongside the Volturno, but the waves beat them back again and again, and not until the storm abated at daylight Friday did the rescuers succeed in removing the survivors from the doomed ship. Even now only the fringe of one of the most thrilling tales of the sea is available. Exactly how the rescue was effected is not known. The Volturno was well equipped with boats, sufficient, the agents say, for a thousand people, but the boisterous sea or lack of boat drill, or panic among the passengers, prevented the successful employment of them.

Given Up For Lost

The rescue ships were able to lower lifeboats, but apparently most of the boats, launched from the Volturno were smashed or upset and the occupants drowned. Two of the boats crowded with passengers, are reported to have got away from the ship, but a search for them has proved fruitless, and they have practically been given up for lost. The occupants of these boats are included in the dead toll.

The steamer Carmanis, bound from New York to Liverpool, was 78 miles away when the call for help sounded, Captain Barr, ordering full steam, in spite of the gale, drove through the seas at 20 knots an hour and was first of the fleet to reach the burning vessel. She was followed by La Touraine, Minneapolis, Rappahannock, Czar, Narragansett, Devonian, Koonland, Grosser Kurfuert, and Seydlitz at various hours throughout the day. But try as they might, the rescuing vessels could get neither line nor lifeboat to the Volturno, the forward part of which was almost hidden by a dense cloud of smoke when the Carmanis arrived.

Scenes of Terror

The burning steamer lay in the trough of the sea, pounding helplessly with her propellers fouled by the boats tackle. The terrified passengers were huddled together as far as it was possible to get from the flames, while through the day the officers and crew fought desperately with whatever appliances were at hand to hold the fire in check.

But night came on and the seas abated only slightly. The circle of light and waited patiently within the danger zone for the first moment when they might again launch the lifeboats.

The hopelessness of the situation was manifested at 9 o'clock in the evening when a great explosion tore away a part of the upper works, and flames burst from the engine room. It then became a matter of how long the Volturno would stay above water. Meanwhile several of the terrified passengers, wrapped in life buoys, dropped over into the sea. One of them was taken aboard the Carmanis. It may be that others found a haven with other vessels of the fleet, but some undoubtedly were swept away.

When day broke the Volturno was still afloat. The gale had moderated and the seas had calmed down. From almost every one of the encircling steamers lifeboats were sent out and into these the women and children were lowered first. Several trips were necessary before the survivors were removed to a place of safety.

It is pointed out as a remarkable coincidence that the Volturno about four years ago made a notable rescue in a great storm in mid-Atlantic of Harrison, who then commanded the crew of a French vessel. Captain Volturno, was decorated by the French government for his daring act.

RUSSIAN SHIP FINDS NEW LAND IN ARCTIC NORTH

THERE MAY BE A NEW CONTINENT NORTH OF SIBERIA--A PLEASANT VOYAGE.

St. Michael, Alaska, October 12--The Russian flagship Taimyr and its consort, the Waygatch, which constituted a Russian Polar expedition under Commander Wilkitzky, which left Vladivostok, June 10th, of this year, reached St. Michael storm bound October 9th, and brought to that port news of the discovery north of Siberian latitude 81 north longitude 104, east of a newly uninhabited mountainous land, possibly a continent. The expedition landed with difficulty, raised the Russian flag and took possession in the name of the Czar... Commander Wilkitzky christened the new land "Nicholas Second Land."

MANY MOUNTAINS.

The expedition sailed from Vladivostok by way of Petropavlovsk and East Cape and thence eastward along the Siberian coast to latitude 96 east. Commander Wilkitzky says the shore of the new country where the expedition landed and along which the vessels traveled, is rocky with high, abrupt cliffs, formed evidently from volcanic activity.

Volcanos of the district possibly may have been active recently, he said. Many high peaks, he stated, were discernible inland from the vessel and what seemed to be vapor could be seen arising from one of these. The temperature taken in the water near the same line was 51.8 degrees Fahrenheit, while that taken on the shore was 62.6 degrees Fahrenheit. The land was covered with snow almost to the sea.

Life is Plentiful.

In July and August the expedition saw much evidence of the presence on the land of reindeer. Many walrus were seen and bird life was plentiful. A number of Polar bears were also noticed. The vegetation on the new land, Commander Wilkitzky says, was but scant. Twenty fathoms from shore a depth of water of 95 fathoms was sounded.

The expedition cruised north-westerly along the margin of the newly discovered land to latitude 81, longitude 96 east. It was forced to turn away from the land which still extended in a north-westerly direction, (Continued on Page Four)

KING AND QUEEN ALMOST MOBBED BY SUFFRAGETTES

MILITANTS MAKE DASH FOR ROYAL CARRIAGE, BUT POLICE INTERVENE.

London, Oct. 11--King George and Queen Mary, who attended a command performance at a London music hall tonight, had a narrow escape from being mobbed by suffragettes.

CROWD IS ROUGH.

The women, who had gathered in considerable numbers, made a lively dash for the royal carriage on its arrival at the theatre, shouting "women are being tortured in prison." They had almost reached the carriage when the police closed around them, and, with defiant shouts of "votes for women" were hurled back. The suffragettes were treated roughly by the crowd, but managed to escape arrest.

The Weather

Toronto, Oct. 12--Since Saturday morning showers have occurred in nearly all districts from the lake region to the Maritime Provinces and the weather has turned cooler today in Ontario and Quebec. In the West it has been fine and a little warmer. Minimum and maximum temperatures:

- Vancouver, 52-54; Kamloops, 46-64; Calgary, 34-68; Edmonton, 28-62; Battleford, 30-60; Prince Albert, 24-56; Moose Jaw, 26-70; Regina, 24-61; Winnipeg, 28-50; Port Arthur, 30-48; London, 37-59; Toronto, 39-63; Kingston, 46-60; Ottawa, 44-58; Montreal, 50-56; Quebec, 50-58; Halifax, 48-68.

Forecasts:

- Lower Lakes and Georgian Bay: Moderate westerly and north-westerly winds, fair and comparatively cool. Ottawa Valley and Upper St. Lawrence: Fair and comparatively cool. Lower St. Lawrence: Local showers but mostly fair and cool. Gulf: Moderate to fresh winds with showers. Maritime: Winds mostly westerly, showers at first, then clearing and turning a little cooler. Superior: Light to moderate winds, fine, stationary or a little higher temperature. Manitoba: Fair, stationary or higher temperature. Saskatchewan and Alberta: Mostly fair, not much change in temperature.

TWO ARE DROWNED.

Vancouver, Oct. 12--While attempting to cross Pitt River sitting astride a slab Saturday afternoon, two young men, Charles Woods and Robert Vaughan, were thrown into the water and drowned. The accident occurred 30 miles from Vancouver.

"A GREAT BATTLE," SAYS MR. SEVIGNY OF CHATEAUGUAY

DORCHESTER MEMBER CONSIDERS IT MEANS FALL OF LAURIER'S PRESTIGE.

Mr. Albert Sevigny, the popular young member of the House of Commons for the County of Dorchester, whose work during the electoral battle for the last two weeks in Chateauguy has been so largely responsible for the great victory of the Conservative candidate, arrived in the City last evening from Montreal. Met at the train by a representative of the Chronicle Mr. Sevigny was justly elated over the splendid victory, though a little fatigued after such an arduous campaign.

LAURIER'S PRESTIGE GONE

"It was the greatest electoral battle in which I ever took part," said Mr. Sevigny, "and it is surely one of the most signal victories of the Conservative party for it marks the conclusive fall of all or practically all that was left of Laurier's prestige. The name that was once considered such a mighty influence throughout the Province of Quebec failed most pitifully to bring any response. This was well proved by the fact that in the three places which were wont to give large Liberal majorities, and in which special Laurier meetings were held during the campaign, the tide turned over completely and in each case the majority was Conservative. Labor in Vain.

"In Ormstown, which was formerly a Liberal stronghold, where the Laurier party used to get about two hundred majority, Sir Wilfrid appeared in vain. The Leader of the Opposition went there especially and used all his influence, which resulted in a Conservative majority of seventy-four. The story was repeated in St. Martine. There Sir Wilfrid organized a large meeting and when the returns were announced it was shown in black and white that St. Martine would have none of Laurier and had gone over to the Borden Government with a majority of thirty-nine. Sir Wilfrid also spoke at Chateauguy, which had always gone Liberal heretofore, but this time Chateauguy reversed the calculations of the Liberals and a Conservative majority of nineteen votes was polled."

An Active Campaigner.

As stated in the opening paragraph Mr. Sevigny's work in this campaign has been something marvelous. He spoke in every parish except two, accompanying the candidates all through. He discussed all the political questions of the day and particularly the contribution question with Messrs. Fisher, Lemieux, Gauthier, Boivin, Demers, Boyer, and Delisle, all of whom are Liberal members of the House of Commons. Throughout the entire campaign the fervid eloquence of the able young orator made him extremely popular among the electors in every part of the county and he was enthusiastically cheered at all the meetings. His opponents attacked him but those attacks as well as the attacks of the Liberal press he refuted with equal ease and proved beyond all doubt that the Conservative party since their advent to power at Ottawa were doing what the people wished them to do and the proof that what he said was correct was corroborated by the electors of Chateauguy in a manner which tells the knell of Liberalism in Chateauguy as well as in other parts of the province of Quebec.

REDMOND AGAINST CHURCHILL'S IDEA

NATIONALIST CHIEF DOES NOT FAVOR EXCLUSION OF A PORTION OF ULSTER.

Limerick, Ireland, October 12--John E. Redmond, leader of the Irish Nationalists, speaking at a great Home Rule demonstration here today, declared himself unaltered against the suggestion made by Winston Spence, Churchill, First Lord of the Admiralty, in a speech at Dundee, last week, that a settlement of the Irish question might be reached by the exclusion of a portion of Ulster from the operating of the bill.

THINKS IT RESPONSIBLE.

Mr. Redmond said that the suggestion was impracticable and unworkable. Such a proposition, he declared, would have no support from the Nationalists, and even the Unionists of Ireland were against it. He had always favored giving every safeguard that Ulster desired, but Ireland must remain a nation.

TIMOTHY WOODRUFF HAS PASSED AWAY

WAS LEADER OF PROGRESSIVES, AND ONCE LIEUTENANT-GOVERNOR OF NEW YORK.

New York, October 12--Timothy L. Woodruff, former lieutenant-governor of New York State, died at 9.15 o'clock tonight. He had been in a critical condition for nearly two weeks after having been stricken with paralysis while addressing a meeting to ratify the candidacy of John Purroy Mitchell, W. A. Prendergast and George McAneny for city offices. Mr. Woodruff was 55 years old.

WOMAN FAINTS.

As a Result Sixteen Are Killed in a Panic.

Lemberg, Austria-Hungary, Oct. 11--The fainting of a woman in a crowded synagogue at Chodorov, Galicia, tonight, caused a great panic. Hundreds of women rushed to the doors and sixteen of them were crushed to death. Scores were injured.

McBRIDE SAILS WEDNESDAY

Vancouver, Oct. 12--Sir Richard McBride has cabled that he will sail from England next Wednesday on the Olympic to New York. He will go to Ottawa the following week and will probably be the only British Columbia delegate to the convention of representatives of the provinces to open Oct. 22.

WHITE SLAVE SENTENCE.

Cornwall, Ont., Oct. 12--A case, in which a young Canadian girl, Pearl Martin, of Milles Roches, five miles west of Cornwall, was induced to leave her home and go to the United States, was aired in the United States court at Syracuse, N. Y., before the grand jury yesterday. John White, a widower, of Sobry, N. Y., was the man against whom violation of the "white slave" act was charged, and he was sentenced to a year and a half in the United States Penitentiary at Atlanta, Ga.

CRUSHING DEFEAT OF LIBERALISM IN QUEBEC PROVINCE

James Morris Carries the Strongest Liberal Constituency in the Dominion for Conservative Party--Fisher, Rejected of Brome, is Cast Out at Chateauguy Also.

Majorities by Parishes:

Table with 3 columns: Name, Morris, Conservative, Fisher, Liberal. Rows include St. Jean Chrysostome, Chateauguy, St. Urbain, etc.

Ste. Martine, Que., Oct. 12--Chateauguy county, which since Confederation, 46 years ago, has been represented in parliament by a Liberal, in the bye-election on Saturday elected Mr. James Morris, Conservative, a resident of the county, by a majority of 144 votes over Hon. Sydney Fisher of Brome.

HEAVY VOTING.

The vote was probably the heaviest ever polled at a Dominion election, averaging at some of the polls upwards of 95 per cent. It is estimated that throughout the constituency over 80 per cent of the electors on the voters' list cast their ballots. At one poll in this town, of 127 on the list, all but four voted.

A review of the vote shows that English and French speaking sections alike favored the government candidate.

In the parish of Ormstown, with its five polls, Morris had a majority of 74. The village of Ormstown gave Fisher a majority of 16, and the four outside polls recorded 90 more for (Continued on Page Seven)

DUBLIN OUTLOOK IS MORE HOPEFUL

BOTH PARTIES WILL CONFERENCE WITH PEACE COMMITTEE SETTLEMENT EXPECTED.

Dublin, Oct. 11--The peace committee which was formed for the purpose of finding a way out of the labor deadlock has secured the consent of both sides to confer with the committee on Monday, and it is confidently hoped that a settlement will be reached on that day. A majority of the employers are in favor of reinstating the locked-out men and the strikers, providing they agree to handle all goods without discrimination. While this would involve the abandonment by the men of their doctrine of "tainted goods," it would equally involve the recognition of James Larkin and the Transport Workers' Union by the employers.

The Oracle came in triumphantly this morning. "Didn't I tell you I knew who would win the world's series?" he exclaimed. "Sure! I knew all along. Can't fool me on anything like that. That's why I'm so healthy. You see, knowing everything ahead of time saves me from the strain of worry and the shocks of sudden news like this. Why, look at all the people who have died of heart failure just during this series. Why, I know several right here in the city who suffered severe attacks during it. If they had known the answer beforehand like I did, they wouldn't have bet on New York. If it becomes cloudy today we may have rain." Have you ever suffered the shock of discovering that you had made a bad bargain in buying your stationary? We have a sure winner in our SPECIAL IMPERIAL NOTE PAPER which sells for 25c per lb. Why not try it and be protected from further shocks? John E. Walsh's Reg'd, 11 St. John St.

VALIQUET'S It is a well known fact that our Bread and Cakes are made only with superior quality Flour, Fresh Milk and Butter from our Ste. Foye Farm, there by ascertaining as to its value above all others. DO NOT ACCEPT SUBSTITUTES. VALIQUET, 12 Fabrique St., Telephone 1526

QUEBEC, MONDAY, OCTOBER 13, 1913.

CHATEAUGUAY ELECTION.

The result of the bye-election in Chateauguay was a staggering blow to Liberalism in this province. There was a constituency that had been always a veritable stronghold of the Liberal party, that had not returned a Conservative member to Ottawa since Confederation, a place where the normal majority since that time was an excess of three hundred votes. And it has gone Conservative, and by an overwhelming majority.

That it has done so is by no means the fault of the Laurierites. They brought in an ex-Minister and pitted him against a man without any political experience; they brought in Sir Wilfrid to regale the electors with cheap criticism and airy persiflage; they brought in Lemieux and the whole gang of Grit tub-thumpers to swarm over the county from end to end. There was no shifty political expedient or desperate device that they did not employ, though all the time they ought to have created the impression that it would only be another case of the Dutch taking Holland. And, in spite of it all, they have lost Chateauguay. Their glory is departed.

If Sir Wilfrid could not elect his ex-Minister candidate in a constituency with such an election record as that and after such a frenzied struggle and despicable appeals as his henchmen have been responsible for during the past weeks, what does it mean? Surely it means that his party is politically dead, that it has been weighed in the balance and found wanting, that people are becoming too enlightened and broad-minded for its appeals to racial and religious prejudice to have any material effect, that their fifteen-year record of inaction, corruption, nepotism and other scandals is now realized to the full and cannot bear comparison for a moment with the splendid record of honesty and progress already established by the Borden Government.

As for Mr. Fisher, perhaps some of these days in moments of leisure when he is not engaged in the engrossing task of feeding chickens with a squirt, (if he still indulges in these little practices), it may suddenly by some miracle be borne into his egotistical cerebrum that he is a political "hoodoo" and a source of weakness to his party. Possibly also the Liberal party may begin to realize that it is carrying a lot of dead wood and can never hope to achieve anything of importance until it has got rid of it. As things are, no one has any confidence in it and it will have to get in a lot of new blood before anyone will.

Presumably those mouthpieces of the Liberal party who are now in the position of having to swallow their own words will try to offset the failure of their extravagant predictions of the last few weeks by the usual squeal that there was corruption and all the rest of it. Of course the very idea of such a thing must be shocking to the pure and unsullied minds of those political virgins of the Liberal party whose sensitive nostrils were wont to revel in the aromatic odors which used to issue from the vicinity of the oleaginous Mr. Pugsley in the days when he prostituted the Public Works Department to the mere level of a vote-catching machine. Forgotten are the times of the whitewashing so "liberally" administered to Mr. Lanctot of Sorel, of Mr. Oliver's \$69,000, of the Printing Bureau scandal, where every effort was made to fasten all the odium on a dead man, of the quarrel when Oliver and Cross factions were calling each other "thugs and blackmailers," of the spoliation of the Selkirk Indians for Grit heelers, of the Chinese immigration scandals, of Richibucto saw-dust wharves and notorious dredging contracts, of stuffed ballot boxes, of overclassification robbery, of the Farmer's Bank affair, of Mr. Fielding's testimonial of \$120,000 from men whose names neither he nor any other Liberal ever dared to publish, of the historic voyage of the Minnie M., of the equipment of the "Arctic," of the marine investigation, of wholesale debauching of the constituencies and election frauds, not to mention the disgraceful way in which Sir Wilfrid himself gained his seat, of timber limit thefts and land grabs, forgotten is everything of the kind by these righteous Liberals. But the people yet remembers.

THE PANAMA CANAL.

The blowing up of the Gamboa dike marks an epoch. Standing "silent upon a peak in Darien," as he first gazed upon the Pacific, Balboa must have thought about cutting the narrow strip that divides the mightiest oceans. Certainly within a few years of the discovery of the Isthmus, the Spanish explorers considered the possibility of digging a canal, and in 1521 the King of Spain ordered a survey to be made, but the undertaking was too difficult for that country. For four hundred years it has been the dream of the centuries. The French, flushed with the success of Suez, blazed the way but de Lesseps failed miserably and it remained for Americans to make the dream a reality. Friday was therefore a historic day as the blowing up of Gamboa dike signalizes the completion of the canal.

It was not until May, 1904, that the United States Government took possession of the canal. Diplomacy had cleared the way by the substitution of the Hay-Panama treaty for the Clayton-Bulwer agreement,

and when Columbia refused the concession revolution created the Republic of Panama which for a sum of \$10,000,000 sold the United States a strip ten miles wide across the Isthmus, this being added to American territory as the canal zone.

The Isthmus had up till then been considered as a "death hole." It was a saying that the laying of the Panama railroad cost a life for every cross-tie. Graves by the thousand marked the failure of the French whose workmen succumbed almost as soon as they were imported. Yellow fever, malaria and other tropical diseases prevailed. The first task for America, then, was to make the Isthmus habitable, and this task they entrusted to Col. Gorgas. The jungle was cleared, fever-bearing mosquitos and other insects were banished, and in a few years the pest-hole was transformed into one of the healthiest regions in the tropics. With model hospitals, rigid sanitation, and hotels and cottages for the entire staff from chief to laborers, Panama was prepared for construction to begin.

The long dispute over whether a sea-level or a lock canal should be built was not settled until June, 1906, when the United States Senate adopted the latter plan. At the very start Chief Engineer Wallace met with difficulties which it was impossible for him to surmount, the canal being in charge of a cumbersome commission which failed to work smoothly. Wallace resigned and another noted engineer, Stevens, took up the task. Commissioners and Government officials disagreed as to whether the work should be done by the Government direct or by private contractors. After bids had been received, the private contract scheme was abandoned and active construction begun by the Commission and engineers. But there was delay, disputes and complications. The difficulty was settled at last by placing the entire work in charge of army engineers and putting the authority into the hands of one man. When he was selected for this great responsibility Colonel Goethals was almost unknown outside the army but he proved the one man in thousands for the place. Order and energy were quickly brought out of chaotic conditions and since he organized his force the work has never halted for a day. With skill and experience he combined executive ability of a high order, inspiring in the 40,000 men who were on the job the esprit de corps of a conquering army. They were engaged in a mighty conquest; they knew that in cutting into the hills of Culebra and digging into the Colon flats they were engaged in the mightiest engineering feat ever undertaken, that they were carving a path for the commerce of the world, writing a big page in history. Pyramids of earth were removed. Tremendous difficulties were met without dismay. Sometimes the side of Culebra slid down, millions of tons moving down. But the dirt was dug out and the work went on. Tropic floods, unruly streams, rock and water had to be controlled. The swift Chagres river had to be tamed. But it was brought into banks and the work went on.

Breaking records has been common enough. Concrete was used in quantities never before approached, the locks and dams were on a scale never before equalled, electricity and steam were harnessed to engines that had to be invented, but they were all ready when the time came to use them. Gathered from all the corners of the world, army officers, engineers, architects, bridge-builders, steel and concrete workers, dredgers, shovelmen, firemen, laborees of every type and grade—all were welded together into a wonderful human machine that moved like clockwork under the guidance of the chief. What the canal will actually cost is still to be determined. The first estimate of \$144,000,000 has been doubled long ago. The difficulty of diverting the Chagres river and digging down the mountain of Culebra were much underestimated. Slides and accidents have been costly. Enlargement of the locks to provide for the increase in the size of steamships and battleships added many millions. In November, 1909, Colonel Goethals estimated that the actual engineering and construction would cost almost \$300,000,000 and that this would be raised to \$375,000,000 by expenses for sanitation and civil government. Fortification will add more millions and a sum of \$40,000,000 was paid the French company for its rights. Add other expenses to these and one can easily predict that the total will be well over \$400,000,000, a stupendous sum and the largest ever expended on a single public work in the annals of history.

But, when the probable benefit to the States is considered, the purchase has not been made at too great a cost. A new highway for commerce is opened, the Atlantic Coast having been brought weeks nearer to the Pacific; the effectiveness of the American navy will be almost doubled when it can be transferred from one ocean to the other in so short a time. Europe will be brought closer to the Orient. A big field for trade will be opened in South America. Many ports will feel a quickening influence upon their commerce.

How will the canal affect transportation activities in this country? Probably Vancouver and other ports on the Pacific will benefit greatly from it and much of the grain traffic may be diverted westward. Be this as it may it will certainly be advisable for Canada's Eastern ports to consider the canal as a possible factor that may affect their future and to make their dispositions accordingly.

Comment of The Press

Why do people persist in calling the English tactless? Take the example of our latest distinguished visitor from John Bull's Isle, Lord Haldane, lord high chancellor. Facing a squad of newspaper interviewers in New York did he bluster? Was he blunt? Listen to him and see: "It is as important for me to meet you as for you to meet me. I have been anxious to tell you how much I like your new methods and the vigor that I find not only in your newspapers, but in your literature and most phases of American life. For years I have studied the opinions of your Chief Justice Marshall and I am convinced that the Harvard Law School is a model for the world." Could an arriving star of the stage twinkle more merrily than his lordship? The viscount knows the game, and has the humor to play it.—Boston Globe.

"Why do you insist on trying to sell me beefsteak and beans and buckwheat cakes?" demanded the barber. "I told you all I wanted was two fried eggs." "Well, I was in your shop yesterday," retorted the restaurant man. "All I wanted was a shave, but you bulldozed me into a shampoo, a foam fizz and a tonic rub."—Pittsburg Post.

GLIMPSSES OF OLD QUEBEC

From the Files of the CHRONICLE, October, 1813 and 1913.

THIRTY YEARS AGO TODAY

Looking for Recruits.

Thirty years ago, "A" Battery was in need of recruits. The local supply not being adequate, Captain Drury, of A Battery, Quebec, went to St. John, N.B., in an endeavor to secure the required number. All recruits will have to enlist for a term of three years. The pay to be 45 cents a day, besides clothing and rations, but an extra allowance of 2 cents a day will be given the first year and 3 cents the second year for good conduct.

Military Funeral.

The remains of Corporal Hunter, who was killed accidentally at the Citadel on Wednesday last, while dismounting a 32-pounder gun, the details of which were given in this column last week, were interred in Mount Hermon cemetery. The officiating clergyman was Rev. Mr. M. M. Fothergill. The funeral was a military one. The remains being drawn on a gun-carriage, and covered with a Union Jack. The body was preceded by the firing party and followed by the men of the Battery, the band playing appropriate funeral marches.

The Cartridge Commission.

In consequence of the recent enquiry concerning the cartridges turned out at the Quebec Arsenal, it may be of some interest to readers of this column to recall that a commission was appointed by the Dominion Government, thirty years ago, to examine into the quality of the cartridges made at Quebec. The commission visited and inspected minutely the cartridge factory and judged of the quality of the cartridges by firing from fixed rests and making careful observations. We believe they found everything excellent.

FISH HAVE NO EYELIDS.

Goldfish do not close their eyes because they have no eyelids. There exist in fishes no genuine eyelids, but in some (mackerel and sea mullet) there is a transparent film over the interior surface of the eyeball, and in certain sharks there is a nictitating or winking membrane that is regulated by a special muscle.

A HUNDRED YEARS AGO TODAY

American Victory on Lake Erie.

The victory gained by the American on Lake Erie has excited, as will be seen by our extracts from the Boston Gazette (which will be given in this column after today). An enthusiastic joy throughout the United States. The two great political parties in that country are vying with each other for the honor of that victory, and all opposition to the war seems for the time to be forgotten, in the gratification of national pride which it has afforded.

The contest, if it ought ever to have been so called, between Great Britain and the United States, on the water, has indeed been gratifying to the Americans, and mortifying to British subjects, beyond anything that could have been figured by the utmost stretch of imagination. Vessels of an inferior class, or badly manned, have been, as it were, thrown into the way of the enemy's vessels, fresh from port, fully prepared, and manned with picked seamen; so as to follow them, at least, a semblance of superiority, our British officers and seamen, beyond what was ever obtained by the most powerful and brave of the numerous nations with whom they have contended. How long this disgraceful state of things is to last, we cannot tell, but if it is not quickly remedied, we are sure that it will not only prove ruinous to these Provinces but dangerous to British greatness. The conquerors of Vittoria and the Pyrenees in Spain may triumph in their victories, but should England suffer the sceptre of the seas to slip out of her hands, then she must take a back seat among the nations.

REVOLT OF MONKS LIVE RUSSIAN ISSUE

PRESS ATTACKS ARCHBISHOP FOR DEPORTING ORDERS AT MOUNT ATHOS.

St. Petersburg, Oct. 12.—Archbishop Nikon is the object of attack in the Russian press for his conduct of the inquiry concerning the Mount Athos heresy, more especially as he is declared to have been the author of a pamphlet concerning the Virgin which most writers in the press profess to regard as being of a blasphemous and rationalistic character. The Holy Synod declared that the heresy is to be known in future, not as the "heresy of name worship," but as the heresy of God's name. A series of resolutions were also passed regarding the punishment of obstinate heretics and the manner in which ecclesiastics should from time to time examine and exhort those heretics who may happen to live in their parishes.

The Novoe Vremya recently supported the demand which the Russian monks of Mount Athos are putting forward that the holy mountain shall be made neutral territory under the protection of Russia. The conference of ambassadors in London will probably ultimately decide the fate of Mount Athos, and may make it an international ecclesiastical republic. At present there is a population of some 10,000 monks, of whom only 2600 live in monasteries, while the remainder inhabit their numerous "sketes," or dependencies, but the "Hagion Oros" is administered by a council of twenty, representing the twenty monasteries. Of these seventeen are Greek, though, according to the Novoe Vremya, only 35 per cent of the total population is Greek, 6 per cent is Serb and Bulgar, 9 per cent Roumanian and 50 per cent Russian.

Is Church Republic.

Mount Athos, at the outset of its career as a monastic republic, has been the scene of two events which carry us back to times far removed from our own. The Greek monks of the Iveron Monastery have made away with the whole of the valuable library of Georgian manuscripts, in the tenth century by the warrior-monk Thormice, who saved the Byzantine Empire from ruin. The Russian monks of St. Panteleimon and St. Andrew have been forcibly deported for heresy. The punishment of the chief persons concerned in the latter incident closes the first act in a religious drama which may be lengthy, and, if it fulfil the promise of its opening picturesque.

Early in February, simultaneously

with the Russian proposal for the establishment of Mount Athos of a monastic state under an international orthodox commission, there appeared an announcement that disorder had broken out in consequence of a discussion whether or not the name of Jesus is divine. By the middle of May fighting between the rival factions led to a demand for intervention, and about a month later Archbishop Anthony of Volhynia urged the Russian government to crush the "nominalist" brethren of the ex-Guardsman Bulatovitch, whom he described as "a band of soft-headed idiots led by a vainglorious hussar." The reformer hussar declared that his doctrine was not only that of many holy fathers, but had been presented to the world in a book recently issued at the Kieff office of the Most Holy Synod.

Rebukes the Archbishop.

Bulatovitch maintained that "the name of God, being part of God, is in itself divine," and rebuked the archbishop for blasphemy. An official of the synod recommended repression, described the heresy as "dangerous" and likely to "spread through all Russia." In July, after boycotting the emissary of the synod and drawing the fire of a patrol, the militant monks were overpowered and 616 of them were shipped to their native land. Their fate has now been decided. A number of them have been imprisoned at Odessa, while many of the others have elected to go into more or less voluntary exile in furthest Siberia.

The history of Russian religious thought justified Archbishop Anthony's fear that the present movement might have far-reaching results. One of the questions which led the numerous and wealthy body of Old Believers to separate from the State Church and to form a state within a state, was that of avowal more or less in the name of Jesus. The point now at issue might well rouse a stronger feeling than that which carried Avvakum to the stake and made martyrs of court ladies. There is perhaps no side of Russian life richer in romantic incidents than the heretical side, and there are few narratives more fascinating than those in which "Petchersky" (Melinkoff) deals with those unorthodox communities on the Upper Volga, to the harrying of which his official career was devoted. Heresy has always been sure of a hearing since the days, in the latter part of the seventeenth century, when "not only men but women and children in every place whatsoever, in season and out of season," spoke on the question of transubstantiation.

Paganism Breaks Out.

Veneration for the wonder-worker, John of Kronstadt, despite the absurdity of the modes of its manifestation, has in recent times given the authorities no little trouble. That infant Hercules, the Russian people, laboring to express himself, and no one can predict what word or phrase he may chance upon. Whatever it be, one need not hastily imagine it

to be meaningless; it would be significantly enough if it were merely a monosyllable of negation.

It is in the character of the church and people that the reason rests why Russia has been so fertile in religious growths. As M. Milliukoff has shown, it is impossible to accept unreservedly either the Slavophil theory that the Russian national characteristics are those of the true Christian, or Chadaeff's assertion that all the faults of his countrymen are due to the corrupt influence of Byzantium, which exported a sophisticated Christianity. The virtues of the Russian peasant inspire an increasing affection in those who live with him, but he has never been properly Christianized, and it is often his paganism which breaks out in heresy. During the last 200 years the number of churches has increased, but, if allowance is made for the growth of population, it is reduced to one-half; in 1738 there were 106 churches for every 100,000 orthodox inhabitants; in 1800, only fifty-six.

The clergy are relatively to the population one-sixth of the number they were two centuries ago. "Petchersky" shows clearly the unbroken connection between pagan Russia, with its poetical legends, like that of the submerged City of Kitazh, and the Old Believers; some of the worst excesses of other dissenters are clear signs of a still living heathenism.

"CASCARETS" FOR LIVER; BOWELS

NO HEADACHE, BILIOUSNESS, BAD TASTE OR CONSTIPATION BY MORNING.

Get a 10-cent box.

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or, merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters.

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.

STEAMER VOLTURNO BURNS IN MID-OCEAN

(Continued from Page One)
**LATEST ACCOUNTS
OF THE DISASTER**

**Survivor on Carmania Tells Graphic
But Incoherent Story.**

London, Oct. 13.—(Later Despatch)—The latest accounts of the disaster to the steamship Volturmo, burned and abandoned in mid-ocean on Friday morning, confirm that the loss of life was limited to about one hundred and thirty-six. The Carmania, first of the rescuing ships to reach the burning steamer, arrived off Queens-town this morning, but owing to the gale proceeded direct to Fishguard, where she is due to arrive at 11 a.m.

A graphic story by the solitary survivor aboard the Carmania was received by wireless, and presents a terrible picture of the horror, the panic and confusion aboard the burning liner. Walter Trintepohl, a German, who tells the story, however, is clearly suffering from the stress of illness and awful experiences, and his story is too incoherent to be accepted in every detail. Most important, if true, is his denial that two boats got away from the Volturmo.

According to other accounts Captain Inch was the last to leave his vessel, which was still burning late Friday night, and was a danger to navigation.

Forty of the one hundred and thirty-six persons lost from the steamship Volturmo in mid-Atlantic were in the two boats which succeeded in getting away from the burning vessel and which without doubt were swamped. The majority of the other victims lost their lives when four other boats were smashed against the steamer's sides in an attempt to launch them.

All this arrived before the arrival of the Carmania and the other liners summoned by wireless calls for help. The Carmania with one lone survivor of the Volturmo aboard, found it too rough to stop at Queenstown and is proceeding direct to Fishguard. From that survivor, however, comes a thrilling story of the burning of the steamer, of the terror, the struggle for the boats, the death of those who went over the sides and his own desperate fight for life.

Arthur Spurgeon, a passenger on the Carmania, in a wireless despatch supplements his own description of the race of the Carmania to the burning vessel and the rescue of the passengers of the Volturmo by the story told him by the survivor, Walter Trintepohl, a German, who swam to the Carmania and was rescued in an exhausted condition. Since being taken aboard the Carmania Trintepohl has been in the ship's hospital, threatened with pneumonia. He told his story to Mr. Spurgeon before he became seriously ill, but owing to his exhausted state and his broken English, his account of the disaster was somewhat incoherent.

Trintepohl's Story.
Trintepohl had been employed at Barcelona and took third class passage on the Volturmo, to secure a position offered to him in New York.
"All went well," said Trintepohl, "until 6 o'clock Thursday morning when the fire alarm sounded. We were aroused and told to go on deck

as fire had broken out in the hold. As we assembled, lifebelts were handed around, and much time was occupied in fastening them. We were told that the fire might soon be quenched, but the captain thought it was wise for all to have belts as a precaution.

"The fire frightened the children, who cried bitterly. There were many babies in arms.

"The fire grew worse. We saw things blazing down below. At about 10 o'clock there was a cry to lower the boats.

Crew Behaved Badly.

"The captain behaved splendidly. So did the officers, who were English. I am sorry to say that the crew, who were Germans and Belgians, behaved very badly. The people rushed about wildly, and the crew seemed to think they ought to have first place, and instead of quieting the passengers they made the panic worse.

"The First Officer took charge of the first boat, but although he wanted the women and children saved first, a majority of those who entered the boat were members of the crew.

"This boat was smashed against the ship's side. Just as it reached the water it broke in two and all were drowned.

"Meanwhile attempts were made to lower the second boat. I cannot say who was in charge of this, but I do know that after the chief steward had thrown provisions, he jumped in himself. There were more men than women and children in this boat, which did not go down for it was broken against the ship's side and all were drowned.

"These two boats were amidships. Three other boats were put out aft. The Fourth Officer was in one of them, but I cannot say which one. All was confusion. The ropes broke and the occupants were thrown into the water and drowned or killed. When the captain saw what had happened he cut the tackle of the other boats, so that they could not be launched.

"We were so glad when we saw the Carmania come, for we said:—'Now we shall be saved.'

"The firemen rushed up from below and refused to go back. The captain drew his revolver and drove them below, but soon after, as the fire was spreading, they were obliged to abandon the engines.

"As soon as the Carmania was sighted the captain made all the women and children go to one side, and the men to the other side. He had been compelled to leave the bridge and go aft because it was too hot. Women wept, shrieked, laughed and became hysterical.

"We had not thought of food, but in the afternoon we considered it better to get something, and went to the kitchens, which we found deserted, made coffee and helped ourselves to biscuit and beef. But most of the passengers refused to eat.

"We saw rafts sent from the Carmania, but nobody told us to jump in. In fact we knew not what they were there for. About six o'clock the decks aft began to get very warm, then hotter and hotter. But we did not seem to feel the heat."
When shown his boat with the sole

half burned through, Trintepohl said:

"I don't remember this, but it was awfully hot when the flames burst out. Some of the men and women tore their hair but others were quite still.

"After the explosion I thought it better to jump for I am a good swimmer, and an English passenger and one of the crew said they would accompany me. I jumped first, they followed, but I never saw them again.

Was An Hour In Sea.

"I made for the German ship, but they did not hear me. Then I came towards the Carmania and shouted 'help, help' and was seen by aid of the searchlight. I was about an hour in the sea and became half-conscious. I know not how I got out.

"During the day five sailors and one steward fell into the fire and were burned to death.

"I know nothing more. I came away because it was too hot to stay any longer, and I feared the whole ship would blow up."

When Trintepohl was told that according to the captain's wireless message six boats had been launched and two got away, he said:—"It is not so. I was there all the time and saw everything. No boat got away."

Mr. Spurgeon's Account.

Mr. Spurgeon in his own account tells of the attempts to get lifeboats alongside the Volturmo. "Nothing," he says, "was seen of the two boats launched with about twenty passengers each after they left the Volturmo's side. Four others were smashed against the ship's side and the occupants either killed or drowned.

"At 9 o'clock Thursday night the captain of the Volturmo sent a despairing message which read: 'For God's sake help us or we perish.'

"By a miracle the flames did not spread to the after deck. Eventually the seas moderated and the boats saved five hundred and twenty-nine persons. The death roll number one hundred and thirty-six."

The wireless operator aboard the Carmania sends the following message:

"Two boats were lowered from the Volturmo before the Carmania arrived, and one hundred and ten passengers were lost. Disembarkation commenced before daylight. The total number lost is one hundred and thirty-six as far as known."

A wireless from the captain of the Devonian, one of the rescuing steamers, says that he has fifty-nine survivors aboard, comprising eighteen men, twenty women and twenty-one children, all well. This is the same number as previously reported.

A wireless message from the steamer Seydlitz, forwarded from Bremen, says she has aboard forty-six survivors, instead of thirty-six, as previously reported. This would account for the ten supposed to have been aboard the Carmania, the latter steamer having been credited with eleven survivors, whereas she is bringing in only one.

Among the first class passengers on the Volturmo there were only two Americans, John Krug and Frieda Krug.

A CAPTAIN'S REPORT.

German Vessel Kept Two Boats at Work All Night.

Bremen, Oct. 11.—The full text of the report of the captain of the Grosser Kurfuerst was as follows: "We received the appeals for help from the Volturmo on Thursday at 4

RUSSIAN SHIP FINDS NEW LAND IN ARCTIC NORTH

(Continued from Page One)

by the solid ice pack. The expedition then followed the shore line in a south-easterly direction. At longitude 104 east, latitude 79, the coast turns north-easterly.

The expedition cruised along shore as far as possible. In latitude 76, degrees 40 minutes north it was forced away from the land by ice and then it travelled eastward by Becett, Jeanette and Henrietta Islands. The locations of these islands, Commander Wilkizky stated, was accurately determined. Becett Island, he said, had placed too far north by De Long, and is much smaller than had been formerly reported.

The expedition now was in the open Polar sea and continued east to longitude 105 west, then south through Behring Straits, including a call at Amadiar Bay, Siberia.

Met Severe Gale.

On October 3rd, the most severe gale experienced by the officers on board, drove the vessels east of the Lawrence Islands. The storm continued with great violence until October 7th. There was no loss of life or damage on the vessels, which are very staunchly built, equipped with the best machinery and manned by selected seamen.

The voyage in the Arctic was exceptionally pleasant. The only ice pack met during the westward journey was south of Wrangle Island and along Nicholas Second Land.

North of Cape Cholyushin between the course pursued by the exploring ships Vega, Fram and Nicholas Second Land, the Russian expedition discovered several small islands. No evidence of mineral was seen on any of the newly discovered land.

The Taimyr and Waygatch will proceed from here directly to Vladivostok in a few days, having obtained an ample supply of coal here.

o'clock in the afternoon while we were in latitude 48.50 north, longitude 35.06 west. When we arrived near the Volturmo we found her completely on fire. The fire apparently had arisen from a violent explosion in the forward part of the vessel and this explosion had killed a number of passengers and sailors.

"Eleven steamers gathered in the neighborhood of the disaster which took place during a violent storm blowing from the north-west with the sea breaking high.

"Two of the boats of the Grosser Kurfuerst were lowered and kept at work during the whole night from 9 o'clock in the evening till a quarter past three in the morning. It was almost impossible for them to approach the wreck and the rescue of those on board the Volturmo was possible only when they jumped overboard.

"A boat was lowered from the Volturmo with five men who were saved but the boat sank immediately afterward.

"The total of those rescued from the burning ship was 523 and of these, 86 passengers, two ships officers, one engineer and sixteen sailors making a total of 105 were taken on board the Grosser Kurfuerst.

"Two full boat loads from the Volturmo are still being sought for but it is improbable that they will be found.

"One hundred persons from the Volturmo are missing. The Carmania and La Touraine are searching in the vicinity of the scene of the disaster where the wreck is dangerous to navigation.

"The shipwrecked passengers and crew on board the Grosser Kurfuerst are being well cared for and have been provided with proper accommodations. We are proceeding."

**NINETEEN PERSONS
ON WAY TO HALIFAX**

New York, Oct. 12.—A message from Captain Inch, of the steamer Volturmo, the first direct communication from a person who had been on board the ill-fated Uranium Liner to reach the offices of the steamship company here, was received today. It was sent by wireless from the steamer Kronland, and picked up at Ouessant, France, and relayed to New York by cable. It said:

"Volturmo on fire, abandoned in latitude 48.29 north, longitude 34.39 west. Approximate passengers saved 485; approximate crew saved 25.

(Signed) "INCH."

If Captain Inch's figures are correct 143 persons lost their lives as a result of the disaster. Officials of the Uranium Line said today that their records showed that there were 560 passengers and a crew of 98 on board the Volturmo. Taking the number of person saved as sent by Captain Inch and those given by the company as a basis for computation it would appear that 75 passengers and 68 of the ship's crew—a total of 143—met death.

That the steamer Rappahannock, which is speeding toward Halifax from the scene of the disaster, has on board nineteen persons saved from the wreck was confirmed in a wireless despatch received here tonight from the captain of that vessel by way of Cape Race. The despatch said:

"Passengers we saved, fifteen women and four children, all scantily clad, follow:

"Privia Bix, Perry Bix, Edna Friedmann, Mrs. Geduck Parashie and son Nicolai, Maria Idenberg, Esther Kapplan, Seice Kapske, Esther Kapske, Alexandria Montkonski, Visy Laudin, Esther Lentepsko, Mrs. Pia Pollack, Bella Reckensky, Mrs. Maria Nikitzsueh and her children, Pedro, Dimitri and Catherine, Leokadda Wojcik.

City of Quebec, District of Quebec, To wit:

No. 24 A.

**CITY OF QUEBEC
CITY HALL.**

BY-LAW NO. 24 A

TO AMEND BY-LAWS CONCERNING THE CONSTRUCTION OF BUILDINGS.

(Drawn up in the French language.)

At a meeting of the Municipal Council of the City of Quebec, held on the tenth day of October, 1913, the following by-law was read for the first time.

It is ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts as follows:

1st. In the following wards of the City, to wit: St. Peter's, St. Louis and Palace, it is forbidden to erect any building whatsoever, even sheds, other than in stone or brick or concrete (beton) or wooden wall recovered with brick of at least four inches in thickness, or with a wainscoting in asbestos cement, or with a rough cast in cement laid upon laths.

2nd. In the following wards of this City: St. John, Montcalm, St. Roch and Jacques Cartier, not only the houses, but also all the other buildings, shops, store houses, must be constructed of stone or brick or concrete (beton), or of wood covered with a wainscoting of brick of at least four inches in thickness, or with materials of cement asbestos, or with a rough cast of cement laid upon laths, with the exception of such sheds as are used exclusively to put in fuel or coal.

3. But even as regards such wooden sheds, their front walls bordering on a street, or public square, must also be of stone or brick or of wood recovered with brick of at least four inches in thickness, or of materials of cement asbestos, or of rough cast of cement laid upon laths. The other side may be covered with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise.

4. But if such shed does not border on a street or public square, the four sides may be covered with sheet iron laid upon a leaf of asbestos of at least fourteen pounds to the toise or square.

5. In the following wards of this City, to wit: St. Sauveur, St. Valier, St. Malo, Limoilou and Champlain, the front walls of the houses, shops, store houses, bordering on a street, or public square, must be constructed of stone or brick or of concrete (beton), or of wood shielded with brick of at least four inches in thickness, or with materials of cement asbestos, or of rough cast cement laid upon laths.

6. The walls of wooden houses not bordering on a street of public square must be shielded with brick of at least four inches in thickness or of materials of cement asbestos, or with a rough cast of cement laid upon laths, or with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise.

7. In all the wards of this City, if a proprietor raises his wooden building by adding one or more stories, and that by this fact, the gable ends or side walls exceed the roofs of the neighboring buildings, such gable ends or side walls may be covered with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise.

8. In all the wards of this City, if the owner of a house already built wishes to shield the gable ends or sides thereof facing a yard or a vacant lot, he may cover them with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise.

9. In all the wards of this City, the porches and enclosed stairways situated on the outside of buildings must be shielded on their sides and on the top and bottom thereof with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise or square, or with other incombustible material above enumerated.

10. The wooden sheds or out-houses used as store houses upon the wharves must be shielded with sheet iron laid upon asbestos building felt of at least fourteen pounds to the toise or square. And if there is no wooden board shielding such asbestos must exceed by an inch on all sides the studs, rails or rafters.

11. Such sheds or out-houses built on wharves must not be occupied as offices or rooms used as lodgings, unless such sheds be put in the same conditions as those required for the building of houses.

12. In the following wards: St. John, St. Roch, Montcalm, Jacques Cartier, St. Sauveur, St. Valier, St. Malo, Limoilou, Champlain, private stables and their dependencies occupied for domestic purposes shall be considered as sheds (hangars).

13. In all the wards of this City, it is forbidden to construct wooden buildings of more than thirty-five feet in height from the average level of the sidewalk to the highest point of the roof, nor having more than three stories above the basement in masonry.

14. In all the wards of the City, a wooden building constructed in conformity with the present by-law must be coated with brick, stone, materials of asbestos cement, or sheet iron immediately after it has been erected.

In case the proprietor or builder should neglect to conform to the present by-law within thirty days after being notified by the City Inspector of buildings to build such coating, the said building shall be considered as

having been constructed contrary to law and to the by-laws of this Council.

15. In all the wards of the City, no wooden building already built and not shielded with incombustible materials will be allowed to be transferred from one lot of land to another, or from one portion of the said lot to another portion of the same lot, unless it be shielded in incombustible materials, as required by the present by-law immediately after such displacement.

16. In all the wards of the City, it is forbidden to use saw dust or shavings of wood between the floors or in roofs except as regards ice houses and refrigerators.

17. The outside cornices of buildings must be in incombustible materials, and in all cases the stone or brick walls behind the cornices must be extended up to the inferior side of the planking of the roof (or cut-fire wall, if need be), and such cornices shall be solidly fixed to the wall independently of all wood work.

18. Whenever there shall be within the limits of this City any old walls, chimneys, or buildings in ruins, either through age, or after fire which may menace public security, it shall be the duty of the City Inspector of Buildings to inspect the same and examine them, in company with a competent person and to draft a report stating the facts, and to deliver a copy of this report with a notice summoning the proprietor of the said building to demolish, throw down immediately the said walls, chimneys or buildings or any portion thereof which may be a menace to the public security, and the said proprietor shall then be bound and compelled to demolish or take them down immediately at his own cost or expense.

19. Every proprietor or builder must remove the materials from buildings in construction or in process of demolition through a duct made of wood or metal, running from the upper story down to a distance of two feet from the ground.

20. When a wall of a building must be erected alongside another wall already existing, whether the latter be a wall belonging to an adjoining building or that it belongs to a wall of a building the property of the person who erects the new wall, such new wall must be built of stone or brick or of wood shielded with brick of at least four inches in thickness.

21. In all the wards of the City, if a proprietor builds of wood or of brick two or more houses, he shall be bound to erect the dividing or cut-fire walls (coupe-feu) in brick or concrete, of at least eight inches in thickness between each of the said houses, and moreover the said dividing or cut-fire wall must be laid on a stone or concrete foundation.

22. The roofs of buildings in this City may be covered with five layers of tarred paper of ten ounces with one layer of gravel over. The said gravel must be dipped in warm pitch instead of metal.

23. Whoever proposes to build in this City any building whatsoever, or to execute upon a building repairs, the cost of which is valued at more than one hundred dollars, must, before beginning such works of construction or of repairs, obtain from the City building Inspector a written permit to execute the same.

24. The following sums shall have to be paid for the water from the waterworks used in the preparation of mortar or concrete, to be used in the construction of buildings as follows, to wit:

A. For each thousand of bricks employed for the said building, ten cents (10 cts.).
B. For each cubic yard of masonry of stone, concrete or terra cotta, three cents (03).
C. For each one hundred yards in superficies of rough cast or deafening floor, fifty cents.

25. When a building is in course of construction in line with a street, the sidewalk must be kept all the time free of obstruction.

26. Every sidewalk, whether temporary or not, fronting a building in course of construction, must be provided at a height of eight feet above the said sidewalk with a planking sufficiently strong and waterproof to protect the passers by against the fall of objects which might drop over them.

27. The provisions of By-law No. 24, passed by this Council on the 9th of August, 1912, which are incompatible with the provisions of the present by-law, are by the present by-law repealed.

28. Whoever infringes any of the provisions of the present by-law is liable to a fine not exceeding forty dollars, and in default of the said fine and costs thereof, liable to be imprisoned for a space of time not exceeding two months.

29. Each separate day during which an infringement of any of the above provisions shall be committed or continued during the day, shall constitute a distinct and separate offence punishable in the manner above prescribed.

PUBLIC NOTICE.

It is hereby given that, pursuant to law, the above By-law will be read a second time, for adoption, on Friday, the seventeenth day of October instant, 1913.

By order,
H. J. J. B. CHOUINARD,
City Clerk.

— No. 451. —
City of Quebec, District of Quebec, To wit:

**CITY OF QUEBEC
CITY HALL.**

BY-LAW No. 451.

Annexation of the Municipality of Little River (La Petite Riviere), to the City of Quebec.

(Drawn up in the French Language.)
At a meeting of the Municipal Council of the City of Quebec, held

on the 10th day of October, one thousand nine hundred and thirteen (1913) the following by-law was read for the first time.

It is ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts as follows:

1. After the approval of the present by-law by the municipal electors of the municipality of Little River (La Petite Riviere), in the manner prescribed by law, the territory now comprised within the limits of the said municipality of Little River (La Petite Riviere), shall be annexed to the city of Quebec and shall form part thereof as the ward known as "St. Charles ward."

2. St. Charles ward shall be represented in the Municipal Council of the City of Quebec by two Aldermen; who shall be elected in the manner provided by law, by the municipal electors of the territory so annexed possessing the qualifications prescribed by the charter of this city for voting at the election of one alderman for Seat No. 1, and one alderman for Seat No. 2, and the list of such electors shall be previously made out by the secretary-treasurer of the annexed municipality, who shall forward such list to the City Clerk.

3. As soon as the said Aldermen shall have been elected according to law and will be in default to sit in the Council of this City, the secretary-treasurer of the said Municipality of Little River (La Petite Riviere), shall deliver to the Treasurer of the City all minute books, registers, assessment or valuation rolls, archives, papers and documents whatsoever belonging to the Corporation of the said municipality of Little River (La Petite Riviere), as well as all sums of money that may be in his possession in his capacity of secretary-treasurer, and from and after the date of such delivery, all sums of money due or to become due to the former Corporation of the municipality of Little River (La Petite Riviere), shall be payable only to the Treasurer of the said City.

4. From and after the election of the said Aldermen, the City of Quebec shall alone be liable for the debts contracted by the Corporation of the municipality of Little River (La Petite Riviere), and all moveable and immoveable property belonging to the said Corporation shall become and be the property of the City of Quebec.

5. Immediately after the said annexation, the City shall take the necessary steps to cause to be removed and to disappear the toll gates which are erected on the roads of the said municipality thus annexed.

6. The public roadways running from east to west in the said municipality shall be widened in such a manner as to be of a width of sixty feet (60').

7. Such widening shall be executed within two (2) years from the date of the annexation when and where the City Council shall adjudge it to be necessary, and it shall be executed in conformity with the alignment which shall have been fixed and determined previously by the City Engineer.

8. The land required for such widening and to straighten where necessary the said roads running from east to west, shall be ceded gratuitously to the City by the proprietors of the said lands bordering on the roads, and the Corporation of the said Municipality shall before annexation obtain the consent to that purpose of the proprietors interested.

9. The City of Quebec shall introduce the water works into the said roads as needs arises and when it will become necessary.

10. The said roads shall be lighted by means of electric light, in the course of the year following the annexation—and the electric tramway shall be extended upon the said roads within the two (2) years from the date of the annexation.

11. The fire brigade and fire department shall be increased so as to extend to the new ward the protection against fire.

12. During the five (5) years extending from the first of May, 1914, to the 30th of April, 1919, the buildings now existing in the municipality of Little River (La Petite Riviere), and those that will be built in the said new ward to the 30th of April, 1917, shall not be taxed at a higher rate than the rate now in force at Little River (La Petite Riviere), as regards assessments on immoveables, and their value as presently entered in the valuation roll shall remain the same for the said purposes.

13. During the ten (10) years extending from the first of May, 1914, to the 30th of April, 1924, the lands employed as farming lands, including the buildings thereon presently erected, shall continue to be assessed at the rate and upon the value at which they are presently taxed, but only as long as they shall remain thus employed for farming purposes.

14. From the 30th of April, 1917, all lands upon which new buildings or new constructions shall be erected in the said ward, shall be subjected to be assessed in the same manner as in the other wards of the city.

15. The residents of the north side of the river who hold contracts with private companies for the supply of water shall be exempt from the water tax until the 30th of April, 1919.

16. The proprietors or occupants of lands used for farming purposes shall not pay, during the period of ten (10) years following the annexation, any taxes or licenses whatsoever on animals and moveable effects used for the working of the said farming lands, except a tax of fifty cents (50c) per horse, ox or cow watered with water from the City aqueduct.

PUBLIC NOTICE.

It is hereby given them, in conformity to law, the above by-law will be read a second time, for adoption, on Friday, the seventeenth day of October instant, 1913.

By order,
H. J. J. B. CHOUINARD,
City Clerk.

**If Tea and Coffee
Don't Agree
Use
POSTUM**

A prominent physician says:

"If, on discontinuing coffee, you feel tired, languid, and 'out of sorts,' the coffee had better be forever discontinued, for you are on the verge of inebriety."

Thousands of people have taken warning and proved what was the cause of their headaches, biliousness and nervousness. (Tea contains caffeine, the same drug found in coffee.)

A great many former tea or coffee drinkers, feeling the need of a hot drink with meals, now use

POSTUM

A rich, nourishing food-drink, with a delightful, snappy flavour. Postum is made from prime whole wheat, and a small percent of New Orleans molasses. Contains no caffeine or any other drug.

Postum comes in two forms.

Regular Postum requires fifteen to twenty minutes boiling to bring out the rich flavour and food

ALLEN & LAUGHLIN, Limited

DIVIDEND NOTICE.

Notice is hereby given that a Dividend at the rate of 8 per cent. per annum has been declared on the Preferred Stock of the Company for the period from the commencement of business, July 1st, 1913, to September 30th, 1913, to shareholders of record on the books of the Company as at September 30th, 1913.

By order, P. D. GOWEN, Secretary-Treasurer.

LA CAISSE D'ECONOMIE NOTRE-DAME DE QUEBEC UNDOUBTED SECURITY TO DEPOSITORS on account of its EXCEPTIONAL CHARTER Head Office: St. John Street, Upper Town. Branches Open Evenings, Mondays and Saturdays.

DIED. SANGSTER.—On the 12th instant, at his residence, Lake Beauport, Mr. John Sangster, aged 74 years and 4 months. Funeral will leave his late residence at 1:30 o'clock Tuesday afternoon.

EUREKA MEANS DISCOVERED.

In Eureka Cigars we have discovered a Cigar that suits all tastes and pockets. We have this line of Cigars in three sizes, which sells for 3 for 25c; 10c straight, and 2 for 25c. Try them. Sold only at WALLING'S STORES 46 Mountain Hill, and 182 St. John Street, QUEBEC.

IN AND ABOUT TOWN

CONSTRUCTION OF UNION STATION CONTRACT SIGNED FOR GRAVING DOCK

MR. W. H. WIGGS HAS SOME DOUBT AS TO WHAT IS GOING TO BE DONE.

Quebec, Oct. 11, 1913. Editor of the Chronicle. Dear Sir: Being in Montreal yesterday, I noticed an article in the Montreal Gazette in which it is intimated that the C. P. R. will build a union station at the Palais, Quebec, and lease a part of it to the Transcontinental Railway. No mention is made of the Canadian Northern, Quebec Railway, Light, Heat and Power Company, or any other lines that may want to use this as a union station. This, Mr. Editor, I consider will be most detrimental to the interests of Quebec as the station would then be under the control of the C. P. R. There is also a rumor that, as soon as the bridge is built, the Delaware and Hudson or perhaps some other American line will want to come into this city and they ought to have the privilege of entering this union station together with any other railways entering this city. If the attention of our worthy mayor and of the Board of Trade is brought Quebec are looked after. I also trust they will see that the interests of Quebec are looked after. I also trust that you will use your influence to rectify what will certainly be a most one-sided proposition and will hurt and hinder the railway traffic into this city. Yours very truly, W. H. WIGGS.

PREMIER BORDEN WILL TURN THE FIRST SOD ON THURSDAY WEEK.

Mr. M. P. Davies, of the well-known contracting firm of Messrs. M. P. & J. T. Davis, engaged in the construction of important public works in and around Quebec, including the building of the structural work in connection with the Quebec bridge, Transcontinental Railway and Quebec railway terminals, arrived from Ottawa on Saturday last and informed a Chronicle representative that he had signed the contract for the construction of the new Levis dry dock on Wednesday last, his brother, Mr. J. T. Davis, having previously signed. Messrs. Davis are now awaiting the engineer of the Public Works Department to lay out the work on the site chosen to begin operations. It is said that the Rt. Hon. R. L. Borden, Prime Minister of Canada, will turn the first sod on Thursday, the 23rd instant, when the work will be commenced and rushed.

CONTINUATION OF BUSINESS

We, the undersigned, beg to notify our friends and the public in general that we have been appointed agents for the following Insurance Companies, heretofore represented by the late Mr. Frank Holloway: Messrs. Dale & Co., Limited, Marine and Fire Underwriters. The Caledonian Insurance Co. of Scotland. The Employers' Liability Assurance Corporation of England. The Employers' Liability Assurance Corporation of England (Fire Branch). The London & Lancashire Life & General Assurance Association of England. Lloyds Plate Glass Insurance Co. of New York. We have been connected with the office of the late Mr. F. Holloway for the past eighteen years and can therefore assure our patrons of the same care and attention which have been given them in the past. G. S. Oliver, Fred S. Coolican, OLIVER & COOLICAN, General Insurance Agents, Union Bank Building, Quebec.

TWO STEAMERS PER WEEK.

Commencing this week and continuing until the close of navigation, the R. and O. steamers will make but two trips per week to the Saguenay—going on Tuesday and Saturday mornings. For further information, see advertisement.

WOMEN'S BRANCH S. P. C. A.

A general meeting of the Women's Branch S. P. C. A. will be held on Tuesday morning at 11 o'clock in Morrin College Hall. A full attendance of all members is particularly desired, as important business will be discussed. The formation of a Junior Branch will also be considered.

QUEBEC CURLING CLUB.

The annual general meeting of the Quebec Curling Club will be held at 113 Ste. Anne St. on Tuesday, Oct. 14th, 1913, at 8 p. m. Business: Presentation of reports, election of officers and general business. The Committee will meet on Monday, October 13, at 4:30 p. m., at the Secretary's office. See advertisement.

CAFE CHANTANT

OCTOBER 16TH. The Little Dutch Maids, at the Fair, now in progress in St. Patrick's Hall, are busy preparing a big event for Thursday evening, October 16th, and the entertainment promises quite a fine and original style of amusement. The Dutch Maids are issuing special invitations to their friends, and are working very hard to make the affair especially enjoyable and pleasant for the guests who will honor them with their company. All their friends, who receive invitations, can be well prepared to have a most delightful time with the "Little Dutch Maids and their entertainment."

PHARMACEUTICAL ASS'N OF PROVINCE OF QUEBEC

The preliminary board of examiners held their quarterly examinations on the 2nd of October last, when 28 candidates presented themselves. The following names by order of merit, passed successfully, namely: Messrs. J. E. Brochu, R. Marchand, H. E. Borden, E. Cliche, Miss A. Jarest, H. Saunders, B. Fontaine. The following names have passed on all subjects but one: Messrs. T. Dowd, A. L'Ecuyer, Jule Legare, L. Barrette, L. O. Regnier, V. Courtois. Examiners: Professors J. C. Cassegrain of the Jacques-Cartier Normal School, and Isaac Gammell of the Montreal High School, with Mr. A. J. Laurence as general supervisor, and Victor Giroux, supervisor for Quebec.

NEW MUSIC FOR AUTO PIANOS AND AUTOMATIC PIANOS OF ALL KINDS.

For the accommodation of our numerous customers of St. Roch's, St. Sauveur, etc., we have decided to open a department for auto piano and automatic piano music of all kinds at our branch at No. 54 St. Joseph street, St. Roch's. The public will be able to secure the music they desire, seeing that we shall keep a considerable selection in stock at our St. Roch's as well as at our Uptown Store. LAVIGUEUR & HUTCHISON, 54 St. Joseph street.

SICILY DISTURBED BY EARTHQUAKE

Messina, Sicily, Oct. 12.—An earth shock, accompanied by distant rumblings, was felt here today. The disturbance lasted about ten seconds. It caused considerable alarm but no serious damage. The frequency of the shocks keeps the inhabitants in a constant state of anxiety. According to the records of the observatory the shock today was local.

WISCONSIN BANKERS PAY HURRIED VISIT

WERE MUCH IMPRESSED BY THEIR TRIP TO ST. ANNE DE BEAUPRE.

Sixty prominent bankers from the State of Wisconsin, accompanied by their wives and daughters, arrived in the city yesterday on a flying visit, and during their stay were entertained by members of the Quebec Clearing House. Messrs. A. E. Nash, manager Bank of Montreal; Percy Love, manager Imperial Bank; and Fred W. Russell, of Molsons Bank, and others. The visiting party numbered over 100, came over the Grand Trunk Railway, and on their arrival were escorted to the Chateau Frontenac, where they had breakfast, and afterwards proceeded to St. Anne de Beaupre, and on their return to the city stopped over at the Falls of Montmorency. In the afternoon they made a tour of the city on the Q. L. H. and Power Company observation car, and took their departure by special train from Levis at 4 p. m. The visitors expressed their appreciation of the visit to Quebec, and were specially delighted with their experience at St. Anne de Beaupre, and before leaving to return west expressed their gratitude to the local bankers for their courteous reception and attention during their short stay.

BAZAAR IN AID OF ST. BRIDGET'S HOME

WILL BE OPEN EVERY AFTERNOON AND EVENING DURING THE WEEK.

The bazaar now being held in St. Patrick's Hall, in aid of St. Bridget's Home, is one of the principal centres of attraction. The Hall was well attended by citizens last week, and this will continue for another week, when the ladies conducting the sale will be pleased to meet their friends and the friends of charity. St. Bridget's Home is one of the most deserving charities in the district of Quebec, which has to depend upon the generosity of citizens for its support. It is not only the home for the orphan, but an asylum for the poor and friendless old, and today takes care of no less than 400 inmates, and many within its walls have seen prosperous days, forced by circumstances in many cases most distressing, to end their days within the confines of its hospitable shelter. The Reverend Rector and Fathers of St. Patrick's Church are the custodians of this worthy charitable institution and in the past have had no reason to complain of the generosity of the public, and hope to have the spirit of charity continue.

MEMORIAL SERVICE FOR LATE REV. THOMPSON

A memorial service for the late lamented Rev. Isaac M. Thompson, a former much beloved rector of the church, was held in Trinity Church last evening and was numerously attended. The service was conducted by the Rector, Rev. A. R. Beverley, and was most impressive. Hymns appropriate to the occasion were sung by the choir and congregation, while Mr. Wm. Campbell rendered a solo in his well-known artistic manner. The rector taking for his text the story of the Good Samaritan, delivered an eloquent and feeling sermon, comparing in many ways the similitude of character of the lamented deceased with that of the Good Samaritan. During the delivery of the discourse there were many wet eyes in the church. In the former report concerning Rev. Mr. Thompson, it was omitted to state that he leaves a widow as well as a family.

PROGRAM FOR RECITAL CHALMER'S CHURCH,

Tuesday Evening, at 8 O'Clock.

Concert Piece in E flat—Parker... (1863) Andante Cantabile op. II—Tschaiakowsky... (1840-1893) Overture to "Euryanthe"—Weber... (1786-1826) (a) O God, Have Mercy—Mendelssohn... (1809-1847) (b) Requiem... Sidney Home, Mr. Stapells. Twilight... Friml-Faulkes Gavotte from "Mignon"—Thomas... (1811-1896) Andantino in D flat—Lamre... (1865-) A Song of Penitence—Beethoven... (1770-1827) Mrs. Foster. Theme, Variations and Finale on "Jerusalem the Golden"—Sparks... (1825-1897) Marche Triomphale in D major—Lemmens... (1823-1881) The above program as used at this Recital, will be an analysed one. A collection will be taken up.

MLLE. C. COULOMBE HAS RETURNED FROM EUROPE.

Miss Clotilde Coulombe, daughter of Mr. Edouard Coulombe, of the Quebec Fruit Exchange, happy winner of the grand prize of the Academy of Music of Quebec and Government grant, has returned to Quebec after an absence of two years in Europe. It is well known that the Canadian Government offered a special prize, consisting in a two years' sojourn in Europe, cost of voyage and expenses paid, to the pupil of the Academy of Music who won the greatest number of points in the 1911 contest. Miss Coulombe gave on this occasion a striking proof of her talents and came victorious from the contest. During her trip to Paris, Miss Coulombe was under the protection of Mr. Gabriel Faure, director of the National Conservatory of Music. Miss Coulombe studied the piano under the best masters, and among others, Professor A. Cassella, harmony under Mr. F. Foudrain, one of the most distinguished composers of the young school, and singing under Mr. L. Berton, professor at the Conservatory. To continue her studies efficaciously, Miss Coulombe has purchased from C. Robitaille a superb Knabe piano, and is not sparing in her eulogies of this splendid instrument. The firm of C. Robitaille had again the honor of being favored by great artists at the last Mercier concert, when they supplied a splendid Mason and Risch piano for this occasion. This is a good recommendation for the firm of C. Robitaille, which has in stock the best instruments known.

PFEIFFER'S LADIES' FALL COSTUMES beautifully cleaned and pressed. SATIN or CANVAS SLIPPERS cleaned or dyed to match Coats or Ball Dresses. Kid Gloves nicely cleaned. All perspiration stains removed. Kid Gloves retinted or dyed black. White Furs cleaned. Ostrich Feathers cleaned, curled and dyed in fancy shades. Gentlemen's Suits, Overcoats, cleaned or dyed and well pressed. Mourning orders promptly attended to. Order of \$5.00, express paid one way. PFEIFFER'S MODERN DYE WORKS AND LAUNDRY Phones 523-524. 2 1/2, 4, 6 McMahon St. oct3xmon,wed,frix

The St. Anselme Manufacturing Company, of Dorchester County Preparation of Construction Wood Clapboard, Mouldings of all kinds. A model kiln of a capacity of 40,000 feet constructed by the company. Special branch held by Mr. Ls. Lagueux, King street, Quebec. For information, apply at the office of the Company, at St. Anselme, or on Tuesdays and Saturdays, at No. 147 Dorchester street, Quebec, to the manager, MR. THEO. GOULET. Oct.13,18x2

NOTICE We beg to notify our friends and the public that we have resumed our Exchange Business and hope for a continuance of the patronage which our firm has enjoyed for the last sixty years. Philadelphia Athletics Win Baseball Pennant

MACK'S MEN CLINCH SERIES, WINNING FOUR OUT OF FIVE

Score was 3 to 1—Plank and Mathewson did the Pitching—Both did Well But Giants Failed in Batting Department—Game Was Soon Won

New York, Oct. 11.—The Philadelphia Athletics won the baseball championship of the universe for 1913 at the Polo grounds this afternoon by defeating the New York Giants 3 to 1 in the fifth and deciding game of the world's series.

MACKMEN BEGAN EARLY.

With the score of games standing 3 to 1 in their favor the American League representatives went in to clinch the series and before the masterly playing of the Mackmen the National Leaguers had absolutely no chance. Connie Mack, anxious to finish the struggle on the final day of the week, sent Eddie Plank, his veteran southpaw, to the mound, and John McGraw, his back to the wall, called upon Christy Mathewson to check the victorious rush of the Athletics and thus gain for his team a breathing spell.

Both old masters of curve and break responded nobly to the call of their manager and club, but the Giants, unable to help Mathewson by even mediocre batting, fell victims to the vicious hitting, fast fielding combination which has again raised the standard of the American League over that of the National organization. The victory was a personal triumph for Plank but the downfall of the Giants carried no odium for Mathewson, who besides pitching an excellent game with but two days of rest since his victory of Wednesday, made one of the two hits scored against his rival in the box.

Mathewson did not respond as promptly to the demands made upon him as did Plank and, lacking that wonderful offensive and defensive support which the Athletics accorded to their twirler, faltered just enough in the opening innings of the game to give the Mackmen a lead that the Giants were powerless to overcome.

As was the case in all the games of the series but yesterday's, the top half of the Philadelphia club batting order hit heavily when hits meant runs. Mathewson faced a determined club swinging aggregation from the first moment he stepped into the box, and before he could get his muscles and curves working smoothly the game had been won.

How Runs Were Made.

Eddie Murphy, the first batter to stand at the plate, drove Mathewson's initial pitch through short for a single. Oldring attempted to sacrifice but forced Murphy at second. Collins came through with a single to right, putting Oldring on third. Burns caught Baker's line fly but the throw to the plate was too high for even the towering McLean and Oldring slid across with the first run, while McLean was still in the air.

Not satisfied with this, the Athletics gathered in two more runs in the third. Murphy again opened the inning with a single through short. Oldring followed with a smash at Doyle, who fumbled and the batter was safe, while Murphy scampered to second. Collins sacrificed the runners along a base each. Baker dribbled a Cincinnati base hit at Merkle, who tried for the batter and then for Murphy at the plate, missing both as a consequence. McInnis then scored Oldring from third with a sacrifice fly to Burns and the Athletics' run making was at an end.

Giants Score in Fifth.

The Giants' lone run came in the fifth soon and was due to a peculiar break in the game that the home fans thought had marked the fall of the Athletics' wonderful defence. After Burns had tied to McInnis the veteran Plank temporarily lost control of the ball, walking Shafer. On a hit and run play Murray raised a high fly to the center of the diamond. Plank moved but a few steps to set himself for the catch, and as Shafer had already reached second a double play appeared assured. Baker upset the whole infield by rushing over from third and trying to take the ball from Plank. He jostled the pitcher just enough to make him drop the ball and both runners were safe, while Plank was charged with an error because the ball touched his outstretched hands.

Some 36,000 fans were now rooting in real earnest and as is almost invariably the case after such a mixup in both a base hit followed. Larry McLean was the Giant to deliver the smash to left center field, and Shafer made the trip from second to home in record time. With two on and but one out the fans felt sure that the Giants' luck was focusing and they raised a roar of vocal encouragement that could be heard for blocks.

If the Athletic infielders heard it they did not permit the bedlam to interfere with baseball. Merkle drove a humming grounder at Collins, who snapped it up and tossed it to Barry, forcing McLean at

second. Without a moment's hesitation Barry flashed the ball to McInnis and Merkle was out by a step. It was one of the costly infield's double-plays that cut down opponents at critical periods of a game and it spelled the finish of the Giants as world's series contenders then and there.

Rest Was Easy.

From that point on Plank and the players back of him were never in trouble. The two run lead grew more formidable as the game progressed and many of the fans began to leave the park at the end of the seventh inning, realizing that the end was in sight. But for Baker's over-eagerness, Plank would have been credited with pitching a one-hit, no run game, but when the last Giant was out Plank, elated with his success, did not bother to quibble about such little details. It was enough for him that he had won.

Plank May Retire.

Plank could well afford to be magnanimous, for he proved to be the pitching hero of the championship series and may decide before another baseball season rolls around to retire on his honors. During the five games just completed Plank has pitched two games, losing the second of the series to Mathewson by a 3 to 0 score, although his club threw away an excellent change for victory in the ninth inning of that game by poor base line coaching. When the two veteran twirlers faced each other for the second time today the pitching stood: Plank, 7 hits for 3 runs; Mathewson, 8 hits and no runs. Tonight the figures read: Plank, 9 hits for 4 runs; Mathewson, 14 hits for 3 runs.

Peculiar Coincidence.

It is a peculiar coincidence that when this pair of twirlers were just slipping past the salad days of their big league career they were called upon to face each other in just such a series of games and the result was just as close. When the Athletics and Giants faced each other in the initial game of the world's championship of 1905 the batteries were Mathewson and Bresnahan for New York and Plank and Schreckengost for Philadelphia. Mathewson's record shows that he allowed 4 hits and no runs, while Plank gave 10 hits for 3 runs. In the fourth game Plank faced McGinnity and gave the "Ironman" a hard battle, losing 1-3, with 4 hits against McGinnity's 5. It is a wonderful testimonial to the ability of Plank and Mathewson that eight years later, when almost all of their teammates of those days are gone and forgotten, they should still be the heroes of the highest type of baseball battle.

The real merit of their box work in the closing game of the series today is shown by the fact that the Giants got but two hits off Plank, while the Athletics collected six from Matty, five of which came in the first three innings. In only two innings did the Giants land safely on first base, and even the rank and file of the champions of all champions had difficulty in hitting Mathewson with any consistency. Aside from Schang three of the four men in the upper section of the Athletics' batting order were the only ones to successfully solve the delivery of "Big Six." Eddie Murphy made two hits in his first two times at bat; Collins made one and Baker two.

Both the veterans were steady, having both control and speed, and but one batter from each team received a pass to first at their expense. The play was confined chiefly to the infield, each first baseman getting 14 putouts. The Athletics' outfielders made eight putouts and the Giants six.

Triumph for Mack.

It was also a day of triumph for Manager Connie Mack and the American League. The Athletics' victory over the Giants in the 1913 world's series marked Mack's third elevation to the title of manager of a universal championship team and the fourth consecutive victory of an American League team over the standard bearers of the National League. Including the present series the junior league has won six out of the ten championship contests with this young organization, which began in 1903. The Athletics' victory was also pleasing to Connie Mack and his players, since it gave them the rubber win over McGraw and the Giants in the third meeting of the two teams. In 1905 the Giants won four games to one. In 1911 the Athletics took four out of six and repeated with four out of five this season. This series may mark the passing of Plank for he has desired to drop out of the game for several years and has only continued at the personal solicitation of Manager Mack. Plank was

born at Gettysburg in 1875 and entered Gettysburg College in 1900. Even in those days he felt the pitching prowess of Christy Mathewson, for during the time he was the leading twirler of his Varsity team Gettysburg met the Bucknell College nine on the diamond. The tall, lanky young man in the box for the visitors was Mathewson, and after a remarkable pitching duel from a college standpoint, Plank and his teammates were defeated 3 to 0.

Plank has never shown any desire to wander "far from his own fireside" and today owns two large farms near Gettysburg, Pa., his birthplace, and spends all his spare time there. He has wearied of the diamond strife and is anxious to settle down. If Mack can persuade him to return to Shibe Park and don a playing uniform next spring it will be but another example of the wonderful hold that the tall leader has on his players, according to the Athletics, who carried Plank off the Polo grounds field on their shoulders late this afternoon.

Dividing the Spoils.

It certainly won't be due to any financial inducements that Mack can offer, for Plank, in company with the other forty-nine players who participated in the series this week, will divide \$135,163.89 between them on the basis of sixty per cent to the winners and forty per cent to the losers. The stockholders of each of the two clubs will also have \$79,109.50 to divide as a result of their players' drawing powers during the world's series. The National Commission received \$32,598 for overseeing the five games contest, the entire gate receipts amounting to \$325,980, coming from the pockets of \$151,000 fans who paid to witness the play. The profits of the ticket speculators are not available at this time. The players' share of the receipts ceased with Friday's game, so they were not financially interested in today's attendance, which totalled 36,682 for gross receipts of \$75,676.50.

Immediately after the close of today's game thousands of fans swarmed down from bleachers and stands and rushed to the Athletics' bench, where John McGraw was already congratulating Connie Mack. Despite the fact that the great majority were Giant adherents they bestowed plenty of praise upon the Mackmen. Player after player was patted and assured that the best team won. It was with difficulty that they finally broke their way through the throngs and reached the clubhouse. The Giants, too, came in for hearty cheers as they raced across the field, assuring them that although defeated they had by no means lost the support of their followers.

ARGONAUTS DOUBLE SCORE ON MONTREAL

GAME ENDED 23 TO 11—ARGONAUTS CONTINUALLY FUMBLE THE BALL.

Montreal, October 11—Argonauts defeated Montreal here on Saturday by a score of 23 to 11. Montreal scored two tries, but both were practically handed to them by the double blue. The first came in the second quarter when Leckie had attempted to run out a punt which went nearly to the dead line. He was heavily tackled near the line and when he went down the slippery ball flew out of his hands and one of the opposing wing men got it. In the fourth quarter, Gontier made a costly muffed punt behind his own goal, which resulted in a try. It was therefore due to the Argonauts' mistakes that the locals scored at all.

Montrealers Sure.

The Montrealers surprised the local supporters by the sureness with which they caught the ball, and in this particular they were distinctly better than the oarsmen, who muffed continually. In spite of the pouring rain, the tracherous field and the slippery ball, the Oarsmen put up a daring game. They started off with a dash that gave them a good lead, both their early tries being earned. Then they appeared to let up for a while, and frequently lost an advantage by loose play. When the fourth quarter opened with the wind behind Tucker's punting, the Argo's showed their metal. They needed another try to put the game on ice, and by a series of fine runs, closing with a well judged buck they got the five points. Argonauts tackled better than their opponents. Montreal gave a fine exhibition of scrapping. As a result of their hugging the Argonauts lost several sweaters. Jarvis and Gontier were without sleeves before the end of the first half, which seemed rather an eloquent indication that all the tackling was not low.

MCGILL INTERMEDIATES EMULATE THEIR SENIORS.

Montreal, October 11—The McGill intermediates won the first game of their home-and-home series with Eastern for the championship of the Eastern Intercollegiate division, by a score of 25 to 3, after having the game well in hand from the end of the first quarter. The winners were nervous at the start, and for a few minutes played a very loose game, fumbling the kicks and the passes on almost every play, and Queen's began the scoring with a pair of rouges. McGill's backs at this stage of the game were hopelessly outplayed, the accurate work of the Queen's halves being the feature of the play.

MCGILL WINS FIRST OF COLLEGE SERIES

VICTORY WAS EASY—"DON" BROPHY, A NEWCOMER, A SENSATIONAL PUNTER.

Montreal, October 11—In a game replete with brilliant runs, clever line plunging and sensational punting on the part of Don Brophy, a newcomer, in senior college ranks, McGill opened the Intercollegiate season, by scoring an easy victory over Queen's, beating them by a score of 49 to 2. Both universities presented a vastly different line-up from that of a year ago, and previous to the commencement of play little advantage could be claimed by either. The new men who figured on the line and back divisions of both teams were practically untried and unknown quantities. Don Brophy, who replaced Billington at centre-half for McGill, made good and in almost every department of the game was the equal of the great halfback who practically won the championship for his team through his clever kicking a year ago.

In all of the punting duels between Brophy and Hazlett, the best of the opposing backs, the McGill player had the advantage. Lemay was another surprise. He had attracted little attention during the week's practice, but in the match he was responsible for the majority of the gains, being used almost exclusively for the line plunging.

At the commencement of the play the winners were off on their signal work, but after becoming settled down worked in machine-like order. The game was far from being the walkover that the score would indicate, and McGill were forced to fight for every point they got. Queen's playing gamely to the end, finishing the game on the aggressive.

Although four penalties were imposed by the officials the play was free from roughness at all times. Two accidents of a minor nature were caused by hard tackling. Lewis, of McGill, and Demuth, of Queen's, being the victims. McGill scored their points on three touches by George Laing, two by Waterous, and one each by Hughes, Montgomery and Lemay; three rouges from punts of Brophy's, and an inside kick that went to the dead-line. McGill won the toss and elected to play with the brisk wind blowing in their favor.

The line-up: Queen's—Flying wing: MacArthey; halves: Lewis, Hazlett (captain), Hill; quarter: Quigley; scrimmage: McQuay, McLeod, O. Kennedy; wings: Ellis, Robbins, McQuaham, McLaughlin, P. Kennedy and E. Watts. McGill—Flying wing: N. Williamson; halves: Paisley, Brophy, Draper; quarter: Montgomery; scrimmage: R. McLean, Demuth, Lee; wings: Ross, Hughes, Lemay, Waterous, Jeffrey, Laing (captain). Rodden replaced Watts, Gendron replaced Jeffrey, Watts replaced Lewis, D. Williamson replaced Demuth, Wollatt replaced Paisley. Referee: Dan Gilmour; Umpire: Prof. McDonald, of Queen's.

SUNDAY GAMES.

St. Louis, Mo., Oct. 12—City series. First game: R. H. E. Americans001 200 022—7 13 0 Nationals000 501 000—6 10 1 Weisman, Baugardner and Agnew; Sallee and Snyder. Second game: R. H. E. Nationals000 020—2 8 3 Americans030 000—6 11 1 (Called 6th, darkness.) Perritt and Snyder; Levernec and Agnew.

PITTSBURG WINS.

Cleveland, O., Oct. 12—Pittsburg defeated Cleveland 3 to 0 here today, making their post season series 3 games to 2 in favor of the National Leaguers. Score: R. H. E. Pittsburg000 010 020—3 9 2 Cleveland000 000 000—0 10 0 Robinson and Simon; Falkenberg and Carisch.

KLAUS KNOCKED OUT.

Pittsburg, October 11—"George" of Madison, Pa., tonight knocked out "Frank" Klaus, of Pittsburg, who is recognized as the middleweight champion, in the sixth round of a schedule six-round bout.

Klaus had the better of the fight for five rounds. In the sixth, however, Chip landed a sharp right uppercut and the Pittsburg fighter went down for the count of nine. Klaus arose and had hardly renewed his attack before Chip landed a right to the head, and the local boxer fell to the floor for the full count.

CHICAGO AMERICANS WIN.

Chicago, Oct. 12—Joe Benz pitched invincible ball today for the Chicago Americans against the Chicago Nationals and the former gained a full game over their opponents for the title of city champions. The score was 2 to 0 and the battle went 11 innings. More than 27,000 persons saw the game. Score: R. H. E. Americans000 000 000 02—2 10 0 Nationals000 000 000 00—0 3 1 Benz and Schalk; Cheney and Archer.

CLOSE VICTORY GOES TO OTTAWA

HAMILTON LOSES BY ONE POINT AFTER A GRUELLING GAME.

Ottawa, Oct. 12—Ottawa defeated the Tigers by 11 to 10 after a gruelling game at Lansdowne Park yesterday. The match was fast and exciting at all stages. Ottawa outplayed Hamilton in the first and second quarters, but in the third, the visitors almost swept Eddie Gerard's team off its feet, taking a lead of one point, which they carried into the fourth, when the Ottawas with a stiff wind behind them were able to score only two and thus nose out their rivals. Six thousand people attended the game and though rain fell for a time in the third quarter it was not sufficient to affect the footing or to make the ball heavy. Smirle Lawson and Hammy Gordon refereed and both were good, though the teams did a great deal of kicking on the ground that they were tolerating off-side interference. Play was strenuous, but there were only two or three flagrant violations and the penalties were few. Black and Wilson were both injured, but not seriously. Father Stanton used about 20 players, taking both Ryan and Fisher out of the game after Captain Manson of the Tigers had skirted their left end for a try in the third. Tubman and Gilligan finished in the outside wing positions. Dutch Becker played the entire game for Ottawa and had the honor of tying up the score with a kick for a touch in goal just a few minutes before time was called. Mallett and Gerard had a great punting duel with honors about even and both Manson and Boucher did a lot of fine running. On the line, Elliott, Quilty, Isbister and Craig were the most conspicuous, all four breaking through for big gains. Holly and Cassells, two youngsters, played sensational games for Ottawa.

ONE POINT GIVES VICTORY TO R.M.C.

KNOCKOUT OF MAYNARD IS SAID TO HAVE CAUSED VARSITY'S LOSS.

Kingston, Ont., Oct. 11—The knockout of Maynard in the third quarter of the Inter-Collegiate Rugby Union game between the Toronto and the Royal Military College disconcerted the visitors and is charged with their loss of the game by 15 to 14. The cadets were in fine form and their superior condition is what won the game for them. Maynard was rendered helpless by the dislocation of his collarbone. The wind helped the cadets a little in the early part of the game. They started out by making point after point by forcing rouges and when time was called had rolled up six while Toronto was nothing.

In the second half Varsity took the lead, on account of costly fumbles on the present cadets. Lindsay replaced Maynard. With only a short time to play the score was 14 to 14. The pace became fast. The ball travelled up and down the field until Barwick kicked over the line to Carr. Shoenerger pinned him and Carr roared, the game ending Toronto 14, R. M. C. 15.

Teams: Toronto—Flying wings and halves, Maynard, Sheehy, Carr, Gage; quarter, Campbell; scrimmage, McDowell, Blackstock, Schalm; wings, Sinclair, Rheume, German, Knight, Corey, Cassels.

R. M. C.—Flying wings and halves, Brownfield, Clarke, Barwis, MacAulay; quarter, Cochrane; scrimmage, Greenwood, McKenna, Wilkins; wings, Ross, Shoenerger, Dobbie, Stratford, Kittermaster, Mathews, Umpire, O. MacDonald, Toronto; referee, Prof. Malcolm.

FIRE AT GOVERNMENT EXPERIMENTAL FARM.

Ottawa, October 12—The main barn and stables at the Government Experimental Farm here were destroyed by fire Saturday morning. The loss is estimated at \$100,000. The cause of the fire is unknown. There were about 140 head of cattle in the building and all were saved.

OPENING OF FREE NIGHT SCHOOLS

On Monday, 6th October, at 7.30 p.m., the free schools will open as follows: Boys' School.—Brothers School, corner of Grant and Desfosse's sta.; corner Caron and St. Francois streets; Masse street, and the Brothers School at Limolou. GIRLS' SCHOOL.—Miss Fackney's School, No. 3 D'Artigny street; Miss Trumble's, 378 St. John street; Miss Auger's, 97 St. Luc; Miss Lachance, 128 Kirouac street; Miss Ferland, 161 Sauvageau street. TH. ROULEAU, Priest, Director, Oct. 7x2w

LOCAL RACES AT EXHIBITION TRACK

HENRY R., A NEW HORSE, WINS FREE-FOR-ALL—TEN HEATS WERE RACED BEFORE AWARDS COULD BE MADE.

A large crowd of the local followers of light harness racing went to the Exhibition Grounds yesterday afternoon to witness a card of two events which was organized by local horse owners.

Nobody was disappointed, for the racing was good, and an estimate of this may be formed when it is taken into consideration that ten heats were raced in the course of the afternoon. The free-for-all was a splendid exhibition and the fact that one heat was paced in 2:18 1/4 shows that the cool weather did not have much effect on the horses. This race was won by Henry R., owned by Mr. Art. Drapeau, and driven by Mr. J. M. Landry, while Camy H., owned and driven by Ald. Gauvin, took second money and Thorlo B. third. Henry R. is a new horse for Quebec, having been purchased recently by Mr. Drapeau. In the first heat Henry R. finished first, but placed last for alleged interference. In the second heat he finished first, and in the third heat was second, but the remaining two heats were easy money for Henry R.

Dollie P., a splendid big bay trotting mare, stands first in the 2:30 class race, with Katie Yandle second, each having two firsts. Kitty, owned by Mr. T. Donohue, took the first heat, but after that had to fade away before the trotters, who fought it out to the fifth heat, but it then became too dark to race any more and the event remains as the summary appended indicates.

Mr. A. A. Dube officiated as starter and as usual handled the fields skillfully, giving satisfaction to both the drivers and the spectators.

Summary:

Free-For-All
Henry R., b. g., Art Drapeau(Landry) 6 1 2 1 1
Camy H., b. g., U. Gauvin(Gauvin) 1 2 1 2 3
Thorlo B., b. g., Art. Collin(Collin) 3 3 4 3 2
Forest Pointer, b. s., M. Willet(Boutillier) 2 6 6 4 4

FRENCH CHAMPION DEFEATS AMERICAN.

Paris, October 11—Georges Carpentier, the French champion, tonight defeated the American middleweight "Jeff" Smith, on points, in a 20-round fight.

VERY LITTLE RIGHT.

Dr. Henry Van Dyke in an address in Princeton, said of success: "The Sunday school books used to teach us that honest industry, generosity and the other virtues were the sole means to success. The good prospered; the bad went to the dogs; thus the books of the past moralized. "But we know better than that today." Dr. Van Dyke shook his head. Then he added: "On the highway leading to success few, very few, keep to the right."

QUEBEC LEAGUE DEFEATS EMPRESS

ASSOCIATION FOOTBALL MATCH IN AID OF CHARITY PROVIDED GOOD GAME.

By a score of 3 to 1, the team picked to represent the Quebec League defeated the Empress of Ireland on Saturday after an interesting game.

The match was in aid of local charities and the proceeds will be handed over to the mayor to dispose of. His Worship was expected to kick off but was prevented at the last moment from doing so by other engagements.

There was no score in the first half. The Empress played a good game in this period but even when they penetrated the sturdy defence of Boyd and Kear they could not get past Moul, who made some very good saves.

In the second half the local men soon got into their stride and McKenna (2) and West put on three goals, the visitors' point being obtained through a miskick of one of the Quebec men.

McKenna and West were the best of the Quebec forwards, but the whole team played well.

Mr. Warner refereed the game in a satisfactory manner.

SKATING SEASON AT VANCOUVER

ARTIFICIAL ICE RINKS ON PACIFIC COAST WILL BE OPEN FRIDAY.

Vancouver, B.C., October 12—The skating season at the Vancouver and Victoria artificial ice rinks will commence next Friday night, when the arenas will be thrown open to the public. The ice-making will commence early in the week and the hockey players will get a chance to try out the ice the night previous.

Victoria will have the same team as last year with the exception of Goldie Progers, whose place at point will be taken by Bobby Genge. Lester Patrick will have the same quartette on his forward line and will probably dig up another defence man as substitute. The Westminsters will be intact with the exception of Jimmy Gardner, who will manage the Canadians in Montreal. Harry Troop will replace him on the line. The Vancouver team will be without F. Patrick, Jack McDonald and Carl Kendall, and in place of those will be "Newsy" Lalonde, Frank Neighbor and probably McKenzie, a sensational young centre player from Kenora.

FIELD DAY AT ST. ROMUALD.

An athletic field day was held at St. Romuald yesterday afternoon, at which a five mile race was one of the chief items. This event was won by Simeon Deguire, of Quebec, who covered the distance in 31½ minutes. Alfred Gingras finished second, and Oscar Pelletier, third.

Eug. Brochu, of the Viger A. A., won seven first prizes in the course of the afternoon.

GOOD NEWS FOR MAT FOLLOWERS

Followers of mat work of the big heavyweight wrestlers were gratified to learn that on Thursday, the 16th, Raymond Cazeaux and Emile Sylva will clash for supremacy at the Garde Champlain Hall, in this city. It promises to be one of the best bouts ever seen here, as both men are past masters of the art of wrestling as well as being fiery customers in the bargain, which argues that there will be skin and hair flying when they come together on Thursday night.

TORONTO ROWING AND ATHLETIC ASS'N WIN.

Toronto, October 11—Although beaten by T. R. and A. A. on Saturday in their opening series O. R. F. U. fixture, by 21 to 7, the team representing Parkdale Canoe Club was far from moutelassé. T. R. and A. A. deserved their victory, but if Parkdale had secured their share of the "breaks" Toronto's margin would have been materially reduced. There was much loose fumbling, due to the slippery condition of the ball. It was here that T. R. and A. A. had the advantage. Seldom did one of their fumbles result in Parkdale gaining possession of the ball. On the other hand Parkdale's fumbles were repeatedly secured by Toronto.

Toronto's sturdy wing line failed to live up to their reputation. On but two occasions did they gain yards backing, while the opposing wings went through for some nice gains. Both scrimmages were inclined to be weak on the defensive.

Galt, Ont., Oct. 12—The Hamilton Lancashires, winners of the Hamilton-Toronto Soccer League, today defeated Stratford, the Western Ontario Football Association champions, 3 to 2, in the deciding game for the Ontario championship.

CHAMPION VICTORIAS ARE BANQUETTED

MR. H. FONTAINE ENTERTAINS IN HONOR OF HIS TEAM WINNING PENNANT.

Mr. Harry Fontaine, the genial proprietor of the Victoria Hotel, and patron of the Victoria Baseball Club, the champions of the Quebec City League, gave a dinner at his hotel on Saturday night in honor of the victory of his club.

The banquet was a very pleasant function. Mr. Fontaine presided, while among those present were the players of the Victoria Club, headed by Manager George Belanger, and their vice president, Mr. George E. Cartier. All the clubs were represented and also present were the officers of the league and various other local sports, all of whom has a most agreeable evening and the trophies, the Boswell Cup and the Spalding Cup were filled to the brim with champagne and with those emblems of the highest baseball honors in Quebec the champions and their guests honored the various healths proposed.

A most delectable menu was served and at the conclusion of the banquet Mr. Johnny Bruneau, vice president of the league, presented both trophies to the club, which were received by Mr. George Cartier, and acknowledged in a very neat speech, in which the vice-president of the Vics, gave credit to whom it is due and his remarks were applauded to the echo.

Mr. Cartier was very much in demand and he also, with Mr. Harry Fontaine, responded to the health of the club, as did Mr. Geo. Belanger and all the players.

Speeches were also made by Mr. Thos. Byrne, treasurer of the league; Mr. M. J. Quinn, manager of the Quebec Hockey Club; Mr. Art. Lamallice, of Montreal; Mr. Lepine, Mr. George Morisset, Mr. Henry Bowen, Mr. Geo. Lamonthe, Mr. Peters, Mr. Adjutor Turcote, Mr. C. Henchey, Mr. A. Cinq-Mars, Mr. Henri Chasse and a number of others.

Everybody had a very pleasant evening and the season as well as the enviable victory won by the champions was fittingly celebrated in a manner which does credit to Mr. Fontaine and the officers of the club.

Mr. George Belanger was a very busy for the past few days back. He always did believe in doing things while the sun shone and the result is that he has most of the champions signed up to wear Victoria colors for the season of 1914.

CRUSHING DEFEAT OF LIBERALISM IN QUEBEC PROVINCE

(Continued from Page One)

Morris than for his opponent, as against a majority of six for the late Liberal member in 1911. St. Jean Chrysostome, which includes the village of Aubrey, the Conservative candidate's home town, recorded 56 majority for Morris. The same district went against him at the last election. In Howick Morris was defeated by 21 two years ago, and on Saturday he polled two more votes than Mr. Fisher. On the 31st September, 1911, the three polls in the parish of Chateauguay gave a Liberal majority of 71, while these same polls were carried on Saturday by Mr. Morris by 19, his majority in Chateauguay Basin being 18 and at Woodlands 46, Mr. Fisher having a majority of 45 in Chateauguay village. Two years ago Mr. Morris' majority in Ste. Martine, a mixed English and French speaking centre, was 49, and this year 39. The new voters' list, with the one man one vote principle applying, was much smaller than two years ago, which accounted for the loss of ten votes.

Rebuke to Liberals.

The successful candidate motored through three of the principal villages of the riding after the election, and in an interview here stated he believed the result an approbation of Premier Borden's entire policy and record. "The race cry which was touched on by speakers for my opponent," he said, "had no effect whatever on my French speaking friends, who form two-thirds of the population of the county. I consider the men accompanying Sir Wilfrid Laurier on the hustings, who hurled insulting epithets right and left, as well rebuked by the electors."

Fisher Begins Squealing.

Mr. Fisher, the defeated candidate, said he considered the election one of the most corrupt in his experience. For two weeks, he said, he had seen evidences of crookedness, and thought he would be thoroughly justified in entering a protest.

Sir Rodolphe Lemieux said: "The loss is all Chateauguay's and all Canada's."

CHATEAUGUAY POLITICAL RECORD

The following tabulated statement gives the Liberal political record of Chateauguay since Confederation, including the majority by which each member was returned:

1867. Hon. Luther Holton.....	427
1874. Hon. Luther Holton.....	238
1874. Hon. Luther Holton.....	392
1878. Hon. Luther Holton.....	179
1882. Edward Holton.....	61
1887. Edward Holton.....	353
1891. J. P. Brown.....	98
1896. J. P. Brown.....	700
1900. J. P. Brown.....	430
1904. J. P. Brown.....	464
1908. J. P. Brown.....	305
1911. J. P. Brown.....	40
1913. J. Morris (Conservative).....	144

HOW VOTING WENT AT LAST ELECTION

The Following is how the voting went in the last general election of 1911 in Chateauguay riding, according to municipalities:

Municipality	Libs.	Cons.
Chateauguay.....	198	165
St. Chrysostome Village.....	57	53
St. Chrysostome Parish.....	130	136
Howick.....	167	146

Ormatown Village.....	77	63
St. Clothilde.....	113	79
St. Urbain.....	123	101
St. Antoine Abbe.....	48	57
St. Philomene.....	93	109
Totals.....	1281	1241

OPINIONS ABOUT HUERTA'S ACTION

ARREST OF DEPUTIES IS LIKELY TO OCCASION SPLIT IN THE ARMY.

Mexico City, Oct. 12—There has been endless speculation here regarding the effect of Provisional President Huerta's coup d'etat. Many appear to believe that the logical result will be a split in the army, which they assert has only been held together by the force of General Huerta's personality. They argue that there has been dissatisfaction over Huerta's course in general and that this will test loyalty to the danger point. They look for startling developments in the near future.

On the other hand there is a large element which believes that President Huerta took the only possible course and expresses wonder that he had not taken the step long ago. Huerta's friends say that it is no secret that had the deputies believed any substantial part of the army would stand with them they would have over-riden Huerta, completely and taken the reins of government wholly in their hands. The Minister of the Interior, Manuel Garza Aldape, issued the following announcement today:

"The deputies who have been arrested and imprisoned cannot be released on any writ. They will be tried for the various offences of which they are accused. Not one of them has been released by the government to date. They will be treated well while in confinement."

"The dissolution of congress will not affect the holding of the elections in the least. The ballots will be cast in October. The only change in the election program will be that new Senators and Deputies will be elected to replace those put out of office by the coup d'etat."

"The governors, civil and military, of all the States, have been notified of the dissolution of congress, and all have responded, accepting the government's course of action. All the governors have reached that conditions in the respective States and territories are tranquil and that there have been no disturbances anywhere."

Minister Aldape has assured the families of the deputies that the prisoners will be allowed to receive clothing, food and reading matter from their families and friends, but will not be permitted to talk to anyone, even on regular visiting days.

Detachments of troops patrol the streets, but the excitement which resulted from the coup has subsided. At no time has there been any rioting or disorder in the Capitol in consequence of the events of the past few days.

ARCTIC EXPLORERS ARE RETURNING

St. Michael, Alaska, Oct. 11—The Russian Government steamers Talmayr and Waygatch, under Commander Wilitsky, which have been engaged in Arctic exploration north of Siberia for three years, arrived here today for coal. Captain Wilitsky reports the discovery of a body of land as large as Greenland, extending beyond latitude 81 north and longitude 102 east.

SYNOPSIS OF REGULATIONS.

GOVERNING Timber on Dominion Lands in Manitoba, Saskatchewan, Alberta, the Northwest Territories, the Railway Belt in the Province of British Columbia, and the tract of Three and a Half Million Acres, Located by the Government of the Dominion in the Peace River District in the Province of British Columbia.

LICENSES.

A license to cut timber on a tract not exceeding twenty-five square miles in extent may be acquired only at public auction. A rental of \$5.00 per square mile, per annum, is charged on all timber berths excepting those situated in the Province of British Columbia on which the rental is at the rate of 5 cents per acre. In addition to rental, dues are charged on the timber cut at the rates set out in section 29 of the regulations.

TIMBER PERMITS AND DUES.

Permits may be granted in the Provinces of Manitoba, Saskatchewan and Alberta, to owners of portable saw mills, to cut over a definitely described tract of land not exceeding one square mile in extent, on payment of dues at the rate of 50c. per thousand feet, F.M.M., and of a fee at the rate of \$100.00 per square mile for each permit.

TIMBER FOR HOMESTEADERS.

Any occupant of a homestead quarter-section having no timber of his own suitable for the purpose may, provided he has not previously been granted free allowance of timber, obtain a free permit to cut the quantity of building and fencing timber set out in Section 30 of the Regulations.

W. W. CORY,
Deputy Minister of the Interior.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

Any person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made to any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years.

A homesteader may live within five miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry including the time required to each homestead patent and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchase homestead in certain districts. Price \$3.00 per acre.

Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

W. W. CORY,
Deputy of the Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

TENDERS FOR FIREMEN'S WINTER UNIFORMS.

Quebec, 3d October, 1913.

PUBLIC NOTICE is hereby given that the undersigned will receive sealed tenders until Wednesday, the 16th day of October next, 1913, at four o'clock p. m., for the supply of one hundred and forty winter coats (more or less), in dark grey cloth, of eighteen ounces to the yard, and one hundred and forty pairs of winter pants (more or less), in dark grey cloth of sixteen ounces to the yard.

The buttons for coats shall be supplied to the contractor, who shall place them according to instructions from the Chief of the Fire Brigade.

The Fire Committee does not bind itself to accept the lowest or any of the tenders.

The Committee reserves the right of exacting securities.

The contractor shall pay the notary the cost of drafting a contract and shall provide the Fire Committee with a copy of same.

All the uniforms shall have to be delivered for the 15th of December, 1913, and if the contractor has not fulfilled that condition, there shall be retained five dollars a day for each day of delay after said date until the last uniform shall have been delivered.

Tenders are requested to send only one sample of cloth for their tender.

For further information apply at the office of the Chief of the Fire Brigade.

(Signed) AUG. MALOUIN,
Secretary Fire Committee.

CITY OF QUEBEC

October 1st, 1913.

Public Notice Re Snow Guards.

The attention of the public is called to clauses 4 and 5 of By-law No. 23 concerning the lighting of certain portions of the city, which read as follows:

4. When the apparatus for the said lighting shall be placed in certain places where they may be exposed to damage through the fall of ice or snow coming from the roofs of buildings, the proprietor of said building shall place on the edge of the roof of said building a snow fender or an appropriate and convenient protection bar to prevent the fall on the said lighting apparatus of any snow or ice or objects of a similar nature to damage the said lighting apparatus.

5. If the owner of a building in this city omits or neglects to place on the edge of the roof of his building a snow fender sufficient to prevent the fall on the said electric lighting apparatus of snow or ice or other objects liable to damage the said lighting apparatus, such proprietor shall be liable to a fine not exceeding forty dollars, and in default of payment of the said fine and costs, to an imprisonment for a space of time not exceeding two months.

I have the honor to request proprietors opposite whose property ornamental poles have been erected to kindly have the snow guard above referred to erected immediately.

W. D. BAILLAIRGE,
City Engineer.

Making One Dollar Do the Work of Two

YOUR dollars vary in value according as they vary in purchasing power.

The man or woman who studies advertising is able frequently, to make one dollar do the usual work of two.

The experienced reader of advertisements will always make a dollar command a premium, that is, make it buy more than the dollar of a non-reader of advertisements.

How much "above par" are the dollars in your pocket worth?

It will depend on how closely you study the buying opportunities out-lined in the store ads.

FIRST SENSATION IN BEILIS'S TRIAL

WOMAN ACCUSES WITNESS OF TRYING TO INDUCE BOY TO PERJURE HIMSELF.

Kiev, Russia, October 11—The first sensation in the trial of Mendel Beiliss, charged with the murder of the boy Yushinsky, occurred towards the end of the sitting tonight, when a woman witness directly charged the notorious Vera Tcheberiak with trying to induce a boy witness to perjure himself and give false testimony against Beiliss.

BOY REFUSED.

The witness swore that on the first day of the trial while in the witness room, she heard Vera Tcheberiak instructing the boy to say that when he, Eugene Tcheberiak and Yushinsky were playing in a brick field, Beiliss chased them, seized Yushinsky and dragged him away.

The boy refused to give such testimony, saying that he would testify to the contrary and would tell the Court what Vera had said to him. The witness declared that six other witnesses could corroborate her statement.

Shaky Testimony.

Several policemen testified to the finding of the body of the murdered boy in the cave, but showed lack of memory when pressed for details, or asked to reconcile their evidence with their statements made at the preliminary examination.

One of the policemen, Lestchinko, by name, was unable to identify a piece of cloth eighteen inches by six, pierced in places as though by a sharp instrument, which was produced among the exhibits, as the same cloth as that taken from the pocket of the boy when the body was found, and later replaced therein.

Inspector Porgosky, a young official, said that when he reached the cave about one hundred persons were gathered about the entrance. At the preliminary examination he estimated the number at ten of fifteen. He could not remember whether he had found a portion of a pillowcase, which the prosecution alleges was discovered in the pockets of Yushinsky's jacket, or whether he found Yushinsky's belt in the cave, nor could he describe the clothing on the body.

Porgosky said that he had been four years in the police service and never heard of ritual murders being practiced by the Jews. "I don't remember," was his answer to many questions during the cross-examination. The president of the court on one occasion reproved the public prosecutor for putting answers in the witnesses' mouths.

At the request of the prosecution the court ordered the production of two rare books on "ritual murder" from the library at Vilna, one published in 1648 and the other in 1782.

A newspaper writer, Ordinsky, gave an account of a meeting in a restaurant between several newspapermen, a former detective named Vignaroff and Vera Tcheberiak, the alleged leader of a band of thieves who were reported in some quarters to have murdered Yushinsky for the purpose of causing a pogrom in Kiev. He heard Vera state that Yushinsky had been killed by relatives. "No one present," he said, "endeavored to persuade Vera to assume the guilt."

The landlady of the lodging house where Alexandra Pridhiko, the murdered boy's mother lived, rejected the possibility that the murderer might have been committed there. Her house, she said, was only of one story and any noise could be heard from any end to the other. The mother, she asserted, was deeply affected by the boy's death.

REQUEIM SERVICE FOR LATE MR. GIBSON Many Prominent People Paid Tribute of Respect.

In the large cortege which followed on Saturday the remains of the late Mr. F. H. Gibson, whose death is so much regretted, to St. Patrick's Church, were all classes of society. The chief mourners were his half-brother, Mr. Arthur Gibson, of Fredricton, N. B., and his brother-in-law, Mr. H. A. Jordan, of Renfrew, Ont.

The requiem service at St. Patrick's in this city was of the most solemn and imposing character. The sacred edifice was draped in the deepest mourning and the casket, containing the remains was literally buried amid a wealth of the most exquisite and beautiful floral offerings, was received at the entrance by Rev. Fathers Healey, C. S. R., Jolicoeur and Woods, C. S. R., and the former officiated at the solemn high mass with full organ and choir accompaniment.

At the conclusion of the religious rites, the remains were removed to the C. P. R. station, followed by the chief mourners as well as by many friends of the lamented deceased and sympathizers with the afflicted family, a good many of whom also accompanied them on the afternoon express to Three Rivers, where they were interred in the afternoon.

Among the prominent people present were the Premier, Sir Lomer Gouin, Judges Roy, Cannon and Langgeller, Senator Choquette, Ald. Cannon, Mr. A. E. Nash, local manager Bank of Montreal; Mr. Marcoux, manager Caisse d'Economie; Mr. Tessier, president Caisse d'Economie.

NEW DISCOVERIES REPORTED IN ARCTIC

New York, Oct. 11—The reported discovery of a new and extensive body of land in the Arctic recalls the theory of Dr. Rollin A. Harris, the tidal expert of the United States Coast and Geodetic Survey, that some such land existed in the unexplored regions north of Canada, Alaska and eastern Siberia. It was to test the validity of this theory that Vilhjalmur Stefansson started last summer on a three-year expedition into the Arctic.

JEWISH SUFFRAGETTES EMULATE CHRISTIANS

London, Oct. 11—Jewish suffragettes, following for the first time the example set by those of the Christian faith, today interrupted the service at the West End Synagogue, Bayswater, by reciting: "May God forgive Herbert Samuel and Sir Rufus Isaacs for denying freedom to women. May God forgive Herbert Samuel and Sir Rufus Isaacs for consenting to the torture of women."

MILITANTS INTERRUPT LLOYD-GEORGE MEETING

London, October 11—Suffragettes and male adherents managed to invade Chancellor Lloyd-George's second meeting at Bedford tonight. There were frequent interruptions which resulted in great disorder. Umbrellas and canes were brought into action and the supporters of votes for women were eventually thrown out. A chemical which was distributed about the hall brought the meeting to an early end. Later the Chancellor burned in effigy in the streets.

Two very fine drinking glasses will be given you free, by your grocer, with every dozen of Fox Head Ale. Ask to see these glasses.

NOTE.—When you buy Fox Head Ale you have an ale which cannot be excelled.

Fox Head Ale is brewed in Quebec, by Quebecers, for Quebecers. Its constantly increasing sale is proof of its merit.

BACKACHE A WARNING YOU SHOULD HEED

IT IS ONE OF NATURE'S FIRST SIGNS OF KIDNEY TROUBLES, IF NEGLECTED, SERIOUS DISEASES MAY FOLLOW.

When the kidneys are clogged up and inactive, nature has a way of warning you.

Backache is one of the first symptoms. You may also be troubled with disagreeable, annoying bladder disorders; have attacks of lumbago or rheumatism; become nervous, tired and feel all worn out; puffy swellings show under the eyes or in the feet and ankles; and many other symptoms are noticed. If they are neglected, dropsy, diabetes, or Bright's disease, which so often prove fatal, may result.

There is no only dangerous, but needless for you to suffer and endure the tortures of these troubles, when a little Croxone now will quickly and surely end all such misery.

There is no more effective remedy known for all such troubles than Croxone, because it reaches the cause. It soaks right into the kidneys, through the walls and linings; cleans out the clogged up pores; neutralizes and dissolves the poisonous uric acid and waste matter that lodge in the joints and muscles and cause those terrible rheumatic pains, and makes the kidneys filter and sift the poison out of the blood and drive it from the system.

You will find Croxone different from all other remedies. It is practically impossible to take it without results.

An original package costs but a trifle, and all druggists are authorized to return the purchase price if Croxone should fail in a single case. Three doses a day for a few days is often all that is ever needed to end the worst backache, relieve rheumatic pains, or overcome urinary disorders.

City of Quebec, To wit: District of Quebec.

BY-LAW NO. 449.

TO ANNEX THE TOWN OF MONTCALM TO THE CITY OF QUEBEC.

(Drawn up in the French Language.) At a meeting of the Municipal Council of the City of Quebec, held on the twenty-sixth day of September, one thousand nine hundred and thirteen (1913), the following by-law was read for the first time.

It is ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts as follows, to wit:

1. After the approval of the present by-law by the majority of the municipal electors of the town of Montcalm who are proprietors, and who shall have recorded their votes on this by-law in the manner prescribed by law, and especially in accordance with section 71 of the Act 51-52 Victoria, chapter 78, it is enacted that the territory now comprised in the limits of the Town of Montcalm, shall, through the operation of the law, and in virtue of the present by-law, be annexed to the City of Quebec and shall form part thereof to all intents and purposes. The said Town of Montcalm shall then be one of the wards of the city of Quebec, and shall be known and designated as "Belvidere Ward."

The said annexation shall be effected on the following conditions, to wit:

2. The said ward shall be represented in the Council of the City of Quebec by two aldermen, in conformity to the Statute 1, George V, chapter 59, section 27, sub section 3a.

3. The first election of the two aldermen after the annexation shall take place under section 72 of the Act 51-52 Victoria, chapter 78, and shall be effected in the manner prescribed by law, by the municipal electors of the territory so annexed who possess the qualifications required by the charter of the said City for voting at the elections of such Aldermen respectively, according to a list previously prepared by the secretary-treasurer of the annexed municipality, who shall transmit the same to the City Clerk after having subdivided the polling districts in accordance with article 5376 of the Revised Statutes.

4. When the said Aldermen shall have been so elected and shall be legally entitled to sit in the City Council, the secretary-treasurer of the Town of Montcalm shall hand over to the treasurer of the city all the minute books, registers, assessment or valuation rolls, archives, papers and all documents whatsoever belonging to the Corporation of the Town of Montcalm, as well as all sums of money which may then be in his possession in his said capacity of secretary-treasurer, and from and after such delivery, all sums of money due and to become due to the former corporation of the Town of Montcalm shall be payable to the City Treasurer only.

5. After the election of said Aldermen, the assets and liabilities of the Town of Montcalm shall be consolidated with the assets and liabilities of the City of Quebec, and that City shall be vested with the rights and be liable for the obligations legally contracted by the Town of Montcalm.

6. From the date of the annexation to the 30th of April, 1914, no other taxes shall be levied upon the inhabitants of the new ward than those imposed by the Council of the Town of Montcalm for the fiscal year 1913-14.

7. During the ten (10) years following the 1st May, 1914, the immovables of the new Belvidere Ward on which one or more buildings are erected, shall not be valued, either as to their real value or yearly or leasing value, for an amount higher than that at which they are now entered on the valuation roll of the Town of Montcalm. Lots of land on which one or more buildings are erected within three (3) years from now, shall during the remainder of the ten years, be entered on the valuation roll at their real value.

8. During the ten years following the 1st May, 1914, the lands not divided into building lots and used solely for farming purposes, shall continue to be valued at the same rate as that for which they appear on the valuation roll of the Town of Montcalm, notwithstanding any improvements thereon, either as regards farming purposes or in connection with the houses and other buildings actually on them or those which may replace them for the same purposes, during the said ten years.

9. The buildings and lands which are to have the privilege of a certain valuation for a certain number of years on the conditions set forth in articles 7 and 8 hereinabove, shall, during the said years, be assessed at 1/2 of 1% (one-half of one per cent.) for assessment on immovables, and 1/2 of 1% (one-half of one per cent.) for water rates on water and drainage, based upon the value mentioned in the valuation roll. This last mentioned tax on buildings surrounded by large tracts of land shall be imposed according to the mode actually practised in the city of Quebec, and as regards the lands upon which the water from the waterworks and drainage are not yet introduced, the water rate shall be one-eighth of one per cent. upon their value.

used so long as the City will judge it convenient in the interest of the efficiency of the general service.

11. During the five years following the annexation, the City of Quebec shall spend an amount of at least two hundred and fifty thousand dollars on works of a permanent nature required in the ward, at the rate of at least one hundred thousand dollars for the first year; seventy-five thousand dollars for the second year; forty thousand dollars for the third year; twenty thousand dollars for the fourth year, and fifteen thousand dollars for the fifth year.

12. The Corporation of the City of Quebec shall introduce and maintain the water of the waterworks and shall construct and maintain sewers for drainage as well as cesspools, and put hydrants in the streets and avenues of the new ward when it shall deem the same expedient.

13. The St. Foye Road and the St. Louis Road within the limits of the new ward the Belvidere street, the Levis Avenue in Montcalm Park, shall be paved or macadamized as needs be, provided, the waterworks and drainage systems shall have been introduced therein in a permanent manner. The other streets shall be opened, paved or macadamized as need for the same arises.

14. All the streets and avenues of the new ward shall be as well lighted as those of the other wards of the City.

15. During the first year following the annexation, a fire alarm system shall be organized like the system of the City of Quebec, and at least as perfect.

16. During the year following the annexation, the City of Quebec Corporation shall improve the fire and police services of the new ward.

17. The City of Quebec shall ask the Provincial Government to not grant any licenses for the sale of intoxicating liquors within the limits of the new ward.

18. Proprietors or occupants of farming lands shall, during the ten years following the annexation, pay no taxes or licenses whatever for the live stock or moveable effects used for farming such lands, except for water rates.

19. Proprietors and occupants of farming lands shall have the right to pile and keep manure at a distance of at least one hundred (100) feet from the public roads and from all dwellings, subject however, to the general laws of hygiene of the province.

20. Carters, hackmen, bakers, milkmen, and other persons residing in the Town of Montcalm who may have obtained licenses from the City of Quebec previous to the annexation, for plying their business, trades or occupations in the said City for the current fiscal year, may obtain from the City the repayment of the amounts they have paid over and above that paid for such licenses by persons residing in the City of Quebec.

21. The City of Quebec shall regulate the construction of buildings in such a manner as to respect the by-laws of the Town of Montcalm on construction in their general dispositions, and shall not allow the construction or operation of factories, forges, shops, stores or any business or industrial establishment whatever on the St. Louis and St. Foye Roads, west of Maple Avenue, nor on Maple Avenue, nor on Belvidere Road nor on Avenue des Braves, nor in the Levis Avenue in Montcalm Park.

22. The City of Quebec shall favor and regulate the planting of trees and generally maintain and add to the typical character of a residential quarter which the new ward desires to possess.

PUBLIC NOTICE.

Is hereby given that, in conformity to law, the above by-law will be read a second time, for adoption, on Friday, the third of October next, (1913).

By order, H. J. B. CHOUINARD, City Clerk.

CITY OF QUEBEC, CITY HALL.

City Clerk's Office. Quebec, October 6th, 1913. Tenders for Rubber Tires to the Fire Engine "Shand & Mason," and also for the Widening of the Rims of the Wheels.

PUBLIC NOTICE.

Is hereby given that sealed tenders endorsed: Tenders for Rubber Tires, and addressed to the undersigned, will be received up to the 10th day of October instant, at four o'clock, in the afternoon, for the widening of the rims of the wheels of the "Shand & Mason" Fire Engine, and the placing thereon rubber tires. The said tires shall have to be guaranteed for two years and inspected and accepted by the Chief of the Fire Brigade before being accepted. Said fire engine can be seen by applying at No. 5 Fire Station.

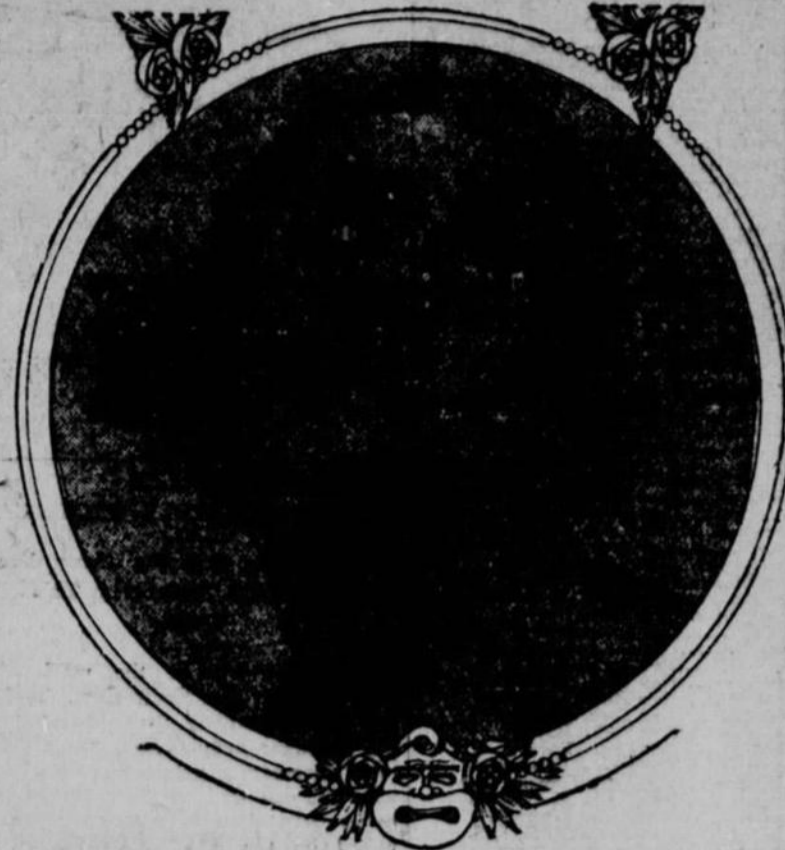

All necessary information can be had from the Chief of the Fire Brigade. The City does not bind itself to accept the lowest nor any of the tenders, and the contractor shall pay the cost of drawing up the contract and of a notarial copy for official use.

By order, (Signed) AUG. MALOIN, Secretary Fire Committee

A STRONG COMPANY SUPPORTS NAZIMOVA.

Nothing that Nazimova has ever done since she played her first part in English, nine years ago, is said to offer her such remarkable opportunities as the title role in her new play, "Bella Donna," that has been adapted from the famous novel by Robert Hichens, by James Bernaru Fagan. It is perfectly true that as portrayed by the distinguished Russian actress the character shows the vampire in all its hideousness—a woman who stops at nothing to gain the coveted goal that she seeks; a woman who laughs at kindness and scoffs at friendships, but is willing to taste of the dregs of the cup to gain her selfish gratifications. As unpleasant as the role may be, there is said to be a powerful moral lesson in the

four acts that in her hands the role is unquestionably the most fascinating that she has ever played. The heroine of "Bella Donna," is soulless professional beauty. As the play opens, Bella Donna is nearing middle life and her one great fear, is that she will lose the comeliness with which she has so long been able to lure the victims of her passion. An enthusiastic young Englishman of position and means, who has prospects of exceptional wealth has come upon her horizon and she decides to marry him. Nazimova's supporting company in its entirety is identical with the organization seen in her support last season during the successful run of the play at the Empire theatre, New York. Charles Frohman presents Nazimova in "Bella Donna" at the Auditorium, Monday, October 20th.

BRIDE SEEKS HER FOUR DAY HUSBY

MRS. PARKER UNCERTAIN WHETHER HUSBAND LEFT VOLUNTARILY; FEARS FOUL PLAY.

Chicago, Oct. 10.—Mrs. Ralph C. Parker of Indianapolis, a four days' bride, is in a quandary at 6103 Westworth avenue. Her husband has disappeared. She wants him back, but she doesn't want any publicity with the recovery. Also she isn't sure whether he is stying away voluntarily or has met with foul play. As a result of her uncertainty she changed her mind about getting a warrant out for his arrest after applying for one at the Court of Domestic Relations, and notified the police.

Parker, who said he was the son of a wealthy ranch owner in San Antonio, Tex., left his bride at the Blackstone hotel on Wednesday. His wife formerly was Miss Irene Hoy.

Followed to Indianapolis.

"I met Ralph Parker in Frankfort, Indiana, about two years ago. Mrs. Parker said: "We became great friends and when I went home to Indianapolis he followed and obtained a position there.

"Last Saturday we went to Louisville, Ky., and were married. Several of my friends accompanied us. It was a civil ceremony. Sunday we came to Chicago and went to the Blackstone hotel.

Wednesday morning he left after packing a suitcase and saying that he was going to a laundry and then to the Y. M. C. A. to receive a letter from his father.

Called Her On Phone.

"At noon he called up on the telephone. He said he had obtained the letter and would come back to the hotel as soon as he could get some one to identify him so he could cash a check for \$800 that was in the letter. He said that we should go motoring in the afternoon. I have not seen him since.

"He had about \$200 of his own money with him when he left. I am not at all sure that he has deserted me. He may have met with foul play."

Mrs. Blanch Patterson of 1759 West Monroe street asked the police to search for her husband, Roy A. Patterson.

SERVED 'EM RIGHT.

Norman Hapgood, the editor-reformer of New York, was talking about a political mutineer.

"Such fellows," said Mr. Hapgood, "ought to be served as Dr. Steenthly served his congregation.

"Dr. Steenthly, on a sultry September morning, preached with sincerity and vigor a sermon that he had prepared with great pains.

"But, for all the force of his argument and delivery, the good doctor was much vexed to see that a part of his congregation slept. Several of his leading parishioners even snored.

Dr. Steenthly, at the end of his discourse, pounded on the lectern, and, when all were at last awake, he said, very firmly and mildly:

"My friends, this sermon cost me a great deal of trouble, and I don't think you have paid the attention it deserves. I shall, therefore, repeat it. My text I take from—"

"And for a second time Dr. Steenthly preached his sermon from beginning to end."

Law Should Stop Sale Of Elastic and Spring Trusses

Such Misery-Causing Makeshifts Are the Ruptured Man's Worst Enemies

How 60 Days' Trial Protects You

Depending on elastic or spring trusses like shown above is little less than slow suicide. Such contraptions are almost sure to shorten your life.

It's hard to make them hold, even when drawn so tight that they scarcely give a minute's peace. They are simply a curse to wear. And because they nearly always let their victims get worse all the time, they are yearly forcing thousands of people into risking their lives by undergoing operation. These unscientific makeshifts cause so much misery and such a shameful waste of money that the law should put a stop to their sale.

Don't Buy Anything For Rupture Without Giving It a Thorough Test

There's only one reason in the world why you or any one else ever gets saddled up with good-for-nothing makeshifts— It's simply because you trust to a mere try-on or hasty examination instead of first making a thorough test.

A truss or so-called "appliance" may seem alright when you first try it on and afterward prove utterly worthless. The only way you can ever make sure of exactly what you are getting is by sixty days' trial—a thorough day-after-day test. And there's only one thing of any kind whatever for rupture that you can get on such a long trial—

Only One Thing Good Enough To Stand A 60-Day Test

We'll make you a guaranteed rupture holder—make it to your measure—and let you give it a thorough 60-day test without asking you to risk a cent. If it doesn't keep your rupture from coming out or bothering you in any way, no matter how hard you work or strain—if it doesn't prove every claim we make—then you can send it back and it won't cost you a single penny.

See What It Does This guaranteed rupture holder—the famous Cluthe Automatic Massaging Truss—

is made on an absolutely new principle. It is far more than just a truss—it is a completely cured hundreds and hundreds of people whose cases seemed almost hopeless. It has so thoroughly proved its merits that many physicians in all parts of the country now recommend it instead of advising operation.

Will Save You From Operation

The Cluthe Truss has such a remarkably strengthening and beneficial effect that it is completely cured hundreds and hundreds of people whose cases seemed almost hopeless. It has so thoroughly proved its merits that many physicians in all parts of the country now recommend it instead of advising operation.

No Belt—No Leg-Straps—No Springs

Does away entirely with the curse of belts, leg-straps, and springs. People say it is as comfortable as their clothing. It is water-proof—will hold in the bath. Also perspiration-proof and easily kept clean.

Get World's Greatest Rupture Book

There are so many wrong ideas about rupture that we have taken the time to sum up in a book all we have learned during forty years of experience. This remarkable book—cloth-bound, 96 pages—is full of facts never before put in print. It shows why depending on elastic or spring trusses is about the worst thing you can do.

It exposes the humbug "appliances," "methods," "plasters," etc.

It explains the dangers of operation. And shows why, if you manage to live through it, you may have to keep on wearing a truss. And it tells all about the famous Cluthe Automatic Massaging Truss—how simple it is—how it ends constant expense—how you can test it on sixty days' trial without having to risk a penny, and how little it costs if you keep it.

Also gives voluntary endorsements from over 5,000 benefited and cured people. The minute it takes to write for this book may make a big difference in the rest of your life. Don't fail to get it—just use the coupon or simply say, in a letter or postal card, "Send me your book."

BREAKS A COLD IN A FEW HOURS

FIRST DOSE OF "PAPE'S COLD COMPOUND" RELIEVES ALL GRIPPE MISERY.

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken, will end grippé misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest, relief known, and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

TURCO-BALKAN WAR AND ITS EFFECT ON TOBACCO PRODUCTION

Vienna, Oct. 8.—The fields producing the best Turkish tobacco in the world, the kind that is sent to Constantinople for the consumption of the Sultan, and which is sold at the highest prices in the American market, are about to change ownership. For centuries they have belonged to Turkey; today the contest between Bulgaria and Greece for the final possession of the port of Kawalla, in southern Manchuria, will decide their future owner.

In the rich country behind Kawalla grows the best tobacco in all the Turkish Empire. The finest quality comes from the mountain slopes, the crops raised in the plains being more remarkable for quantity than quality. The best of all comes from the left bank of the Karasu river, above Kanthi, and is renowned throughout the tobacco world under the name of Giubek. This is the product that brings the highest prices, both in Europe and the United States.

The industry at Kawalla has been built up by the Turks slowly and carefully, through many decades.

The Greeks are not inclined to careful agriculture in the tobacco fields, and while the Bulgarians make good farmers, they have had comparatively little experience in tobacco growing.

The stores of Turkish tobacco on hand at the present time are so extensive, however, that it probably will be two or three years before smokers of real Turkish cigarettes will experience any shortage as a result of the Balkan war.

Makes Hairy Growths Vanish From the Skin

(Aids to Beauty.)

It is now such an easy matter to banish hair not wanted that no woman need longer tolerate superfluous growths on chin, lip or cheek. A thick paste made with a little powdered delatone and water and spread on the hairy surface 2 minutes, then rubbed off, takes the hairs with it, and after it is washed to remove the remaining delatone it will be free from spot or blemish. To avoid disappointment, get the delatone in an original package.

188 and 194 ST. JOHN STREET

Public notice is hereby given that, under the Quebec Companies' Act, letters patent have been issued by the Lieutenant Governor of the Province of Quebec, bearing date the twelfth day of September, 1913, incorporating M. M. Hubert Mouson, fiscal director; Joseph Troncy, blay, restaurant keeper; Wilfrid Dubé, grocery; Joseph Vincent Jacques, manager; Francois Xavier-Eugene Frouin, agent; Celestin Massé, accountant; and Louis Picard, horse dealer, of the City of Quebec, for the following purposes: To carry on real estate business, lease, purchase and deal in immovable property; To survey, subdivide, improve and develop lands for the purpose of selling same or other purposes and to any arrangement, anything necessary and useful to such purposes for real-estate, business establishments or factories; To sell, lease or otherwise dispose of the property and undertaking of the company or any part thereof for such consideration as the company may deem fit and particularly for the shares, bonds, debentures or securities of any other company;

To issue and allot the paid up stock of the company in payment or part payment for any business, services, franchises, undertakings, rights, powers, privileges, lease, licenses, contracts, patents of invention, trade marks, immovables, stocks, bonds, debentures and other property and rights that the company may legally acquire;

To purchase its funds in whole or in part for the purchase of shares in other corporations carrying on in whole or in part a business or operations similar to those of the company;

To deal or trade with any other companies carrying on the same kind of business and generally with any arrangements necessary in the real estate business;

To build and erect stores, houses, dwelling houses, apartment houses and other kinds of structures generally on the immovable property of the company, and to hypothecate, sell, lease, exchange or otherwise transfer same, and acquire or hold hypothec or obligations on the land sold or disposed of by the company or of any other land that may appear suitable;

To purchase, erect, construct or otherwise acquire, hold, charter, maintain and operate manure, navigate and employ steam, gasolene and other boats, barges, ferriesboats and vessels for the purposes of its business or otherwise, and to purchase or otherwise acquire shares in any vessel;

To acquire, hold and operate saw and shingle mills and deal in lumber generally;

To enter into any arrangement with any municipality, municipal, local or otherwise, that may seem conducive to the company's objects or any of them, and to obtain from any such authority any rights, privileges or accessories which the company may think it desirable to obtain and to carry out, exercise and comply with any such arrangements, rights, privileges and accessories;

To manufacture, purchase, sell, deal and trade in all kinds of building materials, iron, steel, wood, brick, cement, stone, sand, gravel and other building materials and products manufactured or non-manufactured;

To draw make, endorse, accept, discount and issue promissory notes, bills of exchange and other negotiable instruments;

To make advances by way of loans to the purchasers or lessees of any part of the property of the company for the purpose of building or other improvements on same, and aid by way of advances or otherwise in the construction and maintenance of roads, streets, waterworks, drains and other improvements and works calculated to facilitate access thereto or to increase the value of the property of the company;

No power granted hereby shall be limited or restricted by the application or interpretation of any other power thus granted.

To do and carry on any other business and operations connected with or useful for the acquisition of the objects and for the exercise of the powers and obligations which the company is authorized, either as principals or as agents. The powers in each case not to be considered as limited or restricted by interpretation or deduction from the terms of any of same, under the name of "La Compagnie d'Immobilier Mequique Limited," with a capital stock of forty-nine thousand dollars (\$49,000.00), divided into four thousand nine hundred (4900) shares of ten dollars (\$10.00) each.

The principal place of business of the corporation will be at the City of Quebec, C. P. Dated from the office of the Provincial Secretary, this twelfth day of September, 1913.

**WILL LECTURE ON
IMPERIAL AFFAIRS**

MRS. DAMON WILL ADDRESS
DAUGHTERS OF THE EMPIRE
ON TUESDAY.

At the Chateau Frontenac on Tues-
day next (14th), at 3.30 p.m., Mrs.
Damon, from England, will give an
address on "Imperial Matters." The
meeting will be under the auspices of
the Daughters of the Empire and the
members of the different chapters and
of the Women's Canadian Club and
others interested in the subject are
cordially invited to attend.

Mrs. Damon is staying at Bishop-
thorpe, a guest of the Bishop of Que-
bec and Mrs. Hunter Dunn, and sails
for England on Thursday next. She
has come to this country from Eng-
land with the view of ascertaining the
feeling of the women of Canada on
the questions of moment in the Em-
pire today, and will have much to say
on Imperial defence—the education of
schoolchildren in Imperial duties—and
the education of the democracy in the
principal of co-partnership as applied
to ending strikes which will naturally
introduce something about the pres-
ent European tension.

Mrs. Damon, who possesses a most
interesting and attractive personality,
speaks broadly and non-politically.
She has given addresses in various
Canadian cities and has everywhere
interested and pleased her audiences.
She is a member of the Daughters of
the Empire and also of the Victoria
League in England. She is a firm be-
liever in the adage that "Union is
strength," and feels that if the heart
of the various sections of the Em-
pire, diverse as they are as to race,
religion and interest, remains true to
that saying, no strife, internal and ex-
ternal, will break the bond which
makes the British Empire a world-
power today and a protector and up-
holder of the rights and liberties of
all those who stand under her flag, etc.

PERSONAL

Mr. William Read, of Minneapolis,
Minn., representative of the Cunard
Steamship Co., Limited, is in town.

men; Mandoza, Genoa; Kursk, Libau.
Moville: Caledonia, New York.

**CHATEAU STEWARD
IS ENTERTAINED**

IS PRESENTED WITH GIFT AND
ADDRESS ON EVE OF AP-
PROACHING MARRIAGE.

On the eve of his marriage which
takes place next Wednesday morning
Mr. W. D. Twyman, Chief Steward of
the Chateau Frontenac, was enter-
tained by his fellow-employees and a
number of intimate friends on Satur-
day evening, when an address accom-
panied by a gift was presented.

Mr. James Halpin was master of
ceremonies presiding over the enter-
tainment, while the address was read
by Mr. J. H. O'Dowd and the presen-
tation made by Mr. Frank Sheehan.
Mr. Twyman responded suitably, ex-
pressing his warm gratitude to his
friends for their kind remembrance
and the wishes extended to himself
and the future Mrs. Twyman.

Mr. Twyman will be married on
Wednesday morning at St. Patrick's,
Montreal, to Miss Mary Jeanetta
Crofton, formerly of Quebec. The ad-
dress presented to Mr. Twyman was
as follows:

"The approaching event, which is
our excuse for bringing you here this
evening, is one which affords but lit-
tle less pleasure to us than to you.
Your colleagues of the staff of the
Chateau Frontenac as well as a num-
ber of your many personal outside
friends who have heard with pleasure
of your coming marriage desire not
only to congratulate you upon so im-
portant and joyous an event in your
life but to convey to you and the lady
of your choice the expression of their
heartiest wishes for your future hap-
piness and prosperity.

"One of the most prominent of the
milestones which mark the course of
the average man and woman's life is
that which signals the taking of a
partner in his or her joys and sor-
rows and we wish to avail ourselves
of this opportunity of expressing to
both of you our congratulations and
most hearty good wishes for a long
and prosperous career together.

"You have endeared yourself in an
eminent degree to all of us by your
uniform courtesy, affability and other
highly estimable qualities and will
carry with you to the altar and all
along the way of the coming years
the kindest sentiments from one and
all of us.

"As a tangible token of our regard
we beg your acceptance of the accom-
panying gift from your fellow em-
ployees and many friends and assure
you that they represent to only a very
small degree our appreciation of you
and the extent of our good wishes."

**LATE MR. ALEX. FORREST
IS LAID TO REST.**

The funeral of the late Mr. Alex.
Forrest, for 29 years a confidential
employee of the Quebec Bank, took
place on Friday afternoon last from
his late residence, No. 260 Grande
Allee to Chalmers Church and thence
to Mount Hermon Cemetery. The
funeral cortege was followed from
the late residence of deceased to the
church by a very large number of
representative citizens, including
merchants, officers and employees of
the Quebec and other banking insti-
tutions and members of the Royal Ar-
caneum, of which order deceased was
a prominent member for years.

The floral tributes were so num-
erous as well as choice in design, that
it was necessary to engage a double
carriage, which preceded the hearse,
to carry them. The chief mourners
were Mr. S. G. Forrest, son of de-
ceased, Mr. Geo. Forrest, his brother,
of Boston, Mass., and Mr. A. G.
Campbell, acting manager Canadian
Bank of Commerce, his brother-in-
law. The pall-bearers were the Elders
of Chalmers Church.

The sacred edifice was filled with
sympathetic mourners to assist at
the burial service, which was con-
ducted by Rev. S. T. Martin, who also
read the lesson. A full choir was in
attendance. At the conclusion of the
service the remains of deceased were
conveyed to Mount Hermon Cem-
etery for interment, followed by a large
number of mourners in carriages
anxious to pay their last tribute of
respect.

**BRITISH LADY GOLFERS
DO WELL IN STATES.**

Wilmington, Del., October 11—
Great Britain gained a narrow victory
over the United States in a woman's
team match today preliminary to
the women's national golf tournament,
which begins Monday on the links of
the Wilmington Country Club. The
British-Canadian team took four
matches to three for the Americans.
The result practically hinged upon
the result of the contest between Miss
Gladys Ravenscroft, formerly woman
champion of England, and Miss Lil-
lian Hyde, of New York. Neither
was able to obtain any material ad-
vantage all the way round and at
the sixteenth the match was square.
Miss Ravenscroft squared the match
on the seventeenth and when she
pulled her ball bad on the eighteenth
it looked bad for her. Miss Hyde,
however, failed to take advantage of
her mistake and in turn sliced her
ball and got into a deep bunker to
the right of the green. She took two
to get out and the extra stroke cost
her the hole and the match.

Miss Muriel Dodd, the English and
Canadian champion, played a good
game against Miss Margaret Curtis
of Boston, and won easily 5 up and 4
to play.

London, Oct. 12.—A party of thirty
suffragettes disturbed the service this
morning in St. Paul's Cathedral. They
persisted in chanting gospels to the
Almighty for their "sisters being tor-
tured by forcible feeding in Holloway
jail."

**PINI-CORSI WAS
MUCH APPRECIATED**

BUT ATTENDANCE WAS NOT
PROPORTIONATE TO PER-
FORMERS' MERITS.

Signor Antonio Pini-Corsi, the re-
nowned basso buffo of the Metropoli-
tan Opera Company, New York, with
Miss Louise Cox, soprano, and Attilio
di Crescenzo, tenor, favored the Que-
bec public with two performances on
Saturday last, a matinee in the after-
noon, and in the evening, when they
appeared in "Il Maestro di Cappella"
(The Choir Leader), a comic grand
opera in one act, followed by a select
concert.

The attendance, it is regrettable to
state, at both performances was ex-
tremely small in comparison to the
encouragement such operatic stars de-
serve, as well as local impresario, Mr.
J. A. Gauvin, who went to considera-
ble expense to bring these great stars
to Quebec.

"Il Maestro di Cappella" is a gem
among the one-act comic grand operas
in one act, in which the cast only pro-
vides for three characters. Barnaba,
the choir master, Geltrude, the cook,
and Benetto, the neighbor and friend
of Barnaba, and the true lovers of
cast who attended the Auditorium on
Saturday last were delighted with the
performance. The music furnished by
a special orchestra of 20 instruments
under the direction of Mr. Oscar Spi-
rescu, one of the Metropolitan or-
chestra conductors, was extremely pretty,
and greatly appreciated.

Signor Antonio Pini-Corsi, in the
role of Barnaba, is without exception
one of the most resourceful opera
comedians of classic renown who ever
appeared before a Quebec audience.
His rich, highly cultivated bass voice
and easy graceful acting is most charm-
ing, and his depicted worst lest some
one would steal his "Cleopatra," when
Geltrude frightens him into believing
that the French were in the city and
going from house to house stealing
whatever they could lay their hands
on. But when he discovered that he
is being made a joke of and sends his
friend Benetto out to procure wine
and remains alone, and dreams of the
fame he will win when his work will
be performed at Scala. He then goes
through the score, imitating the differ-
ent instruments, and is so versatile in
his acting and singing that he fairly
entrances the audience, and the aid he
receives from the orchestra rouses the
greatest enthusiasm.

Miss Louise Cox, as Geltrude, the
cook of Barnaba, in her wonder how
she will sing in Barnaba's latest com-
position, acquitted her part with abili-
ty and exquisite taste that places her
in the first rank of living soprano
operatic stars. She is the possessor
of a sweet, well modulated and highly
cultivated voice, excellent in its range,
and manages her high notes from the
rise to the drop with the greatest
ease. Her cadence is rich in its clear
purity, and her pronunciation in Ital-
ian and later in English, was remark-
able for distinctness and sweetness of
expression. The trio parts in which
Barnaba, Miss Cox and Benetto took
part was perfect, and in the last part
when Barnaba calls Geltrude and goes
through the role of "Cleopatra" to-
gether, when he becomes so pleased
at the success as he corrects her
phrasing and seeks to embrace her,
and finally ends the scene in a duet,
their singing and portrayal is simply
beautiful.

Mr. Attilio di Crescenzo is a tenor
singer of unqualified merit, whose
voice is sweet in cadence and contains
all the properties of a flute, and car-
ried out his part in the opera with ex-
cellent success, which contributed to
the superb rendition of the one act
comic opera gem.

In the concert that followed Miss
Louise Cox sang with exquisite sweet-
ness the jewel song from Faust, which
fairly entranced the audience, who
showed their appreciation of her ar-
tistic merit by vociferous outbursts
of applause that brought her before
the footlights a second time. She also
sang The Cossack Lullaby, with beau-
tiful effect, and had to acknowledge
the persistent demand for an encore
by again responding.

Signor Pini-Corsi was very pleasing
in his song "Dainty Little Dora," but
the audience could easily realize that
he was best in comic opera.

Mr. Attilio di Crescenzo sang the
solo La Donna e Mobile from the
opera "Rigoletto" in a masterly man-
ner, that demonstrated all the rich
intrinsic properties of his magnificent
tenor voice, and the applause that
greeted him after he was finished, was
so great that he also had to respond
a second time. He also sang Neapo-
litan songs that delighted the audi-
ence.

The entertainment was on the
whole extremely delightful, and de-
served better patronage from the
public.
