AWARD MILLIONS

DARING ATTEMPT

U.S. RAILWAYMEN AT JAIL BREAKING

A Billion Was What They

Wanted So General Strike

Hangs by a Thread.

Chicago, Ill., July 19.—(By the Ass'd. Press).—The Railway Labor Board, created under the Esch-Cummings Transportation Act, will hand down tomorrow morning its first award, increasing the pay of virtually all the 2,000,000 railroad employees of the United States.

Tonight, on the eve of the decision, reports from reliable quarters indicated the award would average from 50 to 60 percent of the amount asked by the men, or between \$500,000,000 and \$600,000,000 of the billion dollar total they sought.

Whether an award on the basis reported would be acceptable to the men, no official was prepared to say. Nearly one thousand brotherhood chairmen and executives held an all-day session to discuss union affairs and adjourned until tomorrow morning, when they will receive the Board's report.

Feeling of pessimism was evident when the union leaders met, and privately they did not hesitate to declare that a general strike was a possibility. Tonight, however, it was virtually known that union chiefs themselves would not call a strike, but will submit the question of rejecting the Board's award to a referendum.

Immediately upon the announcement of the award tomorrow the Grand Council of Brotherhood will be called, in the first session in more than a year. Sixteen groups of rail workers will be represented, and they will act upon the award, section by section.

At the general meeting of union leaders today, at which Mr. McDuff, Chairman of the Esch-Cummings Union, on the Rock Island System, was elected Chairman, credentials of all unions representatives were carefully examined before they were allowed to pass through a closely guarded door. Secrecy shrouded the meeting.

The only union leader who was outspoken concerning the situation was E. S. Heberling, President of the Switchmen's Union of North America. "If the award is not sufficient to assure a decent living, we will take concerted action," he said.

BISHOP AND MAYOR

EXCHANGE COMPLIMENTS

Freedom of New York is

Offered to Australian Pre-

late.

New York, July 19.—Archbishop Daniel Mannix of Australia, was extended the freedom of the city and officially welcomed by Mayor Hylan at the City Hall today.

"American delights to honor those who have stood forth courageously in the defense of freedom and justice and humanity," said Mayor Hylan in his welcome address. "This city, so typical of America in its support of the ideals of liberty and independence for all struggling and oppressed peoples, recognizes in your Grace a spirit kindred with its own."

"America may not need Australia," replied Dr. Mannix in thanking the Mayor, "but Australia may need America. I assure you in the name of the Australian people that the compliment paid me will be valued in Australia."

THE NATIONALIZATION

OF PALESTINE URGED

At Zionist Conference Presid-

ed Over by Baron Roths-

child in London.

London, July 19.—The Zionist conference here today adopted the recommendation of the Commission of Forty on the Palestine property ownership question, providing that all the land and the property in Palestine be declared the property of the Jewish people, and that the control of this property be gradually assumed by the Palestine state.

This recommendation, made in the majority report of the Commission, submitted this morning, was approved amidst a great uproar raised by the Socialists in the conference who favored the minority report. The minority recommendation was that the land and property be declared immediately the property of the Jewish state and that private ownership and speculation be forbidden.

Adolph Bohm, an Austrian delegate presented the majority report, which produced such a heated discussion in Yiddish that Baron de Rothschild, who presided, maintained order with difficulty.

Bohm said the plan was to colonize Palestine by the settlement there of Jews without means, by buying land out of the Jewish national fund and employing Jewish labor exclusively. The settlers should place themselves unhesitatingly under control of the fund, Bohm added, and agree to eventual nationalization of the land.

The speakers on behalf of the minority report declared that the true Zionist ideals would be lost sight of and that Palestine could never be properly developed unless there were complete nationalization.

TIME LOSS DUE TO STRIKES.

Ottawa, Ont., July 19.—(Can. Press).—Time lost due to industrial disputes during June was greater than during May 1920, but much less than during June 1919. There were in existence during the month sixty strikes, involving about 12,406 workers and resulting in a time loss of 135,502 working days. At the end of June there were on record in the Labor Department 33 strikes, involving about 5,152 working people. Time lost from strikes during May was 145,168 working days; in June, 1919, 1,370,601 working days.

MCGILL PROFESSOR

HAS RESIGNED

Montreal, July 19.—Nathaniel E. Wheeler, M.B.C. Assistant Professor of Physics at McGill University, has resigned to accept a position on the staff of the University of Colby, Waterville, Maine. Prof. Wheeler is a graduate of Colby.

NEW BUDGET

RETURNS PLEASING

While Official Figures Un-

available Till August Taxes

Show Good Results.

Ottawa, Ont., July 19.—While no official figures will be available till early in August, the receipts from the operation of the new budget, it is learned at the Finance Department, are most encouraging. When the budget was delivered it was not possible to make any accurate estimate, though from the total turnover in Canadian trade some idea was had of the revenue from the sales tax. What would come from the luxury taxes was more problematical. By some the total new revenue was estimated at \$100,000,000 a year and it is understood that the receipts so far fully justify this conclusion, while the trades affected are believed to be pretty generally conforming to the law, there are delinquents and the results cannot properly be sized up until they are got after, as certainly will be done. The law provides very heavy penalties for evasions or misrepresentation and it is intended to apply it very rigorously.

In the current financial statement distinction is drawn for the first time between active and non-active assets. Non-active assets including railways to the amount of \$250,000,000 have been struck off in computing the net debt which is now placed at two billion three hundred millions. There is also a special column for war tax revenue duly itemized.

In the first three months of the fiscal year the business profits tax has produced eight and a half millions, the income tax four and a half millions and other war taxes over six millions. The increase in income taxes is remarkable. In the corresponding period of last year it produced only \$130,448.

LIBERAL LEGACIES

IN DENNIS' WILL

Many Bequests to Employees,

Dalhousie University and

Local Charities.

Halifax, N.S., July 19.—By the will of the late Senator Dennis, which has been filed at the Registry of Probate here, fifty five per cent of the capital stock of Halifax Herald, Limited, publishers of the Halifax Herald, Evening Mail and Sunday Leader, has been left to W. H. Dennis, nephew of the deceased and Vice-President of the Company, since its re-organization some years ago. Of the remainder of the stock, thirty five per cent is left to William Alexander Dennis, son of the deceased, and ten per cent to Andrew W. Robb, a son-in-law, in trust for his son a grandson of Senator Dennis.

To H. Wier, Editor of the Evening Mail for forty years associated with the late Senator Dennis in the publication of his newspapers, is left \$10,000; to W. R. McCurdy, an employee of thirty years standing, is left \$5,000; to John Trider, for forty six years head pressman, \$1,000 and to Miss Alice Houston, an employee of twenty years standing, \$1,000.

The public bequests include the sum of \$100,000 to endow a chair at Dalhousie University to be known as the "Eric Dennis chair of government and political science" in memory of Captain Eric Dennis, M.C., a son of Senator Dennis, killed in the battle of Vimy Ridge, an additional \$30,000 to be added to the endowment of the library at Dalhousie University and \$50,000 to be distributed as Mrs. Dennis, widow of the deceased, elects, among the various charitable and philanthropic institutions of the city, Protestant and Roman Catholic.

The residue of the estate is to be divided among Mrs. Dennis to whom is left the Halifax residence and contents, and the children of the deceased, including the children of the late Mrs. Andrew W. Robb, as representing her.

GENERAL MANAGER BRADY

ABOARD DERAILED TRAIN

And Other Officials — East

Bound Express Accident

Due to Heavy Rains.

Ottawa, Ont., July 19.—(Canadian Press).—A soft spot on the tracks, due to recent heavy rains, was responsible for the derailing of a special eastbound Canadian Northern train at Pelly on Sunday evening. The engine, caboose and two special cars left the train when the accident occurred about 6:35 and after ploughing up the right of way for some distance the train was brought to a standstill, without any of the coaches being overturned.

The train was fortunately proceeding towards Ottawa at a slow rate of speed when the accident happened and only one person was reported injured, viz Mr. A. Wilson, Ottawa, an employee of the Company who was bruised and scratched. The train was a special and had on board the General Manager of the Company, Mr. F. P. Brady, of Montreal and General Superintendent Mr. E. Crombie, Toronto, together with a number of other officials of the road.

ACCIDENT ON

LINER AQUITANIA

Engineer Killed and Stoker

Injured When Stop Valve

Blew Off.

London, July 19.—An engineer was killed and a stoker injured on board the Cunard Line steamer Aquitania off the coast of Ireland today when the stop valve of one of the boilers of the steamship blew off, according to a wireless despatch received here.

The steamer reduced speed and made repairs and then proceeded on her voyage for New York.

The Aquitania sailed Saturday from Liverpool on her first trip as a passenger vessel since the war. The vessel had been converted into an oil burner. The sailing of the steamer was delayed owing to a dispute on board as to whether one man should tend nine or twelve oil furnaces.

FLEW HALIFAX

TO LAKE ST. JOHN

Lookie And Wilson Pilot Their

Hydroplanes Successfully

Over 600 Mile Course.

Ottawa, Ont., July 19.—(Canadian Press).—Word has reached the Air Board offices here of the completion of the successful flight of over 600 miles from Halifax to Lake St. John, Que., by Col. Lookie, of the Civil Operations Branch of the Air Board, and his companion, Colonel Wilson. The officers each piloted a "flying boat" which was to be delivered at Lake St. John from Halifax for exploration purposes in the region north of St. John. The expedition and survey work to be carried out is being financed jointly by the Quebec and Federal Governments. Instead of following a river along its course, Colonel Lookie flew across country using a series of lakes as landing places.

Air Board officers here regard the flight as a remarkably successful, which had not previously attempted in Canada under similar conditions. In the survey and exploration work which is to be carried out in the northern part of Quebec Province, ground can be visited by hydroplanes which would not be accessible within six weeks' journey by canoe and on foot, and these latter two were the only modes of traveling previously employed.

The hydroplane station which is being opened at Lake St. John will be continued in operation until this fall, it is anticipated.

COAL DISTRIBUTION

BEING ARRANGED FOR

Between American and Canadian

Authorities—Great

Need for Conservation.

Washington, D.C., July 19.—Coal operators and railroad executives presented to the Inter-State Commerce Commission today a plan agreed to by them, designed to facilitate the distribution of coal to Canada as well as New England, and the Northwestern states. Details of the proposal were withheld until the Commission has an opportunity to study it. Sufficient coal is being mined in the eastern territory, it was said, to meet current needs, but unless transportation arrangements are modified, enough of it will not be moved into the Northern districts named to prevent the winter shortages.

Messrs. Carvell and McLean of the Canadian Railway Board have been in conference with the members of the Commission regarding the situation in the Dominion.

CANADIAN COMMERCE

AGENT SHOWS RESULTS

Has Interested English and

French Manufacturers in

Canadian Possibilities.

Montreal, July 19.—Colonel MacDonald, D.C.M.G., who arrived on the C.P.O.S. Melita last evening, has just returned from England where he was working on behalf of the closer trade between Western Canada and Great Britain. The Colonel reports that his trip was most successful and as a result the following has been settled and mutually agreed upon.

One hundred and twenty British manufacturers, accompanied by Lord Desborough and Mr. Musgrave, of the London Chamber of Commerce, will meet the representatives of Western Canada in Toronto next spring. The meeting is referred to as the Empire conference of British chambers of commerce and will be held next April. Colonel MacDonald also stated that large Paris manufacturers have agreed to charter two sample trains, which will tour Canada from coast to coast, exhibiting post-war marvels of French industrial recovery and strength.

PREMIER TACHÉREAU

VISITS MONTREAL

Montreal, Que., July 19.—The Hon. L. A. Tachéreau, new Premier of the Province of Quebec, is in Montreal today for the first time since he succeeded Sir Lomer Gouin on July 8 last. He was somewhat reticent as to his future intentions and those of his government for the future administration of the Province, owing to the fact as he explained, that it was his intention to outline his policy at a banquet in Quebec on July 27. He also stated that it was his intention to pay frequent visits to Montreal to hear the wishes of its citizens.

MARRIED CLERGY

London, July 19.—(By Can. Ass'd. Press).—The Methodist conference resolved that all married ministers shall receive a stipend of at least \$250 per annum, with an increase to pre-war married ministers of \$120 annually.

REPAIR DEPARTMENT

This is the month to examine the household Table-ware, Spoons, Forks and all silver plated articles.

Collect the worn and damaged pieces and send them to us to be repaired, replated and refinished.

The work will be done carefully and thoroughly during the summer months, and the goods returned to the owners in first class order in September.

For July and August we make a special display of Antique Jewels to interest Tourists. This exhibition of old fashioned jewelry has developed until, today, it is a feature of our business in the summer time. The demand is for old Jewels in solid gold, old solid silver wares, diamonds in antique settings, more especially solitaires.

We again submit our advice on accidents to watches during the boating, bathing and fishing season.

If during your vacation your watch should fall into water, open up the case and immerse the whole watch in coal oil, sweet oil, or any oil obtainable, do not delay; watch materials are excessively expensive at present and often difficult to procure, the oil will prevent rust.

Mail the watch to us as quickly as possible.

WINS SCHOLARSHIP IN FRANCE

Montreal, July 19.—Francis Vezina, a student of the School of Higher Commercial Studies of this city, is to be the first student to receive a scholarship from the Provincial Government enabling him to study in Paris, France. A law passed last session provided that the Provincial Secretary of Quebec might provide five scholarships of the value of \$1,200 each for teachers and students to study abroad.

MEASURES TO PROTECT

FOREIGNERS IN CHINA

Washington, D.C., July 19.—Apprehension as to the safety of foreigners in China, resulting from the fighting in progress between the forces of the two rival Chinese factions was lessened today by advice received by the United States department from Peking.

General Wang, commander of the forces in Peking, the advice said has taken measures to protect foreigners, while reports from Tsin Tsin and other points in the zone of military activity indicates a disposition on the part of the leaders of both factions to protect the foreign colonies.

City of Quebec. District of Quebec.
CITY OF QUEBEC—CITY HALL.
BY-LAW NO. 243.
By-law to Amend By-law No. 238.
Reconstruction.
(Drawn up in the French Language)
At a meeting of the City Council of the City of Quebec, held on Friday, the 19th day of June instant, (1920), the following By-law was read for the first time.
It is hereby ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts as follows, to wit:
Article 59 of By-law No. 243, passed by this Council the 15th day of January, 1916, is replaced by the following:
39A—No covering or "Marquise" whatever shall be built over a sidewalk unless a plan thereof shall have been submitted to the City Engineer and accepted by the Road Committee.
Moreover, in every case, said marquises must hang from the wall and cannot be supported by columns.
The present By-law is declared as forming part of By-law No. 243.
Public Notice.
It is hereby given that in conformity with the provisions of the law, the above By-law shall be read a second time for adoption, on Friday, the 23rd day of July, 1920.
By order,
H. J. B. CHOUINARD,
City Clerk.

MAIL CONTRACT
SEALED TENDERS, addressed to the Postmaster-General, will be received at Ottawa until noon, on Friday, the 20th August, 1920, for the conveyance of His Majesty's Mail, on a proposed Contract for four years, twice per week between BETHSAMIEMES & HAMILTON COVE (General's Pleasure), from the Postmaster-General's Pleasure.

FROCK OF DOTTED SWISS.

By Gertrude Boreford.
Here is a charming war-weather frock for the little miss of six merry summers. The dots that cover the sheer white swiss are of a delightful shade of blue. Of course, if your little girl should have brown eyes, you might duplicate this dress in a brown dotted swiss. Like a coat, it opens all the way down the front where it is fastened with large mother o'pearl buttons. Frills of crisp, white organdie encircle the neck, the arms, and show where the pockets are concealed. A narrow belt of black patent leather completes this dainty dress.

Chic Gingham Frocks.

By Rita Stuyvesant.
A clever little girl whom recently met at a summer camp showed me an adorable smock fashioned from a remnant of gingham, and so popular did it become that nearly all the girls in camp were wearing them for morning or porch use. Only two and a half yards are needed and a half yard of white pique for trimmings.
This smart smock, made from red and white checked gingham, hung from a shallow yoke with a deep heading of smocking. There was a deep collar of pique at the neck split both front and back, and tied with a black silk bow.
The sleeves were fashionably short and cuffed in white. Big pockets were hooked to the front, and although the blouse hung almost knee length, it was opened all down the back. A few pearl buttons were used to fasten it at the top.
Another blouse seen at camp was cut from green striped gingham colored and cuffed in green chambray, although the white pique is more attractive. No smocking was used, but the blouse hung with true peasant charm. There is something of juvenile attractiveness in the blouse, which opens in the back and the big round collar reminds one of studio days. A blouse of this kind might be made in an hour.
Another blouse may be made with lavender and white plaid gingham with fluted Peter Pan collar and cuffs of white organdie.
Very practical, too, are these pretty blouses to wear with one's white skirt for mornings. Plain colored frocks that have become too tight in the waist may be boiled out white, and the skirt used on a lining, and this worn as a foundation under-dress for the gingham smock. Perhaps you have a piece of gingham left from a frock, and this might be utilised to advantage. A small length will make a cunning blouse for a child.

"AVERAGE MAN" SCORES ONE

Finds Joy in Reminding Better Half That She is Also Victim of New Tax.
The average family has been having heart to heart talks for months on how expenditures may be cut down and something of the average salary put in the bank for the annual vacation. The average man has been trouble, too, as he puffed the long, black cigar—not financially trouble, but the result of a little worrying that some day the average woman was going to get personal about their saving plan. It came

SAY "DIAMOND DYES"

Don't streak or ruin your material in a poor dye. Insist on "Diamond Dyes." Easy directions in package.

"CORN"

Lift Right Off Without Pain

Don't hurt a bit! Drop a little "Frezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Frezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

A healthy body means healthy arteries. The railways are the arteries of Canada

IN the operation of railways Canadians hold high reputations.

The chief Canadian systems are operated over great stretches of territory presenting widely different problems.

Their traffic obligations fluctuate rapidly with the seasons.

Climatic conditions are sometimes difficult. Unusual foresight, skill and determination are called for.

Yet the only unfailing highways for the heavy traffic across the New World from China to France during the war—were Canadian railways.

Canada alone among the allied countries had no war-time transportation crisis. When foreign roads choked under their loads she relieved them of millions of tons. At a time when ships were the need of the hour no ship lost time in any Canadian port through failure of the railways to deliver cargoes at the docks.

To-day the Canadian producer still commands the fastest, the most dependable and the cheapest railway service in the world.

But the foresight that made this record possible could do nothing without MONEY! The skill that kept terminals uncongested had to be backed with MONEY! The determination that drove crippled engines ahead in the face of 40-below gales and mounting snow would in the long run have been useless without MONEY!

Thus to-day the alarming fall in the net revenues of the railways is a menace to railway efficiency. It injures railway credit. It dissolves the reserves needful to meet the expanding needs of a growing country. It imperils national prosperity.

Increased freight rates are imperative therefore, not merely on behalf of railways but in the interests of Canada itself.

This is the first of a series of advertisements published under the authority of The Railway Association of Canada formerly the CANADIAN RAILWAY WAR BOARD

AN EPIGRAMMATIC DEAN.
In his new volume entitled "Outspoken Essays," Dean Inge sets forth his observations of life, religion, politics, and other subjects of the day. Many are epigrammatic as well as gloomy, as may be gathered from the following extracts:
"It has often been noticed that every man looks a gentleman in khaki; and it is to be feared that many war brides have suffered a painful surprise on seeing their husbands for the first time in civilian garb."
"Religion remains as important as it was before the war."
"Man remains what he has always been—a splendid fighting animal, a self-sacrificing hero, and a blood-thirsty savage."
"Patriotism varies from a noble devotion to a moral lunacy."
"Public opinion is a vulgar, impetuous, anonymous tyrant who deliberately makes life unpleasant for any one who is not content to be the average man."
"No one can govern who cannot afford to be unpopular."
"No one is so cruel as the disillusioned sentimentalist."
"The Government policy is first to create unemployment and then endeavor it—the shortest and maddest road to ruin since the downfall of the Roman Empire."
"It is probable that men were happier in the Middle Ages than they are now."
"The clerical profession was a necessity when most people could neither read nor write. But today our best prophets and preachers are lay-men."
"Social unrest is a disease of town life."
"If women are sufficiently well educated not to care about diamonds the rents in Park Lane would go down."

SOVIET REPLY
TO BRITISH NOTEBolsheviks Decline to Come to
London—Say Britain Is Not
Impartial.

London, July 19.—The reply of the Russian Soviet Government to the British note concerning an armistice with Poland rejects in substance the British peace proposals according to the London Times, which today publishes a summary of the Soviet answer.

The document is a very lengthy one, adds the Times. It assumes that it will soon be published by the Government.

The Bolsheviks decline to come to London for the suggested conference according to the Times, because they say Great Britain is not impartial. They also object to the admission to the conference of delegates from the Baltic States, saying Russia already has made peace with them.

As to Poland, the Bolsheviks Government points out that the proposed armistice line is unfair to Poland, and that with direct negotiations the Bolsheviks are prepared to grant Poland a much more favorable frontier.

The Bolsheviks reply refuses flatly to entertain any conditions regarding the forces of General Wrangel and the refugees in South Russia, and demands the unconditional surrender of these.

The tone of the reply is sarcastic, says the Times, which declares it is aimed at driving a wedge between Poland and the Allies, by stimulating Polish dissatisfaction with the British proposal. The Times adds that it believes the reply will make it more difficult for Great Britain to enter into trade relations with Russia.

TRADE COMMISSIONERS'
OFFICE BOOMING

Montreal, July 19.—Lieut. A. M. Wiseman, M.C., has joined the staff of Major Edwards, Senior British Trade Commissioner in Canada and Newfoundland, and taken up his duties as chief assistant to Major Edwards at Montreal. Lieut. Wiseman, after demobilization, entered the service of the Board of Trade, London, and his meritorious work there has led to his being sent to Canada as assistant to the British Trade Commissioner here, the work of Major Edwards' office having so greatly increased as to require an enlargement of staff. As an instance of this, the number of visitors registered at the Trade Commissioner's office in June of last year was seventeen, and in the first half of the present month it was over two hundred.

WEATHER CONDITIONS TIE
UP AIRPLANE FLIGHT

Erie, Penna., July 19.—Threatening weather kept the four United States army planes on the New York to Nome, Alaska, trail blazing expedition from attempting the next jump to Grampian Rapid, Michigan, today. Captain St. Clair Street, in command, waited all day in hopes that the weather would clear, but late this afternoon decided to wait until Tuesday.

ARMENIANS REFUSE

Teheran, Persia, July 19.—The Armenian Government having refused to obey an ultimatum of the Russian Soviet Government, the Bolshevik army has received orders to advance and has already occupied the Province of Karabagh. The Bolsheviks are continuing their advance in order to operate jointly with the Turkish Nationalist forces at Mustapha Kemal Pasha.

ADDING UP THE WHEAT CROP

Calgary, Alta., July 19.—Three hundred million bushels is the estimate at present placed on the wheat crop of the three Western Provinces by J. M. Cameron, General Superintendent of the Alberta Division of the Canadian Pacific Railway, who returned to Calgary this morning after a close inspection of some portions of the Province. Alberta's quota, he said, would be somewhere about seventy million bushels.

FIGHTING IN CHINA

Washington, D.C., July 19.—Forces of General Tuan Chi-Jui, former Chinese Premier and Minister of War and head of the Anfu party in China, have been defeated by Chinese regular forces under General Wu Pei-Fu and driven back toward Mantoukuo, the United States Legation at Peking reported today to the State Department. The fighting occurred near Peking and the wounded are arriving in that city.

MANITOBA CROPS HOPEFUL

Winnipeg, Man., July 19.—The crop situation throughout Manitoba generally is not by any means serious through lack of rain, says A. J. Evans, Deputy Minister of Agriculture, today. Mr. Evans stated that many districts, in which there had not been a crop for a number of years are assured of a good average yield this year.

CAN. NATIONAL EARNINGS

Toronto, Ont., July 19.—Gross earnings of the Canadian National Railways for the week ending July 14, were \$2,000,000, being an increase of \$241,910 over the corresponding week of last year.

HARDING ASSAILS
WILSON'S POLICYRepublican Candidate Seems
To Believe "Foreign Com-
mitments" Paramount.

Marion, Ohio, July 19.—Senator Warren G. Harding, Republican candidate for the presidency, issued a statement today, his second in twenty-four hours, assailing the "foreign commitments" of President Wilson and the League of Nations covenant.

He quotes Colonel House, once the President's friend and advisor, as saying that the negotiations of a peace treaty before a League of Nations as created was suggested by the European Powers, and would have been the "obvious" thing to do. Friends of the candidate say that these attacks indicate that Senator Harding believes the Wilson foreign policy has become the paramount issue of the presidential campaign.

WHISKEY RUNNING
SYSTEM BROKENSeven Fines Aggregating
\$1,200 Levied and Several
More Warrants Issued.

Winnipeg, Man., July 19.—According to information given out today by Commissioner J. G. Rattray, of the Provincial Police, an extensive system of whiskey running has been broken up. Fines totalling nearly \$1,200 have been levied on seven and warrants issued for the arrest of several more.

Whiskey was loaded on a train at Portage-La-Prairie, under the name of a passenger, and then shipped over the border Station agents, expressmen and other employees of the Great Northern Railway were involved. The whiskey was kept hidden in a water tank at Portage-La-Prairie until a train came along. At Berkmann, where there is no agent, the whiskey was unloaded and stored in an elevator until arrangements could be made to have sectionmen take it over the line on gasoline jiggers. Warrants have been issued for the arrest of three trainmen living in the United States.

TORONTO OPPOSES
INCREASED RY. RATES

Toronto, Ont., July 19.—Toronto City Council this afternoon decided to instruct the City Solicitor to oppose the application of the street railway companies for authority to increase the freight and passenger rates.

HYDRO-ELECTRIC STATEMENT

Toronto, Ont., July 19.—Despite the fact that the Toronto Hydro-Electric Commission had to pay \$136,000 in wage increases last year, \$18,000 for exchange on bonds sold in New York, and \$10,000 for power delivered by the Provincial Hydro-Electric Power Commission to the Toronto Hydro Commission, but not sold, the local Hydro Commission shows a surplus of \$4,000 on the year's business. Unsettled conditions at the beginning of the Hydro year, and many factories closing down temporarily, accounts for the unsold power bought from the Provincial Commission. In the latter part of the year the demand for power was greater than the supply. An increase in power and lighting rates is about to be made by the Toronto Hydro Commission as a result of recent increases in wages, but the amount of the increase has not yet been indicated.

MARTIAL LAW ON
POLISH-GERMAN FRONTIER

Warsaw, July 19.—Martial law was proclaimed along the Polish-German frontier after the Polish military had rejected a detachment of thirty uniformed Germans who were endeavoring to cross the frontier west of Posen. The proclamation also followed the arrest of a number of Communists in Posen who were accused of placarding the city with signs reading "Poland will fall."

It was said that the Communists were sympathizers with a German faction which was designed to seize Posen if the Bolsheviks had threatened Warsaw. Within the last few days, Communists have been arrested at Warsaw, Lemberg and Lodz. The authorities confiscated a factory where swords and other arms were being manufactured.

PLEADED FOR IRISH CAUSE

Montreal, July 19.—The Irish cause was pleaded this evening to a large assembly at the St. Denis Theatre by the Right Rev. Dr. James Grattan Mythen, of New York, an ex-clergyman of the Episcopal Church of the United States, who has recently gone over to the Greek Orthodox Church. The bishop, in the course of his address, maintained that when Great Britain, in 1914 issued the challenge against Germany, on behalf of Belgium and the smaller nations of the world, she took Ireland out of domestic politics and made the Irish question a world issue.

The speaker was introduced by Alderman Dixon, representing Mayor Martin.

CIVIL SERVANTS
IN LABOR UNIONFederal Employees Have Se-
cured Charter From Domi-
nion Labor Congress.

Ottawa, Ont., July 19.—Today heralds the advent of a new unit in the ranks of trades and labor movement of the capital, composed of a large number of civil servants, who, working under cover, have secured a charter from the Dominion Trades and Labor Congress, which was handed to them yesterday by President Tom Moore, and will henceforth be known as the "Association of Federal Employees of Ottawa." Application for the charter was made to the Congress a week ago, and is backed by one hundred members of the Civil Service, from different departments of the Government, who have already selected a temporary set of officers and working executive until the new union finds its feet.

The new union is organized along the lines of the National Federation of Civil Servants of the United States and is affiliated with the American Federation of Labor, but has a clean slate in its charter by which its members will not be involved in any trades union disputes which may arise.

The new and somewhat unexpected move is the outcome of the strong sentiment which was voiced by a large number of delegates at the Civil Service Federation Convention held last August which was favorable to at once joining the Civil Service with the organized labor movement. Action at that time, however, was vetoed by the majority of the convention, which had the understanding that the question would again be dealt with at this year's convention.

Mr. W. J. Frank James, a clerk in the Inquiry Division of the Post Office Department, is the provisional president of the new union.

DENY IRISH REPORT

Dublin, July 19.—Official denial was made tonight of a report that two motor lorries loaded with soldiers had been bombed in the streets of Cork and that a number of soldiers had been killed.

ENGLISH NOTABLES DEAD

London, July 19.—(By Canadian Associated Press).—The deaths are reported of Richard Radford, Scottish shipbuilder, Sir Edmund Elton, of Somerset, Sir James Dick, veteran army surgeon, Lieut. Col. R. Murray, Rhodesia, and Temple Moore, architect.

PROHIBITION CANDIDATE

Lincoln, Neb., July 19.—W. J. Calder Wood, Vice-Chairman of the Prohibition Party's National Committee, said today that if either the Republican or Democratic candidates should issue a "clear cut statement" opposing weakening of eighteenth amendment, no prohibition candidate for the presidency will be placed in the field.

FORMER POLICE CHIEF

AWARDED KING'S MEDAL
Montreal, Que., July 19.—The King's Police medal has been awarded to former Chief of Police Grand-champs, of the Montreal force, for it is understood, the tacit manner in which he performed his duties in connection with the application of the Military Service Act. There are but five other recipients of the medal in the Dominion.

INCREASE IN RENT

Toronto, Ont., July 19.—A general increase in the rents of 240 flats and apartments of from \$5 to \$7 a month is being asked by the Toronto Housing Company. The present rentals range from \$25 to \$42 a month.

The reasons given for the proposed increase is the high cost of coal and the necessity for exterior decorations on the buildings.

FARMERS ELECT HARRY MILLS

Port William, Ont., July 19.—Hon. Harry Mills, Ontario Minister of Mines, was declared elected by acclamation to a seat in the Provincial House for this constituency, rendered vacant by his elevation to Cabinet rank. There was no opposition and Returning Officer Brown, at the close of nomination proceedings at 2 o'clock declared Mills elected by acclamation.

REFUGEES FLEE
BEFORE BOLSHIEVI

Warsaw, July 19.—(By the As'd. Press).—Thousands of refugees fleeing before the Bolsheviks are assembling at the railroad junctions in towns west of the existing front. It is estimated that more than 100,000 refugees have arrived in the region of Brest-Litovsk in the last few days.

EARTHQUAKE AT
LOS ANGELES

Los Angeles, Cal., July 19.—A sharp earthquake shock was felt here at 5:40 o'clock tonight.

No damage was reported from any quarter of the city. Evidences of panic were also absent.

SHIPPING MOVEMENTS.

Arrivals at Montreal, July 19:
Strs. Doonholm from Cardiff; Mon-
conensis from Louisville, N.S. Cleared:
Str. Canadian Seigneur for Liver-
pool.

Arrivals at Halifax, July 19:
Strs. Minnekahda from New York; Ros-
alind from New York; Hoxie from
Stockholm. Cleared: Str. Haguenauf
for Marseilles via Sydney, N.S.

Arrivals: Strs. Charlton at Ply-
mouth from Montreal; Nevisian at
Rottterdam from Montreal; Canadian
Voyager at Cardiff from Montreal;
Canadian Trapper at London from
Montreal; Memphis at London from
Montreal; Millal at Avonmouth from
Montreal.

HAD TO POSTPONE
CORK INQUIRY
IN SMYTH CASEOnly 12 Of The 296 Jurors
Were Present When The
Assizes Were Opened.

SINN FEIN NOTICE.

A Resolution Was Adopted at
A Meeting of Special Jurors
Held.

Cork, Ireland, July 19.—When the Court of Assizes opened here today only 12 of the 296 jurors were present and the court was deserted except for the police and military officials. Also it was necessary to postpone the inquiry into the death of Commissioner Smyth, of the Royal Irish Constabulary, who was killed late Saturday night in the Country Club, owing to the inability to secure jurors. The Assize jurors had received the following notice from the Sinn Fein Executive:

"With reference to holding an English court in this city behind barred wire, sand bags and bayonets, the Executive reminds you that no self-respecting Irishman will participate in the proceedings. You, therefore, are ordered not to attend the court."

At a meeting of special jurors which was largely attended the following resolution was adopted with but two dissenting votes:

"This meeting records its condemnation of the gross and criminal neglect of the British Government in taking no measure to inquire into and punish the wanton misconduct of a large number of men of the Shropshire Regiment in wilfully damaging and looting property in this city and also of outrages committed by British soldiers on the night of March 10-11, and failure to bring to justice the murderers of the late Lord Mayor McCurtain, that we enter our public protest that the existing Government has ceased to govern or protect individual life and property and we hereby resolve to abstain from attendance at the coming Assizes and call upon the jurymen not present to adopt the same course."

The military authorities today issued a report concerning Sunday night's disturbances in which it was stated that at several points soldiers on duty were ill-treated. It says shots were fired at unarmed soldiers in King's Street and that thereupon a party of six officers and sixty-two men and two lorries and an armored car were sent into the city. They were stationed at several points and the fire was returned in many cases.

The report adds that a patrol near the Coliseum was fired on by five civilians. The fire was returned and one civilian was seen to fall. The total number of rounds fired and the number of shots fired by the military was 148.

IRISH ARE STILL
BURNING MILITARY STORES

Dublin, July 19.—(By Associated Press).—A daring raid was carried out by armed men at the King's Bridge terminus of the Great Southern Railway this afternoon. The fire brigade was summoned, but the raiders refused to extinguish the flames when the circumstances of the fire was learned. Nevertheless the firemen kept the flames from spreading beyond the military stores.

DETERMINED TO KEEP TRADE

Washington, D.C., July 19.—Two methods have been established by law for preventing the diversion of business from United States ports by foreign shipping interests in an effort to defeat the provisions of the Merchant Marine Act. Chairman Benson, of the United States Shipping Board, declared today in an address to the National Association of Manufacturers. These methods, the Chairman said, are in the Merchant Marine bill. He first provides that preferential rates be granted by railroads to imports and exports moving in United States bottoms. The other gives the Inter-State Commerce Commission authority to give directions for embargoes or for the movement of traffic under permit over rail lines of the United States.

TO RAISE PERSIAN LAMB.

Hague, Sask., July 19.—David Brooker, a Russian farmer, has imported a pure bred Karakul ram and will experiment in the cultivation of the animal for the production of astrakhan or persian lamb. The importation was made from Mexico and the animal cost \$300.

BIG HUDSON BAY STORE.

Winnipeg, Man., July 19.—According to the announcement of Sir Robt. M. Kindersley, governor of the Hudson's Bay Co., the company will erect a \$5,000,000 store in the city in the near future. At the same time he announced the setting aside of \$1,225,000 as a capital fund to provide pensions for fur trade employees.

BRITISH CASUALTIES
IN ARAB REVOLT

London, July 19.—The approximate British casualties in the present Arab revolt in Mesopotamia are three British and Indian officers killed and fourteen wounded, 155 Indian troops killed or missing and 232 wounded, according to a statement made by Winston Spencer Churchill, Secretary for War, in answer to an inquiry made in the House of Commons.

The statement added that the garrison in Rumetia is holding out against the Arabs, obtaining supplies by airplanes and by raiding the town of Rumetia, which has been effectively bombed by British airplanes. The rebellion has spread to the Shamayah district. Six railroad trains have been cut off since the beginning of the outbreak. A column sent from Bagdad to relieve Rumetia has been hampered by Arabs continually cutting the railroads.

EXODUS OF TURKS
IS NOW ALARMINGBritish Commission in Smyr-
na Are Trying to Quiet Un-
easy Moslem Population.

Smyrna, Asia Minor, July 18.—(As'd. Press).—The British Commission visiting the Smyrna districts and other parts of Turkey occupied by the Greek army, are trying to quiet the uneasy Moslem population and stem the exodus of Turks, which is assuming alarming proportions.

British assurances that there will be no repetition of the massacres which occurred when the Greeks originally occupied Smyrna under the Supreme Council's order, have not quieted Turkish unrest. There is a general exodus of Turkish families eastward and southward into the Italian area and from Thrace into Bulgaria while Constantinople is crowded with the better class of Turkish families. As the Turks are the actual laborers and farmers in the occupied areas, the exodus is viewed here with alarm.

EXPLOSIONS CAUSE
STAMPEDE IN GERMANYMunition Dump in Sarre Re-
gion Has Been Ignited and
Population Is In Flight.

London, July 19.—A big explosion has occurred in the Sarre region of Germany, caused by aerial bombs, according to a wireless despatch. The inhabitants of the vicinity are reported to be fleeing as the explosion of gas shells is anticipated.

The wireless despatch says: "As a result of the spontaneous ignition of some rockets, which caused an explosion of a dozen aerial bombs, a tremendous explosion has occurred in a munition dump in a former German military park in the Sarre region."

"The inhabitants of the neighboring villages are fleeing, as the explosion of a large number of gas shells is expected."

"Two hundred railway carriages are being held in readiness in order to evacuate the threatened districts."

RAISE MILLION AND HALF.

Winnipeg, Man., July 19.—A delegation representing the Western Canada Colonization Association with representatives from Medicine Hat, Fort Qu'Appelle, Regina and Winnipeg assembled here and then left for Toronto and Montreal, to explain the aim and objects of the association to eastern business men. It is planned to raise one and a half million dollars from Canadian business men devoted to the settling of people on western lands.

START SALT DEPOSITS.

Fuslier, Sask., July 19.—A commencement will soon be made on the development of the deposits of Glauber salts in this district, and the company exploiting them expects to handle 30 tons a day at the start. The company will erect a plant 50 ft. by 100 ft. at the mine together with accommodation for its workmen.

RIGHTS ARE ACQUIRED.

Calgary, Alta., July 19.—A syndicate of English capitalists has acquired rights on two and a half sections of land about thirty miles north of here and will commence exploitation of the deposits of sodium sulphate as soon as machinery can be installed. The deposits are about four feet deep. The plant will be installed in units costing from \$10,000 to \$15,000 each with a capacity of 500 tons per month.

TO RAISE PERSIAN LAMB.

Hague, Sask., July 19.—David Brooker, a Russian farmer, has imported a pure bred Karakul ram and will experiment in the cultivation of the animal for the production of astrakhan or persian lamb. The importation was made from Mexico and the animal cost \$300.

BIG HUDSON BAY STORE.

Winnipeg, Man., July 19.—According to the announcement of Sir Robt. M. Kindersley, governor of the Hudson's Bay Co., the company will erect a \$5,000,000 store in the city in the near future. At the same time he announced the setting aside of \$1,225,000 as a capital fund to provide pensions for fur trade employees.

BRITISH CASUALTIES
IN ARAB REVOLT

London, July 19.—The approximate British casualties in the present Arab revolt in Mesopotamia are three British and Indian officers killed and fourteen wounded, 155 Indian troops killed or missing and 232 wounded, according to a statement made by Winston Spencer Churchill, Secretary for War, in answer to an inquiry made in the House of Commons.

The statement added that the garrison in Rumetia is holding out against the Arabs, obtaining supplies by airplanes and by raiding the town of Rumetia, which has been effectively bombed by British airplanes. The rebellion has spread to the Shamayah district. Six railroad trains have been cut off since the beginning of the outbreak. A column sent from Bagdad to relieve Rumetia has been hampered by Arabs continually cutting the railroads.

SEEK COMMERCIAL
FLYING PERMITSSuperintendent of Certificates
Branch of Air Force Re-
ports Large Demand.

Ottawa, Ont., July 19.—(Can. Press).—Applications for commercial flying certificates are reaching the Air Board in much larger numbers than was anticipated, according to Lieut. Col. J. S. Scott, M.C., A.F.

Superintendent of the certificates branch and who is in charge of civilian flying. The only thing necessary to ensure the success of commercial flying in Canada is for business men to give their support and assistance of a growing industry in a practical way, Col. Scott believes. Certificates already issued in Canada for commercial flying include the following: commercial air pilots, 48; private air pilots, 46; air engineers, 41; registered air craft, 52; air harbors, 25.

The latter are located in all parts of Canada, including Vancouver one, and two more projected; Edmonton two; Winnipeg two; Toronto two (Leaside and Armour Heights); Montreal three, and Grand Mere, one.

Col. Scott is convinced that with the development which has already taken place there is certain to be a great growth in aerial transport in the next few years.

WORK RESUMED ON
WELLAND SHIP CANALWill Require Five Years To
Complete The Big Under-
taking.

St. Catharines, Ont., July 19.—Work was resumed on the Welland ship canal today and it will probably take five years to complete the big undertaking. Only about a quarter of sections one, two and three were finished when the work was stopped by the Government about a year ago, owing to labor troubles.

FINANCIAL CONFERENCE
POSTPONED

Paris, July 19.—The Secretary-General of the League of Nations, in announcing officially today the postponement of the Brussels financial conference, says that a definite date for the conference will be fixed at the meeting of the Council of the League at San Sebastian, Spain, on July 30.

HALIFAX SHIP YARDS STRIKE

Halifax, N.S., July 19.—Five hundred men are now at work at the Halifax Shipyard according to J. E. McLurg, manager of the plant. Prospects of an early settlement of the strike are not very good, conferences having failed, but Mr. McLurg says that "as far as the shipyarders are concerned there is no strike on."

He maintains that men are being put on the plant's payroll as rapidly as work can be arranged for them. Today he said, about 80 additional men went to work. The strike committee maintain that the union ranks are stands firm and unbroken.

STOCK REDUCING SALE

Tuesday and Wednesday

Separate Skirts
Less 25 %

Every skirt in our large assortment will go into this sale—including such seasonable goods as Baronet Satins, Fan-ta-sie and Kumsi-Kumsa silks, tricolettes and Crepes. As well as all tub skirts.

QUEBEC, JULY 20, 1920.

CANADA'S FUTURE.

Extremely optimistic are the views in regard to Canada's commercial future which are held by the majority of those in the business world, most competent to form an opinion on the subject. One of the most thoughtful of the many interviews which have lately been given on the subject is one by Mr. D. Lorne McGibbon of Montreal, a gentleman who is admirably qualified to speak on the subject and who bases his opinions, among other things, upon the reports from the West, where—barring accidents or unforeseen climatic troubles—there will be a splendid crop. With cereals at their present prices, this means that hundreds of millions of dollars will go to the farmers, and through them into other channels of business and other forms of industry, thus bringing a great wave of prosperity to Canadian trade in general.

Then, he points out, that Canada is just beginning to realize the importance of our vast natural resources. He instanced the pulp and paper and lumber industries. But little attention was paid to the pulp business until a comparatively recent date, but there is now realized some thing of the great possibilities of an industry in our own hands. One can hardly venture to predict the enormous influx of capital this must bring to Canada and the immense value of our product.

America, as almost everybody knows, must look to Canada for her supply of paper. We have marvelous water powers, exceeding in dependable magnitude those of any other country in the world. Our supply of raw material is vast. Let us hope, says Mr. McGibbon, that those who have it in charge will see that it is conserved and used economically, for the well-being of the country and its permanent progress.

Then he pointed to our unrivalled wealth in mines and minerals. He would like to see a greater development of our coal mines. We have almost limitless supplies of coal. It only wants capital and industry to bring it to the surface, make it a marketable quantity and add to the wealth of the nation.

Referring to the financial situation, he said that it was only right and natural that those entrusted with the people's savings should be true to the trust reposed in them and careful to direct money into legitimate business rather than into the stock exchange.

Apart from the marvellous progress being made in the business world, Mr. McGibbon attaches much importance to immigration, which he believes we are to have upon a very extensive scale; both from over the Atlantic and also from the United States. He truly said that the world has its eye on Canada as the great country of the future. Canadians had little conception or appreciation of the preparations being made abroad for people to take up their residence in Canada. We must make ready to receive them, above all to have a select immigration only of those who would become thorough Canadians, believe in the British Empire and be loyal to its institutions. It was time for Canada to move forward, confident in her strength, and in a sane and sensible manner use her wealth for the permanent greatness of the country.

HOW BRITAIN HAS PRESERVED HER TRADE.

It was, of course, in terms of derision that it was at first said that Britain was a nation of Shopkeepers. In Capacity for financing and trading on the most gigantic plans with a surprising outlook upon the future of both National and personal business and credit, it cannot be disputed that Great Britain bears the palm. No better proof of this is needed than the wonderful financial burdens which she carried during the war, both in the matter of her own expenditure and in that of the loans and credits furnished to others of the Allied Nations. And all the time she has succeeded in keeping her grip upon the markets of the world. For the first half of the current year her exports exceeded in money value her export trade for the entire year, immediately preceding the war, or in other words amounted to almost three and a half billion dollars, which also exceeds by a billion and a half of dollars, her exports for the first six months of 1919.

The marvellous rapid recovery of business which Britain is making since the war is particularly due, of course to the steps taken by her at the opening of the war to protect her exporters and to hold their trade for them during the term of hostilities, so far as it could possibly be done. The Bankers' Trust Company of New York, thus describes the inner story of this protective work:—

"On November 3, 1914," "a very interesting arrangement was made between the Government, the banks and the Association of Chambers of Commerce of the United Kingdom to promote the export trade. To solvent traders were to be advanced funds equivalent to 50 per cent of moneys owing to them by debtors resident abroad, these advances to be used by traders to continue their business and pay their commercial debts to other traders and manufacturers.

"It was understood that the moneys provided were not to be taken by the banks to reduce loans or overdrafts or to pay bank acceptances, but were to be solely a new credit for meeting the purely trade obligations of the borrower and in pushing his business as rapidly as possible. Any loss was to be borne, 75 per cent by the Government and 25 per cent by the accepting banks.

"Similarly, the cotton trade was encouraged. The Government arranged a fund to be used to enable borrowers to meet market differences. The payment of the advances was guaranteed as to 50 per cent by the Government, 25 per cent by the Liverpool Cotton Association and 25 per cent by the lending bank."

Further protection was afforded by a limited moratorium declared by the Government, and in addition, action was taken to protect bills of exchange.

The bank of England made provision to discount pre moratorium bills, whether drawn by enemy aliens or others, without recourse to the holder, giving the acceptor the opportunity of postponing payment, interest being payable in the meantime at 2 per cent over bank rate.

At the close of 1914 it was estimated that some 400 million dollars of special loans of various kinds were being carried for the Government by the Bank of England. This total includes pre-moratorium bills and advances to traders.

Thus, England is making a speedy trade recovery because, even during the war, her hold on world markets and financing of her export trade never completely relaxed.

THE SHORTAGE OF FARM WORK.

The existing shortage of farm work is one of the greatest problems that is facing the world today. It is serious enough to threaten many people in the not far distant future with absolute starvation. There is so large a reduction this year of the acreage under cultivation, that even with the promising condition of the crop in our own countries, we are face to face with a reduced food supply. And notwithstanding this dangerous condition of affairs, the exodus from the country to the towns grows apace.

All the preaching of "Back to the land" seems to be of no avail. The question is very naturally and very properly engaging a large share of public attention. It does not help matters at all to tell the farmers that they do not know when they are well off, which is absolutely true—and that they are really the most to be envied class of the community. They cannot be made to believe it. The wonderful prices paid them for farm, garden and dairy produce do not satisfy them because of the high prices which they are compelled to pay for everything which they have to buy. They know of the extravagant wages paid in the cities and towns and of the short and easy hours enjoyed by the workers there and of the brilliant street scenes, fine clothes and gilded picture houses and saloons of every kind of the cities, and a craving after these things is undoubtedly stripping the countryside of hundreds of thousands of young men, many of whose own futures would be made much surer and happier by remaining on the land, and whose labor, useful as it may be in trade or industry, would be many fold more valuable to country and humanity if employed in the production of food. Much thought is being given to the subject and many suggestions are made for a solution of the problem. No action can be taken with any promise of success that does not take into account some of the exciting aspirations of the country folk. Much has been done by the agricultural departments of both the Dominion and the Province to ameliorate the farmers' condition by the making of good roads, the supplying of good seed and improved live stock, establishment of cooperative societies, agricultural lectures, etc., and both increased production and a better quality of products are some of the results attained. There is still lacking, however, the society, the entertainment and other attractions of town and city life, and here, it has been wisely suggested, is where something may perhaps be accomplished to add to the attractiveness of country life.

Professor Atkinson of the National Grange is authority for the statement that only one per cent of the boys who left the farms of the United States to join in his war service have returned to again take up production from the soil. The other ninety-nine per cent according to his research and investigation, have chosen as a means of their livelihood the industrial and commercial life which the city offers.

John M. McLeod, of Columbus, Ohio, has wisely said: "Play is the safety valve of the nation." The officials of our larger corporations are realizing, more and more each day the necessity of recreation for their employees. Many of these men of big business have installed devices in their plants where the employees can play at basketball, indoor golf, billiards, bowling, gymnastics, etc. Why not a community centre where in these sports and games may be enjoyed by the farmer, his family and his help? It is something that is well worth study. The situation faced by the farmers of the country is a critical one, demanding earnest thought. It is of so serious a character that any movement may alleviate the distress caused by a lack of farm labor must impress itself upon the thinking men as something to be considered. Contentment with one's environment is one of the chief factors in making for increased production, be it of the farm or of the factory. The establishment of recreation centres might furnish the very means to establish this contentment. If such were to be the case, a long step forward would have been taken in answering the perplexing and all-important question of "What is to be done?"

Press Comment.

THE BRITISH EMPIRE.
(Buluwayo Chronicle)

The British Dominions, which did so much in the conflict, have played their share in the conclusion of peace. But the full effects of the Treaties now being drawn up, together with the modifications of older ones and the carrying into practice of the various mandates for former enemy territories, must profoundly influence the coming agreements for the safety of the Empire. The Dominions have a further responsibility in the share that they possess in the establishment and maintenance of the League of Nations. Many points of inter-Imperial and international policy will be ripe for decision by the time the next Imperial Conference meets a year hence. We already see the Dominions taking on the full status of independent nations, in their diplomatic and trade relationships with foreign Powers; which does not mean a weakening of the Imperial bond, but a strengthening of the one really well-established League of Nations which the world already possessed without knowing it. These are directions wherein no Dominions, any more than the Empire as a whole, can advance ahead of public opinion.

"PROFITEER" and "EXTORTIONER"
(From the Villager)

It is strange that we invented the word "profiteer" when we already had a far better one. "Extortioner" says all that "profiteer" wants to say; it conveys the intended emphasis and conveys it as forcefully as any word could. For profiteer tells only what the money-grabber does, and it is not that which concerns us; what causes our resentment is what he does to us, and "extortioner" is a word in terms of the victim. A profiteer might be merely the man who makes prodigious profits out of men's foolishness, but an extortioner is the man who makes the money out of their necessities; he takes a cruel advantage of their helplessness; he is unscrupulous and merciless, and a word that connects him with the Spanish Inquisition and the turning on of screws is just the word to describe him. Besides "extortioner" mere "profiteer" is a pale generic term.

CONDITIONS IN THE OLD COUNTRY

Commercial Attache Finds Wages are Increased, Hours of Work Shorter.

London, July 19.—E. T. Crowe, the British Commercial Attache to Japan who is shortly returning to that country, recently visited the chief industrial centers in England, has given his impressions of the industrial situation in England.

"During my recent tour of the leading industrial centers of the United Kingdom," Mr. Crowe said, "one of the things which has impressed me most has been the very great improvement in the conditions of employment as compared with what I found on my last visit some 10 years ago. Not only have wages been increased and hours of work been shortened, but there are greater opportunities for the enjoyment of life. In England games have always played an important part in the well-being of the people, but in the factory districts the operatives have generally been spectators rather than players.

"An attempt has now been made, however, to give the employees more chances of playing themselves and attached to many of the factories which I visited there are large playing fields for their recreation, where cricket, football, hockey and tennis can be enjoyed. There are also large numbers of capacious lecture halls where cinematograph entertainments are given, both for purposes of education and amusement. In most places there is also large canteen where excellent food is served at moderate prices. On some occasions I have had lunch with the directors of managing staff and partaken of exactly the same food as that given to the employees, in large rooms where from 400 to 500 workers were seated. In one large factory in Scotland, I found that the reading rooms, amusement hall and dressing rooms were as good as those of a first-class club. It seemed almost impossible that the business could be run at a profit, but I was assured that the better the employees were treated the better were the results.

"I found also that a very large number of works had been vastly extended during the war in order to cope with the manufacture of munitions, and factories were therefore now built with far more room and much better light than used to be the case. Although one has heard a great deal of the adaptability and inventive powers of British manufacturers, I was surprised at the large number of examples which I was constantly coming across of the manner in which British manufacturers had converted their works to new uses, or had used materials for purposes other than those for which they were originally intended.

A New Fabric

"From the point of view of Japan, I was particularly interested to note how one manufacturer had purchased large quantities of Bourrette cloth which had been obtained from Japan during the war for munition purposes. This cloth, it will be remembered, was made of noli yarn which is spun from waste silk, and is unsightly to look at, as it was required only for special purposes in connection with the manufacture of war supplies. The makers have now started printing this cloth and finishing it in such a way as to turn it into the most attractive furniture covers. This material, after having passed through the mill, was beautiful enough to please the most fastidious lady who might want to furnish her drawing room in a special manner with a new and inexpensive fabric.

"One of the most interesting developments in Japanese trade of recent years has been the export of Hokkaido flax seed to Ireland. During the war this was purchased in Japan by His Majesty's Embassy and shipped to the Flax Control Board, who distributed it in Ireland. Recently, however, the business has been conducted through ordinary merchant channels and up to the present the Irish farmers have been quite satisfied with the quality of the Japanese seed. This, however, is one of those cases where the whole future of the business depends on the high standard of quality which has been kept in the past. In a matter like this of seed for sowing purposes, one bag of seed can ruin the reputation which has been built up during the past few years."

Mr. Crowe, during his visit, has taken special pains to remove some of the traditions which still linger in the manufacturing districts in the provinces, as to Japanese methods of business—traditions which in most cases, have had the least foundation in fact.

Alkali in Shampoos Bad For Washing Hair

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain mulled coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dirt and dandruff.

SINGAPORE TO HAVE TAXIS

Far Eastern City Will Abandon the Rickshaw, Long Used as Method of Transportation.

According to advices from Consul General Edwin N. Gonzales at Singapore, that city is to have an internal transportation system of thoroughly modern taxicabs.

Whether American automobile manufacturers will secure the order for these motors is problematical, but the most significant part of the news is that it marks a further development of the use of modern methods in the Far East.

For several years in Singapore there has been a most consistent and vigorous agitation against the institution of the well-known rickshaws. Most of the agitation came from the tongue and pen of the educated Chinese, who maintain that the system of making a horse out of men in wrong from the standpoint of the

degrading influence which it has on the individuals as well as the harm it is claimed to work upon the coolies.

Distances are great in most far Eastern cities, and while the rickshaw makes transportation reasonably convenient and comfortable, the rickshaw most certainly is a primitive vehicle and doomed to early abandonment because of the rapid advance now being made in the industrial and social life of the Far East.

The new company to operate in Singapore is to be officially known as the Singapore Motor Taxicab and Transport Company, Ltd., and will have capital of \$250,000. The initial equipment will be made up of 40 landaulet taxicabs, five one-ton trucks. Singapore has a population of 200,000.

AN ISLAND SANCTUARY.

About twenty miles from Saltair, Utah, on the Great Salt Lake, is Bird Island, recognized as the sanctuary of pelicans. Bird Island derives its name from the fact that only birds—and, in fact, only pelicans—live on the island in the great inland body of salt water.

There are countless thousands of pelicans on the island, and many tourists leave Salt Lake city every summer to spend a few hours there. The birds are so thick, and fly so low, that most persons tour the small island with either umbrella or parasol open to prevent the pelicans from alighting on their heads.

There are no fish in Great Salt Lake, and many have asked how the pelicans live. Inquiry shows that the older pelicans fly every morning to Utah Lake, about thirty miles distant, and consume a meal of freshwater fish, and then return with their

I was a terrible sufferer from Dyspepsia—had suffered for years; and nothing I took did me any good. I read about "Fruit-a-lives" and tried them. After taking a few boxes, of this wonderful medicine made from fruit juices, I am now entirely well. Madame ROSINA POIRIE.

50c. a box, 6 for \$2.50, total also 25c. At all druggists or send postpaid by Fruit-a-lives Limited, Ottawa.

pouches full to feed the younger pelicans.

Bird Island is nothing more than a rocky structure. There is no human habitation there. Neither is there any vegetation. The reason for the pelicans remaining at Bird Island and making the daily flight to another lake for food has never been fully explained, although fish and game officials say that the pelicans understand that they cannot be molested at the island, and that therefore the sanctuary in Great Salt Lake will always continue as their permanent abode. IN AND ABOUT TOWN

COL. VUCHTERLE IS GRATEFUL

Says Troops Will Carry Home Happy Memory of Their Stay.

Miss Van Felson has received the following letter from Lieut-Colonel B. Vuchterle, expressing the gratitude of the Czech-Slovak troops, for the kind attention which was shown to them during their stay in Valcartier, particularly in regard to supplying them with books etc.

The letter which speaks for itself reads as follows:

My Dear Miss VanFelson,

Please accept my sincerest thanks in my own name, as also in the name of the soldiers, for all the trouble and pains you have so willingly taken in gathering reading material for us.

We will never forget the kind attention which was shown to us in both regards amusing material as well as spiritual. We will carry home a thankful memory of the short—but pleasant stay in Canada. You will greatly oblige me by interpreting my deepest gratitude to those who so generously gave books etc., and who assisted you in your most successful work. Through the press, and otherwise—Sir David Watson, "Chronicle"; Hon. Frank Carrel, "Daily Telegraph"; Mr. Gagnon, "Le Soleil"; Mr. Fortin, "L'Evenement"; Mr. Simard, "As-tu vu"; Mr. Meighan and Theodore Roberts, while the story is that of an English party of nobles who get wrecked on an island while out on a yachting cruise.

Nothing is saved from the wreck, and the party are forced to shift for themselves. Theodore Roberts is the leading personality in the picture, and the butler, dominates the scene. He shows them how to build shelter, get their own food, etc., and obtains the admiration of the men and the love of the women, particularly Lady Mary Lasenby, played by Gloria Swanson. However, he realizes the difference in the social positions between he and the noble lady who loves him, and permits her to see him proposed to another servant and girl, thus solving a very difficult problem.

The picture lasts through eight absorbing reels, and is a master-piece from beginning to end.

A good comedy is also on the bill.

THE VICTORIA.

"Sherry" featuring Pat O'Malley, was the stellar attraction at the Victoria yesterday, and it was witnessed by big crowds. The story is that of a young man, the sole survivor of an old family, who disappeared a half million dollars, and was regarded with a feeling of scorn and pity by the people of the village where he lived.

He tells a bartender one day that he is off the stuff for good and goes to the woods, and feels rejuvenated living in the fresh air for some time. One morning he persuades a girl who is running away from her grandmother to return, and wins the undying gratitude of the old lady. He is engaged as a bodyguard by the richest man in the place, and captures two burglars. The burglar breaks jail, and Sherry joins a posse to hunt them. He turns and fires at him. The bullet misses Sherry, but kills the burglar's mother, and when he learns this, he jumps out of a window to his death.

Sherry is successful in business, and the girl he had persuaded to return home proposes to him, being accepted.

It is a great picture, and should be witnessed by large crowds for the remainder of its run here.

A Christie comedy and Pathe Weekly News are also on the same bill.

THE CLASSIC

Lionel Barrymore in "Burning Silence" was the star at the Classic yesterday, and the picture was accorded an enthusiastic reception.

The picture is a typical Barrymore vehicle, and the eminent star performs some of his most dramatic work in the production which is his most recent. A strong supporting cast are around the star, and altogether the story is a very delightful one, the kind of a picture that will appeal to everyone.

A side splitting Gaiety comedy, entitled "Hits and Misses" kept the audiences convulsed, while Topics of the Day, and the Classic Weekly News were also on the bill.

Barrymore scored a big hit in "Burning Silence", and undoubtedly the production will be witnessed by large crowds during the remainder of the run in this city, for it is one of those pictures that has a distinctly human strain running all through it from start to finish.

TEN DAYS AHEAD.

Sydney, N.S., July 19—After drifting about Cabo Strait for ten days and ten nights a leaky launch with practically nothing to eat, Captain Sam Swayne and his crew of two, have been landed at North Sydney by the coasting steamer Stella Maris, which took them off St. Paul's Island two days ago.

Captain Swayne, Joseph Snook and Martin Budin are Newfoundlanders. Two weeks ago they bought a ten-ton launch at Glace Bay and started to sail it to Carbonear, Nfld., where they planned to operate a ferry between Carbonear and Belle Isle. The route they proposed was to follow the coast from Glace Bay to Cape North, then to Port-a-Piquet, then down the coast to St. John's.

At The Theatres

THE EMPIRE.

"Crooked Straight" the latest and best of the Charles Ray productions, was the leading attraction at the Empire yesterday, and it depicts the popular screen star in another of his decidedly human and characteristic roles.

Ray plays the part of a country boy who goes to the big city and falls into evil ways, becoming the associate of crooks and burglars. He is a crook's assistant, and cracks safes, etc., but becomes tired of the life, and decides to visit the country village where he lived all his life.

The powerful influence of a girl is seen when the crook's assistant regenerates in a most dramatic way, after winning the love of Margery Wilson, who has the leading feminine role.

It is doubtful if Ray has ever been seen to better advantage than in "Crooked Straight." He has a vehicle that is absolutely suited to him, and which gives him every opportunity to display his natural acting talents, while the supporting cast is very strong.

"Bought and Paid For" a short dramatic subject, was also an added attraction, while a Strand comedy and the latest News Weekly were on the bill.

THE AUDITORIUM.

"Male and Female" opened a week's run at the Auditorium yesterday afternoon, and both the afternoon and evening performances were witnessed by a large audience.

The picture is one of Cecil B. De Mille's big specials, and contains an all star cast, chief among whom are Gloria Swanson, Bebe Daniels, Robert Meighan and Theodore Roberts, while the story is that of an English party of nobles who get wrecked on an island while out on a yachting cruise.

Nothing is saved from the wreck, and the party are forced to shift for themselves. Theodore Roberts is the leading personality in the picture, and the butler, dominates the scene. He shows them how to build shelter, get their own food, etc., and obtains the admiration of the men and the love of the women, particularly Lady Mary Lasenby, played by Gloria Swanson.

However, he realizes the difference in the social positions between he and the noble lady who loves him, and permits her to see him proposed to another servant and girl, thus solving a very difficult problem.

The picture lasts through eight absorbing reels, and is a master-piece from beginning to end.

8. Selection—"Ermine"

O CANADA

GOD SAVE THE KING

Conductor: CAPT. CHAS. O'NEILL, R.C.A. Mus. Rec. McMill.

Director of Music, R.C.G.A.

INSPECTION OF 22ND. BATTALION

Will Be Held Today By Gen. McNaughton Of Ottawa—Recruiting Very Good.

The 22nd. Regiment will be inspected today by General McNaughton, of Ottawa, the officer in charge of the training of the Canadian Militia. The ranks of the regiment are filling rapidly, and there are only about fifty vacancies to be filled now. There are nearly one hundred and fifty men in the quarters of the new permanent regiment.

Montreal and Quebec and the majority of the counties of the Province of Quebec are represented in the 22nd., and the officers are much satisfied with the results from recruiting, started only a few weeks ago.

The recruiting office at Quebec is open every day, under the direction of the adjutant, Captain Percy Flynn, who receives offers of service every morning. In a few days there will not be any vacancies left. The commandant, Lt. Col. Henri Chasse, is well satisfied with the number of old members of the 22nd., who have answered the call of their old superior officers.

All the superior officers of the regiment, Major George Vanier, second in command, Major J. P. Archambault, commanding the Quebec company, Major Gustave Routhier, and Major Alex. Dupuis, are all at their posts, and in a few days the other officers will be at their positions, and the recruiting keeps up at the present rate, there will be a big parade of the 22nd. very soon.

MEETING OF THE CABINET

There will be a meeting of the Provincial Cabinet at the Parliament House tomorrow morning. The Hon. L. A. Taschereau, Prime Minister, who is at present in Montreal, is expected to return to town today, will preside at the meeting.

Special trains at 8.15 and 8.30 for the dance at Kent House tonight. The Quebec Harmony Club will supply the music.

FOR ONE-WAY STREETS

Signs received

The signs ordered by the city for the designation of one way streets have been received, but owing to the fact that some of the French words are misspelled, they will be returned to be corrected. In the meantime, however, it was decided by City Engineer Baillarge in conference with Messrs. Joachim Tessier and Lionel Baupre, of the Quebec Automobile Club, to put up a number of the signs where they are most needed until such time as they are replaced by corrected ones.

Do not fail to bring your friend to the Island Dance tonight. Boat leaves at 8.00 P.M.

HON. JUDGE DORION

SUSTAINS BEAUEMENT

The many friends of Hon. Judge Dorion will regret to learn of the bereavement he has sustained through the death of his brother Mr. Henri Dorion, who passed away Sunday evening at the Hotel Dieu Hospital, Montreal.

For a number of years the late Mr. Dorion occupied the position of Crown Lands Agent at Montreal, for the Provincial Government.

The deceased gentleman leaves to mourn his loss four daughters, three sisters in religion and his brother Judge Dorion, to whom will be extended the sympathy of the community in their bereavement.

Don't forget to take in the Dance at the "Kent" tonight. Music by the Quebec Harmony Club.

MRS. J. C. SYLVAIN

HAS PASSED AWAY

It was with deep regret that the numerous friends of Mrs. Joseph C. Sylvain, Franklin Street, learned of her death which took place Saturday morning after an illness of a few days duration.

The deceased lady, nee Miss Celestine Eugenie Belanger, was at the time of her decease 69 years of age, and until lately had enjoyed very good health. A short time ago she became suddenly ill, which necessitated an operation, to which she submitted in the Hotel Dieu Hospital. Her condition however, became worse and she succumbed on Saturday.

To mourn her loss, she leaves her husband, Mr. Joseph Clement Sylvain and one daughter Miss Eugenie Sylvain, to whom the sympathy of their large circle of friends will be extended in their bereavement.

The funeral takes place this (Tuesday) morning to Notre Dame de Lourdes Church, St. Sauveur.

Harry's (augmented) Jazz Band supplies music for Dancing at Island tonight.

FOREBEARS WERE ONTARIO PIONEERS

Mr. A. J. H. Eckhardt Laughingly Resents Statement That He Is A German.

Mr. A. J. H. Eckhardt, of Toronto is spending a few days in the city as a guest at theateau Frontenac, and during a conversation with a representative of the Chronicle last evening, he laughingly intimated that he had a bone to pick with the Chronicle for calling him a German.

Mr. Eckhardt produced a copy of the Chronicle of Saturday, March 20th, last containing the story of the swindle of 47 Canadian and American contractors of amounts of \$2,500 each by one Arthur Sande, an engineer who got away with the guarantee cheques of the contractors aggregating a sum of \$117,500.00, and has not been located since.

In the course of the story it was said that Sande had mentioned "a rich business man of Toronto, Mr. A. J. H. Eckhardt—also a German—as one of the financial backers of the enterprise."

Mr. Eckhardt said that the only time he had ever seen Sande was when the latter came to his office and proposed to buy timber limits owned by Mr. Eckhardt and other prominent Canadians. They had not had any actual business dealings with Sande and he and his partners had done everything possible to run him to earth.

What Mr. Eckhardt objected to most was the intimation that he was a German. He pointed out that three of his forefathers had fought under George Washington, whilst later members of the family had been pioneers in the Province of Ontario, where they still resided.

The Eckhardt family was one of the oldest in Canada.

Mr. Eckhardt, who has large lumber interests in all parts of Canada, talks most interestingly on economic questions and a few minutes conversation with him suffices to bring the conviction that he is a real Canadian in the fullest meaning of the term.

INJURED IN MOTORCYCLE SMASH.

A telephone message purporting to come from Three Rivers, stated last night that two young Quebecers named Alexandre Drouin and Joseph Pichette had met with a mishap whilst travelling from Montreal to Quebec, and that as a result Drouin had had a leg fractured. Relatives of the young men endeavored to secure some definite information, but up to a late hour last night were unable to secure any further news.

ANOTHER DEATH FROM SLEEPING SICKNESS

Baltimore, Md., July 19—The second death from sleeping sickness in Annapolis within three weeks is reported by the State Board of Health today. The victim was Earl Gibson Weber, 13 years old, who succumbed after two weeks' illness.

Dr. Johns Fulton, Secretary of the State Board of Health, said the disease was an aftermath of the influenza epidemic. Records showed that there had been cases in the counties since the influenza epidemic and that the mortality had been 100 percent.

60,000,000 BUSHELS OF WHEAT

Regina, Sask., July 19—According to government figures slightly over 60,000,000 bushels of wheat were raised in the province of Saskatchewan last year, of which about 10,000,000 bushels were held off the market for seed and other purposes on the farm. A initial payment of \$172,000,000 was made for them by the Wheat Board, and the wheat farmers stand to receive approximately \$32,000,000 over and above this.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over ninety years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists "Aspirin" also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocyclic Acid of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

SECOND AMERICA
CUP RACE TODAY

LATEST IN THE WORLD OF SPORT

BABE RUTH MADE
NEW HOME RUN RECORDFIGHTS POSTPONED LAST
NIGHT THROUGH WEATHER.
WILL BE RUN OFF TONIGHTDemers And White Is Main Bout—Eugene Brosseau As
Referee—Corrigan And Breton in Semi Final—A Good
Preliminary—Wrestling Match Will Precede the Boxing

For the second week in succession the scraps at the Kent House were postponed owing to the inclement weather that prevailed all day yesterday. They will, however, be run off tonight, when it is expected that an even larger crowd than would have attended the bouts last evening will be on hand to witness the fights.

Two local boys will furnish the excitement in the preliminary, and will endeavor to cut each other up during the six rounds they will be on the stage.

The semi-final will see young Fred Corrigan, the Stoneham lad who has defeated both his opponents in local rings via the knockout route, essay to repeat his successes, and add to his list of victims when he meets Breton, of Sherbrooke. This scrap ought to be an extremely interesting one, for both boys are out for blood, and will devote all their efforts to winning as quickly as they can. The bout will last ten rounds, or at least it is scheduled to go that distance.

In the final affair, the bantam-weight championship of the Province of Quebec is at stake when Charles White, the local fighter, and Eugene Demers, of Montreal, clash over the ten-round route.

Both boys are well and favorably known, although Demers has not yet fought in a local ring. He was supposed to meet White on several occasions last winter, but the pair did not meet for one reason or another. Demers has victories over all the boys in Montreal to his credit, and also drew with Harry Coulton, of Buffalo, in Montreal, over the ten-round route. He is a shifty fighter, and packs a hard punch that, when it lands, makes itself felt. In addition to being a hard puncher, he is also a clever boxer, so that it looks as if White will have his hands full when he tackles the Montreal boy tonight.

White is too well-known locally to make it necessary to mention anything about his prowess with the padded gloves. He also holds a draw over Harry Coulton, right here in Quebec, a bout a month ago, while he has victories over a whole flock of other boys from both Canada and the States. White is no mean puncher himself, while he can also box very cleverly. He is fighting now better than ever he was, and has improved with every performance.

Both boys are very evenly matched and there is little to choose between the two. Demers, if anything, seems to be a trifle heavier than White, but the local boy expects to offset this by his aggressiveness. The bout will go ten rounds, and should, he chock full of excitement from start to finish.

Eugene Brosseau will be the referee for the main bout.

Previous to the boxing, a wrestling

LONG SHOT DAY
AT KEMPTON PARKGood Prices Paid In Four
Races Out Of The Seven.

Montreal, Que., July 19—Kempston Park results:—

First race, purse \$500, 2-year-olds, five furlongs—Orchestra, 104, Ryan, \$17.00, \$5.70, \$4.50, won; Gratian, 112, Dominick, \$3.10, \$2.70, second, Calthump, 112, Taylor, \$3.80, second, Time, 1:11. Land's End, George C Jr. also ran.

Second race, purse \$500, 3-year-olds, claiming, six furlongs—Lad's tone, 109, Taylor, \$11.50, \$3.30, \$2.50 won; Emma J., 115, Daniel, \$2.40, \$2.10, second; Lannikan H., 116, Tryon, \$2.60, third. Time, 1:22 4-5.

Third race, five furlongs, purse \$500, 4-year-olds and up, claiming—Dickie W., 113, Ryan, \$4.80, \$2.60, \$2.10, won; Alex. Goss, 113, Dominick, \$2.60, \$2.10, second; Frenchy, 111, Pauley, \$2.10, third. Time, 1:11. Ridgeland, Joe's Sister and Miss Leola also ran.

Fourth race, six furlongs, purse \$500, 3-year-olds and up, claiming, handicap—Lobelia, 108, Dominick, \$13.80, \$5.70, \$3.40, won; Concha, 107, Ryan, \$4.30, \$3.40, second; Holes, Atkin, 103, Schelsinger, \$3.20, third. Time, 1:23 1-5. Old Red and Richard V. also ran.

Fifth race, six furlongs, purse \$500, 3-year-olds and up, claiming—General, 115, Pauley, \$4.70, \$2.80, \$2.20, won; Harry M. Stevens, 115, Hunt, \$2.50, \$2.40, second; Laughing Eyes, 108, Hayward, \$3.60, third. Time, 1:23. D'ancey, Hula V., and Presumption also ran.

Sixth race, five furlongs, purse \$500, 4-year-olds and up, claiming—Duc De Guise, 107, Burger, \$4.00, \$2.90, \$2.30, won; Volary, 112, Casey, \$4.80, \$2.60, second; Rora, 106, Tryon, \$2.40, third. Time, 1:12 3-5. Ralph S. Nobleman and Vision also ran.

Seventh race, five furlongs, purse \$500, 5-year-olds and up, claiming—Onwa, 117, C. Taylor, \$31.00, \$15.10, \$6.20, won; Mike Dixon, 115, Atkinson, \$16.90, \$9.80, second; Mary Fitzhugh, 103, Tryon, \$6.70, third. Time, 1:11 2-5. Lady Harrigan, Enos, Col. Rockingham, He's A Bear, and Primitive also ran.

SOUTH AFRICANS HAVE NUMEROUS PRIZES

London, July 19—(By Canadian Associated Press)—Remarkings on the Bixley results, the Manchester Dispatch says that while the South Africans have a phenomenal number of prizes this year it must be remembered that they have been preparing for this event and the Olympic for two years and were practicing at Bixley for two months. At the final gathering of the Canadian team, Major Elmitt, the adjutant, spoke highly of the excellent work by the younger teamsters, especially Lieut. John Chandler, of Woodstock, N.B., and Private J. Irvine, of Ottawa, whose longest range lifted Canada into second place in the MacKinnon Cup competition.

OLYMPIC BOXING
IN QUEEN CITYLast Night—Finals Schemed
For Tonight.

Toronto, Ont., July 19—Canada's premier boxers competed here tonight in the Olympic boxing finals for the right to represent the Maple Leaf in the Olympic Games at Antwerp next month. The boxing provided was of a high standard and if the material shown here this evening can be accepted as a criterion, Canada will be well represented in pugilistic circles. Five of the bouts were featured by the knockout route while but one was forced to go an extra round to declare a winner. According to the Olympic Rules, under which the bouts were contested, each bout was to be three rounds, each round of three minutes.

Featherweight (126 pounds) Walter Newton, Riverside A.C., showed rare boxing ability by defeating Billy Dore, of the Laurier Athletic Club, in a scheduled three round bout.

There was little to choose between both contestants in the first round, but Newton was far superior in the second and third rounds.

A Rankin, Edmonton, was forced to go an extra round to get a decision over J. G. Coyne, Classic A. C., Toronto.

112 pounds (fly weight): Harry Turner, Montreal A. A., found little difficulty in defeating Russell Young, of Toronto (unattached).

Geo. Bain, National Athletic Club, Montreal, knocked out Joe Simons, Riverside A. C., Toronto, in the first few minutes of the first round.

Lightweight (135 pounds): Christewton, Riverside, A.C., won from Geo. Smith, M.A.A.A., in the second round on a technical knockout.

Geo. N. Wittenschen, Calgary, knocked out E. Haley, Halifax, in the second round.

Middleweight (160 pounds): Perhaps the feature bout of the evening was the one provided by M. H. Herscovitch, Montreal A.A.A., and A. McAdam, St. Mary's A.C., Halifax. Herscovitch won by a knockout in the second round. Both boxers mixed it well in the initial round and McAdam seemed to have the edge. He knocked down Herscovitch and delivered some healthy punches which shook him up considerably. The Montreal representative, however, summoned all his available strength in the second round and concentrated blows of McAdam's face with telling effect. McAdam was knocked down once in the second round before the final knockout blow was delivered. Herscovitch on his performance tonight, looks like one of Canada's good prospects. He is well built and packs a vicious blow in either hand. He will be watched with interest to-morrow when he meets in the final, Corporal Prud'homme, P.P. C.L.L. of London, Ont., knocked out William Mill, Lachine Canoe Club, Montreal, in the second round.

Prud'homme superiority after the first round was unquestioned. He forced the issue during the first minute of the second round and the knockout was not unexpected.

The final bouts will be held to-morrow night.

Sporting Notes

Cincinnati reduced the lead of the Brooklyn Dodgers in the National League pennant race yesterday by defeating them by the count of 5 to 4. The National League teams are not cutting nearly as good a figure as their American League rivals.

The members of the Corinthian football team who were supposed to play the S.S. Orthis on the Exhibition Grounds last evening, turned en masse for the game, but their opponents were not on hand. As the majority of the players are working this evening, a game will be arranged, if possible for tomorrow evening.

All roads will lead to the Kent House tonight. The Demers and White scrap ought to be a hummer from start to finish.

The second of the America Cup races will take place today, starting at noon. New York today, last Saturday's race was not counted, as neither boat finished within the time limited, so that the series now stands Shamrock I; Resolute 0.

Babe Ruth 'L'Enfant Terrible' has established a new home run mark. Yesterday he not only shattered the mark he himself made last year, a new record of 29, but cracked out two circuit drives, bringing his total up to 31. And the season is not yet finished. The teams have all the month of August and practically the whole of September to go through yet so that what mark Ruth will set up at the end of the season can only be guessed at.

For the second week in succession, the fights at the Rustic Theatre Kent House, were postponed on account of rain. However, the scraps will be staged this evening, so that it is only a day's wait.

Captain Burton, whom New York yachtsmen have been criticizing severely for his poor work in the two America Cup races, will be at

BURTON WILL BE AT WHEEL
OF SHAMROCK IV. AGAIN WHEN
SHE FACES RESOLUTE TODAYDecision Reached by Sir Thomas Lipton And Yachting Ad-
visers Last Evening—Triangular Course Will Again Be
Sailed By Yachts—Third Race May Be Held Tomorrow

Sandy Hook, N.J., July 19—Capt. William P. Burton will be at the helm of Shamrock IV. when she races again tomorrow against the defender Resolute for the America's Cup.

This was the decision reached tonight by Sir Thomas Lipton and his yachting advisers, after a day spent in conference over the handling of the challenger in the first two matches, the first of which resulted in a victory for the Lipton sloop after her rival had been withdrawn because of an accident and the second of which was called off because of Resolute, after outstanding Shamrock, being unable to finish within the six hours time limit.

"Captain Burton will be at the wheel tomorrow, I understand," said Sir Thomas after the conference. "After that I cannot say, and of course I will not talk about it."

Gossip about Sir Thomas' steam yacht Victoria had it that Captain Burton had asked for another chance but the former would not discuss this phase and Captain Burton could not be reached.

With seamanship counting so much in the Cup race, the question of who would handle Shamrock transcended all other talk aboard the racing fleet at anchor today in the Horse Shoe.

From Thursday, when Shamrock found herself on the line at the start and had to recross, until the present, yachting experts have been severely criticizing Captain Burton's work and during Saturday's race, comment aboard the Victoria was strongly in favor of Captain Charles Francis Adams II. of the Resolute. She still has the three victories to win if she is successfully to defend the Cup, whereas Shamrock needs but two more.

Regatta rules call on alternate racing days for a windward and leeward course of fifteen miles to a leg and a triangular course with legs of ten miles each, but as Saturday's race has to be re-sailed tomorrow's contest also will be over a triangular course.

Saturday the first leg paralleled the Long Island shore, with the second leg stretching toward the Jersey coast and the third back to the Amherst Channel Lightship, where the start was made. Tomorrow, however, the course doubles will be changed, as the whole question of where the yachts will race depends on the direction of the wind. Usually the race committee makes every effort to have the first leg a boat to windward.

The regatta committee of the New York Yacht Club, which last week decided to hold races every day after tomorrow, unless the skippers of either Resolute or Shamrock objected, today arranged with the rival captains to display the code flag "C" on the way back to their anchorages after tomorrow's race if they are ready to race Wednesday.

If they desire a postponement, they are to fly the code flag "D" but in either event they have until 9 p.m. to notify the committee of a desire for a postponement if they find something wrong with the boats after anchoring.

Challenge To Follow.

New York, July 19—Indications today were that, should Shamrock IV. lift the America's Cup, Sir Thomas Lipton will not go long unchallenged.

Friends of William Gardner, who designed Vanitie, defeated by Resolute for the right to defend the Cup this year, quoted him as saying, he had been commissioned to begin work immediately on a challenger, if Resolute should be defeated.

Mr. Gardner would neither deny nor confirm this.

NEW HOME RUN

RECORD FOR RUTH

New York, July 19—Babe Ruth made two home runs in the second game of a double-header with Chicago today, establishing a new record for homers, his total now being thirty-one.

GOODBYE FOR ANTWERP

Ottawa, Ont., July 19—(By Can. Press)—Captain Sidney Gooday, of the Ottawa Y.M.C.A., will represent Canada at the Olympic swimming championships at Antwerp.

Gooday was notified today that he had been selected to represent Canada in the 200 and 400 metre races and may also figure on the Canadian relay team.

Gooday holds the Canadian record for the 200 and 400 yards breast strokes.

DELOW WON MARATHON.

Hamilton, Ont., July 19—James A. Delow, of the Gladstone Athletic Club, Toronto, won the Olympic Marathon trial of nineteen miles and 168 yards around the Bay here today. Delow's time was 1:58:46.

Scholes, of Gladstone A. C., Toronto, was second; General, of Brantford, third; and Smoke, of Peterboro, fourth.

The wheel of the challenger Shamrock IV. when she faces the Resolute again today. This is the decision reached by Sir Thomas Lipton and his advisers, and commands an item from New York on Sunday night that he would be replaced as skipper of the challenger.

GIVE LONGER
TIME ALLOWANCEShamrock Has To Concede
Seven Minutes and One
Second To Opponent.

Sandy Hook, N.J., July 19—Shamrock IV., British challenger for the America's Cup, will be required to give Resolute, American defender, a time allowance of seven minutes and one second in tomorrow's race, the Regatta Committee of the New York Yacht Club announced tonight. This increase of 21 seconds over the previous allowance followed the granting of the application of the Lipton craft for permission to use a large club topsail.

The new time allowance was announced after an official re-measuring had been made of Shamrock's canvas.

JOHNSTONE BEAT KINGSCOTE

Wimbledon, Eng., July 19—William M. Johnston, of California, the United States tennis champion, defeated A. R. F. Kingscote, of Great Britain, here today in a hard-fought match, 6-3, 4-6, 3-6, 6-4, 7-5.

Today's play was supplementary to the series between the British and United States Davis Cup teams which ended Saturday in a victory for the victors.

A HAUNTED HOUSE.

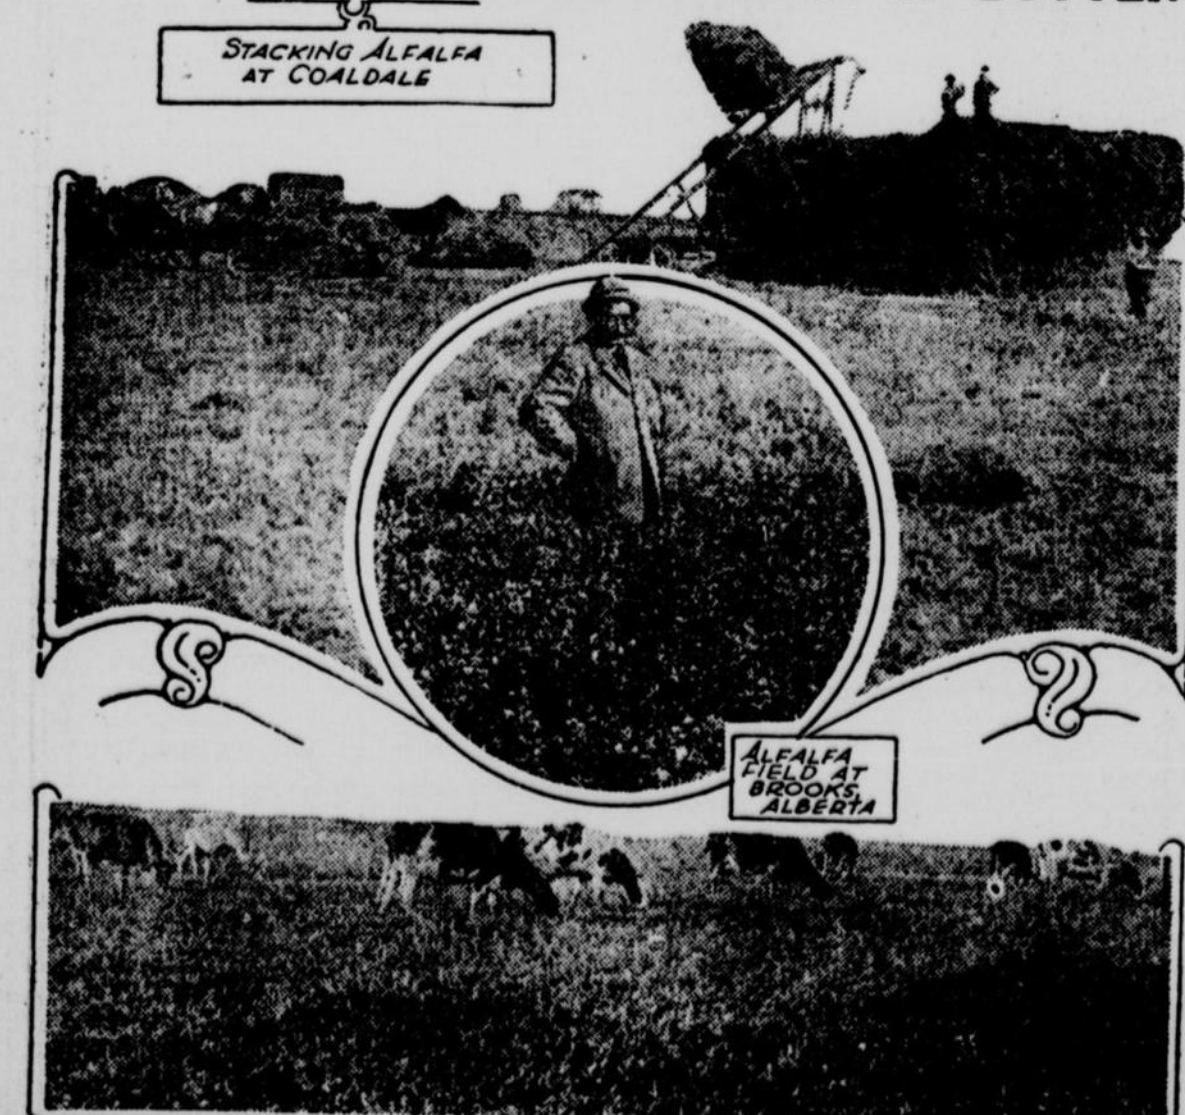

They passed a magnificent mansion: "That's a fine house," said Brown, "and yet I can't bear to look at it."

"Why not?" asked Jones.

"Because it is built out of the blood, the aches, the groans of human beings, out of the grief of children, and the walls of women."

"Why, is the owner a money-lender?"

"No; he's a dentist."

GRASSES OF CANADIAN PRAIRIES
MAKE MOUNTAINS OF BUTTER

STACKING ALFALFA AT COALDALE

ALFALFA FIELD AT BROOKS, ALBERTA

CATTLE IN ALFALFA FIELD

Alberta's 1920 contribution to the butter market was a fair sized lump weighing ten and one-half million pounds that put \$5,612,500 into the butter-makers' pockets. The quality of this butter was unquestionable as attested by the fact that Alberta carried off the first three prizes for block butter at the recent National Dairy Council Exhibition held at Winnipeg. Alberta's butter output increased during the past four years almost 40% in volume and over 123% in value.

There are 55 co-operative creameries in the province—all community owned and operated, and 13 privately owned and operated. In addition to these there are in the larger

centers such as Calgary, Edmonton, Lethbridge and Medicine Hat, large centralized creameries or dairies. These operate collection branches or cream buying stations along the railway lines.

Cheese making has become a considerable industry too, but does not keep pace in growth with the butter industry as farmers generally prefer to sell their cream and feed the milk by-product to growing stock. Eleven cheese factories are in operation in the province and turned out in 1920 a half million pounds valued at \$140,000.

Dairying is fast becoming one of the big industries of the prairie provinces, following close on the heels of grain growing and stock raising. Mixed farming has been strongly advocated to Canadian farmers and they have seen its advantages. Today it is generally practised. If a crop fails, disaster is not the result, there is always plenty of grass and fodder to insure the weekly cream check for the man with a dairy herd. The progress of the dairying industry has been very much helped by the increased utilization in irrigated territories. Alfalfa is the greatest fodder yet discovered for dairy cattle, and is bringing wonderful prosperity to districts such as Coalville and Brooks.

St. Valler St.VOTES OF GERMAN
WOMEN ANALYZEDConservative and Moderate
Parties Found Favor More
Than Did Socialists.

Berlin, July 19.—Although many more women than men are entitled to vote in Germany, it is estimated that whereas fully 13,000,000 men voted in the recent elections, number of women voters did not exceed 10,000,000. During the election campaign candidates and party managers both realized the importance of the women's vote, and now that the elections are over are comparing and collating the experiences and impressions gained on the point. Very little data are actually available on which conclusions as to how the German women voted may be based, although it is safe to say that in the main they voted rather for the Conservative and moderate parties than for the extreme Socialists.

Happily in three centers—Cologne, Spandau and Hanover—the polling authorities arranged for the women to vote in separate booths from the men and the statistics thus obtained are more valuable than mere suppositions and theories. In Cologne 119,263 men and 110,364 women voted, and of these 33,000 men and 49,154 women voted for the Roman Catholic Center Party, 36,295 men and 24,134 women for the Majority or moderate Socialists, 17,768 men and women for the Peoples Party, and 15,245 men and 5,973 women for the Independent or extreme Socialists.

It is clear therefore that in Cologne, at least, the women showed much less enthusiasm than the men for extreme Socialism and—what is perhaps the necessary corollary—much greater readiness to respond to the essentially conservative and religion appeal made by the (Roman) Catholic Center Party. In Spandau and Hanover a similar experience was recorded with the difference that since most of the women in those towns are Protestant and not Roman Catholic they voted in the main for the Nationalist Party and not for the Center.

The German press has readily grasped the significance of the facts outlined. The Extreme Socialist newspapers frankly confess that the German women are conservative in tendency, a fact which they ascribe to a "defective political education." Thus "Freiheit," the organ of the Berlin extremists, says: "It is really very regrettable that German women should have voted in such a large degree for those very parties which have always opposed the freedom and emancipation of their sex instead of voting for the Socialists who have been their steadfast champions." In view of the experiences of the elections it is interesting to recall the appeals made to the women by the various parties during the campaign. In the week preceding the poll it is estimated that fully 50 different leaflets and appeals were specially addressed to the women of Berlin.

ORGANIZE TO HELP JAMES

SIMPSON FINANCIALLY
Toronto, Ont., July 19.—An organization was formed at the Labor Temple here today to assist James Simpson, a well-known labor advocate to meet his liabilities arising out of the recent award of damages against him for libel and slander, \$1,500 and costs in the case of Arthur O'Leary, and \$4,000 and costs in the case of W. J. Heavey, both of whom succeeded in actions at law against Simpson. Representatives of the Metal Trades' Council, the Building Trades' Council, the Garment Workers' Union and the Independent Labor Party were at the meeting, and they formed a Simpson Defence Fund Committee. The actions in question resulted from allegations by Simpson that O'Leary and Heavey had conspired to betray the Labor Party to the Manufacturers' Association at the time of the allied trades strike in 1919, by starting a new labor party that would receive financial aid from the Employers' Association.

LYNNING ATTEMPT HALTED

Greenboro, N. C., July 19.—One person is reported to have been killed and another wounded at Graham, N. C., tonight by fire from a machine gun company of the North Carolina National Guard on duty at the County Jail there, where three negroes are held on charges of having attacked a white woman.

Reports said that the shots were fired by the machine gun company when a crowd in the darkness approached the jail. Threats of lynching yesterday had caused Governor Bickett to order the company to Graham with instructions "to shoot straight if an attempt on the lives of the prisoners were made."

KING FEISAL REPLIES

TO FRENCH ULTIMATUM
London, July 19.—King Feisal of Syria, has replied to the French ultimatum by accepting the French mandate for Syria, subject to the League of Nations and defining other conditions but objecting to the French occupying the territory mentioned in the ultimatum, according to a despatch to the Daily Mail from Cairo, dated Sunday.

The despatch adds that General Gouraud, the French commander, has not accepted the reply of Feisal, insisting that the conditions of the ultimatum be acquiesced in unreservedly.

BUYING FARMS IN ALBERTA

Calgary, Alta., July 19.—More than 150 settlers personally selected by Canadian Pacific Railway agents in Europe, and comprising Norwegians, Swedes, Belgians, French and Dutch, recently arrived on C. P. O. S. liners and have come through to this point. They are one and all well capitalised and are buying farms in Alberta.

FIRE CAUSED
BY LIGHTNINGStruck Tanks Containing
Thousands of Barrels of Oil
Near Baltimore.

Baltimore, Md., July 19.—Since noon today, when lightning struck two large tanks containing thousands of barrels of crude and light oil at the plant of the United States Asphalt Refining Company, Wagner's Point, south of this city, firemen have been fighting desperately to save surrounding property. At ten o'clock tonight the flames were shooting a hundred feet in the air and blasting oil was running in the roadways. Two block of two-story houses, the homes of workmen, are burning and many more are in danger. The burning oil is also flowing toward the Texas Oil Company's plant adjoining.

All hope of extinguishing the burning oil was abandoned this afternoon as the water supply was inadequate and the firemen were directed to exert all their efforts to save the dwelling houses.

Hundreds of families, residents of Fairfield and Wagner's Point, became frantic with fear and moved all their household belongings to the streets. The aggregate losses to the companies is estimated at \$700,000.

BIG PRICE PAID.

Abbotsford, B. C., July 20.—Three farm properties were sold in this vicinity during the week for an aggregate of \$15,500. The farms comprise about 55 acres and have houses and small fruit orchards.

\$1300 PER ACRE.

Creston, B. C., July 20.—Thirteen hundred dollars an acre was paid for a four and a half acre farm here, constituting another record price in this district. The purchaser is an old resident of the locality and well acquainted with the productive qualities of the soil of this region.

TURKISH MINISTERS

RESIGN FROM CABINET

Constantinople, July 18.—Djemal Pasha, Minister of Public Works and Fahreddin Bey, Minister of Education, who were both members of the Turkish Peace Delegation, resigned from the Cabinet today.

The prospect is that the entire Cabinet will resign because of the row over the peace treaty.

TO REDUCE SEALS.

New Westminster, B. C., July 20

—The Veterans' Product Company has been organized and will establish a plant on the Fraser River for the commercial utilization of hair seals. The creation of this company is a result of the campaign of the Dominion Fisheries Department to reduce the number of seals on the Fraser delta. The company plans to obtain hides, extract oil from the carcasses and utilize various by-products.

THAT HIGHWATER CHANNEL.

Eighty percent of the world's tonnage would be available for lake and ocean traffic at once if the proposed Great Lakes-St. Lawrence tidewater channel was open, C. C. West, vice-president of a ship-building company at Manitowac, Wis., told the International Joint Waterways Commission a few days ago.

He said this percentage of vessels, plying between all the ports of the world, could enter Duluth harbor if the channel project went through. He explained that the lake ports were built, generally speaking, to accommodate ships of 22 feet draft. There are now plying between ocean ports 12,500 vessels of less than 1,500 tons capacity, he said.

"There are 3,521 vessels of between 1,500 and 3,000 tons; 5,000 of between 3,000 and 7,000 tons, 3,000 of between 7,000 and 15,000 tons, and 238 vessels of more than 15,000," he added. This does not include passenger ships, and the proposed St. Lawrence channel would accommodate vessels of from 6,000 to 7,000 tons burden.

REVENGE TAKEN BY ANIMALS.

Story of Record of Huge Mastiff That Killed Thoughtless Groom at First Opportunity.

Careful observers have put on record some very extraordinary instances of dogs and other animals which have remembered injuries put upon them and have eventually retaliated, says London Answers.

There is a terrible story on record of a dog, a huge mastiff, kept as a watchdog by a Staffordshire gentleman. The great brute was kept chained in the stable yard, and during the very first weather one of the grooms, noticing the creature panting with heat, threw a bucket of cold water over him.

A week later the dog was loose when the same man entered the yard. He sprang upon him and caught him by the throat and killed him.

A touching little episode happened a few years ago in Worcester village. A boy was the proud owner of a very handsome pair of fox terriers, named Mick and Jerry. Jerry went off one day into a wood near by and tackled a badger, which killed him. Raymond, his master, went out to look for him, but could not find him. But two days after Mick was found mourning over the dead body of his companion.

He was brought back. One day he did not return. His master searched and found him laying dead, his teeth in the throat of the badger, which was also killed.

An amusing incident was that of an Indian elephant whose revenge on a new mahout whom he took a dislike to was rather funny. He picked him up and deposited him in the branches of a thorn tree.

PRIMO WON THE
CAN. HANDICAPFeature Event at Windsor
Yesterday Attracted Choice
Field—Favorite Defeated.

Windsor, Ont., July 19.—The results:—

First race, claiming, 3-year-olds, six furlongs—John A. Reardon, 113, O'Brien, 77.10, 4.10, 2.10, won; Martin A. Noonan, 107, Butwell, 52.60, 5.10, second; S. A. Courtland, 109, Heupel, 44.40, third. Time, 1:05 1-5. Widow's First, Alvin T. Hert, Lochleven, Calahan and Judge Budrow also ran.

Second race, claiming, 3-year-olds, six furlongs—Redland, 107, E. Barnes, 99.80, 3.80, 2.40, won; Tarascon, 112, Butwell, 52.80, 2.20, second; Pueblo, 101, Heinch, 22.40, third. Time, 1:18 1-5. Buckhorn, Acouchia II., Malva, Sylvano also ran.

Third race, 3-year-olds and up, mile—Accelerate, 96, Erickson, 93.10, 4.70, 2.80, won; Murray, 91, Buel, 44.50, 2.50, second; The Leopard, 100, Stack, 22.00, third. Time, 1:46.

Fourth race, 3-year-olds and up, Canadian Handicap, 55.000, one mile and one furlong—Prime, 114, Romanelli, 55.80, 3.60, 2.90, won; Ammunition, 116, Butwell, 32.40, 2.90, second; Galley Head, 104, Stack, 44.80, third. Time, 2:01 4-5.

Fifth race, 3-year-olds and up, Spring Bid and Rex Gately also ran. Sixth race, claiming, 3-year-olds and up, mile and a sixteenth—Golden Dawn, 99, Kennedy, 55.50, 2.80, 2.30, won; Stevenson, 114, Butwell, 52.60, 2.20, second; Prospector, 111, Stack, 22.50, third. Time, 1:52.

Seventh race, claiming, 3-year-olds and up, mile and a sixteenth—Blasphemy, 112, Kennedy, 59.70, 55.30, 3.70, won; Skeerface, 110, Chiavetta, 51.50, 36.90, second; Joan of Arc, 108, McTaggart, 52.20, third. Time, 1:52 1-5.

Eighth race, claiming, 3-year-olds and up, mile and a sixteenth—Bony, 110, Buel, 52.90, 4.90, 3.10, won; Paul Connolly, 106, Mangan, 420.20, 37.16, second; Verity, 106, Moore, 52.80, third. Time, 1:51 3-5. The Pin, W. H. Buckner, Timothy J. Hogan, Lady Ward and Sundaria also ran.

IN MORE TEMPERATE SHADES

Season's Colors Good and Comprise

the Soft but Rich and Warm

in Tone.

Absent are the glaring colors of yesterday, supplanted as they are by more temperate shades, deep and warm in tone.

This season the colors are exceedingly good. They are soft, but rich in tone. There are colors of varying shades to set off every complexion, and yellow has its butter-colored series, its old gold with a hint of green, lemon, primrose, sulphur and canary—all yellow but with that slight difference that permits the fair woman to humor her taste without sacrificing her complexion.

Gray hair is always beautiful with gray clothes. White-gray hair needs careful choice of colors between the blue-gray and yellow-gray, according to its requirements.

Evening dresses show many pastel shades and the colors of Louis Quinze brocades are in evidence. A dance dress of dull green shows many tiny frills edged with dull, brass-colored gold braid. A bouquet of gold flowers adds the finishing touch to the costume. Gold and silver, especially for dresses, are becoming more and more popular.

Patterned materials, pattern in design rather than color, are easily made up and need no trimming but to judge of color it is necessary to have an absolute color eye. Seeing sharp or flat is responsible for the many mistakes in selection of colors even with the abundant opportunities of the present season of mellow tones.

SIDELIGHTS ON THE

RUSSIAN COURT

In the "Revue des deux Mondes" the Queen of Roumania contributes some pages from her diary, written on her hearing of the death of the Czar.

The Queen herself was granddaughter of Czar Alexander II., and she knew the Russian Court quite intimately.

"Without any doubt," says her majesty, "the Czarina is largely responsible for the conduct of her husband; she discouraged him instead of encouraging him, she used her influence on the wrong side. But in all justice I must recognize that her intentions were good, and cannot be blamed; she believed firmly that she was right, never doubted the excellence of her judgment, sure that all that she did would be the best for her husband, her country and her people. He was weak; of the two she had the stronger will; thus she led him without hesitation towards what she considered the light and what was really, alas, darkness."

"The Czarina is one of those personalities that arise from time to time in history. Their power remains inexplicable, and one cannot see from where they draw their force. Perhaps Alexandra really loved her husband; she considered herself his son; but her attitude towards the world was always hostile. Placed as she was above everything, dominating her husband, she held a terrible power in her hands; if tenderness had held a place in her heart she might have accomplished miracles; but with her distrust of every one she held great and small at a distance, as if each wished to rob her of a right that was hers alone."

"Considering herself infinitely superior to the whole world she imagined that she could only have been placed there to show to others the errors of their ways."

Astonishing
Opportunities

IN THE LADIES' READY-TO-WEAR DEPARTMENT.

If you find any fault in the reductions, you are at liberty to complain to Messrs. Cote or Moore, whose tour of inspection through the Ladies' Clothing Department was very effective, looked upon from the purchaser's point of view.

These gentlemen only consider the customer.

Profit by their good will by coming every day this week.

Beer, Porter, Gin, Scotch, Alcohol,
Brandy, Jamaica, Rum, Rye and
the best red and white wines at
the store of J. NOEL RONDEAU, 6
Lacrevrotiere, Telephone 4123.
May 13/23

WESTERN COAL TO GO TO ONTARIO

Appears Possible That Alber-
ta Coal May Be Shipped To
The East.

(Financial Post)

It appears possible that the short-
age of fuel in Central Canada—par-
ticularly Ontario—will be overcome
during the present season by coal
from the mines of Alberta, and the
way prepared as a result for the
movement of an ever increasing sup-
ply in the future. The Dominion
Railway Board, the Ontario Fuel
Controller, and the Canadian Manu-
facturers' Association, and other
interested bodies, have given atten-
tion to this matter during the past
few weeks with a view to discover-
ing ways and means of overcoming
the obstacles, which at first appear-
ed insurmountable, attending such a
long haul. As a result of a con-
ference of representatives of these
bodies in Ottawa this week the sit-
uation appears more hopeful, and it
is expected that a definite announce-
ment will be made shortly by the
Government as to the action that
will be taken in the matter.

H. A. Harrington, Fuel Controller

for Ontario, who was a member of
the deputation, discussed the situa-
tion and stated that the time was
rapidly approaching when Canada
could no longer look to the United
States for her supply of coal, and it
was, therefore, time for the authori-
ties in this country to make Canada
self-supporting so far as her fuel
requirements were concerned. There
was a growing consumption of coal
in the United States, he said, the labor
situation was unsettled, with the re-
sult that a steady output could not
be depended upon, and the removal
of the coal from the mines was be-
coming a more arduous and expen-
sive process as greater depths were
reached. There was a vast supply
of coal in Canada; in fact, the pro-
vince of Alberta was one vast coal
bed, he added, and it was time
therefore, that we turned to our own
resources, and applied them to our
own needs.

One Obstacle in Way

There was only one obstacle in
the way. The coal obtainable in
Alberta was of good quality, and in
some cases better, than the coal
obtainable in Pennsylvania. It could
be more easily mined as it lay closer
to the surface, and the price at the
mine was from \$4 to \$5 a ton
cheaper. The one great difficulty
was the long haul of 2,100 miles
from the Hillcrest collieries to On-
tario, and the point under consid-
eration at the present time is the ad-
visability of the Government's re-
ducing the freight rates as to enable
this coal to be offered in Ontario at
a price on a par with that com-
manded by coal from the other side
of the Strait. Mr. Harrington pointed
out that this 2,100 mile haul could
be made entirely over Govern-
ment lines, and in the matter
of freight rates, it was up to the
Government to decide whether the
people's roads were to be used in
advertising a coal famine in Ontario,
or whether they were to be used for
revenue purposes only. There were
four lines of railroads which could
be utilized for this purpose, and the
difficulty could be solved if the rates
were so fixed as to enable Alberta
coal to compete successfully with
the Pennsylvania product. He
pointed out that the Government
had fixed a rate of 35¢ cents per
ton for coal from Calgary to Prince
Rupert, on the Pacific Coast, a dis-
tance of approximately 650 miles. If
the same rate were granted for the
haul to Toronto the freight per ton
would total \$7.51, thereby bringing
the total price of coal on a par with
that at which American coal now
sells in this province. If such a
rate could be granted for a haul
over a mountainous and difficult
passage, it should be possible when
the haul was largely over down
grade prairie land.

A National Matter

There was no reason why Alberta
coal could not be used in Ontario if
this concession were granted, the
Government lines transporting the
coal at cost. Mr. Harrington stated
this was a national matter, as not
only the progress of Ontario de-
pendent upon assurance of adequate
and steady supply of coal, but would
be of advantage to the western
province in enabling her to develop
and utilize her vast natural wealth
with a market for this product as-
sured, development of her coal fields
would speedily take place in Al-
berta.

The coal situation continues criti-
cal in Central Canada. In Ontario
there is a shortage of 3,000,000 tons
of bituminous coal, with no prospect
of any immediate improvement on
the American market. Mr. Har-
rington, who has given the matter
careful investigation, is convinced of
the practicability of moving western
coal to Ontario, thereby taking the
first step in assuring the indepen-
dence of Canada in fuel. The Gov-
ernment authorities are conferring
with the western railroad officials,
and some action is expected shortly.

More than 60 yrs. ago

an English chem-
ist began to manu-
facture BEECHAM'S PILLS.

Today they have the largest
sale of any medicine in
the world.

Why?

Because they are the best
Beecham's Pills.

Commercial and Financial News

CLOSING LETTERS BY THE CANADIAN PRESS

(By Canadian Press)
New York, July 19.—The shadow of further labor difficulties in the United States hung over the stock market today, reports from Chicago and other railroad terminals indicating that the unions were probably protesting against the wage increase awarded by the United States Railway Labor Board.

Mexican affairs also presented less favorable aspects and the various oil shares were under frequent pressure, affecting sympathetically numerous kindred issues, including Motors and their accessories.

Financial conditions were less acute, last week's exhibits of the local Federal Reserve Bank and the clearing house association offering ground for the belief that credit situation at this centre is tending toward ease.

This was borne out by the day's movements of demand loans which opened at 9 per cent, but relaxed to 8 in the last hour, when the market especially in standard industrials, rallied substantially.

The outstanding feature of the trading, however, apart from its dullness, was the absolute aloofness of public interest or support of any kind save that yousafed by pools and cliques in selected issues. Final prices were irregular, a few favorites, such as Crucible and the Stromberg showing net gains.

Sales amounted to 315,000 shares. Heavy selling of remittances to London effected further depreciation of cable and demand bills, the latter falling to 3.83, with concurrent reaction on the Paris rate and other continental exchanges, including marks.

Bonds were dull and mainly lower, that tone characterizing the Liberty group, also rails and industrials. The one noteworthy exception was the new Armour 7-per cent which was considerably above the subscription price. Total sales (par value) aggregated \$5,350,000.

Old United States bonds were unchanged on call.

EGG MARKET

Ottawa, Ont., July 19.—All egg markets firm, under light receipts. Ontario track shippers report paying stores 51c to 54c, and making sales of straight at 55c to 56c f. o. b. inspected firms 60c to 62c f. o. b., free cases.

Toronto jobbing prices, special 60c to 64c, extras 60c, firsts 58c, seconds 48c to 50c. Farmers market retail 65c.

According to the Journal of Commerce

Scarcity of loanable capital and increasing tendency toward a high level of rates have again been demonstrated as one of the important features of the market situation.

DAILY GOSSIP ON THE LEADING STOCKS

Yesterday's Financial News Bulletin was as follows: A waiting attitude may be seen with irregular activity on account of the talk of a strike by the railroad unions in case the wage decisions expected to be handed down Tuesday shall be unsatisfactory to them.

John Moody says that: The July crop report may be regarded as a bear point on commodities as a whole.

The Mechanics and Metals Fall Bank with commercial paper now moving at 8 per cent merchants will be prone to carry as low as a stock of goods as they can.

According to the Sun and Herald: Although many explanations were put forth; to explain the irregularity of security prices last week, the lack of buying power may be attributed to recognition of the fact that two thirds of the reserve bank's had reached virtually the limit of their lending power.

In the opinion of Newburger Henderson & Loebl think that: The situation has undergone distinct improvement.

According to the Wall Street Journal: The decline of the past week has wiped out a large part of the recent gain and pessimistic utterances are now to be heard in quarters.

Dividend was declared in Montreal on Ontario Steel Products preferred 1 3/4 percent for quarter ending 30th, 1930, payable August 15th, to stock of record 31st. August 15th, to stock of record 31st. August 15th, to stock of record 31st. August 15th, to stock of record 31st.

COTTON MARKETS

New York, July 19.—Cotton futures closed steady. Closing bids: July, 41.75-76; October, 35.02-03; December, 33.28-29; January, 32.50-51; March, 31.75-80. Spot closed steady. Middling uplands, 42.35c.

Liverpool.—Cotton, spot quiet and steady. Prices higher. American middling, fair, 32.60c; good middling, 32.85c; very good middling, 33.10c; good ordinary, 29.40c; ordinary, 19.40c. The sales of the day were 6,000 bales, including 4,000 American. Receipts were 8,000 bales, including 7,100 American. Futures closed steady.

CLOSING LETTERS BY THE LOCAL BROKERS

(By Bruneau & Dupuis)
New York, July 19.—The market today opened with hesitation and soon made a slight decline as the renewal for money at 9 per cent was higher than expected.

Later in the afternoon money reacted one point and a corresponding rally occurred. Trading however is light in volume and there is little significance in the market. The most important event ahead is the expected announcement tomorrow of the wage decision by the railroad board in Washington.

The forecast is for an advance of about 25 per cent and it is rumored that this will not be satisfactory to the men and may lead to assembling of the labor leaders in Chicago gives sustenance to this rumor. On the other hand it is reported that the Penna RR has been reducing its forces and with the curtailment of activity in many industries there is no longer the scramble for labor at any price that existed a year ago and the railway employees may appreciate this fact before voting to strike. With a matter of such importance pending however it will be necessary to go careful in the market for a few days at least. (Other than this there are no developments of interest and the market is merely dragging along.)

Sales 327,100.

(By Breen & Gourdeau)

New York, July 19.—The stock market opened somewhat irregular and reactionary today, with the number of stocks in which transactions occurred being comparatively small. Such usually prominent issues like United States Steel, Bethlehem and Crucible Steel, Pan American showed fractional losses, the rubber and tire groups a shade better and the motors practically unchanged from last week's final prices. Selling pressure from bear sources developed soon after the opening of the session, causing a more or less general declining tendency that resulted in losses running to as much as 2 1/2 points from the close of Saturday. A period of pronounced dullness set in by mid-afternoon, but a further easing off in quoted values on selling by floor traders was brought about upon announcement of nine per cent for the renewal rate for call loans. Crucible Steel reflected excellent resistance to pressure, and although declining at times with the general market its quick recovery and firm undertone was a noteworthy feature. Midday witnessed some improvement in the price level when money loaned at eight per cent on call, but this buying was also credited to the professional short interest. Money declined to seven per cent in the final hour and the market rallied sharply. Developments in the credit situation of late have again tended to exert a feeling of extreme caution in speculative circles, and until some improvement in that situation may be seen, the indications are that the securities market will remain in the hands of the professional investors.

(By L. G. Beaulieu & Co.)

New York, July 19.—The market displayed a considerable better activity this afternoon and while activity did not increase materially, the character of trading changed and stocks were in demand rather than being quite freely offered.

Crucible Steel, Baldwin Loco, Mex Petroleum, Stromberg, Studebaker and Reading all sold up a point or two from their low figures. An exception to the better trend was Hide and Leather Preferred which was quite weak on reports of an unfavorable earnings statement to be issued soon.

The easing of the call money rate was a temporarily constructive feature and the professional element also seemed loathe to remain short with the labor board announcement coming to-morrow which has the possibility of proving a favorable influence despite adverse predictions of disinvestment.

THE CHICAGO PRODUCE MARKET

Chicago, Ill., July 19.—Close.

A Problem for Men of Affairs

Do you realize the effect of the increased income tax upon your investments? Have you carefully weighed each one with a view to deciding upon the wisdom of converting a portion of your securities into tax exempt bonds?

Many business men with substantial incomes have overlooked the fact that an interest return of from 6.42% to 15% is required to yield the 5.55% net afforded by tax exempt Victory Loan Bonds.

To such men, we offer the service of our organization in determining to just what extent they can best retain taxable securities.

Write us, and we shall be glad to furnish particulars, or if you wish, to confer with you upon request.

LESSON FOR AGENT.

Speaking of Etiquette Reminded
Servant Girl of a Few Ideas She
Had in Mind.

"Madam," she began as the door opened, "I am selling a new book on 'Etiquette and Department'."

"Oh, you are?" she responded. "Go down there and clean the mud from your feet."

"Yes'm. As I was saying, madam, I am sell—"

"Take off your hat! Never address a strange lady at her door without removing your hat."

"Yes'm. Now, then, as I was saying—"

"Take your hand out of your pocket. No gentleman ever carries his hand there."

"Yes'm. Now, madam, this work on 'Etiquette and Department'—"

"Throw away your pipe. If a gentleman uses tobacco he is careful not to disgust others by the habit."

"Wait. Put that dirty handkerchief out of sight and use less grease on your hair in the future. Now you look a bit decent. You have a book on 'Etiquette and Department'. Very well, I don't want it. I am only the servant girl. Go up the steps to the front door and talk with the lady of the house. She called me a down-right, no-doubt about-it idiot this morning, and I think the book you're selling is just what she requires."

WHAT'S IN A NAME?

Is there any more confusing nomenclature than that employed in agriculture? A "bullock" is a kind of general term applied to cattle in the Southwest of England, and even bulls and cows are included, so that if one sees "a and Devon bullocks" advertised for sale the conclusion must not be hastily formed that these are steers of superior quality. In Scotland, and generally, save in the southwest, bullocks are steers, or, in the vernacular of the north, stots or stirs. Heifers become queys in Scotland, but the latter term is unknown in England. More perplexing, however, is the designation of a one-year-old female sheep. It is generally known as a gimmer or shearing ewe. In Lincolnshire it becomes a she hogg or thrieve, and in some parts of the country the term hogg and hoggets are used. The ram lambs are up lambs in many districts, and chiver lamb is a term which is only known in the South of England. The use of "he" and "she" as prefixes is peculiarly English. The ewes as they advance in age are known as two tooth, four tooth, and six tooth ewes, full mouthed, and latterly broken mouthed. What's in a name? To the uninstructed there may be confusion.

WHO WAS JOHN O' GROATS?

"From Land's End to John O' Groats" is a familiar saying, and it is interesting to glean some particulars of the O'Groats family, whose house was for a long time a landmark in Britain. In the reign of James IV, of Scotland, John O'Groats and his two brothers, Malcolm and Gavin, arrived at Calithness, and bought the lands of Wars and Duglasby, near the beach at the mouth of the Pentland Firth. In time, their families increased, until there were eight households of the same name, and, despite that fact, they all lived as neighbors very peaceably. Each year a festival was held in the original home, and at one of these a dispute arose among the younger members as to who should sit nearest the "head of the table," or enter the room first. John O' Groats of history was chosen as arbitrator, and he made a promise that when the next reunion came along all would be satisfied. Accordingly, he built an eight-sided house. This octagonal building had on each side a door and a window, and a round table in the centre. Thus it happened that each family entered by its own door, and sat at a table which was practically "without a head."

Atchison Topeka and Santa Fe today applied to the I. C. commission at Washington for permission to issue \$9,243,000 in common stock to replace same amount of four percent convertible gold bonds of 1910.

At The Theatres

All Attendance Records
Smashed With "Male and Female"
At The Auditorium Yesterday

NEVER SUCH HUGE CROWDS WERE SEEN BEFORE—BIG
DEMI-LE PICTURE PACKS THE AUDITORIUM TO FULL CAPACITY—SHOWING ALL THIS WEEK

All attendance records were smashed yesterday at the Auditorium when "Male and Female," the greatest picture of the year was shown for the first time. Everybody went wild over it. It is a wonderful picture. Theatrical critics all over the continent have already proclaimed this the biggest motion picture production ever presented, and Quebec verdicts agree with this.

The picture is full of live, thrilling and fascinating scenes and situations. The stars that go to make up the cast include prominent artists such as Gloria Swanson, Bebe Daniels, Thomas Meighan and half a score of others. The story is also exceptionally gripping. The entire picture is one grand masterpiece.

PRICES, NOTE THE PRICES

Matinees, 25 cents, tax included. Evenings, 33 cents admission, and 2 cents tax.

"Sherry" With Pat O'Malley,
At The Victoria Yesterday

Pat O'Malley, playing the leading part in "Sherry" at the Victoria yesterday, completely won the hearts of the audiences at all performances. It is the story of a young man who was the last descendant of an old family. His dissipation of half a million dollars kept him in the limelight of the place where he lived, and the inhabitants regarded him with mingled feelings of scorn and pity.

One day, when he was absolutely penniless, he told a bar-keeper that he was going to swear off. He knew how to spend money and he wanted to learn how to make it. Making good his promise, he lived in the woods for some time, and after plenty of fresh air, etc. he felt rejuvenated.

One morning he was hired by a girl who was running away from her grandmother, to carry her bags, but persuaded her to return home, thereby earning the undying gratitude of the old lady. He was then hired as bodyguard by a man who was the richest inhabitant of the place where he lived.

Events follow each other in rapid succession, leading up to a very pleasant climax.

A comedy and other subjects are on the same bill, which will be shown again today and tomorrow.

Capacity Houses See Enjoyable
Programme at the Classic Theatre

The large crowd which attended the Classic Theatre last night saw a show, every number of which was highly entertaining.

"Burning Silence" was a strong and pathetic drama which called for heavy acting and in its portrayal an able cast left nothing to be desired. The price of "Burning Silence" as told in this strong and powerful production left an indelible impression with the audience.

The Classic Weekly News was a Big Number this week and showed views of the United States Republican candidates for President and Vice-President, The Calgary Live Stock Show (considered the biggest ever held in Canada) and also excellent views of the Czechoslovak Troops, the series showing daily routine of the boys who by their gentlemanly conduct so endeared themselves to the people of Quebec.

The Chester Outing Feature was a feat of entertainment and education and the tour of Fuji, Japan, was in itself worth the price of admission.

"Hits and Misses" was a most amusing comedy. "Topics of the Day" was another enjoyable subject.

The same show will be repeated today.

Charles Ray Very Popular
At The Empire.

Despite the inclement weather yesterday, crowds visited the Empire to witness Charles Ray in "Crooked Straight" another of his ever popular true to life pictures. The story produced by Thos. Ince depicts a young man who turns crooked from hunger, turns straight from love and turns crooked again to save his girl from ruin.

"Bought and Paid For" one of those short dramatic subjects, which are now in such popular favor, is an added attraction. A polite Strand comedy and the latest News Weekly complete the program, which is being shown again today and tomorrow.

Chronicle Files
100 Years Ago

The Crown.

A curious discovery has been made since it was determined to remodel the Crown. Several of the large gables—we have not yet learned how many—turn out to be paste. It is supposed that the fraud was committed as far back as the time of Charles II.

British Finances.

London—Mr. Sparrow of London has lately published a map, showing the British finances in one view. Among other things which have led to the immense debt of England, he mentions, that the Spanish War began in 1739 an continued eight years augmented the debt 24 millions in money—the seven years war 48 millions—the American war of seven years 95 millions and the French Revolutionary war, which lasted 21 years, 350 millions.

LEMON JUICE
FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best reekle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

Marriage.

Cream "Owan, at the residence of the bride's uncle, No. 182 D'Aiguillon street, Quebec, on the 17th instant, by the Rev'd. Donald Tait, B.A. Robert F. Cream, to Rebecca J. eldest daughter of the late Joseph Cowan.

Duty Was Paid.

The Chenier monument, which has been lying in bond for two months past, has been taken out by the committee. The Government decided that the duty had to be paid. The monument cost \$800, and the duty was \$240.90. The base which is now being made, is to be granite and 10 feet high. This will be placed upon a mound raised four feet above the normal level. By August 15 it is expected the monument will be ready for the unveiling.—Montreal Star.

The Road Committee of the City Corporation have decided to proceed with further work upon Dufferin Terrace. It will be remembered that after the fearful landslide below the portion of the terrace a good portion of the promenade was considered unsafe for pedestrians, and was fenced off from the public. Since then it has been fully demonstrated that no actual danger exists and consequently the portion of the terrace from which the public have been for some time excluded is now about to be thoroughly repaired and reopened to citizens and visitors.

BRANDON FAIR A

GREAT SUCCESS

Brandon, Man., July 19.—With record entries for all events, the Brandon Summer Fair opened here at noon today. Every available stall is filled, over 300 prize-winning horses being entered. In the poultry section there are 2,500 birds from all parts of Canada and the United States. The entries in the dairy department are declared by manager Small to be sixty percent better than last year. Last year's dairy exhibition made a Canadian record.
