Some Advantages Offered to People who would Settle in Knowlton, Que.

As we all know, Knowlton is the most popular Summer Resort in the Province of Quebec, which, by the way, is the largest and most thickly populated in Canada. Our climate is most healthful and refreshing owing to the high altitude of Knowlton, it being 715 feet above the sea level and surrounded by mountains.

As to sport, could man wish for more during the summer than the fishing, boating, bathing, etc., offered by Brome Lake, a large expanse of water about 5 miles long and 3 miles wide, situated about 10 minutes walk from the centre of Knowlton. Knowlton has been known far and wide as a winter resort, owing to the bracing air around Brome Lake and its mountainous surroundings, which facilitate skating, tobogganning, skiing and sleighing.

The roads leading to Potton Sulphur Springs are excellent and the ever-changing scenery is appreciated by all lovers of nature.

The educational advantages enjoyed by Knowlton over other places twice its size will at once be recognised when we mention among others, a large Public Library (Pettes Memorial), the Brome County Historical Society with its museum (Paul Holland Knowlton Memorial), the Public Schools and Churches, besides many Clubs which are great factors in the social and sportive life of Knowlton.

The Knowlton Conference has its headquarters here. The objects of this Society are the providing of lectures, classes and other methods of instruction for Sunday School and other Christian Workers and the deepening of spiritual life.

Knowlton is the summer home of the Y. W. C. A. of Montreal.

There are unusual openings for the following businesses:—

BOARDING HOUSES—The 2 hotels in Knowlton, although very large and up to date, are not sufficient to accommodate the great influx of people who make Knowlton their home in summer, and there are some large buildings which could be bought or rented cheaply as boarding-houses.

WATER POWER PLANT—We have water power which could be developed and used to great advantage both for the community and investor.

TANNERY—A very large Tannery may be bought here at a greatly reduced price, with excellent advantages, as it now stands idle.

The Train Service to and from Montreal, Sherbrooke, and other important centres is all that can be desired, there being 3 trains daily in winter and many specials in summer.

Any further information regarding Knowlton will be cheerfully given if a card is sent to

The Secretary of the Knowlton Board of Trade,
KNOWLTON, Que.
