Smith, vice Thompson.—Each dated July 29, 1825.

We cannot but feel truly gratified to hear, that the statement we made of the affecting circumstances which attended the death of Capt. Mackay, 70th Regt. at Winchester, on the 8th inst., (which were casually related to us,) has excited the deepest sympathy in several persons of exalted rank; amongst whom we are happy to include our most gracious and benevolent King, who has given the bereaved family £500. The son of the late Capt. Mackay's brother is to be educated for the purpose of filling a situation in the War-office, and a munificent but suitable provision is to be made for each of the daughters.

CANADA WHEAT.—One cargo of wheat has arrived from Canada, and it has been entered for home consumption under the provisions of the Act for altering the Duty on Wheat, being the produce of British America. This act, with great difficulty his Majesty's Ministers were enabled to pass through the two Houses of Parliament. The quality of this wheat is not fine. It is, however, equal to the growth of Lincolnshire red wheat. It is worth about 63s. to 65s. per quarter, and after the payment of the freight of 10s. or 12s. per quarter, and of the import duty of 5s. per quarter, no great sum will be left to pay for its production. During this season probably 70,000 quarters of wheat will be entered for home consumption from British America; but afterwards several years of prosperity must intervene before the Canadas stop 50,000 quarters annually for the consumption of the inhabitants of the United Kingdoms.

SCOTLAND.

The following is the copy of a letter addressed by the Right Honourable the Earl of Dalhousie after his embarkation, to the Chief Magistrate of Greenock.

On board the Herald 1st August 1825.

SIR,—It is impossible that I can leave the port without expressing to you how much I have felt myself honoured, by the notice of the Magistrates and Merchants of Greenock, within these few days. I shall ever recollect it with pride and with gratitude.

I beg you will do me the favour to appropriate the enclosed donation to any charitable purpose you think proper in the town—it is the only way in which I can express my obligation on leaving you.

Your much obliged and most obedient,
DALHOUSIE.

MR. BAINE, *Chief Magistrate of Greenock.*

The liberal donation of fifty pounds given by the Earl of Dalhousie on his embarkation from this port, as mentioned in our paper of Tuesday, has been distributed by the Chief Magistrate as follows: To the Infirmary, thirty pounds; to the Female benevolent Society, ten pounds; and to the Destitute Sick Society, ten pounds.

GENERAL SUMMARY.

A case of extreme distress has been made known to the public, by Mr Jones, the Marshal of the King's Bench Prison. It appears that two young Ladies, of unexceptionable character and conduct, are now in that prison for debts contracted by their parents, who are dead, and which they undertook to pay out of the proceeds of a small school. Their noble undertaking was, however, frustrated by misfortune, and the unfeeling creditors have sent them to gaol. Mr. Jones opened a subscription for them, and, in a few days it amounted to more than £1000 above the debt!

Irish Bank tokens will not be received after the 5th of January next.

Mr. Lyon, merchant, of Bristol, has just imported, in the brig Milo, arrived at that port from the Cape of Good Hope, seventeen Zebras. These beautiful animals were taken by a farmer about three hundred miles in the interior of the colony. It is one of the most remarkable importations that has ever taken place in this country.

A family in Edinburgh contains a great grandmother, two grandmothers, three mothers, two widows, a wife, two daughters, a grand daughter, a mother in law, and a grand mother in law; a husband, a father, a son, a grandson, a great-grandson, a son in law, and a grandson in law. This family consists only of five individuals, the eldest of whom is upwards of 93 years, and the youngest little more than a month old. And what is most remarkable of all, it consists of four generations in a direct line, all living under the same roof.

One morning lately, the citizens of a mercantile corner of Edinburgh were amused with the descent of a fair damsel, attired in her *robe de chambre*, from a window by means of a ladder. She was received into the longing arms of an amorous swain, who had been for years kept in a woful suspence, through the vigilance of an ancient duenna. Report says that the fair one had been anxiously waiting an opportunity of throwing herself into the embraces of the faithful youth; but the watchful mother regularly took away her clothes, and locked her into her bed-room; hence it was that the maiden made her escape in her night attire. The pair were united shortly after.

The Methodist conference opened on Wednesday last at Bristol, the Rev. Joseph Entwistle was appointed President, and the Rev. Jabez Bunting, Secretary for the ensuing year.

In an auction advertisement, in the *Yorkshire Gazette*, the following are offered: "A most excellent Freehold and Tithe-free Farm; also the perpetual advowson to the Church of North Dalton, worth upwards of £340 a-year, *and the present incumbent aged 76 years.*"

George Colman being once asked if he were acquainted with Theodore Hook, replied, "Oh yes; Hook and I are old associates."

When Dr. Duncombe was head master of the King's School, Canterbury, he at one time gave great offence to the scholars by enforcing some strict regulations among the Latin Students. A day or two after, the following pun was chalked upon his front door:

"The colour of a mouse—the trap of a louse—
"Is the name of the man that lives in this house."

The youthful author was soon detected, expelled the school, and in a few weeks after, committed suicide. The old tory master possessed too stern a nature to applaud the wit.

When Opie came first to London, his price for painting a portrait was five shillings, which he afterwards raised to seven shillings and sixpence! Being advised by Mr. Wilcott to make a further advance to half a guinea, he refused to fix the disgraceful emolument, and replied, "No! that the country cannot bear it."

DOMESTIC NEWS

QUEBEC, September 19.

Lumber, Wheat and Ashes, exported at the Port of Quebec, for the week ending 17th Sept. to wit:

Lumber.—552 oak, 4,099 pine, 181 elm, 5 birch, 76 ash 26,450 deals, 1,444 deal ends, 21,800 staves 65,820 staves and heading, 830 Laths, 54 masts, 48 spars, 1,084 oars, 202 handspikes, 600 boards, 27 cords 3ft wood.—*Wheat*, 19,654 minots.—*Ashes*, 820 barrels.

The Hon. Mr. Papineau, Mr. De St. Ours, Mr. Leslie, Mr. Cuvillier, Mr. Quesnel, Dr. Kimber, and Mr. R. B. Vigor, arrived in this city yesterday morning, with the Address of the District of Montreal, to His Excellency the Lieutenant-Governor. We understand that two o'clock to day, was fixed upon for receiving the address, and that those gentlemen return this evening by the steam boat.

We have been favoured with copies of the Address, and his Excellency's answer, which are as follow:—

To His Excellency, Sir FRANCIS NATHANIEL BURTON, Knight Grand Cross of the Royal Hanoverian Guelphic Order, Lieutenant Governor in and over the Province of Lower-Canada, &c. &c. &c.

May it please your Excellency,

The undersigned inhabitants of the city and district of Montreal, knowing and appreciating the public and private virtues which have marked the conduct of your Excellency during your residence in this Province, feel it their duty, previous to your departure, which they are informed, may soon take place, to offer a testimony of that respect and affection which, in common with all the inhabitants of the Province, they entertain towards you, and which have generated and supported that universal confidence to which your Excellency is so justly entitled.

They would fail in what they owe to themselves, as well as to their fellow citizens, if they did not seize this opportunity to acknowledge the advantages which have resulted from the rectitude, the exact justice, the impartiality, and the undeviating respect for the laws, which have characterised the acts of your Excellency's administration. They pray your Excellency to be assured, that they will retain towards you feelings of gratitude which time can never obliterate.

They pray your Excellency will accept their sincere wishes for your prosperity; and they fervently hope that you may enjoy that unalloyed satisfaction which belongs to the well-founded conviction of having effectually contributed to the happiness of a loyal and faithful people.

ANSWER

To the inhabitants of the city and district of Montreal.

GENTLEMEN,—The kind and flattering terms in which you are pleased to address me on my departure demand my most grateful acknowledgements, which I beg you to accept.

The consideration and regard you have so constantly manifested towards me, since I have had the pleasure of being known to you, and the approbation of my conduct which I have now the happiness to receive, will render my residence in Canada a lasting source of the most gratifying reflection.

In repeating my heartfelt thanks for your affectionate good wishes, permit me to assure you, that I shall ever cherish the most anxious solicitude for the welfare, prosperity and happiness of this loyal, important, and rising Colony.

It is reported that his Excellency the Lieutenant Governor will sail for England in about a week from this date.

A new Hebrew Town, to be called *Ararat*, has lately been commenced building on Grand Island, above the Falls of Niagara. It is understood that it is to be the residence of wealthy Jews from Europe.

The 68th and 71st Regiments, with the Artillery and Sappers and Miners paraded on the Esplanade, yesterday afternoon. It was the Sunday parade this season, and attracted a great concourse of spectators. His Excellency the Governor in Chief was present, and looked remarkably well after his voyage.

We understand that the 68th Regiment are under orders to proceed to the Upper Province, to relieve the 37th, which regiment embarks for England on the arrival of the 79th (Cameronian Highlanders) from Cork. The first division of the 68th embark in a few days.

An exhibition of fireworks which has been some time in preparation, took place last Saturday evening on the Esplanade, and afforded considerable amusement to a great number of spectators. It is a question, however, if such practices ought to be encouraged in the vicinity of houses covered with shingles, from their liability, particularly in dry weather, to take fire by the rockets descending on them.—*Old Gazette*.

In the *Lady Ridley*, from Liverpool, Mr. Evans.

SHIPPING INTELLIGENCE.

The Bark *John*, Young, with timber from Miramichi, bound to London, was wrecked on the night of the 9th ult. (the weather being thick and hazy) on the north-west bar of Bryon Island; crew, with all her rigging, &c. were saved.

Deal 5th August.—St. Lawrence, Harby, hence in 30 days; Capt H. reports that on the 24th July, lat. 48, long. 32, he saw the bark Lord Wellington, of Hull, abandoned, some of her spars gone, no sails, and some vessel had stripped her of her rigging—Spoke the brig Isbe, of Shields, which had a boat on board the Lord Wellington, getting spars, &c. The Ship floated well and did not appear a great deal damaged. (This is most probably the Lord Wellington, Bennet, hence 24th June for Hull, of which some account of her being abandoned was published here some time ago. Arrived from London, Sarah, Beatson, for Montreal, with loss of sails.

Vessels spoken, 13th July, lat. 49, lon. 11, *Hawes* hence for London—22nd do. lat. 48, lon. 9, *Sally* and *Ocean*, hence for do.—23rd do. lat. 51, 29, *Eclipse*, Moore, hence for Truro—22d August lat. 50, 12, lon. 20, *Jane*, Oliphant, hence for Liverpool—4th Sept. east of the Banks, *Harrison*, Carling, hence for Bristol—Thursday last off Rye, *Ocean*, from Belfast—Same day lat. 48 Capt Chatt *Perseverance*, Pigg, hence for Plymouth—Off the Brandy Pots last Saturday night, *Union Packet*, Lloyd, hence for Liverpool and *George Canning*, M'Cleland, hence for Bristol.

UPPER-CANADA.

YORK, September 12.

It will be seen by the following notice, that the merchants of Niagara have taken into consideration the expediency of opening a sloop navigation from Prescott to Montreal. Should this be effected, Upper Canada must in a very short period become equal to the state of New-York.

NOTICE.—"It appears to the Subscribers, that it is a matter of the utmost importance, to the prosperity of the Canadas, that the Navigation of the River St. Lawrence from Prescott to Montreal, should be improved by means of Canals sufficiently large to admit vessels, that could pass to and from the Ocean;—the above notice is therefore given to request a meeting of the Inhabitants of the district of Niagara, at Brown's Hotel in the Town of Niagara on Monday 4th September, at three o'clock in the afternoon, to take into consideration the expediency of the above improvement, and to adopt such further measures as may appear necessary for carrying the same into effect. J. MUIRHEAD, and others."

The transport of 1000 staves from lake Erie to Montreal, costs, at the present moment, 20 dollars. If a canal should be made for the admission of Sloops, it would be reduced to 50. This would encourage inhabitants near lake Erie to build vessels for the conveyance of lumber. One that would carry 6000 staves, might make 6 trips during the season, which would, exclusive of the sums received by return cargoes, amount to 1800 dollars.

This is one of the subjects that our members neglected bringing before the house. Make this canal and the Welland will become productive immediately. A barrel of flour costs for transportation from Lake Erie to Montreal, 6s. by sloop navigation it would cost but 3s. A ton of Merchandize from Montreal to Prescott, costs £1 5 0; if a canal were made it would cost but £1 7 0.

With these advantages before our eyes, will the people of this province slumber at their posts? It may be asked by certain gentlemen, where are the means for cutting a canal of such dimensions.—Have not means been found to cut one from Erie to Ontario, the profits of which were doubtful to every man? and why doubt our capability to raise funds to complete one that must pay ten-fold?

We are aware that the Lower Canadians are opposed to a canal of this description, they wish to keep us as beasts of burthen; but if we consult the true interests of the province, upon fair words failing, we ought to proceed in mass and compel them to yield to our just request.

The spirited inhabitants of the London and Western districts, are raising a subscription for the purpose of building a Steam Boat, to ply between Amherstburg and Fort Erie.

KINGSTON Sept. 16.

Hail Storm.—We learn from Adolphustown, that on Saturday the 3d instant, the Bay Fay was visited with a very uncommon hail Storm for this early period of the season. The hail stones were nearly an inch in diameter, and so solid in their contexture, that the influence of the sun had not entirely melted them on the following Tuesday. We hope that the excellent fruit that grows in that Bay may not have been injured by the storm.

BROCKVILLE, Sept. 19.

DIED.—In the Jail of this District, on Saturday last, Henry Hamilton, who was lately convicted of murder and sentenced to be executed on the 7th of Oct. next. An Inquest was held on the body, which returned a verdict of "Death by the visitation of God." It appeared on examination of the physician and others who attended him, that he had been attacked by a fever about a fortnight since, and although every attention was given that the circumstances of his case would admit, yet he continued to get weaker every day and finally expired. No circumstance was discovered to lead to a suspicion that the deceased had come to his end by any improper means, and his Father-in-law stated that he believed every attention which humanity could require was paid by those who had him in charge.

NIAGARA, Sept. 10.

The trial of R. Randal, Esq M. P. pursuant to an indictment for perjury, preferred against him by the Grand Jury, at last Assizes, has taken place and he has been honorably acquitted.

We are happy to learn that the contractors are getting on rapidly with their Jobs, on the Welland Canal, that there are between five and six hundred hands at present employed, and that their number is constantly increasing. We understand that it is probable the whole line will be under contract in the month of November.

Drowned.—On the 27th ult. in Lake Erie, near the mouth of Elk Creek, Erie county Pa. *Richard Cronk*, Esq. son of Judge Cronk of the District of Columbia, a gentleman attached to the Brigade of Topographical Engineers now occupied in locating the route for a canal between Lake Erie and Pittsburgh.

Agreeable to an advertisement in the Gleaner, of the 3d instant, a meeting was held on the 8th to adopt a plan to have a survey from Montreal to Prescott of the best Route for a Canal, that would admit vessels such as can navigate the Lakes, to pass between those two places, the Hon. Thomas Clark, was called to the Chair, W. H. Merritt, Esq Secretary. It was Resolved to open a subscription to defray the expence of such a survey, and the Hon. Thomas Clark, W. H. Merritt, James Muirhead, Thomas Butler, Robert Grant and John Ross Esqrs. were chosen a committee to manage the business, a subscription was accordingly opened, and signed by all present.

THURSDAY EVENING, SEPTEMBER 22, 1825.

Yesterday's mail has brought us news of no later dates and of no greater importance from Europe. With regard to Cis Atlantic rumours, there seems to be none of greater interest than those in circulation with regard to the preparations said to be in progress for revolutionizing the island of CUBA, and thereby for ever severing the link which connects that island with its unnatural mother-country. That such reports are true, we have no hesitation in believing. The measures which they report to be in operation are alike natural and necessary. CUBA, as an independent state, or as an integral part of an independent state, would in the course of a few years arrive at a pitch of prosperity and political utility which centuries of connection with Spain could not give to her. Though incapable of working out their own independence, the inhabitants of Cuba have long been aware of this, and it is matter of notoriety that it has long been a secret maxim with them gradually to estrange themselves from their present state, thereby paving the way to that ultimate emancipation which it is now evident, is not far from hand. Among politicians the first movements towards such an event will undoubtedly create much unnecessary speculation; especially in peaceable times like the present when few or no transactions of higher importance are going on in the great arena of the political world. Some will undoubtedly claim an interest in Cuba for our own country, but if this important appendage of Spain is destined to become an independent country, all the interest which Great Britain will claim in it will be confined to a participation in its trade. Our dependencies in the West Indies are already too numerous—at least so much so as to prevent any plot being for a moment entertained upon Cuba. Others will put in claims for other European countries, and for France in particular; but the thing is impossible. Cuba, to be free and to enjoy that independence which she anticipates and ardently pants after, must either be one and indivisible state, or an integral part of Mexico. This alone in our opinion is her interest, and we have no doubt it will ere long be her destiny. But as we anticipate much speculation upon the subject, we shall not prolong our present observations on the subject.

ARSON.—For some nights back the inhabitants of Lapraire have been held in continual alarm in consequence of several attempts which had been made to set their houses on fire, but, fortunately, without success. The malicious purposes of the incendiaries proved so far successful, however, as to enable them to set fire to the galleries in front and rear of Mr. Dupree's house, and to the stable of Mr. Macnabb, the hay and part of the manger of which were found burning this morning, but seen in time to be easily extinguished. It is to be hoped that wretches who are capable of such diabolical purposes will not ultimately escape that punishment which they so richly merit.

MONTREAL FAIR.—This being the day appointed for holding the half yearly fair in this place, a number of farmers and others assembled on the St. Ann's common near the canal. The show of cattle of every description, though not very great, was of a very excellent quality; and the colts brought forward were of a very superior kind. A colt of about four months old belonging to Mr. Rice, from the strength and symetry of its form, excited particular attention; and it is evident that this branch of rural economy has of late received that share of attention which it so peculiarly merits. At the time we left the Fair, little business had been transacted; but we understood good cows fetched from seven to ten pounds per head. Swine also fetched a fair price. If a little more attention were paid to these fairs it is perfectly evident that they would be attended with greatest benefit to the country at large.

The consecration of *St. James' Church* took place this day amidst an immense concourse of people, but being obliged to go to press before the termination of the ceremonies, we are under the necessity of postponing a particular account of them until our next.

We regret to state, that as the Steam-boat Quebec, on her last trip from Quebec, was coming through the Richelieu rapids, Louis Roy, Esq. of Quebec, who was a passenger, fell over-board during the night and was drowned. The particulars of this melancholy accident we have not been able precisely to ascertain, but we understand that, in going from the cabin on deck on some business, he incautiously approached too near the side of the boat where there was an opening and slipped over. It has been repeated to us that efforts were made by the Captain, to save this respectable individual; but it has been stated on the other hand as an excuse, that fully a quarter of an hour had elapsed before the misfortune came to his knowledge, when any attempts to recover the body would be in vain.

A CAPTAIN DAVIES, commander of one of the tractors now lying at Quebec, a few days ago threw himself into the river by the window of his own cabin, and was drowned. No reason can be assigned for this rash act. The body was seen to rise to the surface of the water, by some gentlemen standing on the beach; but supposing it to be that of some person who had been drowned before, they made no efforts to save the unfortunate individual in question.

NOEL FRANÇOIS, the Indian, sentenced to be executed at the Three Rivers, on Saturday last, has been respited till Saturday next, the 24th instant.

Vessels cleared from Quebec. —

Hull, August 6, Minerva, Carrick, Cove of Cork, 4th, Venus, Nichol, Greenock, 8th, Dove, Drap, Wilkes, Berwick, Smith, Aberta, Davison; Wakefield, Wakefield, Resource, Pickford, Lancaster, Argo, Young, Milford, 9th, Wm. Hockessin, Hall, Belfast, 6th, Richard Piper, Mahoney, Elsinore, Potts, Deal, 7th, Josephine, Pearce, Gravesend, 8th, Henry and Harriet, Shirley, Port Mahon, Heslop, Workington, Lester, Bristol, Lewis, Shedden, Bromsgrove, Jones, Liverpool, 9th, Lord Admiral, Davidson, Leith, 8th, Mary, Mackie, Greenock, Gellatly, Gravesend, 10th, St. Charles, Cranston, Liverpool, Harrison, Limerick, 11th, Lord Nelson, Liverpool, 4th, Ark Islands, M'Leod, Margaret, Hull, St. George, Hudson, Greenock, 9th, Robert Dewar, Patton.

Vessels sailed from Quebec. —

Forte, Plymouth, & Newfoundland, Deal, 10th, Lucy, Cousins, Collinson, Hull, Green, Plymouth, 9th, Mary Ann, Hillary, Portsmouth, 10th, Cato, transport, Moore, do. Loch, Barham, Liverpool, 11th, Oriental Wells, Greenock, 23d, Friends, Wishart—Sophia, Neil, to sail on 17th, Dublin, 6th, Quebec Trader, Davies, 8th, Newcastle, Clay, and Two Brothers, Hooker—Mary, Brun, and Lucretia, Symonds, to sail about 20th.

Passengers Inwards —

Ann, of London, from Hull for Quebec, on the 11th July, lat. 51, N. Lon. 52, 6, W. Union from Quebec, 4th June, lat. 49, 28, N. lon. 18, 46, W. leaky, and the crew going, had been lucky six days, the captain would be obliged to abandon her, the leak had increase in 12 hours—Passengers Hessie, Newcastle for Quebec, 31st July, off 35 days with foremast sprung, lat. 49, 40, N. lon. 51, W.

To the Editor of the Montreal Herald.

SIR,—In the extract of to-day, I see a statement of the late passing improvement in certain parts of the province, and parts thereto annexed, of Beauharnois, that I cannot let pass unnoticed, and no wonder it at first astonished so many the British settlers on the Lower Canada road, whose crops this year are not equal to any in the province. How should it be otherwise, owing to the letters and petitions of Agricola, Germanicus, &c. &c. there are in existence some Lower Canadians who are now trying the experiment of sowing fall wheat, with abundant prospects of success, as well as the introduction of other improved methods of farming. Passing through this part of the country, a British traveller cannot fail to be struck with the neat and those neat gates which, in other parts, so much adorn and finally decorate the English Cottage. As a proof that the spirit of improvement is not confined to the British, I must mention the sudden elevation of the Village of Beauharnois, the building of thirty new Houses, some of them of stone and two stories, in little more than two years, where not a house stood before, clearly shows that Canadian energy can be excited under proper direction. A convenient quay has been built, and 2 Steamboats now ply there almost daily, and when the new projected road to shorten the communication from the village of Beauharnois to the River Chateauguay shall have been opened, there will be a direct line of intercourse from Montreal to the States, through the townships of Godmanchester and Hinchinbrooke.

I cannot conclude this statement without noticing a gross mistake in the *Courant*, "it states that a New Catholic church is commencing in the seigniory of Beauharnois, opposite *Isle Aux Noix*; now, there is at this moment, no Catholic Church in progress of building in that seigniory, and its Geographical position places it at many miles distance from *Isle Aux Noix*. It must be to some other seigniory that the Courant alludes.

If you think the above observations worth insertion in your paper, you will please give them a place whenever you have room.

I am sir your obedt. Servant,

A SUBSCRIBER.

Montreal, 17th Sept., 1825.

The last Courant has anticipated, we find, this part of the foregoing communication, but as it was received by us and in type previous to the publication of the Courant, and as it treats of some other subjects, we cannot refrain from publishing it.—Editor.

BIRTH.

On the 20th inst. Mrs. Horace Dickinson of a son.
