PREFACE.

Twenty years ago, a Directory and Gazetteer of the Eastern Townships was issued from THE NEWS office. It proved to be a work of great utility to the business and professional community, and even to this day by many persons is preserved as a book of reference. However, to a great extent, its usefulness is gone, and inasmuch as no other comprehensive Directory of that part of the country has since been attempted, the publisher of the first Directory of the Townships determined upon putting forth a new edition of that work, but on a somewhat different basis.

The volume herewith presented is shorn of some of the features of the original publication. It is simply a Directory, without any claims to be a gazetteer of general information ; but as a practical guide its scope has been enlarged, and the names of farmers, as well as of mercantile, professional men, &c., are included in its pages.

This Directory has been compiled at great labor and much expense. The utmost pains have been taken to ensure correctness, and it is presented to the public with the hope and confidence that it will be to them an invaluable and reliable book of reference of one of the most important and progressive sections of the Dominion of Canada.

149 ST. JAMES STREET,

☞ All correspondence promptly answered. Two doors west St. Lawrence Hall.

ST. LAWRENCE HALL,

MONTREAL, CANADA.

HENRY HOGAN, - - - Proprietor.

FOR the past thirty-six years this Hotel, familiarly known as the "St. Lawrence Hall," has been a household word to all travellers on the Continent of North America, and has been patronized by all the royal and noble personages who have visited the City of Montreal. This hotel, including the entire block, which is admirably situated, is in the very heart of the City, and contiguous to the General Post Office, public buildings and other places of interest and of business.

This year there has been very extensive alterations and improvements of the interior of the Hall. A new Drawing Room has been added, facing on St. James street, the fashonable boulevard for driving and promenading of the élite of the city—a boon the lady patronesses of the Hall will readily admit. The decorations of this room are in Lincrusta-Walton in gold colors, and the wood-work of cherry. A rich new Turkish carpet adorns the floor, and the upholstered furniture is luxurious and cannot be surpassed in the city. Several suites of new Bed Rooms adjoin the new Drawing Room, with bath and water closets attached, of the very latest improvements.

The large Dining Room has been lengthened over twenty feet, and has now a seating capacity for 400 guests. Seven new elegant Mirrors have been added, also a large Ventilator, which makes the room effectually cool. This room has also been under the artists' hands; the walls being handsomely decorated in oil colors of varying hues, with Lincrusta-Walton dadoes; and it stands to-day second to no dining room in the Dominion.

The whole House has been thoroughly renovated, painted and decorated. A new and elegant Passenger Elevator has also been added, and the halls and public rooms are lighted by the electric and incandescent lights, making it the most attractively lighted Hotel in the Dominion. The St. Lawrence Hall is managed by Mr. Samuel Montgomery, under the immediate personal supervision of Mr. Hogan, than whom no one is better qualified to conduct an hostelry of such magnitude as the St. Lawrence Hall, and than whom no one has gained a better reputation as an obliging, generous and considerate host.

☞ Hotel coaches are in attendance on arrival of all trains and steamers. All baggage checks should be given to the Porter in attendance.

The County of Brome is situated in the judicial district of Bedford and is 469 sq. miles in extent. It is divided into six townships, viz.: East Farnham, Brome, Sutton, Potton, East and West Bolton. It is bounded to the south by Vermont, to the north by the county of Shefford, to the east by the county of Stanstead, and to the west by the county of Missisquoi. The C. P. R. R. (South Eastern branch) provides ample railway facilities for the greater part of the towns and villages, while the new "short line is now being built through the northern part of the county. The scenery of Brome is most picturesque. Brome also possesses a good deal of timber and mineral wealth. The popoulation of the county at last census was 9174.

THE OVERLAND SERIES OF PENS.

THIS SERIES of Pens has been thoroughly manufactured to suit the exigencies of modern business. Rapid handwriting has become a necessity, and it has been the aim of the manufacturers to produce a series of Pens which will write with smoothness, no matter how rapid the writer may be. The very best material which can possibly be obtained has been used, so that these pens are unrivalled for durability. As is well known, there are many persons who require special qualities in the Pens they use—qualities of flexibility in varying degrees and of varying firmness of point. Then again, Pens should be adapted to the different classes of work to be performed. Thus a pen suitable for ledger book-keeping would be unsuitable for engrossing. This series includes Pens specially adapted to every purpose, so that anyone who wants a Pen need not go further than this series in order to be suited.

No. 1—ALBERTA. A beautifully free writer, the smoothest pen ever made, for bold free writing and writing from the shoulder.
Price per gross, 90 cents.

No. 2—ATHABASKA. A white pen, smooth and durable, suitable for Lawyers, Clergymen, and all sorts of professional work. Price per gross, 75 cts.

No. 3—SASKATCHEWAN. Broad-pointed, non-corrodable pen, suitable for general use, as upon Bank Counters and Telegraph Offices, where pens for public use are kept. It may be called a Universal Pen, as it suits everybody's hand. It is adapted also for Railroad Offices, where easy and rapid writing is required.
Price per gross, 60 cents.

No. 4—ALGOMA. Short nib, blunt smooth point, for engrossing and notarial work. A good pen for copying music. Price per gross, 75 cents.

No. 5—ROCKY MOUNTAIN. A very flexible, fine-pointed pen, for fine or ornamental writing, mapping, etching, etc. Suitable for engineering offices.
Price per gross, 50 cents.

No. 6—COLUMBIA. A fine-pointed pen in very general use in schools, for which purpose it is unexcelled; very suitable also for private correspondence. Price per gross, 50 cents.

No. 7—NIPIGON. Prepared especially for use in banks and insurance offices where continuous writing is done. It holds a large supply of ink and is well adapted for figuring.
Price per gross, 60 cents,

No. 8—ASSINIBOINE. A popular pen for general correspondence. Points are especially smooth for flowing and easy writing.
Price per gross, $1.00.

No. 9—VANCOUVER. A very durable pen for Accountants and general commercial work. Can be used with great effect for off-hand ornamental work.
Price per gross, $1.00.

COUNTY OF MISSISQUOI.

Missisquoi is one of the oldest and wealthiest counties in the Eastern Townships. It is comprised within the judicial district of Bedford and is divided into two large townships and six parishes, as follows: Townships of Stanbridge and Dunham; parishes of Farnham, Clarenceville, St. Thomas, St. Armand East, St. Armand West, and Notre Dame des Anges. Missisquoi faces on the United States frontier, and is bounded to the south by the State of Vermont; Brome lies to the east of it, Iberville and the Richelieu river to the west, and Rouville and Shefford to the north of it. It is famous as an agricultural, horticultural and stock-raising county, besides being the seat of many thriving, important manufactories. The Central Vermont and South-Eastern (now C. P. R.) railroads furnish the county with abundance of railway communication. Mississquoi contains 358 square miles and has an approximate population to-day of 21,000.

BEDFORD.

A thriving village on Pike River, in the Township of Stanbridge, County of Missisquoi, is the county seat also the centre of the Township. It has three churches, branch of the E. T. Bank, three hotels, an academy, two elementary and a convent school, an edge tool factory, two saw mills, one grist mill, one carriage factory, a foundry, one needle factory, one sewing machine factory, one paint factory, one confectionery factory, two sash and door factories. Two daily mails. It is on the St. Lawrence & Lake Champlain Ry, a branch of the C. P. R., and stage route from Stanbridge Station to Dunham. The county registry office is here, also the Circuit Court and Commissioners Court. The Great North Western Telegraph Company have an office here. There is also a stirring local newspaper known as the *Bedford Times*, published here. As the village is built along the stream near the factories for some distance, it has two postoffices, for the convenience of the inhabitants, known as Bedford and Upper Bedford.

CLARENCEVILLE.

A pretty little village in the parish of St. Georges de Clarenceville. It is situated in the midst of a rich farming country, about mid-way between the Richelieu River and Missisquoi Bay, the nearest railway station is Lacolle, 5 miles distant. The Canada Atlantic Railway when completed will have a station within two miles. For many years the passage of the Richelieu River was made by ferry, but in 1882, the Richelieu Bridge Company was organized and incorporated through the exertions of Wm. M. Pattison, Esq., A. H. Derick, Esq., and a few others, and work commenced on an iron bridge, which was completed and opened to the public May 9th, 1884. A. H. Derick and Wm. M. Pattison have also formed a partnership and put up a private telephone under the name of the Clarenceville Telephone Company, connecting the Custom House, Post-office, Richelieu Bridge and Lacolle station. There are four churches in Clarenceville, English, Baptist, Methodist and Roman Catholic, also two temperance hotels, telephone and telegraph offices, a carriage factory, &c. Mail daily. It is also a distributing office to Aird, Nutt's Corners, Wolfe Ridge and Miranda tri-weekly. Population 300.

FARNHAM.

The town of Farnham is situated on the southern branch of the Yamaska River. The place owes its origin to the excellent water power, which the rapid fall of the stream at this point provides. Incorporated as a village in 1861, Farnham subsequently became a town in 1876. Of late years the place has very much improved, and many of its buildings are of a superior not to say imposing character. By the last assessment valuation, the rateable property amounts to $356,750.00, while the non-rateable public property reaches a further sum of $300,000.00. The population is somewhat variable, but stands at present at 2,500. The following railroads pass through the place: Canadian Pacific, Central Vermont, Montreal, Portland & Boston, (including the South Eastern and Lake Champlain & St. Lawrence Junction). By the junction of these roads, Farnham has connection with every town and village in its vicinity, and with all parts of the surrounding country. The Circuit Court meets every four months. There are three mails a day to and from Montreal. Mails are here madn up for l'Ange Gardien, Abbotsford, St. Pie, Haseville, Stanbury, Magenta. Within the limits of the town are 3 saw mills, 2 grist mills, 2 furniture, sash and door factories, 1 tub factory, 1 woollen and carding factory, and a sugar refinery. The South Eastern Railway also has large repair shops in the place. Saturday is the special market day. The Roman Catholics have a large convent and the College of the Holy Cross. The Protestants possess a graded school with very efficient teachers. There is a very excellent Hopital under the Grey Nuns. The Church of Rome, the Church of England, the Presbyterian Church and the Methodist Church have each well appointed places of worship under the care of resident clergymen. Farnham is distant from St. Johns, 14 miles; from Dunham, 16 miles; from Cowansville, 15 miles; from Bedford, 12 miles; from Granby, 15 miles; from St. Cesaire, 9 miles; from Marieville, 15 miles; from Chambly, 20 miles; from Alamsville, 11 miles; from Brigham, 7 miles, and from Montreal, 40 miles.

THE NEW WILLIAMS MACHINE

Noiseless.

The NEW WILLIAMS is made of the best material and finished with the greatest care and in the most perfect manner. It runs very light and easy, the motion being free from jar or vibration. It is as nearly noiseless as it is possible for a shuttle Sewing Machine to be made.

Beautiful Work.

All kinds of work can be done on the NEW WILLIAMS, from an ordinary plain seam to the most beautiful and intricate patterns in embroidery.

Perfect Stitch.

Tho finest Cambric or Muslin can be sewn with the same facility as the heavier grades of work—a strong, elastic and perfect stitch being made on all sorts of material.

Head Office for the Dominion--1733 Notre Dame Street, MONTREAL.

COUNTY OF SHEFFORD.

The County of Shefford is situated in the District of Bedford, Province of Quebec. It is bounded to the south by Brome, to the north by Bagot, to the east by Sherbrooke and Richmond, to the west by Rouville. It is divided into seven townships, *i. e.*, Granby, Shefford, Milton, Roxton, Ely, North Stukely and South Stukely. The County embraces 357,762 square acres or 559 square miles. At the last census the population was 23,233. The Stanstead and Shefford and Chambly Railway (C.V.R.) passes through the southern portion of the County from east to west, while the South Eastern (C.P.R.) runs through the centre of it from north to south. Shefford is noted for its mineral resources and agricultural wealth and also for its manufacturing enterprises.

GRANBY.

Granby is one of the prettiest village in the Townships and is situated near the centre of the township of the same name, in the County of Shefford, on the Yamaska River and Stanstead, Shefford & Chambly (C.V.R.) Railway. It is fact becoming a manufacturing centre. It has had for a number of years a flouring mill, two saw mills and two large sole leather tanneries, one of which has been taken down and replaced with a large and substantial building to be used as a boot and shoe factory. Within the last two years there has been a cigar factory started here that employs upwards of a hundred hands, and a corporation known as the Granby Rubber Co. have put up extensive buildings and are fitting them with the most improved machinery for the manufacture of rubber goods of all kinds. The factory will employ upwards of 300 hands and intend to make goods equal to the best American at Canadian prices. In the business centre of the village will be found any kind of goods a person reqnires. The village supports five religious denominations, has four churches, three hotels, one convent, an academy or graded school. Mails twice daily. It is also a distributing postoffice. Distance from Shefford Mountain, 6 miles; Shefford Vale, 6 miles; Granboro, 5 miles; South Granby, 5 miles; Mawcook, 5 miles; Milton, 9 miles. Population 1200.

COUNTY OF ST. JOHNS.

TOWN OF ST. JOHNS.

St. Johns is situated on the west shore of the Richelieu river, at the head of the Chambly canal, and at the foot of the navigable waters of Lake Champlain, 25 miles southeast of Montreal, and about 20 miles north of the United States frontier. It has direct communication with the Grand Trunk, Canadian Pacific, and Central Vermont systems of railways, and is also indirectly connected with the Delaware and Hudson road. It is the *chef-lieu* of the District of Iberville, which embraces the counties of St. Johns, Iberville and Napierville. St. Johns is a manufacturing and trading town of considerable importance. It is the birth-place of potteries in the Dominion of Canada. At the present time there are within the town proper and in Iberville, just opposite, eight factories for the manufacture of different kinds of stone and earthen-ware. These concerns employ from 20 to 200 hands, each. There is also a large hosiery factory in St. Johns, a big lumber mill, an extensive canning establishment, a silk textile factory, and several other industries of lesser note. It is a military post of importance. The commodious barracks to the south of the town, which were built by the English government nearly fifty years ago, are occupied by a Royal School of Infantry, where officers and men receive instructions in military duties and exercises.

There are three churches in the place—Roman Catholic, Church of England, and the Methodist. There are two large nunneries, and a Roman Catholic school, an English high school and the district school, etc. The markets are open daily, and are well supplied with fresh meat, fish, vegetables, grain, fruit, etc. The town of Iberville is directly opposite, connected by a bridge for general traffic, of half a mile in length. Two railway bridges also span the river close by. There are eight trains each way daily between St. Johns and Montreal. St. Armand is distant 25 miles, Lacolle 18 miles, Rouses Point 24 miles, Waterloo 43 miles, Farnham 17 miles, Magog 62 miles, Sherbrooke 90 miles, St. Albans 43 miles. Population 4,500.

The business portion of St. Johns was completely destroyed by fire in June, 1876, but the burnt district was promptly rebuilt, and the stores and warehouses of the town are now ahead of any other place of its size in Canada. The streets are broad and laid out at right angles. The town is provided with water works and an efficient fire department. The beautiful river affords excellent boating and fishing, and in the summer season this historic stream is thickly dotted with pleasure craft of all dimensions and patterns, as well as with barges, tugs and sailing vessels for commercial purposes.

IBERVILLE.

The town of Iberville is beautifully situated on the eastern shore of the Richelieu river, opposite St. Johns. Though it contains several promising industries, and is the *chef lieu* of Iberville county, it is chiefly noted as a quiet and attractive place of residence, and in this respect is steadily growing in favor with Montreal people. There are in the town two churches (Roman Catholic and Anglican), a nunnery and good schools. The Central Vermont and Canadian Pacific railways pass through the place. Iberville has also an excellent system of water-works. Distance from St. Johns, one-half mile; Montreal 27; Farnham 13; Chambly 12.

Richmond Guardian,

RICHMOND, P. Q.

Published every Friday afternoon at $1.25 a Year.

ESTABLISHED 1857. **CIRCULATION 1100.**

THE GUARDIAN is an eight-page newspaper, and is distinguished for the high literary character of its editorials. Its politics are Independent-Conservative, and it circulates throughout the Eastern Townships. Richmond is a progressive town of 2500 inhabitants, and is the junction of the Quebec branch of the Grand Trunk Railway, whose workshops are here.

W. E. JONES, Proprietor.

COUNTY OF RICHMOND.

Richmond County is situated in the heart of the Eastern Townships. It is irregular in form, but embraces within its borders 1190 square miles, or 761.621 acres. The county of Sherbrooke lies to the south of Richmond, Wolfe and Compton to the east, Shefford and Drummond to the west, and Arthabaska to the north. A considerable part of Richmond is rocky and hilly, though the county contains much excellent rolling land and some of the finest farms in the Province of Quebec. The river St. Francis divides the county diagonally from southeast to northwest. This stream is not navigable, but it affords excellent water power which is utilized for manufacturing purposes. Richmond has acquired notoriety abroad from the superior quality of roofing slate that is taken out of the New Rockland quarries near the town of Richmond. Railway communication is supplied by the Quebec and Portland divisions of the Grand Trunk Company. Richmond has a population of 27,000, and is divided into six townships, viz.: Brompton, Stoke, Melbourne, Winchester, Cleveland and Shipton.

MELBOURNE.

This is a village territorially in the township of that name, but seperated as a village for municipal purposes. Though it is older, and thirty years ago was larger, than its neighbor, Richmond, on the opposite bank of the river, it is for some reason not a progressive place. It is however a pretty village, and is distined to become a favorite place of residence for Richmond merchants. It has the great advantage over the latter town of being much higher above the river level, and is therefore never troubled with spring floods. It has many pretty residences, and is well supplied with general stores. There is a town hall and church (Congregationist) in the village, also a postoffice. Population 350. It is almost wholly English and Protestant. It has a good school and is municipally well governed. Mayor, Mr. William Beattie; Secretary-Treasurer, Mr. George Reed. RICHMOND.

Richmond, the *chef-lieu* of the county of that name, is a very prosperous and growing town on the eastern bank of the St. Francis, 76 miles east of Montreal and 96 southwest of Quebec. The junction of the main line of the G. T. R. with the Quebec branch of that railway is here; indeed the town owes its importance to that circumstance. The engine shops of the eastern division of the railway are located here, and about $14,000 is distributed to railway employés every month. The population af the town, which in 1860 did not exceed 750 souls, is now well nigh 2500, of whom about six-tenths are Roman Catholics. Two newspapers, both English, are published here—the *Guardian*, the senior and principal, and the *Times*. The first-named is Conservative in politics and is edited with signal ability by its proprietor, Mr. W. E. Jones, the veteran of the Townships press. There are no less than five religious congregations—Roman Catholic, Anglican, Methodist, Presbyterian and Congregationalist. The Roman Catholic church is a magnificent and very spacious building of modern design, and the English church, also of Gothic style of architecture, is a very handsome edifice, as is the Methodist church recently erected. Besides these places of worship, there is a very commodious "barracks" recently erected by the Salvation Army. Some of the private residences are very elegant structures. There are sixteen general stores, besides groceries, a drug store, two marble working establishments, and seven hotels. The principal feature of the place is the handsome iron bridge which spans the St. Francis,

☞ The Celebrated COOK'S FRIEND Baking Powder is unsurpassed in Purity.

connecting the town with the village of Melbourne on the opposite bank. It is about 800 feet long, with five spans, and was erected in 1882 at a cost of $45,000; it is owned by a joint stock company and is a toll-bridge. It owes its inception mainly to the indomitable enterprise and pluck of Mr. Jones, editor of the *Guardian*.

There is a thriving and well-supplied market here. St. Francis College is a conspicuous building situated on the hill which hugs the town at its south end. It is a noted institution of learning. The Provincial Agricultural School and Farm, which is adjacent to the college grounds, is a very important institution, and, though a young enterprise, is full of promise.

Richmond was incorporated as a town in 1882. It has a system of water-works, and is governed by a council of members. The mayor is Mr. Thomas Hart, who has accepted the chief magistracy for sixteen years continuously, and Mr. C. N. Desaulniers is secretary-treasurer. The scenery here is very picturesque, and if the river were navigable it would be one of the most lively and enjoyable of summer resorts. There are two post-offices here, a telegraph and telephone office, and a custom house.

WINDSOR MILLS.

An active manufacturing village on the line of the Grand Trunk Railway, in the Township of Windsor, Richmond County. It is 14 miles from Sherbrooke and 10 from Richmond. The St. Francis River at this point affords an unrivalled water power, which is largely utilized. There are now in operation at this point several mills, but the place is principally noted for possessing the extensive factory of the Canada Paper Co., Montreal, which gives employment to upwards of 200 hands, under the able management of the president of the company, Mr. Logan. The village contains three churches, schools, &c., and is rapidly growing in wealth and population. The country about is well adapted for agricultural pursuits.

The following is a recapitulation of the principal merchants, traders, manufacturers and hotel keepers in the County of Richmond, with post office address opposite their names :

D. M. MACPHERSON, Lancaster, Ont.

COUNTY OF SHERBROOKE.

The electoral town or county of Sherbrooke consists of Orford and Ascot townships. It is bounded to the east by Compton, to the west by Shefford, to the north by Richmond, and to the south by Stanstead. There are valuable mineral and agricultural lands in this county, and an almost unlimited amount of water power. There are 219 square miles or 140.300 acres in the electoral division, and the population at last census was 12,221, but to-day is probably 16,000.

CITY OF SHERBROOKE.

The City of Sherbrooke is the *chef-lieu* of the district of Saint-Francis, and the metropolis of that part of the Province of Quebec known as the Eastern Townships. It now contains about 9,000 inhabitants, and is beautifully and picturesquely situated at the junction of the St. Francis and Magog rivers, distant from Montreal 100 miles. The city is divided into four wards—north, east, south and centre, and these again are subdivided for electoral purposes. It forms one of the largest railway centres in the province, being the terminus of the Quebec Central, the International, the Massawippi Valley, or Passumpsic, and the Waterloo & Magog railways. The Grand Trunk from Montreal and Quebec to Portland, Me., passes through the city, as also the "Short Line" railway, operated by the Canadian Pacific, and of which the International and Waterloo & Magog form links. This is now nearing completion and will connect under one management the Atlantic and Pacific oceans. The magnitude of this work is unequalled throughout the world, and will have much to do in adding to the future prosperity of the city. No place in the province possesses the natural advantages of Sherbrooke, there being a continuous fall of about 150 feet from the upper dam to the St. Francis, a distance of about half a mile along the Magog river, furnishing some of the best water privileges in Canada. A dam at Little Magog Lake, some 8 miles higher up the river, forms a reservoir for an extra supply of water during dry seasons. A large number of shops, mills and factories utilize this water power conspicuous amongst which are the Paton Woollen Mills, the Woollen Mills of A. Lomas & Son, and A. L. Grindrod & Co., the furniture shops of G. G. Bryant & Long Bros. & Co., the British American Land Co's. saw mills, the sash and door factory of Wilson & Boutelle the machine shops of Messrs. Jenckes & Sons, the Jenckes Machine Co., the Smith Elkins Mfg. Co., T. Crabtree & Co., the pulp mills of Symmes Bros., the Sherbrooke Water Power Company's Works, the Sherbrooke File Factory, the Sherbrooke Corset Co's. factory, Fletcher's Brewery, the Dominion Snaith factory and the City Grist Mills. The principal business streets are Wellington and Commercial. On the latter are situated the beautiful stone structures of the Eastern Townships Bank, and the Postoffice. Looking east ward across the valley of the St. Francis the buildings of the E. T. Agricultural Association are a prominent feature in the landscape, while one of the most beautiful views in the province may be seen looking northward from Melbourne street, along the valley of the St. Francis river. Commercial street, with the handsome shade trees and neat and attractive residences and churches is one of theattractions of the city during the summer season, and even the snows of winter fail to dispel the usual gaiaty of the scene. Sherbrooke contains two Episcopal Churches, three Roman Catholic, one Methodist, one Congregational, one Presbyterian and one Baptist Church. It is a Roman Catholic See, and the residence of his Lordship, Bishop Racine. There is also a Catholic College, called St. Charles Barrommée and a Young Ladies Seminary under the control of some of the R. C. Sisters. There are two boards of school commissioners, Protestant and Catholic, with several academies and schools under their control. There is also a fine Catholic Hospital built of brick, the capacity of which can be doubled without maring the original architectural design. There is a movement now toward the establishment of a Protestant Hospital, and a handsome site in the east ward has been secured for the purpose. Application for an act of incorporation will be made at the next session of the Legislature. The Church of England Society, for the protection of Waifs and Strays has a "Home" in the east ward, and there is also the Kenyon Home for boys. The Burton Brewery Co. successors to C. H. Fletcher carry on the extensive establishment in the north ward known as the "Spring Brewery," and the bakery biscuit and confectionery business of C. H. Fletcher in the centre ward is the most extensive of any in the province outside of Montreal and Quebec. No place of the size in Canada can boast a better and more efficient fire and police system than Sherbrooke. Both departments are combined and under the control of Mr. Robert Davidson as chief, and Pierre Couture as sub-chief. The fire department is well equipped with steam engines, and other extinguishing appliances. The fire and police station is pleasantly situated on Market street, and the men well and comfortably cared for. The police and fire alarms are in a

☞ The Celebrated COOK'S FRIEND Baking Powder is guaranteed free from alum.

generally effective condition. The Bell Telephone Co. has instruments in the majority of the business houses and in a number of private residences. Application has been made for a patent or act of incorporation on behalf of the Sherbrooke Telephone Association. Sherbrooke City proper comprises part of the original townships of Ascot and Orford and with the remainder of these townships forms the electoral town or Sherbrooke county. It was first settled just before the commencement of the present century. It was then known as the "Lower Forks," to distinguish it from the junction of the St. Francis and Massawippi rivers known as the "Upper Forks," now Lennoxville. Among the first settlers was David Moe, who settled just south of the present city limits, whose son, Hiram Moe, Esq., has been several years warden of the county, and now resides in the township of Orford, near the city, and is probably the oldest of the old residents, or of those identified with the first settlement of this county. One of the first public works done in Sherbrooke was the construction of what was known as the Aylmer bridge across the St. Francis and from which a road known as the Gosford road was constructed to Quebec. This old bridge disappeared 25 years ago, during high water, and a substantial covered bridge occupies the same site. The following are the postoffices within the limits of the electoral town of Sherbrooke, namely, Sherbrooke and East Sherbrooke, in the city, Lennoxville, Ascot Corner, Huntingville. Milby, Capelton and Suffield, in the townships of Ascot and Rock Forest, Glen Iver and Cherry River in the township of Orford. R. N. Hall, Esq., the Dominion representative in parliament and Hon. J. G. Robertson, for the Local Legislature, are residents of the city, as also Wm. B. Ives, Esq., the Dominion representative for Richmond and Wolfe. L. E. Panneton, Esq., is the Mayor and Wm. Griffith, Esq., Secretary-Treasurer of the city. The court officials are Hon. E. T. Brooks, Judge ; Cabana and Bowen, Prothonotary; W. H. Webb, Sheriff; S. A. Stevens, crier; Matthew Read gaoler. The present registrar is E. R. Johnson, Esq., S. J. Foss postmaster Sherbrooke, and B. Murray postmaster East Sherbrooke. The Eastern Township's Bank, The Merchants Bank of Canada and La Banque Nationale are the only banking institutions represented. The Morey Library and Art Association is a fine substantial brick building at the south end of the Magog bridge, and a portion of this building is used as a free reading room. C. E. Perry, Esq., is Collector of Customs at this port. The papers published in the city ar·· the *Gazette*, *Examiner* and *Land We Live In*, Engilsh, and *Le Progres de L'Est* and *Le Pionnier*, French. This city can boast of having one of the few survivors of Waterloo, in the person of Lieut. Maurice Shea, who resides here at the age of 95 years, and is probably the oldest resident of the city. This is the headquarters of the 53rd Batt. commanded by Lieut.-Col. Edward Pellew Felton.

LENNOXVILLE.

The village of Lennoxville is beautifully and picturesquely situated at the junction of the Massawippi and St. Francis rivers, and distant from Sherbrooke about three miles—so far as the village proper is concerned, although as a village municipality it adjoins the municipality of the city of Sherbrooke. The Grand Trunk Railway passes through the village and is joined here by the Massawippi R. R. and the Intercolonial Railway, the trains of which at present run on the line of the G. T. R. to Sherbrooke. The Atlantic and Northwest Railway, under the control of the Canada Pacific Railway Co., connects here with the International, and will form a part of the "Short Line" route. This road is constructed between Lennoxville and Sherbrooke, but is not yet in operation. Lennoxville is the seat of Bishops College, which is empowered to confer degrees in Divinity, Arts, Law and Medicine, and is affiliated with McGill College, Montreal. Bishops College school is connected with the college and is under the same general supervision. Students of the college generally pursue a preparatory course in the school. Several endowment funds and scholarships have been formed in connection with the college, and it is now established on a comparatively solid financial basis, and generally speaking self-supporting. The college and school are pleasantly situated on a knoll overlooking the St. Francis and Massawippi rivers. The village is a considerable place of resort during the summer months, and, as it is a railway junction, is a lively little village at all times, and frequented by American buyers of produce and lumber. In addition to the college chapel, the village contains three regular places of worship—Episcopal, Roman Catholic and Methodist—also two hotels. Some substantial business blocks and buildings have been constructed during the past year. The site of the village was formerly known as the "Upper Forks," and was first occupied by white residents about the commencement of the present century.

At that time the trade was between Lennoxville and Three Rivers by means of *batteaux*, which took down pearlash and furs and returned with such articles as were indispensable to the early settlers. The development of the mineral resources existing in the vicinity of Lennoxville will probably ere long greatly add to its importance and prosperity.

COUNTY OF STANSTEAD.

Stanstead is one of the oldest settled, most fertile and picturesque of all the counties in the Eastern Townships. It is divided into five townships, viz. : Barford, Barnston, Hatley, Magog and Stanstead. It lies alongside the United States frontier, the State of Vermont being to the south of it, to the east it is bounded by Compton, to the west by Brome, (Lake Memphremagog intervening), and to the north by Sherbrooke. The water and land scenery of Stanstead is magnificent and is the admiration of tourists from all parts of the world, while its climate is pure and invigorating. The various lakes, ponds and streams afford excellent fishing for anglers. The Massawippi Railway traverses the centre of the county from south to north ; the Grand Trunk runs through the south-eastern part of it, and the Waterloo & Magog (soon to be operated by the C. P. R.) skims along the western frontier. The lands are undulating, and the farms are unsurpassed for grazing. The principal towns are Coaticook, Magog, Stanstead and Rock Island, in all of which places extensive manufacturing enterprises are successfully carried on. Stanstead contains 407 square miles, 260.600 acres, and had a population of 15,556 at the last census.

AYER'S FLAT.

COATICOOK.

A thriving town on the Coaticook river, on the line of the Grand Trunk Railway, in the County of Stanstead. It is only nine miles from the State of Vermont, and is one of the most important ports of entry in the Eastern Townships. There is a daily mail from Quebec and Montreal, and also from the South. There are three passenger trains daily each way. There are four churches in the village—Church of England, Roman Catholic, Baptist, and Methodist, two district schools, and an excellent academy. There are also a large cotton factory, extensive hosiery works, a foundry, saw, and grist mill, sash, door, match, and mowing machine factories, besides several other manufacturing establishments. The population is estimated at 2500, and is increasing rapidly. The stores are numerous and well supplied, and throughout the year active trade is kept up with the farmers, mechanics, etc. Coaticook divides with Stanstead the honor of being the *chef-lieu* of the county. There is a Registry office, and sessions of the Circuit Court are held here. Coaticook is 20 miles from Sherbrooke, 16 from Stanstead, 21 from Magog, and 120 from Montreal.

MAGOG.

A thriving village picturesquely situated at the outlet of Lake Memphremagog, and at the head of Magog river, in the township of Magog, county of Stanstead. It possesses a magnificent water power, which is largely made use of for various manufacturing purposes. The population is estimated at about 1000. Magog is a favorite summer resort for tourists, the romantic scenery and pure bracing air attracting many people hither from all parts of Canada and the States. The Waterloo & Magog Railway—soon to be operated by the C. P. Railway—passes through the village, and during the summer season the fine steamers "Lady of the Lake" and "Mountain Maid" ply daily between Magog and Newport, Vt., touching at all points *en route*. The churches, schools and private residences bear evidence of the moral and material progress of the inhabitants, while the stores and other places of business reflect the thrift and enterprise of the people. Magog is distant from Sherbrooke 17 miles, Waterloo 20 miles, Georgeville 10 miles, St. Johns 60 miles, and from Montreal

☞ The Celebrated COOK'S FRIEND Baking Powder is unequalled for good value.

89 miles. The chief industry of the place is the Magog Textile and Print Works, which has a capital of $1,000,000, and at the present time is giving employment to about 200 operatives. New machinery is now being put into position, and when started the number of hands will be increased to 500. The company expect to be able to run their works at their full capacity and turn out from 8,000,000 to 10,000,000 yards of print annually. J. K. Ward is president and William Hobbs is the general manager.

The Magog Hosiery Company is also an important industry, under the management of Mr. E. A. Brown, giving employment to about 50 women and girls, and turns out a large quantity of first-class work. The Magog Steam Carriage Factory, managed by Mr. L. K. Drew, is doing a first-class business. There are four churches and four resident ministers, also two large schools which are giving instruction to about 350 pupils annually; four blacksmith shops, two bakeries, twenty stores and shops, two livery stables; two doctors, two notaries, two jewellers, several tailors, dressmakers and milliners, one photographer, one steam grist mill, one steam saw mill, one steam sash and door shop, two steam carriage factories, two tin shops, one harness shop, several boot and shoemakers, four butchers, one undertaker, one musical instrument agency, and several insurance offices; two good hotels and several private boarding houses. Large lumbering operations are also carried on, principally by Prouty & Miller, of Newport, Vt., and the local mills.

A government fish hatchery is located here, under the management of Mr. R. M. Moore, which hatches out from one to five million salmon-trout and white-fish ova annually, which are deposited in the various sheets of water in the Eastern Townships, and which are beginning to exhibit satisfactory results. Lake Memphremagog is one of the most beautiful and one of the most romantically situated sheets of water upon the continent.

ERRATUM.—Population of Magog about 2000—not 1000, as printed on preceding page.

STANSTEAD PLAIN.

An incorporated village in the township and county of Stanstead, District of St. Francis. It is a port of entry. The Circuit Court and District Magistrates' Court, the Registry Office for Registration Division of Stanstead and branch of Eastern Townships Bank are located here. Deposits of beautiful granite are in the vicinity, of which the Methodist church, one of the finest ecclesiastical edifices in the Province, is constructed. The quarries are extensively worked, and the granite compares favorably with the best productions of the world. Railway communication is within one mile of the Plain. Stages to and from all trains. This village is charmingly situated on a high level plain, from which are obtained views of the far-famed Memphremagog Lake, four miles distant, Owl's Head Mountain, Orford Mountain, Mount Elephantus and other prominent peaks of the Green Mountain Range. The scenery and drives are unexcelled, the village being one of the most picturesque resorts for the tourist and artist. The locality is extremely healthy and is situated in the midst of a rich and fertile farming country. There are many fine public and private buildings, notably Stanstead Wesleyan College, Episcopal, Methodist and Catholic churches, R. C. Convent (Urseline), Town Hall, residences of C. C. Colby, M.P., Charles W. Pierce, Mrs. Butters, Hon. Mrs. T. Lee Terrill, M. F. Hackett, Mrs. C. A. Richardson, Dr. McDuffee, Rev. A. Lee Holmes, W. L. Terrill and others. Great N. W. Telegraph Co. of Canada and Western Union Telegraph Co. have offices here. It is the central exchange for the county of the Bell Telephone, and has one of the largest exchanges in the district. Distance from Rock Island, the chief manufacturing place in the township and a station of the Boston & Lowell Railway (Passumpsic Division), ½ mile; from Georgeville, 13 miles; from Coaticook, a station of the Grand Trunk Railway, 18 miles; from Sherbrooke, 30 miles; from Beebe Plain, 3 miles; from Derby Line, Vt., 1 mile. Mails daily from all points. Population about 1000.

COUNTY OF HUNTINGDON.

Huntingdon is the most extreme western county of all the Eastern Townships. From the County of St. Johns westward to the River St. Lawrence, it stretches along the United States frontier fully fifty miles. Though irregular in shape, no part of the county attains a greater depth from north to south than 14 miles, while at one point it is only 2½ miles, and at another 3 miles from the frontier to Chateauguay, which lies to the north of it. Huntingdon is divided into the townships of Hemmingford, Havelock, Franklin, Hinchinbrooke, Elgin and Godmanchester. It is a rich agricultural district, famous for its valuable farms and its fine blooded stock. A branch of the G. T. R. runs through the western and another branch through the eastern part of the county, while the Canada Atlantic skims along the extreme northern part of Hemmingford. Huntingdon contains 399 square miles or 255.350 acres, and at the last census the population was 15,495.

SALABERRY DE VALLEYFIELD.

Valleyfield is situated at the head of the Coteau rapids and foot of Lake St. Francis, on the south side of the St. Lawrence, in the County of Beauharnois. It was incorporated as a town in 1874. This town possesses an extensive water power, the fall of water being 15 feet, coming from an expansion of the St. Lawrence 35 by 5 miles. On account of this unlimited power, and owing to the absence of floods caused from back-water, large mills and manufacturing establishments have been located here. Valleyfield, being about 40 miles from Montreal, is becoming a centre of considerable importance. There are located here the Montreal Cotton Co.'s extensive factory, employing 1000 hands and turning out 80 different varieties of cotton, many of them handsome dress goods; A. Buntin's paper mills, turning out 16 tons daily; a woollen factory, employing 200 hands; two flouring mills, fitted up with the latest improved machinery; three saw mills and sash and door factories, two canning factories, soda water factories, and several smaller industries. The public buildings are fine and substantial—Roman Catholic, Presbyterian, and Methodist churches, the former costing $100,000; good educational institutions, a convent, a college, an academy, an hospital, fire and police stations, market buildings, and two banks. This town has ten hotels and about 60 stores, also telegraph and telephone offices, Circuit Court, two daily mails to and from Montreal. A newspaper called "Le Progres de Valleyfield" is also published here. Valleyfield has a system of water-works unsurpassed in the province, and is lighted by the electric light—the Edison system. With the purest of water, many beautiful islands, good fishing and safe boating, summer visitors are becoming more frequent each season, especially from Ottawa. The Canada Atlantic Railway passes through the town. The Beauharnois Junction Railway will be completed in June, 1888. The Canadian Pacific has applied for a charter for a line passing Valleyfield. This will be the terminus of the St. Lawrence and Adirondack railway, connecting the St. Lawrence with the ore mines of the Adirondacks, a distance of 35 miles. Population of Valleyfield about 6000. Valuation, two million dollars.

COUNTY OF COMPTON.

Territorially, Compton is one of the largest counties in the Townships, being only surpassed in size by Beauce. It is 1380 square miles or 761,621 acres in extent, and had a population at the last census of 19,581. It is divided into townships as follows: Compton Eaton, Westbury, Bury, Hampden, Lingwick, Winslow, Whitton, Marston, Newport, Chesham, Clinton, Auckland, Emberton, Clifton, Ditton, and Hereford. It lies to the east of Stanstead, Sherbrooke and Wolfe. Compton is rich in mineral resources and lumber; some parts of it are also famous for their agricultural wealth and productions of fine stock. The International (now forming part of the C. P. R. "short line") runs through the county from west to east. Compton has for a quarter of a century been represented in Parliament by the Hon. J. H. Pope, Minister of Railways and Canals.

COMPTON CENTRE.

This forms an important station of the G. T. R., from which Compton village is one mile distant, going eastward. It is the centre of a district settled over sixty years ago, though less thickly than at present, not a few of the pioneers being of the loyalist stock, assisted by British and Canadian immigrants. The neighborhood for miles around the station can boast of excellent land, a considerable amount of bush, being well supplied also with springs and streams; the latter are utilized for the purpose of mills at different points, Mr. Geo. Reynolds carrying on a flour mill at Hillhurst on the Coaticook river, and the Messrs. Gale their large spring-bed manufactory, etc., further west on this stream, at Waterville. The principal business of Compton has for a long time been the cattle, to which butter and other farm products may now be added. Its reputation for fancy cattle has for years stood high—horses too receiving great attention, the best breeds for farm purposes of all kinds being well represented at the different leading establishments. In the village there are three churches—the Anglican, served by the Rev. Mr. Barker; the Wesleyan Methodist, Rev. Mr. Kendall; Roman Catholic, Rev. J. E. Choquette. General stores: Messrs. Craig Bros., M. M. Knowlton, J. B. St. Laurent. Doctors: Thos. LaRue and R. A. D. King. Two blacksmiths' shops, one carriage-maker's and one tinsmith's; C. R. Clarke and Colin Hardin, blacksmiths; M. Demers, carriage-maker; W. Monroe, tinsmith; Mr. Todd, harness maker and proprietor of Temperance Hotel; Dan Saltry, builder and contractor. The Ladies College, a large, handsome brick edifice, on a commanding, attractive site, is under the management of the Protestant Episcopal (or Anglican) church), the principal teachers being Misses Prince, Moss and Annesley; music teacher, Miss Aldrich. There is also a district and select school, head teacher Miss Rugg. The French school is under the care of Rev. Mr. Choquette. The Mayor of the village this year is Mr. C. H. Hackett; councillors, Messrs. S. J. Pomroy, Geo. B. Bean, Wm. R. Thwintes, Jas. A. Cochrane, Henry Draper and J. A. Dufort; secretary.treasurer, C. T. Farnsworth. Some of the first farms in the Dominion encircle the town and distinguish the township. The Hon. Mr. Cochrane's stock farm includes 1400 acres all in a block, and mainly consisting of a fertile ridge, famous for its stock and crops to this date, S. G. Pomroy's farm lies mainly in the village and vicinity, and is noted also for extent, fertility and production of superior stock and crops. His strength and skill have been mainly devoted to horses and in improving the breeds, as well as introducing new sorts well suited to our climate.

Prominent among the successful agriculturists in Compton and vicinity are the following: M. Blossom, G. F. Spafford, L. P. Spafford, John McCarthy, B. F. Hitchcock, B. Hitchcock, Mrs. McClary, C. H. Crossen, M. P. Aldrick, E. W. Judah, Mrs. Geo. Hartwell, Edwin Howard, F. S. Stimson, F. W. Brewster, S. Broderick, J. C. Smith, P. K. Lindsay, G. W. Merrill, William J. McVernon, P. Drake, D. LAKE MEGANTIC.

Lake Megantic is an incorporated village on the shores of the lake of that name, and is the present terminus of the International Railway; distant from Sherbrooke 69 miles and from the Maine boundary 18 miles. It is just opposite the village of Angus, Beauce Co., on the Chaudiere River. The place is rapidly coming into prominence as a summer resort, many city families coming here annually to breathe the invigorating air and to rejoice in such sports as fishing, hunting, &c. The country being new the seekers for fur, fin and feather find an abundance to gratify their desire. The lake is 12 miles in length with an average width of two miles and there are two small steamers for the use of pleasure parties. The village is nine years old. Population 550.

SUPERIOR MERITS OF

THE GALE SPRING MATTRESS.

SPRING STRENGTH.—In the average Mattress there are 70 springs, of a tested strength of 70 lbs. each. Total spring strength 4900 lbs.

CONSTRUCTION OF FABRIC.—Connecting the springs there are from 800 to 1000 V's, or links, making a very fine surface, and so constructed that, in case of accident to any one piece, it CAN EASILY BE REPLACED WITH NEW.

CENTRE SUPPORT.—These V's form a diverging connection with the end springs, thus giving GREAT SUPPORT to the CENTRAL PART of the mattress, where there is the greatest strain, preventing the mattress from sagging in the centre. The Gale Spring Mattress is the only one using an oil-tempered steel spring, so constructed that it retains its original shape in the centre—the others always sagging at that point. This is one explanation of the spring mattress, and its adoption in preference to others in hospitals and asylums.

FRAME —Adjustable, kiln-dried, oiled, and two coats of varnish, to prevent them from harboring vermin, or being affected by heat or moisture.

PRODUCTION.—Our production has increased from 8000 in 1884 to 16,000, our present production—1887.

ASK YOUR FURNITURE DEALER FOR THE GALE SPRING MATTRESS. We manufacture only one quality. You can make no mistake in buying if you find on side rail of frame, stencil print of our address.

THREE RIVERS.

The town of Three Rivers is one of the most ancient settlements in Canada. It was founded in 1634 by Laviolette. It is situated on the west shore of the River St. Lawrence, at the mouth or the River St. Maurice, and contains within its area nine square miles. The site is at once beautiful and healthy, and advantageous from a business point of view. It is half way (90 miles) between Montreal and Quebec, is the *chef-lieu* of the district, and is the seat of the Catholic diocese of Three Rivers. The Catholic institutions are numerous, and are maintained in a style in keeping with the importance of the diocese. The principal business of the city is the lumber trade, in which a large amount of capital is invested, and there are also large and flourishing foundries, brick yards, furniture factories, carding and other mills, etc. Three Rivers possesses an excellent aqueduct and water works, the property of the city, and its public and private buildings are numerous and imposing. The population is about 10,000.

ST. HYACINTHE.

A beautiful city of nearly 10,000 inhabitants, in the County of St. Hyacinthe, of which it is the *chef-lieu*; situated on the Yamaska River, 35 miles from Montreal, on the G. T. R. to Portland and Quebec, also on the Sorel and Farnham branch of the C. P. R. St. Hyacinthe was founded in 1776, and in its centenary year (1876) was almost wholly leveled in ashes by a terrible conflagration; but it has been rebuilt more substantially and picturesque than ever, and is to-day second to no city in the Dominion in the way of "go-ahead-ism" and prosperity, The Bank of St. Hyacinthe, a local institution of $1,000,000 capital, established 1874, and branches of the Molsons Bank and La Banque Jacques-Cartier, of Montreal, are all doing a thriving business. Among the many manufacturing industries may be mentioned the Granite Mills, knitting nearly every description of woollen hosiery and underwear. The St. Hyacinthe Manufacturing Co., who own the most of the splendid water power, have just completed a fine new mill of 30 looms for their specialty of fine flannels. This corporation also own and operate custom grist and carding mills. There are at present two large boot and shoe factories, with a third one building for a Montreal firm; several machine shops and foundries, two upper and split-leather tanneries, with two large new morocco (genuine) and sheep-skin factories just completed and put into operation by another Montreal firm. There are also several agricultural implement, sash and door, furniture and other factories, all in full operation. Another industry of no small importance is the refrigerator and warehouse of the American firm of Swan & James, for the pickling, packing and shipping of eggs to the New York and Boston markets, to the extent of about 500,000 dozens annually. The city being a considerable distance from other large places, and in the heart of one of the largest and best farming districts in the province, has a most excellent market and is considerable of a trade centre. The city is well supplied with water by the Holly system, has two splendid steam fire engines, a complete system of electric fire alarms, and is exceeding well lighted throughout by gas and the electric light. The St. Hyacinthe college, founded in 1809, is built of fine cut limestone, and with the wings has a length of 700 feet; it is charmingly situated in a large park overlooking the city, commanding a fine view of the river and level country for miles around. There are many convents, academies and monasteries, also a large Hotel Dieu by the Grey Nuns. It is the see of the Roman Catholic Diocese of St. Hyacinthe, and contains the cathedral, parish, and other churches and chapels. There are also two small Protestant churches—the Church of England and Presbyterian, which have a separate school. There are three newspaper and printing offices, viz.: Le Courier (conservative), L'Union (liberal), and Ta Tribune (independent.) Telephone connection with Montreal and the Eastern Townships generally.

Public Officials:—Hon. Louis Tellier, Judge of the Superior Court; Jos. Roy and T. S. Richer, Joint Prothonotaries; Narcisse Chaput, Acting Sheriff; H. St. Germain and J. Nault, Joint Registrars; R. E. Fontaine, Q. C., Warden of the County; H. R. Blanchard, Coroner of the District, B. B. Campbell (St. Hilaire), Lieut.-Col. 84th Batt.; G. C. Dessaulles, Mayor of the City; J. O. Guertin, City Clerk; Ludger Pagé, Chief of Police; J. A. Hamel, Collector of Customs; C. A. Boivin, Collector of Inland Revenue; Hon. William T. Mitchell, United States Consul; F. WINDSOR MILLS.

This village, beautifully situated on the north-eastern side of the St. Francis River, will likely be, in a near future, one of the largest manufacturing places in the townships. Kattopekah's river, which runs across the village, while already causing to move four large mills, still has many profitable water powers that may be made useful. Situated in the heart of a good farming country, it has four mills—paper mill, powder mill, grist mill and saw mill—four churches, Episcopal, Methodist, Presbyterian and Roman Catholic; five hotels, eleven stores, two blacksmith shops, two tinsmith shops, etc., one Town Hall, a Nunnery, good schools and a telephone office. Railway communications by Grand Trunk railway. Distance from Sherbrooke 15 miles and from Richmond 10 miles. Mails twice a day from Montreal and daily from Portland and Quebec. It has also a distributing office to the parish of St. Francois-Xavier de Brompton semi-weekly. Population 1200.
