FOR TWO DAYS THE CANADIAN LINES HAVE BORNE THE BRUNT OF FURIOUS GERMAN ONSLAUGHT

Teuton Forces Are Making Desperate Efforts To Smash Through The British Lines To The Coast—French Account Declares That The British Maintain All Their Positions But Berlin Claims More Successes—Large Number Of Troops Have Been Transferred From The East To Be Employed In Rush On British—Comparative Calm Prevails In The Eastern Theatre

London, April 25—The German rushes in Flanders and the Woevre, where they claim to have had considerable success, are believed to be the forerunners of another big effort to break through the Allied lines in the west.

For many days Belgium has been sealed from the observation of neutrals while reinforcements from Germany were being moved to the south to take part in the new offensive, which they hope is to carry them to Calais and possibly break the resistance of the Allies.

The attack in Flanders, originally levelled at the French, has been transferred to the British lines held by the Canadians, on the immediate right of the French and here, for two days, the men from the Dominion have been engaged in a deadly contest with the Germans. The latter state in their official report that they have made further progress toward Ypres and the British counter-attacks have been repulsed.

The French account, on the other hand, declares that the Allies' counter-attacks continue with success and that the British hold all their positions, and repeats the charge that the Germans are using bombs containing asphyxiating gases.

The German attack in the Woevre, or in the Meuse hills, was directed against the French positions to the south-west of Combrès, and according to the Berlin statement the French suffered a heavy defeat. Paris, however, says that in a counter-attack the Germans were completely driven out of the French first line, which they had pushed back.

These offensive movements by the Germans have been made possible by the state of the ground on the eastern front, where operations are virtually impossible until the spring floods have subsided. Taking advantage of these conditions, the German General Staff transferred a large number of troops to the west to make another big effort, which shows that they are not content to rely on a passive policy.

It is believed that half a million new German troops have reached Flanders and that more guns and material are to be used than were provided for the original attempts to destroy the Allied armies in the west—attempts which met with failure both in August and October.

In the meantime the eastern front is enjoying a period of comparative calm except in the mid-Carpathians, where the Russians continue to attack the Austrians in Uzok Pass, and to the eastward, where the Austrians and Germans are trying to crush the Russian flank. Both report successes.

The operations in the Dardanelles apparently are still confined to the bombardment of the Turkish entrenchments while preparations are being made for landing the Allied force, part of which is already on Turkish territory at Enos and other points.

Italy and Greece continue to debate what steps, if any, they will take, and Rumania, it is believed, waits on Italy's decision. It is stated that Austrian and German diplomats at Rome are prepared to recommend acceptance of Italy's terms but are waiting for instructions from Vienna, which must have the last word in the matter.

Greece, too, is considering terms which, however, come from the Allies, and Athens is torn by divided opinion, the adherents of ex-Premier Venizelos demanding immediate intervention, and the government supporters insisting that the integrity of the country must be guaranteed before Greece takes up arms. A despatch from Athens tonight says that a decision is expected some time this week.

GOLFER KILLED.

Ottawa, April 25—Captain Gerald O. Lees, of the 13th Battalion, reported killed, was one of the best known athletes in Canada, being especially prominent as a golfer. He was on the reserve list of the Fifth Royal Highlanders of Montreal, and when the war broke out at once volunteered. He was a member of the Royal Ottawa Golf Club and in 1913 was runner-up for the championship.

Mrs. Peter Whelan of this city received a cable tonight from her son, Lieut. Earl G. Whelan of the Second Battalion, stating "wounded in the shoulder. Quite safe."

Capt. S. J. Huggins, of the Fourth Battalion, given as wounded, was cadet instructor in the Ottawa Collegiate Institute before war broke out. He was previously in the Imperial army and wore the Burmah Campaign Medal. He is an excellent rifle shot and enlisted with the Fourth Battalion from the Hamilton district.

BISLEY MAN KILLED.

Ottawa, April 25—The late Major W. Hart-McHarg, of the Sixth D. C. O. R., Vancouver, was the champion rifle shot of the world, winning the title at the last international rifle match at Camp Perry, Ohio, 1913. He won the Governor-General's prize on two occasions, being one of the only two men who ever won the honor twice at the D. C. R. A. meet here. His record at Bisley and the Canadian annual rifle matches has very few equals.

EX-MAYOR WOUNDED.

Brockville, Ont., April 25—A cable received from Lieut.-Col. Buell today states that his wound is not serious. Mrs. Buell and her three children are at present in England. He was in command of the 41st Regiment when the call to arms came and was the first of his corps to enlist. He was mayor of Brockville in 1891 and officially welcomed the present King and Queen to this town on their visit to Canada. He was a prominent member of the legal profession.

OFFICIAL

FRENCH STATEMENT.

Paris, April 25—2:40 p.m.—The War Office statement of this afternoon is as follows:

"In Belgium our counter attacks continued successfully in close co-operation with our allies. The Germans, who attacked us with seven army corps, continued to employ asphyxiating gases during the day. Some of their projectiles which did not explode were found to contain a large quantity of these gases.

"We have made considerable progress towards the north, on the right bank of the Yser canal. The British troops, notwithstanding the violent attack of the Germans Saturday evening, have on our right maintained all their positions.

"In the Argonne we took a German trench, captured two machine guns and made some prisoners. The action was a local one, although it was of the most violent character.

"On the heights of the Meuse, at the Colonne trench, the Germans made an attack with an entire division on a front of one kilometre (about 2-3 of a mile). At first they compelled our first line to give way, but were completely driven out by a counter attack."

The following official communication was issued by the War Office last night:

"To the north of Ypres, the Germans during the night of April 23-24 and during Saturday made strenuous efforts to avail themselves of the surprise they had engineered the day before yesterday with their asphyxiating gases. Their attempts failed.

"On Saturday at daybreak on the left bank of the Yser, they had succeeded in carrying the village of Lizerne. The French Zeuaves and Belgian Carabineers, however, through a vigorous attack, recaptured the village which we soon left behind us.

"In conjunction with the Belgian army we made perceptible progress on our left. On our right we advanced more slowly.

"During that time the British troops were subjected to a fierce attack. They immediately replied by a counter attack, the result of which is not yet known.

"In Champagne, on the northern salient of the Beausejour blockhouse, the Germans exploded five powerful mines near our trenches. Despite this violence of the explosion, our troops, outstripping the enemy, at once occupied the excavations which were about 75 feet in diameter.

"Very fierce encounters have taken place in the Aillywood, where the Germans are making desperate efforts to recapture the 700 meters of trenches (about half a mile) we took from them on April 22. Thus we were forced to evacuate this morning a section of these trenches, but we retook it during the course of the day and now hold it.

"In the forest of Apremont and at the Tete-De-Vache (Cow's Head) the enemy shelled our positions violently, but there was no further attack."

GERMAN STATEMENT.

Berlin, April 25—(By wireless to London)—Army headquarters

WAR SUMMARY

Although spring has failed to bring the long-expected "big effort" of the Allies against the German lines in France and Belgium, it has furnished three of the most desperate engagements of the war. The first was at Neuve Chapelle, where, in three days fighting, the combined losses numbered 30,000 or more, with victory resting on the British arms. The second occurred to the south-east of Ypres, when the British captured the important strategic point known as Hill No. 60. This involved the most furious kind of shelling and hand-to-hand fighting and, after the hill was taken, a bombardment by the Germans for several days.

Then, bringing up heavy reinforcements, the Germans began an attack around Ypres, which is described as one of the fiercest of the war. This movement was partly in the nature of a surprise and resulted in pushing back the Allied lines for a considerable distance, estimated in some quarters as several miles. Some of this ground has been regained, and, according to the French official report, the Germans have not only been checked, but Belgians, British and French, by determined counter-attacks, continue to force their adversaries back. The Germans are reported still to be employing bombs containing gas-forming chemicals, and their use is admitted and justified by the Berlin press, one of the Berlin newspapers asserting that bombs of a similar nature had previously been employed by French and British.

The full force of the German attack is being directed against the British front from several directions, and here the Canadian troops, who have already distinguished themselves by brilliant counter-attacks, when the Germans swept the French line back, are bearing the brunt of the battle.

With 750,000 men on the continent, as announced recently by the British Chancellor of the Exchequer, reinforcements have doubtless been hurried forward to fill the gaps in the British lines.

In one of its infrequent bulletins, the Belgian legation at London announces that the town of Lizerne, west of the Ypres canal, which was captured by the Germans on Friday night, has been retaken by the French and Belgian troops and that the Belgian artillery has been engaged in a duel with the German batteries the whole length of the Belgian front.

The situation in the east remains with no notable change. German newspapers still insist that the German fleet has been cruising in the North Sea. According to these published German reports, the German fleet has been "vainly seeking the British fleet." The German commander of a steamer which is said to have met the German fleet a week ago off Heligoland, declares that the Germans had only one desire to engage the British.

The position of Italy with respect to the war remains as it has from the beginning—one of "armed and watchful neutrality." There is much talk of negotiations looking to an Austro-Italian agreement, but so far as is known no tangible results have been reached. The Socialists favor neutrality, and it is reported that one faction of the Socialists is planning to bring about a general strike should mobilization of the army be ordered.

gave out today the following reports: "Western theatre of war: We obtained further results at Ypres. The ground captured on April 23 north of Ypres was still retained yesterday in spite of the attacks of the enemy. Further east we continued our attack and took by storm the Solaert farm south-west of St. Julien, as well as the villages of St. Julien and Kerselaere, and advanced victoriously towards Grav-estafel. During these engagements about 1,000 Englishmen were taken prisoners and several machine guns were captured.

"A British counter attack against our positions west of St. Julien was repulsed early this morning with heavy losses to the enemy.

"West of Wiel attempts of the British to make an attack were quenched at the very start by the fire of our artillery.

"In the Argonne we repulsed an attack by two French battalions north of Four-De-Paris. "In the Meuse hills, south-west of Combrès, the French suffered a heavy defeat. We began an attack at this point and in the rush broke through many French lines lying one behind the other. The French attempted at night to take away from us the captured territory, but again failed with heavy losses to them. Twenty-four French officers and 1,600 men, with seventeen cannon, remained in our hands after these engagements.

"Between the Meuse and the Moselle fighting at close quarters occurred only at certain places on our southern front, the fighting at Ailly not having yet come to a conclusion. A French night attack in the wood of Le Preire failed.

"In the Vosges a dense mist prevented all military activity yesterday.

"Eastern theatre of war: "The situation remains unchanged. Two weak attacks by the Russians west of Ciechanow (near the East Prussian border) were repulsed.

"In reply to bomb dropping by Russians on the peaceful town of Denburg the railway junction at Bialystok was again bombarded by us. Twenty bombs were dropped."

CAPTURE OF HILL 60 MOST BRILLIANT BRITISH EXPLOIT

EYEWITNESS TELLS HOW BRITISH WITHSTOOD TERRIFIC ATTACKS AFTER CAPTURING THE POSITION—BRITISH LOSS HEAVY.

London, April 25—8 p.m.—"Trenches, parapets and sandbags disappeared," says the British official "eye witness" in describing the effect of the explosions of the British mines which preceded the attack and capture by the British of Hill No. 60 to the south-east of Ypres, recently.

"The whole surface of the ground," the narrative continues "assumed strange shapes. Here it was torn into huge craters; there large mounds of fallen debris were to be seen.

"As the reports of the explosions died away and while dense columns of smoke and dust still hung in the air, our men, led by their officers, sprang from the trenches and rushed across the intervening space of some forty to sixty yards lying between our line and the gaping craters before them, the front covered by the attack being only some 250 yards in length.

"Where the mines had actually exploded nothing was left of the occupants of the hostile line, but in the neighboring trenches our assaulting infantry witnessed an extraordinary scene. Many German soldiers, possibly owing to the fact that they were working, were surprised while in their shirt sleeves and without equipment. Stunned by the violence of the explosions, bewildered and suddenly subjected to a rain of hand grenades thrown by our bombing parties, they gave way to panic.

"Cursing and shouting they were falling over one another and fighting in their hurry to gain the exits leading into the communication trenches. Some of those in the rear, maddened by terror, were driving their bayonets into the bodies of their comrades in front of them.

"Of all this our infantry had but a momentary glimpse before they fell upon the enemy with the bayonet, burst through the maze of trenches, poured into the craters and pressed on down the communication trenches until at last they were to be seen by the German machine gunners who were firing from their positions.

"The first line of trenches was captured in a few minutes with great difficulty, and fifteen prisoners fell into our hands; but it was then that the real struggle began, for the Germans quickly recovered from their surprise.

"From our line the hill is a salient which is expressed to fire from three sides, and it was only a few minutes before the German gunners took advantage of this fact and opened fire. Soon the whole position became obscured in the smoke of bursting shells. Meanwhile our batteries had begun to support the attack, and a terrific artillery fire was maintained far into the night.

"From many points along our line to the north and south of Hill No. 60 could be seen the flashes from the shells, while the flashes from the guns were so nearly continuous that they resembled the effect of musketry fire. Under this fire our men had to work, throwing up parapets toward the enemy, blocking their communications and generally rendering the position defensible.

"Nor was the enemy's infantry idle. Advancing up the communication trenches they threw hand grenades over the barricades and also into the mine craters, on the crumbling sides after which our men were clinging in an endeavor to obtain a foothold.

"Through-out the night the fighting continued, culminating early in the morning of the 18th in two massed attacks by the enemy. These were

beaten off, principally by the fire of our machine guns, some of which had been rushed up.

"Nevertheless, in spite of the heavy losses, which left the hillside piled with dead, the enemy continued his pressure during the whole of Sunday until we were gradually driven from the southern edge of the hill. At 6 p.m. help reached our front line in the form of reinforcements, who swept the Germans from the foothold they had gained.

"Prior to this the close proximity of the contending sides had led to a slackening in the bombardment; but it then broke out afresh, and with almost as great intensity as on the preceding evening. Our position, however, now was more secure, and, although the shelling and bombing never ceased altogether, the night may be said to have passed in comparative quiet."

The narrative says the bombardment was maintained Monday, April 19, and that the Germans extended their shelling to the entire Ypres area, including the town itself, in which, it is asserted, fifteen children were killed. Toward evening the Germans made another attack on Hill No. 60, but the "eye witness" asserts, "again did our machine guns do tremendous execution, and the attack was beaten off."

"Another attack at 8 o'clock in the evening," the narrative continues, "suffered the same result. Still the Germans would not admit defeat, and all night long parties armed with hand grenades made repeated efforts to drive us off the hill, their attacks alternating with bombardments from artillery of all kinds and also trench mortars."

By Wednesday, the "eye witness" says, the British had firmly established themselves on the hill.

"The attack upon and the defence of Hill No. 60," the narrative declares, "will go down in history as one of the finest exploits of the British troops during the war. Officers who experienced the bombardment prior to the attack of the Prussian Guard on the 11th of April and also underwent that directed against Hill No. 60, say that the latter by far was the worst of the two.

"What our troops withstood can in some degree be realized if it be remembered that the space fought over during four and one half days was only 250 yards in length by about 200 yards in depth.

"Upon that small area the enemy for hours hurled tons of metals and high explosives, and at times the hill-top was wreathed in clouds of poisonous fumes; and yet our gallant infantry did not give way. They stood firm under a fire which swept away whole sections at a time, filling trenches with dead bodies and so encumbered the approach to the front line that reinforcements could not reach it without having to climb over the prostrate forms of their fallen comrades.

"In these circumstances our losses naturally were heavy. Nevertheless, they have not depressed the men, all of whom, including the wounded, are extremely cheerful, for they know that the fight for Hill No. 60 has cost the Germans far more than it has cost us."

The desperate efforts of the Germans to recapture the hill, the "eye witness" says, "probably were due not only to the intrinsic value of the position but the fear of personal conse-

SAW HUNDREDS OF GERMANS WHOM WAR DROVE MAD

SOME RECOVER, BUT MANY HAVE TO REMAIN IN INSANE ASYLUM.

Geneva, Switzerland, April 25.—Via Paris—Dr. Scherer of Lucerne, returned to Geneva today from a visit to the war asylum at Oberwiesenthal, near Munich, Bavaria.

"I never realized the depth of the war horrors," said Dr. Scherer, "until I saw there hundreds of men, mostly young, who had gone mad in the trenches. Some lay quietly, oblivious to their surroundings, others with burning eyes, watching every movement of the visitors and attendants.

"A percentage of the insane recover after some weeks of careful care and rest and later return to the front," Dr. Scherer said, "but the remainder are sent to other asylums because their recovery being doubtful, their presence in the trenches might endanger their own comrades. Several such special asylums for mad men from the trenches have been opened in Germany. Something seems to break inside the soldiers under the prolonged stress of fighting and fatigue, sanguinary scenes and hand to hand encounters."

ITALY'S STRENGTH IN TIME OF WAR

FRENCH EXPERTS CONSIDER MILITARY STRENGTH TO BE ABOUT 2,000,000.

Paris, April 25.—French military writers estimate the full military strength of Italy at 2,000,000 men, of whom 800,000 probably form the active field army. The chief of the Italian General Staff is Lieut-General Count Cadorna. He was born September 4th, 1850, and is a son of Raphael Cadorna, who was distinguished for his services in the Crimea. Lieut-General Cadorna is regarded as a brilliant thinker, cool and tenacious, and is still in the height of his powers.

The principal assistant to Lieut-General Cadorna is Lieut-General Xorro, under chief of the General Staff. The latter is sixty-one years old. He is very popular with the army and is reputed to possess high strategic abilities.

\$200 AWARD IN CHINQUIY SUIT

COURT OF APPEAL REDUCES LIBEL JUDGMENT FROM \$3,000.00.

Montreal, April 25.—The Court of Appeals on Saturday reduced the amount of the award in the Chiniquy-Begin case from \$3,000 to \$200. This is the celebrated case in which Mrs. J. L. Morin, wife of Professor J. L. Morin, of McGill University, and a daughter of the late "Father" Chiniquy, an ex-priest, sued Joseph Begin, editor of La Croix, a French weekly paper, for alleged libelous statements as to her father and in which Mr. Justice Greenfield awarded Mrs. Morin \$3,000 damages. The appeal was taken on two grounds: That the plaintiff had not had her husband's consent to the action, as required in the Quebec courts, and that the award of damages was excessive. The Court of Appeals dismissed the first contention, and upheld the second, reducing the award, as stated.

GERMAN AMERICAN WANTED BY POLICE

Toronto Firm Discovers Shortage of \$20,000 in Accounts.

Toronto, April 25.—W. T. Ott, a German-American bookkeeper for the Columbia Phonograph Company's Toronto agency, is wanted by the police, who hold a warrant for his arrest on a charge of theft. He has been missing from the city for two weeks. A shortage was discovered in his accounts, said to be in the neighborhood of \$20,000. He is believed to have gone to Cuba.

(Ott came to Toronto from New York about a year ago.)

quences to the Generals concerned in they failed to hold it." He adds that the Bavarian Generals who were responsible for the unsuccessful action at St. Eloi were placed on the retired list.

The troops who opposed the British on Hill 60, the "eye witness" says, were composed of Saxons and men recruited from all parts of Germany.

SOCIALISTS OF ITALY NOW FAVOR NEUTRAL STAND

SYMPATHY WITH THE ALLIES BUT THINK NEUTRALITY IS PROPER.

Milan, Italy, via Paris, April 25.—Opposition to Italy's participation in the war is expressed by Deputy Filippo Turati, of Milan, one of the Socialist leaders, in a letter published here today. Importance is attached to Signor Turati's letter for the reason that it is regarded as an indication of the attitude of Italian Socialists in respect to the question which is now absorbing public attention. Signor Turati writes:

"Italian Socialists have the strongest sympathy for the Allies, feeling that the violation of treaties designed to protect Belgium has presented a common peril, and cordially desiring Anglo-French victory.

"Sympathy thus aroused may properly stir the nation to exercise its moral influence, to take diplomatic action, and may even lead to the formation of volunteer military organizations. Nevertheless such a feeling of sympathy is not sufficient reason for armed intervention by the whole nation, whose soldiers are called to the colors by conscription.

"There is not in the history of nations, even of those many times stronger and richer than Italy, an example of any of them which, on account of purity of motives and desire for exacting justice, became the avenger of the wrongs such as fill the pages of history."

Signor Turati closes his letter with the declaration that the Socialists of Italy would make themselves more useful to the proletariat of other nations by remaining neutral than by joining in the war.

Would Strike. Rome, April 25, via Paris.—A faction of the Socialists which is vigorously opposed to participation by Italy in the war is planning to bring about in case mobilization of the army is ordered, a general strike throughout Italy. The great majority of the Socialists, however, are not in sympathy with a plan, and it is believed that the effort would fail.

Railway employees, on whom the organizers of the strike movement would rely chiefly, declare that none of them would desert his post.

AUSTRIANS SICK OF THE STRIFE

REPORTS SAY SITUATION BECOMING SERIOUS IN SOME PLACES.

Rome, April 25.—Via Paris.—Despatches from Trieste, telegraphed from the frontier, daily are growing more grave in their reports of the situation there. One-tenth of the population are serving under the colors, including men fifty years of age. The calling of men of this age into the army has caused a rebellion among the women who invaded the railroad station when the troops left and tried to prevent by violence their departure, crying: "Down with the war; return to us our old men."

Besides making many arrests the police have prepared lists of professions and thus all the people are living in dread.

Serious riots are reported at Goetz, and in many other parts of Austria, especially in Vienna, while at Prague conditions are reported to have assumed a revolutionary character. Military trains loaded with bread and flour have been pillaged, and a Bohemian regiment is reported to have mutinied.

BRITISH LOSSES IN GERMAN EAST AFRICA

Berlin Statement of Fighting in January Grossly, Exaggerated.

London, April 25.—Replying to the German account of the British defeat near Jassini, German East Africa, on January 18th and 19th, the British commander reports that the total British loss was 280 men, of whom 240 are missing.

An official statement received in Berlin from German East Africa on April 21st, said that the British lost some two hundred men killed in this battle, and that the total British casualties amounted to seven hundred. These included the capture of four companies of men.

CONTRABAND SEIZED. London, April 25.—An Athens despatch to the Evening News says it is reported in shipping circles at Piraeus that warships of the Allied fleet have captured and taken to Lemnos the Hadji Daout line steamers Virginia and Magda, which were flying the American flag. They carried cargoes which were declared to be contraband of war.

PRISONERS WHOM GERMANY TREATS WITH SEVERITY

BERLIN NAMES OFFICERS WHO ARE CONFINED IN RETALIATORY MEASURE.

London, April 25.—There was received here yesterday a list of the 39 British officers placed in detention barracks, 10 of them in solitary confinement, by the German government in retaliation for the declaration of Great Britain to accord honors of war to crews of captured German submarines. This list, which was supplied to Ambassador Gerard at Berlin by the German government, consist of the names of seven captains and 32 lieutenants.

Included in the list are the names of Lord Gathles, Alexander Fraser, Master of Saltoun; Lieut. Goschen, son of Sir William Edward Goschen, former British Ambassador to Berlin; Robin Grey, a nephew of the British Foreign Minister, and many sons of peers. Nearly all the prisoners belong to crack regiments.

ITALIANS WANT LIBERTY OF ACTION

RUPTURE OF TRIPLE ALLIANCE WITH ITS INEVITABLE CONSEQUENCES EXPECTED.

Rome, April 15.—Via Paris.—The Messagero, after reviewing the situation in Italy since the outbreak of the war, declares that the only solution of the problems which now confront the nation is the rupture of the ties which still nominally pledge Italy to the central empires and the resumption by Italy of her right for entire liberty of action.

"Suffering grave losses, Italy has waited many months while listening to proposals for possible compensations from her allies," the newspaper says: "Italy has shown every desire to avoid a rupture, but as the compensations offered are inadequate Italy must claim that liberty of action which Germany and Austria have taken for themselves since August."

"Everyone feels accordingly that the present feverish resumption of negotiations is merely the prelude to a rupture of the Triple Alliance, with all its inevitable consequences. The German ambassador, Prince von Bülow, himself, said that Italy must be either the ally or the enemy of Austria."

THE GERMAN FLEET WANTS TO FIGHT?

SAY THEY CRUISE NORTH SEA SEEKING VAINLY FOR THE BRITISH.

London, April 25.—In a despatch from Copenhagen, the correspondent of the Exchange Telegraph Company says that leading German papers, including the Tages Zeitung and Vossische Zeitung, declare that the German fleet is now willing to accept battle in the North Sea. The entire fleet, the papers declare, have several times cruised over the North Sea vainly seeking the British fleet.

The Vossische Zeitung says the Norwegian steamer Feodin met the German fleet last Sunday off Heligoland. The German commander said to the captain of the Feodin that the German fleet had one desire only, namely to engage the British fleet and he hoped the British fleet might be found.

NORWEGIAN BARKS MEET GERMANS

SUBMARINE COMPELLED CREWS TO ABANDON SHIPS WHICH WERE SUNK.

Dury Island, Scotland, April 25.—The crews of the Norwegian barks Oscar and Eva were landed here Saturday by the steamship Anna, flying the Danish flag. A German submarine overhauled the barks about 170 miles north-east of the Longstone and allowed their crews ten minutes to board lifeboats. The submarine then shelled the abandoned vessels.

Subsequently the German submarine stopped the Danish steamer Anna and ordered her to take aboard the crews of the Oscar and Eva. The barks were bound for a Scottish port.

CANADIANS' GALLANTRY BRINGS GREAT PRAISE

KING GEORGE AND GENERAL FRENCH EXPRESS ADMIRATION OF THE MAGNIFICENT STAND MADE AT BATTLE OF LANGEMARCK.

Ottawa, April 25.—His Royal Highness the Duke of Connaught, Governor-General of Canada, has received a message from His Majesty King George V. expressing his admiration of the gallant stand made by the Canadians at Langemarck, and sympathizing with Canadians in the heavy casualties sustained.

Many other messages of congratulations have been received in connection with the splendid work of the Canadians.

Col. J. J. Carrick, M.P., on the staff of General Alderson, tonight cabled the Minister of Militia:

Sir John French telegraphed General Alderson today as follows:

"I wish to express to you and to the Canadian troops my admiration of the gallant fight and stand they have made. They have performed most brilliant and valuable service. Last night and again this morning I reported their splendid behaviour to the Secretary of State for War, and I have a reply from him saying how highly their gallantry and determination in a difficult position are appreciated in England."

Lord Brooke of General French's staff, cabled General Hughes Saturday: "Heartly congratulations on the magnificent behaviour of Canadians."

General Hughes replied: "Sincere thanks for message. Please convey to Sir John and the Canadians the pride and joy of their comrades in Canada for the part they have so nobly played. The Canadians have justly proved that there was no surrender and that, by whatever fault the guns were lost, they were not allowed to remain in possession of the enemy."

To a congratulatory cable from Earl Grey, former Governor-General of Canada, Premier Borden replied: "Deeply appreciate your message. Canada is very proud that her sons

have upheld so worthily the splendid traditions of our great pioneer races." To General Alderson, commander of the Canadian division, the Premier sent the following: "Report of the splendid gallantry and efficiency of the division under your command has thrilled all Canada with pride. Warmest congratulations."

General Hughes sent the following cable to General Alderson:

"Please convey to all your splendid division the deep appreciation of their comrades in Canada, and of all Canadians, of their gallant fight and their splendid behaviour. We rejoice in their gallantry, but while mourning the loss of many brave comrades our one great desire is to avenge that loss. The hearts of all Canadians are firmly with them."

MORE FIGHTING MEN REQUIRED

KITCHENER IS BY NO MEANS SATISFIED WITH THE RESPONSE.

London, April 25.—8.23 p.m.—Addressing a recruiting meeting today, Dr. Thomas J. MasNamara, Parliamentary secretary of the Admiralty, said:

"If you assume that Earl Kitchener is not only gratified but satisfied with the response to the call for volunteers you fall into a very serious error. We want more men. We want them now, so that they may be properly trained to play an effective part in the struggle."

Many men and women with bright prospects find themselves handicapped by the reactionary effects of tea or coffee with its subtle, habit-forming drug, caffeine.

Dull headaches, biliousness, heart-flutter, nervousness, sleeplessness—these are some of the signs of caffeine poisoning that puts a crimp in efficiency and spells suffering and often failure for thousands of tea and coffee drinkers.

Kidney Disease Cured Sworn Statement

Of Mr. Wesley Maxwell, Who Gratefully Gives All Credit to Dr. Chase's Kidney-Liver Pills.

It is one thing to make big claims for a medicine and quite another thing to produce irrefutable evidence that it actually cures in serious cases. We prefer to let the cured ones speak for themselves, and that is why you find in almost every newspaper the report of someone who has been cured by the use of Dr. Chase's medicines. Today we present the sworn statement of Mr. Wesley Maxwell. When a man goes to this trouble in expressing his gratitude there can be no question of the benefit he has received. Mr. Wesley Maxwell, Orangeville, Ont., writes: "I have been using Dr. Chase's Kidney-Liver Pills, and I must tell you that before I started using them I could only make water with the greatest difficulty, and had very severe pains in the back. I am completely cured now by the use of these pills. Before that I used a lot of doctors' medicine without any benefit that I could see. I am thankful for being cured, and can recom-

mend Dr. Chase's Kidney-Liver Pills very highly."

QUEBEC, APRIL 26, 1915.

DEATH OF MR. FRANK ROSS.

It is our painful duty to announce the death on Saturday last, at his residence, Holland House, of Mr. Frank Ross, one of Quebec's most prominent and distinguished citizens.

Mr. Ross was at one time vice-president of the Quebec & Lake St. John Railway and of the Quebec Railway, Light & Power Co., and provided, to a great extent, the funds required for the construction of those very costly enterprises, which have been so beneficial to this city.

Although a very wealthy man, Mr. Ross was very unostentatious and approachable, and though of late years retired from active business, always took a keen interest in the advancement of Quebec.

Mr. Ross was predeceased, only a few weeks ago by his estimable wife, whose amiable and charitable disposition was so well known in this community.

THE SPY MENACE.

It is much to be hoped that with the opening of navigation and the beginning of the season those who are in charge of the local arrangements regarding the spy danger will have their hands considerably strengthened by the authorities in Ottawa.

It is beyond dispute that the regulations from Ottawa regarding aliens should be far more strict than they are. There are one or two aliens now in Quebec who have a good deal more liberty of tongue and speech than is good for them.

FIVE O'CLOCK TRAIN.

It is rumored that the C. P. R. will not run any afternoon, five o'clock service between this city and Montreal during the coming summer.

The stretch between Quebec and Montreal is one of the best-paying portions of the whole C. P. R. system and, though there will not be so much ocean traffic this year, we believe that the volume of overland tourists, especially from the States, will be unprecedented.

We hope that the Board of Trade will take the matter up.

WHY THEY FEAR.

The question which has been exercising the attention of politicians during the past few days, is the possibility of a Dominion election during the present year.

Evidence that infuriated German troops have murdered prisoners and despatched wounded British soldiers as they lay on the battlefield, recall Kipling's lines on a similar phase of oriental barbarism.

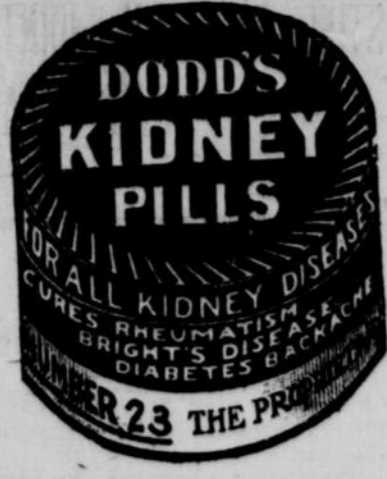

"When you're wounded and left on Afghanistan's plains, And the women came out to cut up your remains,

Just roll to your rifle and blow out your brains. And go to your Gawd like a soldier."

answer is so obvious that it seems hardly necessary to ask the question. The Liberal party is opposed to an election, because its leaders know that a contest at any time in the course of the next few months would result in their going down under an unprecedented defeat.

It is true that they have criticized freely, and oftimes vigorously. It has indeed been noteworthy that their criticisms have been singularly impartial as regards the importance of the measures singled out for their attacks.

But apart from such barren and profitless oratory, what have Sir Wilfrid and his associates done or said since the 21st of September, 1911 that will inspire the people with an inclination to re-instate them in office?

PRESS COMMENT.

Evidence that infuriated German troops have murdered prisoners and despatched wounded British soldiers as they lay on the battlefield, recall Kipling's lines on a similar phase of oriental barbarism.

"When you're wounded and left on Afghanistan's plains, And the women came out to cut up your remains,

If any private family possessed a history of insanity half so complete as that of the Hohenzollerns, no member of that family would be allowed to alone. Let us glance at that history. The Great Elector himself was the grandson of an imbecile. His

son (Frederick I.) was a man of weak intellect, who married three wives and locked up the third, who got up from her bed one night and tried to escape through the glass door, cutting her finger. Frederick saw her, with bloodstains and in a white dress, and as the Hohenzollerns have a private female ghost who walks about Frederick imagined himself to be confronted by this White Lady, and at once went to bed and died—of fright. This unfortunate gentleman's son was Frederick-William I. — the most arant Hohenzollern of them all.

Lay opinion on the twilight-sleep treatment of maternity cases must necessarily be more or less confused by the mass of contradictory medical testimony brought out by the controversy over its efficacy. On the one hand, competent physicians represent it as unsafe, involving "a distinct danger to the child" and the risk of delirium to the mother.

"Public Opinion" prints the following little poem, which speaks for the heart of the American nation. It is entitled "America to England," and is signed "Alice Corbett":

"Oh, England, in the smoking trenches dying For all the world, We hold our breath and watch your bright flag flying,

We who are neutral (yet each lip with fervor The word abuses); Oh, England, never name us the timer-server!

We that so glory in your high decision, So trust your goal— All Europe in our blood, but yours our vision, Our speech, our soul!"

OBSERVANCE OF THE LORD'S DAY

NO MORE SUNDAY LABOR AT THE ROSS RIFLE FACTORY.

It has been decided by the management of the Ross Rifle Factory to abandon Sunday labor. Up to the present time the men began to work at seven o'clock in the morning and finished at six o'clock in the evening, but here after they will work until seven o'clock every evening, and in view of the extra hour each day the factory will be closed down on Sunday.

The Ross Rifle Factory has since its foundation been a real boon to the city of Quebec, and at the present time it is the salvation of a large portion of the laboring people. Without this thriving industry in Quebec, and its heavy pay roll, it is easy to imagine what a difficult problem would have to be confronted and how much misery would be the lot of a large section of the population.

Congratulations are due the management of the Ross Factory for so much consideration for their employees as well as for the fitting observance of the Lord's Day. The men will have the benefit of the Day of Rest, and will turn in to work on Monday refreshed by the respite from the previous week's grind and more contented with their lot.

MR. L'ESPERANCE MAKES OBJECTION

HE CONSIDERS THAT THE CHRONICLE HAS TREATED HIM UNJUSTLY.

To Editor of The Chronicle.

Dear Sir,—On Saturday last you published a long article criticizing the awarding of an ice contract, in the course of which you deliver a most unjustified and unjustifiable attack against me.

You do not say or even insinuate that I had anything to do with this patronage affair, and your sole apparent reason for this unfair aggression upon the members for Montmagny is because he happens to be at the same time, the President of L'Evenement Publishing Company.

Still you are aware that the President of a publishing company, such as The Chronicle or L'Evenement has about as much to do with the editorial or news matters published, as the President of the C. P. R. has to do with the meals at the Chateau Frontenac. If L'Evenement published anything objectionable to you or some of your friends, a thing I am not aware of, the most elementary fair play and courtesy would demand that you request an explanation from the President before attacking him personally.

Yours truly,
D. O. L'ESPERANCE.

LECTURE BY PROFESSOR R. E. WELSH.

We would draw attention to the notice in another column of the lecture to be delivered this evening in Morrin College Hall by Prof. R. E. Welsh, of the Presbyterian College, Montreal. It is an illustrated lecture the subject being "Punch and Caricature Art" (by permission of the proprietors of "Punch"). The lecture is a most interesting one and has been delivered before the Art Association in Montreal, and, we understand, received much commendation. The public are invited to attend.

TOMORROW'S BIG CONCERT IN COLUMBUS HALL.

Beatrice La Palma and Paul Dufault Ought to Draw a Very Big House.

The grand joint concert tomorrow evening in Columbus Hall by Mde. Beatrice La Palma and Mr. Paul Dufault will certainly be from all points of view one of the most interesting as well as select entertainments of the entire artistic season. Both of these celebrated singers are very great favorites in this city, and their numerous friends and admirers and the general music loving public will unquestionably fill the beautiful Grande Allee concert hall. The program prepared by Mde. La Palma and Mr. Dufault is a remarkable one for its variety and importance. The best modern French and English songs are included.

Seats are on sale at C. W. Lindsay, Limited, new Lindsay Building.

FUNERAL OF THE LATE MR. JOHN PAUL, SR.

It was a large concourse of mourners that followed the remains of the late Mr. John Paul, sr., yesterday afternoon, from his late residence, Champlain street, to St. Patrick's Church and Cemetery.

The chief mourners were Messrs. John, Joseph, Michael and Robert Paul, sons; John Murphy, Joseph Murphy and William McFaul, brothers-in-law; and Martin Waters, nephew.

The pall-bearers were Alderman Frank Dinan, Messrs. P. J. Holden, M. Kenny, John Dinan, Stephen Dwyer and J. L. Haberin.

In the Church a Libera was chanted by Rev. Father Costello, assisted by Rev. Fathers O'Hare and Healey as deacon and sub-deacon. At the conclusion of the service, the remains were conveyed to St. Patrick's Cemetery, where the interment took place, the prayers at the grave-side being recited by Rev. Father Costello. A large number of carriages, containing mourners, followed the remains to their final resting place.

The floral tributes of respect were both numerous and costly, and included wreaths from the Marine Department, Ross Rifle Co., Chronicle Printing Co., and Emmet A. A. A. Deceased leaves to mourn their loss, besides the bereaved widow four sons, two daughters, and two sisters, Mrs. James Waters and Mrs. William McFaul, to whom much sympathy will be extended in their sad affliction.

COURT OF SESSIONS.

In the Court of Sessions on Saturday last, Alexis and Adelar St. Amant, brothers, of Deschambault, were committed by Judge Langelier to stand their trial at the Court of King's Bench, on a charge of breaking into the house of Wilbrod Gauthier, of the same place, and stealing a purse containing five dollars. The alleged offence is said to have taken place in the month of August, 1912.

Another man, Joseph Grenier, arrested in connection with the charge, was acquitted. The three men have been in prison since last March. Isaac Smilovitch pleaded guilty to a charge of assault on Jacob Sopoluk, and was fined \$1 and costs.

THE WATER SUPPLY OF QUEBEC CITY

WATERWORKS ENGINEER FOR- RESTER SPEAKS FOR PUBLICATION RE THE RECENT BREAK.

Interviewed in connection with the break in the water pipe which occurred last week, Mr. T. A. Jardine Forester, City Waterworks Engineer, made the following statement to a representative of the Chronicle last night:

"The water pressure over the whole city is entirely normal, a good fire pressure being maintained and both the upper and lower sections of the city are being supplied by the 40-inch main pipe. The usual state of affairs is that the 40-inch main supplies the Lower Town and the 30 and 18-inch mains the Upper Town, but owing to the break in the 30-inch main at one o'clock on Saturday morning, I immediately arranged the distribution of water so that the 40-inch main is now, and has been since, supplying the whole city. In future when any trouble happens to the 30-inch main this process will be adopted and the city will at all times have the same pressure as if the 30-inch main were in operation. The 40-inch main is of such capacity that it can alone furnish the necessary supply to the whole city."

STOLEN JEWELLERY FOUND IN QUEBEC

MAN BELIEVED TO BE GUILTY OF THEFT IN MONTREAL ARRESTED HERE.

An individual giving his name as Leclerc and wanted in Montreal for theft, was rounded up at the Palais on Saturday night by Chief City Detective Walsh and some of his men. When taken in charge Leclerc had jewellery valued at several hundred dollars in his possession which, it is alleged, was stolen from different parties in Montreal.

FUNERAL OF LATE MRS. EDWARD MARTIN.

The funeral of the late Mrs. Edward Martin, who expired quite unexpectedly after a short illness on Thursday last, took place from her late residence to St. Patrick's Church and cemetery on Saturday morning.

A large number of relatives and friends followed the remains to their last earthly resting place. At the church, Rev. Father Costello officiated at the Requiem Mass and Libera, assisted by Rev. Father Alex. Vaehon of the Quebec Seminary, as deacon and by Rev. Father Healey as sub-deacon. Faure's Crucifix was recited by Miss V. Henchey after the Libera. The chief mourners were the deceased's two sons, Messrs. John and Edward Martin; Mr. Geo. McCarron, son-in-law; Mr. Joseph Taylor, of Ottawa, brother-in-law; Mr. M. Moran of Ottawa, and Mr. Frank Martin, Quebec, nephews.

In the death of Mrs. Martin, the community loses another one of its old and most highly respected members whose demise will be keenly regretted by a large circle of friends.

MR. FERGUSON BETTER.

The many friends and acquaintances of Mr. Jim Ferguson will be pleased to hear that he is on the way to recovery from his long illness, and expects to be around again shortly.

RECORDER'S COURT.

His Honor Deputy Recorder DesRivieres had five prisoners, charged with drunkenness. One was fined \$20 and costs; one \$10 and costs; two \$2 and costs each and one was discharged.

LATE MRS. WM. PARKE.

The death occurred at Lake St. Joseph, P.Q., yesterday of Mrs. William Parke. The deceased lady, during her many years' residence at Lake St. Joseph created a large number of friends in the County of Portneuf and was also well and favorably known in this city. The surviving members of the family will receive the sympathy of many in their bereavement.

MR. FRANK ROSS PASSES AWAY

PROMINENT CITIZEN OF QUEBEC DIED ON SATURDAY LAST.

One of Quebec's most prominent and estimable citizens passed away on Saturday last, in the person of Mr. Frank Ross whose death at the age of 78 years took place at his residence the Holland House on St. Foye Road. Mr. Ross is the youngest of a family of noted merchants and shipbuilders, whose ships many years ago were known in every seaport of the world.

He was a native of Carlisle, Scotland, but came to Canada in 1866, where he began a business career which not only benefited himself but was of immense value to the city of Quebec.

His death will be regretted by a wide circle of friends as well as the community at large who will deeply sympathize with his son, Mr. Frank W. Ross and other members of the family in their sad bereavement.

MR. G. A. GIGAUT, N.P. HAS PASSED AWAY

PROVINCIAL DEPUTY MINISTER OF AGRICULTURE DIED YESTERDAY AFTERNOON.

Mr. G. A. Gigault, N.P., Deputy Minister of Agriculture for the Province of Quebec, passed away yesterday afternoon after a brief illness.

The deceased was a highly esteemed citizen and one of the best-known authorities on agriculture in this country. He played an important part in public affairs having been Conservative member for Rouville County in the Dominion Parliament from 1878 to 1891 during which time he was a strong supporter of Sir John A. Macdonald.

Agriculture and its scientific development was his fondest ambition and to his persistent demands is due the establishment of Dominion Experimental Farms which were founded as a result of a Committee which was formed on his motion in the House of Commons in 1884 to study the question. The late Mr. Gigault was chairman of the special committee and after two years of tireless labor he succeeded in having the farms established in 1886. In 1892 he was appointed Provincial Deputy Minister of Agriculture and it is to his efficiency that most of the agricultural progress in this province is due. On many occasions he was called upon to address agricultural gatherings in the United States on the condition of agriculture in this country.

The late Mr. Gigault who had reached the venerable age of seventy years, was born at St. Mathias, Rouville County, and was educated at St. Hyacinthe Seminary having been later admitted to the Profession of Notary in 1867.

Falling from a height of between character, the deceased was widely esteemed and was one of the most popular members of the Quebec Civil Service. His demise will be keenly regretted by a host of friends and admirers.

How to Look Years Less Than Your Age

The most aged face will look years younger after the use of ordinary mercolized wax from ten days to two weeks. This remarkable substance, because of its peculiar absorptive power, actually removes the thin veil of faded or withered outer cuticle, a little at a time. Gradually the fresher, more youthful skin underneath is revealed. This absorption process being a purely hygienic one, an entirely natural complexion is acquired—quite different from the artificial complexion, which appears anything but girlish, though often bearing painful evidence of childishness. An ounce of mercolized wax, obtainable at any drug store, is sufficient to rejuvenate any complexion. It is put on like cold cream at bedtime, and removed mornings with warm water.

To eradicate such age marks as wrinkles and furrows, make a wash lotion by dissolving 1 oz. powdered saxolite in half pint witch hazel. This has wonderful astringent and tonic properties. It quickly effaces all kinds of wrinkles, no matter how caused, making the skin firm, smooth and young looking.

Gee, what a relief fine cure it is for a bad cold, for chest tightness even for neuralgia headache it is simply the finest ever.

Application of the Eyes causes Eye Strain.

Close application of the eyes to any kind of work is a strain on the eyes and headaches are very often due to this or caused by the use of eye glasses.

When your eyes grow tired after working or reading, be careful and see if your glasses are correct and if you have what you want. In nearly all cases of eye strain or headaches we can give you glasses—fitted properly which will render work quite easy and we charge you nothing for fitting your sight.

All prescriptions of Oculist filled up at once. All compound glasses cut at home at an hour's notice.

AN OLD TIME PASSAGE.

New York, April 24.—The British sailing ship Belford, which has frequently crossed the Atlantic in less than a month, anchored off Staten Island yesterday after the longest trip in her record of twenty years' navigation of the seven or seventy seas. She was eighty-four days making this port from Limerick in ballast. She is high out of the water and her hull is foul, also she has no British seamen, all having joined the navy or the auxiliary navy of King George. This combination, with heavy head gales, her skipper, Capt. William Davies, says, was responsible for her belated trip.

The Belford left Limerick on the Kaiser's birthday and in all her backing and filling she never sighted a German warship. She was driven back into the Bay of Biscay after she had gone a quarter of the way on her course and had to make a fresh start. She got within sight of Sandy Hook twice this month and was sent scurrying southward by northerly gales. The tug Peerless, cruising for sailing craft, sighted her on Tuesday, and Capt. Davies welcomed the chance of making port at the end of a stout hauler.

C. P. R. IMPROVEMENTS. Referring to the C.P.R. records, so precise and adequate, and kept with such religious care, it is interesting to recall that in 1885, the year when the main line was completed and the system became a truly transcontinental one—provoking the publication of a souvenir booklet, giving a short history of the operations of the company from the beginning—Winnipeg boasted a population of 13,000 people. Calgary, Edmonton and Lethbridge were simply Hudson Bay posts in the great, lone West—without a thought of future greatness. The Indians thronged the trading posts, which are now great cities, pulsating with eager, modern life. The most sanguine never imagined the expansion which the Canadian Pacific made possible by laying down rails across the illimitable prairies. It is not if one considers the brevity of things so long since 1885, when the company may be said to have found itself on its legs; but the record of the growth of the cities mentioned is one that is full of human interest. Winnipeg—old Fort Garry—showed eager signs of growth once the railway was assured. It went on from strength to strength, until today it is the Chicago of the West, with a population of over 200,000 people, and promise of millions. Calgary has 75,000 people and every modern feature that could promise further advancement. Edmonton and Lethbridge, which used to be trading posts, are also flourishing cities.

TEAPOT TEMPEST IN MONTREAL CITY COUNCIL. Montreal, April 23.—City Attorney Laurendeau, resenting "heckling" by Alderman Menard, and saying that he had not gone to the council meeting to be insulted, walked out of the council chamber at the council session today in a state of high indignation. He stated that he would never again give an opinion verbally, as he had just done on a question as to the legality of a certain report presented, his opinion being questioned by Alderman Menard in such a manner as to anger the Attorney. Mayor Martin also walked out in anger because Alderman Menard accused His Worship of taking sides on a question.

COMMERCIAL NEWS
NEW YORK MARKET.
(Canadian Press.)
New York, April 24.—The stock market developed unlooked for strength in the latter half of today's short session, closing with an almost buoyant tone under the lead of United States Steel. That stock became the dominant feature, gaining two points to the accompaniment of rumors that the case of the government against the company would soon be decided on reasonable terms.
In the early part of the session leading shares were more or less neglected, interest again shifting to "war" issues, the metal shares and Mexican Petroleum. Coppers held their prominence throughout, a few of the low-priced issues making new price records. Mexican Petroleum also broke all records, making a net gain of 4 1/2 points on confirmation of the report that the company had entered into a very advantageous selling agreement with leading British interests.
Reading, Union Pacific, St. Paul and other stocks in the investment class shared in the later movement. Stocks of the roads coming within the category of re-organized properties were under pressure, as were also some of the isolated industrials. Tractions gave early promise of greater strength, but soon relinquished initial advances.
Announcement of the proposed suit against the Delaware, Lackawanna and Western Railroad by Morris & Essex shareholders was not made until after the close of the market. Other news of the day, including irregularity in the London market made no impression upon the local situation.
The bank statement showed an unexpectedly large cash gain, which was reflected in a reserve increase of \$13,000,000. Loans expanded by a little over \$10,000,000, an inconsiderable amount, considering the heavy stock trading of the week.
Sales of stocks today amounted to 455,000 shares.
Bonds were mainly irregular. Total sales, par value, aggregating \$3,650,000. United States bonds were unchanged on call during the week.

New York, April 24.—After hesitating again the market today has taken unto itself wings and ended in a blaze of glory. Steel has been the leader on the expectation that the decision in the government suit will be handed down on Monday and that it will be in favor of the company or at least that is the rumor.
All of the copper stocks have been features, showing great strength, and it looks as if the general advance would be resumed again next week. Total sales, 455,290; bonds, \$2,611,000.

CLOSING MARKET LETTERS.
By private wire to Breen & Gourdeau, Stock Brokers, 63 St. Peter Street, and 6 Sault-au-Matlot. Phone 185.
New York, April 24.—The price level was somewhat irregular at the opening of the stock market today, but after a brief period of hesitation values displayed an improving tendency led by the copper stocks. In the last hour of trading decided strength was imparted to the whole list in which Steel was a noteworthy feature. The close was at the highest sales of the day with a strong undertone and higher prices indicated for next week, barring, of course, unfavorable developments over the week-end. The Interborough-Metropolitan plan, which is considered mixed in character, fell flat at first, but Interborough stocks declined later in the session on the view that the preferred holders would refuse to accept the proposed plan on account of the loss of the back dividend which the plan includes.
The strength in Steel common was largely due to rumors of a decision in the Government suit generally favorable to the corporation. Sales: Stocks, 455,290; bonds, \$2,611,000.

BANK OF FRANCE.
Paris, April 25.—The Bank of France yesterday released five million francs (\$1,000,000) to the Bank of England for transmission to New York to assist in steadying exchange.

A HUNDRED YEARS AGO TODAY

Could Take Canada Without Soldiers.

The following appeared in these columns, and were taken from the New York Evening Post, of one hundred years ago:

Dr. Eustis, then Secretary of War, "We can take the Canadas without soldiers, we have only to send a few into the province, and the people disaffected towards their own government, will rally to our standard."

Mr. Widgery: "I will engage to take Canada by contract. I will raise a company and take it in six weeks."

Mr. Calhoun, "In four weeks after a declaration of war, and my word for it, all Upper Canada and a major portion of Lower Canada, will be in our possession."

Mr. Mañison, "General Hull passed into the neighboring territory of the enemy, with a prospect of easy and victorious progress."

General Smythe: "In a few days the troops under my command, will plant an American standard on the Canada shore."

General McClure: "I am about to cross the Niagara and enter a country already conquered by our arms."

General Wilkinson: "I shall press forward and break down every obstruction. In five days we shall sleep in Montreal or in heaven. These are in brief, our views of the subject and our reasons for believing that, before July next, every soldier of the enemy in both Canadas will be captive or slain, and the territory in our possession."

LEGAL INTELLIGENCE.

Judgments Rendered—Writs Issued—Insolvent Case.

Judgment by Hon. Justice Roy.

Gagnon-Garant, Ltee., vs. Myler: Actions for \$352.50, for the value of goods sold and delivered to defendant, at Quebec, at the dates mentioned in the declaration. Defendant pleaded a general denial, alleging that he doesn't understand French, and that the plaintiffs' agent, who doesn't speak English, came to La Tuque, offering him goods for a store to be opened in the future; that he told the agent that he was not in a position to state what was wanted, but that the agent answered him that it would be to his advantage to have a price list of the goods and to sign a document to that effect, which he did, without understanding the document, which was in the French language. The Court considered that the plaintiff had not proven the allegations of the action and dismissed the same with costs.

VANDERBILT WILL SAIL VANITIE NOW AGAINST RESOLUTE

FORMER COMMODORE, PART OWNER OF HERRESHOFF CUP YACHT, TO HANDLE COCHRAN'S CONTENDER IN NEW AND LONGER TESTS.

New York, April 24.—Former Commodore Cornelius Vanderbilt of the New York Yacht Club has arranged to race the yacht Vanitie this summer against the Herreshoff built Resolute in further trials to select a defender of the America's Cup against Sir Thomas Lipton's Shamrock IV.

The renewal of the trial races does not mean that the Cup Committee of the club believes the war will end in time to hold international races off Sandy Hook next fall. The trials will be primarily in the interest of yachting and secondly in an effort to decide definitely whether Resolute or Vanitie is the faster yacht, which was not determined satisfactorily last summer.

Alexander Smith Cochrane, who had Vanitie built from designs by William Gardner, has turned her over to Commodore Vanderbilt. Mr. Cochrane will retain an interest in the bronze racer, but will devote his time to his new racing schooner yacht, which Mr. Gardner also designed.

First Race About July 1.

The first race between the cup yachts will be about July 1, and, if possible, about twenty-five contestants will be held, including the runs of the New York Yacht Club cruise in August. The plan is to have all the races in Long Island Sound or off Newport.

Commodore Vanderbilt will sail Vanitie and Charles Francis Adams 2d will again be at Resolute's wheel. W. Butler Duncan will sail on Vanitie and her professional skipper will be Chris Christensen, who last year was on Resolute.

The afterdeck crew of Resolute will be the same as last year. Besides Mr. Adams, Robert W. Emmons 2d, manager of the flag officers' syndicate of the New York Yacht Club that built her, will be in general charge. A new professional skipper has not been selected.

Commodore Vanderbilt is a member of the Resolute syndicate, but will retire from all interest in that yacht. The other members of the syndicate are former Vice Commodore Henry Walters, Chairman; Commodore George F. Baker, jr., Treasurer; former Commodore Frederick G. Bourne, former Commodore Arthur Curtiss James and Vice Commodore J. P. Morgan.

The boats will race under the same measurements as last year and will have no new sails. No changes will be made in them. This has been agreed upon.

In the Interest of Sport.

Commodore Vanderbilt was asked yesterday at the New York Yacht Club about his plans.

"At the suggestion of Mr. Cochrane," he said, "I am going to race the Vanitie against Resolute in the interest of the sport. Christensen was under a retainer to me when he went on Resolute, and I will have him on Vanitie. Of course, I will not retain my interests in Resolute, although I have not decided to whom I will turn it over. The whole matter has been arranged most satisfactorily to all concerned and we are looking forward to a splendid lot of races."

Vanitie is at City Island, Resolute is at Bristol, R. I. Work of getting both yachts ready for commission will be begun at once.

Stopping the trials last fall left the America's Cup Committee in a quandary. Resolute, by consistent performances, seemed to have the call, but Vanitie at times sped past her.

In only three races did they have a breeze in which merits could be judged fairly. In these Vanitie sailed 47 miles to windward 2 minutes and 20 seconds faster than Resolute, and ran 29 miles 10 seconds faster. Their only real reaching test was of 6 1-2 miles, which Resolute led by 18 seconds. Therefore, in reaching and running Vanitie beat Resolute, but not enough to save the time allowance of 1 minute and 46 seconds she must give in thirty miles.

Shamrock IV. is lying high and dry in South Brooklyn, waiting for the war to end.
